**CHAPTER 2**

**DEVELOPMENT COORDINATION**

**Section 250-E**

**Engineer of Record's Letter of Certification**

Project: Campbell Subdivision

PCU Project No.: LDRES-2023-18

I, as ENGINEER OF RECORD for the above subject project, hereby certify to PCU that all applicable water, wastewater, and/or reclaimed water systems constructed as part of, and in conjunction with the subject project are completed in conformance with the Construction Plans as approved by PCU and all State of Florida construction permit conditions. These utility systems are complete, functional, ready to be placed into operation to provide service to the public, and ready for PCU acceptance, ownership, operation, and maintenance responsibility.

The Record Drawings accurately reflect all utility system information, to include: each and every water, wastewater, and reclaimed water service, tap, clean-out, valve, fire hydrant, fitting, casing, and pipe referenced either from at least two fixed and easily found reference points (e.g., property corners, manhole lids, valve covers, etc.) or by the use of stations and offsets from the center of wastewater manholes or inline valves, as applicable. Depths, material specifications, and sizes of pipes, valves, and fittings are indicated on the Record Drawings. Lot numbers, street names, locations of easements, property boundaries, etc. are shown on the Record Drawings and are consistent with the approved Recorded Plat. Horizontal dimensions and distances shown are within 0.1 foot accuracy. Vertical dimensions, elevations, and distances are within 0.1 foot accuracy.

#### D. Special Conditions

If the County Engineer determines that special conditions encountered during design or construction make normal inspection and testing insufficient to assure structural integrity, the time period for which a guarantee security must remain in force may be extended to a maximum of five years from date of acceptance of plat improvements if:

1. Marginal soils are used in construction.
2. Application of geotextile material precludes the removal of unsuitable material.
3. Construction practices result from experimental design concepts.

#### Section 809 Final Plat Approval and Recording

##### A. Approval

Upon recommendation of the final plat by County staff, the BoCC may approve or disapprove the final plat and any legal instruments.

##### B. Cost

The actual cost of recording and preparing all required prints and reproductions shall be paid by the applicant.

#### Section 810 Re-plats and Modifications

##### A. Vacating and Re-platting

Whenever land comprising all or part of an existing plat of record is proposed as all or part of a new plat, it shall be in accordance with the procedures as set forth in F.S. ch. 177.

##### B. Revision of Final Plat After Board Approval

No changes, erasures, modifications or revisions shall be made on any final plat after approval has been given, unless the plat is resubmitted to the BoCC for its approval. This shall not affect the right

**CHAPTER 2**

**DEVELOPMENT COORDINATION**

**Section 250-F**

**Contractor's Letter of Certification**

Project: Campbell Subdivision

PCU Project No.: LDRES-2023-18

I, as the CONTRACTOR for the above subject project, hereby certify to PCU that the Water , wastewater , and/or reclaimed water  system (check all that apply) constructed as part of, and in conjunction with the above subject project are completed and in conformance with the Construction Plans approved by PCU, and State of Florida construction permit conditions. These utility systems are complete, functional, ready to be placed into operation to provide service to the public, and ready for County acceptance for PCU to take ownership, operation, and maintenance responsibility.

The Record Drawings accurately reflect all utility system information, to include: each and every water, wastewater, and reclaimed water service, tap, clean-out, valve, fire hydrant, fitting, casing, and pipe referenced either from at least two fixed and easily found reference points (e.g., property corners, manhole lids, valve lids, etc.) or by the use of stations and offsets from the center of wastewater manholes or inline valves, as applicable. Depths, material specifications, and sizes of pipes, valves, and fittings are indicated on the Record Drawings. Lot numbers, street names, locations of easements, property boundaries, etc. are shown on the Record Drawings and are consistent with the approved Recorded Plat. Horizontal dimensions and distances shown are within 0.1 foot accuracy. Vertical dimensions, elevations, and distances are within 0.1 foot accuracy.

All construction materials and workmanship is warranted for one (1) calendar year from the date of acceptance by the Board of County Commissioners.

**CHAPTER 2 DEVELOPMENT COORDINATION** **Section 250-D**

## **Developer's Letter of Dedication & Statement of Warranty**

Project: Campbell Subdivision

PCU Project No.: LDRES-2023-18

I, as the DEVELOPER of the above subject project, hereby dedicate to PCU all applicable water, wastewater, and/or reclaimed water systems constructed as part of, and in conjunction with the subject project for ownership, operation, and maintenance responsibility. Further, I certify that all bills relative to this project have been paid, and there are no liens or other encumbrances against the project.

All construction, materials, and workmanship are warranted for one (1) calendar year from the date of acceptance by the Board of County Commissioners.

**LAND DEVELOPMENT DIVISION**

**MEMORANDUM**

**To:** Chrissy Irons, Development Coordinator II

**From:** Marty Waring, Inspector

**Project Name:** Campbell Subdivision

**Project #:** LDRES-2021-103

**DATE:** 9/17/2025

The Inspector of Record has made a final review of the above-mentioned project. As a result of inspections, test results, and general site observations, I certify that the project is complete and represents reasonable compliance with the intent of the plans designed by the Engineer of Record and approved by the Polk County Land Development Division. The exact field locations and elevations of the storm water, potable water, wastewater, and reclaimed water systems are not guaranteed nor certified by the inspector.

It is the Contractor and Engineer of Record's responsibility to furnish the Polk County Land Development Division with Record Drawings and other final closeout documentation, as required by the Land Development Code and the Utility Standards and Specifications Manual, for final review and approval of the completed project before release of C.O.'s.

Should you have any further questions in the matter, please call (863) 534-6449.
