14.2 The Firm shall designate or appoint one or more Firm representatives who are authorized to act on behalf of and to bind the Firm regarding all matters involving the conduct of its performance pursuant to this Agreement.

15.0 **All Prior Agreements Superseded**

This document incorporates and includes all prior negotiations, correspondence, conversations, agreements or understandings applicable to the matters contained herein and the parties agree that there are no commitments, agreements or understandings concerning the subject matter of this Agreement that are not contained in this document or its designated exhibits. Accordingly, it is agreed that no deviation from the terms hereof shall be predicated upon any prior representations or agreements, whether oral or written.

16.0 **Modifications, Amendments or Alterations**

No modification, amendment or alteration in the terms or conditions contained herein shall be effective unless agreed to and executed in writing by both parties to this Agreement in a form acceptable to the County.

17.0 **Independent Contractor**

Nothing stated in this Agreement is intended or should be construed in any manner as creating or establishing a relationship of co-partners between the parties, or as constituting the Firm (including its officers, employees, and agents) as the agent, representative, or employee of the County for any purpose, or in any manner, whatsoever. The Firm is to be and shall remain forever an independent Firm with respect to all Services performed under this Agreement. The Firm shall not pledge the County's credit or make the County a guarantor of payment or surety for any contract, debt, obligation, judgment, lien or any form of indebtedness and the Firm shall

have no right to speak for or bind the County in any manner.

18.0 **Public Records Law**

(a) The Firm acknowledges the County's obligations under Article I, Section 24, of the Florida Constitution and under Chapter 119, Florida Statutes, to release public records to members of the public upon request and comply in the handling of the materials created under this Agreement. The Firm further acknowledges that the constitutional and statutory provisions control over the terms of this Agreement. In association with its performance pursuant to this Agreement, the Firm shall not release or otherwise disclose the content of any documents or information that is specifically exempt from disclosure pursuant to all applicable laws.

(b) Without in any manner limiting the generality of the foregoing, to the extent applicable, the Firm acknowledges its obligations to comply with Section 119.0701, Florida Statutes, with regard to public records, and shall:

(1) keep and maintain public records required by the County to perform the services required under this Agreement;

(2) upon request from the County's Custodian of Public Records or his/her designee, provide the County with a copy of the requested records or allow the records to be inspected or copied within a reasonable time at a cost that does not exceed the cost provided in Chapter 119, Florida Statutes, or as otherwise provided by law;

(3) ensure that public records that are exempt or confidential and exempt from public records disclosure requirements are not disclosed except as authorized by law for the duration of the term of this Agreement and following completion of this Agreement if the Firm does not transfer the records to the County; and

(4) upon completion of this Agreement, transfer, at no cost, to the County all public records in possession of the Firm or keep and maintain public records required by the County to perform the service. If the Firm transfers all public records to the County upon completion of this Agreement, the Firms shall destroy any duplicate public records that are exempt or confidential and exempt from public records disclosure requirements. If the Firm keeps and maintains public records upon completion of this Agreement, the Firm shall meet all applicable requirements for retaining public records. All records stored electronically must be provided to the County, upon request from the County's Custodian of Public Records, in a format that is compatible with the information technology systems of the County.

(c) **IF THE FIRM HAS QUESTIONS REGARDING THE APPLICATION OF CHAPTER 119, FLORIDA STATUTES, TO THE FIRM'S DUTY TO PROVIDE PUBLIC RECORDS RELATING TO THIS AGREEMENT, CONTACT THE COUNTY'S CUSTODIAN OF PUBLIC RECORDS AT:**

RECORDS MANAGEMENT LIAISON OFFICER
POLK COUNTY
330 WEST CHURCH ST.
BARTOW, FL 33830
TELEPHONE: (863) 534-7527
EMAIL: RMLO@POLK-COUNTY.NET

19.0 **Compliance with Laws and Regulations**

In providing all Services pursuant to this Agreement, the Firm shall comply with applicable regulatory requirements including federal, state, special district, and local laws, rules regulations, orders, codes, criteria and standards, including those now in effect and hereafter adopted. Any violation of said statutes, ordinances, rules, or regulations shall constitute a material breach of this Agreement, and shall entitle the County to terminate this Agreement immediately upon delivery of written notice of termination to the Firm.

20.0 **Governing Law and Venue**

This Agreement shall be governed in all respects by the laws of the State of Florida and any litigation with respect thereto shall be brought only in the courts of Polk County, Florida or in the United States District Court, Middle District of Florida, located in Hillsborough County, Florida. Each party shall be responsible for its own attorneys' fees and other legal costs and expenses.

21.0 **Notices**

Whenever either party desires to give notice unto the other, it must be given by written notice, delivered (i) in person, (ii) via registered or certified United States mail, postage prepaid with return receipt requested, or (iii) via nationally recognized overnight delivery service, and addressed to the party for whom it is intended at the place last specified by each party. The place for giving of notice shall remain such until it is changed by written notice delivered in compliance with the provisions of this Section 21. For the present, the parties designate the following as the respective places for giving of notice, to wit:

For County:

Polk County Parks and Natural Resources Division
330 Ben Durrance
Drawer PW06
Bartow, Florida 33830
Attention: Tracy Mullins

For Firm:

Patel, Greene & Associates, LLC
12570 Telecom Drive
Temple Terrace, FL 33637
Attention: Lucas Cruse, Senior Planner

22.0 **Severability**

The invalidity, illegality, or unenforceability of any provision of this Agreement, or the

occurrence of any event rendering any portion or provision of this Agreement void, shall in no way affect the validity or enforceability of any other portion or provision of the Agreement; any void provision shall be deemed severed from the Agreement and the balance of the Agreement shall be construed and enforced as if the Agreement did not contain the particular portion or provision held to be void. The parties further agree to reform the Agreement to replace any stricken provision with a valid provision that comes as close as possible to the intent of the stricken provision. The provisions of this section shall not prevent the entire Agreement from being void should a provision which is of the essence of the Agreement be determined to be void.

23.0 **Annual Appropriations**

Firm acknowledges that during any fiscal year the County shall not expend money, incur any liability, or enter into any agreement which by its terms involves the expenditure of money in excess of the amounts budgeted as available for expenditure during such fiscal year. Accordingly, any agreement, verbal or written, the County may make in violation of this fiscal limitation is null and void, and no money may be paid on such agreement. The County may enter into agreements whose duration exceeds one year; however, any such agreement shall be executory only for the value of the services to be rendered which the County agrees to pay as allocated in its annual budget for each succeeding fiscal year. Accordingly, the County's performance and obligation to pay the Firm under this Agreement is contingent upon annual appropriations being made for that purpose.

24.0 **Employment Eligibility Verification (E-VERIFY)**

A. Unless otherwise defined herein, terms used in this Section which are defined in Section 448.095, Florida Statutes, as may be amended from time to time, shall have the meaning ascribed in said statute.

B. Pursuant to Section 448.095(5), Florida Statutes, the contractor hereto, and any subcontractor thereof, must register with and use the E-Verify system to verify the work authorization status of all new employees of the contractor or subcontractor. The contractor acknowledges and agrees that (i) the County and the contractor may not enter into this Agreement, and the contractor may not enter into any subcontracts hereunder, unless each party to this Agreement, and each party to any subcontracts hereunder, registers with and uses the E-Verify system; and (ii) use of the U.S. Department of Homeland Security's E-Verify System and

compliance with all other terms of this Certification and Section 448.095, Fla. Stat., is an express condition of this Agreement, and the County may treat a failure to comply as a material breach of this Agreement.

C. By entering into this Agreement, the contractor becomes obligated to comply with the provisions of Section 448.095, Fla. Stat., "Employment Eligibility," as amended from time to time. This includes but is not limited to utilization of the E-Verify System to verify the work authorization status of all newly hired employees, and requiring all subcontractors to provide an affidavit attesting that the subcontractor does not employ, contract with, or subcontract with, an unauthorized alien. The contractor shall maintain a copy of such affidavit for the duration of this Agreement. Failure to comply will lead to termination of this Agreement, or if a subcontractor knowingly violates the statute or Section 448.09(1), Fla. Stat., the subcontract must be terminated immediately. If this Agreement is terminated pursuant to Section 448.095, Fla. Stat., such termination is not a breach of contract and may not be considered as such. Any challenge to termination under this provision must be filed in the Tenth Judicial Circuit Court of Florida no later than 20 calendar days after the date of termination. If this Agreement is terminated for a violation of Section 448.095, Fla. Stat., by the contractor, the contractor may not be awarded a public contract for a period of 1 year after the date of termination. The contractor shall be liable for any additional costs incurred by the County as a result of the termination of this Agreement. Nothing in this Section shall be construed to allow intentional discrimination of any class protected by law.

25.0 **Firm Representations**

25.1 The Firm hereby represents and warrants the following to the County:

25.1.1 Firm is a limited liability company that is duly organized and existing in good standing under the laws of the State of Florida with full right and authority to do business within the State of Florida.

25.1.2 Firm's performance under this Agreement will not violate or breach any contract or agreement to which the Firm is a party or is otherwise bound, and will not violate any governmental statute, ordinance, rule, or regulation.

25.1.3 Firm has the full right and authority to enter into this Agreement and to perform its obligations in accordance with its terms.

25.1.4 Firm now has and will continue to maintain all licenses and

approvals required for conducting its business, and that it will at all times conduct its business activities in a reputable manner.

25.1.5 Firm has no obligation or indebtedness that would impair its ability to fulfill the terms of this Agreement.

25.1.6 Firm has the personnel and experience necessary to perform all Services in a professional and workmanlike manner.

25.1.7 Firm shall exercise the same degree of care, skill, and diligence in the performance of the Services as provided by a professional of like experience, knowledge and resources, under similar circumstances.

25.1.8 Firm shall, at no additional cost to County, re-perform those Services which fail to satisfy the foregoing standard of care or which otherwise fail to meet the requirements of this Agreement.

25.1.9 Each individual executing this Agreement on behalf of the Firm is authorized to do so.

26.0 **Default and Remedy**

If the Firm materially defaults in its obligations under this Agreement and fails to cure the same within fifteen (15) days after the date the Firm receives written notice of the default from the County, then the County shall have the right to (i) immediately terminate this Agreement by delivering written notice to the Firm, and (ii) pursue any and all remedies available in law, equity, and under this Agreement. If the County materially defaults in its obligations under this Agreement and fails to cure the same within fifteen (15) days after the date the County receives written notice of the default from the Firm, then the Firm shall have the right to immediately terminate this Agreement by delivering written notice to the County. Upon any such termination, the County shall pay the Firm the full amount due and owing for all Services performed through the date of Agreement termination.

27.0 **Limitation of Liability**

IN NO EVENT, SHALL EITHER PARTY BE LIABLE TO EACH OTHER FOR INDIRECT, INCIDENTAL, CONSEQUENTIAL, SPECIAL, EXEMPLARY, OR PUNITIVE DAMAGES OF ANY KIND OR NATURE, INCLUDING LOSS OF PROFIT, WHETHER FORESEEABLE OR NOT, ARISING OUT OF OR RESULTING FROM THE NONPERFORMANCE OR BREACH OF THIS CONTRACT BY EITHER PARTY

WHETHER BASED IN CONTRACT, COMMON LAW, WARRANTY, TORT, STRICT LIABILITY, CONTRIBUTION, INDEMNITY OR OTHERWISE.

28.0 **Waiver**

A waiver by either County or Firm of any breach of this Agreement shall not be binding upon the waiving party unless such waiver is in writing. In the event of a written waiver, such a waiver shall not affect the waiving party's rights with respect to any other or further breach of this Agreement. The making or acceptance of a payment by either party with the knowledge of the other party's existing default or breach of the Agreement shall not waive such default or breach, or any subsequent default or breach of this Agreement, and shall not be construed as doing so.

29.0 **Attorneys' Fees and Costs**

Each party shall be responsible for its own legal and attorneys' fees, costs and expenses incurred in connection with any dispute or any litigation arising out of, or relating to this Agreement, including attorneys' fees, costs, and expenses incurred for any appellate or bankruptcy proceedings.

30.0 **Force Majeure**

Either party hereunder may be temporarily excused from performance if an Event of Force Majeure directly or indirectly causes its nonperformance. An "Event of Force Majeure" is defined as any event which results in the prevention or delay of performance by a party of its obligations under this Agreement and which is beyond the reasonable control of the nonperforming party. It includes, but is not limited to fire, flood, earthquakes, storms, lightning, epidemic, war, riot, civil disturbance, sabotage, and governmental actions. Neither party shall be excused from performance if non-performance is due to forces which are reasonably preventable, removable, or remediable and which the non-performing party could have, with the exercise of reasonable diligence, prevented, removed, or remedied prior to, during, or immediately after their occurrence. Within five (5) days after the occurrence of an Event of Force Majeure, the non-performing party shall deliver written notice to the other party describing the event in reasonably sufficient detail, along with proof of how the event has precluded the non-performing party from performing its obligations hereunder, and a good faith estimate as to the anticipated duration of the delay and the means and methods for correcting the delay. The non-performing party's obligations, so far as those obligations are affected by the Event of Force Majeure, shall

be temporarily suspended during, but no longer than, the continuance of the Event of Force Majeure and for a reasonable time thereafter as may be required for the non-performing party to return to normal business operations. If excused from performing any obligations under this Agreement due to the occurrence of an Event of Force Majeure, the non-performing party shall promptly, diligently, and in good faith take all reasonable action required for it to be able to commence or resume performance of its obligations under this Agreement. During any such time period, the non-performing party shall keep the other party duly notified of all such actions required for it to be able to commence or resume performance of its obligations under this Agreement.

31.0 **Key Personnel**

The Firm shall notify the County if any of the Firm's Key Personnel (as defined, below) change during the Term of the Agreement. To the extent possible, the Firm shall notify the County at least ten (10) days prior to any proposed change in its Key Personnel. At the County's request the Firm shall remove without consequence to the County any of the Firm's contractors, sub-contractors, sub-consultants, agents or employees and replace the same with an appropriate substitute having the required skill and experience necessary to perform the Services. The County shall have the right to reject the Firm's proposed changes in Key Personnel. The following individuals shall be considered "Key Personnel:"

Name: Lucas Cruse, AICP Project Manager

Name: Peyton McLeod, PTP Deputy Project Manager

Name: Gordon Greene, Principal-in-Charge/ Quality Control Manager

Name: Kim Warren, Planning

Name: Charles Reed, Grant Funding/ LAP Coordination

Name: Tim Polk, Drainage

Name: Adam Perez, PE, Roadway

Name: Johnny Fung, PE, Structures

Name: Katie Habgood, AICP, Planning

Name: Hetty Harmon, AICP, Planning

Name: Gabriel Gonzalez Jr., AL, Community Engagement

Name: Emily DeGaetano, ISA, Landscape Architecture Lead

Name: Carrie Strasheim, PE, Trial Design Lead

Name: Manny Monreal, PE – Drainage Lead

32.0 **Scrutinized Companies and Business Operations Certification; Termination**

A. Certification(s).

(i) By its execution of this Agreement, the Firm hereby certifies to the County that the Firm is not on the Scrutinized Companies that Boycott Israel List, created pursuant to Section 215.4725, Florida Statutes, nor is the Firm engaged in a boycott of Israel, nor was the Firm on such List or engaged in such a boycott at the time it submitted its bid, proposal, quote, or other form of offer, as applicable, to the County with respect to this Agreement.

(ii) Additionally, if the value of the goods or services acquired under this Agreement are greater than or equal to One Million Dollars ($1,000,000), then the Firm further certifies to the County as follows:

(a) the Firm is not on the Scrutinized Companies with Activities in Sudan List, created pursuant to Section 215.473, Florida Statutes; and

(b) the Firm is not on the Scrutinized Companies with Activities in the Iran Petroleum Energy Sector List, created pursuant to Section 215.473, Florida Statutes; and

(c) the Firm is not engaged in business operations (as that term is defined in Florida Statutes, Section 287.135) in Cuba or Syria; and

(d) the Firm was not on any of the Lists referenced in this subsection A(ii), nor engaged in business operations in Cuba or Syria when it submitted its proposal to the County concerning the subject of this Agreement.

(iii) The Firm hereby acknowledges that it is fully aware of the penalties that may be imposed upon the Firm for submitting a false certification to the County regarding the foregoing matters.

B. Termination. In addition to any other termination rights stated herein, the County may immediately terminate this Agreement upon the occurrence of any of the following events:

(i) The Firm is found to have submitted a false certification to the County with respect to any of the matters set forth in subsection A(i) above, or the Firm is found to have been placed on the Scrutinized Companies that Boycott Israel List or is engaged in a boycott of Israel.

(ii) The Firm is found to have submitted a false certification to the County with respect to any of the matters set forth in subsection A(ii) above, or the Firm is found to have been placed on the Scrutinized Companies with Activities in Sudan List, or the Scrutinized Companies with Activities in the Iran Petroleum Energy Sector List,

or has been engaged in business operations in Cuba or Syria, and the value of the goods or services acquired under this Agreement are greater than or equal to One Million Dollars ($1,000,000).

33. **No Construction Against Drafter**

The Parties acknowledge that this Agreement and all the terms and conditions contained herein have been fully reviewed and negotiated by the Parties. Accordingly, any rule of construction to the effect that ambiguities are to be resolved against the drafting party shall not apply in interpreting this Agreement.

34. **Unauthorized Alien(s)**

The Firm shall not employ or utilize unauthorized aliens in the performance of the Services provided pursuant to this Agreement. The County shall consider the employment or utilization of unauthorized aliens a violation of Section 274A(e) of the Immigration and Naturalization Act (8 U.S.C. 1324a) and a cause for the County's unilateral termination of this Agreement. When delivering executed counterparts of this Agreement to the County, the Firm shall also deliver a completed and executed counterpart of the attached "AFFIDAVIT CERTIFICATION IMMIGRATION LAWS" form.

35. **Local Agency program Federal-Aid Terms for Professional Services Contracts** (See attached Appendix I).

36. **Design professionals; contractual limitation on liability**

PURSUANT TO SECTION 558.0035, FLORIDA STATUTES, AN INDIVIDUAL EMPLOYEE OR AGENT OF THE CONSULTANT MAY NOT BE HELD INDIVIDUALLY LIABLE FOR DAMAGE RESULTING FROM NEGLIGENCE WITHIN THE COURSE OR SCOPE OF THIS AGREEMENT, SO LONG AS ALL OTHER REQUIREMENTS OF SECTION 558.0035, FLA. STAT., ARE SATISFIED.

IN WITNESS WHEREOF, the parties hereto have executed this Agreement as of the Effective Date.

Appendix "I"

SUPPLEMENTAL CONDITIONS-FEDERAL CLAUSES

The County has been awarded and received Florida Department of Transportation (FDOT) and the Federal Highway Administration (FHWA) Local Agency Program funds for the services to be provided under the Agreement from FDOT and FHWA Local Agency Program. In accordance with the federal procurement standards at 2 C.F.R. sections 200.317 through 200.327 the following clauses are incorporated in this RFP, any resulting award with the prime Consultant, and any resulting contracts between the prime Consultant and sub-consultants and material suppliers. The following conditions are supplemental to the General Terms and Conditions. Where there is conflict, these Supplemental Conditions prevail unless the General Terms and Conditions are stricter.

1. Equal Employment Opportunity. (Applicable to construction only)

During the performance of this Contract, the Consultant agrees as follows:

(1) The Consultant will not discriminate against any employee or applicant for employment because of race, color, religion, sex, or national origin. The consultant will take affirmative action to ensure that applicants are employed, and that employees are treated during employment without regard to their race, color, religion, sex, or national origin. Such action shall include, but not be limited to the following: Employment, upgrading, demotion, or transfer; recruitment or recruitment advertising; layoff or termination; rates of pay or other forms of compensation; and selection for training, including apprenticeship. The consultant agrees to post in conspicuous places, available to employees and applicants for employment, notices to be provided setting forth the provisions of this nondiscrimination clause.

(2) The Consultant will, in all solicitations or advertisements for employees placed by or on behalf of the consultant, state that all qualified applicants will receive considerations for employment without regard to race, color, religion, sex, or national origin.

(3) The Consultant will send to each labor union or representative of workers with which he has a collective bargaining agreement or other contract or understanding, a notice to be provided advising the said labor union or workers' representatives of the Consultant's commitments under this section and shall post copies of the notice in conspicuous places available to employees and applicants for employment.

(4) The consultant will comply with all provisions of Executive Order 11246 of September 24, 1965, and of the rules, regulations, and relevant orders of the Secretary of Labor.

(5) The Consultant will furnish all information and reports required by Executive Order 11246 of September 24, 1965, and by rules, regulations, and orders of the Secretary of Labor, or pursuant thereto, and will permit access to his books, records, and accounts by the administering agency and the Secretary of Labor for purposes of investigation to ascertain compliance with such rules, regulations, and orders.

(6) In the event of the Consultant's noncompliance with the nondiscrimination clauses of this contract/Purchase Order or with any of the said rules, regulations, or orders, this contract/Purchase Order may be canceled, terminated, or suspended in whole or in part and the consultant may be declared ineligible for further Government contracts or federally assisted construction contracts in accordance with procedures authorized in Executive Order 11246 of September 24, 1965, and such other sanctions as may be

imposed and remedies invoked as provided in Executive Order 11246 of September 24, 1965, or by rule, regulation, or order of the Secretary of Labor, or as otherwise provided by law.
(7) The Consultant will include the portion of the sentence immediately preceding paragraph (1) and the provisions of paragraphs (1) through (7) in every subcontract or purchase order unless exempted by rules, regulations, or orders of the Secretary of Labor issued pursuant to section 204 of Executive Order 11246 of September 24, 1965, so that such provisions will be binding upon each subconsultant or consultant. The Consultant will take such action with respect to any subcontract or purchase order as the administering agency may direct as a means of enforcing such provisions, including sanctions for noncompliance: Provided, however, That in the event a Consultant becomes involved in, or is threatened with, litigation with a subconsultant or consultant as a result of such direction by the administering agency the consultant may request the United States to enter into such litigation to protect the interests of the United States

2. **Contract Work Hours and Safety Standards Act**.

(1) Overtime requirements. Neither the Consultant, nor any subconsultant contracting for any part of the contract work which may require or involve the employment of laborers or mechanics shall require or permit any such laborer or mechanic in any workweek in which he or she is employed on such work to work in excess of forty hours in such workweek unless such laborer or mechanic receives compensation at a rate not less than one and one-half times the basic rate of pay for all hours worked in excess of forty hours in such workweek.

(2) Violation; liability for unpaid wages; liquidated damages. In the event of any violation of the clause set forth in paragraph (1) of this section the Consultant and any subconsultant responsible therefor shall be liable for the unpaid wages. In addition, such consultant and subconsultant shall be liable to the United States (in the case of work done under contract for the District of Columbia or a territory, to such District or to such territory), for liquidated damages. Such liquidated damages shall be computed with respect to each individual laborer or mechanic, including watchmen and guards, employed in violation of the clause set forth in paragraph (1) of this section, in the sum of $10 for each calendar day on which such individual was required or permitted to work in excess of the standard workweek of forty hours without payment of the overtime wages required by the clause set forth in paragraph (1) of this section.

(3) Withholding for unpaid wages and liquidated damages. the FDOT and FHWA Local Agency Program, the applicable Federal agency, or Polk County as the recipient shall upon its own action or upon written request of an authorized representative of the Department of Labor withhold or cause to be withheld, from any moneys payable on account of work performed by the consultant or subconsultant under any such contract or any other Federal contract with the same prime consultant, or any other federally-assisted contract subject to the Contract Work Hours and Safety Standards Act, which is held by the same prime consultant, such sums as may be determined to be necessary to satisfy any liabilities of such consultant or subconsultant for unpaid wages

and liquidated damages as provided in the clause set forth in paragraph (2) of this section.

(4) Subcontracts. The Consultant or subconsultant shall insert in any subcontracts the clauses set forth in paragraph (1) through (4) of this section and also a clause requiring the subconsultants to include these clauses in any lower tier subcontracts. The prime consultant shall be responsible for compliance by any subconsultant or lower tier subconsultant with the clauses set forth in paragraphs (1) through (4) of this section.

3. **Clean Air Act and the Federal Water Pollution Control Act**.

Clean Air Act

(1) The Consultant agrees to comply with all applicable standards, orders or regulations issued pursuant to the Clean Air Act, as amended, 42 U.S.C. § 7401 et seq.

(2) The Consultant agrees to report each violation to the County and understands and agrees that the County will, in turn, report each violation as required to assure notification to FDOT, FHWA and the appropriate Environmental Protection Agency Regional Office.

(3) The Consultant agrees to include these requirements in each subcontract exceeding $150,000 financed in whole or in part with Federal assistance provided by FDOT and FHWA Local Agency Program.

Federal Water Pollution Control Act

(1) The Consultant agrees to comply with all applicable standards, orders or regulations issued pursuant to the Federal Water Pollution Control Act, as amended, 33 U.S.C. 1251 et seq.

(2) The Consultant agrees to report each violation to the County and understands and agrees that the County will, in turn, report each violation as required to assure notification to the FDOT, FHWA and the appropriate Environmental Protection Agency Regional Office.

(3) The Consultant agrees to include these requirements in each subcontract exceeding $150,000 financed in whole or in part with Federal assistance provided by FDOT and FHWA Local Agency Program.

4. **Debarment and Suspension. (Exhibit "A")**

(1) This Contract/Purchase Order is a covered transaction for purposes of 2 C.F.R. pt. 180 and 2 C.F.R. pt. 3000. As such the Consultant is required to verify that none of the Consultant, its principals (defined at 2 C.F.R. § 180.995), or its affiliates

(defined at 2 C.F.R. § 180.905) are excluded (defined at 2 C.F.R. § 180.940) or disqualified (defined at 2 C.F.R. § 180.935).

(2) The Consultant must comply with 2 C.F.R. pt. 180, subpart C and 2 C.F.R. pt. 3000, subpart C and must include a requirement to comply with these regulations in any lower tier covered transaction it enters into.

(3) This certification is a material representation of fact relied upon by Polk County. If it is later determined that the Consultant did not comply with 2 C.F.R. pt. 180, subpart C and 2 C.F.R. pt. 3000, subpart C, in addition to remedies available to FDOT, FHWA and the County. The Federal Government may pursue available remedies, including but not limited to suspension and/or debarment.

(4) The bidder or proposer agrees to comply with the requirements of 2 C.F.R. pt. 180, subpart C and 2 C.F.R. pt. 3000, subpart C while this offer is valid and throughout the period of any contract or purchase order that may arise from this offer. The bidder or proposer further agrees to include a provision requiring such compliance in its lower tier covered transactions.

5. **Byrd Anti-Lobbying Amendment, 31 U.S.C. § 1352 (as amended)**

Consultants who apply or bid for an award of $100,000 or more shall file the required certification (attached hereto as Exhibit "B"). Each tier certifies to the tier above that it will not and has not used Federal appropriated funds to pay any person or organization for influencing or attempting to influence an officer or employee of any agency, a member of Congress, officer or employee of Congress, or an employee of a member of Congress in connection with obtaining any Federal contract, grant, or any other award covered by 31 U.S.C. § 1352. Each tier shall also disclose any lobbying with non-Federal funds that takes place in connection with obtaining any Federal award. Such disclosures are forwarded from tier to tier up to the recipient.

6. **Procurement of Recovered Materials.**

(1) In the performance of this Contract/Purchase Order, the Consultant shall make maximum use of products containing recovered materials that are EPA-designated items unless the product cannot be acquired—

(i) Competitively within a timeframe providing for compliance with the contract performance schedule;

(ii) Meeting contract performance requirements; or

(iii) At a reasonable price.

(2) Information about this requirement, along with the list of EPA-designate items, is available at EPA's Comprehensive Procurement Guidelines web site, https://www.epa.gov/smm/comprehensive-procurement-guideline-cpg-program."

7. **Domestic Preference**

In accordance with 2 CFR §200.322, to the greatest extent practicable under a Federal award, the County must provide a preference for the purchase acquisition, or use of goods, products, or materials produced in the United States (including but not limited to

iron, aluminum, steel, cement, and other manufactured products). The requirements of this section must be included in all subawards including all contracts and purchase orders for work or products under this award. For purposes of this section:

(1) "Produced in the United States" means, for iron and steel products, that all manufacturing processes, from the initial melting stage through the application of coatings, occurred in the United States.

(2) "Manufactured products" means items and construction materials composed in whole or in part of non-ferrous metals such as aluminum; plastics and polymer-based products such as polyvinyl chloride pipe; aggregates such as concrete; glass, including optical fiber; and lumber.

8. **Affirmative Action.**

In accordance with 2 CFR §200.321, the County is committed to taking all necessary steps to assure that minority businesses, women's business enterprises, and labor surplus area firms are used when possible. The Consultant shall also take such affirmative steps in the selection of its subconsultants, laborers and materialmen. Affirmative steps include:

(1) Placing qualified small and minority businesses and women's business enterprises on solicitation lists;

(2) Assuring that small and minority businesses, and women's business enterprises are solicited whenever they are potential sources;

(3) Dividing total requirements, when economically feasible, into smaller tasks or quantities to permit maximum participation by small and minority businesses, and women's business enterprises;

(4) Establishing delivery schedules, where the requirement permits, which encourage participation by small and minority businesses, and women's business enterprises; and

(5) Using the services and assistance, as appropriate, of such organizations as the Small Business Administration and the Minority Business Development Agency of the Department of Commerce.

9. **Access to Records**. The following access to records requirements apply to this Contract and any Purchase Order issued hereunder:

(1) The Consultant agrees to provide Polk County, FDOT and FHWA or any of their authorized representatives, including but not limited to the Government Accountability Office ("GOA"), Treasury's Office of Inspector General ("OIG"), and the Pandemic Relief Accountability Committee ("PRAC"), access to any books, documents, papers, and records of the Consultant which are directly pertinent to this Agreement for the purposes of making audits, examinations, excerpts, and transcriptions.

(2) The Consultant agrees to permit any of the foregoing parties to reproduce by any means whatsoever or to copy excerpts and transcriptions as reasonably needed.

(3) The Consultant agrees to provide FDOT, FHWA or their authorized representatives access to construction or other work sites pertaining to the work being completed under the applicable Purchase Order."

10. **USDT Seal, Logo, and Flags**. The Consultant shall not use FDOT or FHWA seal(s), logos, crests, or reproductions of flags or likenesses of FDOT and FHWA agency officials without specific FDOT and FHWA pre-approval.

11. **Compliance with Federal Law, Regulations, and Executive Orders**. This is an acknowledgement that the FDOT and FHWA Local Agency Program financial assistance will be used to fund the Contract only. The Consultant will comply will all applicable federal law, regulations, executive orders, policies, procedures, and directives.

12. **No Obligation by Federal Government.** The Federal Government is not a party to this Purchase Order and is not subject to any obligations or liabilities to the non-Federal entity, consultant, or any other party pertaining to any matter resulting from this Purchase Order.

13. **Program Fraud and False or Fraudulent Statements or Related Acts.**

The Consultant acknowledges that 31 U.S.C. Chap. 38 (Administrative Remedies for False Claims and Statements) applies to the Consultant's actions pertaining to this Purchase Order.

14. **Default and Remedy**.

Process. If the Consultant materially defaults in the timely performance of any Contract obligation, or if the Consultant is otherwise in material default of the Contract, including, without limitation, the Consultant's failure to timely deliver any portion, or the entirety, of the Project Work in accordance with the Contract documents, then the County shall have the right to (i) with or without terminating the Contract, immediately call in any bonds or other form of security, and engage other consultants or providers at the Consultant's sole cost and expense to provide those unperformed or deficient Contract obligations of the Consultant; (ii) set-off the monetary amount of any and all damages arising therefrom, whether direct or indirect, actual or liquidated, from the amounts due Consultant pursuant to the Contract documents, (iii) immediately terminate the Contract by delivering written notice to the Consultant, and (iv) pursue any and all remedies available in law, equity, and under the Contract, including, without limitation, the recovery of any increased cost to the County to complete the Project Work due to the loss of FDOT and FHWA Local Agency Program funding caused, directly or indirectly, by the Consultant's delay. Upon any such termination pursuant to this Section, the County shall pay the Consultant the full amount due and owing for all services properly performed through the date of the Contract

termination, less any amount subject to the County's right of set-off, and all liability of the County to the Consultant shall cease.

Certain Material Defaults. Among other matters, including without limitation, the Consultant's failure to timely deliver any portion, or the entirety, of the Project Work in accordance with the Contract documents, as described immediately above, any of the following shall constitute the Consultant's material default of the Contract: the appointment of a receiver to take possession of all or substantially all of the Consultant's assets, a general assignment by the Consultant for the benefit of creditors, or any action taken by or suffered by Consultant under any insolvency or bankruptcy act; or the Consultant is convicted of a public entity crime, is determined to have violated federal or state law prohibiting discrimination as stated in Section 287.134, Florida Statutes, or is prohibited from performing work for or transacting business with the County pursuant to Section 287.133 or to Section 287.134, Florida Statutes; or an assignment of the Contract made without the express written consent of the County; or the submission of a false certification to the County or engagement in prohibited business operations, both as described in the Contract Documents.

RFP REGISTRATION

You MUST register using this form in order to receive notice of any addenda to these documents. Please fax the completed form to the Procurement Division as soon as possible. It is the vendor's responsibility to verify if addenda have been issued.

RFP Number & Title:	23-197, P.E. Services for Lake Hancock Multiuse Trail Connection – LAP
Description:	Professional Engineering Services for the master trail plan for the Upper Peace River Trail at Various Locations.
Receiving Period:	Wednesday, May 31, 2023, prior to 2:00 p.m.
Bid Opening:	Wednesday, May 31, 2023, 2:00 p.m.

This form is for RFP registration only. Please scroll down for additional information.

To obtain a copy of the Local Agency Program (LAP) Agreement please go the following FTP site: https://ftp3.polk-county.net, you will be prompted for a User ID and Password. The User ID is *procurevendor* and the password is *solicitation.* After you have logged in to the FTP site, double click on the file folder "**RFP 23-197, Attachment "A"**", select "Open" or "Save As" to download the RFP documents, drawings, and technical specifications. If you need assistance accessing this website due to ADA or any other reason, please email Danielle Rose at daniellerose@polk-county.net**.**

Questions regarding this RFP must be in writing and must be sent to Danielle Rose, Sr. Procurement Analyst, via email at daniellerose@polk-county.net or via fax at (863) 534-6789. **All questions must be received by 4:00 p.m., Tuesday, May 23, 2023.**

RFP REGISTRATION
FAX THIS FORM BACK IMMEDIATELY IF YOU ARE INTERESTED IN SUBMITTING
FAX: (863) 534-6789

Carefully complete this form and e-mail or fax it to the Procurement Division. You should submit one form for each proposal that you are registering for. This will assist in receiving addendums for this RFP.

City:_____ State:_____ Zip Code:_____

Phone:_____E-mail:_____

PROPOSAL SUBMITTAL INSTRUCTIONS

Proposers must submit their proposal prior to 2:00 p.m. on the receiving date. Proposals must be submitted in a "sealed" parcel or electronically through Polk County's secure website, Kiteworks. Proposals will be publicly opened at 2:00 p.m. on the receiving date.

Sealed Parcel Submittal:

If you are submitting a sealed parcel proposal submit one (1) original marked ORIGINAL and five (5) copies marked COPY of the proposal in a sealed parcel to the Procurement Division. The parcel should be labeled "RFP #23-197, P.E. Services for Lake Hancock Multiuse Trail Connection – LAP" and marked with the proposer's name and address. The Proposals may be mailed or delivered to:

Polk County Procurement Division
330 West Church Street, Room 150
Bartow, FL 33830

To assist with labeling the sealed parcel, please cut along the outer border and affix this label. Be sure to include the name of the company submitting the proposal where requested.

Sealed Proposal. DO NOT OPEN	
RFP Number	23-197
RFP Title	P.E. Services for Lake Hancock Multiuse Trail Connection– LAP
Due Date/Time:	May 31, 2023, prior to 2:00 pm
Submitted by:	
Deliver To:	Polk County Procurement Division 330 West Church Street, Room 150, Bartow, Florida 33830

Proposals may be mailed, express mailed or hand delivered. It is the Proposers responsibility to ensure their package is delivered to the Procurement Division prior to 2:00 p.m. on the Receiving date and time referenced above. Proposals delivered at 2:00 p.m. or later will not be accepted.

Electronic Proposals Submittal:

All prospective Proposers that are interested in submitting their proposals electronically can do so via the County's secure electronic submittal website, Kiteworks. Proposers must email daniellerose@polk-county.net at least 48 hours prior to opening to receive a link to upload their submittal. Please only upload your documents as a PDF or Excel file for the Cost Tab, if applicable. Please use the name convention of your files as follow:

"RFP 23-197 Tab 1"

"RFP 23-197 Tab 2"

"RFP 23-197 Tab 3"

"RFP 23-197 Tab 4"

"RFP 23-197 Tab 5"

"RFP 23-197 Tab 6"

"RFP 23-197 Tab 7"

For more instructions, a video tutorial has been produced to further explain the electronic solicitation submittal process. It can be found by clicking here for RFP Submittals: https://youtu.be/vkn_7AHgioE. If you need assistance accessing this website due to ADA or any other reason, please email Danielle Rose at daniellerose@polk-county.net.

Procurement recommends that Proposers submitting electronically double check the documents submitted into Kiteworks to ensure all requested tab information has been uploaded. Failure to upload the requested tab information may result in the proposal being deemed nonresponsive.

POLK COUNTY
Procurement Division
Fran McAskill
Procurement Director

REQUEST FOR PROPOSAL 23-197
P.E. Services for Lake Hancock Multiuse Trail Connection – LAP

Sealed proposals will be received in the Procurement Division, **Wednesday, May 31, 2023, prior to 2:00p.m.**

Attached are important instructions and specifications regarding responses to this Request for Proposal (the "RFP"). The failure of a responding proposer (a "Proposer") to follow these instructions could result in Proposer disqualification from consideration for a contract to be awarded pursuant to this RFP.

This document is issued by Polk County (the "County") which is the sole distributor of this RFP and all addenda and changes to the RFP documents. The County shall record its responses to inquiries and provide any supplemental instructions or additional documents pertaining to this RFP in the form of written addenda to the RFP. The County shall post all such addenda, together with any other information pertaining to this RFP, on the County's website at https://www.polk-county.net/procurement/bids. It is the sole responsibility of each Proposer to review the website prior to submitting a responsive proposal (a "Proposal") to this RFP to ensure that that the Proposer has obtained all available instructions, addenda, changes, supporting documents, and any other information pertaining to this RFP.

The County is not responsible for any solicitations issued through subscriber, publications, or other sources not connected with the County and the Proposer should not rely on such sources for information regarding the RFP solicitation.

Questions regarding this RFP must be in writing and must be sent to Danielle Rose, via email at daniellerose@polk-county.net or via fax at (863) 534-6789. All questions must be received by Tuesday, May 23, 2023, 4:00 p.m.

Proposers and any prospective Proposers shall not contact, communicate with or discuss any matter relating in any way to this RFP with any member of the Polk County Board of County Commissioners or any employee of Polk County other than the County Procurement Director or the individual designated above. This prohibition begins with the issuance of the Request for Proposal and ends upon execution of a contract. Any such communication initiated by a Proposer or prospective proposer shall be grounds for disqualifying the offender from consideration for a contract to be awarded pursuant to this RFP and for contracts to be awarded pursuant to RFPs or Requests for Bid that the County may issue in the future.

A Proposer's responsive Proposal to this RFP may be mailed, express mailed, or hand delivered to:

Polk County Procurement Division
330 West Church Street, Room 150
Bartow, Florida 33830
863-534-6757

INTRODUCTION

Polk County, a political subdivision of the State of Florida seeks professional engineering services for the Lake Hancock Multiuse Trail Connection– LAP Project, "the Project".

Polk County's Selection Process for consultants' services is in accordance with Section 287.055, Florida Statutes, the Consultants' Competitive Negotiations Act ("CCNA") and 23 CFR 172.7(a) as it relates to competitive negotiation procurement in accordance with the Brooks Act. The Professional Services Selection Committee will review the qualifications of all submitting firms.

It is the intent of the County to select and negotiate a Consulting Agreement with one (1) firm.

The County will negotiate a fee schedule and overall lump sum or not to exceed price as part of "Selection Process", Elevation Level 4, Contract Negotiations.

Services under this contract will be in compliance with Section 287.055 of the Florida Statutes referred to as the "Consultants' Competitive Negotiation Act" (CCNA). Polk County's Procurement Procedure's Manual outlines the Procedures for Contracting for Professional Services Covered by CCNA. These procedures outline the process used for the selection of a consulting firm awarded through this RFP process. In the event that these procedures are in conflict with 23 CFR 172 requirements the Federal requirements will take precedent.

All services must be performed in accordance with applicable Federal, State and Local regulations.

The Successful Proposer must register in our new Vendor Database if you have not already done so prior to award of this RFP. A purchase order cannot be issued to a vendor until they have registered. You may register by going to the following link: https://www.polk-county.net/procurement/vendor-registration. Registered vendors will receive a User ID and Password to access their company information. All registered vendors must provide their owner gender, owner ethnicity, corporate status, and a minimum of one (1) commodity code to be considered registered. It is the responsibility of all vendors to update their vendor information. Only registered vendors will receive notifications of future bids and quotes.

QUALIFICATIONS

Work Types:

This project is federally funded with assistance from the Florida Department of Transportation (FDOT) and the Federal Highway Administration (FHWA). All requirements of the federal award are applicable to the Successful Proposer, sub-consultants, and any material suppliers. All services must be performed in accordance with applicable Federal, State and Local regulations.

By submitting a response, the Consultant certifies that they are in compliance with FDOT Procedure No. 375-030-006 (Restriction on Consultants Eligibility to Compete for Department Contracts) and that no principle is presently suspended, proposed for debarment, declared ineligible or voluntarily excluded from participation on this transaction by any Federal Department or Agency. Professional Services work types included in this project may include Project Development and Environmental Services, Survey and Mapping Engineering Contract Administration and Management, Landscape Architecture and Planning.

PROJECT OVERVIEW:

Lake Hancock is an important regional asset that is unique and irreplaceable. Over the past 10+ years several multiuse trail segments have been planned by a variety of stakeholder groups (Polk County TPO, Polk County Parks and Natural Resources Division (PNR), City of Lakeland, Southwest Florida Water Management District) within two miles of Lake Hancock. Most of these trails are found within the Polk County Transportation Planning Organization's Momentum 2040 Long Range Transportation Plan, (TPO Regional Multi-Use Trail Network MAP. TPO 2040 Multi-Use Trail Network Map, Sun Trail Status Polk County Map, Federal Aid Eligibility Map)

Some of these trails have been planned and constructed (Fort Fraser Trail), others are under construction, and some need action plans for construction (Upper Peace River Legacy Trail Phase 3). New trail opportunities for the multi-use trail network have arisen with the creation of the Hwy 570 B extension, which were not envisioned as part of the Transportation Planning Organization's Momentum 2040 Long Range Transportation Plan.

The goal of this program of work is to establish a planning effort for a contiguous multi-use trail around Lake Hancock and connect to the other planned regional trails within two miles (+/-) of the shores of Lake Hancock.

This planning effort will identify how to link trail segments already in place or being planned/constructed. To achieve this goal, a need exists for a comprehensive Master Plan capable of serving as a formal guide or action plan/logic model for the development of the trail providing a level of planning documents necessary to initiate an actual engineering project.

The Upper Peace Legacy Trail Connector Trail (UPLTCT) Master Plan Objectives

The principal objectives of the Upper Peace Legacy Trail Connector Trail Master Plan are to:

1. Align the Upper Peace Legacy Trail Connector Trail with plans completed by

other stakeholders such as the Lakeland Highland Trail Corridor Study, The Fort Fraser Trail Plans, and the Tenroc Trail Master Plan Study:

a) connection of the Fort Fraser Trail to the proposed Bartow to Fort Meade Trail (2.9 miles)
b) the connection of the Fort Fraser Trail (7.75 miles) to the Holloway Trail South to Lakeland's 3 Parks Trail (currently 3.6 miles connecting Common Ground Park, Woodlake Park and Curtis Peterson Park) through a 1.4 mile right of way.
c) the connection of the Fort Fraser Trail through the creation of the Lakeland Highland Scrub Connector trail (approximately 3.58 miles per Momentum 2040) to Lakeland Highland Scrub Preserve (2.8 miles of trails), Seven Wetlands (22 miles), Loyce E. Harpe Park and Mulberry Park.
d) The connection of the Panther Point Connector Trail (as per Momentum 2040) connecting trail from Panther Point to the proposed Bartow Eagle Lake Trail (as per Momentum 2040)

Additionally, beyond Momentum 2040 projects

e) the connection from the Panther Point Connector Trail to Hwy 570 B, Central Polk Parkway (CCP) Multi-purpose trail which starts at Highway 17 extending south to Highway 60.
f) the connection of the Toll Road 570 B Central Polk Parkway corridor to the Fort Fraser Trail, the Earnest M. Smith Trail, and Panther Point Trail
g) the potential of connecting the Panther Point Trail to Simmers Young Park in Winter Haven Florida, via a Lena Run trail (approximately 3 miles)
h) the potential of connecting to the proposed Peace River Trail

2. Define and map the location of proposed trail alignment and identify landowners

3 Identify locations for the development of trailheads, public trail access points, parking, staging areas, and complementary open green space nodes

4. Identify locations for complementary facility opportunities (comfort stations, shelters, fountains etc.).

5. Provide specific recommendations for the trail at highway and road crossings

6. Provide design standards for the development of the trail and associated trail enhancements and access improvements

7. Provide cost ranges; phasing timeline and maintenance considerations for use in securing funding to implement the plan

This project demonstrates a benefit to the intermodal transportation system by the creation of an Upper Peace Legacy Trail Connector Master Plan which connects projects envisioned in the TPO Long Range Plan and providing an updated plan inclusive of the HWV 570 B Central Polk Parkway. This Multiuse Trail Master Plan, supports Lake Hancock as an important regional asset, maintaining its landscapes, as economically productive rural land, adjacent to the toll road 570 B corridor.

Firms wishing to respond to this Request for Proposals should have demonstratable experience in: Project Management, Trail Planning and Design, Interpretative Planning, Community Engagement, Grant Funding and Analysis, Civil and Environmental Engineering as well as an understanding of Polk County's way of life.

BACKGROUND/PURPOSE

Polk County has applied for and has been granted Local Agency Program funding to create a master trail plan for trails which connect within 2+ miles of Lake Hancock Hub Trails (Panther Point Trail, Fort Fraser Trail, Upper Legacy Trail). This Upper Peace Legacy Trail Connector Trail Master Plan would include the following: (All projects are within Polk County)

Connection A

from Upper Peace Legacy Trail Phase 3, running 1.98 miles west to east from Lost Bridge Trail at Circle Bar B Preserve to Acorn Loop Trail on Hampton Property preserve.

Connection B

from Panther Point Trail (Upper Peace Legacy Trail Phase 2) South to Cross Over Road. This is referred to as the Panther Point Connector Trail

Connection C

from the intersection of Panther Point Trail and Fort Fraser Trail, south to Fort Meade Trail (2.91 miles)

Connection D

from intersection of Upper Peace Legacy Trail Phase 1 and Fort Fraser Trail northwest to proposed Holloway Trail South, 1.4 miles and thence to Lakeland Florida's "3 Park" trail (3.6 miles)

Connection E

from intersection of Panther Point Trail and Fort Fraser Trail west through the proposed Lakeland Highland Scrub trail to Lakeland Highland Scrub (3.38 miles) thence to Seven Wetland Preserve, which is connected to Loyce E Harpe Park and Mulberry Park.

Connection F

from the intersection of the Panther Point Connector trail at Old Eagle Lake Road south to connect with the intersection of Toll Road 570 B and Highway 17 thence to Hwy 60 along the Central Polk Parkway Multipurpose Trail.

Connection G

from the connection of the Earnest M Smith Trail east to intersection of the Panther Point Connector trail at Old Eagle Lake Road south and east to bicycle trails

Connection H

from the connection of the Upper Legacy Trail to west to Simmer Young Park (approx. 3 miles) via the Lena Run Trail.

The project will meet all ADA and FDOT Standards.

SCOPE OF SERVICES

The professional engineering services to be provided under this procurement relates to the Lake Hancock Multi-Use Trail Connection project services and are subject to the requirements of Federal Aid for Highways.

The work to be provided by the selected Professional/Consultant(s) includes not only the traditional services associated with projects but also those required elements of federal-aid projects.

The following services required include, but are not limited to, the following:

TASK 1: Review all available information/ field reconnaissance work along project corridors

- A preliminary list of information sources will be supplied by the Parks and Natural Resources (PNR) designated Project Manager to the awarded consultant upon issuance of an executed agreement.

Deliverables:

- Technical Memorandum No.1, that summarizes the findings from the review of background documents, permitting requirements, field reconnaissance work, etc.

TASK 2: Site Analysis: Physical and Environmental Conditions.

- Project Work Program, and material review.
- Kick-off meeting notes including final scope of work and schedule.

Deliverables:

- Power Point Presentation and correlated materials on the benefits of multi-use trails as part of an active transportation system which align with other community planning efforts related to transportation and sustainability. Presentation must be in a conference style format and suitable to give to stakeholders. All materials will be copywritten property of PNR.
- Power Point Presentation on best practices for trail planning suitable for conference presentation. All materials will be copywritten property of PNR.
- Base map in a format consistent with the PNR's GIS system for Upper Legacy Trail Project.
- Technical Memorandum No.2 will summarize the site analysis, existing conditions inventory, potential trail connection and stakeholder connectivity requirements, base mapping, and identification of locations for cultural, historic, and scenic sites for project interpretative materials.

All of Task 1 and Task 2: Due 90 days after notice to proceed is issued

TASK 3: Alternative Routing Analysis and Recommendations

Deliverables:

- Technical Memorandum No.3 that summarizes the opportunities and constraints analysis (e.g., environmental issues such as hydric vs non hydric soils, floodway and floodplain issues, man-made and natural barriers, accessibility, safety, and security issues), permitting issues and the alignment alternatives.
- Land parcel inventory including property appraisers PIN, with ownership contact information and documentation provided in excel spreadsheets and ownership maps with the GIS shapefiles.

All of Task 3: Due 180 days after notice to proceed is issued

Task 4: Identification of Recreation /Interpretive /Trail Connection Opportunities

Deliverables:

- Technical Memorandum No.4 that fully describes the preferred trail alignment along with design details such as trail characteristics, access points and amenities. An analysis of construction feasibility, phasing and cost will also be included as text and in a matrix format.

Task 5 A: Identification and Conceptual Planning for Complementary Facility Opportunities and public presentation

Deliverables:

- Technical Memorandum No.5 that fully describes the preferred trail and includes:
    - A draft Executive Summary of the Lake Hancock Multi-Use Trail Connection Master Plan to function as a stand-alone document that covers the entire length of the Trail System.
    - Draft Lake Hancock Multi-Use Trail Connection Master Plan, as background to Executive Summary
    - Action Plan/ Logic Model that lists key actions that need to be taken to implement the proposed plan, and the order in which they should be addressed. This action plan shall include specific activities related to the development of the trail such as securing additional easements, etc.

All of Task 4 and Task 5 A: Due 270 days after notice to proceed is issued

Task 5 B: Identification and Conceptual Planning for Complementary Facility Opportunities and public presentation

Deliverables:

- Draft Technical Dossier: Hardcopy of Technical Memorandum No.1 – 4, on white paper as well as one electronic copy (both PDF and Microsoft Word) to the PNR Project Manager for comment
    - Typical trail cross-sections, architectural renderings of design concepts for trailheads etc.
    - Proposed trail photo-simulations.
- Recommended trail alignment developed as GIS database files (delivered on a portable electronic drive).
- Draft large-scale format of Upper Peace Legacy Trail Connector Trail Master Plan Map, the proposed trail system plus one electronic copy (both PDF and Microsoft Word) to the PNR Project Manager for comment. (36" X 44" Glossy 24lb or comparable)

Task 6: Public Outreach and information

Deliverables:

- Social Media presentations hosted on internet for 12 weeks with the ability to take comments.
- Media presentation content that is supplied to the County's Communications Division for Polk Government Television (PGTV).

- Discussion hosted on internet forum such as Reddit hosted on internet for 12 weeks. All comments will be captured and documented.
- Public Meeting
    - At a minimum this will include sign in sheets, handouts and display boards
    - Draft Upper Peace Legacy Trail Connector Trail Master Plan to the PNR Staff for comment.
    - Draft Technical Dossier: Hardcopy Technical Memoranda No.1 – 5, and white papers plus one electronic copy (both PDF and Microsoft Word) to the PNR Staff for comment.
    - Draft large format Upper Peace Legacy Trail Connector Trail Master Plan Map, the proposed trail system plus one electronic copy (both PDF and Microsoft Word) to the PNR Staff for comment.
    - All comments will be captured and documented from public meeting.

Task 5 B and all of Task 6: Due 360 days after notice to proceed is issued

Task 7: Master Plan + Data and Analysis

Deliverables:

- Master Plan Executive Summary.
- Upper Peace River Legacy Trail Connector Trail Master Plan.
- All public agency and public comments as an appendix.
- Technical Dossier Executive Summary.
- Technical Dossier and appendixes.

Due 450 days after notice to proceed is issued

Important Electronic Document and Map Delivery Standards
PNR manages spatial information using GIS software from ESRI and most other data and documents using Microsoft Office 365 for Windows. Consultants wishing to exchange maps and data effectively with PNR should plan to use ESRI ArcGIS 10.8 or equivalent GIS Software. PNR Staff will provide some base mapping and other data in ESRI geodatabase or shapefile format. Other information and documents should be provided in Microsoft Office 365 formats.

Services provided by the Consultant shall comply with all aspects of the County's Local Agency Program agreements with the Florida Department of Transportation identified as FPID #44965-1-18-1.

PROJECT SCHEDULE

- 5/1/23 - Solicitation Date
- 5/31/23 - Solicitation Opening
- 6/14/23 - First Committee Meeting
- 6/28/23 - Committee Scoring Meeting
- 7/10/23 - Committee Interviews

- 7/12/23 - Recommendation of Award to Board - Authorize Negotiations
- 7/12/23 to 7/24/23 - Negotiation Period
- 7/24/23 - Draft Contract to FDOT for Approval
- 8/23/23 - Contract approved by Board

*This is dependent on FDOTs review and approval times.

AGREEMENT

The term of this agreement is estimated to be completed 445 calendar days from notice to proceed, or upon completion of construction. The actual term will be negotiated as part of the Selection Process, Elevation Level 4.

EVALUATION CRITERIA

Proposals should not contain information in excess of that requested, must be concise, and must specifically address the issues of this RFP. Unnecessarily elaborate brochures or other presentations beyond those sufficient to present a complete and effective response to this RFP are not desired and may be construed as an indication of the Proposer's lack of cost consciousness. Elaborate artwork, expensive visual aids, and other presentation aids are neither necessary nor desired unless specifically requested. The Proposal responses shall be contained within a three-ring binder (original and each copy in separate binders). For the purposes of this RFP, **one page equals a single two-sided page**. It is requested that the responses be in the same order as the selection and evaluation procedures. The submittals should include the following:

Tab 1 – Executive Summary
(Items a-c: Maximum of two (2) pages)

a) For purposes of identifying this project, please state the following at the top of your Executive Summary:
"Lake Hancock Multi-Use Trail Connection / FDOT #44965-1-18-1"
b) Company name, contact name, telephone number, and email address.
c) Briefly state the Proposers understanding of the work to be done and make a positive commitment to perform the work.
d) Provide documentation showing proper incorporation by the Secretary of State.
e) Give the names of the persons who will be authorized to make representations for the proposer, their titles, addresses, email and cell phone numbers
f) Provide a copy of the firm's applicable certification(s) from the State of Florida allowing them to provide the services as outlined in the Scope of Service as well as compliance with F.S. 287.055.
g) Proposed responsible office for consultant.

Tab 2 –Approach to Project (30 Points)
(Maximum of four (4) pages)

- Provide a short narrative project approach outlining how you propose to respond to and manage this project. (Maximum of 1 page)
- Please describe the specific abilities of the firm/team in regard to this approach. Include any innovative approaches to providing the services, and include any additional information not directly cited in the scope of services. An outline description, including anticipated project tasks (in sequence) should be included. Firms should identify general schedule for anticipated deliverables (Maximum of 2 pages)
- Briefly describe firm's quality assurance/quality control program. (Maximum of 1 page)

Tab 3 – Experience, Expertise, Personnel & Technical Resources (35 Points)

- Provide a minimum of three (3) and a maximum of five (5) projects performed within the past ten (10) years for which your firm performed engineering services of similar size and scope complexity to include graphic representation particularly in Florida or the Southeast. (Limit response to one (1) page per project)

  For each project please provide:
  a. Name and location of the project
  b. Size and cost of the project
  c. Project representative name, address, phone number, and email address
  d. Date project was completed or is anticipated to be completed; compare to the original date
  e. Identify the key staff and their role in each project
  f. Provide the original budget and the final budget of the project. Explain the reason(s) for differences, such as owner requested change, contractor claim, and insufficient plans and specifications
  g. List of any time extensions created by item f above
  h. Indicate if project was a LAP project.
- Provide an organizational chart of the team highlighting the key individuals who will work on this contract as identified above.
- The key staff presented in the consultant's response shall be the staff utilized on this contract. Please provide the resumes of the key staff including, but not limited to, the items in the list below (One (1) page maximum per resume):
  a) Name and current position held by the person
  b) Name, title and project assignment
  c) Experience:
     (1) Types of projects.
     (2) Size of projects (dollar value of project).
     (3) What were their specific project involvements?
- Demonstrate each key staff's availability to respond to the needs of the project (Two (2) pages maximum for all key staff member)
- Identify sub consultants to be used, if any. For each sub consultant identified please provide:
  - A brief description of their experience outlining their qualifications to perform the intended services
  - A brief resume for each key personnel that will be assigned to perform the intended services.

Tab 4 – Interaction with County and Regulatory Agency Staff (5 Points)

- Provide documentation supporting the specialized qualifications of the proposed staff in terms of meeting this scope of service. Qualifications should highlight experience with regulatory agencies, identifying specific agencies and the items being addressed, including construction permitting, stormwater management permitting, consultation, governing regulations, and other related activities. Describe the firm's ability to work with the County's Roads and Drainage Division, Procurement Division, Building Division, Codes Division, Parks and Natural Resources Division and County Attorney's Office staff in order to successfully fulfill the scope of service. Demonstrate the firm's knowledge of permitting process, as well as local regulatory agencies, including, but not limited to FDOT, SWFWMD and FDEP. (**Limit response to one (1) page)**

Tab 5 – Timely Completion of Projects (20 Points)

- Describe the firms' current and future projected workload. Describe specifically the firms' daily ability to handle each aspect of the scope of services described herein. **(Limit response to two (2) pages maximum)**

Tab 6 – Surveys of Past Performance (10 Points)

- Provide reference surveys from past clients for all projects identified under Tab 3.

- Completed surveys. **(See Exhibit 1)** Procurement will take the average of all three surveys and score as follows

○ Average Score between 9-10	10 Points
○ Average Score between 7-8	8 Points
○ Average Score between 5-6	6 Points
○ Average Score between 3-4	4 Points
○ Average Score between 1-2	2 Points
○ Average Score of 0	0 Points

Tab 7 – Additional Forms and Documentation

Proposers should provide the following completed forms or documentation with their Proposal. Forms can be found at the end of this RFP.

- Public Entity Crimes Statement
- Drug-Free Workplace Form (FDOT Form #375-040-18)
- Truth in Negotiation Certification (FDOT Form #375-030-30)
- Conflict of Interest Certification (FDOT Form #375-030-50)
- Certification Regarding Debarment, Suspension, Ineligibility and Voluntary Exclusion for Federal Aid Contracts (FDOT Form #375-030-32)
- Certification of Disclosure of Lobbying Activities on Federal Aid Contracts (FDOT Form #375-030-33 and if applicable #375-030-034)

- Local Agency Program Federal-aid Terms for Professional Services Contracts (FDOT Form #375-040-84)
- DBE Bid Package Information (FDOT Form No. 275-030-11)

NOTE: FDOT forms are available at the following website:
https://pdl.fdot.gov/

BID OPENING

Submitters may attend the Bid Opening in person or via conference call by dialing (646) 558-8656 and enter Meeting ID: 327 647 2818. A listing of all proposers will be posted to Procurement's website as soon as possible after bid opening.

SELECTION PROCESS

Proposals will be evaluated in accordance with this section and all applicable County procurement policies and procedures.
The County shall appoint a selection committee (the "Selection Committee") that will be responsible for evaluating and scoring/ranking the Proposals in accordance with this Section.

The County will use a competitive selection process based on the Elevation Levels described in this Section. At Elevation Levels 2 and 3, the Selection Committee will score and/or rank the Proposals as applicable.

Selection of a final Proposal will be based upon the following steps and factors:

Elevation Level 1 (Procurement Requirements Assessment):

- The County Procurement Division shall review all Proposals for conformance with RFP guidelines and detailed submittal requirements. At the County's discretion, non-conforming Proposals may be eliminated from further consideration and conforming Proposals shall be elevated to Elevation Level 2. Procurement will distribute Proposals and evaluation criteria to the Selection Committee.

- Procurement will also ensure all firms meet the requirement of certification as outlined in Florida Statute 287.055(3)(c).

- The Selection Committee may convene to review questions that arise during individual member review of submitted Proposals before Elevation Level 2 to allow for questions, clarifications, explanations, or other discussion to be held before the review of Proposals is completed.

Elevation Level 2 (Scoring)

- Procurement shall score each Proposal on the following evaluation criteria:

• Surveys of Past Performance (Tab 6)	10 points
Subtotal Points	**10 points**

by the process stated under each corresponding Tab description as set forth on Page 15.

- Each Selection Committee member shall score each Proposal on the following evaluation criteria:

• Approach to Project (Tab 2)	30 Points
• Experience, Expertise, (Tab 3) Personnel and Technical Resources	35 Points
• Interaction w/ County & Regulatory Agencies (Tab 4)	5 points
• Timely Completion of Projects (Tab 5)	20 points
Subtotal Points	**90 points**

by the following process:

(1) Each Selection Committee member shall determine which of the following descriptions applies to each of the foregoing evaluation criteria:

- EXCELLENT (1.0): Of the highest or finest quality; exceptional; superior; superb; exquisite; peerless.

  The Proposer provided information for a given criteria that satisfied the requirements and described specifically how and what will be accomplished in such a manner that exhibited an exceptional and superior degree of understanding, skill, and competency, both qualitatively and quantitatively. The facts included in the narrative (including all supporting documentation, diagrams, drawings, charts, and schedules, etc.) demonstrate the Proposer's ability to perform and deliver far beyond expectation.

- VERY GOOD (0.8): To a high degree; better than or above competent and/or skillful.

  The Proposer provided information for a given criteria that satisfied the requirements and described specifically how and what will be accomplished in such a manner that exhibited a very high degree of understanding, skill, and competency, both qualitatively and quantitatively. The facts included in the narrative (including all supporting documentation, diagrams, drawings, charts, and schedules, etc.) demonstrate the Proposer's ability to perform and deliver beyond expectation.

- GOOD (0.6): Having positive or desirable qualities; competent; skilled; above average.

  The Proposer provided information for a given criteria that satisfied the requirements and described specifically how and what will be accomplished in such a manner that exhibited a skillful and above-average degree of understanding, skill, and competency, both qualitatively and quantitatively. The facts included in the narrative (including all supporting documentation, diagrams,

drawings, charts, and schedules, etc.) demonstrate the Proposer's ability to perform and deliver at the expected level.

- FAIR (0.4): Average; moderate; mediocre; adequate; sufficient; satisfactory; standard.

  The Proposer provided information for a given criteria that satisfied the requirements and described sufficiently how and what will be accomplished in a manner that exhibited an adequate and average degree of understanding, skill, and competency, both qualitatively and quantitatively. The facts included in the narrative (including all supporting documentation, diagrams, drawings, charts, and schedules, etc.) demonstrate the Proposer's ability to perform and deliver at a level slightly below expectation.

- POOR (0.2): Inadequate; lacking; inferior in quality; of little or less merit; substandard; marginal.

  The Proposer provided information for a given criteria that did not satisfy the requirements and described in an inadequate manner how and what will be accomplished. The information provided simply reiterated a requirement, contained inaccurate statements or references, lacked adequate information, or was of inferior quality. The facts included in the narrative (including all supporting documentation, diagrams, drawings, charts, and schedules, etc.) demonstrate the Proposer's ability to perform and deliver at a substandard and inferior level.

- UNACCEPTABLE (0.0):
  The Proposer failed to provide any information for a given criteria, provided information that could not be understood, or did not provide the information for a given category as requested.

(2) After a Selection Committee member has determined the description applicable for each evaluation criterion, the total points available for such criterion shall be multiplied by the factor associated with the applicable description to produce the number of points allocated for that evaluation criterion. For example, a Selection Committee member classifies the "Experience and Expertise" criterion (which shall be worth 25 points for the purpose of this example) as "Very Good" (which is a description factor multiplier of 0.8). The points that Selection Committee member allocated for that evaluation criterion would be 20, calculated as follows: 25 available points x 0.8 applicable description factor multiplier = 20 points.

(3) A Selection Committee member's total score for each Proposal shall equal the sum of the total points allocated for each evaluation criteria.

(4) When all Selection Committee members have completed their Proposal evaluations, the individual Selection Committee member's total scores for each Proposal will be added together to produce a final score for each Proposal.

(5) Procurement will confirm the calculations for the final score for each Proposal. Then, Procurement shall publish a rank-ordered listing of the Proposals to the Selection Committee with the Proposal receiving the highest point as the highest-ranked Proposal.

(6) In accordance with Section 287.055(4)(a), Florida Statutes, if there are three (3) or more Proposers in Elevation Level 2, the Selection Committee will elevate no fewer than the three highest scored of such Proposers to Elevation Level 3 for interviews. If there are only two Proposers in Elevation Level 2, the Selection Committee shall elevate those two Proposers to Elevation Level 3 for interviews. If there is only one Proposer in Elevation Level 2, then the Selection Committee may collectively decide if they would like to elevate the Proposer to Elevation Level 3 for interviews or if they would like to recommend the Board authorize staff to enter into Contract Negotiations with the Proposer. In the latter case, after Board approval to authorize staff to negotiate a contract, the Proposer will then be elevated to Elevation Level 4 for contract negotiations.

Elevation Level 3 (Proposer Interviews)

The Selection Committee may be required to conduct interviews of the Proposers that it has elevated from Elevation Level 2 to Elevation Level 3.

During an interview, elevated Proposers may be requested to make a presentation focusing on their qualifications, approach to the project and the ability to furnish the required services. The Selection Committee members will have an opportunity to inquire about any aspect of the RFP and the Proposer's Proposal. After all elevated Proposer interviews, each Selection Committee member will individually rank the Proposers in numerical order beginning at number 1 for the Proposer deemed to be the most highly qualified to perform the required services. In accordance with Section 287.055(4)(b), Florida Statutes, in determining whether a Proposer is qualified, each Selection Committee member shall consider such factors as:

- Ability of Personnel
- Past performance
- Willingness to meet time recent, current, & projected workloads as well as budget requirements

Procurement shall receive and compile each Selection Committee member's ranking of each Proposer, and then publish a rank-ordered listing of Proposers to the Selection Committee, based on the combined average rankings given each Proposer. The Selection Committee members will then collectively decide if they would like to recommend the Board authorize staff to enter into Contract Negotiations with the highest-ranked Proposer. The ranking sheets and copies of the interviewed Proposers proposals will be sent to FDOT for review and approval of the highest-ranked Proposer. After FDOT approval and Board approval to authorize staff to negotiate a contract, said Proposer will then be elevated to Elevation Level 4 for contract negotiations.

In the event of a tie bids, bids may be awarded to one of the bidders based on any of the following criteria listed below, or as otherwise directed by the Procurement Director to comply with all of the provisions of the procurement ordinance.

- Ability if Personnel; and
- Past performance; and
- Willingness to meet time Recent, current, and projected workloads

Elevation Level 4 (Contract Negotiations)

If a Proposer is elevated to this level, Parks & Natural Resources, Procurement and the County Attorney's Office, with the assistance of the elevated Proposer shall negotiate an Agreement in accordance with Section 287.055(5), Florida Statutes.

If after negotiating for a reasonable time period the parties cannot agree on a contract, the County shall, in its sole discretion, terminate further contract negotiations with that Proposer. Procurement shall notify the Selection Committee that contract negotiations with the elevated Proposer have terminated. The Selection Committee shall then determine whether to recommend to FDOT and the Board to approve contract negotiations with the next-highest-ranked Proposer, and so on. If the Selection Committee decides not to recommend contract negotiations with the next-highest-ranked Proposer, or if the County determines there is no other Proposer with whom the County can successfully negotiate a contract, then the RFP Selection Process shall terminate.

After contract negotiations with a Proposer are successfully completed pursuant to Elevation Level 4, the Parks & Natural Resources Division will provide copy of the Agreement executed by the Successful Proposer to FDOT to review for Federal and FDOT compliance. If, after review, FDOT determines the Agreement is in compliance they will notify the Parks & Natural Resources Division and the Negotiation Committee shall recommend to the Board of County Commissions that it selects such Proposer to provide the services as outlined in the Agreement. If, after FDOT determines the Agreement is not in compliance they will notify the Procurement Division of changes that need to be made to the Agreement. The Board of County Commissioners shall make the final decision whether to enter into an Agreement with a Proposer.

GENERAL CONDITIONS

CONTACT

After the issuance of any Request for Proposal, prospective proposers shall not contact, communicate with or discuss any matter relating in any way to the Request for Proposal with the Board of County Commissioners or any employee of Polk County other than the Procurement Director or as directed in the cover page of the Request for Proposal. This prohibition begins with the issuance of any Request for Proposal and ends upon execution of a contract. Such communications initiated by a proposer shall be grounds for disqualifying the offending proposer from consideration for award of the proposal and/or any future proposal.

INSURANCE REQUIREMENTS

The selected firm, if any, shall maintain, at all times, the following minimum levels of insurance and; shall, without in any way altering their liability, obtain, pay for and maintain insurance for the coverages and amounts of coverage not less than those set forth below. Provide to the County original Certificates of Insurance satisfactory to the County to evidence such coverage before any work commences. Polk County, a political subdivision of the State of Florida, and the State of Florida, Department of Transportation shall be an additional named insured on all policies related to the project; excluding workers' compensation and professional liability. The Workers' Compensation and General Liability policies shall contain a waiver of subrogation in favor of Polk County. All insurance coverage shall be written with a company having an A.M. Best Rating of at least the "A" category and size category of VIII. The firm's deductible per line of coverage shall not exceed $25,000 without the permission of the County. Policies that include Self Insured Retention will not be accepted. In the event of any failure by the firm to comply with the provisions; the County may, at its option, on notice to the firm suspend the project for cause until there is full compliance. Alternatively, the County may purchase such insurance at the firm's expense, provided that the County shall have no obligation to do so and if the County shall do so, the firm shall not be relieved of or excused from the obligation to obtain and maintain such insurance amounts and coverages.

Worker's Compensation and Employer's Liability Insurance providing statutory benefits, including those that may be required by any applicable federal statute:

Admitted in Florida	Yes
Employer's Liability	$200,000
All States Endorsement	Statutory
Voluntary Compensation	Statutory

Commercial General Liability Insurance. $1,000,000 combined single limit of liability for bodily injuries, death, and property damage, and personal injury resulting from any one occurrence, including the following coverages:

Premises and Operations and Products/Completed Operations;

Broad Form Commercial General Liability Endorsement to include blanket contractual liability (specifically covering, but not limited to, the contractual obligations assumed by the Firm); Personal Injury (with employment and contractual exclusions deleted) and Broad Form Property Damage coverages;

Independent Contractors; Delete Exclusion relative to Collapse, Explosion and Underground Property Damage Hazards; Policy must include Separation of Insureds Clause.

Comprehensive Automobile Liability Insurance. $1,000,000 combined single limit of liability for bodily injuries, death, and property damage, and personal injury resulting from any one occurrence, including all owned, hired and non-owned vehicles.

Professional Liability Insurance. $2,000,000 for design errors and omissions, inclusive of defense costs. Selected firm shall be required to provide continuing Professional Liability Insurance to cover the project for a period of two (2) years after the projects are completed.

INDEMNIFICATION

"To the extent provided by law, Consultant shall indemnify, defend, and hold harmless the County and the State of Florida, Department of Transportation, including the Department's officers, agents, and employees, against any actions, claims, or damages arising out of, relating to, or resulting from negligent or wrongful act(s) of Consultant, or any of its officers, agents, or employees, acting within the scope of their office or employment, in connection with the rights granted to or exercised by Consultant.

The foregoing indemnification shall not constitute a waiver of the Department's or the County's sovereign immunity beyond the limits set forth in Florida Statutes, Section 768.28. Nor shall the same be construed to constitute agreement by the Consultant to indemnify the County for the negligent acts or omissions of the County, its officers, agents, or employees, or third parties. Nor shall the same be construed to constitute agreement by the Consultant to indemnify the Department for the negligent acts or omissions of the Department, its officers, agents, or employees, or third parties. This indemnification shall survive the termination of this Agreement."

PUBLIC ENTITY CRIMES STATEMENT

A person or affiliate who has been placed on the convicted vendor list following a conviction for a public entity crime may not submit a bid/proposal on a contract to provide any goods or services to a public entity; may not submit a bid on a contract with a public entity for the construction or repair of a public building or public work; may not submit bids on leases of real property to a public entity; may not be awarded or perform work as a contractor, supplier, subcontractor, or consultant under a contract with any public entity; and may not transact business with any public entity in excess of the threshold amount provided in Section 287.017, for CATEGORY TWO

for a period of 36 months from the date of being placed on the convicted vendor list. By submitting this proposal, the proposer hereby certifies that they have complied with said statute.

EQUAL OPPORTUNITY/AFFIRMATIVE ACTION

The County is an equal opportunity/affirmative action employer. The County is committed to equal opportunity employment effort; and expects firms that do business with the County to have a vigorous affirmative action program.

WOMEN/MINORITY BUSINESS ENTERPRISE OUTREACH

The County hereby notifies all Proposers that W/MBE's are to be afforded a full opportunity to participate in any request for proposal by the County and will not be subject to discrimination on the basis of race, color, sex or national origin.

DISADVANTAGED BUSINESS ENTERPRISE (DBE)

For this FDOT assisted contract, Polk County has adopted the FDOT DBE Program goal. The FDOT began its race neutral DBE program on January 1, 2000 and has an overall 10.65% goal it must achieve. While the utilization is not mandatory in order to be awarded the contract, continuing utilization of DBE firms on contracts supports the success of Florida's Voluntary DBE Program and supports Consultant's Equal Employment Opportunity and DBE Affirmative Action Programs.
The Federal DBE Program requires States to maintain a database of all firms that are participating or attempting to participate on FDOT-assisted contracts. The list must include all firms that bid on prime contracts or bid or quote subcontracts on FDOT-assisted projects, including both DBE's and non-DBEs. Please complete the Bidders Opportunity List through the Equal Opportunity Compliance system within 3 business days of submission of the bid or proposal for ALL subcontractors or sub-consultants who quoted to you for specific project for this letting. The web address to the Equal Opportunity Compliance system is:
https://fdotwp1.dot.state.fl.us/EqualOpportunityCompliance/Account.aspx/LogIn?ReturnUrl=%2fEqualOpportunityCompliance.

TITLE VI NONDISCRIMINATION POLICY STATEMENT – During the performance of this Contract, the Consultant, for itself, its assignees and successors in interest (hereinafter referred to as the "Consultant") agrees as follows:

1. Compliance with Regulations: The Consultant shall comply with the Regulations relative to nondiscrimination in Federally assisted programs of the US Department of Transportation (hereinafter, "USDOT") Title 49, Code of Federal Regulations, Part 21, as they may be amended from time to time, (hereinafter referred to as the Regulations), which are herein incorporated by reference and made a part of this Contract.

2. Nondiscrimination: The Consultant, with regard to the work performed by it during the Contract, shall not discriminate on the basis of race, color, national origin or sex in the selection and retention of sub-Consultants, including

procurements of materials and leases of equipment. The Consultant shall not participate either directly or indirectly in the discrimination prohibited by Section 21.5 of the Regulations, including employment practices when the Contract covers a program set forth in Appendix B of the Regulations.

3. Solicitations for sub Consultants, including procurements of materials and equipment: In all solicitations either by competitive bidding or negotiation made by the Consultant for work to be performed under subcontract, including procurements of materials or leases of equipment, each potential sub Consultant or supplier shall be notified by the Consultant of the Consultant's obligations under this contract and the Regulations relative to nondiscrimination on the basis of race, color, national origin, or sex.

4. Information and Reports: The Consultant shall provide all information and reports required by the Regulations or directives issued pursuant thereto, and shall permit access to its books, records, accounts, other sources of information and its facilities as may be determined by the Florida Department of Transportation or the Federal Highway Administration, Federal Transit Administration, Federal Aviation Administration, and Federal Motor Carrier Safety Administration to be pertinent to ascertain compliance with such Regulations, order and instructions. Where any information required of a Consultant is in the exclusive possession of another who fails or refuses to furnish this information the Consultant shall so certify to the Florida Department of Transportation, or the Federal Highway Administration, Federal Transit Administration, Federal Aviation Administration, or Federal Motor Carrier Safety Administration as appropriate, and shall set forth what efforts it has made to obtain the information.

5. Sanctions for Noncompliance: In the event of the Consultant's noncompliance with the nondiscrimination provisions of this Contract, the Florida Department of Transportation shall impose such Contract sanctions as it or the Federal Highway Administration, Federal Transit Administration, Federal Aviation Administration, or Federal Motor Carrier Safety Administration may determine to be appropriate, including, but not limited to:

    a. withholding of payments to the Consultant under the Contract until the Consultant complies, or
    b. cancellation, termination or suspension of the Contract, in whole or in part.
    c. a determination of allowable costs in accordance with the Federal cost principles will be performed for services rendered under this bid

6. Incorporation of Provisions: The Consultant shall include the provisions of the 7-30.1 through 7-30.6 in every subcontract, including procurements of materials and leases of equipment, unless exempt by the Regulations, or directives issued pursuant thereto. The Consultant shall take such action with respect to any subcontract or procurement as the Florida Department of Transportation or the Federal Highway Administration, Federal Transit

Administration, Federal Aviation Administration, or Federal Motor Carrier Safety Administration may direct as a means of enforcing such provisions including sanctions for noncompliance, provided, however, that, in the event a Consultant becomes involved in, or is threatened with, litigation with a subcontractor or supplier as a result of such direction, the Consultant may request the Florida Department of Transportation to enter into such litigation to protect the interests of the Florida Department of Transportation, and, in addition, the Consultant may request the United States to enter into such litigation to protect the interests of the United States.

During the performance of this Contract, the Consultant, for itself, its assignees, and successors in interest (hereinafter referred to as the "Consultant" agrees to comply with the following non-discrimination statutes and authorities; including but not limited to:

1. Title VI of the Civil Rights Act of 1964 (42 U.S.C. § 2000d et seq., 78 stat. 252), (prohibits discrimination on the basis of race, color, national origin); and 49 CFR Part 21;

2. The Uniform Relocation Assistance and Real Property Acquisition Policies Act of 1970, (42 U.S.C. § 4601), (prohibits unfair treatment of persons displaced or whose property has been acquired of Federal or Federal-aid programs and projects);

3. Federal-Aid Highway Act of 1973, (23 U.S.C § 324 et seq.), (prohibits discrimination on the basis of sex);

4. Section 504 of the Rehabilitation Act of 1973 (29 U.S.C. § 794 et seq.), as amended, (prohibits discrimination on the basis of disability); and 49 CFR Part 27;

5. The Age Discrimination Act of 1975, as amended, (42 U.S.C. § 6101 et seq.), (prohibits discrimination on the basis of age);

6. Airport and Airway Improvement Act of 1982, (49 U.S.C. 471, Section 47123), as amended, (prohibits discrimination based on race, creed, color national origins or sex);

7. The Civil Rights Restoration Act of 1987 (PL 100-209), (Broadened the scope, coverage and applicability of Title VI of the Civil Rights Act of 1964, The Age Discrimination Act of 1975 and Section 504 of the Rehabilitation Act of 1973, by expanding the definition of the terms "programs or activities" to include all of the programs or activities of the Federal-aid recipients, sub-recipients and contractors, whether such programs or activities are Federally funded or not);

8. Titles II and III of the Americans with Disabilities Act, which prohibits discrimination on the basis of disability in the operation of public entities, public and private transportation systems, places of public accommodation, and

certain testing entities (42 U.S.C. §§ 12131 – 12189) as implemented by Department of Transportation regulations at 49 C.F.R. parts 37 and 38;

AFFIRMATION

By submitting his/her proposal, the Proposer affirms that the proposal is genuine and not made in the interest of or on behalf of any undisclosed person, firm or corporation and is not submitted in conformity with any agreement or rules of any group, association, organization or corporation; the Proposer has not directly or indirectly induced or solicited any other person to submit a false or sham proposal; the Proposer has not solicited or induced any person, firm or corporation to refrain from submitting a proposal; and the Proposer has not sought by collusion to obtain for him/herself any advantage over other persons or over the County.

DEVELOPMENT COSTS

Neither the County nor its representative(s) shall be liable for any expenses incurred in connection with preparation of a response to the RFP. Proposers should prepare their proposals simply and economically, providing a straightforward and concise description of the proposer's ability to meet the requirements of the RFP.

ADDENDA

The County may record its responses to inquiries and any supplemental instructions in the form of written addenda. The addenda will be posted on the County's website at http://www.polk-county.net/procurement/procurement-bids. It is the sole responsibility of the proposers to check the website to ensure that all available information has been received prior to submitting a proposal.

CODE OF ETHICS

If any proposer violates or is a party to a violation of the code of ethics of Polk County or the State of Florida, with respect to this proposal, such proposer may be disqualified from performing the work described in this proposal or from furnishing the goods or services for which the proposal is submitted and shall be further disqualified from bidding on any future proposals for work, goods, or services for the County.

TRUTH IN NEGOTIATION

Pursuant to Section 287.055(5)(a), Florida Statutes, the agency shall negotiate a contract with the most qualified firm for professional services at compensation which the agency determines is fair, competitive, and reasonable. In making such determination, the agency shall conduct a detailed analysis of the cost of the professional services required in addition to considering their scope and complexity. For any lump-sum or cost –plus-a-fixed-fee professional service contract over the threshold amount provided in s. 287.017 for CATEGORY FOUR, the agency shall require the firm receiving the award to execute a truth-in-negotiation certificate stating that wage rates and other factual unit costs supporting the compensation are

accurate, complete, and current at the time of contracting. Any professional service contract under which such a certificate is required must contain a provision that the original contract price and any additions thereto will be adjusted to exclude any significant sums by which the agency determines the contract price was increased due to inaccurate, incomplete, or noncurrent wage rates and other factual unit costs. All such contract adjustments must be made within 1 year following the end of the contract.

APPLICABLE LAWS AND COURTS

This RFP and any resulting agreements shall be governed in all respects by the laws of the State of Florida and any litigation with respect thereto shall be brought only in the courts of Polk County, State of Florida or the Middle District of Florida, Hillsborough County, Florida. The proposer shall comply with all applicable federal, state and local laws and regulations.

CONTRACT

All contracts are subject to final approval of the Polk County Board of County Commissioners and FDOT. Persons or firms which incur expenses or change position in anticipation of a contract prior to the Board's approval do so at their own risk.

PROPOSAL ACCEPTANCE PERIOD

A proposal shall be binding upon the offeror and irrevocable by it for one hundred and eighty (180) calendar days following the proposal opening date. Any proposal in which offeror shortens the acceptance period may be rejected.

ADDITION/DELETION

The County reserves the right to add to or delete any item from this proposal or resulting agreements when deemed to be in the best interest of the County.

PROPRIETARY INFORMATION

In accordance with Chapter 119 of the Florida Statutes (Public Records Law), and except as may be provided by other applicable State and Federal Law, all proposers should be aware that Request for Proposals and the responses thereto are in the public domain. However, the proposers are **required** to **identify specifically** any information contained in their proposals which they consider confidential and/or proprietary and which they believe to be exempt from disclosure, **citing specifically the applicable exempting law.**

All proposals received from proposers in response to this Request for Proposal will become the property of the County and will not be returned to the proposers. In the event of contract award, all documentation produced as part of the contract will become the exclusive property of the County.

REVIEW OF PROPOSAL FILES

In accordance with Chapter 119.071 of the Florida Statutes, the responses received for this Request for Proposal are exempt from review for thirty (30) days after the Bid Opening Date or at Recommendation of Award, whichever event occurs first.
Should the RFP be cancelled and re-solicited for any reason, proposal responses shall remain exempt from disclosure for a period not to exceed twelve (12) months or at Recommendation of Award of the subsequent solicitation.
RFP PROTEST: Any proposer desiring to file a protest, with respect to a recommended award of any RFP, shall do so by filing a written protest. The written protest must be in the possession of the Procurement Division within three (3) working days of the Notice of Recommended Award mailing date. All proposers who submitted a proposal will be sent a Notice of Recommended Award, unless only one proposal was received.

A copy of the protest procedures may be obtained from the Polk County Procurement Division or can be downloaded from the County's website at http://www.polk-county.net/docs/default-source/procurement/protest-procedures.pdf?sfvrsn=2.

FAILURE TO FOLLOW PROTEST PROCEDURE REQUIREMENTS WITHIN THE TIME FRAMES PRESCRIBED HEREIN AS ESTABLISHED BY POLK COUNTY, FLORIDA, SHALL CONSTITUTE A WAIVER OF THE PROPOSER'S RIGHT TO PROTEST AND ANY RESULTING CLAIM.

UNAHTHORIZED ALIEN(S)

The vendor agrees that unauthorized aliens shall not be employed nor utilized in the performance of the requirements of this solicitation. The County shall consider the employment or utilization of unauthorized aliens a violation of Section 274A (e) of the Immigration and Naturalization Act (8 U.S.C. 1324a). Such violation shall be cause for unilateral termination of this Agreement by the County. As part of the response to this solicitation, the successful firm will complete and submit the attached form "AFFIDAVIT CERTIFICATION IMMIGRATION LAWS."

EMPLOYMENT ELIGIBILITY VERIFICATION (E-Verify)

A. For purposes of this section, the following terms shall have the meanings ascribed to them below, or as may otherwise be defined in Section 448.095, Florida Statutes, as amended from time to time:

(i) "Consultant" means a person or entity that has entered or is attempting to enter into a contract with a public employer to provide labor, supplies, or services to such employer in exchange for salary, wages, or other remuneration; and

(ii) "E-Verify system" means an Internet-based system operated by the United States Department of Homeland Security that allows participating employers to electronically verify the employment eligibility of newly hired employees; and

(iii) "Subconsultant" means a person or entity that provides labor, supplies, or services to or for a consultant or another subconsultant in exchange for salary, wages, or other remuneration.

B. Pursuant to Section 448.095(2)(a), Florida Statutes, effective January 1, 2021, public employers, consultants and subconsultants shall register with and use the E-verify system in order to verify the work authorization status of all newly hired employees. The Consultant acknowledges and agrees to utilize the U.S. Department of Homeland Security's E-Verify System to verify the employment eligibility of:

(i) All persons employed by the Consultant to perform employment duties during the term of this contract; and

(ii) All persons (including sub-vendors/subconsultants/subcontractors) assigned by the Consultant to perform work pursuant to this contract.

C. The Consultant acknowledges and agrees that use of the U.S. Department of Homeland Security's E-Verify System and compliance with all other terms of this section is an express condition of this contract, and the County may treat a failure to comply as a material breach of this contract. By entering into this contract, the Consultant becomes obligated to comply with the provisions of Section 448.095, Fla. Stat., "Employment Eligibility," as amended from time to time. This includes but is not limited to utilization of the E-Verify System to verify the work authorization status of all newly hired employees and requiring all subconsultants to provide an affidavit attesting that the subconsultant does not employ, contract with, or subcontract with, an unauthorized alien. The *Consultant* shall maintain a copy of such affidavit for the duration of the contract. Failure to comply will lead to termination of this contract, or if a subconsultant knowingly violates the statute, the subcontract must be terminated immediately. Any challenge to termination under this provision must be filed in the Tenth Judicial Circuit Court of Florida no later than 20 calendar days after the date of termination. If this contract is terminated for a violation of the statute by the Consultant, the Consultant may not be awarded a public contract for a period of 1 year after the date of termination. The Consultant shall be liable for any additional costs incurred by the County as a result of the termination of this contract. Nothing in this section shall be construed to allow intentional discrimination of any class protected by law.

LIMITATIONS

This request does not commit Polk County to award a contract. Proposers will assume all costs incurred in the preparation of their response to this RFP. The County reserves the right to: 1) accept or reject qualifications and/or proposals in part or in whole; 2) request additional qualification information; 3) limit and determine the actual contract services to be included in a contract; 4) obtain information for use in evaluating submittals from any source and 5) reject all submittals.

INVOICING AND PAYMENT: The successful proposer shall submit a properly certified invoice to the County at the contract prices. **An original invoice shall be submitted to the appropriate User Division.** The proposer shall include the contract number and/or the purchase order number on all invoices. By submitting an invoice, the proposer's Project Manager or any authorized officer is attesting to the correctness and accuracy of all charges. Invoices will be processed for payment when approved by the appropriate Division's Project Manager or designee. The County's payment of an invoice shall not constitute evidence of the County's acceptance of the Proposers performance of the Service or the County's acceptance of any work.

ATTORNEY'S FEES AND COSTS: Each party shall be responsible for its own legal and attorney's fees, costs and expenses incurred in connection with any dispute or any litigation arising out of, or relating to this Agreement, including attorney's fees, costs and expenses incurred for any appellate or bankruptcy proceedings.

PUBLIC RECORD LAWS

(a) The Consultant acknowledges the County's obligations under Article I, Section 24, of the Florida Constitution and under Chapter 119, Florida Statutes, to release public records to members of the public upon request and comply in the handling of the materials created under this Agreement. The Consultant further acknowledges that the constitutional and statutory provisions control over the terms of this Agreement. In association with its performance pursuant to this Agreement, the Consultant shall not release or otherwise disclose the content of any documents or information that is specifically exempt from disclosure pursuant to all applicable laws.

(b) Without in any manner limiting the generality of the foregoing, to the extent applicable, the Consultant acknowledges its obligations to comply with Section 119.0701, Florida Statutes, with regard to public records, and shall:

(1) keep and maintain public records required by the County to perform the services required under this Agreement;

(2) upon request from the County's Custodian of Public Records or his/her designee, provide the County with a copy of the requested records or allow the records to be inspected or copied within a reasonable time at a cost that does not exceed the cost provided in Chapter 119, Florida Statutes, or as otherwise provided by law;

(3) ensure that public records that are exempt or confidential and exempt from public records disclosure requirements are not disclosed except as authorized by law for the duration of the term of this Agreement and following

completion of this Agreement if the Consultant does not transfer the records to the County; and

(4) upon completion of this Agreement, transfer, at no cost, to the County all public records in possession of the Consultant or keep and maintain public records required by the County to perform the service. If the Consultant transfers all public records to the County upon completion of this Agreement, the Consultant shall destroy any duplicate public records that are exempt or confidential and exempt from public records disclosure requirements. If the Consultant keeps and maintains public records upon completion of this Agreement, the Consultant shall meet all applicable requirements for retaining public records. All records stored electronically must be provided to the County, upon request from the County's Custodian of Public Records, in a format that is compatible with the information technology systems of the County.

(c) **IF THE CONSULTANT HAS QUESTIONS REGARDING THE APPLICATION OF CHAPTER 119, FLORIDA STATUTES, TO THE CONSULTANT'S DUTY TO PROVIDE PUBLIC RECORDS RELATING TO THIS AGREEMENT, CONTACT THE COUNTY'S CUSTODIAN OF PUBLIC RECORDS AT:**

RECORDS MANAGEMENT LIAISON OFFICER
POLK COUNTY
330 WEST CHURCH ST.
BARTOW, FL 33830
TELEPHONE: (863) 534-7527
EMAIL: RMLO@POLK-COUNTY.NET

RECORD RETENTION: Records are to be retained by the County and the Vendor for a minimum of ten (10) years from the date of final payment.

EVALUATION OF PERFORMANCE: The County project manager will complete a performance evaluation on the Successful Proposer upon completion of the scope of services described in this RFP.

ALLOWABLE COSTS: A determination of allowable costs in accordance with the Federal cost principles will be performed for services rendered under this contract.

TERMINATION: The County may terminate this Agreement, in whole or in part, at any time, either for the County's convenience or because of the failure of the Consultant to fulfill its obligations under this Agreement, by delivering written notice to the Consultant. Upon receipt of such notice, the Consultant shall:

1. Immediately discontinue all affected Services unless the notice directs otherwise, and
2. Deliver to the County all data, reports, summaries, and any and all such other information and materials of whatever type or nature as may have been accumulated by the Consultant in performing this Agreement, whether completed or in process.

3. Unless in dispute or subject to the County's right of set-off or other remedy, the Consultant shall be paid for Services actually rendered to the date of termination.
4. The rights and remedies of the County provided are in addition and supplemental to any and all other rights and remedies provided by law or under this agreement.

CONFLICT OF INTEREST: In accordance with 2 CFR 200.112, 23 CRF 1.33, & 23 CFR 172.7(b)(4), no official or employee of a State or any other governmental instrumentality who is authorized in his official capacity to negotiate, make, accept or approve, or to take part in negotiating, making, accepting or approving any contract or subcontract in connection with a project shall have, directly or indirectly, any financial or other personal interest in any such contract or subcontract. No engineer, attorney, appraiser, inspector or other person performing services for a State or a governmental instrumentality in connection with a project shall have, directly or indirectly, a financial or other personal interest, other than his employment or retention by a State or other governmental instrumentality, in any contract or subcontract in connection with such project. No officer or employee of such person retained by a State or other governmental instrumentality shall have, directly or indirectly, any financial or other personal interest in any real property acquired for a project unless such interest is openly disclosed upon the public records of the State highway department and of such other governmental instrumentality, and such officer, employee or person has not participated in such acquisition for and in behalf of the State. It shall be the responsibility of the State to enforce the requirements of this section.

THE FOLLOWING SECTION SHOULD BE COMPLETED BY ALL PROPOSERS:

EXHIBIT 1
DETAILED INSTRUCTIONS ON HOW TO PREPARE AND SEND PERFORMANCE SURVEYS

The objective of this process is to identify the past performance of the firm submitting a proposal package. This is accomplished by sending survey forms to past customers. The customers should return the forms directly to the Consultant. The Consultant is to include all surveys in their proposal package.

Sending the Survey
The surveys shall be sent to all clients for whom the Consultant has identified under Tab 3. Surveys should correlate to all projects identified under Tab 3.

If more surveys are included then Procurement will only use those identified under Tab 3.

1. The Consultant shall complete the following information for each customer that a survey will be sent

CLIENT NAME	Name of the company or institution that the work was performed for (i.e. Cactus School District, Rock Industries, City of Austin).
FIRST NAME	First name of the person who will answer customer satisfaction questions.
LAST NAME	Last name of the person who will answer customer satisfaction questions.
PHONE NUMBER	Current phone number for the reference (including area code).
EMAIL ADDRESS	Current email address for the reference.
PROJECT NAME	Name of the project (Engineering Services for X Project) (Engineering Services for X Project), Etc.
COST OF SERVICES	Cost of services ($150,000)
DATE COMPLETE	Date when the services were completed. (i.e. 5/31/2018)

2. The Consultant is responsible for verifying that their information is accurate prior to submission for references.

3. The survey must contain different services/projects. You cannot have multiple people evaluating the same job. However, one person may evaluate several different jobs.

4. The past projects can be either completed or on-going.

5. The past client/owner must evaluate and complete the survey.

Preparing the Surveys

1. The Consultant is responsible for sending out a performance survey to the clients that have been identified under Tab 3. The survey can be found on the next page.

2. The Consultant should enter the past clients' contact information, and project information on each survey form for each reference. The Consultant should also enter the name of the Consultant being surveyed.

4. The Consultant is responsible for ensuring all references/surveys are included in their submittal under Tab 6.

5. Polk County Procurement may contact the reference for additional information or to clarify survey data. If the reference cannot be contacted, there will be no credit given for that reference.

Survey Questionnaire – Polk County

RFP 23-197, P.E. Services for Lake Hancock Multiuse Trail Connection– LAP

To: _____ _____

SWORN STATEMENT PURSUANT TO SECTION 287.133(3)(a),
FLORIDA STATUTES, ON PUBLIC ENTITY CRIMES

THIS FORM MUST BE SIGNED AND SWORN TO IN THE PRESENCE OF A NOTARY PUBLIC OR OTHER OFFICIAL AUTHORIZED TO AND MINISTER OATHS.

1. This sworn statement is submitted to _____
[print name of the public entity]

by _____
[print individual's name and title]

for _____
[print name of entity submitting sworn statement]

whose business address is

_____

_____

and (if applicable) its Federal Employer Identification Number (FEIN) is _____

(If the entity has no FEIN, include the Social Security Number of the individual signing this sworn

statement: _____.)

2. I understand that a "public entity crime" as defined in Paragraph 287.133(1)(g), Florida Statutes, means a violation of any state or federal law by a person with respect to and directly related to the transaction of business with any public entity or with an agency or political subdivision of any other state or of the United States, including, but not limited to, any bid or contract for goods or services to be provided to any public entity or an agency or political subdivision of any other state or of the United States and involving antitrust, fraud, theft, bribery, collusion, racketeering, conspiracy, or material misrepresentation.

3. I understand that "convicted" or "conviction" as defined in Paragraph 287.133(1)(b), Florida Statutes, means a finding of guilt or a conviction of a public entity crime, with or without an adjudication of guilt, in any federal or state trial court of record relating to charges brought by indictment or information after July 1, 1989, as a result of a jury verdict, nonjury trial, or entry of a plea of guilty or nolo contendere.

4. I understand that an "affiliate" as defined in Paragraph 287.133(1)(a), Florida Statutes, means:
1. A predecessor or successor of a person convicted of a public entity crime; or
2. An entity under the control of any natural person who is active in the management of the entity and who has been convicted of a public entity crime. The term "affiliate" includes those officers, directors, executives, partners, shareholders, employees, members, and agents who are active in the management of an affiliate. The ownership by one person of shares constituting a controlling interest in another person, or a pooling of equipment or income among persons when not for fair market value under an arm's length agreement, shall be a prima facie case that one person controls another person. A person who knowingly enters into a joint venture with a person who has been convicted of a public entity crime in Florida during the preceding 36 months shall be considered an affiliate.

5. I understand that a "person" as defined in Paragraph 287.133(1)(e), Florida Statutes, means any natural person or entity organized under the laws of any state or of the United States with the legal power to enter into a binding contract and which bids or applies to bid on contracts for the provision of goods or services let by a public entity, or which otherwise transacts or applies to transact business with a public entity. The term "person" includes those officers, directors, executives, partners, shareholders, employees, members, and agents who are active in management of an entity.

6. Based on information and belief, the statement which I have marked below is true in relation to the entity submitting this sworn statement. [Indicate which statement applies]

_____ Neither the entity submitting this sworn statement, nor any of its officers, directors, executives, partners, shareholders, employees, members, or agents who are active in the management of the entity, nor any affiliate of the entity has been charged with and convicted of a public entity crime subsequent to July 1, 1989.

_____ The entity submitting this sworn statement, or one or more of its officers, directors, executives, partners, shareholders, employees, members, or agents who are active in the management of the entity, or an affiliate of the entity has been charged with and convicted of a public entity crime subsequent to July 1, 1989.

_____ The entity submitting this sworn statement, or one or more of its officers, directors, executives, partners, shareholders, employees, members, or agents who are active in the management of the entity or an affiliate of the entity has been charged with and convicted of a public entity crime subsequent to July 1, 1989. However, there has been a subsequent proceeding before a Hearing Officer of the State of Florida, Division of Administrative hearings and the Final Order entered by the Hearing Officer determined that it was not in the public interest to place the entity submitting this sworn statement on the convicted vendor list. (attach a copy of the final order)

I UNDERSTAND THAT THE SUBMISSION OF THE FORM TO THE CONTRACTING OFFICER FOR THE PUBLIC ENTITY IDENTIFIED IN PARAGRAPH 1 (ONE) ABOVE IS FOR THAT PUBLIC ENTITY ONLY AND, THAT THIS FORM IS VALID THROUGH DECEMBER 31 OF THE CALENDAR YEAR IN WHICH IT IS FILED. I ALSO UNDERSTAND THAT I AM REQUIRED TO INFORM THE PUBLIC ENTITY PRIOR TO ENTERING INTO A CONTRACT IN EXCESS OF THE THRESHOLD AMOUNT PROVIDED IN SECTION 287.017, FLORIDA STATUTES FOR CATEGORY TWO OF ANY CHANGE IN THE INFORMATION CONTAINED IN THIS FORM.

Form PUR 7068 (Rev 6/11/92)

LOCAL GOVERNMENT PROMPT PAYMENT ACT

218.70 Popular name.

218.71 Purpose and policy.

218.72 Definitions.

218.73 Timely payment for non-construction services.

218.735 Timely payment for purchases of construction services.

218.74 Procedures for calculation of payment due dates.

218.75 Mandatory interest.

218.76 Improper payment request or invoice; resolution of disputes.

218.77 Payment by federal funds.

218.78 Report of interest.

218.79 Repeal of conflicting laws.

218.80 Public Bid Disclosure Act.

218.70 Popular name. --This part may be cited as the "Local Government Prompt Payment Act."

History.--s. 4, ch. 89-297; s. 1, ch. 2005-230.

218.71 Purpose and policy.--

(1) The purpose of this part is:

(a) To provide for prompt payments by local governmental entities and their institutions and agencies.

(b) To provide for interest payments on late payments made by local governmental entities and their institutions and agencies.

(c) To provide for a dispute resolution process for payment of obligations.

(2) It is the policy of this state that payment for all purchases by local governmental entities be made in a timely manner.

History.--s. 4, ch. 89-297.

218.72 Definitions.--As used in this part:

(1) "Proper invoice" means an invoice which conforms with all statutory requirements and with all requirements that have been specified by the local governmental entity to which the invoice is submitted.

(2) "Local governmental entity" means a county or municipal government, school board, school district, authority, special taxing district, other political subdivision, or any office, board, bureau, commission, department, branch, division, or institution thereof.

(3) "County" means a political subdivision of the state established pursuant to s. 1, Art. VIII of the State Constitution.

(4) "Municipality" means a municipality created pursuant to general or special law and metropolitan and consolidated governments as provided in s. 6(e) and (f), Art. VIII of the State Constitution.

(5) "Purchase" means the purchase of goods, services, or construction services; the purchase or lease of personal property; or the lease of real property by a local governmental entity.

(6) "Vendor" means any person who sells goods or services, sells or leases personal property, or leases real property directly to a local governmental entity. The term includes any person who provides waste hauling services to residents or businesses located within the boundaries of a local government pursuant to a contract or local ordinance.

(7) "Construction services" means all labor, services, and materials provided in connection with the construction, alteration, repair, demolition, reconstruction, or any other improvements to real property.

(8) "Payment request" means a request for payment for construction services which conforms with all statutory requirements and with all requirements specified by the local governmental entity to which the payment request is submitted.

(9) "Agent" means project architect, project engineer, or any other agency or person acting on behalf of the local governmental entity.

(10) "Contractor" or "provider of construction services" means any person who contracts directly with a local governmental entity to provide construction services.

History.--s. 4, ch. 89-297; s. 1, ch. 95-331; s. 1, ch. 2001-169; s. 2, ch. 2005-230.

218.73 Timely payment for non-construction services.--The time at which payment is due for a purchase other than construction services by a local governmental entity must be calculated from:

(1) The date on which a proper invoice is received by the chief disbursement officer of the local governmental entity after approval by the governing body, if required; or

(2) If a proper invoice is not received by the local governmental entity, the date:

(a) On which delivery of personal property is accepted by the local governmental entity;

(b) On which services are completed;

(c) On which the rental period begins; or

(d) On which the local governmental entity and vendor agree in a contract that provides dates relative to payment periods; whichever date is latest.

History.--s. 4, ch. 89-297; s. 2, ch. 95-331; s. 2, ch. 2001-169.

218.735 Timely payment for purchases of construction services.--

(1) The due date for payment for the purchase of construction services by a local governmental entity is determined as follows:

(a) If an agent must approve the payment request or invoice prior to the payment request or invoice being submitted to the local governmental entity, payment is due 25 business days after the date on which the payment request or invoice is stamped as received as provided in s. 218.74(1).

(b) If an agent need not approve the payment request or invoice which is submitted by the contractor, payment is due 20 business days after the date on which the payment request or invoice is stamped as received as provided in s. 218.74(1).

(2) The local governmental entity may reject the payment request or invoice within 20 business days after the date on which the payment request or invoice is stamped as received as provided in s. 218.74(1). The rejection must be written and must specify the deficiency in the payment request or invoice and the action necessary to make the payment request or invoice proper.

(3) If a payment request or an invoice is rejected under subsection (2) and the contractor submits a corrected payment request or invoice which corrects the deficiency specified in writing by the local governmental entity, the corrected payment request or invoice must be paid or rejected on the later of:

(a) Ten business days after the date the corrected payment request or invoice is stamped as received as provided in s. 218.74(1); or

(b) If the governing body is required by ordinance, charter, or other law to approve or reject the corrected payment request or invoice, the first business day after the next regularly scheduled meeting of the governing body held after the corrected payment request or invoice is stamped as received as provided in s. 218.74(1).

(4) If a dispute between the local governmental entity and the contractor cannot be resolved by the procedure in subsection (3), the dispute must be resolved in accordance with the dispute resolution procedure prescribed in the construction contract or in any applicable ordinance. In the absence of a prescribed procedure, the dispute must be resolved by the procedure specified in s. 218.76(2).

(5) If a local governmental entity disputes a portion of a payment request or an invoice, the undisputed portion shall be paid timely, in accordance with subsection (1).

(6) When a contractor receives payment from a local governmental entity for labor, services, or materials furnished by subcontractors and suppliers hired by the contractor, the contractor shall remit payment due to those subcontractors and suppliers within 10 days after the contractor's receipt of payment. When a subcontractor receives payment from a contractor for labor, services, or materials furnished by subcontractors and suppliers hired by the subcontractor, the subcontractor shall remit payment due to those subcontractors and suppliers within 7 days after the subcontractor's receipt of payment. Nothing herein shall prohibit a contractor or subcontractor from disputing, pursuant to the terms of the relevant contract, all or any portion of a payment alleged to be due to another party if the contractor or subcontractor notifies the party whose payment is disputed, in writing, of the amount in dispute and the actions required to cure the dispute. The contractor or subcontractor must pay all undisputed amounts due within the time limits imposed by this section.

(7)(a) Each contract for construction services between a local governmental entity and a contractor must provide for the development of a list of items required to render complete, satisfactory, and acceptable the construction services purchased by the local governmental entity. The contract must specify the process for the development of the list, including responsibilities of the local governmental entity and the contractor in developing and reviewing the list and a reasonable time for developing the list, as follows:

1. For construction projects having an estimated cost of less than $10 million, within 30 calendar days after reaching substantial completion of the construction services purchased as defined in the contract, or, if not defined in the contract, upon reaching beneficial occupancy or use; or

2. For construction projects having an estimated cost of $10 million or more, within 30 calendar days, unless otherwise extended by contract not to exceed 60 calendar days, after reaching substantial completion of the construction services purchased as defined in the contract, or, if not defined in the contract, upon reaching beneficial occupancy or use.

(b) If the contract between the local governmental entity and the contractor relates to the purchase of construction services on more than one building or structure, or involves a multiphased project, the contract must provide for the development of a list of items required to render complete, satisfactory, and acceptable all the construction services purchased pursuant to the contract for each building, structure, or phase of the project within the time limitations provided in paragraph (a).

(c) The failure to include any corrective work or pending items not yet completed on the list developed pursuant to this subsection does not alter the responsibility of the contractor to complete all the construction services purchased pursuant to the contract.

(d) Upon completion of all items on the list, the contractor may submit a payment request for all remaining retainage withheld by the local governmental entity pursuant to this section. If a good faith dispute exists as to whether one or more items identified on the list have been completed pursuant to the contract, the local governmental entity may continue to withhold an amount not to exceed 150 percent of the total costs to complete such items.

(e) All items that require correction under the contract and that are identified after the preparation and delivery of the list remain the obligation of the contractor as defined by the contract.

(f) Warranty items may not affect the final payment of retainage as provided in this section or as provided in the contract between the contractor and its subcontractors and suppliers.

(g) Retainage may not be held by a local governmental entity or a contractor to secure payment of insurance premiums under a consolidated insurance program or series of insurance policies issued to a local governmental entity or a contractor for a project or group of projects, and the final payment of retainage as provided in this section may not be delayed pending a final audit by the local governmental entity's or contractor's insurance provider.

(h) If a local governmental entity fails to comply with its responsibilities to develop the list required under paragraph (a) or paragraph (b), as defined in the contract, within the time limitations provided in paragraph (a), the contractor may submit a payment request for all remaining retainage withheld by the local governmental entity pursuant to this section. The local governmental entity need not pay or process any payment request for retainage if the contractor has, in whole or in part, failed to cooperate with the local governmental entity in the development of the list or failed to perform its contractual responsibilities, if any, with regard to the development of the list or if paragraph (8)(f) applies.

(8)(a) With regard to any contract for construction services, a local governmental entity may withhold from each progress payment made to the contractor an amount not exceeding 10 percent of the payment as retainage until 50-percent completion of such services.

(b) After 50-percent completion of the construction services purchased pursuant to the contract, the local governmental entity must reduce to 5 percent the amount of retainage withheld from each subsequent progress payment made to the contractor. For purposes of this subsection, the term "50-percent completion" has the meaning set forth in the contract between the local governmental entity and the contractor or, if not defined in the contract, the point at which the local governmental entity has expended 50 percent of the total cost of the construction services purchased as identified in the contract together with all costs associated with existing change orders and other additions or modifications to the construction services provided for in the contract. However, notwithstanding this subsection, a municipality having a population of 25,000 or fewer, or a county having a population of 100,000 or fewer, may withhold retainage in an amount not exceeding 10

percent of each progress payment made to the contractor until final completion and acceptance of the project by the local governmental entity.

(c) After 50-percent completion of the construction services purchased pursuant to the contract, the contractor may elect to withhold retainage from payments to its subcontractors at a rate higher than 5 percent. The specific amount to be withheld must be determined on a case-by-case basis and must be based on the contractor's assessment of the subcontractor's past performance, the likelihood that such performance will continue, and the contractor's ability to rely on other safeguards. The contractor shall notify the subcontractor, in writing, of its determination to withhold more than 5 percent of the progress payment and the reasons for making that determination, and the contractor may not request the release of such retained funds from the local governmental entity.

(d) After 50-percent completion of the construction services purchased pursuant to the contract, the contractor may present to the local governmental entity a payment request for up to one-half of the retainage held by the local governmental entity. The local governmental entity shall promptly make payment to the contractor, unless the local governmental entity has grounds, pursuant to paragraph (f), for withholding the payment of retainage. If the local governmental entity makes payment of retainage to the contractor under this paragraph which is attributable to the labor, services, or materials supplied by one or more subcontractors or suppliers, the contractor shall timely remit payment of such retainage to those subcontractors and suppliers.

(e) This section does not prohibit a local governmental entity from withholding retainage at a rate less than 10 percent of each progress payment, from incrementally reducing the rate of retainage pursuant to a schedule provided for in the contract, or from releasing at any point all or a portion of any retainage withheld by the local governmental entity which is attributable to the labor, services, or materials supplied by the contractor or by one or more subcontractors or suppliers. If a local governmental entity makes any payment of retainage to the contractor which is attributable to the labor, services, or materials supplied by one or more subcontractors or suppliers, the contractor shall timely remit payment of such retainage to those subcontractors and suppliers.

(f) This section does not require the local governmental entity to pay or release any amounts that are the subject of a good faith dispute, the subject of a claim brought pursuant to s. 255.05, or otherwise the subject of a claim or demand by the local governmental entity or contractor.

(g) The time limitations set forth in this section for payment of payment requests apply to any payment request for retainage made pursuant to this section.

(h) Paragraphs (a)-(d) do not apply to construction services purchased by a local governmental entity which are paid for, in whole or in part, with federal funds and are subject to federal grantor laws and regulations or requirements that are contrary to any provision of the Local Government Prompt Payment Act.

(i) This subsection does not apply to any construction services purchased by a local governmental entity if the total cost of the construction services purchased as identified in the contract is $200,000 or less.

(9) All payments due under this section and not made within the time periods specified by this section shall bear interest at the rate of 1 percent per month, or the rate specified by contract, whichever is greater.

History.--s. 3, ch. 95-331; s. 3, ch. 2001-169; s. 3, ch. 2005-230.

218.74 Procedures for calculation of payment due dates.--

(1) Each local governmental entity shall establish procedures whereby each payment request or invoice received by the local governmental entity is marked as received on the date on which it is delivered to an agent or employee of the local governmental entity or of a facility or office of the local governmental entity.

(2) The payment due date for a local governmental entity for the purchase of goods or services other than construction services is 45 days after the date specified in s. 218.73. The payment due date for the purchase of construction services is specified in s. 218.735.

(3) If the terms under which a purchase is made allow for partial deliveries and a payment request or proper invoice is submitted for a partial delivery, the time for payment for the partial delivery must be calculated from the time of the partial delivery and the submission of the payment request or invoice in the same manner as provided in s. 218.73 or s. 218.735.

(4) All payments, other than payments for construction services, due from a local governmental entity and not made within the time specified by this section bear interest from 30 days after the due date at the rate of 1 percent per month on the unpaid balance. The vendor must invoice the local governmental entity for any interest accrued in order to receive the interest payment. Any overdue period of less than 1 month is considered as 1 month in computing interest. Unpaid interest is compounded monthly. For the purposes of this section, the term "1 month" means a period beginning on any day of one month and ending on the same day of the following month.

History.--s. 4, ch. 89-297; s. 4, ch. 95-331; s. 4, ch. 2001-169.

218.75 Mandatory interest.--No contract between a local governmental entity and a vendor or a provider of construction services shall prohibit the collection of late payment interest charges allowable under this part.

History.--s. 4, ch. 89-297; s. 5, ch. 2001-169.

218.76 Improper payment request or invoice; resolution of disputes.--

(1) In any case in which an improper payment request or invoice is submitted by a vendor, the local governmental entity shall, within 10 days after the improper payment request or invoice is received by it, notify the vendor that the payment request or invoice is improper and indicate what corrective action on the part of the vendor is needed to make the payment request or invoice proper.

(2) In the event a dispute occurs between a vendor and a local governmental entity concerning payment of a payment request or an invoice, such disagreement shall be finally determined by the

local governmental entity as provided in this section. Each local governmental entity shall establish a dispute resolution procedure to be followed by the local governmental entity in cases of such disputes. Such procedure shall provide that proceedings to resolve the dispute shall be commenced not later than 45 days after the date on which the payment request or proper invoice was received by the local governmental entity and shall be concluded by final decision of the local governmental entity not later than 60 days after the date on which the payment request or proper invoice was received by the local governmental entity. Such procedures shall not be subject to chapter 120, and such procedures shall not constitute an administrative proceeding which prohibits a court from deciding de novo any action arising out of the dispute. If the dispute is resolved in favor of the local governmental entity, then interest charges shall begin to accrue 15 days after the local governmental entity's final decision. If the dispute is resolved in favor of the vendor, then interest shall begin to accrue as of the original date the payment became due.

(3) In an action to recover amounts due under ss. 218.70-218.80, the court shall award court costs and reasonable attorney's fees, including fees incurred through any appeal, to the prevailing party, if the court finds that the nonprevailing party withheld any portion of the payment that is the subject of the action without any reasonable basis in law or fact to dispute the prevailing party's claim to those amounts.

History.--s. 4, ch. 89-297; s. 6, ch. 2001-169; s. 34, ch. 2002-1.

218.77 Payment by federal funds.--A local governmental entity which intends to pay for a purchase with federal funds shall not make such purchase without reasonable assurance that federal funds to cover the cost thereof will be received. Where payment or the time of payment is contingent on receipt of federal funds or federal approval, any contract and any solicitation to bid shall clearly state such contingency.

History.--s. 4, ch. 89-297.

218.78 Report of interest.--If the total amount of interest paid during the preceding fiscal year exceeds $250, each local governmental entity shall, during December of each year, report to the board of county commissioners or the municipal governing body the number of interest payments made by it during the preceding fiscal year and the total amount of such payments made under this part.

History.--s. 4, ch. 89-297; s. 5, ch. 95-331.

218.79 Repeal of conflicting laws.--All laws and parts of laws in conflict with this part are repealed.

History.--s. 4, ch. 89-297.

218.80 Public Bid Disclosure Act.--

(1) This section may be cited as the "Public Bid Disclosure Act."

(2) It is the intent of the Legislature that a local governmental entity shall disclose all of the local governmental entity's permits or fees, including, but not limited to, all license fees, permit fees, impact fees, or inspection fees, payable by the contractor to the unit of government that issued the bidding documents or other request for proposal, unless such permits or fees are disclosed in the bidding documents or other request for proposal for the project at the time the project was let for bid. It is further the intent of the Legislature to prohibit local governments from halting construction to collect any undisclosed permits or fees which were not disclosed or included in the bidding documents or other request for proposal for the project at the time the project was let for bid.

(3) Bidding documents or other request for proposal issued for bids by a local governmental entity, or any public contract entered into between a local governmental entity and a contractor shall disclose each permit or fee which the contractor will have to pay before or during construction and shall include the dollar amount or the percentage method or the unit method of all permits or fees which may be required by the local government as a part of the contract. If the request for proposal does not require the response to include a final fixed price, the local governmental entity is not required to disclose any fees or assessments in the request for proposal. However, at least 10 days prior to requiring the contractor to submit a final fixed price for the project, the local governmental entity shall make the disclosures required in this section. Any of the local governmental entity's permits or fees which are not disclosed in the bidding documents, other request for proposal, or a contract between a local government and a contractor shall not be assessed or collected after the contract is let. No local government shall halt construction under any public contract or delay completion of the contract in order to collect any permits or fees which were not provided for or specified in the bidding documents, other request for proposal, or the contract.

(4) This section does not require disclosure in the bidding documents of any permits or fees imposed as a result of a change order or a modification to the contract. The local government shall disclose all permits or fees imposed as a result of a change order or a modification to the contract prior to the date the contractor is required to submit a price for the change order or modification.

History.--s. 1, ch. 93-76.

DRUG-FREE WORKPLACE PROGRAM CERTIFICATION

287.087 Preference to businesses with drug-free workplace programs. --Whenever two or more bids, proposals, or replies that are equal with respect to price, quality, and service are received by the state or by any political subdivision for the procurement of commodities or contractual services, a bid, proposal, or reply received from a business that certifies that it has implemented a drug-free workplace program shall be given preference in the award process. In order to have a drug-free workplace program, a business shall:

(1) Publish a statement notifying employees that the unlawful manufacture, distribution, dispensing, possession, or use of a controlled substance is prohibited in the workplace and specifying the actions that will be taken against employees for violations of such prohibition.

(2) Inform employees about the dangers of drug abuse in the workplace, the business's policy of maintaining a drug-free workplace, any available drug counseling, rehabilitation, and employee assistance programs, and the penalties that may be imposed upon employees for drug abuse violations.

(3) Give each employee engaged in providing the commodities or contractual services that are under bid a copy of the statement specified in subsection (1).

(4) In the statement specified in subsection (1), notify the employees that, as a condition of working on the commodities or contractual services that are under bid, the employee will abide by the terms of the statement and will notify the employer of any conviction of, or plea of guilty or nolo contendere to, any violation of Chapter 893 or of any controlled substance law of the United States or any state, for a violation occurring in the workplace no later than 5 days after such conviction.

(5) Impose a sanction on, or require the satisfactory participation in a drug abuse assistance or rehabilitation program if such is available in the employee's community by, any employee who is so convicted.

(6) Make a good faith effort to continue to maintain a drug-free workplace through implementation of this section.

Does the individual responding to this solicitation certify that their firm has implemented a drug-free workplace program in accordance with the provision of Section 287.087, Florida Statutes, as stated above?

☐ **YES**

☐ **NO**

TRUTH IN NEGOTIATION CERTIFICATION

Pursuant to Section 287.055(5)(a), Florida Statutes, for any lump-sum or cost-plus-a-fixed fee professional services contract over the threshold amount provided in Section 287.017, Florida Statutes for CATEGORY FOUR, the Department of Transportation (Department) requires the Consultant to execute this certificate and include it with the submittal of the Technical Proposal, or as prescribed in the contract advertisement.

The Consultant hereby certifies, covenants, and warrants that wage rates and other factual unit costs supporting the compensation for this project's agreement are accurate, complete, and current at the time of contracting.

The Consultant further agrees that the original agreement price and any additions thereto shall be adjusted to exclude any significant sums by which the Department determines the agreement price was increased due to inaccurate, incomplete, or noncurrent wage rates and other factual unit costs. All such agreement adjustments shall be made within (1) year following the end of the contract. For purposes of this certificate, the end of the agreement shall be deemed to be the date of final billing or acceptance of the work by the Department, whichever is later.

CONFLICT OF INTEREST/CONFIDENTIALITY CERTIFICATION SELECTION COMMITTEE

I certify that I have no present conflict of interest on the projects identified below, and that I will recuse myself from any capacity of decision making, approval, disapproval, or recommendation of any consultant/contractor/vendor for selection on any contract if I have a conflict of interest or a potential conflict of interest. As set forth in Sections 112.313 and 334.193, Florida Statutes, employees of the Department may not have any interest, financial or otherwise, direct or indirect; engage in any business transaction or professional activity; or accept any obligation of any kind which is in conflict with the proper conduct of their duties in the public interest.

I recognize that employees are expected to honor the ethical obligations inherent in public service. These obligations go beyond mere legal obligations and demand from the employee a greater sensitivity to his or her conduct, as well as the public's perception of such conduct.

Employees are expected to safeguard their ability to make objective, fair, and impartial decisions, and therefore may not accept benefits of any sort under circumstances in which it could be inferred by a reasonable observer that the benefit was intended to influence a pending or future decision of theirs, or to reward a past decision. Employees should avoid any conduct (whether in the context of business, financial, or social relationships) which might undermine the public trust, whether or not that conduct is unethical or lends itself to the appearance of ethical impropriety.

I will maintain the confidentiality of all information not made public by the Florida Department of Transportation ("Department") related to the procurement of the above-referenced ("Project") that I gain access to as a result of my involvement with the Project ("Procurement Information"). I understand that Procurement Information includes, but is not limited to, documents prepared by or for the Department related to procurement of the Project. I also understand that Procurement Information includes, but is not limited to, documents submitted to the Department by entities seeking an award of the Project ("Proposers"). I understand that Procurement Information may include documents submitted by Proposers related to letters of response/letters of interest, technical proposals, price proposals, financial proposals, and information shared during exempt meetings. I also understand that Procurement Information may also include documents that evaluate or review documents submitted by Proposers, and information regarding Project cost estimates. I also agree not to discuss the Project with anyone who is a member of or acting on behalf of a Proposer.

Unless so ordered by a court of competent jurisdiction or an opinion of the Office of the Florida Attorney General, I will not divulge any Procurement Information except to individuals who have executed a Conflict of Interest/Confidentiality Certification which has been approved by the Department ("Project Personnel"). I understand that a list of Project Personnel will be maintained by Department. If I am contacted by any member of the public or the media with a request for Procurement Information, I will promptly forward such request to the Department's Procurement Office. I will also maintain security and control over all documents containing Procurement Information which are in my custody.

I agree not to solicit or accept gratuities, unwarranted privileges or exemptions, favors, or anything of value from any firm under consideration for an agreement associated with the Project, and I recognize that doing so may be contrary to statutes, ordinances, and rules governing or applicable to the Department or may otherwise be a violation of the law.

I agree not to engage in bid tampering, pursuant to Section 838.22, Florida Statutes.

I realize that violation of the above mentioned statutes would be punishable in accordance with Section 112.317, Section 334.193, and Section 838.22, Florida Statutes, and could result in disciplinary action by the Department.

CONFLICT OF INTEREST/CONFIDENTIALITY CERTIFICATION
PUBLIC OFFICERS/EMPLOYEES

I certify that I have no present conflict of interest on the projects identified below, and that I will recuse myself from any capacity of decision making, approval, disapproval, or recommendation of any consultant/contractor/vendor for selection on any contract if I have a conflict of interest or a potential conflict of interest. As set forth in Sections 112.313 and 334.193, Florida Statutes, public officers or employees of an agency may not have any interest, financial or otherwise, direct or indirect; engage in any business transaction or professional activity; or accept any obligation of any kind which is in conflict with the proper conduct of their duties in the public interest.

I recognize that State of Florida public officers or employees of an agency are expected to honor the ethical obligations inherent in public service. These obligations go beyond mere legal obligations and demand from the public officer or agency employee a greater sensitivity to his or her conduct, as well as the public's perception of such conduct.

State of Florida public officers or employees of an agency are expected to safeguard their ability to make objective, fair, and impartial decisions, and therefore may not accept benefits of any sort under circumstances in which it could be inferred by a reasonable observer that the benefit was intended to influence a pending or future decision of theirs, or to reward a past decision. Public officers or employees of an agency should avoid any conduct (whether in the context of business, financial, or social relationships) which might undermine the public trust, whether or not that conduct is unethical or lends itself to the appearance of ethical impropriety.

I will maintain the confidentiality of all information not made public by the Florida Department of Transportation ("Department") related to the procurement of the above-referenced ("Project") that I gain access to as a result of my involvement with the Project ("Procurement Information"). I understand that Procurement Information includes, but is not limited to, documents prepared by or for the Department related to procurement of the Project. I also understand that Procurement Information includes, but is not limited to, documents submitted to the Department by entities seeking an award of the Project ("Proposers"). I understand that Procurement Information may include documents submitted by Proposers related to letters of response/letters of interest, technical proposals, price proposals, financial proposals, and information shared during exempt meetings. I also understand that Procurement Information may also include documents that evaluate or review documents submitted by Proposers, and information regarding Project cost estimates. I also agree not to discuss the Project with anyone who is a member of or acting on behalf of a Proposer.

Unless so ordered by a court of competent jurisdiction or an opinion of the Office of the Florida Attorney General, I will not divulge any Procurement Information except to individuals who have executed a Conflict of Interest/Confidentiality Certification which has been approved by the Department ("Project Personnel"). I understand that a list of Project Personnel will be maintained by Department. If I am contacted by any member of the public or the media with a request for Procurement Information, I will promptly forward such request to the Department's Procurement Office. I will also maintain security and control over all documents containing Procurement Information which are in my custody.

I agree not to solicit or accept gratuities, unwarranted privileges or exemptions, favors, or anything of value from any firm under consideration for an agreement associated with the Project, and I recognize that doing so may be contrary to statutes, ordinances, and rules governing or applicable to the Department or may otherwise be a violation of the law.

I agree not to engage in bid tampering, pursuant to Section 838.22, Florida Statutes.

I realize that violation of the above mentioned statutes would be punishable in accordance with Section 112.317, Section 334.193, or Section 838.22, Florida Statutes, and could result in disciplinary action.

CERTIFICATION REGARDING DEBARMENT, SUSPENSION, INELIGIBILITY AND VOLUNTARY EXCLUSION- LOWER TIER COVERED TRANSACTIONS FOR FEDERAL AID CONTRACTS

(Compliance with 2 CFR Parts 180 and 1200)

It is certified that neither the below identified firm nor its principals are presently suspended, proposed for debarment, declared ineligible, or voluntarily excluded from participation in this transaction by any federal department or agency.

Name of Consultant/Contractor: _____

By: _____

Date: _____

Title: _____

Instructions for Certification

Instructions for Certification - Lower Tier Participants:
(Applicable to all subcontracts, purchase orders and other lower tier transactions requiring prior FHWA approval or estimated to cost $25,000 or more - 2 CFR Parts 180 and 1200)
a. By signing and submitting this proposal, the prospective lower tier is providing the certification set out below.

b. The certification in this clause is a material representation of fact upon which reliance was placed when this transaction was entered into. If it is later determined that the prospective lower tier participant knowingly rendered an erroneous certification, in addition to other remedies available to the Federal Government, the department, or agency with which this transaction originated may pursue available remedies, including suspension and/or debarment.

c. The prospective lower tier participant shall provide immediate written notice to the person to which this proposal is submitted if at any time the prospective lower tier participant learns that its certification was erroneous by reason of changed circumstances.

d. The terms "covered transaction," "debarred," "suspended," "ineligible," "participant," "person," "principal," and "voluntarily excluded," as used in this clause, are defined in 2 CFR Parts 180 and 1200. You may contact the person to which this proposal is submitted for assistance in obtaining a copy of those regulations. "First Tier Covered Transactions" refers to any covered transaction between a grantee or subgrantee of Federal funds and a participant (such as the prime or general contract). "Lower Tier Covered Transactions" refers to any covered transaction under a First Tier Covered Transaction (such as subcontracts). "First Tier Participant" refers to the participant who has entered into a covered transaction with a grantee or subgrantee of Federal funds (such as the prime or general contractor). "Lower Tier Participant" refers any participant who has entered into a covered transaction with a First Tier Participant or other Lower Tier Participants (such as subcontractors and suppliers).

e. The prospective lower tier participant agrees by submitting this proposal that, should the proposed covered transaction be entered into, it shall not knowingly enter into any lower tier covered transaction with a person who is debarred, suspended, declared ineligible, or voluntarily excluded from participation in this covered transaction, unless authorized by the department or agency with which this transaction originated.

f. The prospective lower tier participant further agrees by submitting this proposal that it will include this clause titled "Certification Regarding Debarment, Suspension, Ineligibility and Voluntary Exclusion-Lower Tier Covered Transaction," without modification, in all lower tier covered transactions and in all solicitations for lower tier covered transactions exceeding the $25,000 threshold.

g. A participant in a covered transaction may rely upon a certification of a prospective participant in a lower tier covered transaction that is not debarred, suspended, ineligible, or voluntarily excluded from the covered transaction, unless it knows that the certification is erroneous. A participant is responsible for ensuring that its principals are not suspended, debarred, or otherwise ineligible to participate in covered transactions. To verify the eligibility of its principals, as well as the eligibility of any lower tier prospective participants, each participant may, but is not required to, check the Excluded Parties List System website (https://www.epls.gov/), which is compiled by the General Services Administration.

h. Nothing contained in the foregoing shall be construed to require establishment of a system of records in order to render in good faith the certification required by this clause. The knowledge and information of participant is not required to exceed that which is normally possessed by a prudent person in the ordinary course of business dealings.

i. Except for transactions authorized under paragraph e of these instructions, if a participant in a covered transaction knowingly enters into a lower tier covered transaction with a person who is suspended, debarred, ineligible, or voluntarily excluded from participation in this transaction, in addition to other remedies available to the Federal Government, the department or agency with which this transaction originated may pursue available remedies, including suspension and/or debarment.

CERTIFICATION FOR DISCLOSURE OF LOBBYING ACTIVITIES ON FEDERAL-AID CONTRACTS
(Compliance with 49CFR, Section 20.100 (b))

The prospective participant certifies, by signing this certification, that to the best of his or her knowledge and belief:

(1) No federal appropriated funds have been paid or will be paid, by or on behalf of the undersigned, to any person for influencing or attempting to influence an officer or employee of any federal agency, a Member of Congress, an officer or employee of Congress, or an employee of a Member of Congress in connection with the awarding of any federal contract, the making of any federal grant, the making of any federal loan, the entering into of any cooperative agreement, and the extension, continuation, renewal, amendment, or modification of any federal contract, grant, loan, or cooperative agreement.

(2) If any funds other than federal appropriated funds have been paid or will be paid to any person for influencing or attempting to influence an officer or employee of any federal agency, a Member of Congress, an officer or employee of Congress, or an employee of a Member of Congress in connection with this federal contract, grant, loan, or cooperative agreement, the undersigned shall complete and submit Standard Form-LLL, "Disclosure of Lobbying Activities", in accordance with its instructions. (Standard Form-LLL can be obtained from the Florida Department of Transportation's Professional Services Administrator or Procurement Office.)

This certification is a material representation of fact upon which reliance was placed when this transaction was made or entered into. Submission of this certification is a prerequisite for making or entering into this transaction imposed by Section 1352, Title 31, U.S. Code. Any person who fails to file the required certification shall be subject to a civil penalty of not less than $10,000 and not more than $100,000 for each such failure.

The prospective participant also agrees by submitting his or her proposal that he or she shall require that the language of this certification be included in all lower tier subcontracts, which exceed $100,000 and that all such subrecipients shall certify and disclose accordingly.

Federal Use Only:		Authorized for Local Reproduction Standard Form LLL (Rev. 7-97)

INSTRUCTIONS FOR COMPLETION OF SF-LLL, DISCLOSURE OF LOBBYING ACTIVITIES

This disclosure form shall be completed by the reporting entity, whether subawardee or prime Federal recipient, at the initiation or receipt of a covered Federal action, or a material change to a previous filing, pursuant to title 31 U.S.C. section 1352. The filing of a form is required for each payment or agreement to make payment to any lobbying entity for influencing or attempting to influence an officer or employee of any agency, a Member of Congress, an officer or employee of Congress, or an employee of a Member of Congress in connection with a covered Federal action. Complete all items that apply for both the initial filing and material change report. Refer to the implementing guidance published by the Office of Management and Budget for additional information.

1. Identify the type of covered Federal action for which lobbying activity is and/or has been secured to influence the outcome of a covered Federal action.

2. Identify the status of the covered Federal action.

3. Identify the appropriate classification of this report. If this is a followup report caused by a material change to the information previously reported, enter the year and quarter in which the change occurred. Enter the date of the last previously submitted report by this reporting entity for this covered Federal action.

4. Enter the fullname, address, city, State and zip code of the reporting entity. Include Congressional District, if known. Check the appropriate classification of the reporting entity that designates if it is, or expects to be, a prime or subaward recipient. Identify the tier of the subawardee, e.g., the first subawardee of the prime is the 1st tier. Subawards include but are not limited to subcontracts, subgrants and contract awards under grants.

5. If the organization filing the report in item 4 checks "Subawardee," then enter the full name, address, city, State and zip code of the prime Federal recipient. Include Congressional District, if known.

6. Enter the name of the Federal agency making the award or loan commitment. Include at least one organizational level below agency name, if known. For example, Department of Transportation, United States Coast Guard.

7. Enter the Federal program name or description for the covered Federal action (item 1). If known, enter the full Catalog of Federal Domestic Assistance (CFDA) number for grants, cooperative agreements, loans, and loan commitments.

8. Enter the most appropriate Federal identifying number available for the Federal action identified in item 1 (e.g., Request for Proposal (RFP) number; Invitation for Bid (IFB) number; grant announcement number; the contract, grant, or loan award number; the application/proposal control number assigned by the Federal agency). Include prefixes, e.g., "RFP-DE-90-001."

9. For a covered Federal action where there has been an award or loan commitment by the Federal agency, enter the Federal amount of the award/loan commitment for the prime entity identified in item 4 or 5.

10. (a) Enter the full name, address, city, State and zip code of the lobbying registrant under the Lobbying Disclosure Act of 1995 engaged by the reporting entity identified in item 4 to influence the covered Federal action.

    (b) Enter the full names of the individual(s) performing services, and include full address if different from 10 (a). Enter Last Name, First Name, and Middle Initial (MI).

11. The certifying official shall sign and date the form, print his/her name, title, and telephone number.

According to the Paperwork Reduction Act, as amended, no persons are required to respond to a collection of information unless it displays a valid OMB Control Number. The valid OMB control number for this information collection is OMB No. 0348-0046. Public reporting burden for this collection of information is estimated to average 10 minutes per response, including time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. Send comments regarding the burden estimate or any other aspect of this collection of information, including suggestions for reducing this burden, to the Office of Management and Budget, Paperwork Reduction Project (0348-0046), Washington, DC 20503.

TERMS FOR FEDERAL AID CONTRACTS (APPENDIX I):

The following terms apply to all contracts in which it is indicated that the services involve the expenditure of federal funds:

A. It is understood and agreed that all rights of the Local Agency relating to inspection, review, approval, patents, copyrights, and audit of the work, tracing, plans, specifications, maps, data, and cost records relating to this Agreement shall also be reserved and held by authorized representatives of the United States of America.

B. All tracings, plans, specifications, maps, computer files and/or reports prepared or obtained under this Agreement, as well as all data collected, together with summaries and charts derived therefrom, will be considered works made for hire and will become the property of the Agency upon completion or termination without restriction or limitation on their use and will be made available, upon request, to the Agency at any time during the performance of such services and/or completion or termination of this Agreement. Upon delivery to the Agency of said document(s), the Agency will become the custodian thereof in accordance with Chapter 119, Florida Statutes. The Consultant will not copyright any material and products or patent any invention developed under this agreement. The Agency will have the right to visit the site for inspection of the work and the products of the Consultant at any time.

C. It is understood and agreed that, in order to permit federal participation, no supplemental agreement of any nature may be entered into by the parties hereto with regard to the work to be performed hereunder without the approval of the U.S. Department of Transportation, anything to the contrary in this Agreement not withstanding.

D. The consultant shall provide access by the Florida Department of Transportation (recipient), the Agency (subrecipient), the Federal Highway Administration, the U.S. Department of Transportation's Inspector General, the Comptroller General of the United States, or any of their duly authorized representatives to any books, documents, papers, and records of the consultant which are directly pertinent to that specific contract for the purpose of making audit, examination, excerpts, and transcriptions.

E. Compliance with Regulations: The Consultant shall comply with the Regulations: relative to nondiscrimination in Federally-assisted programs of the U.S. Department of Transportation Title 49, Code of Federal Regulations, Part 21, as they may be amended from time to time, (hereinafter referred to as the Regulations), which are herein incorporated by reference and made a part of this Agreement.

F. Nondiscrimination: The Consultant, with regard to the work performed during the contract, shall not discriminate on the basis of race, color, national origin, sex, age, disability, religion or family status in the selection and retention of subcontractors, including procurements of material and leases of equipment. The Consultant shall not participate either directly or indirectly in the discrimination prohibited by Section 21.5 of the Regulations, including employment practices when the contract covers a program set forth in Appendix B of the Regulations.

G. Solicitations for Subcontracts, Including Procurements of Materials and Equipment: In all solicitations made by the Consultant, either by competitive bidding or negotiation for work to be performed under a subcontract, including procurements of materials and leases of equipment, each potential subcontractor or supplier shall be notified by the Consultant of the Consultant's obligations under this contract and the Regulations relative to nondiscrimination on the basis of race, color, national origin, sex, age, disability, religion or family status.

H. Information and Reports: The Consultant will provide all information and reports required by the Regulations, or directives issued pursuant thereto, and shall permit access to its books, records, accounts, other sources of information, and its facilities as may be determined by the Local Agency, Florida Department of Transportation, Federal Highway Administration, Federal Transit Administration, Federal Aviation Administration, and/or Federal Motor Carrier Safety Administration to be pertinent to ascertain compliance with such Regulations, orders and instructions. Where any information required of the Consultant is in the exclusive possession of another who fails or refuses to furnish this information, the Consultant shall so certify to the Local Agency, Florida Department of Transportation, Federal Highway Administration, Federal Transit Administration, Federal Aviation Administration, and/or the Federal Motor Carrier Safety Administration as appropriate, and shall set forth what efforts it has made to obtain the information.

I. Sanctions for Noncompliance: In the event of the Consultant's noncompliance with the nondiscrimination provisions of this contract, the Local Agency shall impose such contract sanctions as it or the Florida Department of Transportation, Federal Highway Administration, Federal Transit Administration, Federal Aviation Administration, and/or Federal Motor Carrier Safety Administration may determine to be appropriate, including, but not limited to,

   1. withholding of payments to the Consultant under the contract until the Consultant complies and/or

   2. cancellation, termination or suspension of the contract, in whole or in part.

J. Incorporation or Provisions: The Consultant will include the provisions of Paragraph C through K in every subcontract, including procurements of materials and leases of equipment unless exempt by the Regulations, order, or instructions

issued pursuant thereto. The Consultant shall take such action with respect to any subcontract or procurement as the Local Agency, Florida Department of Transportation, Federal Highway Administration, Federal Transit Administration, Federal Aviation Administration, and/or the Federal Motor Carrier Safety Administration may direct as a means of enforcing such provisions, including sanctions for noncompliance. In the event a Consultant becomes involved in, or is threatened with, litigation with a subconsultant or supplier as a result of such direction, the Consultant may request the Local Agency to enter into such litigation to protect the interests of the Local Agency, and, in addition, the Consultant may request the United States to enter into such litigation to protect the interests of the United States.

K. Compliance with Nondiscrimination Statutes and Authorities: Title VI of the Civil Rights Act of 1964 (42 U.S.C. § 2000d et seq., 78 stat. 252), (prohibits discrimination on the basis of race, color, national origin); and 49 CFR Part 21; The Uniform Relocation Assistance and Real Property Acquisition Policies Act of 1970, (42 U.S.C. § 4601), (prohibits unfair treatment of persons displaced or whose property has been acquired because of Federal or Federal-aid programs and projects); Federal-Aid Highway Act of 1973, (23 U.S.C. § 324 et seq.), (prohibits discrimination on the basis of sex); Section 504 of the Rehabilitation Act of 1973, (29 U.S.C. § 794 et seq.), as amended, (prohibits discrimination on the basis of disability); and 49 CFR Part 27; The Age Discrimination Act of 1975, as amended, (42 U.S.C. § 6101 et seq.), (prohibits discrimination on the basis of age); Airport and Airway Improvement Act of 1982, (49 USC § 471, Section 47123), as amended, (prohibits discrimination based on race, creed, color, national origin, or sex); The Civil Rights Restoration Act of 1987, (PL 100-209), (Broadened the scope, coverage and applicability of Title VI of the Civil Rights Act of 1964, The Age Discrimination Act of 1975 and Section 504 of the Rehabilitation Act of 1973, by expanding the definition of the terms "programs or activities" to include all of the programs or activities of the Federal-aid recipients, sub-recipients and contractors, whether such programs or activities are Federally funded or not); Titles II and III of the Americans with Disabilities Act, which prohibit discrimination on the basis of disability in the operation of public entities, public and private transportation systems, places of public accommodation, and certain testing entities (42 U.S.C. §§ 12131 – 12189) as implemented by Department of Transportation regulations at 49 C.F.R. parts 37 and 38; The Federal Aviation Administration's Non-discrimination statute (49 U.S.C. § 47123) (prohibits discrimination on the basis of race, color, national origin, and sex); Executive Order 12898, Federal Actions to Address Environmental Justice in Minority Populations and Low-Income Populations, which ensures non-discrimination against minority populations by discouraging programs, policies, and activities with disproportionately high and adverse human health or environmental effects on minority and low-income populations; Executive Order 13166, Improving Access to Services for Persons with Limited English Proficiency, and resulting agency guidance, national origin discrimination includes discrimination because of limited English proficiency (LEP). To ensure compliance with Title VI, you must take reasonable steps to ensure that LEP persons have meaningful access to your programs (70 Fed. Reg. at 74087 to 74100); Title IX of the Education Amendments of 1972, as amended, which prohibits you from discriminating because of sex in education programs or activities (20 U.S.C. 1681 et seq).

L. Interest of Members of Congress: No member of or delegate to the Congress of the United States will be admitted to any share or part of this contract or to any benefit arising therefrom.

M. Interest of Public Officials: No member, officer, or employee of the public body or of a local public body during his tenure or for one year thereafter shall have any interest, direct or indirect, in this contract or the proceeds thereof. For purposes of this provision, public body shall include municipalities and other political subdivisions of States; and public corporations, boards, and commissions established under the laws of any State.

N. Participation by Disadvantaged Business Enterprises: The Consultant shall agree to abide by the following statement from 49 CFR 26.13(b). This statement shall be included in all subsequent agreements between the Consultant and any subconsultant or contractor.

> "The Consultant, sub recipient or subcontractor shall not discriminate on the basis of race, color, national origin, or sex in the performance of this contract. The contractor shall carry out applicable requirements of 49 CFR Part 26 in the award and administration of DOT-assisted contracts. Failure by the Consultant to carry out these requirements is a material breach of this contract, which may result in termination of this contract or other such remedy as the recipient deems appropriate."

Pursuant to 49 CFR26.11(c), the Consultant shall submit the bid opportunity list at the time of contract execution, and shall enter DBE commitment and payment information in the Florida Department of Transportation Equal Opportunity Compliance (EOC) system. The Consultant shall request access to the EOC system using Form No. 275-021-30.

O. It is mutually understood and agreed that the willful falsification, distortion or misrepresentation with respect to any facts related to the project(s) described in this Agreement is a violation of the Federal Law. Accordingly, United States Code, Title 18, Section 1020, is hereby incorporated by reference and made a part of this Agreement.

P. It is understood and agreed that if the Consultant at any time learns that the certification it provided the Local Agency in compliance with 49 CFR, Section 26.51, was erroneous when submitted or has become erroneous by reason of changed circumstances, the Consultant shall provide immediate written notice to the Local Agency. It is further agreed that the clause titled "Certification Regarding Debarment, Suspension, Ineligibility and Voluntary Exclusion - Lower Tier Covered Transaction" as set forth in 49 CFR, Section 29.510, shall be included by the Consultant in all lower tier covered transactions and in all aforementioned federal regulation.

Q. The Local Agency hereby certifies that neither the consultant nor the consultant's representative has been required by the Local Agency, directly or indirectly as an express or implied condition in connection with obtaining or carrying out this contract, to

1. employ or retain, or agree to employ or retain, any firm or person, or

2. pay, or agree to pay, to any firm, person, or organization, any fee, contribution, donation, or consideration of any kind;

The Local Agency further acknowledges that this agreement will be furnished to a federal agency, in connection with this contract involving participation of Federal-Aid funds, and is subject to applicable State and Federal Laws, both criminal and civil.

R. The Consultant hereby certifies that it has not:

1. employed or retained for a commission, percentage, brokerage, contingent fee, or other consideration, any firm or person (other than a bona fide employee working solely for the above contractor) to solicit or secure this contract;

2. agreed, as an express or implied condition for obtaining this contract, to employ or retain the services of any firm or person in connection with carrying out this contract; or

3. paid, or agreed to pay, to any firm, organization or person (other than a bona fide employee working solely for the above contractor) any fee contribution, donation, or consideration of any kind for, or in connection with, procuring or carrying out the contract.

The consultant further acknowledges that this agreement will be furnished to the Local Agency, the State of Florida Department of Transportation and a federal agency in connection with this contract involving participation of Federal-Aid funds, and is subject to applicable State and Federal Laws, both criminal and civil.

S. The Consultant shall utilize the U.S. Department of Homeland Security's E-Verify system to verify the employment eligibility of all new employees hired by the Contractor during the term of the Contract and shall expressly require any subcontractors performing work or providing services pursuant to the Contract to likewise utilize the U.S. Department of Homeland Security's E-Verify system to verify the employment eligibility of all new employees hired by the subcontractor during the Contract term.

DBE Utilization

The Department began its DBE race neutral program January 1, 2000. **Contract specific goals are not placed on Federal/State contracts;** however, the Department has an overall 10.65% DBE goal it must achieve. In order to assist contractors in determining their DBE commitment level, the Department has reviewed the estimates for this letting.

As you prepare your bid, please monitor potential or anticipated DBE utilization for contracts. When the low bidder executes the contract with the Department, information will be requested of the contractor's DBE participation for the project. While the utilization is not mandatory in order to be awarded the project, continuing utilization of DBE firms on contracts supports the success of Florida's DBE Program, and supports contractors' Equal Employment Opportunity and DBE Affirmative Action Programs.

Any project listed as 0% DBE availability does not mean that a DBE may not be used on that project. A 0% DBE availability may have been established due to any of the following reasons: limited identified subcontracting opportunities, minimal contract days, and/or small contract dollar amount. Contractors are encouraged to identify any opportunities to subcontract to DBE's.

Please contact the Equal Opportunity Office at (850) 414-4747 if you have any questions regarding this information.

DBE Reporting

If you are the prime contractor on a project, enter your DBE participation in the Equal Opportunity Compliance system prior to the pre-construction or pre-work conference for all federal and state funded projects. This **will not** become a mandatory part of the contract. It will assist the Department in tracking and reporting planned or estimated DBE utilization. During the contract, the prime contractor is required to report actual payments to DBE and MBE subcontractors through the web-based Equal Opportunity Compliance (EOC) system.

All DBE payments must be reported whether or not you initially planned to utilize the company. In order for our race neutral DBE Program to be successful, your cooperation is imperative. If you have any questions, please contact EOOHelp@dot.state.fl.us.

Bid Opportunity List

The Federal DBE Program requires States to maintain a database of all firms that are participating or attempting to participate on FDOT-assisted contracts. The list must include all firms that bid on prime contracts or bid or quote subcontracts on FDOT-assisted projects, including both **DBE's and non-DBEs.**

Please complete the Bidders Opportunity List through the Equal Opportunity Compliance system within 3 business days of submission of the bid or proposal for ALL subcontractors or sub-consultants who quoted to you for specific project for this letting. The web address to the Equal Opportunity Compliance system is: https://www.fdot.gov/equalopportunity/eoc.shtm.

DBE/AA Plans

Contractors bidding on FDOT contracts are to have an approved DBE Affirmative Action Plan (FDOT Form 275-030-11B) on file with the FDOT Equal Opportunity Office before execution of a contract. DBE/AA Plans must be received with the contractors bid or received by the Equal Opportunity Office prior to the award of the contract.

Plans are approved by the Equal Opportunity Office in accordance with Ch. 14-78, Florida Administrative Code. Plans that do not meet these mandatory requirements may not be approved. Approvals are for a (3) three year period and should be updated at anytime there is a change in the company's DBE Liaison Officer and/or President. Contractors may evidence adoption of the DBE/AA Policy and Plan and/or a change in the designated DBE Liaison officer as follows:

- Print the first page of the document on company stationery ("letterhead") that indicates the company's name, mailing address, phone number, etc.
- Print the company's name in the "___" space; next to "Date" print the month/day/year the policy is being signed; record the signature of the company's Chief Executive Officer, President or Chairperson in the space next to "by" and print the full first and last name and position title of the official signing the policy.
- Print the DBE Liaison's full name, email address, business mailing address and phone number the bottom of email.

E-mail the completed and signed DBE AA Plan to: **eeoforms@dot.state.fl.us.**

The Department will review the policy, update department records and issue a notification of approval or disapproval; a copy of the submitted plan will not be returned to the contractor.

CONSULTANT SERVICE AGREEMENT

THIS CONSULTANT SERVICE AGREEMENT (the "Agreement") is entered into as of the Effective Date (defined in Section 1, below) by and between Polk County (the "County"), a political subdivision of the State of Florida, situated at 330 West Church Street, Bartow, Florida 33830, and _____(the "Consultant"), headquartered at _____ whose Federal Employer Identification Number is _____.

WHEREAS, the County requires certain construction engineering and inspection services for the Lake Hancock multi-use trail project to establish a planning effort for a contiguous multi-use trail around Lake Hancock and connect to the other planned regional trails within two miles (+/-) of the shores of Lake Hancock; and,

WHEREAS, the County has solicited for these services via an advertised request for proposals (RFP 23-197) and has received numerous responsive proposals thereto; and

WHEREAS, after review and consideration of all responsive proposals, the County intends to engage the Consultant to provide it the required professional engineering services; and

WHEREAS, the Consultant remains agreeable to providing the County the required professional services and represents that it is competent, qualified, capable and prepared to do so according to the terms and conditions stated herein;

NOW, THEREFORE, in consideration of the mutual understandings and covenants set forth herein, the parties hereby agree, as follows:

1.0 **Effective Date; Term**

1.1 This Agreement shall take effect on the date (the "Effective Date") of its execution by the County and shall continue until the Consultant completes all Services as identified in Section 2, below, unless the Agreement is otherwise sooner terminated as provided herein.

2.0 **Consultant Services**

2.1 The County does hereby retain the Consultant to furnish those services and to perform those tasks (collectively, the "Services") further described in (i) the County's Request for Proposal RFP # 23-197, to include all attachments and addenda, (ii) the Consultant's responsive proposal, and (iii) Scope of Work thereto(collectively, (i), (ii), and (iii) are "RFP 23-197"), all of which are incorporated into this Agreement by this reference, attached as a composite Exhibit "A" and made a part of this Agreement.

DRAFT

3.0 **Compensation**

3.1 General

3.1.1 In consideration for its providing the Services, the County shall pay the Consultant the not to exceed amount of _____ stated in Exhibit "A-III" Compensation, which is attached hereto and made a part of this Agreement.

3.1.2 The Consultant shall invoice the County based upon the Consultant's fees that are stated on the attached Exhibit "B", "Fee Schedule", which is made a part of this Agreement. The Fee Schedule identifies all Consultant job classifications which will perform billable services pursuant to this Agreement and the fee for each job classification, along with all equipment, materials, and supplies necessary in the performance of the Services. The County shall not be obligated to pay the Consultant (i) for any Services performed by individuals whose job classifications are not listed on the Fee Schedule, and (ii) for the cost of any equipment, material, or supplies not listed on the Fee Schedule that the Consultant may use in performing the Services.

3.1.3 All the Consultant's invoices for payment must reference this Agreement and must be submitted using a form approved by the County Auditor.

3.1.4 Each invoice shall be due and payable forty-five (45) days after the date the County receives a correct, fully documented, invoice, in form and substance satisfactory to the County with all appropriate cost substantiations attached. All invoices shall be delivered to:

Polk County Parks and Natural Resources Division
4177 Ben Durrance Road
Bartow, FL 33830

3.1.5 The Consultant will clearly state "Final Invoice" on the Consultant's final/last billing for the Services rendered to the County. The Consultant's submission of a Final Invoice is its certification that all Services have been properly performed and all charges and costs have been invoiced to the County. This account will be closed upon the County's receipt of a Final Invoice. The Consultant hereby waives any charges not properly included on its Final Invoice.

3.1.6 The County's payment of a Final Invoice shall not constitute evidence of the County's acceptance of the Consultant's performance of the Services or its acceptance of any of the Consultant's Project work.

DRAFT

3.1.7 All Consultant invoices shall be accompanied by time and task records for all billable hours appearing on the invoice. After examining an invoice, the County may request that the Consultant submit additional documents to support certain fees or charges. Upon receipt of any such request the Consultant shall provide the requested documents or other required information to the County Auditor's satisfaction.

3.1.8 By its submission of an invoice, the Consultant's project manager or designated payroll officer shall be deemed to be attesting to the correctness and accuracy of all charges and requested reimbursements stated in such invoice.

3.1.9 The County's review, approval, acceptance, or payment for any of the Consultant's Services shall not be construed to: (i) operate as a waiver of any rights the County possesses under this Agreement; or (ii) waive or release any claim or cause of action arising out of the Consultant's performance or nonperformance of this Agreement. The Consultant shall be and will always remain liable to the County in accordance with applicable law for any and all damages to the County caused by the Consultant's negligent or wrongful performance or nonperformance of any of the Services to be furnished under this Agreement.

3.2 Reimbursable Expenses

3.2.1 All Consultant requests for payment of expenses eligible for reimbursement under the terms of this Agreement shall be reimbursed per the County's Reimbursable Schedule that is attached hereto as Exhibit "C" and made a part of this Agreement. The Consultant's request for payment shall include copies of paid receipts, invoices or other documentation acceptable to the County Auditor. To qualify for reimbursement, the Consultant's documentation shall be sufficient to establish that the expense was actually incurred and necessary in the performance of the Services performed in accordance with this Agreement.

3.2.2 Reimbursable Expenses are the actual, pre-approved, expenses the Consultant incurred directly in connection with the performance of the Services performed in accordance with this Agreement:

Overnight Deliveries

3.2.3 Mileage shall be reimbursed in accordance with Florida Statutes, section 112.061and County policy for pre-approved out-of-county travel (excluding travel from home offices located outside of Polk County to the Polk County line).

3.2.4 Reimbursable Expenses, including subconsultants, shall be

DRAFT

reimbursed at cost.

3.2.5 Pre-approved travel costs shall be reimbursed in accordance with Florida Statutes section 112.061.

3.2.6 All assets, i.e. durable goods, purchased as reimbursable expenses become the property of the County upon completion of any Project work for which the asset was utilized. All such assets must be surrendered by delivery to the applicable County Division responsible for the Project immediately upon (i) demand, (ii) termination of the Agreement, or (iii) the conclusion of the applicable Project, whichever occurs first.

3.2.7 Consultant shall maintain a current inventory of all such assets.

4.0 **Consultant's Responsibilities**

4.1 The Consultant shall be responsible for the professional quality, accuracy, competence, methodology, and the coordination of all Services performed pursuant to this Agreement.

4.2 The County's review, approval, acceptance, or payment for any of the Consultant's Services shall not be construed to: (i) operate as a waiver of any rights the County possesses under this Agreement; or (ii) waive or release any claim or cause of action arising out of the Consultant's performance or nonperformance of this Agreement. The Consultant shall be and will always remain liable to the County in accordance with applicable law for any and all damages to the County caused by the Consultant's negligent or wrongful performance or nonperformance of any of the Services to be furnished under this Agreement.

5.0 **Ownership of Documents**

All analyses, reference data, bills, completed reports, or any other form of written instrument or document created or resulting from the Consultant's performance of the Services pursuant to this Agreement, subject to the cure period provided in Section 26.0, shall become the property of the County after payment is made to the Consultant for such instruments or documents.

6.0 **Termination**

6.1 The County may terminate this Agreement, in whole or in part, at any time, either for the County's convenience or because of the failure of the Consultant to fulfill its obligations under this Agreement, subject to the cure period provided in Section 26.0, by delivering written notice to the Consultant. Upon receipt of such notice, the Consultant shall:

6.1.1 Immediately discontinue all affected Services unless the notice

DRAFT

directs otherwise, and

6.1.2 Deliver to the County all data, reports, summaries, and any and all such other information and materials of whatever type or nature as may have been accumulated by the Consultant in performing this Agreement, whether completed or in process.

6.2 Unless in dispute or subject to the County's right of set-off or other remedy, the Consultant shall be paid for Services actually rendered to the date of termination.

6.3 The rights and remedies of the County provided for in this Section 6 are in addition and supplemental to any and all other rights and remedies provided by law or under this Agreement.

7.0 **No Contingent Fees**

The Consultant warrants that it has not employed or retained any company or person, other than a bona fide employee working solely for the Consultant to solicit or secure this Agreement and that it has not paid or agreed to pay any person, company, corporation, individual or firm, other than a bona fide employee working solely for the Consultant, any fee, commission, percentage, gift, or other consideration contingent upon or resulting from award of or making of the Agreement. For the breach or violation of this provision, the County shall have the right to terminate the Agreement at its sole discretion, without liability and to deduct from the Agreement price, or otherwise recover, the full amount of such fee, commission, percentage, gift, or consideration.

8.0 **Assignment**

The Consultant shall not assign, transfer, or encumber this Agreement, or any interest herein, under any circumstances, without obtaining the prior written consent of the County, which consent may be withheld in the County's exercise of its reasonable discretion.

9.0 **Professional Associates and Subconsultants**

If the Consultant requires the assistance of any professional associates or subconsultants in connection with its providing the Services the Consultant must obtain the prior express written approval of the County, which the County may withhold in its discretion, before any such professional associate or subconsultant may perform any work for the County. If after obtaining the County's approval the Consultant utilizes any professional associates or subconsultants in the delivery of the Services, then the Consultant shall remain solely and fully liable to the County for the performance or nonperformance of all such professional associates and subconsultants. The

DRAFT

failure of a professional associate or subconsultant to timely or properly perform any of its obligations to the Consultant shall not relieve the Consultant of its obligations to the County under this Agreement.

10.0 **Indemnification of County**

To the extent provided by law, the Consultant shall indemnify, defend, and hold harmless the County and the State of Florida, Department of Transportation, including the Department's officers, agents, and employees, against any actions, claims, or damages arising out of, relating to, or resulting from negligent or wrongful act(s) of the Consultant, or any of its officers, agents, or employees, acting within the scope of their office or employment, in connection with the rights granted to or exercised by the Consultant hereunder, to the extent and within the limitations of Section 768.28, Florida Statutes.

The forgoing indemnification shall not constitute a waiver of sovereign immunity beyond the limits set forth in Florida Statues, Section 768.28. Nor shall the same be construed to constitute agreement by the Consultant to indemnify the County for the negligent acts or omissions of the County, its officers, agents, or employees, or third parties. Nor shall the same be construed to constitute agreement by the Consultant to indemnify the Department for the negligent acts or omissions of the Department, its officers, agents, or employees, or third parties. This indemnification shall survive the termination of this Agreement.

11.0 **Insurance Requirements**

The Consultant shall maintain at all times the following minimum levels of insurance and shall, without in any way altering its liability, obtain, pay for and maintain insurance for the coverage and amounts of coverage not less than those set forth below. The Consultant shall provide the County original Certificates of Insurance satisfactory to the County to evidence such coverage before any work commences. The Polk County, a political subdivision of the State of Florida, and the State of Florida, Department of Transportation shall be named as an additional insured on General and Automobile Liability policies. General Liability and Workers' Compensation policies shall contain a waiver of subrogation in favor of Polk County and the State of Florida, Department of Transportation. The commercial General Liability Policy shall (by endorsement if necessary) provide contractual liability coverage for the contractual indemnity stated in Section 10, above. All insurance coverage shall be written with a company having an

DRAFT

A.M. Best rating of at least the "A" category and size category of VIII. In the event of any failure by the Consultant to comply with the provisions of this Section 11, the County may, at its option, upon notice to the Consultant suspend Consultant's performance of the Services for cause until there is full compliance. Alternatively, the County may purchase such insurance at the Consultant's expense, provided that the County shall have no obligation to do so and if the County shall do so, the Consultant shall not be relieved of or excused from the obligation to obtain and maintain such insurance amounts and coverage. The County shall receive 30 days advance notice of non-renewal, cancellation, or material change to any policy required under this agreement. Policies that include Self Insured Retention will not be accepted.

Comprehensive Automobile Liability Insurance. $1,000,000.00 combined single limit of liability for bodily injuries, death and property damage resulting from any one occurrence, including all owned, hired, and non-owned vehicles.

Professional Liability. $2,000,000 for errors and omissions, exclusive of defense costs.

Commercial General Liability. $1,000,000.00 combined single limit of liability for bodily injuries, death and property damage, and personal injury resulting from any one occurrence, including the following coverages:

Premises and Operations:

> Broad Form Commercial General Liability Endorsement to include Blanket Contractual liability (specifically covering, but not limited to, the contractual obligations assumed by the Firm); Personal Injury (with employment and contractual exclusions deleted); and Broad Form Property Damage coverage.

Independent Consultants:

> Delete Exclusion relative to collapse, explosion and underground; Property Damage Hazards; Cross Liability Endorsement; and Contractual liability (specifically covering, but not limited to, the contractual obligations assumed by the Firm)

Workers Compensation. The Consultant shall provide, pay for, and maintain workers compensation insurance on all employees, its agents or subconsultants as required by Florida Statutes.

DRAFT

12.0 **Public Entity Crimes**

The Consultant understands and acknowledges that this Agreement will be voidable by the County in the event the conditions stated in Florida Statutes, Section 287.133 relating to conviction for a public entity crime apply to the Consultant.

13.0 **Non-Discrimination**

The Consultant warrants and represents that all of its employees are treated equally during employment without regard to race, color, religion, gender, age or national origin.

14.0 **Designation of Party Representatives**

14.1 Upon receipt of a request from the Consultant, the County shall designate in writing one or more of its employees who are authorized to act by and on behalf of the County to transmit instructions, receive information and interpret and define the County's policy and decisions with respect to the Services to be provided pursuant to this Agreement.

14.2 The Consultant shall designate or appoint one or more Consultant representatives who are authorized to act on behalf of and to bind the Consultant regarding all matters involving the conduct of its performance pursuant to this Agreement.

15.0 **All Prior Agreements Superseded**

This document incorporates and includes all prior negotiations, correspondence, conversations, agreements or understandings applicable to the matters contained herein and the parties agree that there are no commitments, agreements or understandings concerning the subject matter of this Agreement that are not contained in this document or its designated exhibits. Accordingly, it is agreed that no deviation from the terms hereof shall be predicated upon any prior representations or agreements, whether oral or written.

16.0 **Modifications, Amendments or Alterations**

No modification, amendment or alteration in the terms or conditions contained herein shall be effective unless agreed to and executed in writing by both parties to this Agreement in a form acceptable to the County.

17.0 **Independent Consultant**

Nothing stated in this Agreement is intended or should be construed in any manner as creating or establishing a relationship of co-partners between the parties, or as constituting the Consultant (including its officers, employees, and agents) as the agent, representative, or employee of the County for any purpose, or in any manner, whatsoever. The Consultant is to be and shall

DRAFT

remain forever an independent Consultant with respect to all Services performed under this Agreement. The Consultant shall not pledge the County's credit or make the County a guarantor of payment or surety for any contract, debt, obligation, judgment, lien or any form of indebtedness and the Consultant shall have no right to speak for or bind the County in any manner.

18.0 **Public Records Law**

(a) The Consultant acknowledges the County's obligations under Article I, Section 24, of the Florida Constitution and under Chapter 119, Florida Statutes, to release public records to members of the public upon request and comply in the handling of the materials created under this Agreement. The Consultant further acknowledges that the constitutional and statutory provisions control over the terms of this Agreement. In association with its performance pursuant to this Agreement, the Consultant shall not release or otherwise disclose the content of any documents or information that is specifically exempt from disclosure pursuant to all applicable laws.

(b) Without in any manner limiting the generality of the foregoing, to the extent applicable, the Consultant acknowledges its obligations to comply with Section 119.0701, Florida Statutes, with regard to public records, and shall:

(1) keep and maintain public records required by the County to perform the services required under this Agreement;

(2) upon request from the County's Custodian of Public Records or his/her designee, provide the County with a copy of the requested records or allow the records to be inspected or copied within a reasonable time at a cost that does not exceed the cost provided in Chapter 119, Florida Statutes, or as otherwise provided by law;

(3) ensure that public records that are exempt or confidential and exempt from public records disclosure requirements are not disclosed except as authorized by law for the duration of the term of this Agreement and following completion of this Agreement if the Consultant does not transfer the records to the County; and

(4) upon completion of this Agreement, transfer, at no cost, to the County all public records in possession of the Consultant or keep and maintain public records required by the County to perform the service. If the Consultant transfers all public records to the County upon completion of this Agreement, the Consultant shall destroy any duplicate public records that are exempt or confidential and exempt from public records disclosure requirements. If the Consultant keeps and maintains public records upon completion of this Agreement, the Consultant shall meet all applicable requirements for retaining public records. All records stored electronically must be provided to the County, upon request from the County's Custodian of Public Records, in a format that is compatible with the information technology systems of the County.

(c) **IF THE CONSULTANT HAS QUESTIONS REGARDING THE APPLICATION OF CHAPTER 119, FLORIDA STATUTES, TO THE CONSULTANT'S DUTY TO PROVIDE PUBLIC RECORDS RELATING TO THIS AGREEMENT, CONTACT THE COUNTY'S CUSTODIAN OF PUBLIC RECORDS AT:**

RECORDS MANAGEMENT LIAISON OFFICER
POLK COUNTY

DRAFT

BARTOW, FL 33830
TELEPHONE: (863) 534-7527
EMAIL: RMLO@POLK-COUNTY.NET

19.0 **Compliance with Laws and Regulations**

In providing all Services pursuant to this Agreement, the Consultant shall comply with applicable regulatory requirements including federal, state, special district, and local laws, rules regulations, orders, codes, criteria and standards, including those now in effect and hereafter adopted. Any violation of said statutes, ordinances, rules, or regulations shall constitute a material breach of this Agreement, and shall entitle the County to terminate this Agreement immediately upon delivery of written notice of termination to the Consultant.

20.0 **Governing Law and Venue**

This Agreement shall be governed in all respects by the laws of the State of Florida and any litigation with respect thereto shall be brought only in the courts of Polk County, Florida or in the United States District Court, Middle District of Florida, located in Hillsborough County, Florida. Each party shall be responsible for its own attorneys' fees and other legal costs and expenses.

21.0 **Notices**

Whenever either party desires to give notice unto the other, it must be given by written notice, delivered (i) in person, (ii) via registered or certified United States mail, postage prepaid with return receipt requested, or (iii) via nationally recognized overnight delivery service, and addressed to the party for whom it is intended at the place last specified by each party. The place for giving of notice shall remain such until it is changed by written notice delivered in compliance with the provisions of this Section 21. For the present, the parties designate the following as the respective places for giving of notice, to wit:

For County:

Polk County Parks and Natural Resources Division
4177 Ben Durrance Road
Bartow, FL 33830
Attention: Director

For Consultant: _____
_____
_____
Attention: _____

22.0 Severability

DRAFT

The invalidity, illegality, or unenforceability of any provision of this Agreement, or the occurrence of any event rendering any portion or provision of this Agreement void, shall in no way affect the validity or enforceability of any other portion or provision of the Agreement; any void provision shall be deemed severed from the Agreement and the balance of the Agreement shall be construed and enforced as if the Agreement did not contain the particular portion or provision held to be void. The parties further agree to reform the Agreement to replace any stricken provision with a valid provision that comes as close as possible to the intent of the stricken provision. The provisions of this section shall not prevent the entire Agreement from being void should a provision which is of the essence of the Agreement be determined to be void.

23.0 Annual Appropriations

Consultant acknowledges that during any fiscal year the County shall not expend money, incur any liability, or enter into any agreement which by its terms involves the expenditure of money in excess of the amounts budgeted as available for expenditure during such fiscal year. Accordingly, any agreement, verbal or written, the County may make in violation of this fiscal limitation is null and void, and no money may be paid on such agreement. The County may enter into agreements whose duration exceeds one year; however, any such agreement shall be executory only for the value of the services to be rendered which the County agrees to pay as allocated in its annual budget for each succeeding fiscal year. Accordingly, the County's performance and obligation to pay the Consultant under this Agreement is contingent upon annual appropriations being made for that purpose.

24.0 Unauthorized Alien(s)

The Consultant shall not employ or utilize unauthorized aliens in the performance of the Services provided pursuant to this Agreement. The County shall consider the employment or utilization of unauthorized aliens a violation of Section 274A(e) of the Immigration and Naturalization Act (8 U.S.C. 1324a) and a cause for the County's unilateral termination of this Agreement. When delivering executed counterparts of this Agreement to the County, the Consultant shall also deliver a completed and executed counterpart of the attached "AFFIDAVIT CERTIFICATION IMMIGRATION LAWS" form.

25.0 Consultant Representations

25.1 The Consultant hereby represents and warrants the following to the County:

DRAFT

25.1.1 Consultant is a _____ that is duly organized and existing in good standing under the laws of the State of _____ with full right and authority to do business within the State of Florida.

25.1.2 Consultant's performance under this Agreement will not violate or breach any contract or agreement to which the Consultant is a party or is otherwise bound, and will not violate any governmental statute, ordinance, rule, or regulation.

25.1.3 Consultant has the full right and authority to enter into this Agreement and to perform its obligations in accordance with its terms.

25.1.4 Consultant now has and will continue to maintain all licenses and approvals required for conducting its business, and that it will at all times conduct its business activities in a reputable manner.

25.1.5 Consultant has no obligation or indebtedness that would impair its ability to fulfill the terms of this Agreement.

25.1.6 Consultant has the personnel and experience necessary to perform all Services in a professional and workmanlike manner.

25.1.7 Consultant shall exercise the same degree of care, skill, and diligence in the performance of the Services as provided by a professional of like experience, knowledge and resources, under similar circumstances.

25.1.8 Consultant shall, at no additional cost to County, re-perform those Services which fail to satisfy the foregoing standard of care or which otherwise fail to meet the requirements of this Agreement.

25.1.9 Each individual executing this Agreement on behalf of the Consultant is authorized to do so

26.0 Default and Remedy

If the Consultant materially defaults in its obligations under this Agreement and fails to cure the same within fifteen (15) days after the date the Consultant receives written notice of the default from the County, then the County shall have the right to (i) immediately terminate this Agreement by delivering written notice to the Consultant, and (ii) pursue any and all remedies available in law, equity, and under this Agreement. If the County materially defaults in its obligations under this Agreement and fails to cure the same within fifteen (15) days after the date the County receives written notice of the default from the Consultant, then the Consultant shall

DRAFT

have the right to immediately terminate this Agreement by delivering written notice to the County. Upon any such termination, the County shall pay the Consultant the full amount due and owing for all Services performed through the date of Agreement termination.

27.0 Limitation of Liability

IN NO EVENT, SHALL THE COUNTY BE LIABLE TO THE CONSULTANT FOR INDIRECT, INCIDENTAL, CONSEQUENTIAL, SPECIAL, EXEMPLARY, OR PUNITIVE DAMAGES OF ANY KIND OR NATURE, INCLUDING LOSS OF PROFIT, WHETHER FORESEEABLE OR NOT, ARISING OUT OF OR RESULTING FROM THE NONPERFORMANCE OR BREACH OF THIS CONTRACT BY THE COUNTY WHETHER BASED IN CONTRACT, COMMON LAW, WARRANTY, TORT, STRICT LIABILITY, CONTRIBUTION, INDEMNITY OR OTHERWISE.

28.0 Waiver

A waiver by either County or Consultant of any breach of this Agreement shall not be binding upon the waiving party unless such waiver is in writing. In the event of a written waiver, such a waiver shall not affect the waiving party's rights with respect to any other or further breach of this Agreement. The making or acceptance of a payment by either party with the knowledge of the other party's existing default or breach of the Agreement shall not waive such default or breach, or any subsequent default or breach of this Agreement, and shall not be construed as doing so.

29.0 Attorneys' Fees and Costs

Each party shall be responsible for its own legal and attorneys' fees, costs and expenses incurred in connection with any dispute or any litigation arising out of, or relating to this Agreement, including attorneys' fees, costs, and expenses incurred for any appellate or bankruptcy proceedings.

30.0 Force Majeure

The Consultant shall be temporarily excused from performance if an Event of Force Majeure directly or indirectly causes its nonperformance. An "Event of Force Majeure" is defined as any event which results in the prevention or delay of performance by a party of its obligations under this Agreement and which is beyond the reasonable control of the nonperforming party. It includes, but is not limited to fire, flood, earthquakes, storms, lightning, epidemic, war, riot, civil disturbance, sabotage, and governmental actions. Within five (5) days after the occurrence of an Event of Force Majeure, the Consultant shall deliver written notice to the County describing the

DRAFT

event in reasonably sufficient detail and how the event has precluded the Consultant from performing its obligations hereunder. The Consultant's obligations, so far as those obligations are affected by the Event of Force Majeure, shall be temporarily suspended during, but no longer than, the continuance of the Event of Force Majeure and for a reasonable time thereafter as may be required for the Consultant to return to normal business operations. If excused from performing any obligations under this Agreement due to the occurrence of an Event of Force Majeure, the Consultant shall promptly, diligently, and in good faith take all reasonable action required for it to be able to commence or resume performance of its obligations under this Agreement. During any such time period the Consultant shall keep the County duly notified of all such actions required for it to be able to commence or resume performance of its obligations under this Agreement.

31.0 Key Personnel

The Consultant shall notify the County if any of the Consultant's Key Personnel (as defined, below) change during the Term of the Agreement. To the extent possible, the Consultant shall notify the County at least ten (10) days prior to any proposed change in its Key Personnel. At the County's request the Consultant shall remove without consequence to the County any of the Consultant's contractors, sub-contractors, sub-consultants, agents or employees and replace the same with an appropriate substitute having the required skill and experience necessary to perform the Services. The County shall have the right to reject the Consultant's proposed changes in Key Personnel. The following individuals shall be considered "Key Personnel:"

Name: _____

Name: _____

Name: _____

Name: _____

32.0 Employment Eligibility Verification (E-VERIFY)

A. For purposes of this section, the following terms shall have the meanings ascribed to them below, or as may otherwise be defined in Section 448.095, Florida Statutes, as amended from time to time:

(i) "Consultant" means a person or entity that has entered or is attempting to enter into a contract with a public employer to provide labor, supplies, or services to such employer in exchange for salary, wages, or other remuneration; and

DRAFT

(ii) "E-Verify system" means an Internet-based system operated by the United States Department of Homeland Security that allows participating employers to electronically verify the employment eligibility of newly hired employees; and

(iii) "Subconsultant" means a person or entity that provides labor, supplies, or services to or for a consultant or another subconsultant in exchange for salary, wages, or other remuneration.

B. Pursuant to Section 448.095(2)(a), Florida Statutes, effective January 1, 2021, public employers, consultants and subconsultants shall register with and use the E-verify system in order to verify the work authorization status of all newly hired employees. The Consultant acknowledges and agrees that use of the U.S. Department of Homeland Security's E-Verify System and compliance with all other terms of this Certification and Section 448.095, Fla. Stat., is an express condition of this contract, and the County may treat a failure to comply as a material breach of this contract.

C. By entering into this contract, the Consultant becomes obligated to comply with the provisions of Section 448.095, Fla. Stat., "Employment Eligibility," as amended from time to time. This includes but is not limited to utilization of the E-Verify System to verify the work authorization status of all newly hired employees, and requiring all subconsultants to provide an affidavit attesting that the subconsultant does not employ, contract with, or subcontract with, an unauthorized alien. The Consultant shall maintain a copy of such affidavit for the duration of the contract. Failure to comply will lead to termination of this contract, or if a subconsultant knowingly violates the statute or Section 448.09(1), Fla. Stat., the subcontract must be terminated immediately. Any challenge to termination under this provision must be filed in the Tenth Judicial Circuit Court of Florida no later than 20 calendar days after the date of termination. If this contract is terminated for a violation of the statute by the Consultant, the Consultant may not be awarded a public contract for a period of 1 year after the date of termination. The Consultant shall be liable for any additional costs incurred by the County as a result of the termination of this contract. Nothing in this section shall be construed to allow intentional discrimination of any class protected by law.

DRAFT

33.0 Scrutinized Companies and Business Operations Certification; Termination.

A. Certification(s).

(i) By its execution of this Agreement, the Consultant hereby certifies to the County that the Consultant is not on the Scrutinized Companies that Boycott Israel List, created pursuant to Section 215.4725, Florida Statutes, nor is the Consultant engaged in a boycott of Israel, nor was the Consultant on such List or engaged in such a boycott at the time it submitted its bid, proposal, quote, or other form of offer, as applicable, to the County with respect to this Agreement.

(ii) Additionally, if the value of the goods or services acquired under this Agreement are greater than or equal to One Million Dollars ($1,000,000), then the Consultant further certifies to the County as follows:

(a) the Consultant is not on the Scrutinized Companies with Activities in Sudan List, created pursuant to Section 215.473, Florida Statutes; and

(b) the Consultant is not on the Scrutinized Companies with Activities in the Iran Petroleum Energy Sector List, created pursuant to Section 215.473, Florida Statutes; and

(c) the Consultant is not engaged in business operations (as that term is defined in Florida Statutes, Section 287.135) in Cuba or Syria; and

(d) the Consultant was not on any of the Lists referenced in this subsection A(ii), nor engaged in business operations in Cuba or Syria when it submitted its proposal to the County concerning the subject of this Agreement.

(iii) The Consultant hereby acknowledges that it is fully aware of the penalties that may be imposed upon the Consultant for submitting a false certification to the County regarding the foregoing matters.

B. Termination. In addition to any other termination rights stated herein, the County may immediately terminate this Agreement upon the occurrence of any of the following events:

(i) The Consultant is found to have submitted a false certification to the County with respect to any of the matters set forth in subsection A(i) above, or the Consultant is found to have been placed on the Scrutinized Companies that Boycott Israel List or is engaged in a boycott of Israel.

(ii) The Consultant is found to have submitted a false certification to the County with respect to any of the matters set forth in subsection A(ii) above, or the Consultant is found to have been placed on the Scrutinized Companies with Activities in Sudan List, or the Scrutinized Companies with Activities in the Iran Petroleum Energy Sector List, or has been engaged in business operations in Cuba or Syria, and the value of the goods or services acquired under this Agreement are greater than or equal to One Million Dollars ($1,000,000).

DRAFT

34.0 No Construction Against Drafter

The Parties acknowledge that this Agreement and all the terms and conditions contained herein have been fully reviewed and negotiated by the Parties. Accordingly, any rule of construction to the effect that ambiguities are to be resolved against the drafting party shall not apply in interpreting this Agreement.

35.0 Local Agency program Federal-Aid Terms for Professional Services Contracts (See attached Appendix I).

Appendix "I"

SUPPLEMENTAL CONDITIONS-FEDERAL CLAUSES

The County has been awarded and received Florida Department of Transportation (FDOT) and the Federal Highway Administration (FHWA) Local Agency Program funds for the services to be provided under the Agreement from FDOT and FHWA Local Agency Program. In accordance with the federal procurement standards at 2 C.F.R. sections 200.317 through 200.327 the following clauses are incorporated in this RFP, any resulting award with the prime Consultant, and any resulting contracts between the prime Consultant and sub-consultants and material suppliers. The following conditions are supplemental to the General Terms and Conditions. Where there is conflict, these Supplemental Conditions prevail unless the General Terms and Conditions are stricter.

1. Equal Employment Opportunity. (Applicable to construction only)

During the performance of this Contract, the Consultant agrees as follows:

(1) The Consultant will not discriminate against any employee or applicant for employment because of race, color, religion, sex, or national origin. The consultant will take affirmative action to ensure that applicants are employed, and that employees are treated during employment without regard to their race, color, religion, sex, or national origin. Such action shall include, but not be limited to the following: Employment, upgrading, demotion, or transfer; recruitment or recruitment advertising; layoff or termination; rates of pay or other forms of compensation; and selection for training, including apprenticeship. The consultant agrees to post in conspicuous places, available to employees and applicants for employment, notices to be provided setting forth the provisions of this nondiscrimination clause.

(2) The Consultant will, in all solicitations or advertisements for employees placed by or on behalf of the consultant, state that all qualified applicants will receive considerations for employment without regard to race, color, religion, sex, or national origin.

(3) The Consultant will send to each labor union or representative of workers with which he has a collective bargaining agreement or other contract or understanding, a notice to be provided advising the said labor union or workers' representatives of the Consultant's commitments under this section and shall post copies of the notice in conspicuous places available to employees and applicants for employment.

(4) The consultant will comply with all provisions of Executive Order 11246 of September 24, 1965, and of the rules, regulations, and relevant orders of the Secretary of Labor.

(5) The Consultant will furnish all information and reports required by Executive Order 11246 of September 24, 1965, and by rules, regulations, and orders of the Secretary of Labor, or pursuant thereto, and will permit access to his books, records, and accounts by the administering agency and the Secretary of Labor for purposes of investigation to ascertain compliance with such rules, regulations, and orders.

(6) In the event of the Consultant's noncompliance with the nondiscrimination clauses of this contract/Purchase Order or with any of the said rules, regulations, or orders, this contract/Purchase Order may be canceled, terminated, or suspended in whole or in part and the consultant may be declared ineligible for further Government contracts or federally assisted construction contracts in accordance with procedures authorized in Executive Order 11246 of September 24, 1965, and such other sanctions as may be

imposed and remedies invoked as provided in Executive Order 11246 of September 24, 1965, or by rule, regulation, or order of the Secretary of Labor, or as otherwise provided by law.
(7) The Consultant will include the portion of the sentence immediately preceding paragraph (1) and the provisions of paragraphs (1) through (7) in every subcontract or purchase order unless exempted by rules, regulations, or orders of the Secretary of Labor issued pursuant to section 204 of Executive Order 11246 of September 24, 1965, so that such provisions will be binding upon each subconsultant or consultant. The Consultant will take such action with respect to any subcontract or purchase order as the administering agency may direct as a means of enforcing such provisions, including sanctions for noncompliance: Provided, however, That in the event a Consultant becomes involved in, or is threatened with, litigation with a subconsultant or consultant as a result of such direction by the administering agency the consultant may request the United States to enter into such litigation to protect the interests of the United States

2. **Contract Work Hours and Safety Standards Act**.

(1) Overtime requirements. Neither the Consultant, nor any subconsultant contracting for any part of the contract work which may require or involve the employment of laborers or mechanics shall require or permit any such laborer or mechanic in any workweek in which he or she is employed on such work to work in excess of forty hours in such workweek unless such laborer or mechanic receives compensation at a rate not less than one and one-half times the basic rate of pay for all hours worked in excess of forty hours in such workweek.

(2) Violation; liability for unpaid wages; liquidated damages. In the event of any violation of the clause set forth in paragraph (1) of this section the Consultant and any subconsultant responsible therefor shall be liable for the unpaid wages. In addition, such consultant and subconsultant shall be liable to the United States (in the case of work done under contract for the District of Columbia or a territory, to such District or to such territory), for liquidated damages. Such liquidated damages shall be computed with respect to each individual laborer or mechanic, including watchmen and guards, employed in violation of the clause set forth in paragraph (1) of this section, in the sum of $10 for each calendar day on which such individual was required or permitted to work in excess of the standard workweek of forty hours without payment of the overtime wages required by the clause set forth in paragraph (1) of this section.

(3) Withholding for unpaid wages and liquidated damages. the FDOT and FHWA Local Agency Program, the applicable Federal agency, or Polk County as the recipient shall upon its own action or upon written request of an authorized representative of the Department of Labor withhold or cause to be withheld, from any moneys payable on account of work performed by the consultant or subconsultant under any such contract or any other Federal contract with the same prime consultant, or any other federally-assisted contract subject to the Contract Work Hours and Safety Standards Act, which is held by the same prime consultant, such sums as may be determined to be necessary to satisfy any liabilities of such consultant or subconsultant for unpaid wages

and liquidated damages as provided in the clause set forth in paragraph (2) of this section.

(4) Subcontracts. The Consultant or subconsultant shall insert in any subcontracts the clauses set forth in paragraph (1) through (4) of this section and also a clause requiring the subconsultants to include these clauses in any lower tier subcontracts. The prime consultant shall be responsible for compliance by any subconsultant or lower tier subconsultant with the clauses set forth in paragraphs (1) through (4) of this section.

3. **Clean Air Act and the Federal Water Pollution Control Act**.

Clean Air Act

(1) The Consultant agrees to comply with all applicable standards, orders or regulations issued pursuant to the Clean Air Act, as amended, 42 U.S.C. § 7401 et seq.

(2) The Consultant agrees to report each violation to the County and understands and agrees that the County will, in turn, report each violation as required to assure notification to FDOT, FHWA and the appropriate Environmental Protection Agency Regional Office.

(3) The Consultant agrees to include these requirements in each subcontract exceeding $150,000 financed in whole or in part with Federal assistance provided by FDOT and FHWA Local Agency Program.

Federal Water Pollution Control Act

(1) The Consultant agrees to comply with all applicable standards, orders or regulations issued pursuant to the Federal Water Pollution Control Act, as amended, 33 U.S.C. 1251 et seq.

(2) The Consultant agrees to report each violation to the County and understands and agrees that the County will, in turn, report each violation as required to assure notification to the FDOT, FHWA and the appropriate Environmental Protection Agency Regional Office.

(3) The Consultant agrees to include these requirements in each subcontract exceeding $150,000 financed in whole or in part with Federal assistance provided by FDOT and FHWA Local Agency Program.

4. **Debarment and Suspension. (Exhibit "A")**

(1) This Contract/Purchase Order is a covered transaction for purposes of 2 C.F.R. pt. 180 and 2 C.F.R. pt. 3000. As such the Consultant is required to verify that none of the Consultant, its principals (defined at 2 C.F.R. § 180.995), or its affiliates

(defined at 2 C.F.R. § 180.905) are excluded (defined at 2 C.F.R. § 180.940) or disqualified (defined at 2 C.F.R. § 180.935).

(2) The Consultant must comply with 2 C.F.R. pt. 180, subpart C and 2 C.F.R. pt. 3000, subpart C and must include a requirement to comply with these regulations in any lower tier covered transaction it enters into.

(3) This certification is a material representation of fact relied upon by Polk County. If it is later determined that the Consultant did not comply with 2 C.F.R. pt. 180, subpart C and 2 C.F.R. pt. 3000, subpart C, in addition to remedies available to FDOT, FHWA and the County. The Federal Government may pursue available remedies, including but not limited to suspension and/or debarment.

(4) The bidder or proposer agrees to comply with the requirements of 2 C.F.R. pt. 180, subpart C and 2 C.F.R. pt. 3000, subpart C while this offer is valid and throughout the period of any contract or purchase order that may arise from this offer. The bidder or proposer further agrees to include a provision requiring such compliance in its lower tier covered transactions.

5. **Byrd Anti-Lobbying Amendment, 31 U.S.C. § 1352 (as amended)**

Consultants who apply or bid for an award of $100,000 or more shall file the required certification (attached hereto as Exhibit "B"). Each tier certifies to the tier above that it will not and has not used Federal appropriated funds to pay any person or organization for influencing or attempting to influence an officer or employee of any agency, a member of Congress, officer or employee of Congress, or an employee of a member of Congress in connection with obtaining any Federal contract, grant, or any other award covered by 31 U.S.C. § 1352. Each tier shall also disclose any lobbying with non-Federal funds that takes place in connection with obtaining any Federal award. Such disclosures are forwarded from tier to tier up to the recipient.

6. **Procurement of Recovered Materials.**

(1) In the performance of this Contract/Purchase Order, the Consultant shall make maximum use of products containing recovered materials that are EPA-designated items unless the product cannot be acquired—

(i) Competitively within a timeframe providing for compliance with the contract performance schedule;

(ii) Meeting contract performance requirements; or

(iii) At a reasonable price.

(2) Information about this requirement, along with the list of EPA-designate items, is available at EPA's Comprehensive Procurement Guidelines web site, https://www.epa.gov/smm/comprehensive-procurement-guideline-cpg-program."

7. **Domestic Preference**

In accordance with 2 CFR §200.322, to the greatest extent practicable under a Federal award, the County must provide a preference for the purchase acquisition, or use of goods, products, or materials produced in the United States (including but not limited to

iron, aluminum, steel, cement, and other manufactured products). The requirements of this section must be included in all subawards including all contracts and purchase orders for work or products under this award. For purposes of this section:

(1) "Produced in the United States" means, for iron and steel products, that all manufacturing processes, from the initial melting stage through the application of coatings, occurred in the United States.

(2) "Manufactured products" means items and construction materials composed in whole or in part of non-ferrous metals such as aluminum; plastics and polymer-based products such as polyvinyl chloride pipe; aggregates such as concrete; glass, including optical fiber; and lumber.

8. **Affirmative Action.**

In accordance with 2 CFR §200.321, the County is committed to taking all necessary steps to assure that minority businesses, women's business enterprises, and labor surplus area firms are used when possible. The Consultant shall also take such affirmative steps in the selection of its subconsultants, laborers and materialmen. Affirmative steps include:

(1) Placing qualified small and minority businesses and women's business enterprises on solicitation lists;

(2) Assuring that small and minority businesses, and women's business enterprises are solicited whenever they are potential sources;

(3) Dividing total requirements, when economically feasible, into smaller tasks or quantities to permit maximum participation by small and minority businesses, and women's business enterprises;

(4) Establishing delivery schedules, where the requirement permits, which encourage participation by small and minority businesses, and women's business enterprises; and

(5) Using the services and assistance, as appropriate, of such organizations as the Small Business Administration and the Minority Business Development Agency of the Department of Commerce.

9. **Access to Records**. The following access to records requirements apply to this Contract and any Purchase Order issued hereunder:

(1) The Consultant agrees to provide Polk County, FDOT and FHWA or any of their authorized representatives, including but not limited to the Government Accountability Office ("GOA"), Treasury's Office of Inspector General ("OIG"), and the Pandemic Relief Accountability Committee ("PRAC"), access to any books, documents, papers, and records of the Consultant which are directly pertinent to this Agreement for the purposes of making audits, examinations, excerpts, and transcriptions.

(2) The Consultant agrees to permit any of the foregoing parties to reproduce by any means whatsoever or to copy excerpts and transcriptions as reasonably needed.

(3) The Consultant agrees to provide FDOT, FHWA or their authorized representatives access to construction or other work sites pertaining to the work being completed under the applicable Purchase Order."

10. **USDT Seal, Logo, and Flags**. The Consultant shall not use FDOT or FHWA seal(s), logos, crests, or reproductions of flags or likenesses of FDOT and FHWA agency officials without specific FDOT and FHWA pre-approval.

11. **Compliance with Federal Law, Regulations, and Executive Orders**. This is an acknowledgement that the FDOT and FHWA Local Agency Program financial assistance will be used to fund the Contract only. The Consultant will comply will all applicable federal law, regulations, executive orders, policies, procedures, and directives.

12. **No Obligation by Federal Government.** The Federal Government is not a party to this Purchase Order and is not subject to any obligations or liabilities to the non-Federal entity, consultant, or any other party pertaining to any matter resulting from this Purchase Order.

13. **Program Fraud and False or Fraudulent Statements or Related Acts.**

The Consultant acknowledges that 31 U.S.C. Chap. 38 (Administrative Remedies for False Claims and Statements) applies to the Consultant's actions pertaining to this Purchase Order.

14. **Default and Remedy**.

Process. If the Consultant materially defaults in the timely performance of any Contract obligation, or if the Consultant is otherwise in material default of the Contract, including, without limitation, the Consultant's failure to timely deliver any portion, or the entirety, of the Project Work in accordance with the Contract documents, then the County shall have the right to (i) with or without terminating the Contract, immediately call in any bonds or other form of security, and engage other consultants or providers at the Consultant's sole cost and expense to provide those unperformed or deficient Contract obligations of the Consultant; (ii) set-off the monetary amount of any and all damages arising therefrom, whether direct or indirect, actual or liquidated, from the amounts due Consultant pursuant to the Contract documents, (iii) immediately terminate the Contract by delivering written notice to the Consultant, and (iv) pursue any and all remedies available in law, equity, and under the Contract, including, without limitation, the recovery of any increased cost to the County to complete the Project Work due to the loss of FDOT and FHWA Local Agency Program funding caused, directly or indirectly, by the Consultant's delay. Upon any such termination pursuant to this Section, the County shall pay the Consultant the full amount due and owing for all services properly performed through the date of the Contract

termination, less any amount subject to the County's right of set-off, and all liability of the County to the Consultant shall cease.

Certain Material Defaults. Among other matters, including without limitation, the Consultant's failure to timely deliver any portion, or the entirety, of the Project Work in accordance with the Contract documents, as described immediately above, any of the following shall constitute the Consultant's material default of the Contract: the appointment of a receiver to take possession of all or substantially all of the Consultant's assets, a general assignment by the Consultant for the benefit of creditors, or any action taken by or suffered by Consultant under any insolvency or bankruptcy act; or the Consultant is convicted of a public entity crime, is determined to have violated federal or state law prohibiting discrimination as stated in Section 287.134, Florida Statutes, or is prohibited from performing work for or transacting business with the County pursuant to Section 287.133 or to Section 287.134, Florida Statutes; or an assignment of the Contract made without the express written consent of the County; or the submission of a false certification to the County or engagement in prohibited business operations, both as described in the Contract Documents.

Catalog of Federal Domestic Assistance (CFDA): 20.205 Highway Planning and Construction

THIS LOCAL AGENCY PROGRAM AGREEMENT ("Agreement"), is entered into on _____, by and between the State of Florida Department of Transportation, an agency
(This date to be entered by DOT only)
of the State of Florida ("Department"), and Polk County ("Recipient").

NOW, THEREFORE, in consideration of the mutual benefits to be derived from joint participation on the Project, the Parties agree to the following:

1. **Authority:** The Department is authorized to enter into this Agreement pursuant to Section 339.12, Florida Statutes. The Recipient by Resolution or other form of official authorization, a copy of which is attached as **Exhibit "D"** and made a part of this Agreement, has authorized its officers to execute this Agreement on its behalf.

2. **Purpose of Agreement:** The purpose of this Agreement is to provide for the Department's participation in the master trail plan for the Upper Peace River Trail at Various Locations, as further described in **Exhibit "A"**, Project Description and Responsibilities attached to and incorporated in this Agreement ("Project"), to provide Department financial assistance to the Recipient; state the terms and conditions upon which Department funds will be provided; and to set forth the manner in which the Project will be undertaken and completed.

3. **Term of Agreement:** The Recipient agrees to complete the Project on or before 12/31/2024. If the Recipient does not complete the Project within this time period, this Agreement will expire on the last day of the scheduled completion as provided in this paragraph unless an extension of the time period is requested by the Recipient and granted in writing by the Department prior to the expiration of this Agreement. Expiration of this Agreement will be considered termination of the Project. The cost of any work performed after the term of this Agreement will not be reimbursed by the Department.

4. **Project Cost:**

   a. The estimated cost of the Project is $ 250,000.00 (Two Hundred Fifty Thousand Dollars). This amount is based upon the Schedule of Financial Assistance in **Exhibit "B"**, attached to and incorporated in this Agreement. **Exhibit "B"** may be modified by mutual execution of an amendment as provided for in paragraph 5.i.

   b. The Department agrees to participate in the Project cost up to the maximum amount of $250,000.00 (Two Hundred Fifty Thousand Dollars) and as more fully described in **Exhibit "B"**. This amount includes Federal-aid funds which are limited to the actual amount of Federal-aid participation. The Department's participation may be increased or reduced upon determination of the actual bid amounts of the Project by the mutual execution of an amendment. The Recipient agrees to bear all expenses in excess of the total cost of the Project and any deficits incurred in connection with the completion of the Project.

   c. Project costs eligible for Department participation will be allowed only from the date of this Agreement. It is understood that Department participation in eligible Project costs is subject to:

i. Legislative approval of the Department's appropriation request in the work program year that the Project is scheduled to be committed;

ii. Availability of funds as stated in paragraphs 5.l. and 5.m. of this Agreement;

iii. Approval of all plans, specifications, contracts or other obligating documents and all other terms of this Agreement; and

iv. Department approval of the Project scope and budget at the time appropriation authority becomes available.

5. Requisitions and Payments

a. The Recipient shall provide quantifiable, measurable, and verifiable units of deliverables. Each deliverable must specify the required minimum level of service to be performed and the criteria for evaluating successful completion. The Project and the quantifiable, measurable, and verifiable units of deliverables are described more fully in **Exhibit "A"**.

b. Invoices shall be submitted by the Recipient in detail sufficient for a proper pre-audit and post-audit based on the quantifiable, measurable and verifiable units of deliverables as established in **Exhibit "A"**. Deliverables must be received and accepted in writing by the Department's Project Manager prior to payments. Requests for reimbursement by the Recipient shall include an invoice, progress report and supporting documentation for the period of services being billed that are acceptable to the Department. The Recipient shall use the format for the invoice and progress report that is approved by the Department.

c. The Recipient shall charge to the Project account all eligible costs of the Project except costs agreed to be borne by the Recipient or its contractors and subcontractors. Costs in excess of the programmed funding or attributable to actions which have not received the required approval of the Department shall not be considered eligible costs. All costs charged to the Project, including any approved services contributed by the Recipient or others, shall be supported by properly executed payrolls, time records, invoices, contracts or vouchers evidencing in proper detail the nature and propriety of the charges.

d. Supporting documentation must establish that the deliverables were received and accepted in writing by the Recipient and must also establish that the required minimum level of service to be performed based on the criteria for evaluating successful completion as specified in **Exhibit "A"** was met. All costs invoiced shall be supported by properly executed payrolls, time records, invoices, contracts or vouchers evidencing in proper detail the nature and propriety of charges as described in **Exhibit "F"**, Contract Payment Requirements.

e. Bills for travel expenses specifically authorized in this Agreement shall be submitted on the Department's Contractor Travel Form No. 300-000-06 and will be paid in accordance with Section 112.061, Florida Statutes and the most current version of the Disbursement Handbook for Employees and Managers.

f. Payment shall be made only after receipt and approval of goods and services unless advance payments are authorized by the Chief Financial Officer of the State of Florida under Chapters 215 and 216, Florida Statutes or the Department's Comptroller under Section 334.044(29), Florida Statutes.

☐ If this box is selected, advance payment is authorized for this Agreement and **Exhibit "H"**, Alternative Advance Payment Financial Provisions is attached and incorporated into this Agreement.

If the Department determines that the performance of the Recipient is unsatisfactory, the Department shall notify the Recipient of the deficiency to be corrected, which correction shall be made within a time-frame to be specified by the Department. The Recipient shall, within thirty (30) days after notice from the Department, provide the Department with a corrective action plan describing how the Recipient will address all issues of contract non-performance, unacceptable performance, failure to meet the minimum performance levels, deliverable deficiencies, or contract non-compliance. If the corrective action plan is unacceptable to the

Department, the Recipient will not be reimbursed to the extent of the non-performance. The Recipient will not be reimbursed until the Recipient resolves the deficiency. If the deficiency is subsequently resolved, the Recipient may bill the Department for the unpaid reimbursement request(s) during the next billing period. If the Recipient is unable to resolve the deficiency, the funds shall be forfeited at the end of the Agreement's term.

g. Agencies providing goods and services to the Department should be aware of the following time frames. Inspection and approval of goods or services shall take no longer than 20 days from the Department's receipt of the invoice. The Department has 20 days to deliver a request for payment (voucher) to the Department of Financial Services. The 20 days are measured from the latter of the date the invoice is received or the goods or services are received, inspected, and approved.

   If a payment is not available within 40 days, a separate interest penalty at a rate as established pursuant to ***Section 55.03(1), F.S.***, will be due and payable, in addition to the invoice amount, to the Recipient. Interest penalties of less than one (1) dollar will not be enforced unless the Recipient requests payment. Invoices that have to be returned to an Recipient because of Recipient preparation errors will result in a delay in the payment. The invoice payment requirements do not start until a properly completed invoice is provided to the Department.

   A Vendor Ombudsman has been established within the Department of Financial Services. The duties of this individual include acting as an advocate for Agencies who may be experiencing problems in obtaining timely payment(s) from a state agency. The Vendor Ombudsman may be contacted at (850) 413-5516.

h. The Recipient shall maintain an accounting system or separate accounts to ensure funds and projects are tracked separately. Records of costs incurred under the terms of this Agreement shall be maintained and made available upon request to the Department at all times during the period of this Agreement and for five years after final payment is made. Copies of these documents and records shall be furnished to the Department upon request. Records of costs incurred include the Recipient's general accounting records and the project records, together with supporting documents and records, of the contractor and all subcontractors performing work on the project, and all other records of the Contractor and subcontractors considered necessary by the Department for a proper audit of costs.

i. Prior to the execution of this Agreement, a Project schedule of funding shall be prepared by the Recipient and approved by the Department. The Recipient shall maintain said schedule of funding, carry out the Project, and shall incur obligations against and make disbursements of Project funds only in conformity with the latest approved schedule of funding for the Project. The schedule of funding may be revised by execution of a Local Agency Program ("LAP") Supplemental Agreement between the Department and the Recipient. The Recipient acknowledges and agrees that funding for this project may be reduced upon determination of the Recipient's contract award amount.

j. If, after Project completion, any claim is made by the Department resulting from an audit or for work or services performed pursuant to this Agreement, the Department may offset such amount from payments due for work or services done under any agreement which it has with the Recipient owing such amount if, upon demand, payment of the amount is not made within 60 days to the Department. Offsetting any amount pursuant to this paragraph shall not be considered a breach of contract by the Department.

k. The Recipient must submit the final invoice on the Project to the Department within 120 days after the completion of the Project. Invoices submitted after the 120-day time period may not be paid.

l. The Department's performance and obligation to pay under this Agreement is contingent upon an annual appropriation by the Legislature. If the Department's funding for this Project is in multiple fiscal years, funds approval from the Department's Comptroller must be received each fiscal year prior to costs being incurred. See **Exhibit "B"** for funding levels by fiscal year. Project costs utilizing these fiscal year funds are not eligible for reimbursement if incurred prior to funds approval being received. The Department will notify the Recipient, in writing, when funds are available.

m. In the event this Agreement is in excess of $25,000 and has a term for a period of more than one year, the provisions of Section 339.135(6)(a), Florida Statutes, are hereby incorporated:

"The Department, during any fiscal year, shall not expend money, incur any liability, or enter into any contract which, by its terms, involves the expenditure of money in excess of the amounts budgeted as available for expenditure during such fiscal year. Any contract, verbal or written, made in violation of this subsection is null and void, and no money may be paid on such contract. The Department shall require a statement from the comptroller of the Department that funds are available prior to entering into any such contract or other binding commitment of funds. Nothing herein contained shall prevent the making of contracts for periods exceeding 1 year, but any contract so made shall be executory only for the value of the services to be rendered or agreed to be paid for in succeeding fiscal years, and this paragraph shall be incorporated verbatim in all contracts of the Department which are for an amount in excess of $25,000 and which have a term for a period of more than 1 year."

6. Department Payment Obligations:

Subject to other provisions of this Agreement, the Department will honor requests for reimbursement to the Recipient pursuant to this Agreement. However, notwithstanding any other provision of this Agreement, the Department may elect by notice in writing not to make a payment if:

a. The Recipient shall have made misrepresentation of a material nature in its application, or any supplement or amendment to its application, or with respect to any document or data furnished with its application or pursuant to this Agreement;

b. There is any pending litigation with respect to the performance by the Recipient of any of its duties or obligations which may jeopardize or adversely affect the Project, the Agreement or payments to the Project;

c. The Recipient shall have taken any action pertaining to the Project which, under this Agreement, requires the approval of the Department or has made a related expenditure or incurred related obligations without having been advised by the Department that same are approved;

d. There has been any violation of the conflict of interest provisions contained in paragraph 14.f.; or

e. The Recipient has been determined by the Department to be in default under any of the provisions of the Agreement.

The Department may suspend or terminate payment for that portion of the Project which the Federal Highway Administration ("FHWA"), or the Department acting in lieu of FHWA, may designate as ineligible for Federal-aid.

In determining the amount of the payment, the Department will exclude all Project costs incurred by the Recipient prior to the Department's issuance of a Notice to Proceed ("NTP"), costs incurred after the expiration of the Agreement, costs which are not provided for in the latest approved schedule of funding in **Exhibit "B"** for the Project, costs agreed to be borne by the Recipient or its contractors and subcontractors for not meeting the Project commencement and final invoice time lines, and costs attributable to goods or services received under a contract or other arrangements which have not been approved in writing by the Department.

7. General Requirements:

The Recipient shall complete the Project with all practical dispatch, in a sound, economical, and efficient manner, and in accordance with the provisions in this Agreement, and all applicable laws. The Project will be performed in accordance with all applicable Department procedures, guidelines, manuals, standards, and directives as described in the Department's **Local Agency Program Manual** (FDOT Topic No. 525-010-300), which by this reference is made a part of this Agreement. Time is of the essence as to each and every obligation under this Agreement.

a. A full time employee of the Recipient, qualified to ensure that the work being pursued is complete, accurate, and consistent with the terms, conditions, and specifications of this Agreement shall be in responsible charge of the Project, which employee should be able to perform the following duties and functions:

i. Administers inherently governmental project activities, including those dealing with cost, time,

adherence to contract requirements, construction quality and scope of Federal-aid projects;

ii. Maintains familiarity of day to day Project operations, including Project safety issues;

iii. Makes or participates in decisions about changed conditions or scope changes that require change orders or supplemental agreements;

iv. Visits and reviews the Project on a frequency that is commensurate with the magnitude and complexity of the Project;

v. Reviews financial processes, transactions and documentation to ensure that safeguards are in place to minimize fraud, waste, and abuse;

vi. Directs Project staff, agency or consultant, to carry out Project administration and contract oversight, including proper documentation;

vii. Is aware of the qualifications, assignments and on-the-job performance of the Recipient and consultant staff at all stages of the Project.

b. Once the Department issues the NTP for the Project, the Recipient shall be obligated to submit an invoice or other request for reimbursement to the Department no less than once every 90 days (quarterly), beginning from the day the NTP is issued. If the Recipient fails to submit quarterly invoices to the Department, and in the event the failure to timely submit invoices to the Department results in the FHWA removing any unbilled funding or the loss of state appropriation authority (which may include the loss of state and federal funds, if there are state funds programmed to the Project), then the Recipient will be solely responsible to provide all funds necessary to complete the Project and the Department will not be obligated to provide any additional funding for the Project. The Recipient waives the right to contest such removal of funds by the Department, if the removal is related to FHWA's withdrawal of funds or if the removal is related to the loss of state appropriation authority. In addition to the loss of funding for the Project, the Department will also consider the de-certification of the Recipient for future LAP Projects. No cost may be incurred under this Agreement until after the Recipient has received a written NTP from the Department. The Recipient agrees to advertise or put the Project out to bid thirty (30) days from the date the Department issues the NTP to advertise the Project. If the Recipient is not able to meet the scheduled advertisement, the Department District LAP Administrator should be notified as soon as possible.

c. If all funds are removed from the Project, including amounts previously billed to the Department and reimbursed to the Recipient, and the Project is off the State Highway System, then the Department will have to request repayment for the previously billed amounts from the Recipient. No state funds can be used on off-system projects, unless authorized pursuant to **Exhibit "I"**, State Funds Addendum, which will be attached to and incorporated in this Agreement in the event state funds are used on the Project.

d. In the event that any election, referendum, approval, permit, notice or other proceeding or authorization is required under applicable law to enable the Recipient to enter into this Agreement or to undertake the Project or to observe, assume or carry out any of the provisions of the Agreement, the Recipient will initiate and consummate, as provided by law, all actions necessary with respect to any such matters.

e. The Recipient shall initiate and prosecute to completion all proceedings necessary, including Federal-aid requirements, to enable the Recipient to provide the necessary funds for completion of the Project.

f. The Recipient shall submit to the Department such data, reports, records, contracts, and other documents relating to the Project as the Department and FHWA may require. The Recipient shall make such submissions using Department-designated information systems.

g. Federal-aid funds shall not participate in any cost which is not incurred in conformity with applicable federal and state laws, the regulations in 23 Code of Federal Regulations (C.F.R.) and 49 C.F.R., and policies and procedures prescribed by the Division Administrator of FHWA. Federal funds shall not be paid on account of any cost incurred prior to authorization by FHWA to the Department to proceed with the Project or part thereof involving such cost (23 C.F.R. 1.9 (a)). If FHWA or the Department determines that any amount

claimed is not eligible, federal participation may be approved in the amount determined to be adequately supported and the Department shall notify the Recipient in writing citing the reasons why items and amounts are not eligible for federal participation. Where correctable non-compliance with provisions of law or FHWA requirements exists federal funds may be withheld until compliance is obtained. Where non-compliance is not correctable, FHWA or the Department may deny participation in parcel or Project costs in part or in total. For any amounts determined to be ineligible for federal reimbursement for which the Department has advanced payment, the Recipient shall promptly reimburse the Department for all such amounts within 90 days of written notice.

h. For any project requiring additional right-of-way, the Recipient must submit to the Department an annual report of its real property acquisition and relocation assistance activities on the project. Activities shall be reported on a federal fiscal year basis, from October 1 through September 30. The report must be prepared using the format prescribed in 49 C.F.R. Part 24, Appendix B, and be submitted to the Department no later than October 15 of each year.

8. Audit Reports:

The administration of resources awarded through the Department to the Recipient by this Agreement may be subject to audits and/or monitoring by the Department. The following requirements do not limit the authority of the Department to conduct or arrange for the conduct of additional audits or evaluations of federal awards or limit the authority of any state agency inspector general, the State of Florida Auditor General, or any other state official. The Recipient shall comply with all audit and audit reporting requirements as specified below.

a. In addition to reviews of audits conducted in accordance with 2 CFR Part 200, Subpart F – Audit Requirements, monitoring procedures may include, but not be limited to, on-site visits by Department staff and/or other procedures including, reviewing any required performance and financial reports, following up, ensuring corrective action, and issuing management decisions on weaknesses found through audits when those findings pertain to federal awards provided through the Department by this Agreement. By entering into this Agreement, the Recipient agrees to comply and cooperate fully with any monitoring procedures/processes deemed appropriate by the Department. The Recipient further agrees to comply and cooperate with any inspections, reviews, investigations, or audits deemed necessary by the Department, State of Florida Chief Financial Officer ("CFO"), or State of Florida Auditor General.

b. The Recipient, a non-federal entity as defined by 2 CFR Part 200, as a subrecipient of a federal award awarded by the Department through this Agreement is subject to the following requirements:

i. In the event the Recipient expends a total amount of federal awards equal to or in excess of the threshold established by 2 CFR Part 200, Subpart F – Audit Requirements, the Recipient must have a federal single or program-specific audit for such fiscal year conducted in accordance with the provisions of 2 CFR Part 200, Subpart F – Audit Requirements. **Exhibit "E"** to this Agreement provides the required federal award identification information needed by the Recipient to further comply with the requirements of 2 CFR Part 200, Subpart F – Audit Requirements. In determining federal awards expended in a fiscal year, the Recipient must consider all sources of federal awards based on when the activity related to the federal award occurs, including the federal award provided through the Department by this Agreement. The determination of amounts of federal awards expended should be in accordance with the guidelines established by 2 CFR Part 200, Subpart F – Audit Requirements. An audit conducted by the State of Florida Auditor General in accordance with the provisions of 2 CFR Part 200, Subpart F – Audit Requirements, will meet the requirements of this part.

ii. In connection with the audit requirements, the Recipient shall fulfill the requirements relative to the auditee responsibilities as provided in 2 CFR Part 200, Subpart F – Audit Requirements.

iii. In the event the Recipient expends less than the threshold established by 2 CFR Part 200, Subpart F – Audit Requirements, in federal awards, the Recipient is exempt from federal audit requirements for that fiscal year. However, the Recipient must provide a single audit exemption statement to the Department at FDOTSingleAudit@dot.state.fl.us no later than nine months after the end of the Recipient's audit period for each applicable audit year. In the event the Recipient expends less than the threshold established by 2 CFR Part 200, Subpart F – Audit Requirements, in federal awards in a fiscal year and elects to have an audit conducted in accordance with the provisions of 2 CFR Part 200, Subpart F – Audit Requirements, the cost of the audit must be paid from non-federal resources (*i.e.*, the cost of such an audit must be paid from the Recipient's resources obtained from other than federal entities).

iv. The Recipient must electronically submit to the Federal Audit Clearinghouse ("FAC") at https://harvester.census.gov/facweb/ the audit reporting package as required by 2 CFR Part 200, Subpart F – Audit Requirements, within the earlier of 30 calendar days after receipt of the auditor's report(s) or nine months after the end of the audit period. The FAC is the repository of record for audits required by 2 CFR Part 200, Subpart F – Audit Requirements, and this Agreement. However, the Department requires a copy of the audit reporting package also be submitted to FDOTSingleAudit@dot.state.fl.us within the earlier of 30 calendar days after receipt of the auditor's report(s) or nine months after the end of the audit period as required by 2 CFR Part 200, Subpart F – Audit Requirements.

v. Within six months of acceptance of the audit report by the FAC, the Department will review the Recipient's audit reporting package, including corrective action plans and management letters, to the extent necessary to determine whether timely and appropriate action on all deficiencies has been taken pertaining to the federal award provided through the Department by this Agreement. If the Recipient fails to have an audit conducted in accordance with 2 CFR Part 200, Subpart F – Audit Requirements, the Department may impose additional conditions to remedy noncompliance. If the Department determines that noncompliance cannot be remedied by imposing additional conditions, the Department may take appropriate actions to enforce compliance, which actions may include but not be limited to the following:

1. Temporarily withhold cash payments pending correction of the deficiency by the Recipient or more severe enforcement action by the Department;
2. Disallow (deny both use of funds and any applicable matching credit for) all or part of the cost of the activity or action not in compliance;
3. Wholly or partly suspend or terminate the federal award;
4. Initiate suspension or debarment proceedings as authorized under 2 C.F.R. Part 180 and federal awarding agency regulations (or in the case of the Department, recommend such a proceeding be initiated by the federal awarding agency);
5. Withhold further federal awards for the Project or program;
6. Take other remedies that may be legally available.

vi. As a condition of receiving this federal award, the Recipient shall permit the Department or its designee, the CFO, or State of Florida Auditor General access to the Recipient's records including financial statements, the independent auditor's working papers, and project records as necessary. Records related to unresolved audit findings, appeals, or litigation shall be retained until the action is complete or the dispute is resolved.

vii. The Department's contact information for requirements under this part is as follows:

Office of Comptroller, MS 24
605 Suwannee Street
Tallahassee, Florida 32399-0450
FDOTSingleAudit@dot.state.fl.us

c. The Recipient shall retain sufficient records demonstrating its compliance with the terms of this Agreement for a period of five years from the date the audit report is issued and shall allow the Department or its designee, the CFO, or State of Florida Auditor General access to such records upon request. The Recipient shall ensure that the audit working papers are made available to the Department or its designee, the CFO, or State of Florida Auditor General upon request for a period of five years from the date the audit report is issued, unless extended in writing by the Department.

9. Termination or Suspension of Project:

The Department may, by written notice to the Recipient, suspend any or all of the Department's obligations under this Agreement for the Recipient's failure to comply with applicable law or the terms of this Agreement until such time as the event or condition resulting in such suspension has ceased or been corrected.

a. If the Department intends to terminate the Agreement, the Department shall notify the Recipient of such termination in writing at least thirty (30) days prior to the termination of the Agreement, with instructions to the effective date of termination or specify the stage of work at which the Agreement is to be terminated.

b. The Parties to this Agreement may terminate this Agreement when its continuation would not produce beneficial results commensurate with the further expenditure of funds. In this event, the Parties shall agree upon the termination conditions.

c. If the Agreement is terminated before performance is completed, the Recipient shall be paid only for that work satisfactorily performed for which costs can be substantiated. Such payment, however, may not exceed the equivalent percentage of the Department's maximum financial assistance. If any portion of the Project is located on the Department's right-of-way, then all work in progress on the Department right-of-way will become the property of the Department and will be turned over promptly by the Recipient.

d. In the event the Recipient fails to perform or honor the requirements and provisions of this Agreement, the Recipient shall promptly refund in full to the Department within thirty (30) days of the termination of the Agreement any funds that were determined by the Department to have been expended in violation of the Agreement.

e. The Department reserves the right to unilaterally cancel this Agreement for failure by the Recipient to comply with the Public Records provisions of Chapter 119, Florida Statutes.

10. Contracts of the Recipient:

a. Except as otherwise authorized in writing by the Department, the Recipient shall not execute any contract or obligate itself in any manner requiring the disbursement of Department funds, including consultant or construction contracts or amendments thereto, with any third party with respect to the Project without the written approval of the Department. Failure to obtain such approval shall be sufficient cause for nonpayment by the Department. The Department specifically reserves the right to review the qualifications of any consultant or contractor and to approve or disapprove the employment of such consultant or contractor.

b. It is understood and agreed by the parties to this Agreement that participation by the Department in a project with the Recipient, where said project involves a consultant contract for engineering, architecture or surveying services, is contingent on the Recipient's complying in full with provisions of Section 287.055, Florida Statutes, Consultants' Competitive Negotiation Act, the federal Brooks Act, 23 C.F.R. 172, and 23 U.S.C. 112. At the discretion of the Department, the Recipient will involve the Department in the consultant selection process for all projects funded under this Agreement. In all cases, the Recipient shall certify to the Department that selection has been accomplished in compliance with the Consultants' Competitive Negotiation Act and the federal Brooks Act.

c. The Recipient shall comply with, and require its consultants and contractors to comply with applicable federal law pertaining to the use of Federal-aid funds. The Recipient shall comply with the provisions in the FHWA-1273 form as set forth in **Exhibit "G"**, FHWA 1273 attached to and incorporated in this Agreement. The Recipient shall include FHWA-1273 in all contracts with contractors performing work on the Project.

d. The Recipient shall require its consultants and contractors to take emergency steps to close any public road whenever there is a risk to life, health and safety of the travelling public. The safety of the travelling public is the Department's first priority for the Recipient. If lane or road closures are required by the LA to ensure the life, health, and safety of the travelling public, the LA must notify the District Construction Engineer and District Traffic Operations Engineer immediately once the travelling public are not at imminent risk. The Department expects professional engineering judgment be applied in all aspects of locally delivered projects. Defect management and supervision of LAP project structures components must be

proactively managed, monitored, and inspected by department prequalified structures engineer(s). The District Construction Engineer must be notified immediately of defect monitoring that occurs in LAP project construction, whether or not the defects are considered an imminent risk to life, health, or safety of the travelling public. When defects, including but not limited to, structural cracks, are initially detected during bridge construction, the engineer of record, construction engineering inspector, design-build firm, or local agency that owns or is responsible for the bridge construction has the authority to immediately close the bridge to construction personnel and close the road underneath. The LA shall also ensure compliance with the CPAM, Section 9.1.8 regarding actions for maintenance of traffic and safety concerns.

11. Disadvantaged Business Enterprise (DBE) Policy and Obligation:

It is the policy of the Department that DBE's, as defined in 49 C.F.R. Part 26, as amended, shall have the opportunity to participate in the performance of contracts financed in whole or in part with Department funds under this Agreement. The DBE requirements of applicable federal and state laws and regulations apply to this Agreement.

The Recipient and its contractors agree to ensure that DBE's have the opportunity to participate in the performance of this Agreement. In this regard, all recipients and contractors shall take all necessary and reasonable steps in accordance with applicable federal and state laws and regulations to ensure that the DBE's have the opportunity to compete for and perform contracts. The Recipient and its contractors and subcontractors shall not discriminate on the basis of race, color, national origin or sex in the award and performance of contracts, entered pursuant to this Agreement.

12. Compliance with Conditions and Laws:

The Recipient shall comply and require its contractors and subcontractors to comply with all terms and conditions of this Agreement and all federal, state, and local laws and regulations applicable to this Project. Execution of this Agreement constitutes a certification that the Recipient is in compliance with, and will require its contractors and subcontractors to comply with, all requirements imposed by applicable federal, state, and local laws and regulations, including the "Certification Regarding Debarment, Suspension, Ineligibility and Voluntary Exclusion – Lower Tier Covered Transactions," in 49 C.F.R. Part 29, and 2 C.F.R. Part 200 when applicable.

13. Performance Evaluations:

Recipients are evaluated on a project-by-project basis. The evaluations provide information about oversight needs and provide input for the recertification process. Evaluations are submitted to the Recipient's person in responsible charge or designee as part of the Project closeout process. The Department provides the evaluation to the Recipient no more than 30 days after final acceptance.

a. Each evaluation will result in one of three ratings. A rating of Unsatisfactory Performance means the Recipient failed to develop the Project in accordance with applicable federal and state regulations, standards and procedures, required excessive District involvement/oversight, or the Project was brought in-house by the Department. A rating of Satisfactory Performance means the Recipient developed the Project in accordance with applicable federal and state regulations, standards and procedures, with minimal District involvement/oversight. A rating of Above Satisfactory Performance means the Recipient developed the Project in accordance with applicable federal and state regulations, standards and procedures, and the Department did not have to exceed the minimum oversight and monitoring requirements identified for the project.

b. The District will determine which functions can be further delegated to Recipients that continuously earn Satisfactory and Above Satisfactory evaluations.

14. Restrictions, Prohibitions, Controls, and Labor Provisions:

During the performance of this Agreement, the Recipient agrees as follows, and agrees to require its contractors and subcontractors to include in each subcontract the following provisions:

a. The Recipient will comply with all the requirements imposed by Title VI of the Civil Rights Act of 1964, the regulations of the U.S. Department of Transportation issued thereunder, and the assurance by the Recipient pursuant thereto. The Recipient shall include the attached **Exhibit "C"**, Title VI Assurances in all contracts

with consultants and contractors performing work on the Project that ensure compliance with Title VI of the Civil Rights Act of 1964, 49 C.F.R. Part 21, and related statutes and regulations.

b. The Recipient will comply with all the requirements as imposed by the ADA, the regulations of the Federal Government issued thereunder, and assurance by the Recipient pursuant thereto.

c. A person or affiliate who has been placed on the convicted vendor list following a conviction for a public entity crime may not submit a bid on a contract to provide any goods or services to a public entity; may not submit a bid on a contract with a public entity for the construction or repair of a public building or public work; may not submit bids on leases of real property to a public entity; may not be awarded or perform work as a contractor, supplier, subcontractor or consultant under a contract with any public entity; and may not transact business with any public entity in excess of the threshold amount provided in Section 287.017, Florida Statutes, for CATEGORY TWO for a period of 36 months from the date of being placed on the convicted vendor list.

d. In accordance with Section 287.134, Florida Statutes, an entity or affiliate who has been placed on the Discriminatory Vendor List, kept by the Florida Department of Management Services, may not submit a bid on a contract to provide goods or services to a public entity; may not submit a bid on a contract with a public entity for the construction or repair of a public building or public work; may not submit bids on leases of real property to a public entity; may not be awarded or perform work as a contractor, supplier, subcontractor or consultant under a contract with any public entity; and may not transact business with any public entity.

e. An entity or affiliate who has had its Certificate of Qualification suspended, revoked, denied or have further been determined by the Department to be a non-responsible contractor may not submit a bid or perform work for the construction or repair of a public building or public work on a contract with the Recipient.

f. Neither the Recipient nor any of its contractors or their subcontractors shall enter into any contract, subcontract or arrangement in connection with the Project or any property included or planned to be included in the Project in which any member, officer or employee of the Recipient or the locality during tenure or for 2 years thereafter has any interest, direct or indirect. If any such present or former member, officer or employee involuntarily acquires or had acquired prior to the beginning of tenure any such interest, and if such interest is immediately disclosed to the Recipient, the Recipient, with prior approval of the Department, may waive the prohibition contained in this paragraph provided that any such present member, officer or employee shall not participate in any action by the Recipient or the locality relating to such contract, subcontract or arrangement. The Recipient shall insert in all contracts entered into in connection with the Project or any property included or planned to be included in any Project, and shall require its contractors to insert in each of their subcontracts, the following provision:

"No member, officer or employee of the Recipient or of the locality during his tenure or for 2 years thereafter shall have any interest, direct or indirect, in this contract or the proceeds thereof."

The provisions of this paragraph shall not be applicable to any agreement between the Recipient and its fiscal depositories or to any agreement for utility services the rates for which are fixed or controlled by a governmental agency.

g. No member or delegate to the Congress of the United States shall be admitted to any share or part of this Agreement or any benefit arising therefrom.

15. Indemnification and Insurance:

a. It is specifically agreed between the parties executing this Agreement that it is not intended by any of the provisions of any part of this Agreement to create in the public or any member thereof, a third-party beneficiary under this Agreement, or to authorize anyone not a party to this Agreement to maintain a suit for personal injuries or property damage pursuant to the terms or provisions of this Agreement. The Recipient guarantees the payment of all just claims for materials, supplies, tools, or labor and other just claims against the Recipient or any subcontractor, in connection with this Agreement.

b. To the extent provided by law, Recipient shall indemnify, defend, and hold harmless the Department against any actions, claims, or damages arising out of, relating to, or resulting from negligent or wrongful act(s) of Recipient, or any of its officers, agents, or employees, acting within the scope of their office or employment, in connection with the rights granted to or exercised by Recipient hereunder, to the extent and within the limitations of Section 768.28, Florida Statutes. The foregoing indemnification shall not constitute a waiver of the Department's or Recipient's sovereign immunity beyond the limits set forth in Florida Statutes, Section 768.28, nor shall the same be construed to constitute agreement by Recipient to indemnify the Department for the negligent acts or omissions of the Department, its officers, agents, or employees, or for the acts of third parties. Nothing herein shall be construed as consent by Recipient to be sued by third parties in any manner arising out of this Agreement. This indemnification shall survive the termination of this Agreement.

c. Recipient agrees to include the following indemnification in all contracts with contractors, subcontractors, consultants, or subconsultants (each referred to as "Entity" for the purposes of the below indemnification) who perform work in connection with this Agreement:

"To the extent provided by law, [ENTITY] shall indemnify, defend, and hold harmless the [RECIPIENT] and the State of Florida, Department of Transportation, including the Department's officers, agents, and employees, against any actions, claims, or damages arising out of, relating to, or resulting from negligent or wrongful act(s) of [ENTITY], or any of its officers, agents, or employees, acting within the scope of their office or employment, in connection with the rights granted to or exercised by [ENTITY].

The foregoing indemnification shall not constitute a waiver of the Department's or [RECIPIENT]'s sovereign immunity beyond the limits set forth in Florida Statutes, Section 768.28. Nor shall the same be construed to constitute agreement by [ENTITY] to indemnify [RECIPIENT] for the negligent acts or omissions of [RECIPIENT], its officers, agents, or employees, or third parties. Nor shall the same be construed to constitute agreement by [ENTITY] to indemnify the Department for the negligent acts or omissions of the Department, its officers, agents, or employees, or third parties. This indemnification shall survive the termination of this Agreement."

d. The Recipient shall, or cause its contractor or consultant to carry and keep in force, during the term of this Agreement, a general liability insurance policy or policies with a company or companies authorized to do business in Florida, affording public liability insurance with combined bodily injury limits of at least $200,000 per person and $300,000 each occurrence, and property damage insurance of at least $200,000 each occurrence, for the services to be rendered in accordance with this Agreement. The Recipient shall also, or cause its contractor or consultant to carry and keep in force Workers' Compensation Insurance as required by the State of Florida under the Workers' Compensation Law. With respect to any general liability insurance policy required pursuant to this Agreement, all such policies shall be issued by companies licensed to do business in the State of Florida. The Recipient shall provide to the Department certificates showing the required coverage to be in effect with endorsements showing the Department to be an additional insured prior to commencing any work under this Agreement. Policies that include Self Insured Retention will not be accepted. The certificates and policies shall provide that in the event of any material change in or cancellation of the policies reflecting the required coverage, thirty days advance notice shall be given to the Department or as provided in accordance with Florida law.

16. **Maintenance Obligations:** In the event the Project includes construction then the following provisions are incorporated into this Agreement:

a. The Recipient agrees to maintain any portion of the Project not located on the State Highway System constructed under this Agreement for its useful life. If the Recipient constructs any improvement on Department right-of-way, the Recipient

☒ shall

☐ shall not

maintain the improvements located on the Department right-of-way for their useful life. If the Recipient is required to maintain Project improvements located on the Department right-of-way beyond final acceptance, then Recipient shall, prior to any disbursement of the state funding provided under this

Agreement, also execute a Maintenance Memorandum of Agreement in a form that is acceptable to the Department. The Recipient has agreed to the foregoing by resolution, and such resolution is attached and incorporated into this Agreement as **Exhibit "D"**. This provision will survive termination of this Agreement.

17. Miscellaneous Provisions:

a. The Recipient will be solely responsible for compliance with all applicable environmental regulations, for any liability arising from non-compliance with these regulations, and will reimburse the Department for any loss incurred in connection therewith. The Recipient will be responsible for securing any applicable permits. The Recipient shall include in all contracts and subcontracts for amounts in excess of $150,000, a provision requiring compliance with all applicable standards, orders or regulations issued pursuant to the Clean Air Act (42 U.S.C. 7401-7671q) and the Federal Water Pollution Control Act as amended (33 U.S.C. 1251-1387).

b. The Department shall not be obligated or liable hereunder to any individual or entity not a party to this Agreement.

c. In no event shall the making by the Department of any payment to the Recipient constitute or be construed as a waiver by the Department of any breach of covenant or any default which may then exist on the part of the Recipient and the making of such payment by the Department, while any such breach or default shall exist, shall in no way impair or prejudice any right or remedy available to the Department with respect to such breach or default.

d. If any provision of this Agreement is held invalid, the remainder of this Agreement shall not be affected. In such an instance, the remainder would then continue to conform to the terms and requirements of applicable law.

e. By execution of the Agreement, the Recipient represents that it has not paid and, also agrees not to pay, any bonus or commission for the purpose of obtaining an approval of its application for the financing hereunder.

f. Nothing in the Agreement shall require the Recipient to observe or enforce compliance with any provision or perform any act or do any other thing in contravention of any applicable state law. If any of the provisions of the Agreement violate any applicable state law, the Recipient will at once notify the Department in writing in order that appropriate changes and modifications may be made by the Department and the Recipient to the end that the Recipient may proceed as soon as possible with the Project.

g. In the event that this Agreement involves constructing and equipping of facilities, the Recipient shall submit to the Department for approval all appropriate plans and specifications covering the Project. The Department will review all plans and specifications and will issue to the Recipient a written approval with any approved portions of the Project and comments or recommendations covering any remainder of the Project deemed appropriate. After resolution of these comments and recommendations to the Department's satisfaction, the Department will issue to the Recipient a written approval with said remainder of the Project. Failure to obtain this written approval shall be sufficient cause of nonpayment by the Department.

h. Upon completion of right-of-way activities on the Project, the Recipient must certify compliance with all applicable federal and state requirements. Certification is required prior to authorization for advertisement for or solicitation of bids for construction of the Project, including if no right-of-way is required.

i. The Recipient will certify in writing, prior to Project closeout that the Project was completed in accordance with applicable plans and specifications, is in place on the Recipient's facility, adequate title is in the Recipient's name, and the Project is accepted by the Recipient as suitable for the intended purpose.

j. The Recipient agrees that no federally-appropriated funds have been paid, or will be paid by or on behalf of the Recipient, to any person for influencing or attempting to influence any officer or employee of any federal agency, a Member of Congress, an officer or employee of Congress or an employee of a Member of Congress in connection with the awarding of any federal contract, the making of any federal grant, the

making of any federal loan, the entering into of any cooperative agreement, and the extension, continuation, renewal, amendment or modification of any federal contract, grant, loan or cooperative agreement. If any funds other than federally-appropriated funds have been paid by the Recipient to any person for influencing or attempting to influence an officer or employee of any federal agency, a Member of Congress, an officer or employee of Congress or an employee of a Member of Congress in connection with this Agreement, the undersigned shall complete and submit Standard Form-LLL, "Disclosure Form to Report Lobbying," in accordance with its instructions. The Recipient shall require that the language of this paragraph be included in the award documents for all subawards at all tiers (including subcontracts, subgrants, and contracts under grants, loans, and cooperative agreements) and that all subrecipients shall certify and disclose accordingly. No funds received pursuant to this contract may be expended for lobbying the Legislature, the judicial branch or a state agency.

k. The Recipient may not permit the Engineer of Record to perform Construction, Engineering and Inspection services on the Project.

l. The Recipient shall comply with all applicable federal guidelines, procedures, and regulations. If at any time a review conducted by Department and or FHWA reveals that the applicable federal guidelines, procedures, and regulations were not followed by the Recipient and FHWA requires reimbursement of the funds, the Recipient will be responsible for repayment to the Department of all funds awarded under the terms of this Agreement.

m. The Recipient shall:

i. utilize the U.S. Department of Homeland Security's E-Verify system to verify the employment eligibility of all new employees hired by Recipient during the term of the contract; and

ii. expressly require any contractor and subcontractors performing work or providing services pursuant to the state contract to likewise utilize the U.S. Department of Homeland Security's E-Verify system to verify the employment eligibility of all new employees hired by the subcontractor during the contract term.

n. This Agreement may be executed in one or more counterparts, each of which shall be deemed an original, but all of which shall constitute the same Agreement. A facsimile or electronic transmission of this Agreement with a signature on behalf of a party will be legal and binding on such party.

o. The Parties agree to comply with s.20.055(5), Florida Statutes, and to incorporate in all subcontracts the obligation to comply with s.20.055(5), Florida Statutes.

p. If the Project is procured pursuant to Chapter 255 for construction services and at the time of the competitive solicitation for the Project 50 percent or more of the cost of the Project is to be paid from state-appropriated funds, then the Recipient must comply with the requirements of Section 255.0991, Florida Statutes.

18. Exhibits:

a. **Exhibits "A", "B", "C", "D", "E"** and **"F"** are attached to and incorporated into this Agreement.

b. ☐ If this Project includes Phase 58 (construction) activities, then **Exhibit "G"**, FHWA FORM 1273, is attached and incorporated into this Agreement.

c. ☐ Alternative Advance Payment Financial Provisions are used on this Project. If an Alternative Pay Method is used on this Project, then **Exhibit "H"**, Alternative Advance Payment Financial Provisions, is attached and incorporated into this Agreement.

d. ☐ State funds are used on this Project. If state funds are used on this Project, then **Exhibit "I"**, State Funds Addendum, is attached and incorporated into this Agreement. **Exhibit "J"**, State Financial Assistance (Florida Single Audit Act), is attached and incorporated into this Agreement.

e. ☐ This Project utilizes Advance Project Reimbursement. If this Project utilizes Advance Project Reimbursement, then **Exhibit "K"**, Advance Project Reimbursement is attached and incorporated into this Agreement.

f. ☐ This Project includes funding for landscaping. If this Project includes funding for landscaping, then **Exhibit "L"**, Landscape Maintenance, is attached and incorporated into this Agreement.

g. ☐ This Project includes funding for a roadway lighting system. If the Project includes funding for roadway lighting system, **Exhibit "M"**, Roadway Lighting Maintenance is attached and incorporated into this Agreement.

h. ☐ This Project includes funding for traffic signals and/or traffic signal systems. If this Project includes funding for traffic signals and/or traffic signals systems, **Exhibit "N"**, Traffic Signal Maintenance is attached and incorporated into this Agreement.

i. ☐ A portion or all of the Project will utilize Department right-of-way and, therefore, **Exhibit "O"**, Terms and Conditions of Construction in Department Right-of-Way, is attached and incorporated into this Agreement.

j. ☐ The following Exhibit(s) are attached and incorporated into this Agreement: _____

k. **Exhibit and Attachment List**

Exhibit A: Project Description and Responsibilities
Exhibit B: Schedule of Financial Assistance
Exhibit C: Title VI Assurances
Exhibit D: Recipient Resolution
Exhibit E: Federal Financial Assistance (Single Audit Act)
Exhibit F: Contract Payment Requirements
* Exhibit G: FHWA Form 1273
* Exhibit H: Alternative Advance Payment Financial Provisions
* Exhibit I: State Funds Addendum
* Exhibit J: State Financial Assistance (Florida Single Audit Act)
* Exhibit K: Advance Project Reimbursement
* Exhibit L: Landscape Maintenance
* Exhibit M: Roadway Lighting Maintenance
* Exhibit N: Traffic Signal Maintenance
* Exhibit O: Terms and Conditions of Construction in Department Right-of-Way

* Additional Exhibit(s):

* **Indicates that the Exhibit is only attached and incorporated if applicable box is selected.**

IN WITNESS WHEREOF, the parties have executed this Agreement on the day and year written above.

EXHIBIT A

PROJECT DESCRIPTION AND RESPONSIBILITIES

FPN: 449695-1-18-01

This exhibit forms an integral part of the Agreement between the State of Florida, Department of Transportation and

Polk County (the Recipient)

PROJECT LOCATION:

☐ The project is on the National Highway System.

☐ The project is on the State Highway System.

PROJECT LENGTH AND MILE POST LIMITS: UPPER PEACE RIVER TR AT VARIOUS LOCATIONS

PROJECT DESCRIPTION: The project will create a master trail plan for trails which connect within 2 miles of Lake Hancock Hub Trails (Panther Point Trail, Fort Fraser Trail, Upper Peace River Legacy Trail). This Master plan would include the following:

Connection A - from Upper Peace River Legacy Trail Phase 3, running 1.98 miles west to east from Lost Bridge Trail at Circle Bar B Preserve to Acorn Loop Trail on Marshall Hampton Reserve.

Connection B - from Panther Point Trail (Upper Peace River Legacy Trail Phase 2) south to Cross Over Road. This is referred to as the Panther Point Connector Trail.

Connection C - from the intersection of Panther Point Trail and Fort Fraser Trail, south to Fort Meade Trail (2.91 miles).

Connection D - from intersection of Upper Peace River Legacy Trail Phase 1 and Fort Fraser Trail northwest to proposed Holloway Trail South, 1.4 miles and thence to Lakeland Florida's "3 Park" trail (3.6 miles).

Connection E - from intersection of Panther Point Trail and Fort Fraser Trail west through the proposed Lakeland Highland Scrub trail to Lakeland Highlands Scrub (3.56 miles) thence to Se7en Wetlands Preserve, which is connected to Loyce E Harpe Park and Connects to Mulberry Park.

Connection F - from the intersection of the Panther Point Connector trail at Old Bartow Eagle Lake Road south to connect with the intersection of Toll Road 570B and Highway 17 thence to Hwy 60 along the Central Polk Parkway Multipurpose Trail.

Connection G - from the connection of the Ernest M. Smith Trail east to intersection of the Panther Point Connector trail at Old Bartow Eagle Lake Road south and east to bicycle trails.

Connection H - from the connection of the Upper Peace River Legacy Trail to west to Simmers-Young Park (approx. 3 miles) via the Lena Run Trail.

SPECIAL CONSIDERATIONS BY RECIPIENT:

The Recipient is required to provide a copy of the design plans for the Department's review and approval to coordinate permitting with the Department, and notify the Department prior to commencement of any right-of-way activities.

The Recipient shall commence the project's activities subsequent to the execution of this Agreement and shall perform in accordance with the following schedule:

a) Planning Study to be let on or before:
b) Planning Study to be completed by: 12/31/2024

If this schedule cannot be met, the Recipient will notify the Department in writing with a revised schedule or the project is subject to the withdrawal of funding.

SPECIAL CONSIDERATIONS BY DEPARTMENT:

Upon receipt of an invoice, the Department will have twenty, (20) working days to review and approve the goods and services submitted for payment.

TITLE VI ASSURANCES

During the performance of this contract, the consultant or contractor, for itself, its assignees and successors in interest (hereinafter collectively referred to as the "contractor") agrees as follows:

(1.) Compliance with REGULATIONS: The contractor shall comply with the Regulations relative to nondiscrimination in federally-assisted programs of the U.S. Department of Transportation (hereinafter, "USDOT") ***Title 49, Code of Federal Regulations, Part 21,*** as they may be amended from time to time, (hereinafter referred to as the ***REGULATIONS***), which are herein incorporated by reference and made a part of this contract.

(2.) Nondiscrimination: The Contractor, with regard to the work performed by it during the contract, shall not discriminate on the basis of race, color, national origin, or sex in the selection and retention of sub-contractors, including procurements of materials and leases of equipment. The contractor shall not participate either directly or indirectly in the discrimination prohibited by ***Section 21.5*** of the ***REGULATIONS,*** including employment practices when the contract covers a program set forth in ***Appendix B*** of the ***REGULATIONS.***

(3.) Solicitations for Sub-contractors, including Procurements of Materials and Equipment: In all solicitations either by competitive bidding or negotiation made by the contractor for work to be performed under sub-contract, including procurements of materials or leases of equipment, each potential sub-contractor or supplier shall be notified by the contractor of the contractor's obligations under this contract and the ***REGULATIONS*** relative to nondiscrimination on the basis of race, color, national origin, or sex.

(4.) Information and Reports: The contractor shall provide all information and reports required by the ***REGULATIONS*** or directives issued pursuant thereto, and shall permit access to its books, records, accounts, other sources of information, and its facilities as may be determined by the *Florida Department of Transportation* or the *Federal Highway Administration, Federal Transit Administration, Federal Aviation Administration, and Federal Motor Carrier Safety Administration* to be pertinent to ascertain compliance with such ***REGULATIONS,*** orders and instructions. Where any information required of a contractor is in the exclusive possession of another who fails or refuses to furnish this information the contractor shall so certify to the *Florida Department of Transportation,* or the *Federal Highway Administration, Federal Transit Administration, Federal Aviation Administration, or Federal Motor Carrier Safety Administration* as appropriate, and shall set forth what efforts it has made to obtain the information.

(5.) Sanctions for Noncompliance: In the event of the contractor's noncompliance with the nondiscrimination provisions of this contract, the Florida Department of Transportation shall impose such contract sanctions as it or the Federal Highway Administration, Federal Transit Administration, Federal Aviation Administration, or

Federal Motor Carrier Safety Administration may determine to be appropriate, including, but not limited to:

a. withholding of payments to the contractor under the contract until the contractor complies, and/or
b. cancellation, termination or suspension of the contract, in whole or in part.

(6.) Incorporation of Provisions: The contractor shall include the provisions of paragraphs (1) through (7) in every sub-contract, including procurements of materials and leases of equipment, unless exempt by the ***REGULATIONS,*** or directives issued pursuant thereto. The contractor shall take such action with respect to any sub-contract or procurement as the *Florida Department of Transportation* or the *Federal Highway Administration, Federal Transit Administration, Federal Aviation Administration, or Federal Motor Carrier Safety Administration* may direct as a means of enforcing such provisions including sanctions for noncompliance, provided, however, that, in the event a contractor becomes involved in, or is threatened with, litigation with a sub-contractor or supplier as a result of such direction, the contractor may request the *Florida Department of Transportation* to enter into such litigation to protect the interests of the *Florida Department of Transportation,* and, in addition, the contractor may request the United States to enter into such litigation to protect the interests of the United States.

(7.) Compliance with Nondiscrimination Statutes and Authorities: Title VI of the Civil Rights Act of 1964 (42 U.S.C. § 2000d et seq., 78 stat. 252), (prohibits discrimination on the basis of race, color, national origin); and 49 CFR Part 21; The Uniform Relocation Assistance and Real Property Acquisition Policies Act of 1970, (42 U.S.C. § 4601), (prohibits unfair treatment of persons displaced or whose property has been acquired because of Federal or Federal-aid programs and projects); Federal-Aid Highway Act of 1973, (23 U.S.C. § 324 et seq.), (prohibits discrimination on the basis of sex); Section 504 of the Rehabilitation Act of 1973, (29 U.S.C. § 794 et seq.), as amended, (prohibits discrimination on the basis of disability); and 49 CFR Part 27; The Age Discrimination Act of 1975, as amended, (42 U.S.C. § 6101 et seq.), (prohibits discrimination on the basis of age); Airport and Airway Improvement Act of 1982, (49 USC § 471, Section 47123), as amended, (prohibits discrimination based on race, creed, color, national origin, or sex); The Civil Rights Restoration Act of 1987, (PL 100-209), (Broadened the scope, coverage and applicability of Title VI of the Civil Rights Act of 1964, The Age Discrimination Act of 1975 and Section 504 of the Rehabilitation Act of 1973, by expanding the definition of the terms "programs or activities" to include all of the programs or activities of the Federal-aid recipients, sub-recipients and contractors, whether such programs or activities are Federally funded or not); Titles II and III of the Americans with Disabilities Act, which prohibit discrimination on the basis of disability in the operation of public entities, public and private transportation systems, places of public accommodation, and certain testing entities (42 U.S.C. §§ 12131 – 12189) as implemented by Department of Transportation regulations at 49 C.F.R. parts 37 and 38; The Federal Aviation Administration's Non-discrimination statute (49 U.S.C. § 47123) (prohibits discrimination on the basis of race, color, national origin, and sex); Executive Order 12898, Federal Actions to Address Environmental Justice in Minority Populations and Low-Income Populations, which ensures non-discrimination against minority populations by discouraging programs, policies, and activities with disproportionately high and adverse human health or environmental effects on minority and low-income populations; Executive Order 13166, Improving Access to Services for Persons with Limited English Proficiency, and resulting agency guidance, national origin discrimination includes discrimination because of limited English proficiency (LEP). To ensure compliance with Title VI, you must take reasonable steps to ensure that LEP persons have meaningful access to your programs (70 Fed. Reg. at 74087 to 74100); Title IX of the Education Amendments of 1972, as amended, which prohibits you from discriminating because of sex in education programs or activities (20 U.S.C. 1681 et seq).

CONTRACT PAYMENT REQUIREMENTS
Florida Department of Financial Services, Reference Guide for State Expenditures
Cost Reimbursement Contracts

Invoices for cost reimbursement contracts must be supported by an itemized listing of expenditures by category (salary, travel, expenses, etc.). Supporting documentation shall be submitted for each amount for which reimbursement is being claimed indicating that the item has been paid. Documentation for each amount for which reimbursement is being claimed must indicate that the item has been paid. Check numbers may be provided in lieu of copies of actual checks. Each piece of documentation should clearly reflect the dates of service. Only expenditures for categories in the approved agreement budget may be reimbursed. These expenditures must be allowable (pursuant to law) and directly related to the services being provided.

Listed below are types and examples of supporting documentation for cost reimbursement agreements:

Salaries: Timesheets that support the hours worked on the project or activity must be kept. A payroll register, or similar documentation should be maintained. The payroll register should show gross salary charges, fringe benefits, other deductions and net pay. If an individual for whom reimbursement is being claimed is paid by the hour, a document reflecting the hours worked times the rate of pay will be acceptable.

Fringe benefits: Fringe benefits should be supported by invoices showing the amount paid on behalf of the employee, e.g., insurance premiums paid. If the contract specifically states that fringe benefits will be based on a specified percentage rather than the actual cost of fringe benefits, then the calculation for the fringe benefits amount must be shown. Exception: Governmental entities are not required to provide check numbers or copies of checks for fringe benefits.

Travel: Reimbursement for travel must be in accordance with s. 112.061, F.S., which includes submission of the claim on the approved state travel voucher along with supporting receipts and invoices.

Other direct costs: Reimbursement will be made based on paid invoices/receipts and proof of payment processing (cancelled/processed checks and bank statements). If nonexpendable property is purchased using state funds, the contract should include a provision for the transfer of the property to the State when services are terminated. Documentation must be provided to show compliance with DMS Rule 60A-1.017, F.A.C., regarding the requirements for contracts which include services and that provide for the contractor to purchase tangible personal property as defined in s. 273.02, F.S., for subsequent transfer to the State.

Indirect costs: If the contract stipulates that indirect costs will be paid based on a specified rate, then the calculation should be shown. Indirect costs must be in the approved agreement budget and the entity must be able to demonstrate that the costs are not duplicated elsewhere as direct costs. All indirect cost rates must be evaluated for reasonableness and for allowability and must be allocated consistently.

Contracts between state agencies may submit alternative documentation to substantiate the reimbursement request, which may be in the form of FLAIR reports or other detailed reports.

The Florida Department of Financial Services, online Reference Guide for State Expenditures can be found at this web address https://www.myfloridacfo.com/Division/AA/Manuals/documents/ReferenceGuideforStateExpenditures.pdf.

RFP 23-197, P.E. Services for Lake Hancock Multiuse Trail Connection – LAP

Addendum #1(Continued)

Question 1: Who is the County's project manager and selection committee members assigned to this RFP?

Answer 1: Tracy Mullins, Project Manager / Selection Committee member
Tabitha Biehl, Selection Committee member
Ryan Kordek, Selection Committee member
Sharon Mathis, Selection Committee member
Conner Updike, Selection Committee member

Question 2: Please confirm that it is acceptable to provide key staff's experience prior to joining the proposing firm as example projects and in resumes, both in Tab 3.

Answer 2: Yes, staff prior experience before joining the proposing firm is acceptable.

Question 3: Please confirm that it is acceptable to ONLY submit the proposal electronically.

Answer 3: Yes, if a proposer is submitting their proposal electronically through Kiteworks, the proposer will not be required to also submit a seal parcel and vice versa, if a proposer is submitting a seal parcel that is mailed or hand delivered, they will not be required to submit an electronic proposal. However, the County will request original signed documents from the awarded upon issuance of the recommendation of award.

Question 4: Task 2: Site Analysis: Physical and Environmental Conditions deliverables identifies two separate sets of presentation slides as deliverables. Can you clarify whether the County is looking for trail benefits and best practices specific to this Lake Hancock study or more general guidance on those topics?

Answer 4: Trail benefits and best practices for Polk County trail systems, featuring the Lake Hancock Study.

Question 5: In reference to Task 3: Alternative Routing Analysis and Recommendations.

With this project being federally funded and LAP-administered, are there any specific steps or requirements for what needs to be covered and documented under the alternatives analysis and environmental review?

Answer 5: No. Only requirements are the request deliverables per Task 3 listed on page 10 of the RFP document to be submitted based on the proposers' recommendations for this project. Also, please be sure all requirements are in accordance to the LAP agreement associated with this project.

Title:_____

Company:_____

Questions & Answers:

Question 1: Two of the deliverables for Task 2 state all materials will be copywritten property of PNR, can you please clarify intent?

- PowerPoint Presentation and correlated materials on the benefits of multi-use trails as part of an active transportation system which align with other community planning efforts related to transportation and sustainability. Presentation must be in a conference style format and suitable to give to stakeholders. All materials will be copywritten property of PNR.

- PowerPoint Presentation on best practices for trail planning suitable for conference presentation. All materials will be copywritten property of PNR.

For example, will the PowerPoint presentations itself be considered copywritten property of PNR or the information stated within said PowerPoint?

Answer 1: The PowerPoint presentation itself will be considered copywritten property of PNR. When the material is presented at a conference (For example APA or FRPA) the copywrite is passed to that organization as part of the speaker's agreement. The county cannot pass the copywrite to the PowerPoint to the conference organization without ownership.

Any original research and data collected under the contract will be the property of PNR, who will retain copywrite to that material.

215 E Main St, Bartow, FL 33830

A commitment to doing business with Polk County is one of the main reasons we located our first office in Bartow back in 2012. We have been able to support the County through a broad spectrum of services, delivering projects that have directly led to safety and connectivity improvements in our communities. We look forward, with eager and humble anticipation, to the opportunity to continue our relationship with the County through this contract.

As residents, we are observing the explosion of development that is occurring throughout Polk County. Trails help achieve numerous community planning and economic development goals, and the time is ripe to plan for future transportation and recreation corridors. Lake Hancock is a stunningly beautiful natural asset and a logical focal point for an envisioned network of trails in the area. Building on the momentum and success of the Fort Fraser Trail and recent expansion of the SUN Trails program, the Lake Hancock Multi-use Trail Connection Master Plan will provide an achievable vision for implementing the trail network. The vision will include strategies and design elements such as access points, amenities, and interpretive storytelling that maximize the investment and ensure the trails will serve as broad community assets. The Master Plan will detail actionable steps to complete the envisioned network by leveraging the available funding sources and opportunities.

Our goal for this contract is simple: make a meaningful contribution through consistently reliable, high-quality deliverables and be Polk County's most trusted consultant.

Project Manager, Lucas Cruse, AICP, riding the Pinellas Trail.

Deputy Project Manager, Peyton McLeod, PTP, leading a Community Engagement event.

PGA HISTORY

PGA was founded in 2011 by **Hiren Patel, PE** and **Gordon Greene, PE**. We have grown to over 120 staff (113 full-time employees) since then and continue to grow. However, we are still a centralized and modestly-sized firm with the same eagerness to impress and serve our clients. PGA has extensive project experience in Planning, PD&E, Roadway, Drainage, Structures, Traffic, Landscape Architecture, Construction, Facilities Preservation, and Environmental Services. We have worked on projects of all sizes, including sidewalk and resurfacing projects, flooding complaints, bridge hydraulics reports, permitting on roadways within Polk County and for FDOT, major interchange reconstruction projects, bridge widenings, simple-single span bridges to complex multi-span bridges and various miscellaneous structures.

WHY SELECT PGA?

This proposal will clearly demonstrate that the PGA Team is best suited for this contract. We enjoy a great working relationship with the County and are excited about the prospect of continuing to build on that partnership. As part of our exceptional growth, we have had the opportunity to work on a number of exciting multi-use trails projects in addition to many other roadway projects that incorporate sidewalks and trails that focus on the aspects of serving all roadway users. We look forward to bringing this experience to the County. Beyond our technical capabilities, we want to express that PGA is a true Polk County company. Many of our staff are born-and-raised Polk County residents. Most of the 16 staff members in our Bartow office, located minutes away from the Polk County Administration Building, have spent nearly their entire lives in Polk County. We know Polk County in a way that other engineering firms cannot as we live next to and utilize its trails and roads daily. We have a strong desire and a vested interest in serving Polk County and its citizens and we humbly request your consideration in shortlisting PGA.

State of Florida
Department of State

I certify from the records of this office that PATEL, GREENE, AND ASSOCIATES, LLC is a limited liability company organized under the laws of the State of Florida, filed on May 11, 2011.

The document number of this limited liability company is L11000055519.

I further certify that said limited liability company has paid all fees due this office through December 31, 2023, that its most recent annual report was filed on February 22, 2023, and that its status is active.

2. APPROACH TO THE PROJECT

APPROACH TO THE PROJECT

PROJECT DESCRIPTION

The Lake Hancock Multi-Use Trail Connection Master Plan will establish the vision and details of a connected network of trails surrounding Lake Hancock. Supporting the linear trails, the Master Plan will establish a cohesive set of trail design parameters, amenities, and access points. To make the vision a reality, the Master Plan will chart an implementation strategy with clearly defined action plan and projects to build the network.

The commitment to establishing high quality trails is evident across Polk County. In addition to corridors for recreation, a connected network of trails provides safe and comfortable transportation route options for commuting bicyclists. Being avid users of the existing trails and natural areas in Polk County, the PGA Team is keen to help expand those opportunities.

Fig 1: Existing trail along the shore of Lake Hancock within the Circle Bar B Reserve

PROJECT APPROACH

First and foremost, we will approach the Master Plan with a goal of developing actionable projects that are scoped with the necessary documentation to be ready for grant funding. As with any federal or state grant-based funding program, robust documentation is needed to demonstrate that the funds are being used for eligible projects that benefit the local community. Each resulting project will include an action plan specifying any identified easement needs, detailed design considerations for the preferred alignment and amenities, interpretive storytelling approaches, and cost estimates for all associated infrastructure.

The scope provided in the RFP clearly outlines the expectations for deliverables and we will meet and exceed those expectations. In addition to meeting the minimum requirements, the team will be focused on creating conceptual design plans that are visually appealing and easy to understand. The vision of the Master Plan is worthy of excitement and the PGA Team will produce materials that will generate enthusiastic support from elected officials, funding decision makers, and future trail users.

MANAGEMENT

PGA is ready to carry out this important task in a timely and reliable manner. We strive to exceed the County's expectations and will do everything in our power to ensure that the preparation of the Master Plan runs smoothly. Effective communication and coordination are the keys to success, and the team assembled for the Lake Hancock Multi-Use Trails Master Plan is prepared with the leadership and procedural tools to ensure that success.

Upon completion of the scope development, Lucas will finalize a schedule, defining major milestones with delivery dates. A Critical Path Method (CPM) schedule will be developed using Microsoft Project scheduling software that will highlight significant tasks occurring for major project phases. This will allow Lucas to develop a staffing plan that allocates the resources required to meet the County's grant funding schedule.

PGA uses Microsoft Teams internally, as well as externally with clients, teaming partners, and stakeholders. Our coordination and communication will be fluid to meet your needs and preferences. It is our practice to respond to client communications within one business day, providing an acknowledgment and an expected time frame if an immediate answer is not feasible.

Lucas Cruse, AICP
Project Manager

Our Project Manager, Lucas Cruse, AICP, has 19 years of experience with both managing and serving as a technical lead on various trail and non-motorized planning and design projects. Lucas will serve as the primary point of contact for Polk County and be available whenever needed. The PGA Team proposes establishing a standing bi-weekly meeting between Lucas and the Polk County Project Manager, Tracy Mullins, M.Sc., AICP, CPRP, to provide task updates and keep all efforts on track. The standing meetings will be supplemented with additional staff and meetings as dictated by the current topics and tasks.

Peyton McLeod, PTP
Deputy Project Manager

Our Deputy Project Manager, Peyton McLeod, PTP, has 19 years of experience managing multimodal transportation planning projects, including bicycle- and pedestrian-focused projects in Polk County. Lucas and Peyton will be supported by other PGA staff from several related disciplines for production and a team of expert partners from AECOM, CivilSurv, and SEARCH to assist with data collection and environmental compliance.

PERSPECTIVES, APPROACHES, SCOPE HIGHLIGHTS & TASKS/SCHEDULE

UNIQUE PERSPECTIVES

Lucas brings a unique perspective and set of experiences that makes him the ideal leader for this effort. Lucas is known as one of Florida's leading experts in non-motorized transportation design and planning as exemplified by his role as an instructor in FDOT's Local Agency Technical Assistance Program (LTAP). Lucas also brings experience in interpretive design, being a former National Park Transportation Scholar a role in which he led the effort to establish access to a new unit of Pecos National Historical Park in New Mexico. Lastly, Lucas was a thru-hiker of the Appalachian Trail, completing the 2,174-mile journey in six months. Such immersive, personal experience as a user of complex trail networks informs his approach to master planning.

The PGA Team also includes Charles Reed, whose experience includes managing Local Programs Office (LAP) projects for municipalities through the state and FDOT. Utilizing his working relationships within FDOT District 1, Charles will ensure that all aspects of the project comply with LAP requirements.

FEATURED APPROACHES

The PGA Team proposes to introduce several innovative approaches that will elevate the Master Plan. This includes viewing the proposed trail network within the context of the larger statewide SUN Trail network, incorporating a unified system of branded trail wayfinding, and proactively engaging community stakeholders.

SUN TRAIL NETWORK: As part of an economic development initiative, the SUN Trail was established as a statewide system of high priority paved shared use path corridors in Florida. The SUN Trail network weaves together many existing and future greenway corridors into long distance routes throughout Florida, including links that will be covered by this Master Plan. Serving both visitors and residents, regional greenway trails have economic development considerations that justify a higher level of amenities. Notably, the SUN Trail program's annual funding allocation was increased substantially during the recently completed legislative session. Special attention will be given to ensure that the Master Plan trail network and the resulting individual projects will be ideal candidates for inclusion as future links of the SUN Trail network. An essential detail is that all trail concepts and plans will be developed to follow the FDOT standards applicable to the SUN Trail network.

LAKE HANCOCK TRAILS BRANDING AND WAYFINDING: Supporting economic development, the Master Plan will establish a unified system of identification and wayfinding to define the trails as a cohesive network. The PGA Team is keen to apply its experience with developing comprehensive greenways design guidelines, branding, and bicycle route wayfinding signage, adapting the approach and design to the context of Lake Hancock and its surrounding environs.

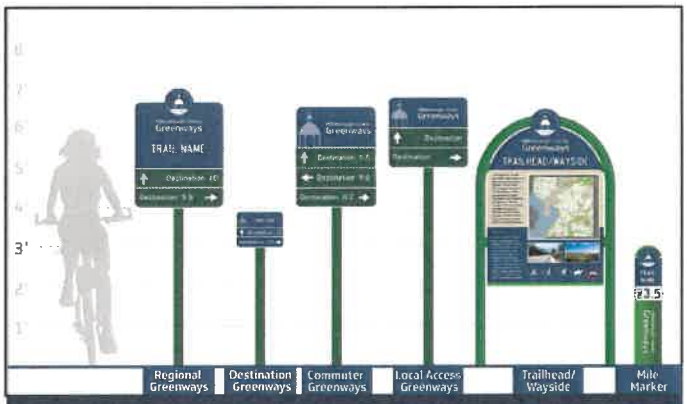

Fig 2: Example unified system of trail wayfinding signage.

ENHANCED STAKEHOLDER ENGAGEMENT: The PGA Team proposes to conduct public involvement beyond online solicitation and a single traditional public meeting. Working with Parks and Natural Resources staff and the Polk County Environmental Lands Program, the PGA Team will identify key stakeholders and landowners, offering to present the draft Master Plan, proactively soliciting feedback from those partners and community members with the greatest interest in the proposed trails network. We propose providing an initial project introduction and progress report to the identified stakeholders and the TPO at the completion of Task 3 in addition to the broader public outreach conducted when the draft Master Plan is ready at the conclusion of Task 5.

As a disadvantaged and minority business enterprise (DBE/MBE), PGA has been grateful for opportunities provided by public agencies' incubator and MBE incentive programs. In a similar vein, we take great care to engage with all vulnerable and disenfranchised stakeholder groups that may be impacted (positively or negatively) by a project. Our project approaches and internal operations are counseled, as appropriate, by our internal DE&I committee, called S.A.F.E. (Striving to Achieve Fairness and Equity).

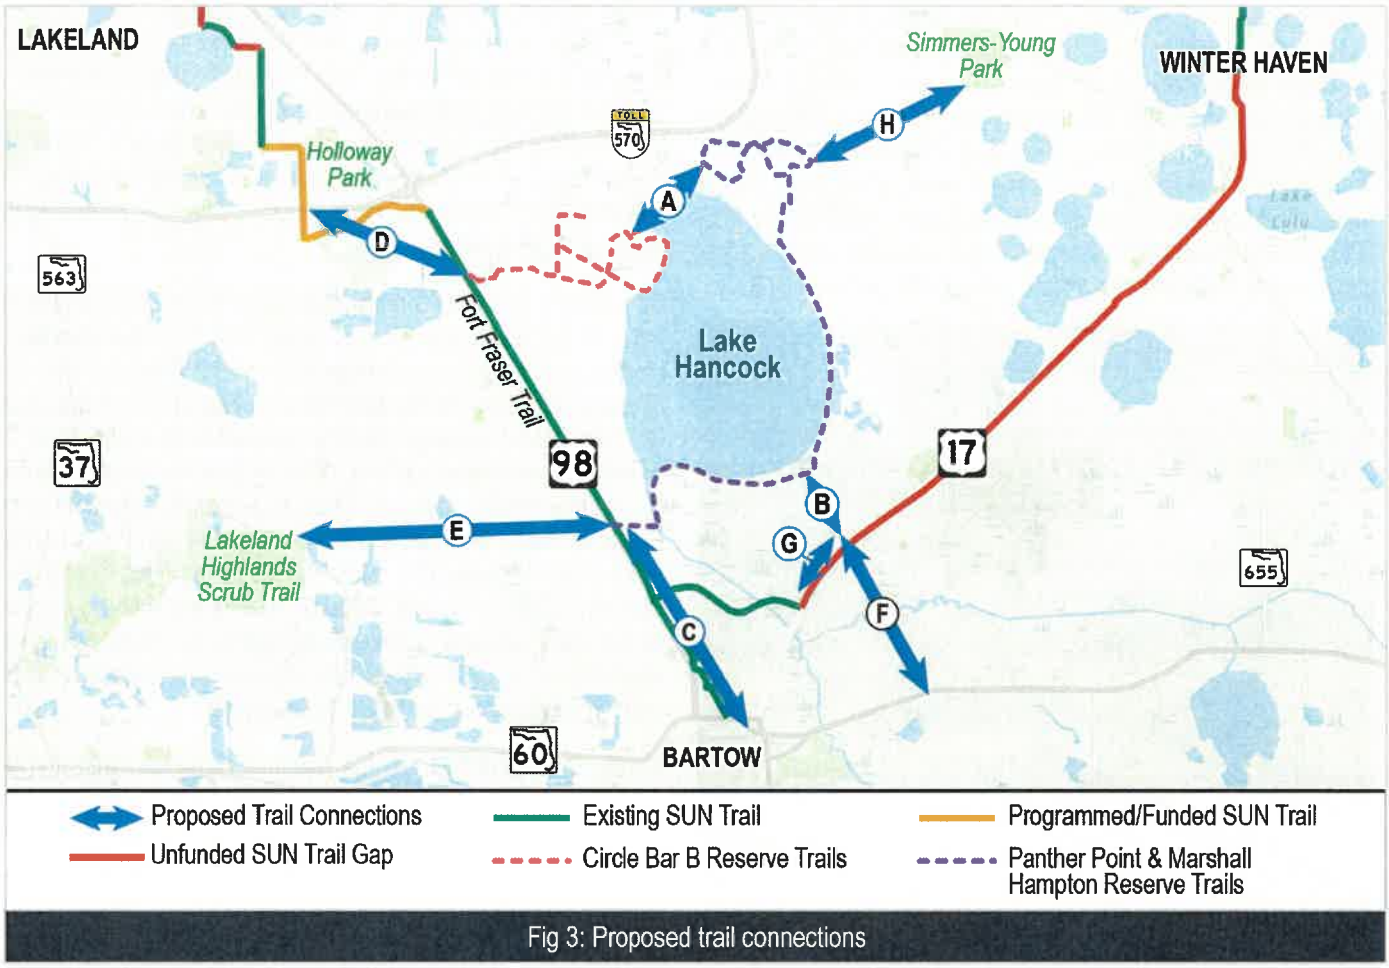

Fig 3: Proposed trail connections

A suggested approach for enhancing the engagement is to seek opportunities to present the Master Plan as a part of a regularly scheduled meetings of identified community stakeholder groups to maximize participation and go to people where they are already gathering.

SCOPE HIGHLIGHTS

Polk County is fortunate to have beautiful lakes that invite year-round exploration and residents that value the investment in protecting and providing access to these natural assets. Lake Hancock is unique for both its size and its potential for a fully encircling network of trails. The projects resulting from this Master Plan will highlight the natural setting and history, leaving a legacy for residents to enjoy as the surrounding areas develop. The map above (figure 3) identifies each of the trail connections to be made with this Master Plan and the following content highlights details of the context for each of those connections.

In seeking to understand the proposed connections, we have visited many of the existing trails and researched the existing plans that cover the study area. Starting from the ecological conditions, Lake Hancock has been the focus of extensive efforts to mitigate the history of human impacts, improve the water quality, and restore historic water levels. This Master Plan is a next step in preserving and providing access to these restored lands. The eight envisioned connections each have unique ecological conditions, land use settings, and design considerations to be reviewed for environmental compliance and impacts as the study scope is enacted.

The Fort Fraser Trail, the network of trails within the Circle Bar B Reserve, and the Panther Point Trail nearly complete a full loop around Lake Hancock when combined. The remaining gap along the northern side of Lake Hancock is identified as **Connection A**. The area of Connection A is low-lying, and the alignment options will evaluate the maintenance implications of significant segments of boardwalk to retain proximity to the lakeshore.

Demonstrating the diversity of trails in the area, the three trails that lead to Connection A each have very different characters. The Fort Fraser Trail is a paved pathway that follows US Highway 98 and is an excellent shared-use path template to follow with an alignment

that maximizes its separation from the roadway and amenities that set the standard for all of Central Florida. The trails within the Circle Bar B Reserve are unpaved service roads that feature heavy pedestrian traffic from hikers and wildlife photographers parked at Polk's Nature Discovery Center. The recently completed Panther Point Trail is an unpaved and remote pathway that covers miles without access points or facilities. A goal of this Master Plan is to connect these disparate trails into a cohesive network while continuing to serve the distinct users and charms of each trail.

Fig 4: Fort Fraser Trail alignment and amenities.

Continuing counterclockwise around Lake Hancock, **Connection D** extends the Fort Fraser Trail to the Holloway Trail along the south side of the Polk Parkway following the SUN Trail designated route and utilizing recently confirmed easements with Orlando Health and the Sanlan RV & Golf Resort. This connection ties into the City of Lakeland's trail network.

Connection E extends the Panther Point Trail west from the Fort Fraser Trail through an area of reclaimed phosphate mines to the Lakeland Highlands Scrub Trail and ultimately to SR 37. This connection serves an area of residential growth and ties in popular destinations such as the mountain bike trails of Loyce E Harpe Park and the Hidden Oaks Disc Golf Course. The alignment and design of this section will include a focus on restoring the natural setting.

Connection C, extending the Fort Fraser Trail southward towards Fort Meade, is very familiar to the PGA Team. In early 2023, PGA assisted the City of Bartow with their application for funding to advance the design of the planned overpass where the Fort Fraser Trail meets State Road 60. This trail connection is a critical link in the Peace River Greenway Corridor, ultimately connecting the Coast-to-Coast Trail to the north down to Charlotte Harbor to the south via Lake Hancock.

Connections B, F, and G tie together several existing and planned trails to the south and east of Lake Hancock. **Connection B** creates new access to a remote area of the Panther Point Trail and connects Lake Hancock to the unfunded SUN Trail gap along US Highway 17. Correspondingly, Connection B is known as the "Panther Point Connector Trail." Starting from the southern end of the Panther Point Connector Trail, **Connection G** leads south to the Ernest M. Smith Blvd trail and Bartow. **Connection F** ties Panther Point to the pathways that will follow the forthcoming Central Polk Parkway (CPP) roadways. Notably, PGA is the prime consultant for Florida's Turnpike Enterprise, designing the roadway and trail segments of the CPP between US Highway 17 and State Road 60, which is a substantial portion of Connection F.

Finally, **Connection H** ties the Marshall Hampton Tract and the northern end of the Panther Point Trail east along Lena Run and connects to Simmers-Young Park. This link ties in communities to the east and north such as Winter Haven and Auburndale.

Fig 5: Covered bridges on the Fort Fraser Trail add cultural and historical interest.

SCOPE OF SERVICES

The following tasks overview summarizes the primary work deliverables, emphasizing the key content elements. The schedule indicates where tasks would overlap as feedback and decisions are progressively incorporated into the Master Plan effort.

- **Task 1: Data Collection & Field Reconnaissance** (NTP-Month 3) Summarize background documents, confirm permitting requirements, and identify the required environmental and site data to be collected.
- **Task 2: Site Analysis & Alternatives Development** (Months 1-4) Prepare maps and materials to describe the cross sections, alignments, and interpretation alternatives for each connection.
- **Task 3: Route Analysis & Screening** (Months 3-6) Document the opportunities and constraints for each alternative including environmental conditions, permitting issues, and parcel ownership.
- **Task 4: Trail Alignment, Access, Amenities, and Interpretation Design** (Months 4-7) Prepare conceptual design plans for each preferred connection alternative including alignments, cross sections, access points, amenities, cost estimates, and critical path implementation steps.

Tasks 1-4 will each result in a technical memorandum to document progress and provide supporting information at each decision point. These memoranda will then form the backbone of the subsequent Master Plan document.

- **Task 5: Draft Master Plan** (Months 6-9) Prepare Draft Master Plan and Projects Map to present the proposed trail system, identify the implementation strategy, and document the data and process used.
- **Task 6: Stakeholder & Public Outreach** (Months 8-12) Prepare materials, actively engage targeted stakeholders, and facilitate public meetings and discussions to solicit feedback on the proposed trail system and Draft Master Plan.
- **Task 7: Final Master Plan** (Months 12-14) Incorporate feedback and prepare the Final Master Plan.

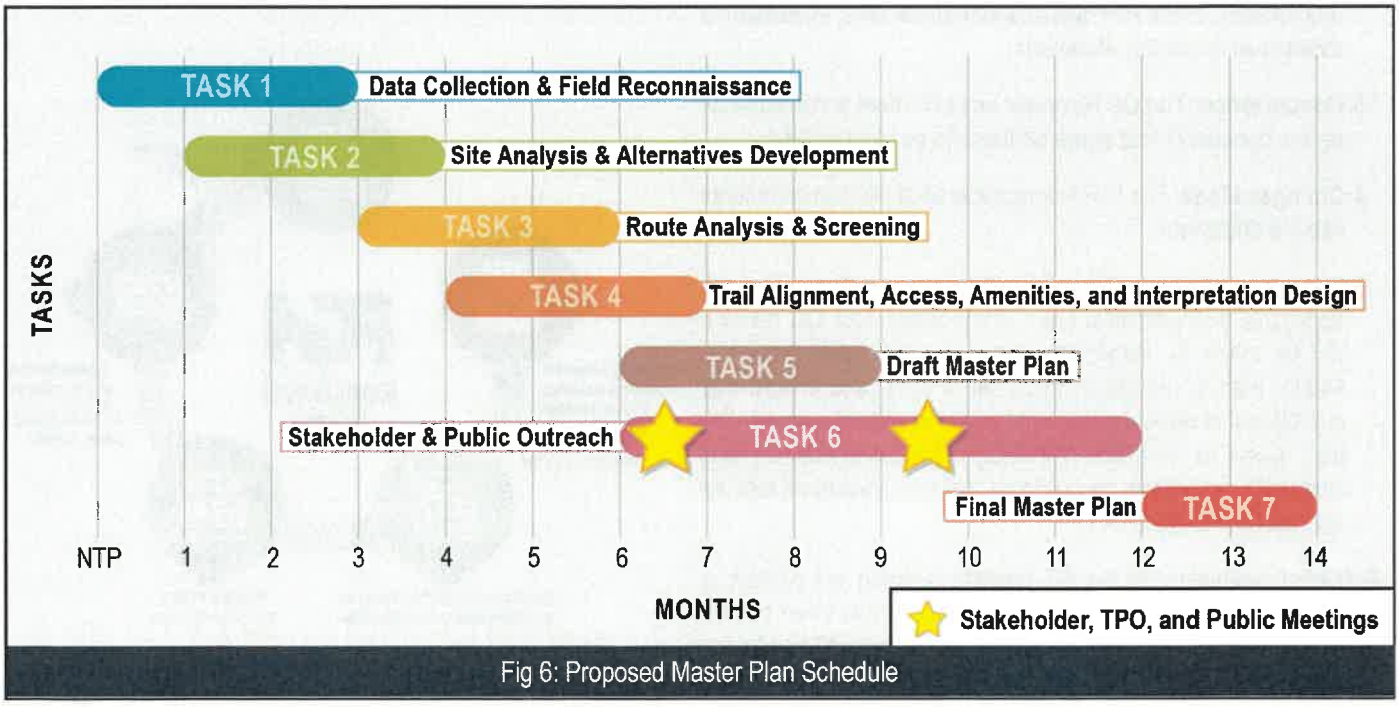

Fig 6: Proposed Master Plan Schedule

QA/QC PROGRAM

Producing quality work products is the number one priority at PGA. PGA is committed to providing the County with a high-quality Master Plan that exceeds your expectations. Our staff is committed and will produce quality work aligned with our core business principles of Integrity, Commitment, and Excellence.

Gordon Greene, PE, will serve as the QA/QC team leader for this project. Before any deliverable leaves our office, it goes through a Five-Step Quality Control Process. This process enables a consistent approach used by staff across all five of our offices, ensuring our clients always receive the same level of quality. Regular training for staff is conducted and new staff members are promptly trained on how to implement our quality control processes in the work they perform.

Gordon will supervise the QA/QC process for the entire project, ensuring that PGA's rigorous 5-Step QC process, outlined below, is followed by all team members:

1. **Ready for QC:** The document is complete and submitted for internal QC review by the Lead Technical Professional (LTP) after an internal peer review.
2. **QC Review:** Reviewer confirms that the document meets the requirements of the RFP and scope requirements, in addition to meeting all applicable standards.
3. **Concurrence:** The QC Reviewer and LTP meet and discuss all review comments and agree on those to be incorporated.
4. **Changes Made:** The LTP incorporates all applicable comments into the document.
5. **Changes Verified:** The QC Reviewer confirms that all applicable changes have been incorporated. Our QC reviews will be made by individuals that are independent from the Master Plan to provide a "fresh set of eyes" and ensure that our internal reviews are the most useful in reducing errors. We also review all our plans and designs for constructability and biddability, so we can be confident that the County will receive the most competitive bids.

Following completion of the QC process, Gordon will perform a final QA review to ensure that the QC process has been carried out as intended and that the Master Plan represents PGA's highest and best effort.

It is the goal of PGA that all operating units will learn and practice the principles of continuous quality improvement. All PGA employees are expected to:

- Identify quality problems and/or opportunities to improve operational processes.
- Initiate, recommend, or provide solutions.
- Assist in the implementation of corrective, preventative, or improvement measures.

Managers are responsible for:

- Routinely discussing continuous quality improvement opportunities with employees.
- Encouraging employees to engage in the continuous quality improvement Process.
- Support and encouraging the creation of continuous quality improvement Teams.
- Sharing improvements with other units.

3. EXPERIENCE, EXPERTISE, PERSONNEL & TECHNICAL RESOURCES

01.

Name: Hillsborough County Greenways Master Plan

Location: Hillsborough County, FL

Project Size: Countywide

Client: Hillsborough County

Address: 601 E Kennedy Blvd
25th Floor
Tampa, FL 33602

Contact: Sarah Caper, AICP
CaperS@hillsboroughcounty.org
813.807.0743

Original End Date: Ongoing

Completed: Ongoing (Est. Summer 2023)

Original Budget: $180k (39,337 PGA fee)

Final Budget: $180k (39,337 PGA fee; (Est.))

LAP Project: No

Key Staff (Role):

- Lucas Cruse, AICP (Design Guidelines Lead)
- Peyton McLeod, PTP (Project Prioritization Lead)
- Katie Habgood, AICP (Project Manager with PSG)
- Gabriel Gonzalez Jr., EI (Community Engagement)
- Ryan Tyrrell (Graphic Design)

Project Description and the Nature of PGA's Responsibilities:

Hillsborough County adopted its first Greenways Master Plan in 1995 to guide the development of a network of greenways across Hillsborough County. As a policy document, the plan provides direction to Hillsborough County staff, agency and industry stakeholders, for the implementation of greenways. This update to the Greenways Master Plan is an opportunity to evaluate the 1995 plan's vision, objectives, and recommendations. The purpose of the Greenways Master Plan is to document the current greenway network and establish prioritized, implementable actions to guide investments that meet the community's needs. The plan focuses on connecting existing and planned greenways in Hillsborough County to create a network of paved trails, unpaved trails, blueways (recreational waterways for non-motorized use), and natural corridors for recreation, transportation, and preservation. The plan recommendations refine the vision of the county's greenway network and provide guidance for future policies, projects, programs, and work plans. This plan suggests potential greenway corridors, but in many cases more detailed work will be needed to determine specific alignments.

02.

Name: *Bicycle and Pedestrian Safety Action Plans

Location: Polk County, FL

Project Size: Countywide

Client: Polk Transportation Planning Organization (TPO)

Address: 330 W Church St, Bartow, FL 33830

Contact:
Julia Davis, AICP
juliadavis@polk-county.net
863.534.6529

Original End Date: October 2016

Completed: October 2016

Original Budget: $250k

Final Budget: $250k

LAP Project: No

Key Staff (Role):

- Peyton McLeod, PTP (Deputy Project Manager)

**Prior experience of PGA staff*

Project Description and the Nature of PGA's Responsibilities:

Between 2006 and 2015, more than 2,400 people were injured in bicycle- or pedestrian-related crashes in Polk County, and another 170 were killed as a result. In an effort to greatly reduce those statistics, the Polk TPO developed these Bicycle and Pedestrian Safety Action Plans. The study team, co-led by Peyton McLeod, analyzed more than 1,350 crashes, and crash typed more than 800 of those to identify who was involved in these crashes, where were they occurring, and what were the contributing causes. Crash types were tied to local demographics and land-use patterns allowing for the formulation of truly localized safety action plans, complete with recommended countermeasures for each crash type. Countermeasures included engineering, educational, and enforcement initiatives. Additionally, the team identified high-priority corridors and intersections based on crash frequency, severity, proximity to schools, and lighting conditions. The need for individual roadway safety audits for high-crash corridors was identified, and two such pilot audits were completed as part of the plans and provided as samples for additional future studies. The plans provide performance measure benchmarks for each recommended tactic or program to help ensure that those recommendations that were selected for implementation would be executed efficiently and with the best possible chances of success, serving in the ultimate goal of reducing the number and severity of bicycle and pedestrian crashes in Polk County.

03. **Name:** Safe Streets Pinellas

Location: Pinellas County, FL

Project Size: Countywide

Client: Forward Pinellas (Pinellas County Metropolitan Planning Organization)

Address: 310 Court St
Clearwater, FL 3375

Contact: Chelsea Favero
cfavero@co.pinellas.fl.us
727.464.5644

Original End Date: January 2021

Completed: January 2021

Original Budget: $225,363

Final Budget: $225,363

LAP Project: No

Key Staff (Role):

- Lucas Cruse, AICP (Senior Planner)
- Peyton McLeod, PTP (Senior Planner)
- Ryan Tyrrell (Graphic Design)

Project Description and the Nature of PGA's Responsibilities:
Safe Streets Pinellas is a Vision Zero plan for Forward Pinellas (Pinellas County's MPO), culminating in an Action Plan that the MPO will implement through partnerships with coordinating agencies to improve health and safety for residents and visitors. The MPO plans to align priority projects and available funding with the Action Plan's elements and strategies to reduce the number of traffic fatalities and serious injuries. The PGA Planning Group, working with prime consultant Fehr & Peers, led public outreach efforts which included creating a custom Public Outreach Plan, forming/supporting a project Task Force, and working with local agencies to identify and conduct live demonstration and pilot projects at various locations indicated on the High Injury Network (HIN). Specific demonstration projects supported by PGA included an RRFB installation awareness event and data collection effort along the Pinellas Trail, a protected intersection pilot project in Downtown St. Petersburg, a near-miss evaluation at a key intersection using innovative video data collection, and a pedestrian safety-oriented signing and pavement marking concept along Gulf Blvd in Indian Rocks Beach.

A high level of engagement with local media and social media outlets was a part of the outreach plan, as well as several interactive ways for the public and partner agencies to provide input, participate in plan development, and offer feedback. The team quickly adjusted to restrictions due to COVID-19 and kept the project moving forward with virtual meetings, interactive online tools, and maps that engaged stakeholders with opportunities to record input about conditions at specific locations and offered unique opportunities for communities of concern to be involved. **Project was completed on schedule.**

04.

Name: Hillsborough TPO Bicycle Network Plan

Location: Hillsborough County

Project Size: Countywide

Client: Plan Hillsborough (Hillsborough TPO)

Address: 601 E Kennedy Blvd, 18th Floor
Tampa, FL 33602

Contact: Wade Reynolds
reynoldsw@plancom.org
813.793.2361

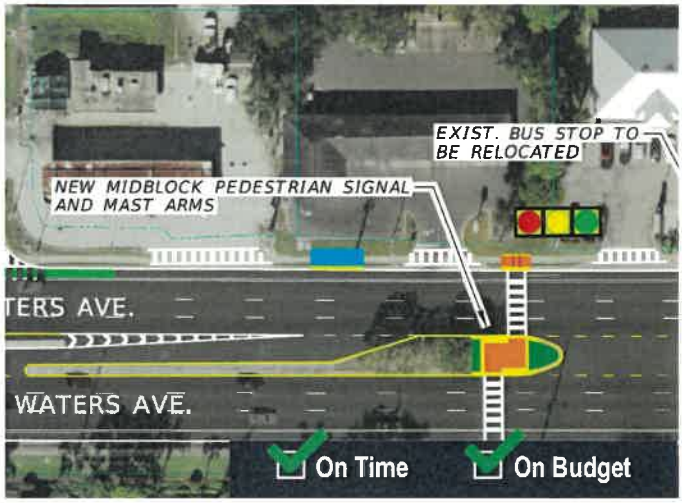
Original End Date: January 2023

Completed: January 2023

Original Budget: $39,937

Final Budget: $39,937

LAP Project: No



Key Staff (Role):

- Lucas Cruse, AICP (Senior Planner)
- Peyton McLeod, PTP (Senior Planner)
- Gabriel Gonzalez, Jr., EI (Community Engagement)
- Ryan Tyrrell (Graphic Design)

Project Description and the Nature of PGA's Responsibilities:
Committed to improving the mobility and safety of all residents, Hillsborough County, and the Hillsborough Transportation Planning Organization (TPO) have identified, evaluated, and prioritized bicycle facility needs along the County's roadway transportation network. The data-driven methodology addresses the mobility and safety needs of people on bicycles. The planning process identified four high priority corridors that are geographically dispersed across the county for further evaluation. Review and analysis of each corridor yielded a range of potential project opportunities to add or improve bicycle facilities with the recommended improvements been grouped into tiers based on priority.

PGA screened the planning-level recommendations for constructability and refined them into sets of implementable concept plans for each corridor. With an emphasis on creating comfortable and connected facilities for bicyclists, PGA developed concept plans for each corridor that comprehensively will improve safety for all roadway users. The bikeway designs incorporate best practices from the National Association of City Transportation Officials (NACTO), including separated bike lanes and the use of green markings to add emphasis in conflict areas. The concepts also reflect the latest guidance from the Florida Design Manual to encourage speeds that fit the land use context through elements such as narrowed travel lanes, tightened curb radii to shorten crossing distances at intersections, and the addition of crossings with median refuges and midblock pedestrian signals. The proposed shared use paths include features such as enhanced driveway crossings and wayfinding. PGA prepared design reports that include the conceptual design plans, cost estimates, and implementation considerations to advance the projects to the next stage of design.

Original End Date: October 2013

Completed: October 2013

Original Budget: $125k

Final Budget: $125k

LAP Project: No

Key Staff (Role):

- Peyton McLeod, PTP (Deputy Project Manager)

**Prior experience of PGA staff*

Project Description and the Nature of PGA's Responsibilities:

This Bicycle and Pedestrian Plan serves as a guide to plan improved bicycle and pedestrian accommodation throughout the North Florida region, building on the recommendations of the TPO's prior Greenways & Trails Plan. PGA's Peyton led numerous components of this master plan, including a regional latent demand analysis and a public survey that generated more than 2,000 responses, both of which helped identify "hot spots" (areas of interest and concern) and key regional corridors that were prioritized for future study. Additional plan elements included agency-specific land development code recommendations and a protocol for mid-block crossing enhancements. This plan has set the stage for the TPO to conduct numerous detailed subarea studies throughout the region, several of which Peyton helped develop by providing technical assistance and quality control reviews.

Experience

Greenways Master Plan, Hillsborough County, FL, Senior Planner: Lucas is leading the development of design guidelines for a planned network of greenways. With an emphasis on human-scaled urban design, the guidelines incorporate biophilic design elements that fit each context. Lucas is also developing the framework for a unified system of branded wayfinding signs and planning-level cost estimates for greenway corridors based on the type of trail. ***Project Size: $180k***

Transportation Master Plan, City of Winter Park, FL, Senior Planner: Lucas is managing the team developing the Master Plan to guide the City's transportation investments for the next 20 years. Focusing on greenways and technology, the plan will present prioritized lists of projects that include both planning-level cost estimates and funding strategies. ***Project Size: $250k***

Trailways Master Plan, Manatee County, FL, Manatee County Board of Commissioners, Senior Planner: Lucas is leading the creation of a Pattern Book to guide the development of future trails with an emphasis on design that fits the context. The content will be used as the basis for trail design scopes that fit the expected users and types of trips on each corridor for Manatee County. ***Project Size: $115k***

2050 LRTP Revenue Forecast, Hillsborough County, FL, Hillsborough Transportation Planning Organization (TPO), Senior Planner: Lucas is compiling all projects from the CIPs for all local and state agencies within Hillsborough County. The resulting analysis categorizes spending across targeted investment programs as a baseline for developing the 2050 LRTP and associated revenue forecasts. ***Project Size: $70k***

Bicycle Network Plan, Hillsborough County TPO, Hillsborough County, FL, Senior Planner: Lucas managed the team to prepare conceptual designs to improve the safety and mobility needs of bicyclists along four high-priority corridors identified through a data-driven prioritization process. The resulting concepts include feasibility reviews, design plans, cost estimates, and implementation considerations to advance the projects to the next stage of design. ***Project Size: $39k***

General Engineering Consultant, FDOT District Seven, Senior Planner: Lucas is providing planning support and managing projects under the Tampa Bay Next program. With a focus on the major on the Downtown interchanges of I-4 and I-275, Lucas is helping FDOT meet commitments to the public and City of Tampa by incorporating trails and complete streets elements into the surrounding surface streets. ***Project Size: $15M***

PEYTON MCLEOD, PTP

Planning Group Manager

Peyton McLeod is a Senior Planner with Patel, Greene and Associates (PGA). He has more than 19 years of experience and is integrally involved in multimodal transportation planning projects, including numerous trail PD&E and corridor studies for FDOT and regional transportation planning agencies. His wide range of experience includes multimodal level of service analyses, nonmotorized trip prediction techniques, energy conservation studies, transportation facilities and conditions mapping, national transportation safety studies, multimodal facility demand analyses, and evaluations of transit systems. Peyton is a central figure in the development of numerous pedestrian, bicycle, and trail plans.

Experience

Bicycle and Pedestrian Safety Action Plans, Polk County TPO, Project Planner:** In an effort to greatly reduce bicycle or pedestrian-related crashes, the Polk County TPO developed Bicycle and Pedestrian Safety Action Plans. The planning team, co-led by Peyton, analyzed more than 1,350 crashes, and crash typed more than 800 of those to identify who was involved in these crashes, where were they occurring, and what were the contributing causes. Countermeasures ranged from engineering, educational, and enforcement initiatives, as well as road safety audits. ***Project Size: $250k

Trailways Master Plan, Manatee County, FL, Manatee County Board of Commissioners, Project Manager: PGA is developing the Manatee County Trailways Master Plan with the goal of developing a connected countywide system of trails that enhances the quality of life for its residents, promotes a unique sense of place, and enhances economic investment. Peyton helped prepare a baseline report that documents the County's existing and committed trail network, outlines successful practices and policies, and establishes performance measures that will guide the development of this performance-based and data-driven planning process. Peyton recently helped lead a countywide public workshop that informed citizens of the plan purpose and goals and solicited important feedback on opportunities and constraints that will feed directly into the development and evaluation of the proposed trailways network. ***Project Size: $115k***

Safe Streets Pinellas, Pinellas County, FL, Forward Pinellas, Senior Planner: Peyton led public and stakeholder engagement activities that contributed to this Vision Zero planning effort's Action Plan. The outreach plan included formation of a Task Force, a Project Ambassadors program, social media campaigns, and four demonstration projects. ***Project Size: $225k***

Winter Park Dr Complete Street and Concept Development Study, Seminole County, FL, City of Casselberry, Senior Planner: Winter Park Dr is a critical corridor for enhancing multimodal connectivity in Casselberry, providing a key north-south connection for all modes of travel within the City. By incorporating multimodal safety and mobility considerations early in the project development process, this ongoing project aims to help active transportation become a viable and routine choice for daily mobility needs. As a foundational component of the existing conditions analysis, Peyton led a multidisciplinary walking audit of the corridor, focusing on pedestrian safety, comfort, and accessibility. The audit results were used to identify short-term and long-term needs to build into the study's development of alternatives, which Peyton coordinated. Peyton developed multimodal design scenarios, conducted benefit analysis, and refined the preferred alternative. ***Project Size: $250k***

GORDON GREENE, PE

Executive Vice President

Gordon is the Executive Vice President at Patel, Greene and Associates (PGA). With more than 23 years of experience, he has built a diverse technical foundation, serving as a project manager, engineer of record (EOR), and principal-in-charge on projects throughout Florida. His specific experience includes 3D modeling, project management, bridge hydraulic reports (BHRs), stormdrain design, permitting, pavement design, resurfacings, widenings, temporary traffic control plans, and stormwater management. Gordon has intimate knowledge of current design standards, bringing this experience to PGA along with a strong commitment to see his company gain a reputation for engineering excellence and superb client service.

Experience

Wildwood Subdivision Drainage Improvements, Lakeland, FL, Polk County Board of Commissioners, Project Manager & EOR: This drainage improvement project proposes to alleviate frequent flooding and standing water within the Wildwood Subdivision. The design proposes to install new ditches with side drain culverts around Primrose Court, which will tie into an enlarged storm drain trunk line on Wildflower Dr. A surge pond being built just upstream of this outfall (also designed by PGA) reduces the flow rate to accommodate this direct discharge of high flows from Wildflower Dr. Gordon is responsible for overall project management, roadway design, and drainage design. ***Project Size: $109k***

SR 570B (Central Polk Parkway) from SR 35 (US 17) to SR 60, Polk County, FL, Florida's Turnpike Enterprise, Project Manager: PGA is the prime consultant for this pilot project designing plans for a new alignment of Central Polk Parkway as a fully integrated 3D model. The scope of work also includes completing the design of the interchange at US 17, design of toll gantries, and the design of the new at grade intersection at SR 60. PGA is the prime consultant leading the roadway, drainage, structures, and environmental efforts. ***Project Size: $9.4M***

Bartow Northern Connector (Phase I)/Ernest M. Smith Blvd, Polk County, FL, Drainage EOR: The project included a new alignment four-lane urban roadway with three signalized intersections, a bridge over Saddle Creek, off-site ponds, and ROW acquisition. The project also included the replacement of an existing bridge culvert. Gordon was the Drainage EOR for the BHR and FEMA No-Rise Certification Report. ***Project Size: $13M***

W Pipkin Rd Widening from Medulla Rd to SR 37, Polk County, FL, Polk County Board of Commissioners, Project Manager & EOR: PGA worked closely with Polk County on W Pipkin Rd, a constrained corridor, to provide increased capacity while accommodating all users for this half-mile long segment. The proposed design widened the existing two-lane rural roadway to a four-lane urban facility with buffered bike lanes and sidewalks on both sides. Gordon was responsible for overall project management, roadway design, and drainage design. ***Project Size: $2.3M***

Eloise Loop Rd Drainage Improvements/Flood Hazard Mitigation, Polk County, FL, Polk County Board of Commissioners, Project Manager & EOR: Flooding at the horizontal curve of Eloise Loop Rd has required Polk County maintenance crews to close the westbound travel and detour traffic multiple times a year due to the existing ditch being incapable of draining the area. PGA is the prime consultant leading the roadway, drainage, and environmental efforts. ***Project Size: $106k***

KIM WARREN

PD&E Group Manager

Kim Warren is a PD&E Group Manager with Patel, Greene and Associates (PGA) and possesses over 33 years of transportation experience at the state and local levels with extensive knowledge of local, state, and federal processes. She has years of management experience, contract accounting, project related presentations, and coordination with government agencies. She continually works with ERC reviews, documentation and approvals through SWEPT, ETDM, and PSEE scheduling.

Tenoroc Trail Segment One PD&E Study from Lake Crago Dr to SR 33 at Old Combee Rd (LAP), Lakeland, FL, City of Lakeland,** Project Manager: Kim was responsible for administrative and technical oversight for this study to evaluate a 12-ft-wide asphalt multi-use trail with trailheads following the general path of Lake Crago Dr through the City of Lakeland's Lake Crago Park and the Florida Fish and Wildlife Commission's (FWC) existing Tenoroc Public Use Area (PUA) access road. The proposed 2.5-mile trail was intended to address an existing gap in the regional trail network between Lakeland and Auburndale/ Polk City and to become part of the Florida Greenways and Trails System, providing significant recreational and social opportunities for residents and visitors, connecting the communities and existing recreational resources along the trail to each other. This project was funded through the FDOT Local Agency Program (LAP) and includes federal funding. Extensive coordination was completed with key stakeholders (FDOT, FWC, FDEP. SWFWMD, and City of Lakeland) to gain support for the trail. Preliminary engineering, environmental analysis, and public involvement were completed and documented. ***Project Size: $938k

Tampa Bypass Canal Trail PD&E Study from N 34th St to Bruce B. Downs Blvd (CR 581), Tampa, FL, Hillsborough County,** Project Manager: Kim was responsible for administrative and technical oversight for this study to evaluate a multi-use trail along the Tampa Bypass Canal. The proposed 18-mile trail, intended as part of the SUN-trail system, is critical to the creation of a greenway trail system in the County and will provide tremendous recreational and social opportunities for residents and visitors, connecting the communities and existing recreational resources along the trail to each other. This project was funded through the FDOT Local Agency Program (LAP) and includes federal funding. Extensive coordination was completed with key stakeholders (SWFWMD, FDOT, City of Tampa, and THEA) to gain support for the trail. Preliminary engineering, environmental analysis, and public involvement was completed and documented. ***Project Size: $500k

EMO CSC, FDOT District One,** Project Manager: Kim was responsible for budgeting, assigning staff, scheduling, and tracking assignments. She was responsible for the completion of invoicing, reporting and financial tracking of the contract. Kim completed and oversaw the quality control reviews of PD&E and National Environmental Policy Act (NEPA) documents for other projects, including reevaluations, technical support documents, and public involvement materials. Additional responsibilities included oversight and guidance for in-house staff, review of minor project documentation, phase reviews for design, and review of Local Agency Program (LAP) NEPA packages from local municipalities. Services included assignments as a Consultant Project Manager in augmentation and support of the District staff. She was responsible for the general management and coordination of project schedules and deliverables to ensure that critical path dates were met. She assisted and completed the upload and submittal of all major projects and all associated technical support documents through Statewide Environmental Project Tracker (SWEPT) and Electronic Review Comments (ERC) for review by the Office of Environmental Management (OEM) assigned. ***Project Size: $5M

Experience

SR 54 at US 41 Intersection Operational Improvements, Pasco County, FL, Roadway EOR:** This project provided safety and operational improvements along eastbound SR 54 from west of Sophia Dr to west of US 41. These improvements included lengthening the eastbound existing dual left-turn and right-turn lanes. The work also included pavement widening, narrowing the existing raised median, and milling and resurfacing. ***Project Size: $400k

Hudson Ave at US 19, Pasco County, FL, Roadway EOR:** This project involved the design and permitting for Hudson Ave widening from west of US 19 to Fivay Rd. It involved widening an existing two-lane urban roadway, adding turn lanes at US 19. This project also added a raised median for access management, providing sidewalks, and involved redesign of the signals at both US 19 and Fivay Rd. Mast arms were added to replace the existing span wire at US 19, to meet the wind requirements due to the proximity to the coast. The design was constrained by right-of-way at a cemetery on the north side of Hudson Ave, east of US 19. ***Project Size: $400k

SR 25 (US 27) from Presidents Dr to SR 60, Polk County, FL, FDOT District One, QC Reviewer:** The project involved widening US 27 from four to six-lanes from Presidents Dr to SR 60. The US 27 and SR 60 interchange shall be reconstructed to Single Point Urban Interchange (SPUI) and widened from four to six-lanes as well along SR 60. ***Project Size: $3M

Spring Haven Dr Extension from Pan American Blvd to Butler Park Access Dr, North Port, FL, City of North Port, Roadway Engineer:** This project provided final design and permitting services for the extension of Spring Haven Dr from Pan American Blvd to Butler Park Access Dr, approximately 0.59 miles. The improvements included two 12-ft lanes with 4-ft bicycle lanes, divided by a 16-ft landscaped median. The project also included right-turn lane improvements at the intersection of Spring Haven Dr and Pan American Blvd W on Pan American Blvd and north of the existing Spring Haven Dr. ***Project Size: $500k

SR 54, CR 577 (Curley Rd) to CR 579 (Morris Bridge Rd), Pasco County, FL, FDOT District Seven, Roadway Engineer:** This project designed the widening of SR 54 from Curley Rd to Morris Bridge Rd within Wesley Chapel, a distance of 4.7 miles. Three typical sections will be utilized in the design: a six-lane urban, a four-lane suburban expandable to a six-lane urban, and a four-lane urban section. The proposed rights of way range from 142-ft to 166-ft. Additional improvements include a sidewalk, joint-use path along the entire corridor, bicycle lanes, traffic signals, and utility improvements. Extensive coordination with numerous major developments along the corridor is required. Additionally, right-of-way and TCEs were required from more than 30 parcels. ***Project Size: $5M

TIMOTHY POLK, PE

Chief Drainage Engineer

Tim is a Chief Drainage Engineer with Patel, Greene and Associates (PGA). His professional experience encompasses more than 36 years in transportation, focused on drainage design and permitting. He is a former District Drainage Engineer for District One and District Three. He exemplifies the FDOT/FHWA drainage culture of minimizing costs in drainage design and pond design using risk assessment with design alternatives and innovative drainage concepts. Tim has assisted in developing FDOT drainage criteria and has given FDOT Design Conference presentations on 14-86 drainage connection permits, hurricane drainage design, RRR drainage issues, bridge hydraulic report (BHR) guidelines, pond siting reports, and the statewide stormwater treatment rule.

Experience

Alachua Dr and Collier Dr Drainage Improvements, Polk County, FL, Polk County Board of Commissioners, Drainage QC: This intersection improvement project widened the north side of 9th St N in order to accommodate the addition of a right-turn lane. The design maintained existing drainage patterns and included the relocation of existing fencing and a driveway to complete the improvements. Tim is responsible for reviewing drainage design and documentation. ***Project Size: $97k***

Eloise Loop Rd Drainage Improvements/Flood Hazard Mitigation, Polk County, FL, Polk County Board of Commissioners, Drainage QC: Flooding at the horizontal curve of Eloise Loop Rd has required Polk County maintenance crews to close the westbound travel and detour traffic multiple times a year due to the existing ditch being incapable of draining the area. This study was initiated to alleviate the flooding concerns by providing alternatives to create positive drainage flow. PGA is the prime consultant leading the roadway, drainage, and environmental efforts. ***Size of Project: $106k***

W Pipkin Rd Widening from Medulla Rd to SR 37, Polk County, FL, Polk County Board of Commissioners, Drainage QC: PGA worked closely with Polk County on W Pipkin Rd, a constrained corridor, to provide increased capacity while accommodating all users for this half-mile long segment. The proposed design widened the existing two-lane rural roadway to a four-lane urban facility with buffered bike lanes and sidewalks on both sides. The design for this project also included diversion structures in different locations to allow high flow storm events to "pop off" to adjacent basins and balance the hydraulic grade lines for better flood protection. Tim was responsible for reviewing drainage design and documentation. ***Project Size: $2.3M***

Bartow Northern Connector (Phase I)/Ernest M. Smith Blvd, Polk County, FL, Drainage QC: The project included a new alignment four-lane urban roadway with three signalized intersections, a bridge over Saddle Creek, off-site ponds, and ROW acquisition. The project also included the replacement of an existing bridge culvert. Design elements included roadway, drainage, SAPM, signals, lighting, and structures. Tim was responsible for reviewing drainage design and documentation. ***Project Size: $13M***

Short-Term Capital Improvement Program, Polk County, FL, FDOT District One, Drainage Engineer:** This project for Polk County involved general engineering services to manage, review and provide administration, planning, permitting, right-of-way, survey, construction and public information services to the county for projects within its short-term capital improvement program. Assignments included design, traffic signals, signing, field surveys, geotechnical investigations, drainage, and permitting. ***Project Size: Undetermined

JOHNNY FUNG, PE

Chief Structures Engineer

Johnny is a Vice President and Chief Structures Engineer with Patel, Greene and Associates (PGA). He has over 21 years of experience in structural design. He has been involved in managing structural components of transportation projects, assisted with plans production, schedules, and coordination of conventional and complex structures, such as cast-in-place concrete slab, steel plate girders, prestressed concrete, post-tensioned segmental concrete, tied-arch steel truss, miscellaneous structures, and moveable bridge projects. His responsibilities include design interpretation of drawings and specifications, management of design and plans production, performance of engineering design and finite element analysis, occasional on-site inspections, and quantity computation.

W Pipkin Rd Widening from Medulla Rd to SR 37, Polk County, FL, Structures EOR: PGA designed the widening of W Pipkin Rd from a two-lane to a four-lane facility for approximately three miles. The project completely reconstructs the roadway and proposes a regional pond approach that outflows all eight basins of the project in three ponds, including an innovative "smart" box. ***Project Size: $2.3M***

SR 33 from Old Combee Rd to N of Tomkow Rd, Polk County, FL, FDOT District One, Structures Lead: This project included reconstruction of SR 33, a major rural roadway, as well as the I-4 at SR 33 interchange. The existing roadway was converted from a two-lane rural facility to a four-lane urban facility. Design elements included roadway, drainage, SAPM, signals, lighting, and miscellaneous structures. ***Project Size: $500k***

Legacy Trail Bridge from N of Laurel Rd to S of Laurel Rd, Sarasota County, FL, FDOT District One, Project Manager & Structures EOR: PGA was the prime design consultant for this project, converting the at-grade crossing of Legacy Trail and Laurel Rd to a trail bridge overpass. The unique design allowed for trail access to be maintained at all times during construction, removed the skew at the crossing of Laurel Rd, and preserved historical monuments. ***Project Size: $2.4M***

Arbuckle Creek Bridge Replacement, Polk County, FL, Project Engineer:** The project involved the design of a new concrete bridge using top-down construction to replace the existing timber structure leading to the Avon Park military facility. The bridge consists of seven 30-ft spans. Johnny served as the project engineer in structural design. His responsibilities included plans production of structural elements of the proposed bridge, coordination, and quantity computation. ***Project Size: $1M

SR 559 over I-4 Bridge Replacement, Polk County, FL, FDOT District One, Structures QC:** This design-build project with Cone & Graham Construction for the improvements to the I-4 at SR 559 interchange that will accommodate the ultimate I-4 typical section and future multi-modal transportation. Johnny completed quality control for the pier details and temporary sheet pile wall design. ***Project Size: $2.5M

Districtwide Structures Design Consultant, FDOT District One, Contract Manager: Under this contract, PGA is the prime consultant serving as an extension of the District One Structures Design Office with structural design support, plans production, and plans review tasks such as contract plans and calculations, shop drawings, and cost saving initiative Proposals. ***Project Size: $1.5M***

KATIE HABGOOD, AICP

Senior Planner

Katie is a Senior Planner with Patel, Greene and Associates (PGA). WIth over 19 years of experience, her professional practice has involved a range of planning products at all scales of geography, from focused corridor studies to multi-county Long Range Transportation Plans (LRTPs). She is an adept communicator, enjoying face-to-face time with clients and a project's audience and stakeholders. Her project experience includes bicycle and pedestrian feasibility and master planning, Complete Streets planning, long range transportation plans, congestion management processes, equity analysis, project prioritization plans, and meaningful public engagement.

Experience

Greenways Master Plan Update, Hillsborough County, FL, Hillsborough County,** Project Manager: The Master Plan Update is guided by Greenways Committee representing diverse users (cyclists, mountain bikers, kayakers, hikers, equestrians) and a variety of partner agencies. The four-phase planning process will result in an implementation plan with a prioritized list of projects, design standards, wayfinding guidelines, and potential funding sources for the highest priority projects. Public outreach through surveys, public workshops and meetings, media appearances, partner agency coordination has been essential in developing both a Vision Plan as well as the Implementation Plan. ***Project Size: $180k

Forward Pinellas, SR 60 Corridor Multimodal Implementation Strategies, Pinellas County, FL,** Deputy Project Manager: This project developed Complete Streets strategies for Forward Pinellas and its agency partners, Pinellas Suncoast Transit Authority (PSTA), City of Clearwater, Florida Department of Transportation (FDOT), and Pinellas County, to improve the options, connections, and safety for all travelers, those in cars, on bikes, on foot, and using transit, throughout the SR 60 corridor. The study area stretched for nearly seven miles, from Tampa Bay in the east to the Intercoastal Waterway in the west, and the character of the road and its context changed frequently. The study relied on strong stakeholder engagement from agencies, the business community, and all impacted neighborhood associations. The team created project-specific materials - fact sheets, visualizations, hands-on exercises, etc.- to help all stakeholders understand the various options and their tradeoffs. The materials were valuable tools at multiple in-person workshops. Katie led each phase of this project. ***Project Size: Undetermined

Pasco County Library System, Pasco County Library Master Plan. Pasco County, FL,** Task Leader: This Master Plan will determine where future library buildings and services should be located to increase accessibility for most residents and visitors using current and future population projections and land-use patterns, as well as look for opportunities to co-locate facilities appropriately. The Master Plan will also identify potential funding sources, and analyze current funding levels, including the library impact fee to develop a cost feasible financial plan to meet the demand as outlined above. Analysis will include assessing staffing levels, the return on investment, and the value created by libraries. The project requires extensive public outreach to understand the community's needs and expectations, and innovation outreach includes attending community events such as farmers markets alongside library staff. ***Project Size: Undetermined

CARRIE STRASHEIM, PE

Project Roadway Engineer

Carrie is a Project Roadway Engineer with Patel, Greene and Associates (PGA). She has nine years of experience in roadway and temporary traffic control plan design. Her project experience includes intersection improvements, roundabout design, milling and resurfacing projects, and sidewalk design. Her responsibilities include completing roadway design, plans production tasks, 3D modeling, quantity developments, and mentoring junior staff.

Continuing Services – Resurfacing Design, FDOT District One, Task Lead: This task work order-based contract provides miscellaneous design services such as resurfacing, widening, rigid pavement rehabilitation, and minor design. Specific responsibilities on task work orders may include field surveys, roadway analysis and design, drainage analysis and design, utility relocation, utility coordination, and temporary traffic control plan analysis. ***Project Size: $5M***

SR 776 from the Myakka River to E of Willowbend Dr RRR, Charlotte County, FL, FDOT District One, Roadway EOR: This project provided design to extend the service life of the roadway through milling and resurfacing for this 1.8-mile corridor of SR 776. PGA was the prime consultant leading the roadway, drainage, structures, and traffic efforts. ***Project Size: $2.5M***

SR 64 at Lorraine Rd Roundabout, Manatee County, FL, FDOT District One, Roadway Engineer: PGA is the prime consultant on this project designing a multi-lane roundabout to improve safety and accessibility along SR 64. The scope of work includes major reconstruction of the intersection, right-of-way acquisition, drainage improvements, and utility coordination. ***Project Size: $2.5M***

SR 29 From CR 846 E to N of New Market Rd., Collier County, FL, FDOT District One, Roadway Engineer: This project involves the design of a new 3.35-mile four-lane bypass road to improve the mobility and connectivity within the regional transportation network. The contract requires significant coordination with local stakeholders to develop the new alignment while also developing a regional water quality treatment system for the corridor. ***Project Size: $6M***

SR 572 at Don Emerson Dr Roundabout, Polk County, FL, City of Lakeland, Roadway Engineer: This project involved the design of a roundabout at the entrance of Lakeland Linder International Airport to improve safety and mobility on the corridor. Additional scope items included drainage improvements, utility coordination, and right-of-way acquisition. PGA was the prime consultant leading the roadway, drainage, and structures efforts. ***Project Size: $1.8M***

SR 43 (US 301) from N of Lake St Charles Blvd to N of Progress Blvd and I-75 Ramp from NB US 301 to I-75 NB Design-Build, Hillsborough County, FL, FDOT District Seven, Roadway Engineer: PGA is the prime design consultant for this project that included milling and resurfacing travel lanes and shoulders, sidewalk additions to increase connectivity, widening of the northbound ramp of I-75, rebuilding the intersection, and other safety improvements. PGA led roadway, drainage, structures, traffic, and environmental efforts. ***Project Size: $2.5M***

MANUEL MONREAL JR., PE

Engineer 2

Manny is a Senior Drainage Engineer with Patel, Greene and Associates (PGA). His 15 years of engineering experience includes stormwater management facility and stormdrain design, hydraulic modeling, CADD and GIS support, site inspections, site data collection, and event coordination. He currently provides staff augmentation to FDOT District One through the General Engineering Contract (GEC). His responsibilities include planning, design, production of engineering drawings, preparing technical specifications, preparing documentation for reports and permit applications, and performing construction field observation.

General Engineering Consultant, FDOT District One, Drainage Engineer: This contract serves as an extension of FDOT District One through various services. Manny is currently providing in-house support for drainage and stormwater design and project management. Manny has provided this dedicated client service for more than three years. Tasks include management of in-house projects, designing storm drain systems, ditch designs, stormwater management facility design, temporary drainage analysis, and review of flooding complaints. ***Project Size: $15M***

SR 570B (Central Polk Pkwy) from SR 35 (US 17) to SR 60, Polk County, FL, Florida's Turnpike Enterprise, Drainage Engineer: PGA is the prime consultant for this pilot project designing plans for a new alignment of Central Polk Pkwy as a fully integrated 3D model. The scope also includes completing the design of the interchange at US 17, design of toll gantries, and the design of the new at grade intersection at SR 60. PGA is leading the roadway, drainage, structures, and environmental efforts. ***Project Size: $9.4M***

SR 60 from E of Clarence Gordon Jr Rd to Polk County Line, Hillsborough County, FL, FDOT District Seven, Drainage Engineer: PGA is the prime consultant for this RRR project providing resurfacing and safety improvements on this SIS facility. Additional scope items include upgrading existing traffic signals to replace loop assemblies, signing and pavement markings, ADA upgrades, transit route coordination, and drainage improvements. PGA is the prime consultant leading the roadway, drainage, SAPM, and signalization efforts. ***Project Size: $2.4M***

Old Bartow Eagle Lake Rd Water Main Relocation, Polk County, FL, Drainage Engineer:** Manny was responsible for the design and permitting of a water main to be relocated near the intersection of Old Bartow Eagle Lake Rd and Ernest Smith Blvd due to Polk County Transportation Ernest Smith Blvd project. ***Project Size: 1.3M

Thornhill Rd at Recker Highway Intersection Improvements, Polk County, FL, Drainage Engineer:** Manny assisted in aiding in the preparation of computation book (quantity calculations and backup sheets generation). This project involved widening the intersection of Thornhill Rd and Recker Highway as well as the production of a computation book delineating costs. ***Project Size: $1M

Polk County Off-Road Vehicle Park Utilities Services, Polk County, FL, Drainage Engineer:** Manny was responsible for the design and permitting of water and sewer support utilities for an off-road vehicle park to be located in southwest Polk County. The design included two new wells, fire protection, and multiple on-site sanitary sewer systems. ***Project Size: $1.5M

JUAN ORTEGA-ROSALES, PE

Chief Structures Engineer

Juan is a Chief Structures Engineer with Patel, Greene and Associates (PGA). He has more than 21 years of experience in the design, construction, and rehabilitation of transportation and building structures. His design experience includes design and load rating of Florida-I and AASHTO girder bridges, steel plate girders bridges, flat slabs, and box culverts. He also has extensive experience in the design of steel sheet pile retaining walls, cast-in-place retaining walls, overhead sign structures, mast arms, and strain pole structures. As a lead structural engineer and project manager for several FDOT District Five districtwide contracts, Juan has a thorough understanding of working as an extension of Department staff in the capacity of reviewing plans, developing and reviewing load ratings, providing in-house design support, and developing contract documents for bridge designs and rehabilitations.

Experience

Dale Mabry Pedestrian Overpass Technical Feasibility Analysis, Hillsborough County MPO, Structures Engineer:** The study team worked cooperatively to develop and assess the feasibility of various alternatives to connect the existing section of the I-275 trail, which currently terminates at Church St, along the north side of I-275, across Dale Mabry Hwy, to the MPO's proposed trail alignment along the south side of I-275 starting at Himes Ave. The approximate study area for this component of the project will extend the entire I-275 right-of-way from Cypress St to Himes Ave Juan's responsibilities included the identification of feasible locations and structural alternatives for a bridge crossing over Dale Mabry Hwy, reviewing constructability of selected alternatives, and development of cost estimates. ***Project Size: Undetermined

Bahia Honda Overlook, Florida Department of Environmental Protection, Structures Engineer:** Juan was responsible for structural modeling and development of design calculations for the feasibility study and replacement of this historic truss structure in the Florida Keys, which was originally constructed by Henry Flagler for the FEC Railroad then converted to highway use in the 1930's. It now serves as a pedestrian overlook but has been closed to the public since 2015 due to severe deterioration. The replacement structure closely resembles the existing structure but utilize modern shapes of similar dimensions to provide an economical and long-lasting structure. ***Project Size: $297k

I-4 Ultimate Design-Build Section 2B, Orange County, FL, FDOT District Five, Structures Engineer:** Juan assisted with the structures engineering for the final design of the Anderson St. Pedestrian Bridge over I-4 (Bridge No. 281). He also performed QA/QC on Temporary Ramp D over Division Ave. and Temporary Ramp H. All structures utilized superstructures consisting of cast-in-place concrete decks, Florida I-Beams and steel H or Pipe-pile supported foundations. The pedestrian bridge included aesthetics with enhanced pier shapes and architectural features were added via precast concrete. ***Project Size: $2.3B

Districtwide Structures Design Consultant Assistance, FDOT District Five, Project Manager & Structures Engineer:** Juan provided QA/QC oversight on this five-year continuing services contract for bridge and miscellaneous structures design, replacement or improvement projects, and value engineering studies. His areas of focus included LRFR load ratings, providing engineering technical support, overseeing CADD production, and providing independent technical reviews. ***Project Size: $750k

GABRIEL GONZALEZ, JR., EI

Planner

Gabriel is a Planner with Patel Greene and Associates (PGA). He has six years of experience with his background including trail, multimodal, sidewalk, and projects. SR 570B (Central Polk Pkwy) from SR 35 (US 17) to SR 60, Polk County, FL, Florida's Turnpike Enterprise, Public Involvement: PGA was the prime consultant for this pilot project designing plans for a new alignment of Central Polk Pkwy as a fully integrated 3D model. The scope also includes completing the design of the interchange at US 17, design of toll gantries, and the design of the new at grade intersection at SR 60. PGA led the roadway, drainage, structures, and environmental efforts. Gabriel facilitated public outreach activities. This effort included identifying affected communities, establishing key contacts with neighborhood leaders, and developing notifications for the public meetings. ***Project Size: $6.7M***

SR 600 (US 92) RRR from W of Jersey Rd to W of SR 555, Polk County, FL, FDOT District One, Public Involvement: This project provides design to extend the service life of the existing roadway, improve safety, and correct deficiencies. Improvements include closing the median opening 1000 ft northeast of the intersection of US 92 and Lynchburg Rd, milling and resurfacing existing pavement and outside shoulders, construction of inside paved shoulders, and minor drainage improvements. Gabriel is leading public involvement efforts. ***Project Size: $5.3M***

City of Lakeland Pedestrian Feasibility Study, Lakeland, FL, Central Florida Expressway Authority, Planner: Gabriel conducted a feasibility study to evaluate multiple alternative pedestrian crossings meant to replace the overpass over Bonnet Springs Blvd. This study included the development of nine alternatives, an evaluation matrix, demographics evaluation and crash history analysis. ***Project Size: $49k***

City of Winter Park Transportation Master Plan Update, Planner: PGA is the prime consultant assisting the City of Winter Park with updating its Transportation Master Plan. Building off of the backbones of the previous update, PGA was tasked with consolidating all available existing conditions data, current and future projects and with identifying potential projects to complete gaps in the City's transportation network. Gabriel has conducted the GIS analyses using ArcMap for the project thus far, including the development of the existing condition basemaps, bicycle and pedestrian Level of Traffic Stress analyses, motor vehicle level of service calculations, pedestrian latent demand calculations, and motor vehicle and vulnerable user crash analysis. ***Project Size: $250k***

Continuing Services – Resurfacing Design, FDOT District One, Roadway Engineer: This task work order-based contract provides miscellaneous design services such as resurfacing, widening, rigid pavement rehabilitation, and minor design. Specific responsibilities on task work orders may include field surveys, roadway analysis and design, drainage analysis and design, utility relocation, utility coordination, and temporary traffic control plan analysis. Gabriel was responsible for conducting a Public Meeting in accordance with the FDOT Public Involvement Handbook. This task included development of notifications, meeting protocol, meeting materials, and a meeting summary. ***Project Size: $5M***

EMILYVETTE DEGAETANO, PLA, ISA

Landscape Architecture Group Manager

Emily is the Director of Landscape Architecture for Patel, Greene and Associates (PGA). She has been active in landscape architecture, master planning, landscape design, arboricultural assessments, and post-design services during construction for more than 18 years. Her expertise includes project management, client coordination, public involvement, technical writing, and technical plans review. Specializing in the transportation sector, she is accomplished in interstate, highway and interchange beautification, landscape design for speed management, low-volume drip and traditional overhead irrigation systems, and urban streetscape design. Emily is also experienced at trail planning and design, parks and recreation design, and private retail/commercial development.

General Engineering Consultant (GEC), FDOT District One, Senior Landscape Architect: PGA is the Prime Consultant for this contract serving as an extension of FDOT District One by providing a variety of services that include design, program management, project management, RFP development, staff augmentation, and plans reviews. Emily is currently providing Landscape Architecture support by assisting the District Landscape Architect with design, landscape plans, and construction documents reviews, internal peer reviews, field reviews, project coordination, work program assistance, Florida Scenic Highways Program support, and coordination of meetings with staff, consultants, and local agencies. ***Project Size: $15M***

General Engineering Consultant, FDOT District Seven, Interim District Landscape Architect: PGA is the prime consultant for this contract serving as an extension of FDOT District Seven by providing a variety of services including transportation design, scoping and RFP development, staff augmentation, and plans reviews. Emily currently serves as the Interim District Landscape Architect and manages D7's Landscape Architecture design services contracts and landscape projects. She coordinates with District management, maintains project schedules, and assists with programming for landscape projects. She provides technical expertise with post-design services to the Maintenance and Construction offices, assists with implementing the District-reimbursable landscape program, and serves as a liaison between the District and local agencies. Emily also serves as the District Beautification Grant Coordinator and collaborates with the Department's State and District Landscape Architects. ***Project Size: $30M***

SR 64 at Greyhawk Blvd Roundabout, Manatee County, FL, FDOT District One, Landscape Architect of Record: PGA was the prime consultant on this project designing a multi-lane roundabout to improve safety and accessibility along SR 64. The scope of work included major reconstruction of the intersection, drainage improvements, and utility coordination. Landscaping consisting of native, drought-tolerant plant materials, was also provided to enhance the roundabout. Emily was responsible for coordinating the final landscape design with the District Landscape Architect. She also provided post-design services during construction. ***Project Size: $2.4M***

CHARLES REED II

Municipal Project Manager

Charles is a Project Manager for Patel, Greene and Associates (PGA). He has 19 years of experience that includes integral involvement of Local Programs Office (LAP) projects for municipalities throughout the state and FDOT. Experience

Sun N Lakes Sidewalks Project (LAP Funded), Highlands County, FL, Grants Manager: The scope of work consists of the construction of 1600 linear feet of 5-ft sidewalks along Sun N Lakes Blvd from west of Columbus Blvd to east of Columbus Blvd. ***Project Size: $231k***

Richmond Ave Pedestrian Bridge (CDBG Funded), Lee County, FL, Grants: The scope of work involves the design of a pedestrian bridge that will replace the existing pedestrian bridge that was damaged by a Hurricane. The new pedestrian bridge will be along Richmond Ave over Able Canal. ***Project Size: $4.1M***

Ave C Improvements (LAP), City of Winter Haven, FL, Project Manager: Charles is assisting the City with various project management duties. He attends field reviews, project meetings, reviews change orders, and assists with grant compliance. ***Project Size: $50k***

Four Corners Ditch Improvements Project (CDBG-DR Funded), Hendry County, FL, Grant Compliance: The scope of work involves providing and improving the drainage infrastructure for the Four Corners MSBU in Hendry County, Florida. The project will provide additional storage and conveyance for stormwater to the Caloosahatchee River during large storm events. Charles' role is to assist the County with grant compliance and coordination between the County and the State agency. ***Project Size: $4.2M***

Florida Department of Transportation, Bartow, FL, FDOT District One, Project Manager:** Charles acted as an extension of the FDOT's Local Programs Office, managing the Federally and State funded projects. His duties included managing the Local Agency Program (LAP), Small County Road Assistance Program (SCRAP), Small County Outreach Program (SCOP), County Incentive Grant Program (CIGP), Transportation Regional Incentive Program (TRIP), and Economic Development Transportation Fund Program (EDTF) to name a few. Management of these programs involved administrative, design, and construction components. ***Project Size: Undetermined

Del Monte Reconsolidation (Port Manatee), Manatee County, FL, Manager:** Charles managed the development of a new warehouse facility for the Del Monte Operation at Port Manatee. He obtained clearance for all Ports in the State of Florida. ***Project Size: $250k

Proposed Park at Honore Ave, Sarasota County, FL, Manager:** Charles managed design and permitting for proposed park on behalf of Sarasota County Parks and Recreation Services. ***Project Size: $300k

SUBCONSULTANTS

AECOM TECHNICAL SERVICES INC. – ENVIRONMENTAL & PERMITTING, AGENCY COORDINATION

AECOM is a global, multi-discipline planning and engineering firm with significant Florida technical resources to provide Polk County with unmatched services for this master planning effort. Their more than 500 planning, engineering, environmental, public outreach, and document production professionals located in our Bartow, Orlando and Tampa offices will be available to support this project. AECOM is consistently ranked as one of the top overall engineering design firms by Engineering News Record in their Annual Top 500 Design Firms edition, and in 2022 they ranked #1 in Transportation. AECOM has experience serving Polk County, the Florida Department of Transportation (FDOT), and numerous Federal Agencies in environmental compliance and permitting. In the past 5 years, AECOM has completed three environmental documents for Polk County Roads and Drainage Division supporting roadway alignment studies including FDC Grove Rd, Holly Hill Rd, and Marigold/ CR 580. AECOM is prequalified with the FDOT in all Planning Work Groups including 13.3, 13.4, 13.5, 13.6 and 13.7.

CIVILSURV DESIGN GROUP, INC. – SURVEY, SUE, UTILITY COORDINATION, PLANNING, AND UTILITY DESIGN

The Surveying and Mapping Department at CivilSurv Design Group, Inc. offers a full range of surveying and mapping services including: Boundary Surveys, Legal Descriptions, Topographic Surveys, Horizontal and Vertical Control, Profiles and Cross Sectioning, Right-of-Way Mapping, Monumentation of Right of Way Corridors, Bridge Data Surveys, Digital Terrain Models (DTM), Hydrographic/Bathymetric Surveys, Specific Purpose Surveys, American Land Title Association Surveys, Wetland/Mitigation Surveys, Environmental Surveys, Platting, Expert Witness Testimony, Construction Surveys, Record and As-built, Route, Electronic Field Book/GIS Mapping, all mainstream versions of CADD/GIS Differential Leveling, Global Positioning Systems (GPS), Engineering Design Surveys, and other surveying and mapping related services. CivilSurv's 10 full-time field crews and 4 Professional Surveyor and Mappers have extensive experience in performing all types of surveys and are equipped with state-of-the-art equipment, including EFB compatible Total Stations, GPS, digital levels and reflector-less instruments. Their field staff has received the MOT training currently required by the Florida Department of Transportation.

CivilSurv is also a full-service SUE Services Provider, including designations, locations, vacuum excavations, ground penetrating radar and Utility Coordination for design team support. They remain on the cutting edge of data capture, and have recently upgraded their Terrestrial Static LiDAR abilities by acquisition of the Reigl 400VX. Its staff has extensive experience producing quality products, on time, within budgets for FDOT District One, Two, Four, Five, Seven and the Turnpike as a Surveying and Mapping Consultant. Through the course of the contracts, they have provided comprehensive survey services, including design surveys, jurisdictional wetland surveys, parcel surveys, right of way control maps and right of way maps. CivilSurv has worked on a number of projects from the Polk County Roads and Drainage Division, including:

- County Line Rd - SR 60 to Ewell Driveway Station 24+20.
- County Line Rd - SR 60 - Ewell Rd/Construction Meetings & Construction Assistance.
- W Daughtery Rd Improvements.
- CR 540A and Scott Lake Rd - Carter Rd Improvements.
- Reconstruction of Old Combee Rd from N SR 33.
- County Line Rd, Pond A Modification.
- County Line Rd, Pond B Modification.
- CR 557 at Evenhouse Rd
- Surveying and SUE for W Pipkin, along with Utility Design and Construction Services.
- Ariana Street Sidewalk Survey & Mapping.
- Surveying Services for Wildwood Subdivision and W Pipkin Rd.
- SUE Services for Tilery Rd/Clubhouse Rd Drainage Improvements.

SEARCH INC. – CULTURAL RESOURCES

SEARCH is the largest archaeology and cultural resources management company in the United States. SEARCH specializes in the full spectrum of cultural services related to archaeology, maritime archaeology, architectural history, archives and museum services, and media production. Since 1993, SEARCH has completed more than 3,700 projects across 44 US States and 37 countries, spanning five continents and three oceans. Commercial and government customers in the Energy and Power, Defense, Federal, Transportation, and Development markets have selected SEARCH for more than $250M in Prime contracts and $2.3B in Team contracts. SEARCH's staff of nearly 170 employees work from over 50 facilities to conduct 300 projects per year and deploy 20 or more field teams per week. The SEARCH Transportation Group has a team of 25 archaeologists, architectural historians, historians, GIS specialists, and support personnel, who are able to utilize the expertise and resources of the entire company. The SEARCH Transportation Group's sole focus is providing world-class technical services, project management, and customer service to their clients.

Adam P. Purcell, AICP

Senior City Planner / Project Manager

Adam Purcell has significant professional work experience in multi-modal transportation planning, sociocultural effects analysis, NEPA studies, GIS analysis, public engagement, and project management. He holds a master's degree in Urban and Regional Planning from Florida State University and an AICP certification form the American Planning Association. Adam has worked in both the public and private sectors, at state and local levels. Over the past 16 years, Adam has worked with AECOM (legacy URS) in their Tampa Office focusing primarily on transportation programs and projects in central and south Florida.

Project Manager, US 17/92 Project Development and Environment Study, FDOT District One, Haines City, FL (2018-Present). Responsible for the coordination of work for 10 firm project team. Served as the primary author of the environmental document (CE2) and Sociocultural Effects (SCE) Report focusing attention on the needs of disadvantaged groups living in Haines City. Coordinated project timeline, public involvement activities supporting the PD&E including preparation of virtual public workshop, and completion of supporting technical documents. Project is currently working through the 106 Process. Study cost $1.2 Million.

Project Manager, Power Line Road Extension Study, Cassidy Organizations, Polk County, FL (2022-2023). Served as the primary author of the corridor study document identifying project purpose and need, environmental effects, conceptual design, and costs. Coordinated development of technical supporting documents including drainage report, environmental technical memorandum, traffic technical memorandum, and roadway design concepts. Study cost $450,000.

Deputy Project Manager, FDC Grove Road and Holly Hill Road Corridor Studies, Polk County Roads and Drainage Division, Polk County, FL (2019-2022). Responsible for coordination between county and consultant staff needed to support the development of the study. Served as the primary author of the document identifying project purpose and need, environmental effects, and costs. Coordinated completion and review of technical supporting documents including drainage report, traffic technical memorandum, and roadway design concepts. Study cost $200,000.

Deputy Project Manager, Marigold Avenue and CR 580 Project Development and Environment (PD&E) Study, Polk County Roads and Drainage Division, Poinciana, FL (2019-2022). Responsible for completion of a county-sponsored PD&E Study. Coordinated activities related to the traffic and drainage analyses conducted by AECOM team members. Identified project purpose and need, evaluated community and other environmental effects. Served as the co-author of the supporting environmental document. Study cost $1.2 Million.

Safe Routes to School Education Program, Polk Transportation Planning Organization, Polk County, FL (2020 – Present) Project Manager. Implement public outreach and education to supplemental Safe Routes to School (SRTS) education for children in kindergarten through eighth grade to increase pedestrian and bicycle safety. Develop curriculum, interactive web interphase and trainings to support the education program. Conduct pre- and post-training observation and testing to identify the effectiveness of training in modifying behaviors. Study cost $200,000.

General Planning Consultant Services, Polk Transportation Planning Organization, Polk County, FL. (2010-Present). As Project Manager works to support a range of assignments with previous work including the creation of the Polk Development Tracker, update of the Roadway Network Database, update of the Bicycle and Pedestrian Safety Action Plans, School Sidewalk Assessment Phases 1, 2, and 3, Transit Investment Study, major update of the Transit Development Plan Major, Rail Noise Analysis on the CSX "S" Line, development of the Neighborhood Mobility Audit process, and three technical memoranda that assessed the cost of driving, senior mobility, and neighborhood mobility in Polk County. The Neighborhood Mobility Audit project was one of two projects statewide to be awarded the APA Florida Award of Excellence in 2017. Current contract $150,000.

Ramon Mendieta

Senior Ecologist

Mr. Mendieta has more than 23 years of experience focusing on federal, state, and local environmental resource permitting for wetlands and protected habitats. His expertise includes wetland delineations, federal and state permitting, the National Environmental Policy Act, environmental site assessment, and essential fish habitat (EFH). Over his career, Mr. Mendieta has served as project manager or project scientist on large-scale infrastructure projects, including roadways and water transmission mains, and on small- to large-scale restoration projects, including permittee responsible mitigation to mitigation banks. His professional experience has included: threatened and endangered (T/E) species surveys; water quality monitoring; wetland restoration design and implementation; alternative analysis; functional assessment for habitat impact; preparation and submission of environmental documents and reports; and development of mitigation plans.

Senior Ecologist, Pruett Road Traffic Improvements, Hillsborough County, FL (2022-Present). Traffic improvements for intersection of Pruett and Mango Roads to include a traffic circle. Responsible for wetland and other surface water delineations, limited protected species survey and State, ERP and 404, permitting. Study cost $750,000.

Senior Ecologist, Williams/Jennings Road Traffic Improvements, Hillsborough County, FL (2021-Present). Traffic improvements for Williams Road from US 301 to East Hillsborough Avenue. Responsible for wetland and other surface water delineations, limited protected species survey and State and federal permitting. Study cost $1M.

Senior Ecologist, North Ridge Trail, Polk County, FL (2021-Present). Sand skink survey for proposed new alignment in Polk County. Deployed cover boards to initiate survey. Study cost $50,000.

Senior Ecologist, FDC Grove Road and Holy Hill Road Alignment Study Re-evaluation, Polk County, FL (2020). Re-Evaluation of proposed alignment for two roadways in Polk County. Evaluated impacts to protected habitats, including wetlands, and protected wildlife species along the project corridor. Study cost $200,000.

Senior Ecologist, Marigold and CR 580 (Cypress Parkway) Alignment Study Report, Polk County, FL (2019). Alignment study for proposed improvements to improvements to Marigold Avenue from Palmetto Street to Cypress Parkway (CR 580). The project study also considers improvements along Cypress Parkway (CR 580) from Solivita Boulevard to Marigold Avenue. Evaluated impacts to protected habitats and protected wildlife species along the project corridor. Study cost $1.3M.

Field Lead, Preto Blvd. Extension Design, West Villages Improvement District, Sarasota County, FL (2018). Conducted Seasonal High-Water Elevation (SHWL) determinations, wetland delineations, and habitat assessments for a new roadway alignment to serve new residential neighborhoods within the City of North Port, Sarasota County. Study cost $25,000 - $50,000.

Project Scientist, I-75 Widening from North of SR 80 to South of SR 78, FDOT District One, Lee County, FL (2010). Conducted wetland jurisdictional determinations and protected species surveys for widening of three bridges over tributaries and the Caloosahatchee River. Tasks also included submerged aquatic vegetation survey (SAV), Essential Fish Habitat (EFH) assessment, and preparation of State and Federal Environmental Resource Permit (ERP) application. Study cost $25,000 - $50,000.

Project Scientist, Bartow Northern Connector Phase 1 from US 98 to US 17, Polk County, FL (2010). Conducted wetland jurisdictional determinations and protected species surveys for new roadway alignment in Polk County. The project included the construction of one bridge crossing over Saddle Creek. Prepared uniform mitigation assessment method (UMAM) for mixture of forested and herbaceous wetland impacts. Prepared mitigation plan to address permanent wetland impacts. Study cost $25,000 - $50,000.

CIVILSURV

Kenneth T. Glass, PSM

Vice President of Surveying

38 Total Years of Experience | 24 Years with CivilSurv

Mr. Glass is a multi-faceted surveying and mapping professional with over 38 years of experience. For the past sixteen years as Vice President of Surveying and Mapping Division he has been responsible for managing a team of eight field crews and seven office staff. His expertise includes providing all aspects of survey services required for a wide range of transportation projects. He has been responsible for the production of Florida Department of Transportation Design and Right-of-Way Mapping Surveys for minor design projects such as sidewalk and trails to major interstate design projects. Mr. Glass has experience producing survey products required for multiple types of municipal projects for utility infrastructure expansion, roadway, drainage and building design. In addition to design survey projects, he and his team have completed both Southwest and South Florida Water Management District projects. His team provides subsurface utility exploration services and uses the latest equipment and techniques including terrestrial LiDAR, UAS Mapping to efficiently complete survey and mapping projects.

Project Experience

Project Manager | District Wide Survey and Right of Way Mapping | FDOT District One | 1993 to Present | $1.5 million: Mr. Glass was a project manager for these contracts for the seven years and has been the client liaison and overall project manager for this task work order contract. He has prepared scopes, negotiated project budgets, scheduled sub-consultant activities and has been responsible for QA/QC of both design and right of way surveys.

Contract Manager | US 41 (SR45) from Southwinds Drive to Bay Street Lighting Retro-Fit | FDOT District One | Sarasota County, Florida | 2018 | $17,830: Mr. Glass managed the survey team for CivilSurv that performed the surveying and mapping services for this lighting project through 4.4 miles of US41 in Sarasota County. The project was completed as a sub-consultant to Scalar Consulting Group, Inc. CivilSurv was responsible for retracing the alignment and computing the existing right of way for this project.

Contract Manager | SR578 (Bee Ridge Road) from US41 (SR45) to McIntosh Road | FDOT District One | Sarasota County, Florida | 2019 | $55,025: Mr. Glass managed the survey team for CivilSurv that performed the surveying and mapping services for this Traffic Operations project that involved the design of signal mast arms at 7 intersections along Bee Ridge Road. Due to existing right of way limits, temporary construction easements were required for the construction of the mast arms. CivilSurv provided boundary surveys and then sketch and description of the temporary construction easements required. This method saved time and money that would have been used if traditional right of way maps were needed. The project was completed as a sub-consultant to Kimley Horn and Associates.

QA/QC, Client Manager | Sarasota County North River Road Right of Way Mapping | Sarasota County Board of County Commissioners | Venice, Florida | 2020 | $282,252: Mr. Glass performed Client Manager and QA/QC duties for this Right of Way Mapping project for Sarasota County. The total length of the project was 5.5 miles starting at US 41 and ending at Venice Avenue and had 26 parcels. Since North River Road was being transferred to FDOT as a Design Build construction project the maps had to be produced in 3 months. The CivilSurv team met the challenge.

Project Surveyor | SR 45 (US 41) from River Road to Woodmere Park Boulevard | FDOT District One | Sarasota County, Florida | 2018 | $196,166: CivilSurv under the leadership of Mr. Glass performed the surveying and mapping services for this project as a sub-consultant to Florida Transportation Engineers, Inc. The project was needed to add a six-foot sidewalk along 5.6 miles of SR 45 in Sarasota County. CivilSurv was responsible for the design survey. All work was performed to District One standards.

CIVILSURV

Hetty C. Harmon, AICP

Senior Planner | Utility Coordinator

39 Total Years of Experience | 22 Years with CivilSurv

Ms. Hetty Harmon serves as the Senior Planner for CivilSurv. She is experienced in planning and land development gained from her work with governmental agencies and developers. This experience includes planning, land development, construction management and permitting. Additional experience includes development review, land use analysis, engineering reviews, GIS, implementation and enforcement of development codes and ordinances, neighborhood revitalization plans, utility coordination, public/private partnerships, streetscape plans, historic/architectural guidelines, corridor studies, capital improvement plans and served as a Planning Commissioner for Summit County, Colorado. Other duties have included coordination for developers of planning, engineering, marketing, financing and construction management of numerous residential and commercial developments.

Project Experience

Senior Planner | Lakeland Park Drive Connector and Multi-Use Pathway Study | City of Lakeland | Lakeland, Florida | 2015 | $19,960: Assisted in the alignment study for the Lakeland Park Drive and the Multi-Use path. Coordinated with the City of Lakeland, FDOT, surrounding property owners, and the Golf Course architect. Prepared the cultural resource and contamination reports and coordinated with the utility companies for design phase. Prepared and presented alignment alternative for the public meetings.

Senior Planner | Okeechobee Sidewalk Master Plan | Okeechobee County Board of County Commissioners | Okeechobee County, Florida | 2016 | $49,240: A sidewalk masterplan was developed to determine the sidewalk needs in the County. We coordinated with the Okeechobee School Board Transportation Department, Parent/Teacher organizations, County Planning and Public Works Departments, Sheriff's Department and various civic organizations. The master plan was utilized in the Safe routes school grant application showing the need for sidewalks around the elementary schools.

Utility Coordinator | Memorial Drive Multi-Use Trail | Highlands County Board of County Commissioners | Sebring, Florida | 2020 to Present | $150,000: This project involved the design of 1.4-miles of a new 8-foot-wide multi-use trail within the existing Memorial Drive right of way. The multi-use trail connects with an existing multi-use trail at Pompano Drive and existing sidewalk at Sebring Parkway. The drainage system design concept for the project involved the utilization of existing drainage infrastructure, where possible. This innovative approach required the use of multiple typical cross sections throughout the project and resulted in significant reductions to the overall project costs. The project was performed under a Local Agency Program (LAP) project agreement between FDOT and Highlands County. Responsibilities included utility coordination, construction document preparation, drainage design, and task management.

Utility Coordinator | Eloise Loop Road Drainage Improvement | Polk County Roads & Drainage Division | Winter Haven, Florida | 2021 to Present | $12,460: This project involved improvements of the roadway drainage system along a short section of Eloise Loop Road and was federally funded through FEMA's Hazard Mitigation Grant Program (HMGP). The drainage improvements were focused on addressing hazardous roadway flooding concentrated in a horizontal curve along a corridor with limited right of way. Responsibilities included identification of utility service providers within the project area, conducting a preliminary meeting with utility service providers, review of utility service provider markups and work schedules, and utility constructability review.

Jessica (Fish) Muse, MST, RPA | Project Manager | Cultural Resources

Jessica Muse, MSt, RPA, has 11 years of professional experience in cultural resource management with experience in the Southeast, Northeast, and West Coast. She has received training in Section 106 by the National Preservation Institute. Ms. Muse has contributed to multiple DOT, transmission corridor, dam re-certification, and emergency response projects in her work with cultural resource management companies, in addition to fire management surveys for the National Park Service. Ms. Muse also has experience in artifact conservation through her work with the Harvard Peabody Museum of Archaeology and Ethnology and the Maine State Museum. Her qualifications exceed those set forth by the Secretary of the Interior's *Standards and Guidelines for Archeology and Historic Preservation* (48 FR 44716-42). ***Availability: 40%***

SELECT PROJECT EXPERIENCE

Project Manager, Phase I Cultural Resource Assessment Survey for SR A1A Multiuse Trail from Red Cox Road to Pope Road, St. Johns County, Florida. Served as the Principal Investigator. The archaeological survey 1.7-mile corridor consisted of a pedestrian survey. The architectural survey resulted in the identification and evaluation of newly recorded historic building 8CR01395. Conducted for Florida Department of Transportation District Two. Cost: $21,123.00

Project Manager, Cultural Resource Desktop Analysis for the Slavia Road Extension from SR 426 to SR 434 and Lukas Lane Connection with SR 426 at Duda Multiuse Trail Alignment Study, Seminole County, Florida. Served as the Principal Investigator. SEARCH evaluated the four project corridors to identify cultural resource potential and locate previously recorded historic properties that are listed or may be eligible for listing in the NRHP. Conducted for Dewberry for Seminole County. Cost: $4,729.00

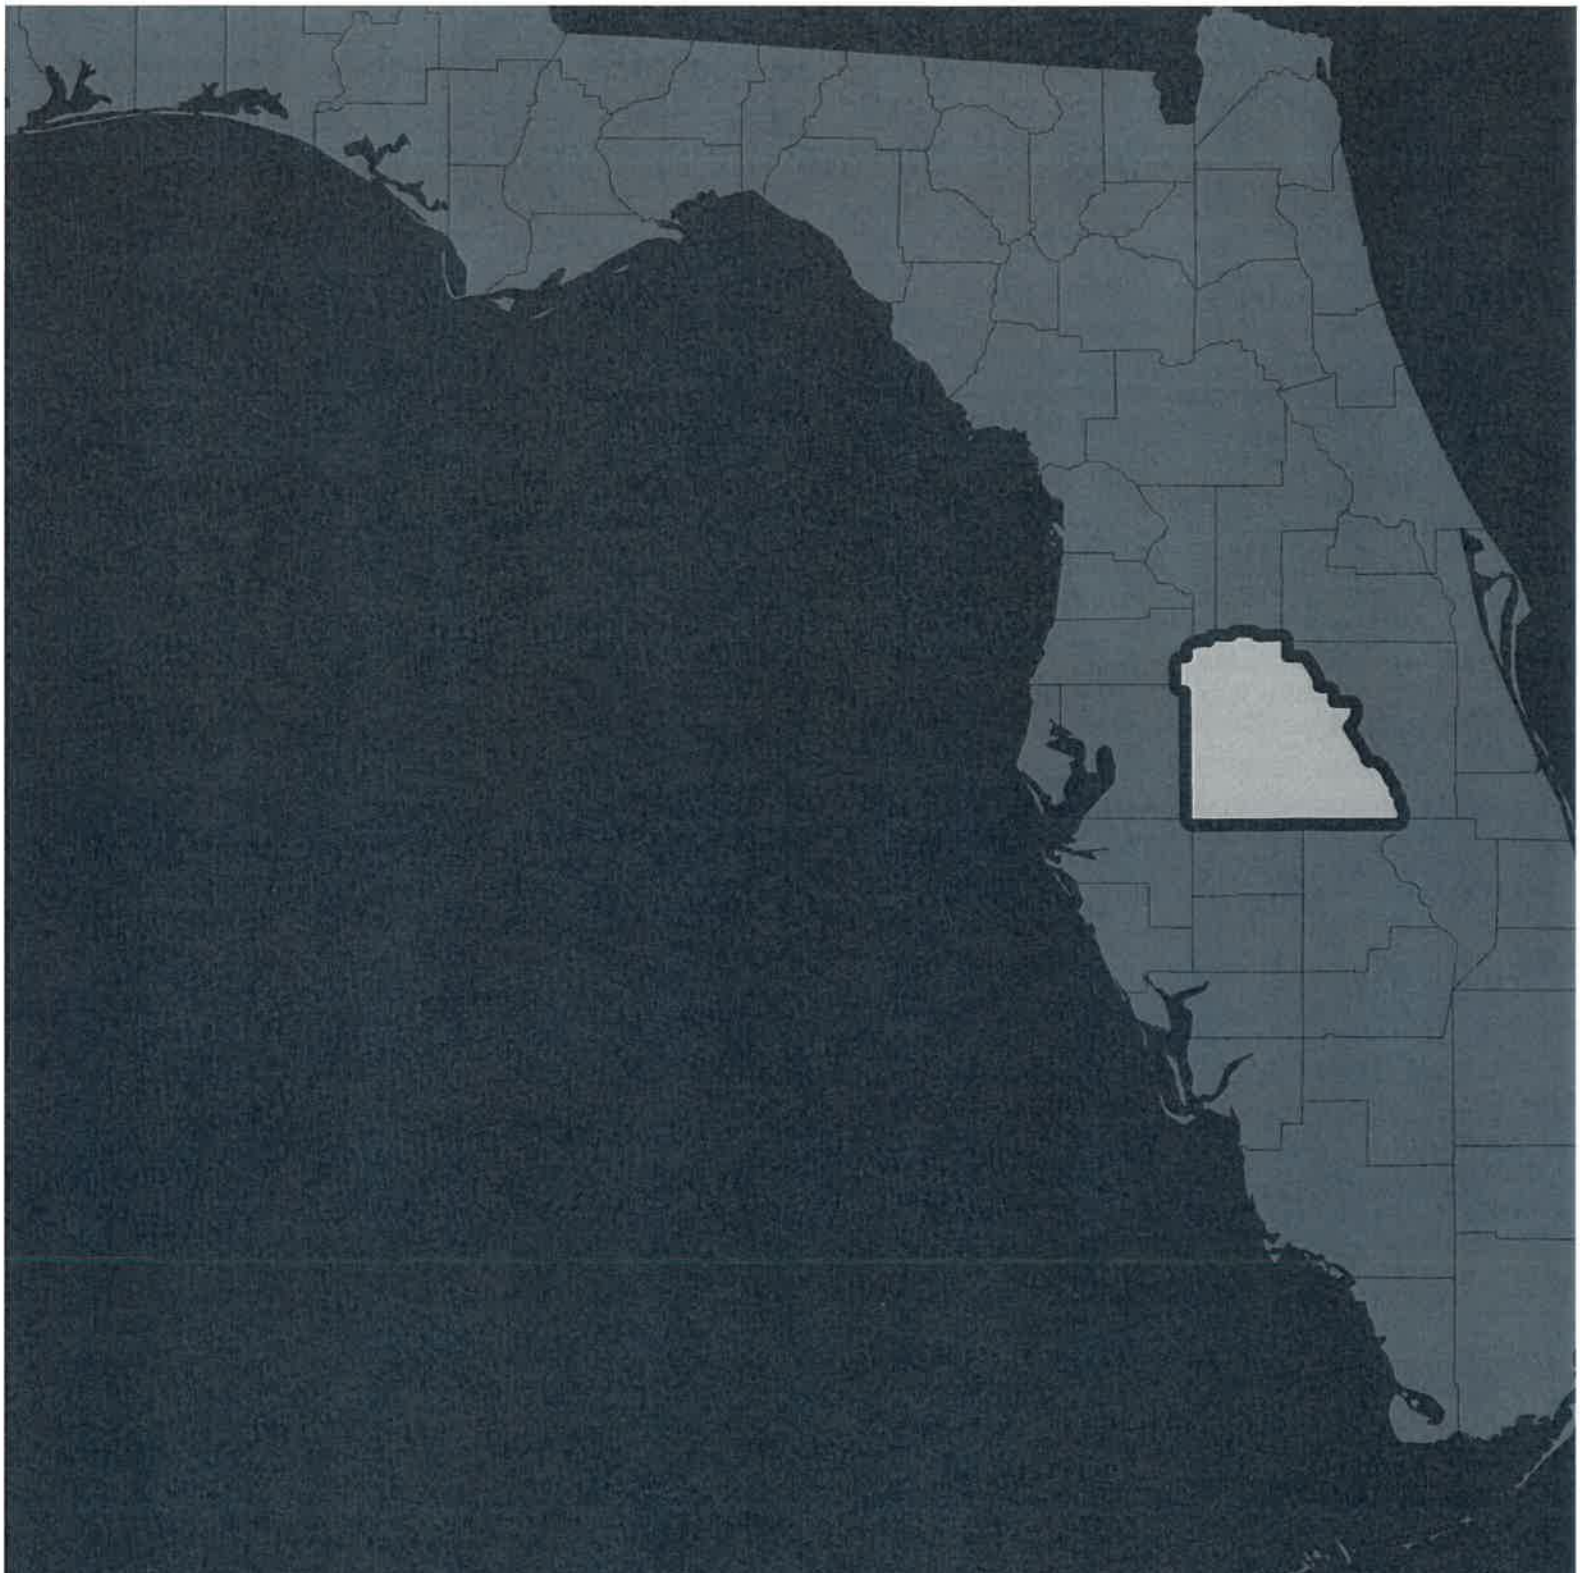
Project Manager, Phase I Cultural Resource Assessment Survey for the River to Sea Loop Multi-use Trail, Phase 1, Volusia County, Florida. Serving as the Principal Investigator. SEARCH is conducting desktop analysis of the alternative alignments developed for the proposed 1.6-mile trail from Lake Beresford Park to Old New York Avenue. Subsurface archaeological testing is recommended for Trail Options 2 and 3 due to both options running parallel to the previously recorded cultural resource JT&KW Railroad (8VO07641). Conducted for Kimley-Horne and Associates, Inc. for Volusia County. Cost: $24,934.75

Project Manager, Phase I Cultural Resource Assessment Survey for Lake Apopka Multiuse Trail from Lake Apopka Loop Trail to West Orange Trail, Orange County, Florida. Served as the Principal Investigator. The archaeological survey of the proposed 3.4-mile trail consisted of a pedestrian survey and 27 shovel tests in which no artifacts, archaeological features, sites, or occurrences were identified. Conducted for WBQ Design & Engineers, Inc. for Orange County Board of County Commissioners. Cost: $27,143.16

Project Manager, Cultural Resource Desktop Analysis for the North Lake Multiuse Trail Project Development and Environment Study Marion and Lake Counties, Florida. Served as the Principal Investigator for three alternatives and one design segment of a proposed trail connecting East Collins Street/CR 450 in Umatilla to SR 40 in Astor Park. The corridor options range in length from 16.20 miles to 2.87 miles and follow existing roadways. Conducted for Stantec Consulting Services, Inc. for Lake County. Cost: $127,403.07

Project Manager, Phase I Cultural Resource Assessment Survey for the PD&E study for the SR A1A Multiuse Trail Segments C-G, Duval County, Florida. Served as the Principal Investigator. The archaeological survey of the combined 4.84-mile segments included 50 shovel tests. The architectural survey resulted in the identification and evaluation of 13 historic resources. Conducted for CONSOR Engineers for Florida Department of Transportation District Two. Cost: $78,464.81

Project Manager, Phase I Cultural Resources Assessment Survey for the SR 57 (US 19) Multiuse Trail PD&E Study, Jefferson County, Florida. Served as the Principal Investigator. The archaeological survey of the 3.22-mile multiuse trail consisted of pedestrian reconnaissance and 31 shovel tests. The architectural survey resulted in the identification and evaluation of five resources. Conducted for Mead & Hunt for Florida Department of Transportation, District Three. Cost: $31,404.73



4. INTERACTION WITH COUNTY & REGULATORY AGENCY STAFF

INTERACTION WITH COUNTY AND REGULATORY AGENCY STAFF

POLK COUNTY

The PGA Team has significant experience working with all County Divisions that will be involved in this project, including significant experience coordinating with Roads and Drainage and Real Estate Services (RES). We worked very closely with RES throughout our W Pipkin Rd widening project in addition to other recently completed projects like Wildwood Sibdivision Drainage and Eloise Loop Road Drainage Improvements.

FDOT DISTRICT ONE

PGA brings well established relationships with FDOT District One, including staff that reviews and issues the connection permits. We know what they are looking for in these permit reviews, which will expedite any required interactions with FDOT. We used this experience to successfully obtain a connection permit from FDOT District One on our US 17 at 9th St intersection improvement project.

REGULATORY PERMITTING

PGA has successfully obtained many environmental resource permits through SWFWMD and FDEP. Some of our more ambitious permits were on Polk County projects: W Pipkin Rd and Ernest M. Smith Blvd (EMSB). The W Pipkin Rd design calls for a significant amount of basin combination as well as multiple "smart box" structures. These innovative design concepts eliminated several pond sites saved the County considerable costs in right-of-way acquisition. The EMSB alignment encroached into over 800,000 cubic yards of the FEMA floodplain for Saddle Creek. By preparing a hydraulic model for Saddle Creek and downstream improvements at Old Bartow Eagle Lake Rd, we were able to demonstrate no rise in the water surface elevation without floodplain compensation, saving the County significant right-of-way costs.

Our environmental staff have extensive experience with wildlife permitting, including successful gopher tortoise relocations along W Pipkin Rd. CivilSurv has significant experience coordinating with FDOH on water and wastewater projects.

POLK TPO

Our staff are no strangers to Polk County and have served Polk TPO in previous roles, including former consulting work, FDOT, and as former Polk TPO staff. We regularly attend Polk TPO board and committee meetings, as well as Polk BoCC meetings and regional transportation planning meetings of TBARTA, CFMPOA, CCC, and neighboring MPOs. We are positioned well to assist you with all aspects of carrying out the TPO's desired work.

CAPABILITIES MATRIX

We have included a table below that summarizes our overall team experience with all the regulatory agencies and county divisions listed in the RFP.

KEY TEAM MEMBER	POLK CO DRAINAGE & ROADS	POLK CO PROC.	POLK CO BUILDING DIVISION	POLK CO CODES DIVISION	POLK CO PARKS & NATURAL RESOURCES	POLK CO ATTORNEY'S OFFICE	FDOT	SWFWMD	FDEP

5. TIMELY COMPLETION OF PROJECTS

TIMELY COMPLETION OF PROJECTS

PGA currently has no active planning contracts with Polk County. With our large W Pipkin Rd project now in construction and our current projects not anticipated to consume significant resources, the key team members shown in the workload chart on the following page (pg. 35) have availability now for this project and will continue to have excellent availability as this work comes on line, so there is no concern regarding PGA's ability to perform successfully on this contract.

PGA carefully coordinates work efforts with internal meetings on a weekly basis to ensure all project commitments are met. We analyze all project schedules to ensure that all our current projects are properly staffed. Our priority is to ensure all project commitments are maintained and our clients are completely satisfied. We are aided in this effort by the fact that all major disciplines (planning, roadway, drainage, structures, traffic, landscape architecture, and community engagement) are handled in-house at PGA, which gives us the capability to monitor our projects' progress on a daily basis. We take pride in our ability to develop cost-effective solutions and look forward to exceeding your expectations on this contract.

We have assembled our team to handle the complete scope that is described in the RFP. Some of these services are provided by our subconsultant partners. We have provided a summary of the key staff members that will be working on this contract. If PGA is fortunate enough to win this contract, you not only get the team we are proposing, but **PGA will commit all necessary resources from our firm of over 120+ staff members to ensure this project is a success.**

SWORN STATEMENT PURSUANT TO SECTION 287.133(3)(a),
FLORIDA STATUTES, ON PUBLIC ENTITY CRIMES

THIS FORM MUST BE SIGNED AND SWORN TO IN THE PRESENCE OF A NOTARY PUBLIC OR OTHER OFFICIAL AUTHORIZED TO AND MINISTER OATHS.

1. This sworn statement is submitted to Polk County
[print name of the public entity]
by Gordon Greene, PE, Executive Vice President
[print individual's name and title]
for Patel, Greene and Associates, LLC
[print name of entity submitting sworn statement]

whose business address is

12570 Telecom Drive, Temple Terrace, FL 33637

and (if applicable) its Federal Employer Identification Number (FEIN) is 45-2209743

(If the entity has no FEIN, include the Social Security Number of the individual signing this sworn statement: .)

2. I understand that a "public entity crime" as defined in Paragraph 287.133(1)(g), Florida Statutes, means a violation of any state or federal law by a person with respect to and directly related to the transaction of business with any public entity or with an agency or political subdivision of any other state or of the United States, including, but not limited to, any bid or contract for goods or services to be provided to any public entity or an agency or political subdivision of any other state or of the United States and involving antitrust, fraud, theft, bribery, collusion, racketeering, conspiracy, or material misrepresentation.

3. I understand that "convicted" or "conviction" as defined in Paragraph 287.133(1)(b), Florida Statutes, means a finding of guilt or a conviction of a public entity crime, with or without an adjudication of guilt, in any federal or state trial court of record relating to charges brought by indictment or information after July 1, 1989, as a result of a jury verdict, nonjury trial, or entry of a plea of guilty or nolo contendere.

4. I understand that an "affiliate" as defined in Paragraph 287.133(1)(a), Florida Statutes, means:
1. A predecessor or successor of a person convicted of a public entity crime; or
2. An entity under the control of any natural person who is active in the management of the entity and who has been convicted of a public entity crime. The term "affiliate" includes those officers, directors, executives, partners, shareholders, employees, members, and agents who are active in the management of an affiliate. The ownership by one person of shares constituting a controlling interest in another person, or a pooling of equipment or income among persons when not for fair market value under an arm's length agreement, shall be a prima facie case that one person controls another person. A person who knowingly enters into a joint venture with a person who has been convicted of a public entity crime in Florida during the preceding 36 months shall be considered an affiliate.

5. I understand that a "person" as defined in Paragraph 287.133(1)(e), Florida Statutes, means any natural person or entity organized under the laws of any state or of the United States with the legal power to enter into a binding contract and which bids or applies to bid on contracts for the provision of goods or services let by a public entity, or which otherwise transacts or applies to transact business with a public entity. The term "person" includes those officers, directors, executives, partners, shareholders, employees, members, and agents who are active in management of an entity.

6. Based on information and belief, the statement which I have marked below is true in relation to the entity submitting this sworn statement. [Indicate which statement applies]

X Neither the entity submitting this sworn statement, nor any of its officers, directors, executives, partners, shareholders, employees, members, or agents who are active in the management of the entity, nor any affiliate of the entity has been charged with and convicted of a public entity crime subsequent to July 1, 1989.

_____ The entity submitting this sworn statement, or one or more of its officers, directors, executives, partners, shareholders, employees, members, or agents who are active in the management of the entity, or an affiliate of the entity has been charged with and convicted of a public entity crime subsequent to July 1, 1989.

_____ The entity submitting this sworn statement, or one or more of its officers, directors, executives, partners, shareholders, employees, members, or agents who are active in the management of the entity or an affiliate of the entity has been charged with and convicted of a public entity crime subsequent to July 1, 1989. However, there has been a subsequent proceeding before a Hearing Officer of the State of Florida, Division of Administrative hearings and the Final Order entered by the Hearing Officer determined that it was not in the public interest to place the entity submitting this sworn statement on the convicted vendor list. (attach a copy of the final order)

I UNDERSTAND THAT THE SUBMISSION OF THE FORM TO THE CONTRACTING OFFICER FOR THE PUBLIC ENTITY IDENTIFIED IN PARAGRAPH 1 (ONE) ABOVE IS FOR THAT PUBLIC ENTITY ONLY AND, THAT THIS FORM IS VALID THROUGH DECEMBER 31 OF THE CALENDAR YEAR IN WHICH IT IS FILED. I ALSO UNDERSTAND THAT I AM REQUIRED TO INFORM THE PUBLIC ENTITY PRIOR TO ENTERING INTO A CONTRACT IN EXCESS OF THE THRESHOLD AMOUNT PROVIDED IN SECTION 287.017, FLORIDA STATUTES FOR CATEGORY TWO OF ANY CHANGE IN THE INFORMATION CONTAINED IN THIS FORM.

DRUG-FREE WORKPLACE PROGRAM CERTIFICATION

375-04
PROCUREM
0

287.087 Preference to businesses with drug-free workplace programs. --Whenever two or more bids, proposals, or replies that are equal with respect to price, quality, and service are received by the state or by any political subdivision for the procurement of commodities or contractual services, a bid, proposal, or reply received from a business that certifies tha it has implemented a drug-free workplace program shall be given preference in the award process. In order to have a drug free workplace program, a business shall:

(1) Publish a statement notifying employees that the unlawful manufacture, distribution, dispensing, possession, c use of a controlled substance is prohibited in the workplace and specifying the actions that will be taken against employee for violations of such prohibition.

(2) Inform employees about the dangers of drug abuse in the workplace, the business's policy of maintaining a drug-free workplace, any available drug counseling, rehabilitation, and employee assistance programs, and the penalties that may be imposed upon employees for drug abuse violations.

(3) Give each employee engaged in providing the commodities or contractual services that are under bid a copy of the statement specified in subsection (1).

(4) In the statement specified in subsection (1), notify the employees that, as a condition of working on the commodities or contractual services that are under bid, the employee will abide by the terms of the statement and will notify the employer of any conviction of, or plea of guilty or nolo contendere to, any violation of Chapter 893 or of any controlled substance law of the United States or any state, for a violation occurring in the workplace no later than 5 days after such conviction.

(5) Impose a sanction on, or require the satisfactory participation in a drug abuse assistance or rehabilitation program if such is available in the employee's community by, any employee who is so convicted.

(6) Make a good faith effort to continue to maintain a drug-free workplace through implementation of this section.

Does the individual responding to this solicitation certify that their firm has implemented a drug-free workplace program in accordance with the provision of Section 287.087, Florida Statutes, as stated above?

TRUTH IN NEGOTIATION CERTIFICATION

375-030-3·
PROCUREMEN
05/1·

Pursuant to Section 287.055(5)(a), Florida Statutes, for any lump-sum or cost-plus-a-fixed fee professional services contract over the threshold amount provided in Section 287.017, Florida Statutes fo CATEGORY FOUR, the Department of Transportation (Department) requires the Consultant to execute this certificate and include it with the submittal of the Technical Proposal, or as prescribed in the contract advertisement.

The Consultant hereby certifies, covenants, and warrants that wage rates and other factual unit costs supporting the compensation for this project's agreement are accurate, complete, and current at the time of contracting.

The Consultant further agrees that the original agreement price and any additions thereto shall be adjusted to exclude any significant sums by which the Department determines the agreement price was increased due to inaccurate, incomplete, or noncurrent wage rates and other factual unit costs. All such agreement adjustments shall be made within (1) year following the end of the contract. For purposes of this certificate, the end of the agreement shall be deemed to be the date of final billing or acceptance of the work by the Department, whichever is later.

CONFLICT OF INTEREST/CONFIDENTIALITY CERTIFICATION FOR CONSULTANT/CONTRACTOR/TECHNICAL ADVISORS

I certify that I have no present conflict of interest, that I have no knowledge of any conflict of interest that my firm may have, and that I will recuse myself from any capacity of decision making, approval, disapproval, or recommendation on any contract if I have a conflict of interest a potential conflict of interest.

Consultants/Contractors are expected to safeguard their ability to make objective, fair, and impartial decisions when performing work for the Department, and therefore may not accept benefits of any sort under circumstances in which it could be inferred by a reasonable observer tha the benefit was intended to influence a pending or future decision of theirs, or to reward a past decision. Consultants performing work for the Department should avoid any conduct (whether in the context of business, financial, or social relationships) which might undermine the public trust, whether or not that conduct is unethical or lends itself to the appearance of ethical impropriety.

I will maintain the confidentiality of all information not made public by the Florida Department of Transportation ("Department") related to the procurement of the above-referenced ("Project") that I gain access to as a result of my involvement with the Project ("Procurement Information"). I understand that Procurement Information includes, but is not limited to, documents prepared by or for the Department related procurement of the Project. I also understand that Procurement Information includes, but is not limited to, documents submitted to the Department by entities seeking an award of the Project ("Proposers"). I understand that Procurement Information may include documents submitted by Proposers related to letters of response/letters of interest, technical proposals, price proposals, financial proposals, and information shared during exempt meetings. I also understand that Procurement Information may also include documents that evaluate or review documents submitted by Proposers, and information regarding Project cost estimates. I also agree not to discuss the Project with anyone who is a member of or acting on behalf of a Proposer.

Unless so ordered by a court of competent jurisdiction or an opinion of the Office of the Florida Attorney General, I will not divulge any Procurement Information except to individuals who have executed a Conflict of Interest/Confidentiality Certification which has been approved the Department ("Project Personnel"). I understand that a list of Project Personnel will be maintained by Department. If I am contacted by any member of the public or the media with a request for Procurement Information, I will promptly forward such request to the Department's Procurement Office. I will also maintain security and control over all documents containing Procurement Information which are in my custody.

I agree not to solicit or accept gratuities, unwarranted privileges or exemptions, favors, or anything of value from any firm under consideration for an agreement associated with the Project, and I recognize that doing so may be contrary to statutes, ordinances, and rules governing or applicable to the Department or may otherwise be a violation of the law.

I agree not to engage in bid tampering, pursuant to Section 838.22, Florida Statutes.

I realize that violation of the above mentioned standards could result in the termination of my work for the Department. I further realize that violation of the above mentioned statute would be punishable in accordance with Section 838.22, Florida Statutes..

CERTIFICATION REGARDING DEBARMENT, SUSPENSION, INELIGIBILITY AND VOLUNTARY EXCLUSION- LOWER TIER COVERED TRANSACTIONS FOR FEDERAL AID CONTRACTS

(Compliance with 2 CFR Parts 180 and 1200)

It is certified that neither the below identified firm nor its principals are presently suspended, proposed for debarment, declared ineligible, or voluntarily excluded from participation in this transaction by any federal department or agency.

Name of Consultant/Contractor: Patel, Greene and Associates, LLC

By: [signature]

Date: 05/11/2023

Title: Executive Vice President

Instructions for Certification

Instructions for Certification - Lower Tier Participants:
(Applicable to all subcontracts, purchase orders and other lower tier transactions requiring prior FHWA approval or estimated to cost $25,000 or more - 2 CFR Parts 180 and 1200)
a. By signing and submitting this proposal, the prospective lower tier is providing the certification set out below.

b. The certification in this clause is a material representation of fact upon which reliance was placed when this transaction was entered into. If it is later determined that the prospective lower tier participant knowingly rendered an erroneous certification, in addition to other remedies available to the Federal Government, the department, or agency with which this transaction originated may pursue available remedies, including suspension and/or debarment.

c. The prospective lower tier participant shall provide immediate written notice to the person to which this proposal is submitted if at any time the prospective lower tier participant learns that its certification was erroneous by reason of changed circumstances.

d. The terms "covered transaction," "debarred," "suspended," "ineligible," "participant," "person," "principal," and "voluntarily excluded," as used in this clause, are defined in 2 CFR Parts 180 and 1200. You may contact the person to which this proposal is submitted for assistance in obtaining a copy of those regulations. "First Tier Covered Transactions" refers to any covered transaction between a grantee or subgrantee of Federal funds and a participant (such as the prime or general contract). "Lower Tier Covered Transactions" refers to any covered transaction under a First Tier Covered Transaction (such as subcontracts). "First Tier Participant" refers to the participant who has entered into a covered transaction with a grantee or subgrantee of Federal funds (such as the prime or general contractor). "Lower Tier Participant" refers any participant who has entered into a covered transaction with a First Tier Participant or other Lower Tier Participants (such as subcontractors and suppliers).

e. The prospective lower tier participant agrees by submitting this proposal that, should the proposed covered transaction be entered into, it shall not knowingly enter into any lower tier covered transaction with a person who is debarred, suspended, declared ineligible, or voluntarily excluded from participation in this covered transaction, unless authorized by the department or agency with which this transaction originated.

f. The prospective lower tier participant further agrees by submitting this proposal that it will include this clause titled "Certification Regarding Debarment, Suspension, Ineligibility and Voluntary Exclusion-Lower Tier Covered Transaction," without modification, in all lower tier covered transactions and in all solicitations for lower tier covered transactions exceeding the $25,000 threshold.

g. A participant in a covered transaction may rely upon a certification of a prospective participant in a lower tier covered transaction that is not debarred, suspended, ineligible, or voluntarily excluded from the covered transaction, unless it knows that the certification is erroneous. A participant is responsible for ensuring that its principals are not suspended, debarred, or otherwise ineligible to participate in covered transactions. To verify the eligibility of its principals, as well as the eligibility of any lower tier prospective participants, each participant may, but is not required to, check the Excluded Parties List System website (https://www.epls.gov/), which is compiled by the General Services Administration.

h. Nothing contained in the foregoing shall be construed to require establishment of a system of records in order to render in good faith the certification required by this clause. The knowledge and information of participant is not required to exceed that which is normally possessed by a prudent person in the ordinary course of business dealings.

i. Except for transactions authorized under paragraph e of these instructions, if a participant in a covered transaction knowingly enters into a lower tier covered transaction with a person who is suspended, debarred, ineligible, or voluntarily excluded from participation in this transaction, in addition to other remedies available to the Federal Government, the department or agency with which this transaction originated may pursue available remedies, including suspension and/or debarment.

PROCUREMENT
10/01

CERTIFICATION FOR DISCLOSURE OF LOBBYING ACTIVITIES ON FEDERAL-AID CONTRACTS
(Compliance with 49CFR, Section 20.100 (b))

The prospective participant certifies, by signing this certification, that to the best of his or her knowledge and belief:

(1) No federal appropriated funds have been paid or will be paid, by or on behalf of the undersigned, to any person for influencing or attempting to influence an officer or employee of any federal agency, a Member of Congress, an officer or employee of Congress, or an employee of a Member of Congress in connection with the awarding of any federal contract, the making of any federal grant, the making of any federal loan, the entering into of any cooperative agreement, and the extension, continuation, renewal, amendment, or modification of any federal contract, grant, loan, or cooperative agreement.

(2) If any funds other than federal appropriated funds have been paid or will be paid to any person for influencing or attempting to influence an officer or employee of any federal agency, a Member of Congress, an officer or employee of Congress, or an employee of a Member of Congress in connection with this federal contract, grant, loan, or cooperative agreement, the undersigned shall complete and submit Standard Form-LLL, "Disclosure of Lobbying Activities", in accordance with its instructions. (Standard Form-LLL can be obtained from the Florida Department of Transportation's Professional Services Administrator or Procurement Office.)

This certification is a material representation of fact upon which reliance was placed when this transaction was made or entered into. Submission of this certification is a prerequisite for making or entering into this transaction imposed by Section 1352, Title 31, U.S. Code. Any person who fails to file the required certification shall be subject to a civil penalty of not less than $10,000 and not more than $100,000 for each such failure.

The prospective participant also agrees by submitting his or her proposal that he or she shall require that the language of this certification be included in all lower tier subcontracts, which exceed $100,000 and that all such subrecipients shall certify and disclose accordingly.

LOCAL AGENCY PROGRAM FEDERAL-AID TERMS
For PROFESSIONAL SERVICES CONTRACTS

375-040-84
PROGRAM MANAGEMENT
5/22
Page 1 of 3

TERMS FOR FEDERAL AID CONTRACTS (APPENDIX I):

The following terms apply to all contracts in which it is indicated that the services involve the expenditure of federal funds:

A. It is understood and agreed that all rights of the Local Agency relating to inspection, review, approval, patents, copyrights, and audit of the work, tracing, plans, specifications, maps, data, and cost records relating to this Agreement shall also be reserved and held by authorized representatives of the United States of America.

B. All tracings, plans, specifications, maps, computer files and/or reports prepared or obtained under this Agreement, as well as all data collected, together with summaries and charts derived therefrom, will be considered works made for hire and will become the property of the Agency upon completion or termination without restriction or limitation on their use and will be made available, upon request, to the Agency at any time during the performance of such services and/or completion or termination of this Agreement. Upon delivery to the Agency of said document(s), the Agency will become the custodian thereof in accordance with Chapter 119, Florida Statutes. The Consultant will not copyright any material and products or patent any invention developed under this agreement. The Agency will have the right to visit the site for inspection of the work and the products of the Consultant at any time.

C. It is understood and agreed that, in order to permit federal participation, no supplemental agreement of any nature may be entered into by the parties hereto with regard to the work to be performed hereunder without the approval of the U.S. Department of Transportation, anything to the contrary in this Agreement not withstanding.

D. The consultant shall provide access by the Florida Department of Transportation (recipient), the Agency (subrecipient), the Federal Highway Administration, the U.S. Department of Transportation's Inspector General, the Comptroller General of the United States, or any of their duly authorized representatives to any books, documents, papers, and records of the consultant which are directly pertinent to that specific contract for the purpose of making audit, examination, excerpts, and transcriptions.

E. Compliance with Regulations: The Consultant shall comply with the Regulations: relative to nondiscrimination in Federally-assisted programs of the U.S. Department of Transportation Title 49, Code of Federal Regulations, Part 21, as they may be amended from time to time, (hereinafter referred to as the Regulations), which are herein incorporated by reference and made a part of this Agreement.

F. Nondiscrimination: The Consultant, with regard to the work performed during the contract, shall not discriminate on the basis of race, color, national origin, sex, age, disability, religion or family status in the selection and retention of subcontractors, including procurements of material and leases of equipment. The Consultant shall not participate either directly or indirectly in the discrimination prohibited by Section 21.5 of the Regulations, including employment practices when the contract covers a program set forth in Appendix B of the Regulations.

G. Solicitations for Subcontracts, Including Procurements of Materials and Equipment: In all solicitations made by the Consultant, either by competitive bidding or negotiation for work to be performed under a subcontract, including procurements of materials and leases of equipment, each potential subcontractor or supplier shall be notified by the Consultant of the Consultant's obligations under this contract and the Regulations relative to nondiscrimination on the basis of race, color, national origin, sex, age, disability, religion or family status.

H. Information and Reports: The Consultant will provide all information and reports required by the Regulations, or directives issued pursuant thereto, and shall permit access to its books, records, accounts, other sources of information, and its facilities as may be determined by the Local Agency, Florida Department of Transportation, Federal Highway Administration, Federal Transit Administration, Federal Aviation Administration, and/or Federal Motor Carrier Safety Administration to be pertinent to ascertain compliance with such Regulations, orders and instructions. Where any information required of the Consultant is in the exclusive possession of another who fails or refuses to furnish this information, the Consultant shall so certify to the Local Agency, Florida Department of Transportation, Federal Highway Administration, Federal Transit Administration, Federal Aviation Administration, and/or the Federal Motor Carrier Safety Administration as appropriate, and shall set forth what efforts it has made to obtain the information.

I. Sanctions for Noncompliance: In the event of the Consultant's noncompliance with the nondiscrimination provisions of this contract, the Local Agency shall impose such contract sanctions as it or the Florida Department of Transportation, Federal Highway Administration, Federal Transit Administration, Federal Aviation Administration, and/or Federal Motor Carrier Safety Administration may determine to be appropriate, including, but not limited to,

   1. withholding of payments to the Consultant under the contract until the Consultant complies and/or
   2. cancellation, termination or suspension of the contract, in whole or in part.

J. Incorporation or Provisions: The Consultant will include the provisions of Paragraph C through K in every subcontract, including procurements of materials and leases of equipment unless exempt by the Regulations, order, or instructions

59

issued pursuant thereto. The Consultant shall take such action with respect to any subcontract or procurement as the Local Agency, Florida Department of Transportation, Federal Highway Administration, Federal Transit Administration, Federal Aviation Administration, and/or the Federal Motor Carrier Safety Administration may direct as a means of enforcing such provisions, including sanctions for noncompliance. In the event a Consultant becomes involved in, or is threatened with, litigation with a subconsultant or supplier as a result of such direction, the Consultant may request the Local Agency to enter into such litigation to protect the interests of the Local Agency, and, in addition, the Consultant may request the United States to enter into such litigation to protect the interests of the United States.

K. Compliance with Nondiscrimination Statutes and Authorities: Title VI of the Civil Rights Act of 1964 (42 U.S.C. § 2000d et seq., 78 stat. 252), (prohibits discrimination on the basis of race, color, national origin); and 49 CFR Part 21; The Uniform Relocation Assistance and Real Property Acquisition Policies Act of 1970, (42 U.S.C. § 4601), (prohibits unfair treatment of persons displaced or whose property has been acquired because of Federal or Federal-aid programs and projects); Federal-Aid Highway Act of 1973, (23 U.S.C. § 324 et seq.), (prohibits discrimination on the basis of sex); Section 504 of the Rehabilitation Act of 1973, (29 U.S.C. § 794 et seq.), as amended, (prohibits discrimination on the basis of disability); and 49 CFR Part 27; The Age Discrimination Act of 1975, as amended, (42 U.S.C. § 6101 et seq.), (prohibits discrimination on the basis of age); Airport and Airway Improvement Act of 1982, (49 USC § 471, Section 47123), as amended, (prohibits discrimination based on race, creed, color, national origin, or sex); The Civil Rights Restoration Act of 1987, (PL 100-209), (Broadened the scope, coverage and applicability of Title VI of the Civil Rights Act of 1964, The Age Discrimination Act of 1975 and Section 504 of the Rehabilitation Act of 1973, by expanding the definition of the terms "programs or activities" to include all of the programs or activities of the Federal-aid recipients, sub-recipients and contractors, whether such programs or activities are Federally funded or not); Titles II and III of the Americans with Disabilities Act, which prohibit discrimination on the basis of disability in the operation of public entities, public and private transportation systems, places of public accommodation, and certain testing entities (42 U.S.C. §§ 12131 -- 12189) as implemented by Department of Transportation regulations at 49 C.F.R. parts 37 and 38; The Federal Aviation Administration's Non-discrimination statute (49 U.S.C. § 47123) (prohibits discrimination on the basis of race, color, national origin, and sex); Executive Order 12898, Federal Actions to Address Environmental Justice in Minority Populations and Low-Income Populations, which ensures non-discrimination against minority populations by discouraging programs, policies, and activities with disproportionately high and adverse human health or environmental effects on minority and low-income populations; Executive Order 13166, Improving Access to Services for Persons with Limited English Proficiency, and resulting agency guidance, national origin discrimination includes discrimination because of limited English proficiency (LEP). To ensure compliance with Title VI, you must take reasonable steps to ensure that LEP persons have meaningful access to your programs (70 Fed. Reg. at 74087 to 74100); Title IX of the Education Amendments of 1972, as amended, which prohibits you from discriminating because of sex in education programs or activities (20 U.S.C. 1681 et seq).

L. Interest of Members of Congress: No member of or delegate to the Congress of the United States will be admitted to any share or part of this contract or to any benefit arising therefrom.

M. Interest of Public Officials: No member, officer, or employee of the public body or of a local public body during his tenure or for one year thereafter shall have any interest, direct or indirect, in this contract or the proceeds thereof. For purposes of this provision, public body shall include municipalities and other political subdivisions of States; and public corporations, boards, and commissions established under the laws of any State.

N. Participation by Disadvantaged Business Enterprises: The Consultant shall agree to abide by the following statement from 49 CFR 26.13(b). This statement shall be included in all subsequent agreements between the Consultant and any subconsultant or contractor.

> "The Consultant, sub recipient or subcontractor shall not discriminate on the basis of race, color, national origin, or sex in the performance of this contract. The contractor shall carry out applicable requirements of 49 CFR Part 26 in the award and administration of DOT-assisted contracts. Failure by the Consultant to carry out these requirements is a material breach of this contract, which may result in termination of this contract or other such remedy as the recipient deems appropriate."

Pursuant to 49 CFR26.11(c), the Consultant shall submit the bid opportunity list at the time of contract execution, and shall enter DBE commitment and payment information in the Florida Department of Transportation Equal Opportunity Compliance (EOC) system. The Consultant shall request access to the EOC system using Form No. 275-021-30.

O. It is mutually understood and agreed that the willful falsification, distortion or misrepresentation with respect to any facts related to the project(s) described in this Agreement is a violation of the Federal Law. Accordingly, United States Code, Title 18, Section 1020, is hereby incorporated by reference and made a part of this Agreement.

P. It is understood and agreed that if the Consultant at any time learns that the certification it provided the Local Agency in compliance with 49 CFR, Section 26.51, was erroneous when submitted or has become erroneous by reason of changed circumstances, the Consultant shall provide immediate written notice to the Local Agency. It is further agreed that the clause titled "Certification Regarding Debarment, Suspension, Ineligibility and Voluntary Exclusion - Lower Tier Covered Transaction" as set forth in 49 CFR, Section 29.510, shall be included by the Consultant in all lower tier covered transactions and in all aforementioned federal regulation.

LOCAL AGENCY PROGRAM FEDERAL-AID TERMS For PROFESSIONAL SERVICES CONTRACTS

Q. The Local Agency hereby certifies that neither the consultant nor the consultant's representative has been required by the Local Agency, directly or indirectly as an express or implied condition in connection with obtaining or carrying out this contract, to

1. employ or retain, or agree to employ or retain, any firm or person, or
2. pay, or agree to pay, to any firm, person, or organization, any fee, contribution, donation, or consideration of any kind;

The Local Agency further acknowledges that this agreement will be furnished to a federal agency, in connection with this contract involving participation of Federal-Aid funds, and is subject to applicable State and Federal Laws, both criminal and civil.

R. The Consultant hereby certifies that it has not:

1. employed or retained for a commission, percentage, brokerage, contingent fee, or other consideration, any firm or person (other than a bona fide employee working solely for the above contractor) to solicit or secure this contract;
2. agreed, as an express or implied condition for obtaining this contract, to employ or retain the services of any firm or person in connection with carrying out this contract; or
3. paid, or agreed to pay, to any firm, organization or person (other than a bona fide employee working solely for the above contractor) any fee contribution, donation, or consideration of any kind for, or in connection with, procuring or carrying out the contract.

The consultant further acknowledges that this agreement will be furnished to the Local Agency, the State of Florida Department of Transportation and a federal agency in connection with this contract involving participation of Federal-Aid funds, and is subject to applicable State and Federal Laws, both criminal and civil.

S. The Consultant shall utilize the U.S. Department of Homeland Security's E-Verify system to verify the employment eligibility of all new employees hired by the Contractor during the term of the Contract and shall expressly require any subcontractors performing work or providing services pursuant to the Contract to likewise utilize the U.S. Department of Homeland Security's E-Verify system to verify the employment eligibility of all new employees hired by the subcontractor during the Contract term.

STATE OF FLORIDA DEPARTMENT OF TRANSPORTATION

DBE BID PACKAGE INFORMATION

275-030-11
EQUAL OPPORTUNITY OFFICE
09/19
Page 1 of 2

DBE Utilization

The Department began its DBE race neutral program January 1, 2000. **Contract specific goals are not placed on Federal/State contracts;** however, the Department has an overall 10.65% DBE goal it must achieve. In order to assist contractors in determining their DBE commitment level, the Department has reviewed the estimates for this letting.

As you prepare your bid, please monitor potential or anticipated DBE utilization for contracts. When the low bidder executes the contract with the Department, information will be requested of the contractor's DBE participation for the project. While the utilization is not mandatory in order to be awarded the project, continuing utilization of DBE firms on contracts supports the success of Florida's DBE Program, and supports contractors' Equal Employment Opportunity and DBE Affirmative Action Programs.

Any project listed as 0% DBE availability does not mean that a DBE may not be used on that project. A 0% DBE availability may have been established due to any of the following reasons: limited identified subcontracting opportunities, minimal contract days, and/or small contract dollar amount. Contractors are encouraged to identify any opportunities to subcontract to DBE's.

Please contact the Equal Opportunity Office at (850) 414-4747 if you have any questions regarding this information.

DBE Reporting

If you are the prime contractor on a project, enter your DBE participation in the Equal Opportunity Compliance system prior to the pre-construction or pre-work conference for all federal and state funded projects. This **will not** become a mandatory part of the contract. It will assist the Department in tracking and reporting planned or estimated DBE utilization. During the contract, the prime contractor is required to report actual payments to DBE and MBE subcontractors through the web-based Equal Opportunity Compliance (EOC) system.

All DBE payments must be reported whether or not you initially planned to utilize the company. In order for our race neutral DBE Program to be successful, your cooperation is imperative. If you have any questions, please contact EOOHelp@dot.state.fl.us.

Bid Opportunity List

The Federal DBE Program requires States to maintain a database of all firms that are participating or attempting to participate on FDOT-assisted contracts. The list must include all firms that bid on prime contracts or bid or quote subcontracts on FDOT-assisted projects, including both **DBE's and non-DBEs.**

Please complete the Bidders Opportunity List through the Equal Opportunity Compliance system within 3 business days of submission of the bid or proposal for ALL subcontractors or sub-consultants who quoted to you for specific project for this letting. The web address to the Equal Opportunity Compliance system is: https://www.fdot.gov/equalopportunity/eoc.shtm.

EQUAL OPPORTUNITY OFFICE
09/19
Page 2 of 2

DBE/AA Plans

Contractors bidding on FDOT contracts are to have an approved DBE Affirmative Action Plan (FDOT Form 275-030-11B) on file with the FDOT Equal Opportunity Office before execution of a contract. DBE/AA Plans must be received with the contractors bid or received by the Equal Opportunity Office prior to the award of the contract.

Plans are approved by the Equal Opportunity Office in accordance with Ch. 14-78, Florida Administrative Code. Plans that do not meet these mandatory requirements may not be approved. Approvals are for a (3) three year period and should be updated at anytime there is a change in the company's DBE Liaison Officer and/or President. Contractors may evidence adoption of the DBE/AA Policy and Plan and/or a change in the designated DBE Liaison officer as follows:

- Print the first page of the document on company stationery ("letterhead") that indicates the company's name, mailing address, phone number, etc.
- Print the company's name in the "___" space; next to "Date" print the month/day/year the policy is being signed; record the signature of the company's Chief Executive Officer, President or Chairperson in the space next to "by" and print the full first and last name and position title of the official signing the policy.
- Print the DBE Liaison's full name, email address, business mailing address and phone number the bottom of email.

E-mail the completed and signed DBE AA Plan to: **eeoforms@dot.state.fl.us.**

The Department will review the policy, update department records and issue a notification of approval or disapproval; a copy of the submitted plan will not be returned to the contractor.

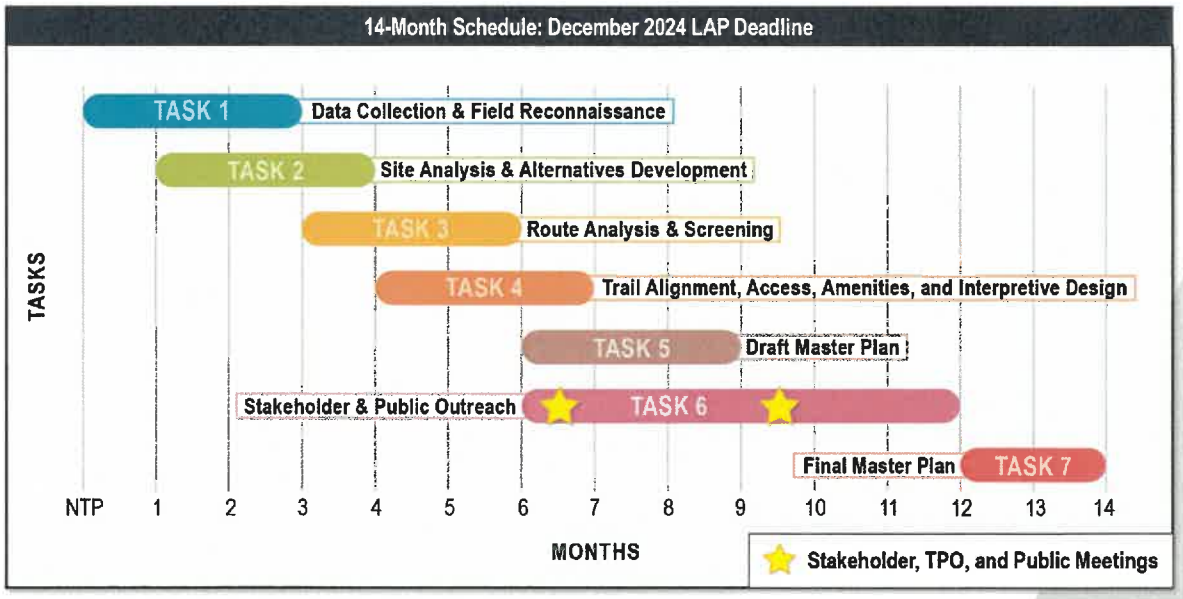
SCOPE & SCHEDULE

Exhibit "Aiii"



PGA Fee Proposal for RFP 23-197: Lake Hancock Trails Master Plan

August 10, 2023

Tasks	Description	Labor Hours	Labor Costs	Task % of total budget
Task 1 - Data Collection & Field Reconnaissance				
1.a.	Hold kick off meeting	16	$3,190	1%
1.b.	Hold bi-weekly update meetings	32	$5,710	2%
1.c.	Gather and analyze documents and data	164	$20,480	8%
1.d.	Conduct field reconnaissance	86	$11,500	5%
1.e.	Prepare Tech Memo #1	50	$7,630	3%
	Task Totals	348	**$48,510**	**19.4%**
Task 2 - Site Analysis & Alternatives Development				
2.a.	Hold bi-weekly update meetings	26	$5,290	2%
2.b.	Create trail benefits/best practices presentation	50	$7,690	3%
2.c.	Create base map of existing conditions	70	$10,840	4%
2.d.	Create alternatives map	62	$10,930	4%
2.e.	Prepare Tech Memo #2	24	$4,130	2%
	Task Totals	232	**$38,880**	**15.6%**
Task 3 - Route Analysis & Screening				
3.a.	Hold bi-weekly update meetings	22	$4,460	2%
3.b.	Screen alternatives	80	$12,150	5%
3.c.	Prepare land parcel inventory	112	$15,430	6%
3.d.	Prepare Tech Memo #3	26	$5,200	2%
	Task Totals	240	**$37,240**	**14.9%**
Task 4 - Trail Alignment, Access, Amenities, and Interpretive Design				
4.a.	Hold bi-weekly update meetings	16	$3,520	1%
4.b.	Develop amenities & design guidance	124	$23,060	9%
4.c.	Develop preferred alignment design	108	$21,060	8%
4.d.	Prepare Tech Memo #4	8	$1,640	1%
	Task Totals	256	**$49,280**	**19.7%**
Task 5 - Draft Master Plan				
5.a.	Hold bi-weekly update meetings	14	$3,070	1%
5.b.	Create design renderings	86	$16,710	7%
5.c.	Prepare Draft EC & Master Plan	94	$16,000	6%
5.d.	Create large Format Map	28	$4,780	2%
	Task Totals	222	**$40,560**	**16.2%**
Task 6 - Stakeholder & Public Outreach				
6.a.	Hold bi-weekly update meetings	34	$6,970	3%
6.b.	Conduct stakeholder meetings	26	$4,890	2%
6.c.	Prepare presentation, video, online content	36	$6,420	3%
6.d.	Conduct public meeting	34	$5,730	2%
	Task Totals	130	**$24,010**	**9.6%**
Task 7 - Final Master Plan				
7.a.	Hold bi-weekly update meetings	10	$2,250	1%
7.b.	Prepare Final Master Plan	46	$9,000	4%
	Task Totals	56	**$11,250**	**4.5%**
	Totals for all Tasks	1,484	$249,730	100.0%

Dear Mr. Patel:

The Florida Department of Transportation has reviewed your application for prequalification package and determined that the data submitted is adequate to technically prequalify your firm for the following types of work:

Group 2 - Project Development and Environmental (PD&E) Studies

Group 3 - Highway Design - Roadway

- 3.1 - Minor Highway Design
- 3.2 - Major Highway Design
- 3.3 - Controlled Access Highway Design

Group 4 - Highway Design - Bridges

- 4.1.1 - Miscellaneous Structures
- 4.1.2 - Minor Bridge Design
- 4.2.1 - Major Bridge Design - Concrete
- 4.2.2 - Major Bridge Design - Steel

Group 5 - Bridge Inspection

- 5.4 - Bridge Load Rating

Group 6 - Traffic Engineering and Operations Studies

- 6.1 - Traffic Engineering Studies
- 6.2 - Traffic Signal Timing
- 6.3.1 - Intelligent Transportation Systems Analysis and Design
- 6.3.2 - Intelligent Transportation Systems Implementation
- 6.3.3 - Intelligent Transportation Traffic Engineering Systems Communications

Group 7 - Traffic Operations Design

- 7.1 - Signing, Pavement Marking and Channelization
- 7.2 - Lighting
- 7.3 - Signalization

Group 10 - Construction Engineering Inspection

10.1 - Roadway Construction Engineering Inspection
10.3 - Construction Materials Inspection

Group 11 - Engineering Contract Administration and Management

Group 13 - Planning

13.3 - Policy Planning
13.4 - Systems Planning
13.5 - Subarea/Corridor Planning
13.6 - Land Planning/Engineering

Group 15 - Landscape Architect

Your firm is now technically prequalified with the Department for Professional Services in the above referenced work types. The overhead audit has been accepted, and your firm may pursue projects in the referenced work types with fees of any dollar amount. This status shall be valid until June 30, 2024, for contracting purposes.

Approved Rates

Home/ Branch Overhead	Field Overhead	Facilities Capital Cost of Money	Premium Overtime	Reimburse Actual Expenses	Home Direct Expense	Field Direct Expense
159.02%	132.78%	0.775%	Reimbursed	No	0.74%	7.95%*

*Rent and utilities excluded from field office rate. These costs will be directly reimbursed on contracts that require the consultant to provide field office.

Per Title 23, U.S. Code 112, there are restrictions on sharing indirect cost rates. Refer to Code for additional information.

Should you have any questions, please feel free to contact me by email at carliayn.kell@dot.state.fl.us or by phone at 850-414-4597.

Polk County

Board of County Commissioners

Agenda Item R.33. 11/7/2023

SUBJECT

Request Board approve selection committee's recommendation to authorize staff to enter into contract negotiations with Madrid CPWG for professional engineering services for the Crystal Lake Boardwalk. (No fiscal impact)

DESCRIPTION

Parks and Natural Resources requested Procurement solicit proposals for the purpose of conducting a structural examination of the deteriorating boardwalk at Crystal Lake Park, documenting its current condition, and providing recommendations for repairs or replacements. The boardwalk, located at 2500 North Crystal Lake Drive in Lakeland, has been in use for over ten years and is exhibiting signs of significant rotting, compromising its safety and functionality. This project will ensure the longevity and safety of this vital community asset. The county received Community Development Block Grant (CDBG) funds for this project.

Request for Proposal (RFP) 23-572, Structural Professional Engineering Services for Crystal Lake Park Boardwalk was issued, and only one firm submitted a proposal, Madrid CPWG. The selection committee met on Tuesday, October 17, 2023, to evaluate and score the proposal. After scoring, the consensus of the selection committee was to request the Board authorize staff enter into contract negotiations with Madrid CPWG.

A recommendation of award was posted, and no protests were received.

RECOMMENDATION

Request Board approve the selection committee's recommendation and authorize staff to enter into contract negotiations, with Madrid CPWG of Bartow, FL, for RFP 23-572, Structural Professional Engineering Services for Crystal Lake Park Boardwalk.

FISCAL IMPACT

There is no fiscal impact during negotiations.

Agenda Item R.34. 11/7/2023

SUBJECT

Request Board approve selection committee's recommendation to authorize staff to enter into contract negotiations with Bern Kinard Auctioneer, Inc. for Gator Creek Grazing Lease. (No fiscal impact)

DESCRIPTION

Gator Creek Reserve, located at 9305 Hall Road Lakeland, FL 33809 is part of the County's Environmental Lands Program (ELP). The ELP, approved by voters in November 1994, provides for the acquisition, preservation, protection, management and restoration of environmentally sensitive lands, water resources and important wildlife. Gator Creek Reserve has areas that are scheduled for future restoration, however, until this occurs grazing is being utilized as a beneficial restoration management tool.

The Parks and Natural Resources Division requested Procurement solicit proposals from qualified vendors to lease 750 acres of land within Gator Creek Reserve for cattle grazing purposes. The grazing lease assists the County with stewardship and maintenance of designated areas not currently being used for recreational purposes and provides revenue to offset the maintenance and management of the property. Grazing activities will not restrict the movement of wildlife or interfere with the recreational use of the property not included in the leased area.

Request for Proposal (RFP) 23-364, Gator Creek Grazing Lease was issued, and two vendors submitted proposals. The selection committee met on September 21, 2023, to evaluate and score the proposals. Both vendors were elevated for interviews. On October 5, 2023, the selection committee conducted interviews and received presentations from both vendors. After the interviews, the consensus of the selection committee was to request the Board authorize staff to enter into contract negotiations with all proposers, starting with the highest ranked proposer, Bern Kinard Auctioneer, Inc.

The following is a listing of the firms and their rankings:

Proposer	City	Rank
Bern Kinard Auctioneer, Inc.	Lakeland, FL	1
Double H Bar Cattle LLC	Kathleen, FL	2

A recommendation to award was posted, and no protests were received.

RECOMMENDATION

Request Board approve the selection committee's recommendation and authorize staff to enter into contract negotiations with Bern Kinard Auctioneer, Inc. of Lakeland for RFP 23-364, Gator Creek

Grazing Lease.

FISCAL IMPACT

There is no fiscal impact during negotiations.

Polk County

Board of County Commissioners

Agenda Item R.35. 11/7/2023

SUBJECT

Approve the transfer of reserve for FY22/23 from the Fire Impact Fee Funds (One time transfer of $1,061,000)

DESCRIPTION

For FY22/23 the Fire Impact Fee Fund incurred cost greater than budgeted capital expense related to the delay in receiving the Tenders for the new Winston Creek and Moore Road stations and an Engine for Moore Road station that were ordered in 2021 and received Q2 FY2023.

Therefore, a one-time transfer from the Fire Impact Fee reserves is being requested to cover the cost of the two Tenders and one Engine.

RECOMMENDATION

Request Board approve transfer of $1,061,000 from the Fire Impact Fee reserves to the capital budget.

FISCAL IMPACT

Funding is available for transfer in the Fire Impact Fee fund.

TOTAL	$ 1,061,000						

JUSTIFICATION (attach additional back-up as necessary)
Due to the delay in receiving the 2 tenders (one for Winston Creek and Moore Road) and the one egine for Moore Rd we need to move funds in the amount of $1,061,000 from reserves to cover the capital expense in FY23. These trucks were budgeted and ordered in FY21/22.

Polk County

Board of County Commissioners

Agenda Item R.36. 11/7/2023

SUBJECT

Approve the contract between Lexipol and Polk County, a political subdivision of the State of Florida through the Polk County Fire Rescue Division for Fire/EMS Policy Manual & Daily Training Bulletins. The first-year one-time fee of $76,541.50, a second-year one-time fee of $27,391.35, and an estimated $34,945.75 annual expense for three years.

DESCRIPTION

The contract with Lexipol will include a 3-year subscription and implementation. The first-year total subscription includes the annual subscription of $34,945.75 and the Implementation fee of $76,541.50. The second-year total includes the annual subscription of $34,945.75 and the final implementation fee of $27,391.35. The third-year fee is for the annual subscription of $34,945.75. Lexipol will provide an annual Fire/EMS policy manual and daily training bulletins.

RECOMMENDATION

There will be no increase in subscription cost for the full 3-year term of this agreement. The price per person for this subscription is $49.92 each.

Exhibit B
Terms and Conditions of Service

These Terms and Conditions of Service (the "Terms") govern the rights and obligations of Lexipol and Agency under this Agreement. Lexipol and Agency may each be referred to herein as a "party" and collectively as the "parties."

1. Definitions. Each of the following capitalized terms will have the meaning included in this Section 1. Other capitalized terms are defined within their respective sections, below.

1.1 "Agency" means the department, agency, office, organization, company, or other entity purchasing and/or otherwise subscribing to the Lexipol Services set forth in Exhibit A.

1.2 "Agency Data" means data, information, and content owned by Agency prior to the Effective Date, or which Agency provides during the Term of this Agreement for purposes of identifying authorized users, confirming agency or department information, or other purposes that are ancillary to receipt of the Service.

1.3 "Agreement" means the combination of the cover sheet (signature page); Exhibit A ("Selected Services and Associated Fees"); this Exhibit B; and any other documents attached hereto and expressly incorporated herein by reference.

1.4 "Effective Date" means the date specified on the cover sheet (signature page), or as otherwise expressly set forth and agreed upon by Lexipol and Agency in a writing and defined as the "Effective Date."

1.5 "Initial Term" means the period commencing on the Effective Date and continuing for the length of time indicated on Exhibit A. If not so indicated, the default Initial Term is one (1) year from the Effective Date.

1.6 "Lexipol Content" means all content in any format including but not limited to: written content, images, videos, data, information, and software multimedia provided by Lexipol and/or its licensors via the Services.

1.7 "Services" means all products and services, including but not limited to all software subscriptions, professional services, and ancillary support services, as may be offered by Lexipol and/or its affiliates from time to time.

2. Term; Renewal. This Agreement becomes enforceable upon signature by Agency's authorized representative, with an Effective Date as indicated on the cover page. Unless expressly stated in the "Custom Agreement Terms" section of Exhibit A, this Agreement shall automatically renew in successive one-year periods (each, a "Renewal Term") on the anniversary of the Effective Date unless a party provides written notice of non-renewal to the other party at least sixty (60) days prior to such renewal. The Initial Term and all Renewal Terms collectively comprise the "Term" of this Agreement.

3. Termination.

3.1 For Convenience; Non-Appropriation. This Agreement may be terminated at any time for convenience (including due to lack of appropriation of funds) upon sixty (60) days written notice.[1]

3.2 For Cause. This Agreement may be terminated by either party, effective immediately, (a) in the event the other party fails to discharge any obligation, including payment obligations, or remedy any default hereunder for a period of more than thirty (30) calendar days after it has been provided written notice of such failure or default; or (b) in the event that the other party makes an assignment for the benefit of creditors or commences or has commenced against it any proceeding in bankruptcy, insolvency or reorganization pursuant to the bankruptcy laws of any applicable jurisdiction.

3.3 Effect of Expiration or Termination. Upon the expiration or termination of this Agreement for any reason, Agency's access to Lexipol's Services shall immediately cease unless Lexipol has, in its sole discretion, provided for their limited continuation. Termination or expiration of this Agreement shall not, however, relieve either party from any obligation or liability that has accrued under this Agreement prior to the date of such termination or expiration, including payment obligations.

[1] Note: fees paid for Online Services are not eligible for refund, proration, or offset in the event of Agency's termination for convenience as Online Services are delivered in full as of the Effective Date. Fees pre-paid for Professional Services are eligible for refund, proration, or offset to the extent such Services have not been delivered or utilized by Agency.

Copyright © Lexipol, LLC 1995-2023

4. **Fees; Invoicing**. Lexipol will invoice Agency at the commencement of the Initial Term and at the commencement of each Renewal Term. Agency agrees to remit payment within thirty (30) calendar days following receipt of Lexipol's invoice. Payments may be made electronically or by mailing a check to Lexipol at 2611 Internet Blvd, Ste. 100, Frisco, TX 75034 (Attn: Accounts Receivable). Lexipol reserves the right to increase fees for Renewal Terms. All fee amounts stated in Exhibit A are exclusive of taxes and similar fees now in force or enacted in the future. Agency is responsible for all third-party fees (e.g., wire fees, bank fees, credit card processing fees). Unless otherwise exempt, Agency is responsible for and will pay in full all taxes related to its receipt of Lexipol's Services, except for taxes based on Lexipol's net income.

5. **Terms of Service**. The following terms and conditions govern access to and use of Lexipol's Services:

5.1 **Online Services**. Lexipol's Online Services include all cloud-based services offered by Lexipol and its partners, affiliates, and licensors. Online Services include, without limitation, Lexipol's Knowledge Management System ("KMS") for policy, Learning Management System ("LMS")[2], GrantFinder, and Cordico wellness applications (collectively, the "Online Services"). Lexipol's Online Services are proprietary and, where applicable, protected under U.S. copyright, trademark, patent, and/or other applicable laws. By subscribing to Lexipol's Online Services, Agency receives a personal, limited, non-sublicensable and non-assignable license to access and use such Services in conformity with these Terms.

5.2 **Professional Services**. Lexipol's Professional Services include all Services that are not part of Lexipol's Online Services, and which require the professional expertise of Lexipol personnel and/or contractors, including implementation support for policy manuals, technical support for online learning, accreditation consulting, grant writing and consulting[3], and projects requiring regular input from Lexipol's subject matter experts (collectively, "Professional Services"). Lexipol shall provide all Professional Services in accordance with industry best practices.

5.3 **Intellectual Property; License**. Lexipol's Services and all Lexipol Content are the proprietary intellectual property of Lexipol and/or its licensors, and are protected where applicable by copyright, trademark, and patent laws. Nothing contained in this Agreement or these Terms shall be construed as conferring any right of ownership or use to Lexipol's Services or Lexipol Content. Notwithstanding the foregoing, Agency may, in limited circumstances (e.g. creation, modification, and updating of Agency's policy manuals) create Derivative Works based on Lexipol's Content and shall retain a personal, non-commercial, non-sublicensable and non-assignable license to use such Derivative Works, including beyond the expiration or termination of this Agreement. "Derivative Works" include all work product based on or which incorporates any Lexipol Content, including any revision, modification, abridgement, condensation, expansion, compilation, or any other form in which Lexipol Content, or any portion thereof, is recast, transformed, or adapted. Agency acknowledges and agrees that Lexipol shall have no responsibility to update Lexipol Content used by Agency beyond the Term of this Agreement and shall have no liability whatsoever for Agency's creation or use of Derivative Works.

5.4 **Account Security**. Access to Lexipol's Services is personal and unique to Agency. Agency shall not assign or otherwise transfer any such rights to any other person or entity. Except as set forth herein, Agency remains responsible for maintaining the security and confidentiality of Agency's usernames and passwords and the security of Agency's accounts. Agency will immediately notify Lexipol if Agency becomes aware that any person or entity other than authorized Agency personnel has used Agency's account or Agency's usernames and/or passwords.

5.5 **Agency Data.** Lexipol will use commercially reasonable efforts to ensure the security of all Agency Data. Lexipol's Services use the Secure Socket Layer (SSL) protocol, which encrypts information as it travels between Lexipol and Agency. However, data transmission on the internet is not always 100% secure and Lexipol cannot and does not warrant that information Agency transmits to or through Lexipol or the Services is 100% secure. Lexipol's use of Agency Data is limited to providing the Services, retaining records in the regular course of business, and complying with valid legal obligations.

6. **Confidentiality**. During the Term of this Agreement, each party may disclose information to the other party that would be reasonably considered confidential, including Agency Data (collectively, "Confidential Information"). The receiving party will: (a) limit disclosure of any such Confidential Information to the receiving party's authorized representatives; (b) advise its personnel and agents of the confidential nature of the Confidential Information and of the obligations set forth in this Agreement; and (c) not disclose any Confidential Information to any third party unless expressly authorized by the disclosing party. A party may disclose Confidential Information pursuant to a valid governmental, judicial, or administrative order, subpoena, regulatory request, Freedom of

[2] LMS Services include, but are not limited to: PoliceOne Academy, FireRescue1 Academy, EMS1 Academy, Corrections1 Academy, and LocalGovU.

[3] Agency is responsible for submitting all information reasonably required by Lexipol's grant writing team in a timely manner and always at least five (5) days prior to each grant application submission date. Agency is responsible submissions of final grant applications by grant deadlines. Failure to timely submit required materials to Lexipol's grant writing team will result in rollover of project fees to next grant application cycle, not a refund of fees. Requests for cancellation of grant writing services which have already begun will result in a 50% fee of the total value of the service.

Information Act (FOIA) request, Public Records Act (PRA) request, or equivalent, provided that the disclosing party promptly notifies, to the extent practicable, the other party in writing prior to such disclosure so that the other party may seek to make such disclosure subject to a protective order or other appropriate remedy to preserve the confidentiality of the Confidential Information. Each party shall be responsible for any breach of this section by any of such party's personnel or agents. The parties may also disclose the fact that they are working together, including for promotional purposes, and include each other's name and logo(s) for such purposes.

7. Warranty. LEXIPOL WARRANTS THAT ITS SERVICES ARE PROVIDED IN A PROFESSIONAL AND WORKMANLIKE MANNER IN ACCORDANCE WITH PREVAILING INDUSTRY STANDARDS, THAT THEY SHALL BE FIT FOR THE PURPOSES SET FORTH HEREIN, AND THAT SUCH SERVICES SHALL NOT INFRINGE THE RIGHTS OR INTELLECTUAL PROPERTY OF THIRD PARTIES. NOTWITHSTANDING THE FOREGOING, LEXIPOL'S SERVICES ARE PROVIDED "AS-IS" AND LEXIPOL DISCLAIMS ALL OTHER WARRANTIES, WHETHER EXPRESS, IMPLIED, STATUTORY, OR OTHERWISE, INCLUDING ALL IMPLIED WARRANTIES OF MERCHANTABILITY, AS WELL AS ALL WARRANTIES ARISING FROM COURSE OF DEALING, USAGE, OR TRADE PRACTICE.

8. Indemnification. Lexipol will indemnify, defend, and hold harmless Agency from and against any and all loss, liability, damage, claim, cost, charge, demand, fine, penalty, or expense arising directly and solely out of Lexipol's gross negligence or willful misconduct in providing Services pursuant to this Agreement. Agency shall likewise indemnify, defend, and hold Lexipol harmless from and against any and all loss, liability, damage, claim, cost, charge, demand, fine, penalty, or expense arising out of acts or omissions by Agency, Agency's personnel, or any party acting on Agency's behalf.

9. Limitation of Liability. Each party's cumulative liability resulting from any claims, demands, or actions arising out of or relating to this Agreement, the Services, or the use of any Lexipol Content shall not exceed the larger of: the aggregate amount of fees paid to Lexipol by Agency during the twelve-month period immediately prior to the assertion of such claim, demand, or action; or $10,000.00. In no event shall either party be liable for any indirect, incidental, consequential, special, exemplary damages, or lost profits, even if such party has been advised of the possibility of such damages.

10. General Terms.

10.1 Entire Agreement. This Agreement embodies the entire agreement between the parties and supersedes all prior agreements with respect to the subject matter hereof. No representation, promise, or statement of intention has been made by either party that is not embodied herein. Terms and conditions set forth in any purchase order or other document that are inconsistent with or in addition to the terms and conditions set forth in this Agreement are rejected in their entirety and void, regardless of when received, without further action. No amendment, modification, or supplement to this Agreement shall be binding unless it is made in writing and signed by both parties.

10.2 General Interpretation. The terms of this Agreement have been chosen by the parties hereto to express their mutual intent. This Agreement shall be construed equally against each party without regard to any presumption or rule requiring construction against the party who drafted this Agreement or any portion thereof.

10.3 Invalidity of Provisions. Each provision contained in this Agreement is distinct and severable. A declaration of invalidity or unenforceability of any provision or portion thereof shall not affect the validity or enforceability of any other provision. Should any provision or portion thereof be held to be invalid or unenforceable, the parties agree that the reviewing authority should endeavor to give effect to the parties' intention as reflected in such provision to the maximum extent possible.

10.4 Compliance; Governing Law. Each party shall maintain compliance with all applicable laws, rules, regulations, and orders relating to its obligations pursuant to this Agreement. This Agreement shall be construed in accordance with, and governed by, the laws of the state in which Agency is located, without giving effect to any choice of law doctrine that would cause the law of any other jurisdiction to apply.

10.5 Assignment. This Agreement may not be assigned by either party without the prior written consent of the other. Notwithstanding the foregoing, this Agreement may be assumed by a party's successor in interest through merger, acquisition, or consolidation without additional notice or consent.

10.6 Waiver. Either party's failure to exercise, or delay in exercising, any right or remedy under any provision of this Agreement shall not constitute a waiver of such right or remedy.

10.7 Notices. Any notice required hereunder shall be in writing and shall be made by certified mail (postage prepaid) to known, authorized recipients at such address as each party may indicate from time to time. In addition, electronic mail (email) to established and authorized recipients is acceptable when acknowledged by the receiving party.

Polk County

Board of County Commissioners

Agenda Item R.38. 11/7/2023

SUBJECT

Approve state-funded 2023-2024 Emergency Management Performance Grant (EMPG).

DESCRIPTION

The State of Florida, Division of Emergency Management, hereinafter referred to as the "Division" and Polk County a political subdivision of the State of Florida hereinafter referred to as the "Recipient" have entered into an agreement where the Recipient is funded in part by the Emergency Management Performance Grant (EMPG), which is annually allocated to jurisdictions by Congress through the Division. The $166,868.00 allocation will be used primarily for personnel cost and some operating expenses for the Emergency Management Program including Emergency Operations, Special Needs, Disaster Planning Initiatives, and Training Readiness Exercises, and requires dollar for dollar match by the Recipient. The term of this agreement is from October 1, 2023 through March 31, 2025.

RECOMMENDATION

Request the Board approve the Emergency Management Performance Grant (EMPG) of compliance with all the requirements contained in Chapter 27P-19, Florida Administrative Code and Section 252, Florida Statutes.

FISCAL IMPACT

Funds are budgeted in the Special Revenue EMPG Grant Fund.

Agenda Item R.39. 11/7/2023

SUBJECT

SET HEARING to consider requests to vacate platted and unmaintained right-of-way shown on the map of Captain David Burn's Subdivision and vacate a portion of maintained right-of-way now known as Huckleberry Road as shown on the maintained right-of-way map for Horse Shoe Creek. (Suggested hearing date is November 21, 2023 at 9:30 a.m or immediately following the regular agenda)

DESCRIPTION

The County has received the following requests to adopt resolutions vacating, abandoning, discontinuing, closing, renouncing, and disclaiming any rights of the County or the public in certain platted and unmaintained right-of-way along with a portion of maintained right-of-way located within Polk County. Florida Statutes, Section 336.10, requires the Commissioners hold a public hearing to consider Petitions adopting resolutions vacating, abandoning, discontinuing, closing, renouncing, and disclaiming property under their control. Setting a public hearing date will comply with Florida Statutes and allow the request to be considered.

Request Board set a public hearing date for the following requests to vacate platted and unmaintained right-of-way along with a portion of maintained right-of-way. Suggested Hearing Date: Tuesday, November 21, 2023 at 9:30 a.m., or immediately following the regular agenda:

1. Consider a petition by Jeffrey D. Hofius, as authorized agent for Davenport Legacy, LLC, to adopt a resolution vacating platted and unmaintained right-of-way lying adjacent to the east of Block 2 as shown on the map of Captain David Burn's Subdivision, as recorded in Plat Book 4, at Page 34, Public Records of Polk County, Florida. The subject right-of-way lies in Section 12, Township 26 South, Range 27 East.

2. On Board's Motion, consider a request to adopt a resolution vacating a portion of maintained right-of-way now known as Huckleberry Road as shown on the Maintained Right-of-Way of Horse Shoe Creek Road as recorded in Map Book 4, at Pages 303 through 308, Public Records of Polk County, Florida. The subject right-of-way lies in Section 2, Township 27 South, Range 27 East.

RECOMMENDATION

Request Board set a Public Hearing at 9:30 a.m. on Tuesday, November 21, 2023, or immediately following the regular agenda, to consider the preceding items.

FISCAL IMPACT

There is no fiscal impact associated with this agenda item.

CONTACT INFORMATION

R. Wade Allen, Administrator
Real Estate Services

Agenda Item R.40. 11/7/2023

SUBJECT

Approve Right-of-Way Agreement between David Rohrer and Georgia Rohrer, husband and wife and Polk County in conjunction with the Thompson Nursery Road Segment 1 Improvement Project, Parcel 111. ($441,200 one-time expense)

DESCRIPTION

The County has a project to improve and realign Thompson Nursery Road from West Lake Ruby Drive to US Highway 17 consisting of primarily a new alignment for a four-lane corridor. Due to the nature, and associated challenges, of certain portions of the alignment the project design and construction has been separated into four segments. The portion known as Segment 1 runs from US Highway 17 at Winter Lake Road (SR 540) to Rifle Range Road (CR 655). The Board previously adopted a resolution authorizing negotiations and written offers to be made on this project.

Parcel 111 is a whole take fee parcel needed for mainline right-of-way for Segment 1 of the project. The parcel is a rectangular shaped parcel, containing nearly one-half acre, located along the east side of Grove Park Lane and contains a mobile home residence with an addition. The County hired an independent appraiser to establish full compensation for the taking of Parcel Number 111 and the owners, David Rohrer and Georgia Rohrer, through their attorney, rejected the County's offer. Subsequent negotiations with the owner's attorney have resulted in a proposed settlement amount of $390,000 for the purchase of the parcel along with statutory attorney's fees in the amount of $46,200 for a total settlement of $436,200.

The County Attorney's Office and the Real Estate Services Administrator have reviewed the agreement and recommend approval. The alternative of acquiring this parcel through condemnation litigation would result in substantial cost to the County. Approving the Right-of-Way Agreement, authorizing the issuance of funds for the purchase, fees and costs and hiring American Government Services Corporation to close the acquisition will allow the County to close the transaction and take ownership of the parcel for the project.

RECOMMENDATION

Request Board approve the aforementioned Right-of-Way Agreement for Parcel 111 and authorize the issuance of funds in the amount of $436,200 for the purchase of the parcel along with attorney's fees as stated above. Also request Board approve hiring American Government Services Corporation to close the acquisition of the parcel and approve paying closing costs in the estimated amount of $5,000 for a total of $441,200.

FISCAL IMPACT

Funds are budgeted and available in the amount of $441,200 for the purchase of the parcel along

with applicable fees and costs in the Impact Fee Northeast Fund.

RIGHT-OF-WAY AGREEMENT

STATE OF FLORIDA
COUNTY OF POLK

THIS AGREEMENT made and entered into this 17th day of October 2023, between **DAVID M. ROHRER and GEORGIA L. ROHRER,** husband and wife, whose address is Post Office Box 1182, Eagle Lake, Florida 33839-1182, hereinafter referred to as "Owners", and the **POLK COUNTY**, a political subdivision of the State of Florida, whose mailing address is Post Office Box 9005, Drawer RE-01, Bartow, Florida 33831-9005, hereinafter referred to as the "County".

WITNESSETH

WHEREAS, the County requires the lands described as Parcel No. 111 as more particularly described in Exhibit "A" as additional right-of-way (the "Property"), for the construction and maintenance of an authorized road know as THOMPSON NURSERY ROAD PHASE 1 SEGMENT 1, (the "Project"), and said Owners are required to furnish the Property for such purpose:

NOW, THEREFORE, in consideration of the premises and the sum of one dollar each to the other paid, it is agreed as follows:

(a) Owners agree to sell and convey unto the County a fee interest in the Property, by Warranty Deed, free of liens and encumbrances, together with affected improvements for the total settlement amount of $390,000 (Three Hundred Ninety Thousand and 00/100 Dollars).

(b) The County agrees to pay statutory attorney's fees to the law firm of Harris Harris Bauerle and Lopez in the amount of $46,200, for a total settlement amount of $436,200. The County payment for the purchase, attorney's fee, and applicable closing costs shall be made to the Title Agency described in Section (d) herein for disbursement at closing.

(c) Owners shall be responsible for the payment of any and all, current and/or past due real property taxes, or pro-rations thereof, pro-rated to the date of closing, and assessments due on the date of closing, and any payment due will be deducted at closing from the Owners' proceeds. Owners shall also be responsible for the payment of any Mortgages, Judgments and/or Liens, if any, which attach to the Property and any payment(s) due will be deducted at closing from the Owners' proceeds.

(d) Transaction will be closed by American Government Services Corporation (the "Title Agency"). The County agrees to pay all closing costs associated with the transaction with the exception of the real property taxes, assessments, and/or Mortgages and Judgments/Liens as described in Section (c), incurred as a result of the Owners. Such closing costs paid by the County include the closing fee, title search fee, documentary stamps on the deed, if any, and ancillary recordable documents, if any.

(e) The County agrees to grant extended occupancy of the Property through March 1, 2024, and Owners agree to execute an Extended Occupancy and Hold Harmless Agreement for said extended occupancy. Owners may retain some fixtures with approval of the Real Estate Services Administrator. Any improvements or personal property not removed upon vacation of premises or expiration of extended occupancy agreement of subject land shall be considered abandoned by the owners.

(f) County acknowledges that this conveyance of the Property, or property interest, is in lieu of and under threat of condemnation.

(g) The Owners agree and expressly acknowledge that the monies paid and other consideration given in accordance with this Agreement is just and full compensation for all property interest and or claims arising from this acquisition and no other monies including fees and/or cost are owed by the County to Owners.

* **THIS AGREEMENT IS SUBJECT TO FINAL APPROVAL BY THE BOARD OF COUNTY COMMISSIONERS OF POLK COUNTY, FLORIDA.**

IN WITNESS WHEREOF, the parties hereto have caused these presents to be executed in their respective names, and on the date shown above.

Agenda Item R.41. 11/7/2023

SUBJECT

Approve Right-of-Way Agreement between Ferdinand Sanyet and Norma Gonzalez, husband and wife and Polk County in conjunction with the Thompson Nursery Road Phase 1 Segment 1 Project, Parcel 702. ($18,994 one-time expense)

DESCRIPTION

The County has a project to improve and realign Thompson Nursery Road from West Lake Ruby Drive to US Highway 17 consisting of primarily a new alignment for a four-lane corridor. Due to the nature, and associated challenges, of certain portions of the alignment the project design and construction has been separated into four segments. The portion known as Segment 1 runs from US Highway 17 at Winter Lake Road (SR 540) to Rifle Range Road (CR 655). The Board previously adopted a resolution authorizing negotiations and written offers to be made on this project.

Parcel 702 is a temporary construction easement parcel needed for the reconstruction and harmonization of a residential driveway serving the adjacent property. The parcel is a rectangular shaped parcel containing approximately 375 square feet located along the westerly (front) boundary of the parent parcel. The parent parcel is a nearly square shaped parcel containing approximately 30,500 square feet which is improved with a mobile home residence. The County hired an independent appraiser to establish full compensation for the taking of Parcel 702 and the owners, Ferdinand Sanyet and Norma Gonzalez, through their attorney, rejected the County's offer. Subsequent negotiations with the owners' attorney have resulted in a proposed settlement amount of $13,000 for the purchase of the parcel along with statutory attorney's fees in the amount of $5,994 for a total settlement amount of $18,994.

The County Attorney's Office and the Real Estate Services Administrator have reviewed the agreement and recommend approval. The alternative of acquiring this parcel through condemnation litigation would result in substantial cost to the County. Approving the Right-of-Way Agreement and authorizing the issuance of a check for the purchase along with statutory attorney's fees will allow the County to close the transaction and acquire the temporary construction easement needed for the project.

RECOMMENDATION

Request Board approve the aforementioned Right-of-Way Agreement for Parcel 702 and authorize the issuance of funds in the amount of $18,994 for the purchase of the parcel along with attorney's fees payable to Gaylord, Merlin, Ludovici & Diaz, P.A. Trust Account for disbursement.

FISCAL IMPACT

Funds are budgeted and available in the amount of $18,994 for the purchase of the parcel along with

applicable fees in the Impact Fee Northeast Fund.

Board of County Commissioners

Project Name: Thompson Nursery Rd Phase 1 Segment 1
Parent Parcel No.: 262906-000000-022200
Project Parcel No.: 702

RIGHT-OF-WAY AGREEMENT

COUNTY OF POLK
STATE OF FLORIDA

THIS AGREEMENT made and entered into this 23 day of October, 2023, between **FERDINAND SANYET and NORMA GONZALEZ,** husband and wife, whose address is 12 Grove Park Lane, Eagle Lake, Florida 33839 ("Owners"), and **POLK COUNTY**, a political subdivision of the State of Florida, whose mailing address is Post Office Box 9005, Drawer RE-01, Bartow, Florida 33831-9005, ("County").

WITNESSETH

WHEREAS, the County requires the use of the lands described as Parcel Number 702, as depicted on Exhibit "A" (the "Property") as a temporary construction easement for the purpose of driveway construction, conforming, sloping, tying in and harmonizing with existing grades in conjunction, and associated, with the road widening and improving of an authorized road known as the THOMPSON NUSERY ROAD PHASE 1 SEGMENT 1 (the "Project") and said Owners are required to furnish the parcel for such purpose:

NOW, THEREFORE, in consideration of the premises and the sum of One Dollar each to the other paid, it is agreed as follows:

(a) Owners agree to sell and grant a Temporary Construction Easement, unto the County for the amount of $13,000 (Thirteen Thousand and 00/100 Dollars).

(b) County agrees to pay attorney's fees/costs and expert fees/cost in the amount of $5,994 for a total settlement amount of $18,994 which shall be paid to Gaylord, Merlin, Ludovici & Diaz, P.A. Trust Account for disbursement. The County payment shall be within ninety (90) days from the date hereof, upon simultaneous delivery of said Temporary Construction Easement.

(c) A legal description and sketch of the Property is currently being prepared by the County, but is not available at the time of this Agreement. County and Owners agree that the forthcoming legal description/sketch being prepared by the County shall be the prevailing description for the Temporary Construction Easement at closing, provided that such legal description/sketch describes the same property as depicted on the attached Exhibit "A".

(d) County agrees to construct a 12-foot wide driveway at approximate Station 26+77RT as shown on the construction plans attached hereto as Exhibit "A".

(e) County acknowledges that this conveyance of the Property for a temporary easement is in lieu of and under threat of condemnation.

(f) The Owners agree and expressly acknowledge that the monies paid, and other consideration given in accordance with this Agreement, is just and full compensation for all of the Owners' property interest and or claims arising from this acquisition and no other monies including fees and/or cost are owed by the County to Owners.

- **THIS AGREEMENT IS SUBJECT TO FINAL APPROVAL BY THE BOARD OF COUNTY COMMISSIONERS OF POLK COUNTY, FLORIDA.**

IN WITNESS WHEREOF, the party hereto has caused these presents to be executed in his name on the date shown above.

Polk County

Board of County Commissioners

Agenda Item R.42. 11/7/2023

SUBJECT

Approve Right-of-Way Agreement between Tara Bridget Jones and Polk County in conjunction with the County Road 557 Project, Parcel 702. ($4,600 one-time expense)

DESCRIPTION

The County has a Community Investment Project to improve County Road 557 to a four-lane corridor from north of US Highway 17/92 in Lake Alfred, to south of the I-4 Interchange. To allow construction of the new roadway, the County will need to acquire additional right-of-way for the corridor from impacted property owners. The Board previously adopted a resolution authorizing negotiations and written offers to be made on this project.

Parcel 702 is a temporary construction easement parcel needed for the reconstruction and harmonization of a residential driveway serving the adjacent property. The parcel is a rectangular shaped parcel containing approximately 350 square feet located along the westerly (front) boundary of the parent parcel. The parent parcel is a nearly square shaped parcel containing approximately 27,900 square feet which is improved with a single-family residence. The County hired an independent appraiser to establish full compensation for the taking of Parcel 702 and the owner, Bridget Tara Jones f/k/a Tara Bridget Soucie, has accepted the County's offer in the amount of $4,600 for the purchase of the parcel. The owner has not incurred any attorney's fees or expert costs in conjunction with the purchase of this parcel.

The County Attorney's Office and the Real Estate Services Administrator have reviewed the agreement and recommend approval. The alternative of acquiring this parcel through condemnation litigation would result in substantial cost to the County. Approving the Right-of-Way Agreement and authorizing the issuance of a check for the purchase will allow the County to close the transaction and acquire the temporary construction easement needed for the project.

RECOMMENDATION

Request Board approve the aforementioned Right-of-Way Agreement for Parcel 702 and authorize the issuance of funds in the amount of $4,600 for the purchase of the parcel.

FISCAL IMPACT

Funds are budgeted and available in the amount of $4,600 for the purchase of the parcel along with applicable fees in the Impact Fee District A Fund.

RIGHT-OF-WAY AGREEMENT

STATE OF FLORIDA
COUNTY OF POLK

THIS AGREEMENT made and entered into this 20th day of October 2023, between **Tara Bridget Jones, married, f/k/a Tara Bridget Soucie,** whose mailing address is 805 N Buena Vista Dr, Lake Alfred, FL 33850-2015, hereinafter collectively referred to as "Owner(s)", and **POLK COUNTY**, a political subdivision of the State of Florida, whose mailing address is Post Office Box 9005, Drawer RE-01, Bartow, Florida 33831-9005, hereinafter referred to as the "County".

WITNESSETH

WHEREAS, the County requires the use of the lands described as Parcel No. 702, (the "Property"), described in Exhibit A, as a temporary construction easement for the purpose of driveway construction, conforming, sloping, tying in and harmonizing with existing grades in conjunction, and associated, with the road widening and improving of of an authorized road known as COUNTY ROAD 557 (the "Project"), and said Owners are required to furnish the parcel for such purpose:

NOW, THEREFORE, in consideration of the premises and the sum of one dollar each to the other paid, it is agreed as follows:

(a) Owners agree to sell and grant a Temporary Construction Easement, unto said County, for the total sum of **$4,600.00**.

(b) County shall pay unto the Owners the sum of **$4,600.00** by County warrant, within ninety (90) days from date hereof upon simultaneous delivery of said Temporary Construction Easement. Any improvements or personal property not removed within fourteen (14) days after purchase of subject land shall be considered abandoned by the Owners.

(c) County acknowledges that this conveyance of the property interest for right-of-way is in lieu and under threat of condemnation.

(d) The Owners agree and expressly acknowledge that the monies paid in accordance with this Agreement is just and full compensation for all property interest and or claims arising from this acquisition and no other monies including fees and/or costs are owed by the County to Owners.

POLK COUNTY

Polk County

Board of County Commissioners

Agenda Item R.43. 11/7/2023

SUBJECT

Authorize a Utility Easement to the City of Auburndale over a portion of County-owned property in conjunction with a proposed utility project. (No fiscal impact)

DESCRIPTION

The City of Auburndale has a project to make improvements to its wastewater utility service which includes the installation of a wastewater force main along the east side of Old Berkley Road which is a County maintained roadway. The force main is being constructed primarily within the right-of-way for Old Berkley Road. However, the right-of-way adjacent to a parcel owned by the County, which is utilized as a public boat ramp for Lake Tennessee, is insufficient to construct the utility facilities. City staff contacted the County and requested a 15-foot wide Utility Easement along the western boundary of the parcel to accommodate the project. County staff has reviewed the request and determined that the requested easement would not impact the County's use of the property. Authorizing the Utility Easement to the City of Auburndale will give the City the easement needed to move forward with its waste water force main improvements.

RECOMMENDATION

Request Board authorize the aforementioned Utility Easement to the City of Auburndale.

FISCAL IMPACT

There is no fiscal impact associated with this agenda item.

Agenda Item R.44. 11/7/2023

SUBJECT

Accept Polk County Utilities Easement from Lakeland Burger Christina LLC, as requested through the Development Review Process. (No fiscal impact)

DESCRIPTION

As a result of a proposed development, the County, through its Development Review Process, has requested a utility easement for the construction and/or future maintenance of utility facilities for the development. The owner of the subject Property has executed and delivered an easement instrument to Polk County for said facilities.

Accepting the following instrument will give the County the easement needed to construct and/or maintain the utility facilities for the proposed development.

1. Polk County Utilities Easement from Lakeland Burger Christina LLC, a Florida limited liability company, for the construction and/or future maintenance of utility facilities in conjunction with a proposed commercial development. The subject easement lies in Section 24, Township 29 South, Range 23 East.

RECOMMENDATION

Request Board accept the preceding instrument.

FISCAL IMPACT

There is no fiscal impact associated with this agenda item.

POLK COUNTY UTILITIES EASEMENT

THIS POLK COUNTY UTILITIES EASEMENT, made this 19th day of October, 2023, between LAKELAND BURGER CHRISTINA LLC, a Florida limited liability company (the GRANTOR), whose address is 9554 Bolero Road, Winter Garden, Florida 34787, and POLK COUNTY, a political subdivision of the State of Florida (the GRANTEE), whose address is P.O. Box 988, Bartow, FL 33831.

WITNESSETH, the GRANTOR, for and in consideration of the sum of one dollar and other valuable consideration paid by GRANTEE, receipt whereof is hereby acknowledged, grants and conveys to GRANTEE to, its successors, assigns, licensees, a perpetual Polk County Utilities Easement, as described and illustrated below, which is to be under, over, and across the property situated in Polk County, Florida, more particularly described as:

See Attached Exhibit "A"

for Polk County owned utilities, which may include but is not limited to potable water, reclaimed water and wastewater facilities hereafter on said property, such easement to include (i) the right of free ingress and egress under, over and across said property for the purposes of constructing, installing, repairing, replacing, operating, and maintaining said utilities. The GRANTEE is hereby granted the right, privilege, and authority to remove, replace, repair, and enlarge said utilities. The GRANTEE is hereby granted the right, privilege, and authority to trim and remove, as necessary, the roots of trees, shrubs, bushes, and plants that may adversely affect the operation of said utilities.

This grant of easement shall not be construed as a grant of right of way and is limited to a Polk County utilities easement. The GRANTOR shall have the right to use the property subject to the easement granted hereby (the "Easement"), including without limitation for improved parking areas, improved roadways, improved driveways, medians and landscaping, which are not inconsistent with the use of the Easement by the GRANTEE for the purposes granted hereby. Inconsistent improvements to the use of the Easement by the GRANTOR for the purposes granted hereby, including mounded landscaping, building foundations and overhangs, foundations for pole mounted commercial signage, and other permanent structures and related foundations shall be strictly prohibited. With the specific prior written approval of the GRANTEE, the limited use of trees, walls, foundations and mounded landscaping may be utilized within such area by the GRANTOR.

The GRANTOR shall not have the right to grant other easements to other parties without the prior written consent of the GRANTEE. In the event that the GRANTEE performs emergency related repairs, unscheduled infrastructure adjustment activities, or scheduled community improvement projects within said Easement, the GRANTEE shall be responsible for restoring the disturbed portions of all existing County approved and permitted improvements in as good or better condition than existed prior to the disturbance activity by the GRANTEE

IN WITNESS WHEREOF, the GRANTOR has caused these presents to be executed in its name by its proper officers thereunto duly authorized, and its corporate seal to be affixed, the day and year first above written.

Polk County

Board of County Commissioners

Agenda Item R.45. 11/7/2023

SUBJECT

Accept instruments for additional right-of-way along Horseshoe Creek Road, Finney Road, Pipkin Creek Road, and Lake Alfred-Polk City Road as requested through the Development Review Process. (No fiscal impact)

DESCRIPTION

As a result of proposed developments adjacent to a County roadways, the County, through its Development Review Process has requested additional right-of-way in order to bring the rights-of-way adjacent to the subject sites up to current road classification standards. The owners have executed and delivered instruments to Polk County for the additional rights-of-way.

Accepting the following instruments will give the County the right-of-way needed to upgrade the existing rights-of-way to meet current road classification standards.

1. Quit Claim Deed from ADH Rollins Court, LLC, for additional right-of-way along Horseshoe Creek Road and along Finney Road in conjunction with a proposed residential development. The subject rights-of-way lie in Section 11, Township 27 South, Range 27 East.

2. Quit Claim Deed from Parkway Partners I, LLC, for additional right-of-way along Pipkin Creek Road in conjunction with a proposed residential development. The subject right-of-way lies in Section 03, Township 29 South, Range 23 East.

3. Quit Claim Deed from Pulte Home Company, LLC, for additional right-of-way along Lake Alfred -Polk City Road in conjunction with a proposed residential development. The subject right-of-way lies in Section 17, Township 27 South, Range 26 East.

RECOMMENDATION

Request Board accept the afore-mentioned Quit Claim Deeds.

FISCAL IMPACT

There is no fiscal impact associated with this agenda item.

QUIT CLAIM DEED

THIS INDENTURE, made this 12 day of October, 2023, between **PULTE HOME COMPANY, LLC,** a Michigan limited liability company, whose address is 3350 Peachtree Road Northeast, Suite 1500, Atlanta, Georgia 30326, Grantor, and **POLK COUNTY**, a political subdivision of the State of Florida, whose address is P.O. Box 988, Bartow, Florida 33831, Grantee.

(Wherever used herein the terms "Grantor" and "Grantee" may be singular or plural and/or natural or artificial, whenever the context so requires, and include all the parties to this instrument and the heirs, legal representatives and assigns of individuals, and the successors and assigns of business entities.)

WITNESSETH, that the Grantor, for and in consideration of the sum of One Dollar, to it in hand paid by the said Grantee, the receipt whereof is hereby acknowledged, does hereby remise, release, quit claim, and convey unto the Grantee, its successors and assigns all right, title, interest, claim, and demand which the Grantor has in and to the following described land, situate, lying and being in the County of Polk, State of Florida, to-wit:

SEE EXHIBIT "A"

TO HAVE AND TO HOLD THE SAME, together with all and singular the appurtenances thereto belonging or in anywise incident or appertaining, and all the estate, right, title, interest, and claim whatsoever of the said Grantor, in law or in equity to the only proper use, benefit, and behoove of the said Grantee, its successors and assigns forever.

[SIGNATURE PAGE FOLLOWS]

[REMAINDER OF PAGE INTENTIONALLY LEFT BLANK]

IN WITNESS WHEREOF, the Grantor has caused these presents to be duly executed in its name the date first above written.

Signed, Sealed and Delivered in the presence of:

Agenda Item R.46. 11/7/2023

SUBJECT

SET HEARING to Consider Adopting a Resolution Allowing for the Installation of Traffic Calming Devices (Speed Humps) on Fifth Street West, Near Winter Haven. (Suggested Hearing Date: Tuesday, November 21, 2023, at 9:30 a.m.) (No fiscal impact)

DESCRIPTION

The Board of County Commissioners has a policy that allows for the installation of traffic calming devices on certain County roads, provided they meet the criteria set forth in the policy.

An area resident approached the County with a request to install traffic calming devices on Fifth Street West. Fifth Street West is located in the Wahneta area of Winter Haven area in S-17, T-29S, R -26E, and is classified as a Local Residential roadway.

Staff conducted traffic studies on Fifth Street West, as outlined in FS 316.189, and determined that the roadway met the Policy criteria based on traffic speed and volume. Staff subsequently distributed ballots to affected homeowners and received a favorable vote from the required percentage of that population.

Per Board policy, once requirements are met, the public will have an opportunity to address the Board of County Commissioners before traffic calming devices are approved.

RECOMMENDATION

Request Board set a public hearing date to consider adopting a Resolution allowing for the installation of traffic calming devices (speed humps) on Fifth Street West. Suggested Hearing Date: Tuesday, November 21, 2023, at 9:30 a.m.

FISCAL IMPACT

There is no fiscal impact in setting the Public Hearing.

Agenda Item R.47. 11/7/2023

SUBJECT

Approve Change Order (CO) No. 4 with Hubbard Construction Company (Contractor) for temporary traffic signals needed on the West Pipkin Road Widening Project. ($181,742.75 one-time expense)

DESCRIPTION

The West Pipkin Road Widening Project is in the Roads & Drainage Division's FY 23/24 CIP and is currently under construction with an anticipated completion date of November 2024. At the time that the project was bid the construction plans did not include the details concerning the need for temporary traffic signals at Yates Rd and at Waring Rd. CO No. 4 is needed to increase Contract 2021-059 by $181,742.75 to allow the Contractor to install and then remove the temporary traffic signals as described in greater detail in "Exhibit XVII".

RECOMMENDATION

Request the Board approve CO No. 4 with the Contractor at a cost of $181,742.75 for temporary traffic signals on the West Pipkin Road Widening Project.

FISCAL IMPACT

Funds are budgeted and available in the County Transportation Trust Fund.

CHANGE ORDER

PROJECT: West Pipkin Road Widening
BID NO.: 21-529

CHANGE ORDER NUMBER: 4
CONTRACT NO.: 2021-059

CONTRACTOR: Hubbard Construction Company

POLK COUNTY
BOARD OF COUNTY COMMISSIONERS

BARTOW, FLORIDA 33830

ARCHITECT/ENGINEER: Karim Shalaby, P.E., AECOM

DESCRIPTION OF CHANGE ORDER: The West Pipkin Road project plans did not include details for the temporary signals needed for traffic control phasing at Yates Rd and Waring Rd. The work includes installing and removing the temporary signalization at the intersections. The plans were prepared by PGA. This additional work is being added to Hubbard's contract for widening W Pipkin Road. Polk County accepts Hubbard's proposal of $181,742.75 to do this work.

Contract is changed as follows: Original contract amount is increased by $181,742.75.

ARCHITECT/ENGINEER: _____

Date: 10/17/2023 Signature

Not valid until signed by the County and Contractor.

Original Contract Sum	$42,176,882.10
Net change by previously authorized Change Orders	$1,822,488.21
Contract Sum prior to this Change Order	$43,999,370.31
Contract Sum will be **increased** by this Change Order in the amount of	$181,742.75
New Contract Sum including this Change Order will be	$44,181,113.06
Contract Time will be increased by 0 days.	
Date of substantial Completion as of the date of this Change Order therefore is	10/31/2024*

*This includes 38 weather days which have been granted as of 08/25/2023 and 10 Days added for AAR 4 for Curb inlet deficiency

The above changes are accepted by:

Agenda Item R.48. 11/7/2023

SUBJECT

Approve Amendment No.1 to the Interlocal Agreement (ILA) with the Tohopekaliga Water Authority (TOHO) for the Lake Wilson Road Widening Project. ($145,943.68 one-time expense)

DESCRIPTION

On March 15, 2022, the Board approved an Interlocal Agreement with TOHO for the Lake Wilson Road Widening Project. TOHO elected to utilize the County's Road Contractor, Watson Civil, Inc., to complete the relocation work to their water system (30" Watermain and 36" Reclaimed Watermain). TOHO's original costs for the utility work are broken down as follows: $2,118,400.00 in construction costs, $211,840.00 as contingency funds and $199,256.10 for construction engineering and inspection (CEI) services to be provided by Polk County through our contract with AE Engineering, Inc. Currently, TOHO has reimbursed the County $1,000,000.00 and $1,317,656.10 for a total of $2,317,656.10 out of the $2,529,496.10 maximum.

During construction changes to the TOHO work were needed to avoid existing utilities along CR 532. The original $211,840.00 in contingency funds has been allocated. Amendment #1 to the Agreement is needed to raise the contingency funds by$145,943.68 for a total maximum of $357,783.68. Approval of this Agreement will allow the County's Road Contractor to complete all of the required relocations to TOHO's utility systems.

RECOMMENDATION

Request the Board to approve and authorize the Chairperson to execute Amendment No. 1 to the Interlocal Agreement with the Tohopekaliga Water Authority for the Lake Wilson Road Widening Project.

FISCAL IMPACT

Approval of this Interlocal Agreement will require TOHO to reimburse the County for TOHO's relocation work performed by the County. The total cost TOHO shall be obligated to pay for this ILA is increased by $145,943.68 for a total of $2,675,439.78. Funding for this increase is budgeted in the Transportation Impact Fee District C Fund.

FIRST AMENDMENT
TO
INTERLOCAL AGREEMENT
BETWEEN POLK COUNTY, FLORIDA
AND TOHOPEKALIGA WATER AUTHORITY
RELATING TO LAKE WILSON ROAD
UTILITIES ADJUSTMENT PROJECT

THIS FIRST AMENDMENT ("First Amendment") is entered into by and between Polk County, Florida a political subdivision of the State of Florida, 330 West Church Street, Bartow, Florida 33830 (the "COUNTY") and the Tohopekaliga Water Authority, an independent special district established and created pursuant to Chapter 189, Florida Statutes by special act of the Florida Legislature, 951 Martin Luther King Blvd., Kissimmee, Florida 34741 ("TOHO"). The COUNTY and TOHO may be individually referred to as a "Party" and collectively as the "Parties."

WHEREAS, the Parties entered into that certain interlocal agreement, a copy of which was recorded in the Official Records for Polk County, Florida at OR Book 12204 / Pages 2188 – 2207 and in the Official Records for Osceola County, Florida at OR Book 6195, Page 2090 (the "Interlocal Agreement"); and

WHEREAS, in accordance with the terms and conditions of the Interlocal Agreement, TOHO agreed to relocate those portions of the Utility Improvements, as more specifically described in the Interlocal Agreement; and

WHEREAS, due to unforeseen circumstances, the estimated costs for the Utility Improvements, as originally set forth in Section 4 of the Interlocal Agreement, have changed; and

WHEREAS, the Parties have mutually agreed to enter into this First Amendment to revise the costs for TOHO's Utility Improvements to increase the contingency, as more specifically set forth herein, to address unforeseen conditions.

NOW, THEREFORE, in consideration of the terms, conditions, promises, covenants, and payment hereinafter set forth, the Parties hereby agree as follows:

SECTION 1.
Each of the above stated recitals are declared to be true and correct and are incorporated into this First Amendment as if fully set forth hereafter.

SECTION 2.

Section 4 of the Interlocal Agreement is hereby repealed in its entirety and replaced to read as follows:

"SECTION 4.

Based on the low bid of the Proposed Contractor, as defined in Section 5, the cost of construction of the Utility Improvements are estimated to be TWO MILLION, ONE HUNDRED EIGHTEEN THOUSAND, FOUR HUNDRED DOLLARS ($2,118,400.00). With the allowance of a 16.89% contingency ($357,783.68) and a pro rata share of the CEI costs ($199,256.10), TOHO shall be obligated to pay up to, but not exceeding, TWO MILLION, SIX HUNDRED SEVENTY-FIVE THOUSAND, FOUR HUNDRED THIRTY-NINE DOLLARS AND 78/100 ($2,675,439.78), except as specifically provided for in Section 5. The COUNTY agrees to provide payment to the contractor for Utility Improvement work performed under this Interlocal Agreement.

TOHO agrees that it will furnish the COUNTY with an advance deposit in the amount of ONE MILLION DOLLARS ($1,000,000.00), no more than 30 days following the Effective Date. Within 30 days of TOHO's receipt of notice of the completion of the PCU Sub-Project from the COUNTY, TOHO agrees to furnish the COUNTY with a second deposit to include the remainder of the cost of construction in the amount of ONE MILLION, ONE HUNDRED EIGHTEEN THOUSAND, FOUR HUNDRED DOLLARS ($1,118,400.00), plus a the pro rata share of the CEI costs in the amount of ONE HUNDRED NINETY-NINE THOUSAND, TWO HUNDRED FIFTY-SIX DOLLARS AND 10/100 ($199,256.10) for a total amount of ONE MILLION, THREE HUNDRED SEVENTEEN THOUSAND, SIX HUNDRED FIFTY-SIX DOLLARS AND 10/100 ($1,317,656.10). TOHO agrees to hold contingency funds in the amount of THREE HUNDRED FIFTY-SEVEN THOUSAND, SEVEN HUNDRED EIGHTY-THREE DOLLARS AND 68/100 ($357,783.68) for use by the COUNTY upon written authorization by TOHO's Executive Director, which approval shall not be unreasonably withheld. Any changes to the Project that cause the cumulative cost of the Utility Improvements to exceed TWO MILLION, SIX HUNDRED SEVENTY-FIVE THOUSAND, FOUR HUNDRED THIRTY-NINE DOLLARS AND 78/100 ($2,675,439.78) must be approved by written amendment to this Interlocal Agreement, except as specifically provided for in Section 5.

Upon 45 days of completion of the Utility Improvements, the COUNTY must provide TOHO with a certificate providing proof of payment for all Utility Improvements work. No later than 30 days after acceptance of the Utility Improvements, the COUNTY shall reimburse TOHO any portion of the TWO MILLION, ONE HUNDRED EIGHTEEN THOUSAND, FOUR HUNDRED DOLLARS ($2,118,400.00) deposit and any contingency provided to the COUNTY that was not expended on the Utility Improvements."

SECTION 3.

The changes set forth herein shall be effective upon this First Amendment being executed by both Parties.

SECTION 4.

All of the terms and conditions of the Interlocal Agreement, not otherwise revised or amended in this First Amendment, and any subsequent amendment(s) shall remain in full force and effect. To the extent of any conflict between this First Amendment and the Interlocal Agreement, the terms and conditions of this First Amendment shall prevail.

[REMAINDER OF PAGE INTENTIONALLY BLANK]

[SIGNATURES ON PAGES FOLLOWING]

IN WITNESS WHEREOF, the Parties have caused this First Amendment to be duly executed, by and through their authorized representatives, on the respective dates set forth below.

Agenda Item R.49. 11/7/2023

SUBJECT

Approve Interlocal Agreement between Polk County and the City of Davenport for Road Improvements for the Davenport - Haines City Phase 3 Resurfacing Group (Estimated $27,972.82 one-time revenue and expense)

DESCRIPTION

Polk County has scheduled and is in the process of resurfacing several roads in the vicinity of both the City of Davenport and the City of Haines City as part of the Davenport / Haines City Widening group. During the City of Davenport's process of looking at these roads, they approached County staff with an opportunity to address the resurfacing of their portion of Bargain Barn Road, approximately 300 linear feet, which adjoins Polk County's portion of Bargain Barn Road, approximately 573 linear feet, and is included on Polk County's resurfacing work plan for this group along with 14 additional road segments in the area. The total estimated cost for the resurfacing group as a whole is $1,620,548.32, of which $57,201.32 is specific to Bargain Barn Rd. The initial resurfacing estimate for the City of Davenport's portion of Bargain Barn Rd is $27,972.82 (48.9%). County staff evaluated this opportunity and determined that it was in the best interest of the County to enter into an Agreement for the County to resurface the City of Davenport's segment of Bargain Barn Rd at the same time that the County's roads are being resurfaced. The City of Davenport has approved and executed the Interlocal Agreement for the Davenport - Haines City Phase 3 Resurfacing Group, and it is now being presented to the County for review and approval/signature.

RECOMMENDATION

Approve Interlocal Agreement between Polk County and the City of Davenport for Road Improvements for Davenport - Haines City Phase 3 Resurfacing Group.

FISCAL IMPACT

Funds are available in the Roads & Drainage Millage Fund in the Pavement Management CIP.

INTERLOCAL AGREEMENT BETWEEN
POLK COUNTY AND CITY OF DAVENPORT
FOR ROAD IMPROVEMENTS FOR THE DAVENPORT / HAINES CITY PHASE 3
RESURFACING GROUP

This AGREEMENT is made and entered into by and between the City of Davenport, Florida, a municipal corporation of the State of Florida, whose address is 1 South Allapaha Avenue, Davenport, 33837 ("DAVENPORT") and Polk County, a political subdivision of the State of Florida, whose address is 330 West Church Street, Bartow, Florida 33830 ("POLK COUNTY"). DAVENPORT, and POLK COUNTY are referred to herein individually as a "Party" and collectively as the "Parties".

WITNESSETH

WHEREAS, Section 163.01, Florida Statutes, authorizes local governmental units to make the most efficient use of their powers by enabling them to cooperate with other localities on a basis of mutual advantage and thereby to provide services and facilities in a manner that will accord best with geographic, economic, population, and other factors influencing the needs and development of local communities; and

WHEREAS, POLK COUNTY and DAVENPORT are authorized under Chapter 163, Florida Statutes, to enter into an Interlocal Agreement to make the most efficient use of their respective powers, resources, authorities and capabilities by enabling them to cooperate on the basis of mutual advantage and thereby provide the services provided for herein in a manner that will best utilize existing resources, powers and capabilities available to each of them; and

WHEREAS, POLK COUNTY and DAVENPORT desire to resurface Bargain Barn Road as part of the Davenport / Haines City Phase 3 Resurfacing Group and the total costs incurred by POLK COUNTY to resurface the Davenport / Haines City Phase 3 Resurfacing Group will be divided between POLK COUNTY and DAVENPORT as described in Section 2.3.

NOW THEREFORE, in consideration of the mutual terms, covenants and conditions contained herein, and other good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, it is mutually agreed as follows:

ARTICLE I

RECITALS AND DEFINITIONS

1.1 **Recitals.** The foregoing recitals are incorporated herein by reference as if recited in full and serve as a factual stipulation upon which the Parties agree is the basis for this Agreement.

1.2 **Definitions.** The capitalized terms contained herein shall be defined as set forth in the above recitals or as specified in the following paragraphs.

ARTICLE II

AGREEMENT

2.1 **Road Improvements.** DAVENPORT and POLK COUNTY agree that the following improvements are needed on Bargain Barn Road as part of the Davenport / Haines City Phase 3 Resurfacing Group. The Davenport / Haines City Phase 3 Resurfacing Group will continue to be two-lane road segments with the following improvements:

(1) Mill 1.5" of existing asphalt and pave 1.5" using SP-12.5 asphalt mix (structural course) followed by 1.25" of SP-9.5 asphalt mix (surface course).
(2) Restripe pavement markings.

(collectively, the "Road Improvements"). The Road Improvements, as described above in this Sub-Section 2.1, are generally depicted in Exhibit "A."

2.2 **Road Improvements Responsibility and Timing.** POLK COUNTY shall obtain any necessary permits and construct and fund the Road Improvements as described in Section 2.1.

2.3 **Road Improvements Reimbursement.** The original estimate for the Road Improvements is ONE MILLION, SIX HUNDRED and TWENTY THOUSAND, FIVE HUNDRED and FORTY-EIGHT DOLLARS, and THIRTY-TWO cents ($1,620,548.32) ("Estimated Costs"). Actual construction costs incurred for the Road Improvements will differ slightly from that of the Estimated Costs. Of the Actual Costs total, DAVENPORT shall be responsible for an estimated TWENTY-SEVEN THOUSAND, NINE HUNDRED and TWENTY-SEVEN DOLLARS, and EIGHTY-TWO cents ($27,927.82) (Estimated) and POLK COUNTY shall be responsible for an estimated ONE MILLION, FIVE HUNDRED and NINETY-TWO THOUSAND, SIX HUNDRED and TWENTY DOLLARS, and FIFTY cents ($1,592,620.50) (Estimated). Final reimbursement by DAVENPORT to POLK COUNTY shall be determined based on the Actual Costs incurred for resurfacing their respective road segment. DAVENPORT shall reimburse POLK COUNTY for its respective share no later than 30 days from receiving an invoice from POLK COUNTY. The invoice shall include written documentation of the Road Improvements.

ARTICLE III

MISCELLANEOUS PROVISIONS

3.1 **Notice.** Whenever a Party desires to give notice to any other Party, it must be given by written notice delivered: (i) via registered or certified United States mail, postage prepaid with return receipt requested or (ii) via nationally recognized overnight delivery service and addressed to the Party for whom it is intended at the place last specified by each Party. Notices hereunder may also be delivered by counsel. The place for giving notice shall remain such until it is changed by written notice delivered in compliance with the provisions of this Section. For the present, the Parties designate the following as the respective places for giving of notice:

3.1.1 Notices to POLK COUNTY shall be:

Chairman
Polk County Board of County Commissioners
P.O. Box 9005

Bartow, Florida 33830With a copy to:

County Attorney
Polk County Board of County Commissioners
P.O. Box 9005, Drawer AT01
Bartow, Florida 33830

With a copy to:

Division Director
Polk County Roads and Drainage Division
P.O. Box 9005, Drawer TR01
Bartow, Florida 33830

3.1.2 Notices to DAVENPORT shall be:

City Manager
City of Davenport
1 South Allapaha Avenue
Davenport, FL 33837

With a copy to:

Public Services Director
City of Davenport Public Services
1 South Allapaha Avenue
Davenport, FL 33837

3.2 **Severability.** If any section, phrase, sentence or portion of this Agreement is, for any reason, held to be invalid by any court of competent jurisdiction, such portion shall be deemed as a separate, distinct, and independent provision, and such holding shall not affect the validity of the remaining portions hereof.

3.3 **Effective Date.** This Agreement shall become effective on the day in which POLK COUNTY records this Agreement in the public records of Polk County, and this recordation shall occur no later than 10 days after this Agreement is executed by all Parties. If this Agreement is not recorded within 10 days, the Effective Date shall be 10 days after the last Party executes this Agreement.

3.4 **Days.** The term days in this Agreement shall mean calendar days unless otherwise so noted. If a date for performance falls on a Saturday, Sunday or legal State of Florida or federal holiday, the date for performance shall be extended until the next calendar day that is not a Saturday, Sunday or federal holiday.

3.5 **Default and Remedy.** If any Party materially defaults in its obligations under this Agreement and fails to cure the same within thirty (30) days after the date the Party receives written notice of the default from a non-defaulting Party, then the non-defaulting Party shall have the right to (i) immediately terminate this Agreement by delivering written notice to the materially defaulting Party (after expiration of the foregoing cure period), and (ii) pursue any and all remedies available in law, equity, and under this Agreement (after expiration of the foregoing cure period).

3.6 **Limitation of Liability.** IN NO EVENT, SHALL ANY PARTY BE LIABLE TO ANY OTHER PARTY FOR INDIRECT, INCIDENTAL, CONSEQUENTIAL, SPECIAL, EXEMPLARY, OR PUNITIVE DAMAGES OF ANY KIND OR NATURE, INCLUDING LOSS OF PROFIT, WHETHER FORESEEABLE OR NOT, ARISING OUT OF OR RESULTING FROM THE NONPERFORMANCE OR BREACH OF THIS CONTRACT BY THE DEFAULTING PARTY WHETHER BASED IN CONTRACT, COMMON LAW, WARRANTY, TORT, STRICT LIABILITY, CONTRIBUTION, INDEMNITY OR OTHERWISE.

3.7 **Waiver.** A waiver by any Party of any breach of this Agreement shall not be binding upon the waiving Party unless such waiver is in writing. In the event of a written waiver, such a waiver shall not affect the waiving Party's rights with respect to any other or further breach of this Agreement. The making or acceptance of a payment by any Party with the knowledge of any other Party's existing default or breach of the Agreement shall not waive such default or breach, or any subsequent default or breach of this Agreement, and shall not be construed as doing so.

3.8 **Attorneys' Fees and Costs.** Each Party shall be responsible for its own legal and attorneys' fees, costs and expenses incurred in connection with any dispute or any litigation arising out of, or relating to this Agreement, including attorneys' fees, costs, and expenses incurred for any appellate or bankruptcy proceedings.

3.9 **Modification or Extension.** This Agreement may only be modified or extended in time by a written amendment properly executed by the Parties. No oral modifications will be effective or binding.

3.10 **Integration.** This Agreement sets forth the entire agreement between the Parties with respect to its subject matter and that there are no promises or understandings other than those stated herein. This Agreement supersedes all prior agreements, contracts, proposals, representations, negotiations, letters, or other communications between the Parties pertaining to the construction of the Road Improvements, whether written or oral.

3.11 **Counter parts.** This Agreement may be executed in multiple counterparts each of which shall be an original, but which collectively shall form a single agreement.

3.12 **Governing Law and Venue.** This Agreement and the rights and obligations of the Parties hereunder shall be interpreted, governed by, construed under, and enforced in accordance with the applicable laws of the State of Florida, and the ordinances, rules and regulations of Polk County including, but not limited to the Polk County Comprehensive Plan, Land Development Code and Utility Code, and any amendments thereto in effect as of the Effective Date of this Agreement. The Parties hereby consent to the sole and exclusive jurisdiction and venue for any action relating to the construction, interpretation, or enforcement of this Agreement to be in or for the Tenth Judicial Circuit, in Polk County, Florida.

3.13 **Binding Effect.** This Agreement shall be binding upon and inure to the benefit of all successors and/or assigns of the Parties hereto.

3.14 **Headings.** Headings in this Agreement are for convenience only and shall not be used to interpret or construe its provisions.

3.15 **Termination.** Prior to start of construction of the Road Improvements, any Party may terminate this Agreement, with or without cause, with 30 days written notice to the other

Parties. After the start of construction of the Road Improvements, this Agreement can only be terminated in accordance with Section 3.5 of this Agreement.

3.16 **Recordation.** POLK COUNTY shall record this Agreement in the public records of Polk County. POLK COUNTY shall pay the initial costs to record this Agreement and any further costs to record subsequent changes or modifications to this Agreement. Any Party may request that a memorandum of this Agreement be recorded, provided that appropriate provisions are included for timely release of record of any such memorandum once this Agreement has expired.

IN WITNESS WHEREOF, the Parties, through their duly authorized representatives, have made and executed this Agreement on the date indicated below.

Polk County

Board of County Commissioners

Agenda Item R.50. 11/7/2023

SUBJECT

Adopt a Resolution Setting Parking Restrictions on Country Club Road North, near Winter Haven ($521.72 one-time expense)

DESCRIPTION

The Roads & Drainage Division received a request from an area resident to restrict parking along Country Club Road North. Country Club Road North is located in the Winter Haven area in S-14, T-28S, R-26E, and is classified as an Urban Collector road.

Staff conducted parking studies on Country Club Road North to analyze this request and determined that parents of bus riders are parking on the shoulders, creating visibility issues for residents.

Pursuant to FS 316.008, the Board of County Commissioners is vested with the authority to set parking restrictions on County roadways. Additionally, the posting of the requested restrictions will promote public safety and assist the Polk County Sheriff's Office in their enforcement efforts.

To comply with statutory requirements, it is necessary for the Board to adopt a Resolution establishing the parking restrictions.

RECOMMENDATION

Request Board adopt the associated Resolution to establish parking restrictions for Country Club Road North. Estimated cost for installation of the signs is $521.72.

FISCAL IMPACT

Funds are budgeted in the FY 23/24 Transportation Millage Fund.

RESOLUTION NO.: _____

WHEREAS, the Polk County Roads & Drainage Division, conducted parking studies on the following County maintained Urban Collector road:

Country Club Road North (Road Number 861402); from Buckeye Loop Road to Lake Hamilton Drive West, Located in S-14, T-28S, R-26E, and

WHEREAS, said studies were made in accordance with the procedures established by the State of Florida Department of Transportation, and said studies verified that the parking of vehicles in this location creates visibility concerns, and

WHEREAS, under the laws of the State of Florida, the Board of County Commissioners is vested with the authority to restrict parking on County maintained roads.

NOW, THEREFORE, BE IT RESOLVED that the Polk County Roads & Drainage Division is herewith directed to cause Country Club Road North to be posted “No Parking, Stopping or Standing” on the north side from 400’ west of Broad Street to 175’ east of Broad Street.

DATED this 7th day of November 2023.

Agenda Item R.51. 11/7/2023

SUBJECT

Adopt a Resolution Setting Parking Restrictions on Tank Road, near Davenport ($2,321.77 one-time expense)

DESCRIPTION

The Roads & Drainage Division received an internal request to restrict parking along Tank Road. Tank Road is located in the Davenport area in S-24, T-25S, R-26E, and is classified as an Urban Collector road.

Staff conducted parking studies on Tank Road to analyze this request and determined that multiple vehicles are parking on the shoulders, creating visibility and maintenance issues.

Pursuant to FS 316.008, the Board of County Commissioners is vested with the authority to set parking restrictions on County roadways. Additionally, the posting of the requested restrictions will promote public safety and assist the Polk County Sheriff's Office in their enforcement efforts.

To comply with statutory requirements, it is necessary for the Board to adopt a Resolution establishing the parking restrictions.

RECOMMENDATION

Request Board adopt the associated Resolution to establish parking restrictions for Tank Road. Estimated cost for installation of the signs is $2,321.77.

FISCAL IMPACT

Funding is budgeted in the FY 23/24 Transportation Millage Fund.

Agenda Item R.52. 11/7/2023

SUBJECT

Adopt a Resolution Setting Speed Limit on Hutchins Road, near Fort Meade. ($121.32 one-time expense)

DESCRIPTION

The Roads & Drainage Division received a request from an area resident to reduce the speed limit on Hutchins Road. In researching the request, the Roads & Drainage Division discovered a Resolution establishing a speed zone of 45 M.P.H., adopted by the Board on May 18, 1982, which is attached to the proposed Resolution as Exhibit “A.” Hutchins Road is located in the Fort Meade area in S-18, T-32S, R-25E, and is classified as a Rural Minor Collector road.

Staff conducted traffic studies as outlined in FS 316.189, and investigated the five-year crash history. Based on the research, it was determined that a posting of 35 M.P.H. is reasonable for this road. To comply with statutory requirements, it is necessary for the Board to adopt a Resolution establishing the proposed speed limit.

RECOMMENDATION

Request Board adopt the associated Resolution to establish the proposed speed zone for Hutchins Road. Cost for installation of signs is estimated at $131.32.

FISCAL IMPACT

Funds are budgeted in the FY 23/24 Transportation Millage Fund.

RESOLUTION NO.: _____

WHEREAS, the Board of County Commissioners, by adopting a Resolution dated May 18, 1982, attached hereto as Exhibit “A”, caused Hutchins Road (referenced in Exhibit “A” as Hutchinson Road), a County maintained Rural Minor Collector road, to be posted 45 M.P.H., and

WHEREAS, the Polk County Roads & Drainage Division has since conducted speed studies for Hutchins Road (Road Number 251802); from Old Bowling Green Road to Peeples Road. Located in S-18, T-32S, R-25E, and

WHEREAS, said studies were made in accordance with the procedures established by the State of Florida Department of Transportation, and said studies verified that modified a posting of 35 M.P.H.is reasonable, and

WHEREAS, under the laws of the State of Florida, the Board of County Commissioners is vested with the authority to establish speed limits on County maintained roads,

NOW, THEREFORE, BE IT RESOLVED that the Polk County Roads & Drainage Division is herewith directed to cause Hutchins Road (referenced in Exhibit “A” as Hutchinson Road) to be posted 35 M.P.H., from Old Bowling Green Road to Peeples Road. Further, the Resolution dated May 18, 1982, attached hereto as Exhibit “A”, is hereby repealed.

DATED this 7th day of November 2023.

Exhibit "A"

R E S O L U T I O N

WHEREAS, the Polk County Engineer, through the Polk County Traffic Engineering Department, has made a speed study on Hutchinson Road, west from Old Bowling Green Road, and

WHEREAS, said study was made in accordance with procedures established by the State of Florida, Department of Transportation, and

WHEREAS, under the laws of the State of Florida, the Board of County Commissioners is vested with the authority to establish speed limits on County maintained roads,

NOW, THEREFORE, BE IT RESOLVED that the County Engineer be and is herewith directed to cause said Hutchinson Road to be posted at:

Board of County Commissioners

Agenda Item R.53. 11/7/2023

SUBJECT

Approve agreements with Ardaman and Associates, Madrid Engineering Group, WSP USA, MC Squared and Universal Engineering Sciences for professional geotechnical services and construction materials testing and inspection.

DESCRIPTION

Roads and Drainage requested Procurement to solicit proposals from qualified vendors to provide professional geotechnical, construction materials testing and inspection services for Polk County.

Request for Proposal (RFP) 23-328, Professional Geotechnical Services and Construction Materials Testing was issued, and seven vendors submitted proposals. On August 8, 2023, the Board authorized staff to negotiate master service agreements with the 5 firms that were elevated to interviews. These firms are as follows: Ardaman and Associates, Madrid Engineering Group, WSP USA, MC Squared and Universal Engineering Sciences.

Attached are the master service agreements that resulted from negotiations. The term of each agreement is for a five (5) year period.

RECOMMENDATION

Request Board approve master service agreements with Ardaman and Associates, Madrid Engineering Group, WSP USA, MC Squared and Universal Engineering Sciences, for RFP 23-328, Professional Geotechnical Services and Construction Materials Testing and Inspection.

FISCAL IMPACT

Funds are budgeted and available within each County Division’s budget that utilize these services.

MASTER CONSULTING AGREEMENT

THIS AGREEMENT is entered into as of the Effective Date (defined in Section 1.1 below) by and between Polk County (the "County"), a political subdivision of the State of Florida, situated at 330 W. Church Street, Bartow, Florida 33830, and Ardaman & Associates, Inc. (the "Consultant") a Florida corporation, located at 1525 Centennial Boulevard, Bartow, Florida 33830, and whose Federal Employer Identification Number is: 59-2984496.

WHEREAS, County owns and operates a variety of public facilities and improvements; and,

WHEREAS, County requires certain professional services in connection with the performance of certain professional geotechnical services and construction material testing and inspection for all Divisions in the County; and

WHEREAS, the County has solicited for these services via RFP 23-328, an advertised request for proposals (the "RFP"), and has received numerous responsive proposals thereto; and

WHEREAS, pursuant to the RFP, the County has selected the Consultant and the Consultant remains agreeable to providing the County the professional services described herein, and the Consultant represents that it is capable and prepared to do so according to the terms and conditions stated herein.

NOW, THEREFORE, in consideration of the mutual understandings and covenants set forth herein, the parties hereby agree, as follows:

1.0 **Term**

1.1 This Agreement shall take effect on the date of its execution by the County (the "Effective Date").

1.2 The term of this Agreement shall be for a five (5) year time period, commencing upon the Effective Date and remaining in full force and effect thereafter, unless otherwise sooner terminated as provided herein.

2.0 **Services to Be Performed by Consultant**

2.1 Consultant shall perform the services as generally described in (i) the County's Request for Proposals RFP 23-328, to include all attachments and addenda, and (ii) the Consultant's responsive proposal thereto (collectively, (i) and (ii) are "RFP 23-328") all of which are incorporated into this Agreement by this reference, attached hereto as a composite Exhibit "A" and made a part of

this Agreement, and as may be further specifically designated and authorized by the County, in writing (collectively, the "Services"). Such authorization will be referred to as a Consultant Services Authorization ("CSA") or a Contract Purchase Order ("CPO") and all provisions of this Agreement apply to the CSA/CPO with full force and effect as if appearing in full within each CSA/CPO. Each CSA/CPO will set forth a specific Scope of Services, maximum limit of compensation, schedule, liquidated damages, and completion date, and shall become effective upon the due execution.

2.2 The Consultant is not authorized to undertake any project without a duly executed CSA/CPO, which shall specify the work to be performed and the time to be completed. Consultant recognizes that the County may employ several different Consultants to perform the work described and that the Consultant has not been employed as the exclusive agent to perform any such services.

2.3 When the Consultant and the County enter into a CSA/CPO where the term of the CSA/CPO expires on a date that is later than the date that this Master Consulting Agreement expires, the Consultant and the County agree that the terms of this Agreement and any amendments, attachments or provisions thereof are automatically extended until the expiration (including any extension or amendment thereto) or full completion of the requirements of the CSA/CPO have been performed. Cancellation by the County of any remaining work prior to the full completion of the requirements of the CSA/CPO shall cause the terms of this Agreement to terminate at the same time. This provision only applies when the expiration of the CSA/CPO extends beyond the expiration of this Agreement. It does not apply when a CSA/CPO expires or is cancelled prior to the expiration of this Agreement.

3.0 Compensation

3.1 General

3.1.1 County shall pay Consultant in accordance with the "Ardaman & Associates Schedule of Rates", which is attached hereto as Exhibit "B", and incorporated by reference as part of this Agreement. The fee schedule identifies all job classifications, which will perform billable services pursuant to this Agreement and the fee for each job classification. Performance of work by personnel in job classifications not listed on the Ardaman & Associates Schedule of Rates and will result in nonpayment for such services.

3.1.2 Upon the mutual agreement of the parties, the Fee Schedule, as set out in Exhibit "B" may be adjusted by a written Amendment to the Master Consulting Agreement annually beginning one year from the Effective Date of this Agreement. Such amendment must be executed by both parties and shall operate prospectively only and shall not alter fee schedules for CSA's/CPO's in effect at the time of the amendment.

3.1.3 Compensation may be negotiated as a not to exceed price or a lump sum amount on a per-project basis, on each individual CSA/CPO.

3.1.4 Invoices must reference the applicable CSA/CPO number, using an invoice form approved by the County Auditor.

3.1.5 Each individual invoice shall be due and payable forty-five (45) days after receipt by the County of correct, fully documented, invoice, in form and substance satisfactory to the County with all appropriate cost substantiations attached. All invoices shall be delivered, as applicable based on the particular project:

Polk County Roads and Drainage Division
3000 Sheffield Road,
Winter Haven, FL 33880
Attention: Director

3.1.6 In order for both parties herein to close their books and records, the Consultant will clearly state "Final Invoice" on the Consultant's final/last billing to the County. This certifies that all services have been properly performed and all charges and costs have been invoiced to the County. Since this account will thereupon be closed, any and other further charges if not properly included on this final invoice are waived by the Consultant.

3.1.7 Payment of the final invoice shall not constitute evidence of the County's acceptance of the work

3.1.8 Invoices shall be accompanied by time and task records for all billable hours appearing on the invoice. Additional documents may be requested by County and, if so requested, shall be furnished by Consultant to County Auditor's satisfaction.

3.1.9 By submission of an invoice, the project manager or designated payroll officer is deemed to be attesting to the correctness and accuracy of time charges and requested

reimbursements.

3.1.10 Pursuant to Section 3.1.4, if a not to exceed fee is negotiated, invoices shall be accompanied by time and task records for all billable hours appearing on the invoice. Alternatively, if a lump sum amount is negotiated, invoices shall be made upon the completion of each phase of the work in proportion to the Services performed, as specifically set forth in the applicable CSA or CPO. Additional documentation may be requested by the County and, if so requested, shall be furnished by the Consultant to the County Auditor's satisfaction.

3.2 Reimbursable

3.2.1 All requests for payment of out-of-pocket expenses eligible for reimbursement per the negotiated CPO or CSA shall be reimbursed in accordance with the County's Reimbursable Schedule, Exhibit "C", and include copies of paid receipts, invoices or other documentation acceptable to the County's Auditor. Such documentation shall be sufficient to establish that the expense was actually incurred and necessary in the performance of the Scope of Work described in this Agreement, CSA, or CPO.

3.2.2 Reimbursable Expenses are the actual, pre-approved, expenses incurred directly in connection with the applicable CSA or CPO, and include:

Overnight Deliveries
Reproduction
Sub-Consultant
Long Distance Telephone Calls (excluding Florida cities located outside the boundaries of Polk County)

3.2.3 Mileage and associated travel costs shall be reimbursed in accordance with F.S. 112.061 and County policy for pre-approved out-of-county travel (excluding travel from home offices located outside of Polk County to the Polk County line).

3.2.4 All assets, i.e. durable goods, purchased as reimbursable expenses become the property of the County upon completion of the work for which the asset was utilized. All such assets must be surrendered by delivery to the Polk County Roads and Drainage Division offices upon demand, termination of the Agreement, or the conclusion of the project, whichever occurs first.

3.2.5 Consultant shall maintain a current inventory of all such assets.

4.0 **Insurance**

4.1 General Provisions

4.1.1 Consultant shall maintain, at all times, the following minimum levels of insurance and shall, without in any way altering their liability, obtain, pay for and maintain insurance for the coverages and amounts of coverage not less than those set forth below and provide the County with a Certificate of Insurance and an opportunity to inspect a certified copy of each policy applicable to this Agreement followed thereafter by an annual Certificate of Insurance satisfactory to the County to evidence such coverage before any work commences.

4.1.2 The County shall be named as an additional insured on all Consultant policies related to the project, excluding professional liability and worker's compensation. The Commercial General Liability and Worker's Compensation Liability policies shall contain a waiver of subrogation in favor of Polk County. All insurance coverage shall be written with an insurer having an A.M. Best Rating of a least the "A" category and size category of VIII.

4.1.3 The Consultant's self-insured retention or deductible per line of coverage shall not exceed $25,000.00 without the permission of the County.

4.1.4 If there is any failure by the Consultant to comply with the provisions of this section, the County may, at its option, on notice to the Consultant, suspend the work for cause until there is full compliance.

4.1.5 County may, at its sole discretion, purchase such insurance at Consultant's expense provided that the County shall have no obligation to do so and if the County shall do so, it shall not relieve Consultant of its obligation to obtain insurance.

4.1.6 The Consultant shall not be relieved of or excused from the obligation to obtain and maintain such insurance amount and coverages.

4.1.7 All Consultants' subconsultants shall be required to include County and Consultant as additional insured on their General Liability Insurance policies.

4.1.8 In the event that subconsultants used by the Consultant do not have insurance, or do not meet the insurance limits, Consultant shall indemnify and hold harmless the County

for any claim in excess of the subconsultants' insurance coverage.

4.1.9 The Consultant shall not commence work under this Agreement until all insurance required as stated herein has been obtained and such insurance has been approved by the County.

4.2 Comprehensive Automobile Liability Insurance. $1,000,000.00 combined single limit of liability for bodily injuries, death and property damage resulting from any one occurrence, including all owned, hired, and non-owned vehicles.

4.3 Commercial General Liability. $1,000,000.00 combined single limit of liability for bodily injuries, death and property damage, and personal injury resulting from any one occurrence, including the following coverages:

4.3.1 Premises and Operations:

Broad Form Commercial General Liability Endorsement to include Blanket Contractual liability (specifically covering, but not limited to, the contractual obligations assumed by the Firm); Personal Injury (with employment and contractual exclusions deleted); and Broad Form Property Damage coverage.

4.3.2 Independent Contractors:

Delete Exclusion relative to collapse, explosion and underground; Property Damage Hazards; Cross Liability Endorsement; and Contractual liability (specifically covering, but not limited to, the contractual obligations assumed by the Firm)

4.4 Umbrella (Excess) Liability Insurance. Umbrella Liability with limits of not less than $1,000,000.00, exclusive of defense costs, to be in excess of all other coverages. Such coverage shall be at least as broad as the primary coverages above, with any excess umbrella layers written on a strict following form basis over the primary coverage. All such policies shall be endorsed to provide defense coverage obligations.

4.5 Professional Liability Insurance. $2,000,000.00 for design errors and omissions, inclusive of defense costs. Consultant shall be required to provide continuing Professional Liability Insurance to cover each project for a period of two (2) years after the project is completed. Insurance requirements may vary depending on projects as determined by the County Director of Risk

Management and Insurance. The County may require the Consultant to provide a higher level of coverage for a specific project and time frame.

4.6 Performance, Payment and Other Bonds. Consultant shall furnish Performance and Payment Bonds specific to each project if required and agreed to under the CSA or CPO for the project.

4.7 Worker's Compensation. The Consultant shall provide, pay for, and maintain worker's compensation insurance on all employees, its agents or subcontractors as required by Florida Statutes.

5.0 **Standard of Care**

5.1 Consultant has represented to the County that it has the personnel and experience necessary to perform the work in a professional and workmanlike manner.

5.2 Consultant shall exercise the same degree of care, skill, and diligence in the performance of the Services as is provided by a professional of like experience, knowledge and resources, under similar circumstances.

5.3 Consultant shall, at no additional cost to County, re-perform services which fail to satisfy the foregoing standard of care or otherwise fail to meet the requirement of this Agreement.

5.4 The Consultant warrants that all services shall be performed by skilled and competent personnel to the professional standards in the field.

6.0 **Indemnification**

6.1 General. Having considered the risks and potential liabilities that may exist during the performance of the Services and in consideration of the promises included herein, County and Consultant agree to allocate such liabilities in accordance with this Section.

6.2 Indemnification.

6.2.1 Consultant, to the extent permitted by law, shall indemnify, defend (by counsel reasonably acceptable to County) protect and hold County, and its officers, employees and agents harmless from and against any and all, claims, actions, causes of action, liabilities, penalties, forfeitures, damages, losses and expenses (including, without limitation, attorney's fees costs and

expenses incurred during negotiation, through litigation and all appeals therefrom) whatsoever including, but not limited, to those pertaining to the death of or injury to any person, or damage to any property, arising out of or resulting from (i) the failure of Consultant to comply with applicable laws, rules or regulations, (ii) the breach by Consultant of its obligations under this Agreement, (iii) any claim for trademark, patent or copyright infringement arising out of the scope of Consultant's performance or nonperformance of this Agreement, or (iv) the negligent acts, errors or omissions, or intentional or willful misconduct, of Consultant, its professional associates, its subcontractors, agents, and employees provided, however, that Consultant shall not be obligated to defend or indemnify the County with respect to any such claims or damages arising out of the County's sole negligence.

6.2.2 County review, comment and observation of the Consultant's work and performance of this Agreement shall in no manner constitute a waiver of the indemnification provisions of this Agreement.

6.2.3 Consultant agrees that it bears sole legal responsibility for its work and work product, and the work and work product of subconsultants and their employees, and/or for Consultant's performance of this Agreement and its work product(s).

6.3 Survival. Upon completion of all Services, obligations and duties provided for in this Agreement, or in the event of termination of this Agreement for any reason, the terms and conditions of this Agreement shall survive as if the Agreement were in full force and effect.

7.0 **Independent Contractor**

7.1 Consultant undertakes performance of the Services as an independent contractor and shall be wholly responsible for the methods of performance.

7.2 County shall have no right to supervise the methods used, but County shall have the right to observe such performance.

7.3 Consultant shall work closely with County in performing Services under this Agreement.

7.4 The Consultant shall not pledge the County's credit or make it a guarantor of payment or surety for any contract, debt, obligation, judgment, lien or any form of indebtedness and

shall have no right to speak for or bind the County in any manner.

7.5 Consultant further warrants and represents that it has no obligation or indebtedness that would impair its ability to fulfill the terms of this Agreement.

8.0 **Authority to Practice**

8.1 The Consultant hereby represents and warrants that it has and will continue to maintain all licenses and approvals required to conduct its business, and that it will at all times conduct its business activities in a reputable manner.

9.0 **Public Records Law**

(a) The Consultant acknowledges the County's obligations under Article I, Section 24, of the Florida Constitution and under Chapter 119, Florida Statutes, to release public records to members of the public upon request and comply in the handling of the materials created under this Agreement. The Consultant further acknowledges that the constitutional and statutory provisions control over the terms of this Agreement. In association with its performance pursuant to this Agreement, the Consultant shall not release or otherwise disclose the content of any documents or information that is specifically exempt from disclosure pursuant to all applicable laws.

(b) Without in any manner limiting the generality of the foregoing, to the extent applicable, the Contractor acknowledges its obligations to comply with Section 119.0701, Florida Statutes, with regard to public records, and shall:

(1) keep and maintain public records required by the County to perform the services required under this Agreement;

(2) upon request from the County's Custodian of Public Records or his/her designee, provide the County with a copy of the requested records or allow the records to be inspected or copied within a reasonable time at a cost that does not exceed the cost provided in Chapter 119, Florida Statutes, or as otherwise provided by law;

(3) ensure that public records that are exempt or confidential and exempt from public records disclosure requirements are not disclosed except as authorized by law for the duration of the term of this Agreement and following completion of this Agreement if the Consultant does not transfer the records to the County; and

(4) upon completion of this Agreement, transfer, at no cost, to the County all public records in possession of the Consultant or keep and maintain public records required by the County to perform the service. If the Consultant transfers all public records to the County upon completion of this Agreement, the Consultant shall destroy any duplicate public records that are exempt or confidential and exempt from public records disclosure requirements. If the Consultant keeps and maintains public records upon completion of this Agreement, the Consultant shall meet all applicable requirements for retaining public records. All records stored electronically must be provided to the County, upon request from the County's Custodian of Public Records, in a format that is compatible with the information technology systems of the County.

(c) **IF THE CONSULTANT HAS QUESTIONS REGARDING THE APPLICATION OF CHAPTER 119, FLORIDA STATUTES, TO THE**

CONTRACTOR'S DUTY TO PROVIDE PUBLIC RECORDS RELATING TO THIS AGREEMENT, CONTACT THE COUNTY'S CUSTODIAN OF PUBLIC RECORDS AT:

RECORDS MANAGEMENT LIAISON OFFICER
POLK COUNTY
330 WEST CHURCH ST.
BARTOW, FL 33830
TELEPHONE: (863) 534-7527
EMAIL: RMLO@POLK-COUNTY.NET

10.0 **Compliance with Laws**

10.1 In performance of the Services, Consultant shall comply with applicable regulatory requirements including federal, state, special district, and local laws, rules, regulations, orders, codes, criteria and standards, including those now in effect and hereafter adopted.

11.0 **Subcontracting**

11.1 The County reserves the right to accept the use of a subcontractor or to reject the selection of a particular subcontractor and to inspect all facilities of any subcontractor.

11.2 If a subcontractor fails to perform or make progress, as required by this Agreement, and it is necessary to replace the subcontractor to complete the work in a timely fashion, the Consultant shall promptly do so, subject to acceptance of the new subcontractor by the County. Failure of a Subcontactor to timely or properly perform its obligations shall not relieve Consultant of its obligations hereunder.

12.0 **Federal and State Taxes**

12.1 The County is exempt from Federal Tax and State Sales and Use Taxes. Upon request, the County will provide an exemption certificate to Consultant. The Consultant shall not be exempted from paying sales tax to its suppliers for materials to fulfill contractual obligations with the County, nor shall the Consultant be authorized to use the County's Tax Exemption Number in securing such materials.

13.0 **Public Entity Crimes**

13.1 The Consultant understands and acknowledges that this Agreement with the

County will be voidable by the County, in the event the conditions under Section 287.133, Florida Statutes applies to the Consultant, relating to conviction for a public entity crime.

14.0 **County's Responsibilities**

14.1 County shall be responsible for providing access to all County project sites, and providing information in the County's possession that may reasonably be required by Consultant, including; existing reports, studies, financial information, and other required data that are available in the files of the County.

15.0 **Termination of Agreement**

15.1 This Agreement may be terminated by the Consultant upon thirty (30) days prior written notice to the County in the event of substantial failure by the County to perform in accordance with the terms of the Agreement through no fault of the Consultant.

15.2 This Agreement may be terminated by the County with or without cause immediately upon written notice to the Consultant.

15.3 Unless the Consultant is in breach of this Agreement, the Consultant shall be paid for services rendered to the County's satisfaction through the date of termination.

15.4 After receipt of a Termination Notice, as described in this Article 15.0, and except as otherwise directed by the County, the Consultant shall:

15.4.1 Stop work on the date and to the extent specified.

15.4.2 Terminate and settle all orders and subcontracts relating to the performance of the terminated work.

15.4.3 Transfer all work in process, completed work, and other material related to the terminated work to the County.

15.4.4 Continue and complete all parts of the work that have not been terminated.

16.0 **Uncontrollable Forces (Force Majeure)**

16.1 Either party hereunder may be temporarily excused from performance if an Event of Force Majeure directly or indirectly causes its nonperformance. An "Event of Force Majeure" is defined as any event which results in the prevention or delay of performance by a party of its obligations

under this Agreement and which is beyond the reasonable control of the nonperforming party. It includes, but is not limited to fire, flood, earthquakes, storms, lightning, epidemic, war, riot, civil disturbance, sabotage, and governmental actions. Neither party shall be excused from performance if non-performance is due to forces which are reasonably preventable, removable, or remediable and which the non-performing party could have, with the exercise of reasonable diligence, prevented, removed, or remedied prior to, during, or immediately after their occurrence. Within five (5) days after the occurrence of an Event of Force Majeure, the non-performing party shall deliver written notice to the other party describing the event in reasonably sufficient detail, along with proof of how the event has precluded the non-performing party from performing its obligations hereunder, and a good faith estimate as to the anticipated duration of the delay and the means and methods for correcting the delay. The non-performing party's obligations, so far as those obligations are affected by the Event of Force Majeure, shall be temporarily suspended during, but no longer than, the continuance of the Event of Force Majeure and for a reasonable time thereafter as may be required for the non-performing party to return to normal business operations. If excused from performing any obligations under this Agreement due to the occurrence of an Event of Force Majeure, the non-performing party shall promptly, diligently, and in good faith take all reasonable action required for it to be able to commence or resume performance of its obligations under this Agreement. During any such time period, the non-performing party shall keep the other party duly notified of all such actions required for it to be able to commence or resume performance of its obligations under this Agreement.

17.0 **Governing Law and Venue**

17.1 This Agreement shall be governed in all respects by the laws of the State of Florida and any litigation with respect thereto shall be brought only in the courts of Polk County, Florida or the United States District Court, Middle District of Florida located in Hillsborough County, Florida. Each party shall be responsible for its own attorneys' fee and other legal costs and expenses.

18.0 **Non-Discrimination**

18.1 The Consultant warrants and represents that all of its employees are treated equally during employment without regard to race, color, religion, gender, age or national origin.

19.0 **Waiver**

19.1 A waiver by either County or Consultant of any breach of this Agreement shall not be binding upon the waiving party unless such waiver is in writing. In the event of a written waiver, such a waiver shall not affect the waiving party's rights with respect to any other or further breach. The making or acceptance of a payment by either party with knowledge of the existence of a default or breach shall not operate or be construed to operate as a waiver of any subsequent default or breach.

20.0 **Severability**

20.1 The invalidity, illegality, or unenforceability of any provision of this Agreement, or the occurrence of any event rendering any portion or provision of this Agreement void, shall in no way affect the validity or enforceability of any other portion or provision of the Agreement.

20.2 Any void provision shall be deemed severed from the Agreement and the balance of the Agreement shall be construed and enforced as if the Agreement did not contain the particular portion or provision held to be void.

20.3 The parties further agree to reform the Agreement to replace any stricken provision with a valid provision that comes as close as possible to the intent of the stricken provision.

20.4 The provisions of this section shall not prevent the entire Agreement from being void should a provision which is of the essence of the Agreement be determined to be void.

21.0 **Entirety of Agreement**

21.1 The County and the Consultant agree that this Agreement sets forth the entire Agreement between the parties, and that there are no promises or understandings other than those stated herein.

21.2 This Agreement supersedes all prior agreements, contracts, proposals, representations, negotiations, letters or other communications between the County and Consultant pertaining to the Services, whether written or oral.

21.3 None of the provisions, terms and conditions contained in this Agreement may be added to, modified, superseded or otherwise altered except by written instrument executed by the parties hereto.

22.0 **Modification**

22.1 This Agreement may not be modified unless such modifications are evidenced in writing signed by both County and Consultant. Such modifications shall be in the form of a written Amendment executed by both parties.

23.0 **Successors and Assigns**

23.1 County and Consultant each binds itself and its partners, successors, permitted assigns, and legal representatives to the other party to this Agreement and to the partners, successors, executors, administrators, permitted assigns, and legal representatives of such other party.

23.2 Consultant shall not assign this Agreement without the express written approval of the County by executed amendment, which approval may be withheld in the County's sole discretion.

23.3 In the event of a merger, the surviving corporation shall be substituted for the contracting party to this agreement and such substitution shall be affirmed by the County by executed amendment.

24.0 **Contingent Fees**

24.1 The Consultant warrants that it has not employed or retained any company or person, other than a bona fide employee working solely for the Consultant to solicit or secure this Agreement and that it has not paid or agreed to pay any person, company, corporation, individual or firm, other than bona fide employee working solely for the Consultant, any fee, commission, percentage, gift or any other consideration contingent upon or resulting from the award or making of this Agreement.

25.0 **Truth-In-Negotiation Certificate**

25.1 Execution of this Agreement by the Consultant shall act as the execution of a Truth-in-Negotiation certificate certifying that the wage rates and costs used to determine the compensation provided for in this Agreement are accurate, complete, and current as of the Effective Date of this Agreement.

25.2 The said rates and costs shall be adjusted to exclude any significant sums should the County determine that the rates and costs were increased due to inaccurate, incomplete or noncurrent

wage rates or due to inaccurate representations of fees paid to outside consultants. The County shall exercise its rights under this "Certificate" within one (1) year following payment.

26.0 **Ownership of Documents**

26.1 Consultant shall be required to cooperate with other consultants relative to providing information requested in a timely manner and in the specified form. Any and all documents, records, disks, original drawings, or other information shall become the property of the County for its use and/or distribution as may be deemed appropriate by the County. Consultant is not liable for any damages, injury or costs associated with the County's use or distribution of these documents for purposes other than those originally intended by Consultant.

27.0 **Access and Audits**

27.1 Consultant shall maintain adequate records to justify all charges and costs incurred in performing the work for at least three (3) years after completion of this Agreement. The County shall have access to such books, records, and documents as required in this section for the purpose of inspection or audit during normal business hours at the Consultant's place of business.

27.2 Misrepresentations of billable time or reimbursable expenses as determined by the Auditor to the Polk County Board of County Commissioners shall result in the recovery of any resulting overpayments. The County's cost of recovery shall be the sole expense of the Consultant, including accounting and legal fees, court costs and administrative expenses.

27.3 Intentional misrepresentations of billable hours and reimbursable expenses will be criminally prosecuted to the fullest extent of the law.

27.4 All invoices submitted are subject to audit and demand for refund of overpayment up to three (3) years following completion of all services related to this Agreement.

28.0 **Notice**

28.1 Any notice, demand, communication, or request required or permitted hereunder shall be in writing and delivered in person or sent by Federal-Express or by Certified Mail, postage prepaid as follows:

As to County: Roads and Drainage Division
3000 Sheffield Road
Winter Haven, FL 33880

Attention: Director

As to Consultant: Ardaman & Associates
1525 Centennial Boulevard
Bartow, FL 33830

28.2 Notices shall be effective when received at the addresses as specified above. Changes in the respective addresses to which such notice is to be directed may be made from time to time by either party by written notice to the other party. Facsimile transmission is acceptable notice effective when received, however, facsimile transmissions received (i.e.; printed) after 5:00 p.m., or on weekends or holidays, will be deemed received on the next business day. The original of the notice must additionally be mailed as required herein.

28.3 Nothing contained in this Article shall be construed to restrict the transmission of routine communications between representatives of Consultant and County.

29.0 **Service of Process**

As to County: County Attorney
County Administration Building
330 W. Church Street, 4th Floor
Bartow, Florida 33830

As to Consultant: Ardaman & Associates
1525 Centennial Boulevard
Bartow, FL 33830

30.0 **Contract Administration**

30.1 Services of Consultant shall be under the general direction of the Roads and Drainage Division Director, or their successor, who shall act as the County's representative during the term of this Agreement.

31.0 **Key Personnel**

31.1 Consultant shall notify County in the event of key personnel changes, which might affect this Agreement. To the extent possible, notification shall be made within ten (10) days prior to changes. Consultant at County's request shall remove without consequence to the County any Subcontractor or employee of the Consultant and replace him/her with another employee having the

required skill and experience. County has the right to reject proposed changes in key personnel. The following personnel shall be considered key personnel:

Name: Brian Runkles

Name: Tom Leto

Name: Brett Buxbaum

Name: Binod Chalise

Name: Rick Barlow

Name: Dan Dunham

32.0. **Annual Appropriations**

32.1 Consultant acknowledges that the County, during any fiscal year, shall not expend money, incur any liability, or enter into any agreement which, by its terms, involves the expenditure of money in excess of the amounts budgeted as available for expenditure during such fiscal year. Any agreement, verbal or written, made in violation of this subsection is null and void, and no money may be paid on such agreement. Nothing herein contained shall prevent the making of agreements for a period exceeding one year, but any agreement so made shall be executory only for the value of the services to be rendered or agreed to be paid for in succeeding fiscal years. Accordingly, the County's performance and obligation to pay under this agreement is contingent upon annual appropriation.

33.0 **Liquidated Damages**

33.1 The parties hereto agree that liquidated damages, in the amount specified in the applicable CSA/CPO, will be assessed against the Consultant for Consultant's failure to meet the final deliverable date in the Performance Schedule in the Scope of Work, but only to the extent and in proportion to Consultant's fault in causing the delay as compared to other causes, and to the extent the Consultant is not delayed by reasons beyond Consultant's reasonable control.

34.0 Employment Eligibility Verification (E-VERIFY)

A. Unless otherwise defined herein, terms used in this Section which are defined in Section 448.095, Florida Statutes, as may be amended from time to time, shall have the meaning ascribed in said statute.

B. Pursuant to Section 448.095(5), Florida Statutes, the contractor hereto, and any subcontractor thereof, must register with and use the E-Verify system to verify the work authorization

status of all new employees of the contractor or subcontractor. The contractor acknowledges and agrees that (i) the County and the contractor may not enter into this Agreement, and the contractor may not enter into any subcontracts hereunder, unless each party to this Agreement, and each party to any subcontracts hereunder, registers with and uses the E-Verify system; and (ii) use of the U.S. Department of Homeland Security's E-Verify System and compliance with all other terms of this Certification and Section 448.095, Fla. Stat., is an express condition of this Agreement, and the County may treat a failure to comply as a material breach of this Agreement.

C. By entering into this Agreement, the contractor becomes obligated to comply with the provisions of Section 448.095, Fla. Stat., "Employment Eligibility," as amended from time to time. This includes but is not limited to utilization of the E-Verify System to verify the work authorization status of all newly hired employees, and requiring all subcontractors to provide an affidavit attesting that the subcontractor does not employ, contract with, or subcontract with, an unauthorized alien. The contractor shall maintain a copy of such affidavit for the duration of this Agreement. Failure to comply will lead to termination of this Agreement, or if a subcontractor knowingly violates the statute or Section 448.09(1), Fla. Stat., the subcontract must be terminated immediately. If this Agreement is terminated pursuant to Section 448.095, Fla. Stat., such termination is not a breach of contract and may not be considered as such. Any challenge to termination under this provision must be filed in the Tenth Judicial Circuit Court of Florida no later than 20 calendar days after the date of termination. If this Agreement is terminated for a violation of Section 448.095, Fla. Stat., by the contractor, the contractor may not be awarded a public contract for a period of 1 year after the date of termination. The contractor shall be liable for any additional costs incurred by the County as a result of the termination of this Agreement. Nothing in this Section shall be construed to allow intentional discrimination of any class protected by law.

35.0 Limitation of Liability.

IN NO EVENT, SHALL THE COUNTY BE LIABLE TO THE CONSULTANT FOR INDIRECT, INCIDENTAL, CONSEQUENTIAL, SPECIAL, EXEMPLARY, OR PUNITIVE DAMAGES OF ANY KIND OR NATURE, INCLUDING LOSS OF PROFIT, WHETHER FORESEEABLE OR NOT, ARISING OUT OF OR RESULTING FROM THE NONPERFORMANCE OR BREACH OF THIS CONTRACT BY THE COUNTY WHETHER BASED IN CONTRACT, COMMON LAW, WARRANTY, TORT, STRICT LIABILITY, CONTRIBUTION, INDEMNITY OR OTHERWISE.

36.0 Scrutinized Companies and Business Operations Certification; Termination.

A. Certification(s).

(i) By its execution of this Agreement, the Consultant hereby certifies to the County that the Vendor is not on the Scrutinized Companies that Boycott Israel List, created pursuant to Section 215.4725, Florida Statutes, nor is the Consultant engaged in a boycott of Israel, nor was the Consultant on such List or engaged in such a boycott at the time it submitted its bid, proposal, quote, or other form of offer, as applicable, to the County with respect to this Agreement.

(ii) Additionally, if the value of the goods or services acquired under this Agreement are

greater than or equal to One Million Dollars ($1,000,000), then the Consultant further certifies to the County as follows:

(a) the Consultant is not on the Scrutinized Companies with Activities in Sudan List, created pursuant to Section 215.473, Florida Statutes; and

(b) the Consultant is not on the Scrutinized Companies with Activities in the Iran Petroleum Energy Sector List, created pursuant to Section 215.473, Florida Statutes; and

(c) the Consultant is not engaged in business operations (as that term is defined in Florida Statutes, Section 287.135) in Cuba or Syria; and

(d) the Consultant was not on any of the Lists referenced in this subsection A(ii), nor engaged in business operations in Cuba or Syria when it submitted its proposal to the County concerning the subject of this Agreement.

(iii) The Consultant hereby acknowledges that it is fully aware of the penalties that may be imposed upon the Consultant for submitting a false certification to the County regarding the foregoing matters.

B. Termination. In addition to any other termination rights stated herein, the County may immediately terminate this Agreement upon the occurrence of any of the following events:

(i) The Consultant is found to have submitted a false certification to the County with respect to any of the matters set forth in subsection A(i) above, or the Consultant is found to have been placed on the Scrutinized Companies that Boycott Israel List or is engaged in a boycott of Israel.

(ii) The Consultant is found to have submitted a false certification to the County with respect to any of the matters set forth in subsection A(ii) above, or the Consultant is found to have been placed on the Scrutinized Companies with Activities in Sudan List, or the Scrutinized Companies with Activities in the Iran Petroleum Energy Sector List, or has been engaged in business operations in Cuba or Syria, and the value of the goods or services acquired under this Agreement are greater than or equal to One Million Dollars ($1,000,000).

37. No Construction Against Drafter

37.1 The Parties acknowledge that this Agreement and all the terms and conditions contained herein have been fully reviewed and negotiated by the Parties. Accordingly, any rule of construction to the effect that ambiguities are to be resolved against the drafting party shall not apply in interpreting this Agreement.

38. Unauthorized Alien(s)

The Consultant shall not employ or utilize unauthorized aliens in the performance of the Services provided pursuant to this Agreement. The County shall consider the employment or utilization of unauthorized aliens a violation of Section 274A(e) of the Immigration and Naturalization Act (8 U.S.C. 1324a) and a cause for the County's unilateral termination of this Agreement. When delivering executed counterparts of this Agreement to the County, the Consultant shall also deliver a completed and executed counterpart of the attached "AFFIDAVIT CERTIFICATION IMMIGRATION LAWS" form.

(THE REMAINDER OF THE PAGE LEFT INTENTIONALLY BLANK)

IN WITNESS WHEREOF, the parties hereto have executed this Agreement as of the Effective Date.

PROPOSAL SUBMITTAL INSTRUCTIONS

Proposers must submit their proposal prior to 2:00 p.m. on the receiving date. Proposals must be submitted in a “sealed” parcel or electronically through Polk County’s secure website, Kiteworks. Proposals will be publicly opened at 2:00 p.m. on the receiving date.

Sealed Parcel Submittal:

If you are submitting a sealed parcel proposal submit one (1) original marked ORIGINAL and five (5) copies marked COPY of the proposal in a sealed parcel to the Procurement Division. The parcel should be labeled “RFP #23-328, Professional Geotechnical Services and Construction Material Testing and Inspection” and marked with the proposer’s name and address. The Proposals may be mailed or delivered to:

Polk County Procurement Division

330 West Church Street, Room 150

Bartow, FL 33830

To assist with labeling the sealed parcel, please cut along the outer border and affix this label. Be sure to include the name of the company submitting the proposal where requested.

Sealed Proposal. DO NOT OPEN	
RFP Number	23-328
RFP Title	Professional Geotechnical Services and Construction Material Testing and Inspection
Due Date/Time:	June 7, 2023, prior to 2:00 pm
Submitted by:	
Deliver To:	Polk County Procurement Division 330 West Church Street, Room 150, Bartow, Florida 33830

Proposals may be mailed, express mailed or hand delivered. It is the Proposers responsibility to ensure their package is delivered to the Procurement Division prior to

2:00 p.m. on the Receiving date and time referenced above. Proposals delivered at 2:00 p.m. or later will not be accepted.

Electronic Proposals Submittal:

All prospective Proposers that are interested in submitting their proposals electronically can do so via the County's secure electronic submittal website, Kiteworks. Proposers must email michaelguerrero@polk-county.net at least 48 hours prior to opening to receive a link to upload their submittal. Please only upload your documents as a PDF or Excel file for the Cost Tab, if applicable. Please use the name convention of your files as follow:

"RFP 23-328 Tab 1"

"RFP 23-328 Tab 2"

"RFP 23-328 Tab 3"

"RFP 23-328 Tab 4"

"RFP 23-328 Tab 5"

"RFP 23-328 Tab 6"

"RFP 23-328 Tab 7"

"RFP 23-328 Tab 8"

For more instructions, a video tutorial has been produced to further explain the electronic solicitation submittal process. It can be found by clicking here for RFP Submittals: https://youtu.be/vkn_7AHgioE. If you need assistance accessing this website due to ADA or any other reason, please email Michael Guerrero at michaelguerrero@polk-county.net.

Procurement recommends that Proposers submitting electronically double check the documents submitted into Kiteworks to ensure all requested tab information has been uploaded. Failure to upload the requested tab information may result in the proposal being deemed nonresponsive.

POLK COUNTY
Procurement Division
Fran McAskill
Procurement Director
REQUEST FOR PROPOSAL 23-328

Professional Geotechnical Services and Construction Material Testing and Inspection

Sealed proposals will be received in the Procurement Division, **Wednesday, June 7, 2023, prior to 2:00 p.m.**

Attached are important instructions and specifications regarding responses to this Request for Proposal (the "RFP"). The failure of a responding proposer (a "Proposer") to follow these instructions could result in Proposer disqualification from consideration for a contract to be awarded pursuant to this RFP.

This document is issued by Polk County (the "County") which is the sole distributor of this RFP and all addenda and changes to the RFP documents. The County shall record its responses to inquiries and provide any supplemental instructions or additional documents pertaining to this RFP in the form of written addenda to the RFP. The County shall post all such addenda, together with any other information pertaining to this RFP, on the County's website at

http://www.polk-county.net/procurement/procurement-bids. It is the sole responsibility of each Proposer to review the website prior to submitting a responsive proposal (a "Proposal") to this RFP to ensure that that the Proposer has obtained all available instructions, addenda, changes, supporting documents, and any other information pertaining to this RFP.

The County is not responsible for any solicitations issued through subscriber, publications, or other sources not connected with the County and the Proposer should not rely on such sources for information regarding the RFP solicitation.

Questions regarding this RFP must be in writing and must be sent to Michael Guerrero, via email at michaelguerrero@polk-county.net or via fax at (863) 534-6789. All questions must be received by May 30, 2023, 4:00 p.m.

Proposers and any prospective Proposers shall not contact, communicate with or discuss any matter relating in any way to this RFP with any member of the Polk County Board of County Commissioners or any employee of Polk County other than the County Procurement Director or the individual designated above. This prohibition begins with the issuance of the Request for Proposal and ends upon execution of a contract. Any such communication initiated by a Proposer or prospective proposer shall be grounds for disqualifying the offender from consideration for a contract to be awarded pursuant to this RFP and for contracts to be awarded pursuant to RFPs or Requests for Bid that the County may issue in the future.

A Proposer's responsive Proposal to this RFP may be mailed, express mailed, or hand delivered to:
Polk County Procurement Division
330 West Church Street, Room 150
Bartow, Florida 33830
(863)534-6757

INTRODUCTION

Polk County, a political subdivision of the State of Florida seeks professional geotechnical services and construction material testing and inspection, and as further defined in the Scope of Services below.

Polk County's Selection Process for consultants' services is in accordance with Section 287.055, Florida Statutes, the Consultants' Competitive Negotiations Act ("CCNA"). The Professional Services Selection Committee will review the qualifications of all submitting firms.

It is the intent of the County to select and negotiate a Master Consulting Agreement with multiple firm(s).

The County will negotiate a fee schedule and or overall lump sum price as part of "Selection Process", Elevation Level 4 Contract Negotiations.

Services under this contract will be in compliance with Section 287.055 of the Florida Statutes referred to as the "Consultants' Competitive Negotiation Act" (CCNA). Polk County's Procurement Procedure's Manual outlines the Procedures for Contracting for Professional Services Covered by CCNA. These procedures outline the process used for the selection of a consulting firm awarded through this RFP process.

All services must be performed in accordance with applicable Federal, State and Local regulations.

SCOPE OF SERVICES

The scope of services shall include, but not be limited to in-place density tests; standard or modified proctors; limerock bearing ratio test; compressive strength of concrete cylinders; compressive strength of soil-cement pills; Super Pave - asphalt binder content, gradations, gyratory pills, pavement density, air voids; core drill & soils analysis; steel inspection; geotechnical investigations & soil testing; asphaltic concrete inspection services; concrete testing, which includes, but is not limited to the specific services listed on Exhibit "A" at the end of this document. All reports submitted by the Consultant(s) shall include specific recommendations, as applicable.

The County shall request the services on an as-needed basis. There is no guarantee that any or all of the services described in the agreement will be assigned during the term of the agreement. Further, the Consultant is providing these services on a nonexclusive basis. The County, at its option, may elect to have any of the services set forth herein performed by other consultants or County staff.

AGREEMENT

The Master Consulting Agreement will be for five (5) years unless otherwise terminated in accordance with the master service agreement.

EVALUATION CRITERIA

Proposals should not contain information in excess of that requested, must be concise, and must specifically address the issues of this RFP. Unnecessarily elaborate brochures or other presentations beyond those sufficient to present a complete and effective response to this RFP are not desired and may be construed as an indication of the Proposer's lack of cost consciousness. Elaborate artwork, expensive visual aids, and other presentation aids are neither necessary nor desired unless specifically requested. The Proposal responses shall be contained within a three-ring binder (original and each copy in separate binders). For the purposes of this RFP, one page equals a single sided page. It is requested that the responses be in the same order as the selection and evaluation procedures. The submittals should include the following:

Tab 1 Executive Summary

(Items a-c: Maximum of two (2) pages

a) Name, company name, address, telephone number, and email address.
b) State the number of years in business, as the same company/firm.
c) State the number of full-time employees.
d) Provide documentation showing proper incorporation by the Secretary of State.
e) Provide a copy of the firm's applicable certification(s) from the State of Florida allowing them to provide the services as outlined in the Scope of Service as well as compliance with F.S. 287.055

Tab 2 Approach to the Project (35 points)

(Maximum of four (4) pages)

a) Describe in detail the components of how your firm proposes to manage assigned project(s), based upon the scope of services. Please identify the services your firm provides which make you qualified to perform the required services.
b) Describe how the firm plans to maintain the project team and manage the project team members' time in order to ensure sufficient time to complete a project.
c) Describe the firm's Quality Assurance and Quality Control program as it pertains to engineering services.

Tab 3 Experience, Expertise, Personnel and Technical Resources (35 points)

- Identify a minimum of five (5) and a maximum of eight (8) projects in which the proposer has performed within the past five (5) years as the prime proposer which best illustrate the experience of the firm and current staff as related to the desired services. At least three (3) of the projects identified should be for geotechnical services, and at least two (2) should be for construction and material testing and inspection. At least three (3) of the minimum five (5) projects

should have been performed within the state of Florida. (Maximum of one (1) page only per project).
    - For each project please provide:
        a) Name and location of the project;
        b) Size and cost of the project;
        c) Project representative name, address, phone number, and email address
        d) Date project was completed or is anticipated to be completed, if completed provide the actual completion date;
        e) The nature of the firm's responsibility on the project;
        f) List of change orders, including dollar amount, which were the result of unforeseen circumstances or design errors/oversights; and
        g) List of any time extensions created by item f above.
- Provide an organizational chart of the team highlighting the key individuals who will work on this contract.
- Provide brief resumes of the firm's key personnel to be assigned to the master service agreement including, but not limited to, the items in the list below (One (1) page maximum per resume):
    a) Name and current position held by the person
    b) Name, title and project assignment
    c) Experience:
        1) Types of projects.
        2) Size of projects (dollar value of project).
        3) What were their specific project involvements?
- Identify any sub-consultants that may be involved throughout the duration of the agreement. For each sub consultant identified please provide:
    - A brief description of their experience outlining their qualifications to perform the intended services
    - A brief resume for each key personnel that will be assigned to perform the intended services

Tab 4 Is the Firm a "Polk County Entity"? (5 Points)

- There will be a maximum of five (5) points allocated for this Tab. If the Proposer is a Polk County Entity, then five (5) points will be allocated. If the Proposer is not a Polk County Entity but is utilizing one or more sub-consultants that are a Polk County Entity to assist in performing the scope of work, then the Proposal will be allocated one (1) point for each sub-consultant which is a Polk County Entity up to a maximum of five (5) points. The Polk County Entity sub-consultant(s) must have been identified under Tab 3, Experience, Expertise, Personnel and Technical Resources in order to qualify for point allocation.
- Provide documentation of the Proposers' or sub-consultant's headquarters and local offices, if any, and the amount of time the firm has been located at each

such local office. Please also indicate the number of employees at the local office.

- Proposers or sub-consultants will be allocated points if they meet the following Polk County Government definition of Polk County Entity.
    - The term “Polk County Entity” means any business having a physical location within the boundaries of Polk County, Florida, at which employees are located and business activity is managed and controlled on a day-to-day basis. Additionally, the business must have been located within the boundaries of Polk County for a minimum of 12 months prior to the date the applicable solicitation is issued. This requirement may be evidenced through a recorded deed, an executed lease agreement, or other form of written documentation acceptable to the County. The County shall have the right, but not the obligation, to verify the foregoing requirements.
- In the event a Proposer lists one or more sub-consultants in Tab 4 which is a Polk County Entity and receives point(s) as a result, and after the Proposer is awarded the project, if successful, it is determined that the listed sub-consultant does not assist in the performance of the scope of work (and is not replaced with an alternative sub-consultant which is a Polk County Entity), then the Proposer acknowledges and agrees that it may be suspended or debarred by the Procurement Director for failure to comply with the conditions, specifications or terms of a proposal or contract with the County or for committing a fraud or misrepresentation in connection with a proposal or contract with the County, in accordance with the Polk County Purchasing Ordinance and Procedures Manual.

Tab 5 Is the Firm a “Certified Woman or Minority Business Enterprise” (5 Points)

- Polk County Board of County Commissioners has a long-standing commitment to encouraging the utilization of Women and Minority Businesses that do business with the County as vendors. To that end we encourage all of our prime and professional services vendors to utilize W/MBE vendors where at all possible, irrespective of a company’s certification status. Please explain how the submitting firm will encourage minority participation in the project. (Limit response to one page)
- There will be a maximum of five (5) points allocated for this tab. If the Proposer is a Woman or Minority owned business, then five (5) points will be allocated. If the Proposer is not a Woman or Minority owned business but is utilizing one or more sub-consultants that are a Women or Minority owned business to assist in performing the scope of work, then the Proposal will be allocated one (1) point for each sub-consultant which meets the County’s certification criteria of Women or Minority owned, up to a maximum of five (5) points. The Woman or Minority owned business sub-consultant(s) must have been identified under Tab 3, Experience, Expertise, Personnel and Technical Resources in order to qualify for point allocation.

- Proposers or sub-consultants will be allocated points if they are a certified W/MBE as evidenced by providing the documentation described below.
    - If the Proposer or sub-consultant has a certified W/MBE status, provide documentation of the firms' certified W/MBE status as defined by the Florida Small and Minority Business Act and as defined in Polk County's Purchasing Procedures. Polk County's Purchasing Procedures recognize the following to meet the requirement of a certified W/MBE status:
        - Valid W/MBE Certification from one of the following
            - Florida Minority Supplier Development Council
            - Women Business Enterprise National Council
            - The State of Florida Office of Supplier Diversity
            - Florida Department of Transportation
            - U. S. Small Business Administration
            - Federal Aviation Authority
            - Other Florida governmental agencies

  Certifications from other governmental agencies will be considered on a case-by-case basis.

- In the event a Proposer lists one or more sub-consultants in Tab 5 which is a Women or Minority owned business and receives point(s) as a result, and after the Proposer is awarded the project, if successful, it is determined that the listed sub-consultant does not assist in the performance of the scope of work (and is not replaced with an alternative sub-consultant which is a Women or Minority owned business), then the Proposer acknowledges and agrees that it may be suspended or debarred by the Procurement Director for failure to comply with the conditions, specifications or terms of a proposal or contract with the County or for committing a fraud or misrepresentation in connection with a proposal or contract with the County, in accordance with the Polk County Purchasing Ordinance and Procedures Manual.

Tab 6 Interactions with County and Regulatory Agency Staff (5 Points)

- Provide documentation supporting the specialized qualifications of the proposed staff in terms of meeting this scope of service. Qualifications should highlight experience with regulatory agencies, identifying specific agencies and the items being addressed, including construction permitting, water use permitting, consent orders, consultation, governing regulations, and other related activities. Describe the firm's ability to work with Roads and Drainage or other Division staff in order to successfully fulfill the scope of service. Demonstrate the firm's knowledge of permitting process, as well as local regulatory agencies, including, but not limited to FDOT, and SWFWMD, if applicable. **(Limit response to one (1) page)**

Tab 7 Timely Completions of Projects (5 points)

Describe the firms' current and future projected workload. Describe specifically the firms' daily ability to handle each aspect of the scope of services described herein. **(Limit response to two (2) pages maximum)**

Tab 8 Surveys of Past Performance (10 Points)

- Provide reference surveys from past clients for the projects identified under Tab 3.
- Completed surveys. (See Exhibit 1) Procurement will take the average of all surveys and score as follows:
    - Average Score between 9-10 (10 Points)
    - Average Score between 7-8 (8 Points)
    - Average Score between 5-6 (6 Points)
    - Average Score between 3-4 (4 Points)
    - Average Score between 1-2 (2 Points)
    - Average Score of 0 (0 Points)

BID OPENING

Proposers may attend the Bid Opening in person or via conference call by dialing (646) 558-8656 and enter Meeting ID: 327 647 2818. A listing of all proposers will be posted to Procurement's website as soon as possible after bid opening.

Selection Process

Proposals will be evaluated in accordance with this section and all applicable County procurement policies and procedures.

The County shall appoint a selection committee (the "Selection Committee") that will be responsible for evaluating and scoring/ranking the Proposals in accordance with this Section.

The County will use a competitive selection process based on the Elevation Levels described in this Section. At Elevation Levels 2 and 3, the Selection Committee will score and/or rank the Proposals as applicable.

Selection of a final Proposal will be based upon the following steps and factors:

Elevation Level 1 (Procurement Requirements Assessment):

- The County Procurement Division shall review all Proposals for conformance with RFP guidelines and detailed submittal requirements. At the County's discretion, non-conforming Proposals may be eliminated from further consideration and conforming Proposals shall be elevated to Elevation Level 2. Procurement will distribute Proposals and evaluation criteria to the Selection Committee.
- Procurement will also ensure all firms meet the requirement of certification as outlined in Florida Statute 287.055(3)(c).

- The Selection Committee may convene to review questions that arise during individual member review of submitted Proposals before Elevation Level 2 to allow for questions, clarifications, explanations, or other discussion to be held before the review of Proposals is completed.

Elevation Level 2 (Scoring)

- Procurement shall score each Proposal on the following evaluation criteria:
    - Local (Tab 4)-5 points
    - W/MBE Certification (Tab 5)-5 points
    - Surveys of Past Performance (Tab 8)-10 points

    Subtotal Points-20 points

    by the process stated under each corresponding Tab description as set forth on Pages 8-11.

- Each Selection Committee member shall score each Proposal on the following evaluation criteria:
    - Approach to the Project (Tab 2)-35 points
    - Experience, Expertise, Personnel and Technical Resources (Tab 3)-35 points
    - Interaction w/ County & Regulatory Agencies (Tab 6)-5 points
    - Timely Completion of Projects (Tab 7)-5 points
      Subtotal Points-80 points
      by the following process:

1) Each Selection Committee member shall determine which of the following descriptions applies to each of the foregoing evaluation criteria:
    - EXCELLENT (1.0): Of the highest or finest quality; exceptional; superior; superb; exquisite; peerless.
      The Proposer provided information for a given criteria that satisfied the requirements and described specifically how and what will be accomplished in such a manner that exhibited an exceptional and superior degree of understanding, skill, and competency, both qualitatively and quantitatively. The facts included in the narrative (including all supporting documentation, diagrams, drawings, charts, and schedules, etc.) demonstrate the Proposer's ability to perform and deliver far beyond expectation.
    - VERY GOOD (0.8): To a high degree; better than or above competent and/or skillful.
      The Proposer provided information for a given criteria that satisfied the requirements and described specifically how and what will be accomplished in such a manner that exhibited a very high degree of understanding, skill, and competency, both qualitatively and quantitatively. The facts included in the narrative (including all supporting documentation,

diagrams, drawings, charts, and schedules, etc.) demonstrate the Proposer's ability to perform and deliver beyond expectation.

- GOOD (0.6): Having positive or desirable qualities; competent; skilled; above average.
  The Proposer provided information for a given criteria that satisfied the requirements and described specifically how and what will be accomplished in such a manner that exhibited a skillful and above-average degree of understanding, skill, and competency, both qualitatively and quantitatively. The facts included in the narrative (including all supporting documentation, diagrams, drawings, charts, and schedules, etc.) demonstrate the Proposer's ability to perform and deliver at the expected level.
- FAIR (0.4): Average; moderate; mediocre; adequate; sufficient; satisfactory; standard.
  The Proposer provided information for a given criteria that satisfied the requirements and described sufficiently how and what will be accomplished in a manner that exhibited an adequate and average degree of understanding, skill, and competency, both qualitatively and quantitatively. The facts included in the narrative (including all supporting documentation, diagrams, drawings, charts, and schedules, etc.) demonstrate the Proposer's ability to perform and deliver at a level slightly below expectation.
- POOR (0.2): Inadequate; lacking; inferior in quality; of little or less merit; substandard; marginal.
  The Proposer provided information for a given criteria that did not satisfy the requirements and described in an inadequate manner how and what will be accomplished. The information provided simply reiterated a requirement, contained inaccurate statements or references, lacked adequate information, or was of inferior quality. The facts included in the narrative (including all supporting documentation, diagrams, drawings, charts, and schedules, etc.) demonstrate the Proposer's ability to perform and deliver at a substandard and inferior level.
- UNACCEPTABLE (0.0):
  The Proposer failed to provide any information for a given criteria, provided information that could not be understood, or did not provide the information for a given category as requested.

2) After a Selection Committee member has determined the description applicable for each evaluation criterion, the total points available for such criterion shall be multiplied by the factor associated with the applicable description to produce the number of points allocated for that evaluation criterion. For example, a Selection Committee member classifies the "Experience and Expertise" criterion (which shall be worth 25 points for the purpose of this example) as "Very Good" (which is a description factor multiplier of 0.8). The points that Selection Committee

member allocated for that evaluation criterion would be 20, calculated as follows: 25 available points x 0.8 applicable description factor multiplier = 20 points.

3) A Selection Committee member's total score for each Proposal shall equal the sum of the total points allocated for each evaluation criteria.
4) When all Selection Committee members have completed their Proposal evaluations, the individual Selection Committee member's total scores for each Proposal will be added together to produce a final score for each Proposal.
5) Procurement will confirm the calculations for the final score for each Proposal. Then, Procurement shall publish a rank-ordered listing of the Proposals to the Selection Committee with the Proposal receiving the highest point as the highest-ranked Proposal.
6) In accordance with Section 287.055(4)(a), Florida Statutes, if there are three (3) or more Proposers in Elevation Level 2, the Selection Committee must elevate no fewer than the three highest scored of such Proposers to Elevation Level 3 for interviews. If there are only two Proposers in Elevation Level 2, the Selection Committee must elevate those two Proposers to Elevation Level 3 for interviews. If there is only one Proposer in Elevation Level 2, then the Selection Committee may collectively decide if they would like to elevate the Proposer to Elevation Level 3 for interviews or if they would like to recommend the Board authorize staff to enter into Contract Negotiations with the Proposer. In the latter case, after Board approval to authorize staff to negotiate a contract, the Proposer will then be elevated to Elevation Level 4 for contract negotiations.

Elevation Level 3 (Proposer Interviews)
The Selection Committee are required to conduct interviews of the Proposers that it has elevated from Elevation Level 2 to Elevation Level 3.

During an interview, elevated Proposers may be requested to make a presentation focusing on their qualifications, approach to the project and the ability to furnish the required services. The Selection Committee members will have an opportunity to inquire about any aspect of the RFP and the Proposer's Proposal. After all elevated Proposer interviews, each Selection Committee member will individually rank the Proposers in numerical order beginning at number 1 for the Proposer deemed to be the most highly qualified to perform the required services. In accordance with Section 287.055(4)(b), Florida Statutes, in determining whether a Proposer is qualified, each Selection Committee member shall consider such factors as:

- Ability of Personnel
- Whether a Proposer is a certified minority business enterprise
- Past performance
- Willingness to meet time and budget requirements
- Location
- Recent, current, and projected workloads
- Volume of work previously awarded to each Proposer by the County

Procurement shall receive and compile each Selection Committee member's ranking of each Proposer, and then publish a rank-ordered listing of Proposers to the Selection Committee, based on the combined average rankings given each Proposer. The Selection Committee members will then collectively decide if they would like to recommend the Board authorize staff to enter into Contract Negotiations with all Proposers elevated to Proposer Interviews, starting with the highest-ranked Proposer(s). After Board approval to authorize staff to negotiate a contract, said Proposer(s) will then be elevated to Elevation Level 4 for contract negotiations.

Elevation Level 4 (Contract Negotiations)
If a Proposer is elevated to this level, the User Division, with the assistance of Procurement and the County Attorney's Office, shall negotiate an Agreement with the elevated Proposer(s) in accordance with Section 287.055(5), Florida Statutes.

If after negotiating for a reasonable time period the parties cannot agree on a contract, the County shall, in its sole discretion, terminate further contract negotiations with that Proposer(s). Procurement shall notify the Selection Committee that contract negotiations with the elevated Proposer(s) have terminated. The Selection Committee shall then determine whether to recommend to the Board to approve contract negotiations with the next-highest-ranked Proposer, and so on. If the Selection Committee decides not to recommend contract negotiations with the next-highest-ranked Proposer, or if the County determines there is no other Proposer with whom the County can successfully negotiate a contract, then the RFP Selection Process shall terminate.

After contract negotiations with a Proposer(s) are successfully completed pursuant to Elevation Level 4, the Selection Committee shall recommend to the Board of County Commissioners that it selects such Proposer(s) to provide the services as outlined in the Agreement. The Board of County Commissioners shall make the final decision whether to enter into an Agreement with a Proposer(s).

ATTENTION PROPOSERS

The Successful Proposer must register in our new Vendor Database if you have not already done so prior to award of this RFP. A purchase order cannot be issued to a vendor until they have registered.

You may register by going to the following link:

https://www.polk-county.net/procurement/vendor-registration

Registered vendors will receive a User ID and Password to access their company information. All registered vendors must provide their owner gender, owner ethnicity, corporate status, and a minimum of one (1) commodity code to be considered registered. It is the responsibility of all vendors to update their vendor information.

Only registered vendors will receive notifications of future RFP's.

GENERAL CONDITIONS

CONTACT

After the issuance of any Request for Proposal, prospective proposers shall not contact, communicate with, or discuss any matter relating in any way to the Request for Proposal with the Board of County Commissioners, and any employee of Polk County, other than the Procurement Director or as directed in the cover page of the Request for Proposal. This prohibition begins with the issuance of any Request for Proposal and ends upon completion execution of a contract. Such communications initiated by a proposer shall be grounds for disqualifying the offending proposer from consideration for award of the proposal and/or any future proposal.

INSURANCE REQUIREMENTS

The selected firm, if any, shall maintain, at all times, the following minimum levels of insurance and shall, without in any way altering their liability, obtain, pay for and maintain insurance for the coverages and amounts of coverage not less than those set forth below. Provide to the County original Certificates of Insurance satisfactory to the County to evidence such coverage before any work commences. Polk County, a political subdivision of the State of Florida, shall be an additional named insured on all policies related to the project, excluding workers' compensation and professional liability. The Workers' Compensation and General Liability policies shall contain a waiver of subrogation in favor of Polk County. All insurance coverage shall be written with a company having an A.M. Best Rating of at least the "A" category and size category of VIII. The firm's self-insured retention or deductible per line of coverage shall not exceed $25,000 without the permission of the County. In the event of any failure by the firm to comply with the provisions; the County may, at its option, on notice to the firm suspend the project for cause until there is full compliance. Alternatively, the County may purchase such insurance at the firm's expense, provided that the County shall have no obligation to do so and if the County shall do so, the firm shall not be relieved of or excused from the obligation to obtain and maintain such insurance amounts and coverages.

Worker's Compensation and Employer's Liability Insurance providing statutory benefits, including those that may be required by any applicable federal statute:

Admitted in Florida	Yes
Employer's Liability	$100,000
All States Endorsement	Statutory
Voluntary Compensation	Statutory

Commercial General Liability Insurance. $1,000,000 combined single limit of liability for bodily injuries, death, and property damage, and personal injury resulting from any one occurrence, including the following coverages:

Premises and Operations and Products/Completed Operations;

Broad Form Commercial General Liability Endorsement to include blanket contractual liability (specifically covering, but not limited to, the contractual obligations assumed by the Firm); Personal Injury (with employment and contractual exclusions deleted) and Broad Form Property Damage coverages;

Independent Contractors; Policy must include Separation of Insureds Clause.

Comprehensive Automobile Liability Insurance. $1,000,000 combined single limit of liability for bodily injuries, death, and property damage, and personal injury resulting from any one occurrence, including all owned, hired, and non-owned vehicles.

Professional Liability Insurance. $2,000,000 for design errors and omissions, inclusive of defense costs. Selected firm shall be required to provide continuing Professional Liability Insurance to cover the project for a period of two (2) years after the projects are completed.

INDEMNIFICATION

To the maximum extent permitted by law, the Consultant shall indemnify, protect and hold the County, and its officers, employees and agents, harmless from and against any and all, claims, actions, causes of action, liabilities, penalties, forfeitures, damages, losses, and expenses whatsoever (including, without limitation, reasonable attorneys' fees, costs, and expenses incurred during negotiation, through litigation and all appeals therefrom) including, without limitation, those pertaining to the death of or injury to any person, or damage to any property, to the extent arising out of or resulting from (i) the failure of Consultant to comply with applicable laws, rules or regulations, (ii) the breach by Consultant of its obligations under this Agreement, (iii) any claim for trademark, patent, or copyright infringement arising out of the scope of Consultant's performance or nonperformance of this Agreement, or (iv) the negligent acts, errors or omissions, or intentional or willful misconduct, of Consultant or any persons or entities employed or utilized by Consultant in the performance of this Agreement. The obligations imposed by this Section shall survive the expiration or earlier termination of the Agreement.

PUBLIC ENTITY CRIMES STATEMENT

A person or affiliate who has been placed on the convicted vendor list following a conviction for a public entity crime may not submit a bid or proposal on a contract to provide any goods or services to a public entity, may not submit a bid or proposal on a contract with a public entity for the construction or repair of a public building or public work, may not submit bids on leases of real property to a public entity, may not be awarded or perform work as a contractor, supplier, subcontractor, or consultant under a contract with any public entity, and may not transact business with any public entity in excess of the threshold amount provided in Section 287.017, for CATEGORY TWO for a period of 36 months from the date of being placed on the convicted vendor list. By submitting this proposal, the proposer hereby certifies that they have complied with said statute.

EQUAL OPPORTUNITY/AFFIRMATIVE ACTION
The County is an equal opportunity/affirmative action employer. The County is committed to equal opportunity employment effort; and expects firms that do business with the County to have a vigorous affirmative action program.

WOMEN/MINORITY BUSINESS ENTERPRISE OUTREACH
The County hereby notifies all Proposers that W/MBEs are to be afforded a full opportunity to participate in any request for proposal by the County and will not be subject to discrimination on the basis of race, color, sex or national origin.

AFFIRMATION
By submitting their proposal, the Proposer affirms that the proposal is genuine and not made in the interest of or on behalf of any undisclosed person, firm or corporation and is not submitted in conformity with any agreement or rules of any group, association, organization or corporation; the Proposer has not directly or indirectly induced or solicited any other person to submit a false or sham proposal; the Proposer has not solicited or induced any person, firm or corporation to refrain from submitting a proposal; and the Proposer has not sought by collusion to obtain for him/herself any advantage over other persons or over the County.

DEVELOPMENT COSTS
Neither the County nor its representative(s) shall be liable for any expenses incurred in connection with preparation of a response to the RFP. Proposers should prepare their proposals simply and economically, providing a straightforward and concise description of the proposer's ability to meet the requirements of the RFP.

ADDENDA
The County may record its responses to inquiries and any supplemental instructions in the form of written addenda. The addenda will be posted on the County's website at https://www.polk-county.net/procurement-bids. It is the sole responsibility of the proposers to check the website to ensure that all available information has been received prior to submitting a proposal.

CODE OF ETHICS
If any proposer violates or is a party to a violation of the code of ethics of Polk County or the State of Florida, with respect to this proposal, such proposer may be disqualified from performing the work described in this proposal or from furnishing the goods or services for which the proposal is submitted and shall be further disqualified from bidding on any future proposals for work, goods, or services for the County.

DRUG FREE WORKPLACE
Preference shall be given to businesses with Drug Free Workplace (DFW) programs. Whenever two or more proposals, which are equal with respect to price, quality and service, are received by the County for the procurement of commodities or contractual services, a proposal received from a business that has provided a statement that it is a DFW shall be given preference in the award process.

APPLICABLE LAWS AND COURTS

This RFP and any resulting agreements shall be governed in all respects by the laws of the State of Florida and any litigation with respect thereto shall be brought only in the courts of Polk County, Florida or the United States District Court, Middle District of Florida, located in Hillsborough County, Florida. The proposer shall comply with all applicable federal, state and local laws and regulations.

CONTRACTUAL MATTERS

A contract in substantially the same form as attached here to as Attachment "A" (Master Consulting Agreement) will be executed between the County and the successful Proposer(s).

All contracts are subject to final approval of the Polk County Board of County Commissioners. Persons or firms who incur expenses or change position in anticipation of a contract prior to the Board's approval do so at their own risk.

PROPOSAL ACCEPTANCE PERIOD

A proposal shall be binding upon the offeror and irrevocable by it for one hundred and twenty (120) calendar days following the proposal opening date. Any proposal in which offeror shortens the acceptance period may be rejected.

ADDITION/DELETION

The County reserves the right to add to or delete any item from this proposal or resulting agreements when deemed to be in the best interest of the County.

PROPRIETARY INFORMATION

In accordance with Chapter 119 of the Florida Statutes (Public Records Law), and except as may be provided by other applicable State and Federal Law, all proposers should be aware that Request for Proposals and the responses thereto are in the public domain. However, the proposers are required to identify specifically any information contained in their proposals which they consider confidential and/or proprietary and which they believe to be exempt from disclosure, citing specifically the applicable exempting law. Proposers should provide a redacted copy of proposal with submittal or must provide within thirty (30) days from the Proposal due date.

All proposals received from proposers in response to this Request for Proposal will become the property of the County and will not be returned to the proposers. In the event of contract award, all documentation produced as part of the contract will become the exclusive property of the County.

REVIEW OF PROPOSAL FILES

In accordance with Chapter 119.071 of the Florida Statutes, the responses received for this Request for Proposal are exempt from review for thirty (30) days after the Bid Opening Date or at Recommendation of Award, whichever event occurs first.

Should the RFP be cancelled and re-solicited for any reason, proposal responses shall remain exempt from disclosure for a period not to exceed twelve (12) months or at Recommendation of Award of the subsequent solicitation.

RFP PROTEST: Any proposer desiring to file a protest, with respect to a recommended award of any RFP, shall do so by filing a written protest. The written protest must be in the possession of the Procurement Division within three (3) working days of the Notice of Recommended Award mailing date. All proposers who submitted a proposal will be sent a Notice of Recommended Award, unless only one proposal was received.

A copy of the protest procedures may be obtained from the Polk County Procurement Division or can be downloaded from the County's website at https://www.polk-county.net/procurement/protest-procedures.

FAILURE TO FOLLOW PROTEST PROCEDURE REQUIREMENTS WITHIN THE TIME FRAMES PRESCRIBED HEREIN AS ESTABLISHED BY POLK COUNTY, FLORIDA, SHALL CONSTITUTE A WAIVER OF THE PROPOSER'S RIGHT TO PROTEST AND ANY RESULTING CLAIM.

UNAUTHORIZED ALIEN(S) The Consultant agrees that unauthorized aliens shall not be employed nor utilized in the performance of the requirements of this solicitation. The County shall consider the employment or utilization of unauthorized aliens a violation of Section 274A(e) of the Immigration and Naturalization Act (8 U.S.C. 1324a). Such violation shall be cause for unilateral termination of this Agreement by the County. As part of the response to this solicitation, the successful consultant will complete and submit the form "AFFIDAVIT CERTIFICATION IMMIGRATION LAWS."

EMPLOYMENT ELIGIBILITY VERIFICATION (E-Verify)

A. Unless otherwise defined herein, terms used in this Section which are defined in Section 448.095, Florida Statutes, as may be amended from time to time, shall have the meaning ascribed in said statute.

B. Pursuant to Section 448.095(2)(a), Florida Statutes, effective January 1, 2021, public employers, contractors and subcontractors shall register with and use the E-verify system in order to verify the work authorization status of all newly hired employees. The Contractor acknowledges and agrees that use of the U.S. Department of Homeland Security's E-Verify System and compliance with all other terms of this Certification and Section 448.095, Fla. Stat., is an express condition of this Agreement, and the County may treat a failure to comply as a material breach of this Agreement.

C. By entering into this Agreement, the Contractor becomes obligated to comply with the provisions of Section 448.095, Fla. Stat., "Employment Eligibility," as amended from time to time. This includes but is not limited to utilization of the E-Verify System to verify the work authorization status of all newly hired employees, and requiring all subcontractors to provide an affidavit attesting that the subcontractor does not employ, contract with, or subcontract with, an unauthorized alien. The Contractor shall maintain a copy of such affidavit for the duration of the contract. Failure to comply will lead to termination of this Agreement, or if a subcontractor knowingly violates the statute or

Section 448.09(1), Fla. Stat., the subcontract must be terminated immediately. Any challenge to termination under this provision must be filed in the Tenth Judicial Circuit Court of Florida no later than 20 calendar days after the date of termination. If this Agreement is terminated for a violation of the statute by the Contractor, the Contractor may not be awarded a public contract for a period of 1 year after the date of termination. The Contractor shall be liable for any additional costs incurred by the County as a result of the termination of this Agreement. Nothing in this Section shall be construed to allow intentional discrimination of any class protected by law.

LIMITATIONS

This request does not commit Polk County to award a contract. Proposers will assume all costs incurred in the preparation of their response to this RFP. The County reserves the right to: 1) accept or reject qualifications and/or proposals in part or in whole; 2) request additional qualification information; 3) limit and determine the actual contract services to be included in a contract; 4) obtain information for use in evaluating submittals from any source and 5) reject all submittals.

ATTORNEY'S FEES AND COSTS: Each party shall be responsible for its own legal and attorney's fees, costs and expenses incurred in connection with any dispute or any litigation arising out of, or relating to this Agreement, including attorney's fees, costs and expenses incurred for any appellate or bankruptcy proceedings.

PUBLIC RECORD LAWS

(a) The Consultant acknowledges the County's obligations under Article I, Section 24, of the Florida Constitution and under Chapter 119, Florida Statutes, to release public records to members of the public upon request and comply in the handling of the materials created under this Agreement. The Consultant further acknowledges that the constitutional and statutory provisions control over the terms of this Agreement. In association with its performance pursuant to this Agreement, the Consultant shall not release or otherwise disclose the content of any documents or information that is specifically exempt from disclosure pursuant to all applicable laws.

(b)Without in any manner limiting the generality of the foregoing, to the extent applicable, the Consultant acknowledges its obligations to comply with Section 119.0701, Florida Statutes, with regard to public records, and shall:

(1) keep and maintain public records required by the County to perform the services required under this Agreement;

(2) upon request from the County's Custodian of Public Records or his/her designee, provide the County with a copy of the requested records or allow the records to be inspected or copied within a reasonable time at a cost that does not exceed the cost provided in Chapter 119, Florida Statutes, or as otherwise provided by law;

(3) ensure that public records that are exempt or confidential and exempt from public records disclosure requirements are not disclosed except as authorized by law for the duration of the term of this Agreement and following completion of this Agreement if the Consultant does not transfer the records to the County; and

(4) upon completion of this Agreement, transfer, at no cost, to the County all public records in possession of the Consultant or keep and maintain public records required by the County to perform the service. If the Consultant transfers all public records to the County upon completion of this Agreement, the Contractor shall destroy any duplicate public records that are exempt or confidential and exempt from public records disclosure requirements. If the Consultant keeps and maintains public records upon completion of this Agreement, the Consultant shall meet all applicable requirements for retaining public records. All records stored electronically must be provided to the County, upon request from the County's Custodian of Public Records, in a format that is compatible with the information technology systems of the County.

(c) **IF THE CONSULTANT HAS QUESTIONS REGARDING THE APPLICATION OF CHAPTER 119, FLORIDA STATUTES, TO THE CONSULTANT'S DUTY TO PROVIDE PUBLIC RECORDS RELATING TO THIS AGREEMENT, CONTACT THE COUNTY'S CUSTODIAN OF PUBLIC RECORDS AT:**

Scrutinized Companies and Business Operations Certification; Termination.

A. Certification(s).
   i. By its execution of this Agreement, the Vendor hereby certifies to the County that the Vendor is not on the Scrutinized Companies that Boycott Israel List, created pursuant to Section 215.4725, Florida Statutes, nor is the Vendor engaged in a boycott of Israel, nor was the Vendor on such List or engaged in such a boycott at the time it submitted its bid, proposal, quote, or other form of offer, as applicable, to the County with respect to this Agreement.
   ii. Additionally, if the value of the goods or services acquired under this Agreement are greater than or equal to One Million Dollars ($1,000,000), then the Vendor further certifies to the County as follows:
      a) the Vendor is not on the Scrutinized Companies with Activities in Sudan List, created pursuant to Section 215.473, Florida Statutes; and
      b) the Vendor is not on the Scrutinized Companies with Activities in the Iran Petroleum Energy Sector List, created pursuant to Section 215.473, Florida Statutes; and
      c) the Vendor is not engaged in business operations (as that term is defined in Florida Statutes, Section 287.135) in Cuba or Syria; and
      d) the Vendor was not on any of the Lists referenced in this subsection A(ii), nor engaged in business operations in Cuba or

Syria when it submitted its proposal to the County concerning the subject of this Agreement.

iii. The Vendor hereby acknowledges that it is fully aware of the penalties that may be imposed upon the Vendor for submitting a false certification to the County regarding the foregoing matters.

B. Termination. In addition to any other termination rights stated herein, the County may immediately terminate this Agreement upon the occurrence of any of the following events:

i. The Vendor is found to have submitted a false certification to the County with respect to any of the matters set forth in subsection A(i) above, or the Vendor is found to have been placed on the Scrutinized Companies that Boycott Israel List or is engaged in a boycott of Israel.

ii. The Vendor is found to have submitted a false certification to the County with respect to any of the matters set forth in subsection A(ii) above, or the Vendor is found to have been placed on the Scrutinized Companies with Activities in Sudan List, or the Scrutinized Companies with Activities in the Iran Petroleum Energy Sector List, or has been engaged in business operations in Cuba or Syria, and the value of the goods or services acquired under this Agreement are greater than or equal to One Million Dollars ($1,000,000).

Proposers Incorporation Information

(Submittal Page)

The following section should be completed by all bidders and submitted with their bid submittal:

Company Name: _____

DBA/Fictitious Name (if applicable): _____

TIN #: _____

Address: _____

City: _____

State: _____

Zip Code: _____

County: _____

Note: Company name must match legal name assigned to the TIN number. A current W9 should be submitted with your bid submittal.

Contact Person: _____

Phone Number: _____

Cell Phone Number: _____

Email Address: _____

Type of Organization (select one type)

- □ Sole Proprietorship
- □ Partnership
- □ Non-Profit
- □ Sub Chapter
- □ Joint Venture
- □ Corporation
- □ LLC
- □ LLP
- □ Publicly Traded
- □ Employee Owned

State of Incorporation: _____

The Successful vendor must complete and submit this form prior to award. The Successful vendor must invoice using the company name listed above.

EXHIBIT 1
DETAILED INSTRUCTIONS ON HOW TO PREPARE AND SEND PERFORMANCE SURVEYS

The objective of this process is to identify the past performance of the Contractor submitting a proposal package. This is accomplished by sending survey forms to past customers. The customers should return the forms directly to the Contractor. The Contractor is to include all surveys in their proposal package.

Sending the Survey

The surveys shall be sent to all clients for whom the Contractor has identified under Tab 3. Surveys should correlate to all projects identified under Tab 3.

If more surveys are included, then Procurement will only use those identified under Tab 3.

1. The Contractor shall complete the following information for each customer that a survey will be sent

CLIENT NAME	Name of the company that the work was performed for (i.e. Hillsborough County).
FIRST NAME	First name of the person who will answer customer satisfaction questions.
LAST NAME	Last name of the person who will answer customer satisfaction questions.
PHONE NUMBER	Current phone number for the reference (including area code).
EMAIL ADDRESS	Current email address for the reference.
PROJECT NAME	Name of the project (Geotechnical Services/Construction Material Testing and Inspection for X Project)
COST OF SERVICES	Cost of services ($250,000)
DATE COMPLETE	Date when the services were completed. (i.e. 5/31/2022)

2. The Contractor is responsible for verifying that their information is accurate prior to submission for references.

3. The survey must contain different services/projects. You cannot have multiple people evaluating the same job. However, one person may evaluate several different jobs.

4. The past projects can be either completed or on-going.

5. The past client/owner must evaluate and complete the survey.

Preparing the Surveys

1. The Contractor is responsible for sending out a performance survey to the clients that have been identified under Tab 3. The survey can be found on the next page.
2. The Contractor should enter the past clients' contact information, and project information on each survey form for each reference. The Contractor should also enter their name as the Contractor being surveyed.
3. The Contractor is responsible for ensuring all references/surveys are included in their submittal under Tab 8
4. Polk County Procurement may contact the reference for additional information or to clarify survey data. If the reference cannot be contacted, there will be no credit given for that reference.

Contract Start Date: _____ Contract End Date: _____

Rate each of the criteria on a scale of 1 to 10, with 10 representing that you were very satisfied (and would hire the Consultant /individual again) and 1 representing that you were very unsatisfied (and would never hire the Consultant /individual again). Please rate each of the criteria to the best of your knowledge. If you do not have sufficient knowledge of past performance in a particular area, leave it blank.

NO	CRITERIA	UNIT	SCORE
1	Ability to manage cost	(1-10)	
2	Ability to maintain project schedule (complete on-time/early)	(1-10)	
3	Quality of workmanship	(1-10)	
4	Professionalism and ability to manage	(1-10)	
5	Close out process	(1-10)	
6	Ability to communicate with Client's staff	(1-10)	
7	Ability to resolve issues promptly	(1-10)	
8	Ability to follow protocol	(1-10)	
9	Ability to maintain proper documentation	(1-10)	
10	Appropriate application of technology	(1-10)	
11	Overall Client satisfaction and comfort level in hiring	(1-10)	
12	Ability to offer solid recommendations	(1-10)	
13	Ability to facilitate consensus and commitment to the plan of action among staff	(1-10)

Exhibit “A”
Specific Services

Specific services shall include, but not be limited to, sampling and testing of soils, concrete, asphalt and various other construction materials.

1.	In-Place density tests
2.	Standard or modified proctors
3.	Limerock Bearing Ratio tests (3 points)
4.	Compressive strength of concrete cylinders (4 per set)
5.	Compressive strength of soil-cement pills (4 per set)
6.	Core drilling & soils analysis
	STEEL INSPECTION
1.	Inspection of Welds & Bolt Torqueing A) At Plant B) At Job Site 1. One (1) Man Inspection Crew 2. Two (2) Men Inspection Crew
2.	Reinforcing Steel Inspection
3.	Nondestructive Testing of Steel & Connections
	GEOTECHNICAL INVESTIGATIONS & SOIL TESTS
1.	**Standard Penetration Test Borings (ASTM D-1586)(Minimum 50 feet per job)** A) 0-50 foot depth interval B) 50-100 foot depth interval C) 100-125 foot depth interval D) 125-150 foot depth interval
2.	Solid Auger Stem Borings (minimum 100 feet per job)
3.	Manual Auger Borings
4.	Drill Service from Floating Platform
5.	Rock Coring
6.	Installation of Steel Casing

7.	Ground Penetrating Radar
8.	Cone Penetrometer Radar
9.	Dilatometer Soundings
10.	Atterberg Limits A) Liquid Limit (LL) – Plastic Limit (PL) B) Shrinkage Limit (SL)
11.	California Bearing Ratio
12.	Consolidation A) Consolidation with Reload
13.	Corrosion Resistance (pH and R)
14.	Field Density Tests (minimum 3 tests per trip)
15.	Florida Bearing Value (FBCV)
16.	Florida Bearing Value Determination of Blend Proportions
17.	Grain Size: A) Hydro Analysis B) Sieve Analysis (Wash No. 200 Sieve)
18.	Ground Penetrating Radar
	GEOTECHNICAL INVESTIGATIONS & SOIL TESTS
19.	Limerock Bearing Ratio (LBR) (3 point)
20.	Limerock Bearing Ratio (LBR) (5 point)
21.	Moisture Content
22.	Moisture Density Test (Standard or Modified Proctor)
23.	Muck Probing 2 Man Crew 3 Man Crew
24.	Organic Content Determination
25.	Monitor Well Installation includes permits, lithologic log, and report – 2” or 4” PVC with removable, water-tight plug
	Hollow Stem Auger Boring
	Casing: 2-inch PVC (site spec. may require stickup)
	Casing: 4-inch PVC (site spec. may require stickup)
	Casing: 2-inch Steel (site spec. may require stickup)

	Casing: 4-inch Steel (site spec. may require stickup)
	0.010-inch Filter Screen: 2-inch PVC + min. 6-inch tail
	0.005-inch Filter Screen: 2-inch PVC + min. 6-inch tail
	0.010-inch Filter Screen: 4-inch PVC + min. 6-inch tail
	0.005-inch Filter Screen: 4-inch PVC + min. 6-inch tail
	Filter Sand: Varies from approx. 30/65 to approx. 20/30
	Bentonite: Chips / Balls
	Bentonite: Slurry / Slurry by tremie pipe
	Neat Grout
	Protective Casing (Hinged top and lockable) w/ name plate
	Concrete Pad (2'x2'x4" above-ground or 12-inch flush-mount round)
	Concrete-filled, Painted, Protective Bollard min. 4.5-inch O.D. max 6-inch O.D. (4-foot tall / 2-foot buried)
26.	Well Abandonment includes permits and report
	2-inch Well
	4-inch Well
27.	Tracked-Mounted Direct Push Technology (DPT) Rig w/all equipment and crew
	GEOTECHNICAL INVESTIGATIONS & SOIL TESTS
28.	pH
29.	Permeability Tests – Field (15', 2 depths) (Excluding auger borings & vertical permeability)
30.	Permeability Tests – Laboratory Granular Soil Cohesive Soil
31.	Soil-Cement, Field Testing & Observation
32.	Soil-Cement, Laboratory Design Mixes (FOB Laboratory)

33.	Soil Plate Load Test (ASTM)
34.	Specific Gravity
35.	Double Ring Infiltrometer Test
36.	Relative Density Test
37.	Triaxial Compression Test (CU) (3 points) Additional points
38.	Unconfined Compression Tests
39.	Undisturbed Thin-Walled Tube Sampling
40.	Unit Weight
	ASPHALTIC CONCRETE INSPECTION SERVICES
1.	Asphaltic Concrete Paving Plant Inspection
2.	Asphalt Mix-Gradation
3.	Asphalt Mix-Bulk Specific Gravity
4.	Asphalt Mix-Gradation
5.	Asphalt Mix- Maximum Specific Gravity
6.	Asphalt Mix- Temperature
7.	RAP – Asphalt Binder Content
8.	RAP – Gradation
9.	RAP- Maximum Specific Gravity
10.	Coring Pavement for Density and/or Thickness
11.	Asphalt Core Density (core provided by others)
12.	Gyratory Compaction for SuperPave AASH to TP4-00
13.	Quantitative Determination of Asphalt Content from Asphalt Paving Mixtures by the Ignition Method FM5-563
	CONCRETE TESTING
	Concrete Aggregate Tests (FOB Lab)
1.	Sieve Analysis, Fine or Coarse
2.	Absorption
3.	Specific Gravity

4.	Unit Weight
5.	Material Finer than No. 200 Sieve
6.	Organic (Color metric ASTM C-40)
7.	Salt Content
8.	Los Angeles Abrasion
9.	Soundness (5 cycle sodium sulfate) (5 cycle magnesium sulfate)
10.	Masonry Mortar strength Comparative, Sand or Water
	Concrete Beams
11.	Flexural Strength, Making & Testing (3 tests per set)
	Concrete Masonry Units or Prisms
12.	Compressive Strength, ASTM C-140, 5 Specimens
13.	Absorption & Moisture Content, ASTM C-150, 5 Specimens
14.	Compressive Strength Testing of Hollow Masonry Prisms ASTM E-477 (FOB)
15.	Compressive Strength Testing of Hollow Masonry Prisms with Grouted Cells, ASTM E-477
16.	Molding, Curing & Testing of 2” x 2” Masonry Mortar Cubes (set of 3 cubes)
17.	Concrete Masonry Units, ASTM Test (5 Compression & 5 Absorption Tests)
	Concrete Coring
18.	Securing Structural or Pavement Cores, Compression Tests & Thickness
19.	Coring Site Accessible – Does not include mobilization charge, staging and/or scaffolding, 4” diameter or smaller, 6” thickness or less. Compressive Strength of Concrete Cores (cores provided by others)
	Grout Cubes
20.	Making and Compression Tests of 2” Cubes from Job Site (set of 3)

	Concrete Cylinders
21.	Making & Compression Tests of 6” x 12” Cylinders (Slump Test Included)
22.	Compression Tests of 6” x 12” Cylinders
23.	Extra Slump Tests
24.	Air Content Tests
	Concrete Design Mixes
25.	Concrete Design Mixes (including standard aggregate tests & one trial batch with 6 compression test cylinders)
26.	Brush/Loss (for soil Cement basis) ASTM Durarock & Pug Mix
27.	Linear Shrinkage Tests of Concrete Block (ASTM 426)
28.	Concrete Ready Mix Plant or Job Inspection
29.	Pre-Fabricated Panel Tests, ASTM or FHA

May 10, 2023

POLK COUNTY, A POLITICAL SUBDIVISION OF THE STATE OF FLORIDA

ADDENDUM #1
RFP 23-328, Professional Geotechnical Services and Construction Material Testing and Inspection

This addendum is issued to clarify, add to, revise and/or delete items of the RFP Documents for this work. This Addendum is a part of the RFP Documents and acknowledgment of its receipt should be noted on the Addendum.

Contained within this addendum: Correction to Contractual Matters reference on page 20 of the RFP document.

ADDENDUM #1

RFP 23-328, Professional Geotechnical Services and Construction Material Testing and Inspection

CLARIFICATION

DELETE IN ITS ENTIRETY:

Page 20, Contractual Matters

A contract in substantially the same form as attached here to as Attachment "A" (Master Consulting Agreement) will be executed between the County and the successful Proposer(s).

All contracts are subject to final approval of the Polk County Board of County Commissioners. Persons or firms who incur expenses or change position in anticipation of a contract prior to the Board's approval do so at their own risk.

REPLACE WITH:

A contract in substantially the same form as attached here to as Attachment "B" (Master Consulting Agreement) will be executed between the County and the successful Proposer(s).

All contracts are subject to final approval of the Polk County Board of County Commissioners. Persons or firms who incur expenses or change position in anticipation of a contract prior to the Board's approval do so at their own risk.

DRAFT AGREEMENT
MASTER CONSULTING AGREEMENT

THIS AGREEMENT is entered into as of the Effective Date (defined in Section 1.1 below) by and between Polk County (the "County"), a political subdivision of the State of Florida, situated at 330 W. Church Street, Bartow, Florida 33830, _____ (the "Consultant") a _____ _____, located at _____, and whose Federal Employer Identification Number is: _____.

WHEREAS, County requires certain professional services in connection with the performance of certain professional geotechnical services and construction material testing and inspection for all Divisions in the County; and,

WHEREAS, the County has solicited for these services via RFP 23-328, an advertised request for proposals (the "RFP"), and has received numerous responsive proposals thereto; and

WHEREAS, pursuant to the RFP, the County has selected the Consultant and the Consultant remains agreeable to providing the County the professional services described herein, and the Consultant represents that it is capable and prepared to do so according to the terms and conditions stated herein;

NOW, THEREFORE, in consideration of the mutual understandings and covenants set forth herein, the parties hereby agree, as follows:

1.0 **Term**

1.1 This Agreement shall take effect on the date of its execution by the County (the "Effective Date").

1.2 The term of this Agreement shall be for a five (5) year time period, commencing upon the Effective Date and remaining in full force and effect thereafter, unless otherwise sooner terminated as provided herein.

2.0 **Services to Be Performed by Consultant**

2.1 Consultant shall perform the services as generally described in (i) the County's Request for Proposals RFP 23-328, to include all attachments and addenda, and (ii) the Consultant's responsive proposal thereto (collectively, (i) and (ii) are "RFP 23-328") all of which are incorporated into this Agreement by this reference, attached hereto as a composite Exhibit "A" and made a part of

this Agreement, and as may be further specifically designated and authorized by the County, in writing (collectively, the "Services"). Such authorization will be referred to as a Consultant Services Authorization ("CSA") or a Contract Purchase Order ("CPO") and all provisions of this Agreement apply to the CSA/CPO with full force and effect as if appearing in full within each CSA/CPO. Each CSA/CPO will set forth a specific Scope of Services, maximum limit of compensation, schedule, liquidated damages and completion date, and shall become effective upon the due execution.

2.2 The Consultant is not authorized to undertake any project without a duly executed CSA/CPO, which shall specify the work to be performed and the time to be completed. Consultant recognizes that the County may employ several different Consultants to perform the work described and that the Consultant has not been employed as the exclusive agent to perform any such services.

2.3 When the Consultant and the County enter into a CSA/CPO where the term of the CSA/CPO expires on a date that is later than the date that the Master Consulting Agreement (MCA) expires, the Consultant and the County agree that the terms of the MCA and any amendments, attachments or provisions thereof are automatically extended until the expiration (including any extension or amendment thereto) or full completion of the requirements of the CSA/CPO have been performed. Cancellation by the County of any remaining work prior to the full completion of the requirements of the CSA/CPO shall cause the terms of the MCA to terminate at the same time. This provision only applies when the expiration of the CSA/CPO extends beyond the expiration of the MCA. It does not apply when a CSA/CPO expires or is cancelled prior to the expiration of the MCA.

3.0 **Compensation**

3.1 General

3.1.1 County shall pay Consultant in accordance with Exhibit "B", "Fee Schedule", which is attached hereto and incorporated by reference as part of this Agreement. The fee schedule identifies all job classifications, which will perform billable services pursuant to this Agreement and the fee for each job classification. Performance of work by personnel in job classifications not listed on the fee schedule will result in nonpayment for such services.

3.1.2 Upon the mutual agreement of the parties, the Fee Schedule, as set out in Exhibit "B" may be adjusted by a written Amendment to the Master Consulting Agreement annually beginning one year from the Effective Date of this Agreement. Such amendment must be executed by both parties and shall operate prospectively only and shall not alter fee schedules for CSA's/CPO's in effect at the time of the amendment.

3.1.3 Compensation may be negotiated as a not to exceed price or a lump sum amount on a per-project basis, on each individual CSA/CPO.

3.1.4 In the event a not to exceed price is negotiated, compensation shall be billed and paid based on and in accordance with the Hourly Rate Schedule attached hereto and incorporated herein as Exhibit "B". The Hourly Rate Schedule identifies all job classifications which will perform billable services pursuant to this Agreement and the fee for each job classification. Performance of work by personnel in job classifications not listed on the fee schedule will result in nonpayment for such services.

3.1.5 Invoices must reference the applicable CSA/CPO number, using an invoice form approved by the County Auditor.

3.1.6 Each individual invoice shall be due and payable forty-five (45) days after receipt by the County of correct, fully documented, invoice, in form and substance satisfactory to the County with all appropriate cost substantiations attached. All invoices shall be delivered, as applicable based on the particular project:

Polk County Roads & Drainage Division
P.O. Box 9005, Bartow, FL 33830
Attention: Director

3.1.7 In order for both parties herein to close their books and records, the Consultant will clearly state "Final Invoice" on the Consultant's final/last billing to the County. This certifies that all services have been properly performed and all charges and costs have been invoiced to the County. Since this account will thereupon be closed, any and other further charges if not properly included on this final invoice are waived by the Consultant.

3.1.8 Payment of the final invoice shall not constitute evidence of the County's

DRAFT

acceptance of the work

3.1.9 Invoices shall be accompanied by time and task records for all billable hours appearing on the invoice. Additional documents may be requested by County and, if so requested, shall be furnished by Consultant to County Auditor's satisfaction.

3.1.10 By submission of an invoice, the project manager or designated payroll officer is deemed to be attesting to the correctness and accuracy of time charges and requested reimbursements.

3.1.11 Pursuant to Section 3.1.4, if a not to exceed fee is negotiated, invoices shall be accompanied by time and task records for all billable hours appearing on the invoice. Alternatively, if a lump sum amount is negotiated, invoices shall be made upon the completion of each phase of the work in proportion to the Services performed, as specifically set forth in the applicable CSA or CPO. Additional documentation may be requested by the County and, if so requested, shall be furnished by the Consultant to the County Auditor's satisfaction.

3.2 Reimbursable

3.2.1 All requests for payment of out-of-pocket expenses eligible for reimbursement under the terms of this Agreement shall be reimbursed per the County's Reimbursable Schedule, Exhibit "C", and include copies of paid receipts, invoices or other documentation acceptable to the County's Auditor. Such documentation shall be sufficient to establish that the expense was actually incurred and necessary in the performance of the Scope of Work described in this Agreement, CSA, or CPO.

3.2.2 Reimbursable Expenses are the actual, pre-approved, expenses incurred directly in connection with the applicable CSA or CPO, and include:

Overnight Deliveries
Reproduction
Sub-Consultant
Long Distance Telephone Calls (excluding Florida cities located outside the boundaries of Polk County)

3.2.3 Mileage and associated travel costs shall be reimbursed in accordance with F.S. 112.061 and County policy for pre-approved out-of-county travel (excluding travel from home

offices located outside of Polk County to the Polk County line).

3.2.4 All assets, i.e. durable goods, purchased as reimbursable expenses become the property of the County upon completion of the work for which the asset was utilized. All such assets must be surrendered by delivery to the Polk County Roads & Drainage Division offices upon demand, termination of the Agreement, or the conclusion of the project, whichever occurs first.

3.2.5 Consultant shall maintain a current inventory of all such assets.

4.0 **Insurance**

4.1 General Provisions

4.1.1 Consultant shall maintain, at all times, the following minimum levels of insurance and shall, without in any way altering their liability, obtain, pay for and maintain insurance for the coverages and amounts of coverage not less than those set forth below and provide the County with a Certificate of Insurance and an opportunity to inspect a certified copy of each policy applicable to this Agreement followed thereafter by an annual Certificate of Insurance satisfactory to the County to evidence such coverage before any work commences.

4.1.2 The County shall be named as an additional insured on all Consultant policies related to the project, excluding professional liability and worker's compensation. The Commercial General Liability and Worker's Compensation Liability policies shall contain a waiver of subrogation in favor of Polk County. All insurance coverage shall be written with an insurer having an A.M. Best Rating of a least the "A" category and size category of VIII.

4.1.3 The Consultant's self-insured retention or deductible per line of coverage shall not exceed $25,000.00 without the permission of the County.

4.1.4 If there is any failure by the Consultant to comply with the provisions of this section, the County may, at its option, on notice to the Consultant, suspend the work for cause until there is full compliance.

4.1.5 County may, at its sole discretion, purchase such insurance at Consultant's expense provided that the County shall have no obligation to do so and if the County shall do so, it shall not relieve Consultant of its obligation to obtain insurance.

DRAFT

4.1.6 The Consultant shall not be relieved of or excused from the obligation to obtain and maintain such insurance amount and coverages.

4.1.7 All Consultants' subconsultants shall be required to include County and Consultant as additional insured on their General Liability Insurance policies.

4.1.8 In the event that subconsultants used by the Consultant do not have insurance, or do not meet the insurance limits, Consultant shall indemnify and hold harmless the County for any claim in excess of the subconsultants' insurance coverage.

4.1.9 The Consultant shall not commence work under this Agreement until all insurance required as stated herein has been obtained and such insurance has been approved by the County.

4.2 Comprehensive Automobile Liability Insurance. $1,000,000.00 combined single limit of liability for bodily injuries, death and property damage resulting from any one occurrence, including all owned, hired, and non-owned vehicles.

4.3 Commercial General Liability. $1,000,000.00 combined single limit of liability for bodily injuries, death and property damage, and personal injury resulting from any one occurrence, including the following coverages:

4.3.1 Premises and Operations:

Broad Form Commercial General Liability Endorsement to include Blanket Contractual liability (specifically covering, but not limited to, the contractual obligations assumed by the Firm); Personal Injury (with employment and contractual exclusions deleted); and Broad Form Property Damage coverage.

4.3.2 Independent Contractors:

Delete Exclusion relative to collapse, explosion and underground; Property Damage Hazards; Cross Liability Endorsement; and Contractual liability (specifically covering, but not limited to, the contractual obligations assumed by the Firm)

4.4 Umbrella (Excess) Liability Insurance. Umbrella Liability with limits of not less than $1,000,000.00, exclusive of defense costs, to be in excess of all other coverages. Such coverage shall be at least as broad as the primary coverages above, with any excess umbrella layers written on a

strict following form basis over the primary coverage. All such policies shall be endorsed to provide defense coverage obligations.

4.5 Professional Liability Insurance. $2,000,000.00 for design errors and omissions, inclusive of defense costs. Consultant shall be required to provide continuing Professional Liability Insurance to cover each project for a period of two (2) years after the project is completed. Insurance requirements may vary depending on projects as determined by the County Director of Risk Management and Insurance. The County may require the Consultant to provide a higher level of coverage for a specific project and time frame.

4.6 Performance, Payment and Other Bonds. Consultant shall furnish Performance and Payment Bonds specific to each project if required and agreed to under the CSA or CPO for the project.

4.7 Worker's Compensation. The Consultant shall provide, pay for, and maintain worker's compensation insurance on all employees, its agents or subcontractors as required by Florida Statutes.

5.0 **Standard of Care**

5.1 Consultant has represented to the County that it has the personnel and experience necessary to perform the work in a professional and workmanlike manner.

5.2 Consultant shall exercise the same degree of care, skill, and diligence in the performance of the Services as is provided by a professional of like experience, knowledge and resources, under similar circumstances.

5.3 Consultant shall, at no additional cost to County, re-perform services which fail to satisfy the foregoing standard of care or otherwise fail to meet the requirement of this Agreement.

5.4 The Consultant warrants that all services shall be performed by skilled and competent personnel to the professional standards in the field.

6.0 **Indemnification**

6.1 General. Having considered the risks and potential liabilities that may exist during the performance of the Services and in consideration of the promises included herein, County and

DRAFT

Consultant agree to allocate such liabilities in accordance with this Section.

6.2 Indemnification.

6.2.1 Consultant, to the extent permitted by law, shall indemnify, defend (by counsel reasonably acceptable to County) protect and hold County, and its officers, employees and agents harmless from and against any and all, claims, actions, causes of action, liabilities, penalties, forfeitures, damages, losses and expenses (including, without limitation, attorney's fees costs and expenses incurred during negotiation, through litigation and all appeals therefrom) whatsoever including, but not limited, to those pertaining to the death of or injury to any person, or damage to any property, arising out of or resulting from (i) the failure of Consultant to comply with applicable laws, rules or regulations, (ii) the breach by Consultant of its obligations under this Agreement, (iii) any claim for trademark, patent or copyright infringement arising out of the scope of Consultant's performance or nonperformance of this Agreement, or (iv) the negligent acts, errors or omissions, or intentional or willful misconduct, of Consultant, its professional associates, its subcontractors, agents, and employees provided, however, that Consultant shall not be obligated to defend or indemnify the County with respect to any such claims or damages arising out of the County's sole negligence.

6.2.2 County review, comment and observation of the Consultant's work and performance of this Agreement shall in no manner constitute a waiver of the indemnification provisions of this Agreement.

6.2.3 Consultant agrees that it bears sole legal responsibility for its work and work product, and the work and work product of subconsultants and their employees, and/or for Consultant's performance of this Agreement and its work product(s).

6.3 Survival. Upon completion of all Services, obligations and duties provided for in this Agreement, or in the event of termination of this Agreement for any reason, the terms and conditions of this Agreement shall survive as if the Agreement were in full force and effect.

7.0 **Independent Contractor**

7.1 Consultant undertakes performance of the Services as an independent contractor and shall be wholly responsible for the methods of performance.

7.2 County shall have no right to supervise the methods used, but County shall have the right to observe such performance.

7.3 Consultant shall work closely with County in performing Services under this Agreement.

7.4 The Consultant shall not pledge the County's credit or make it a guarantor of payment or surety for any contract, debt, obligation, judgment, lien or any form of indebtedness and shall have no right to speak for or bind the County in any manner.

7.5 Consultant further warrants and represents that it has no obligation or indebtedness that would impair its ability to fulfill the terms of this Agreement.

8.0 **Authority to Practice**

8.1 The Consultant hereby represents and warrants that it has and will continue to maintain all licenses and approvals required to conduct its business, and that it will at all times conduct its business activities in a reputable manner.

9.0 **Public Records Law**

(a) The Consultant acknowledges the County's obligations under Article I, Section 24, of the Florida Constitution and under Chapter 119, Florida Statutes, to release public records to members of the public upon request and comply in the handling of the materials created under this Agreement. The Consultant further acknowledges that the constitutional and statutory provisions control over the terms of this Agreement. In association with its performance pursuant to this Agreement, the Consultant shall not release or otherwise disclose the content of any documents or information that is specifically exempt from disclosure pursuant to all applicable laws.

(b) Without in any manner limiting the generality of the foregoing, to the extent applicable, the Contractor acknowledges its obligations to comply with Section 119.0701, Florida Statutes, with regard to public records, and shall:

(1) keep and maintain public records required by the County to perform the services required under this Agreement;

(2) upon request from the County's Custodian of Public Records or his/her designee, provide the County with a copy of the requested records or allow the records to be inspected or copied within a reasonable time at a cost that does not exceed the cost provided in Chapter 119, Florida Statutes, or as otherwise provided by law;

(3) ensure that public records that are exempt or confidential and exempt from public records disclosure requirements are not disclosed except as authorized by law for the duration of the term of this Agreement and following completion of this Agreement if the Consultant does not transfer the records to the County; and

(4) upon completion of this Agreement, transfer, at no cost, to the County all public

records in possession of the Consultant or keep and maintain public records required by the County to perform the service. If the Consultant transfers all public records to the County upon completion of this Agreement, the Consultant shall destroy any duplicate public records that are exempt or confidential and exempt from public records disclosure requirements. If the Consultant keeps and maintains public records upon completion of this Agreement, the Consultant shall meet all applicable requirements for retaining public records. All records stored electronically must be provided to the County, upon request from the County's Custodian of Public Records, in a format that is compatible with the information technology systems of the County.

(c) **IF THE CONSULTANT HAS QUESTIONS REGARDING THE APPLICATION OF CHAPTER 119, FLORIDA STATUTES, TO THE CONTRACTOR'S DUTY TO PROVIDE PUBLIC RECORDS RELATING TO THIS AGREEMENT, CONTACT THE COUNTY'S CUSTODIAN OF PUBLIC RECORDS AT:**

RECORDS MANAGEMENT LIAISON OFFICER
POLK COUNTY
330 WEST CHURCH ST.
BARTOW, FL 33830
TELEPHONE: (863) 534-7527
EMAIL: RMLO@POLK-COUNTY.NET

10.0 **Compliance with Laws**

10.1 In performance of the Services, Consultant shall comply with applicable regulatory requirements including federal, state, special district, and local laws, rules, regulations, orders, codes, criteria and standards, including those now in effect and hereafter adopted.

11.0 **Subcontracting**

11.1 The County reserves the right to accept the use of a subcontractor or to reject the selection of a particular subcontractor and to inspect all facilities of any subcontractor.

11.2 If a subcontractor fails to perform or make progress, as required by this Agreement, and it is necessary to replace the subcontractor to complete the work in a timely fashion, the Consultant shall promptly do so, subject to acceptance of the new subcontractor by the County. Failure of a Subcontactor to timely or properly perform its obligations shall not relieve Consultant of its obligations hereunder.

12.0 **Federal and State Taxes**

12.1 The County is exempt from Federal Tax and State Sales and Use Taxes. Upon request, the County will provide an exemption certificate to Consultant. The Consultant shall not be exempted from paying sales tax to its suppliers for materials to fulfill contractual obligations with the County, nor shall the Consultant be authorized to use the County's Tax Exemption Number in securing such materials.

13.0 **Public Entity Crimes**

13.1 The Consultant understands and acknowledges that this Agreement with the County will be voidable by the County, in the event the conditions under Section 287.133, Florida Statutes applies to the Consultant, relating to conviction for a public entity crime.

14.0 **County's Responsibilities**

14.1 County shall be responsible for providing access to all County project sites, and providing information in the County's possession that may reasonably be required by Consultant, including; existing reports, studies, financial information, and other required data that are available in the files of the County.

15.0 **Termination of Agreement**

15.1 This Agreement may be terminated by the Consultant upon thirty (30) days prior written notice to the County in the event of substantial failure by the County to perform in accordance with the terms of the Agreement through no fault of the Consultant.

15.2 This Agreement may be terminated by the County with or without cause immediately upon written notice to the Consultant.

15.3 Unless the Consultant is in breach of this Agreement, the Consultant shall be paid for services rendered to the County's satisfaction through the date of termination.

15.4 After receipt of a Termination Notice, as described in this Article 15.0, and except as otherwise directed by the County, the Consultant shall:

15.4.1 Stop work on the date and to the extent specified.

15.4.2 Terminate and settle all orders and subcontracts relating to the performance of the terminated work.

15.4.3 Transfer all work in process, completed work, and other material related to the terminated work to the County.

15.4.4 Continue and complete all parts of the work that have not been terminated.

16.0 **Uncontrollable Forces (Force Majeure)**

16.1 Either party hereunder may be temporarily excused from performance if an Event of Force Majeure directly or indirectly causes its nonperformance. An "Event of Force Majeure" is defined as any event which results in the prevention or delay of performance by a party of its obligations under this Agreement and which is beyond the reasonable control of the nonperforming party. It includes, but is not limited to fire, flood, earthquakes, storms, lightning, epidemic, war, riot, civil disturbance, sabotage, and governmental actions. Neither party shall be excused from performance if non-performance is due to forces which are reasonably preventable, removable, or remediable and which the non-performing party could have, with the exercise of reasonable diligence, prevented, removed, or remedied prior to, during, or immediately after their occurrence. Within five (5) days after the occurrence of an Event of Force Majeure, the non-performing party shall deliver written notice to the other party describing the event in reasonably sufficient detail, along with proof of how the event has precluded the non-performing party from performing its obligations hereunder, and a good faith estimate as to the anticipated duration of the delay and the means and methods for correcting the delay. The non-performing party's obligations, so far as those obligations are affected by the Event of Force Majeure, shall be temporarily suspended during, but no longer than, the continuance of the Event of Force Majeure and for a reasonable time thereafter as may be required for the non-performing party to return to normal business operations. If excused from performing any obligations under this Agreement due to the occurrence of an Event of Force Majeure, the non-performing party shall promptly, diligently, and in good faith take all reasonable action required for it to be able to commence or resume performance of its obligations under this Agreement. During any such time period, the non-performing party shall keep the other party duly notified of all such actions required for it to be able to commence or resume performance of its obligations under this Agreement.

17.0 **Governing Law and Venue**

DRAFT

17.1 This Agreement shall be governed in all respects by the laws of the State of Florida and any litigation with respect thereto shall be brought only in the courts of Polk County, Florida or the United States District Court, Middle District of Florida located in Hillsborough County, Florida. Each party shall be responsible for its own attorneys' fee and other legal costs and expenses.

18.0 **Non-Discrimination**

18.1 The Consultant warrants and represents that all of its employees are treated equally during employment without regard to race, color, religion, gender, age or national origin.

19.0 **Waiver**

19.1 A waiver by either County or Consultant of any breach of this Agreement shall not be binding upon the waiving party unless such waiver is in writing. In the event of a written waiver, such a waiver shall not affect the waiving party's rights with respect to any other or further breach. The making or acceptance of a payment by either party with knowledge of the existence of a default or breach shall not operate or be construed to operate as a waiver of any subsequent default or breach.

20.0 **Severability**

20.1 The invalidity, illegality, or unenforceability of any provision of this Agreement, or the occurrence of any event rendering any portion or provision of this Agreement void, shall in no way affect the validity or enforceability of any other portion or provision of the Agreement.

20.2 Any void provision shall be deemed severed from the Agreement and the balance of the Agreement shall be construed and enforced as if the Agreement did not contain the particular portion or provision held to be void.

20.3 The parties further agree to reform the Agreement to replace any stricken provision with a valid provision that comes as close as possible to the intent of the stricken provision.

20.4 The provisions of this section shall not prevent the entire Agreement from being void should a provision which is of the essence of the Agreement be determined to be void.

21.0 **Entirety of Agreement**

21.1 The County and the Consultant agree that this Agreement sets forth the entire Agreement between the parties, and that there are no promises or understandings other than those stated

DRAFT

herein.

21.2 This Agreement supersedes all prior agreements, contracts, proposals, representations, negotiations, letters or other communications between the County and Consultant pertaining to the Services, whether written or oral.

21.3 None of the provisions, terms and conditions contained in this Agreement may be added to, modified, superseded or otherwise altered except by written instrument executed by the parties hereto.

22.0 **Modification**

22.1 This Agreement may not be modified unless such modifications are evidenced in writing signed by both County and Consultant. Such modifications shall be in the form of a written Amendment executed by both parties.

23.0 **Successors and Assigns**

23.1 County and Consultant each binds itself and its partners, successors, permitted assigns, and legal representatives to the other party to this Agreement and to the partners, successors, executors, administrators, permitted assigns, and legal representatives of such other party.

23.2 Consultant shall not assign this Agreement without the express written approval of the County by executed amendment, which approval may be withheld in the County's sole discretion.

23.3 In the event of a merger, the surviving corporation shall be substituted for the contracting party to this agreement and such substitution shall be affirmed by the County by executed amendment.

24.0 **Contingent Fees**

24.1 The Consultant warrants that it has not employed or retained any company or person, other than a bona fide employee working solely for the Consultant to solicit or secure this Agreement and that it has not paid or agreed to pay any person, company, corporation, individual or firm, other than bona fide employee working solely for the Consultant, any fee, commission, percentage, gift or any other consideration contingent upon or resulting from the award or making of this Agreement.

DRAFT

25.0 **Truth-In-Negotiation Certificate**

25.1 Execution of this Agreement by the Consultant shall act as the execution of a Truth-in-Negotiation certificate certifying that the wage rates and costs used to determine the compensation provided for in this Agreement are accurate, complete, and current as of the Effective Date of this Agreement.

25.2 The said rates and costs shall be adjusted to exclude any significant sums should the County determine that the rates and costs were increased due to inaccurate, incomplete or noncurrent wage rates or due to inaccurate representations of fees paid to outside consultants. The County shall exercise its rights under this "Certificate" within one (1) year following payment.

26.0 **Ownership of Documents**

26.1 Consultant shall be required to cooperate with other consultants relative to providing information requested in a timely manner and in the specified form. Any and all documents, records, disks, original drawings, or other information shall become the property of the County for its use and/or distribution as may be deemed appropriate by the County. Consultant is not liable for any damages, injury or costs associated with the County's use or distribution of these documents for purposes other than those originally intended by Consultant.

27.0 **Access and Audits**

27.1 Consultant shall maintain adequate records to justify all charges and costs incurred in performing the work for at least three (3) years after completion of this Agreement. The County shall have access to such books, records, and documents as required in this section for the purpose of inspection or audit during normal business hours at the Consultant's place of business.

27.2 Misrepresentations of billable time or reimbursable expenses as determined by the Auditor to the Polk County Board of County Commissioners shall result in the recovery of any resulting overpayments. The County's cost of recovery shall be the sole expense of the Consultant, including accounting and legal fees, court costs and administrative expenses.

27.3 Intentional misrepresentations of billable hours and reimbursable expenses will be criminally prosecuted to the fullest extent of the law.

27.4 All invoices submitted are subject to audit and demand for refund of overpayment up to three (3) years following completion of all services related to this Agreement.

28.0 **Notice**

28.1 Any notice, demand, communication, or request required or permitted hereunder shall be in writing and delivered in person or sent by Federal-Express or by Certified Mail, postage prepaid as follows:

As to County: Roads & Drainage
P.O. Box 9005
Bartow, FL 33830
Attention: Director

As to Consultant:

28.2 Notices shall be effective when received at the addresses as specified above. Changes in the respective addresses to which such notice is to be directed may be made from time to time by either party by written notice to the other party. Facsimile transmission is acceptable notice effective when received, however, facsimile transmissions received (i.e.; printed) after 5:00 p.m., or on weekends or holidays, will be deemed received on the next business day. The original of the notice must additionally be mailed as required herein.

28.3 Nothing contained in this Article shall be construed to restrict the transmission of routine communications between representatives of Consultant and County.

29.0 **Service of Process**

As to County: County Attorney
County Administration Building
330 W. Church Street, 4th Floor
Bartow, Florida 33830

As to Consultant:

30.0 **Contract Administration**

DRAFT

30.1 Services of Consultant shall be under the general direction of the Roads and Drainage Division Director, or their successor, who shall act as the County's representative during the term of this Agreement.

31.0 **Key Personnel**

31.1 Consultant shall notify County in the event of key personnel changes, which might affect this Agreement. To the extent possible, notification shall be made within ten (10) days prior to changes. Consultant at County's request shall remove without consequence to the County any Subcontractor or employee of the Consultant and replace him/her with another employee having the required skill and experience. County has the right to reject proposed changes in key personnel. The following personnel shall be considered key personnel:

Name: _____

Name: _____

32.0. **Annual Appropriations**

32.1 Consultant acknowledges that the County, during any fiscal year, shall not expend money, incur any liability, or enter into any agreement which, by its terms, involves the expenditure of money in excess of the amounts budgeted as available for expenditure during such fiscal year. Any agreement, verbal or written, made in violation of this subsection is null and void, and no money may be paid on such agreement. Nothing herein contained shall prevent the making of agreements for a period exceeding one year, but any agreement so made shall be executory only for the value of the services to be rendered or agreed to be paid for in succeeding fiscal years. Accordingly, the County's performance and obligation to pay under this agreement is contingent upon annual appropriation.

33.0 **Liquidated Damages**

33.1 The parties hereto agree that liquidated damages, in the amount specified in the applicable CSA/CPO, will be assessed against the Consultant for Consultant's failure to meet the final deliverable date in the Performance Schedule in the Scope of Work, but only to the extent and in proportion to Consultant's fault in causing the delay as compared to other causes, and to the extent the Consultant is not delayed by reasons beyond Consultant's reasonable control.

34.0 Employment Eligibility Verification (E-VERIFY)

A. Unless otherwise defined herein, terms used in this Section which are defined in Section 448.095, Florida Statutes, as may be amended from time to time, shall have the meaning ascribed in said statute.

B. Pursuant to Section 448.095(2)(a), Florida Statutes, effective January 1, 2021, public employers, contractors and subcontractors shall register with and use the E-verify system in order to verify the work authorization status of all newly hired employees. The Contractor acknowledges and agrees that use of the U.S. Department of Homeland Security's E-Verify System and compliance with all other terms of this Certification and Section 448.095, Fla. Stat., is an express condition of this Agreement, and the County may treat a failure to comply as a material breach of this Agreement.

C. By entering into this Agreement, the Contractor becomes obligated to comply with the provisions of Section 448.095, Fla. Stat., "Employment Eligibility," as amended from time to time. This includes but is not limited to utilization of the E-Verify System to verify the work authorization status of all newly hired employees, and requiring all subcontractors to provide an affidavit attesting that the subcontractor does not employ, contract with, or subcontract with, an unauthorized alien. The Contractor shall maintain a copy of such affidavit for the duration of the contract. Failure to comply will lead to termination of this Agreement, or if a subcontractor knowingly violates the statute or Section 448.09(1), Fla. Stat., the subcontract must be terminated immediately. Any challenge to termination under this provision must be filed in the Tenth Judicial Circuit Court of Florida no later than 20 calendar days after the date of termination. If this Agreement is terminated for a violation of the statute by the Contractor, the Contractor may not be awarded a public contract for a period of 1 year after the date of termination. The Contractor shall be liable for any additional costs incurred by the County as a result of the termination of this Agreement. Nothing in this Section shall be construed to allow intentional discrimination of any class protected by law.

35.0 Limitation of Liability.

IN NO EVENT, SHALL THE COUNTY BE LIABLE TO THE CONSULTANT FOR INDIRECT, INCIDENTAL, CONSEQUENTIAL, SPECIAL, EXEMPLARY, OR PUNITIVE DAMAGES OF ANY KIND OR NATURE, INCLUDING LOSS OF PROFIT, WHETHER FORESEEABLE OR NOT, ARISING OUT OF OR RESULTING FROM THE NONPERFORMANCE OR BREACH OF THIS CONTRACT BY THE COUNTY WHETHER BASED IN CONTRACT, COMMON LAW, WARRANTY, TORT, STRICT LIABILITY, CONTRIBUTION, INDEMNITY OR OTHERWISE.

36.0 Scrutinized Companies and Business Operations Certification; Termination.

A. Certification(s).

(i) By its execution of this Agreement, the Vendor hereby certifies to the County that the Vendor is not on the Scrutinized Companies that Boycott Israel List, created pursuant to Section 215.4725, Florida Statutes, nor is the Vendor engaged in a boycott of Israel, nor was the Vendor on such List or engaged in such a boycott at the time it submitted its bid,

DRAFT

proposal, quote, or other form of offer, as applicable, to the County with respect to this Agreement.

(ii) Additionally, if the value of the goods or services acquired under this Agreement are greater than or equal to One Million Dollars ($1,000,000), then the Vendor further certifies to the County as follows:

(a) the Vendor is not on the Scrutinized Companies with Activities in Sudan List, created pursuant to Section 215.473, Florida Statutes; and

(b) the Vendor is not on the Scrutinized Companies with Activities in the Iran Petroleum Energy Sector List, created pursuant to Section 215.473, Florida Statutes; and

(c) the Vendor is not engaged in business operations (as that term is defined in Florida Statutes, Section 287.135) in Cuba or Syria; and

(d) the Vendor was not on any of the Lists referenced in this subsection A(ii), nor engaged in business operations in Cuba or Syria when it submitted its proposal to the County concerning the subject of this Agreement.

(iii) The Vendor hereby acknowledges that it is fully aware of the penalties that may be imposed upon the Vendor for submitting a false certification to the County regarding the foregoing matters.

B. Termination. In addition to any other termination rights stated herein, the County may immediately terminate this Agreement upon the occurrence of any of the following events:

(i) The Vendor is found to have submitted a false certification to the County with respect to any of the matters set forth in subsection A(i) above, or the Vendor is found to have been placed on the Scrutinized Companies that Boycott Israel List or is engaged in a boycott of Israel.

(ii) The Vendor is found to have submitted a false certification to the County with respect to any of the matters set forth in subsection A(ii) above, or the Vendor is found to have been placed on the Scrutinized Companies with Activities in Sudan List, or the Scrutinized Companies with Activities in the Iran Petroleum Energy Sector List, or has been engaged in business operations in Cuba or Syria, and the value of the goods or services acquired under this Agreement are greater than or equal to One Million Dollars ($1,000,000).

37. No Construction Against Drafter

37.1 The Parties acknowledge that this Agreement and all the terms and conditions contained herein have been fully reviewed and negotiated by the Parties. Accordingly, any rule of construction to the effect that ambiguities are to be resolved against the drafting party shall not apply in interpreting this Agreement.

38. Unauthorized Alien(s)

The Consultant shall not employ or utilize unauthorized aliens in the performance of the Services provided pursuant to this Agreement. The County shall consider the employment or utilization of unauthorized aliens a violation of Section 274A(e) of the Immigration and Naturalization Act (8 U.S.C.

1324a) and a cause for the County's unilateral termination of this Agreement. When delivering executed counterparts of this Agreement to the County, the Consultant shall also deliver a completed and executed counterpart of the attached "AFFIDAVIT CERTIFICATION IMMIGRATION LAWS" form.

(THE REMAINDER OF THE PAGE LEFT INTENTIONALLY BLANK)

DRAFT

IN WITNESS WHEREOF, the parties hereto have executed this Agreement as of the Effective Date.

ADDENDUM #2

RFP 23-328, Professional Geotechnical Services and Construction Material Testing and Inspection

Question 1: We are looking to acquire copies of all winning proposals (and evaluation metrics if possible) related to RFP 18-305 Professional Geotech Services & Construction Materials Testing. If there was a shortlist of firms before the final award announcement, we would appreciate those proposals as well.

Answer: Proposals submitted and shortlisted along with the evaluation criteria has been added to the County's FTP Site. The evaluation criteria and the Proposers response to the criteria can be found in the Proposer's response.

To receive a copy of the Proposals submitted and shortlisted and evaluation criteria for RFP 18-305, please go the following FTP site: https://ftp3.polk-county.net, you will be prompted for a User ID and Password. The User ID is *procurevendor* and the password is *solicitation.* After you have logged in to the FTP site, double click on the file folder "**RFP 23-328 Professional Geotechnical Services and Construction Material Testing and Inspection**.**zip**", select "Open" or "Save As" to download the Proposals submitted and shortlisted and evaluation criteria for RFP 18-305. ADDENDUM #3

RFP 23-328, Professional Geotechnical Services and Construction Material Testing and Inspection

Question 1: We are requesting a one-week extension to this particular request for proposal submittal date (from 2:00 p.m., Wednesday, June 7, 2023, to 2:00 p.m., Wednesday, June 14, 2023). Please let us know if this is something the county is willing to provide.

Answer: Yes. The bid due date is extended to Wednesday June 14, 2023. All Proposals must be received prior to 2:00 p.m.

Ardaman & Associates, Inc. is a professional corporation founded in 1959 by Dr. M.E. Ardaman, and the company has for 64 years continually provided services in the practice of engineering. The company was founded in Orlando, and it has expanded to meet the needs of our client community throughout Florida, Louisiana, and Texas. We currently serve from our corporate headquarters in Orlando and 14 branch offices throughout Florida, Louisiana, and Texas. Ardaman employs over 400 individuals companywide.

Ardaman has maintained a full-service office in Polk County (Bartow) since 1974. This office has provided engineering services in Polk County for the past 49 years and employs 33 full-time individuals. The staff in this office will be primarily responsible for serving Polk County under the subject contract. The office includes field exploration capability and a completely equipped and certified construction materials testing laboratory.

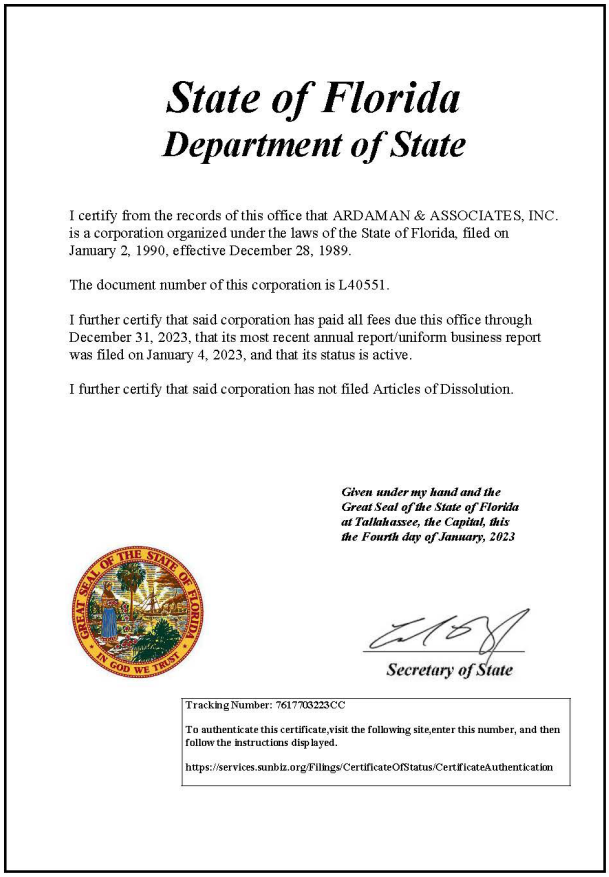
Fax: 863.533.7325
Brian Runkles, P.E., Branch Manager
E-mail: brunkles@ardaman.com

Ardaman is a Florida corporation recognized by the Secretary of State, and we hold certificates of authorization as an engineering company, a geology company, and an asbestos consultant. Our certificate of incorporation and certificates of authorization are included below.



State of Florida
Department of State

I certify from the records of this office that ARDAMAN & ASSOCIATES, INC. is a corporation organized under the laws of the State of Florida, filed on January 2, 1990, effective December 28, 1989.

The document number of this corporation is L40551.

I further certify that said corporation has paid all fees due this office through December 31, 2023, that its most recent annual report/uniform business report was filed on January 4, 2023, and that its status is active.

I further certify that said corporation has not filed Articles of Dissolution.

Given under my hand and the Great Seal of the State of Florida at Tallahassee, the Capital, this the Fourth day of January, 2023

ASBESTOS LICENSING UNIT

THE ASBESTOS BUSINESS ORGANIZATION HEREIN IS LICENSED UNDER THE PROVISIONS OF CHAPTER 469, FLORIDA STATUTES

ARDAMAN & ASSOCIATES, INC.
ASHBY BEE HOOVER
8008 SOUTH ORANGE AVENUE
ORLANDO FL 32809

LICENSE NUMBER: ZA0000029
EXPIRATION DATE: NOVEMBER 30, 2023
Always verify licenses online at MyFloridaLicense.com

Do not alter this document in any form.
This is your license. It is unlawful for anyone other than the licensee to use this document.

Ardaman had a Certificate of Authorization(CA) license to offer engineering services in Florida. However, As of October 1, 2019, CA's are no longer required. Now firms must create a firm registration, adding them to the statewide registry. Because Ardaman had a current and active CA license when the new system went into effect, we were automatically transferred into the new registry system.

REGISTRY NUMBER	DISCIPLINE
RY5950	Engineering Services
RYGB140	Geology Services
RYZA0000029	Asbestos Services

Our CA license number CA5950 is now our registry number, RY5950. Firm registrations never expire, and there are no longer any physical documents available. There is no license to print as it is no longer a license, just a registration. There is no expiration date showing because it is no longer a license and does not expire. Once our firm is on the registry, it stays on there indefinitely until requested to have it removed. It does not need to be renewed or maintained.

(Rev. October 2018)
Department of the Treasury
Internal Revenue Service

Request for Taxpayer Identification Number and Certification

▶ Go to *www.irs.gov/FormW9* for instructions and the latest information.

Give Form to the requester. Do not send to the IRS.

Print or type. See Specific Instructions on page 3.

1 Name (as shown on your income tax return). Name is required on this line; do not leave this line blank.

ARDAMAN & ASSOCIATES, INC

2 Business name/disregarded entity name, if different from above

3 Check appropriate box for federal tax classification of the person whose name is entered on line 1. Check only one of the following seven boxes.

☐ Individual/sole proprietor or single-member LLC ☑ C Corporation ☐ S Corporation ☐ Partnership ☐ Trust/estate

☐ Limited liability company. Enter the tax classification (C=C corporation, S=S corporation, P=Partnership) ▶ _____

Note: Check the appropriate box in the line above for the tax classification of the single-member owner. Do not check LLC if the LLC is classified as a single-member LLC that is disregarded from the owner unless the owner of the LLC is another LLC that is not disregarded from the owner for U.S. federal tax purposes. Otherwise, a single-member LLC that is disregarded from the owner should check the appropriate box for the tax classification of its owner.

☐ Other (see instructions) ▶

4 Exemptions (codes apply only to certain entities, not individuals; see instructions on page 3):

Exempt payee code (if any) _____

Exemption from FATCA reporting code (if any) _____

(Applies to accounts maintained outside the U.S.)

5 Address (number, street, and apt. or suite no.) See instructions.

POST OFFICE BOX 911668

Requester's name and address (optional)

6 City, state, and ZIP code

DENVER, COLORADO 80291-1668

7 List account number(s) here (optional)

Part I Taxpayer Identification Number (TIN)

Enter your TIN in the appropriate box. The TIN provided must match the name given on line 1 to avoid backup withholding. For individuals, this is generally your social security number (SSN). However, for a resident alien, sole proprietor, or disregarded entity, see the Instructions for Part I, later. For other entities, it is your employer identification number (EIN). If you do not have a number, see *How to get a TIN*, later.

Note: If the account is in more than one name, see the instructions for line 1. Also see *What Name and Number To Give the Requester* for guidelines on whose number to enter.

Social security number

			–			–				

or

Employer identification number

5	9	–	2	9	8	4	4	9	6

Part II Certification

Under penalties of perjury, I certify that:

1. The number shown on this form is my correct taxpayer identification number (or I am waiting for a number to be issued to me); and
2. I am not subject to backup withholding because: (a) I am exempt from backup withholding, or (b) I have not been notified by the Internal Revenue Service (IRS) that I am subject to backup withholding as a result of a failure to report all interest or dividends, or (c) the IRS has notified me that I am no longer subject to backup withholding; and
3. I am a U.S. citizen or other U.S. person (defined below); and
4. The FATCA code(s) entered on this form (if any) indicating that I am exempt from FATCA reporting is correct.

Certification instructions. You must cross out item 2 above if you have been notified by the IRS that you are currently subject to backup withholding because you have failed to report all interest and dividends on your tax return. For real estate transactions, item 2 does not apply. For mortgage interest paid, acquisition or abandonment of secured property, cancellation of debt, contributions to an individual retirement arrangement (IRA), and generally, payments other than interest and dividends, you are not required to sign the certification, but you must provide your correct TIN. See the instructions for Part II, later.

Sign Here | **Signature of U.S. person** ▶ Julien Shelly | **Date** ▶ 1/03/2023

General Instructions

Section references are to the Internal Revenue Code unless otherwise noted.

Future developments. For the latest information about developments related to Form W-9 and its instructions, such as legislation enacted after they were published, go to *www.irs.gov/FormW9*.

Purpose of Form

An individual or entity (Form W-9 requester) who is required to file an information return with the IRS must obtain your correct taxpayer identification number (TIN) which may be your social security number (SSN), individual taxpayer identification number (ITIN), adoption taxpayer identification number (ATIN), or employer identification number (EIN), to report on an information return the amount paid to you, or other amount reportable on an information return. Examples of information returns include, but are not limited to, the following.

- Form 1099-INT (interest earned or paid)
- Form 1099-DIV (dividends, including those from stocks or mutual funds)
- Form 1099-MISC (various types of income, prizes, awards, or gross proceeds)
- Form 1099-B (stock or mutual fund sales and certain other transactions by brokers)
- Form 1099-S (proceeds from real estate transactions)
- Form 1099-K (merchant card and third party network transactions)
- Form 1098 (home mortgage interest), 1098-E (student loan interest), 1098-T (tuition)
- Form 1099-C (canceled debt)
- Form 1099-A (acquisition or abandonment of secured property)

Use Form W-9 only if you are a U.S. person (including a resident alien), to provide your correct TIN.

If you do not return Form W-9 to the requester with a TIN, you might be subject to backup withholding. See What is backup withholding, *later.*

By signing the filled-out form, you:

1. Certify that the TIN you are giving is correct (or you are waiting for a number to be issued),

2. Certify that you are not subject to backup withholding, or

3. Claim exemption from backup withholding if you are a U.S. exempt payee. If applicable, you are also certifying that as a U.S. person, your allocable share of any partnership income from a U.S. trade or business is not subject to the withholding tax on foreign partners' share of effectively connected income, and

4. Certify that FATCA code(s) entered on this form (if any) indicating that you are exempt from the FATCA reporting, is correct. See *What is FATCA reporting*, later, for further information.

Note: If you are a U.S. person and a requester gives you a form other than Form W-9 to request your TIN, you must use the requester's form if it is substantially similar to this Form W-9.

Definition of a U.S. person. For federal tax purposes, you are considered a U.S. person if you are:

- An individual who is a U.S. citizen or U.S. resident alien;
- A partnership, corporation, company, or association created or organized in the United States or under the laws of the United States;
- An estate (other than a foreign estate); or
- A domestic trust (as defined in Regulations section 301.7701-7).

Special rules for partnerships. Partnerships that conduct a trade or business in the United States are generally required to pay a withholding tax under section 1446 on any foreign partners' share of effectively connected taxable income from such business. Further, in certain cases where a Form W-9 has not been received, the rules under section 1446 require a partnership to presume that a partner is a foreign person, and pay the section 1446 withholding tax. Therefore, if you are a U.S. person that is a partner in a partnership conducting a trade or business in the United States, provide Form W-9 to the partnership to establish your U.S. status and avoid section 1446 withholding on your share of partnership income.

In the cases below, the following person must give Form W-9 to the partnership for purposes of establishing its U.S. status and avoiding withholding on its allocable share of net income from the partnership conducting a trade or business in the United States.

- In the case of a disregarded entity with a U.S. owner, the U.S. owner of the disregarded entity and not the entity;
- In the case of a grantor trust with a U.S. grantor or other U.S. owner, generally, the U.S. grantor or other U.S. owner of the grantor trust and not the trust; and
- In the case of a U.S. trust (other than a grantor trust), the U.S. trust (other than a grantor trust) and not the beneficiaries of the trust.

Foreign person. If you are a foreign person or the U.S. branch of a foreign bank that has elected to be treated as a U.S. person, do not use Form W-9. Instead, use the appropriate Form W-8 or Form 8233 (see Pub. 515, Withholding of Tax on Nonresident Aliens and Foreign Entities).

Nonresident alien who becomes a resident alien. Generally, only a nonresident alien individual may use the terms of a tax treaty to reduce or eliminate U.S. tax on certain types of income. However, most tax treaties contain a provision known as a "saving clause." Exceptions specified in the saving clause may permit an exemption from tax to continue for certain types of income even after the payee has otherwise become a U.S. resident alien for tax purposes.

If you are a U.S. resident alien who is relying on an exception contained in the saving clause of a tax treaty to claim an exemption from U.S. tax on certain types of income, you must attach a statement to Form W-9 that specifies the following five items.

1. The treaty country. Generally, this must be the same treaty under which you claimed exemption from tax as a nonresident alien.

2. The treaty article addressing the income.

3. The article number (or location) in the tax treaty that contains the saving clause and its exceptions.

4. The type and amount of income that qualifies for the exemption from tax.

5. Sufficient facts to justify the exemption from tax under the terms of the treaty article.

Example. Article 20 of the U.S.-China income tax treaty allows an exemption from tax for scholarship income received by a Chinese student temporarily present in the United States. Under U.S. law, this student will become a resident alien for tax purposes if his or her stay in the United States exceeds 5 calendar years. However, paragraph 2 of the first Protocol to the U.S.-China treaty (dated April 30, 1984) allows the provisions of Article 20 to continue to apply even after the Chinese student becomes a resident alien of the United States. A Chinese student who qualifies for this exception (under paragraph 2 of the first protocol) and is relying on this exception to claim an exemption from tax on his or her scholarship or fellowship income would attach to Form W-9 a statement that includes the information described above to support that exemption.

If you are a nonresident alien or a foreign entity, give the requester the appropriate completed Form W-8 or Form 8233.

Backup Withholding

What is backup withholding? Persons making certain payments to you must under certain conditions withhold and pay to the IRS 24% of such payments. This is called "backup withholding." Payments that may be subject to backup withholding include interest, tax-exempt interest, dividends, broker and barter exchange transactions, rents, royalties, nonemployee pay, payments made in settlement of payment card and third party network transactions, and certain payments from fishing boat operators. Real estate transactions are not subject to backup withholding.

You will not be subject to backup withholding on payments you receive if you give the requester your correct TIN, make the proper certifications, and report all your taxable interest and dividends on your tax return.

Payments you receive will be subject to backup withholding if:

1. You do not furnish your TIN to the requester,

2. You do not certify your TIN when required (see the instructions for Part II for details),

3. The IRS tells the requester that you furnished an incorrect TIN,

4. The IRS tells you that you are subject to backup withholding because you did not report all your interest and dividends on your tax return (for reportable interest and dividends only), or

5. You do not certify to the requester that you are not subject to backup withholding under 4 above (for reportable interest and dividend accounts opened after 1983 only).

Certain payees and payments are exempt from backup withholding. See *Exempt payee code*, later, and the separate Instructions for the Requester of Form W-9 for more information.

Also see *Special rules for partnerships*, earlier.

What is FATCA Reporting?

The Foreign Account Tax Compliance Act (FATCA) requires a participating foreign financial institution to report all United States account holders that are specified United States persons. Certain payees are exempt from FATCA reporting. See *Exemption from FATCA reporting code*, later, and the Instructions for the Requester of Form W-9 for more information.

Updating Your Information

You must provide updated information to any person to whom you claimed to be an exempt payee if you are no longer an exempt payee and anticipate receiving reportable payments in the future from this person. For example, you may need to provide updated information if you are a C corporation that elects to be an S corporation, or if you no longer are tax exempt. In addition, you must furnish a new Form W-9 if the name or TIN changes for the account; for example, if the grantor of a grantor trust dies.

Penalties

Failure to furnish TIN. If you fail to furnish your correct TIN to a requester, you are subject to a penalty of $50 for each such failure unless your failure is due to reasonable cause and not to willful neglect.

Civil penalty for false information with respect to withholding. If you make a false statement with no reasonable basis that results in no backup withholding, you are subject to a $500 penalty.

Criminal penalty for falsifying information. Willfully falsifying certifications or affirmations may subject you to criminal penalties including fines and/or imprisonment.

Misuse of TINs. If the requester discloses or uses TINs in violation of federal law, the requester may be subject to civil and criminal penalties.

Specific Instructions

Line 1

You must enter one of the following on this line; **do not** leave this line blank. The name should match the name on your tax return.

If this Form W-9 is for a joint account (other than an account maintained by a foreign financial institution (FFI)), list first, and then circle, the name of the person or entity whose number you entered in Part I of Form W-9. If you are providing Form W-9 to an FFI to document a joint account, each holder of the account that is a U.S. person must provide a Form W-9.

a. **Individual.** Generally, enter the name shown on your tax return. If you have changed your last name without informing the Social Security Administration (SSA) of the name change, enter your first name, the last name as shown on your social security card, and your new last name.

Note: ITIN applicant: Enter your individual name as it was entered on your Form W-7 application, line 1a. This should also be the same as the name you entered on the Form 1040/1040A/1040EZ you filed with your application.

b. **Sole proprietor or single-member LLC.** Enter your individual name as shown on your 1040/1040A/1040EZ on line 1. You may enter your business, trade, or "doing business as" (DBA) name on line 2.

c. **Partnership, LLC that is not a single-member LLC, C corporation, or S corporation.** Enter the entity's name as shown on the entity's tax return on line 1 and any business, trade, or DBA name on line 2.

d. **Other entities.** Enter your name as shown on required U.S. federal tax documents on line 1. This name should match the name shown on the charter or other legal document creating the entity. You may enter any business, trade, or DBA name on line 2.

e. **Disregarded entity.** For U.S. federal tax purposes, an entity that is disregarded as an entity separate from its owner is treated as a "disregarded entity." See Regulations section 301.7701-2(c)(2)(iii). Enter the owner's name on line 1. The name of the entity entered on line 1 should never be a disregarded entity. The name on line 1 should be the name shown on the income tax return on which the income should be reported. For example, if a foreign LLC that is treated as a disregarded entity for U.S. federal tax purposes has a single owner that is a U.S. person, the U.S. owner's name is required to be provided on line 1. If the direct owner of the entity is also a disregarded entity, enter the first owner that is not disregarded for federal tax purposes. Enter the disregarded entity's name on line 2, "Business name/disregarded entity name." If the owner of the disregarded entity is a foreign person, the owner must complete an appropriate Form W-8 instead of a Form W-9. This is the case even if the foreign person has a U.S. TIN.

Line 2

If you have a business name, trade name, DBA name, or disregarded entity name, you may enter it on line 2.

Line 3

Check the appropriate box on line 3 for the U.S. federal tax classification of the person whose name is entered on line 1. Check only one box on line 3.

IF the entity/person on line 1 is a(n) . . .	THEN check the box for . . .
• Corporation	Corporation
• Individual • Sole proprietorship, or • Single-member limited liability company (LLC) owned by an individual and disregarded for U.S. federal tax purposes.	Individual/sole proprietor or single-member LLC
• LLC treated as a partnership for U.S. federal tax purposes, • LLC that has filed Form 8832 or 2553 to be taxed as a corporation, or • LLC that is disregarded as an entity separate from its owner but the owner is another LLC that is not disregarded for U.S. federal tax purposes.	Limited liability company and enter the appropriate tax classification. (P= Partnership; C= C corporation; or S= S corporation)
• Partnership	Partnership
• Trust/estate	Trust/estate

Line 4, Exemptions

If you are exempt from backup withholding and/or FATCA reporting, enter in the appropriate space on line 4 any code(s) that may apply to you.

Exempt payee code.

- Generally, individuals (including sole proprietors) are not exempt from backup withholding.
- Except as provided below, corporations are exempt from backup withholding for certain payments, including interest and dividends.
- Corporations are not exempt from backup withholding for payments made in settlement of payment card or third party network transactions.
- Corporations are not exempt from backup withholding with respect to attorneys' fees or gross proceeds paid to attorneys, and corporations that provide medical or health care services are not exempt with respect to payments reportable on Form 1099-MISC.

The following codes identify payees that are exempt from backup withholding. Enter the appropriate code in the space in line 4.

1—An organization exempt from tax under section 501(a), any IRA, or a custodial account under section 403(b)(7) if the account satisfies the requirements of section 401(f)(2)

2—The United States or any of its agencies or instrumentalities

3—A state, the District of Columbia, a U.S. commonwealth or possession, or any of their political subdivisions or instrumentalities

4—A foreign government or any of its political subdivisions, agencies, or instrumentalities

5—A corporation

6—A dealer in securities or commodities required to register in the United States, the District of Columbia, or a U.S. commonwealth or possession

7—A futures commission merchant registered with the Commodity Futures Trading Commission

8—A real estate investment trust

9—An entity registered at all times during the tax year under the Investment Company Act of 1940

10—A common trust fund operated by a bank under section 584(a)

11—A financial institution

12—A middleman known in the investment community as a nominee or custodian

13—A trust exempt from tax under section 664 or described in section 4947

The following chart shows types of payments that may be exempt from backup withholding. The chart applies to the exempt payees listed above, 1 through 13.

IF the payment is for . . .	THEN the payment is exempt for . . .
Interest and dividend payments	All exempt payees except for 7
Broker transactions	Exempt payees 1 through 4 and 6 through 11 and all C corporations. S corporations must not enter an exempt payee code because they are exempt only for sales of noncovered securities acquired prior to 2012.
Barter exchange transactions and patronage dividends	Exempt payees 1 through 4
Payments over $600 required to be reported and direct sales over $5,000[1]	Generally, exempt payees 1 through 5[2]
Payments made in settlement of payment card or third party network transactions	Exempt payees 1 through 4

[1] See Form 1099-MISC, Miscellaneous Income, and its instructions.

[2] However, the following payments made to a corporation and reportable on Form 1099-MISC are not exempt from backup withholding: medical and health care payments, attorneys' fees, gross proceeds paid to an attorney reportable under section 6045(f), and payments for services paid by a federal executive agency.

Exemption from FATCA reporting code. The following codes identify payees that are exempt from reporting under FATCA. These codes apply to persons submitting this form for accounts maintained outside of the United States by certain foreign financial institutions. Therefore, if you are only submitting this form for an account you hold in the United States, you may leave this field blank. Consult with the person requesting this form if you are uncertain if the financial institution is subject to these requirements. A requester may indicate that a code is not required by providing you with a Form W-9 with "Not Applicable" (or any similar indication) written or printed on the line for a FATCA exemption code.

A—An organization exempt from tax under section 501(a) or any individual retirement plan as defined in section 7701(a)(37)

B—The United States or any of its agencies or instrumentalities

C—A state, the District of Columbia, a U.S. commonwealth or possession, or any of their political subdivisions or instrumentalities

D—A corporation the stock of which is regularly traded on one or more established securities markets, as described in Regulations section 1.1472-1(c)(1)(i)

E—A corporation that is a member of the same expanded affiliated group as a corporation described in Regulations section 1.1472-1(c)(1)(i)

F—A dealer in securities, commodities, or derivative financial instruments (including notional principal contracts, futures, forwards, and options) that is registered as such under the laws of the United States or any state

G—A real estate investment trust

H—A regulated investment company as defined in section 851 or an entity registered at all times during the tax year under the Investment Company Act of 1940

I—A common trust fund as defined in section 584(a)

J—A bank as defined in section 581

K—A broker

L—A trust exempt from tax under section 664 or described in section 4947(a)(1)

M—A tax exempt trust under a section 403(b) plan or section 457(g) plan

Note: You may wish to consult with the financial institution requesting this form to determine whether the FATCA code and/or exempt payee code should be completed.

Line 5

Enter your address (number, street, and apartment or suite number). This is where the requester of this Form W-9 will mail your information returns. If this address differs from the one the requester already has on file, write NEW at the top. If a new address is provided, there is still a chance the old address will be used until the payor changes your address in their records.

Line 6

Enter your city, state, and ZIP code.

Part I. Taxpayer Identification Number (TIN)

Enter your TIN in the appropriate box. If you are a resident alien and you do not have and are not eligible to get an SSN, your TIN is your IRS individual taxpayer identification number (ITIN). Enter it in the social security number box. If you do not have an ITIN, see *How to get a TIN* below.

If you are a sole proprietor and you have an EIN, you may enter either your SSN or EIN.

If you are a single-member LLC that is disregarded as an entity separate from its owner, enter the owner's SSN (or EIN, if the owner has one). Do not enter the disregarded entity's EIN. If the LLC is classified as a corporation or partnership, enter the entity's EIN.

Note: See *What Name and Number To Give the Requester,* later, for further clarification of name and TIN combinations.

How to get a TIN. If you do not have a TIN, apply for one immediately. To apply for an SSN, get Form SS-5, Application for a Social Security Card, from your local SSA office or get this form online at *www.SSA.gov*. You may also get this form by calling 1-800-772-1213. Use Form W-7, Application for IRS Individual Taxpayer Identification Number, to apply for an ITIN, or Form SS-4, Application for Employer Identification Number, to apply for an EIN. You can apply for an EIN online by accessing the IRS website at *www.irs.gov/Businesses* and clicking on Employer Identification Number (EIN) under Starting a Business. Go to *www.irs.gov/Forms* to view, download, or print Form W-7 and/or Form SS-4. Or, you can go to *www.irs.gov/OrderForms* to place an order and have Form W-7 and/or SS-4 mailed to you within 10 business days.

If you are asked to complete Form W-9 but do not have a TIN, apply for a TIN and write "Applied For" in the space for the TIN, sign and date the form, and give it to the requester. For interest and dividend payments, and certain payments made with respect to readily tradable instruments, generally you will have 60 days to get a TIN and give it to the requester before you are subject to backup withholding on payments. The 60-day rule does not apply to other types of payments. You will be subject to backup withholding on all such payments until you provide your TIN to the requester.

Note: Entering "Applied For" means that you have already applied for a TIN or that you intend to apply for one soon.

Caution: A disregarded U.S. entity that has a foreign owner must use the appropriate Form W-8.

Part II. Certification

To establish to the withholding agent that you are a U.S. person, or resident alien, sign Form W-9. You may be requested to sign by the withholding agent even if item 1, 4, or 5 below indicates otherwise.

For a joint account, only the person whose TIN is shown in Part I should sign (when required). In the case of a disregarded entity, the person identified on line 1 must sign. Exempt payees, see *Exempt payee code*, earlier.

Signature requirements. Complete the certification as indicated in items 1 through 5 below.

1. Interest, dividend, and barter exchange accounts opened before 1984 and broker accounts considered active during 1983. You must give your correct TIN, but you do not have to sign the certification.

2. Interest, dividend, broker, and barter exchange accounts opened after 1983 and broker accounts considered inactive during 1983. You must sign the certification or backup withholding will apply. If you are subject to backup withholding and you are merely providing your correct TIN to the requester, you must cross out item 2 in the certification before signing the form.

3. Real estate transactions. You must sign the certification. You may cross out item 2 of the certification.

4. Other payments. You must give your correct TIN, but you do not have to sign the certification unless you have been notified that you have previously given an incorrect TIN. "Other payments" include payments made in the course of the requester's trade or business for rents, royalties, goods (other than bills for merchandise), medical and health care services (including payments to corporations), payments to a nonemployee for services, payments made in settlement of payment card and third party network transactions, payments to certain fishing boat crew members and fishermen, and gross proceeds paid to attorneys (including payments to corporations).

5. Mortgage interest paid by you, acquisition or abandonment of secured property, cancellation of debt, qualified tuition program payments (under section 529), ABLE accounts (under section 529A), IRA, Coverdell ESA, Archer MSA or HSA contributions or distributions, and pension distributions. You must give your correct TIN, but you do not have to sign the certification.

What Name and Number To Give the Requester

For this type of account:	Give name and SSN of:
1. Individual	The individual
2. Two or more individuals (joint account) other than an account maintained by an FFI	The actual owner of the account or, if combined funds, the first individual on the account[1]
3. Two or more U.S. persons (joint account maintained by an FFI)	Each holder of the account
4. Custodial account of a minor (Uniform Gift to Minors Act)	The minor[2]
5. a. The usual revocable savings trust (grantor is also trustee) b. So-called trust account that is not a legal or valid trust under state law	The grantor-trustee[1] The actual owner[1]
6. Sole proprietorship or disregarded entity owned by an individual	The owner[3]
7. Grantor trust filing under Optional Form 1099 Filing Method 1 (see Regulations section 1.671-4(b)(2)(i)(A))	The grantor*
For this type of account:	**Give name and EIN of:**
8. Disregarded entity not owned by an individual	The owner
9. A valid trust, estate, or pension trust	Legal entity[4]
10. Corporation or LLC electing corporate status on Form 8832 or Form 2553	The corporation
11. Association, club, religious, charitable, educational, or other tax-exempt organization	The organization
12. Partnership or multi-member LLC	The partnership
13. A broker or registered nominee	The broker or nominee
14. Account with the Department of Agriculture in the name of a public entity (such as a state or local government, school district, or prison) that receives agricultural program payments	The public entity
15. Grantor trust filing under the Form 1041 Filing Method or the Optional Form 1099 Filing Method 2 (see Regulations section 1.671-4(b)(2)(i)(B))	The trust

[1] List first and circle the name of the person whose number you furnish. If only one person on a joint account has an SSN, that person's number must be furnished.

[2] Circle the minor's name and furnish the minor's SSN.

[3] You must show your individual name and you may also enter your business or DBA name on the "Business name/disregarded entity" name line. You may use either your SSN or EIN (if you have one), but the IRS encourages you to use your SSN.

[4] List first and circle the name of the trust, estate, or pension trust. (Do not furnish the TIN of the personal representative or trustee unless the legal entity itself is not designated in the account title.) Also see *Special rules for partnerships*, earlier.

*__Note:__ The grantor also must provide a Form W-9 to trustee of trust.

__Note:__ If no name is circled when more than one name is listed, the number will be considered to be that of the first name listed.

Secure Your Tax Records From Identity Theft

Identity theft occurs when someone uses your personal information such as your name, SSN, or other identifying information, without your permission, to commit fraud or other crimes. An identity thief may use your SSN to get a job or may file a tax return using your SSN to receive a refund.

To reduce your risk:

- Protect your SSN,
- Ensure your employer is protecting your SSN, and
- Be careful when choosing a tax preparer.

If your tax records are affected by identity theft and you receive a notice from the IRS, respond right away to the name and phone number printed on the IRS notice or letter.

If your tax records are not currently affected by identity theft but you think you are at risk due to a lost or stolen purse or wallet, questionable credit card activity or credit report, contact the IRS Identity Theft Hotline at 1-800-908-4490 or submit Form 14039.

For more information, see Pub. 5027, Identity Theft Information for Taxpayers.

Victims of identity theft who are experiencing economic harm or a systemic problem, or are seeking help in resolving tax problems that have not been resolved through normal channels, may be eligible for Taxpayer Advocate Service (TAS) assistance. You can reach TAS by calling the TAS toll-free case intake line at 1-877-777-4778 or TTY/TDD 1-800-829-4059.

Protect yourself from suspicious emails or phishing schemes. Phishing is the creation and use of email and websites designed to mimic legitimate business emails and websites. The most common act is sending an email to a user falsely claiming to be an established legitimate enterprise in an attempt to scam the user into surrendering private information that will be used for identity theft.

The IRS does not initiate contacts with taxpayers via emails. Also, the IRS does not request personal detailed information through email or ask taxpayers for the PIN numbers, passwords, or similar secret access information for their credit card, bank, or other financial accounts.

If you receive an unsolicited email claiming to be from the IRS, forward this message to *phishing@irs.gov*. You may also report misuse of the IRS name, logo, or other IRS property to the Treasury Inspector General for Tax Administration (TIGTA) at 1-800-366-4484. You can forward suspicious emails to the Federal Trade Commission at *spam@uce.gov* or report them at *www.ftc.gov/complaint*. You can contact the FTC at *www.ftc.gov/idtheft* or 877-IDTHEFT (877-438-4338). If you have been the victim of identity theft, see *www.IdentityTheft.gov* and Pub. 5027.

Visit *www.irs.gov/IdentityTheft* to learn more about identity theft and how to reduce your risk.

Privacy Act Notice

Section 6109 of the Internal Revenue Code requires you to provide your correct TIN to persons (including federal agencies) who are required to file information returns with the IRS to report interest, dividends, or certain other income paid to you; mortgage interest you paid; the acquisition or abandonment of secured property; the cancellation of debt; or contributions you made to an IRA, Archer MSA, or HSA. The person collecting this form uses the information on the form to file information returns with the IRS, reporting the above information. Routine uses of this information include giving it to the Department of Justice for civil and criminal litigation and to cities, states, the District of Columbia, and U.S. commonwealths and possessions for use in administering their laws. The information also may be disclosed to other countries under a treaty, to federal and state agencies to enforce civil and criminal laws, or to federal law enforcement and intelligence agencies to combat terrorism. You must provide your TIN whether or not you are required to file a tax return. Under section 3406, payers must generally withhold a percentage of taxable interest, dividend, and certain other payments to a payee who does not give a TIN to the payer. Certain penalties may also apply for providing false or fraudulent information.

PROJECT MANAGEMENT

Ardaman has worked on hundreds of continuing services contracts and thousands of projects with public entities. Through this experience, we have become very familiar with the types of services required through these contracts and the nuances of working with public agencies on multi-task continuing contracts.

Working for public clients can be very different from working in the private sector. Public entities are keepers of the public trust and are responsible for the well-being of their citizens. As such, Polk County is subject to public scrutiny that requires professionalism and competency in your staff. As your consultant, we fully understand our role in helping maintain this trust by always conducting ourselves honestly, professionally, and competently while serving as your advocate. Our long-standing relationship with public clients bears testimony to our ability to work with and serve public entities successfully.

Multi-task continuing contracts can present unique service challenges as they require a broad range of services and, thus, need many areas of expertise. Further, such contracts frequently include multiple simultaneous tasks requiring detailed control of the progress, budget, and schedule of these tasks. Having served hundreds of such contracts, Ardaman has adopted a project management approach that employs specific elements that help us meet the needs of multiple assignments, including enhancing the schedule and lowering costs. Some of these elements are as follows:

- Contract Management – Mr. Brian Runkles, P.E., will serve as Contract Manager and will be responsible for the overall contract performance and assuring that the County has the staff and resources needed. Mr. Runkles has 17 years of experience managing similar continuing services contracts for public agencies and will be a reliable advocate for the County.
- Responsiveness – Upon execution of the contract, the County will be provided with the cell phone number and email address of the key staff members listed in this submittal. Ardaman commits to responding quickly and efficiently to all task requests with the appropriate staff and equipment resources.
- Communication – We believe strong lines of communication are vital to the success of all projects. There will be frequent communication between our project managers, your staff, and, if applicable, the contractor. We will report our results, findings, and project status clearly and accurately and will be available for discussion and meetings as required.
- Cost Control – Ardaman possesses and commits to using the most appropriate technology to assure the County that the most cost-effective recommendations are made for your projects. During construction, our primary function will be to assure the County that the construction materials satisfy the project plans and specifications.
- Safety – Ardaman is committed to conducting business in a manner that protects the safety and health of employees, as well as the environment, others involved in its operations, its customers, and the public. We utilize the Safety Throughout Operations Program (STOP) behavioral-based safety system to achieve these goals. STOP consists of several tools that help us comply with various elements such as Management Leadership, Commitment and Accountability, Risk Assessment, Training, and Incident Investigation and Analysis.

SERVICES PROVIDED

The projects anticipated under this contract are of various types. Ardaman has served the County, and many other public agencies under similar contracts, and this experience affords us an excellent understanding of the project types, some of which are specifically described in the RFP and others that we identify from our experience serving the County.

Ardaman offers a broad range of professional engineering services on projects in Florida, throughout the United States, and internationally. These services include:

Geotechnical Investigations:

- Soil borings and sampling
- Cone penetrometer soundings
- Geotechnical reports
- Dam and levee design
- Dilatometer soundings
- Construction recommendations
- Groundwater seepage analyses
- Pavement evaluations
- Site feasibility studies
- Rock coring and testing
- Geotechnical laboratory testing
- Foundation analyses
- Geophysical exploration
- Retention pond excavation
- Slope stability analyses
- Sinkhole investigations
- Permeability evaluations
- Value engineering analysis

Construction Materials Testing and Inspection:

- Compaction tests of soil and road base
- FBV and LBR tests
- Asphalt testing, analysis of mixtures
- Pile load tests and pile driving analysis
- Pavement testing and analysis
- Construction monitoring
- Construction inspection of dams
- Threshold inspections
- Soil classifications
- Concrete quality control testing
- Analysis and testing of steel
- Water quality sampling and testing
- Monitoring pile driving
- Drain installation inspection
- Levees and control structures
- Drilled shaft inspection

Environmental Science and Water Resource Engineering:

- Phase I and II assessments
- Remedial action planning
- Indoor air quality
- Surface water modeling
- Geographic information systems
- Contamination assessments
- Asbestos investigation and remediation
- Groundwater modeling and monitoring
- Surface and groundwater monitoring
- Conveyance system design

TEAM MANAGEMENT

Mr. Brian Runkles, P.E., will serve as the Contract Manager and your single point of contact for all tasks assigned under this contract. All communication and coordination with the County will occur through Mr. Runkles. He will be responsible for managing the task's successful completion, including adherence to schedule and budget.

STAFF RESOURCE MANAGEMENT

Ardaman's long-standing philosophy is to dedicate 100% effort to each project, regardless of the size or complexity. All key staff members included in this submittal will be available to the County on an as-needed basis. We believe that we have achieved a balance of effort which efficiently and expertly leads to the successful completion of our projects, from all levels of personnel, from technical staff to senior project engineers.

The following demonstrates how our staff resources would typically be allocated for a typical geotechnical engineering assignment and a typical construction materials testing assignment, respectively.

Geotechnical Assignment	
10%	Contract Project Manager
15%	Senior Project Engineer
50%	Project/Staff Engineer
15%	CADD Technician
10%	Technical Secretary/Administrative
100%	**Successful Project Completion**

Construction Materials Testing	
5%	Contract Manager
10%	CMT Project Manager
50%	Field Technical Testing and Inspection
25%	Laboratory Testing
10%	Project Administration
100%	**Successful Project Completion**

QUALITY ASSURANCE AND QUALITY CONTROL

The quality of our work is one of the most critical elements of Ardaman's service standards. We have always felt that we are adequately serving our clients only if our work satisfies the appropriate standard of care. For this reason, we take our quality control and review procedures very seriously.

Our commitment to quality begins with our facilities. Our local laboratory is inspected regularly by an independent inspecting agency (CMEC) and the Florida Department of Transportation (FDOT). Our corporate soils laboratory has been qualified to meet the rigorous requirements of the U.S. Army Corps of Engineers. Our equipment is calibrated and maintained, assuring the County that the test results are accurate and can be relied upon in a dispute with a contractor or another engineering firm.

Our testing and inspection personnel undergo a thorough training program under the direction of a senior technician and must demonstrate proficiency and obtain certifications that establish their ability to provide technically correct services. All field and laboratory personnel undergo additional in-house proficiency testing on an annual basis as part of our CMEC accreditation requirement and internal QC process.

All engineering design reports are issued with at least two signatures, one of which is the proposed Contract Manager, Mr. Brian Runkles, P.E., thus assuring that every recommendation has been thoroughly discussed and considered before it is finalized. We also have a control and review process that further helps us to ensure the quality of our materials testing results. All materials test results are reviewed before processing by the Construction Services Manager to ensure accuracy and completeness. Before a final test report is sent to you, it is reviewed, signed, and sealed by a professional engineer.

Quality is also intricately connected to professional ethics. Ardaman’s professional reputation in the engineering community and throughout the State is very important. Our engineers have served as statewide officers and currently serve on committees in several professional organizations dedicated to improving the professional practice of engineering, of which ethics is a cornerstone.

EXPERIENCE AND EXPERTISE

We have identified (8) eight projects performed within the past (5) five years that best illustrate our experience of the firm and current staff as it relates to the desired services noted in the RFP. These projects are identified for geotechnical services and construction material testing and inspection services. All (8) eight of our projects have been performed within the state of Florida.

1) **Project Name / Location:** **Florida Department of Transportation (FDOT) District 1 Lab Verification**
Ardaman Fee: $336,311 (to date)
Project Rep. Name: Joseph W. Lee, Materials Manager-Lab Qualification
Address: Florida Department of Transportation
2730 State Road 60 West
Bartow, Florida 33830
Phone: 863-519-4227 **Email:** joseph.lee@dot.state.fl.us
Completion Date: Ongoing
Responsibility / **Construction Materials Testing and Inspection (Laboratory Verification Testing)**
Project Description: The Bartow office has completed hundreds of laboratory verification tests for the FDOT District 1 Contract. These tests included:

- Limerock Bearing Ratios FM 5-515
- Modified Proctors FM 1-T180
- Standard Proctors FM 1-T99
- Soil Classifications ASSHTO M-145
- Particle Size Analysis of Soil ASSHTO T88
- Liquid / Plastic Limits ASSHTO T89 and T90
- Organic Contents FM 1-T267
- Compressive Strength of Cylinders ASTM C-39

Ardaman testing is consistently being performed, and the test results are entered into the FDOT MAC system in a timely manner.

As an extension of the FDOT, and because we perform laboratory tests on FDOT projects, our lab is inspected and accredited annually by CMEC, and at least two times per year by the FDOT Materials Office. Also, each certified laboratory technician is inspected at least once per year by the FDOT Materials Office.

2) **Project Name / Location:** **FDOT District 1, FPID 440274-2, TWO 01.37 & TWO 01.72, SR 659 (Combee Rd.) from US 98 to N. Crystal Lake Dr., Lakeland, Polk County,**

Ardaman Fee: $108,106 (Original)

Project Rep. Name: Mark Hales

Address: Inwood Consulting Engineers, Inc.
3000 Dovera Dr., Ste 200
Oviedo, Florida 32765

Phone: 321-246-7128 **Email:** mhales@inwoodinc.com

Completion Date: Ongoing

Responsibility / Project Description: **Geotechnical Services**

Ardaman geotechnical services included:

- Conducted field exploration and laboratory testing programs for Roadway Soil Survey consisting of: (i) 73 hand auger borings; (ii) estimating the seasonal high groundwater table at 16 of the 73 locations; (iii) collecting eight soil samples for full corrosion series testing near cross drains structures; and (iv) collecting six bulk samples for resilient modulus testing and deliver to the State Materials Office in Gainesville, Florida.
- Prepared a Roadway Soil Survey Report summarizing the field and laboratory testing program results, and the subsurface soil and groundwater conditions encountered. Developed engineering recommendations for the design and construction of the embankment and pavement for the proposed roadway improvements.
- Completed a field exploration and laboratory testing programs for a new stormwater pond, an expansion of an existing stormwater pond site, and new stormwater pipelines associated with each site consisting of: (i) seven Standard Penetration Test (SPT) borings for the two pond sites; (ii) four hand auger soil borings for the purpose of seasonal high groundwater table estimation; (iii) five SPT boring for proposed stormwater pipelines; and (iv) collecting eight soil samples for full corrosion series testing.
- Performed a stability study for an earthen berm separating the existing stormwater pond from Crystal Lake. The field exploration consisted of two SPT borings using a mini-track rig and lake bottom probes from a watercraft adjacent to the berm to determine/verify existing slope below water surface.
- Prepared a Report of Subsurface Soil Exploration for the pond sites, assigned soil properties and parameters based on collected boring data and performed slope stability analyses using the critical earthen berm design section, design water levels for the pond, and historical water level information for Crystal Lake.
- Conducted field exploration and laboratory testing programs for approximately 800 feet of structural retaining walls consisting of: (i) ten SPT borings, three of which were over water (Crystal Lake) using barge-mounted rig; (ii) six auger borings; and (iii) collecting soil and water samples for full corrosion series testing.
- Prepared a Report of Subsurface Soil Exploration for the structural retaining walls which included soil properties and parameters for analysis and design of retaining wall system.
- Utilized in-house drilling service, including barge-mounted, mini-track, and truck-mounted drill rigs.
- ACME Barricade and off-duty Officers by Steve Gaskins was utilized for MOT services.

3) **Project Name / Location:** **Proposed New Emergency Operations Warehouse Building, Winter Haven**

Ardaman Fee: $1,325 (to date)

Project Rep. Name: Rafael Samaniego
Polk County Board of County Commissioners

Address: 2160 Marshall Edwards Drive
Bartow, Florida 33830

Phone: 863-344-2303 **Email:** rafaelsamaniego@polk-county.net

Completion Date: Ongoing

Responsibility / Project Description: **Construction Materials Testing and Inspection**

Ardaman was engaged, by Polk County BOCC, in 2009 to provide subsurface exploration services for the Public Safety Administration and Warehouse Buildings. After then, fill material was added to the site in the general area of the proposed Emergency Operations (EOC) Warehouse Building. Ardaman was engaged in 2023 to revisit the EOC Warehouse site to provide Construction Materials Testing services to determine if the fill material met the site work recommendations from the 2009 study.

Construction Materials Testing services for the proposed EOC Warehouse included:

- On-site meeting with PCBOCC Project Manager and Ardaman Project Manager.
- Eleven in-place density tests from 0' to 1-foot within the proposed building footprint.
- Eleven Hand Auger (HA) Boring to a depth of four feet within the proposed building footprint.
- Eleven Hand Cone Penetrometer Test (HCPT) probes within the proposed building footprint.
- Collection of soil samples for a Standard Proctor.
- Collection of soil samples from 0' to 4' from the eleven HA borings for soil classification and laboratory testing.
- Performance of laboratory soil index tests on select samples, including Percent passing the US No, 200 Sieve, Natural Moisture content, & Organic content.
- Review of test findings and recommendations by a geotechnical engineer for additional site work.
- As requested by the County, Ardaman's services were performed in a timely manner, thus delivering the final report on schedule.

4) **Project Name / Location:** SW Region Wastewater Treatment Facility Operations Bldg., Mulberry
Ardaman Fee: $9,921 (to date)
Project Rep. Name: Steve McMillan
Polk County Board of County Commissioners
Address: 2160 Marshall Edwards Drive
Bartow, Florida 33830
Phone: 863-534-5511 **Email:** stevemcmillan@polk-county.net
Completion Date: Ongoing
Responsibility / Project Description:

Geotechnical Services

Ardaman geotechnical services included:

- On-site meetings and location of SPT Borings.
- Utility Locate request.
- Performed five Standard Penetration Test (SPT) borings from 20 feet to 25 feet.
- Used Swint Drilling, Women Owned, Subconsultant for drilling services.
- Performance of laboratory soil index tests:
  - Nine Natural Moisture Content (%) and Percent Passing US No. 200 Sieve (%),
  - One Organic Content (%,)
- Review of field data, groundwater conditions, and laboratory data.
- Provide a report with updated foundation design and site work recommendations.

Construction Materials Testing and Inspection

Ardaman is currently performing Construction Materials Testing services on this project. To date, they have included:

- Sampling and testing of both on-site soil and import fill material for Standard Proctor.
- In-Place density tests after removal of unsuitable material and proof rolling the exposed soil within the proposed building footprint.
- In-place density tests of the fill material (in one-foot lifts), within the proposed building footprint.
- In-place density tests of the proposed building foundation subgrade.
- On-site sampling of concrete for the foundation, foundation cell fill, and the cast-in-place floor slab.
- Providing daily reports for in-place density tests and compressive strength results.
- As requested by the County, Ardaman's services have been performed in a timely manner.

Time Extensions: None

5) **Project Name / Location:** **Walk-in-Water Road Bridge 164304 Replacement Project, Lake Wales**

Ardaman Fee: $23,568

Project Rep. Name: Jose Fernandez, E.I.
Polk County Board of County Commissioners

Address: 2160 Marshall Edwards Drive
Bartow, Florida 33830

Phone: 863-535-2310 **Email:** josefernandez@polk-county.net

Completion Date: November 3, 2021

Responsibility / Project Description:

Geotechnical Services

Ardaman geotechnical services included:

- Review of available aerial photographs, the USGS topographic survey map, the Polk County Soil Survey report, and the Polk County land survey.
- Utility Locate request.
- Performed six Standard Penetration Test (SPT) borings to a depth of 20 feet to 135 feet below the existing roadway surface.
- Performed one shallow hand auger (HA) boring in the creek bottom and obtained a sample of flowing water in the creek below the existing bridge structure.
- Obtained two bulk samples of subgrade soils for determination of laboratory Limerock Bearing Ratio values.
- Visually classified soil samples obtained from the test borings and performed indicator and physical properties tests on selected samples:
  - Two Limerock Bearing Ratio
  - Corrosivity Series tests
  - Seventeen Natural Moisture Content (%)
  - Seventeen Percent Passing US No. 200 Sieve (%),
  - Three Organic Content (%,)
- Review of field data, groundwater conditions, and laboratory data.
- Provide a report with updated foundation design and site work recommendations.

Construction Materials Testing and Inspection

Testing services for the Pile Installation. Ardaman performed monitoring of the installation of eight, 24-inch, 80-foot long, precast, prestressed, concrete piles at the subject bridge site.

GRL Engineers, Inc. (GRL), under contract with Ardaman, performed dynamic testing of all eight piles (two test piles and six production piles) to estimate the axial compressive capacity of each of the installed piles. Reports of dynamic pile testing results prepared by GRL and reviewed by Ardaman.

6) **Project Name / Location:** **Melendy Street Improvements, Between S. 8th & S. 10th Avenues, Wauchula, Hardee County, Florida**

Ardaman Fee: $9,176

Project Rep. Name: Jamison Tondreault
Kimley-Horn & Associates, Inc.

Address: 116 South Kentucky Avenue
Lakeland, Florida 33801

Phone: 727-742-1748 **Email:** Jamison.tondreault@kimley-horn.com

Completion Date: October 20, 2021

Responsibility / Project Description: **Geotechnical Services**

Ardaman geotechnical services included:

- Review of available site aerial maps and published Hardee County soil survey data in proximity to the proposed Melendy Street Roadway Improvement Project.
- Reconnaissance of the site by our project engineer to document conditions within the site at the time of our exploration.
- Marking the location of proposed boring activities.
- Request for utility locate services.
- Planned and conducted eight pavement cores, followed by soil exploration and sampling to characterize, and evaluate existing roadway sections and subsurface soils beneath the eight selected test locations along the proposed study segment of the roadway improvement project. Planned and collected two bulk samples for LBR tests.
- Evaluating subsurface soil conditions and groundwater table levels.
- Performing laboratory testing of selected representative samples of the different soil types recovered from the boreholes:
  - Twelve Natural Moisture Content (%)
  - Twelve Percent Passing US No. 200 Sieve (%)
  - Two LBR tests
  - Two Grain Size Distribution tests
- Prepared an engineering report providing the results of our findings from the field soil exploration and laboratory test program, existing pavement, and subgrade conditions at the test locations, and evaluated Pavement Structural Number for the existing conditions at the four test locations.

Change Orders: None

Time Extensions: None

7) **Project Name / Location:** **Overhead Power Line Upgrade & Transformer Foundation Pad, CR 555, Bartow, Polk County, Florida**

Ardaman Fee: $16,448

Project Rep. Name: Freeman Bass, P.E.
Chen Moore and Associates (CMA)

Address: 3970 Hendricks Avenue
Jacksonville, Florida 32207

Phone: 813-830-8185 **Email:** fbass@chenmoore.com

Completion Date: August 9, 2021

Responsibility / Project Description: **Geotechnical Services**

Ardaman geotechnical services included:

- The review of historical aerial photographs and Polk County Soil Survey data for the Mineral Development Overhead Power Line and Transformer Foundation Pad.
- Marking the location of proposed borings and request for utility locate services.
- Performance of two, 25 foot deep Standard Penetration Test (SPT) borings to determine the stratification and estimate engineering properties of the soils beneath the proposed transformer and performed seven, SPT borings each to a depth of 25 feet below existing ground surface for the Overhead Power Line Upgrade.
- Used ACME Barricades to provide temporary lane closure and MOT on CR-555.
- Used Swint Drilling, Women Owned, Subconsultant for drilling services for the overhead powerline poles.
- Used in-house drilling for the proposed transformer pad inside the substation. Complied with strict safety criteria: fire-resistant clothing & grounding rod for drill rig.
- Evaluating subsurface soil conditions and groundwater table levels.
- Laboratory Testing: Moisture Content (%) and Percent Passing US No. 200 Sieve.
- Visually classified soil samples obtained from the test borings.
- Prepared two geotechnical engineering reports to document the results of our field exploration, laboratory testing program, data evaluation, and engineering evaluation. Provided site earthwork and foundation design recommendations for the proposed mat foundation to support the new transformer. We also provided the requested design soil properties and parameters for each test hole location related to the transmission line poles. The following information was provided in our report for the seven-soil test boring locations for the transmission line poles:
    - Soil layer description, thickness, and estimated engineering properties.
    - Soil parameters for Foundation Analysis and Design (FAD).
    - Groundwater depth in borehole; design high ground water condition.
    - Total unit weight of soil above and below design water table levels.
    - Buoyant unit weight of soil. Soil friction angle. Undrained shear strength.
    - Basis of calculating side friction for both compression and uplift load analysis. Maximum design end bearing capacity for pole bottom support.
    - Parameters for the use of permanent casing should high groundwater levels be encountered.
    - Foundation excavation and backfill considerations.
    - Soil Classification for Guy Wire Anchor Design

8) **Project Name / Location:** **Crooked Lake Lift Station and Force Main, Lake Wales, Polk County**
Ardaman Fee: $15,371
Project Rep. Name: Richard Koller
Jones Edmunds & Associates, Inc.
Address: 3910 S. Washington Ave, Suite 210
Titusville, Florida 32780
Phone: 321-961-0045 **Email:** rkoller@jonesedmunds.com
Completion Date: February 3, 2023
Responsibility / **Geotechnical Services**
Project Description: Ardaman geotechnical services included:

- Review of historical aerial photographs and past geotechnical studies in proximity to the proposed Crooked Lake Lift Station & Force Main.
- Marking the location of proposed boring activities.
- Request for utility locate services.
- Performance of one, 50 foot-deep, Standard Penetration Test (SPT) borings, and one wash boring to obtain one, undisturbed "Shelby Tube" soil sample for the purpose of laboratory permeability testing, at each of the three (3) lift station sites.
- Performance of five (5), 15-foot deep, and five (5), 6-foot-deep auger borings along the proposed route of force main.
- Used ACME Barricade for MOT.
- Used Swint Drilling, Women Owned, Subconsultant for drilling services.
- Examination of recovered disturbed soil samples in our laboratory for verification of soil classification and performed laboratory classification tests. Also conducted the laboratory vertical permeability testing on three prepared soil specimens (one per each of the three undisturbed "Shelby Tube" samples).
- Performance of laboratory soil index tests:
  - Sixteen Natural Moisture Content (%)
  - Fifteen Percent Passing US No. 200 Sieve (%),
  - Three Organic Content (%,)
  - Three Vertical Permeability Tests
- Preparation of a report to document the results of our field exploration and laboratory testing program, groundwater and estimated seasonal high water table information at the development test boring sites, and site earthwork preparation and foundation design parameters recommendations for the proposed lift stations. Site subgrade preparation, bedding, and backfill recommendations for the Force main along the proposed pipeline alignment were also provided in the report.

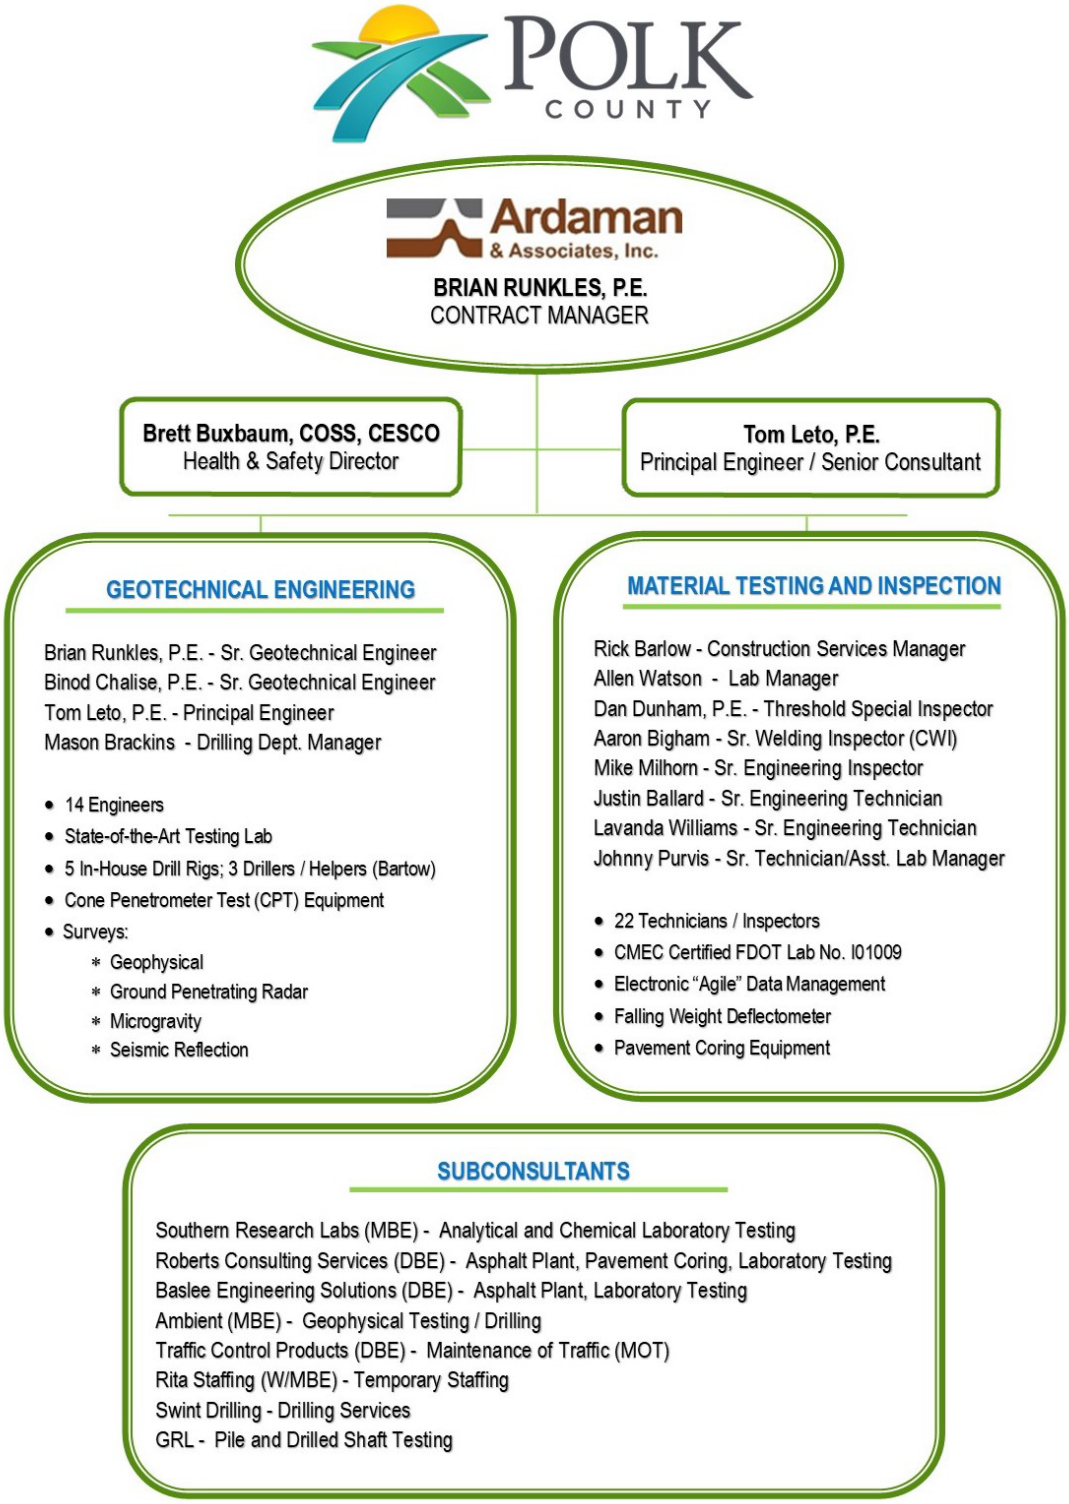
PROFESSIONAL PERSONNEL

Ardaman's strength lies primarily in the abilities of our qualified staff assigned to this contract. The organization chart below indicates the key personnel responsible for managing the work conducted for the County. Although the key staff will be the most visible to the County Staff, many other engineers and technicians in our local offices will support them. Summaries and resumes for these key individuals are also included in this section.



STAFFING CHART

NAME	ROLE	TERMINAL DEGREE	YRS. EXPERIENCE
Brian Runkles, P.E.	Contract Manager / Sr. Geotechnical Engineer	M.S. Civil (Geotech) Eng.	17
Tom Leto, P.E.	Principal Engineer / Sr. Consultant	B.S. Civil Engineering	54
Brett Buxbaum, COSS, CESCO	Health & Safety Director	B.S. General Studies Math and Science	18
Binod Chalise, P.E.	Sr. Project Engineer	M.S. CI Sciences	22
Rick Barlow	Construction Services Manager	B.S. FBBC	28
Dan Dunham, P.E., S.I.	Sr. Materials Engineer Threshold Special Inspect.	B.S. Civil Engineering	40
Mike Milhorn	Sr. Engineering Inspector	-----	36
Johnny Purvis	Sr. Technician / Asst. Lab Manager	-----	36
Justin Ballard	Sr. Engineering Technician	-----	18
Mason Brackins	Drilling Services Manager	-----	30
Allen Watson	Lab Manager	-----	27
Aaron Bigham	Sr. Certified Welding Inspector (CWI)	-----	18
Lavanda Williams	Sr. Engineering Technician	-----	35
SUBCONSULTANTS			
SRL (MBE) Sherri Payne	Analytical / Chemical Laboratory Testing Analyst	-----	35
RCS (DBE) Christopher Sotomayor, P.E.	Geotechnical and Materials Engineer	B.S. Civil Engineering	6
BES (DBE) Troy Whitfield, P.E.	Materials Engineer	M.S. Civil Engineering	25
Ambient (MBE) Marcelo Passos Ferreira dos Reis	Geophysical Testing / Drilling	M.S. Marine Science/Marine Biology	21
TCP (DBE) Orlando Nunez	Maintenance of Traffic	-----	23
Rita Staffing (W/MBE) Rich Hames	Temporary Staffing	B.B.A. Finance	30
Swint Drilling Robert Swint	Drilling Services	-----	41
GRL Mohamad Hussein, P.E.	Pile and Drilled Shaft Testing		40

Geotechnical Engineering

Mr. Brian Runkles, P.E., will serve as **Contract Manager,** and **Mr. Tom Leto, P.E.,** will serve as **Senior Consultant.** Mr. Runkles has 17 years of experience in geotechnical engineering and will provide overall management under this contract. Mr. Runkles has managed similar continuing services contracts for local City, County, and FDOT clients. Mr. Runkles will be supported by a team of highly qualified geotechnical engineers, all familiar with soils and materials testing services in general and projects within Polk County in particular. **Mr. Binod Chalise, P.E.,** will serve as a **Senior Project Engineer.** Mr. Chalise has 22 years of experience in coordinating field and laboratory sampling, analysis programs, engineering analyses, and preparation of technical reports. **Mr. Mason Brackins** will serve as the **Drilling Services Manager**. Mr. Brackins is a licensed water well contractor with 30 years of experience in drilling shallow and deep mechanical auger borings, Standard Penetration Test (SPT) borings, diamond core drilling, and installing monitoring wells. They will be supported by additional drill crews and project engineers from Ardaman's Tampa and Orlando branch office locations as needed.

Materials Testing and Inspection

Mr. Rick Barlow will serve as the **Construction Services Manager**. There are 22 field/lab technicians working out of the Ardaman Bartow office. One of Ardaman's most vital assets is the ability and competency of these field and laboratory technicians. Our senior technicians/inspectors average over 20 years of experience each. **Mr. Allen Watson** will serve as the **Lab Manager,** and **Mr. Aaron Bigham** will serve as **Sr. Welding Inspector (CWI).** The pool of key senior technicians includes **Mr. Justin Ballard, Mr. Johnny Purvis,** and **Mr. Lavanda Williams**. Not only are they experienced, but their longevity with Ardaman suggests stability that will assure the County of a consistent source of personnel. Mr. Barlow will also be supported by **Mr. Dan Dunham, P.E.**, who will serve as a **Senior Materials Engineer** and registered **Threshold Special Inspector**.

SUBCONSULTANTS

Ardaman is a full-service geotechnical and construction materials testing and inspection company capable of performing most of the scope of services outlined using our in-house resources. However, to further enhance our capabilities and provide value to the County, we have included the following subconsultants and minority business enterprise partners on our team.

Southern Research Lab, Inc. (SRL) (MBE) will provide analytical laboratory testing services. SRL has extensive experience in management, instrumentation, data interpretation, quality assurance/quality control, budgeting, pricing, sales and marketing, and project management. SRL has joined Ardaman to pursue numerous contracts for over 19 years. We have included SRL because of their professional staff and ability to respond quickly to our local requests.

Roberts Consulting Services (RCS) (DBE) provides geotechnical engineering services, including Construction Materials Testing, Construction Engineering and Inspection (CEI), and QA/QC services. RCS is a registered Small Business Enterprise (SBE) and Disadvantaged Business Enterprise (DBE) in Florida. RCS has a team of over 20 field experts and a dedicated group of professionals from Hillsborough, Polk, and neighboring Counties and has over 100 years of combined experience providing engineering services. We have included RCS on our team to supplement our construction materials testing staff and resources.

Baslee Engineering Solutions, Inc. (BES Inc) (DBE) has provided professional transportation engineering services throughout Florida for over 20 years. BES provides services for traffic engineering, highway design, CEI, and materials testing. The firm's staff has served as Engineers of Record for over 100 transportation projects over the last five years. These include the design of roadways, signals, lighting systems, maintenance of traffic, intersection improvement studies, Intelligent Transportation Systems (ITS), construction engineering, and materials testing. We have included BES on our team to provide construction materials testing support.

Ambient Technologies, Inc. (ATI) (MBE-DBE-SBE-SDB) provides geo-services for Environmental, Geotechnical, Exploration, Consulting, Engineering, and Construction Projects. ATI's projects vary from small local residential problems to major construction, petroleum clean-up, remediation projects, water, and wastewater utility projects, including major environmental, geotechnical, and geophysical exploration and assessment projects. We have included ATI on our team to provide additional geophysical and drilling capabilities.

Traffic Control Products of Florida (TCP) (DBE) will provide Maintenance of Traffic (MOT) Services in the event they are needed for pavement evaluations or sinkholes and other activities which may require drilling in the right-of-way. TCP of Florida is the current provider to Polk County for MOT PCMS device needs and a past provider to the City of Lakeland MOT Services Contract and Prime Contractor on several FDOT and City and County owned contracts. TCP's divisions also include Temporary Concrete Barrier Walls of all types, Concrete Footer Approved Manufacturers, Traffic Signalization, Highway Lighting and ITS, Permanent Sign Erection from Single Post installs to overhead heavy highway truss installs, Temporary Paint Striping and Permanent Striping applications and Perimeter Security and Crowd Control for special events.

Rita Staffing (W/MBE) has been in Central Florida for almost 50 years. Ardaman has previously worked with Rita Staffing to provide temporary staffing services for our office administrative needs. Please note, Ardaman will not use a staffing company to provide engineering and field testing inspection services.

GRL Engineers, Inc. (GRL) will provide PDA services on this contract. Ardaman and GRL have worked together on hundreds of projects in Florida. We have a very close and excellent working relationship, especially since their offices in Orlando are immediately adjacent to Ardaman's headquarters. GRL is the world leader in pile dynamic technology, and they will make a very strong addition to the Ardaman team.

Swint Drilling Services, Inc. will provide subcontract drilling support services. Swint Drilling was founded in 1998 and has been providing drilling services to public and private clients. Ardaman maintains a solid working relationship with Swint and routinely includes them on many continuing service contracts for public agencies.

Ardaman & Associates, Inc.

BRIAN RUNKLES, P.E.

SENIOR GEOTECHNICAL ENGINEER

ARDAMAN & ASSOCIATES, INC., BARTOW

EDUCATION

M.S. Civil (Geotechnical) Engineering, University of South Florida, 2006
B.S. Civil Engineering, University of South Florida, 2005

REGISTRATION

Professional Engineer, Florida, No. 72229

EXPERIENCE

Mr. Runkles is Ardaman's Bartow Branch Manager. As such, he oversees the technical and administrative operations of a full-service geotechnical engineering and construction materials testing operation. As a Senior Project Manager with 17 years of experience in the field of geotechnical engineering and construction management, Mr. Runkles conducts geotechnical evaluations and designs relating to major civil, mining, and waste disposal projects. His duties include preparing proposals and cost estimates, organizing, and coordinating field and laboratory testing programs, overseeing quality assurance testing, engineering analyses and recommendations, and preparing technical reports. He has experience on a wide range of projects, including highways and bridges, port facilities, including dredging and dredge disposal, earth dams for retention of industrial wastes, deep and shallow foundations for commercial and industrial complexes, retaining walls, and sinkholes.

Polk County Geotechnical Engineering and Materials Testing, Continuing Services Contract, Florida
Ardaman provides geotechnical investigations and recommendations for site preparation and pavement design and construction material testing, and various facilities inspection. Mr. Runkles is a Senior Project Manager/Contract Manager on this contract that Ardaman has held for many years.

FDOT District 1, Geotechnical Continuing Services Contract
Mr. Runkles serves as Senior Engineer/Project Manager for Ardaman's geotechnical continuing services contract with District 1. Under this contract, Ardaman has completed nearly 80 task order assignments on many projects located in FDOT District 1.

Avenue C Stormwater Improvements Project, Winter Haven, Polk County, Florida
Mr. Runkles was the Project Manager for geotechnical site investigation services for the project with goals to aesthetically improve the local area, improve greenspace connectivity from downtown to the Chain of Lakes Complex, increase groundwater recharge, improve water quality in the Chain of Lakes area, increase public awareness of municipal water resources management, and construction of a new stormwater facility consisting of a dry retention pond. The scope of work included a field exploration program (hand augers for seasonal high water table determination, temporary well for determining field hydraulic conductivity testing using rising head sensitivity test method, Standard Penetration Test borings for retaining wall design) and a laboratory soil testing program (index testing on recovered samples, vertical permeability testing on undisturbed "Shelby Tube" samples).

US Hwy 17 (SR 55) at Spirt Lake Road, Polk County, Florida
Mr. Runkles was the Project Manager for geotechnical site investigation and geotechnical engineering services for roadway and intersection improvements. The scope of work included a field exploration program (hand augers for seasonal high water table determination, soil probes for muck delineation, and Standard Penetration Test borings at strain pole locations) and a laboratory soil testing program. He developed and provided soil properties required for the Roadway Soil Survey sheets and drilled shaft foundation analysis and design.

SR 659 (Combee Road) from US 98 to N Crystal Lake Dr., Polk County, Florida
Mr. Runkles was the Project Manager for geotechnical site investigation and geotechnical engineering services for roadway soil survey and pond site alternatives including retaining walls and seepage-slope stability analyses for a berm between Crystal Lake and the pond.

Ardaman & Associates, Inc.

THOMAS J. LETO, P.E.

SENIOR CONSULTANT

ARDAMAN & ASSOCIATES, INC., BARTOW

EDUCATION

B.C.E. Civil Engineering, University of Florida, 1967

REGISTRATION

Professional Engineer, Florida, No. 12458

EXPERIENCE

Mr. Leto is a Senior Consultant and Reviewer for the Bartow office of Ardaman & Associates, Inc. He is responsible for determining the scope of services and workforce requirements for major geotechnical projects. Mr. Leto has over 54 years of experience in the field of geotechnical engineering and materials testing in Florida. During this time, he has designed and observed the construction of over 75 waste phosphatic clay containment dams for the Florida phosphate industry. Annually, he performs the safety inspection of over 100 miles of dams and provides annual training of dam inspection personnel for the phosphate industry. Mr. Leto is also involved in roadway design and both heavy and light construction with an emphasis on development over mined, reclaimed lands, weak fine-grained soils including muck and phosphatic clay (slimes), and mixed hydraulic fills. He has evaluated the use of Portland cement and crushed natural and artificial aggregates to strengthen base. materials.

Projects Included:

Polk County BOCC Parking Garage & Office Building, Main Street, Bartow
Engineer-in-Charge of the geotechnical investigation.

Sebring Parkway Phase III, Sebring, Highlands County, Florida
Engineer-in-Charge of a geotechnical investigation and recommendations for a 4.2-mile design-build project

Harden Boulevard Widening & Realignment, Lakeland, Florida
Project Manager for a geotechnical investigation and oversight of construction materials testing services for this major roadway.

Connersville Road Relocation Over Reclaimed Mine Land, Bartow, Florida
Mr. Leto designed a roadway embankment and provided oversight of QA/QC testing for a new road constructed in reclaimed mine cuts.

Proposed New Emergency Operations Warehouse Building, Polk County Board of County Commissioners.
Project Manager for shallow soil investigation and testing of fill pad for a warehouse building.

Walk-in-Water Road Bridge 164304 Replacement Project, Lake Wales, Polk County
Senior Consultant, reviewer of the geotechnical investigation report.

Winter Haven Transit Transfer Station
Geotechnical evaluation.

Bartow High School Expansion
Project Consultant for geotechnical investigation and analysis and design of foundations.

BRETT A. BUXBAUM, COSS, CESCO
HEALTH & SAFETY DIRECTOR

ARDAMAN & ASSOCIATES, INC., ORLANDO

EDUCATION / TRAINING

Bachelor of Science in General Studies Math and Science; Indiana University, Bloomington, IN
COSS Certified Occupational Safety Specialist (# 31195587/ Exp. 12/2025)
CESCO Certified Environmental and Safety Compliance Officer (#740173854/ Exp. 12/2023)
OSHA 40-Hour Hazardous Materials Health and Safety Instructor
OSHA 501 Instructor (10 HR and 30HR General Industry) (Exp. 2/2024)
First Responder (IMT) Certification
NIOSH 7400 and 582 Certification
MSHA Miner Certification

EXPERIENCE

Mr. Buxbaum is an Environmental Health and Safety professional with over 18 years of experience in Environmental Consulting, Occupational Health and Safety, and Industrial Hygiene. His experiences are in projects related to phosphate management, surface mining, emergency response, contamination assessments, confined space rescue, construction oversight, waste handling, and disposal. He is licensed as a certified occupational safety specialist (COSS), a certified environmental and safety compliance officer (CESCO), an OSHA instructor (501) and record keeping, Phase I, II environmental assessments, EPA instruction for Asbestos Removal I, II, III, IV, Lead inspection, I.A.Q inspection, and as a First Responder (IMT). Mr. Buxbaum has effectively used his organizational and communication skills to develop and implement programs, including behavior-based safety, reporting and record-keeping, respiratory protection, Personal Protective Equipment, Hazard Communication, Confined Space Entry, investigations, and personal injury response.

Work Experience Projects

Geotechnical - Mr. Buxbaum has provided H&S programs, emergency response plans, health and safety plans, and job safety analysis for the drilling and construction activities for the Phosphate, and Construction Industry. Projects/Clients worked on in relation to H&S consulting include Mosaic, Nutrien, Honeywell, Exxon Mobil, ACOE, and FDOT & FDEP clean-up programs.

Health and Safety – Mr. Buxbaum has provided instruction for both employees and subcontractors for 40 HR Hazwoper including FDOT, 10/30 HR OSHA General Industry; training for subcontractors for Sunoco and Exxon Mobil in behavior bases safety (LPS), and EPA Licensing for Asbestos Removal for City of Indianapolis General Motors, and Clarian Health Partners. He has also created and implemented a behavior-based safety program, Safety Throughout Operations Program (STOP), for Ardaman & Associates Inc.

Emergency Response – Mr. Buxbaum responded to asbestos exposure situations in an industrial setting and for the City of Indianapolis. Designed and implemented remediation plans for asbestos, lead, and mold contamination that occurred in numerous locations, both residential and commercial, throughout the state of Indiana. Follow-up activities included source removal, assessment, monitoring, waste disposal of contamination, and training. Consulted and conducted confined space training for both entry and rescue for industrial clients.

Waste Disposal and Handling - Mr. Buxbaum performed waste handling, analytical testing, and disposal during the decommissioning of several automotive plants and hospitals in Indianapolis, IN. The wastes consisted of Asbestos, lead paint, mold, and mercury. Additional guidance also provides to other commercial and industrial clients.

Ardaman & Associates, Inc.

BINOD R. CHALISE, P.E.

SENIOR GEOTECHNICAL ENGINEER

ARDAMAN & ASSOCIATES, INC., BARTOW

EDUCATION

M.S. Computer & Information Sciences, University of New Haven, CT, 2004
M.Sc. Structural Engineering, Tribhuvan University, Nepal, 2000
B.S. Civil Engineering, Assam University, India, 1996

REGISTRATION

Professional Engineer, Florida, No. 66545

EXPERIENCE

Since 1997, Mr. Chalise has worked two years abroad, one year in Connecticut, and 19 years in Florida, totaling 22 years of combined experience in the fields of geotechnical engineering and construction materials testing with limited structural engineering. During this time, he has performed geotechnical engineering studies and managed construction inspection and materials testing for new building, roadway, and bridge projects, as well as rehabilitation of old buildings and roadways. He has worked on high-rise residential buildings, school campus buildings, hospitals, "big box" retail stores, churches, power line poles, towers, and tank structures in Florida. His experience also includes threshold inspection, post-tensioning inspection, and construction materials testing. He has managed geotechnical exploration projects and performed analyses in support of recommended design parameters for civil and structural engineers who design roadways, stormwater ponds, sewer, and water supply infrastructure, retaining structures, and buildings. He has performed analysis and design of deep (piles) and shallow foundations, retaining walls, earthen embankment dam and spillway pipe culvert, and construction quality control. He has extensive experience working on geotechnical projects at Mosaic's mining and chemical facilities in Florida since 2008 and at public and private development projects in Florida since 2004. He has also completed several FDOT-District 1 projects.

Roadway Bridges, Polk County, Florida
Project Engineer for geotechnical analysis and deep foundation recommendations for bridges at South Lake Reedy Boulevard, Old Lake Wales – Bartow Road, Eagle Lake Loop Road, Walk-In-Water Road, and two bridges at North Reedy Lake boulevard which included box culvert design options. Project Engineer for precast concrete pile testing and monitoring of pile installations at two of the above bridges.

FDOT District 1 Geotechnical Continuing Services Contract
FDOT-D1 – SR 659 (Combee Rd) Improvements from US 98 to North Crystal Lake Drive, Polk County, Florida
Project Engineer for geotechnical site investigation and conducting geotechnical engineering services for roadway soil survey and pond sites, including retaining walls and seepage-slope stability analyses for a berm between Crystal Lake and the pond.

Overhead Power Line Upgrade & Transformer Foundation Pad, CR 555 Bartow, Polk County, Florida
Mr. Chalise was a Project Engineer for the geotechnical engineering analysis and foundation recommendations for the overhead power line upgrade and transformer foundation project in Bartow, Polk County.

Crooked Lake Lift Station and Force Main, Polk County, Florida
Mr. Chalise was a Project Engineer for the geotechnical investigation, engineering analysis, and to provide site preparation and foundation design recommendations for the lift station wet well structures and force main pipelines at Crooked Lake in Polk County.

Polk County BOCC Parking Garage, Bartow, Florida
Project Engineer for a geotechnical engineering investigation and foundation design for a multi-level, precast concrete parking structure.

Solid Waste Transfer Facility, Sebring, Highlands County, Florida
Mr. Chalise was a Project Engineer for the geotechnical engineering analysis and foundation recommendations for office/maintenance building, transfer station, driveway/parking, and storm water management ponds at PWS Highlands Transfer facility in Sebring.

Lake August Boat Ramp, Lot 35, Washington Boulevard N.W., Lake Placid, Florida
Mr. Chalise was a Project Engineer for the subsurface investigation for the proposed boat ramp and retaining wall. He provided an analysis of subsurface soils and recommendations for site-work and foundation design of the boat ramp and retaining walls.

RICK W. BARLOW
CONSTRUCTION SERVICES MANAGER

ARDAMAN & ASSOCIATES, INC., BARTOW

EDUCATION

B.S. – FBBC, Iowa, 1980

Nuclear Haz-Mat
Radiation Safety Officer
Materials Acceptance and Certification System - Data Entry User, Data Reviewer, & Facility Profile Manager

EXPERIENCE

Rick Barlow has worked in a Supervisory/Project Managerial role in construction materials testing/quality control and subsurface exploration since 1995. Mr. Barlow has performed quality control supervision for field and laboratory procedures, personnel certifications, documentation, and records. He has project managerial experience in the field of geotechnical exploration and has managed staff, including field and laboratory technicians, foundation drillers, CAD designers, and environmental scientists. He has performed quality control supervision for field and laboratory procedures, personnel certifications, documentation, and records. He is a Radiation Safety Officer and has supervised nuclear safety programs and procedures, including conducting Hazmat Safety Training classes. Mr. Barlow has been involved in various field investigation activities, such as groundwater monitoring, construction materials testing, and geotechnical explorations. Since 2003, he has managed the daily scheduling of field technicians, reviewed Construction Materials Testing reports, and provided quality control supervision.

FDOT District 1 – Continuing Services Contract, Construction Materials, Verification Laboratory - Multiple Projects

Polk County BOCC – Continuing Services Contract, Geotechnical & Construction Materials Testing - Multiple Projects

Polk County, Emergency Operations Warehouse Building, 1890 Jim Keene Blvd, Winter Haven, Construction Materials Testing coordination

Polk County, SW Region Waste Water Treatment Facility Operations Building, Mulberry, Construction Materials Testing coordination

Polk County, Tax Collector, 90-Foot Communications Tower, Geotechnical Investigation and Construction Materials Testing coordination

Polk County, Walker Road Park, Phase 1, Geotechnical Investigation and Construction Materials Testing coordination

Polk County, Parking Garage, Project Manager for the Construction Materials Testing

Lakeland Linder Regional Airport, Taxiway B Ext. & Parking Expansion, Geotechnical Investigation & Construction Materials Testing Taxiway C, Construction Materials Testing, FAA AIP 2-12-0041-25-2003, Construction Materials Testing

Wauchula Municipal Airport, Parking Ramp & Storage Hangar, Construction Materials Testing

Lake Wales Airport, RW 17-35 Safety Area Improvements, Construction Materials Testing

Bartow Municipal Airport, Sewer Rehab, Construction Materials Testing

Winter Haven Area Transit (WHAT) – Construction Materials Testing

Winter Haven Transit Transfer Station – Construction Materials Testing with asphalt thickness determination

Winter Haven Hospital, 3-story building expansion – Construction Materials Testing

DAN DUNHAM, P.E., S.I.
SENIOR MATERIALS ENGINEER

ARDAMAN & ASSOCIATES, INC., ORLANDO

EDUCATION

BSCE, Civil Engineering, University of Central Florida, 1980

REGISTRATION/PROFESSIONAL AFFILIATIONS

Professional Engineer, Florida, No. 36782
Florida Registered Threshold Inspector No. 0928
ACI - Central Florida Chapter Board Member
CME - Former Chairman, Executive Committee, and Board of Directors Member

EXPERIENCE

Mr. Dunham has over 40 years of professional experience in construction materials testing and threshold (special) inspection services. He has been involved in numerous projects throughout Florida, including over 100 threshold-building structures.

Mr. Dunham is knowledgeable in soils (earthworks), aggregates, concrete, masonry, grout, reinforcing steel, structural steel, fireproofing (cementitious and intumescent), precast concrete, structural wood framing, soil-cement, and superpave asphalt. His project experience includes continuing services contracts with local municipalities and other governmental agencies and individual projects with owners, architects, engineers, and contractors. Dan has worked on several high-profile projects in the Central Florida area:

- The Amway Center (home of the Orlando Magic)
- Dr. Phillips Center for the Performing Arts
- 55 W (5th tallest building in downtown Orlando)
- Orange County Convention Center North & South Concourses
- Universal Studios North & South Parking Garages
- Universal Studios Lost Continent at the Islands of Adventure
- RDV Sportsplex (training facility of the Orlando Magic & Orlando Solar Bears)
- City of Orlando Continuing Services Contract
- Central Florida Expressway Authority (CFX) Continuing Services Contract
- Orlando Arena (Amway Arena - original home of the Orlando Magic)
- Florida Mall, Lakeland Square Mall, Melbourne Square Mall
- Planet Hollywood at Disney Village Orlando
- Mary Queen of the Universe Shrine
- City of Orlando Continuing Services Contract

Orange County Public Works, Florida
Project Manager for Continuing Services Contract for Geotechnical and Construction Materials Testing Services. The scope of services included soils, concrete, and asphalt testing and inspection services.

- **International Drive Improvements** - Project Manager for approx. 2.2 miles of roadway widening (from 4 lanes to 6 lanes). Scope of work included utility backfill and pavement section testing and inspection services, including precast plant and asphalt plant inspections. Also included inspections of the Full Depth Replacement (FDR) base reconstruction.
- **International Drive Pedestrian Bridge -** Project Manager and Threshold Inspector for this approximately 410 feet enclosed pedestrian bridge connecting Orange County Convention Center to the Hyatt Regency Hotel. The structure consisted of structural steel, cast-in-place concrete, and precast concrete elements on conventional shallow foundations. Soils, concrete, and structural steel testing and inspection services were also performed on the project.

MICHAEL MILHORN
SENIOR ENGINEERING INSPECTOR / FIELD SAFETY SUPERVISOR

ARDAMAN & ASSOCIATES, INC., BARTOW

EDUCATION
High School – Diploma

CERTIFICATIONS
CPN Nuclear Gauge Certified, 1987
MSHA Training, 1990, Exp. October 2023
OSHA Training, Exp. October 2023

EXPERIENCE
Mr. Michael Milhorn has 36 years of experience as a field inspector/technician with Ardaman. During this time he has completed thousands of field tests and inspections on a variety of public and private projects including roadways, airport runways, soil-bentonite cutoff walls, geomembrane liners, deep dynamic compaction, vibro-compaction, pile driving, auger cast piles, pile load test, sinkhole stabilization by compaction grouting, chemical grout injection, soil-cement, reinforced concrete structures, asphaltic concrete placement and testing, concrete/asphalt coring, foundation treatment and compacted earthfill, surface drainage ditches and culverts, pipe backfill and building foundation subgrade in-place density testing, and erosion control systems. He has also been involved in phosphate mining-related above grade improvement projects involving the construction of tens of miles of earth fill embankments. Since 2005 he has been the Quality Assurance / Safety Supervisor for Ardaman's Bartow field technician staff.

AREAS OF EXPERTISE

Soil (ASTM)
Moisture content (D-2216)
Organic content (D-2974)
Unit weight (undisturbed sample)
Sieve analysis (D-421, D-422)
Percent fines (D-1140)
Standard proctor (D-698)
Modified proctor (D-1557)
DRI - In-place permeability (D-3385)
Nuclear density (ASTM D-6938)
Sand cone density (ASTM D-1556)
Balloon density (ASTM D-2167)
Drive sleeve density (ASTM D-2937)
Field CBR (ASTM D-4429)
Speedy moisture tester
Florida Bearing Value (FBV)
Vibroflotation monitoring
Deep dynamic compaction monitor
Pile driving monitoring
Pile installation, auger-cast & driven

Concrete Testing (ASTM)
Sampling (D-31)
Slump test (C-31)
Unit weight and yield (C-138)
Molding cylinders (C-31)
Air meter (C-231 and C-173)
Cure, prep & cap of conc. cylinders (C-684)
Beams - flexural test (C-78 or C-293)
Collect concrete/pavement cores (C-47)
Core prep & compression test (C-42)
Compressive strength testing (C-683)
Sample coarse/fine aggregate (D-75)
Sample/test concrete masonry units (C-55)
Compress strength mason prism (C-67)
Mortar/grout reinforced masonry (C-67)
Specific gravity of concrete (C-127, C-128)
Reporting procedures

Steel Inspection and Testing (AISC)
Non-destructive, visual welding inspection (4-99 or AWS Manual)
Torque test of bolt connect (5-169)
Post-tension cable place/tension

Foundation Soil Drilling (ASTM)
Hand cone penetration
Hand auger borings
Classification of soils (D-2487)
Shallow soil surveys
Muck probing
Waste clay sampling

JOHNNY PURVIS
SENIOR ENGINEERING TECHNICIAN

MSHA 24-hour Safety Training, Current
OSHA 16-hour, Current
ACI Concrete Strength Testing Tech
ACI Aggregate Base
ACI Aggregate Testing Tech
CTQP Aggregate Base
CTQP Qualified Sampler
CTQP Aggregate Testing Tech
LBR Technician

EXPERIENCE

Mr. Purvis worked as a Field and Laboratory Technician with Ardaman & Associates, Inc. from 1987 to 2005. From 2005 to 2013, Mr. Purvis managed a testing laboratory for a roadway contractor. Upon returning to Ardaman in 2013, he has been involved in laboratory testing of soils, aggregates, and hardened concrete. Mr. Purvis has earned all the certifications to become a certified lead laboratory technician. Mr. Purvis has the responsibility of assisting in keeping all laboratory equipment verified and calibrated to ISO 17025 standards. The Ardaman – Bartow laboratory is inspected annually by CMEC. Also, as part of Ardaman's Continuing Services Contract for Materials with The Florida Department of Transportation (FDOT), District 1, the laboratory is inspected regularly by the FDOT. He is a key person involved in these inspections.

FDOT District 1, Various projects, Florida – Provided laboratory testing including Gradation, Percent Fines, Organic Content, Atterberg Limits, LBR with Modified Proctor, Standard Proctors, and Compressive Strength of hardened concrete.

FDOT Turnpike, SunTrax project, Polk County Florida – Provided laboratory testing including Gradation, Percent Fines, Organic Content, LBR with Modified Proctor, Standard Proctors, and compressive strength of hardened concrete.

Polk County BOCC, Various Projects, Polk County – Provided laboratory testing for both geotechnical investigations and Construction Material Testing/inspections, including Gradation, Percent Fines, Organic Content, LBR with Modified Proctor, and Standard Proctors.

Maaden Waad Al-Shamal, Phosphate Company (MWSPC), Saudi Arabia – Provided one-year of laboratory oversite, management, and on-site training of an international crew of laboratory technicians.

C.W. Bill Young Regional Reservoir, Hillsborough County, Florida – Field Lab Supervisor/Inspector on 930-acre fresh water reservoir. His responsibilities included monitoring soil-bentonite mix cutoff wall, unsuitable soil removal, geomembrane liner, placement of 12 million cubic yards of earth fill, and soil-cement rip-rap for the upstream slope protection.

Various Single Home Construction Projects, Polk, Highlands, and Hardee County, Florida – Provided laboratory tests including Modified and Standard Proctors, Moisture Content, Percent Fines, and Organic Content.

- ✓ Drive sleeve density (D-2937)

Concrete Testing (ASTM)

- ✓ Sampling (D-31)
- ✓ Slump test (C-31)
- ✓ Unit weight and yield (C-138)
- ✓ Molding cylinders (C-31)
- ✓ Air meter (C-231 and C-173)
- ✓ Cure, prep & cap of conc. cylinders (C-684)

EXPERIENCE

Mr. Ballard has performed as a Field Inspector and Engineering Technician with Ardaman & Associates, Inc. since April 2005. He has been involved in monitoring and construction materials testing on a wide variety of projects, including agency, municipal, commercial, industrial, and residential, for soil compaction, intrusion grouting, and installation of ductile iron pipe piles. Mr. Ballard is also experienced with sampling and testing fresh Portland cement concrete, pavement subgrade, and base materials.

Polk County BOCC, Emergency Operations (EOC) Warehouse Building, Jim Keene Blvd, Winter Haven, Polk County, Florida
Performed in-place density tests, Hand Auger (HA) Borings, and Hand Cone Penetrometer Test (HCPT) probes at eleven locations within the proposed EOC warehouse building footprint. Collected soil samples from the HA borings and a sample for a Standard Proctor test.

Polk County BOCC, SW Region Wastewater Treatment Facility Operations Building, Mulberry, Polk County, Florida
Performed in-place density tests on Operations Building subgrade, foundation subgrade, and slab subgrade.

Polk County BOCC, Walker Road Park, Phase 1, Lakeland, Polk County, Florida
Performed in-place density tests on travel lanes and parking subgrade, stabilized subgrade and base material, pipe and structure backfill, sidewalk subgrade, and building foundation subgrade.

Polk County BOCC, Lake Gwyn Park, Phase 1, Wahneta, Polk County, Florida
Performed in-place density tests on travel lanes and parking subgrade, stabilized subgrade, and base material; pipe and structure backfill; sidewalk subgrade, and building foundation subgrade.

Polk County BOCC, Northeast Regional Park, Phase 2, Davenport, Polk County, Florida
Performed in-place density tests on travel lanes and parking subgrade, stabilized subgrade, and base material; pipe and structure backfill; sidewalk subgrade, and building foundation subgrade.

Bartow Municipal Airport, Polk County, Florida
Clean Harbor – Everett Whitehead & Sons - Provided construction materials testing, including concrete sampling.

Polk County BOCC, WHAT Bus Parking, Winter Haven, Polk County, Florida
Performed in-place density tests on bus parking subgrade, stabilized subgrade, and base material.

Bartow Municipal Airport, Polk County, Florida
Sewer Rehabilitation and Taxiway – Censtate Contractors – Provided construction materials testing, including soil sampling for laboratory testing, in-place density tests, and concrete sampling.

(RICHARD) MASON BRACKINS
DRILLING SERVICES MANAGER

ARDAMAN & ASSOCIATES, INC., BARTOW

EDUCATION

High School Diploma, Oviedo High School, 1992

CERTIFICATIONS / TRAINING

State of Florida License – Water Well Contratcor
MSHA (24-hour) and OSHA (16-hour) Safety Training, Current
40-Hour HAZWOPER Training, Current
In-house Driller Safety Training

EXPERIENCE

Mr. Brackins joined Ardaman in 2005 and has 30 years of experience conducting geotechnical drilling. His responsibilities include layout of boring locations, evaluating access to drilling sites, managing, and implementing site safety plans, subsurface drilling and sampling, logging boreholes, cataloguing samples and transporting field information and samples to the laboratory.

His experience in Florida includes subsurface drilling in Karst geological conditions. Karst conditions consist of fractured and soluble limestone commonly overlain by very loose, raveling surficial soils. The profile frequently includes cavities and voids which make drilling challenging. Mr. Brackins is experienced with the techniques required to successfully complete borings in these conditions. Such techniques include using steel casing to maintain the boring hole and modification of the drilling fluid viscosity.

He is also experienced with drilling and other field services related to environmental assessment services such as installation of monitoring and remediation wells, development of monitoring wells, and soil borings in potentially contaminated environments.

He is experienced with drilling on phosphogypsum stacks associated with Florida's fertilizer industry. This work has included drilling deep borings (deeper than 300 ft.) on top of these waste disposal landfills (stacks). He has specific experience conducting angled drilling techniques for collecting wireline core samples as part of a major remediation project.

Mr. Brackins has worked on hundreds of projects in Florida and a myriad of project types including:

- Chemical plants and associated ponds and waste areas
- Transportation infrastructure, including bridges
- Public water and wastewater infrastructure
- Port facilities
- Power plants
- Landfills
- Commercial buildings
- Residential facilities
- Sinkholes

Areas of Expertise:

- Standard Penetration Test (SPT Borings)
- Wireline coring (vertical and angled)
- Hollow and Solid stem auger
- Shelby tube and Pitcher tube sampling
- Lake bottom sediment sampling
- Borehole permeability testing
- Monitoring well and piezometer installation and development

EDUCATION

U.S. Navy 1994 - 1997
High School, Graduated 1994

CERTIFICATIONS

Certified Welding Inspector C.W.I
ACI Concrete Field

EXPERIENCE

Mr. Aaron Bigham is Senior Metals Inspector and Nondestructive Testing Technician for Ardaman. He has 18 years of experience conducting visual and non-destructive inspections for commercial structures, theme park rides, and public buildings, including schools. He is also an experienced welder and a Certified Welding Inspector. Mr. Bigham is also a trained and experienced GPR operator (Radar Technician). The following relevant projects typify his experience:

<u>Metals Inspection</u>

- Brandon West Field Mall Expansion, Brandon, Florida
- Lead Technician for the NDT of ride systems in theme parks and quarterly track inspection for high-velocity coaster tracks.
    - Busch Garden's Tampa
    - Cypress Gardens, Winter Haven, Florida
    - Adventure Island Park, Tampa Florida
- Various Chase Bank Facilities – Roof Framing Inspections
- Various Publix Store Remodel – Roof Framing Inspections
- Highway Systems – Magnetic Particle Testing on FDOT sign structures
- Various School Projects
    - Venice Middle School – Structural Steel and Weld Inspections
    - Pine View School HVAC and Interior Renovations – Structural Steel and Weld Inspections
    - Pine View School Building 11 Upgrades – Structural Steel and Weld Inspections
    - Venice Middle School – Structural Steel and Weld Inspections
    - Riverview High School – Structural Steel and Weld Inspections

<u>Ground Penetrating Radar</u>

- Acorn Drive Survey, Polk County, Florida
- Memphis Cemetery, Palmetto, Manatee County, Florida
- School Site 113-K8-E-6, Orange County Florida
- Seabreeze Elementary School, Manatee County, Florida
- Various Roadways and Utilities in Hillsborough County, Florida
- Residential Sinkhole Investigations in Hillsborough, Pasco, Hernando and Pinellas Counties, Florida

LAVANDA WILLIAMS

Nuclear Density Gauge Operators

EXPERIENCE

Mr. Williams has provided services as a Senior Inspector on FDOT District-Wide CEI projects and as the Construction Materials Laboratory Manager for the past 35 years and has been with Ardaman for the past 15 years. He is also proficient in performing tests such as Atterberg Limits, Percent Finer than No. 200 Sieve, Moisture Content, LBRs, Proctors, Sieve Analysis and Asphalt Extraction/Gradation, FBVs, field density tests, concrete testing, and asphalt plant inspections. Further, he has extensive experience in fireproofing inspection, roof cut extraction, soil-cement design, concrete design, laboratory, and field testing.

Mr. Williams performs all aspects of field and lab testing for various materials testing projects involving soils and concrete. Mr. Williams currently supervises the laboratory testing of soils and construction materials as well as providing limited field inspection.

Representative projects include:

- **SW Region Waste Water Treatment Facility Operations Building, Mulberry, Polk County, Florida – Materials Testing**
- **The Suncoast Parkway 2 – Phase I Expansion – Verification Testing**
- **Park Street Safe Routes to School Improvements, Pinellas Park, Florida**
- **NE Coachman & Old Coachman Road Intersection Improvements, Pinellas County, Clearwater, Florida**
- **110th Avenue Road Reconstruction, Pinellas County, Clearwater, Florida**
- **Sunshine Skyway Fishing Pier Rehabilitation, St. Petersburg, Florida**
  (Financial Project ID 431750-3-52-01)- Concrete sampling and testing
- **Hopewell SR 60 Weigh Station- Plant City, Florida**
  (Financial Project ID 434825-1-52-01)- Earthwork and concrete testing
- **University of Tampa Palm Apartments, Phase II, Tampa, Florida**
- **Eastport Development, Port of Tampa, Florida**
- **USCENTCOM Joint Intelligence Center, MacDill Air Force Base, Tampa, Florida**

SHERRI PAYNE

Southern Research Laboratories Inc. Vice President and co-owner, January 1991 to present.

EXPERIENCE:

Sherri Payne is Vice President and co-owner of Southern Research Laboratories (SRL) a small minority owned business headquartered out of Orlando, Florida.
With over 30 years of expertise in Environmental Analysis and Remediation, her extensive laboratory experience and qualified staff provide compliant and quality analysis of environmental samples; water, soil, air, sludge and other media as needed to meet the needs of a diversified and demanding clientele, including commercial and governmental agencies.
Analysis includes practiced and specialized applications of Hewlet Packard GC's, GCMS's, chromatographic interpretations, calculations, troubleshooting, and method's development to ensure precision, accuracy and defend-ability of results reporting.
Accomplishments include successful completion of EPA performance evaluation studies; development of strong client relationships through personal contact and specialized client/project management plans that ensure chain of custody from sample receipt, analysis and results provision all the way through to timely budget administration.
SRL's extensive experience in organic analysis of drinking water & environmental media for organic contaminants of concern (EPA), participation in federal & state certifications and diversified expertise permit flexibility that only a small and focused facility can provide; quick turnaround, consistent performance, and personal attention to specialized requests for analysis of (other) contaminants of interest can be facilitated with confidence of analytical quality and accountability.

(06/91-02/94), Organic Analyst

Joyce Environmental Consultants Inc., Orlando, Florida

Responsibilities included sample preparation in organics, analyzing and analysis of environmental, drinking water, and EPA continuing performance evaluation studies for organic contaminants. Assisted in wet chemistry, AA, and Micro. Analysis includes operation of Hewlet Packard GC's, chromatographic interpretations, calculations, precision/accuracy, troubleshooting, and maintenance. Ordering laboratory supplies associated with selected responsibilities

(11/90-05/91) co-owner/Corporate Secretary/Project Manager/Analyst

(P)ayne (C)owley & (B)owers Environmental Laboratories Inc., Orlando, Florida

Primary responsibilities were to develop client relationships through person and telephone contact. Assisted clients with pricing, sampling kits, shipping sampling kits and sample receiving. Project management from receipt of samples through billing. Performing sample preparation in organic extraction and AA from various matrices

(06/87-12/90), Sample Management/Analyst

Orlando Laboratories Inc., Orlando, Florida

Responsibilities included the shipping and receiving of sample containers for 250-350k in monthly analysis. Maintained supplies of bottles, vials, preservatives, etc. Organized field sampling of monthly and quarterly projects. Maintained database for kit requests, weekly reports to sales staff and management. Assisted in organic extractions, wet chemistry, AA, and Micro departments

Education:

College: Seminole Community College, Sanford, FL 1977-79 Environmental Science
College: Cypress Community College, Stanton, CA 1982 Environmental Studies
Several Restek Capillary Chromatography Courses

279 Douglas Ave, SUITE 1110
Altamonte Springs, FL 32714

Christopher Sotomayor, P.E.
Geotechnical and Materials Engineer

Christopher Sotomayor has over 6 years of experience in FDOT construction material testing and geotechnical engineering projects. He manages the construction materials testing and geotechnical activities for private and public projects throughout Central Florida. Chris coordinates all field and laboratory activities associated with construction projects, reviews, and signs and seals all construction testing and inspection reports as well as geotechnical reports.

2014 – 2019
FDOT-District 5, District Wide Contract - C8559, C8A50 & C9C40
Chris served as Project Manager for this FDOT District 5 contract. Chris was responsible for all Geotechnical, Drilled Shaft and Pile Driving Activities. Responsibilities include maintaining and keeping up with IA verifications of all current inspector. Revising field logs and submitting recommendations for approval. Pavement Evaluation on multiple projects (e.g., I-4, SR 464, SR 44). These projects include project include obtaining field core data and providing a summary of the core results and pavement condition as well as resurfacing recommendations. Chris also served as project engineer for a roadway soil survey on A1A. This included obtaining field samples and running geotechnical soil laboratory tests.

2020 – Current
FDOT-District 1, District Wide Contract – CA071
Mr. Sotomayor served as a Project Manager for this District 1 contract. He is responsible for pavement evaluation and laboratory projects assigned by the district and sees them from conception to final reporting. Mr. Sotomayor has been able to consistently save the district 10 to 15 percent of the project budget by efficiently managing field operations.

2014 – 2019
Central Florida Expressway Authority, Continuing Services Contract, Florida
Drilled shaft Inspector to multiple drilled shaft installation projects for CFX projects. Mr. Sotomayor also served as the project engineer. Responsibilities include reviewing and completing drilled shaft logs, recommending further testing and submitting acceptance package.

2014 – 2019
Orange County Public Schools, Continuing Geotechnical Engineering and Materials Testing Contract
Mr. Sotomayor has served as project manager for extensive construction materials testing services on Orange County School sites. He oversees testing of concrete, soils, steel, fireproofing and pavements on various schools. Further responsibilities include keeping track of project progress to efficiently manage the budget. Projects includes Audubon Park ES, Metro West ES., Englewood ES., Parramore PS-8 ES. Avalon Park MS, Lockhart ES and Ventura ES.

PROFESSIONAL BACKGROUND

- Laboratory Manager/Process Writer Carpenter Technologies, September 1998 to September 2001
- PE Trainee Program, FDOT, 2007 to 2011
- Specialization Phase of PE Trainee Program in Planning, FDOT, 2011
- Senior Phase of PE Trainee Program in Materials, FDOT, 2012
- District Bituminous Supervisor, FDOT, April 2013 to February 2019
    - Asphalt Roadway Paving Issue Prevention/Resolution
- Asphalt Plant Production, Scheduling of IA/IV/VT Staff, Laboratory Inspection and Review of Asphalt Mix Designs
- Baslee Engineering Solutions, 2021 to Present
    - Senior Engineer
    - Materials Laboratory Manager
    - Winter Haven Office Manager

Troy has a strong background in Asphalt Production and Paving as his group was responsible for acceptance of all Roadway and Sidewalk projects in both Districts One and Seven while at the FDOT. He served as a Project Administrator during the Construction Phase of the Department's PE Training program on the Harden Road / Sikes Blvd project in 2008 in conjunction with Kirby Radford. He has served as the Senior Materials Engineer running the Winter Haven Materials Lab since 2020 and as the Winter Haven Office Manager since 2021, and obtained the needed training to oversee the Laboratory and field sampling. While achieving his Masters in Civil Engineering at USF, he supervised an undergraduate concrete lab course.

Harden Road / Sikes Blvd, Polk County – FDOT District One: Served in conjunction with Kirby Radford as a Project Administrator for this resurfacing and sidewalk project.

Florida Department of Transportation – District One and Seven Bituminous Supervisor (January 2007 - February 2019, 12 years 2 months): Troy was a front line supervisor in charge of the Asphalt IA/IV Program at the Department of Transportation for both Districts One and Seven, covering 11 counties in central Florida. He was challenged to keep his staff motivated in an environment of little to no salary increases interspersed with benefit cuts/added duties. He always achieved his quotas and was able to reduce his staff from a high of seven to four by the time he left. To accomplish this, he developed within his staff a pride in doing great work. This was accomplished by empowering them to make as many decisions as possible in the field and being the muscle when they felt that their directives were not being followed. His group had a great reputation for fairness and the primary concern was to resolve all issues before final acceptance of the project by the Department. program. Troy was also the supervisor of the Asphalt Plant Verification Technicians. He reviewed their output daily and handled scheduling on a weekly basis, as well as being on call daily to find coverage in the event that paving was added to that day's/night's activities.

Marcelo Passos Ferreira dos Reis, MSc.

ROLE: VP of ATI Companies LLC and Drilling Operations Manager - Subsidiary of Ambient Technologies, Inc.

EDUCATION:

- M.S., Marine Science/Marine Biology, Universidade Santa Úrsula Rio de Janeiro, Brazil, 2002
- B.Sc., Marine & Science Marine Biology, Universidade Santa Úrsula - Rio de Janeiro, Brazil, 1999

REGISTRATIONS/CERTIFICATIONS:

- Certified Ground-Penetrating Radar Operator
- ISO 14001 Lead Auditor Certification, Environmental Management; Bureau and International Register of Certified Auditors

Mr. Reis' Master of Science studies with a focus in Environmental Marine Sciences have allowed him to interface/integrate multiple factors within environmental processes. He gained vast experience in this area during several years as, first, a Team Member and then Project Director, on marine expeditions for environmental and biological studies. With his educational background and applied experiences, his skills took him to the position of professor with two private universities in Brazil. His accomplished work at the universities was recognized when he was elected "Best Professor of the Year" for two consecutive years. As Lead Environmental Auditor with Bureau Veritas Quality International, he worked with organizations and businesses to establish and maintain effective environmental management systems (EMS) in accordance with ISO 14004 standards. As the Technical/Operational Manager at ATII Brazil, in Rio de Janeiro, Mr. Reis develop the firm's geophysical services market in Brazil. Marcelo has led and managed Geotechnical and Environmental Drilling projects for the Panama Canal Project, where ATI Panamericana provided over 90% of the Geotechnical and Environmental Drilling for the Panama Canal Expansion Project. He is currently in charge of all Geotechnical and Environmental Drilling Projects throughout the State of Florida.

RELEVANT PROJECT EXPERIENCE:

Coral Springs Fire Academy FL, Coral Springs, FL - Project Manager – INTERTEK-PSI – Coral Springs & Plantation, FL – 2019 – **Cost: $6,900**
Site 1 and Site 2: Installation of two (4) Temporary Monitoring wells up to 15 ft. Well is 1" with 10 ft of prepack screen. Installed and removed on same day. Open borings (concrete) for client. Built a decon pit for decontamination processing. Special handling procedures for the sampling of PFAS.

Geotechnical drilling and instrumentation installation, Panamá Canal Pacific side
Project Manager – Grupo Unidos por el Canal/ACP Panama Canal – 2014 – **Cost: $200,000**
Geotechnical/Geological investigation drilling over 4,000 feet, with disturbed and undisturbed samples and HQ coring. With instrumentation installation. Canal Expansion on the Pacific and Atlantic side.

Orange County Superfund Site, City of Orlando, FL
Project Manager – Geosyntec – Tallahassee, FL – 2021-2022 - **Cost: $35,000** ATI Companies completed Direct Push Technology (DPT) Drilling, Soil & Water Sampling and Monitoring Wells installations, at the Spellman Superfund Site in the City of Orlando, Florida. The purpose of the investigation was to identify and delineate the nature and extent of industrial solvents in the soil and groundwater at the site. The Scope of Work included 40 Soil Borings (direct push continuous macrocores sampling) and GW sample points up to 60-ft below land surface. This initial phase also included the installation of 6 monitoring wells (vertical and angled) were installed at the same depth (up to 60ft) for continuous monitoring of the following phases of the project.

ORLANDO NUNEZ RESUME

EMPLOYMENT

Traffic Control Products of Florida, Inc.

October 1, 2000 -October 2004 and June 2006 - Present
Superintendent / Estimator MOT - Maintenance of Traffic Division Florida - Project Manager
Responsible for logistics of all crews for maintenance of traffic division, and installation for all FDOT projects and for private and municipal projects within Hillsborough, Pinellas, Polk, Pasco, Hernando, Citrus, Sarasota, Manatee, Highlands, Sumter, Hardee, Desoto, Lake county areas. Includes sales responsibilities and customer relations, estimating and plan engineering. Responsible for training and certifying all employed Flag Persons in Tampa Branch. Certified FDOT Florida Advance MOT Instructor for TCP of Florida company wide.

October, 2004- June 2006
Superintendent - Barrier Wall Division - Tampa office- Traffic Control Products of Florida, Inc.
Responsible for logistics of all crews for barrier wall division - installation for all projects state wide. Includes estimating, sales, scheduling crews and trucking, customer liaison and project management.

October 1, 2000 -October 2004
Superintendent - Maintenance of Traffic Division -· Tampa Office -Traffic Control Products of Florida, Inc.
Responsible for logistics of all crews for maintenance of traffic division, and installation for all FDOT projects and for private and municipal projects within Hillsborough, Pinellas, Polk, Pasco, Hernando, Citrus, Sarasota county areas. Includes sales responsibilities and customer relations, estimating and plan engineering.

January 12, 2000- September 30, 2000
MOT Crew- Striping Crew- Permanent Sign Crew-· Traffic Control Products of Florida, Inc.
Responsible for delivery and installation of maintenance of traffic devices and installation of permanent signs and paint and thermoplastic striping application..

June 1996-·January 2000
World Capital Brokerage Services, Inc..
Senior Account Executive - Series 3 registered commodity futures broker. Managed customer accounts, provide advice and trade recommendations.

January 1991-December 1999
Kash and Karry Supermarkets
Customer Service Manager, department head in frozen foods, produce and dairy. Responsible for payroll, scheduling, ordering products for the entire store. Resolved customer complaints.

EDUCATION AND TRAINING

University of South Florida 1991-1993 Basic Studies
St Petersburg Junior College 1993-1995 Physical Therapy

Certified FDOT MOT Instructor
Certified Florida Advanced Worksite Traffic Supervisor and Flagger Trainer
Completed certification for proper ethical standards in investment advertising and trading.
Infant and adult CPR Certification.
Naui certified scuba diver
OSHA 30 Certified
Sunshine State One Call ITE Trained

Skills

31 years experience in following applications and programs: MS Windows Current, MS Word, MS Windows NT, MS Excel, Quattro,Pro, MS Access, Quicken, MS DOS, Netscape, MS Outlook, Adobe Acrobat, Print Master, MS Word, Windows Draw.

MOHAMAD H. HUSSEIN, P.E.

Mohamad Hussein, P.E. has been associated with the original inventors of modern dynamic pile testing and analyses methods and equipment for 40 years. He is Principal Engineer / Executive Vice President / Partner of GRL Engineers, Inc. (GRL), a consulting engineering firm with 14 offices nationwide, specializing in deep foundations testing and analysis and industry leader worldwide. He is also a Partner in Pile Dynamics, Inc., the inventors, developers and manufacturers of specialized electronic deep foundations testing equipment and computer software (e.g., Pile Driving Analyzer (PDA), Pile Integrity Tester (P.I.T.), SPT Analyzer, Pile Installation Recorder (P.I.R.), Saximeter, Thermal Integrity Profile (T.I.P.), CAPWAP, GRLWEAP, etc.) with representatives worldwide.

Professional Registrations: Florida P.E. No. 41034 02/09/1989 Ohio P.E. No. 55667
Alabama P.E. No. 25819 Louisiana P.E. No. 30916
Mississippi P.E. No. 16077 New Jersey P.E. No. 24GE04946500

Experience: Conducted, supervised, or assisted with deep foundations field dynamic testing and data analyses for more than 1000 structures in 35 States in the U.S.A. and 13 countries. Since 1987, managed the GRL southeast USA operations and consulted on numerous FDOT projects in all Districts under design-bid-build conventional contracts and design/build delivery as part of design/build teams or through the CEI representing the FDOT for Verification Testing (VT), also CFX and local Counties (e.g., New Edison Bridge, Howard Franklin Bridge, Cape Coral Bridge, I-75 over Peace River Bridge, I-4 over St Johns River Bridge, SR 417 Lake Jessup Bridge, US 98 over East Bay, Nassau Sound, Bridges on I-95, I-75, I-10, and I-4 in all Districts, I-10 over Escambia Bay, Pensacola Bay Bridge, I-595, SR 408 widening, and I-4 Ultimate, Wekiva Parkway, SR 80 bridge, SR 417 and SR 429 widenings, NASA Causeway Bridge project, etc.); trained engineers from consulting firms, contractors and DOTs on the use of dynamic pile testing equipment and software; conducted state-of-the-art research on deep foundations in association with the FDOT and local universities. Chaired the first International Foundations Congress and Equipment Expo (IFCEE-2009) that has since been periodically repeated to become an industry landmark.

Professional Affiliations: Member of: The American Society of Civil Engineers (ASCE), National Society of Professional Engineers (NSPE), Florida Engineering Society (FES), Deep Foundations Institute (DFI), Pile Driving Contractors Association (PDCA), ADSC, and ASTM. Past-Chairman (2002-2009) of the Deep Foundations Committee of ASCE's Geo-Institute, Instructor of the ASCE's Continuing Education Course on Deep Foundations. Past Chairman of the PDCA's Education Committee. Member of Committees: DFI Driven Piles, ASTM Committee D-18, and others.

Publications: More than 50 technical publications on the subject of deep foundations. Coauthor of the Geotechnical Engineering chapter in the Standard Handbook For Civil Engineers, by the McGraw-Hill publishing company. Organized and co-edited the proceedings for the 5th International Conference on the Application of Stress-wave Theory to Piles. Co-editor of 10 ASCE Geotechnical Special Publications. books.

Certifications: Foundation QA PDA Signatory Expert Level Certificate
PDCA/PDI Dynamic Testing Proficiency Expert Level Certificate

Awards: FICE GMEC 2010 Outstanding Service Award
PDCA Professional Engineer's Service Award – 2011
PDCA Presidential Distinguished Service Award – 2016
PDCA Dr. Frank Rausche Professional Engineers Service Award - 2022

As indicated in Tab 1, Ardaman's local Polk County office is at 1525 Centennial Blvd., Bartow, Florida 33830. This Ardaman office was established in 1974 and has been operating in Polk County continuously for the ensuing 49 years. By definition set forth in RFP 23-328, Ardaman & Associates, Inc. qualifies as a "Polk County Entity" and should be evaluated as such. Currently, there are 33 employees permanently working at this office. Our Polk County local business tax receipt for this office is included below. Ardaman's office and senior staff in Bartow are well known by the County staff along with the entire Polk County engineering and construction community.

As requested, Ardaman's headquarters office is located at 8008 S. Orange Avenue, Orlando, Florida 32809. The headquarters has been in Orlando (Orange County) since 1959 (64 years) and currently has a staff of 173 individuals. Our Orange County local business tax receipt for Ardaman's headquarters is below.

Interactions with County Staff

Over our 64-year history, Ardaman has worked on hundreds of continuing services contracts with public entities in Florida. Public sector clients comprise a major portion of our business. We have, therefore, become very familiar with the unique needs of counties and cities, including the needs of Polk County. In general, working for public clients is very different from working in the private sector. Public entities, such as Polk County, are keepers of the public trust and are responsible for the well-being of their citizens. The County is subject to public scrutiny that requires a high level of professionalism and competency on the part of the County staff. As a consultant for the County, we fully understand our role in helping maintain this trust by always conducting ourselves honestly, professionally, and competently, while serving as an advocate for the County.

One of Ardaman's strengths is our desire and ability to interact with our public clients on continuing services contracts. We believe that the three keys to successful interaction and contract management include project planning, cost controls, and regular/frequent communication with County staff.

When we receive an assignment, we will interact with the County Project Manager to understand the project requirements and expectations, discuss the appropriate level of resources needed to successfully complete the project, agree upon a proposed scope of services, and develop a project budget. Once agreed upon and approved, we will communicate this information with our staff. No task will start without a full understanding of these important items by both Ardaman and Polk County.

During the performance of the work, our Project Managers will regularly communicate the progress of each project with the County through emails and/or phone calls. For geotechnical engineering assignments, we will communicate the progress of our drilling schedule and provide verbal and/or progress updates as required. If challenging conditions are encountered that could negatively impact development, we will communicate these issues with the County staff prior to issuing our report with geotechnical recommendations. For materials testing, we will interact with the County's on-site representative each day we are on-site. The results of our testing will be communicated verbally and a written daily field report summarizing our results will be provided before we leave the site. Any failures or non-compliance issues will be brought to your attention immediately, not left to be discovered at project close-out.

Project budget information will be monitored by Ardaman's project manager weekly, and monthly invoices will be submitted to the County to summarize monthly charges and remaining budget amounts. Project status letters and all test results for the invoicing period will be provided with the invoices. Any unforeseen circumstances that may affect the cost or schedule will immediately be accessed and communicated. Unless unsafe or emergency conditions are apparent, no additional work will be performed as a result of the unforeseen conditions until you have decided how to proceed.

Interactions with Regulatory Agency Staff

Geotechnical and materials engineering services do not typically include permitting directly with regulatory agencies. However, the reports we provide, and our recommendations are frequently incorporated into permit applications, so the quality of our work and relationship with regulators will directly impact permitting on behalf of Polk County. Throughout our history, Ardaman has established excellent working relationships with local and state regulatory agencies. These agencies respect our engineers, and our work is considered by their reviewers as thorough and accurate. Consider the following examples of our relationship with various regulatory agencies.

- FDEP: Ardaman engineers have served on FDEP technical advisory groups dealing with dam design, solid waste, wastewater management, and phosphate mining. Our senior staff is well-known and respected by FDEP. Further, Ardaman and FDEP have been recognized by the Florida Institute of Consulting Engineers for an Engineering Excellence award. Ardaman currently serves the FDEP as an approved contractor for fuel tank remediation.

- Water Management Districts: Ardaman has been continuously selected by Southwest Florida, South Florida, and the St. Johns River Water Management Districts for continuing services contracts directly with the Districts, indicating their respect for our abilities and work.

- FDOT: Ardaman has been selected by FDOT Districts 1, 2, 3, 5, and 7 and the Turnpike Enterprise for continuing services contracts. Also, Ardaman has been awarded research projects by the FDOT. These projects, normally awarded to academic institutions, clearly exemplify the respect the FDOT has for our work.

Our close relationships with these and other agencies will benefit Polk County as Ardaman advocates for County permits from regulatory agencies.

Workload

Ardaman currently holds continuing contracts to provide professional engineering services to various counties and municipalities, including Polk County. Since we currently serve Polk County under a similar contract, the individuals currently assigned to the County will be available for the new contract. We will not have to "ramp up" to serve Polk County efficiently, nor will our staff have to ascend a learning curve to understand the needs and procedures of the County staff.

Since most geotechnical engineering assignments and many construction testing projects are completed fairly quickly, it is difficult to ascertain future workload beyond a month or two. However, we do not foresee any new, large scale assignments in the near future and expect excess capacity of field and laboratory technicians in the Bartow office. This excess personnel can join the staff currently serving Polk County to ensure adequate staffing for County projects.

Ability to Handle the Services

Over our 64-year history, Ardaman has developed strategies and abilities to handle work under continuing services contracts. This overall ability, coupled with an experienced and significant local Polk County staff, clearly makes Ardaman able to handle the daily requirements of this contract. Please consider the following.

- We have a full-service Polk County (Bartow) office with 33 engineers, engineering technicians, and support staff. This office is augmented by our full-service sister branch offices in Tampa and Orlando that can provide over 193 additional staff members. Our nearby offices can provide seven additional drill rigs and two state-of-art cone penetrometer/piezocone rigs if necessary. The sister offices' personnel are virtually within ½-hour travel to the outer sections of the County on its west and east borders.

- Our office in Bartow includes a completely equipped and certified construction materials testing laboratory used extensively for public sector work, most notably for the FDOT. This laboratory is annually inspected and certified by the Construction Materials Engineering Council (CMEC), whose inspectors verify the proper function and calibration of our laboratory equipment and facilities along with the knowledge and competence of our laboratory staff. They also review and comment on the adequacy of our quality assurance procedures and QA Practice Manual. Also, as a verification laboratory and extension of both the FDOT District 1 and Turnpike, for laboratory testing services, our laboratory and certified laboratory technicians are inspected on a random schedule with a minimum of one comprehensive inspection by the FDOT District 1 staff per year.

- Ardaman's technicians are trained and certified to provide all of the testing services required under this contract, including but not limited to the following:
    - In-place material density testing for buildings and roadways
    - Standard and Modified Proctor Tests
    - Limerock Bearing Ratio (LBR) Tests
    - Compressive strength of concrete cylinders and masonry blocks
    - Compressive strength of soil cement specimens
    - Asphalt extraction, gradation, and Marshall stability
    - Steel inspection
    - Core drilling
    - Asphaltic concrete testing and inspection
    - Portland cement concrete testing and inspection
    - Pile driving and drilled shaft monitoring

  The technician certifications include many CTQP certifications issued by the FDOT for testing and inspection of concrete, asphalt, aggregates, and other pavement materials.

- Ardaman's construction materials testing capability is augmented by the experience of our technicians and the technology of our data management and reporting. Our field staff are equipped with smartphones loaded with Agile software. This software allows the field technician to access all project records, record test locations,

conditions, and results, and immediately upload the results to the office, where final reports can be quickly processed and issued.

- Ardaman also has a number of innovative testing capabilities, including the following;
    - Vibration monitoring equipment (construction)
    - Pulse velocity (ultrasonic) evaluation (concrete)
    - Floor flatness testing (concrete)
    - Ultrasonic thickness measurement (metals)
    - Ultrasonic weld evaluation (metals)
    - Liquid Penetrant test methods (metals)
    - Penetrating radar (concrete)
    - Magnetic Particle evaluation (metals)
    - Welder qualifications (metals)
    - Reinforcing steel location by Profometer V (concrete)
    - Petrographic examination (concrete)
    - Paint thickness by ultrasonic and magnetic evaluation (metals)
    - Falling Weight Deflectometer (in-situ pavement analysis)

Although Ardaman has benefited from 64 years of experience in providing geotechnical and materials testing services, we continue to fine-tune our methods, which enable us to better produce the requested services in a timely manner, at or below budget.

One of Ardaman's most valuable assets is seasoned project managers responsible for overseeing geotechnical and materials testing project progress. All facets of the projects are watched, with attention given to timeliness, accuracy, and budgetary constraints. The result of attention to detail has shown positive performance and improvement in each component of the projects with increased awareness of the schedule and budget requirements, without a loss in quality or accuracy.

Project initiation is critical. We propose that the County staff initially contact Brian Runkles, P.E., with all requests for services. Brian has primary responsibility for the successful performance of our services and has knowledge of all aspects of our capabilities related to the performance of the services. This communication channel will ensure smooth execution of the services under this contract. During his infrequent and primarily scheduled absences (vacations, illness, etc.), Brian will be supported by our Principal Engineer, Tom Leto, P.E., who will serve as the County's contact and respond to all County requests.

2. Subcontractor Services — Actual Costs
3. Special Consultants — Actual costs
4. Computer Services — Non-reimbursable
5. Travel Expenses — In accordance with Chapter 112.061, F.S.; and further defined in the Polk County Employee Handbook.
6. Postage, Fed Express, UPS — Actual Costs
7. Pre-approved Equipment (includes purchase and rental of equipment used in project) — Actual Costs

MASTER CONSULTING AGREEMENT

THIS AGREEMENT is entered into as of the Effective Date (defined in Section 1.1 below) by and between Polk County (the "County"), a political subdivision of the State of Florida, situated at 330 W. Church Street, Bartow, Florida 33830, and Madrid Engineering Group, Inc. dba Madrid CDWG (the "Consultant") a Florida corporation, located at 2030 State road 60 East, Bartow, Florida 33830, and whose Federal Employer Identification Number is: 59-3156722.

WHEREAS, County owns and operates a variety of public facilities and improvements; and,

WHEREAS, County requires certain professional services in connection with the performance of certain professional geotechnical services and construction material testing and inspection for all Divisions in the County; and

WHEREAS, the County has solicited for these services via RFP 23-328, an advertised request for proposals (the "RFP"), and has received numerous responsive proposals thereto; and

WHEREAS, pursuant to the RFP, the County has selected the Consultant and the Consultant remains agreeable to providing the County the professional services described herein, and the Consultant represents that it is capable and prepared to do so according to the terms and conditions stated herein.

NOW, THEREFORE, in consideration of the mutual understandings and covenants set forth herein, the parties hereby agree, as follows:

1.0 **Term**

1.1 This Agreement shall take effect on the date of its execution by the County (the "Effective Date").

1.2 The term of this Agreement shall be for a five (5) year time period, commencing upon the Effective Date and remaining in full force and effect thereafter, unless otherwise sooner terminated as provided herein.

2.0 **Services to Be Performed by Consultant**

2.1 Consultant shall perform the services as generally described in (i) the County's Request for Proposals RFP 23-328, to include all attachments and addenda, and (ii) the Consultant's responsive proposal thereto (collectively, (i) and (ii) are "RFP 23-328") all of which are incorporated into this Agreement by this reference, attached hereto as a composite Exhibit "A" and made a part of

this Agreement, and as may be further specifically designated and authorized by the County, in writing (collectively, the "Services"). Such authorization will be referred to as a Consultant Services Authorization ("CSA") or a Contract Purchase Order ("CPO") and all provisions of this Agreement apply to the CSA/CPO with full force and effect as if appearing in full within each CSA/CPO. Each CSA/CPO will set forth a specific Scope of Services, maximum limit of compensation, schedule, liquidated damages, and completion date, and shall become effective upon the due execution.

2.2 The Consultant is not authorized to undertake any project without a duly executed CSA/CPO, which shall specify the work to be performed and the time to be completed. Consultant recognizes that the County may employ several different Consultants to perform the work described and that the Consultant has not been employed as the exclusive agent to perform any such services.

2.3 When the Consultant and the County enter into a CSA/CPO where the term of the CSA/CPO expires on a date that is later than the date that this Master Consulting Agreement expires, the Consultant and the County agree that the terms of this Agreement and any amendments, attachments or provisions thereof are automatically extended until the expiration (including any extension or amendment thereto) or full completion of the requirements of the CSA/CPO have been performed. Cancellation by the County of any remaining work prior to the full completion of the requirements of the CSA/CPO shall cause the terms of the MCA to terminate at the same time. This provision only applies when the expiration of the CSA/CPO extends beyond the expiration of this Agreement. It does not apply when a CSA/CPO expires or is cancelled prior to the expiration of this Agreement.

3.0 Compensation

3.1 General

3.1.1 County shall pay Consultant in accordance with the "Madrid Engineering Group Schedule of Rates" and the "2023 Master Standard Fee Schedule for Filed & Lab Services" both of which are attached hereto, as a composite Exhibit "B", incorporated herein by reference as part of this Agreement. The Madrid Engineering Group Schedule of Rates identifies all job classifications, which will perform billable services pursuant to this Agreement and the fee for each job classification. Performance of work by personnel in job classifications not listed on the Madrid Engineering Group

Schedule of Rates will result in nonpayment for such services.

3.1.2 Upon the mutual agreement of the parties, the Fee Schedule, as set out in Exhibit "B" may be adjusted by a written Amendment to the Master Consulting Agreement annually beginning one year from the Effective Date of this Agreement. Such amendment must be executed by both parties and shall operate prospectively only and shall not alter fee schedules for CSA's/CPO's in effect at the time of the amendment.

3.1.3 Compensation may be negotiated as a not to exceed price or a lump sum amount on a per-project basis, on each individual CSA/CPO.

3.1.4 Invoices must reference the applicable CSA/CPO number, using an invoice form approved by the County Auditor.

3.1.5 Each individual invoice shall be due and payable forty-five (45) days after receipt by the County of correct, fully documented, invoice, in form and substance satisfactory to the County with all appropriate cost substantiations attached. All invoices shall be delivered, as applicable based on the particular project:

Polk County Roads and Drainage Division
3000 Sheffield Road,
Winter Haven, FL 33880
Attention: Director

3.1.6 In order for both parties herein to close their books and records, the Consultant will clearly state "Final Invoice" on the Consultant's final/last billing to the County. This certifies that all services have been properly performed and all charges and costs have been invoiced to the County. Since this account will thereupon be closed, any and other further charges if not properly included on this final invoice are waived by the Consultant.

3.1.7 Payment of the final invoice shall not constitute evidence of the County's acceptance of the work

3.1.8 Invoices shall be accompanied by time and task records for all billable hours appearing on the invoice. Additional documents may be requested by County and, if so requested, shall be furnished by Consultant to County Auditor's satisfaction.

3.1.9 By submission of an invoice, the project manager or designated payroll

officer is deemed to be attesting to the correctness and accuracy of time charges and requested reimbursements.

3.1.10 Pursuant to Section 3.1.4, if a not to exceed fee is negotiated, invoices shall be accompanied by time and task records for all billable hours appearing on the invoice. Alternatively, if a lump sum amount is negotiated, invoices shall be made upon the completion of each phase of the work in proportion to the Services performed, as specifically set forth in the applicable CSA or CPO. Additional documentation may be requested by the County and, if so requested, shall be furnished by the Consultant to the County Auditor's satisfaction.

3.2 Reimbursable

3.2.1 All requests for payment of out-of-pocket expenses eligible for reimbursement per the negotiated CPO or CSA shall be reimbursed in accordance with the County's Reimbursable Schedule, Exhibit "C", and include copies of paid receipts, invoices or other documentation acceptable to the County's Auditor. Such documentation shall be sufficient to establish that the expense was actually incurred and necessary in the performance of the Scope of Work described in this Agreement, CSA, or CPO.

3.2.2 Reimbursable Expenses are the actual, pre-approved, expenses incurred directly in connection with the applicable CSA or CPO, and include:

Overnight Deliveries
Reproduction
Sub-Consultant
Long Distance Telephone Calls (excluding Florida cities located outside the boundaries of Polk County)

3.2.3 Mileage and associated travel costs shall be reimbursed in accordance with F.S. 112.061 and County policy for pre-approved out-of-county travel (excluding travel from home offices located outside of Polk County to the Polk County line).

3.2.4 All assets, i.e. durable goods, purchased as reimbursable expenses become the property of the County upon completion of the work for which the asset was utilized. All such assets must be surrendered by delivery to the Polk County Roads and Drainage Division offices upon demand, termination of the Agreement, or the conclusion of the project, whichever occurs first.

3.2.5 Consultant shall maintain a current inventory of all such assets.

4.0 **Insurance**

4.1 General Provisions

4.1.1 Consultant shall maintain, at all times, the following minimum levels of insurance and shall, without in any way altering their liability, obtain, pay for and maintain insurance for the coverages and amounts of coverage not less than those set forth below and provide the County with a Certificate of Insurance and an opportunity to inspect a certified copy of each policy applicable to this Agreement followed thereafter by an annual Certificate of Insurance satisfactory to the County to evidence such coverage before any work commences.

4.1.2 The County shall be named as an additional insured on all Consultant policies related to the project, excluding professional liability and worker's compensation. The Commercial General Liability and Worker's Compensation Liability policies shall contain a waiver of subrogation in favor of Polk County. All insurance coverage shall be written with an insurer having an A.M. Best Rating of a least the "A" category and size category of VIII.

4.1.3 The Consultant's self-insured retention or deductible per line of coverage shall not exceed $25,000.00 without the permission of the County.

4.1.4 If there is any failure by the Consultant to comply with the provisions of this section, the County may, at its option, on notice to the Consultant, suspend the work for cause until there is full compliance.

4.1.5 County may, at its sole discretion, purchase such insurance at Consultant's expense provided that the County shall have no obligation to do so and if the County shall do so, it shall not relieve Consultant of its obligation to obtain insurance.

4.1.6 The Consultant shall not be relieved of or excused from the obligation to obtain and maintain such insurance amount and coverages.

4.1.7 All Consultants' subconsultants shall be required to include County and Consultant as additional insured on their General Liability Insurance policies.

4.1.8 In the event that subconsultants used by the Consultant do not have

insurance, or do not meet the insurance limits, Consultant shall indemnify and hold harmless the County for any claim in excess of the subconsultants' insurance coverage.

4.1.9 The Consultant shall not commence work under this Agreement until all insurance required as stated herein has been obtained and such insurance has been approved by the County.

4.2 Comprehensive Automobile Liability Insurance. $1,000,000.00 combined single limit of liability for bodily injuries, death and property damage resulting from any one occurrence, including all owned, hired, and non-owned vehicles.

4.3 Commercial General Liability. $1,000,000.00 combined single limit of liability for bodily injuries, death and property damage, and personal injury resulting from any one occurrence, including the following coverages:

4.3.1 Premises and Operations:

Broad Form Commercial General Liability Endorsement to include Blanket Contractual liability (specifically covering, but not limited to, the contractual obligations assumed by the Firm); Personal Injury (with employment and contractual exclusions deleted); and Broad Form Property Damage coverage.

4.3.2 Independent Contractors:

Delete Exclusion relative to collapse, explosion and underground; Property Damage Hazards; Cross Liability Endorsement; and Contractual liability (specifically covering, but not limited to, the contractual obligations assumed by the Firm)

4.4 Umbrella (Excess) Liability Insurance. Umbrella Liability with limits of not less than $1,000,000.00, exclusive of defense costs, to be in excess of all other coverages. Such coverage shall be at least as broad as the primary coverages above, with any excess umbrella layers written on a strict following form basis over the primary coverage. All such policies shall be endorsed to provide defense coverage obligations.

4.5 Professional Liability Insurance. $2,000,000.00 for design errors and omissions, inclusive of defense costs. Consultant shall be required to provide continuing Professional Liability Insurance to cover each project for a period of two (2) years after the project is completed. Insurance

requirements may vary depending on projects as determined by the County Director of Risk Management and Insurance. The County may require the Consultant to provide a higher level of coverage for a specific project and time frame.

4.6 Performance, Payment and Other Bonds. Consultant shall furnish Performance and Payment Bonds specific to each project if required and agreed to under the CSA or CPO for the project.

4.7 Worker's Compensation. The Consultant shall provide, pay for, and maintain worker's compensation insurance on all employees, its agents or subcontractors as required by Florida Statutes.

5.0 **Standard of Care**

5.1 Consultant has represented to the County that it has the personnel and experience necessary to perform the work in a professional and workmanlike manner.

5.2 Consultant shall exercise the same degree of care, skill, and diligence in the performance of the Services as is provided by a professional of like experience, knowledge and resources, under similar circumstances.

5.3 Consultant shall, at no additional cost to County, re-perform services which fail to satisfy the foregoing standard of care or otherwise fail to meet the requirement of this Agreement.

5.4 The Consultant warrants that all services shall be performed by skilled and competent personnel to the professional standards in the field.

6.0 **Indemnification**

6.1 General. Having considered the risks and potential liabilities that may exist during the performance of the Services and in consideration of the promises included herein, County and Consultant agree to allocate such liabilities in accordance with this Section.

6.2 Indemnification.

6.2.1 Consultant, to the extent permitted by law, shall indemnify, defend (by counsel reasonably acceptable to County) protect and hold County, and its officers, employees and agents harmless from and against any and all, claims, actions, causes of action, liabilities, penalties,

forfeitures, damages, losses and expenses (including, without limitation, attorney's fees costs and expenses incurred during negotiation, through litigation and all appeals therefrom) whatsoever including, but not limited, to those pertaining to the death of or injury to any person, or damage to any property, arising out of or resulting from (i) the failure of Consultant to comply with applicable laws, rules or regulations, (ii) the breach by Consultant of its obligations under this Agreement, (iii) any claim for trademark, patent or copyright infringement arising out of the scope of Consultant's performance or nonperformance of this Agreement, or (iv) the negligent acts, errors or omissions, or intentional or willful misconduct, of Consultant, its professional associates, its subcontractors, agents, and employees provided, however, that Consultant shall not be obligated to defend or indemnify the County with respect to any such claims or damages arising out of the County's sole negligence.

6.2.2 County review, comment and observation of the Consultant's work and performance of this Agreement shall in no manner constitute a waiver of the indemnification provisions of this Agreement.

6.2.3 Consultant agrees that it bears sole legal responsibility for its work and work product, and the work and work product of subconsultants and their employees, and/or for Consultant's performance of this Agreement and its work product(s).

6.3 Survival. Upon completion of all Services, obligations and duties provided for in this Agreement, or in the event of termination of this Agreement for any reason, the terms and conditions of this Agreement shall survive as if the Agreement were in full force and effect.

7.0 **Independent Contractor**

7.1 Consultant undertakes performance of the Services as an independent contractor and shall be wholly responsible for the methods of performance.

7.2 County shall have no right to supervise the methods used, but County shall have the right to observe such performance.

7.3 Consultant shall work closely with County in performing Services under this Agreement.

7.4 The Consultant shall not pledge the County's credit or make it a guarantor of

payment or surety for any contract, debt, obligation, judgment, lien or any form of indebtedness and shall have no right to speak for or bind the County in any manner.

7.5 Consultant further warrants and represents that it has no obligation or indebtedness that would impair its ability to fulfill the terms of this Agreement.

8.0 **Authority to Practice**

8.1 The Consultant hereby represents and warrants that it has and will continue to maintain all licenses and approvals required to conduct its business, and that it will at all times conduct its business activities in a reputable manner.

9.0 **Public Records Law**

(a) The Consultant acknowledges the County's obligations under Article I, Section 24, of the Florida Constitution and under Chapter 119, Florida Statutes, to release public records to members of the public upon request and comply in the handling of the materials created under this Agreement. The Consultant further acknowledges that the constitutional and statutory provisions control over the terms of this Agreement. In association with its performance pursuant to this Agreement, the Consultant shall not release or otherwise disclose the content of any documents or information that is specifically exempt from disclosure pursuant to all applicable laws.

(b) Without in any manner limiting the generality of the foregoing, to the extent applicable, the Contractor acknowledges its obligations to comply with Section 119.0701, Florida Statutes, with regard to public records, and shall:

(1) keep and maintain public records required by the County to perform the services required under this Agreement;

(2) upon request from the County's Custodian of Public Records or his/her designee, provide the County with a copy of the requested records or allow the records to be inspected or copied within a reasonable time at a cost that does not exceed the cost provided in Chapter 119, Florida Statutes, or as otherwise provided by law;

(3) ensure that public records that are exempt or confidential and exempt from public records disclosure requirements are not disclosed except as authorized by law for the duration of the term of this Agreement and following completion of this Agreement if the Consultant does not transfer the records to the County; and

(4) upon completion of this Agreement, transfer, at no cost, to the County all public records in possession of the Consultant or keep and maintain public records required by the County to perform the service. If the Consultant transfers all public records to the County upon completion of this Agreement, the Consultant shall destroy any duplicate public records that are exempt or confidential and exempt from public records disclosure requirements. If the Consultant keeps and maintains public records upon completion of this Agreement, the Consultant shall meet all applicable requirements for retaining public records. All records stored electronically must be provided to the County, upon request from the County's Custodian of Public Records, in a format that is compatible with the information technology systems of the County.

(c) **IF THE CONSULTANT HAS QUESTIONS REGARDING THE**

APPLICATION OF CHAPTER 119, FLORIDA STATUTES, TO THE CONTRACTOR'S DUTY TO PROVIDE PUBLIC RECORDS RELATING TO THIS AGREEMENT, CONTACT THE COUNTY'S CUSTODIAN OF PUBLIC RECORDS AT:

RECORDS MANAGEMENT LIAISON OFFICER
POLK COUNTY
330 WEST CHURCH ST.
BARTOW, FL 33830
TELEPHONE: (863) 534-7527
EMAIL: RMLO@POLK-COUNTY.NET

10.0 **Compliance with Laws**

10.1 In performance of the Services, Consultant shall comply with applicable regulatory requirements including federal, state, special district, and local laws, rules, regulations, orders, codes, criteria and standards, including those now in effect and hereafter adopted.

11.0 **Subcontracting**

11.1 The County reserves the right to accept the use of a subcontractor or to reject the selection of a particular subcontractor and to inspect all facilities of any subcontractor.

11.2 If a subcontractor fails to perform or make progress, as required by this Agreement, and it is necessary to replace the subcontractor to complete the work in a timely fashion, the Consultant shall promptly do so, subject to acceptance of the new subcontractor by the County. Failure of a Subcontactor to timely or properly perform its obligations shall not relieve Consultant of its obligations hereunder.

12.0 **Federal and State Taxes**

12.1 The County is exempt from Federal Tax and State Sales and Use Taxes. Upon request, the County will provide an exemption certificate to Consultant. The Consultant shall not be exempted from paying sales tax to its suppliers for materials to fulfill contractual obligations with the County, nor shall the Consultant be authorized to use the County's Tax Exemption Number in securing such materials.

13.0 **Public Entity Crimes**

13.1 The Consultant understands and acknowledges that this Agreement with the

County will be voidable by the County, in the event the conditions under Section 287.133, Florida Statutes applies to the Consultant, relating to conviction for a public entity crime.

14.0 **County's Responsibilities**

14.1 County shall be responsible for providing access to all County project sites, and providing information in the County's possession that may reasonably be required by Consultant, including; existing reports, studies, financial information, and other required data that are available in the files of the County.

15.0 **Termination of Agreement**

15.1 This Agreement may be terminated by the Consultant upon thirty (30) days prior written notice to the County in the event of substantial failure by the County to perform in accordance with the terms of the Agreement through no fault of the Consultant.

15.2 This Agreement may be terminated by the County with or without cause immediately upon written notice to the Consultant.

15.3 Unless the Consultant is in breach of this Agreement, the Consultant shall be paid for services rendered to the County's satisfaction through the date of termination.

15.4 After receipt of a Termination Notice, as described in this Article 15.0, and except as otherwise directed by the County, the Consultant shall:

15.4.1 Stop work on the date and to the extent specified.

15.4.2 Terminate and settle all orders and subcontracts relating to the performance of the terminated work.

15.4.3 Transfer all work in process, completed work, and other material related to the terminated work to the County.

15.4.4 Continue and complete all parts of the work that have not been terminated.

16.0 **Uncontrollable Forces (Force Majeure)**

16.1 Either party hereunder may be temporarily excused from performance if an Event of Force Majeure directly or indirectly causes its nonperformance. An "Event of Force Majeure" is defined as any event which results in the prevention or delay of performance by a party of its obligations

under this Agreement and which is beyond the reasonable control of the nonperforming party. It includes, but is not limited to fire, flood, earthquakes, storms, lightning, epidemic, war, riot, civil disturbance, sabotage, and governmental actions. Neither party shall be excused from performance if non-performance is due to forces which are reasonably preventable, removable, or remediable and which the non-performing party could have, with the exercise of reasonable diligence, prevented, removed, or remedied prior to, during, or immediately after their occurrence. Within five (5) days after the occurrence of an Event of Force Majeure, the non-performing party shall deliver written notice to the other party describing the event in reasonably sufficient detail, along with proof of how the event has precluded the non-performing party from performing its obligations hereunder, and a good faith estimate as to the anticipated duration of the delay and the means and methods for correcting the delay. The non-performing party's obligations, so far as those obligations are affected by the Event of Force Majeure, shall be temporarily suspended during, but no longer than, the continuance of the Event of Force Majeure and for a reasonable time thereafter as may be required for the non-performing party to return to normal business operations. If excused from performing any obligations under this Agreement due to the occurrence of an Event of Force Majeure, the non-performing party shall promptly, diligently, and in good faith take all reasonable action required for it to be able to commence or resume performance of its obligations under this Agreement. During any such time period, the non-performing party shall keep the other party duly notified of all such actions required for it to be able to commence or resume performance of its obligations under this Agreement.

17.0 **Governing Law and Venue**

17.1 This Agreement shall be governed in all respects by the laws of the State of Florida and any litigation with respect thereto shall be brought only in the courts of Polk County, Florida or the United States District Court, Middle District of Florida located in Hillsborough County, Florida. Each party shall be responsible for its own attorneys' fee and other legal costs and expenses.

18.0 **Non-Discrimination**

18.1 The Consultant warrants and represents that all of its employees are treated equally during employment without regard to race, color, religion, gender, age or national origin.

19.0 **Waiver**

19.1 A waiver by either County or Consultant of any breach of this Agreement shall not be binding upon the waiving party unless such waiver is in writing. In the event of a written waiver, such a waiver shall not affect the waiving party's rights with respect to any other or further breach. The making or acceptance of a payment by either party with knowledge of the existence of a default or breach shall not operate or be construed to operate as a waiver of any subsequent default or breach.

20.0 **Severability**

20.1 The invalidity, illegality, or unenforceability of any provision of this Agreement, or the occurrence of any event rendering any portion or provision of this Agreement void, shall in no way affect the validity or enforceability of any other portion or provision of the Agreement.

20.2 Any void provision shall be deemed severed from the Agreement and the balance of the Agreement shall be construed and enforced as if the Agreement did not contain the particular portion or provision held to be void.

20.3 The parties further agree to reform the Agreement to replace any stricken provision with a valid provision that comes as close as possible to the intent of the stricken provision.

20.4 The provisions of this section shall not prevent the entire Agreement from being void should a provision which is of the essence of the Agreement be determined to be void.

21.0 **Entirety of Agreement**

21.1 The County and the Consultant agree that this Agreement sets forth the entire Agreement between the parties, and that there are no promises or understandings other than those stated herein.

21.2 This Agreement supersedes all prior agreements, contracts, proposals, representations, negotiations, letters or other communications between the County and Consultant pertaining to the Services, whether written or oral.

21.3 None of the provisions, terms and conditions contained in this Agreement may be added to, modified, superseded or otherwise altered except by written instrument executed by the parties hereto.

22.0 **Modification**

22.1 This Agreement may not be modified unless such modifications are evidenced in writing signed by both County and Consultant. Such modifications shall be in the form of a written Amendment executed by both parties.

23.0 **Successors and Assigns**

23.1 County and Consultant each binds itself and its partners, successors, permitted assigns, and legal representatives to the other party to this Agreement and to the partners, successors, executors, administrators, permitted assigns, and legal representatives of such other party.

23.2 Consultant shall not assign this Agreement without the express written approval of the County by executed amendment, which approval may be withheld in the County's sole discretion.

23.3 In the event of a merger, the surviving corporation shall be substituted for the contracting party to this agreement and such substitution shall be affirmed by the County by executed amendment.

24.0 **Contingent Fees**

24.1 The Consultant warrants that it has not employed or retained any company or person, other than a bona fide employee working solely for the Consultant to solicit or secure this Agreement and that it has not paid or agreed to pay any person, company, corporation, individual or firm, other than bona fide employee working solely for the Consultant, any fee, commission, percentage, gift or any other consideration contingent upon or resulting from the award or making of this Agreement.

25.0 **Truth-In-Negotiation Certificate**

25.1 Execution of this Agreement by the Consultant shall act as the execution of a Truth-in-Negotiation certificate certifying that the wage rates and costs used to determine the compensation provided for in this Agreement are accurate, complete, and current as of the Effective Date of this Agreement.

25.2 The said rates and costs shall be adjusted to exclude any significant sums should the County determine that the rates and costs were increased due to inaccurate, incomplete or noncurrent

wage rates or due to inaccurate representations of fees paid to outside consultants. The County shall exercise its rights under this "Certificate" within one (1) year following payment.

26.0 **Ownership of Documents**

26.1 Consultant shall be required to cooperate with other consultants relative to providing information requested in a timely manner and in the specified form. Any and all documents, records, disks, original drawings, or other information shall become the property of the County for its use and/or distribution as may be deemed appropriate by the County. Consultant is not liable for any damages, injury or costs associated with the County's use or distribution of these documents for purposes other than those originally intended by Consultant.

27.0 **Access and Audits**

27.1 Consultant shall maintain adequate records to justify all charges and costs incurred in performing the work for at least three (3) years after completion of this Agreement. The County shall have access to such books, records, and documents as required in this section for the purpose of inspection or audit during normal business hours at the Consultant's place of business.

27.2 Misrepresentations of billable time or reimbursable expenses as determined by the Auditor to the Polk County Board of County Commissioners shall result in the recovery of any resulting overpayments. The County's cost of recovery shall be the sole expense of the Consultant, including accounting and legal fees, court costs and administrative expenses.

27.3 Intentional misrepresentations of billable hours and reimbursable expenses will be criminally prosecuted to the fullest extent of the law.

27.4 All invoices submitted are subject to audit and demand for refund of overpayment up to three (3) years following completion of all services related to this Agreement.

28.0 **Notice**

28.1 Any notice, demand, communication, or request required or permitted hereunder shall be in writing and delivered in person or sent by Federal-Express or by Certified Mail, postage prepaid as follows:

As to County: Roads and Drainage Division
3000 Sheffield Road
Winter Haven, FL 33880

Attention: Director

As to Consultant: Madrid Engineering Group, Inc. dba Madrid CPWG
2030 State Road 60 East
Bartow, FL 33830

28.2 Notices shall be effective when received at the addresses as specified above. Changes in the respective addresses to which such notice is to be directed may be made from time to time by either party by written notice to the other party. Facsimile transmission is acceptable notice effective when received, however, facsimile transmissions received (i.e.; printed) after 5:00 p.m., or on weekends or holidays, will be deemed received on the next business day. The original of the notice must additionally be mailed as required herein.

28.3 Nothing contained in this Article shall be construed to restrict the transmission of routine communications between representatives of Consultant and County.

29.0 **Service of Process**

As to County: County Attorney
County Administration Building
330 W. Church Street, 4th Floor
Bartow, Florida 33830

As to Consultant: Madrid Engineering Group, Inc. dba Madrid CPWG
2030 State Road 60 East
Bartow, FL 33830

30.0 **Contract Administration**

30.1 Services of Consultant shall be under the general direction of the Roads and Drainage Division Director, or their successor, who shall act as the County's representative during the term of this Agreement.

31.0 **Key Personnel**

31.1 Consultant shall notify County in the event of key personnel changes, which might affect this Agreement. To the extent possible, notification shall be made within ten (10) days prior to changes. Consultant at County's request shall remove without consequence to the County any Subcontractor or employee of the Consultant and replace him/her with another employee having the

required skill and experience. County has the right to reject proposed changes in key personnel. The following personnel shall be considered key personnel:

Name: John Delashaw

Name: Andre Kniazeff

Name: Paul Passe

Name: Melkin Fructuoso

Name: Brett Arenas

Name: Michael Graves

Name: Jason McSwain

Name: Lennon Jordan

Name: David Shin

Name: Andy Acosta

Name: Cecil Allred

Name: Anthony Brown

32.0. **Annual Appropriations**

32.1 Consultant acknowledges that the County, during any fiscal year, shall not expend money, incur any liability, or enter into any agreement which, by its terms, involves the expenditure of money in excess of the amounts budgeted as available for expenditure during such fiscal year. Any agreement, verbal or written, made in violation of this subsection is null and void, and no money may be paid on such agreement. Nothing herein contained shall prevent the making of agreements for a period exceeding one year, but any agreement so made shall be executory only for the value of the services to be rendered or agreed to be paid for in succeeding fiscal years. Accordingly, the County's performance and obligation to pay under this agreement is contingent upon annual appropriation.

33.0 **Liquidated Damages**

33.1 The parties hereto agree that liquidated damages, in the amount specified in the applicable CSA/CPO, will be assessed against the Consultant for Consultant's failure to meet the final deliverable date in the Performance Schedule in the Scope of Work, but only to the extent and in proportion to Consultant's fault in causing the delay as compared to other causes, and to the extent the

Consultant is not delayed by reasons beyond Consultant's reasonable control.

34.0 Employment Eligibility Verification (E-VERIFY)

A. Unless otherwise defined herein, terms used in this Section which are defined in Section 448.095, Florida Statutes, as may be amended from time to time, shall have the meaning ascribed in said statute.

B. Pursuant to Section 448.095(5), Florida Statutes, the contractor hereto, and any subcontractor thereof, must register with and use the E-Verify system to verify the work authorization status of all new employees of the contractor or subcontractor. The contractor acknowledges and agrees that (i) the County and the contractor may not enter into this Agreement, and the contractor may not enter into any subcontracts hereunder, unless each party to this Agreement, and each party to any subcontracts hereunder, registers with and uses the E-Verify system; and (ii) use of the U.S. Department of Homeland Security's E-Verify System and compliance with all other terms of this Certification and Section 448.095, Fla. Stat., is an express condition of this Agreement, and the County may treat a failure to comply as a material breach of this Agreement.

C. By entering into this Agreement, the contractor becomes obligated to comply with the provisions of Section 448.095, Fla. Stat., "Employment Eligibility," as amended from time to time. This includes but is not limited to utilization of the E-Verify System to verify the work authorization status of all newly hired employees, and requiring all subcontractors to provide an affidavit attesting that the subcontractor does not employ, contract with, or subcontract with, an unauthorized alien. The contractor shall maintain a copy of such affidavit for the duration of this Agreement. Failure to comply will lead to termination of this Agreement, or if a subcontractor knowingly violates the statute or Section 448.09(1), Fla. Stat., the subcontract must be terminated immediately. If this Agreement is terminated pursuant to Section 448.095, Fla. Stat., such termination is not a breach of contract and may not be considered as such. Any challenge to termination under this provision must be filed in the Tenth Judicial Circuit Court of Florida no later than 20 calendar days after the date of termination. If this Agreement is terminated for a violation of Section 448.095, Fla. Stat., by the contractor, the contractor may not be awarded a public contract for a period of 1 year after the date of termination. The contractor shall be liable for any additional costs incurred by the County as a result of the termination of this Agreement. Nothing in this Section shall be construed to allow intentional discrimination of any class protected by law.

35.0 Limitation of Liability.

IN NO EVENT, SHALL THE COUNTY BE LIABLE TO THE CONSULTANT FOR INDIRECT, INCIDENTAL, CONSEQUENTIAL, SPECIAL, EXEMPLARY, OR PUNITIVE DAMAGES OF ANY KIND OR NATURE, INCLUDING LOSS OF PROFIT, WHETHER FORESEEABLE OR NOT, ARISING OUT OF OR RESULTING FROM THE NONPERFORMANCE OR BREACH OF THIS CONTRACT BY THE COUNTY WHETHER BASED IN CONTRACT, COMMON LAW, WARRANTY, TORT, STRICT LIABILITY, CONTRIBUTION, INDEMNITY OR OTHERWISE.

36.0 Scrutinized Companies and Business Operations Certification; Termination.

A. Certification(s).

(i) By its execution of this Agreement, the Consultant hereby certifies to the County that the Consultant is not on the Scrutinized Companies that Boycott Israel List, created pursuant to Section 215.4725, Florida Statutes, nor is the Consultant engaged in a boycott of Israel, nor was the Consultant on such List or engaged in such a boycott at the time it submitted its bid, proposal, quote, or other form of offer, as applicable, to the County with respect to this Agreement.

(ii) Additionally, if the value of the goods or services acquired under this Agreement are greater than or equal to One Million Dollars ($1,000,000), then the Vendor further certifies to the County as follows:

(a) the Consultant is not on the Scrutinized Companies with Activities in Sudan List, created pursuant to Section 215.473, Florida Statutes; and

(b) the Consultant is not on the Scrutinized Companies with Activities in the Iran Petroleum Energy Sector List, created pursuant to Section 215.473, Florida Statutes; and

(c) the Consultant is not engaged in business operations (as that term is defined in Florida Statutes, Section 287.135) in Cuba or Syria; and

(d) the Consultant was not on any of the Lists referenced in this subsection A(ii), nor engaged in business operations in Cuba or Syria when it submitted its proposal to the County concerning the subject of this Agreement.

(iii) The Consultant hereby acknowledges that it is fully aware of the penalties that may be imposed upon the Consultant for submitting a false certification to the County regarding the foregoing matters.

B. Termination. In addition to any other termination rights stated herein, the County may immediately terminate this Agreement upon the occurrence of any of the following events:

(i) The Consultant is found to have submitted a false certification to the County with respect to any of the matters set forth in subsection A(i) above, or the Consultant is found to have been placed on the Scrutinized Companies that Boycott Israel List or is engaged in a boycott of Israel.

(ii) The Consultant is found to have submitted a false certification to the County with respect to any of the matters set forth in subsection A(ii) above, or the Consultant is found to have been placed on the Scrutinized Companies with Activities in Sudan List, or the Scrutinized Companies with Activities in the Iran Petroleum Energy Sector List, or has been engaged in business operations in Cuba or Syria, and the value of the goods or services acquired under this Agreement are greater than or equal to One Million Dollars ($1,000,000).

37. No Construction Against Drafter

37.1 The Parties acknowledge that this Agreement and all the terms and conditions contained herein have been fully reviewed and negotiated by the Parties. Accordingly, any rule of construction to the effect that ambiguities are to be resolved against the drafting party shall not apply in interpreting this Agreement.

38. Unauthorized Alien(s)

The Consultant shall not employ or utilize unauthorized aliens in the performance of the Services provided pursuant to this Agreement. The County shall consider the employment or utilization of unauthorized aliens a violation of Section 274A(e) of the Immigration and Naturalization Act (8 U.S.C. 1324a) and a cause for the County's unilateral termination of this Agreement. When delivering executed counterparts of this Agreement to the County, the Consultant shall also deliver a completed and executed counterpart of the attached "AFFIDAVIT CERTIFICATION IMMIGRATION LAWS" form.

(THE REMAINDER OF THE PAGE LEFT INTENTIONALLY BLANK)

IN WITNESS WHEREOF, the parties hereto have executed this Agreement as of the Effective Date.

PROPOSAL SUBMITTAL INSTRUCTIONS

Proposers must submit their proposal prior to 2:00 p.m. on the receiving date. Proposals must be submitted in a “sealed” parcel or electronically through Polk County’s secure website, Kiteworks. Proposals will be publicly opened at 2:00 p.m. on the receiving date.

Sealed Parcel Submittal:

If you are submitting a sealed parcel proposal submit one (1) original marked ORIGINAL and five (5) copies marked COPY of the proposal in a sealed parcel to the Procurement Division. The parcel should be labeled “RFP #23-328, Professional Geotechnical Services and Construction Material Testing and Inspection” and marked with the proposer’s name and address. The Proposals may be mailed or delivered to:

Polk County Procurement Division
330 West Church Street, Room 150
Bartow, FL 33830

To assist with labeling the sealed parcel, please cut along the outer border and affix this label. Be sure to include the name of the company submitting the proposal where requested.

Sealed Proposal. DO NOT OPEN	
RFP Number	23-328
RFP Title	Professional Geotechnical Services and Construction Material Testing and Inspection
Due Date/Time:	June 7, 2023, prior to 2:00 pm
Submitted by:	
Deliver To:	Polk County Procurement Division 330 West Church Street, Room 150, Bartow, Florida 33830

Proposals may be mailed, express mailed or hand delivered. It is the Proposers responsibility to ensure their package is delivered to the Procurement Division prior to

2:00 p.m. on the Receiving date and time referenced above. Proposals delivered at 2:00 p.m. or later will not be accepted.

Electronic Proposals Submittal:

All prospective Proposers that are interested in submitting their proposals electronically can do so via the County's secure electronic submittal website, Kiteworks. Proposers must email michaelguerrero@polk-county.net at least 48 hours prior to opening to receive a link to upload their submittal. Please only upload your documents as a PDF or Excel file for the Cost Tab, if applicable. Please use the name convention of your files as follow:

"RFP 23-328 Tab 1"

"RFP 23-328 Tab 2"

"RFP 23-328 Tab 3"

"RFP 23-328 Tab 4"

"RFP 23-328 Tab 5"

"RFP 23-328 Tab 6"

"RFP 23-328 Tab 7"

"RFP 23-328 Tab 8"

For more instructions, a video tutorial has been produced to further explain the electronic solicitation submittal process. It can be found by clicking here for RFP Submittals: https://youtu.be/vkn_7AHgioE. If you need assistance accessing this website due to ADA or any other reason, please email Michael Guerrero at michaelguerrero@polk-county.net.

Procurement recommends that Proposers submitting electronically double check the documents submitted into Kiteworks to ensure all requested tab information has been uploaded. Failure to upload the requested tab information may result in the proposal being deemed nonresponsive.

POLK COUNTY
Procurement Division
Fran McAskill
Procurement Director
REQUEST FOR PROPOSAL 23-328

Professional Geotechnical Services and Construction Material Testing and Inspection

Sealed proposals will be received in the Procurement Division, **Wednesday, June 7, 2023, prior to 2:00 p.m.**

Attached are important instructions and specifications regarding responses to this Request for Proposal (the "RFP"). The failure of a responding proposer (a "Proposer") to follow these instructions could result in Proposer disqualification from consideration for a contract to be awarded pursuant to this RFP.

This document is issued by Polk County (the "County") which is the sole distributor of this RFP and all addenda and changes to the RFP documents. The County shall record its responses to inquiries and provide any supplemental instructions or additional documents pertaining to this RFP in the form of written addenda to the RFP. The County shall post all such addenda, together with any other information pertaining to this RFP, on the County's website at

http://www.polk-county.net/procurement/procurement-bids. It is the sole responsibility of each Proposer to review the website prior to submitting a responsive proposal (a "Proposal") to this RFP to ensure that that the Proposer has obtained all available instructions, addenda, changes, supporting documents, and any other information pertaining to this RFP.

The County is not responsible for any solicitations issued through subscriber, publications, or other sources not connected with the County and the Proposer should not rely on such sources for information regarding the RFP solicitation.

Questions regarding this RFP must be in writing and must be sent to Michael Guerrero, via email at michaelguerrero@polk-county.net or via fax at (863) 534-6789. All questions must be received by May 30, 2023, 4:00 p.m.

Proposers and any prospective Proposers shall not contact, communicate with or discuss any matter relating in any way to this RFP with any member of the Polk County Board of County Commissioners or any employee of Polk County other than the County Procurement Director or the individual designated above. This prohibition begins with the issuance of the Request for Proposal and ends upon execution of a contract. Any such communication initiated by a Proposer or prospective proposer shall be grounds for disqualifying the offender from consideration for a contract to be awarded pursuant to this RFP and for contracts to be awarded pursuant to RFPs or Requests for Bid that the County may issue in the future.

A Proposer's responsive Proposal to this RFP may be mailed, express mailed, or hand delivered to:
Polk County Procurement Division
330 West Church Street, Room 150
Bartow, Florida 33830
(863)534-6757

INTRODUCTION

Polk County, a political subdivision of the State of Florida seeks professional geotechnical services and construction material testing and inspection, and as further defined in the Scope of Services below.

Polk County's Selection Process for consultants' services is in accordance with Section 287.055, Florida Statutes, the Consultants' Competitive Negotiations Act ("CCNA"). The Professional Services Selection Committee will review the qualifications of all submitting firms.

It is the intent of the County to select and negotiate a Master Consulting Agreement with multiple firm(s).

The County will negotiate a fee schedule and or overall lump sum price as part of "Selection Process", Elevation Level 4 Contract Negotiations.

Services under this contract will be in compliance with Section 287.055 of the Florida Statutes referred to as the "Consultants' Competitive Negotiation Act" (CCNA). Polk County's Procurement Procedure's Manual outlines the Procedures for Contracting for Professional Services Covered by CCNA. These procedures outline the process used for the selection of a consulting firm awarded through this RFP process.

All services must be performed in accordance with applicable Federal, State and Local regulations.

SCOPE OF SERVICES

The scope of services shall include, but not be limited to in-place density tests; standard or modified proctors; limerock bearing ratio test; compressive strength of concrete cylinders; compressive strength of soil-cement pills; Super Pave - asphalt binder content, gradations, gyratory pills, pavement density, air voids; core drill & soils analysis; steel inspection; geotechnical investigations & soil testing; asphaltic concrete inspection services; concrete testing, which includes, but is not limited to the specific services listed on Exhibit "A" at the end of this document. All reports submitted by the Consultant(s) shall include specific recommendations, as applicable.

The County shall request the services on an as-needed basis. There is no guarantee that any or all of the services described in the agreement will be assigned during the term of the agreement. Further, the Consultant is providing these services on a nonexclusive basis. The County, at its option, may elect to have any of the services set forth herein performed by other consultants or County staff.

AGREEMENT

The Master Consulting Agreement will be for five (5) years unless otherwise terminated in accordance with the master service agreement.

EVALUATION CRITERIA

Proposals should not contain information in excess of that requested, must be concise, and must specifically address the issues of this RFP. Unnecessarily elaborate brochures or other presentations beyond those sufficient to present a complete and effective response to this RFP are not desired and may be construed as an indication of the Proposer's lack of cost consciousness. Elaborate artwork, expensive visual aids, and other presentation aids are neither necessary nor desired unless specifically requested. The Proposal responses shall be contained within a three-ring binder (original and each copy in separate binders). For the purposes of this RFP, one page equals a single sided page. It is requested that the responses be in the same order as the selection and evaluation procedures. The submittals should include the following:

Tab 1 Executive Summary

(Items a-c: Maximum of two (2) pages

a) Name, company name, address, telephone number, and email address.
b) State the number of years in business, as the same company/firm.
c) State the number of full-time employees.
d) Provide documentation showing proper incorporation by the Secretary of State.
e) Provide a copy of the firm's applicable certification(s) from the State of Florida allowing them to provide the services as outlined in the Scope of Service as well as compliance with F.S. 287.055

Tab 2 Approach to the Project (35 points)

(Maximum of four (4) pages)

a) Describe in detail the components of how your firm proposes to manage assigned project(s), based upon the scope of services. Please identify the services your firm provides which make you qualified to perform the required services.
b) Describe how the firm plans to maintain the project team and manage the project team members' time in order to ensure sufficient time to complete a project.
c) Describe the firm's Quality Assurance and Quality Control program as it pertains to engineering services.

Tab 3 Experience, Expertise, Personnel and Technical Resources (35 points)

- Identify a minimum of five (5) and a maximum of eight (8) projects in which the proposer has performed within the past five (5) years as the prime proposer which best illustrate the experience of the firm and current staff as related to the desired services. At least three (3) of the projects identified should be for geotechnical services, and at least two (2) should be for construction and material testing and inspection. At least three (3) of the minimum five (5) projects

should have been performed within the state of Florida. (Maximum of one (1) page only per project).

- For each project please provide:
    a) Name and location of the project;
    b) Size and cost of the project;
    c) Project representative name, address, phone number, and email address
    d) Date project was completed or is anticipated to be completed, if completed provide the actual completion date;
    e) The nature of the firm's responsibility on the project;
    f) List of change orders, including dollar amount, which were the result of unforeseen circumstances or design errors/oversights; and
    g) List of any time extensions created by item f above.

- Provide an organizational chart of the team highlighting the key individuals who will work on this contract.
- Provide brief resumes of the firm's key personnel to be assigned to the master service agreement including, but not limited to, the items in the list below (One (1) page maximum per resume):
    a) Name and current position held by the person
    b) Name, title and project assignment
    c) Experience:
        1) Types of projects.
        2) Size of projects (dollar value of project).
        3) What were their specific project involvements?
- Identify any sub-consultants that may be involved throughout the duration of the agreement. For each sub consultant identified please provide:
    - A brief description of their experience outlining their qualifications to perform the intended services
    - A brief resume for each key personnel that will be assigned to perform the intended services

Tab 4 Is the Firm a "Polk County Entity"? (5 Points)

- There will be a maximum of five (5) points allocated for this Tab. If the Proposer is a Polk County Entity, then five (5) points will be allocated. If the Proposer is not a Polk County Entity but is utilizing one or more sub-consultants that are a Polk County Entity to assist in performing the scope of work, then the Proposal will be allocated one (1) point for each sub-consultant which is a Polk County Entity up to a maximum of five (5) points. The Polk County Entity sub-consultant(s) must have been identified under Tab 3, Experience, Expertise, Personnel and Technical Resources in order to qualify for point allocation.
- Provide documentation of the Proposers' or sub-consultant's headquarters and local offices, if any, and the amount of time the firm has been located at each

such local office. Please also indicate the number of employees at the local office.

- Proposers or sub-consultants will be allocated points if they meet the following Polk County Government definition of Polk County Entity.
    - The term “Polk County Entity” means any business having a physical location within the boundaries of Polk County, Florida, at which employees are located and business activity is managed and controlled on a day-to-day basis. Additionally, the business must have been located within the boundaries of Polk County for a minimum of 12 months prior to the date the applicable solicitation is issued. This requirement may be evidenced through a recorded deed, an executed lease agreement, or other form of written documentation acceptable to the County. The County shall have the right, but not the obligation, to verify the foregoing requirements.
- In the event a Proposer lists one or more sub-consultants in Tab 4 which is a Polk County Entity and receives point(s) as a result, and after the Proposer is awarded the project, if successful, it is determined that the listed sub-consultant does not assist in the performance of the scope of work (and is not replaced with an alternative sub-consultant which is a Polk County Entity), then the Proposer acknowledges and agrees that it may be suspended or debarred by the Procurement Director for failure to comply with the conditions, specifications or terms of a proposal or contract with the County or for committing a fraud or misrepresentation in connection with a proposal or contract with the County, in accordance with the Polk County Purchasing Ordinance and Procedures Manual.

Tab 5 Is the Firm a “Certified Woman or Minority Business Enterprise” (5 Points)

- Polk County Board of County Commissioners has a long-standing commitment to encouraging the utilization of Women and Minority Businesses that do business with the County as vendors. To that end we encourage all of our prime and professional services vendors to utilize W/MBE vendors where at all possible, irrespective of a company’s certification status. Please explain how the submitting firm will encourage minority participation in the project. (Limit response to one page)
- There will be a maximum of five (5) points allocated for this tab. If the Proposer is a Woman or Minority owned business, then five (5) points will be allocated. If the Proposer is not a Woman or Minority owned business but is utilizing one or more sub-consultants that are a Women or Minority owned business to assist in performing the scope of work, then the Proposal will be allocated one (1) point for each sub-consultant which meets the County’s certification criteria of Women or Minority owned, up to a maximum of five (5) points. The Woman or Minority owned business sub-consultant(s) must have been identified under Tab 3, Experience, Expertise, Personnel and Technical Resources in order to qualify for point allocation.

- Proposers or sub-consultants will be allocated points if they are a certified W/MBE as evidenced by providing the documentation described below.
    - If the Proposer or sub-consultant has a certified W/MBE status, provide documentation of the firms' certified W/MBE status as defined by the Florida Small and Minority Business Act and as defined in Polk County's Purchasing Procedures. Polk County's Purchasing Procedures recognize the following to meet the requirement of a certified W/MBE status:
        - Valid W/MBE Certification from one of the following
            - Florida Minority Supplier Development Council
            - Women Business Enterprise National Council
            - The State of Florida Office of Supplier Diversity
            - Florida Department of Transportation
            - U. S. Small Business Administration
            - Federal Aviation Authority
            - Other Florida governmental agencies

  Certifications from other governmental agencies will be considered on a case-by-case basis.

- In the event a Proposer lists one or more sub-consultants in Tab 5 which is a Women or Minority owned business and receives point(s) as a result, and after the Proposer is awarded the project, if successful, it is determined that the listed sub-consultant does not assist in the performance of the scope of work (and is not replaced with an alternative sub-consultant which is a Women or Minority owned business), then the Proposer acknowledges and agrees that it may be suspended or debarred by the Procurement Director for failure to comply with the conditions, specifications or terms of a proposal or contract with the County or for committing a fraud or misrepresentation in connection with a proposal or contract with the County, in accordance with the Polk County Purchasing Ordinance and Procedures Manual.

Tab 6 Interactions with County and Regulatory Agency Staff (5 Points)

- Provide documentation supporting the specialized qualifications of the proposed staff in terms of meeting this scope of service. Qualifications should highlight experience with regulatory agencies, identifying specific agencies and the items being addressed, including construction permitting, water use permitting, consent orders, consultation, governing regulations, and other related activities. Describe the firm's ability to work with Roads and Drainage or other Division staff in order to successfully fulfill the scope of service. Demonstrate the firm's knowledge of permitting process, as well as local regulatory agencies, including, but not limited to FDOT, and SWFWMD, if applicable. **(Limit response to one (1) page)**

Tab 7 Timely Completions of Projects (5 points)

Describe the firms' current and future projected workload. Describe specifically the firms' daily ability to handle each aspect of the scope of services described herein. **(Limit response to two (2) pages maximum)**

Tab 8 Surveys of Past Performance (10 Points)

- Provide reference surveys from past clients for the projects identified under Tab 3.
- Completed surveys. (See Exhibit 1) Procurement will take the average of all surveys and score as follows:
    - Average Score between 9-10 (10 Points)
    - Average Score between 7-8 (8 Points)
    - Average Score between 5-6 (6 Points)
    - Average Score between 3-4 (4 Points)
    - Average Score between 1-2 (2 Points)
    - Average Score of 0 (0 Points)

BID OPENING

Proposers may attend the Bid Opening in person or via conference call by dialing (646) 558-8656 and enter Meeting ID: 327 647 2818. A listing of all proposers will be posted to Procurement's website as soon as possible after bid opening.

Selection Process

Proposals will be evaluated in accordance with this section and all applicable County procurement policies and procedures.

The County shall appoint a selection committee (the "Selection Committee") that will be responsible for evaluating and scoring/ranking the Proposals in accordance with this Section.

The County will use a competitive selection process based on the Elevation Levels described in this Section. At Elevation Levels 2 and 3, the Selection Committee will score and/or rank the Proposals as applicable.

Selection of a final Proposal will be based upon the following steps and factors:

Elevation Level 1 (Procurement Requirements Assessment):

- The County Procurement Division shall review all Proposals for conformance with RFP guidelines and detailed submittal requirements. At the County's discretion, non-conforming Proposals may be eliminated from further consideration and conforming Proposals shall be elevated to Elevation Level 2. Procurement will distribute Proposals and evaluation criteria to the Selection Committee.
- Procurement will also ensure all firms meet the requirement of certification as outlined in Florida Statute 287.055(3)(c).

- The Selection Committee may convene to review questions that arise during individual member review of submitted Proposals before Elevation Level 2 to allow for questions, clarifications, explanations, or other discussion to be held before the review of Proposals is completed.

Elevation Level 2 (Scoring)

- Procurement shall score each Proposal on the following evaluation criteria:
    - Local (Tab 4)-5 points
    - W/MBE Certification (Tab 5)-5 points
    - Surveys of Past Performance (Tab 8)-10 points

    Subtotal Points-20 points

    by the process stated under each corresponding Tab description as set forth on Pages 8-11.

- Each Selection Committee member shall score each Proposal on the following evaluation criteria:
    - Approach to the Project (Tab 2)-35 points
    - Experience, Expertise, Personnel and Technical Resources (Tab 3)-35 points
    - Interaction w/ County & Regulatory Agencies (Tab 6)-5 points
    - Timely Completion of Projects (Tab 7)-5 points
      Subtotal Points-80 points
      by the following process:

1) Each Selection Committee member shall determine which of the following descriptions applies to each of the foregoing evaluation criteria:
    - EXCELLENT (1.0): Of the highest or finest quality; exceptional; superior; superb; exquisite; peerless.
      The Proposer provided information for a given criteria that satisfied the requirements and described specifically how and what will be accomplished in such a manner that exhibited an exceptional and superior degree of understanding, skill, and competency, both qualitatively and quantitatively. The facts included in the narrative (including all supporting documentation, diagrams, drawings, charts, and schedules, etc.) demonstrate the Proposer's ability to perform and deliver far beyond expectation.
    - VERY GOOD (0.8): To a high degree; better than or above competent and/or skillful.
      The Proposer provided information for a given criteria that satisfied the requirements and described specifically how and what will be accomplished in such a manner that exhibited a very high degree of understanding, skill, and competency, both qualitatively and quantitatively. The facts included in the narrative (including all supporting documentation,

diagrams, drawings, charts, and schedules, etc.) demonstrate the Proposer's ability to perform and deliver beyond expectation.

- GOOD (0.6): Having positive or desirable qualities; competent; skilled; above average.
  The Proposer provided information for a given criteria that satisfied the requirements and described specifically how and what will be accomplished in such a manner that exhibited a skillful and above-average degree of understanding, skill, and competency, both qualitatively and quantitatively. The facts included in the narrative (including all supporting documentation, diagrams, drawings, charts, and schedules, etc.) demonstrate the Proposer's ability to perform and deliver at the expected level.
- FAIR (0.4): Average; moderate; mediocre; adequate; sufficient; satisfactory; standard.
  The Proposer provided information for a given criteria that satisfied the requirements and described sufficiently how and what will be accomplished in a manner that exhibited an adequate and average degree of understanding, skill, and competency, both qualitatively and quantitatively. The facts included in the narrative (including all supporting documentation, diagrams, drawings, charts, and schedules, etc.) demonstrate the Proposer's ability to perform and deliver at a level slightly below expectation.
- POOR (0.2): Inadequate; lacking; inferior in quality; of little or less merit; substandard; marginal.
  The Proposer provided information for a given criteria that did not satisfy the requirements and described in an inadequate manner how and what will be accomplished. The information provided simply reiterated a requirement, contained inaccurate statements or references, lacked adequate information, or was of inferior quality. The facts included in the narrative (including all supporting documentation, diagrams, drawings, charts, and schedules, etc.) demonstrate the Proposer's ability to perform and deliver at a substandard and inferior level.
- UNACCEPTABLE (0.0):
  The Proposer failed to provide any information for a given criteria, provided information that could not be understood, or did not provide the information for a given category as requested.

2) After a Selection Committee member has determined the description applicable for each evaluation criterion, the total points available for such criterion shall be multiplied by the factor associated with the applicable description to produce the number of points allocated for that evaluation criterion. For example, a Selection Committee member classifies the "Experience and Expertise" criterion (which shall be worth 25 points for the purpose of this example) as "Very Good" (which is a description factor multiplier of 0.8). The points that Selection Committee

member allocated for that evaluation criterion would be 20, calculated as follows: 25 available points x 0.8 applicable description factor multiplier = 20 points.

3) A Selection Committee member's total score for each Proposal shall equal the sum of the total points allocated for each evaluation criteria.
4) When all Selection Committee members have completed their Proposal evaluations, the individual Selection Committee member's total scores for each Proposal will be added together to produce a final score for each Proposal.
5) Procurement will confirm the calculations for the final score for each Proposal. Then, Procurement shall publish a rank-ordered listing of the Proposals to the Selection Committee with the Proposal receiving the highest point as the highest-ranked Proposal.
6) In accordance with Section 287.055(4)(a), Florida Statutes, if there are three (3) or more Proposers in Elevation Level 2, the Selection Committee must elevate no fewer than the three highest scored of such Proposers to Elevation Level 3 for interviews. If there are only two Proposers in Elevation Level 2, the Selection Committee must elevate those two Proposers to Elevation Level 3 for interviews. If there is only one Proposer in Elevation Level 2, then the Selection Committee may collectively decide if they would like to elevate the Proposer to Elevation Level 3 for interviews or if they would like to recommend the Board authorize staff to enter into Contract Negotiations with the Proposer. In the latter case, after Board approval to authorize staff to negotiate a contract, the Proposer will then be elevated to Elevation Level 4 for contract negotiations.

Elevation Level 3 (Proposer Interviews)
The Selection Committee are required to conduct interviews of the Proposers that it has elevated from Elevation Level 2 to Elevation Level 3.

During an interview, elevated Proposers may be requested to make a presentation focusing on their qualifications, approach to the project and the ability to furnish the required services. The Selection Committee members will have an opportunity to inquire about any aspect of the RFP and the Proposer's Proposal. After all elevated Proposer interviews, each Selection Committee member will individually rank the Proposers in numerical order beginning at number 1 for the Proposer deemed to be the most highly qualified to perform the required services. In accordance with Section 287.055(4)(b), Florida Statutes, in determining whether a Proposer is qualified, each Selection Committee member shall consider such factors as:

- Ability of Personnel
- Whether a Proposer is a certified minority business enterprise
- Past performance
- Willingness to meet time and budget requirements
- Location
- Recent, current, and projected workloads
- Volume of work previously awarded to each Proposer by the County

Procurement shall receive and compile each Selection Committee member's ranking of each Proposer, and then publish a rank-ordered listing of Proposers to the Selection Committee, based on the combined average rankings given each Proposer. The Selection Committee members will then collectively decide if they would like to recommend the Board authorize staff to enter into Contract Negotiations with all Proposers elevated to Proposer Interviews, starting with the highest-ranked Proposer(s). After Board approval to authorize staff to negotiate a contract, said Proposer(s) will then be elevated to Elevation Level 4 for contract negotiations.

Elevation Level 4 (Contract Negotiations)
If a Proposer is elevated to this level, the User Division, with the assistance of Procurement and the County Attorney's Office, shall negotiate an Agreement with the elevated Proposer(s) in accordance with Section 287.055(5), Florida Statutes.

If after negotiating for a reasonable time period the parties cannot agree on a contract, the County shall, in its sole discretion, terminate further contract negotiations with that Proposer(s). Procurement shall notify the Selection Committee that contract negotiations with the elevated Proposer(s) have terminated. The Selection Committee shall then determine whether to recommend to the Board to approve contract negotiations with the next-highest-ranked Proposer, and so on. If the Selection Committee decides not to recommend contract negotiations with the next-highest-ranked Proposer, or if the County determines there is no other Proposer with whom the County can successfully negotiate a contract, then the RFP Selection Process shall terminate.

After contract negotiations with a Proposer(s) are successfully completed pursuant to Elevation Level 4, the Selection Committee shall recommend to the Board of County Commissioners that it selects such Proposer(s) to provide the services as outlined in the Agreement. The Board of County Commissioners shall make the final decision whether to enter into an Agreement with a Proposer(s).

ATTENTION PROPOSERS

The Successful Proposer must register in our new Vendor Database if you have not already done so prior to award of this RFP. A purchase order cannot be issued to a vendor until they have registered.

You may register by going to the following link:

https://www.polk-county.net/procurement/vendor-registration

Registered vendors will receive a User ID and Password to access their company information. All registered vendors must provide their owner gender, owner ethnicity, corporate status, and a minimum of one (1) commodity code to be considered registered. It is the responsibility of all vendors to update their vendor information.

Only registered vendors will receive notifications of future RFP's.

GENERAL CONDITIONS

CONTACT

After the issuance of any Request for Proposal, prospective proposers shall not contact, communicate with, or discuss any matter relating in any way to the Request for Proposal with the Board of County Commissioners, and any employee of Polk County, other than the Procurement Director or as directed in the cover page of the Request for Proposal. This prohibition begins with the issuance of any Request for Proposal and ends upon completion execution of a contract. Such communications initiated by a proposer shall be grounds for disqualifying the offending proposer from consideration for award of the proposal and/or any future proposal.

INSURANCE REQUIREMENTS

The selected firm, if any, shall maintain, at all times, the following minimum levels of insurance and shall, without in any way altering their liability, obtain, pay for and maintain insurance for the coverages and amounts of coverage not less than those set forth below. Provide to the County original Certificates of Insurance satisfactory to the County to evidence such coverage before any work commences. Polk County, a political subdivision of the State of Florida, shall be an additional named insured on all policies related to the project, excluding workers' compensation and professional liability. The Workers' Compensation and General Liability policies shall contain a waiver of subrogation in favor of Polk County. All insurance coverage shall be written with a company having an A.M. Best Rating of at least the "A" category and size category of VIII. The firm's self-insured retention or deductible per line of coverage shall not exceed $25,000 without the permission of the County. In the event of any failure by the firm to comply with the provisions; the County may, at its option, on notice to the firm suspend the project for cause until there is full compliance. Alternatively, the County may purchase such insurance at the firm's expense, provided that the County shall have no obligation to do so and if the County shall do so, the firm shall not be relieved of or excused from the obligation to obtain and maintain such insurance amounts and coverages.

Worker's Compensation and Employer's Liability Insurance providing statutory benefits, including those that may be required by any applicable federal statute:

Admitted in Florida	Yes
Employer's Liability	$100,000
All States Endorsement	Statutory
Voluntary Compensation	Statutory

Commercial General Liability Insurance. $1,000,000 combined single limit of liability for bodily injuries, death, and property damage, and personal injury resulting from any one occurrence, including the following coverages:

Premises and Operations and Products/Completed Operations;

Broad Form Commercial General Liability Endorsement to include blanket contractual liability (specifically covering, but not limited to, the contractual obligations assumed by the Firm); Personal Injury (with employment and contractual exclusions deleted) and Broad Form Property Damage coverages;

Independent Contractors; Policy must include Separation of Insureds Clause.

Comprehensive Automobile Liability Insurance. $1,000,000 combined single limit of liability for bodily injuries, death, and property damage, and personal injury resulting from any one occurrence, including all owned, hired, and non-owned vehicles.

Professional Liability Insurance. $2,000,000 for design errors and omissions, inclusive of defense costs. Selected firm shall be required to provide continuing Professional Liability Insurance to cover the project for a period of two (2) years after the projects are completed.

INDEMNIFICATION

To the maximum extent permitted by law, the Consultant shall indemnify, protect and hold the County, and its officers, employees and agents, harmless from and against any and all, claims, actions, causes of action, liabilities, penalties, forfeitures, damages, losses, and expenses whatsoever (including, without limitation, reasonable attorneys' fees, costs, and expenses incurred during negotiation, through litigation and all appeals therefrom) including, without limitation, those pertaining to the death of or injury to any person, or damage to any property, to the extent arising out of or resulting from (i) the failure of Consultant to comply with applicable laws, rules or regulations, (ii) the breach by Consultant of its obligations under this Agreement, (iii) any claim for trademark, patent, or copyright infringement arising out of the scope of Consultant's performance or nonperformance of this Agreement, or (iv) the negligent acts, errors or omissions, or intentional or willful misconduct, of Consultant or any persons or entities employed or utilized by Consultant in the performance of this Agreement. The obligations imposed by this Section shall survive the expiration or earlier termination of the Agreement.

PUBLIC ENTITY CRIMES STATEMENT

A person or affiliate who has been placed on the convicted vendor list following a conviction for a public entity crime may not submit a bid or proposal on a contract to provide any goods or services to a public entity, may not submit a bid or proposal on a contract with a public entity for the construction or repair of a public building or public work, may not submit bids on leases of real property to a public entity, may not be awarded or perform work as a contractor, supplier, subcontractor, or consultant under a contract with any public entity, and may not transact business with any public entity in excess of the threshold amount provided in Section 287.017, for CATEGORY TWO for a period of 36 months from the date of being placed on the convicted vendor list. By submitting this proposal, the proposer hereby certifies that they have complied with said statute.

EQUAL OPPORTUNITY/AFFIRMATIVE ACTION
The County is an equal opportunity/affirmative action employer. The County is committed to equal opportunity employment effort; and expects firms that do business with the County to have a vigorous affirmative action program.

WOMEN/MINORITY BUSINESS ENTERPRISE OUTREACH
The County hereby notifies all Proposers that W/MBEs are to be afforded a full opportunity to participate in any request for proposal by the County and will not be subject to discrimination on the basis of race, color, sex or national origin.

AFFIRMATION
By submitting their proposal, the Proposer affirms that the proposal is genuine and not made in the interest of or on behalf of any undisclosed person, firm or corporation and is not submitted in conformity with any agreement or rules of any group, association, organization or corporation; the Proposer has not directly or indirectly induced or solicited any other person to submit a false or sham proposal; the Proposer has not solicited or induced any person, firm or corporation to refrain from submitting a proposal; and the Proposer has not sought by collusion to obtain for him/herself any advantage over other persons or over the County.

DEVELOPMENT COSTS
Neither the County nor its representative(s) shall be liable for any expenses incurred in connection with preparation of a response to the RFP. Proposers should prepare their proposals simply and economically, providing a straightforward and concise description of the proposer's ability to meet the requirements of the RFP.

ADDENDA
The County may record its responses to inquiries and any supplemental instructions in the form of written addenda. The addenda will be posted on the County's website at https://www.polk-county.net/procurement-bids. It is the sole responsibility of the proposers to check the website to ensure that all available information has been received prior to submitting a proposal.

CODE OF ETHICS
If any proposer violates or is a party to a violation of the code of ethics of Polk County or the State of Florida, with respect to this proposal, such proposer may be disqualified from performing the work described in this proposal or from furnishing the goods or services for which the proposal is submitted and shall be further disqualified from bidding on any future proposals for work, goods, or services for the County.

DRUG FREE WORKPLACE
Preference shall be given to businesses with Drug Free Workplace (DFW) programs. Whenever two or more proposals, which are equal with respect to price, quality and service, are received by the County for the procurement of commodities or contractual services, a proposal received from a business that has provided a statement that it is a DFW shall be given preference in the award process.

APPLICABLE LAWS AND COURTS

This RFP and any resulting agreements shall be governed in all respects by the laws of the State of Florida and any litigation with respect thereto shall be brought only in the courts of Polk County, Florida or the United States District Court, Middle District of Florida, located in Hillsborough County, Florida. The proposer shall comply with all applicable federal, state and local laws and regulations.

CONTRACTUAL MATTERS

A contract in substantially the same form as attached here to as Attachment "A" (Master Consulting Agreement) will be executed between the County and the successful Proposer(s).

All contracts are subject to final approval of the Polk County Board of County Commissioners. Persons or firms who incur expenses or change position in anticipation of a contract prior to the Board's approval do so at their own risk.

PROPOSAL ACCEPTANCE PERIOD

A proposal shall be binding upon the offeror and irrevocable by it for one hundred and twenty (120) calendar days following the proposal opening date. Any proposal in which offeror shortens the acceptance period may be rejected.

ADDITION/DELETION

The County reserves the right to add to or delete any item from this proposal or resulting agreements when deemed to be in the best interest of the County.

PROPRIETARY INFORMATION

In accordance with Chapter 119 of the Florida Statutes (Public Records Law), and except as may be provided by other applicable State and Federal Law, all proposers should be aware that Request for Proposals and the responses thereto are in the public domain. However, the proposers are required to identify specifically any information contained in their proposals which they consider confidential and/or proprietary and which they believe to be exempt from disclosure, citing specifically the applicable exempting law. Proposers should provide a redacted copy of proposal with submittal or must provide within thirty (30) days from the Proposal due date.

All proposals received from proposers in response to this Request for Proposal will become the property of the County and will not be returned to the proposers. In the event of contract award, all documentation produced as part of the contract will become the exclusive property of the County.

REVIEW OF PROPOSAL FILES

In accordance with Chapter 119.071 of the Florida Statutes, the responses received for this Request for Proposal are exempt from review for thirty (30) days after the Bid Opening Date or at Recommendation of Award, whichever event occurs first.

Should the RFP be cancelled and re-solicited for any reason, proposal responses shall remain exempt from disclosure for a period not to exceed twelve (12) months or at Recommendation of Award of the subsequent solicitation.

RFP PROTEST: Any proposer desiring to file a protest, with respect to a recommended award of any RFP, shall do so by filing a written protest. The written protest must be in the possession of the Procurement Division within three (3) working days of the Notice of Recommended Award mailing date. All proposers who submitted a proposal will be sent a Notice of Recommended Award, unless only one proposal was received.

A copy of the protest procedures may be obtained from the Polk County Procurement Division or can be downloaded from the County's website at https://www.polk-county.net/procurement/protest-procedures.

FAILURE TO FOLLOW PROTEST PROCEDURE REQUIREMENTS WITHIN THE TIME FRAMES PRESCRIBED HEREIN AS ESTABLISHED BY POLK COUNTY, FLORIDA, SHALL CONSTITUTE A WAIVER OF THE PROPOSER'S RIGHT TO PROTEST AND ANY RESULTING CLAIM.

UNAUTHORIZED ALIEN(S) The Consultant agrees that unauthorized aliens shall not be employed nor utilized in the performance of the requirements of this solicitation. The County shall consider the employment or utilization of unauthorized aliens a violation of Section 274A(e) of the Immigration and Naturalization Act (8 U.S.C. 1324a). Such violation shall be cause for unilateral termination of this Agreement by the County. As part of the response to this solicitation, the successful consultant will complete and submit the form "AFFIDAVIT CERTIFICATION IMMIGRATION LAWS."

EMPLOYMENT ELIGIBILITY VERIFICATION (E-Verify)

A. Unless otherwise defined herein, terms used in this Section which are defined in Section 448.095, Florida Statutes, as may be amended from time to time, shall have the meaning ascribed in said statute.

B. Pursuant to Section 448.095(2)(a), Florida Statutes, effective January 1, 2021, public employers, contractors and subcontractors shall register with and use the E-verify system in order to verify the work authorization status of all newly hired employees. The Contractor acknowledges and agrees that use of the U.S. Department of Homeland Security's E-Verify System and compliance with all other terms of this Certification and Section 448.095, Fla. Stat., is an express condition of this Agreement, and the County may treat a failure to comply as a material breach of this Agreement.

C. By entering into this Agreement, the Contractor becomes obligated to comply with the provisions of Section 448.095, Fla. Stat., "Employment Eligibility," as amended from time to time. This includes but is not limited to utilization of the E-Verify System to verify the work authorization status of all newly hired employees, and requiring all subcontractors to provide an affidavit attesting that the subcontractor does not employ, contract with, or subcontract with, an unauthorized alien. The Contractor shall maintain a copy of such affidavit for the duration of the contract. Failure to comply will lead to termination of this Agreement, or if a subcontractor knowingly violates the statute or

Section 448.09(1), Fla. Stat., the subcontract must be terminated immediately. Any challenge to termination under this provision must be filed in the Tenth Judicial Circuit Court of Florida no later than 20 calendar days after the date of termination. If this Agreement is terminated for a violation of the statute by the Contractor, the Contractor may not be awarded a public contract for a period of 1 year after the date of termination. The Contractor shall be liable for any additional costs incurred by the County as a result of the termination of this Agreement. Nothing in this Section shall be construed to allow intentional discrimination of any class protected by law.

LIMITATIONS

This request does not commit Polk County to award a contract. Proposers will assume all costs incurred in the preparation of their response to this RFP. The County reserves the right to: 1) accept or reject qualifications and/or proposals in part or in whole; 2) request additional qualification information; 3) limit and determine the actual contract services to be included in a contract; 4) obtain information for use in evaluating submittals from any source and 5) reject all submittals.

ATTORNEY'S FEES AND COSTS: Each party shall be responsible for its own legal and attorney's fees, costs and expenses incurred in connection with any dispute or any litigation arising out of, or relating to this Agreement, including attorney's fees, costs and expenses incurred for any appellate or bankruptcy proceedings.

PUBLIC RECORD LAWS

(a) The Consultant acknowledges the County's obligations under Article I, Section 24, of the Florida Constitution and under Chapter 119, Florida Statutes, to release public records to members of the public upon request and comply in the handling of the materials created under this Agreement. The Consultant further acknowledges that the constitutional and statutory provisions control over the terms of this Agreement. In association with its performance pursuant to this Agreement, the Consultant shall not release or otherwise disclose the content of any documents or information that is specifically exempt from disclosure pursuant to all applicable laws.

(b)Without in any manner limiting the generality of the foregoing, to the extent applicable, the Consultant acknowledges its obligations to comply with Section 119.0701, Florida Statutes, with regard to public records, and shall:

(1) keep and maintain public records required by the County to perform the services required under this Agreement;

(2) upon request from the County's Custodian of Public Records or his/her designee, provide the County with a copy of the requested records or allow the records to be inspected or copied within a reasonable time at a cost that does not exceed the cost provided in Chapter 119, Florida Statutes, or as otherwise provided by law;

(3) ensure that public records that are exempt or confidential and exempt from public records disclosure requirements are not disclosed except as authorized by law for the duration of the term of this Agreement and following completion of this Agreement if the Consultant does not transfer the records to the County; and

(4) upon completion of this Agreement, transfer, at no cost, to the County all public records in possession of the Consultant or keep and maintain public records required by the County to perform the service. If the Consultant transfers all public records to the County upon completion of this Agreement, the Contractor shall destroy any duplicate public records that are exempt or confidential and exempt from public records disclosure requirements. If the Consultant keeps and maintains public records upon completion of this Agreement, the Consultant shall meet all applicable requirements for retaining public records. All records stored electronically must be provided to the County, upon request from the County's Custodian of Public Records, in a format that is compatible with the information technology systems of the County.

(c) **IF THE CONSULTANT HAS QUESTIONS REGARDING THE APPLICATION OF CHAPTER 119, FLORIDA STATUTES, TO THE CONSULTANT'S DUTY TO PROVIDE PUBLIC RECORDS RELATING TO THIS AGREEMENT, CONTACT THE COUNTY'S CUSTODIAN OF PUBLIC RECORDS AT:**

Scrutinized Companies and Business Operations Certification; Termination.

A. Certification(s).
   i. By its execution of this Agreement, the Vendor hereby certifies to the County that the Vendor is not on the Scrutinized Companies that Boycott Israel List, created pursuant to Section 215.4725, Florida Statutes, nor is the Vendor engaged in a boycott of Israel, nor was the Vendor on such List or engaged in such a boycott at the time it submitted its bid, proposal, quote, or other form of offer, as applicable, to the County with respect to this Agreement.
   ii. Additionally, if the value of the goods or services acquired under this Agreement are greater than or equal to One Million Dollars ($1,000,000), then the Vendor further certifies to the County as follows:
      a) the Vendor is not on the Scrutinized Companies with Activities in Sudan List, created pursuant to Section 215.473, Florida Statutes; and
      b) the Vendor is not on the Scrutinized Companies with Activities in the Iran Petroleum Energy Sector List, created pursuant to Section 215.473, Florida Statutes; and
      c) the Vendor is not engaged in business operations (as that term is defined in Florida Statutes, Section 287.135) in Cuba or Syria; and
      d) the Vendor was not on any of the Lists referenced in this subsection A(ii), nor engaged in business operations in Cuba or

Syria when it submitted its proposal to the County concerning the subject of this Agreement.

iii. The Vendor hereby acknowledges that it is fully aware of the penalties that may be imposed upon the Vendor for submitting a false certification to the County regarding the foregoing matters.

B. Termination. In addition to any other termination rights stated herein, the County may immediately terminate this Agreement upon the occurrence of any of the following events:

i. The Vendor is found to have submitted a false certification to the County with respect to any of the matters set forth in subsection A(i) above, or the Vendor is found to have been placed on the Scrutinized Companies that Boycott Israel List or is engaged in a boycott of Israel.

ii. The Vendor is found to have submitted a false certification to the County with respect to any of the matters set forth in subsection A(ii) above, or the Vendor is found to have been placed on the Scrutinized Companies with Activities in Sudan List, or the Scrutinized Companies with Activities in the Iran Petroleum Energy Sector List, or has been engaged in business operations in Cuba or Syria, and the value of the goods or services acquired under this Agreement are greater than or equal to One Million Dollars ($1,000,000).

Proposers Incorporation Information

(Submittal Page)

The following section should be completed by all bidders and submitted with their bid submittal:

Company Name: _____

DBA/Fictitious Name (if applicable): _____

TIN #: _____

Address: _____

City: _____

State: _____

Zip Code: _____

County: _____

Note: Company name must match legal name assigned to the TIN number. A current W9 should be submitted with your bid submittal.

Contact Person: _____

Phone Number: _____

Cell Phone Number: _____

Email Address: _____

Type of Organization (select one type)

- □ Sole Proprietorship
- □ Partnership
- □ Non-Profit
- □ Sub Chapter
- □ Joint Venture
- □ Corporation
- □ LLC
- □ LLP
- □ Publicly Traded
- □ Employee Owned

State of Incorporation: _____

The Successful vendor must complete and submit this form prior to award. The Successful vendor must invoice using the company name listed above.

EXHIBIT 1
DETAILED INSTRUCTIONS ON HOW TO PREPARE AND SEND PERFORMANCE SURVEYS

The objective of this process is to identify the past performance of the Contractor submitting a proposal package. This is accomplished by sending survey forms to past customers. The customers should return the forms directly to the Contractor. The Contractor is to include all surveys in their proposal package.

Sending the Survey

The surveys shall be sent to all clients for whom the Contractor has identified under Tab 3. Surveys should correlate to all projects identified under Tab 3.

If more surveys are included, then Procurement will only use those identified under Tab 3.

1. The Contractor shall complete the following information for each customer that a survey will be sent

CLIENT NAME	Name of the company that the work was performed for (i.e. Hillsborough County).
FIRST NAME	First name of the person who will answer customer satisfaction questions.
LAST NAME	Last name of the person who will answer customer satisfaction questions.
PHONE NUMBER	Current phone number for the reference (including area code).
EMAIL ADDRESS	Current email address for the reference.
PROJECT NAME	Name of the project (Geotechnical Services/Construction Material Testing and Inspection for X Project)
COST OF SERVICES	Cost of services ($250,000)
DATE COMPLETE	Date when the services were completed. (i.e. 5/31/2022)

2. The Contractor is responsible for verifying that their information is accurate prior to submission for references.

3. The survey must contain different services/projects. You cannot have multiple people evaluating the same job. However, one person may evaluate several different jobs.

4. The past projects can be either completed or on-going.

5. The past client/owner must evaluate and complete the survey.

Preparing the Surveys

1. The Contractor is responsible for sending out a performance survey to the clients that have been identified under Tab 3. The survey can be found on the next page.
2. The Contractor should enter the past clients' contact information, and project information on each survey form for each reference. The Contractor should also enter their name as the Contractor being surveyed.
3. The Contractor is responsible for ensuring all references/surveys are included in their submittal under Tab 8
4. Polk County Procurement may contact the reference for additional information or to clarify survey data. If the reference cannot be contacted, there will be no credit given for that reference.

Survey Questionnaire – Polk County

RFP 23-328, Professional Geotechnical Services and Construction Material Testing and Inspection

To: _____ (Name of Person completing survey)

_____ (Name of Client Company/Contractor)

Phone Number: _____ Email: _____

Subject: Past Performance Survey of Similar work:

Project name: _____

Name of Vendor being surveyed: _____

Cost of Services: Original Cost: _____ Ending Cost: _____

Contract Start Date: _____ Contract End Date: _____

Rate each of the criteria on a scale of 1 to 10, with 10 representing that you were very satisfied (and would hire the Consultant /individual again) and 1 representing that you were very unsatisfied (and would never hire the Consultant /individual again). Please rate each of the criteria to the best of your knowledge. If you do not have sufficient knowledge of past performance in a particular area, leave it blank.

NO	CRITERIA	UNIT	SCORE
1	Ability to manage cost	(1-10)	
2	Ability to maintain project schedule (complete on-time/early)	(1-10)	
3	Quality of workmanship	(1-10)	
4	Professionalism and ability to manage	(1-10)	
5	Close out process	(1-10)	
6	Ability to communicate with Client's staff	(1-10)	
7	Ability to resolve issues promptly	(1-10)	
8	Ability to follow protocol	(1-10)	
9	Ability to maintain proper documentation	(1-10)	
10	Appropriate application of technology	(1-10)	
11	Overall Client satisfaction and comfort level in hiring	(1-10)	
12	Ability to offer solid recommendations	(1-10)	
13	Ability to facilitate consensus and commitment to the plan of action among staff	(1-10)

Exhibit “A”
Specific Services

Specific services shall include, but not be limited to, sampling and testing of soils, concrete, asphalt and various other construction materials.

1.	In-Place density tests
2.	Standard or modified proctors
3.	Limerock Bearing Ratio tests (3 points)
4.	Compressive strength of concrete cylinders (4 per set)
5.	Compressive strength of soil-cement pills (4 per set)
6.	Core drilling & soils analysis
	STEEL INSPECTION
1.	Inspection of Welds & Bolt Torqueing A) At Plant B) At Job Site 1. One (1) Man Inspection Crew 2. Two (2) Men Inspection Crew
2.	Reinforcing Steel Inspection
3.	Nondestructive Testing of Steel & Connections
	GEOTECHNICAL INVESTIGATIONS & SOIL TESTS
1.	**Standard Penetration Test Borings (ASTM D-1586)(Minimum 50 feet per job)** A) 0-50 foot depth interval B) 50-100 foot depth interval C) 100-125 foot depth interval D) 125-150 foot depth interval
2.	Solid Auger Stem Borings (minimum 100 feet per job)
3.	Manual Auger Borings
4.	Drill Service from Floating Platform
5.	Rock Coring
6.	Installation of Steel Casing

7.	Ground Penetrating Radar
8.	Cone Penetrometer Radar
9.	Dilatometer Soundings
10.	Atterberg Limits A) Liquid Limit (LL) – Plastic Limit (PL) B) Shrinkage Limit (SL)
11.	California Bearing Ratio
12.	Consolidation A) Consolidation with Reload
13.	Corrosion Resistance (pH and R)
14.	Field Density Tests (minimum 3 tests per trip)
15.	Florida Bearing Value (FBCV)
16.	Florida Bearing Value Determination of Blend Proportions
17.	Grain Size: A) Hydro Analysis B) Sieve Analysis (Wash No. 200 Sieve)
18.	Ground Penetrating Radar
	GEOTECHNICAL INVESTIGATIONS & SOIL TESTS
19.	Limerock Bearing Ratio (LBR) (3 point)
20.	Limerock Bearing Ratio (LBR) (5 point)
21.	Moisture Content
22.	Moisture Density Test (Standard or Modified Proctor)
23.	Muck Probing 2 Man Crew 3 Man Crew
24.	Organic Content Determination
25.	Monitor Well Installation includes permits, lithologic log, and report – 2” or 4” PVC with removable, water-tight plug
	Hollow Stem Auger Boring
	Casing: 2-inch PVC (site spec. may require stickup)
	Casing: 4-inch PVC (site spec. may require stickup)
	Casing: 2-inch Steel (site spec. may require stickup)

	Casing: 4-inch Steel (site spec. may require stickup)
	0.010-inch Filter Screen: 2-inch PVC + min. 6-inch tail
	0.005-inch Filter Screen: 2-inch PVC + min. 6-inch tail
	0.010-inch Filter Screen: 4-inch PVC + min. 6-inch tail
	0.005-inch Filter Screen: 4-inch PVC + min. 6-inch tail
	Filter Sand: Varies from approx. 30/65 to approx. 20/30
	Bentonite: Chips / Balls
	Bentonite: Slurry / Slurry by tremie pipe
	Neat Grout
	Protective Casing (Hinged top and lockable) w/ name plate
	Concrete Pad (2'x2'x4" above-ground or 12-inch flush-mount round)
	Concrete-filled, Painted, Protective Bollard min. 4.5-inch O.D. max 6-inch O.D. (4-foot tall / 2-foot buried)
26.	Well Abandonment includes permits and report
	2-inch Well
	4-inch Well
27.	Tracked-Mounted Direct Push Technology (DPT) Rig w/all equipment and crew
	GEOTECHNICAL INVESTIGATIONS & SOIL TESTS
28.	pH
29.	Permeability Tests – Field (15', 2 depths) (Excluding auger borings & vertical permeability)
30.	Permeability Tests – Laboratory Granular Soil Cohesive Soil
31.	Soil-Cement, Field Testing & Observation
32.	Soil-Cement, Laboratory Design Mixes (FOB Laboratory)

33.	Soil Plate Load Test (ASTM)
34.	Specific Gravity
35.	Double Ring Infiltrometer Test
36.	Relative Density Test
37.	Triaxial Compression Test (CU) (3 points) Additional points
38.	Unconfined Compression Tests
39.	Undisturbed Thin-Walled Tube Sampling
40.	Unit Weight
	ASPHALTIC CONCRETE INSPECTION SERVICES
1.	Asphaltic Concrete Paving Plant Inspection
2.	Asphalt Mix-Gradation
3.	Asphalt Mix-Bulk Specific Gravity
4.	Asphalt Mix-Gradation
5.	Asphalt Mix- Maximum Specific Gravity
6.	Asphalt Mix- Temperature
7.	RAP – Asphalt Binder Content
8.	RAP – Gradation
9.	RAP- Maximum Specific Gravity
10.	Coring Pavement for Density and/or Thickness
11.	Asphalt Core Density (core provided by others)
12.	Gyratory Compaction for SuperPave AASH to TP4-00
13.	Quantitative Determination of Asphalt Content from Asphalt Paving Mixtures by the Ignition Method FM5-563
	CONCRETE TESTING
	Concrete Aggregate Tests (FOB Lab)
1.	Sieve Analysis, Fine or Coarse
2.	Absorption
3.	Specific Gravity

4.	Unit Weight
5.	Material Finer than No. 200 Sieve
6.	Organic (Color metric ASTM C-40)
7.	Salt Content
8.	Los Angeles Abrasion
9.	Soundness (5 cycle sodium sulfate) (5 cycle magnesium sulfate)
10.	Masonry Mortar strength Comparative, Sand or Water
	Concrete Beams
11.	Flexural Strength, Making & Testing (3 tests per set)
	Concrete Masonry Units or Prisms
12.	Compressive Strength, ASTM C-140, 5 Specimens
13.	Absorption & Moisture Content, ASTM C-150, 5 Specimens
14.	Compressive Strength Testing of Hollow Masonry Prisms ASTM E-477 (FOB)
15.	Compressive Strength Testing of Hollow Masonry Prisms with Grouted Cells, ASTM E-477
16.	Molding, Curing & Testing of 2” x 2” Masonry Mortar Cubes (set of 3 cubes)
17.	Concrete Masonry Units, ASTM Test (5 Compression & 5 Absorption Tests)
	Concrete Coring
18.	Securing Structural or Pavement Cores, Compression Tests & Thickness
19.	Coring Site Accessible – Does not include mobilization charge, staging and/or scaffolding, 4” diameter or smaller, 6” thickness or less. Compressive Strength of Concrete Cores (cores provided by others)
	Grout Cubes
20.	Making and Compression Tests of 2” Cubes from Job Site (set of 3)

	Concrete Cylinders
21.	Making & Compression Tests of 6” x 12” Cylinders (Slump Test Included)
22.	Compression Tests of 6” x 12” Cylinders
23.	Extra Slump Tests
24.	Air Content Tests
	Concrete Design Mixes
25.	Concrete Design Mixes (including standard aggregate tests & one trial batch with 6 compression test cylinders)
26.	Brush/Loss (for soil Cement basis) ASTM Durarock & Pug Mix
27.	Linear Shrinkage Tests of Concrete Block (ASTM 426)
28.	Concrete Ready Mix Plant or Job Inspection
29.	Pre-Fabricated Panel Tests, ASTM or FHA

ADDENDUM #1

RFP 23-328, Professional Geotechnical Services and Construction Material Testing and Inspection

CLARIFICATION

DELETE IN ITS ENTIRETY:

Page 20, Contractual Matters

A contract in substantially the same form as attached here to as Attachment "A" (Master Consulting Agreement) will be executed between the County and the successful Proposer(s).

All contracts are subject to final approval of the Polk County Board of County Commissioners. Persons or firms who incur expenses or change position in anticipation of a contract prior to the Board's approval do so at their own risk.

REPLACE WITH:

A contract in substantially the same form as attached here to as Attachment "B" (Master Consulting Agreement) will be executed between the County and the successful Proposer(s).

All contracts are subject to final approval of the Polk County Board of County Commissioners. Persons or firms who incur expenses or change position in anticipation of a contract prior to the Board's approval do so at their own risk.

DRAFT AGREEMENT
MASTER CONSULTING AGREEMENT

THIS AGREEMENT is entered into as of the Effective Date (defined in Section 1.1 below) by and between Polk County (the "County"), a political subdivision of the State of Florida, situated at 330 W. Church Street, Bartow, Florida 33830, _____ (the "Consultant") a _____ _____, located at _____, and whose Federal Employer Identification Number is: _____.

WHEREAS, County requires certain professional services in connection with the performance of certain professional geotechnical services and construction material testing and inspection for all Divisions in the County; and,

WHEREAS, the County has solicited for these services via RFP 23-328, an advertised request for proposals (the "RFP"), and has received numerous responsive proposals thereto; and

WHEREAS, pursuant to the RFP, the County has selected the Consultant and the Consultant remains agreeable to providing the County the professional services described herein, and the Consultant represents that it is capable and prepared to do so according to the terms and conditions stated herein;

NOW, THEREFORE, in consideration of the mutual understandings and covenants set forth herein, the parties hereby agree, as follows:

1.0 **Term**

1.1 This Agreement shall take effect on the date of its execution by the County (the "Effective Date").

1.2 The term of this Agreement shall be for a five (5) year time period, commencing upon the Effective Date and remaining in full force and effect thereafter, unless otherwise sooner terminated as provided herein.

2.0 **Services to Be Performed by Consultant**

2.1 Consultant shall perform the services as generally described in (i) the County's Request for Proposals RFP 23-328, to include all attachments and addenda, and (ii) the Consultant's responsive proposal thereto (collectively, (i) and (ii) are "RFP 23-328") all of which are incorporated into this Agreement by this reference, attached hereto as a composite Exhibit "A" and made a part of

this Agreement, and as may be further specifically designated and authorized by the County, in writing (collectively, the "Services"). Such authorization will be referred to as a Consultant Services Authorization ("CSA") or a Contract Purchase Order ("CPO") and all provisions of this Agreement apply to the CSA/CPO with full force and effect as if appearing in full within each CSA/CPO. Each CSA/CPO will set forth a specific Scope of Services, maximum limit of compensation, schedule, liquidated damages and completion date, and shall become effective upon the due execution.

2.2 The Consultant is not authorized to undertake any project without a duly executed CSA/CPO, which shall specify the work to be performed and the time to be completed. Consultant recognizes that the County may employ several different Consultants to perform the work described and that the Consultant has not been employed as the exclusive agent to perform any such services.

2.3 When the Consultant and the County enter into a CSA/CPO where the term of the CSA/CPO expires on a date that is later than the date that the Master Consulting Agreement (MCA) expires, the Consultant and the County agree that the terms of the MCA and any amendments, attachments or provisions thereof are automatically extended until the expiration (including any extension or amendment thereto) or full completion of the requirements of the CSA/CPO have been performed. Cancellation by the County of any remaining work prior to the full completion of the requirements of the CSA/CPO shall cause the terms of the MCA to terminate at the same time. This provision only applies when the expiration of the CSA/CPO extends beyond the expiration of the MCA. It does not apply when a CSA/CPO expires or is cancelled prior to the expiration of the MCA.

3.0 **Compensation**

3.1 General

3.1.1 County shall pay Consultant in accordance with Exhibit "B", "Fee Schedule", which is attached hereto and incorporated by reference as part of this Agreement. The fee schedule identifies all job classifications, which will perform billable services pursuant to this Agreement and the fee for each job classification. Performance of work by personnel in job classifications not listed on the fee schedule will result in nonpayment for such services.

3.1.2 Upon the mutual agreement of the parties, the Fee Schedule, as set out in Exhibit "B" may be adjusted by a written Amendment to the Master Consulting Agreement annually beginning one year from the Effective Date of this Agreement. Such amendment must be executed by both parties and shall operate prospectively only and shall not alter fee schedules for CSA's/CPO's in effect at the time of the amendment.

3.1.3 Compensation may be negotiated as a not to exceed price or a lump sum amount on a per-project basis, on each individual CSA/CPO.

3.1.4 In the event a not to exceed price is negotiated, compensation shall be billed and paid based on and in accordance with the Hourly Rate Schedule attached hereto and incorporated herein as Exhibit "B". The Hourly Rate Schedule identifies all job classifications which will perform billable services pursuant to this Agreement and the fee for each job classification. Performance of work by personnel in job classifications not listed on the fee schedule will result in nonpayment for such services.

3.1.5 Invoices must reference the applicable CSA/CPO number, using an invoice form approved by the County Auditor.

3.1.6 Each individual invoice shall be due and payable forty-five (45) days after receipt by the County of correct, fully documented, invoice, in form and substance satisfactory to the County with all appropriate cost substantiations attached. All invoices shall be delivered, as applicable based on the particular project:

Polk County Roads & Drainage Division
P.O. Box 9005, Bartow, FL 33830
Attention: Director

3.1.7 In order for both parties herein to close their books and records, the Consultant will clearly state "Final Invoice" on the Consultant's final/last billing to the County. This certifies that all services have been properly performed and all charges and costs have been invoiced to the County. Since this account will thereupon be closed, any and other further charges if not properly included on this final invoice are waived by the Consultant.

3.1.8 Payment of the final invoice shall not constitute evidence of the County's

DRAFT

acceptance of the work

3.1.9 Invoices shall be accompanied by time and task records for all billable hours appearing on the invoice. Additional documents may be requested by County and, if so requested, shall be furnished by Consultant to County Auditor's satisfaction.

3.1.10 By submission of an invoice, the project manager or designated payroll officer is deemed to be attesting to the correctness and accuracy of time charges and requested reimbursements.

3.1.11 Pursuant to Section 3.1.4, if a not to exceed fee is negotiated, invoices shall be accompanied by time and task records for all billable hours appearing on the invoice. Alternatively, if a lump sum amount is negotiated, invoices shall be made upon the completion of each phase of the work in proportion to the Services performed, as specifically set forth in the applicable CSA or CPO. Additional documentation may be requested by the County and, if so requested, shall be furnished by the Consultant to the County Auditor's satisfaction.

3.2 Reimbursable

3.2.1 All requests for payment of out-of-pocket expenses eligible for reimbursement under the terms of this Agreement shall be reimbursed per the County's Reimbursable Schedule, Exhibit "C", and include copies of paid receipts, invoices or other documentation acceptable to the County's Auditor. Such documentation shall be sufficient to establish that the expense was actually incurred and necessary in the performance of the Scope of Work described in this Agreement, CSA, or CPO.

3.2.2 Reimbursable Expenses are the actual, pre-approved, expenses incurred directly in connection with the applicable CSA or CPO, and include:

Overnight Deliveries
Reproduction
Sub-Consultant
Long Distance Telephone Calls (excluding Florida cities located outside the boundaries of Polk County)

3.2.3 Mileage and associated travel costs shall be reimbursed in accordance with F.S. 112.061 and County policy for pre-approved out-of-county travel (excluding travel from home

offices located outside of Polk County to the Polk County line).

3.2.4 All assets, i.e. durable goods, purchased as reimbursable expenses become the property of the County upon completion of the work for which the asset was utilized. All such assets must be surrendered by delivery to the Polk County Roads & Drainage Division offices upon demand, termination of the Agreement, or the conclusion of the project, whichever occurs first.

3.2.5 Consultant shall maintain a current inventory of all such assets.

4.0 **Insurance**

4.1 General Provisions

4.1.1 Consultant shall maintain, at all times, the following minimum levels of insurance and shall, without in any way altering their liability, obtain, pay for and maintain insurance for the coverages and amounts of coverage not less than those set forth below and provide the County with a Certificate of Insurance and an opportunity to inspect a certified copy of each policy applicable to this Agreement followed thereafter by an annual Certificate of Insurance satisfactory to the County to evidence such coverage before any work commences.

4.1.2 The County shall be named as an additional insured on all Consultant policies related to the project, excluding professional liability and worker's compensation. The Commercial General Liability and Worker's Compensation Liability policies shall contain a waiver of subrogation in favor of Polk County. All insurance coverage shall be written with an insurer having an A.M. Best Rating of a least the "A" category and size category of VIII.

4.1.3 The Consultant's self-insured retention or deductible per line of coverage shall not exceed $25,000.00 without the permission of the County.

4.1.4 If there is any failure by the Consultant to comply with the provisions of this section, the County may, at its option, on notice to the Consultant, suspend the work for cause until there is full compliance.

4.1.5 County may, at its sole discretion, purchase such insurance at Consultant's expense provided that the County shall have no obligation to do so and if the County shall do so, it shall not relieve Consultant of its obligation to obtain insurance.

DRAFT

4.1.6 The Consultant shall not be relieved of or excused from the obligation to obtain and maintain such insurance amount and coverages.

4.1.7 All Consultants' subconsultants shall be required to include County and Consultant as additional insured on their General Liability Insurance policies.

4.1.8 In the event that subconsultants used by the Consultant do not have insurance, or do not meet the insurance limits, Consultant shall indemnify and hold harmless the County for any claim in excess of the subconsultants' insurance coverage.

4.1.9 The Consultant shall not commence work under this Agreement until all insurance required as stated herein has been obtained and such insurance has been approved by the County.

4.2 Comprehensive Automobile Liability Insurance. $1,000,000.00 combined single limit of liability for bodily injuries, death and property damage resulting from any one occurrence, including all owned, hired, and non-owned vehicles.

4.3 Commercial General Liability. $1,000,000.00 combined single limit of liability for bodily injuries, death and property damage, and personal injury resulting from any one occurrence, including the following coverages:

4.3.1 Premises and Operations:

Broad Form Commercial General Liability Endorsement to include Blanket Contractual liability (specifically covering, but not limited to, the contractual obligations assumed by the Firm); Personal Injury (with employment and contractual exclusions deleted); and Broad Form Property Damage coverage.

4.3.2 Independent Contractors:

Delete Exclusion relative to collapse, explosion and underground; Property Damage Hazards; Cross Liability Endorsement; and Contractual liability (specifically covering, but not limited to, the contractual obligations assumed by the Firm)

4.4 Umbrella (Excess) Liability Insurance. Umbrella Liability with limits of not less than $1,000,000.00, exclusive of defense costs, to be in excess of all other coverages. Such coverage shall be at least as broad as the primary coverages above, with any excess umbrella layers written on a

DRAFT

strict following form basis over the primary coverage. All such policies shall be endorsed to provide defense coverage obligations.

4.5 Professional Liability Insurance. $2,000,000.00 for design errors and omissions, inclusive of defense costs. Consultant shall be required to provide continuing Professional Liability Insurance to cover each project for a period of two (2) years after the project is completed. Insurance requirements may vary depending on projects as determined by the County Director of Risk Management and Insurance. The County may require the Consultant to provide a higher level of coverage for a specific project and time frame.

4.6 Performance, Payment and Other Bonds. Consultant shall furnish Performance and Payment Bonds specific to each project if required and agreed to under the CSA or CPO for the project.

4.7 Worker's Compensation. The Consultant shall provide, pay for, and maintain worker's compensation insurance on all employees, its agents or subcontractors as required by Florida Statutes.

5.0 **Standard of Care**

5.1 Consultant has represented to the County that it has the personnel and experience necessary to perform the work in a professional and workmanlike manner.

5.2 Consultant shall exercise the same degree of care, skill, and diligence in the performance of the Services as is provided by a professional of like experience, knowledge and resources, under similar circumstances.

5.3 Consultant shall, at no additional cost to County, re-perform services which fail to satisfy the foregoing standard of care or otherwise fail to meet the requirement of this Agreement.

5.4 The Consultant warrants that all services shall be performed by skilled and competent personnel to the professional standards in the field.

6.0 **Indemnification**

6.1 General. Having considered the risks and potential liabilities that may exist during the performance of the Services and in consideration of the promises included herein, County and

DRAFT

Consultant agree to allocate such liabilities in accordance with this Section.

6.2 Indemnification.

6.2.1 Consultant, to the extent permitted by law, shall indemnify, defend (by counsel reasonably acceptable to County) protect and hold County, and its officers, employees and agents harmless from and against any and all, claims, actions, causes of action, liabilities, penalties, forfeitures, damages, losses and expenses (including, without limitation, attorney's fees costs and expenses incurred during negotiation, through litigation and all appeals therefrom) whatsoever including, but not limited, to those pertaining to the death of or injury to any person, or damage to any property, arising out of or resulting from (i) the failure of Consultant to comply with applicable laws, rules or regulations, (ii) the breach by Consultant of its obligations under this Agreement, (iii) any claim for trademark, patent or copyright infringement arising out of the scope of Consultant's performance or nonperformance of this Agreement, or (iv) the negligent acts, errors or omissions, or intentional or willful misconduct, of Consultant, its professional associates, its subcontractors, agents, and employees provided, however, that Consultant shall not be obligated to defend or indemnify the County with respect to any such claims or damages arising out of the County's sole negligence.

6.2.2 County review, comment and observation of the Consultant's work and performance of this Agreement shall in no manner constitute a waiver of the indemnification provisions of this Agreement.

6.2.3 Consultant agrees that it bears sole legal responsibility for its work and work product, and the work and work product of subconsultants and their employees, and/or for Consultant's performance of this Agreement and its work product(s).

6.3 Survival. Upon completion of all Services, obligations and duties provided for in this Agreement, or in the event of termination of this Agreement for any reason, the terms and conditions of this Agreement shall survive as if the Agreement were in full force and effect.

7.0 **Independent Contractor**

7.1 Consultant undertakes performance of the Services as an independent contractor and shall be wholly responsible for the methods of performance.

7.2 County shall have no right to supervise the methods used, but County shall have the right to observe such performance.

7.3 Consultant shall work closely with County in performing Services under this Agreement.

7.4 The Consultant shall not pledge the County's credit or make it a guarantor of payment or surety for any contract, debt, obligation, judgment, lien or any form of indebtedness and shall have no right to speak for or bind the County in any manner.

7.5 Consultant further warrants and represents that it has no obligation or indebtedness that would impair its ability to fulfill the terms of this Agreement.

8.0 **Authority to Practice**

8.1 The Consultant hereby represents and warrants that it has and will continue to maintain all licenses and approvals required to conduct its business, and that it will at all times conduct its business activities in a reputable manner.

9.0 **Public Records Law**

(a) The Consultant acknowledges the County's obligations under Article I, Section 24, of the Florida Constitution and under Chapter 119, Florida Statutes, to release public records to members of the public upon request and comply in the handling of the materials created under this Agreement. The Consultant further acknowledges that the constitutional and statutory provisions control over the terms of this Agreement. In association with its performance pursuant to this Agreement, the Consultant shall not release or otherwise disclose the content of any documents or information that is specifically exempt from disclosure pursuant to all applicable laws.

(b) Without in any manner limiting the generality of the foregoing, to the extent applicable, the Contractor acknowledges its obligations to comply with Section 119.0701, Florida Statutes, with regard to public records, and shall:

(1) keep and maintain public records required by the County to perform the services required under this Agreement;

(2) upon request from the County's Custodian of Public Records or his/her designee, provide the County with a copy of the requested records or allow the records to be inspected or copied within a reasonable time at a cost that does not exceed the cost provided in Chapter 119, Florida Statutes, or as otherwise provided by law;

(3) ensure that public records that are exempt or confidential and exempt from public records disclosure requirements are not disclosed except as authorized by law for the duration of the term of this Agreement and following completion of this Agreement if the Consultant does not transfer the records to the County; and

(4) upon completion of this Agreement, transfer, at no cost, to the County all public

records in possession of the Consultant or keep and maintain public records required by the County to perform the service. If the Consultant transfers all public records to the County upon completion of this Agreement, the Consultant shall destroy any duplicate public records that are exempt or confidential and exempt from public records disclosure requirements. If the Consultant keeps and maintains public records upon completion of this Agreement, the Consultant shall meet all applicable requirements for retaining public records. All records stored electronically must be provided to the County, upon request from the County's Custodian of Public Records, in a format that is compatible with the information technology systems of the County.

(c) **IF THE CONSULTANT HAS QUESTIONS REGARDING THE APPLICATION OF CHAPTER 119, FLORIDA STATUTES, TO THE CONTRACTOR'S DUTY TO PROVIDE PUBLIC RECORDS RELATING TO THIS AGREEMENT, CONTACT THE COUNTY'S CUSTODIAN OF PUBLIC RECORDS AT:**

RECORDS MANAGEMENT LIAISON OFFICER
POLK COUNTY
330 WEST CHURCH ST.
BARTOW, FL 33830
TELEPHONE: (863) 534-7527
EMAIL: RMLO@POLK-COUNTY.NET

10.0 **Compliance with Laws**

10.1 In performance of the Services, Consultant shall comply with applicable regulatory requirements including federal, state, special district, and local laws, rules, regulations, orders, codes, criteria and standards, including those now in effect and hereafter adopted.

11.0 **Subcontracting**

11.1 The County reserves the right to accept the use of a subcontractor or to reject the selection of a particular subcontractor and to inspect all facilities of any subcontractor.

11.2 If a subcontractor fails to perform or make progress, as required by this Agreement, and it is necessary to replace the subcontractor to complete the work in a timely fashion, the Consultant shall promptly do so, subject to acceptance of the new subcontractor by the County. Failure of a Subcontactor to timely or properly perform its obligations shall not relieve Consultant of its obligations hereunder.

12.0 **Federal and State Taxes**

12.1 The County is exempt from Federal Tax and State Sales and Use Taxes. Upon request, the County will provide an exemption certificate to Consultant. The Consultant shall not be exempted from paying sales tax to its suppliers for materials to fulfill contractual obligations with the County, nor shall the Consultant be authorized to use the County's Tax Exemption Number in securing such materials.

13.0 **Public Entity Crimes**

13.1 The Consultant understands and acknowledges that this Agreement with the County will be voidable by the County, in the event the conditions under Section 287.133, Florida Statutes applies to the Consultant, relating to conviction for a public entity crime.

14.0 **County's Responsibilities**

14.1 County shall be responsible for providing access to all County project sites, and providing information in the County's possession that may reasonably be required by Consultant, including; existing reports, studies, financial information, and other required data that are available in the files of the County.

15.0 **Termination of Agreement**

15.1 This Agreement may be terminated by the Consultant upon thirty (30) days prior written notice to the County in the event of substantial failure by the County to perform in accordance with the terms of the Agreement through no fault of the Consultant.

15.2 This Agreement may be terminated by the County with or without cause immediately upon written notice to the Consultant.

15.3 Unless the Consultant is in breach of this Agreement, the Consultant shall be paid for services rendered to the County's satisfaction through the date of termination.

15.4 After receipt of a Termination Notice, as described in this Article 15.0, and except as otherwise directed by the County, the Consultant shall:

15.4.1 Stop work on the date and to the extent specified.

15.4.2 Terminate and settle all orders and subcontracts relating to the performance of the terminated work.

DRAFT

15.4.3 Transfer all work in process, completed work, and other material related to the terminated work to the County.

15.4.4 Continue and complete all parts of the work that have not been terminated.

16.0 **Uncontrollable Forces (Force Majeure)**

16.1 Either party hereunder may be temporarily excused from performance if an Event of Force Majeure directly or indirectly causes its nonperformance. An "Event of Force Majeure" is defined as any event which results in the prevention or delay of performance by a party of its obligations under this Agreement and which is beyond the reasonable control of the nonperforming party. It includes, but is not limited to fire, flood, earthquakes, storms, lightning, epidemic, war, riot, civil disturbance, sabotage, and governmental actions. Neither party shall be excused from performance if non-performance is due to forces which are reasonably preventable, removable, or remediable and which the non-performing party could have, with the exercise of reasonable diligence, prevented, removed, or remedied prior to, during, or immediately after their occurrence. Within five (5) days after the occurrence of an Event of Force Majeure, the non-performing party shall deliver written notice to the other party describing the event in reasonably sufficient detail, along with proof of how the event has precluded the non-performing party from performing its obligations hereunder, and a good faith estimate as to the anticipated duration of the delay and the means and methods for correcting the delay. The non-performing party's obligations, so far as those obligations are affected by the Event of Force Majeure, shall be temporarily suspended during, but no longer than, the continuance of the Event of Force Majeure and for a reasonable time thereafter as may be required for the non-performing party to return to normal business operations. If excused from performing any obligations under this Agreement due to the occurrence of an Event of Force Majeure, the non-performing party shall promptly, diligently, and in good faith take all reasonable action required for it to be able to commence or resume performance of its obligations under this Agreement. During any such time period, the non-performing party shall keep the other party duly notified of all such actions required for it to be able to commence or resume performance of its obligations under this Agreement.

17.0 **Governing Law and Venue**

DRAFT

17.1 This Agreement shall be governed in all respects by the laws of the State of Florida and any litigation with respect thereto shall be brought only in the courts of Polk County, Florida or the United States District Court, Middle District of Florida located in Hillsborough County, Florida. Each party shall be responsible for its own attorneys' fee and other legal costs and expenses.

18.0 **Non-Discrimination**

18.1 The Consultant warrants and represents that all of its employees are treated equally during employment without regard to race, color, religion, gender, age or national origin.

19.0 **Waiver**

19.1 A waiver by either County or Consultant of any breach of this Agreement shall not be binding upon the waiving party unless such waiver is in writing. In the event of a written waiver, such a waiver shall not affect the waiving party's rights with respect to any other or further breach. The making or acceptance of a payment by either party with knowledge of the existence of a default or breach shall not operate or be construed to operate as a waiver of any subsequent default or breach.

20.0 **Severability**

20.1 The invalidity, illegality, or unenforceability of any provision of this Agreement, or the occurrence of any event rendering any portion or provision of this Agreement void, shall in no way affect the validity or enforceability of any other portion or provision of the Agreement.

20.2 Any void provision shall be deemed severed from the Agreement and the balance of the Agreement shall be construed and enforced as if the Agreement did not contain the particular portion or provision held to be void.

20.3 The parties further agree to reform the Agreement to replace any stricken provision with a valid provision that comes as close as possible to the intent of the stricken provision.

20.4 The provisions of this section shall not prevent the entire Agreement from being void should a provision which is of the essence of the Agreement be determined to be void.

21.0 **Entirety of Agreement**

21.1 The County and the Consultant agree that this Agreement sets forth the entire Agreement between the parties, and that there are no promises or understandings other than those stated

DRAFT

herein.

21.2 This Agreement supersedes all prior agreements, contracts, proposals, representations, negotiations, letters or other communications between the County and Consultant pertaining to the Services, whether written or oral.

21.3 None of the provisions, terms and conditions contained in this Agreement may be added to, modified, superseded or otherwise altered except by written instrument executed by the parties hereto.

22.0 **Modification**

22.1 This Agreement may not be modified unless such modifications are evidenced in writing signed by both County and Consultant. Such modifications shall be in the form of a written Amendment executed by both parties.

23.0 **Successors and Assigns**

23.1 County and Consultant each binds itself and its partners, successors, permitted assigns, and legal representatives to the other party to this Agreement and to the partners, successors, executors, administrators, permitted assigns, and legal representatives of such other party.

23.2 Consultant shall not assign this Agreement without the express written approval of the County by executed amendment, which approval may be withheld in the County's sole discretion.

23.3 In the event of a merger, the surviving corporation shall be substituted for the contracting party to this agreement and such substitution shall be affirmed by the County by executed amendment.

24.0 **Contingent Fees**

24.1 The Consultant warrants that it has not employed or retained any company or person, other than a bona fide employee working solely for the Consultant to solicit or secure this Agreement and that it has not paid or agreed to pay any person, company, corporation, individual or firm, other than bona fide employee working solely for the Consultant, any fee, commission, percentage, gift or any other consideration contingent upon or resulting from the award or making of this Agreement.

DRAFT

25.0 **Truth-In-Negotiation Certificate**

25.1 Execution of this Agreement by the Consultant shall act as the execution of a Truth-in-Negotiation certificate certifying that the wage rates and costs used to determine the compensation provided for in this Agreement are accurate, complete, and current as of the Effective Date of this Agreement.

25.2 The said rates and costs shall be adjusted to exclude any significant sums should the County determine that the rates and costs were increased due to inaccurate, incomplete or noncurrent wage rates or due to inaccurate representations of fees paid to outside consultants. The County shall exercise its rights under this "Certificate" within one (1) year following payment.

26.0 **Ownership of Documents**

26.1 Consultant shall be required to cooperate with other consultants relative to providing information requested in a timely manner and in the specified form. Any and all documents, records, disks, original drawings, or other information shall become the property of the County for its use and/or distribution as may be deemed appropriate by the County. Consultant is not liable for any damages, injury or costs associated with the County's use or distribution of these documents for purposes other than those originally intended by Consultant.

27.0 **Access and Audits**

27.1 Consultant shall maintain adequate records to justify all charges and costs incurred in performing the work for at least three (3) years after completion of this Agreement. The County shall have access to such books, records, and documents as required in this section for the purpose of inspection or audit during normal business hours at the Consultant's place of business.

27.2 Misrepresentations of billable time or reimbursable expenses as determined by the Auditor to the Polk County Board of County Commissioners shall result in the recovery of any resulting overpayments. The County's cost of recovery shall be the sole expense of the Consultant, including accounting and legal fees, court costs and administrative expenses.

27.3 Intentional misrepresentations of billable hours and reimbursable expenses will be criminally prosecuted to the fullest extent of the law.

DRAFT

27.4 All invoices submitted are subject to audit and demand for refund of overpayment up to three (3) years following completion of all services related to this Agreement.

28.0 **Notice**

28.1 Any notice, demand, communication, or request required or permitted hereunder shall be in writing and delivered in person or sent by Federal-Express or by Certified Mail, postage prepaid as follows:

As to County: Roads & Drainage
P.O. Box 9005
Bartow, FL 33830
Attention: Director

As to Consultant:

28.2 Notices shall be effective when received at the addresses as specified above. Changes in the respective addresses to which such notice is to be directed may be made from time to time by either party by written notice to the other party. Facsimile transmission is acceptable notice effective when received, however, facsimile transmissions received (i.e.; printed) after 5:00 p.m., or on weekends or holidays, will be deemed received on the next business day. The original of the notice must additionally be mailed as required herein.

28.3 Nothing contained in this Article shall be construed to restrict the transmission of routine communications between representatives of Consultant and County.

29.0 **Service of Process**

As to County: County Attorney
County Administration Building
330 W. Church Street, 4th Floor
Bartow, Florida 33830

As to Consultant:

30.0 **Contract Administration**

DRAFT

30.1 Services of Consultant shall be under the general direction of the Roads and Drainage Division Director, or their successor, who shall act as the County's representative during the term of this Agreement.

31.0 **Key Personnel**

31.1 Consultant shall notify County in the event of key personnel changes, which might affect this Agreement. To the extent possible, notification shall be made within ten (10) days prior to changes. Consultant at County's request shall remove without consequence to the County any Subcontractor or employee of the Consultant and replace him/her with another employee having the required skill and experience. County has the right to reject proposed changes in key personnel. The following personnel shall be considered key personnel:

Name: _____

Name: _____

32.0. **Annual Appropriations**

32.1 Consultant acknowledges that the County, during any fiscal year, shall not expend money, incur any liability, or enter into any agreement which, by its terms, involves the expenditure of money in excess of the amounts budgeted as available for expenditure during such fiscal year. Any agreement, verbal or written, made in violation of this subsection is null and void, and no money may be paid on such agreement. Nothing herein contained shall prevent the making of agreements for a period exceeding one year, but any agreement so made shall be executory only for the value of the services to be rendered or agreed to be paid for in succeeding fiscal years. Accordingly, the County's performance and obligation to pay under this agreement is contingent upon annual appropriation.

33.0 **Liquidated Damages**

33.1 The parties hereto agree that liquidated damages, in the amount specified in the applicable CSA/CPO, will be assessed against the Consultant for Consultant's failure to meet the final deliverable date in the Performance Schedule in the Scope of Work, but only to the extent and in proportion to Consultant's fault in causing the delay as compared to other causes, and to the extent the Consultant is not delayed by reasons beyond Consultant's reasonable control.

34.0 Employment Eligibility Verification (E-VERIFY)

A. Unless otherwise defined herein, terms used in this Section which are defined in Section 448.095, Florida Statutes, as may be amended from time to time, shall have the meaning ascribed in said statute.

B. Pursuant to Section 448.095(2)(a), Florida Statutes, effective January 1, 2021, public employers, contractors and subcontractors shall register with and use the E-verify system in order to verify the work authorization status of all newly hired employees. The Contractor acknowledges and agrees that use of the U.S. Department of Homeland Security's E-Verify System and compliance with all other terms of this Certification and Section 448.095, Fla. Stat., is an express condition of this Agreement, and the County may treat a failure to comply as a material breach of this Agreement.

C. By entering into this Agreement, the Contractor becomes obligated to comply with the provisions of Section 448.095, Fla. Stat., "Employment Eligibility," as amended from time to time. This includes but is not limited to utilization of the E-Verify System to verify the work authorization status of all newly hired employees, and requiring all subcontractors to provide an affidavit attesting that the subcontractor does not employ, contract with, or subcontract with, an unauthorized alien. The Contractor shall maintain a copy of such affidavit for the duration of the contract. Failure to comply will lead to termination of this Agreement, or if a subcontractor knowingly violates the statute or Section 448.09(1), Fla. Stat., the subcontract must be terminated immediately. Any challenge to termination under this provision must be filed in the Tenth Judicial Circuit Court of Florida no later than 20 calendar days after the date of termination. If this Agreement is terminated for a violation of the statute by the Contractor, the Contractor may not be awarded a public contract for a period of 1 year after the date of termination. The Contractor shall be liable for any additional costs incurred by the County as a result of the termination of this Agreement. Nothing in this Section shall be construed to allow intentional discrimination of any class protected by law.

35.0 Limitation of Liability.

IN NO EVENT, SHALL THE COUNTY BE LIABLE TO THE CONSULTANT FOR INDIRECT, INCIDENTAL, CONSEQUENTIAL, SPECIAL, EXEMPLARY, OR PUNITIVE DAMAGES OF ANY KIND OR NATURE, INCLUDING LOSS OF PROFIT, WHETHER FORESEEABLE OR NOT, ARISING OUT OF OR RESULTING FROM THE NONPERFORMANCE OR BREACH OF THIS CONTRACT BY THE COUNTY WHETHER BASED IN CONTRACT, COMMON LAW, WARRANTY, TORT, STRICT LIABILITY, CONTRIBUTION, INDEMNITY OR OTHERWISE.

36.0 Scrutinized Companies and Business Operations Certification; Termination.

A. Certification(s).

(i) By its execution of this Agreement, the Vendor hereby certifies to the County that the Vendor is not on the Scrutinized Companies that Boycott Israel List, created pursuant to Section 215.4725, Florida Statutes, nor is the Vendor engaged in a boycott of Israel, nor was the Vendor on such List or engaged in such a boycott at the time it submitted its bid,

DRAFT

proposal, quote, or other form of offer, as applicable, to the County with respect to this Agreement.

(ii) Additionally, if the value of the goods or services acquired under this Agreement are greater than or equal to One Million Dollars ($1,000,000), then the Vendor further certifies to the County as follows:

(a) the Vendor is not on the Scrutinized Companies with Activities in Sudan List, created pursuant to Section 215.473, Florida Statutes; and

(b) the Vendor is not on the Scrutinized Companies with Activities in the Iran Petroleum Energy Sector List, created pursuant to Section 215.473, Florida Statutes; and

(c) the Vendor is not engaged in business operations (as that term is defined in Florida Statutes, Section 287.135) in Cuba or Syria; and

(d) the Vendor was not on any of the Lists referenced in this subsection A(ii), nor engaged in business operations in Cuba or Syria when it submitted its proposal to the County concerning the subject of this Agreement.

(iii) The Vendor hereby acknowledges that it is fully aware of the penalties that may be imposed upon the Vendor for submitting a false certification to the County regarding the foregoing matters.

B. Termination. In addition to any other termination rights stated herein, the County may immediately terminate this Agreement upon the occurrence of any of the following events:

(i) The Vendor is found to have submitted a false certification to the County with respect to any of the matters set forth in subsection A(i) above, or the Vendor is found to have been placed on the Scrutinized Companies that Boycott Israel List or is engaged in a boycott of Israel.

(ii) The Vendor is found to have submitted a false certification to the County with respect to any of the matters set forth in subsection A(ii) above, or the Vendor is found to have been placed on the Scrutinized Companies with Activities in Sudan List, or the Scrutinized Companies with Activities in the Iran Petroleum Energy Sector List, or has been engaged in business operations in Cuba or Syria, and the value of the goods or services acquired under this Agreement are greater than or equal to One Million Dollars ($1,000,000).

37. No Construction Against Drafter

37.1 The Parties acknowledge that this Agreement and all the terms and conditions contained herein have been fully reviewed and negotiated by the Parties. Accordingly, any rule of construction to the effect that ambiguities are to be resolved against the drafting party shall not apply in interpreting this Agreement.

38. Unauthorized Alien(s)

The Consultant shall not employ or utilize unauthorized aliens in the performance of the Services provided pursuant to this Agreement. The County shall consider the employment or utilization of unauthorized aliens a violation of Section 274A(e) of the Immigration and Naturalization Act (8 U.S.C.

1324a) and a cause for the County's unilateral termination of this Agreement. When delivering executed counterparts of this Agreement to the County, the Consultant shall also deliver a completed and executed counterpart of the attached "AFFIDAVIT CERTIFICATION IMMIGRATION LAWS" form.

(THE REMAINDER OF THE PAGE LEFT INTENTIONALLY BLANK)

POLK COUNTY, A POLITICAL SUBDIVISION OF THE STATE OF FLORIDA

ADDENDUM #2
RFP 23-328, Professional Geotechnical Services and Construction Material Testing and Inspection

This addendum is issued to clarify, add to, revise and/or delete items of the RFP Documents for this work. This Addendum is a part of the RFP Documents and acknowledgment of its receipt should be noted on the Addendum.

Contained within this addendum: Proposals submitted and shortlisted along with the evaluation criteria for the last solicitation (RFP 18-305) added to the County's FTP Site.

To receive a copy of the Proposals submitted and shortlisted and evaluation criteria for RFP 18-305, please go the following FTP site: https://ftp3.polk-county.net, you will be prompted for a User ID and Password. The User ID is *procurevendor* and the password is *solicitation.* After you have logged in to the FTP site, double click on the file folder "**RFP 23-328 Professional Geotechnical Services and Construction Material Testing and Inspection.zip**", select "Open" or "Save As" to download the Proposals submitted and shortlisted and evaluation criteria for RFP 18-305. If you need assistance accessing this website due to ADA or any other reason, please email Michael Guerrero at michaelguerrero@polk-county.net.

ADDENDUM #2

RFP 23-328, Professional Geotechnical Services and Construction Material Testing and Inspection

Question 1: We are looking to acquire copies of all winning proposals (and evaluation metrics if possible) related to RFP 18-305 Professional Geotech Services & Construction Materials Testing. If there was a shortlist of firms before the final award announcement, we would appreciate those proposals as well.

Answer: Proposals submitted and shortlisted along with the evaluation criteria has been added to the County's FTP Site. The evaluation criteria and the Proposers response to the criteria can be found in the Proposer's response.

To receive a copy of the Proposals submitted and shortlisted and evaluation criteria for RFP 18-305, please go the following FTP site: https://ftp3.polk-county.net, you will be prompted for a User ID and Password. The User ID is *procurevendor* and the password is *solicitation.* After you have logged in to the FTP site, double click on the file folder "**RFP 23-328 Professional Geotechnical Services and Construction Material Testing and Inspection**.**zip**", select "Open" or "Save As" to download the Proposals submitted and shortlisted and evaluation criteria for RFP 18-305. If you need assistance accessing this website due to ADA or any other reason, please email Michael Guerrero at michaelguerrero@polk-county.net.

RE: Executive Summary (Tab 1)

Request For Proposal 23-328

Professional Geotechnical Services and Construction Material Testing and Inspection

Dear Evaluation Committee Members,

Madrid Engineering Group d/b/a Madrid CPWG (Madrid), an award winning, local (Bartow-based), geotechnical & CMT/CEI specialty engineering consultant, is enthusiastic about the opportunity to propose for RFP No. 23-328, Professional Geotechnical Services and Construction Material Testing and Inspection. Our extremely well qualified staff has a long and successful history providing these services to numerous public sector clients throughout Florida (Polk County, City of Bartow, City of Lakeland, City of Plant City, City of Haines City, Orange County Public Schools, etc., etc.) with special emphasis on Polk County. Our company started as Madrid Engineering Group over 30 years ago and we've been in Polk County since Year Two. Our corporate office is located at 2030 State Road 60 East, in Bartow, Florida, 33830 and we so happen to specialize in these specific services that we offer to our fine County.

As you read through our proposal, you will find that we meet and exceed expectations and requirements for every scoring factor you have in this RFP. Our staff has completed over 10,000 projects throughout Florida, but principally in Polk County. More specifically, we have previously worked on numerous Polk County projects (several directly under our current and recent contracts with Polk County and others as a subcontractor to other engineering firms under their contracts with the County). Most of our projects in Polk County have included investigating soil conditions and providing foundation and site development recommendations along with construction recommendations and associated testing and inspection services. We were founded as a specialty Geotechnical Engineering company, which remains our primary area of expertise, but our company has grown right along with Polk County as we have significantly expanded our capabilities over the past decade to offer Structural Engineering, Environmental Services and Construction Materials Testing and Inspection Services, and have more recently as Madrid CPWG added other engineering services.

Some recent projects where Madrid provided geotechnical engineering services for the County include Johnson Avenue emergency sinkhole response and remediation efforts as well as a subsidence investigation at Power Line Road, geotechnical and materials testing services for CRUSA water distribution facility, geotechnical and materials testing services for multiple fire rescue stations, sheriff's facilities and roads and drainage facility expansions, pavement evaluations for various parking lots and roadways, bridge and retaining wall foundations, and multiple projects at the North-Central Landfill, among others. Details for some of these projects are included later in this RFP with their representative evaluations.

Madrid Engineering Group, Inc. is an innovative, energetic, responsive, knowledgeable, local firm with deep resources. We employ just under 50 full-time staff out of our headquarters in Bartow, we have in-house certified soils and materials laboratories and have our own drilling (SPT)/coring/CPT rigs as well as both a barge and pontoon boat for working on water. You will find us listed as a specialty subconsultant to numerous other larger civil firms that may also work for Polk County on other contracts; however, if you have a need for our specialty services alone as a result of the tremendous current growth and future potential that Polk County has, you can work directly with us as we have been doing for many years. We believe that we have been providing excellent service on your projects (as shown on the attached surveys included herein) and we will continue to do so! We look forward to working with you to solve infrastructure and engineering problems – the more difficult, the more rewarding the outcome – and to carefully monitor the construction methods, materials, and personnel to assure conformance to the design.

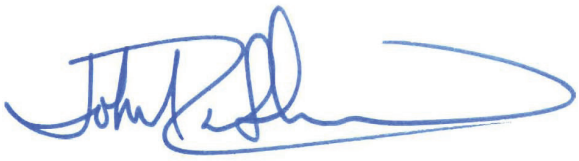
EXECUTIVE SUMMARY

To specifically address Tab 1 Executive Summary from the RFP document:

a) Madrid Engineering Group, Inc., 2030 State Road 60 East, Bartow, FL 33830.
b) Primary Contact Person for this RFP: John E. Delashaw, P.E. (Contract Manager), 863-533-9007, John.Delashaw@madridcpwg.com
c) 32 years in business
d) Currently 47 full time employees at our Bartow facility (40 additional staff at our Tampa facility)
e) See attached documentation regarding incorporation.
f) See attached documentation regarding applicable certifications.

Sincerely,

Madrid Engineering Group, Inc.



John Delashaw, PE

Principal, Madrid Engineering Group

AFFIDAVIT CERTIFICATION IMMIGRATION LAWS

SOLICITATION NO.: RFP 23-328, PROFESSIONAL GEOTECHNICAL SERVICES and CONSTRUCTION MATERIAL TESTING and INSPECTION

POLK COUNTY WILL NOT INTENTIONALLY AWARD COUNTY CONTRACTS TO ANY CONTRACTOR WHO KNOWINGLY EMPLOYS UNAUTHORIZED ALIEN WORKERS, CONSTITUTING A VIOLATION OF THE EMPLOYMENT PROVISIONS CONTAINED IN 8 U.S.C. SECTION 1324 a(e) {SECTION 274A(e) OF THE IMMIGRATION AND NATIONALITY ACT ("INA").

POLK COUNTY MAY CONSIDER THE EMPLOYMENT BY ANY CONTRACTOR OF UNAUTHORIZED ALIENS A VIOLATION OF SECTION 274A(e) OF THE INA. SUCH VIOLATION BY THE RECIPIENT OF THE EMPLOYMENT PROVISIONS CONTAINED IN SECTION 274A(e) OF THE INA SHALL BE GROUNDS FOR UNILATERAL CANCELLATION OF THE CONTRACT BY POLK COUNTY.

BIDDER ATTESTS THAT THEY ARE FULLY COMPLIANT WITH ALL APPLICABLE IMMIGRATION LAWS (SPECIFICALLY TO THE 1986 IMMIGRATION ACT AND SUBSEQUENT AMENDMENTS).

TAB 2

Approach to the Project

APPROACH TO THE PROJECT

Madrid's experience over the past 30 years of Polk County's diverse growth provides the basis for a deep understanding of the County's needs, the ability to work with County staff, and ability to "hit the ground running" on any assignment. Madrid's structure is such that we have a Contract Manager, a Principal-In-Charge, a QA/QC Manager and Service Area Leads for the primary service areas to be supported by this Contract as detailed herein. It is possible that a firm principal or Contract Manager may serve more than one role depending on the complexity of a particular assignment. It is important to note that our repeated awards for being one of Florida's "Best Places to Work" has enabled us to retain key staff for many years which provides confidence that key team members will be maintained for the duration of the Contract.

Our project approach is designed to first gain an understanding of the overall objectives and potential obstacles of an assignment; then to provide the staff and equipment necessary to investigate and gather engineering data; and finally, to design and effectively communicate the appropriate solution(s) in a cost-effective manner. Once we have clearly identified the objective(s) for each project, including scope, costs, deliverables and deadlines, we will work with the County to define a preferred method of communication, either by face-to-face meetings, phone calls, emails, online meetings, or a combination thereof. Our Contract Manager will serve as the single point of communication at Madrid related to Contract responsibilities and requirements. For each particular Task Assignment, we also assign a single point of contact for that project, typically the Project Manager, to facilitate seamless interaction between County and Madrid staff. We also encourage open communication where, if necessary, County staff may elect to contact key Madrid staff, whether more or less senior than the primary contact person, for a particular assignment to make sure that each project progresses in a timely manner.

The foundation for Madrid's strength is the reliability of our team with respect to quality, value engineering, in-house services and professionalism from start to finish. Value engineering means that we will identify multiple solutions for each project, and evaluate the pros and cons for each solution, and recommend the highest value solution to the County. We can do this because of our broad understanding of alternative geotechnical methods and past implementation of innovative solutions that are available to our geotechnical engineers, such as mechanically stabilized soils and embankments, soil improvement methods such as cementitious or chemical grouting, deep dynamic compaction, use of lightweight substitutes for soil (Geofoam), geogrids and geotextiles, erosion control products, etc. For some projects, construction management, materials testing, and/or construction engineering inspection (CEI) services are required, and our fully certified in-house staff is highly experienced in each of these areas. Our project approach requires working with the Contractor(s) as an extension of the County's staff and as their representative to provide timely services and solve problems in the field, and ensure projects are delivered on time, on budget and with all QA/QC requirements met. Effective communication and insistence on quality are key elements to delivering successful projects, as explained further below.

GEOTECHNICAL ENGINEERING: Madrid is a full-service geotechnical engineering firm. Madrid will complete any and all geotechnical engineering requests for the scope items envisioned under this RFP. John Delashaw, PE will serve as Madrid's overall Contract Manager but also as an important technical resource for all geotechnical assignments. Andre Kniazeffl, PE is the Geotechnical Services Area Lead and as task assignments are received Mr. Kniazeff will either serve as or assign a Project Manager (PM) for each assignment, based on the challenges of the job versus the experience, technical capabilities and availability of the various PM's. Our project managers include professional engineers and geologists, all licensed in the State of Florida. Although each assignment will have a specific PM readily available to communicate with task personnel, County staff are encouraged to communicate

directly with Mr. Delashaw if a single point of contact is preferred. Madrid's management structure as described above ensures the accessibility to key personnel, which results in speed, efficiency, and seamless transitions between project milestones.

Madrid has the personnel, equipment, expertise, location and internal quality control procedures to ensure all of the services listed in RFP 23-328 are met with the reporting and recommendations required for the completion of a successful project. Our office, field and laboratory personnel are licensed and certified as appropriate; this along with their added multiple years of experience and "can-do" attitude provides the necessary components for a successful project. Madrid's personnel have gained extensive experience evaluating subsurface site conditions and reliably quantifying soil and rock behavior particular to the Polk County geographic area, including expertise in dealing with mined lands, wetlands, organic deposits, sandy soils, and sinkholes. We are experienced in designing and implementing a wide range of field investigation programs from roads, bridges, utilities, buildings and other infrastructure projects. Madrid has an internal project scheduling and task management methodology that allows the PM to break down projects into small tasks and assign specific schedules and budgets to the employee completing that task. This allows the employee the ability to ensure their particular task is completed within the specified budget and schedule which helps keep the overall project on track as well.

CONSTRUCTION MATERIALS TESTING (CMT) AND INSPECTION: Madrid will provide ACI-, CTQP-, and CMEC-certified, and FDOT-approved Construction Inspection personnel and materials testing services for asphalt, aggregates, concrete, soils, deep foundations, and geotextiles. Similar to the structure for geotechnical assignments, Jason McSwain is the Construction Services Area Lead and as task assignments are received Mr. McSwain will either serve as or assign a Project Manager (PM) for each assignment, based on the challenges of the job versus the experience, technical capabilities and availability of the various PM's and technicians. Madrid employs unique solutions, including a specialized and versatile, truck-mounted, coring rig developed to quickly obtain asphalt or concrete paving core samples. Madrid's field and laboratory testing personnel submit all of their reports to a central location for QA/QC and also for checking against submitted timesheets to ensure that all of the project records are both correct and consistent across the various reports. This asset gives the County access to a department capable of delivering a complete set of construction materials testing and CEI services at a single point of contact. Madrid uses its own forms for the various services and testing we perform but, when required, Madrid staff are also used to using specific client required reporting forms if needed. Madrid's field and laboratory personnel are also experienced at working with, scheduling, coordinating testing programs, and communicating with commercial contractors and has working relationships with many of the local contractors. We can staff projects on an on-call basis, facilitating smaller jobs, as well as providing full-time inspectors, quality control managers, and senior projects engineers, for larger projects. Madrid understands that on-call inspection and testing services require prompt response times and flexibility to meet the demanding schedules of today's construction projects.

QUALITY ASSURANCE / QUALITY CONTROL (QA/QC): We understand that Quality Control is very important to our clients. The Chief Executive Officer of Madrid, Mr. Steve Tarte, will be in responsible charge of Quality Assurance/Quality Control. Our QA/QC process begins with developing a clear understanding of the scope of work, client expectations, and required level of effort. QA/QC must be performed throughout the project and when performed effectively, early, and continually throughout a project it results in good decisions being made at the right time with an overall increase in efficiency, quality, and client satisfaction. When necessary by specific project requirements, we also adhere to project specific Quality Control Plans as provided by various clients and/or developed by Madrid.

APPROACH TO THE PROJECT

Quality Assurance Processes: Madrid takes great pride in the efforts taken in order to ensure the quality of all of the professional services that we provide. We provide broad-based internal awareness training for all staff working on our diverse project types so that, no matter what their role, our staff understand the various aspects, goals, and work efforts that are required to produce these important services to our clients. Because we work for several different client types, including directly for attorneys (we do many forensic investigations and regularly provide expert testimony), we have a very well-rounded understanding of the information that is required and how the information is used after we issue our reports. Since the founding of our firm, Madrid has strictly adhered to quality principles that govern how we obtain materials and test them in our laboratories, but through our experience gained over the years, we have instituted a very strong quality assurance review process to assure that our reports (the final work product) were not only technically correct but have the highest quality.

INNOVATIVE APPROACHES: We believe that Madrid is one of the most innovative geotechnical companies in Florida. Innovation is a core competency of our company, in part due to our philosophy of "Appropriate Design" (meaning that geotechnical design services should be tailored to the project needs and be appropriate to the budget available while remaining technically sound). In order to accomplish this, we require our engineers to be knowledgeable of all major soil improvement methods. This includes innovative geotechnical solutions such as incorporating the use of geotextiles and geogrid reinforcement, use of wick drains, stone columns, vibro-flotation, CSV columns, helical anchors, excavation and replacement, lightweight fills, deep dynamic compaction, monitored surcharges, and other ground improvement methods. Two additional methods, chemical grouting and phosphocrete™, are means of chemical stabilization of soft/loose soils. Madrid is also the authorized technical resource for CONSOLID soil stabilization additive for the United States. CONSOLID, available for many years in other countries, involves mixing dry and wet components with soil and when compacted in place causes a chemical reaction that results in a very high increase in bearing value and nearly eliminates soil permeability. The improved hydrophobic soil makes a premium base material and can also be used as a running surface for unpaved roads. A few trial projects have been completed on Polk County roads.

Madrid developed Phosphocrete™, which is a proprietary chemical mix design invented by Larry Madrid. Phosphocrete™ promotes a rapid reduction in moisture content in very soft clays, thereby immediately stiffening them while also providing long-term pozzolanic reactions that increase cementation strength and reduces compressibility over time. This translates to a unique and cost effective approach for earthwork preparation. Another specialty Madrid offers is the design and construction inspection of lightweight fills including Geo-foam and permeable low density cellular concrete (PLDCC) as soil improvement methods. Geo-foam is a lightweight soil replacement material consisting of expanded polystyrene (EPS) blocks that weigh just 1 to 2 pounds per cubic foot (PCF) to replace soils that weigh between 100 - 120 PCF, thereby unloading the foundation soils. If the underlying, highly compressible soils are unloaded, they cannot and will not experience additional compression and consolidation. Madrid has employed both of these materials in multiple Polk County projects. Two notable and award-winning projects include using Geo-foam on the SR 37 sewer main project in Mulberry and using PLDCC for a segment of West Lake Eloise Drive in Winter Haven.

TAB 3

Experience, Expertise, Personnel and Technical Resources

MADRID ENGINEERING GROUP

cpwg
AT THE READY.

Assigned Personnel and Experience

Madrid has assembled a highly qualified, highly experienced team of professionals and technical support staff to provide the services required for this RFQ. Below we present a brief summary and ***role*** for the key staff selected for this project (those staff whose role is in ***blue text*** have resumes included herein). We also provide estimated base level allocation for this Continuing Services Contract but we also understand that these kinds of contracts will often have peaks and valleys of demand; our team and resources are set up such that we can accommodate the flexibility needed to apply sufficient resources during those peak periods as may be needed. We note that, particularly for field inspectors, often your needs may change quickly from 0 to 100% as projects arise and we recognize that there will be periods where 100% allocation of these staff will be required (please consider this when reviewing approximate allocation levels provided). We have the available resources to shift our numerous inspectors as needed to free up as needed for 100% allocation.

Senior Management Staff

Steve Tarte – Madrid Chief Executive Officer

Mr. Tarte has more than 20 years of managerial experience in the consulting engineering field and over a wide range of projects. He has developed and managed projects with municipal, state and federal agencies, as well as private corporations. As Madrid's Chief Executive Officer, Mr. Tarte will provide a ***Senior QA/QC*** role to this contract and provide recommendations and work product support as needed throughout the contract duration. Mr. Tarte has managed projects and personnel in over fifteen states with public agencies such as The Army Corps of Engineers Districts (St. Paul, St. Louis, Rock Island, Vicksburg, New Orleans, Jacksonville, and the Waterways Experiment Station), the Fish and Wildlife Service, National Park Service and the US Geological Survey. Clients in state agencies include the Florida Department of Environmental Protection, the South Florida Water Management District, the St. Johns River Water Management District, the Illinois Department of Transportation, the Chicago Metropolitan Reclamation District, the Florida Department of Transportation and the State Engineers Office of New Mexico. Municipal agencies include The City of Tallahassee, St. Pete Beach, Orlando and Maitland, Hillsborough, Orange, Seminole, Leon and Lake Counties. Mr. Tarte has also participated in numerous Value Engineering exercises. Mr. Tarte would be able to devote about 15% of his time to the needs of Polk County.

John Delashaw, PE – Principal Engineer

Mr. Delashaw currently serves as a Principal of the firm, overseeing the four GeoSciences Divisions (Geo-Engineering, CMT/CEI, Drilling and Forensics) that operate out of the Bartow and is the project principal and/or technical lead for many geotechnical projects performed by Madrid. Mr. Delashaw will be the overall ***Contract Manager*** and ***Lead Technical Advisor*** for geotechnical projects as well as for CMT services as needed throughout this contract. His primary experience includes project management and technical direction of geotechnical engineering projects, geotechnical field investigations, and analyses for numerous public and private sector clients. He is responsible for staffing and resource management and reviewing engineering evaluations for geotechnical investigations, including subsidence investigations. He has provided expert witness testimony on forensic projects as needed and has been in responsible charge of numerous soil stabilization projects. Much of his over 33 years of geotechnical engineering experience has been gained from working on projects in the areas of: dam design and evaluation; shallow and deep foundation systems; earthworks and site development; soil improvement techniques; sinkhole investigations, evaluation and stabilization; roadway soil surveys; pavement design; and various pipeline projects, including the use of trenchless construction technologies. Other project experience includes management of Quality Assurance/Quality Control activities, resolution of construction issues associated with geotechnical-related challenges, civil and stormwater design, and surface water hydrology. Predominant project experience includes projects throughout the state of Florida but he has worked on projects in Guam, Puerto Rico, Hawaii, California, Utah, and Mississippi. Mr. Delashaw would be able to devote 20% of his time to the needs of Polk County.

Geotechnical Services Staff

Andre Kniazeff, PE – Chief Geotechnical Engineer

Mr. Kniazeff's primary experience includes project management and technical direction of geotechnical engineering projects, geotechnical field investigations, materials testing, and environmental projects for numerous public and private sector clients. Mr. Kniazeff will serve as ***Geotechnical Service Area Lead*** for this contract. Much of his geotechnical engineering experience was gained from planning and coordinating subsurface explorations and laboratory testing programs, deep and shallow foundation system design, roadway design recommendations, earthwork projects and sinkhole investigations. Mr. Kniazeff excels at maintaining project budgets, timelines, overseeing project managers and field crews and client communications. Additional project experience includes soil improvement techniques, design of retaining walls including MSE walls, pipelines, new commercial, residential and industrial projects, stormwater pond recommendations and monitoring well installations. Project experience includes projects throughout Florida. Mr. Kniazeff would be able to devote 35% of his time to the needs of Polk County.

Paul Passe, PE – Senior Geotechnical Engineer

Mr. Passe has 40 years of experience working on roadway and bridge projects with the Florida Department of Transportation. He currently serves as the Senior Geotechnical Engineer/Project Manager for transportation projects at Madrid. Mr. Passe will serve as a ***Geotechnical Project Manager*** for this contract, primarily to support transportation-based projects. He has extensive experience and knowledge of FDOT Specifications and guidelines and spent 13 years of his career working directly for the FDOT; four years as District Geotechnical Engineer for District 5, and another eight years as the State Geotechnical Engineer, acting as Senior Reviewer and troubleshooter for projects statewide as well as providing guidance and leadership for geotechnical policy and procedures for the FDOT. He has served as the Geotechnical Engineer of Record (EOR) on prominent projects throughout the State and his experience encompasses all aspects in the field of geotechnical engineering. Mr. Passe's specific areas of expertise include soils analysis, shallow and deep foundation design, MSE wall design, lateral capacity analysis, roadway design, slope stability analysis, settlement and consolidation analysis, Rock Quality Designation (RQD) and Design Side Shear Resistance of Limestone. Mr. Passe would be able to devote 25% of his time to the needs of Polk County.

Melkin Fructuoso, Meng., MCs., EI – Geotechnical Engineer

Melkin Fructuoso currently has 15 years of experience in the field of geotechnical engineering. Mr. Fructuoso will serve as a ***Project Engineer*** and Project Manager as needed for this contract. Much of his geotechnical engineering experience has been gained from working on projects in the areas of: shallow and deep foundation systems, earthworks and site development, soil improvement techniques, specialty soil sampling and testing, and sinkhole evaluation and remediation. Mr. Fructuoso is currently pursuing his PhD in Geotechnical Engineering from the University of Central Florida and is also an adjunct professor of geotechnical engineering for the Autonomous University of Santa Domingo. Mr. Fructuoso would be able to devote 50% of his time to the needs of Polk County.

Brett Arenas – Drilling Services Manager

During his 37-year career, Mr. Arenas has worked on many challenging geotechnical drilling projects throughout the country as well as in the state of Florida. Mr. Arenas will serve as ***Geotechnical Field Operations Manager*** for this contract. Mr. Arenas currently serves as the Madrid CPWG Drilling department head and leads most of the company's drilling projects. Much of his geotechnical and environmental drilling experience comes from performing geotechnical field investigation and testing for site development, evaluation, stabilization, roadway, bridges, and other infrastructure projects, as well as environmental impact studies for plume delineation and contaminant cleanup through the installation of water wells and exploratory borings. Mr. Arenas has worked on FDOT and other agency projects throughout Florida, drilling from barges, through bridge decks and difficult access projects. Brett Arenas has established an important role with Madrid Engineering because of his experience in the geotechnical industry and, by sharing his knowledge, has trained our drillers so that Madrid can continue to offer superior quality of field testing that has been given to our clients throughout the years. Mr. Arenas would be able to devote 20% of his time to the needs of Polk County.

Michael Graves, PG, CPG – Senior Geologist / Senior Project Manager

Much of Mr. Graves's 40-year work experience includes completing hydrogeologic assessments throughout the State of Florida, preparing and implementing Ground Water Monitoring Programs, and environmental audits, working on projects in the areas of petroleum-related ground water quality assessments and remediation projects, hazardous and non-hazardous waste management, environmental site assessments, geophysical studies and mineral exploration/economic geology. He will serve as the ***Environmental Services Area Lead*** for Madrid if needed.

Construction Material Testing & Inspection Services Staff

Jason McSwain – Construction Services / CEI Manager – Senior Project Manager

Mr. McSwain has 16 years of experience with Madrid and has managed a myriad of both geotechnical engineering projects and construction inspection and testing projects throughout his years with Madrid. Mr. McSwain will serve as ***Construction Material Testing and Inspection Service Area Lead*** and provide technical direction for Construction Services assignments under this contract. He supervises staff and evaluates budgets and proposals for testing and inspection work for FDOT, other government clients, and private enterprise; and has worked directly with Polk County staff for many years. In addition to materials (asphalt, concrete, soil, limerock, etc.) testing and evaluation, he works with our engineering staff for pile driving inspection and drilled shaft inspection services. He also maintains extensive experience in plans preparation, field and laboratory testing assignments, soil boring characterizations, contract management, resource allocation and a significant variety of computer software including Computer Aided Design (CAD) programs. His duties also include marketing and business development as well as project management for FDOT contracts. His staff of well-certified and highly experienced inspectors and technicians are well-trained in monitoring construction activities of the contractor to assure compliance and construction quality standards. These inspectors and technicians are prequalified with the FDOT for various tasks (see supplemental table below). Mr. McSwain would be able to devote about 25% of his time to the needs of Polk County.

Lennon Jordan, PE – Chief Structural Engineer / Senior Project Manager

Mr. Jordan has extensive experience in the fields of civil and structural engineering, analysis and design, construction administration, and quality assurance. He will serve as ***Structural Service Area Lead*** and ***Threshold Inspector*** as needed for this contract. Mr. Jordan's primary experience includes project management, program management and technical direction of multi-disciplined engineering projects for numerous public and private sector clients. He is also a Certified Special Inspector (threshold inspector) and a Certified General Contractor (Contractor's license status inactive but he maintains current continuing education so that license can be activated at any time). Much of his significant engineering experience has been gained from directing civil engineering and planning projects that include transportation corridor studies, roadway design, bridge design, site design, structural design, park and recreation facilities, water resources, utility systems, landfills, and similar projects. Other project experience includes construction management, construction engineering and inspection (CEI), forensic investigations, eminent domain, construction claims, product liability, design errors and omissions, and others. Predominant project experience includes projects throughout the state of Florida but his work extends to South Korea, Puerto Rico, New Mexico, Montana, Louisiana, New Jersey, West Virginia, Virgin Islands, and other project locations. Mr. Jordan would be able to devote about 20% of his time to the needs of Polk County.

David Shin, EI – MAT Engineer Intern

Mr. Shin has been serving as an engineering intern at Madrid since early 2021 and will serve as an ***MAT Engineering Intern*** and Assistant Project Manager as needed for this contract. His primary areas of exposure/experience include project management assistance, geotechnical field investigations, and geotechnical engineering analysis. Through his education and professional experience, he has experience in numerous technical software such as AutoCAD and ArcGIS and is continuing to develop his skills in numerous specialty software including gINT and GeoStudio. Much of his geotechnical engineering experience has been gained from working on projects in the areas of shallow and deep foundation systems, earthworks and site development, roadway soils, pavement evaluations and soil improvement techniques. He also has experience with conducting technical research, writing technical reports, and soils lab testing. He assists Madrid CPWG's project managers with design/calculation support, proposals, and field/laboratory testing projects.

Andy Acosta – Lab Manager

Mr. Acosta has over 17 years of experience working in the DOT Construction Materials Testing industry. Andy has extensive laboratory testing and asphalt plant experience, and will serve as the ***Laboratory Manager*** and will assist with the CMT Services as needed for this contract. His responsibilities include managing day to day operations of the geotechnical soils laboratory and materials testing facility as well as serving as a Senior Inspector when those peak need periods arise. He currently serves as the Laboratory Manager for Madrid, as well as for Madrid's asphalt production facility inspection group. He has a thorough understanding of all County, FDOT, Turnpike, and FAA specifications and construction procedures and maintains a great working relationship with those agencies, as well as Central-Florida municipalities. Mr. Acosta would be able to devote about 20% of his time to the needs of Polk County.

Cecil Allred – Senior CEI Inspector / Roadway & Utility Installation Inspector

Mr. Allred has more than 13 years of experience with inspection and testing services for roadway and infrastructure projects; 9 of which has been with Madrid. He is a highly experienced roadway inspector and is second-to-none when it comes to earthwork or asphalt placement inspection operations. He has extensive experience on many Polk County projects, including the SR-37 Gravity Sewer installation project in 2017 and the CRUSA Water Production Facility in 2018. Additional projects in which Cecil provided inspection or verification technician services include: SR555 (US 17), Bartow; Southern Wine and Spirits Facility, Lakeland; SR 70, Arcadia; SR 45 (US41) Manatee County; Veterans Expressway, Hillsborough County; SR 35 (US 98), Lakeland; and the Suncoast Parkway, New Port Richey. He has also performed numerous FAA inspections and received his Airfield Pavement Inspection certification as provided by the Florida Department of Transportation Aviation Office. Mr. Allred would be able to devote about 20 to 30% of his time to the needs of Polk County.

Anthony Brown – Senior CEI Inspector / Senior Pavement Analyst

Mr. Brown has 9 years of experience working in the FDOT CEI industry since 2014 and specializes in multiple areas of construction inspection, including: asphalt plant inspection, earthwork, concrete, asphalt paving, drilled shaft inspection, and pile driving inspection. He maintains an exemplary understanding of FDOT specifications and construction procedures and has worked directly out of the District 1 Materials Office as a consultant. He has successfully completed numerous FDOT and County projects that included sampling, testing, and reporting. Mr. Brown also has extensive laboratory testing experience including aggregate, soils, and concrete. Mr. Brown would be able to devote about 20 to 30% of his time to the needs of Polk County.

EXPERIENCE, EXPERTISE, PERSONNEL AND TECHNICAL RESOURCES

Sub-Consultants

Madrid intends to provide nearly all services required under this Contract utilizing In-House resources. The lone exception we foresee would require the use of our subconsultant, **Geoview, Inc.** for geophysical testing support (ground penetrating radar, electrical resistivity surveys, etc.) for our geotechnical investigations on an as-need basis. We added GeoView, Inc. as a specialty subcontractor to this team because of their significant expertise and experience in this field along with the consideration of the long-standing relationship we have developed with them over the past two decades of working together. In 2002, ATI established a wholly owned subsidiary named GeoView, Inc. for the purpose of providing geophysical services. ATI is certified as a minority-owned business enterprise (MBE) by the State of Florida, a disadvantaged business enterprise (DBE) by the Florida Department of Transportation, and a small disadvantaged business (SDB) by US Small Business Administration. The staff of GeoView has more than a combined 60 years of experience providing geophysical surveying services throughout the USA and Caribbean Basin. GeoView provides services to the geological, geotechnical engineering, environmental, civil engineering, construction industries and to various government agencies. The GeoView staff are experts in the use of ground penetrating radar, seismic, electromagnetics, magnetometry, resistivity and electronic utility locating equipment. Senior GeoView personnel have served as consultants on court cases involving both sinkhole evaluations and ground penetrating radar studies. GeoView is extremely qualified and always responsive to our needs; more often than not, when we call upon them it is for support services when a very fast response time is needed and because of our long term working relationship this has not been a problem.

Please see the attached resumes and projects that demonstrate our capabilities

Organizational Chart

PRINCIPAL IN CHARGE - QA/QC
Steve Tarte

CONTRACT/PROGRAM MANAGER
John Delashaw, PE

Steve Tarte

Principal in Charge

Mr. Tarte has more than 30 years of experience providing services in the consulting engineering field. He has developed and managed projects with municipal, state and federal agencies and private corporations. Mr. Tarte has managed projects in over fifteen states with public agencies such as The Army Corps of Engineers Districts (St. Paul, St. Louis, Rock Island, Vicksburg, New Orleans, Jacksonville, and the Waterways Experiment Station), the Fish and Wildlife Service, National Park Service and the US Geological Survey. Clients in state agencies include the Florida Department of Environmental Protection, the South Florida Water Management District, the St. Johns River Water Management District, the Illinois Department of Transportation, the Chicago Metropolitan Reclamation District, and the State Engineers Office, New Mexico. Municipal agencies include The City of Tallahassee, St. Pete Beach, Orlando and Maitland, Hillsborough, Orange, Seminole, Leon and Lake Counties

Years of Experience

- 33 Years

Education

Economics University of Illinois

Professional Affiliations

- Florida Stormwater Association
- Florida Native Plant Society

Awards

US Army Corps of Engineers, St. Louis District, Meritorious Service Award for outstanding efforts during the Great Mississippi River Flood of 1993

Project Experience

City of St. Pete Beach Continuing . CPWG was contracted by the City of St Pete Beach to provide Engineer of Record services for the city. Mr. Tarte served as the Principal in Charge for all continuing projects in St. Pete Beach. Our team used their experience in local government planning and comprehensive planning to prepare or review the City's comprehensive plan amendments and Evaluation and Appraisal Reports. Other skills utilized under this contract included GIS and mapping services, transportation planning, utility planning, stormwater management, pavement management, construction management, and revitalization/redevelopment planning.

Pass-a-Grille Way Phase 1 Final. Mr. Tarte served as the Principal in Charge on this major stormwater project. He assisted in the administration and permitting of stormwater elements including new sewer pipes. Several improvements were made to the existing stormwater piping system which was enlarged and expanded. New inlets were installed, and baffle boxes with tide flow preventers were designed and installed to reduce the risk of flooding in the area.

Pass-a-Grille Way Preliminary Engineering Study. Mr. Tarte served as the Principal In Charge. CPWG Conducted a preliminary engineering study reconstruction plan evaluation for Pass-a-Grille Way between Cabrillo Avenue on the north end and 19th Avenue at the south end (approximately 5,200 linear feet). Measures were taken to look into the advantage of economies of scale by repairing all the infrastructure deficiencies at the same time while minimizing the disruption of residents and visitors to this area of the island. This included investigations of the existing stormwater system, existing wastewater lines, existing reclaimed water lines, existing potable water lines, additional geotechnical investigations, associated survey and management of public involvement.

Seminole Well Abandonment. Mr. Tarte served as the Principal In Charge. CPWG provided permitting and engineering services to facilitate the abandonment of the Seminole Avenue potable water well. The well was located in a well house at the southwest corner of Seminole Street and 12th Street. CPWG prepared and submitted the well abandonment permit application to the St. Johns River Water Management District. CPWG provided the SJRWMD abandonment permit and the photos of the completed abandonment project to FDEP. CPWG assisted the City in the bidding of the construction contracts and supported the City with limited construction phase services.

John Delashaw, PE, MAT

Principal, Geotechnical Engineer

Mr. Delashaw currently serves as Vice-President and is the project principal and/or technical lead for most of the company's geotechnical projects. Much of his over 33 years of geotechnical engineering experience has been gained from working on projects in the areas of: dam design and evaluation; shallow and deep foundation systems; earthworks and site development; soil improvement techniques; specialty soil sampling; sinkhole investigation, evaluation and stabilization, and roadway soil.

His primary experience includes project management, contract management, technical direction of geotechnical engineering projects, geotechnical field investigations, and analyses for numerous public and private sector clients. He is responsible for staffing and resource management and reviewing engineering evaluations for geotechnical investigations in addition to numerous subsidence investigations. He often provides expert witness testimony on forensic projects and is in responsible charge of numerous soil stabilization projects.

Years of Experience

- 33 Years

Education

- B.S., Civil Engineering, San Diego State University

Professional Registration

- Professional Engineer, Florida # 48154 (1986)

Additional Certifications

- Properties of Fills for MSE Walls – ASCE Webinar, January 2018
- Geo-Frontiers Conference – 2011 (Paper presented at conference – published in proceedings– June 2017
- Geotechnical and Materials Engineers Conf. ('98,'01,'04,'07,'10,'11,'12, '13,'14,'16,'17,'18,'19)
- Florida Dam Safety Annual Conference 1997 through 2004 (technical presenter 1999 & 2003)

Project Experience

Harden Boulevard Access Road, Polk County, FL | Geotechnical Principal-in-Charge. Project consisted of geotechnical investigation, design and construction plans to construct an approximately 600 foot long access road that progresses east from Harden Blvd. through former phosphate mined lands to provide access to a new development (residential and/or commercial) in Lakeland, Florida. Madrid CPWG was requested to provide a geotechnical design for a stable, permanent platform for roadway embankment construction along the proposed access road alignment. Madrid CPWG's design included CSV (cement stabilized vertical) columns combined with a load transfer blanket (LTB) consisting of multiple layers of biaxial geogrid interbedded with compacted sandy fill. The system will distribute and transfer roadway, embankment, and vehicle loads to more competent soils at depth. The combined system provides a more uniform load response to the roadway embankment. Value of Project: $68,000

Polk County, West Lake Eloise Drive Resurfacing Project, Winter Haven, FL | Geotechnical Principal-In-Charge. This Polk County project included a section of road that overlies a thick peat layer that has a history of on-going settlement. Additional pavement has been added over time to try to keep the pavement above the seasonal high water level without success as the road continues to flood. Madrid investigated the site then recommended and designed a roadway cross-section that included excavation of the pavement section and installation of about 3 feet of lightweight cellular concrete allowing us to raise the roadway about 1 foot above the high water mark while also slightly unloading the organic soils that were too deep to excavate. By reducing the total load on the organics future settlement is nearly eliminated. Analyses included buoyancy calculations to ensure that the lightweight concrete would have sufficient pavement weight above it to avoid "popping out of the ground". Value of Project: $55,000

Grandview Parkway, New Roadway and Bridge over I-4, Polk County, FL | Project Principal. Oversee geotechnical design and recommendations for a 3000 ft. new 2-lane roadway that includes a 600 ft. bridge over I-4 near Davenport, Florida. The project includes embankment, MSE walls, bridge pilings and stormwater ponds and some of the alignment crosses an existing wetland and organic deposits. Project challenges included high settlement estimates and remediation of a relic sinkhole found along the wall alignment. Value of Project: $87,000

Jason McSwain

CMT / CEI Division Lead

Mr. McSwain has been with Madrid CPWG since September 2007. Mr. McSwain currently serves as department head for Madrid CPWG's Construction Engineering Inspection (CEI) and materials testing department, as well as Madrid CPWG's laboratories. He supervises staff and evaluates budgets and proposals for testing and inspection work for FDOT, other government clients, and private enterprise. During his 16 years with Madrid CPWG, Mr. McSwain has served as a project manager, performing and overseeing the successful completion of a myriad of geotechnical investigations and construction inspection projects. He maintains a close working relationship with the FDOT as well as representatives from multiple local municipalities. His duties have included field inspection and testing, shallow and deep foundation systems, soils analysis, soil surveys, geotechnical drilling activities, report preparation, soil improvement recommendations, materials testing, pavement design, personnel management and support for various construction engineering projects. He maintains extensive experience in plans preparation, field and laboratory testing assignments, soil boring characterizations, contract management, resource allocation, and a significant variety of computer software including Computer Aided Design (CAD) programs..

Years of Experience

- 16 Years

Education

- B.S, Computer Engineering
- Coursework including: Material Science, Advanced Physics, Circuit Theory, and Engineering Mechanics

Additional Certifications

- Earthwork Construction Inspection Levels I and II
- Concrete Field
- Asphalt Paving Inspection Levels I & II
- Pile Driving Inspection
- FDOT Geotechnical Research in Progress Conferences
- FDOT GMEC Conferences
- FDOT Laboratory Expectations
- Tensar Roadway Design Workshop
- Engineering and Environmental Impacts of Karst

Project Experience

Continuing Services Contract Support for Asphalt Plant Inspection, FDOT Districts One and Seven, FL | Project Manager. Mr. McSwain serves as the project manager for Madrid CPWG to provide on call, as needed Asphalt Plant Inspectors for all asphalt plants in the District 1 and 7 areas, including field coordination, DOT correspondence, SharePoint update verification, and MAC entry verification.

Lakeland Linder Airport – Taxiway A Rehabilitation, Lakeland, FL | Project Manager. Mr. McSwain served as the project manager for Madrid CPWG to provide VT Asphalt Plant Inspection during the rehabilitation of Taxiway A at the Lakeland Linder Regional Airport. During the course of this project, Mr. McSwain also developed a new Madrid CPWG P-401 worksheet for use by Madrid CPWG plant inspectors.

SR 555 (US 17) from Avenue G SW to Avenue A SW, Polk County, FL | Project Manager. This project consisted of the reconstruction of US 17 / SR 55 in Winter Haven, Florida. Mr. McSwain served as Madrid CPWG project manager during the construction and provided CEI VT inspection services for this project. Responsibilities included field coordination during earthwork, drilled shaft, signals, storm sewer, concrete, thermo, and asphalt paving inspection operations.

North Central Landfill Phase V Expansion, Polk County, FL | Project Manager. Mr. McSwain was responsible for the staff management of multiple verification testing inspectors during the expansion construction, including all materials testing for earthwork, storm sewer, concrete placement, as well as liner installation.

SR 60 (T1611), Polk County, FL | Project Manager. This project included intersection improvements along SR 60 in District 1. Mr. McSwain served as the Madrid CPWG project manager for the on-site VT inspector, with duties including quality assurance for earthwork construction inspection, concrete inspection, and asphalt paving inspection.

Paul Passe, PE, CPM

Chief Geotechnical Engineer

Mr. Passe has over 40 years of experience in the field of geotechnical engineering and materials testing, 13 of which were spent working directly with the Florida Department of Transportation. He spent four of those years as District Geotechnical Engineer, responsible for the assignment of project managers in design and construction, and the other eight as the State Geotechnical Engineer, acting as Senior Reviewer and troubleshooter for projects statewide as well as providing guidance and leadership for geotechnical policy and procedures for the FDOT. He has also given numerous presentations for the FDOT at conferences and seminars and helped develop geotechnical-related specifications and training courses. Mr. Passe serves on Geotechnical Institute, Transportation Research Board, and National Cooperative Highway Research Program task forces, committees, and panels.

Project Experience

District Wide Geotechnical Contract, FDOT District 1, FL | Chief Geotechnical Engineer. Provided on-call district wide geotechnical design and construction services. Services included 1) emergency services for such things as sinkholes, storm and hurricane damage assessments, etc., 2) Geotechnical Design, including roadway, ponds, and structures, 3) Reviews, provided assistance in reviewing of reports, plans, construction issues and permit works, and 4) construction testing and review services such as PDA and CSL testing.

District Wide Contract, FDOT District 7, FL | Chief Geotechnical Engineer. Mr. Passe has managed multiple district wide contracts over 20 years and has provided geotechnical engineering services on over 100 projects consisting of roadway improvements, bridge replacement, pond improvements, miscellaneous structures, retaining walls, sheet pile walls, and vibration monitoring projects. Mr. Passe was responsible for coordinating subsurface exploration programs. As part of the contract, Mr. Passe coordinates the Emergency Services Program where events affecting traffic safety and roadway closures such as sinkholes are responded to on short notice with geophysical surveys, subsurface exploration, and remediation recommendations and monitoring. He also overseen the performing of verification testing for pile and drilled shaft deep foundations.

District Wide Geotechnical Contract, FDOT District 4, FL | Chief Geotechnical Engineer. Mr. Passe provided on call district wide geotechnical design and construction services. Services included 1) emergency services for such things as storm and hurricane damage assessments, etc., 2) Geotechnical Design, including roadway, ponds and structures, 3) Reviews, provide assistance in reviewing of reports, plans, construction issues and permit works, 4) construction testing and review services such as PDA and CSL testing.

I-10 over Escambia Bay Pensacola, FDOT District 3, FL | Chief Geotechnical Engineer. Chief Engineer part of the CEI Team for FDOT District 3; Responsibilities included a review of geotechnical data/recommendations and verification testing of piling for bridge replacements. He was also responsible for the remote monitoring of the existing bridge during construction of the new bridge.

Andre Kniazeff, P.E.

Geotechnical Engineering Division Leader

Mr. Kniazeff is the Geotechnical Engineering Division Leader and has 13 years' experience providing geotechnical engineering, materials testing, environmental, and consulting services. These services include planning/coordinating subsurface exploration and laboratory testing programs, geotechnical engineering analyses and providing recommendations relating to the design and construction of roadways, structures, earthwork projects, and sinkhole investigations. Additional responsibilities include maintaining project budgets, timelines, overseeing field crews, and client consultations throughout the project duration.

Project Experience

Zenith Pipeline

Geotechnical exploration program, laboratory-testing program, engineering analysis and report preparation in support of the installation of a natural gas pipeline by Horizontal Directional Drilling (HDD).

Tyndall Air Force Base Infrastructure

Geotechnical investigation, design and recommendations for new buildings, Stormwater Management Systems (SMS), roadways, and subsurface utilities construction within the Tyndall Air Force Base in Panama City, Florida.

USPS Parking Lot Expansion

Geotechnical investigation, design and recommendations for a new parking lot, Stormwater Management Systems (SMS), and subsurface utilities construction in Panama City, Florida.

Pedestrian Bridge, State Avenue, City of Panama City, Public Works Department

Geotechnical investigation, design and recommendations for a new pedestrian bridge in Panama City, Florida. The bridge structure consisted of a reinforced concrete structure founded on a deep foundation (driven timber piles).

Bay Parkway Phase II, Panama City Beach, FL

Roadway soil survey, field exploration, and flexible pavement design for a new roadway alignment. Also included foundation recommendations for culverts, major signals and signs.

River Road Bridge Replacement, Walton County, FL

Geotechnical investigation, design and recommendations for a new vehicular bridge in Walton, Florida. The bridge structure consisted of a reinforced concrete structure founded on a deep foundation (driven precast concrete piles).

Street Resurfacing Project 2019, Panama City Beach, FL

Perform pavement corings and field evaluation followed by condition assessment and remedial recommendations for several roadway alignments in Panama City Beach, FL.

Michael A. Graves, PG, CPG

Professional Geologist

Mr. Graves has provided project assistance to public, private, and legal sectors during the past 40 years with projects involving hydrogeology, hazardous and non-hazardous waste management, environmental site assessment/compliance audits, geophysical studies, and mineral exploration/economic geology.

Project Experience

Contamination Assessment and Remediation, Daytona Beach, Florida | Project Manager. Assessed property of a former gas station for petroleum contaminants. Project resulted remediation of property including removal and off-site disposal of 1,500 cubic yards of contaminated soil, application of oxygen-release compounds, installation of groundwater monitoring wells, and performance of quarterly groundwater quality monitoring (Post Active Remediation Monitoring).

Soil & Groundwater Contamination Assessment, North Port, Florida | Project Manager. Assessment of a former golf course property impacted with arsenic. Project included public meetings, city commisioners presentations for approval for redevelopment, collection and analyses of over 900 soil samples to delineate soil arsenic plume, installation of a network of shallow monitoring wells to identify areas containing arsenic-impacted groundwater, prepareation and submittal of the Site Assessment Report to the Florida Department of Environmental Protection.

MODEF Contamination Assessment and Remediation, Lakeland, FL | Project Manager. Assessed and remediated soil and groundwater impacted with mineral oil dielectric fluid (MODEF) resulting from an explosion of a large electrical transformer, which released approximately 1,700 gallons of oil to the shallow soils and groundwater system.. Site remediation was accomplished utilized bioremediation; specifiacally, hydrogen release compounds. Managed project through completion, and obtained a site-status of No Further Action from the FDEP.

Hydrogeologic Study & Site Evaluation, Auburndale, Florida | Project Manager. Hydrogeologic investigation to study and evaluate the suitability for waste-water effluent disposal using a proposed spray field on 146-acre parcel. Ground percolation tests, falling-head permeability tests, and aquifer hydraulic tests were performed to identify the hydrologic characteristics of the vadose zone sediments and upper unconfined aquifer system. Numerical modeling was performed using the acquired site-specific data and the MODFLOW modeling program developed by the United States Geological Survey. Simulations were run using various scenarios to confirm the desired 1.0 million gallon per day volume of discharge was obtainable.

Phase 1 Environmental Site Assessment, State of Florida | Project Manager. Performed due diligence studies, including both Phase I and Phase II, throughout Florida for banking institutes, attorneys, land developers, water management districts, large landowners, and citrus growers. Each investigation was completed in advance with the appropriate American Standards for Testing & Materials.

Years of Experience

- 40 Years

Education

- Master of Science, Geochemistry, University of Florida
- Bachelor of Science, Geology, University of Florida

Professional Registration

- Geologist, Florida # 51
- Geologist, Alabama #367
- Geologist, Georgia #1549
- Geologist, Kentucky #700
- Geologist, South Carolina #534
- Certified Professional Geologist – A.I.P.G #7401

Additional Certifications

- Certificate of Hydrology, University of South Florida

Professional Appointments

- Member, UF Dept of Geologic Sciences Advisory Committee, 2009 - present
- Secretary, American Institute of Professional Geologists – Florida Section, 2012 - 2014
- Chairman, Board of Professional Geologists – State of Florida, 1996-1997

EXPERIENCE SUMMARY:

Douglas has over eight years of experience in the construction industry (5 as Senior) specializing in the laboratory testing of concrete, soils, and asphalt. He is also a CTQP-qualified field inspector for earthworks and concrete. Mr. Jordan possesses a thorough knowledge of ASTM/AASHTO/FDOT specifications and is proficient in the use of MAC. His responsibilities at Madrid CPWG include oversight of daily operations, training, inventory management, and performance of tests as required.

Education
Bartow High School 2008

TIN# J63517690

Certifications
CTQP Earthwork Construction Inspector Level 1 & 2
CTQP Concrete Field Technician Level 1
CTQP Concrete Lab Technician Level 1
CTQP Aggregate Base Testing Technician
CTQP LBR Technician
CTQP Qualified Sampler Technician
ACI Concrete Field Testing Technician Grade 1
ACI Concrete Laboratory Testing Technician Level 1
ACI Aggregate Base Testing Technician
ACI Aggregate Testing Technician Level 1
ACI Concrete Strength Testing Technician
Nuclear Gauge Safety

PROJECT EXPERIENCE:

SR 542 (Buckeye Loop Rd to US 27) 410666-3-52-01
Nov 2021 - Present
Sr. Laboratory Technician
Mr. Jordan is responsible for most of the required testing on embankment, subgrade, and base soil samples for this project as well as concrete compressive strength testing. He is also responsible for the entry and submittal of all results into MAC.

SR 25 (Cloverleaf Rd to SR 66) 439434-1-52-02
Aug 2021 - Present
Sr. Laboratory Technician
Mr. Jordan is responsible for most of the required testing on embankment, subgrade, and base soil samples for this project as well as concrete compressive strength testing. He is also responsible for the entry and submittal of all results into MAC.

FL Turnpike (Osceola County Line to Beachline) 411406-1-52-01
Sept 2018 – Apr 2020
Sr. Laboratory Technician
Mr Jordan performed compressive strength testing on drilled shaft concrete specimens collected during QC operations and entered results in MAC. He also assisted with field testing on occasion.

SR 546 Widening (I-4 to Wabash Ave.) 434762-1-52-01
July 2016 - November 2017
Laboratory Technician
Mr. Jordan performed most of the required testing on embankment, subgrade, and base samples and he conducted many compressive strength tests on concrete for roadway and drilled shafts. He was also responsible for the entry and submittal of all results into MAC.

David Shin, EI

MAT Engineering Intern

Mr. Shin has been serving as an engineering intern at Madrid CPWG since early 2021. His primary areas of exposure/experience include project management assistance, geotechnical field investigations, and geotechnical engineering analysis. Through his education and professional experience, he has experience in numerous technical software such as AutoCAD and ArcGIS and is continuing to develop his skills in numerous specialty software including gINT and GeoStudio. Much of his geotechnical engineering experience has been gained from working on projects in the areas of shallow and deep foundation systems, earthworks and site development, roadway soils, and soil improvement techniques. He also has experience with conducting technical research, writing technical reports, and soils lab testing. He assists Madrid CPWG's project managers with design/calculation support, proposals, and field/laboratory testing projects.

Years of Experience

- 2 Years

Education

- B.S. Civil Engineering, Florida Institute of Technology

Professional Registration

- Engineering Intern Florida #1100023471 (2020)

Project Experience

County Road 557 Widening, Winter Haven, FL (2021) Geotechnical engineer performing lab classifications and analysis as well as project management support for the widening of CR 557 in Polk County. This project involved over five miles of field investigations and associated lab testing, requiring analysis of approximately 650 various field samples.

Various FDOT Pavement Evaluation, District 1 (2023) Engineer selecting core locations and generating pavement coring plans per FDOT standard operating procedures. Also providing assistance in the management of PECCD core data for proposed and final submittals.

Fort Fraser Trail Extension, Lakeland, FL (2020) Geotechnical engineer providing project management support for an approximate 3 miles extension of the Fort Fraser trail in Lakeland. Including managing the field investigations and laboratory testing, geotechnical analysis, and report writing.

US 27 RRR, FDOT District 1, Davenport, FL (2021) Geotechnical engineer for the improvement of US 27/SR 25 through Davenport, FL. Managing the field/lab testing, performing analysis, and drafting FDOT-format CADD sheets. The project involved field investigations for various right of way improvements, multi-post signs, lighting foundations, and signal mast arm foundations.

FDOT Design-Build, SR 826, Miami, FL (2023) Geotechnical engineer providing assistance for the widening of SR 826 with multiple bridges, MSE walls, noise walls and various signs, signals and other structures. Management of borings and drafting of FDOT-format RCB and RSS sheets.

FDOT Design-Build Value Added Foundation Design, Sawgrass Expressway (SR 869) over Atlantic, Blvd, FL (2023) Geotechnical engineer for the foundation design service of a proposed alternate bridge configuration. Providing project management support including managing the field investigation, laboratory testing, and drafting of CADD sheets.

Andy Acosta

Laboratory Manager

Andy Acosta has over 17 years of experience working in the DOT Construction Materials Testing industry and has extensive laboratory testing and asphalt plant experience. He currently serves as the Laboratory Manager for Madrid CPWG's Construction Materials Testing department, as well as Madrid CPWG's asphalt production facility inspection group. Mr. Acosta is currently overseeing a variety of FDOT, municipal, airport, and private projects all around Central Florida. He has a thorough understanding of all FDOT, Turnpike, and FAA specifications and construction procedures and maintains a great working relationship with those agencies, as well as Central-Florida municipalities.

Years of Experience
17 Years

Education
Polytechnic University of Puerto Rico, 1998

TIN#
A22301976

Additional Certifications

- CTQP Asphalt Plant Technician Level I & II
- CTQP Asphalt Paving Technician Level I & II
- CTQP LBR Technician
- ACI Concrete Strength Testing Technician
- ACI Aggregate Base Testing Technician
- Nuclear Gauge Safety

Project Experience

VA Community Based Outpatient Clinic – Lakeland, FL | Project Manager
Mr. Acosta provides QA/QC review and technical support for the construction of the VA Hospital in Lakeland, FL. He reviews the laboratory testing to make sure they are in accordance with the appropriate standards.

CEI Projects – Central Florida | Project Manager
Andy has worked on and managed staff across a variety of FDOT, Municipal, Ariport, and Private jobs. He provides technical support to the staff and ensures testing and inspection is done in accordance with the appropriate standards and specifications. Likewise, he reviews laboratory testing reports to maintain quality service to our clients.

FDOT Asphalt Plant Inspection – Districts 1 & 7 | Senior Asphalt Plant Inspector
Mr. Acosta provided Asphalt Plant VT inspection services for projects in both districts 1 and 7. These services include inspection and testing to ensure compliance with the FDOT Construction Training Qualification Program.

Turnpike Asphalt Plant Inspection – District 8 | Senior Asphalt Plant Inspector
Mr. Acosta provided Asphalt Plant VT inspection services for projects on the turnpike. These services include inspection and testing to ensure compliance with the FDOT Construction Training Qualification Program.

FDOT Asphalt Plant Inspection – District 5 | Senior Asphalt Plant Inspector
Mr. Acosta provided Asphalt Plant VT inspection services for projects in district 5. These services include inspection and testing to ensure compliance with the FAA specifications and construction procedures.

Airport Asphalt Plant Inspection – Central Florida | Senior Asphalt Plant Inspector
Mr. Acosta provided Asphalt Plant VT inspection services for projects in Airports around Central Florida, including Orlando International Airport, Lakeland Linder Airport and Punta Gorda Airport. These services include inspection and testing to ensure compliance with the FDOT Construction Training Qualification Program.

FDOT Laboratory Testing – Districts 1 & 7 | Laboratory Technician
Mr. Acosta ran tests on concrete, aggregates and soils to ensure compliance with CCRL, AMRL, ASTM, and the FDOT Construction Training Qualification Program

Puerto Rico Department of Transportation | Materials Testing Analyst
Mr. Acosta ran tests on mix asphalt, concrete, aggregates and soils to ensure compliance with CCRL, AMRL, ASTM, and the Federal Highway Administration specifications.

Brett Arenas

Drilling Department Head

Mr. Arenas currently serves as the Madrid CPWG Drilling department head and leads most of the company's drilling projects. Much of his 35 years of geotechnical and environmental drilling experience comes from performing geotechnical field investigation and testing for site development, evaluation, stabilization, roadway, bridges, and other infrastructure projects, as well as environmental impact studies for plume delineation and contaminant cleanup through the installation of water wells and exploratory borings.

Project Experience

FDOT Geotechnical Project: E7R26 I-75 S to EBWB I-4 Exit Ramp: This project was for the expansion of the existing infrastructure and consisted of over 40 SPT borings with depths from 20' to over 150'

TS Freshwater Blending Pipeline Crossing: This geotechnical exploration project was for the installation of a pipeline along wy 595, Live Oak St, & Hyw 19 and consisted of over 30 SPT borings with depths from 10' to over 40'

CR557 Widening: This geotechnical exploration project was for the expansion of the existing infrastructure and consisted of over 530 locations where SPT borings, Hand Augers, and Test pits were done along hwy 557

Howard Frankland Bridge: This overwater geotechnical exploration project was for the expansion of the existing infrastructure and consisted of over 40 SPT borings with depths from 100' to over 200' drilled from our in-house jack-up barge.

Flagler County Rural Road Evaluation: This geotechnical exploration and evaluation project was for a roadway rehabilitation project along approximately 3 miles of CR 90E & CR 90W in Flagler County, Florida, and consisted of multiple SPT borings.

Hallam Preserve Signalization: This geotechnical exploration was for the proposed intersection signalization of CR 540A and Hallam Preserve, Polk County, Florida, and consisted of multiple SPT borings.

Marigold Mast Arms and Ponds: This geotechnical exploration and evaluation for the proposed new mast arms, stormwater ponds, and flood plain compensation ponds along Marigold Avenue in Poinciana, Florida and consisted of multiple SPT borings, hand augers, and test pits.

SR 590 Drew St - Osceola Ave to US 19: This geotechnical exploration project was for the expansion of the existing infrastructure and consisted of over 40 SPT borings.

Fort Fraser Trail SR 60 Pedestrian Bridge: This geotechnical exploration project was for the expansion of the existing infrastructure and consisted of SPT borings with rock coring for a bridge over SR 60

Miscellaneous Well Installation and Downhole Permeability Projects: We regularly install monitor wells and piezometers and perform downhole perm tests

Years of Experience

- 37 Years

Education

- High School - GED 2000 Sacramento, CA
- Pearce Technical College – 2000 Sacramento, CA

Areas of Experience

- Project Management
- Health & Safety Specialist
- Job costing/estimating
- Mud Rotary
- Air Rotary
- Rock Coring
- Auger Drilling & Coring
- CPT / MIP / EC
- Well Construction
- Well Decommissioning
- Drilling Test Borings
- Sonic drilling - Borings & Well Installs

Additional Certifications

- Florida licensed Well Driller Contractor
- OSHA 8 HAZWOPER
- OSHA 40 HAZWOPER
- OSHA 30 General Industry
- OSAH 8 Supervisor
- Class A License w/Tanker
- Forklift Trainer
- Smith System defensive driving

Lennon D. Jordan, PE

Chief Structural Engineer

Mr. Jordan serves Madrid Engineering Group, Inc. as Chief Structural Engineer and Sr. Project Manager. His responsibilities include technical review and oversight of engineering projects and design activities; provides leadership to technical and support staff; serves a project principal; training of technical staff; and assists with formulation, development, and implementation of marketing strategies for the firm.

For ten years prior to joining MEG, Mr. Jordan served URS Corporation Southern as Sr. Civil Engineering Project Manager and manager of the Bartow, Florida office. His responsibilities included directing the activities of a staff of engineers, designers, and technicians; creating and implementing client service area policy; and establishing goals and objectives for this client service area. Other responsibilities included providing direct or indirect oversight for all civil engineering and planning projects, including PD&E and corridor studies, roadway design, bridge design, construction engineering and inspection (CEI) services, site design, structural design, drainage, water resources, utility systems, permitting activities, insurance claims and adjustment evaluations, right of way acquisition and condemnation, engineering studies, and other client service area activities.

Mr. Jordan has been certified as an expert in litigation and provided expert witness services and testimony in numerous Right –of-way acquisition and condemnation cases, construction claims and product liability cases, design errors and omissions, and others. Projects and cases include Dale Mabry Highway in Tampa, County Line Road in Lakeland, Meadowlands Wastewater Treatment Plant in Lakeland, Wimmer Construction Pipe Failure, Southern Machinery in Lakeland, Averett Septic Tank Company in Lakeland, Kreider Salvage Company in Desoto County, Davis Monuments in Lakeland, White Construction Company in Lakeland and Highlands Fairways Utilities, and structural damage cases among others.

Mr. Jordan's duties have included supervising roadway, site design, drainage, water and sewer collection and treatment systems, and environmental projects. Representative roadway projects include County Line Road, Shepherd Road, Ewell Road, SR 50, US 17-92, US 17, Edgewood Drive, Kinds Highway, and others. All of these involved upgrading 2-lane facilities to 4- and 6-lane roadways with a mix of urban and rural sections each extending several miles in total length. Among these, County Line Road (6 miles), Ewell Road (2 miles), and Polk Parkway (2+ miles in final design and 10+ miles in PD&E) involved new roadway on new alignment and required extensive corridor study and analysis in accordance with the FDOT PD&E Manual and process to determine the optimum alignment.

Project Experience

Project Manager, City of Bartow/CRA Church Street Traffic Calming, Bartow, Florida (2008): Directed all staff activities for conducting an existing conditions analysis, survey, data collection, coordination with stakeholders, traffic study, existing conditions analysis, and development of preliminary

Years of Experience

- 45+

Education

- Evaluating Storm Losses (2010)
- Structural Evaluation and Restoration (2012)
- Non-Destructive and Destructive Testing (2012)

Melkin Fructuoso, Meng., MCs., EI

Engineer Intern

Mr. Fructuoso currently serves as Geotechnical Engineer and is project manager for some of the company's geotechnical projects. Much of his 15 years of geotechnical engineering experience has been gained from working on projects in the areas of: shallow and deep foundation systems; earthworks and site development; soil improvement techniques; specialty soil sampling; sinkhole investigation, evaluation and stabilization, and roadway soil.

His primary experience includes analysis and design of shallow and deep foundations, pile driving and drilled shaft inspection, geotechnical field investigations. He is professor at the University Autonomous of Santo Domingo and teaches several geotechnical engineering courses.

Experience

I-395/SR 836/I-95 design-build project. This project is a partnership between the Florida Department of Transportation (FDOT) and the Miami-Dade Expressway Authority (MDX), with construction limits on State Road (SR) 836 beginning at NW 17 Avenue and continuing through the SR 836/I-395/I-95 (Midtown) Interchange to the MacArthur Causeway Bridge. The limits on I-95 are from NW 8 Street to NW 29 Street. Construction is expected to be completed in the summer of 2026 at a cost of $840 million. In this project he performed conducted more than 20 PDA test for pile driving, inspected about 50 pile driving and 10 drilled shaft installations, inspected about 10 drop hammer PDA test, and conducted two vibration monitorings.

I-75/ SR 951 design-build project. This project is the interchange improvements at I-75 and SR 951. Performed settlement and global stability analysis for the MSE walls and the Cast-In-Place walls.

Polk Regional Water Cooperative, Polk County Performed anaysis for SE Wellfield upgrade including, 2 Booster Stations, a Water Treatment Plant, and approximately 80 miles of pipeline including trenching, directional bore, and jack and bore.

I-75/ MLK design-build project. This project is the interchange improvements at I-75 and MLK in Brandon, Fl. Performed settlement and global stability analysis for a surcharge program for 2 areas along the alignment.

Years of Experience

- 15 Years

Education

- Master, Geotechnical Engineering, University of Central Florida
- PhD, Geotechnical Engineering, University of Central Florida (No completed)
- Master, Geotechnical Engineering, University of Puerto Rico - Mayaguez
- B.S., Civil Engineering, University Autonomous of Santo Domingo

Professional Registration

- Dominican Board of Engineers Architects and Surveyors Dominican Republic # 21391

Certifications

- Engineer Intern # 1100025187 (2020)
- Pile Driving Inspection – FDOT # 3002104 (2021)
- Drilled Shaft Inspection – FDOT # 3002356 (2020)

Michael J. Wightman, P.G.

President, Principal Geophysicist, GeoView, Inc.

AREAS OF SPECIALIZATION

- Management of Geophysical Investigations
- Karst Evaluation Studies Using Geophysical Methods
- Geophysical Investigations for Infrastructure Evaluation
- Environmental Geophysical Investigations
- Coastal and Island Hydrogeology

EDUCATION

1989	M.S., Hydrogeology/Geophysics University of South Florida
1986	B.A., Geology University of California, Santa Barbara
1980	B.A., Business Economics/Environmental Studies University of California, Santa Barbara

PROFESSIONAL CERTIFICATIONS AND LICENSES

Licensed Professional Geologist, Florida and California (FL #1423, CA #6500)
Certified Ground Penetrating Radar (GPR) Operator (GSSI)
Electrical Resistivity Imaging Certification (AGI)
Stake University (Nationally Recognized Electronic Utility Locator Operator Certification)
Certified Pile Integrity Tester (Pile Dynamics)
Geophysical Well Logging and Imaging
OSHA-Certified Health and Safety, Hazardous Waste Operations, 40-Hour Course & Updates
Other Safety and Training Certifications: Jessica Lunsford (statewide)

PROFESSIONAL HISTORY

Present	President and Co-Founder of GeoView, Inc.
1991 –5/31/2001	Vice-President, Senior Geophysicist/Operations Manager, SDII
1988 - 1991	Staff Hydrogeologist--HSW Environmental Consultants, Inc.

PROFESSIONAL SUMMARY

Mr. Wightman's responsibilities at GeoView Inc. include the management and technical oversight of all geophysical investigations conducted by the firm. He has either managed or conducted geophysical investigations throughout the entire United States, Caribbean Basin and Central America. His duties include quality control oversight, project management and budgeting, employee supervision and training, design and implementation of geophysical investigations, data evaluation, numerical and analytical modeling of geophysical data. Mr. Wightman has either conducted or managed over 20,000 geophysical investigations concerned with environmental, geotechnical, geological, hydrogeological, infrastructure and construction-related projects. Mr. Wightman is an expert in the application of geophysical methods in terms of understanding karst-related conditions. Mr. Wightman has provided expert testimony, authored publications and delivered numerous presentations in regards to geophysical testing for a wide variety of applications. Prior to co-founding GeoView, Mr. Wightman was the Senior Geophysicist and Operations Manager at SDII Global

REPRESENTATIVE PROJECT (Geotechnical Services)
Project Cost: Unknown
Owner: The City of Mulberry
Client: The Lunz Group, Contact: Greg Selvidge (PM), 863-682-1882, gselvidge@lunz.com
Key Staff: John Delashaw, PE, Kevin Hill, PE
Original Budget $10,321; Final Budget $10,321.

Mulberry Fire Station and Concession Stand – Mulberry, Florida (2017) - Madrid Engineering Group, Inc. (Madrid) was asked to assist The Lunz Group with a field exploration and geotechnical evaluation of a site in Mulberry selected for a proposed (approx. 6,400 sq. ft.) new fire station, associated pavement areas, two stormwater ponds, a communications tower, and a concession stand in Mulberry, Florida. The site was located on reclaimed land from former phosphate strip mining activities which often will encounter very heterogenous soils and very challenging subsurface conditions and this site was also heavily vegetated which limited site access. Construction was completed in 2018 (see recent photo below).

MADRID APPROACH – Madrid is a full-service geotechnical company which allows us to select the most appropriate field testing equipment and experienced personnel to complete the work in the most efficient manner possible. Also, our in-house soils laboratory and diversity of experience means we can provide knowledgeable solutions and recommendations for each component of the project. This included performing the clearing and providing support equipment necessary to gain access to the proposed boring locations with a small track-mounted drill rig. Madrid also performed test pits to assess Seasonal High Groundwater levels and collected the undisturbed samples needed to provide reliable laboratory test results to support the design of the stormwater ponds required. Madrid provided overall site development recommendations, a recommended flexible pavement, including a base clearance discussion, soil parameters to assist the designers of a communications tower, and shallow foundation recommendations,

MADRID BENEFIT – The diversity of our fleet of drilling equipment, along with the experience of field, laboratory and professional staff ensures timely and technically sound solutions to the geotechnical challenges of a diverse site with a variety of site development components. Also, our experience exploring previously mined sites and addressing some of the more challenging geotechnical conditions at such sites provides assurance to the project team that Madrid will provide a solution regardless of the challenges faced.

Project Type: Geotechnical – Gibson Oaks Pipeline Borings – 2019
Project Cost: $4,288.75 (Madrid portion)
Owner: Polk County Utilities Division
Contact: Mr. Jim Tully 863-298-4238
Madrid Key Staff: John Delashaw
Original Budget: $4,320

Gibson Oaks Pipeline Project – Lakeland, Florida - Madrid was asked to provide a limited geotechnical exploration and preliminary evaluation at specific pipeline locations associated with the Gibson Oaks WPF Project in Lakeland, Florida. The purpose of the exploration was to collect subsurface soil information in order to provide data and general site suitability for pipeline construction including proposed directional drilling pits.

MADRID APPROACH –Madrid provided the appropriate equipment that could move around the site with minimum required clearing. The purpose of this investigation was to provide a preliminary evaluation of the existing subsurface conditions at the boring locations, to identify constraints or limitations (to the extent possible) that the subsurface conditions may impose on the planned construction and provide general recommendations regarding site suitability, primarily for the pipeline.

MADRID BENEFIT – Madrid has all of the various equipment needed to handle a wide variety of difficult site conditions economically. We were able to collect the field and laboratory testing data well within the schedule and budget.

Project Type: Geotechnical – E. Johnson Avenue Sinkhole – 2018
Project Cost: $91,081.75 (including remediation)
Owner: Polk County Public Works Road & Bridge Division
Contact: Mr. Joe Montoya 863-712-0171
Client: Polk County
Madrid Key Staff: John Delashaw,
Original Budget: $99,618.40 (including remediation)

E. Johnson Avenue Sinkhole Project – Haines City, Florida - Madrid was requested to provide an estimate for emergency SPT drilling and sinkhole stabilization plan design for a sinkhole within the roadway along E. Johnson Avenue (west of Power Line Road) in Haines City, Florida. It is noted that two primary buried utilities paralleled the road within the ROW on the south side; these included a 30-inch reclaimed water line and a 12-inch water main. Overhead electric was located near the ROW on the north side of the road. The initial phase of work was for emergency drilling and development of a grouting remediation plan. The second phase was to monitor the remediation of the sink hole.

MADRID APPROACH –Madrid was on site within hours of being notified of the sinkhole. A drill rig was dispatched, and drilling started immediately. The subsidence feature was confirmed as a sinkhole. Based on the results of the exploration program a stabilization plan was developed. Madrid, on behalf of the Polk County, provided engineering supervision of all the stabilization activities.

MADRID BENEFIT – The specialized operation including emergency response greatly accelerated field time and reduced potential safety exposure to our staff and the traveling public. We were also able to help protect the existing utilities. We were able to collect the field and laboratory testing data well within the schedule and budget.

Project Type: Geotechnical – Kathleen Fire Station Prelim Geotech
Project Cost: $4,914.00
Owner: Polk County Public Works
Contact: Mr. R. Wade Allen 863-534-2577
Client: Polk County Real Estate Services
Madrid Key Staff: John Delashaw,
Original Budget: $ 4,922.00

Kathleen Fire Station Prelim Geotech Project – Lakeland, Florida - Madrid was asked to provide a limited geotechnical exploration and preliminary evaluation for a proposed new fire station at an undeveloped site in Lakeland, Florida. The purpose of the exploration is to collect subsurface soil information in order to provide data and general site suitability for construction.

MADRID APPROACH –Madrid provided the appropriate equipment that could move around the site with minimum required clearing. The purpose of this investigation was to provide a preliminary evaluation of the existing subsurface conditions at the boring locations, to identify constraints or limitations (to the extent possible) that the subsurface conditions may impose on the planned construction and provide general recommendations regarding site suitability, primarily for structures.

MADRID BENEFIT – Madrid has all of the various equipment needed to handle a wide variety of difficult site conditions economically. We were able to collect the field and laboratory testing data well within the schedule and budget.

Project Type: Geotechnical – Power Line Road Subsidence – 2022
Project Cost: $17,681.75
Owner: Polk County Public Works Road & Bridge Division
Contact: Mr. Doug Gable, PE 863-535-2285
Client: Polk County
Madrid Key Staff: John Delashaw,
Original Budget: $17,683

Power Line Road Subsidence Project – Haines City, Florida - Madrid was requested to complete a field investigation and geotechnical evaluation of a surface depression/surface cracking in the northbound lane of Power Line Road just north of E Johnson Ave in Haines City, FL. This depression is within new embankment fill from a recent roadway widening project. The fill slope extends down into the water of an existing water body (apparent man-made feature).

MADRID APPROACH –The scope of work for this investigation included review of existing geological data, a field exploration and laboratory testing program, evaluation of soil testing results, evaluating site suitability and providing general geotechnical recommendations for the mitigation of the subsidence, including providing global and internal stability recommendations for the proposed sheet pile wall. Madrid performed a geophysical study consisting of Ground Penetrating Radar (GPR); performed SPT borings.

MADRID BENEFIT – Madrid is intimately familiar with the soil conditions around the county and has seen and understands the potential issues that may be encountered. Madrid can tailor a program to suit the issues involved and come up with the most economical solution for the county.

Project Type: CEI – Polk County Roads and Drainage Annex – 2019
Project Cost: $ 19,222.75 (Madrid portion)
Owner: Polk County Public Works Road & Bridge Division
Contact: Mr. Steve McMillan 863-860-8001
Client: Polk County
Madrid Key Staff: John Delashaw, Jason McSwain, Doug Jordan,
Original Budget: $ 23,570.50

Polk County Roads and Drainage Annex – Winter Haven, Florida - Madrid was asked to provide construction materials testing and inspection for a proposed new 12,600 ft^2 Annex for the Roads and Drainage Division at the Sheffield Rd location in Winter Haven, Florida.

Madrid Approach – Madrid carefully monitored the progression of this project and maintained on-call field inspection as needed, as construction advanced by the contractor (Miller Construction).

Madrid Benefit – Madrid's primary office is located 15 minutes from the project location, allowing our team to provide testing as needed in a cost-effective and efficient manner. We maintain an excellent working relationship with the contractors and County representatives, and consistently provided prompt and professional service, as well as accurate data reporting.

Project Type: CMT & Inspection Services – Central Region Utility Service Area (CRUSA) Water Production Facility
Project Cost: $66,988.75 (Madrid portion)
Owner: Polk County BOCC – PO Box 9005 Drawer TR01, Bartow, Florida 33831
Contact: County Engineer Mark Addison, P.E., 863-298-4214, markaddison@polk-county.net
Madrid Key Staff: John Delashaw, Jason McSwain, Cecil Allred, Douglas Jordan
Original Budget: $66,995.00

CRUSA Water Production Facility Project (Phase 1 and Phase 2) – Bartow, Florida (July 2017-Current) – Madrid was requested to provide laboratory materials testing and field inspection and testing services for new construction at the CRUSA Water Production Facility in Bartow, Florida. In general, this project consisted of the construction of a new utility operations building, water production facility, access / maintenance / emergency access driveways, parking areas, a truck service area, and utilities installations. Inspection services for the CRUSA project began in July of 2017, when Madrid was called on-site for nuclear density testing at what would become the utility operations building pad. Madrid conducted nearly daily density testing verification as the pads for the operations building and the water production facility were formed, the surrounding area was brought to grade, potable water and sewer pipes were placed, subbase material for the access roads was lain, and limerock base for parking lots and access roads was placed; all while working side by side with two separate contractors (each responsible for one phase of the project). Late in 2017, large and small volume concrete pours began for the access roads, building slabs, and driveways; and Madrid was on-site day and night to perform materials testing and to collect concrete specimens for testing in our laboratory to ensure that the concrete being placed was of acceptable quality.

MADRID APPROACH – Madrid maintained an on-call field inspector for the CRUSA project, as the scheduling demands for two separate contractors rarely coincide. When required, Madrid provided as many as three separate inspectors at the project site to provide sufficient and exceptional inspection services for the various operations underway.

MADRID BENEFIT – The location of the Madrid home office in the heart of Polk County has allowed us to provide field inspectors rapidly upon request to meet the dynamic demands of the construction operations. We maintain an excellent working relationship with the contractors and County representatives, and have consistently provided prompt and professional service, as well as accurate data reporting as we look forward to another successful project completion.

Certified Woman / Minority Business Enterprise

MADRID ENGINEERING GROUP

cpwg
AT THE READY.

CERTIFIED WOMAN / MINORITY BUSINESS ENTERPRISE

Madrid Engineering Group, Inc. dba Madrid CPWG (Madrid) has been known for years in this region as a widely respected MBE firm under the sole ownership of Mr. Larry Madrid, PE who was of Hispanic heritage. Unfortunately, Mr. Madrid passed away in June of 2021. Thankfully, we had already begun a merger transition before his passing which ultimately led to a relatively smooth transfer of ownership to become a woman-owned business. Over the years Madrid has been certified and/or recognized as a W/MBE and/or DBE company with multiple agencies and organizations, some of which are listed below. Madrid is now owned and managed by its president, Mrs. Sheila Tarte. As such, beginning in 2022 we once again became a certified W/MBE with the State of Florida, Polk County and other agencies. We are also in the process of re-establishing similar certifications with other agencies where this had lapsed. Entities for which we are certified:

- **The State of Florida Office of Supplier Diversity** – re-establishing
- **FDOT DBE – Florida Department of Transportation Disadvantaged Business Enterprise** – current
- **Florida Unified Certification Program DBE** – current (for transportation hubs, i.e., roads and ports including airports and sea ports; and other agencies such as City of Tampa, Broward County, Miami/Dade County, etc.)
- **Florida Minority Supplier Development Council** – FL Certificate Number FL03698 (re-establishing)
  - **Madrid recognized as Florida Minority Supplier of the Year 2017-2018**
- **Central Florida Business Diversity Council** – a Lakeland based advocacy group that recognizes numerous MBE/DBE/WBE/VOB certifications – Madrid was a minority business corporate member and expects to be re-instated soon.
- **Central and North Florida Minority Supplier Diversity Council (cnFMSDC)** – re-establishing
- **Polk County MBE (recognizes the cnFMSDC and FDOT DBE certifications)** - current

Some of these agency certifications were re-established in 2022 and some are underway. The key ones needed for our Polk County W/MBE status are current and active at the time of this submittal (see attached). As such, we note that effectively all of the work performed by Madrid under this contract may qualify as work by a minority contractor. We fully expect to have other agency certifications in place soon. We do also note that the only subcontractor partner included on our team, Ambient/GeoView, Inc., is also a State Certified MBE firm.

TAB 6

Interactions with County and Regulatory Agency Staff

INTERACTIONS WITH COUNTY AND REGULATORY AGENCY STAFF

Madrid is currently providing services to Polk County under our continuing services contract for Professional Geotechnical Engineering, CMT and Inspection services; and have also held and worked under previous Polk County contracts for Parks and Natural Recreation Engineering Services and a support contract with the Roads and Drainage Division and are very experienced with those County staff as well. Madrid is also currently providing CEI services, pavement evaluation services and asphalt production facility inspection for the Florida Department of Transportation on multiple District-Wide contracts in Districts 1 and 7 (Madrid is currently one of the top consultant providers for State Road, including Interstate, pavement evaluations and asphalt production facility inspection for the FDOT within these two Districts). Madrid also has continuing service contracts with other local municipalities throughout Polk, Hillsborough, and Osceola Counties. Madrid also has experience working for various federal agencies and we regularly work closely with other regulatory agencies such as SWFWMD, SFWMD, USACOE, FDEP, FDOT and others in order to obtain various permits for field exploration and testing activities such as for ROW Use permits, ERP's and Notice General Permits. Madrid has a demonstrated ability to work closely with technical staff, project managers, administration, senior management, purchasing staff, legal staff, elected officials, and constitutional officers throughout Polk County Government. This "cross-culturalism" affords key Madrid staff the opportunity to identify partnership opportunities within the various technical or administrative divisions of the County and provides opportunities to suggest or recommend methods for effective and efficient cooperation that result in overall lower initial or life cycle costs for a given project.

Madrid and key staff provide consulting services to numerous public-sector clients throughout Florida and nationally. Some of these include the U.S. Environmental Protection Agency (USEPA), Water Management Districts, Florida Department of Environmental Protection (FDEP), U.S. Army Corps of Engineers (USACOE), Cities within Polk County (Lakeland, Bartow, Winter Haven among others), City and County governments for areas immediately adjacent to Polk County, Florida Department of Transportation (multiple Districts), and others. Because of our close working relationship with these governmental, regulatory, and public agency clients, Madrid has a demonstrated ability to work efficiently and successfully with all Polk County Divisions under this Master Consulting Agreement

Team Member	FDOT	SWFWMD	SFWMD	FDEP	FFWCC	USEPA	FEMA
John Delashaw	X	X	X	X	X	X

Brett Arenas	X	X	X	X	X	X	X
Michael Graves	X	X	X	X	X	X	
Paul Passe	X	X	X	X			
Andre Kniazeff	X	X		X		X	X

Madrid and key staff have consistently earned high performance evaluation scores for project assignments with Polk County. We are deeply honored that our past performance has been well received and highly scored. We have

earned the trust of Polk County project managers and technical staff and believe that this comes from our commitment to excellence as well as a desire to serve them and the citizens of Polk County to the best of our ability.

Due to our previous and current work with Polk County, Madrid is intimately familiar with the County's personnel, expectations and procedures. As a long-term consultant to Polk County with key staff enjoying relationships spanning nearly 30 years of service with Polk County, we understand that our actions are a direct reflection of the County and we endeavor to serve all of our public entity clients with the level of courtesy, professionalism and integrity that is befitting this trusted role. The ability to coordinate key aspects of projects between multiple regulatory agencies is one that Madrid prides itself on being able to perform, and our previous work for both public and private sector clients demonstrates our success.

TAB 7

Timely Completions of Projects

Current and Future Projected Workload

Madrid has assembled both key staff and specially selected sub-consultant team members who will be an integral part of upcoming projects. It is our understanding that these projects could be large or small and, as such, we will assemble project teams that address the specific needs of each project. We understand the complexity of large projects and the resource commitments required to keep these projects on schedule and on budget but also know how to quickly and economically complete even the smallest of tasks.

It should be noted that Madrid considers this Continuing Services Contract (CSC) to be of the utmost importance, and we are fully committed to giving it the top-priority attention it requires. As such, regardless of the percent availability presented below, to the best of our ability we will be 100% available to the County. We make the following minimum commitments to Polk County as presented in the Staff Availability Chart below and the sections that follow. It is noted that the table includes key staff only and their availability is often greater than the minimum commitment listed; we also have other staff available that can supplement those listed below.

Key Staff Availability Chart

Name	Title	Years of Experience	Years with Madrid	% Available	Office Location	Home Location
John Delashaw	Principal Engineer, PE	33	16	20%	Bartow, FL	Winter Haven, FL
Andre Kniazeff	Sr. Geotech Engineer, PE	13	1	35%	Bartow, FL	Brandon, FL
Steve Tarte	Principal in Charge, QA/QC	26	18	15%	Tampa, FL	Tampa, FL
Paul Passe	Sr. Geotech Engineer, PE	40	3	25%	Bartow, FL	Lithia, FL
Brett Arenas	Field Services / Drilling Manager	37	3	20%	Bartow, FL	Kissimmee, FL
Jason McSwain	CMT/CEI Manager	16	16	25%	Bartow, FL	Lakeland, FL
Lennon Jordan	Chief Structural Engineer	45	15	20%	Bartow, FL	Bartow, FL
Andy Acosta	Lab Manager	17	2	20%	Bartow, FL	Wimauma, FL

Availability of the Project Team Members - Madrid's staff at our Bartow headquarters consists of seventeen (17) full-time field inspectors and technicians for CMT/CEI work, five (5) Florida Registered Professional Engineers (10 when including staff in our Tampa office), and one (1) Florida Registered Professional Geologist. Madrid has four (4) full-time drill crews and a total of three (3) full-time laboratory technicians. As each new task order is received a project manager is assigned within the appropriate internal department based on the nature of the work. It is the assigned project manager's first responsibility to communicate with the County to understand scope, schedule and expectations and then to assign the appropriate personnel and resources to complete the required task(s) in a timely manner. The workload handled by these team members varies significantly from day-to-day and week-to-week, however Madrid prides itself on effectively utilizing its available resources in order to ensure assignments are met. Based on our current

and future projected workload, we are confident that Madrid will have the ability and resources available to meet any and all needs the County may have over the duration of this contract.

Project Manager Commitment – Because of the multi-disciplinary nature of this CSC, Madrid has selected a Service Area Lead for each of the two primary disciplines requested. We recognize the important role of these Lead roles and their extensive background and history not only with this specific type of contract, but others completed in the past for numerous Public Agency clients including Polk County. They will maintain the project's work flow, meet production schedule and project milestones, and we commit to Polk County that task orders resulting from this CSC will be our Contract Manager John Delashaw's top priority. In addition, the Geotechnical and CMT/CEI Service Area Leads, Mr. Kniazeff and Mr. McSwain, will have the same directive that this CSC be a top priority and resources be allocated as necessary to meet the project demands.

Schedule

Schedule development and adherence to the schedule is the foundation for effective project management. Dovetailed with the schedule is identifying and complying with scope requirements and the effective management of project budgets. Madrid's project managers and key team members are known for meeting schedules, often completing assignments early, and receive outstanding consultant service evaluations from their clients, both public sector and private.

All major activities and deliverables are identified on the schedule established at the beginning of the project; this schedule is established based on an understanding of the County's needs for each assignment. Deliverable dates are shown as project milestones. Activities required to meet these milestones are identified and prioritized so that critical items are properly addressed and known by all team members. Two areas of particular importance are the identification of applicable review and comment cycles, and consideration of external constraints placed on the schedule by third parties for which there may be little or no control with respect to their timely reviews and/or performance, but that can have a significant impact on project progress.

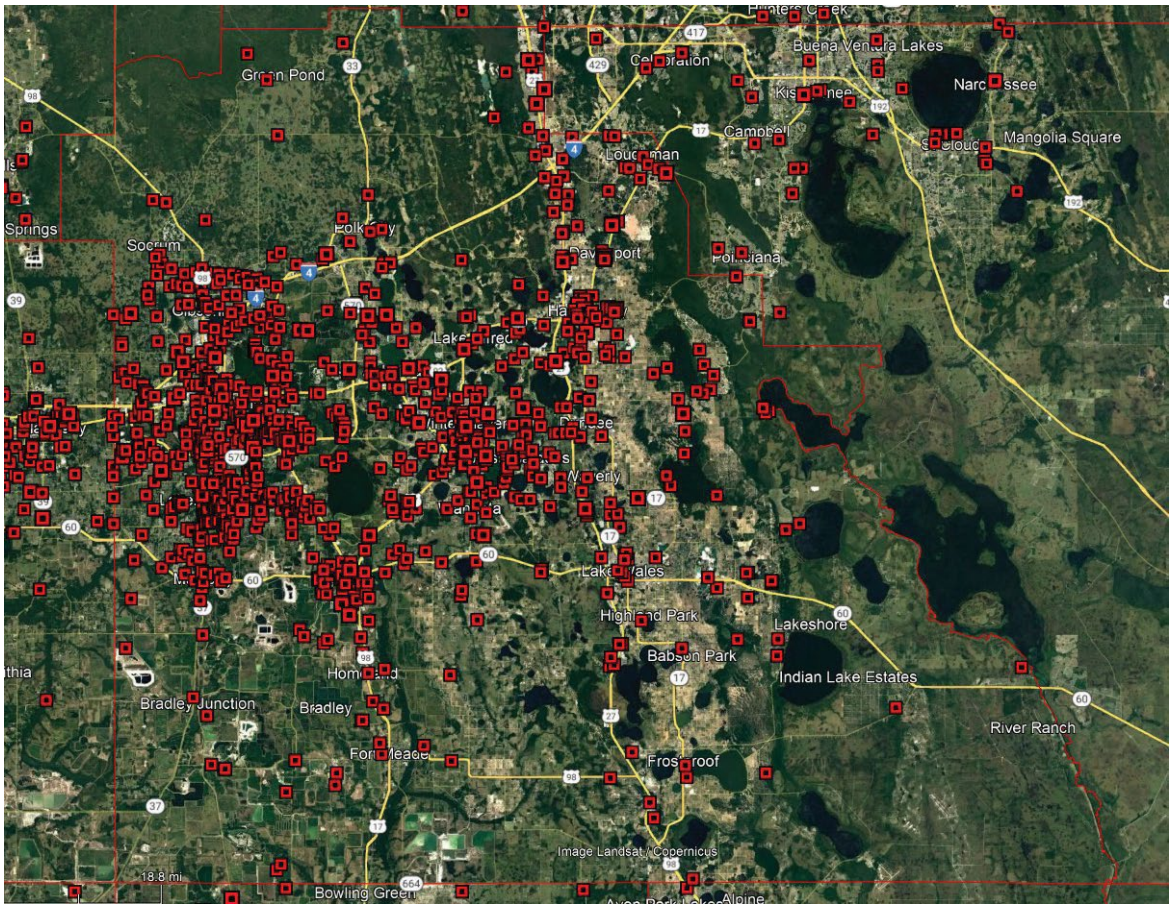
The capability to meet deadlines is determined in large measure by:

- **Knowledge and Experience of Project Team**. We have selected Project Team members who are very familiar with Polk County's specific needs, which have successfully worked with and for Polk County and other clients, and are also uniquely qualified for their assignments and boast extensive experience on similar projects.
- **Availability of the Project Team Members**. As described earlier, Madrid has examined our current and anticipated workload commitments over the period anticipated for the Continuing Services Contract and confirms that key staff and discipline managers have sufficient time available to properly execute their work on any project that may be assigned and maintain schedules.
- **Project Management Plan**. Our practice on projects of this type is to develop an effective Project Management Plan that includes an identified Project Manager, Chain of Responsibility, Detailed Scope of Work, Schedule, Communications, Project Filing and Archiving, Progress Reporting, Financial Matters, Deliverables, and Coordination Protocols.
- **Maintaining Project Schedule.** Madrid has an internal project scheduling and task management methodology that allows the PM to break down projects into small tasks and assign specific schedules and budgets to the employee completing that task. This allows the employee the ability to ensure their particular task is completed within the specified budget and schedule which helps keep the overall project on track as well.

TAB 8

Surveys of Past Performance

Madrid has completed many thousands of geotechnical and construction inspection projects across Florida with a majority of those projects in Central Florida and the highest concentration of projects is in Polk County since we are a Polk County based firm. See the map below of our previous projects in the Polk County area (every red square represents a separate project).



See attached surveys of past performance from a few recent projects.

Descriptions and Responsibilities of Personnel			
Classification	**Position Overview**	**Responsibilities**	**Education/Experience**
Senior Engineer	Supervising engineering activities of complex projects involving multiple technical disciplines and/or sub-consultants; responsible for supervision and planning, design and construction phases of project	Overseeing and conducting project activities, performing engineering analyses and reporting	Bachelor's Degree PE required 8 or more years of experience in area of practice
Project Engineer	Areas of specialization include: civil, structural traffic, geotechnical, water resources, environmental and construction. Supervises other staff members in their respective area of expertise. Responsible charge for designated area of expertise	Responsibilities include site/civil engineering design, geotechnical evaluation of reports, traffic engineering, design of water resources areas, environmental engineering evaluation and design, and/or construction observation in disciplines listed above	Bachelor's Degree PE required 5 or more years of experience in area of practice
Engineer	Areas of specialization include: civil, structural, traffic, geotechnical, water resources, environmental and construction. Works under a supervisor/registered PE in their respective area	Responsibilities include site/civil engineering, geotechnical engineering, structural engineering, traffic engineering, water resources and environmental engineering. Collects data, performs tests and analyses and/or construction observations	BS in Engineering required. EI or Graduate Engineer or Planner 0-4 years of experience
Senior Geologist/Scientist	Qualified geologist/scientist proficient in knowledge of geology and environmental issues. Considered technical expert in their area of specialization	Fully capable of performing the most technically challenging work in their area of expertise. Assist in the performance of assessments of environmentally sensitive areas and provides plans to minimize impact where necessary	BS in Geology and/or Environmental Science 8 or more years of experience

Polk County Contract - RFP 23-328
Job Title Definitions

Descriptions and Responsibilities of Personnel			
Classification	**Position Overview**	**Responsibilities**	**Education/Experience**
Geologist/Scientist	Qualified geologist/scientist proficient in knowledge of geology and environmental issues. Considered technically proficient in their area of specialization	Responsibilities include geotechnical and geology related duties. Collects data, performs tests and analyses and/or construction observations	BS in Geology and/or Environmental Science 0 to 8 yrs experience
Drilling Operations Manager	Qualified specialist ability and knowledge in the drilling industry. Manages multiple crews and responsible for resource needs and new technologies. Prepares or reviews drilling services proposals and budgets	Responsibilities may include project management, resource allocation and management, staffing and supervision, troubleshooting, implementation of specialty field services	15 or more years of experience in Florida drilling techniques and equipment
Laboratory Manager	Manages laboratory staff and resources, oversees testing, reviews results	Responsible for lab certifications, training and oversight of lab techinicans, reviews lab equipment for functionality and calibrations, orders equipment and supplies as needed.	8 or more years of experience in soils and materials testing
Senior Inspector	Advanced experience, ability and knowledge in their area of specialization. Areas include both vertical and horizontal construction	Fully capable of performing the most technically challenging work in their area of expertise. Responsibilities may include construction observation, processing of RFI's, review and coordination of construction schedules, assistance in review of pay requests	5-10 years of experience on similar projects

Polk County Contract - RFP 23-328
Job Title Definitions

Descriptions and Responsibilities of Personnel			
Classification	**Position Overview**	**Responsibilities**	**Education/Experience**
Inspector	Qualified inspector proficient in their area of expertise. Areas include both vertical and horizontal construction	Performs inspection work under supervision of senior inspector or project manager. Prepare daily and weekly reports of construction activities and progress	1-5 years of experience on similar projects, or 2 years of specialized training beyond high school level
Senior Technician/CADD Designer	Advanced experience, ability and knowledge in their area of specialization, including but not limited to planning, engineering, architecture or landscape architecture	Fully capable of performing the most technically challenging work in their area of expertise. Work includes basic planning and/or design tasks, preparation of planning and construction documents in CADD or manually generated drawings	5-10 years of experience on similar projects
Technician	Qualified technician in their area(s) of expertise, including but not limited to planning, engineering, or architecture	Performs routine work under general supervision of project manager or technical discipline leader, including CADD and manually generated documents and drawings	1-5 years of experience on similar projects, or 2 years of specialized training beyond high school
Technical Secretary/Admin Assistant	Experience in customer service, handling office machines, mail, data entry, supplies. Provides support to Principal staff.	Performs general office duties as customer service, handling office machines, handling mail, data entry, ordering supplies. Proficient with internet, word, excel. Invoicing, collections, scheduling	High school diploma 1-2 years of work experience on similar position or 2 years of specialized training beyond high school

7. Pre-approved Equipment (includes purchase and rental of equipment used in project) — Actual Costs

MASTER CONSULTING AGREEMENT

THIS AGREEMENT is entered into as of the Effective Date (defined in Section 1.1 below) by and between Polk County (the "County"), a political subdivision of the State of Florida, situated at 330 W. Church Street, Bartow, Florida 33830, and MC Squared, LLC. (the "Consultant") a Florida limited liability company, located at 5911 Breckenridge Parkway, Suite G, Tampa, Florida 33610, and whose Federal Employer Identification Number is: 90-0033880.

WHEREAS, County owns and operates a variety of public facilities and improvements; and,

WHEREAS, County requires certain professional services in connection with the performance of certain professional geotechnical services and construction material testing and inspection for all Divisions in the County; and

WHEREAS, the County has solicited for these services via RFP 23-328, an advertised request for proposals (the "RFP"), and has received numerous responsive proposals thereto; and

WHEREAS, pursuant to the RFP, the County has selected the Consultant and the Consultant remains agreeable to providing the County the professional services described herein, and the Consultant represents that it is capable and prepared to do so according to the terms and conditions stated herein.

NOW, THEREFORE, in consideration of the mutual understandings and covenants set forth herein, the parties hereby agree, as follows:

1.0 **Term**

1.1 This Agreement shall take effect on the date of its execution by the County (the "Effective Date").

1.2 The term of this Agreement shall be for a five (5) year time period, commencing upon the Effective Date and remaining in full force and effect thereafter, unless otherwise sooner terminated as provided herein.

2.0 **Services to Be Performed by Consultant**

2.1 Consultant shall perform the services as generally described in (i) the County's Request for Proposals RFP 23-328, to include all attachments and addenda, and (ii) the Consultant's responsive proposal thereto (collectively, (i) and (ii) are "RFP 23-328") all of which are incorporated into this Agreement by this reference, attached hereto as a composite Exhibit "A" and made a part of

this Agreement, and as may be further specifically designated and authorized by the County, in writing (collectively, the "Services"). Such authorization will be referred to as a Consultant Services Authorization ("CSA") or a Contract Purchase Order ("CPO") and all provisions of this Agreement apply to the CSA/CPO with full force and effect as if appearing in full within each CSA/CPO. Each CSA/CPO will set forth a specific Scope of Services, maximum limit of compensation, schedule, liquidated damages, and completion date, and shall become effective upon the due execution.

2.2 The Consultant is not authorized to undertake any project without a duly executed CSA/CPO, which shall specify the work to be performed and the time to be completed. Consultant recognizes that the County may employ several different Consultants to perform the work described and that the Consultant has not been employed as the exclusive agent to perform any such services.

2.3 When the Consultant and the County enter into a CSA/CPO where the term of the CSA/CPO expires on a date that is later than the date that this Master Consulting Agreement expires, the Consultant and the County agree that the terms of this Agreement and any amendments, attachments or provisions thereof are automatically extended until the expiration (including any extension or amendment thereto) or full completion of the requirements of the CSA/CPO have been performed. Cancellation by the County of any remaining work prior to the full completion of the requirements of the CSA/CPO shall cause the terms of this Agreement to terminate at the same time. This provision only applies when the expiration of the CSA/CPO extends beyond the expiration of this Agreement. It does not apply when a CSA/CPO expires or is cancelled prior to the expiration of this Agreement.

3.0 **Compensation**

3.1 General

3.1.1 County shall pay Consultant in accordance with the "MC Squared Schedule of Rates" which is attached hereto and incorporated herein as Exhibit "B" and incorporated by reference as part of this Agreement. The MC Squared Schedule of Rates identifies all job classifications, which will perform billable services pursuant to this Agreement and the fee for each job classification. Performance of work by personnel in job classifications not listed on the MC Squared Schedule of Rates will result in nonpayment for such services.

3.1.2 Upon the mutual agreement of the parties, the Fee Schedule, as set out in Exhibit "B" may be adjusted by a written Amendment to the Master Consulting Agreement annually beginning one year from the Effective Date of this Agreement. Such amendment must be executed by both parties and shall operate prospectively only and shall not alter fee schedules for CSA's/CPO's in effect at the time of the amendment.

3.1.3 Compensation may be negotiated as a not to exceed price or a lump sum amount on a per-project basis, on each individual CSA/CPO.

3.1.4 Invoices must reference the applicable CSA/CPO number, using an invoice form approved by the County Auditor.

3.1.5 Each individual invoice shall be due and payable forty-five (45) days after receipt by the County of correct, fully documented, invoice, in form and substance satisfactory to the County with all appropriate cost substantiations attached. All invoices shall be delivered, as applicable based on the particular project:

Polk County Roads and Drainage Division
3000 Sheffield Road,
Winter Haven, FL 33880
Attention: Director

3.1.6 In order for both parties herein to close their books and records, the Consultant will clearly state "Final Invoice" on the Consultant's final/last billing to the County. This certifies that all services have been properly performed and all charges and costs have been invoiced to the County. Since this account will thereupon be closed, any and other further charges if not properly included on this final invoice are waived by the Consultant.

3.1.7 Payment of the final invoice shall not constitute evidence of the County's acceptance of the work

3.1.8 Invoices shall be accompanied by time and task records for all billable hours appearing on the invoice. Additional documents may be requested by County and, if so requested, shall be furnished by Consultant to County Auditor's satisfaction.

3.1.9 By submission of an invoice, the project manager or designated payroll officer is deemed to be attesting to the correctness and accuracy of time charges and requested

reimbursements.

3.1.10 Pursuant to Section 3.1.4, if a not to exceed fee is negotiated, invoices shall be accompanied by time and task records for all billable hours appearing on the invoice. Alternatively, if a lump sum amount is negotiated, invoices shall be made upon the completion of each phase of the work in proportion to the Services performed, as specifically set forth in the applicable CSA or CPO. Additional documentation may be requested by the County and, if so requested, shall be furnished by the Consultant to the County Auditor's satisfaction.

3.2 Reimbursable

3.2.1 All requests for payment of out-of-pocket expenses eligible for reimbursement per the negotiated CPO or CSA shall be reimbursed in accordance with the County's Reimbursable Schedule, Exhibit "C", and include copies of paid receipts, invoices or other documentation acceptable to the County's Auditor. Such documentation shall be sufficient to establish that the expense was actually incurred and necessary in the performance of the Scope of Work described in this Agreement, CSA, or CPO.

3.2.2 Reimbursable Expenses are the actual, pre-approved, expenses incurred directly in connection with the applicable CSA or CPO, and include:

Overnight Deliveries
Reproduction
Sub-Consultant
Long Distance Telephone Calls (excluding Florida cities located outside the boundaries of Polk County)

3.2.3 Mileage and associated travel costs shall be reimbursed in accordance with F.S. 112.061 and County policy for pre-approved out-of-county travel (excluding travel from home offices located outside of Polk County to the Polk County line).

3.2.4 All assets, i.e. durable goods, purchased as reimbursable expenses become the property of the County upon completion of the work for which the asset was utilized. All such assets must be surrendered by delivery to the Polk County Roads and Drainage Division offices upon demand, termination of the Agreement, or the conclusion of the project, whichever occurs first.

3.2.5 Consultant shall maintain a current inventory of all such assets.

4.0 **Insurance**

4.1 General Provisions

4.1.1 Consultant shall maintain, at all times, the following minimum levels of insurance and shall, without in any way altering their liability, obtain, pay for and maintain insurance for the coverages and amounts of coverage not less than those set forth below and provide the County with a Certificate of Insurance and an opportunity to inspect a certified copy of each policy applicable to this Agreement followed thereafter by an annual Certificate of Insurance satisfactory to the County to evidence such coverage before any work commences.

4.1.2 The County shall be named as an additional insured on all Consultant policies related to the project, excluding professional liability and worker's compensation. The Commercial General Liability and Worker's Compensation Liability policies shall contain a waiver of subrogation in favor of Polk County. All insurance coverage shall be written with an insurer having an A.M. Best Rating of a least the "A" category and size category of VIII.

4.1.3 The Consultant's self-insured retention or deductible per line of coverage shall not exceed $25,000.00 without the permission of the County.

4.1.4 If there is any failure by the Consultant to comply with the provisions of this section, the County may, at its option, on notice to the Consultant, suspend the work for cause until there is full compliance.

4.1.5 County may, at its sole discretion, purchase such insurance at Consultant's expense provided that the County shall have no obligation to do so and if the County shall do so, it shall not relieve Consultant of its obligation to obtain insurance.

4.1.6 The Consultant shall not be relieved of or excused from the obligation to obtain and maintain such insurance amount and coverages.

4.1.7 All Consultants' subconsultants shall be required to include County and Consultant as additional insured on their General Liability Insurance policies.

4.1.8 In the event that subconsultants used by the Consultant do not have insurance, or do not meet the insurance limits, Consultant shall indemnify and hold harmless the County

for any claim in excess of the subconsultants' insurance coverage.

4.1.9 The Consultant shall not commence work under this Agreement until all insurance required as stated herein has been obtained and such insurance has been approved by the County.

4.2 Comprehensive Automobile Liability Insurance. $1,000,000.00 combined single limit of liability for bodily injuries, death and property damage resulting from any one occurrence, including all owned, hired, and non-owned vehicles.

4.3 Commercial General Liability. $1,000,000.00 combined single limit of liability for bodily injuries, death and property damage, and personal injury resulting from any one occurrence, including the following coverages:

4.3.1 Premises and Operations:

Broad Form Commercial General Liability Endorsement to include Blanket Contractual liability (specifically covering, but not limited to, the contractual obligations assumed by the Firm); Personal Injury (with employment and contractual exclusions deleted); and Broad Form Property Damage coverage.

4.3.2 Independent Contractors:

Delete Exclusion relative to collapse, explosion and underground; Property Damage Hazards; Cross Liability Endorsement; and Contractual liability (specifically covering, but not limited to, the contractual obligations assumed by the Firm)

4.4 Umbrella (Excess) Liability Insurance. Umbrella Liability with limits of not less than $1,000,000.00, exclusive of defense costs, to be in excess of all other coverages. Such coverage shall be at least as broad as the primary coverages above, with any excess umbrella layers written on a strict following form basis over the primary coverage. All such policies shall be endorsed to provide defense coverage obligations.

4.5 Professional Liability Insurance. $2,000,000.00 for design errors and omissions, inclusive of defense costs. Consultant shall be required to provide continuing Professional Liability Insurance to cover each project for a period of two (2) years after the project is completed. Insurance requirements may vary depending on projects as determined by the County Director of Risk

Management and Insurance. The County may require the Consultant to provide a higher level of coverage for a specific project and time frame.

4.6 Performance, Payment and Other Bonds. Consultant shall furnish Performance and Payment Bonds specific to each project if required and agreed to under the CSA or CPO for the project.

4.7 Worker's Compensation. The Consultant shall provide, pay for, and maintain worker's compensation insurance on all employees, its agents or subcontractors as required by Florida Statutes.

5.0 **Standard of Care**

5.1 Consultant has represented to the County that it has the personnel and experience necessary to perform the work in a professional and workmanlike manner.

5.2 Consultant shall exercise the same degree of care, skill, and diligence in the performance of the Services as is provided by a professional of like experience, knowledge and resources, under similar circumstances.

5.3 Consultant shall, at no additional cost to County, re-perform services which fail to satisfy the foregoing standard of care or otherwise fail to meet the requirement of this Agreement.

5.4 The Consultant warrants that all services shall be performed by skilled and competent personnel to the professional standards in the field.

6.0 **Indemnification**

6.1 General. Having considered the risks and potential liabilities that may exist during the performance of the Services and in consideration of the promises included herein, County and Consultant agree to allocate such liabilities in accordance with this Section.

6.2 Indemnification.

6.2.1 Consultant, to the extent permitted by law, shall indemnify, defend (by counsel reasonably acceptable to County) protect and hold County, and its officers, employees and agents harmless from and against any and all, claims, actions, causes of action, liabilities, penalties, forfeitures, damages, losses and expenses (including, without limitation, attorney's fees costs and

expenses incurred during negotiation, through litigation and all appeals therefrom) whatsoever including, but not limited, to those pertaining to the death of or injury to any person, or damage to any property, arising out of or resulting from (i) the failure of Consultant to comply with applicable laws, rules or regulations, (ii) the breach by Consultant of its obligations under this Agreement, (iii) any claim for trademark, patent or copyright infringement arising out of the scope of Consultant's performance or nonperformance of this Agreement, or (iv) the negligent acts, errors or omissions, or intentional or willful misconduct, of Consultant, its professional associates, its subcontractors, agents, and employees provided, however, that Consultant shall not be obligated to defend or indemnify the County with respect to any such claims or damages arising out of the County's sole negligence.

6.2.2 County review, comment and observation of the Consultant's work and performance of this Agreement shall in no manner constitute a waiver of the indemnification provisions of this Agreement.

6.2.3 Consultant agrees that it bears sole legal responsibility for its work and work product, and the work and work product of subconsultants and their employees, and/or for Consultant's performance of this Agreement and its work product(s).

6.3 Survival. Upon completion of all Services, obligations and duties provided for in this Agreement, or in the event of termination of this Agreement for any reason, the terms and conditions of this Agreement shall survive as if the Agreement were in full force and effect.

7.0 **Independent Contractor**

7.1 Consultant undertakes performance of the Services as an independent contractor and shall be wholly responsible for the methods of performance.

7.2 County shall have no right to supervise the methods used, but County shall have the right to observe such performance.

7.3 Consultant shall work closely with County in performing Services under this Agreement.

7.4 The Consultant shall not pledge the County's credit or make it a guarantor of payment or surety for any contract, debt, obligation, judgment, lien or any form of indebtedness and

shall have no right to speak for or bind the County in any manner.

7.5 Consultant further warrants and represents that it has no obligation or indebtedness that would impair its ability to fulfill the terms of this Agreement.

8.0 **Authority to Practice**

8.1 The Consultant hereby represents and warrants that it has and will continue to maintain all licenses and approvals required to conduct its business, and that it will at all times conduct its business activities in a reputable manner.

9.0 **Public Records Law**

(a) The Consultant acknowledges the County's obligations under Article I, Section 24, of the Florida Constitution and under Chapter 119, Florida Statutes, to release public records to members of the public upon request and comply in the handling of the materials created under this Agreement. The Consultant further acknowledges that the constitutional and statutory provisions control over the terms of this Agreement. In association with its performance pursuant to this Agreement, the Consultant shall not release or otherwise disclose the content of any documents or information that is specifically exempt from disclosure pursuant to all applicable laws.

(b) Without in any manner limiting the generality of the foregoing, to the extent applicable, the Contractor acknowledges its obligations to comply with Section 119.0701, Florida Statutes, with regard to public records, and shall:

(1) keep and maintain public records required by the County to perform the services required under this Agreement;

(2) upon request from the County's Custodian of Public Records or his/her designee, provide the County with a copy of the requested records or allow the records to be inspected or copied within a reasonable time at a cost that does not exceed the cost provided in Chapter 119, Florida Statutes, or as otherwise provided by law;

(3) ensure that public records that are exempt or confidential and exempt from public records disclosure requirements are not disclosed except as authorized by law for the duration of the term of this Agreement and following completion of this Agreement if the Consultant does not transfer the records to the County; and

(4) upon completion of this Agreement, transfer, at no cost, to the County all public records in possession of the Consultant or keep and maintain public records required by the County to perform the service. If the Consultant transfers all public records to the County upon completion of this Agreement, the Consultant shall destroy any duplicate public records that are exempt or confidential and exempt from public records disclosure requirements. If the Consultant keeps and maintains public records upon completion of this Agreement, the Consultant shall meet all applicable requirements for retaining public records. All records stored electronically must be provided to the County, upon request from the County's Custodian of Public Records, in a format that is compatible with the information technology systems of the County.

(c) **IF THE CONSULTANT HAS QUESTIONS REGARDING THE APPLICATION OF CHAPTER 119, FLORIDA STATUTES, TO THE**

CONTRACTOR'S DUTY TO PROVIDE PUBLIC RECORDS RELATING TO THIS AGREEMENT, CONTACT THE COUNTY'S CUSTODIAN OF PUBLIC RECORDS AT:

RECORDS MANAGEMENT LIAISON OFFICER
POLK COUNTY
330 WEST CHURCH ST.
BARTOW, FL 33830
TELEPHONE: (863) 534-7527
EMAIL: RMLO@POLK-COUNTY.NET

10.0 **Compliance with Laws**

10.1 In performance of the Services, Consultant shall comply with applicable regulatory requirements including federal, state, special district, and local laws, rules, regulations, orders, codes, criteria and standards, including those now in effect and hereafter adopted.

11.0 **Subcontracting**

11.1 The County reserves the right to accept the use of a subcontractor or to reject the selection of a particular subcontractor and to inspect all facilities of any subcontractor.

11.2 If a subcontractor fails to perform or make progress, as required by this Agreement, and it is necessary to replace the subcontractor to complete the work in a timely fashion, the Consultant shall promptly do so, subject to acceptance of the new subcontractor by the County. Failure of a Subcontactor to timely or properly perform its obligations shall not relieve Consultant of its obligations hereunder.

12.0 **Federal and State Taxes**

12.1 The County is exempt from Federal Tax and State Sales and Use Taxes. Upon request, the County will provide an exemption certificate to Consultant. The Consultant shall not be exempted from paying sales tax to its suppliers for materials to fulfill contractual obligations with the County, nor shall the Consultant be authorized to use the County's Tax Exemption Number in securing such materials.

13.0 **Public Entity Crimes**

13.1 The Consultant understands and acknowledges that this Agreement with the

County will be voidable by the County, in the event the conditions under Section 287.133, Florida Statutes applies to the Consultant, relating to conviction for a public entity crime.

14.0 **County' s Responsibilities**

14.1 County shall be responsible for providing access to all County project sites, and providing information in the County's possession that may reasonably be required by Consultant, including; existing reports, studies, financial information, and other required data that are available in the files of the County.

15.0 **Termination of Agreement**

15.1 This Agreement may be terminated by the Consultant upon thirty (30) days prior written notice to the County in the event of substantial failure by the County to perform in accordance with the terms of the Agreement through no fault of the Consultant.

15.2 This Agreement may be terminated by the County with or without cause immediately upon written notice to the Consultant.

15.3 Unless the Consultant is in breach of this Agreement, the Consultant shall be paid for services rendered to the County's satisfaction through the date of termination.

15.4 After receipt of a Termination Notice, as described in this Article 15.0, and except as otherwise directed by the County, the Consultant shall:

15.4.1 Stop work on the date and to the extent specified.

15.4.2 Terminate and settle all orders and subcontracts relating to the performance of the terminated work.

15.4.3 Transfer all work in process, completed work, and other material related to the terminated work to the County.

15.4.4 Continue and complete all parts of the work that have not been terminated.

16.0 **Uncontrollable Forces (Force Majeure)**

16.1 Either party hereunder may be temporarily excused from performance if an Event of Force Majeure directly or indirectly causes its nonperformance. An "Event of Force Majeure" is defined as any event which results in the prevention or delay of performance by a party of its obligations

under this Agreement and which is beyond the reasonable control of the nonperforming party. It includes, but is not limited to fire, flood, earthquakes, storms, lightning, epidemic, war, riot, civil disturbance, sabotage, and governmental actions. Neither party shall be excused from performance if non-performance is due to forces which are reasonably preventable, removable, or remediable and which the non-performing party could have, with the exercise of reasonable diligence, prevented, removed, or remedied prior to, during, or immediately after their occurrence. Within five (5) days after the occurrence of an Event of Force Majeure, the non-performing party shall deliver written notice to the other party describing the event in reasonably sufficient detail, along with proof of how the event has precluded the non-performing party from performing its obligations hereunder, and a good faith estimate as to the anticipated duration of the delay and the means and methods for correcting the delay. The non-performing party's obligations, so far as those obligations are affected by the Event of Force Majeure, shall be temporarily suspended during, but no longer than, the continuance of the Event of Force Majeure and for a reasonable time thereafter as may be required for the non-performing party to return to normal business operations. If excused from performing any obligations under this Agreement due to the occurrence of an Event of Force Majeure, the non-performing party shall promptly, diligently, and in good faith take all reasonable action required for it to be able to commence or resume performance of its obligations under this Agreement. During any such time period, the non-performing party shall keep the other party duly notified of all such actions required for it to be able to commence or resume performance of its obligations under this Agreement.

17.0 **Governing Law and Venue**

17.1 This Agreement shall be governed in all respects by the laws of the State of Florida and any litigation with respect thereto shall be brought only in the courts of Polk County, Florida or the United States District Court, Middle District of Florida located in Hillsborough County, Florida. Each party shall be responsible for its own attorneys' fee and other legal costs and expenses.

18.0 **Non-Discrimination**

18.1 The Consultant warrants and represents that all of its employees are treated equally during employment without regard to race, color, religion, gender, age or national origin.

19.0 **Waiver**

19.1 A waiver by either County or Consultant of any breach of this Agreement shall not be binding upon the waiving party unless such waiver is in writing. In the event of a written waiver, such a waiver shall not affect the waiving party's rights with respect to any other or further breach. The making or acceptance of a payment by either party with knowledge of the existence of a default or breach shall not operate or be construed to operate as a waiver of any subsequent default or breach.

20.0 **Severability**

20.1 The invalidity, illegality, or unenforceability of any provision of this Agreement, or the occurrence of any event rendering any portion or provision of this Agreement void, shall in no way affect the validity or enforceability of any other portion or provision of the Agreement.

20.2 Any void provision shall be deemed severed from the Agreement and the balance of the Agreement shall be construed and enforced as if the Agreement did not contain the particular portion or provision held to be void.

20.3 The parties further agree to reform the Agreement to replace any stricken provision with a valid provision that comes as close as possible to the intent of the stricken provision.

20.4 The provisions of this section shall not prevent the entire Agreement from being void should a provision which is of the essence of the Agreement be determined to be void.

21.0 **Entirety of Agreement**

21.1 The County and the Consultant agree that this Agreement sets forth the entire Agreement between the parties, and that there are no promises or understandings other than those stated herein.

21.2 This Agreement supersedes all prior agreements, contracts, proposals, representations, negotiations, letters or other communications between the County and Consultant pertaining to the Services, whether written or oral.

21.3 None of the provisions, terms and conditions contained in this Agreement may be added to, modified, superseded or otherwise altered except by written instrument executed by the parties hereto.

22.0 **Modification**

22.1 This Agreement may not be modified unless such modifications are evidenced in writing signed by both County and Consultant. Such modifications shall be in the form of a written Amendment executed by both parties.

23.0 **Successors and Assigns**

23.1 County and Consultant each binds itself and its partners, successors, permitted assigns, and legal representatives to the other party to this Agreement and to the partners, successors, executors, administrators, permitted assigns, and legal representatives of such other party.

23.2 Consultant shall not assign this Agreement without the express written approval of the County by executed amendment, which approval may be withheld in the County's sole discretion.

23.3 In the event of a merger, the surviving corporation shall be substituted for the contracting party to this agreement and such substitution shall be affirmed by the County by executed amendment.

24.0 **Contingent Fees**

24.1 The Consultant warrants that it has not employed or retained any company or person, other than a bona fide employee working solely for the Consultant to solicit or secure this Agreement and that it has not paid or agreed to pay any person, company, corporation, individual or firm, other than bona fide employee working solely for the Consultant, any fee, commission, percentage, gift or any other consideration contingent upon or resulting from the award or making of this Agreement.

25.0 **Truth-In-Negotiation Certificate**

25.1 Execution of this Agreement by the Consultant shall act as the execution of a Truth-in-Negotiation certificate certifying that the wage rates and costs used to determine the compensation provided for in this Agreement are accurate, complete, and current as of the Effective Date of this Agreement.

25.2 The said rates and costs shall be adjusted to exclude any significant sums should the County determine that the rates and costs were increased due to inaccurate, incomplete or noncurrent

wage rates or due to inaccurate representations of fees paid to outside consultants. The County shall exercise its rights under this "Certificate" within one (1) year following payment.

26.0 **Ownership of Documents**

26.1 Consultant shall be required to cooperate with other consultants relative to providing information requested in a timely manner and in the specified form. Any and all documents, records, disks, original drawings, or other information shall become the property of the County for its use and/or distribution as may be deemed appropriate by the County. Consultant is not liable for any damages, injury or costs associated with the County's use or distribution of these documents for purposes other than those originally intended by Consultant.

27.0 **Access and Audits**

27.1 Consultant shall maintain adequate records to justify all charges and costs incurred in performing the work for at least three (3) years after completion of this Agreement. The County shall have access to such books, records, and documents as required in this section for the purpose of inspection or audit during normal business hours at the Consultant's place of business.

27.2 Misrepresentations of billable time or reimbursable expenses as determined by the Auditor to the Polk County Board of County Commissioners shall result in the recovery of any resulting overpayments. The County's cost of recovery shall be the sole expense of the Consultant, including accounting and legal fees, court costs and administrative expenses.

27.3 Intentional misrepresentations of billable hours and reimbursable expenses will be criminally prosecuted to the fullest extent of the law.

27.4 All invoices submitted are subject to audit and demand for refund of overpayment up to three (3) years following completion of all services related to this Agreement.

28.0 **Notice**

28.1 Any notice, demand, communication, or request required or permitted hereunder shall be in writing and delivered in person or sent by Federal-Express or by Certified Mail, postage prepaid as follows:

As to County: Roads and Drainage Division
3000 Sheffield Road
Winter Haven, FL 33880

Attention: Director

As to Consultant: MC Squared
5911 Breckenridge Parkway
Suite G
Tampa, FL 33610

28.2 Notices shall be effective when received at the addresses as specified above. Changes in the respective addresses to which such notice is to be directed may be made from time to time by either party by written notice to the other party. Facsimile transmission is acceptable notice effective when received, however, facsimile transmissions received (i.e.; printed) after 5:00 p.m., or on weekends or holidays, will be deemed received on the next business day. The original of the notice must additionally be mailed as required herein.

28.3 Nothing contained in this Article shall be construed to restrict the transmission of routine communications between representatives of Consultant and County.

29.0 **Service of Process**

As to County: County Attorney
County Administration Building
330 W. Church Street, 4th Floor
Bartow, Florida 33830

As to Consultant: MC Squared
5911 Breckenridge Parkway
Suite G
Tampa, FL 33610

30.0 **Contract Administration**

30.1 Services of Consultant shall be under the general direction of the Roads and Drainage Division Director, or their successor, who shall act as the County's representative during the term of this Agreement.

31.0 **Key Personnel**

31.1 Consultant shall notify County in the event of key personnel changes, which might affect this Agreement. To the extent possible, notification shall be made within ten (10) days prior to changes. Consultant at County's request shall remove without consequence to the County any

Subcontractor or employee of the Consultant and replace him/her with another employee having the required skill and experience. County has the right to reject proposed changes in key personnel. The following personnel shall be considered key personnel:

Name: Nicholas S. Diorio

Name: Thomas Ali

Name: Winston Stewart

Name: Prashanth Vaddu

Name: Michael Wightman

Name: Marcelo Passos Ferreirs dos Reis

32.0. **Annual Appropriations**

32.1 Consultant acknowledges that the County, during any fiscal year, shall not expend money, incur any liability, or enter into any agreement which, by its terms, involves the expenditure of money in excess of the amounts budgeted as available for expenditure during such fiscal year. Any agreement, verbal or written, made in violation of this subsection is null and void, and no money may be paid on such agreement. Nothing herein contained shall prevent the making of agreements for a period exceeding one year, but any agreement so made shall be executory only for the value of the services to be rendered or agreed to be paid for in succeeding fiscal years. Accordingly, the County's performance and obligation to pay under this agreement is contingent upon annual appropriation.

33.0 **Liquidated Damages**

33.1 The parties hereto agree that liquidated damages, in the amount specified in the applicable CSA/CPO, will be assessed against the Consultant for Consultant's failure to meet the final deliverable date in the Performance Schedule in the Scope of Work, but only to the extent and in proportion to Consultant's fault in causing the delay as compared to other causes, and to the extent the Consultant is not delayed by reasons beyond Consultant's reasonable control.

34.0 Employment Eligibility Verification (E-VERIFY)

A. Unless otherwise defined herein, terms used in this Section which are defined in Section 448.095, Florida Statutes, as may be amended from time to time, shall have the meaning ascribed in said statute.

B. Pursuant to Section 448.095(5), Florida Statutes, the contractor hereto, and any subcontractor thereof, must register with and use the E-Verify system to verify the work authorization status of all new employees of the contractor or subcontractor. The contractor acknowledges and agrees that (i) the County and the contractor may not enter into this Agreement, and the contractor may not enter into any subcontracts hereunder, unless each party to this Agreement, and each party to any subcontracts hereunder, registers with and uses the E-Verify system; and (ii) use of the U.S. Department of Homeland Security's E-Verify System and compliance with all other terms of this Certification and Section 448.095, Fla. Stat., is an express condition of this Agreement, and the County may treat a failure to comply as a material breach of this Agreement.

C. By entering into this Agreement, the contractor becomes obligated to comply with the provisions of Section 448.095, Fla. Stat., "Employment Eligibility," as amended from time to time. This includes but is not limited to utilization of the E-Verify System to verify the work authorization status of all newly hired employees, and requiring all subcontractors to provide an affidavit attesting that the subcontractor does not employ, contract with, or subcontract with, an unauthorized alien. The contractor shall maintain a copy of such affidavit for the duration of this Agreement. Failure to comply will lead to termination of this Agreement, or if a subcontractor knowingly violates the statute or Section 448.09(1), Fla. Stat., the subcontract must be terminated immediately. If this Agreement is terminated pursuant to Section 448.095, Fla. Stat., such termination is not a breach of contract and may not be considered as such. Any challenge to termination under this provision must be filed in the Tenth Judicial Circuit Court of Florida no later than 20 calendar days after the date of termination. If this Agreement is terminated for a violation of Section 448.095, Fla. Stat., by the contractor, the contractor may not be awarded a public contract for a period of 1 year after the date of termination. The contractor shall be liable for any additional costs incurred by the County as a result of the termination of this Agreement. Nothing in this Section shall be construed to allow intentional discrimination of any class protected by law.

35.0 Limitation of Liability.

IN NO EVENT, SHALL THE COUNTY BE LIABLE TO THE CONSULTANT FOR INDIRECT, INCIDENTAL, CONSEQUENTIAL, SPECIAL, EXEMPLARY, OR PUNITIVE DAMAGES OF ANY KIND OR NATURE, INCLUDING LOSS OF PROFIT, WHETHER FORESEEABLE OR NOT, ARISING OUT OF OR RESULTING FROM THE NONPERFORMANCE OR BREACH OF THIS CONTRACT BY THE COUNTY WHETHER BASED IN CONTRACT, COMMON LAW, WARRANTY, TORT, STRICT LIABILITY, CONTRIBUTION, INDEMNITY OR OTHERWISE.

36.0 Scrutinized Companies and Business Operations Certification; Termination.

A. Certification(s).

(i) By its execution of this Agreement, the Consultant hereby certifies to the County that the Consultant is not on the Scrutinized Companies that Boycott Israel List, created pursuant to Section 215.4725, Florida Statutes, nor is the Consultant engaged in a boycott of Israel, nor was the Consultant on such List or engaged in such a boycott at the time it submitted its bid, proposal, quote, or other form of offer, as applicable, to the County with respect to this Agreement.

(ii) Additionally, if the value of the goods or services acquired under this Agreement are greater than or equal to One Million Dollars ($1,000,000), then the Vendor further certifies to the County as follows:

(a) the Consultant is not on the Scrutinized Companies with Activities in Sudan List, created pursuant to Section 215.473, Florida Statutes; and

(b) the Consultant is not on the Scrutinized Companies with Activities in the Iran Petroleum Energy Sector List, created pursuant to Section 215.473, Florida Statutes; and

(c) the Consultant is not engaged in business operations (as that term is defined in Florida Statutes, Section 287.135) in Cuba or Syria; and

(d) the Consultant was not on any of the Lists referenced in this subsection A(ii), nor engaged in business operations in Cuba or Syria when it submitted its proposal to the County concerning the subject of this Agreement.

(iii) The Consultant hereby acknowledges that it is fully aware of the penalties that may be imposed upon the Consultant for submitting a false certification to the County regarding the foregoing matters.

B. Termination. In addition to any other termination rights stated herein, the County may immediately terminate this Agreement upon the occurrence of any of the following events:

(i) The Consultant is found to have submitted a false certification to the County with respect to any of the matters set forth in subsection A(i) above, or the Consultant is found to have been placed on the Scrutinized Companies that Boycott Israel List or is engaged in a boycott of Israel.

(ii) The Consultant is found to have submitted a false certification to the County with respect to any of the matters set forth in subsection A(ii) above, or the Consultant is found to have been placed on the Scrutinized Companies with Activities in Sudan List, or the Scrutinized Companies with Activities in the Iran Petroleum Energy Sector List, or has been engaged in business operations in Cuba or Syria, and the value of the goods or services acquired under this Agreement are greater than or equal to One Million Dollars ($1,000,000).

37. No Construction Against Drafter

37.1 The Parties acknowledge that this Agreement and all the terms and conditions contained herein have been fully reviewed and negotiated by the Parties. Accordingly, any rule of construction to the effect that ambiguities are to be resolved against the drafting party shall not apply in interpreting this Agreement.

38. Unauthorized Alien(s)

The Consultant shall not employ or utilize unauthorized aliens in the performance of the Services provided pursuant to this Agreement. The County shall consider the employment or utilization of unauthorized aliens a violation of Section 274A(e) of the Immigration and Naturalization Act (8 U.S.C. 1324a) and a cause for the County's unilateral termination of this Agreement. When delivering executed counterparts of this Agreement to the County, the Consultant shall also deliver a completed and

executed counterpart of the attached "AFFIDAVIT CERTIFICATION IMMIGRATION LAWS" form.

(THE REMAINDER OF THE PAGE LEFT INTENTIONALLY BLANK)

IN WITNESS WHEREOF, the parties hereto have executed this Agreement as of the Effective Date.

PROPOSAL SUBMITTAL INSTRUCTIONS

Proposers must submit their proposal prior to 2:00 p.m. on the receiving date. Proposals must be submitted in a “sealed” parcel or electronically through Polk County’s secure website, Kiteworks. Proposals will be publicly opened at 2:00 p.m. on the receiving date.

Sealed Parcel Submittal:

If you are submitting a sealed parcel proposal submit one (1) original marked ORIGINAL and five (5) copies marked COPY of the proposal in a sealed parcel to the Procurement Division. The parcel should be labeled “RFP #23-328, Professional Geotechnical Services and Construction Material Testing and Inspection” and marked with the proposer’s name and address. The Proposals may be mailed or delivered to:

Polk County Procurement Division

330 West Church Street, Room 150

Bartow, FL 33830

To assist with labeling the sealed parcel, please cut along the outer border and affix this label. Be sure to include the name of the company submitting the proposal where requested.

Sealed Proposal. DO NOT OPEN	
RFP Number	23-328
RFP Title	Professional Geotechnical Services and Construction Material Testing and Inspection
Due Date/Time:	June 7, 2023, prior to 2:00 pm
Submitted by:	
Deliver To:	Polk County Procurement Division 330 West Church Street, Room 150, Bartow, Florida 33830

Proposals may be mailed, express mailed or hand delivered. It is the Proposers responsibility to ensure their package is delivered to the Procurement Division prior to

2:00 p.m. on the Receiving date and time referenced above. Proposals delivered at 2:00 p.m. or later will not be accepted.

Electronic Proposals Submittal:

All prospective Proposers that are interested in submitting their proposals electronically can do so via the County's secure electronic submittal website, Kiteworks. Proposers must email michaelguerrero@polk-county.net at least 48 hours prior to opening to receive a link to upload their submittal. Please only upload your documents as a PDF or Excel file for the Cost Tab, if applicable. Please use the name convention of your files as follow:

"RFP 23-328 Tab 1"

"RFP 23-328 Tab 2"

"RFP 23-328 Tab 3"

"RFP 23-328 Tab 4"

"RFP 23-328 Tab 5"

"RFP 23-328 Tab 6"

"RFP 23-328 Tab 7"

"RFP 23-328 Tab 8"

For more instructions, a video tutorial has been produced to further explain the electronic solicitation submittal process. It can be found by clicking here for RFP Submittals: https://youtu.be/vkn_7AHgioE. If you need assistance accessing this website due to ADA or any other reason, please email Michael Guerrero at michaelguerrero@polk-county.net.

Procurement recommends that Proposers submitting electronically double check the documents submitted into Kiteworks to ensure all requested tab information has been uploaded. Failure to upload the requested tab information may result in the proposal being deemed nonresponsive.

POLK COUNTY
Procurement Division
Fran McAskill
Procurement Director
REQUEST FOR PROPOSAL 23-328

Professional Geotechnical Services and Construction Material Testing and Inspection

Sealed proposals will be received in the Procurement Division, **Wednesday, June 7, 2023, prior to 2:00 p.m.**

Attached are important instructions and specifications regarding responses to this Request for Proposal (the "RFP"). The failure of a responding proposer (a "Proposer") to follow these instructions could result in Proposer disqualification from consideration for a contract to be awarded pursuant to this RFP.

This document is issued by Polk County (the "County") which is the sole distributor of this RFP and all addenda and changes to the RFP documents. The County shall record its responses to inquiries and provide any supplemental instructions or additional documents pertaining to this RFP in the form of written addenda to the RFP. The County shall post all such addenda, together with any other information pertaining to this RFP, on the County's website at

http://www.polk-county.net/procurement/procurement-bids. It is the sole responsibility of each Proposer to review the website prior to submitting a responsive proposal (a "Proposal") to this RFP to ensure that that the Proposer has obtained all available instructions, addenda, changes, supporting documents, and any other information pertaining to this RFP.

The County is not responsible for any solicitations issued through subscriber, publications, or other sources not connected with the County and the Proposer should not rely on such sources for information regarding the RFP solicitation.

Questions regarding this RFP must be in writing and must be sent to Michael Guerrero, via email at michaelguerrero@polk-county.net or via fax at (863) 534-6789. All questions must be received by May 30, 2023, 4:00 p.m.

Proposers and any prospective Proposers shall not contact, communicate with or discuss any matter relating in any way to this RFP with any member of the Polk County Board of County Commissioners or any employee of Polk County other than the County Procurement Director or the individual designated above. This prohibition begins with the issuance of the Request for Proposal and ends upon execution of a contract. Any such communication initiated by a Proposer or prospective proposer shall be grounds for disqualifying the offender from consideration for a contract to be awarded pursuant to this RFP and for contracts to be awarded pursuant to RFPs or Requests for Bid that the County may issue in the future.

A Proposer's responsive Proposal to this RFP may be mailed, express mailed, or hand delivered to:
Polk County Procurement Division
330 West Church Street, Room 150
Bartow, Florida 33830
(863)534-6757

INTRODUCTION

Polk County, a political subdivision of the State of Florida seeks professional geotechnical services and construction material testing and inspection, and as further defined in the Scope of Services below.

Polk County's Selection Process for consultants' services is in accordance with Section 287.055, Florida Statutes, the Consultants' Competitive Negotiations Act ("CCNA"). The Professional Services Selection Committee will review the qualifications of all submitting firms.

It is the intent of the County to select and negotiate a Master Consulting Agreement with multiple firm(s).

The County will negotiate a fee schedule and or overall lump sum price as part of "Selection Process", Elevation Level 4 Contract Negotiations.

Services under this contract will be in compliance with Section 287.055 of the Florida Statutes referred to as the "Consultants' Competitive Negotiation Act" (CCNA). Polk County's Procurement Procedure's Manual outlines the Procedures for Contracting for Professional Services Covered by CCNA. These procedures outline the process used for the selection of a consulting firm awarded through this RFP process.

All services must be performed in accordance with applicable Federal, State and Local regulations.

SCOPE OF SERVICES

The scope of services shall include, but not be limited to in-place density tests; standard or modified proctors; limerock bearing ratio test; compressive strength of concrete cylinders; compressive strength of soil-cement pills; Super Pave - asphalt binder content, gradations, gyratory pills, pavement density, air voids; core drill & soils analysis; steel inspection; geotechnical investigations & soil testing; asphaltic concrete inspection services; concrete testing, which includes, but is not limited to the specific services listed on Exhibit "A" at the end of this document. All reports submitted by the Consultant(s) shall include specific recommendations, as applicable.

The County shall request the services on an as-needed basis. There is no guarantee that any or all of the services described in the agreement will be assigned during the term of the agreement. Further, the Consultant is providing these services on a nonexclusive basis. The County, at its option, may elect to have any of the services set forth herein performed by other consultants or County staff.

AGREEMENT

The Master Consulting Agreement will be for five (5) years unless otherwise terminated in accordance with the master service agreement.

EVALUATION CRITERIA

Proposals should not contain information in excess of that requested, must be concise, and must specifically address the issues of this RFP. Unnecessarily elaborate brochures or other presentations beyond those sufficient to present a complete and effective response to this RFP are not desired and may be construed as an indication of the Proposer's lack of cost consciousness. Elaborate artwork, expensive visual aids, and other presentation aids are neither necessary nor desired unless specifically requested. The Proposal responses shall be contained within a three-ring binder (original and each copy in separate binders). For the purposes of this RFP, one page equals a single sided page. It is requested that the responses be in the same order as the selection and evaluation procedures. The submittals should include the following:

Tab 1 Executive Summary

(Items a-c: Maximum of two (2) pages

a) Name, company name, address, telephone number, and email address.
b) State the number of years in business, as the same company/firm.
c) State the number of full-time employees.
d) Provide documentation showing proper incorporation by the Secretary of State.
e) Provide a copy of the firm's applicable certification(s) from the State of Florida allowing them to provide the services as outlined in the Scope of Service as well as compliance with F.S. 287.055

Tab 2 Approach to the Project (35 points)

(Maximum of four (4) pages)

a) Describe in detail the components of how your firm proposes to manage assigned project(s), based upon the scope of services. Please identify the services your firm provides which make you qualified to perform the required services.
b) Describe how the firm plans to maintain the project team and manage the project team members' time in order to ensure sufficient time to complete a project.
c) Describe the firm's Quality Assurance and Quality Control program as it pertains to engineering services.

Tab 3 Experience, Expertise, Personnel and Technical Resources (35 points)

- Identify a minimum of five (5) and a maximum of eight (8) projects in which the proposer has performed within the past five (5) years as the prime proposer which best illustrate the experience of the firm and current staff as related to the desired services. At least three (3) of the projects identified should be for geotechnical services, and at least two (2) should be for construction and material testing and inspection. At least three (3) of the minimum five (5) projects

should have been performed within the state of Florida. (Maximum of one (1) page only per project).
    - For each project please provide:
        a) Name and location of the project;
        b) Size and cost of the project;
        c) Project representative name, address, phone number, and email address
        d) Date project was completed or is anticipated to be completed, if completed provide the actual completion date;
        e) The nature of the firm's responsibility on the project;
        f) List of change orders, including dollar amount, which were the result of unforeseen circumstances or design errors/oversights; and
        g) List of any time extensions created by item f above.
- Provide an organizational chart of the team highlighting the key individuals who will work on this contract.
- Provide brief resumes of the firm's key personnel to be assigned to the master service agreement including, but not limited to, the items in the list below (One (1) page maximum per resume):
    a) Name and current position held by the person
    b) Name, title and project assignment
    c) Experience:
        1) Types of projects.
        2) Size of projects (dollar value of project).
        3) What were their specific project involvements?
- Identify any sub-consultants that may be involved throughout the duration of the agreement. For each sub consultant identified please provide:
    - A brief description of their experience outlining their qualifications to perform the intended services
    - A brief resume for each key personnel that will be assigned to perform the intended services

Tab 4 Is the Firm a "Polk County Entity"? (5 Points)

- There will be a maximum of five (5) points allocated for this Tab. If the Proposer is a Polk County Entity, then five (5) points will be allocated. If the Proposer is not a Polk County Entity but is utilizing one or more sub-consultants that are a Polk County Entity to assist in performing the scope of work, then the Proposal will be allocated one (1) point for each sub-consultant which is a Polk County Entity up to a maximum of five (5) points. The Polk County Entity sub-consultant(s) must have been identified under Tab 3, Experience, Expertise, Personnel and Technical Resources in order to qualify for point allocation.
- Provide documentation of the Proposers' or sub-consultant's headquarters and local offices, if any, and the amount of time the firm has been located at each

such local office. Please also indicate the number of employees at the local office.

- Proposers or sub-consultants will be allocated points if they meet the following Polk County Government definition of Polk County Entity.
    - The term “Polk County Entity” means any business having a physical location within the boundaries of Polk County, Florida, at which employees are located and business activity is managed and controlled on a day-to-day basis. Additionally, the business must have been located within the boundaries of Polk County for a minimum of 12 months prior to the date the applicable solicitation is issued. This requirement may be evidenced through a recorded deed, an executed lease agreement, or other form of written documentation acceptable to the County. The County shall have the right, but not the obligation, to verify the foregoing requirements.
- In the event a Proposer lists one or more sub-consultants in Tab 4 which is a Polk County Entity and receives point(s) as a result, and after the Proposer is awarded the project, if successful, it is determined that the listed sub-consultant does not assist in the performance of the scope of work (and is not replaced with an alternative sub-consultant which is a Polk County Entity), then the Proposer acknowledges and agrees that it may be suspended or debarred by the Procurement Director for failure to comply with the conditions, specifications or terms of a proposal or contract with the County or for committing a fraud or misrepresentation in connection with a proposal or contract with the County, in accordance with the Polk County Purchasing Ordinance and Procedures Manual.

Tab 5 Is the Firm a “Certified Woman or Minority Business Enterprise” (5 Points)

- Polk County Board of County Commissioners has a long-standing commitment to encouraging the utilization of Women and Minority Businesses that do business with the County as vendors. To that end we encourage all of our prime and professional services vendors to utilize W/MBE vendors where at all possible, irrespective of a company’s certification status. Please explain how the submitting firm will encourage minority participation in the project. (Limit response to one page)
- There will be a maximum of five (5) points allocated for this tab. If the Proposer is a Woman or Minority owned business, then five (5) points will be allocated. If the Proposer is not a Woman or Minority owned business but is utilizing one or more sub-consultants that are a Women or Minority owned business to assist in performing the scope of work, then the Proposal will be allocated one (1) point for each sub-consultant which meets the County’s certification criteria of Women or Minority owned, up to a maximum of five (5) points. The Woman or Minority owned business sub-consultant(s) must have been identified under Tab 3, Experience, Expertise, Personnel and Technical Resources in order to qualify for point allocation.

- Proposers or sub-consultants will be allocated points if they are a certified W/MBE as evidenced by providing the documentation described below.
    - If the Proposer or sub-consultant has a certified W/MBE status, provide documentation of the firms' certified W/MBE status as defined by the Florida Small and Minority Business Act and as defined in Polk County's Purchasing Procedures. Polk County's Purchasing Procedures recognize the following to meet the requirement of a certified W/MBE status:
        - Valid W/MBE Certification from one of the following
            - Florida Minority Supplier Development Council
            - Women Business Enterprise National Council
            - The State of Florida Office of Supplier Diversity
            - Florida Department of Transportation
            - U. S. Small Business Administration
            - Federal Aviation Authority
            - Other Florida governmental agencies

  Certifications from other governmental agencies will be considered on a case-by-case basis.

- In the event a Proposer lists one or more sub-consultants in Tab 5 which is a Women or Minority owned business and receives point(s) as a result, and after the Proposer is awarded the project, if successful, it is determined that the listed sub-consultant does not assist in the performance of the scope of work (and is not replaced with an alternative sub-consultant which is a Women or Minority owned business), then the Proposer acknowledges and agrees that it may be suspended or debarred by the Procurement Director for failure to comply with the conditions, specifications or terms of a proposal or contract with the County or for committing a fraud or misrepresentation in connection with a proposal or contract with the County, in accordance with the Polk County Purchasing Ordinance and Procedures Manual.

Tab 6 Interactions with County and Regulatory Agency Staff (5 Points)

- Provide documentation supporting the specialized qualifications of the proposed staff in terms of meeting this scope of service. Qualifications should highlight experience with regulatory agencies, identifying specific agencies and the items being addressed, including construction permitting, water use permitting, consent orders, consultation, governing regulations, and other related activities. Describe the firm's ability to work with Roads and Drainage or other Division staff in order to successfully fulfill the scope of service. Demonstrate the firm's knowledge of permitting process, as well as local regulatory agencies, including, but not limited to FDOT, and SWFWMD, if applicable. **(Limit response to one (1) page)**

Tab 7 Timely Completions of Projects (5 points)

Describe the firms' current and future projected workload. Describe specifically the firms' daily ability to handle each aspect of the scope of services described herein. **(Limit response to two (2) pages maximum)**

Tab 8 Surveys of Past Performance (10 Points)

- Provide reference surveys from past clients for the projects identified under Tab 3.
- Completed surveys. (See Exhibit 1) Procurement will take the average of all surveys and score as follows:
    - Average Score between 9-10 (10 Points)
    - Average Score between 7-8 (8 Points)
    - Average Score between 5-6 (6 Points)
    - Average Score between 3-4 (4 Points)
    - Average Score between 1-2 (2 Points)
    - Average Score of 0 (0 Points)

BID OPENING

Proposers may attend the Bid Opening in person or via conference call by dialing (646) 558-8656 and enter Meeting ID: 327 647 2818. A listing of all proposers will be posted to Procurement's website as soon as possible after bid opening.

Selection Process

Proposals will be evaluated in accordance with this section and all applicable County procurement policies and procedures.

The County shall appoint a selection committee (the "Selection Committee") that will be responsible for evaluating and scoring/ranking the Proposals in accordance with this Section.

The County will use a competitive selection process based on the Elevation Levels described in this Section. At Elevation Levels 2 and 3, the Selection Committee will score and/or rank the Proposals as applicable.

Selection of a final Proposal will be based upon the following steps and factors:

Elevation Level 1 (Procurement Requirements Assessment):

- The County Procurement Division shall review all Proposals for conformance with RFP guidelines and detailed submittal requirements. At the County's discretion, non-conforming Proposals may be eliminated from further consideration and conforming Proposals shall be elevated to Elevation Level 2. Procurement will distribute Proposals and evaluation criteria to the Selection Committee.
- Procurement will also ensure all firms meet the requirement of certification as outlined in Florida Statute 287.055(3)(c).

- The Selection Committee may convene to review questions that arise during individual member review of submitted Proposals before Elevation Level 2 to allow for questions, clarifications, explanations, or other discussion to be held before the review of Proposals is completed.

Elevation Level 2 (Scoring)

- Procurement shall score each Proposal on the following evaluation criteria:
    - Local (Tab 4)-5 points
    - W/MBE Certification (Tab 5)-5 points
    - Surveys of Past Performance (Tab 8)-10 points

    Subtotal Points-20 points

    by the process stated under each corresponding Tab description as set forth on Pages 8-11.

- Each Selection Committee member shall score each Proposal on the following evaluation criteria:
    - Approach to the Project (Tab 2)-35 points
    - Experience, Expertise, Personnel and Technical Resources (Tab 3)-35 points
    - Interaction w/ County & Regulatory Agencies (Tab 6)-5 points
    - Timely Completion of Projects (Tab 7)-5 points
      Subtotal Points-80 points
      by the following process:

1) Each Selection Committee member shall determine which of the following descriptions applies to each of the foregoing evaluation criteria:
    - EXCELLENT (1.0): Of the highest or finest quality; exceptional; superior; superb; exquisite; peerless.
      The Proposer provided information for a given criteria that satisfied the requirements and described specifically how and what will be accomplished in such a manner that exhibited an exceptional and superior degree of understanding, skill, and competency, both qualitatively and quantitatively. The facts included in the narrative (including all supporting documentation, diagrams, drawings, charts, and schedules, etc.) demonstrate the Proposer's ability to perform and deliver far beyond expectation.
    - VERY GOOD (0.8): To a high degree; better than or above competent and/or skillful.
      The Proposer provided information for a given criteria that satisfied the requirements and described specifically how and what will be accomplished in such a manner that exhibited a very high degree of understanding, skill, and competency, both qualitatively and quantitatively. The facts included in the narrative (including all supporting documentation,

diagrams, drawings, charts, and schedules, etc.) demonstrate the Proposer's ability to perform and deliver beyond expectation.

- GOOD (0.6): Having positive or desirable qualities; competent; skilled; above average.
  The Proposer provided information for a given criteria that satisfied the requirements and described specifically how and what will be accomplished in such a manner that exhibited a skillful and above-average degree of understanding, skill, and competency, both qualitatively and quantitatively. The facts included in the narrative (including all supporting documentation, diagrams, drawings, charts, and schedules, etc.) demonstrate the Proposer's ability to perform and deliver at the expected level.
- FAIR (0.4): Average; moderate; mediocre; adequate; sufficient; satisfactory; standard.
  The Proposer provided information for a given criteria that satisfied the requirements and described sufficiently how and what will be accomplished in a manner that exhibited an adequate and average degree of understanding, skill, and competency, both qualitatively and quantitatively. The facts included in the narrative (including all supporting documentation, diagrams, drawings, charts, and schedules, etc.) demonstrate the Proposer's ability to perform and deliver at a level slightly below expectation.
- POOR (0.2): Inadequate; lacking; inferior in quality; of little or less merit; substandard; marginal.
  The Proposer provided information for a given criteria that did not satisfy the requirements and described in an inadequate manner how and what will be accomplished. The information provided simply reiterated a requirement, contained inaccurate statements or references, lacked adequate information, or was of inferior quality. The facts included in the narrative (including all supporting documentation, diagrams, drawings, charts, and schedules, etc.) demonstrate the Proposer's ability to perform and deliver at a substandard and inferior level.
- UNACCEPTABLE (0.0):
  The Proposer failed to provide any information for a given criteria, provided information that could not be understood, or did not provide the information for a given category as requested.

2) After a Selection Committee member has determined the description applicable for each evaluation criterion, the total points available for such criterion shall be multiplied by the factor associated with the applicable description to produce the number of points allocated for that evaluation criterion. For example, a Selection Committee member classifies the "Experience and Expertise" criterion (which shall be worth 25 points for the purpose of this example) as "Very Good" (which is a description factor multiplier of 0.8). The points that Selection Committee

member allocated for that evaluation criterion would be 20, calculated as follows: 25 available points x 0.8 applicable description factor multiplier = 20 points.

3) A Selection Committee member's total score for each Proposal shall equal the sum of the total points allocated for each evaluation criteria.
4) When all Selection Committee members have completed their Proposal evaluations, the individual Selection Committee member's total scores for each Proposal will be added together to produce a final score for each Proposal.
5) Procurement will confirm the calculations for the final score for each Proposal. Then, Procurement shall publish a rank-ordered listing of the Proposals to the Selection Committee with the Proposal receiving the highest point as the highest-ranked Proposal.
6) In accordance with Section 287.055(4)(a), Florida Statutes, if there are three (3) or more Proposers in Elevation Level 2, the Selection Committee must elevate no fewer than the three highest scored of such Proposers to Elevation Level 3 for interviews. If there are only two Proposers in Elevation Level 2, the Selection Committee must elevate those two Proposers to Elevation Level 3 for interviews. If there is only one Proposer in Elevation Level 2, then the Selection Committee may collectively decide if they would like to elevate the Proposer to Elevation Level 3 for interviews or if they would like to recommend the Board authorize staff to enter into Contract Negotiations with the Proposer. In the latter case, after Board approval to authorize staff to negotiate a contract, the Proposer will then be elevated to Elevation Level 4 for contract negotiations.

Elevation Level 3 (Proposer Interviews)
The Selection Committee are required to conduct interviews of the Proposers that it has elevated from Elevation Level 2 to Elevation Level 3.

During an interview, elevated Proposers may be requested to make a presentation focusing on their qualifications, approach to the project and the ability to furnish the required services. The Selection Committee members will have an opportunity to inquire about any aspect of the RFP and the Proposer's Proposal. After all elevated Proposer interviews, each Selection Committee member will individually rank the Proposers in numerical order beginning at number 1 for the Proposer deemed to be the most highly qualified to perform the required services. In accordance with Section 287.055(4)(b), Florida Statutes, in determining whether a Proposer is qualified, each Selection Committee member shall consider such factors as:

- Ability of Personnel
- Whether a Proposer is a certified minority business enterprise
- Past performance
- Willingness to meet time and budget requirements
- Location
- Recent, current, and projected workloads
- Volume of work previously awarded to each Proposer by the County

Procurement shall receive and compile each Selection Committee member's ranking of each Proposer, and then publish a rank-ordered listing of Proposers to the Selection Committee, based on the combined average rankings given each Proposer. The Selection Committee members will then collectively decide if they would like to recommend the Board authorize staff to enter into Contract Negotiations with all Proposers elevated to Proposer Interviews, starting with the highest-ranked Proposer(s). After Board approval to authorize staff to negotiate a contract, said Proposer(s) will then be elevated to Elevation Level 4 for contract negotiations.

Elevation Level 4 (Contract Negotiations)
If a Proposer is elevated to this level, the User Division, with the assistance of Procurement and the County Attorney's Office, shall negotiate an Agreement with the elevated Proposer(s) in accordance with Section 287.055(5), Florida Statutes.

If after negotiating for a reasonable time period the parties cannot agree on a contract, the County shall, in its sole discretion, terminate further contract negotiations with that Proposer(s). Procurement shall notify the Selection Committee that contract negotiations with the elevated Proposer(s) have terminated. The Selection Committee shall then determine whether to recommend to the Board to approve contract negotiations with the next-highest-ranked Proposer, and so on. If the Selection Committee decides not to recommend contract negotiations with the next-highest-ranked Proposer, or if the County determines there is no other Proposer with whom the County can successfully negotiate a contract, then the RFP Selection Process shall terminate.

After contract negotiations with a Proposer(s) are successfully completed pursuant to Elevation Level 4, the Selection Committee shall recommend to the Board of County Commissioners that it selects such Proposer(s) to provide the services as outlined in the Agreement. The Board of County Commissioners shall make the final decision whether to enter into an Agreement with a Proposer(s).

ATTENTION PROPOSERS

The Successful Proposer must register in our new Vendor Database if you have not already done so prior to award of this RFP. A purchase order cannot be issued to a vendor until they have registered.

You may register by going to the following link:

https://www.polk-county.net/procurement/vendor-registration

Registered vendors will receive a User ID and Password to access their company information. All registered vendors must provide their owner gender, owner ethnicity, corporate status, and a minimum of one (1) commodity code to be considered registered. It is the responsibility of all vendors to update their vendor information.

Only registered vendors will receive notifications of future RFP's.

GENERAL CONDITIONS

CONTACT

After the issuance of any Request for Proposal, prospective proposers shall not contact, communicate with, or discuss any matter relating in any way to the Request for Proposal with the Board of County Commissioners, and any employee of Polk County, other than the Procurement Director or as directed in the cover page of the Request for Proposal. This prohibition begins with the issuance of any Request for Proposal and ends upon completion execution of a contract. Such communications initiated by a proposer shall be grounds for disqualifying the offending proposer from consideration for award of the proposal and/or any future proposal.

INSURANCE REQUIREMENTS

The selected firm, if any, shall maintain, at all times, the following minimum levels of insurance and shall, without in any way altering their liability, obtain, pay for and maintain insurance for the coverages and amounts of coverage not less than those set forth below. Provide to the County original Certificates of Insurance satisfactory to the County to evidence such coverage before any work commences. Polk County, a political subdivision of the State of Florida, shall be an additional named insured on all policies related to the project, excluding workers' compensation and professional liability. The Workers' Compensation and General Liability policies shall contain a waiver of subrogation in favor of Polk County. All insurance coverage shall be written with a company having an A.M. Best Rating of at least the "A" category and size category of VIII. The firm's self-insured retention or deductible per line of coverage shall not exceed $25,000 without the permission of the County. In the event of any failure by the firm to comply with the provisions; the County may, at its option, on notice to the firm suspend the project for cause until there is full compliance. Alternatively, the County may purchase such insurance at the firm's expense, provided that the County shall have no obligation to do so and if the County shall do so, the firm shall not be relieved of or excused from the obligation to obtain and maintain such insurance amounts and coverages.

Worker's Compensation and Employer's Liability Insurance providing statutory benefits, including those that may be required by any applicable federal statute:

Admitted in Florida	Yes
Employer's Liability	$100,000
All States Endorsement	Statutory
Voluntary Compensation	Statutory

Commercial General Liability Insurance. $1,000,000 combined single limit of liability for bodily injuries, death, and property damage, and personal injury resulting from any one occurrence, including the following coverages:

Premises and Operations and Products/Completed Operations;

Broad Form Commercial General Liability Endorsement to include blanket contractual liability (specifically covering, but not limited to, the contractual obligations assumed by the Firm); Personal Injury (with employment and contractual exclusions deleted) and Broad Form Property Damage coverages;

Independent Contractors; Policy must include Separation of Insureds Clause.

Comprehensive Automobile Liability Insurance. $1,000,000 combined single limit of liability for bodily injuries, death, and property damage, and personal injury resulting from any one occurrence, including all owned, hired, and non-owned vehicles.

Professional Liability Insurance. $2,000,000 for design errors and omissions, inclusive of defense costs. Selected firm shall be required to provide continuing Professional Liability Insurance to cover the project for a period of two (2) years after the projects are completed.

INDEMNIFICATION

To the maximum extent permitted by law, the Consultant shall indemnify, protect and hold the County, and its officers, employees and agents, harmless from and against any and all, claims, actions, causes of action, liabilities, penalties, forfeitures, damages, losses, and expenses whatsoever (including, without limitation, reasonable attorneys' fees, costs, and expenses incurred during negotiation, through litigation and all appeals therefrom) including, without limitation, those pertaining to the death of or injury to any person, or damage to any property, to the extent arising out of or resulting from (i) the failure of Consultant to comply with applicable laws, rules or regulations, (ii) the breach by Consultant of its obligations under this Agreement, (iii) any claim for trademark, patent, or copyright infringement arising out of the scope of Consultant's performance or nonperformance of this Agreement, or (iv) the negligent acts, errors or omissions, or intentional or willful misconduct, of Consultant or any persons or entities employed or utilized by Consultant in the performance of this Agreement. The obligations imposed by this Section shall survive the expiration or earlier termination of the Agreement.

PUBLIC ENTITY CRIMES STATEMENT

A person or affiliate who has been placed on the convicted vendor list following a conviction for a public entity crime may not submit a bid or proposal on a contract to provide any goods or services to a public entity, may not submit a bid or proposal on a contract with a public entity for the construction or repair of a public building or public work, may not submit bids on leases of real property to a public entity, may not be awarded or perform work as a contractor, supplier, subcontractor, or consultant under a contract with any public entity, and may not transact business with any public entity in excess of the threshold amount provided in Section 287.017, for CATEGORY TWO for a period of 36 months from the date of being placed on the convicted vendor list. By submitting this proposal, the proposer hereby certifies that they have complied with said statute.

EQUAL OPPORTUNITY/AFFIRMATIVE ACTION

The County is an equal opportunity/affirmative action employer. The County is committed to equal opportunity employment effort; and expects firms that do business with the County to have a vigorous affirmative action program.

WOMEN/MINORITY BUSINESS ENTERPRISE OUTREACH

The County hereby notifies all Proposers that W/MBEs are to be afforded a full opportunity to participate in any request for proposal by the County and will not be subject to discrimination on the basis of race, color, sex or national origin.

AFFIRMATION

By submitting their proposal, the Proposer affirms that the proposal is genuine and not made in the interest of or on behalf of any undisclosed person, firm or corporation and is not submitted in conformity with any agreement or rules of any group, association, organization or corporation; the Proposer has not directly or indirectly induced or solicited any other person to submit a false or sham proposal; the Proposer has not solicited or induced any person, firm or corporation to refrain from submitting a proposal; and the Proposer has not sought by collusion to obtain for him/herself any advantage over other persons or over the County.

DEVELOPMENT COSTS

Neither the County nor its representative(s) shall be liable for any expenses incurred in connection with preparation of a response to the RFP. Proposers should prepare their proposals simply and economically, providing a straightforward and concise description of the proposer's ability to meet the requirements of the RFP.

ADDENDA

The County may record its responses to inquiries and any supplemental instructions in the form of written addenda. The addenda will be posted on the County's website at https://www.polk-county.net/procurement-bids. It is the sole responsibility of the proposers to check the website to ensure that all available information has been received prior to submitting a proposal.

CODE OF ETHICS

If any proposer violates or is a party to a violation of the code of ethics of Polk County or the State of Florida, with respect to this proposal, such proposer may be disqualified from performing the work described in this proposal or from furnishing the goods or services for which the proposal is submitted and shall be further disqualified from bidding on any future proposals for work, goods, or services for the County.

DRUG FREE WORKPLACE

Preference shall be given to businesses with Drug Free Workplace (DFW) programs. Whenever two or more proposals, which are equal with respect to price, quality and service, are received by the County for the procurement of commodities or contractual services, a proposal received from a business that has provided a statement that it is a DFW shall be given preference in the award process.

APPLICABLE LAWS AND COURTS

This RFP and any resulting agreements shall be governed in all respects by the laws of the State of Florida and any litigation with respect thereto shall be brought only in the courts of Polk County, Florida or the United States District Court, Middle District of Florida, located in Hillsborough County, Florida. The proposer shall comply with all applicable federal, state and local laws and regulations.

CONTRACTUAL MATTERS

A contract in substantially the same form as attached here to as Attachment "A" (Master Consulting Agreement) will be executed between the County and the successful Proposer(s).

All contracts are subject to final approval of the Polk County Board of County Commissioners. Persons or firms who incur expenses or change position in anticipation of a contract prior to the Board's approval do so at their own risk.

PROPOSAL ACCEPTANCE PERIOD

A proposal shall be binding upon the offeror and irrevocable by it for one hundred and twenty (120) calendar days following the proposal opening date. Any proposal in which offeror shortens the acceptance period may be rejected.

ADDITION/DELETION

The County reserves the right to add to or delete any item from this proposal or resulting agreements when deemed to be in the best interest of the County.

PROPRIETARY INFORMATION

In accordance with Chapter 119 of the Florida Statutes (Public Records Law), and except as may be provided by other applicable State and Federal Law, all proposers should be aware that Request for Proposals and the responses thereto are in the public domain. However, the proposers are required to identify specifically any information contained in their proposals which they consider confidential and/or proprietary and which they believe to be exempt from disclosure, citing specifically the applicable exempting law. Proposers should provide a redacted copy of proposal with submittal or must provide within thirty (30) days from the Proposal due date.

All proposals received from proposers in response to this Request for Proposal will become the property of the County and will not be returned to the proposers. In the event of contract award, all documentation produced as part of the contract will become the exclusive property of the County.

REVIEW OF PROPOSAL FILES

In accordance with Chapter 119.071 of the Florida Statutes, the responses received for this Request for Proposal are exempt from review for thirty (30) days after the Bid Opening Date or at Recommendation of Award, whichever event occurs first.

Should the RFP be cancelled and re-solicited for any reason, proposal responses shall remain exempt from disclosure for a period not to exceed twelve (12) months or at Recommendation of Award of the subsequent solicitation.

RFP PROTEST: Any proposer desiring to file a protest, with respect to a recommended award of any RFP, shall do so by filing a written protest. The written protest must be in the possession of the Procurement Division within three (3) working days of the Notice of Recommended Award mailing date. All proposers who submitted a proposal will be sent a Notice of Recommended Award, unless only one proposal was received.

A copy of the protest procedures may be obtained from the Polk County Procurement Division or can be downloaded from the County's website at https://www.polk-county.net/procurement/protest-procedures.

FAILURE TO FOLLOW PROTEST PROCEDURE REQUIREMENTS WITHIN THE TIME FRAMES PRESCRIBED HEREIN AS ESTABLISHED BY POLK COUNTY, FLORIDA, SHALL CONSTITUTE A WAIVER OF THE PROPOSER'S RIGHT TO PROTEST AND ANY RESULTING CLAIM.

UNAUTHORIZED ALIEN(S) The Consultant agrees that unauthorized aliens shall not be employed nor utilized in the performance of the requirements of this solicitation. The County shall consider the employment or utilization of unauthorized aliens a violation of Section 274A(e) of the Immigration and Naturalization Act (8 U.S.C. 1324a). Such violation shall be cause for unilateral termination of this Agreement by the County. As part of the response to this solicitation, the successful consultant will complete and submit the form "AFFIDAVIT CERTIFICATION IMMIGRATION LAWS."

EMPLOYMENT ELIGIBILITY VERIFICATION (E-Verify)

A. Unless otherwise defined herein, terms used in this Section which are defined in Section 448.095, Florida Statutes, as may be amended from time to time, shall have the meaning ascribed in said statute.

B. Pursuant to Section 448.095(2)(a), Florida Statutes, effective January 1, 2021, public employers, contractors and subcontractors shall register with and use the E-verify system in order to verify the work authorization status of all newly hired employees. The Contractor acknowledges and agrees that use of the U.S. Department of Homeland Security's E-Verify System and compliance with all other terms of this Certification and Section 448.095, Fla. Stat., is an express condition of this Agreement, and the County may treat a failure to comply as a material breach of this Agreement.

C. By entering into this Agreement, the Contractor becomes obligated to comply with the provisions of Section 448.095, Fla. Stat., "Employment Eligibility," as amended from time to time. This includes but is not limited to utilization of the E-Verify System to verify the work authorization status of all newly hired employees, and requiring all subcontractors to provide an affidavit attesting that the subcontractor does not employ, contract with, or subcontract with, an unauthorized alien. The Contractor shall maintain a copy of such affidavit for the duration of the contract. Failure to comply will lead to termination of this Agreement, or if a subcontractor knowingly violates the statute or

Section 448.09(1), Fla. Stat., the subcontract must be terminated immediately. Any challenge to termination under this provision must be filed in the Tenth Judicial Circuit Court of Florida no later than 20 calendar days after the date of termination. If this Agreement is terminated for a violation of the statute by the Contractor, the Contractor may not be awarded a public contract for a period of 1 year after the date of termination. The Contractor shall be liable for any additional costs incurred by the County as a result of the termination of this Agreement. Nothing in this Section shall be construed to allow intentional discrimination of any class protected by law.

LIMITATIONS

This request does not commit Polk County to award a contract. Proposers will assume all costs incurred in the preparation of their response to this RFP. The County reserves the right to: 1) accept or reject qualifications and/or proposals in part or in whole; 2) request additional qualification information; 3) limit and determine the actual contract services to be included in a contract; 4) obtain information for use in evaluating submittals from any source and 5) reject all submittals.

ATTORNEY'S FEES AND COSTS: Each party shall be responsible for its own legal and attorney's fees, costs and expenses incurred in connection with any dispute or any litigation arising out of, or relating to this Agreement, including attorney's fees, costs and expenses incurred for any appellate or bankruptcy proceedings.

PUBLIC RECORD LAWS

(a) The Consultant acknowledges the County's obligations under Article I, Section 24, of the Florida Constitution and under Chapter 119, Florida Statutes, to release public records to members of the public upon request and comply in the handling of the materials created under this Agreement. The Consultant further acknowledges that the constitutional and statutory provisions control over the terms of this Agreement. In association with its performance pursuant to this Agreement, the Consultant shall not release or otherwise disclose the content of any documents or information that is specifically exempt from disclosure pursuant to all applicable laws.

(b)Without in any manner limiting the generality of the foregoing, to the extent applicable, the Consultant acknowledges its obligations to comply with Section 119.0701, Florida Statutes, with regard to public records, and shall:

(1) keep and maintain public records required by the County to perform the services required under this Agreement;

(2) upon request from the County's Custodian of Public Records or his/her designee, provide the County with a copy of the requested records or allow the records to be inspected or copied within a reasonable time at a cost that does not exceed the cost provided in Chapter 119, Florida Statutes, or as otherwise provided by law;

(3) ensure that public records that are exempt or confidential and exempt from public records disclosure requirements are not disclosed except as authorized by law for the duration of the term of this Agreement and following completion of this Agreement if the Consultant does not transfer the records to the County; and

(4) upon completion of this Agreement, transfer, at no cost, to the County all public records in possession of the Consultant or keep and maintain public records required by the County to perform the service. If the Consultant transfers all public records to the County upon completion of this Agreement, the Contractor shall destroy any duplicate public records that are exempt or confidential and exempt from public records disclosure requirements. If the Consultant keeps and maintains public records upon completion of this Agreement, the Consultant shall meet all applicable requirements for retaining public records. All records stored electronically must be provided to the County, upon request from the County's Custodian of Public Records, in a format that is compatible with the information technology systems of the County.

(c) **IF THE CONSULTANT HAS QUESTIONS REGARDING THE APPLICATION OF CHAPTER 119, FLORIDA STATUTES, TO THE CONSULTANT'S DUTY TO PROVIDE PUBLIC RECORDS RELATING TO THIS AGREEMENT, CONTACT THE COUNTY'S CUSTODIAN OF PUBLIC RECORDS AT:**

Scrutinized Companies and Business Operations Certification; Termination.

A. Certification(s).
   i. By its execution of this Agreement, the Vendor hereby certifies to the County that the Vendor is not on the Scrutinized Companies that Boycott Israel List, created pursuant to Section 215.4725, Florida Statutes, nor is the Vendor engaged in a boycott of Israel, nor was the Vendor on such List or engaged in such a boycott at the time it submitted its bid, proposal, quote, or other form of offer, as applicable, to the County with respect to this Agreement.
   ii. Additionally, if the value of the goods or services acquired under this Agreement are greater than or equal to One Million Dollars ($1,000,000), then the Vendor further certifies to the County as follows:
      a) the Vendor is not on the Scrutinized Companies with Activities in Sudan List, created pursuant to Section 215.473, Florida Statutes; and
      b) the Vendor is not on the Scrutinized Companies with Activities in the Iran Petroleum Energy Sector List, created pursuant to Section 215.473, Florida Statutes; and
      c) the Vendor is not engaged in business operations (as that term is defined in Florida Statutes, Section 287.135) in Cuba or Syria; and
      d) the Vendor was not on any of the Lists referenced in this subsection A(ii), nor engaged in business operations in Cuba or

Syria when it submitted its proposal to the County concerning the subject of this Agreement.

iii. The Vendor hereby acknowledges that it is fully aware of the penalties that may be imposed upon the Vendor for submitting a false certification to the County regarding the foregoing matters.

B. Termination. In addition to any other termination rights stated herein, the County may immediately terminate this Agreement upon the occurrence of any of the following events:

i. The Vendor is found to have submitted a false certification to the County with respect to any of the matters set forth in subsection A(i) above, or the Vendor is found to have been placed on the Scrutinized Companies that Boycott Israel List or is engaged in a boycott of Israel.

ii. The Vendor is found to have submitted a false certification to the County with respect to any of the matters set forth in subsection A(ii) above, or the Vendor is found to have been placed on the Scrutinized Companies with Activities in Sudan List, or the Scrutinized Companies with Activities in the Iran Petroleum Energy Sector List, or has been engaged in business operations in Cuba or Syria, and the value of the goods or services acquired under this Agreement are greater than or equal to One Million Dollars ($1,000,000).

Proposers Incorporation Information

(Submittal Page)

The following section should be completed by all bidders and submitted with their bid submittal:

Company Name: _____

DBA/Fictitious Name (if applicable): _____

TIN #: _____

Address: _____

City: _____

State: _____

Zip Code: _____

County: _____

Note: Company name must match legal name assigned to the TIN number. A current W9 should be submitted with your bid submittal.

Contact Person: _____

Phone Number: _____

Cell Phone Number: _____

Email Address: _____

Type of Organization (select one type)

- □ Sole Proprietorship
- □ Partnership
- □ Non-Profit
- □ Sub Chapter
- □ Joint Venture
- □ Corporation
- □ LLC
- □ LLP
- □ Publicly Traded
- □ Employee Owned

State of Incorporation: _____

The Successful vendor must complete and submit this form prior to award. The Successful vendor must invoice using the company name listed above.

EXHIBIT 1
DETAILED INSTRUCTIONS ON HOW TO PREPARE AND SEND PERFORMANCE SURVEYS

The objective of this process is to identify the past performance of the Contractor submitting a proposal package. This is accomplished by sending survey forms to past customers. The customers should return the forms directly to the Contractor. The Contractor is to include all surveys in their proposal package.

Sending the Survey

The surveys shall be sent to all clients for whom the Contractor has identified under Tab 3. Surveys should correlate to all projects identified under Tab 3.

If more surveys are included, then Procurement will only use those identified under Tab 3.

1. The Contractor shall complete the following information for each customer that a survey will be sent

CLIENT NAME	Name of the company that the work was performed for (i.e. Hillsborough County).
FIRST NAME	First name of the person who will answer customer satisfaction questions.
LAST NAME	Last name of the person who will answer customer satisfaction questions.
PHONE NUMBER	Current phone number for the reference (including area code).
EMAIL ADDRESS	Current email address for the reference.
PROJECT NAME	Name of the project (Geotechnical Services/Construction Material Testing and Inspection for X Project)
COST OF SERVICES	Cost of services ($250,000)
DATE COMPLETE	Date when the services were completed. (i.e. 5/31/2022)

2. The Contractor is responsible for verifying that their information is accurate prior to submission for references.

3. The survey must contain different services/projects. You cannot have multiple people evaluating the same job. However, one person may evaluate several different jobs.

4. The past projects can be either completed or on-going.

5. The past client/owner must evaluate and complete the survey.

Preparing the Surveys

1. The Contractor is responsible for sending out a performance survey to the clients that have been identified under Tab 3. The survey can be found on the next page.
2. The Contractor should enter the past clients' contact information, and project information on each survey form for each reference. The Contractor should also enter their name as the Contractor being surveyed.
3. The Contractor is responsible for ensuring all references/surveys are included in their submittal under Tab 8
4. Polk County Procurement may contact the reference for additional information or to clarify survey data. If the reference cannot be contacted, there will be no credit given for that reference.

Survey Questionnaire – Polk County

RFP 23-328, Professional Geotechnical Services and Construction Material Testing and Inspection

To: _____ (Name of Person completing survey)

_____ (Name of Client Company/Contractor)

Phone Number: _____ Email: _____

Subject: Past Performance Survey of Similar work:

Project name: _____

Name of Vendor being surveyed: _____

Cost of Services: Original Cost: _____ Ending Cost: _____

Contract Start Date: _____ Contract End Date: _____

Rate each of the criteria on a scale of 1 to 10, with 10 representing that you were very satisfied (and would hire the Consultant /individual again) and 1 representing that you were very unsatisfied (and would never hire the Consultant /individual again). Please rate each of the criteria to the best of your knowledge. If you do not have sufficient knowledge of past performance in a particular area, leave it blank.

NO	CRITERIA	UNIT	SCORE
1	Ability to manage cost	(1-10)	
2	Ability to maintain project schedule (complete on-time/early)	(1-10)	
3	Quality of workmanship	(1-10)	
4	Professionalism and ability to manage	(1-10)	
5	Close out process	(1-10)	
6	Ability to communicate with Client's staff	(1-10)	
7	Ability to resolve issues promptly	(1-10)	
8	Ability to follow protocol	(1-10)	
9	Ability to maintain proper documentation	(1-10)	
10	Appropriate application of technology	(1-10)	
11	Overall Client satisfaction and comfort level in hiring	(1-10)	
12	Ability to offer solid recommendations	(1-10)	
13	Ability to facilitate consensus and commitment to the plan of action among staff	(1-10)

Exhibit “A”
Specific Services

Specific services shall include, but not be limited to, sampling and testing of soils, concrete, asphalt and various other construction materials.

1.	In-Place density tests
2.	Standard or modified proctors
3.	Limerock Bearing Ratio tests (3 points)
4.	Compressive strength of concrete cylinders (4 per set)
5.	Compressive strength of soil-cement pills (4 per set)
6.	Core drilling & soils analysis
	STEEL INSPECTION
1.	Inspection of Welds & Bolt Torqueing A) At Plant B) At Job Site 1. One (1) Man Inspection Crew 2. Two (2) Men Inspection Crew
2.	Reinforcing Steel Inspection
3.	Nondestructive Testing of Steel & Connections
	GEOTECHNICAL INVESTIGATIONS & SOIL TESTS
1.	**Standard Penetration Test Borings (ASTM D-1586)(Minimum 50 feet per job)** A) 0-50 foot depth interval B) 50-100 foot depth interval C) 100-125 foot depth interval D) 125-150 foot depth interval
2.	Solid Auger Stem Borings (minimum 100 feet per job)
3.	Manual Auger Borings
4.	Drill Service from Floating Platform
5.	Rock Coring
6.	Installation of Steel Casing

7.	Ground Penetrating Radar
8.	Cone Penetrometer Radar
9.	Dilatometer Soundings
10.	Atterberg Limits A) Liquid Limit (LL) – Plastic Limit (PL) B) Shrinkage Limit (SL)
11.	California Bearing Ratio
12.	Consolidation A) Consolidation with Reload
13.	Corrosion Resistance (pH and R)
14.	Field Density Tests (minimum 3 tests per trip)
15.	Florida Bearing Value (FBCV)
16.	Florida Bearing Value Determination of Blend Proportions
17.	Grain Size: A) Hydro Analysis B) Sieve Analysis (Wash No. 200 Sieve)
18.	Ground Penetrating Radar
	GEOTECHNICAL INVESTIGATIONS & SOIL TESTS
19.	Limerock Bearing Ratio (LBR) (3 point)
20.	Limerock Bearing Ratio (LBR) (5 point)
21.	Moisture Content
22.	Moisture Density Test (Standard or Modified Proctor)
23.	Muck Probing 2 Man Crew 3 Man Crew
24.	Organic Content Determination
25.	Monitor Well Installation includes permits, lithologic log, and report – 2” or 4” PVC with removable, water-tight plug
	Hollow Stem Auger Boring
	Casing: 2-inch PVC (site spec. may require stickup)
	Casing: 4-inch PVC (site spec. may require stickup)
	Casing: 2-inch Steel (site spec. may require stickup)

	Casing: 4-inch Steel (site spec. may require stickup)
	0.010-inch Filter Screen: 2-inch PVC + min. 6-inch tail
	0.005-inch Filter Screen: 2-inch PVC + min. 6-inch tail
	0.010-inch Filter Screen: 4-inch PVC + min. 6-inch tail
	0.005-inch Filter Screen: 4-inch PVC + min. 6-inch tail
	Filter Sand: Varies from approx. 30/65 to approx. 20/30
	Bentonite: Chips / Balls
	Bentonite: Slurry / Slurry by tremie pipe
	Neat Grout
	Protective Casing (Hinged top and lockable) w/ name plate
	Concrete Pad (2'x2'x4" above-ground or 12-inch flush-mount round)
	Concrete-filled, Painted, Protective Bollard min. 4.5-inch O.D. max 6-inch O.D. (4-foot tall / 2-foot buried)
26.	Well Abandonment includes permits and report
	2-inch Well
	4-inch Well
27.	Tracked-Mounted Direct Push Technology (DPT) Rig w/all equipment and crew
	GEOTECHNICAL INVESTIGATIONS & SOIL TESTS
28.	pH
29.	Permeability Tests – Field (15', 2 depths) (Excluding auger borings & vertical permeability)
30.	Permeability Tests – Laboratory Granular Soil Cohesive Soil
31.	Soil-Cement, Field Testing & Observation
32.	Soil-Cement, Laboratory Design Mixes (FOB Laboratory)

33.	Soil Plate Load Test (ASTM)
34.	Specific Gravity
35.	Double Ring Infiltrometer Test
36.	Relative Density Test
37.	Triaxial Compression Test (CU) (3 points) Additional points
38.	Unconfined Compression Tests
39.	Undisturbed Thin-Walled Tube Sampling
40.	Unit Weight
	ASPHALTIC CONCRETE INSPECTION SERVICES
1.	Asphaltic Concrete Paving Plant Inspection
2.	Asphalt Mix-Gradation
3.	Asphalt Mix-Bulk Specific Gravity
4.	Asphalt Mix-Gradation
5.	Asphalt Mix- Maximum Specific Gravity
6.	Asphalt Mix- Temperature
7.	RAP – Asphalt Binder Content
8.	RAP – Gradation
9.	RAP- Maximum Specific Gravity
10.	Coring Pavement for Density and/or Thickness
11.	Asphalt Core Density (core provided by others)
12.	Gyratory Compaction for SuperPave AASH to TP4-00
13.	Quantitative Determination of Asphalt Content from Asphalt Paving Mixtures by the Ignition Method FM5-563
	CONCRETE TESTING
	Concrete Aggregate Tests (FOB Lab)
1.	Sieve Analysis, Fine or Coarse
2.	Absorption
3.	Specific Gravity

4.	Unit Weight
5.	Material Finer than No. 200 Sieve
6.	Organic (Color metric ASTM C-40)
7.	Salt Content
8.	Los Angeles Abrasion
9.	Soundness (5 cycle sodium sulfate) (5 cycle magnesium sulfate)
10.	Masonry Mortar strength Comparative, Sand or Water
	Concrete Beams
11.	Flexural Strength, Making & Testing (3 tests per set)
	Concrete Masonry Units or Prisms
12.	Compressive Strength, ASTM C-140, 5 Specimens
13.	Absorption & Moisture Content, ASTM C-150, 5 Specimens
14.	Compressive Strength Testing of Hollow Masonry Prisms ASTM E-477 (FOB)
15.	Compressive Strength Testing of Hollow Masonry Prisms with Grouted Cells, ASTM E-477
16.	Molding, Curing & Testing of 2” x 2” Masonry Mortar Cubes (set of 3 cubes)
17.	Concrete Masonry Units, ASTM Test (5 Compression & 5 Absorption Tests)
	Concrete Coring
18.	Securing Structural or Pavement Cores, Compression Tests & Thickness
19.	Coring Site Accessible – Does not include mobilization charge, staging and/or scaffolding, 4” diameter or smaller, 6” thickness or less. Compressive Strength of Concrete Cores (cores provided by others)
	Grout Cubes
20.	Making and Compression Tests of 2” Cubes from Job Site (set of 3)

	Concrete Cylinders
21.	Making & Compression Tests of 6” x 12” Cylinders (Slump Test Included)
22.	Compression Tests of 6” x 12” Cylinders
23.	Extra Slump Tests
24.	Air Content Tests
	Concrete Design Mixes
25.	Concrete Design Mixes (including standard aggregate tests & one trial batch with 6 compression test cylinders)
26.	Brush/Loss (for soil Cement basis) ASTM Durarock & Pug Mix
27.	Linear Shrinkage Tests of Concrete Block (ASTM 426)
28.	Concrete Ready Mix Plant or Job Inspection
29.	Pre-Fabricated Panel Tests, ASTM or FHA

ADDENDUM #1

RFP 23-328, Professional Geotechnical Services and Construction Material Testing and Inspection

CLARIFICATION

DELETE IN ITS ENTIRETY:

Page 20, Contractual Matters

A contract in substantially the same form as attached here to as Attachment "A" (Master Consulting Agreement) will be executed between the County and the successful Proposer(s).

All contracts are subject to final approval of the Polk County Board of County Commissioners. Persons or firms who incur expenses or change position in anticipation of a contract prior to the Board's approval do so at their own risk.

REPLACE WITH:

A contract in substantially the same form as attached here to as Attachment "B" (Master Consulting Agreement) will be executed between the County and the successful Proposer(s).

All contracts are subject to final approval of the Polk County Board of County Commissioners. Persons or firms who incur expenses or change position in anticipation of a contract prior to the Board's approval do so at their own risk.

DRAFT AGREEMENT
MASTER CONSULTING AGREEMENT

THIS AGREEMENT is entered into as of the Effective Date (defined in Section 1.1 below) by and between Polk County (the "County"), a political subdivision of the State of Florida, situated at 330 W. Church Street, Bartow, Florida 33830, _____ (the "Consultant") a _____ _____, located at _____, and whose Federal Employer Identification Number is: _____.

WHEREAS, County requires certain professional services in connection with the performance of certain professional geotechnical services and construction material testing and inspection for all Divisions in the County; and,

WHEREAS, the County has solicited for these services via RFP 23-328, an advertised request for proposals (the "RFP"), and has received numerous responsive proposals thereto; and

WHEREAS, pursuant to the RFP, the County has selected the Consultant and the Consultant remains agreeable to providing the County the professional services described herein, and the Consultant represents that it is capable and prepared to do so according to the terms and conditions stated herein;

NOW, THEREFORE, in consideration of the mutual understandings and covenants set forth herein, the parties hereby agree, as follows:

1.0 **Term**

1.1 This Agreement shall take effect on the date of its execution by the County (the "Effective Date").

1.2 The term of this Agreement shall be for a five (5) year time period, commencing upon the Effective Date and remaining in full force and effect thereafter, unless otherwise sooner terminated as provided herein.

2.0 **Services to Be Performed by Consultant**

2.1 Consultant shall perform the services as generally described in (i) the County's Request for Proposals RFP 23-328, to include all attachments and addenda, and (ii) the Consultant's responsive proposal thereto (collectively, (i) and (ii) are "RFP 23-328") all of which are incorporated into this Agreement by this reference, attached hereto as a composite Exhibit "A" and made a part of

this Agreement, and as may be further specifically designated and authorized by the County, in writing (collectively, the "Services"). Such authorization will be referred to as a Consultant Services Authorization ("CSA") or a Contract Purchase Order ("CPO") and all provisions of this Agreement apply to the CSA/CPO with full force and effect as if appearing in full within each CSA/CPO. Each CSA/CPO will set forth a specific Scope of Services, maximum limit of compensation, schedule, liquidated damages and completion date, and shall become effective upon the due execution.

2.2 The Consultant is not authorized to undertake any project without a duly executed CSA/CPO, which shall specify the work to be performed and the time to be completed. Consultant recognizes that the County may employ several different Consultants to perform the work described and that the Consultant has not been employed as the exclusive agent to perform any such services.

2.3 When the Consultant and the County enter into a CSA/CPO where the term of the CSA/CPO expires on a date that is later than the date that the Master Consulting Agreement (MCA) expires, the Consultant and the County agree that the terms of the MCA and any amendments, attachments or provisions thereof are automatically extended until the expiration (including any extension or amendment thereto) or full completion of the requirements of the CSA/CPO have been performed. Cancellation by the County of any remaining work prior to the full completion of the requirements of the CSA/CPO shall cause the terms of the MCA to terminate at the same time. This provision only applies when the expiration of the CSA/CPO extends beyond the expiration of the MCA. It does not apply when a CSA/CPO expires or is cancelled prior to the expiration of the MCA.

3.0 **Compensation**

3.1 General

3.1.1 County shall pay Consultant in accordance with Exhibit "B", "Fee Schedule", which is attached hereto and incorporated by reference as part of this Agreement. The fee schedule identifies all job classifications, which will perform billable services pursuant to this Agreement and the fee for each job classification. Performance of work by personnel in job classifications not listed on the fee schedule will result in nonpayment for such services.

3.1.2 Upon the mutual agreement of the parties, the Fee Schedule, as set out in Exhibit "B" may be adjusted by a written Amendment to the Master Consulting Agreement annually beginning one year from the Effective Date of this Agreement. Such amendment must be executed by both parties and shall operate prospectively only and shall not alter fee schedules for CSA's/CPO's in effect at the time of the amendment.

3.1.3 Compensation may be negotiated as a not to exceed price or a lump sum amount on a per-project basis, on each individual CSA/CPO.

3.1.4 In the event a not to exceed price is negotiated, compensation shall be billed and paid based on and in accordance with the Hourly Rate Schedule attached hereto and incorporated herein as Exhibit "B". The Hourly Rate Schedule identifies all job classifications which will perform billable services pursuant to this Agreement and the fee for each job classification. Performance of work by personnel in job classifications not listed on the fee schedule will result in nonpayment for such services.

3.1.5 Invoices must reference the applicable CSA/CPO number, using an invoice form approved by the County Auditor.

3.1.6 Each individual invoice shall be due and payable forty-five (45) days after receipt by the County of correct, fully documented, invoice, in form and substance satisfactory to the County with all appropriate cost substantiations attached. All invoices shall be delivered, as applicable based on the particular project:

Polk County Roads & Drainage Division
P.O. Box 9005, Bartow, FL 33830
Attention: Director

3.1.7 In order for both parties herein to close their books and records, the Consultant will clearly state "Final Invoice" on the Consultant's final/last billing to the County. This certifies that all services have been properly performed and all charges and costs have been invoiced to the County. Since this account will thereupon be closed, any and other further charges if not properly included on this final invoice are waived by the Consultant.

3.1.8 Payment of the final invoice shall not constitute evidence of the County's

DRAFT

acceptance of the work

3.1.9 Invoices shall be accompanied by time and task records for all billable hours appearing on the invoice. Additional documents may be requested by County and, if so requested, shall be furnished by Consultant to County Auditor's satisfaction.

3.1.10 By submission of an invoice, the project manager or designated payroll officer is deemed to be attesting to the correctness and accuracy of time charges and requested reimbursements.

3.1.11 Pursuant to Section 3.1.4, if a not to exceed fee is negotiated, invoices shall be accompanied by time and task records for all billable hours appearing on the invoice. Alternatively, if a lump sum amount is negotiated, invoices shall be made upon the completion of each phase of the work in proportion to the Services performed, as specifically set forth in the applicable CSA or CPO. Additional documentation may be requested by the County and, if so requested, shall be furnished by the Consultant to the County Auditor's satisfaction.

3.2 Reimbursable

3.2.1 All requests for payment of out-of-pocket expenses eligible for reimbursement under the terms of this Agreement shall be reimbursed per the County's Reimbursable Schedule, Exhibit "C", and include copies of paid receipts, invoices or other documentation acceptable to the County's Auditor. Such documentation shall be sufficient to establish that the expense was actually incurred and necessary in the performance of the Scope of Work described in this Agreement, CSA, or CPO.

3.2.2 Reimbursable Expenses are the actual, pre-approved, expenses incurred directly in connection with the applicable CSA or CPO, and include:

Overnight Deliveries
Reproduction
Sub-Consultant
Long Distance Telephone Calls (excluding Florida cities located outside the boundaries of Polk County)

3.2.3 Mileage and associated travel costs shall be reimbursed in accordance with F.S. 112.061 and County policy for pre-approved out-of-county travel (excluding travel from home

DRAFT

offices located outside of Polk County to the Polk County line).

3.2.4 All assets, i.e. durable goods, purchased as reimbursable expenses become the property of the County upon completion of the work for which the asset was utilized. All such assets must be surrendered by delivery to the Polk County Roads & Drainage Division offices upon demand, termination of the Agreement, or the conclusion of the project, whichever occurs first.

3.2.5 Consultant shall maintain a current inventory of all such assets.

4.0 **Insurance**

4.1 General Provisions

4.1.1 Consultant shall maintain, at all times, the following minimum levels of insurance and shall, without in any way altering their liability, obtain, pay for and maintain insurance for the coverages and amounts of coverage not less than those set forth below and provide the County with a Certificate of Insurance and an opportunity to inspect a certified copy of each policy applicable to this Agreement followed thereafter by an annual Certificate of Insurance satisfactory to the County to evidence such coverage before any work commences.

4.1.2 The County shall be named as an additional insured on all Consultant policies related to the project, excluding professional liability and worker's compensation. The Commercial General Liability and Worker's Compensation Liability policies shall contain a waiver of subrogation in favor of Polk County. All insurance coverage shall be written with an insurer having an A.M. Best Rating of a least the "A" category and size category of VIII.

4.1.3 The Consultant's self-insured retention or deductible per line of coverage shall not exceed $25,000.00 without the permission of the County.

4.1.4 If there is any failure by the Consultant to comply with the provisions of this section, the County may, at its option, on notice to the Consultant, suspend the work for cause until there is full compliance.

4.1.5 County may, at its sole discretion, purchase such insurance at Consultant's expense provided that the County shall have no obligation to do so and if the County shall do so, it shall not relieve Consultant of its obligation to obtain insurance.

DRAFT

4.1.6 The Consultant shall not be relieved of or excused from the obligation to obtain and maintain such insurance amount and coverages.

4.1.7 All Consultants' subconsultants shall be required to include County and Consultant as additional insured on their General Liability Insurance policies.

4.1.8 In the event that subconsultants used by the Consultant do not have insurance, or do not meet the insurance limits, Consultant shall indemnify and hold harmless the County for any claim in excess of the subconsultants' insurance coverage.

4.1.9 The Consultant shall not commence work under this Agreement until all insurance required as stated herein has been obtained and such insurance has been approved by the County.

4.2 Comprehensive Automobile Liability Insurance. $1,000,000.00 combined single limit of liability for bodily injuries, death and property damage resulting from any one occurrence, including all owned, hired, and non-owned vehicles.

4.3 Commercial General Liability. $1,000,000.00 combined single limit of liability for bodily injuries, death and property damage, and personal injury resulting from any one occurrence, including the following coverages:

4.3.1 Premises and Operations:

Broad Form Commercial General Liability Endorsement to include Blanket Contractual liability (specifically covering, but not limited to, the contractual obligations assumed by the Firm); Personal Injury (with employment and contractual exclusions deleted); and Broad Form Property Damage coverage.

4.3.2 Independent Contractors:

Delete Exclusion relative to collapse, explosion and underground; Property Damage Hazards; Cross Liability Endorsement; and Contractual liability (specifically covering, but not limited to, the contractual obligations assumed by the Firm)

4.4 Umbrella (Excess) Liability Insurance. Umbrella Liability with limits of not less than $1,000,000.00, exclusive of defense costs, to be in excess of all other coverages. Such coverage shall be at least as broad as the primary coverages above, with any excess umbrella layers written on a

DRAFT

strict following form basis over the primary coverage. All such policies shall be endorsed to provide defense coverage obligations.

4.5 Professional Liability Insurance. $2,000,000.00 for design errors and omissions, inclusive of defense costs. Consultant shall be required to provide continuing Professional Liability Insurance to cover each project for a period of two (2) years after the project is completed. Insurance requirements may vary depending on projects as determined by the County Director of Risk Management and Insurance. The County may require the Consultant to provide a higher level of coverage for a specific project and time frame.

4.6 Performance, Payment and Other Bonds. Consultant shall furnish Performance and Payment Bonds specific to each project if required and agreed to under the CSA or CPO for the project.

4.7 Worker's Compensation. The Consultant shall provide, pay for, and maintain worker's compensation insurance on all employees, its agents or subcontractors as required by Florida Statutes.

5.0 **Standard of Care**

5.1 Consultant has represented to the County that it has the personnel and experience necessary to perform the work in a professional and workmanlike manner.

5.2 Consultant shall exercise the same degree of care, skill, and diligence in the performance of the Services as is provided by a professional of like experience, knowledge and resources, under similar circumstances.

5.3 Consultant shall, at no additional cost to County, re-perform services which fail to satisfy the foregoing standard of care or otherwise fail to meet the requirement of this Agreement.

5.4 The Consultant warrants that all services shall be performed by skilled and competent personnel to the professional standards in the field.

6.0 **Indemnification**

6.1 General. Having considered the risks and potential liabilities that may exist during the performance of the Services and in consideration of the promises included herein, County and

DRAFT

Consultant agree to allocate such liabilities in accordance with this Section.

6.2 Indemnification.

6.2.1 Consultant, to the extent permitted by law, shall indemnify, defend (by counsel reasonably acceptable to County) protect and hold County, and its officers, employees and agents harmless from and against any and all, claims, actions, causes of action, liabilities, penalties, forfeitures, damages, losses and expenses (including, without limitation, attorney's fees costs and expenses incurred during negotiation, through litigation and all appeals therefrom) whatsoever including, but not limited, to those pertaining to the death of or injury to any person, or damage to any property, arising out of or resulting from (i) the failure of Consultant to comply with applicable laws, rules or regulations, (ii) the breach by Consultant of its obligations under this Agreement, (iii) any claim for trademark, patent or copyright infringement arising out of the scope of Consultant's performance or nonperformance of this Agreement, or (iv) the negligent acts, errors or omissions, or intentional or willful misconduct, of Consultant, its professional associates, its subcontractors, agents, and employees provided, however, that Consultant shall not be obligated to defend or indemnify the County with respect to any such claims or damages arising out of the County's sole negligence.

6.2.2 County review, comment and observation of the Consultant's work and performance of this Agreement shall in no manner constitute a waiver of the indemnification provisions of this Agreement.

6.2.3 Consultant agrees that it bears sole legal responsibility for its work and work product, and the work and work product of subconsultants and their employees, and/or for Consultant's performance of this Agreement and its work product(s).

6.3 Survival. Upon completion of all Services, obligations and duties provided for in this Agreement, or in the event of termination of this Agreement for any reason, the terms and conditions of this Agreement shall survive as if the Agreement were in full force and effect.

7.0 **Independent Contractor**

7.1 Consultant undertakes performance of the Services as an independent contractor and shall be wholly responsible for the methods of performance.

7.2 County shall have no right to supervise the methods used, but County shall have the right to observe such performance.

7.3 Consultant shall work closely with County in performing Services under this Agreement.

7.4 The Consultant shall not pledge the County's credit or make it a guarantor of payment or surety for any contract, debt, obligation, judgment, lien or any form of indebtedness and shall have no right to speak for or bind the County in any manner.

7.5 Consultant further warrants and represents that it has no obligation or indebtedness that would impair its ability to fulfill the terms of this Agreement.

8.0 **Authority to Practice**

8.1 The Consultant hereby represents and warrants that it has and will continue to maintain all licenses and approvals required to conduct its business, and that it will at all times conduct its business activities in a reputable manner.

9.0 **Public Records Law**

(a) The Consultant acknowledges the County's obligations under Article I, Section 24, of the Florida Constitution and under Chapter 119, Florida Statutes, to release public records to members of the public upon request and comply in the handling of the materials created under this Agreement. The Consultant further acknowledges that the constitutional and statutory provisions control over the terms of this Agreement. In association with its performance pursuant to this Agreement, the Consultant shall not release or otherwise disclose the content of any documents or information that is specifically exempt from disclosure pursuant to all applicable laws.

(b) Without in any manner limiting the generality of the foregoing, to the extent applicable, the Contractor acknowledges its obligations to comply with Section 119.0701, Florida Statutes, with regard to public records, and shall:

(1) keep and maintain public records required by the County to perform the services required under this Agreement;

(2) upon request from the County's Custodian of Public Records or his/her designee, provide the County with a copy of the requested records or allow the records to be inspected or copied within a reasonable time at a cost that does not exceed the cost provided in Chapter 119, Florida Statutes, or as otherwise provided by law;

(3) ensure that public records that are exempt or confidential and exempt from public records disclosure requirements are not disclosed except as authorized by law for the duration of the term of this Agreement and following completion of this Agreement if the Consultant does not transfer the records to the County; and

(4) upon completion of this Agreement, transfer, at no cost, to the County all public

records in possession of the Consultant or keep and maintain public records required by the County to perform the service. If the Consultant transfers all public records to the County upon completion of this Agreement, the Consultant shall destroy any duplicate public records that are exempt or confidential and exempt from public records disclosure requirements. If the Consultant keeps and maintains public records upon completion of this Agreement, the Consultant shall meet all applicable requirements for retaining public records. All records stored electronically must be provided to the County, upon request from the County's Custodian of Public Records, in a format that is compatible with the information technology systems of the County.

(c) **IF THE CONSULTANT HAS QUESTIONS REGARDING THE APPLICATION OF CHAPTER 119, FLORIDA STATUTES, TO THE CONTRACTOR'S DUTY TO PROVIDE PUBLIC RECORDS RELATING TO THIS AGREEMENT, CONTACT THE COUNTY'S CUSTODIAN OF PUBLIC RECORDS AT:**

RECORDS MANAGEMENT LIAISON OFFICER
POLK COUNTY
330 WEST CHURCH ST.
BARTOW, FL 33830
TELEPHONE: (863) 534-7527
EMAIL: RMLO@POLK-COUNTY.NET

10.0 **Compliance with Laws**

10.1 In performance of the Services, Consultant shall comply with applicable regulatory requirements including federal, state, special district, and local laws, rules, regulations, orders, codes, criteria and standards, including those now in effect and hereafter adopted.

11.0 **Subcontracting**

11.1 The County reserves the right to accept the use of a subcontractor or to reject the selection of a particular subcontractor and to inspect all facilities of any subcontractor.

11.2 If a subcontractor fails to perform or make progress, as required by this Agreement, and it is necessary to replace the subcontractor to complete the work in a timely fashion, the Consultant shall promptly do so, subject to acceptance of the new subcontractor by the County. Failure of a Subcontactor to timely or properly perform its obligations shall not relieve Consultant of its obligations hereunder.

12.0 **Federal and State Taxes**

DRAFT

12.1 The County is exempt from Federal Tax and State Sales and Use Taxes. Upon request, the County will provide an exemption certificate to Consultant. The Consultant shall not be exempted from paying sales tax to its suppliers for materials to fulfill contractual obligations with the County, nor shall the Consultant be authorized to use the County's Tax Exemption Number in securing such materials.

13.0 **Public Entity Crimes**

13.1 The Consultant understands and acknowledges that this Agreement with the County will be voidable by the County, in the event the conditions under Section 287.133, Florida Statutes applies to the Consultant, relating to conviction for a public entity crime.

14.0 **County's Responsibilities**

14.1 County shall be responsible for providing access to all County project sites, and providing information in the County's possession that may reasonably be required by Consultant, including; existing reports, studies, financial information, and other required data that are available in the files of the County.

15.0 **Termination of Agreement**

15.1 This Agreement may be terminated by the Consultant upon thirty (30) days prior written notice to the County in the event of substantial failure by the County to perform in accordance with the terms of the Agreement through no fault of the Consultant.

15.2 This Agreement may be terminated by the County with or without cause immediately upon written notice to the Consultant.

15.3 Unless the Consultant is in breach of this Agreement, the Consultant shall be paid for services rendered to the County's satisfaction through the date of termination.

15.4 After receipt of a Termination Notice, as described in this Article 15.0, and except as otherwise directed by the County, the Consultant shall:

15.4.1 Stop work on the date and to the extent specified.

15.4.2 Terminate and settle all orders and subcontracts relating to the performance of the terminated work.

DRAFT

15.4.3 Transfer all work in process, completed work, and other material related to the terminated work to the County.

15.4.4 Continue and complete all parts of the work that have not been terminated.

16.0 **Uncontrollable Forces (Force Majeure)**

16.1 Either party hereunder may be temporarily excused from performance if an Event of Force Majeure directly or indirectly causes its nonperformance. An "Event of Force Majeure" is defined as any event which results in the prevention or delay of performance by a party of its obligations under this Agreement and which is beyond the reasonable control of the nonperforming party. It includes, but is not limited to fire, flood, earthquakes, storms, lightning, epidemic, war, riot, civil disturbance, sabotage, and governmental actions. Neither party shall be excused from performance if non-performance is due to forces which are reasonably preventable, removable, or remediable and which the non-performing party could have, with the exercise of reasonable diligence, prevented, removed, or remedied prior to, during, or immediately after their occurrence. Within five (5) days after the occurrence of an Event of Force Majeure, the non-performing party shall deliver written notice to the other party describing the event in reasonably sufficient detail, along with proof of how the event has precluded the non-performing party from performing its obligations hereunder, and a good faith estimate as to the anticipated duration of the delay and the means and methods for correcting the delay. The non-performing party's obligations, so far as those obligations are affected by the Event of Force Majeure, shall be temporarily suspended during, but no longer than, the continuance of the Event of Force Majeure and for a reasonable time thereafter as may be required for the non-performing party to return to normal business operations. If excused from performing any obligations under this Agreement due to the occurrence of an Event of Force Majeure, the non-performing party shall promptly, diligently, and in good faith take all reasonable action required for it to be able to commence or resume performance of its obligations under this Agreement. During any such time period, the non-performing party shall keep the other party duly notified of all such actions required for it to be able to commence or resume performance of its obligations under this Agreement.

17.0 **Governing Law and Venue**

DRAFT

17.1 This Agreement shall be governed in all respects by the laws of the State of Florida and any litigation with respect thereto shall be brought only in the courts of Polk County, Florida or the United States District Court, Middle District of Florida located in Hillsborough County, Florida. Each party shall be responsible for its own attorneys' fee and other legal costs and expenses.

18.0 **Non-Discrimination**

18.1 The Consultant warrants and represents that all of its employees are treated equally during employment without regard to race, color, religion, gender, age or national origin.

19.0 **Waiver**

19.1 A waiver by either County or Consultant of any breach of this Agreement shall not be binding upon the waiving party unless such waiver is in writing. In the event of a written waiver, such a waiver shall not affect the waiving party's rights with respect to any other or further breach. The making or acceptance of a payment by either party with knowledge of the existence of a default or breach shall not operate or be construed to operate as a waiver of any subsequent default or breach.

20.0 **Severability**

20.1 The invalidity, illegality, or unenforceability of any provision of this Agreement, or the occurrence of any event rendering any portion or provision of this Agreement void, shall in no way affect the validity or enforceability of any other portion or provision of the Agreement.

20.2 Any void provision shall be deemed severed from the Agreement and the balance of the Agreement shall be construed and enforced as if the Agreement did not contain the particular portion or provision held to be void.

20.3 The parties further agree to reform the Agreement to replace any stricken provision with a valid provision that comes as close as possible to the intent of the stricken provision.

20.4 The provisions of this section shall not prevent the entire Agreement from being void should a provision which is of the essence of the Agreement be determined to be void.

21.0 **Entirety of Agreement**

21.1 The County and the Consultant agree that this Agreement sets forth the entire Agreement between the parties, and that there are no promises or understandings other than those stated

DRAFT

herein.

21.2 This Agreement supersedes all prior agreements, contracts, proposals, representations, negotiations, letters or other communications between the County and Consultant pertaining to the Services, whether written or oral.

21.3 None of the provisions, terms and conditions contained in this Agreement may be added to, modified, superseded or otherwise altered except by written instrument executed by the parties hereto.

22.0 **Modification**

22.1 This Agreement may not be modified unless such modifications are evidenced in writing signed by both County and Consultant. Such modifications shall be in the form of a written Amendment executed by both parties.

23.0 **Successors and Assigns**

23.1 County and Consultant each binds itself and its partners, successors, permitted assigns, and legal representatives to the other party to this Agreement and to the partners, successors, executors, administrators, permitted assigns, and legal representatives of such other party.

23.2 Consultant shall not assign this Agreement without the express written approval of the County by executed amendment, which approval may be withheld in the County's sole discretion.

23.3 In the event of a merger, the surviving corporation shall be substituted for the contracting party to this agreement and such substitution shall be affirmed by the County by executed amendment.

24.0 **Contingent Fees**

24.1 The Consultant warrants that it has not employed or retained any company or person, other than a bona fide employee working solely for the Consultant to solicit or secure this Agreement and that it has not paid or agreed to pay any person, company, corporation, individual or firm, other than bona fide employee working solely for the Consultant, any fee, commission, percentage, gift or any other consideration contingent upon or resulting from the award or making of this Agreement.

DRAFT

25.0 **Truth-In-Negotiation Certificate**

25.1 Execution of this Agreement by the Consultant shall act as the execution of a Truth-in-Negotiation certificate certifying that the wage rates and costs used to determine the compensation provided for in this Agreement are accurate, complete, and current as of the Effective Date of this Agreement.

25.2 The said rates and costs shall be adjusted to exclude any significant sums should the County determine that the rates and costs were increased due to inaccurate, incomplete or noncurrent wage rates or due to inaccurate representations of fees paid to outside consultants. The County shall exercise its rights under this "Certificate" within one (1) year following payment.

26.0 **Ownership of Documents**

26.1 Consultant shall be required to cooperate with other consultants relative to providing information requested in a timely manner and in the specified form. Any and all documents, records, disks, original drawings, or other information shall become the property of the County for its use and/or distribution as may be deemed appropriate by the County. Consultant is not liable for any damages, injury or costs associated with the County's use or distribution of these documents for purposes other than those originally intended by Consultant.

27.0 **Access and Audits**

27.1 Consultant shall maintain adequate records to justify all charges and costs incurred in performing the work for at least three (3) years after completion of this Agreement. The County shall have access to such books, records, and documents as required in this section for the purpose of inspection or audit during normal business hours at the Consultant's place of business.

27.2 Misrepresentations of billable time or reimbursable expenses as determined by the Auditor to the Polk County Board of County Commissioners shall result in the recovery of any resulting overpayments. The County's cost of recovery shall be the sole expense of the Consultant, including accounting and legal fees, court costs and administrative expenses.

27.3 Intentional misrepresentations of billable hours and reimbursable expenses will be criminally prosecuted to the fullest extent of the law.

DRAFT

27.4 All invoices submitted are subject to audit and demand for refund of overpayment up to three (3) years following completion of all services related to this Agreement.

28.0 **Notice**

28.1 Any notice, demand, communication, or request required or permitted hereunder shall be in writing and delivered in person or sent by Federal-Express or by Certified Mail, postage prepaid as follows:

As to County: Roads & Drainage
P.O. Box 9005
Bartow, FL 33830
Attention: Director

As to Consultant:

28.2 Notices shall be effective when received at the addresses as specified above. Changes in the respective addresses to which such notice is to be directed may be made from time to time by either party by written notice to the other party. Facsimile transmission is acceptable notice effective when received, however, facsimile transmissions received (i.e.; printed) after 5:00 p.m., or on weekends or holidays, will be deemed received on the next business day. The original of the notice must additionally be mailed as required herein.

28.3 Nothing contained in this Article shall be construed to restrict the transmission of routine communications between representatives of Consultant and County.

29.0 **Service of Process**

As to County: County Attorney
County Administration Building
330 W. Church Street, 4th Floor
Bartow, Florida 33830

As to Consultant:

30.0 **Contract Administration**

DRAFT

30.1 Services of Consultant shall be under the general direction of the Roads and Drainage Division Director, or their successor, who shall act as the County's representative during the term of this Agreement.

31.0 **Key Personnel**

31.1 Consultant shall notify County in the event of key personnel changes, which might affect this Agreement. To the extent possible, notification shall be made within ten (10) days prior to changes. Consultant at County's request shall remove without consequence to the County any Subcontractor or employee of the Consultant and replace him/her with another employee having the required skill and experience. County has the right to reject proposed changes in key personnel. The following personnel shall be considered key personnel:

Name: _____

Name: _____

32.0. **Annual Appropriations**

32.1 Consultant acknowledges that the County, during any fiscal year, shall not expend money, incur any liability, or enter into any agreement which, by its terms, involves the expenditure of money in excess of the amounts budgeted as available for expenditure during such fiscal year. Any agreement, verbal or written, made in violation of this subsection is null and void, and no money may be paid on such agreement. Nothing herein contained shall prevent the making of agreements for a period exceeding one year, but any agreement so made shall be executory only for the value of the services to be rendered or agreed to be paid for in succeeding fiscal years. Accordingly, the County's performance and obligation to pay under this agreement is contingent upon annual appropriation.

33.0 **Liquidated Damages**

33.1 The parties hereto agree that liquidated damages, in the amount specified in the applicable CSA/CPO, will be assessed against the Consultant for Consultant's failure to meet the final deliverable date in the Performance Schedule in the Scope of Work, but only to the extent and in proportion to Consultant's fault in causing the delay as compared to other causes, and to the extent the Consultant is not delayed by reasons beyond Consultant's reasonable control.

34.0 Employment Eligibility Verification (E-VERIFY)

A. Unless otherwise defined herein, terms used in this Section which are defined in Section 448.095, Florida Statutes, as may be amended from time to time, shall have the meaning ascribed in said statute.

B. Pursuant to Section 448.095(2)(a), Florida Statutes, effective January 1, 2021, public employers, contractors and subcontractors shall register with and use the E-verify system in order to verify the work authorization status of all newly hired employees. The Contractor acknowledges and agrees that use of the U.S. Department of Homeland Security's E-Verify System and compliance with all other terms of this Certification and Section 448.095, Fla. Stat., is an express condition of this Agreement, and the County may treat a failure to comply as a material breach of this Agreement.

C. By entering into this Agreement, the Contractor becomes obligated to comply with the provisions of Section 448.095, Fla. Stat., "Employment Eligibility," as amended from time to time. This includes but is not limited to utilization of the E-Verify System to verify the work authorization status of all newly hired employees, and requiring all subcontractors to provide an affidavit attesting that the subcontractor does not employ, contract with, or subcontract with, an unauthorized alien. The Contractor shall maintain a copy of such affidavit for the duration of the contract. Failure to comply will lead to termination of this Agreement, or if a subcontractor knowingly violates the statute or Section 448.09(1), Fla. Stat., the subcontract must be terminated immediately. Any challenge to termination under this provision must be filed in the Tenth Judicial Circuit Court of Florida no later than 20 calendar days after the date of termination. If this Agreement is terminated for a violation of the statute by the Contractor, the Contractor may not be awarded a public contract for a period of 1 year after the date of termination. The Contractor shall be liable for any additional costs incurred by the County as a result of the termination of this Agreement. Nothing in this Section shall be construed to allow intentional discrimination of any class protected by law.

35.0 Limitation of Liability.

IN NO EVENT, SHALL THE COUNTY BE LIABLE TO THE CONSULTANT FOR INDIRECT, INCIDENTAL, CONSEQUENTIAL, SPECIAL, EXEMPLARY, OR PUNITIVE DAMAGES OF ANY KIND OR NATURE, INCLUDING LOSS OF PROFIT, WHETHER FORESEEABLE OR NOT, ARISING OUT OF OR RESULTING FROM THE NONPERFORMANCE OR BREACH OF THIS CONTRACT BY THE COUNTY WHETHER BASED IN CONTRACT, COMMON LAW, WARRANTY, TORT, STRICT LIABILITY, CONTRIBUTION, INDEMNITY OR OTHERWISE.

36.0 Scrutinized Companies and Business Operations Certification; Termination.

A. Certification(s).

(i) By its execution of this Agreement, the Vendor hereby certifies to the County that the Vendor is not on the Scrutinized Companies that Boycott Israel List, created pursuant to Section 215.4725, Florida Statutes, nor is the Vendor engaged in a boycott of Israel, nor was the Vendor on such List or engaged in such a boycott at the time it submitted its bid,

DRAFT

proposal, quote, or other form of offer, as applicable, to the County with respect to this Agreement.

(ii) Additionally, if the value of the goods or services acquired under this Agreement are greater than or equal to One Million Dollars ($1,000,000), then the Vendor further certifies to the County as follows:

(a) the Vendor is not on the Scrutinized Companies with Activities in Sudan List, created pursuant to Section 215.473, Florida Statutes; and

(b) the Vendor is not on the Scrutinized Companies with Activities in the Iran Petroleum Energy Sector List, created pursuant to Section 215.473, Florida Statutes; and

(c) the Vendor is not engaged in business operations (as that term is defined in Florida Statutes, Section 287.135) in Cuba or Syria; and

(d) the Vendor was not on any of the Lists referenced in this subsection A(ii), nor engaged in business operations in Cuba or Syria when it submitted its proposal to the County concerning the subject of this Agreement.

(iii) The Vendor hereby acknowledges that it is fully aware of the penalties that may be imposed upon the Vendor for submitting a false certification to the County regarding the foregoing matters.

B. Termination. In addition to any other termination rights stated herein, the County may immediately terminate this Agreement upon the occurrence of any of the following events:

(i) The Vendor is found to have submitted a false certification to the County with respect to any of the matters set forth in subsection A(i) above, or the Vendor is found to have been placed on the Scrutinized Companies that Boycott Israel List or is engaged in a boycott of Israel.

(ii) The Vendor is found to have submitted a false certification to the County with respect to any of the matters set forth in subsection A(ii) above, or the Vendor is found to have been placed on the Scrutinized Companies with Activities in Sudan List, or the Scrutinized Companies with Activities in the Iran Petroleum Energy Sector List, or has been engaged in business operations in Cuba or Syria, and the value of the goods or services acquired under this Agreement are greater than or equal to One Million Dollars ($1,000,000).

37. No Construction Against Drafter

37.1 The Parties acknowledge that this Agreement and all the terms and conditions contained herein have been fully reviewed and negotiated by the Parties. Accordingly, any rule of construction to the effect that ambiguities are to be resolved against the drafting party shall not apply in interpreting this Agreement.

38. Unauthorized Alien(s)

The Consultant shall not employ or utilize unauthorized aliens in the performance of the Services provided pursuant to this Agreement. The County shall consider the employment or utilization of unauthorized aliens a violation of Section 274A(e) of the Immigration and Naturalization Act (8 U.S.C.

1324a) and a cause for the County's unilateral termination of this Agreement. When delivering executed counterparts of this Agreement to the County, the Consultant shall also deliver a completed and executed counterpart of the attached "AFFIDAVIT CERTIFICATION IMMIGRATION LAWS" form.

(THE REMAINDER OF THE PAGE LEFT INTENTIONALLY BLANK)

DRAFT

IN WITNESS WHEREOF, the parties hereto have executed this Agreement as of the Effective Date.

Form **W-9**
(Rev. October 2018)
Department of the Treasury
Internal Revenue Service

Request for Taxpayer Identification Number and Certification

▶ **Go to *www.irs.gov/FormW9* for instructions and the latest information.**

Give Form to the requester. Do not send to the IRS.

Print or type. See Specific Instructions on page 3.

1 Name (as shown on your income tax return). Name is required on this line; do not leave this line blank.

MC Squared, LLC

2 Business name/disregarded entity name, if different from above

3 Check appropriate box for federal tax classification of the person whose name is entered on line 1. Check only **one** of the following seven boxes.

☐ Individual/sole proprietor or single-member LLC ☐ C Corporation ☐ S Corporation ☐ Partnership ☐ Trust/estate

☑ Limited liability company. Enter the tax classification (C=C corporation, S=S corporation, P=Partnership) ▶ S

Note: Check the appropriate box in the line above for the tax classification of the single-member owner. Do not check LLC if the LLC is classified as a single-member LLC that is disregarded from the owner unless the owner of the LLC is another LLC that is **not** disregarded from the owner for U.S. federal tax purposes. Otherwise, a single-member LLC that is disregarded from the owner should check the appropriate box for the tax classification of its owner.

☐ Other (see instructions) ▶

4 Exemptions (codes apply only to certain entities, not individuals; see instructions on page 3):

Exempt payee code (if any) _____

Exemption from FATCA reporting code (if any) _____

(Applies to accounts maintained outside the U.S.)

5 Address (number, street, and apt. or suite no.) See instructions.

1275 Shiloh RD NW STE 2620

Requester's name and address (optional)

6 City, state, and ZIP code

Kennesaw, GA 30144

7 List account number(s) here (optional)

Part I Taxpayer Identification Number (TIN)

Enter your TIN in the appropriate box. The TIN provided must match the name given on line 1 to avoid backup withholding. For individuals, this is generally your social security number (SSN). However, for a resident alien, sole proprietor, or disregarded entity, see the instructions for Part I, later. For other entities, it is your employer identification number (EIN). If you do not have a number, see *How to get a TIN*, later.

Note: If the account is in more than one name, see the instructions for line 1. Also see *What Name and Number To Give the Requester* for guidelines on whose number to enter.

Social security number

			–			–				

or

Employer identification number

9	0	–	0	0	3	3	8	8	0

Part II Certification

Under penalties of perjury, I certify that:

1. The number shown on this form is my correct taxpayer identification number (or I am waiting for a number to be issued to me); and
2. I am not subject to backup withholding because: (a) I am exempt from backup withholding, or (b) I have not been notified by the Internal Revenue Service (IRS) that I am subject to backup withholding as a result of a failure to report all interest or dividends, or (c) the IRS has notified me that I am no longer subject to backup withholding; and
3. I am a U.S. citizen or other U.S. person (defined below); and
4. The FATCA code(s) entered on this form (if any) indicating that I am exempt from FATCA reporting is correct.

Certification instructions. You must cross out item 2 above if you have been notified by the IRS that you are currently subject to backup withholding because you have failed to report all interest and dividends on your tax return. For real estate transactions, item 2 does not apply. For mortgage interest paid, acquisition or abandonment of secured property, cancellation of debt, contributions to an individual retirement arrangement (IRA), and generally, payments other than interest and dividends, you are not required to sign the certification, but you must provide your correct TIN. See the instructions for Part II, later.

Sign Here Signature of U.S. person ▶ [signature] Date ▶ 01/31/2023

General Instructions

Section references are to the Internal Revenue Code unless otherwise noted.

Future developments. For the latest information about developments related to Form W-9 and its instructions, such as legislation enacted after they were published, go to *www.irs.gov/FormW9*.

Purpose of Form

An individual or entity (Form W-9 requester) who is required to file an information return with the IRS must obtain your correct taxpayer identification number (TIN) which may be your social security number (SSN), individual taxpayer identification number (ITIN), adoption taxpayer identification number (ATIN), or employer identification number (EIN), to report on an information return the amount paid to you, or other amount reportable on an information return. Examples of information returns include, but are not limited to, the following.

- Form 1099-INT (interest earned or paid)
- Form 1099-DIV (dividends, including those from stocks or mutual funds)
- Form 1099-MISC (various types of income, prizes, awards, or gross proceeds)
- Form 1099-B (stock or mutual fund sales and certain other transactions by brokers)
- Form 1099-S (proceeds from real estate transactions)
- Form 1099-K (merchant card and third party network transactions)
- Form 1098 (home mortgage interest), 1098-E (student loan interest), 1098-T (tuition)
- Form 1099-C (canceled debt)
- Form 1099-A (acquisition or abandonment of secured property)

Use Form W-9 only if you are a U.S. person (including a resident alien), to provide your correct TIN.

If you do not return Form W-9 to the requester with a TIN, you might be subject to backup withholding. See What is backup withholding, *later.*

RE: RFP 23-328
Professional Geotechnical Services and Construction Material Testing and inspection

MC Squared, LLC is pleased to present for your review and consideration our response to the above-referenced solicitation.

As requested, we offer the following items requested in the Executive Summary:

A. MC Squared, LLC
5911 Breckenridge Parkway, Suite G
Tampa, FL 33610
(813) 623-3399
tali@mc2engineers.com

B. MC Squared has been in business for 21 years.

C. We currently employ 81 full-time employees, 51 of which are based in Florida.

D. Documentation showing proper incorporation by the Secretary of State.

E. Certification to provide engineering services from the State of Florida.

Since our founding in 2001, MC Squared, LLC has devoted its practice to providing exceptional Geotechnical Engineering and Construction Materials Testing and Inspection services on infrastructure projects throughout Florida and Georgia.

Our relevant experience includes work on numerous similarly scoped task order-based contracts including providing Geotechnical Engineering and Materials Testing and Inspection services to Polk County for the last 5 years under RFP 18-305. Our team has completed hundreds of projects involving roadways, pipelines, water and wastewater facilities, drainage and bridges for local municipalities, departments of transportation, water management districts, and civil design firms.

We are currently holding, or have recently completed, similar on-call Geotechnical and Materials Testing and Inspection services contracts with the following municipalities:

- Hernando County
- City of Tampa
- Pasco County Utilities and Public Works
- Hillsborough County
- Pinellas County
- Hillsborough County School District
- Pinellas County School District
- City of Dunedin

To supplement our team, we have included the following Polk County Entity firms as noted below:

- Ambient Technologies, Inc. (ATI), to assist with drilling, sampling, and geophysical testing. ATI's local office is located at 4338 Knights Station Rd., Lakeland, FL 33711.

- Roberts Consulting Services, Inc. (RCS), to assist with construction materials testing and inspection. RCS's office is located at 117 Quailwood Dr., Winter Haven, FL 33880.

We understand the work anticipated under this contract will be on an as-needed basis to assist Polk County with accomplishing its project-related goals. The staff proposed for this contract include experienced professionals who have worked on numerous similar projects to those that can be anticipated under this contract. As a result, we are confident we can immediately engage with Polk County and/or the project consultant when applicable in scoping the work, negotiating our services, and providing the desired services for the task assigned.

Please advise if you have any questions or need any additional information. We look forward to your review of our team's qualifications and the opportunity to work with Polk County.

Sincerely,

MC Squared, LLC

Tom Ali, PE
President & Chief Operating Officer

Nicholas Diorio, PE
Contract Manager

Our proposed approach has been developed through our extensive experience managing task-based on-call contracts for local municipalities in the West Central Florida area including previous contracts with Polk County. Our team is familiar with the County's procedures and has developed best practices for executing projects accurately, efficiently, and to the County's satisfaction. Our proposed approach for Geotechnical and Materials Testing projects are as follows:

Geotechnical Engineering Services Approach:

- Upon receipt of a task assignment, our Contract Manager will communicate internally with PM's specializing in either materials testing or geotechnical engineering as needed. Appropriate team members will be assigned to each project with a dedicated PM responsible for ensuring efficient, cost-effective, and quality task execution. Together, the Contract Manager and assigned PM will carefully review any available project information to develop a comprehensive understanding of the assignment scope. This includes understanding the specific services required, project deliverables, schedule, and performance expectations. If a design consultant is involved with the project, we will ensure that their requirements are understood and addressed in our scope of work. Once a consensus on the scope requirements has been reached, a fee proposal and project schedule will be developed considering the complexity of the project, required resources, personnel expertise, and project duration. A project milestone plan will then be established that outlines key activities, timelines, and deliverables for each phase of the project. Ongoing coordination will be maintained with appropriate project staff throughout the project's life cycle. **MC²** will utilize email, telecommunication, and virtual meeting platforms to enhance communication and streamline coordination efforts. Furthermore, our team will take a proactive approach to problem-solving by anticipating potential challenges and identifying mitigation strategies in advance.
- Upon approval of the task assignment, the assigned PM will perform a desktop study of the project site to develop an understanding of the regional geology and anticipated site conditions. This preliminary investigation will include a review of available soil survey information, topographic maps, historical aerial images, and any previous geotechnical studies available from the County.
- The assigned PM, or his/her representative, will then conduct a visual reconnaissance of the project site to document site conditions, evaluate any potential accessibility limitations, stake boring/testing locations, clear utilities, and apply for Right-of-Way (ROW) and/or Temporary Traffic Control (TTC) permits, if needed.

- Upon receipt of the required permits, we will perform field activities such as Standard Penetration Test (SPT) borings, hand augers, pavement cores, Dynamic Cone Penetrometer (DCP) soundings, permeability testing, etc. as appropriate per the project scope. We will ensure that adequate traffic control is in place when required.
- Laboratory testing will be conducted on carefully selected, representative samples to confirm field classifications, develop the soil profile, and to determine the engineering properties of the soils.

- Our geotechnical staff will review the field and laboratory data and provide geotechnical engineering analysis appropriate for the project. The results of our field and laboratory testing programs, and our engineering recommendations will be documented in a clear and concisely written report.
- Preliminary results will be provided upon request when required to maintain designer's schedules.
- A QA/ QC check will be performed by a Senior Geotechnical Engineer that is not directly involved in the project prior to submittal to the County.
- Once a report has been submitted our Contract PM will follow up with the County PM to ensure that all services were performed in accordance with expectations and to solicit feedback on future means for improvement.

Materials Testing Services Approach:

- Upon receipt of a task assignment, the assigned PM will carefully review the plans and specifications and coordinate with the County PM to understand the County's expectations for testing and to clarify which specifications and requirement will apply to the project (FDOT, Polk County, ASTM, AASHTO, etc.). Any discrepancies discovered in the plans or specifications will be brought to the immediate attention of the County PM to reduce the potential for future problems once the project is underway.
- The assigned PM will work with the County PM to develop an appropriate scope and budget for testing. If not provided by contractor, a Project Schedule of our anticipated activities will be provided within 5 days of NTP including a project milestone plan and a projected payout curve.
- Testing personnel will be assigned to work on the project based on scope and certification requirements. Once the appropriate personnel are identified, contact info will be communicated to all parties. This includes County Staff, CEI personnel, if applicable, as well as the contractor.

- Our team will respond to County or Contractor requests for testing when necessary and will ensure that the County representative is on site for testing, if required.
- When applicable, material samples will be returned to the lab for testing, as required (proctors, LBR's, compressive strength testing, asphalt testing, etc.).
- Test reports including relevant information such as: County Project Name, task number, test method, sample location and test results will be prepared and reported promptly. Any significant findings will be reported to the County PM upon discovery.
- A QA/QC check will be performed on all deliverables prior to submission to the County. Test results/reporting will be provided via email or however agreed upon. Preliminary copies will be submitted within 1 hour after completion of testing and official signed reports within 24 hours after completion to the Contractor, CEI/County Field Office, EOR, and County Project Manager as requested in the Work Order.
- Once a report has been submitted our Contract PM will follow up with the County PM to ensure that all services were performed in accordance with expectations and to solicit feedback on future means for improvement

The following describes the steps **MC²** will implement to control the quality and cost of each task assigned. The **MC²** Quality Control process for project deliverables generally applies to all proposals, cost estimates and fee packages, reports, calculations, CADD Drawings, boring logs, recommendations, and specifications produced by **MC²**. The process includes checking and back-checking of the work produced by **MC²**.

Prior to submission, each project deliverable will be subjected to an independent review by a Senior professional engineer or qualified professional different from the one that prepared the deliverable.

All documents will be checked for conformance with established design criteria, legibility, completeness, and mathematical and plotting accuracy. The checker will sign and date the design documents which indicate that they have been checked against the applicable standards and criteria. The reviewed deliverable, including comments, concurrence, incorporation and verification documentation, will be filed and available for future reference or review.

It is the goal of this guideline to set forth a systematic process of project planning, development and record keeping that is understandable, logical, and efficient.

MC^2 will use qualified production and review personnel to produce and review each element of the work required by the project Scope of Services. The process requires the documentation of the agreement between two qualified professionals (the Designer and the Checker) that each element of work produced and reviewed in association with the Scope of Services conforms to the applicable standards and criteria. The Project Manager develops an appropriate Quality Control Plan (QCP) that establishes the minimum guidelines for review procedures on the project. This QCP will identify the deliverable products and which reviews are to be performed on each:

1. QC Team kick-off meeting
2. When the QC reviews occur
3. Individuals responsible for each quality control task
4. The documents generated from these reviews
5. Check lists to be used

The Principal-in-Charge shall approve all checking and review assignments and shall approve of the QCP. It is the Project Manager's responsibility to gain this approval, to assign and schedule all checking and review meetings, to personally be sure that each project is adequately checked and, later, that the proper reviews have been held. It is the Principal-in-Charge's responsibility to monitor the Project Manager's adherence with the QCP. The Principal-in-Charge will also perform random quality control audits in the office. These audits will assess the firm's compliance with the requirements of the QCP, as well as the adequacy of materials, documentation, coordination, processes, procedures, training, guidance and staffing. At the conclusion of each job, the Principal-in-Charge shall prepare an assessment of the firm's performance overall, and of the Project Manager's performance on the project. The Principal-in-Charge shall review this evaluation with the Project Manager, as a basis for future improvement. We will also provide a Quality Assurance Certification stamp as shown below where applicable.

Quality Assurance Certification For

Phase _____ Submittal for (*Insert Project Name & No.)*

Project Manager: _____
Senior Geotechnical Engineer: _____
Project Engineer: _____
Staff Engineer: _____

I do hereby certify that the enclosed submittal has been prepared and checked in accordance with good engineering practices and represents a quality project.

Principal-in-Charge: _____ **Date:** _____

Previous Projects

In this section we have included 5 Geotechnical Engineering projects and 3 Materials Testing and Inspection projects performed in the last 5 years which illustrate the experience of our firm and current staff as related to the desired services. Each of these projects were performed in Polk County, and the majority were executed under our previous Geotechnical Engineering and Materials Testing and Inspection services contract with Polk County. Our favorable performance on these projects is documented in the form of client surveys which are included in Tab 8 for your review.

Organizational Chart and Resumes

This section also includes an organizational chart of the MC Squared team which highlights the key individuals who will work on this contract. Key individuals include Nick Diorio, PE serving as Contract Manager with 15+ years of industry experience; Prashanth Vaddu, PE serving as Geotechnical Services Lead with 15+ years of industry experience, Winston Stewart, PE serving as Materials Testing and Inspection Services Lead with 40+ years of experience, and Tom Ali, PE serving as Principal-in-Charge with 30+ years of experience. Brief resumes highlighting the experience of these key personnel area also included.

Subconsultant Team Members

MC Squared has strategically chosen to partner with Ambient Technologies, Inc. (ATI) and Roberts Consulting Services, Inc. (RCS) for this contract. Each of these firms have a local presence in Polk County and each firm represents women and/or minority owned business enterprises. The addition of ATI will provide valuable drilling, in-situ testing, and geophysical testing capability on Geotechnical Engineering projects, while the addition of RCS provides additional bench strength to complement our Materials Testing and Inspection staff to ensure that our team can staff high demand projects and quick turnaround testing needs. A brief overview of our team members follows:

Ambient Technologies, Inc. (ATI), has 30 years of continued experience providing geo-services for Environmental, Geotechnical, Exploration, Consulting, Engineering and Construction Projects. Core services include: (1) Geotechnical Drilling Services*:* Standard Penetration Test (SPT), Solid and Hollow Stem Auger, NQ/HQ Rock Coring, Concrete/Asphalt Coring, Undisturbed Samples (Shelby) Geotechnical Instrumentation Installation (piezometers, inclinometers, etc.). (2) Cone Penetration Testing (CPT): ATI Geological specializes in In-Situ Testing for geotechnical and environmental investigations using advanced geo-environmental methods of exploration including Cone Penetration Testing (CPT). (3) Geophysical Services: Geotechnical/Geological Site Characterization Studies using a wide range of geophysical technologies. Specialists in Karst/Sinkhole/Geological characterization studies. Environmental site characterization studies designed identify buried metallic and non-metallic debris, USTs, drums, abandoned wells, contaminated soils, etc. Underground utility designation and designation and mapping for clearance of bore holes and mapping underground utilities throughout project sites. NDT testing of concrete structures and foundations for both design and deficiencies using a variety of methods. Concrete reinforcing and corrosion studies. Marine surveys to determine presence of submerged objects, bathymetry and underlying geological conditions. Drone services to provide complimentary ortho-photographic, infrared and lidar mapping services.

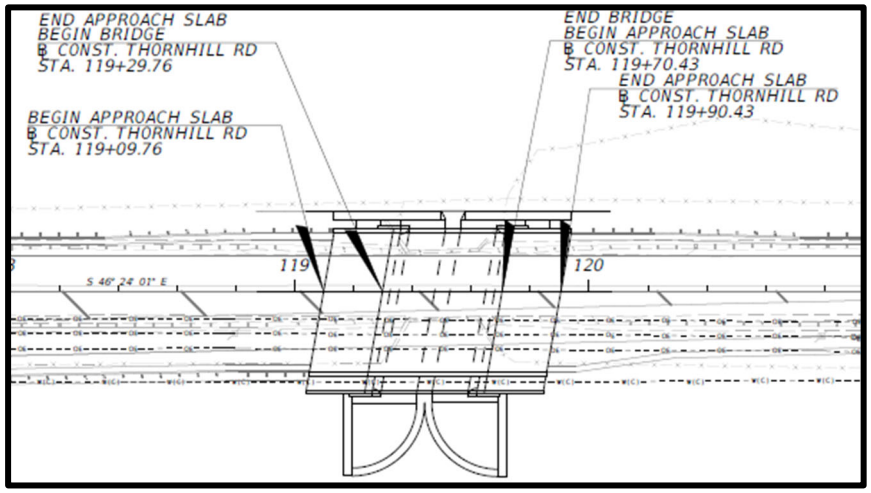
Roberts Consulting Services, Inc. (RCS) is a full-service engineering firm specializing in Construction Materials Testing, Construction Engineering and Inspection (CEI), and QA/QC services. RCS is FDOT prequalified in work groups 10.1 and 10.3 and has over 60 years of combined experience providing Construction Materials Testing and Inspection services to clients throughout Central Florida. The RCS team includes nearly 30 CTQP certified field and laboratory testing technicians/inspectors.

Project Name: Geotechnical Services for Thornhill Road Bridge Replacement
Location: Polk County, FL
Total Project Cost: $1,999,900.00
MC2 Fee: $28,523.94
Owner: Polk County BOCC
Client: Polk County Roads & Drainage Division
Completion Date: February 2022

Project Representative Information:
Name: Jose Fernandez, E.I.
Company: Polk County Roads and Drainage Division
Address: 3000 Sheffield Road
Winter Haven, FL 33880
Phone: 863-535-2200
Email: josefernandez@polk-county.net

Scope of Services:
Thornhill Road Bridge (Bridge 164104) was a single-span concrete bridge built in 1960 over Lake Lena Run. The bridge was determined to be functionally obsolete due to its narrow width. To improve the condition of the bridge, a roadway section featuring two 12-foot lanes with 8-foot-wide shoulders was proposed. The planned improvements required reconstruction of the existing bridge structure.

MC Squared was retained by Polk County to provide geotechnical engineering services for the new bridge. A site investigation including Standard Penetration Test (SPT) soil borings, in conjunction with pavement cores, Hand Auger (HA) borings, and Dynamic Cone Penetrometer (DCP) tests were completed. Geotechnical engineering recommendations including soil parameters, shallow and deep foundation recommendations, and pile capacities were provided to support embankment, retaining wall, and foundation design efforts.



Project Name: Geotechnical Pavement Evaluations
Location: Polk County, FL
Total Project Cost: $99,908.20
MC2 Fee: $99,908.20
Owner: Polk County BOCC
Client: Polk County Roads & Drainage Division
Completion Date: March 2022

Project Representative Information:
Name: Austin Potts, P.E.
Company: Polk County Roads and Drainage Division
Address: 3000 Sheffield Road
Winter Haven, FL 33880
Phone: 863-535-2221
Email: austinpotts@polk-county.net

Scope of Services:
MC Squared was retained to perform pavement evaluations at several roadways throughout Polk County (listed below) due to deteriorated pavement conditions suspected to result from elevated ground water levels. A total of 90 pavement cores, in conjunction with DCP tests and HA borings, were performed to evaluate the existing pavement configuration and subgrade conditions over approximately 15 miles of roadway. Temporary traffic control was required to complete the pavement coring operation. MC Squared followed FDOT/MUTCD guidelines in order to ensure safe working conditions for the field technicians performing the fieldwork.

Pavement core summary sheets including pavement layers and thicknesses, photos, and DCP testing data were presented and pavement rehabilitation recommendations were provided along with construction considerations and resilient modulus values to assist in design efforts.

Evaluated Roadways:

1. Enclave Boulevard
2. Hunters Greene Drive
3. Greene Circle
4. Holy Cow Road
5. Deen Still Road
6. Van Fleet Road
7. Shadywood Court

Project Name: Geotechnical Services for Tillery Rd & Clubhouse Rd Drainage Improvements
Location: Polk County, FL
Total Project Cost: $450,000.00
MC2 Fee: $19,808.34
Owner: Polk County BOCC
Client: Polk County Roads & Drainage Division
Completion Date: February 2021

Project Representative Information:
Name: William Lorenzo, P.E.
Company: Polk County Roads and Drainage Division
Address: 3000 Sheffield Road
Winter Haven, FL 33880
Phone: 863-535-2286
Email: williamlorenzo@polk-county.net

Scope of Services:
Drainage improvements were needed to alleviate persistent flooding in the area of Clubhouse Road in Polk County. Following a drainage analysis performed by others, an improvement plan consisting of new control structures and conveyance upgrades was chosen. MC Squared was retained to evaluate the subsurface conditions along the planned pipeline alignment. A site investigation including SPTs and HA borings was performed and general pipe installation recommendations were provided. Additional recommendations included excavation, dewatering, and pipe uplift considerations to assist with design efforts.

Project Name: Geotechnical Services for the Rolling Oaks Drainage Improvement Project
Location: Polk County, FL
Total Project Cost: $525,000.00
MC2 Fee: $17,560.00
Owner: Polk County BOCC
Client: Polk County Roads & Drainage Division
Completion Date: July 2020

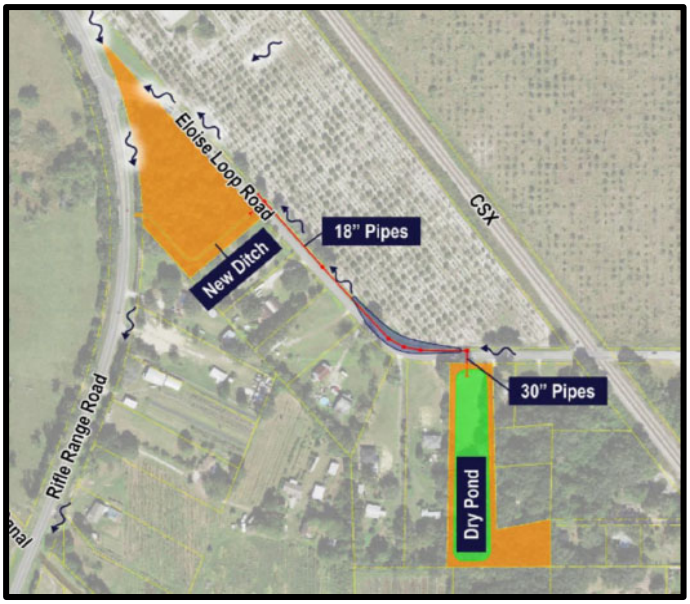
Project Representative Information:
Name: Doug Gable, P.E.
Company: Polk County Roads and Drainage Division
Address: 3000 Sheffield Road
Winter Haven, FL 33880
Phone: 863-535-2276
Email: douggable@polk-county.net

Scope of Services:
MC Squared was retained by Polk County to provide geotechnical services for planned drainage improvements in the Rolling Oaks Estates subdivision. The planned improvements included stormwater ponds, swales, pipeline, and drainage control structures. MC Squared performed a subsurface investigation consisting of SPTs, HA borings, and Double Ring Infiltrometer (DRI) tests to support the design and construction of the planned improvements. Geotechnical recommendations including estimated Seasonal High Groundwater Table (SHGWT) depth, soil infiltration rates, suitability of on-site soils, and stormwater pond considerations were provided.

Project Name: Geotechnical Services for Eloise Loop Rd Drainage Improvements
Location: Polk County, FL
Total Project Cost: $12,708.30
MC2 Fee: $12,708.30
Owner: Polk County BOCC
Client: Polk County Roads & Drainage Division
Completion Date: September 2021

Project Representative Information:
Name: Lawrence C. Updike Jr., P.E.
Company: Polk County Roads and Drainage Division
Address: 3000 Sheffield Road
Winter Haven, FL 33880
Phone: 863-535-2323
Email: connerupdike@polk-county.net

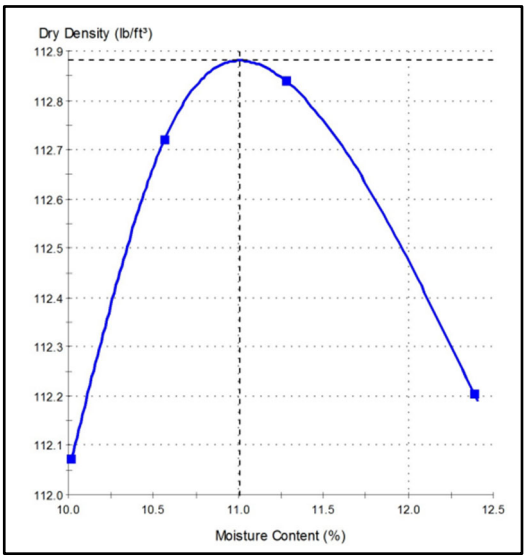
Scope of Services:
MC Squared was retained by Polk County to provide geotechnical services for planned drainage improvements along Eloise Loop Road to address persistent flooding during rain events. The planned improvements included a stormwater pond, reinforced concrete stormwater drains and associated piping, and drainage ditches. MC Squared performed a subsurface investigation consisting of SPTs, HA borings, and Double Ring Infiltrometer (DRI) tests to support the design and construction of the planned improvements. Geotechnical recommendations including estimated Seasonal High Groundwater Table (SHGWT) depth, soil infiltration rates, suitability of on-site soils, pipe installation recommendations, and stormwater pond considerations were provided.



Project Name: CQC Testing for Walk-in-Water Road over Tiger Creek Bridge
Location: Polk County, FL
Total Project Cost: $$5,045.00
MC2 Fee: $5,045.00
Owner: Polk County BOCC
Client: Gosalia Concrete Constructors, Inc.
Completion Date: November 2021

Project Representative Information:
Name: Mike Stanley
Company: Gosalia Concrete Constructors, Inc.
Address: 4607 N. 56th St.
Tampa, FL 33610
Phone: 813-443-0984
Email: mstanley@gosaliaco.com

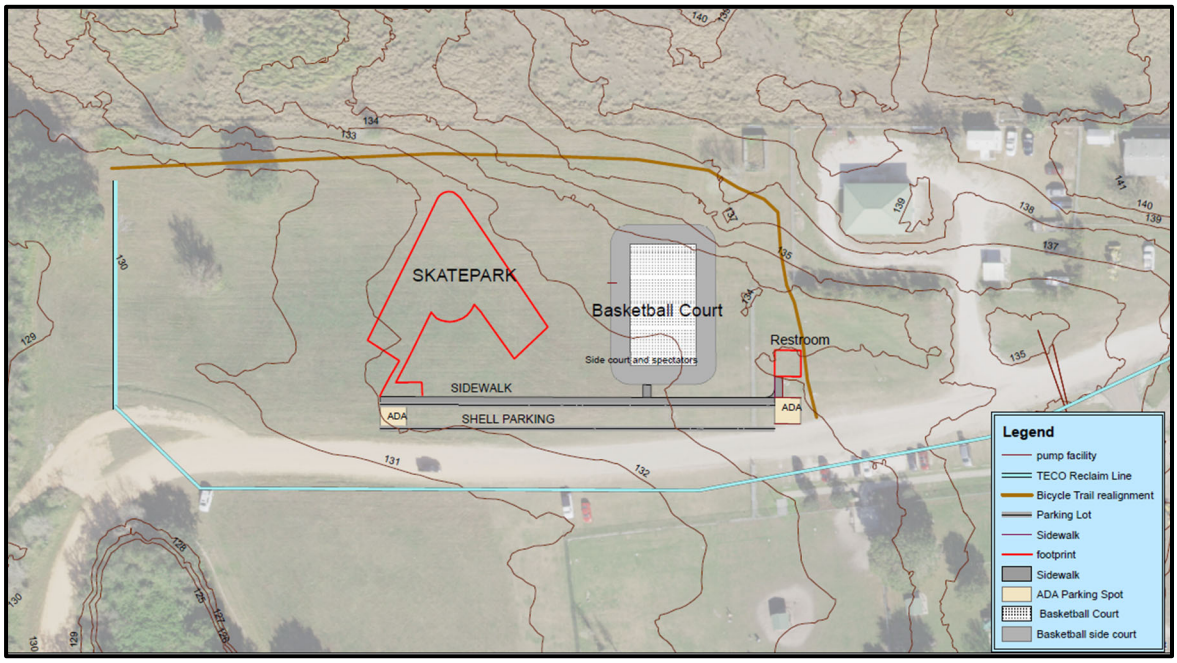
Scope of Services:
MC Squared was retained by Gosalia to provide third party CQC testing for the Walk-in-Water Road over Tiger Creek Bridge project. MC Squared provided ACI and CTQP certified field technicians to collect soil samples and cast concrete cylinders for laboratory testing. Laboratory services included Modified Proctor, Gradation, Organic Content, Atterberg Limits, Limerock Bearing Ratio, and Compressive Strength of Concrete Cylinders. All field and laboratory testing was performed in accordance with applicable standards.



Project Name: Loyce Harpe Skate Park
Location: Polk County, FL
Total Project Cost: $667,819.00
MC2 Fee: $6,701.80
Owner: Polk County BOCC
Client: Polk County Facilities Management Division
Completion Date: December 2020

Project Representative Information:
Name: Rafael Samaniego
Company: Polk County Facilities Management Division
Address: 2160 Marshall Edwards Dr.,
Bartow, FL 33830
Phone: 863-344-2303
Email: rafaelsamaniego@polk-county.net

Scope of Services:
MC Squared was retained by Polk County to provide Construction Materials Testing services for the construction of a skate park at Loyce E. Harpe Park. Earthwork and Concrete testing and inspection services were requested. MC Squared provided ACI and CTQP certified field technicians to perform field density tests, collect soil samples of stabilized subgrade, and cast concrete cylinders for laboratory testing. Laboratory services included Standard Proctor Testing, and Compressive Strength of Concrete Cylinders. All field and laboratory testing was performed in accordance with applicable standards.



Project Name: Suntrax Connected / Automated Vehicle Test Facility
Location: Auburndale, FL
Total Project Cost: $160,000,000.00
MC2 Fee: $758,766.00
Owner: FDOT/FTE
Client: Johnson Brothers (A Southland Corporation)
Completion Date: December 2021

Project Representative Information:
Name: Tom Charles, PE
Company: Johnson Brothers (A Southland Corporation)
Address: 608 Henrietta Creek Rd.
Roanoke, TX 76262
Phone: 407-467-1112
Email: tcharles@southlandholdings.com

Scope of Services:
MC Squared was retained to provide Quality Control (QC) testing for the 200-acre testing Computer Automated Vehicle (CAV) testing facility. Services included: QC plan creation and maintenance, generation of ERS logbook sheets, embankment and pipe backfill density testing using FDOT logbooks, concrete, mortar and grout field and lab sampling and testing, stabilized subgrade depth checks and associated lab testing, rock base straight edge, elevation checks and depth checks, floor flatness and levelness surveys on building slabs, as well as drilled shaft slurry testing for gantry and sign structures. Project efficiency was advanced with the use of Nuclear Density Gauges (Troxler 3430 Models, Floor Flatness/Levelness (Allen Face D-Meter), ERS Data Entry tool for FDOT logbooks and Materials Acceptance and Certification System (MAC)

LICENSES AND REGISTRATIONS
Registered Professional Engineer:

- State of Florida No. **72283**
- State of Georgia No. **038390**
- State of S. Carolina No. **31154**
- State of Tennessee No. **117580**

Certifications:
GRLWEAP Wave Equation Analysis of Pile Driving

PROFESSIONAL BACKGROUND
Mr. Diorio serves as a Senior Project Manager for MC Squared, LLC. He has over 15 years of industry experience in Geotechnical Engineering, Laboratory Testing, and Construction Materials Testing and Inspection. His experience has been earned across a variety of infrastructure projects including roadways and bridges, intersection improvement projects including signalizations, water and wastewater facilities, pipelines, commercial developments, and various utility projects. He also oversees and coordinates efforts of field and laboratory technicians on various projects.

The following are some examples of representative projects Mr. Diorio has been involved:

C-43 West Basin Storage Reservoir, Hendry County, Florida - The Caloosahatchee River (C-43) West Basin Storage Reservoir Project consists of an above-ground reservoir with a total storage capacity of approximately 160,000 acre-feet. MC Squared is providing full-service quality control and testing services for the utilization of multiple borrow pits, embankment placement of ~22-million cubic yards of fill, 19-miles of a soil-bentonite wall, 110,000 tons of soil-cement armoring, the construction and inspection of 12 pump stations, water control structures, construction of two bridges, steel and weld inspection, threshold inspection for several buildings, rip-rap testing for the creation of canals, asphalt field and lab testing for associated roadways and inspection and testing of associated drainage structures. Mr. Diorio served as Project Manager on this project.

Stormwater Treatment Area 1 West Expansion, South Bay, Palm Beach County, Florida – This project served to construct a man-made wetland to filter nutrients from surrounding agriculture areas before reaching the Everglades. Serving as a Geotechnical Engineer on this project, Mr. Diorio provided laboratory testing services, concrete sampling and testing, compressive strength testing, QC of construction materials testing of soil proctors and gradations of embankment materials, and field density testing of compacted materials for all roadway areas across the project site. Additional services provided for this project included geotechnical review of soil borings and onsite material, soil profiling of deep excavations to support changed conditions onsite, vibration monitoring, reporting during surface rock blasting and construction-induced vibrations, assistance in reading and interpreting project specifications, review and revision of the Requests for Information (RFIs) to the District, riprap material acceptance, oversight of steel

Snapfinger Advanced Wastewater Treatment Facility Expansion – Phase 2, Dekalb County, Georgia – MC Squared provided Construction Materials Testing and Inspection services including in-place density testing of Graded Aggregate Base Courses and backfilled soils, concrete field testing and compressive strength of specimens, masonry field testing and compressive strength of specimens. Mr. Diorio served as Project Manager on this project.

Thomas Ali, PE
Principal-In-Charge

EDUCATION

BS Civil Engineering, Pennsylvania State University, State College, PA

LICENSES AND REGISTRATIONS

Registered Professional Engineer:

- State of Florida No. **90030**
- State of Pennsylvania No. **PE044207E**

PROFESSIONAL BACKGROUND

Mr. Ali serves as the President and Chief Operating Officer for MC Squared, LLC. He has over 33 years of experience in Construction Materials Testing and Inspection and has served as Quality Assurance (QA) Manager on numerous on-call Materials Testing contracts. In addition to direct project experience, he has served on multiple ACI committees gaining valuable insight into the Materials Testing Industry. He is responsible for overall client satisfaction and quality assurance for all projects within the firm.

The following are some examples of representative projects Mr. Ali has been involved:

Polk County On-Call Geotechnical and Materials Testing Services, Polk County, Florida - This contract is for Geotechnical Engineering and Construction Materials Testing services for various projects in Polk County. MC Squared performed QA/QC testing services including field density tests, standard/modified proctor testing, LBR testing, and concrete testing and inspection. Additional services included pavement evaluation and geotechnical investigation and design. Mr. Ali assumed the role of Principal-in-Charge for this contract.

Hernando County On-Call Geotechnical Engineering Services Contract, Hernando County, Florida – This contract provided on-call Geotechnical services for Hernando County. Specific services provided by the MC Squared team included reviewing soil survey maps, exploration and evaluation of general subsurface conditions, borings and classifications of soils, measurements of groundwater levels, laboratory and field testing and engineering analysis of soil conditions, slope stability, and foundation/geotechnical designs with recommendations for civil design. Mr. Ali served as the QA Manager for this contract.

Hillsborough County Pavement Engineering, Subsurface Investigations, And Inspection Services, Hillsborough County, Florida - This contract is for professional services for pavement engineering, subsurface investigations and inspections services for various infrastructure projects including bridge repair projects in Hillsborough County, Florida. MC Squared provides geotechnical investigations and testing services as well as pavement cores, dynamic cone penetrometers, roadway pavement design, and pavement condition indexing for roadway improvements/reconstructions. Mr. Ali serves as the Principal-in-Charge for this contract.

Manatee County On-Call Geotechnical And Materials Testing Services, Manatee County, Florida - This contract is for Geotechnical Engineering and Construction Materials Testing and Inspection services for various projects in Manatee County. Services include field density testing, standard/modified proctor testing, LBR testing, and concrete testing and inspection. Additional services included pavement evaluation and geotechnical investigation and design. Mr. Ali serves as the single QA Manager for this contract.

Certifications:
GA DNR Rules for Dam Safety – Engineer of Record

PROFESSIONAL BACKGROUND

Mr. Stewart serves as Chief Engineer for MC Squared, LLC. He has over 40 years of experience in Geotechnical Engineering, Construction Materials Testing and Inspection, and Environmental Engineering. He has applied his extensive Geotechnical Engineering knowledge to projects such as site selection, earth and rock-filled dam design and construction, design of shallow and deep foundation systems for single and multi-level buildings, earth and rock slope stability analysis, as well as foundation rehabilitation and stabilization using several grouting techniques. Other related projects include pavement evaluations and designs for roadways, soil surveys, Bridge Foundation Investigations (BFIs), Wall Foundations Investigations (WFIs) and collection and evaluation of asphalt Cores.

The following are some examples of representative projects Mr. Stewart has been involved:

Polk County On-Call Geotechnical and Materials Testing Services, Polk County, Florida - This contract is for Geotechnical Engineering and Construction Materials Testing services for various projects in Polk County. MC Squared performed QA/QC testing services including field density tests, standard/modified proctor testing, LBR testing, and concrete testing and inspection. Additional services included pavement evaluation and geotechnical investigation and design. Mr. Stewart served as Geotechnical Services Lead for this contract.

Hernando County On-Call Geotechnical Engineering Services Contract, Hernando County, Florida – This contract provided on-call Geotechnical services for Hernando County. Specific services provided by the MC Squared team included reviewing soil survey maps, exploration and evaluation of general subsurface conditions, borings and classifications of soils, measurements of groundwater levels, laboratory and field testing and engineering analysis of soil conditions, slope stability, and foundation/geotechnical designs with recommendations for civil design. Mr. Stewart served as the Geotechnical Services Lead for this contract.

C-43 West Basin Storage Reservoir, Hendry County, Florida - The Caloosahatchee River (C-43) West Basin Storage Reservoir Project consists of an above-ground reservoir with a total storage capacity of approximately 160,000 acre-feet. MC Squared is providing full-service quality control and testing services for the utilization of multiple borrow pits, embankment placement of ~22-million cubic yards of fill, 19-miles of a soil-bentonite wall, 110,000 tons of soil-cement armoring, the construction and inspection of 12 pump stations, water control structures, construction of two bridges, steel and weld inspection, threshold inspection for several buildings, rip-rap testing for the creation of canals, asphalt field and lab testing for associated roadways and inspection and testing of associated drainage structures. Mr. Stewart serves as Project Principal on this project.

Prashanth Vaddu, PE
Geotechnical Lead

EDUCATION

MS Civil Engineering, Southern Illinois University at Carbondale, Carbondale, Illinois
BS Civil Engineering, Osmania University College of Engineering, Hyderabad, India

LICENSES AND REGISTRATIONS

Registered Professional Engineer:

- State of Florida No. **75114**
- State of Georgia No. **039820**
- State of S. Carolina No. **30217**
- State of N. Carolina No. **045032**

PROFESSIONAL BACKGROUND

Mr. Vaddu serves as Regional Vice President for MC Squared, LLC. He has over 18 years of experience in Geotechnical Engineering and Construction Materials Testing and Inspection. His Geotechnical expertise includes subsurface exploration, site characterization, foundation design, geo-forensic investigations, pavement evaluations, and constructability reviews. Mr. Vaddu has served as Project Manager or Senior Project Engineer for numerous infrastructure projects, including work on bridges, walls, embankments, pavements, pipelines, and tunnels. Additionally, Mr. Vaddu has extensive experience performing sinkhole investigations and designing sinkhole remediation plans.

The following are some examples of key projects Mr. Vaddu has been involved:

W.E. Dunn WRF Filtration and Disinfection Improvement Project, Pinellas County, Florida - This Progressive Design Build Project includes addition of a new disinfection facility structure in addition to various miscellaneous improvements. MC Squared provided geotechnical engineering and geo-forensic evaluations for the project to address design as well as sinkhole remediation services prior to construction. Geotechnical evaluations included both Standard Penetration test (SPT) borings and Piezocone Penetration Test (PCPT) soundings at the project site. Geophysical evaluations at the site included Ground Penetrating Radar (GPR) and Multichannel Analysis of Surface Waves (MASW) to identify potential subsurface anomalies. Geo-forensic assessments included recommendations for pressure grouting to remediate the subsurface soils prior to foundation installation. Foundation evaluations included recommendations for shallow (mat foundations) as well as deep foundations (including driven piles, drilled shafts, augered-cast-in-place piles). Mr. Vaddu serves as Geotechnical QA Lead on this project.

Thornhill Rd. Bridge Replacement, Polk County, Florida – This project was for replacement of the bridge along Thornhill Road in Polk County. MC Squared provided Geotechnical Engineering services through QA and project oversight. Geotechnical analyses included evaluation of box culvert and short single-span concrete bridge alternatives as replacement structures for the aging bridge. Additionally, the existing pavement was evaluated along both approaches for a total project length of 0.4 miles. PSC and H-Piles were evaluated for support of the short single-span bridge option while shallow foundations were evaluated for support of the box culvert. Davison pile capacity curves were generated to assist with the design of the project. Mr. Vaddu served as Project Principal on this project.

Port Sutton Bridges, Hillsborough County, Florida – This project was for Geotechnical Engineering Consulting Services regarding two bridges within the immediate vicinity of a sensitive power generation plant. MC Squared provided evaluations for the use of several deep foundations, including non-redundant drilled shafts, for the single-span bridges. Mr. Vaddu served as a Geotechnical Engineer on this project.

Michael J. Wightman, P.G.

ROLE: President, Principal Geophysicist, GeoView, Inc. - Subsidiary of Ambient Technologies, Inc.

EDUCATION:

- M.S., Hydrogeology/Geophysics, University of South Florida, 1989
- B.A., Geology, University of California, Santa Barbara, 1986
- B.A., Business, Economics/Environmental Studies, University of California, Santa Barbara, 1980

REGISTRATIONS/CERTIFICATIONS:

- Licensed Professional Geologist, Florida and California (FL #1423, CA #6500)
- Certified Ground-Penetrating Radar Operator
- AGI Electrical Resistivity Imaging Certification
- Certified Pile Integrity Tester
- Geophysical Well Logging and Imaging.

Mr. Wightman's responsibilities at GeoView Inc. include the management and technical oversight of all geophysical investigations conducted by the firm. He has either managed or conducted geophysical investigations throughout the entire United States, Caribbean Basin and Central America. His duties include quality control oversight, project management and budgeting, employee supervision and training, design and implementation of geophysical investigations, data evaluation, numerical and analytical modeling of geophysical data. Mr. Wightman has either conducted or managed over 10,000 geophysical investigations concerned with environmental, geotechnical, geological, hydrogeological, infrastructure and construction-related projects. Mr. Wightman is an expert in the application of geophysical methods in terms of understanding karst-related conditions. Mr. Wightman has provided expert testimony, authored publications and delivered numerous presentations concerning geophysical testing for a wide variety of applications. Mr. Wightman has either conducted or managed over 10,000 geophysical investigations concerned with environmental, geotechnical, geological, hydrogeological, infrastructure and construction-related projects.

RELEVANT PROJECT EXPERIENCE:

Hillsborough County Southeast Landfill Expansion-Geological Site Characterization, 2020, $55,000. Project Manager-Geosyntec, Tampa, FL. Evaluated the effectiveness of several geological methods to identify deeply buried (75-200 feet below land surface) paleo-karst (sinkhole) features. A 40-acre test area was selected to evaluate the effectiveness of electrical resistivity imaging (ERI), micro-gravity and seismic refraction tomography. A total of 5,500 linear feet of data was collected using all methods. Results from the three geophysical test methods were integrated and compared to the results of standard penetration test (SPT) boring that were performed within identified suspected buried karst features.

McKay Bay Environmental Site Investigation, 2022, $9,000. Project Manager-Intertek, Tampa. Combined ground penetrating radar and time-domain electromagnetics study to delineate buried metallic and non-metallic debris across project site and clear locations for 90 planned borings (2022).

FDOT District 7 Emergency Response Services, Florida, 2013-present, $95,000. Project Manager – Intertek-PSI – Tampa, FL – Ongoing since 2013 On-going services contract to provide geophysical testing to help determine cause for formation of depressions or collapse on FDOT-regulated roadways in FDOT Districts 1 and 7. Ground penetrating radar and electrical resistivity imaging are typically performed. Required response time 4 hours or less.

Marcelo Passos Ferreira dos Reis, MSc.

ROLE: VP of ATI Companies LLC and Drilling Operations Manager - Subsidiary of Ambient Technologies, Inc.

EDUCATION:

- M.S., Marine Science/Marine Biology, Universidade Santa Úrsula Rio de Janeiro, Brazil, 2002
- B.Sc., Marine & Science Marine Biology, Universidade Santa Úrsula - Rio de Janeiro, Brazil, 1999

REGISTRATIONS/CERTIFICATIONS:

- Certified Ground-Penetrating Radar Operator
- ISO 14001 Lead Auditor Certification, Environmental Management; Bureau and International Register of Certified Auditors

Mr. Reis' Master of Science studies with a focus in Environmental Marine Sciences have allowed him to interface/integrate multiple factors within environmental processes. He gained vast experience in this area during several years as, first, a Team Member and then Project Director, on marine expeditions for environmental and biological studies. With his educational background and applied experiences, his skills took him to the position of professor with two private universities in Brazil. His accomplished work at the universities was recognized when he was elected "Best Professor of the Year" for two consecutive years. As Lead Environmental Auditor with Bureau Veritas Quality International, he worked with organizations and businesses to establish and maintain effective environmental management systems (EMS) in accordance with ISO 14004 standards. As the Technical/Operational Manager at ATII Brazil, in Rio de Janeiro, Mr. Reis develop the firm's geophysical services market in Brazil. Marcelo has led and managed Geotechnical and Environmental Drilling projects for the Panama Canal Project, where ATI Panamericana provided over 90% of the Geotechnical and Environmental Drilling for the Panama Canal Expansion Project. He is currently in charge of all Geotechnical and Environmental Drilling Projects throughout the State of Florida.

RELEVANT PROJECT EXPERIENCE:

Coral Springs Fire Academy FL, Coral Springs, FL - Project Manager – INTERTEK-PSI – Coral Springs & Plantation, FL – 2019 – **Cost: $6,900**
Site 1 and Site 2: Installation of two (4) Temporary Monitoring wells up to 15 ft. Well is 1" with 10 ft of prepack screen. Installed and removed on same day. Open borings (concrete) for client. Built a decon pit for decontamination processing. Special handling procedures for the sampling of PFAS.

Geotechnical drilling and instrumentation installation, Panamá Canal Pacific side
Project Manager – Grupo Unidos por el Canal/ACP Panama Canal – 2014 – **Cost: $200,000**
Geotechnical/Geological investigation drilling over 4,000 feet, with disturbed and undisturbed samples and HQ coring. With instrumentation installation. Canal Expansion on the Pacific and Atlantic side.

Orange County Superfund Site, City of Orlando, FL
Project Manager – Geosyntec – Tallahassee, FL – 2021-2022 - **Cost: $35,000** ATI Companies completed Direct Push Technology (DPT) Drilling, Soil & Water Sampling and Monitoring Wells installations, at the Spellman Superfund Site in the City of Orlando, Florida. The purpose of the investigation was to identify and delineate the nature and extent of industrial solvents in the soil and groundwater at the site. The Scope of Work included 40 Soil Borings (direct push continuous macrocores sampling) and GW sample points up to 60-ft below land surface. This initial phase also included the installation of 6 monitoring wells (vertical and angled) were installed at the same depth (up to 60ft) for continuous monitoring of the following phases of the project.

ROBERTS CONSULTING SERVICES, INC.

Christopher Sotomayor, P.E.
Geotechnical and Materials Engineer

Christopher Sotomayor has over 6 years of experience in FDOT construction material testing and geotechnical engineering projects. He manages the construction materials testing and geotechnical activities for private and public projects throughout Central Florida. Chris coordinates all field and laboratory activities associated with construction projects, reviews, and signs and seals all construction testing and inspection reports as well as geotechnical reports.

Education

UCF BSCE – Civil Engineering

TIN Number

S356100903

Qualifications / Certifications (FDOT/CTQP Certs)

Florida Registered Professional Engineer, Geotechnical PE #87506

CTQP - Drilled Shaft Inspector

CTQP - Pile Driving Inspector

CTQP - Final Estimates L1

ACI Concrete Field-Testing Tech

Advanced Maintenance of Traffic

Nuclear Safety Certification

Radiation Safety Officer Certification

2014 – 2019
FDOT-District 5, District Wide Contract - C8559, C8A50 & C9C40
Chris served as Project Manager for this FDOT District 5 contract. Chris was responsible for all Geotechnical, Drilled Shaft and Pile Driving Activities. Responsibilities include maintaining and keeping up with IA verifications of all current inspector. Revising field logs and submitting recommendations for approval. Pavement Evaluation on multiple projects (e.g., I-4, SR 464, SR 44). These projects include project include obtaining field core data and providing a summary of the core results and pavement condition as well as resurfacing recommendations. Chris also served as project engineer for a roadway soil survey on A1A. This included obtaining field samples and running geotechnical soil laboratory tests.

2020 – Current
FDOT-District 1, District Wide Contract – CA071
Mr. Sotomayor served as a Project Manager for this District 1 contract. He is responsible for pavement evaluation and laboratory projects assigned by the district and sees them from conception to final reporting. Mr. Sotomayor has been able to consistently save the district 10 to 15 percent of the project budget by efficiently managing field operations.

2014 – 2019
Central Florida Expressway Authority, Continuing Services Contract, Florida
Drilled shaft Inspector to multiple drilled shaft installation projects for CFX projects. Mr. Sotomayor also served as the project engineer. Responsibilities include reviewing and completing drilled shaft logs, recommending further testing and submitting acceptance package.

2014 – 2019
Orange County Public Schools, Continuing Geotechnical Engineering and Materials Testing Contract
Mr. Sotomayor has served as project manager for extensive construction materials testing services on Orange County School sites. He oversees testing of concrete, soils, steel, fireproofing and pavements on various schools. Further responsibilities include keeping track of project progress to efficiently manage the budget. Projects includes Audubon Park ES, Metro West ES., Englewood ES., Parramore PS-8 ES. Avalon Park MS, Lockhart ES and Ventura ES.

MC Squared, LLC proposes to utilize the services of Ambient Technologies, Inc. (ATI) and Roberts Consulting Services, Inc. (RCS) as subconsultants that qualify as Polk County Entities.

Ambient Technologies, Inc.

ATI's headquarters is located at 5709 1st Ave. S., St. Petersburg, FL 33707.

Their local office is located at 4336 Knights Station Rd., Lakeland, FL 33810. They have maintained a local office in Polk County since 2001.

Previous Locations in Polk County included: (1) 8419 Epicenter Boulevard, Lakeland FL 33809; (2) 4246 Knights Station Road, Lakeland, FL 33810; and (3) 2400 Hwy 60 East, Bartow, FL.

MC Squared, LLC shares Polk County's long-standing commitment to encouraging the utilization of Women and Minority Business Enterprises whenever possible. In-line with our previous submittals to Polk County and across the state of Florida, our assembled team of subconsultants meet that mark while also providing the same level of safety, quality, and "can-do" attitude that we expect of our own MC Squared staff.

For this proposal, we have included the following WBE/DBE/MBE partners along with their outlined services:

Company Name	Services Provided	Status
Ambient Technologies	Geotechnical Drilling, In-Situ Testing, Geophysical Services	MBE, DBE, SBE, SDB
Roberts Consulting Services	CEI Support, Quality Control Services, Construction Materials Testing	DBE

Copies of applicable certificates for each are included in this section of our proposal.

VICTORIA V. SMITH
Disadvantaged Business Enterprise Certification Manager
Florida Department of Transportation

MC Squared, LLC understands that the key to successful project completion begins with a thorough understanding of the project scope. Under our previous Geotechnical Engineering and Materials Testing and Inspection services contract with Polk County, our team gained valuable project experience and built working relationships with a number of Polk County PM's including those from the Facilities Management, Roads & Drainage, and Utilities Divisions. Thus, anticipated project scopes and the needs of various Polk County Infrastructure Divisions are well understood. **MC Squared** knows that maintaining regular communication with the client throughout the project is the best approach to client satisfaction. Upon the initiation of a work order request our Contract Manager, Mr. Nick Diorio, PE, will meet with the County Project Manager to develop a mutual understanding of the extent of the County's needs and the scope of services the County is seeking. A clear understanding of expectations regarding present budgets, applicable construction costs, and time frames for deliverables will also be reached.

We feel our previous experience with the number and variety of types of projects we have worked on will help ensure the work is properly thought out, scoped, and executed. Following the issuance of a "Notice-to-Proceed", **MC Squared** will develop a schedule of in-house deadlines that will be used to track the project's progress. We will contact the permitting agencies as necessary, typically to perform work such as drilling or pavement coring within the right-of way, to obtain realistic timeframes for permit approval so we can accurately reflect these in our schedules. Additionally, regular status update meetings will take place between our Project Manager and county partners to ensure schedules and benchmarks continue to be met.

Our project manager will promptly notify the county contact of any issues that could affect the budget or schedule on this project.

During project progress meetings held with the County, the **MC Squared** project team will review all milestones and project tasks and provide an updated project status. All projected cash flows and invoices are reviewed with the County Project Manager prior to submittal to minimize errors. Any change in personnel will be submitted to the County for approval.

To ensure schedule disruptions are minimal, our team will continuously monitor the efforts of our staff and sub-consultants to ensure we maintain the established outline for the project. Weekly timesheets will be maintained by all employees and will be reviewed on a regular basis to document actual progress vs. scheduled progress.

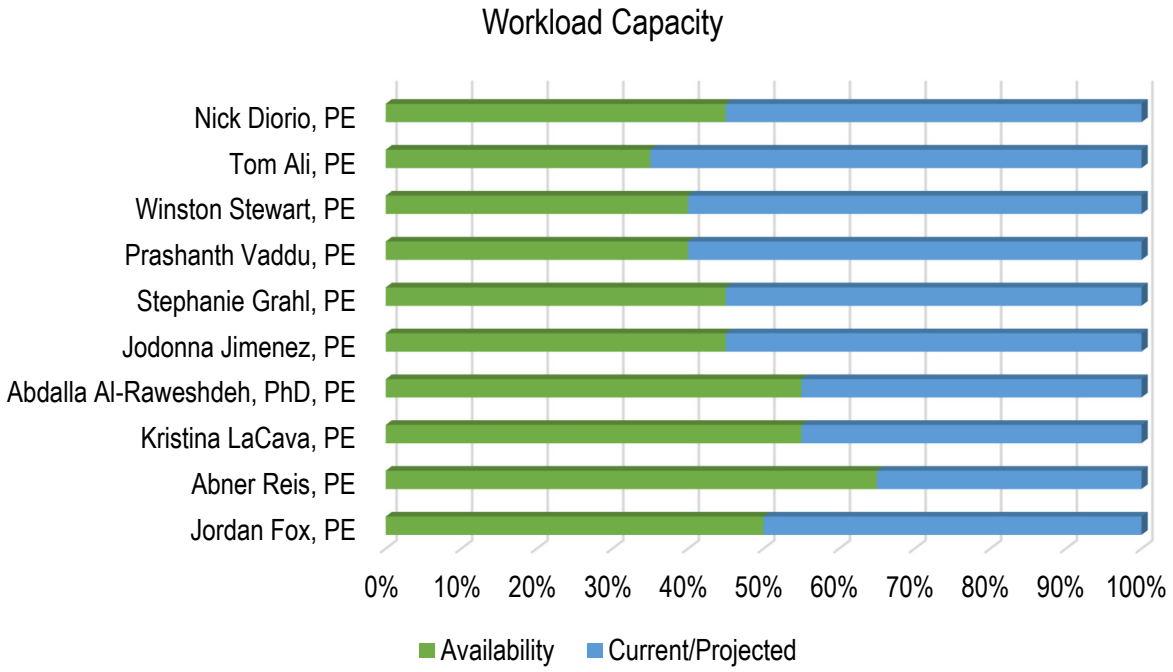
In case delays are detected, our PM will formulate an updated action plan and the County Project Manager will be immediately notified about the problem and the proposed action. **MC Squared** believes that the County, as a client, must not be delayed in receiving a submittal due to the lack of consultant resources needed to deal with impending deadlines. Once we give our commitment, it is our responsibility to manage our resources and ensure the County gets a quality product that is both on time and on budget.

Since our founding in 2001, **MC Squared** enjoys strong relationships with regulatory agencies within counties and districts across the state of Florida. This work includes the South and Southwest Florida Water Management Districts, FDOT District 1, 5, and 7, and Polk County itself. Through this experience, we are confident in the ability of our team to meet the standards and agency coordination efforts that are demanded of Polk County.

MC Squared does not have current or pending long-term contracts that would inhibit our capacity to properly service this Polk County contract. Our current project workload reflects our primary service areas of Geotechnical and Construction Materials Testing and Inspection services for local, county, and statewide municipalities that typically see project or task order completion within one month after notice to proceed. Our materials testing projects are typically on-going in nature and require testing as necessary through their duration, though we can ensure our staffing levels through our own processes and teaming efforts to maintain workflow across multiple projects at once.

We feel our pending level of availability would allow us to focus and act quickly on any Polk County request contained within this contract. Again, there are no current or projected long-term local projects which would preclude us from appropriately staffing the projects assigned under this contract and meeting the County's schedules for completing work orders.

The graphic below provides a summary of MC Squared's workload and our ability to provide services to Polk County under this contract:



MC Squared's Geotechnical and Construction Materials Testing and Inspection subject matter experts consists of 37 Engineers, 7 PhDs, 12 Professional Engineers, and 4 Geologists (3 Professional Geologists), supported by our in-house CMEC certified and FDOT validated laboratory. Our proximity to Polk County via our Tampa office, along with locations of our teaming partners, allows us to reach across Polk County for any request under this contract within a few hours.

Survey Questionnaire – Polk County

RFP 23-328, Professional Geotechnical Services and Construction Material Testing and Inspection

To: Jay Jarvis, P.E. (Name of Person completing survey)

Polk County Roads & Drainage (Name of Client Company/Contractor)

Phone Number: 863-535-2239 Email: jayjarvis@polk-county.net

Subject: Past Performance Survey of Similar work:

Project name: Geotechnical Pavement Evaluations

Name of Vendor being surveyed: MC Squared, LLC

Cost of Services: Original Cost: $99,908.20 Ending Cost: $99,908.20

Contract Start Date: December 2021 Contract End Date: March 2022

Rate each of the criteria on a scale of 1 to 10, with 10 representing that you were very satisfied (and would hire the Consultant /individual again) and 1 representing that you were very unsatisfied (and would never hire the Consultant /individual again). Please rate each of the criteria to the best of your knowledge. If you do not have sufficient knowledge of past performance in a particular area, leave it blank.

NO	CRITERIA	UNIT	SCORE
1	Ability to manage cost	(1-10)	10
2	Ability to maintain project schedule (complete on-time/early)	(1-10)	10

Senior Geotechnical Engineer	$68.27	$70.19	$174.77	$179.69
Geotechnical Project Engineer	$47.45	$61.06	$121.47	$156.31
Geotechnical Staff Engineer	$38.00	$48.83	$97.28	$125.00
Geologist	$38.62	$42.81	$98.87	$109.59
CADD Operator	$21.29	$28.05	$54.50	$71.81
Senior Field Inspector	$25.48	$42.81	$65.23	$109.59
CTQP Inspector - Level 1 (Soil/Concrete/Asphalt)	$19.00	$29.00	$48.64	$74.24
CTQP Inspector - Level 2 (Soil/Concrete/Asphalt)	$25.48	$42.81	$65.23	$109.59
Field Inspector/Technician	$19.00	$29.00	$48.64	$74.24
Clerical	$24.00	$29.00	$61.44	$74.24

Range of Hourly Billing Rates Based on Multiplier of 2.56

Exhibit "B" (Continued)

LABOR MULTIPLIER CALCULATION

Direct Labor	$1.00
Payroll Burden/Fringe Benefits, Overhead/General/Administrative (124.11%)	$1.24
FCCM (1.171%), Expenses (3.85%)	$0.05
Subtotal	$2.29
Profit (12%)	$0.12
Total Multiplier	$2.56

The above are based on FDOT Pre-Qualification letter of MC Squared, LLC and MC Squared, LLC overhead audit valid through June 30, 2024.

Exhibit "B" (Continued)

Specific services shall include, but not be limited to, sampling and testing of soils, concrete, asphalt and various other construction materials.

#	ITEM	Cost Per Unit	Unit of Measure
1	In-place density tests	$29.33	Each - Min. 4 per Trip, exclusive of travel time.
2	Standard Proctor	$172.48	Each
	Modified Proctor	$174.90	Each
3	Limerock Bearing Ratio tests (3 points)	$458.00	Each
4	Compressive strength of concrete cylinders (4 per set)	$118.43	Set
5	Compressive strength of soil-cement pills (4 per set)	$108.00	Set
6	Core drilling & soils analysis	Quote Per Project	Unit Dependent on Scope
	STEEL INSPECTION		
1A	Inspection of Welds & Bolt Torquing At Plant	$92.00	Hour
1B1	Inspection of Welds & Bolt Torquing At Job Site - One (1) Man Inspection Crew	$92.00	Hour
1B2	Inspection of Welds & Bolt Torquing At Job Site - Two (2) Man Inspection Crew	$184.00	Hour
2	Reinforcing Steel Inspection	$103.00	Hour
3	Nondestructive Testing of Steel & Connections	Quote Per Project	Unit Dependent on Scope
	GEOTECHNICAL INVESTIGATIONS & SOIL TESTS		
1	Standard Penetration Test Borings (ASTM D1586) (Minimum 50 feet per job)		
1A	0-50 foot depth interval	$18.45	LF
1B	50-100 foot depth interval	$23.04	LF
1C	100-125 foot depth interval	$29.00	LF
1D	125-150 foot depth interval	$35.00	LF
2	Solid Auger Stem Borings (minimum 100 feet per job)	$14.36	LF
3	Manual Auger Borings	$11.00	LF
4	Drill Service from Floating Platform	Quote Per Project	Unit Dependent on Scope

	GEOTECHNICAL INVESTIGATIONS & SOIL TESTS		
5	Rock Coring		
5A	0-50 foot depth interval	$58.71	LF
5B	50-100 foot depth interval	$67.64	LF
5C	100-125 foot depth interval	$70.00	LF
5D	125-150 foot depth interval	$75.26	LF
6	Installation of Steel Casing		
6A	0-50 foot depth interval	$10.00	LF
6B	50-100 foot depth interval	$12.00	LF
6C	100-125 foot depth interval	$14.00	LF
6D	125-150 foot depth interval	$17.00	LF
7	Ground Penetrating Radar	Quote Per Project	Unit Dependent on Scope
8	Cone Penetration Test	$18.00	LF
9	Dilatometer Soundings	Quote Per Project	Unit Dependent on Scope
10	Atterberg Limits		
10A	Liquid Limit (LL) - Plastic Limit (PL)	$119.00	Sample
10B	Shrinkage Limit (SL)	$81.00	Sample
11	California Bearing Ratio (3 points)	$458.00	Sample
12	Consolidation	$581.17	Sample
12A	Consolidation with Reload	$647.00	Additional Point Reload
13	Corrosion Resistance (pH and R)	$114.00	Sample
13A	Corrosion Series (pH, R, SO, CL)	$216.00	Sample
14	Field Density Tests (minimum 3 tests per trip	$29.33	Each - Min. 4 per Trip, exclusive of travel time.
15	Florida Bearing Value (FBCV)	$65.00	Sample
16	Florida Bearing Value Determination of Blend Proportions	$216.00	Set of 3
17	Grain Size		
17A	Hydro Analysis	$178.75	Each
17B	Sieve Analysis (Wash No. 200 Sieve)	$70.00	Each
19	Limerock Bearing Ratio (LBR) (3 point)	$377.00	Sample
20	Limerock Bearing Ratio (LBR) (5 point)	$458.00	Sample
21	Moisture Content	$17.00	Sample
22	Moisture Density Test		
22A	Standard Proctor	$172.48	Each
22B	Modified Proctor	$174.90	Each

	GEOTECHNICAL INVESTIGATIONS & SOIL TESTS		
23	Muck Probing		
23A	2 Man Crew	$1,185.00	Day
23B	3 Man Crew	$1,724.00	Day
24	Organic Content Determination	$58.32	Sample
25	Monitor Well Installation includes permits, lithologic log, and report - 2" or 4" PVC with removable, water-tight plug		
25A	Hollow Stem Auger Boring	$14.00	LF
25B	Casing: 2-inch PVC (site spec. may require stickup)	$38.00	LF
25C	Casing: 4-inch PVC (site spec. may require stickup)	$52.00	LF
25D	Casing: 2-inch Steel (site spec. may require stickup)	$70.00	LF
25E	Casing: 4-inch Steel (site spec. may require stickup)	$97.00	LF
25F	0.010-inch Filter Screen: 2-inch PVC + min. 6-inch tail	$33.00	LF

6. Postage, Fed Express, UPS — Actual Costs
7. Pre-approved Equipment (includes purchase and rental of equipment used in project) — Actual Costs

MASTER CONSULTING AGREEMENT

THIS AGREEMENT is entered into as of the Effective Date (defined in Section 1.1 below) by and between Polk County (the "County"), a political subdivision of the State of Florida, situated at 330 W. Church Street, Bartow, Florida 33830, and Universal Engineering Sciences, LLC. (the "Consultant") a Florida limited liability company, located at 3532 Maggie Boulevard, Orlando, Florida 32811, and whose Federal Employer Identification Number is: 59-1117804.

WHEREAS, County owns and operates a variety of public facilities and improvements; and,

WHEREAS, County requires certain professional services in connection with the performance of certain professional geotechnical services and construction material testing and inspection for all Divisions in the County; and

WHEREAS, the County has solicited for these services via RFP 23-328, an advertised request for proposals (the "RFP"), and has received numerous responsive proposals thereto; and

WHEREAS, pursuant to the RFP, the County has selected the Consultant and the Consultant remains agreeable to providing the County the professional services described herein, and the Consultant represents that it is capable and prepared to do so according to the terms and conditions stated herein.

NOW, THEREFORE, in consideration of the mutual understandings and covenants set forth herein, the parties hereby agree, as follows:

1.0 **Term**

1.1 This Agreement shall take effect on the date of its execution by the County (the "Effective Date").

1.2 The term of this Agreement shall be for a five (5) year time period, commencing upon the Effective Date and remaining in full force and effect thereafter, unless otherwise sooner terminated as provided herein.

2.0 **Services to Be Performed by Consultant**

2.1 Consultant shall perform the services as generally described in (i) the County's Request for Proposals RFP 23-328, to include all attachments and addenda, and (ii) the Consultant's responsive proposal thereto (collectively, (i) and (ii) are "RFP 23-328") all of which are incorporated into this Agreement by this reference, attached hereto as a composite Exhibit "A" and made a part of

this Agreement, and as may be further specifically designated and authorized by the County, in writing (collectively, the "Services"). Such authorization will be referred to as a Consultant Services Authorization ("CSA") or a Contract Purchase Order ("CPO") and all provisions of this Agreement apply to the CSA/CPO with full force and effect as if appearing in full within each CSA/CPO. Each CSA/CPO will set forth a specific Scope of Services, maximum limit of compensation, schedule, liquidated damages, and completion date, and shall become effective upon the due execution.

2.2 The Consultant is not authorized to undertake any project without a duly executed CSA/CPO, which shall specify the work to be performed and the time to be completed. Consultant recognizes that the County may employ several different Consultants to perform the work described and that the Consultant has not been employed as the exclusive agent to perform any such services.

2.3 When the Consultant and the County enter into a CSA/CPO where the term of the CSA/CPO expires on a date that is later than the date that this Master Consulting Agreement expires, the Consultant and the County agree that the terms of this Agreement and any amendments, attachments or provisions thereof are automatically extended until the expiration (including any extension or amendment thereto) or full completion of the requirements of the CSA/CPO have been performed. Cancellation by the County of any remaining work prior to the full completion of the requirements of the CSA/CPO shall cause the terms of this Agreement to terminate at the same time. This provision only applies when the expiration of the CSA/CPO extends beyond the expiration of this Agreement. It does not apply when a CSA/CPO expires or is cancelled prior to the expiration of this Agreement.

3.0 Compensation

3.1 General

3.1.1 County shall pay Consultant in accordance with the "Universal Engineering Sciences Fee Schedule", which is attached hereto as Exhibit "B" and incorporated by reference as part of this Agreement. The Universal Engineering Sciences Fee Schedule identifies all job classifications, which will perform billable services pursuant to this Agreement and the fee for each job classification. Performance of work by personnel in job classifications not listed on the Universal Engineering Sciences Fee Schedule will result in nonpayment for such services.

3.1.2 Upon the mutual agreement of the parties, the Fee Schedule, as set out in Exhibit "B" may be adjusted by a written Amendment to the Master Consulting Agreement annually beginning one year from the Effective Date of this Agreement. Such amendment must be executed by both parties and shall operate prospectively only and shall not alter fee schedules for CSA's/CPO's in effect at the time of the amendment.

3.1.3 Compensation may be negotiated as a not to exceed price or a lump sum amount on a per-project basis, on each individual CSA/CPO.

3.1.4 Invoices must reference the applicable CSA/CPO number, using an invoice form approved by the County Auditor.

3.1.5 Each individual invoice shall be due and payable forty-five (45) days after receipt by the County of correct, fully documented, invoice, in form and substance satisfactory to the County with all appropriate cost substantiations attached. All invoices shall be delivered, as applicable based on the particular project:

Polk County Roads and Drainage Division
3000 Sheffield Road,
Winter Haven, FL 33880
Attention: Director

3.1.6 In order for both parties herein to close their books and records, the Consultant will clearly state "Final Invoice" on the Consultant' s final/last billing to the County. This certifies that all services have been properly performed and all charges and costs have been invoiced to the County. Since this account will thereupon be closed, any and other further charges if not properly included on this final invoice are waived by the Consultant.

3.1.7 Payment of the final invoice shall not constitute evidence of the County's acceptance of the work

3.1.8 Invoices shall be accompanied by time and task records for all billable hours appearing on the invoice. Additional documents may be requested by County and, if so requested, shall be furnished by Consultant to County Auditor's satisfaction.

3.1.9 By submission of an invoice, the project manager or designated payroll officer is deemed to be attesting to the correctness and accuracy of time charges and requested

reimbursements.

3.1.10 Pursuant to Section 3.1.4, if a not to exceed fee is negotiated, invoices shall be accompanied by time and task records for all billable hours appearing on the invoice. Alternatively, if a lump sum amount is negotiated, invoices shall be made upon the completion of each phase of the work in proportion to the Services performed, as specifically set forth in the applicable CSA or CPO. Additional documentation may be requested by the County and, if so requested, shall be furnished by the Consultant to the County Auditor's satisfaction.

3.2 Reimbursable

3.2.1 All requests for payment of out-of-pocket expenses eligible for reimbursement per the negotiated CPO or CSA shall be reimbursed in accordance with the County's Reimbursable Schedule, Exhibit "C", and include copies of paid receipts, invoices or other documentation acceptable to the County's Auditor. Such documentation shall be sufficient to establish that the expense was actually incurred and necessary in the performance of the Scope of Work described in this Agreement, CSA, or CPO.

3.2.2 Reimbursable Expenses are the actual, pre-approved, expenses incurred directly in connection with the applicable CSA or CPO, and include:

Overnight Deliveries
Reproduction
Sub-Consultant
Long Distance Telephone Calls (excluding Florida cities located outside the boundaries of Polk County)

3.2.3 Mileage and associated travel costs shall be reimbursed in accordance with F.S. 112.061 and County policy for pre-approved out-of-county travel (excluding travel from home offices located outside of Polk County to the Polk County line).

3.2.4 All assets, i.e. durable goods, purchased as reimbursable expenses become the property of the County upon completion of the work for which the asset was utilized. All such assets must be surrendered by delivery to the Polk County Roads and Drainage Division offices upon demand, termination of the Agreement, or the conclusion of the project, whichever occurs first.

3.2.5 Consultant shall maintain a current inventory of all such assets.

4.0 **Insurance**

4.1 General Provisions

4.1.1 Consultant shall maintain, at all times, the following minimum levels of insurance and shall, without in any way altering their liability, obtain, pay for and maintain insurance for the coverages and amounts of coverage not less than those set forth below and provide the County with a Certificate of Insurance and an opportunity to inspect a certified copy of each policy applicable to this Agreement followed thereafter by an annual Certificate of Insurance satisfactory to the County to evidence such coverage before any work commences.

4.1.2 The County shall be named as an additional insured on all Consultant policies related to the project, excluding professional liability and worker's compensation. The Commercial General Liability and Worker's Compensation Liability policies shall contain a waiver of subrogation in favor of Polk County. All insurance coverage shall be written with an insurer having an A.M. Best Rating of a least the "A" category and size category of VIII.

4.1.3 The Consultant's self-insured retention or deductible per line of coverage shall not exceed $25,000.00 without the permission of the County.

4.1.4 If there is any failure by the Consultant to comply with the provisions of this section, the County may, at its option, on notice to the Consultant, suspend the work for cause until there is full compliance.

4.1.5 County may, at its sole discretion, purchase such insurance at Consultant's expense provided that the County shall have no obligation to do so and if the County shall do so, it shall not relieve Consultant of its obligation to obtain insurance.

4.1.6 The Consultant shall not be relieved of or excused from the obligation to obtain and maintain such insurance amount and coverages.

4.1.7 All Consultants' subconsultants shall be required to include County and Consultant as additional insured on their General Liability Insurance policies.

4.1.8 In the event that subconsultants used by the Consultant do not have insurance, or do not meet the insurance limits, Consultant shall indemnify and hold harmless the County

for any claim in excess of the subconsultants' insurance coverage.

4.1.9 The Consultant shall not commence work under this Agreement until all insurance required as stated herein has been obtained and such insurance has been approved by the County.

4.2 Comprehensive Automobile Liability Insurance. $1,000,000.00 combined single limit of liability for bodily injuries, death and property damage resulting from any one occurrence, including all owned, hired, and non-owned vehicles.

4.3 Commercial General Liability. $1,000,000.00 combined single limit of liability for bodily injuries, death and property damage, and personal injury resulting from any one occurrence, including the following coverages:

4.3.1 Premises and Operations:

Broad Form Commercial General Liability Endorsement to include Blanket Contractual liability (specifically covering, but not limited to, the contractual obligations assumed by the Firm); Personal Injury (with employment and contractual exclusions deleted); and Broad Form Property Damage coverage.

4.3.2 Independent Contractors:

Delete Exclusion relative to collapse, explosion and underground; Property Damage Hazards; Cross Liability Endorsement; and Contractual liability (specifically covering, but not limited to, the contractual obligations assumed by the Firm)

4.4 Umbrella (Excess) Liability Insurance. Umbrella Liability with limits of not less than $1,000,000.00, exclusive of defense costs, to be in excess of all other coverages. Such coverage shall be at least as broad as the primary coverages above, with any excess umbrella layers written on a strict following form basis over the primary coverage. All such policies shall be endorsed to provide defense coverage obligations.

4.5 Professional Liability Insurance. $2,000,000.00 for design errors and omissions, inclusive of defense costs. Consultant shall be required to provide continuing Professional Liability Insurance to cover each project for a period of two (2) years after the project is completed. Insurance requirements may vary depending on projects as determined by the County Director of Risk

Management and Insurance. The County may require the Consultant to provide a higher level of coverage for a specific project and time frame.

4.6 Performance, Payment and Other Bonds. Consultant shall furnish Performance and Payment Bonds specific to each project if required and agreed to under the CSA or CPO for the project.

4.7 Worker's Compensation. The Consultant shall provide, pay for, and maintain worker's compensation insurance on all employees, its agents or subcontractors as required by Florida Statutes.

5.0 **Standard of Care**

5.1 Consultant has represented to the County that it has the personnel and experience necessary to perform the work in a professional and workmanlike manner.

5.2 Consultant shall exercise the same degree of care, skill, and diligence in the performance of the Services as is provided by a professional of like experience, knowledge and resources, under similar circumstances.

5.3 Consultant shall, at no additional cost to County, re-perform services which fail to satisfy the foregoing standard of care or otherwise fail to meet the requirement of this Agreement.

5.4 The Consultant warrants that all services shall be performed by skilled and competent personnel to the professional standards in the field.

6.0 **Indemnification**

6.1 General. Having considered the risks and potential liabilities that may exist during the performance of the Services and in consideration of the promises included herein, County and Consultant agree to allocate such liabilities in accordance with this Section.

6.2 Indemnification.

6.2.1 Consultant, to the extent permitted by law, shall indemnify, defend (by counsel reasonably acceptable to County) protect and hold County, and its officers, employees and agents harmless from and against any and all, claims, actions, causes of action, liabilities, penalties, forfeitures, damages, losses and expenses (including, without limitation, attorney's fees costs and

expenses incurred during negotiation, through litigation and all appeals therefrom) whatsoever including, but not limited, to those pertaining to the death of or injury to any person, or damage to any property, arising out of or resulting from (i) the failure of Consultant to comply with applicable laws, rules or regulations, (ii) the breach by Consultant of its obligations under this Agreement, (iii) any claim for trademark, patent or copyright infringement arising out of the scope of Consultant's performance or nonperformance of this Agreement, or (iv) the negligent acts, errors or omissions, or intentional or willful misconduct, of Consultant, its professional associates, its subcontractors, agents, and employees provided, however, that Consultant shall not be obligated to defend or indemnify the County with respect to any such claims or damages arising out of the County's sole negligence.

6.2.2 County review, comment and observation of the Consultant's work and performance of this Agreement shall in no manner constitute a waiver of the indemnification provisions of this Agreement.

6.2.3 Consultant agrees that it bears sole legal responsibility for its work and work product, and the work and work product of subconsultants and their employees, and/or for Consultant's performance of this Agreement and its work product(s).

6.3 Survival. Upon completion of all Services, obligations and duties provided for in this Agreement, or in the event of termination of this Agreement for any reason, the terms and conditions of this Agreement shall survive as if the Agreement were in full force and effect.

7.0 **Independent Contractor**

7.1 Consultant undertakes performance of the Services as an independent contractor and shall be wholly responsible for the methods of performance.

7.2 County shall have no right to supervise the methods used, but County shall have the right to observe such performance.

7.3 Consultant shall work closely with County in performing Services under this Agreement.

7.4 The Consultant shall not pledge the County's credit or make it a guarantor of payment or surety for any contract, debt, obligation, judgment, lien or any form of indebtedness and

shall have no right to speak for or bind the County in any manner.

7.5 Consultant further warrants and represents that it has no obligation or indebtedness that would impair its ability to fulfill the terms of this Agreement.

8.0 **Authority to Practice**

8.1 The Consultant hereby represents and warrants that it has and will continue to maintain all licenses and approvals required to conduct its business, and that it will at all times conduct its business activities in a reputable manner.

9.0 **Public Records Law**

(a) The Consultant acknowledges the County's obligations under Article I, Section 24, of the Florida Constitution and under Chapter 119, Florida Statutes, to release public records to members of the public upon request and comply in the handling of the materials created under this Agreement. The Consultant further acknowledges that the constitutional and statutory provisions control over the terms of this Agreement. In association with its performance pursuant to this Agreement, the Consultant shall not release or otherwise disclose the content of any documents or information that is specifically exempt from disclosure pursuant to all applicable laws.

(b) Without in any manner limiting the generality of the foregoing, to the extent applicable, the Contractor acknowledges its obligations to comply with Section 119.0701, Florida Statutes, with regard to public records, and shall:

(1) keep and maintain public records required by the County to perform the services required under this Agreement;

(2) upon request from the County's Custodian of Public Records or his/her designee, provide the County with a copy of the requested records or allow the records to be inspected or copied within a reasonable time at a cost that does not exceed the cost provided in Chapter 119, Florida Statutes, or as otherwise provided by law;

(3) ensure that public records that are exempt or confidential and exempt from public records disclosure requirements are not disclosed except as authorized by law for the duration of the term of this Agreement and following completion of this Agreement if the Consultant does not transfer the records to the County; and

(4) upon completion of this Agreement, transfer, at no cost, to the County all public records in possession of the Consultant or keep and maintain public records required by the County to perform the service. If the Consultant transfers all public records to the County upon completion of this Agreement, the Consultant shall destroy any duplicate public records that are exempt or confidential and exempt from public records disclosure requirements. If the Consultant keeps and maintains public records upon completion of this Agreement, the Consultant shall meet all applicable requirements for retaining public records. All records stored electronically must be provided to the County, upon request from the County's Custodian of Public Records, in a format that is compatible with the information technology systems of the County.

(c) IF THE CONSULTANT HAS QUESTIONS REGARDING THE APPLICATION OF CHAPTER 119, FLORIDA STATUTES, TO THE

CONTRACTOR'S DUTY TO PROVIDE PUBLIC RECORDS RELATING TO THIS AGREEMENT, CONTACT THE COUNTY'S CUSTODIAN OF PUBLIC RECORDS AT:

RECORDS MANAGEMENT LIAISON OFFICER
POLK COUNTY
330 WEST CHURCH ST.
BARTOW, FL 33830
TELEPHONE: (863) 534-7527
EMAIL: RMLO@POLK-COUNTY.NET

10.0 **Compliance with Laws**

10.1 In performance of the Services, Consultant shall comply with applicable regulatory requirements including federal, state, special district, and local laws, rules, regulations, orders, codes, criteria and standards, including those now in effect and hereafter adopted.

11.0 **Subcontracting**

11.1 The County reserves the right to accept the use of a subcontractor or to reject the selection of a particular subcontractor and to inspect all facilities of any subcontractor.

11.2 If a subcontractor fails to perform or make progress, as required by this Agreement, and it is necessary to replace the subcontractor to complete the work in a timely fashion, the Consultant shall promptly do so, subject to acceptance of the new subcontractor by the County. Failure of a Subcontactor to timely or properly perform its obligations shall not relieve Consultant of its obligations hereunder.

12.0 **Federal and State Taxes**

12.1 The County is exempt from Federal Tax and State Sales and Use Taxes. Upon request, the County will provide an exemption certificate to Consultant. The Consultant shall not be exempted from paying sales tax to its suppliers for materials to fulfill contractual obligations with the County, nor shall the Consultant be authorized to use the County's Tax Exemption Number in securing such materials.

13.0 **Public Entity Crimes**

13.1 The Consultant understands and acknowledges that this Agreement with the

County will be voidable by the County, in the event the conditions under Section 287.133, Florida Statutes applies to the Consultant, relating to conviction for a public entity crime.

14.0 **County's Responsibilities**

14.1 County shall be responsible for providing access to all County project sites, and providing information in the County's possession that may reasonably be required by Consultant, including; existing reports, studies, financial information, and other required data that are available in the files of the County.

15.0 **Termination of Agreement**

15.1 This Agreement may be terminated by the Consultant upon thirty (30) days prior written notice to the County in the event of substantial failure by the County to perform in accordance with the terms of the Agreement through no fault of the Consultant.

15.2 This Agreement may be terminated by the County with or without cause immediately upon written notice to the Consultant.

15.3 Unless the Consultant is in breach of this Agreement, the Consultant shall be paid for services rendered to the County's satisfaction through the date of termination.

15.4 After receipt of a Termination Notice, as described in this Article 15.0, and except as otherwise directed by the County, the Consultant shall:

15.4.1 Stop work on the date and to the extent specified.

15.4.2 Terminate and settle all orders and subcontracts relating to the performance of the terminated work.

15.4.3 Transfer all work in process, completed work, and other material related to the terminated work to the County.

15.4.4 Continue and complete all parts of the work that have not been terminated.

16.0 **Uncontrollable Forces (Force Majeure)**

16.1 Either party hereunder may be temporarily excused from performance if an Event of Force Majeure directly or indirectly causes its nonperformance. An "Event of Force Majeure" is defined as any event which results in the prevention or delay of performance by a party of its obligations

under this Agreement and which is beyond the reasonable control of the nonperforming party. It includes, but is not limited to fire, flood, earthquakes, storms, lightning, epidemic, war, riot, civil disturbance, sabotage, and governmental actions. Neither party shall be excused from performance if non-performance is due to forces which are reasonably preventable, removable, or remediable and which the non-performing party could have, with the exercise of reasonable diligence, prevented, removed, or remedied prior to, during, or immediately after their occurrence. Within five (5) days after the occurrence of an Event of Force Majeure, the non-performing party shall deliver written notice to the other party describing the event in reasonably sufficient detail, along with proof of how the event has precluded the non-performing party from performing its obligations hereunder, and a good faith estimate as to the anticipated duration of the delay and the means and methods for correcting the delay. The non-performing party's obligations, so far as those obligations are affected by the Event of Force Majeure, shall be temporarily suspended during, but no longer than, the continuance of the Event of Force Majeure and for a reasonable time thereafter as may be required for the non-performing party to return to normal business operations. If excused from performing any obligations under this Agreement due to the occurrence of an Event of Force Majeure, the non-performing party shall promptly, diligently, and in good faith take all reasonable action required for it to be able to commence or resume performance of its obligations under this Agreement. During any such time period, the non-performing party shall keep the other party duly notified of all such actions required for it to be able to commence or resume performance of its obligations under this Agreement.

17.0 **Governing Law and Venue**

17.1 This Agreement shall be governed in all respects by the laws of the State of Florida and any litigation with respect thereto shall be brought only in the courts of Polk County, Florida or the United States District Court, Middle District of Florida located in Hillsborough County, Florida. Each party shall be responsible for its own attorneys' fee and other legal costs and expenses.

18.0 **Non-Discrimination**

18.1 The Consultant warrants and represents that all of its employees are treated equally during employment without regard to race, color, religion, gender, age or national origin.

19.0 **Waiver**

19.1 A waiver by either County or Consultant of any breach of this Agreement shall not be binding upon the waiving party unless such waiver is in writing. In the event of a written waiver, such a waiver shall not affect the waiving party's rights with respect to any other or further breach. The making or acceptance of a payment by either party with knowledge of the existence of a default or breach shall not operate or be construed to operate as a waiver of any subsequent default or breach.

20.0 **Severability**

20.1 The invalidity, illegality, or unenforceability of any provision of this Agreement, or the occurrence of any event rendering any portion or provision of this Agreement void, shall in no way affect the validity or enforceability of any other portion or provision of the Agreement.

20.2 Any void provision shall be deemed severed from the Agreement and the balance of the Agreement shall be construed and enforced as if the Agreement did not contain the particular portion or provision held to be void.

20.3 The parties further agree to reform the Agreement to replace any stricken provision with a valid provision that comes as close as possible to the intent of the stricken provision.

20.4 The provisions of this section shall not prevent the entire Agreement from being void should a provision which is of the essence of the Agreement be determined to be void.

21.0 **Entirety of Agreement**

21.1 The County and the Consultant agree that this Agreement sets forth the entire Agreement between the parties, and that there are no promises or understandings other than those stated herein.

21.2 This Agreement supersedes all prior agreements, contracts, proposals, representations, negotiations, letters or other communications between the County and Consultant pertaining to the Services, whether written or oral.

21.3 None of the provisions, terms and conditions contained in this Agreement may be added to, modified, superseded or otherwise altered except by written instrument executed by the parties hereto.

22.0 **Modification**

22.1 This Agreement may not be modified unless such modifications are evidenced in writing signed by both County and Consultant. Such modifications shall be in the form of a written Amendment executed by both parties.

23.0 **Successors and Assigns**

23.1 County and Consultant each binds itself and its partners, successors, permitted assigns, and legal representatives to the other party to this Agreement and to the partners, successors, executors, administrators, permitted assigns, and legal representatives of such other party.

23.2 Consultant shall not assign this Agreement without the express written approval of the County by executed amendment, which approval may be withheld in the County's sole discretion.

23.3 In the event of a merger, the surviving corporation shall be substituted for the contracting party to this agreement and such substitution shall be affirmed by the County by executed amendment.

24.0 **Contingent Fees**

24.1 The Consultant warrants that it has not employed or retained any company or person, other than a bona fide employee working solely for the Consultant to solicit or secure this Agreement and that it has not paid or agreed to pay any person, company, corporation, individual or firm, other than bona fide employee working solely for the Consultant, any fee, commission, percentage, gift or any other consideration contingent upon or resulting from the award or making of this Agreement.

25.0 **Truth-In-Negotiation Certificate**

25.1 Execution of this Agreement by the Consultant shall act as the execution of a Truth-in-Negotiation certificate certifying that the wage rates and costs used to determine the compensation provided for in this Agreement are accurate, complete, and current as of the Effective Date of this Agreement.

25.2 The said rates and costs shall be adjusted to exclude any significant sums should the County determine that the rates and costs were increased due to inaccurate, incomplete or noncurrent

wage rates or due to inaccurate representations of fees paid to outside consultants. The County shall exercise its rights under this "Certificate" within one (1) year following payment.

26.0 **Ownership of Documents**

26.1 Consultant shall be required to cooperate with other consultants relative to providing information requested in a timely manner and in the specified form. Any and all documents, records, disks, original drawings, or other information shall become the property of the County for its use and/or distribution as may be deemed appropriate by the County. Consultant is not liable for any damages, injury or costs associated with the County's use or distribution of these documents for purposes other than those originally intended by Consultant.

27.0 **Access and Audits**

27.1 Consultant shall maintain adequate records to justify all charges and costs incurred in performing the work for at least three (3) years after completion of this Agreement. The County shall have access to such books, records, and documents as required in this section for the purpose of inspection or audit during normal business hours at the Consultant's place of business.

27.2 Misrepresentations of billable time or reimbursable expenses as determined by the Auditor to the Polk County Board of County Commissioners shall result in the recovery of any resulting overpayments. The County's cost of recovery shall be the sole expense of the Consultant, including accounting and legal fees, court costs and administrative expenses.

27.3 Intentional misrepresentations of billable hours and reimbursable expenses will be criminally prosecuted to the fullest extent of the law.

27.4 All invoices submitted are subject to audit and demand for refund of overpayment up to three (3) years following completion of all services related to this Agreement.

28.0 **Notice**

28.1 Any notice, demand, communication, or request required or permitted hereunder shall be in writing and delivered in person or sent by Federal-Express or by Certified Mail, postage prepaid as follows:

As to County: Roads and Drainage Division
3000 Sheffield Road
Winter Haven, FL 33880

Attention: Director

As to Consultant: Universal Engineering Sciences
3532 Maggie Boulevard
Orlando, Florida 32811

28.2 Notices shall be effective when received at the addresses as specified above. Changes in the respective addresses to which such notice is to be directed may be made from time to time by either party by written notice to the other party. Facsimile transmission is acceptable notice effective when received, however, facsimile transmissions received (i.e.; printed) after 5:00 p.m., or on weekends or holidays, will be deemed received on the next business day. The original of the notice must additionally be mailed as required herein.

28.3 Nothing contained in this Article shall be construed to restrict the transmission of routine communications between representatives of Consultant and County.

29.0 **Service of Process**

As to County: County Attorney
County Administration Building
330 W. Church Street, 4th Floor
Bartow, Florida 33830

As to Consultant: Universal Engineering Sciences
3532 Maggie Boulevard
Orlando, Florida 32811

30.0 **Contract Administration**

30.1 Services of Consultant shall be under the general direction of the Roads and Drainage Division Director, or their successor, who shall act as the County's representative during the term of this Agreement.

31.0 **Key Personnel**

31.1 Consultant shall notify County in the event of key personnel changes, which might affect this Agreement. To the extent possible, notification shall be made within ten (10) days prior to changes. Consultant at County's request shall remove without consequence to the County any Subcontractor or employee of the Consultant and replace him/her with another employee having the

required skill and experience. County has the right to reject proposed changes in key personnel. The following personnel shall be considered key personnel:

Name: Guy Rabens

Name: Fred Schmalzer

Name: Ricardo Kiriakidis

32.0. **Annual Appropriations**

32.1 Consultant acknowledges that the County, during any fiscal year, shall not expend money, incur any liability, or enter into any agreement which, by its terms, involves the expenditure of money in excess of the amounts budgeted as available for expenditure during such fiscal year. Any agreement, verbal or written, made in violation of this subsection is null and void, and no money may be paid on such agreement. Nothing herein contained shall prevent the making of agreements for a period exceeding one year, but any agreement so made shall be executory only for the value of the services to be rendered or agreed to be paid for in succeeding fiscal years. Accordingly, the County' s performance and obligation to pay under this agreement is contingent upon annual appropriation.

33.0 **Liquidated Damages**

33.1 The parties hereto agree that liquidated damages, in the amount specified in the applicable CSA/CPO, will be assessed against the Consultant for Consultant' s failure to meet the final deliverable date in the Performance Schedule in the Scope of Work, but only to the extent and in proportion to Consultant's fault in causing the delay as compared to other causes, and to the extent the Consultant is not delayed by reasons beyond Consultant's reasonable control.

34.0 Employment Eligibility Verification (E-VERIFY)

A. Unless otherwise defined herein, terms used in this Section which are defined in Section 448.095, Florida Statutes, as may be amended from time to time, shall have the meaning ascribed in said statute.

B. Pursuant to Section 448.095(5), Florida Statutes, the contractor hereto, and any subcontractor thereof, must register with and use the E-Verify system to verify the work authorization status of all new employees of the contractor or subcontractor. The contractor acknowledges and agrees that (i) the County and the contractor may not enter into this Agreement, and the contractor may not enter into any subcontracts hereunder, unless each party to this Agreement, and each party to any subcontracts hereunder, registers with and uses the E-Verify system; and (ii) use of the U.S. Department of Homeland Security's E-Verify System and compliance with all other terms of this Certification and

Section 448.095, Fla. Stat., is an express condition of this Agreement, and the County may treat a failure to comply as a material breach of this Agreement.

C. By entering into this Agreement, the contractor becomes obligated to comply with the provisions of Section 448.095, Fla. Stat., "Employment Eligibility," as amended from time to time. This includes but is not limited to utilization of the E-Verify System to verify the work authorization status of all newly hired employees, and requiring all subcontractors to provide an affidavit attesting that the subcontractor does not employ, contract with, or subcontract with, an unauthorized alien. The contractor shall maintain a copy of such affidavit for the duration of this Agreement. Failure to comply will lead to termination of this Agreement, or if a subcontractor knowingly violates the statute or Section 448.09(1), Fla. Stat., the subcontract must be terminated immediately. If this Agreement is terminated pursuant to Section 448.095, Fla. Stat., such termination is not a breach of contract and may not be considered as such. Any challenge to termination under this provision must be filed in the Tenth Judicial Circuit Court of Florida no later than 20 calendar days after the date of termination. If this Agreement is terminated for a violation of Section 448.095, Fla. Stat., by the contractor, the contractor may not be awarded a public contract for a period of 1 year after the date of termination. The contractor shall be liable for any additional costs incurred by the County as a result of the termination of this Agreement. Nothing in this Section shall be construed to allow intentional discrimination of any class protected by law.

35.0 Limitation of Liability.

IN NO EVENT, SHALL THE COUNTY BE LIABLE TO THE CONSULTANT FOR INDIRECT, INCIDENTAL, CONSEQUENTIAL, SPECIAL, EXEMPLARY, OR PUNITIVE DAMAGES OF ANY KIND OR NATURE, INCLUDING LOSS OF PROFIT, WHETHER FORESEEABLE OR NOT, ARISING OUT OF OR RESULTING FROM THE NONPERFORMANCE OR BREACH OF THIS CONTRACT BY THE COUNTY WHETHER BASED IN CONTRACT, COMMON LAW, WARRANTY, TORT, STRICT LIABILITY, CONTRIBUTION, INDEMNITY OR OTHERWISE.

36.0 Scrutinized Companies and Business Operations Certification; Termination.

A. Certification(s).

(i) By its execution of this Agreement, the Consultant hereby certifies to the County that the Consultant is not on the Scrutinized Companies that Boycott Israel List, created pursuant to Section 215.4725, Florida Statutes, nor is the Consultant engaged in a boycott of Israel, nor was the Consultant on such List or engaged in such a boycott at the time it submitted its bid, proposal, quote, or other form of offer, as applicable, to the County with respect to this Agreement.

(ii) Additionally, if the value of the goods or services acquired under this Agreement are greater than or equal to One Million Dollars ($1,000,000), then the Consultant further certifies to the County as follows:

(a) the Consultant is not on the Scrutinized Companies with Activities in Sudan List, created pursuant to Section 215.473, Florida Statutes; and

(b) the Consultant is not on the Scrutinized Companies with Activities in the Iran

Petroleum Energy Sector List, created pursuant to Section 215.473, Florida Statutes; and

(c) the Consultant is not engaged in business operations (as that term is defined in Florida Statutes, Section 287.135) in Cuba or Syria; and

(d) the Consultant was not on any of the Lists referenced in this subsection A(ii), nor engaged in business operations in Cuba or Syria when it submitted its proposal to the County concerning the subject of this Agreement.

(iii) The Consultant hereby acknowledges that it is fully aware of the penalties that may be imposed upon the Consultant for submitting a false certification to the County regarding the foregoing matters.

B. Termination. In addition to any other termination rights stated herein, the County may immediately terminate this Agreement upon the occurrence of any of the following events:

(i) The Consultant is found to have submitted a false certification to the County with respect to any of the matters set forth in subsection A(i) above, or the Consultant is found to have been placed on the Scrutinized Companies that Boycott Israel List or is engaged in a boycott of Israel.

(ii) The Consultant is found to have submitted a false certification to the County with respect to any of the matters set forth in subsection A(ii) above, or the Consultant is found to have been placed on the Scrutinized Companies with Activities in Sudan List, or the Scrutinized Companies with Activities in the Iran Petroleum Energy Sector List, or has been engaged in business operations in Cuba or Syria, and the value of the goods or services acquired under this Agreement are greater than or equal to One Million Dollars ($1,000,000).

37. No Construction Against Drafter

37.1 The Parties acknowledge that this Agreement and all the terms and conditions contained herein have been fully reviewed and negotiated by the Parties. Accordingly, any rule of construction to the effect that ambiguities are to be resolved against the drafting party shall not apply in interpreting this Agreement.

38. Unauthorized Alien(s)

The Consultant shall not employ or utilize unauthorized aliens in the performance of the Services provided pursuant to this Agreement. The County shall consider the employment or utilization of unauthorized aliens a violation of Section 274A(e) of the Immigration and Naturalization Act (8 U.S.C. 1324a) and a cause for the County's unilateral termination of this Agreement. When delivering executed counterparts of this Agreement to the County, the Consultant shall also deliver a completed and executed counterpart of the attached "AFFIDAVIT CERTIFICATION IMMIGRATION LAWS" form.

(THE REMAINDER OF THE PAGE LEFT INTENTIONALLY BLANK)

IN WITNESS WHEREOF, the parties hereto have executed this Agreement as of the Effective Date.

PROPOSAL SUBMITTAL INSTRUCTIONS

Proposers must submit their proposal prior to 2:00 p.m. on the receiving date. Proposals must be submitted in a “sealed” parcel or electronically through Polk County’s secure website, Kiteworks. Proposals will be publicly opened at 2:00 p.m. on the receiving date.

Sealed Parcel Submittal:

If you are submitting a sealed parcel proposal submit one (1) original marked ORIGINAL and five (5) copies marked COPY of the proposal in a sealed parcel to the Procurement Division. The parcel should be labeled “RFP #23-328, Professional Geotechnical Services and Construction Material Testing and Inspection” and marked with the proposer’s name and address. The Proposals may be mailed or delivered to:

Polk County Procurement Division

330 West Church Street, Room 150

Bartow, FL 33830

To assist with labeling the sealed parcel, please cut along the outer border and affix this label. Be sure to include the name of the company submitting the proposal where requested.

Sealed Proposal. DO NOT OPEN	
RFP Number	23-328
RFP Title	Professional Geotechnical Services and Construction Material Testing and Inspection
Due Date/Time:	June 7, 2023, prior to 2:00 pm
Submitted by:	
Deliver To:	Polk County Procurement Division 330 West Church Street, Room 150, Bartow, Florida 33830

Proposals may be mailed, express mailed or hand delivered. It is the Proposers responsibility to ensure their package is delivered to the Procurement Division prior to

2:00 p.m. on the Receiving date and time referenced above. Proposals delivered at 2:00 p.m. or later will not be accepted.

Electronic Proposals Submittal:

All prospective Proposers that are interested in submitting their proposals electronically can do so via the County's secure electronic submittal website, Kiteworks. Proposers must email michaelguerrero@polk-county.net at least 48 hours prior to opening to receive a link to upload their submittal. Please only upload your documents as a PDF or Excel file for the Cost Tab, if applicable. Please use the name convention of your files as follow:

"RFP 23-328 Tab 1"

"RFP 23-328 Tab 2"

"RFP 23-328 Tab 3"

"RFP 23-328 Tab 4"

"RFP 23-328 Tab 5"

"RFP 23-328 Tab 6"

"RFP 23-328 Tab 7"

"RFP 23-328 Tab 8"

For more instructions, a video tutorial has been produced to further explain the electronic solicitation submittal process. It can be found by clicking here for RFP Submittals: https://youtu.be/vkn_7AHgioE. If you need assistance accessing this website due to ADA or any other reason, please email Michael Guerrero at michaelguerrero@polk-county.net.

Procurement recommends that Proposers submitting electronically double check the documents submitted into Kiteworks to ensure all requested tab information has been uploaded. Failure to upload the requested tab information may result in the proposal being deemed nonresponsive.

POLK COUNTY
Procurement Division
Fran McAskill
Procurement Director
REQUEST FOR PROPOSAL 23-328

Professional Geotechnical Services and Construction Material Testing and Inspection

Sealed proposals will be received in the Procurement Division, **Wednesday, June 7, 2023, prior to 2:00 p.m.**

Attached are important instructions and specifications regarding responses to this Request for Proposal (the "RFP"). The failure of a responding proposer (a "Proposer") to follow these instructions could result in Proposer disqualification from consideration for a contract to be awarded pursuant to this RFP.

This document is issued by Polk County (the "County") which is the sole distributor of this RFP and all addenda and changes to the RFP documents. The County shall record its responses to inquiries and provide any supplemental instructions or additional documents pertaining to this RFP in the form of written addenda to the RFP. The County shall post all such addenda, together with any other information pertaining to this RFP, on the County's website at

http://www.polk-county.net/procurement/procurement-bids. It is the sole responsibility of each Proposer to review the website prior to submitting a responsive proposal (a "Proposal") to this RFP to ensure that that the Proposer has obtained all available instructions, addenda, changes, supporting documents, and any other information pertaining to this RFP.

The County is not responsible for any solicitations issued through subscriber, publications, or other sources not connected with the County and the Proposer should not rely on such sources for information regarding the RFP solicitation.

Questions regarding this RFP must be in writing and must be sent to Michael Guerrero, via email at michaelguerrero@polk-county.net or via fax at (863) 534-6789. All questions must be received by May 30, 2023, 4:00 p.m.

Proposers and any prospective Proposers shall not contact, communicate with or discuss any matter relating in any way to this RFP with any member of the Polk County Board of County Commissioners or any employee of Polk County other than the County Procurement Director or the individual designated above. This prohibition begins with the issuance of the Request for Proposal and ends upon execution of a contract. Any such communication initiated by a Proposer or prospective proposer shall be grounds for disqualifying the offender from consideration for a contract to be awarded pursuant to this RFP and for contracts to be awarded pursuant to RFPs or Requests for Bid that the County may issue in the future.

A Proposer's responsive Proposal to this RFP may be mailed, express mailed, or hand delivered to:
Polk County Procurement Division
330 West Church Street, Room 150
Bartow, Florida 33830
(863)534-6757

INTRODUCTION

Polk County, a political subdivision of the State of Florida seeks professional geotechnical services and construction material testing and inspection, and as further defined in the Scope of Services below.

Polk County's Selection Process for consultants' services is in accordance with Section 287.055, Florida Statutes, the Consultants' Competitive Negotiations Act ("CCNA"). The Professional Services Selection Committee will review the qualifications of all submitting firms.

It is the intent of the County to select and negotiate a Master Consulting Agreement with multiple firm(s).

The County will negotiate a fee schedule and or overall lump sum price as part of "Selection Process", Elevation Level 4 Contract Negotiations.

Services under this contract will be in compliance with Section 287.055 of the Florida Statutes referred to as the "Consultants' Competitive Negotiation Act" (CCNA). Polk County's Procurement Procedure's Manual outlines the Procedures for Contracting for Professional Services Covered by CCNA. These procedures outline the process used for the selection of a consulting firm awarded through this RFP process.

All services must be performed in accordance with applicable Federal, State and Local regulations.

SCOPE OF SERVICES

The scope of services shall include, but not be limited to in-place density tests; standard or modified proctors; limerock bearing ratio test; compressive strength of concrete cylinders; compressive strength of soil-cement pills; Super Pave - asphalt binder content, gradations, gyratory pills, pavement density, air voids; core drill & soils analysis; steel inspection; geotechnical investigations & soil testing; asphaltic concrete inspection services; concrete testing, which includes, but is not limited to the specific services listed on Exhibit "A" at the end of this document. All reports submitted by the Consultant(s) shall include specific recommendations, as applicable.

The County shall request the services on an as-needed basis. There is no guarantee that any or all of the services described in the agreement will be assigned during the term of the agreement. Further, the Consultant is providing these services on a nonexclusive basis. The County, at its option, may elect to have any of the services set forth herein performed by other consultants or County staff.

AGREEMENT

The Master Consulting Agreement will be for five (5) years unless otherwise terminated in accordance with the master service agreement.

EVALUATION CRITERIA

Proposals should not contain information in excess of that requested, must be concise, and must specifically address the issues of this RFP. Unnecessarily elaborate brochures or other presentations beyond those sufficient to present a complete and effective response to this RFP are not desired and may be construed as an indication of the Proposer's lack of cost consciousness. Elaborate artwork, expensive visual aids, and other presentation aids are neither necessary nor desired unless specifically requested. The Proposal responses shall be contained within a three-ring binder (original and each copy in separate binders). For the purposes of this RFP, one page equals a single sided page. It is requested that the responses be in the same order as the selection and evaluation procedures. The submittals should include the following:

Tab 1 Executive Summary

(Items a-c: Maximum of two (2) pages

a) Name, company name, address, telephone number, and email address.
b) State the number of years in business, as the same company/firm.
c) State the number of full-time employees.
d) Provide documentation showing proper incorporation by the Secretary of State.
e) Provide a copy of the firm's applicable certification(s) from the State of Florida allowing them to provide the services as outlined in the Scope of Service as well as compliance with F.S. 287.055

Tab 2 Approach to the Project (35 points)

(Maximum of four (4) pages)

a) Describe in detail the components of how your firm proposes to manage assigned project(s), based upon the scope of services. Please identify the services your firm provides which make you qualified to perform the required services.
b) Describe how the firm plans to maintain the project team and manage the project team members' time in order to ensure sufficient time to complete a project.
c) Describe the firm's Quality Assurance and Quality Control program as it pertains to engineering services.

Tab 3 Experience, Expertise, Personnel and Technical Resources (35 points)

- Identify a minimum of five (5) and a maximum of eight (8) projects in which the proposer has performed within the past five (5) years as the prime proposer which best illustrate the experience of the firm and current staff as related to the desired services. At least three (3) of the projects identified should be for geotechnical services, and at least two (2) should be for construction and material testing and inspection. At least three (3) of the minimum five (5) projects

should have been performed within the state of Florida. (Maximum of one (1) page only per project).
    - For each project please provide:
        a) Name and location of the project;
        b) Size and cost of the project;
        c) Project representative name, address, phone number, and email address
        d) Date project was completed or is anticipated to be completed, if completed provide the actual completion date;
        e) The nature of the firm's responsibility on the project;
        f) List of change orders, including dollar amount, which were the result of unforeseen circumstances or design errors/oversights; and
        g) List of any time extensions created by item f above.
- Provide an organizational chart of the team highlighting the key individuals who will work on this contract.
- Provide brief resumes of the firm's key personnel to be assigned to the master service agreement including, but not limited to, the items in the list below (One (1) page maximum per resume):
    a) Name and current position held by the person
    b) Name, title and project assignment
    c) Experience:
        1) Types of projects.
        2) Size of projects (dollar value of project).
        3) What were their specific project involvements?
- Identify any sub-consultants that may be involved throughout the duration of the agreement. For each sub consultant identified please provide:
    - A brief description of their experience outlining their qualifications to perform the intended services
    - A brief resume for each key personnel that will be assigned to perform the intended services

Tab 4 Is the Firm a "Polk County Entity"? (5 Points)

- There will be a maximum of five (5) points allocated for this Tab. If the Proposer is a Polk County Entity, then five (5) points will be allocated. If the Proposer is not a Polk County Entity but is utilizing one or more sub-consultants that are a Polk County Entity to assist in performing the scope of work, then the Proposal will be allocated one (1) point for each sub-consultant which is a Polk County Entity up to a maximum of five (5) points. The Polk County Entity sub-consultant(s) must have been identified under Tab 3, Experience, Expertise, Personnel and Technical Resources in order to qualify for point allocation.
- Provide documentation of the Proposers' or sub-consultant's headquarters and local offices, if any, and the amount of time the firm has been located at each

such local office. Please also indicate the number of employees at the local office.

- Proposers or sub-consultants will be allocated points if they meet the following Polk County Government definition of Polk County Entity.
    - The term “Polk County Entity” means any business having a physical location within the boundaries of Polk County, Florida, at which employees are located and business activity is managed and controlled on a day-to-day basis. Additionally, the business must have been located within the boundaries of Polk County for a minimum of 12 months prior to the date the applicable solicitation is issued. This requirement may be evidenced through a recorded deed, an executed lease agreement, or other form of written documentation acceptable to the County. The County shall have the right, but not the obligation, to verify the foregoing requirements.
- In the event a Proposer lists one or more sub-consultants in Tab 4 which is a Polk County Entity and receives point(s) as a result, and after the Proposer is awarded the project, if successful, it is determined that the listed sub-consultant does not assist in the performance of the scope of work (and is not replaced with an alternative sub-consultant which is a Polk County Entity), then the Proposer acknowledges and agrees that it may be suspended or debarred by the Procurement Director for failure to comply with the conditions, specifications or terms of a proposal or contract with the County or for committing a fraud or misrepresentation in connection with a proposal or contract with the County, in accordance with the Polk County Purchasing Ordinance and Procedures Manual.

Tab 5 Is the Firm a “Certified Woman or Minority Business Enterprise” (5 Points)

- Polk County Board of County Commissioners has a long-standing commitment to encouraging the utilization of Women and Minority Businesses that do business with the County as vendors. To that end we encourage all of our prime and professional services vendors to utilize W/MBE vendors where at all possible, irrespective of a company’s certification status. Please explain how the submitting firm will encourage minority participation in the project. (Limit response to one page)
- There will be a maximum of five (5) points allocated for this tab. If the Proposer is a Woman or Minority owned business, then five (5) points will be allocated. If the Proposer is not a Woman or Minority owned business but is utilizing one or more sub-consultants that are a Women or Minority owned business to assist in performing the scope of work, then the Proposal will be allocated one (1) point for each sub-consultant which meets the County’s certification criteria of Women or Minority owned, up to a maximum of five (5) points. The Woman or Minority owned business sub-consultant(s) must have been identified under Tab 3, Experience, Expertise, Personnel and Technical Resources in order to qualify for point allocation.

- Proposers or sub-consultants will be allocated points if they are a certified W/MBE as evidenced by providing the documentation described below.
    - If the Proposer or sub-consultant has a certified W/MBE status, provide documentation of the firms' certified W/MBE status as defined by the Florida Small and Minority Business Act and as defined in Polk County's Purchasing Procedures. Polk County's Purchasing Procedures recognize the following to meet the requirement of a certified W/MBE status:
        - Valid W/MBE Certification from one of the following
            - Florida Minority Supplier Development Council
            - Women Business Enterprise National Council
            - The State of Florida Office of Supplier Diversity
            - Florida Department of Transportation
            - U. S. Small Business Administration
            - Federal Aviation Authority
            - Other Florida governmental agencies

  Certifications from other governmental agencies will be considered on a case-by-case basis.

- In the event a Proposer lists one or more sub-consultants in Tab 5 which is a Women or Minority owned business and receives point(s) as a result, and after the Proposer is awarded the project, if successful, it is determined that the listed sub-consultant does not assist in the performance of the scope of work (and is not replaced with an alternative sub-consultant which is a Women or Minority owned business), then the Proposer acknowledges and agrees that it may be suspended or debarred by the Procurement Director for failure to comply with the conditions, specifications or terms of a proposal or contract with the County or for committing a fraud or misrepresentation in connection with a proposal or contract with the County, in accordance with the Polk County Purchasing Ordinance and Procedures Manual.

Tab 6 Interactions with County and Regulatory Agency Staff (5 Points)

- Provide documentation supporting the specialized qualifications of the proposed staff in terms of meeting this scope of service. Qualifications should highlight experience with regulatory agencies, identifying specific agencies and the items being addressed, including construction permitting, water use permitting, consent orders, consultation, governing regulations, and other related activities. Describe the firm's ability to work with Roads and Drainage or other Division staff in order to successfully fulfill the scope of service. Demonstrate the firm's knowledge of permitting process, as well as local regulatory agencies, including, but not limited to FDOT, and SWFWMD, if applicable. **(Limit response to one (1) page)**

Tab 7 Timely Completions of Projects (5 points)

Describe the firms' current and future projected workload. Describe specifically the firms' daily ability to handle each aspect of the scope of services described herein. **(Limit response to two (2) pages maximum)**

Tab 8 Surveys of Past Performance (10 Points)

- Provide reference surveys from past clients for the projects identified under Tab 3.
- Completed surveys. (See Exhibit 1) Procurement will take the average of all surveys and score as follows:
    - Average Score between 9-10 (10 Points)
    - Average Score between 7-8 (8 Points)
    - Average Score between 5-6 (6 Points)
    - Average Score between 3-4 (4 Points)
    - Average Score between 1-2 (2 Points)
    - Average Score of 0 (0 Points)

BID OPENING

Proposers may attend the Bid Opening in person or via conference call by dialing (646) 558-8656 and enter Meeting ID: 327 647 2818. A listing of all proposers will be posted to Procurement's website as soon as possible after bid opening.

Selection Process

Proposals will be evaluated in accordance with this section and all applicable County procurement policies and procedures.

The County shall appoint a selection committee (the "Selection Committee") that will be responsible for evaluating and scoring/ranking the Proposals in accordance with this Section.

The County will use a competitive selection process based on the Elevation Levels described in this Section. At Elevation Levels 2 and 3, the Selection Committee will score and/or rank the Proposals as applicable.

Selection of a final Proposal will be based upon the following steps and factors:

Elevation Level 1 (Procurement Requirements Assessment):

- The County Procurement Division shall review all Proposals for conformance with RFP guidelines and detailed submittal requirements. At the County's discretion, non-conforming Proposals may be eliminated from further consideration and conforming Proposals shall be elevated to Elevation Level 2. Procurement will distribute Proposals and evaluation criteria to the Selection Committee.
- Procurement will also ensure all firms meet the requirement of certification as outlined in Florida Statute 287.055(3)(c).

- The Selection Committee may convene to review questions that arise during individual member review of submitted Proposals before Elevation Level 2 to allow for questions, clarifications, explanations, or other discussion to be held before the review of Proposals is completed.

Elevation Level 2 (Scoring)

- Procurement shall score each Proposal on the following evaluation criteria:
    - Local (Tab 4)-5 points
    - W/MBE Certification (Tab 5)-5 points
    - Surveys of Past Performance (Tab 8)-10 points

    Subtotal Points-20 points

    by the process stated under each corresponding Tab description as set forth on Pages 8-11.

- Each Selection Committee member shall score each Proposal on the following evaluation criteria:
    - Approach to the Project (Tab 2)-35 points
    - Experience, Expertise, Personnel and Technical Resources (Tab 3)-35 points
    - Interaction w/ County & Regulatory Agencies (Tab 6)-5 points
    - Timely Completion of Projects (Tab 7)-5 points
      Subtotal Points-80 points
      by the following process:

1) Each Selection Committee member shall determine which of the following descriptions applies to each of the foregoing evaluation criteria:
    - EXCELLENT (1.0): Of the highest or finest quality; exceptional; superior; superb; exquisite; peerless.
      The Proposer provided information for a given criteria that satisfied the requirements and described specifically how and what will be accomplished in such a manner that exhibited an exceptional and superior degree of understanding, skill, and competency, both qualitatively and quantitatively. The facts included in the narrative (including all supporting documentation, diagrams, drawings, charts, and schedules, etc.) demonstrate the Proposer's ability to perform and deliver far beyond expectation.
    - VERY GOOD (0.8): To a high degree; better than or above competent and/or skillful.
      The Proposer provided information for a given criteria that satisfied the requirements and described specifically how and what will be accomplished in such a manner that exhibited a very high degree of understanding, skill, and competency, both qualitatively and quantitatively. The facts included in the narrative (including all supporting documentation,

diagrams, drawings, charts, and schedules, etc.) demonstrate the Proposer's ability to perform and deliver beyond expectation.

- GOOD (0.6): Having positive or desirable qualities; competent; skilled; above average.
  The Proposer provided information for a given criteria that satisfied the requirements and described specifically how and what will be accomplished in such a manner that exhibited a skillful and above-average degree of understanding, skill, and competency, both qualitatively and quantitatively. The facts included in the narrative (including all supporting documentation, diagrams, drawings, charts, and schedules, etc.) demonstrate the Proposer's ability to perform and deliver at the expected level.
- FAIR (0.4): Average; moderate; mediocre; adequate; sufficient; satisfactory; standard.
  The Proposer provided information for a given criteria that satisfied the requirements and described sufficiently how and what will be accomplished in a manner that exhibited an adequate and average degree of understanding, skill, and competency, both qualitatively and quantitatively. The facts included in the narrative (including all supporting documentation, diagrams, drawings, charts, and schedules, etc.) demonstrate the Proposer's ability to perform and deliver at a level slightly below expectation.
- POOR (0.2): Inadequate; lacking; inferior in quality; of little or less merit; substandard; marginal.
  The Proposer provided information for a given criteria that did not satisfy the requirements and described in an inadequate manner how and what will be accomplished. The information provided simply reiterated a requirement, contained inaccurate statements or references, lacked adequate information, or was of inferior quality. The facts included in the narrative (including all supporting documentation, diagrams, drawings, charts, and schedules, etc.) demonstrate the Proposer's ability to perform and deliver at a substandard and inferior level.
- UNACCEPTABLE (0.0):
  The Proposer failed to provide any information for a given criteria, provided information that could not be understood, or did not provide the information for a given category as requested.

2) After a Selection Committee member has determined the description applicable for each evaluation criterion, the total points available for such criterion shall be multiplied by the factor associated with the applicable description to produce the number of points allocated for that evaluation criterion. For example, a Selection Committee member classifies the "Experience and Expertise" criterion (which shall be worth 25 points for the purpose of this example) as "Very Good" (which is a description factor multiplier of 0.8). The points that Selection Committee

member allocated for that evaluation criterion would be 20, calculated as follows: 25 available points x 0.8 applicable description factor multiplier = 20 points.

3) A Selection Committee member's total score for each Proposal shall equal the sum of the total points allocated for each evaluation criteria.
4) When all Selection Committee members have completed their Proposal evaluations, the individual Selection Committee member's total scores for each Proposal will be added together to produce a final score for each Proposal.
5) Procurement will confirm the calculations for the final score for each Proposal. Then, Procurement shall publish a rank-ordered listing of the Proposals to the Selection Committee with the Proposal receiving the highest point as the highest-ranked Proposal.
6) In accordance with Section 287.055(4)(a), Florida Statutes, if there are three (3) or more Proposers in Elevation Level 2, the Selection Committee must elevate no fewer than the three highest scored of such Proposers to Elevation Level 3 for interviews. If there are only two Proposers in Elevation Level 2, the Selection Committee must elevate those two Proposers to Elevation Level 3 for interviews. If there is only one Proposer in Elevation Level 2, then the Selection Committee may collectively decide if they would like to elevate the Proposer to Elevation Level 3 for interviews or if they would like to recommend the Board authorize staff to enter into Contract Negotiations with the Proposer. In the latter case, after Board approval to authorize staff to negotiate a contract, the Proposer will then be elevated to Elevation Level 4 for contract negotiations.

Elevation Level 3 (Proposer Interviews)
The Selection Committee are required to conduct interviews of the Proposers that it has elevated from Elevation Level 2 to Elevation Level 3.

During an interview, elevated Proposers may be requested to make a presentation focusing on their qualifications, approach to the project and the ability to furnish the required services. The Selection Committee members will have an opportunity to inquire about any aspect of the RFP and the Proposer's Proposal. After all elevated Proposer interviews, each Selection Committee member will individually rank the Proposers in numerical order beginning at number 1 for the Proposer deemed to be the most highly qualified to perform the required services. In accordance with Section 287.055(4)(b), Florida Statutes, in determining whether a Proposer is qualified, each Selection Committee member shall consider such factors as:

- Ability of Personnel
- Whether a Proposer is a certified minority business enterprise
- Past performance
- Willingness to meet time and budget requirements
- Location
- Recent, current, and projected workloads
- Volume of work previously awarded to each Proposer by the County

Procurement shall receive and compile each Selection Committee member's ranking of each Proposer, and then publish a rank-ordered listing of Proposers to the Selection Committee, based on the combined average rankings given each Proposer. The Selection Committee members will then collectively decide if they would like to recommend the Board authorize staff to enter into Contract Negotiations with all Proposers elevated to Proposer Interviews, starting with the highest-ranked Proposer(s). After Board approval to authorize staff to negotiate a contract, said Proposer(s) will then be elevated to Elevation Level 4 for contract negotiations.

Elevation Level 4 (Contract Negotiations)
If a Proposer is elevated to this level, the User Division, with the assistance of Procurement and the County Attorney's Office, shall negotiate an Agreement with the elevated Proposer(s) in accordance with Section 287.055(5), Florida Statutes.

If after negotiating for a reasonable time period the parties cannot agree on a contract, the County shall, in its sole discretion, terminate further contract negotiations with that Proposer(s). Procurement shall notify the Selection Committee that contract negotiations with the elevated Proposer(s) have terminated. The Selection Committee shall then determine whether to recommend to the Board to approve contract negotiations with the next-highest-ranked Proposer, and so on. If the Selection Committee decides not to recommend contract negotiations with the next-highest-ranked Proposer, or if the County determines there is no other Proposer with whom the County can successfully negotiate a contract, then the RFP Selection Process shall terminate.

After contract negotiations with a Proposer(s) are successfully completed pursuant to Elevation Level 4, the Selection Committee shall recommend to the Board of County Commissioners that it selects such Proposer(s) to provide the services as outlined in the Agreement. The Board of County Commissioners shall make the final decision whether to enter into an Agreement with a Proposer(s).

ATTENTION PROPOSERS

The Successful Proposer must register in our new Vendor Database if you have not already done so prior to award of this RFP. A purchase order cannot be issued to a vendor until they have registered.

You may register by going to the following link:

https://www.polk-county.net/procurement/vendor-registration

Registered vendors will receive a User ID and Password to access their company information. All registered vendors must provide their owner gender, owner ethnicity, corporate status, and a minimum of one (1) commodity code to be considered registered. It is the responsibility of all vendors to update their vendor information.

Only registered vendors will receive notifications of future RFP's.

GENERAL CONDITIONS

CONTACT

After the issuance of any Request for Proposal, prospective proposers shall not contact, communicate with, or discuss any matter relating in any way to the Request for Proposal with the Board of County Commissioners, and any employee of Polk County, other than the Procurement Director or as directed in the cover page of the Request for Proposal. This prohibition begins with the issuance of any Request for Proposal and ends upon completion execution of a contract. Such communications initiated by a proposer shall be grounds for disqualifying the offending proposer from consideration for award of the proposal and/or any future proposal.

INSURANCE REQUIREMENTS

The selected firm, if any, shall maintain, at all times, the following minimum levels of insurance and shall, without in any way altering their liability, obtain, pay for and maintain insurance for the coverages and amounts of coverage not less than those set forth below. Provide to the County original Certificates of Insurance satisfactory to the County to evidence such coverage before any work commences. Polk County, a political subdivision of the State of Florida, shall be an additional named insured on all policies related to the project, excluding workers' compensation and professional liability. The Workers' Compensation and General Liability policies shall contain a waiver of subrogation in favor of Polk County. All insurance coverage shall be written with a company having an A.M. Best Rating of at least the "A" category and size category of VIII. The firm's self-insured retention or deductible per line of coverage shall not exceed $25,000 without the permission of the County. In the event of any failure by the firm to comply with the provisions; the County may, at its option, on notice to the firm suspend the project for cause until there is full compliance. Alternatively, the County may purchase such insurance at the firm's expense, provided that the County shall have no obligation to do so and if the County shall do so, the firm shall not be relieved of or excused from the obligation to obtain and maintain such insurance amounts and coverages.

Worker's Compensation and Employer's Liability Insurance providing statutory benefits, including those that may be required by any applicable federal statute:

Admitted in Florida	Yes
Employer's Liability	$100,000
All States Endorsement	Statutory
Voluntary Compensation	Statutory

Commercial General Liability Insurance. $1,000,000 combined single limit of liability for bodily injuries, death, and property damage, and personal injury resulting from any one occurrence, including the following coverages:

Premises and Operations and Products/Completed Operations;

Broad Form Commercial General Liability Endorsement to include blanket contractual liability (specifically covering, but not limited to, the contractual obligations assumed by the Firm); Personal Injury (with employment and contractual exclusions deleted) and Broad Form Property Damage coverages;

Independent Contractors; Policy must include Separation of Insureds Clause.

Comprehensive Automobile Liability Insurance. $1,000,000 combined single limit of liability for bodily injuries, death, and property damage, and personal injury resulting from any one occurrence, including all owned, hired, and non-owned vehicles.

Professional Liability Insurance. $2,000,000 for design errors and omissions, inclusive of defense costs. Selected firm shall be required to provide continuing Professional Liability Insurance to cover the project for a period of two (2) years after the projects are completed.

INDEMNIFICATION

To the maximum extent permitted by law, the Consultant shall indemnify, protect and hold the County, and its officers, employees and agents, harmless from and against any and all, claims, actions, causes of action, liabilities, penalties, forfeitures, damages, losses, and expenses whatsoever (including, without limitation, reasonable attorneys' fees, costs, and expenses incurred during negotiation, through litigation and all appeals therefrom) including, without limitation, those pertaining to the death of or injury to any person, or damage to any property, to the extent arising out of or resulting from (i) the failure of Consultant to comply with applicable laws, rules or regulations, (ii) the breach by Consultant of its obligations under this Agreement, (iii) any claim for trademark, patent, or copyright infringement arising out of the scope of Consultant's performance or nonperformance of this Agreement, or (iv) the negligent acts, errors or omissions, or intentional or willful misconduct, of Consultant or any persons or entities employed or utilized by Consultant in the performance of this Agreement. The obligations imposed by this Section shall survive the expiration or earlier termination of the Agreement.

PUBLIC ENTITY CRIMES STATEMENT

A person or affiliate who has been placed on the convicted vendor list following a conviction for a public entity crime may not submit a bid or proposal on a contract to provide any goods or services to a public entity, may not submit a bid or proposal on a contract with a public entity for the construction or repair of a public building or public work, may not submit bids on leases of real property to a public entity, may not be awarded or perform work as a contractor, supplier, subcontractor, or consultant under a contract with any public entity, and may not transact business with any public entity in excess of the threshold amount provided in Section 287.017, for CATEGORY TWO for a period of 36 months from the date of being placed on the convicted vendor list. By submitting this proposal, the proposer hereby certifies that they have complied with said statute.

EQUAL OPPORTUNITY/AFFIRMATIVE ACTION

The County is an equal opportunity/affirmative action employer. The County is committed to equal opportunity employment effort; and expects firms that do business with the County to have a vigorous affirmative action program.

WOMEN/MINORITY BUSINESS ENTERPRISE OUTREACH

The County hereby notifies all Proposers that W/MBEs are to be afforded a full opportunity to participate in any request for proposal by the County and will not be subject to discrimination on the basis of race, color, sex or national origin.

AFFIRMATION

By submitting their proposal, the Proposer affirms that the proposal is genuine and not made in the interest of or on behalf of any undisclosed person, firm or corporation and is not submitted in conformity with any agreement or rules of any group, association, organization or corporation; the Proposer has not directly or indirectly induced or solicited any other person to submit a false or sham proposal; the Proposer has not solicited or induced any person, firm or corporation to refrain from submitting a proposal; and the Proposer has not sought by collusion to obtain for him/herself any advantage over other persons or over the County.

DEVELOPMENT COSTS

Neither the County nor its representative(s) shall be liable for any expenses incurred in connection with preparation of a response to the RFP. Proposers should prepare their proposals simply and economically, providing a straightforward and concise description of the proposer's ability to meet the requirements of the RFP.

ADDENDA

The County may record its responses to inquiries and any supplemental instructions in the form of written addenda. The addenda will be posted on the County's website at https://www.polk-county.net/procurement-bids. It is the sole responsibility of the proposers to check the website to ensure that all available information has been received prior to submitting a proposal.

CODE OF ETHICS

If any proposer violates or is a party to a violation of the code of ethics of Polk County or the State of Florida, with respect to this proposal, such proposer may be disqualified from performing the work described in this proposal or from furnishing the goods or services for which the proposal is submitted and shall be further disqualified from bidding on any future proposals for work, goods, or services for the County.

DRUG FREE WORKPLACE

Preference shall be given to businesses with Drug Free Workplace (DFW) programs. Whenever two or more proposals, which are equal with respect to price, quality and service, are received by the County for the procurement of commodities or contractual services, a proposal received from a business that has provided a statement that it is a DFW shall be given preference in the award process.

APPLICABLE LAWS AND COURTS

This RFP and any resulting agreements shall be governed in all respects by the laws of the State of Florida and any litigation with respect thereto shall be brought only in the courts of Polk County, Florida or the United States District Court, Middle District of Florida, located in Hillsborough County, Florida. The proposer shall comply with all applicable federal, state and local laws and regulations.

CONTRACTUAL MATTERS

A contract in substantially the same form as attached here to as Attachment "A" (Master Consulting Agreement) will be executed between the County and the successful Proposer(s).

All contracts are subject to final approval of the Polk County Board of County Commissioners. Persons or firms who incur expenses or change position in anticipation of a contract prior to the Board's approval do so at their own risk.

PROPOSAL ACCEPTANCE PERIOD

A proposal shall be binding upon the offeror and irrevocable by it for one hundred and twenty (120) calendar days following the proposal opening date. Any proposal in which offeror shortens the acceptance period may be rejected.

ADDITION/DELETION

The County reserves the right to add to or delete any item from this proposal or resulting agreements when deemed to be in the best interest of the County.

PROPRIETARY INFORMATION

In accordance with Chapter 119 of the Florida Statutes (Public Records Law), and except as may be provided by other applicable State and Federal Law, all proposers should be aware that Request for Proposals and the responses thereto are in the public domain. However, the proposers are required to identify specifically any information contained in their proposals which they consider confidential and/or proprietary and which they believe to be exempt from disclosure, citing specifically the applicable exempting law. Proposers should provide a redacted copy of proposal with submittal or must provide within thirty (30) days from the Proposal due date.

All proposals received from proposers in response to this Request for Proposal will become the property of the County and will not be returned to the proposers. In the event of contract award, all documentation produced as part of the contract will become the exclusive property of the County.

REVIEW OF PROPOSAL FILES

In accordance with Chapter 119.071 of the Florida Statutes, the responses received for this Request for Proposal are exempt from review for thirty (30) days after the Bid Opening Date or at Recommendation of Award, whichever event occurs first.

Should the RFP be cancelled and re-solicited for any reason, proposal responses shall remain exempt from disclosure for a period not to exceed twelve (12) months or at Recommendation of Award of the subsequent solicitation.

RFP PROTEST: Any proposer desiring to file a protest, with respect to a recommended award of any RFP, shall do so by filing a written protest. The written protest must be in the possession of the Procurement Division within three (3) working days of the Notice of Recommended Award mailing date. All proposers who submitted a proposal will be sent a Notice of Recommended Award, unless only one proposal was received.

A copy of the protest procedures may be obtained from the Polk County Procurement Division or can be downloaded from the County's website at https://www.polk-county.net/procurement/protest-procedures.

FAILURE TO FOLLOW PROTEST PROCEDURE REQUIREMENTS WITHIN THE TIME FRAMES PRESCRIBED HEREIN AS ESTABLISHED BY POLK COUNTY, FLORIDA, SHALL CONSTITUTE A WAIVER OF THE PROPOSER'S RIGHT TO PROTEST AND ANY RESULTING CLAIM.

UNAUTHORIZED ALIEN(S) The Consultant agrees that unauthorized aliens shall not be employed nor utilized in the performance of the requirements of this solicitation. The County shall consider the employment or utilization of unauthorized aliens a violation of Section 274A(e) of the Immigration and Naturalization Act (8 U.S.C. 1324a). Such violation shall be cause for unilateral termination of this Agreement by the County. As part of the response to this solicitation, the successful consultant will complete and submit the form "AFFIDAVIT CERTIFICATION IMMIGRATION LAWS."

EMPLOYMENT ELIGIBILITY VERIFICATION (E-Verify)

A. Unless otherwise defined herein, terms used in this Section which are defined in Section 448.095, Florida Statutes, as may be amended from time to time, shall have the meaning ascribed in said statute.

B. Pursuant to Section 448.095(2)(a), Florida Statutes, effective January 1, 2021, public employers, contractors and subcontractors shall register with and use the E-verify system in order to verify the work authorization status of all newly hired employees. The Contractor acknowledges and agrees that use of the U.S. Department of Homeland Security's E-Verify System and compliance with all other terms of this Certification and Section 448.095, Fla. Stat., is an express condition of this Agreement, and the County may treat a failure to comply as a material breach of this Agreement.

C. By entering into this Agreement, the Contractor becomes obligated to comply with the provisions of Section 448.095, Fla. Stat., "Employment Eligibility," as amended from time to time. This includes but is not limited to utilization of the E-Verify System to verify the work authorization status of all newly hired employees, and requiring all subcontractors to provide an affidavit attesting that the subcontractor does not employ, contract with, or subcontract with, an unauthorized alien. The Contractor shall maintain a copy of such affidavit for the duration of the contract. Failure to comply will lead to termination of this Agreement, or if a subcontractor knowingly violates the statute or

Section 448.09(1), Fla. Stat., the subcontract must be terminated immediately. Any challenge to termination under this provision must be filed in the Tenth Judicial Circuit Court of Florida no later than 20 calendar days after the date of termination. If this Agreement is terminated for a violation of the statute by the Contractor, the Contractor may not be awarded a public contract for a period of 1 year after the date of termination. The Contractor shall be liable for any additional costs incurred by the County as a result of the termination of this Agreement. Nothing in this Section shall be construed to allow intentional discrimination of any class protected by law.

LIMITATIONS

This request does not commit Polk County to award a contract. Proposers will assume all costs incurred in the preparation of their response to this RFP. The County reserves the right to: 1) accept or reject qualifications and/or proposals in part or in whole; 2) request additional qualification information; 3) limit and determine the actual contract services to be included in a contract; 4) obtain information for use in evaluating submittals from any source and 5) reject all submittals.

ATTORNEY'S FEES AND COSTS: Each party shall be responsible for its own legal and attorney's fees, costs and expenses incurred in connection with any dispute or any litigation arising out of, or relating to this Agreement, including attorney's fees, costs and expenses incurred for any appellate or bankruptcy proceedings.

PUBLIC RECORD LAWS

(a) The Consultant acknowledges the County's obligations under Article I, Section 24, of the Florida Constitution and under Chapter 119, Florida Statutes, to release public records to members of the public upon request and comply in the handling of the materials created under this Agreement. The Consultant further acknowledges that the constitutional and statutory provisions control over the terms of this Agreement. In association with its performance pursuant to this Agreement, the Consultant shall not release or otherwise disclose the content of any documents or information that is specifically exempt from disclosure pursuant to all applicable laws.

(b)Without in any manner limiting the generality of the foregoing, to the extent applicable, the Consultant acknowledges its obligations to comply with Section 119.0701, Florida Statutes, with regard to public records, and shall:

(1) keep and maintain public records required by the County to perform the services required under this Agreement;

(2) upon request from the County's Custodian of Public Records or his/her designee, provide the County with a copy of the requested records or allow the records to be inspected or copied within a reasonable time at a cost that does not exceed the cost provided in Chapter 119, Florida Statutes, or as otherwise provided by law;

(3) ensure that public records that are exempt or confidential and exempt from public records disclosure requirements are not disclosed except as authorized by law for the duration of the term of this Agreement and following completion of this Agreement if the Consultant does not transfer the records to the County; and

(4) upon completion of this Agreement, transfer, at no cost, to the County all public records in possession of the Consultant or keep and maintain public records required by the County to perform the service. If the Consultant transfers all public records to the County upon completion of this Agreement, the Contractor shall destroy any duplicate public records that are exempt or confidential and exempt from public records disclosure requirements. If the Consultant keeps and maintains public records upon completion of this Agreement, the Consultant shall meet all applicable requirements for retaining public records. All records stored electronically must be provided to the County, upon request from the County's Custodian of Public Records, in a format that is compatible with the information technology systems of the County.

(c) **IF THE CONSULTANT HAS QUESTIONS REGARDING THE APPLICATION OF CHAPTER 119, FLORIDA STATUTES, TO THE CONSULTANT'S DUTY TO PROVIDE PUBLIC RECORDS RELATING TO THIS AGREEMENT, CONTACT THE COUNTY'S CUSTODIAN OF PUBLIC RECORDS AT:**

Scrutinized Companies and Business Operations Certification; Termination.

A. Certification(s).
   i. By its execution of this Agreement, the Vendor hereby certifies to the County that the Vendor is not on the Scrutinized Companies that Boycott Israel List, created pursuant to Section 215.4725, Florida Statutes, nor is the Vendor engaged in a boycott of Israel, nor was the Vendor on such List or engaged in such a boycott at the time it submitted its bid, proposal, quote, or other form of offer, as applicable, to the County with respect to this Agreement.
   ii. Additionally, if the value of the goods or services acquired under this Agreement are greater than or equal to One Million Dollars ($1,000,000), then the Vendor further certifies to the County as follows:
      a) the Vendor is not on the Scrutinized Companies with Activities in Sudan List, created pursuant to Section 215.473, Florida Statutes; and
      b) the Vendor is not on the Scrutinized Companies with Activities in the Iran Petroleum Energy Sector List, created pursuant to Section 215.473, Florida Statutes; and
      c) the Vendor is not engaged in business operations (as that term is defined in Florida Statutes, Section 287.135) in Cuba or Syria; and
      d) the Vendor was not on any of the Lists referenced in this subsection A(ii), nor engaged in business operations in Cuba or

Syria when it submitted its proposal to the County concerning the subject of this Agreement.

iii. The Vendor hereby acknowledges that it is fully aware of the penalties that may be imposed upon the Vendor for submitting a false certification to the County regarding the foregoing matters.

B. Termination. In addition to any other termination rights stated herein, the County may immediately terminate this Agreement upon the occurrence of any of the following events:

i. The Vendor is found to have submitted a false certification to the County with respect to any of the matters set forth in subsection A(i) above, or the Vendor is found to have been placed on the Scrutinized Companies that Boycott Israel List or is engaged in a boycott of Israel.

ii. The Vendor is found to have submitted a false certification to the County with respect to any of the matters set forth in subsection A(ii) above, or the Vendor is found to have been placed on the Scrutinized Companies with Activities in Sudan List, or the Scrutinized Companies with Activities in the Iran Petroleum Energy Sector List, or has been engaged in business operations in Cuba or Syria, and the value of the goods or services acquired under this Agreement are greater than or equal to One Million Dollars ($1,000,000).

Proposers Incorporation Information

(Submittal Page)

The following section should be completed by all bidders and submitted with their bid submittal:

Company Name: _____

DBA/Fictitious Name (if applicable): _____

TIN #: _____

Address: _____

City: _____

State: _____

Zip Code: _____

County: _____

Note: Company name must match legal name assigned to the TIN number. A current W9 should be submitted with your bid submittal.

Contact Person: _____

Phone Number: _____

Cell Phone Number: _____

Email Address: _____

Type of Organization (select one type)

- □ Sole Proprietorship
- □ Partnership
- □ Non-Profit
- □ Sub Chapter
- □ Joint Venture
- □ Corporation
- □ LLC
- □ LLP
- □ Publicly Traded
- □ Employee Owned

State of Incorporation: _____

The Successful vendor must complete and submit this form prior to award. The Successful vendor must invoice using the company name listed above.

EXHIBIT 1
DETAILED INSTRUCTIONS ON HOW TO PREPARE AND SEND PERFORMANCE SURVEYS

The objective of this process is to identify the past performance of the Contractor submitting a proposal package. This is accomplished by sending survey forms to past customers. The customers should return the forms directly to the Contractor. The Contractor is to include all surveys in their proposal package.

Sending the Survey

The surveys shall be sent to all clients for whom the Contractor has identified under Tab 3. Surveys should correlate to all projects identified under Tab 3.

If more surveys are included, then Procurement will only use those identified under Tab 3.

1. The Contractor shall complete the following information for each customer that a survey will be sent

CLIENT NAME	Name of the company that the work was performed for (i.e. Hillsborough County).
FIRST NAME	First name of the person who will answer customer satisfaction questions.
LAST NAME	Last name of the person who will answer customer satisfaction questions.
PHONE NUMBER	Current phone number for the reference (including area code).
EMAIL ADDRESS	Current email address for the reference.
PROJECT NAME	Name of the project (Geotechnical Services/Construction Material Testing and Inspection for X Project)
COST OF SERVICES	Cost of services ($250,000)
DATE COMPLETE	Date when the services were completed. (i.e. 5/31/2022)

2. The Contractor is responsible for verifying that their information is accurate prior to submission for references.

3. The survey must contain different services/projects. You cannot have multiple people evaluating the same job. However, one person may evaluate several different jobs.

4. The past projects can be either completed or on-going.

5. The past client/owner must evaluate and complete the survey.

Preparing the Surveys

1. The Contractor is responsible for sending out a performance survey to the clients that have been identified under Tab 3. The survey can be found on the next page.
2. The Contractor should enter the past clients' contact information, and project information on each survey form for each reference. The Contractor should also enter their name as the Contractor being surveyed.
3. The Contractor is responsible for ensuring all references/surveys are included in their submittal under Tab 8
4. Polk County Procurement may contact the reference for additional information or to clarify survey data. If the reference cannot be contacted, there will be no credit given for that reference.

Survey Questionnaire – Polk County

RFP 23-328, Professional Geotechnical Services and Construction Material Testing and Inspection

To: _____ (Name of Person completing survey)

_____ (Name of Client Company/Contractor)

Phone Number: _____ Email: _____

Subject: Past Performance Survey of Similar work:

Project name: _____

Cost of Services: Original Cost: _____ Ending Cost: _____

Contract Start Date: _____ Contract End Date: _____

Rate each of the criteria on a scale of 1 to 10, with 10 representing that you were very satisfied (and would hire the Consultant /individual again) and 1 representing that you were very unsatisfied (and would never hire the Consultant /individual again). Please rate each of the criteria to the best of your knowledge. If you do not have sufficient knowledge of past performance in a particular area, leave it blank.

NO	CRITERIA	UNIT	SCORE
1	Ability to manage cost	(1-10)	
2	Ability to maintain project schedule (complete on-time/early)	(1-10)	
3	Quality of workmanship	(1-10)	
4	Professionalism and ability to manage	(1-10)	
5	Close out process	(1-10)	
6	Ability to communicate with Client's staff	(1-10)	
7	Ability to resolve issues promptly	(1-10)	
8	Ability to follow protocol	(1-10)	
9	Ability to maintain proper documentation	(1-10)	
10	Appropriate application of technology	(1-10)	
11	Overall Client satisfaction and comfort level in hiring	(1-10)	
12	Ability to offer solid recommendations	(1-10)	
13	Ability to facilitate consensus and commitment to the plan of action among staff	(1-10)

Exhibit “A”
Specific Services

Specific services shall include, but not be limited to, sampling and testing of soils, concrete, asphalt and various other construction materials.

1.	In-Place density tests
2.	Standard or modified proctors
3.	Limerock Bearing Ratio tests (3 points)
4.	Compressive strength of concrete cylinders (4 per set)
5.	Compressive strength of soil-cement pills (4 per set)
6.	Core drilling & soils analysis
	STEEL INSPECTION
1.	Inspection of Welds & Bolt Torqueing A) At Plant B) At Job Site 1. One (1) Man Inspection Crew 2. Two (2) Men Inspection Crew
2.	Reinforcing Steel Inspection
3.	Nondestructive Testing of Steel & Connections
	GEOTECHNICAL INVESTIGATIONS & SOIL TESTS
1.	**Standard Penetration Test Borings (ASTM D-1586)(Minimum 50 feet per job)** A) 0-50 foot depth interval B) 50-100 foot depth interval C) 100-125 foot depth interval D) 125-150 foot depth interval
2.	Solid Auger Stem Borings (minimum 100 feet per job)
3.	Manual Auger Borings
4.	Drill Service from Floating Platform
5.	Rock Coring
6.	Installation of Steel Casing

7.	Ground Penetrating Radar
8.	Cone Penetrometer Radar
9.	Dilatometer Soundings
10.	Atterberg Limits A) Liquid Limit (LL) – Plastic Limit (PL) B) Shrinkage Limit (SL)
11.	California Bearing Ratio
12.	Consolidation A) Consolidation with Reload
13.	Corrosion Resistance (pH and R)
14.	Field Density Tests (minimum 3 tests per trip)
15.	Florida Bearing Value (FBCV)
16.	Florida Bearing Value Determination of Blend Proportions
17.	Grain Size: A) Hydro Analysis B) Sieve Analysis (Wash No. 200 Sieve)
18.	Ground Penetrating Radar
	GEOTECHNICAL INVESTIGATIONS & SOIL TESTS
19.	Limerock Bearing Ratio (LBR) (3 point)
20.	Limerock Bearing Ratio (LBR) (5 point)
21.	Moisture Content
22.	Moisture Density Test (Standard or Modified Proctor)
23.	Muck Probing 2 Man Crew 3 Man Crew
24.	Organic Content Determination
25.	Monitor Well Installation includes permits, lithologic log, and report – 2” or 4” PVC with removable, water-tight plug
	Hollow Stem Auger Boring
	Casing: 2-inch PVC (site spec. may require stickup)
	Casing: 4-inch PVC (site spec. may require stickup)
	Casing: 2-inch Steel (site spec. may require stickup)

	Casing: 4-inch Steel (site spec. may require stickup)
	0.010-inch Filter Screen: 2-inch PVC + min. 6-inch tail
	0.005-inch Filter Screen: 2-inch PVC + min. 6-inch tail
	0.010-inch Filter Screen: 4-inch PVC + min. 6-inch tail
	0.005-inch Filter Screen: 4-inch PVC + min. 6-inch tail
	Filter Sand: Varies from approx. 30/65 to approx. 20/30
	Bentonite: Chips / Balls
	Bentonite: Slurry / Slurry by tremie pipe
	Neat Grout
	Protective Casing (Hinged top and lockable) w/ name plate
	Concrete Pad (2'x2'x4" above-ground or 12-inch flush-mount round)
	Concrete-filled, Painted, Protective Bollard min. 4.5-inch O.D. max 6-inch O.D. (4-foot tall / 2-foot buried)
26.	Well Abandonment includes permits and report
	2-inch Well
	4-inch Well
27.	Tracked-Mounted Direct Push Technology (DPT) Rig w/all equipment and crew
	GEOTECHNICAL INVESTIGATIONS & SOIL TESTS
28.	pH
29.	Permeability Tests – Field (15', 2 depths) (Excluding auger borings & vertical permeability)
30.	Permeability Tests – Laboratory Granular Soil Cohesive Soil
31.	Soil-Cement, Field Testing & Observation
32.	Soil-Cement, Laboratory Design Mixes (FOB Laboratory)

33.	Soil Plate Load Test (ASTM)
34.	Specific Gravity
35.	Double Ring Infiltrometer Test
36.	Relative Density Test
37.	Triaxial Compression Test (CU) (3 points) Additional points
38.	Unconfined Compression Tests
39.	Undisturbed Thin-Walled Tube Sampling
40.	Unit Weight
	ASPHALTIC CONCRETE INSPECTION SERVICES
1.	Asphaltic Concrete Paving Plant Inspection
2.	Asphalt Mix-Gradation
3.	Asphalt Mix-Bulk Specific Gravity
4.	Asphalt Mix-Gradation
5.	Asphalt Mix- Maximum Specific Gravity
6.	Asphalt Mix- Temperature
7.	RAP – Asphalt Binder Content
8.	RAP – Gradation
9.	RAP- Maximum Specific Gravity
10.	Coring Pavement for Density and/or Thickness
11.	Asphalt Core Density (core provided by others)
12.	Gyratory Compaction for SuperPave AASH to TP4-00
13.	Quantitative Determination of Asphalt Content from Asphalt Paving Mixtures by the Ignition Method FM5-563
	CONCRETE TESTING
	Concrete Aggregate Tests (FOB Lab)
1.	Sieve Analysis, Fine or Coarse
2.	Absorption
3.	Specific Gravity

4.	Unit Weight
5.	Material Finer than No. 200 Sieve
6.	Organic (Color metric ASTM C-40)
7.	Salt Content
8.	Los Angeles Abrasion
9.	Soundness (5 cycle sodium sulfate) (5 cycle magnesium sulfate)
10.	Masonry Mortar strength Comparative, Sand or Water
	Concrete Beams
11.	Flexural Strength, Making & Testing (3 tests per set)
	Concrete Masonry Units or Prisms
12.	Compressive Strength, ASTM C-140, 5 Specimens
13.	Absorption & Moisture Content, ASTM C-150, 5 Specimens
14.	Compressive Strength Testing of Hollow Masonry Prisms ASTM E-477 (FOB)
15.	Compressive Strength Testing of Hollow Masonry Prisms with Grouted Cells, ASTM E-477
16.	Molding, Curing & Testing of 2” x 2” Masonry Mortar Cubes (set of 3 cubes)
17.	Concrete Masonry Units, ASTM Test (5 Compression & 5 Absorption Tests)
	Concrete Coring
18.	Securing Structural or Pavement Cores, Compression Tests & Thickness
19.	Coring Site Accessible – Does not include mobilization charge, staging and/or scaffolding, 4” diameter or smaller, 6” thickness or less. Compressive Strength of Concrete Cores (cores provided by others)
	Grout Cubes
20.	Making and Compression Tests of 2” Cubes from Job Site (set of 3)

	Concrete Cylinders
21.	Making & Compression Tests of 6” x 12” Cylinders (Slump Test Included)
22.	Compression Tests of 6” x 12” Cylinders
23.	Extra Slump Tests
24.	Air Content Tests
	Concrete Design Mixes
25.	Concrete Design Mixes (including standard aggregate tests & one trial batch with 6 compression test cylinders)
26.	Brush/Loss (for soil Cement basis) ASTM Durarock & Pug Mix
27.	Linear Shrinkage Tests of Concrete Block (ASTM 426)
28.	Concrete Ready Mix Plant or Job Inspection
29.	Pre-Fabricated Panel Tests, ASTM or FHA

ADDENDUM #1

RFP 23-328, Professional Geotechnical Services and Construction Material Testing and Inspection

CLARIFICATION

DELETE IN ITS ENTIRETY:

Page 20, Contractual Matters

A contract in substantially the same form as attached here to as Attachment "A" (Master Consulting Agreement) will be executed between the County and the successful Proposer(s).

All contracts are subject to final approval of the Polk County Board of County Commissioners. Persons or firms who incur expenses or change position in anticipation of a contract prior to the Board's approval do so at their own risk.

REPLACE WITH:

A contract in substantially the same form as attached here to as Attachment "B" (Master Consulting Agreement) will be executed between the County and the successful Proposer(s).

All contracts are subject to final approval of the Polk County Board of County Commissioners. Persons or firms who incur expenses or change position in anticipation of a contract prior to the Board's approval do so at their own risk.

DRAFT AGREEMENT
MASTER CONSULTING AGREEMENT

THIS AGREEMENT is entered into as of the Effective Date (defined in Section 1.1 below) by and between Polk County (the "County"), a political subdivision of the State of Florida, situated at 330 W. Church Street, Bartow, Florida 33830, _____ (the "Consultant") a _____ _____, located at _____, and whose Federal Employer Identification Number is: _____.

WHEREAS, County requires certain professional services in connection with the performance of certain professional geotechnical services and construction material testing and inspection for all Divisions in the County; and,

WHEREAS, the County has solicited for these services via RFP 23-328, an advertised request for proposals (the "RFP"), and has received numerous responsive proposals thereto; and

WHEREAS, pursuant to the RFP, the County has selected the Consultant and the Consultant remains agreeable to providing the County the professional services described herein, and the Consultant represents that it is capable and prepared to do so according to the terms and conditions stated herein;

NOW, THEREFORE, in consideration of the mutual understandings and covenants set forth herein, the parties hereby agree, as follows:

1.0 **Term**

1.1 This Agreement shall take effect on the date of its execution by the County (the "Effective Date").

1.2 The term of this Agreement shall be for a five (5) year time period, commencing upon the Effective Date and remaining in full force and effect thereafter, unless otherwise sooner terminated as provided herein.

2.0 **Services to Be Performed by Consultant**

2.1 Consultant shall perform the services as generally described in (i) the County's Request for Proposals RFP 23-328, to include all attachments and addenda, and (ii) the Consultant's responsive proposal thereto (collectively, (i) and (ii) are "RFP 23-328") all of which are incorporated into this Agreement by this reference, attached hereto as a composite Exhibit "A" and made a part of

this Agreement, and as may be further specifically designated and authorized by the County, in writing (collectively, the "Services"). Such authorization will be referred to as a Consultant Services Authorization ("CSA") or a Contract Purchase Order ("CPO") and all provisions of this Agreement apply to the CSA/CPO with full force and effect as if appearing in full within each CSA/CPO. Each CSA/CPO will set forth a specific Scope of Services, maximum limit of compensation, schedule, liquidated damages and completion date, and shall become effective upon the due execution.

2.2 The Consultant is not authorized to undertake any project without a duly executed CSA/CPO, which shall specify the work to be performed and the time to be completed. Consultant recognizes that the County may employ several different Consultants to perform the work described and that the Consultant has not been employed as the exclusive agent to perform any such services.

2.3 When the Consultant and the County enter into a CSA/CPO where the term of the CSA/CPO expires on a date that is later than the date that the Master Consulting Agreement (MCA) expires, the Consultant and the County agree that the terms of the MCA and any amendments, attachments or provisions thereof are automatically extended until the expiration (including any extension or amendment thereto) or full completion of the requirements of the CSA/CPO have been performed. Cancellation by the County of any remaining work prior to the full completion of the requirements of the CSA/CPO shall cause the terms of the MCA to terminate at the same time. This provision only applies when the expiration of the CSA/CPO extends beyond the expiration of the MCA. It does not apply when a CSA/CPO expires or is cancelled prior to the expiration of the MCA.

3.0 **Compensation**

3.1 General

3.1.1 County shall pay Consultant in accordance with Exhibit "B", "Fee Schedule", which is attached hereto and incorporated by reference as part of this Agreement. The fee schedule identifies all job classifications, which will perform billable services pursuant to this Agreement and the fee for each job classification. Performance of work by personnel in job classifications not listed on the fee schedule will result in nonpayment for such services.

3.1.2 Upon the mutual agreement of the parties, the Fee Schedule, as set out in Exhibit "B" may be adjusted by a written Amendment to the Master Consulting Agreement annually beginning one year from the Effective Date of this Agreement. Such amendment must be executed by both parties and shall operate prospectively only and shall not alter fee schedules for CSA's/CPO's in effect at the time of the amendment.

3.1.3 Compensation may be negotiated as a not to exceed price or a lump sum amount on a per-project basis, on each individual CSA/CPO.

3.1.4 In the event a not to exceed price is negotiated, compensation shall be billed and paid based on and in accordance with the Hourly Rate Schedule attached hereto and incorporated herein as Exhibit "B". The Hourly Rate Schedule identifies all job classifications which will perform billable services pursuant to this Agreement and the fee for each job classification. Performance of work by personnel in job classifications not listed on the fee schedule will result in nonpayment for such services.

3.1.5 Invoices must reference the applicable CSA/CPO number, using an invoice form approved by the County Auditor.

3.1.6 Each individual invoice shall be due and payable forty-five (45) days after receipt by the County of correct, fully documented, invoice, in form and substance satisfactory to the County with all appropriate cost substantiations attached. All invoices shall be delivered, as applicable based on the particular project:

Polk County Roads & Drainage Division
P.O. Box 9005, Bartow, FL 33830
Attention: Director

3.1.7 In order for both parties herein to close their books and records, the Consultant will clearly state "Final Invoice" on the Consultant's final/last billing to the County. This certifies that all services have been properly performed and all charges and costs have been invoiced to the County. Since this account will thereupon be closed, any and other further charges if not properly included on this final invoice are waived by the Consultant.

3.1.8 Payment of the final invoice shall not constitute evidence of the County's

DRAFT

acceptance of the work

3.1.9 Invoices shall be accompanied by time and task records for all billable hours appearing on the invoice. Additional documents may be requested by County and, if so requested, shall be furnished by Consultant to County Auditor's satisfaction.

3.1.10 By submission of an invoice, the project manager or designated payroll officer is deemed to be attesting to the correctness and accuracy of time charges and requested reimbursements.

3.1.11 Pursuant to Section 3.1.4, if a not to exceed fee is negotiated, invoices shall be accompanied by time and task records for all billable hours appearing on the invoice. Alternatively, if a lump sum amount is negotiated, invoices shall be made upon the completion of each phase of the work in proportion to the Services performed, as specifically set forth in the applicable CSA or CPO. Additional documentation may be requested by the County and, if so requested, shall be furnished by the Consultant to the County Auditor's satisfaction.

3.2 Reimbursable

3.2.1 All requests for payment of out-of-pocket expenses eligible for reimbursement under the terms of this Agreement shall be reimbursed per the County's Reimbursable Schedule, Exhibit "C", and include copies of paid receipts, invoices or other documentation acceptable to the County's Auditor. Such documentation shall be sufficient to establish that the expense was actually incurred and necessary in the performance of the Scope of Work described in this Agreement, CSA, or CPO.

3.2.2 Reimbursable Expenses are the actual, pre-approved, expenses incurred directly in connection with the applicable CSA or CPO, and include:

Overnight Deliveries
Reproduction
Sub-Consultant
Long Distance Telephone Calls (excluding Florida cities located outside the boundaries of Polk County)

3.2.3 Mileage and associated travel costs shall be reimbursed in accordance with F.S. 112.061 and County policy for pre-approved out-of-county travel (excluding travel from home

offices located outside of Polk County to the Polk County line).

3.2.4 All assets, i.e. durable goods, purchased as reimbursable expenses become the property of the County upon completion of the work for which the asset was utilized. All such assets must be surrendered by delivery to the Polk County Roads & Drainage Division offices upon demand, termination of the Agreement, or the conclusion of the project, whichever occurs first.

3.2.5 Consultant shall maintain a current inventory of all such assets.

4.0 **Insurance**

4.1 General Provisions

4.1.1 Consultant shall maintain, at all times, the following minimum levels of insurance and shall, without in any way altering their liability, obtain, pay for and maintain insurance for the coverages and amounts of coverage not less than those set forth below and provide the County with a Certificate of Insurance and an opportunity to inspect a certified copy of each policy applicable to this Agreement followed thereafter by an annual Certificate of Insurance satisfactory to the County to evidence such coverage before any work commences.

4.1.2 The County shall be named as an additional insured on all Consultant policies related to the project, excluding professional liability and worker's compensation. The Commercial General Liability and Worker's Compensation Liability policies shall contain a waiver of subrogation in favor of Polk County. All insurance coverage shall be written with an insurer having an A.M. Best Rating of a least the "A" category and size category of VIII.

4.1.3 The Consultant's self-insured retention or deductible per line of coverage shall not exceed $25,000.00 without the permission of the County.

4.1.4 If there is any failure by the Consultant to comply with the provisions of this section, the County may, at its option, on notice to the Consultant, suspend the work for cause until there is full compliance.

4.1.5 County may, at its sole discretion, purchase such insurance at Consultant's expense provided that the County shall have no obligation to do so and if the County shall do so, it shall not relieve Consultant of its obligation to obtain insurance.

DRAFT

4.1.6 The Consultant shall not be relieved of or excused from the obligation to obtain and maintain such insurance amount and coverages.

4.1.7 All Consultants' subconsultants shall be required to include County and Consultant as additional insured on their General Liability Insurance policies.

4.1.8 In the event that subconsultants used by the Consultant do not have insurance, or do not meet the insurance limits, Consultant shall indemnify and hold harmless the County for any claim in excess of the subconsultants' insurance coverage.

4.1.9 The Consultant shall not commence work under this Agreement until all insurance required as stated herein has been obtained and such insurance has been approved by the County.

4.2 Comprehensive Automobile Liability Insurance. $1,000,000.00 combined single limit of liability for bodily injuries, death and property damage resulting from any one occurrence, including all owned, hired, and non-owned vehicles.

4.3 Commercial General Liability. $1,000,000.00 combined single limit of liability for bodily injuries, death and property damage, and personal injury resulting from any one occurrence, including the following coverages:

4.3.1 Premises and Operations:

Broad Form Commercial General Liability Endorsement to include Blanket Contractual liability (specifically covering, but not limited to, the contractual obligations assumed by the Firm); Personal Injury (with employment and contractual exclusions deleted); and Broad Form Property Damage coverage.

4.3.2 Independent Contractors:

Delete Exclusion relative to collapse, explosion and underground; Property Damage Hazards; Cross Liability Endorsement; and Contractual liability (specifically covering, but not limited to, the contractual obligations assumed by the Firm)

4.4 Umbrella (Excess) Liability Insurance. Umbrella Liability with limits of not less than $1,000,000.00, exclusive of defense costs, to be in excess of all other coverages. Such coverage shall be at least as broad as the primary coverages above, with any excess umbrella layers written on a

DRAFT

strict following form basis over the primary coverage. All such policies shall be endorsed to provide defense coverage obligations.

4.5 Professional Liability Insurance. $2,000,000.00 for design errors and omissions, inclusive of defense costs. Consultant shall be required to provide continuing Professional Liability Insurance to cover each project for a period of two (2) years after the project is completed. Insurance requirements may vary depending on projects as determined by the County Director of Risk Management and Insurance. The County may require the Consultant to provide a higher level of coverage for a specific project and time frame.

4.6 Performance, Payment and Other Bonds. Consultant shall furnish Performance and Payment Bonds specific to each project if required and agreed to under the CSA or CPO for the project.

4.7 Worker's Compensation. The Consultant shall provide, pay for, and maintain worker's compensation insurance on all employees, its agents or subcontractors as required by Florida Statutes.

5.0 **Standard of Care**

5.1 Consultant has represented to the County that it has the personnel and experience necessary to perform the work in a professional and workmanlike manner.

5.2 Consultant shall exercise the same degree of care, skill, and diligence in the performance of the Services as is provided by a professional of like experience, knowledge and resources, under similar circumstances.

5.3 Consultant shall, at no additional cost to County, re-perform services which fail to satisfy the foregoing standard of care or otherwise fail to meet the requirement of this Agreement.

5.4 The Consultant warrants that all services shall be performed by skilled and competent personnel to the professional standards in the field.

6.0 **Indemnification**

6.1 General. Having considered the risks and potential liabilities that may exist during the performance of the Services and in consideration of the promises included herein, County and

DRAFT

Consultant agree to allocate such liabilities in accordance with this Section.

6.2 Indemnification.

6.2.1 Consultant, to the extent permitted by law, shall indemnify, defend (by counsel reasonably acceptable to County) protect and hold County, and its officers, employees and agents harmless from and against any and all, claims, actions, causes of action, liabilities, penalties, forfeitures, damages, losses and expenses (including, without limitation, attorney's fees costs and expenses incurred during negotiation, through litigation and all appeals therefrom) whatsoever including, but not limited, to those pertaining to the death of or injury to any person, or damage to any property, arising out of or resulting from (i) the failure of Consultant to comply with applicable laws, rules or regulations, (ii) the breach by Consultant of its obligations under this Agreement, (iii) any claim for trademark, patent or copyright infringement arising out of the scope of Consultant's performance or nonperformance of this Agreement, or (iv) the negligent acts, errors or omissions, or intentional or willful misconduct, of Consultant, its professional associates, its subcontractors, agents, and employees provided, however, that Consultant shall not be obligated to defend or indemnify the County with respect to any such claims or damages arising out of the County's sole negligence.

6.2.2 County review, comment and observation of the Consultant's work and performance of this Agreement shall in no manner constitute a waiver of the indemnification provisions of this Agreement.

6.2.3 Consultant agrees that it bears sole legal responsibility for its work and work product, and the work and work product of subconsultants and their employees, and/or for Consultant's performance of this Agreement and its work product(s).

6.3 Survival. Upon completion of all Services, obligations and duties provided for in this Agreement, or in the event of termination of this Agreement for any reason, the terms and conditions of this Agreement shall survive as if the Agreement were in full force and effect.

7.0 **Independent Contractor**

7.1 Consultant undertakes performance of the Services as an independent contractor and shall be wholly responsible for the methods of performance.

7.2 County shall have no right to supervise the methods used, but County shall have the right to observe such performance.

7.3 Consultant shall work closely with County in performing Services under this Agreement.

7.4 The Consultant shall not pledge the County's credit or make it a guarantor of payment or surety for any contract, debt, obligation, judgment, lien or any form of indebtedness and shall have no right to speak for or bind the County in any manner.

7.5 Consultant further warrants and represents that it has no obligation or indebtedness that would impair its ability to fulfill the terms of this Agreement.

8.0 **Authority to Practice**

8.1 The Consultant hereby represents and warrants that it has and will continue to maintain all licenses and approvals required to conduct its business, and that it will at all times conduct its business activities in a reputable manner.

9.0 **Public Records Law**

(a) The Consultant acknowledges the County's obligations under Article I, Section 24, of the Florida Constitution and under Chapter 119, Florida Statutes, to release public records to members of the public upon request and comply in the handling of the materials created under this Agreement. The Consultant further acknowledges that the constitutional and statutory provisions control over the terms of this Agreement. In association with its performance pursuant to this Agreement, the Consultant shall not release or otherwise disclose the content of any documents or information that is specifically exempt from disclosure pursuant to all applicable laws.

(b) Without in any manner limiting the generality of the foregoing, to the extent applicable, the Contractor acknowledges its obligations to comply with Section 119.0701, Florida Statutes, with regard to public records, and shall:

(1) keep and maintain public records required by the County to perform the services required under this Agreement;

(2) upon request from the County's Custodian of Public Records or his/her designee, provide the County with a copy of the requested records or allow the records to be inspected or copied within a reasonable time at a cost that does not exceed the cost provided in Chapter 119, Florida Statutes, or as otherwise provided by law;

(3) ensure that public records that are exempt or confidential and exempt from public records disclosure requirements are not disclosed except as authorized by law for the duration of the term of this Agreement and following completion of this Agreement if the Consultant does not transfer the records to the County; and

(4) upon completion of this Agreement, transfer, at no cost, to the County all public

records in possession of the Consultant or keep and maintain public records required by the County to perform the service. If the Consultant transfers all public records to the County upon completion of this Agreement, the Consultant shall destroy any duplicate public records that are exempt or confidential and exempt from public records disclosure requirements. If the Consultant keeps and maintains public records upon completion of this Agreement, the Consultant shall meet all applicable requirements for retaining public records. All records stored electronically must be provided to the County, upon request from the County's Custodian of Public Records, in a format that is compatible with the information technology systems of the County.

(c) **IF THE CONSULTANT HAS QUESTIONS REGARDING THE APPLICATION OF CHAPTER 119, FLORIDA STATUTES, TO THE CONTRACTOR'S DUTY TO PROVIDE PUBLIC RECORDS RELATING TO THIS AGREEMENT, CONTACT THE COUNTY'S CUSTODIAN OF PUBLIC RECORDS AT:**

RECORDS MANAGEMENT LIAISON OFFICER
POLK COUNTY
330 WEST CHURCH ST.
BARTOW, FL 33830
TELEPHONE: (863) 534-7527
EMAIL: RMLO@POLK-COUNTY.NET

10.0 **Compliance with Laws**

10.1 In performance of the Services, Consultant shall comply with applicable regulatory requirements including federal, state, special district, and local laws, rules, regulations, orders, codes, criteria and standards, including those now in effect and hereafter adopted.

11.0 **Subcontracting**

11.1 The County reserves the right to accept the use of a subcontractor or to reject the selection of a particular subcontractor and to inspect all facilities of any subcontractor.

11.2 If a subcontractor fails to perform or make progress, as required by this Agreement, and it is necessary to replace the subcontractor to complete the work in a timely fashion, the Consultant shall promptly do so, subject to acceptance of the new subcontractor by the County. Failure of a Subcontactor to timely or properly perform its obligations shall not relieve Consultant of its obligations hereunder.

12.0 **Federal and State Taxes**

12.1 The County is exempt from Federal Tax and State Sales and Use Taxes. Upon request, the County will provide an exemption certificate to Consultant. The Consultant shall not be exempted from paying sales tax to its suppliers for materials to fulfill contractual obligations with the County, nor shall the Consultant be authorized to use the County's Tax Exemption Number in securing such materials.

13.0 **Public Entity Crimes**

13.1 The Consultant understands and acknowledges that this Agreement with the County will be voidable by the County, in the event the conditions under Section 287.133, Florida Statutes applies to the Consultant, relating to conviction for a public entity crime.

14.0 **County's Responsibilities**

14.1 County shall be responsible for providing access to all County project sites, and providing information in the County's possession that may reasonably be required by Consultant, including; existing reports, studies, financial information, and other required data that are available in the files of the County.

15.0 **Termination of Agreement**

15.1 This Agreement may be terminated by the Consultant upon thirty (30) days prior written notice to the County in the event of substantial failure by the County to perform in accordance with the terms of the Agreement through no fault of the Consultant.

15.2 This Agreement may be terminated by the County with or without cause immediately upon written notice to the Consultant.

15.3 Unless the Consultant is in breach of this Agreement, the Consultant shall be paid for services rendered to the County's satisfaction through the date of termination.

15.4 After receipt of a Termination Notice, as described in this Article 15.0, and except as otherwise directed by the County, the Consultant shall:

15.4.1 Stop work on the date and to the extent specified.

15.4.2 Terminate and settle all orders and subcontracts relating to the performance of the terminated work.

15.4.3 Transfer all work in process, completed work, and other material related to the terminated work to the County.

15.4.4 Continue and complete all parts of the work that have not been terminated.

16.0 **Uncontrollable Forces (Force Majeure)**

16.1 Either party hereunder may be temporarily excused from performance if an Event of Force Majeure directly or indirectly causes its nonperformance. An "Event of Force Majeure" is defined as any event which results in the prevention or delay of performance by a party of its obligations under this Agreement and which is beyond the reasonable control of the nonperforming party. It includes, but is not limited to fire, flood, earthquakes, storms, lightning, epidemic, war, riot, civil disturbance, sabotage, and governmental actions. Neither party shall be excused from performance if non-performance is due to forces which are reasonably preventable, removable, or remediable and which the non-performing party could have, with the exercise of reasonable diligence, prevented, removed, or remedied prior to, during, or immediately after their occurrence. Within five (5) days after the occurrence of an Event of Force Majeure, the non-performing party shall deliver written notice to the other party describing the event in reasonably sufficient detail, along with proof of how the event has precluded the non-performing party from performing its obligations hereunder, and a good faith estimate as to the anticipated duration of the delay and the means and methods for correcting the delay. The non-performing party's obligations, so far as those obligations are affected by the Event of Force Majeure, shall be temporarily suspended during, but no longer than, the continuance of the Event of Force Majeure and for a reasonable time thereafter as may be required for the non-performing party to return to normal business operations. If excused from performing any obligations under this Agreement due to the occurrence of an Event of Force Majeure, the non-performing party shall promptly, diligently, and in good faith take all reasonable action required for it to be able to commence or resume performance of its obligations under this Agreement. During any such time period, the non-performing party shall keep the other party duly notified of all such actions required for it to be able to commence or resume performance of its obligations under this Agreement.

17.0 **Governing Law and Venue**

DRAFT

17.1 This Agreement shall be governed in all respects by the laws of the State of Florida and any litigation with respect thereto shall be brought only in the courts of Polk County, Florida or the United States District Court, Middle District of Florida located in Hillsborough County, Florida. Each party shall be responsible for its own attorneys' fee and other legal costs and expenses.

18.0 **Non-Discrimination**

18.1 The Consultant warrants and represents that all of its employees are treated equally during employment without regard to race, color, religion, gender, age or national origin.

19.0 **Waiver**

19.1 A waiver by either County or Consultant of any breach of this Agreement shall not be binding upon the waiving party unless such waiver is in writing. In the event of a written waiver, such a waiver shall not affect the waiving party's rights with respect to any other or further breach. The making or acceptance of a payment by either party with knowledge of the existence of a default or breach shall not operate or be construed to operate as a waiver of any subsequent default or breach.

20.0 **Severability**

20.1 The invalidity, illegality, or unenforceability of any provision of this Agreement, or the occurrence of any event rendering any portion or provision of this Agreement void, shall in no way affect the validity or enforceability of any other portion or provision of the Agreement.

20.2 Any void provision shall be deemed severed from the Agreement and the balance of the Agreement shall be construed and enforced as if the Agreement did not contain the particular portion or provision held to be void.

20.3 The parties further agree to reform the Agreement to replace any stricken provision with a valid provision that comes as close as possible to the intent of the stricken provision.

20.4 The provisions of this section shall not prevent the entire Agreement from being void should a provision which is of the essence of the Agreement be determined to be void.

21.0 **Entirety of Agreement**

21.1 The County and the Consultant agree that this Agreement sets forth the entire Agreement between the parties, and that there are no promises or understandings other than those stated

DRAFT

herein.

21.2 This Agreement supersedes all prior agreements, contracts, proposals, representations, negotiations, letters or other communications between the County and Consultant pertaining to the Services, whether written or oral.

21.3 None of the provisions, terms and conditions contained in this Agreement may be added to, modified, superseded or otherwise altered except by written instrument executed by the parties hereto.

22.0 **Modification**

22.1 This Agreement may not be modified unless such modifications are evidenced in writing signed by both County and Consultant. Such modifications shall be in the form of a written Amendment executed by both parties.

23.0 **Successors and Assigns**

23.1 County and Consultant each binds itself and its partners, successors, permitted assigns, and legal representatives to the other party to this Agreement and to the partners, successors, executors, administrators, permitted assigns, and legal representatives of such other party.

23.2 Consultant shall not assign this Agreement without the express written approval of the County by executed amendment, which approval may be withheld in the County's sole discretion.

23.3 In the event of a merger, the surviving corporation shall be substituted for the contracting party to this agreement and such substitution shall be affirmed by the County by executed amendment.

24.0 **Contingent Fees**

24.1 The Consultant warrants that it has not employed or retained any company or person, other than a bona fide employee working solely for the Consultant to solicit or secure this Agreement and that it has not paid or agreed to pay any person, company, corporation, individual or firm, other than bona fide employee working solely for the Consultant, any fee, commission, percentage, gift or any other consideration contingent upon or resulting from the award or making of this Agreement.

DRAFT

25.0 **Truth-In-Negotiation Certificate**

25.1 Execution of this Agreement by the Consultant shall act as the execution of a Truth-in-Negotiation certificate certifying that the wage rates and costs used to determine the compensation provided for in this Agreement are accurate, complete, and current as of the Effective Date of this Agreement.

25.2 The said rates and costs shall be adjusted to exclude any significant sums should the County determine that the rates and costs were increased due to inaccurate, incomplete or noncurrent wage rates or due to inaccurate representations of fees paid to outside consultants. The County shall exercise its rights under this "Certificate" within one (1) year following payment.

26.0 **Ownership of Documents**

26.1 Consultant shall be required to cooperate with other consultants relative to providing information requested in a timely manner and in the specified form. Any and all documents, records, disks, original drawings, or other information shall become the property of the County for its use and/or distribution as may be deemed appropriate by the County. Consultant is not liable for any damages, injury or costs associated with the County's use or distribution of these documents for purposes other than those originally intended by Consultant.

27.0 **Access and Audits**

27.1 Consultant shall maintain adequate records to justify all charges and costs incurred in performing the work for at least three (3) years after completion of this Agreement. The County shall have access to such books, records, and documents as required in this section for the purpose of inspection or audit during normal business hours at the Consultant's place of business.

27.2 Misrepresentations of billable time or reimbursable expenses as determined by the Auditor to the Polk County Board of County Commissioners shall result in the recovery of any resulting overpayments. The County's cost of recovery shall be the sole expense of the Consultant, including accounting and legal fees, court costs and administrative expenses.

27.3 Intentional misrepresentations of billable hours and reimbursable expenses will be criminally prosecuted to the fullest extent of the law.

DRAFT

27.4 All invoices submitted are subject to audit and demand for refund of overpayment up to three (3) years following completion of all services related to this Agreement.

28.0 **Notice**

28.1 Any notice, demand, communication, or request required or permitted hereunder shall be in writing and delivered in person or sent by Federal-Express or by Certified Mail, postage prepaid as follows:

As to County: Roads & Drainage
P.O. Box 9005
Bartow, FL 33830
Attention: Director

As to Consultant:

28.2 Notices shall be effective when received at the addresses as specified above. Changes in the respective addresses to which such notice is to be directed may be made from time to time by either party by written notice to the other party. Facsimile transmission is acceptable notice effective when received, however, facsimile transmissions received (i.e.; printed) after 5:00 p.m., or on weekends or holidays, will be deemed received on the next business day. The original of the notice must additionally be mailed as required herein.

28.3 Nothing contained in this Article shall be construed to restrict the transmission of routine communications between representatives of Consultant and County.

29.0 **Service of Process**

As to County: County Attorney
County Administration Building
330 W. Church Street, 4th Floor
Bartow, Florida 33830

As to Consultant:

30.0 **Contract Administration**

DRAFT

30.1 Services of Consultant shall be under the general direction of the Roads and Drainage Division Director, or their successor, who shall act as the County's representative during the term of this Agreement.

31.0 **Key Personnel**

31.1 Consultant shall notify County in the event of key personnel changes, which might affect this Agreement. To the extent possible, notification shall be made within ten (10) days prior to changes. Consultant at County's request shall remove without consequence to the County any Subcontractor or employee of the Consultant and replace him/her with another employee having the required skill and experience. County has the right to reject proposed changes in key personnel. The following personnel shall be considered key personnel:

Name: _____

Name: _____

32.0. **Annual Appropriations**

32.1 Consultant acknowledges that the County, during any fiscal year, shall not expend money, incur any liability, or enter into any agreement which, by its terms, involves the expenditure of money in excess of the amounts budgeted as available for expenditure during such fiscal year. Any agreement, verbal or written, made in violation of this subsection is null and void, and no money may be paid on such agreement. Nothing herein contained shall prevent the making of agreements for a period exceeding one year, but any agreement so made shall be executory only for the value of the services to be rendered or agreed to be paid for in succeeding fiscal years. Accordingly, the County's performance and obligation to pay under this agreement is contingent upon annual appropriation.

33.0 **Liquidated Damages**

33.1 The parties hereto agree that liquidated damages, in the amount specified in the applicable CSA/CPO, will be assessed against the Consultant for Consultant's failure to meet the final deliverable date in the Performance Schedule in the Scope of Work, but only to the extent and in proportion to Consultant's fault in causing the delay as compared to other causes, and to the extent the Consultant is not delayed by reasons beyond Consultant's reasonable control.

34.0 Employment Eligibility Verification (E-VERIFY)

A. Unless otherwise defined herein, terms used in this Section which are defined in Section 448.095, Florida Statutes, as may be amended from time to time, shall have the meaning ascribed in said statute.

B. Pursuant to Section 448.095(2)(a), Florida Statutes, effective January 1, 2021, public employers, contractors and subcontractors shall register with and use the E-verify system in order to verify the work authorization status of all newly hired employees. The Contractor acknowledges and agrees that use of the U.S. Department of Homeland Security's E-Verify System and compliance with all other terms of this Certification and Section 448.095, Fla. Stat., is an express condition of this Agreement, and the County may treat a failure to comply as a material breach of this Agreement.

C. By entering into this Agreement, the Contractor becomes obligated to comply with the provisions of Section 448.095, Fla. Stat., "Employment Eligibility," as amended from time to time. This includes but is not limited to utilization of the E-Verify System to verify the work authorization status of all newly hired employees, and requiring all subcontractors to provide an affidavit attesting that the subcontractor does not employ, contract with, or subcontract with, an unauthorized alien. The Contractor shall maintain a copy of such affidavit for the duration of the contract. Failure to comply will lead to termination of this Agreement, or if a subcontractor knowingly violates the statute or Section 448.09(1), Fla. Stat., the subcontract must be terminated immediately. Any challenge to termination under this provision must be filed in the Tenth Judicial Circuit Court of Florida no later than 20 calendar days after the date of termination. If this Agreement is terminated for a violation of the statute by the Contractor, the Contractor may not be awarded a public contract for a period of 1 year after the date of termination. The Contractor shall be liable for any additional costs incurred by the County as a result of the termination of this Agreement. Nothing in this Section shall be construed to allow intentional discrimination of any class protected by law.

35.0 Limitation of Liability.

IN NO EVENT, SHALL THE COUNTY BE LIABLE TO THE CONSULTANT FOR INDIRECT, INCIDENTAL, CONSEQUENTIAL, SPECIAL, EXEMPLARY, OR PUNITIVE DAMAGES OF ANY KIND OR NATURE, INCLUDING LOSS OF PROFIT, WHETHER FORESEEABLE OR NOT, ARISING OUT OF OR RESULTING FROM THE NONPERFORMANCE OR BREACH OF THIS CONTRACT BY THE COUNTY WHETHER BASED IN CONTRACT, COMMON LAW, WARRANTY, TORT, STRICT LIABILITY, CONTRIBUTION, INDEMNITY OR OTHERWISE.

36.0 Scrutinized Companies and Business Operations Certification; Termination.

A. Certification(s).

(i) By its execution of this Agreement, the Vendor hereby certifies to the County that the Vendor is not on the Scrutinized Companies that Boycott Israel List, created pursuant to Section 215.4725, Florida Statutes, nor is the Vendor engaged in a boycott of Israel, nor was the Vendor on such List or engaged in such a boycott at the time it submitted its bid,

DRAFT

proposal, quote, or other form of offer, as applicable, to the County with respect to this Agreement.

(ii) Additionally, if the value of the goods or services acquired under this Agreement are greater than or equal to One Million Dollars ($1,000,000), then the Vendor further certifies to the County as follows:

(a) the Vendor is not on the Scrutinized Companies with Activities in Sudan List, created pursuant to Section 215.473, Florida Statutes; and

(b) the Vendor is not on the Scrutinized Companies with Activities in the Iran Petroleum Energy Sector List, created pursuant to Section 215.473, Florida Statutes; and

(c) the Vendor is not engaged in business operations (as that term is defined in Florida Statutes, Section 287.135) in Cuba or Syria; and

(d) the Vendor was not on any of the Lists referenced in this subsection A(ii), nor engaged in business operations in Cuba or Syria when it submitted its proposal to the County concerning the subject of this Agreement.

(iii) The Vendor hereby acknowledges that it is fully aware of the penalties that may be imposed upon the Vendor for submitting a false certification to the County regarding the foregoing matters.

B. Termination. In addition to any other termination rights stated herein, the County may immediately terminate this Agreement upon the occurrence of any of the following events:

(i) The Vendor is found to have submitted a false certification to the County with respect to any of the matters set forth in subsection A(i) above, or the Vendor is found to have been placed on the Scrutinized Companies that Boycott Israel List or is engaged in a boycott of Israel.

(ii) The Vendor is found to have submitted a false certification to the County with respect to any of the matters set forth in subsection A(ii) above, or the Vendor is found to have been placed on the Scrutinized Companies with Activities in Sudan List, or the Scrutinized Companies with Activities in the Iran Petroleum Energy Sector List, or has been engaged in business operations in Cuba or Syria, and the value of the goods or services acquired under this Agreement are greater than or equal to One Million Dollars ($1,000,000).

37. No Construction Against Drafter

37.1 The Parties acknowledge that this Agreement and all the terms and conditions contained herein have been fully reviewed and negotiated by the Parties. Accordingly, any rule of construction to the effect that ambiguities are to be resolved against the drafting party shall not apply in interpreting this Agreement.

38. Unauthorized Alien(s)

The Consultant shall not employ or utilize unauthorized aliens in the performance of the Services provided pursuant to this Agreement. The County shall consider the employment or utilization of unauthorized aliens a violation of Section 274A(e) of the Immigration and Naturalization Act (8 U.S.C.

1324a) and a cause for the County's unilateral termination of this Agreement. When delivering executed counterparts of this Agreement to the County, the Consultant shall also deliver a completed and executed counterpart of the attached "AFFIDAVIT CERTIFICATION IMMIGRATION LAWS" form.

(THE REMAINDER OF THE PAGE LEFT INTENTIONALLY BLANK)

DRAFT

IN WITNESS WHEREOF, the parties hereto have executed this Agreement as of the Effective Date.

ADDENDUM #2

RFP 23-328, Professional Geotechnical Services and Construction Material Testing and Inspection

Question 1: We are looking to acquire copies of all winning proposals (and evaluation metrics if possible) related to RFP 18-305 Professional Geotech Services & Construction Materials Testing. If there was a shortlist of firms before the final award announcement, we would appreciate those proposals as well.

Answer: Proposals submitted and shortlisted along with the evaluation criteria has been added to the County's FTP Site. The evaluation criteria and the Proposers response to the criteria can be found in the Proposer's response.

To receive a copy of the Proposals submitted and shortlisted and evaluation criteria for RFP 18-305, please go the following FTP site: https://ftp3.polk-county.net, you will be prompted for a User ID and Password. The User ID is *procurevendor* and the password is *solicitation.* After you have logged in to the FTP site, double click on the file folder "**RFP 23-328 Professional Geotechnical Services and Construction Material Testing and Inspection**.**zip**", select "Open" or "Save As" to download the Proposals submitted and shortlisted and evaluation criteria for RFP 18-305. EXECUTIVE SUMMARY

Date: June 14, 2023

Attention: Polk County Procurement Division
330 West Church Street, Room 150
Bartow, FL 33830

Reference: RFP 23-328, Professional Geotechnical Services and Construction Material Testing and Inspection

Dear Polk County Procurement Division:

Universal Engineering Sciences (UES) truly appreciates the opportunity to present our services and experience in response to Polk County (The County) for RFP 23-328, Professional Geotechnical Services and Construction Material Testing and Inspection. We have a firm understanding of the scope outlined within and are confident that our capabilities and experience position UES as the ideal firm to execute said scope.

This proposal will clearly illustrate our team's vast resources, excellent responsiveness, and dedication to excellence, but we will also describe our successes with identical scopes and outline our comprehensive and cost-effective approach to the needs of the County.

Celebrating 59 years providing Geotechnical and Construction Materials Testing & Inspection services, UES has established itself as a pioneer both culturally and technologically and has grown into one of the industry's most respected and successful privately owned companies. With more than 3,100 professionals nationally, each as diverse in expertise as they are in life experiences, our culture is a melting pot of knowledgeable, helpful people with different backgrounds working towards a single goal—our clients' success.

B) NUMBER OF YEARS IN BUSINESS

59 Years in Business

C) FULL-TIME EMPLOYEES

1,162 (Florida) 3,100 (Nationwide)

UES has 75 fully operational and fully-staffed branches spanning the U.S. with 18 located in Florida. These strategically located offices meet the needs of our clients by providing local expert knowledge and solutions unique to the region. The wide distribution of our resources also means that we are able to rapidly respond to the needs of our clients with an immediate allocation of equipment and manpower.

Our Orlando office is staffed with dedicated professionals who are familiar with the region's geographic conditions, state, county, and city regulations, and who have developed strong working relationships with our local Polk County specialized subconsultants: Leaders Engineering Services and Ambient Technologies, Inc.

Our team has decades of experience providing expert geotechnical services for clientele and complex projects of all sizes, both public and private. Our team's technical expertise, our specialized training, fleet of equipment, and wide scope of capabilities has assisted our clients in finding solutions to difficult and intricate challenges on a variety of projects.

Special Qualifications	Qualification Effective

Our mission is to provide the County with cost effective, efficient, and accurate geotechnical and construction material testing services. Integrity is the keystone of our business relationship with all of our clients.

When you work with UES, you'll be interacting with industry professionals who pride themselves on the highest level of integrity, dependability, ethics, and quality of work who are also exceptionally innovative, dynamic, and responsive. We want our clients to think of UES as an extension of their organizations and their trusted advisors.

Our Principals have thoroughly reviewed and understood this RFP, its related documents, and the anticipated scope of work. Our team is ready to serve as an extension of your staff, and we will represent the County in the best possible way. UES' reputation, facilities, and culture attract some of the industry's most experienced and knowledgeable professionals.

Many of our staff have been with the company for 10 years or more. Our leaders Guy Rabens, PE, Fred Schmalzer, PE, SI, and R. Kenneth Derick, MS, CBO, PE, have over 100 years of industry knowledge combined. An unmistakable passion for excellence is ever-present, as is a camaraderie and eagerness to teach, learn, and contribute to our clients' success.

On behalf of our entire team, we would like to thank you for this opportunity, your time, and consideration. We look forward to serving Polk County and providing reliable geotechnical solutions throughout this contract and beyond. If you need to contact us for any reason, please feel free to contact the undersigned.

Respectfully,

Universal Engineering Sciences, LLC

Guy Rabens, PE

- ☐ Sole Proprietorship
- ☐ Partnership
- ☐ Non-Profit
- ☐ Sub Chapter
- ☐ Joint Venture
- ☐ Corporation
- ☑ LLC
- ☐ LLP
- ☐ Publicly Traded
- ☐ Employee Owned

State of Incorporation: 1964

The Successful vendor must complete and submit this form prior to award. The Successful vendor must invoice using the company name listed above.

Form **W-9**
(Rev. October 2018)
Department of the Treasury
Internal Revenue Service

Request for Taxpayer Identification Number and Certification

▶ **Go to *www.irs.gov/FormW9* for instructions and the latest information.**

Give Form to the requester. Do not send to the IRS.

Print or type. See **Specific Instructions** on page 3.

1 Name (as shown on your income tax return). Name is required on this line; do not leave this line blank.
Universal Engineering Sciences, LLC

2 Business name/disregarded entity name, if different from above

3 Check appropriate box for federal tax classification of the person whose name is entered on line 1. Check only **one** of the following seven boxes.

☐ Individual/sole proprietor or single-member LLC ☐ C Corporation ☐ S Corporation ☐ Partnership ☐ Trust/estate

☑ Limited liability company. Enter the tax classification (C=C corporation, S=S corporation, P=Partnership) ▶ S

Note: Check the appropriate box in the line above for the tax classification of the single-member owner. Do not check LLC if the LLC is classified as a single-member LLC that is disregarded from the owner unless the owner of the LLC is another LLC that is **not** disregarded from the owner for U.S. federal tax purposes. Otherwise, a single-member LLC that is disregarded from the owner should check the appropriate box for the tax classification of its owner.

☐ Other (see instructions) ▶

4 Exemptions (codes apply only to certain entities, not individuals; see instructions on page 3):

Exempt payee code (if any) _____

Exemption from FATCA reporting code (if any) _____

(Applies to accounts maintained outside the U.S.)

5 Address (number, street, and apt. or suite no.) See instructions.
4205 Vineland Road, Suite L1

Requester's name and address (optional)

6 City, state, and ZIP code
Orlando, FL 32811

7 List account number(s) here (optional)

Part I Taxpayer Identification Number (TIN)

Enter your TIN in the appropriate box. The TIN provided must match the name given on line 1 to avoid backup withholding. For individuals, this is generally your social security number (SSN). However, for a resident alien, sole proprietor, or disregarded entity, see the instructions for Part I, later. For other entities, it is your employer identification number (EIN). If you do not have a number, see *How to get a TIN,* later.

Note: If the account is in more than one name, see the instructions for line 1. Also see *What Name and Number To Give the Requester* for guidelines on whose number to enter.

Social security number
			–		–				

or

Employer identification number
5	9	–	1	1	1	7	8	0	4

Part II Certification

Under penalties of perjury, I certify that:

1. The number shown on this form is my correct taxpayer identification number (or I am waiting for a number to be issued to me); and
2. I am not subject to backup withholding because: (a) I am exempt from backup withholding, or (b) I have not been notified by the Internal Revenue Service (IRS) that I am subject to backup withholding as a result of a failure to report all interest or dividends, or (c) the IRS has notified me that I am no longer subject to backup withholding; and
3. I am a U.S. citizen or other U.S. person (defined below); and
4. The FATCA code(s) entered on this form (if any) indicating that I am exempt from FATCA reporting is correct.

Certification instructions. You must cross out item 2 above if you have been notified by the IRS that you are currently subject to backup withholding because you have failed to report all interest and dividends on your tax return. For real estate transactions, item 2 does not apply. For mortgage interest paid, acquisition or abandonment of secured property, cancellation of debt, contributions to an individual retirement arrangement (IRA), and generally, payments other than interest and dividends, you are not required to sign the certification, but you must provide your correct TIN. See the instructions for Part II, later.

Sign Here Signature of U.S. person ▶  Date ▶ 01/03/2023

General Instructions

Section references are to the Internal Revenue Code unless otherwise noted.

Future developments. For the latest information about developments related to Form W-9 and its instructions, such as legislation enacted after they were published, go to *www.irs.gov/FormW9.*

Purpose of Form

An individual or entity (Form W-9 requester) who is required to file an information return with the IRS must obtain your correct taxpayer identification number (TIN) which may be your social security number (SSN), individual taxpayer identification number (ITIN), adoption taxpayer identification number (ATIN), or employer identification number (EIN), to report on an information return the amount paid to you, or other amount reportable on an information return. Examples of information returns include, but are not limited to, the following.

- Form 1099-INT (interest earned or paid)
- Form 1099-DIV (dividends, including those from stocks or mutual funds)
- Form 1099-MISC (various types of income, prizes, awards, or gross proceeds)
- Form 1099-B (stock or mutual fund sales and certain other transactions by brokers)
- Form 1099-S (proceeds from real estate transactions)
- Form 1099-K (merchant card and third party network transactions)
- Form 1098 (home mortgage interest), 1098-E (student loan interest), 1098-T (tuition)
- Form 1099-C (canceled debt)
- Form 1099-A (acquisition or abandonment of secured property)

Use Form W-9 only if you are a U.S. person (including a resident alien), to provide your correct TIN.

If you do not return Form W-9 to the requester with a TIN, you might be subject to backup withholding. See What is backup withholding, *later.*

APPROACH TO THE PROJECT

PROJECT APPROACH

UES has been a leader in providing Geotechnical, Construction Materials Testing Services in Central Florida for many years.

Our Team will utilize our best engineering judgment, practices, and principles and provide timely, quality services in performing the specified project scope. UES's team members have worked on similar contracts providing geotechnical and construction materials testing/inspection services to the municipality and government agencies.

We understand that the potential projects under this municipal contract will primarily be categorized under Geotechnical Testing and Material Testing Inspection Services and will vary in size, complexity, budget, and duration. We further understand that this contract will consist of a variety of projects on an as-needed task authorization basis which may include geotechnical investigations and analysis, evaluation assessments and remediation recommendations, design, construction materials testing for soils, concrete and asphaltic materials, laboratory testing in accordance with ASTM and AASHTO standards, field testing and inspection for structural steel and concrete structures as well as threshold inspection services on various projects type throughout Polk County. We also understand that there is no guarantee as to the type or quantity of services to be provided under this contract and that the term of engagement will be, at most, five years.

Clients who choose to use UES for their construction services benefit from:

- Certified, Qualified, and Trained Technicians
- Reliable and Accurate Test Results
- Accredited and Full-Service Laboratories
- Timely and Quick Responsiveness

Our personnel are ready to meet the County's needs in all project situations and we are available 24 hours a day, 7 days a week.

APPROACH TO MANAGEMENT

Our Management Plan considers urgent or emergency services that may be needed occasionally.

The management group identified in our organizational chart on page 26 will be responsible for each project through all its stages: proposal preparation, field and laboratory testing, reporting, invoicing, and job completion. Highly responsive service and short testing turnaround times are a priority to keep projects on schedule and avoid contractor claims.

The ability to resolve construction materials testing issues quickly in the field is essential; we have the experienced personnel to make that happen. In addition, our team has a sizeable local laboratory which will ensure that laboratory test data is reported promptly, thereby avoiding costly contractor delays.

The first step is starting from reviewing the project plans and specifications to establish a testing program and a budget based on our understanding of the County's needs, goals, and contractual requirements. Next, our Project Manager, Fred Schmalzer, PE, SI, will work with our team to create a scope and fee proposal to be reviewed and approved by the appropriate Polk County Project Manager. The UES project team will attend all pre-construction meetings to discuss our scope of service with on-site representative before the beginning of the project to establish a work schedule which could require either full-time testing and inspection, part-time testing and inspection, or a combination of both.

We will strive to maintain technician continuity on each project by assigning the same personnel to the project for its duration, to the extent possible. Our technicians are cross-trained and equipped to perform all the necessary testing required for municipal projects. We establish and maintain a "Project Audit Sheet" which is a compilation of every proposed test on the project that helps us track all the tests, and to ensure that no tests are overlooked, and that all pass prior to project acceptance by the County personnel.

Our administrative staff pays close attention to our proposed budget to ensure the budget is maintained. We understand that keeping your staff informed and aware of any situation is crucial for the project's success at every stage.

UES is always willing to comply with last-minute changes in scope and project requirements in general. Therefore, the project APMs send email notifications to our internal team and your project management team when a project's budget reaches 80 percent expended. This is also reflected on each invoice at the bottom. At this point, an audit is usually conducted to determine how much work remains, if the budget has enough capacity, or if a change order may be required.

We also have a document control/record keeping system which allows expedited report preparation and retrieval of archived reports, drawings, and critical

documentation related to the project. There is an integral Quality Assurance/Quality Control (QA/QC) system in place which helps us maintain the best level of quality, starts with dispatch and field personnel, and finishes with the final review and signature of the project engineer, Fred Schmalzer, PE, SI.

METHOD OF APPROACH BY TASK

GEOTECHNICAL ASSESSMENTS

UES offers various geotechnical engineering services to help architects, engineers, and developers meet local, state, national, and international environmental regulations. Our professional engineers use the soil and groundwater test results to analyze existing site conditions and provide our clients with safe, cost-effective construction solutions.

Our dedication to value engineering techniques, state-of-art site exploration, and extensive exploration database consistently prove invaluable in pre-design and pre-construction planning. The surface exploration program evaluates potential site development and long-term performance problems to address remediation alternatives for use by the design team effectively.

Post-construction settlements investigations to determine the cause(s) of settlement and provide remedial recommendations, including sinkhole evaluation and consolidation of organic or soft clay deposits, are services that frequently our geotechnical team provides.

Developing new sites requires several studies to ensure the site is compatible with the intended use. These studies include characterizing soils and groundwater conditions, evaluating the potential for sinkhole activity on the site, the location of muck that could adversely affect the performance, and construction costs of structure and pavement areas.

A list of our capabilities in this area:

- Site Feasibility and Due Diligence Studies
- Soil Mapping and Classification
- Sinkhole Evaluation
- Landfill Site Selection and Assessment
- Muck Probes and Mapping
- Subsurface Investigations
- Standard Penetration Testing (SPT)
- Cone Penetrometer Soundings
- Shallow and Deep Foundation Recommendations and Design
- Settlement and Stability Analysis
- Subsurface Improvement Recommendations
- Retaining Wall Design
- Seepage Analysis
- Sinkhole Remediation Design
- Value Engineering Analysis
- Soils Laboratory Testing to include special soils testing

SITE WORK AND SOIL TESTING

Mr. Richard Fisk, a CSD staff manager with over 30 years of experience, leads a group of field technicians providing oversight and problem resolutions on our site work projects.

In addition, UES employs 2 staff field trainer/supervisors team members that spend over 90% of their time supporting our engineering technician team out in the field. Our Team can perform all earthwork testing required, including embankment and backfill, analyze the suitability of the soils for construction, and determine the need for moisture adjustment. UES also provides asphalt concrete inspection and testing, which include field quality control to determine and monitor temperature, lift thickness, and compaction using core samples, as well as verification of aggregate gradation, asphalt content, bulk specific gravity, stability, and flow.

We also provide monitoring, inspecting, and reporting de-grubbing, proof-rolling, and structural fill operations to comply with standard test frequencies and project specifications, soil in-place density testing for structural elements subgrades, including slab on grades, column, and wall footings.

UES performs density audit sheets on all our projects to keep track of testing and ensure all structural elements are adequately tested per project specifications. Our audit sheets allow deficiencies to be identified, including retests for failing in-place tests, and corrected after the contractor completes rework.

CONCRETE

Following the project specification and contract documents, we will conduct concrete testing and monitoring placements. Our inspection services include sampling concrete for air content, slump, temperature, and unit weight, casting cylinders for compressive strength tests, and observing concrete placement. To protect the quality of concrete, our concrete technicians utilize transportation racks to avoid cylinder damage during transport.

Also, we have an extensive work order system that automatically schedules concrete cylinders for pick up within specified time frames for both 28-day acceptance tests and early test specimens. We will report our findings in real-time to the field construction management personnel, and a signed and sealed report will follow to the County Officials. All concrete technicians have a minimum of an ACI Level I certificate and two years of experience. They have also completed an intensive internal concrete training program.

IN-HOUSE LABORATORY

UES full-service laboratory has been certified by the CMEC agency and it is staffed with 13 full-time ACI and CTQP certified technicians, capable to perform more than 100 different tests in the following areas:

- Aggregate
- Asphalt and bituminous materials
- Corrosion testing of soils and water
- Concrete and cement
- Earthwork soils material
- Masonry units
- Non-destructive testing

We not only provide redundancy on the laboratory equipment with more than one oven, compressive machines, and multiples soils testing stations; we also employ cross-trained, experienced laboratory technicians performing tests in accordance with local, state, and national test methods such as American Association of State Highway and Transportation Officials (AASHTO), American Society for Testing and Materials (ASTM), American National Standards Institute (ANSI), Florida Department of Transportation (FDOT), Portland Cement Association (PCA) and Underwriters Laboratories, Inc. (UL). We have a Corporate Quality Systems Group (in-house) responsible for keeping our equipment calibrated and checked for accuracy. Additionally, our laboratories are qualified and accredited through outside agencies such as:

- AASHTO Materials Reference Laboratory (AMRL)
- Cement/Concrete Reference Laboratory Accreditation (CCRL)
- Construction Materials Engineering Council (CMEC)
- Florida Department of Transportation (FDOT)
- US Army Corps of Engineers (USACE)

MASONRY

UES representative will conduct inspection for masonry walls and grout placement monitoring according with project specifications. We will mold grout prisms for every 50 cy or day of placement whichever be less; mortar cubes per ASTM C-780 per every 5000 sf of masonry wall and will perform testing in accordance to ASTM E447 for compressive strength prism assembled by masonry subcontractors. All UES technicians are cross trained and under the supervision of the special inspector.

STRUCTURAL STEEL

UES will provide an American Welding Society (AWS) Certified Welding Inspector (CWI) to perform continuous and periodic shop and field inspections of welded and bolted steel connections in accordance with the Structural Inspection Plan and project specifications. All inspections will be performed under strict compliance with applicable codes, such as AWS, AISC, ASTM and Underwriters Laboratories, and ASNT Level III (MT, PT, UT, and VT) and the direct supervision of our Licensed Special Inspector.

Our experienced team will perform inspections for field welding of high-strength bolting and erection, shop fabrication involving welding, fit-up, welding procedure qualification, welder qualification, and approval for shipment, vendor surveillance and quality audits and non-destructive welding inspection including ultrasonic, magnetic particle, and liquid penetrant.

ADDITIONAL SERVICES

As part of our growing and expanding program, UES brings a team of more than 3,100 professionals and nearly 75 national branches which allows us to now offer valuable advanced services, such as Virtual Design Consulting (VDC). Clients like Polk County with its vast network of utility lines and facilities can benefit from the capabilities offered by UES' VDC team, for services such as Subsurface Information Modeling, Total Asset Modeling (i.e., mapping existing utilities), 3D Laser Scanning, and Structural & Forensic Information (for void & sinkhole location, underground storage tanks, and environmental & geotechnical conditions).

UES is licensed to practice geology in the State of Florida, and we have substantial experience in hydrologic studies, contamination assessments, and the installation and maintenance of groundwater monitoring wells in any assessment environment. We understand that this Polk County continuing contract includes a provision for professional geologic and hydro-geologic services, including but not limited to monitoring plan design, piezometer/monitoring well installation, providing oversight of new monitoring well installation, and evaluating and recommending repairs to existing monitoring wells, on an as-needed basis in

conjunction with the County's needs. UES's in-house drilling well installation, monitoring, and abandonment services are enhanced by our partnership with Ambient Technologies, Inc. (ATI) to complement our in-house geophysical and hydrogeologic services. Highlighted below are just a few of these capabilities:

- GeoProbe (soil and groundwater sampling)
- Well abandonment
- Piezometer/monitoring well installation
- In-situ permeability testing (recharge and pumping testing)
- Double Ring Infiltrometer (DRI) tests
- Muck probes
- Hollow Stem Auger Boring

INNOVATIVE CONCEPTS TO ENHANCE VALUE, QUALITY, CONTROL COST AND SCHEDULES

RECORDS, REPORTS MONITORING, AND MANAGEMENT SYSTEMS SUCCESSFUL PROJECTS

UES' test reports and records are processed via our proprietary FDC (Field Data Collection system), which allows for immediate transmission of field data to the UES office for prompt engineering review, processing, and subsequent client submittal. The FDC system fully integrates our scheduled fieldwork, project/results database, reviewing, and reporting modules. FDC is a comprehensive technical document management system created to facilitate our technicians' printing of preliminary field reports whenever proof test results are needed on the job site. Projects of this nature and scope under Polk's continuing contract may require the implementation of early concrete tests and the rapid reporting of results; UES' FDC system allows our field and laboratory staff to communicate test results as soon as they become available. All documentation provided via the FDC system has been verified to comply with the reporting criteria of all appropriate test methods and standards, such as ASTM, AASHTO, FDOT, and other applicable regulatory agencies (Ex: forms ASTM C-39, AASHTO T-180, and FM- 5-515).

DEVELOPMENT AND MAINTENANCE OF PROJECT SCHEDULES

Projects frequently require a great level of coordination between site construction personnel, testing/inspection agency, and subconsultants for which UES relies also on our state-of-the-art and proprietary scheduling system (FDC or Field Data Collection).

UES's Field Data Collection system is managed on the scheduling side by three full-time dispatchers tasked to receive incoming requests, create a log of the required tasks, match the tasks to appropriate technicians, assign the tasks for the time/date requested, and create changes to the tasks and assignments as needed. **Possessing a large multi-talented and appropriately certified engineering technician team affords UES the unique advantage of assigning a "Lead Technician" to projects that require intense dedication –such as public work facility projects.** Our "Lead Technicians" are trained to become well-informed of their project requirements and thus serve as "on-field" point of contacts between the construction site personnel and our scheduling team. **This approach has proven crucial for those unforeseen tasks requiring immediate attention.**

QUALITY CONTROL (QC) AND QUALITY ASSURANCE (QA)

Our service is only as good as our QA and QC. Our staff continually seeks both excellence and improvement in our procedures so we can provide quality geotechnical and materials testing services. QA of our geotechnical engineering reports is accomplished through two levels of peer review. The first level is performed by an engineering colleague and the second level is performed by a senior engineer. This aids in maintaining quality and ensuring that all feasible options are presented for your selection (value engineering) on each project.

Our drill crews have the required licensing needed to complete their assignment [OSHA, Water Well Contractor] which is also monitored by our drilling supervisor. For materials testing services, we use FDOT-approved quality control plans to guide our internal procedures, equipment calibrations, and personnel training. Our field technicians are trained by supervisors experienced with Polk County projects. We require all personnel to be Construction Training Qualification Program (CTQP) qualified before performing work on municipality projects as required in many scopes of services. Field supervisors will visit the project sites periodically to verify the performance of our Team's senior and field technicians assigned to the projects.

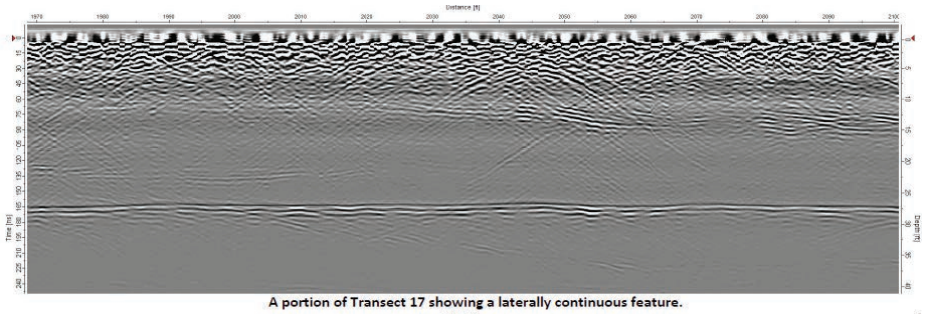
TAB 3

EXPERIENCE, EXPERTISE, PERSONNEL AND TECHNICAL RESOURCES

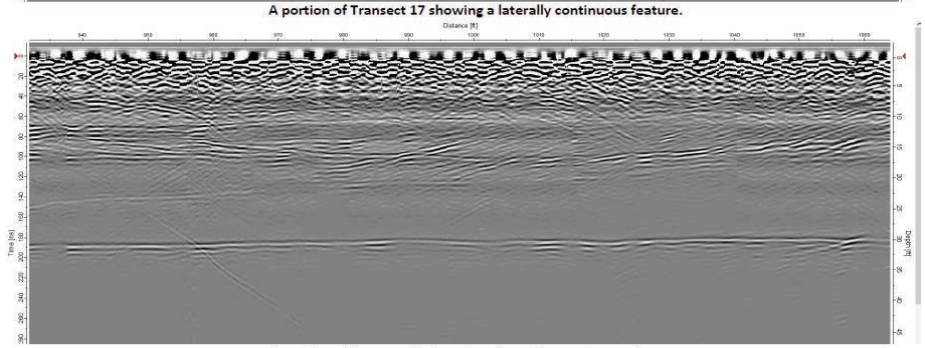
PROJECT EXPERIENCE

A. Hilltop Subdivision Geo & Karst

Dundee, Polk County, FL



A portion of Transect 17 showing a laterally continuous feature.



A portion of Transect 18 showing a laterally continuous feature.

E. PROJECT DESCRIPTION (NATURE OF UES'S RESPONSIBILITY)

Richmond American Homes was considering the development of a new residential subdivision in Dundee, Polk County, Florida. The site was to be developed with seventy-four residential lots, two stormwater ponds, and associated paved roadways. UES was tasked with performing a geotechnical exploration program to evaluate the site's shallow soil and groundwater conditions. In addition, we were requested to provide a professional opinion on the potential for future sinkhole formation on site. UES completed our geotechnical investigations at the Hilltop Subdivision site in 2021.

During UES' drilling activities, the subject property was a vacant parcel with sparse vegetation. UES performed twenty-eight Standard Penetration Test (SPT) borings and secured samples of representative soils encountered in the soil borings for review, laboratory analysis, and classification by a Geotechnical Engineer. The scope of our services included field exploration with geotechnical engineering interpretation of results with respect to the project characteristics, soil and groundwater conditions at the boring locations, geotechnical recommendations for foundation design, pavement design, site preparation, stormwater pond design, and a limited Karst (sinkhole) exploration.

A UES professional geologist utilized in-house GPR equipment to investigate subsurface features that are commonly associated with sinkhole/karst activity and locate any areas of interest related to these features. Based on the results of the GPR survey, UES did not identify any subsurface features that indicated potential sinkhole conditions on the site.

A. Lake Hamilton WWTP, Geotechnical Exploration

Polk County, FL

E. PROJECT DESCRIPTION (NATURE OF UES'S RESPONSIBILITY)

This project involved preparing to construct a new water treatment facility for the Town of Lake Hamilton in Polk County, Florida. Citrus groves occupied the site at the time of the UES exploration. The site plan indicated improvements to consist of a 250,000 gpd influent storage tank, associated generator pads, chlorine contact basins, pump stations, and office buildings. A 20' wide stabilized unpaved drive was to be constructed around the facility's perimeter. In addition, two RIBs were proposed, each approximately 1.6 acres in plan dimension. UES had previously performed a preliminary geotechnical exploration at this site (UES Report No. 1918391, dated December 15, 2021). UES completed our geotechnical investigation, which included performing various Standard Penetration Test (SPT) borings and securing samples of representative soils encountered in the soil borings for review, laboratory analysis, and classification by a Geotechnical Engineer. Additionally, UES installed piezometers at the four deep boring locations for subsequent groundwater level readings

The final UES report included:

- Foundation design recommendations for the proposed effluent tank
- Site preparation recommendations, including berm construction and maximum RIB loading rate
- Recommendations for construction of the stabilized unpaved driveway
- Stormwater pond design parameters
- Groundwater monitoring plan for submittal to FDEP
- RIB groundwater mounding analysis

A. Connector Road (Hilton Driveway to Apopka-Vineland Road), Materials Testing

Orange County, FL

E. PROJECT DESCRIPTION (NATURE OF UES'S RESPONSIBILITY)

From 2019 to April 2021, Orange County Highway Construction Division constructed the Hilton Driveway to Apopka-Vineland Connector Road. This project comprised approximately 6,886 feet of roadway and underground utilities to facilitate the stormwater system. The roadway was constructed utilizing a flexible pavement design comprised of a stabilized subgrade, a 12-inch-thick soil cement base, and an asphaltic concrete wearing surface. **Since this project was conducted under UES' Orange County Highway Construction continuing contract #Y17-904-A, which had a 24% MWBE utilization commitment, UES' certified minority firm subcontractors provided services on the asphalt field and plant testing program of this project to honor that commitment.**

UES provided the services listed below:

- Conducted compaction tests for utility line backfill, pavement subgrade, and pavement base
- Conducted asphalt cores, laboratory testing, and rolling straightedge on the asphalt roadway
- Conducted sampling and laboratory testing of plastic concrete, soil cement, and limerock
- Participated in on- and off-site meetings as needed
- Provided drilled shaft inspection
- Provided a second layer of site activities oversight and quality control
- Provided engineering oversight, review, and technical services
- Completed contractual services under budget

A. Lake Conine Nature Park, Geotechnical Engineering, Winter Haven

Polk County, FL

E. PROJECT DESCRIPTION (NATURE OF UES'S RESPONSIBILITY)

Construction on Phase 1 of the Lake Conine Wetland Restoration Project started in the Spring of 2020 as an improvement project on a 34-acre property transforming it into a restored wetland site. Phase 1 included creating a series of wetland chambers that enhance water quality to rainwater flowing in areas around Lake Conine, and was completed in Spring 2021. Phase 2 included the addition of recreational amenities, including a paved trail system, playground, fishing pier, kayak launch, picnic facilities, restroom, parking area, and site amenities. UES completed a program of geotechnical investigation and engineering services which included performing various Standard Penetration Test (SPT) borings and securing samples of representative soils encountered in the soil borings for review, laboratory analysis, and classification by the UES geotechnical engineer. Additionally, UES provided surcharge monitoring, including installing four settlement plates and eight elevation survey readings for approximately six months.

The final UES report included:

- Existing groundwater levels and estimated seasonal high levels at the boring locations;
- Potential constraints to development from anticipated soil (organics) and groundwater;
- Foundation design recommendations for restroom structure, bridges, and boardwalk;
- Pavement design recommendations for parking lot;
- Stormwater pond recommendations;
- Pavement recommendations/suitability of existing berms to support paved multi-use trail; and
- Recommendations for site preparation, excavation, and dewatering considerations.

A. McLeod Road Transfer Station (MRTS) Re-Design, Materials Testing

Orange County, FL

E. PROJECT DESCRIPTION (NATURE OF UES'S RESPONSIBILITY)

The McLeod Road Transfer Station (MRTS) site is in an industrial park on L.B. McLeod Road. In August 2019, the Orange County (FL) Utilities Solid Waste Division began building a new modern transfer station on L.B. McLeod Road in Orlando. Construction of the $27 million facility was completed in January 2021. The Orange County Utilities Solid Waste Division contract involved the plan, design, and permit of demolishing the old transfer station and constructing a replacement facility with a design life of 40 years. The 6.8± acre property is surrounded by the City of Orlando's wastewater treatment plant facility and a Waste Management, Inc. transfer station. The old transfer station building was a conversion of the City of Orlando's old solid waste incinerator facility built in the 1960s. After nearly 60 years of use, the old building needed replacement with a new modern transfer station facility. The new transfer station was designed on the same site with a modern 62,000-square-foot receiving and transfer building that can process 2,000 tons of solid waste daily. It also includes an 8,000-square-foot service building for administration offices, employee quarters, a vehicle maintenance shop, and a scale house with truck scales. The replacement facility includes many engineering innovations and technology, including inspection platform MSE walls. The buildings have a shallow spread foundation system with slab-on-grade masonry walls and metal framing. Paved areas were constructed utilizing rigid and flexible pavement designs comprised of a stabilized subgrade, limerock base concrete, and asphaltic concrete wearing surfaces; other work included the installation of underground utilities to facilitate the water, sanitary sewer, and stormwater systems. **This project exemplifies UES's extensive experience interacting and coordinating with government agencies, including the City of Orlando, Orange County Utilities, and Orange County Facilities.**

UES provided the following construction materials testing scope of services:

- Conducted compaction tests for the building pad, foundations, utility line backfill, pavement subgrade, pavement base and asphalt
- Masonry testing
- Sampling and testing asphaltic concrete
- Sampling and testing plastic concrete
- Conducting structural steel inspection

A. Site 113-H-W-4 (fka Horizon West Relief High School), Geotechnical Engineering and Materials Testing

Orange County, FL

E. PROJECT DESCRIPTION (NATURE OF UES'S RESPONSIBILITY)

GEO) Design Level Geotechnical Exploration, Site 113-H-W-4 (f.k.a. Horizon West Relief High School) located in Orange County, Florida. The project included due diligence engineering in the design process before constructing a new high school on two parcels totaling approximately 63 acres in size, east of State Road 429 between Seidel Road and Hartzog Road in Orange County, Florida. UES's GEO services concluded in July 2020 with a geotechnical exploration of the mast arms and roadway extension portion of the site, which included geotechnical recommendations for design parameters for the mast arms foundation, pavement recommendations, and site preparation.

CSD) The project included constructing ten (10) 1-3 story buildings with a student capacity of up to 3,000. The buildings were supported on a shallow spread foundation system with slab-on-grade, composite metal decking, masonry and tilt panel walls, and metal framing. Paved areas were constructed utilizing rigid/flexible pavement designs comprised of a stabilized subgrade, limerock base, and concrete/asphaltic concrete wearing surfaces. Other work included the installation of underground utilities to facilitate the water, sanitary sewer, and stormwater systems. UES was responsible for construction materials quality assurance by conducting compaction tests for the building pad, foundations, utility line backfill, pavement subgrade, base, and asphalt; sampling and testing plastic concrete; floor flatness testing; structural steel inspection; fireproofing testing and inspection; and sampling and testing asphaltic concrete. UES's Metals and NDT Supervisor conducted a visual inspection of welds, bolt torque, and inspection of high-strength bolted connections, verification of welding electrode type used, and visual inspection of metal roof deck welds and fasteners.

- Professional Engineer, MD #55041
- Professional Engineer, Washington DC
- ASTM Environmental Site Assessments for Commercial Real Estate
- Crestcom International, Ltd., Bullet Proof Manager Courses I, II, and III
- Nuclear Density Gauge Certified

Guy has two decades of experience in geotechnical engineering and construction materials testing. He is well-versed in conventional geotechnical exploration projects, including interpreting field and laboratory results, preparing geotechnical design recommendations and reports, and coordinating field, laboratory, and office personnel. Guy has been involved in hundreds of private and public sector projects, including multi-family apartment complexes, residential subdivisions, Planned Urban Developments (PUD), multi-million dollar private residences, warehouse, and commercial facilities, corporate and industrial parks, resort facilities, high-rise structures, restaurants, commercial retail outlets, schools, pavement systems design and evaluation, hydrogeology/groundwater modeling, stormwater management system recovery analysis, slope stability analysis, sinkhole explorations, expansive soil evaluations, residential/ commercial septic system design and permitting services, and expert witness testimony.

Guy is also experienced in the construction materials discipline, including field inspections for soil, base material, asphalt, reinforced concrete, and reinforcing steel. He is capable of construction materials laboratory testing for soil and concrete. Additionally, he is involved in environmental property assessments for the purpose of acquisitions or refinancing in which specific sites are accessed for potentially hazardous or toxic wastes and petroleum product exposures. Assessments include a review of historical ownership, examination of historical land use activities, examination of historical aerial photography, field review of the site and nearby properties, regulatory file review, and a summary report to recommend the appropriate action.

PROJECT EXPERIENCE

City of Orlando Proposed Pipe Installation and Lift Stations 8, 30, 47 & 77, Geotechnical Exploration

Orange County, FL

This project consisted of the construction of five new lift stations and about 800 linear feet of new pipe line along Silver Star Road in Orlando, Florida.

UES was retained by the City of Orlando (under a continuing services contract) to perform these consulting services. Guy was the Geotechnical Engineer of Record (EOR) for this project responsible for overseeing all geotechnical explorations and recommendations. Specific services provided by UES included exploration and evaluation of the subsurface conditions at the site; providing existing and estimated seasonal high groundwater levels at the boring locations; and providing geotechnical engineering recommendations for site preparation procedures for the proposed sewer line and lift station installations.

City of Ocoee Public Works Complex Stormwater Improvements

Ocoee, Florida, Orange County, FL

Guy completed geotechnical engineering services on this project involving the design of stormwater improvements to the City of Ocoee Public Works Complex. UES performed soil borings and Standard Penetration Tests (SPT). The limited geotechnical exploration involved evaluation of wet stormwater detention ponds and included geotechnical opinions for the estimated seasonal high groundwater table at the test boring locations, as well as hydrogeologic design parameters for the design and permitting of the ponds.

R. Kenneth Derick, MS, CBO, PE

Senior Engineer

Ken holds an advanced degree in civil engineering and has more than 48 years of experience performing and managing complex engineering work for geotechnical, building construction, and environmental projects in the eastern, southeastern, and Gulf South regions of the United States. He has performed structural, general civil, geotechnical, environmental, and building construction inspection and testing services for thousands of projects. As the Engineer of Record (EOR) for the UES, Ken provides engineering peer review, project administration, and environmental engineering services on a daily basis for technically challenging projects. As Senior Vice President and Central Florida Regional Manager, he is responsible for the performance, staffi ng, and administration of all engineering, environmental, and construction personnel in the six county region.

PROJECT EXPERIENCE

SR 46/SR 42 Road Repair

Volusia/Polk County Line, Florida

A new lane addition for FDOT was settling and creating rutting. Mr. Derick was the Engineer of Record (EOR) for FDOT in solving the root cause of new overlay rutting. The problem was determined to be poor compaction and lift thickness control at the interface of old and new pavement.

Commercial Shopping Center, Florida Avenue & Brannen Road

Lakeland, Polk County, Florida

This project involved a strip shopping center in Lakeland, Florida. The site soils consisted of reclaimed land which possessed highly compressible clay soils to a depth of eight to 15-feet below grade. Mr. Derick provided recommendations for the development including deep foundations, surcharging in combination with post-tensioned slab foundation or "waffle" slab, and soil-mixing with cement.

Alafia Lakes Development, Mulberry

Polk County, Florida

Mr. Derick was the Engineer of Record (EOR) and provided alternatives to develop 235 acres of reclaimed land on SR 37, just north of SR 60 in Mulberry, Florida. The formed phosphate mine site was explored with 20-foot deep borings, sufficient in depth to define the mining depth on the site. Areas where the mining left compressible soils were delineated and recommendations were provided to allow the construction of the small residential homes.

Imperial Lakes Manufactured Home Project

Mulberry, Polk County, Florida

Mr. Derick was engaged in the assessment of the settlement potential of this site, which had been developed five years earlier. The soil was settling away from underneath some roadways under the weight of fill placed over the former phosphate mine. Mr. Derick provided estimates of the total settlement to be anticipated and the time it would take for the remaining settlement to occur. Recommendations for the repair of facilities and leveling of the homes were provided.

Rafael R. Castro

Contract Manager/Senior Project Manager

Rafael Castro has 24 years of experience in construction inspection, materials testing and project management. His experience includes supervising lab and fi eld technicians, writing technical reports, and administration of municipality contracts. Rafael is responsible for overseeing the Construction Materials Testing (CMT) lab, fi eld and lab testing for asphalt, aggregate, concrete and soils; thus, ensuring that quality assurance procedures for earthwork and aggregates are being followed according to the written procedures. In that regard, his duties comprise of serving as the secondary technical manager and deputy quality systems manager. Rafael's responsibilities also include coordination and reporting to municipality agencies the participation of W/MBEs in all applicable continuing services contracts.

Education

BS, Organizational Management, Palm Beach Atlantic University

- FDOT (CTQP) Qualifi ed Sampler
- Radiation Safety O ffi cer (RSO)
- Troxler Radiation Safety and Use of Nuclear Gauges

PROJECT EXPERIENCE

Construction Materials Testing, Boggy Creek Road Widening Over Florida's Turnpike, PS #02-068-RJ

Osceola County, Florida

Mr. Castro was responsible for coordinating and overseeing all associated laboratory testing services on this project for the Osceola County Board of County Commissioners. The project involved constructing the Boggy Creek Road widening over Florida's Turnpike in Osceola County, Florida with approximately 3,000 linear feet of road and bridge widening. Additional work included installation of the underground utilities associated with this project. Laboratory testing services included sieve analysis, corrosive series, compressive strength of concrete, density and moisture content of soils, and asphaltic concrete pavement cores.

Construction Materials Testing, Holopaw Community Park

Osceola County, Florida

Mr. Castro was responsible for coordinating and overseeing all associated laboratory testing services for construction of the new Holopaw Community Park located in Osceola County, Florida. The new facility is approximately 4,133 SF and is supported on a shallow spread foundation system constructed of compacted structural fill. The slab on grade was four inches in depth with bearing walls constructed of concrete masonry. The parking and driveway areas were constructed utilizing a flexible pavement system consisting of a stabilized subgrade, limerock base, and an asphaltic wearing surface. Additional work included the installation of the underground utilities to facilitate the water, sanitary sewer, and stormwater systems.

Construction Materials Testing & Inspection, Celebration High School New Two-Story School Building, Celebration

Osceola County, Florida

Mr. Castro was responsible for coordinating and overseeing all associated laboratory testing services on the construction of a $5.3M, two-story, 14,250-SF building supported on a shallow spread foundation system with a four-inch thick slab on grade, masonry walls, tilt panel walls and metal framing. The project pavement areas were constructed utilizing a flexible pavement design comprised of a stabilized subgrade and soil cement base. Other portions of the project included a concrete sidewalk and installation of the underground utilities to facilitate the water, sanitary sewer, and storm water systems.

Fred J. Schmalzer, PE, SI

Vice President of Construction Services / Assistant Branch Manager / Construction Services Department Manager

Fred Schmalzer has 42 years of experience in construction materials engineering and testing throughout Northern and Central Florida. He has gained hands-on experience during his involvement on thousands of construction projects ranging from small facilities to some of Florida's largest construction projects. His project history includes airports, highways, subdivisions, roads, and threshold inspection of high-rise building construction. He is responsible for the approval of materials from borrow sources, identifi cation and disposal of unsuitable soils, compaction of soils, and design of soil cement mixes for pavement base course.

Education

BS, Civil Engineering, Michigan Technological University

Years of Experience

42

Licenses

- Professional Engineer, FL
- Special Inspector, FL

Certifications

- FDOT Asphalt Inspection Consultant Series
- FDOT Contract Administration Consultant Series
- FDOT Drilled Shaft Inspection
- FDOT Earthwork Construction Inspection - Level I
- FDOT Earthwork Inspection Consultant Series
- FDOT Pile Driving Inspection
- FDOT Prestressed Concrete Inspection
- FDOT Traffic Safety / Traffic Accidents Consultant Series

PROJECT EXPERIENCE

FDOT Construction Material Inspection and Inspection Contract

District 5

Mr. Schmalzer served as the Project Manager of this continuing contract and was responsible for the overall management of the contract. Work included contract negotiations, work assignment budget authorization, project staffing, and invoicing. Assignments included several laboratory projects requiring materials tests such as LBR, Modified and Standard Proctor, Atterberg limits, and curing and compression tests of six-inches by 12-inch test cylinders. Field work assignments included ACI - Level I concrete inspection, nuclear density inspection, asphalt plant quality control, asphalt roadway quality control, and special work assignments including the inspection of 17-92 concrete pavement joint repairs.

City of Haines City, Lake Eva Community Park Banquet Hall

Polk County, Florida

Mr. Schmalzer was the Special Inspector for this project involving additions and renovations to a 28-acre community park. The banquet hall construction had an18-week duration during which UES performed threshold inspections to verify that the building's main frame structural elements were constructed in substantial accordance with the permitted contract documents.

City of Ocoee, Construction Materials Testing, Pioneer Key II Infrastructure Rehabilitation Program

Ocoee, Florida

Mr. Schmalzer was the Engineer of Record (EOR) for this project which involved constructing the Pioneer Key II Infrastructure Rehabilitation Program. Work included the installation of the underground utilities, sanitary sewer, stormwater systems, French drains, and roadways constructed utilizing a flexible pavement system comprised of a stabilized subgrade, limerock base, and an asphaltic concrete wearing surface. UES provided testing on asphaltic concrete pavements, French drain inspection services, and compaction tests for utility line backfill, pavement subgrade and pavement base.

City of Orlando Public Works, Orlando-Vineland Road Improvements, Phase II,

Orlando, Florida

Mr. Schmalzer was the Engineer of Record (EOR) for this project. This project consisted of the rehabilitation and widening of the roadway, along with all of the associated underground utilities and access driveways. UES performed materials testing consisting of compaction tests for roadway area embankment, stabilized subgrade and base, utility line backfill, and testing of plastic concrete and asphaltic concrete.

Ricardo C. Kiriakidis L., MS, PhD, PE

Geotechnical Department Manager/Senior Geotechnical Engineer

Ricardo has two decades of experience encompassing all areas of geotechnical engineering, during which time he has had technical responsibility for more than 400 design projects, over 2,500 forensic exploration projects, and 500 subsurface remediation projects throughout Florida. He has been routinely engaged in such activities as selecting soil boring locations, evaluating soil types, interpreting Standard Penetration Tests (SPT), static Cone Penetrometer Tests (CPT), Dynamic Cone Penetrometer (DCP) and hand-auger data, and performing limited literature review of site conditions. He has also managed hundreds of geotechnical design projects, including residential subdivisions, commercial and retail developments, multi-story offi ce buildings, hotels, school buildings, religious buildings, parking garages, and stormwater management areas. As part of the design team, he has provided engineering recommendations for the design of pavements (fl exible and rigid), stormwater management areas (including recovery/drawdown analysis), foundation recommendations (shallow and deep foundations), retaining wall design (including stability analysis), dewatering permit applications, and responses to water management district's RAI, amongst others. In addition, his most recent experience has included forensic geotechnical analysis of subsidence damage and soil stabilization design recommendations such as compaction grouting, chemical grouting, helical piles, micro piles, and flowable fill.

PROJECT EXPERIENCE

Voyager Avenue Bridge, Sunbridge Northeast District ("NED")

Osceola County, Florida

This project consisted of the Voyager Way bridge over the C-30 canal designed to be a Florida I-beam Bridge (FIB) with a span of about 114 feet with two travel lanes, shoulders, and a bike trail (total of approximately 48 feet in width) with an end bent on each side of the canal. UES was retained to explore the general subsurface conditions at the site (accomplished by utilizing our in-house drilling equipment and team) and to provide geotechnical engineering recommendations for the bridge and MSE wall foundations and related construction issues. Challenges associated with this project included directional drilling for utility installations below the canal and the adverse effects of construction vibrations on the nearby residential neighborhood. As the engineer/manager, Dr. Kiriakidis provided oversight and quality review of all work products, scheduling, and budgeting.

Lake Hamilton WWTF Phase I

Polk County, Florida

The proposed project involved the construction of a Wastewater Treatment Facility (WWTF) for the Town of Lake Hamilton in Polk County, Florida. The proposed facility included two RIBs and a new wastewater treatment plant. UES was retained to explore the general subsurface conditions at the site (SPT soil borings were performed with a UES-owned ATV-mounted drilling rig) to provide geotechnical exploration with groundwater conditions and mounding analysis. Challenges associated with this project included an area of concern within the vicinity of the site: an off-site depression that required additional analysis. As the engineer/manager, Dr. Kiriakidis provided oversight and quality review of all work products, scheduling, and budgeting.

Yudenia Maurino, PE

Senior Project Manager

Yudenia is a self-motivated and quality oriented Professional Engineer with over 16 years of experience in the construction materials testing and inspections for Commercial and Residential building structures to include Airports, Schools, Hotel and Resort Facilities, Parking Garages, High-rise and Multifamily construction. She has gained hands-on experience on site supervision, evaluation of quality control, materials testing and inspections including reinforced concrete, pre-stressing and post-tension operations, tilt-up panels, wood framing, fi eld inspections for soils, concrete placements, structural steel, roadway and deep foundations.

In charge of reviewing and approving CSD reports for accuracy and correctness in a number of Central Florida projects; she provide our clients with engineering and management support to keep project on schedule and budget.

Education

BS, Civil Engineering, University of Camaguey, Cuba

16

Licenses

- Registered Professional Engineer, FL, #85357

Certifications

- Earthwork Construction Lv. 1 & 2
- Certify Structural Masonry Inspector
- PTI - Field Fundamentals Unbonded Post Tensioning, Lv. 1
- PTI - Unbonded Post Tensioning Inspector Lv. 2
- DOT Precast Concrete Quality Control Personnel Certifi cation Lv. 2
- OSHA 10-Hours Construction Safety

PROJECT EXPERIENCE

Hermit Smith Warehouse/Distribution

Apopka, Florida

This project consisted of constructing a warehouse building totaling 290,000 sf in footprint area. UES provided material testing services and third party inspections for main structural elements such us foundations, slab on grade and tilt up panel walls. Yudenia served as project engineer and project manager. Her responsibilities included the installation of the underground utilities to facilitate the water, sanitary sewer and storm water systems, laboratory and fi eld-testing services for plastic concrete, soils and asphaltic material. Yudenia was also responsible for coordinating and overseeing fl oor fl atness/levelness testing and structural steel inspection for the building structure while she maintained budget and reporting progress though the life of the project.

Gaylord Palm Hotel Expansion and Parking Garage

Kissimmee, Florida

Yudenia served as the Project Manager for construction material testing and inspection services to the project consisting of one new four level parking garage which added total approximately of 76,866 sf in footprint area, expansion of the guess tower and meeting room with the associated sitework. Her duties included coordination of fi eld testing and inspections, communication with clients and contractors, reviewing fi led daily reports, and managing budget and invoice process.

GOAA South Airport Terminal and Parking Garages

Orlando, Florida

This project included a multi-level Airport Terminal Facility (Land and Air Side terminal), an additional cast in place post tension parking garage structure, a Central Energy Plant and a Ground Transportation Facility. Served as part of threshold inspection team on this particular one-life time project.

Meadow Woods and Ventura Elementary Schools

Orlando, Florida

The project consisted on the renovation/ construction of a multi-story prototype elementary school building of approximately 95,000 gsf. Yudenia served as the Project Manager for construction material testing and inspection services. Her responsibilities included coordination of fi eld-testing and inspections, communication with clients and contractors, reviewing of fi eld daily reports, and managing budget and invoice process.

Richard A. Fiske

Senior Project Manager

Richard has over 26 years of experience in roadwork quality control services including performing construction inspection for asphalt and concrete paving, bridges, earthwork, embankment, bridge, and drainage structures. His experience also includes 22 years of land and roadway surveying and extensive experience in performing inspection and testing of earthwork, masonry, concrete, and asphalt paving materials. He has performed these services on numerous FDOT projects in Central Florida, as well as providing construction quality control services. Richard is now a Project Manager assisting the Construction Services Department with troubleshooting, managing budgets, staffing, quality control, and customer satisfaction.

Years of Experience

Total 26 / UES 19

Certifications

- ACI Concrete Field Testing - Level I
- CTQP Asphalt Paving - Levels I & II
- CTQP Asphalt Plant - Levels I & II
- CTQP Concrete Field Inspector - Level I
- CTQP Drilled Shaft Inspection
- CTQP Earthwork Inspection - Levels I & II
- CTQP Pile Driving Inspection
- FDEP Stormwater Management Inspector
- FDOT Pile Driving Installation
- Florida Work Zone Safety
- OSHA Construction Safety and Health
- TROXLER Nuclear Density Testing

PROJECT EXPERIENCE

Construction Quality Control Testing, Central Florida Sunrail Phase I, FIN 412994-4-52-01

FDOT District 5

Richard served as a Senior QC Inspector for this $163M project involving the installation of 16 miles of new rail from Debary to Sandlake Road. The project totaled 31 miles and included improvements to the existing rail, as well as providing new rail crossings and eleven station finish platforms. Richard's responsibilities included testing and maintaining log book records.

SR 50 Widening and Resurfacing with Multiple Drilled Shafts for Signal Poles and Mast Arms

FDOT District 5

Richard served as Drilled Shaft Inspector for this roadway reconstruction project. He performed training and monitoring for the CEI Drilled Shaft Verification Inspector and performed drilled shaft logs and slurry testing.

SR 15-600 (Mills Ave) Widening Slab Rehabilitation with Multiple Drilled Shafts for Signal Poles and Mast Arms

FDOT District 5

Richard served as a Drilled Shaft Inspector, provided quality control, and performed slurry testing and concrete testing.

Construction Quality Control Testing, SR 500 (U.S. 192)

Osceola County, Florida

Richard served as the Senior QC Inspector for this $14M section of roadway construction consisting of embankment, subsoil excavation, milling and resurfacing, drainage structures, signing, signalization, and bridge construction items. His responsibilities included testing and maintaining log book records.

Construction Quality Control, SR 429 (Part A), Western Expressway, Florida Turnpike Interchange

Orange County, Florida

Richard served as the Senior QC Inspector for this $42.3M section of roadway construction consisting of embankment, drainage structures, eleven bridge structures, base and superpave, permanent pavement markers, spiral curves (roads and bridges), and maintenance of traffic.

Construction Quality Control Inspector, SR 20

FDOT District 2

Richard served as the Senior QC Inspector for this $43M section of roadway reconstruction consisting of new construction, milling and resurfacing, drainage, signage, pavement marking, three bridges, signalization, and utilities.

Michael L. Billings, CWI

Threshold Inspector II

Michael L. Billings has 20 years of experience in construction inspection and materials testing for civil and threshold construction. As a Threshold Inspector, he inspects main frame structural elements to verify compliance with the approved plans and specifi cations. He also routinely performs structural inspections on materials such as cast-in-place concrete, reinforcing steel, post tension cables, formwork, and all phases of masonry construction. Mr. Billings' expertise also includes post tension concrete inspection, bridge construction, masonry inspection, soils and construction materials testing, and DOT quality control inspection/ materials testing.

Years of Experience

20

Certifications

- ACI Concrete Technician - Level I
- Asphalt Paving
- AWS Certified Weld Inspector
- CTQP Earthwork - Levels I & II
- DOT Concrete
- Drilled Shaft
- ICC Commercial Building Inspector

PROJECT EXPERIENCE

Foster Hangar Expansion, 3400 Aircraft Drive

Lakeland, Polk County, Florida

UES was retained by Tucker Construction & Engineering to provide construction materials testing services during the construction of the Foster Hangar Expansion in Lakeland, Polk County, Florida. UES provided professional materials testing services to ascertain whether the roadway courses, building pad compaction, and floor slab concrete were constructed in general conformance to the approved project specifications. Mr. Billings served as a Threshold Agent providing structural steel and weld inspections. Elements inspected included high-strength bolted and welded connections for the Hangar expansion steel framing, mechanical room steel framing, and curtain wall framing.

Foundation and Masonry Steel Inspection, Various Schools

Lake and Polk Counties, Florida

Mr. Billings performed routine foundation footings, full masonry, and/or slab reinforcement inspections on several school additions and new school construction projects for Lake and Polk counties. He provided both threshold inspection services and construction materials testing on Stephens Elementary (Polk), Southwest Elementary (Polk), Mascotte Elementary (Lake), Groveland Elementary (Lake), Middle School AA (Polk), Elementary School F (Polk), and Winter Haven High School (Polk).

City of Winter Haven Parking Garage

Winter Haven, Polk County, Florida

Mr. Billings served as a Threshold Agent for this project involving the construction of one three-level, 32,595-SF, 256-space parking garage in Winter Haven, Florida. UES was responsible for the inspection of the building's main frame structural elements, specifically the structural frame of the building including the foundation, primary, and secondary framing systems. The scope of work included conducting compaction tests for the building pad and foundations, sampling and testing plastic concrete, masonry testing, and structural steel inspection. As the duly authorized representative of the Special Inspector, Mr. Billings observed and verified that the building's main frame structural elements were constructed in substantial accordance with the Permitted Contract Documents.

Materials Testing and Threshold Inspection, New Elementary School "A," School Board of Polk County

Polk County, Florida

The project involved construction of the new Elementary School "A" in Polk County, Florida. Mr. Billings performed materials testing services including soil compaction testing, cementitious materials testing, metal decking and structural steel inspection, and threshold component inspection.

Steve A. Metcalfe, CWI

Certified Welding Inspector

Steve Metcalfe has been a Certified Welding Inspector with UES for over three years. His duties as a CWI include inspections of steel framing structures, welded and bolted connections of structural elements, and proper reporting of his observations. Aaron is also responsible for communicating and keeping a Structural Inspection Log (SIL) of any deviations from Contract Documents and project specifications. He has become integral to the UES threshold/building envelope inspection team. Before joining UES, Steve's experience included 15 years as a certified welder.

Education

AA, Welding Technology, Central Texas College

Years of Experience

20

Licenses & Certifications

- AWS CWI 09060971
- Certified Welding Inspector

PROJECT EXPERIENCE

AdventHealth OTH Lake Mary Health Park, Materials Testing

Lake Mary, FL

The $6.56 million AdventHealth Lake Mary Health Park project in Lake Mary, Florida, involved constructing a three-story, 58,269-square-foot medical office building. UES work scopes included building pads, the installation of underground utilities to facilitate the water, sanitary sewer and stormwater systems, and parking lots. UES conducted compaction tests, sampling, and plastic and asphaltic concrete testing. In addition, UES provided laboratory materials testing (in-house), floor flatness testing, and miscellaneous inspection services. Steve provided structural weld and bolting connection inspections on the building envelope and interior structural elements.

Project Lyric AIPO T40, Materials Testing

Orlando, FL

The largest (379,176sf) of the four new warehouses, dubbed Project Lyric, sits on a 29.7-acre tract on Tradeport Drive just west of Boggy Creek Road. It is part of a master plan for a 472,583-square-foot cross-dock distribution facility with over 400 vehicle parking spaces and multiple access points.

UES work scopes included building pads, the installation of underground utilities to facilitate the water, sanitary sewer and stormwater systems, and parking lots. UES conducted soil compaction tests, sampling, and plastic and asphaltic concrete testing. In addition, UES provided in-house laboratory materials testing, floor flatness testing, and miscellaneous inspection services. Steve provided structural weld and metal deck inspections on the building envelope and interior structural elements.

OCCC West Building Renovation/ Expansion, Materials Testing & Threshold Inspection

Orlando, FL

For the project's OCCC West Building roof replacement portion, UES inspected approximately 1.25 million square feet of new roof. Our inspectors conducted hundreds of bonded uplift tests on the newly installed single-ply membrane per TAS-124-11, verified proposed screw patterns/frequencies, and conducted pull-out testing of roofing fasteners to secure insulation boards and dens-board materials. To bring perspective to the enormity of this project's scope, consider the following: 1) The Valencia Ballroom alone has more square feet than the White House. It can hold events for up to 6,000 people. 2) More than 50 miles of pilings had to be driven into the ground to support the West Building. There are 1,105 pilings under Hall "A" ranging from 105 to 488 feet (the average piling is 170 feet long). 3) The main span of the Brooklyn Bridge (all 1,595 feet) could fit inside the West Building's contiguous exhibition space, which is 2,500 feet long.

Darwing Lopez

Laboratory Manager

As a Laboratory Manager, Darwing's duties include production control, scheduling, and supervision of field and laboratory personnel. His areas of expertise include inspection of auger cast pile installation; construction materials testing for soil and concrete for building and roadway construction; quality control management of CQC projects and incidental precast yards; moisture emission testing; vibration monitoring; coring of asphalt and hardened concrete; and testing compressive strength of concrete cylinders. Additionally, Darwing has extensive experience performing laboratory classification testing such as moisture content, grain-size analysis, Atterberg limits, organic content, hydrometer, standard and modified Proctor testing, Limerock Bearing Ratio (LBR) testing, and unit weight determination.

Years of Experience

22

Certifications

- ACI Field Testing Technician – Level I
- Aggregate Base Testing Technician
- Aggregate Testing Technician
- FDOT CTQP Concrete Technician – Level I
- LBR Technician
- Nuclear Safety Certification
- Qualified Sampler Technician

PROJECT EXPERIENCE

FDOT E5W13, FIN 423193-1-52-01 I-4 Ultimate Project

Various Counties, FL

The project consisted of Improvements to the I-4 corridor. UES served as one of the sub-consultants supporting field operation to Tierra Engineering (main QC Consultant) for the $2.3 Billion – I-4 Ultimate Project. We provided Contractor Quality Control services, laboratory construction materials testing, and various construction materials testing services. Darwing served as the laboratory manager for this project and was responsible for coordinating and overseeing all associated laboratory testing services.

McLeod Road Transfer Station (MRTS)

Orlando, FL

The new transfer station was designed on the same site with a modern 62,000-sf receiving and transfer building that can process 2,000 tons of solid waste per day. It also includes an 8,000-sf service building for administration offices, employee quarters, a vehicle maintenance shop, and a scale house with truck scales. The replacement facility includes many engineering innovations and technology, including inspection platform MSE walls. Darwing was responsible for laboratory testing services for all material tested in the laboratory.

FDOT T5557, FIN 240196-1-52-01 Widening Shepard Rd to N. Oregon St

Lake Mary, FL

Improvements included widening and reconstructing the existing SR600 US 17/92 to CR 535 in Osceola County. UES' scope of work was to provide Contractor Quality Control Manager services, Prepare Quality Control Plans, Density Log Books, Full-time material testing for earthwork and Concrete, conduct drill shaft inspections and associated laboratory testing for embankment and pipe backfill, MSE walls, stabilized subgrade, limerock base, and Concrete. Darwing coordinated and performed laboratory testing for Soils samples and Concrete for this project.

Connector Road (Hilton Driveway to Apopka-Vineland Road)

Orlando, FL

Darwing conducted all laboratory testing for a different material for the job and provided test results to the client and contractor. The roadway was built utilizing a flexible pavement design comprising a stabilized subgrade, 12-inch-thick soil-cement base, and an asphaltic concrete wearing surface. UES provided drilled shaft inspections material testing services for soils, soil cement, and concrete.and worked with a minority sub-consultant firm (Tierra Engineering) for asphalt testing.

Andrew S. Wilderotter, PE

Senior Project Manager/Staff Engineer

Andrew Wilderotter has more than two decades of experience as a Staff Engineer/ Senior Project Manager serving the Geotechnical/Environmental Division of UES' Orlando branch. His duties include coordinating subsurface exploration programs and preparing geotechnical engineering and Phase I Environmental Site Assessment reports for various Central Florida projects. Mr. Wilderotter is also responsible for pile capacity calculations, bearing capacity calculations for shallow foundations, soil classifi cation, and various laboratory testing.

Education

BS, Civil Engineering, Florida State University

Years of Experience

23

Licenses

- Professional Engineer - FL #65727

PROJECT EXPERIENCE

Lake Hamilton WWTF Phase I

Polk County, Florida

The proposed project involved the construction of a Wastewater Treatment Facility (WWTF) for the Town of Lake Hamilton in Polk County, Florida. The proposed facility included two RIBs and a new wastewater treatment plant. UES was retained to explore the general subsurface conditions at the site (SPT soil borings were performed with a UES-owned ATV-mounted drilling rig) to provide geotechnical exploration with groundwater conditions and mounding analysis. Mr. Andrew Wilderotter, PE, was the senior geotechnical engineer and project manager. His duties included coordinating the subsurface exploration program and preparing a detailed geotechnical engineering analysis and report. Challenges associated with this project included an area of concern within the vicinity of the site: an off-site depression that required additional analysis.

Davenport WWTF Phase 2 Expansion

Polk County, FL

This project involved expanding the Davenport Wastewater Treatment Facility (WWTF) in Polk County, Florida. The proposed expansion of the site, which had two existing effluent percolation ponds, included the construction of a third pond. UES was retained to perform a geotechnical exploration within the new pond footprint and to provide a groundwater mounding analysis of the proposed RIB system. SPT soil borings were performed in-house with a UES-owned ATV-mounted drilling rig. Mr. Andrew Wilderotter, PE, was the senior geotechnical engineer and project manager. As such, his duties included coordinating the subsurface exploration program and preparing a geotechnical engineering analysis followed by a detailed report. Challenges associated with this project included an evaluation of the impact of the proposed RIBs on the nearby properties.

Lake Hamilton WWTF Structures

Polk County, Florida

The project involved the construction of a new Wastewater Treatment Facility (WWTF) for the Town of Lake Hamilton in Polk County, Florida. The site plan indicated a 200,000 gpd influent storage tank, associated generator pads, chlorine contact basins, pump stations, office buildings, and a 20-foot wide stabilized unpaved drive to be constructed around the facility's perimeter. In addition, two RIBs were proposed, each approximately 1.6 acres in plan dimension. UES was retained to explore and evaluate the general subsurface conditions at the site with particular attention to potential problems that could impact the proposed development, to provide soil and groundwater conditions at the boring locations, and to provide geotechnical engineering recommendations for foundation design, storage tank design, unpaved driveway sections, and subgrade preparation.

Zachary W. Adams, PE

Senior Geotechnical Project Manager

Zach Adams is a registered Professional Engineer with over 10 years of experience in geotechnical engineering and design. He has an excellent command of standard engineering practices for the subsurface design of complex projects in the energy, transportation, residential and commercial industries.

Education

BS, Civil Engineering,
Ohio University

Years of Experience

10

Licenses

- Professional Engineer - FL #82935
- Professional Engineer - OH #81313

Certifications

- ACI Concrete Field Testing Technician – Level I

PROJECT EXPERIENCE

UCF Downtown Garage

Orlando, FL

UES provided geotechnical exploration services to assist in the design & construction of a new 4-story parking garage and ground level retail shell. The scope included SPT borings & CPT soundings to depths of 20 to 80 feet. The structure will be supported on shallow foundations using vibro-replacement. Zach served as the lead project manager and geotechnical engineer for the project.

Wright Patterson Air Force Base Taxiway Realignment

Dayton, OH

Provided geotechnical exploration services to assist in the design & construction of the taxiway realignment at Wright Patterson AFB. Scope included SPT borings & pavement cores to determine existing runway/taxiway pavement component thicknesses to assist with design. Zach served as the lead project manager and geotechnical engineer for the project.

Coalfields Expressway Route 121/ Corridor Q Route 460, Poplar Creek Section

Grundy, VA

The Poplar Creek Section is a five-mile long limited access roadway. This section of the Coalfields Expressway Project included two bridges. The proposed alignment traverses mountainous, densely wooded terrain. The project required an extensive geotechnical engineering report including rock cut slope and catchment design, new embankment stability analyses, culvert foundation and construction recommendations, coal seam mitigation, pavement considerations, and development of a geotechnical model for incorporation into the project's cross sections. Mr. Adams assisted in providing engineering analyses and recommendations for the roadway and structure foundation explorations. He performed many rock cut designs based on encountered bedrock stratigraphy, fill slope design, and reinforced soil slope design, in addition to performing slope stability analyses on all cut and fill sections for the project.

Poinciana High School Building Addition

Osceola County, FL

UES provided geotechnical exploration services to assist in the design & construction of a new building addition to Poinciana High School. The scope included SPT borings to depths of 25 feet bls. The structure is supported on shallow foundations. Zach served as the project manager and geotechnical engineer for the project.

SUBCONSULTANTS

LEADERS ENGINEERING SERVICES

Leaders Engineering Services is a licensed, minority owned engineering consulting firm operating in the State of Florida Our main office is located in Polk County, allowing us to serve both Central Florida and the Tampa Bay area Leaders offers a wide range of Construction Materials Testing and Inspection services, as well as Geotechnical Engineering services to both the public and private sectors.

Leaders is a minority business enterprise with the staff and equipment to provide a wide array of services Leaders holds ourselves accountable to the highest industry standards Our experienced PEs and technicians are trained to perform testing to the standards set by the Florida Department of Transportation (AASHTO, PCA, Army Corps of Engineers (ASTM and other recognized and accepted testing agencies We calibrate our equipment annually and our laboratories are inspected by independent testing agencies, including FDOT, ACOE and Concrete Materials Engineering Council (CMEC).

CAPABILITIES:

Construction Materials Testing & Inspection:

- Soils & Foundation
- Concrete
- Pavements
- Masonry
- Structural
- Specialty

Geotechnical Engineering Services;

- Preliminary / Pre Development
- Foundation / Specialty Analysis
- Roadway / Transportation Studies
- Groundwater / Effluent Disposal
- Laboratory Services
- Field & Drilling Services
- Expert Witness
- Hydrogeological Assessments

Mohammed Muzammil, PE

MAT Engineer

Mohammed Muzammil has over ten years of experience in geotechnical engineering specializing in foundations, transportation, structural, utilities, earthwork, concrete, and water/stormwater management. His responsibilities have included coordinating and directing geotechnical explorations for roadways, bridges, signs and signal structures, water resources, pipelines, buildings, bridges, residential, industrial and commercial facilities. Mohammed has experience in shallow and deep foundation analysis, including spread footing and pile foundations. He has conducted geotechnical studies for roadway, bridges, stormwater facilities and land development. Mohammed has expertise in pile dynamics, settlement analysis, stormwater, and transportation engineering. He has also performed utility coordination, maintenance of traffic, cost estimation, concrete testing and monitoring, construction management, foundation and earthwork inspection.

Education

BS, Civil Engineering, University of Central Florida

Licenses & Certifications

- Florida Professional Engineer (86422)

PROJECT EXPERIENCE

Howard Frankland Bridge, Design-Build,

Tampa, Florida

The project consisted of design of the Howard Frankland Bridge in Tampa, Florida. Mohammed Muzammil was the Senior Geotechnical Engineer responsible for coordinating and managing drilling crews (land and marine efforts). Mohammed also assisted in laboratory testing analyzing foundation capacities and providing a Bridge Data Report.

SR 528 - Toll Plaza

Orlando, Florida

The project included design and construction of the SR 528 toll plaza facility. Mohammed served as the geotechnical project manager in charge of planning and executing the development of the boring location plan, FTE coordination and approval, drilling operations, laboratory testing and geotechnical engineering design of alignment sections, stormwater ponds (dry and wet) and pile foundations.

All Aboard Florida From SR 528 to Daytona

Orlando, Florida

The project included design of a section of a railway system along SR 528 to Daytona. Mohammed served as the geotechnical project manager in charge of planning and executing the development of the boring location plan, FTE coordination and approval, drilling operations, laboratory testing and geotechnical engineering design of rail alignment embankments, stormwater ponds (dry and wet) and pile foundations.

Virgin Trains at SR 528 and Narcoossee Road

Orlando, Florida

Mohammed developed and managed water use permits for dewatering operations at the SR 528 and Narcoossee Road intersection for existing and proposed water bodies. Mohammed prepared dewatering plans, means and methods outline and site preparation plans to guide execution.

Dr. Phillips Center for the Performing Arts (DPAC) Music Hall Stage II

Orlando, Florida

As the project manager, Mohammed performed technical tasks associated to foundation analysis for the Dr. Phillips Center for the Performing Arts Music Hall (Stage 2). Mohammed assisted in design evaluation of seasonal high groundwater levels, geotechnical engineering recommendations for site preparation procedures and final foundation design.

Ikenna Uju, P.Eng, PMP

Project Management Professional

Multidisciplinary background in Civil Engineering, Project Management, Project Controls, Project Planning & Scheduling, Progress reporting, Change management, Project Estimation, Cost Management and Schedule Management. PMI Certified Project Management Professional (PMP) with over 15 years' experience gained from novel projects across diverse areas (Roads, Bridges, Buildings, Stormwater Management).

Education

MS, Civil Engineering, University of Central Florida

B.Eng. (Hons) Civil Engineering (1st Class), Federal University of Technology Owerri

Licenses & Certifications

- Project Management Professional (PMP), Project Management Institute, PMI (2020)
- Registered APEGA Canada Professional Engineer (P.Eng) – (2015)
- Engineer-In-Training (EIT) – USA

Skills

- MS Project, Primavera P6, MS Word, PowerPoint, Power BI, MS Excel, Power Pivot, Bluebeam
- Design/drafting software MICROSTATION and AUTOCAD
- Hands on experience in the use of E-builder, SAP, Accela (Envista), ArcGIS, GEA, SLIM programs.
- Experienced in the use of various civil design and analysis softwares such as SPT 97, FB-Deep, Settlg, Embank, STABL 6, L-Pile, Modulus 6.0, Geostudio, ETABS, Oasys. GEOPAK, OpenRoads.

PROJECT EXPERIENCE

City of Edmonton

Engineering Project Manager

Ikenna was responsible for managing the construction and delivery of roadways, walkways, bridge rehabilitation and other transportation facilitates performed in-house and by external consultants. He reviewed Consultants, Contractors and Vendor schedules, to ensure plans are realistic and achievable and possible schedule risks or issues on the program are mitigated. Ikenna developed and maintained relationship with key stakeholders such as clients, consultants and contractors in other organizations to confirm that engineering practices applied are in accordance with current engineering standards, regulatory requirements, and current technological innovations

The following neighborhood renewal/ reconstruction projects undertaken are:

- Ottewell Neighborhood, Edmonton AB
- Garneau Neighborhood, Edmonton AB
- Central McDougall Neighborhood, Edmonton AB
- Spruce Avenue Neighborhood, Edmonton AB
- Queen Alexandra Neighborhood, Edmonton AB

City of Edmonton

Project Engineer

Ikenna was responsible for managing the construction and delivery of roadways, walkways, bridge rehabilitation and other transportation facilitates performed in-house and by external consultants. He coordinated roadway design projects with other utilities, City departments and external agencies. Ikenna also coordinated geotechnical assessments and lead geotechnical investigations.

The following neighborhood renewal/ reconstruction projects undertaken are:

- 12 LRT Busway Renewal in Edmonton AB
- Bonnie Doon Neighbourhood, Edmonton AB
- Glenora Neighbourhood, Edmonton AB
- Rosslyn Neighbourhood, Edmonton AB
- Millbourne Area, Edmonton AB
- Davies Industrial, Edmonton AB

City of Edmonton

Civil Engineer/ Engineering Tech II

Ikenna developed works (baseline) schedule, recovery schedule and progress schedules in-line with project requirements using scheduling tools such as: Primavera P6, MS Project, Excel, and Power BI. He provided quality control review of engineering drawings for roadways, walkways and transportation facilities, submitted by external design consultants and City Departments. Ikenna ensured consistent construction, design and geotechnical review comments on concept, preliminary and approved engineering drawings review in a timely manner, with a high level of accuracy and within applicable TAC and City's standards and guidelines.

Joshua M. Eraso

Construction Materials Testing Technician

Mr. Eraso has over 7 years of experience in the field of construction materials testing to support the needs of ACI and CTQP certification standards. Mr. Eraso can navigate and lead project tasks while managing documents to ensure satisfactory practices and conformity to construction plans.

Licenses & Certifications

- CTQP Asphalt Paving – Level I
- ACI & CTQP Concrete Field Technician – Level I
- CTQP Earthwork Construction Inspection Level I & II
- RSO Nuclear Gauge Certified

PROJECT EXPERIENCE

I-4 Beyond the Ultimate – Segment 3 and 4

Orlando, FDOT

Mr. Eraso performed, managed and supervised field densities conducted on pipe runs, mechanically stabilized earth wall backfill and roadway inspection. Additionally, Mr. Eraso conducted field tests on concrete batches for structural elements such as gravity walls and bridge decks.

Orlando International Airport – South Terminal Expansion Greater

Orlando Aviation Authority (GOAA)

Mr. Eraso assisted with concrete pour inspections and oversight for structural elements to support the South Terminal Expansion.

Lake Ashton South Development

Polk County, Florida

Mr. Eraso performed, managed, and supervised field densities conducted on pipe runs, supporting stormwater elements and roadway inspection. Additional field efforts included obtaining soil samples in the field for laboratory proctor testing.

Posner Valley Development

Polk County, Florida

Mr. Eraso performed test pit inspections across a 20 + acre site. As the site representative, Mr. Eraso communicated with the engineer and led the contractor during excavations to assess limits and depths of inorganic/debris materials of concern. Mr. Eraso prepared test pit field logs to guide the exploration assessment.

LFS

Mustafa Syed

MAT Project Manager

Mr. Syed has over 15 years of experience in the geotechnical and civil engineering fields. Mr. Syed's geotechnical and civil experience has managed: construction material testing laboratories, heavy civil and geotechnical construction projects for roadways, bridges, commercial development, and residential development. Mustafa possesses extensive knowledge and experience with project and construction management, costs estimation, budgeting, industry standards and specifications, planning and scheduling, and management of laboratories and has a wide network and positive relationships with regulatory agencies, clients, colleagues, staff, and internal stakeholders. Mustafa's expertise has positioned him to lead projects involving soil exploration, geotechnical laboratory testing, highway materials testing, standard foundation studies, non-redundant drilled shaft bridge foundation studies, specialty geotechnical laboratory testing, as well as roadway construction engineering inspections.

Education

BS, Civil Engineering, Osmania University

Licenses & Certifications

- ACI & CTQP Concrete Field Technician – Level I
- ACI Concrete Strength Testing
- ACI Aggregate Base Testing Technician
- CTQP Earthwork Construction Inspection Level I & II
- CTQP Asphalt Paving Technician – Level I & II
- CTQP Asphalt Plant Technician – Level I
- CTQP Drilled Shaft Inspection

- RSO Radiation Safety Officer | Nuclear Gauge Certified
- FDOT Maintenance of Traffic (MOT) – Advanced
- OSHA – Construction Safety and Health

PROJECT EXPERIENCE

I-4 Beyond the Ultimate – Segment 4,
Orlando, FDOT

Mr. Syed managed and supervised designated project construction roadway activities for stabilized subgrade, base course, pavements, barrier walls and mechanically stabilized earth (MSE) walls. Mr. Syed developed plans for resource allocation, cost flow, updated progress schedules, prepared RFI's, scheduled field inspections, conducted health and safety protocols.

SR 417 Widening from Landstar Boulevard to International Drive
Orlando, Central Florida Expressway Authority (CFX)

Mr. Syed managed the geotechnical investigation program to support the widening of the SR 417 section outlined above. As the project manager, Mr. Syed provided over-sight for drilling activities associated to roadway borings, pavement core sampling, laboratory testing and design recommendations for roadway and pavement areas.

SR A1A Widening and Erosion Control
Flagler County, Florida, FDOT

Mr. Syed managed the geotechnical investigation program associated to the widening of SR A1A. As the project manager, Mr. Syed developed a project specific boring plan, provided over-sight for drilling activities, laboratory testing and design recommendations for roadway widening and erosion control measures.

SR 414 Widening From I-4 to Maitland Avenue
Orlando, Florida, FDOT

Mr. Syed managed the geotechnical investigation program associated to the widening of SR 414. As the project manager, Mr. Syed developed a project specific boring plan, provided over-sight for drilling activities, laboratory testing and design recommendations for roadway widening and erosion control measures.

Greater Orlando Aviation Authority (GOAA), South Terminal, Orlando International Airport (OIA)
Orlando, Florida

Mr. Syed developed and managed construction materials testing and inspection programs to support the following segments: Phase 2 GMP 2S, GMP 6S and GMP 11S for south terminal taxiways, building pads and utility trenches.

AMBIENT TECHNOLOGIES, INC.

Ambient Technologies
An Earth of Experience
Subsidiaries & Affiliates
Minority Certified

Ambient Technologies, Inc. (ATI) certified as MBE-DBE-SBE-SDB, with its subsidiaries and affiliates ATI Companies LLC, GeoView, Inc., ATI Geologica, LLC, and ATI Energia, LLC have earned a reputation for the past 30 years providing responsible, competent, conscientious, dependable, and timely geo-services for Environmental, Geotechnical, Exploration, Consulting, Engineering and Construction Projects. ATI's projects vary from small local residential problems to major construction, petroleum clean-up, remediation projects, water, and wastewater utility projects, including major environmental, geotechnical, and geophysical exploration and assessment projects.

Ambient Technologies, Inc., & Subsidiaries is a multidisciplinary and diversified group providing subsurface investigation services with quality and excellence. The main focus field services are:

Environmental Drilling services: Direct Push Technology, Hollow Stem Auger, Continuous Soil and Groundwater Sampling, Monitoring Wells Installation and abandonment, Horizontal Wells, and Remediation Injection and Recovery Wells, PFAS Drilling and Sampling.

Geotechnical Drilling Services: Standard Penetration Test (SPT), Solid and Hollow Stem Auger, NQ/HQ Rock Coring, Concrete/Asphalt Coring, Undisturbed Samples (Shelby) Geotechnical Instrumentation Installation (piezometers, inclinometers, etc.).

Cone Penetration Testing (CPT): ATI Geologica specializes in In-Situ Testing for geotechnical and environmental investigations using advanced geo-environmental methods of exploration including Cone Penetration Testing (CPT).

Geophysical Services: Geotechnical/Geological Site Characterization Studies using a wide range of geophysical technologies. Specialists in Karst/Sinkhole/Geological characterization studies. Environmental site characterization studies designed identify buried metallic and non-metallic debris, USTs, drums, abandoned wells, contaminated soils, etc. Underground utility designation and designation and mapping for clearance of bore holes and mapping underground utilities throughout project sites. NDT testing of concrete structures and foundations for both design and deficiencies using a variety of methods. Concrete reinforcing and corrosion studies. Marine surveys to determine presence of submerged objects, bathymetry and underlying geological conditions. Drone services to provide complimentary ortho-photographic, infrared and lidar mapping services.

Ambient Technologies and Subsidiaries have successfully performed both large and small-scale projects for the governmental sector at the Federal, State, County and City levels and private sectors for environmental, hydrogeological, geotechnical, geological and infrastructure applications.

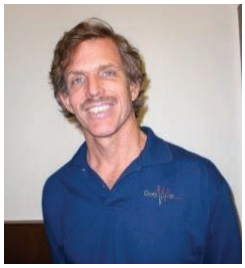
Ambient Technologies and Subsidiaries are certified as an MBE with the State of Florida, the FDOT as a DBE and SBE and as an SBD with the U.S. Small Business Administration. In addition, ATI has MBE and SBE Certifications at the City and County level with the City of St. Petersburg, Pinellas County, City of Tampa, Hillsborough County, City of Orlando, Orange County, Port of Tampa, and the South Florida Water Management District.

Numerous Awards have been given to the ATI companies throughout the years. The Award of Excellence as Small Business of the Year by the Small Business Administration (2004 & 2005), the FAST 50 Award two consecutive years (2007 & 2008), the Diversity and Inclusion Award, 3 years (2007, 2008 & 2009). In 2015 & 2016, Nominated as Grow Florida Companies to Watch. In November of 2008, ATI was awarded the U.S. Commercial Service Export Achievement Certificate, for its success with its Panamanian Affiliate, ATI Panamericana, S.A. The most important recognition occurred in 2012 when ATI became the recipient of the US Presidential E-Award for Exporting Excellence.

Ambient Technologies — An Earth of Experience — Subsidiaries & Affiliates — Minority Certified
ATI COMPANIES — An Earth of Experience
ATI GEOLOGICA — IN-SITU TESTING SPECIALISTS — An Earth of Experience
GeoView — A Geophysical Services Company

Michael J. Wightman, P.G.

ROLE: President, Principal Geophysicist, GeoView, Inc. - Subsidiary of Ambient Technologies, Inc.



EDUCATION:

- M.S., Hydrogeology/Geophysics, University of South Florida, 1989
- B.A., Geology, University of California, Santa Barbara, 1986
- B.A., Business, Economics/Environmental Studies, University of California, Santa Barbara, 1980

REGISTRATIONS/CERTIFICATIONS:

- Licensed Professional Geologist, Florida and California (FL #1423, CA #6500)
- Certified Ground-Penetrating Radar Operator
- AGI Electrical Resistivity Imaging Certification
- Certified Pile Integrity Tester
- Geophysical Well Logging and Imaging.

Mr. Wightman's responsibilities at GeoView Inc. include the management and technical oversight of all geophysical investigations conducted by the firm. He has either managed or conducted geophysical investigations throughout the entire United States, Caribbean Basin and Central America. His duties include quality control oversight, project management and budgeting, employee supervision and training, design and implementation of geophysical investigations, data evaluation, numerical and analytical modeling of geophysical data. Mr. Wightman has either conducted or managed over 10,000 geophysical investigations concerned with environmental, geotechnical, geological, hydrogeological, infrastructure and construction-related projects. Mr. Wightman is an expert in the application of geophysical methods in terms of understanding karst-related conditions. Mr. Wightman has provided expert testimony, authored publications and delivered numerous presentations concerning geophysical testing for a wide variety of applications. Mr. Wightman has either conducted or managed over 10,000 geophysical investigations concerned with environmental, geotechnical, geological, hydrogeological, infrastructure and construction-related projects.

RELEVANT PROJECT EXPERIENCE:

Hillsborough County Southeast Landfill Expansion-Geological Site Characterization, 2020, $55,000. Project Manager-Geosyntec, Tampa, FL. Evaluated the effectiveness of several geological methods to identify deeply buried (75-200 feet below land surface) paleo-karst (sinkhole) features. A 40-acre test area was selected to evaluate the effectiveness of electrical resistivity imaging (ERI), micro-gravity and seismic refraction tomography. A total of 5,500 linear feet of data was collected using all methods. Results from the three geophysical test methods were integrated and compared to the results of standard penetration test (SPT) boring that were performed within identified suspected buried karst features.

McKay Bay Environmental Site Investigation, 2022, $9,000. Project Manager-Intertek, Tampa. Combined ground penetrating radar and time-domain electromagnetics study to delineate buried metallic and non-metallic debris across project site and clear locations for 90 planned borings (2022).

FDOT District 7 Emergency Response Services, Florida, 2013-present, $95,000. Project Manager – Intertek-PSI – Tampa, FL – Ongoing since 2013 On-going services contract to provide geophysical testing to help determine cause for formation of depressions or collapse on FDOT-regulated roadways in FDOT Districts 1 and 7. Ground penetrating radar and electrical resistivity imaging are typically performed. Required response time 4 hours or less.

Marcelo Passos Ferreira dos Reis, MSc.

ROLE: VP of ATI Companies LLC and Drilling Operations Manager - Subsidiary of Ambient Technologies, Inc.

EDUCATION:

- M.S., Marine Science/Marine Biology, Universidade Santa Úrsula Rio de Janeiro, Brazil, 2002
- B.Sc., Marine & Science Marine Biology, Universidade Santa Úrsula - Rio de Janeiro, Brazil, 1999

REGISTRATIONS/CERTIFICATIONS:

- Certified Ground-Penetrating Radar Operator
- ISO 14001 Lead Auditor Certification, Environmental Management; Bureau and International Register of Certified Auditors

Mr. Reis' Master of Science studies with a focus in Environmental Marine Sciences have allowed him to interface/integrate multiple factors within environmental processes. He gained vast experience in this area during several years as, first, a Team Member and then Project Director, on marine expeditions for environmental and biological studies. With his educational background and applied experiences, his skills took him to the position of professor with two private universities in Brazil. His accomplished work at the universities was recognized when he was elected "Best Professor of the Year" for two consecutive years. As Lead Environmental Auditor with Bureau Veritas Quality International, he worked with organizations and businesses to establish and maintain effective environmental management systems (EMS) in accordance with ISO 14004 standards. As the Technical/Operational Manager at ATII Brazil, in Rio de Janeiro, Mr. Reis develop the firm's geophysical services market in Brazil. Marcelo has led and managed Geotechnical and Environmental Drilling projects for the Panama Canal Project, where ATI Panamericana provided over 90% of the Geotechnical and Environmental Drilling for the Panama Canal Expansion Project. He is currently in charge of all Geotechnical and Environmental Drilling Projects throughout the State of Florida.

RELEVANT PROJECT EXPERIENCE:

Coral Springs Fire Academy FL, Coral Springs, FL - Project Manager – INTERTEK-PSI – Coral Springs & Plantation, FL – 2019 – **Cost: $6,900**
Site 1 and Site 2: Installation of two (4) Temporary Monitoring wells up to 15 ft. Well is 1" with 10 ft of prepack screen. Installed and removed on same day. Open borings (concrete) for client. Built a decon pit for decontamination processing. Special handling procedures for the sampling of PFAS.

Geotechnical drilling and instrumentation installation, Panamá Canal Pacific side
Project Manager – Grupo Unidos por el Canal/ACP Panama Canal – 2014 – **Cost: $200,000**
Geotechnical/Geological investigation drilling over 4,000 feet, with disturbed and undisturbed samples and HQ coring. With instrumentation installation. Canal Expansion on the Pacific and Atlantic side.

Orange County Superfund Site, City of Orlando, FL
Project Manager – Geosyntec – Tallahassee, FL – 2021-2022 - **Cost: $35,000** ATI Companies completed Direct Push Technology (DPT) Drilling, Soil & Water Sampling and Monitoring Wells installations, at the Spellman Superfund Site in the City of Orlando, Florida. The purpose of the investigation was to identify and delineate the nature and extent of industrial solvents in the soil and groundwater at the site. The Scope of Work included 40 Soil Borings (direct push continuous macrocores sampling) and GW sample points up to 60-ft below land surface. This initial phase also included the installation of 6 monitoring wells (vertical and angled) were installed at the same depth (up to 60ft) for continuous monitoring of the following phases of the project.

TAB 6

INTERACTIONS WITH COUNTY AND REGULATORY AGENCY STAFF

INTERACTIONS WITH COUNTY AND REGULATORY AGENCY STAFF

Over our 58-year history, UES has worked on hundreds of continuing contracts with public entities in Florida. We have become very familiar with the unique needs of counties and cities.

UES has many continuing service contracts with government agencies, such as Polk County School Board, the City of Kissimmee, the City of Eustis, the City of Mount Dora, Orange County Highway Construction, Osceola County, and Osceola County Public Schools.

UES also currently provides services for FDOT on multiple District-Wide contracts in Districts 1 and 5. UES has experience working for various federal agencies, and we regularly work closely with other regulatory agencies such as SWFWMD, SFWMD, USACOE, FDEP, FDOT, and others.

Geotechnical and materials engineering services typically include something other than permitting directly with regulatory agencies. However, the reports we provide and our recommendations are frequently incorporated into permit applications, so the quality of our work and relationship with regulators will directly impact permitting on behalf of Polk County. UES has established excellent working relationships with local and state regulatory agencies throughout our history. These agencies respect our engineers, and their reviewers consider our work thorough and accurate.

UES and our key staff members provide consulting services to numerous public-sector clients throughout Florida and nationally. Some of these include the U.S. Environmental Protection Agency (USEPA), Water Management Districts, Florida Department of Environmental Protection (FDEP), U.S. Army Corps of Engineers (USACOE), cities within Polk County (Lakeland, Bartow, Winter Haven, among others), city and county governments for areas immediately adjacent to Polk County, Florida Department of Transportation (multiple Districts), and others. Because of our close working relationship with these governmental, regulatory, and public agency clients, UES has a demonstrated ability to work efficiently and successfully with all Polk County Divisions under this Master Consulting Agreement.

Our close relationships with these and other agencies will benefit Polk County as UES advocates for County permits from regulatory agencies.

Exemplifying this below is a sampling of the many hundreds of projects that UES has successfully executed in the past 10 years involving direct interactions with the various state and federal regulatory bodies and their agents:

- FDOT-T1402-SR 35/700 (US 98)-Polk County-Conalvias
- SFWMD Dewatering Permit Application, Innovation Place, Ponds M-1 and K-3, Orange Co., FL
- SFWMD Dewatering Permit Application, Sereno Village IV, Polk County, FL
- SFWMD Submittal & Dewatering Plan, Sereno V, Osceola Co., FL
- SFWMD Dewatering, Jones Road Subdivision, Osceola County, FL
- SFWMD Dewatering Permit Application, Lakes at Laurel Highlands Mass Grading, Lakeland, FL
- SFWMD Dewatering Permit (4 Ponds), Pine Grove Development - St. Cloud, Osceola Co., FL
- SFWMD Dewatering Permit Application, Center Lake Ranch Phase N-1A East, Osceola Co., FL
- SFWMD Dewatering Permit Application, Center Lake Ranch Phase N-1A West, Osceola Co., FL
- SJRWMD Consumptive Use Permit, Plaza Collina, Lake County, FL
- SJRWMD Dewatering Permit Application, Windward Preserve (Beachline) Brevard Co, FL
- FWC Gopher Tortoise Permitting & Relocation, A.G. Holley Hospital Property, Lantana, FL
- FWC Gopher Tortoise Permitting & Relocation, 7-Eleven #1044461, 3818 Duff Rd, Lakeland, FL
- FWC Gopher Tortoise Permitting & Relocation, Shadow Wood Village Phase 2, Pasco County FL
- FDEP Environmental Resource Permit & State-404 Assistance Pedaler's Pond MHP (Site ID: 424646; DEP Application No. 0424646-001-NPR), Lake Wales, Polk Co., FL
- FDOT, State Materials Office (SMO), Materials Testing Services, C9099 (State-wide contract)
- FDOT District 1, Pavement Evaluation & Coring, Contract C9176, 419972-1-32-02
- Reclaimed Concrete Aggregate Base Material FDOT Approval Support (State-wide contract)

TAB 7

TIMELY COMPLETIONS OF PROJECTS

TIMELY COMPLETIONS OF PROJECTS

COMMITMENT TO PERFORM IN A TIMELY FASHION AND WITHIN THE BUDGET

The key personnel presented in this proposal along with our assigned project manager and engineering team are committed to being available to serve the County whenever called upon. UES and its team of professionals have developed a keen sense of understanding of what is expected of our role as a "prime" contracted firm while performing our tasks well below budget. We maintain a fiscally responsible approach to every contract and project as we understand the County's responsibility before their residents. Our purpose has been our differentiator:

UES will always use its resources and experience as a team to bring the brightest and most financially prudent solutions to every task for this and every contract.

UES commits to treat this Polk County project with the highest priority. Our team will function as an extension of the County, and we will complete every assignment with outstanding performance while maintaining our budget and high-quality standards to earn your trust.

DAILY ABILITY TO PROVIDE THE REQUIRED SCOPE OF SERVICES:

CURRENT AND PROJECTED WORKLOADS

Our current and projected workload and manpower, equipment and resources allow us to increase our current capacity by twenty percent (20%). This allows us to immediately staff this contract on a full-time basis if needed and have staff available for "will call" or intermittent type assignments.

UES further asserts that personnel assigned to this project will come from existing resources and that only experienced and well qualified personnel will be assigned to perform our services. The dedication of the personnel necessary to staff and complete the various tasks on this contract will not overload our current technical and management staff capacity.

IMPLEMENTATION TIMELINE

Due to the nature of our geotechnical materials testing and inspection, many of our project assignments are short term in nature, typically ranging from one day to few weeks. As such, we have the ability to rotate field technicians and inspectors to make sure that all of our assignments are being completed on a weekly basis. We pride ourselves in being able to complete assignments on time with the appropriate resources.

Starting from reviewing the project plans and specifications in order to establish a testing program and a budget based on our understanding of the County's needs, goals, and contractual requirements. We will create a scope and fee proposal to be reviewed and approved by the appropriate Polk County Project Manager. Our project team will attend pre-construction meetings to understand the scope of service with on-site representatives before the beginning of the project and to establish a work schedule which could require either full-time testing and inspection, part-time testing and inspection, or a combination of both. On projects that would require part-time staffing, schedules would be coordinated through the dispatch team in a daily basis within 24 hour, except for emergency situations.

Once staffing needs are established, we will provide services as requested, and draft reports with results of our testing and observation will be provided to the field project team before leaving the project site. Signed and sealed report will follow within 1-3 days and distributed to the project distribution list previously provided by Polk County Project Manager. Lastly, we will invoice for services provided and reported in a monthly basis at the end of each billing cycle.

We will strive to maintain technician continuity on each project by assigning the same personnel to the project for its duration. Our technicians are cross-trained and equipped to perform all the necessary testing required for municipal projects.

Additionally, UES has a state-of-the-art laboratory staffed with 13 qualified and ACI/CTQP certified technicians, all available on a full-time basis 24 hours a day, 7 days a week to handle all the materials testing needs generated by this contract. We also have a team of 56 ACI certified field technicians and inspectors able to cover the most demanding tasks of this contract.

Revised 3.7.23

Survey Questionnaire – Polk County

RFP 23-328, Professional Geotechnical Services and Construction Material Testing and Inspection

To: Mr. Richard Cotter (Name of Person completing survey)

J. Kokolakis Contracting (Name of Client Company/Contractor)

Phone Number: 904-377-4644 Email: cotterrichardm@gmail.com

Subject: Past Performance Survey of Similar work:

Project name: Orange County Mcleod Transfer Station Replacement

Name of Vendor being surveyed: Universal Engineering Sciences, LLC.

Cost of Services: Original Cost: $112,391.96 Ending Cost: $94,304.46

Contract Start Date: 10/2019 Contract End Date: 1/2021

Rate each of the criteria on a scale of 1 to 10, with 10 representing that you were very satisfied (and would hire the Consultant /individual again) and 1 representing that you were very unsatisfied (and would never hire the Consultant /individual again). Please rate each of the criteria to the best of your knowledge. If you do not have sufficient knowledge of past performance in a particular area, leave it blank.

NO	CRITERIA	UNIT	SCORE
1	Ability to manage cost	(1-10)	10
2	Ability to maintain project schedule (complete on-time/early)	(1-10)	9
3	Quality of workmanship	(1-10)	9
4	Professionalism and ability to manage	(1-10)	9
5	Close out process	(1-10)	8
6	Ability to communicate with Client's staff	(1-10)	10
7	Ability to resolve issues promptly	(1-10)	10
8	Ability to follow protocol	(1-10)	9
9	Ability to maintain proper documentation	(1-10)	10
10	Appropriate application of technology	(1-10)	9
11	Overall Client satisfaction and comfort level in hiring	(1-10)	9
12	Ability to offer solid recommendations	(1-10)	10
13	Ability to facilitate consensus and commitment to the plan of action among staff	(1-10)	9

15	Florida Bearing Value (FBCV)	$45.00	Sample
16	Florida Bearing Value Determination of Blend Proportions	$400.00	Set of 3
	Grain Size:		
	A) Hydro Analysis	$140.00	Sample
17	B) Sieve Analysis (Wash 200 Sieve)	$55.00	Sample
18	Ground Penetrating Radar	$2,750.00	Day
	GEOTECHNICAL INVESTIGATIONS & SOIL TESTS		
19	Limerock Bearing Ratio (LBR) (4 point)	$350.00	Sample
20	Limerock Bearing Ratio (LBR) (5 point)	$425.00	Sample
21	Moisture Content	$15.00	Sample
	Moisture Density Test Standard Proctor	$115.00	Each
22	Modified Proctor	$115.00	Each
	Muck Probing		
	2 Man Crew	$1,250.00	Day
23	3 Man Crew	$1,650.00	Day
24	Organic Content Determination	$50.00	Sample
25	**Monitor Well Installation includes permits, lithologic log,**		
	and report -2" or 4" PVC with removable, water-tight plug		
	Hollow Stem Auger Boring	$14.00	L.F.
	Casing: 2-inch PVC (site spec. may require stickup)	$32.00	L.F.
	Casing: 4-inch PVC (site spec. may require stickup)	$44.00	Each
	Casing: 2-inch Steel (site spec. may require stickup)	$36.00	L.F.
	Casing: 4-inch Steel (site spec. may require stickup)	$78.00	Each
	0.010-inch Filter Screen: 2-inch PVC + min. 6-inch tail	$32.00	L.F.
	0.005-inch Filter Screen: 2-inch PVC + min. 6-inch tail	$34.00	L.F.
	0.010-inch Filter Screen: 4-inch PVC + min. 6-inch tail	$44.00	Each
	0.005-inch Filter Screen: 4-inch PVC + min. 6-inch tail	$50.00	Each
	Filter Sand: Varied from approx. 30/65 to approx. 20/30	$13.00	
	Bentonite: Chips / Balls	$21.00	Bag
	Bentonite: Slurry / Slurry by tremie pipe	$23.00	Bag
	Neat Grout	$75.00	
	Protective Casing (Hinged top and lockable) w/ name plate	$225.00	Each
	Concrete Pad (2'x2'x4" above-ground or 12-inch		
	flush-mount round)	$225.00	Each
	Concrete -filled, Painted, Protective Bollard min. 4.5-inch O.D.		
	max 6-inch O.D. (4-foot tall / 2-foot buried)	$175.00	Each
26	Well Abandonment includes permits and report		
	2-inch Well	$25.00	Per Scope
	4-inch Well	QPJ	Each
	Tracked-Mounted Direct Push Technology (DPT)		
27	Rig w/all equiment and creww	QPJ	Day
	GEOTECHNICAL INVESTIGATIONS & SOIL TESTS		
28	Ph	$45.00	Each
	Permeability Tests - Field (15', 2 depths)		
29	(Excluding auger borings & vertical	$500.00	Each
	Permeability Tests - Laboratory		

	Granular Soil	$300.00	Sample
30	Cohesive Soil	$400.00	Sample
31	Soil-Cement. Field Testing & Observation	$70.00	Hour
32	Soil-Cement, Laboratory Design Mixes (FOB Laboratory)	$1,100.00	Mix
33	Soil Plate Load Test (ASTM)	QPJ	Per Scope
34	Specific Gravity	$95.00	Sample
35	Double Ring Infiltrometer Test	$500.00	Each
36	Relative Density Test	$150.00	Each
	Triaxial Compression Test (CU) (3 points)	$600.00	Each
37	Additional Points	$350.00	Each
38	Unconfined Compression Tests	$175.00	Each
39	Undisturbed Thin-Walled Tube Sampling	$155.00	Each
40	Unit Weight	$90.00	Each
	ASPHALTIC CONCRETE INSPECTION SERVICES		
1	Asphaltic Concrete Paving Plant Inspection	$725.00	Day
2	Asphalt Mix-Extraction and Gradation	$175.00	Sample
3	Asphalt Mix-Bulk Specific Gravity	$115.00	Sample
4	Asphalt Mix-Gradation	$100.00	Sample
5	Asphalt Mix-Maximum Specific Gravity	$160.00	Sample
6	Asphalt Mix-Temperature	$25.00	Each
7	RAP-Asphalt Binder Content	$125.00	Sample
8	RAP-Gradation	$100.00	Sample
9	RAP-Maximum Specific Gravity	$150.00	Sample
10	Coring Pavement for… Density and/or Thickness	$90.00	Each
11	Asphalt Core Density (Core provided by others)	$55.00	Sample
12	Gyratory Compaction for SuperPave AASH to TP4-00	QPJ	Set of 2
13	Quantitative Determination of Asphalt Content from Asphalt Paving Mixtures by the ignition Method FM5-563	$200.00	Each
	CONCRETE TESTING		
	Concrete Aggregate Tests (FOB Lab)		
	Sieve Analysis… Fine	$85.00	
1	Coarse	$145.00	Sample
2	Absorption	$80.00	Sample
3	Specific Gravity	$100.00	Sample
4	Unit Weight	$70.00	Sample
5	Material Finer than No. 200 Sieve	$55.00	Sample
6	Organic (Color Metric ASTM C-40)	$55.00	Sample
7	Salt Content	$105.00	Sample
8	Los Angeles Abrasion	$450.00	Sample
	Soundness (5 cycle sodium sulfate)	$425.00	Sample
9	(5 cycle magnesium sulfate)	$375.00	Sample
10	Masonry Mortar strength Comparative, Sand or Water	QPJ	Sample
	Concerete Beams		
11	Flexural Strength, Making & Testing (3 tests per set)	$250.00	Set
	Concerete masonry Units or Prisms		
12	Compressive Strength, ASTM C-140, 5 Specimens	$200.00	Set
13	Absorption & Moisture Content, ASTM C-150, 5 Specimens	$200.00	Set
14	Comp. Strength Testing of Hollow Masonry Prisms ASTM E-477	$125.00	Prism
15	Comp. Strength Testing of Hollow Masonry Prisms with Grouted Cells ASTM E-477	$150.00	Prism
16	Molding, Curing & Testing of 2"X2" Masonry Mortar Cubes (3)	$120.00	Hour
17	Concrete Masonry Units. ASTM Test (5 com. + 5 Abs tets)	$350.00	Set
	Concrete Coring		
18	Securing Structural or Pavement Cores, Compression Tests & Thickness	QPJ	Hr/2 man
19	Coring Site Accessible-Does Not include mobilization charge, staging and/or scaffolding, 4" diameter or smaller 6" thickness or less Compresive Strength of Concrete Cores (Provided by others)	QPJ	Hr/2 man
	Grout Cubes		
20	Making and Compression Tests of 2" Cubes from Job Site (3)	$125.00	Hour
	Concrete Cylinders		
21	Making & Comp. Test of 6"X12" Cylinders (Slump Test Incl.)	$155.00	Set

22	Compression Tests of 6"X12" Cylinders	$35.00	Each
23	Extra Slump Tests	$18.00	Each
24	Air Content Tests	$25.00	Each
Concrete Design Mixes			
25	Concrete Design Mixes (including standard aggregate tests & one trial batch with 6 compression test cylinders)	QPJ	Each
26	Brush/Loss (for Soil-Cement basis) ASTM Durarock & Pug Mix	QPJ	Each
27	Linear Shrinkage Tests or Concrete Block (ASTM 426)	QPJ	Each

5. Travel Expenses — In accordance with Chapter 112.061, F.S.; and further defined in the Polk County Employee Handbook.
6. Postage, Fed Express, UPS — Actual Costs
7. Pre-approved Equipment (includes purchase and rental of equipment used in project) — Actual Costs

MASTER CONSULTING AGREEMENT

THIS AGREEMENT is entered into as of the Effective Date (defined in Section 1.1 below) by and between Polk County (the "County"), a political subdivision of the State of Florida, situated at 330 W. Church Street, Bartow, Florida 33830, and WSP USA Environment & Infrastructure, Inc. (the "Consultant") a Florida corporation, located at 5015 South Florida Avenue, Lakeland, Florida 33813, and whose Federal Employer Identification Number is: 91-1641772.

WHEREAS, County owns and operates a variety of public facilities and improvements; and,

WHEREAS, County requires certain professional services in connection with the performance of certain professional geotechnical services and construction material testing and inspection for all Divisions in the County; and

WHEREAS, the County has solicited for these services via RFP 23-328, an advertised request for proposals (the "RFP"), and has received numerous responsive proposals thereto; and

WHEREAS, pursuant to the RFP, the County has selected the Consultant and the Consultant remains agreeable to providing the County the professional services described herein, and the Consultant represents that it is capable and prepared to do so according to the terms and conditions stated herein.

NOW, THEREFORE, in consideration of the mutual understandings and covenants set forth herein, the parties hereby agree, as follows:

1.0 **Term**

1.1 This Agreement shall take effect on the date of its execution by the County (the "Effective Date").

1.2 The term of this Agreement shall be for a five (5) year time period, commencing upon the Effective Date and remaining in full force and effect thereafter, unless otherwise sooner terminated as provided herein.

2.0 **Services to Be Performed by Consultant**

2.1 Consultant shall perform the services as generally described in (i) the County's Request for Proposals RFP 23-328, to include all attachments and addenda, and (ii) the Consultant's responsive proposal thereto (collectively, (i) and (ii) are "RFP 23-328") all of which are incorporated into this Agreement by this reference, attached hereto as a composite Exhibit "A" and made a part of

this Agreement, and as may be further specifically designated and authorized by the County, in writing (collectively, the "Services"). Such authorization will be referred to as a Consultant Services Authorization ("CSA") or a Contract Purchase Order ("CPO") and all provisions of this Agreement apply to the CSA/CPO with full force and effect as if appearing in full within each CSA/CPO. Each CSA/CPO will set forth a specific Scope of Services, maximum limit of compensation, schedule, liquidated damages, and completion date, and shall become effective upon the due execution.

2.2 The Consultant is not authorized to undertake any project without a duly executed CSA/CPO, which shall specify the work to be performed and the time to be completed. Consultant recognizes that the County may employ several different Consultants to perform the work described and that the Consultant has not been employed as the exclusive agent to perform any such services.

2.3 When the Consultant and the County enter into a CSA/CPO where the term of the CSA/CPO expires on a date that is later than the date that this Master Consulting Agreement expires, the Consultant and the County agree that the terms of this Agreement and any amendments, attachments or provisions thereof are automatically extended until the expiration (including any extension or amendment thereto) or full completion of the requirements of the CSA/CPO have been performed. Cancellation by the County of any remaining work prior to the full completion of the requirements of the CSA/CPO shall cause the terms of this Agreement to terminate at the same time. This provision only applies when the expiration of the CSA/CPO extends beyond the expiration of this Agreement. It does not apply when a CSA/CPO expires or is cancelled prior to the expiration of this Agreement.

3.0 Compensation

3.1 General

3.1.1 County shall pay Consultant in accordance with the "WSP Labor Rate" and the "Unit Rate Fee Schedule", both of which are attached hereto, as a composite Exhibit "B" and incorporated by reference as part of this Agreement. The WSP Labor Rate Schedule identifies all job classifications, which will perform billable services pursuant to this Agreement and the fee for each job classification. Performance of work by personnel in job classifications not listed on the WSP Labor Rate Schedule will result in nonpayment for such services.

3.1.2 Upon the mutual agreement of the parties, the Fee Schedule, as set out in Exhibit "B" may be adjusted by a written Amendment to the Master Consulting Agreement annually beginning one year from the Effective Date of this Agreement. Such amendment must be executed by both parties and shall operate prospectively only and shall not alter fee schedules for CSA's/CPO's in effect at the time of the amendment.

3.1.3 Compensation may be negotiated as a not to exceed price or a lump sum amount on a per-project basis, on each individual CSA/CPO.

3.1.4 Invoices must reference the applicable CSA/CPO number, using an invoice form approved by the County Auditor.

3.1.5 Each individual invoice shall be due and payable forty-five (45) days after receipt by the County of correct, fully documented, invoice, in form and substance satisfactory to the County with all appropriate cost substantiations attached. All invoices shall be delivered, as applicable based on the particular project:

Polk County Roads and Drainage Division
3000 Sheffield Road,
Winter Haven, FL 33880
Attention: Director

3.1.6 In order for both parties herein to close their books and records, the Consultant will clearly state "Final Invoice" on the Consultant's final/last billing to the County. This certifies that all services have been properly performed and all charges and costs have been invoiced to the County. Since this account will thereupon be closed, any and other further charges if not properly included on this final invoice are waived by the Consultant.

3.1.7 Payment of the final invoice shall not constitute evidence of the County's acceptance of the work

3.1.8 Invoices shall be accompanied by time and task records for all billable hours appearing on the invoice. Additional documents may be requested by County and, if so requested, shall be furnished by Consultant to County Auditor's satisfaction.

3.1.9 By submission of an invoice, the project manager or designated payroll officer is deemed to be attesting to the correctness and accuracy of time charges and requested

reimbursements.

3.1.10 Pursuant to Section 3.1.4, if a not to exceed fee is negotiated, invoices shall be accompanied by time and task records for all billable hours appearing on the invoice. Alternatively, if a lump sum amount is negotiated, invoices shall be made upon the completion of each phase of the work in proportion to the Services performed, as specifically set forth in the applicable CSA or CPO. Additional documentation may be requested by the County and, if so requested, shall be furnished by the Consultant to the County Auditor's satisfaction.

3.2 Reimbursable

3.2.1 All requests for payment of out-of-pocket expenses eligible for reimbursement per the negotiated CPO or CSA shall be reimbursed in accordance with the County's Reimbursable Schedule, Exhibit "C", and include copies of paid receipts, invoices or other documentation acceptable to the County's Auditor. Such documentation shall be sufficient to establish that the expense was actually incurred and necessary in the performance of the Scope of Work described in this Agreement, CSA, or CPO.

3.2.2 Reimbursable Expenses are the actual, pre-approved, expenses incurred directly in connection with the applicable CSA or CPO, and include:

Overnight Deliveries
Reproduction
Sub-Consultant
Long Distance Telephone Calls (excluding Florida cities located outside the boundaries of Polk County)

3.2.3 Mileage and associated travel costs shall be reimbursed in accordance with F.S. 112.061 and County policy for pre-approved out-of-county travel (excluding travel from home offices located outside of Polk County to the Polk County line).

3.2.4 All assets, i.e. durable goods, purchased as reimbursable expenses become the property of the County upon completion of the work for which the asset was utilized. All such assets must be surrendered by delivery to the Polk County Roads and Drainage Division offices upon demand, termination of the Agreement, or the conclusion of the project, whichever occurs first.

3.2.5 Consultant shall maintain a current inventory of all such assets.

4.0 **Insurance**

4.1 General Provisions

4.1.1 Consultant shall maintain, at all times, the following minimum levels of insurance and shall, without in any way altering their liability, obtain, pay for and maintain insurance for the coverages and amounts of coverage not less than those set forth below and provide the County with a Certificate of Insurance and an opportunity to inspect a certified copy of each policy applicable to this Agreement followed thereafter by an annual Certificate of Insurance satisfactory to the County to evidence such coverage before any work commences.

4.1.2 The County shall be named as an additional insured on all Consultant policies related to the project, excluding professional liability and worker's compensation. The Commercial General Liability and Worker's Compensation Liability policies shall contain a waiver of subrogation in favor of Polk County. All insurance coverage shall be written with an insurer having an A.M. Best Rating of a least the "A" category and size category of VIII.

4.1.3 The Consultant's self-insured retention or deductible per line of coverage shall not exceed $25,000.00 without the permission of the County.

4.1.4 If there is any failure by the Consultant to comply with the provisions of this section, the County may, at its option, on notice to the Consultant, suspend the work for cause until there is full compliance.

4.1.5 County may, at its sole discretion, purchase such insurance at Consultant's expense provided that the County shall have no obligation to do so and if the County shall do so, it shall not relieve Consultant of its obligation to obtain insurance.

4.1.6 The Consultant shall not be relieved of or excused from the obligation to obtain and maintain such insurance amount and coverages.

4.1.7 All Consultants' subconsultants shall be required to include County and Consultant as additional insured on their General Liability Insurance policies.

4.1.8 In the event that subconsultants used by the Consultant do not have insurance, or do not meet the insurance limits, Consultant shall indemnify and hold harmless the County

for any claim in excess of the subconsultants' insurance coverage.

4.1.9 The Consultant shall not commence work under this Agreement until all insurance required as stated herein has been obtained and such insurance has been approved by the County.

4.2 Comprehensive Automobile Liability Insurance. $1,000,000.00 combined single limit of liability for bodily injuries, death and property damage resulting from any one occurrence, including all owned, hired, and non-owned vehicles.

4.3 Commercial General Liability. $1,000,000.00 combined single limit of liability for bodily injuries, death and property damage, and personal injury resulting from any one occurrence, including the following coverages:

4.3.1 Premises and Operations:

Broad Form Commercial General Liability Endorsement to include Blanket Contractual liability (specifically covering, but not limited to, the contractual obligations assumed by the Firm); Personal Injury (with employment and contractual exclusions deleted); and Broad Form Property Damage coverage.

4.3.2 Independent Contractors:

Delete Exclusion relative to collapse, explosion and underground; Property Damage Hazards; Cross Liability Endorsement; and Contractual liability (specifically covering, but not limited to, the contractual obligations assumed by the Firm)

4.4 Umbrella (Excess) Liability Insurance. Umbrella Liability with limits of not less than $1,000,000.00, exclusive of defense costs, to be in excess of all other coverages. Such coverage shall be at least as broad as the primary coverages above, with any excess umbrella layers written on a strict following form basis over the primary coverage. All such policies shall be endorsed to provide defense coverage obligations.

4.5 Professional Liability Insurance. $2,000,000.00 for design errors and omissions, inclusive of defense costs. Consultant shall be required to provide continuing Professional Liability Insurance to cover each project for a period of two (2) years after the project is completed. Insurance requirements may vary depending on projects as determined by the County Director of Risk

Management and Insurance. The County may require the Consultant to provide a higher level of coverage for a specific project and time frame.

4.6 Performance, Payment and Other Bonds. Consultant shall furnish Performance and Payment Bonds specific to each project if required and agreed to under the CSA or CPO for the project.

4.7 Worker's Compensation. The Consultant shall provide, pay for, and maintain worker's compensation insurance on all employees, its agents or subcontractors as required by Florida Statutes.

5.0 **Standard of Care**

5.1 Consultant has represented to the County that it has the personnel and experience necessary to perform the work in a professional and workmanlike manner.

5.2 Consultant shall exercise the same degree of care, skill, and diligence in the performance of the Services as is provided by a professional of like experience, knowledge and resources, under similar circumstances.

5.3 Consultant shall, at no additional cost to County, re-perform services which fail to satisfy the foregoing standard of care or otherwise fail to meet the requirement of this Agreement.

5.4 The Consultant warrants that all services shall be performed by skilled and competent personnel to the professional standards in the field.

6.0 **Indemnification**

6.1 General. Having considered the risks and potential liabilities that may exist during the performance of the Services and in consideration of the promises included herein, County and Consultant agree to allocate such liabilities in accordance with this Section.

6.2 Indemnification.

6.2.1 Consultant, to the extent permitted by law, shall indemnify, defend (by counsel reasonably acceptable to County) protect and hold County, and its officers, employees and agents harmless from and against any and all, claims, actions, causes of action, liabilities, penalties, forfeitures, damages, losses and expenses (including, without limitation, attorney's fees costs and

expenses incurred during negotiation, through litigation and all appeals therefrom) whatsoever including, but not limited, to those pertaining to the death of or injury to any person, or damage to any property, arising out of or resulting from (i) the failure of Consultant to comply with applicable laws, rules or regulations, (ii) the breach by Consultant of its obligations under this Agreement, (iii) any claim for trademark, patent or copyright infringement arising out of the scope of Consultant's performance or nonperformance of this Agreement, or (iv) the negligent acts, errors or omissions, or intentional or willful misconduct, of Consultant, its professional associates, its subcontractors, agents, and employees provided, however, that Consultant shall not be obligated to defend or indemnify the County with respect to any such claims or damages arising out of the County's sole negligence.

6.2.2 County review, comment and observation of the Consultant's work and performance of this Agreement shall in no manner constitute a waiver of the indemnification provisions of this Agreement.

6.2.3 Consultant agrees that it bears sole legal responsibility for its work and work product, and the work and work product of subconsultants and their employees, and/or for Consultant's performance of this Agreement and its work product(s).

6.3 Survival. Upon completion of all Services, obligations and duties provided for in this Agreement, or in the event of termination of this Agreement for any reason, the terms and conditions of this Agreement shall survive as if the Agreement were in full force and effect.

7.0 **Independent Contractor**

7.1 Consultant undertakes performance of the Services as an independent contractor and shall be wholly responsible for the methods of performance.

7.2 County shall have no right to supervise the methods used, but County shall have the right to observe such performance.

7.3 Consultant shall work closely with County in performing Services under this Agreement.

7.4 The Consultant shall not pledge the County's credit or make it a guarantor of payment or surety for any contract, debt, obligation, judgment, lien or any form of indebtedness and

shall have no right to speak for or bind the County in any manner.

7.5 Consultant further warrants and represents that it has no obligation or indebtedness that would impair its ability to fulfill the terms of this Agreement.

8.0 **Authority to Practice**

8.1 The Consultant hereby represents and warrants that it has and will continue to maintain all licenses and approvals required to conduct its business, and that it will at all times conduct its business activities in a reputable manner.

9.0 **Public Records Law**

(a) The Consultant acknowledges the County's obligations under Article I, Section 24, of the Florida Constitution and under Chapter 119, Florida Statutes, to release public records to members of the public upon request and comply in the handling of the materials created under this Agreement. The Consultant further acknowledges that the constitutional and statutory provisions control over the terms of this Agreement. In association with its performance pursuant to this Agreement, the Consultant shall not release or otherwise disclose the content of any documents or information that is specifically exempt from disclosure pursuant to all applicable laws.

(b) Without in any manner limiting the generality of the foregoing, to the extent applicable, the Contractor acknowledges its obligations to comply with Section 119.0701, Florida Statutes, with regard to public records, and shall:

(1) keep and maintain public records required by the County to perform the services required under this Agreement;

(2) upon request from the County's Custodian of Public Records or his/her designee, provide the County with a copy of the requested records or allow the records to be inspected or copied within a reasonable time at a cost that does not exceed the cost provided in Chapter 119, Florida Statutes, or as otherwise provided by law;

(3) ensure that public records that are exempt or confidential and exempt from public records disclosure requirements are not disclosed except as authorized by law for the duration of the term of this Agreement and following completion of this Agreement if the Consultant does not transfer the records to the County; and

(4) upon completion of this Agreement, transfer, at no cost, to the County all public records in possession of the Consultant or keep and maintain public records required by the County to perform the service. If the Consultant transfers all public records to the County upon completion of this Agreement, the Consultant shall destroy any duplicate public records that are exempt or confidential and exempt from public records disclosure requirements. If the Consultant keeps and maintains public records upon completion of this Agreement, the Consultant shall meet all applicable requirements for retaining public records. All records stored electronically must be provided to the County, upon request from the County's Custodian of Public Records, in a format that is compatible with the information technology systems of the County.

(c) **IF THE CONSULTANT HAS QUESTIONS REGARDING THE APPLICATION OF CHAPTER 119, FLORIDA STATUTES, TO THE**

CONTRACTOR'S DUTY TO PROVIDE PUBLIC RECORDS RELATING TO THIS AGREEMENT, CONTACT THE COUNTY'S CUSTODIAN OF PUBLIC RECORDS AT:

RECORDS MANAGEMENT LIAISON OFFICER
POLK COUNTY
330 WEST CHURCH ST.
BARTOW, FL 33830
TELEPHONE: (863) 534-7527
EMAIL: RMLO@POLK-COUNTY.NET

10.0 **Compliance with Laws**

10.1 In performance of the Services, Consultant shall comply with applicable regulatory requirements including federal, state, special district, and local laws, rules, regulations, orders, codes, criteria and standards, including those now in effect and hereafter adopted.

11.0 **Subcontracting**

11.1 The County reserves the right to accept the use of a subcontractor or to reject the selection of a particular subcontractor and to inspect all facilities of any subcontractor.

11.2 If a subcontractor fails to perform or make progress, as required by this Agreement, and it is necessary to replace the subcontractor to complete the work in a timely fashion, the Consultant shall promptly do so, subject to acceptance of the new subcontractor by the County. Failure of a Subcontactor to timely or properly perform its obligations shall not relieve Consultant of its obligations hereunder.

12.0 **Federal and State Taxes**

12.1 The County is exempt from Federal Tax and State Sales and Use Taxes. Upon request, the County will provide an exemption certificate to Consultant. The Consultant shall not be exempted from paying sales tax to its suppliers for materials to fulfill contractual obligations with the County, nor shall the Consultant be authorized to use the County's Tax Exemption Number in securing such materials.

13.0 **Public Entity Crimes**

13.1 The Consultant understands and acknowledges that this Agreement with the

County will be voidable by the County, in the event the conditions under Section 287.133, Florida Statutes applies to the Consultant, relating to conviction for a public entity crime.

14.0 **County's Responsibilities**

14.1 County shall be responsible for providing access to all County project sites, and providing information in the County's possession that may reasonably be required by Consultant, including; existing reports, studies, financial information, and other required data that are available in the files of the County.

15.0 **Termination of Agreement**

15.1 This Agreement may be terminated by the Consultant upon thirty (30) days prior written notice to the County in the event of substantial failure by the County to perform in accordance with the terms of the Agreement through no fault of the Consultant.

15.2 This Agreement may be terminated by the County with or without cause immediately upon written notice to the Consultant.

15.3 Unless the Consultant is in breach of this Agreement, the Consultant shall be paid for services rendered to the County's satisfaction through the date of termination.

15.4 After receipt of a Termination Notice, as described in this Article 15.0, and except as otherwise directed by the County, the Consultant shall:

15.4.1 Stop work on the date and to the extent specified.

15.4.2 Terminate and settle all orders and subcontracts relating to the performance of the terminated work.

15.4.3 Transfer all work in process, completed work, and other material related to the terminated work to the County.

15.4.4 Continue and complete all parts of the work that have not been terminated.

16.0 **Uncontrollable Forces (Force Majeure)**

16.1 Either party hereunder may be temporarily excused from performance if an Event of Force Majeure directly or indirectly causes its nonperformance. An "Event of Force Majeure" is defined as any event which results in the prevention or delay of performance by a party of its obligations

under this Agreement and which is beyond the reasonable control of the nonperforming party. It includes, but is not limited to fire, flood, earthquakes, storms, lightning, epidemic, war, riot, civil disturbance, sabotage, and governmental actions. Neither party shall be excused from performance if non-performance is due to forces which are reasonably preventable, removable, or remediable and which the non-performing party could have, with the exercise of reasonable diligence, prevented, removed, or remedied prior to, during, or immediately after their occurrence. Within five (5) days after the occurrence of an Event of Force Majeure, the non-performing party shall deliver written notice to the other party describing the event in reasonably sufficient detail, along with proof of how the event has precluded the non-performing party from performing its obligations hereunder, and a good faith estimate as to the anticipated duration of the delay and the means and methods for correcting the delay. The non-performing party's obligations, so far as those obligations are affected by the Event of Force Majeure, shall be temporarily suspended during, but no longer than, the continuance of the Event of Force Majeure and for a reasonable time thereafter as may be required for the non-performing party to return to normal business operations. If excused from performing any obligations under this Agreement due to the occurrence of an Event of Force Majeure, the non-performing party shall promptly, diligently, and in good faith take all reasonable action required for it to be able to commence or resume performance of its obligations under this Agreement. During any such time period, the non-performing party shall keep the other party duly notified of all such actions required for it to be able to commence or resume performance of its obligations under this Agreement.

17.0 **Governing Law and Venue**

17.1 This Agreement shall be governed in all respects by the laws of the State of Florida and any litigation with respect thereto shall be brought only in the courts of Polk County, Florida or the United States District Court, Middle District of Florida located in Hillsborough County, Florida. Each party shall be responsible for its own attorneys' fee and other legal costs and expenses.

18.0 **Non-Discrimination**

18.1 The Consultant warrants and represents that all of its employees are treated equally during employment without regard to race, color, religion, gender, age or national origin.

19.0 **Waiver**

19.1 A waiver by either County or Consultant of any breach of this Agreement shall not be binding upon the waiving party unless such waiver is in writing. In the event of a written waiver, such a waiver shall not affect the waiving party's rights with respect to any other or further breach. The making or acceptance of a payment by either party with knowledge of the existence of a default or breach shall not operate or be construed to operate as a waiver of any subsequent default or breach.

20.0 **Severability**

20.1 The invalidity, illegality, or unenforceability of any provision of this Agreement, or the occurrence of any event rendering any portion or provision of this Agreement void, shall in no way affect the validity or enforceability of any other portion or provision of the Agreement.

20.2 Any void provision shall be deemed severed from the Agreement and the balance of the Agreement shall be construed and enforced as if the Agreement did not contain the particular portion or provision held to be void.

20.3 The parties further agree to reform the Agreement to replace any stricken provision with a valid provision that comes as close as possible to the intent of the stricken provision.

20.4 The provisions of this section shall not prevent the entire Agreement from being void should a provision which is of the essence of the Agreement be determined to be void.

21.0 **Entirety of Agreement**

21.1 The County and the Consultant agree that this Agreement sets forth the entire Agreement between the parties, and that there are no promises or understandings other than those stated herein.

21.2 This Agreement supersedes all prior agreements, contracts, proposals, representations, negotiations, letters or other communications between the County and Consultant pertaining to the Services, whether written or oral.

21.3 None of the provisions, terms and conditions contained in this Agreement may be added to, modified, superseded or otherwise altered except by written instrument executed by the parties hereto.

22.0 **Modification**

22.1 This Agreement may not be modified unless such modifications are evidenced in writing signed by both County and Consultant. Such modifications shall be in the form of a written Amendment executed by both parties.

23.0 **Successors and Assigns**

23.1 County and Consultant each binds itself and its partners, successors, permitted assigns, and legal representatives to the other party to this Agreement and to the partners, successors, executors, administrators, permitted assigns, and legal representatives of such other party.

23.2 Consultant shall not assign this Agreement without the express written approval of the County by executed amendment, which approval may be withheld in the County's sole discretion.

23.3 In the event of a merger, the surviving corporation shall be substituted for the contracting party to this agreement and such substitution shall be affirmed by the County by executed amendment.

24.0 **Contingent Fees**

24.1 The Consultant warrants that it has not employed or retained any company or person, other than a bona fide employee working solely for the Consultant to solicit or secure this Agreement and that it has not paid or agreed to pay any person, company, corporation, individual or firm, other than bona fide employee working solely for the Consultant, any fee, commission, percentage, gift or any other consideration contingent upon or resulting from the award or making of this Agreement.

25.0 **Truth-In-Negotiation Certificate**

25.1 Execution of this Agreement by the Consultant shall act as the execution of a Truth-in-Negotiation certificate certifying that the wage rates and costs used to determine the compensation provided for in this Agreement are accurate, complete, and current as of the Effective Date of this Agreement.

25.2 The said rates and costs shall be adjusted to exclude any significant sums should the County determine that the rates and costs were increased due to inaccurate, incomplete or noncurrent

wage rates or due to inaccurate representations of fees paid to outside consultants. The County shall exercise its rights under this "Certificate" within one (1) year following payment.

26.0 **Ownership of Documents**

26.1 Consultant shall be required to cooperate with other consultants relative to providing information requested in a timely manner and in the specified form. Any and all documents, records, disks, original drawings, or other information shall become the property of the County for its use and/or distribution as may be deemed appropriate by the County. Consultant is not liable for any damages, injury or costs associated with the County's use or distribution of these documents for purposes other than those originally intended by Consultant.

27.0 **Access and Audits**

27.1 Consultant shall maintain adequate records to justify all charges and costs incurred in performing the work for at least three (3) years after completion of this Agreement. The County shall have access to such books, records, and documents as required in this section for the purpose of inspection or audit during normal business hours at the Consultant's place of business.

27.2 Misrepresentations of billable time or reimbursable expenses as determined by the Auditor to the Polk County Board of County Commissioners shall result in the recovery of any resulting overpayments. The County's cost of recovery shall be the sole expense of the Consultant, including accounting and legal fees, court costs and administrative expenses.

27.3 Intentional misrepresentations of billable hours and reimbursable expenses will be criminally prosecuted to the fullest extent of the law.

27.4 All invoices submitted are subject to audit and demand for refund of overpayment up to three (3) years following completion of all services related to this Agreement.

28.0 **Notice**

28.1 Any notice, demand, communication, or request required or permitted hereunder shall be in writing and delivered in person or sent by Federal-Express or by Certified Mail, postage prepaid as follows:

As to County: Roads and Drainage Division
3000 Sheffield Road
Winter Haven, FL 33880

Attention: Director

As to Consultant: WSP USA Environment & Infrastructure
5015 South Florida Avenue
Suite 301
Lakeland, Florida 33813

28.2 Notices shall be effective when received at the addresses as specified above. Changes in the respective addresses to which such notice is to be directed may be made from time to time by either party by written notice to the other party. Facsimile transmission is acceptable notice effective when received, however, facsimile transmissions received (i.e.; printed) after 5:00 p.m., or on weekends or holidays, will be deemed received on the next business day. The original of the notice must additionally be mailed as required herein.

28.3 Nothing contained in this Article shall be construed to restrict the transmission of routine communications between representatives of Consultant and County.

29.0 **Service of Process**

As to County: County Attorney
County Administration Building
330 W. Church Street, 4th Floor
Bartow, Florida 33830

As to Consultant: WSP USA Environment & Infrastructure
5015 South Florida Avenue
Suite 301
Lakeland, Florida 33813

30.0 **Contract Administration**

30.1 Services of Consultant shall be under the general direction of the Roads and Drainage Division Director, or their successor, who shall act as the County's representative during the term of this Agreement.

31.0 **Key Personnel**

31.1 Consultant shall notify County in the event of key personnel changes, which might affect this Agreement. To the extent possible, notification shall be made within ten (10) days prior to changes. Consultant at County's request shall remove without consequence to the County any Subcontractor or employee of the Consultant and replace him/her with another employee having the

required skill and experience. County has the right to reject proposed changes in key personnel. The following personnel shall be considered key personnel:

Name: Brian Hathaway

Name: Ahmed Zein

Name: David Butcher

Name: Michael Kelley

Name: Kirby Lastinger

Name: Alexander Rojas

Name: Adil Khan

Name: Dennis Crawford

Name: Eduardo Hernandez

32.0. **Annual Appropriations**

32.1 Consultant acknowledges that the County, during any fiscal year, shall not expend money, incur any liability, or enter into any agreement which, by its terms, involves the expenditure of money in excess of the amounts budgeted as available for expenditure during such fiscal year. Any agreement, verbal or written, made in violation of this subsection is null and void, and no money may be paid on such agreement. Nothing herein contained shall prevent the making of agreements for a period exceeding one year, but any agreement so made shall be executory only for the value of the services to be rendered or agreed to be paid for in succeeding fiscal years. Accordingly, the County's performance and obligation to pay under this agreement is contingent upon annual appropriation.

33.0 **Liquidated Damages**

33.1 The parties hereto agree that liquidated damages, in the amount specified in the applicable CSA/CPO, will be assessed against the Consultant for Consultant's failure to meet the final deliverable date in the Performance Schedule in the Scope of Work, but only to the extent and in proportion to Consultant's fault in causing the delay as compared to other causes, and to the extent the Consultant is not delayed by reasons beyond Consultant's reasonable control.

34.0 Employment Eligibility Verification (E-VERIFY)

A. Unless otherwise defined herein, terms used in this Section which are defined in Section 448.095, Florida Statutes, as may be amended from time to time, shall have the meaning ascribed in said statute.

B. Pursuant to Section 448.095(5), Florida Statutes, the contractor hereto, and any subcontractor thereof, must register with and use the E-Verify system to verify the work authorization status of all new employees of the contractor or subcontractor. The contractor acknowledges and agrees that (i) the County and the contractor may not enter into this Agreement, and the contractor may not enter into any subcontracts hereunder, unless each party to this Agreement, and each party to any subcontracts hereunder, registers with and uses the E-Verify system; and (ii) use of the U.S. Department of Homeland Security's E-Verify System and compliance with all other terms of this Certification and Section 448.095, Fla. Stat., is an express condition of this Agreement, and the County may treat a failure to comply as a material breach of this Agreement.

C. By entering into this Agreement, the contractor becomes obligated to comply with the provisions of Section 448.095, Fla. Stat., "Employment Eligibility," as amended from time to time. This includes but is not limited to utilization of the E-Verify System to verify the work authorization status of all newly hired employees, and requiring all subcontractors to provide an affidavit attesting that the subcontractor does not employ, contract with, or subcontract with, an unauthorized alien. The contractor shall maintain a copy of such affidavit for the duration of this Agreement. Failure to comply will lead to termination of this Agreement, or if a subcontractor knowingly violates the statute or Section 448.09(1), Fla. Stat., the subcontract must be terminated immediately. If this Agreement is terminated pursuant to Section 448.095, Fla. Stat., such termination is not a breach of contract and may not be considered as such. Any challenge to termination under this provision must be filed in the Tenth Judicial Circuit Court of Florida no later than 20 calendar days after the date of termination. If this Agreement is terminated for a violation of Section 448.095, Fla. Stat., by the contractor, the contractor may not be awarded a public contract for a period of 1 year after the date of termination. The contractor shall be liable for any additional costs incurred by the County as a result of the termination of this Agreement. Nothing in this Section shall be construed to allow intentional discrimination of any class protected by law.

35.0 Limitation of Liability.

IN NO EVENT, SHALL THE COUNTY BE LIABLE TO THE CONSULTANT FOR INDIRECT, INCIDENTAL, CONSEQUENTIAL, SPECIAL, EXEMPLARY, OR PUNITIVE DAMAGES OF ANY KIND OR NATURE, INCLUDING LOSS OF PROFIT, WHETHER FORESEEABLE OR NOT, ARISING OUT OF OR RESULTING FROM THE NONPERFORMANCE OR BREACH OF THIS CONTRACT BY THE COUNTY WHETHER BASED IN CONTRACT, COMMON LAW, WARRANTY, TORT, STRICT LIABILITY, CONTRIBUTION, INDEMNITY OR OTHERWISE.

36.0 Scrutinized Companies and Business Operations Certification; Termination.

A. Certification(s).

(i) By its execution of this Agreement, the Consultant hereby certifies to the County that the Consultant is not on the Scrutinized Companies that Boycott Israel List, created pursuant to

Section 215.4725, Florida Statutes, nor is the Consultant engaged in a boycott of Israel, nor was the Consultant on such List or engaged in such a boycott at the time it submitted its bid, proposal, quote, or other form of offer, as applicable, to the County with respect to this Agreement.

(ii) Additionally, if the value of the goods or services acquired under this Agreement are greater than or equal to One Million Dollars ($1,000,000), then the Consultant further certifies to the County as follows:

(a) the Consultant is not on the Scrutinized Companies with Activities in Sudan List, created pursuant to Section 215.473, Florida Statutes; and

(b) the Consultant is not on the Scrutinized Companies with Activities in the Iran Petroleum Energy Sector List, created pursuant to Section 215.473, Florida Statutes; and

(c) the Consultant is not engaged in business operations (as that term is defined in Florida Statutes, Section 287.135) in Cuba or Syria; and

(d) the Consultant was not on any of the Lists referenced in this subsection A(ii), nor engaged in business operations in Cuba or Syria when it submitted its proposal to the County concerning the subject of this Agreement.

(iii) The Consultant hereby acknowledges that it is fully aware of the penalties that may be imposed upon the Consultant for submitting a false certification to the County regarding the foregoing matters.

B. Termination. In addition to any other termination rights stated herein, the County may immediately terminate this Agreement upon the occurrence of any of the following events:

(i) The Consultant is found to have submitted a false certification to the County with respect to any of the matters set forth in subsection A(i) above, or the Consultant is found to have been placed on the Scrutinized Companies that Boycott Israel List or is engaged in a boycott of Israel.

(ii) The Consultant is found to have submitted a false certification to the County with respect to any of the matters set forth in subsection A(ii) above, or the Consultant is found to have been placed on the Scrutinized Companies with Activities in Sudan List, or the Scrutinized Companies with Activities in the Iran Petroleum Energy Sector List, or has been engaged in business operations in Cuba or Syria, and the value of the goods or services acquired under this Agreement are greater than or equal to One Million Dollars ($1,000,000).

37. No Construction Against Drafter

37.1 The Parties acknowledge that this Agreement and all the terms and conditions contained herein have been fully reviewed and negotiated by the Parties. Accordingly, any rule of construction to the effect that ambiguities are to be resolved against the drafting party shall not apply in interpreting this Agreement.

38. Unauthorized Alien(s)

The Consultant shall not employ or utilize unauthorized aliens in the performance of the Services provided pursuant to this Agreement. The County shall consider the employment or utilization of

unauthorized aliens a violation of Section 274A(e) of the Immigration and Naturalization Act (8 U.S.C. 1324a) and a cause for the County's unilateral termination of this Agreement. When delivering executed counterparts of this Agreement to the County, the Consultant shall also deliver a completed and executed counterpart of the attached "AFFIDAVIT CERTIFICATION IMMIGRATION LAWS" form.

(THE REMAINDER OF THE PAGE LEFT INTENTIONALLY BLANK)

IN WITNESS WHEREOF, the parties hereto have executed this Agreement as of the Effective Date.

PROPOSAL SUBMITTAL INSTRUCTIONS

Proposers must submit their proposal prior to 2:00 p.m. on the receiving date. Proposals must be submitted in a “sealed” parcel or electronically through Polk County’s secure website, Kiteworks. Proposals will be publicly opened at 2:00 p.m. on the receiving date.

Sealed Parcel Submittal:

If you are submitting a sealed parcel proposal submit one (1) original marked ORIGINAL and five (5) copies marked COPY of the proposal in a sealed parcel to the Procurement Division. The parcel should be labeled “RFP #23-328, Professional Geotechnical Services and Construction Material Testing and Inspection” and marked with the proposer’s name and address. The Proposals may be mailed or delivered to:

Polk County Procurement Division

330 West Church Street, Room 150

Bartow, FL 33830

To assist with labeling the sealed parcel, please cut along the outer border and affix this label. Be sure to include the name of the company submitting the proposal where requested.

Sealed Proposal. DO NOT OPEN	
RFP Number	23-328
RFP Title	Professional Geotechnical Services and Construction Material Testing and Inspection
Due Date/Time:	June 7, 2023, prior to 2:00 pm
Submitted by:	
Deliver To:	Polk County Procurement Division 330 West Church Street, Room 150, Bartow, Florida 33830

Proposals may be mailed, express mailed or hand delivered. It is the Proposers responsibility to ensure their package is delivered to the Procurement Division prior to

2:00 p.m. on the Receiving date and time referenced above. Proposals delivered at 2:00 p.m. or later will not be accepted.

Electronic Proposals Submittal:

All prospective Proposers that are interested in submitting their proposals electronically can do so via the County's secure electronic submittal website, Kiteworks. Proposers must email michaelguerrero@polk-county.net at least 48 hours prior to opening to receive a link to upload their submittal. Please only upload your documents as a PDF or Excel file for the Cost Tab, if applicable. Please use the name convention of your files as follow:

"RFP 23-328 Tab 1"

"RFP 23-328 Tab 2"

"RFP 23-328 Tab 3"

"RFP 23-328 Tab 4"

"RFP 23-328 Tab 5"

"RFP 23-328 Tab 6"

"RFP 23-328 Tab 7"

"RFP 23-328 Tab 8"

For more instructions, a video tutorial has been produced to further explain the electronic solicitation submittal process. It can be found by clicking here for RFP Submittals: https://youtu.be/vkn_7AHgioE. If you need assistance accessing this website due to ADA or any other reason, please email Michael Guerrero at michaelguerrero@polk-county.net.

Procurement recommends that Proposers submitting electronically double check the documents submitted into Kiteworks to ensure all requested tab information has been uploaded. Failure to upload the requested tab information may result in the proposal being deemed nonresponsive.

POLK COUNTY
Procurement Division
Fran McAskill
Procurement Director
REQUEST FOR PROPOSAL 23-328

Professional Geotechnical Services and Construction Material Testing and Inspection

Sealed proposals will be received in the Procurement Division, **Wednesday, June 7, 2023, prior to 2:00 p.m.**

Attached are important instructions and specifications regarding responses to this Request for Proposal (the "RFP"). The failure of a responding proposer (a "Proposer") to follow these instructions could result in Proposer disqualification from consideration for a contract to be awarded pursuant to this RFP.

This document is issued by Polk County (the "County") which is the sole distributor of this RFP and all addenda and changes to the RFP documents. The County shall record its responses to inquiries and provide any supplemental instructions or additional documents pertaining to this RFP in the form of written addenda to the RFP. The County shall post all such addenda, together with any other information pertaining to this RFP, on the County's website at

http://www.polk-county.net/procurement/procurement-bids. It is the sole responsibility of each Proposer to review the website prior to submitting a responsive proposal (a "Proposal") to this RFP to ensure that that the Proposer has obtained all available instructions, addenda, changes, supporting documents, and any other information pertaining to this RFP.

The County is not responsible for any solicitations issued through subscriber, publications, or other sources not connected with the County and the Proposer should not rely on such sources for information regarding the RFP solicitation.

Questions regarding this RFP must be in writing and must be sent to Michael Guerrero, via email at michaelguerrero@polk-county.net or via fax at (863) 534-6789. All questions must be received by May 30, 2023, 4:00 p.m.

Proposers and any prospective Proposers shall not contact, communicate with or discuss any matter relating in any way to this RFP with any member of the Polk County Board of County Commissioners or any employee of Polk County other than the County Procurement Director or the individual designated above. This prohibition begins with the issuance of the Request for Proposal and ends upon execution of a contract. Any such communication initiated by a Proposer or prospective proposer shall be grounds for disqualifying the offender from consideration for a contract to be awarded pursuant to this RFP and for contracts to be awarded pursuant to RFPs or Requests for Bid that the County may issue in the future.

A Proposer's responsive Proposal to this RFP may be mailed, express mailed, or hand delivered to:
Polk County Procurement Division
330 West Church Street, Room 150
Bartow, Florida 33830
(863)534-6757

INTRODUCTION

Polk County, a political subdivision of the State of Florida seeks professional geotechnical services and construction material testing and inspection, and as further defined in the Scope of Services below.

Polk County's Selection Process for consultants' services is in accordance with Section 287.055, Florida Statutes, the Consultants' Competitive Negotiations Act ("CCNA"). The Professional Services Selection Committee will review the qualifications of all submitting firms.

It is the intent of the County to select and negotiate a Master Consulting Agreement with multiple firm(s).

The County will negotiate a fee schedule and or overall lump sum price as part of "Selection Process", Elevation Level 4 Contract Negotiations.

Services under this contract will be in compliance with Section 287.055 of the Florida Statutes referred to as the "Consultants' Competitive Negotiation Act" (CCNA). Polk County's Procurement Procedure's Manual outlines the Procedures for Contracting for Professional Services Covered by CCNA. These procedures outline the process used for the selection of a consulting firm awarded through this RFP process.

All services must be performed in accordance with applicable Federal, State and Local regulations.

SCOPE OF SERVICES

The scope of services shall include, but not be limited to in-place density tests; standard or modified proctors; limerock bearing ratio test; compressive strength of concrete cylinders; compressive strength of soil-cement pills; Super Pave - asphalt binder content, gradations, gyratory pills, pavement density, air voids; core drill & soils analysis; steel inspection; geotechnical investigations & soil testing; asphaltic concrete inspection services; concrete testing, which includes, but is not limited to the specific services listed on Exhibit "A" at the end of this document. All reports submitted by the Consultant(s) shall include specific recommendations, as applicable.

The County shall request the services on an as-needed basis. There is no guarantee that any or all of the services described in the agreement will be assigned during the term of the agreement. Further, the Consultant is providing these services on a nonexclusive basis. The County, at its option, may elect to have any of the services set forth herein performed by other consultants or County staff.

AGREEMENT

The Master Consulting Agreement will be for five (5) years unless otherwise terminated in accordance with the master service agreement.

EVALUATION CRITERIA

Proposals should not contain information in excess of that requested, must be concise, and must specifically address the issues of this RFP. Unnecessarily elaborate brochures or other presentations beyond those sufficient to present a complete and effective response to this RFP are not desired and may be construed as an indication of the Proposer's lack of cost consciousness. Elaborate artwork, expensive visual aids, and other presentation aids are neither necessary nor desired unless specifically requested. The Proposal responses shall be contained within a three-ring binder (original and each copy in separate binders). For the purposes of this RFP, one page equals a single sided page. It is requested that the responses be in the same order as the selection and evaluation procedures. The submittals should include the following:

Tab 1 Executive Summary

(Items a-c: Maximum of two (2) pages

a) Name, company name, address, telephone number, and email address.
b) State the number of years in business, as the same company/firm.
c) State the number of full-time employees.
d) Provide documentation showing proper incorporation by the Secretary of State.
e) Provide a copy of the firm's applicable certification(s) from the State of Florida allowing them to provide the services as outlined in the Scope of Service as well as compliance with F.S. 287.055

Tab 2 Approach to the Project (35 points)

(Maximum of four (4) pages)

a) Describe in detail the components of how your firm proposes to manage assigned project(s), based upon the scope of services. Please identify the services your firm provides which make you qualified to perform the required services.
b) Describe how the firm plans to maintain the project team and manage the project team members' time in order to ensure sufficient time to complete a project.
c) Describe the firm's Quality Assurance and Quality Control program as it pertains to engineering services.

Tab 3 Experience, Expertise, Personnel and Technical Resources (35 points)

- Identify a minimum of five (5) and a maximum of eight (8) projects in which the proposer has performed within the past five (5) years as the prime proposer which best illustrate the experience of the firm and current staff as related to the desired services. At least three (3) of the projects identified should be for geotechnical services, and at least two (2) should be for construction and material testing and inspection. At least three (3) of the minimum five (5) projects

should have been performed within the state of Florida. (Maximum of one (1) page only per project).

- For each project please provide:
  a) Name and location of the project;
  b) Size and cost of the project;
  c) Project representative name, address, phone number, and email address
  d) Date project was completed or is anticipated to be completed, if completed provide the actual completion date;
  e) The nature of the firm's responsibility on the project;
  f) List of change orders, including dollar amount, which were the result of unforeseen circumstances or design errors/oversights; and
  g) List of any time extensions created by item f above.

- Provide an organizational chart of the team highlighting the key individuals who will work on this contract.
- Provide brief resumes of the firm's key personnel to be assigned to the master service agreement including, but not limited to, the items in the list below (One (1) page maximum per resume):
  a) Name and current position held by the person
  b) Name, title and project assignment
  c) Experience:
    1) Types of projects.
    2) Size of projects (dollar value of project).
    3) What were their specific project involvements?
- Identify any sub-consultants that may be involved throughout the duration of the agreement. For each sub consultant identified please provide:
  - A brief description of their experience outlining their qualifications to perform the intended services
  - A brief resume for each key personnel that will be assigned to perform the intended services

Tab 4 Is the Firm a "Polk County Entity"? (5 Points)

- There will be a maximum of five (5) points allocated for this Tab. If the Proposer is a Polk County Entity, then five (5) points will be allocated. If the Proposer is not a Polk County Entity but is utilizing one or more sub-consultants that are a Polk County Entity to assist in performing the scope of work, then the Proposal will be allocated one (1) point for each sub-consultant which is a Polk County Entity up to a maximum of five (5) points. The Polk County Entity sub-consultant(s) must have been identified under Tab 3, Experience, Expertise, Personnel and Technical Resources in order to qualify for point allocation.
- Provide documentation of the Proposers' or sub-consultant's headquarters and local offices, if any, and the amount of time the firm has been located at each

such local office. Please also indicate the number of employees at the local office.

- Proposers or sub-consultants will be allocated points if they meet the following Polk County Government definition of Polk County Entity.
    - The term “Polk County Entity” means any business having a physical location within the boundaries of Polk County, Florida, at which employees are located and business activity is managed and controlled on a day-to-day basis. Additionally, the business must have been located within the boundaries of Polk County for a minimum of 12 months prior to the date the applicable solicitation is issued. This requirement may be evidenced through a recorded deed, an executed lease agreement, or other form of written documentation acceptable to the County. The County shall have the right, but not the obligation, to verify the foregoing requirements.
- In the event a Proposer lists one or more sub-consultants in Tab 4 which is a Polk County Entity and receives point(s) as a result, and after the Proposer is awarded the project, if successful, it is determined that the listed sub-consultant does not assist in the performance of the scope of work (and is not replaced with an alternative sub-consultant which is a Polk County Entity), then the Proposer acknowledges and agrees that it may be suspended or debarred by the Procurement Director for failure to comply with the conditions, specifications or terms of a proposal or contract with the County or for committing a fraud or misrepresentation in connection with a proposal or contract with the County, in accordance with the Polk County Purchasing Ordinance and Procedures Manual.

Tab 5 Is the Firm a “Certified Woman or Minority Business Enterprise” (5 Points)

- Polk County Board of County Commissioners has a long-standing commitment to encouraging the utilization of Women and Minority Businesses that do business with the County as vendors. To that end we encourage all of our prime and professional services vendors to utilize W/MBE vendors where at all possible, irrespective of a company’s certification status. Please explain how the submitting firm will encourage minority participation in the project. (Limit response to one page)
- There will be a maximum of five (5) points allocated for this tab. If the Proposer is a Woman or Minority owned business, then five (5) points will be allocated. If the Proposer is not a Woman or Minority owned business but is utilizing one or more sub-consultants that are a Women or Minority owned business to assist in performing the scope of work, then the Proposal will be allocated one (1) point for each sub-consultant which meets the County’s certification criteria of Women or Minority owned, up to a maximum of five (5) points. The Woman or Minority owned business sub-consultant(s) must have been identified under Tab 3, Experience, Expertise, Personnel and Technical Resources in order to qualify for point allocation.

- Proposers or sub-consultants will be allocated points if they are a certified W/MBE as evidenced by providing the documentation described below.
    - If the Proposer or sub-consultant has a certified W/MBE status, provide documentation of the firms' certified W/MBE status as defined by the Florida Small and Minority Business Act and as defined in Polk County's Purchasing Procedures. Polk County's Purchasing Procedures recognize the following to meet the requirement of a certified W/MBE status:
        - Valid W/MBE Certification from one of the following
            - Florida Minority Supplier Development Council
            - Women Business Enterprise National Council
            - The State of Florida Office of Supplier Diversity
            - Florida Department of Transportation
            - U. S. Small Business Administration
            - Federal Aviation Authority
            - Other Florida governmental agencies

  Certifications from other governmental agencies will be considered on a case-by-case basis.

- In the event a Proposer lists one or more sub-consultants in Tab 5 which is a Women or Minority owned business and receives point(s) as a result, and after the Proposer is awarded the project, if successful, it is determined that the listed sub-consultant does not assist in the performance of the scope of work (and is not replaced with an alternative sub-consultant which is a Women or Minority owned business), then the Proposer acknowledges and agrees that it may be suspended or debarred by the Procurement Director for failure to comply with the conditions, specifications or terms of a proposal or contract with the County or for committing a fraud or misrepresentation in connection with a proposal or contract with the County, in accordance with the Polk County Purchasing Ordinance and Procedures Manual.

Tab 6 Interactions with County and Regulatory Agency Staff (5 Points)

- Provide documentation supporting the specialized qualifications of the proposed staff in terms of meeting this scope of service. Qualifications should highlight experience with regulatory agencies, identifying specific agencies and the items being addressed, including construction permitting, water use permitting, consent orders, consultation, governing regulations, and other related activities. Describe the firm's ability to work with Roads and Drainage or other Division staff in order to successfully fulfill the scope of service. Demonstrate the firm's knowledge of permitting process, as well as local regulatory agencies, including, but not limited to FDOT, and SWFWMD, if applicable. **(Limit response to one (1) page)**

Tab 7 Timely Completions of Projects (5 points)

Describe the firms' current and future projected workload. Describe specifically the firms' daily ability to handle each aspect of the scope of services described herein. **(Limit response to two (2) pages maximum)**

Tab 8 Surveys of Past Performance (10 Points)

- Provide reference surveys from past clients for the projects identified under Tab 3.
- Completed surveys. (See Exhibit 1) Procurement will take the average of all surveys and score as follows:
    - Average Score between 9-10 (10 Points)
    - Average Score between 7-8 (8 Points)
    - Average Score between 5-6 (6 Points)
    - Average Score between 3-4 (4 Points)
    - Average Score between 1-2 (2 Points)
    - Average Score of 0 (0 Points)

BID OPENING

Proposers may attend the Bid Opening in person or via conference call by dialing (646) 558-8656 and enter Meeting ID: 327 647 2818. A listing of all proposers will be posted to Procurement's website as soon as possible after bid opening.

Selection Process

Proposals will be evaluated in accordance with this section and all applicable County procurement policies and procedures.

The County shall appoint a selection committee (the "Selection Committee") that will be responsible for evaluating and scoring/ranking the Proposals in accordance with this Section.

The County will use a competitive selection process based on the Elevation Levels described in this Section. At Elevation Levels 2 and 3, the Selection Committee will score and/or rank the Proposals as applicable.

Selection of a final Proposal will be based upon the following steps and factors:

Elevation Level 1 (Procurement Requirements Assessment):

- The County Procurement Division shall review all Proposals for conformance with RFP guidelines and detailed submittal requirements. At the County's discretion, non-conforming Proposals may be eliminated from further consideration and conforming Proposals shall be elevated to Elevation Level 2. Procurement will distribute Proposals and evaluation criteria to the Selection Committee.
- Procurement will also ensure all firms meet the requirement of certification as outlined in Florida Statute 287.055(3)(c).

- The Selection Committee may convene to review questions that arise during individual member review of submitted Proposals before Elevation Level 2 to allow for questions, clarifications, explanations, or other discussion to be held before the review of Proposals is completed.

Elevation Level 2 (Scoring)

- Procurement shall score each Proposal on the following evaluation criteria:
    - Local (Tab 4)-5 points
    - W/MBE Certification (Tab 5)-5 points
    - Surveys of Past Performance (Tab 8)-10 points

    Subtotal Points-20 points

    by the process stated under each corresponding Tab description as set forth on Pages 8-11.

- Each Selection Committee member shall score each Proposal on the following evaluation criteria:
    - Approach to the Project (Tab 2)-35 points
    - Experience, Expertise, Personnel and Technical Resources (Tab 3)-35 points
    - Interaction w/ County & Regulatory Agencies (Tab 6)-5 points
    - Timely Completion of Projects (Tab 7)-5 points
      Subtotal Points-80 points
      by the following process:

1) Each Selection Committee member shall determine which of the following descriptions applies to each of the foregoing evaluation criteria:
    - EXCELLENT (1.0): Of the highest or finest quality; exceptional; superior; superb; exquisite; peerless.
      The Proposer provided information for a given criteria that satisfied the requirements and described specifically how and what will be accomplished in such a manner that exhibited an exceptional and superior degree of understanding, skill, and competency, both qualitatively and quantitatively. The facts included in the narrative (including all supporting documentation, diagrams, drawings, charts, and schedules, etc.) demonstrate the Proposer's ability to perform and deliver far beyond expectation.
    - VERY GOOD (0.8): To a high degree; better than or above competent and/or skillful.
      The Proposer provided information for a given criteria that satisfied the requirements and described specifically how and what will be accomplished in such a manner that exhibited a very high degree of understanding, skill, and competency, both qualitatively and quantitatively. The facts included in the narrative (including all supporting documentation,

diagrams, drawings, charts, and schedules, etc.) demonstrate the Proposer's ability to perform and deliver beyond expectation.

- GOOD (0.6): Having positive or desirable qualities; competent; skilled; above average.
  The Proposer provided information for a given criteria that satisfied the requirements and described specifically how and what will be accomplished in such a manner that exhibited a skillful and above-average degree of understanding, skill, and competency, both qualitatively and quantitatively. The facts included in the narrative (including all supporting documentation, diagrams, drawings, charts, and schedules, etc.) demonstrate the Proposer's ability to perform and deliver at the expected level.
- FAIR (0.4): Average; moderate; mediocre; adequate; sufficient; satisfactory; standard.
  The Proposer provided information for a given criteria that satisfied the requirements and described sufficiently how and what will be accomplished in a manner that exhibited an adequate and average degree of understanding, skill, and competency, both qualitatively and quantitatively. The facts included in the narrative (including all supporting documentation, diagrams, drawings, charts, and schedules, etc.) demonstrate the Proposer's ability to perform and deliver at a level slightly below expectation.
- POOR (0.2): Inadequate; lacking; inferior in quality; of little or less merit; substandard; marginal.
  The Proposer provided information for a given criteria that did not satisfy the requirements and described in an inadequate manner how and what will be accomplished. The information provided simply reiterated a requirement, contained inaccurate statements or references, lacked adequate information, or was of inferior quality. The facts included in the narrative (including all supporting documentation, diagrams, drawings, charts, and schedules, etc.) demonstrate the Proposer's ability to perform and deliver at a substandard and inferior level.
- UNACCEPTABLE (0.0):
  The Proposer failed to provide any information for a given criteria, provided information that could not be understood, or did not provide the information for a given category as requested.

2) After a Selection Committee member has determined the description applicable for each evaluation criterion, the total points available for such criterion shall be multiplied by the factor associated with the applicable description to produce the number of points allocated for that evaluation criterion. For example, a Selection Committee member classifies the "Experience and Expertise" criterion (which shall be worth 25 points for the purpose of this example) as "Very Good" (which is a description factor multiplier of 0.8). The points that Selection Committee

member allocated for that evaluation criterion would be 20, calculated as follows: 25 available points x 0.8 applicable description factor multiplier = 20 points.

3) A Selection Committee member's total score for each Proposal shall equal the sum of the total points allocated for each evaluation criteria.
4) When all Selection Committee members have completed their Proposal evaluations, the individual Selection Committee member's total scores for each Proposal will be added together to produce a final score for each Proposal.
5) Procurement will confirm the calculations for the final score for each Proposal. Then, Procurement shall publish a rank-ordered listing of the Proposals to the Selection Committee with the Proposal receiving the highest point as the highest-ranked Proposal.
6) In accordance with Section 287.055(4)(a), Florida Statutes, if there are three (3) or more Proposers in Elevation Level 2, the Selection Committee must elevate no fewer than the three highest scored of such Proposers to Elevation Level 3 for interviews. If there are only two Proposers in Elevation Level 2, the Selection Committee must elevate those two Proposers to Elevation Level 3 for interviews. If there is only one Proposer in Elevation Level 2, then the Selection Committee may collectively decide if they would like to elevate the Proposer to Elevation Level 3 for interviews or if they would like to recommend the Board authorize staff to enter into Contract Negotiations with the Proposer. In the latter case, after Board approval to authorize staff to negotiate a contract, the Proposer will then be elevated to Elevation Level 4 for contract negotiations.

Elevation Level 3 (Proposer Interviews)
The Selection Committee are required to conduct interviews of the Proposers that it has elevated from Elevation Level 2 to Elevation Level 3.

During an interview, elevated Proposers may be requested to make a presentation focusing on their qualifications, approach to the project and the ability to furnish the required services. The Selection Committee members will have an opportunity to inquire about any aspect of the RFP and the Proposer's Proposal. After all elevated Proposer interviews, each Selection Committee member will individually rank the Proposers in numerical order beginning at number 1 for the Proposer deemed to be the most highly qualified to perform the required services. In accordance with Section 287.055(4)(b), Florida Statutes, in determining whether a Proposer is qualified, each Selection Committee member shall consider such factors as:

- Ability of Personnel
- Whether a Proposer is a certified minority business enterprise
- Past performance
- Willingness to meet time and budget requirements
- Location
- Recent, current, and projected workloads
- Volume of work previously awarded to each Proposer by the County

Procurement shall receive and compile each Selection Committee member's ranking of each Proposer, and then publish a rank-ordered listing of Proposers to the Selection Committee, based on the combined average rankings given each Proposer. The Selection Committee members will then collectively decide if they would like to recommend the Board authorize staff to enter into Contract Negotiations with all Proposers elevated to Proposer Interviews, starting with the highest-ranked Proposer(s). After Board approval to authorize staff to negotiate a contract, said Proposer(s) will then be elevated to Elevation Level 4 for contract negotiations.

Elevation Level 4 (Contract Negotiations)
If a Proposer is elevated to this level, the User Division, with the assistance of Procurement and the County Attorney's Office, shall negotiate an Agreement with the elevated Proposer(s) in accordance with Section 287.055(5), Florida Statutes.

If after negotiating for a reasonable time period the parties cannot agree on a contract, the County shall, in its sole discretion, terminate further contract negotiations with that Proposer(s). Procurement shall notify the Selection Committee that contract negotiations with the elevated Proposer(s) have terminated. The Selection Committee shall then determine whether to recommend to the Board to approve contract negotiations with the next-highest-ranked Proposer, and so on. If the Selection Committee decides not to recommend contract negotiations with the next-highest-ranked Proposer, or if the County determines there is no other Proposer with whom the County can successfully negotiate a contract, then the RFP Selection Process shall terminate.

After contract negotiations with a Proposer(s) are successfully completed pursuant to Elevation Level 4, the Selection Committee shall recommend to the Board of County Commissioners that it selects such Proposer(s) to provide the services as outlined in the Agreement. The Board of County Commissioners shall make the final decision whether to enter into an Agreement with a Proposer(s).

ATTENTION PROPOSERS

The Successful Proposer must register in our new Vendor Database if you have not already done so prior to award of this RFP. A purchase order cannot be issued to a vendor until they have registered.

You may register by going to the following link:

https://www.polk-county.net/procurement/vendor-registration

Registered vendors will receive a User ID and Password to access their company information. All registered vendors must provide their owner gender, owner ethnicity, corporate status, and a minimum of one (1) commodity code to be considered registered. It is the responsibility of all vendors to update their vendor information.

Only registered vendors will receive notifications of future RFP's.

GENERAL CONDITIONS

CONTACT

After the issuance of any Request for Proposal, prospective proposers shall not contact, communicate with, or discuss any matter relating in any way to the Request for Proposal with the Board of County Commissioners, and any employee of Polk County, other than the Procurement Director or as directed in the cover page of the Request for Proposal. This prohibition begins with the issuance of any Request for Proposal and ends upon completion execution of a contract. Such communications initiated by a proposer shall be grounds for disqualifying the offending proposer from consideration for award of the proposal and/or any future proposal.

INSURANCE REQUIREMENTS

The selected firm, if any, shall maintain, at all times, the following minimum levels of insurance and shall, without in any way altering their liability, obtain, pay for and maintain insurance for the coverages and amounts of coverage not less than those set forth below. Provide to the County original Certificates of Insurance satisfactory to the County to evidence such coverage before any work commences. Polk County, a political subdivision of the State of Florida, shall be an additional named insured on all policies related to the project, excluding workers' compensation and professional liability. The Workers' Compensation and General Liability policies shall contain a waiver of subrogation in favor of Polk County. All insurance coverage shall be written with a company having an A.M. Best Rating of at least the "A" category and size category of VIII. The firm's self-insured retention or deductible per line of coverage shall not exceed $25,000 without the permission of the County. In the event of any failure by the firm to comply with the provisions; the County may, at its option, on notice to the firm suspend the project for cause until there is full compliance. Alternatively, the County may purchase such insurance at the firm's expense, provided that the County shall have no obligation to do so and if the County shall do so, the firm shall not be relieved of or excused from the obligation to obtain and maintain such insurance amounts and coverages.

Worker's Compensation and Employer's Liability Insurance providing statutory benefits, including those that may be required by any applicable federal statute:

Admitted in Florida	Yes
Employer's Liability	$100,000
All States Endorsement	Statutory
Voluntary Compensation	Statutory

Commercial General Liability Insurance. $1,000,000 combined single limit of liability for bodily injuries, death, and property damage, and personal injury resulting from any one occurrence, including the following coverages:

Premises and Operations and Products/Completed Operations;

Broad Form Commercial General Liability Endorsement to include blanket contractual liability (specifically covering, but not limited to, the contractual obligations assumed by the Firm); Personal Injury (with employment and contractual exclusions deleted) and Broad Form Property Damage coverages;

Independent Contractors; Policy must include Separation of Insureds Clause.

Comprehensive Automobile Liability Insurance. $1,000,000 combined single limit of liability for bodily injuries, death, and property damage, and personal injury resulting from any one occurrence, including all owned, hired, and non-owned vehicles.

Professional Liability Insurance. $2,000,000 for design errors and omissions, inclusive of defense costs. Selected firm shall be required to provide continuing Professional Liability Insurance to cover the project for a period of two (2) years after the projects are completed.

INDEMNIFICATION

To the maximum extent permitted by law, the Consultant shall indemnify, protect and hold the County, and its officers, employees and agents, harmless from and against any and all, claims, actions, causes of action, liabilities, penalties, forfeitures, damages, losses, and expenses whatsoever (including, without limitation, reasonable attorneys' fees, costs, and expenses incurred during negotiation, through litigation and all appeals therefrom) including, without limitation, those pertaining to the death of or injury to any person, or damage to any property, to the extent arising out of or resulting from (i) the failure of Consultant to comply with applicable laws, rules or regulations, (ii) the breach by Consultant of its obligations under this Agreement, (iii) any claim for trademark, patent, or copyright infringement arising out of the scope of Consultant's performance or nonperformance of this Agreement, or (iv) the negligent acts, errors or omissions, or intentional or willful misconduct, of Consultant or any persons or entities employed or utilized by Consultant in the performance of this Agreement. The obligations imposed by this Section shall survive the expiration or earlier termination of the Agreement.

PUBLIC ENTITY CRIMES STATEMENT

A person or affiliate who has been placed on the convicted vendor list following a conviction for a public entity crime may not submit a bid or proposal on a contract to provide any goods or services to a public entity, may not submit a bid or proposal on a contract with a public entity for the construction or repair of a public building or public work, may not submit bids on leases of real property to a public entity, may not be awarded or perform work as a contractor, supplier, subcontractor, or consultant under a contract with any public entity, and may not transact business with any public entity in excess of the threshold amount provided in Section 287.017, for CATEGORY TWO for a period of 36 months from the date of being placed on the convicted vendor list. By submitting this proposal, the proposer hereby certifies that they have complied with said statute.

EQUAL OPPORTUNITY/AFFIRMATIVE ACTION

The County is an equal opportunity/affirmative action employer. The County is committed to equal opportunity employment effort; and expects firms that do business with the County to have a vigorous affirmative action program.

WOMEN/MINORITY BUSINESS ENTERPRISE OUTREACH

The County hereby notifies all Proposers that W/MBEs are to be afforded a full opportunity to participate in any request for proposal by the County and will not be subject to discrimination on the basis of race, color, sex or national origin.

AFFIRMATION

By submitting their proposal, the Proposer affirms that the proposal is genuine and not made in the interest of or on behalf of any undisclosed person, firm or corporation and is not submitted in conformity with any agreement or rules of any group, association, organization or corporation; the Proposer has not directly or indirectly induced or solicited any other person to submit a false or sham proposal; the Proposer has not solicited or induced any person, firm or corporation to refrain from submitting a proposal; and the Proposer has not sought by collusion to obtain for him/herself any advantage over other persons or over the County.

DEVELOPMENT COSTS

Neither the County nor its representative(s) shall be liable for any expenses incurred in connection with preparation of a response to the RFP. Proposers should prepare their proposals simply and economically, providing a straightforward and concise description of the proposer's ability to meet the requirements of the RFP.

ADDENDA

The County may record its responses to inquiries and any supplemental instructions in the form of written addenda. The addenda will be posted on the County's website at https://www.polk-county.net/procurement-bids. It is the sole responsibility of the proposers to check the website to ensure that all available information has been received prior to submitting a proposal.

CODE OF ETHICS

If any proposer violates or is a party to a violation of the code of ethics of Polk County or the State of Florida, with respect to this proposal, such proposer may be disqualified from performing the work described in this proposal or from furnishing the goods or services for which the proposal is submitted and shall be further disqualified from bidding on any future proposals for work, goods, or services for the County.

DRUG FREE WORKPLACE

Preference shall be given to businesses with Drug Free Workplace (DFW) programs. Whenever two or more proposals, which are equal with respect to price, quality and service, are received by the County for the procurement of commodities or contractual services, a proposal received from a business that has provided a statement that it is a DFW shall be given preference in the award process.

APPLICABLE LAWS AND COURTS

This RFP and any resulting agreements shall be governed in all respects by the laws of the State of Florida and any litigation with respect thereto shall be brought only in the courts of Polk County, Florida or the United States District Court, Middle District of Florida, located in Hillsborough County, Florida. The proposer shall comply with all applicable federal, state and local laws and regulations.

CONTRACTUAL MATTERS

A contract in substantially the same form as attached here to as Attachment "A" (Master Consulting Agreement) will be executed between the County and the successful Proposer(s).

All contracts are subject to final approval of the Polk County Board of County Commissioners. Persons or firms who incur expenses or change position in anticipation of a contract prior to the Board's approval do so at their own risk.

PROPOSAL ACCEPTANCE PERIOD

A proposal shall be binding upon the offeror and irrevocable by it for one hundred and twenty (120) calendar days following the proposal opening date. Any proposal in which offeror shortens the acceptance period may be rejected.

ADDITION/DELETION

The County reserves the right to add to or delete any item from this proposal or resulting agreements when deemed to be in the best interest of the County.

PROPRIETARY INFORMATION

In accordance with Chapter 119 of the Florida Statutes (Public Records Law), and except as may be provided by other applicable State and Federal Law, all proposers should be aware that Request for Proposals and the responses thereto are in the public domain. However, the proposers are required to identify specifically any information contained in their proposals which they consider confidential and/or proprietary and which they believe to be exempt from disclosure, citing specifically the applicable exempting law. Proposers should provide a redacted copy of proposal with submittal or must provide within thirty (30) days from the Proposal due date.

All proposals received from proposers in response to this Request for Proposal will become the property of the County and will not be returned to the proposers. In the event of contract award, all documentation produced as part of the contract will become the exclusive property of the County.

REVIEW OF PROPOSAL FILES

In accordance with Chapter 119.071 of the Florida Statutes, the responses received for this Request for Proposal are exempt from review for thirty (30) days after the Bid Opening Date or at Recommendation of Award, whichever event occurs first.

Should the RFP be cancelled and re-solicited for any reason, proposal responses shall remain exempt from disclosure for a period not to exceed twelve (12) months or at Recommendation of Award of the subsequent solicitation.

RFP PROTEST: Any proposer desiring to file a protest, with respect to a recommended award of any RFP, shall do so by filing a written protest. The written protest must be in the possession of the Procurement Division within three (3) working days of the Notice of Recommended Award mailing date. All proposers who submitted a proposal will be sent a Notice of Recommended Award, unless only one proposal was received.

A copy of the protest procedures may be obtained from the Polk County Procurement Division or can be downloaded from the County's website at https://www.polk-county.net/procurement/protest-procedures.

FAILURE TO FOLLOW PROTEST PROCEDURE REQUIREMENTS WITHIN THE TIME FRAMES PRESCRIBED HEREIN AS ESTABLISHED BY POLK COUNTY, FLORIDA, SHALL CONSTITUTE A WAIVER OF THE PROPOSER'S RIGHT TO PROTEST AND ANY RESULTING CLAIM.

UNAUTHORIZED ALIEN(S) The Consultant agrees that unauthorized aliens shall not be employed nor utilized in the performance of the requirements of this solicitation. The County shall consider the employment or utilization of unauthorized aliens a violation of Section 274A(e) of the Immigration and Naturalization Act (8 U.S.C. 1324a). Such violation shall be cause for unilateral termination of this Agreement by the County. As part of the response to this solicitation, the successful consultant will complete and submit the form "AFFIDAVIT CERTIFICATION IMMIGRATION LAWS."

EMPLOYMENT ELIGIBILITY VERIFICATION (E-Verify)

A. Unless otherwise defined herein, terms used in this Section which are defined in Section 448.095, Florida Statutes, as may be amended from time to time, shall have the meaning ascribed in said statute.

B. Pursuant to Section 448.095(2)(a), Florida Statutes, effective January 1, 2021, public employers, contractors and subcontractors shall register with and use the E-verify system in order to verify the work authorization status of all newly hired employees. The Contractor acknowledges and agrees that use of the U.S. Department of Homeland Security's E-Verify System and compliance with all other terms of this Certification and Section 448.095, Fla. Stat., is an express condition of this Agreement, and the County may treat a failure to comply as a material breach of this Agreement.

C. By entering into this Agreement, the Contractor becomes obligated to comply with the provisions of Section 448.095, Fla. Stat., "Employment Eligibility," as amended from time to time. This includes but is not limited to utilization of the E-Verify System to verify the work authorization status of all newly hired employees, and requiring all subcontractors to provide an affidavit attesting that the subcontractor does not employ, contract with, or subcontract with, an unauthorized alien. The Contractor shall maintain a copy of such affidavit for the duration of the contract. Failure to comply will lead to termination of this Agreement, or if a subcontractor knowingly violates the statute or

Section 448.09(1), Fla. Stat., the subcontract must be terminated immediately. Any challenge to termination under this provision must be filed in the Tenth Judicial Circuit Court of Florida no later than 20 calendar days after the date of termination. If this Agreement is terminated for a violation of the statute by the Contractor, the Contractor may not be awarded a public contract for a period of 1 year after the date of termination. The Contractor shall be liable for any additional costs incurred by the County as a result of the termination of this Agreement. Nothing in this Section shall be construed to allow intentional discrimination of any class protected by law.

LIMITATIONS

This request does not commit Polk County to award a contract. Proposers will assume all costs incurred in the preparation of their response to this RFP. The County reserves the right to: 1) accept or reject qualifications and/or proposals in part or in whole; 2) request additional qualification information; 3) limit and determine the actual contract services to be included in a contract; 4) obtain information for use in evaluating submittals from any source and 5) reject all submittals.

ATTORNEY'S FEES AND COSTS: Each party shall be responsible for its own legal and attorney's fees, costs and expenses incurred in connection with any dispute or any litigation arising out of, or relating to this Agreement, including attorney's fees, costs and expenses incurred for any appellate or bankruptcy proceedings.

PUBLIC RECORD LAWS

(a) The Consultant acknowledges the County's obligations under Article I, Section 24, of the Florida Constitution and under Chapter 119, Florida Statutes, to release public records to members of the public upon request and comply in the handling of the materials created under this Agreement. The Consultant further acknowledges that the constitutional and statutory provisions control over the terms of this Agreement. In association with its performance pursuant to this Agreement, the Consultant shall not release or otherwise disclose the content of any documents or information that is specifically exempt from disclosure pursuant to all applicable laws.

(b)Without in any manner limiting the generality of the foregoing, to the extent applicable, the Consultant acknowledges its obligations to comply with Section 119.0701, Florida Statutes, with regard to public records, and shall:

(1) keep and maintain public records required by the County to perform the services required under this Agreement;

(2) upon request from the County's Custodian of Public Records or his/her designee, provide the County with a copy of the requested records or allow the records to be inspected or copied within a reasonable time at a cost that does not exceed the cost provided in Chapter 119, Florida Statutes, or as otherwise provided by law;

(3) ensure that public records that are exempt or confidential and exempt from public records disclosure requirements are not disclosed except as authorized by law for the duration of the term of this Agreement and following completion of this Agreement if the Consultant does not transfer the records to the County; and

(4) upon completion of this Agreement, transfer, at no cost, to the County all public records in possession of the Consultant or keep and maintain public records required by the County to perform the service. If the Consultant transfers all public records to the County upon completion of this Agreement, the Contractor shall destroy any duplicate public records that are exempt or confidential and exempt from public records disclosure requirements. If the Consultant keeps and maintains public records upon completion of this Agreement, the Consultant shall meet all applicable requirements for retaining public records. All records stored electronically must be provided to the County, upon request from the County's Custodian of Public Records, in a format that is compatible with the information technology systems of the County.

(c) **IF THE CONSULTANT HAS QUESTIONS REGARDING THE APPLICATION OF CHAPTER 119, FLORIDA STATUTES, TO THE CONSULTANT'S DUTY TO PROVIDE PUBLIC RECORDS RELATING TO THIS AGREEMENT, CONTACT THE COUNTY'S CUSTODIAN OF PUBLIC RECORDS AT:**

Scrutinized Companies and Business Operations Certification; Termination.

A. Certification(s).
   i. By its execution of this Agreement, the Vendor hereby certifies to the County that the Vendor is not on the Scrutinized Companies that Boycott Israel List, created pursuant to Section 215.4725, Florida Statutes, nor is the Vendor engaged in a boycott of Israel, nor was the Vendor on such List or engaged in such a boycott at the time it submitted its bid, proposal, quote, or other form of offer, as applicable, to the County with respect to this Agreement.
   ii. Additionally, if the value of the goods or services acquired under this Agreement are greater than or equal to One Million Dollars ($1,000,000), then the Vendor further certifies to the County as follows:
      a) the Vendor is not on the Scrutinized Companies with Activities in Sudan List, created pursuant to Section 215.473, Florida Statutes; and
      b) the Vendor is not on the Scrutinized Companies with Activities in the Iran Petroleum Energy Sector List, created pursuant to Section 215.473, Florida Statutes; and
      c) the Vendor is not engaged in business operations (as that term is defined in Florida Statutes, Section 287.135) in Cuba or Syria; and
      d) the Vendor was not on any of the Lists referenced in this subsection A(ii), nor engaged in business operations in Cuba or

Syria when it submitted its proposal to the County concerning the subject of this Agreement.

iii. The Vendor hereby acknowledges that it is fully aware of the penalties that may be imposed upon the Vendor for submitting a false certification to the County regarding the foregoing matters.

B. Termination. In addition to any other termination rights stated herein, the County may immediately terminate this Agreement upon the occurrence of any of the following events:

i. The Vendor is found to have submitted a false certification to the County with respect to any of the matters set forth in subsection A(i) above, or the Vendor is found to have been placed on the Scrutinized Companies that Boycott Israel List or is engaged in a boycott of Israel.

ii. The Vendor is found to have submitted a false certification to the County with respect to any of the matters set forth in subsection A(ii) above, or the Vendor is found to have been placed on the Scrutinized Companies with Activities in Sudan List, or the Scrutinized Companies with Activities in the Iran Petroleum Energy Sector List, or has been engaged in business operations in Cuba or Syria, and the value of the goods or services acquired under this Agreement are greater than or equal to One Million Dollars ($1,000,000).

Proposers Incorporation Information

(Submittal Page)

The following section should be completed by all bidders and submitted with their bid submittal:

Company Name: _____

DBA/Fictitious Name (if applicable): _____

TIN #: _____

Address: _____

City: _____

State: _____

Zip Code: _____

County: _____

Note: Company name must match legal name assigned to the TIN number. A current W9 should be submitted with your bid submittal.

Contact Person: _____

Phone Number: _____

Cell Phone Number: _____

Email Address: _____

Type of Organization (select one type)

- □ Sole Proprietorship
- □ Partnership
- □ Non-Profit
- □ Sub Chapter
- □ Joint Venture
- □ Corporation
- □ LLC
- □ LLP
- □ Publicly Traded
- □ Employee Owned

State of Incorporation: _____

The Successful vendor must complete and submit this form prior to award. The Successful vendor must invoice using the company name listed above.

EXHIBIT 1
DETAILED INSTRUCTIONS ON HOW TO PREPARE AND SEND PERFORMANCE SURVEYS

The objective of this process is to identify the past performance of the Contractor submitting a proposal package. This is accomplished by sending survey forms to past customers. The customers should return the forms directly to the Contractor. The Contractor is to include all surveys in their proposal package.

Sending the Survey

The surveys shall be sent to all clients for whom the Contractor has identified under Tab 3. Surveys should correlate to all projects identified under Tab 3.

If more surveys are included, then Procurement will only use those identified under Tab 3.

1. The Contractor shall complete the following information for each customer that a survey will be sent

CLIENT NAME	Name of the company that the work was performed for (i.e. Hillsborough County).
FIRST NAME	First name of the person who will answer customer satisfaction questions.
LAST NAME	Last name of the person who will answer customer satisfaction questions.
PHONE NUMBER	Current phone number for the reference (including area code).
EMAIL ADDRESS	Current email address for the reference.
PROJECT NAME	Name of the project (Geotechnical Services/Construction Material Testing and Inspection for X Project)
COST OF SERVICES	Cost of services ($250,000)
DATE COMPLETE	Date when the services were completed. (i.e. 5/31/2022)

2. The Contractor is responsible for verifying that their information is accurate prior to submission for references.

3. The survey must contain different services/projects. You cannot have multiple people evaluating the same job. However, one person may evaluate several different jobs.

4. The past projects can be either completed or on-going.

5. The past client/owner must evaluate and complete the survey.

Preparing the Surveys

1. The Contractor is responsible for sending out a performance survey to the clients that have been identified under Tab 3. The survey can be found on the next page.
2. The Contractor should enter the past clients' contact information, and project information on each survey form for each reference. The Contractor should also enter their name as the Contractor being surveyed.
3. The Contractor is responsible for ensuring all references/surveys are included in their submittal under Tab 8
4. Polk County Procurement may contact the reference for additional information or to clarify survey data. If the reference cannot be contacted, there will be no credit given for that reference.

Survey Questionnaire – Polk County

RFP 23-328, Professional Geotechnical Services and Construction Material Testing and Inspection

To: _____ (Name of Person completing survey)

_____ (Name of Client Company/Contractor)

Phone Number: _____ Email: _____

Subject: Past Performance Survey of Similar work:

Contract Start Date: _____ Contract End Date: _____

Rate each of the criteria on a scale of 1 to 10, with 10 representing that you were very satisfied (and would hire the Consultant /individual again) and 1 representing that you were very unsatisfied (and would never hire the Consultant /individual again). Please rate each of the criteria to the best of your knowledge. If you do not have sufficient knowledge of past performance in a particular area, leave it blank.

NO	CRITERIA	UNIT	SCORE
1	Ability to manage cost	(1-10)	
2	Ability to maintain project schedule (complete on-time/early)	(1-10)	
3	Quality of workmanship	(1-10)	
4	Professionalism and ability to manage	(1-10)	
5	Close out process	(1-10)	
6	Ability to communicate with Client's staff	(1-10)	
7	Ability to resolve issues promptly	(1-10)	
8	Ability to follow protocol	(1-10)	
9	Ability to maintain proper documentation	(1-10)	
10	Appropriate application of technology	(1-10)	
11	Overall Client satisfaction and comfort level in hiring	(1-10)	
12	Ability to offer solid recommendations	(1-10)	
13	Ability to facilitate consensus and commitment to the plan of action among staff	(1-10)

Exhibit “A”
Specific Services

Specific services shall include, but not be limited to, sampling and testing of soils, concrete, asphalt and various other construction materials.

1.	In-Place density tests
2.	Standard or modified proctors
3.	Limerock Bearing Ratio tests (3 points)
4.	Compressive strength of concrete cylinders (4 per set)
5.	Compressive strength of soil-cement pills (4 per set)
6.	Core drilling & soils analysis
	STEEL INSPECTION
1.	Inspection of Welds & Bolt Torqueing A) At Plant B) At Job Site 1. One (1) Man Inspection Crew 2. Two (2) Men Inspection Crew
2.	Reinforcing Steel Inspection
3.	Nondestructive Testing of Steel & Connections
	GEOTECHNICAL INVESTIGATIONS & SOIL TESTS
1.	**Standard Penetration Test Borings (ASTM D-1586)(Minimum 50 feet per job)** A) 0-50 foot depth interval B) 50-100 foot depth interval C) 100-125 foot depth interval D) 125-150 foot depth interval
2.	Solid Auger Stem Borings (minimum 100 feet per job)
3.	Manual Auger Borings
4.	Drill Service from Floating Platform
5.	Rock Coring
6.	Installation of Steel Casing

7.	Ground Penetrating Radar
8.	Cone Penetrometer Radar
9.	Dilatometer Soundings
10.	Atterberg Limits A) Liquid Limit (LL) – Plastic Limit (PL) B) Shrinkage Limit (SL)
11.	California Bearing Ratio
12.	Consolidation A) Consolidation with Reload
13.	Corrosion Resistance (pH and R)
14.	Field Density Tests (minimum 3 tests per trip)
15.	Florida Bearing Value (FBCV)
16.	Florida Bearing Value Determination of Blend Proportions
17.	Grain Size: A) Hydro Analysis B) Sieve Analysis (Wash No. 200 Sieve)
18.	Ground Penetrating Radar
	GEOTECHNICAL INVESTIGATIONS & SOIL TESTS
19.	Limerock Bearing Ratio (LBR) (3 point)
20.	Limerock Bearing Ratio (LBR) (5 point)
21.	Moisture Content
22.	Moisture Density Test (Standard or Modified Proctor)
23.	Muck Probing 2 Man Crew 3 Man Crew
24.	Organic Content Determination
25.	Monitor Well Installation includes permits, lithologic log, and report – 2” or 4” PVC with removable, water-tight plug
	Hollow Stem Auger Boring
	Casing: 2-inch PVC (site spec. may require stickup)
	Casing: 4-inch PVC (site spec. may require stickup)
	Casing: 2-inch Steel (site spec. may require stickup)

	Casing: 4-inch Steel (site spec. may require stickup)
	0.010-inch Filter Screen: 2-inch PVC + min. 6-inch tail
	0.005-inch Filter Screen: 2-inch PVC + min. 6-inch tail
	0.010-inch Filter Screen: 4-inch PVC + min. 6-inch tail
	0.005-inch Filter Screen: 4-inch PVC + min. 6-inch tail
	Filter Sand: Varies from approx. 30/65 to approx. 20/30
	Bentonite: Chips / Balls
	Bentonite: Slurry / Slurry by tremie pipe
	Neat Grout
	Protective Casing (Hinged top and lockable) w/ name plate
	Concrete Pad (2'x2'x4" above-ground or 12-inch flush-mount round)
	Concrete-filled, Painted, Protective Bollard min. 4.5-inch O.D. max 6-inch O.D. (4-foot tall / 2-foot buried)
26.	Well Abandonment includes permits and report
	2-inch Well
	4-inch Well
27.	Tracked-Mounted Direct Push Technology (DPT) Rig w/all equipment and crew
	GEOTECHNICAL INVESTIGATIONS & SOIL TESTS
28.	pH
29.	Permeability Tests – Field (15', 2 depths) (Excluding auger borings & vertical permeability)
30.	Permeability Tests – Laboratory Granular Soil Cohesive Soil
31.	Soil-Cement, Field Testing & Observation
32.	Soil-Cement, Laboratory Design Mixes (FOB Laboratory)

33.	Soil Plate Load Test (ASTM)
34.	Specific Gravity
35.	Double Ring Infiltrometer Test
36.	Relative Density Test
37.	Triaxial Compression Test (CU) (3 points) Additional points
38.	Unconfined Compression Tests
39.	Undisturbed Thin-Walled Tube Sampling
40.	Unit Weight
	ASPHALTIC CONCRETE INSPECTION SERVICES
1.	Asphaltic Concrete Paving Plant Inspection
2.	Asphalt Mix-Gradation
3.	Asphalt Mix-Bulk Specific Gravity
4.	Asphalt Mix-Gradation
5.	Asphalt Mix- Maximum Specific Gravity
6.	Asphalt Mix- Temperature
7.	RAP – Asphalt Binder Content
8.	RAP – Gradation
9.	RAP- Maximum Specific Gravity
10.	Coring Pavement for Density and/or Thickness
11.	Asphalt Core Density (core provided by others)
12.	Gyratory Compaction for SuperPave AASH to TP4-00
13.	Quantitative Determination of Asphalt Content from Asphalt Paving Mixtures by the Ignition Method FM5-563
	CONCRETE TESTING
	Concrete Aggregate Tests (FOB Lab)
1.	Sieve Analysis, Fine or Coarse
2.	Absorption
3.	Specific Gravity

4.	Unit Weight
5.	Material Finer than No. 200 Sieve
6.	Organic (Color metric ASTM C-40)
7.	Salt Content
8.	Los Angeles Abrasion
9.	Soundness (5 cycle sodium sulfate) (5 cycle magnesium sulfate)
10.	Masonry Mortar strength Comparative, Sand or Water
	Concrete Beams
11.	Flexural Strength, Making & Testing (3 tests per set)
	Concrete Masonry Units or Prisms
12.	Compressive Strength, ASTM C-140, 5 Specimens
13.	Absorption & Moisture Content, ASTM C-150, 5 Specimens
14.	Compressive Strength Testing of Hollow Masonry Prisms ASTM E-477 (FOB)
15.	Compressive Strength Testing of Hollow Masonry Prisms with Grouted Cells, ASTM E-477
16.	Molding, Curing & Testing of 2” x 2” Masonry Mortar Cubes (set of 3 cubes)
17.	Concrete Masonry Units, ASTM Test (5 Compression & 5 Absorption Tests)
	Concrete Coring
18.	Securing Structural or Pavement Cores, Compression Tests & Thickness
19.	Coring Site Accessible – Does not include mobilization charge, staging and/or scaffolding, 4” diameter or smaller, 6” thickness or less. Compressive Strength of Concrete Cores (cores provided by others)
	Grout Cubes
20.	Making and Compression Tests of 2” Cubes from Job Site (set of 3)

	Concrete Cylinders
21.	Making & Compression Tests of 6” x 12” Cylinders (Slump Test Included)
22.	Compression Tests of 6” x 12” Cylinders
23.	Extra Slump Tests
24.	Air Content Tests
	Concrete Design Mixes
25.	Concrete Design Mixes (including standard aggregate tests & one trial batch with 6 compression test cylinders)
26.	Brush/Loss (for soil Cement basis) ASTM Durarock & Pug Mix
27.	Linear Shrinkage Tests of Concrete Block (ASTM 426)
28.	Concrete Ready Mix Plant or Job Inspection
29.	Pre-Fabricated Panel Tests, ASTM or FHA

CLARIFICATION

DELETE IN ITS ENTIRETY:

Page 20, Contractual Matters

A contract in substantially the same form as attached here to as Attachment "A" (Master Consulting Agreement) will be executed between the County and the successful Proposer(s).

All contracts are subject to final approval of the Polk County Board of County Commissioners. Persons or firms who incur expenses or change position in anticipation of a contract prior to the Board's approval do so at their own risk.

REPLACE WITH:

A contract in substantially the same form as attached here to as Attachment "B" (Master Consulting Agreement) will be executed between the County and the successful Proposer(s).

All contracts are subject to final approval of the Polk County Board of County Commissioners. Persons or firms who incur expenses or change position in anticipation of a contract prior to the Board's approval do so at their own risk.

DRAFT AGREEMENT
MASTER CONSULTING AGREEMENT

THIS AGREEMENT is entered into as of the Effective Date (defined in Section 1.1 below) by and between Polk County (the "County"), a political subdivision of the State of Florida, situated at 330 W. Church Street, Bartow, Florida 33830, _____ (the "Consultant") a _____ _____, located at _____, and whose Federal Employer Identification Number is: _____.

WHEREAS, County requires certain professional services in connection with the performance of certain professional geotechnical services and construction material testing and inspection for all Divisions in the County; and,

WHEREAS, the County has solicited for these services via RFP 23-328, an advertised request for proposals (the "RFP"), and has received numerous responsive proposals thereto; and

WHEREAS, pursuant to the RFP, the County has selected the Consultant and the Consultant remains agreeable to providing the County the professional services described herein, and the Consultant represents that it is capable and prepared to do so according to the terms and conditions stated herein;

NOW, THEREFORE, in consideration of the mutual understandings and covenants set forth herein, the parties hereby agree, as follows:

1.0 **Term**

1.1 This Agreement shall take effect on the date of its execution by the County (the "Effective Date").

1.2 The term of this Agreement shall be for a five (5) year time period, commencing upon the Effective Date and remaining in full force and effect thereafter, unless otherwise sooner terminated as provided herein.

2.0 **Services to Be Performed by Consultant**

2.1 Consultant shall perform the services as generally described in (i) the County's Request for Proposals RFP 23-328, to include all attachments and addenda, and (ii) the Consultant's responsive proposal thereto (collectively, (i) and (ii) are "RFP 23-328") all of which are incorporated into this Agreement by this reference, attached hereto as a composite Exhibit "A" and made a part of

this Agreement, and as may be further specifically designated and authorized by the County, in writing (collectively, the "Services"). Such authorization will be referred to as a Consultant Services Authorization ("CSA") or a Contract Purchase Order ("CPO") and all provisions of this Agreement apply to the CSA/CPO with full force and effect as if appearing in full within each CSA/CPO. Each CSA/CPO will set forth a specific Scope of Services, maximum limit of compensation, schedule, liquidated damages and completion date, and shall become effective upon the due execution.

2.2 The Consultant is not authorized to undertake any project without a duly executed CSA/CPO, which shall specify the work to be performed and the time to be completed. Consultant recognizes that the County may employ several different Consultants to perform the work described and that the Consultant has not been employed as the exclusive agent to perform any such services.

2.3 When the Consultant and the County enter into a CSA/CPO where the term of the CSA/CPO expires on a date that is later than the date that the Master Consulting Agreement (MCA) expires, the Consultant and the County agree that the terms of the MCA and any amendments, attachments or provisions thereof are automatically extended until the expiration (including any extension or amendment thereto) or full completion of the requirements of the CSA/CPO have been performed. Cancellation by the County of any remaining work prior to the full completion of the requirements of the CSA/CPO shall cause the terms of the MCA to terminate at the same time. This provision only applies when the expiration of the CSA/CPO extends beyond the expiration of the MCA. It does not apply when a CSA/CPO expires or is cancelled prior to the expiration of the MCA.

3.0 **Compensation**

3.1 General

3.1.1 County shall pay Consultant in accordance with Exhibit "B", "Fee Schedule", which is attached hereto and incorporated by reference as part of this Agreement. The fee schedule identifies all job classifications, which will perform billable services pursuant to this Agreement and the fee for each job classification. Performance of work by personnel in job classifications not listed on the fee schedule will result in nonpayment for such services.

3.1.2 Upon the mutual agreement of the parties, the Fee Schedule, as set out in Exhibit "B" may be adjusted by a written Amendment to the Master Consulting Agreement annually beginning one year from the Effective Date of this Agreement. Such amendment must be executed by both parties and shall operate prospectively only and shall not alter fee schedules for CSA's/CPO's in effect at the time of the amendment.

3.1.3 Compensation may be negotiated as a not to exceed price or a lump sum amount on a per-project basis, on each individual CSA/CPO.

3.1.4 In the event a not to exceed price is negotiated, compensation shall be billed and paid based on and in accordance with the Hourly Rate Schedule attached hereto and incorporated herein as Exhibit "B". The Hourly Rate Schedule identifies all job classifications which will perform billable services pursuant to this Agreement and the fee for each job classification. Performance of work by personnel in job classifications not listed on the fee schedule will result in nonpayment for such services.

3.1.5 Invoices must reference the applicable CSA/CPO number, using an invoice form approved by the County Auditor.

3.1.6 Each individual invoice shall be due and payable forty-five (45) days after receipt by the County of correct, fully documented, invoice, in form and substance satisfactory to the County with all appropriate cost substantiations attached. All invoices shall be delivered, as applicable based on the particular project:

Polk County Roads & Drainage Division
P.O. Box 9005, Bartow, FL 33830
Attention: Director

3.1.7 In order for both parties herein to close their books and records, the Consultant will clearly state "Final Invoice" on the Consultant's final/last billing to the County. This certifies that all services have been properly performed and all charges and costs have been invoiced to the County. Since this account will thereupon be closed, any and other further charges if not properly included on this final invoice are waived by the Consultant.

3.1.8 Payment of the final invoice shall not constitute evidence of the County's

DRAFT

acceptance of the work

3.1.9 Invoices shall be accompanied by time and task records for all billable hours appearing on the invoice. Additional documents may be requested by County and, if so requested, shall be furnished by Consultant to County Auditor's satisfaction.

3.1.10 By submission of an invoice, the project manager or designated payroll officer is deemed to be attesting to the correctness and accuracy of time charges and requested reimbursements.

3.1.11 Pursuant to Section 3.1.4, if a not to exceed fee is negotiated, invoices shall be accompanied by time and task records for all billable hours appearing on the invoice. Alternatively, if a lump sum amount is negotiated, invoices shall be made upon the completion of each phase of the work in proportion to the Services performed, as specifically set forth in the applicable CSA or CPO. Additional documentation may be requested by the County and, if so requested, shall be furnished by the Consultant to the County Auditor's satisfaction.

3.2 Reimbursable

3.2.1 All requests for payment of out-of-pocket expenses eligible for reimbursement under the terms of this Agreement shall be reimbursed per the County's Reimbursable Schedule, Exhibit "C", and include copies of paid receipts, invoices or other documentation acceptable to the County's Auditor. Such documentation shall be sufficient to establish that the expense was actually incurred and necessary in the performance of the Scope of Work described in this Agreement, CSA, or CPO.

3.2.2 Reimbursable Expenses are the actual, pre-approved, expenses incurred directly in connection with the applicable CSA or CPO, and include:

Overnight Deliveries
Reproduction
Sub-Consultant
Long Distance Telephone Calls (excluding Florida cities located outside the boundaries of Polk County)

3.2.3 Mileage and associated travel costs shall be reimbursed in accordance with F.S. 112.061 and County policy for pre-approved out-of-county travel (excluding travel from home

DRAFT

offices located outside of Polk County to the Polk County line).

3.2.4 All assets, i.e. durable goods, purchased as reimbursable expenses become the property of the County upon completion of the work for which the asset was utilized. All such assets must be surrendered by delivery to the Polk County Roads & Drainage Division offices upon demand, termination of the Agreement, or the conclusion of the project, whichever occurs first.

3.2.5 Consultant shall maintain a current inventory of all such assets.

4.0 **Insurance**

4.1 General Provisions

4.1.1 Consultant shall maintain, at all times, the following minimum levels of insurance and shall, without in any way altering their liability, obtain, pay for and maintain insurance for the coverages and amounts of coverage not less than those set forth below and provide the County with a Certificate of Insurance and an opportunity to inspect a certified copy of each policy applicable to this Agreement followed thereafter by an annual Certificate of Insurance satisfactory to the County to evidence such coverage before any work commences.

4.1.2 The County shall be named as an additional insured on all Consultant policies related to the project, excluding professional liability and worker's compensation. The Commercial General Liability and Worker's Compensation Liability policies shall contain a waiver of subrogation in favor of Polk County. All insurance coverage shall be written with an insurer having an A.M. Best Rating of a least the "A" category and size category of VIII.

4.1.3 The Consultant's self-insured retention or deductible per line of coverage shall not exceed $25,000.00 without the permission of the County.

4.1.4 If there is any failure by the Consultant to comply with the provisions of this section, the County may, at its option, on notice to the Consultant, suspend the work for cause until there is full compliance.

4.1.5 County may, at its sole discretion, purchase such insurance at Consultant's expense provided that the County shall have no obligation to do so and if the County shall do so, it shall not relieve Consultant of its obligation to obtain insurance.

DRAFT

4.1.6 The Consultant shall not be relieved of or excused from the obligation to obtain and maintain such insurance amount and coverages.

4.1.7 All Consultants' subconsultants shall be required to include County and Consultant as additional insured on their General Liability Insurance policies.

4.1.8 In the event that subconsultants used by the Consultant do not have insurance, or do not meet the insurance limits, Consultant shall indemnify and hold harmless the County for any claim in excess of the subconsultants' insurance coverage.

4.1.9 The Consultant shall not commence work under this Agreement until all insurance required as stated herein has been obtained and such insurance has been approved by the County.

4.2 Comprehensive Automobile Liability Insurance. $1,000,000.00 combined single limit of liability for bodily injuries, death and property damage resulting from any one occurrence, including all owned, hired, and non-owned vehicles.

4.3 Commercial General Liability. $1,000,000.00 combined single limit of liability for bodily injuries, death and property damage, and personal injury resulting from any one occurrence, including the following coverages:

4.3.1 Premises and Operations:

Broad Form Commercial General Liability Endorsement to include Blanket Contractual liability (specifically covering, but not limited to, the contractual obligations assumed by the Firm); Personal Injury (with employment and contractual exclusions deleted); and Broad Form Property Damage coverage.

4.3.2 Independent Contractors:

Delete Exclusion relative to collapse, explosion and underground; Property Damage Hazards; Cross Liability Endorsement; and Contractual liability (specifically covering, but not limited to, the contractual obligations assumed by the Firm)

4.4 Umbrella (Excess) Liability Insurance. Umbrella Liability with limits of not less than $1,000,000.00, exclusive of defense costs, to be in excess of all other coverages. Such coverage shall be at least as broad as the primary coverages above, with any excess umbrella layers written on a

DRAFT

strict following form basis over the primary coverage. All such policies shall be endorsed to provide defense coverage obligations.

4.5 Professional Liability Insurance. $2,000,000.00 for design errors and omissions, inclusive of defense costs. Consultant shall be required to provide continuing Professional Liability Insurance to cover each project for a period of two (2) years after the project is completed. Insurance requirements may vary depending on projects as determined by the County Director of Risk Management and Insurance. The County may require the Consultant to provide a higher level of coverage for a specific project and time frame.

4.6 Performance, Payment and Other Bonds. Consultant shall furnish Performance and Payment Bonds specific to each project if required and agreed to under the CSA or CPO for the project.

4.7 Worker's Compensation. The Consultant shall provide, pay for, and maintain worker's compensation insurance on all employees, its agents or subcontractors as required by Florida Statutes.

5.0 **Standard of Care**

5.1 Consultant has represented to the County that it has the personnel and experience necessary to perform the work in a professional and workmanlike manner.

5.2 Consultant shall exercise the same degree of care, skill, and diligence in the performance of the Services as is provided by a professional of like experience, knowledge and resources, under similar circumstances.

5.3 Consultant shall, at no additional cost to County, re-perform services which fail to satisfy the foregoing standard of care or otherwise fail to meet the requirement of this Agreement.

5.4 The Consultant warrants that all services shall be performed by skilled and competent personnel to the professional standards in the field.

6.0 **Indemnification**

6.1 General. Having considered the risks and potential liabilities that may exist during the performance of the Services and in consideration of the promises included herein, County and

DRAFT

Consultant agree to allocate such liabilities in accordance with this Section.

6.2 Indemnification.

6.2.1 Consultant, to the extent permitted by law, shall indemnify, defend (by counsel reasonably acceptable to County) protect and hold County, and its officers, employees and agents harmless from and against any and all, claims, actions, causes of action, liabilities, penalties, forfeitures, damages, losses and expenses (including, without limitation, attorney's fees costs and expenses incurred during negotiation, through litigation and all appeals therefrom) whatsoever including, but not limited, to those pertaining to the death of or injury to any person, or damage to any property, arising out of or resulting from (i) the failure of Consultant to comply with applicable laws, rules or regulations, (ii) the breach by Consultant of its obligations under this Agreement, (iii) any claim for trademark, patent or copyright infringement arising out of the scope of Consultant's performance or nonperformance of this Agreement, or (iv) the negligent acts, errors or omissions, or intentional or willful misconduct, of Consultant, its professional associates, its subcontractors, agents, and employees provided, however, that Consultant shall not be obligated to defend or indemnify the County with respect to any such claims or damages arising out of the County's sole negligence.

6.2.2 County review, comment and observation of the Consultant's work and performance of this Agreement shall in no manner constitute a waiver of the indemnification provisions of this Agreement.

6.2.3 Consultant agrees that it bears sole legal responsibility for its work and work product, and the work and work product of subconsultants and their employees, and/or for Consultant's performance of this Agreement and its work product(s).

6.3 Survival. Upon completion of all Services, obligations and duties provided for in this Agreement, or in the event of termination of this Agreement for any reason, the terms and conditions of this Agreement shall survive as if the Agreement were in full force and effect.

7.0 **Independent Contractor**

7.1 Consultant undertakes performance of the Services as an independent contractor and shall be wholly responsible for the methods of performance.

7.2 County shall have no right to supervise the methods used, but County shall have the right to observe such performance.

7.3 Consultant shall work closely with County in performing Services under this Agreement.

7.4 The Consultant shall not pledge the County's credit or make it a guarantor of payment or surety for any contract, debt, obligation, judgment, lien or any form of indebtedness and shall have no right to speak for or bind the County in any manner.

7.5 Consultant further warrants and represents that it has no obligation or indebtedness that would impair its ability to fulfill the terms of this Agreement.

8.0 **Authority to Practice**

8.1 The Consultant hereby represents and warrants that it has and will continue to maintain all licenses and approvals required to conduct its business, and that it will at all times conduct its business activities in a reputable manner.

9.0 **Public Records Law**

(a) The Consultant acknowledges the County's obligations under Article I, Section 24, of the Florida Constitution and under Chapter 119, Florida Statutes, to release public records to members of the public upon request and comply in the handling of the materials created under this Agreement. The Consultant further acknowledges that the constitutional and statutory provisions control over the terms of this Agreement. In association with its performance pursuant to this Agreement, the Consultant shall not release or otherwise disclose the content of any documents or information that is specifically exempt from disclosure pursuant to all applicable laws.

(b) Without in any manner limiting the generality of the foregoing, to the extent applicable, the Contractor acknowledges its obligations to comply with Section 119.0701, Florida Statutes, with regard to public records, and shall:

(1) keep and maintain public records required by the County to perform the services required under this Agreement;

(2) upon request from the County's Custodian of Public Records or his/her designee, provide the County with a copy of the requested records or allow the records to be inspected or copied within a reasonable time at a cost that does not exceed the cost provided in Chapter 119, Florida Statutes, or as otherwise provided by law;

(3) ensure that public records that are exempt or confidential and exempt from public records disclosure requirements are not disclosed except as authorized by law for the duration of the term of this Agreement and following completion of this Agreement if the Consultant does not transfer the records to the County; and

(4) upon completion of this Agreement, transfer, at no cost, to the County all public

records in possession of the Consultant or keep and maintain public records required by the County to perform the service. If the Consultant transfers all public records to the County upon completion of this Agreement, the Consultant shall destroy any duplicate public records that are exempt or confidential and exempt from public records disclosure requirements. If the Consultant keeps and maintains public records upon completion of this Agreement, the Consultant shall meet all applicable requirements for retaining public records. All records stored electronically must be provided to the County, upon request from the County's Custodian of Public Records, in a format that is compatible with the information technology systems of the County.

(c) **IF THE CONSULTANT HAS QUESTIONS REGARDING THE APPLICATION OF CHAPTER 119, FLORIDA STATUTES, TO THE CONTRACTOR'S DUTY TO PROVIDE PUBLIC RECORDS RELATING TO THIS AGREEMENT, CONTACT THE COUNTY'S CUSTODIAN OF PUBLIC RECORDS AT:**

RECORDS MANAGEMENT LIAISON OFFICER
POLK COUNTY
330 WEST CHURCH ST.
BARTOW, FL 33830
TELEPHONE: (863) 534-7527
EMAIL: RMLO@POLK-COUNTY.NET

10.0 **Compliance with Laws**

10.1 In performance of the Services, Consultant shall comply with applicable regulatory requirements including federal, state, special district, and local laws, rules, regulations, orders, codes, criteria and standards, including those now in effect and hereafter adopted.

11.0 **Subcontracting**

11.1 The County reserves the right to accept the use of a subcontractor or to reject the selection of a particular subcontractor and to inspect all facilities of any subcontractor.

11.2 If a subcontractor fails to perform or make progress, as required by this Agreement, and it is necessary to replace the subcontractor to complete the work in a timely fashion, the Consultant shall promptly do so, subject to acceptance of the new subcontractor by the County. Failure of a Subcontactor to timely or properly perform its obligations shall not relieve Consultant of its obligations hereunder.

12.0 **Federal and State Taxes**

DRAFT

12.1 The County is exempt from Federal Tax and State Sales and Use Taxes. Upon request, the County will provide an exemption certificate to Consultant. The Consultant shall not be exempted from paying sales tax to its suppliers for materials to fulfill contractual obligations with the County, nor shall the Consultant be authorized to use the County's Tax Exemption Number in securing such materials.

13.0 **Public Entity Crimes**

13.1 The Consultant understands and acknowledges that this Agreement with the County will be voidable by the County, in the event the conditions under Section 287.133, Florida Statutes applies to the Consultant, relating to conviction for a public entity crime.

14.0 **County's Responsibilities**

14.1 County shall be responsible for providing access to all County project sites, and providing information in the County's possession that may reasonably be required by Consultant, including; existing reports, studies, financial information, and other required data that are available in the files of the County.

15.0 **Termination of Agreement**

15.1 This Agreement may be terminated by the Consultant upon thirty (30) days prior written notice to the County in the event of substantial failure by the County to perform in accordance with the terms of the Agreement through no fault of the Consultant.

15.2 This Agreement may be terminated by the County with or without cause immediately upon written notice to the Consultant.

15.3 Unless the Consultant is in breach of this Agreement, the Consultant shall be paid for services rendered to the County's satisfaction through the date of termination.

15.4 After receipt of a Termination Notice, as described in this Article 15.0, and except as otherwise directed by the County, the Consultant shall:

15.4.1 Stop work on the date and to the extent specified.

15.4.2 Terminate and settle all orders and subcontracts relating to the performance of the terminated work.

DRAFT

15.4.3 Transfer all work in process, completed work, and other material related to the terminated work to the County.

15.4.4 Continue and complete all parts of the work that have not been terminated.

16.0 **Uncontrollable Forces (Force Majeure)**

16.1 Either party hereunder may be temporarily excused from performance if an Event of Force Majeure directly or indirectly causes its nonperformance. An "Event of Force Majeure" is defined as any event which results in the prevention or delay of performance by a party of its obligations under this Agreement and which is beyond the reasonable control of the nonperforming party. It includes, but is not limited to fire, flood, earthquakes, storms, lightning, epidemic, war, riot, civil disturbance, sabotage, and governmental actions. Neither party shall be excused from performance if non-performance is due to forces which are reasonably preventable, removable, or remediable and which the non-performing party could have, with the exercise of reasonable diligence, prevented, removed, or remedied prior to, during, or immediately after their occurrence. Within five (5) days after the occurrence of an Event of Force Majeure, the non-performing party shall deliver written notice to the other party describing the event in reasonably sufficient detail, along with proof of how the event has precluded the non-performing party from performing its obligations hereunder, and a good faith estimate as to the anticipated duration of the delay and the means and methods for correcting the delay. The non-performing party's obligations, so far as those obligations are affected by the Event of Force Majeure, shall be temporarily suspended during, but no longer than, the continuance of the Event of Force Majeure and for a reasonable time thereafter as may be required for the non-performing party to return to normal business operations. If excused from performing any obligations under this Agreement due to the occurrence of an Event of Force Majeure, the non-performing party shall promptly, diligently, and in good faith take all reasonable action required for it to be able to commence or resume performance of its obligations under this Agreement. During any such time period, the non-performing party shall keep the other party duly notified of all such actions required for it to be able to commence or resume performance of its obligations under this Agreement.

17.0 **Governing Law and Venue**

DRAFT

17.1 This Agreement shall be governed in all respects by the laws of the State of Florida and any litigation with respect thereto shall be brought only in the courts of Polk County, Florida or the United States District Court, Middle District of Florida located in Hillsborough County, Florida. Each party shall be responsible for its own attorneys' fee and other legal costs and expenses.

18.0 **Non-Discrimination**

18.1 The Consultant warrants and represents that all of its employees are treated equally during employment without regard to race, color, religion, gender, age or national origin.

19.0 **Waiver**

19.1 A waiver by either County or Consultant of any breach of this Agreement shall not be binding upon the waiving party unless such waiver is in writing. In the event of a written waiver, such a waiver shall not affect the waiving party's rights with respect to any other or further breach. The making or acceptance of a payment by either party with knowledge of the existence of a default or breach shall not operate or be construed to operate as a waiver of any subsequent default or breach.

20.0 **Severability**

20.1 The invalidity, illegality, or unenforceability of any provision of this Agreement, or the occurrence of any event rendering any portion or provision of this Agreement void, shall in no way affect the validity or enforceability of any other portion or provision of the Agreement.

20.2 Any void provision shall be deemed severed from the Agreement and the balance of the Agreement shall be construed and enforced as if the Agreement did not contain the particular portion or provision held to be void.

20.3 The parties further agree to reform the Agreement to replace any stricken provision with a valid provision that comes as close as possible to the intent of the stricken provision.

20.4 The provisions of this section shall not prevent the entire Agreement from being void should a provision which is of the essence of the Agreement be determined to be void.

21.0 **Entirety of Agreement**

21.1 The County and the Consultant agree that this Agreement sets forth the entire Agreement between the parties, and that there are no promises or understandings other than those stated

DRAFT

herein.

21.2 This Agreement supersedes all prior agreements, contracts, proposals, representations, negotiations, letters or other communications between the County and Consultant pertaining to the Services, whether written or oral.

21.3 None of the provisions, terms and conditions contained in this Agreement may be added to, modified, superseded or otherwise altered except by written instrument executed by the parties hereto.

22.0 **Modification**

22.1 This Agreement may not be modified unless such modifications are evidenced in writing signed by both County and Consultant. Such modifications shall be in the form of a written Amendment executed by both parties.

23.0 **Successors and Assigns**

23.1 County and Consultant each binds itself and its partners, successors, permitted assigns, and legal representatives to the other party to this Agreement and to the partners, successors, executors, administrators, permitted assigns, and legal representatives of such other party.

23.2 Consultant shall not assign this Agreement without the express written approval of the County by executed amendment, which approval may be withheld in the County's sole discretion.

23.3 In the event of a merger, the surviving corporation shall be substituted for the contracting party to this agreement and such substitution shall be affirmed by the County by executed amendment.

24.0 **Contingent Fees**

24.1 The Consultant warrants that it has not employed or retained any company or person, other than a bona fide employee working solely for the Consultant to solicit or secure this Agreement and that it has not paid or agreed to pay any person, company, corporation, individual or firm, other than bona fide employee working solely for the Consultant, any fee, commission, percentage, gift or any other consideration contingent upon or resulting from the award or making of this Agreement.

DRAFT

25.0 **Truth-In-Negotiation Certificate**

25.1 Execution of this Agreement by the Consultant shall act as the execution of a Truth-in-Negotiation certificate certifying that the wage rates and costs used to determine the compensation provided for in this Agreement are accurate, complete, and current as of the Effective Date of this Agreement.

25.2 The said rates and costs shall be adjusted to exclude any significant sums should the County determine that the rates and costs were increased due to inaccurate, incomplete or noncurrent wage rates or due to inaccurate representations of fees paid to outside consultants. The County shall exercise its rights under this "Certificate" within one (1) year following payment.

26.0 **Ownership of Documents**

26.1 Consultant shall be required to cooperate with other consultants relative to providing information requested in a timely manner and in the specified form. Any and all documents, records, disks, original drawings, or other information shall become the property of the County for its use and/or distribution as may be deemed appropriate by the County. Consultant is not liable for any damages, injury or costs associated with the County's use or distribution of these documents for purposes other than those originally intended by Consultant.

27.0 **Access and Audits**

27.1 Consultant shall maintain adequate records to justify all charges and costs incurred in performing the work for at least three (3) years after completion of this Agreement. The County shall have access to such books, records, and documents as required in this section for the purpose of inspection or audit during normal business hours at the Consultant's place of business.

27.2 Misrepresentations of billable time or reimbursable expenses as determined by the Auditor to the Polk County Board of County Commissioners shall result in the recovery of any resulting overpayments. The County's cost of recovery shall be the sole expense of the Consultant, including accounting and legal fees, court costs and administrative expenses.

27.3 Intentional misrepresentations of billable hours and reimbursable expenses will be criminally prosecuted to the fullest extent of the law.

DRAFT

27.4 All invoices submitted are subject to audit and demand for refund of overpayment up to three (3) years following completion of all services related to this Agreement.

28.0 **Notice**

28.1 Any notice, demand, communication, or request required or permitted hereunder shall be in writing and delivered in person or sent by Federal-Express or by Certified Mail, postage prepaid as follows:

As to County: Roads & Drainage
P.O. Box 9005
Bartow, FL 33830
Attention: Director

As to Consultant:

28.2 Notices shall be effective when received at the addresses as specified above. Changes in the respective addresses to which such notice is to be directed may be made from time to time by either party by written notice to the other party. Facsimile transmission is acceptable notice effective when received, however, facsimile transmissions received (i.e.; printed) after 5:00 p.m., or on weekends or holidays, will be deemed received on the next business day. The original of the notice must additionally be mailed as required herein.

28.3 Nothing contained in this Article shall be construed to restrict the transmission of routine communications between representatives of Consultant and County.

29.0 **Service of Process**

As to County: County Attorney
County Administration Building
330 W. Church Street, 4th Floor
Bartow, Florida 33830

As to Consultant:

30.0 **Contract Administration**

DRAFT

30.1 Services of Consultant shall be under the general direction of the Roads and Drainage Division Director, or their successor, who shall act as the County's representative during the term of this Agreement.

31.0 **Key Personnel**

31.1 Consultant shall notify County in the event of key personnel changes, which might affect this Agreement. To the extent possible, notification shall be made within ten (10) days prior to changes. Consultant at County's request shall remove without consequence to the County any Subcontractor or employee of the Consultant and replace him/her with another employee having the required skill and experience. County has the right to reject proposed changes in key personnel. The following personnel shall be considered key personnel:

Name: _____

Name: _____

32.0. **Annual Appropriations**

32.1 Consultant acknowledges that the County, during any fiscal year, shall not expend money, incur any liability, or enter into any agreement which, by its terms, involves the expenditure of money in excess of the amounts budgeted as available for expenditure during such fiscal year. Any agreement, verbal or written, made in violation of this subsection is null and void, and no money may be paid on such agreement. Nothing herein contained shall prevent the making of agreements for a period exceeding one year, but any agreement so made shall be executory only for the value of the services to be rendered or agreed to be paid for in succeeding fiscal years. Accordingly, the County's performance and obligation to pay under this agreement is contingent upon annual appropriation.

33.0 **Liquidated Damages**

33.1 The parties hereto agree that liquidated damages, in the amount specified in the applicable CSA/CPO, will be assessed against the Consultant for Consultant's failure to meet the final deliverable date in the Performance Schedule in the Scope of Work, but only to the extent and in proportion to Consultant's fault in causing the delay as compared to other causes, and to the extent the Consultant is not delayed by reasons beyond Consultant's reasonable control.

DRAFT

34.0 Employment Eligibility Verification (E-VERIFY)

A. Unless otherwise defined herein, terms used in this Section which are defined in Section 448.095, Florida Statutes, as may be amended from time to time, shall have the meaning ascribed in said statute.

B. Pursuant to Section 448.095(2)(a), Florida Statutes, effective January 1, 2021, public employers, contractors and subcontractors shall register with and use the E-verify system in order to verify the work authorization status of all newly hired employees. The Contractor acknowledges and agrees that use of the U.S. Department of Homeland Security's E-Verify System and compliance with all other terms of this Certification and Section 448.095, Fla. Stat., is an express condition of this Agreement, and the County may treat a failure to comply as a material breach of this Agreement.

C. By entering into this Agreement, the Contractor becomes obligated to comply with the provisions of Section 448.095, Fla. Stat., "Employment Eligibility," as amended from time to time. This includes but is not limited to utilization of the E-Verify System to verify the work authorization status of all newly hired employees, and requiring all subcontractors to provide an affidavit attesting that the subcontractor does not employ, contract with, or subcontract with, an unauthorized alien. The Contractor shall maintain a copy of such affidavit for the duration of the contract. Failure to comply will lead to termination of this Agreement, or if a subcontractor knowingly violates the statute or Section 448.09(1), Fla. Stat., the subcontract must be terminated immediately. Any challenge to termination under this provision must be filed in the Tenth Judicial Circuit Court of Florida no later than 20 calendar days after the date of termination. If this Agreement is terminated for a violation of the statute by the Contractor, the Contractor may not be awarded a public contract for a period of 1 year after the date of termination. The Contractor shall be liable for any additional costs incurred by the County as a result of the termination of this Agreement. Nothing in this Section shall be construed to allow intentional discrimination of any class protected by law.

35.0 Limitation of Liability.

IN NO EVENT, SHALL THE COUNTY BE LIABLE TO THE CONSULTANT FOR INDIRECT, INCIDENTAL, CONSEQUENTIAL, SPECIAL, EXEMPLARY, OR PUNITIVE DAMAGES OF ANY KIND OR NATURE, INCLUDING LOSS OF PROFIT, WHETHER FORESEEABLE OR NOT, ARISING OUT OF OR RESULTING FROM THE NONPERFORMANCE OR BREACH OF THIS CONTRACT BY THE COUNTY WHETHER BASED IN CONTRACT, COMMON LAW, WARRANTY, TORT, STRICT LIABILITY, CONTRIBUTION, INDEMNITY OR OTHERWISE.

36.0 Scrutinized Companies and Business Operations Certification; Termination.

A. Certification(s).

(i) By its execution of this Agreement, the Vendor hereby certifies to the County that the Vendor is not on the Scrutinized Companies that Boycott Israel List, created pursuant to Section 215.4725, Florida Statutes, nor is the Vendor engaged in a boycott of Israel, nor was the Vendor on such List or engaged in such a boycott at the time it submitted its bid,

proposal, quote, or other form of offer, as applicable, to the County with respect to this Agreement.

(ii) Additionally, if the value of the goods or services acquired under this Agreement are greater than or equal to One Million Dollars ($1,000,000), then the Vendor further certifies to the County as follows:

(a) the Vendor is not on the Scrutinized Companies with Activities in Sudan List, created pursuant to Section 215.473, Florida Statutes; and

(b) the Vendor is not on the Scrutinized Companies with Activities in the Iran Petroleum Energy Sector List, created pursuant to Section 215.473, Florida Statutes; and

(c) the Vendor is not engaged in business operations (as that term is defined in Florida Statutes, Section 287.135) in Cuba or Syria; and

(d) the Vendor was not on any of the Lists referenced in this subsection A(ii), nor engaged in business operations in Cuba or Syria when it submitted its proposal to the County concerning the subject of this Agreement.

(iii) The Vendor hereby acknowledges that it is fully aware of the penalties that may be imposed upon the Vendor for submitting a false certification to the County regarding the foregoing matters.

B. Termination. In addition to any other termination rights stated herein, the County may immediately terminate this Agreement upon the occurrence of any of the following events:

(i) The Vendor is found to have submitted a false certification to the County with respect to any of the matters set forth in subsection A(i) above, or the Vendor is found to have been placed on the Scrutinized Companies that Boycott Israel List or is engaged in a boycott of Israel.

(ii) The Vendor is found to have submitted a false certification to the County with respect to any of the matters set forth in subsection A(ii) above, or the Vendor is found to have been placed on the Scrutinized Companies with Activities in Sudan List, or the Scrutinized Companies with Activities in the Iran Petroleum Energy Sector List, or has been engaged in business operations in Cuba or Syria, and the value of the goods or services acquired under this Agreement are greater than or equal to One Million Dollars ($1,000,000).

37. No Construction Against Drafter

37.1 The Parties acknowledge that this Agreement and all the terms and conditions contained herein have been fully reviewed and negotiated by the Parties. Accordingly, any rule of construction to the effect that ambiguities are to be resolved against the drafting party shall not apply in interpreting this Agreement.

38. Unauthorized Alien(s)

The Consultant shall not employ or utilize unauthorized aliens in the performance of the Services provided pursuant to this Agreement. The County shall consider the employment or utilization of unauthorized aliens a violation of Section 274A(e) of the Immigration and Naturalization Act (8 U.S.C.

1324a) and a cause for the County's unilateral termination of this Agreement. When delivering executed counterparts of this Agreement to the County, the Consultant shall also deliver a completed and executed counterpart of the attached "AFFIDAVIT CERTIFICATION IMMIGRATION LAWS" form.

(THE REMAINDER OF THE PAGE LEFT INTENTIONALLY BLANK)

ADDENDUM #2

RFP 23-328, Professional Geotechnical Services and Construction Material Testing and Inspection

Question 1: We are looking to acquire copies of all winning proposals (and evaluation metrics if possible) related to RFP 18-305 Professional Geotech Services & Construction Materials Testing. If there was a shortlist of firms before the final award announcement, we would appreciate those proposals as well.

Answer: Proposals submitted and shortlisted along with the evaluation criteria has been added to the County's FTP Site. The evaluation criteria and the Proposers response to the criteria can be found in the Proposer's response.

To receive a copy of the Proposals submitted and shortlisted and evaluation criteria for RFP 18-305, please go the following FTP site: https://ftp3.polk-county.net, you will be prompted for a User ID and Password. The User ID is *procurevendor* and the password is *solicitation.* After you have logged in to the FTP site, double click on the file folder "**RFP 23-328 Professional Geotechnical Services and Construction Material Testing and Inspection**.**zip**", select "Open" or "Save As" to download the Proposals submitted and shortlisted and evaluation criteria for RFP 18-305. If you need assistance accessing this website due to ADA or any other reason, please email Michael Guerrero at michaelguerrero@polk-county.net.

Re: Professional Geotechnical Services and Construction Material Testing and Inspection; RFP 23-328

Dear Polk County Procurement Team:

WSP USA Environment & Infrastructure, Inc. (WSP) is pleased to submit our qualifications for consideration to provide Polk County with Professional Geotechnical Services and Construction Material Testing and Inspection. WSP is a global leader in engineering, construction, project management and technical consultancy services.

WSP Organization

We operate in more than 50 countries, employing around 65,000 people, with revenues of around $9.1 billion through several divisions including WSP USA Environment & Infrastructure. In Florida, WSP employs more than 900 people in 23 offices in every region of the state including, Lakeland, Orlando, Tampa, Miami, Naples, Sunrise, West Palm Beach, Gainesville, Jacksonville, and Tallahassee. We can draw on our experienced local managers and geographical reach to support the needs of clients, regardless of project site and complexity. WSP's depth of global resources allows us to provide our clients with innovative solutions engineered to fit perfectly with your business challenges. We have a strong reputation for balancing global excellence with local delivery.

WSP and our legacy companies have a long history in both Florida (75 years) and around the United States. WSP has provided professional engineering services in Florida for nearly 75 years, and our Lakeland office is only short distance from each of the County offices. Our team has worked on more than 100 continuing master engineering design service contracts for government agencies in Florida, including our four current contracts with Polk County: Roads & Drainage, Utilities, Geotechnical and Construction Material Testing, and Parks & Natural Resources. As such we have tremendous experience working with cities and counties – especially Polk County.

Our proposed Contract Project Manager and our WSP team will be led by **Mr. Ahmed Zein, PhD, PE,** Assistant Vice President. Mr. Zein, leads WSP's Central Florida Geotechnical Practice and has 18 years of professional geotechnical engineering experience and manages our ongoing geotechnical contract with Polk County. Additionally, our team of quality assurance and quality control engineers, **Mr. Michael Kelley, PE** and **Mr. David Butcher, PE,** are located locally at our Lakeland office; 5015 South Florida Avenue, Suite 301; Lakeland, Florida 33813. Mr. Zein can be reached at 513-501-6178 or ahmed.zein@wsp.com or Mr. Butcher at 813-436-6557 or David.butcher@wps.com. Additionally, **Mr. Mark Diblin, PG,** Senior Vice President is WSP's Florida District Leader and has contractual signature authority to execute contracts on behalf of WSP with Polk County.

Interest in Providing Services

As a firm with a large local presence, with 45 full-time professionals working in our Lakeland office, WSP is committed to making a positive impact and serving our local communities. Polk County is a valued client with whom we have a great relationship. We have had the pleasure of working with several County Divisions over the years on numerous successful projects and currently have active continuing services contracts with the Parks and Natural Resources Division and Utilities Division. WSP is committed to providing exceptional client service to Polk County. We understand the importance of providing high-quality work products on time and within budget. Our staff has been working for Polk County for more than 20 years and has completed hundreds of projects for Polk County, various municipalities, the water management districts, and private sector clients.

Quite often, our staff is already familiar with local conditions, and site location details when we are contacted by County staff to assist on a new assignment. Our vast local experience provides a value added component to our services.

For this contract, we have partnered with local SBE/DBE geotechnical subconsultant, Madrid Engineering Group, Inc located in Bartow, FL to support geotechnical drilling and testing services. We are also including Amdrill, Inc. who owns one of the largest fleet of specialty drilling equipment in Florida. In addition, we have included GeoView, Inc. and Ambient Technology, Inc. of St. Petersburg, FL to complement our geophysical and geotechnical drilling services. We routinely team with these firms and currently have active projects together.

Given our proven performance with Polk County, our high level of expertise with the requested services, our extensive local staff, and our highly qualified teaming partners, we are very interested in bringing the best overall value and quality to Polk County for the successful execution of assignments under this contract.

Why Select WSP?

WSP has been providing high quality geotechnical and construction material testing and inspection services to many Florida cities and counties for several decades, and as a result, we understand the issues that currently affect local government. Please consider the following while you review our qualifications:

- Successful Performance on Similar Projects - WSP has executed a master design contract from our Florida offices with local governments across Florida for decades. We have gained substantial experience involving timely and cost-effective project delivery with a comprehensive, qualified, and competent team, who routinely perform these services for a variety of state and local agencies throughout Florida.
- Committed, Exceptional Depth of Local Technical Resources - All proposed personnel will commit their time to Polk County as needed. With local staff that live, work, and play right here in Polk County, we are committed to successful projects that benefit our local community. Current and projected workloads will not restrict our ability to continue our successful relationship serving Polk County under this contract.
- Committed to Serving and Protecting the County's Infrastructure and Quality of Life - Meeting the County's needs and helping you achieve project success is important to us, because we understand the benefit to everyone in the County. We clearly understand that working with the County on the completion of these projects will improve the quality of life for the citizens of Polk County.

WSP appreciates the opportunity to submit this proposal for your review. We would be pleased to speak with you further regarding our proposal and are excited about the possibility of continuing to work with Polk County.

Sincerely,

Ahmed Zein, PhD, PE	Mark Diblin, PG
Assistant VP, Project Manager	Senior VP, Florida District Lead

For Your Information: What You Need To Know About Tangible Personal Property

Every individual or firm doing business and located in Polk County is also subject to the tangible personal property requirement.

An initial tangible personal property tax return is required to be filed with the Polk County Property Appraiser`s Office by April 1st of the year after the business opens. The initial return is required if the business owns or leases any personal property, without regard to the value of that personal property. In subsequent years, however, no return is required unless the combined value of all business equipment is more than 25,000 dollars.

To file an initial tangible personal property tax return or for additional information, visit Polk County Property Appraiser`s Office website, polkpa.org.

As one of the world's leading professional service firms, WSP brings clarity and vision to complex challenges by working with and advising governments and private-sector clients on key aspects of earth sciences and environmental sustainability. With the recent acquisitions of the Environment & Infrastructure business (E&I) of John Wood plc. and Golder, we have built the largest environmental practice in the world. Our over 23,000 environmental professionals provide specialized services to clients in some of the most highly regulated industries, including mining, oil and gas, energy, industrial, property and buildings, water and transportation. They advise on matters ranging from clean air, water and land, to biodiversity, green energy solutions, climate change and Environmental, Social and Governance ("ESG") issues. From design, permitting, planning and operations, to decommissioning and asset remediation, our environmental professionals are ready to support you through the entire lifecycle of your projects.

Approach to the Project

Approach to the Project

WSP and our Project Execution Team has significant experience servicing similar Task Work Order (TWO) based geotechnical, construction materials testing (CMT) and inspection services contracts for numerous local City and County governments. WSP is an incumbent on Polk County's ongoing geotechnical and CMT professional services contract and are knowledgeable of this contract's requirements and experienced in providing similar services to Polk County. WSP will act as an extension to the County's available resources, as well as coordinate and communicate concisely with the County's project managers and representatives. Our Project Manager, **Mr. Ahmed Zein, PhD. PE**, will be WSP's single and direct point of contact, responsible for corresponding directly with Polk County's Contract representatives. **Mr. Brian Hathaway, PE** will serve as Principle-in- Charge and backup point of contact for the County.

TWO Execution

WSP will meet with the County's representatives within 2 to 3 days following receipt of each TWO service request to discuss and assist in the development of the scope of work (SOW). WSP will prepare a written technical proposal outlining specific details and tasks related to the work; our proposed team organizational structure; list all necessary resources and equipment required to execute the work, present a schedule identifying estimated timelines to complete field services, testing, analyses, and our technical deliverables. Our proposal will include a detailed cost breakdown of anticipated labor and testing services based on the proposed Scope of Work (SOW) and in accordance with our negotiated contract rate schedule. Mr. Zein will set up a unique WSP project identification number in our electronic cost accounting system. Our financial controls software allows our PMs to track weekly project effort and budgets.

Site Reconnaissance

It is standard practice for WSP representatives to perform a detailed site reconnaissance prior to finalizing our field exploration plans and/or mobilizing any exploration equipment. Our site reconnaissance program typically includes an initial desktop review of available historical site information, which may include previous subsurface information, USGS soil site survey information, existing site or adjacent geotechnical borings, site topographic information, available structural and/or utility plans, and historical and current aerial photographs. The desktop study is then followed by a site visit/ evaluation that is performed by WSP representatives. We will review the existing site conditions to evaluate site access and equipment mobilization concerns, site drainage, identify overhead and potential underground utilities and/or obstructions, and any other site safety concerns or conditions that can hinder or impact our ability to perform our planned exploration services. During our site reconnaissance, our field representatives will identify the location of planned borings. The exploration locations and information obtained during our site visit are later used to perform a site-specific utility clearance and conflict resolution services, including notifying public utility members through Florida's Sunshine 811 notification protocols.

Through our deep pool of resources, we are able to assign each project management and task leadership role with a dedicated professional who will be supported by a multidisciplinary firm of supporting resources to check that task and external conflicts are minimized and that the overall project is completed efficiently and in accordance with the established project schedule.

Geotechnical Field Exploration

After the WSP team receives County approval of the work order and notice to proceed, we will mobilize to the site and perform the field exploration services. Prior to commencement of the work, the WSP project manager and the on-site personnel will complete a job safety review to identify potential safety hazards and to take appropriate measures to reduce risks of injury. Tailgate safety meetings will also be regularly completed as the project progresses. The field exploration may include:

- Boring layout using GPS equipment (or by survey, if that level of accuracy is required)
- Standard Penetration Test (SPT) borings
- Solid auger stem borings
- Hand auger borings
- Rock coring (4-inch)
- Ground penetrating radar
- Cone Penetrometer Testing (CPT)
- Flat Dilatometer Testing (DMT)
- Undisturbed sampling (Shelby Tube)
- Muck probes
- Backhoe observation pits.
- GeoProbe – soil and groundwater sampling
- Well abandonment
- Piezometer/monitoring well installation
- In-situ permeability testing (recharge and pumping testing)
- Double Ring Infiltrometer (DRI) tests
- Vane shear testing
- Down hole or cross hole seismic testing
- Field resistivity testing
- Laboratory and in-situ testing

The WSP team will perform laboratory testing on soil and rock samples obtained from the field exploration program, which may include:

- Natural moisture content
- Atterberg limits
- Fines content
- Organic content
- Grain size analysis
- Hydrometer analysis
- Consolidation
- Triaxial shear strength
- Unconfined compression tests
- Specific gravity
- Permeability
- Moisture density test (standard or modified proctor)
- Corrosivity testing (pH, resistivity, chlorides and sulfates)
- Florida Bearing Value (FBV)
- Limerock Bearing Ratio (LBR)/California Bearing Ratio
- (CBR)
- Soil-cement design

Engineering Analysis and Recommendations

For this task, the WSP team will perform applicable geotechnical engineering analysis for the work order. Our experienced engineering staff can perform a full range of analyses including:

- Seepage analysis
- Slope stability evaluation
- Immediate, consolidation, and secondary (creep) settlement
- Dam and levee embankment design
- Soil-Structure interaction
- Deep foundation design – driven, auger-cast, mini and drilled piles
- Grout design
- Dewatering system design
- Shallow and mat foundation design
- Roadway design
- Earth retention structure design

Reporting

Upon competing the field exploration program and engineering analysis, the WSP team will issue a draft geotechnical report to the County for its review. A typical geotechnical report will include a description of methods, findings, and geotechnical recommendations as well as appendices containing

figures of the site location and boring locations, the boring logs, and laboratory test results .

WSP will be available to present the report findings and to respond to any review comments that the County may have. All County review comments will be incorporated into the final geotechnical report.

Construction Support

As in other tasks, the level of construction support will vary substantially depending on the type of project and the County requirements. The WSP team has the flexibility and resources to accommodate the full range of required construction support.

Assuming a moderate to large construction project, WSP would begin the task by attending a preconstruction meeting with the contractor and the County to address any concerns, review the construction schedule, identify equipment and staging areas, and review the overall objectives of the project. We strive to develop good working relationships with all project participants by encouraging an open and frequent line of communication. Our overall construction engineering inspection and administrative services will include:

- Document construction activities with reports and photos
- Material and compaction control
- Monitoring construction operations and materials placement methods
- Construction materials testing (laboratory and field)
- Review/approve shop drawings and alternative materials
- Approval of field adjustments
- Administration/approval of payment requests

We will develop and implement a construction quality assurance/quality control plan to document and verify that the construction activities meet the requirements of the project plans and specifications. Two important components of construction inspection are timely reporting of compliance testing results and accurate, systematic tracking of any deficiencies and subsequent repairs in the work. We have completed construction inspection on many major construction projects and have developed tracking systems and reporting protocols using a system of spreadsheets for maintaining field and laboratory test data and results.

Deliverables

A specific deliverable will be provided at the completion of each project milestone, as delineated in the statement of work for each work order. The WSP team will solicit input from the County as the project progresses and as each deliverable is being developed so that the final deliverable is acceptable to the County and fully complies with the project requirements. When appropriate, a draft version of the deliverable will be submitted to the County for comment prior to completion of the final deliverable. All draft and final submittals will be accompanied by a signed Quality Certificate of Compliance.

Completion Schedule

The cost proposal generated for each task order will provide detailed schedules for completing each deliverable. These schedules will vary depending on the type of task order received. The WSP team takes pride in our ability to provide sufficient manpower on a project to meet aggressive design and construction schedules.

WSP can mobilize a rig and crew to most any site within the County's geographic area within three to five working days. This includes the two-day requirement for clearance of the utilities. The specific time of drilling and other field activities is a function of the amount of fieldwork, number of borings, and other quantitative aspects of the field program.

Laboratory work is typically begun within two weeks following the completion of drilling, or after the first few days of drilling activities have generated the first batch of soil and rock samples. Laboratory work generally continues until two to three weeks after the completion of the fieldwork.

Preliminary engineering analysis begins after the soil and rock samples are visually classified. Draft profiles are created for our foundation or other engineering analyses. This process continues until the laboratory results are completed and the final analyses are begun. This process is a function of the complexity of the

project. The preparation of the draft report is prepared at the conclusion of our analyses. The preparation and review can take from several hours to several days.

Our project completion schedule is directly proportional to the complexity of the specific project and the amount of effort required to complete the tasks. Our work and the effort required to complete the work will be monitored and adjusted to meet your required schedule,.

Quality Assurance/Quality Control

Successfully conducting multi-discipline, multi-task projects requires more than just resources, it also requires processes. It begins with planning and is supported by internal quality programs designed to ensure appropriate level of leadership, customer care, and technical competency are brought to every project. We have comprehensive and proven QA/QC systems and procedures and personnel to ensure quality management and execution of all program and projects. Quality is always part of the project deliverable.

The ultimate purpose of our QA/QC program is to provide clients with confidence that services are performed according to agreed-upon specifications and within applicable rules, regulations, codes, and standards, to the highest extent possible. It is strongly imbedded in our culture to implement the practices described in our Corporate QA Procedures. The foundation of the QA program is the use of fully trained personnel, accurately calibrated and maintained equipment, and review of all reports, proposals, and test data by our principal professionals. All reports, proposals, and test data provided to clients are required to have a senior independent review. Principal or Senior level professionals must perform the review for all services requiring engineering or scientific evaluation, interpretation, or judgment.

Our QA Manual outlines engineering and science policies, and various discipline specific work and test procedures that are key elements of our QA Program. The system of functions and controls we've established apply to all disciplines and scopes of services. Provisions are included for incorporation of client specific requirements such as FDOT roadway and traffic design standards, standard specifications for road and bridge construction as well as the PD&E Manual and the Department's regulations and operating procedures.

For this contract, we have assigned **Mr. David Butcher, PE** and **Mr. Michael Kelley, PE** for QA/QC. They will

provide continuous QA/QC throughout the life of the contract. We also believe it is equally important that our team for each assignment has a comprehensive understanding of all tasks at hand and the necessary skills and level of expertise to allow for timely performance. Perhaps more than any other factor, the staff assigned to each project is key to quality management, maintaining the project budget, and remaining on schedule. Our project team is comprised of a group of highly qualified and experienced professionals who have completed multiple projects with nearly identical scopes of services, budgets, and schedules. This collection of expertise, experience, and professional judgment is irreplaceable when it comes to managing project budget and schedule. Additionally, our team includes support staff with experience on projects that are similar in scope and are capable of supplementing, in the event that unforeseen circumstances necessitate additional resource commitments to meet or improve schedule and/or budget performance standards.

It is important to know that we thoroughly enjoy working with Polk County to improve our quality-of-life standards through infrastructure projects. Although we are a large firm, many of us are life-long residents of Polk County and thrive on providing high-quality and responsive services here at home. Additionally, we understand the budgetary constraints of our municipal clients and know how to provide our services in the most cost-effective manner to the utmost satisfaction.

As one of the world's leading professional service firms, WSP brings clarity and vision to complex challenges by working with and advising governments and private-sector clients on key aspects of earth sciences and environmental sustainability. With the recent acquisitions of the Environment & Infrastructure business (E&I) of John Wood plc. and Golder, we have built the largest environmental practice in the world. Our over 23,000 environmental professionals provide specialized services to clients in some of the most highly regulated industries, including mining, oil and gas, energy, industrial, property and buildings, water and transportation. They advise on matters ranging from clean air, water and land, to biodiversity, green energy solutions, climate change and Environmental, Social and Governance ("ESG") issues. From design, permitting, planning and operations, to decommissioning and asset remediation, our environmental professionals are ready to support you through the entire lifecycle of your projects.

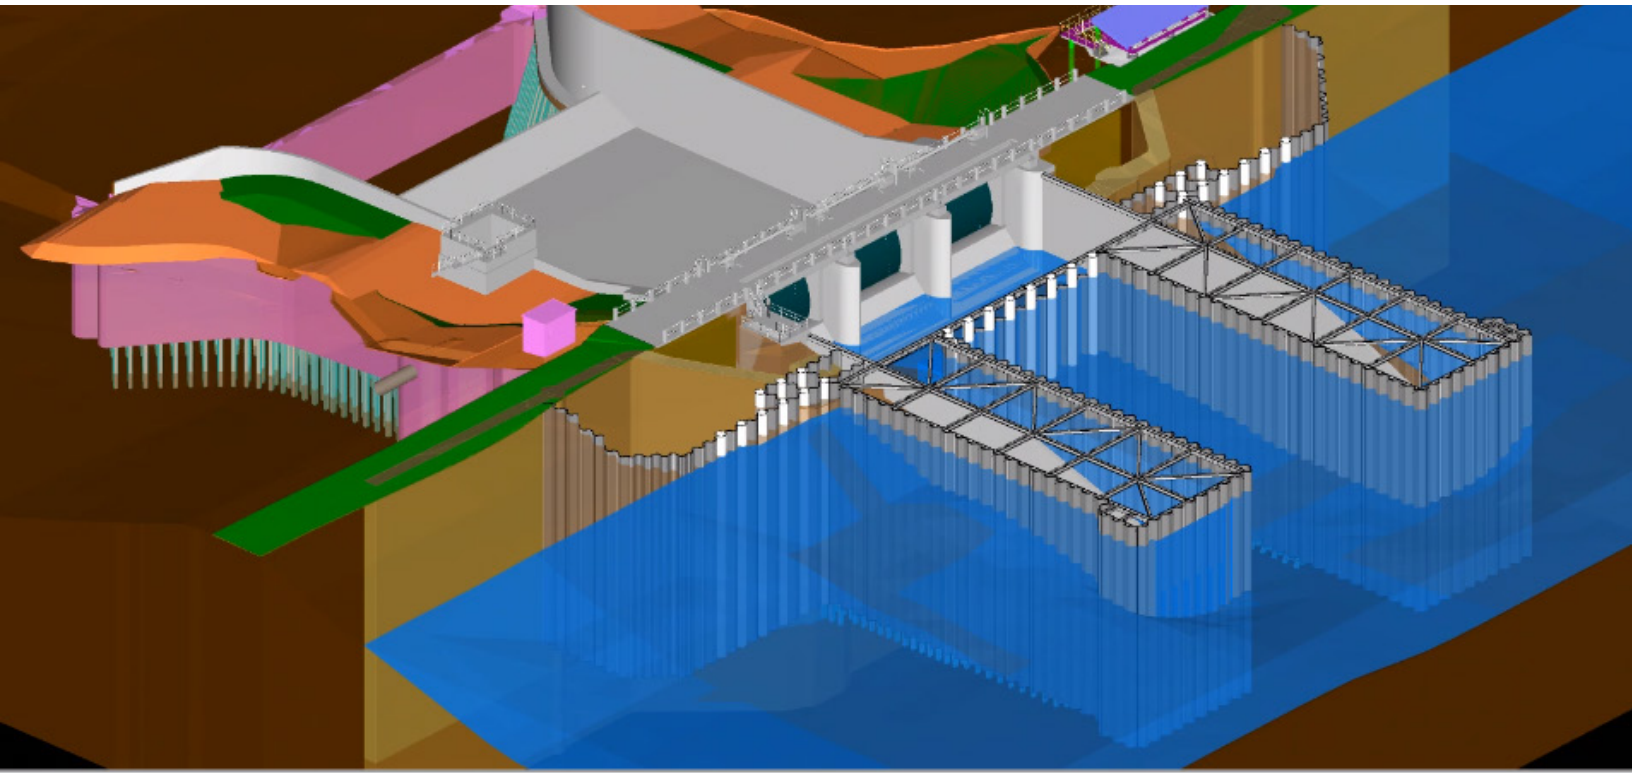
Similar Projects

In the following pages is our project experience with projects related to geotechnical and construction material testing and inspection services in the past 5 years.



Lake Manatee Dam Phase I Emergency Repairs and Phase II Final Repairs

Bradenton, Florida

During the implementation of a supplemental dam safety inspection for the Lake Manatee Dam near Bradenton, Florida, WSP identified a serious internal erosion and piping failure mechanism that had been present shortly after construction and that required the emergency installation of a deep seepage cutoff wall to prevent a failure of the dam. Phase I of this project involved the emergency installation of the cutoff wall and was completed in 2015. Phase II was initiated in 2015 and is ongoing. Phase II's purpose is to repair non-emergency type damage and to restore the Service Spillway seepage control system.

The Lake Manatee Dam is located on the Manatee River 14 miles west of Bradenton, Florida and is an in-stream reservoir approximately 20 miles upstream of the discharge point of the Manatee River into Tampa Bay. It was constructed between 1965 and 1967 for drinking water to Manatee County. It consists of an approximately 4,700-foot-long earthen embankment with both an Ogee-type reinforced concrete service spillway and an earthen fuse-plug type emergency spillway.

What was unique about this project?

The emergency nature of this project within a compressed time frame and the complexity of managing a $20-million construction project from initial conception through subsurface investigation to design and permitting and into final construction in a 3.5-month time frame are truly unique. **The client commented that WSP showed excellent responsiveness to their needs throughout the project.**

Se7en Wetlands Treatment System - Embankment Dams Annual Inspections

Lakeland, Florida

WSP was directed by the City of Lakeland to perform annual visual dam safety inspections for the existing Se7en Wetlands Treatment System (AWTS). The annual safety inspections have been performed by WSP since 2018 and are ongoing. The ultimate objective of the Dam Safety program at the facility is to prevent an uncontrolled release of the impounded water retained in each of the seven cells. The annual dam safety inspections are focused on observations and documented behavior of the dam corresponding to three failure modes including overtopping, internal erosion, and mass movement. The inspections are conducted in general accordance with Florida Administrative Code (FAC) Chapter 62-672.

WSP provided the following services as part of its annual dam safety inspection at AWTS:

- Review all available data from the previous year's dam safety inspection and review weekly inspection data provided by the City of Lakeland.
- Perform site inspections and document the current embankment and structure conditions.
- Provide report outlining a historical review of the perimeter dikes including previous performance and repairs, facility weekly inspection reports, and observations and recommendations for maintenance.
- Provide on-call contingency services.

Lainhart and Masten Dam Repairs

Jupiter, Florida

SFWMD hired WSP to design the repair of two old low-head dams and the reconstruction of the streambank and floodplain where the river had eroded a bypass around the left abutment of the Masten Dam. The dams are 1930's vintage weir structures that prevent saltwater intrusion, maintain floodplain water levels, and facilitate year-round canoeing and kayaking along one of Florida's most iconic streams. The design was a matter of much public interest given that the Loxahatchee River is one of two National Wild and Scenic Rivers in Florida. The client required a robust and long-term engineering and ecological solution.

WSP's approach integrated soil bioengineering and natural channel design with geotechnical engineering and river mechanics to provide a robust system with a highly natural and historically accurate aesthetic. The design required collaboration with the Loxahatchee River Management Coordinating Council, as well as an interdisciplinary SFWMD design review panel convened to meet U.S. Army Corps of Engineers Dr. Checks quality assurance and control criteria. The project consisted of several key components, requiring coordination among team members from WSP and two sub-contractors.

The project required WSP to provide a very high level of structural integrity while meeting a natural and historic aesthetic. This involved protecting centuries old cypress trees within the earthwork areas, literally rebuilding the eroded shoreline and floodplain swamp around them. Soil bioengineering techniques new to the District were designed, and WSP developed the District's first Vegetated Reinforced Soil Slope (VRSS) specification sheet to rebuild and stabilize the river bank. Additional erosion and scour protection was provided by hand-placed articulated concrete blocks and marine mattresses.

Mosaic SFM-11 Phosphatic Clay Settling Area

Bowling Green, Florida

WSP has conducted a geotechnical investigation, complete engineering design analyses, provide design construction recommendations and provide technical and construction control services for the SFM-11 Phosphatic Clay Settling Area (SFM-11). The design and construction criteria were selected to conform to Mosaic's technical guidelines and the requirements of Chapter 62-672, Florida Administrative Code (FAC). The subject site is located approximately 3.0 miles east of the intersection of U.S. 17 and County Line Road near Bowling Green, Hardee County, Florida (Section 6 Township 33 South, Range 26 East, and Section 1 Township 33 South, Range 25 East). Approximately 13,000 linear feet of perimeter earthen embankment will be constructed to form the three sides of SFM-11 adjacent to the existing SFM-9 CSA. The settling area will also include a stormwater ditch, return hydraulic ditch, and two spillways. The approximate footprint of SFM-11 is 410 acres. SFM-11 has a minimum crest elevation of 165 feet NGVD and a maximum design fluid level at elevation 160 feet.

A return hydraulic ditch will be located along the north side of the settling area and will be connected to the existing SFM-9 plant return hydraulic ditch. Two adjustable-weir decant spillway structures located at the northwest portion of the settling area will discharge clarified water into the return hydraulic ditch system with a maximum operation water elevation of 132 feet.

Grove Land Reservoir and Stormwater Treatment Area, Phase II

Okeechobee and Indian River Counties, Florida

The proposed 5,000-acre reservoir is expected to store 15 feet of water, providing approximately 75,000 acre-feet of above-ground storage on the 5,683-acre tract. Water from the reservoir would flow to the 2,000-acre STA to the north. Conveyance improvements and additional capacity for the C-23 and C-24 Canals will allow additional excess water from those watersheds to also flow to the reservoir via the C-25 Canal. The STA would reduce total phosphorus and total nitrogen concentrations in the water using advanced wetland treatment technology. This treated water could be discharged to the SJRWMD C-52 flow-way or to the SFWMD's C-25 Canal for water supply and environmental deliveries. Construction is expected to take two years.

For Phase II, WSP has provided engineering and environmental services, including:

- Initial geotechnical site investigation including Standard Penetration Test (SPT) borings, piezometer installation, mechanical auger borings, Cone Penetration test (CPT) soundings, soil classification testing, and advanced geotechnical laboratory testing
- Phase II Environmental Site Assessment of the project site involving soil sampling, laboratory testing, and completion of a Screening Level Ecological Risk Assessment (SLERA).
- Dam hazard classification determination
- 30% Design Freeboard determination based on wave run up, set up, and overspray for a series of design wind and rainfall events
- 30% Design Seepage, stability, settlement, and seismic design of the proposed reservoir and STA embankments

US HIGHWAY 27 AT FOUR CORNERS BLVD. – INTERSECTION IMPROVEMENTS

Davenport (Polk County), Florida

WSP has provided several professional services through task order assignments for Polk County, including geotechnical engineering and construction material testing services. In 2020, Polk County was planning to perform milling and resurfacing on the two, 12-foot wide, west-bound lanes at the intersection of US Highway 27 and Four Corners Boulevard, as part of intersection improvement activities in Davenport, Florida. The County was also planning the addition of an 11-foot wide turn lane to the east-bound lane of the intersection. WSP was retained by Polk County to perform a geotechnical exploration to provide recommendation pertaining to the construction of pavements associated with the project. The project was completed on time and within budget.

Geotechnical Design: To assist Polk County with the design and construction of the proposed intersection improvements, WSP provided the following geotechnical design services:

- Site reconnaissance.
- Geotechnical exploration consisting of three soil test borings, three hand auger borings, sampling and laboratory testing.
- Existing pavement evaluation.
- Geotechnical engineering report containing recommendations for the site preparation, earthwork, pavement design and construction, and findings of existing pavement evaluation.

Bay Pines National Cemetery Expansion

St. Petersburg, Florida

Master Planning: WSP assisted preparing a refined site layout plan for the 5-acre expansion parcel based on previously established option for development of roads, columbaria and in-ground cremains gravesites. Further, WSP provided a site layout plan drawing and associated written recommendations to JG&A to be developed by JG&A into the schematic plan submittal for the expansion area. WSP is also assisting JG&A in incorporating the VA's comments into a final layout for submission to the VA with the Design Development package.

Storm Water and Wetlands Support: WSP addressed stormwater requirements in support of the civil design work to be performed by others. WSP collaborated with other consultants to formulate the required stormwater design for the expansion and provided assistance offered recommendations on meeting the required Florida stormwater regulations.

Geotechnical Design: In order to assist in master planning and preparing the site layout plan, WSP provided the following geotechnical design services:

- Geotechnical exploration consisting of thirteen soil test borings, sampling and laboratory testing.
- Geotechnical engineering analyses including bearing capacity, settlement of the shallow foundation based on the findings of the geotechnical exploration.
- Geotechnical Engineering report containing recommendations for the site preparation, earthwork, shallow foundations and pavement design and construction.

Multiple Services for The City

Fort Lauderdale, Florida

WSP has an extensive experience providing multiple engineering and construction services to The City of Fort Lauderdale since 2013. Services include geotechnical engineering, geotechnical explorations, laboratory and construction materials testing, construction engineering inspections (CEI), structural and architectural special inspections services, environmental engineering, groundwater monitoring, and quality assurance reviews. Below is a list of projects WSP has completed for the City of Ft. Lauderdale:

- Ft. Lauderdale Executive Airport- Taxilane Charlie Pavement Rehabilitation and Replacement of Airfield Lighting
- Ft. Lauderdale Executive Airport U.S. Customs and Border Protection Facility
- George T. Lohmeyer Waste Water Treatment Plant Grit Chamber Concrete Condition Assessment
- Gore Betz Park Pavilion Structure
- Flagler Greenway Project
- Seawall along North Bank of New River, FXE to Andrews Ave.
- Southeasd 18th Street Stormwater Improvements
- Annual Utility Repairs
- Snyder Park ADA Ramp
- East Las Olas 12" Force Main Replacement (SE 17th Avenue to Lido Drive Pump Station
- Croissant Park, Small Water Main Improvements
- Las Olas Corridor Improvements
- Port Condo Large Water Main Improvements & Geotechnical Testing
- Aquatic Center Renovation Project

West Palm Beach, Florida

Career Summary

Mr. Brian Hathaway is a licensed professional engineer with more than 20 years of professional experience with primary emphasis in geotechnical and civil engineering, subsurface exploration techniques, site characterization, QA/QC materials testing, and civil construction practices. Mr. Hathaway has managed and provided engineering services for various design and construction-related projects throughout Florida, Alabama, and Georgia. These projects include residential structures and commercial developments; state roadways, highways and bridges; multi-story building structures; educational facilities; hospitality structures; tower structures; parking garages; marine and port facilities; power and process facilities; heavy civil construction; wastewater and water treatment facilities; pump stations; lift stations; utilities and stormwater drainage; earthen impoundment structures; filter marshes; park facilities; and solid waste landfills. The services provided by Mr. Hathaway involve all aspects of the project lifecycle, including scope development, cost-estimating, subcontractor selection, project management, resource management, planning, execution, cost controls, scheduling, risk assessment, contract reviews, engineering design analyses, and technical reporting.

Professional Experience

Monroe County, Tax Collectors Office Facility Assessment and Repairs, Marathon, Florida, $74,561, 05/2018-09/2019, WSP: Senior Geotechnical Engineer. Monroe County Tax Collector building is a one-story structure with a total roof area of approximately 8,500 square feet. WSP is preparing repair construction documents including plans, geotechnical, and permits for the damaged portion of the structure. WSP is also investigating the possibility of mitigating future, similar hurricane damage to the building with a flood-mitigation structure; and if warranted, design the structure. WSP collected information to determine whether a flood-hazard mitigation structure will likely mitigate similar, future damage to the building, due to hurricanes. We collected and synthesized relevant data from Monroe County, the City of Marathon, the U.S. Geological Survey, the U.S. Army Corps of Engineers, the Federal Emergency Management Agency, the National Oceanic and Atmospheric Administration, the South Florida Water Management District, and the State of Florida. We used the synthesis to determine whether a structure can mitigate similar damage, and if so, what type of structure.

South Florida Water Management District, C-41A Segments I-III Canal Improvements, Okeechobee, Florida: Project Manager/Senior QC Engineer. Responsible for cost proposal, subcontractor selection, project management and QA inspections during construction. The project is in Highlands County, Florida, approximately 7 miles west of the City of Okeechobee. The construction work consists of canal bank stabilization of approximately 18 miles of the C-41A canal banks.

School Board of Broward County, Geotechnical and Materials Testing Contract, Broward County, Florida, Cost Varies, 2018-Ongoing, WSP: Contract Manager/Senior Geotechnical Engineer. WSP was selected by the School Board of Broward County as a professional consultant to provide geotechnical, construction materials, and laboratory testing services, and threshold and structural inspection services. The projects performed under this contract are performed on a task work order basis.

Ahmed Zein, PhD, PE

Project Manager / Geotechnical Lead

Firm Name

WSP

Firm Title

Assistant Vice President, Geotechnical Engineer

Certifications/ Licesnes

Professional Engineer - FL, SC, OH, LA

Office Location

Altamonte Springs, Florida

Career Summary

Dr. Ahmed Zein, PhD, PE is an Assistant Vice President with WSP. He received his PhD degree in Civil Engineering from the University of South Carolina. He has nearly two decades of geotechnical engineering and construction materials testing experience.

Dr. Zein's main tasks as an associate engineer includes managing geotechnical design projects, developing field and laboratory testing programs, project budgeting, overseeing field investigations, performing engineering analyses, preparing geotechnical reports and proposals, and consulting with clients.

He has a diverse background in computer modeling of geotechnical engineering problems. He has performed shallow and deep foundation design, pavement design, slope stability analysis, seepage analysis, liquefaction analysis and site-specific seismic analysis for a multitude of structures. He worked on a multitude of geotechnical engineering projects ranging from high rise office buildings and state highway projects to schools, single story commercial structures, power and industrial facilities and communication towers.

Professional Experience

Confidential Private Utility Client, Deep Mixing Method (DMM) for Liquefaction Mitigation, Coal Ash Management Program, Southern Indiana, (03/2019-08/2021), : Lead Geotechnical Engineer. Lead geotechnical engineer for the design of a DMM stabilization system for improving the liquefaction resistance of foundation soils for a CCR impoundment. The project included conducting a geotechnical investigation and engineering design for DMM panels along 2,800 feet of existing dikes.

Texas Department of Transportation (TXDOT), I-635 LBJ East Design-Build Project - Dallas County, Texas: Senior Geotechnical Engineer and Lead Verifier. The I-635 LBJ East Project is a design-build roadway construction project to improve mobility, operations and safety along Interstate 635 (I-635) in Dallas County. The project spans 11 miles beginning just east of US 75 in North Dallas to I-30 in Mesquite. Construction began in the spring of 2020 and will last through late 2024. Senior Geotechnical Engineer as part of a successful joint venture (Pegasus Link Constructors) Design-Build team developing design and construction recommendations for all MSE retaining walls associated with the project. Dr. Zein provided oversight for the design of several MSE walls performed in-house and reviewed project plans for preparation of the soil profile sheets and design summary data presented on the project construction plans.

Ohio Department of Transportation (ODOT), CUY-90 Innerbelt CCG2 Project (PID 82119) - Cleveland, Ohio, (07/2013-12/2013): Project Geotechnical Engineer and Independent Technical Reviewer. Independent Technical Reviewer for several of the geotechnical engineering recommendation reports provided for designing the bridge and abutment foundations associated with Interstate Route 90 (IR-90) Eastbound Innerbelt Bridge over the Cuyahoga River in downtown Cleveland, Ohio. The project consisted of designing and constructing a new five-lane bridge. In addition to serving as the technical reviewer for foundation design, other responsibilities included performing complex stress and settlement analyses for the bridge abutments.

David Butcher PE, LEED AP

Quality Assurance / Quality Control

Firm Name
WSP

Firm Title
Senior Civil Engineer

Years of Experience
Industry: 29 years

WSP: 20 years

Education
PhD, Civil Engineering, University of South Carolina-Columbia, 2005

BS, Civil Engineering, University of South Florida, 1995

Certifications/ Licesnes
Professional Engineer - FL, ID

LEED Accredited Professional

Office Location
Lakeland, Florida

Career Summary

Mr. David Butcher is a Senior Civil Project Manager with more than 25 years of experience. He serves as a lead project engineer on many large-scale and multi-disciplinary public and private projects dealing with all aspects of civil engineering, including water resources, stream restoration, dam rehabilitation, general civil, roadway design, recreational trail and park design, potable water and sanitary sewer design, lift station designs, bridge scour analysis, bridge hydraulic reports, and permitting with multiple agencies throughout Florida. In addition, Mr. Butcher excels at assisting our clients with public meetings and project education to both permitting agencies and constituents. He received the Community Award for Excellence by the Hillsborough County Planning Department, and his award-winning design work has been recognized for its excellence and contribution to community rehabilitation.

As a LEED AP Civil Engineer, Mr. Butcher has been responsible for managing engineering and design staff for nearly 10 years on a variety of civil and water resources projects for both public and private clients Throughout his career, he has been responsible for managing engineering and design staff on a variety of civil engineering projects for both public and private clients.

Professional Experience

Polk County Roads and Drainage Division, Drainage Retrofit Projects, Polk County, Florida: Lead Civil Engineer. Provide on-call service to transportation division for drainage retrofit projects affecting existing roads. Recent projects include Wahneta Infrastructure Masterplan, Bomber Road, Sunset Trail, Micanopy, Greenwoods Drive, Swindell Road, Kristina Court, Durham Drive, Stanley Ditch, Walt Williams Road, and many others. Stormwater projects typically include analysis and determination of causes of flooding, alternatives analysis for addressing the problem, and development of design plans to construct improvements. Undersized conveyances and/or surge ponds are typically required to reduce the flooding but not cause problems downstream from the increased flows. This requires compromises between an optimal design and working with and tying into other existing, often undersized, facilities. Stormwater and environmental permitting differ for each specific project. Other projects include roadway, intersection, and sidewalk design.

Polk County Utilities Division, Continuing Services Contract: Project Engineer/ Quality Assurance. Involved with utility system design and rehabilitation projects throughout Polk County. Completed several water main projects including the Polk County Utilities and Haines City Water Main Interconnect, Lily Lake Water and Wastewater Transmission System Design, Waverly Water Transmission System Design, Frostproof Water Main Extension, U.S. 27 Water System Improvements, S.R. 540 Water Main Extension, Moore Road Water Main Extension, and Pine Glen Subdivision Water Service Retrofit..

Michael Kelley PE

Quality Assurance / Quality Control

Firm Name
WSP

Firm Title
Vice President - US Mine Waste

Years of Experience
Industry: 27 years

WSP: 2 years

Education
MSc, Geotechnical Engineering, Florida Institute of Technology, 1998

BS, Civil Engineering, Florida Institute of Technology, 1994

Certifications/ Licesnes
Professional Engineer, LA ID, AL, TX, FL

Office Location
Tampa, Florida

Career Summary

Mr. Michael Kelley has more than 25 years of civil, geotechnical, environmental and water resource engineering experience with significant expertise in management of mining and industrial operations, infrastructure design and construction support, facility operations and maintenance, environmental assessment, compliance and permitting, and facility closure. Specific areas of technical expertise including design of earthen dam structures for tailings disposal and water management, industrial waste and wastewater containment facilities, capping and liner systems for waste and process water treatment and disposal facilities, aquatic restoration and sediment removal dredging operations , site development and civil infrastructure. Mr. Kelley also has significant experience providing construction support services, including preliminary cost estimates, construction bid packages, bid reviews, specifications as well as management of quality assurance and construction inspection programs on behalf of the owner..

Professional Experience

SFM-11 Clay Settling Areas Design, Bowling Green, Florida: Engineer of Record for design of new 400-acre clay settling area at South Fort Meade facility in Hardee County, Florida. Project tasks included conceptual planning, geotechnical investigation & surveying, design of clay setting area components including below and above grade tailing dams, decant structures and return water system, adjacent utility corridor and sand filter pond. Design completed in accordance FDEP criteria. Developed bid and construction plan sets, implemented CQA program during construction (extending through 2024).

Nu-West Industries, Gypsum Stack Closure, Soda Springs, Idaho: Serving as Project Director and Engineer of Record for multiple closure aspects of an inactive gypsum stack. Design of closure systems for a 240-acre by 180-ft tall inactive gypsum stack including geotechnical investigation, conceptual closure planning, surface and process water management, construction plans and specifications. Operation of CQA program for installation of cover caps and water management systems. Preparation of overall closure plan and long-term care/O&M plans. Developed ARO closure cost for financial assurance in accordance with EPA agreements.

Mosaic Phosphates, Concentrates General Services, Central Florida: Provided operations support and technical review for active gypsum stack facilities. Duties included annual 3rd party inspections of active & inactive gypsum stacks, technical review of process & surface water management systems, and construction management and oversight services for capital improvement and closure projects.

Kirby Lastinger, CSP, CHMM, CIT

Florida and Southern States EastHSE Manager

Firm Name
WSP

Firm Title
Southeast U.S. HSE Manager

Years of Experience
Industry: 39 years

WSP: 13 years

Education
MSc, Public Administration, University of South Florida, 1999

BS, Fire and Safety Engineering, University of Cincinnati, 1994

Certifications/ Licesnes
Certified Safety Professional

Certified Hazardous Materials Manager

Certified Environmental, Safety and Health Trainer

Office Location
Miami Lakes, Florida

Career Summary

Mr. Kirby Lastinger serves as the WSP Southeast U.S. HSE Manager. Mr. Lastinger possesses a diverse set of skills that make him exceptionally adept at addressing the variety of challenges often associated with health, safety, and environmental issues.

His expertise includes 29 years of experience in the public fire service industry within the State of Florida. Mr. Lastinger's roles throughout his fire service career have included firefighter, driver/engineer, lieutenant, acting battalion chief, urban search and rescue (USAR) team coordinator, fire inspector, and instructor. He has taught numerous classes throughout the United States in many areas of safety and emergency response for fire departments, municipalities, private industries, and the military.

Professional Experience

Spirit Lake Interim Tunnel Repairs, Mount St. Helens, Washington, $1 million, 2016, WSP: Site Safety and Health Manager. Provided site safety and health management for the tunnel repairs from January through March 2016, working closely with the Portland, OR USACE office, the prime contractor, and the tunnel contractor. Responsible for all work activities in the tunnel including safety and industrial hygiene. Work hazards included removal of rock in the area to be repaired by drilling and chipping, rib placement, grouting, and shotcrete operations. His work included developing the Activity Hazard Analysis for all work activities, monitoring worker safety, air monitoring, exposure monitoring to cold and silica, and ventilation surveys to ensure airflow met minimum requirements for the number of people, equipment being used, and work being performed in the tunnel daily.

Maryville Train Derailment, Maryville, Tennessee, $5 million, July 2015, WSP: Site Safety and Health Manager. Provided site safety management and direct safety oversight for all contractors (almost 300 at the peak of the incident) working on site of a train derailment involving a release of Acrylonitrile, which impacted surface and subsurface soils in the immediate and adjacent areas. WSP geotechnical and environmental engineers, geologists, and safety managers were called upon to offer services at the site. Primary hazards included contaminated soils, potential for hazardous/flammable atmosphere, use of and working near heavy equipment, multiple types of drilling, and general site safety and health hazards. Developed the site-specific health and safety plan for the initial response and continued to update the plan as the incident progressed during a two-week period.

P&L Train Derailment, Westpoint, Kentucky, $3 million, 10/2012-11/2012, WSP: Site Safety Officer. Provided safety direction and safety oversight for all contractors working on site of a major train derailment during incident stabilization and the product transfer phases. Worked with P&L Railroad, CSX, and local and state agencies to assure the safety of site personnel and those in the surrounding community. The derailment involved numerous railcars of hydrogen fluoride, butadiene, styrene, and sodium hydroxide. WSP implemented entry procedures, controlled site access/egress, and coordinated entries with all contractors to assure that atmospheric monitoring was being performed and that the appropriate levels of PPE were being used. Oversaw all safety of the offloading and transfer of the butadiene and hydrogen fluoride from the damaged rail cars.

Mark Keown, PE

Senior Geotechnical Engineer

Firm Name
WSP

Firm Title
Lead Consultant

Years of Experience
Industry: 16 years

WSP: 1 year

Education
BS, Civil Engineering, University of Tennessee at Chattanooga, 2007

Certifications/ Licesnes
Professional Engineer - TN, KY

Office Location
Altamonte Springs, Florida

Career Summary

Mr. Mark Keown, PE is a Lead Consultant, Geotechnical Engineer with WSP. He received his Bachelor of Science degree in Civil Engineering from the University of Tennessee at Chattanooga. He has over 16 years of geotechnical engineering and construction materials testing experience. Mr. Keown's main tasks as a geotechnical engineer includes managing geotechnical design projects, developing field and laboratory testing programs, project budgeting, overseeing field investigations, performing engineering analyses, preparing geotechnical reports and proposals, and consulting with clients. He has a diverse background in computer modeling of geotechnical engineering problems. He specializes in foundation and retaining wall design, advanced geotechnical modeling, including finite element seepage and stress analyses, slope stability analysis, liquefaction analysis, and pavement design. He worked on a multitude of geotechnical engineering projects ranging from state highway projects to schools, single story commercial structures, dams and levees evaluation, and industrial facilities including CCR impoundment projects.

Professional Experience

Lake Manatee Phase II Dam Repair, Carollo Engineers, (December 2022 – present), WSP : Geotechnical engineer performed seepage analysis in support of French drain design to manage artesian conditions along riverbank downstream of the dam. Reviewed existing geotechnical data and developed material parameters, performed seepage and slope stability analysis, and prepared technical calculation memorandum. .

Grove Land Reservoir and Stormwater Treatment Area, Grove Land Utilities, LLC (December 2022 – present), WSP : Geotechnical engineer performed seepage analysis in support of seepage cutoff wall design within reservoir and stormwater treatment area embankment. Reviewed existing geotechnical data and developed material parameters, performed seepage analysis, and prepared updated seepage analysis report. On going role will include review of onsite pumping tests, design of deep foundation elements for on site structures and slope stability analysis of embankments.

Instrumentation and Monitoring - Tennessee Valley Authority, Permeable Reactive Barrier Wall Pilot Study, Gallatin Fossil Plant, (2022) AECOM: Geotechnical Engineer. Provided installation support for dam instrumentation, including inclinometer and vibrating wire piezometer. Performed slope stability analysis and prepared technical memorandum with threshold and action levels for installed instrumentation.

Luis Ponce, PE, CGC

Senior Geotechnical Engineer

WSP

Firm Title

Construction Manager/Senior Engineer

Years of Experience

Industry: 35 years

WSP: 15 years

Education

MS, Construction Management, Florida International University, 2015

BS, Civil Engineering/ Transportation, University Laica, 1990

Certifications/ Licesnes

Professional Engineer - FL, NH

Certified General Contractor, Florida No. 1509404

Standard Building Inspector, Florida No. 3345

Certified Building Inspector, Commercial and Residential Buildings, No. 5189975-B5

Certified Plans Examiner/Plans Reviewer, No. 5253465-B3

Certified Radiation Safety Officer, Florida

Office Location

West Palm Beach, Florida

Career Summary

Mr. Luis Ponce is a Construction Manager and Senior Engineer with 35 years of experience in the construction and geotechnical engineering fields. Mr. Ponce has managed many complex engineering and construction projects throughout Florida, Georgia, Puerto Rico, and South America. Mr. Ponce's expertise includes construction planning, scheduling, technical oversight, value engineering, QA/QC, and field and laboratory data evaluation, as well as preparation of engineering recommendations for foundation design and construction for different types of projects, including residential and commercial developments, roadways, public schools, office buildings, communication towers, and parking garages.

Professional Experience

Florida Department of Transportation, Districtwide Geotechnical and Pavement Coring Services, FPID No. 439709-1-62-01, Florida, Cost Varies, 2019-Ongoing, WSP: Deputy Contract Manager/Senior Geotechnical Engineer. WSP is currently providing geotechnical investigation, analysis and design, pavement coring and evaluation, as well as geotechnical inspection, testing and analysis for several FDOT projects under construction for. Coordinating all phases of the field work, and providing QA/QC for reporting and deliverables, while coordinating field activities with the District 4 and 6 Materials and Research Office (DMRO).

Miami-Dade County Water and Sewer Department, Well Locations at CDWWTP, Rickenbacker Causeway, Key Biscayne, Florida, WSP: Project Manager/Senior Geotechnical Engineer. WSP conducted geotechnical exploration and engineering analysis to evaluate the site soil capabilities for supporting the large drilling equipment required for the installation of proposed deep injection wells at the CDWWTP site. WSP also provided site preparation recommendations for construction of the earthen rig pad.

Miami-Dade County Water and Sewer Department, Pump Station 008300733 Relocation, Cutler Bay, Florida, WSP: Project Manager/Senior Geotechnical Engineer. WSP provided geotechnical exploration and engineering recommendations for site preparation requirements, general construction, and foundation support for the planned pump station relocation in Cutler Bay, Florida.

South Florida Water Management District, Pump Station S-650, Florida, WSP: Construction Manager/Senior Engineer. Pump Station S-650 is located east of Lake Okeechobee and west of SR 710 (Bee Line Highway) on the boundary of Martin and adjacent Okeechobee Counties. WSP provided construction management and QA services during the construction of the S-650 Pump station. Construction activities for this project included earthwork, dewatering, installation of a steel sheet pile cofferdam, concrete construction of the pumping/discharge bays (starting at elevation +3.0), precast panel building, mechanical, electrical, and instrumentation.

Wenbin Zhao, PhD, PE

Senior Geotechnical Engineer

Firm Name

WSP

Firm Title

Senior Geotechnical Engineer

Years of Experience

Industry: 17 years

WSP: 17 years

Education

PhD, Civil Engineering, Clemson University, 2011

MS, Civil Engineering, Clemson University, 2007

BS, Suzhou Institute of Environment Protection and Urban Construction, 1998

Certifications/ Licesnes

Professional Engineer - FL

Office Location

West Palm Beach, Florida

Career Summary

Mr. Wenbin Zhao has 17 years of experience in construction services, geotechnical engineering design and project management, and asphalt concrete material engineering in the civil engineering industry. In the past 9 years, his practice mainly focused on geotechnical engineering and related project management, and he has successfully delivered numerous projects consisting of transportation, water resources, residential, commercial, and industrial projects. His experience includes geotechnical project management, geotechnical exploration planning, soil investigation, foundation designs and construction, piling, geotechnical engineering (e.g., bearing capacity estimate, settlement analysis, slope stability analysis, seepage analysis, site preparation recommendation, and pavement design and recommendation), foundation engineering, and ground improvement. Prior to that, from Year 2008 to 2011, he had three years of experience of performing research on asphalt concrete materials and advanced training in Civil engineering as a PhD candidate. During that period, he authored several research publications. From Year 2006 to 2007, he obtained his master's degree in Civil Engineering. From Year 1998 to 2006, Mr. Zhao acquired eight years of experience working in construction consulting industry as a certified professional cost engineer in China.

Professional Experience

Proposed 8-Inch D.I. Force Main Installation, Along N.E. 18 Avenue and N.E. 199 Street from P.S. 432 to Manhole 0032, PCTS No. 14872, ER No. S049585, 2019: Senior Geotechnical Engineer. Dr. Zhao took a leading role for the geotechnical evaluation, recommendation, and reporting.

Replacement of 5540 LF FM from PS1063 to PS1058 and then to SW 97th Avenue at 187th Street, PCTS No. 14870, ER No. S049582, 2019: Senior Geotechnical Engineer. Dr. Zhao took a leading role for the geotechnical evaluation, recommendation, and reporting.

Area S-4 Wastewater Systems and Potable Water System Improvements, PCTS No. 15149, ER No. S049932, 2019: Senior Geotechnical Engineer. Dr. Zhao took a leading role for the geotechnical evaluation, recommendation, and reporting.

Pump Station 0830 Upgrades, PCTS No. 13451, ER No. S049848, 2019: Senior Geotechnical Engineer. Dr. Zhao took a leading role for the geotechnical evaluation, recommendation, and reporting.

Pump Station 0071 Upgrades, PCTS No. 14371, ER No. S049931, 2019: Senior Geotechnical Engineer. Dr. Zhao took a leading role for the geotechnical evaluation, recommendation, and reporting.

Pump Station 0659 Upgrades, PCTS No. 16043, ER No. S049952, 2020: Senior Geotechnical Engineer. Dr. Zhao took a leading role for the geotechnical evaluation, recommendation, and reporting.

Pump Station #415 Rehabilitation, Vibration Monitoring of Sheet Piling Install, 2018, Senior Geotechnical Engineer: Senior Geotechnical Engineer. Dr. Zhao reviewed the vibration monitoring report.

Carlos Giffoni, PE

Senior Geotechncial Engineer

Firm Name
WSP

Firm Title
Senior Geotechnical Engineer

Years of Experience
Industry: 49 years

WSP: 5 years

Education
MSc, Civil Engineering, Florida International University, 2005

BS, Civil Engineering, Catholic University Andres Bello, 1974

Certifications/ Licesnes
Professional Engineer - FL

Office Location
West Palm Beach, Florida

Career Summary

Mr. Carlos Giffoni is a Florida Professional Engineer with 49 years of combined experience (16 in the United States) in road, bridge, and structural construction inspection (CEI), as well as geotechnical services on numerous FDOT projects throughout Florida. He has worked on numerous roadway projects as a Project Engineer, QC Manager, and Design Engineer for FDOT, FDEP, and other municipalities in Florida.

Mr. Giffoni serves as a senior geotechnical engineer and senior inspector responsible for writing geotechnical reports and performing inspections for several structural and geotechnical projects in South Florida.

Professional Experience

Districtwide Geotechnical and Paving Coring Services, Florida Department of Transportation Districts 4 and 6, South Florida, Cost Varies, WSP (2020): Senior Geotechnical Engineer. Staff approved for performing geotechnical engineering and testing services according to Contract No. CA 512 to furnish services in connection with WSP's Districtwide Geotechnical and Paving Coring Services contract. Participating in several projects for FDOT Districts 4 and 6. Responsible for writing geotechnical reports and performing inspections for structural and geotechnical projects in South Florida. Reference: Rocio Merlihan, PE, Assistant District Geotechnical Engineer, 954.677.7030.

ASDB Golden Glades Multimodal Transportation Project, FIN 25168465201, Florida Department of Transportation, Miami, Florida, $56 million, WSP (June 2018 to 2019): Senior Geotechnical Engineer/Senior Inspector/Alternate QC Manager. Served as Alternate QC Manager for this $56 million ASDB Golden Glades Multimodal Transportation Project in Miami, Florida. Also responsible for writing geotechnical reports and performing inspections.

Dunes Restoration at South Beaches, Brevard County, Florida, WSP (2019 to 2020): Project Manager. This contract involved CEI of reconstructive efforts to repair eroded portions of beach dunes along 13 miles of the Brevard County coastline for the South Beaches and included the delivery and placement of 103,000 cubic years of compatible beach quality sand.

Rehabilitation of Filter Media at Fiveash Water Treatment Plant, City of Fort Lauderdale, Florida, $160,000, WSP (August 2020 to Ongoing): Senior Engineer/ CEI Inspector. Rehabilitation of the filter media at the water treatment plant. Responsible for overseeing the restoration process, including preparation and remediation work as well as wall resurfacing and finishing.

Force Main at Croissant Park and Residential Connections, City of Fort Lauderdale, Florida, $180,000, WSP (2019 to 2020): Senior Engineer/CEI Inspector. Installation of a new 10-inch force main, including residential connections for the City. The installation involved pipe bursting methodology, used for replacing an existing 6-inch iron pipe main.

Amr Ewais, PhD, PE

Senior Geotechncial Engineer

Firm Name
WSP

Firm Title
Senior Geotechnical Engineer

Years of Experience
Industry: 18 years

WSP: 1 year

Education
PhD, Civil Engineering, Queen's University, Ontario, Canada, 2014

BS, Civil Engineering, Ain-Shams University, Cairo, Egypt 2004

Certifications/ Licesnes
Professional Engineer - CO

Office Location
Tampa, Florida

Career Summary

Dr. Amr Ewais is a senior Geotechnical Engineer with WSP. He received his PhD degree in Civil Engineering from Queen's University and University of California Berkeley for his postdoctoral fellow. He has diverse experience in geotechnical engineering, geoenviromental, construction and geosynthetic materials testing and infrastructure and surface movements using Lidar and fiberoptics. He is nationally certified tunnel inspector (NCTI) with more than eight years of experience in testing and characterizing geosynthetic materials and polyethylene materials.

Professional Experience

Manatee County/Carollo Engineers, Lake Manatee Dam Phase II Final Repairs, Manatee County, Florida, 10/2022-ongoing: Senior Geotechnical Engineer. Providing geotechnical support and field supervision for installation of deep soil mixing columns and stability and seepage analysis for the downstream river slope in endeavor of repairing the spillway of 4,700-foot-long, 27-foot-high earth embankment dam at Manatee County, Florida.

Florida Inland Navigation District's IR-14, Indian River County, Florida, 08/2022-04/2023: Lead Geotechnical Engineer. Providing geotechnical field and laboratory investigations, geophysical surveys, engineering analysis and reporting for 30-acre Dredged Material Management Area in Indian River County, Florida.

K M Alim Al Razi, MSc, PE

Senior Geotechncial Engineer

Firm Name

WSP

Firm Title

Senior Consultant Geotechnical Engineer

Years of Experience

Industry: 6 years

WSP: 1 year

Education

MSc, Civil Engineering, University of Texas at San Antonio, 2017

BS, Civil Engineering, Khulna Engineering University, Bangladesh, 2013

Certifications/ Licesnes

Professional Engineer - MO, FL (pending)

Office Location

Altamonte Springs, Florida

Career Summary

Mr. K M ALIM AL RAZI, PE is a Senior Consultant, Geotechnical Engineer with WSP. He received his master's degree in civil engineering from the University of Texas at San Antonio. He has six years of geotechnical engineering and construction observation experience.

Mr. Alim's expertise in the field of geotechnical engineering includes consultation, design and analyses of the geotechnical aspects of various projects in New York, New Jersey, Missouri, Kansas, Illinois and Florida regions. He has widespread experience in Transportation, Utility, Transmission Lines, Water Resources, Substation and transmission, and Airport facility projects. He primarily worked on geotechnical aspects of these project including but not limited to, foundation design, slope stability and seepage analyses analyses, ground improvement evaluation and recommendation, pavement design and construction recommendations and monitoring. His routine task included project management, develop field and laboratory test programs, proposal preparation and cost analyses, geotechnical design and analyses and technical report and memorandum writing.

Professional Experience

Spirit Lake and Sheffield Road Improvements, Polk County, Florida, WSP : Senior Geotechnical Engineer. Involving in assigning laboratory testing, pavement design recommendations, geotechnical report writing.

Dragline Civil Design in FDOT Right of Way (ROW), White Springs, Florida, WSP: Senior Geotechnical Engineer. Geotechnical engineering analyses and design, providing recommendations for the trenchless excavation methods, geotechnical report writing.

Missouri Department of transportation (MoDOT) Broadway Bridge Replacement over I-44, St. Louis, Missouri (TSi)(January 2021 to February 2022): Geotechnical Engineer. Involved in field geotechnical exploration planning, MSE wall global stability analyses, ground improvement recommendation, deep foundation design, analyses, deep foundation lateral load capacity analyses, construction recommendations, geotechnical report preparation.

Route 370, and Salt River Road Improvements and Expansion (TSi)(June 2022 to April 2023), St. Charles County, Missouri: Geotechnical Engineer. Estimation of settlement due to new embankment fill, wick drain design recommendations, installation of wick drain, settlement monitoring, monitoring piezometer pressure, slope stability analyses with and without the wick drain.

Jose Lizarraga

Geotechncial Engineer

Firm Name

WSP

Firm Title

Senior Geotechnical Engineer

Years of Experience

Industry: 6 years

WSP: 1 year

Education

Doctor of Philosophy, Geotechnical Engineering, Northwestern University, 2017

MSc, Geotechnical Engineering, Northwestern University, 2014

BS, Civil Engineering, Universidad Autonoma de Nuevo, 2010

Office Location

Jacksonville, Florida

Career Summary

Mr. Lizárraga has provided project permitting and engineering support services for numerous geotechnical-related design projects. These have involved infrastructure improvements for power generation plants, solid waste and coal combustion residual disposal facilities, industrial, port, and marine structures in Florida, Georgia, and South Carolina. Mr. Lizárraga is knowledgeable in the design of earthen dikes for dredge disposal management areas, design and permitting support services for the closure and expansion of solid waste disposal facilities, management of geotechnical explorations for the characterization of dredged spoils, lagoon and marine soft sediments, and solid waste.

Professional Experience

SR 23 Shands Bridge Design Build, WGI, Inc., St. Johns and Clay Counties, Florida, Ongoing, WSP : Providing geotechnical engineering suppport on this nearly $600M design build project in Northeast Florida. This 6.5-mile-long project is part of the First Coast Expressway and includes eight new bridges (seven small bridges and the replacement of the existing 1.75-mile-long Shands Bridge across the St. Johns River..

Expansion of West Cell Dredged Material Containment Area (DMCA), South Carolina Ports Authority, Charleston, South Carolina (2022) WSP: Design project that consisted on expanding the storage capacity of an inactive, 175-acre DMCA by constructing a new perimeter dike system and ancillary infrastructure. Served as assistant project manager, involved in proposal preparation, project planning, execution, and delivery. Responsibilities included planning and execution of geotechnical field and laboratory investigation, preparation of calculation packages and reports; conceptual and detailed design of dikes and earthen embankments, and ancillary infrastructure (spillways, and stormwater management); cost analysis and life estimate for different site layouts; and preparation of bid documents.

Trail Ridge Landfill Waste Stability Evaluation,Waste Management Inc., Jacksonville, Florida (2022) Served as assitant project manager. Completed a field exploration program that included the completion of 15 Cone Penetration Tests (CPTs) on an approximately 95-acre active landfill to evaluate waste characteristics and waste liquid levels. Prepared a technical report to provide an stability evaluation of waste slopes under current and final build-out conditions.

Engineering Design Support Services for Herbert Hoover Dike (HHD) Rehabilitation, Lake Okeechobee, Florida (2020-2022): Provided engineering design services to support construction activities at the HHD that comply with USACE's requirements. Responsibilities included preparation of technical reports that include evaluation of stability of dike slopes under different construction equipment configurations, analyses of wind pressures on temporary structures under hurricane events, and submittals review.

Christian Wireko, PhD

Geotechncial Engineer

Firm Name

WSP

Firm Title

Consultant Geotechnical Engineer

Years of Experience

Industry: 5 years

WSP: 1 year

Education

Doctor of Philosophy, Civil Engineering, Florida State University, 2020

MSc, Civil Engineering, Chongqing University, China, 2017

BS, Building Technology, Kwame Nkrumah University of Science and Technology, Ghana 2011

Office Location

Jacksonville, Florida

Career Summary

Dr. Wireko is a geotechnical engineer. His professional experience includes technical support for the design, permitting, and construction of solid waste disposal facilities, dredge management containment areas, and stormwater management infrastructure. Dr. Wireko is skilled in geotechnical analyses and design including foundation design, slope stability, seepage, and settlement analyses. Dr. Wireko field experience includes overseeing geotechnical field investigations, performing soil and groundwater sampling. Dr. Wireko also has experience in performing laboratory geotechnical testing on soils and geosynthetics.

Professional Experience

Waste Limits Evaluation, AHS Residential, West Palm Beach, Florida (2022) WSP : Dr. Wireko provided engineering consulting services to determine the lateral and vertical limits of waste at a site considered for redevelopment. His responsibilities included supervising the geotechnical field investigation, visual classification of waste and soils, test pit logging, review and interpretation of the field investigation and laboratory data, and preparation of the Geotechnical Report..

Site Redevelopment, Indigo Shoppes, LLC, Jacksonville, Florida (2021) WSP: Dr. Wireko provided engineering consulting services for redevelopment of a site. His responsibilities included supervising the geotechnical field investigation, visual classification of soils, borehole logging, review and interpretation of the field investigation and laboratory data, and preparation of the Geotechnical Report.

Dredged Material Containment Area Design, Southern LNG, Inc., Savannah, Georgia (2021) Dr. Wireko provided engineering consulting services for dike raising and maintenance of perimeter dikes for containment areas used for the disposal of dredged sediments. His responsibilities included review and interpretation of subsurface geotechnical investigation data, stability and seepage analyses, and preparation of site maps and layouts.

SLD Recycling & Disposal Facility, Lined Cells Design and Permitting, Punta Gorda, Forida (2021): Dr. Wireko provided engineering consulting services to support the design and permit application for new lined cells for the disposal and management of construction and demolition debris. His responsibilities included geotechnical data interpretation, preparation of reports and engineering calculation packages for settlement analyses of the cover and liner systems.

Elba Island Annual Foundation Settlement Analysis, Southern LNG, Inc., Savannah, Georgia (2021): Dr. Wireko provided engineering consulting services to determine if any settlement has occurred within the foundations of liquefied natural gas (LNG) storage tanks and various equipment on Elba Island. His responsibilities included reviewing survey data and performing tank settlement evaluations per the API Standard 653 Annex B.

Alexander Rojas, PE, AVS, CWI

Construction Material Testing Lead / Senior Engineer

Firm Name
WSP

Firm Title
CMT Team Lead

Years of Experience
Industry: 28 years

WSP: 15 years

Education
MS, Construction Management, Florida International University, 2016

BS, Mechanical Engineering, Central University of Las Villas, 1995

Certifications/ Licesnes
Professional Engineer - FL, NH
Certified Welding Inspector, Florida No. 08061141
Associate Value Specialist, SAVE, No. 201511029
TIN: R220000730010

Office Location
West Palm Beach, Florida

Career Summary

Mr. Alexander Rojas is a Project Manager/Group Supervisor with more than 25 years of experience. Mr. Rojas has managed and provided project coordination and engineering services for various geotechnical and CMT engineering-related projects in Florida. These projects have ranged from residential structures and commercial developments to state roadways, bridges, office buildings, parking garages, and government facilities. Services provided by Mr. Rojas have involved all aspects of project proposal, price estimating, and project management, including planning and execution of materials testing contracts, roadway construction projects, geotechnical field explorations, soil/rock sample classification, and laboratory testing.

Professional Experience

City of Fort Lauderdale, Fiveash Water Treatment Plant Filters Rehabilitation, Project Number 12485, Broward County, Florida, $1.9 million, 08/2020-Ongoing, WSP: CEI Project Administrator. The project consists of complete and partial rehabilitation of 13 filters. This project includes procurement, removal disposal, construction, testing and placing into service the equipment and materials shown on the drawings and specifications. Responsible for CEI project administration and inspections. .

City of Fort Lauderdale, Croissant Park Water Main Infrastructure Improvements, Broward County, Florida, $2.6 million, 01/2019-09/2019, WSP: CEI Project Administrator. The project consists of using trenchless technologies to upgrade existing water infrastructure. More than 8,000 linear feet of HDPE was installed by pipe bursting, and more than 6,000 liner feet was installed with horizontal directional drilling. Responsible for CEI project administration and inspections of installed mains and pressure testing of pipe welds and fittings, fire hydrants, water services, and paving/restoration.

City of Fort Lauderdale, East Las Olas 12-inch Force Main Replacement, SE 17th Avenue to Lido Drive Pump Station, Fort Lauderdale, Florida, $1.4 million, 01/2018-06/2018, WSP: CEI Project Administrator. This project includes the installation of approximately 2,200 linear feet of 8-inch, 12-inch, 16-inch, and 18-inch, diameter force mains and associated wastewater infrastructure. The force main will be constructed within the City right-of-way (ROW) and FDOT ROW limits.

Miami-Dade Expressway Authority, MDX Materials Engineering and Testing Services for SR 836 Operational, Capacity, and Interchange Improvements, Florida, $199,000, 04/2016-Ongoing, WSP: MAT Lab Engineer/Project Manager. This project consists of increasing the capacity of SR 836 in the eastbound direction from west of NW 57th Avenue to east of NW 27th Avenue and in the westbound direction from west of NW 17th Avenue to east of NW 57th Avenue. Responsible for verification materials testing services.

Winsor Pozo, EI

CEI - Senior Inspector

Firm Name
WSP

Firm Title
Technical Professional - Geotechnical

Years of Experience
Industry: 19 years

WSP: 1 year

Education
BS, Civil Engineering, University of Florida, 1998

Certifications/ Licesnes
Engineer Intern
Quality Control Manager (CTQP)
ACI Concrete Laboratory Technician Level 2
Nuclear Gauge Safety Training
Certified General Contractor CGC
Hazmat Refresher
Qualified Sampler Technician
Earthwork Construction Inspection
Aggregate Inspection and testing Technician – Level 1
LBR Technician
Concrete Lab Technician - Level 1
Aggregate Field-Inspection and Testing Technician

Office Location
Miami Lakes, Florida

Career Summary

Mr. Winsor Pozo has 19 years of experience with construction engineering, project management, inspection, construction materials/laboratory inspection and testing, and geotechnical engineering, and has served as Office Manager and Department Manager with other firms prior to joining WSP. He has worked on and managed major projects throughout South Florida and has served as Project Manager for numerous projects for both public and private clients, including the Florida Department of Transportation (FDOT), United States Army Corps of Engineers (USACE), and the South Florida Water Management District (SFWMD).

Professional Experience

South Florida Water Management District, A1 Flow Equalization Basin (FEB), Engineering Inspections, Crosshole Sonic Logging (CSL) Inspection, and Drilled Shaft Testing, Palm Beach County, Florida, 2014-2015: Quality Control (QC) Manager. Represented the project General Contractor, Central Florida Equipment, holding weekly project progress meetings, handling GC coordination and scheduling of personnel and subs, and representing the GC on construction related issues. The A-1 FEB is included in a suite of projects in the State of Florida's restoration strategies plan to improve water quality in the Everglades. With a capacity of 15,000 acre-feet, it is the largest of three planned flow equalization basins. The A-1 FEB will attenuate peak stormwater flows and temporarily storing water. Located west of U.S. Highway 27 in southern Palm Beach County, the $59m A-1 FEB project comprises a system of 21 miles of earthen levees and 15 water control structures.

The School Board of Broward County, Florida, 2009-2013: Project Manager. Continuing contract engineering and miscellaneous consulting services for educational facilities projects. Scope of work included geotechnical inspection and testing, material inspection and testing and moisture intrusion detection.

Broward County Court House, Florida, 2012-2013: Project Manager. Provided construction materials inspection and testing and cable postension inspections, augercast pile installation and pile load tests.

Miami Intermodal Center (MIC), Rental Car Center and Miami Central Station, Miami-Dade County, Florida, 2007-2013: Project Manager. Provided construction materials inspection and testing and selected inspections for site development, infrastructure, and structures, and both on and off-site inspections of structural steel including welded and bolted connections., vibration monitoring, concrete coring and soils inspection and testing.

Miami Dade Public Works, Miami Dade County, Florida, 2007-2013: Project Manager. The project consisted of subsurface exploration and foundation design, construction materials inspection and testing and geotechnical engineering for several county departments under a continuing services contract.

FBO Opa Locka Executive Airport, Miami Dade County, Florida, 2012-2013: Project Manager. Provided construction materials inspection and testing and inspections for site development, infrastructure, and structures, both, on and off-site inspections of structural steel including welded and bolted connections.

Jose Quiroz

CEI - Senior Inspector

Firm Name
WSP

Firm Title
Technical Professional

Years of Experience
Industry: 25 years

WSP: 8 year

Education
BS, Architecture, Universiada Mayor de San Simon, 1997

Certifications/ Licesnes
FDOT CTQP Concrete Lab Technician Level I
FDOT CTQP Earthwork Construction Inspection Level I
FDOT CTQP Earthwork Construction Inspection Level II
ACI Concrete Field Technician I
ACI Concrete Strength Technician Level I
PCI Level I
Nuclear Gauge Safety Certification
WACEL Soils I, Concrete Level II Technician, Foundations, Soils Laboratory, Concrete Laboratory, Structural Concrete-Masonry
VDOT Concrete Field Technician
CETCO Waterproofing Inspector
NICET Level I

Office Location
Miami Lakes, Florida

Career Summary

Mr. Jose Quiroz has 25 years of experience on various public, vertical, and roadway projects. He possesses numerous certifications from various transportation and materials testing agencies and departments, including FDOT, ACI, and PCI. Mr. Quiroz served as project manager/field operations manager for the Dulles Corridor Metrorail Project, Phase I and II, in addition to the Capitol Place Project in Washington, D.C., which consisted of an entire block of multi high-rise residential and office building towers. He has also served as project manager for several water and wastewater treatment plants, pipelines, and pump stations for Miami-Dade County. Mr. Quiroz's duties include special inspections, destructive and non-destructive testing, QA/QC monitoring, and coordinating contractor's activities for schedule control and work assignments, as well as reviewing field reports to ensure inspections were conducted in accordance with the project plans and specifications.

Professional Experience

Miami Dade South District Wastewater Treatment Plant (SDWWTP), Miami-Dade County, Florida, $45 million, (2021 – Ongoing): Project Manager – Threshold Inspection Services. As part of the Ocean Outfall Legislation Program (OOL) this $450 million new construction project includes oxygenation trains, headwork effluent building, substation building with three clarifiers and filters, and an influent building with meter 54-to-72-inch diameter pipe. The OOL Program includes improvements and expansion of the existing SDWWTP wastewater collection and treatment systems that are necessary to meet future projected flows and loads. SDWWTP is located adjacent to Blackpoint Marina in South Miami-Dade County. WSP's services include threshold special inspections for reinforcing steel, masonry, structural fill, and testing. All laboratory testing was performed by WSP's CMEC-accredited laboratory facility in Miami Lakes, Florida, according to the applicable Florida Building Code Method, AASHTO and ASTM standards by qualified and experience in this type of construction.

Collier County, Big Cypress Basin Control Structure #1 - 771 23rd St NW, Naples (2022 – ongoing) : Senior Construction Engineering Inspector (CEI) /Special Inspector. This project located on NW of Naples SD WWTP in Collier County, consists of new construction of canal control structure. A cast in place, slab and foundation walls specially designed for the water management. WSP provided the necessary engineering oversight, special inspections. Our roll in this project was structural inspection, reinforcement, forms. All activities were reported daily to the Structural Engineer and the client representative.

Port Condo Watermain Improvements (2022 – Ongoing): Quality Control/CEI Inspector. Project located at north side or Fort Lauderdale Port. The project consists of the new installation of more than 1,400 feet of 12-inch main pipeline, in addition to new connections to the buildings that are along Grande Dr. The construction of this project is a challenge now in which it is developed. Is in the middle of a highly residential area and in the middle of the traffic of the Hotel Hilton and the Fort Lauderdale Convention Center. WSP provided the necessary Construction Engineering Inspector overseeing construction.

Marcia Chacon

Laboratory Technician

Firm Name
WSP

Firm Title
Laboratory Technician

Years of Experience
Industry: 26 years

WSP: 15 years

Education
BS, Geology, Oriente University, 1981

Office Location
West Palm Beach, Florida

Career Summary

As a Laboratory Technician, Ms. Marcia Chacon is experienced in performing CMT in a laboratory environment. Typical tests performed include LBR, CBR, wash 200s, liquid and plastic limits (Atterberg limits), organic content, pH of soils, and compressive strength testing on concrete specimens. In addition to performing these tests, Ms. Chacon is also responsible for maintaining laboratory equipment calibrations.

Professional Experience

Florida Department of Transportation/Dragados USA, I-595 Design Build, Florida, $8.8 million, 2008-2014, WSP: Administrative Support. Responsibilities included geotechnical exploration, QC, and construction materials inspection and testing services as a subcontractor for a five-year FDOT project involving construction of 3 miles of HOT lanes on a three-lane highway. Provided administrative support for daily scheduling and communications.

South Florida Water Management District, Lakeside Ranch Stormwater Treatment Area Phase I, Florida, $3 million, 2009-2011, WSP: Laboratory Technician. Responsible for general engineering, professional services, and construction management. The site is located on the northeast shore of Lake Okeechobee, just east of U.S. Highway 441/98 in Martin County, Florida, and is approximately 2,700 acres in size. Performed concrete strength testing, LBR tests, proctor tests, sieve analysis, and prepared field density test reports.

OTO Development, LLC, Spring Hill and Homewood Suites Hotels, Florida, $172,000, 2008, WSP: Laboratory Technician. Provided CMT and threshold inspection services for development of two five-story hotels (Spring Hill Suites and Homewood Suites) at opposite corners of an intersection near I-95 in the West Palm Beach area. Each hotel covers approximately 96,000 square feet. Project included testing of soils/earthwork and concrete masonry. Performed concrete strength testing, LBR tests, proctor tests, sieve analysis, and prepared field density test reports.

Port of Miami Improvement Program, Geotechnical and Design Services, Miami, Florida, $192,000, 2010, WSP: Laboratory Technician. Responsibilities included survey, geotechnical, and environmental exploration for the wharf upgrades. Performed 15 geotechnical borings with four-inch diameter rock coring. Entered boring log data and performed laboratory tests which included Atterberg limits, grainsize analysis, and organic content.

OTO Development, LLC, Hampton Inn and Suites, City, Florida, $80,880, 2009, WSP: Laboratory Technician. Performed CMT and threshold inspection services for five-story hotel covering approximately 62,500 square feet with outdoor swimming pool. Services include observation and lab testing of soils, concrete masonry and structural steel, and roofing inspections. Performed concrete strength testing, LBR tests, proctor tests, sieve analysis, and prepared field density test reports.

Elias Manzur

Laboratory Technician

Firm Name
WSP

Firm Title
Senior Engineering Technician

Years of Experience
Industry: 16 years

WSP: 3 years

Education
AS, Business Marketing, Florida State University, 2007

Office Location
West Palm Beach, Florida

Career Summary

Mr. Elias Manzur has 15 years of experience in the supervision of laboratory testing, reporting, and certification. He is also experienced in performing all laboratory testing required for quality control testing and inspection of soils, concrete, and asphalt.

Professional Experience

Florida Department of Transportation, Geotechnical and Survey Design Services Contract (C9T73), Covering Multiple Areas within Florida's Turnpike Enterprise System of Toll Roads, Florida, $5 million, 2017-2022, WSP: Asphalt Plant Technician. Providing geotechnical and/or survey design support services, deliverables, and technical documents in accordance with FDOT policy, procedures, and requirements.

Florida Department of Transportation Districts 4 and 6, Districtwide Construction Materials Contract (CA512), South Florida, Cost Varies, 2019-2024, WSP: Asphalt Plant Technician. Providing consultant services to support the Department in materials testing activities and construction support for District 4 and 6 projects.

Florida Department of Transportation/Florida Turnpike Enterprise, Widen HEFT Killian/SW 104th Street (MP 19.0) to Sunset/SW 72nd Street (MP 21.9) Design/Build (415051-1-52-01), Miami-Dade County, Florida, $74 million, 2014-Ongoing, WSP: Asphalt Plant Technician. The project is a 1,586-day design/build contract at a cost of $74.1 million. The project includes the design, widening, and reconstruction of SR 821, the Homestead Extension of the Florida Turnpike (HEFT) from six lanes to ten lanes.

Florida Department of Transportation/Florida Turnpike Enterprise, AET Phase 5A, Turnpike Mainline from I-595 (MP 54) to South of Lantana Toll Plaza (MP 88) Construction Contract (429339-1-52-01), Broward and Palm Beach Counties, Florida, $20.5 million, 2018-Ongoing, WSP: Asphalt Plant Technician. The project is a 642-day construction contract at a cost of $20.5 million. The project includes milling and resurfacing, base work, drainage improvements, curb and gutter, lighting, highway signing, guardrail, MSE walls, toll facilities, and other incidental construction.

David Manzur

Laboratory Technician

Firm Name
WSP

Firm Title
Senior Laboratory Materials Technician

Years of Experience
Industry: 16 years

WSP: 2 years

Office Location
West Palm Beach, Florida

Career Summary

Mr. David Manzur is an experienced quality control analyst with demonstrated track record of improving products and procedures by leveraging hands-on inspections, testing methods and data analysis. He is a disciplined professional with a systematic approach to quality testing and applies excellent attention to detail and critical reasoning to successfully conduct experiments.

Professional Experience

PSI Miami, 02/2016-06/2021: Quality Control Technician. Reviewed and validated quality requirements for manufacturing planning, supplier purchase orders, and engineering specifications to meet contract compliance regulations. Evaluated samples against standards by completing measurements, visual inspections, and other established tests. Set and oversaw quality assurance guidelines for laboratory work. Recorded, reported, and posted test results using MAC.

CTI, 11/2015-03/2017: Quality Control Technician. Reviewed and validated quality requirements for manufacturing planning, supplier purchase orders, and engineering specifications to meet contract compliance regulations. Evaluated samples against standards by completing measurements, visual inspections, and other established tests. Recorded, reported, and posted test results using MAC.

Tally Engineering, 01/2007-05/2012: Quality Control Laboratory Technician. Reviewed and validated quality requirements for manufacturing planning, supplier purchase orders, and engineering specifications to meet contract compliance regulations. Evaluated samples against standards by completing measurements, visual inspections, and other established tests. Recorded, reported, and posted test results using LIMS. Kept laboratory in compliance with all applicable specifications.

Valwin Knight
Senior Technician

Firm Name
WSP

Firm Title
Senior Engineering Technician

Years of Experience
Industry: 33 years

WSP: 19 years

Education
BS, Degree, General Studies, Claredon College, 1972

Office Location
West Palm Beach, Florida

Career Summary

As Senior Engineering Technician, Mr. Valwin Knight performs all field and laboratory tests required for soils and concrete. He is also experienced in the evaluation of soils and concrete. His responsibilities include observations of reinforcing steel, soils, field concrete laboratory testing and post-tensioning.

Mr. Knight has provided inspections of foundation installation, including driven and auger-cast piles, as well as both threshold and special inspections under the Florida threshold law.

Professional Experience

Broward County Aviation Department/Parsons Transportation Group, Fort Lauderdale-Hollywood International Airport Expansion of Runway 9R-27L, Florida, $800 million, 2013-2014, WSP: Engineering Technician. Earthwork, roadway, and utilities inspector for the South Runway aircraft/taxiway bridges, U.S. 1 roadway and braided ramps. Monitored the Hilton Hotel demolition. Monitored and coordinated activities of the owner (QAMT) and contractors' QC testing labs.

Florida Department of Transportation/Dragados USA, I-595 Design Build, Florida, $8.8 million, 2008-2014, WSP: Senior Engineering Technician. Performing quality control for soil and concrete. Responsibilities included geotechnical exploration, QC, and construction materials inspection and testing services as a subcontractor for a five-year FDOT project involving construction of 3 miles of HOT lanes on a three-lane highway. Provided administrative support for daily scheduling and communications.

South Florida Water Management District, Lakeside Ranch Stormwater Treatment Area Phase I, Florida, $3 million, 2009-2011, WSP: Senior Engineering Technician. Maintained field data and sampling concrete; performed density testing; provided oversight for various construction materials applications; tested on-site according to ASTM procedures; offered direction to other technicians; and maintained open communication with the construction site supervisor. Provided general engineering, professional services, and construction management as requested by client. The site was located on the northeast shore of Lake Okeechobee and east of U.S. 441/98 in Martin County, Florida.

OTO Development, LLC, Fairfield Inn and Suites Fort Pierce Hotel, Florida, $86,680, 2008, WSP: Senior Engineering Technician. Maintained field data and sampling concrete; performed density testing; provided oversight for various construction materials applications; tested on site according to ASTM procedures; offered direction to other technicians; and maintained open communication with the construction site supervisor. Provided vibro-replacement (stone column) monitoring, CMT, and threshold inspections for construction of a four-story, 111-room hotel with in-ground swimming pool.

OTO Development, LLC, Dania Beach Construction Materials Testing, Florida, $397,000, 2009, WSP: Engineering Technician. Responsibilities included logging of data as ground improvements and soil densities were performed. Provided CMT and reporting of test results on two hotels.

Victor Hosey
Senior Technician

Lbr Testing Technician

Earthworks level 2

Asphalt Plant 2.

Office Location
Tampa, Florida

Career Summary

As Senior Engineering Technician, Mr. Victor Hosey performs all field and laboratory tests required for soils and concrete. He is also experienced in the evaluation of soils and concrete. His responsibilities include ·concrete sampling, concrete compressive strength testing, soils sampling, soils testing. nuclear density testing, aggregate testing, aggregate sampling, asphalt sampling, asphalt testing. Lbr testing, modified proctor testing, standard proctor testing,

Professional Experience

Lab Supervisor, S&ME: ·Construction materials sampling and testing, to include; concrete, asphalt, soils, Lbr's modified and standard proctors. Field testing and sampling to include; concrete testing, field density testing,

Lab Tecnician, Tierra Engineering: Construction Material field and laboratory sampling and testing including; soils, concrete, asphalt, Lbr's and modified and standard proctors.

Billy Davis
Senior Technician

Firm Name
WSP

Firm Title
Senior Construction Technician

Years of Experience
Industry: 50 years

WSP: 1 year

Office Location
Tampa, Florida

Career Summary

Mr. Davis has nearly 50 years of experience in the phosphate industry. He has served multiple roles associated with phosphoric acid production including plant supervisor and gypsum stack manager. Recently Mr. Davis has provided construction oversight services for multiple earthwork, gypsum and HDPE liner projects, involving daily contractor coordination, verification of completion, and quality control/ assurance inspection and specification compliance reviews.

Professional Experience

Site Construction Manager, WSP: Provided construction oversight as Owner's representative and performed quality assurance inspection for the gyp stack side slope closure, vertical expansion and lateral expansion at the Riverview facility and for the gyp stack closure construction at the South Pierce Facility. Duties included daily coordination with the contractors, quality control teams and Owner's representatives. Inspected and verified completion of earthworks and liner installation, reviewed quality control test data for compliance with specifications

Plant Manager, Mosaic Crop Nutrition: SGyp stack Operator. Managed water treatment, monitoring & testing and discharge operations and performed gyp stack maintenance oversight at the Mulberry & Bartow plants. Provided site monitoring at the Mulberry gypsum stacks for water quality and water volume. Mulberry Plant & Stack Manager. As an employee of Mosaic, continued to manage the Mulberry plant gyp stack operations and maintenance, lime treatment operations and water management systems. Worked closely with the contractors in developing operations and maintenance plans. Supervised the installation of HDPE pipes for water management. Directed maintenance of plant and gyp stack access roads and gypsum stack system ponds. Managed multiple site staff and operators.

Construction Manager, Moretrench Industrial: Mulberry Plant & Stack Construction Manager. Managed the Cargill Mulberry FL plant, responsible for the operation of the gyp stack and the movement of water on property. Trained site employees on inspection, monitoring and operations procedures. Responsible for resolving gyp stack operational issues and I would address any problems arising with such. Conducted daily safety meetings and managed daily staffing. Worked with Cargill employees to stay within compliance with the permitted regulations and facility operational criteria. Managed construction operations for closure of the Mulberry north stack including dewatering operations and liner installation preparation. Supervised the operation of the lime plant and the release of the treated water ensuring compliance with discharge permit. Directed maintenance of plant and gyp stack access roads and gypsum stack system ponds.

Adil Khan, PE

Steel Inspection Lead / Senior Engineer

Firm Name
WSP

Firm Title
Prinicpal Metallurgist/ Project Manager

Years of Experience
Industry: 45 years

WSP: 35 years

Education
MSc, Metallurgical Engineering, Ohio State University, 1981

BS, Metallurgical Engineering, NED University of Engineering & Technology (Pakistan), 1978

Certifications/ Licesnes
Professional Engineer - TX

Office Location
Jacksonville, Florida

Career Summary

Mr. Adil Khan is a consultant in the applications of engineering materials including ferrous and nonferrous metals, stainless steels, tool materials and special purpose steels, polymers, ceramics, plastics, and electronic materials. He has a strong background in the study of corrosion and environmental degradation of engineered materials and has been an expert witness on several cases involving the failure of materials, components, structures, industrial equipment, and accident reconstruction. During his career, has managed and provided project engineering services for more than 2,000 metallurgical failure analyses. These forensic engineering projects consisted of planning, executing and managing field metallurgical evaluations, laboratory testing and evaluations, preparation of reports relating to probable causes of failures, and recommendations on corrective actions or solutions to prevent recurrence of the problems in the future. His expertise has been used in North and South America, Europe, and the Middle East.

Professional Experience

Central Florida Expressway Authority, 6740-20-1818, 528-143: SR 528/SR 436 Interchange Improvements and Widening to Goldenrod Road (Bridge Tub Girders, Fracture Critical, Overhead Sign Structures, Toll Gantries), Orlando, Florida, Fees: $200,000, Construction: $75 million est., 05/2020-Ongoing: Project Manager. Construction project consisting of demolition of existing bridges and widening of SR 528 in Orange County. Provided consultation to CFX and its Engineering consultants on resolving fabrication issues and provided inspection services in fabrication shops. This design-build project consists of six fracture critical steel bridges, 10 cantilever sign structures, and six span sign structures. Fabrication of the bridge girders was performed at Tampa Steel located in Tampa, Florida, and sign structures were fabricated at Arcosa Traffic Solutions located in Fort Pierce and Sumterville, Florida. WSP performed inspections of delivered material, and during the welding, nondestructive testing, shop assembly, bolting, blasting, painting, and galvanizing operations to ensure compliance with Contract Plans, AWS D1.5 Bridge Welding Code, and AWS D1.1 Structural Welding Code–Steel.

FDOT State Materials Office, 6740-20-1817, BE958: Developing Procedures for Welding, Testing, and Fabricating Weathering Stainless-Steel Bridges (Weathering Steel, Stainless-Steel, Research, and Development), Jacksonville, Florida, Fees: $94,000, Construction: N/A, 04/2020-04/2021: Project Manager/Researcher. Special Assignment to write “Procedures for Welding, Testing and Fabricating Weathering Stainless-Steel for Bridge Applications.” The purpose of this report was to create a comprehensive document for the fabrication and welding of ASTM A709 Grade 50CR weathering stainless steel, prior to implementation. The State Materials Office in Gainesville, Florida required a set of procedures that would merge the existing AWS D1.5 Bridge Welding Code and AWS D1.6 Structural Welding Code–Stainless Steel for bridge applications. This document would assist in developing comprehensive procedures for the welding, testing, and fabrication of ASTM A709 Grade 50CR weathering stainless steel for bridge applications. .

Halim Bas, PhD, PE

Materials Engineer

Firm Name

WSP

Firm Title

Senior Civil Roadway and Structural Materials Engineer

Years of Experience

Industry: 13 years

WSP: 5 years

Education

PhD, Materials Science, New York University, 2018

MSc, Structural Engineering, Columbia University, 2012

BS, Civil Engineering, Bogazici University, 2010

Certifications/ Licesnes

Professional Engineer - FL, NY, TX

Precast Concrete Institute Inspector Level I, II, III

American Concrete Institute Inspector Grade I

American Concrete Institute, No. 1941408

Office Location

Jacksonville, Florida

Career Summary

Dr. Halim Bas is a professional engineer and has more than 10 years of experience in structural engineering and engineering materials. He has designed, inspected, and retrofitted residential buildings, military campuses, industrial structures, transportation facilities, and roadways. Dr. Bas has substantial experience in managing structural materials quality control programs for public clients. He has a doctorate in materials engineering and failure analysis which makes him ideally suited for structural materials quality control program management. He has published multiple journal articles in the highest impact factor publications in cementitious materials research. He delivers robust knowledge of the latest structural materials, advanced testing methodologies, materials codes/ standards, structural standards, and construction specifications. Dr. Bas is well versed in structural analysis and design with all common structural materials and construction methodologies. six years of Halim's engineering experience is from projects overseas.

Professional Experience

District Wide Capital Projects, California Department of Transportation, District 12, California, 2022- 2022, WSP, $110M: METS Representative. Dr. Bas has managed the structural materials quality assurance and source inspection tasks for several design bid build projects across Orange County of California.

12-0K0224 I-5 South County Improvements Segment 2, California Department of Transportation, District 12, California, $136M, 2022 – 2022: METS Representative. Dr. Bas has managed the structural materials quality assurance and source inspection tasks for this project, which is the second part of this initiative to maintain and expand route I-5 in District 12. This project involves hot mix asphalt placement, concrete pavement installation, retaining wall construction, and modifying electrical systems. Dr. Bas managed a small team of engineers and technicians to ensure the quality of materials shipped to the construction site. The quality assurance efforts include review of submittals, performing ASTM standard tests, testing according to Caltrans Standard Specifications and project specific special provisions. As part of this effort, District 12 team also holds pre-welding, pre-paint, and pre-precast construction meetings with the contractor and construction management team to ensure complete compliance.

12-0K0234 I-5 South County Improvements Segment 3, California Department of Transportation, District 12, California, $92.5M, 2022 – 2022: METS Representative. Dr. Bas has managed the structural materials quality assurance and source inspection tasks for this project, which is the third part of this initiative to maintain and expand route I-5 in District 12. This project involves hot mix asphalt placement, concrete pavement installation, retaining wall construction, and modifying electrical systems. Dr. Bas managed a small team of engineers and technicians to ensure the quality of materials shipped to the construction site. The quality assurance efforts include review of submittals, performing ASTM standard tests, testing according to Caltrans Standard Specifications and project specific special provisions. As part of this effort, District 12 team also holds pre-welding, pre-paint, and pre-precast construction meetings with the contractor and construction management team to ensure complete compliance.

Michael Philipps, CWI, NDT

Certified Welding Inspector

Firm Name
WSP

Firm Title
Senior Engineering Technician

Years of Experience
Industry: 32 years

WSP: 32 years

Certifications/ Licesnes
AWS Certified Welding Inspector

WSP NDT Level II UT, MT, PT

NACE Level 1

ICC Bolting, Welding

NCDOT Bridge Coatings Level 1

ASNT Level III

Office Location
Jacksonville, Florida

Career Summary

Mr. Philipps is an AWS Certified Welding Inspector, an ASNT Level III, and ASNT Level II in Ultrasonic Testing, Magnetic Particle Testing and Dye Penetrant Testing, a NACE Level 1 Coatings Inspector, ICC Bolting Inspector, and NCDOT Bridge Coatings Level 1. He has 30+ years of experience performing Welding Inspection, Non-Destructive Testing, and Special Inspection services. His primary expertise is in Quality Assurance and visual and non-destructive testing of structural steel fabrication and erection, including methods of UT, MT, and PT of welded assemblies, as well as coatings inspections. Michael's experience includes visual inspection, non-destructive testing and evaluation of metal components, welded structures, bridge fabrication components and vessels. He is well versed in providing inspections to determine compliance with AWS D1.1, D1.3 and D1.5 for structural steel framed buildings and has a great deal of experience with ASME compliance for both structural and vessel components as well. His depth of knowledge in the non-destructive testing field, combined with his dedication to quality, makes him an asset to any project on which he works. His duties include initial steel receipt inspection, monitoring of traceability processes for materials certification, monitoring of welding, visual and non-destructive inspection of welds, coatings application inspection, high strength bolt installation monitoring and inspection, plans and specifications interpretation, and collecting, checking, and preparation of material test report certifications for permanent file.

Professional Experience

QA Inspector, FDOT State Materials Office, 6740-16-3022/6740-18-5003, E4Q32: I-95 Express Lanes and Signal Ramps QA Inspection (Plate Girders/Overhead Sign Structures), Fort Lauderdale, Florida (5/2016 to Present). Fees - $440k. Construction Costs - $149M: This design-build project consists of widening two existing bridges for the addition of express lanes. The project consists of 30 steel plate I-girders, as well as 47 overhead span and cantilever sign structures and two toll gantries. WSP performed visual inspection on delivered material for surface defects and witnessed transfer of heat numbers in order to confirm traceability of base material. WSP also performed inspection services during welding, nondestructive testing, shop assembly, bolt testing and installation, blasting, painting, and galvanizing operations to ensure compliance with Contract Plans, AWS D1.5 Bridge Welding Code, and AWS D1.1 Structural Welding Code–Steel. Reference: Roland Rodriguez – Pinnacle Consulting, rrodriguez@pinnaclecei.com, 305-345-0696.

QA Inspector, Port Authority of New York and New Jersey, Newark Liberty International Airport Terminal A Redevelopment, $2.7B, (8/2015 to Present): A $2.7 billion project to replace the existing Terminal A building with a new terminal building and construct a new roadway access network. Provide QA inspection services during off-site fabrication of rolled beam girders, crossframes, lateral braces, and other miscellaneous structural components to ensure compliance with project specifications, New Jersey DOT Standard Specifications for Road and Bridge Construction, AWS D1.5 Bridge Welding Code, and AWS D1.1 Structural Welding Code for Steel. Activities include verification of approved welding processes and welder qualifications, visual inspection, magnetic particle testing and ultrasonic testing of completed welds, verification of coating operations, and dry film thickness testing. Reference: Paul Catherall – PANYNJ, pcatherall@panynj.gov, 201-216-2389.

Rex Harrison, CWI, NDT Level II, NACE Level 2

Certified Welding Inspector

Firm Name

WSP

Firm Title

Senior Engineering Technician

Years of Experience

Industry: 29 years

WSP: 29 years

Certifications/ Licesnes

AWS Certified Welding Inspector,

WSP NDT Level II, UT, MT, PT, CRI

NACE Certified Coatings Inspector Level 1

NACE Certified Coatings Inspector Level 2

ICC Structural Steel and Bolting Special Inspector

Office Location

Jacksonville, Florida

Career Summary

Mr. Harrison is an AWS Certified Welding Inspector; an ASNT Level II in Ultrasonic Testing, Magnetic Particle Testing, Dye Penetrant Testing, and Radiographic Film Interpretation; a NACE Certified Coatings Inspector, Level 1 and 2; and an ICC Structural Steel and Bolting Inspector. He has extensive experience in performing QA and QC inspections with both AWS and ASME welding codes. Mr. Harrison has performed Level II UT, MT, PT and RT inspections, QA bridge inspections, and is qualified as a FCM inspector in accordance with AWS D1.5 Section 12. He also has experience with sophisticated paint systems application and testing. As a former welder and shop quality control manager, he brings extensive practical experience to any project. He has performed as a QA/QC Manager and has been responsible for developing new welding procedures, performing welder qualification tests, and maintaining AISC certifications.

Professional Experience

Port Authority of New York and New Jersey, Newark Liberty International Airport Terminal A Redevelopment, $2.7B, August 2015 to Present. QA Inspector: A $2.7 billion project to replace the existing Terminal A building with a new terminal building and construct a new roadway access network. Provide QA inspection services during off-site fabrication of rolled beam girders, crossframes, lateral braces, and other miscellaneous structural components to ensure compliance with project specifications, New Jersey DOT Standard Specifications for Road and Bridge Construction. Activities include verification of approved welding processes and welder qualifications, visual inspection, magnetic particle testing and ultrasonic testing of completed welds, verification of coating operations, and dry film thickness testing.

Port Authority of New York and New Jersey, George Washington Bridge – Replacement of the PIP Helix Ramp and Rehabilitation of Upper Level Spans over NJ Anchorage and Hudson Terrace. March 2013 to April 2021. Construction Costs - $152 million est. QA Inspector: Provide QA inspection services during off-site fabrication and assembly of built-up plate girders and replacement components to ensure compliance with project specifications and AWS D1.5 Bridge Welding Code. Activities include verification of approved welding processes and welder qualifications, visual inspection, magnetic particle testing and ultrasonic testing of completed welds, review of radiographic films, verification of installation of high strength fasteners, verification of coating operations, and dry film thickness testing. .

Port Authority of New York and New Jersey, World Trade Center – Parcel 1B-Structure to Grade & West Bathtub Vehicular Access. August 2015 to November 2020. QA Inspector: Provide QA inspection services during off-site fabrication of main and miscellaneous building members as well as flood gates/barriers to ensure compliance with project specifications, AISC Specification for Structural Steel Buildings, AWS D1.1 Structural Welding Code–Steel, and AWS D1.6 Structural Welding Code – Stainless Steel. Some main members weighed more than 60 tons. Activities include verification of approved welding processes and welder qualifications, visual inspection, magnetic particle testing and ultrasonic testing of completed welds, verification of coating operations, and dry film thickness testing.

Leonard Patterson, CWI, NDT Level II

Certified Welding Inspector

Firm Name
WSP

Firm Title
Senior Engineering Technician

Years of Experience
Industry: 39 years

WSP: 39 years

Certifications/ Licesnes
AWS Certified Welding Inspector

Level II NDT / NDE Liquid Penetrant

Level II NDT / NDE Magnetic Particle

Level II NDT / NDE Radiography

Level II NDT / NDE Ultrasonic

Certified ICC Bolting Inspector

Office Location
Jacksonville, Florida

Career Summary

Mr. Patterson has almost four decades of experience in the welding inspection and nondestructive testing industry, with expertise in steel fabrication, erection inspection of structural steel, shear connectors, visual inspection of welding, and nondestructive testing of welding (ultrasonic, radiographic-film interpretation, dye penetrant, and magnetic particle). He also conducts welder qualification certifications. Leonard's project experience with steel inspection includes signature bridges, industrial and other private sector clients, and transportation facilities for government clients at the state and local levels.

Professional Experience

QA Inspector, Port Authority of New York and New Jersey, Newark Liberty International Airport Terminal A Redevelopment, $2.7B, August 2015 to Present. QA Inspector: A $2.7 billion project to replace the existing Terminal A building with a new terminal building and construct a new roadway access network. Provide QA inspection services during off-site fabrication of rolled beam girders, crossframes, lateral braces, and other miscellaneous structural components to ensure compliance with project specifications, New Jersey DOT Standard Specifications for Road and Bridge Construction, AWS D1.5 Bridge Welding Code, and AWS D1.1 Structural Welding Code for Steel. Activities include verification of approved welding processes and welder qualifications, visual inspection, magnetic particle testing and ultrasonic testing of completed welds, verification of coating operations, and dry film thickness testing.

Verification Inspector, Port Authority of New York and New Jersey, LaGuardia Airport Central Terminal Building Redevelopment Project, $4B, (10/2017 to 2/2020): A $4 billion public-private partnership project to redevelop LaGuardia Airport Central Terminal Building (Terminal B), replacing the existing Terminal B and providing multi-level bridge structures for arrivals and departures. Provide verification inspection services during off-site fabrication and assembly of built-up plate girders, fracture critical box girders, diaphragms and crossframes, overhead sign structures, and miscellaneous structural members to ensure compliance with project specifications, New York State Steel Construction Manual, AWS D1.5 Bridge Welding Code, and AWS D1.1 Structural Welding Code for Steel. Activities include verification of approved welding processes and welder qualifications, and visual inspection, magnetic particle testing and ultrasonic testing of completed welds, reviewing radiographic films, verification of coating operations, and dry film thickness testing.

QA Inspector, Port Authority of New York and New Jersey, Bayonne Bridge: Provide QA inspection services during off-site fabrication and assembly of 25 built-up plate girders, one fracture critical box girder, and associated crossframes to ensure compliance with project specifications, New York State Steel Construction Manual, and AWS D1.5 Bridge Welding Code. Activities include verification of approved welding processes and welder qualifications, and visual inspection, magnetic particle testing and ultrasonic testing of completed welds.

Tirrell Day, PE

Structural Engineer

Firm Name
WSP

Firm Title
Senior Structural Engineer

Years of Experience
Industry: 18 years

WSP: 10 years

Education
BS, Civil and Environmental Engineering – Structural, University of Tennessee, 2004

Office Location
Tampa, Florida

Career Summary

Mr. Tirrell Day has 18 years of engineering experience and more than eight years of professional engineering licensure to design buildings and other structures. The bulk of Mr. Day's experience is in the federal and municipal sectors, providing design analysis and construction support for new design, expansions, retrofit, and repair projects which include office buildings, parking garages, federal buildings, and municipal structures. Based on an educational background in structural engineering, he has excelled in a diverse range of activities within the varying stages of project development.

Professional Experience

Post-Earthquake Structural Assessment, U.S. Coast Guard Puerto Rico, $213,863, 2020: Project Manager/Structural Engineer. WSP performed a post-earthquake structural assessment of five main coast guard sites as part of Sector San Juan on a combination of office, infrastructure, and housing structures. The requested services included examining the structures for potential structural damage, noting any unsafe conditions, and providing recommendations for repair and/or evacuation of the structure if deemed necessary. The structures were examined as either a detailed assessment (inside and outside) or rapid assessment (outside only). Three main facilities were identified as needing a detailed inspection; however, care was taken during the rapid inspections to note any conditions which appeared to suggest further detailed assessment was necessary. The deliverables included an initial occupancy and safety notice to provide the coast guard immediate guidance for the three sites requiring detailed inspections, a final findings and recommendation report, and an in-person presentation of the approach and results. Project challenges included responding to the 24-hour mobilization requirement following project award and ongoing tracking for estimated 273 assessed buildings.

Architectural/Engineering Design Services, U.S. Coast Guard Sand Key, Clearwater, Florida, $130,444, 2018: Project Manager/Structural Engineer. WSP performed a site investigation following Hurricane Irma, including environmental, architectural, structural, and mechanical disciplines, to identify the nature and extent of damage and perform a general building assessment. From the initial site visit, WSP identified additional conditions not originally noted by the Coast Guard, to include roof damage, improper site drainage, and a defective exterior insulation and finish system (EIFS). These additional items were added to the scope per request of the client and became a part of the design effort. Designs considered an environment near sea water and high coastal winds. In addition to the design criteria, certain environmental conditions were considered such as lighting requirements to conform to Florida's Sea Turtle Lighting Guidelines and the possibility of microbial growth in the galley walls from exposure to prolonged moisture from wind driven rain. Our design incorporated best management practices to minimize impact and limit obstruction of daily activities of the station. The total contract included design and construction support services. Design deliverable included drawings and specifications which were provided in a format specific to coast guard requirements.

Shrey Lunagaria

Structural Engineer

Firm Name

WSP

Firm Title

Technical Professional - Structural

Years of Experience

Industry: 3 years

WSP: 1 years

Education

MS, Civil Engineering – Structural, Stevens Institute of Technology, 2017

MBA, Project Management, IGlobal University, 2021

Office Location

Tampa, Florida

Career Summary

Passionate and Experienced Civil Engineer with 3 years of experience as Project manager and Structural Engineer with working on site as Site engineer to designing and analysis structures in the state of in NY, ND, and Florida. Managed Multiple union Jobs in NY while working for BN restoration. Managed a project for PCC and Façade Restoration for a School in Jamaica, NY, designed Support Structures, Retaining wall, Carport, and underground water tank. Apart from having these experience I have worked on Sanitary sewer design and inspection. My experience in the field of civil engineering varies, rom managing site and people to designing, analyzing, and drafting. I have also helped in creating Site Safety plans for varies projects which consisted of pipe scaffold and rigging scaffold to work on 42nd floor.

Professional Experience

WSDOT I-405 Renton to Bellevue Widening & Express Toll Lanes Project: WSP's role as the lead design consultant involves multi-faceted services for connecting a 40-mile system of express toll lanes. WSP supports this design-build project by providing the Engineering services with both in-house and local sub-consultant support. As a Part of Tampa Bay Office, I worked on Design of MSE Wall, Soil Nail Wall and Soldier Pile Wall, Standard Special barriers. I have reviewed design, Design Drawings and performed Calculation and Drafting.

McCoy Creek Restoration Project: WSP has been contracted to provide Engineering Design Services for a Multi-Modal Trail design project to include roadway, stream, boardwalk and overlook structures, pedestrian bridges, recreational features, project permitting and construction support services. Our involvement in this project, as the primary design consultant, includes civil, water resources, environmental permitting, geotechnical, bridge, and miscellaneous structural engineering services. For this Project I worked on Structural design and analysis of Boardwalk and Railing.

Bridge Load Rating Assessment: WSP has been selected to provide professional engineering services which include assessment of the existing bridges, documenting as-built conditions, evaluating the structure for support of the various construction equipment, and providing a report of the findings and recommendations, as needed. FPL will use this information to determine the most economical and safest route to transport its equipment to each site. The services provided includes Detailed structural Assessment, Review of as-built drawings, structural evaluation and load rating per FDOT load rating Manual.

Veterans Memorial Park, Miami. Wind Load Analysis: . Due to hurricane, there were damages to existing structure. As a part of the project, I performed Wind load analysis to determine and capacity of the structure to withstand the wind load.

Eduardo Hernandez, PE

Pavement / Asphalt Lead / Senior Engineer

Firm Name
WSP

Firm Title
Supervising Engineer

Years of Experience
Industry: 15 years

WSP: 9 years

Education
BS, Civil Engineering, Florida State University, 2006

Certifications/ Licesnes
Professional Engineer - FL

Office Location
West Palm Beach, Florida

Career Summary

Eddie Hernandez is well experienced in all phases of pavement evaluation including preparing Pavement Survey and Evaluation Reports (PSER) for the Turnpike, performing historical literature reviews, conducting field assessments, developing investigation scopes, managing pavement coring tasks, reviewing pavement testing results and providing engineering recommendations for a variety of projects. Additionally, Eddie has extensive asphalt testing, laboratory and field paving procedure experience. He has managed both the Pavement Evaluation group and the Bituminous group for the Florida's Turnpike.

Professional Experience

Florida's Turnpike Construction and Materials Management – 5th Cycle, Florida: Pavement Evaluation Engineer under a general consultant engineering contract in support of the Florida's Turnpike Materials Office. In this position, Eddie provides pavement evaluation technical support to Florida's Turnpike CEIs, Production, Construction and Maintenance Offices, upon request. Manages the Pavement Evaluation work unit while fostering teamwork within and across the unit. Performs engineering analysis to determine the best approach for pavement resurfacing and construction, determining the cause of in-place conditions and engineering solutions to resolve issues. Manages the district-wide consultant contracts used to conduct the pavement evaluation reports. Oversees the pavement evaluation activities including signing and sealing of Pavement Survey and Evaluation Reports and Pavement Design reviews. Duties consist of performing literature reviews of historical pavement data; developing field investigation scopes; reviewing pavement coring reports; performing consultant evaluations for coring tasks; coordinating with State Materials Office (SMO) for non-destructive pavement testing such as friction and resilient modulus testing; coordinating with the Construction and Materials Offices to provide recommendations for pavement warranty repairs reviewing failed materials; and performing forensic and miscellaneous pavement evaluations. WSP functioned as an extension of the Florida Turnpike's staff on the fifth cycle of a five-year on-call contract. The firm was responsible for constructability reviews, coordination of plan development, contract issue resolution, claims analysis, litigation review support, construction management, and utility coordination services for 500 miles of toll roads used daily by more than two million motorists.

Michael Lewkutz

Asphalt / Pavement Coring Coordinator

Firm Name

WSP

Firm Title

Engineering Technician

Years of Experience

Industry: 21 years

WSP: 6 years

Education

AS, Architectural Drafting, New England Institute of Technology, 1998

FDOT CTQP Asphalt Plant Technician Level I

FDOT CTQP Asphalt Plant Technician Level II

FDOT CTQP Asphalt Paving Technician Level I

FDOT CTQP Asphalt Paving Technician Level II

FDOT CTQP Quality Control Manager

FDOT Advanced Temporary Traffic Control (TTC) Certified

Office Location

West Palm Beach, Florida

Career Summary

Mr. Michael Lewkutz has 21 years of experience as a construction materials engineering technician. He possesses engineering project management experience and has assisted professional engineers in developing take-offs and proposals for construction materials testing projects. His experience includes developing project cost estimates and proposals based on a project's scope of work and contract documents. He has worked collaboratively with internal and external teams to ensure successful project outcomes.

Mr. Lewkutz possesses extensive training and experience in soils, concrete, and asphalt construction testing procedures both on-site and in the laboratory. He is knowledgeable of all applicable ASTM and AASHTO standards. Other responsibilities include SPT drilling and asphalt pavement coring oversight as well developing and implementing FDOT Temporary Traffic Control (TTC) plans.

Professional Experience

Geotechnical and Survey Design Services Contract (C9T73), Florida Department of Transportation, Covering Multiple Areas within Florida's Turnpike Enterprise System of Toll Roads, Florida, WSP: Asphalt Plant Technician/Project Management Support. Providing geotechnical and/or survey design support services, deliverables, and technical documents, in accordance with FDOT policy, procedures, and requirements.

Districtwide Construction Materials Contract (CA512), Florida Department of Transportation Districts 4 and 6, South Florida, Cost Varies, 2019 to 2024: Asphalt Plant Technician/Project Management Support. Providing consultant services to support the Department in materials testing activities and construction support for District 4 and 6 projects.

ASDB Golden Glades Multimodal Transportation Project, Florida Department of Transportation, Miami, Florida, Quality Control Manager. QC Manager for Florida Department of Transportation $56 million ASDB Golden Glades Multimodal Transportation Project in Miami, Florida.

AET Phase 5A, Turnpike Mainline from I-595 (MP 54) to South of Lantana Toll Plaza (MP 88) Construction Contract, Florida Turnpike Enterprise, Broward and Palm Beach Counties, Florida, Asphalt Plant Technician. The project is a 642-day construction contract at a cost of $20.5 million. The project includes milling and resurfacing, base work, drainage improvements, curb and gutter, lighting, highway signing, guardrail, MSE walls, toll facilities, and other incidental construction.

Pablo Marin

Asphalt/Roadway Inspector

Firm Name
WSP

Firm Title
CMT Technician 6

Years of Experience
Industry: 13 years

WSP: 4 years

Education
BA, University of Caldas, Manizales, Colombia, 2001

Office Location
West Palm Beach, Florida

Career Summary

Mr. Pablo Marin has 13 years of experience as a construction materials engineering technician. He has extensive training and expertise in asphalt construction and test procedures both "on-site" and in the laboratory. He is knowledgeable of all applicable ASTM and AASHTO standards. In addition, Mr. Marin has 10 years of experience in construction engineering inspection services for various complex technical roadway projects for FDOT Districts 4 and 6, the Florida Turnpike, various counties and cities, and private companies.

Professional Experience

Florida Department of Transportation Districts 4 and 6, Districtwide Construction Materials Contract (CA512), South Florida, Cost Varies, WSP (2019-2024): Asphalt Plant Technician. Providing consultant services to support the Department in materials testing activities and construction support for District 4 and 6 projects.

Florida Department of Transportation, Geotechnical and Survey Design Services Contract (C9T73), Covering Multiple Areas within Florida's Turnpike Enterprise System of Toll Roads, Florida, $5 million, 2017-2022, WSP: Asphalt Plant Technician/ Project Management Support. Providing geotechnical and/or survey design support services, deliverables, and technical documents, in accordance with FDOT policy, procedures, and requirements.

Florida Department of Transportation/Florida Turnpike Enterprise, Widen HEFT Killian/SW 104th Street (MP 19.0) to Sunset/SW 72nd Street (MP 21.9) Design/Build (415051-1-52-01), Miami-Dade County, Florida, $74 million, 2014-Ongoing, WSP: Asphalt Plant Technician. The project is a 1,586-day design/build contract at a cost of $74.1 million. The project includes the design, widening, and reconstruction of SR 821, the Homestead Extension of the Florida Turnpike (HEFT) from six lanes to ten lanes.

Florida Department of Transportation/Florida Turnpike Enterprise, AET Phase 5A, Turnpike Mainline from I-595 (MP 54) to South of Lantana Toll Plaza (MP 88) Construction Contract (429339-1-52-01), Broward and Palm Beach Counties, Florida, $20.5 million, 2018-Ongoing, WSP: Asphalt Plant Technician. The project is a 642-day construction contract at a cost of $20.5 million. The project includes milling and resurfacing, base work, drainage improvements, curb and gutter, lighting, highway signing, guardrail, MSE walls, toll facilities and other incidental construction.

Daniel Chotos

Asphalt/Roadway Inspector

Firm Name
WSP

Firm Title
Materials Inspector 6

Years of Experience
Industry: 14 years

WSP: 4 years

Office Location
West Palm Beach, Florida

Career Summary

Mr. Daniel Chotos has more than 10 years of experience as a construction materials engineering technician. His extensive training and experience in asphalt construction and test procedures includes both "on-site" and in the laboratory. He is also knowledgeable of all applicable ASTM and AASHTO standards. Additionally, Mr. Chotos has 11 years of experience in CEI services for various complex technical roadway projects for FDOT Districts 4 and 6, as well as the Florida Turnpike.

Professional Experience

Florida Department of Transportation, Geotechnical and Survey Design Services Contract (C9T73), Covering Multiple Areas within Florida's Turnpike Enterprise System of Toll Roads, Florida, $5 million, 2017-2022, WSP: Asphalt Plant Technician. Providing geotechnical and/or survey design support services, deliverables, and technical documents, in accordance with FDOT policy, procedures, and requirements.

Florida Department of Transportation Districts 4 and 6, Districtwide Construction Materials Contract (CA512), South Florida, Cost Varies, 2019-2024, WSP: Asphalt Plant Technician. Providing consultant services to support the Department in materials testing activities and construction support for District 4 and 6 projects.

Florida Department of Transportation/Florida Turnpike Enterprise, Widen Turnpike Extension/SR 821 from Interstate 75 (I-75) and the Southern Turnpike Mainline/ SR 91, Miami-Dade County, Florida, $147 million, Ongoing, WSP: Asphalt Plant Technician. FTE is widening the Turnpike Extension/SR 821 from Interstate 75 (I-75) and the Southern Turnpike Mainline/SR 91. The HEFT mainline will be widened from four travel lanes to eight lanes and will consist of, in each direction, three 12-foot general use lanes and one 12-foot express lane separated by a 4-foot buffer with express lane markers. Other components of the project include milling and resurfacing, roadway widening, bridge widening, lighting, and drainage improvements.

Florida Department of Transportation/Florida Turnpike Enterprise, Widen HEFT Killian/SW 104th Street (MP 19.0) to Sunset/SW 72nd Street (MP 21.9) Design/Build (415051-1-52-01), Miami-Dade County, $74.0 million, 2014-Ongoing, WSP: Asphalt Plant Technician. The project is a 1,586-day design/build contract at a cost of $74.1 million. The project includes the design, widening, and reconstruction of SR 821, the Homestead Extension of the Florida Turnpike (HEFT) from six lanes to ten lanes.

Florida Department of Transportation/Florida Turnpike Enterprise, AET Phase 5A, Turnpike Mainline from I-595 (MP 54) to South of Lantana Toll Plaza (MP 88), Broward and Palm Beach Counties, $20.5 million, 2018-Ongoing, WSP: Asphalt Plant Technician. The project is a 642-day construction contract at a cost of $20.5 million. The project includes milling and resurfacing, base work, drainage improvements, curb and gutter, lighting, highway signing, guardrail, MSE walls, toll facilities, and other incidental construction.

Dennis Crawford, PE

Geotechnical Engineer

Firm Name

WSP

Firm Title

Lead Consultant, Geotechnical Engineer

Years of Experience

Industry: 10 years

WSP: 1 year

Education

MS, Engineering, University of Wisconsin-Platteville, 2023 (expected)

BS, Civil Engineering, Temple University, 2013

Certifications/ Licesnes

Professional Engineer - PA

Office Location

Altamonte Springs, Florida

Career Summary

Mr. Dennis Crawford, PE is a Lead Consultant, Geotechnical Engineer with WSP. He received his Bachelor of Science degree in Civil Engineering from Temple University. He has 10 years of diverse experience in managing and executing geotechnical field projects across a wide range of industries.

Mr. Crawford has proven expertise in dams, levees, power, energy, transportation, industrial, water resources projects. He possesses a strong background in developing comprehensive field and laboratory testing programs, overseeing field investigations, and performing engineering analyses to ensure the successful completion of projects.

Professional Experience

FEMA, Hurricane Irma (DR-4337), Orlando, Florida, (10/2017-07/2018), AECOM: Site Inspector. The $2 billion+ project involved the inspection and mitigation recommendations of disaster-damaged facilities such as, buildings, roads and utilities that required the replacement or restoration of. Assisted FEMA in disaster recovery efforts from Hurricane Irma in Florida in support of the FEMA Public Assistance (PA) program. Conducted site inspections, validated infrastructure damage, recorded detailed damage descriptions, scopes of work and cost estimates, identified and recommended potential mitigation measures, and evaluated projects for compliance with applicable laws, regulations and policies. Developed project worksheets and scopes of work.

United States Army Corps of Engineers (USACE), Freeport and Vicinity Coastal Storm Risk Management Project, Freeport, Texas (07/2021-09/2021, AECOM: Lead Geotechnical Field Engineer. The project involved the subsurface investigation for raising approximately 13 miles of an existing levee system, constructing/ reconstructing approximately 5.5 miles of floodwall, and constructing drainage structures in Freeport, Texas. Assigned on-site supervisor position to oversee drilling operations. Laid out borings in the field and oversaw utility clearance. Performed field investigation for the drilling of soil test borings and cone penetration tests. Mentored junior staff.

Pennsylvania Department of Transportation I-95 Section GR4 Reconstruction, Philadelphia, Pennsylvania, (07/2018-05/2019), AECOM: Geotechnical Engineer. The $300 million+ project consisted of construction monitoring and management of subcontractors for the reconstruction and improvement of southbound I-95 from Columbia Avenue to north of Ann Street to provide four through lanes in each direction and a fifth auxiliary lane for ramp traffic entering and exiting I-95 between interchanges at Girard Avenue and Allegheny Avenue. The project included the construction of three retaining walls and more than forty piers. Oversaw the installation of 500+ micropiles including recording field observations, terminating micropiles at the specified design depth, monitoring and tracking grout placement, and reporting observations to the project geotechnical engineer. Supervised multiple subcontractors to confirm that the inspection of the micropiles was completed in accordance with design specifications.

Edward Marks, PG

Senior Geologist

Firm Name
WSP

Firm Title
Senior Geologist

Years of Experience
Industry: 23 years

WSP: 2 years

Education
BS, Geography, Florida State University, 2001

Certifications/ Licesnes
Professional Geologist, FL

Water Well Contractor, FL

Office Location
Miami Lakes, Florida

Career Summary

Mr. Edward Marks has established a strong reputation for successfully orchestrating and implementing projects in very remote and demanding environments with 100% success rate and zero recordable safety incidents in his 23 years of experience. He specializes in hazardous waste assessment and remediation, ranging from surface water and groundwater assessments to soil contamination. These assessments have involved excavations, dredging, and construction projects. The jobsites ranged from remote and isolated areas to complex and dense industrial facilities. In addition, Mr. Marks has completed numerous environmental compliance and safety compliance audits for both public and private sector clients, as well as internal corporate safety audits. His extensive knowledge and vast experience in environmental, ecological, and safety assessments has consistently ensured the successful completion (on time and on budget) of projects for federal, state, and local governments, as well as for private sector clients.

Professional Experience

Miramar Water Treatment Plant, Saltwater Intrusion Monitoring Well Abandonment and Installation, Miramar, Florida, Earth Tech Drilling : Services provided for the Miramar Water Treatment Plant under this Task Work Order contract included the abandonment of the existing damaged saltwater intrusion monitoring well and the installation of a new replacement 200-foot saltwater intrusion monitoring well.

Miami-Dade County Water and Sewer Department, Virginia Key Soil Sampling, Virginia Key, Florida, URS/AECOM Corporation : Services provided to the Miami-Dade Water and Sewer Department under this Task Work Order contract included the sampling and disposal characterization of soil piles located at the Virginia Key WASA site.

Miami-Dade County Water and Sewer Department, Surface Water Sampling County Wide, Miami-Dade County, Florida, URS/AECOM Corporation : Services provided to the Miami-Dade Water and Sewer Department under this Task Work Order contract included the sampling of intercoastal surface waters for the presence and concentrations of fecal coliforms and other bacteria associated with sewage discharges into the stormwater drainage systems.

Collier County Water and Sewer Department, Deep Injection Well Pilot Hole, Collier County, Florida : Assisted with the drilling and lithologic assessment of a 980-foot pilot hole for the proposed gray water injection well site in Collier County.

Broward County Water and Sewer Department, Surface Water Sampling County Wide, Broward County, Florida : Services provided to the Broward Water and Sewer Department under this Task Work Order contract included the sampling of intercoastal surface waters for the presence and concentrations of fecal coliforms and other bacteria associated with sewage discharges into the stormwater drainage systems.

Derek Richcreek, PG

Senior Geologist

Firm Name
WSP

Firm Title
Project Geologist

Years of Experience
Industry: 26 years

WSP: 9 years

Education
BS, Geology, Florida Atlantic University, 1997

Office Location
Tampa, Florida

Career Summary

Mr. Derek Richcreek has 26 years of experience in the environmental, construction, and mining industries. He has worked throughout the United States and overseas for private clients and various government agencies. Mr. Richcreek has managed projects from initial bid proposal, subcontractor review and hiring, QA/QC and health/safety planning, and site supervision, to preparing final deliverables.

Professional Experience

Phase III Gyp Stack Expansion Design and Construction, Agrium US, Inc./Nu-West Industries, Inc., Idaho, 2015 to Ongoing: Field Geologist. Supervised the drilling and coring of basalt; logged and recorded core samples; and logged numerous test pits in support of the phase III expansion of the gyp stack at the phosphate mine processing facility. Provided on-site quality control monitoring and inspection of gyp stack base liner construction, including decant structures and return water ditch system, perimeter earth dike construction, liner installation, and seepage control system construction. Performed QA testing and density testing of embankment, subgrade, and gyp liner. Observed and documented liner installation and performed destructive tests and daily trial weld tests.

Phosphogypsum Stack Closure Design and Construction, Nutrien, Idaho, 2015 to Ongoing, Engineering: $2 million, Construction: $100 million: Field Geologist. Provided on-site quality control monitoring and inspection of a temporary Auxiliary Holding Pond (AHP) constructed as part of stack closure. Performed QA testing and density testing of the subgrade and embankments. Observed liner construction and performed QA testing on liner material. Collected soils samples from test plots and performed laboratory testing.

Gypsum Stacks and Tailings Pond Expansion, Itafos (formerly Nu-West Industries/ Agrium U.S., Inc.), Idaho, $5 million, 2015 to Ongoing: Field Geologist. Managed field and lab materials testing for gypsum stack and tailings pond construction. Performed field inspection and documentation for earthworks activities. Monitored construction activities and managed day-to-day quality assurance/quality control for many projects, including Phase I, Phase II, Tailings Pond 4 (TP-4) Construction.

SFM-9 Waste Clay Settling Areas, Mosaic Company, Polk County, Florida, Ongoing: Senior Engineering Inspector. Provided on-site quality control monitoring and inspection of tailings dam construction, including decant structures and return water ditch system. Duties included field and laboratory testing of soil and concrete, along with providing daily construction progress reports.

Georgia Pacific Palatka - Oxidation Pond No. 1 Legacy Solids Relocation, Palatka, Florida, $50,000: Field Geologist. Performed a Phase 1 study and developed a plan and procedures to remove or contain legacy solids, as well as a +/- 50% cost estimate for the alternatives. The study includes the assessment of project site and legacy solids, development of three alternatives for isolating or removing legacy solids, and preliminary concept plans. Environmental soil samples were collected throughout the site and submitted for laboratory analysis to assess the potential presence of residual pesticide and herbicide constituents.

Luis Melo, EI

Geotechnical Engineer

Firm Name
WSP

Firm Title
Tech Professional Geotechnical Engineer

Years of Experience
Industry: 8 years

WSP: 1 year

Education
BS, Civil Engineering, Institute of Santo Domingo, Dominican Republic, 2012

Office Location
Altamont Springs, Florida

Career Summary

Mr. Luis Melo is an experienced professional with 8 years of experience in the geotechnical engineering industry. He has worked on numerous projects and tasks requiring the application of sound engineering theory and principles. His civil engineering experience includes water and marginal terminal projects for reducing flood risk due to the coastal storms and sea level planned, oversee construction operation of building pad, sewer and storm and sanitary sewer pipes, grading etc. and coordinated geotechnical site investigation, inspections, analysis, shallow foundation systems, business development.

Professional Experience

Manatee County Environmental Site Assessment (ESA) and Geotechnical Investigations, Manatee County, Florida: Geotechnical Engineer. Manatee County contracted with WSP to conduct due diligence related to constructing a stormwater reservoir at a parcel recently purchased by the County. Services included conducting a Phase I ESA, a geophysical survey, test pit excavations, groundwater table monitoring, and laboratory testing to determine the allowable excavation depth and the suitability of the excavated material as a borrow source.

Herbert Hoover Dike Rehabilitation, Cuts off Wall Extension, Reach Extension, Task Order 1, Task Order 3, Task Order4, and Task Order 5, 2000 to 2022, AECOM: Geotechnical Engineer. The project consisted of providing engineering support during the installation of new cut of wall and along of the Hebert hoover dike, the project also includes installation of new structure such as installation of new door, Manatee screen, new embankment restauration, geotextile, bedding stone. Responsibilities include support in the geotechnical material testing report supervision of geotextile, bedding stone, and Rip Rap placement, conduct sampling of grout for the Cut-off wall installation and perform geotechnical task, embankment inspection and work platform material, oversee subsurface exploratory borings, site layout, foundation support and ground improvement; review of design documents for Cut off Wall, and jet grout, review submittal, drawings, technical specifications, Attend to preparatory, initial, progress, and partnering meetings Observed and reported on the excavation, rock gradations, and removal of earthen materials by equipment such as excavators, loaders, and off-road end dumps. All reports are sent to AECOM to be entered RMS and sent to the USACE.

Cross Bronx Expressway – Sheridan, Bronx Station Line Phase II Amtrak site Bronx, New York, New York, 20018, AECOM: Geotechnical Engineer. The project consisted of performing a site investigation and design recommendations for the rehabilitation of 5 bridges across Sheridan and the Amtrak facility. for the supervision of the geotechnical subsurface investigation, creation of the preliminary boring locations plans, boring inspections, and sample collection to determine the soil condition, Under the supervision of a senior-geotechnical engineer perform geotechnical calculations such as stability and bearing capacity, and liquefaction. Performed rock coring during field activities to determine the quality and type of rock following the NYC code. Lastly, monitoring well installations and creating a boring log and soil Profile using Geotechnical Engineer Software.

Subconsultant Qualifications

WSP has selected key consultant's to assist in this project.

Subconsultant Qualifications

Amdrill, Inc.

Amdrill, Inc has been in business for nearly 45 years. Providing geotechnical and environmental work. Amdrill performs a significant number of jobs for the Department of Transportation in all of Florida's districts and also does projects for the Army Corps of Engineers and various mines throughout the United States. Amdrill has three offices located in Florida with inhouse hammer calibration. Amdrill is well-known for completing difficult access jobs. Specializing in Vibracore sampling, deep borings, SPT sampling, CPT, DPT, wire-line coring, and artesian stabilization. Amdrill can also do grout compaction for road stabilization..

GeoView, Inc. / Ambient Technology Inc.

GeoView, Inc. (GeoView) was founded in 2002. Their reputation is excellent concerning financial stability, accountability, cost-effectiveness, safety and successful and timely completion of projects. Their parent company, Ambient Technologies, Inc. (ATI), was founded in 1992 and is based in St. Petersburg, Florida and will be used to supplement our drilling services as needed.

The ATI companies currently employ 32 individuals in the US and 15 internationally. The company is employee owned and headquartered in St. Petersburg, Florida. GeoView's staff consists of a team of professional geologists, geophysicists, and technicians who, through their 100+ years of combined experience, have conducted and managed more than 20,000 geophysical projects throughout the US, the Caribbean, and South and Central America.

GeoView specializes in the provision of geophysical services to the engineering, geological, environmental and construction industries. Their services include geologic and infrastructure investigations, utility and rebar locating, archaeological studies and marine surveys. Through their multidisciplinary approach, they are able to provide accurate, timely, and costeffective solutions to their clients.

Madrid Engineering Group

Since its founding, Madrid Engineering (Madrid) has completed more than 10,000 distinct projects throughout the state of Florida. Madrid maintains its own in-house fleet of drilling rigs capable of investigating over land and sea. Our drills are mounted on floating barges, pontoon boats, trucks, or tracked vehicles (including low ground pressure tracked rigs for difficult access) to quickly access any type of environment. Soil and rock samples are obtained at various depths below ground (or water), up to 300 feet deep. Representative samples are tested, as needed, in our full-service, CMEC certified, laboratories for a wide variety of physical, chemical and engineering properties, so we can characterize the material for design purposes. Madrid's drilling department is led by our Drilling Department Manager, Mr. Brett Arenas, and our drilling staff are highly knowledgeable, fast, efficient, hard-working and always maintain a primary focus on safety throughout every project. Each of Madrid's drilling crews is directed by an experienced crew chief and assisted by a dedicated team of helpers. No matter the challenge, Madrid's drilling department is "at the ready" to take each project through to successful completion.

Adam Benson
Operations Manager

AMDRILL inc.
Geotechnical/Environmental Drilling | Vibracore | Foundation Services

Career Summary

Adam Benson is the Operations Manager at Amdrill, Inc. located in Brooksville, Florida. Mr. Benson has over 24 years of drilling experience with Amdrill, Inc. on difficult access projects that he has overseen while working for Amdrill, Inc. He has drilled all throughout the Southeast United States and has experience in other countries (i.e. Jamaica, Haiti, Bahamas & the Virgin Islands). He has been drilling support for numerous geotechnical consulting firms which involved drilling on DOT projects, Army Corp. of Engineer projects, mining projects, Florida Water Management District projects, and private sector projects.

Professional Experience

- Airboat – Pond Muck Probes in Tallahassee, FL - 2023
- FDOT D2 – SR 23 Shands Bridge DB Design Phase in Green Cove Springs, FL – 2022-2023
- USACE – Miami Beach Waterway Dredging – Biscayne Point - 2022
- FDOT D7 – Pinellas Johns Pass Vibracores in Madeira Beach, Fl - 2022
- SPT/Vibracore Drilling - CITGO Lake Charles Manufacturing Complex in Westlake, LA - 2021
- Bartram Island DMMA Cell "C" Concept Development, Design and Permitting in Jacksonville, FL - 2021
- FDOT D7 – Maydell Dr. Bridge in Tampa, FL – 2021
- Savannas Preserve State Park Gap Walton Rd to Savannas Recreation Area in Port St. Lucie, FL - 2020
- FDOT D5 – Poinciana Blvd in Kissimmee, FL - 2020
- USACE - S-356 Pump Station on L-29 Canal in Miami, FL – 2020
- FDOT D2 – I-10 in Madison & Jefferson, FL – 2020
- SJRWMD Lake Jessup Flow Enhancement in Sanford, FL - 2020
- FDOT D5 - Nasa Causeway in Cape Canaveral, FL – 2019-2020
- Bakers Haulover Flood Shoal - 4" Vibracore Sampling in Miami, FL - 2019
- SPT – Mote Marine Aquarium in Sarasota, FL – 2019
- St. Johns River - 4" Vibracore Sampling - 2018
- SPT - Florida Gas Transmission in Miami, FL - 2018
- FDOT D5 - Wekiva Parkway 3B - 2015-2016
- FDOT D5 - SR 408 - 2015-2016
- FDOT D5 - Wekiva Parkway 7A – 2014-2017
- FDOT D5 - I-4 Segment 3 - 2014-2016
- FDOT D5 - SR 600 – 2014-2017

Phillip "Todd" Ives

CPT / Environmental Manager

AMDRILL inc.
Geotechnical/Environmental Drilling | Vibracore | Foundation Services

Career Summary

Phillip "Todd" Ives is the CPT/Environmental Manager for Amdrill, Inc. located in Brooksville, Florida. Mr. Ives has more than 22 years of drilling experience and has been with Amdrill since 04/12/2016. He specializes in CPT Drilling, DPT Drilling and Monitoring Well installation on difficult access drilling projects. Todd has drilling experience throughout the State of Florida and the southeastern United States. He has been drilling support for numerous geotechnical consulting firms which involved drilling on DOT projects, Florida Water Management District projects, mining project, and private sector projects.

Professional Experience

- DPT – Mineral Development in Bartow, FL - 2023
- CPT – Cape Canaveral, FL – 2022-2023
- New Warehouse Location – 90 CPT Soundings in Punta Gorda, FL - 2022
- Mosaic Mine – DPT – Hollow Stem Auger Well Installation in Brewster, FL – 2022
- NASA – Indoor Well Installation - Marshall Space Flight Center in New Orleans, LA – 2022
- Mosaic Mine – CPT - Mineral Recovery in Bartow, FL – 2021
- Mosaic Mine – Piezometer Installation in Fort Meade, FL - 2021
- CPT - JEA Greenland – Jacksonville, FL - 2020-2021
- FDOT D5 - CPT – SR 35, Ocala, FL - 2020
- FDOT D5 - CPT – I-95, Pioneer Trail, New Smyrna Beach, FL – 2020
- FDOT D7 – CPT – 28th Street in St. Petersburg, FL - 2020
- NASA - DPT – Marshall Space Flight Center, New Orleans, LA - 2019-2020
- Mosaic Mine – CPT in Bowling Green, FL - 2019
- EPA - CPT - S. Indian Drive, Ft. Pierce, FL - 2017
- FDOT D7 - CPT - Selmon Expwy & Dale Mabry, Tampa, FL - 2017
- FDEP - DPT - Weeki Wachee Marina, Weeki Wachee, FL - 2017
- FDOT D5 - CPT - SR 530 & SR 429, Orlando, FL - 2016
- Florida Water Management District, Kissimmee River - 2010
- Florida Water Management District, Okeechobee - 2010
- FDOT D2 - I-75- Lake City, FL – 2009

Keneall Jones
Field Supervisor

AMDRILL inc.
Geotechnical/Environmental Drilling | Vibracore | Foundation Services

Career Summary

Kendall Jones is a Field Supervisor at Amdrill, Inc. located in Orlando, Florida. Mr. Jones has more than 13 years of drilling experience and has been with Amdrill since 01/2010. He specializes in Conventional and Wireline Coring and soil sampling on difficult access drilling projects. He has drilling experience throughout the Southeast United States. He has been drilling support for numerous geotechnical consulting firms which involved drilling on DOT projects, Army Corp. of Engineer projects, mining projects, Florida Water Management District projects, and private sector projects.

Professional Experience

- FDOT D2 - SR 23 Shands Bridge DB Design Phase in Green Cove Springs, FL – 2022-2023
- USACE – SPT - Tampa Harbor DMMA D-3 in Tampa, FL - 2022
- FPL Bobwhite-Peachland in Port Charlotte, FL - 2022
- FDOT D5 – Edgewater ED6 in Kissimmee, FL – 2021-2022
- FDOT D5 - Poinciana Blvd in Kissimmee, FL – 2021-2022
- FDOT D5 – FTE Widening Project Park Rd to US 192 in Kissimmee, FL – 2020-2022
- Mosaic Mine – Fort Meade Mine Cut 7 in Wauchula , FL - 2021
- USACE - S-335W Spillway Geotechnical Drilling and Testing in Miami, FL - 2021
- Mosaic Mine – Duke Mosaic Tower in Wauchula, FL - 2021
- SPT/Vibracore Drilling - CITGO Lake Charles Manufacturing Complex in Westlake, LA - 2021
- Bartram Island DMMA Cell “C” Concept Development, Design and Permitting in Jacksonville, FL - 2021
- City of Kissimmee Shingle Creek Regional Trail in Kissimmee, FL – 2015-2021
- CSX - Loxahatchee River Bridge in Jupiter, FL – 2020
- Mosaic Mine – Fort Meade in Wauchula, FL – 2020
- Mosaic Mine – WC 1 Phase 1 in Bowling Green, FL - 2020
- Mosaic Mine – South Polk – Parker Branch Mosaic-Duke in Bowling Green, FL - 2019
- FDOT D7 - Selmon Expressway Extension in Tampa, FL – 2018-2019
- FDOT D7 - 40th Ave Bridge in St. Petersburg, FL - 2018
- FDOT D5 - SR 710/Beeline Hwy from Northlake Blvd & SR 708 Blue Heron Blvd in Orange County, FL – 2017-2018
- FDOT D4 - Jupiter Inlet Bascule Bridge-SR 5/US1 from CR A1A/Ocean Blvd Beach Rd in Palm Beach County, FL - 2017-2018
- FDOT D1 - Hudson Bayou and Bridge in Sarasota, FL - 2016
- FDOT D5 - SR 408 – 2015-2016
- FDOT D5 - Wekiva Parkway 3B – 2015-2016
- FDOT D5 - Wekiva Parkway 5A - 2015
- FDOT D5 - Wekiva Parkway 7A - 2014-2017
- FDOT D5 - I-4 Segment 3 – 2014-2017
- FDOT D5 - SR 600 – 2014-2016

Christopher Ausburn

Driller

AMDRILL inc.
Geotechnical/Environmental Drilling | Vibracore | Foundation Services

Career Summary

Christopher Ausburn is a driller at Amdrill, Inc. located in Orlando, Florida. Mr. Ausburn has more than 9 years of drilling experience with Amdrill, Inc. He specializes in Conventional and Wireline Coring and Soil Sampling on difficult access drilling projects. He has drilling experience throughout the Southeast United States. He has been drilling support for numerous geotechnical consulting firms which involved drilling on DOT projects, Army Corp. of Engineer projects, mining projects, Florida Water Management District projects, and private sector projects.

Professional Experience

- FDOT D2 - SPT - SR 23 Shands Bridge DB Design Phase in Green Cove Springs, FL – 2022-2023
- SPT - Miami Beach Boardwalk in Miami, FL - 2022
- SPT - Broadstone Westshore Development in Tampa, FL - 2022
- FDOT D4 - SR 656/17th Street, East End of Bridge, Bridge #88077 in Vero Beach, FL - 2022
- FDOT D5 – Edgewater ED6 in Kissimmee, FL – 2021-2022
- FDOT D5 - Poinciana Blvd in Kissimmee, FL – 2020-2022
- FDOT D5 – FTE Widening Project Park Rd to US 192 in Kissimmee, FL – 2020-2022
- City of Kissimmee Shingle Creek Regional Trail in Kissimmee, FL – 2015-2021
- USACE - S-335W Spillway Geotechnical Drilling and Testing in Miami, FL - 2021
- SPT/Vibracore Drilling - CITGO Lake Charles Manufacturing Complex in Westlake, LA - 2021
- FDOT D7 – Maydell Dr. Bridge in Tampa, FL – 2021
- USACE - S-356 Pump Station on L-29 Canal in Miami, FL – 2020
- FDOT D2 – I-10 in Madison & Jefferson, FL – 2020
- SJRWMD Lake Jessup Flow Enhancement in Sanford, FL - 2020
- FDOT D5 - Nasa Causeway in Cape Canaveral, FL – 2019-2020
- Mosaic - South Polk Park Branch in Ft. Meade, FL – 2019
- SPT – Mote Marine Aquarium in Sarasota, FL – 2019
- FDOT D1 - I-4 @ 557 in Haines City, FL – 2018
- SPT - Florida Gas Transmission in Miami, FL - 2018
- FDOT D5 - Wekiva Parkway 3B - 2015-2016
- FDOT D5 - SR 408 - 2015-2016
- FDOT D5 - Wekiva Parkway 5A - 2015
- FDOT D5 - I-4 Segment 3 - 2014-2016
- FDOT D5 - SR 600 – 2014-2016
- FDOT D5 - Wekiva Parkway 7A – 2014-2016

Delbert "Dean" McKenzie

Driller

AMDRILL inc.
Geotechnical/Environmental Drilling | Vibracore | Foundation Services

Career Summary

Delbert "Dean" McKenzie is a driller at Amdrill, Inc. located in Brooksville, Florida. Mr. McKenzie has more than 11 years of drilling experience and has been with Amdrill since 05/21/2012. He specializes in Conventional and Wireline Coring and Soil Sampling on difficult access drilling projects. He has drilling experience throughout the Southeast United States. Dean has extensive experience using a barge mount drill rig, amphibious drill rig, and vibracore sampling. He has been drilling support for numerous geotechnical consulting firms which involved drilling on DOT projects, Army Corp. of Engineer projects, mining projects, Florida Water Management District projects, and private sector projects.

Professional Experience

- FDOT D2 - SPT - SR 23 Shands Bridge DB Design Phase in Green Cove Springs, FL – 2022-2023
- SPT - Miami Beach Boardwalk in Miami, FL - 2022
- SPT - Broadstone Westshore Development in Tampa, FL - 2022
- FDOT D4 - SR 656/17th Street, East End of Bridge, Bridge #88077 in Vero Beach, FL - 2022
- FDOT D5 – Edgewater ED6 in Kissimmee, FL – 2021-2022
- FDOT D5 - Poinciana Blvd in Kissimmee, FL – 2020-2022
- FDOT D5 – FTE Widening Project Park Rd to US 192 in Kissimmee, FL – 2020-2022
- City of Kissimmee Shingle Creek Regional Trail in Kissimmee, FL – 2015-2021
- USACE - S-335W Spillway Geotechnical Drilling and Testing in Miami, FL - 2021
- SPT/Vibracore Drilling - CITGO Lake Charles Manufacturing Complex in Westlake, LA - 2021

Michael Wightman, PG

Geophysical Services and Subsurface Utility Engineering

Firm Name

GeoView / Ambient Technology

Education

MS, Hydrogeology and Geophysics, University of South Florida, 1989

BA, Geology, University of California, Santa Barbara, 1986

BA, Business Economics and Environmental Studies, University of California, Santa Barbara, 1980

Professional Registrations

Professional Geologist - FL, CA

Career Summary

Mr. Wightman's responsibilities at GeoView, Inc. include the management and technical oversight of all geophysical investigations conducted by the firm. He has either managed or conducted geophysical investigations throughout the entire United States, Caribbean Basin, and Central America. His duties include quality control oversight, project management and budgeting, employee supervision and training, design and implementation of geophysical investigations, data evaluation, numerical and analytical modeling of geophysical data. Mr. Wightman has either conducted or managed over 10,000 geophysical investigations concerned with environmental, geotechnical, geological, hydrogeological, infrastructure, and construction-related projects. Mr. Wightman is an expert in the application of geophysical methods in terms of understanding karst-related conditions. Mr. Wightman has provided expert testimony, authored publications and delivered numerous presentations in regards to geophysical testing for a wide variety of applications.

Prior to co-founding GeoView, Mr. Wightman was the Senior Geophysicist and Operations Manager at SDII Global Corporation. While at SDII, his duties included the management of subsidence investigations which were related to insurance claims. For these investigations, he integrated the results of geophysical, geotechnical, and structural studies to determine if damage to residential structures was related to sinkhole activity. Prior to joining SDII, Mr. Wightman was employed with HSW Environmental Consultants, Inc., where he performed numerous contamination assessment investigations throughout Florida. His responsibilities included project management, geophysical investigations, design of groundwater monitoring systems, data evaluation, groundwater modeling, and report preparation. While working on his Master of Science in Hydrogeology at the University of South Florida, he was involved as a principal investigator on several coastal and island aquifer research projects. Results from his research have been presented at two international conferences, three Florida state-wide conferences, and have appeared in several publications. He is a Professional Geologist in Florida and California

Christopher Taylor, PG

Geophysical Services and Subsurface Utility Engineering

Firm Name

GeoView / Ambient Technology

Education

BS, Earth and Environmental Sciences with specialization in Geophysics, Lehigh University, 1995

Professional Registrations

Professional Geologist - FL, PA

Career Summary

Mr. Taylor has more than 20 years of experience in managing geophysical investigations throughout the United States and Central America. His duties include project management, budgeting, designing and implementing geophysical investigations, data evaluation, numerical and analytical modeling of geophysical data, and coordination and supervision fieldwork. Mr. Taylor is also responsible for research and development to ensure that GeoView is employing state of the art geophysical instrumentation and software. Mr. Taylor is proficient with subsurface and borehole geophysical technologies and applications that include seismic refraction/reflection, seismic down-hole/cross-hole, ground-penetrating radar, electromagnetics, magnetics, resistivity, and conventional utility location and has managed Level A through Level D subsurface utility investigations. He conducted thousands of geophysical investigations concerned with environmental, geotechnical, infrastructure, and construction related projects. Mr. Taylor plays a senior role in the management and performance of the geophysical investigations that are conducted as part of sinkhole-damage related insurance claims.

Professional Experience

MASW Study, Fort Myers Airport, Fort Myers, Florida

Seismic study to map karst zones of a proposed tunnel alignment under the runway and taxiways of the Fort Myers Airport.

Ground Penetrating Radar, Seismic Refraction and Seismic Reflection, Bradenton, Florida

Assessment of geological conditions and evaluation of for potential of karst activity at Tampa Bay Water's proposed reservoir site.

MASW Study, Florida Power & Light Plant, Fort Lauderdale, Florida

Investigation to determine the shear wave velocity profile to a depth of 100 feet as part of a geotechnical investigation at the Florida Power & Light Plant located in Fort Lauderdale, Florida. The investigation was part of the planned Combustion Turbine Project at the facility..

Seismic Refraction and Multi-Electrode Resistivity, Atlantic LNG Plant, Point Fortin, Trinidad, Wisconsin

Survey performed to determine the electrical resistivity values of shallow soil layers, depth to the top of the marine clay stratum, and depth of the weathering within the clay stratum. .

Stephen Scruggs, PG

Geophysical Services and Subsurface Utility Engineering

Firm Name

GeoView / Ambient Technology

Education

MS, Geology, University of South Florida, 2000

BS, Geology, University of Florida, 1997

Professional Registrations

Professional Geologist - FL

Career Summary

As a senior level project manager for GeoView, Mr. Scruggs is responsible for performance and management of high-level, multi-method geophysical investigations. His primary duties include field project management, data analysis, report preparation, and personnel supervision and training. He is also the Office Manager for the GeoView office in Jacksonville, Florida. He has conducted geophysical investigations throughout the United States and the Caribbean region and has served as Project Manager for national and international geophysical investigations, sinkhole investigations, utility and underground storage tanks locating, geological boundaries mapping, buried debris delineation, structural investigations (e.g., bridge deck, rebar evaluations, cellular tower foundation surveys)..

Professional Experience

Multiple Residential and Commercial Building Sites, Various Locations, Florida

Ground penetrating radar (GPR) and ERI imaging investigations conducted as part of geotechnical site investigations to determine presence of karst (i.e., sinkhole) features for insurance subsidence claims and/or as part of predevelopment geotechnical site investigations; performed at hundreds of sites and for multiple clients. .

Future Sysco Distribution Center, Alachua, Florida

ERI survey across the footprint of a planned warehouse building conducted to determine presence of karst features and assist in planning scope and location for soils stabilization program; used two-dimensional and three-dimensional of resistivity data analysis.

Nestle Waters Facility, Madison County, Florida

GPR study using integrated, differentially corrected GPS to determine location of karst features at proposed location for a water bottling facility; marked apparent centers of the karst features identified for future testing

Unexploded Ordnance (UXO) Study, Historic WWII Practice Bombing Range, Jacksonville, Florida

Integrated TDEM and EM study to determine lateral extent and location of UXO locales across an area planned for planned residential development and to stake the UXO sites detected for future removal.

Scott Purcell

Geophysical Services and Subsurface Utility Engineering

Firm Name

GeoView/Ambient Technology

Education

MS, Hydrogeology and Geo physics, University of South Florida, 2007

BS, Zoology, University of South Florida, 1999

BA, Psychology, University of South Florida, 1988

Career Summary

Mr. Purcell has more than 12 years of experience in managing geophysical investigations throughout the southeast United States. His duties include project management, proposal preparation, designing and implementing geophysical investigations, data evaluation and quality control, numerical and analytical modeling of geophysical data, coordination and supervision of fieldwork, report preparation, and personnel training. Mr. Purcell is proficient in the use of ground penetrating radar, electrical resistivity, electromagnetic, seismic refraction/reflection/MASW, conventional utility location and GPS equipment, AutoCAD drawing preparation and Geophysical Data Analysis software.

Professional Experience

Capacitively Coupled Resistivity (CCR), Pasco County, Florida

OhmMapper survey to determine extent and volume of sandy fill materials and sand mine potential

Seismic MASW Survey, Tallahassee Airport, Tallahassee, Florida

Seismic MASW survey to identify the presence of karst features (sinkholes) and determine soil characteristics as part of an airport runway expansion project.

Time Domain Electromagnetic EM-61 and Ground Penetrating Radar, Orlando, Florida

Surveys to determine or verify the presence, location, and vertical arrangement of grave crypts at a private cemetery.

Multi-Electrode Electrical Resistivity Imaging (ERI), Crystal River, Florida

Survey to determine the depth of the salt-water interface as part of a Hydrogeologic study.

Seismic Reflection and Refraction, Miami, Florida

Surveys to determine soil stratigraphy and characterize soil properties at a nuclear power plant.

Ground Penetrating Radar and Electronic Utility Locator Surveys, Jacksonville, Florida

Surveys to designate and map the locations of POL (petroleum, oil, and lubricant) lines at a Petroleum Terminal in Jacksonville, FL.

Ground Penetrating Radar Surveys, MacDill Air Force Base, Tampa, Florida

Surveys to determine the presence and location of voids beneath the airport runways as part of a geotechnical site assessment. MacDill Air Force Base, Tampa, FL.

Sean Malphurs

Geophysical Services and Subsurface Utility Engineering

Firm Name

GeoView/Ambient Technology

Education

BS, Biology, University of South Florida, 2002

Career Summary

Mr. Malphurs has worked on a range of geophysical projects including karst characterization studies, utility designation, buried debris delineation, underground storage tank location, and resistivity studies. He is proficient in geophysical instrumentation and 3-D modeling software. He has a depth of experience in mapping and Geographic Information System (GIS) projects, imagery, raster image processing and analysis, and geo-database cataloguing, and is proficient in software applications that include ESRI, Surfer, ERDAS Imagine, Adobe Photoshop, and Skyline. He has developed data conversion methods for seamless integration between many software platforms and formats, produced maps, presentations, and visual aids and overseen quality control and product evaluation, and maintenance of hardware, software, and equipment.

Professional Experience

Artillery Range Expansion and Observation Project, Fort Stewart, Georgia

GIS-based development and planning based on terrain characterization, facility requirements, and safety requirements of US Army Reserve (USAR).

Operation Iraqi Freedom (OIF) III, Fort Stewart, Georgia

Produced GIS-based products and services in preparation for OIF III, leading to successful mobilization of the U.S. Army 3rd Infantry Division Mechanized.

Operation Iraqi Freedom III, Iraq

Produced over 2,000 GIS-based products in support of OIF III, U.S. Army, Department of Defense, Iraqi Army, Iraqi Security Forces.

Client Name, Project Name, City, State, Cost, Dates

Role and responsibilities. Include information on how the individual or WSP added value to the project regarding savings in cost/time/space and/or something special/innovative/successful.

Camp Taji Fire and Emergency Response Project, Iraq

Developed GIS-based products that actively reduced emergency response time inside Camp Taji

Brett Arenas

OSHA 30 General Industry

OSAH 8 Supervisor

Well Drillers License

Class A License w/ Tanker

Forklift Trainer

Smith System defensive driving

Career Summary

Mr. Arenas currently serves as the Madrid CPWG Drilling department head and leads most of the company's drilling projects. Much of his 35 years of geotechnical and environmental drilling experience comes from performing geotechnical field investigation and testing for site development, evaluation, stabilization, roadway, bridges and other infrastructure projects, as well as environmental impact studies for plume delineation and contaminant cleanup through the installation of water wells and exploratory borings.

Professional Experience

FDOT Geotechnical Project: E7R26 I-75 S to EBWB I-4 Exit Ramp

This project was for the expansion of the existing infrastructure and consisted of over 40 SPT borings with depths from 20' to over 150'

TS Freshwater Blending Pipeline Crossing

This geotechnical exploration project was for the installation of a pipeline along wy 595, Live Oak St, & Hyw 19 and consisted of over 30 SPT borings with depths from 10' to over 40'

CR557 Widening

This geotechnical exploration project was for the expansion of the existing infrastructure and consisted of over 530 locations where SPT borings, Hand Augers, and Test pits were done along hwy 557

Howard Frankland Bridge

This overwater geotechnical exploration project was for the expansion of the existing infrastructure and consisted of over 40 SPT borings with depths from 100' to over 200' drilled from our in-house jack-up barge

Flagler County Rural Road Evaluation

This geotechnical exploration and evaluation project was for a roadway rehabilitation project along approximately 3 miles of CR 90E & CR 90W in Flagler County, Florida, and consisted of multiple SPT borings.

Hallam Preserve Signalization

This geotechnical exploration was for the proposed intersection signalization of CR 540A and Hallam Preserve, Polk County, Florida, and consisted of multiple SPT borings.

Marigold Mast Arms and Ponds

This geotechnical exploration and evaluation for the proposed new mast arms, stormwater ponds, and flood plain compensation ponds along Marigold Avenue in Poinciana, Florida and consisted of multiple SPT borings, hand augers, and test pits

As one of the world's leading professional service firms, WSP brings clarity and vision to complex challenges by working with and advising governments and private-sector clients on key aspects of earth sciences and environmental sustainability. With the recent acquisitions of the Environment & Infrastructure business (E&I) of John Wood plc. and Golder, we have built the largest environmental practice in the world. Our over 23,000 environmental professionals provide specialized services to clients in some of the most highly regulated industries, including mining, oil and gas, energy, industrial, property and buildings, water and transportation. They advise on matters ranging from clean air, water and land, to biodiversity, green energy solutions, climate change and Environmental, Social and Governance ("ESG") issues. From design, permitting, planning and operations, to decommissioning and asset remediation, our environmental professionals are ready to support you through the entire lifecycle of your projects.

Is the Firm a “Polk County Entity”?

Is the Firm a "Polk County Entity"?

WSP is one of the world's leading engineering, project management, and consultancy companies with a long, rich history in the Florida market. If selected for this important contract, our services will be managed and performed from our Lakeland, Florida office at 5015 South Florida Avenue with additional resources provided by our other Florida offices, as necessary. We have been a Polk County Entity for more than 30 years and have been in our current building since the 1990s.

During the past 75 years, WSP has offered multidisciplinary solutions through civil engineering, surveying, architectural services, environmental services, geotechnical engineering, program management, materials testing and engineering, and water resource services to public and private clients. Our employees live and work in our local communities, making us especially dedicated to improving our surrounding environments. We say "world skills on your doorstep" because our customers recognize the value of our local presence.

Our project team is dedicated to serving local governments and municipalities and assisting with general engineering services such as studies, design, construction management, and other miscellaneous engineering and planning services for various public works projects. We have been doing so for more than seven decades. WSP's Florida operation is home to many talented and dedicated individuals serving the engineering and scientific communities today. We are renowned for our expertise and professionalism, our sustainable integration of engineering and science methodologies, and our innovative approaches to finding solutions which fit within the complexities of any project assignment. We have a strong reputation for balancing global excellence with local delivery.

WSP's Florida operation employs nearly 900 people in 23 offices located in every region of the state, including more than 200 people in the Central Florida area. The company can draw on its experienced local managers and geographical reach to support the needs of clients, regardless of project size and complexity. WSP's depth

of global resources allows us to provide our clients with innovative solutions engineered to fit perfectly with local project challenges.

For this opportunity, Mr. Ahmed Zein, PhD, PE will coordinate and manage this contract from our Lakeland office with support from our Tampa, Orlando, and various other office locations. While we have team members in multiple offices, our project managers and highly qualified professionals form seamless and flexible project teams that provide uninterrupted continuity to project tasks.

We have a proven working history with a high success rate of coordinating and executing high-value engineering and architectural projects throughout the state. The close proximity of our office WSP project team to rapidly respond to all project needs in a timely and cost efficient manner.

With approximately 45 employees, our Lakeland office has provided consulting services to public and private sector clients throughout Florida for more than 35 years. Some of the public clients that the Lakeland office currently performs engineering services for include all five Florida Water Management Districts, U.S. Army Corp of Engineers, Florida Department of Environmental Protection, Florida Department of Transportation, and multiple municipalities including Polk, Hillsborough, Osceola, Orange, Sarasota, Lake, Sumter, and Highlands Counties.

Our highly-qualified professionals will be able to act as an extension of Polk County staff when the need arises. We bring unique local knowledge and specialized Florida experience to our clients with aided service delivery driven by our expansive financial, project management, and IT systems. Utilizing these combined services allows us to draw on vast resources of personnel and experience to meet our clients' needs.

On the following pages please see our current lease agreement for our Polk County office.

Lakeland Office Lease Agreement (redacted)

LEASE AGREEMENT

This Lease Agreement ("Lease") is made as of the Effective Date (hereinafter defined), by and between Bank of Central Florida ("Landlord") and Wood Environment & Infrastructure Solutions, Inc. ("Tenant"). The Effective Date shall be the date upon which this Lease is last executed and/or initialed by Landlord and Tenant.

1. **Basic Lease Provisions and Definitions**.

(a)	Building:	5015 S. Florida Avenue Lakeland, FL 33813-2561
(b)	Premises:	3rd Floor
(c)	Rentable Square Footage of Premises:	5,000
(d)	Initial Term of Lease:	Five (5) years
(e)	Possession Date:	03/01/2021, subject to the provisions of Section 3 below
(f)	Rent Commencement Date:	04/01/2021, subject to the provisions of Section 3 below

(g) Rent:

Year	Annual Rent	Monthly Rent	Rent Per Square Foot
1	[redacted]	[redacted]	[redacted]
2	[redacted]	[redacted]	[redacted]
3	[redacted]	[redacted]	[redacted]
4	[redacted]	[redacted]	[redacted]
5	[redacted]	[redacted]	[redacted]

(h) Renewal Options: Two (2) options of three (3) years each

2. **Premises; Common Areas**.

(a) Landlord hereby leases to Tenant, and Tenant hereby leases from Landlord, the Premises described in Sections 1(a), (c), and (d) above and depicted in the floor plan attached hereto as Exhibit 2(a) and incorporated herein by reference (the "Premises ").

(b) Tenant, its employees, representatives, agents, customers, guests and invitees shall have the right to use all driveways, parking areas, sidewalks, lobbies, elevators, hallways, restrooms, and other common facilities and areas (collectively, "Common Areas") in or about the Building, jointly with other tenants and their respective employees, representatives, agents, customers, guests and invitees. Tenant and its employees, representatives, agents, customers, guests and invitees shall not use any of the Common Areas in a manner which obstructs or interferes with the reasonable use thereof by others. Landlord will maintain the Common Areas in a clean, safe and sanitary condition and provide all necessary janitorial service, snow removal, maintenance and repair, and utilities to all Common Areas.

3. **Term**. The term of this Lease shall commence on the Rent Commencement Date and continue until the expiration of the period specified in Section 1(d) above (the "Initial Term" and, together with any renewals or extensions thereof, the "Term"); provided, however, that if the Rent Commencement Date is any day other than the first day of a calendar month, the Initial Term shall include the partial month in which the Rent Commencement Date occurs plus the period specified in Section 1(d) above, and the first lease year shall include such partial month plus the succeeding twelve (12) months. During the period between the Possession Date and the Rent Commencement Date, all of the terms and conditions of this Lease shall be in effect, other than Tenant's obligation to pay Rent. Notwithstanding anything to the contrary contained herein, the Possession Date shall be the later of: (a) the date specified in Section 1(e) above; and (b) the date on which Landlord delivers the Premises to Tenant with Landlord's Work (hereinafter defined) substantially complete and in a condition that allows Tenant to legally occupy the Premises. In the event the Possession Date, as so calculated, occurs after the date specified in

hangings. Upon the expiration or termination of this Lease, Landlord and Tenant shall mutually inspect the Premises and sign an Acceptance of Premises/Repair List document, in the form of Exhibit 26(l), that verifies the Premises is in the condition required by this Lease or, if not, that identifies the repairs in the Premises for which Tenant is responsible. If Landlord fails or refuses to inspect the Premises or sign the Surrender of Premises/Repair List document, Landlord shall be deemed to have accepted the Premises from Tenant in the condition required by the Lease.

(m) **Severability**. If any provision of this Lease is rendered void or invalid by the decision of any court or by the enactment of any Law, such provision will be deemed to have never been included herein and the balance of the Lease shall continue in full force and effect.

(n) **Counterparts**. This Agreement may be executed in one or more counterparts, each of which shall be an original, but all of which together shall constitute but one and the same instrument. Photocopies and electronically scanned or faxed copies of original signature pages shall be deemed originals in all respects.

(o) **Entire Agreement**. This Lease constitutes the entire understanding between the parties. Any representation, obligation, term or condition not contained herein is not binding on the parties.

Tab 5
Is the Firm a “Certified Woman or Minority Business Enterprise”?

Is the Firm a "Certified Woman or Minority Business Enterprise"?

WSP regularly partners with various specialty subconsultants to supplement our team. In fact, the executives at WSP encourage the use of Woman and Minority Business (WBE/MBE) firms whenever possible as a means of establishing and maintaining healthy working relationships. Our strategy is to build the best possible team in an effort to fully satisfy the needs of our client.

For more than 30 years, WSP has worked with a number of woman or minority certified firms; some of which have been very conscientious of their work product and others that were not. This time has allowed us an opportunity to evaluate the performance of each firm. It has also provided us the chance to build a solid working relationship with a select number of highly qualified and very responsive firms. WSP routinely calls on our ally subconsultant firms to assist us in various design and engineering endeavors. It is interesting to note that most of the firms are utilized by WSP regardless of the selection criteria and/or contractual requirements. This speaks highly of the level of service we have come to expect from our partners. The bottom line is that Polk County will be relying on WSP to provide exceptional client service, and therefore, it is our responsibility to have subconsultants in place that we can fully rely upon to provide the same high quality work products in a timely fashion.

WSP is committed to providing the greatest participation possible for WBE/MBE firms to compete as suppliers for WSP's current and long-term requirements. To assist Florida's woman and minority businesses in doing business with counties, cities, the state of Florida, and the private sector, WSP makes its best effort, whenever possible, to utilize WBE/MBE firms like our subconsultant for this project, GeoView, Inc, a division of Ambient Technologies. The WBE/MBE certifications for this firm can be found on the following pages.

It is WSP's policy when price, quality, delivery, and other pertinent factors are evaluated as equal; the order should and is expected to be awarded to the WBE/MBE firms. In addition, WSP shall, whenever possible, assist in the training and development of WBE/MBE firms in both the private and public sectors.

Tab 6: Interactions with County and Regulatory Staff

Interactions with County and Regulatory Staff 3

Tab 6
Interactions with County and Regulatory Staff

Interactions with County and Regulatory Agency Staff

The WSP team of engineers, architects, planners, and scientists has a broad and successful history of completed projects with Polk County including the Parks and Natural Resources Division, Utilities Division, Transportation Division, Facilities Management Division, and Housing and Neighborhood Development Division. We have continuously provided prompt and efficient service as well as technically superior design services to these various Polk County government clients. Our involvement in previous projects has also provided us with the familiarity and ability to effectively work with other County divisions, including the Planning Division, Codes Division, and County Attorney's Office.

We understand the level of detail that County project managers require in the bidding documents and throughout the duration of construction. Our experience with Polk County ensures our projects are completed in accordance with the expectations of staff and our fellow citizens. Our experience with a wide variety of projects brings an understanding of an assortment of issues from stormwater management system permitting to threatened and endangered species to construction and building, and water use permits, and consent orders. We have worked with agencies at the local, regional, state, and federal levels and fully understand the facets of the governing regulatory processes that can be expected for this contract.

We maintain an excellent rapport with the regulatory agencies having jurisdiction in Florida from the top level decision makers to the compliance and enforcement staff. Our clients generally require the services of an engineering firm that knows how to work with these agencies and understands how to negotiate through the seemingly endless maze of regulatory requirements and consultations. We have worked with most of the review agencies throughout the state including FDEP, Florida Department of Health, FDOT, SWFWMD, SFWMD, Florida Fish and Wildlife Conservation Commission, Florida Department of Agriculture and Consumer Affairs, various utility owners, local jurisdictional agencies, USACE, Environmental Protection Agency, and most of the 17 Polk County municipalities. The relationships we have built with the various agency decision makers have helped us resolve challenges and expedite permit approvals.

Several team members have worked directly for regulatory agencies and, as such, clearly understand the internal operations of the agencies. Not only does this experience provide our team with a unique perspective of the framework and policies that govern day-to-day operations, but is also the basis of strong, mutually respected, and cooperative relationships with key agency staff. Our team also has vast experience in submitting permit applications and weaving through the regulatory review process to obtain permits for both private and public clients. Our team of engineers and scientists thoroughly understand the rules and associated guidelines that govern civil and environmental activities in Florida. We also understand that these rules provide some degree of flexibility for both the permit applicant and the permit reviewer. Many factors from political influence and stakeholder concerns come into play and we understand that all of these influences must be considered in the overall process.

Through our continuing work with Polk County staff on numerous projects, we have become very familiar with the Polk County "process." We have successfully completed projects through design, bidding, and construction and, as such, we understand the Procurement Office's procedures and requirements for bidding and contractor management.

As one of the world's leading professional service firms, WSP brings clarity and vision to complex challenges by working with and advising governments and private-sector clients on key aspects of earth sciences and environmental sustainability. With the recent acquisitions of the Environment & Infrastructure business (E&I) of John Wood plc. and Golder, we have built the largest environmental practice in the world. Tab 7
Timely Completions of Projects

Timely Completions of Projects

WSP understands that the overall quality project performance is directly related to availability of staffing, future project commitments, and office utilization. A key factor to providing a quality product relies on meeting construction schedules and providing services lines that are continuously available on short notice. WSP's depth and breadth of resources and our Florida coverage area offers Polk County stability and availability to handle any size project at any time.

All WSP team members will be committed to this project and are available for the life of this contract on an as-needed basis. The availability of our staff will allow for the initiation and completion of any task required in a minimum amount of time. WSP is completely committed to providing the resources required to fulfill all project needs and task assignments and to meet or exceed all anticipated project objectives. We are well-known and respected in our profession for performing multiple projects and task assignments within the constraints and limitations of schedules, budgets, and project boundaries.

Current and Future Workload

Mr. Ahmed Zein, PhD, PE will be responsible for ensuring all staffing commitments are adhered to for every project throughout the duration of the contract. Mr. Zein will continuously coordinate with project managers and task leaders to ensure that all assignments receive the proper allocation of staff resources. Because we understand that communication is key, the entire project team will be kept informed through a project work plan of the technical, administrative, and procedural requirements.

Mr. Zein has the ability to staff each project within this contract by utilizing more than 50 supplemental geotechnical and construction support staff located in central Florida to support this contract in need be along with the resources of our subconsultant partners. WSP is committed to providing sufficient staff resources to handle even peak workload demands. Our team has the resources available to expedite the schedule at any time if needed and are equally committed to client satisfaction and to outstanding technical performance on each and every task assignment.

Ability to Handle Scope of Services

WSP is a full-service design firm that provides most

services that have been identified by Polk County for this contract. We have supplemented our team with highly qualified, local subconsultants to provide additional support, as necessary. We have illustrated a portion of our diverse team in the organizational chart provided under Tab 3.

We utilize a project management dashboard that serves as a portal to our job cost accounting system. The dashboard allows project managers and discipline managers to view manpower estimates, staff utilization, project budgets, and other essential data to properly maximize project budget, and manpower requirements. This tool provides valuable real time information to our managers to assist them with staff scheduling to avoid delays.

We believe that it is critical that the project management philosophy be focused on the effective coordination and combination of the project elements and services required to successfully complete the project. A practical understanding of both the technical and non-technical aspects is essential to the efficient execution of this project. In summary, the key elements of our project management plan are:

- Effective client interface and communication
- Assignment of a senior project manager and experienced key personnel
- Preparation of a comprehensive technical approach based on a sound understanding of the project
- Development of a fair and complete budget to accomplish the work
- Use of proven, computerized systems for monitoring and control of project cost and schedule
- Commitment to the schedule and budget from all team members
- Frequent team interaction on project tasks, deliverables, and challenges
- Continuity of staff on project tasks and development of project teams

WSP employs several effective project management

tools to monitor our project budgets and schedules. We track work efforts and progress for each element of the work plan on a weekly basis and employ aspects of earned value management to monitor our performance.

WSP's Project Management Portal (PMP) provides management with daily time accounting and weekly detailed reports of expenditures and charges, which are used by management to track labor efficiency and to determine if the level of effort and results achieved are consistent with the budget and schedule. Critical project performance metrics are also provided to the office manager and contract manager for review via the Project Assessment Report (PAR). Problems with projects failing to meet established financial goals are identified early in the process so that corrective actions can be developed and applied in a timely fashion. Some of the other tools used by WSP's project managers to help track project progress include earned value tracking (EVT), staff loading calendars, and MS SharePoint software.

Project team meetings are held on a regular basis, providing an opportunity to share project information and identify potential problems and head them off before they become schedule stoppers. Project schedules and milestone dates are reviewed at each team meeting. We often use emails to send electronic drawings and data which helps reduce schedule snags since data is more easily available and ready for use. We set weekly goals for our project team based on our work plan and hold team members accountable for attaining those goals within the allotted hours. Project efficiency will be maximized by submitting regular project status reports, meeting as needed with County staff to facilitate communication during the course of a project, and limiting the number of team members working on a project. This allows us to meet the project schedule, but at the same time, minimize unnecessary confusion regarding responsibilities and methodologies.

Additionally, continuous senior level review is essential to meeting project goals and objectives within allocated schedules and budgets. Our specific goal is to identify and correct potential issues during the process to avoid costly and time consuming backtracking in subsequent elements of the work plan.

We have provided our projected workload chart to the right for the resources assigned to this contract to illustrate the firm's ability to handle each aspect of the scope of services described.

As one of the world's leading professional service firms, WSP brings clarity and vision to complex challenges by working with and advising governments and private-sector clients on key aspects of earth sciences and environmental sustainability. With the recent acquisitions of the Environment & Infrastructure business (E&I) of John Wood plc. and Golder, we have built the largest environmental practice in the world. Our over 23,000 environmental professionals provide specialized services to clients in some of the most highly regulated industries, including mining, oil and gas, energy, industrial, property and buildings, water and transportation. They advise on matters ranging from clean air, water and land, to biodiversity, green energy solutions, climate change and Environmental, Social and Governance ("ESG") issues. From design, permitting, planning and operations, to decommissioning and asset remediation, our environmental professionals are ready to support you through the entire lifecycle of your projects.

Revised 3.7.23

W-9

Form **W-9**
(Rev. October 2018)
Department of the Treasury
Internal Revenue Service

Request for Taxpayer Identification Number and Certification

▶ Go to *www.irs.gov/FormW9* for instructions and the latest information.

Give Form to the requester. Do not send to the IRS.

Print or type. See Specific Instructions on page 3.

1 Name (as shown on your income tax return). Name is required on this line; do not leave this line blank.
WSP USA Environment & Infrastructure Inc.

2 Business name/disregarded entity name, if different from above

3 Check appropriate box for federal tax classification of the person whose name is entered on line 1. Check only one of the following seven boxes.

☐ Individual/sole proprietor or single-member LLC ☑ C Corporation ☐ S Corporation ☐ Partnership ☐ Trust/estate

☐ Limited liability company. Enter the tax classification (C=C corporation, S=S corporation, P=Partnership) ▶ _____

Note: Check the appropriate box in the line above for the tax classification of the single-member owner. Do not check LLC if the LLC is classified as a single-member LLC that is disregarded from the owner unless the owner of the LLC is another LLC that is **not** disregarded from the owner for U.S. federal tax purposes. Otherwise, a single-member LLC that is disregarded from the owner should check the appropriate box for the tax classification of its owner.

☐ Other (see instructions) ▶

4 Exemptions (codes apply only to certain entities, not individuals; see instructions on page 3):

Exempt payee code (if any) 5

Exemption from FATCA reporting code (if any) _____

(Applies to accounts maintained outside the U.S.)

5 Address (number, street, and apt. or suite no.) See instructions.
1075 Big Shanty Rd NW, Suite 100

Requester's name and address (optional)

6 City, state, and ZIP code
Kennesaw, GA 30144

7 List account number(s) here (optional)

Part I Taxpayer Identification Number (TIN)

Enter your TIN in the appropriate box. The TIN provided must match the name given on line 1 to avoid backup withholding. For individuals, this is generally your social security number (SSN). However, for a resident alien, sole proprietor, or disregarded entity, see the instructions for Part I, later. For other entities, it is your employer identification number (EIN). If you do not have a number, see *How to get a TIN*, later.

Note: If the account is in more than one name, see the instructions for line 1. Also see *What Name and Number To Give the Requester* for guidelines on whose number to enter.

Social security number
[ ][ ][ ] - [ ][ ] - [ ][ ][ ][ ]

or

Employer identification number
9 1 - 1 6 4 1 7 7 2

Part II Certification

Under penalties of perjury, I certify that:

1. The number shown on this form is my correct taxpayer identification number (or I am waiting for a number to be issued to me); and
2. I am not subject to backup withholding because: (a) I am exempt from backup withholding, or (b) I have not been notified by the Internal Revenue Service (IRS) that I am subject to backup withholding as a result of a failure to report all interest or dividends, or (c) the IRS has notified me that I am no longer subject to backup withholding; and
3. I am a U.S. citizen or other U.S. person (defined below); and
4. The FATCA code(s) entered on this form (if any) indicating that I am exempt from FATCA reporting is correct.

Certification instructions. You must cross out item 2 above if you have been notified by the IRS that you are currently subject to backup withholding because you have failed to report all interest and dividends on your tax return. For real estate transactions, item 2 does not apply. For mortgage interest paid, acquisition or abandonment of secured property, cancellation of debt, contributions to an individual retirement arrangement (IRA), and generally, payments other than interest and dividends, you are not required to sign the certification, but you must provide your correct TIN. See the instructions for Part II, later.

Sign Here | **Signature of U.S. person** ▶ _____ **Date** ▶ _____

General Instructions

Section references are to the Internal Revenue Code unless otherwise noted.

Future developments. For the latest information about developments related to Form W-9 and its instructions, such as legislation enacted after they were published, go to *www.irs.gov/FormW9*.

Purpose of Form

An individual or entity (Form W-9 requester) who is required to file an information return with the IRS must obtain your correct taxpayer identification number (TIN) which may be your social security number (SSN), individual taxpayer identification number (ITIN), adoption taxpayer identification number (ATIN), or employer identification number (EIN), to report on an information return the amount paid to you, or other amount reportable on an information return. Examples of information returns include, but are not limited to, the following.

- Form 1099-INT (interest earned or paid)
- Form 1099-DIV (dividends, including those from stocks or mutual funds)
- Form 1099-MISC (various types of income, prizes, awards, or gross proceeds)
- Form 1099-B (stock or mutual fund sales and certain other transactions by brokers)
- Form 1099-S (proceeds from real estate transactions)
- Form 1099-K (merchant card and third party network transactions)
- Form 1098 (home mortgage interest), 1098-E (student loan interest), 1098-T (tuition)
- Form 1099-C (canceled debt)
- Form 1099-A (acquisition or abandonment of secured property)

Use Form W-9 only if you are a U.S. person (including a resident alien), to provide your correct TIN.

If you do not return Form W-9 to the requester with a TIN, you might be subject to backup withholding. See What is backup withholding, *later.*

Cat. No. 10231X — Form **W-9** (Rev. 10-2018)

Addendum 1

May 10, 2023

POLK COUNTY, A POLITICAL SUBDIVISION OF THE STATE OF FLORIDA

ADDENDUM #1
RFP 23-328, Professional Geotechnical Services and Construction Material Testing and Inspection

This addendum is issued to clarify, add to, revise and/or delete items of the RFP Documents for this work. This Addendum is a part of the RFP Documents and acknowledgment of its receipt should be noted on the Addendum.

Contained within this addendum: Correction to Contractual Matters reference on page 20 of the RFP document.

Michael Guerrero
Sr. Procurement Analyst
Procurement Division

This Addendum sheet should be signed and returned with your submittal. This is the only acknowledgment required.

Signature: Mark Diblin

Company: WSP USA Environment & Infrastructure Inc.

Addendum 2

May 18, 2023

POLK COUNTY, A POLITICAL SUBDIVISION OF THE STATE OF FLORIDA

ADDENDUM #2
RFP 23-328, Professional Geotechnical Services and Construction Material Testing and Inspection

This addendum is issued to clarify, add to, revise and/or delete items of the RFP Documents for this work. This Addendum is a part of the RFP Documents and acknowledgment of its receipt should be noted on the Addendum.

Contained within this addendum: Proposals submitted and shortlisted along with the evaluation criteria for the last solicitation (RFP 18-305) added to the County's FTP Site.

To receive a copy of the Proposals submitted and shortlisted and evaluation criteria for RFP 18-305, please go the following FTP site: https://ftp3.polk-county.net, you will be prompted for a User ID and Password. The User ID is *procurevendor* and the password is *solicitation.* After you have logged in to the FTP site, double click on the file folder "**RFP 23-328 Professional Geotechnical Services and Construction Material Testing and Inspection.zip**", select "Open" or "Save As" to download the Proposals submitted and shortlisted and evaluation criteria for RFP 18-305. If you need assistance accessing this website due to ADA or any other reason, please email Michael Guerrero at michaelguerrero@polk-county.net.

Title: VP - Florida District Manager

Company: WSP USA Environment & Infrastructure Inc.

As one of the world's leading professional service firms, WSP brings clarity and vision to complex challenges by working with and advising governments and private-sector clients on key aspects of earth sciences and environmental sustainability. With the recent acquisitions of the Environment & Infrastructure business (E&I) of John Wood plc. and Golder, we have built the largest environmental practice in the world. Our over 23,000 environmental professionals provide specialized services to clients in some of the most highly regulated industries, including mining, oil and gas, energy, industrial, property and buildings, water and transportation. They advise on matters ranging from clean air, water and land, to biodiversity, green energy solutions, climate change and Environmental, Social and Governance ("ESG") issues. From design, permitting, planning and operations, to decommissioning and asset remediation, our environmental professionals are ready to support you through the entire lifecycle of your projects.

Agenda Item R.54. 11/7/2023

SUBJECT

Approve modification to Subgrant Agreement between the Division of Emergency Management (FDEM) and Polk County for the Eloise Loop Road Drainage Improvement Project (Time extension only).

DESCRIPTION

On January 6, 2021, the Board executed Contract No. H0341 with the State of Florida, Division of Emergency Management to co-fund design services (Phase 1) for the Eloise Loop Road Drainage Improvement Project.

The Roads & Drainage Division has submitted the Phase 1 design deliverables as outlined in Contract No. H0341. The submitted documents are currently being reviewed for further funding consideration (Phase 2) by the Federal Emergency Management Agency (FEMA). The FEMA review period has extended past the expiration date for Contract No. H0341.

FDEM is requesting to extend Contract No. H0341 to December 31, 2023.

RECOMMENDATION

Request the Board authorize the Chairman to execute modification to Subgrant Agreement between FDEM and Polk County for the Eloise Loop Road Drainage Improvement Project.

FISCAL IMPACT

Time extension only.

MODIFICATION TO SUBGRANT AGREEMENT BETWEEN THE DIVISION OF EMERGENCY MANAGEMENT AND POLK COUNTY

This Modification Number One made and entered into by and between the State of Florida, Division of Emergency Management ("the Division"), and Polk County ("the Sub-Recipient") to modify Contract Number H0341, dated, January 6, 2021 ("the Agreement").

WHEREAS, the Division and the Sub-Recipient have entered into the Agreement, pursuant to which the Division has provided a subgrant to the Sub-Recipient under the Hazard Mitigation Grant Program of $79,344.75, in Federal Funds; and

WHEREAS, the Division and the Sub-Recipient intend to modify the Agreement; and

WHEREAS, the Agreement expired on January 31, 2022; and

WHEREAS, the Division and the Sub-Recipient intend to reinstate and extend the terms of the Agreement and to amend the name of the Sub-Recipient in the Agreement.

NOW, THEREFORE, in consideration of the mutual promises of the parties contained herein, the parties agree as follows:

1. The Agreement is hereby reinstated and extended as though it had never expired.

2. Paragraph 8 of the Agreement is hereby amended to read as follows:
   (8) PERIOD OF AGREEMENT
   This Agreement shall begin January 6, 2021 and shall end December 31, 2023, unless terminated earlier in accordance with the provisions of Paragraph (17) of this Agreement.

3. The name of the Sub-Recipient in the Agreement is hereby amended from Polk County, a political subdivision of the State of Florida to Polk County.

4. The Budget and Scope of Work, Attachment A to the Agreement, are hereby modified as set forth in 1st Revision Attachment A to this Modification, a copy of which is attached hereto and incorporated herein by reference.

5. All provisions of the Agreement being modified and any attachments in conflict with this Modification shall be and are hereby changed to conform with this Modification, effective on the date of execution of this Modification by both parties.

6. All provisions not in conflict with this Modification remain in full force and effect, and are to be performed at the level specified in the Agreement.

7. Quarterly Reports are due to the Division no later than 15 days after the end of each quarter of the program year and shall be sent each quarter until submission of the administrative close-out report. The ending dates for each quarter of the program year are March 31, June 30, September 30 and December 31.

IN WITNESS WHEREOF, the parties hereto have executed this Modification as of the dates set out below.

Attachment A

(1st Revision)

Budget and Scope of Work

STATEMENT OF PURPOSE:

The purpose of this Scope of Work is to improve the drainage of Eloise Loop Road in Winter Haven, Polk County, Florida, funded through the Hazard Mitigation Grant Program (HMGP) **DR-4337-249-R**, as approved by the Florida Division of Emergency Management (Division) and the Federal Emergency Management Agency (FEMA).

The Sub-Recipient, Polk County, shall conduct Phase I of this project, which includes the preliminary engineering designs and calculations, surveys, permitting, and notices. No construction activities are approved at this time. The Sub-Recipient shall complete the Phase I work in accordance with all applicable federal, state and local laws, regulations and codes.

PROJECT OVERVIEW:

As a Hazard Mitigation Grant Program project, the Sub-Recipient proposes drainage improvements to Eloise Loop Road, specifically between North Rifle Road (CR 655) and West Lake Eloise Drive, in Winter Haven, Florida, 33884. Coordinates (27.976065, -81.724012).

The scope of work is for Phase I only, which includes but is not limited to surveying, engineering, design, plans preparation, permitting and bidding for the proposed project, for Phase II approval. No construction activities for this project have been approved.

When completed, the Sub-Recipient shall provide deliverables for Phase II review of the following proposed activities.

The Phase II proposed scope of work shall provide protection by constructing a new storm drain system and outfall ditch to relieve potential flooding. The proposed storm drain would extend from the low point along Eloise Loop Road approximately 500 feet northwest, then cross under Eloise Loop Road and discharge to a proposed swale that would drain southwest to Rifle Range Road. This project is proposed in order to reduce the frequency of flood impacts to Eloise Loop Road and agricultural properties in the area.

The project shall be constructed to provide protection against a 50-year storm event. Activities shall be completed in strict compliance with Federal, State and Local applicable Rules and Regulations.

TASKS & DELIVERABLES:

A) Tasks:

1) The Sub-Recipient shall procure the services of a qualified and licensed Florida contractor and execute a contract with the selected bidder to complete the Phase I scope of work as approved by the Division and FEMA. The Sub-Recipient shall select the qualified, licensed Florida contractor in accordance with the Sub-Recipient's procurement policy as well as all federal and state laws and regulations.

   All procurement activities shall contain sufficient source documentation and be in accordance with all applicable regulations.

   The Sub-Recipient and contractor shall be responsible for maintaining a safe and secure worksite for the duration of the work. The contractor shall maintain all areas in a neat and presentable condition.

   The Sub-Recipient shall ensure that no contractors or subcontractors are debarred or suspended from participating in federally funded projects.

   The selected contractor shall have a current and valid occupational license/business tax receipt issued for the type of services being performed. The Sub-Recipient shall provide documentation demonstrating the results of the procurement process. This shall include a rationale for the method of

procurement and selection of contract type, contractor selection and/or rejection and bid tabulation and listing, and the basis of contract price.

The Sub-Recipient shall provide an executed “Debarment, Suspension, Ineligibility, Voluntary Exclusion Form” for each contractor and/or subcontractor performing services under this agreement.

Executed contracts with contractors and/or subcontractors shall be provided to the Division by the Sub-Recipient.

The Sub-Recipient shall provide copies of professional licenses for contractors selected to perform services. The Sub-Recipient shall provide a copy of a current and valid occupational license or business tax receipt issued for the type of services to be performed by the selected contractor.

2) The Sub-Recipient shall monitor and manage the Phase I portion of this project in accordance with the Hazard Mitigation Grant Program application and supporting documentation as submitted to the Division and subsequently approved by the Division and FEMA. The Division and FEMA shall render a Phase II determination upon completion of the review of Phase I deliverables. No construction activities are approved at this time. The Sub-Recipient shall ensure that all applicable state, local and federal laws and regulations are followed and documented, as appropriate.

   Phase I consists of fees; for conducting survey, drainage study, engineering, design, public notices, and/or permitting associated with the modification(s) needed to upgrade the drainage. Verification of upstream and downstream impacts shall be necessary for determining project eligibility.

   All Phase I work shall be completed in accordance with all applicable state, local and federal laws and regulations and documented, as appropriate.

   Upon completion of Task 2, the Sub-Recipient shall submit the following documents with sufficient supporting documentation and provide a summary of all scope of work changes, if any.

   a) Two sets of engineering Signed/Sealed final design and analysis, surveying, and Hydrologic and Hydraulic (H&H) Studies.

   b) Construction Plans / bid documents.

   c) Revised cost estimate for Phase II – construction (include Phase I costs), to implement the design project.

   d) Design documents shall provide a detailed description which includes specifics on project scope of work, depth and extent of ground disturbance at all construction locations of the project.

   e) Color maps including topographical, aerial, and ground disturbance.

   f) Color photographs of the project area and areas of ground disturbance.

   g) Copy of all environmental permits or applications; any obtained from the Florida Department of Environmental Protection (FDEP), and/or local Water Management District (WMD) shall be required. Any conditions for compliance shall be included in the final design plans, narrative and project implementation actions.

   h) Copy of the United States Army Corps of Engineers (USACE) or FDEP Section 404 permit or No Permit Required notification from the appropriate permitting agency.

   i) Any other documentation requested by the Division, not limited to Project Conditions and Requirements herein.

3) During the course of this agreement, the Sub-Recipient shall submit requests for reimbursement. Adequate and complete source documentation shall be submitted to support all costs (federal share and local share) related to the project. In some cases, all project activities may not be fully complete prior to requesting reimbursement of costs incurred in completion of this scope of work; however, a partial reimbursement may be requested.

   The Sub-Recipient shall submit an Affidavit signed by the Sub-Recipient’s project personnel with each reimbursement request attesting to the completion of the work, that disbursements or payments were made in accordance with all agreement and regulatory conditions, and that reimbursement is due and

has not been previously requested.

The Sub-Recipient shall maintain accurate time records. The Sub-Recipient shall ensure invoices are accurate and any contracted services were rendered within the terms and timelines of this agreement. All supporting documentation shall agree with the requested billing period. All costs submitted for reimbursement shall contain adequate source documentation which may include but not be limited to: cancelled checks, bank statements, Electronic Funds Transfer, paid bills and invoices, payrolls, time and attendance records, contract and subcontract award documents.

Direct Expenses: The Sub-Recipient shall pre-audit bills, invoices, and/or charges submitted by the contractors and subcontractors and pay the contractors and subcontractors for approved bills, invoices, and/or charges. Sub-Recipient shall ensure that all contractor/subcontractor bills, invoices, and/or charges are legitimate and clearly identify the activities being performed and associated costs.

Project Management Expenses (only applies to disasters prior to August 1, 2017, all others adhere to FEMA Policy #104-11-1 for SRMC): The Sub-Recipient shall pre-audit source documentation such as payroll records, project time sheets, attendance logs, etc. Documentation shall be detailed information describing tasks performed, hours devoted to each task, and the hourly rate charged for each hour including enough information to calculate the hourly rates based on payroll records. Employee benefits shall be clearly shown.

The Division shall review all submitted requests for reimbursement for basic accuracy of information. Further, the Division shall ensure that no unauthorized work was completed prior to the approved project start date by verifying vendor and contractor invoices. The Division shall verify that reported costs were incurred in the performance of eligible work, that the approved work was completed, and that the mitigation measures are in compliance with the approved scope of work prior to processing any requests for reimbursement.

Review and approval of any third-party in-kind services, if applicable, shall be conducted by the Division in coordination with the Sub-Recipient.

Quarterly reports shall be submitted by the Sub-Recipient and received by the Division at the times provided in this agreement prior to the processing of any reimbursement.

The Sub-Recipient shall submit to the Division requests for reimbursement of actual Phase I costs related to the project as identified in the project application and this scope of work. The Requests for Reimbursement (RFR) shall include:

a) Contractor, subcontractor, and/or vendor invoices which clearly display dates of services performed, description of services performed, location of services performed, cost of services performed, name of service provider and any other pertinent information;

b) Proof of payment from the Sub-Recipient to the contractor, subcontractor, and/or vendor for invoiced services;

c) Clear identification of amount of costs being requested for reimbursement as well as costs being applied against the local match amount.

The Sub-Recipient's Request for Reimbursement shall include the final Phase I project cost. Supporting documentation shall show that all contractors and subcontractors have been paid.

B) Deliverables:

Mitigation Activities consist of Phase I activities, which include engineering, designing, plans preparation, permitting and bidding for the proposed project, for Phase II approval, and to implement measures to improve the drainage of Eloise Loop Road, located in Winter Haven, Florida 33884.

The project shall be constructed to provide protection against a 50-year storm event. Activities shall be completed in strict compliance with Federal, State and Local applicable Rules and Regulations.

Provided the Sub-Recipient performs in accordance with the Scope of Work outlined in this Agreement, the Division shall reimburse the Sub-Recipient based on the percentage of overall project completion.

PROJECT CONDITIONS AND REQUIREMENTS:

C) Engineering:

1) The Sub-Recipient shall submit signed and sealed Engineering plans that clearly show the engineer's estimate of the pre and post-mitigation effects of the proposed project and the relationship of the damages to be mitigated (commensurate with the level of funding requested). The H&H study shall contain at least 3 scenarios, where one represents the level of protection; under each scenario, the Sub-Recipient must identify the losses before and after mitigation (structural, content, displacement, road closure duration, or any other needed to show the improvements after the mitigation project is implemented). This includes, but is not limited to, the existing and proposed hydrology and hydraulics for the level of event being mitigated.
2) Demonstrate mitigation effectiveness, in part, by showing the physical location(s) and elevation(s) of the infrastructure/structures that are being damaged and FEMA Special Flood Hazard Areas on the same plan.
3) Submit a refined cost estimate, to include final Phase I Fees and Phase II Construction Materials and Labor.

D) Environmental:

1) Any change to the approved scope of work shall require re-evaluation for compliance with NEPA and other Laws and Executive Orders.
2) Acceptance of federal funding requires the Sub-Recipient to comply with all federal, state, and local laws. Failure to obtain all appropriate federal, state, and local environmental permits and clearances may jeopardize federal funding.
3) Meet all required Environmental laws and policies, and all necessary Environmental compliance documents shall be obtained as applicable.
    a) Consultation with the United States Army Corps of Engineers (USACE) or the Florida Department of Environmental Protection (FDEP) is required. A Section 404 permit or No Permit Required notification from the permitting agency shall be submitted.
    b) Copy of all environmental permits or applications; any obtained from the Florida Department of Environmental Protection (FDEP), and/or local Water Management District (WMD) shall be submitted. Any conditions for compliance shall be included in the final design plans, narrative, and project implementation actions.
4) National Historical Preservation Act compliance documents shall be obtained. Review documentation required:
    a) Color maps including topographical and aerial with the project location clearly marked.
    b) Color photographs of any area with ground disturbance (electronic).
    c) Indicate if project site is located within a designated historic district or historic neighborhood.
    d) Color ground disturbance maps showing the full extent of the project footprint and depth of ground disturbance. Geographic latitude/longitude (decimal degree format) of the proposed construction areas and staging areas. The total impacted area should also be indicated on the map.
    e) Previous and current use of proposed project area.
    f) Any known site work or historic uses for the proposed location.
    g) Any available studies that may have taken place on the property.
5) Phase I of this project is approved with the condition that the above list of deliverables shall be submitted for review and approval by the Division and FEMA before Phase II is considered.
6) No construction work may begin until Phase II is approved by the Division and FEMA.

E) Programmatic:

1) A change in the scope of work *must* be approved by the Division and FEMA in advance regardless of the budget implications.

2) The Sub-Recipient must notify the Division as soon as significant developments become known, such as delays or adverse conditions that might raise costs or delay completion, or favorable conditions allowing lower costs or earlier completion.

3) The Sub-Recipient must "obtain prior written approval for any budget revision which would result in a need for additional funds" [44 CFR 13(c)], from the Division and FEMA.

4) A Public Notice shall be published to notify interested parties of the proposed activity. Notices shall be published in a manner that anyone that may be affected or interested in this project has access to the posting, using the Division template, as applicable.

5) Any extension of the Period of Performance shall be submitted to FEMA 60 days prior to the expiration date. Therefore, any request for a Period of Performance Extension shall be in writing and submitted, along with substantiation of new expiration date and a new schedule of work, to the Division a minimum of seventy (70) days prior to the expiration date, for Division processing to FEMA.

6) A copy of the executed subcontract agreement must be forwarded to the Division within 10 days of execution.

7) Phase I – Design of this project is approved with the condition that the enclosed list of deliverables shall be submitted, 30 days prior to the Period of Performance date, for review and approval by the Division, for submittal to FEMA before Phase II – Construction is considered.

8) When Phase I is completed, the Sub-Recipient must provide 100% completed designs, calculations, a full set of signed and sealed plans and, permits for a Phase II review. A final BCA using developed technical data and study results will take place. The data inputs to the final BCA for Phase II approval, must be based on the inputs and outputs of a hazard related study such as erosion, Hydraulic & Hydrologic study, damage calculations, road closures, etc. No assumptions or historical damage will be acceptable for final BCA of Phase II approval. No construction activities for this project have been approved.

9) The Sub-Recipient must avoid duplication of benefits between the HMGP and any other form of assistance, as required by Section 312 of the Stafford Act, and further clarification in 44 CFR 206.191.

This is FEMA project number **4337-249-R.** It is funded under HMGP, FEMA-4337-DR-FL and must adhere to all program guidelines established for the HMGP in accordance with the PAS Operational Agreement for Disaster 4337.

FEMA awarded this project on August 28, 2019; with a Pre-Award date of March 12, 2018; this Agreement was executed on January 6, 2021; and the Period of Performance for this project shall end on **December 31, 2023**.

F) FINANCIAL CONSEQUENCES:

If the Sub-Recipient fails to comply with any term of the award, the Division shall take one or more of the following actions, as appropriate in the circumstances:

1) Temporarily withhold cash payments pending correction of the deficiency by the Sub-Recipient;

2) Disallow all or part of the cost of the activity or action not in compliance;

3) Wholly or partly suspend or terminate the current award for the Sub-Recipient's program;

4) Withhold further awards for the program; or

5) Take other remedies that may be legally available.

FEDERALLY-FUNDED SUBAWARD AND GRANT AGREEMENT

2 C.F.R. §200.92 states that a "subaward may be provided through any form of legal agreement, including an agreement that the pass-through entity considers a contract."

As defined by 2 C.F.R. §200.74, "pass-through entity" means "a non-Federal entity that provides a subaward to a Sub-Recipient to carry out part of a Federal program."

As defined by 2 C.F.R. §200.93, "Sub-Recipient" means "a non-Federal entity that receives a subaward from a pass-through entity to carry out part of a Federal program."

As defined by 2 C.F.R. §200.38, "Federal award" means "Federal financial assistance that a non-Federal entity receives directly from a Federal awarding agency or indirectly from a pass-through entity."

As defined by 2 C.F.R. §200.92, "subaward" means "an award provided by a pass-through entity to a Sub-Recipient for the Sub-Recipient to carry out part of a Federal award received by the pass-through entity."

The following information is provided pursuant to 2 C.F.R. §200.331(a)(1):

Sub-Recipient's name:	Polk County, a political subdivision of the State of Florida
Sub-Recipient's unique entity identifier:	59-6000809
Federal Award Identification Number (FAIN):	FEMA-DR-4337-FL
Federal Award Date:	August 28, 2019
Subaward Period of Performance Start and End Date:	Upon execution through January 31, 2022
Amount of Federal Funds Obligated by this Agreement:	$79,344.75
Total Amount of Federal Funds Obligated to the Sub-Recipient by the pass-through entity to include this Agreement:	$79,344.75
Total Amount of the Federal Award committed to the Sub-Recipient by the pass-through entity	$79,344.75
Federal award project description (see FFATA):	Drainage Improvement
Name of Federal awarding agency:	Federal Emergency Management Agency
Name of pass-through entity:	FL Division of Emergency Management
Contact information for the pass-through entity:	Angela.Collins@em.myflorida.com
Catalog of Federal Domestic Assistance (CFDA) Number and Name:	97.039 Hazard Mitigation Grant Program
Whether the award is R&D:	N/A
Indirect cost rate for the Federal award:	N/A

THIS AGREEMENT is entered into by the State of Florida, Division of Emergency Management, with headquarters in Tallahassee, Florida (hereinafter referred to as the "Division"), and **Polk County, a political subdivision of the State of Florida** , (hereinafter referred to as the "Sub-Recipient").

For the purposes of this Agreement, the Division serves as the pass-through entity for a Federal award, and the Sub-Recipient serves as the recipient of a subaward.

THIS AGREEMENT IS ENTERED INTO BASED ON THE FOLLOWING REPRESENTATIONS:

A. The Sub-Recipient represents that it is fully qualified and eligible to receive these grant funds to provide the services identified herein;

B. The State of Florida received these grant funds from the Federal government, and the Division has the authority to subgrant these funds to the Sub-Recipient upon the terms and conditions outlined below; and,

C. The Division has statutory authority to disburse the funds under this Agreement.

THEREFORE, the Division and the Sub-Recipient agree to the following:

(1) APPLICATION OF STATE LAW TO THIS AGREEMENT

2 C.F.R. §200.302 provides: "Each state must expend and account for the Federal award in accordance with state laws and procedures for expending and accounting for the state's own funds." Therefore, section 215.971, Florida Statutes, entitled "Agreements funded with federal or state assistance", applies to this Agreement.

(2) LAWS, RULES, REGULATIONS AND POLICIES

a. The Sub-Recipient's performance under this Agreement is subject to 2 C.F.R. Part 200, entitled "Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards."

b. As required by Section 215.971(1), Florida Statutes, this Agreement includes:

i. A provision specifying a scope of work that clearly establishes the tasks that the Sub-Recipient is required to perform.

ii. A provision dividing the agreement into quantifiable units of deliverables that must be received and accepted in writing by the Division before payment. Each deliverable must be directly related to the scope of work and specify the required minimum level of service to be performed and the criteria for evaluating the successful completion of each deliverable.

iii. A provision specifying the financial consequences that apply if the Sub-Recipient fails to perform the minimum level of service required by the agreement.

iv. A provision specifying that the Sub-Recipient may expend funds only for allowable costs resulting from obligations incurred during the specified agreement period.

v. A provision specifying that any balance of unobligated funds which has been advanced or paid must be refunded to the Division.

vi. A provision specifying that any funds paid in excess of the amount to which the Sub-Recipient is entitled under the terms and conditions of the agreement must be refunded to the Division.

c. In addition to the foregoing, the Sub-Recipient and the Division shall be governed by all applicable State and Federal laws, rules and regulations, including those identified in Attachment B. Any express reference in this Agreement to a particular statute, rule, or regulation in no way implies that no other statute, rule, or regulation applies.

(3) CONTACT

a. In accordance with section 215.971(2), Florida Statutes, the Division's Grant Manager shall be responsible for enforcing performance of this Agreement's terms and conditions and shall serve as the Division's liaison with the Sub-Recipient. As part of his/her duties, the Grant Manager for the Division shall:

i. Monitor and document Sub-Recipient performance; and,

ii. Review and document all deliverables for which the Sub-Recipient requests payment.

b. The Division's Grant Manager for this Agreement is:

Angela Collins, FCCM
Project Manager
Bureau of Mitigation
Florida Division of Emergency Management
2555 Shumard Oak Boulevard
Tallahassee, Florida 32399
Telephone: 850-815-4543
Email: Angela.Collins@em.myflorida.com

The Division's Alternate Grant Manager for this Agreement is:

Kathleen Marshall
Community Program Manager
Bureau of Mitigation
Florida Division of Emergency Management
2555 Shumard Oak Boulevard
Tallahassee, FL 32399
Telephone: 850-815-4503
Email: Kathleen.Marshall@em.myflorida.com

1. The name and address of the Representative of the Sub-Recipient responsible for the administration of this Agreement is:

Lawrence Conner Updike, Jr.
Professional Engineer
Polk County
3000 Sheffield Road
Winter Haven, Florida 33880
Telephone: 863-535-2200 ext. 2323
Email: ConnerUpdike@polk-county.net

2. In the event that different representatives or addresses are designated by either party after execution of this Agreement, notice of the name, title and address of the new representative will be provided to the other party.

(4) TERMS AND CONDITIONS

This Agreement contains all the terms and conditions agreed upon by the parties.

(5) EXECUTION

This Agreement may be executed in any number of counterparts, any one of which may be taken as an original.

(6) MODIFICATION

Either party may request modification of the provisions of this Agreement. Changes which are agreed upon shall be valid only when in writing, signed by each of the parties, and attached to the original of this Agreement.

(7) SCOPE OF WORK

The Sub-Recipient shall perform the work in accordance with the Budget and Scope of Work, Attachment A of this Agreement.

(8) PERIOD OF AGREEMENT

This Agreement shall begin upon execution by both parties and shall end on **January 31, 2022**, unless terminated earlier in accordance with the provisions of Paragraph (17) of this Agreement. Consistent with the definition of "period of performance" contained in 2 C.F.R. §200.77, the term "period of agreement" refers to the time during which the Sub-Recipient "may incur new obligations to carry out the work authorized under" this Agreement. In accordance with 2 C.F.R. §200.309, the Sub-Recipient may receive reimbursement under this Agreement only for "allowable costs incurred during the period of performance." In accordance with section 215.971(1)(d), Florida Statutes, the Sub-Recipient may expend funds authorized by this Agreement "only for allowable costs resulting from obligations incurred during" the period of agreement.

(9) FUNDING

a. This is a cost-reimbursement Agreement, subject to the availability of funds.

b. The State of Florida's performance and obligation to pay under this Agreement is contingent upon an annual appropriation by the Legislature, and subject to any modification in accordance with either Chapter 216, Florida Statutes, or the Florida Constitution.

c. The Division will reimburse the Sub-Recipient only for allowable costs incurred by the Sub-Recipient in the successful completion of each deliverable. The maximum reimbursement amount for each deliverable is outlined in Attachment A of this Agreement ("Budget and Scope of Work"). The maximum reimbursement amount for the entirety of this Agreement is **$79,344.75**.

d. As required by 2 C.F.R. §200.415(a), any request for payment under this Agreement must include a certification, signed by an official who is authorized to legally bind the Sub-Recipient, which reads as follows: "By signing this report, I certify to the best of my knowledge and belief that the report is true, complete, and accurate, and the expenditures, disbursements and cash receipts are for the purposes and objectives set forth in the terms and conditions of the Federal award. I am aware that any false, fictitious, or fraudulent information, or the omission of any material fact, may subject me to criminal, civil or administrative penalties for fraud, false statements, false claims or otherwise. (U.S. Code Title 18, Section 1001 and Title 31, Sections 3729-3730 and 3801-3812)."

e. The Division will review any request for reimbursement by comparing the documentation provided by the Sub-Recipient against a performance measure, outlined in Attachment A, that clearly delineates:

i. The required minimum acceptable level of service to be performed; and,

ii. The criteria for evaluating the successful completion of each deliverable.

f. The performance measure required by section 215.971(1)(b), Florida Statutes, remains consistent with the requirement for a "performance goal", which is defined in 2 C.F.R. §200.76 as "a target level of performance expressed as a tangible, measurable objective, against which actual achievement can be compared." It also remains consistent with the requirement, contained in 2 C.F.R. §200.301, that the Division and the Sub-Recipient "relate financial data to performance accomplishments of the Federal award."

g. If authorized by the Federal Awarding Agency, then the Division will reimburse the Sub-Recipient for overtime expenses in accordance with 2 C.F.R. §200.430 ("Compensation—personal services") and 2 C.F.R. §200.431 ("Compensation—fringe benefits"). If the Sub-Recipient seeks reimbursement for overtime expenses for periods when no work is performed due to vacation, holiday, illness, failure of the employer to provide sufficient work, or other similar cause (*see* 29 U.S.C. §207(e)(2)), then the Division will treat the expense as a fringe benefit. 2 C.F.R. §200.431(a) defines fringe benefits as "allowances and services provided by employers to their employees as compensation in addition to regular salaries and wages." Fringe benefits are allowable under this Agreement as long as the benefits are reasonable and are required by law, Sub-Recipient-employee agreement, or an established policy of the Sub-Recipient. 2 C.F.R. §200.431(b) provides that the cost of fringe benefits in the form of regular compensation paid to employees during periods of authorized absences from the job,

such as for annual leave, family-related leave, sick leave, holidays, court leave, military leave, administrative leave, and other similar benefits, are allowable if all of the following criteria are met:

i. They are provided under established written leave policies;

ii. The costs are equitably allocated to all related activities, including Federal awards; and,

iii. The accounting basis (cash or accrual) selected for costing each type of leave is consistently followed by the non-Federal entity or specified grouping of employees.

h. If authorized by the Federal Awarding Agency, then the Division will reimburse the Sub-Recipient for travel expenses in accordance with 2 C.F.R. §200.474. As required by the Reference Guide for State Expenditures, reimbursement for travel must be in accordance with section 112.061, Florida Statutes, which includes submission of the claim on the approved state travel voucher. If the Sub-Recipient seeks reimbursement for travel costs that exceed the amounts stated in section 112.061(6)(b), Florida Statutes ($6 for breakfast, $11 for lunch, and $19 for dinner), then the Sub-Recipient must provide documentation that:

i. The costs are reasonable and do not exceed charges normally allowed by the Sub-Recipient in its regular operations as a result of the Sub-Recipient's written travel policy; and,

ii. Participation of the individual in the travel is necessary to the Federal award.

i. The Division's grant manager, as required by section 215.971(2)(c), Florida Statutes, shall reconcile and verify all funds received against all funds expended during the grant agreement period and produce a final reconciliation report. The final report must identify any funds paid in excess of the expenditures incurred by the Sub-Recipient.

j. As defined by 2 C.F.R. §200.53, the term "improper payment" means or includes:

i. Any payment that should not have been made or that was made in an incorrect amount (including overpayments and underpayments) under statutory, contractual, administrative, or other legally applicable requirements; and,

ii. Any payment to an ineligible party, any payment for an ineligible good or service, any duplicate payment, any payment for a good or service not received (except for such payments where authorized by law), any payment that does not account for credit for applicable discounts, and any payment where insufficient or lack of documentation prevents a reviewer from discerning whether a payment was proper.

(10) RECORDS

a. As required by 2 C.F.R. §200.336, the Federal awarding agency, Inspectors General, the Comptroller General of the United States, and the Division, or any of their authorized representatives, shall enjoy the right of access to any documents, papers, or other records of the Sub-Recipient which are pertinent to the Federal award, in order to make audits, examinations, excerpts, and transcripts. The right of access also includes timely and reasonable access to the Sub-Recipient's personnel for the purpose of

interview and discussion related to such documents. Finally, the right of access is not limited to the required retention period but lasts as long as the records are retained.

b. As required by 2 C.F.R. §200.331(a)(5), the Division, the Chief Inspector General of the State of Florida, the Florida Auditor General, or any of their authorized representatives, shall enjoy the right of access to any documents, financial statements, papers, or other records of the Sub-Recipient which are pertinent to this Agreement, in order to make audits, examinations, excerpts, and transcripts. The right of access also includes timely and reasonable access to the Sub-Recipient's personnel for the purpose of interview and discussion related to such documents.

c. As required by Florida Department of State's record retention requirements (Chapter 119, Florida Statutes) and by 2 C.F.R. §200.333, the Sub-Recipient shall retain sufficient records to show its compliance with the terms of this Agreement, as well as the compliance of all subcontractors or consultants paid from funds under this Agreement, for a period of five (5) years from the date of submission of the final expenditure report. The following are the only exceptions to the five (5) year requirement:

i. If any litigation, claim, or audit is started before the expiration of the 5-year period, then the records must be retained until all litigation, claims, or audit findings involving the records have been resolved and final action taken.

ii. When the Division or the Sub-Recipient is notified in writing by the Federal awarding agency, cognizant agency for audit, oversight agency for audit, cognizant agency for indirect costs, or pass-through entity to extend the retention period.

iii. Records for real property and equipment acquired with Federal funds must be retained for 5 years after final disposition.

iv. When records are transferred to or maintained by the Federal awarding agency or pass-through entity, the 5-year retention requirement is not applicable to the Sub-Recipient.

v. Records for program income transactions after the period of performance. In some cases recipients must report program income after the period of performance. Where there is such a requirement, the retention period for the records pertaining to the earning of the program income starts from the end of the non-Federal entity's fiscal year in which the program income is earned.

vi. Indirect cost rate proposals and cost allocations plans. This paragraph applies to the following types of documents and their supporting records: indirect cost rate computations or proposals, cost allocation plans, and any similar accounting computations of the rate at which a particular group of costs is chargeable (such as computer usage chargeback rates or composite fringe benefit rates).

d. In accordance with 2 C.F.R. §200.334, the Federal awarding agency must request transfer of certain records to its custody from the Division or the Sub-Recipient when it determines that the records possess long-term retention value.

e. In accordance with 2 C.F.R. §200.335, the Division must always provide or accept paper versions of Agreement information to and from the Sub-Recipient upon request. If paper copies are submitted, then the Division must not require more than an original and two copies. When original records are electronic and cannot be altered, there is no need to create and retain paper copies. When original records are paper, electronic versions may be substituted through the use of duplication or other forms of electronic media provided that they are subject to periodic quality control reviews, provide reasonable safeguards against alteration, and remain readable.

f. As required by 2 C.F.R. §200.303, the Sub-Recipient shall take reasonable measures to safeguard protected personally identifiable information and other information the Federal awarding agency or the Division designates as sensitive or the Sub-Recipient considers sensitive consistent with applicable Federal, state, local, and tribal laws regarding privacy and obligations of confidentiality.

g. Florida's Government in the Sunshine Law (Section 286.011, Florida Statutes) provides the citizens of Florida with a right of access to governmental proceedings and mandates three, basic requirements: (1) meetings of public boards or commissions must be open to the public; (2) reasonable notice of such meetings must be given; and, (3) minutes of the meetings must be taken and promptly recorded. The mere receipt of public funds by a private entity, standing alone, is insufficient to bring that entity within the ambit of the open government requirements. However, the Government in the Sunshine Law applies to private entities that provide services to governmental agencies and that act on behalf of those agencies in the agencies' performance of their public duties. If a public agency delegates the performance of its public purpose to a private entity, then, to the extent that private entity is performing that public purpose, the Government in the Sunshine Law applies. For example, if a volunteer fire department provides firefighting services to a governmental entity and uses facilities and equipment purchased with public funds, then the Government in the Sunshine Law applies to board of directors for that volunteer fire department. Thus, to the extent that the Government in the Sunshine Law applies to the Sub-Recipient based upon the funds provided under this Agreement, the meetings of the Sub-Recipient's governing board or the meetings of any subcommittee making recommendations to the governing board may be subject to open government requirements. These meetings shall be publicly noticed, open to the public, and the minutes of all the meetings shall be public records, available to the public in accordance with Chapter 119, Florida Statutes.

h. Florida's Public Records Law provides a right of access to the records of the state and local governments as well as to private entities acting on their behalf. Unless specifically exempted from disclosure by the Legislature, all materials made or received by a governmental agency (or a private entity acting on behalf of such an agency) in conjunction with official business which are used to perpetuate, communicate, or formalize knowledge qualify as public records subject to public inspection. The mere receipt of public funds by a private entity, standing alone, is insufficient to bring that entity within the ambit of the public record requirements. However, when a public entity delegates a public function to a private entity, the records generated by the private entity's performance of that duty become

public records. Thus, the nature and scope of the services provided by a private entity determine whether that entity is acting on behalf of a public agency and is therefore subject to the requirements of Florida's Public Records Law.

i. The Sub-Recipient shall maintain all records for the Sub-Recipient and for all subcontractors or consultants to be paid from funds provided under this Agreement, including documentation of all program costs, in a form sufficient to determine compliance with the requirements and objectives of the Budget and Scope of Work - Attachment A - and all other applicable laws and regulations.

IF THE CONTRACTOR HAS QUESTIONS REGARDING THE APPLICATION OF CHAPTER 119, FLORIDA STATUTES, TO THE CONTRACTOR'S DUTY TO PROVIDE PUBLIC RECORDS RELATING TO THIS CONTRACT, CONTACT THE CUSTODIAN OF PUBLIC RECORDS AT: (850) 815-4156, Records@em.myflorida.com, or 2555 Shumard Oak Boulevard, Tallahassee, FL 32399.

(11) AUDITS

a. The Sub-Recipient shall comply with the audit requirements contained in 2 C.F.R. Part 200, Subpart F.

b. In accounting for the receipt and expenditure of funds under this Agreement, the Sub-Recipient shall follow Generally Accepted Accounting Principles ("GAAP"). As defined by 2 C.F.R. §200.49, GAAP "has the meaning specified in accounting standards issued by the Government Accounting Standards Board (GASB) and the Financial Accounting Standards Board (FASB)."

c. When conducting an audit of the Sub-Recipient's performance under this Agreement, the Division shall use Generally Accepted Government Auditing Standards ("GAGAS"). As defined by 2 C.F.R. §200.50, GAGAS, "also known as the Yellow Book, means generally accepted government auditing standards issued by the Comptroller General of the United States, which are applicable to financial audits."

d. If an audit shows that all or any portion of the funds disbursed were not spent in accordance with the conditions of this Agreement, the Sub-Recipient shall be held liable for reimbursement to the Division of all funds not spent in accordance with these applicable regulations and Agreement provisions within thirty (30) days after the Division has notified the Sub-Recipient of such non-compliance.

e. The Sub-Recipient shall have all audits completed by an independent auditor, which is defined in section 215.97(2)(i), Florida Statutes, as "an independent certified public accountant licensed under chapter 473." The independent auditor shall state that the audit complied with the applicable

provisions noted above. The audit must be received by the Division no later than nine months from the end of the Sub-Recipient's fiscal year.

f. The Sub-Recipient shall send copies of reporting packages for audits conducted in accordance with 2 C.F.R. Part 200, by or on behalf of the Sub-Recipient, to the Division at the following address:

DEMSingle_Audit@em.myflorida.com

OR

Office of the Inspector General

2555 Shumard Oak Boulevard

Tallahassee, Florida 32399-2100

g. The Sub-Recipient shall send the Single Audit reporting package and Form SF-SAC to the Federal Audit Clearinghouse by submission online at:

http://harvester.census.gov/fac/collect/ddeindex.html

h. The Sub-Recipient shall send any management letter issued by the auditor to the Division at the following address:

DEMSingle_Audit@em.myflorida.com

OR

Office of the Inspector General

2555 Shumard Oak Boulevard

Tallahassee, Florida 32399-2100

(12) REPORTS

a. Consistent with 2 C.F.R. §200.328, the Sub-Recipient shall provide the Division with quarterly reports and a close-out report. These reports shall include the current status and progress by the Sub-Recipient and all subcontractors in completing the work described in the Scope of Work and the expenditure of funds under this Agreement, in addition to any other information requested by the Division.

b. Quarterly reports are due to the Division no later than fifteen (15) days after the end of each quarter of the program year and shall be sent each quarter until submission of the administrative close-out report. The ending dates for each quarter of the program year are March 31, June 30, September 30 and December 31.

c. The close-out report is due sixty (60) days after termination of this Agreement or sixty (60) days after completion of the activities contained in this Agreement, whichever first occurs.

d. If all required reports and copies are not sent to the Division or are not completed in a manner acceptable to the Division, then the Division may withhold further payments until they are completed or may take other action as stated in Paragraph (16) REMEDIES. "Acceptable to the Division" means that the work product was completed in accordance with the Budget and Scope of Work.

e. The Sub-Recipient shall provide additional program updates or information that may be required by the Division.

f. The Sub-Recipient shall provide additional reports and information identified in Attachment F.

(13) MONITORING

a. The Sub-Recipient shall monitor its performance under this Agreement, as well as that of its subcontractors and/or consultants who are paid from funds provided under this Agreement, to ensure that time schedules are being met, the Schedule of Deliverables and Scope of Work are being accomplished within the specified time periods, and other performance goals are being achieved. A review shall be done for each function or activity in Attachment A to this Agreement, and reported in the quarterly report.

b. In addition to reviews of audits, monitoring procedures may include, but not be limited to, on-site visits by Division staff, limited scope audits, and/or other procedures. The Sub-Recipient agrees to comply and cooperate with any monitoring procedures/processes deemed appropriate by the Division. In the event that the Division determines that a limited scope audit of the Sub-Recipient is appropriate, the Sub-Recipient agrees to comply with any additional instructions provided by the Division to the Sub-Recipient regarding such audit. The Sub-Recipient further agrees to comply and cooperate with any inspections, reviews, investigations or audits deemed necessary by the Florida Chief Financial Officer or Auditor General. In addition, the Division will monitor the performance and financial management by the Sub-Recipient throughout the contract term to ensure timely completion of all tasks.

(14) LIABILITY

a. Unless Sub-Recipient is a State agency or subdivision, as defined in section 768.28(2), Florida Statutes, the Sub-Recipient is solely responsible to parties it deals with in carrying out the terms of this Agreement and, as authorized by section 768.28(19), Florida Statutes, Sub-Recipient shall hold the Division harmless against all claims of whatever nature by third parties arising from the work performance under this Agreement. For purposes of this Agreement, Sub-Recipient agrees that it is not an employee or agent of the Division, but is an independent contractor.

b. As required by section 768.28(19), Florida Statutes, any Sub-Recipient which is a state agency or subdivision, as defined in section 768.28(2), Florida Statutes, agrees to be fully responsible for its negligent or tortious acts or omissions which result in claims or suits against the Division, and agrees to be liable for any damages proximately caused by the acts or omissions to the extent set forth in Section 768.28, Florida Statutes. Nothing herein is intended to serve as a waiver of sovereign immunity by any Sub-Recipient to which sovereign immunity applies. Nothing herein shall be construed as consent by a state agency or subdivision of the State of Florida to be sued by third parties in any matter arising out of any contract.

(15) DEFAULT

If any of the following events occur ("Events of Default"), all obligations on the part of the Division to make further payment of funds shall terminate and the Division has the option to exercise any of its remedies set forth in Paragraph (16); however, the Division may make payments or partial payments after any Events of Default without waiving the right to exercise such remedies, and without becoming liable to make any further payment if:

a. Any warranty or representation made by the Sub-Recipient in this Agreement or any previous agreement with the Division is or becomes false or misleading in any respect, or if the Sub-Recipient fails to keep or perform any of the obligations, terms or covenants in this Agreement or any previous agreement with the Division and has not cured them in timely fashion, or is unable or unwilling to meet its obligations under this Agreement;

b. Material adverse changes occur in the financial condition of the Sub-Recipient at any time during the term of this Agreement, and the Sub-Recipient fails to cure this adverse change within thirty (30) days from the date written notice is sent by the Division;

c. Any reports required by this Agreement have not been submitted to the Division or have been submitted with incorrect, incomplete or insufficient information; or,

d. The Sub-Recipient has failed to perform and complete on time any of its obligations under this Agreement.

(16) REMEDIES

If an Event of Default occurs, then the Division shall, after thirty (30) calendar days written notice to the Sub-Recipient and upon the Sub-Recipient's failure to cure within those thirty (30) days, exercise any one or more of the following remedies, either concurrently or consecutively:

a. Terminate this Agreement, provided that the Sub-Recipient is given at least thirty (30) days prior written notice of the termination. The notice shall be effective when placed in the United States, first class mail, postage prepaid, by registered or certified mail-return receipt requested, to the address in paragraph (3) herein;

b. Begin an appropriate legal or equitable action to enforce performance of this Agreement;

c. Withhold or suspend payment of all or any part of a request for payment;

d. Require that the Sub-Recipient refund to the Division any monies used for ineligible purposes under the laws, rules and regulations governing the use of these funds.

e. Exercise any corrective or remedial actions, to include but not be limited to:

i. Request additional information from the Sub-Recipient to determine the reasons for or the extent of non-compliance or lack of performance,

ii. Issue a written warning to advise that more serious measures may be taken if the situation is not corrected,

iii. Advise the Sub-Recipient to suspend, discontinue or refrain from incurring costs for any activities in question or

iv. Require the Sub-Recipient to reimburse the Division for the amount of costs incurred for any items determined to be ineligible;

f. Exercise any other rights or remedies which may be available under law.

Pursuing any of the above remedies will not stop the Division from pursuing any other remedies in this Agreement or provided at law or in equity. If the Division waives any right or remedy in this Agreement or fails to insist on strict performance by the Sub-Recipient, it will not affect, extend or waive any other right or remedy of the Division, or affect the later exercise of the same right or remedy by the Division for any other default by the Sub-Recipient.

(17) TERMINATION

a. The Division may terminate this Agreement for cause after thirty (30) days written notice. Cause can include misuse of funds, fraud, lack of compliance with applicable rules, laws and regulations, failure to perform on time, and refusal by the Sub-Recipient to permit public access to any document, paper, letter, or other material subject to disclosure under Chapter 119, Florida Statutes, as amended.

b. The Division may terminate this Agreement for convenience or when it determines, in its sole discretion that continuing the Agreement would not produce beneficial results in line with the further expenditure of funds, by providing the Sub-Recipient with thirty (30) calendar day's prior written notice.

c. The parties may agree to terminate this Agreement for their mutual convenience through a written amendment of this Agreement. The amendment will state the effective date of the termination and the procedures for proper closeout of the Agreement.

d. In the event that this Agreement is terminated, the Sub-Recipient will not incur new obligations for the terminated portion of the Agreement after the Sub-Recipient has received the notification of termination. The Sub-Recipient will cancel as many outstanding obligations as possible. Costs incurred after receipt of the termination notice will be disallowed. The Sub-Recipient shall not be relieved of liability to the Division because of any breach of Agreement by the Sub-Recipient. The Division may, to the extent authorized by law, withhold payments to the Sub-Recipient for the purpose of set-off until the exact amount of damages due the Division from the Sub-Recipient is determined.

(18) PROCUREMENT

a. The Sub-Recipient shall ensure that any procurement involving funds authorized by the Agreement complies with all applicable federal and state laws and regulations, to include 2 C.F.R. §§200.318 through 200.326 as well as Appendix II to 2 C.F.R. Part 200 (entitled "Contract Provisions for Non-Federal Entity Contracts Under Federal Awards").

b. As required by 2 C.F.R. §200.318(i), the Sub-Recipient shall "maintain records sufficient to detail the history of procurement. These records will include, but are not necessarily limited

to the following: rationale for the method of procurement, selection of contract type, contractor selection or rejection, and the basis for the contract price."

c. As required by 2 C.F.R. §200.318(b), the Sub-Recipient shall "maintain oversight to ensure that contractors perform in accordance with the terms, conditions, and specifications of their contracts or purchase orders." In order to demonstrate compliance with this requirement, the Sub-Recipient shall document, in its quarterly report to the Division, the progress of any and all subcontractors performing work under this Agreement.

d. The Sub-Recipient agrees to include in the subcontract that (i) the subcontractor is bound by the terms of this Agreement, (ii) the subcontractor is bound by all applicable state and federal laws and regulations, and (iii) the subcontractor shall hold the Division and Sub-Recipient harmless against all claims of whatever nature arising out of the subcontractor's performance of work under this Agreement, to the extent allowed and required by law.

e. As required by 2 C.F.R. §200.318(c)(1), the Sub-Recipient shall "maintain written standards of conduct covering conflicts of interest and governing the actions of its employees engaged in the selection, award and administration of contracts."

f. As required by 2 C.F.R. §200.319(a), the Sub-Recipient shall conduct any procurement under this agreement "in a manner providing full and open competition." Accordingly, the Sub-Recipient shall not:

i. Place unreasonable requirements on firms in order for them to qualify to do business;

ii. Require unnecessary experience or excessive bonding;

iii. Use noncompetitive pricing practices between firms or between affiliated companies;

iv. Execute noncompetitive contracts to consultants that are on retainer contracts;

v. Authorize, condone, or ignore organizational conflicts of interest;

vi. Specify only a brand name product without allowing vendors to offer an equivalent;

vii. Specify a brand name product instead of describing the performance, specifications, or other relevant requirements that pertain to the commodity or service solicited by the procurement;

viii. Engage in any arbitrary action during the procurement process; or,

ix. Allow a vendor to bid on a contract if that bidder was involved with developing or drafting the specifications, requirements, statement of work, invitation to bid, or request for proposals.

g. "[E]xcept in those cases where applicable Federal statutes expressly mandate or encourage" otherwise, the Sub-Recipient, as required by 2 C.F.R. §200.319(b), shall not use a geographic preference when procuring commodities or services under this Agreement.

h. The Sub-Recipient shall conduct any procurement involving invitations to bid (i.e. sealed bids) in accordance with 2 C.F.R. §200.320(c) as well as section 287.057(1)(a), Florida Statutes.

i. The Sub-Recipient shall conduct any procurement involving requests for proposals (i.e. competitive proposals) in accordance with 2 C.F.R. §200.320(d) as well as section 287.057(1)(b), Florida Statutes.

j. For each subcontract, the Sub-Recipient shall provide a written statement to the Division as to whether that subcontractor is a minority business enterprise, as defined in Section 288.703, Florida Statutes. Additionally, the Sub-Recipient shall comply with the requirements of 2 C.F.R. §200.321 ("Contracting with small and minority businesses, women's business enterprises, and labor surplus area firms").

(19) ATTACHMENTS

a. All attachments to this Agreement are incorporated as if set out fully.

b. In the event of any inconsistencies or conflict between the language of this Agreement and the attachments, the language of the attachments shall control, but only to the extent of the conflict or inconsistency.

c. This Agreement has the following attachments:

i. Exhibit 1 - Funding Sources
ii. Attachment A – Budget and Scope of Work
iii. Attachment B – Program Statutes and Regulations
iv. Attachment C – Statement of Assurances
v. Attachment D – Request for Advance or Reimbursement
vi. Attachment E – Justification of Advance Payment
vii. Attachment F – Quarterly Report Form
viii. Attachment G – Warranties and Representations
ix. Attachment H – Certification Regarding Debarment
x. Attachment I – Federal Funding Accountability and Transparency Act
xi. Attachment J – Mandatory Contract Provisions

(20) PAYMENTS

a. Any advance payment under this Agreement is subject to 2 C.F.R. §200.305 and, as applicable, section 216.181(16), Florida Statutes. All advances are required to be held in an interest-bearing account. If an advance payment is requested, the budget data on which the request is based and a justification statement shall be included in this Agreement as Attachment E. Attachment E will specify the amount of advance payment needed and provide an explanation of the necessity for and proposed use of these funds. No advance shall be accepted for processing if a reimbursement has been paid prior

to the submittal of a request for advanced payment. After the initial advance, if any, payment shall be made on a reimbursement basis as needed.

b. Invoices shall be submitted at least quarterly and shall include the supporting documentation for all costs of the project or services. The final invoice shall be submitted within sixty (60) days after the expiration date of the agreement. An explanation of any circumstances prohibiting the submittal of quarterly invoices shall be submitted to the Division grant manager as part of the Sub-Recipient's quarterly reporting as referenced in Paragraph (12) of this Agreement.

c. If the necessary funds are not available to fund this Agreement as a result of action by the United States Congress, the federal Office of Management and Budgeting, the State Chief Financial Officer or under subparagraph (9)b. of this Agreement, all obligations on the part of the Division to make any further payment of funds shall terminate, and the Sub-Recipient shall submit its closeout report within thirty (30) days of receiving notice from the Division.

(21) REPAYMENTS

a. All refunds or repayments due to the Division under this Agreement are to be made payable to the order of "Division of Emergency Management", and mailed directly to the following address:

Division of Emergency Management
Cashier
2555 Shumard Oak Boulevard
Tallahassee FL 32399-2100

b. In accordance with Section 215.34(2), Florida Statutes, if a check or other draft is returned to the Division for collection, Sub-Recipient shall pay the Division a service fee of $15.00 or 5% of the face amount of the returned check or draft, whichever is greater.

(22) MANDATED CONDITIONS

a. The validity of this Agreement is subject to the truth and accuracy of all the information, representations, and materials submitted or provided by the Sub-Recipient in this Agreement, in any later submission or response to a Division request, or in any submission or response to fulfill the requirements of this Agreement. All of said information, representations, and materials are incorporated by reference. The inaccuracy of the submissions or any material changes shall, at the option of the Division and with thirty (30) days written notice to the Sub-Recipient, cause the termination of this Agreement and the release of the Division from all its obligations to the Sub-Recipient.

b. This Agreement shall be construed under the laws of the State of Florida, and venue for any actions arising out of this Agreement shall be in the Circuit Court of Leon County. If any provision of this Agreement is in conflict with any applicable statute or rule, or is unenforceable, then the provision shall be null and void to the extent of the conflict, and shall be severable, but shall not invalidate any other provision of this Agreement.

c. Any power of approval or disapproval granted to the Division under the terms of this Agreement shall survive the term of this Agreement.

d. The Sub-Recipient agrees to comply with the Americans With Disabilities Act (Public Law 101-336, 42 U.S.C. Section 12101 et seq.), which prohibits discrimination by public and private entities on the basis of disability in employment, public accommodations, transportation, State and local government services, and telecommunications.

e. Those who have been placed on the convicted vendor list following a conviction for a public entity crime or on the discriminatory vendor list may not submit a bid on a contract to provide any goods or services to a public entity, may not submit a bid on a contract with a public entity for the construction or repair of a public building or public work, may not submit bids on leases of real property to a public entity, may not be awarded or perform work as a contractor, supplier, subcontractor, or consultant under a contract with a public entity, and may not transact business with any public entity in excess of $25,000.00 for a period of 36 months from the date of being placed on the convicted vendor list or on the discriminatory vendor list.

f. Any Sub-Recipient which is not a local government or state agency, and which receives funds under this Agreement from the federal government, certifies, to the best of its knowledge and belief, that it and its principals:

i. Are not presently debarred, suspended, proposed for debarment, declared ineligible, or voluntarily excluded from covered transactions by a federal department or agency;

ii. Have not, within a five-year period preceding this proposal been convicted of or had a civil judgment rendered against them for fraud or a criminal offense in connection with obtaining, attempting to obtain, or performing a public (federal, state or local) transaction or contract under public transaction; violation of federal or state antitrust statutes or commission of embezzlement, theft, forgery, bribery, falsification or destruction of records, making false statements, or receiving stolen property;

iii. Are not presently indicted or otherwise criminally or civilly charged by a governmental entity (federal, state or local) with commission of any offenses enumerated in paragraph (22) f. ii. of this certification; and,

iv. Have not within a five-year period preceding this Agreement had one or more public transactions (federal, state or local) terminated for cause or default.

g. If the Sub-Recipient is unable to certify to any of the statements in this certification, then the Sub-Recipient shall attach an explanation to this Agreement.

h. **In addition, the Sub-Recipient shall send to the Division (by email or by facsimile transmission) the completed "Certification Regarding Debarment, Suspension, Ineligibility And Voluntary Exclusion" (Attachment H) for each intended subcontractor which Sub-Recipient plans to fund under this Agreement. The form must be received by the Division before the Sub-Recipient enters into a contract with any subcontractor.**

i. The Division reserves the right to unilaterally cancel this Agreement if the Sub-Recipient refuses to allow public access to all documents, papers, letters or other material subject to the provisions of Chapter 119, Florida Statutes, which the Sub-Recipient created or received under this Agreement.

j. If the Sub-Recipient is allowed to temporarily invest any advances of funds under this Agreement, any interest income shall either be returned to the Division or be applied against the Division's obligation to pay the contract amount.

k. The State of Florida will not intentionally award publicly-funded contracts to any contractor who knowingly employs unauthorized alien workers, constituting a violation of the employment provisions contained in 8 U.S.C. Section 1324a(e) [Section 274A(e) of the Immigration and Nationality Act ("INA")]. The Division shall consider the employment by any contractor of unauthorized aliens a violation of Section 274A(e) of the INA. Such violation by the Sub-Recipient of the employment provisions contained in Section 274A(e) of the INA shall be grounds for unilateral cancellation of this Agreement by the Division.

l. Section 287.05805, Florida Statutes, requires that any state funds provided for the purchase of or improvements to real property are contingent upon the contractor or political subdivision granting to the state a security interest in the property at least to the amount of state funds provided for at least 5 years from the date of purchase or the completion of the improvements or as further required by law.

m. The Division may, at its option, terminate the Contract if the Contractor is found to have submitted a false certification as provided under section 287.135(5), F.S., or been placed on the Scrutinized Companies with Activities in Sudan List or the Scrutinized Companies with Activities in the Iran Petroleum Energy Sector List, or been engaged in business operations in Cuba or Syria, or to have been placed on the Scrutinized Companies that Boycott Israel List or is engaged in a boycott of Israel.

(23) LOBBYING PROHIBITION

a. 2 C.F.R. §200.450 prohibits reimbursement for costs associated with certain lobbying activities.

b. Section 216.347, Florida Statutes, prohibits "any disbursement of grants and aids appropriations pursuant to a contract or grant to any person or organization unless the terms of the grant or contract prohibit the expenditure of funds for the purpose of lobbying the Legislature, the judicial branch, or a state agency."

c. No funds or other resources received from the Division under this Agreement may be used directly or indirectly to influence legislation or any other official action by the Florida Legislature or any state agency.

d. The Sub-Recipient certifies, by its signature to this Agreement, that to the best of his or her knowledge and belief:

i. No Federal appropriated funds have been paid or will be paid, by or on behalf of the Sub-Recipient, to any person for influencing or attempting to influence an officer or employee of any agency, a Member of Congress, an officer or employee of Congress, or an employee of a Member of Congress in connection with the awarding of any Federal contract, the making of any Federal grant, the making of any Federal loan, the entering into of any cooperative agreement, and the extension, continuation, renewal, amendment or modification of any Federal contract, grant, loan or cooperative agreement.

ii. If any funds other than Federal appropriated funds have been paid or will be paid to any person for influencing or attempting to influence an officer or employee of any agency, a Member of Congress, an officer or employee of Congress, or an employee of a Member of Congress in connection with this Federal contract, grant, loan or cooperative agreement, the Sub-Recipient shall complete and submit Standard Form-LLL, "Disclosure of Lobbying Activities."

iii. The Sub-Recipient shall require that this certification be included in the award documents for all subawards (including subcontracts, subgrants, and contracts under grants, loans, and cooperative agreements) and that all Sub-Recipients shall certify and disclose.

iv. This certification is a material representation of fact upon which reliance was placed when this transaction was made or entered into. Submission of this certification is a prerequisite for making or entering into this transaction imposed by Section 1352, Title 31, U.S. Code. Any person who fails to file the required certification shall be subject to a civil penalty of not less than $10,000 and not more than $100,000 for each such failure.

(24) COPYRIGHT, PATENT AND TRADEMARK

EXCEPT AS PROVIDED BELOW, ANY AND ALL PATENT RIGHTS ACCRUING UNDER OR IN CONNECTION WITH THE PERFORMANCE OF THIS AGREEMENT ARE HEREBY RESERVED TO THE STATE OF FLORIDA; AND, ANY AND ALL COPYRIGHTS ACCRUING UNDER OR IN CONNECTION WITH THE PERFORMANCE OF THIS AGREEMENT ARE HEREBY TRANSFERRED BY THE SUB-RECIPIENT TO THE STATE OF FLORIDA.

a. If the Sub-Recipient has a pre-existing patent or copyright, the Sub-Recipient shall retain all rights and entitlements to that pre-existing patent or copyright unless the Agreement provides otherwise.

b. If any discovery or invention is developed in the course of or as a result of work or services performed under this Agreement, or in any way connected with it, the Sub-Recipient shall refer the discovery or invention to the Division for a determination whether the State of Florida will seek patent protection in its name. Any patent rights accruing under or in connection with the performance of this Agreement are reserved to the State of Florida. If any books, manuals, films, or other copyrightable material are produced, the Sub-Recipient shall notify the Division. Any copyrights accruing under or in connection with the performance under this Agreement are transferred by the Sub-Recipient to the State of Florida.

c. Within thirty (30) days of execution of this Agreement, the Sub-Recipient shall disclose all intellectual properties relating to the performance of this Agreement which he or she knows or should know could give rise to a patent or copyright. The Sub-Recipient shall retain all rights and entitlements to any pre-existing intellectual property which is disclosed. Failure to disclose will indicate that no such property exists. The Division shall then, under Paragraph (24) b., have the right to all patents and copyrights which accrue during performance of the Agreement.

d. If the Sub-Recipient qualifies as a state university under Florida law, then, pursuant to section 1004.23, Florida Statutes, any invention conceived exclusively by the employees of the Sub-Recipient shall become the sole property of the Sub-Recipient. In the case of joint inventions, that is inventions made jointly by one or more employees of both parties hereto, each party shall have an equal, undivided interest in and to such joint inventions. The Division shall retain a perpetual, irrevocable, fully-paid, nonexclusive license, for its use and the use of its contractors of any resulting patented, copyrighted or trademarked work products, developed solely by the Sub-Recipient, under this Agreement, for Florida government purposes.

(25) LEGAL AUTHORIZATION

The Sub-Recipient certifies that it has the legal authority to receive the funds under this Agreement and that its governing body has authorized the execution and acceptance of this Agreement. The Sub-Recipient also certifies that the undersigned person has the authority to legally execute and bind Sub-Recipient to the terms of this Agreement.

(26) EQUAL OPPORTUNITY EMPLOYMENT

a. In accordance with 41 C.F.R. §60-1.4(b), the Sub-Recipient hereby agrees that it will incorporate or cause to be incorporated into any contract for construction work, or modification thereof, as defined in the regulations of the Secretary of Labor at 41 CFR Chapter 60, which is paid for in whole or in part with funds obtained from the Federal Government or borrowed on the credit of the Federal Government pursuant to a grant, contract, loan insurance, or guarantee, or undertaken pursuant to any Federal program involving such grant, contract, loan, insurance, or guarantee, the following equal opportunity clause:

> During the performance of this contract, the contractor agrees as follows:
>
> i. The contractor will not discriminate against any employee or applicant for employment because of race, color, religion, sex, sexual orientation, gender identity, or national origin. The contractor will take affirmative action to ensure that applicants are employed, and that employees are treated during employment without regard to their race, color, religion, sex, sexual orientation, gender identity, or national origin. Such action shall include, but not be limited to the following:
>
> Employment, upgrading, demotion, or transfer; recruitment or recruitment advertising; layoff or termination; rates of pay or other forms of compensation; and selection for training, including apprenticeship. The

contractor agrees to post in conspicuous places, available to employees and applicants for employment, notices to be provided setting forth the provisions of this nondiscrimination clause.

ii. The contractor will, in all solicitations or advertisements for employees placed by or on behalf of the contractor, state that all qualified applicants will receive considerations for employment without regard to race, color, religion, sex, sexual orientation, gender identity, or national origin.

iii. The contractor will not discharge or in any other manner discriminate against any employee or applicant for employment because such employee or applicant has inquired about, discussed, or disclosed the compensation of the employee or applicant or another employee or applicant. This provision shall not apply to instances in which an employee who has access to the compensation information of other employees or applicants as a part of such employee's essential job functions discloses the compensation of such other employees or applicants to individuals who do not otherwise have access to such information, unless such disclosure is in response to a formal complaint or charge, in furtherance of an investigation, proceeding, hearing, or action, including an investigation conducted by the employer, or is consistent with the contractor's legal duty to furnish information.

iv. The contractor will send to each labor union or representative of workers with which he has a collective bargaining agreement or other contract or understanding, a notice to be provided advising the said labor union or workers' representatives of the contractor's commitments under this section, and shall post copies of the notice in conspicuous places available to employees and applicants for employment.

v. The contractor will comply with all provisions of Executive Order 11246 of September 24, 1965, and of the rules, regulations, and relevant orders of the Secretary of Labor.

vi. The contractor will furnish all information and reports required by Executive Order 11246 of September 24, 1965, and by rules, regulations, and orders of the Secretary of Labor, or pursuant thereto, and will permit access to his books, records, and accounts by the administering agency and the Secretary of Labor for purposes of investigation to ascertain compliance with such rules, regulations, and orders.

vii. In the event of the contractor's noncompliance with the nondiscrimination clauses of this contract or with any of the said rules, regulations, or orders, this contract may be canceled, terminated, or suspended in whole or in part and the contractor may be declared ineligible for further Government contracts or federally assisted construction contracts in accordance with procedures authorized in Executive Order 11246 of September 24, 1965, and such other sanctions may be imposed and remedies invoked as provided in Executive Order 11246 of September 24, 1965, or by rule, regulation, or order of the Secretary of Labor, or as otherwise provided by law.

viii. The contractor will include the portion of the sentence immediately preceding paragraph (1) and the provisions of paragraphs (1) through (8) in every subcontract or purchase order unless exempted by rules, regulations, or orders of the Secretary of Labor issued pursuant to section 204 of Executive Order 11246 of September 24, 1965, so that such provisions will be binding upon each subcontractor or vendor. The contractor will take such action with respect to any subcontract or purchase order as the administering agency may direct as a means of enforcing such provisions, including sanctions for noncompliance:

Provided, however, that in the event a contractor becomes involved in, or is threatened with, litigation with a subcontractor or vendor as a result of such direction by the administering agency the contractor may request the United States to enter into such litigation to protect the interests of the United States.

b. The Sub-Recipient further agrees that it will be bound by the above equal opportunity clause with respect to its own employment practices when it participates in federally assisted construction work: *Provided*, that if the applicant so participating is a State or local government, the above equal opportunity clause is not applicable to any agency, instrumentality or subdivision of such government which does not participate in work on or under the contract.

c. The Sub-Recipient agrees that it will assist and cooperate actively with the administering agency and the Secretary of Labor in obtaining the compliance of contractors and subcontractors with the equal opportunity clause and the rules, regulations, and relevant orders of the Secretary of Labor, that it will furnish the administering agency and the Secretary of Labor such information as they may require for the supervision of such compliance, and that it will otherwise assist the administering agency in the discharge of the agency's primary responsibility for securing compliance.

d. The Sub-Recipient further agrees that it will refrain from entering into any contract or contract modification subject to Executive Order 11246 of September 24, 1965, with a contractor debarred from, or who has not demonstrated eligibility for, Government contracts and federally assisted construction contracts pursuant to the Executive order and will carry out such sanctions and penalties for violation of the equal opportunity clause as may be imposed upon contractors and subcontractors by the administering agency or the Secretary of Labor pursuant to Part II, Subpart D of the Executive order. In addition, the Sub-Recipient agrees that if it fails or refuses to comply with these undertakings, the administering agency may take any or all of the following actions: cancel, terminate, or suspend in whole or in part this grant (contract, loan, insurance, guarantee); refrain from extending any further assistance to the Sub-Recipient under the program with respect to which the failure or refund occurred until satisfactory assurance of future compliance has been received from such Sub-Recipient; and refer the case to the Department of Justice for appropriate legal proceedings.

(27) COPELAND ANTI-KICKBACK ACT

The Sub-Recipient hereby agrees that, unless exempt under Federal law, it will incorporate or cause to be incorporated into any contract for construction work, or modification thereof, the following clause:

> i. Contractor. The contractor shall comply with 18 U.S.C. § 874, 40 U.S.C. § 3145, and the requirements of 29 C.F.R. pt. 3 as may be applicable, which are incorporated by reference into this contract.
>
> ii. Subcontracts. The contractor or subcontractor shall insert in any subcontracts the clause above and such other clauses as the FEMA may by appropriate instructions require, and also a clause requiring the subcontractors to include these clauses in any lower tier subcontracts. The prime contractor shall be responsible for the compliance by any subcontractor or lower tier subcontractor with all of these contract clauses.
>
> iii. Breach. A breach of the contract clauses above may be grounds for termination of the contract, and for debarment as a contractor and subcontractor as provided in 29 C.F.R. § 5.12.

(28) CONTRACT WORK HOURS AND SAFETY STANDARDS

If the Sub-Recipient, with the funds authorized by this Agreement, enters into a contract that exceeds $100,000 and involves the employment of mechanics or laborers, then any such contract must include a provision for compliance with 40 U.S.C. 3702 and 3704, as supplemented by Department of Labor regulations (29 CFR Part 5). Under 40 U.S.C. 3702 of the Act, each contractor must be required to compute the wages of every mechanic and laborer on the basis of a standard work week of 40 hours. Work in excess of the standard work week is permissible provided that the worker is compensated at a rate of not less than one and a half times the basic rate of pay for all hours worked in excess of 40 hours in the work week. The requirements of 40 U.S.C. 3704 are applicable to construction work and provide that no laborer or mechanic must be required to work in surroundings or under working conditions which are unsanitary, hazardous or dangerous. These requirements do not apply to the purchases of supplies or materials or articles ordinarily available on the open market, or contracts for transportation.

(29) CLEAN AIR ACT AND THE FEDERAL WATER POLLUTION CONTROL ACT

If the Sub-Recipient, with the funds authorized by this Agreement, enters into a contract that exceeds $150,000, then any such contract must include the following provision:

> Contractor agrees to comply with all applicable standards, orders or regulations issued pursuant to the Clean Air Act (42 U.S.C. 7401-7671q) and the Federal Water Pollution Control Act as amended (33 U.S.C. 1251-1387), and will report violations to FEMA and the Regional Office of the Environmental Protection Agency (EPA).

(30) SUSPENSION AND DEBARMENT

If the Sub-Recipient, with the funds authorized by this Agreement, enters into a contract, then any such contract must include the following provisions:

i. This contract is a covered transaction for purposes of 2 C.F.R. pt. 180 and 2 C.F.R. pt. 3000. As such the contractor is required to verify that none of the contractor, its principals (defined at 2 C.F.R. § 180.995), or its affiliates (defined at 2 C.F.R. § 180.905) are excluded (defined at 2 C.F.R. § 180.940) or disqualified (defined at 2 C.F.R. § 180.935).

ii. The contractor must comply with 2 C.F.R. pt. 180, subpart C and 2 C.F.R. pt. 3000, subpart C and must include a requirement to comply with these regulations in any lower tier covered transaction it enters into.

iii. This certification is a material representation of fact relied upon by the Division. If it is later determined that the contractor did not comply with 2 C.F.R. pt. 180, subpart C and 2 C.F.R. pt. 3000, subpart C, in addition to remedies available to the Division, the Federal Government may pursue available remedies, including but not limited to suspension and/or debarment.

iv. The bidder or proposer agrees to comply with the requirements of 2 C.F.R. pt. 180, subpart C and 2 C.F.R. pt. 3000, subpart C while this offer is valid and throughout the period of any contract that may arise from this offer. The bidder or proposer further agrees to include a provision requiring such compliance in its lower tier covered transactions.

(31) BYRD ANTI-LOBBYING AMENDMENT

If the Sub-Recipient, with the funds authorized by this Agreement, enters into a contract, then any such contract must include the following clause:

Byrd Anti-Lobbying Amendment, 31 U.S.C. § 1352 (as amended). Contractors who apply or bid for an award of $100,000 or more shall file the required certification. Each tier certifies to the tier above that it will not and has not used Federal appropriated funds to pay any person or organization for influencing or attempting to influence an officer or employee of any agency, a member of Congress, officer or employee of Congress, or an employee of a member of Congress in connection with obtaining any Federal contract, grant, or any other award covered by 31 U.S.C. § 1352. Each tier shall also disclose any lobbying with non-Federal funds that takes place in connection with obtaining any Federal award. Such disclosures are forwarded from tier to tier up to the recipient.

(32) CONTRACTING WITH SMALL AND MINORITY BUSINESSES, WOMEN'S BUSINESS ENTERPRISES, AND LABOR SURPLUS AREA FIRMS

a. If the Sub-Recipient, with the funds authorized by this Agreement, seeks to procure goods or services, then, in accordance with 2 C.F.R. §200.321, the Sub-Recipient shall take the following affirmative steps to assure that minority businesses, women's business enterprises, and labor surplus area firms are used whenever possible:

i. Placing qualified small and minority businesses and women's business enterprises on solicitation lists;

ii. Assuring that small and minority businesses, and women's business enterprises are solicited whenever they are potential sources;

iii. Dividing total requirements, when economically feasible, into smaller tasks or quantities to permit maximum participation by small and minority businesses, and women's business enterprises;

iv. Establishing delivery schedules, where the requirement permits, which encourage participation by small and minority businesses, and women's business enterprises;

v. Using the services and assistance, as appropriate, of such organizations as the Small Business Administration and the Minority Business Development Agency of the Department of Commerce; and

vi. Requiring the prime contractor, if subcontracts are to be let, to take the affirmative steps listed in paragraphs i. through v. of this subparagraph.

b. The requirement outlined in subparagraph a. above, sometimes referred to as "socioeconomic contracting," does not impose an obligation to set aside either the solicitation or award of a contract to these types of firms. Rather, the requirement only imposes an obligation to carry out and document the six affirmative steps identified above.

c. The "socioeconomic contracting" requirement outlines the affirmative steps that the Sub-Recipient must take; the requirements do not preclude the Sub-Recipient from undertaking additional steps to involve small and minority businesses and women's business enterprises.

d. The requirement to divide total requirements, when economically feasible, into smaller tasks or quantities to permit maximum participation by small and minority businesses, and women's business enterprises, does not authorize the Sub-Recipient to break a single project down into smaller components in order to circumvent the micro-purchase or small purchase thresholds so as to utilize streamlined acquisition procedures (e.g. "project splitting").

(33) ASSURANCES

The Sub-Recipient shall comply with any Statement of Assurances incorporated as Attachment C.

IN WITNESS WHEREOF, the parties hereto have executed this Agreement.

SUB-RECIPIENT: Polk County, a political subdivision of the State of Florida

By: _____

Name and title: W.C Braswell Chairman

Date: 10.6.2020 Item #62

FID# _____

Name and Title: Jared Moskowitz, Director

Date: 01/06/2021

EXHIBIT – 1

THE FOLLOWING FEDERAL RESOURCES ARE AWARDED TO THE SUB-RECIPIENT UNDER THIS AGREEMENT:

Federal Program
Federal agency: Federal Emergency Management Agency: Hazard Mitigation Grant
Catalog of Federal Domestic Assistance title and number: 97.039
Award amount: **$ 79,344.75**

THE FOLLOWING COMPLIANCE REQUIREMENTS APPLY TO THE FEDERAL RESOURCES AWARDED UNDER THIS AGREEMENT:

- 2 CFR Part 200 Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards
- The Robert T. Stafford Disaster Relief and Emergency Assistance Act, Public Law 93-288, as amended, 42 U.S.C. 5121 et seq., and Related Authorities
- Sections 1361(A) of the National Flood Insurance Act of 1968, 42 U.S.C. 4104c, as amended by the National Flood Insurance Reform Act of 1994, Public Law 103-325 and the Bunning-Bereuter-Blumenauer Flood Insurance Reform Act of 2004, Public Law 108-264
- 31 CFR Part 205 Rules and Procedures for Funds Transfers

Federal Program:

1. Sub-Recipient is to use funding to perform the following eligible activities:
   - Localized Minor Drainage Improvement
2. Sub-Recipient is subject to all administrative and financial requirements as set forth in this Agreement, or will be in violation of the terms of the Agreement.

Attachment A

Budget and Scope of Work

STATEMENT OF PURPOSE:

The purpose of this Scope of Work (SOW) is to improve drainage on Eloise Loop Road in Winter Haven, Polk County, Florida, funded through the Hazard Mitigation Grant Program (HMGP) **DR-4337-0249-R**, as approved by the Florida Division of Emergency Management (Division) and the Federal Emergency Management Agency (FEMA).

The Sub-Recipient, Polk County BOCC, shall conduct Phase I of this project, which includes the preliminary engineering designs and calculations, surveys, permitting, and notices. No construction activities are approved at this time. The Sub-Recipient shall complete the Phase I work in accordance with all applicable federal, state and local laws, regulations and codes.

PROJECT OVERVIEW:

As a Hazard Mitigation Grant Program project, the Sub-Recipient proposes to improve the drainage of the Eloise Loop Road in Winter Haven, Florida, 33884. Coordinates (27.976065, -81.724012).

The scope is for Phase I only, which includes but is not limited to surveying, engineering, design, plans preparation, permitting and bidding for the proposed project, for Phase II approval. No construction activities for this project have been approved.

When completed, the Sub-Recipient shall provide deliverables for Phase II review of the following proposed activities.

The Phase II proposed Scope of Work (SOW) shall include the construction of a new storm drain system and outfall ditch to relieve potential flooding. The proposed storm drain would extend from the low point along Eloise Loop Road approximately 500 feet northwest, then cross under Eloise Loop Road and discharge to a proposed swale that would drain southwest to Rifle Range Road. This project proposes to reduce the frequency of flood impacts to Eloise Loop Road and agricultural properties in the area.

The project shall be designed to provide protection against a 50-year storm event. Activities shall be completed in strict compliance with Federal, State and Local applicable Rules and Regulations.

TASKS & DELIVERABLES:

A) Tasks:

1) The Sub-Recipient shall procure the services of a qualified and licensed Florida contractor and execute a contract with the selected bidder to complete the Phase I scope of work as approved by the Division and FEMA. The Sub-Recipient shall select the qualified, licensed Florida contractor in accordance with the Sub-Recipient's procurement policy as well as all federal and state laws and regulations.

   All procurement activities shall contain sufficient source documentation and be in accordance with all applicable regulations.

   The Sub-Recipient and contractor shall be responsible for maintaining a safe and secure worksite for the duration of the work. The contractor shall maintain all areas in a neat and presentable condition.

   The Sub-Recipient shall ensure that no contractors or subcontractors are debarred or suspended from participating in federally funded projects.

The selected contractor shall have a current and valid occupational license/business tax receipt issued for the type of services being performed. The Sub-Recipient shall provide documentation demonstrating the results of the procurement process. This shall include a rationale for the method of procurement and selection of contract type, contractor selection and/or rejection and bid tabulation and listing, and the basis of contract price.

The Sub-Recipient shall provide an executed "Debarment, Suspension, Ineligibility, Voluntary Exclusion Form" for each contractor and/or subcontractor performing services under this agreement.

Executed contracts with contractors and/or subcontractors shall be provided to the Division by the Sub-Recipient.

The Sub-Recipient shall provide copies of professional licenses for contractors selected to perform services. The Sub-Recipient shall provide a copy of a current and valid occupational license or business tax receipt issued for the type of services to be performed by the selected contractor.

2) The Sub-Recipient shall monitor and manage the Phase I portion of this project in accordance with the Hazard Mitigation Grant Program application and supporting documentation as submitted to the Division and subsequently approved by the Division and FEMA. The Division and FEMA shall render a Phase II determination upon completion of the review of Phase I deliverables. No construction activities are approved at this time. The Sub-Recipient shall ensure that all applicable state, local and federal laws and regulations are followed and documented, as appropriate.

   Phase I consists of fees; for conducting survey, drainage study, engineering, design, public notices, and/or permitting associated with the modification(s) needed to upgrade the drainage. Verification of upstream and downstream impacts shall be necessary for determining project eligibility.

   All Phase I work shall be completed in accordance with all applicable state, local and federal laws and regulations and documented, as appropriate.

   Upon completion of Task 2, the Sub-Recipient shall submit the following documents with sufficient supporting documentation, and provide a summary of all scope of work changes, if any.

   a) Two sets of engineering Signed/Sealed final design and analysis, surveying, and Hydrologic and Hydraulic (H&H) Studies.

   b) Construction Plans and bid documents.

   c) Revised cost estimate for Phase II – construction (include Phase I costs), to implement the design project.

   d) Design documents shall provide a detailed description which includes specifics on project scope of work, depth and extent of ground disturbance at all construction locations of the project.

   e) Color maps including topographical, aerial, and ground disturbance.

   f) Color photographs of the project area and areas of ground disturbance.

   g) Copy of all environmental permits or applications; any obtained from the Florida Department of Environmental Protection (FDEP), and/or local Water Management District (WMD) shall be required. Any conditions for compliance shall be included in the final design plans, narrative and project implementation actions.

   h) Copy of the United States Army Corps of Engineers (USACE) permit or No Permit Required notification.

   i) Any other documentation requested by the Division, not limited to Project Conditions and Requirements herein.

3) During the course of this agreement, the Sub-Recipient shall submit requests for reimbursement. Adequate and complete source documentation shall be submitted to support all costs (federal share and local share) related to the project. In some cases, all project activities may not be fully complete

prior to requesting reimbursement of costs incurred in completion of this scope of work; however, a partial reimbursement may be requested.

The Sub-Recipient shall submit an Affidavit signed by the Sub-Recipient's project personnel with each reimbursement request attesting to the completion of the work, that disbursements or payments were made in accordance with all agreement and regulatory conditions, and that reimbursement is due and has not been previously requested.

The Sub-Recipient shall maintain accurate time records. The Sub-Recipient shall ensure invoices are accurate and any contracted services were rendered within the terms and timelines of this agreement. All supporting documentation shall agree with the requested billing period. All costs submitted for reimbursement shall contain adequate source documentation which may include but not be limited to: cancelled checks, bank statements, Electronic Funds Transfer, paid bills and invoices, payrolls, time and attendance records, contract and subcontract award documents.

Direct Expenses: The Sub-Recipient shall pre-audit bills, invoices, and/or charges submitted by the contractors and subcontractors and pay the contractors and subcontractors for approved bills, invoices, and/or charges. Sub-Recipient shall ensure that all contractor/subcontractor bills, invoices, and/or charges are legitimate and clearly identify the activities being performed and associated costs.

Project Management Expenses: The Sub-Recipient shall pre-audit source documentation such as payroll records, project time sheets, attendance logs, etc. Documentation shall be detailed information describing tasks performed, hours devoted to each task, and the hourly rate charged for each hour including enough information to calculate the hourly rates based on payroll records. Employee benefits shall be clearly shown.

The Division shall review all submitted requests for reimbursement for basic accuracy of information. Further, the Division shall ensure that no unauthorized work was completed prior to the approved project start date by verifying vendor and contractor invoices. The Division shall verify that reported costs were incurred in the performance of eligible work, that the approved work was completed, and that the mitigation measures are in compliance with the approved scope of work prior to processing any requests for reimbursement.

Review and approval of any third party in-kind services, if applicable, shall be conducted by the Division in coordination with the Sub-Recipient.

Quarterly reports shall be submitted by the Sub-Recipient and received by the Division at the times provided in this agreement prior to the processing of any reimbursement.

The Sub-Recipient shall submit to the Division requests for reimbursement of actual Phase I costs related to the project as identified in the project application and this scope of work. The Requests for Reimbursement (RFR) shall include:

a) Contractor, subcontractor, and/or vendor invoices which clearly display dates of services performed, description of services performed, location of services performed, cost of services performed, name of service provider and any other pertinent information;

b) Proof of payment from the Sub-Recipient to the contractor, subcontractor, and/or vendor for invoiced services;

c) Clear identification of amount of costs being requested for reimbursement as well as costs being applied against the local match amount.

The Sub-Recipient's Request for Reimbursement shall include the final Phase I project cost. Supporting documentation shall show that all contractors and subcontractors have been paid.

B) Deliverables:

Mitigation Activities consist of Phase I activities, which include engineering, designing, plans preparation, permitting and bidding for the proposed project, for Phase II approval, and to implement measures to improve the drainage of the Eloise Loop Road, located in Winter Haven, Florida, 33884.

The designed project shall provide protection against a 50-year storm event.

Provided the Sub-Recipient performs in accordance with the Scope of Work outlined in this Agreement, the Division shall reimburse the Sub-Recipient based on the percentage of overall project completion.

PROJECT CONDITIONS AND REQUIREMENTS:

C) Engineering:

1) The Sub-Recipient shall submit signed and sealed Engineering plans that clearly show the engineer's estimate of the pre and post-mitigation effects of the proposed project and the relationship of the damages to be mitigated (commensurate with the level of funding requested). The H&H study shall contain at least 3 scenarios, where one represents the level of protection; under each scenario, the Sub-Recipient must identify the losses before and after mitigation (structural, content, displacement, road closure duration, or any other needed to show the improvements after the mitigation project is implemented). This includes, but is not limited to, the existing and proposed hydrology and hydraulics for the level of event being mitigated.
2) Demonstrate mitigation effectiveness, in part, by showing the physical location(s) and elevation(s) of the infrastructure/structures that are being damaged and FEMA Special Flood Hazard Areas on the same plan.
3) Submit a refined cost estimate, to include final Phase I Fees and Phase II Construction Materials and Labor.

D) Environmental:

1) Any change to the approved scope of work shall require re-evaluation for compliance with NEPA and other Laws and Executive Orders.
2) Acceptance of federal funding requires the Sub-Recipient to comply with all federal, state, and local laws. Failure to obtain all appropriate federal, state, and local environmental permits and clearances may jeopardize federal funding.
3) Meet all required Environmental laws and policies, and all necessary Environmental compliance documents shall be obtained as applicable.
    a) United States Army Corps of Engineers (USACE): Consultation with the USACE is required. A permit or No Permit Required shall be submitted.
    b) Copy of all environmental permits or applications; any obtained from the Florida Department of Environmental Protection (FDEP), and/or local Water Management District (WMD) shall be submitted. Any conditions for compliance shall be included in the final design plans, narrative, and project implementation actions.
4) Historical Preservation compliance documents shall be obtained. Review documentation required:
    a) Color maps including topographical and aerial with the project location clearly marked.
    b) Color photographs of any area with ground disturbance (electronic).
    c) Indicate if project site is located within a designated historic district or historic neighborhood.
5) Tribal Consultation shall be required for proposed ground disturbing activities. The following documents shall be required and submitted as part of deliverables:

a) Color ground disturbance maps showing the full extent of the project footprint and depth of ground disturbance. Geographic latitude/longitude (decimal degree format) of the proposed construction areas and staging areas.

b) Previous and current use of proposed project area.

c) Any known site work or historic uses for the proposed location.

d) Any available studies that may have taken place on the property.

6) Phase I of this project is approved with the condition that the above list of deliverables shall be submitted for review and approval by the Division and FEMA before Phase II is considered.

7) No construction work may begin until Phase II is approved by the Division and FEMA.

E) Programmatic:

1) Any change in the scope of work ***must*** be approved by the Division and FEMA in advance regardless of the budget implications.

2) The Sub-Recipient must notify the Division as soon as significant developments become known, such as delays or adverse conditions that might raise costs or delay completion, or favorable conditions allowing lower costs or earlier completion.

3) The Sub-Recipient must "obtain prior written approval for any budget revision which would result in a need for additional funds" [44 CFR 13(c)], from the Division and FEMA.

4) Phase I – Design of this project is approved with the condition that the enclosed list of deliverables shall be submitted, thirty (30) days prior to the Period of Performance date, for review and approval by the Division, for submittal to FEMA before Phase II – Construction is considered.

5) A Public Notice shall be published to notify interested parties of the proposed activity. Notices shall be published in a manner that anyone that may be affected or interested in this project has access to the posting, using the Division template, as applicable.

6) Any extension of the Period of Performance shall be submitted to FEMA sixty (60) days prior to the expiration date. Therefore, any request for a Period of Performance Extension shall be in writing and submitted, along with substantiation of new expiration date and a new schedule of work, to the Division a minimum of seventy (70) days prior to the expiration date, for Division processing to FEMA.

7) A copy of the executed subcontract agreement must be forwarded to the Division within ten (10) days of execution.

8) When completed, the Sub-Recipient must provide 100% completed designs, calculations, complete signed and sealed plans and, permits for a Phase II review. A final BCA using developed technical data and study results will be necessary. No construction activities for this project have been approved.

9) The Sub-Recipient must avoid duplication of benefits between the HMGP and any other form of assistance, as required by Section 312 of the Stafford Act, and further clarification in 44 CFR 206.191.

This is FEMA project number **DR-4337-0249-R.** It is funded under HMGP, FEMA-4337-DR-FL and must adhere to all program guidelines established for the HMGP in accordance with the PAS Operational Agreement for Disaster DR-4337 (Hurricane Irma).

FEMA awarded this project on August 28, 2019; with a Pre-Award date of March 12, 2018; this Agreement shall begin upon execution by both parties, and the Period of Performance for this project shall end on **January 31, 2022.**

F) FINANCIAL CONSEQUENCES:

If the Sub-Recipient fails to comply with any term of the award, the Division shall take one or more of the following actions, as appropriate in the circumstances:

1) Temporarily withhold cash payments pending correction of the deficiency by the Sub-Recipient;
2) Disallow all or part of the cost of the activity or action not in compliance;
3) Wholly or partly suspend or terminate the current award for the Sub-Recipient's program;
4) Withhold further awards for the program; or
5) Take other remedies that may be legally available.

Schedule of Work

Phase I –

State & Local Contracting:	4	Months
H & H Study:	4	Months
Engineering Design Specifications:	3	Months
Permitting / Survey:	3	Months
Deliverables Submitted for Phase II Review:	1	Month
Total Period of Performance:	**15**	**Months**

BUDGET

Line Item Budget*

	Project Cost	Federal Share	Non-Federal Share
Materials:	$0.00	$0.00	$0.00
Labor:	$0.00	$0.00	$0.00
Fees:	$81,652.00	$61,239.00	$20,413.00
Pre-Award:	$24,141.00	$18,105.75	$6,035.25
Initial Agreement Amount:	**$105,793.00**	**$79,344.75**	**$26,448.25**
***Contingency Funds:	$0.00	$0.00	$0.00
Project Total:	**$105,793.00**	**$79,344.75**	**$26,448.25**

**Any line item amount in this Budget may be increased or decreased 10% or less, with the Division's approval, without an amendment to this Agreement being required, so long as the overall amount of the funds obligated under this Agreement is not increased.*

*This project has a Pre-Award, approved by FEMA in the amount of $24,141.00 project costs with a start date of **March 12, 2018**.*

**** **This project has an estimated $0.00 in contingency funds.** Per FEMA Hazard Mitigation Assistance Guidance Part VI, D.3.4 – Contingency funds are not automatically available for use. Prior to their release, contingency funds must be re-budgeted to another direct cost category and identified. Post-award changes to the budget require prior written approval from the Division (FDEM). The written request should demonstrate what unforeseen condition related to the project arose that required the use of contingency funds.*

Project Management costs are included for this project in the amount of $0.00

Funding Summary

Federal Share:	$79,344.75	(75%)
Non-Federal Share:	$26,448.25	(25%)
Total Project Cost:	**$105,793.00**	**(100.00%)**

Attachment B

Program Statutes and Regulations

The parties to this Agreement and the Hazard Mitigation Grant Program (HMGP) are generally governed by the following statutes and regulations:

(1) The Robert T. Stafford Disaster Relief and Emergency Assistance Act;

(2) 44 CFR Parts 7, 9, 10, 13, 14, 17, 18, 25, 206, 220, and 221, and any other applicable FEMA policy memoranda and guidance documents;

(3) State of Florida Administrative Plan for the Hazard Mitigation Grant Program;

(4) Hazard Mitigation Assistance Guidance- February 27, 2015 Update; and

(5) All applicable laws and regulations delineated in Attachment C of this Agreement.

In addition to the above statutes and regulations, the Sub-recipient must comply with the following:

The Sub-recipient shall fully perform the approved hazard mitigation project, as described in the Application and Attachment A (Budget and Scope of Work) attached to this Agreement, in accordance with approved scope of work indicated therein, the estimate of costs indicated therein, the allocation of funds indicated therein, and the terms and conditions of this Agreement. The Sub-recipient shall not deviate from the approved project and the terms and conditions of this Agreement. The Sub-recipient shall comply with any and all applicable codes and standards in performing work funded under this Agreement, and shall provide any appropriate maintenance and security for the project.

Any development permit issued by, or development activity undertaken by, the Sub-recipient and any land use permitted by or engaged in by the Sub-recipient, shall be consistent with the local comprehensive plan and land development regulations prepared and adopted pursuant to Chapter 163, Part II, Florida Statutes. Funds shall be expended for, and development activities and land uses authorized for, only those uses which are permitted under the comprehensive plan and land development regulations. The Sub-recipient shall be responsible for ensuring that any development permit issued and any development activity or land use undertaken is, where applicable, also authorized by the Water Management District, the Florida Department of Environmental Protection, the Florida Department of Health, the Florida Game and Fish Commission, and any Federal, State, or local environmental or land use permitting authority, where required. The Sub-recipient agrees that any repair or construction shall be in accordance with applicable standards of safety, decency, and sanitation, and in conformity with applicable codes, specifications and standards.

The Sub-recipient will provide and maintain competent and adequate engineering supervision at the construction site to ensure that the completed work conforms with the approved plans and specifications and will furnish progress reports and such other information to HMGP as may be required.

If the hazard mitigation project described in Attachment A includes an acquisition or relocation project, then the Sub-recipient shall ensure that, as a condition of funding under this Agreement, the owner of the affected real property shall record in the public records of the county where it is located the following covenants and restrictions, which shall run with and apply to any property acquired, accepted, or from which a structure will be removed pursuant to the project.

(1) The property will be dedicated and maintained in perpetuity for a use that is compatible with open space, recreational, or wetlands management practices;

(2) No new structure will be erected on property other than:
   a. a public facility that is open on all sides and functionally related to a designed open space;
   b. a restroom; or

(3) A structure that the Director of the Federal Emergency Management Agency approves in writing before the commencement of the construction of the structure;

(4) After the date of the acquisition or relocation no application for disaster assistance for any purpose will be made to any Federal entity and no disaster assistance will be provided for the property by any Federal source; and

(5) If any of these covenants and restrictions is violated by the owner or by some third party with the knowledge of the owner, fee simple title to the Property described herein shall be conveyed to the Board of Trustees of the Internal Improvement Trust Fund of the State of Florida without further notice to the owner, its successors and assigns, and the owner, its successors and assigns shall forfeit all right, title and interest in and to the property.

HMGP Contract Manager will evaluate requests for cost overruns and submit to the regional Director written determination of cost overrun eligibility. Cost overruns shall meet Federal regulations set forth in 44 CFR 206.438(b).

The National Environmental Policy Act (NEPA) stipulates that additions or amendments to a HMGP Sub-Recipient Scope of Work (SOW) shall be reviewed by all State and Federal agencies participating in the NEPA process.

As a reminder, the Sub-recipient must obtain prior approval from the State, before implementing changes to the approved project Scope of Work (SOW). Per the Uniform Administrative Requirements for Grants and Cooperative Agreements to State and Local Governments:

(1) For Construction projects, the grantee must "obtain prior written approval for any budget revision which result in a need for additional funds" (44 CFR 13(c));

(2) A change in the Scope of Work must be approved by FEMA in advance regardless of the budget implications; and

(3) The Sub-recipient must notify the State as soon as significant developments become known, such as delays or adverse conditions that might raise costs or delay completion, or favorable conditions allowing lower cost or earlier completion. Any extensions of the period of performance must be submitted to FEMA sixty (60) days prior to the project expiration date.

The Sub-recipient assures that it will comply with the following statutes and regulations to the extent applicable:

(1) 53 Federal Register 8034
(2) Federal Acquisition Regulations 31.2
(3) Section 1352, Title 31, US Code
(4) Chapter 473, Florida Statutes
(5) Chapter 215, Florida Statutes
(6) Section 768.28, Florida Statutes
(7) Chapter 119, Florida Statutes
(8) Section 216.181(6), Florida Statutes
(9) Cash Management Improvement Act of 1990
(10) American with Disabilities Act
(11) Section 112.061, Florida Statutes
(12) Immigration and Nationality Act
(13) Section 286.011, Florida Statutes

(14) 2 CFR, Part 200 – Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards
(15) Uniform Relocation Assistance and Real Property Acquisitions Act of 1970
(16) Title I of the Omnibus Crime Control and Safe Streets Act of 1968
(17) Juvenile Justice and Delinquency Prevention Act, or the Victims of Crime Act
(18) Omnibus Crime Control and Safe Streets Act of 1968, as amended
(19) Victims of Crime Act (as appropriate)
(20) Section 504 of the Rehabilitation Act of 1973, as amended
(21) Subtitle A, Title II of the Americans with Disabilities Act (ADA) (1990)
(22) Department of Justice regulations on disability discrimination, 28 CFR, Part 35 and Part 39
(23) 42 U.S.C. 5154a

Attachment C

Statement of Assurances

To the extent the following provisions apply to this Agreement, the Sub-recipient certifies that:

(a) It possesses legal authority to enter into this Agreement and to carry out the proposed program;

(b) Its governing body has duly adopted or passed as an official act of resolution, motion or similar action authorizing the execution of the hazard mitigation agreement with the Division of Emergency Management (DEM), including all understandings and assurances contained in it, and directing and authorizing the Sub-recipient's chief administrative officer or designee to act in connection with the application and to provide such additional information as may be required;

(c) No member of or delegate to the Congress of the United States, and no Resident Commissioner, shall receive any share or part of this Agreement or any benefit. No member, officer, or employee of the Sub-recipient or its designees or agents, no member of the governing body of the locality in which this program is situated, and no other public official of the locality or localities who exercises any functions or responsibilities with respect to the program during his tenure or for one year after, shall have any interest, direct or indirect, in any contract or subcontract, or the proceeds, for work be performed in connection with the program assisted under this Agreement. The Sub-recipient shall incorporate, in all contracts or subcontracts a provision prohibiting any interest pursuant to the purpose stated above;

(d) All Sub-recipient contracts for which the State Legislature is in any part a funding source, shall contain language to provide for termination with reasonable costs to be paid by the Sub-recipient for eligible contract work completed prior to the date the notice of suspension of funding was received by the Sub-recipient. Any cost incurred after a notice of suspension or termination is received by the Sub-recipient may not be funded with funds provided under this Agreement unless previously approved in writing by the Division. All Sub-recipient contracts shall contain provisions for termination for cause or convenience and shall provide for the method of payment in such event;

(e) It will comply with:

(1) Contract Work Hours and Safety Standards Act of 1962, 40 U.S.C. 327 et seq., requiring that mechanics and laborers (including watchmen and guards) employed on federally assisted contracts be paid wages of not less than one and one-half times their basic wage rates for all hours worked in excess of forty hours in a work week; and

(2) Federal Fair Labor Standards Act, 29 U.S.C. Section 201 et seq., requiring that covered employees be paid at least minimum prescribed wage, and also that they be paid one and one-half times their basic wage rates for all hours worked in excess of the prescribed work-week.

(f) It will comply with

(1) Title VI of the Civil Rights Act of 1964 (P.L. 88-352), and the regulations issued pursuant thereto, which provides that no person in the United States shall on the grounds of race, color, or national origin, be excluded from participation in, be denied the benefits of, or be otherwise subjected to discrimination under any program or activity for which the Sub-recipient received Federal financial assistance and will immediately take any measures necessary to effectuate this assurance. If any real property or structure thereon is provided or improved with the aid of Federal financial assistance extended to the Sub-recipient, this assurance shall obligate the Sub-recipient, or in the case of any transfer of such property, any transferee, for the period during which the real property or structure is

used for a purpose for which the Federal financial assistance is extended, or for another purpose involving the provision of similar services or benefits;

(2) Any prohibition against discrimination on the basis of age under the Age Discrimination Act of 1975, as amended (42 U.S.C. 6101-6107) which prohibits discrimination on the basis of age or with respect to otherwise qualifies handicapped individuals as provided in Section 504 of the Rehabilitation Act of 1973;

(3) Executive Order 11246, as amended by Executive Orders 11375 and 12086, and the regulations issued pursuant thereto, which provide that no person shall be discriminated against on the basis of race, color, religion, sex or national origin in all phases of employment during the performance of federal or federally assisted construction contracts; affirmative action to insure fair treatment in employment, upgrading, demotion, or transfer; recruitment or recruitment advertising; layoff/termination, rates of pay or other forms of compensation; and election for training and apprenticeship;

(g) It will establish safeguards to prohibit employees from using positions for a purpose that is or gives the appearance of being motivated by a desire for private gain for themselves or others, particularly those with whom they have family, business, or other ties pursuant to Section 112.313 and Section 112.3135, Florida Statutes;

(h) It will comply with the Anti-Kickback Act of 1986, 41 U.S.C. Section 51 which outlaws and prescribes penalties for "kickbacks" of wages in federally financed or assisted construction activities;

(i) It will comply with the provisions of 18 U.S.C. 594, 598, 600-605 (further known as the Hatch Act) which limits the political activities of employees;

(j) It will comply with the flood insurance purchase and other requirements of the Flood Disaster Protection Act of 1973, as amended, 42 U.S.C. 4002-4107, including requirements regarding the purchase of flood insurance in communities where such insurance is available as a condition for the receipt of any Federal financial assistance for construction or acquisition purposes for use in any area having special flood hazards. The phrase "Federal financial assistance" includes any form of loan, grant, guaranty, insurance payment, rebate, subsidy, disaster assistance loan or grant, or any other form of direct or indirect Federal assistance;

For sites located within Special Flood Hazard Areas (SFHA), the Sub-recipient must include a FEMA Model Acknowledgement of Conditions of Mitigation of Property in a Special Flood Hazard Area with FEMA Grant Funds executed by the title holder with the closeout request verifying that certain SFHA requirements were satisfied on each of the properties. The Model Acknowledgement can be found at www.fema.gov/governmenta/grant/sfha_conditions.shtm

(k) It will require every building or facility (other than a privately owned residential structure) designed, constructed, or altered with funds provided under this Agreement to comply with the "Uniform Federal Accessibility Standards," (AS) which is Appendix A to 41 CFR Section 101-19.6 for general type buildings and Appendix A to 24 CFR, Part 40 for residential structures. The Sub-recipient will be responsible for conducting inspections to ensure compliance with these specifications by the contractor;

(l) It will, in connection with its performance of environmental assessments under the National Environmental Policy Act of 1969, comply with Section 106 of the National Historic Preservation Act of 1966 (U.S.C. 470), Executive Order 11593, 24 CFR, Part 800, and the Preservation of Archaeological and Historical Data Act of 1966 (16 U.S.C. 469a-1, et seq.) by:

(1) Consulting with the State Historic Preservation Office to identify properties listed in or eligible for inclusion in the National Register of Historic Places that are subject to adverse effects (see 36 CFR, Section 800.8) by the proposed activity; and

(2) Complying with all requirements established by the State to avoid or mitigate adverse effects upon such properties.

(3) Abiding by the terms and conditions of the **"Programmatic Agreement Among the Federal Emergency Management Agency, the Florida State Historic Preservation Office, the Florida Division of Emergency Management and the Advisory Council on Historic Preservation, (PA)"** which addresses roles and responsibilities of Federal and State entities in implementing Section 106 of the National Historic Preservation Act (NHPA), 16 U.S.C. 470(f), and implementing regulations in 36 CFR, Part 800.

(4) When any of the Sub-recipient's projects funded under this Agreement may affect a historic property, as defined in 36 CFR, Part 800 (2)(e), the Federal Emergency Management Agency (FEMA) may require the Sub-recipient to review the eligible scope of work in consultation with the State Historic Preservation Office (SHPO) and suggest methods of repair or construction that will conform with the recommended approaches set out in the **Secretary of Interior's Standards for Rehabilitation and Guidelines for Rehabilitating Historic Buildings 1992 (Standards),** the **Secretary of the Interior's Guidelines for Archeological Documentation (Guidelines)** (48 Federal Register 44734-37), or any other applicable Secretary of Interior standards. If FEMA determines that the eligible scope of work will not conform with the **Standards**, the Sub-recipient agrees to participate in consultations to develop, and after execution by all parties, to abide by, a written agreement that establishes mitigation and recondition measures, including but not limited to, impacts to archeological sites, and the salvage, storage, and reuse of any significant architectural features that may otherwise be demolished.

(5) The Sub-recipient agrees to notify FEMA and the Division if any project funded under this Agreement will involve ground disturbing activities, including, but not limited to: subsurface disturbance; removal of trees; excavation of footings and foundations, and installation of utilities (such as water, sewer, storm drains, electrical, gas, leach lines and septic tanks) except where these activities are restricted solely to areas previously disturbed by the installation, replacement or maintenance of such utilities. FEMA will request the SHPO's opinion on the potential that archeological properties may be present and be affected by such activities. The SHPO will advise the Sub-recipient on any feasible steps to be accomplished to avoid any National Register eligible archeological property or will make recommendations for the development of a treatment plan for the recovery or archeological data from the property.

If the Sub-recipient is unable to avoid the archeological property, develop, in consultation with SHPO, a treatment plan consistent with the **Guidelines** and take into account the Advisory Council on Historic Preservation (Council) publication "Treatment of Archeological Properties". The Sub-recipient shall forward information regarding the treatment plan to FEMA, the SHPO and the Council for review. If the SHPO and the Council do not object within fifteen (15) calendar days of receipt of the treatment plan, FEMA may direct the Sub-recipient to implement the treatment plan. If either the Council or the SHPO object, Sub-recipient shall not proceed with the project until the objection is resolved.

(6) The Sub-recipient shall notify the Division and FEMA as soon as practicable: (a) of any changes in the approved scope of work for a National Register eligible or listed property; (b) of all changes to a project that may result in a supplemental DSR or modify a HMGP project for a National Register eligible or listed property; (c) if it appears that a project funded under this Agreement will affect a previously unidentified property that may be eligible for inclusion in the National Register or affect a known historic property in an unanticipated manner. The Sub-recipient acknowledges that FEMA may require the Sub-recipient to stop construction in the vicinity of the discovery of a previously unidentified property that may eligible for inclusion in the National Register or upon learning that construction may affect a known historic property in an unanticipated manner. The Sub-recipient further acknowledges that FEMA may require the Sub-recipient to take all

reasonable measures to avoid or minimize harm to such property until FEMA concludes consultation with the SHPO. The Sub-recipient also acknowledges that FEMA will require, and the Sub-recipient shall comply with, modifications to the project scope of work necessary to implement recommendations to address the project and the property.

(7) The Sub-recipient acknowledges that, unless FEMA specifically stipulates otherwise, it shall not receive funding for projects when, with intent to avoid the requirements of the PA or the NHPA, the Sub-recipient intentionally and significantly adversely affects a historic property, or having the legal power to prevent it, allowed such significant adverse effect to occur.

(m) It will comply with Title IX of the Education Amendments of 1972, as amended (20 U.S.C. 1681-1683 and 1685-1686) which prohibits discrimination on the basis of sex;

(n) It will comply with the Comprehensive Alcohol Abuse and Alcoholism Prevention, Treatment and Rehabilitation Act of 1970, (42 U.S.C. 4521-45-94) relating to nondiscrimination on the basis of alcohol abuse or alcoholism;

(o) It will comply with 523 and 527 of the Public Health Service Act of 1912 (42 U.S.C. 290 dd-3 and 290 ee-3), as amended, relating to confidentiality of alcohol and drug abuse patient records;

(p) It will comply with Lead-Based Paint Poison Prevention Act (42 U.S.C. 4821 et seq.) which prohibits the use of lead based paint in construction of rehabilitation or residential structures;

(q) It will comply with the Energy Policy and Conservation Act (P.L. 94-163; 42 U.S.C. 6201-6422), and the provisions of the State Energy Conservation Plan adopted pursuant thereto;

(r) It will comply with the Laboratory Animal Welfare Act of 1966, (7 U.S.C. 2131-2159), pertaining to the care, handling, and treatment of warm blooded animals held for research, teaching, or other activities supported by an award of assistance under this Agreement;

(s) It will comply with Title VIII of the Civil Rights Act of 1968, (42 U.S.C 2000c and 42 U.S.C. 3601-3619), as amended, relating to non-discrimination in the sale, rental, or financing of housing, and Title VI of the Civil Rights Act of 1964 (P.L. 88-352), which prohibits discrimination on the basis of race, color or national origin;

(t) It will comply with the Clean Air Act of 1955, as amended, 42 U.S.C. 7401-7642;

(u) It will comply with the Clean Water Act of 1977, as amended, 42 U.S.C. 7419-7626

(v) It will comply with the endangered Species Act of 1973, 16 U.S.C. 1531-1544;

(w) It will comply with the Intergovernmental Personnel Act of 1970, 42 U.S.C. 4728-4763;

(x) It will assist the awarding agency in assuring compliance with the National Historic Preservation Act of 1966, as amended, 16 U.S.C. 270;

(y) It will comply with environmental standards which may be prescribed pursuant to the National Environmental Policy Act of 1969, 42 U.S.C. 4321-4347;

(z) It will assist the awarding agency in assuring compliance with the Preservation of Archeological and Historical Preservation Act of 1966, 16 U.S.C. 469a, et seq.;

(aa) It will comply with the Rehabilitation Act of 1973, Section 504, 29 U.S.C. 794, regarding non-discrimination;

(bb) It will comply with the environmental standards which may be prescribed pursuant to the Safe Drinking Water Act of 1974, 42 U.S.C. 300f-300j, regarding the protection of underground water sources;

(cc) It will comply with the requirements of Titles II and III of the Uniform Relocation Assistance and Property Acquisition Policies Act of 1970, 42 U.S.C. 4621-4638, which provide for fair and equitable treatment of persons displaced or whose property is acquired as a result of Federal or Federally assisted programs;

(dd) It will comply with the Wild and Scenic Rivers Act of 1968, 16 U.S.C. 1271-1287, related to protecting components or potential components of the national wild and scenic rivers system;

(ee) It will comply with the following Executive Orders: EO 11514 (NEPA); EO 11738 (violating facilities); EO 11988 (Floodplain Management); EO 11990 (Wetlands); and EO 12898 (Environmental Justice);

(ff) It will comply with the Coastal Barrier Resources Act of 1977, 16 U.S.C. 3510;

(gg) It will assure project consistency with the approved State program developed under the Coastal Zone Management Act of 1972, 16 U.S.C. 1451-1464; and

(hh) It will comply with the Fish and Wildlife Coordination Act of 1958, 16 U.S.C. 661-666.

(ii) With respect to demolition activities, it will:

(1) Create and make available documentation sufficient to demonstrate that the Sub-recipient and its demolition contractor have sufficient manpower and equipment to comply with the obligations as outlined in this Agreement.

(2) Return the property to its natural state as though no improvements had ever been contained thereon.

(3) Furnish documentation of all qualified personnel, licenses and all equipment necessary to inspect buildings located in the Sub-recipient's jurisdiction to detect the presence of asbestos and lead in accordance with requirements of the U.S. Environmental Protection Agency, the Florida Department of Environmental Protection and the County Health Department.

(4) Provide documentation of the inspection results for each structure to indicate:
   a. Safety Hazard Present
   b. Health Hazards Present
   c. Hazardous Materials Present

(5) Provide supervision over contractors or employees employed by the Sub-recipient to remove asbestos and lead from demolished or otherwise applicable structures.

(6) Leave the demolished site clean, level and free of debris.

(7) Notify the Division promptly of any unusual existing condition which hampers the contractor's work.

(8) Obtain all required permits.

(9) Provide addresses and marked maps for each site where water wells and septic tanks are to be closed along with the number of wells and septic tanks located on each site. Provide documentation of closures.

(10) Comply with mandatory standards and policies relating to energy efficiency which are contained in the State Energy Conservation Plan issued in compliance with the Energy Policy and Conservation Act (Public Law 94-163).

(11) Comply with all applicable standards, orders, or requirements issued under Section 112 and 306 of the Clean Air Act (42 U.S.C. 1857h), Section 508 of the Clean Water Act (33 U.S.C. 1368), Executive Order 11738, and the U.S. Environmental Protection Agency regulations (40 CFR, Part 15 and 61). This clause shall be added to any subcontracts.

(12) Provide documentation of public notices for demolition activities.

JUSTIFICATION OF ADVANCE PAYMENT

SUB-RECIPIENT: Polk County, a political subdivision of the State of Florida

If you are requesting an advance, indicate same by checking the box below.

[ ] ADVANCE REQUESTED
Advance payment of $ _____ is requested. Balance of payments will be made on a reimbursement basis. These funds are needed to pay staff, award benefits to clients, duplicate forms and purchase start-up supplies and equipment. We would not be able to operate the program without this advance.

If you are requesting an advance, complete the following chart and line item justification below. PLEASE NOTE: Calculate your estimated expenses at 100% of your expected needs for ninety (90) days. Submit Attachment D with the cost share breakdown along with Attachment E and all supporting documentation.

ESTIMATED EXPENSES

BUDGET CATEGORY/LINE ITEMS (list applicable line items)	20___-20___ Anticipated Expenditures for First Three Months of Contract
For example ADMINISTRATIVE COSTS (Include Secondary Administration.)	
For example PROGRAM EXPENSES	
TOTAL EXPENSES	

LINE ITEM JUSTIFICATION **(For each line item, provide a detailed justification explaining the need for the cash advance. The justification must include supporting documentation that clearly shows the advance will be expended within the first ninety (90) days of the contract term. Support documentation should include quotes for purchases, delivery timelines, salary and expense projections, etc. to provide the Division reasonable and necessary support that the advance will be expended within the first ninety (90) days of the contract term. Any advance funds not expended within the first ninety (90) days of the contract term as evidenced by copies of invoices and cancelled checks as required by the Budget and Scope of work showing 100% of expenditures for the 90 day period shall be returned to the Division Cashier, 2555 Shumard Oak Boulevard, Tallahassee, Florida 32399, within thirty (30) days of receipt, along with any interest earned on the advance.**

Federal Funding Accountability and Transparency Act

Instructions and Worksheet

PURPOSE: The Federal Funding Accountability and Transparency Act (FFATA) was signed on September 26, 2006. The intent of this legislation is to empower every American with the ability to hold the government accountable for each spending decision. The FFATA legislation requires information on federal awards (federal assistance and expenditures) be made available to the public via a single, searchable website, which is http://www.usaspending.gov/.

The FFATA Sub-award Reporting System (FSRS) is the reporting tool the Florida Division of Emergency Management ("FDEM" or "Division") must use to capture and report sub-award and executive compensation data regarding first-tier sub-awards that obligate $25,000 or more in Federal funds (excluding Recovery funds as defined in section 1512(a) (2) of the American Recovery and Reinvestment Act of 2009, Pub. L. 111-5).

Note: This "Instructions and Worksheet" is meant to explain the requirements of the FFATA and give clarity to the FFATA Form distributed to sub-awardees for completion. All pertinent information below should be filled out, signed, and returned to the project manager.

ORGANIZATION AND PROJECT INFORMATION

The following information must be provided to the FDEM prior to the FDEM's issuance of a sub-award (Agreement) that obligates $25,000 or more in federal funds as described above. Please provide the following information and return the signed form to the Division as requested.

PROJECT #: 4337-0249-R

FUNDING AGENCY: Federal Emergency Management Agency

AWARD AMOUNT: $ 79,344.75

OBLIGATION/ACTION DATE: August 28, 2019

SUBAWARD DATE (if applicable): _____

DUNS#: 078315959

DUNS# +4: _____

*If your company or organization does not have a DUNS number, you will need to obtain one from Dun & Bradstreet at 866-705-5711 or use the web form (http://fedgov.dnb.com/webform). The process to request a DUNS number takes about ten minutes and is free of charge.

DESCRIPTION OF PROJECT (Up to 4000 Characters)

As a Hazard Mitigation Grant Program project, the Sub-Recipient proposes to improve the drainage of the Eloise Loop Road in Winter Haven, Florida, 33884. Coordinates (27.976065, -81.724012).

The scope is for Phase I only, which includes but is not limited to surveying, engineering, design, plans preparation, permitting and bidding for the proposed project, for Phase II approval. No construction activities for this project have been approved.

When completed, the Sub-Recipient shall provide deliverables for Phase II review of the following proposed activities.

The Phase II proposed Scope of Work (SOW) shall include the construction of a new storm drain system and outfall ditch to relieve potential flooding. The proposed storm drain would extend from the low point along Eloise Loop Road approximately 500 feet northwest, then cross under Eloise Loop Road and discharge to a proposed swale that would drain southwest to Rifle Range Road. This project proposes to reduce the frequency of flood impacts to Eloise Loop Road and agricultural properties in the area.

The project shall be designed to provide protection against a 50-year storm event. Activities shall be completed in strict compliance with Federal, State and Local applicable Rules and Regulations.

Verify the approved project description above, if there is any discrepancy, please contact the project manager.

EXECUTIVE COMPENSATION INFORMATION:

1. In your business or organization's previous fiscal year, did your business or organization (including parent organization, all branches, and all affiliates worldwide) receive (a) 80 percent or more of your annual gross revenues from Federal procurement contracts (and subcontracts) and Federal financial assistance (e.g. loans, grants, subgrants, and/or cooperative agreements, etc.) subject to the Transparency Act, as defined at 2 CFR 170.320; , (b) $25,000,000 or more in annual gross revenues from U.S. Federal procurement contracts (and subcontracts) and Federal financial assistance (e.g. loans, grants, subgrants, and/or cooperative agreements, etc.) subject to the Transparency Act?
   Yes ☐ No ☒

If the answer to Question 1 is "Yes," continue to Question 2. If the answer to Question 1 is "No", move to the signature block below to complete the certification and submittal process.

2. Does the public have access to information about the compensation of the executives in your business or organization (including parent organization, all branches, and all affiliates worldwide) through periodic reports filed under section 13(a) or 15(d) of the Securities Exchange Act of 1934 (15 U.S.C. 78m(a), 78o(d)) Section 6104 of the Internal Revenue Code of 1986?
   Yes ☐ No ☐

If the answer to Question 2 is "Yes," move to the signature block below to complete the certification and submittal process. [Note: Securities Exchange Commission information should be accessible at http//www.sec.gov/answers/execomp.htm. Requests for Internal Revenue Service (IRS) information should be directed to the local IRS for further assistance.]

If the answer to Question 2 is "No" FFATA reporting is required. Provide the information required in the "TOTAL COMPENSATION CHART FOR MOST RECENTLY COMPLETED FISCAL YEAR" appearing below to report the "Total Compensation" for the five (5) most highly compensated "Executives", in rank order, in your organization. For purposes of this request, the following terms apply as defined in 2 CFR Ch. 1 Part 170 Appendix A:

"Executive" is defined as "officers, managing partners, or other employees in management positions".

"Total Compensation" is defined as the cash and noncash dollar value earned by the executive during the most recently completed fiscal year and includes the following:

i. Salary and bonus.

ii. Awards of stock, stock options, and stock appreciation rights. Use the dollar amount recognized for financial statement reporting purposes with respect to the fiscal year in accordance with the Statement of Financial Accounting Standards No. 123 (Revised 2004) (FAS 123R), Shared Based Payments.

iii. Earnings for services under non-equity incentive plans. This does not include group life, health, hospitalization or medical reimbursement plans that do not discriminate in favor of executives, and are available generally to all salaried employees.

iv. Change in pension value. This is the change in present value of defined benefit and actuarial pension plans.

v. Above-market earnings on deferred compensation which is not tax-qualified.

vi. Other compensation, if the aggregate value of all such other compensation (e.g. severance, termination payments, value of life insurance paid on behalf of the employee, perquisites or property) for the executive exceeds $10,000.

Mandatory Contract Provisions

Provisions:

Any contract or subcontract funded by this Agreement must contain the applicable provisions outlined in Appendix II to 2 C.F.R. Part 200. It is the responsibility of the sub-recipient to include the required provisions. The Division provides the following list of sample provisions that may be required:

(D) Davis-Bacon Act, as amended (40 U.S.C. 3141–3148). When required by Federal program legislation, all prime construction contracts in excess of $2,000 awarded by non-Federal entities must include a provision for compliance with the Davis-Bacon Act (40 U.S.C. 3141–3144, and 3146–3148) as supplemented by Department of Labor regulations (29 CFR Part 5, "Labor Standards Provisions Applicable to Contracts Covering Federally Financed and Assisted Construction"). In accordance with the statute, contractors must be required to pay wages to laborers and mechanics at a rate not less than the prevailing wages specified in a wage determination made by the Secretary of Labor. In addition, contractors must be required to pay wages not less than once a week. The non-Federal entity must place a copy of the current prevailing wage determination issued by the Department of Labor in each solicitation. The decision to award a contract or subcontract must be conditioned upon the acceptance of the wage determination. The non-Federal entity must report all suspected or reported violations to the Federal awarding agency. The contracts must also include a provision for compliance with the Copeland "Anti-Kickback" Act (40 U.S.C. 3145), as supplemented by Department of Labor regulations (29 CFR Part 3, "Contractors and Subcontractors on Public Building or Public Work Financed in Whole or in Part by Loans or Grants from the United States"). The Act provides that each contractor or subrecipient must be prohibited from inducing, by any means, any person employed in the construction, completion, or repair of public work, to give up any part of the compensation to which he or she is otherwise entitled. The non-Federal entity must report all suspected or reported violations to the Federal awarding agency.

(E) Contract Work Hours and Safety Standards Act (40 U.S.C. 3701–3708). Where applicable, all contracts awarded by the non-Federal entity in excess of $100,000 that involve the employment of mechanics or laborers must include a provision for compliance with 40 U.S.C. 3702 and 3704, as supplemented by Department of Labor regulations (29 CFR Part 5). Under 40 U.S.C. 3702 of the Act, each contractor must be required to compute the wages of every mechanic and laborer on the basis of a standard work week of 40 hours. Work in excess of the standard work week is permissible provided that the worker is compensated at a rate of not less than one and a half times the basic rate of pay for all hours worked in excess of 40 hours in the work week. The requirements of 40 U.S.C. 3704 are applicable to construction work and provide that no laborer or mechanic must be required to work in surroundings or under working conditions which are unsanitary, hazardous or dangerous. These requirements do not apply to the purchases of supplies or materials or articles ordinarily available on the open market, or contracts for transportation or transmission of intelligence.

(F) Rights to Inventions Made Under a Contract or Agreement. If the Federal award meets the definition of "funding agreement" under 37 CFR §401.2 (a) and the recipient or subrecipient wishes to enter into a contract with a small business firm or nonprofit organization regarding the substitution of parties, assignment or performance of experimental, developmental, or research work under that "funding agreement," the recipient or subrecipient must comply with the requirements of 37 CFR Part 401, "Rights to Inventions Made by Nonprofit Organizations and Small Business Firms Under Government Grants, Contracts and Cooperative Agreements," and any implementing regulations issued by the awarding agency.

(G) Clean Air Act (42 U.S.C. 7401–7671q.) and the Federal Water Pollution Control Act (33 U.S.C. 1251–1387), as amended—Contracts and subgrants of amounts in excess of $150,000 must contain a provision that requires the non-Federal award to agree to comply with all applicable standards, orders or regulations issued pursuant to the Clean Air Act (42 U.S.C. 7401–7671q) and the Federal Water Pollution Control Act as amended (33 U.S.C. 1251–1387). Violations must be reported to the Federal awarding agency and the Regional Office of the Environmental Protection Agency (EPA).

(H) Mandatory standards and policies relating to energy efficiency which are contained in the state energy conservation plan issued in compliance with the Energy Policy and Conservation Act (42 U.S.C. 6201).

(I) Debarment and Suspension (Executive Orders 12549 and 12689)—A contract award (see 2 CFR 180.220) must not be made to parties listed on the governmentwide Excluded Parties List System in the System for Award Management (SAM), in accordance with the OMB guidelines at 2 CFR 180 that implement Executive Orders 12549 (3 CFR Part 1986 Comp., p. 189) and 12689 (3 CFR Part 1989 Comp., p. 235), "Debarment and Suspension." The Excluded Parties List System in SAM contains the names of parties debarred, suspended, or otherwise excluded by agencies, as well as parties declared ineligible under statutory or regulatory authority other than Executive Order 12549.

(J) Byrd Anti-Lobbying Amendment (31 U.S.C. 1352)—Contractors that apply or bid for an award of $100,000 or more must file the required certification. Each tier certifies to the tier above that it will not and has not used Federal appropriated funds to pay any person or organization for influencing or attempting to influence an officer or employee of any agency, a member of Congress, officer or employee of Congress, or an employee of a member of Congress in connection with obtaining any Federal contract, grant or any

other award covered by 31 U.S.C. 1352. Each tier must also disclose any lobbying with non-Federal funds that takes place in connection with obtaining any Federal award. Such disclosures are forwarded from tier to tier up to the non-Federal award.

(K) See §200.322 Procurement of recovered materials.

APPENDIX III TO PART 200—INDIRECT (F&A) COSTS IDENTIFICATION AND ASSIGNMENT, AND RATE DETERMINATION FOR INSTITUTIONS OF HIGHER EDUCATION (IHES)

A. GENERAL

This appendix provides criteria for identifying and computing indirect (or indirect (F&A)) rates at IHEs (institutions). Indirect (F&A) costs are those that are incurred for common or joint objectives and therefore cannot be identified readily and specifically with a particular sponsored project, an instructional activity, or any other institutional activity. See subsection B.1, Definition of Facilities and Administration, for a discussion of the components of indirect (F&A) costs.

1. Major Functions of an Institution

Refers to instruction, organized research, other sponsored activities and other institutional activities as defined in this section:

a. *Instruction* means the teaching and training activities of an institution. Except for research training as provided in subsection b, this term includes all teaching and training activities, whether they are offered for credits toward a degree or certificate or on a non-credit basis, and whether they are offered through regular academic departments or separate divisions, such as a summer school division or an extension division. Also considered part of this major function are departmental research, and, where agreed to, university research.

(1) *Sponsored instruction and training* means specific instructional or training activity established by grant, contract, or cooperative agreement. For purposes of the cost principles, this activity may be considered a major function even though an institution's accounting treatment may include it in the instruction function.

(2) *Departmental research* means research, development and scholarly activities that are not organized research and, consequently, are not separately budgeted and accounted for. Departmental research, for purposes of this document, is not considered as a major function, but as a part of the instruction function of the institution.

b. *Organized research* means all research and development activities of an institution that are separately budgeted and accounted for. It includes:

(1) *Sponsored research* means all research and development activities that are sponsored by Federal and non-Federal agencies and organizations. This term includes activities involving the training of individuals in research techniques (commonly called research training) where such activities utilize the same facilities as other research and development activities and where such activities are not included in the instruction function.

(2) *University research* means all research and development activities that are separately budgeted and accounted for by the institution under an internal application of institutional funds. University research, for purposes of this document, must be combined with sponsored research under the function of organized research.

c. *Other sponsored activities* means programs and projects financed by Federal and non-Federal agencies and organizations which involve the performance of work other than instruction and organized research. Examples of such programs and projects are health service projects and community service programs. However, when any of these activities are undertaken by the institution without outside support, they may be classified as other institutional activities.

d. *Other institutional activities* means all activities of an institution except for instruction, departmental research, organized research, and other sponsored activities, as defined in this section: indirect (F&A) cost activities identified in this Appendix paragraph B, Identification and assignment of indirect (F&A) costs; and specialized services facilities described in §200.468 Specialized service facilities of this Part.

Examples of other institutional activities include operation of residence halls, dining halls, hospitals and clinics, student unions, intercollegiate athletics, bookstores, faculty housing, student apartments, guest houses, chapels, theaters, public museums, and other similar auxiliary enterprises. This definition also includes any other categories of activities, costs of which are "unallowable" to Federal awards, unless otherwise indicated in an award.

2. Criteria for Distribution

a. *Base period.* A base period for distribution of indirect (F&A) costs is the period during which the costs are incurred. The base period normally should coincide with the fiscal year established by the institution, but in any event the base period should be so selected as to avoid inequities in the distribution of costs.

b. *Need for cost groupings.* The overall objective of the indirect (F&A) cost allocation process is to distribute the indirect (F&A) costs described in Section B, Identification and assignment of indirect (F&A) costs, to

Polk County

Board of County Commissioners

Agenda Item R.55. 11/7/2023

SUBJECT

Approve Services Authorization 2023-021-01 with the University of Central Florida for the Central Regional Utility Service Area - Central Regional Water Treatment Facility Process Monitoring and Performance Assessment project ($162,900 lump sum expense).

DESCRIPTION

Research Agreement 2023-021 with the University of Central Florida (UCF) was approved on April 18, 2023. The County owns and operates the 4.0 million gallons per day (MGD) Central Regional Water Treatment Facility, which was placed on-line in November 2019, in the County's Central Regional Utility Service Area. The Central Regional Water Treatment Facility is the primary source of supply in this region. The County has requested that UCF perform an evaluation of treatment processes to determine effectiveness of the ozonation process on water quality, assess condition of the activated carbon bed, and evaluate the finished water quality entering the distribution system. The County has requested that UCF provide these sampling, evaluation, analysis, and reporting services.

RECOMMENDATION

Request approval of Services Authorization 2023-021-01 with the University of Central Florida for the Central Florida for the Central Regional Utility Service Area - Central Regional Water Treatment Facility Process Monitoring and Performance Assessment project at a lump sum cost of $162,900.

FISCAL IMPACT

Funding is available in the Water Plant Operations/Treatment Budget.

Services Authorization No. 2023-021-01

for

Research Agreement dated April 18, 2023

All of the terms and conditions of the Research Agreement between the parties dated April 18, 2023 are hereby incorporated by reference.

Project Name	Central Regional Utility Service Area – Central Water Treatment Facility Process Monitoring and Performance Assessment
Scope of Services	See attached Exhibit "A"
Duration (in days)	Approximately 600 days or 20 months; This authorization shall be in full force and effect until all services identified in Exhibit "A" are complete.
Compensation (Fixed Price/Lump Sum)	$162,900
Special Contract Conditions (if any)	N/A
Budget Source/Availability	42011. 660536012.5331010 (Water Plant Operations/Treatment)

IN WITNESS WHEREOF, the parties hereto have executed this authorization on this __ day of _____, 2023.

Exhibit A

Scope of Services
Work Authorization No. 23-021-01
Board of County Commissioners of Polk County

Central Regional Utility Service Area
Central Water Treatment Facility Process Monitoring and Performance Assessment

The University of Central Florida Board of Trustees (UCF), a public body corporate, organized under the State of Florida with an office located at 12201 Research Parkway, Suite 501, Orlando, Florida 32826 entered into a Research Agreement (AGREEMENT) with Polk County, Florida (COUNTY), a political subdivision of the State of Florida, on April 18, 2023. Pursuant to this AGREEMENT, the COUNTY has requested UCF's Department of Civil, Environmental and Construction Engineering (CECE) to perform ozone and granular activated carbon (GAC) process performance studies at the COUNTY's Central Water Treatment Facility (STUDY). The Central Water Treatment Facility (WTF) supplies the Central Region Utility Service Area (CRUSA) which is also comprised of other WTFs and interconnected systems that are not included in this STUDY.

MOTIVATION

The COUNTY owns and operates a 4 million gallons per day (MGD) Central WTF that treats groundwater through ozone addition followed by GAC treatment prior to chlorination to remove total sulfide and to meet disinfection by-products regulatory requirements. It should be noted that approximately twenty percent of the ozonated flow is by-passed around the GAC system to extend the bed useful life. The plant was first placed on-line in November 2019 (design engineer: Reiss Engineering Inc., 1016 Spring Villas Point, Winter Springs, FL 32708).

The COUNTY has requested that UCF CECE assist in an evaluation that includes the monitoring and assessment of the COUNTY's Central WTF treatment processes. The purpose of this research is to review the effectiveness of the ozone contact and destruct basin with respect to water quality, examine the condition of the activated carbon that comprises the GAC bed, assess if the beds are microbiologically active, and evaluate finished water quality and impact of blending bypass into the distribution system in terms of organic, inorganic, and microbial quality entering the water distribution system.

A. RESEARCH SCOPE

PHASE 100 – PROJECT MANAGEMENT COMPONENT

Task 101 – Project Management and Communication

Coordination of UCF research activities with the COUNTY will occur during the STUDY. Process-related data gathering activities will require COUNTY and UCF technical personnel to discuss schedule for planning purposes. This task consists of those needs required for project management for the STUDY to include scheduling and coordinating activities with the COUNTY and others (if required). UCF will communicate to COUNTY operations personnel UCF's data needs so that the appropriate means for gaining access to the appropriate sample location can be established; site-specific details regarding the differentiation between UCF-collected samples and COUNTY-collected samples will be clarified prior to any sampling activities being performed in support of STUDY.

UCF quality assurance and control methods will be implemented as the STUDY progresses. *Note: It is established herein that the COUNTY does not require a certification of the analysis for UCF's laboratories as this STUDY is applied research.*

Task 102 – Site Visits and Progress Conference Calls

This work authorization will allow UCF to perform site visits at the Central WTF for at least twelve (12) site visits. An initial effort will be for UCF to travel to the Central WTF to gain familiarity with each facility, its' process operation, and site-specific conditions for the STUDY (see Task 203 and Section E Responsibilities). In addition, a progress conference call will be held every other month to discuss project schedule and implementation needs.

PHASE 200 – RESEARCH COMPONENT

COUNTY will assist UCF in the collection of aqueous (process water streams) or solid (granular carbon media) process-related samples. UCF will provide the COUNTY with a 'script' (test plan) for the anticipated on-site sample activities, such as sample identification needs, sample bottle storage requirements and GAC sample frequency, as examples. Sample location access will vary depending on whether it is aqueous (e.g., raw supply; process stream; point-of-entry) or solid (activated carbon).

Task 201: Raw Water Supply Quarterly Sampling Events

General Water Quality. The COUNTY's Central WTF is supplied from three wells located on-site (Photo 1). These three groundwater wells will be sampled five times at quarterly intervals over the period of 17 months for the following water quality parameters: alkalinity, bromide, calcium, chlorine (residual), conductivity, iron, nitrate, oxidation reduction potential (ORP), pH, sulfate, sulfide (Total), SUVA-254, temperature, total organic carbon (as NPDOC), turbidity, and UV-254. At the time of each sampling event, process operation related information (flow, time, location) will be collected.

Photo 1. One of three Central WTF On-site Wells is shown in this photograph.

Adenosine Triphosphate. Adenosine triphosphate (ATP) will be evaluated at each of the well sites on a quarterly basis. The test will be used to monitor ATP levels in water as a quality indicator delineating the microbial activity of any sample. ATP contained within living cells and particulate matter (microbial ATP will be assessed. Dissolved ATP outside of living cells (non-microbial ATP), freely available in the water sample is not assessed. Total ATP is the sum of non-microbial, "free", ATP and microbial, bound with in a cell, or cellular, ATP. In this sampling goal, microbial ATP will be the focus. The kits used for the ATP filter the water and obtain microbial ATP directly, through a step of lysing the cells, whereas prior methods have used wands to collect both total and free ATP, where microbial ATP had to be calculated from the equation shown in Equation (1):

$$\textit{Total ATP} = \textit{Free ATP} + \textit{Microbial ATP, therefore, Microbial ATP} = \textit{Total ATP} - \textit{Free ATP} \quad (1)$$

Task 202: Process Evaluation

UCF will evaluate the Central WTF's ozone (oxidation system) and GAC (adsorption system) unit operations as described in this Task. Key water quality of interest for the ozone and GAC system may in part or whole include adenosine triphosphate (ATP), alkalinity, bromide, calcium, chlorine (residual), conductivity, iron, nitrate, oxidation reduction potential (ORP), pH, sulfate, sulfide (Total), SUVA-254, temperature, total organic carbon (as NPDOC), turbidity, and UV-254.

Ozone System. Pre-ozonation provides many benefits to the water treatment process, in particular dissolved organics removal (natural organic matter, NOM, and organic micropollutants). Ozone oxidation breaks down long chain molecules into short chained organics such as aldehydes, ketoacids, and carboxylic acids which are more easily biodegradable with the use of a downstream granular activated carbon (GAC). The ozone treatment process consists of an ozone generator, feed-gas supply, ozone contactor, and an ozone destruct system. Operation monitoring information (flow, time, location) is necessary for STUDY as well as monitored water quality (such as the water quality listed under task 202 (above paragraph) and in addition total trihalomethanes and haloacetic acids, if such data is available). ATP will be assessed at this unit operation to assist in assessment of the two ozone destruct chambers for quality changes. The ozone process will be evaluated in terms of water quality and process-control mass transfer and performance effectiveness. **Photo 2** presents a photograph of the ozone contact and destruct chamber.

Photo 2. The ozone contact and destruct chamber.

GAC System. The activated-carbon process will be evaluated relative to its process operation performance. This will include process-control water quality evaluations (mass transfer parameter time-series comparisons), water quality, microbiological activity, and other adsorption conditions. There are two sample types which will be collected in this GAC subtask: (a) water quality samples; (b) solid GAC samples directly from the bed to be evaluated by (i) physical and (ii) microbiological means.

The Model 12-40 Adsorption System is a unit consisting of one (1) vertical pressure vessel, containing 40,000 pounds of granular activated carbon (GAC); four of the Model 12-40 containers comprise the granular activated carbon process at the Central WTF; each of the four vessels are complete with underdrain and carbon transfer piping. **Figure 1** provides an overview of the GAC process flow stream.

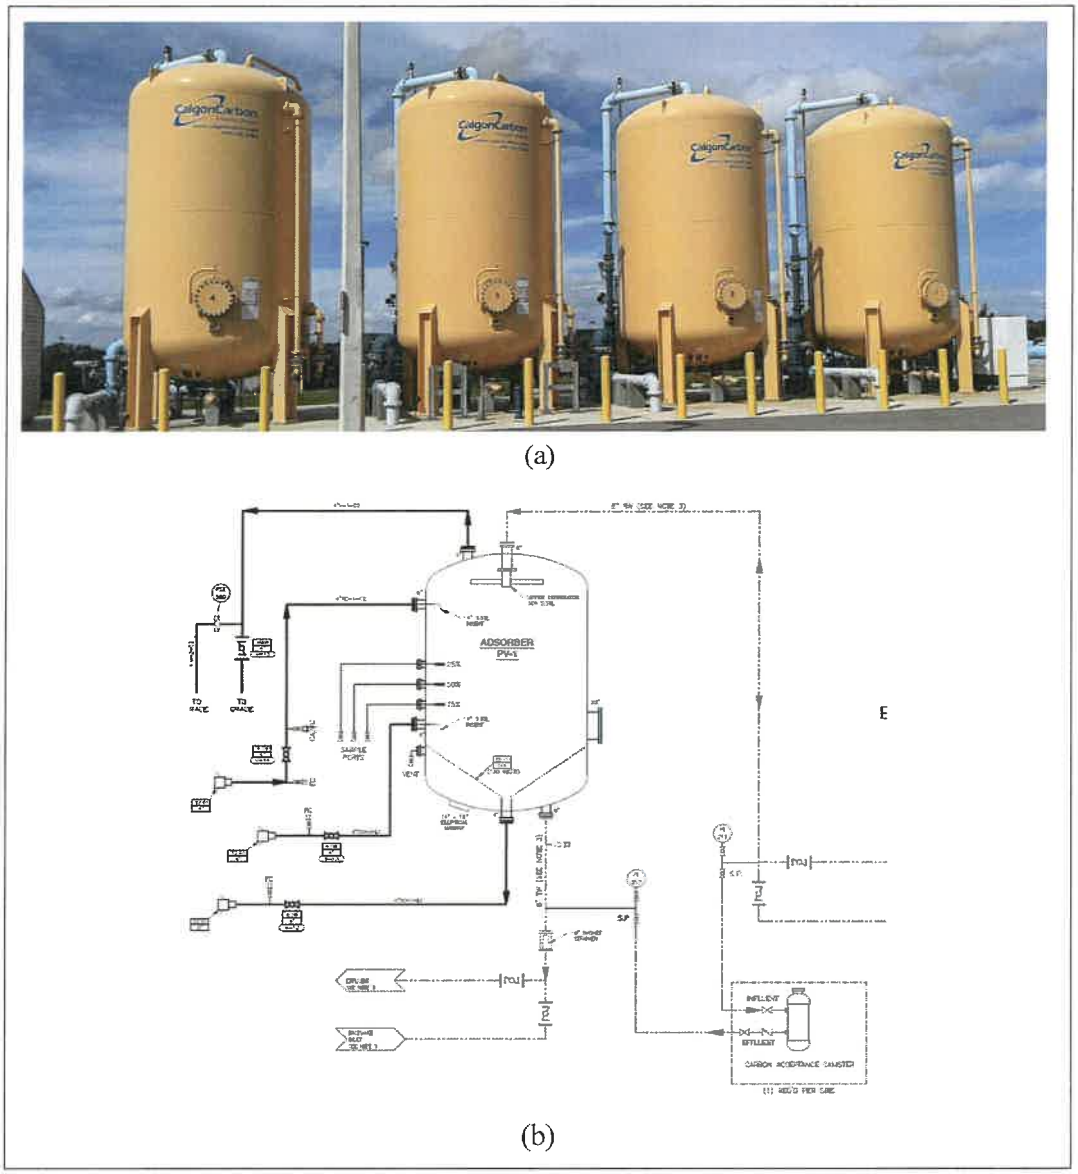

Figure 1. Central WTF Adsorber PV-1 GAC Vessels (a) Actual Installed; (b) Process Flow Diagram

a) **Water Quality and Solid GAC Sample Collection Events.** Water quality samples are to be collected from the 25%, 50% and 75% sample locations on each of the four GAC vessels. After each water quality sampling, the COUNTY will be required to remove the water sample tap covers at the 25%, 50% and 75% GAC vessel locations in order to obtain solid carbon media samples. It is planned to obtain the carbon solid samples necessary for the analysis in this component of the research via access to stainless-steel bed sampling locations, as depicted in **Figure 2**. After the water quality and solid samples are obtained by UCF, stainless-steel sample ports (once disinfected) will be reinserted/reinstalled back to the GAC vessels by the COUNTY. Parameters of critical interest are TOC, UV-254, sulfate, calcium and alkalinity. Other parameters will be assessed in the investigation as required.

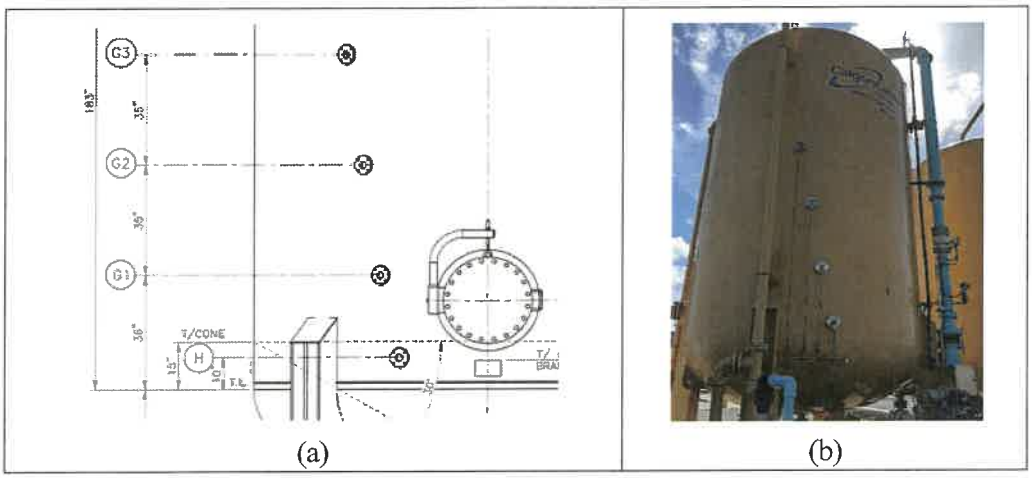

Figure 2. GAC Sample Port Detail (a) Schematic and (b) Vessel 1 Locations.

b) Solid Activated Carbon Analysis Collection Events

(i) ***Carbon integrity testing***. Approximately 100g of carbon will be collected at each of the bed depth sample ports; 25%, 50%, and 75% . This portion of the solid GAC samples will be submitted to the original manufacturer (Calgon Carbon Corporation, A Kuraray Company, 300 GSK Drive, Moon Township, PA 15108) to obtain abrasion resistance (particle integrity), particle size uniformity coefficient (effective size), ash content (inorganic quality), metals content (energy dispersive x-ray). An "Iodine" test for the carbon's surface oxide capacity will be performed (iodine number is a measure of the iodine adsorbed in the pores and, as such, is an indication of the pore volume available in the activated carbon of interest; typically, iodine numbers ranging from 600 to 1100).

(ii) ***Microbiological testing***. In treatment systems that are operated over longer periods of time, GAC surfaces can be colonized by microorganisms, which will eventually establish active biofilms, giving rise to the so-called biological activated carbon (BAC) process. While bacteria have a significant and recognized function in BAC filters, less is known about microbial community composition and dynamics in such filters. Approximately 50g of the carbon collected from the 25% and 75% bed depth sample ports will undergo microbial microbiome characterization to answer the question: which microorganisms are present? The microbial community structure will give important information about what biological and chemical reactions are occurring within filter beds. DNA will be extracted from GAC samples and sequenced on the Illumina-MiSeq platform and analyzed by the Qiime2 pipeline. Should the budget allow, a limited use of qPCR will be employed to target specific biomarkers to determine what specific enzymatic functions are occurring with the filter beds.

Task 203: Data Compilation and Analysis

UCF will compile the analytical results and data observations gained in the evaluation phase of the STUDY and perform data analysis on the collected information, considering existing COUNTY or other entity historical data and information in this Task. The analysis will focus on the following: sulfide removal effectiveness of ozone addition; the condition of the activated carbon that comprises the GAC beds and their microbiologically active status; and project a carbon replacement timeline based on water quality uptake and breakthrough information. Quality assurance and associated control charts will be developed for water quality parameters (where applicable). Precision and/or accuracy will be reported for specific parameters as needed.

PHASE 300 – REPORTING SERVICES

Task 301: Reporting Component

At the end of month 15 of the STUDY UCF will prepare an electronic version of a DRAFT REPORT and deliver to the COUNTY for their review. The COUNTY will provide to UCF one set of combined comments of COUNTY-compiled draft review comments on the DRAFT REPORT within 10 business days of receipt.

At the end of month 17 of the STUDY UCF will prepare and deliver to COUNTY a FINAL REPORT, considering COUNTY review comments of the DRAFT REPORT and report format quality requirements. A minimum of one hard copy and one electronic copy will be provided to the COUNTY at completion of the research.

Note: Additional reporting in the form "progress reports" every-other month; it is also possible that if accepted for a conference for presentation this may result in publication in Proceedings or peer-review literature (as a possibility).

B. SCHEDULE

The STUDY is anticipated to require approximately 20 months per the schedule shown in **Table 1**, Schedule by Month. UCF will proceed with the services identified herein immediately upon receipt of an executed copy of this Authorization and a formal Notice-to-Proceed from the County. This authorization shall be in full force and effect until the UCF completes all services as described herein and any subsequent modifications hereto.

Table 1. Schedule by Month

TASK	1	2	3	4	5	6	7	8	9	10	11	12	13	14	15	16	17	18	19	20
Task 101. Project Management and Communication	✓	✓	✓	✓	✓	✓	✓	✓	✓	✓	✓	✓	✓	✓	✓	✓	✓	✓	✓	✓
Task 102. Site Visits	✓	✓	✓	✓	✓	✓	✓	✓	✓	✓	✓	✓	✓	✓	✓	✓	✓			
Task 201: Raw Water Supply Quarterly Sampling Event	✓			✓			✓			✓			✓							
Task 202: Process Evaluation			✓	✓	✓	✓	✓	✓	✓	✓	✓	✓	✓	✓	✓	✓				
Task 203: Data Compilation and Analysis				✓	✓			✓	✓		✓	✓		✓	✓		✓	✓		
Task 301: Reporting Component (progress updates)		✓		✓		✓		✓		✓		✓		✓		✓		✓		

C. DELIVERABLES

UCF will provide STUDY findings in a reasonable manner. **Table 2** presents an anticipated schedule of deliverable dates for the STUDY.

Table 2. Deliverables Schedule (Basis: 12 months)

DELIVERABLE ITEM	DUE DATE
a. Task 301. Initial Draft Report for Review by County	End Month 17
b. Task 301: Final Report	End Month 20
c. Task 301: Every Other Month Report	Every other Month (see Table 1 – 9 events)

D. COMPENSATION

The COUNTY will compensate UCF for the services based on a lump-sum fee paid in 20 equal monthly installments of $8,145 for the duration of the project period. The cost breakdown for the STUDY is presented in **Table 3**. The cost will not exceed **$162,900** without prior mutual agreement of UCF and the COUNTY.

Table 3. UCF Research Cost for STUDY

This research STUDY is a UCF Level 1 Project.

Task	Description (See Scope for Details)	Cost ($)
101	Project Management and Communication	$2,220
102	Site Visits and Progress Conference Calls	$6,500
201	Raw Water Supply Quarterly Sampling Events	$5,750
202	Process Evaluation	$135,430
203	Data Compilation and Analysis	$8,500
301	Reporting Components	$4,500
Total STUDY		**$162,900**

E. RESPONSIBILITIES

COUNTY will provide to UCF the following information and services.

- Process-related data gathering activities will require COUNTY and UCF technical personnel to discuss schedule for planning purposes. COUNTY will assist UCF in the collection of aqueous (process water streams) or solid (granular carbon) process-related samples.
- Copies of operations data related to the ozone and GAC process, specifically any reports or analysis by the ozone manufacturer or it's representative entities.
- COUNTY will coordinate activities related to UCF's research involvement to determine site visit times and locations; the COUNTY will provide official representation at meetings where UCF is on-site; meetings with UCF will not occur without the presence of the COUNTY project manager or official designee (operations staff) unless previously agreed.
- COUNTY will provide access to the COUNTY facilities and appurtenances associated with research efforts. The COUNTY will provide personnel to assist in support of the STUDY.

F. Quality Assurance and Quality Control

A quality assurance project plan (QAPP) documents the planning, implementation, and assessment procedures for a particular project, as well as any specific quality assurance and quality control activities. It integrates the technical and quality aspects of the project to provide a "blueprint" for obtaining the type and quality of environmental data and information needed for a specific decision or use. Adherence to the UCF laboratory QAPP will provide better assurance of the reliability and accuracy of the environmental data collected, evaluated, used, or reported during the course of the STUDY.

Sample collection and water quality analyses will be performed in accordance with *Standard Methods for the Examination of Water and Wastewater* and the Environmental Protection Agency's *Methods for Chemical Analysis of Water and Wastes* and *Methods and Guidance for the Analysis of Water*. Only approved protocols will be used during the sample collection and evaluation program. This includes use of parameter specific holding times, container types, sample volumes, and preservative requirements.
Many of the activities performed by UCF will rely upon historical information such as water quality data and reports, in the implementation of this Project. UCF will follow its QAPP for field and laboratory facilities. UCF has developed its plan and is based in part on the document, Guidance for Quality Assurance Project Plans (EPA, Office of Environmental Information, EPA/240/R-02/009, December 2002). The plan has been developed to briefly describe basic activities involved with the acquisition of project information whether generated from direct measurement (laboratory or field) activities, collected from other sources, or compiled from computerized databases (should they exist). Qualitative data and information will also be relied upon in the conduct of this study.

In order to meet the objectives of the study, the QAPP will be utilized for the collection and analysis of data. Regarding the analytical testing of water samples, the appropriate portions of USEPA's Handbook of Analytical Quality Control in Water and Wastewater Laboratories and APHA-AWWA-WEF's Standard Methods for the Examination of Water and Wastewater (SM) shall be employed. In addition, the QAPP developed specifically for the project will be based on the following fundamental principles:

- The achievement of quality is the responsibility of both the person performing the work and his or her supervisor assigned to the work. The degree of application of the QAPP criteria is dependent on the impact of activity (planning, bench and pilot testing, maintenance, operation, etc.) on the objectives of the program. This is accomplished through the prudent use of "graded" quality assurance. The amount and extent of review of quality affecting activities will be commensurate with the importance of the activity to meeting the stated objectives of the overall program.
- Testing activities shall be controlled through the use of test plans, the use and adherence to test protocols and record keeping using technical notebooks and files.

Records and Data Management. The ultimate success of this project depends on the adequacy of the quality of the environmental data collected. For purposes of this project, existing and new data will be managed. Several sets of collections logs will be maintained during the field sample collection phase of the research program to document quality processes have been adhered to during implementation. Data management tasks will be used to trace the path of the data from their generation in the field or laboratory to their final use and storage. Standard-of-care record keeping, document control and approaches used for data storage and retrieval on electronic media will be maintained during project implementation. The records, forms and data control methods of importance to the project include the following formats: Field Data Collection Records; Report of Analysis (from the laboratory); Operation Data Summary (taken at time of sampling); and, Instrument and Equipment Inspection, Maintenance and Calibration Logs.

Sample Collection. Sample collection and water quality analyses will be performed. Only approved protocols will be used during the sample collection and evaluation program. This includes use of parameter specific holding times, container types, sample volumes and preservative requirements. Sampling containers (including caps) that do not contain a preservative or dechlorinating agent will be rinsed with

the water being collected prior to sample collection. The containers and caps will not be rinsed otherwise. The caps will be carefully handled during container filling to avoid sample contamination. Sufficient sample volumes as per the laboratory SOP will be collected to allow multiple measurements from the sample bottle if the results obtained in the field do not meet quality control (QC) requirements. Samples containing volatile compounds (if any) will be filled to eliminate headspace using appropriate sample containers with caps and Teflon-lined septas. The samples will be transported on the same day of sampling. Samples will be analyzed within appropriate holding times as identified with this QAPP, and proper records will be established for each water sample. Samples to be collected without headspace (to avoid aeration or constituent volatilization) will be checked for air bubbles immediately after sealing the container with the cap and septa. If air bubbles are found, the sample will be opened, filled with additional sample, and repeated until no bubbles are present.

Table A1 provides a typical summary of analytical methods for use in the field. This equipment will be calibrated in the lab or field on the same day of use, checked immediately prior to use in the field and recalibrated if necessary. Calibration will be checked approximately once every 2-hours throughout the duration of testing. These checks include the use of standard solutions (such as pH buffers and potassium iodide for conductivity) and/or blanks. Care will be taken to calibrate instruments approximating the anticipated range of measurement. Equipment calibration activities will be recorded within a field logbook. **Table A2** provides a partial listing of preservation and holding times for water quality analysis, and **Table A3** highlights the typical laboratory water quality analysis that may be performed and is tabulated in terms of the equipment used, the methodology applied, method detection limit, accuracy, precision, and sampling information including volume, container type, preservative and hold time.

G. Additional Provisions

If the research tasks required are different from those items presented herein, or if the COUNTY desires additional research, the resultant changes in scope will serve as a basis for amending the research scope as agreed to by the COUNTY and UCF. Additionally, UCF shall be entitled to rely upon the accuracy of data and information collected and provided by the COUNTY and others without independent review or evaluation. UCF is not responsible for the means, methods, sequences, techniques, or procedures of the COUNTY. Administrative and contractual points of contact for the Specific Authorization presented herein are as stated in the section, "Notices of the Research Agreement" of the Master Agreement.

The remainder of this page has been left intentionally blank.

APPENDIX A

Table A-1. Summary of Analytical Methods Anticipated for Use in the Field

Test	Method Reference Number (Standard Methods); Instrument	Range / Resolution	Calibration Procedures
Chlorine, total and free	DR 890 Portable Colorimeter – SM 4500-Cl F DPD Colorimetric Method	0 – 5 mg/L Cl_2 range; 0.01 mg/L Cl_2 resolution	Use known concentrations of sodium hypochlorite into chlorine demand-free Milli-Q water (6-point calibration curve from 0 to 4 mg/L)
Conductivity	LaMotte Con 5 Field Probe (with temperature compensation)	0 – 20 mS Range 1 µS resolution	None
Dissolved Oxygen and (Oxidation Reduction Potential)	YSI 550A Sensor	0 – 50 mg/L O_2 Range	Calibrated against manufacturer's internal method and frequent membrane inspection
Hydrogen Sulfide	LaMotte 4630 Drop Count Method	0.01 mg/L S resolution	Check with samples collected for laboratory analysis using zinc acetate preservation method.
pH	LaMotte pH 5 Series Field probe (with temperature compensation)	0 – 14 Range, 0.01 resolution	Commercial pH calibration buffers, pH 4, 7, 10. Calibrated prior to analyzing any batch of samples using 2-point calibration with standard buffers
Temperature	Mercury-filled Celsius Thermometer	0 – 100 °C; 0.1 °C resolution	Calibrated against NIST-certified thermometer
Turbidity	EPA 180.1 Nephelometric Turbidity	0.01-800 NTUs 0.01	Calibrated daily with 10 NTU and full curve annually and as needed.

SM = Standard Methods; N/A = Not Applicable

Table A-2: Preservation and holding times for water quality analysis

Parameter	Collection Amount/ Vessel	Preservative	Holding Time
Alkalinity	200 mL plastic or glass	Refrigerate 4 °C	14 days
Anions	100 mL plastic or glass	Refrigerate 4 °C	28 days
Cations	100 mL plastic	HNO_3 to pH < 2	6 months
pH	50 mL plastic or glass	N/A	Analyze Immediately
TOC	100 mL glass	Refrigerate 4 °C H_3PO_4 to pH < 2	7 days
UV_{254}, Color, Turbidity	100 mL plastic or glass	N/A	Analyze Immediately

APPENDIX A

Agenda Item R.56. 11/7/2023

SUBJECT

Approve Consultant Services Authorization 18-067-03, Modification No. 1 with Wright-Pierce, Inc. to provide professional engineering services for the Upgrade Lift Station No. 253 (Providence) project. ($30,076 increase; revised not-to-exceed, one-time expense of $221,531 and time extension of 151 days)

DESCRIPTION

Consultant Services Authorization 18-067-03 was approved December 14, 2021 for the upgrade of Lift Station (LS) No. 253 which is located within the Providence development. Following the completion of the project's final design phase, the County requested additional revisions to the design to accommodate additional equipment, particularly a pad-mounted diesel-powered pump.

The modification was requested in response to changing regulatory concerns:

· Changes to Chapter 62-604.400, F.A.C., Design/Performance Considerations, added pumping equipment as an option for emergency pumping along with stand-by generators.

· Lift Station 253 is a master lift station located adjacent to homes and private property.

· Emergency pumping of regional lift stations is often inadequate for spill prevention.

· It is becoming common practice among utility providers to include back up pumps and stand by generators on large lift stations.

· The redesign of Lift Station 253 offered an opportunity to put "belt and suspenders" protection in place in a residential neighborhood.

· Frequent lightning strikes in the Northeast region threaten the reliability of stand-by generators.

Modification No. 1 (attached) accounts for the additional requested design services, additional construction progress meetings and the time extension necessary to complete the project.

RECOMMENDATION

Request Board approve Consultant Services Authorization 18-067-03, Modification No. 1 with Wright-Pierce, Inc. to provide professional engineering services for the Upgrade

Lift Station No. 253 (Providence) project. ($30,076 increase; revised not-to-exceed, one-time expense of $221,531 and time extension of 151 days)

FISCAL IMPACT

Funding is available in the Utilities five-year Community Investment Program budget.

Exhibit A
Consultant Services Authorization
18-067-03 Modification No. 1
Upgrade Lift Station No. 253 (Providence)

Wright-Pierce, Inc., (Consultant) entered into a Master Consulting Agreement (Agreement) with Polk County, Florida (County) on December 18, 2018. Pursuant to this Agreement, the County has requested that the Consultant provide certain professional services in support of the Upgrade Lift Station No. 253 (Providence) Project as further detailed in this Consultant Services Authorization.

A. Project Background and Description

The Upgrade Lift Station No. 253 (Providence) Project generally includes design and construction to replace the LS253 pumps, guide rails, piping, wet well lid, lift station slab, lift station fencing, electrical service, controls, and generator.

The Consultant completed the final design on March 17, 2021. Following completion of final design, the County requested revisions to the design to accommodate additional equipment, particularly a pad-mounted diesel-powered pump. These revisions were incorporated into the design during the construction phase of the project.

The Consultant Services Authorization was originally estimated to be complete in March 2022 and extended to September 29, 2023. The contract time for construction of this project is being extended to February 27, 2024. The contract time extension primarily is the result of significantly longer equipment lead times associated with the COVID-19 impacts on the manufacturing industry. This has resulted in additional required services. Consequently, this modification addresses the additional services which consist of additional project management, additional meetings, and additional site visits.

B. Scope of Services

Upon authorization to proceed from the County, the Consultant will provide the following identified services. The Consultant shall ensure that all design, bid, and construction documents produced by the Consultant or their subconsultants for the County will be consistent with the Polk County USSM, latest edition, and other County requirements. This authorization shall be in

full force and effect until the Consultant completes all services as described in the Consultant Services Authorization and any subsequent modifications hereto.

Phase 100 – Project Management

Task 101 – Project Management

This task consists of an additional twenty-one months of overall management of the Project including contract administration, budget management, invoicing, monthly status reports, scheduling, and coordination with the County and Consultant's subconsultants extending Projection Management service through the end of February 2024.

Task 102 –Meetings

No change.

Phase 200 – Support Services

No change.

Phase 300 – Preliminary Design

No change.

Phase 400 – Final Design Documents

No change.

Phase 500 – Permitting Services

No change.

Phase 600 – Bid Phase Services

No change.

Phase 700 – Construction Administration Services

These services will be performed during construction of the Project.

The construction duration was expected to complete August 19, 2023. The project construction has been extended, and the attached Modification No. 1 reflects the additional scope to be amended to the contract in addition to the originally proposed services.

Task 701 – Pre-Construction Meeting

No change.

Task 702 – Preliminary Matters and Contract Documents

No change.

Task 703 – Shop Drawing Review

No change.

Task 704 – Construction Progress Meetings

This tasks consists of attending an additional eleven (11) construction progress meetings.

Task 705 – Construction Site Visits

This tasks consists of conducting an additional four (4) site visits.

Task 706 – Applications for Payment

No change.

Task 707 – Requests for Information

No change.

Task 708 – Change Orders

No change.

Task 709 – Substantial Completion

No change.

Task 710 – Project Close-Out

No change.

C. Deliverables

No change.

D. Schedule

The projected schedule for the performance of services described herein is included as **Attachment A-1**. Delivery of the schedule may be in other electronic formats so long as they accurately portray the approved scope of services with sufficient detail subject to staff approval.

E. Compensation

This modification increases the compensation by a not-to-exceed cost of **$30,076.00**. Compensation for the services performed under this Consultant Services Authorization shall be on an hourly, not-to-exceed basis using the current hourly rate schedule as set forth in Master Consulting Agreement 18-067. Other direct costs or expenses incurred in connection with this Consultant Services Authorization will not be invoiced as these expenses have been accounted for in the rate multiplier associated with the Master Consulting Agreement referenced above. A summary of the estimated labor costs and reimbursable expenses is provided in **Attachment A-2** for reference only. Each invoice submittal shall include a tabular summary of the originally estimated labor costs by phase in accordance with **Attachment A-2**, fees invoiced to date, and the balance remaining per phase. The transfer of funds between defined phases is not permitted unless approved in advance in writing by the County Utilities Director. To request consideration for such a transfer, the Consultant must submit satisfactory written justification to transfer unused funds from phases with completed tasks or tasks clearly tracking under budget to phases with tasks requiring additional funding. In addition, the transfer of funds shall not exceed the total authorized fee for the Project.

The Consultant will minimally provide a consultant invoice summary with each invoice, based on a mutually agreed-upon breakdown of phases and tasks in **Attachment A-2** that reflect the effort and deliverables submitted to the County. The summary will depict the overall phases, associated budgets, amounts invoiced to date, and balance remaining. Invoices for compensation submitted by the Consultant will include the reviewed and approved consultant invoice summary, an updated Project schedule, applicable notarized affidavits, and the monthly status report.

Invoices for not-to-exceed projects shall be accompanied by time and task records for all billable hours appearing on the invoice. Additional documentation may be requested by the County and, if so requested, shall be furnished by the Consultant to the County Auditor's satisfaction. In addition, all invoices shall be submitted with the Consultant Services Authorization number,

purchase order number, and the Polk County Utilities Project and Records Room numbers on the invoice.

The Consultant agrees that, in the event that design errors and / or omissions are discovered during construction, all services rendered by the Consultant to correct said design errors and / or omissions will be considered out-of-scope services and shall not be invoiced to the County.

F. County's Responsibilities

The County will provide the following information to the Consultant and / or perform the following services related to the Project:

- Provide access to the site for all site visits.

G. Assumptions

The Scope of Services and compensation arrangement outlined in this Consultant Services Authorization are based on the following assumptions:

- Construction is expected to be completed by February 2024.

Subject: RFP 18-539, Utilities Design Services & Regulatory Support Services

Dear Mr. Phillips,

As requested, the following is our information regarding overhead multipliers and personnel hourly rates for the Utilities Design Services & Regulatory Support Services Contract with the Polk County. These hourly billing rates for individual classifications will be used through the duration of the Contract, unless otherwise agreed upon by both parties.

The Wright-Pierce standard multiplier is 3.08, which includes overhead, benefits, and our target profit goal. We have reduced our standard company profit target for this project to comply with the with PCU's recommended multiplier. Additionally, per direction from PCU, the multiplier has been increased by 0.05 to include reimbursable direct costs such as travel mileage, copies, shipping, etc. The calculation below provides the basis of our multiplier rate.

	Wright-Pierce Standard
Base Rate	1.00
Overhead and Fringe Benefits	1.678
Subtotal	2.678
Profit	0.3123 (@12%)
Direct Costs/Reimbursables	0.05
Overall Total Multiplier	3.05

Raw and burdened (raw labor rate x 3.13 multiplier) hourly rates listed by labor classification are shown in Table 1. Table 2 provides descriptions of experience requirements and general duties by labor classification.

TABLE 1 – Labor Classification and Rate Development

Labor Classification	Raw Hourly Rate ($) Low	Raw Hourly Rate ($) High	Burdened Hourly Rate ($) Low	Burdened Hourly Rate ($) High
Principal	65	91	199	277
Technical Manager	61	86	187	263
Quality Control Officer	58	80	175	244
Client Service Manager	58	72	175	219
Sr. Project Manager	56	72	171	219
Lead Project Engineer	56	70	171	212
Senior Engineer	45	70	136	212
Project Manager	45	61	136	187
Project Engineer II	44	53	135	162
Project Engineer I	35	48	108	148
Senior Architect	40	58	122	175
Architect	35	44	108	134
Landscape Architect	36	48	110	147
Resident Project Representative	27	53	83	161
GIS Analyst	33	47	99	144
Senior Designer	33	47	99	144
Technician	25	37	75	113
GIS Technician	25	37	75	113
Intern	15	26	46	78
Sr. Administrator	21	37	63	112
Administrative Assistant	15	29	46	87

TABLE 2 – Labor Classification – Experience and General Duties

Labor Classification	Experience and General Duties
Principal	BS Engineering or related; 20+ years of experience; Licensed Professional Engineer or Geologist. Ensures proper company resource are available; provides technical guidance; manages overall performance.
Technical Manager	BS Engineering or related; 20+ years of experience; Licensed Professional Engineer or Geologist. Manages staff; oversees projects and Project Manager performance.
Quality Control Officer	BS Engineering or related; 20+ years of experience; Licensed Professional Engineer or Geologist. Oversees technical accuracy of projects and adherence to QAQC procedures.
Client Service Manager	BS Engineering or related; 15+ years of experience; Licensed Professional Engineer or Geologist. Ensures client expectations are met.
Sr. Project Manager	BS Engineering or related; 15+ years of experience; Licensed Professional Engineer or Geologist. Manages project quality, support and technical and financial performance of projects.
Lead Project Engineer	BS Engineering or related; 15+ years of experience; Licensed Professional Engineer or Geologist. Provide expert project support and provide technical guidance of staff. Develops, oversees and coordinates the technical aspects of the project.
Senior Engineer	BS Engineering or related; 10+ years of experience; Licensed Professional Engineer or Geologist. Provide expert project support and provide technical guidance of staff in respective discipline. Develops, oversees and coordinates the technical aspects of the project in respective discipline.
Project Manager	BS Engineering or related; 8+ years of experience; Licensed Professional Engineer or Geologist. Manages project quality, support and technical and financial performance of projects.
Project Engineer II	BS Engineering or related; 5+ years of experience; Licensed Professional Engineer or Geologist. Provide technical project support and guidance of staff. Develops technical aspects of the project in the respective discipline.
Project Engineer I	BS Engineering or related. Provides technical project support. Develops technical aspects of the project in the respective discipline.
Senior Architect	BS Architecture or related; 10+ years of experience; Licensed Professional Architect or Engineer. Provide expert project support and provide technical guidance of staff. Develops, oversees and coordinates the architectural aspects of the project.
Architect	BS Architecture or related. Provide technical project support. Develops technical architectural aspects of the project.
Landscape Architect	BS Landscape Architecture or related. Provide technical project support. Develops technical aspects of the project in the respective discipline.
Resident Project Representative	BS in Engineering or related or HS diploma plus 3-8+ years construction, construction observation, or related experience. Observe and document on-site construction activities; provide technical support on construction administration issues.
GIS Analyst	BS/BA in Geography, Computer Science, or related field; 5+ years' experience using ESRI software. Prepare maps and other special data in digital or graphic forms using GIS applications.

Labor Classification	Experience and General Duties
Senior Designer	HS diploma plus 6+ years drawing or related experience; extensive knowledge and experience with AutoCAD or MicroStation. Supports staff to identify, research, and solve technical issues.
Technician	HS diploma plus 1+ year of drawing or related experience; knowledge and experience with AutoCAD or MicroStation. Drafts detailed construction drawings, plans and figures for projects.
GIS Technician	HS diploma plus 1+ year of drawing or related experience; knowledge and experience with GIS. Performs data migration; data digitizing; prepares and alters terrain maps, charts, tables, drawings, and models; observes and records field data.
Intern	HS diploma and pursuing career in engineering or other related field. Support staff to identify, research, and solve technical issues.
Sr. Administrator	BA/BS or HS diploma plus 8+ years of experience. Perform advanced administrative tasks that support project.
Administrative Assistant	HS diploma plus 1+ years of experience. Perform administrative tasks that support project.

We look forward to work with Polk County on this continuing services projects and appreciate the selecting us. Please do not hesitate to contact me (steve.hallowell@wright-pierce.com) or Katie Gierok (Kathleen.Gierok@wright-pierce.com) if you need further assistance.

Sincerely,

WRIGHT-PIERCE

Agenda Item R.57. 11/7/2023

SUBJECT

Request that the Board authorize the filing of a Civil Complaint against 21 Palms Resort on Lake Juliana (“Resort”) and other necessary parties to compel the Resort to remove or modify the pedestrian bridge (“Bridge”) currently impeding boating traffic between Lake Mattie and Lake Juliana (collectively “Lakes”).

DESCRIPTION

The canal between the Lakes is sovereign water. As such, the canal is set aside for use by all members of the public. The Resort owns the property on both sides of the canal and there is a Bridge, over the canal that connects the two sides of the Resort’s property. The bottom of the Bridge suspended significantly lower than the road and as a result impedes boating travel between the Lakes. Additionally, the supports for the Bridge protrude into the canal, narrowing it and obscuring travel.

The Resort was notified of this issue, by the County on July 13, 2023. On September 8, 2023, staff met with representatives of the Resort about the issue. Since that meeting there has been no subsequent communication from the Resort on the matter. On October 2, 2023, staff sent a follow-up e-mail requesting a status update. No update has been received.

RECOMMENDATION

Authorize the County Attorney’s Office file a Civil Complaint to compel compliance with Polk County’s demand to remove or modify the Bridge in a way that allows free travel between the Lakes. Authorize the County Manager or his designee to represent Polk County at any mediations or court proceedings held in the matter.

FISCAL IMPACT

Funding for the costs of litigating the Civil Complaint will come from the County Attorney’s Fund. The cost of litigation will be included as part of the Summary Judgment against the Defendants.

CONTACT INFORMATION

Randall E. Vogel
Assistant County Attorney

Polk County

Board of County Commissioners

Agenda Item R.58. 11/7/2023

SUBJECT

Release of Lien related to a Workforce Housing Impact Fee Mitigation for Louise T. Wimberley (No fiscal impact).

DESCRIPTION

A Claim of Lien for a Workforce Housing Impact Fee Mitigation was recorded in 2009 imposing a lien in the amount of $4,882.50 against property owned by Louise T. Wimberley, in Polk County. The lien has expired according to its terms effective November 17, 2016, which was seven (7) years following the lien commencement date. The owner has requested a Release of Lien be recorded acknowledging such expiration

RECOMMENDATION

Authorize the Chairman to execute the Release of Lien and authorize staff to record the Release of Lien in the Public Records of Polk County, Florida.

FISCAL IMPACT

The cost of recording the Release of Lien will be paid by the property owner.

This Instrument Prepared By:
Elizabeth W. Voss, Esq.
Polk County Attorney's Office
P.O. Box 9005, Drawer AT01
Bartow, Florida 33831-9005

RELEASE OF LIEN

WHEREAS, POLK COUNTY, a political subdivision of Florida, executed and recorded, in Official Records Book 8053, Pages 1678 - 1679, of the Public Records of Polk County, Florida, its Claim of Lien-Workforce Housing Impact Fee Waiver imposing and perfecting a lien against property identified as:

Lot 2, Winchester Estates, as per PB 143, Page(s) 16 of the Public Records of Polk County, Florida

together with all improvements thereon (the "Property"); and

WHEREAS, the lien, in the total amount of $4,882.50 for mitigated impact fees became a lien against the property owned by Louise T. Wimberley; and

WHEREAS, the lien requires payment in full in the amount of $4,882.50 in the event the property is sold or transferred within seven (7) years of the Lien Commencement Date of November 17, 2009, to any person(s) who do not satisfy the criteria for the Workforce Housing Impact Fee Waiver in accordance with Polk County Ordinance No. 2007-018, as amended; and

WHEREAS, the lien has, pursuant to the terms of the Claim of Lien, expired and is terminated.

NOW, THEREFORE, POLK COUNTY hereby releases the above described property from the lien recorded at Official Record Book 8053, Pages 1678 – 1679 of the Public Records of Polk County.
