Re: Parcel ID # 28-28-01-934670-000001 & 28-28-01-934670-000002 Request # 6763 & 6764

Dear John Adams,

Toho Water Authority (Toho) has reviewed your request for a water, reuse and sewer service availability determination and the Parcel ID referenced is within the Toho service area. Toho staff has determined that Toho has potable water, reuse and sewer capacity with existing facilities and expansions as part of planned improvements contained in its Capital Improvement Plan to serve the referenced project. As noted in the attached document, extension and/or upsizing of infrastructure at the Owner's expense may also be required to serve the property. The owner/ developer has not yet reserved capacity. However, subject to a fully executed Development Service Agreement (DSA), approved construction plans, and Florida Department of Environmental Protection permits, the Executive Director or his designee will ensure public facility capacity is reserved for the development in the amounts stated in the System Development Charge (SDC) Assessment letter and subject to the terms of the DSA, including any conditions associated with planned capital improvements serving the property and payment of SDCs.

The current locations of water, reuse and sewer mains are approximately:

- Water main installed.
- Water service line needs to be installed. Service line must be installed on property line.
- This water service will require a bore and tap.
- 16" Water main approx. 30' west of property.
- Force main installed
- Force main connection required
- Force main service line needs to be installed.
- Requires owner to install pump for connection to the force main.
- 16" Force main approx. 5' west of property.
- Reuse main installed
- Reuse service line needs to be installed.
- 24" Reuse main approx. 30' west of property.
- Fire hydrants approx. 25' west of property.

Please note this letter of availability is only valid for one year from the date of this letter. Should the project not have received Toho Water Authority approval and reserved capacity by 09/27/2024, they must request a new Letter of Availability from Toho.

Toho Water Authority looks forward to working you on this project. If you have any questions, please do not hesitate to contact us. More specific line location information is enclosed.

Sincerely, Assets and Infrastructure Toho Water Authority
