

POLK COUNTY DEVELOPMENT REVIEW COMMITTEE STAFF REPORT

DRC Date:	May 15, 2025
Planning Commission Date:	July 9, 2025
BoCC Dates:	August 19, 2025
Applicant:	Polk County
Level of Review:	Level 4 Review, Sub-district Change
Case Number and Name:	LDCD-2025-2 (Lake Daisy Sub-district)
Request:	Future Land Use Map sub-district change from Residential Low-1 (RL-1) to Residential Low-4 (RL-4). The case is related to LDCPAS-2025-8, a request to change the Future Land Use Map from Recreation Open Space (ROS) to Residential-Low (RL).
Location:	South of Lake Daisy, North of Lake Daisy Dr, West of Lake Daisy Loop, southwest of the city of Winter Haven in Section 6, Township 29, Range 27.
Property Owner:	Parcel (272906-000000-031030) Lots 18-25 of Lake Daisy Estates Phase 1 Lots 9-16 of Lake Daisy Estates Phase 3 Lots 24-29 of Lake Daisywood
Parcel Size:	Multiple parcels (+/- 3.9 acres)
Development Area:	Transit Supportive Development Area (TSDA)
Future Land Use:	Recreation Open Space (ROS)
Nearest Municipality	City of Winter Haven
DRC Recommendation:	Approval
Planning Commission Vote:	Pending Hearing
Case Planner:	Aleya Inglima, Planner II

Location Map

Proposed Land Use District Map

Summary:

This is a County initiated sub-district change from Residential Low-1 (RL-1) to Residential Low-4 (RL-4). The case is related to LDCPAS-2025-8, a request to change the Future Land Use Map from Recreation Open Space (ROS) to Residential-Low (RL). The subject site is located South of Lake Daisy, North of Lake Daisy Dr, West of Lake Daisy Loop, southwest of the city of Winter Haven in Section 6, Township 29, Range 27.

In 1985, the Zoning Advisory Board voted 5-0 to approve a request designating land within the 100-year floodplain along the lake as Preservation Area (PA) and the remainder of the parcel outside the floodplain as Single Family (SR-4). However, when the Land Development Code and Comprehensive Plan were adopted, the properties were re-designated Recreation Open Space (ROS) and Residential Low (RL-4), respectively. With advancements in technology, FEMA floodplain data now accurately identifies flood-prone areas, eliminating the need for a special designation. Since then, Lake Daisy has been fully developed with single-family homes. The ROS designation on the properties may be restrictive. For instance, if homeowners wish to add an accessory structure—such as a carport, shed, or detached garage—the ROS designation could create complications with permitting and setbacks. Correcting this will ensure consistency between the Future Land Use Map and the existing residential uses as well as reduce restrictions on these properties.

Staff has reviewed the request and find it IS consistent with the Comprehensive Plan policies and IS compatible with the surrounding land uses and infrastructure.

Compatibility Summary

The existing uses surrounding the site are Residential Low-4 (RL-4) to the south. Recreation Open Space (ROS) to the west and east developed with single family homes. The LDC land use district is ROS for the subject site.

The purpose of TSDA is to serve as a foundation from which a future urban pattern is established, and to provide areas for development at urban densities and intensities. TSDAs are where there exists the availability of infrastructure and other community facilities and services, including, but not limited to mass transit and other transportation alternatives, utilities, public safety, recreational and educational services. The TSDA also promotes and supports the location of higher density and intensity that requires compact and mixed-use development.

Staff is requesting the land use change along Lake Daisy to reflect the use on the land use map. Wetlands and Flood Zone AE are located on the subject site. To the west, south, east are single family homes, and north is Lake Daisy. This is an appropriate and compatible use in all urban and suburban areas in the County.

Infrastructure Summary

The proposed CPA is not anticipated to degrade the Level-of-Service (LOS) standards for transportation, schools, utilities, and public safety facilities. The subject site will utilize the same public safety facilities as the existing FLU designation. School service will not be impacted.

Environmental Summary

The proposed request is not anticipated to have a negative impact upon the environmental features present on the subject site. These properties are already developed with single family homes and will not be further impacted. There are wetlands and flood zone AE on site. The closest wetlands are within the subject site. There have not been sightings of protected species near the subject site. There are no historical or archaeological sites that have been identified on the subject site.

Comprehensive Plan

The relevant sections of the Comprehensive Plan that are applicable to the project request:

POLICY 2.102 (A1-A15): Growth Management Policies

POLICY 2. 2.120 (C1-C4): Residential Low

POLICY 2. 124 (A1-A5): Transit Supportive Development Area

Findings of Fact

Request and Legal Status

- LDCD-2025-2 is a County-initiated request for a Level 4 Subdistrict change to designate approximately 3.9 +/- acres from Residential-Low-1 (RL-1) to Residential-Low-4 (RL-4).
- The Land Development Code Future Land Use district is Recreation Open Space (ROS) for the subject site.
- The case is related to LDCPAS-2025-8, a request to change the Future Land Use Map from Recreation Open Space (ROS) to Residential-Low (RL)
- In 1985, the Zoning Advisory Board voted 5-0 to approve a request designating land within the 100-year floodplain along the lake as Preservation Area (PA) and the remainder of the parcel outside the floodplain as Single Family (SR-4). However, when the Land Development Code and Comprehensive Plan were adopted, the properties were re-designated Recreation Open Space (ROS) and Residential Low (RL-4), respectively.
- The properties are owned by multiple homeowners along Lake Daisy.
- Section 204.C of the LDC states, the purpose of the RL-4 district is to provide areas for the low-density residential needs of residents in urban areas who desire areas with smaller lots, a minimum of 6,000 square feet.

Compatibility

- The subject site includes 18 lots within residential development.

- The existing uses surrounding the site are Residential Low-4 (RL-4) to the south. Recreation Open Space (ROS) to the west and east developed with single family homes. The LDC land use district is ROS for the subject site.
- North of the subject site is Lake Daisy. West, east, and south are single family homes.
- The subject sites access Struthers Road which is an Urban Collector Road.

Infrastructure

- The zoned schools for the site are Garden Grove Elementary, Denison Middle, Winter Haven Senior High.
- Fire and Ambulance responses are from Polk County Fire Rescue Station 18, located at 2101 Register Road, Winter Haven, which is approximately 2.7 miles away with an estimated 6-minute response.
- The subject site is within the Southeast District Command Area for the Sheriff's office which is located at 4011 Sgt. Mary Campbell Way.
- The subject site is within the Winter Haven service area for water and wastewater.
- Struthers Road, which runs east to west, is an Urban Collector roadway with 20 feet of pavement width.
- The subject site is not within a Citrus Connection service area.

Environmental

- The elevation on the property starts on the south at 136 feet and slopes towards Lake Daisy north to 128 feet.
- There are wetlands and flood zone AE on the subject site.
- The soil type for the subject site is Sparr sand (65.8%) and Pomona sands (34.2%).
- Per the Polk County Protected Species Map there are no protected species with a one-mile radius of the subject site.
- There are no known archeological or historical resources on the subject site per data from the Florida State Historical Commission.
- There are no wellfields near the subject site.

Comprehensive Plan Policies

- POLICY 2.102-A1 Development Location states that Polk County shall promote contiguous and compact growth patterns through the development process to minimize energy costs, conserve land, water, and natural resources, minimize the cost of services, and prevent

development patterns where tracts of land are by-passed in favor of development more distant from services and existing communities.

- POLICY 2.102-A2 Compatibility states that land shall be developed so that adjacent uses are compatible with each other, pursuant to the requirements of other Policies in this Future Land Use Element, so that one or more of the following provisions are accomplished: a. there have been provisions made which buffer incompatible uses from dissimilar uses; b. incompatible uses are made to be more compatible to each other through limiting the intensity and scale of the more intense use; c. uses are transitioned through a gradual scaling of different land use activities through the use of innovative development techniques such as a Planned Unit Development.
- POLICY 2.102-A3 Distribution states that development shall be distributed throughout the County consistently with this Future Land Use Element so that the public utility, other community services, and public transit and transportation systems can be efficiently utilized; and compact, high-density and intensity development is located where urban services can be made available.
- POLICY 2.102-A4 Timing states that development of land shall be timed and staged in conjunction with the cost-effective and efficient provision of supporting community services which, at a minimum, shall require compliance with the Plan's Level of Service requirements and the County's concurrency management system.
- POLICY 2.102-A10 Location Criteria states the following factors shall be taken into consideration when determining the appropriateness of establishing or expanding any land use or development area:
 - a. nearness to incompatible land uses and future land uses, unless adequate buffering is provided.
 - b. nearness to agriculture-production areas;
 - c. distance from populated areas;
 - d. economic issues, such as minimum population support and market-area radius (where applicable);
 - e. adequacy of support facilities or adequacy of proposed facilities to be provided by the time of development, including, but are not limited to:
 - 1. transportation facilities, including but not limited to, mass transit, sidewalks, trails and bikeways;
 - 2. sanitary sewer and potable water service;

3. storm-water management;
 4. solid waste collection and disposal;
 5. fire protection with adequate response times, properly trained personnel, and proper fire-fighting equipment;
 6. emergency medical service (EMS) provisions; and
 7. other public safety features such as law enforcement;
 8. schools and other educational facilities
 9. parks, open spaces, civic areas and other community facilities
- f. environmental factors, including, but not limited to:
1. environmental sensitivity of the property and adjacent property;
 2. surface water features, including drainage patterns, basin characteristics, and flood hazards;
 3. wetlands and primary aquifer recharge areas;
 4. soil characteristics;
 5. location of potable water supplies, private wells, public well fields; and
 6. climatic conditions, including prevailing winds, when applicable.
- **POLICY 2.104-A1: DESCRIPTION** -Transit Supportive Development Areas shall meet the following criteria:
 - a. be those areas where the availability of infrastructure and other community facilities and services, including, but not limited to mass transit and other transportation alternatives, utilities, public safety, recreational and educational services, promotes and supports the location of higher density and intensity compact, mixed use development;
 - b. be supported by existing or planned urban type services that are programmed or expected for the 10-year planning horizon;
 - c. be designated as part of a coordinated land use and transportation strategy that supports the provision of improved and expanded transit services, as identified in the Transportation

Planning Organization (TPO) 2060 Transportation Vision Plan and the connecting circulator routes, in order to increase mobility and travel options;

d. include development criteria that:

1. promote the development of walkable communities which include a balance between employment opportunities, mix of complementary uses and activities, and a range of housing opportunities;
 2. improve access to employment areas, schools, shopping and recreational opportunities;
- **POLICY 2.104-A3: LAND USE CATEGORIES** - The following land use categories shall be permitted within TSDAs, in accordance with applicable criteria
 - a. **ACTIVITY CENTERS:** Regional Activity Centers, Community Activity Centers, Neighborhood Activity Centers, Convenience Centers, Tourism Commercial Centers, Employment Centers and High-Impact Commercial Centers.
 - b. **RESIDENTIAL:** Residential-High, Residential-Medium, and Residential-Low Districts.
 - c. **OTHER:** Linear Commercial Corridors, Commercial Enclaves, Industrial, Business-Park Centers, Office Centers, Leisure Recreation, Mixed Use, Institutional, Professional Institutional, Recreation and Open Space, Preservation.
 - **POLICY 2.117-A1: CHARACTERISTICS** - Recreation and open space areas are primarily sites and facilities which are accessible to the general public, and which are oriented toward providing recreation services for the resident and the short and long-term visitor to Polk County. A recreational activity included within recreation and open space areas may be motorized, allow for the discharge of firearms, accommodate nighttime use, and produce large crowds at events. Retail sales are limited to concessions at events or to enhance the quality of the recreation experience onsite unless combined with commercially designated lands.
 - **POLICY 2.117-A3: LOCATION CRITERIA** - Designation of new Recreation and Open Space areas on the Future Land Use Map Series shall occur. Consider the following factors when determining the appropriateness of designating new Recreation and Open Space areas:
 - a. facilities meeting the recreation level-of-service standard (Policy 3.502-E2) and fulfilling the recreation and open space acquisition plan (Policies 3.502-E3, 3.502-E6, and 3.502-E9);
 - b. satisfying resident and seasonal visitor/tourist recreation demand;
 - c. impacts of the proposed uses on public facilities and services;
 - d. vehicle access relative to the size and planned intensity of a proposed ROS district;
 - e. distance to lake and river access, greenways, bicycle, pedestrian, and fixed route transit facilities, both existing and planned; and,

- f. the locational criteria enumerated in Policy 2.102-A9 and Policy 2.102-A10.
- POLICY 2.120-C1: CHARACTERISTICS - Densities up to, and including, 5.00 DU/AC. The Residential-Low classification is characterized by single-family dwelling units, duplex units, and small-scale multi-family units.
- POLICY 2.120-C2: DESIGNATION AND MAPPING - Residential-Low districts shall be located within TSDAs, UGAs, and UEAs as designated on the Future Land Use Map Series as "RL."
- POLICY 2.120-C3: LOCATION CRITERIA - Residential-Low areas shall be located only within the TSDAs, UGAs, SDAs, and UEAs and new Residential-Low development shall not be located within Activity Centers. The placement of Residential-Low shall be evaluated based on the general criteria listed in Policy 2.119-A2.
- POLICY 2.120-C4: DEVELOPMENT CRITERIA - Residential development may contain a variety of housing types as defined by the Land Development Code within the TSDA. Outside the TSDA, RL may contain single-family dwelling units, duplex units, small-scale multi-family units, and family-care homes, and shall be permitted, with County approval, at a density of up to, and including, 5 DU/AC. Additionally, community facilities may be allowed in accordance with policies of this Plan.

Development Review Committee Recommendation: Based on the information provided by the applicant, recent site visits, and the analysis conducted within this staff report, the Development Review Committee (DRC) finds that the request for Residential Low-4 (RL-4) **IS compatible** with the surrounding land uses and general character of the area and **IS consistent** with the Polk County Comprehensive Plan and Land Development Code. Therefore, the DRC recommends **APPROVAL** of the RL-4 sub district for **LDCD-2025-2**.

GENERAL NOTES

NOTE: This staff report was prepared without the benefit of testimony and evidence submitted by the public and other parties at a public hearing.

NOTE: All written comments made in the application and subsequent submissions of information made during the application review process, which are on file with the Land Development Division, shall be considered to be binding upon the applicant, provided such comments are not at variance with the Comprehensive Plan, LDC or other development regulations in effect at the time of development.

NOTE: Issuance of a development permit by the county does not in any way create any rights on the part of the applicant to obtain a permit from a state or federal agency and does not create any liability on the part of the county for issuance of the permit if the applicant fails to obtain requisite

approvals or fulfill the obligations imposed by a state or federal agency or undertakes actions that result in a violation of state or federal law.

Compatibility with the Surrounding Uses

According to *Policy 2.102-A2* of Polk County's Comprehensive Plan, "land shall be developed so that adjacent uses are compatible with each other, pursuant to the requirements of other policies in this Future Land Use Element, so that one or more of the following provisions are accomplished: a. there have been provisions made which buffer incompatible uses from dissimilar uses; b. incompatible uses are made to be more compatible to each other through limiting the intensity and scale of the more intense use; and c. uses are transitioned through a gradual scaling of different land use activities through the use of innovative development techniques such as a Planned Unit Development." The "development criteria" and the "density and dimensional regulations" of a land use district are often the measuring tools used by staff to determine compatibility and the appropriateness of locating differentiating uses. Compatibility is defined in the Comprehensive Plan as "a condition in which land uses or conditions can coexist in relative proximity to each other in a stable fashion over time such that no use or condition is unduly negatively impacted directly or indirectly by another use or condition."

A. Land Uses

This site is located in a Recreation and Open Space use. These are primarily sites and facilities which are accessible to the general public, and which are oriented toward providing recreation services for the residents and the short and long-term visitors to Polk County.

Changing the land to a Residential-Low district makes sense and allows consistency for the community as Residential-Low classification is characterized by single-family dwelling units, duplex units, and small-scale multi-family units.

B. Infrastructure:

According to Comprehensive Plan POLICY 2.102-A1: DEVELOPMENT LOCATION, "Polk County shall promote contiguous and compact growth patterns through the development process to minimize energy costs, conserve land, water, and natural resources, minimize the cost of services, and prevent development patterns where tracts of land are by-passed in favor of development more distant from services and existing communities."

The subject properties are located in the Transit Supportive Development Area (TSDA) where the availability of infrastructure and other community facilities and services, including, but not limited to mass transit and other transportation alternatives, utilities, public safety, recreational and educational services. The TSDA also promotes and supports the location of higher density and intensity that requires compact and mixed-use development.

The following table provides a reference point for notable and pertinent Future Land Use Map districts and existing land uses.

Table 1

Northwest – Lake Daisy	North – Lake Daisy	Northeast – Lake Daisy
West – Single family homes (ROS)	Subject Site – Single family homes (ROS)	East – Single family homes (ROS)
Southwest – Single family homes Residential Suburban (RL-4)	South – Single family homes Residential Suburban (RL-4)	Southeast – Single family homes Residential Suburban (RL-4)

Nearest and Zoned Elementary, Middle, and High School

The schools zoned for the subject property site are listed in Table 2 below. The proposed request will not generate students. Student capacity is not an issue as schools will not be impacted.

Table 2 School Impacts

Name of School	% Capacity 2024-2025 School Year	Average driving distance from subject site
Garden Grove Elementary (Zoned)	80%	±0.8 mile driving distance
Denison Middle (Zoned)	56%	±6.3 miles driving distance
Winter Haven Senior High (Zoned)	102%	±5.7 miles driving distance

Source: Polk County School Board website

Nearest Sheriff, Fire, and EMS Station

Table 3 below displays the nearest public safety facilities. Response time varies depending on where the nearest sheriff's deputy patrol car is located rather than the office. The facilities are within appropriate distances to the subject site for an urban area.

Table 3 Public Safety Information

	Name of Station	Distance/Response
Sheriff	Polk County Sheriff's Office Southeast District 4011 Sgt. Mary Campbell Way, Lake Wales.	5.9 +/- miles Priority 1 – 11:09 Priority 2 – 32:20
Fire/EMS	Fire Rescue Station 18 2101 Register Road, Winter Haven Estimated response time: 6 minutes	2.7 +/- miles

Source: Polk County Sheriff's Office and Polk County Fire Rescue.

Water and Wastewater

The subject site is located within the Winter Haven service area for water and wastewater.

A. Estimated Demand and Service Provider

The properties are owned by multiple owners. This neighborhood is built out and will not need additional water wastewater services based upon the current and proposed Future Land Use designation.

Table 4 Estimated Water and Sewer Impact Analysis

Permitted Intensity	Maximum Permitted in Existing Land Use ROS	Maximum Allowable in Proposed RL-4
3.9 +/-acres 169,884 sq ft	3.9 +/- acres = 169,884 sq ft X 0.24 FAR = 40,772 sq ft	3.9+/- acres X 4 du/ ac = 16 du
Potable Water Consumption	40,772 sq ft X .24 /sf = 9,785 GPD	16 du X 360 GPD = 5,760 GPD
Wastewater Generation	9,785 GPD X 80% = 7, 828 GPD	16 du X 270 GPD = 4,320 GPD

Source: Polk County Maximum Feasible Buildout Methodology; Single family residential 360 GPD for water and 270 GPD for wastewater; Dance Hall 0.24 FAR and 523 GPD for Water and 80% Wastewater

The subject site is in the TSDA which can generate up to 27 units to the acres. However, this is not anticipated since the subject site is made up of developed residential lots.

B. Available Capacity:

Winter Haven Utilities service water and wastewater to the area.

C. Planned Improvements:

No information is known currently for any planned improvements in this area.

Roadways/Transportation Network

The proposed land use change is not anticipated to generate more traffic.

A. Estimated Demand

The subject site has a total area of 3.9± acres. The site is not generating many trips.

Table 5 Estimated Transportation Impact Analysis

Permitted Intensity	Maximum Permitted in Existing Land Use ROS	Maximum Allowable in Proposed RL-4
3.9 +/-acres	3.9 +/- acres = 169,884 sq ft X 0.05 FAR = 8,494 sq ft	3.9 +/- acres X 4 du/ac = 16 du

Average Annual	8,494 sq ft / 1,000 sf = 8 du X 47.62 AADT = 380 Trips (100% New Trips)	16 du X 7.81 AADT = 125 Trips (100% New Trips)
PM Peak	8 du X 11.12PM Peak (100% New Trips) = 89 Trips	16 du X 1.00 PM Peak (100% New Trips) = 16 Trips

Source: Polk County Table 1 for Minor Traffic Study; Single-family detached; 7.81 AADT and 1.0 PM Peak Hour Daycare Center at 47.62 AADT and 11.12 PM Peak Hour

The subject site is in the TSDA which can generate up to 27 units to the acres. However, this is not anticipated since the subject site is made up of developed residential lots.

B. Available Capacity:

Table 6 charts the generalized available capacity on surrounding roadway network.

Table 6 Roadway Link Concurrency

Link #	Road Name	Current Level of Service (LOS)	Available Peak Hour Capacity	Minimum LOS Standard	5-Year Peak Hr. Projected LOS
6306E	SR 540 (CYPRESS GARDENS BLVD)	C	743	D	C
6306W	From: CR 550 (OVERLOOK DRIVE SE) To: CYPRESS GARDENS ROAD	C	792	D	C

Source: Polk County Transportation Planning Organization Roadway Network Database 2025

C. Roadway Conditions

Struthers Road which runs east to west, is an Urban Collector roadway.

D. Sidewalk Network

There are no sidewalks within these communities.

E. Mass Transit

The subject site is not in a Citrus Connection service area.

F. Planned Improvements

The subject site is located in the Transit Supportive Development Area. There are no planned improvements.

Park Facilities and Environmental Lands:

The Polk County Comprehensive Plan has a Conservation Element. Division 2.300 of the Comprehensive Plan mentions, “The goal, objectives, and policies of the Conservation Element are designed to protect the natural resources which make Polk County a special place while

preventing degradation of the environment and allowing development and economic expansion to occur.” There should be no serious environmental conditions that need to be addressed with this subject site.

A. Location:

Lake Region Audubon Society is located at 115 Lameraux Rd, Winter Haven, FL 33884.

B. Services:

Lake Region Audubon Society amenities include trails.

C. Multi-use Trails:

Multi-use trails can be found at the Lake Region Audubon Society.

Environmental Lands:

The Polk County Comprehensive Plan has a Conservation Element. Division 2.300 of the Comprehensive Plan mentions, “The goal, objectives, and policies of the Conservation Element are designed to protect the natural resources which make Polk County a special place while preventing degradation of the environment and allowing development and economic expansion to occur.” There should be no serious environmental conditions that need to be addressed with this subject site.

Environmental Conditions

Lake Daisy is located to the north of the subject properties. The elevation on the property starts on the south at 136 feet and slopes towards Lake Daisy north to 128 feet. The subject site does contain wetlands and AE flood zones.

A. Surface Water:

Lake Daisy is located to the north of the subject properties. The elevation on the property starts on the south at 136 feet and slopes towards Lake Daisy north to 128 feet.

B. Wetlands/Floodplains:

The subject site does contain wetlands and AE flood zones.

C. Soils:

According to the soil survey by the United States Department of Agriculture the subject site includes the soils listed in Table 7 below. Future development of the site will be subject to Section 2.303: “Soils” of the County’s Comprehensive Plan (in conjunction with the Land Development Code) which requires all development to implement Best Management Practices based on the Department of Environmental Protection’s (DEP) Florida Development Manual.

Table 7 Soils

Soil Name	Septic Tank Absorption Field Limitations	Limitations to Dwellings w/o Basements	% of Site (<i>approximate</i>)
Sparr sand	Severe: wetness	Moderate: wetness	65.8%
Pomona sand	Severe: wetness	Severe: wetness	34.2%

Source: USDA Natural Resources Conservation Service 2024

D. Protected Species

According to the Florida Natural Areas Inventory Biodiversity Matrix, the site is not located within an area of protected species. This site is not within the Polk Green.

E. Archeological Resources:

There are no known historical or archeological resources onsite according to the Secretary of State's Department of Historical Resources Florida Master Site File.

F. Wells (Public/Private)

The site is not within the Wellfield Protection District.

G. Airports:

This property is not within the Height Notification Zone of the Bartow Municipal Airport Impact District.

Economic Factors:

The subject site is in Recreation Open Space land use. This County initiated CPA will change the land use to Residential Low-4 (RL-4) for the site. RL-4 is a better land use for the site as it be consistent with the land use set for the neighborhoods.

Consistency with the Comprehensive Plan

Many policies within the Comprehensive Plan are reviewed for consistency with an application. The most relevant policies for the proposed request are included in this section. The policy is first stated and then an analysis of how the request is provided to state that it may or may not be consistent with the Comprehensive Plan. How the request is **consistent** with the Comprehensive Plan is listed below:

Table 9 Comprehensive Plan

Comprehensive Plan Policy	Consistency Analysis
POLICY 2.102-A2: COMPATIBILITY - Land shall be developed so that adjacent uses are compatible with each other, pursuant to the requirements of other Policies in this Future Land Use Element, so that one or more of the following provisions are accomplished: a. there have been provisions made which buffer incompatible uses from dissimilar uses;	No development is being proposed for this site. This district change will allow consistency with the surrounding neighborhood.

Comprehensive Plan Policy	Consistency Analysis
<p>b. incompatible uses are made to be more compatible to each other through limiting the intensity and scale of the more intense use;</p> <p>c. uses are transitioned through a gradual scaling of different land use activities through the use of innovative development techniques such as a Planned Unit Development.</p>	
<p>POLICY 2.102-A1: DEVELOPMENT LOCATION – Polk County shall promote contiguous and compact growth patterns through the development process to minimize energy costs, conserve land, water, and natural resources, minimize the cost of services, and prevent development patterns where tracts of land are by-passed in favor of development more distant from services and existing Communities.</p>	
<p>POLICY 2.102-A4: TIMING - The development of land shall be timed and staged in conjunction with the cost-effective and efficient provision of supporting community services which, at a minimum, shall require compliance with the Plan's Level of Service requirements and the County's concurrency management system.</p>	No development is being proposed for this site.
<p>POLICY 2.102-A10: LOCATION CRITERIA - The following factors shall be taken into consideration when determining the appropriateness of establishing or expanding any land use or development area:</p> <ul style="list-style-type: none"> a. nearness to incompatible land uses and future land uses, unless adequate buffering is provided, b. nearness to agriculture-production areas; c. distance from populated areas; d. economic issues, such as minimum population support and market-area radius (where applicable); e. adequacy of support facilities or adequacy of proposed facilities to be provided by the time of development, including, but are not limited to: <ul style="list-style-type: none"> 1. transportation facilities, including but not limited to, mass transit, sidewalks, trails and bikeways; 2. sanitary sewer and potable water service; 3. storm-water management; 4. solid waste collection and disposal; 5. fire protection with adequate response times, properly trained personnel, and proper fire-fighting equipment; 6. emergency medical service (EMS) provisions; and 7. other public safety features such as law enforcement; 8. schools and other educational facilities 9. parks, open spaces, civic areas and other community facilities, f. environmental factors, including, but not limited to: <ul style="list-style-type: none"> 1. environmental sensitivity of the property and adjacent property; 2. surface water features, including drainage patterns, basin characteristics, and flood hazards; 3. wetlands and primary aquifer recharge areas; 4. soil characteristics; 5. location of potable water supplies, private wells, public well fields; and 	

Comprehensive Plan Policy	Consistency Analysis
6. climatic conditions, including prevailing winds, when applicable.	
<p>POLICY 2.119-A2: LOCATION CRITERIA - Residential land use categories shall be established throughout the County with consideration being given to the following criteria:</p> <ul style="list-style-type: none"> a. Access to county-maintained roads or roads constructed to County standards. b. Proximity to Activity Centers. c. Adequacy of water and sewage disposal systems (public and private). d. Adequacy and response time for public safety services - fire, police, and emergency medical service. e. Adequacy of recreation facilities. f. Proximity of incompatible land uses. g. Development limitations, and, h. Urban Sprawl Criteria set forth in POLICY 2.102-A10. 	<p>The communities access Struthers Road, an Urban Collector Road. Winter Haven utilities serve the area, the roads are sufficient, emergency services are available. The subject site is not within the Citrus Connection service area.</p>
<p>POLICY 2.120-C3: LOCATION CRITERIA - Residential-Low areas shall be located only within the TSDAs, UGAs, SDAs, and UEAs and new Residential-Low development shall not be located within Activity Centers. The placement of Residential-Low shall be evaluated based on the general criteria listed in Policy 2.119-A2.</p>	<p>Residential Low-4 (RL-4) is allowed in the TSDA. These neighborhoods are developed out.</p>
<p>POLICY 2.104-A1: DESCRIPTION - Transit Supportive Development Areas shall meet the following criteria:</p> <ul style="list-style-type: none"> a.be those areas where the availability of infrastructure and other community facilities and services, including, but not limited to mass transit and other transportation alternatives, utilities, public safety, recreational and educational services, promotes and supports the location of higher density and intensity compact, mixed use development; b.be supported by existing or planned urban type services that are programmed or expected for the 10-year planning horizon; c.be designated as part of a coordinated land use and transportation strategy that supports the provision of improved and expanded transit services, as identified in the Transportation Planning Organization (TPO) 2060 Transportation Vision Plan and the connecting circulator routes, in order to increase mobility and travel options; d. include development criteria that: <ul style="list-style-type: none"> 1.promote the development of walkable communities which include a balance between employment opportunities, mix of complementary uses and activities, and a range of housing opportunities; 	<p>Multiple owners own the properties along Lake Daisy. The sites have single family homes. This site is in TSDA. No development is being proposed</p>

Comprehensive Plan Policy	Consistency Analysis
<p>2.improve access to employment areas, schools, shopping and recreational opportunities;</p> <p>POLICY 2.104-A2: DESIGNATION AND MAPPING - The Future Land Use Map Series shall designate and map TSDAs for those areas of the County meeting the general characteristics of this Section 2.104.</p> <p>POLICY 2.104-A3: LAND USE CATEGORIES - The following land use categories shall be permitted within TSDAs, in accordance with applicable criteria</p> <p>a. ACTIVITY CENTERS: Regional Activity Centers, Community Activity Centers, Neighborhood Activity Centers, Convenience Centers, Tourism Commercial Centers, Employment Centers and High-Impact Commercial Centers.</p> <p>b. RESIDENTIAL: Residential-High, Residential-Medium, and Residential-Low Districts.</p> <p>c. OTHER: Linear Commercial Corridors, Commercial Enclaves, Industrial, Business-Park Centers, Office Centers, Leisure Recreation, Mixed Use, Institutional, Professional Institutional, Recreation and Open Space, Preservation.</p> <p>POLICY 2.104-A4: OVERLAY DISTRICTS - All overlay Districts shall be permitted within TSDAs and UGAs in accordance with applicable criteria.</p> <p>POLICY 2.104-A5: DEVELOPMENT CRITERIA - Development within the Transit Supportive Development Areas shall conform to the following criteria as further specified by the Land Development Code:</p> <p>a. provide access to transit facilities;</p> <p>b. connect to centralized potable water and sanitary sewer systems;</p> <p>c. incorporate design features that promote healthy communities and green building practices, as established in Section 2.1251, Community Design, of this element;</p> <p>d. implement "Complete Street" and "Conservation Development" principles as established under Section 2.1251, Community Design, of this element;</p> <p>e. integrate pedestrian-oriented features, including sidewalks, trails or walkways into every development including appropriate pedestrian shelters or awnings;</p> <p>f. provide access to civic space, parks, green areas, and open space and other amenities;</p> <p>g. be supported by public safety (i.e., fire, EMS and law enforcement);</p> <p>h. have access to public schools;</p> <p>i. provide connectivity with adjacent uses within the TSDA, and facilitate connectivity between the TSDA and other urban centers and the rural development areas.</p>	

Comprehensive Plan Policy	Consistency Analysis
j. encourage the inclusion of a variety of housing choices, other than single family detached homes, townhomes, condominiums, and residential units in mixed use buildings by establishing minimum densities that preclude the exclusive use of single family detached units within designated areas as established in Policy 2.104-A7..	

Urban Sprawl Analysis

After analyzing the primary indicators of Urban Sprawl per *Policy 2.109-A10* of the Polk County Comprehensive Plan, it is apparent that the proposed request is not considered urban sprawl based on these criteria and it is permitted in the designated area. Table 9 (below) depicts the Urban Sprawl Criteria used by staff as indicators of Urban Sprawl.

Table 9 Urban Sprawl Criteria

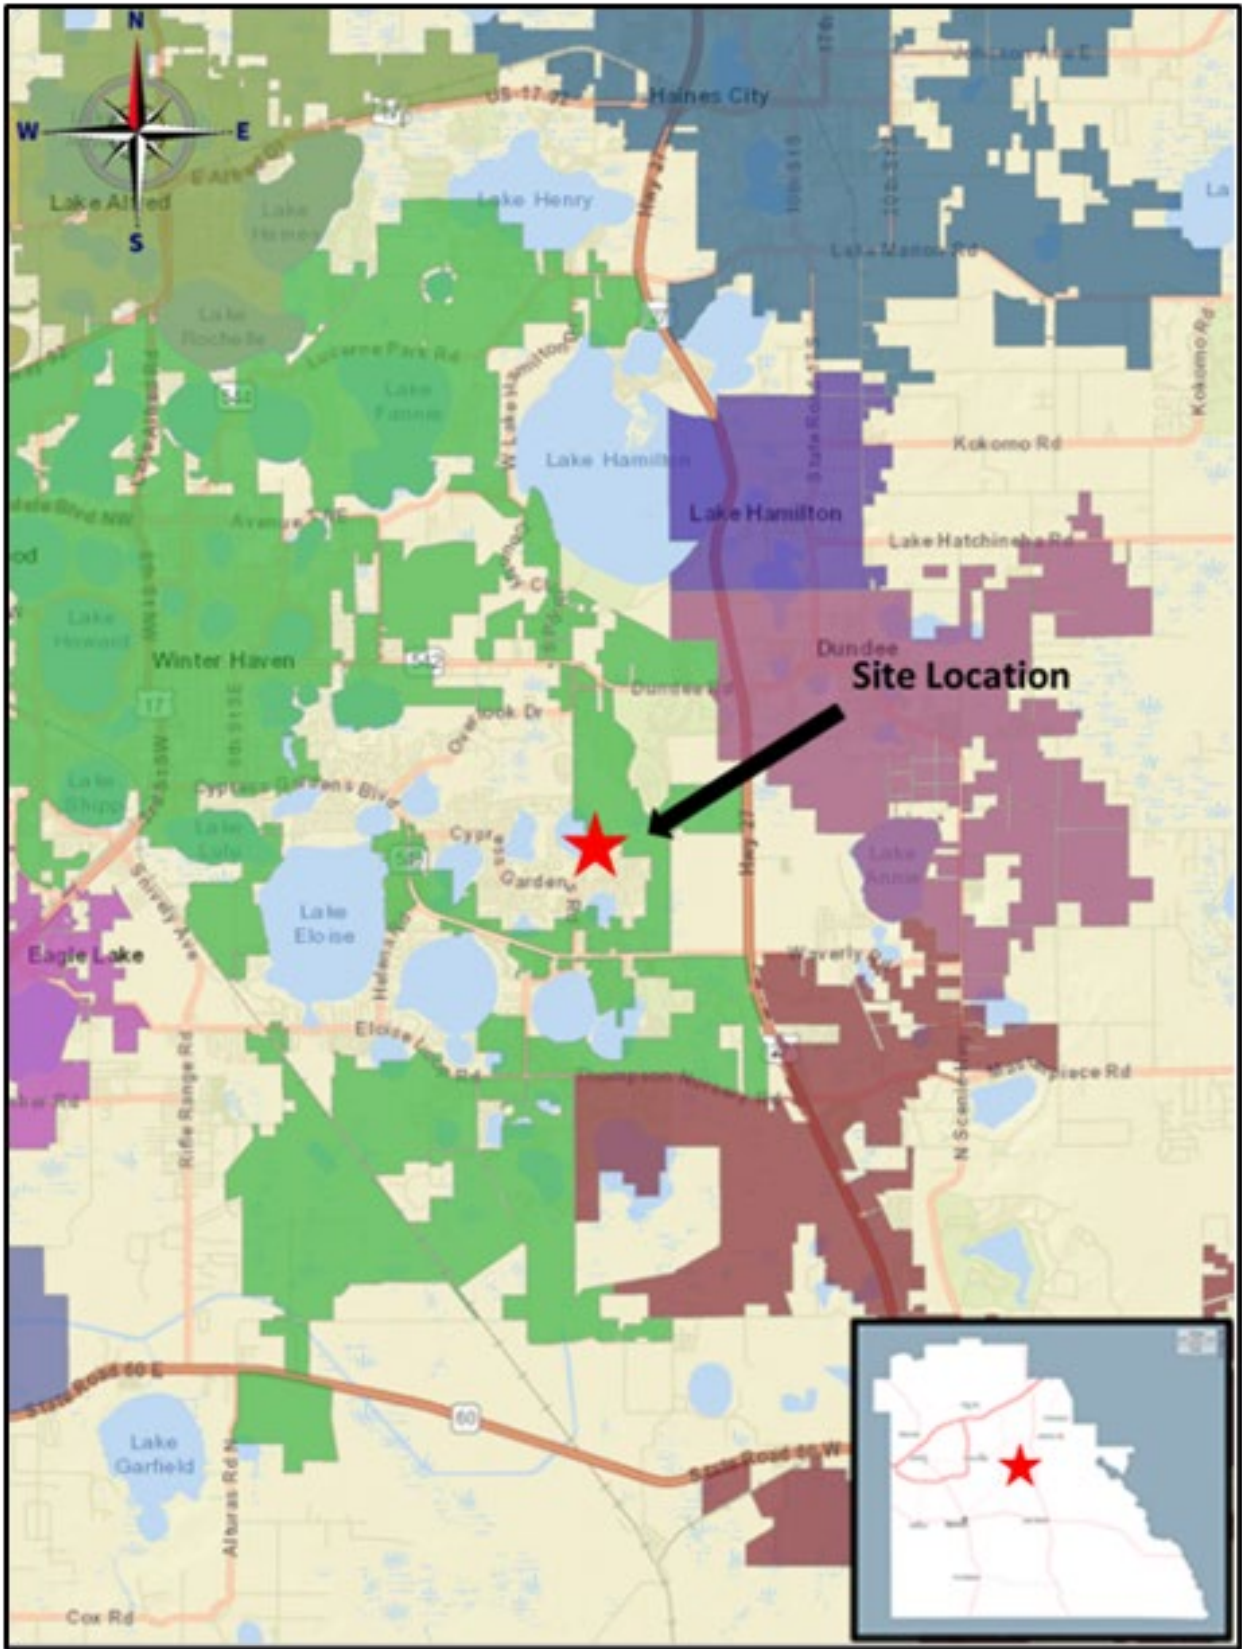

Urban Sprawl Criteria: The following criteria are the primary indicators of urban sprawl per Florida Statutes	
Urban Sprawl Criteria	Sections where referenced in this report
a. <i>Promotes substantial amounts of low-density, low-intensity, or single use development in excess of demonstrated need.</i>	Summary of analysis
b. <i>Allows a significant amount of urban development to occur in rural areas.</i>	Summary of analysis
c. <i>Designates an urban development in radial, strip isolated, or ribbon patterns emanating from existing urban developments.</i>	Summary of analysis, surrounding Development, compatibility
d. <i>Fails to adequately protect and conserve natural resources and other significant natural systems.</i>	Summary of analysis, surrounding Development, compatibility
e. <i>Fails to adequately protect adjacent agricultural areas.</i>	Compatibility with Surrounding Land Uses
f. <i>Fails to maximize existing public facilities and services.</i>	Summary of Analysis, Infrastructure
g. <i>Fails to minimize the need for future facilities and services.</i>	Summary of Analysis, Infrastructure
h. <i>Allows development patterns that will disproportionately increase the cost of providing public facilities and services.</i>	Summary of Analysis, Infrastructure
i. <i>Fails to provide a clear separation between urban and rural uses.</i>	Summary of Analysis, Compatibility with Surrounding Land Uses
j. <i>Discourages infill development or redevelopment of existing neighborhoods.</i>	Summary of Analysis, Compatibility with Surrounding Land Uses
k. <i>Fails to encourage an attractive and functional mixture of land uses.</i>	Summary of Analysis, Compatibility with Surrounding Land Uses
l. <i>Will result in poor accessibility among linked or related land uses.</i>	Summary of Analysis, Compatibility with Surrounding Land Uses
m. <i>Results in the loss of a significant amount of open space.</i>	Summary of Analysis, Compatibility with Surrounding Land Uses
