#1

# Petition to oppose the construction of a Construction Aggregate and storage facility with entrance on Mine and Mill Road, Lakeland.

We the people of Crystal Lake Acres Estates and surrounding neighborhoods oppose the building of the construction aggregate and storage facility.

The following are some of the concerns arising from the construction of this facility;

1. The level of noise produced by this operation will be very high and occur all hours during the week.
2. The School ~~Oscar~~ Pope Elementary is located very close to the location.
3. The air quality conditions of all the nearby residential areas will be affected which could lead to other health concerns.
4. The wetlands located on the same property will be affected by run off water used to keep dust down.
5. The traffic that uses Combee Rd. is already very heavy and adding 400 loads per day will add to the congestion already present.

All signatures provided agree to the opposition of the above mentioned.

#2

# Petition to oppose the construction of a Construction Aggregate and storage facility on Mine and Mill Road, Lakeland.

We the people of Crystal Lake Acres Estates and surrounding neighborhoods oppose the building of the construction aggregate and storage facility.

The following are some of the concerns arising from the construction of this facility;

1. The level of noise produced by this operation will be very high and occur all hours during the week.
2. The School ~~Open~~ J Pope Elementary is located very close to the location.
3. The air quality conditions of all the nearby residential areas will be affected which could lead to other health concerns.
4. The wetlands located on the same property will be affected by run off water used to keep dust down.
5. The traffic that uses Combee Rd. is already very heavy and adding 400 loads per day will add to the congestion already present.

All signatures provide agree to the opposition of the above mentioned

Bartow, FL. 33831-9005

**Petition to Oppose LDCT-2023-15**

**32 signatures**

We, the undersigned, strongly object to the request of Case #: LDCT-2023-15.

We do NOT agree with an LDC text amendment to the Land Development code to add additional defined area to the boundaries depicted for Construction Aggregate Processing and Storage Area.

Why was this not done with the original conditional Comprehensive plan back in 2016?

Why should the owners be able to request this change because they decided to sell that portion of the parcel, therefore making it necessary to change the legal description.

This change will result in the Construction Aggregate Facility being somewhat closer to our 55+ community, Skyview Estates Inc.

We already have concerns with this Facility, including, but not limited to:

- negative effects to our air quality
- increased cement dust pollution
- increased dust pollution from the trucks
- increased noise pollution from the facility itself and the trucks
- increased emissions in our air from all the machinery and trucks
- the negative effect on our property value
- more truck traffic on Combee Rd
- the question of whether the County has enough resources to assure that all the codes are monitored and enforced.

This proposed Facility will affect our quality of lives, the peacefulness, the cleanliness the environment we love, as well our property values.

This proposed Facility will literally be in our back yard, with the proposed text amendment bringing it closer.

Would you want this Facility in your back yard?

All signatures on the attached pages agree to the opposition of the above mentioned case.

Jan 1, 2024

**Petition to Oppose LDCT-2023-15 and LDCU-2023-19**

**We, the undersigned, strongly object to both Case #: LDCT-2023-15 and LDCU-2023-19**

**We oppose the LDC text amendment to the Land Development code to add additional defined area to the boundaries depicted for Construction Aggregate Processing and Storage Area.**

**This change will result in the Construction Aggregate Facility being closer to our 55+ community, Skyview Estates Inc. We also oppose the conditional use of this Facility.**

**We have major concerns with this Facility, including, but not limited to:**

- increased cement dust - respiratory problems for high risk populations (old and young)
- increased dust pollution from the trucks
- increased noise pollution from cement slab crushing process in facility itself & truck noise
- increased emissions in our air from all the machinery and trucks
- environmental concerns for water required to control cement dust, the effect on existing wells & the runoff into our lake etc etc
- the negative effect on our property value
- more truck traffic on Combee Rd
- does County have enough resources to assure all the codes are monitored and enforced?
- huge negative impact the Oscar J Pope Elementary School, only 600-700 yards away!

**This proposed Facility will affect our health, our quality of life, the peacefulness, the cleanliness, the environment we love, as well our property values.**

**This proposed Facility will literally be in our back yard, with the proposed text amendment bringing it closer.**

**Would you want this Facility in your back yard or any of your family member's backyard?**

**All people signing the attached pages STRONGLY oppose the above mentioned cases.**

LDCU-2023-10  
LDCU-2023-1

Land Development Division  
Drawer GM03, P.O. Box 9005  
Bartow, FL. 33831-9005

Jan 1, 2024

Petition to Oppose LDCT-2023-15 and LDCU-2023-19

We, the undersigned, strongly object to both Case #: LDCT-2023-15 and LDCU-2023-19

We oppose the LDC text amendment to the Land Development code and the conditional use for the Construction Aggregate Processing and Storage Facility..

We are members of the Citrus Woods Property Owners Association living in Citrus Woods at 1610 Reynolds Rd #391, Lakeland 33801.

We have major concerns with the proposed facility, but not limited to:

- increased cement dust - 244 for high risk populations (old and young)
- increased dust pollution from the trucks
- increased noise pollution from cement slab crushing process in facility itself & truck noise
- increased emissions in our air from all the machinery and trucks
- environmental concerns for water required to control cement dust, the effect on existing wells & the runoff into our lake etc etc
- the negative effect on property value
- more truck traffic on Combee Rd
- does County have enough resources to assure all the codes are monitored and enforced?
- huge negative impact the Oscar J Pope Elementary School, only 600-700 yards away!

This proposed Facility will affect our health, our quality of life, the peacefulness, the cleanliness, the environment we love, as well our property values.

This proposed Facility will literally be in some residents back yard.

Would you want this Facility in your back yard or any of your family member's backyard?

All people signing the attached pages STRONGLY oppose the above mentioned cases.

SCANNED
