

RESOLUTION NO: _____

RESOLUTION APPROVING ALIGNMENT

Thompson Nursery Road Phase I – Segment 2

WHEREAS, the Polk County Board of County Commissioners ("Board"), after being fully informed on the matter and upon proper consideration, has previously authorized improvements for the extension of Thompson Nursery Road Phase I – Segment 2 ("Project") as part of the Capital Improvement Program (CIP); and

WHEREAS, the alignment study attached hereto as "Exhibit A" has been completed for the Project; and

WHEREAS, the alignment study was conducted to develop route alternatives and determine the preferred alignment for the Project; and

WHEREAS, prior to this Board approving the preferred alignment for the extension of Thompson Nursery Road Phase I – Segment 2 as recommended in "Exhibit A", this Board considered several factors including, without limitation, alternative routes, environmental impact, costs, long range planning, and safety; and

WHEREAS, this Board, after proper consideration, makes the following findings for the alignment recommended in "Exhibit A":

- A. ALTERNATIVE ROUTE: The Board of County Commissioners considered various alternatives, the costs thereof, and projected improvements to the levels of service before approving the recommended alignment for this Project which provides the best alignment for the existing and future roadway.
- B. ENVIRONMENTAL FACTORS: Necessary permits will be submitted to appropriate permitting agencies. The recommended alignment will have minimized adverse impacts to the environment and it is anticipated that no substantial environmental impacts will result from this recommended alignment.
- C. COSTS: The recommended alignments are cost effective within the required designed criteria.
- D. LONG RANGE PLANNING: The recommended alignment is consistent with the long range plan for Polk County and is part of the CIP previously adopted by the Board, and it complements prior improvements made by and future improvements planned by Polk County;
- E. SAFETY CONSIDERATIONS: The recommended alignment improves traffic safety by allowing the addition of travel lanes, drainage, curbs, gutters, sidewalks and/or bike lanes to the existing corridor.

NOW, THEREFORE, BE IT RESOLVED by the Board of County Commissioners of Polk County, Florida, in regular session duly assembled, find that the above stated recitals are true and correct and are incorporated herein. The Board of County Commissioners of Polk County, Florida after due consideration hereby approves the recommended alignment in "Exhibit A" for the widening of Thompson Nursery Road Phase I – Segment 2. Deviations to the alignment may be made as needed to address engineering and construction issues that may arise during the engineering and construction of this project.

This Resolution shall be effective upon adoption.

PASSED AND CERTIFIED AS TO PASSAGE this 15th day of July, 2025.

Thompson Nursery Road Segment 2

Rifle Range Road to East of CSX Railroad

Polk County, FL

Board of County Commissioners Meeting

July 15th, 2025

Project Description

Project Purpose

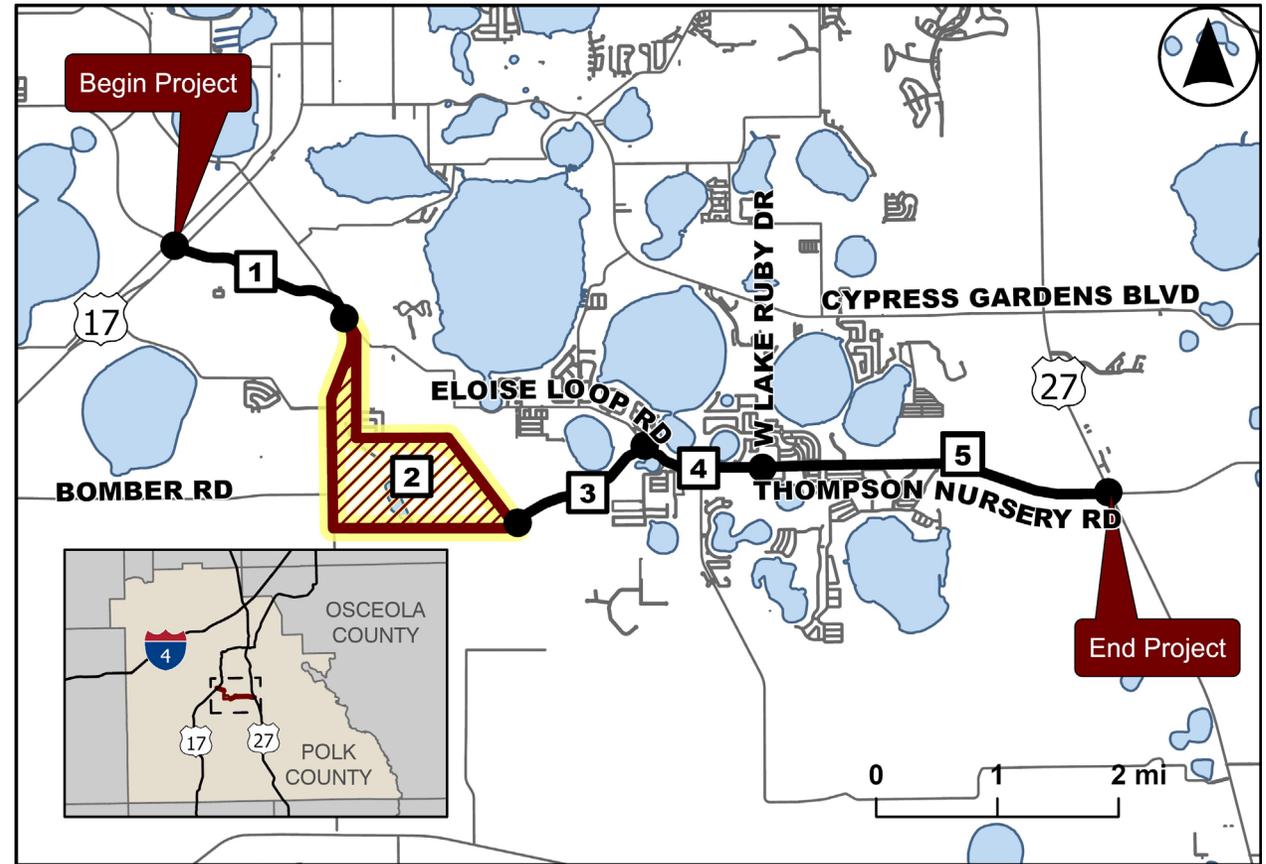

- Connection between US 17 and US 27

Existing Conditions

- Lack of connectivity, discontinuous sidewalks, no dedicated bicycle facilities

Proposed Condition

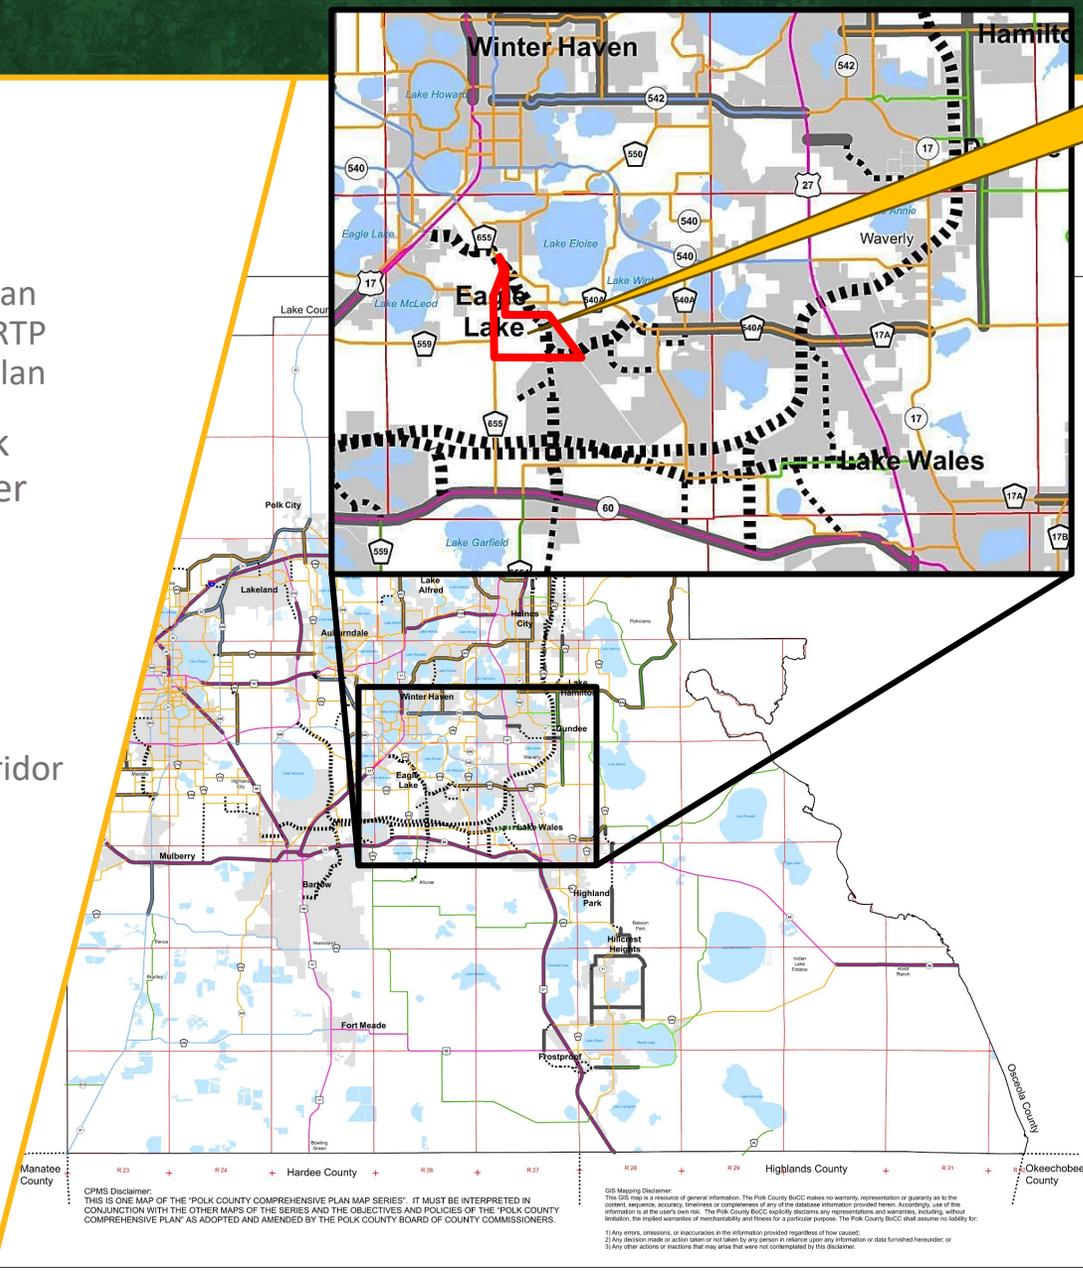

- 4 lane divided with bike lanes and sidewalks
- Minor Arterial
- ROW 120 ft

Need for the Project

- Consistency with Current Plans
 - Project is identified in Polk County Comprehensive Plan Transportation Element (see right), plus Polk TPO's LRTP and TIP, and City of Winter Haven's Comprehensive Plan
- Accommodating Population growth – per BEBR, Polk County population expected to increase by 232K over the next 20 years
 - 2025: 0.83M population
 - 2045: 1.06M population (+28%)
- Enhancing Safety
 - Polk TPO lists Rifle Range Road as #5 High-Injury Corridor in the county
- Providing East-West multimodal connectivity
 - Connection to CSX Intermodal Terminal and Logistics Parkway Extension
 - New pedestrian and cyclist connection and trail integration

 - Road Improvements/Widening

Note:
 Principle Arterials include both Controlled or Limited Access Facilities. Controlled Access Facilities are non-limited access highways where access connections, median openings, and traffic signals are highly regulated. Limited Access Facilities are multilane, divided highways with at least 2 lanes for exclusive use of traffic in each direction and full control of ingress and egress.

Maintenance Responsibility – officially based on road dedication. Although, the maintenance of a roadway can generally be determined by the road classification.
 Collectors and Minor Arterials- County and Municipalities
 Principle Arterials- State
