Polk County Board of County Commissioners

Meeting Agenda - Final-revised

August 19, 2025 Regular BoCC meeting

In accordance with the American with Disabilities Act, persons with disabilities needing special accommodations to participate in this proceeding should contact the Communications Office not later than 48 hours prior to the proceeding. Their office is located in the County Administration Building, 330 West Church Street in Bartow. Telephone (863) 534-6090 or TTY (863) 534-7777. If hearing impaired dial 7-1-1 for Florida Relay services or call (800) 955-8771 (TTY); dial (800) 955-1339 if you are using a computer.

Any invocation that may be offered before the official start of the Commission meeting shall be the voluntary offering of a private citizen, to and for the benefit of the Commission. The views or beliefs expressed by the invocation speaker have not been previously reviewed or approved by the Commission, and the Commission is not allowed by law to endorse the religious beliefs or views of this, or any other speaker.

If a person decides to appeal any decision made by the board with respect to any matter considered at such meeting or hearing, he or she will need a record of the proceedings, and that, for such purpose, he or she may need to ensure that a verbatim record of the proceedings is made, which record includes the testimony and evidence upon which the appeal is to be based.

O.1. Public Hearing to consider adoption of an ordinance amending Ordinance 25-036 Master Inwood Street Lighting MSBU Ordinance to replace boundary description found in “Exhibit A.”

Minutes: County Attorney Randy Mink discussed the adoption of an ordinance amending Ordinance 2025-036 Master Inwood Street LIghting MSBU Ordinance to replace a boundary description found in "Exhibit A." He said it is being amended to correct an error in the legal description. He recommended approval.

Chair Wilson opened a public hearing; no one spoke.

RESULT:	**ADOPTED**
MOVER:	Bill Braswell
SECONDER:	Bill Braswell
AYE:	Troutman, Wilson, Braswell, Santiago, and Scott

O.2. Public Hearing to consider adoption of a Resolution allowing for the Installation of Seven Traffic Calming Devices (Speed Humps) on Catherine Drive, Near Lakeland. (estimated $35,000.00 one-time expense)

Minutes: Roads and Drainage Traffic Manager Amy Gregory discussed the installation of seven traffic calming devices on Catherine Drive, near Lakeland. She said upon receiving the request staff collected speed and volume data and reviewed the crash history. She said this request meets the Board's traffic calming policy criteria. She said mailers were distributed and they received 80% favorable response votes. She recommended approval.

Commissioner Troutman thanked Ms. Gregory for getting this done. She discussed her correspondence with the resident who lives in this area and said they have had to replace their mailbox and basketball hoop multiple times.

Chair Wilson opened a public hearing.

Frank Decker said he is here to support this resolution. He discussed the issues with speeding on this road. He said there was a police chase to stop a car on this road with seven law enforcement officers involved.

Chair Wilson closed the public hearing.

RESULT:	**ADOPTED**
MOVER:	Martha Santiago
SECONDER:	Michael Scott
AYE:	Troutman, Wilson, Braswell, Santiago, and Scott

O.3. Public Hearing to consider adoption of a Resolution allowing for the Installation of Five Traffic Calming Devices (Speed Humps) on Lakeland Highlands Road, Near Lakeland (estimated $25,000.00 one-time expense)

Minutes: Roads and Drainage Traffic Manager Amy Gregory discussed the installation of five traffic calming devices on Lakeland Highlands Road, in Lakeland. She said upon receiving the request staff collected speed and volume data and reviewed the crash history. She said this request meets the Board's traffic calming policy criteria. She said mailers were distributed and they received the required 50% response votes. She recommended approval.

Chair Wilson opened a public hearing; no one spoke.

RESULT:	**ADOPTED**
MOVER:	Becky Troutman
SECONDER:	Bill Braswell
AYE:	Troutman, Wilson, Braswell, Santiago, and Scott

O.4. Public Hearing to consider adoption of a Resolution allowing for the Installation of Two Traffic Calming Devices (Speed Humps) on Stephenson Avenue, Near Babson Park (estimated $10,000.00 one-time expense)

Minutes: Roads and Drainage Traffic Manager Amy Gregory discussed the installation of two traffic calming devices on Stephenson Avenue, in Babson Park. She said upon receiving the request staff collected speed and volume data and reviewed the crash history. She said this request meets the Board's traffic calming policy criteria. She said mailers were distributed and they received 80% favorable response votes and non-votes. She recommended approval.

Chair Wilson opened a public hearing; no one spoke.

RESULT:	**ADOPTED**
MOVER:	Bill Braswell
SECONDER:	Becky Troutman
AYE:	Troutman, Wilson, Braswell, Santiago, and Scott

O.5. Public Hearing to consider adoption of a Resolution allowing for the Installation of Three Traffic Calming Devices (Speed Humps) on Tangelo Street, Near Highland Park Manor. (estimated $15,000.00 one-time expense)

Minutes: Roads and Drainage Traffic Manager Amy Gregory discussed the installation of three traffic calming devices on Tangelo Street, near Highland Park Manor. She said upon receiving the request staff collected speed and volume data and reviewed the crash history. She said this request meets all of the Board's traffic calming policy criteria. She said mailers were distributed and they received the required 50% favorable response votes and non votes per the Board's policy. She recommended approval.

Chair Wilson opened a public hearing.

Upon question, Ms. Gregory said she does not have a definitive date at this point when the speed humps will be installed.

Cassandra Richards said she is so excited about the speed humps. She discussed the issues with speeding in this area. She said there are children in this neighborhood and said there are school buses that use this road also. She said that she prays that they get this project done quickly.

Lily Faircloth said the speed humps are needed. She discussed the speeding in this area. She said they are not stopping at the stop sign or the bus stops. She discussed the school buses on this street.

Chair Wilson said he hopes Mr. Jarvis will be able to get this project done quickly.

Michael Faircloth discussed the speeding on this road. He said it is going to take someone getting killed on this road. He said it is sad how people drive with children on the road. He said they need the speed humps.

Chair Wilson closed the public hearing.

Commissioner Scott discussed the traffic flow and said commuters may be avoiding the speed humps and using the side streets. He said the county may need to be aware of this for future needs.

Ms. Gregory said they will do an after study to make sure they know how traffic is shifting.

RESULT:	**ADOPTED**
MOVER:	Becky Troutman
SECONDER:	Bill Braswell

AYE:	Troutman, Wilson, Braswell, Santiago, and Scott

P. REQUEST FROM THE GENERAL PUBLIC/AUDIENCE AND OPPORTUNITY TO BE HEARD

P.1. G. Robert Weedon, DVM, MPH to continue discussion regarding amending the Polk County Animal Ordinance.

Minutes: Dr. Robert Weedon said here we are again. He discussed the last Board meetings he attended and the need for a feral cat ordinance. He said surrounding counties fare much better than Polk County when it comes to live outcome rates. He said there is a lack of support from the county for the humane and effective management of feral and free roaming cats. He said the Board never has questions, discussions, comments, and especially no action. He said he disagrees that this is Grady's problem; he said the Board of County Commissioners is the governing body for the county and they can adopt ordinances necessary to carry out both county and municipal powers and purposes. He discussed the offer made by Best Friends Animal Society in July 2023, and an offer by a local philanthropist to build a $20 million state-of-the-art shelter in the county;he said both offers were rejected. He discussed a $250,000 fund by the county in support of low-cost sterilization that was discussed with Commissioner Lindsey and he supported it. He said it never became a reality. He said Grady Judd vetoed both ideas. He asked the Board if they are too afraid of Sheriff Judd to exercise good judgment. He said he respects Sheriff Judd as a law enforcement officer but not as a leader of Polk County Animal Control. He said Sheriff Judd is an avid bird photographer and believes that cats should be killed because they prey on birds. He said by supporting a Trap Neuter Vaccinate Release Program (TNVR) there will be less cats to prey on birds. He said it is time for a change and time to join the 21st Century. He asked why there is no action.

P.2. Comments.

Minutes: Eve Salimbene said she is the founder of Street Cat Colony. She said she works with colonies of cats that are in Polk County. She said they are asking for a low cost spay and neuter voucher program. She said they need an ordinance for this. She discussed her meeting with Commissioner Lindsey concerning this program and she said they were told this would be approved but it never was. She said the people want this program and the people who elected them want this program. She said they are working on trapping 59 colonies and there are currently 201 colonies on the list still waiting for help. She said there is a huge need for low cost help. She said it costs them $50 per cat at a minimum. She discussed the number of euthanasias that happen in the county. She said if they would take care of the feral cats by fixing them and returning them to where they came from Polk County could be a no kill county.

Sharon Garret discussed the businesses and loud music that goes on late at night on her road. She said there is an issue with finding the owner. She discussed the loud bass that plays and said they have no concern for their neighbors; she said it is ridiculous. She said she has had meetings with Code Enforcement Director Autumn Fenton but that is a slow process. She discussed the cars that line both sides of the street. She said they need to provide parking for customers. She suggested having the Sheriff deputies come out and give tickets to everyone for illegal parking. She asked

what the Board is going to do about this. She said there is a noise ordinance in place.

County Attorney Randy Mink said the Board authorized an injunction against this business. He said they have gone back before the judge to find them in contempt. He said they are pursuing all legal actions through the courts. He said it does not move as quickly as some would like. He said they have also pursued code enforcement cases against the business. He said they were fined $15,000. He said they are taking all legal steps to bring them into compliance. He said there are certain time restraints they have to go through before they collect fines through the court system. He said they are taking every legal action that they can.

Patricia Jacques said she is very concerned about the current practices at Polk County Animal Control. She said Animal Control officers are picking up cats and are euthanizing them after they have already been spayed and neutered. She discussed how other counties handle TNVR programs and study outcomes. She said this would save money for the county. She asked the county to fund a TNVR program and create an oversite committee. She said Polk County is facing a animal welfare crisis.

Donna Malone said she is a cat colony caregiver. She discussed the Street Cat Project. She said without these programs and funding there will be a large stray cat population in the county. She said they need the county's help.

Annette Wrebleski said she is here to enlighten them on the plight of pot belly pigs. She said she owns Laughing Pig Sanctuary. She said pot belly pigs are considered pets until they are abandoned and then they are considered livestock. She said they are then taken to auction and sold. She said this is a statewide problem. She said they need to be deemed an exotic pet so they will not be sold at auction. She said there are 30 rescuers in the state. She said she wants to nip this in the bud before there is a problem.

Ailigh Vanderbush discussed the benefits of a TNVR program. She discussed the surrounding counties self reporting live release rates. She said it is a state law that they have to self-report. She said Polk County has a 44% live release rate, which is one of the lowest rates. She said this is a pride issue for her. She said she has worked all over the country and the 44% live release rate should embarrass the Board.

Debbie Hicks said she is here regarding the current animal control facility. She said she has volunteered there and knows that it does not work. She discussed the increase of population in the county. She said they need a new facility. She said the Sheriff cannot operate properly when they do not have a working facility. She discussed having an advisory committee regarding the welfare of animals. She said this is a county problem and this needs to be dealt with. She asked the Board to do the right thing.

Gerry Dempsey said he is very proud of the Polk County Sheriff's office and said he worked for Animal Control for 2 years. He said his issue is the extreme heat at the facility. He said he was treated for while working there due to the heat. He discussed the overhead fans and said they do not help. He said the heat is overwhelming for the animals and something needs to be done about this. He said he is proud of the work the deputies do but the animals do not deserve this. He suggested the Board visit the

facility. He said the kennels are very old and need to be replaced.

Kay Bourque said animal welfare is in crisis. She said there are paradigms in this county and they need to change they way they think. She said they will not adopt or kill their way out of this problem. She said they need a new way of thinking. She read a story concerning having a paradigm shift. She said people are sharing their pain with the Board and they need to change.

Jennifer Castro said she is here in support of a TNVR program. She discussed the heat issues at the kennels. She discussed how Hillsborough County handled the overheating issues with fostering pets; she said this would also be beneficial in Polk County. She discussed the need for a TNVR program and low cost options for the community for spaying and neutering. She discussed controlling cat colonies.

James Abercrombie discussed issues he is having with obtaining public records, fences, and jobs being created through the county. He said he cannot find public records on this. He discussed the fence that was to be installed at Fountain Park. He said he has been here to complain about the county manager and the county attorney. He said they should be taking care of these problems and they should hear him out. He said he has heard from no one. He said the only conclusion he can come to concerning the funds for the fence is that someone is taking the money and pocketing it. He said the Board should be investigating this. He said that was federal grant money. He said he has been coming here for three months and has heard nothing and received no public records. He discussed the park on Daughtery Road. He said he has dealt with other county managers in the past and said he never had this problem. He said the community is not involved in anything. He said they have no say in anything. He discussed the drainage problem on Kathleen Road. He said they need to change their attitudes.

Chair Wilson discussed the public records that Mr. Abercrombie has received and the timeline. He said one set of public records was not received because Mr. Abercrombie was on vacation and did not come and pick it up within the required 10 days. Discussion followed.

Dianne Schaffer discussed the counties that have adopted an TNVR program and the benefits. She said Polk County is the only county in the state of Florida that does not have a program like this. She said the facility is overcrowded. She said they are not protecting the animals in the county. She said killing animals and closing a blind eye is not love. She asked how many cats need to suffer before something gets done. She asked that they do the right thing.

Jhoanna Mukai Allende said she is a supporter of animal rescue. She said it is time that the county makes a change. She discussed the data on the benefits of having a spray and neuter program. She said this will help people take care of their animals. She asked them to open their hearts and she read a quote from Ghandi. She said she is passionate about this. She said they will not stop until something is done.

Stephanie Widner discussed the approval of funds for traffic calming devices. She discussed the TNVR program and the savings that this could have for the county. She

discussed the cost for spay and neutering. She said Sheriff Judd is popular on crime. She said they have been coming here for months and they need change.

Meeting adjourned at 10:21 a.m.

Agenda Item E.1. 8/19/2025

SUBJECT

Aaron Otis, Department of Health Assistant Deputy Secretary for County Health Systems, to request concurrence on the appointment of Aaron Kissler as Administrator of the Department of Health in Polk County.

DESCRIPTION

RECOMMENDATION

Board approve the concurrence on the appointment of Aaron Kissler as Administrator of the Department of Health in Polk County.

FISCAL IMPACT

CONTACT INFORMATION

August 6, 2025

Rick Wilson, Chairman
Polk County Board of County Commissioners
330 W. Church Street
Bartow, FL 33830

Dear Chairman Wilson:

The Florida Department of Health requests concurrence from the Polk County Board of County Commissioners on the appointment of Aaron Kissler as the Administrator of the Florida Department of Health in Polk County. County health departments sustain the partnership between the Florida Department of Health and county government pursuant to section 154.04, Florida Statutes. In keeping with state law, as well as our desire to maintain this important partnership, the Florida Department of Health works collectively with county government when selecting a new health department administrator.

Mr. Kissler has an excellent and diverse background in all aspects of public health and has demonstrated his ability as a skilled leader. I believe Mr. Kissler will be an asset to the Florida Department of Health and Polk County as their new health department administrator.

The Florida Department of Health is requesting time on the agenda during your upcoming meeting to request concurrence on the appointment of Aaron Kissler as the Administrator of the Florida Department of Health in Polk County. If you or any member of the Polk County Board of County Commissioners have questions or would like more information regarding Mr. Kissler, please feel free to contact Mark Lander, Deputy Secretary for County Health Systems at 850-245-4243.

I appreciate the support of the Polk County Board of County Commissioners and the community in selecting the best candidate for the people of Polk County.

Sincerely,

Joseph A. Ladapo, MD, PhD
State Surgeon General

cc: Bill Beasley, County Manager
Aaron Kissler

Agenda Item G.1. 8/19/2025

SUBJECT

Approve Consultant Services Authorization (CSA) No. 22-084-03 with CONSOR Engineers, LLC (Consultant) to provide Construction Engineering and Inspection (CEI) services for the N. Galloway (CR 542A) at 10th St Intersection Improvement Project. ($446,183.88 one-time expense)

DESCRIPTION

Bid 25-494 for the N. Galloway at 10th St. Intersection Improvement Project has been advertised on Polk County's Procurement website, which began on July 23, 2025. County staff have negotiated with the Consultant to provide CEI services on the project. The estimated duration of the Consultant's services is 9 months.

Under this CSA, the Consultant will provide Polk County with CEI services to monitor the construction of the N. Galloway at 10th St. Intersection Improvement Project. The Consultant is to perform these services at a cost not-to-exceed $446,183.88, as detailed in "Exhibit A".

RECOMMENDATION

Request the Board approve CSA No. 22-084-03 with the Consultant a cost not-to-exceed $446,183.88 for the N. Galloway (CR542A) at 10th St. Intersection Improvement Project.

FISCAL IMPACT

Funds are budgeted and available in the Transportation Trust Fund.

Selection Procedure for Consultants with Continuing Contracts

Division: R&D

Project Manager: K FEES

Step 1:

Review list for appropriate Expertise, Experience, and Personnel (List all consultants awarded a master agreement under the RFP)

Consultant	Expertise	Experience	Personnel	Local (Y/N)	Elevated for Consideration (Y/N)
AECOM	Y	Y	Y	Y	Y
AIM	Y	Y	Y	Y	Y
B&N	N	N	N	N	N
CONSOR	Y	Y	Y	N	Y
DEWBERRY	Y	Y	Y	N	N
DRMP	Y	Y	Y	Y	Y
HDR	Y	Y	Y	N	Y
HNTB	N	N	N	Y	N
JACOBS	Y	Y	Y	N	Y
KIMLEY-HORN	N	N	N	Y	N
KCA	Y	Y	Y	N	Y
MOTT	N	N	N	N	N
NV5	N	N	N	N	N
PGA	N	N	N	Y	N
RKK	N	N	N	Y	N
WSP	Y	Y	Y	N	Y

State justification for each firm not elevated and why:

B&N, DEWBERRY, HNTB, KIMLEY-HORN, MOTT MACDONALD, NV5, PGA, and RKK do not offer CEI services. The primary focus of these firms is design services. JACOBS was the design consultant for this project.

Step 2:

Past performance on similar projects satisfactory (List all consultants elevated from Step 1)

Consultant	Has past performance been satisfactory (Y/N)	Elevated for Consideration(Y/N)
AECOM	Y	Y
AIM	Y	Y
CONSOR	Y	Y
DRMP	Y	Y
HDR	Y	Y
KCA	Y	Y
RK&K	Y	Y
WSP	Y	Y

State justification for each firm not elevated and why:

Total amount of money the County has contracted with each Consultant elevated to Step 2 during the last 24 months.

Consultant	Contracted Amount	Elevated (Y/N)
AECOM	$ 424,181.75	N
AIM	$ 288,191.68	N
CONSOR	$ 200,947.50	Y
DRMP	$ 310,811.25	N
HDR	$ 378,645.01	N
KCA	$ 413,087.24	N
RK&K	$ 559,801.82	N
WSP	$ 577,929.72	N

Step 4:

State justification, if the chosen consultant does not have the least amount of contract obligation.

SCOPE OF SERVICES
CONSTRUCTION ENGINEERING AND INSPECTION

1.0 PURPOSE:

This scope of services describes and defines the Construction Engineering and Inspection (CEI) services which are required for contract administration, inspection, and materials sampling and testing for the construction project listed below.

2.0 SCOPE:

Provide services as defined in this Scope of Services and associated Polk County and Florida Department of Transportation (Department or FDOT) manuals, and procedures.

The project for which the services are required is:

Description:	CEI Services for Roadway Improvements at N. Galloway Road & 10th Street
County:	Polk County
Project No.:	5400190

Serve as the County's representative on the project and faithfully represent the County interest in all matters, with special emphasis given to issues involving public safety, quality, timely completion of the work, and financial responsibility. Exercise independent professional judgment in performing obligations and responsibilities under the contract. Pursuant to Section 4.1.5 of the Department's Construction Project Administration Manual (CPAM), the authority of the Consultant's lead person, such as the Senior Project Engineer, and the Consultant's Project Administrator shall be identical to the Department's Resident Engineer and Project Administrator respectively and shall be interpreted as such.

Services provided by the Consultant shall comply with County and Department manuals, procedures, and memorandums in effect as of the date of execution of a contract unless otherwise directed in writing by the County. Such Department manuals, procedures, and memorandums are found at the FDOT State Construction Office's website (https://www.fdot.gov/construction). Other projects developing within the geographical area of Polk County may be added at the County's discretion. The Consultant must perform to the satisfaction of the County representatives for consideration of additional CEI services.

The general scope of work for the Construction project will consist of, but not be limited to: providing all labor, equipment, materials, tools, transportation, supplies, insurance, incidentals, mobilization, demobilization and maintenance of traffic necessary to modify the existing non-signalized intersection at N. Galloway Road & 10th Street into a roundabout. Improvements for this project include a new asphalt roundabout with inner concrete apron, drainage, concrete curb, concrete driveways, guardrail, signage, thermoplastic street markings, conventional lighting, and landscaping. The project is approximately 0.17 miles in length along N. Galloway Road and 0.23 miles in length along 10th Street. This shall be a Pay Item project.

The Consultant shall provide support for the County's Public Information Office for the duration of the project.

3.0 LENGTH OF SERVICE:

The CEI services for the Project shall begin upon written notification to proceed by Polk County.

Track the execution of the construction contract such that the Consultant is given timely authorization to begin work. While no personnel shall be assigned until written notification by the County has been issued, the Consultant shall be ready to assign personnel within 14 calendar days of notification. For the duration of the project, coordinate closely with the County and the Contractor to minimize rescheduling of consultant activities due to construction delays or changes in scheduling of Contractor activities.

For estimating purposes, the Consultant will be allowed an accumulation of fifteen (15) calendar days to perform preliminary administrative services prior to the issuance of the Contractor's notice to proceed, estimated twenty-one (21) weather days (10% of original contract duration) and thirty (30) calendar days to demobilize and develop the final estimate after final acceptance, for a total of 276 days.

The anticipated construction time for the project is as shown below:

Polk County – Roadway Improvements for N. Galloway Road at 10th Street	
County Project #	Duration (Days)
5400190	210

4.0 DEFINITIONS:

A. Agreement: The Professional Services Agreement between the Authority (Polk County) and the Consultant setting forth the obligations of the parties thereto, including but not limited to the performance of the work, furnishing of services, and the basis of payment.

B. Authority (County): Polk County

C. Authority Contracts and Procurement Manager: The administrative head of the Authority Procurement Office.

E. Authority Director of Operations and Engineering: The Director of Construction, Maintenance, Traffic Operations, Materials, and Safety.

F. Construction Project Manager: The Authority employee assigned to manage the Construction Engineering and Inspection Contract and represent the Authority during the performance of the services covered under this Agreement.

G. Construction Training/Qualification Program (CTQP): The Department program for training and qualifying technicians in Aggregates, Asphalt, Concrete, Earthwork, and Final Estimates Administration. Program information is available at CTQP website.

H. Consultant: The Consulting firm under contract to the Authority for administration of Construction Engineering and Inspection services.

I. Consultant Project Administrator: The employee assigned by the Consultant to be in charge of providing Construction Contract administration services for one or more Construction Projects.

J. Consultant Senior Project Engineer: The Engineer assigned by the Consultant to be in charge of providing Construction Contract administration for one or more Construction Projects. This person may supervise other Consultant employees and act as the lead Engineer for the Consultant.

K. Department (FDOT): Florida Department of Transportation

L. Construction Contract: The written agreement between the Authority and the Contractor setting forth the obligations of the parties thereto, including but not limited to the performance of the work, furnishing of labor and materials, and the basis of payment.

M. Contractor: The individual, firm, or company contracting with the Authority for design, furnishing of labor and materials, and performance of work for construction of the project.

N. Executive Director: The Chief Executive Officer of Polk County.

O. Engineer of Record: The Engineer noted on the Construction plans as the responsible person for the design and preparation of the plans.

P. Operations Engineer: The Director of County Operations, or it's designee, assigned to administer Contracts for the Authority.

Q. Public Information Office: The Authority's office assigned to manage the Public Information Program.

R. Resident Compliance Specialist: The employee assigned by the Consultant to oversee project specific compliance functions.

S. Resident Engineer: The Director of County Operations, or it's designee, assigned to administer Construction Contracts for the Authority.

5.0 ITEMS TO BE FURNISHED BY THE AUTHORITY TO THE CONSULTANT

A. The Authority on an as needed basis, will furnish the following Construction Contract documents for each project. These documents may be provided in electronic format.

1. Construction Plans,
2. Specification Package,
3. Copy of the Executed Construction Contract
4. Utility Agency's Approved Material List (if applicable).
5. Computer Aided Drafting and Design (CADD) Files

6.0 ITEMS FURNISHED BY THE CONSULTANT

6.1 Department Documents:

All applicable Department documents referenced herein shall be a condition of this Agreement. All Department documents, directives, procedures, and standard forms are available through the Department's Internet website.

6.2 Office Automation:

Provide all software and hardware necessary to efficiently and effectively carry out the responsibilities under this Agreement.

Provide each inspection staff with a laptop computer running a consultant furnished comprehensive construction management system supporting activities including construction administration, field record keeping, contract record maintenance, contractor payment processing and materials management through use of a mobile broadband connection to the Consultant furnished server. All computer coding shall be input by consultant personnel using equipment furnished by them. Ownership and possession of computer equipment and related software, which is provided by the Consultant, shall remain at all times with the Consultant. The Consultant shall retain responsibility for risk of loss or damage to said equipment during performance of this Agreement. Field office equipment should be maintained and operational at all times.

6.3 Field Office: (NOT APPLICABLE)

The Authority (Polk County) will not be providing direct compensation for a Field Office.

6.4 Vehicles:

Vehicles will be equipped with appropriate safety equipment and must be able to effectively carry out requirements of this Agreement. Vehicles shall have the name and phone number of the consulting firm visibly displayed on both sides of the vehicle.

6.5 Field Equipment:

Supply survey, inspection, and testing equipment essential to perform services under this Agreement; such equipment includes non-consumable and non-expendable items.

Hard hats and safety vests shall have the name of the consulting firm visibly displayed.

Equipment described herein and expendable materials under this Agreement will remain the property of the Consultant and shall be removed at completion of the work.

Handling of nuclear density gauges shall be in compliance with their license requirements.

Retain responsibility for risk of loss or damage to said equipment during performance of this Agreement. Field office equipment shall be maintained and in operational condition at all times.

6.6 Licensing for Equipment Operations:

Obtain proper licenses for equipment and personnel operating equipment when licenses are required. The license and supporting documents shall be available for verification by the Authority (Polk County), upon request.

Radioactive Materials License for use of Surface Moisture Density Gauges shall be obtained through the State of Florida Department of Health.

7.0 LIAISON RESPONSIBILITY OF THE CONSULTANT:

For the duration of the contract, keep Polk County's Construction Project Manager informed of all significant activities, decisions, correspondence, reports, and other communications related to its responsibilities under this Agreement.

Facilitate communications between all parties (i.e., architectural, mechanical, materials, landscaping, local agencies, etc.) ensuring responses and resolutions are provided in a timely manner. Maintain accurate records to document the communication process.

Inform the designated Authority project personnel of any design defects reported by the Contractor or observed by the Consultant.

Submit all administrative items relating to Invoice Approval, Personnel Approval, Time Extensions, and Supplemental Amendments to the Construction Project Manager for review and approval.

8.0 PERFORMANCE OF THE CONSULTANT:

During the term of the contract and all Supplemental Amendments thereof, the Authority will review various phases of consultant operations, such as construction inspection, materials sampling and testing, and administrative activities, to determine compliance with this Agreement. The Consultant shall cooperate and assist Authority representatives in conducting the reviews. If deficiencies are indicated, remedial action shall be implemented immediately. Authority recommendations and Consultant responses/actions are to be properly documented by the Consultant. No additional compensation shall be allowed for remedial action taken by the Consultant to correct deficiencies. Remedial actions and required response times may include but are not necessarily limited to the following:

A. Further subdivide assigned inspection responsibilities, reassign inspection personnel, or assign additional inspection personnel, within seven (7) calendar days of notification.

B. Immediately replace personnel whose performance has been determined by the Consultant and/or the Authority to be inadequate.

C. Immediately increase the frequency of monitoring and inspection activities in phases of work that are the Consultant's responsibility.

D. Increase the scope and frequency of training of the Consultant personnel.

9.0 REQUIREMENTS OF THE CONSULTANT:

9.1 General:

It shall be the responsibility of the Consultant to administer, monitor, and inspect the Construction Contract such that the project is constructed in reasonable conformity with the plans, specifications, and special provisions for the Construction Contract.

Observe the Contractor's work to determine the progress and quality of work. Identify discrepancies, report significant discrepancies to the Authority, and direct the Contractor to correct such observed discrepancies.

Inform the Authority (Polk County) Construction Project Manager of any significant omissions, substitutions, defects, and deficiencies noted in the work of the Contractor and the corrective action that has been directed to be performed by the Contractor.

9.2 Independent Engineering Judgment:

Exercise independent engineering judgment in pursuit of the project. Personnel are expected to gather information from project inspection personnel and make informed, technically sound decisions to promote timely, successful completion of the project without sacrificing quality. For technical issues which require coordination with the Authority, all levels of CEI Project Engineer shall be expected to present options for consideration along with a preferred option. Engineering experience and expertise are considerations for the selection of consultant staff. It is the Authority's expectation that this experience and expertise will be employed by consultant staff to make sound engineering judgments and recommendations throughout the project.

9.3 Public Safety:

Hold public safety paramount throughout the project. If the Consultant determines that any activity of the Contractor poses an imminent hazard to the public, the Consultant shall direct the Contractor to immediately cease the activity and close the affected lanes of traffic until the deficiency is addressed.

9.4 Timely Resolution:

Prioritize the Authority's goal of the timely and successful completion of the project. Work to actively develop solutions to issues encountered on the project in an expedient manner and work to ensure that issues do not persist for long periods without resolution.

9.5 Survey Control: (NOT APPLICABLE)

9.6 On-site Inspection:

Monitor the Contractor's on-site construction activities and inspect materials entering into the work in accordance with the Contract documents for the Construction Contract to determine that the projects are constructed in reasonable conformity with such documents. Maintain detailed accurate records of the Contractor's daily operations and of significant events that affect the work.

Monitor and inspect Contractor's Temporary Traffic Control Plan and review modifications to the Temporary Traffic Control Plan, including Alternate Traffic Control Plan, in accordance with the Department or County procedures. Consultant employees performing such services shall be qualified in accordance with the Department's and/or County procedures.

9.7 Sampling and Testing:

Perform sampling and testing of component materials and completed work in accordance with the Construction Contract documents. In complying with the construction contract documents, provide daily surveillance of the Contractor's Quality Control activities and perform the sampling and testing of materials and completed work items for verification and acceptance.

The Consultant will perform inspection and sampling of materials and components at locations remote from the project site. In addition, the Consultant will perform testing of materials normally done in a laboratory remote from the project site.

Determine the acceptability of all materials and completed work items on the basis of either test results, verification of a certification, certified mill analysis, DOT label, DOT stamp, etc.

The Authority will monitor the effectiveness of the Consultant's testing procedures through observation and any applicable independent assurance testing.

Sampling, testing and laboratory methods shall comply with the Contract Documents.

Documentation reports on sampling and testing performed by the Consultant shall be submitted during the same week that the construction work is done.

Transport samples to be tested in a consultant laboratory to the appropriate laboratory.

Maintain verification testing information and data in a construction management system supporting construction administration, field record keeping, and materials management.

9.8 Engineering Services:

Coordinate the Construction Contract administration activities of all parties other than the Contractor involved in completing the construction project. Notwithstanding the above, the Consultant is not liable to the Authority for failure of such parties to follow written direction issued by the Consultant.

Services shall include maintaining the required level of surveillance of Contractor activities and interpreting the Contract Documents for the Construction Contract. Maintain complete, accurate records of all activities and events relating to the project and properly document all project changes. The consultant shall create and maintain an electronic document management system. The following services shall be performed:

1. Schedule and conduct a meeting with the Authority prior to the Pre-construction conference and another meeting prior to project final acceptance. The purpose of these meetings is to discuss the required documentation, including as-builts, necessary for permit(s) compliance.
2. Submit an Engineer's Certification of Compliance at the end of the project, if applicable.
3. Verify that the Contractor is conducting inspections, preparing reports, and monitoring all storm water pollution prevention measures associated with the project. For each project that requires the use of the NPDES General Permit, provide at least one inspector who has successfully completed the "Florida Stormwater, Erosion, and Sedimentation Control Training and Certification Program for Inspectors and Contractors." The Consultant's inspector will be familiar with the requirements set forth in the FEDERAL REGISTER, Vol. 57, No. 187, Friday, September 5, 1992, pages 4412 to 4435 "Final NPDES General Permits for Storm Water Discharges from Construction Sites" and the Department's guidelines.
4. Analyze (if applicable) the Contractor's schedule(s) (i.e., baseline(s), revised baseline(s), updates, as-built, etc.) for compliance with the contract documents. Elements including, but not limited to, completeness, logic, durations, activity, flow, milestone dates, concurrency, resource allotment, and delays will be reviewed. Verify the schedule conforms with the construction phasing and MOT sequences, including all contract modifications. Provide a written review of the schedule identifying significant omissions, improbable or unreasonable activity durations, errors in logic, and any other concerns.
5. Analyze problems that arise on a project and proposals submitted by the Contractor; work to resolve such issues and process the necessary documentation.
6. When applicable, monitor, inspect and document Contractor's utility coordination efforts for compliance with Construction contract. Facilitate coordination and communication between Utility Agency's representatives, Authority's staff and Contractors executing the work. Identify potential utility conflicts and assist in the resolution of utility issues including Authority and Local Government owned facilities. Identify, review, and track progress of Joint Project Agreements, and/or other Authority and utility agreements. Address work progress, track reimbursement activities, and address betterment and salvage determination. Prepare all necessary documentation to support reimbursement activities and betterment and salvage determination.
7. Produce reports, verify quantity calculations, and field measure for payment purposes as needed to prevent delays in Contractor operations and to facilitate prompt processing of such information in order for the Authority to make timely payment to the Contractor.
8. When applicable, prepare and make presentations for meetings and hearings before the Dispute Review Boards in connection with the project covered by this Agreement.
9. Monitor each Contractor and Subcontractor's compliance with specifications and special provisions of the Construction Contract in regard to payment of predetermined wage rates in accordance with Authority procedures.

10. The Authority will provide Public Information Services.
11. If applicable, prepare and submit to the Authority, a monthly status report in a format specified by the Authority.
12. Video record the pre-construction conditions throughout the project limits. Provide a digital photo log or video of project activities, with heavy emphasis on potential claim items/issues and on areas of real/potential public controversy.
13. Provide a digital camera for photographic documentation of pre-construction state and of noteworthy incidents or events during construction. Photographs and other media will be filed and maintained on the Consultant's computer using a Digital Media Management system. Photographs shall be taken the day prior to the start of construction and continue as needed throughout the project. Photographs shall be taken the days of Conditional, Partial and Final Acceptance.

9.9 Asphalt Plant Services:

If required, provide Asphalt Plant Inspection services for Verification:

- Ensure that all Bituminous Verification requirements are met.
- Provide recommendations regarding the disposition of substandard materials.
- Generate the Random Numbers and notify the Quality Control (QC) technician after the mixture is produced and instruct when the QC technician shall take the sample.
- Perform testing and inspection within the allotted timeframe, as defined in the contract documents. Perform daily inspections of the Producer's Facility to ensure that the Producer is complying with their QC Plan and the contract documents. Document all inspections in daily journal.
- Keep a daily journal using a format or electronic system documenting the arrival and departure time, failures, QC, Process Control (P.C.), and Independent Verification (IV) samples taken (time and load numbers), time that IV technicians arrived and departed, all verification inspections performed, any production related problems, and any other pertinent information. Electronically submit the daily journal to the Authority, at the completion of production for the day.
- Observe the QC testing for accuracy (on a random yet consistent basis) to ensure that the QC staff is accurately documenting the weights and calculations of the test results performed. Submit the copy of handwritten data to as requested. Be familiar with the Producer's QC Plan for the facility and ensure that QC staff is following the Plan.
- Notify the Authority when recurring problems are encountered, or serious lapses occur with the QC staff following their Producer QC Plan or the contract documents.
- Be knowledgeable of the contract documents pertaining to Asphalt Production and testing at the Producer facilities.
- Document all material sample failures and all specification violations in the daily journal and notify the Project Administrator (PA) and Authority immediately.
- Perform a daily review of the QC worksheets and records for accuracy and completeness. Notify the PA and the Authority if the QC staff fails to complete the testing and pertinent paperwork within 24 hours. Make every effort to verify lots within the 24-hour timeframe, and on days the plant is producing.

- If resolution testing is required, notify the PA and the Authority immediately. After obtaining the resolution test results, update the Composite Pay Factor (CPF) Worksheet and other pertinent forms. Reissue revised forms to the PA within 24 hours of receiving the results unless directed otherwise. Provide the following additional plant inspection and testing related services, as requested:
    - Label and sign V and R sample boxes.
    - Inspect the asphalt plant, review, and analyze both QC and V test results and verify QC technician reports are accurate.
    - Collect roadway cores for each IV sample collected.
    - Notify the Authority when a Lot is completed and when Verification Technician needs to be sent to verify the completed lot.
    - Update the daily production spreadsheet.
    - Deliver IV samples by the end of the day.
    - Recommend to stop or restrict asphalt plant production.
    - Approve, monitor, revise, transfer, and terminate Asphalt Mix Designs, as applicable.

10.0 QUALITY ASSURANCE (QA) PROGRAM:

10.1 Quality Assurance Plan:

Within thirty (30) days after receiving award of an Agreement, furnish a QA Plan to the Construction Project Manager. The QA Plan shall detail the procedures, evaluation criteria, and instructions of the Consultant's organization for providing services pursuant to this Agreement.

Significant changes to the work requirements may require the Consultant to revise the QA Plan. It shall be the responsibility of the Consultant to keep the plan current with the work requirements. The Plan shall include, but not be limited to, the following areas:

A. Organization:

A description is required of the Consultant QA Organization and its functional relationship to the part of the organization performing the work under the Agreement. The authority, responsibilities and autonomy of the QA organization shall be detailed as well as the names and qualifications of personnel in the quality control organization.

B. Quality Assurance Reviews:

Detail the methods used to monitor and achieve organization compliance with Agreement requirements for services and products.

C. Quality Assurance Records:

Outline the types of records which will be generated and maintained during the execution of the QA program.

D. Control of Subconsultants and Vendors:

Detail the methods used to control subconsultant and vendor quality.

E. **Quality Assurance Certification:**

An officer of the Consultant firm shall certify that the inspection and documentation was done in accordance with County and FDOT specifications, plans, standard indexes, and Authority procedures.

10.2 Quality Assurance Reviews:

On this short duration CEI project (approximately (10) months), the CCEI shall perform an initial QA review within the first two (2) months of the start of construction.

10.3 Quality Records:

Maintain adequate records of the quality assurance actions performed by the organization (including Subcontractors and vendors) in providing services and products under this Agreement. All records shall indicate the nature and number of observations made, the number and type of deficiencies found, and the corrective actions taken. All records shall be available to the Authority, upon request, during the Agreement term. All records shall be kept at the primary job site and shall be subject to audit review.

11.0 CERTIFICATION OF FINAL ESTIMATE (AS APPLICABLE BY THE AUTHORITY):

11.1 Final Estimate Submittal:

Prepare documentation and records in compliance with the Agreement, Statewide Quality Control (QC) Plan, or Consultant's approved QC Plan and the Authority or Department's Procedures as required by CPAM.

Submit the Final Estimate(s) documenting the Contractor's work in accordance with the Authority procedures or Department's CPAM.

11.2 Certification:

Consultant personnel preparing the Certified Final Estimate Package shall be CTQP Final Estimates Level II.

Duly authorized representative of the Consultant firm will provide a digitally signed certification on a form pursuant to Department and Authority's procedures.

11.3 Offer of Final Payment:

Prepare any Offer of Final Payment in accordance with Authority procedures. The package shall accompany the Certified Final Estimates Package submitted to the Authority for review. The Consultant shall be responsible for forwarding the Offer of Final Payment Package to the Contractor.

12.0 AGREEMENT MANAGEMENT:

12.1 General:

(1) When the Consultant identifies a condition that will require an amendment to the Agreement, the Consultant will communicate this need to the Authority Construction Project Manager for acceptance. Upon acceptance, prepare and submit an Amendment Request (AR), and all accompanying documentation to the Authority Construction Project Manager for approval and further processing. The AR is to be submitted at such time to allow the Authority four (4) weeks to process, approve, and execute the AR. The content and format of the AR and accompanying documentation shall be in accordance with the instructions and format to be provided by the Authority.

(2) The Consultant is responsible for performing follow-up activities to determine the status of each Amendment Request submitted to the Authority.

12.2 Invoicing Instructions:

Monthly invoices shall be submitted to the Authority in a format and distribution schedule defined by the Authority, no later than the 30th day of the following month.

If the monthly invoice cannot be submitted on time, notify the Authority prior to the due date stating the reason for the delay and the planned submittal date. Once submitted, the Consultant Project Principal or Senior Project Engineer shall notify the Construction Project Manager via e- mail.

All invoices shall be submitted to the Authority in electronic format in accordance with the Authority's procedures.

All charges to the individual project will end no later than thirty (30) calendar days following final acceptance; or where all items of work are complete and conditional/partial acceptance is issued, unless authorized otherwise in writing by the Authority.

A Final Invoice will be submitted to the Authority no later than the 30th day following Final Acceptance of the individual project or as requested by the Authority unless authorized otherwise.

13.0 OTHER SERVICES:

Upon written authorization by the Director of Operations and Engineering or designee of the Authority, the Consultant will perform additional services in connection with the project not otherwise identified in this Agreement. The following items are not included as part of this Agreement but may be required by the Authority to supplement the Consultant services under this Agreement.

A. Assist in preparing for arbitration hearings or litigation that occurs during the Agreement time in connection with the construction project covered by this Agreement.

B. Provide qualified engineering witnesses and exhibits for arbitration hearings or litigation in connection with the Agreement.

C. Provide inspection services in addition to those provided for in this Agreement.

D. Provide services determined necessary for the successful completion and closure of the Construction Contract.

14.0 POST CONSTRUCTION CLAIMS REVIEW:

In the event the Contractor submits a claim for additional compensation and/or time after the Consultant has completed this Agreement, analyze the claim, engage in negotiations leading to settlement of the claim, and prepare and process the required documentation to close out the claim. Compensation for such services will be negotiated and effected through a Supplemental Amendment to this Agreement as applicable.

15.0 THIRD PARTY BENEFICIARY:

It is specifically agreed between the parties executing this Agreement that it is not intended by any of the provisions of any part of the Agreement to create in the public or any member thereof, a third party beneficiary hereunder, or to authorize anyone not a party to this Agreement to maintain a claim, cause of action, lien or any other damages or any relief of any kind pursuant to the terms or provisions of this Agreement.

16.0 POLK COUNTY AUTHORITY:

The County shall be the final authority in considering modifications to the Construction Contract for time, money, or any other consideration. The consultant will provide support and recommendations to the County to assist them in their consideration of the aforementioned modifications.

Lakeland, FL 33801

Attention: Albert Furney

Subject: Proposal to Provide Laboratory Testing Services
N Galloway Rd & 10th Street Roundabout
AREHNA Proposal No.: M.Prop-25-061

AREHNA Engineering, Inc. (AREHNA) is pleased to present our estimated budget proposal to perform Construction Materials Testing services for the above referenced project. We would appreciate an opportunity work with your team on this project.

Our Qualifications

AREHNA is a certified Disadvantaged Business Enterprise (DBE) by the State of Florida, the Florida Department of Transportation (FDOT), the City of Tampa, Tampa Port Authority, Hillsborough County, and the Hillsborough County School Board, among many others. Copies of our certifications are available upon request.

We are a multi-disciplined organization of professional engineers, project managers, field and laboratory technicians, and support personnel, who combine their technical capabilities, past experience, dedication, and enthusiasm to provide quality-engineering services to our clients.

Our Resources and Personnel

Because we know that our most valuable asset is our people, we believe that by investing in our people, it increases the value and services we can offer and bring to our clients and their projects. We currently have a diverse team of over 13 experienced and certified field laboratory technicians that holds a combined total of over 90 various CTQP certifications in earthwork, pile driving, asphalt, geotechnical, and laboratory testing as well as ACI certifications for concrete testing. Our field and laboratory technicians have between 2 to over 30 years of testing and inspection experience.

Our laboratory is a modern fully equipped laboratory that meets the requirements for ASTM E-329 and additionally is FDOT approved and AASHTO accredited. In addition to our laboratory, our fleet vehicles are GPS equipped to provide instant location of our personnel which allows us to better serve our clients.

Our Safety

Safety is very important to us and we understand how critical it is to our employees, their families and our clients. We know safety is critical in construction and on many projects can be a factor when selecting construction materials testing firms. Our field personnel understand that hard hats, safety vests, boots, hearing protection, safety glasses, and gloves are normal for every project. Our personnel understand and follow our corporate safety policy as well as the site safety policy of each project.

Scope of Services

We anticipate our services for this project may include:

- Provide qualified laboratory technicians to perform various laboratory testing on soils, concrete and asphalt samples
- We assume all samples will be delivered to the AREHNA laboratory for testing

Reporting

Our reporting system uses a report numbering system for each test report issued to allow the client, contractor, and other team members the ability to track various testing reports and compliance issues during construction. The advantage of this system is to verify missing test reports and tracking of non-compliance issues for the contractor and to allow them the option to back charge subcontractors for failed testing as well as improving invoice approval and payment management.

Fees and Budgets

Based on a review of the plans, specifications, and our general knowledge of the project, an estimate of our fees for budget consideration is attached to this proposal. Requested services will be invoiced for only services that are performed based on actual hours and tests performed utilizing the attached unit rates (Attachment A). Any services requested not shown in Attachment A will be based on standard unit rates or rates established by the client and AREHNA. Our services will be performed in accordance with our attached Terms and Conditions and our services in Attachment A. A copy of our Work Order is attached to this proposal for your authorization and signature.

We would greatly appreciate the opportunity to work with you on this and future projects and we thank you in advance for your consideration of AREHNA as your Construction Materials Testing firm. If you have any questions with regard to this proposal, please do not hesitate to contact us at 813.944.3464.

Respectfully Submitted,
AREHNA Engineering, Inc.

Stephen Long, P.E.
Senior Project Engineer

Estimated Fees
Proposal No. : M.Prop-25-061
Date: 06/06/25

CONSTRUCTION MATERIALS TESTING & INSPECTION SERVICES

Senior Engineering Technician				
Asphalt Plant Inspection - *Estimate 8 Days*	64	hour	$ 95.00	$ 6,080.00
Laboratory Testing				
Soil	**Quantity**	**Units**	**Rate**	**Subtotal**
Standard Proctor Test	5	each	$ 125.00	$ 625.00
Modified Proctor Test	5	each	$ 130.00	$ 650.00
Soil Classification	10	each	$ 245.00	$ 2,450.00
Limerock Bearing Ratio (LBR) Test	5	each	$ 350.00	$ 1,750.00
Concrete & Grout				
Laboratory Compressive Strength Test of 4x8 Cylinders - *1 set of 5*	20	set	$ 125.00	$ 2,500.00
Asphalt				
Asphalt Cores for Density & Thickness	24	each	$ 35.00	$ 840.00
Engineering Services	**Quantity**	**Units**	**Rate**	**Subtotal**
Senior Professional Engineer	4	hour	$ 200.00	$ 800.00
Project Manager	16	hour	$ 150.00	$ 2,400.00
Administrative Assistant	8	hour	$ 72.00	$ 576.00
ESTIMATED CONSTRUCTION MATERIALS TESTING & INSPECTION SERVICES TOTAL				**$ 18,671.00**

Notes:
1. Assume all samples will be delivered to AREHNA Laboratory.

AREHNA ENGINEERING WORK ORDER

Project Name ("Project"): N Galloway Rd & 10th Street Roundabout
Proposal No. ("Proposal"): M.Prop-25-061
Date of Proposal: 6/6/2025
Project Location ("Site"): 10270 Atlanta Avenue, Brooksville, FL 34614
Client: CONSOR Engineers, LLC
Client Address: 801 South Florida Avenue
Lakeland, FL 33801
Scope of Services: Please refer to the attached Proposal, which is incorporated herein by reference.

In consideration of the mutual covenants expressed herein, and intending to be legally bound, the Parties agree as follows:

1. **STANDARD OF CARE.** AREHNA will perform the Scope of Authorized Services referenced above and in any subsequent change order ("Services") as an independent contractor, using that degree of skill and care ordinarily exercised under similar conditions by reputable members of AREHNA's profession practicing in the same or similar locality at the time of performance. NO OTHER WARRANTY, EXPRESS OR IMPLIED, IS MADE OR INTENDED, AND THE SAME ARE SPECIFICALLY DISCLAIMED, INCLUDING THE IMPLIED WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE. Any claim that Client may bring against AREHNA with respect to the Services to be performed by AREHNA must be commenced within one (1) year after the date on which Client first knew or should have known of the deficient Services upon which the claim is based.

2. **OPINIONS OR ESTIMATES OF COST.** If included in the Services, AREHNA will provide estimates of the cost of materials, remediation or construction based on AREHNA's experience on similar projects, which are not intended for Client's or others' use in developing firm budgets or financial models, or making investment decisions. Client agrees that any opinion of cost is still merely an estimate.

3. **PAYMENT.** Client will pay AREHNA for performing the Services in accordance with the fee provisions contained in the Proposal or the above Scope of Authorized Services. AREHNA's invoices are due upon receipt. If payment is not received within thirty (30) days from the date of AREHNA's invoice, in addition to the invoiced amount, Client will owe interest on the unpaid balance at a rate equal to the lesser of one and one-half (1½ %) percent per month or the maximum legal rate until the invoice, plus interest, is paid in full. AREHNA may suspend the performance of Services when any invoice is past due.

4. **OWNERSHIP OF DELIVERABLES AND RELATED DOCUMENTS.** All reports, drawings, plans, designs and other documents prepared by AREHNA pursuant to this Agreement, (collectively, "Deliverables") including all intellectual property rights therein, remain the property of AREHNA. Client agrees that the Deliverables (i) are intended for the exclusive use and benefit of, and may be relied upon only by, Client and (ii) will not be used at a Site or for a Project not expressly provided for in this Agreement. Client does not require AREHNA's permission for regulatory submittal of the Deliverables or, subject to all terms and conditions contained in this Agreement, reliance on the Deliverables provided to Client's design team, of which AREHNA is a member, solely for the design of the Project for which the Deliverables were intended. Client agrees that any prospective lender, buyer, seller or other third party who wishes to rely on any Deliverables must first sign AREHNA's Secondary Client Agreement. Client will defend, indemnify and hold harmless AREHNA, its parent, subsidiaries, affiliates and subcontractors, including their respective officers, directors, employees, agents, successors and assigns, (collectively, "Indemnitees") from and against all claims, settlements, costs, expenses, liabilities, damages, penalties and interest, including attorneys' fees and litigation expenses, (collectively, "Liabilities") asserted against or incurred by Indemnitees as a result of any unauthorized use of, or reliance on, the Deliverables. If Client requests Deliverables on electronic media, it agrees that the electronic copy may be inaccurate or incomplete, and the document retained by AREHNA will be the official document. Any modification(s) of the electronic copy by Client will be at its own risk. Client further agrees that (i) the Deliverables may be based in part or in whole on facts and/or assumptions provided to, but not independently verified by, AREHNA, (ii) the Deliverables will reflect AREHNA's findings as to conditions that existed only at the time the Services were performed and (iii) AREHNA makes no representations as to any facts or assumptions provided to, but not independently verified by AREHNA.

5. **LIMITATION OF LIABILITY.** TO THE MAXIMUM EXTENT PERMITTED BY LAW, CLIENT EXPRESSLY AGREES, FOR ITSELF AND ANYONE CLAIMING BY, THROUGH OR UNDER IT, THAT THE LIABILITY OF AREHNA, AFFILIATES AND SUBCONTRACTORS, INCLUDING THEIR RESPECTIVE OFFICERS, DIRECTORS, EMPLOYEES, SUCCESSORS AND ASSIGNS, FOR ANY AND ALL CAUSES OF ACTION WHATSOEVER, INCLUDING, WITHOUT LIMITATION, TORT, CONTRACT, STRICT LIABILITY, INDEMNITY OR OTHERWISE, ARISING OUT OF, OR IN CONNECTION WITH, THIS AGREEMENT OR AREHNA'S PROFESSIONAL SERVICES, SHALL BE LIMITED TO THE AGGREGATE SUM, INCLUDING AMOUNTS PAID TO THIRD PARTY RECIPIENTS OF DELIVERABLES, ATTORNEYS' FEES AND ALL OTHER LITIGATION COSTS AND EXPENSES, IF ANY, OF FIFTY THOUSAND DOLLARS ($50,000) OR THE TOTAL FEES PAID TO AREHNA BY CLIENT UNDER THIS AGREEMENT, WHICHEVER IS GREATER. Client acknowledges that (i) without the inclusion of this limitation of liability provision, AREHNA would not have performed the Services, (ii) it has had the opportunity to negotiate the terms of this limitation of liability as part of an "arms-length" transaction, (iii) the limitation amount may differ from the amount of professional liability insurance required of AREHNA under this Agreement, (iv) the limitation of liability provision is merely a limitation of, and not an exculpation from, AREHNA's liability and (v) it has received special consideration of ten dollars ($10) for this limitation of liability provision and waives any and all rights to dispute the receipt and sufficiency of such consideration. PURSUANT TO FLORIDA STATUTES, SECTION 558.0035, AN INDIVIDUAL EMPLOYEE OR AGENT MAY NOT BE HELD INDIVIDUALLY LIABLE FOR NEGLIGENCE.

6. **INDIRECT DAMAGES.** EACH PARTY HEREBY WAIVES ITS RIGHTS TO RECOVER FROM THE OTHER PARTY ANY CONSEQUENTIAL, INDIRECT, OR INCIDENTAL DAMAGES (INCLUDING, BUT NOT LIMITED TO, LOSS OF USE, INCOME, PROFITS, FINANCING OR REPUTATION), ARISING OUT OF, OR RELATING TO, THIS AGREEMENT OR THE PERFORMANCE OF THE SERVICES, OR BOTH.

7. **SITE OPERATIONS.** If sampling or intrusive services are part of the Services, the Proposal or opinion of costs does not include the costs associated with surveying the Site to determine accurate horizontal and vertical locations of any tests, borings, or well installation locations. Client will establish test or boring locations. If surveying is required, those Services will be secured by Client. Field tests or boring locations described in the Deliverables or shown on sketches are based on information furnished by others or estimates made in the field by AREHNA's personnel. Such depths, dimensions, or elevations are approximations. Unless expressly stated otherwise, the Services do not include the costs of restoration of damage which is reasonably necessary to perform the Services. Client will defend, indemnify and hold harmless the Indemnitees from and against Liabilities related to, or arising from, any undisclosed or unknown surface or subsurface conditions, except to the extent such Liabilities were caused solely by the negligence of the Indemnitees.

8. **SITE RESPONSIBILITY**. Client will provide AREHNA with access to the Site and all available Site information deemed necessary by AREHNA. The Services do not include supervision or direction of the means, methods or actual work of other consultants, contractors and subcontractors not retained by AREHNA. Client agrees that each such other party will be solely responsible for its working conditions and safety on the Site. AREHNA's monitoring of the procedures of any such other party is not intended to include a review of the adequacy of its safety measures. It is agreed that AREHNA is not responsible for safety or security at the Site, other than for AREHNA's employees, and that AREHNA does not have the right or duty to stop the work of others.

9. **SAMPLES AND WASTES.** Samples are generally consumed or altered during testing and are disposed of immediately upon completion of the tests. If Client directs AREHNA to retain any samples, AREHNA will take reasonable steps to retain them, at Client's expense, but only for a mutually acceptable time. AREHNA reserves the right to refuse storage of any samples. If the samples or wastes resulting from the Services or any soils or materials contain asbestos, molds, fungi, bacteria, viruses, or any other hazardous, radioactive or toxic substances, pollutants, or their constituents (collectively, "Contaminants"), AREHNA, at Client's direction and expense, will either (i) return such samples, wastes, soils or materials to, or leave them with, Client for appropriate disposal or (ii) using a manifest signed by Client as generator and arranger, transport such samples, wastes, soils or materials to an approved facility selected by Client for final disposal, using a transporter selected by Client. In so doing, AREHNA will be acting solely as an independent contractor for Client and will at no time assume title, constructive or express, to any such samples, wastes, soils, or materials. Client will defend, indemnify and hold harmless the Indemnitees from and against all Liabilities arising from the Indemnitees handling of such samples, wastes, soils or materials, except to the extent of AREHNA's negligence or willful violation of any applicable law.

10. **UNANTICIPATED CONDITIONS.** Client will inform AREHNA in writing of all known Contaminants or other conditions existing on or near the Site that present a potential danger to health, the environment, or AREHNA's equipment or personnel prior to commencement of the Services. Should AREHNA encounter such conditions which were not reasonably anticipated or which increase the risk or cost, or both, involved in AREHNA's performance of the Services, upon notice to Client, AREHNA, in its sole discretion, may (i) suspend the performance of Services and submit a change order to be signed by Client prior to proceeding or (ii) discontinue the performance of Services and terminate this Agreement. If the unanticipated condition presents an immediate or potential threat to health, safety, the environment, or AREHNA's equipment or personnel, AREHNA will immediately inform Client, so that Client can notify the appropriate government authorities. If Client fails to do so, Client will hold AREHNA harmless if AREHNA provides such notice.

11. **EXCUSABLE DELAY.** AREHNA will not be in breach of this Agreement due to any delay or failure to perform any obligation pursuant to a schedule, if such delay or schedule failure results from circumstances beyond the control of AREHNA. In the event of any such delay, AREHNA will be entitled to an extension of the time to put performance of the Services back on schedule, and AREHNA will be compensated for any necessary and reasonable increased costs of performance that result from such delay.

12. **ENVIRONMENTAL INDEMNITY.** Client (i) expressly releases the Indemnitees from all Liabilities arising from, or related to, any exposure, release, or dispersal of Contaminants on or about the Site and (ii) will defend, indemnify, and hold harmless the Indemnitees from and against all such Liabilities arising from or caused by Contaminants ("Environmental Liabilities"), except to the extent that such Environmental Liabilities are determined to have been caused solely by the negligence of, or the willful violation of any applicable environmental health or safety law, by AREHNA.

13. **TERM AND TERMINATION.** The term of this Agreement shall commence on the month, day and year first written above and shall continue in effect until completion of the Services and final payment, unless earlier terminated by Client for its convenience upon fourteen (14) days prior written notice to AREHNA. In such event, Client will take possession of the Site and the materials and equipment thereon, provided that such materials and equipment have been paid for by Client. AREHNA will be paid for all Services performed up to the effective date of termination, plus reasonable demobilization expenses and expenses related to the cancellation of previously-placed orders and other commitments regarding the Project.

14. **DISPUTE RESOLUTION.** The Parties shall undertake in good faith to settle or compromise all disputes, controversies, or differences between them that arise out of, or are related to, the performance of a Party under this Agreement (individually, "Dispute" and, collectively, "Disputes") by means of amicable discussions. All Disputes shall be dealt with as follows:

Any time there is a Dispute, either Party may send a written notice to the other Party setting forth a description of the Dispute ("Notice of Dispute"). If the Dispute is not resolved during the first fourteen (14) days following receipt of the Notice of Dispute, either Party may seek to have the Dispute resolved by non-binding mediation pursuant to the construction industry rules of the American Arbitration Association. Promptly upon selection of a mediator, the Parties shall provide the mediator with copies of the Notice of Dispute, all related, relevant documents and a statement of their respective positions and shall request that the mediator meet with the Parties within twenty (20) days of such selection to consider and propose a resolution or a procedure for reaching a resolution. If the Parties have not resolved the Dispute or have not agreed in a writing signed by an officer of both Parties to resolve the Dispute by binding arbitration, either Party, after sixty (60) days following receipt of the Notice of Dispute (regardless of whether any mediation process has occurred or is ongoing or concluded), may seek a resolution in any state or federal court that has jurisdiction over the Parties and the subject matter of the Dispute ("Court"). Either Party may apply to a Court for an order, if necessary, granting preliminary relief to maintain the status quo, to avoid irreparable injury, or to obtain other emergency relief at any time during the process described above. Despite such application, the Parties will continue to participate in good faith in the procedures specified in this Section 14. The procedures specified in this Section 14 shall be the sole and exclusive procedures for the resolution of Disputes. THE PARTIES HEREBY WAIVE TRIAL BY JURY WITH RESPECT TO ANY ACTION OR PROCEEDING BROUGHT IN CONNECTION WITH THIS AGREEMENT.

15. **ASSIGNMENT.** This Agreement may not be assigned by either Party without the written consent of the other Party, which said such consent shall not be unreasonably withheld or delayed. Client acknowledges that AREHNA may subcontract portions of the Services to its affiliated companies and/or utilize employees of its affiliated companies in performing the Services, without the approval of Client.

16. **SURVIVAL.** All of Client's and AREHNA's obligations and liabilities, including, but not limited to, Client's defense and indemnification obligations and the limitation of liability provision in Section 5, and AREHNA's rights and remedies with respect thereto, shall survive completion of the Services and the expiration or termination of this Agreement.

17. **SEVERABILITY.** If any provision of this Agreement is deemed invalid or unenforceable, it is the intent of the Parties that this entire Agreement not be invalidated or rendered unenforceable, that the remaining provisions shall continue in full force and effect and the invalid or unenforceable provision shall be interpreted and enforced as closely as possible to the intent of the Parties, or deleted if a valid or enforceable interpretation is not possible under applicable law, and that the rights and obligations of the Parties shall be construed and enforced accordingly.

18. **NO CONSTRUCTION AGAINST THE DRAFTER.** Each of the Parties has had an opportunity to negotiate the terms and conditions expressed herein; therefore, this Agreement will not be construed more strictly against either Party as the drafter.

19. **INTEGRATION.** This Agreement and other documents, if attached as exhibits hereto, constitute the entire Agreement between the Parties and supersede any previous written or oral contracts or negotiations. This Agreement and the above Scope of Authorized Services can only be changed by a written instrument signed by both Parties.

20. **GOVERNING LAW**. This Agreement shall be governed by the laws of the State of Florida, without giving effect to its choice of law principles.

Agenda Item G.2. 8/19/2025

SUBJECT

Approve two agreements with DataMark Technologies for (1) technical services to implement and provide annual support services for E-9-1-1 GIS data management software (5YR cost $381,731.00) and (2) hosting of the software and the annual Software as a Service (SaaS) subscription. (5YR cost $438,972.00)

DESCRIPTION

On May 17, 2023, the County Manager approved the Florida 911 Region 4 Next Generation 9-1-1 (NG9-1-1) Project Memorandum of Understanding with Citrus BOCC, Hernando BOCC, Hillsborough BOCC, Manatee BOCC, Pasco BOCC, Pinellas BOCC, Sarasota BOCC, and Sumter BOCC. DataMark Technologies Validate-Edit-Provision (VEP) software was selected by the Florida 9-1-1 Region 4 to consume, maintain, and distribute NG-9-1-1 geospatial data.

Sole Source No. 25-645 with DataMark Technologies, as a result of the Memorandum of Understanding, is to collaborate on NG9-1-1 related matters and encourage collaboration between PSAPs and GIS authorities in the development and maintenance, and sharing of critical GIS data needed to support NG9-1-1 services across the region and State of Florida.

The technical services agreement provides for coordination and facilitation of workshops with Emergency Management E-9-1-1 staff, Polk County's four Public Safety Answering Points, and neighboring counties to assess, develop, and correct National Emergency Number Association (NENA) required NG9-1-1 boundary layers, and Polk County E-9-1-1 GIS datasets, for conformance with the NG9-1-1 GIS Data Model.

The technical services for implementation and annual support are broken down as follows:

- Implementation Services $264,425.00 (one-time cost)
- Year One Support Costs: $21,752.00
- Year Two Support Costs: $22,840.00
- Year Three Support Costs: $23,525.00
- Year Four Support Costs: $24,231.00
- Year Five Support Costs: $24,958.00

The Software as a Service (SaaS) subscription agreement provides for the VEP cloud-native solution to validate, edit, and provision public safety GIS data following NG9-1-1 standards and GIS industry best practices.

The Software as a Service (SaaS) subscription is broken down as follows:

- Implementation Services $7,000.00 (one-time cost)
- Year One Support Costs: $80,102.00
- Year Two Support Costs: $84,107.00
- Year Three Support Costs: $86,629.00
- Year Four Support Costs: $89,229.00
- Year Five Support Costs: $91,905.00

RECOMMENDATION

Request Board approve two agreements with DataMark Technologies for (1) technical services to implement and provide annual support services for E-9-1-1 GIS data management software in the amount of $381,731.00 and (2) hosting of the software and the annual Software as a Service (SaaS) subscription in the amount of $438,972.00.

FISCAL IMPACT

Funds are budgeted in the Emergency Management E-9-1-1 Fund for the upcoming fiscal year and will be budgeted in future fiscal years.

CLIENT Agreement

THIS AGREEMENT by and between DATAMARK® Technologies, a joint venture of Michael Baker International Inc. and Digital Data Technologies LLC with offices located at 100 Airside Drive, Moon Township, PA 15108 ("**DATAMARK TECHNOLOGIES**"), and Polk County, a political subdivision of the State of Florida (hereinafter, "**CLIENT**"), with offices 330 West Church Street, Bartow, FL 33830. The two entities are collectively referred to as the "Parties".

WHEREAS, the **CLIENT** desires that **DATAMARK TECHNOLOGIES** perform certain technical services for **CLIENT**.

WHEREAS, **DATAMARK TECHNOLOGIES** is in the business of providing those technical services for CLIENT and desires such services to be performed for **CLIENT**.

NOW THEREFORE, in consideration of the mutual promises and covenants contained herein, and intending to be legally bound hereby, the Parties agree as follows:

1. **SCOPE OF WORK.** **DATAMARK TECHNOLOGIES** shall perform such technical services as are described in the attached Exhibit "B", including any additions or modifications mutually agreed upon and incorporated therein (hereinafter, "Work").
2. **STANDARD OF CARE.** The standard of care applicable to **DATAMARK TECHNOLOGIES'** services is the degree of skill and diligence normally employed by providers of technical services performing the same or similar services.
3. **COMPENSATION AND PAYMENT.** **CLIENT** shall compensate **DATAMARK TECHNOLOGIES** for the Work in such manner as described in the attached Exhibit A, including any additions or modifications mutually agreed upon and incorporated therein (hereinafter, the "Payment Terms"). The **CLIENT** shall also pay
4. **COMPLIANCE WITH LAWS.** **DATAMARK TECHNOLOGIES** shall comply with all applicable provisions of the unemployment compensation, sickness and disability, Social Security laws, the Fair Standards Act and all other Federal, State, and local laws or regulations relating to employment.
5. **ASSIGNMENT BY CLIENT.** All the terms, provisions, covenants and conditions of this Agreement (including any modifications thereto) shall be binding upon, inure to the benefit of, and be enforceable by **CLIENT**, its successors and assigns; provided however, that no portion of this Agreement (including any Task Order) and the rights and obligations thereunder shall be assignable or delegable by **CLIENT**, by operation of law or otherwise, without the express prior written consent of **DATAMARK TECHNOLOGIES** which consent shall not be unreasonably withheld.
6. **ASSIGNMENT BY DATAMARK TECHNOLOGIES.** All the terms, provisions, covenants and conditions of this Agreement (including any modifications thereto) shall be binding upon, inure to the benefit of, and be enforceable by **DATAMARK TECHNOLOGIES**, its successors and assigns; provided however, that no portion of this Agreement (including any Task Order) and the rights and obligations thereunder shall be assignable or delegable by **DATAMARK TECHNOLOGIES**, by operation of law or otherwise, without the express prior written consent of **CLIENT** which consent shall not be unreasonably withheld.
7. **CHANGES.** The **CLIENT** may, at any time prior to the completion of the Work, direct, in writing, any changes to the Work, including but not limited to the revision of the Work's scope, time period, or schedule of performance. **DATAMARK TECHNOLOGIES** shall perform such changes to the Work as directed by the **CLIENT** in writing and shall be paid for such Work at a fixed rate established by the change order or contract amendment.
8. **SUSPENSION OR TERMINATION.** In the event that the Work is terminated or suspended by the **CLIENT** prior to its completion, **DATAMARK TECHNOLOGIES** shall be paid an equitable amount proportional to the services rendered to the date of termination or suspension,. Both Parties agree to provide each other thirty days written notice of termination or suspension of the work.

9. **DEFAULT.** Should either party breach any provisions of this Agreement the non-breaching party shall have the rights and remedies provided by law or under these terms and conditions.

10. INDEMNIFICATION. (See attached Polk County Supplemental Conditions)

11. **LIMITATIONS OF LIABILITY.** NEITHER PARTY (NOR ANY SERVICE, LICENSOR OR OTHER SUPPLIER OF DATAMARK TECHNOLOGIES) SHALL BE LIABLE FOR INDIRECT, INCIDENTAL, SPECIAL OR CONSEQUENTIAL DAMAGES, INCLUDING, WITHOUT LIMITATION, DAMAGES FOR LOST BUSINESS, PROFITS, DATA OR USE OF ANY SERVICE, INCURRED BY EITHER PARTY OR ANY THIRD PARTY IN CONNECTION WITH THIS SAAS AGREEMENT, REGARDLESS OF THE NATURE OF THE CLAIM (INCLUDING NEGLIGENCE), EVEN IF FORESEEABLE OR THE OTHER PARTY HAS BEEN ADVISED OF THE POSSIBILITY OF SUCH DAMAGES. NEITHER PARTY'S AGGREGATE LIABILITY FOR DAMAGES UNDER THIS AGREEMENT, REGARDLESS OF THE NATURE OF THE CLAIM (INCLUDING NEGLIGENCE), SHALL EXCEED THE FEES PAID OR PAYABLE BY CUSTOMER UNDER THIS AGREEMENT DURING THE 12 MONTHS PRECEDING THE DATE THE CLAIM AROSE.

12. **INDEPENDENT CONTRACTOR.** **DATAMARK TECHNOLOGIES** acknowledges that it is furnishing the services contemplated by this Agreement hereto as an independent contractor, and not as an employee or agent of **CLIENT** or any of its affiliates.

13. **PUBLIC ANNOUNCEMENTS.** No publicity releases (including news releases and advertising) relating to this Agreement or the services performed hereunder, shall be issued by either party without the prior written approval of the other party.

14. **PARTIAL INVALIDITY.** If any term, covenant, condition or provision of this Agreement is found by a court of competent jurisdiction to be invalid, void, or unenforceable, the remainder of the provisions hereof shall remain in full force and effect, and shall in no way be affected, impaired or invalidated thereby.

15. **HEADINGS.** Headings in this Agreement are for convenience only and are not intended to be used in interpreting or construing the terms, covenants, and conditions of this Agreement.

16. **GOVERNING LAWS.** (See attached Polk County Supplemental Conditions)

17. **SUPPLEMENTS TO AGREEMENT.** The following Exhibits are an integral part of this Agreement.

    A. Exhibit "A" Compensation and Payment

    B. Exhibit "B" Scope of Work

    C. Exhibit "C" Polk County Supplemental Conditions

18. **ENTIRE AGREEMENT.** This Agreement constitutes the whole agreement between the Parties with respect to the subject matter contained herein, and there are no terms other than those contained herein. No modification or amendment of this Agreement shall be valid unless in writing and signed by the Parties hereto. This Agreement supersedes all proposals, negotiations, conversations, discussions, agreements and/or representations, whether oral or written, including any industry custom or past dealing between the parties relating to the subject matter of this Agreement.

19. **FORCE MAJEURE.** (See attached Polk County Supplemental Conditions)

20. **REUSE OF WORK PRODUCT.** Any reuse of **DATAMARK TECHNOLOGIES**' work product without written verification or adaptation by **DATAMARK TECHNOLOGIES'** will be at the **CLIENT**'s own risk and without liability or legal exposure to **DATAMARK TECHNOLOGIES**. The **CLIENT** shall indemnify and hold harmless **DATAMARK TECHNOLOGIES** from all claims, damages, losses and expenses, including reasonable attorney's fees, arising out of or resulting therefrom. Any such verification or adaptation will entitle **DATAMARK** to further compensation at rates to be agreed upon by the **CLIENT** and **DATAMARK TECHNOLOGIES**.

21. **OBLIGATION OF GOOD FAITH, FAIR DEALINGS AND MITIGATION OF DAMAGES.** This Agreement imposes an obligation of good faith, fair dealings and the mitigation of damages among the Parties in all

matters relating to this Agreement. Good faith, for this purpose, includes honesty in fact and the observance of reasonable commercial standards of fair dealings and in the mitigation of damages even in situations where a decision is left to the sole discretion of a single party.

22. **INVENTIONS AND PATENTS.** Inventions conceived solely by employees of **CLIENT** shall belong exclusively to **CLIENT**. Inventions conceived solely by employees of **DATAMARK TECHNOLOGIES** shall belong exclusively to **DATAMARK TECHNOLOGIES.** Inventions conceived jointly by the Parties hereto in the course of work called for by this Agreement shall be subject to further agreement of the Parties so as to properly recognize each party's respective rights in such joint inventions.

IN WITNESS WHEREOF, the Parties, intending to be legally bound hereby, have executed this Agreement as of the dates indicated below (with the effective date being the date of issuance of the written notice to proceed from **CLIENT**):

EXHIBIT B: SCOPE OF WORK

NG9-1-1 Boundary Facilitation and Correction

DATAMARK Technologies will coordinate and facilitate workshops with Polk County 911's GIS and public safety staff along with stakeholders from neighboring counties to assess, develop, and correct NENA-required NG9-1-1 boundary layers for conformance with the NG9-1-1 GIS Data Model.

Our team will conduct boundary assessment workshops for Polk County 911 and its neighboring counties, acting as a neutral facilitator to identify anomalies, gaps, and overlaps along internal boundaries and shared exterior boundaries. In each workshop, we will coordinate discussions with project stakeholders to develop authoritative decisions for resolving them.

Boundary workshops will be conducted with Polk County 911's public safety and GIS teams as well as the following neighboring jurisdictions: **Polk County, Hardee County, Highlands County, Hillsborough County, Lake County, Manatee County, Okeechobee County, Orange County, Osceola County, Pasco County, Sumter County.**

Each workshop's discussions will be documented along with Polk County 911's authoritative decisions to correct gaps, overlaps, and anomalies in its boundary data. DATAMARK Technologies recommended best practices for neighboring jurisdictions to correct issues along shared boundaries will be reported.

Following the completion of each boundary workshop, DATAMARK Technologies will deliver a summary report to Polk County 911, review boundary assessment results for authoritative correction decisions, and begin correcting anomalies, discrepancies, and errors identified in Polk County 911's boundary layers. Neighboring jurisdictions shall be responsible for making corrections within their boundary layers.

Boundary Facilitation Kickoff Meeting

DATAMARK Technologies will schedule and hold a virtual kickoff meeting with Polk County 911 to discuss the approach for each boundary workshop. Our team will identify key participants and their respective roles, define the datasets required from all workshop participants and stakeholders, and determine key dates and deadlines for datasets to be submitted.

Boundary Data Collection and Assessment

Three weeks prior to each scheduled workshop, DATAMARK Technologies will request the following GIS datasets from Polk County 911 and each participating county and provide contributors with access to a secure file transfer system to transmit GIS datasets.

Once data has been received, experienced GIS professionals will compile it into a map that will be reviewed during each boundary assessment workshop. We will notify Polk County 911 if data is not received within one week after the initial request. The following layers will be evaluated and reviewed:

Existing or Proposed PSAP Boundary	**Road Centerlines**
Existing or Proposed Provisioning Boundary	**Address Points** (most current and accurate available)

If PSAP Boundary data is not available for review, we will convert Polk County 911's existing county boundary or another specified dataset into a PSAP Boundary layer for comparative analysis and assessment against other boundary layers.

DATAMARK Technologies will compare and validate boundary layers to identify where data needs to be created or where anomalies, gaps, or overlaps in the boundary data need to be corrected. Boundaries will be compared against local and state data sources including aerial imagery, parcel data, and boundary information.

Boundary Assessment Workshops

Boundary assessment workshops provide a collaborative environment for Polk County 911 and its neighboring jurisdictions to discuss and come to agreement on accurate shared boundaries supporting the development of NENA-compliant NG9-1-1 boundary layers.

DATAMARK Technologies will provide neutral facilitation for each boundary assessment workshop. Our team will host the meeting, present the map created during Data Collection and Assessment, and document the discussions of boundary issues, best practices, and authoritative decisions to resolve them.

DATAMARK Technologies will show areas of boundary disagreement or conflict, provide expert guidance to address them following best practices and industry standards, and coordinate discussions to resolve them.

Summary Reports

DATAMARK Technologies will prepare a report summarizing each boundary assessment workshop and authoritative decisions made during the workshops and deliver it to Polk County 911. The summary report includes information about the review process and authoritative decisions made during each workshop and provides direction for corrections required to develop accurate, reliable, and standards-compliant boundary layers.

Documenting discussions and authoritative decisions is instrumental in establishing mutual aid agreements, memoranda of understanding, and interlocal agreements between Polk County 911 and neighboring jurisdictions. The outcomes and decisions made by stakeholders during facilitated boundary assessment workshops can improve the quality and accuracy of each jurisdiction's data.

DATAMARK Technologies recommends Polk County 911 review each summary report with project team members and stakeholders that took part in the boundary assessment workshops to improve the quality of their GIS data and foster collaboration for ongoing boundary management.

If authoritative decisions for boundary corrections cannot be provided during initial meetings or discussions, DATAMARK Technologies will document items requiring further investigation in the

project plan. Topology discrepancies or issues that cannot be resolved during correction will be documented for resolution by Polk County 911 after completion of the project.

NG9-1-1 Boundary Correction

NG9-1-1 boundary corrections are performed by experienced public safety GIS professionals focused on completeness and quality. DATAMARK Technologies uses industry standard tools and follows public safety and GIS best practices to make corrections to NG9-1-1 GIS datasets.

At the beginning of the boundary correction tasks, DATAMARK Technologies converts existing boundary layers to the NENA schema, enabling our team to perform boundary layer attribution and boundary polygon adjustments following NENA standards.

DATAMARK Technologies compares existing boundary attribution against NENA NG9-1-1 GIS Data Model requirements to identify where fields meet NG9-1-1 GIS standards, need to be updated, or are missing and need to be created.

Boundary Layer Attribution

DATAMARK Technologies will update, correct, or create field attributes required to meet the data structure requirements for the PSAP Boundary and Provisioning Boundary layers following the NENA NG9-1-1 GIS Data Model.

Discrepancy Agency ID, NGUID, Service URN and URI, and Agency Identifiers layers are often missing from local boundary layers; this step verifies fields and field classes are accurately represented and populated within each NG9-1-1 boundary after conversion to the NENA schema.

Boundary Polygon Adjustment

DATAMARK Technologies will adjust boundary polygons to resolve discrepancies such as unintentional gaps and overlaps and internal edge matching issues in the NG9-1-1 boundary layers. New polygons can be created within existing boundary layers, our team will use resources and guidance from Polk County 911 to parse or break out existing boundaries.

Final Data Delivery and Review

After completing all approved boundary correction tasks, DATAMARK Technologies will hold a virtual meeting with Polk County 911 to deliver the final NG9-1-1 boundary layers and review the boundary remediation tasks. NG9-1-1 boundary layers can be provided in common spatial formats including Esri file geodatabase (.gdb) or shapefile.

NG9-1-1 Boundary Facilitation and Correction Tasks, Responsibilities, and Deliverables

Polk County 911 Tasks and Responsibilities

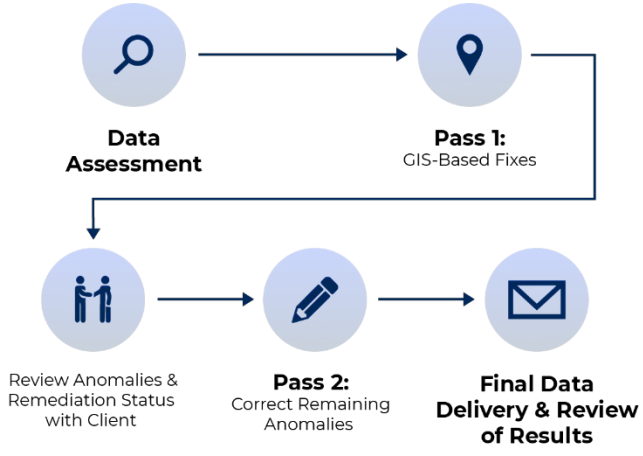
- Provide names and contact information workshop attendees
- Provide suitable locations to host boundary workshops
- Provide GIS datasets to be assessed and reviewed in each boundary workshop

- Provide authoritative decisions for correcting boundary layer discrepancies and errors
- Accept final remediated NG9-1-1 boundary layers

DATAMARK Technologies Deliverables

- Conduct a virtual project kickoff meeting with Polk County 911
- Send workshop invitations and request GIS datasets
- Conduct boundary facilitation workshops
- Send summary report after each workshop
- Final corrected NG9-1-1 boundary layers

NG9-1-1 Boundary Facilitation and Correction Performed with NG9-1-1 GIS Data Remediation



When NG9-1-1 Boundary Facilitation and Correction and NG9-1-1 GIS Data Remediation are performed together, we recommend boundary workshops be conducted first and boundary corrections be completed prior to the remediation of NG9-1-1 road centerline and address point layers. This supports the accurate and complete remediation of road centerline and address point data and prevents centerline splitting or address point placement along unfinished or unresolved boundaries.

NG9-1-1 GIS Data Remediation

DATAMARK Technologies will perform two rounds of assessments and validations on Polk County 911's 9-1-1 and GIS datasets to identify errors, discrepancies, and anomalies that will need to be corrected to meet NG9-1-1 GIS data standards. NG9-1-1 GIS layers to be assessed and remediated include NENA-required Road Centerlines (RCL), Site/Structure Address Points (SSAP), PSAP boundary, Provisioning boundary, and Emergency Service Boundary (ESB).

Assessments are performed on Polk County 911's existing boundary data to identify potentially missing layers, discrepancies, and anomalies. Draft layers are created and attributed, and the results of our assessments are provided to the County.

Initial data corrections are made in Polk County 911's RCL and SSAP layers by skilled GIS professionals experienced in developing geospatial data used in NG9-1-1 and public safety applications.

The initial round of corrections is followed by a review of remaining data issues that require authoritative decisions from Polk County 911 to correct. Remaining data issues are corrected by DATAMARK Technologies' team of public safety GIS professionals.

A virtual meeting is held to deliver the final remediated datasets and review our Data Remediation Report, which documents initial assessment results, authoritative remediation decisions, corrections to RCL and SSAP layers, and remaining anomalies requiring additional information or field verification to resolve.

First Round of GIS and 9-1-1 Data Validations and Assessments

The first round of assessments and validations includes a combination of field mapping, automated data validations, and data reviews performed on Polk County 911's GIS and 9-1-1 datasets to identify discrepancies, anomalies, and errors in the RCL and SSAP layers for review and correction.

NG9-1-1 Road Centerline and Address Point Assessment

RCL and SSAP layers are field mapped and validated against the NENA NG9-1-1 GIS Data Model to identify where fields meet NENA standards, require correction, or are missing and need to be created. Validations and QC checks run on the RCL and SSAP layers identify topology discrepancies and attribution issues that impact data accuracy, quality, completeness, and standards compliance.

The results of the first round of validations and assessments are documented in a Data Assessment Report that outlines the current state of the GIS data and describes how DATAMARK Technologies will remediate the RCL and SSAP layers to achieve and maintain NG9-1-1 standards compliance.

DATAMARK Technologies will review and resolve schema inconsistencies between current datasets and the NG9-1-1 GIS schema with Polk County 911 before making corrections in the RCL and SSAP layers.

NG9-1-1 Boundary Assessment, Creation, and Attribution

DATAMARK Technologies will evaluate Polk County 911's boundary data to identify missing layers and run topology assessments on the County's existing boundary layers to identify anomalies, discrepancies, errors, and missing data in the boundary schema and attribution. Boundary assessments and validations follow the NG9-1-1 GIS Data Model, and the results are used to make corrections to NG9-1-1 RCL and SSAP layers.

If Polk County 911's GIS data does not contain NENA-required ESB layers, DATAMARK Technologies will create draft Police, Fire, and EMS layers by dissolving the existing ESZ or ESN spatial layers and populating them with NG9-1-1 attribution.

Draft ESB layers will be provided to Polk County 911 for review and approval before delivery of the final remediation report and remediated datasets. If ESZ or ESN spatial layers are not present in Polk County 911's GIS, our team will not be able to create draft ESB layers.

Anomalies, discrepancies, and errors in Polk County 911's existing and new draft boundary layers will be documented and reported to the County for investigation and correction.

Corrections to boundary layers require additional review with internal and external stakeholders and are not performed during NG9-1-1 GIS data remediation. NG9-1-1

Boundary Facilitation and Correction services are available separately from DATAMARK Technologies and included separately in this scope of work.

Initial Data Corrections

The results of the first round of assessments and validations are used to perform initial corrections in Polk County 911's RCL and SSAP layers to resolve GIS data issues that do not require additional direction or authoritative decisions and can be resolved quickly.

Initial data corrections include parsing and normalizing for consistency, populating missing values or mandatory fields according to NENA standards, and resolving line topology inconsistencies.

Example: Parsing and normalizing suffix type from "AVE" or "AV" to "Avenue" in RCL and SSAP data.

Review Remaining Issues for Authoritative Correction Decisions

After initial data corrections to the RCL and SSAP layers are completed, DATAMARK Technologies will host a virtual meeting to review all remaining errors, discrepancies, and anomalies requiring correction to achieve compliance with NENA standards and obtain authoritative decisions for resolving them.

DATAMARK Technologies will document Polk County 911's authoritative decisions in the project plan and follow them to correct remaining data issues in the RCL and SSAP layers. Anomalies, errors, and discrepancies in the NENA-required boundary layers will be described in the remediation report and provided to the County for investigation and resolution.

If authoritative decisions for correcting data issues cannot be provided during the virtual review meeting, Polk County 911 shall investigate unresolved issues further and communicate its direction to DATAMARK Technologies. Our team will update the project plan to document additional decisions and direction provided after the virtual review meeting.

Second Round of Validations and Data Corrections

DATAMARK Technologies will perform a second round of validations on the RCL and SSAP layers and correct the remaining anomalies, discrepancies, and errors identified in the results. Corrections made to the RCL and SSAP layers will follow Polk County 911's authoritative decisions for remediation as documented in the project plan.

Anomalies and discrepancies that require correction may include simple spelling errors, odd and even address numbers present on the same side of a road segment, or more complex issues such as streets looping back on themselves (lollipop streets).

Resolving Data Issues that Require Additional Information or Verification

Some data issues require additional information or feedback for Polk County 911 to resolve following the completion of the remediation project. These data issues are marked for client verification in the dataset, are documented in the Client Verify Guide section of the Data Remediation Report and typically require further investigation or verification in the field.

Comparison of Remediated RCL and SSAP Layers to MSAG and ALI Data

DATAMARK Technologies will compare the remediated RCL and SSAP layers against Polk County 911's MSAG and ALI records to identify potential discrepancies and determine the levels of synchronization between the GIS layers and tabular 9-1-1 datasets.

Comparison results will be documented in a report that identifies issues in the GIS layers as well as issues in the MSAG and ALI data requiring correction to maintain synchronization between remediated NG9-1-1 GIS layers and tabular 9-1-1 data, supporting the transition to NG9-1-1 call routing and location.

Correcting GIS Discrepancies

GIS-based discrepancies are documented for correction by Polk County 911 or DATAMARK Technologies following remediation of the RCL and SSAP layers. Correction of GIS-based discrepancies by our team is included with our remediation services.

Correcting MSAG/ALI Discrepancies

DATAMARK Technologies will provide Polk County 911 with a report identifying issues in the MSAG and ALI records and recommended corrections to be made by the MSAG/ALI vendor or staff authorized to edit MSAG and ALI datasets.

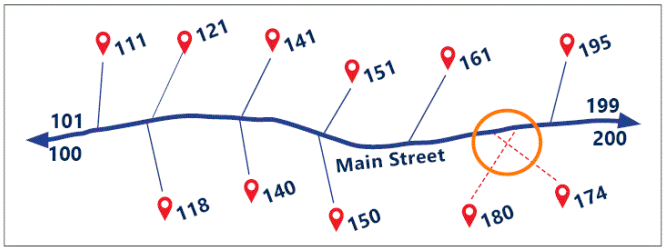
Data Remediation Report

DATAMARK Technologies will create a Data Remediation Report to document errors, discrepancies, and anomalies identified in Polk County 911's GIS data prior to remediation. The report includes totals for data issues resolved in the RCL and SSAP layers, marked as exceptions, or marked for further investigation.

The Data Remediation Report summarizes boundary topology discrepancies identified during our assessments and recommends attribution updates. It will be delivered to Polk County 911 with the final remediated datasets and reviewed in a virtual meeting, as described in the next task phase below.

Client Verify Guide

The Data Remediation Report includes a Client Verify Guide that describes anomalies and data scenarios marked for additional research or field verification. This section of the report describes the scenario, the potential cause, and recommended steps to resolve it.



Final Remediated RCL and SSAP Field Mapping

The Data Remediation Report includes a final field mapping table that displays remediated RCL and SSAP fields and their conformance to NENA standards and requirements. DATAMARK Technologies will review the Data Remediation Report with 9-1-1, GIS, and other stakeholders to discuss issues and anomalies in the data and the remediation plan to correct them.

Additional Validation Results

DATAMARK Technologies leverages our award-winning QC solution to perform comprehensive validations and QC checks to correct GIS data and achieve or improve NG9-1-1 standards compliance.

The results of these validations are published in the Data Remediation Report. They may include additional validation reports that were not used during the project but support ongoing improvements to accuracy, quality, and completeness following remediation. These are reported for Polk County 911's visibility and may be used for future data quality enhancement.

Additional validation results include DATAMARK Technologies' Fishbone report, which provides unique insights into the placement of address points and where they are geolocated along road centerlines and shows where address points are on the wrong side of the road, out of order, and mapped to multiple road centerlines.

Final Remediated Dataset Delivery and Review

DATAMARK Technologies will deliver the final remediated GIS layers with the Data Remediation Report and conduct a virtual meeting to discuss the results of the remediation project and any remaining data issues requiring investigation, field verification, or correction to resolve. Spatial data deliverables can be provided in Esri file geodatabase, shapefile, and XML formats. Final remediated RCL and SSAP datasets will be provided in Esri file geodatabase (.gdb) format.

Field Verification and Data Correction Following Delivery of Remediated Data

Polk County 911 shall complete field verification and correction of anomalies in the final remediated RCL and SSAP layers unless additional data services or field verification solutions have been contracted with DATAMARK Technologies. If Polk County 911 does not have the resources to perform field verification, our team can be contracted to perform these services for an additional fee.

NG9-1-1 GIS Data Remediation Tasks, Responsibilities, and Deliverables

Polk County 911 Tasks and Responsibilities

- Provide required GIS datasets to DATAMARK Technologies
- Provide feedback on anomalies requiring additional information and authoritative decisions
- Accept final remediated GIS data layers

DATAMARK Technologies Deliverables

- Final remediated NG9-1-1 GIS data layers
- Data Assessment Report
- Data Remediation Report

Address Comparison and Evaluation

DATAMARK Technologies will perform an Address Comparison and Evaluation (ACE) that compares Polk County 911's master address source to other sources containing address records to identify potentially missing address data. DATAMARK Technologies will verify address data against highly accurate location data, returning a report of the results and a table of missing addresses with the data.

Our team of GIS professionals will work with Polk County 911 to identify which address sources are the best fit for use in the analysis. Polk County 911 may provide up to five (5) data sources such as parcel or utility databases, waste management records, etc. to compare against its master address dataset. ACE supports additional commercial address data sources which may be identified prior to initiation; additional fees may apply if they are procured by DATAMARK Technologies.

DATAMARK Technologies assigns a Weighted Confidence Score to each address in the master address source, based on its recurrence across the supplementary data sources and validation against commercial location data. This score allows our team to assess the validity of address candidates identified as missing from the master address database.

After completing the ACE, DATAMARK Technologies provides a summary report of the results of the ACE and a table of potentially missing address candidates in tabular or spatial format. This table includes subaddress information (i.e., apartment, suite, etc.) identified in the analysis. DATAMARK Technologies will review the table to provide a breakdown of their confidence levels to prioritize investigation and placement within the master address database by Polk County 911. Placement of missing address point candidates in the master address database is not included with the ACE service.

ACE Tasks, Responsibilities, and Deliverables

Polk County 911 Tasks and Responsibilities

- Provide master address database
- Provide up to five (5) spatial or tabular address data sources
- Review ACE results and report of missing address candidates

DATAMARK Technologies Deliverables

- Provide report of the ACE process and summary of findings
- Provide feature class or tabular list of potentially missing address candidates, including subaddress data

- Procure additional commercial data to supplement ACE if necessary, following discussions with Polk County 911

GIS Managed Services to Support the Florida Region 4 GIS Repository

DATAMARK will provide Florida Region 4 with managed services to aggregate local GIS datasets into a regional NG9-1-1 GIS repository that meets NENA requirements and includes GIS layers required to implement and support NG9-1-1 functional elements, following the NENA NG9-1-1 GIS Data Model.

DATAMARK will load local datasets marked ready for aggregation into the Region 4 NG9-1-1 GIS data repository once every two weeks using Polk County 911's existing VEP Validator implementation along with the VEP Aggregator solution described below.

Our team will document the aggregation schedule in the project plan and can adjust the scheduling to best serve the County's needs along with those of other participating counties in Region 4, as needed, without incurring additional project fees.

Polk County 911 will have unlimited access to download the Region 4 GIS database as often as needed. Alternatively, the County may request downloads of the current Region 4 GIS database in DATAMARK's online ticketing system integrated into the VEP Validator and Aggregator solutions.

DATAMARK will assign a dedicated Project Manager to oversee, coordinate, and manage GIS Managed Services to support aggregation and provide a point of contact for the County to raise questions and issues during the deployment and implementation of our NG9-1-1 GIS SaaS solutions.

DATAMARK will assign a dedicated Client Success Manager who will become our first point of contact for Polk County 911 and all participating counties in Region 4 to communicate support issues and technical questions, maintain the ongoing success of the project, and ensure overall satisfaction.

GIS Data Managed Service Tasks, Responsibilities, and Deliverables

Polk County 911 Tasks and Responsibilities

- Identify GIS needs and confirm the specific GIS Managed Services tasks to be performed
- Review and approve managed services tasks and task scheduling with DATAMARK Technologies
- Provide DATAMARK Technologies with access to GIS data and data environments

DATAMARK Technologies Deliverables

- Document GIS Managed Services tasks and task scheduling in the project plan
- Perform GIS Managed Services tasks as defined and documented in the project plan

GIS Data Upload to VEP: Automated Upload Tools

DATAMARK Technologies will provide Polk County 911 with secure access to a web-based toolbox to configure and schedule automatic uploads of its GIS data into VEP and field map GIS data for use in NG9-1-1 and public safety applications.

Automated Upload Toolbox Method

Our team provides a secure link to download and launch an automated upload toolbox in ArcGIS Pro, which enables administrator-level VEP users to establish a connection to their GIS database and select the data schema it will be field mapped into once it has been uploaded into VEP.

During each scheduled upload, the entire GIS database or selected GIS layers are automatically uploaded into VEP. Polk County 911's Administrator user(s) select the data to be uploaded during configuration of the automated upload solution and use VEP's Manage Database tools to select the schema it is field mapped into after upload.

Once configured, uploads are run automatically following the schedule defined during configuration. Administrator users are notified of each upload, and our automatic upload solution maintains a complete log of all uploads which details the status of each upload, including if it was successful or not.

Administrator users of VEP and users with access to the automated download toolbox receive email notification following completion of each upload. The history of each upload can also be viewed through the toolbox.

This solution is available to users of VEP Validator and Editor and requires access to ArcGIS Pro using VEP Administrator credentials provided by DATAMARK Technologies to download the Automated Upload Toolbox to configure and schedule automated uploads.

CERTIFICATE OF SECRETARY
of
MICHAEL BAKER INTERNATIONAL, INC.

The undersigned, John M. Tedder, Secretary of Michael Baker International, Inc., a Pennsylvania corporation (the "Company"), DOES HEREBY CERTIFY that Leigh TeWinkle is the Vice President & VP Operations DATAMARK of the Company, and is authorized and empowered to sign proposals and other contract documents, and to otherwise bind the Company contractually, with respect to the Polk County, Florida VEP Saas Solutions Contract.

IN WITNESS WHEREOF, I have hereunto subscribed my name this 6th day of August 2025.

Michael Baker International, Inc.

By: _____
John M. Tedder
Executive Vice President & Chief Legal Officer & Secretary

Exhibit "C"

Supplemental Terms and Conditions to the

DATAMARK Technologies Service Agreement

between Polk County and DATAMARK Technologies.

Where there is conflict between the Supplemental Terms and Conditions and the Agreement Terms and Conditions, the Supplemental Terms and Conditions supersede.

A. **Insurance**. The Vendor shall maintain at all times the following minimum levels of insurance and shall, without in any way altering its liability, obtain, pay for and maintain insurance for the coverage and amounts of coverage not less than those set forth below. The Vendor shall provide the County original Certificates of Insurance satisfactory to the County to evidence such coverage before any work commences. The County shall be named as an additional insured on General and Automobile Liability policies. General Liability and Workers' Compensation policies shall contain a waiver of subrogation in favor of Polk County. The commercial General Liability Policy shall (by endorsement if necessary) provide contractual liability coverage for the contractual indemnity stated in Section 10, above. All insurance coverage shall be written with a company having an A.M. Best rating of at least the "A" category and size category of VIII. The Vendor's self-insured retention or deductible per line of coverage shall not exceed $25,000 without the permission of the County. In the event of any failure by the Vendor to comply with the provisions of this Section 11, the County may, at its option, upon notice to the Vendor suspend Vendor's performance of the Services for cause until there is full compliance. Alternatively, the County may purchase such insurance at the Vendor's expense, provided that the County shall have no obligation to do so and if the County shall do so, the Vendor shall not be relieved of or excused from the obligation to obtain and maintain such insurance amounts and coverage.

Comprehensive Automobile Liability Insurance. $1,000,000.00 combined single limit of liability for bodily injuries, death and property damage resulting from any one occurrence, including all owned, hired, and non-owned vehicles.

Commercial General Liability. $1,000,000.00 combined single limit of liability for bodily injuries, death and property damage, and personal injury resulting from any one occurrence, including the following coverages:

Premises and Operations:

Broad Form Commercial General Liability Endorsement to include Blanket Contractual liability (specifically covering, but not limited to, the contractual obligations assumed by the Firm); Personal Injury (with employment and contractual exclusions deleted); and Broad Form Property Damage coverage.

Independent Contractors:

Delete Exclusion relative to collapse, explosion and underground; Property Damage Hazards; Cross Liability Endorsement; and Contractual liability (specifically covering, but not limited to, the contractual obligations assumed by the Firm)

Workers Compensation. The Vendor shall provide, pay for, and maintain workers compensation insurance on all employees, its agents or subcontractors as required

by Florida Statutes.

Professional Services Errors and Omissions Liability. $1,000,000.00 per occurrence and aggregate.

Cyber Liability. $1,000,000.00 per claim and aggregate

C. Indemnity. Vendor, to the maximum extent permitted by law, shall indemnify, defend (by counsel reasonably acceptable to County) protect and hold the County, and its officers, employees and agents harmless from and against any and all, claims, actions, causes of action, liabilities, penalties, forfeitures, damages, losses, and expenses (including, without limitation, attorneys' fees costs and expenses incurred during negotiation, through litigation and all appeals therefrom) whatsoever including, but not limited, to those pertaining to the death of or injury to any person, or damage to any property, arising out of or resulting from (i) the failure of Vendor to comply with applicable laws, rules or regulations, (ii) the breach by Vendor of its obligations under this Agreement, (iii) any claim for trademark, patent or copyright infringement arising out of the scope of Vendor's performance or nonperformance of this Agreement, or (iv) the negligent acts, errors or omissions, or intentional or willful misconduct, of Vendor, its professional associates, subcontractors, agents, and employees provided, however, that Vendor shall not be obligated to defend or indemnify the County with respect to any such claims or damages arising out of the County's sole negligence.

D. Force Majeure. Either party hereunder may be temporarily excused from performance if an Event of Force Majeure directly or indirectly causes its nonperformance. An "Event of Force Majeure" is defined as any event which results in the prevention or delay of performance by a party of its obligations under this Agreement and which is beyond the reasonable control of the nonperforming party. It includes, but is not limited to fire, flood, earthquakes, storms, lightning, epidemic, war, riot, civil disturbance, sabotage, and governmental actions. Neither party shall be excused from performance if non-performance is due to forces which are reasonably preventable, removable, or remediable and which the non-performing party could have, with the exercise of reasonable diligence, prevented, removed, or remedied prior to, during, or immediately after their occurrence. Within five (5) days after the occurrence of an Event of Force Majeure, the non-performing party shall deliver written notice to the other party describing the event in reasonably sufficient detail, along with proof of how the event has precluded the non-performing party from performing its obligations hereunder, and a good faith estimate as to the anticipated duration of the delay and the means and methods for correcting the delay. The non-performing party's obligations, so far as those obligations are affected by the Event of Force Majeure, shall be temporarily suspended during, but no longer than, the continuance of the Event of Force Majeure and for a reasonable time thereafter as may be required for the non-performing party to return to normal business operations. If excused from performing any obligations under this Agreement due to the occurrence of an Event of Force Majeure, the non-performing party shall promptly, diligently, and in good faith take all reasonable action required for it to be able to commence or resume performance of its obligations under this Agreement. During any such time period, the non-performing party shall keep the other party duly notified of all such actions required for it to be able to commence or resume performance of its obligations under this Agreement.

B. **Indemnity.** Vendor, to the maximum extent permitted by law, shall indemnify, defend (by counsel reasonably acceptable to County) protect and hold the County, and its officers, employees and agents harmless from and against any and all, claims, actions, causes of action, liabilities, penalties, forfeitures, damages, losses, and expenses (including, without limitation, attorneys' fees costs and expenses incurred during negotiation, through litigation and all appeals therefrom) whatsoever including, but not limited, to those pertaining to the death of or injury to any person, or damage to any property, arising out of or resulting from (i) the failure of Vendor to comply with applicable laws, rules or regulations, (ii) the breach by Vendor of its obligations under this Agreement, (iii) any claim for trademark, patent or copyright infringement arising out of the scope of Vendor's performance or nonperformance of this Agreement, or (iv) the negligent acts, errors or omissions, or intentional or willful misconduct, of Vendor, its professional associates, subcontractors, agents, and employees provided, however, that Vendor shall not be obligated to defend or indemnify the County with respect to any such claims or damages arising out of the County's sole negligence.

C. **Force Majeure.** Either party hereunder may be temporarily excused from performance if an Event of Force Majeure directly or indirectly causes its nonperformance. An "Event of Force Majeure" is defined as any event which results in the prevention or delay of performance by a party of its obligations under this Agreement and which is beyond the reasonable control of the nonperforming party. It includes, but is not limited to fire, flood, earthquakes, storms, lightning, epidemic, war, riot, civil disturbance, sabotage, and governmental actions. Neither party shall be excused from performance if non-performance is due to forces which are reasonably preventable, removable, or remediable and which the non-performing party could have, with the exercise of reasonable diligence, prevented, removed, or remedied prior to, during, or immediately after their occurrence. Within five (5) days after the occurrence of an Event of Force Majeure, the non-performing party shall deliver written notice to the other party describing the event in reasonably sufficient detail, along with proof of how the event has precluded the non-performing party from performing its obligations hereunder, and a good faith estimate as to the anticipated duration of the delay and the means and methods for correcting the delay. The non-performing party's obligations, so far as those obligations are affected by the Event of Force Majeure, shall be temporarily suspended during, but no longer than, the continuance of the Event of Force Majeure and for a reasonable time thereafter as may be required for the non-performing party to return to normal business operations. If excused from performing any obligations under this Agreement due to the occurrence of an Event of Force Majeure, the non-performing party shall promptly, diligently, and in good faith take all reasonable action required for it to be able to commence or resume performance of its obligations under this Agreement. During any such time period, the non-performing party shall keep the other party duly notified of all such actions required for it to be able to commence or resume performance of its obligations under this Agreement.

D. **Default and Remedy.** If Vendor materially defaults in its obligations under this Agreement, then the County shall have the right to (i) immediately terminate this Agreement by delivering written notice to Vendor, and (ii) pursue any and all remedies available in law, equity, and under this Agreement. If the County materially defaults in its obligations under this Agreement, then Vendor shall have the right to immediately terminate this Agreement by delivering written notice to the County and to

seek payment from County for those services Vendor has provided but for which has not yet been paid.

E. **Attorneys' Fees and Costs.** In connection with any dispute or any litigation arising out of, or relating to this Agreement, each party shall be responsible for its own legal and attorneys' fees, costs and expenses, including attorneys' fees, costs, and expenses incurred for any appellate or bankruptcy proceedings.

F. **Dispute Resolution.** Notwithstanding anything in the State of Florida Participating Addendum Agreement to the contrary, there shall be no arbitration of any dispute arising or pertaining to this Agreement. The parties shall resolve all such disputes via voluntary and non-binding mediation or negotiation.

G. **LIMITATION OF LIABILITY. IN NO EVENT SHALL THE COUNTY BE LIABLE TO THE VENDOR FOR INDIRECT, INCIDENTAL, CONSEQUENTIAL, SPECIAL, EXEMPLARY, OR PUNITIVE DAMAGES OF ANY KIND OR NATURE WHATSOEVER INCLUDING LOSS OF PROFIT, WHETHER FORESEEABLE OR NOT, ARISING OUT OF OR RESULTING FROM THE NONPERFORMANCE OR BREACH OF THIS CONTRACT BY THE COUNTY WHETHER BASED IN CONTRACT, COMMON LAW, WARRANTY, TORT, STRICT LIABILITY, CONTRIBUTION, INDEMNITY OR OTHERWISE.**

H. **Governing Law.** This Agreement shall be governed in all respects by the Laws of the State of Florida, without regard to conflicts of the laws principles.

I. **Venue.** Any litigation with respect to this Agreement shall be brought and prosecuted only in the courts of Polk County, Florida or in the United States District Court, Middle District of Florida, located in Hillsborough County, Florida.

J. **Notice.** All notices, requests, consents and other communications required or permitted under this Agreement shall be in writing, and shall be, as elected by the person giving such notice, hand delivered by nationally recognized messenger or by courier service, or mailed by registered or certified mail, return receipt requested, and addressed, as follows:

If to the County: Polk County Emergency Management
Attention: EM Director
PO Box 9005, Drawer EM01
Bartow, FL 33831-9005

If to Vendor: DATAMARK Technologies.
Attention: Leigh TeWinkle
100 Airside Drive
Moon Township, PA 15108

K. **Non-exclusive Agreement.** This Agreement does not grant the Vendor the exclusive right to provide the County software as a service for enhanced 911 intercounty call transfer during the Agreement term. The County may utilize its own personnel to perform such services or it may employ other vendors or contractors to provide such services.

L. Public Records Law.

(a) The Vendor acknowledges the County's obligations under Article I, Section 24, of the Florida Constitution and under Chapter 119, Florida Statutes, to release public records to members of the public upon request and comply in the handling of the materials created under this Agreement. The Vendor further acknowledges that the constitutional and statutory provisions control over the terms of this Agreement. In association with its performance pursuant to this Agreement, the Vendor shall not release or otherwise disclose the content of any documents or information that is specifically exempt from disclosure pursuant to all applicable laws.

(b) Without in any manner limiting the generality of the foregoing, to the extent applicable, the Vendor acknowledges its obligations to comply with Section 119.0701, Florida Statutes, with regard to public records, and shall:

(1) keep and maintain public records required by the County to perform the services required under this Agreement;

(2) upon request from the County's Custodian of Public Records or his/her designee, provide the County with a copy of the requested records or allow the records to be inspected or copied within a reasonable time at a cost that does not exceed the cost provided in Chapter 119, Florida Statutes, or as otherwise provided by law;

(3) ensure that public records that are exempt or confidential and exempt from public records disclosure requirements are not disclosed except as authorized by law for the duration of the term of this Agreement and following completion of this Agreement if the Vendor does not transfer the records to the County; and

(4) upon completion of this Agreement, transfer, at no cost, to the County all public records in possession of the Vendor or keep and maintain public records required by the County to perform the service. If the Vendor transfers all public records to the County upon completion of this Agreement, the Vendor shall destroy any duplicate public records that are exempt or confidential and exempt from public records disclosure requirements. If the Vendor keeps and maintains public records upon completion of this Agreement, the Vendor shall meet all applicable requirements for retaining public records. All records stored electronically must be provided to the County, upon request from the County's Custodian of Public Records, in a format that is compatible with the information technology systems of the County.

(c) **IF THE VENDOR HAS QUESTIONS REGARDING THE APPLICATION OF CHAPTER 119, FLORIDA STATUTES, TO THE VENDOR'S DUTY TO PROVIDE PUBLIC RECORDS RELATING TO THIS AGREEMENT, CONTACT THE COUNTY'S CUSTODIAN OF PUBLIC RECORDS AT:**

RECORDS MANAGEMENT LIAISON OFFICER

POLK COUNTY

330 WEST CHURCH ST.

BARTOW, FL 33830

TELEPHONE: (863) 534-7527

EMAIL: RMLO@POLK-COUNTY.NET

M. <u>Scrutinized Companies and Business Operations Certification; Termination.</u>

A. <u>Certification(s)</u>.

(i) By its execution of this Agreement, the Vendor hereby certifies to the County that the Vendor is not on the Scrutinized Companies that Boycott Israel List, created pursuant to Section 215.4725, Florida Statutes, nor is the Vendor engaged in a boycott of Israel, nor was the Vendor on such List or engaged in such a boycott at the time it submitted its bid, proposal, quote, or other form of offer, as applicable, to the County with respect to this Agreement.

(ii) Additionally, if the value of the goods or services acquired under this Agreement are greater than or equal to One Million Dollars ($1,000,000), then the Vendor further certifies to the County as follows:

(a) the Vendor is not on the Scrutinized Companies with Activities in Sudan List, created pursuant to Section 215.473, Florida Statutes; and

(b) the Vendor is not on the Scrutinized Companies with Activities in the Iran Petroleum Energy Sector List, created pursuant to Section 215.473, Florida Statutes; and

(c) the Vendor is not engaged in business operations (as that term is defined in Florida Statutes, Section 287.135) in Cuba or Syria; and

(d) the Vendor was not on any of the Lists referenced in this subsection A(ii), nor engaged in business operations in Cuba or Syria when it submitted its proposal to the County concerning the subject of this Agreement.

(iii) The Vendor hereby acknowledges that it is fully aware of the penalties that may be imposed upon the Vendor for submitting a false certification to the County regarding the foregoing matters.

B. <u>Termination</u>. In addition to any other termination rights stated herein, the County may immediately terminate this Agreement upon the occurrence of any of the following events:

(i) The Vendor is found to have submitted a false certification to the County with respect to any of the matters set forth in subsection A(i) above, or the Vendor is found to have been placed on the Scrutinized Companies that Boycott Israel List or is engaged in a boycott of Israel.

(ii) The Vendor is found to have submitted a false certification to the County with respect to any of the matters set forth in subsection A(ii) above, or the Vendor is found to have been placed on the Scrutinized Companies with Activities in Sudan List, or the Scrutinized Companies with Activities in the Iran Petroleum Energy Sector List, or has been engaged in business operations in Cuba or Syria, and the value of the goods or services acquired under this Agreement are greater than or equal to One Million Dollars ($1,000,000).

N. No Construction Against Drafter The Parties acknowledge that this Agreement and all the terms and conditions contained herein have been fully reviewed and negotiated by the Parties. Accordingly, any rule of construction to the effect that ambiguities are to be resolved against the drafting party shall not apply in interpreting this Agreement.

O. Public Entity Crimes. The Vendor declares and warrants that neither the Vendor nor any of the Vendor's affiliates, as that term is defined in Section 287.133, Florida Statutes, are subject to the restrictions in Section 287.133, Florida Statutes, regarding the commission of a public entity crime. If during the term of this Agreement, the Vendor or any affiliate is convicted of a public entity crime or is otherwise prohibited from performing work for or transacting business with the County pursuant to Section 287.133, Florida Statutes, then the Vendor shall be in material default of this Agreement, and in such case, the County shall have the rights and remedies as provided herein.

P. Revised 508 Standards. If the Vendor provides any information or communication technology ("ICT") or provides any custom ICT development services as part of this Agreement, the Vendor shall ensure the ICT fully conforms to the applicable Revised 508 Standards (29 USC §794d.) prior to delivery and before final acceptance.

Q. Unauthorized Alien(s)

The Vendor shall not employ or utilize unauthorized aliens in the performance of the Services provided pursuant to this Agreement. The County shall consider the employment or utilization of unauthorized aliens a violation of Section 274A(e) of the Immigration and Naturalization Act (8 U.S.C. 1324a) and a cause for the County's unilateral termination of this Agreement. When delivering executed counterparts of this Agreement to the County, the Vendor shall also deliver a completed and executed counterpart of the attached "AFFIDAVIT CERTIFICATION IMMIGRATION LAWS" form.

R. Employment Eligibility Verification (E-VERIFY)

A. Unless otherwise defined herein, terms used in this Section which are defined in Section 448.095, Florida Statutes, as may be amended from time to time, shall have the meaning ascribed in said statute.

B. Pursuant to Section 448.095(5), Florida Statutes, the contractor hereto, and any subcontractor thereof, must register with and use the E-Verify system to verify the work authorization status of all new employees of the contractor or subcontractor. The contractor acknowledges and agrees that (i) the County and the contractor may not enter into this Agreement, and the contractor may not enter into any subcontracts hereunder, unless each party to this Agreement, and each party to any subcontracts hereunder, registers with and uses the E-Verify system; and (ii) use of the U.S. Department of Homeland Security's E-Verify System and compliance with all other terms of this Certification and Section 448.095, Fla. Stat., is an express condition of this Agreement, and the County may treat a failure to comply as a material breach of this Agreement.

C. By entering into this Agreement, the contractor becomes obligated to comply with the provisions of Section 448.095, Fla. Stat., "Employment Eligibility," as amended from time to time. This includes but is not limited to utilization of the E-

Verify System to verify the work authorization status of all newly hired employees, and requiring all subcontractors to provide an affidavit attesting that the subcontractor does not employ, contract with, or subcontract with, an unauthorized alien. The contractor shall maintain a copy of such affidavit for the duration of this Agreement. Failure to comply will lead to termination of this Agreement, or if a subcontractor knowingly violates the statute or Section 448.09(1), Fla. Stat., the subcontract must be terminated immediately. If this Agreement is terminated pursuant to Section 448.095, Fla. Stat., such termination is not a breach of contract and may not be considered as such. Any challenge to termination under this provision must be filed in the Tenth Judicial Circuit Court of Florida no later than 20 calendar days after the date of termination. If this Agreement is terminated for a violation of Section 448.095, Fla. Stat., by the contractor, the contractor may not be awarded a public contract for a period of 1 year after the date of termination. The contractor shall be liable for any additional costs incurred by the County as a result of the termination of this Agreement. Nothing in this Section shall be construed to allow intentional discrimination of any class protected by law.

AFFIDAVIT CERTIFICATION IMMIGRATION LAWS

SOLICITATION NO.: Software as a Service (SAAS) for E911 Intercounty Call Transfers

POLK COUNTY WILL NOT INTENTIONALLY AWARD COUNTY CONTRACTS TO ANY CONSULTANT WHO KNOWINGLY EMPLOYS UNAUTHORIZED ALIEN WORKERS, CONSTITUTING A VIOLATION OF THE EMPLOYMENT PROVISIONS CONTAINED IN 8 U.S.C. SECTION 1324 a(e) {SECTION 274A(e) OF THE IMMIGRATION AND NATIONALITY ACT ("INA").

POLK COUNTY MAY CONSIDER THE EMPLOYMENT BY ANY CONSULTANT OF UNAUTHORIZED ALIENS A VIOLATION OF SECTION 274A(e) OF THE INA. **SUCH VIOLATION BY THE RECIPIENT OF THE EMPLOYMENT PROVISIONS CONTAINED IN SECTION 274A(e) OF THE INA SHALL BE GROUNDS FOR UNILATERAL CANCELLATION OF THE CONTRACT BY POLK COUNTY.**

PROPOSER ATTESTS THAT THEY ARE FULLY COMPLIANT WITH ALL APPLICABLE IMMIGRATION LAWS (SPECIFICALLY TO THE 1986 IMMIGRATION ACT AND SUBSEQUENT AMENDMENTS).

DATAMARK® Technologies
Software as a Service Agreement

This Software as a Service (SaaS) Agreement (the "**Agreement**"), by and between DATAMARK Technologies, a joint venture of Michael Baker International Inc. and Digital Data Technologies LLC. DATAMARK Technologies is a joint venture with offices located at 100 Airside Drive, Moon Township, PA 15108 ("**DATAMARK Technologies**") and Polk County, a political subdivision of the State of Florida ("Customer"), 330 West Church Street, Bartow, FL 33830.

WHEREAS, Customer wishes to procure from DATAMARK Technologies the access and use of Validate-Edit-Provision (VEP) software described herein, and DATAMARK Technologies wishes to provide such access and use of VEP software to Customer, each on the terms and conditions set forth in this Agreement.

NOW, THEREFORE, in consideration of the mutual covenants, terms and conditions set forth herein, and for other good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, the parties agree that the following terms and conditions will apply to the software and Related Materials provided under this Agreement and subscriptions placed thereunder.

1. VEP Software.

1.1. VEP Systems. Subject to and conditioned on Customer's and its Authorized Users compliance with the terms and conditions of this Agreement, during the Term, DATAMARK Technologies shall use commercially reasonable efforts to provide to Customer and its Authorized Users access and use of the DATAMARK Technologies VEP Software as described below, (collectively, the "**VEP Software**"), in accordance with the Related Materials and terms and conditions hereof, including to host, manage, operate, and maintain the VEP Software for remote electronic access and use by Customer and its Authorized Users.

The VEP Software is implemented using cloud native technology to provide capability for the validating, editing, and provisioning of GIS data for public safety grade GIS data (the "**VEP Systems**"). DATAMARK Technologies shall also provide to Customer and its Authorized Users, as it becomes available, materials related to the access and use of VEP Software (e.g., "**Related Materials**"). For example DATAMARK Technologies may provide Related Materials comprising specifications, documentation, other information, other data, documents, materials, works, other content, devices, methods, processes, hardware, other software and other technologies or inventions, including any deliverables, descriptions (e.g., technical, functional, etc.), requirements, plans, or reports, that are provided or used in connection with the VEP Software or otherwise comprise or relate to the VEP Software or VEP Systems. "Documentation" includes any manuals, instructions or other documents or materials that the DATAMARK Technologies provides or makes available to Customer in any form or medium and which describe the functionality, components, features or requirements of the VEP Software, such as any aspect of the installation, configuration, integration, operation, use, support or maintenance thereof.

Maintenance and support of the VEP Software for access and use by Customer and its Authorized Users will be in substantial conformity with the documentation and support based on the Service Level Agreement and Maintenance Terms provided in Appendix A.

1.2. VEP Software and System Control. Except as otherwise expressly provided in this Agreement or in the Service Level Agreement and Maintenance Terms provided in Appendix A, as between the parties:

a) DATAMARK Technologies has and will retain sole control over the operation, provision, maintenance and management of the VEP Software and Related Materials, including the: (i) DATAMARK Technologies Systems; (ii) selection, deployment, modification and replacement of the VEP Software; and (iii) performance of support, maintenance, upgrades, corrections and repairs as described in Appendix A; and

b) All right, title and interest in and to the DATAMARK Technologies SaaS, including the VEP System, VEP Software, and Related Materials, including all Intellectual Property Rights therein, are and will remain with DATAMARK Technologies and the respective rights holders in the Third-Party Materials. Customer has no right, license or authorization with respect to any of the DATAMARK Technologies SaaS or Related Materials except as expressly set forth in Section 2 and 3 or the applicable third-party license. All other rights in and to the VEP System, VEP Software, and the Related Materials are expressly reserved by DATAMARK Technologies and the respective third-party licensors.

1.3. Changes. DATAMARK Technologies reserves the right, in its sole discretion, to make any changes to the VEP Software and Related Materials that it deems necessary or useful.

2. DATAMARK Technologies SaaS. The specific DATAMARK Technologies internet-accessible service identified in Exhibit B that provides use and access of DATAMARK Technologies' VEP System and VEP Software that is remotely hosted by DATAMARK Technologies and/or its network provider and made available to Customer over a network on a term-use basis ("**DATAMARK Technologies SaaS**").

2.1. Authorization. DATAMARK Technologies hereby grants to Customer, during the Term, a non-exclusive, non-assignable, worldwide right to access, use, display, and execute the VEP Systems solely for the permitted Use by and through Authorized Users in accordance with the conditions and limitations set forth in this Agreement and up to the number of seats as documented in Exhibit C. DATAMARK Technologies hereby grants a non-exclusive, non-assignable, worldwide right to access, use, and display the VEP Software, and Related Materials. The grants herein are subject to and conditioned on Customer's payment of the Fees and compliance and performance in accordance with all other terms and conditions of this Agreement.

2.2. Remote Host. Customer acknowledges that this Agreement is a SaaS agreement and DATAMARK Technologies will not be delivering copies of the Software to Customer as part of this SaaS Agreement.

2.3. Customer Systems. Customer has and will retain sole control over the operation, maintenance and management of, and all access to and use of, the Customer Systems, and sole responsibility for all access to and use of the VEP Software and Related Materials by any Person by or through the Customer Systems or any other means controlled by Customer or any Authorized User, including any: (i) information, instructions or materials provided by any of them to the VEP Software or DATAMARK Technologies SaaS; (ii) results obtained from any use of the DATAMARK Technologies SaaS or Related Materials; and (iii) conclusions, decisions or actions based on such use.

2.4. License from Customer. Subject to the terms and conditions of this SaaS Agreement, Customer shall grant to DATAMARK Technologies a limited, non-exclusive and non-transferable license, to copy, store, configure, perform, display and transmit Customer Content, such as data and materials provided by Customer to DATAMARK Technologies for use in connection with the VEP Software, including, without limitation, customer applications, data files, and graphics, within the VEP System solely as necessary by DATAMARK Technologies to provide access and use of the VEP Software to Customer.

2.5. Customer Data; Resultant Data. As between Customer and DATAMARK Technologies, Customer is and will remain the sole and exclusive owner of all right, title and interest in and to Customer Data and Resultant Data, including all Intellectual Property Rights relating thereto, subject to the rights and permissions granted in Section 2.6 hereto.

2.5.1. Consent to Use Customer Data, Resultant Data. Customer hereby irrevocably grants all such rights and permissions in or relating to Customer Data and Resultant Data: (a) to DATAMARK Technologies, its Subcontractors and the DATAMARK Technologies Personnel as are necessary or useful to perform the DATAMARK Technologies SaaS; and (b) to DATAMARK Technologies as are necessary or useful to enforce this Agreement and exercise its rights and perform its obligations hereunder.

2.6. Reservation of Rights. Except as expressly set forth in Section 2.1 hereto, nothing in this Agreement grants any right, title or interest in or to, no license under any Intellectual Property Rights in or relating to, the VEP Software, VEP System, Related Materials, or Third Party Materials, whether expressly, by implication, estoppel or otherwise. Subject to Section 2.7 hereto, all right, title and interest in and to the VEP Systems, VEP Software, the Related Materials and the Third-Party Materials are and will remain with DATAMARK Technologies and the respective rights holders in the Third-Party Materials.

2.7. Restrictions. Customer will not and shall not permit anyone access or use of the VEP Software and Related Materials except as expressly permitted by this Agreement and, in the case of Third-Party Materials, the applicable third-party license agreement. For purposes of clarity and without limiting the generality of the foregoing, Customer shall not: rent, lease, lend, sell, license, assign, distribute, publish, transfer or otherwise make available in whole or in any parts of the VEP System, the VEP Software, or Related Materials, to any Person or entity, including on or in connection with the internet or any time-sharing, service bureau, software as a service, cloud or other technology or service; access or use the subscription, VEP System, VEP Software, or the Related Materials for purposes of competitive analysis, the development, provision or use of a competing software service or product or any other purpose that is to DATAMARK Technologies' detriment or commercial disadvantage; or otherwise access or use the VEP

System, VEP Software, or the Related Materials beyond the scope of the authorization granted under the terms of the SaaS Agreement.

2.8. Geographic Use. Customer shall only use the VEP Software for the geographic area for which its contract applies. Any use outside the geographic area will result in additional licensing fees.

3. Service Levels. The Service Level and Maintenance Agreement for the DATAMARK Technologies SaaS, the access and use of the VEP Software and VEP Systems is provided in Appendix A.

4. Customer Obligations.

4.1. Customer Systems and Cooperation. Customer shall at all times during the Term: (a) set up, maintain and operate in good repair and in accordance with the Related Materials all Customer Systems on or through which the VEP Software is accessed or used; (b) provide DATAMARK Technologies Personnel with such access to Customer's premises and Customer Systems as is necessary for DATAMARK Technologies to perform the DATAMARK Technologies SaaS in accordance with the SLA of Appendix A and Related Materials; and (c) provide all cooperation and assistance as DATAMARK Technologies may reasonably request to enable DATAMARK Technologies to exercise its rights and perform its obligations under and in connection with this SaaS Agreement.

4.2. Effect of Customer Failure or Delay. DATAMARK Technologies is not responsible or liable for any delay or failure of performance caused in whole or in part by Customer's delay in performing, or failure to perform, any of its obligations under this Agreement (each, a "**Customer Failure**").

4.3. Corrective Action and Notice. If Customer becomes aware of any actual or threatened activity prohibited by Section 2.3, Customer shall, and shall cause its Authorized Users to, immediately: (a) take all reasonable and lawful hereto measures within their respective control that are necessary to stop the activity or threatened activity and to mitigate its effects (including, where applicable, by discontinuing and preventing any unauthorized access to the DATAMARK Technologies SaaS and Related Materials and permanently erasing from their systems and destroying any data to which any of them have gained unauthorized access); and (b) notify DATAMARK Technologies of any such actual or threatened activity.

4.4. Audit. Customer gives DATAMARK Technologies unlimited rights to conduct an audit without advance notice to ensure that additional users that do not have licenses are not accessing the system. The DATAMARK Technologies SaaS may be suspended or terminated if DATAMARK Technologies believes, in its good faith and reasonable discretion, that: (i) Customer or any Authorized User has failed to comply with, any term of this Agreement, e.g., non-payment of fee, or accessed or used the DATAMARK Technologies SaaS beyond the scope of the rights granted, (e.g., more individuals accessing system than license paid for, etc.); (ii) Customer or any Authorized User is, has been, or is likely to be involved in any fraudulent, misleading or unlawful activities relating to or in connection with any of the DATAMARK Technologies SaaS; or (iii) this SaaS Agreement expires or is terminated.

5. Data Obligations.

5.1. Security Measures. DATAMARK Technologies will employ security measures in accordance with applicable industry practice. The VEP Software secures and restricts data access to Customer Data and/or Resultant Data through customized download and editing modules eliminating a need for additional plugins or downloads. Access to the DATAMARK Technologies SaaS is restricted to Authorized Users only and no data is made publicly available. File level access or repository browsing are transmitted through secure channels, including HTTPS security, and such capabilities are secured and not exposed to any Customer, data files used with the VEP Software are scanned for virus and malware, security performed in virtually isolated digital locations for safety from other Customer Data and Resultant Data.

5.2. Customer Control and Responsibility. Customer has and will retain sole responsibility for: (a) all Customer Data, including its content and use and any data that is not accurate; (b) all information, instructions and materials provided by or on behalf of Customer or any Authorized User in connection with the DATAMARK Technologies SaaS; (c) Customer's information technology infrastructure, including computers, software, databases, electronic systems (including database management systems) and networks, whether operated directly by Customer or through the use of third-party services ("**Customer Systems**"); (d) the security and use of Customer's and its Authorized Users' Access Credentials; and (e) all access to and use of the VEP Software, VEP Systems, and Related Materials directly or indirectly by or through the customer systems or its Authorized Users' access credentials, with or without Customer's knowledge or consent, including all results obtained from, and all conclusions, decisions and actions based on, such access or use. Customer will retain sole responsibility for prohibiting any actions to bypass or breach any security or protection used by the VEP System and/or the VEP Software, by any authorized user of Customer, or those that thereby access or use the VEP System and/or the VEP Software, other than by an Authorized User through the use of his or her own then-valid Access Credentials.

5.3. Data Breaches. DATAMARK Technologies shall implement and maintain a program for managing unauthorized disclosure or exposure of Customer Data stored by or accessible through the VEP Systems ("Data Breaches"). In the event of a Data Breach, or in the event that DATAMARK Technologies suspects a Data Breach, DATAMARK Technologies shall (i) promptly notify Customer by telephone and (ii) cooperate with Customer and law enforcement agencies, where applicable, to investigate and resolve the Data Breach. DATAMARK Technologies shall give Customer prompt access to such records related to a Data Breach as Customer may reasonably request; provided such records shall be DATAMARK Technologies' Confidential Information pursuant to Section 8 (Nondisclosure), and DATAMARK Technologies shall not be required to provide Customer with records belonging to, or compromising the security of, it's other customers.

5.4. Access and Security. Customer shall employ all physical, administrative and technical controls, screening and security procedures and other safeguards necessary to: (a) securely administer the distribution and use of all Access Credentials and protect against any unauthorized access to or use of the DATAMARK Technologies SaaS; and (b) control the content and use of Customer Data, including the uploading or other provision of Customer Data for Processing by the DATAMARK Technologies SaaS. Customer shall prohibit any actions to input, upload, transmit or otherwise provide to or through the VEP System, the VEP Software, or any of

DATAMARK Technologies' computers or systems, any information or materials that are unlawful or injurious, or contain, transmit or activate any harmful code, back door or otherwise damage, destroy, disrupt, disable, impair, interfere with, attempt to damage, interfere, or impede or harm in any manner the VEP System, the VEP Software, any DATAMARK Technologies Systems or activities related to DATAMARK Technologies' provision of VEP Software to any party, in whole or in part.

5.5. Suspension or Termination of Services. DATAMARK Technologies may suspend, terminate or otherwise deny Customer's, or any Authorized User's access to or use of all or any part of the VEP Software or Related Materials, without incurring any resulting obligation or liability, if DATAMARK Technologies receives a judicial or other governmental demand or order that requires DATAMARK Technologies to do so.

6. Orders and Payments.

6.1. Orders. All DATAMARK Technologies orders are subject to the terms and conditions of this contract and the Exhibits to the contract. If there is any conflict between an order and this contract, the contract is controlling. All services acquired by Customer shall be governed exclusively by this SaaS Agreement and the applicable Exhibits. Customer contract number assigned to a SaaS Agreement will be provided to DATAMARK Technologies, in writing, prior to the start of any work.

6.2. Invoice and Payment. The Customer agrees to pay DATAMARK Technologies the fees set forth in Exhibit A at a rate of compensation according to the deliverable payment schedule stated in Exhibit A. DATAMARK Technologies shall invoice Customer for all fees on the SaaS Agreement effective date. Customer shall pay all undisputed invoices within 45 days after Customer receives the invoice. Except as expressly provided otherwise, fees are non-refundable.

6.3. Fee Increases. DATAMARK Technologies Fees defined in Exhibit A of this Agreement are good for one (1) year from the execution of this agreement unless otherwise specified. If additional users are found to be accessing the system, DATAMARK Technologies shall invoice Customer for payment by billing Customer for the additional users.

6.4. Payment. Customer shall pay all Fees and Reimbursable Expenses within forty-five (45) calendar days after the date of the invoice therefore. Customer shall make payments to the address or account specified on the invoice or such other address or account as DATAMARK Technologies may specify in writing from time to time.

6.5. Taxes. All Fees and other amounts payable by Customer under this Agreement are exclusive of taxes and similar assessments. To the extent required by applicable law, Customer is responsible for all sales, use and excise taxes, and any other similar taxes, duties and charges of any kind imposed by any federal, state or local governmental or regulatory authority on any amounts payable by Customer hereunder, other than any taxes imposed on DATAMARK Technologies' income. Customer hereby agrees to indemnify DATAMARK Technologies should any taxes be levied against DATAMARK Technologies for which Customer is responsible under applicable law.

7. Term and Termination.

7.1. Initial Term. The term of this Agreement shall begin on the effective date and shall continue as described in Section 7.3.

7.2. Termination. Either party may terminate this SaaS Agreement immediately upon a material breach by the other party that has not been cured within thirty (30) days after receipt of notice of such breach.

7.3. Renewal. This Agreement shall automatically renew on expiration of the (12) month term for additional (12) month periods, unless either party requests termination at least thirty (30) days prior to the end of the then-current term. VEP is sold on an annual subscription basis. The price of the software will increase by 5% each year from the previous year's price. The price increase is compounding.

7.4. Effect of Expiration or Termination.

7.4.1. Upon any expiration or termination of this Agreement, DATAMARK Technologies shall immediately cease providing the VEP Software and all usage rights granted under this SaaS Agreement shall terminate.

7.4.2. If DATAMARK Technologies terminates this SaaS Agreement due to a breach by Customer, then Customer shall immediately pay to DATAMARK Technologies all amounts then due under this SaaS Agreement and to become due during the remaining term of this SaaS Agreement, but for such termination. If Customer terminates this SaaS Agreement due to a breach by DATAMARK Technologies, then DATAMARK Technologies shall immediately repay to Customer all pre-paid amounts for any unperformed DATAMARK Technologies SaaS scheduled to be delivered after the termination date.

7.4.3. DATAMARK Technologies agrees to preserve and back up Customer's entire database as it would have had the Agreement not been terminated. Customer shall make arrangements for the transfer of such data back to Customer at Customer's costs within thirty (30) days of any termination unless such termination is a result of Customer's failure to pay DATAMARK Technologies any amounts due hereunder, in which case, Customer is not entitled to any such data until its account is made current. In all events, DATAMARK Technologies shall preserve Customer's data for no more than five years following termination of this Agreement.

8. Confidentiality.

8.1. Definition. "Confidential Information" means any information disclosed by a party to the other party, directly or indirectly, which, (a) if in written, graphic, machine-readable or other tangible form, is marked as "confidential" or "proprietary," (b) if disclosed orally or by demonstration, is identified at the time of initial disclosure as confidential and is confirmed in writing to the receiving party to be "confidential" or "proprietary" within 30 days of such disclosure, (c) is specifically deemed to be confidential by the terms of this SaaS Agreement, or (d) reasonably appears to be confidential or proprietary because of the circumstances of disclosure and the

nature of the information itself, including trade secrets, secret designs, research and development disclosures, or proprietary information. Confidential Information will also include information disclosed by third parties to a disclosing party under an obligation of confidentiality. Subject to the display of Customer Content as contemplated by this SaaS Agreement, Customer Content is deemed Confidential Information of Customer. DATAMARK Technologies Software and Documentation are deemed Confidential Information of DATAMARK Technologies.

8.2. Confidentiality. During the term of this SaaS Agreement and for 5 years thereafter, each party shall treat as confidential all Confidential Information of the other party, shall not use such Confidential Information except to exercise its rights and perform its obligations under this SaaS Agreement, and shall not disclose such Confidential Information to any third party. Without limiting the foregoing, each party shall use at least the same degree of care, but not less than a reasonable degree of care, it uses to prevent the disclosure of its own confidential information to prevent the disclosure of Confidential Information of the other party. Each party shall promptly notify the other party of any actual or suspected misuse or unauthorized disclosure of the other party's Confidential Information. Neither party shall reverse engineer, disassemble or decompile any prototypes, software or other tangible objects which embody the other party's Confidential Information, and which are provided to the party hereunder. Each party may disclose Confidential Information of the other party on a need-to-know basis to its contractors who are subject to confidentiality agreements requiring them to maintain such information in confidence and use it only to facilitate the performance of their services on behalf of the receiving party.

8.3. Exceptions. Confidential Information excludes information that: (a) is known publicly at the time of the disclosure or becomes known publicly after disclosure through no fault of the receiving party, (b) is known to the receiving party, without restriction, at the time of disclosure or becomes known to the receiving party, without restriction, from a source other than the disclosing party not bound by confidentiality obligations to the disclosing party, or (c) is independently developed by the receiving party without use of the Confidential Information as demonstrated by the written records of the receiving party. The receiving party may disclose Confidential Information of the other party to the extent such disclosure is required by law such as may be reviewed under public records disclosure including Chapter 119, F.S. or order of a court or other governmental authority, provided that the receiving party shall use reasonable efforts to promptly notify the other party prior to such disclosure to enable the disclosing party to seek a protective order or otherwise prevent or restrict such disclosure. Each party may disclose the existence of this SaaS Agreement and the relationship of the parties, but agrees that the specific terms of this SaaS Agreement will be treated as Confidential Information; provided, however, that each party may disclose the terms of this SaaS Agreement to those with a need to know and under a duty of confidentiality such as accountants, lawyers, bankers and investors.

9. Representations and Warranties.

9.1. Mutual Representations and Warranties. Each party represents and warrants to the other party that:

a) it is duly organized, validly existing and in good standing as a corporation or other entity under the Laws of the jurisdiction of its incorporation or other organization;

b) it has the full right, power and authority to enter into and perform its obligations and grant the rights, licenses, consents and authorizations it grants or is required to grant under this Agreement;

c) the execution of this Agreement by its representative whose signature is set forth at the end of this Agreement has been duly authorized by all necessary corporate or organizational action of such party; and

d) when executed and delivered by both parties, this Agreement will constitute the legal, valid and binding obligation of such party, enforceable against such party in accordance with its terms.

9.2. Additional Customer Representations, Warranties and Covenants. Customer represents, warrants and covenants to DATAMARK Technologies that Customer owns or otherwise has and will have the necessary rights and consents in and relating to the Customer Data so that, as received by DATAMARK Technologies and processed in accordance with this Agreement, they do not and will not infringe, misappropriate or otherwise violate any Intellectual Property Rights, or any privacy or other rights of any third party or violate any applicable Law.

9.3. Warranty and Disclaimer. DATAMARK Technologies shall use reasonable efforts consistent with prevailing industry standards to maintain the DATAMARK Technologies SaaS in a manner which minimizes errors and interruptions in the DATAMARK Technologies SaaS and shall provide access and use of the VEP Software and perform implementation of VEP Systems in a professional and workmanlike manner. The DATAMARK Technologies SaaS may be temporarily unavailable for scheduled maintenance or for unscheduled emergency maintenance, either by DATAMARK Technologies or by third-party providers, or because of other causes beyond DATAMARK Technologies' reasonable control, but DATAMARK Technologies shall use reasonable efforts to provide advance notice in writing or by e-mail of any scheduled service interruption. HOWEVER, COMPANY DOES NOT WARRANT THAT THE DATAMARK TECHNOLOGIES SAAS WILL BE UNINTERRUPTED OR ERROR FREE; NOR DOES IT MAKE ANY WARRANTY AS TO THE RESULTS THAT MAY BE OBTAINED FROM USE OF THE VEP SOFTWARE. EXCEPT AS EXPRESSLY SET FORTH IN THIS SECTION, THE VEP SOFTWARE AND VEP SYSTEMS ARE PROVIDED "AS IS" AND COMPANY DISCLAIMS ALL WARRANTIES, EXPRESS OR IMPLIED, INCLUDING, BUT NOT LIMITED TO, IMPLIED WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE AND NON-INFRINGEMENT.

9.4. Indemnification. (See attached Exhibit "D", Polk County Supplemental Terms and Conditions)

9.4.1.

9.5. No Other Rights. Customer has no title to or ownership of, any intellectual property rights with respect to the Software including, without limitation, any related copyrights, trademarks, patents, trade secrets, or inventions performed with the VEP Software, DATAMARK Technologies VEP computer source code, descriptions of the VEP Software, and other intellectual property rights in the underlying functions, look, and feel of the VEP Systems. Customer has only the granted rights with respect to the Software that are expressly set forth in this Agreement. Customer has

no other rights, implied or otherwise. Customer acknowledges and agrees that the Software is being licensed, not sold, and that rights to access the Software are acquired only under this license from DATAMARK Technologies. The source code of the Software constitutes valuable trade secrets of, and confidential and proprietary information to, DATAMARK Technologies and its suppliers, and (a) may not be distributed, disclosed or otherwise provided to third parties, and (b) may be used only internally and only in conjunction with and for Customer's own authorized internal use of the Related Materials.

10. Limitations of Liability.
NEITHER PARTY (NOR ANY SERVICE, LICENSOR OR OTHER SUPPLIER OF DATAMARK TECHNOLOGIES) SHALL BE LIABLE FOR INDIRECT, INCIDENTAL, SPECIAL OR CONSEQUENTIAL DAMAGES, INCLUDING, WITHOUT LIMITATION, DAMAGES FOR LOST BUSINESS, PROFITS, DATA OR USE OF ANY SERVICE, INCURRED BY EITHER PARTY OR ANY THIRD PARTY IN CONNECTION WITH THIS SAAS AGREEMENT, REGARDLESS OF THE NATURE OF THE CLAIM (INCLUDING NEGLIGENCE), EVEN IF FORESEEABLE OR THE OTHER PARTY HAS BEEN ADVISED OF THE POSSIBILITY OF SUCH DAMAGES. NEITHER PARTY'S AGGREGATE LIABILITY FOR DAMAGES UNDER THIS SAAS AGREEMENT, REGARDLESS OF THE NATURE OF THE CLAIM (INCLUDING NEGLIGENCE), SHALL EXCEED THE FEES PAID OR PAYABLE BY CUSTOMER UNDER THIS SAAS AGREEMENT DURING THE 12 MONTHS PRECEDING THE DATE THE CLAIM AROSE.

11. General Provisions.

11.1. Non-Exclusive Service. Customer acknowledges that SaaS Services are provided on a non-exclusive basis. Nothing shall be deemed to prevent or restrict DATAMARK Technologies' ability to provide the SaaS Services or other technology, including any features or functionality first developed for Customer, to other parties.

11.2. Independent Contractors. The relationship between the parties is that of independent contractors. Nothing contained in this Agreement shall be construed as creating other relationships between the parties, and neither party shall have authority to contract for or bind the other party in any manner whatsoever. Except as provided in this SaaS Agreement, neither party shall be responsible for the acts or omissions of the other party or the other party's personnel.

11.3. Publicity. DATAMARK Technologies may include Customer's name and/or logo in its customer lists and on its website. Upon signing, DATAMARK Technologies may issue a high-level press release announcing the relationship and the manner in which Customer will use the DATAMARK Technologies Software and System solution. DATAMARK Technologies shall coordinate its efforts with appropriate communications personnel in Customer's organization to secure approval of the press release if necessary.

11.4. Export Regulations. Export laws and regulations of the United States and any other relevant local export laws and regulations apply to the SaaS Services. Customer agrees that such export control laws govern its use of the DATAMARK Technologies SaaS (including technical data) and any SaaS deliverables provided under this Agreement, and Customer agrees to comply with all such export laws and regulations. Customer agrees that no data, information, software

programs and/or materials resulting from services (or direct product thereof) will be exported, directly or indirectly, in violation of these laws.

11.5. Notices. Except as otherwise permitted in this SaaS Agreement, notices under this SaaS Agreement shall be in writing and shall be deemed to have been given (a) five (5) business days after mailing if sent by registered or certified U.S. mail, (b) when transmitted if sent by facsimile or email, provided that a copy of the notice is promptly sent by another means specified in this section, or (c) when delivered if delivered personally or sent by express courier service. All notices shall be sent to the other party at the address set forth on the cover page of this SaaS Agreement.

11.6. Interpretation. The parties intend this SaaS Agreement to be construed without regard to any presumption or rule requiring construction or interpretation against the party drafting an instrument or causing any instrument to be drafted. The exhibits, attachments and appendices referred to herein are an integral part of this Agreement to the same extent as if they were set forth verbatim herein.

11.7. Headings. The headings in this SaaS Agreement are for reference only and do not affect the interpretation of this Agreement.

11.8. Force Majeure. (See attached Exhibit "D", Polk County Supplemental Terms and Conditions)

11.9. Entire Agreement. This SaaS Agreement (including the exhibits and appendices) constitute the entire, fully integrated agreement between the parties with respect to the subject matter hereof. Standard or printed terms contained in any purchase order or sales confirmation are deemed rejected and shall be void unless specifically accepted in writing by the party against whom their enforcement is sought; mere commencement of work or payment against such forms shall not be deemed acceptance of the terms. No amendment to or modification of this Agreement is effective unless it is in writing and signed by an authorized representative of each party.

11.10. DATAMARK Technologies Personal Data Obligations. In performing the SaaS Agreement, DATAMARK Technologies will comply with the Michael Baker, International (Michael Baker) Privacy Policy, which is available at https://mbakerintl.com/privacy-policy/, and incorporated herein by reference. The Michael Baker Privacy Policy is subject to change at Michael Baker's discretion; however, Michael Baker's policy changes will not result in a material reduction in the level of protection provided for Customer data during the period for which fees for the VEP Software have been paid. The policies referenced in this SaaS Agreement specify our respective responsibilities for maintaining the security of Customer data in connection with the SaaS Agreement. DATAMARK Technologies will only process Customer Personal Data in a manner that is reasonably necessary to provide a VEP System and/or VEP Software and will only process Customer Personal Data for the purpose of delivering DATAMARK Technologies SaaS.

11.11. Assignment. Neither party may assign this SaaS Agreement or any right under this SaaS Agreement, without the consent of the other party, which consent shall not be unreasonably withheld or delayed; provided however, that either party may assign this SaaS Agreement to an acquirer of all or substantially all of the business of such party to which this SaaS Agreement

relates, whether by merger, asset sale or otherwise. This SaaS Agreement shall be binding upon and inure to the benefit of the parties' successors and permitted assigns. Either party may employ subcontractors in performing its duties under this SaaS Agreement, provided, however, that such party shall not be relieved of any obligation under this SaaS Agreement.

11.12. No Third-party Beneficiaries. This Agreement is for the sole benefit of the parties hereto and nothing herein, express or implied, is intended to or shall confer upon any other Person any legal or equitable right, benefit or remedy of any nature whatsoever under or because of this Agreement.

11.13. Severability. If any term of this SaaS Agreement is held to be invalid or unenforceable, that term shall be reformed to achieve as nearly as possible the same effect as the original term, and the remainder of this SaaS Agreement shall remain in full force.

11.14. Surviving Terms. Sections 1, 2, and 7 through 11 of this SaaS Agreement shall survive the expiration or termination of this SaaS Agreement for any reason.

11.15. Governing Law. (See attached Exhibit "D", Polk County Supplemental Terms and Conditions)

11.16. Compliance with Laws. DATAMARK Technologies shall comply with all applicable local, state, national in connection with its delivery of the DATAMARK Technologies SaaS, including those laws related to data privacy, and the transmission of technical or personal data.

11.17. Dispute Resolution. Customer's satisfaction is an important objective to DATAMARK Technologies in performing its obligations under this SaaS Agreement. Except with respect to intellectual property rights, if a dispute arises between the parties relating to the interpretation or performance of this SaaS Agreement or the grounds for the termination hereof, the parties agree to hold a meeting within fifteen (15) days of written request by either party, attended by individuals with decision-making authority, regarding the dispute, to attempt in good faith to negotiate a resolution of the dispute prior to pursuing other available remedies. If, within 15 days after such meeting, the parties have not succeeded in resolving the dispute, either party may protect its interests by any lawful means available to it.

11.18. Signatures. This Agreement may be executed in counterparts, each of which is deemed an original, but all of which together are deemed to be one and the same agreement. A signed copy of this Agreement delivered by facsimile, e-mail or other means of electronic transmission is deemed to have the same legal effect as delivery of an original signed copy of this Agreement.

11.19. SOC 2 Compliance Commitment

Vendor certifies that the Validate Edit Provision (VEP) software provided under this Agreement will have a SOC 2 Type II report within twelve (12) months from the date of execution of this Agreement. If DATAMARK fails to provide the SOC 2 Type II report within the specified twelve (12) month period, then Polk County shall be entitled to the full amount of all fees paid for the VEP software, as well as continued use of the DATAMARK software considered in the Agreement at no cost to Polk County for sixty (60) days. Thereafter, this agreement will terminate.

IN WITNESS WHEREOF, the parties hereto have executed this Software as a Service Agreement as of the provided effective date: _____.

Exhibit A Pricing

SaaS Solution Pricing

Software subscriptions for the SaaS solutions included in this Scope of Work exhibit will begin and be invoiced upon execution of the applicable SaaS agreements.

One-Time Fees for SaaS Solutions	Price
GIS Data Hosting Layer Configuration	$5,000
GIS Data Hosting Setup	$2,000
One-Time SaaS Solution Fees Subtotal	**$7,000**
Annual Recurring Fees for SaaS Solutions	**Price**
VEP Validator to Support Region 4 NG9-1-1 GIS Data Repository: Year 1	$28,002
VEP Validator to Support Region 4 NG9-1-1 GIS Data Repository: Year 2	$29,402
VEP Validator to Support Region 4 NG9-1-1 GIS Data Repository: Year 3	$30,284
VEP Validator to Support Region 4 NG9-1-1 GIS Data Repository: Year 4	$31,193
VEP Validator to Support Region 4 NG9-1-1 GIS Data Repository: Year 5	$32,128
Annual VEP Validator Subscription Fees Subtotal – 5 Years	**$151,009**
VEP Aggregator VEP Validator to Support Region 4 NG9-1-1 GIS Data Repository: Year 1	$9,421
VEP Aggregator VEP Validator to Support Region 4 NG9-1-1 GIS Data Repository: Year 2	$9,892
VEP Aggregator VEP Validator to Support Region 4 NG9-1-1 GIS Data Repository: Year 3	$10,188
VEP Aggregator VEP Validator to Support Region 4 NG9-1-1 GIS Data Repository: Year 4	$10,494
VEP Aggregator VEP Validator to Support Region 4 NG9-1-1 GIS Data Repository: Year 5	$10,809
Annual VEP Aggregator Subscription Fees Subtotal – 5 Years	**$50,804**
GIS Data Hosting to Support Region 4 NG9-1-1 GIS Data Repository: Year 1	$40,369
GIS Data Hosting to Support Region 4 NG9-1-1 GIS Data Repository: Year 2	$42,387
GIS Data Hosting to Support Region 4 NG9-1-1 GIS Data Repository: Year 3	$43,659
GIS Data Hosting to Support Region 4 NG9-1-1 GIS Data Repository: Year 4	$44,969
GIS Data Hosting to Support Region 4 NG9-1-1 GIS Data Repository: Year 5	$46,318
Annual GIS Data Hosting Subscription Fees Subtotal – 5 Years	**$217,702**
MSAG Generator to Support Region 4 NG9-1-1 GIS Data Repository: Year 1	$2,310
MSAG Generator to Support Region 4 NG9-1-1 GIS Data Repository: Year 2	$2,426

MSAG Generator to Support Region 4 NG9-1-1 GIS Data Repository: Year 3	$2,498
MSAG Generator to Support Region 4 NG9-1-1 GIS Data Repository: Year 4	$2,573
MSAG Generator to Support Region 4 NG9-1-1 GIS Data Repository: Year 5	$2,650
Annual MSAG Generator Subscription Fees Subtotal – 5 Years	**$12,457**
Exhibit A Total:	**$438,972**

Exhibit B: Scope of Work

VEP is DATAMARK Technologies' cloud-native software as a service (SaaS) solution to validate, edit, and provision public safety GIS data following NG9-1-1 standards and GIS industry best practices. VEP is offered in Validator and Editor level subscriptions to provide the GIS data management features and solutions that best meet your GIS needs. VEP Validator's features, user roles, implementation, and support are described in detail below.

Software Subscription to VEP Validator

VEP Validator is delivered through software subscription, subject to an annual fee, and contracted through the execution of a SaaS Agreement. Software subscription fees include all VEP implementation tasks, user training, support, maintenance, and version upgrades through the term of the SaaS Agreement.

DATAMARK Technologies will provide Polk County 911 with a software subscription to **VEP Validator** for a period of **five years** that includes **one System Administrator user** and **one Validator user**.

The SaaS Agreement for VEP Validator is automatically renewed unless notice of cancelation is received 60 days prior to the renewal date.

Cloud-Native NG9-1-1 and Public Safety GIS Data Management SaaS Solution

DATAMARK Technologies leverages the security, reliability, and scalability of cloud-native development to deliver web-based NG9-1-1 GIS data management solutions that operate on common business workstation equipment and require no additional investment in specialized software licensing or hardware.

VEP can be quickly deployed to provide dedicated NG9-1-1 GIS data validation, export, and provisioning tools which support and complement your existing GIS environment along with integrated GIS data editing and observation tools to manage GIS datasets directly within the VEP platform.

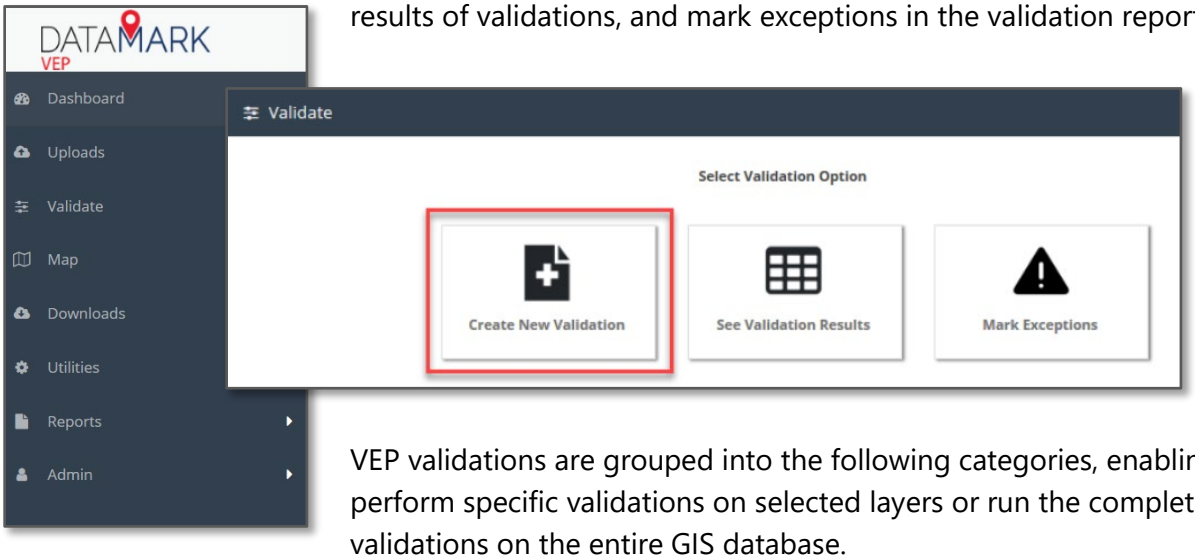
Cloud-native architecture enables DATAMARK Technologies to provide regular updates and upgrades to VEP that deliver improvements and innovations required to keep pace with changes to NG9-1-1 GIS data standards and the evolution of public safety GIS data management tools, workflows, and policies.

The DATAMARK VEP solution is hosted in a secure Amazon Web Services (AWS) cloud environment and adheres to the following security measures and plans:

- NIST SP 800-53
- Data encryption at TLS
- Proactive Intrusion Detection and Prevention
- Amazon Web Service backup and recovery procedures
- SOC 1 and SOC2 reports are available for review, as required

SaaS solution delivery ensures you are always using the most current version of VEP, offers the scalability to add and remove users as and when needed, and provides the capability to upgrade from

Validator to Editor at any time. Following implementation, DATAMARK Technologies' Client Success team will work with you to ensure VEP remains configured to support your GIS data management needs.



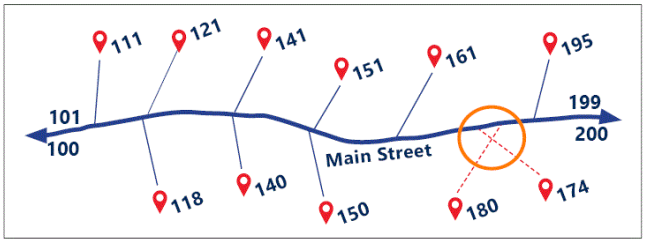
NG9-1-1 GIS Data Validation Tools and Workflows

Subscription to VEP Validator provides Polk County 911 with user-friendly tools and workflows to validate public safety GIS data and export GIS data into the schemas required for provisioning in Next Generation Core Services (NGCS) and public safety software systems.

VEP provides a comprehensive suite of tools to validate GIS, MSAG, and ALI data, and to run quality control (QC) checks for conformance with the NENA NG9-1-1 GIS Data Model as well as public safety and GIS standards and best practices. Validations can be performed as often as necessary and scheduled to run on a regular basis, based on local GIS data management process requirements.

VEP identifies NG9-1-1 schema inconsistencies, spatial anomalies, and discrepancies in your GIS and 9-1-1 data by evaluating attribute, topology, and spatial accuracy within each layer and running cross-feature validations on the dataset. VEP can validate individual layers, groups of layers, or their entire dataset.

The VEP system dashboard provides secure role-based access to validation results, system usage metrics, and GIS data statistics. Users have one-click access to create and schedule validations, view the results of validations, and mark exceptions in the validation reports.



VEP validations are grouped into the following categories, enabling users to perform specific validations on selected layers or run the complete suite of validations on the entire GIS database.

Address Point Validations provide insights into the integrity of address point data and associated data schema including attribute completeness and duplicate address points. Address Point Validations are also used to examine the relationship between the geometry and attributes of the road centerlines and address points, looking for and identifying misplaced address points.

Road Centerline Validations are used to deliver insights into road centerline data and perform audits of the integrity of the road centerline data by evaluating the attribute completeness, data schemas, and spatial relationships within road centerline data.

Fishbone Analysis compares placed address points to where they are geolocated on the road centerline, creating lines between the address point and road centerline in a 'fishbone' pattern.

This validation displays anomalies including address points on the wrong side of the road, out of order address points, and address points mapped to multiple road centerlines. Fishbone analyses identify where duplicate attributes or overlapping ranges cause placement on multiple road segments.

Boundary Validations identify topological errors including gaps and overlaps between provisioning and emergency service boundaries. Boundary Validations compare address point and road centerline datasets to boundaries to ensure the local jurisdiction's data is fully contained within the boundaries.

MSAG and ALI to GIS Validations support the synchronization of tabular 9-1-1 data and GIS datasets by comparing the MSAG with road centerline data and comparing ALI data with address points and road centerlines to flag missing data and determine consistency with street naming and range values.

GIS Data Export and Provisioning Tools

VEP provides the flexibility to download and export datasets that contain local, regional, or state-specific fields and schemas while maintaining compliance with the NENA NG9-1-1 GIS Data Model. During implementation, VEP will be configured to export GIS datasets in the jurisdiction's native schema in addition to the NENA NG9-1-1 schema. Examples of PSAP applications that have specific GIS schema requirements include Computer Aided Dispatch (CAD), 9-1-1 call taking and call mapping, and Automatic Vehicle Location (AVL).

VEP provides users with intuitive tools to download datasets in up to 10 schemas, including the NENA schema and up to nine additional native schemas. Users can easily download the full VEP GIS database, export it in the NENA schema, or export it in native schemas to support PSAP and government applications.

VEP's cloud-native architecture enables us to provide a platform-agnostic solution for provisioning GIS data into currently available Spatial Interface (SI) systems that operate between your GIS data and the NGCS functional elements that consume it.

VEP Validator User Roles

Subscription to VEP Validator includes System Administrator and Validator user roles along with the option to add Read-Only users as described below.

System Administrator is the highest permission level assigned to users in VEP. System Administrator users have full access to VEP's validation, reporting, and upload/download tools. System Administrator users configure VEP user roles, set user permissions, manage the database, and perform system administration tasks.

Validator user roles can be assigned to GIS or non-GIS personnel to provide full access to VEP's data validation, and upload/download functions. Validator users run validations on the GIS database, review validation results and mark exceptions in the data, and export GIS datasets for provisioning in NG9-1-1 and other public safety applications.

Read-Only users can be added to a VEP Validator subscription to provide access for additional personnel to view GIS data metrics and statistics. Read-Only users do not have access to VEP's validation or upload/download tools.

Implementation: VEP Validator

Project Initiation and User Setup

DATAMARK Technologies will develop and follow a written plan for implementing VEP that outlines system and data requirements, user and administrator training, and the requirements and responsibilities for deploying VEP.

Administrator level user accounts are set up by DATAMARK Technologies at the start of VEP implementation and provided to Polk County 911's System Administrator users at the end of VEP training. User level access is created by System Administrator users following training.

GIS Data Gathering and Assessment for Onboarding

DATAMARK Technologies will provide VEP's data requirements and work with Polk County 911 to gather GIS and 9-1-1 datasets and conduct an assessment to evaluate them for onboarding. Data that meets the requirements for onboarding will be loaded into VEP following the process described below. If our assessment shows data does not meet data onboarding requirements, we will advise on the corrections, edits, or additions necessary to load it into VEP.

GIS Data Onboarding

DATAMARK Technologies will configure the VEP SaaS solution and onboard Polk County 911's GIS, MSAG, and ALI data into the system. GIS data will be field mapped into the VEP schema, and we will conduct a virtual onboarding meeting during training to review the native schema and field mapping.

We will create a VEP Onboarding Report which will be delivered during training and highlights items such as VEP field mapping and guidance for any additional data modifications which may be required prior to being used to manage live data.

Training: VEP Validator

DATAMARK Technologies will deliver virtual training for administrators and users of VEP following GIS data onboarding. VEP Validator training introduces the VEP platform and provides instruction in how to use VEP to perform validations on GIS and 9-1-1 data and how to export data for provisioning into NG9-1-1 and public safety applications. The VEP Validator training course includes the following instruction modules:

Overview/About VEP

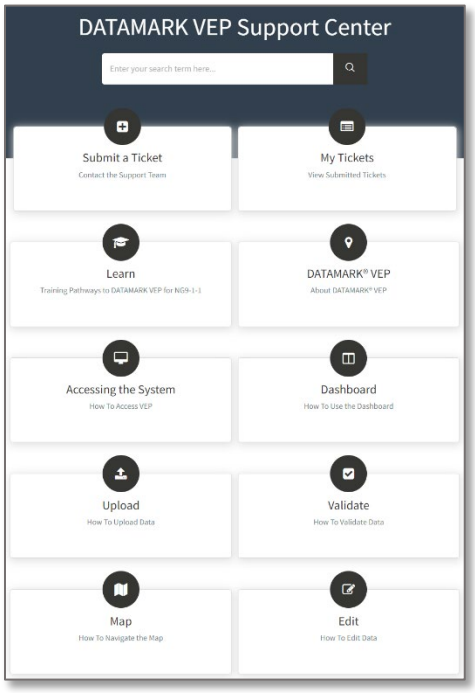
Validation Processes and Exceptions

Data Preparation, Uploading, and Downloading

Administrative Tools, Support Center, and Open Discussion

Training Course Delivery

Polk County 911 shall provide a suitable location, computer equipment, and internet connectivity required for the DATAMARK Technologies team to provide remote virtual onboarding and training services.



Training is conducted by live instructors in a virtual webinar format to minimize the time and resources required to train local staff. This also enables participants to directly interact with instructors, ask questions, and maximize learning opportunities. Virtual training will be coordinated and scheduled with Polk County 911 to minimize impact on day-to-day operations.

Training webinars may be recorded for future reference, for use in refresher training, and for onboarding new users after VEP has been deployed and initial training has been completed.

If Polk County 911 prefers onsite training to be conducted, DATAMARK Technologies can provide local in-person training. Additional one-time fees for onsite training will apply.

VEP Solution Support

DATAMARK Technologies is committed to Polk County 911's long-term success and meeting your GIS data management objectives. Subscription to VEP provides access to the VEP Support Center as well as our Client Success Team, which is made up of dedicated technical support personnel and client success managers who are experts in GIS and NG9-1-1 tools, workflows, and best practices.

VEP Support Center

Following implementation, users can access the VEP Support Center directly from the VEP user interface, which provides access to a comprehensive and searchable library of informational articles, training materials, and reference documents.

The VEP Support Center ticketing system provides users with the ability to submit, review, and track support requests for the VEP solution. DATAMARK Technologies' Technical Support team responds to support tickets submitted through the system, and users can directly monitor and track the status of support requests.

VEP Technical Support Team

DATAMARK Technologies' Technical Support team manages the VEP Support Center and resolves requests for technical support through VEP's secure online ticketing system. The Technical Support team also provides telephone-based technical support during business hours for clients who prefer to speak directly with a support team member. The Technical Support team can be reached by telephone Monday through Friday, from 8:00 AM to 8:00 PM Eastern time, excluding statutory holidays.

Client Success Team

A Client Success Manager will be assigned to provide continuity of support and maintain two-way communication with Polk County 911, ensuring we remain responsive to your ongoing GIS data needs and VEP remains configured to achieve your data management goals. The Client Success Manager provides a single point of contact, works collaboratively with stakeholders and the DATAMARK Technologies team, and is empowered to resolve questions, issues, and concerns that may arise during operation of the VEP solution.

VEP Validator Implementation Tasks, Responsibilities, and Deliverables

Polk County 911 Tasks and Responsibilities

- Provide GIS and 9-1-1 datasets and review GIS data field mapping for onboarding
- Provide space, computer equipment, and internet connectivity to support training

DATAMARK Technologies Deliverables

- Assess GIS and 9-1-1 datasets and conduct a review of GIS data field mapping for VEP onboarding
- Provide administrator and user level access to the VEP application and the VEP Support Center
- Conduct VEP user and administrator training

DATAMARK VEP Aggregator

VEP Aggregator is DATAMARK Technologies' cloud-native software as a service (SaaS) solution for aggregating local GIS datasets into a regional or statewide NG9-1-1 GIS database, validating the aggregated NG9-1-1 GIS database, and running cross-jurisdictional validations on source data. VEP Aggregator is deployed by 9-1-1 authorities to develop and maintain a NG9-1-1 GIS database composed of local datasets maintained by GIS authorities using VEP Validator or Editor. VEP Aggregator's features, user roles, implementation, and support are described in detail below.

Software Subscription to VEP Aggregator

VEP Aggregator is delivered through software subscription, subject to an annual fee, and contracted through the execution of a SaaS Agreement. Software subscription fees include implementation of the VEP solution, user training, support, maintenance, and upgrades through the term of the SaaS Agreement.

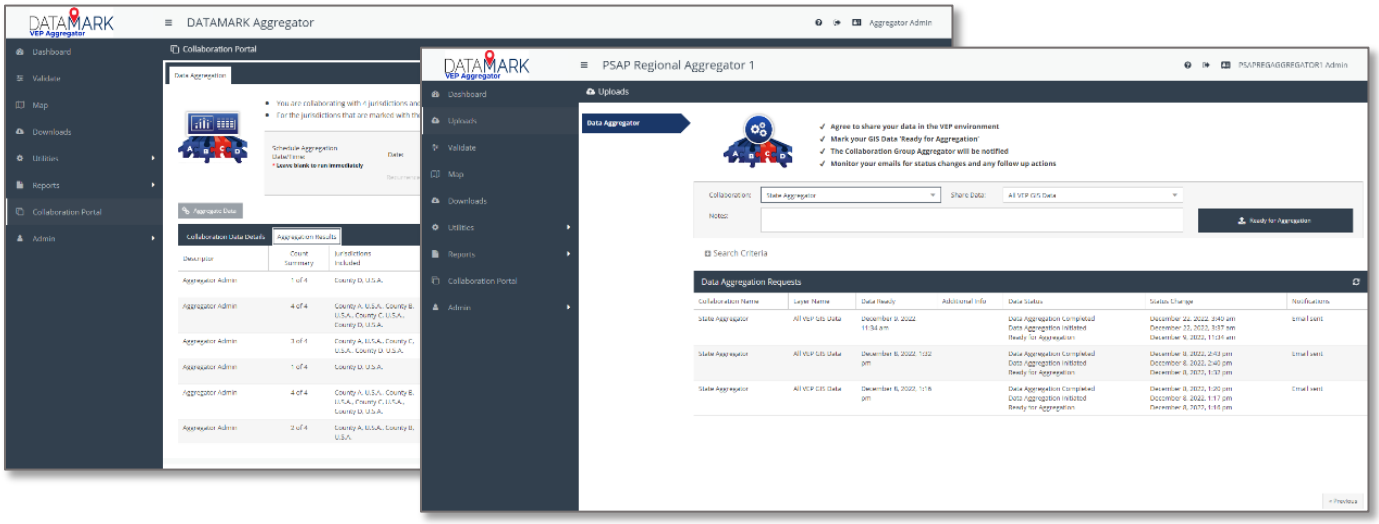
DATAMARK Technologies will provide Polk County 911 with a software subscription to VEP Aggregator for a period of **five years**.

The SaaS Agreement for VEP Aggregator is automatically renewed unless notice of cancelation is received 60 days prior to the renewal date.

Cloud-Native NG9-1-1 GIS Data Aggregation SaaS Solution

VEP Aggregator leverages the security, reliability, and scalability of cloud-native development and requires no additional investment in specialized software licensing or hardware. Secure centralized data and application hosting enables VEP Aggregator to be rapidly implemented for regional and statewide clients.

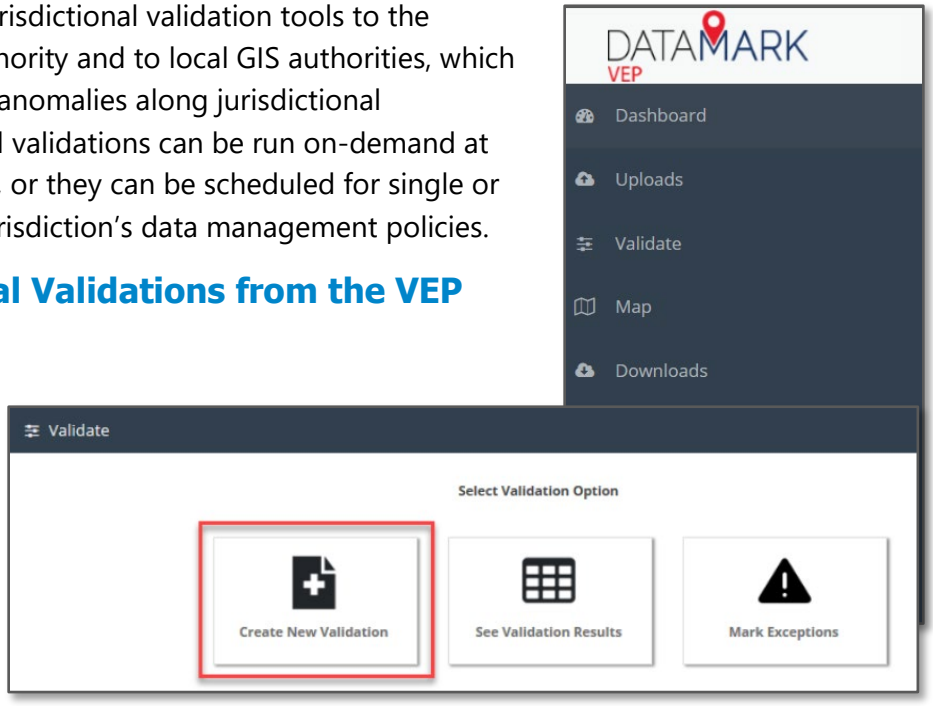
Cloud-native architecture enables DATAMARK Technologies to provide regular updates and upgrades to VEP that deliver improvements and innovations required to keep pace with changes to NG9-1-1 GIS data standards and evolution of public safety GIS data management tools, workflows, and policies.



SaaS solution delivery ensures you are always using the most current version of VEP and provides the scalability to add and remove users as and when needed. DATAMARK Technologies' Client Success team will work with you to ensure VEP remains configured to support your GIS data management needs.

Aggregating Local Datasets into an NG9-1-1 GIS Database

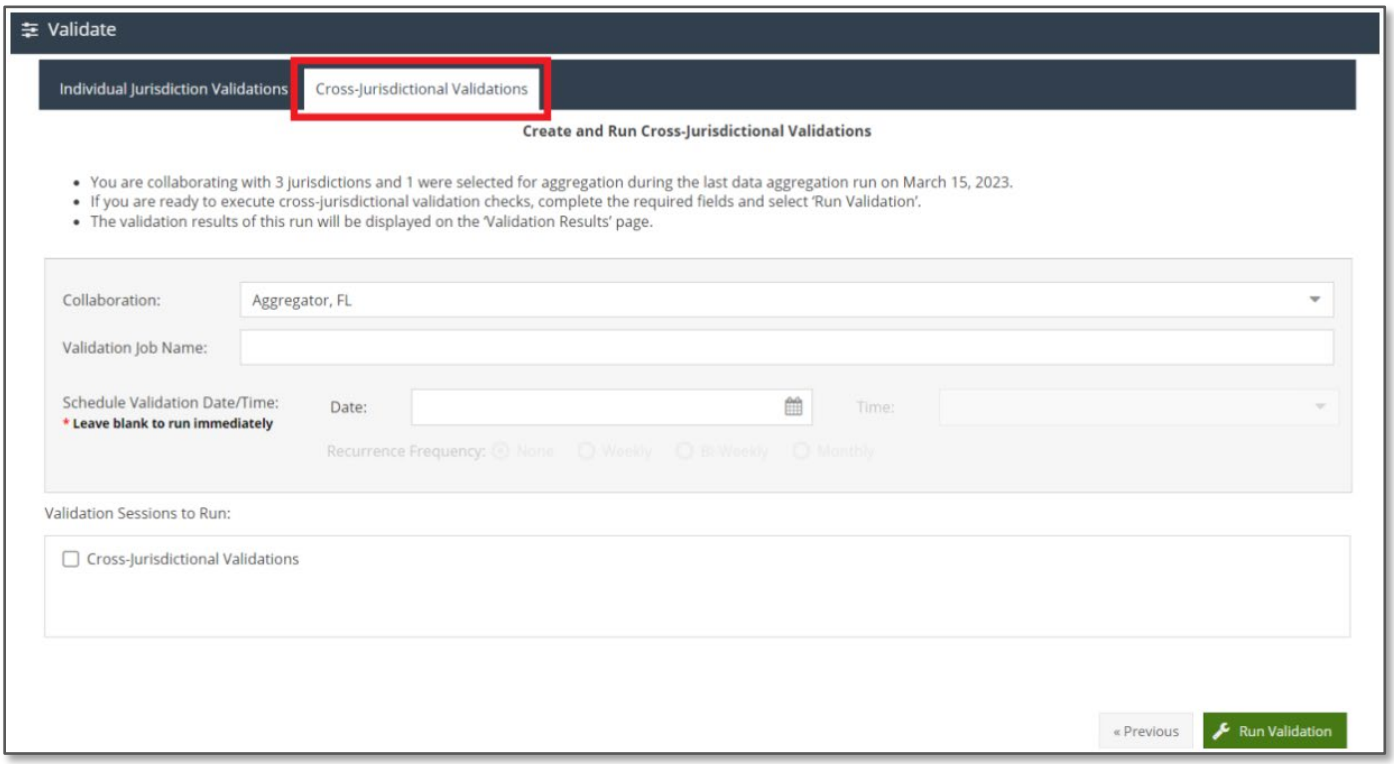
VEP's intuitive user interface provides seamless and user-friendly workflows to streamline the process of aggregating locally managed datasets into a regional or state NG9-1-1 GIS database.



Regional and state GIS authorities use VEP Aggregator to consolidate local GIS datasets into an aggregated NG9-1-1 GIS database which conforms to state and NENA NG9-1-1 GIS standards, run validations on the aggregated data, and perform ongoing management of the NG9-1-1 GIS database. Local jurisdictions use VEP's Collaboration Portal to run cross-jurisdictional validations of their data, and mark locally managed datasets ready for aggregation into the NG9-1-1 GIS database.

VEP Aggregator provides intuitive tools and workflows for local, regional, and state GIS authorities to export the aggregated NG9-1-1 GIS database in the NENA schema as well as the regional/state schema.

Cross-Jurisdictional Validations on the NG9-1-1 GIS Database and Local Datasets



VEP provides powerful cross-jurisdictional validation tools to the regional/state aggregation authority and to local GIS authorities, which are used to identify errors and anomalies along jurisdictional boundaries. Cross-jurisdictional validations can be run on-demand at any time, as often as necessary, or they can be scheduled for single or periodic runs following each jurisdiction's data management policies.

Run Cross-Jurisdictional Validations from the VEP Dashboard

VEP Aggregator provides regional and state 9-1-1 authority personnel with cross-jurisdictional validations that can be run against local GIS datasets to identify anomalies, discrepancies, and errors in local datasets impacting compliance with NG9-1-1 GIS standards and regional/state GIS data requirements.

VEP provides intuitive single-click access to run validations, view error reports, export data. Validation results such as error reports and anomaly files are easily accessed and downloaded directly from the VEP platform.

Cross-Jurisdictional Validations on Road Centerlines, Address Points, and Boundaries

Road Centerline Validations compare road centerline alignment with neighboring boundaries and identify overlapping address ranges.

Address Point Validations identify duplicate addresses with matching attributes and geometry located in another jurisdiction or multiple jurisdictions.

Boundary Validations identify islands, holes, and overlaps between the PSAP boundary, Emergency Services Boundaries, and Provisioning Boundary feature classes. Validations compare cross-jurisdictional road centerline segments for boundary snapping.

Sharing Cross-Jurisdictional Validation Results

Regional/State GIS Data Aggregation Authorities

VEP provides multiple methods for regional and state GIS authorities managing an aggregated NG9-1-1 GIS database to communicate cross-jurisdictional validation results to local GIS authorities.

Aggregator users can send cross-jurisdictional validation results to local agencies to update and correct local datasets. Aggregator users can also communicate anomalies in GIS datasets to jurisdictions that use VEP Editor by making observations using VEP's web map interface.

Local GIS Authorities

Local GIS authorities use VEP to run cross-jurisdictional validations of their datasets against neighboring PSAPs and agencies to identify and report errors along shared boundaries. Local

jurisdictions use the results to correct issues in their data and can directly provide the results of cross-jurisdictional validations to neighboring agencies to make corresponding corrections and updates.

VEP Aggregator User Roles

Subscription to VEP Aggregator includes the Aggregator Administrator role.

Aggregator Administrator is the highest permission level assigned in VEP Aggregator and provides users with the capability to:

- Run cross-jurisdictional validations
- Review the results of cross-jurisdictional validations for all participating agencies
- View anomalies in the VEP web map and mark observations in the datasets
- Download datasets in the NENA schema or native schema
- Run metrics reports, including Collaboration Usage reports
- Administer and configure the VEP Aggregator solution

Implementation: VEP Aggregator

DATAMARK Technologies will work with Polk County 911 to set up the aggregated NG9-1-1 GIS database and work with each local jurisdiction to contribute locally managed datasets to the aggregated NG9-1-1 GIS database.

DATAMARK Technologies will develop a written plan to implement VEP Aggregator for the NG9-1-1 GIS aggregation authority and implement VEP Validator or Editor for each local GIS authority contributing data to the aggregated NG9-1-1 GIS database.

The implementation plan will outline the data and system requirements for deploying VEP and describe local and aggregator-level implementation tasks and training to be performed and be provided to the NG9-1-1 GIS aggregation authority as well as each local GIS authority.

GIS Data Preparation

DATAMARK Technologies will perform an initial assessment of each local GIS, MSAG, and ALI dataset, onboard local GIS data into VEP, and conduct instructor-led training for VEP's validation, aggregation, editing, and observation workflows and processes. Onboarding data into the VEP solution includes field mapping local GIS datasets to the VEP schema, which fully supports the NENA NG9-1-1 GIS Data Model.

Local GIS and 9-1-1 Data Onboarding into VEP

Following GIS data gathering and preparation for each local GIS authority, DATAMARK Technologies will configure the VEP solution and onboard local GIS, MSAG, and ALI datasets into the GIS data management solution. A full description of VEP onboarding for [Validator/Editor] is provided in this scope of work. GIS and 9-1-1 data onboarding into VEP enables local GIS authorities to begin validating and maintaining their data to NENA and Polk County 911 data standards, and mark data ready for aggregation.

Aggregated NG9-1-1 GIS Database Setup

The aggregated NG9-1-1 GIS database is established in the NG9-1-1 compliant VEP schema when the first local datasets are marked ready for aggregation by their local jurisdictions and consolidated by Polk County 911's Aggregator Administrator users using VEP.

Training: VEP Aggregator

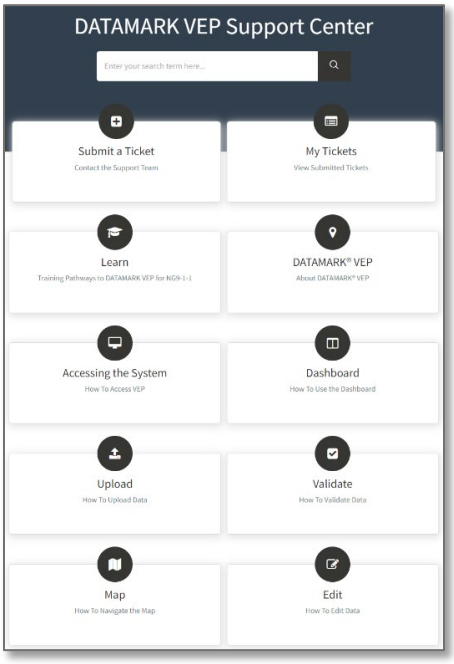
DATAMARK Technologies will deliver virtual training to Polk County 911's Aggregator Administrator users covering VEP's cross-jurisdictional validation and data aggregation features along with administration of the VEP Aggregator solution. VEP Aggregator training is delivered in the following modules:

Course Overview/About VEP	**NG9-1-1 GIS Data Aggregation**
Cross-Jurisdictional Data Validation	**System and Validation Reporting**
VEP Solution Administration	**VEP Solution Support and Open Discussion**

Training Course Delivery

Polk County 911 shall provide a suitable location, computer equipment, and internet connectivity required for the DATAMARK Technologies team to provide remote virtual onboarding and training services.

Training is conducted by live instructors in a virtual webinar format to minimize the time and resources required to train local staff. This also enables participants to directly interact with instructors, ask questions, and maximize learning opportunities. Virtual training will be coordinated and scheduled with Polk County 911 to minimize impact on day-to-day operations.



Training webinars may be recorded for future reference, for use in refresher training, and for onboarding new users after VEP has been deployed and initial training has been completed.

If Polk County 911 prefers onsite training to be conducted, DATAMARK Technologies can provide local in-person training. Additional one-time fees for onsite training will apply.

VEP Solution Support

DATAMARK Technologies is committed to Polk County 911's long-term success and meeting your GIS data management objectives. Subscription to VEP provides access to the VEP Support Center as well as our Client Success Team, which is made up of dedicated technical support personnel and client success managers who are experts in GIS and NG9-1-1 tools, workflows, and best practices.

VEP Support Center

Following implementation, users can access the VEP Support Center directly from the VEP user interface, which provides access to a comprehensive and searchable library of informational articles, training materials, and reference documents.

The VEP Support Center ticketing system provides users with the ability to submit, review, and track support requests for the VEP solution. DATAMARK Technologies' Technical Support team responds to support tickets submitted through the system, and users can directly monitor and track the status of support requests.

VEP Technical Support Team

DATAMARK Technologies' Technical Support team manages the VEP Support Center and resolves requests for technical support through VEP's secure online ticketing system. The Technical Support team also provides telephone-based technical support during business hours for clients who prefer to speak directly with a support team member. The Technical Support team can be reached by telephone Monday through Friday, from 8:00 AM to 8:00 PM Eastern time, excluding statutory holidays.

Client Success Team

A Client Success Manager will be assigned to provide continuity of support and maintain two-way communication with Polk County 911, ensuring we remain responsive to your ongoing GIS data needs and VEP remains configured to achieve your data management goals. The Client Success Manager provides a single point of contact, works collaboratively with stakeholders and the DATAMARK Technologies team, and is empowered to resolve questions, issues, and concerns that may arise during operation of the VEP solution.

VEP Aggregator Implementation Tasks, Responsibilities, and Deliverables

Polk County 911 Tasks and Responsibilities

- Provide GIS and 9-1-1 datasets and review GIS data field mapping for onboarding
- Provide space, computer equipment, and internet connectivity to support training

DATAMARK Technologies Deliverables

- Assess GIS and 9-1-1 datasets and conduct a review of GIS data for onboarding into the VEP solution and creation of the aggregated NG9-1-1 GIS database
- Provide user access to the VEP application and the VEP Support Center
- Conduct VEP Aggregator user training

GIS Data Hosting

GIS Data Hosting provides authorized service and system providers with secure access to your GIS data for use in public safety systems such as CAD, AVL, 9-1-1 call handling, 9-1-1 call mapping, etc.

DATAMARK Technologies will provide GIS Data Hosting to Polk County 911 for a period of **five years**. GIS Data Hosting is provided on an annual basis following the execution of a SaaS Agreement for the solutions and services described below. The SaaS Agreement is automatically renewed unless notice of cancelation is received 60 days before the renewal date.

Secure Access to GIS Data for Use in Approved Public Safety Systems

DATAMARK Technologies will provide authorized providers with secure access to Polk County 911's GIS data, document and track access provided to authorized providers, and update documentation when access is updated or revoked.

DATAMARK Technologies will perform maintenance on the data hosting map service (URLs, etc.) and update the hosted NENA layers automatically via updates from VEP. Non-NENA layers (excluding Raster layers) will be updated once per quarter with new or updated datasets provided by Polk County 911.

Authorized service and system providers are prevented from modifying or editing your data.

GIS Data Hosting is configurable to enable authorized provider to access selected layers or the complete GIS database. Authorized service and system providers will have access to the following GIS layers:

NENA Required Layers

- Road Centerlines
- Primary PSAP Services Boundaries
- Primary Emergency Services Boundaries (Police, Fire, Emergency Medical Services)
- Site/Structure Address Points
- Provisioning Boundaries

NENA Strongly Recommended, Recommended, and Other Data Layers

- Street Name Alias Table
- Landmark Name Alias Table
- Complete Landmark Name Alias Table
- States or Equivalents
- Counties or Equivalents
- Incorporated Municipal Boundary
- Unincorporated Municipal Boundary
- Neighborhood Community Boundary
- Railroad Centerlines
- Hydrology Line
- Hydrology Polygon
- Cell Sector Location
- Mile Marker Location
- Other Emergency Service Zone Boundaries

GIS Data Hosting Tasks, Responsibilities, and Deliverables

Polk County 911 Tasks and Responsibilities

- Provide access to GIS data layers to be hosted by DATAMARK Technologies
- Provide the list of approved service providers and solution vendors to DATAMARK Technologies
- Advise DATAMARK Technologies when access to GIS Data Hosting needs to be changed

DATAMARK Technologies Deliverables

- Provide access to approved service providers and solution vendors
- Track and document access for approved service providers and solution vendors

MSAG Generator

DATAMARK will provide Polk County with software subscription to the MSAG Generator for a period of **five years**. DATAMARK will provide users of Polk County's VEP solution with access to MSAG Generator along with virtual end user training for VEP users.

MSAG Generator requires subscription to VEP Validator, Editor, or Aggregator, and is provided on an annual basis following the execution of a new or amended SaaS Agreement. Software subscription fees for MSAG Generator include support, maintenance, and solution upgrades through the term of the SaaS Agreement. The SaaS Agreement is automatically renewed unless notice of cancelation is received 60 days before the renewal date.

On-Demand Tools to Create and Manage a Geospatial MSAG

The migration from legacy 9-1-1 systems to NG9-1-1 is evolutionary, introducing fundamental changes to emergency call routing and location validation. NG9-1-1 requires the continued use of MSAG until geospatial call routing and location validation are fully implemented.

MSAG Generator provides Polk County with fully integrated and user-friendly tools to create an up-to-date GIS-based MSAG on-demand that replaces the legacy tabular MSAG for call routing and location validation and maintains continuity between NG9-1-1 GIS layers and the legacy MSAG.

MSAG Generator is accessed through VEP's intuitive user interface and can be used as often as necessary to create a new or updated geospatial MSAG that follows the *NENA Standard for the NG9-1-1 GIS Data Model*, supporting legacy 9-1-1 operations throughout the migration to NG9-1-1.

MSAG Generator Tasks, Responsibilities, and Deliverables

Polk County Tasks and Responsibilities

- Maintain an active subscription to VEP Validator, Editor, or Aggregator

DATAMARK Deliverables

- Enable MSAG Generator in Polk County's VEP environment
- Conduct MSAG Generator end user training

PROJECT MANAGEMENT METHODOLOGY

Michael Baker's project management methodology has been used for more than 80 years to effectively manage project plans, schedules, budgets, and contracting. DATAMARK Technologies will follow this methodology to manage each phase of this project in close collaboration with Polk County 911 throughout the contracted term of services.

Project Startup

Following execution of an agreement for services, DATAMARK Technologies will perform project startup tasks which include setting up budget management, developing the project plan, and scheduling a project kickoff meeting for project stakeholders.

DATAMARK Technologies uses Smartsheet, an end-to-end project management application, to manage project planning, scheduling, tasks, communications, and risk management. Smartsheet provides project team members and stakeholders with a web-based dashboard to track project and task status as well as review the schedule, communications plan, risk register, and change log through the life of the project.

Project Kickoff Meeting

DATAMARK Technologies will conduct a virtual project kickoff meeting to introduce project team members, define team member roles, and discuss the project's milestones, objectives, timeline, and approach. Topics discussed during the kickoff meeting will be documented in the project plan.

Project Management Plan

The Project Manager will create a Project Management Plan (PMP) to document project operations, budget, contracts, and quality, based on Polk County 911's project specifications and the finalized scope of work.

The PMP includes the reporting schedule and communication processes established during kickoff along with a risk register to track risks and mitigation plans. Throughout the project, the PMP will be used to document and track:

- Project stakeholders and their project responsibilities
- Project approach and objectives
- Project communication processes
- Risk and decision management
- Project schedule, budget, and progress tracking
- Progress tracking of project milestones and deliverables

The PMP is updated by the Project Manager and updates are communicated to the project team and stakeholders through the life of the project. The most current version of the PMP can be viewed by the project team and stakeholders through the Smartsheet project portal.

Scope, Schedule, and Budget Tracking

DATAMARK Technologies' Project Manager will use Smartsheet to track the project's scope, schedule, and budget from startup through completion. The Project Manager will provide regular communication with the project team to maintain focus, manage workflow efficiency, and monitor progress toward task completion.

Project Status Reporting

The Project Manager will provide regular project status reports to the project team and stakeholders following a schedule developed during the project kickoff meeting. Project status reports include a Project Summary, Action Items, Work Completed, and a list of Issues and Risks. Project stakeholders will be provided access to Smartsheet's web portal to view project status in real time and review the most current project schedule, communications plan, risks, tasks, and project change log.

Project Invoicing

The Project Manager will deliver invoices to Polk County 911 on a monthly, quarterly, or annual basis, or by project milestone, as agreed to during contracting. Invoicing will adhere to all applicable terms and conditions outlined in the project's Services Statement of Work and/or SaaS Agreement.

Project Management Tasks, Responsibilities, and Deliverables

Polk County 911 Tasks and Responsibilities

- Participate in project kickoff meeting
- Review and approve the project plan, schedule, invoices, and other project documents

DATAMARK Technologies Deliverables

- Schedule and conduct the project kickoff meeting
- Schedule project status meetings and provide project status reports
- Deliver the PMP, schedule, and other project documents
- Deliver invoices to Polk County 911

SAAS SERVICE LEVEL AND MAINTENANCE AGREEMEMT

The purpose of this SaaS Service Level and Maintenance Agreement (SLA) is to define the Service Level for the maintenance and support of the DATAMARK Technologies SaaS ("VEP Software"). The VEP Software shall be accessible 24 hours per day, 365 days per year subject to routine maintenance and unexpected outages.

Service Level Agreements are used as a tool to measure and guide DATAMARK Technologies and Customer in achieving the goals for effective delivery of all DATAMARK Technologies SaaS to the Customer. DATAMARK Technologies is providing Customer with the capability to run the VEP Software in a hosted environment. DATAMARK Technologies may choose to work with other Internet or Application service providers in providing its SaaS to Customer.

The SLA may be modified by DATAMARK Technologies from time to time. Updates to the SLA can periodically be found on the DATAMARK Technologies VEP Knowledge base accessed through Customer VEP portal. If a modification is unacceptable to Customer, Customer may cancel a subscription, upon written notice to DATAMARK Technologies. If Customer continues to use the VEP Software, Customer will be deemed to have accepted the modification. The following SLA shall outline DATAMARK Technologies' service level commitment:

1. The VEP Software

Specifically, DATAMARK Technologies will provide the following:

- **Application Administration**
  Software installation and software updates (patches, upgrades, support, and maintenance)
- **Technical Support**
  Online email support during coverage hours, 24x7 access to support portal
- **SaaS Management**
  Client activation, security monitoring, change control, problem management, and escalation procedures
- **System Administration**
  System configuration, deployment, support, monitoring, response, repair, tuning and capacity planning
- **Network Administration**
  Network provisioning, monitoring, response, repair, security, utilization management and capacity planning
- **Data backup and retention**
  Backups of Customer data

Customer is responsible for purchase and maintenance of its own equipment, hardware and access, including but not limited to network and data connection, to establish a connection to the Internet.

2. Server Environment

2.1 Cloud Services

The VEP Software is hosted in a secure Amazon Web Services (AWS) cloud environment. Note: AWS ensures data centers are equipped with back-up power supply to ensure power is available to maintain operations in the event of an electrical failure for critical and essential loads in the facility.

Dedicated compute power for RDS may be allocated to Customers upon request with additional fees.

2.2 Security

DATAMARK Technologies ensures that Customer data is protected with data encryption, user authentication, application security, and more. The VEP Software adheres to the following security measures and plans:

- NIST SP 800-53
- Data encryption at TLS
- Proactive Intrusion Detection and Prevention
- Amazon Web Service backup and recovery procedures

Specific measures include:

- All servers are located behind the firewall with only essential ports enabled.
- All firewalls have Intrusion Detection enabled.
- SSL encryption

3. Service Measures

3.1 Availability

The following availability will be maintained:

Measurement	Definition	DATAMARK Technologies SLA
Software Availability	The periods of time that the Software is available for use by the Customer not including scheduled downtime.	24 x 7 x 365, 99.5% average over a month not including scheduled downtime.
User Response Time	The time it takes for the Software to complete a user request and return a response.	Because of many external factors involved in this measurement, the response time cannot be specified.
Backups	Customer data as well as application installation backups	Full database backups of Customer Data are performed routinely every evening. Backup files will be retained for 2 days.
Restoration of SaaS	In the event of a major disaster event, such as flooding of the hosting facility or an earthquake that destroys the infrastructure.	DATAMARK Technologies will restore VEP Software at one or more alternate locations within 3 business days.
Maximum Restore Age	It is the maximum age of the data should we need to restore production data from backup.	No more than 48 hours.
Problem Response Time	Provision of user support. Primary Coverage will be 8am- 8pm Eastern time Monday through Friday, excluding statutory holidays. Response time will be calculated by dividing the numbers of issues responded to in one hour or less divided by the total number of issues received for the month.	90% of issues responded to in one hour or less during primary coverage. We are targeting a 90% compliance rate that every issue will be responded to in one hour or less during primary coverage. To calculate this, we take: # of issues responded to in 1 hr or less / total number of issues. For example, if a customer logs 10 issues in 1 month and 9 of them were responded to in 1 hour, we have a 90% compliance rate which means we hit our target.

3.2 Priority Levels

Priority Level	Definition	Expected Response	Communication Intervals
Priority 1	Critical System Issue – Complete System Outage	Support Team takes ownership of Problem – Implements emergency plan. System Monitoring is initiated internally.	4 hour maximum
Priority 2	Major Impact – Impact to the Customer's Business with no work around	Problem is worked on continuously until it is resolved, or a reasonable workaround is applied, during normal business hours.	8 hour maximum
Priority 3	Large impact – Significant inconvenience to customers where a workaround might be implemented	Work is expected to continue on a workday basis until a more permanent solution is in place.	24 hour maximum
Priority 4	Small to Minor Impact – Minor to Small Inconvenience	Resolution is worked into a planned project list and schedule or it can be deferred until there is time allowed in the project schedule.	Initial response within 72 hour maximum, ongoing weekly updates
Priority 5	Reported bugs or requested enhancements	Bugs are fixed if they are impacting clients' business. Enhancements are evaluated if approved at DATAMARK Technologies' sole discretion added to the development roadmap as prioritized.	Quarterly unless bug fix is critical to clients' business

3.3 Downtime / Maintenance

DATAMARK Technologies periodically adds, repairs, and upgrades the data center hardware and the Software and shall use its best efforts to accomplish this without affecting the Customer's access to any Software; however, repairs of an emergency or critical nature may result in the VEP Software not being available for the Customer's usage during the course of such repairs. DATAMARK Technologies reserves the right to take down the server(s) at the data center in order to conduct routine maintenance to both software and hardware according to the following protocols:

Item	Description	Commitment
Standard Maintenance Window	Monday - Sunday: 1 am – 4 am Pacific Time	
Scheduled Upgrades & Maintenance	Regular planned uploads of new functionality will take place during the release schedule window. The release schedule includes four (4) quarterly releases and other hotfixes, patch releases and maintenance upgrades.	- Minimum of 5-day Notice prior to the upload going into the production environment. - A message will be displayed on the main site stating DATAMARK Technologies is down during scheduled upgrades.

Non-Scheduled/Emergency Maintenance	May be performed outside the maintenance window and will be counted as unscheduled downtime.	- Customer will be notified immediately providing Customer as much prior notice as is commercially practicable of all such emergency maintenance to be performed on the VEP Software. - A message will be displayed on the main site stating DATAMARK Technologies VEP Software is down. - Provide a general description of all such emergency maintenance performed no more than ten (10) calendar days following completion of such emergency maintenance.

4. Compatibility with New Software

4.1 Customer consents and acknowledges that prior to upgrading customer's third-party software, the Customer is solely responsible to verify and ensure that such third-party software is compatible with their current or future versions of Software. The most significant applications which the Customer should carefully check for compatibility before upgrading any other third-party tools used with, by, or integrated with the Software. DATAMARK Technologies will not be responsible for any failures or malfunctions' resulting from such upgrade and reserves the right not to provide support for such installations.

5. Limitation of the SLA

5.1 DATAMARK Technologies agrees to maintain uptime of at least 99.5% ("Minimum Uptime Level") excluding Routine and Minor Outages. To the extent that DATAMARK Technologies fails during any calendar month to provide the Minimum Uptime Level, it shall provide, upon request of Customer, a pro-rated credit to Customer to compensate for the amount of downtime that exceeds the permitted downtime pursuant to this paragraph. Credits granted hereunder shall be determined within a reasonable amount of time.

5.2 DATAMARK Technologies will use commercially reasonable efforts to make the Hosted VEP Software available during the applicable Service Windows (except during Force Majeure events) and in accordance with generally recognized industry Service Level Standards for non-mission-critical SaaS applications, excluding unavailability as a result of any of the Exceptions described below in this this Section. "Service Level Failure" means a material failure of the DATAMARK Technologies SaaS to meet the Availability Requirement. "Available" means the DATAMARK Technologies SaaS is available for access and use by Customer and its Authorized Users over the Internet and operating in material accordance with the Specifications.

5.3 Customer must inform DATAMARK Technologies' Technical Support Department by email (a "Credit Request") within ten (10) days from the end of the month in which the Customer believes that DATAMARK Technologies did not satisfy the Availability Commitment, in each instance, and the Credit Request must include a listing of the date(s), time(s) and

duration of the downtime experienced during the applicable month. Failure to do so, in any instance, will forfeit Customer's right to seek a credit from DATAMARK Technologies for the failure to achieve the Availability Commitment during the month at issue. Customer's right to receive a credit for a failure to meet the Availability Requirement for a given month shall be Customer's exclusive remedy in connection with the Outage(s) giving rise to the credit. The aggregate maximum value of credits to be issued by DATAMARK Technologies to Customer for any and all Outages that occur in a single month will not exceed twenty percent (20%) of the Monthly Annual Fees.

5.4 The SLA expressly excludes, and neither the DATAMARK Technologies SaaS will be considered un-Available nor any Service Level Failure be deemed to occur in connection with any failure to meet the Availability Requirement or impaired ability of Customer or its Authorized Users to access or use the DATAMARK Technologies SaaS that is due, in whole or in part, to any of the following:

a) Scheduled Downtime, or disabling, suspension and/or termination of the DATAMARK Technologies SaaS pursuant to the SaaS agreement;
b) Installation, configuration and technical support for DATAMARK Technologies SaaS;
c) Technical support, consultation or problem resolution pertaining to software applications other than those supplied by DATAMARK Technologies and described in this Agreement including access to or use of the VEP Software by Customer or any Authorized User, or using Customer's or an Authorized User's Access Credentials, that does not strictly comply with the SaaS Agreement, Customer Failure, Customer's Internet connectivity, failure, interruption, outage or other problem with any software, hardware, system, network, facility or other matter not supplied by DATAMARK Technologies pursuant to this Agreement;
d) Resolution of problems resulting from negligence of the system user. Including specifically the incorrect data entry, the use of altered data or source code and the failure to use the Software according to the instructions provided in the user guide;
e) Support for development (SDK, Web pages, etc.), integration and custom reports, whether developed by Customer or any party other than DATAMARK Technologies;
f) Any alterations or additions, performed by parties other than DATAMARK Technologies, except for programs using product interfaces provided by DATAMARK Technologies;
g) Use of the Software on an Operating Environment other than that for which such Software was designed, except as expressly prescribed in the user guide;
h) Maintenance and support for non-production environments and sand boxes; and
i) Data migration.

5.5 If Customer requires that a member of DATAMARK Technologies' staff provide services pertaining to any of the above exclusions which are not included as part of the SLA, Customer hereby agrees to pay DATAMARK Technologies for these services according to the daily support service rate then in effect, prorated hourly.

CERTIFICATE OF SECRETARY
of
MICHAEL BAKER INTERNATIONAL, INC.

The undersigned, John M. Tedder, Secretary of Michael Baker International, Inc., a Pennsylvania corporation (the "Company"), DOES HEREBY CERTIFY that Leigh TeWinkle is the Vice President & VP Operations DATAMARK of the Company, and is authorized and empowered to sign proposals and other contract documents, and to otherwise bind the Company contractually, with respect to the Polk County, Florida VEP Saas Solutions Contract.

IN WITNESS WHEREOF, I have hereunto subscribed my name this 6th day of August 2025.

Michael Baker International, Inc.

By: _____
John M. Tedder
Executive Vice President & Chief Legal Officer & Secretary

Exhibit "D"

Supplemental Terms and Conditions to the

DATAMARK Technologies Service Agreement

between Polk County and DATAMARK Technologies.

Where there is conflict between the Supplemental Terms and Conditions and the Agreement Terms and Conditions, the Supplemental Terms and Conditions supersede.

A. **Insurance**. The Vendor shall maintain at all times the following minimum levels of insurance and shall, without in any way altering its liability, obtain, pay for and maintain insurance for the coverage and amounts of coverage not less than those set forth below. The Vendor shall provide the County original Certificates of Insurance satisfactory to the County to evidence such coverage before any work commences. The County shall be named as an additional insured on General and Automobile Liability policies. General Liability and Workers' Compensation policies shall contain a waiver of subrogation in favor of Polk County. The commercial General Liability Policy shall (by endorsement if necessary) provide contractual liability coverage for the contractual indemnity stated in Section 10, above. All insurance coverage shall be written with a company having an A.M. Best rating of at least the "A" category and size category of VIII. The Vendor's self-insured retention or deductible per line of coverage shall not exceed $25,000 without the permission of the County. In the event of any failure by the Vendor to comply with the provisions of this Section 11, the County may, at its option, upon notice to the Vendor suspend Vendor's performance of the Services for cause until there is full compliance. Alternatively, the County may purchase such insurance at the Vendor's expense, provided that the County shall have no obligation to do so and if the County shall do so, the Vendor shall not be relieved of or excused from the obligation to obtain and maintain such insurance amounts and coverage.

Comprehensive Automobile Liability Insurance. $1,000,000.00 combined single limit of liability for bodily injuries, death and property damage resulting from any one occurrence, including all owned, hired, and non-owned vehicles.

Commercial General Liability. $1,000,000.00 combined single limit of liability for bodily injuries, death and property damage, and personal injury resulting from any one occurrence, including the following coverages:

Premises and Operations:

Broad Form Commercial General Liability Endorsement to include Blanket Contractual liability (specifically covering, but not limited to, the contractual obligations assumed by the Firm); Personal Injury (with employment and contractual exclusions deleted); and Broad Form Property Damage coverage.

Independent Contractors:

Delete Exclusion relative to collapse, explosion and underground; Property Damage Hazards; Cross Liability Endorsement; and Contractual liability (specifically covering, but not limited to, the contractual obligations assumed by the Firm)

Workers Compensation. The Vendor shall provide, pay for, and maintain workers compensation insurance on all employees, its agents or subcontractors as required

by Florida Statutes.

Professional Services Errors and Omissions Liability. $1,000,000.00 per occurrence and aggregate.

Cyber Liability. $1,000,000.00 per claim and aggregate

C. Indemnity. Vendor, to the maximum extent permitted by law, shall indemnify, defend (by counsel reasonably acceptable to County) protect and hold the County, and its officers, employees and agents harmless from and against any and all, claims, actions, causes of action, liabilities, penalties, forfeitures, damages, losses, and expenses (including, without limitation, attorneys' fees costs and expenses incurred during negotiation, through litigation and all appeals therefrom) whatsoever including, but not limited, to those pertaining to the death of or injury to any person, or damage to any property, arising out of or resulting from (i) the failure of Vendor to comply with applicable laws, rules or regulations, (ii) the breach by Vendor of its obligations under this Agreement, (iii) any claim for trademark, patent or copyright infringement arising out of the scope of Vendor's performance or nonperformance of this Agreement, or (iv) the negligent acts, errors or omissions, or intentional or willful misconduct, of Vendor, its professional associates, subcontractors, agents, and employees provided, however, that Vendor shall not be obligated to defend or indemnify the County with respect to any such claims or damages arising out of the County's sole negligence.

D. Force Majeure. Either party hereunder may be temporarily excused from performance if an Event of Force Majeure directly or indirectly causes its nonperformance. An "Event of Force Majeure" is defined as any event which results in the prevention or delay of performance by a party of its obligations under this Agreement and which is beyond the reasonable control of the nonperforming party. It includes, but is not limited to fire, flood, earthquakes, storms, lightning, epidemic, war, riot, civil disturbance, sabotage, and governmental actions. Neither party shall be excused from performance if non-performance is due to forces which are reasonably preventable, removable, or remediable and which the non-performing party could have, with the exercise of reasonable diligence, prevented, removed, or remedied prior to, during, or immediately after their occurrence. Within five (5) days after the occurrence of an Event of Force Majeure, the non-performing party shall deliver written notice to the other party describing the event in reasonably sufficient detail, along with proof of how the event has precluded the non-performing party from performing its obligations hereunder, and a good faith estimate as to the anticipated duration of the delay and the means and methods for correcting the delay. The non-performing party's obligations, so far as those obligations are affected by the Event of Force Majeure, shall be temporarily suspended during, but no longer than, the continuance of the Event of Force Majeure and for a reasonable time thereafter as may be required for the non-performing party to return to normal business operations. If excused from performing any obligations under this Agreement due to the occurrence of an Event of Force Majeure, the non-performing party shall promptly, diligently, and in good faith take all reasonable action required for it to be able to commence or resume performance of its obligations under this Agreement. During any such time period, the non-performing party shall keep the other party duly notified of all such actions required for it to be able to commence or resume performance of its obligations under this Agreement.

B. **Indemnity.** Vendor, to the maximum extent permitted by law, shall indemnify, defend (by counsel reasonably acceptable to County) protect and hold the County, and its officers, employees and agents harmless from and against any and all, claims, actions, causes of action, liabilities, penalties, forfeitures, damages, losses, and expenses (including, without limitation, attorneys' fees costs and expenses incurred during negotiation, through litigation and all appeals therefrom) whatsoever including, but not limited, to those pertaining to the death of or injury to any person, or damage to any property, arising out of or resulting from (i) the failure of Vendor to comply with applicable laws, rules or regulations, (ii) the breach by Vendor of its obligations under this Agreement, (iii) any claim for trademark, patent or copyright infringement arising out of the scope of Vendor's performance or nonperformance of this Agreement, or (iv) the negligent acts, errors or omissions, or intentional or willful misconduct, of Vendor, its professional associates, subcontractors, agents, and employees provided, however, that Vendor shall not be obligated to defend or indemnify the County with respect to any such claims or damages arising out of the County's sole negligence.

C. **Force Majeure.** Either party hereunder may be temporarily excused from performance if an Event of Force Majeure directly or indirectly causes its nonperformance. An "Event of Force Majeure" is defined as any event which results in the prevention or delay of performance by a party of its obligations under this Agreement and which is beyond the reasonable control of the nonperforming party. It includes, but is not limited to fire, flood, earthquakes, storms, lightning, epidemic, war, riot, civil disturbance, sabotage, and governmental actions. Neither party shall be excused from performance if non-performance is due to forces which are reasonably preventable, removable, or remediable and which the non-performing party could have, with the exercise of reasonable diligence, prevented, removed, or remedied prior to, during, or immediately after their occurrence. Within five (5) days after the occurrence of an Event of Force Majeure, the non-performing party shall deliver written notice to the other party describing the event in reasonably sufficient detail, along with proof of how the event has precluded the non-performing party from performing its obligations hereunder, and a good faith estimate as to the anticipated duration of the delay and the means and methods for correcting the delay. The non-performing party's obligations, so far as those obligations are affected by the Event of Force Majeure, shall be temporarily suspended during, but no longer than, the continuance of the Event of Force Majeure and for a reasonable time thereafter as may be required for the non-performing party to return to normal business operations. If excused from performing any obligations under this Agreement due to the occurrence of an Event of Force Majeure, the non-performing party shall promptly, diligently, and in good faith take all reasonable action required for it to be able to commence or resume performance of its obligations under this Agreement. During any such time period, the non-performing party shall keep the other party duly notified of all such actions required for it to be able to commence or resume performance of its obligations under this Agreement.

D. **Default and Remedy.** If Vendor materially defaults in its obligations under this Agreement, then the County shall have the right to (i) immediately terminate this Agreement by delivering written notice to Vendor, and (ii) pursue any and all remedies available in law, equity, and under this Agreement. If the County materially defaults in its obligations under this Agreement, then Vendor shall have the right to immediately terminate this Agreement by delivering written notice to the County and to

seek payment from County for those services Vendor has provided but for which has not yet been paid.

E. **Attorneys' Fees and Costs.** In connection with any dispute or any litigation arising out of, or relating to this Agreement, each party shall be responsible for its own legal and attorneys' fees, costs and expenses, including attorneys' fees, costs, and expenses incurred for any appellate or bankruptcy proceedings.

F. **Dispute Resolution.** Notwithstanding anything in the State of Florida Participating Addendum Agreement to the contrary, there shall be no arbitration of any dispute arising or pertaining to this Agreement. The parties shall resolve all such disputes via voluntary and non-binding mediation or negotiation.

G. **LIMITATION OF LIABILITY. IN NO EVENT SHALL THE COUNTY BE LIABLE TO THE VENDOR FOR INDIRECT, INCIDENTAL, CONSEQUENTIAL, SPECIAL, EXEMPLARY, OR PUNITIVE DAMAGES OF ANY KIND OR NATURE WHATSOEVER INCLUDING LOSS OF PROFIT, WHETHER FORESEEABLE OR NOT, ARISING OUT OF OR RESULTING FROM THE NONPERFORMANCE OR BREACH OF THIS CONTRACT BY THE COUNTY WHETHER BASED IN CONTRACT, COMMON LAW, WARRANTY, TORT, STRICT LIABILITY, CONTRIBUTION, INDEMNITY OR OTHERWISE.**

H. **Governing Law.** This Agreement shall be governed in all respects by the Laws of the State of Florida, without regard to conflicts of the laws principles.

I. **Venue.** Any litigation with respect to this Agreement shall be brought and prosecuted only in the courts of Polk County, Florida or in the United States District Court, Middle District of Florida, located in Hillsborough County, Florida.

J. **Notice.** All notices, requests, consents and other communications required or permitted under this Agreement shall be in writing, and shall be, as elected by the person giving such notice, hand delivered by nationally recognized messenger or by courier service, or mailed by registered or certified mail, return receipt requested, and addressed, as follows:

If to the County: Polk County Emergency Management
Attention: EM Director
PO Box 9005, Drawer EM01
Bartow, FL 33831-9005

If to Vendor: DATAMARK Technologies.
Attention: Leigh TeWinkle
100 Airside Drive
Moon Township, PA 15108

K. **Non-exclusive Agreement.** This Agreement does not grant the Vendor the exclusive right to provide the County software as a service for enhanced 911 intercounty call transfer during the Agreement term. The County may utilize its own personnel to perform such services or it may employ other vendors or contractors to provide such services.

L. Public Records Law.

(a) The Vendor acknowledges the County's obligations under Article I, Section 24, of the Florida Constitution and under Chapter 119, Florida Statutes, to release public records to members of the public upon request and comply in the handling of the materials created under this Agreement. The Vendor further acknowledges that the constitutional and statutory provisions control over the terms of this Agreement. In association with its performance pursuant to this Agreement, the Vendor shall not release or otherwise disclose the content of any documents or information that is specifically exempt from disclosure pursuant to all applicable laws.

(b) Without in any manner limiting the generality of the foregoing, to the extent applicable, the Vendor acknowledges its obligations to comply with Section 119.0701, Florida Statutes, with regard to public records, and shall:

(1) keep and maintain public records required by the County to perform the services required under this Agreement;

(2) upon request from the County's Custodian of Public Records or his/her designee, provide the County with a copy of the requested records or allow the records to be inspected or copied within a reasonable time at a cost that does not exceed the cost provided in Chapter 119, Florida Statutes, or as otherwise provided by law;

(3) ensure that public records that are exempt or confidential and exempt from public records disclosure requirements are not disclosed except as authorized by law for the duration of the term of this Agreement and following completion of this Agreement if the Vendor does not transfer the records to the County; and

(4) upon completion of this Agreement, transfer, at no cost, to the County all public records in possession of the Vendor or keep and maintain public records required by the County to perform the service. If the Vendor transfers all public records to the County upon completion of this Agreement, the Vendor shall destroy any duplicate public records that are exempt or confidential and exempt from public records disclosure requirements. If the Vendor keeps and maintains public records upon completion of this Agreement, the Vendor shall meet all applicable requirements for retaining public records. All records stored electronically must be provided to the County, upon request from the County's Custodian of Public Records, in a format that is compatible with the information technology systems of the County.

(c) **IF THE VENDOR HAS QUESTIONS REGARDING THE APPLICATION OF CHAPTER 119, FLORIDA STATUTES, TO THE VENDOR'S DUTY TO PROVIDE PUBLIC RECORDS RELATING TO THIS AGREEMENT, CONTACT THE COUNTY'S CUSTODIAN OF PUBLIC RECORDS AT:**

RECORDS MANAGEMENT LIAISON OFFICER

BARTOW, FL 33830

TELEPHONE: (863) 534-7527

EMAIL: RMLO@POLK-COUNTY.NET

M. <u>Scrutinized Companies and Business Operations Certification; Termination.</u>

A. <u>Certification(s)</u>.

(i) By its execution of this Agreement, the Vendor hereby certifies to the County that the Vendor is not on the Scrutinized Companies that Boycott Israel List, created pursuant to Section 215.4725, Florida Statutes, nor is the Vendor engaged in a boycott of Israel, nor was the Vendor on such List or engaged in such a boycott at the time it submitted its bid, proposal, quote, or other form of offer, as applicable, to the County with respect to this Agreement.

(ii) Additionally, if the value of the goods or services acquired under this Agreement are greater than or equal to One Million Dollars ($1,000,000), then the Vendor further certifies to the County as follows:

(a) the Vendor is not on the Scrutinized Companies with Activities in Sudan List, created pursuant to Section 215.473, Florida Statutes; and

(b) the Vendor is not on the Scrutinized Companies with Activities in the Iran Petroleum Energy Sector List, created pursuant to Section 215.473, Florida Statutes; and

(c) the Vendor is not engaged in business operations (as that term is defined in Florida Statutes, Section 287.135) in Cuba or Syria; and

(d) the Vendor was not on any of the Lists referenced in this subsection A(ii), nor engaged in business operations in Cuba or Syria when it submitted its proposal to the County concerning the subject of this Agreement.

(iii) The Vendor hereby acknowledges that it is fully aware of the penalties that may be imposed upon the Vendor for submitting a false certification to the County regarding the foregoing matters.

B. <u>Termination</u>. In addition to any other termination rights stated herein, the County may immediately terminate this Agreement upon the occurrence of any of the following events:

(i) The Vendor is found to have submitted a false certification to the County with respect to any of the matters set forth in subsection A(i) above, or the Vendor is found to have been placed on the Scrutinized Companies that Boycott Israel List or is engaged in a boycott of Israel.

(ii) The Vendor is found to have submitted a false certification to the County with respect to any of the matters set forth in subsection A(ii) above, or the Vendor is found to have been placed on the Scrutinized Companies with Activities in Sudan List, or the Scrutinized Companies with Activities in the Iran Petroleum Energy Sector List, or has been engaged in business operations in Cuba or Syria, and the value of the goods or services acquired under this Agreement are greater than or equal to One Million Dollars ($1,000,000).

N. No Construction Against Drafter The Parties acknowledge that this Agreement and all the terms and conditions contained herein have been fully reviewed and negotiated by the Parties. Accordingly, any rule of construction to the effect that ambiguities are to be resolved against the drafting party shall not apply in interpreting this Agreement.

O. Public Entity Crimes. The Vendor declares and warrants that neither the Vendor nor any of the Vendor's affiliates, as that term is defined in Section 287.133, Florida Statutes, are subject to the restrictions in Section 287.133, Florida Statutes, regarding the commission of a public entity crime. If during the term of this Agreement, the Vendor or any affiliate is convicted of a public entity crime or is otherwise prohibited from performing work for or transacting business with the County pursuant to Section 287.133, Florida Statutes, then the Vendor shall be in material default of this Agreement, and in such case, the County shall have the rights and remedies as provided herein.

P. Revised 508 Standards. If the Vendor provides any information or communication technology ("ICT") or provides any custom ICT development services as part of this Agreement, the Vendor shall ensure the ICT fully conforms to the applicable Revised 508 Standards (29 USC §794d.) prior to delivery and before final acceptance.

Q. Unauthorized Alien(s)

The Vendor shall not employ or utilize unauthorized aliens in the performance of the Services provided pursuant to this Agreement. The County shall consider the employment or utilization of unauthorized aliens a violation of Section 274A(e) of the Immigration and Naturalization Act (8 U.S.C. 1324a) and a cause for the County's unilateral termination of this Agreement. When delivering executed counterparts of this Agreement to the County, the Vendor shall also deliver a completed and executed counterpart of the attached "AFFIDAVIT CERTIFICATION IMMIGRATION LAWS" form.

R. Employment Eligibility Verification (E-VERIFY)

A. Unless otherwise defined herein, terms used in this Section which are defined in Section 448.095, Florida Statutes, as may be amended from time to time, shall have the meaning ascribed in said statute.

B. Pursuant to Section 448.095(5), Florida Statutes, the contractor hereto, and any subcontractor thereof, must register with and use the E-Verify system to verify the work authorization status of all new employees of the contractor or subcontractor. The contractor acknowledges and agrees that (i) the County and the contractor may not enter into this Agreement, and the contractor may not enter into any subcontracts hereunder, unless each party to this Agreement, and each party to any subcontracts hereunder, registers with and uses the E-Verify system; and (ii) use of the U.S. Department of Homeland Security's E-Verify System and compliance with all other terms of this Certification and Section 448.095, Fla. Stat., is an express condition of this Agreement, and the County may treat a failure to comply as a material breach of this Agreement.

C. By entering into this Agreement, the contractor becomes obligated to comply with the provisions of Section 448.095, Fla. Stat., "Employment Eligibility," as amended from time to time. This includes but is not limited to utilization of the E-

Verify System to verify the work authorization status of all newly hired employees, and requiring all subcontractors to provide an affidavit attesting that the subcontractor does not employ, contract with, or subcontract with, an unauthorized alien. The contractor shall maintain a copy of such affidavit for the duration of this Agreement. Failure to comply will lead to termination of this Agreement, or if a subcontractor knowingly violates the statute or Section 448.09(1), Fla. Stat., the subcontract must be terminated immediately. If this Agreement is terminated pursuant to Section 448.095, Fla. Stat., such termination is not a breach of contract and may not be considered as such. Any challenge to termination under this provision must be filed in the Tenth Judicial Circuit Court of Florida no later than 20 calendar days after the date of termination. If this Agreement is terminated for a violation of Section 448.095, Fla. Stat., by the contractor, the contractor may not be awarded a public contract for a period of 1 year after the date of termination. The contractor shall be liable for any additional costs incurred by the County as a result of the termination of this Agreement. Nothing in this Section shall be construed to allow intentional discrimination of any class protected by law.

AFFIDAVIT CERTIFICATION IMMIGRATION LAWS

SOLICITATION NO.: Software as a Service (SAAS) for E911 Intercounty Call Transfers

POLK COUNTY WILL NOT INTENTIONALLY AWARD COUNTY CONTRACTS TO ANY CONSULTANT WHO KNOWINGLY EMPLOYS UNAUTHORIZED ALIEN WORKERS, CONSTITUTING A VIOLATION OF THE EMPLOYMENT PROVISIONS CONTAINED IN 8 U.S.C. SECTION 1324 a(e) {SECTION 274A(e) OF THE IMMIGRATION AND NATIONALITY ACT ("INA").

POLK COUNTY MAY CONSIDER THE EMPLOYMENT BY ANY CONSULTANT OF UNAUTHORIZED ALIENS A VIOLATION OF SECTION 274A(e) OF THE INA. **SUCH VIOLATION BY THE RECIPIENT OF THE EMPLOYMENT PROVISIONS CONTAINED IN SECTION 274A(e) OF THE INA SHALL BE GROUNDS FOR UNILATERAL CANCELLATION OF THE CONTRACT BY POLK COUNTY.**

PROPOSER ATTESTS THAT THEY ARE FULLY COMPLIANT WITH ALL APPLICABLE IMMIGRATION LAWS (SPECIFICALLY TO THE 1986 IMMIGRATION ACT AND SUBSEQUENT AMENDMENTS).

Affidavit Regarding the Use of Coercion for Labor or Services

In compliance with Section 787.06(13), Florida Statutes, this attestation must be completed by an officer or representative of a nongovernmental entity that is executing, renewing, or extending a contract with Polk County, a political subdivision of the State of Florida.

The undersigned, on behalf of the entity listed below (the "Nongovernmental Entity"), hereby attests under penalty of perjury as follows:

1. I am over the age of 18 and I have personal knowledge of the matters set forth herein.

2. I currently serve as an officer or representative of the Nongovernmental Entity.

3. The Nongovernmental Entity does **not** use coercion for labor or services, as those underlined terms are defined in Section 787.06, Florida Statutes.

4. This declaration is made pursuant to Section 92.525, Fla. Stat. and Section 787.06, Fla. Stat. I understand that making a false statement in this declaration may subject me to criminal penalties.

Under penalties of perjury, I Leigh TeWinkle, Vice President (Signatory Name and Title), declare that I have read the foregoing Affidavit Regarding the Use of Coercion for Labor and Services and that the facts stated in it are true.

Further Affiant sayeth naught.

Additional Insured – Automatic – Owners, Lessees Or Contractors

THIS ENDORSEMENT CHANGES THE POLICY. PLEASE READ IT CAREFULLY.	
Policy No. GLO 4197281-03	Effective Date: 08/30/2024

This endorsement modifies insurance provided under the:

Commercial General Liability Coverage Part

A. Section **II – Who Is An Insured** is amended to include as an additional insured any person or organization whom you are required to add as an additional insured under a written contract or written agreement executed by you, but only with respect to liability for "bodily injury", "property damage" or "personal and advertising injury" and subject to the following:

1. If such written contract or written agreement specifically requires that you provide that the person or organization be named as an additional insured under one or both of the following endorsements:

a. The Insurance Services Office (ISO) ISO CG 20 10 (10/01 edition); or

b. The ISO CG 20 37 (10/01 edition),

such person or organization is then an additional insured with respect to such endorsement(s), but only to the extent that "bodily injury", "property damage" or "personal and advertising injury" arises out of:

(1) Your ongoing operations, with respect to Paragraph **1.a.** above; or

(2) "Your work", with respect to Paragraph **1.b.** above,

which is the subject of the written contract or written agreement.

However, solely with respect to this Paragraph **1.**, insurance afforded to such additional insured:

(a) Only applies if the "bodily injury", "property damage" or "personal and advertising injury" offense occurs during the policy period and subsequent to your execution of the written contract or written agreement; and

(b) Does not apply to "bodily injury" or "property damage" caused by "your work" and included within the "products-completed operations hazard" unless the written contract or written agreement specifically requires that you provide such coverage to such additional insured.

2. If such written contract or written agreement specifically requires that you provide that the person or organization be named as an additional insured under one or both of the following endorsements:

a. The Insurance Services Office (ISO) ISO CG 20 10 (07/04 edition); or

b. The ISO CG 20 37 (07/04 edition),

such person or organization is then an additional insured with respect to such endorsement(s), but only to the extent that "bodily injury", "property damage" or "personal and advertising injury" is caused, in whole or in part, by:

(1) Your acts or omissions; or

(2) The acts or omissions of those acting on your behalf,

Includes copyrighted material of Insurance Services Office, Inc., with its permission.

in the performance of:

(a) Your ongoing operations, with respect to Paragraph **2.a.** above; or

(b) "Your work" and included in the "products-completed operations hazard", with respect to Paragraph **2.b.** above,

which is the subject of the written contract or written agreement.

However, solely with respect to this Paragraph **2.**, insurance afforded to such additional insured:

(i) Only applies if the "bodily injury", "property damage" or "personal and advertising injury" offense occurs during the policy period and subsequent to your execution of the written contract or written agreement; and

(ii) Does not apply to "bodily injury" or "property damage" caused by "your work" and included within the "products-completed operations hazard" unless the written contract or written agreement specifically requires that you provide such coverage to such additional insured.

3. If neither Paragraph **1.** nor Paragraph **2.** above apply and such written contract or written agreement requires that you provide that the person or organization be named as an additional insured:

a. Under the ISO CG 20 10 (04/13 edition, any subsequent edition or if no edition date is specified); or

b. With respect to ongoing operations (if no form is specified),

such person or organization is then an additional insured only to the extent that "bodily injury", "property damage" or "personal and advertising injury" is caused, in whole or in part by:

(1) Your acts or omissions; or

(2) The acts or omissions of those acting on your behalf,

in the performance of your ongoing operations, which is the subject of the written contract or written agreement.

However, solely with respect to this Paragraph **3.**, insurance afforded to such additional insured:

(a) Only applies to the extent permitted by law;

(b) Will not be broader than that which you are required by the written contract or written agreement to provide for such additional insured; and

(c) Only applies if the "bodily injury", "property damage" or "personal and advertising injury" offense occurs during the policy period and subsequent to your execution of the written contract or written agreement.

4. If neither Paragraph **1.** nor Paragraph **2.** above apply and such written contract or written agreement requires that you provide that the person or organization be named as an additional insured:

a. Under the ISO CG 20 37 (04/13 edition, any subsequent edition or if no edition date is specified); or

b. With respect to the "products-completed operations hazard" (if no form is specified),

such person or organization is then an additional insured only to the extent that "bodily injury" or "property damage" is caused, in whole or in part by "your work" and included in the "products-completed operations hazard", which is the subject of the written contract or written agreement.

However, solely with respect to this Paragraph **4.**, insurance afforded to such additional insured:

(1) Only applies to the extent permitted by law;

(2) Will not be broader than that which you are required by the written contract or written agreement to provide for such additional insured;

(3) Only applies if the "bodily injury" or "property damage" occurs during the policy period and subsequent to your execution of the written contract or written agreement; and

(4) Does not apply to "bodily injury" or "property damage" caused by "your work" and included within the "products-completed operations hazard" unless the written contract or written agreement specifically requires that you provide such coverage to such additional insured.

Includes copyrighted material of Insurance Services Office, Inc., with its permission.

B. Solely with respect to the insurance afforded to any additional insured referenced in Section **A.** of this endorsement, the following additional exclusion applies:

This insurance does not apply to "bodily injury", "property damage" or "personal and advertising injury" arising out of the rendering of, or failure to render, any professional architectural, engineering or surveying services including:

1. The preparing, approving or failing to prepare or approve maps, shop drawings, opinions, reports, surveys, field orders, change orders or drawings and specifications; or

2. Supervisory, inspection, architectural or engineering activities.

This exclusion applies even if the claims against any insured allege negligence or other wrongdoing in the supervision, hiring, employment, training or monitoring of others by that insured, if the "occurrence" which caused the "bodily injury" or "property damage", or the offense which caused the "personal and advertising injury", involved the rendering of or the failure to render any professional architectural, engineering or surveying services.

C. Solely with respect to the coverage provided by this endorsement, the following is added to Paragraph **2. Duties In The Event Of Occurrence, Offense, Claim Or Suit** of Section **IV – Commercial General Liability Conditions**:

The additional insured must see to it that:

(1) We are notified as soon as practicable of an "occurrence" or offense that may result in a claim;

(2) We receive written notice of a claim or "suit" as soon as practicable; and

(3) A request for defense and indemnity of the claim or "suit" will promptly be brought against any policy issued by another insurer under which the additional insured may be an insured in any capacity. This provision does not apply to insurance on which the additional insured is a Named Insured if the written contract or written agreement requires that this coverage be primary and non-contributory.

D. Solely with respect to the coverage provided by this endorsement:

1. The following is added to the **Other Insurance** Condition of Section **IV – Commercial General Liability Conditions**:

Primary and Noncontributory insurance

This insurance is primary to and will not seek contribution from any other insurance available to an additional insured provided that:

a. The additional insured is a Named Insured under such other insurance; and

b. You are required by written contract or written agreement that this insurance be primary and not seek contribution from any other insurance available to the additional insured.

2. The following paragraph is added to Paragraph **4.b.** of the **Other Insurance** Condition under Section **IV – Commercial General Liability Conditions**:

This insurance is excess over:

Any of the other insurance, whether primary, excess, contingent or on any other basis, available to an additional insured, in which the additional insured on our policy is also covered as an additional insured on another policy providing coverage for the same "occurrence", offense, claim or "suit". This provision does not apply to any policy in which the additional insured is a Named Insured on such other policy and where our policy is required by a written contract or written agreement to provide coverage to the additional insured on a primary and non-contributory basis.

E. This endorsement does not apply to an additional insured which has been added to this Coverage Part by an endorsement showing the additional insured in a Schedule of additional insureds, and which endorsement applies specifically to that identified additional insured.

F. Solely with respect to the insurance afforded to an additional insured under Paragraph **A.3.** or Paragraph **A.4.** of this endorsement, the following is added to Section **III – Limits Of Insurance**:

Additional Insured – Automatic – Owners, Lessees Or Contractors Limit

The most we will pay on behalf of the additional insured is the amount of insurance:

Includes copyrighted material of Insurance Services Office, Inc., with its permission.

1. Required by the written contract or written agreement referenced in Section **A.** of this endorsement; or

2. Available under the applicable Limits of Insurance shown in the Declarations,

whichever is less.

This endorsement shall not increase the applicable Limits of Insurance shown in the Declarations.

All other terms, conditions, provisions and exclusions of this policy remain the same.

Includes copyrighted material of Insurance Services Office, Inc., with its permission.

THIS ENDORSEMENT CHANGES THE POLICY. PLEASE READ IT CAREFULLY.

This endorsement modifies insurance provided under the:

Commercial General Liability Coverage Part

The following is added to the **Transfer Of Rights Of Recovery Against Others To Us Condition**:

If you are required by a written contract or agreement, which is executed before a loss, to waive your rights of recovery from others, we agree to waive our rights of recovery. This waiver of rights shall not be construed to be a waiver with respect to any other operations in which the insured has no contractual interest.

Blanket Notification to Others of Cancellation or Non-Renewal

THIS ENDORSEMENT CHANGES THE POLICY. PLEASE READ IT CAREFULLY.	
Policy No. GLO 4197281-03	Effective Date: 08/30/2024

This endorsement applies to insurance provided under the:

Commercial General Liability Coverage Part

A. If we cancel or non-renew this Coverage Part by written notice to the first Named Insured, we will mail or deliver notification that such Coverage Part has been cancelled or non-renewed to each person or organization shown in a list provided to us by the first Named Insured if you are required by written contact or written agreement to provide such notification. Such list:

1. Must be provided to us prior to cancellation or non-renewal;

2. Must contain the names and addresses of only the persons or organizations requiring notification that such Coverage Part has been cancelled or non-renewed; and

3. Must be in an electronic format that is acceptable to us.

B. Our notification as described in Paragraph **A.** of this endorsement will be based on the most recent list in our records as of the date the notice of cancellation or non-renewal is mailed or delivered to the first Named Insured. We will mail or deliver such notification to each person or organization shown in the list:

1. Within 10 days of the effective date of the notice of cancellation, if we cancel for non-payment of premium; or

2. At least 30 days prior to the effective date of:

a. Cancellation, if cancelled for any reason other than nonpayment of premium; or

b. Non-renewal, but not including conditional notice of renewal,

unless a greater number of days is shown in the Schedule of this endorsement for the mailing or delivering of such notification with respect to Paragraph **B.1.** or Paragraph **B.2.** above.

C. Our mailing or delivery of notification described in Paragraphs **A.** and **B.** of this endorsement is intended as a courtesy only. Our failure to provide such mailing or delivery will not:

1. Extend the Coverage Part cancellation or non-renewal date;

2. Negate the cancellation or non-renewal; or

3. Provide any additional insurance that would not have been provided in the absence of this endorsement.

Includes copyrighted material of Insurance Services Office, Inc., with its permission.

D. We are not responsible for the accuracy, integrity, timeliness and validity of information contained in the list provided to us as described in Paragraphs **A.** and **B.** of this endorsement.

SCHEDULE	
The total number of days for mailing or delivering with respect to Paragraph **B.1.** of this endorsement is amended to indicate the following number of days:	*
The total number of days for mailing or delivering with respect to Paragraph **B.2.** of this endorsement is amended to indicate the following number of days:	**
* If a number is not shown here, 10 days continues to apply. ** If a number is not shown here, 30 days continues to apply.	

All other terms and conditions of this policy remain unchanged.

DESIGNATED INSURED FOR COVERED AUTOS LIABILITY COVERAGE

This endorsement modifies insurance provided under the following:

AUTO DEALERS COVERAGE FORM
BUSINESS AUTO COVERAGE FORM
MOTOR CARRIER COVERAGE FORM

With respect to coverage provided by this endorsement, the provisions of the Coverage Form apply unless modified by this endorsement.

This endorsement identifies person(s) or organization(s) who are "insureds" for Covered Autos Liability Coverage under the Who Is An Insured provision of the Coverage Form. This endorsement does not alter coverage provided in the Coverage Form.
This endorsement changes the policy effective on the inception date of the policy unless another date is indicated below.

Named Insured: MICHAEL BAKER INTERNATIONAL

LLC **Endorsement Effective Date:** 08/30/2024

SCHEDULE

Name Of Person(s) Or Organization(s):

ANY PERSON OR ORGANIZATION TO WHOM OR WHICH YOU ARE REQUIRED TO PROVIDE ADDITIONAL INSURED STATUS OR ADDITIONAL INSURED STATUS ON A PRIMARY, NON-CONTRIBUTORY BASIS, IN A WRITTEN CONTRACT OR WRITTEN AGREEMENT EXECUTED PRIOR TO LOSS, EXCEPT WHERE SUCH CONTRACT OR AGREEMENT IS PROHIBITED BY LAW.

Information required to complete this Schedule, if not shown above, will be shown in the Declarations.

THIS ENDORSEMENT CHANGES THE POLICY. PLEASE READ IT CAREFULLY.

WAIVER OF TRANSFER OF RIGHTS OF RECOVERY AGAINST OTHERS TO US (WAIVER OF SUBROGATION)

This endorsement modifies insurance provided under the following:

AUTO DEALERS COVERAGE FORM
BUSINESS AUTO COVERAGE FORM
MOTOR CARRIER COVERAGE FORM

With respect to coverage provided by this endorsement, the provisions of the Coverage Form apply unless modified by the endorsement.

This endorsement changes the policy effective on the inception date of the policy unless another date is indicated below.

Named Insured: MICHAEL BAKER INTERNATIONAL

LLC **Endorsement Effective Date:** 08/30/2024

SCHEDULE

Name(s) Of Person(s) Or Organization(s):
ALL PERSONS AND/OR ORGANIZATIONS THAT ARE REQUIRED BY WRITTEN CONTRACT OR AGREEMENT WITH THE INSURED, EXECUTED PRIOR TO THE ACCIDENT OR LOSS, THAT WAIVER OF SUBROGATION BE PROVIDED UNDER THIS POLICY.

Information required to complete this Schedule, if not shown above, will be shown in the Declarations.

The **Transfer Of Rights Of Recovery Against Others To Us** condition does not apply to the person(s) or organization(s) shown in the Schedule, but only to the extent that subrogation is waived prior to the “accident” or the “loss” under a contract with that person or organization.

This endorsement modifies insurance provided under the:

Commercial Automobile Coverage Part

A. If we cancel or non-renew this Coverage Part by written notice to the first Named Insured, we will mail or deliver notification that such Coverage Part has been cancelled or non-renewed to each person or organization shown in a list provided to us by the first Named Insured if you are required by written contact or written agreement to provide such notification. However, such notification will not be mailed or delivered if a conditional notice of renewal has been sent to the first Named Insured. Such list:

1. Must be provided to us prior to cancellation or non-renewal;

2. Must contain the names and addresses of only the persons or organizations requiring notification that such Coverage Part has been cancelled or non-renewed; and

3. Must be in an electronic format that is acceptable to us.

B. Our notification as described in Paragraph **A.** of this endorsement will be based on the most recent list in our records as of the date the notice of cancellation or non-renewal is mailed or delivered to the first Named Insured. We will mail or deliver such notification to each person or organization shown in the list:

1. Within seven days of the effective date of the notice of cancellation, if we cancel for non-payment of premium; or

2. At least 30 days prior to the effective date of:

a. Cancellation, if cancelled for any reason other than nonpayment of premium; or

b. Non-renewal, but not including conditional notice of renewal.

C. Our mailing or delivery of notification described in Paragraphs **A.** and **B.** of this endorsement is intended as a courtesy only. Our failure to provide such mailing or delivery will not:

1. Extend the Coverage Part cancellation or non-renewal date;

2. Negate the cancellation or non-renewal; or

3. Provide any additional insurance that would not have been provided in the absence of this endorsement.

D. We are not responsible for the accuracy, integrity, timeliness and validity of information contained in the list provided to us as described in Paragraphs **A.** and **B.** of this endorsement.

All other terms and conditions of this policy remain unchanged.

CANCELLATION AND NONRENEWAL NOTICE ENDORSEMENT

A. Part Six – Conditions, Paragraph D.2. is replaced by the following:

D. Cancellation

2. We may cancel this policy. We must mail or deliver to you not less than 90 days advance written notice stating when the cancellation is to take effect except for cancellation for non-payment of premium. If we cancel this policy for non-payment of premium we must mail or deliver to you not less than ten days advance written notice. Mailing that notice to you at your mailing address shown in Item 1 of the Information Page will be sufficient to prove notice.

B. Part Six – Conditions, Paragraph F. is added.

F. Nonrenewal Notice

We will mail or deliver to you not less than 90 days advance written notice of our intention to nonrenew this policy. Mailing that notice to you at your mailing address shown in Item 1 of the Information Page will be sufficient to prove notice.

All other terms, conditions, provisions and exclusions of this policy remain the same.

ENDORSEMENT NO. 16

ADVICE OF CANCELLATION TO ENTITIES OTHER THAN THE NAMED INSURED LIMITED TO E-MAIL NOTIFICATION

This Endorsement, effective at 12:01 a.m. on August 30, 2024, forms part of

Policy No.	0312-4806
Issued to	Michael Baker International, LLC
Issued by	Allied World Surplus Lines Insurance Company

In consideration of the premium charged, it is hereby agreed that:

In the event that the **Company** cancels this Policy for any reason other than nonpayment of premium, and

1. The cancellation effective date is prior to this Policy's expiration date;

2. The **First Named Insured** is under an existing contractual obligation to notify a certificate holder when this Policy is canceled (hereinafter, the "Certificate Holder(s)"); and has provided to the **Company**, either directly or through its broker of record, the email address of the contact at such entity; and

3. The **Company** receives this information after the **First Named Insured** receives notice of cancellation of this Policy and prior to this Policy's cancellation effective date, via an electronic spreadsheet that is acceptable to the **Company**;

the **Company** will provide advice of cancellation (the "Advice") at least thirty (30) days before the effective date of cancellation via e-mail to such Certificate Holders.

Proof of the **Company** emailing the Advice, using the information provided by the **First Named Insured**, will serve as proof that the **Company** has fully satisfied its obligations under this Endorsement.

This Endorsement does not affect, in any way, coverage provided under this Policy or the cancellation of this Policy or the effective date thereof, nor shall this Endorsement invest any rights in any entity not insured under this Policy.

Any failure on the **Insurer's** part to deliver the Advice will not impose liability of any kind upon the **Insurer** or invalidate the cancellation.

Any Certificate Holder is not an **Insured** or a Loss Payee under this Policy. No coverage will be available under this Policy for any **Claim** brought by or against any Certificate Holder.

All other terms, conditions and limitations of this Policy shall remain unchanged.

Agenda Item G.3. 8/19/2025

SUBJECT

Approve the Florida Department of Environmental Protection Grant Agreement (WRP15) in partnership with Polk County for the Restoration and Creation of Wetlands along Lake Hamilton and Peace Creek Canal (One-time revenue of $850,000; required County match $850,000).

DESCRIPTION

Lake Hamilton is a key waterbody within the Peace River Watershed as water flows from Lake Hamilton into the North branch of the Peace Creek Canal into the Peace River.

Annually, the Florida Department of Environmental Protection (FDEP) Total Maximum Daily Load (TMDL) section evaluates waterbodies that are not meeting water quality standards. In 2020, FDEP identified Lake Hamilton and Middle Hamilton as impaired water bodies. Water quality was decreasing to the extent that it warrants the State to develop a TMDL. Lake Hamilton is considered an impaired waterbody for Chlorophyll-a, Total Nitrogen, and Total Phosphorus. In lieu of the Lake Hamilton Chain of Lakes being assigned a TMDL, an Alternative Restoration Plan (4E Plan) allows for corrective action for excessive nutrient loading into a waterbody. In 2021, the Lake Hamilton Chain of Lakes Pollutant Reduction feasibility study was approved by FDEP. A part of that plan is to implement restoration projects to decrease excess nutrients in the waterbodies.

The County has worked with FDEP in the past to conserve and manage lands that have valuable water quality conservation and recreational components. To continue this successful partnership the County applied for a grant through FDEP and was awarded $850,000. The grant is to restore wetland habitat and improve water quality within the Peace Creek hydrologic basin by expanding on-site wetlands and constructing treatment wetlands to act as water quality improvement sites along the northwest side of Lake Hamilton.

The project will divert excess surface water from the Peace Creek Canal to a Polk County-owned parcel, restoring the hydrology of previously disturbed areas. Re-grading and re-vegetating the land will restore historic wetlands and expand the wetlands footprint with created wetlands to achieve maximum benefits for water quality treatment of stormwater from the surrounding areas.

The funding for this project will cover Phase 1 construction engineering and construction costs for the Lake Hamilton Water Quality Improvement Project. The project’s main purpose is the restoration of historic wetlands and creation of new wetlands to improve water quality.

Once the County completes the proposed water quality improvement and treatment projects, appropriate passive outdoor recreation opportunities may be provided to the public.

The Stormwater Technical Advisory Committee (STAC) approved this project.

RECOMMENDATION

Approve the Florida Department of Environmental Protection Grant (WRP15) in partnership with Polk County for the Restoration and Creation of Wetlands along Lake Hamilton and the Peace Creek Canal.

FISCAL IMPACT

The terms of this agreement require both FDEP and the County to provide a match of $850,000 for a total of $1,700,000. Funds are budgeted in the Parks and Natural Resources 5-year CIP within the Special Revenue Grants Funds; matching funds are being provided from the Stormwater MSTU fund.

STATE OF FLORIDA
DEPARTMENT OF ENVIRONMENTAL PROTECTION
STANDARD TERMS AND CONDITIONS
APPLICABLE TO GRANT AGREEMENTS

ATTACHMENT 1

1. Entire Agreement.

This Grant Agreement, including any Attachments and Exhibits referred to herein and/or attached hereto (Agreement), constitutes the entire agreement between the parties with respect to the subject matter hereof and supersedes all prior agreements, whether written or oral, with respect to such subject matter. Any terms and conditions included on Grantee's forms or invoices shall be null and void.

2. Grant Administration.

a. Order of Precedence. If there are conflicting provisions among the documents that make up the Agreement, the order of precedence for interpretation of the Agreement is as follows:
   i. Standard Grant Agreement
   ii. Attachments other than Attachment 1, in numerical order as designated in the Standard Grant Agreement
   iii. Attachment 1, Standard Terms and Conditions
   iv. The Exhibits in the order designated in the Standard Grant Agreement

b. All approvals, written or verbal, and other written communication among the parties, including all notices, shall be obtained by or sent to the parties' Grant Managers. All written communication shall be by electronic mail, U.S. Mail, a courier delivery service, or delivered in person. Notices shall be considered delivered when reflected by an electronic mail read receipt, a courier service delivery receipt, other mail service delivery receipt, or when receipt is acknowledged by recipient. If the notice is delivered in multiple ways, the notice will be considered delivered at the earliest delivery time.

c. If a different Grant Manager is designated by either party after execution of this Agreement, notice of the name and contact information of the new Grant Manager will be submitted in writing to the other party and maintained in the respective parties' records. A change of Grant Manager does not require a formal amendment or change order to the Agreement.

d. This Agreement may be amended, through a formal amendment or a change order, only by a written agreement between both parties. A formal amendment to this Agreement is required for changes which cause any of the following:
   (1) an increase or decrease in the Agreement funding amount;
   (2) a change in Grantee's match requirements;
   (3) a change in the expiration date of the Agreement;
   (4) changes to the cumulative amount of funding transfers between approved budget categories, as defined in Attachment 3, Grant Work Plan, that exceeds or is expected to exceed twenty percent (20%) of the total budget as last approved by Department; and/or
   (5) any changes to the terms and conditions of the Agreement other than the specific instances enumerated below when a change order may be used.
   A change order to this Agreement may be used when:
   (1) task timelines within the current authorized Agreement period change;
   (2) the cumulative transfer of funds between approved budget categories, as defined in Attachment 3, Grant Work Plan, are less than twenty percent (20%) of the total budget as last approved by Department;
   (3) changing the current funding source as stated in the Standard Grant Agreement; and/or
   (4) fund transfers between budget categories for the purposes of meeting match requirements.
   This Agreement may be amended to provide for additional services if additional funding is made available by the Legislature.

e. All days in this Agreement are calendar days unless otherwise specified.

3. Agreement Duration.

The term of the Agreement shall begin and end on the dates indicated in the Standard Grant Agreement, unless extended or terminated earlier in accordance with the applicable terms and conditions. The Grantee shall be eligible for reimbursement for work performed on or after the date of execution through the expiration date of this Agreement, unless otherwise specified in Attachment 2, Special Terms and Conditions. However, work performed prior to the

execution of this Agreement may be reimbursable or used for match purposes if permitted by the Special Terms and Conditions.

4. Deliverables.

The Grantee agrees to render the services or other units of deliverables as set forth in Attachment 3, Grant Work Plan. The services or other units of deliverables shall be delivered in accordance with the schedule and at the pricing outlined in the Grant Work Plan. Deliverables may be comprised of activities that must be completed prior to Department making payment on that deliverable. The Grantee agrees to perform in accordance with the terms and conditions set forth in this Agreement and all attachments and exhibits incorporated by the Standard Grant Agreement.

5. Performance Measures.

The Grantee warrants that: (1) the services will be performed by qualified personnel; (2) the services will be of the kind and quality described in the Grant Work Plan; (3) the services will be performed in a professional and workmanlike manner in accordance with industry standards and practices; (4) the services shall not and do not knowingly infringe upon the intellectual property rights, or any other proprietary rights, of any third party; and (5) its employees, subcontractors, and/or subrecipients shall comply with any security and safety requirements and processes, if provided by Department, for work done at the Project Location(s). The Department reserves the right to investigate or inspect at any time to determine whether the services or qualifications offered by Grantee meet the Agreement requirements. Notwithstanding any provisions herein to the contrary, written acceptance of a particular deliverable does not foreclose Department's remedies in the event deficiencies in the deliverable cannot be readily measured at the time of delivery.

6. Acceptance of Deliverables.

a. Acceptance Process. All deliverables must be received and accepted in writing by Department's Grant Manager before payment. The Grantee shall work diligently to correct all deficiencies in the deliverable that remain outstanding, within a reasonable time at Grantee's expense. If Department's Grant Manager does not accept the deliverables within 30 days of receipt, they will be deemed rejected.

b. Rejection of Deliverables. The Department reserves the right to reject deliverables, as outlined in the Grant Work Plan, as incomplete, inadequate, or unacceptable due, in whole or in part, to Grantee's lack of satisfactory performance under the terms of this Agreement. The Grantee's efforts to correct the rejected deliverables will be at Grantee's sole expense. Failure to fulfill the applicable technical requirements or complete all tasks or activities in accordance with the Grant Work Plan will result in rejection of the deliverable and the associated invoice. Payment for the rejected deliverable will not be issued unless the rejected deliverable is made acceptable to Department in accordance with the Agreement requirements. The Department, at its option, may allow additional time within which Grantee may remedy the objections noted by Department. The Grantee's failure to make adequate or acceptable deliverables after a reasonable opportunity to do so shall constitute an event of default.

7. Financial Consequences for Nonperformance.

a. Withholding Payment. In addition to the specific consequences explained in the Grant Work Plan and/or Special Terms and Conditions, the State of Florida (State) reserves the right to withhold payment when the Grantee has failed to perform/comply with provisions of this Agreement. None of the financial consequences for nonperformance in this Agreement as more fully described in the Grant Work Plan shall be considered penalties.

b. Invoice reduction
If Grantee does not meet a deadline for any deliverable, the Department will reduce the invoice by 1% for each day the deadline is missed, unless an extension is approved in writing by the Department.

c. Corrective Action Plan. If Grantee fails to correct all the deficiencies in a rejected deliverable within the specified timeframe, Department may, in its sole discretion, request that a proposed Corrective Action Plan (CAP) be submitted by Grantee to Department. The Department requests that Grantee specify the outstanding deficiencies in the CAP. All CAPs must be able to be implemented and performed in no more than sixty (60) calendar days.
    i. The Grantee shall submit a CAP within ten (10) days of the date of the written request from Department. The CAP shall be sent to the Department's Grant Manager for review and approval. Within ten (10) days of receipt of a CAP, Department shall notify Grantee in writing whether the CAP proposed has been accepted. If the CAP is not accepted, Grantee shall have ten (10) days from receipt of Department letter rejecting the proposal to submit a revised proposed CAP. Failure to obtain Department approval of a CAP as specified above may result in Department's termination of this Agreement for cause as authorized in this Agreement.

ii. Upon Department's notice of acceptance of a proposed CAP, Grantee shall have ten (10) days to commence implementation of the accepted plan. Acceptance of the proposed CAP by Department does not relieve Grantee of any of its obligations under the Agreement. In the event the CAP fails to correct or eliminate performance deficiencies by Grantee, Department shall retain the right to require additional or further remedial steps, or to terminate this Agreement for failure to perform. No actions approved by Department or steps taken by Grantee shall preclude Department from subsequently asserting any deficiencies in performance. The Grantee shall continue to implement the CAP until all deficiencies are corrected. Reports on the progress of the CAP will be made to Department as requested by Department's Grant Manager.

iii. Failure to respond to a Department request for a CAP or failure to correct a deficiency in the performance of the Agreement as specified by Department may result in termination of the Agreement.

8. Payment.

a. Payment Process. Subject to the terms and conditions established by the Agreement, the pricing per deliverable established by the Grant Work Plan, and the billing procedures established by Department, Department agrees to pay Grantee for services rendered in accordance with section 215.422, Florida Statutes (F.S.).

b. Taxes. The Department is exempted from payment of State sales, use taxes and Federal excise taxes. The Grantee, however, shall not be exempted from paying any taxes that it is subject to, including State sales and use taxes, or for payment by Grantee to suppliers for taxes on materials used to fulfill its contractual obligations with Department. The Grantee shall not use Department's exemption number in securing such materials. The Grantee shall be responsible and liable for the payment of all its FICA/Social Security and other taxes resulting from this Agreement.

c. Maximum Amount of Agreement. The maximum amount of compensation under this Agreement, without an amendment, is described in the Standard Grant Agreement. Any additional funds necessary for the completion of this Project are the responsibility of Grantee.

d. Reimbursement for Costs. The Grantee shall be paid on a cost reimbursement basis for all eligible Project costs upon the completion, submittal, and approval of each deliverable identified in the Grant Work Plan. Reimbursement shall be requested on Exhibit C, Payment Request Summary Form. To be eligible for reimbursement, costs must be in compliance with laws, rules, and regulations applicable to expenditures of State funds, including, but not limited to, the Reference Guide for State Expenditures, which can be accessed at the following web address: https://www.myfloridacfo.com/docs-sf/accounting-and-auditing-libraries/state-agencies/reference-guide-for-state-expenditures.pdf.

e. Rural Communities and Rural Areas of Opportunity. If Grantee is a county or municipality that qualifies as a "rural community" or "rural area of opportunity" (RAO) as defined in subsection 288.0656(2), F.S., such Grantee may request from the Department that all invoice payments under this Agreement be directed to the relevant county or municipality or to the RAO itself. The Department will agree to Grantee's request if:

i. Grantee demonstrates that it is a county or municipality that qualifies as a "rural community" or "rural area of opportunity" under subsection 288.0656(2), F.S.;

ii. Grantee demonstrates current financial hardship using one (1) or more of the "economic distress" factors defined in subsection 288.0656(2)(c), F.S.;

iii. Grantee's performance has been verified by the Department, which has determined that Grantee is eligible for invoice payments and that Grantee's performance has been completed in accordance with this Agreement's terms and conditions; and

iv. Applicable federal and state law(s), rule(s) and regulation(s) allow for such payments.

This subsection may not be construed to alter or limit any other applicable provisions of federal or state law, rule, or regulation. A current list of Florida's designated RAOs can be accessed at the following web address: https://floridajobs.org/community-planning-and-development/rural-community-programs/rural-areas-of-opportunity.

f. Invoice Detail. All charges for services rendered or for reimbursement of expenses authorized by Department pursuant to the Grant Work Plan shall be submitted to Department in sufficient detail for a proper pre-audit and post-audit to be performed. The Grantee shall only invoice Department for deliverables that are completed in accordance with the Grant Work Plan.

g. State Funds Documentation. Pursuant to section 216.1366, F.S., if Grantee meets the definition of a non-profit organization under section 215.97(2)(m), F.S., Grantee must provide the Department with documentation that indicates the amount of state funds:

i. Allocated to be used during the full term of the contract or agreement for remuneration to any member of the board of directors or an officer.
ii. Allocated under each payment by the public agency to be used for remuneration of any member of the board of directors or an officer.

The documentation must indicate the amounts and recipients of the remuneration. Such information must be posted on the State's the contract tracking system and maintained pursuant to section 215.985, F.S., and must be posted on the Grantee's website, if Grantee maintains a website.

h. Interim Payments. Interim payments may be made by Department, at its discretion, if the completion of deliverables to date have first been accepted in writing by Department's Grant Manager.

i. Final Payment Request. A final payment request should be submitted to Department no later than sixty (60) days following the expiration date of the Agreement to ensure the availability of funds for payment. However, all work performed pursuant to the Grant Work Plan must be performed on or before the expiration date of the Agreement.

j. Annual Appropriation Contingency. The State's performance and obligation to pay under this Agreement is contingent upon an annual appropriation by the Legislature. This Agreement is not a commitment of future appropriations. Authorization for continuation and completion of work and any associated payments may be rescinded, with proper notice, at the discretion of Department if the Legislature reduces or eliminates appropriations.

k. Interest Rates. All interest rates charged under the Agreement shall be calculated on the prevailing rate used by the State Board of Administration. To obtain the applicable interest rate, please refer to: https://www.myfloridacfo.com/division/aa/local-governments/judgement-interest-rates.

l. Refund of Payments to the Department. Any balance of unobligated funds that have been advanced or paid must be refunded to Department. Any funds paid in excess of the amount to which Grantee or subgrantee is entitled under the terms of the Agreement must be refunded to Department. If this Agreement is funded with federal funds and the Department is required to refund the federal government, the Grantee shall refund the Department its share of those funds.

9. Documentation Required for Cost Reimbursement Grant Agreements and Match.

If Cost Reimbursement or Match is authorized in Attachment 2, Special Terms and Conditions, the following conditions apply. Supporting documentation must be provided to substantiate cost reimbursement or match requirements for the following budget categories:

a. Salary/Wages. Grantee shall list personnel involved, position classification, direct salary rates, and hours spent on the Project in accordance with Attachment 3, Grant Work Plan in their documentation for reimbursement or match requirements.

b. Overhead/Indirect/General and Administrative Costs. If Grantee is being reimbursed for or claiming match for multipliers, all multipliers used (i.e., fringe benefits, overhead, indirect, and/or general and administrative rates) shall be supported by audit. If Department determines that multipliers charged by Grantee exceeded the rates supported by audit, Grantee shall be required to reimburse such funds to Department within thirty (30) days of written notification. Interest shall be charged on the excessive rate.

c. Contractual/Subaward Costs (Subcontractors/Subrecipients). Match or reimbursement requests for payments to subcontractors/subrecipients must be substantiated by copies of invoices with backup documentation identical to that required from Grantee. Subcontracts/subawards which involve payments for direct salaries shall clearly identify the personnel involved, salary rate per hour, and hours spent on the Project. All eligible multipliers used (i.e., fringe benefits, overhead, indirect, and/or general and administrative rates) shall be supported by audit. If Department determines that multipliers charged by any subcontractor/subrecipient exceeded the rates supported by audit, Grantee shall be required to reimburse such funds to Department within thirty (30) days of written notification. Interest shall be charged on the excessive rate. Nonconsumable and/or nonexpendable personal property or equipment costing $5,000 or more purchased for the Project under a subcontract/subaward is subject to the requirements set forth in chapters 273 and/or 274, F.S., and Chapter 69I-72, Florida Administrative Code (F.A.C.) and/or Chapter 69I-73, F.A.C., as applicable. For grants funded with federal funds, nonconsumable and/or nonexpendable personal property or equipment costing $10,000 or more purchased for the Project under a subcontract/subaward is subject to the requirements set forth in 2 CFR 200. The Grantee shall be responsible for maintaining appropriate property records for any subcontracts/subawards that include the purchase of equipment as part of the delivery of services. The Grantee shall comply with this requirement and ensure its subcontracts/subaward issued under this Agreement, if any, impose this requirement, in writing, on its subcontractors/subrecipients.

i. For fixed-price (vendor) subcontracts/subawards, the following provisions shall apply: The Grantee may award, on a competitive basis, fixed-price subcontracts/subawards to consultants/contractors in performing the work described in Attachment 3, Grant Work Plan. Invoices submitted to Department for fixed-price subcontracted/subawarded activities shall be supported with a copy of the subcontractor/subrecipient's invoice and a copy of the tabulation form for the competitive procurement process (e.g., Invitation to Bid, Request for Proposals, or other similar competitive procurement document) resulting in the fixed-price subcontract/subaward. The Grantee may request approval from Department to award a fixed-price subcontract/subaward resulting from procurement methods other than those identified above. In this instance, Grantee shall request the advance written approval from Department's Grant Manager of the fixed price negotiated by Grantee. The letter of request shall be supported by a detailed budget and Scope of Services to be performed by the subcontractor/subrecipient. Upon receipt of Department Grant Manager's approval of the fixed-price amount, Grantee may proceed in finalizing the fixed-price subcontract/subaward.

ii. If the procurement is subject to the Consultant's Competitive Negotiation Act under section 287.055, F.S., or the Brooks Act, Grantee must provide documentation clearly evidencing it has complied with the statutory or federal requirements.

d. Travel. All requests for match or reimbursement of travel expenses shall be in accordance with section 112.061, F.S.

e. Direct Purchase Equipment. For grants funded fully or in part with state funds, equipment is defined as capital outlay costing $5,000 or more. For grants funded fully with federal funds, equipment is defined as capital outlay costing $10,000 or more. Match or reimbursement for Grantee's direct purchase of equipment is subject to specific approval of Department and does not include any equipment purchased under the delivery of services to be completed by a subcontractor/subrecipient. Include copies of invoices or receipts to document purchases, and a properly completed Exhibit B, Property Reporting Form**.**

f. Rental/Lease of Equipment. Match or reimbursement requests for rental/lease of equipment must include copies of invoices or receipts to document charges.

g. Miscellaneous/Other Expenses. If miscellaneous or other expenses, such as materials, supplies, non-excluded phone expenses, reproduction, or mailing, are reimbursable or available for match or reimbursement under the terms of this Agreement, the documentation supporting these expenses must be itemized and include copies of receipts or invoices. Additionally, independent of Grantee's contract obligations to its subcontractor/subrecipient, Department shall not reimburse any of the following types of charges: cell phone usage; attorney's fees or court costs; civil or administrative penalties; or handling fees, such as set percent overages associated with purchasing supplies or equipment.

h. Land Acquisition. Reimbursement for the costs associated with acquiring interest and/or rights to real property (including access rights through ingress/egress easements, leases, license agreements, or other site access agreements; and/or obtaining record title ownership of real property through purchase) must be supported by the following, as applicable: Copies of Property Appraisals, Environmental Site Assessments, Surveys and Legal Descriptions, Boundary Maps, Acreage Certification, Title Search Reports, Title Insurance, Closing Statements/Documents, Deeds, Leases, Easements, License Agreements, or other legal instrument documenting acquired property interest and/or rights. If land acquisition costs are used to meet match requirements, Grantee agrees that those funds shall not be used as match for any other Agreement supported by State or Federal funds.

10. Status Reports.

The Grantee shall submit status reports quarterly, unless otherwise specified in the Attachments, on Exhibit A, Progress Report Form**,** to Department's Grant Manager describing the work performed during the reporting period, problems encountered, problem resolutions, scheduled updates, and proposed work for the next reporting period. Quarterly status reports are due no later than twenty (20) days following the completion of the quarterly reporting period. For the purposes of this reporting requirement, the quarterly reporting periods end on March 31, June 30, September 30 and December 31. The Department will review the required reports submitted by Grantee within thirty (30) days.

11. Retainage.

The following provisions apply if Department withholds retainage under this Agreement:

a. The Department reserves the right to establish the amount and application of retainage on the work performed under this Agreement up to the maximum percentage described in Attachment 2, Special Terms and Conditions. Retainage may be withheld from each payment to Grantee pending satisfactory completion of work and approval of all deliverables.

b. If Grantee fails to perform the requested work or fails to perform the work in a satisfactory manner, Grantee shall forfeit its right to payment of the retainage associated with the work. Failure to perform includes, but is not limited to, failure to submit the required deliverables or failure to provide adequate documentation that the work was actually performed. The Department shall provide written notification to Grantee of the failure to perform that shall result in retainage forfeiture. If the Grantee does not correct the failure to perform within the timeframe stated in Department's notice, the retainage will be forfeited to Department.
c. No retainage shall be released or paid for incomplete work while this Agreement is suspended.
d. Except as otherwise provided above, Grantee shall be paid the retainage associated with the work, provided Grantee has completed the work and submits an invoice for retainage held in accordance with the invoicing procedures under this Agreement.

12. Insurance.

a. Insurance Requirements for Subrecipients and/or Subcontractors. The Grantee shall require its subrecipients and/or subcontractors, if any, to maintain insurance coverage of such types and with such terms and limits as described in this Agreement. The Grantee shall require all its subrecipients and/or subcontractors, if any, to make compliance with the insurance requirements of this Agreement a condition of all contracts that are related to this Agreement. Subrecipients and/or subcontractors must provide proof of insurance upon request.
b. Deductibles. The Department shall be exempt from, and in no way liable for, any sums of money representing a deductible in any insurance policy. The payment of such deductible shall be the sole responsibility of the Grantee providing such insurance.
c. Proof of Insurance. Upon execution of this Agreement, Grantee shall provide Department documentation demonstrating the existence and amount for each type of applicable insurance coverage ***prior to*** performance of any work under this Agreement. Upon receipt of written request from Department, Grantee shall furnish Department with proof of applicable insurance coverage by standard form certificates of insurance, a self-insured authorization, or other certification of self-insurance.
d. Duty to Maintain Coverage. In the event that any applicable coverage is cancelled by the insurer for any reason, or if Grantee cannot get adequate coverage, Grantee shall immediately notify Department of such cancellation and shall obtain adequate replacement coverage conforming to the requirements herein and provide proof of such replacement coverage within ten (10) days after the cancellation of coverage.
e. Insurance Trust. If the Grantee's insurance is provided through an insurance trust, the Grantee shall instead add the Department of Environmental Protection, its employees, and officers as an additional covered party everywhere the Agreement requires them to be added as an additional insured.

13. Termination.

a. Termination for Convenience. When it is in the State's best interest, Department may, at its sole discretion, terminate the Agreement in whole or in part by giving 30 days' written notice to Grantee. The Department shall notify Grantee of the termination for convenience with instructions as to the effective date of termination or the specific stage of work at which the Agreement is to be terminated. The Grantee must submit all invoices for work to be paid under this Agreement within thirty (30) days of the effective date of termination. The Department shall not pay any invoices received after thirty (30) days of the effective date of termination.
b. Termination for Cause. The Department may terminate this Agreement if any of the events of default described in the Events of Default provisions below occur or in the event that Grantee fails to fulfill any of its other obligations under this Agreement. If, after termination, it is determined that Grantee was not in default, or that the default was excusable, the rights and obligations of the parties shall be the same as if the termination had been issued for the convenience of Department. The rights and remedies of Department in this clause are in addition to any other rights and remedies provided by law or under this Agreement.
c. Grantee Obligations upon Notice of Termination. After receipt of a notice of termination or partial termination unless as otherwise directed by Department, Grantee shall not furnish any service or deliverable on the date, and to the extent specified, in the notice. However, Grantee shall continue work on any portion of the Agreement not terminated. If the Agreement is terminated before performance is completed, Grantee shall be paid only for that work satisfactorily performed for which costs can be substantiated. The Grantee shall not be entitled to recover any cancellation charges or lost profits.
d. Continuation of Prepaid Services. If Department has paid for any services prior to the expiration, cancellation, or termination of the Agreement, Grantee shall continue to provide Department with those services for which it has already been paid or, at Department's discretion, Grantee shall provide a refund for services that have been paid for but not rendered.

e. Transition of Services Upon Termination, Expiration, or Cancellation of the Agreement. If services provided under the Agreement are being transitioned to another provider(s), Grantee shall assist in the smooth transition of Agreement services to the subsequent provider(s). This requirement is at a minimum an affirmative obligation to cooperate with the new provider(s), however additional requirements may be outlined in the Grant Work Plan. The Grantee shall not perform any services after Agreement expiration or termination, except as necessary to complete the transition or continued portion of the Agreement, if any.

14. Notice of Default.

If Grantee defaults in the performance of any covenant or obligation contained in the Agreement, including, any of the events of default, Department shall provide notice to Grantee and an opportunity to cure that is reasonable under the circumstances. This notice shall state the nature of the failure to perform and provide a time certain for correcting the failure. The notice will also provide that, should the Grantee fail to perform within the time provided, Grantee will be found in default, and Department may terminate the Agreement effective as of the date of receipt of the default notice.

15. Events of Default.

Provided such failure is not the fault of Department or outside the reasonable control of Grantee, the following non-exclusive list of events, acts, or omissions, shall constitute events of default:

a. The commitment of any material breach of this Agreement by Grantee, including failure to timely deliver a material deliverable, failure to perform the minimal level of services required for a deliverable, discontinuance of the performance of the work, failure to resume work that has been discontinued within a reasonable time after notice to do so, or abandonment of the Agreement;
b. The commitment of any material misrepresentation or omission in any materials, or discovery by the Department of such, made by the Grantee in this Agreement or in its application for funding;
c. Failure to submit any of the reports required by this Agreement or having submitted any report with incorrect, incomplete, or insufficient information;
d. Failure to honor any term of the Agreement;
e. Failure to abide by any statutory, regulatory, or licensing requirement, including an entry of an order revoking the certificate of authority granted to the Grantee by a state or other licensing authority;
f. Failure to pay any and all entities, individuals, and furnishing labor or materials, or failure to make payment to any other entities as required by this Agreement;
g. Employment of an unauthorized alien in the performance of the work, in violation of Section 274 (A) of the Immigration and Nationality Act;
h. Failure to maintain the insurance required by this Agreement;
i. One or more of the following circumstances, uncorrected for more than thirty (30) days unless, within the specified 30-day period, Grantee (including its receiver or trustee in bankruptcy) provides to Department adequate assurances, reasonably acceptable to Department, of its continuing ability and willingness to fulfill its obligations under the Agreement:
    i. Entry of an order for relief under Title 11 of the United States Code;
    ii. The making by Grantee of a general assignment for the benefit of creditors;
    iii. The appointment of a general receiver or trustee in bankruptcy of Grantee's business or property; and/or
    iv. An action by Grantee under any state insolvency or similar law for the purpose of its bankruptcy, reorganization, or liquidation.

16. Suspension of Work.

The Department may, in its sole discretion, suspend any or all activities under the Agreement, at any time, when it is in the best interest of the State to do so. The Department shall provide Grantee written notice outlining the particulars of suspension. Examples of reasons for suspension include, but are not limited to, budgetary constraints, declaration of emergency, or other such circumstances. After receiving a suspension notice, Grantee shall comply with the notice. Within 90 days, or any longer period agreed to by the parties, Department shall either: (1) issue a notice authorizing resumption of work, at which time activity shall resume; or (2) terminate the Agreement. If the Agreement is terminated after 30 days of suspension, the notice of suspension shall be deemed to satisfy the thirty (30) days' notice required for a notice of termination for convenience. Suspension of work shall not entitle Grantee to any additional compensation.

17. Force Majeure.

The Grantee shall not be responsible for delay resulting from its failure to perform if neither the fault nor the negligence of Grantee or its employees or agents contributed to the delay and the delay is due directly to acts of God, wars, acts

of public enemies, strikes, fires, floods, or other similar cause wholly beyond Grantee's control, or for any of the foregoing that affect subcontractors/subrecipients or suppliers if no alternate source of supply is available to Grantee. In case of any delay Grantee believes is excusable, Grantee shall notify Department in writing of the delay or potential delay and describe the cause of the delay either (1) within ten days after the cause that creates or will create the delay first arose, if Grantee could reasonably foresee that a delay could occur as a result; or (2) if delay is not reasonably foreseeable, within five days after the date Grantee first had reason to believe that a delay could result. **THE FOREGOING SHALL CONSTITUTE THE GRANTEE'S SOLE REMEDY OR EXCUSE WITH RESPECT TO DELAY**. Providing notice in strict accordance with this paragraph is a condition precedent to such remedy. No claim for damages, other than for an extension of time, shall be asserted against Department. The Grantee shall not be entitled to an increase in the Agreement price or payment of any kind from Department for direct, indirect, consequential, impact or other costs, expenses or damages, including but not limited to costs of acceleration or inefficiency, arising because of delay, disruption, interference, or hindrance from any cause whatsoever. If performance is suspended or delayed, in whole or in part, due to any of the causes described in this paragraph, after the causes have ceased to exist Grantee shall perform at no increased cost, unless Department determines, in its sole discretion, that the delay will significantly impair the value of the Agreement to Department, in which case Department may: (1) accept allocated performance or deliveries from Grantee, provided that Grantee grants preferential treatment to Department with respect to products subjected to allocation; (2) contract with other sources (without recourse to and by Grantee for the related costs and expenses) to replace all or part of the products or services that are the subject of the delay, which purchase may be deducted from the Agreement quantity; or (3) terminate Agreement in whole or in part.

18. Indemnification.

a. The Grantee shall be fully liable for the actions of its agents, employees, partners, and subcontractors/subrecipients and shall fully indemnify, defend, and hold harmless Department and its officers, agents, and employees, from suits, actions, damages, and costs of every name and description arising from or relating to:
    i. personal injury and damage to real or personal tangible property alleged to be caused in whole or in part by Grantee, its agents, employees, partners, and subcontractors/subrecipients; provided, however, that Grantee shall not indemnify for that portion of any loss or damages proximately caused by the negligent act or omission of Department;
    ii. the Grantee's breach of this Agreement or the negligent acts or omissions of Grantee.

b. The Grantee's obligations under the preceding paragraph with respect to any legal action are contingent upon Department giving Grantee: (1) written notice of any action or threatened action; (2) the opportunity to take over and settle or defend any such action at Grantee's sole expense; and (3) assistance in defending the action at Grantee's sole expense. The Grantee shall not be liable for any cost, expense, or compromise incurred or made by Department in any legal action without Grantee's prior written consent, which shall not be unreasonably withheld.

c. Notwithstanding sections a. and b. above, the following is the sole indemnification provision that applies to Grantees that are governmental entities: Each party hereto agrees that it shall be solely responsible for the negligent or wrongful acts of its employees and agents. However, nothing contained herein shall constitute a waiver by either party of its sovereign immunity or the provisions of section 768.28, F.S. Further, nothing herein shall be construed as consent by a state agency or subdivision of the State to be sued by third parties in any matter arising out of any contract or this Agreement.

d. No provision in this Agreement shall require Department to hold harmless or indemnify Grantee, insure or assume liability for Grantee's negligence, waive Department's sovereign immunity under the laws of Florida, or otherwise impose liability on Department for which it would not otherwise be responsible. Any provision, implication or suggestion to the contrary is null and void.

19. Limitation of Liability.

The Department's liability for any claim arising from this Agreement is limited to compensatory damages in an amount no greater than the sum of the unpaid balance of compensation due for goods or services rendered pursuant to and in compliance with the terms of the Agreement. Such liability is further limited to a cap of $100,000.

20. Remedies.

Nothing in this Agreement shall be construed to make Grantee liable for force majeure events. Nothing in this Agreement, including financial consequences for nonperformance, shall limit Department's right to pursue its remedies for other types of damages under the Agreement, at law or in equity. The Department may, in addition to

other remedies available to it, at law or in equity and upon notice to Grantee, retain such monies from amounts due Grantee as may be necessary to satisfy any claim for damages, penalties, costs and the like asserted by or against it.

21. Waiver.

The delay or failure by Department to exercise or enforce any of its rights under this Agreement shall not constitute or be deemed a waiver of Department's right thereafter to enforce those rights, nor shall any single or partial exercise of any such right preclude any other or further exercise thereof or the exercise of any other right.

22. Statutory Notices Relating to Unauthorized Employment and Subcontracts/Subawards.

a. The Department shall consider the employment by any Grantee of unauthorized aliens a violation of Section 274A(e) of the Immigration and Nationality Act. If Grantee/subcontractor/subrecipient knowingly employs unauthorized aliens, such violation shall be cause for unilateral cancellation of this Agreement. The Grantee shall be responsible for including this provision in all subcontracts/subawards with private organizations issued as a result of this Agreement.

b. Pursuant to sections 287.133, 287.134, and 287.137 F.S., the following restrictions apply to persons placed on the convicted vendor list, discriminatory vendor list, or the antitrust violator vendor list:

   i. Public Entity Crime. A person or affiliate who has been placed on the convicted vendor list following a conviction for a public entity crime may not submit a bid, proposal, or reply on a contract to provide any goods or services to a public entity; may not submit a bid, proposal, or reply on a contract with a public entity for the construction or repair of a public building or public work; may not submit bids, proposals, or replies on leases of real property to a public entity; may not be awarded or perform work as a Grantee, supplier, subcontractor, or consultant under a contract with any public entity; and may not transact business with any public entity in excess of the threshold amount provided in section 287.017, F.S., for CATEGORY TWO for a period of 36 months following the date of being placed on the convicted vendor list.

   ii. Discriminatory Vendors. An entity or affiliate who has been placed on the discriminatory vendor list may not submit a bid, proposal, or reply on a contract to provide any goods or services to a public entity; may not submit a bid, proposal, or reply on a contract with a public entity for the construction or repair of a public building or public work; may not submit bids, proposals, or replies on leases of real property to a public entity; may not be awarded or perform work as a contractor, supplier, subcontractor, or consultant under a contract with any public entity; and may not transact business with any public entity.

   iii. Antitrust Violator Vendors. A person or an affiliate who has been placed on the antitrust violator vendor list following a conviction or being held civilly liable for an antitrust violation may not submit a bid, proposal, or reply on any contract to provide any good or services to a public entity; may not submit a bid, proposal, or reply on any contract with a public entity for the construction or repair of a public building or public work; may not submit a bid, proposal, or reply on leases of real property to a public entity; may not be awarded or perform work as a Grantee, supplier, subcontractor, or consultant under a contract with a public entity; and may not transact new business with a public entity.

   iv. Notification. The Grantee shall notify Department if it or any of its suppliers, subcontractors, or consultants have been placed on the convicted vendor list, the discriminatory vendor list, or antitrust violator vendor list during the life of the Agreement. The Florida Department of Management Services is responsible for maintaining the discriminatory vendor list and the antitrust violator vendor list and posts the list on its website. Questions regarding the discriminatory vendor list or antitrust violator vendor list may be directed to the Florida Department of Management Services, Office of Supplier Development, at (850) 487-0915.

23. Compliance with Federal, State and Local Laws.

a. The Grantee and all its agents shall comply with all federal, state and local regulations, including, but not limited to, nondiscrimination, wages, social security, workers' compensation, licenses, and registration requirements. The Grantee shall include this provision in all subcontracts/subawards issued as a result of this Agreement.

b. The Grantee, its subrecipients, subcontractors and agents must also comply with the following civil rights laws and regulations:

   i. Title VI of the Civil Rights Act of 1964 as amended (prohibiting discrimination in federally assisted programs on the basis of race, color, or national origin in the delivery of services or benefits);

ii. Section 13 of the 1972 Amendment to the Federal Water Pollution Control Act (prohibiting discrimination on the basis of sex in the delivery of services or benefits under the Federal Water Pollution Control Act as amended);
iii. Section 504 of the Rehabilitation Act of 1973 (prohibiting discrimination in federally assisted programs on the basis of disability, both in employment and in the delivery of services and benefits);
iv. Age Discrimination Act of 1975 (prohibiting discrimination in federally assisted programs on the basis of age in the delivery of services or benefits);
v. 40 C.F.R. Part 7, (implementing Title VI of the Civil Rights Act of 1964, Section 13 of the 1972 Amendments to the Federal Water Pollution Control Act, and Section 504 of the Rehabilitation Act of 1973);
vi. Florida Civil Rights Act of 1992 (Title XLIV Chapter 760, Sections 760.01, 760.11 and 509.092, F.S.), including Part I, chapter 760, F.S. (prohibiting discrimination on the basis of race, color, religion, sex, pregnancy, national origin, age, handicap, or marital status).

c. This Agreement shall be governed by and construed in accordance with the laws of the State of Florida.
d. Any dispute concerning performance of the Agreement shall be processed as described herein. Jurisdiction for any damages arising under the terms of the Agreement will be in the courts of the State, and venue will be in the Second Judicial Circuit, in and for Leon County. Except as otherwise provided by law, the parties agree to be responsible for their own attorney fees incurred in connection with disputes arising under the terms of this Agreement.

24. Build America, Buy America Act (BABA) - Infrastructure Projects with Federal Funding.
This provision does not apply to Agreements that are wholly funded by Coronavirus State and Local Fiscal Recovery Funds under the American Rescue Plan Act. Also, this provision does not apply where there is a valid waiver in place. However, the provision may apply to funds expended before the waiver or after expiration of the waiver.
If applicable, Recipients or Subrecipients of an award of Federal financial assistance from a program for infrastructure are required to comply with the Build America, Buy America Act (BABA), including the following provisions:

a. All iron and steel used in the project are produced in the United States--this means all manufacturing processes, from the initial melting stage through the application of coatings, occurred in the United States;
b. All manufactured products used in the project are produced in the United States-this means the manufactured product was manufactured in the United States; and the cost of the components of the manufactured product that are mined, produced, or manufactured in the United States is greater than 55 percent of the total cost of all components of the manufactured product, unless another standard for determining the minimum amount of domestic content of the manufactured product has been established under applicable law or regulation; and
c. All construction materials are manufactured in the United States-this means that all manufacturing processes for the construction material occurred in the United States.

The Buy America preference only applies to articles, materials, and supplies that are consumed in, incorporated into, or affixed to an infrastructure project. As such, it does not apply to tools, equipment, and supplies, such as temporary scaffolding, brought to the construction site and removed at or before the completion of the infrastructure project. Nor does a Buy America preference apply to equipment and furnishings, such as movable chairs, desks, and portable computer equipment, that are used at or within the finished infrastructure project but are not an integral part of the structure or permanently affixed to the infrastructure project.

25. Investing in America
Grantees of an award for construction projects in whole or in part by the Bipartisan Infrastructure Law or the Inflation Reduction Act, including the following provision:

a. Signage Requirements
a. Investing in America Emblem: The recipient will ensure that a sign is placed at construction sites supported in whole or in part by this award displaying the official Investing in America emblem and must identify the project as a “project funded by President Biden’s Bipartisan Infrastructure Law” or “project funded by President Biden’s Inflation Reduction Act” as applicable. The sign must be placed at construction sites in an easily visible location that can be directly linked to the work taking place and must be maintained in good condition throughout the construction period.

The recipient will ensure compliance with the guidelines and design specifications provided by EPA for using the official Investing in America emblem available at: https://www.epa.gov/invest/investing-america-signage.

b. Procuring Signs: Consistent with section 6002 of RCRA, 42 U.S.C. 6962, and 2 CFR 200.323, recipients are encouraged to use recycled or recovered materials when procuring signs. Signage costs are considered an allowable cost under this assistance agreement provided that the costs associated with signage are reasonable. Additionally, to increase public awareness of projects serving communities where English is not the predominant language, recipients are encouraged to translate the language on signs (excluding the official Investing in America emblem or EPA logo or seal) into the appropriate non-English language(s). The costs of such translation are allowable, provided the costs are reasonable.

26. Scrutinized Companies.

a. Grantee certifies that it is not on the Scrutinized Companies that Boycott Israel List or engaged in a boycott of Israel. Pursuant to section 287.135, F.S., the Department may immediately terminate this Agreement at its sole option if the Grantee is found to have submitted a false certification; or if the Grantee is placed on the Scrutinized Companies that Boycott Israel List or is engaged in the boycott of Israel during the term of the Agreement.

b. If this Agreement is for more than one million dollars, the Grantee certifies that it is also not on the Scrutinized Companies with Activities in Sudan, Scrutinized Companies with Activities in the Iran Petroleum Energy Sector List, or engaged with business operations in Cuba or Syria as identified in section 287.135, F.S. Pursuant to section 287.135, F.S., the Department may immediately terminate this Agreement at its sole option if the Grantee is found to have submitted a false certification; or if the Grantee is placed on the Scrutinized Companies with Activities in Sudan List, or Scrutinized Companies with Activities in the Iran Petroleum Energy Sector List, or engaged with business operations in Cuba or Syria during the term of the Agreement.

c. As provided in subsection 287.135(8), F.S., if federal law ceases to authorize these contracting prohibitions, then they shall become inoperative.

27. Lobbying and Integrity.

The Grantee agrees that no funds received by it under this Agreement will be expended for the purpose of lobbying the Legislature or a State agency pursuant to section 216.347, F.S., except that pursuant to the requirements of section 287.058(6), F.S., during the term of any executed agreement between Grantee and the State, Grantee may lobby the executive or legislative branch concerning the scope of services, performance, term, or compensation regarding that agreement. The Grantee shall comply with sections 11.062 and 216.347, F.S.

28. Record Keeping.

The Grantee shall maintain books, records and documents directly pertinent to performance under this Agreement in accordance with United States generally accepted accounting principles (US GAAP) consistently applied. The Department, the State, or their authorized representatives shall have access to such records for audit purposes during the term of this Agreement and for five (5) years following the completion date or termination of the Agreement. In the event that any work is subcontracted or subawarded, Grantee shall similarly require each subcontractor/subrecipient to maintain and allow access to such records for audit purposes. Upon request of Department's Inspector General, or other authorized State official, Grantee shall provide any type of information the Inspector General deems relevant to Grantee's integrity or responsibility. Such information may include, but shall not be limited to, Grantee's business or financial records, documents, or files of any type or form that refer to or relate to Agreement. The Grantee shall retain such records for the longer of: (1) three years after the expiration of the Agreement; or (2) the period required by the General Records Schedules maintained by the Florida Department of State (available at: http://dos.myflorida.com/library-archives/records-management/general-records-schedules/).

29. Audits.

a. Inspector General. The Grantee understands its duty, pursuant to section 20.055(5), F.S., to cooperate with the inspector general in any investigation, audit, inspection, review, or hearing. The Grantee will comply with this duty and ensure that its subrecipients and/or subcontractors issued under this Agreement, if any, impose this requirement, in writing, on its subrecipients and/or subcontractors, respectively.

b. Physical Access and Inspection. Department personnel shall be given access to and may observe and inspect work being performed under this Agreement, with reasonable notice and during normal business hours, including by any of the following methods:

i. Grantee shall provide access to any location or facility on which Grantee is performing work, or storing or staging equipment, materials or documents;
ii. Grantee shall permit inspection of any facility, equipment, practices, or operations required in performance of any work pursuant to this Agreement; and,
iii. Grantee shall allow and facilitate sampling and monitoring of any substances, soils, materials or parameters at any location reasonable or necessary to assure compliance with any work or legal requirements pursuant to this Agreement.

c. Special Audit Requirements. The Grantee shall comply with the applicable provisions contained in Attachment 5, Special Audit Requirements. Each amendment that authorizes a funding increase or decrease shall include an updated copy of Exhibit 1, to Attachment 5. If Department fails to provide an updated copy of Exhibit 1 to include in each amendment that authorizes a funding increase or decrease, Grantee shall request one from the Department's Grants Manager. The Grantee shall consider the type of financial assistance (federal and/or state) identified in Attachment 5, Exhibit 1 and determine whether the terms of Federal and/or Florida Single Audit Act Requirements may further apply to lower tier transactions that may be a result of this Agreement. For federal financial assistance, Grantee shall utilize the guidance provided under 2 CFR §200.331 for determining whether the relationship represents that of a subrecipient or vendor. For State financial assistance, Grantee shall utilize the form entitled "Checklist for Nonstate Organizations Recipient/Subrecipient vs Vendor Determination" (form number DFS-A2-NS) that can be found under the "Links/Forms" section appearing at the following website: https:\\apps.fldfs.com\fsaa.

d. Proof of Transactions. In addition to documentation provided to support cost reimbursement as described herein, Department may periodically request additional proof of a transaction to evaluate the appropriateness of costs to the Agreement pursuant to State guidelines (including cost allocation guidelines) and federal, if applicable. Allowable costs and uniform administrative requirements for federal programs can be found under 2 CFR 200. The Department may also request a cost allocation plan in support of its multipliers (overhead, indirect, general administrative costs, and fringe benefits). The Grantee must provide the additional proof within thirty (30) days of such request.

e. No Commingling of Funds. The accounting systems for all Grantees must ensure that these funds are not commingled with funds from other agencies. Funds from each agency must be accounted for separately. Grantees are prohibited from commingling funds on either a program-by-program or a project-by-project basis. Funds specifically budgeted and/or received for one project may not be used to support another project. Where a Grantee's, or subrecipient's, accounting system cannot comply with this requirement, Grantee, or subrecipient, shall establish a system to provide adequate fund accountability for each project it has been awarded.
i. If Department finds that these funds have been commingled, Department shall have the right to demand a refund, either in whole or in part, of the funds provided to Grantee under this Agreement for non-compliance with the material terms of this Agreement. The Grantee, upon such written notification from Department shall refund, and shall forthwith pay to Department, the amount of money demanded by Department. Interest on any refund shall be calculated based on the prevailing rate used by the State Board of Administration. Interest shall be calculated from the date(s) the original payment(s) are received from Department by Grantee to the date repayment is made by Grantee to Department.
ii. In the event that the Grantee recovers costs, incurred under this Agreement and reimbursed by Department, from another source(s), Grantee shall reimburse Department for all recovered funds originally provided under this Agreement and interest shall be charged for those recovered costs as calculated on from the date(s) the payment(s) are recovered by Grantee to the date repayment is made to Department.
iii. Notwithstanding the requirements of this section, the above restrictions on commingling funds do not apply to agreements where payments are made purely on a cost reimbursement basis.

30. Conflict of Interest.

The Grantee covenants that it presently has no interest and shall not acquire any interest which would conflict in any manner or degree with the performance of services required.

31. Independent Contractor.

The Grantee is an independent contractor and is not an employee or agent of Department.

32. Subcontracting/Subawards.

a. Unless otherwise specified in the Special Terms and Conditions, all services contracted for are to be performed solely by Grantee.

b. The Department may, for cause, require the replacement of any Grantee employee, subcontractor/subrecipient, or agent. For cause, includes, but is not limited to, technical or training qualifications, quality of work, change in security status, or non-compliance with an applicable Department policy or other requirement.
c. The Department may, for cause, deny access to Department's secure information or any facility by any Grantee employee, subcontractor/subrecipient, or agent.
d. The Department's actions under paragraphs b. or c. shall not relieve Grantee of its obligation to perform all work in compliance with the Agreement. The Grantee shall be responsible for the payment of all monies due under any subcontract/subaward. The Department shall not be liable to any subcontractor/subrecipient for any expenses or liabilities incurred under any subcontract/subaward, and Grantee shall be solely liable to the subcontractor for all expenses and liabilities incurred under any subcontract/subaward.
e. The Department will not deny Grantee's employees, subcontractors/subrecipients, or agents access to meetings within the Department's facilities, unless the basis of Department's denial is safety or security considerations.
f. A list of minority-owned firms that could be offered subcontracting opportunities may be obtained by contacting the Office of Supplier Development at (850) 487-0915.
g. The Grantee shall not be liable for any excess costs for a failure to perform, if the failure to perform is caused by the default of a subcontractor/subrecipient at any tier, and if the cause of the default is completely beyond the control of both Grantee and the subcontractor(s)/subrecipient(s), and without the fault or negligence of either, unless the subcontracted/subawarded products or services were obtainable from other sources in sufficient time for Grantee to meet the required delivery schedule.

33. Guarantee of Parent Company.

If Grantee is a subsidiary of another corporation or other business entity, Grantee asserts that its parent company will guarantee all of the obligations of Grantee for purposes of fulfilling the obligations of Agreement. In the event Grantee is sold during the period the Agreement is in effect, Grantee agrees that it will be a requirement of sale that the new parent company guarantee all of the obligations of Grantee.

34. Survival.

The respective obligations of the parties, which by their nature would continue beyond the termination or expiration of this Agreement, including without limitation, the obligations regarding confidentiality, proprietary interests, and public records, shall survive termination, cancellation, or expiration of this Agreement.

35. Third Parties.

The Department shall not be deemed to assume any liability for the acts, failures to act or negligence of Grantee, its agents, servants, and employees, nor shall Grantee disclaim its own negligence to Department or any third party. This Agreement does not and is not intended to confer any rights or remedies upon any person other than the parties. If Department consents to a subcontract/subaward, Grantee will specifically disclose that this Agreement does not create any third-party rights. Further, no third parties shall rely upon any of the rights and obligations created under this Agreement.

36. Severability.

If a court of competent jurisdiction deems any term or condition herein void or unenforceable, the other provisions are severable to that void provision, and shall remain in full force and effect.

37. Grantee's Employees, Subcontractors/Subrecipients and Agents.

All Grantee employees, subcontractors/subrecipients, or agents performing work under the Agreement shall be properly trained technicians who meet or exceed any specified training qualifications. Upon request, Grantee shall furnish a copy of technical certification or other proof of qualification. All employees, subcontractors/subrecipients, or agents performing work under Agreement must comply with all security and administrative requirements of Department and shall comply with all controlling laws and regulations relevant to the services they are providing under the Agreement.

38. Assignment.

The Grantee shall not sell, assign, or transfer any of its rights, duties, or obligations under the Agreement, or under any purchase order issued pursuant to the Agreement, without the prior written consent of Department. In the event of any assignment, Grantee remains secondarily liable for performance of the Agreement, unless Department expressly waives such secondary liability. The Department may assign the Agreement with prior written notice to Grantee of its intent to do so.

39. Compensation Report.

If this Agreement is a sole-source, public-private agreement or if the Grantee, through this agreement with the State, annually receive 50% or more of their budget from the State or from a combination of State and Federal funds, the Grantee shall provide an annual report, including the most recent IRS Form 990, detailing the total compensation for

the entities' executive leadership teams. Total compensation shall include salary, bonuses, cashed-in leave, cash equivalents, severance pay, retirement benefits, deferred compensation, real-property gifts, and any other payout. The Grantee must also inform the Department of any changes in total executive compensation between the annual reports. All compensation reports must indicate what percent of compensation comes directly from the State or Federal allocations to the Grantee.

40. Disclosure of Gifts from Foreign Sources.

If the value of the grant under this Agreement is $100,000 or more, Grantee shall disclose to Department any current or prior interest of, any contract with, or any grant or gift received from a foreign country of concern, as defined in section 286.101, F.S., if such interest, contract, or grant or gift has a value of $50,000 or more and such interest existed at any time or such contract or grant or gift was received or in force at any time during the previous 5 years. Such disclosure shall include the name and mailing address of the disclosing entity, the amount of the contract or grant or gift or the value of the interest disclosed, the applicable foreign country of concern and, if applicable, the date of termination of the contract or interest, the date of receipt of the grant or gift, and the name of the agent or controlled entity that is the source or interest holder. If the disclosure requirement is applicable as described above, then within 1 year before applying for any grant, Grantee must also provide a copy of such disclosure to the Department of Financial Services.

41. Food Commodities.

To the extent authorized by federal law, the Department, its grantees, contractors and subcontractors/subrecipients shall give preference to food commodities grown or produced in this state when purchasing food commodities, including farm products as defined in section 823.14, F.S., of any class, variety, or use thereof in their natural state or as processed by a farm operation or processor for the purpose of marketing such product.

42. Anti-human Trafficking.

If the Grantee is a nongovernmental entity, the Grantee must provide the Department with an affidavit signed by an officer or a representative of the Grantee under penalty of perjury attesting that the Grantee does not use coercion for labor or services as defined in section 787.06, F.S.

43. Iron and Steel for Public Works Projects.

If this Agreement funds a "public works project" as defined in section 255.0993, F.S., or the purchase of materials to be used in a public works project, any iron or steel permanently incorporated in the Project must be "produced in the United States," as defined in section 255.0993, F.S. This requirement does not apply if the Department determines that any of the following circumstances apply to the Project:

(1) iron or steel products produced in the United States are not produced in sufficient quantities, reasonably available, or of satisfactory quality;
(2) the use of iron or steel products produced in the United States will increase the total cost of the project by more than twenty percent (20%); or
(3) complying with this requirement is inconsistent with the public interest.

Further, this requirement does not prevent the Contractor's minimal use of foreign steel and iron materials if:

(1) such materials are incidental or ancillary to the primary product and are not separately identified in the project specifications; and
(2) the "cost" of such materials, as defined in section 255.0993, F.S., does not exceed one-tenth of one percent (1%) of the total Project Cost under this Agreement or $2,500, whichever is greater.

Electrical components, equipment, systems, and appurtenances, including supports, covers, shielding, and other appurtenances related to an electrical system that are necessary for operation or concealment (excepting transmission and distribution poles) are not considered to be iron or steel products and are, therefore, exempt from the requirements of this paragraph.

This provision shall be applied in a manner consistent with and may not be construed to impair the state's obligations under any international agreement.

44. Complete and Accurate information.

Grantee represents and warrants that all statements and information provided to DEP are current, complete, and accurate. This includes all statements and information in this Grant, as well as its Attachments and Exhibits.

45. Execution in Counterparts and Authority to Sign.

This Agreement, any amendments, and/or change orders related to the Agreement, may be executed in counterparts, each of which shall be an original and all of which shall constitute the same instrument. In accordance with the Electronic Signature Act of 1996, electronic signatures, including facsimile transmissions, may be used and shall have the same force and effect as a written signature. Each person signing this Agreement warrants that he or she is duly authorized to do so and to bind the respective party to the Agreement.

STATE OF FLORIDA
DEPARTMENT OF ENVIRONMENTAL PROTECTION
Special Terms and Conditions
AGREEMENT NO. WRP15

ATTACHMENT 2

These Special Terms and Conditions shall be read together with general terms outlined in the Standard Terms and Conditions, Attachment 1. Where in conflict, these more specific terms shall apply.

1. Scope of Work.
The Project funded under this Agreement is Recreation and Creation of Wetlands along Peace Creek and on Lake Hamilton. The Project is defined in more detail in Attachment 3, Grant Work Plan.

2. Duration.
a. Reimbursement Period. The reimbursement period for this Agreement begins on July 1, 2024 and ends at the expiration of the Agreement..
b. Extensions. There are extensions available for this Project.
c. Service Periods. Additional service periods are not authorized under this Agreement.

3. Payment Provisions.
a. Compensation. This is a cost reimbursement Agreement. The Grantee shall be compensated under this Agreement as described in Attachment 3.
b. Invoicing. Invoicing will occur as indicated in Attachment 3.
c. Advance Pay. Advance Pay is not authorized under this Agreement.

4. Cost Eligible for Reimbursement or Matching Requirements.
Reimbursement for costs or availability for costs to meet matching requirements shall be limited to the following budget categories, as defined in the Reference Guide for State Expenditures, as indicated:

Reimbursement	Match	Category
☐	☐	Salaries/Wages
		Overhead/Indirect/General and Administrative Costs:
☐	☐	a. Fringe Benefits, N/A.
☐	☐	b. Indirect Costs, N/A.
☒	☒	Contractual/Subaward (Subcontractors/Subrecipients)
☐	☐	Travel, in accordance with Section 112, F.S.
☐	☐	Equipment
☐	☐	Rental/Lease of Equipment
☐	☐	Miscellaneous/Other Expenses
☐	☐	Land Acquisition

5. Equipment Purchase.
No Equipment purchases shall be funded under this Agreement.

6. Land Acquisition.
There will be no Land Acquisitions funded under this Agreement.

7. Match Requirements
The Agreement requires at least a 50% match on the part of the Grantee. Therefore, the Grantee is responsible for providing $850,000 through cash or third party in-kind towards the project funded under this Agreement.
The Grantee may claim allowable project expenditures made upon execution or after for purposes of meeting its match requirement as identified above.

8. Insurance Requirements

Required Coverage. At all times during the Agreement the Grantee, at its sole expense, shall maintain insurance coverage of such types and with such terms and limits described below. The limits of coverage under each policy maintained by the Grantee shall not be interpreted as limiting the Grantee's liability and obligations under the Agreement. All insurance policies shall be through insurers licensed and authorized to issue policies in Florida, or alternatively, Grantee may provide coverage through a self-insurance program established and operating under the laws of Florida. Additional insurance requirements for this Agreement may be required elsewhere in this Agreement, however the minimum insurance requirements applicable to this Agreement are:

a. Commercial General Liability Insurance.
The Grantee shall provide adequate commercial general liability insurance coverage and hold such liability insurance at all times during the Agreement. The Department, its employees, and officers shall be named as an additional insured on any general liability policies. The minimum limits shall be $250,000 for each occurrence and $500,000 policy aggregate.

b. Commercial Automobile Insurance.
If the Grantee's duties include the use of a commercial vehicle, the Grantee shall maintain automobile liability, bodily injury, and property damage coverage. Insuring clauses for both bodily injury and property damage shall provide coverage on an occurrence basis. The Department, its employees, and officers shall be named as an additional insured on any automobile insurance policy. The minimum limits shall be as follows:

$200,000/300,000	Automobile Liability for Company-Owned Vehicles, if applicable
$200,000/300,000	Hired and Non-owned Automobile Liability Coverage

c. Workers' Compensation and Employer's Liability Coverage.
The Grantee shall provide workers' compensation, in accordance with Chapter 440, F.S. and employer liability coverage with minimum limits of $100,000 per accident, $100,000 per person, and $500,000 policy aggregate. Such policies shall cover all employees engaged in any work under the Grant.

d. Other Insurance. None.

9. Quality Assurance Requirements.

There are no special Quality Assurance requirements under this Agreement.

10. Retainage.

Retainage is permitted under this Agreement. Retainage may be up to a maximum of 10% of the total amount of the Agreement.

11. Subcontracting/Subawards.

The Grantee may subcontract/subaward work under this Agreement without the prior written consent of the Department's Grant Manager except for certain fixed-price subcontracts/subawards pursuant to this Agreement, which require prior approval. Regardless of any subcontract/subaward, the Grantee is ultimately responsible for all work to be performed under this Agreement. Upon request by the Department's Grant Manager, the Grantee will submit a copy of the executed subcontract.

12. State-owned Land.

The work will not be performed on State-owned land.

13. Office of Policy and Budget Reporting.

There are no special Office of Policy and Budget reporting requirements for this Agreement.

14. Common Carrier.

a. Applicable to contracts/grants with a common carrier – firm/person/corporation that as a regular business transports people or commodities from place to place. If applicable, Contractor/Subrecipient must also fill out and return PUR 1808 before contract/subaward execution. If Contractor/Subrecipient is a common carrier pursuant to section 908.111(1)(a), Florida Statutes, the Department will terminate this Agreement immediately if Contractor/Subrecipient is found to be in violation of the law or the attestation in PUR 1808.

b. Applicable to solicitations for a common carrier – Before contract execution, the winning Contractor(s) must fill out and return PUR 1808, and attest that it is not willfully providing any service in furtherance of transporting a person into this state knowing that the person unlawfully present in the United States according to the terms of the federal Immigration and Nationality Act, 8 U.S.C. ss. 1101 et seq. The Department will terminate a contract immediately if Contractor is found to be in violation of the law or the attestation in PUR 1808.

15. Financial Assistance and Payment of Invoices to Rural Communities or Rural Areas of Opportunity
This agreement does not provide federal or state financial assistance to a county or municipality that is a rural community or rural area of opportunity as those terms are defined in s. 288.0656(2).

16. Additional Terms.
Choose a building block.
None.

Any terms added here must be approved by the Office of General Counsel.

ATTACHMENT 3
GRANT WORK PLAN

PROJECT TITLE: Recreation and Creation of Wetlands along Peace Creek Canal and on Lake Hamilton

PROJECT LOCATION: The Project will be located in the City of Winter Haven within Polk County (Grantee); Lat/Long (28.05819, -81.67214). See Figure 1 for a location map and site plan.

PROJECT BACKGROUND: The Grantee is proposing to restore wetland habitat and improve water quality within the Peace Creek hydrologic basin by expanding on-site wetlands and constructing treatment wetlands to act as water quality improvement sites along the northwest side of Lake Hamilton.

The funding for this project will cover construction and construction engineering. The proposed project includes the construction of a diversion structure within the Peace Creek Canal. This structure is intended to impound water for longer periods of time to restore hydroperiods to the wetlands, which have been partially dehydrated due to draining from the Canal. The improved hydration will benefit wildlife habitat, provide opportunities for the treatment of floodwaters flowing through the wetlands, and enhance ecological areas. Additionally, new wetlands will be created through excavating areas along the lake shore and west of the road. These areas will be hydraulically connected to the adjacent wetlands and will provide new and improved wildlife habitat, as well as wetland treatment areas for water currently receiving no treatment. The Grantee also plans to pump nearby lake water to create wetland cells. This will form a cascading system of small wetlands, which will ultimately drain into one of the newly created wetlands before discharging back to Lake Hamilton. This plan is still in development and therefore was not included in the wetland acreage estimates.

Once the Grantee completes the proposed water quality improvement and treatment projects, passive outdoor recreation opportunities may be provided to the public. The project will divert excess surface water from the Peace Creek Canal to a Polk County-owned parcel, restoring the hydrology of previously disturbed areas. Regarding and revegetating the land will restore historic wetlands and expand the wetlands footprint with created wetlands to achieve maximum benefits to water quality treatment of stormwater from the surrounding areas.

PROJECT DESCRIPTION: The Grantee will construct a diversion structure within the Peace Creek canal, create eight acres of new wetland cells, and restore 31 acres of existing wetlands.

TASKS: All documentation should be submitted electronically unless otherwise indicated and should be submitted prior to the expiration of the grant agreement.

Payment Request Schedule: The Grantee may submit a payment request for cost reimbursement or match documentation at the conclusion of the task.

Task #1: Project Management

Deliverables: The Grantee will provide project management services related to the Recreation and Creation of Wetlands along Peace Creek Canal and on Lake Hamilton to include review of documents and forms, budget oversight, preparation and submittal of progress reports, processing of payment requests and related documentation, and overall project coordination and supervision.

Documentation: The Grantee will submit a signed summary of activities completed for the period of work covered in the payment request, using the format provided by the Department's Grant Manager. Upon

request by the Department's Grant Manager, the Grantee will provide additional supporting documentation relating to this task.

Performance Standard: The Department's Grant Manager will review the documentation to verify that the deliverables have been completed as described above. Upon review and written acceptance by the Department's Grant Manager, a payment request may be processed.

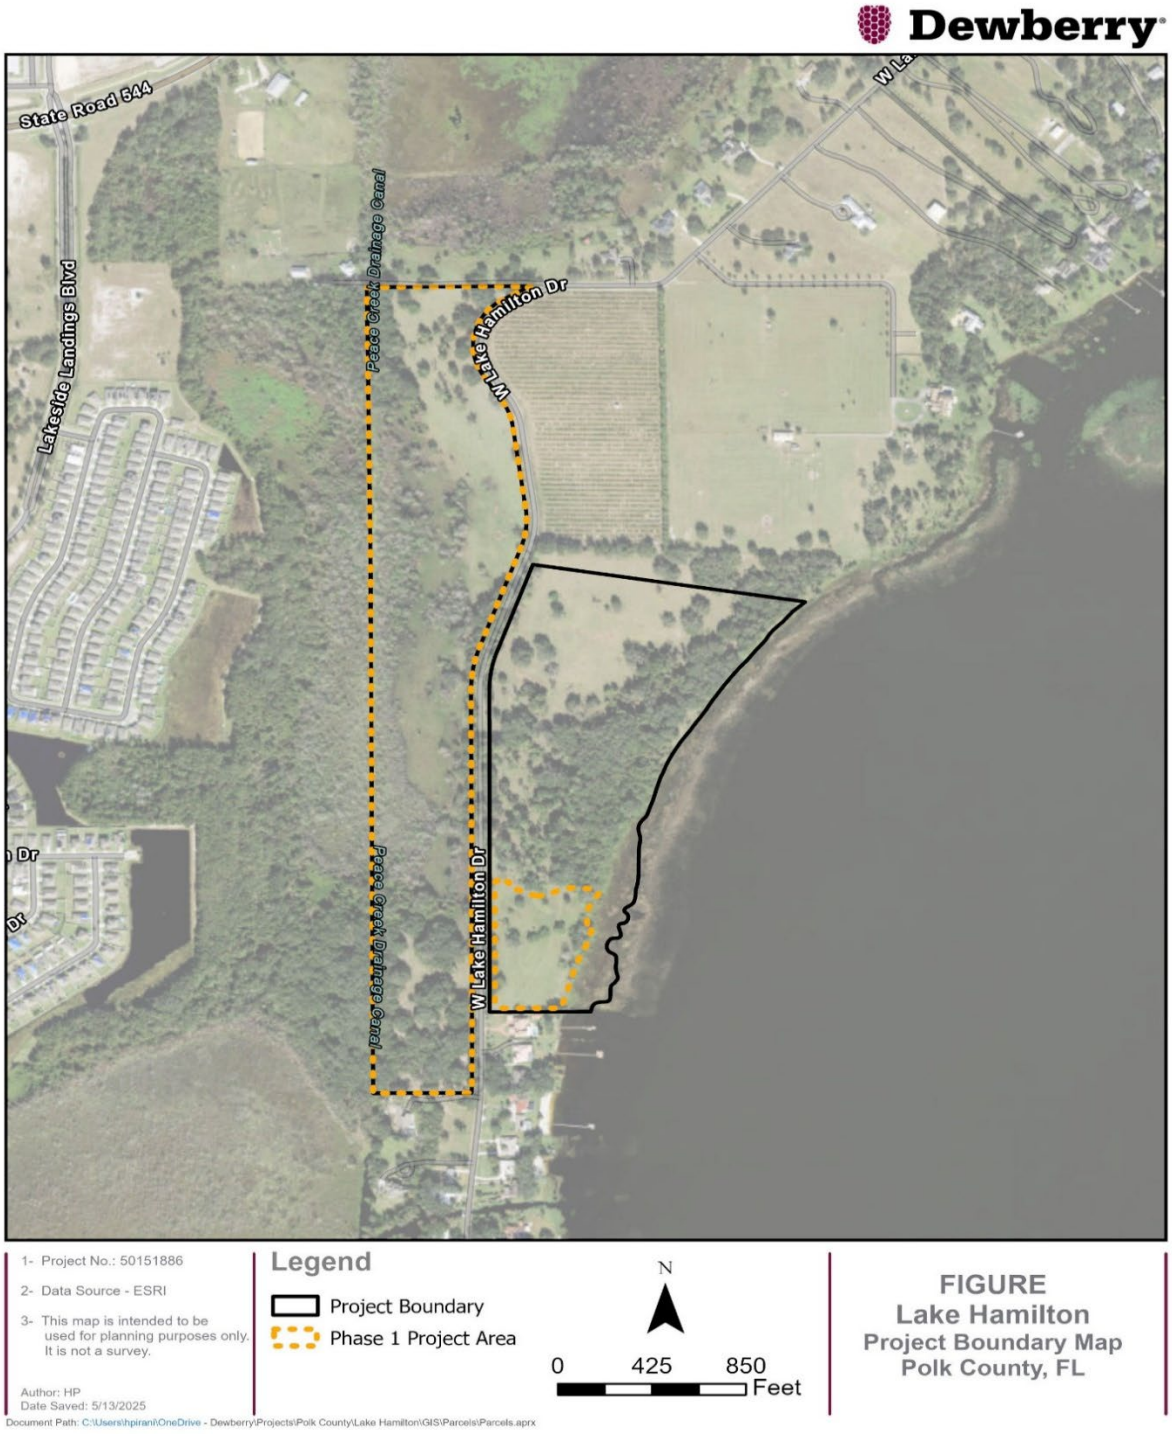
Payment Request Schedule: The Grantee may submit a payment request for cost reimbursement no more frequently than monthly.

Task #2: Construction

Deliverables: The Grantee will construct a diversion structure within the Peace Creek canal for water retention and pump water to create wetland cells in Lake Hamilton. This project will approximately restore 31 acres of wetlands and create 8 new acres of wetlands along Peace Creek Canal and on Lake Hamilton in accordance with the final design.

Documentation: The Grantee will submit: 1) a copy of the final design; and 2) a signed summary of activities completed for the period of work covered in the payment request, using the format provided by the Department's Grant Manager. Upon request by the Department's Grant Manager, the Grantee will provide additional supporting documentation relating to this task.

Performance Standard: The Department's Grant Manager will review the documentation to verify that the deliverables have been completed as described above. Upon review and written acceptance by the Department's Grant Manager, a payment request may be processed.



Payment Request Schedule: The Grantee may submit a payment request for cost reimbursement no more frequently than monthly.

PROJECT TIMELINE & BUDGET DETAIL: The tasks must be completed by the corresponding task end date. Cost reimbursable grant funding must not exceed the budget amounts as indicated below. Match funding shall be provided at minimum in the categories indicated below.

Task No.	Task Title	Budget Category	Grant Amount	Match Amount	Task Start Date	Task End Date
1	Project Management	Contractual Services	$0.00	$250,000	07/01/2024	10/31/2028
2	Construction	Contractual Services	$850,000	$600,000	07/01/2024	10/31/2028
		Total:	**$850,000**	**$850,000**		
		Percentage Match:	**50%**	**50%**

DEPARTMENT OF ENVIRONMENTAL PROTECTION
Public Records Requirements

Attachment 4

1. **Public Records.**

a. If the Agreement exceeds $35,000.00, and if Grantee is acting on behalf of Department in its performance of services under the Agreement, Grantee must allow public access to all documents, papers, letters, or other material, regardless of the physical form, characteristics, or means of transmission, made or received by Grantee in conjunction with the Agreement (Public Records), unless the Public Records are exempt from section 24(a) of Article I of the Florida Constitution and section 119.07(1), F.S.

b. The Department may unilaterally terminate the Agreement if Grantee refuses to allow public access to Public Records as required by law.

2. **Additional Public Records Duties of Section 119.0701, F.S., If Applicable.**
For the purposes of this paragraph, the term "contract" means the "Agreement." If Grantee is a "contractor" as defined in section 119.0701(1)(a), F.S., the following provisions apply and the contractor shall:

a. Keep and maintain Public Records required by Department to perform the service.

b. Upon request, provide Department with a copy of requested Public Records or allow the Public Records to be inspected or copied within a reasonable time at a cost that does not exceed the cost provided in Chapter 119, F.S., or as otherwise provided by law.

c. A contractor who fails to provide the Public Records to Department within a reasonable time may be subject to penalties under section 119.10, F.S.

d. Ensure that Public Records that are exempt or confidential and exempt from Public Records disclosure requirements are not disclosed except as authorized by law for the duration of the contract term and following completion of the contract if the contractor does not transfer the Public Records to Department.

e. Upon completion of the contract, transfer, at no cost, to Department all Public Records in possession of the contractor or keep and maintain Public Records required by Department to perform the service. If the contractor transfers all Public Records to Department upon completion of the contract, the contractor shall destroy any duplicate Public Records that are exempt or confidential and exempt from Public Records disclosure requirements. If the contractor keeps and maintains Public Records upon completion of the contract, the contractor shall meet all applicable requirements for retaining Public Records. All Public Records stored electronically must be provided to Department, upon request from Department's custodian of Public Records, in a format specified by Department as compatible with the information technology systems of Department. These formatting requirements are satisfied by using the data formats as authorized in the contract or Microsoft Word, Outlook, Adobe, or Excel, and any software formats the contractor is authorized to access.

f. **IF THE CONTRACTOR HAS QUESTIONS REGARDING THE APPLICATION OF CHAPTER 119, F.S., TO THE CONTRACTOR'S DUTY TO PROVIDE PUBLIC RECORDS RELATING TO THE CONTRACT, CONTACT THE DEPARTMENT'S CUSTODIAN OF PUBLIC RECORDS AT:**

Telephone: **(850) 245-2118**

STATE OF FLORIDA
DEPARTMENT OF ENVIRONMENTAL PROTECTION
Special Audit Requirements
(State and Federal Financial Assistance)

Attachment 5

The administration of resources awarded by the Department of Environmental Protection *(which may be referred to as the "Department", "DEP", "FDEP" or "Grantor", or other name in the agreement*) to the recipient *(which may be referred to as the "Recipient", "Grantee" or other name in the agreement)* may be subject to audits and/or monitoring by the Department of Environmental Protection, as described in this attachment.

MONITORING

In addition to reviews of audits conducted in accordance with 2 CFR Part 200, Subpart F-Audit Requirements, and Section 215.97, F.S., as revised (see "AUDITS" below), monitoring procedures may include, but not be limited to, on-site visits by DEP Department staff, limited scope audits as defined by 2 CFR 200.425, or other procedures. By entering into this Agreement, the recipient agrees to comply and cooperate with any monitoring procedures/processes deemed appropriate by the Department of Environmental Protection. In the event the Department of Environmental Protection determines that a limited scope audit of the recipient is appropriate, the recipient agrees to comply with any additional instructions provided by the Department to the recipient regarding such audit. The recipient further agrees to comply and cooperate with any inspections, reviews, investigations, or audits deemed necessary by the Chief Financial Officer (CFO) or Auditor General.

AUDITS

PART I: FEDERALLY FUNDED

This part is applicable if the recipient is a State or local government or a non-profit organization as defined in 2 CFR §200.330

1. A recipient that expends $1,000,000 or more in Federal awards in its fiscal year, must have a single or program-specific audit conducted in accordance with the provisions of 2 CFR Part 200, Subpart F. EXHIBIT 1 to this Attachment indicates Federal funds awarded through the Department of Environmental Protection by this Agreement. In determining the federal awards expended in its fiscal year, the recipient shall consider all sources of federal awards, including federal resources received from the Department of Environmental Protection. The determination of amounts of federal awards expended should be in accordance with the guidelines established in 2 CFR 200.502-503. An audit of the recipient conducted by the Auditor General in accordance with the provisions of 2 CFR Part 200.514 will meet the requirements of this part.

2. For the audit requirements addressed in Part I, paragraph 1, the recipient shall fulfill the requirements relative to auditee responsibilities as provided in 2 CFR 200.508-512.

3. A recipient that expends less than $1,000,000 in federal awards in its fiscal year is not required to have an audit conducted in accordance with the provisions of 2 CFR Part 200, Subpart F-Audit Requirements. If the recipient expends less than $1,000,000 in federal awards in its fiscal year and elects to have an audit conducted in accordance with the provisions of 2 CFR 200, Subpart F-Audit Requirements, the cost of the audit must be paid from non-federal resources (i.e., the cost of such an audit must be paid from recipient resources obtained from non-federal entities).

4. The recipient may access information regarding the Catalog of Federal Domestic Assistance (CFDA) via the internet at https://sam.gov/content/assistance-listings.

PART II: STATE FUNDED

This part is applicable if the recipient is a nonstate entity as defined by Section 215.97(1)(n), Florida Statutes.

1. In the event that the recipient expends a total amount of state financial assistance equal to or in excess of $750,000 in any fiscal year of such recipient (for fiscal years ending June 30, 2017, and thereafter), the recipient must have a State single or project-specific audit for such fiscal year in accordance with Section 215.97, F.S.; Rule Chapter 69I-5, F.A.C., State Financial Assistance; and the current Rules of the Auditor General. EXHIBIT 1 to this form lists the state financial assistance awarded through the Department of Environmental Protection by this agreement. In determining the state financial assistance expended in its fiscal year, the recipient shall consider all sources of state financial assistance, including state financial assistance received from the Department of Environmental Protection, other state agencies, and other nonstate entities. State financial assistance does not include federal direct or pass-through awards and resources received by a nonstate entity for Federal program matching requirements.

2. In connection with the audit requirements addressed in Part II, paragraph 1; the recipient shall ensure that the audit complies with the requirements of Section 215.97(8), Florida Statutes. This includes submission of a financial reporting package as defined by Section 215.97(2), Florida Statutes, and the current Rules of the Auditor General.

3. If the recipient expends less than $750,000 in state financial assistance in its fiscal year (for fiscal year ending June 30, 2017, and thereafter), an audit conducted in accordance with the provisions of Section 215.97, Florida Statutes, is not required. In the event that the recipient expends less than $750,000 in state financial assistance in its fiscal year, and elects to have an audit conducted in accordance with the provisions of Section 215.97, Florida Statutes, the cost of the audit must be paid from the non-state entity's resources (i.e., the cost of such an audit must be paid from the recipient's resources obtained from other than State entities).

4. For information regarding the Florida Catalog of State Financial Assistance (CSFA), a recipient should access the Florida Single Audit Act website located at https://apps.fldfs.com/fsaa for assistance. In addition to the above websites, the following websites may be accessed for information: Legislature's Website at http://www.leg.state.fl.us/Welcome/index.cfm, State of Florida's website at http://www.myflorida.com/, Department of Financial Services' Website at https://www.myfloridacfo.com/ and the Auditor General's Website at http://www.myflorida.com/audgen/.

PART III: OTHER AUDIT REQUIREMENTS

(NOTE: This part would be used to specify any additional audit requirements imposed by the State awarding entity that are solely a matter of that State awarding entity's policy (i.e., the audit is not required by Federal or State laws and is not in conflict with other Federal or State audit requirements). Pursuant to Section 215.97(8), Florida Statutes, State agencies may conduct or arrange for audits of State financial assistance that are in addition to audits conducted in accordance with Section 215.97, Florida Statutes. In such an event, the State awarding agency must arrange for funding the full cost of such additional audits.)

PART IV: REPORT SUBMISSION

1. Copies of reporting packages for audits conducted in accordance with 2 CFR Part 200, Subpart F-Audit Requirements, and required by PART I of this form shall be submitted, when required by 2 CFR 200.512, by or on behalf of the recipient directly to the Federal Audit Clearinghouse (FAC) as provided in 2 CFR 200.36 and 200.512

   A. The Federal Audit Clearinghouse designated in 2 CFR §200.501(a) (the number of copies required by 2 CFR §200.501(a) should be submitted to the Federal Audit Clearinghouse), at the following address:

By Mail:

Federal Audit Clearinghouse
Bureau of the Census
1201 East 10th Street
Jeffersonville, IN 47132

Submissions of the Single Audit reporting package for fiscal periods ending on or after January 1, 2008, must be submitted using the Federal Clearinghouse's Internet Data Entry System which can be found at http://harvester.census.gov/facweb/

2. Copies of financial reporting packages required by PART II of this Attachment shall be submitted by or on behalf of the recipient directly to each of the following:

A. The Department of Environmental Protection at one of the following addresses:

By Mail:
Audit Director
Florida Department of Environmental Protection
Office of Inspector General, MS 40
3900 Commonwealth Boulevard
Tallahassee, Florida 32399-3000

Electronically:
FDEPSingleAudit@dep.state.fl.us

B. The Auditor General's Office at the following address:

Auditor General
Local Government Audits/342
Claude Pepper Building, Room 401
111 West Madison Street
Tallahassee, Florida 32399-1450

The Auditor General's website (http://flauditor.gov/) provides instructions for filing an electronic copy of a financial reporting package.

3. Copies of reports or management letters required by PART III of this Attachment shall be submitted by or on behalf of the recipient directly to the Department of Environmental Protection at one of the following addresses:

By Mail:
Audit Director
Florida Department of Environmental Protection
Office of Inspector General, MS 40
3900 Commonwealth Boulevard
Tallahassee, Florida 32399-3000

Electronically:
FDEPSingleAudit@dep.state.fl.us

4. Any reports, management letters, or other information required to be submitted to the Department of Environmental Protection pursuant to this Agreement shall be submitted timely in accordance with 2 CFR 200.512, section 215.97, F.S., and the current Rules of the Auditor General, as applicable.

5. Recipients, when submitting financial reporting packages to the Department of Environmental Protection for audits done in accordance with 2 CFR 200, Subpart F-Audit Requirements, or the current Rules of the Auditor

General, should indicate the date and time the reporting package was delivered to the recipient and any correspondence accompanying the reporting package.

PART V: RECORD RETENTION

The recipient shall retain sufficient records demonstrating its compliance with the terms of the award and this Agreement for a period of **five (5)** years from the date the audit report is issued, and shall allow the Department of Environmental Protection, or its designee, Chief Financial Officer, or Auditor General access to such records upon request. The recipient shall ensure that audit working papers are made available to the Department of Environmental Protection, or its designee, Chief Financial Officer, or Auditor General upon request for a period of **three (3)** years from the date the audit report is issued, unless extended in writing by the Department of Environmental Protection.

EXHIBIT – 1

FUNDS AWARDED TO THE RECIPIENT PURSUANT TO THIS AGREEMENT CONSIST OF THE FOLLOWING:

Note: If the resources awarded to the recipient represent more than one federal program, provide the same information shown below for each federal program and show total federal resources awarded

Federal Resources Awarded to the Recipient Pursuant to this Agreement Consist of the Following:					
Federal Program A	Federal Agency	CFDA Number	CFDA Title	Funding Amount	State Appropriation Category
				$	
Federal Program B	Federal Agency	CFDA Number	CFDA Title	Funding Amount	State Appropriation Category
				$	

Note: Of the resources awarded to the recipient represent more than one federal program, list applicable compliance requirements for each federal program in the same manner as shown below:

Federal Program A	First Compliance requirement: i.e.: (what services of purposes resources must be used for)	
	Second Compliance requirement: i.e.:(eligibility requirement for recipients of the resources)	
	Etc.	
	Etc.	
Federal Program B	First Compliance requirement: i.e.: (what services of purposes resources must be used for)	
	Second Compliance requirement: i.e.: (eligibility requirement for recipients of the resources)	
	Etc.	
	Etc.	

Note: If the resources awarded to the recipient for matching represent more than one federal program, provide the same information shown below for each federal program and show total state resources awarded for matching.

State Resources Awarded to the Recipient Pursuant to this Agreement Consist of the Following Matching Resources for Federal Programs:

Federal Program A	Federal Agency	CFDA	CFDA Title	Funding Amount	State Appropriation Category
Federal Program B	Federal Agency	CFDA	CFDA Title	Funding Amount	State Appropriation Category

Note: If the resources awarded to the recipient represent more than one state project, provide the same information shown below for each state project and show total state financial assistance awarded that is subject to section 215.97, F.S.

State Resources Awarded to the Recipient Pursuant to this Agreement Consist of the Following Resources Subject to Section 215.97, F.S.:						
State Program A	State Awarding Agency	State Fiscal Year[1]	CSFA Number	CSFA Title or Funding Source Description	Funding Amount	State Appropriation Category
Original Agreement	Florida Department of Environmental Protection	24 -25	37.039	Statewide Water Quality Restoration Projects	$850,000	084115
State Program B	State Awarding Agency	State Fiscal Year[2]	CSFA Number	CSFA Title or Funding Source Description	Funding Amount	State Appropriation Category

Total Award	$850,000	

Note: List applicable compliance requirement in the same manner as illustrated above for federal resources. For matching resources provided by the Department for DEP for federal programs, the requirements might be similar to the requirements for the applicable federal programs. Also, to the extent that different requirements pertain to different amount for the non-federal resources, there may be more than one grouping (i.e. 1, 2, 3, etc.) listed under this category.

For each program identified above, the recipient shall comply with the program requirements described in the Catalog of Federal Domestic Assistance (CFDA) [https://sam.gov/content/assistance-listings] and/or the Florida Catalog of State Financial Assistance (CSFA) [https://apps.fldfs.com/fsaa/searchCatalog.aspx], and State Projects Compliance Supplement (Part Four: State Projects Compliance Supplement [https://apps.fldfs.com/fsaa/compliance.aspx]. The services/purposes for which the funds are to be used are included in the Agreement's Grant Work Plan. Any match required by the Recipient is clearly indicated in the Agreement.

Agenda Item I.1. 8/19/2025

SUBJECT

Reappoint Beatrice “Bea” Hancock as a member (Seat 4) of the Polk County Historical Commission for the three-year term, October 1, 2025 through September 30, 2028.

DESCRIPTION

Purpose of Layboard: To collect and preserve historical materials relating to the history of Polk County and Florida. The Polk County Historical Commission shall also work to develop and establish reliable and sustainable sources of public, private and enterprise funding to ensure the continued operation of the Polk County Historical Museum and the Polk County Genealogical Library, and shall serve as an advisory commission to the Board of County Commissioners and the staff of the museum, library and the Historic Preservation Manager.

Creating Authority: Established by Legislation in 1937 and amended over the years. Further updated and amended by the Florida Legislature in adopting CS/HB 745 in 2011, which was approved by the Governor on June 21, 2011. This act was codified as Chapter 2011-250 of the Laws of Florida.

Appointments: The membership of the advisory board shall consist of nine (9) members, who are electors of Polk County, Florida, and are appointed by the BoCC pursuant to the provisions of Section 1 of Chapter 2011-250 of the Laws of Florida.

Term: Members shall serve initial staggered terms as set out in Section 2 of Chapter 2011-250. Thereafter, members shall serve staggered terms of 3 years each. Vacancies shall be filled by the BoCC for the unexpired term in the same manner as the original appointment. Members may be reappointed to serve one additional term.

Reason for Appointment: Expiration of current term.

RECOMMENDATION

Reappoint Beatrice “Bea” Hancock as a member (Seat 4) of the Polk County Historical Commission for the three-year term, October 1, 2025 through September 30, 2028.

FISCAL IMPACT

No fiscal impact.

CONTACT INFORMATION

Kay Suggs
Executive Assistant to the Board

KaySuggs@polk-county.net

Beatrice "Bea" Hancock
1980 8th Terrace, SE
Winter Haven, FL 33880
Cell: 407-421-9043
E-mail: beahancock@hotmail.com

Bea Hancock grew up in Winter Haven, Florida, graduating from Winter Haven High School in 1980. Ms. Hancock graduated from Polk Community College in Winter Haven and then attended and graduated from Florida State University with a Bachelor of Arts in English Literature, 1984, and Master of Arts in Humanities, 1986.

Ms. Hancock has worked as a bi-lingual Flight Attendant with Delta Air Lines for 39 years, primarily to Germany. Now as a Tampa based Flight Attendant, she works flights to Amsterdam as well as domestic flights with a flexible schedule.

As a life-long resident of Central Florida, she has been involved in the arts as a performer, volunteer and patron. She was a violinist for over 5 years with the Winter Haven Youth Symphony.

Up until eight years ago, she held the office of 3rd VP – Education for Opera Orlando, formerly Florida Opera Theatre. In this capacity, Ms. Hancock oversaw the after-school Youth Program, working closely with the Youth Director, Robin Jensen. Duties included applying for grants, collecting tuition, budgeting, granting scholarships, coordinating concerts, rehearsals, - generally anything that needed to be done!

She also a volunteered for a number of years at Florida Hospital, Orlando. As a cancer survivor herself, helping cancer patients with their chemo treatments and providing an example of a positive outcome of treatment.

As an alumnus of St. Joseph Catholic School, Ms. Hancock was proud to serve on the school's board for over 10 years. During that time, she initiated an Alumni group, gathering information related to the history of the school, alumni and past teachers.

Ms. Hancock has been an avid genealogist for many years after attending a family reunion with her grandparents in Wiregrass, Georgia. She has been able to do research in several states and countries, taking advantage of the travel benefits of her job as well as growing up bi-lingual. Through a fellow Flight Attendant and a chance mention of Sylvester, GA, Ms. Hancock became involved in a 30-year-old tradition of the James and Jestern Hancock Family Reunion, serving in a number of elected positions. She has found the genealogy library in Bartow a great resource in ongoing research.

Having moved back to Winter Haven 9 years ago, to be closer to family and spend more time with her ailing father (now deceased), she enjoyed serving as a board member for the Historic Ritz Theatre for 4 years and appreciates life in Imperial Polk County and all it has to offer.

Agenda Item J.1. 8/19/2025

SUBJECT

Appoint Cyndi Jantomaso, as a member of the Polk County Planning Commission, for the three-year term, October 1, 2025 to September 30, 2028.

DESCRIPTION

Purpose of Layboard: To review and approve or deny certain types of development applications (Level 3 and Level 4) pursuant to the use tables in Chapters 2, 4 and 5 of the Land Development Code.

Creating Authority: Polk County Ordinance 00-09, and as amended, the Polk County Land Development Code. The Planning Commission is the Local Planning Agency (LPA) per Section 163.3174 Florida Statutes (F.S.)

Appointments: Seven members and three alternates to be appointed by the BoCC. The Board should include members representing the following areas: AICP Certified Planner; licensed professional engineer, surveyor and mapper, architect, or landscape architect; natural or environmental specialist; a farmer, rancher, or an individual involved in other aspects of agriculture; a business person, who may include a licensed real estate sales associate or broker, licensed general contractor or subcontractor.

Term: Three-year terms limited to two full-length consecutive terms and a maximum of eight years if initial appointment is less than three years.

Reason for appointment: Expiration of term of previous member, David Dalton

RECOMMENDATION

Appoint Cyndi Jantomaso, as a member of the Polk County Planning Commission, for the three-year term, October 1, 2025 to September 30, 2028.

FISCAL IMPACT

No fiscal impact.

Resume and Bio of Cyndi Jantomaso, MEDP

Cyndi Jantomaso is an accredited Master Economic Development Practitioner receiving her certification through AEDL. In addition, she holds a State of Florida Realtor license, and a State of Florida Paralegal Certification.

Cyndi is the President of the Haines City Economic Development Council, Inc and has been with the organization since 2011. The Council is a private, not-for-profit corporation organized under the laws of the State of Florida made up primarily of large companies, financial institutions, post-secondary education institutions, county and state representatives, and workforce development boards. The Council is managed by a board of directors made up of public and private sector members. The Council encourages, supports, and promotes economic development and growth opportunities within the city and in the Northeast Polk County building relationships that will create opportunities and jobs for the area. Cyndi's focus is on recruitment, business retention, and expansion of target industries to Haines City and Northeast Polk. Cyndi is responsible for the creation, implementation, and continual improvement of the Economic Development Strategic Plan for the Haines City Economic Development Council, Inc. The Economic Development Strategic Plan will, at a minimum, focus on the expansion, recruitment and retention of targeted business and industry, support for existing Haines City businesses, identify and support the workforce needs today and of the future, and develop and implement strategies that lead to effective product development. Cyndi's position must possess a high-level understanding of Polk County and Haines City's economic drivers, its assets and the local stakeholders and partners that are critical to the growth of Northeast Polk's economy.

In Cyndi's 15 years with the Haines City Economic Development Council, she has helped announce many economic development projects which generated a significant amount of jobs, millions in capital investment of new industrial real estate. In her spare time, she enjoys being on the ocean with friends and family.

As a leader in her community, Cyndi is an Alumni of the Haines City Leadership Class II, Alumni of the Orlando Leadership Class 84', and Alumni of the Leadership Polk Class VIII & Chairperson of Leadership Polk Class XIII.

Cyndi was appointed and served a two-year term in 2016 on the Florida Economic Development Council Board of Directors; in 2017 she was appointed and served a one-year term as a Board of Director United Way Central Florida; in 2019 she was appointed and served a two-year term as Board of Trustee for Heart of Florida Regional Medical Center.

Cyndi was appointed by Polk County Board of County Commission to the NE Polk County Roadway Advisory Committee in 2015 to advise the Polk County Board of County Commissioners regarding the identification and prioritization of roadway infrastructure improvements in the unincorporated area of northeast Polk County. She served as the Chair from 2019-2021.

In 2022, Cyndi was appointed by the Polk County Board of County Commission to serve a 3-year term on the Industrial Development Authority. The IDA performs such acts necessary for the sound planning and development of Polk County, its industry, commerce, and business. The Polk County Board of County Commission has extended her term for another 3 years until 2029.

Cyndi continues to serve her community as a Board of Director for CareerSource Polk; Board of Director for Central Florida Health Care; and Board of Director Polk State College Foundation.

Cyndi is devoted to growing Polk County's region and has been a champion for Polk County's enormous potential.

Cyndi serves as the first point-of-contact for new and expanding businesses in the City of Haines City, one of the fastest growing municipalities in the State of Florida. She serves as a business liaison in response to inquiries as it relates to economic development projects and activities, to include project leads from the County or the State.

Cyndi has worked on six (6) Ad Valorem Tax Abatement Programs with Polk County, Florida. Several Brownfield Grants and numerous federal and state grants for Haines City, Florida.

Cyndi is responsible for creating program guidelines, applications, and policies related to economic development, and manages the Haines City EDC Strategic Action Plan, and oversees the implementation of their goals.

Cyndi conducts business retention site visits regularly with industry leaders in the City of Haines City. She coordinates with local resource partners to meet the needs of the local target industries in the business community, such as local economic development practitioners, workforce development, financial and lending institutions, educational and technical institutions, chambers of commerce, community stakeholders, realtors/brokers, and various private and not-for-profits.

Cyndi compiles data for special projects or reports, as assigned, ensuring completion by specified deadlines and in accordance with the outlined goals and objectives as requested.

Cyndi has knowledge of principles and practices of economic development programs, businesses incentives and state economic development programs and incentives. She exercises sound judgement and makes decisions accordingly. She is established and maintains cooperative relationships with business owners, developers, site selectors, landowners, the citizens, and public officials with considerable tact and courtesy.

Cyndi can interpret, explain, and administer policies and procedures, with a keen ability to research documents and draw conclusions. She has experience with municipal budget reviews, preparation, and analysis. She can handle correspondence and other administrative details when needed.

Agenda Item K.1. 8/19/2025

SUBJECT

Appoint Larry Thompson to replace Jenna Sutton on the Comprehensive Plan Advisory Committee (CPAC).

DESCRIPTION

The Comprehensive Plan Advisory Committee (CPAC) was approved by the Board on April 1, 2025, to consist of 15 members to meet twice a month for approximately six months to review and provide input into the draft policies for the ongoing Comprehensive Plan update. Each Board member appointed two members. One of the original members, Ronnie Hedrick resigned and was replaced with Jenna Sutton. However, Ms. Sutton is now unable to serve. Mr. Hedrick and Ms. Sutton were appointed by Commissioner Scott who has chosen Larry Thompson as a replacement.

RECOMMENDATION

Request Board appoint Larry Thompson to replace Jenna Sutton on the Comprehensive Plan Advisory Committee (CPAC).

Summary

A 4th generation Floridian with deep family roots in the Florida Citrus and Cattle industries. A Senior Executive with 20 plus years' Management experience in the Home Building and Construction Industries. Specializing in Division start-ups, Land Acquisitions, Land Development, Construction (single family, multifamily and mid-rise), Operations, Forensic Construction, Sales, and Marketing, with a strategic yet commonsense approach towards Team building and Operational efficiency. A confident, committed, and motivational team Leader.

THOMCO of Florida LLC was started by Larry Thompson for general contracting purposes with a passion for the construction industry, utilizing his 25 plus years' experience with the intent of THOMCO becoming a family operated enterprise. Larry Thompson holds a Florida General Contractors license and Studied Accounting & Finance at International University and Webber International University, respectively, with a long-distinguished career in the home building industry. Over the last twenty-five plus years, he has been responsible for the construction of almost 10,000 homes during his time in the home building industry. He has built everything from entry-level to custom high-end homes, and mid-rise multifamily construction as well.

Larry began his career with a leading National Builder in Construction Operations, specializing in start-up Operations, cost engineering and construction defect remediation. During this time, Larry assembled a Stucco Think Tank, comprised of ASTM members, Architect & Engineers to identify and remediate the latent construction defect problem that plagued the industry during the early 2000's. This effort resulted in Larry authoring the Wall Assembly Manual, which set the standard for installation of stucco over frame construction. He was promoted to Division Manager concluding his career as Florida Regional Manager, before

starting THOMCO of Florida LLC (a General Contracting business) and Carpenter Homes LLC **(a** home building company) in 2019.

In 2021, Larry began diversifying interests in the construction industry by co-founding Advanced ReadyMix Concrete & Supply LLC,
a concrete ready-mix manufacturing operation in Palmetto, Florida. And is the CFO for the company.

Vice President of Operations Central Florida (Corporate Officer)

Central Florida Division, D. R. Horton, Inc.

Managed all Operations for the Division, covering 7 counties (Orlando Metro, Orange, Seminole, Osceola, Lake, Volusia, Marion, Polk) from the center of the State to the East Coast. Division construction licensed Qualifier. Restructured Operations improving efficiencies, reducing maintenance and home building costs to lowest among Horton Florida Divisions. Charged with task of resolving high Warranty claims by identifying the specific construction deficiencies, establishing remedial protocol, then assembling the team to implement the corrective action steps. Chaired the Stucco Think Tank with other industry leaders, whose responsibility was to identify the problems causing stucco failure, establishing and implementation of a corrective remedial action plan. Lead negotiator, as Owner's Rep with the Corporate attorney, in all construction defect settlement agreements and remediation, with the Owners and their respective attorneys. Total cost of project $34 million, lasting 5 years. Reduction in building **cycle** times, while improving efficiency and quality. Developed processes and team relations between Construction, Sales, and Closing Department.

January **2005** - January 2011

Director of Construction and Customer Service

Assistant Secretary (Corporate Officer)

Tampa Division, D. R. Horton, Inc.

One of 3 start-up Managers sent to re-start the Horton Tampa Division. Responsible for all Operations, including Land Development, over 6 counties (Tampa Metro, Hernando, Pasco, Pinellas, Hillsborough, Manatee and Sarasota) on the West Coast of Florida. Division construction licensed Qualifier. Single family, multifamily and mid-rise product.
April 2002 - January
2005

Construction Manager

D. **R.** Horton, Central Florida Division

Managed community level production for single and multifamily developments.

Education

Winter Haven Senior High School 1976

SUMMARY OF PROFESSIONAL EXPERIENCE

CareerSource Polk (formerly Polk Works)

President & CEO – 2006 to Present

Over the past 18 years, I have relished the opportunity to:
Lead Polk County's local workforce development system, governed by a 25 to 45-member CareerSource Polk Board of Directors. Assist the board in setting strategic direction and local workforce policy that supports innovation and effectiveness in the delivery of workforce services. Effectively operate a workforce system consisting of two full-service one-stop career centers, satellite offices, a mobile unit, youth services division, business services division, REACT (layoff aversion) team, and corporate office. Provide strong and effective leadership and oversight for as many as 135 professional staff. Forecast and efficiently manage budgets of up to $21.4 million and generate nearly $4 million in unrestricted revenue to support the organizations' mission. Strengthen and broker strategic partnerships with education, economic development, and employers to aid in designing a framework that supports and ensures a prepared workforce. Elevate CareerSource Polk as one of the top performing workforce boards in the State, while maintaining high levels of customer satisfaction and fiscal integrity.

Polk Works (currently CareerSource Polk)

Assistant Director Business Services to Director of Business Services - 2002 to 2006

Managed the business services division as the outreach arm of the workforce system. Provided ongoing support to businesses through consulting, training, and offering labor market intelligence to aid in effective talent recruitment and retention. Partnered education, economic development, and employers to assess and ensure relevant workforce training, successful business expansion and acquisition of qualified talent. Increased market penetration and employer engagement by 74%. Developed and refined critical workforce programs including Polk County's Best Places to Work Award recognition program, Corporate and Leadership Institutes, and Race to Place (an initiative designed to place 10,000 residents into jobs in six months).

Florida Southern College – Student Life

Director of Housing & Residence Life – 1996 to 2002

Fiscally responsible for managing a multimillion-dollar budget for the administration of a Residence Life program, which consisted of 22 residence halls housing approximately 1200 students. Recruited,

selected, and trained over 200 professional and paraprofessional staff. Booked, planned, and prepared facilities for use by constituents, generating new streams of revenue for the institution. Decreased damage to facilities by 82% and increased on-campus occupancy by 60% through effective marketing, training, renovating, and improved customer service. Formulated and interpreted institutional policies and procedures for room assignments, contracts, student discipline, student accounts and facility operations. Successfully set and achieved short and long-term goals for capital improvements including demolition, renovation, and construction of new on-campus living facilities.

University of Florida – Division of Housing

Residence Director – 1993 - 1996

Operating a residential housing complex of up to 1400 students with five full-time support staff, 34 Resident Assistants, five Graduate Assistants, and 22 Desk Assistants. Managed budget of $750K. Provided ongoing, division-wide training and professional development for professional and paraprofessional staff. Coordinated disciplinary procedures, advised, and adjudicated cases for Residence Hall Conduct Board and taught required credit course for Resident Advisors. Managed summer camps and conferences and developed "First Year Experience" program. Reviewed, researched, and evaluated housing operations for institutional assessment. Served as faculty advisor for Florida Chapter of the National Pan-Hellenic Council.

Agenda Item L.1. 8/19/2025

SUBJECT

Reappoint Denise Bohde as a member (Seat 3) of the Polk County Historical Commission for the three-year term, October 1, 2025 through September 30, 2028.

DESCRIPTION

Purpose of Layboard: To collect and preserve historical materials relating to the history of Polk County and Florida. The Polk County Historical Commission shall also work to develop and establish reliable and sustainable sources of public, private and enterprise funding to ensure the continued operation of the Polk County Historical Museum and the Polk County Genealogical Library, and shall serve as an advisory commission to the Board of County Commissioners and the staff of the museum, library and the Historic Preservation Manager.

Creating Authority: Established by Legislation in 1937 and amended over the years. Further updated and amended by the Florida Legislature in adopting CS/HB 745 in 2011, which was approved by the Governor on June 21, 2011. This act was codified as Chapter 2011-250 of the Laws of Florida.

Appointments: The membership of the advisory board shall consist of nine (9) members, who are electors of Polk County, Florida, and are appointed by the BoCC pursuant to the provisions of Section 1 of Chapter 2011-250 of the Laws of Florida.

Term: Members shall serve initial staggered terms as set out in Section 2 of Chapter 2011-250. Thereafter, members shall serve staggered terms of 3 years each. Vacancies shall be filled by the BoCC for the unexpired term in the same manner as the original appointment. Members may be reappointed to serve one additional term.

Reason for Appointment: Expiration of current term.

RECOMMENDATION

Reappoint Denise Bohde as a member (Seat 3) of the Polk County Historical Commission for the three-year term, October 1, 2025 through September 30, 2028.

FISCAL IMPACT

No fiscal impact.

BIOGRAPHICAL SKETCH

Denise Bohde
1180 E. George Street
Bartow, FL 33830
denisebohde@gmail.com
(863) 378-5323

Denise Bohde was born and raised in Bartow, Florida. She graduated from Bartow High School in 1989 and received her Bachelor's degree in Elementary Education from the University of North Georgia in Dahlonega, Georgia.

Although Mrs. Bohde did not serve in the military, UNG is one of only six senior military colleges in the country. After graduation, she taught in the Atlanta area schools where she sharpened her keen skills for communication and attention to detail.

Her love of people, sales and her community has served her well since her arrival back home to Polk County. Her personality, that radiates service, warmth and care are definitely assets to everything she does.

Mrs. Bohde is a 3rd generation Bartow Rotarian and served as Secretary in 2019-2020. Mrs. Bohde is currently Owner/Realtor of 360 Perspective Partners and she enjoys being a Sales Representative and On-Air personality for WWBF Radio. She serves on the Main Street Bartow Board of Directors as President. She serves on the Polk County Historical Association Board as Treasurer and is currently Polk County's District 2 Historical Commissioner and Chairperson for the Historical Marker Committee. She is also an active board member of the Bartow Community Healthcare Foundation. Her favorite of all jobs is being a mom of 3 wonderful young adults and a happy wife to John. She is a visionary and a go-getter who believes in the power of connecting people with people and turning goals into reality. With a family of local business owners, and her own personal business ventures, she is an entrepreneur who understands the impact and importance of supporting and growing local businesses.

"Bartow will always be my happy place. It's unique and very near and dear to my heart….. it's an amazing community that I'm Blessed to call home!"

Agenda Item N.1. 8/19/2025

SUBJECT

Public Hearing (LDCPAL-2024-19 Minute Maid Ramp Road 1 CPA) (Adoption Hearing) to consider a Comprehensive Plan Map Amendment to change the Future Land Use from Residential High (RHX) to Tourism Commercial Center (TCCX) on +/- 3.2 acres of a +/- 13.47-acre parcel. (No Fiscal Impact)

DESCRIPTION

This is an applicant-initiated request for property located on north of Holly Hill Grove Road 3, east of FDC Grove Road., south of Interstate 4, and west of US Highway 27, east of the City of Haines City, in Section 19, Township 26 and Range 27.

State law requires one Planning Commission hearing, which was held on April 2, 2025, with a recommendation for approval with a vote of 7:0. The transmittal hearing for this case was held on June 3, 2025. This is the adoption hearing.

POLK COUNTY DEVELOPMENT REVIEW COMMITTEE STAFF REPORT

ID #:	**36**
DRC Date:	January 30th, 2025
Planning Commission Date:	April 2nd, 2025
BoCC Dates:	June 3rd, 2025 (1st Hearing), August 5th, 2025 (2nd Hearing)
Applicant:	William Maki, Daly Design Group
Level of Review:	Level 4 Review, Comprehensive Plan Map Amendment
Case Number and Name:	LDCPAL-2024-19 Minute Maid Ramp Road 1 Commercial CPA
Request:	Large Scale Comprehensive Plan map amendment from Residential High (RHX) to Tourism Commercial Center (TCCX) on +/- 3.2 acres of a total 13.47 acres.
Location:	South of Interstate 4, west of US Highway 27, north of Holly Hill Grove Road 3, east of FDC Grove Road, and east of Haines City, in Section 19, Township 26, Range 27.
Property Owner:	GPK SE HOLDING, LLC
Parcel Size:	± 3.2 acres (272619-705000-020090, 272619-705000-020070)
Development Area/Overlays:	Transit Supportive Development Area (TSDA)
Future Land Use:	Residential High (RHX)
Nearest Municipality	Haines City
DRC Recommendation:	Approval
Planning Commission Vote:	Approval (7-0)
Florida Commerce:	No Comment – ORC 25-03 ACSC
Case Planner:	Johnathan (JP) Sims, Planner II

Location Map

Current Future Land Use Map

Summary

This is an Applicant-Initiated request for a Future Land Use designation change from Residential High (RHX) to Tourist Commercial Center (TCCX). The change will make the subject site fronting of US 27 completely TCCX. The subject site includes a 3.2-acre portion of a larger 13.47-acre parcel.

Compatibility Summary

The subject site is bordered by already existing Residential High (RHX) to the south and to the north. To the northeast is TCCX that was changed during LDCPAL-2022-21. To the west of the subject site is CITY use that is currently developing Brentwood Townhomes. Changing the subject site from RHX to TCCX will increase the amount of non-residential development.

Infrastructure Summary

The subject site is adjacent to Highway 27 which is designed for high density traffic. Exits from the development are anticipated on Minute Maid Ramp Road 1 and Holly Hill Grove Road 3. The applicant is hoping to get access to US 27, but this will be determined by FDOT when a site plan is confirmed. Changing the designation from RHX to TCCX on the subject site will likely have a negligible impact on the amount of traffic on this road as the two uses are anticipated to generate almost the same amount of traffic. The subject site is within a Polk County Utilities Service Area in the Northeast. There is already water, wastewater, and reclaimed lines that run along Minute Maid Ramp Road 1. Duke Energy will be providing electricity to the subject site.

Environmental Summary

The nearest lake to the parcel is Lake St Charles to the south at 2.07 miles away. There are no nearby floodplains or basins. The soil available in this area is 100% Candler Sand per the USDA NRSC soil survey completed August 27th, 2021. The closest park to the site is Loughman Park 5.35 miles to the northeast. The subject site is not in a flood zone or wetland. The subject site does reside within the Green Swamp.

Comprehensive Plan

The relevant sections of the Comprehensive Plan that are applicable to the project request:

- Policy 2.102(A1-A15): Growth Management Policies
- Policy 2.102-A10: Location Criteria
- Policy 2.104(A1-A9): Transit Supportive Development Area (TSDA)
- Policy 2.110(I1-5): Tourism Commercial Center (TCCX)
- Policy 2.131-Q7: Density and FAR Schedule
- Policy 2.132-B10: Ridge SPA Development Criteria

Findings of Fact

Request and Legal Status

- This is an applicant-initiated request for a Large-Scale Future Land Use designation change from Residential High (RHX) to Tourist Commercial Center (TCCX) on 3.2 +/- acres of a total 13.47-acre site in the Transit Supportive Development Area (TSDA).

- Subject site sits within the Green Swamp Area of Critical State Concern and sits within the Corridor of the TCCO Overlay.

Compatibility

- The existing uses surrounding the site are
    - North – RHX/TCCX. undeveloped
    - West – CITY; Brentwood Townhomes.
    - East – TCCX; undeveloped
    - South – RHX; Brightly Apartments

- The subject site is bordered by nonresidential land that has not been developed to the east and the northeast. The south and west of the subject site already has residential usage. North of the site is designated as TCCX and has a car dealership. The west land use is CITY and is currently being developed with Brentwood Townhomes. To the east across US 27 is designated ECX but nothing has been built yet. To the east of that is high and medium density housing. To the south is RHX and developed with Brightly Apartments. In 2021, LDCPAL-2021-19 was approved to change the abutting parcels to the direct south to RHX.

Infrastructure

- The zoned schools for the site are Bella Citta Elementary, Citrus Ridge K-8 for Middle, and Ridge Community Senior High School.

- Polk County Fire Rescue/EMS station 38 will be the response unit for this site. It is located at 126 Cottonwood Drive, Davenport, FL 33837 with an approx. response time of 3 minutes.

- The subject site is within the Sheriff Department's Northeast District. NE District is located at 1100 Dunson Rd in Davenport.

- The subject site will be serviced by Polk County's Northeast Utility Service Area for potable water and wastewater.

- Holly Hill Grove Road 3 does not have sidewalks. The frontage of the subject site on US Highway 27 does not have sidewalks. The car dealership to the north has sidewalks on US 27 and the Cambria Grove subdivision has sidewalks on FDC Grove Road.

- The closest mass transit stop is 6.84 miles away on US HWY 17/92 and US 27 intersection to the south of the subject site. It is serviced by Citrus Connection on Line 15. Route 20X, the Haines City to Davenport Express, runs along US 27 with stops only at Posner Park and Downtown Haines City.

- The nearest park is the Loughman Park 5.35 miles to the northeast of the subject site. The nearest regional park is about 8.58 miles north of the subject site.

Environmental

- The subject site's elevations begin at 166 feet in the northwest corner of the parcel and moves upward to higher elevations to the southeast. The high point of the site is 185 feet close to the east side of the site that is abutting US Highway 27. It then begins to slope back downward to the south to end at a low elevation of 172 feet.

- The site is not located in a wetland or floodplain.

- The soil type for the subject site includes 100% Candler Sand.

- Per the Polk Species Observation Map, there have not been any endangered species sightings on the subject site.

- There are no known archeological or historical resources on the subject site per data from the Florida State Historical Commission.

- There are no wells on the subject site and it is not located in a wellfield.

- The site is not within an Airport Impact District.

Comprehensive Plan Policies

- POLICY 2.102-A1 Development Location states that Polk County shall promote contiguous and compact growth patterns through the development process to minimize energy costs, conserve land, water, and natural resources, minimize the cost of services, and prevent development patterns where tracts of land are by-passed in favor of development more distant from services and existing communities.

- POLICY 2.102-A2 Compatibility states that land shall be developed so that adjacent uses are compatible with each other, pursuant to the requirements of other Policies in this Future Land Use Element, so that one or more of the following provisions are accomplished: a. there have been provisions made which buffer incompatible uses from dissimilar uses; b. incompatible uses are made to be more compatible to each other through limiting the intensity and scale of the more intense use; c. uses are transitioned through a gradual scaling of different land use activities through the use of innovative development techniques such as a Planned Unit Development.

- POLICY 2.102-A3 Distribution states that development shall be distributed throughout the County consistently with this Future Land Use Element so that the public utility, other community services, and public transit and transportation systems can be efficiently utilized; and compact, high-density and intensity development is located where urban services can be made available.

- POLICY 2.102-A4 Timing states that development of land shall be timed and staged in conjunction with the cost-effective and efficient provision of supporting community services which, at a minimum, shall require compliance with the Plan's Level of Service requirements and the County's concurrency management system.

- POLICY 2.102-A10 Location Criteria states the following factors shall be taken into consideration when determining the appropriateness of establishing or expanding any land use or development area:
  a. nearness to incompatible land uses and future land uses, unless adequate buffering is provided;
  b. nearness to agriculture-production areas;
  c. distance from populated areas;
  d. economic issues, such as minimum population support and market-area radius (where applicable);
  e. adequacy of support facilities or adequacy of proposed facilities to be provided by the time of development, including, but are not limited to:
     1. transportation facilities, including but not limited to, mass transit, sidewalks, trails and bikeways;
     2. sanitary sewer and potable water service;
     3. storm-water management;
     4. solid waste collection and disposal;
     5. fire protection with adequate response times, properly trained personnel, and proper fire-fighting equipment;
     6. emergency medical service (EMS) provisions; and
     7. other public safety features such as law enforcement;
     8. schools and other educational facilities
     9. parks, open spaces, civic areas and other community facilities
  f. environmental factors, including, but not limited to:
     1. environmental sensitivity of the property and adjacent property;
     2. surface water features, including drainage patterns, basin characteristics, and flood hazards;
     3. wetlands and primary aquifer recharge areas;
     4. soil characteristics;
     5. location of potable water supplies, private wells, public well fields; and
     6. climatic conditions, including prevailing winds, when applicable.

- POLICY 2.104-A1: DESCRIPTION - Transit Supportive Development Areas shall meet the following criteria:

  a. be those areas where the availability of infrastructure and other community facilities and services, including, but not limited to mass transit and other transportation alternatives,

utilities, public safety, recreational and educational services, promotes and supports the location of higher density and intensity compact, mixed use development;
b. be supported by existing or planned urban type services that are programmed or expected for the 10-year planning horizon;
c. be designated as part of a coordinated land use and transportation strategy that supports the provision of improved and expanded transit services, as identified in the Transportation Planning Organization (TPO) 2060 Transportation Vision Plan and the connecting circulator routes, in order to increase mobility and travel options;
d. include development criteria that:

1. promote the development of walkable communities which include a balance between employment opportunities, mix of complementary uses and activities, and a range of housing opportunities;
2. improve access to employment areas, schools, shopping and recreational opportunities;

- POLICY 2.104-A3: LAND USE CATEGORIES - The following land use categories shall be permitted within TSDAs, in accordance with applicable criteria

    - a. ACTIVITY CENTERS: Regional Activity Centers, Community Activity Centers, Neighborhood Activity Centers, Convenience Centers, Tourism Commercial Centers, Employment Centers and High-Impact Commercial Centers.

    - b. RESIDENTIAL: Residential-High, Residential-Medium, and Residential-Low Districts.

    - c. OTHER: Linear Commercial Corridors, Commercial Enclaves, Industrial, Business-Park Centers, Office Centers, Leisure Recreation, Mixed Use, Institutional, Professional Institutional, Recreation and Open Space, Preservation.

- POLICY 2.110-I1: CHARACTERISTICS - Tourism Commercial Centers are intended to provide for the tourist, recreational needs, and entertainment activities primarily for the short-term visitor to Polk County, and also the residents of Polk County that accommodate large crowds and daily events. These include, but are not limited to: theme parks, resorts, hotels, motels, cultural centers, museums, and conference centers. Ancillary commercial uses necessary to support the activities within the center, such as restaurants, service stations, and convenience stores may also be permitted. General (approximate) characteristics of Tourism Commercial Centers are:

  Usable Area: 10 acres or more

  Gross Leasable Area (GLA): 10,000 to 2,000,000 sq. ft.

  Typical Leading Tenant: Resorts, Museums, Historical Facilities, Theme park, Hotel, Motel, RV park.

  Other Typical Tenants: All lodging facilities, restaurants, service stations, gift shops, miniature golf, and entertainment activities, bed and breakfasts, convention centers, expo

halls, and uses that are part of a master planned development for a tourist use attraction such as a private airstrip, marina, or equestrian facility.

- POLICY 2.110-I2: DESIGNATION AND MAPPING - Tourism Commercial Centers shall be located within TSDAs, UGAs, SDAs, UEAs, and RDAs as designated on the Future Land Use Map Series as "Tourism Commercial Center" (TCC).

- POLICY 2.110-I3: LOCATION CRITERIA - Tourism Commercial Centers shall be located at the intersections of arterial or major collectors, preferably with the capability to accommodate a fixed-route mass transit line. The proximity to other recreational attractions, either existing or proposed, such as recreational water bodies, recreational facilities, natural amenities, or other regional tourist attractions, shall also be considered in the location of Tourism Commercial Centers.

- POLICY 2.110-I4: DEVELOPMENT CRITERIA - Development within a TCC shall conform to the following criteria:

  a. TCCs shall have direct access to an arterial roadway or have sufficient network of multiple collector roads to distribute traffic during peak periods of activity. Tourism Commercial Centers shall incorporate the use of frontage roads and shared ingress/egress facilities wherever practical.
  b. Adequate parking shall be provided to meet the demands of the uses, and interior traffic-circulation patterns shall facilitate the safe movement of vehicular, bicycle, and pedestrian traffic.
  c. Buffering, screening, and setbacks shall be provided where the effects of lighting, noise, odors, and other such factors would adversely affect adjacent land uses. Parking lots, loading areas, dumpsters, utilities, and air conditioning units, signage, etc. are examples of facilities which may require special buffering, screening, and setback provisions.
  d. The maximum floor area ratio shall be limited to 0.50 unless developed as part of a Planned Development and may be permitted to go to 1.0 per the requirements in the Land Development Code.
  e. Planned Developments within the TCC may be permitted a maximum floor area ratio up to 1.0 or an increase in square footage in order to promote attractive and economically viable tourist-oriented commercial development. Intensity increases shall only be available to parcels within the TSDA and UGA or those locations where urban infrastructure including adequate access to urban collector or arterial roads, public potable water and sewer, and public safety services are already available at appropriate levels. The Land Development Code shall establish specific development standards and criteria for Planned Developments within activity centers.
  f. Tourism Commercial Center activities involving:
     1.Manufacturing uses such as confectionery, canneries and wineries where the products are part of the overall attraction, and
     2.Non-municipal airports may be approved in through terms and conditions stipulated in the Land Development Code.
  g. Residential development shall only be permitted for tourists and employee housing for

employees of the tourist use. Examples include but are not limited to timeshares, short term rentals, employee housing, lodges and retreats, cabins, recreational vehicle spaces. Residential uses for employees of the TCC use shall only be considered as an accessory use as part of a master planned development per the Land Development Code. Housing for the owner and/or family of the owner shall be addressed as per the Land Development Code.

- POLICY 2.110-I5: ADJACENT DEVELOPMENT - Subject to the criteria and requirements of Section 2.125-C relating to Transitional Areas, development adjacent to a TCC may include the following uses: Office, Medium-Density Residential, Institutional, or Open Space.

- POLICY 2.131-Q7: Density and FAR bonuses are used in the North Ridge Selected Area Plan to encourage development designs consistent with the intent of the plan. Within the Center and Core of the Transit Corridor and Center Overlay (TCCO), the base density for RMX is established at six dwelling units per acre (6 du/ac), and for RHX at ten dwelling units per acre (10 du/ac). Based on a density point system development within RLX can be permitted at densities of up to eight dwelling units per acre (8 du/ac) from the established sub-district while development within RMX can be permitted at densities of up to 15 dwelling units per acre (15 du/ac) and within the RHX, they can be permitted at densities of up to 20 dwelling units per acre (20 du/ac). Densities in the RMX and RHX outside the Center and Core of the TCCO may only occur below the base through the density bonus system within Land Development Code.

- POLICY 2.132-B10: DEVELOPMENT CRITERIA - Development within the RIDGE-SPA shall conform to the following:

    - a. Residential development shall not exceed a gross density per parcel of eight dwelling units per acre, within the RL land use category. Residential development within the US 27 SAP and North Ridge SAP shall be as adopted. Development of the RM parcels shall be subject to the following restrictions:1.Commercial development shall be prohibited unless permitted in conjunction with a Residentially-based, Mixed-Use Development. If a Residentially-based, Mixed-Use development is approved, then commercial restrictions shall be as set forth in the Ridge-SPA.2.Consistent with the objectives and goal of making shorter the average daily trip lengths, and the goal of providing affordable housing in close proximity to places of employment and major transportation corridors, residential development within the RM parcel shall be allowed as follows:(a)Up to or equal to 15 units per acre, providing the development meets the terms and conditions of this CARMP and the comprehensive plan as well as the required density bonus points listed within the Land Development Code.
    - b. Development of RH parcels shall be subject to the following restrictions:1.Commercial development shall be prohibited unless permitted in conjunction with a Residentially-Based, Mixed-Use Development or a Residentially-Based Mixed-Use Structure. If a Residentially-based, Mixed-Use Development or Residentially-Based, Mixed-Use Structure is approved, then commercial restrictions shall be as set forth in the Ridge-SPA and the North US 27 SAP.2.Consistent with the objectives and goal of making shorter the average daily

trip lengths, and the goal of providing affordable housing in close proximity to places of employment and major transportation corridors, residential development within the RH parcel shall be allowed a maximum of 20 du/ac, providing the development meets the terms and conditions of this CARMP and Comprehensive Plan.

- c. Golf courses shall be considered to be recreational and commercial in nature and shall be permitted in the following land uses:1.Tourist Commercial Center [4]X (TCCX).2.Leisure/Recreation (L/R).3.Recreation and Open Space (ROS).4.Residential-Low (RL).5.Residential-Medium (RM).
- d. Development shall comply with the following Open Space (OS) and Impervious Surface Ratio (ISR) Standards:1.All residential development must provide a minimum open space set-aside of no less than 30% of total land area.2.Single-family lots shall not exceed an impervious surface ratio of 50% unless the lots are within a master planned residential community which maintains an overall Impervious Surface Ratio of 50%.3.Commercial development within Residentially-based Mixed-Use projects shall not exceed an impervious surface ratio of 60% unless the lots are within a master planned residential community which maintains an overall Impervious Surface Ratio of 50%.4.Development within the TC, BPC, EC, LCC, CE, NAC, CAC, RAC, TCC, PI, and IND land use categories shall not exceed an impervious surface ratio of 70% for the entire project.

Development Review Committee Recommendation: Based on the information provided by the applicant, recent site visits, and the analysis conducted within this staff report, the Development Review Committee finds that with the proposed conditions, the proposed request **IS COMPATIBLE** with the surrounding land uses and general character of the area, **IS CONSISTENT** with the Polk County Comprehensive Plan and Land Development Code, and therefore, the Development Review Committee (DRC) recommends **APPROVAL of LDCPAL 2024-19.**

Planning Commission Recommendation: On April 2nd, 2025, in an advertised public hearing, the Planning Commission voted (7:0) to recommend APPROVAL **of LDCPAL-2024-19.**

NOTE: *This staff report was prepared without the benefit of testimony and evidence submitted by the public and other interested parties at a public hearing.*

NOTE: *All written comments made in the application and subsequent submissions of information made during the application review process, which are on file with the Land Development Division, shall be considered to be binding upon the applicant, provided such comments are not at variance with the Comprehensive Plan, LDC or other development regulations in effect at the time of development.*

NOTE: *Issuance of a development permit by the county does not in any way create any rights on the part of the applicant to obtain a permit from a state or federal agency and does not create any liability on the part of the county for issuance of the permit if the applicant fails to obtain requisite approvals or fulfill the obligations imposed by a state or federal agency or undertakes actions that result in a violation of state or federal law.*

Analysis
This section of the staff report includes data on the surrounding uses, infrastructure conditions, environmental conditions, and related Comprehensive Plan policies and Land Development Code regulations.

Surrounding Uses
Table 1 identifies the Future Land Use (FLU) designations and the existing uses surrounding the subject site that are immediately adjacent.

Table 1 Surrounding Uses

Northwest RMX;residential neighborhood, single family detached	**North** TCCX;undeveloped, Posner Park Chrysler car dealership	**Northeast** TCCX; undeveloped
West CITY; Brentwood Townhomes	**Subject Site** RHX;undeveloped grove land	**East** TCCX; undeveloped
Southwest CITY; Brentwood Townhomes	**South** RHX;Brightly Apartments	**Southeast** RMX; undeveloped grove land

Source: Polk County Geographical Information System and site visit by County staff

Compatibility with the Surrounding Uses

According to *Policy 2.102-A2* of Polk County's Comprehensive Plan, "land shall be developed so that adjacent uses are compatible with each other, pursuant to the requirements of other policies in this Future Land Use Element, so that one or more of the following provisions are accomplished: a. there have been provisions made which buffer incompatible uses from dissimilar uses; b. incompatible uses are made to be more compatible to each other through limiting the intensity and scale of the more intense use; and c. uses are transitioned through a gradual scaling of different land use activities through the use of innovative development techniques such as a Planned Unit Development." The "development criteria" and the "density and dimensional regulations" of a land use district are often the measuring tools used by staff to determine compatibility and the appropriateness of locating differentiating uses. Compatibility is defined in the Comprehensive Plan as "a condition in which land uses or conditions can coexist in relative proximity to each other in a stable fashion over time such that no use or condition is unduly negatively impacted directly or indirectly by another use or condition."

A. Land Uses

The purpose of TSDA's is to serve as a foundation from which a future urban pattern is established, and to provide areas for development at urban densities and intensities. TSDA's are areas within the County that, at a minimum, are currently served, or are programmed within the applicable Comprehensive Plan Capital Improvement Program to be served within the next ten years by County owned, municipal, or County franchised central sanitary sewage and potable water systems. TSDA's are also supported by, or programmed to be supported by, other services typically found to accompany urban development such as public safety services, an urban road network, and developed parks.

The subject site is 3.2 acres of a total 13.47 acres which is currently designated as Residential High (RHX). The conversion from RHX to Tourism Commercial Corridor (TCCX) will allow for all parcels facing US 27 to be utilized for commercial purposes, as well as encompassing the internal roadway that connects Minute Maid Ramp Road 1 and Holly Hill Grove Road 3.

B. Infrastructure

The subject site has access to public utilities already established. The northeast district Polk County Utilities will supply water, wastewater, and reclaimed water lines to the site. It is also adjacent to a major arterial road with US Highway 27.

Nearest Elementary, Middle, and High School

The schools zoned for the subject property are the zoned schools listed in Table 2 below.

Table 2 School Information

Name of School	**Annual Estimated Demand**	**% Capacity 2021-2022 School Year**	**Average driving distance from subject site**
Bella Citta Elementary	0 students	72%	4.59 ± miles driving distance
Citrus Ridge Middle School	0 students	92%	6.81 ± miles driving distance
Ridge Community Senior High	0 students	87%	3.75 ± miles driving distance

Source: Polk County School Board, Polk County Impact Fee Ordinance, GIS

There is capacity in all the zoned schools for the subject site, but this request is changing the land use to a commercial designation, which does not typically generate residential uses which create students. However, final concurrency is determined at Level 2 Review approval and not at Comprehensive Plan amendment or Planned Development approvals. If at Level 2 Review, the Level of Service (LOS) will be exceeded by the development or there is no capacity, County and School Board staff will discuss the mitigation options to ensure available space for new students and develop a plan with the applicant.

Nearest Sheriff, Fire, and EMS Station

Table 3 below displays that the nearest Sheriff District office and Fire/EMS stations. Sheriff response times are not as much a function of the distance to the nearest sheriff's substation, but more a function of the overall number of patrol officers within the County.

Table 3 Public Safety Information

	Name of Station	**Distance Response Time***
Sheriff	**Northeast District Command Unit (**1100 Dunson Rd in Davenport)	3.9 +/- miles Priority 1 – 9:33 Priority 2 – 23:15
Fire/ EMS	**Station #38** (126 Cottonwood Drive, Davenport, FL 33837)	0.6 +/- miles 2 minutes

Source: Polk County Sheriff's Office & Polk County Fire Rescue. Response times for September 2024.

Water and Wastewater

A. Estimated Demand and Service Provider

The subject site is within the Northeast Polk County's Utility Service Area for potable water, reclaimed water, and wastewater. The nearest water main and wastewater main are located adjacent to the subject site along the east and west side of US Highway 27. The 24-inch force main for potable water is on the east side of Highway 27 and the 16-inch wastewater force main is on the west side of Highway 27.

Table 4 Estimated Water and Sewer Impact Analysis

Permitted Intensity	**Maximum Permitted in Existing Land Use RHX in North Ridge SAP**	**Maximum Permitted in Proposed TCCX in North Ridge SAP**
3.2 +/-acres 139,392 sf	**3.2 +/- acres X 20 du/ac = 64 du**	**3.2 +/- acres X 0.7 FAR = 97,574 sf**
Potable Water Consumption	**64 du X 198 GPD = 12,672 GPD**	**97,574 X 0.29 GPD = 28,297 GPD**
Wastewater Generation	**64 du X 180 GPD = 11,520 GPD**	**28,297 X 80% of water = 22,637 GPD**

Source: Concurrency Manual: *RHX multifamily at 198 GPD per unit for water and 180 GPD for sewer* TCCX, ECX and RHX uses 0.29 X square footage for water, and 80% of water for wastewater.

B. Available Capacity

Since water and wastewater are going to be provided by the Northeast District for Polk County Utilities, there is sufficient capacity. Table 4 provides a scenario of the maximum buildout project of the subject site, as well as the impacts it may have on water and wastewater services based upon the maximum development potential in the current land use designation RHX and the anticipated use TCCX. The Polk County Northeast Regional service area has enough capacity to service the property for water and wastewater.

System Status								
	Current Working Permit Limit (MGD)	Current Flow (MGD)	Percent of Current Limit Used Today (%)	Available Flow-Capacity Today (MGD)	Firm Commitments (MGD)	Uncommitted Capacity (MGD)	System Growth Rate (MGD/year)	Time Until Flow Exceeds Limit (Years)
Northeast PWS	13.940	8.917	64%	5.024	4.230	0.794	0.351	2.3

System Status								
	Current Working Permit Limit (MGD)	Current Flow (MGD)	Percent of Current Limit Used Today (%)	Available Flow-Capacity Today (MGD)	Firm Commitments (MGD)	Uncommitted Capacity (MGD)	System Growth Rate (MGD/year)	Time Until Flow Exceeds Limit (Years)
Northeast Regional WWTF	4.750	4.388	73%	1.612	1.548	0.064	0.149	0.4

The nearest fire hydrant is 190 feet to the east of the subject site on the east side of US 27. It is close to the northeast corner of US 27 and Minute Maid Ramp Road 1.

C. Planned Improvements

An expansion to the Northeast Regional WWTF is planned that will expand the additional capacity available.

Roadways/Transportation Network

A. Estimated Demand

Table 5 following this paragraph shows the Average Annual Daily Trip (AADT) rate and the PM Peak hour trip rate. The proposed request will generate a more traffic than the current Future Land Use designation.

Table 5 Estimated Transportation Impact Analysis

Permitted Intensity	**Maximum Permitted in Existing Land Use RHX in North Ridge SAP**	**Maximum Permitted in Proposed TCCX in North Ridge SAP**
3.2 +/-acres **139,392 sf**	**3.2 +/- acres X 20 du/ac =** **64 du**	**3.2 +/- acres X 0.70 FAR =** **97,574 sq ft / 1000 = 97 sf**
Average Annual	**64 du X 4.54 AADT =** **291 Trips (100% New Trips)**	**97 sf X 7.99 AADT =** **590 Trips (76% New Trips)**
PM Peak	**64 du X 0.32 AADT =** **21 Trips**	**97 sf X 0.59 AADT =** **58 Trips**

Source: CPA Concurrency Analysis where LDA for RHX is Multifamily Housing (High-Rise) 4.54 AADT, 0.32 peak; Hotel for TCCX at 7.99 AADT, 0.59 peak.

B. Available Capacity

The roads surrounding the subject site all have insufficient capacity availability. US HWY 27 to the east is a principal arterial road with a "F" Level of Service. Minute Maid Road Ramp 1 and Holly Hill Grove Road to the north and south are Local Roads, and are not tracked for concurrency and level of service.

Link #	Road Name	Current Level of Service (LOS)	Available Peak Hour Capacity	Minimum LOS Standard	5-Year Peak Hr Projected LOS
5110N	US 27 (CR 547 to Interstate-4)	F	0	D	F
5110S	US 27 (CR 547 to Interstate-4)	F	0	D	F

Source: 2023 Roadway Network Database

C. Roadway Conditions

Minute Maid Ramp Road One is considered unpaved in our pavement management system due to having a substandard base. As a result, there is no pavement condition data on it as it's maintained under the Dust Control operation and not Pavement Management. Holly Hill Grove Road 3 is currently paved with the development of the Brentwood Apartments and Townhomes. The applicants will be required to improve Minute Maid Ramp Road 1 to county standards from any access on these roads to US 27.

D. Sidewalk Network

The closest sidewalk connection is in the Cambria Grove residential development .31 miles to the west. Minute Maid Ramp Road 1 and Holly Hill Grove Road 3 do not have sidewalks. The frontage of the subject site on US Highway 27 does not have sidewalks. The car dealership to the north has sidewalks on US 27 and the Cambria Grove subdivision has sidewalks on FDC Grove Road.

E. Planned Improvements:

There are currently no planned County improvements along any of the traffic links. However, due to development activity in Haines City, the communities traffic impacts are of a general concern. Failing road links cannot be a reason to deny an applicant's request.

F. Mass Transit

The closest bus stop can be located along the corner of Highway 17/92 and C Street in Haines City and is serviced by Line 15 through Citrus Connection. The bus stop is 6.84 miles away from the subject site. Route 20X, the Haines City to Davenport Express, runs along US 27 with stops only at Posner Park and Downtown Haines City.

Park Facilities:

The nearest park is Loughman Park at 5.35 miles to the northeast of the subject site. The subject site is situated within the Green Swamp but is not in floodplain or wetland.

A. Location:

Loughman Park is 5.35 miles northeast of the subject site off Ronald Reagan Parkway.

B. Services:

This park has a tot lot, a soccer field, basketball court, and open pavilion space.

C. Multi-use Trails:

The closest free hiking trail is in the Hilochee Wildlife Management Area which is 5 miles to the southwest of the subject site.

D. Environmental Lands:

The subject site is located in the Green Swamp Area of Critical State Concern. There are state and regional owned lands in the Green Swamp Area of Critical State Concern but county owned lands available for public access.

E. Planned Improvements:

There are no further recreation improvements scheduled for this area of the County at this time.

Environmental Conditions

The site's highest elevation is at the east edge of the parcel at the corner of US 27 and Minute Maid Ramp Road 1. It then slopes downward to the west from a high point of 185 feet to a low of 165 feet in the northern parcel, and 172 feet in the southern parcel.

A. Surface Water:

There are no surface waters on the subject site.

B. Wetlands/Floodplains:

There are no wetlands or floodplains on the subject site. The parcel is located in the Green Swamp, an Area of Critical State Concern. According to the Polk County GIS Viewer, the parcel appears to have no wetlands nor Special Flood Hazard Area. Development is subject to review by the Florida Department of Commerce and, when permitted, is regulated in accordance with the land use standards of the Polk County Comprehensive Plan and Land Development Code.

C. Soils:

The subject site is comprised of 100% Candler Sand. According to the soil survey of Polk County, the site is entirely comprised of Candler Sand. While site grading and preparation will be necessary to support site development, these soils are generally suitable for development.

Table 8 (Per the Applicant's IAS)

Soil Name	**Septic Tank Absorption Field Limitations**	**Limitations to Dwellings w/o Basements**	**% of Site** *(approximate)*
Candler Sand	Slight	Slight	100%

*Source: Soil Survey of Polk County, Florida, USDA, Soil Conservation Service *Because of poor filtration, ground water contamination is a hazard in many areas that have a concentration of homes with septic tanks.*

The subject site has acceptable soils for septic tanks. This will not be an issue though as the site will be hooked up to wastewater and water from Polk County Utilities.

D. Protected Species

According to the Florida Biodiversity Matrix GIS application, no threatened or endangered plant or animal species exist on the site. If any are discovered, the applicant shall properly protect the specie(s) or mitigate any impacts consistent with federal, state, and local law.

E. Archeological Resources:

According to the Florida Department of State, Division of Historical Resources, there are no archeological sites listed in the Florida Master Site File.

F. Wells (Public/Private)

The subject site is not located on a wellfield and does not have a well on site. The site will be connecting to water from Polk County Utilities.

G. Airports:

The site is not within an Airport Impact District.

Economic Factors:

No Economic Factors are present on this site.

Consistency with the Comprehensive Plan

Many policies within the Comprehensive Plan are reviewed for consistency with an application. The most relevant policies for the proposed request are included in this section. The policy is first stated and then an analysis of how the request is provided to state that it may or may not be consistent with the Comprehensive Plan. How the request is **consistent** with the Comprehensive Plan is listed below:

Table 8 Comprehensive Plan and Land Development Code

Comprehensive Plan Policy	Consistency Analysis
POLICY 2.102-A2: COMPATIBILITY - Land shall be developed so that adjacent uses are compatible with each other, pursuant to the requirements of other Policies in this Future Land Use Element, so that one or more of the following provisions are accomplished: a. there have been provisions made which buffer incompatible uses from dissimilar uses; b. incompatible uses are made to be more compatible to each other through limiting the intensity and scale of the more intense use; c. uses are transitioned through a gradual scaling of different land use activities through the use of innovative development techniques such as a Planned Unit Development.	The Comprehensive Plan permits Tourism Commercial Center to be designated in urban areas and contribute to a combination of commercial buildings.
POLICY 2.102-A1: DEVELOPMENT LOCATION – Polk County shall promote contiguous and compact growth patterns through the development process to minimize energy costs, conserve land, water, and natural resources, minimize the cost of services, and prevent development patterns where tracts of land are by-passed in favor of development more distant from services and existing Communities.	The lands surrounding the subject site are already a combination of high density residential, professional institutions, commercial, and single-family homes. Polk County Utilities are readily available in this area.
POLICY 2.102-A4: TIMING - The development of land shall be timed and staged in conjunction with the cost-effective and efficient provision of supporting community services which, at a minimum, shall require compliance with the Plan's Level of Service requirements and the County's concurrency management system.	The timing is consistent with the growth in the area as the surrounding sites are already designated for a variety of uses. There is ample connectivity to water, wastewater, reclaimed water, and electricity. Fire and Sheriff are close by with low response times. Schools that are zoned for the site are not at capacity. The subject site is not in a wetlands or floodplain, and has readily available access to a main arterial road with US HWY 27.
POLICY 2.102-A10: LOCATION CRITERIA - The following factors shall be taken into consideration when determining the appropriateness of establishing or expanding any land use or development area: a. nearness to incompatible land uses and future land uses, unless adequate buffering is provided, b. nearness to agriculture-production areas; c. distance from populated areas; d. economic issues, such as minimum population support and market-area radius (where applicable);e. adequacy of support facilities or adequacy of proposed facilities to be provided by the time of development, including, but are not limited to: 1. transportation facilities, including but not limited to, mass transit, sidewalks, trails and bikeways; 2. sanitary sewer and potable water service; 3.	

Comprehensive Plan Policy	Consistency Analysis
storm-water management; 4. solid waste collection and disposal; 5. fire protection with adequate response times, properly trained personnel, and proper fire-fighting equipment; 6. emergency medical service (EMS) provisions; and 7. other public safety features such as law enforcement; 8. schools and other educational facilities 9. parks, open spaces, civic areas and other community facilities, f. environmental factors, including, but not limited to: 1. environmental sensitivity of the property and adjacent property; 2. surface water features, including drainage patterns, basin characteristics, and flood hazards; 3. wetlands and primary aquifer recharge areas; 4. soil characteristics; 5. location of potable water supplies, private wells, public well fields; and 6. climatic conditions, including prevailing winds, when applicable.	
POLICY 2.104-A1: DESCRIPTION - Transit Supportive Development Areas shall meet the following criteria: a.be those areas where the availability of infrastructure and other community facilities and services, including, but not limited to mass transit and other transportation alternatives, utilities, public safety, recreational and educational services, promotes and supports the location of higher density and intensity compact, mixed use development;b.be supported by existing or planned urban type services that are programmed or expected for the 10-year planning horizon;c.be designated as part of a coordinated land use and transportation strategy that supports the provision of improved and expanded transit services, as identified in the Transportation Planning Organization (TPO) 2060 Transportation Vision Plan and the connecting circulator routes, in order to increase mobility and travel options;d.include development criteria that:1.promote the development of walkable communities which include a balance between employment opportunities, mix of complementary uses and activities, and a range of housing opportunities;2.improve access to employment areas, schools, shopping and recreational opportunities;	TSDA is where we want all high-density growth to occur since facilities and services are already available in those areas.
POLICY 2.104-A3: LAND USE CATEGORIES - The following land use categories shall be permitted within TSDAs, in accordance with applicable criteria a. ACTIVITY CENTERS: Regional Activity Centers, Community Activity Centers,	Tourism Commercial Centers are allowed and encouraged to be built in TSDA since that is where development is supposed to occur. There is ample access to utilities, mass transit is not far from the site, sidewalks are already placed in adjacent developments, there is access to public schools, and there is a variety

Comprehensive Plan Policy	Consistency Analysis
Neighborhood Activity Centers, Convenience Centers, Tourism Commercial Centers, Employment Centers and High-Impact CommercialCenters. b.RESIDENTIAL: Residential-High, Residential-Medium, and Residential-LowDistricts. c.OTHER: Linear Commercial Corridors, Commercial Enclaves, Industrial, Business-Park Centers, Office Centers, Leisure Recreation, Mixed Use, Institutional, Professional Institutional, Recreation and Open Space, Preservation.	of homes available ranging in different densities.
POLICY 2.104-A5: DEVELOPMENT CRITERIA - Development within the Transit Supportive Development Areas shall conform to the following criteria as further specified by the Land Development Code: a.provide access to transit facilities;b.connect to centralized potable water and sanitary sewer systems;c.incorporate design features that promote healthy communities and green building practices, as established in Section 2.1251, Community Design, of this element;d.implement "Complete Street" and "Conservation Development" principles as established under Section 2.1251, Community Design, of this element;e.integrate pedestrian-oriented features, including sidewalks, trails or walkways into every development including appropriate pedestrian shelters or awnings;f.provide access to civic space, parks, green areas, and open space and other amenities;g.be supported by public safety (i.e., fire, EMS and law enforcement);h.have access to public schools;i.provide connectivity with adjacent uses within the TSDA, and facilitate connectivity between the TSDA and other urban centers and the rural development areas.j.encourage the inclusion of a variety of housing choices, other than single family detached homes, townhomes, condominiums, and residential units in mixed use buildings by establishing minimum densities that preclude the exclusive use of single family detached units within designated areas as established in Policy 2.104-A7.	

Comprehensive Plan Policy	Consistency Analysis
POLICY 2.110-I1: CHARACTERISTICS - Tourism Commercial Centers are intended to provide for the tourist, recreational needs, and entertainment activities primarily for the short-term visitor to Polk County, and also the residents of Polk County that accommodate large crowds and daily events. These include, but are not limited to: theme parks, resorts, hotels, motels, cultural centers, museums, and conference centers. Ancillary commercial uses necessary to support the activities within the center, such as restaurants, service stations, and convenience stores may also be permitted. General (approximate) characteristics of Tourism Commercial Centers are: Usable Area: 10 acres or more Gross Leasable Area (GLA): 10,000 to 2,000,000 sq. ft. Typical Leading Tenant: Resorts, Museums, Historical Facilities, Theme park, Hotel, Motel, RV park. Other Typical Tenants: All lodging facilities, restaurants, service stations, gift shops, miniature golf, and entertainment activities, bed and breakfasts, convention centers, expo halls, and uses that are part of a master planned development for a tourist use attraction such as a private airstrip, marina, or equestrian facility. POLICY 2.110-I2: DESIGNATION AND MAPPING - Tourism Commercial Centers shall be located within TSDAs, UGAs, SDAs, UEAs, and RDAs as designated on the Future Land Use Map Series as "Tourism Commercial Center" (TCC). POLICY 2.110-I3: LOCATION CRITERIA - Tourism Commercial Centers shall be located at the intersections of arterial or major collectors, preferably with the capability to accommodate a fixed-route mass transit line. The proximity to	The subject site is within the TSDA and with the contiguous nature of the existing TCCX, it will provide more than enough acreage for ample commercial usages. US 27 is a Major Arterial Road which is appropriate for TCCX.

Comprehensive Plan Policy	Consistency Analysis
other recreational attractions, either existing or proposed, such as recreational water bodies, recreational facilities, natural amenities, or other regional tourist attractions, shall also be considered in the location of Tourism Commercial Centers. POLICY 2.110-I4: DEVELOPMENT CRITERIA - Development within a TCC shall conform to the following criteria: g. TCCs shall have direct access to an arterial roadway or have sufficient network of multiple collector roads to distribute traffic during peak periods of activity. Tourism Commercial Centers shall incorporate the use of frontage roads and shared ingress/egress facilities wherever practical. h. Adequate parking shall be provided to meet the demands of the uses, and interior traffic-circulation patterns shall facilitate the safe movement of vehicular, bicycle, and pedestrian traffic. i. Buffering, screening, and setbacks shall be provided where the effects of lighting, noise, odors, and other such factors would adversely affect adjacent land uses. Parking lots, loading areas, dumpsters, utilities, and air conditioning units, signage, etc. are examples of facilities which may require special buffering, screening, and setback provisions. j. The maximum floor area ratio shall be limited to 0.50 unless developed as part of a Planned Development and may be permitted to go to 1.0 per the requirements in the Land Development Code. k. Planned Developments within the TCC may be permitted a maximum floor area ratio up to 1.0 or an increase in square footage in order to promote attractive and economically viable	

Comprehensive Plan Policy	Consistency Analysis
tourist-oriented commercial development. Intensity increases shall only be available to parcels within the TSDA and UGA or those locations where urban infrastructure including adequate access to urban collector or arterial roads, public potable water and sewer, and public safety services are already available at appropriate levels. The Land Development Code shall establish specific development standards and criteria for Planned Developments within activity centers. l. Tourism Commercial Center activities involving: 1.Manufacturing uses such as confectionery, canneries and wineries where the products are part of the overall attraction, and 2.Non-municipal airports may be approved in through terms and conditions stipulated in the Land Development Code. g. Residential development shall only be permitted for tourists and employee housing for employees of the tourist use. Examples include but are not limited to timeshares, short term rentals, employee housing, lodges and retreats, cabins, recreational vehicle spaces. Residential uses for employees of the TCC use shall only be considered as an accessory use as part of a master planned development per the Land Development Code. Housing for the owner and/or family of the owner shall be addressed as per the Land Development Code. POLICY 2.110-I5: ADJACENT DEVELOPMENT - Subject to the criteria and requirements of Section 2.125-C relating to Transitional Areas, development adjacent to a TCC may include the following uses: Office,	

Comprehensive Plan Policy	Consistency Analysis
Medium-Density Residential, Institutional, or Open Space.	
POLICY 2.131-Q7: Density and FAR bonuses are used in the North Ridge Selected Area Plan to encourage development designs consistent with the intent of the plan. Within the Center and Core of the Transit Corridor and Center Overlay (TCCO), the base density for RMX is established at six dwelling units per acre (6 du/ac), and for RHX at ten dwelling units per acre (10 du/ac). Based on a density point system development within RLX can be permitted at densities of up to eight dwelling units per acre (8 du/ac) from the established sub-district while development within RMX can be permitted at densities of up to 15 dwelling units per acre (15 du/ac) and within the RHX, they can be permitted at densities of up to 20 dwelling units per acre (20 du/ac). Densities in the RMX and RHX outside the Center and Core of the TCCO may only occur below the base through the density bonus system within Land Development Code.	The subject site does sit within the North Ridge SAP and is specially designated for TSDA, TCCX, and RHX. This allows control over the development rate and flow since there are numerous external factors expediting the growth in this area.
• POLICY 2.132-B10: DEVELOPMENT CRITERIA - Development within the RIDGE-SPA shall conform to the following: o a. Residential development shall not exceed a gross density per parcel of eight dwelling units per acre, within the RL land use category. Residential development within the US 27 SAP and North Ridge SAP shall be as adopted. Development of the RM parcels shall be subject to the following restrictions:1.Commercial development shall be prohibited unless permitted in conjunction with a Residentially-based, Mixed-Use Development. If a Residentially-based, Mixed-Use	Based on the location of the subject site, being located in the Ridge Special Protection Area of the Green Swamp Area of Critical State Concern, the application shall follow the restrictions of the Comprehensive Plan for Tourism Commercial Center.

Comprehensive Plan Policy	Consistency Analysis
development is approved, then commercial restrictions shall be as set forth in the Ridge-SPA.2.Consistent with the objectives and goal of making shorter the average daily trip lengths, and the goal of providing affordable housing in close proximity to places of employment and major transportation corridors, residential development within the RM parcel shall be allowed as follows:(a)Up to or equal to 15 units per acre, providing the development meets the terms and conditions of this CARMP and the comprehensive plan as well as the required density bonus points listed within the Land Development Code. o b. Development of RH parcels shall be subject to the following restrictions:1.Commercial development shall be prohibited unless permitted in conjunction with a Residentially-Based, Mixed-Use Development or a Residentially-Based Mixed-Use Structure. If a Residentially-based, Mixed-Use Development or Residentially-Based, Mixed-Use Structure is approved, then commercial restrictions shall be as set forth in the Ridge-SPA and the North US 27 SAP.2.Consistent with the objectives and goal of making shorter the average daily trip lengths, and the goal of providing affordable housing in close proximity to places of employment and major transportation corridors, residential development within the RH parcel shall be allowed a maximum of 20 du/ac, providing the development meets the terms and conditions of	

Comprehensive Plan Policy	Consistency Analysis
this CARMP and Comprehensive Plan. o c. Golf courses shall be considered to be recreational and commercial in nature and shall be permitted in the following land uses:1.Tourist Commercial Center [4]X (TCCX).2.Leisure/Recreation (L/R).3.Recreation and Open Space (ROS).4.Residential-Low (RL).5.Residential-Medium (RM). o d. Development shall comply with the following Open Space (OS) and Impervious Surface Ratio (ISR) Standards:1.All residential development must provide a minimum open space set-aside of no less than 30% of total land area.2.Single-family lots shall not exceed an impervious surface ratio of 50% unless the lots are within a master planned residential community which maintains an overall Impervious Surface Ratio of 50%.3.Commercial development within Residentially-based Mixed-Use projects shall not exceed an impervious surface ratio of 60% unless the lots are within a master planned residential community which maintains an overall Impervious Surface Ratio of 50%.4.Development within the TC, BPC, EC, LCC, CE, NAC, CAC, RAC, TCC, PI, and IND land use categories shall not exceed an impervious surface ratio of 70% for the entire project.	

Urban Sprawl Analysis

After analyzing the primary indicators of Urban Sprawl per *Policy 2.109-A10* of the Polk County Comprehensive Plan, it is apparent that the proposed request is not considered urban sprawl based on these criteria and it is permitted in the designated area. Table 9 (below) depicts the Urban Sprawl Criteria used by staff as indicators of Urban Sprawl.

Table 9 Urban Sprawl Criteria

Urban Sprawl Criteria: The following criteria are the primary indicators of urban sprawl per Florida Statutes	
Urban Sprawl Criteria	**Sections where referenced in this report**
a. *Promotes substantial amounts of low-density, low-intensity, or single use development in excess of demonstrated need.*	Summary of analysis
b. *Allows a significant amount of urban development to occur in rural areas.*	Summary of analysis
c. *Designates an urban development in radial, strip isolated, or ribbon patterns emanating from existing urban developments.*	Summary of analysis, surrounding Development, compatibility
d. *Fails to adequately protect and conserve natural resources and other significant natural systems.*	Summary of analysis, surrounding Development, compatibility
e. *Fails to adequately protect adjacent agricultural areas.*	Compatibility with Surrounding Land Uses
f. *Fails to maximize existing public facilities and services.*	Summary of Analysis, Infrastructure
g. *Fails to minimize the need for future facilities and services.*	Summary of Analysis, Infrastructure
h. *Allows development patterns that will disproportionately increase the cost of providing public facilities and services.*	Summary of Analysis, Infrastructure
i. *Fails to provide a clear separation between urban and rural uses.*	Summary of Analysis, Compatibility with Surrounding Land Uses
j. *Discourages infill development or redevelopment of existing neighborhoods.*	Summary of Analysis, Compatibility with Surrounding Land Uses
k. *Fails to encourage an attractive and functional mixture of land uses.*	Summary of Analysis, Compatibility with Surrounding Land Uses
l. *Will result in poor accessibility among linked or related land uses.*	Summary of Analysis, Compatibility with Surrounding Land Uses
m. *Results in the loss of a significant amount of open space.*	Summary of Analysis, Compatibility with Surrounding Land Uses

ORDINANCE No. 24 - ?

AN ORDINANCE OF THE POLK COUNTY BOARD OF COUNTY COMMISSIONERS REGARDING THE ADOPTION OF AMENDMENT **LDCPAL 2024-19;** AN AMENDMENT TO THE POLK COUNTY COMPREHENSIVE PLAN; ORDINANCE 92-36, AS AMENDED TO CHANGE THE FUTURE LAND USE DESIGNATION ON 3.2 ACRES OF RESIDENTIAL HIGH (RHX) INTO TOURISM COMMERCIAL CENTER (TCCX) IN THE TRANSIT SUPPORTIVE DEVELOPMENT AREA (TSDA) AND NORTH RIDGE SELECTED AREA PLAN (SAP). THE SUBJECT SITE IS LOCATED ON THE WEST SIDE OF US HIGHWAY 27, NORTH OF HOLLY HILL GROVE ROAD 3, SOUTH OF INTERSTATE 4, EAST OF FDC GROVE ROAD, EAST OF THE CITY OF HAINES CITY IN SECTION 19, TOWNSHIP 26, RANGE 27; PROVIDING FOR SEVERABILITY; AND PROVIDING FOR AN EFFECTIVE DATE.

WHEREAS, pursuant to Article VIII, Section I(g) of the Constitution of the State of Florida and the Community Planning Act, Chapter 163, Part II, Florida Statutes (FS), as amended, (the Act) Polk County is authorized and required to adopt a Comprehensive Plan (Plan); and

WHEREAS, Section 163.3184, FS, and Comprehensive Plan Section 4.305.B, provides for the approval of Large-Scale Comprehensive Plan Amendments; and

WHEREAS, Application LDCPAL 2023-4 is an applicant-initiated application to change the future land use designation of 3.2 +/- acres from Residential High (RHX) in the Transit Supportive Development Area (TSDA) to Tourism Commercial Center (TCCX) in the Transit Supportive Development Area (TSDA) and North Ridge Selected Area Plan (SAP) (the "Amendment"); and

WHEREAS, pursuant to Section 163.3174, FS, the Local Planning Authority (Planning Commission) conducted a public hearing, with due public notice having been provided, Amendment on April 2nd, 2025; and

WHEREAS, pursuant to Section 163.3184, FS, the Board of County Commissioners on June 3rd, 2025, held an initial public hearing and authorized transmittal of the Amendment to the Department of Economic Opportunity (DEO) for written comment, and

WHEREAS, Florida Commerce, by letter 25-03, dated August 8th, 2025 transmitted objections, recommendations, and comments on the Amendment; and

WHEREAS, pursuant to Section 163.3184, FS, the Board of County Commissioners conducted an adoption public hearing, with due public notice having been provided, on the Amendment on August 5th, 2025; and

WHEREAS, the Board of County Commissioners, reviewed and considered all comments received during said public hearing, and provided for necessary revisions; if any; and

WHEREAS, the Board of County Commissioners has considered the data and analysis contained within the staff report; and

WHEREAS, the Amendment is consistent with Chapter 163, FS, and the Polk County Comprehensive Plan.

NOW THEREFORE, BE IT ORDAINED by the Polk County Board of County Commissioners:

SECTION 1: LEGISLATIVE FINDINGS OF FACT

The findings of fact set forth in the recitals to this Ordinance are true and correct and hereby adopted.

SECTION 2: COMPREHENSIVE PLAN AMENDMENT

The Future Land Use Map of Ordinance No. 92-36, as amended, (the "Polk County Comprehensive Plan") is hereby amended to reflect a change in the Future Land Use designation on a 3.2-acre site from Residential High (RHX) to Tourism Commercial Center (TCCX) in the Transit Supportive Development Area (TSDA) on the parcel listed below and graphically depicted on the parcel map in Attachment "A".

Parcels included:

272619-705000-020090

LEGAL DESCRIPTION:

A TRACT OF LAND, BEING ALL OF TRACT 8 AND A PORTION OF TRACTS 7, 9 AND 10 IN THE SOUTHEAST QUARTER OF SECTION 19, TOWNSHIP 26 SOUTH, RANGE 27 EAST, FLORIDA DEVELOPMENT CO. TRACT, ACCORDING TO THE PLAT THEREOF AS RECORDED IN PLAT BOOK 3, PAGES 60 THROUGH 63, PUBLIC RECORDS OF POLK COUNTY, FLORIDA, MORE PARTICULARLY DESCRIBED AS FOLLOWS.

COMMENCE AT THE NORTHEAST CORNER OF THE SOUTHEAST QUARTER OF SAID SECTION 19 FOR A POINT OF REFERENCE; THENCE RUN SOUTH 88˚ 59'20" WEST, ALONG THE NORTH LINE OF THE SOUTHEAST QUARTER OF SAID SECTION 19, A DISTANCE OF 71.35 FEET TO A POINT LYING ON THE NORTHERLY EXTENSION OF THE WESTERLY RIGHT-OF-WAY LINE OF STATE ROAD 25 (U.S. 27), PER FLORIDA DEPARTMENT OF TRANSPORTATION RIGHT-OF-WAY MAP, PROJECT ID 1977101 SECTION 16180-000; THENCE DEPARTING SAID NORTH LINE, RUN SOUTH 00˚ 09'35" EAST, ALONG SAID NORTHERLY EXTENSION, 1119.16 FEET TO THE POINT OF BEGINNING; THENCE CONTINUE SOUTH 00˚ 09'35" EAST, ALONG SAID WESTERLY RIGHT-OF-WAY LINE OF STATE ROAD 25 (U.S. 27), A DISTANCE OF 176.24 FEET TO THE NORTH MAINTENANCE RIGHT-OF-WAY LINE OF HOLLY HILL GROVE ROAD 3 PER MAP BOOK 17, PAGES 93 THROUGH 99 OF AFORESAID PUBLIC RECORDS, THENCE RUN SOUTH 89°17'41" WEST ALONG SAID NORTH MAINTENANCE RIGHT-OF-WAY LINE, 349.04 FEET; THENCE RUN NORTH 00˚ 16'32" WEST, 1278.50 FEET TO A POINT LYING ON THE SOUTH RIGHT-OF-WAY LINE OF MINUTE MAID RAMP ROAD 1; THENCE RUN NORTH 88˚ 59'20" EAST, ALONG SAID SOUTH RIGHT-OF-WAY LINE, 71.62 FEET; THENCE DEPARTING SAID SOUTH RIGHT-OF-WAY LINE, RUN SOUTH 00˚ 09'35" EAST, 1100.00 FEET; THENCE RUN NORTH 89˚ 50'25" EAST 280.00 FEET TO THE POINT OF BEGINNING. THE ABOVE-DESCRIBED TRACT OF LAND LIES IN POLK COUNTY, FLORIDA AND CONTAINS 3.206 ACRES MORE OR LESS.

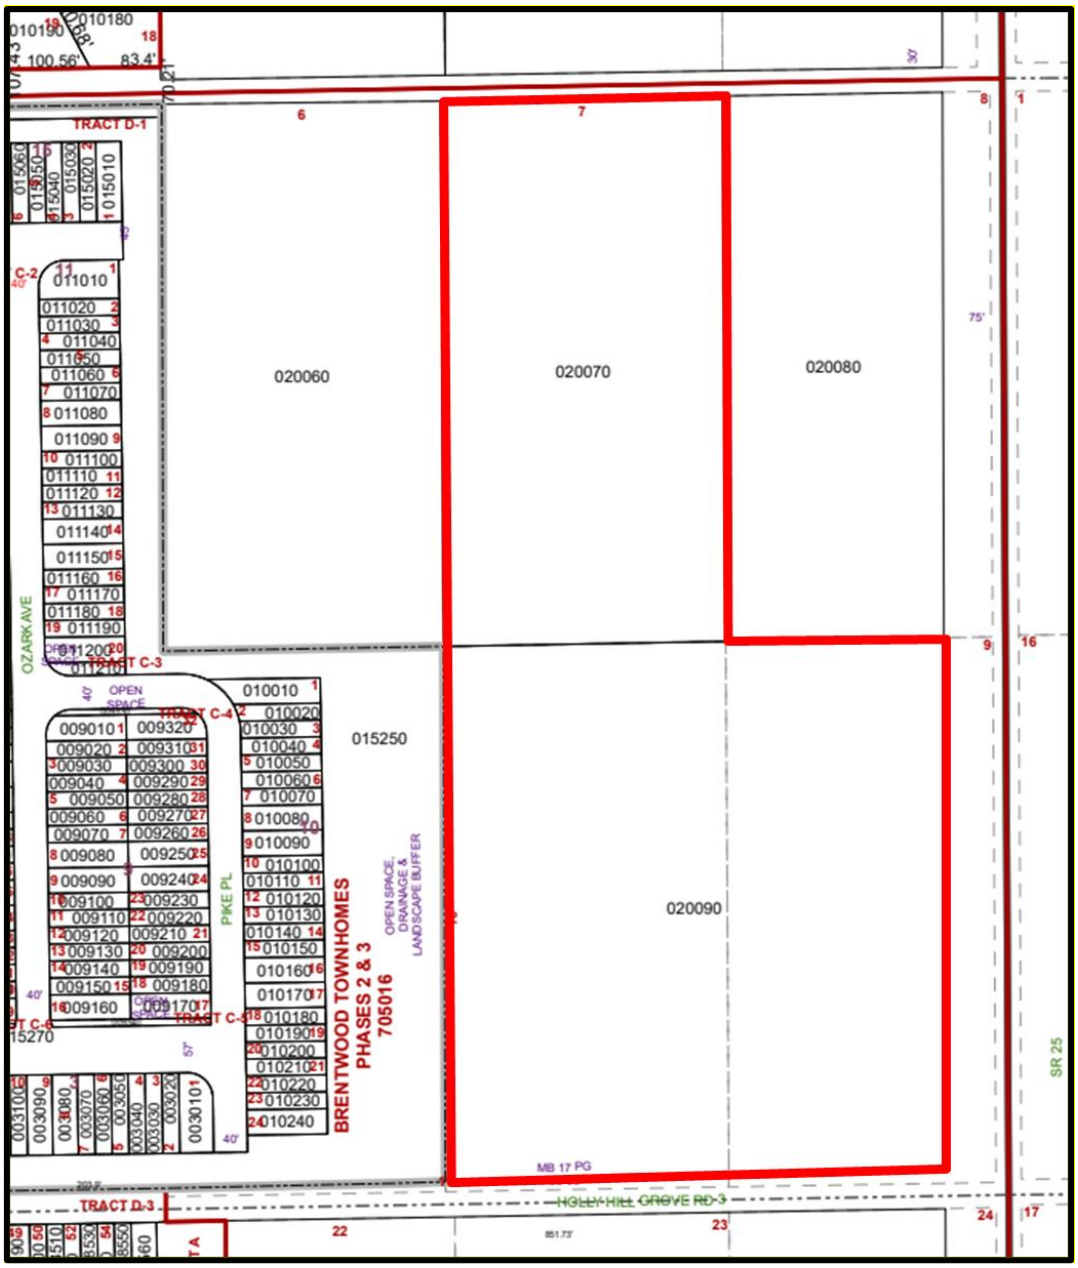
SECTION 3: SEVERABILITY

If any provision of this Ordinance is held to be illegal, invalid, or unconstitutional by a court of competent jurisdiction the other provisions shall remain in full force and effect.

SECTION 4: EFFECTIVE DATE

The effective date of this plan amendment, if the amendment is not timely challenged, shall be the date the Department of Economic Opportunity posts a notice of intent determining that this amendment is in compliance. If timely challenged, or if the state land planning agency issues a notice of intent determining that this amendment is not in compliance, this amendment shall become effective on the date the state land planning agency or the Administration Commission enters a final order determining this adopted amendment to be in compliance. No development orders, development permits, or land uses dependent on this amendment may be issued or commence before it has become effective. If a final order of noncompliance is issued by the Administration Commission, this amendment may

nevertheless be made effective by adoption of a resolution affirming its effective status, a copy of which resolution shall be sent to the Department of Economic Opportunity.



SECTION 5: FILING WITH THE DEPARTMENT OF STATE:

The Clerk and Auditor to the Board of County Commissioners of Polk County, Florida, shall file a certified copy of this ordinance with the Department of State, through the Secretary of State, upon adoption by the Board of County Commissioners of Polk County, Florida.

ADOPTED, in open session of the Polk County Board of County Commissioners with a quorum present and voting this August 5th, 2025.

1.3 Project Overview:

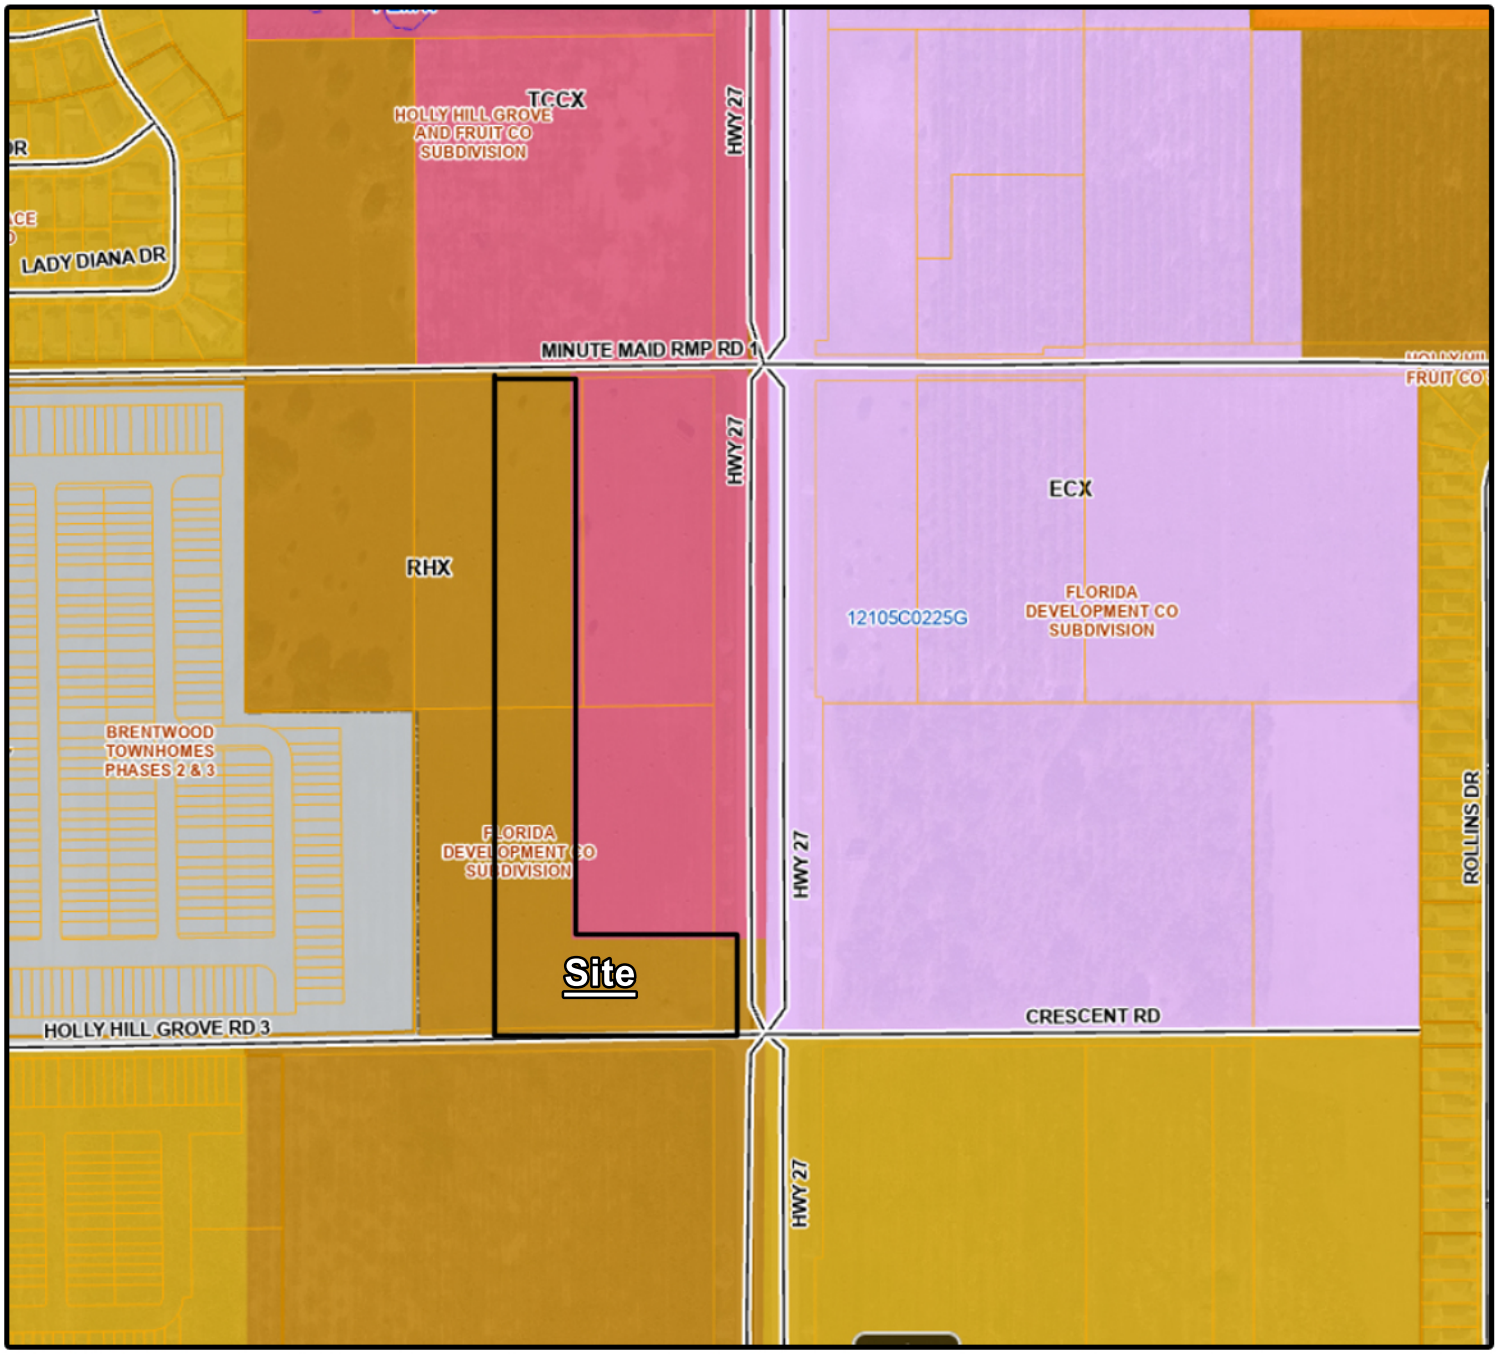
The amendment site is on a portion of (2) individual tax parcels comprising an overall acreage of 13.47 acres between the parcels. The subject site currently has a split FLUM designation on both parcels of Tourist Commercial Center (TCCX) and Residential High (RHX), which permits a maximum of 25 dwelling units per acre and a .35 far for non-residential development. (Exhibit 3)

The applicant is requesting to amend the FLUM on 3.206 acres of the subject parcels from RHX to TCCX to develop a mixed-use development with retail commercial and multi-family residential housing. (Exhibit 4) The site is also within the I-4 / Hwy 27 Northeast SAP and Polk County will provide utility service for wastewater and potable water for the project. (Exhibit 2) Additionally, the subject site is at the eastern edge of the Green Swamp overlay. (Exhibit 5) The property will be developed in accordance with the policies that regulate this property. The requested comprehensive plan amendment from RHX to TCCX is consistent with the goals and policies of Polk County.

Parcel (PID#27-26-19-705000-020090) has a total of 8.55 acres. The parcel has approximately 635 lf. of frontage on Highway 27, and 583 lf on Holly Hill Grove Rd 3. This parcel has an existing split FLUM designation of TCCX (3+/- acres) and RHX (5.55 +/- ac). The applicant is requesting to amend 2.28 acres of the existing RHX to TCCX for a total of 5.28 acres of TCCX and 3.27 acres of RHX.

Parcel (PID# 27-26-19-705000-020070) is a total of 4.92 acres. The parcel has approximately 330 lf of frontage on Minute Maid Ramp Rd 1. This parcel has an existing split FLUM designation of TCCX (0.38+/- acres) and RHX (4.54 +/- ac). The applicant is requesting to amend 0.98 acres of the existing RHX to TCCX for a total of 1.36 acres of TCCX and 3.56 acres of RHX.

Stormwater retention will be provided consistent with the Polk County and SWFWMD requirements. Open space shall be provided consistent with the Polk County LDC and shall be in the form of open space, and landscape buffers.



1.4 Existing Conditions:

Topography: The subject site has approximately 6’ of topographic relief across the site which slopes from the west to the east. The elevations on site range from elevation 183’ on the west boundary of the site to elevation 177’ on the east boundary adjacent to Highway 27. The site is generally cleared of existing trees. (Exhibit 6)

Soils: The site is comprised of Candler Sands 0-5% slopes. (Exhibit 7)

FEMA: Per FEMA Map Panel 12105C0225G the site is not within a flood zone. (Exhibit 8)

Wetlands: No wetlands are present on the subject parcel. (Exhibit 9)

LEGEND

SPECIAL FLOOD HAZARD AREAS SUBJECT TO INUNDATION BY THE 1% ANNUAL CHANCE FLOOD

The 1% annual chance flood (100-year flood), also known as the base flood, is the flood that has a 1% chance of being equaled or exceeded in any given year. The Special Flood Hazard Area is the area subject to flooding by the 1% annual chance flood. Areas of Special Flood Hazard include Zones A, AE, AH, AO, AR, A99, V, and VE. The Base Flood Elevation is the water-surface elevation of the 1% annual chance flood.

ZONE A	No Base Flood Elevations determined.
ZONE AE	Base Flood Elevations determined.
ZONE AH	Flood depths of 1 to 3 feet (usually areas of ponding); Base Flood Elevations determined.
ZONE AO	Flood depths of 1 to 3 feet (usually sheet flow on sloping terrain); average depths determined. For areas of alluvial fan flooding, velocities also determined.
ZONE AR	Special Flood Hazard Area formerly protected from the 1% annual chance flood by a flood control system that was subsequently decertified. Zone AR indicates that the former flood control system is being restored to provide protection from the 1% annual chance or greater flood.
ZONE A99	Areas to be protected from 1% annual chance flood event by a Federal flood protection system under construction; no Base Flood Elevations determined.
ZONE V	Coastal flood zone with velocity hazard (wave action); no Base Flood Elevations determined.
ZONE VE	Coastal flood zone with velocity hazard (wave action); Base Flood Elevations determined.

FLOODWAY AREAS IN ZONE AE

The floodway is the channel of a stream plus any adjacent floodplain areas that must be kept free of encroachment so that the 1% annual chance flood can be carried without substantial increases in flood heights.

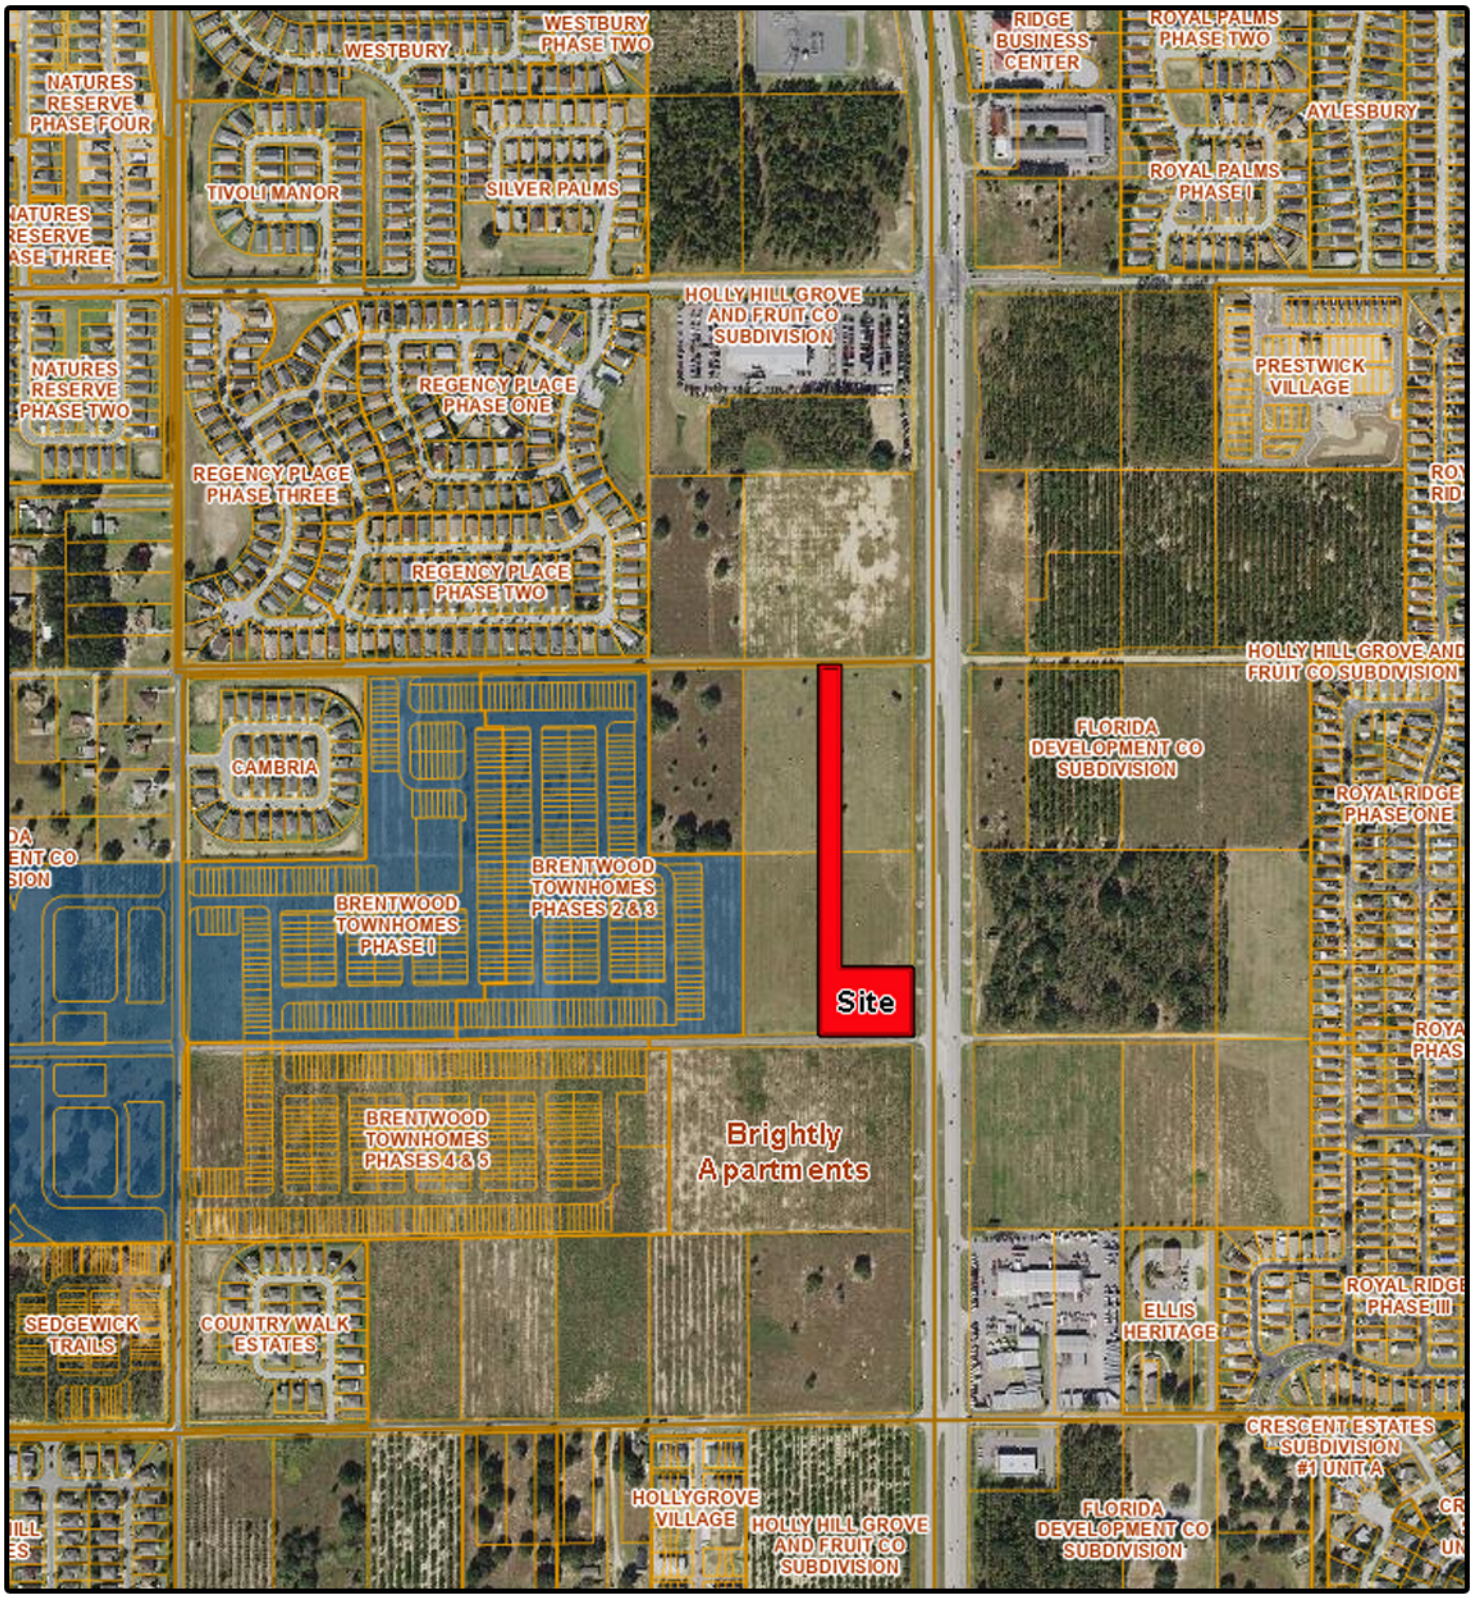
1.5 Adjacent Uses:

There are (2) vacant tax parcels north of the subject site along the north side of Minute Maid Ramp Rd 1 right of way. Parcel 27-26-19-704500-010270 has an existing FLUM RHX and is owned by GPK Sunrise LLC. Parcel 27-26-19-704500-010250 has an existing FLUM TCCX and is owned by is owned by Circus Inn Inc. It is anticipated that both of these parcels will be developed for multifamily residential and retail commercial uses. (Exhibit 10)



The Brightly Apartments with 198 rental units is located south of the subject site along Holly Hill Grove Rd 3 right of way. This community has recently been approved and constructed and the apartments are being rented.

The property west of the site is the Brentwood Townhomes is within the City limits of Haines City and was approved for construction in 2022. Phase 1 was platted in September of 2022 and Phase 2 was platted in August 2024. The community will provide 466 townhomes and is currently under construction.

The eastern boundary of the site is adjacent to Highway 27, which is a 6-lane divided highway within a 215' right of way. The eastern right of way line currently has an FLUM of Employment Center (EC). (Exhibit 3).

Table 1.5.1

Adjacent FLUM and Zoning Table			
Location	**City / County**	**FLUM / Zoning**	**Existing Use**
NORTH	County	Tourist Commercial Center (TCCX) and Residential High (RHX)	Vacant
EAST	County	Employment Center (EC)	Highway 27 / Vacant
SOUTH	County	Residential High (RHX)	Brightly Apartments
WEST	Haines City	Residential Medium	Brentwood Townhomes

1.6 Level IV FLUM Amendment Criteria:

Pursuant to Polk County Land Development Code the County shall be guided by the following review criteria when rendering a decision on an application for Level IV (4) Review.

1. *The compatibility of non-residential uses near or adjacent to residential land uses or vacant land designated as residential.*

Response: The request to amend the FLUM from RHX to TCCX on the subject site is consistent with the Polk County Comprehensive Plan and THE Northeast I-4 SAP which defines the intended uses for the Hwy 27 corridor. The applicant is requesting to amend the portion of the parcel with frontage along Hwy 27 from RHX to TCCX to be consistent with the adjacent properties fronting along the Hwy 27 corridor and the goals and policies that provide guidance on the intensity of commercial and residential development. The requested amendment will provide a clear transition of uses along the Hwy 27 corridor with commercial development located adjacent to the Hwy 27 right of way where it is appropriate and the high-density residential uses that are permitted to the west of the subject parcel.

The small-scale comprehensive plan amendment from RHX to TCCX on 3.2 ac, will permit an expansion of the TCCX land use adjacent to the north of the proposed property, this will continue the TCCX designation along the Hwy 27 frontage from Minute Maid Ramp Road 1 on the north to Holly Hill Grove Road 3 along the south boundary. The requested FLUM amendment will provide a transition of uses and intensity from Hwy 27 to the existing townhome development on the western boundary.

2. *The compatibility of proposed residential uses in proximity to existing residential densities of a significantly different density.*

Response: The requested FLUM amendment from RHX to TCCX is consistent with the emerging development pattern along Hwy 27 with commercial fronting along the Hwy 27 corridor with multi-family and townhome development providing a transition of uses west of the subject parcel.

3. *Where there are specific characteristics of the proposal which may result in potential adverse off- site impacts. Site characteristics such as a dumpster, driveway, drive-through window, or buffer will be reviewed to determine compatibility and possible mitigation of impacts not deemed compatible.*

Response: Any potential adverse off-site impacts will be identified and mitigated at the time of site plan approval. Future development on the subject parcel will be designed, permitted and constructed consistent with the Land Development Regulations (LDR) of Polk County.

4. *The effects of noise, vibration, air pollution, glare, and odor may adversely impact the use of adjacent properties shall be reviewed and, where appropriate, conditions for mitigation imposed*.

   Response: Any potential adverse effects from the future commercial development will be identified and addressed with the site plan review process. Future development on the subject parcel will be designed, permitted and constructed consistent with the Land Development Regulations (LDR) of Polk County.

5. *Whether the requested development meets the minimum development standards as stated in this Code, and other County development regulations; and to provide for compatibility; and*

   Response: The requested small scale comprehensive plan amendment from RHX to TCCX will permit retail commercial development consistent with the adjacent commercial parcels. A detailed site plan will be developed consistent with the goals and policies of the Polk County Comprehensive Plan and the Land Development Regulations that provide development standards.

6. *The development plan and impacts are outlined in an Impact Assessment Statement which mitigates any impacts of the project and is prepared pursuant to LDC Section 910*.

   Response: An impact Assessment Statement in accordance with Land Development Code Section 910 is included with this report. See section 1.7 for the assessment statement.

1.7 Section 910 Impact Assessment Statement:

1. *How and why is the site suitable for the proposed uses?*

   Response: The request to amend the FLUM from RHX to TCCX is compatible with the property directly to the north. The property to the north has future land use of TCCX and is controlled by the owner of the subject site. The remainder of the land between Hwy 27 and the Brentwood Townhome site to the east has an existing FLUM of RHX and applications for multi-family development will be submitted in the future . The future multi-family development will provide for a transition of housing from the east along Hwy 27 to the west. The property to the west was annexed into Haines City and is approved for 466 townhome units. The property to the south has an existing FLUM of RHX and is under construction for 198 multi-family units. These existing and proposed developments will be constructed with similar densities and intensity as the surrounding properties.

   The applicant is requesting to amend the existing FLUM from RHX to TCCX to extend the commercial frontage on US-27 and provide retail commercial along the Hwy 27 corridor. Extending the TCCX FLUM along Hwy 27 will continue the pattern of growth in the area inward towards the transit corridor area and maintain a transitional land use area to the existing surrounding residential developments. Existing utilities are adjacent to the property and will be utilized to serve this property.

2. *Provide a site plan showing each type of existing and proposed land use.*

   Response: Existing and proposed future land use maps are included in this report. (Exhibits 3 and 4)

3. Describe any incompatibility and special efforts needed to minimize the differences in the proposed use with adjacent uses.

   Response: *The proposed FLUM is consistent with the adjacent uses and shall be developed consistent with the Polk County Land Development Code. A detailed site plan will be developed and submitted, and any incompatibilities will be identified and mitigated at the time of review.*

4. *Explain how the requested district may influence future development patterns if the proposed change is located in an area presently undeveloped.*

   Response: The proposed TCCX will promote overall land use mix and provide a transitional area between the existing townhome / multi-family development and the retail commercial / office development pattern that is emerging to the north, east, and south of the subject site.

5. *Describe each of the uses proposed in a future Planned Development, if land use amendment is approved, and identify the following:*

   a. *The density and types of residential dwelling units:*

      Response: No residential uses are included with this application.

   b. *The type of commercial and industrial uses:*

      Response: All permitted commercial/retail/office uses allowed within the proposed TCCX FLU in accordance with the LDC including Fast food / Casual dinning and Convenience store w/fueling positions.
      .

   c. *The approximate customer service area for commercial uses; and*

      Response: All customers will be served within enclosed structures and outdoor patios may be provided if desired.

   d. *The total area proposed for each type of use, including open space and recreation.*

      Response:

      - ***a.*** Total Project Area is 3.20 ac.
      - ***b.*** Open Space Provided will be consistent with LDC.
      - ***c.*** Recreation is not applicable to the commercial development
      - ***d.*** Commercial/Retail parcels will comply with max ISR of 70% in accordance with the Ridge Special Protection Area Plan and Green Swamp Protection Area LDC regulations.

Access to Roads and Highways:

1. Calculate the number of vehicle trips to be generated daily and at PM peak hour based on the latest ITE or provide a detailed methodology and calculations;

2. Indicate what modifications to the present transportation system will be required as a result of the proposed development;

3. List the total number of parking spaces and describe the type of parking facilities to be provided in the proposed development;

4. Indicate the proposed methods of access to the existing public roads (e.g., direct frontage, intersecting streets, frontage roads); and

5. Indicate the modes of transportation, other than the automobile, that have been considered (e.g., pedestrian, bicycle, bus, train or air) and describe the modes.

Response: A traffic and parking study prepared by Raysor Transportation Consulting is attached for review. (Appendix A)

Sewage:

1. Calculate the amount of sewage in gallons per day (GPD) expected to be generated by the proposed development.

Response:

Waste Water LOS	Total Ac	GLA Estimated 0.3 FAR	LOS (GPD / 1,000sf)	Estimated Demand (GPD)
Retail Commercial	3.2 ac	41,817	66.6	2,785 gpd

2. Describe the proposed method and level of treatment, and the method of effluent disposal for the proposed sewage treatment facilities if on-site treatment is proposed

Response: The proposed development will be served by PUC, no on-site treatment is proposed.

3. Indicate the relationship of the proposed sewage system to Pok County's plans and policies for sewage treatment systems

Response: The proposed development will be served by PUC, adequate infrastructure and capacity is available to serve the site.

4. Identify the service provider

Response: Polk County Utilities will provide potable and wastewater service to the property.

5. Indicate the current provider's capacity and anticipated date of connection.

Response: There is capacity to serve the project. It is anticipated that the property will connect to the wastewater system in 2025 / 2026.

Water Supply:

1. Indicate the proposed source of water supply and, the type of treatment.

Response: Polk County Utilities will provide services and treatment for potable water.

2. Identify the service provider.

Response: Polk County Utilities.

3. Calculate the estimated volume of consumption in gallons per day (GPD)

Response:

Potable Water LOS	Total Ac	GLA Estimated 0.3 FAR	LOS (GPD / 1,000sf)	Estimated Demand (GPD)
Retail Commercial	3.2 ac	41,817	66.6	2,785 gpd

4. Indicate the current provider's capacity and anticipated date of connection.

Response: There is capacity to serve the project. It is anticipated that the property will connect to the potable water system in 2025 / 2026.

Surface Water Management and Drainage:

1. Discuss the impact the proposed development will have on surface water quality.

Response: The subject parcel stormwater management shall be provided consistent with the Polk County and the Water Management District requirements.

2. Describe the alteration to the site's natural drainage features, including wetland, that would be necessary to develop the project.

Response: No wetlands have been identified on the subject site, and the site is within Flood Zone X. The existing drainage pattern will be maintained consistent with the land development code and the Water Management District guidelines.

3. *Describe the impact of such alterations on the fish and wildlife resources of the site*

   Response: Any listed species identified onsite will be relocated prior to construction. No impacts are proposed by this development.

4. *Describe local aquifer recharge and groundwater conditions and discuss the changes to these water supplies which would result from development of the site.*

   Response: The master stormwater system will provide treatment and attenuation for the onsite improvements and will be designed and constructed consistent with the land development code and the water management district guidelines.

Population:

1. *Calculate the projected resident and transient population of the proposed development and the generated population in the case of commercial and industrial uses.*

   Response: The proposed commercial development for this project has not been determined at the time of this application. The property will be developed consistent with the LDC which will determine the end user.

2. *Describe, for commercial and industrial projects, the employment characteristics including the anticipated number of employees, type of skills or training required for the new jobs, the percentage of employees that will be found locally or are expected to be drawn from outside the county or state, and the number of shifts per day and employees per shift.*

   Response: It is not known what types of commercial uses will be at the time of this application. Any estimate based on employment characteristics could widely vary and be inaccurate at the time of this report.

3. *Indicate the expected demographic composition of the additional population (age/socio-economic factors);*

   Response: It is not known what types of commercial uses will be at the time of this application. Any estimate based on expected demographic composition could widely vary and be inaccurate at the time of this report

4. *Describe the proposed service area and the current population thereof.*

   Response: The proposed service area is within the County for the proposed development of the subject site would be 1 mile or more radius for a service area.

General Information:

1. *List and discuss special features of the proposed development that promote desirability and contribute to neighborhood needs;*

   Response: The proposed development will provide commercial / retail services to the surrounding community and employment centers.

2. *Discuss the demand on the provision for the following services:*
   a. Parks and Recreation;

   Response: Not applicable to this application for non-residential development.

   b. Educational Facilities (preschool/elementary/middle school/high school);

   Response: Not applicable to this application for non-residential development.

   c. Health Care (emergency/hospital);

   Response: Heart of Florida Medical Center is located at 404100 US Hwy 27, Haines City fl.

   d. Fire Protection;

   Response: Polk County Fire Station 38 is approximately 1-mile from the site.

   e. Police Protection and Security;

   Response: Polk County Sheriff's office will provide Police protection and security.

   f. Electrical Power Supply.

   Response: Duke Energy provides electrical services to this area of Polk County.

Maps:

1. Maps shall be used to give the public agencies a clear graphic illustration and visual understanding of the proposed development and the potential positive and negative impacts resulting from the development.

   Response: Acknowledged, please see exhibits 1 through 10.

2. Maps shall be of sufficient type, size, and scale to facilitate complete understanding of the elements of the proposed development. Scales shall be clearly indicated on each map and the dates of preparation and revisions shall be included. The project boundaries shall be overlaid on all maps. The following maps shall accompany all Impact Assessment Statements:

3. Map A: A location map showing the relationship of the development to cities, highways, and natural features;

   Response: A location map is included with this report. (Exhibit 1)

4. Map B: A Topographical Map with contour intervals of no greater than five feet, the identification of the property boundaries, and a delineation of the areas of special flood hazard (100 year flood plain) as shown on the Flood Insurance Rate Maps issued by the Federal Emergency Management Agency (FEMA) for Polk County;

   Response: A topo map is included with this report. (Exhibit 6)

5. Map C: A Land Use and Land Use District Map showing the existing land use designations and districts on and abutting the proposed development, including lot sizes and density;

   Response: A future land use map is included with this report. (Exhibit 3)

6. Map D: A Soils Map with soils designated according to Natural Resources Conservation Service classifications. If available, USDA Natural Resources Conservation Service (NRCS) soil surveys are preferable;

   Response: A soils map is included with this report. (Exhibit 7)

7. Map E: A Traffic Circulation Map identifying any existing roads on or adjacent to the proposed development and indicating the name of the roads, maintenance jurisdiction, and pavement and right-of-way widths.

   Response: A traffic report prepared by Raysor Transportation Consulting is attached. (Appendix A)

8. Map F: A Site Plan showing land uses, the layout of lots, the type and maximum density for each type of residential area; the typical minimum lot sizes and dimensions for each use and unit type, and the dimensions, locations, and types of buffers, easements, open space areas, parking and loading areas, setbacks, and vehicular circulation routes; and

   Response: A site plan for the commercial development has not been developed. A detailed site plan will be submitted at a future date. All development shall be consistent with the Polk County LDC, which provides the requested information.

9. Map G: A Drainage Map delineating existing and proposed drainage areas, water retention areas, drainage structures, drainage easements, canals, wetlands, watercourses, and other major drainage features.

   Response: A site plan for the commercial development has not been developed at the time of this report. A detailed site plan will be submitted at a future date. All

development shall be consistent with Polk County LDC, which provides the requested information.

1.7 Green Swamp Impact Assessment Statement:

1. Flood plain development requirements in this Code under Section 3.11.07D, where applicable.

   Response: Per FEMA Map Panel 12105C0225G the site is not within a flood zone. (Exhibit 9)

2. Wetland development requirements in this Code under Section 3.11.07E, where applicable.

   Response: No wetlands are present on the subject parcel.

3. Minimize the adverse impacts of development on resources of the Floridian Aquifer, wetlands, and flood detention areas.

   Response: Polk County Utilities will provide potable and waste water services to the subject parcel. There are no wetlands present on site and the master stormwater management area will be designed and constructed consistent with the LDC, Water Management District and Green Swamp regulations. A detailed site plan will be provided at the time of preliminary plan review.

4. Protect or improve the normal quantity, quality and flow of ground water and surface water which are necessary for the protection of resources of state and regional concern.

   Response: Polk County Utilities will provide potable and wastewater services to the subject parcel. No onsite wells that would impact the quality of ground water is proposed for this development. There are no wetlands present on site and the master stormwater management area will be designed and constructed consistent with the LDC, Water Management District and Green Swamp regulations. A detailed site plan will be provided at the time of preliminary plan review.

5. Protect or improve the water available for the aquifer recharge.

   Response: The proposed commercial development will be designed and constructed consistent with regulatory requirements. It is not anticipated that the proposed development on the subject parcel will impact available water capacity or the ability for the aquifer to recharge. The subject parcel is not within a wellfield protection district. The soils onsite are Chandler 0-5% slope and are not considered Type A soils for high recharge areas.

6. Protect or improve the functions of the Green Swamp Potentiometer High of the Floridian Aquifer.

Response: It is not anticipated that the proposed commercial development will have any impacts to the Green Swamp Potentiometer High of the Floridian Aquifer.

7. Protect or improve the normal supply of ground and surface water.

   Response: The site will be served by Polk County Utilities. No onsite wells that would have an impact on ground water is proposed. The master stormwater management system is anticipated to be a dry retention pond and will be designed and constructed consistent with regulatory requirements of the LDC and Water Management District.

8. Prevent further salt water intrusion into the Floridian Aquifer.

   Response: The subject parcel is not within a salt water intrusion area of concern. The proposed development will be served by centralized utilities provided by Polk County Utilities.

9. Protect or improve existing ground and surface water quality.

   Response: The site will be served by Polk County Utilities. No onsite wells that would have an impact on ground water is proposed. The master stormwater management system is anticipated to be a dry retention pond and will be designed and constructed consistent with regulatory requirements of the LDC and Water Management District.

10. Protect or improve the water retention capabilities of wetlands.

    Response: The subject parcel doesn't contain any wetlands on site. The proposed development will not have an impact on wetlands.

11. Protect or improve the biological filtering capabilities of wetlands.

    Response: The subject parcel doesn't contain any wetlands on site. The proposed development will not have an impact on wetlands.

12. Protect or improve the natural flow regime of drainage basins.

    Response: The master stormwater pond will be designed and constructed in accordance with the requirements of the Polk County LDC and Water Management District.

13. Protect or improve the design capacity of flood detention areas and the water management objectives of these areas through the maintenance of hydrologic characteristics of drainage basins.

    Response: The master stormwater pond will be designed and constructed in accordance with the requirements of the Polk County LDC and Water Management District.

Appendix A

August 8, 2025

The Honorable Bill Braswell
Chairman, Polk County
Board of County Commissioners
330 W. Church Street
Bartow, Florida 33830

Dear Chairman Braswell,

FloridaCommerce has completed its review of the proposed comprehensive plan amendment for Polk County (Amendment No. 25-03ACSC), which was received on June 10, 2025. FloridaCommerce has reviewed the proposed amendment in accordance with the state coordinated review process set forth in sections 163.3184(2) and (4), Florida Statutes (F.S.), for compliance with Chapter 163, Part II, F.S. FloridaCommerce does not identify any objections or comments to the proposed amendment and this letter serves as the Objections, Recommendations and Comments Report. Review comments received by FloridaCommerce from the appropriate reviewing agencies, if any, are enclosed.

The County should act by choosing to adopt, adopt with changes or not adopt the proposed amendment. For your assistance, the procedures for final adoption and transmittal of the comprehensive plan amendment are enclosed.

The second public hearing, which shall be a hearing on whether to adopt one or more comprehensive plan amendments, **must be held within 180 days** of your receipt of FloridaCommerce's attached report, or the amendment will be deemed withdrawn unless extended by agreement with notice to FloridaCommerce and any affected party that provided comment on the amendment pursuant to section 163.3184(4)(e)1., F.S. **The adopted amendment must be transmitted to FloridaCommerce within ten working days after the final adoption hearing or the amendment shall be deemed withdrawn pursuant to section 163.3184(4)(e)2., F.S.**

If you have any questions related to this review, please contact Adanis Suttle, Planning Analyst, by telephone at (850)-921-3269 or by email at Adanis.Suttle@Commerce.fl.gov.

Sincerely,

James D. Stansbury, Chief
Bureau of Community Planning and Growth

JDS/as
Enclosure: Procedures for Adoption

SUBMITTAL OF ADOPTED COMPREHENSIVE PLAN AMENDMENTS

FOR STATE COORDINATED REVIEW

Section 163.3184(4), Florida Statutes

NUMBER OF COPIES TO BE SUBMITTED: Please submit electronically using FloridaCommerce's electronic amendment submittal portal "**Comprehensive Plan and Amendment Upload**" (***https://fldeo.my.salesforce-sites.com/cp/***) **or** submit three complete copies of all comprehensive plan materials, of which one complete paper copy and two complete electronic copies on CD ROM in Portable Document Format (PDF) to the State Land Planning Agency and one copy to each entity below that provided timely comments to the local government: the appropriate Regional Planning Council, Water Management District, Department of Transportation, Department of Environmental Protection, Department of State, the appropriate county (municipal amendments only), the Florida Fish and Wildlife Conservation Commission and the Department of Agriculture and Consumer Services (county plan amendments only), and the Department of Education (amendments relating to public schools), and for certain local governments, the appropriate military installation and any other local government or governmental agency that has filed a written request.

SUBMITTAL LETTER: Please include the following information in the cover letter transmitting the adopted amendment:

_____ State Land Planning Agency identification number for adopted amendment package.

_____ Summary description of the adoption package, including any amendments proposed but not adopted.

_____ Ordinance number and adoption date.

_____ Certification that the adopted amendment(s) has been submitted to all parties that provided timely comments to the local government.

_____ Name, title, address, telephone, FAX number and e-mail address of local government contact.

_____ Letter signed by the chief elected official or the person designated by the local government.

ADOPTION AMENDMENT PACKAGE: Please include the following information in the amendment package:

_____ In the case of text amendments, changes should be shown in strike-through/underline format.

_____ In the case of future land use map amendment, an adopted future land use map, **in color format,** clearly depicting the parcel, its existing future land use designation and its adopted designation.

_____ A copy of any data and analyses the local government deems appropriate.

Note: If the local government is relying on previously submitted data and analysis, no additional data and analysis is required.

_____ Copy of executed ordinance adopting the comprehensive plan amendment(s).

Suggested effective date language for the adoption ordinance for state coordinated review:

> "The effective date of this plan amendment, if the amendment is not timely challenged, shall be the date the state land planning agency posts a notice of intent determining that this amendment is in compliance. If the amendment is timely challenged, or if the state land planning agency issues a notice of intent determining that this amendment is not in compliance, this amendment shall become effective on the date the state land planning agency, or the Administration Commission enters a final order determining this adopted amendment to be in compliance."

_____ List of additional changes made in the adopted amendment that the FloridaCommerce did not previously review.

_____ List of findings of the local governing body, if any, that were not included in the ordinance, and which provided the basis of the adoption or determination not to adopt the proposed amendment.

_____ Statement indicating the relationship of the additional changes not previously reviewed by the FloridaCommerce to the ORC report from the FloridaCommerce.

Polk County

Board of County Commissioners

Agenda Item N.2. 8/19/2025

SUBJECT

Public Hearing (LDCPAS-2025-8 Lake Daisy CPA) (Adoption Hearing) to consider the adoption of a County-initiated Small Scale Comprehensive Plan Map Amendment to change the Future Land Use (FLU) designation from Recreation Open Space (ROS) to Residential Low (RL) on +/- 3.9 acres. This case is related to LDCD-2025-2 which is sub-district change from Residential Low-1 (RL-1) to Residential Low-4 (RL-4). (No Fiscal Impact)

DESCRIPTION

This is a County-initiated Small-Scale Comprehensive Plan Map Amendment for property located south of Lake Daisy, North of Lake Daisy Dr, West of Lake Daisy Loop, southwest of the City of Winter Haven in Section 6, Township 29, Range 27.

State law requires one Planning Commission hearing, which was held on July 9th, 2025, with a recommendation for approval with a vote of 7:0.

RECOMMENDATION

Adopt

FISCAL IMPACT

No Fiscal Impact

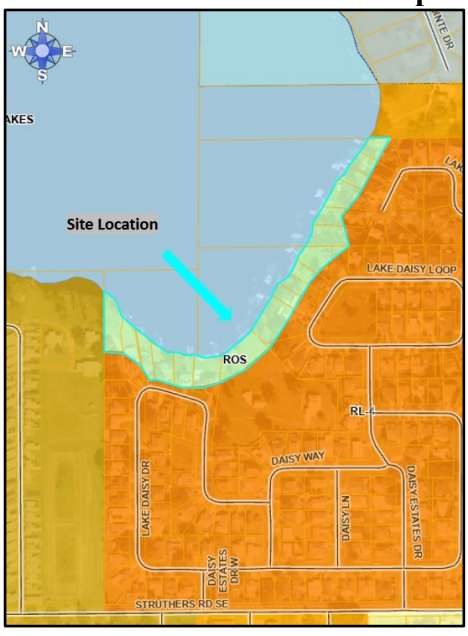
POLK COUNTY
DEVELOPMENT REVIEW COMMITTEE
STAFF REPORT



DRC Date:	May 15, 2025	**Level of Review:**	Level 4 Review
PC Date:	July 9, 2025	**Type:**	Small-Scale Comprehensive Plan Amendment
BoCC Date:	August 19, 2025	**Case Numbers:**	LDCPAS-2025-8
		Case Name:	Lake Daisy CPA
Applicant:	Polk County	**Case Planner:**	Aleya Inglima, Planner II

Request:	County-initiated Small Scale Comprehensive Plan Map Amendment to change the Future Land Use (FLU) designation from Recreation Open Space (ROS) to Residential Low (RL). This case is related to LDCD-2025-2 which is sub-district change from Residential Low-1 (RL-1) to Residential Low-4 (RL-4)
Location:	South of Lake Daisy, North of Lake Daisy Dr, West of Lake Daisy Loop, southwest of the city of Winter Haven in Section 6, Township 29, Range 27.
Property Owners:	Parcel (272906-000000-031030) Lots 18-25 of Lake Daisy Estates Phase 1 Lots 9-16 of Lake Daisy Estates Phase 3 Lots 24-29 of Lake Daisywood
Parcel Size (Number):	Multiple parcels (+/- 3.9 acres)
Future Land Use:	Recreation Open Space (ROS)
Development Area:	Transit Supportive Development Area (TSDA)
Nearest Municipality:	City of Winter Haven
DRC Recommendation:	Approval
Planning Commission Vote:	7-0 Approval
Public Comment:	N/A

Location Map

Current Future Land Use Map

Summary of Analysis

This is a County initiated Small Scale Comprehensive Plan Map Amendment to change the Future Land Use (FLU) designation from Recreation Open Space (ROS) to Residential Low (RL) along Lake Daisy. The subject site is located South of Lake Daisy, North of Lake Daisy Dr, West of Lake Daisy Loop, southwest of the city of Winter Haven in Section 6, Township 29, Range 27.

In 1985, the Zoning Advisory Board voted 5-0 to approve a request designating land within the 100-year floodplain along the lake as Preservation Area (PA) and the remainder of the parcel outside the floodplain as Single Family (SR-4). However, when the Land Development Code and Comprehensive Plan were adopted, the properties were re-designated Recreation Open Space (ROS) and Residential Low (RL-4), respectively. With advancements in technology, FEMA floodplain data now accurately identifies flood-prone areas, eliminating the need for a special designation. Since then, Lake Daisy has been fully developed with single-family homes. The ROS designation on the properties may be restrictive. For instance, if homeowners wish to add an accessory structure—such as a carport, shed, or detached garage—the ROS designation could create complications with permitting and setbacks. Correcting this will ensure consistency between the Future Land Use Map and the existing residential uses as well as reduce restrictions on these properties.

Staff has reviewed the request and find it IS consistent with the Comprehensive Plan policies and IS compatible with the surrounding land uses and infrastructure.

Compatibility Summary

The existing uses surrounding the site are Residential Low-4 (RL-4) to the south. Recreation Open Space (ROS) to the west and east developed with single family homes. The LDC land use district is ROS for the subject site.

The purpose of TSDA is to serve as a foundation from which a future urban pattern is established, and to provide areas for development at urban densities and intensities. TSDAs are where there exists the availability of infrastructure and other community facilities and services, including, but not limited to mass transit and other transportation alternatives, utilities, public safety, recreational and educational services. The TSDA also promotes and supports the location of higher density and intensity that requires compact and mixed-use development.

Staff is requesting the land use change along Lake Daisy to reflect the use on the land use map. Wetlands and Flood Zone AE are located on the subject site. To the west, south, east are single family homes, and north is Lake Daisy. This is an appropriate and compatible use in all urban and suburban areas in the County.

Infrastructure Summary

The proposed CPA is not anticipated to degrade the Level-of-Service (LOS) standards for transportation, schools, utilities, and public safety facilities. The subject site will utilize the same public safety facilities as the existing FLU designation. School service will not be impacted. There is capacity at all of the zoned schools. The proposed Residential Low (RL) Future Land Use (FLU) designation will not generate more trips. The trips are not anticipated to degrade the level-of-service. The property is in the Winter Haven Service Area for water and wastewater.

Environmental Summary

The proposed request is not anticipated to have a negative impact upon the environmental features present on the subject site. The parcels already have single family homes. There are wetlands and flood zone AE on site. The closest wetlands are within the subject site. There have not been sightings of protected species near the subject site. There are no historical or archaeological sites that have been identified on the subject site.

Comprehensive Plan

The relevant sections of the Comprehensive Plan that are applicable to the project request:

POLICY 2.102 (A1-A15): Growth Management Policies
POLICY 2. 2.120 (C1-C4): Residential Low
POLICY 2. 124 (A1-A5): Transit Supportive Development Area

Findings of Fact

Request and Legal Status

- This is a County-initiated Future Land Use Map change from Recreation Open Space (ROS) to Residential Low (RL) on ±3.9 acres.

- The Land Development Code Future Land Use district is Recreation Open Space (ROS) for the subject site.

- This case is related to a Land Development Code District Change to RL-4 (LDCD-2025-2)

- RL-4 permits four (4) homes per one (1) acre.

- In 1985, the Zoning Advisory Board voted 5-0 to approve a request designating land within the 100-year floodplain along the lake as Preservation Area (PA) and the remainder of the parcel outside the floodplain as Single Family (SR-4). However, when the Land

Development Code and Comprehensive Plan were adopted, the properties were re-designated Recreation Open Space (ROS) and Residential Low (RL-4), respectively.

- The properties are owned by multiple homeowners along Lake Daisy.

- Section 204.C of the LDC states, the purpose of the RL-4 district is to provide areas for the low-density residential needs of residents in urban areas who desire areas with smaller lots, a minimum of 6,000 square feet.

Compatibility

- The subject site includes 18 lots within residential development.

- The existing uses surrounding the site are Residential Low-4 (RL-4) to the south. Recreation Open Space (ROS) to the west and east developed with single family homes. The LDC land use district is ROS for the subject site.

- North of the subject site is Lake Daisy. West, east, and south are single family homes.

- The subject sites access Struthers Road which is an Urban Collector Road.

Infrastructure

- The zoned schools for the site are Garden Grove Elementary, Denison Middle, Winter Haven Senior High.

- Fire and Ambulance responses are from Polk County Fire Rescue Station 18, located at 2101 Register Road, Winter Haven, which is approximately 2.7 miles away with an estimated 6-minute response.

- The subject site is within the Southeast District Command Area for the Sheriff's office which is located at 4011 Sgt. Mary Campbell Way.

- The subject site is within the Winter Haven service area for water and wastewater.

- Struthers Road, which runs east to west, is an Urban Collector roadway with 20 feet of pavement width.

- The subject site is not within a Citrus Connection service area.

Environmental

- The elevation on the property starts on the south at 136 feet and slopes towards Lake Daisy north to 128 feet.
- There are wetlands and flood zone AE on the subject site.
- The soil type for the subject site is Sparr sand (65.8%) and Pomona sands (34.2%).
- Per the Polk County Protected Species Map there are no protected species within a one-mile radius of the subject site.
- There are no known archeological or historical resources on the subject site per data from the Florida State Historical Commission.
- There are no wellfields near the subject site.

Comprehensive Plan Policies

- POLICY 2.102-A1 Development Location states that Polk County shall promote contiguous and compact growth patterns through the development process to minimize energy costs, conserve land, water, and natural resources, minimize the cost of services, and prevent development patterns where tracts of land are by-passed in favor of development more distant from services and existing communities.
- POLICY 2.102-A2 Compatibility states that land shall be developed so that adjacent uses are compatible with each other, pursuant to the requirements of other Policies in this Future Land Use Element, so that one or more of the following provisions are accomplished: a. there have been provisions made which buffer incompatible uses from dissimilar uses; b. incompatible uses are made to be more compatible to each other through limiting the intensity and scale of the more intense use; c. uses are transitioned through a gradual scaling of different land use activities through the use of innovative development techniques such as a Planned Unit Development.
- POLICY 2.102-A3 Distribution states that development shall be distributed throughout the County consistently with this Future Land Use Element so that the public utility, other community services, and public transit and transportation systems can be efficiently utilized; and compact, high-density and intensity development is located where urban services can be made available.
- POLICY 2.102-A4 Timing states that development of land shall be timed and staged in conjunction with the cost-effective and efficient provision of supporting community

services which, at a minimum, shall require compliance with the Plan's Level of Service requirements and the County's concurrency management system.

- POLICY 2.102-A10 Location Criteria states the following factors shall be taken into consideration when determining the appropriateness of establishing or expanding any land use or development area:

  a. nearness to incompatible land uses and future land uses, unless adequate buffering is provided.

  b. nearness to agriculture-production areas;

  c. distance from populated areas;

  d. economic issues, such as minimum population support and market-area radius (where applicable);

  e. adequacy of support facilities or adequacy of proposed facilities to be provided by the time of development, including, but are not limited to:

     1. transportation facilities, including but not limited to, mass transit, sidewalks, trails and bikeways;

     2. sanitary sewer and potable water service;

     3. storm-water management;

     4. solid waste collection and disposal;

     5. fire protection with adequate response times, properly trained personnel, and proper fire-fighting equipment;
     6. emergency medical service (EMS) provisions; and

     7. other public safety features such as law enforcement;

     8. schools and other educational facilities

     9. parks, open spaces, civic areas and other community facilities

  f. environmental factors, including, but not limited to:

     1. environmental sensitivity of the property and adjacent property;

     2. surface water features, including drainage patterns, basin characteristics, and flood hazards;

     3. wetlands and primary aquifer recharge areas;

4. soil characteristics;

5. location of potable water supplies, private wells, public well fields; and

6. climatic conditions, including prevailing winds, when applicable.

- POLICY 2.104-A1: DESCRIPTION -Transit Supportive Development Areas shall meet the following criteria:

  a. be those areas where the availability of infrastructure and other community facilities and services, including, but not limited to mass transit and other transportation alternatives, utilities, public safety, recreational and educational services, promotes and supports the location of higher density and intensity compact, mixed use development;

  b. be supported by existing or planned urban type services that are programmed or expected for the 10-year planning horizon;

  c. be designated as part of a coordinated land use and transportation strategy that supports the provision of improved and expanded transit services, as identified in the Transportation Planning Organization (TPO) 2060 Transportation Vision Plan and the connecting circulator routes, in order to increase mobility and travel options;

  d. include development criteria that:

  1. promote the development of walkable communities which include a balance between employment opportunities, mix of complementary uses and activities, and a range of housing opportunities;

  2. improve access to employment areas, schools, shopping and recreational opportunities;

- POLICY 2.104-A3: LAND USE CATEGORIES -The following land use categories shall be permitted within TSDAs, in accordance with applicable criteria

  a. ACTIVITY CENTERS: Regional Activity Centers, Community Activity Centers, Neighborhood Activity Centers, Convenience Centers, Tourism Commercial Centers, Employment Centers and High-Impact Commercial Centers.

  b. RESIDENTIAL: Residential-High, Residential-Medium, and Residential-Low Districts.

  c. OTHER: Linear Commercial Corridors, Commercial Enclaves, Industrial, Business-Park Centers, Office Centers, Leisure Recreation, Mixed Use, Institutional, Professional Institutional, Recreation and Open Space, Preservation.

- POLICY 2.117-A1: CHARACTERISTICS - Recreation and open space areas are primarily sites and facilities which are accessible to the general public, and which are oriented toward

providing recreation services for the resident and the short and long-term visitor to Polk County. A recreational activity included within recreation and open space areas may be motorized, allow for the discharge of firearms, accommodate nighttime use, and produce large crowds at events. Retail sales are limited to concessions at events or to enhance the quality of the recreation experience onsite unless combined with commercially designated lands.

- POLICY 2.117-A3: LOCATION CRITERIA - Designation of new Recreation and Open Space areas on the Future Land Use Map Series shall occur. Consider the following factors when determining the appropriateness of designating new Recreation and Open Space areas:

  a. facilities meeting the recreation level-of-service standard (Policy 3.502-E2) and fulfilling the recreation and open space acquisition plan (Policies 3.502-E3, 3.502-E6, and 3.502-E9);

  b. satisfying resident and seasonal visitor/tourist recreation demand;

  c. impacts of the proposed uses on public facilities and services;

  d. vehicle access relative to the size and planned intensity of a proposed ROS district;

  e. distance to lake and river access, greenways, bicycle, pedestrian, and fixed route transit facilities, both existing and planned; and,

f. the locational criteria enumerated in Policy 2.102-A9 and Policy 2.102-A10.

- POLICY 2.120-C1: CHARACTERISTICS - Densities up to, and including, 5.00 DU/AC. The Residential-Low classification is characterized by single-family dwelling units, duplex units, and small-scale multi-family units.

- POLICY 2.120-C2: DESIGNATION AND MAPPING - Residential-Low districts shall be located within TSDAs, UGAs, and UEAs as designated on the Future Land Use Map Series as "RL."

- POLICY 2.120-C3: LOCATION CRITERIA - Residential-Low areas shall be located only within the TSDAs, UGAs, SDAs, and UEAs and new Residential-Low development shall not be located within Activity Centers. The placement of Residential-Low shall be evaluated based on the general criteria listed in Policy 2.119-A2.

- POLICY 2.120-C4: DEVELOPMENT CRITERIA - Residential development may contain a variety of housing types as defined by the Land Development Code within the TSDA. Outside the TSDA, RL may contain single-family dwelling units, duplex units,

small-scale multi-family units, and family-care homes, and shall be permitted, with County approval, at a density of up to, and including, 5 DU/AC. Additionally, community facilities may be allowed in accordance with policies of this Plan.

Development Review Committee Recommendation: Based on the information provided by the applicant, recent site visits, and the analysis conducted within this staff report, the Development Review Committee finds that with the proposed conditions, the proposed request **IS COMPATIBLE** with the surrounding land uses and general character of the area, **IS CONSISTENT** with the Polk County Comprehensive Plan and Land Development Code, and therefore, the Development Review Committee (DRC) recommends **APPROVAL of LDCPAS-2025-8.**

Planning Commission Recommendation: On July 9th, 2025, in an advertised public hearing, the Planning Commission voted 7:0 to **recommend APPROVAL of LDCPAS-2025-8.**

Planning Commission Recommendation: Pending Hearing

NOTE: This staff report was prepared without the benefit of testimony and evidence submitted by the public and other interested parties at a public hearing.

NOTE: All written comments made in the application and subsequent submissions of information made during the application review process, which are on file with the Land Development Division, shall be considered to be binding upon the applicant, provided such comments are not at variance with the Comprehensive Plan, LDC or other development regulations in effect at the time of development.

NOTE: Issuance of a development permit by the county does not in any way create any rights on the part of the applicant to obtain a permit from a state or federal agency and does not create any liability on the part of the county for issuance of the permit if the applicant fails to obtain requisite approvals or fulfill the obligations imposed by a state or federal agency or undertakes actions that result in a violation of state or federal law.

Analysis

This section of the staff report includes data on the surrounding uses, infrastructure conditions, environmental conditions, and related Comprehensive Plan policies and Land Development Code regulations.

Surrounding Uses

Table 1 below lists the Future Land Use (FLU) designation and the existing uses surrounding the subject site that are immediately adjacent.

Table 1 Surrounding Uses

Northwest – Lake Daisy	**North –** Lake Daisy	**Northeast –** Lake Daisy
West – Single family homes (ROS)	**Subject Site –** Single family homes (ROS)	**East –** Single family homes (ROS)
Southwest – Single	**South –** Single	**Southeast –** Single

family homes Residential Suburban (RL-4)	family homes Residential Suburban (RL-4)	family homes Residential Suburban (RL-4)

Source: Polk County Geographical Information System and site visit by County staff

There are residential developments to the west, south, and east. Lake Daisy is north of the subject site.

Compatibility with the Surrounding Uses

According to Policy 2.102-A2 of Polk County's Comprehensive Plan, "land shall be developed so that adjacent uses are compatible with each other, pursuant to the requirements of other policies in this Future Land Use Element, so that one or more of the following provisions are accomplished: a. there have been provisions made which buffer incompatible uses from dissimilar uses; b. incompatible uses are made to be more compatible to each other through limiting the intensity and scale of the more intense use; and c. uses are transitioned through a gradual scaling of different land use activities through the use of innovative development techniques such as a Planned Unit Development." The "development criteria" and the "density and dimensional regulations" of a land use district are often the measuring tools used by staff to determine compatibility and the appropriateness of locating differentiating uses. Compatibility is defined in the Comprehensive Plan as "a condition in which land uses or conditions can coexist in relative proximity to each other in a stable fashion over time such that no use or condition is unduly negatively impacted directly or indirectly by another use or condition."

RL-4 is compatible for the surrounding area. The rest of the community is designated as Residential Low-4 (RL-4). There are single family homes to the south, west, and east of the subject site. This is an appropriate and compatible use in all urban and suburban areas in the County.

Nearest Elementary, Middle, and High School

The schools zoned for the subject property site are listed in Table 2 below. The proposed request will not generate any significant increase in students. Student capacity is not an issue as all schools have available capacity.

Table 2 School Impacts

Name of School	% Capacity 2024-2025 School Year	Average driving distance from subject site
Garden Grove Elementary (Zoned)	80%	±0.8 mile driving distance
Denison Middle (Zoned)	56%	±6.3 miles driving distance
Winter Haven Senior High (Zoned)	102%	±5.7 miles driving distance

Source: Polk County School Board, Polk County Impact Fee Ordinance.

Nearest Sheriff, Fire, and EMS Station

Table 3 below displays the nearest public safety facilities. Response time varies depending on where the nearest sheriff's deputy patrol car is located rather than the office. The facilities are within appropriate distances to the subject site for an urban area.

Table 3 Public Safety Information

	Name of Station	Distance/Response
Sheriff	Polk County Sheriff's Office Southeast District 4011 Sgt. Mary Campbell Way, Lake Wales.	5.9 +/- miles Priority 1 – 11:09 Priority 2 – 32:20
Fire/EMS	Fire Rescue Station 18 2101 Register Road, Winter Haven Estimated response time: 6 minutes	2.7 +/- miles

Source: Polk County Sheriff's Office and Polk County Fire Rescue.

Water and Wastewater

The subject site is located within the Winter Haven service area for water and wastewater.

A. Estimated Demand and Service Provider

The properties are owned by multiple owners. This neighborhood is built out and will not need additional water wastewater services based upon the current and proposed Future Land Use designation.

Table 4 Estimated Water and Sewer Impact Analysis

Permitted Intensity	**Maximum Permitted in Existing Land Use ROS**	**Maximum Allowable in Proposed RL-4**
3.9 +/-acres **169,884 sq ft**	**3.9 +/- acres = 169,884 sq ft X 0.24 FAR =** **40,772 sq ft**	**3.9+/- acres X 4 du/ ac = 16 du**
Potable Water Consumption	**40,772 sq ft X .24 /sf = 9,785 GPD**	**16 du X 360 GPD = 5,760 GPD**
Wastewater Generation	**9,785 GPD X 80% = 7, 828 GPD**	**16 du X 270 GPD = 4,320 GPD**

Source: Polk County Maximum Feasible Buildout Methodology; Single family residential 360 GPD for water and 270 GPD for wastewater; Dance Hall 0.24 FAR and 523 GPD for Water and 80% Wastewater

B. Available Capacity

Winter Haven Utilities service water and wastewater to the area.

C. Planned Improvements

The County has no planned improvements contained in its Capital Improvement Plan for this area.

Roadways/Transportation Network

The proposed land use change is not anticipated to generate more traffic.

A. Estimated Demand

The subject site has a total area of 3.9± acres. The site is not generating many trips.

Table 5 Estimated Transportation Impact Analysis

Permitted Intensity	Maximum Permitted in Existing Land Use ROS	Maximum Allowable in Proposed RL-4
3.9 +/-acres	3.9 +/- acres = 169,884 sq ft X 0.05 FAR = 8,494 sq ft	3.9 +/- acres X 4 du/ac = 16 du
Average Annual	8,494 sq ft / 1,000 sf = 8 du X 47.62 AADT = 380 Trips (100% New Trips)	16 du X 7.81 AADT = 125 Trips (100% New Trips)
PM Peak	8 du X 11.12PM Peak (100% New Trips) = 89 Trips	16 du X 1.00 PM Peak (100% New Trips) = 16 Trips

Source: Polk County Table 1 for Minor Traffic Study; Single-family detached; 7.81 AADT and 1.0 PM Peak Hour Daycare Center at 47.62 AADT and 11.12 PM Peak Hour

B. Available Capacity

Table 6 below displays the available capacity on the surrounding roadway network.

Table 6 Roadway Link Concurrency

Link #	Road Name	Current Level of Service (LOS)	Available Peak Hour Capacity	Minimum LOS Standard	5-Year Peak Hr. Projected LOS
6306E	SR 540 (CYPRESS GARDENS BLVD) From: CR 550 (OVERLOOK DRIVE SE) To: CYPRESS GARDENS ROAD	C	743	D	C
6306W		C	792	D	C

Source: Polk County Transportation Planning Organization Roadway Network Database 2025

C. Roadway Conditions

Struthers Road which runs east to west, is an Urban Collector roadway.

D. Sidewalk Network

There are no sidewalks within these communities.

E. Mass Transit

The subject site is not in a Citrus Connection service area.

F. Planned Improvements

The subject site is located in the Transit Supportive Development Area. There are no planned improvements.

Environmental Conditions

The Polk County Comprehensive Plan has a Conservation Element. Division 2.300 of the Comprehensive Plan mentions, "The goal, objectives, and policies of the Conservation Element are designed to protect the natural resources which make Polk County a special place while preventing degradation of the environment and allowing development and economic expansion to occur." There should be no serious environmental conditions that need to be addressed with this subject site.

A. Surface Water

Lake Daisy is located to the north of the subject properties. The elevation on the property starts on the south at 136 feet and slopes towards Lake Daisy north to 128 feet.

B. Wetlands/Floodplains

The subject site does contain wetlands and AE flood zones.

C. Soils:

According to the soil survey by the United States Department of Agriculture the subject site includes the soils listed in Table 7 below. Future development of the site will be subject to Section 2.303: "Soils" of the County's Comprehensive Plan (in conjunction with the Land Development Code) which requires all development to implement Best Management Practices based on the Department of Environmental Protection's (DEP) Florida Development Manual.

Table 7 Soils

Soil Name	Septic Tank Absorption Field Limitations	Limitations to Dwellings w/o Basements	% of Site *(approximate)*
Sparr sand	Severe: wetness	Moderate: wetness	65.8%
Pomona sand	Severe: wetness	Severe: wetness	34.2%

Source: USDA Natural Resources Conservation Service 2024

D. Protected Species

According to Polk County Protected Species Observation Maps, the subject site is not located within a one-mile radius of endangered animals.

E. Archeological Resources

There are no known historical or archeological resources onsite according to the Secretary of State's Department of Historical Resources Florida Master Site File.

F. Wells (Public/Private)

The subject site is not located within a Wellhead Protection district.

G. Airports

The subject site is not located within an airport district.

Economic Impact:

The subject site is in Recreation Open Space land use. This County initiated CPA will change the land use to Residential Low-4 (RL-4) for the site. RL-4 is a better land use for the site as it be consistent with the land use for the neighborhoods.

Consistency with the Comprehensive Plan and Land Development Code

The following policies in Table 8 have been included as being the most relevant policies to the proposed request. The policy is first stated and then an analysis of how the request may or may not be consistent with the County's Comprehensive Plan is provided. The policies reviewed are as follows:

- POLICY 2.102(A1-A15): Growth Management Policies
- POLICY 2. 2.120 (C1-C4): Residential Low
- POLICY 2. 104 (A1-A7): Transit Supportive Development Area

Table 8 Comprehensive Plan Policy

Comprehensive Plan Policy	Consistency Analysis
Policy 2.102-A1: Development Location – Polk County shall promote contiguous and compact growth patterns through the development process to minimize energy costs, conserve land, water, and natural resources, minimize the cost of services, and prevent development patterns where tracts of land are by-passed in favor of development more distant from services and existing communities.	The area surrounding the subject site is comprised of single family residential. The communities access an Urban Collector Road and this change will allow consistency for the areas.
Policy 2.102-A2: Compatibility - Land shall be developed so that adjacent uses are compatible with each other, pursuant to the requirements of other Policies in this Future Land Use Element, so that one or more of the following provisions are accomplished: a. there have been provisions made which buffer incompatible uses from dissimilar uses; b. incompatible uses are made to be more compatible to each other through limiting the intensity and scale of the more intense use; c. uses are transitioned through a gradual scaling of different land use activities through the use of innovative development techniques such as a Planned Unit Development.	The Comprehensive Plan permits Residential Low to be designated in the TSDA areas. Residential development may contain a variety of housing types as defined by the Land Development Code within the TSDA. Outside the TSDA, RL may contain single-family dwelling units, duplex units, small-scale multi-family units, and family-care homes, and shall be permitted, with County approval, at a density of up to, and including, 5 DU/AC. Additionally, community facilities may be allowed in accordance with policies of this Plan.
Policy 2.102-A3: Distribution - Development shall be distributed throughout the County consistently with this Future Land Use Element so that the public utility, other community services, and public transit and transportation systems can be efficiently utilized; and compact, high-density and intensity development is located where urban services can be made available.	Winter Haven Utilities services the area. Police and Fire are both available, and zoned schools have capacity.
Policy 2.102-A4: Timing - The development of land shall be timed and staged in conjunction with the cost-effective and efficient provision of supporting community services which, at a minimum, shall require compliance with the Plan's Level of Service	The communities access Struthers Road, an Urban Collector Road. Winter Haven utilities serve the area, the roads are sufficient, emergency services are available, and the

Comprehensive Plan Policy	Consistency Analysis
requirements and the County's concurrency management system.	schools have capacity. The subject site is not within the Citrus Connection service area.
Policy 2.102-A10: Location Criteria - The following factors shall be taken into consideration when determining the appropriateness of establishing or expanding any land use or development area: a. nearness to incompatible land uses and future land uses, unless adequate buffering is provided; b. nearness to agriculture-production areas; c. distance from populated areas; d. economic issues, such as minimum population support and market-area radius (where applicable); e. adequacy of support facilities or adequacy of proposed facilities to be provided by the time of development, including, but are not limited to: 1. transportation facilities, including but not limited to mass transit, sidewalks, trails and bikeways; 2. sanitary sewer and potable water service; 3. storm-water management; 4. solid waste collection and disposal; 5. fire protection with adequate response times, properly trained personnel, and proper fire-fighting equipment; 6. emergency medical service (EMS) provisions; and 7. other public safety features such as law enforcement; 8. schools and other educational facilities	

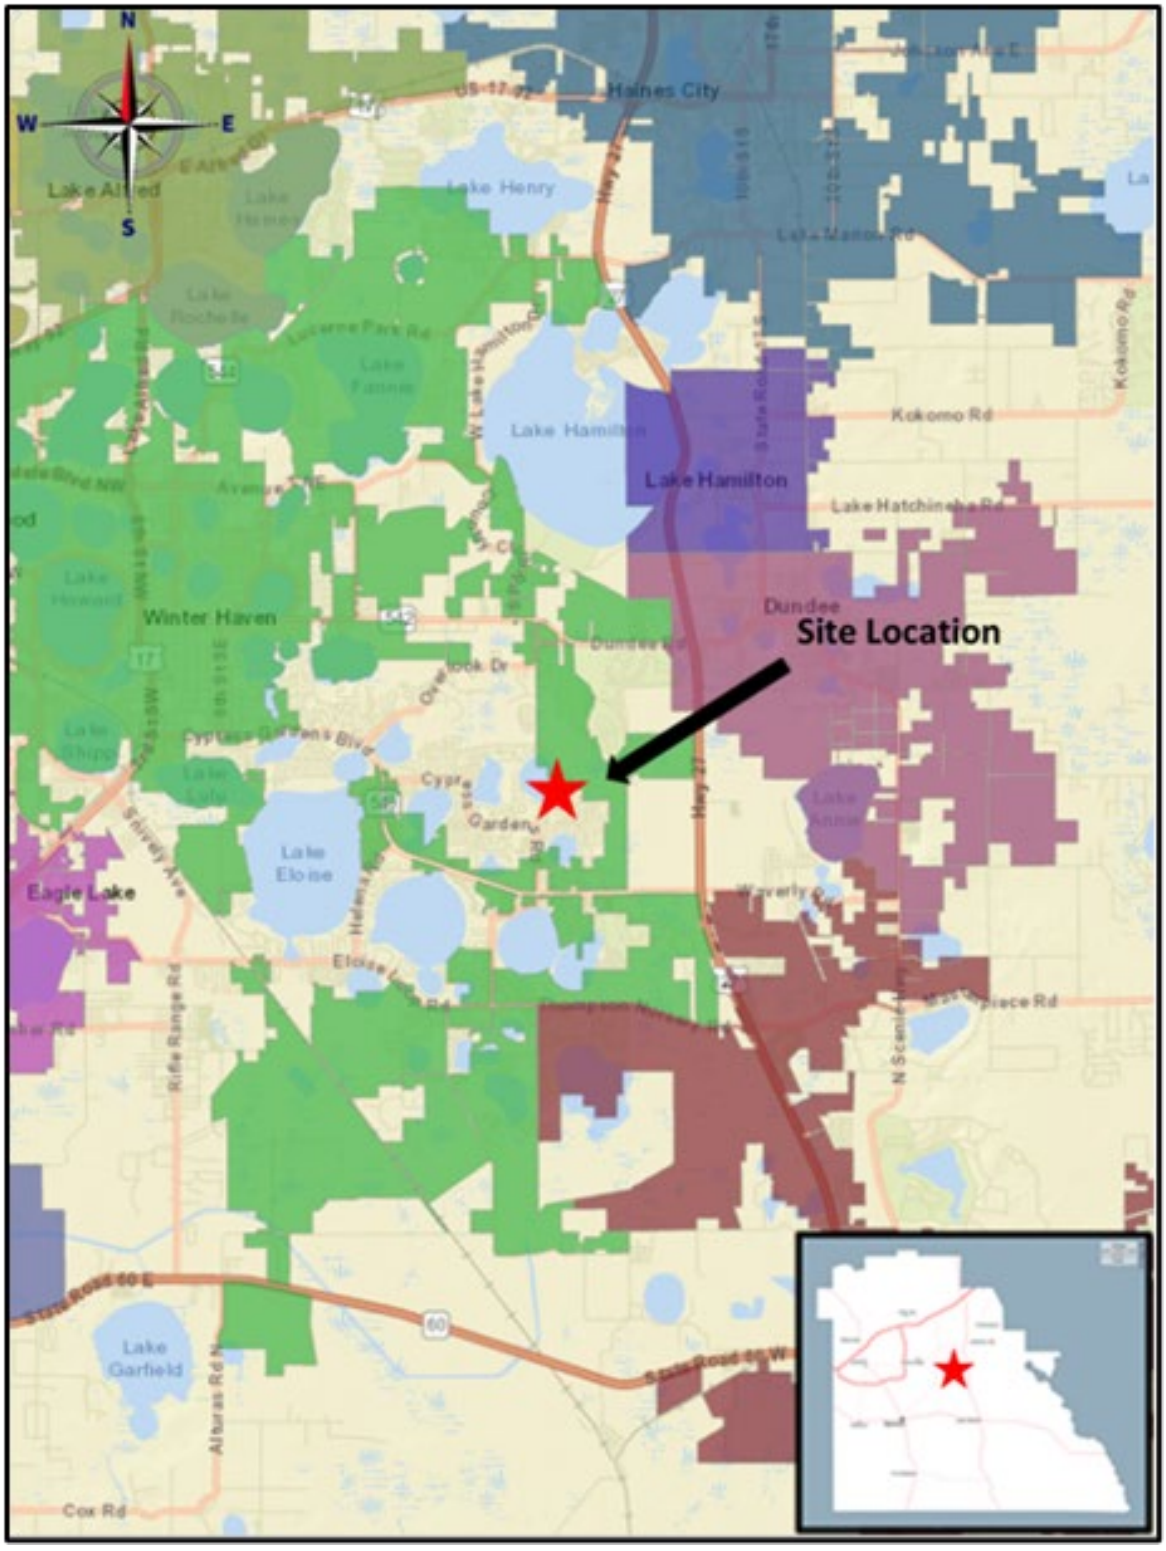
Comprehensive Plan Policy	Consistency Analysis
9. parks, open spaces, civic areas and other community facilities.	
POLICY 2.104-A1: DESCRIPTION - Transit Supportive Development Areas shall meet the following criteria: a.be those areas where the availability of infrastructure and other community facilities and services, including, but not limited to mass transit and other transportation alternatives, utilities, public safety, recreational and educational services, promotes and supports the location of higher density and intensity compact, mixed use development; b.be supported by existing or planned urban type services that are programmed or expected for the 10-year planning horizon; c.be designated as part of a coordinated land use and transportation strategy that supports the provision of improved and expanded transit services, as identified in the Transportation Planning Organization (TPO) 2060 Transportation Vision Plan and the connecting circulator routes, in order to increase mobility and travel options; d. include development criteria that: 1.promote the development of walkable communities which include a balance between employment opportunities, mix of complementary uses and activities, and a range of housing opportunities; 2.improve access to employment areas, schools, shopping and recreational opportunities; POLICY 2.104-A2: DESIGNATION AND MAPPING - The Future Land Use Map Series shall designate and map TSDAs for those areas of the County meeting the general characteristics of this Section 2.104.	Residential Low-4 (RL-4) is allowed in the TSDA. These neighborhoods are developed out.

Comprehensive Plan Policy	Consistency Analysis
POLICY 2.104-A3: LAND USE CATEGORIES - The following land use categories shall be permitted within TSDAs, in accordance with applicable criteria a. ACTIVITY CENTERS: Regional Activity Centers, Community Activity Centers, Neighborhood Activity Centers, Convenience Centers, Tourism Commercial Centers, Employment Centers and High-Impact Commercial Centers. b. RESIDENTIAL: Residential-High, Residential-Medium, and Residential-Low Districts. c. OTHER: Linear Commercial Corridors, Commercial Enclaves, Industrial, Business-Park Centers, Office Centers, Leisure Recreation, Mixed Use, Institutional, Professional Institutional, Recreation and Open Space, Preservation. POLICY 2.104-A4: OVERLAY DISTRICTS - All overlay Districts shall be permitted within TSDAs and UGAs in accordance with applicable criteria. POLICY 2.104-A5: DEVELOPMENT CRITERIA - Development within the Transit Supportive Development Areas shall conform to the following criteria as further specified by the Land Development Code: a. provide access to transit facilities; b. connect to centralized potable water and sanitary sewer systems; c. incorporate design features that promote healthy communities and green building practices, as established in Section 2.1251, Community Design, of this element; d. implement "Complete Street" and "Conservation Development" principles as established under Section 2.1251, Community Design, of this element;	

Comprehensive Plan Policy	Consistency Analysis
e. integrate pedestrian-oriented features, including sidewalks, trails or walkways into every development including appropriate pedestrian shelters or awnings; f. provide access to civic space, parks, green areas, and open space and other amenities; g. be supported by public safety (i.e., fire, EMS and law enforcement); h. have access to public schools; i. provide connectivity with adjacent uses within the TSDA, and facilitate connectivity between the TSDA and other urban centers and the rural development areas. j. encourage the inclusion of a variety of housing choices, other than single family detached homes, townhomes, condominiums, and residential units in mixed use buildings by establishing minimum densities that preclude the exclusive use of single family detached units within designated areas as established in Policy 2.104-A7.	
POLICY 2.120-C1: CHARACTERISTICS - Densities up to, and including, 5.00 DU/AC. The Residential-Low classification is characterized by single-family dwelling units, duplex units, and small-scale multi-family units. POLICY 2.120-C2: DESIGNATION AND MAPPING - Residential-Low districts shall be located within TSDAs, UGAs, and UEAs as designated on the Future Land Use Map Series as "RL." POLICY 2.120-C3: LOCATION CRITERIA - Residential-Low areas shall be located only within the TSDAs, UGAs, SDAs, and UEAs and new Residential-Low development shall not be located within Activity Centers. The placement of Residential-Low shall be evaluated based on the general criteria listed in Policy 2.119-A2.	Multiple owners own the properties along Lake Daisy. The sites have single family homes. This site is in the TSDA.

Comprehensive Plan Policy	Consistency Analysis
POLICY 2.120-C4: DEVELOPMENT CRITERIA - Residential development may contain a variety of housing types as defined by the Land Development Code within the TSDA. Outside the TSDA, RL may contain single-family dwelling units, duplex units, small-scale multi-family units, and family-care homes, and shall be permitted, with County approval, at a density of up to, and including, 5 DU/AC. Additionally, community facilities may be allowed in accordance with policies of this Plan.	

Urban Sprawl Analysis



After analyzing the primary indicators of Urban Sprawl per *Policy 2.109-A10* of the Polk County Comprehensive Plan, it is apparent that the proposed request **is** not considered urban sprawl based on these criteria. Table 9 (below) depicts the Urban Sprawl Criteria used by staff as indicators of Urban Sprawl.

Table 9 Urban Sprawl Criteria	
Urban Sprawl Criteria: The following criteria are the primary indicators of urban sprawl per Florida Statutes	
Urban Sprawl Criteria	**Where sections referenced in this report**
a. Promotes substantial amounts of low-density, low-intensity, or single use development in excess of demonstrated need.	Summary of analysis
b. Allows a significant amount of urban development to occur in rural areas.	Summary of analysis
c. Designates an urban development in radial, strip isolated, or ribbon patterns emanating from existing urban developments.	Summary of analysis, surrounding Development, compatibility
d. Fails to adequately protect and conserve natural resources and other significant natural systems.	Summary of analysis, surrounding Development, compatibility
e. Fails to adequately protect adjacent agricultural areas.	Compatibility with Surrounding Land Uses

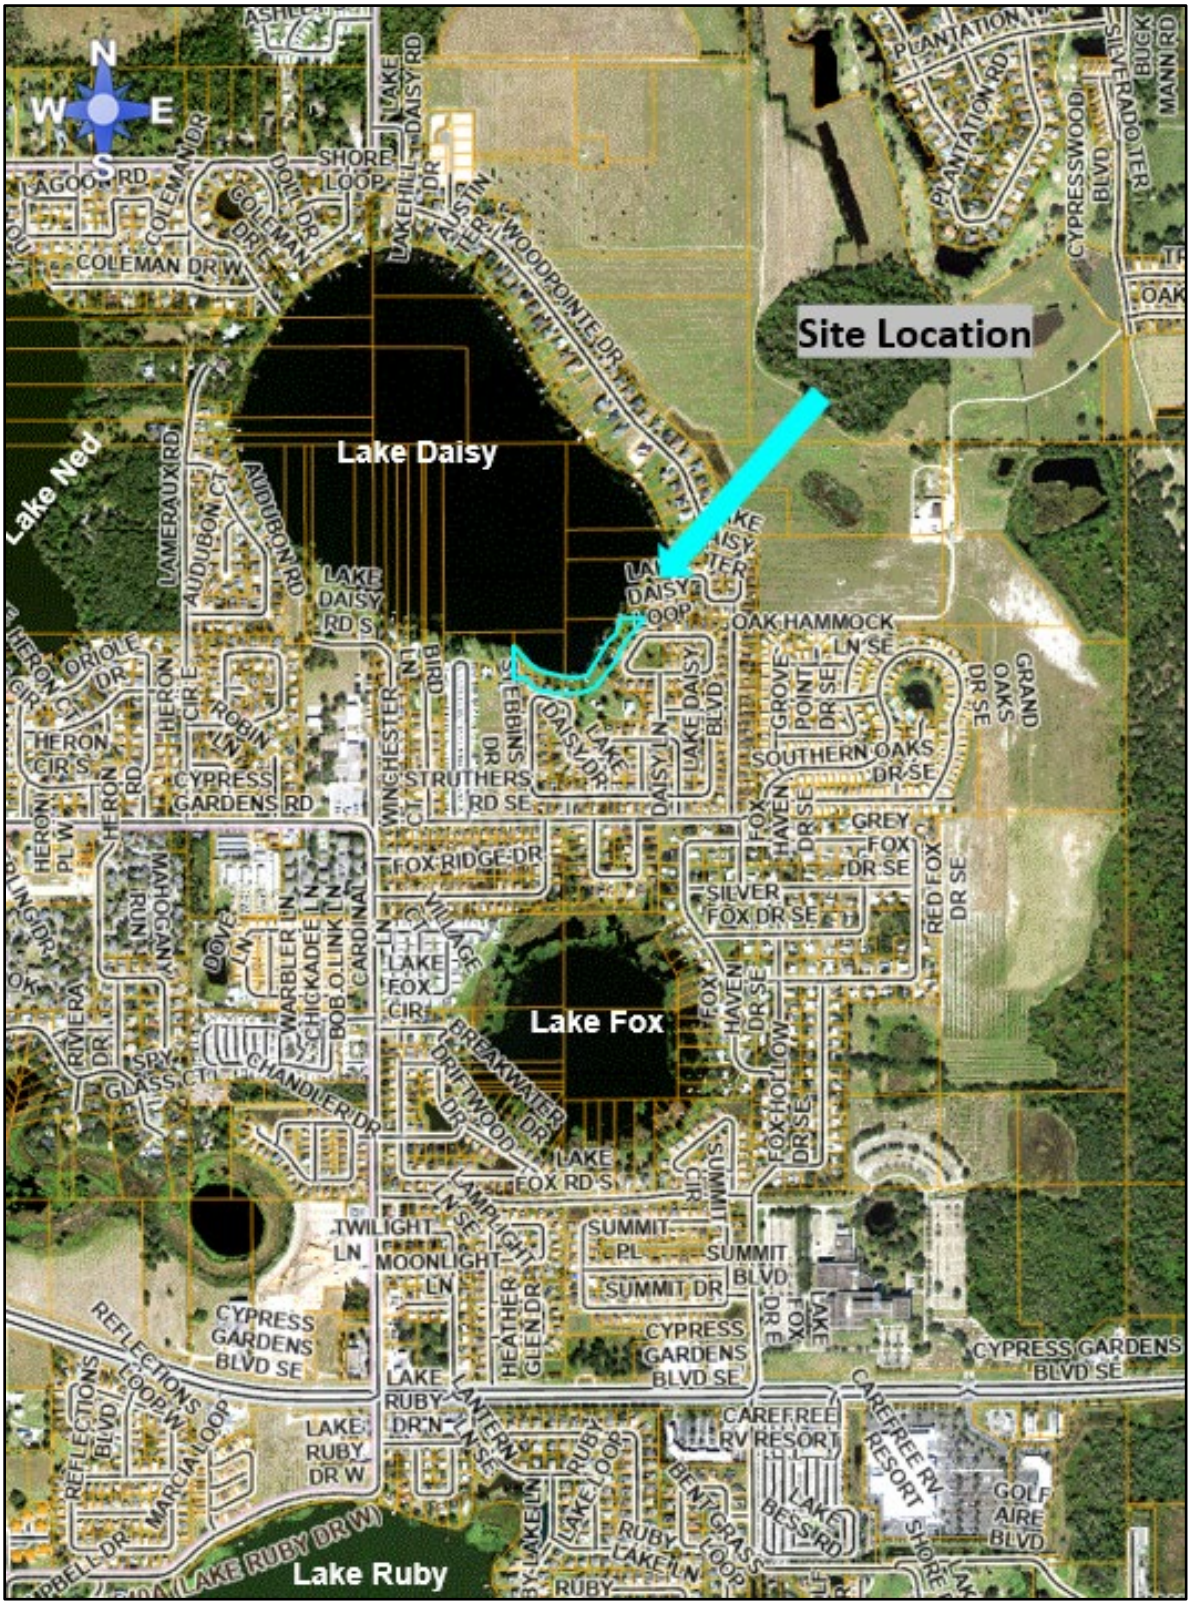


Table 9 Urban Sprawl Criteria	
Urban Sprawl Criteria: The following criteria are the primary indicators of urban sprawl per Florida Statutes	
Urban Sprawl Criteria	**Where sections referenced in this report**
f. Fails to maximize existing public facilities and services.	Summary of Analysis, Infrastructure
g. Fails to minimize the need for future facilities and services.	Summary of Analysis, Infrastructure
h. Allows development patterns that will disproportionately increase the cost of providing public facilities and services.	Summary of Analysis, Infrastructure
i. Fails to provide a clear separation between urban and rural uses.	Summary of Analysis, Compatibility with Surrounding Land Uses
j. Discourages infill development or redevelopment of existing neighborhoods.	Summary of Analysis, Compatibility with Surrounding Land Uses
k. Fails to encourage an attractive and functional mixture of land uses.	Summary of Analysis, Compatibility with Surrounding Land Uses
l. Will result in poor accessibility among linked or related land uses.	Summary of Analysis, Compatibility with Surrounding Land Uses
m. Results in the loss of a significant amount of open space.	Summary of Analysis, Compatibility with Surrounding Land Uses

ORDINANCE NO. 24-____

AN ORDINANCE OF THE POLK COUNTY BOARD OF COUNTY COMMISSIONERS REGARDING THE ADOPTION OF **LDCPAS-2025-8**, AN AMENDMENT TO THE POLK COUNTY COMPREHENSIVE PLAN, ORDINANCE 92-36, AS AMENDED, TO CHANGE THE FUTURE LAND USE MAP FROM RECREATION OPEN SPACE (ROS) TO RESIDENTIAL LOW (RL) ON ±3.9 ACRES, LOCATED SOUTH OF LAKE DAISY, NORTH OF LAKE DAISY DR, WEST OF LAKE DAISY LOOP, SOUTHWEST OF THE CITY OF WINTER HAVEN IN SECTION 6, TOWNSHIP 29, RANGE 27; PROVIDING FOR SEVERABILITY; AND PROVIDING FOR AN EFFECTIVE DATE.

WHEREAS, pursuant to Article VIII, Section I(g) of the Constitution of the State of Florida and the Community Planning Act, Chapter 163, Part II, Florida Statutes (FS), as amended, (the Act) Polk County is authorized and required to adopt a Comprehensive Plan (Plan); and

WHEREAS, Section 163.3187, FS, and Comprehensive Plan Section 4.305.B, provides for the approval of Small-Scale Comprehensive Plan Amendments; and

WHEREAS, pursuant to Section 163.3174, FS, the Local Planning Authority (Planning Commission) conducted a public hearing, with due public notice having been provided, on the proposed Plan revisions on July 9, 2025; and

WHEREAS, pursuant to Section 163.3187(2), FS, the Board of County Commissioners conducted an adoption public hearing, with due public notice having been provided, on the proposed Plan revisions on August 19, 2025; and

WHEREAS, the Board of County Commissioners, reviewed and considered all comments received during said public hearing, and provided for necessary revisions; and

NOW THEREFORE, BE IT ORDAINED by the Polk County Board of County Commissioners:

SECTION 1: COMPREHENSIVE PLAN AMENDMENT

The Future Land Use Map of Ordinance No. 92-36, as amended, (the "Polk County Comprehensive Plan") is hereby amended to reflect a change in the Future Land Use designation on an 3.9 +/- acre site from Recreation Open Space (ROS) to Residential Low (RL), in the Transit Supportive Development Area (TSDA) so that all of the lots and parcels and the description listed below reflects RL and graphically depicted on the parcel map in Attachment "A".

SECTION 2: SEVERABILITY

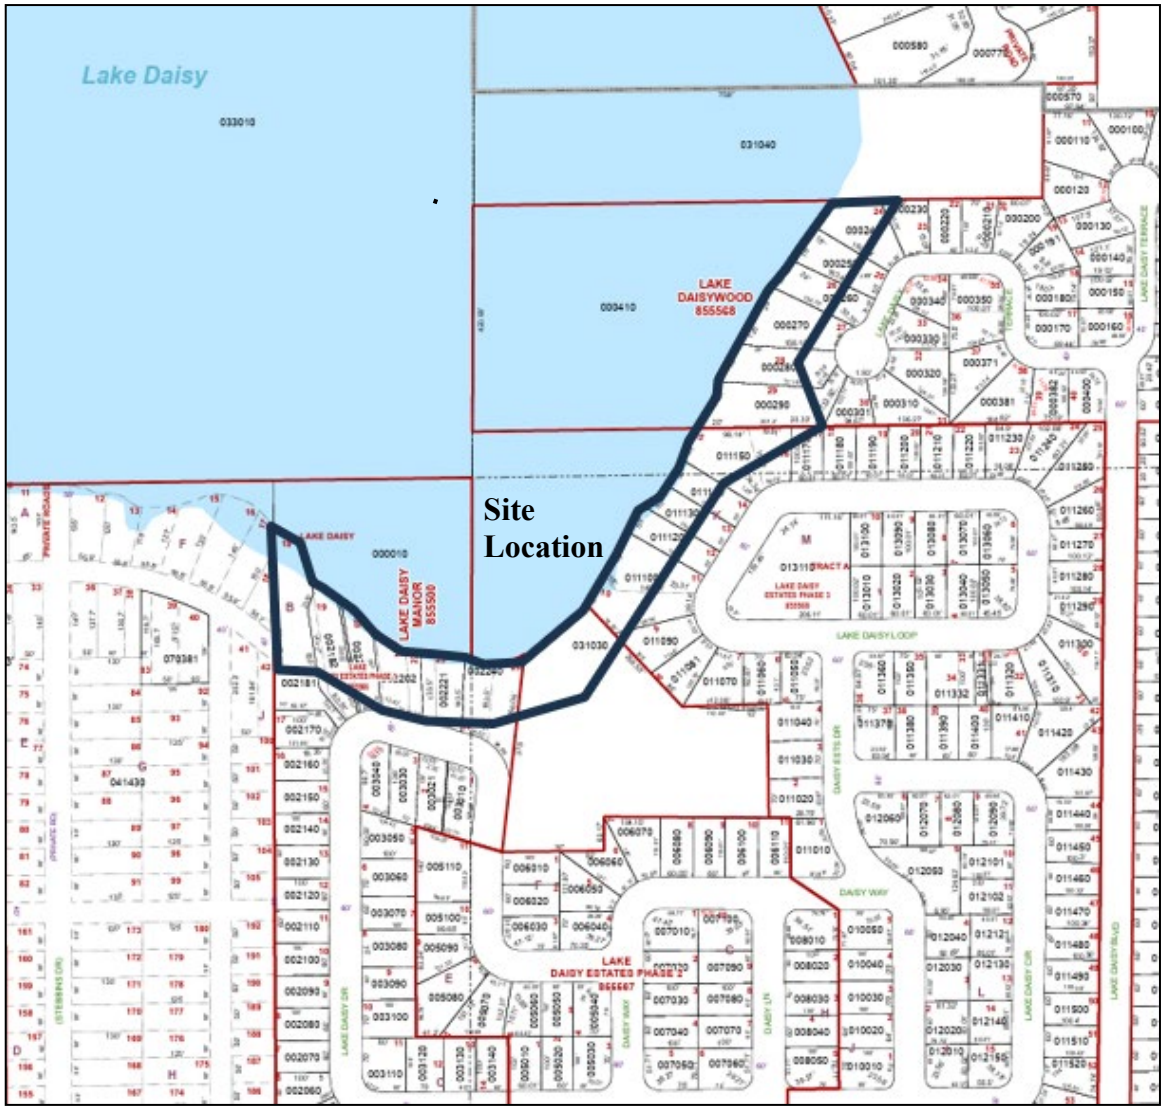
If any provision of this Ordinance is held to be illegal, invalid, or unconstitutional by a court of competent jurisdiction the other provisions shall remain in full force and effect.

SECTION 3: EFFECTIVE DATE

This ordinance shall be effective on September 19, 2025 (31 days after adoption) unless the amendment is challenged. If challenged, the effective date of this ordinance shall be the date a Final Order is issued by the Department of Economic Opportunity or Administration Commission finding the amendment in compliance in accordance with Section 163.3184 (1)(b), Florida Statutes. No development orders, development permits, or land uses dependent upon this amendment, as described on the attached map of proposed land uses, may be issued or commence before it has become effective.

SECTION 4: FILING WITH THE DEPARTMENT OF STATE:

The Clerk and Auditor to the Board of County Commissioners of Polk County, Florida, shall file a certified copy of this ordinance with the Department of State, through the Secretary of State, upon adoption by the Board of County Commissioners of Polk County, Florida.



ADOPTED, in open session of the Polk County Board of County Commissioners with a quorum present and voting this 19th day of August 2025.

PARCEL DETAIL

Note: Not to Scale

POLICY 2.102-A11: URBAN SPRAWL CRITERIA - In accordance with Rule 9J-5.006(5) of the Florida Administrative Code, Polk County will discourage the proliferation of urban sprawl by use of the following criteria when determining the appropriateness of establishing or expanding any land use or development area. The analysis must ask whether or not the proposed plan amendment:

a. Promotes, allows, or designates for development substantial areas of the jurisdiction to develop as low-intensity, low-density, or single-use development or uses in excess of demonstrated need.

This land use change to RL is not sprawl. Single family homes are existing.

b. Promotes, allows, or designates significant amounts of urban development to occur in rural areas at substantial distances from existing urban areas while leaping over undeveloped lands which are available and suitable for development.

c. Promotes, allows or designates urban development in radial, strip isolated or ribbon patterns generally emanating from existing urban developments.

d. As a result of premature or poorly planned conversion of rural land to other uses, fails to adequately protect and conserve natural resources, such as, wetlands, floodplains, native vegetation, environmentally sensitive areas, natural shorelines, beaches, bays, estuarine systems, and other significant natural systems.

e. Fails to adequately protect adjacent agricultural areas and activities including silviculture and active agricultural and silvicultural activities as well as passive agricultural activities and dormant, unique and prime farmlands and soils.

f. Fails to maximize use of existing public facilities and services.

g. Fails to minimize the use of future public facilities and services.

h. Allows for land use patterns or timing which will disproportionately increase the cost in time, money and energy, of providing public facilities and services including roads, potable water, sanitary sewer, stormwater management, law enforcement education health care, fire and emergency response, and general government.

i. Fails to provide a clear separation between urban and rural uses.

j. Discourages or inhibits in-fill development or redevelopment of existing neighborhoods and communities.

k. Fails to encourage an attractive and functional mix of land uses.

l. Results in poor accessibility among linked or related land uses.

m. Results in the loss of a significant amount of functional open space.

RL land use will not result in loss of open space. Single family homes are existing.

Level 4 – Land Use Narrative: Why the land use change it is needed for the County.

Land Use Amendment Request for parcels along Lake Daisy

The County is proposing a future land use change to bring before the Planning Commission and the Board of County Commissioners. The proposal would change the land use designation from Recreation Open Space (ROS) to Residential Low (RL-4).

In 1985, the Zoning Advisory Board voted 5-0 to approve a request designating land within the 100-year floodplain along Lake Daisy as Preservation Area (PA) and the remainder of the parcel outside the floodplain as Single Family (SR-4). However, when the Land Development Code and Comprehensive Plan were adopted, the properties were re-designated Recreation Open Space (ROS) and Residential Low (RL-4), respectively.

With advancements in technology, FEMA floodplain data now accurately identifies flood-prone areas, eliminating the need for a special designation. Since then, Lake Daisy has been fully developed with single-family homes. The ROS designation on the properties may be restrictive. For instance, if homeowners wish to add an accessory structure—such as a carport, shed, or detached garage—this ROS designation could create complications with permitting and setbacks. Correcting this mapping error will ensure consistency between the Future Land Use Map and the existing residential uses as well as reduce restrictions.

Agenda Item N.3. 8/19/2025

SUBJECT

Public Hearing (LDCD-2025-2 Lake Daisy Sub-district) (Adoption Hearing) to consider the adoption of a Future Land Use Map sub-district change from Residential Low-1 (RL-1) to Residential Low-4 (RL-4) on +/- 3.9 acres. The case is related to LDCPAS-2025-8, a request to change the Future Land Use Map from Recreation Open Space (ROS) to Residential-Low (RL). (No Fiscal Impact)

DESCRIPTION

This is a County-initiated sub-district change for property located south of Lake Daisy, North of Lake Daisy Dr, West of Lake Daisy Loop, southwest of the City of Winter Haven in Section 6, Township 29, Range 27.

State law requires one Planning Commission hearing, which was held on July 9th, 2025, with a recommendation for approval with a vote of 7:0.

RECOMMENDATION

Adopt

FISCAL IMPACT

No Fiscal Impact

Case Planner:	Aleya Inglima, Planner II

Location Map

Proposed Land Use District Map

Summary:

This is a County initiated sub-district change from Residential Low-1 (RL-1) to Residential Low-4 (RL-4). The case is related to LDCPAS-2025-8, a request to change the Future Land Use Map from Recreation Open Space (ROS) to Residential-Low (RL). The subject site is located South of Lake Daisy, North of Lake Daisy Dr, West of Lake Daisy Loop, southwest of the city of Winter Haven in Section 6, Township 29, Range 27.

In 1985, the Zoning Advisory Board voted 5-0 to approve a request designating land within the 100-year floodplain along the lake as Preservation Area (PA) and the remainder of the parcel outside the floodplain as Single Family (SR-4). However, when the Land Development Code and Comprehensive Plan were adopted, the properties were re-designated Recreation Open Space (ROS) and Residential Low (RL-4), respectively. With advancements in technology, FEMA floodplain data now accurately identifies flood-prone areas, eliminating the need for a special designation. Since then, Lake Daisy has been fully developed with single-family homes. The ROS designation on the properties may be restrictive. For instance, if homeowners wish to add an accessory structure—such as a carport, shed, or detached garage—the ROS designation could create complications with permitting and setbacks. Correcting this will ensure consistency between the Future Land Use Map and the existing residential uses as well as reduce restrictions on these properties.

Staff has reviewed the request and find it IS consistent with the Comprehensive Plan policies and IS compatible with the surrounding land uses and infrastructure.

Compatibility Summary

The existing uses surrounding the site are Residential Low-4 (RL-4) to the south. Recreation Open Space (ROS) to the west and east developed with single family homes. The LDC land use district is ROS for the subject site.

The purpose of TSDA is to serve as a foundation from which a future urban pattern is established, and to provide areas for development at urban densities and intensities. TSDAs are where there exists the availability of infrastructure and other community facilities and services, including, but not limited to mass transit and other transportation alternatives, utilities, public safety, recreational and educational services. The TSDA also promotes and supports the location of higher density and intensity that requires compact and mixed-use development.

Staff is requesting the land use change along Lake Daisy to reflect the use on the land use map. Wetlands and Flood Zone AE are located on the subject site. To the west, south, east are single family homes, and north is Lake Daisy. This is an appropriate and compatible use in all urban and suburban areas in the County.

Infrastructure Summary

The proposed CPA is not anticipated to degrade the Level-of-Service (LOS) standards for transportation, schools, utilities, and public safety facilities. The subject site will utilize the same public safety facilities as the existing FLU designation. School service will not be impacted.

Environmental Summary

The proposed request is not anticipated to have a negative impact upon the environmental features present on the subject site. These properties are already developed with single family homes and will not be further impacted. There are wetlands and flood zone AE on site. The closest wetlands are within the subject site. There have not been sightings of protected species near the subject site. There are no historical or archaeological sites that have been identified on the subject site.

Comprehensive Plan

The relevant sections of the Comprehensive Plan that are applicable to the project request:

POLICY 2.102 (A1-A15): Growth Management Policies

POLICY 2. 2.120 (C1-C4): Residential Low

POLICY 2. 124 (A1-A5): Transit Supportive Development Area

Findings of Fact

Request and Legal Status

- LDCD-2025-2 is a County-initiated request for a Level 4 Subdistrict change to designate approximately 3.9 +/- acres from Residential-Low-1 (RL-1) to Residential-Low-4 (RL-4).

- The Land Development Code Future Land Use district is Recreation Open Space (ROS) for the subject site.

- The case is related to LDCPAS-2025-8, a request to the change the Future Land Use Map from Recreation Open Space (ROS) to Residential-Low (RL)

- In 1985, the Zoning Advisory Board voted 5-0 to approve a request designating land within the 100-year floodplain along the lake as Preservation Area (PA) and the remainder of the parcel outside the floodplain as Single Family (SR-4). However, when the Land Development Code and Comprehensive Plan were adopted, the properties were re-designated Recreation Open Space (ROS) and Residential Low (RL-4), respectively.

- The properties are owned by multiple homeowners along Lake Daisy.

- Section 204.C of the LDC states, the purpose of the RL-4 district is to provide areas for the low-density residential needs of residents in urban areas who desire areas with smaller lots, a minimum of 6,000 square feet.

Compatibility

- The subject site includes 18 lots within residential development.

- The existing uses surrounding the site are Residential Low-4 (RL-4) to the south. Recreation Open Space (ROS) to the west and east developed with single family homes. The LDC land use district is ROS for the subject site.
- North of the subject site is Lake Daisy. West, east, and south are single family homes.
- The subject sites access Struthers Road which is an Urban Collector Road.

Infrastructure

- The zoned schools for the site are Garden Grove Elementary, Denison Middle, Winter Haven Senior High.
- Fire and Ambulance responses are from Polk County Fire Rescue Station 18, located at 2101 Register Road, Winter Haven, which is approximately 2.7 miles away with an estimated 6-minute response.
- The subject site is within the Southeast District Command Area for the Sheriff's office which is located at 4011 Sgt. Mary Campbell Way.
- The subject site is within the Winter Haven service area for water and wastewater.
- Struthers Road, which runs east to west, is an Urban Collector roadway with 20 feet of pavement width.
- The subject site is not within a Citrus Connection service area.

Environmental

- The elevation on the property starts on the south at 136 feet and slopes towards Lake Daisy north to 128 feet.
- There are wetlands and flood zone AE on the subject site.
- The soil type for the subject site is Sparr sand (65.8%) and Pomona sands (34.2%).
- Per the Polk County Protected Species Map there are no protected species with a one-mile radius of the subject site.
- There are no known archeological or historical resources on the subject site per data from the Florida State Historical Commission.
- There are no wellfields near the subject site.

Comprehensive Plan Policies

- POLICY 2.102-A1 Development Location states that Polk County shall promote contiguous and compact growth patterns through the development process to minimize energy costs, conserve land, water, and natural resources, minimize the cost of services, and prevent

development patterns where tracts of land are by-passed in favor of development more distant from services and existing communities.

- POLICY 2.102-A2 Compatibility states that land shall be developed so that adjacent uses are compatible with each other, pursuant to the requirements of other Policies in this Future Land Use Element, so that one or more of the following provisions are accomplished: a. there have been provisions made which buffer incompatible uses from dissimilar uses; b. incompatible uses are made to be more compatible to each other through limiting the intensity and scale of the more intense use; c. uses are transitioned through a gradual scaling of different land use activities through the use of innovative development techniques such as a Planned Unit Development.

- POLICY 2.102-A3 Distribution states that development shall be distributed throughout the County consistently with this Future Land Use Element so that the public utility, other community services, and public transit and transportation systems can be efficiently utilized; and compact, high-density and intensity development is located where urban services can be made available.

- POLICY 2.102-A4 Timing states that development of land shall be timed and staged in conjunction with the cost-effective and efficient provision of supporting community services which, at a minimum, shall require compliance with the Plan's Level of Service requirements and the County's concurrency management system.

- POLICY 2.102-A10 Location Criteria states the following factors shall be taken into consideration when determining the appropriateness of establishing or expanding any land use or development area:

a. nearness to incompatible land uses and future land uses, unless adequate buffering is provided.

b. nearness to agriculture-production areas;

c. distance from populated areas;

d. economic issues, such as minimum population support and market-area radius (where applicable);

e. adequacy of support facilities or adequacy of proposed facilities to be provided by the time of development, including, but are not limited to:

1. transportation facilities, including but not limited to, mass transit, sidewalks, trails and bikeways;

2. sanitary sewer and potable water service;

3. storm-water management;

4. solid waste collection and disposal;

5. fire protection with adequate response times, properly trained personnel, and proper fire-fighting equipment;
6. emergency medical service (EMS) provisions; and

7. other public safety features such as law enforcement;

8. schools and other educational facilities

9. parks, open spaces, civic areas and other community facilities

f. environmental factors, including, but not limited to:

1. environmental sensitivity of the property and adjacent property;

2. surface water features, including drainage patterns, basin characteristics, and flood hazards;

3. wetlands and primary aquifer recharge areas;

4. soil characteristics;

5. location of potable water supplies, private wells, public well fields; and

6. climatic conditions, including prevailing winds, when applicable.

- POLICY 2.104-A1: DESCRIPTION -Transit Supportive Development Areas shall meet the following criteria:

a. be those areas where the availability of infrastructure and other community facilities and services, including, but not limited to mass transit and other transportation alternatives, utilities, public safety, recreational and educational services, promotes and supports the location of higher density and intensity compact, mixed use development;

b. be supported by existing or planned urban type services that are programmed or expected for the 10-year planning horizon;

c. be designated as part of a coordinated land use and transportation strategy that supports the provision of improved and expanded transit services, as identified in the Transportation

Planning Organization (TPO) 2060 Transportation Vision Plan and the connecting circulator routes, in order to increase mobility and travel options;

d. include development criteria that:

1. promote the development of walkable communities which include a balance between employment opportunities, mix of complementary uses and activities, and a range of housing opportunities;

2. improve access to employment areas, schools, shopping and recreational opportunities;

- POLICY 2.104-A3: LAND USE CATEGORIES -The following land use categories shall be permitted within TSDAs, in accordance with applicable criteria

a. ACTIVITY CENTERS: Regional Activity Centers, Community Activity Centers, Neighborhood Activity Centers, Convenience Centers, Tourism Commercial Centers, Employment Centers and High-Impact Commercial Centers.

b. RESIDENTIAL: Residential-High, Residential-Medium, and Residential-Low Districts.

c. OTHER: Linear Commercial Corridors, Commercial Enclaves, Industrial, Business-Park Centers, Office Centers, Leisure Recreation, Mixed Use, Institutional, Professional Institutional, Recreation and Open Space, Preservation.

- POLICY 2.117-A1: CHARACTERISTICS - Recreation and open space areas are primarily sites and facilities which are accessible to the general public, and which are oriented toward providing recreation services for the resident and the short and long-term visitor to Polk County. A recreational activity included within recreation and open space areas may be motorized, allow for the discharge of firearms, accommodate nighttime use, and produce large crowds at events. Retail sales are limited to concessions at events or to enhance the quality of the recreation experience onsite unless combined with commercially designated lands.

- POLICY 2.117-A3: LOCATION CRITERIA - Designation of new Recreation and Open Space areas on the Future Land Use Map Series shall occur. Consider the following factors when determining the appropriateness of designating new Recreation and Open Space areas:

a. facilities meeting the recreation level-of-service standard (Policy 3.502-E2) and fulfilling the recreation and open space acquisition plan (Policies 3.502-E3, 3.502-E6, and 3.502-E9);

b. satisfying resident and seasonal visitor/tourist recreation demand;

c. impacts of the proposed uses on public facilities and services;

d. vehicle access relative to the size and planned intensity of a proposed ROS district;

e. distance to lake and river access, greenways, bicycle, pedestrian, and fixed route transit facilities, both existing and planned; and,

f. the locational criteria enumerated in Policy 2.102-A9 and Policy 2.102-A10.

- POLICY 2.120-C1: CHARACTERISTICS - Densities up to, and including, 5.00 DU/AC. The Residential-Low classification is characterized by single-family dwelling units, duplex units, and small-scale multi-family units.

- POLICY 2.120-C2: DESIGNATION AND MAPPING - Residential-Low districts shall be located within TSDAs, UGAs, and UEAs as designated on the Future Land Use Map Series as "RL."

- POLICY 2.120-C3: LOCATION CRITERIA - Residential-Low areas shall be located only within the TSDAs, UGAs, SDAs, and UEAs and new Residential-Low development shall not be located within Activity Centers. The placement of Residential-Low shall be evaluated based on the general criteria listed in Policy 2.119-A2.

- POLICY 2.120-C4: DEVELOPMENT CRITERIA - Residential development may contain a variety of housing types as defined by the Land Development Code within the TSDA. Outside the TSDA, RL may contain single-family dwelling units, duplex units, small-scale multi-family units, and family-care homes, and shall be permitted, with County approval, at a density of up to, and including, 5 DU/AC. Additionally, community facilities may be allowed in accordance with policies of this Plan.

Development Review Committee Recommendation: Based on the information provided by the applicant, recent site visits, and the analysis conducted within this staff report, the Development Review Committee (DRC) finds that the request for Residential Low-4 (RL-4) **IS compatible** with the surrounding land uses and general character of the area and **IS consistent** with the Polk County Comprehensive Plan and Land Development Code. Therefore, the DRC recommends **APPROVAL** of the RL-4 sub district for **LDCD-2025-2.**

Planning Commission Recommendation: On July 9th, 2025, in an advertised public hearing, the Planning Commission voted 7:0 to **recommend APPROVAL of LDCD-2025-2.**

GENERAL NOTES

NOTE: This staff report was prepared without the benefit of testimony and evidence submitted by the public and other parties at a public hearing.

NOTE: All written comments made in the application and subsequent submissions of information made during the application review process, which are on file with the Land Development Division, shall be considered to be binding upon the applicant, provided such comments are not at variance with the Comprehensive Plan, LDC or other development regulations in effect at the time of development.

NOTE: Issuance of a development permit by the county does not in any way create any rights on the part of the applicant to obtain a permit from a state or federal agency and does not create any liability on the part of the county for issuance of the permit if the applicant fails to obtain requisite approvals or fulfill the obligations imposed by a state or federal agency or undertakes actions that result in a violation of state or federal law.

Compatibility with the Surrounding Uses

According to *Policy 2.102-A2* of Polk County's Comprehensive Plan, "land shall be developed so that adjacent uses are compatible with each other, pursuant to the requirements of other policies in this Future Land Use Element, so that one or more of the following provisions are accomplished: a. there have been provisions made which buffer incompatible uses from dissimilar uses; b. incompatible uses are made to be more compatible to each other through limiting the intensity and scale of the more intense use; and c. uses are transitioned through a gradual scaling of different land use activities through the use of innovative development techniques such as a Planned Unit Development." The "development criteria" and the "density and dimensional regulations" of a land use district are often the measuring tools used by staff to determine compatibility and the appropriateness of locating differentiating uses. Compatibility is defined in the Comprehensive Plan as "a condition in which land uses or conditions can coexist in relative proximity to each other in a stable fashion over time such that no use or condition is unduly negatively impacted directly or indirectly by another use or condition."

A. Land Uses

This site is located in a Recreation and Open Space use. These are primarily sites and facilities which are accessible to the general public, and which are oriented toward providing recreation services for the residents and the short and long-term visitors to Polk County.

Changing the land to a Residential-Low district makes sense and allows consistency for the community as Residential-Low classification is characterized by single-family dwelling units, duplex units, and small-scale multi-family units.

B. Infrastructure:

According to Comprehensive Plan POLICY 2.102-A1: DEVELOPMENT LOCATION, "Polk County shall promote contiguous and compact growth patterns through the development process to minimize energy costs, conserve land, water, and natural resources, minimize the cost of services, and prevent development patterns where tracts of land are by-passed in favor of development more distant from services and existing communities."

The subject properties are located in the Transit Supportive Development Area (TSDA) where the availability of infrastructure and other community facilities and services, including, but not limited to mass transit and other transportation alternatives, utilities, public safety, recreational and educational services. The TSDA also promotes and supports the location of higher density and intensity that requires compact and mixed-use development.

The following table provides a reference point for notable and pertinent Future Land Use Map districts and existing land uses.

Table 1

Northwest – Lake Daisy	**North –** Lake Daisy	**Northeast –** Lake Daisy
West – Single family homes (ROS)	**Subject Site –** Single family homes (ROS)	**East –** Single family homes (ROS)
Southwest – Single family homes Residential Suburban (RL-4)	**South –** Single family homes Residential Suburban (RL-4)	**Southeast –** Single family homes Residential Suburban (RL-4)

Nearest and Zoned Elementary, Middle, and High School

The schools zoned for the subject property site are listed in Table 2 below. The proposed request will not generate students. Student capacity is not an issue as schools will not be impacted.

Table 2 School Impacts

Name of School	% Capacity 2024-2025 School Year	Average driving distance from subject site
Garden Grove Elementary (Zoned)	80%	±0.8 mile driving distance
Denison Middle (Zoned)	56%	±6.3 miles driving distance
Winter Haven Senior High (Zoned)	102%	±5.7 miles driving distance

Source: Polk County School Board website

Nearest Sheriff, Fire, and EMS Station

Table 3 below displays the nearest public safety facilities. Response time varies depending on where the nearest sheriff's deputy patrol car is located rather than the office. The facilities are within appropriate distances to the subject site for an urban area.

Table 3 Public Safety Information

	Name of Station	Distance/Response
Sheriff	Polk County Sheriff's Office Southeast District 4011 Sgt. Mary Campbell Way, Lake Wales.	5.9 +/- miles Priority 1 – 11:09 Priority 2 – 32:20
Fire/EMS	Fire Rescue Station 18 2101 Register Road, Winter Haven Estimated response time: 6 minutes	2.7 +/- miles

Source: Polk County Sheriff's Office and Polk County Fire Rescue.

Water and Wastewater

The subject site is located within the Winter Haven service area for water and wastewater.

A. Estimated Demand and Service Provider

The properties are owned by multiple owners. This neighborhood is built out and will not need additional water wastewater services based upon the current and proposed Future Land Use designation.

Table 4 Estimated Water and Sewer Impact Analysis

Permitted Intensity	Maximum Permitted in Existing Land Use ROS	Maximum Allowable in Proposed RL-4
3.9 +/-acres 169,884 sq ft	3.9 +/- acres = 169,884 sq ft X 0.24 FAR = 40,772 sq ft	3.9+/- acres X 4 du/ ac = 16 du
Potable Water Consumption	40,772 sq ft X .24 /sf = 9,785 GPD	16 du X 360 GPD = 5,760 GPD
Wastewater Generation	9,785 GPD X 80% = 7, 828 GPD	16 du X 270 GPD = 4,320 GPD

Source: Polk County Maximum Feasible Buildout Methodology; Single family residential 360 GPD for water and 270 GPD for wastewater; Dance Hall 0.24 FAR and 523 GPD for Water and 80% Wastewater

The subject site is in the TSDA which can generate up to 27 units to the acres. However, this is not anticipated since the subject site is made up of developed residential lots.

B. Available Capacity:

Winter Haven Utilities service water and wastewater to the area.

C. Planned Improvements:

No information is known currently for any planned improvements in this area.

Roadways/Transportation Network

The proposed land use change is not anticipated to generate more traffic.

A. Estimated Demand

The subject site has a total area of 3.9± acres. The site is not generating many trips.

Table 5 Estimated Transportation Impact Analysis

Permitted Intensity	Maximum Permitted in Existing Land Use ROS	Maximum Allowable in Proposed RL-4
3.9 +/-acres	3.9 +/- acres = 169,884 sq ft X 0.05 FAR = 8,494 sq ft	3.9 +/- acres X 4 du/ac = 16 du

Average Annual	**8,494 sq ft / 1,000 sf = 8 du X 47.62 AADT = 380 Trips (100% New Trips)**	**16 du X 7.81 AADT = 125 Trips (100% New Trips)**
PM Peak	**8 du X 11.12PM Peak (100% New Trips) = 89 Trips**	**16 du X 1.00 PM Peak (100% New Trips) =** **16 Trips**

Source: Polk County Table 1 for Minor Traffic Study; Single-family detached; 7.81 AADT and 1.0 PM Peak Hour Daycare Center at 47.62 AADT and 11.12 PM Peak Hour

The subject site is in the TSDA which can generate up to 27 units to the acres. However, this is not anticipated since the subject site is made up of developed residential lots.

B. Available Capacity:

Table 6 charts the generalized available capacity on surrounding roadway network.

Table 6 Roadway Link Concurrency

Link #	Road Name	Current Level of Service (LOS)	Available Peak Hour Capacity	Minimum LOS Standard	5-Year Peak Hr. Projected LOS
6306E	**SR 540 (CYPRESS GARDENS BLVD)**	**C**	**743**	**D**	**C**
6306W	**From: CR 550 (OVERLOOK DRIVE SE) To: CYPRESS GARDENS ROAD**	**C**	**792**	**D**	**C**

Source: Polk County Transportation Planning Organization Roadway Network Database 2025

C. Roadway Conditions

Struthers Road which runs east to west, is an Urban Collector roadway.

D. Sidewalk Network

There are no sidewalks within these communities.

E. Mass Transit

The subject site is not in a Citrus Connection service area.

F. Planned Improvements

The subject site is located in the Transit Supportive Development Area. There are no planned improvements.

Park Facilities and Environmental Lands:

The Polk County Comprehensive Plan has a Conservation Element. Division 2.300 of the Comprehensive Plan mentions, "The goal, objectives, and policies of the Conservation Element are designed to protect the natural resources which make Polk County a special place while

preventing degradation of the environment and allowing development and economic expansion to occur." There should be no serious environmental conditions that need to be addressed with this subject site.

A. Location:

Lake Region Audubon Society is located at 115 Lameraux Rd, Winter Haven, FL 33884.

B. Services:

Lake Region Audubon Society amenities include trails.

C. Multi-use Trails:

Multi-use trails can be found at the Lake Region Audubon Society.

Environmental Lands:

The Polk County Comprehensive Plan has a Conservation Element. Division 2.300 of the Comprehensive Plan mentions, "The goal, objectives, and policies of the Conservation Element are designed to protect the natural resources which make Polk County a special place while preventing degradation of the environment and allowing development and economic expansion to occur." There should be no serious environmental conditions that need to be addressed with this subject site.

Environmental Conditions

Lake Daisy is located to the north of the subject properties. The elevation on the property starts on the south at 136 feet and slopes towards Lake Daisy north to 128 feet. The subject site does contain wetlands and AE flood zones.

A. Surface Water:

Lake Daisy is located to the north of the subject properties. The elevation on the property starts on the south at 136 feet and slopes towards Lake Daisy north to 128 feet.

B. Wetlands/Floodplains:

The subject site does contain wetlands and AE flood zones.

C. Soils:

According to the soil survey by the United States Department of Agriculture the subject site includes the soils listed in Table 7 below. Future development of the site will be subject to Section 2.303: "Soils" of the County's Comprehensive Plan (in conjunction with the Land Development Code) which requires all development to implement Best Management Practices based on the Department of Environmental Protection's (DEP) Florida Development Manual.

Table 7 Soils

Soil Name	Septic Tank Absorption Field Limitations	Limitations to Dwellings w/o Basements	% of Site *(approximate)*
Sparr sand	Severe: wetness	Moderate: wetness	65.8%
Pomona sand	Severe: wetness	Severe: wetness	34.2%

Source: USDA Natural Resources Conservation Service 2024

D. Protected Species

According to the Florida Natural Areas Inventory Biodiversity Matrix, the site is not located within an area of protected species. This site is not within the Polk Green.

E. Archeological Resources:

There are no known historical or archeological resources onsite according to the Secretary of State's Department of Historical Resources Florida Master Site File.

F. Wells (Public/Private)

The site is not within the Wellfield Protection District.

G. Airports:

This property is not within the Height Notification Zone of the Bartow Municipal Airport Impact District.

Economic Factors:

The subject site is in Recreation Open Space land use. This County initiated CPA will change the land use to Residential Low-4 (RL-4) for the site. RL-4 is a better land use for the site as it be consistent with the land use set for the neighborhoods.

Consistency with the Comprehensive Plan

Many policies within the Comprehensive Plan are reviewed for consistency with an application. The most relevant policies for the proposed request are included in this section. The policy is first stated and then an analysis of how the request is provided to state that it may or may not be consistent with the Comprehensive Plan. How the request is **consistent** with the Comprehensive Plan is listed below:

Table 9 Comprehensive Plan

Comprehensive Plan Policy	Consistency Analysis
POLICY 2.102-A2: COMPATIBILITY - Land shall be developed so that adjacent uses are compatible with each other, pursuant to the requirements of other Policies in this Future Land Use Element, so that one or more of the following provisions are accomplished: a. there have been provisions made which buffer incompatible uses from dissimilar uses;	No development is being proposed for this site. This district change will allow consistency with the surrounding neighborhood.

Comprehensive Plan Policy	Consistency Analysis
b. incompatible uses are made to be more compatible to each other through limiting the intensity and scale of the more intense use; c. uses are transitioned through a gradual scaling of different land use activities through the use of innovative development techniques such as a Planned Unit Development.	
POLICY 2.102-A1: DEVELOPMENT LOCATION – Polk County shall promote contiguous and compact growth patterns through the development process to minimize energy costs, conserve land, water, and natural resources, minimize the cost of services, and prevent development patterns where tracts of land are by-passed in favor of development more distant from services and existing Communities.	
POLICY 2.102-A4: TIMING - The development of land shall be timed and staged in conjunction with the cost-effective and efficient provision of supporting community services which, at a minimum, shall require compliance with the Plan's Level of Service requirements and the County's concurrency management system.	No development is being proposed for this site.
POLICY 2.102-A10: LOCATION CRITERIA - The following factors shall be taken into consideration when determining the appropriateness of establishing or expanding any land use or development area: a. nearness to incompatible land uses and future land uses, unless adequate buffering is provided, b. nearness to agriculture-production areas; c. distance from populated areas; d. economic issues, such as minimum population support and market-area radius (where applicable); e. adequacy of support facilities or adequacy of proposed facilities to be provided by the time of development, including, but are not limited to: 1. transportation facilities, including but not limited to, mass transit, sidewalks, trails and bikeways; 2.sanitary sewer and potable water service; 3. storm-water management; 4. solid waste collection and disposal; 5. fire protection with adequate response times, properly trained personnel, and proper fire-fighting equipment; 6. emergency medical service (EMS) provisions; and 7. other public safety features such as law enforcement; 8. schools and other educational facilities 9. parks, open spaces, civic areas and other community facilities, f. environmental factors, including, but not limited to: 1. environmental sensitivity of the property and adjacent property; 2. surface water features, including drainage patterns, basin characteristics, and flood hazards; 3. wetlands and primary aquifer recharge areas; 4. soil characteristics; 5. location of potable water supplies, private wells, public well fields; and	

Comprehensive Plan Policy	Consistency Analysis
6. climatic conditions, including prevailing winds, when applicable.	
POLICY 2.119-A2: LOCATION CRITERIA - Residential land use categories shall be established throughout the County with consideration being given to the following criteria: a. Access to county-maintained roads or roads constructed to County standards. b. Proximity to Activity Centers. c. Adequacy of water and sewage disposal systems (public and private). d. Adequacy and response time for public safety services - fire, police, and emergency medical service. e. Adequacy of recreation facilities. f. Proximity of incompatible land uses. g. Development limitations, and, h. Urban Sprawl Criteria set forth in POLICY 2.102-A10.	The communities access Struthers Road, an Urban Collector Road. Winter Haven utilities serve the area, the roads are sufficient, emergency services are available. The subject site is not within the Citrus Connection service area.
POLICY 2.120-C3: LOCATION CRITERIA - Residential-Low areas shall be located only within the TSDAs, UGAs, SDAs, and UEAs and new Residential-Low development shall not be located within Activity Centers. The placement of Residential-Low shall be evaluated based on the general criteria listed in Policy 2.119-A2.	Residential Low-4 (RL-4) is allowed in the TSDA. These neighborhoods are developed out.
POLICY 2.104-A1: DESCRIPTION - Transit Supportive Development Areas shall meet the following criteria: a.be those areas where the availability of infrastructure and other community facilities and services, including, but not limited to mass transit and other transportation alternatives, utilities, public safety, recreational and educational services, promotes and supports the location of higher density and intensity compact, mixed use development; b.be supported by existing or planned urban type services that are programmed or expected for the 10-year planning horizon; c.be designated as part of a coordinated land use and transportation strategy that supports the provision of improved and expanded transit services, as identified in the Transportation Planning Organization (TPO) 2060 Transportation Vision Plan and the connecting circulator routes, in order to increase mobility and travel options; d. include development criteria that: 1.promote the development of walkable communities which include a balance between employment opportunities, mix of complementary uses and activities, and a range of housing opportunities;	Multiple owners own the properties along Lake Daisy. The sites have single family homes. This site is in TSDA. No development is being proposed

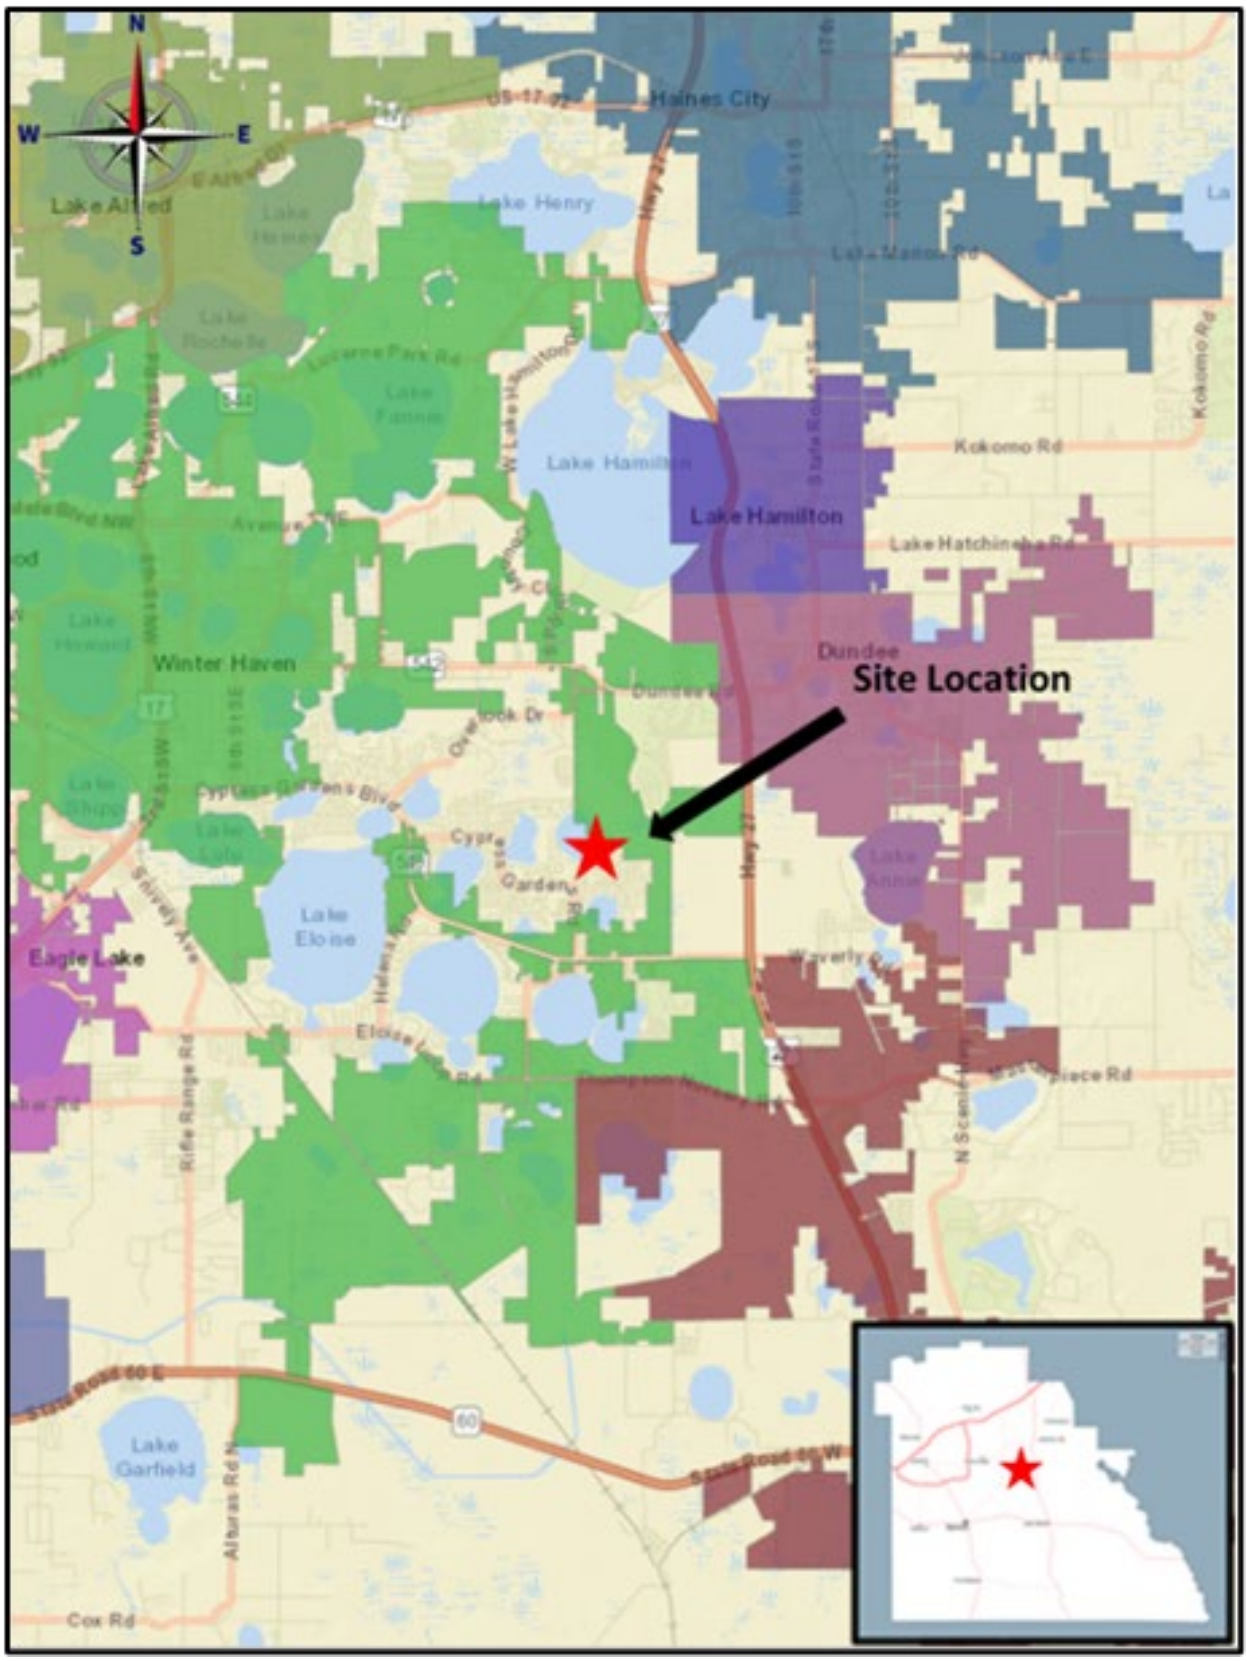
Comprehensive Plan Policy	Consistency Analysis
2.improve access to employment areas, schools, shopping and recreational opportunities; POLICY 2.104-A2: DESIGNATION AND MAPPING - The Future Land Use Map Series shall designate and map TSDAs for those areas of the County meeting the general characteristics of this Section 2.104. POLICY 2.104-A3: LAND USE CATEGORIES - The following land use categories shall be permitted within TSDAs, in accordance with applicable criteria a. ACTIVITY CENTERS: Regional Activity Centers, Community Activity Centers, Neighborhood Activity Centers, Convenience Centers, Tourism Commercial Centers, Employment Centers and High-Impact Commercial Centers. b. RESIDENTIAL: Residential-High, Residential-Medium, and Residential-Low Districts. c. OTHER: Linear Commercial Corridors, Commercial Enclaves, Industrial, Business-Park Centers, Office Centers, Leisure Recreation, Mixed Use, Institutional, Professional Institutional, Recreation and Open Space, Preservation. POLICY 2.104-A4: OVERLAY DISTRICTS - All overlay Districts shall be permitted within TSDAs and UGAs in accordance with applicable criteria. POLICY 2.104-A5: DEVELOPMENT CRITERIA - Development within the Transit Supportive Development Areas shall conform to the following criteria as further specified by the Land Development Code: a. provide access to transit facilities; b. connect to centralized potable water and sanitary sewer systems; c. incorporate design features that promote healthy communities and green building practices, as established in Section 2.1251, Community Design, of this element; d. implement "Complete Street" and "Conservation Development" principles as established under Section 2.1251, Community Design, of this element; e. integrate pedestrian-oriented features, including sidewalks, trails or walkways into every development including appropriate pedestrian shelters or awnings; f. provide access to civic space, parks, green areas, and open space and other amenities; g. be supported by public safety (i.e., fire, EMS and law enforcement); h. have access to public schools; i. provide connectivity with adjacent uses within the TSDA, and facilitate connectivity between the TSDA and other urban centers and the rural development areas.	

Comprehensive Plan Policy	Consistency Analysis
j. encourage the inclusion of a variety of housing choices, other than single family detached homes, townhomes, condominiums, and residential units in mixed use buildings by establishing minimum densities that preclude the exclusive use of single family detached units within designated areas as established in Policy 2.104-A7..	

Urban Sprawl Analysis

After analyzing the primary indicators of Urban Sprawl per *Policy 2.109-A10* of the Polk County Comprehensive Plan, it is apparent that the proposed request is not considered urban sprawl based on these criteria and it is permitted in the designated area. Table 9 (below) depicts the Urban Sprawl Criteria used by staff as indicators of Urban Sprawl.

Table 9 Urban Sprawl Criteria



Urban Sprawl Criteria: The following criteria are the primary indicators of urban sprawl per Florida Statutes	
Urban Sprawl Criteria	**Sections where referenced in this report**
a. *Promotes substantial amounts of low-density, low-intensity, or single use development in excess of demonstrated need.*	Summary of analysis
b. *Allows a significant amount of urban development to occur in rural areas.*	Summary of analysis
c. *Designates an urban development in radial, strip isolated, or ribbon patterns emanating from existing urban developments.*	Summary of analysis, surrounding Development, compatibility
d. *Fails to adequately protect and conserve natural resources and other significant natural systems.*	Summary of analysis, surrounding Development, compatibility
e. *Fails to adequately protect adjacent agricultural areas.*	Compatibility with Surrounding Land Uses
f. *Fails to maximize existing public facilities and services.*	Summary of Analysis, Infrastructure
g. *Fails to minimize the need for future facilities and services.*	Summary of Analysis, Infrastructure
h. *Allows development patterns that will disproportionately increase the cost of providing public facilities and services.*	Summary of Analysis, Infrastructure
i. *Fails to provide a clear separation between urban and rural uses.*	Summary of Analysis, Compatibility with Surrounding Land Uses
j. *Discourages infill development or redevelopment of existing neighborhoods.*	Summary of Analysis, Compatibility with Surrounding Land Uses
k. *Fails to encourage an attractive and functional mixture of land uses.*	Summary of Analysis, Compatibility with Surrounding Land Uses
l. *Will result in poor accessibility among linked or related land uses.*	Summary of Analysis, Compatibility with Surrounding Land Uses
m. *Results in the loss of a significant amount of open space.*	Summary of Analysis, Compatibility with Surrounding Land Uses

ORDINANCE NO. 25-_____

AN ORDINANCE OF THE POLK COUNTY BOARD OF COUNTY COMMISSIONERS REGARDING THE ADOPTION OF **LDCD-2025-2**, AN AMENDMENT TO THE POLK COUNTY LAND DEVELOPMENT CODE SUB-DISTRICT MAP (ORDINANCE 01-69), AS AMENDED; AMENDING THE SUB-DISTRICT MAP TO CHANGE 3.9+/- ACRES FROM RESIDENTIAL LOW-1 (RL-1) TO RESIDENTIAL LOW-4 (RL-4), LOCATED SOUTH OF LAKE DAISY, NORTH OF LAKE DAISY DR, WEST OF LAKE DAISY LOOP, SOUTHWEST OF THE CITY OF WINTER HAVEN IN SECTION 6, TOWNSHIP 29, RANGE 27; PROVIDING FOR SEVERABILITY; AND PROVIDING FOR AN EFFECTIVE DATE.

WHEREAS, pursuant to Article VIII, Section I(g) of the Constitution of the State of Florida and the Community Planning Act, Chapter 163, Part II, Florida Statutes (FS), as amended, (the "Act") Polk County is authorized and required to adopt a Land Development Regulations consistent with the Polk County Comprehensive Plan; and

WHEREAS, the Board of County Commissioners (the "Board) adopted said Land Development Regulations on March 1, 2000, titled the Polk County Land Development Code; (the "LDC") and

WHEREAS, the Board of County Commissioners adopted a LDC Sub-district Map on September 26, 2001; and

WHEREAS, Chapter 9, Section 903 of the LDC provides the approval process for amending the LDC Sub-district Map as a Level 4 Review; and

WHEREAS, LDCD-2025-2 is a County-initiated application (the "Application") to amend the LDC Sub-district maps to change 3.9 +/- acres from Residential-Low 1 (RL-1) to Residential-Low-4 (RL-4); and

WHEREAS, pursuant to Section 163.3174 of the Florida Statutes, the Polk County Planning Commission conducted a public hearing, with due public notice having been provided, on the proposed Land Development Code Sub-district Map Amendment on July 9, 2025; and

WHEREAS, pursuant to Section 125.66 of the Florida Statutes, the Board of County Commissioners conducted an adoption public hearing, with due public notice having been

provided, on the proposed Land Development Code Sub-district Map Amendment on August 19, 2025; and

WHEREAS, the Board reviewed and considered all comments received during said public hearing, the Planning Commission's recommendation, the staff report, and provided for necessary revisions, if any; and

NOW THEREFORE, BE IT ORDAINED by the Board of County Commissioners of Polk County, Florida that:

SECTION 1: FINDINGS The findings set forth in the recitals to this Ordinance are true and correct and hereby adopted. In addition, the Board hereby adopts and incorporates herein the DRC staff report and makes the following findings based upon the staff report and other record evidence presented during the hearing:

a) The Planning Commission, acting in its capacity as the Local Planning Agency for the County, held a public hearing on July 9, 2025, to consider the LDC Sub-district map amendment contained within the Application and found it to be consistent with the Comprehensive Plan and recommended that the Board adopt the LDC Sub-district Map Amendment contained within the Application.

b) Pursuant to section 907D.10 of the LDC, the Board shall, in the review of the Application, consider the following factors:
    a. Whether the proposed development is consistent with all relevant requirements of the Code;
    b. Whether the proposed development is consistent with all applicable policies of the Comprehensive Plan;
    c. Whether the proposed use is compatible with surrounding uses and the general character of the area, including such factors as density, height, bulk, scale, intensity, traffic, noise, and appearance; and
    d. Any other matter which the BoCC may deem appropriate and relevant to the specific development proposal.

c) The Application is consistent with all relevant requirements of the Comprehensive Plan.

d) The Application is consistent with all relevant requirements of the LDC, including without

limitation, section 907.

e) The Application is compatible with surrounding uses and the general character of the area.

f) The record is hereby incorporated by reference into this ordinance and is on file with the County Clerk. The record consists of the following: the Application, Impact Assessment Statement, the DRC staff report, staff's PowerPoint presentation, the Planning Commission's recommendation, and all testimony and evidence presented at the hearing.

SECTION 2: AREA AMENDED.

Polk County Ordinance No. 01-69 as amended (the "Polk County Land Development Code Sub-district Map"), of Polk County Ordinance No. 00-09, as amended (the "Polk County Land Development Code") is hereby amended to reflect a change in the Sub-district of Parcels, legally described below and graphically depicted in Attachment "A" of this ordinance, from Residential-Low-1 (RL-1) to Residential-Low-4 (RL-4), containing 3.9 acres, more or less.

SECTION 3: SEVERABILITY.

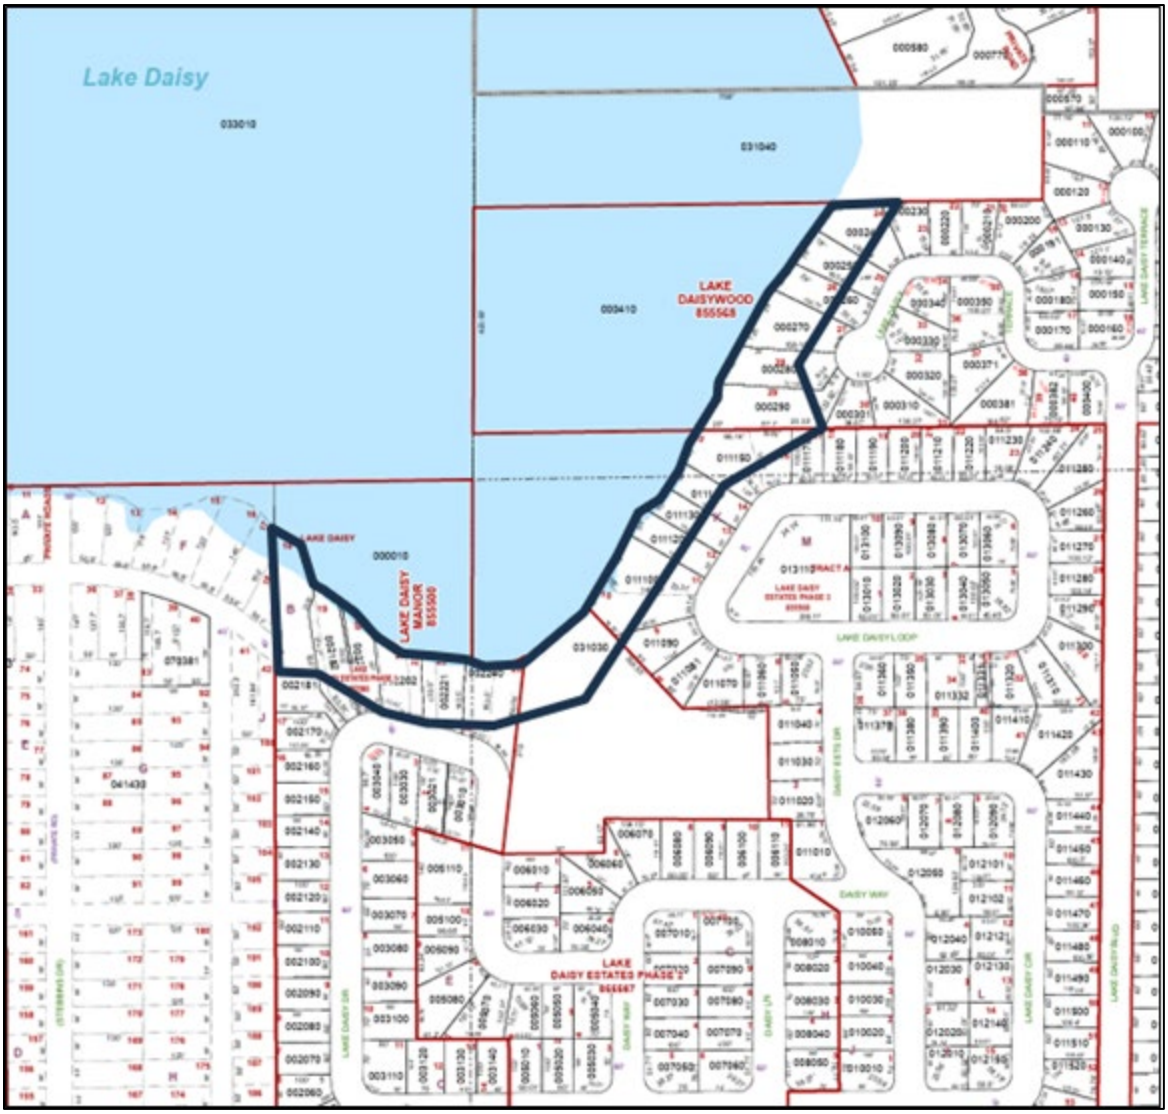
If any portion of this Ordinance is for any reason held unconstitutional or otherwise invalid by a court of competent jurisdiction, such portion shall be deemed a separate, distinct and independent provision and such holding shall not affect the validity of the remaining portions of this Ordinance.

SECTION 4: EFFECTIVE DATE.

This Ordinance shall become effective upon filing of a certified copy of the Ordinance with the Department of State.

SECTION 5: FILING WITH THE DEPARTMENT OF STATE:

The Clerk and Auditor to the Board of County Commissioners of Polk County, Florida, shall file a certified copy of this ordinance with the Department of State, through the Secretary of State, upon adoption by the Board of County Commissioners of Polk County, Florida.



ADOPTED, in open session of the Polk County Board of County Commissioners with a quorum present and voting this 19th day of August 2025.

PARCEL DETAIL

Note: Not to Scale

POLICY 2.102-A11: URBAN SPRAWL CRITERIA - In accordance with Rule 9J-5.006(5) of the Florida Administrative Code, Polk County will discourage the proliferation of urban sprawl by use of the following criteria when determining the appropriateness of establishing or expanding any land use or development area. The analysis must ask whether or not the proposed plan amendment:

a. Promotes, allows, or designates for development substantial areas of the jurisdiction to develop as low-intensity, low-density, or single-use development or uses in excess of demonstrated need.

This land use change to RL is not sprawl. Single family homes are existing.

b. Promotes, allows, or designates significant amounts of urban development to occur in rural areas at substantial distances from existing urban areas while leaping over undeveloped lands which are available and suitable for development.

c. Promotes, allows or designates urban development in radial, strip isolated or ribbon patterns generally emanating from existing urban developments.

d. As a result of premature or poorly planned conversion of rural land to other uses, fails to adequately protect and conserve natural resources, such as, wetlands, floodplains, native vegetation, environmentally sensitive areas, natural shorelines, beaches, bays, estuarine systems, and other significant natural systems.

e. Fails to adequately protect adjacent agricultural areas and activities including silviculture and active agricultural and silvicultural activities as well as passive agricultural activities and dormant, unique and prime farmlands and soils.

f. Fails to maximize use of existing public facilities and services.

g. Fails to minimize the use of future public facilities and services.

h. Allows for land use patterns or timing which will disproportionately increase the cost in time, money and energy, of providing public facilities and services including roads, potable water, sanitary sewer, stormwater management, law enforcement education health care, fire and emergency response, and general government.

i. Fails to provide a clear separation between urban and rural uses.

j. Discourages or inhibits in-fill development or redevelopment of existing neighborhoods and communities.

k. Fails to encourage an attractive and functional mix of land uses.

l. Results in poor accessibility among linked or related land uses.

m. Results in the loss of a significant amount of functional open space.

RL land use will not result in loss of open space. Single family homes are existing.

Level 4 – Land Use Narrative: Why the land use change it is needed for the County.

Land Use Amendment Request for parcels along Lake Daisy

The County is proposing a future land use change to bring before the Planning Commission and the Board of County Commissioners. The proposal would change the land use designation from Recreation Open Space (ROS) to Residential Low (RL-4).

In 1985, the Zoning Advisory Board voted 5-0 to approve a request designating land within the 100-year floodplain along Lake Daisy as Preservation Area (PA) and the remainder of the parcel outside the floodplain as Single Family (SR-4). However, when the Land Development Code and Comprehensive Plan were adopted, the properties were re-designated Recreation Open Space (ROS) and Residential Low (RL-4), respectively.

With advancements in technology, FEMA floodplain data now accurately identifies flood-prone areas, eliminating the need for a special designation. Since then, Lake Daisy has been fully developed with single-family homes. The ROS designation on the properties may be restrictive. For instance, if homeowners wish to add an accessory structure—such as a carport, shed, or detached garage—this ROS designation could create complications with permitting and setbacks. Correcting this mapping error will ensure consistency between the Future Land Use Map and the existing residential uses as well as reduce restrictions.

Agenda Item N.4. 8/19/2025

SUBJECT

Public Hearing (LDCD-2025-1 Stuart Property Sub-District Change) (Adoption Hearing) to consider the adoption of a Sub-District change from Residential-Low-1 (RL-1) to Residential-Low-4 (RL-4) on +/- 178 acres in an Urban Growth Area (UGA). (No Fiscal Impact)

DESCRIPTION

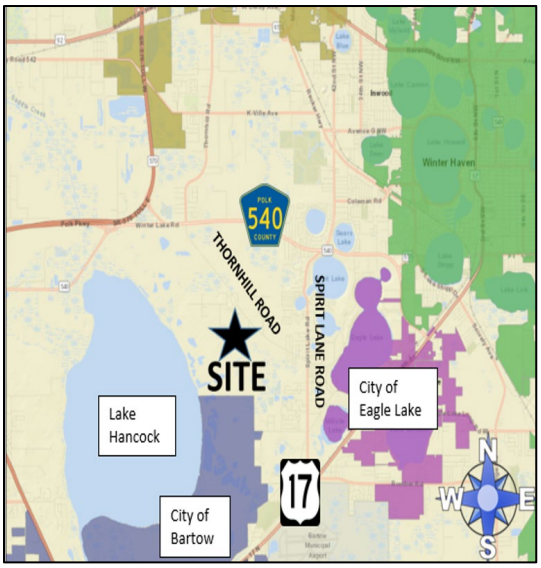
This is an applicant-initiated request for property located south of Thornhill Road, east of Lake Hancock, and north of the City of Bartow, in Sections 3 & 10, Township 29, Range 25.

State law requires one Planning Commission hearing, which was held on July 9, 2025, with a recommendation for approval with a vote of 4:3.

RECOMMENDATION

Approve

FISCAL IMPACT



No Fiscal Impact

POLK COUNTY
DEVELOPMENT REVIEW COMMITTEE
STAFF REPORT

DRC Date:	February 27, 2025
Planning Commission Date:	June 4, 2025 continued to July 9, 2025
BoCC Dates:	August 19, 2025
Applicant:	Jason A. Alligood, PE
Level of Review:	Level 4 Review, Sub-district change
Case Number and Name:	LDCD-2025-1 (Stuart Property Sub-district)
Request:	Future Land Use Map sub-district change from Residential-Low-1 (RL-1) to Residential-Low-4 (RL-4). The case is related to LDCPAL-2024-17, a request to the change the Future Land Use Map from Agricultural/Residential-Rural (A/RR) to Residential-Low (RL), and from Rural Development Area (RDA) to Urban Growth Area (UGA) on the Future Land Use Map.
Location:	South of Thornhill Road, East of Lake Hancock, and north of the City of Bartow, in Sections 3 & 10, Township 29, Range 25.
Property Owner:	Lenore Crosland Stuart & Margaret Kennedy Stuart Satterfield
Parcel Size:	178+/- acres
Development Area:	Rural Development Area (RDA) & Urban Growth Area (UGA)
Future Land Use:	Agricultural/Residential-Rural (A/RR) & Residential-Low (RL)
Nearest Municipality	Bartow, Eagle Lake
DRC Recommendation:	Denial of initial request; staff approval of modified application; BoCC transmittal of entire site as RL with LDCPAL-2024-17.
Planning Commission Vote:	Approval (4:3)
Florida Commerce:	N/A
Case Planner:	Mark J. Bennett, AICP, FRA-RA, CNU-A, Senior Planner

Location Map

Proposed Land Use District Map

Summary:

This is an applicant-initiated Future Land Use Map sub-district change for 178+/- acres from Residential-Low-1 (RL-1) to Residential-Low-4 (RL-4) on the Future Land Use Map. The case is related to LDCPAL-2024-17, a request to the change the Future Land Use Map from Agricultural/Residential-Rural (A/RR) to Residential-Low (RL), and from Rural Development Area (RDA) to Urban Growth Area (UGA) on the Future Land Use Map.

The original request was for an RL-4 designation on the original 326-acre site (with the exception of the 17 acres proposed for Residential-Medium (RM)). However, on May 6, 2025, the BoCC removed the proposed RM portion of the site prior to approving for transmittal of the corresponding Plan Amendment to the Florida Department of Commerce. Additionally, staff and the applicant have agreed to only consider the eastern portion of the site, that being the portion of the site east of the Parkway. Therefore, the revised request is to change 178 acres from RL-1 to RL-4.

Compatibility Summary

The area surrounding the site is primarily undeveloped in nature, with rural and low-density residential uses, institutional uses, a church, and a nursery also in the area.

The primary concern with this request is compatibility. The applicant initially requested that the entire 326-acre site (with the exception of the 17 acres to be designated as Residential-Medium (RM)) be designated as RL-4. Designating the entire site as RL-4 raised concerns about compatibility between the proposed RL-4 (which allows 6,000 square foot lots) and the existing larger-sized tracts on the western portion of the site. There are also significant environmental constraints on this property. To address the compatibility and environmental concerns, staff and the applicant have agreed to an alternate recommendation where only the eastern portion of the site (approximately 178 acres), would be designated as Residential-Low-4 (RL-4).

The eastern portion of the site is more appropriate for RL-4 for several reasons. Since 1991, the Comprehensive Plan has designated this area as an Urban Growth Area (UGA), based on the location of existing and planned utilities. The area between the proposed parkway and Spirit Lake Road is transitioning to more urban-density development. There are some non-residential uses (such as a church and a nursery) near the site, and the eastern portion of the site is next to County-owned property that is designated as Institutional-2 (INST-2). The proposed parkway also serves as a logical boundary between the more intensive residential uses to the east, and the lower-density residential and rural uses to the west.

Another factor to consider with this request is the change in character of the area due to the Parkway. The applicant states that the rationale for the increase in density is based on the presumption that the retaining walls used for the Central Polk Parkway's proposed bridge over Thornhill Road will affect the development of the property. Although the type of bridge should not be the determining factor in deciding the appropriateness of a land use, staff acknowledges the applicant's statement that the proposed bridge over Thornhill Road will change the character of the area.

Because of the change in the character of the area due to the Parkway, and in recognition that the area is urbanizing, designating the eastern portion of the site as RL-4 is appropriate.

Infrastructure Summary

Because the site is in the Urban Growth Area, connection to public water and wastewater services is required. There are concerns about sufficient elementary school and wastewater capacity if the project were to be built at the maximum developable density. Public safety facilities and services are available.

Environmental Summary

There are wetlands, floodplains, and two eagles' nests on the site. The Marshall Hampton Reserve, an 1100-acre reserve owned by the Southwest Florida Water Management District, is south and west of the site.

Comprehensive Plan

Listed below are the relevant sections of the Comprehensive Plan that are applicable to this request:

- Policy 2.102(A1-A15): Growth Management Policies
- Policy 2.105(A1-A5): Urban-Growth Areas
- Policy 2.119-A2 Location Criteria (Residential)
- Policy 2.120(C1-C4) Residential-Low
- Section 2.123B(B1-B5): Floodplain-Protection Areas
- Section 2.123C(C1–C6): Wetland-Protection Areas
- Section 2.124-B Airport-Impact Districts

Findings of Fact

Request and Legal Status

- LDCD-2025-1 is an applicant-initiated request for a Level 4 Subdistrict change to designate approximately 178 +/- acres from Residential-Low-1 (RL-1) to Residential-Low-4 (RL-4).

- The site currently has approval for a non-phosphate mine (LDCU-2023-23). The approval is currently to mine all uplands. The operating permit and reclamation plan will need to be amended if the applicant intends to implement this sand mine approval and have some developable property after mining.

- The proposed Central Polk Parkway traverses thru the site. The limited-access road is currently under construction.

- The proposed Central Polk Parkway from State Road 570B to US 17 will have a bridge crossing over Thornhill Road. According to the Central Polk Parkway website, construction is expected to continue through 2029.

- POLICY 2.105-A1 Description - Urban-Growth Areas, states that UGAs shall:
  a. complement the TSDA in guiding growth, while promoting orderly and compact development;
  b. be located contiguous to the TSDAs or a municipality as they represent the expansion areas;
  c. be supported by existing or planned urban type services that are programmed for the 20-year planning horizon;

d. be those areas where the availability of infrastructure and other community facilities and services, including, but not limited to mass transit and other transportation alternatives, utilities, public safety, recreational and educational services, promotes and supports the location of higher density and intensity compact, mixed use development in close proximity to the development in the adjacent TSDAs;
e. include development criteria that:
    1. promote the development of walkable communities which include a balance between employment opportunities, mix of complementary uses and activities, and a range of housing opportunities;
    2. improve access to employment areas, schools, shopping and recreational opportunities;
    3. support the preservation of open space and natural areas;
    4. reduce capital and operating cost for the provision of infrastructure and public services.

- POLICY 2.109-A4 states that "The purpose of the Agriculture/Residential-Rural (A/RR) land use district is to provide lands for the continuation of productive agricultural uses and for compatible residential development within unincorporated rural areas. The A/RR district permits agricultural activities, agricultural support facilities, single-family dwelling units, farm labor housing, group living facilities, and community facilities."

- POLICY 2.120-C1, Characteristics, describes the Residential Low classification as having densities up to, and including, 5.00 DU/AC. The Residential-Low classification is characterized by single-family dwelling units, duplex units, and small-scale multi-family units.

- The property is used for vacant woodlands/wetlands and pasture.

Compatibility

- The Comprehensive Plan defines Compatibility in Section 4.400 as "A condition in which land uses or conditions can coexist in relative proximity to each other in a stable fashion over time such that no use or condition is unduly negatively impacted directly or indirectly by another use or condition."

- The applicant states that the rationale for the increase in density is based on the presumption that the retaining walls used for the Central Polk Parkway's proposed bridge over Thornhill Road will affect the ability to develop the property.

- Staff acknowledges the applicant's statement that the proposed bridge over Thornhill Road will change the character of the area.

- Although the area still retains a rural character, the Thornhill Road area is urbanizing, with smaller-lot residential development occurring further east of the site closer to Sprit Lake Road.

- With the exception on a .69 acre tract on Fussell Lane, the smallest lot size for parcels in the surrounding area is .9 acre.

- Properties next to the western portion of the site are larger in size, ranging from one acre to 10 acres.

Infrastructure

- The property is zoned for Eagle Lake Elementary, Westwood Middle, and Lake Region Senior High.

- Fire and ambulance response is from Polk County Fire Rescue Station 17, located at 185 South 3rd Street, Eagle Lake. The estimated response time is seven (7) minutes.

- Sheriff's response to the site is served by the Southeast District, located at 4011 Sgt. Mary Campbell Way, Lake Wales. The response times for September 2024 were: Priority 1 – 10:36 minutes, Priority 2 – 29:13 minutes.

- Portions of the site are located within the Polk County Utility Service Area.

- Water service is provided by Polk County.

- Wastewater is collected by Polk County and transmitted to the City of Bartow's wastewater treatment facility, located at 2505 East Wabash Street, Bartow.

- The subject property is adjacent to Thornhill Road. Thornhill Road is a County-maintained Urban Collector Roadway with a surface width of 22 feet. The Pavement Condition Index (PCI) for Thornhill Road is "Good."

- The nearest park facilities and environmental lands are The Marshall Hampton Reserve immediately west of the site, and the Gordonville Park, two miles south of the site.

Environmental

- There are wetlands, Zone "A" and Zone "AE" floodplains on the site.

- The entire 326 +/- site is comprised of Adamsville Fine Sand (2.26%), Hontoon Muck (20.18%) Immokalee Sand (9.08%) Placid and Myakka Fine Sands (6.54%), Pomona Fine Sand (7.77%), Samsula Muck (21.69%), Smyrna and Myakka Fine Sands (30.28%), and Tavares Fine Sand (1.80%) according to the U.S. Department of Agriculture, Soil Conservation Service, Polk County Survey.

- According to the Florida Natural Areas Inventory Biodiversity Matrix, the site is located within an area of protected species and habitat observations for rookeries, animals, and eagle nests.

- There are two eagles' nests, located on the southern portion of the site.

- This property is within Height Notification Zone of Bartow Municipal Airport Impact District.

- The site is not within a Wellfield-Protection District.

- According to a preliminary report from the Secretary of State's Department of Historical Resources Florida Master Site File, there are five possible archeological sites on the subject property, located on the western tract.

- There are no conservation easements in the immediate vicinity, with the closest easement approximately 2.25 miles northwest of the site (near the Polk County Parkway & SR 540 intersection.

- The western portions of the site are identified on the Polk Green District Map as a Potential Network Connection.

Comprehensive Plan Policies

- POLICY 2.102-A1 Development Location states that Polk County shall promote contiguous and compact growth patterns through the development process to minimize energy costs, conserve land, water, and natural resources, minimize the cost of services, and prevent development patterns where tracts of land are by-passed in favor of development more distant from services and existing communities.

- POLICY 2.102-A2 Compatibility states that land shall be developed so that adjacent uses are compatible with each other, pursuant to the requirements of other Policies in this Future Land Use Element, so that one or more of the following provisions are accomplished:

  a. there have been provisions made which buffer incompatible uses from dissimilar uses;

  b. incompatible uses are made to be more compatible to each other through limiting the intensity and scale of the more intense use;

  c. uses are transitioned through a gradual scaling of different land use activities through the use of innovative development techniques such as a Planned Unit Development.

- POLICY 2.102-A3 Distribution states that development shall be distributed throughout the County consistently with this Future Land Use Element so that the public utility, other community services, and public transit and transportation systems can be efficiently utilized; and compact, high-density and intensity development is located where urban services can be made available.

- POLICY 2.102-A4 Timing states that development of land shall be timed and staged in conjunction with the cost-effective and efficient provision of supporting community services which, at a minimum, shall require compliance with the Plan's Level of Service requirements and the County's concurrency management system.

- POLICY 2.102-A10 Location Criteria states the following factors shall be taken into consideration when determining the appropriateness of establishing or expanding any land use or development area:

  a. nearness to incompatible land uses and future land uses, unless adequate buffering is provided;

  b. nearness to agriculture-production areas;

  c. distance from populated areas;

  d. economic issues, such as minimum population support and market-area radius (where applicable);

e. adequacy of support facilities or adequacy of proposed facilities to be provided by the time of development, including, but are not limited to:

1. transportation facilities, including but not limited to, mass transit, sidewalks, trails and bikeways;

2. sanitary sewer and potable water service;

3. storm-water management;

4. solid waste collection and disposal;

5. fire protection with adequate response times, properly trained personnel, and proper fire-fighting equipment;

6. emergency medical service (EMS) provisions; and

7. other public safety features such as law enforcement;

8. schools and other educational facilities

9. parks, open spaces, civic areas and other community facilities

f. environmental factors, including, but not limited to:

1. environmental sensitivity of the property and adjacent property;

2. surface water features, including drainage patterns, basin characteristics, and flood hazards;

3. wetlands and primary aquifer recharge areas;

4. soil characteristics;

5. location of potable water supplies, private wells, public well fields; and

6. climatic conditions, including prevailing winds, when applicable.

- POLICY 2.105-A1 Description - Urban-Growth Areas shall:

a. complement the TSDA in guiding growth, while promoting orderly and compact development;

b. be located contiguous to the TSDAs or a municipality as they represent the expansion areas;

c. be supported by existing or planned urban type services that are programmed for the 20-year planning horizon;

d. be those areas where the availability of infrastructure and other community facilities and services, including, but not limited to mass transit and other transportation alternatives, utilities, public safety, recreational and educational services, promotes and supports the location of higher density and intensity compact, mixed use development in close proximity to the development in the adjacent TSDAs;

e. include development criteria that:

1. promote the development of walkable communities which include a balance between employment opportunities, mix of complementary uses and activities, and a range of housing opportunities;

2. improve access to employment areas, schools, shopping and recreational opportunities;

3. support the preservation of open space and natural areas;

4. reduce capital and operating cost for the provision of infrastructure and public services.

- According to POLICY 2.108-A1 of the Polk County Comprehensive Plan, the Rural Development Area (RDA) is an area "characterized by large open areas, agricultural use, with scattered development and rural centers. Services are limited and mostly found in the rural centers and clustered developments."

- POLICY 2.109-A4 states that "The purpose of the Agriculture/Residential-Rural (A/RR) land use district is to provide lands for the continuation of productive agricultural uses and for compatible residential development within unincorporated rural areas. The A/RR district permits agricultural activities, agricultural support facilities, single-family dwelling units, farm labor housing, group living facilities, and community facilities."

- POLICY 2.119-A2: Location Criteria - Residential land use categories shall be established throughout the County with consideration being given to the following criteria:

  a. Access to county-maintained roads or roads constructed to County standards.

  b. Proximity to Activity Centers.

  c. Adequacy of water and sewage disposal systems (public and private).

  d. Adequacy and response time for public safety services - fire, police, and emergency medical service.

  e. Adequacy of recreation facilities.

  f. Proximity of incompatible land uses.

  g. Development limitations, and,

  h. Urban Sprawl Criteria set forth in POLICY 2.102-A10.

- POLICY 2.120-C1: Characteristics - Densities up to, and including, 5.00 DU/AC. The Residential-Low classification is characterized by single-family dwelling units, duplex units, and small-scale multi-family units.

- POLICY 2.120-C3: Location Criteria - Residential-Low areas shall be located only within the TSDAs, UGAs, SDAs, and UEAs and new Residential-Low development shall not be

located within Activity Centers. The placement of Residential-Low shall be evaluated based on the general criteria listed in Policy 2.119-A2.

- POLICY 2.120-C4: Development Criteria - Residential development may contain a variety of housing types as defined by the Land Development Code within the TSDA. Outside the TSDA, RL may contain single-family dwelling units, duplex units, small-scale multi-family units, and family-care homes, and shall be permitted, with County approval, at a density of up to, and including, 5 DU/AC. Additionally, community facilities may be allowed in accordance with policies of this Plan.

- POLICY 2.123-B2: Development Criteria within a "Floodplain-Protection Area" shall conform to the following criteria:

  a. Development shall be encouraged to locate on the non-floodplain portions of a development site and density may be transferred from undeveloped floodplain areas to contiguous non-floodplain areas per the Land Development Code.

  b. Development or redevelopment shall meet the requirements of the Polk County Land Development Code, and shall not:

     1. enlarge the off-site floodplain;
     2. alter the natural function of the floodplain; nor
     3. result in post development run-off rates which exceed pre-development run-off rates for storm frequencies at least as stringent as those rates established by the applicable Water Management District pursuant to Titles 40D and 40E, F.A.C.

- POLICY 2.123-C2: Development Criteria within a wetland, as determined by appropriate regulatory agencies having the authority to designate areas as wetlands and exercise jurisdiction over the wetlands so designated shall conform to the following criteria:

  a. Every reasonable effort shall be required to avoid or minimize adverse impacts on wetlands through the clustering of development and other site planning techniques. Mitigation will only be permitted in accordance with applicable state standards.
  b. Wetland impacts where unavoidable and where properly mitigated, as determined by agencies having jurisdiction, shall be permitted for:

     1. Resource-Based Recreational Uses as defined by this Plan that are compatible with wetland functions;
     2. access to the site;
     3. necessary internal traffic circulation, where other alternatives do not exist, or for purposes of public safety;
     4. utility transmission and collection lines;
     5. pre-treated storm-water management;
     6. mining that meets state and federal regulations; or
     7. expansion of an existing use or a new use where upon consultation with the appropriate regulatory agency (prior to permitting) it is determined that the proposed mitigation implements all or part of an agency or jurisdiction's plan and provides greater long term ecological value than the impact.

c. Commercial and industrial development shall locate on the non-wetland portion of a development site.

d. If a site is such that all beneficial use of the property is precluded due to wetland restrictions, then the parcel shall be allowed to develop as follows:

   1. a maximum of one dwelling unit per Lot of Record; or
   2. at a gross density of one dwelling unit per ten acres (1 DU/10 AC). No parcel shall be created after December 1, 1992, which consists entirely of wetlands, unless accompanied by a deed restriction which prohibits future development on the parcel.

e. Development shall be required to locate on the non-wetland portions of a development site. The Land Development Code shall permit residential densities to be transferred from wetland areas to contiguous non-wetland areas within the same development subject to the provisions of Policy 2.123-C3.

f. In accordance with Section 163.3184(6)(c), F.S., the County shall defer the delineation of jurisdictional wetland limits and wetland mitigation amounts to the applicable federal, state or regional permitting agency.

g. All permits from an agency with jurisdiction shall be approved prior to, or concurrently with, the County issuing a final development order.

h. Polk County will coordinate with regulatory agencies to identify and implement procedures to support compliance with permit terms and conditions as part of the County's building inspection and code enforcement activities.

- OBJECTIVE 2.124-B (Airport Impact Districts): The Polk County Plan shall provide for aviation-compatible land uses around airports licensed for public use, by limiting or restricting incompatible land uses and activities, as defined by the Polk County Airport Zoning Regulations of the Joint Airport Zoning Board (JAZB), consistent with the objectives and policies of the Transportation Element, Section 3.200.

Development Review Committee Recommendation: Based on the information provided by the applicant, recent site visits, and the analysis conducted within this staff report, the Development Review Committee (DRC) finds that the request for Residential-Low-4 (RL-4) **IS compatible** with the surrounding land uses and general character of the area and **IS consistent** with the Polk County Comprehensive Plan and Land Development Code. Therefore, the DRC recommends **APPROVAL** of the RL-4 sub district for **LDCD-2025-1.**

Planning Commission Recommendation: At an advertised public hearing on June 4, 2025, the Planning Commission **voted 4:3** to recommend **APPROVAL of LDCD-2025-1** to the Board of County Commissioners after hearing public testimony.

GENERAL NOTES

NOTE: This staff report was prepared without the benefit of testimony and evidence submitted by the public and other parties at a public hearing.

NOTE: All written comments made in the application and subsequent submissions of information made during the application review process, which are on file with the Land Development Division, shall be considered to be binding upon the applicant, provided such comments are not at variance with the Comprehensive Plan, LDC or other development regulations in effect at the time of development.

NOTE: Issuance of a development permit by the county does not in any way create any rights on the part of the applicant to obtain a permit from a state or federal agency and does not create any liability on the part of the county for issuance of the permit if the applicant fails to obtain requisite approvals or fulfill the obligations imposed by a state or federal agency or undertakes actions that result in a violation of state or federal law.

Compatibility with the Surrounding Uses

According to *Policy 2.102-A2* of Polk County's Comprehensive Plan, "land shall be developed so that adjacent uses are compatible with each other, pursuant to the requirements of other policies in this Future Land Use Element, so that one or more of the following provisions are accomplished: a. there have been provisions made which buffer incompatible uses from dissimilar uses; b. incompatible uses are made to be more compatible to each other through limiting the intensity and scale of the more intense use; and c. uses are transitioned through a gradual scaling of different land use activities through the use of innovative development techniques such as a Planned Unit Development." The "development criteria" and the "density and dimensional regulations" of a land use district are often the measuring tools used by staff to determine compatibility and the appropriateness of locating differentiating uses. Compatibility is defined in the Comprehensive Plan as "a condition in which land uses or conditions can coexist in relative proximity to each other in a stable fashion over time such that no use or condition is unduly negatively impacted directly or indirectly by another use or condition."

A. Land Uses

This site is located in both the Urban Growth Area (UGA) and the Rural Development Area. UGAs complement the TSDA in guiding growth, while promoting orderly and compact development; are located contiguous to the TSDAs or a municipality as they represent the expansion areas; are supported by existing or planned urban type services that are programmed for the 20-year planning horizon; and are those areas where the availability of infrastructure and other community facilities and services, including, but not limited to mass transit and other transportation alternatives, utilities, public safety, recreational and educational services, promotes and supports the location of higher density and intensity compact, mixed use development in close proximity to the development in the adjacent TSDAs.

Rural Development Areas (RDAs) are those unincorporated areas within the County that are not located within a Transit Supportive Development Area, Urban-Growth Area, Suburban-Development Area, or Utility-Enclave Area. Development in these areas is characterized by large open areas, agricultural use, with scattered development and rural centers. Services are limited and mostly found in the rural centers and clustered developments.

The entire 326-acre site is currently in the Residential-Low (RL) (168 acres) and Agricultural/Residential-Rural (A/RR) (158 acres) land use districts. At their March 5, 2025, meeting, the Planning Commission recommended that the site be designated as RL, and that 17 acres be changed to Residential-Medium in the Urban Growth Area (UGA)(LDCPAL-2024-17). The BoCC, at their May 6, 2025, meeting, approved for transmittal of the entire site as RL, which did not include the proposed RM portion. This CPA will be heard by the Board for adoption on July 15, 2025.

The immediate land use districts in the vicinity of the proposed request includes RL-1, A/RR, Institutional-2 (INST-2). Within the City of Bartow, south of the site, property is designated as Recreation, Conservation, and Mixed-Use.

Vacant, undeveloped land is to the west and south of the site. Institutional uses, such as infiltration basins and a future fire training facility, are southeast of the site. Undeveloped woodlands (including some wetlands) are east of the site. Uses to the northeast of the site are predominantly low-density residential, and a church and nursery also in the area. Low density residential uses are the predominate activity to the north and northwest of the site.

The primary concern with this request is compatibility. The applicant initially requested that the entire 326-acre site (with the exception of the 17 acres to be designated as Residential-Medium (RM)) be designated as RL-4. Designating the entire site as RL-4 raised concerns about compatibility between the proposed RL-4 (which allows 6,000 square foot lots) and the existing larger-sized tracts on the western portion of the site.

There are also significant environmental concerns. The presence of floodplains, wetlands, and eagles' nests, plus its location next to the Marshall Hampton Preserve (an environmentally sensitive area owned by the Southwest Florida Water Management District), are constraining factors in determining the appropriateness of the request. To address these concerns, staff and the applicant have agreed to an alternate recommendation where only the eastern portion of the site (approximately 178 acres on the east side of the Polk Parkway), would be designated as Residential-Low-4 (RL-4).

The eastern portion of the site is more appropriate for RL-4 due to several factors. Since 1991, the Comprehensive Plan has designated this area as an Urban Growth Area (UGA), based on the location of existing and planned utilities. Correspondingly, higher-density, smaller-lot residential development between the proposed parkway and Spirit Lake Road has occurred as a result. There are some non-residential uses (such as a church and a nursery) nearby. Additionally, the eastern portion of the site is next to County-owned property that is designated as Institutional-2 (INST-2). This property was previously used for rapid infiltration basins and is the location of the proposed County fire safety training facility. The proposed parkway also serves as a logical boundary between the more intensive residential uses to the east, and the lower-density residential and rural uses to the west.

Another factor to consider with this request is the change in character of the area due to the Parkway. The applicant states that the rationale for the increase in density is based on the presumption that the retaining walls used for the Central Polk Parkway's proposed bridge over Thornhill Road will affect the ability to develop the property. Although a type of bridge should not be the determining factor in deciding the appropriateness of a land use, staff acknowledges the applicant's statement that the proposed bridge over Thornhill Road will change the character of the area.

Because of the change in the character of the area due to the Parkway, and in recognition that the area is urbanizing, designating the eastern portion of the site as RL-4 is appropriate.

B. Infrastructure:

According to Comprehensive Plan POLICY 2.102-A1: DEVELOPMENT LOCATION, "Polk County shall promote contiguous and compact growth patterns through the development process to minimize energy costs, conserve land, water, and natural resources, minimize the cost of services, and prevent development patterns where tracts of land are by-passed in favor of development more distant from services and existing communities."

The subject properties are either in, or are proposed to be, located in the Urban Growth Area (UGA) where the construction of sidewalks is required. There is public water adjacent to the site, with sewer located .58 miles away. There are concerns about elementary school capacity and wastewater flows if the project were to occur at the maximum developable density. However, concurrency determinations are made based on a binding site plan, which is addressed as part of the Level 2 review process.

The following table provides a reference point for notable and pertinent Future Land Use Map districts and existing land uses.

Table 1

Northwest Residential-Low-1 (RL-1), Residential-Low-2 (RL-2), Residential-Low-3 (RL-3), Low-density residential (single-family and mobile homes)	**North** Residential-Low-1 (RL-1) Low-density residential (single-family and mobile homes)	**Northeast** Residential-Low-1 (RL-1), Residential-Low-2 (RL-2), Residential-Low-3 (RL-3), Residential-Medium (RM) Vacant woodlands/wetlands, single-family residential, nursery, church
West Residential-Low-1 (RL-1, Agricultural/Residential-Rural (A/RR) Vacant (SWFWMD Land)	**Subject Site** Residential-Low-1 (RL-1) Agricultural/Residential-Rural (A/RR) Vacant woodlands/wetlands and pasture Central Polk Parkway right-of-way	**East** Residential-Low-1 (RL-1) Vacant woodlands/wetlands
Southwest City of Bartow (Recreation, Conservation, and Mixed-Use land use districts) Vacant (SWFWMD Land)	**South** City of Bartow (Recreation, Conservation, and Mixed-Use land use districts) Vacant (FDOT Land) Institutional-2 (INST-2) Polk County Infiltration Basins	**Southeast** Institutional-2 (INST-2) Polk County Infiltration Basins

Nearest and Zoned Elementary, Middle, and High School

The schools zoned for the subject property are listed in Table 2 below. The entire site contains 178 acres. However, based on the applicant's support documentation, it is estimated that 74 acres of the site are uplands, and that the remaining 104 acres are wetlands. For the purposes of this analysis, it is assumed that a total of 400 units (74 AC (uplands) * 4 DU/AC = 296 units + 104 AC (wetlands) *1 DU/AC (density in wetlands) are available.

Table 2: School Information

School	Annual Estimated Demand	Distance from Subject Site	School Capacity (including portables)
Eagle Lake Elementary	83	3.6 miles	87%
Westwood Middle	35	3.5 miles	61%
Lake Region Senior High	58	3.2 miles	59%

Source: Polk County School Board website

According to the 2023-2024 Polk County School District Utilization Table, Eagle Lake Elementary had 666 student stations of permanent capacity with an enrollment of 699 students (33 over capacity). Westwood Middle had 1,155 permanent stations and an enrollment of 830 students (325 available). Lake Region High had 2,350 stations and 1,555 students (795 available).

Based on the maximum build-out projections shown in Table 2, the potential exists for the estimated demand for elementary school seats from this property to exceed projected capacity. However, concurrency determinations are made at the time of site plan (Level 2) approval.

Nearest Sheriff, Fire, and EMS Station

Polk County Fire Rescue provides Advanced Life Support transport to all residents and visitors of Polk County. Emergency response is considered effective if response times are within eight (8) minutes in rural and suburban areas and 13 minutes in urban areas.

Sherriff response times are not as much a function of the distance to the nearest sheriff's substation rather more a function of the overall number of patrol officers within the County. Priority 1 Calls are considered true emergencies, in-progress burglary, robbery, injuries, etc. Priority 2 Calls refer to events that have already occurred, such as a burglary that occurred while the homeowner was on vacation and had just been discovered.

Table 3 provides a breakdown of response times and travel distances for emergency services.

Table 3 Public Safety Information

	Name of Station	Distance	Response Time*
Sheriff	Southeast District, located at 4011 St. Mary Campbell Way, Lake Wales	±11 miles	P1: 10:36 minutes P2: 29:13 minutes
Fire/ EMS	Polk County Fire Rescue Station 17, located at 185 South 3rd Street, Eagle Lake.	±3 miles	7 minutes
*Source: Polk County Sheriff's Office and Public Safety *Response times are based on when the station receives the call and not from when the call is made to 911.*			

Water and Wastewater

Because development in the Urban Growth Area is required to connect to public water and sewer facilities, the proposed Comprehensive Plan Amendment will have an impact on these systems. There is a 12-inch water line on the south side of Thornhill Road adjacent to the site. The closest sewer line is 8 inches in diameter, and is located at Red Hawk Loop Road, .58 mile southeast of the site on Thornhill Road. Water service is provided by Polk County. Wastewater is collected by Polk County and transmitted to the City of Bartow's wastewater treatment facility, located at 2505 East Wabash Street, Bartow.

Estimated Demand

Table 4, following this paragraph, shows the proposed potable water consumption and wastewater generation. The entire site contains 178 acres. However, based on the applicant's support documentation, it is estimated that 74 acres of the site are uplands, and that the remaining 104 acres are wetlands. For the purposes of this analysis, it is assumed that a total of 400 units (74 AC (uplands) * 4 DU/AC = 296 units + 104 AC (wetlands) *1 DU/AC (density in wetlands) are available.

With a Planned Development approval, the higher density in RL-4 in the UGA is five (5) dwelling units per acre. However, the minimum lot size is 6,000 square feet, with a side setback of 7 feet and a rear setback is 10 feet.

The development of the property under the proposed land use designations may negatively impact the minimum LOS for the existing facilities.

Table 4 Estimated Water and Sewer Impact Analysis

Maximum Allowable Use: 400 units (RL-4) 400 units (74 AC (uplands) * 4 DU/AC = 296 units + 104 AC (wetlands) *1 DU/AC (density in wetlands)	Estimated Impact Analysis Residential-Low-1 (RL-1) to Residential-Low-4 (RL-4)	
	Current Land Use designation RL-1	**Maximum Permitted Use in Proposed RL-4**
Current Maximum Allowable Use	178 acres * 1 DU/AC) = **178 DUs**	**400 DUs**
Potable Water Consumption	178 DU * 250 GPD/DU = **44,500 GPD**	400 DU * 250 GPD/DU = **100,000 GPD**
Wastewater Generation	178 DU * 200 GPD/DU = **35,600 GPD**	400 DU * 200 GPD/DU = **80,000 GPD**
GPD – Gallons Per Day; DU – Dwelling Unit *Source: Polk County Concurrency Manual and Polk County Utilities: single family @ 250 GPD potable water and 200 waste water*		

B. Available Capacity:

According to the January 2025 Utilities Capacity Report, the projections for the Central Utility Service Area for water is 1,919,000 GPD (permitted capacity), with a flow of 1,320,000 GPD. For wastewater, the permitted capacity is 1,000,000 GPD, with a flow of 853,000 GPD. Based on the projections shown in Table 4, the potential exists for wastewater flows from this property to come

close to exceeding projected capacity. However, concurrency determinations are made at the time of site plan (Level 2) approval.

C. Planned Improvements:

No information is known currently for any planned improvements to utilities in this area.

Roadways/ Transportation Network

The Polk County Transportation Planning Organization (TPO) monitors traffic congestion on over 425 roadway segments (950 directional links). The data identifies both daily and peak hour traffic volumes. The peak hour traffic volumes are used to estimate the level-of-service for each roadway, in each direction. Level-of-service refers to the quality of traffic flow. It is the primary measure of traffic congestion. Level-of-service (LOS) is measured on a scale of 'A' to 'F' with LOS 'A' being the best (free-flow traffic) and LOS 'F' being the worst (severe traffic congestion).

The proposed Comprehensive Plan Amendment may affect surrounding roadways, the transportation network, and the LOS below the minimum established standards, depending on the eventual build out of the property.

A. Estimated Demand

Table 5, following this paragraph, shows the Average Annual Daily Trip (AADT) rate and the PM Peak hour trip rate. The entire site contains 178 acres. However, based on the applicant's support documentation, it is estimated that 74 acres of the site are uplands, and that the remaining 104 acres are wetlands. For the purposes of this analysis, it is assumed that a total of 400 units (74 AC (uplands) * 4 DU/AC = 296 units + 104 AC (wetlands) *1 DU/AC (density in wetlands) are available.

With a Planned Development approval, the higher density in RL-4 in the UGA is five (5) dwelling units per acre. However, the minimum lot size is 6,000 square feet, with a side setback of 7 feet and a rear setback is 10 feet.

Table 5 Estimated Transportation Impact Analysis

Maximum Allowable Use: 712 units (RL-4) 400 units (74 AC (uplands) * 4 DU/AC = 296 units + 104 AC (wetlands) *1 DU/AC (density in wetlands)	Estimated Impact Analysis Residential-Low-1 (RL-1) to Residential-Low-4 (RL-4)	
	Current Land Use designation RL-1	**Maximum Permitted Use in Proposed RL-4**
	178 acres * 1 DU/AC) = **178 DUs**	**400 DUs**
Average Annual Daily Trips (AADT)	178 DU * 7.81 trips/DU = **1,390 AADT**	400 DU * 7.81 trips/DU = **3,124 AADT**
PM Peak Hour Trips	178 DU * 1 trip/DU = **178 AADT**	400 DU * 1 trip/DU = **400 AADT**

Source: Concurrency Manual and Table for Minor Traffic Study – ITE Code 210 (single-family detached housing) @ 7.81 AADT and 1 PM peak hour per unit, 100% new trips.

B. Available Capacity:

The roads surrounding the subject site should have sufficient capacity available, depending on the eventual use and full build out of the site. The Polk Transportation Planning Organization (TPO) monitors certain roadways based on maximum approved traffic in comparison to current vehicle trips to determine what capacity is available.

Table 6 charts the generalized available capacity of the most-affected links.

Table 6

Link #	Road Name	Current Level of Service (LOS)	Available PM Peak Hour Capacity	Minimum LOS Standard	5-Year Peak Hour Projected LOS
4077N	Crystal Beach Road/Thornhill Road From: Old Bartow Eagle Lake Road to SR 540	C	318	D	C
4077S	Crystal Beach Road/Thornhill Road From: Old Bartow Eagle Lake Road to SR 540	C	305	D	C

Source: Polk County Transportation Planning Organization, Concurrency Roadway Network Database January 17, 2025

Based on the maximum build-out projections shown in Table 5, the potential exists for development from this property to exceed the projected capacity the PM Peak Hour trips available on Thornhill Road for this project. However, concurrency determinations are made at the time of site plan (Level 2) approval.

C. Roadway Conditions

Thornhill Road is a County-maintained Urban Collector Roadway with a surface width of 22 feet. The Pavement Condition Index (PCI) for Thornhill Road is "Good."

D. Planned Improvements:

With the exception of the Polk County Parkway, there are no roadway improvements planned in the next five years for this area of the County. The Parkway is currently under construction and is expected to open in 2029.

E. Mass Transit

There is no transit within a reasonable distance of the site. The closest bus route is 22XW, traveling along US 17 between Bartow and Winter Haven.

F. Sidewalks

There are no sidewalks along the parcel. Because portions of the site are within two miles of a school (Eagle Lake Elementary) and are in the Urban Growth Area (UGA), the construction of sidewalks will be required.

Park Facilities and Environmental Lands:

The nearest park facilities and environmental lands are The Marshall Hampton Reserve is immediately west of the site, and the Gordonville Park, two miles south of the site. The proposed use is expected to impact these facilities due to greater usage by new residents from the subject property.

A. Location:

Gordonville Park is located at 2671 Richardson Road, Bartow, and the Marshall Hampton Reserve has an address of 3115 Thornhill Road, Winter Haven.

B. Services:

The Marshall Hampton Reserve amenities include trails and equestrian/horseback riding activities. Gordonville Park has a playground, baseball and softball field, and a basketball court.

C. Multi-use Trails:

Multi-use trails can be found at the Marshall Hampton Reserve.

Environmental Lands:

South and west of the site is the Marshall Hampton Reserve. The Reserve consists of just over 1,100 acres, is owned by the Southwest Florida Water Management District (SWFWMD) and is managed by Polk County. There are no conservation easements in the immediate vicinity, with the closest easement approximately 2.25 miles northwest of the site (near the Polk County Parkway & SR 540 intersection. The western portions of the site are identified on the Polk Green District Map as a Potential Network Connection.

Environmental Conditions

The site is next to an area that has seen significant phosphate mining operations. The site is mostly wooded areas and open pasture. Large portions of the proposed project area contain wetlands and/or in the 100-year floodplain. The site is comprised of severely limited soils for typical forms of development.

A. Surface Water:

Based on a review of the property appraiser aerial photos, there are no surface water features on the site, with only ditches traversing the area. West of the site, on adjoining property, there are ponds next to Lake Hancock.

The elevation of the site generally slopes downward from Thornhill Road towards Lake Hancock. The eastern portion of the site has elevation ranging from 127’ near Thornhill Road, to 112’ at the southern property line. The western half of the site has similar topographical features, with higher elevations along Thornhill Road and the thin strip of land next to Fussell Lane. The larger portion of the western tract has elevations from 111 feet to 105 feet at the southwest corner of the site.

B. Wetlands/Floodplains:

Wetlands and both "A" and "AE" Flood Zones are present on the entire 326 acre site. According to the applicant's documentation, 44% of the site (144 out of 326 acres) consists of wetlands. There are a total of 251.99 acres (249.34 Zone "A") and (2.64 Zone "AE") acres of floodplain on the site, which results in a total of 77% of the 326-acre site. The applicant will be required to demonstrate compliance with LDC Chapter 6 (*Resource Protection*) during the Level 2 review process for any site development.

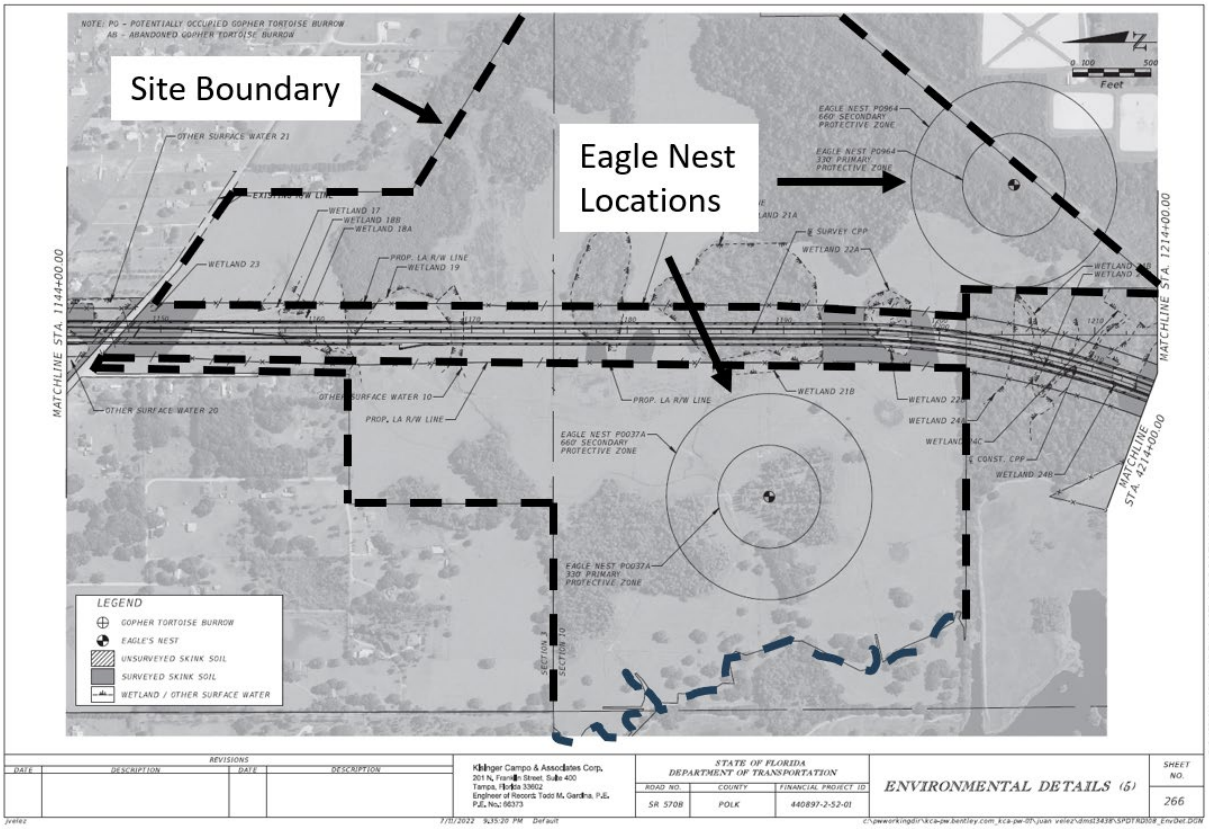
C. Soils:

The site is comprised primarily of severely limited soils for septic tanks and/or buildings without basements, according to the U.S. Department of Agriculture, Soil Conservation Service, Polk County Survey.

Table 7 lists the soils associated with the subject site.

Table 7

Soil Name	**Septic Tank Absorption Field Limitations**	**Dwellings Without Basements**	**% of Site** *(approximate)*
Adamsville Fine Sand	Severe: wetness, poor filter	Moderate: wetness	2.26%
Hontoon Muck	Severe: subsides, ponding, poor filter	Severe: subsides, ponding, low strength	20.18%
Immokalee Sand	Severe: wetness	Severe: wetness	9.08%
Placid and Myakka Fine Sands	Severe: ponding, poor filter	Severe: ponding	6.54%
Pomona Fine Sand	Severe: wetness, percs slowly	Severe: wetness	7.77%
Samsula Muck	Severe: ponding, poor filter	Severe: ponding, low strength	21.69%
Smyrna and Myakka Fine Sands	Severe: wetness, poor filter	Severe: wetness	30.28%
Tavares Fine Sand	Moderate: wetness	Slight	1.80%



Source: Soil Survey of Polk County, Florida, USDA, Soil Conservation Service, Applicant's Impact Statement

Any future development of the site will be subject to Section 2.303: "Soils" of the County's Comprehensive Plan (in conjunction with the Land Development Code) which requires all development to implement Best Management Practices based on the Department of Environmental Protection's (DEP) Florida Development Manual.

D. Protected Species

According to the Florida Natural Areas Inventory Biodiversity Matrix, the site is located within an area of protected species and habitat observations for rookeries, animals, and eagle nests. Sheet Number 266 of the roadway plans for the Central Polk Parkway project show the location of two eagles nests, located on the southern portion of the site.

There are no conservation easements in the immediate vicinity, with the closest easement approximately 2.25 miles northwest of the site (near the Polk County Parkway & SR 540 intersection. The western portions of the site are identified on the Polk Green District Map as a Potential Network Connection.

Prior to site clearing or grubbing, the applicant shall hire a qualified professional to conduct a site survey/walkover to ensure that no threatened or endangered plant or animal species exist on the site. If any are discovered, the applicant shall properly protect the specie(s) or mitigate any impacts consistent with federal, state, and local law.

E. Archeological Resources:

Listed below is a chart from the Secretary of State's Department of Historical Resources Florida Master Site File. With the exception of SiteID PO01040, the five possible archeological sites and one structure are located on or next to the western tract of the subject property. There are not archeological sites on the eastern portion of the property. To ensure adequate protection of these resources, there should be additional studies conducted prior to site development occurring.

Table 8 Archeological Resources

Florida Master Site File — Created: 12/30/2024

AR=6 SS=1 CM=0 RG=0 BR=0 Total=7

Cultural Resource Roster

SiteID	Type	Site Name	Address	Additional Info	SHPO Eval	NR Status

PO04127	AR	THORNHILL	EAGLE LAKE			
PO04128	AR	BALD EAGLE	Winter Haven		Not Eligible	
PO06844	AR	Stuart Ranch 1	Winter Haven		Not Eligible	
PO06845	AR	Stuart Ranch 2	Winter Haven		Not Eligible	
PO06846	AR	Stuart Ranch 3	Winter Haven		Not Eligible	
PO08237	SS	4355 Fussel Lane	4355 Fussel LN, Winter Haven	1955- Frame Vernacular	Not Eligible	

F. Wells (Public/Private)

The site is not within a Wellfield Protection District. The closest wellfield is on County owned property, approximately one mile south of the site.

G. Airports:

This property is within the Height Notification Zone of the Bartow Municipal Airport Impact District.

Economic Factors:

Construction of buildings and site development activities create temporary jobs. Any new business activity that occurs at this site will need more goods and services, thereby generating more economic activity.

Consistency with the Comprehensive Plan

Many policies within the Comprehensive Plan are reviewed for consistency with an application. The most relevant policies for the proposed request are included in this section. The policy is first stated and then an analysis of how the request is provided to state that it may or may not be consistent with the Comprehensive Plan. How the request is **consistent** with the Comprehensive Plan is listed below:

Table 9 Comprehensive Plan

Comprehensive Plan Policy	Consistency Analysis
POLICY 2.102-A2: COMPATIBILITY - Land shall be developed so that adjacent uses are compatible with each other, pursuant to the requirements of other Policies in this Future Land Use Element, so that one or more of the following provisions are accomplished: a. there have been provisions made which buffer incompatible uses from dissimilar uses; b. incompatible uses are made to be more compatible to each other through limiting the intensity and scale of the more intense use; c. uses are transitioned through a gradual scaling of different land use activities through the use of innovative development techniques such as a Planned Unit Development.	Development of this site at the maximum proposed density could be compatible, provided that there is a limiting of intensity and scale of the different types of residential uses. A Planned Development would be a viable option for the ultimate development of this property.
POLICY 2.102-A1: DEVELOPMENT LOCATION – Polk County shall promote contiguous and compact growth patterns through the development process to minimize energy costs, conserve land, water, and natural resources, minimize the cost of services, and prevent development patterns where tracts of land are by-passed in favor of development more distant from services and existing Communities.	
POLICY 2.102-A4: TIMING - The development of land shall be timed and staged in conjunction with the cost-effective and efficient provision of supporting community services which, at a minimum, shall require compliance with the Plan's Level of Service requirements and the County's concurrency management system.	Development of this site at the maximum proposed density could be compatible, provided that there is a limiting of intensity and scale of the different types of residential uses. A Planned Development would be a viable option for the ultimate development of this property.

Comprehensive Plan Policy	Consistency Analysis
POLICY 2.102-A10: LOCATION CRITERIA - The following factors shall be taken into consideration when determining the appropriateness of establishing or expanding any land use or development area: a. nearness to incompatible land uses and future land uses, unless adequate buffering is provided, b. nearness to agriculture-production areas; c. distance from populated areas; d. economic issues, such as minimum population support and market-area radius (where applicable); e. adequacy of support facilities or adequacy of proposed facilities to be provided by the time of development, including, but are not limited to: 1. transportation facilities, including but not limited to, mass transit, sidewalks, trails and bikeways; 2.sanitary sewer and potable water service; 3. storm-water management; 4. solid waste collection and disposal; 5. fire protection with adequate response times, properly trained personnel, and proper fire-fighting equipment; 6. emergency medical service (EMS) provisions; and 7. other public safety features such as law enforcement; 8. schools and other educational facilities 9. parks, open spaces, civic areas and other community facilities, f. environmental factors, including, but not limited to: 1. environmental sensitivity of the property and adjacent property; 2. surface water features, including drainage patterns, basin characteristics, and flood hazards; 3. wetlands and primary aquifer recharge areas; 4. soil characteristics; 5. location of potable water supplies, private wells, public well fields; and 6. climatic conditions, including prevailing winds, when applicable.	
POLICY 2.119-A2: LOCATION CRITERIA - Residential land use categories shall be established throughout the County with consideration being given to the following criteria: a. Access to county-maintained roads or roads constructed to County standards. b. Proximity to Activity Centers. c. Adequacy of water and sewage disposal systems (public and private). d. Adequacy and response time for public safety services - fire, police, and emergency medical service. e. Adequacy of recreation facilities. f. Proximity of incompatible land uses. g. Development limitations, and, h. Urban Sprawl Criteria set forth in POLICY 2.102-A10.	The site is next to Thornhill Road, a County-maintained collector. Water service is located at the site, but sewer service is ½ mile away. Public safety facilities are adequate. There are limited recreation facilities, and environmental development limitations exist on the site.

Comprehensive Plan Policy	Consistency Analysis
POLICY 2.120-C3: LOCATION CRITERIA - Residential-Low areas shall be located only within the TSDAs, UGAs, SDAs, and UEAs and new Residential-Low development shall not be located within Activity Centers. The placement of Residential-Low shall be evaluated based on the general criteria listed in Policy 2.119-A2.	The portion of the site that is proposed to change from RL-1 to RL-4 (Previously A/RR) will be consistent with this policy if the subsequent request to change from RDA to UGA is also approved.
POLICY 2.123-B2: Development Criteria within a "Floodplain-Protection Area" shall conform to the following criteria: a. Development shall be encouraged to locate on the non-floodplain portions of a development site and density may be transferred from undeveloped floodplain areas to contiguous non-floodplain areas per the Land Development Code. b. Development or redevelopment shall meet the requirements of the Polk County Land Development Code, and shall not: 1. enlarge the off-site floodplain; 2. alter the natural function of the floodplain; nor 3. result in post development run-off rates which exceed pre-development run-off rates for storm frequencies at least as stringent as those rates established by the applicable Water Management District pursuant to Titles 40D and 40E, F.A.C.	Based on an analysis of the site using the County's GIS viewer, 77% of the site (252 out of 326 acres) is in a floodplain. This is a significant amount of acreage and is a constraint of development of the property. The amount of acreage that is in the floodplain raises concerns about the appropriateness of this site for intensive, urban-density residential development. Careful site planning will need to occur to ensure that development of the site is done in a manner that minimizes impacts to environmental resources.
POLICY 2.123-C2: Development Criteria within a wetland, as determined by appropriate regulatory agencies having the authority to designate areas as wetlands and exercise jurisdiction over the wetlands so designated shall conform to the following criteria: i. Every reasonable effort shall be required to avoid or minimize adverse impacts on wetlands through the clustering of development and other site planning techniques. Mitigation will only be permitted in accordance with applicable state standards. j. Wetland impacts where unavoidable and where properly mitigated, as determined by agencies having jurisdiction, shall be permitted for: 8. Resource-Based Recreational Uses as defined by this Plan that are compatible with wetland functions; 9. access to the site; 10. necessary internal traffic circulation, where other alternatives do not exist, or for purposes of public safety; 11. utility transmission and collection lines; 12. pre-treated storm-water management;	According to the applicant's Bubble Plan, 44% of the site (144 out of 326 acres) consists of wetlands. This is a significant amount of acreage and is a constraint of development of the property. The amount of acreage that is comprised of wetlands called into question the appropriateness of this site for intensive, urban-density residential development. Careful site planning will need to occur to ensure that development of the site is done in a manner that minimizes impacts to environmental resources.

Comprehensive Plan Policy	Consistency Analysis
13. mining that meets state and federal regulations; or 14. expansion of an existing use or a new use where upon consultation with the appropriate regulatory agency (prior to permitting) it is determined that the proposed mitigation implements all or part of an agency or jurisdiction's plan and provides greater long term ecological value than the impact. k. Commercial and industrial development shall locate on the non-wetland portion of a development site. l. If a site is such that all beneficial use of the property is precluded due to wetland restrictions, then the parcel shall be allowed to develop as follows: 3. a maximum of one dwelling unit per Lot of Record; or 4. at a gross density of one dwelling unit per ten acres (1 DU/10 AC). No parcel shall be created after December 1, 1992, which consists entirely of wetlands, unless accompanied by a deed restriction which prohibits future development on the parcel. m. Development shall be required to locate on the non-wetland portions of a development site. The Land Development Code shall permit residential densities to be transferred from wetland areas to contiguous non-wetland areas within the same development subject to the provisions of Policy 2.123-C3. n. In accordance with Section 163.3184(6)(c), F.S., the County shall defer the delineation of jurisdictional wetland limits and wetland mitigation amounts to the applicable federal, state or regional permitting agency. o. All permits from an agency with jurisdiction shall be approved prior to, or concurrently with, the County issuing a final development order. Polk County will coordinate with regulatory agencies to identify and implement procedures to support compliance with permit terms and conditions as part of the County's building inspection and code enforcement activities.	
SECTION 2.124-B - AIRPORT-IMPACT DISTRICTS. OBJECTIVE 2.124-B: The Polk County Plan shall provide for aviation-compatible land uses around airports licensed for public use, by limiting or restricting incompatible land uses and activities, as defined by the Polk County Airport Zoning Regulations of the Joint Airport Zoning Board (JAZB), consistent with the objectives and policies of the Transportation Element, Section 3.200.	The site is located in the Height Notification Zone for the Bartow Municipal Airport. Due to the distance of the subject property away from the airport, no adverse impacts upon airport operations are expected.

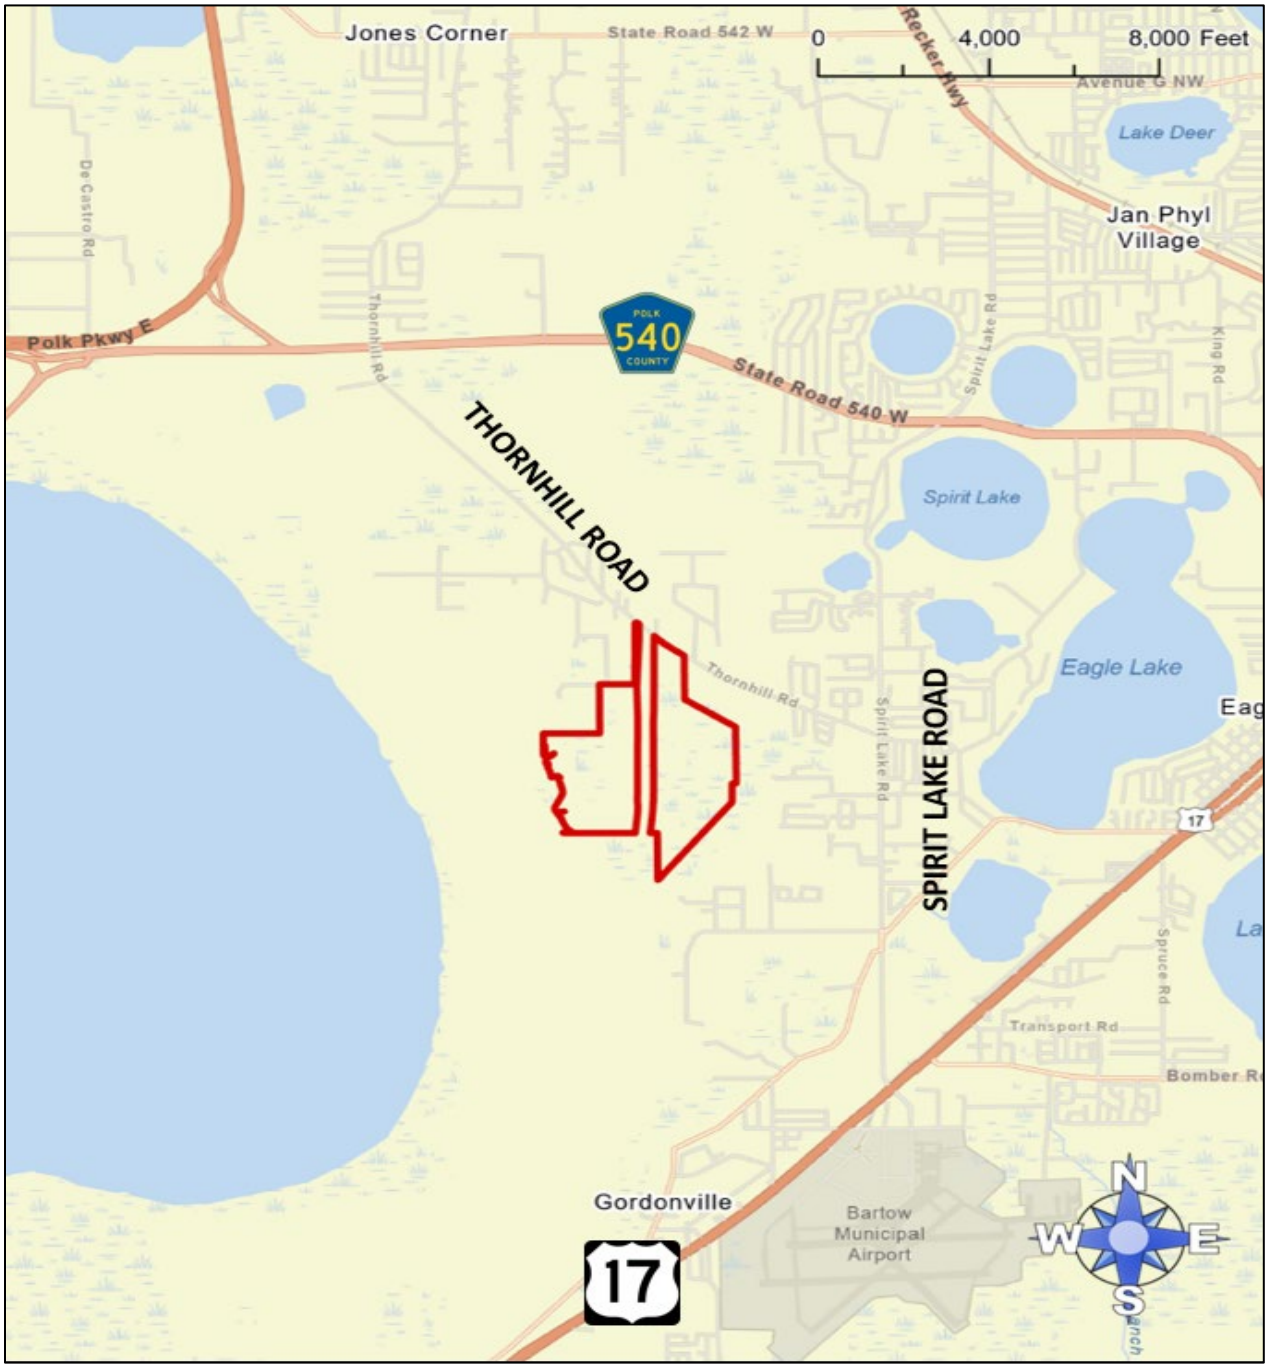
Urban Sprawl Analysis

After analyzing the primary indicators of Urban Sprawl per *Policy 2.109-A10* of the Polk County Comprehensive Plan, it is apparent that the proposed request is not considered urban sprawl based on these criteria and it is permitted in the designated area. Table 9 (below) depicts the Urban Sprawl Criteria used by staff as indicators of Urban Sprawl.

Table 9 Urban Sprawl Criteria

Urban Sprawl Criteria: The following criteria are the primary indicators of urban sprawl per Florida Statutes	
Urban Sprawl Criteria	**Sections where referenced in this report**
a. *Promotes substantial amounts of low-density, low-intensity, or single use development in excess of demonstrated need.*	Summary of analysis
b. *Allows a significant amount of urban development to occur in rural areas.*	Summary of analysis
c. *Designates an urban development in radial, strip isolated, or ribbon patterns emanating from existing urban developments.*	Summary of analysis, surrounding Development, compatibility
d. *Fails to adequately protect and conserve natural resources and other significant natural systems.*	Summary of analysis, surrounding Development, compatibility
e. *Fails to adequately protect adjacent agricultural areas.*	Compatibility with Surrounding Land Uses
f. *Fails to maximize existing public facilities and services.*	Summary of Analysis, Infrastructure
g. *Fails to minimize the need for future facilities and services.*	Summary of Analysis, Infrastructure
h. *Allows development patterns that will disproportionately increase the cost of providing public facilities and services.*	Summary of Analysis, Infrastructure
i. *Fails to provide a clear separation between urban and rural uses.*	Summary of Analysis, Compatibility with Surrounding Land Uses
j. *Discourages infill development or redevelopment of existing neighborhoods.*	Summary of Analysis, Compatibility with Surrounding Land Uses
k. *Fails to encourage an attractive and functional mixture of land uses.*	Summary of Analysis, Compatibility with Surrounding Land Uses
l. *Will result in poor accessibility among linked or related land uses.*	Summary of Analysis, Compatibility with Surrounding Land Uses
m. *Results in the loss of a significant amount of open space.*	Summary of Analysis, Compatibility with Surrounding Land Uses

Comments from other agencies



The City of Bartow staff has noted that an issue to be aware of is sewer line capacity. Flow from this project will go through the county's distribution system to Bartow's wastewater treatment plant.

ORDINANCE NO. 25-_____

AN ORDINANCE OF POLK COUNTY, FLORIDA ADOPTING **LDCD-2025-1**, AN AMENDMENT TO THE POLK COUNTY LAND DEVELOPMENT CODE SUB-DISTRICT MAP (ORDINANCE 01-69), AS AMENDED; MODIFYING THE SUB-DISTRICT MAP TO CHANGE 178 ACRES FROM RESIDENTIAL-LOW 1 (RL-1) TO RESIDENTIAL-LOW-4 (RL-4), THE SUBJECT SITE IS LOCATED SOUTH OF THORNHILL ROAD, EAST OF LAKE HANCOCK, AND NORTH OF THE CITY OF BARTOW, IN SECTIONS 3 & 10, TOWNSHIP 29, RANGE 25; PROVIDING FOR SEVERABILITY; AND PROVIDING FOR AN EFFECTIVE DATE.

WHEREAS, pursuant to Article VIII, Section I(g) of the Constitution of the State of Florida and the Community Planning Act, Chapter 163, Part II, Florida Statutes (FS), as amended, (the "Act") Polk County is authorized and required to adopt a Land Development Regulations consistent with the Polk County Comprehensive Plan; and

WHEREAS, the Board of County Commissioners (the "Board) adopted said Land Development Regulations on March 1, 2000, titled the Polk County Land Development Code; (the "LDC") and

WHEREAS, the Board of County Commissioners adopted a LDC Sub-district Map on September 26, 2001; and

WHEREAS, Chapter 9, Section 903 of the LDC provides the approval process for amending the LDC Sub-district Map as a Level 4 Review; and

WHEREAS, LDCD-2025-1 is an applicant-initiated application (the "Application") to amend the LDC Sub-district maps to change 178 +/- acres from Residential-Low 1 (RL-1) to Residential-Low-4 (RL-4); and

WHEREAS, pursuant to Section 163.3174 of the Florida Statutes, the Polk County Planning Commission conducted a public hearing, with due public notice having been provided, on the proposed Land Development Code Sub-district Map Amendment on July 9, 2025; and

WHEREAS, pursuant to Section 125.66 of the Florida Statutes, the Board of County Commissioners conducted an adoption public hearing, with due public notice having been provided, on the proposed Land Development Code Sub-district Map Amendment on August 19, 2025; and

WHEREAS, the Board reviewed and considered all comments received during said public hearing, the Planning Commission's recommendation, the staff report, and provided for necessary revisions, if any; and

NOW THEREFORE, BE IT ORDAINED by the Board of County Commissioners of Polk County, Florida that:

SECTION 1: FINDINGS The findings set forth in the recitals to this Ordinance are true and correct and hereby adopted. In addition, the Board hereby adopts and incorporates herein the DRC staff report and makes the following findings based upon the staff report and other record evidence presented during the hearing:

a) The Planning Commission, acting in its capacity as the Local Planning Agency for the County, held a public hearing on June 4, 2025 to consider the LDC Sub-district map amendment contained within the Application and found it to be consistent with the Comprehensive Plan and recommended that the Board adopt the LDC Sub-district Map Amendment contained within the Application.

b) Pursuant to section 907D.10 of the LDC, the Board shall, in the review of the Application, consider the following factors:
    a. Whether the proposed development is consistent with all relevant requirements of the Code;
    b. Whether the proposed development is consistent with all applicable policies of the Comprehensive Plan;
    c. Whether the proposed use is compatible with surrounding uses and the general character of the area, including such factors as density, height, bulk, scale, intensity, traffic, noise, and appearance; and
    d. Any other matter which the BoCC may deem appropriate and relevant to the specific development proposal.

c) The Application is consistent with all relevant requirements of the Comprehensive Plan.

d) The Application is consistent with all relevant requirements of the LDC, including without limitation, section 907.

e) The Application is compatible with surrounding uses and the general character of the area.

f) The record is hereby incorporated by reference into this ordinance and is on file with the County Clerk. The record consists of the following: the Application, Impact Assessment Statement, the DRC staff report, staff's PowerPoint presentation, the Planning Commission's recommendation, and all testimony and evidence presented at the hearing.

SECTION 2: AREA AMENDED.

Polk County Ordinance No. 01-69 as amended (the "Polk County Land Development Code Sub-district Map"), of Polk County Ordinance No. 00-09, as amended (the "Polk County Land Development Code") is hereby amended to reflect a change in the Sub-district of Parcels, legally described below and graphically depicted in Attachment "A" of this ordinance, from Residential-Low-1 (RL-1) to Residential-Low-4 (RL-4), containing 178 acres, more or less.

SECTION 3: SEVERABILITY.

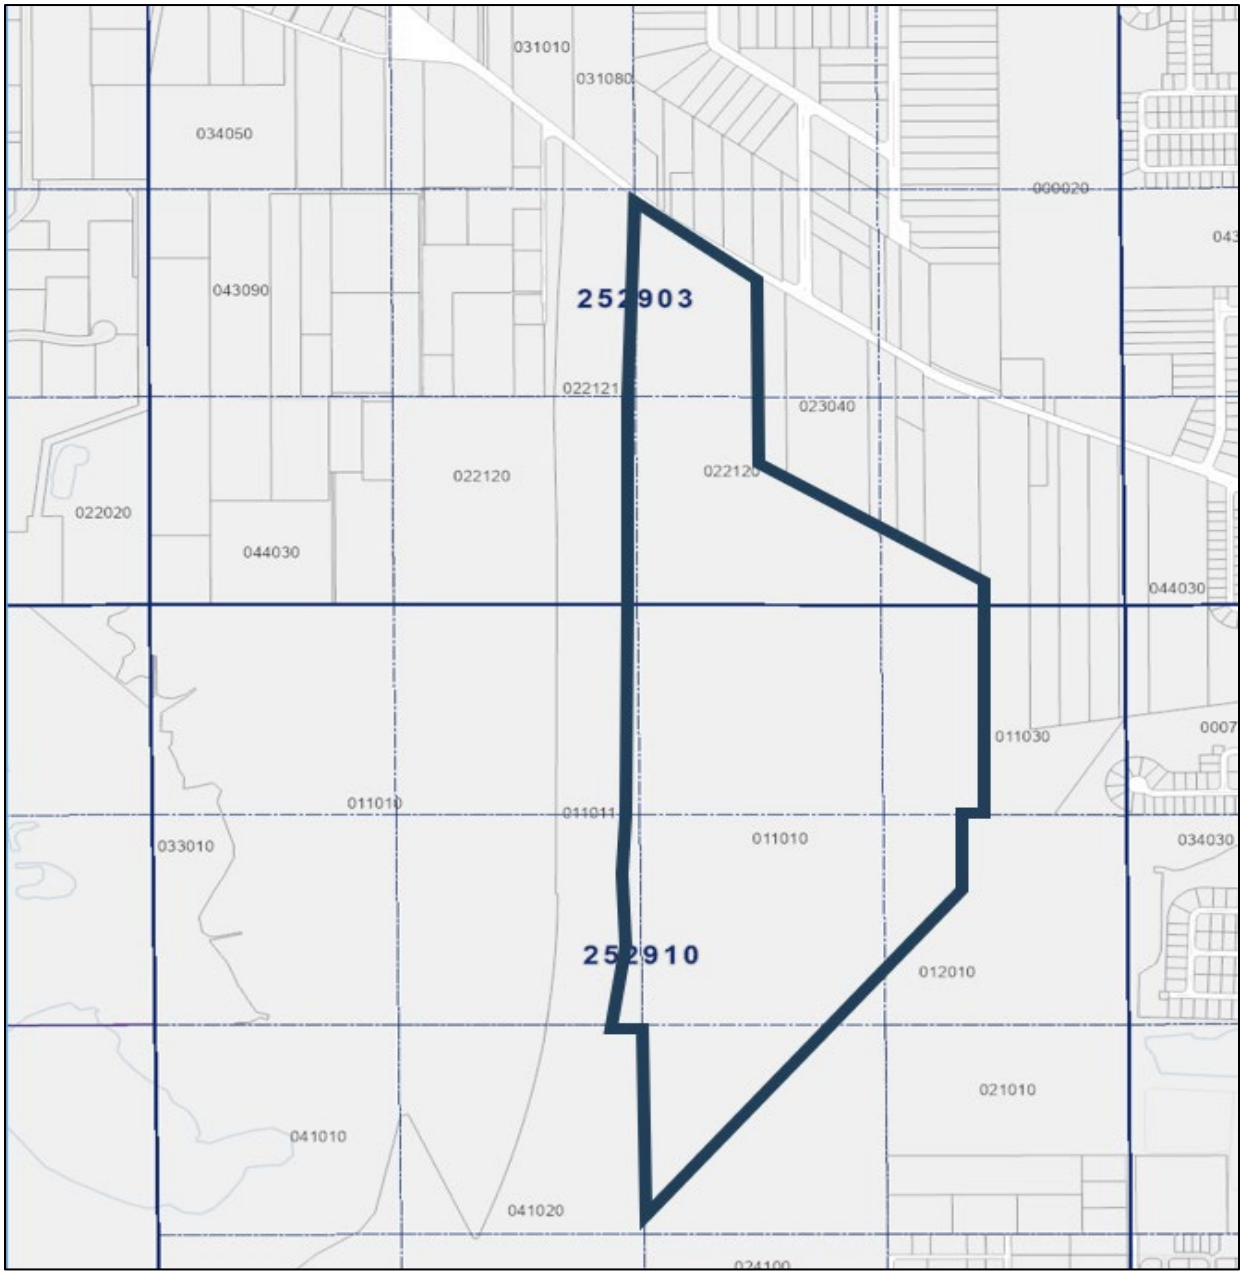
If any portion of this Ordinance is for any reason held unconstitutional or otherwise invalid by a court of competent jurisdiction, such portion shall be deemed a separate, distinct and independent provision and such holding shall not affect the validity of the remaining portions of this Ordinance.

SECTION 4: EFFECTIVE DATE.

This Ordinance shall become effective upon filing of a certified copy of the Ordinance with the Department of State.

SECTION 5: FILING WITH THE DEPARTMENT OF STATE:

The Clerk and Auditor to the Board of County Commissioners of Polk County, Florida, shall file a certified copy of this ordinance with the Department of State, through the Secretary of State, upon adoption by the Board of County Commissioners of Polk County, Florida.



ADOPTED, in open session of the Polk County Board of County Commissioners with a quorum present and voting this 19th day of August, 2025.

The remaining ranchland known as the "Stuart Ranch" is described as follows:

A portion of Sections 3, 9, and 10, Township 29 South, Range 25 East, Polk County, Florida, described as follows:

Begin at the northwest Corner of said Section 10; thence South 89°48'09" East along the north boundary of the northwest quarter of said Section 10 a distance of 1332.08 feet to the southwest corner of the southeast quarter of the southwest quarter of said Section 3; thence North 00°03'20" West along the west boundary of said southeast quarter of the southwest quarter a distance of 1311.76 feet to the northwest corner of said southeast quarter of the southwest quarter; thence South 89°47'57" East along the north boundary of said southeast quarter of the southwest quarter a distance of 830.97 feet to the southwest corner of the east 3/8 of the northeast quarter of the southwest quarter of said Section 3; thence North 00°07'29" West along the west boundary of said east 3/8 of the northeast quarter of the southwest quarter a distance of 1311.73 feet to the southeast corner of the west quarter of the east half of the southeast quarter of the northwest quarter of said Section 3; thence North 00°08'15" West along the east boundary of said west quarter of the east half of the southeast quarter of the northwest quarter a distance of 400.37 feet to the southerly right of way of Thornhill Road according to Map Book 1, Pages 31-33, public records of Polk County, Florida; thence along said southerly right of way for the following eight courses: South 49°39'22" East a distance of 112.32 feet; thence South 45°38'50" East a distance of 200.09 feet; thence South 47°39'08" East a distance of 200.00 feet; thence South 47°56'19" East a distance of 200.01 feet; thence South 47°39'14" East a distance of 198.78 feet; thence South 48°07'51" East a distance of 16.31 feet; thence South 55°43'59" East a distance of 400.00 feet; thence South 56°01'10" East a distance of 185.72 feet to an intersection with a line lying parallel with the centerline of a utility easement recorded in O.R. Book 1255, Page 1061, public records of Polk County, Florida and 1200.00 feet west of said centerline (measured perpendicular to said centerline); thence South 00°18'25" East along said parallel line a distance of 1162.10 feet; thence South 58°17'57" East a distance of 1415.14 feet to said centerline of utility easement; thence South 00°18'25" East along said centerline of utility easement a distance of 1500.00 feet to the north boundary of the southeast quarter of the northeast quarter of said Section 10; thence North 89°42'59" West along said north boundary a distance of 100.00 feet to the west boundary of said utility easement; thence South 00°18'25" East along said west boundary of utility easement a distance of 494.52 feet; thence continue along said west boundary of utility easement South 40°16'59" West a distance of 2719.58 feet to the west boundary of the northwest quarter of the southeast quarter of said Section 10; thence North 00°21'59" West along said west boundary a distance of 1251.95 feet to the southeast corner of the northwest quarter of said Section 10; thence North 89°48'35" West along the south boundary of said northwest quarter a distance of 2660.98 feet to the southwest corner of said northwest quarter; thence North 00°26'07" West along the west boundary of said northwest quarter a distance of 1989.35 feet to the southeast corner of the northeast half of the northeast quarter of the northeast quarter of the northeast quarter of said Section 9; thence North 45°25'26" West along the southwesterly boundary of said northeast half of the northeast quarter of the northeast quarter of the northeast quarter a distance of 939.25 feet to the northwest corner of said northeast half of the northeast quarter of the northeast quarter of the northeast quarter; thence North 89°39'55" East along the north boundary of said northeast quarter of Section 9 a distance of 664.02 feet to the POINT OF BEGINNING. Containing 394.150 acres.

WARRANTY DEED

THIS INSTRUMENT, made this 6th day of April, 1989, between W. H. STUART, as Trustee of the W. H. Stuart Revocable Trust, party of the first part, and MARGRETTE KENNEDY STUART and LENORE CROSLAND STUART, as Tenants in Common, whose address is Post Office Box 1378, Bartow, Florida 33830, party of the second part,

WITNESSETH, that the said party of the first part, for and in consideration of the sum of Ten Dollars ($10.00), to it in hand paid, the receipt whereof is hereby acknowledged, has granted, bargained, sold, aliened, remised, released, conveyed and confirmed, and by these presents doth grant, bargain, sell, alien, remise, release, convey and confirm unto the said party of the second part and assigns forever, all that certain parcel of land lying and being in the County of Polk, State of Florida, more particularly described as follows:

SEE ATTACHED EXHIBIT "A"

Subject to all easements, restrictions and reservations of record, if any.

This is not nor has it ever been, homestead property of Grantor.

TOGETHER with all the tenements, hereditaments and appurtenances, with every privilege, right, title, interest and estate, reversion, remainder and easement thereto belonging or in anywise appertaining:

TO HAVE AND TO HOLD the same in fee simple forever.

And the said party of the first part doth covenant with the party of the second part that it is lawfully seized of the said premises; that it is free of all encumbrances, and that it has good right and lawful authority to sell the same; and the said party of the first part does hereby fully warrant the title to said land, and will defend the same against the lawful claims of all persons whomsoever.

IN WITNESS WHEREOF, the said party of the first part has placed its hand and seal the day and year above written.

Signed, sealed and delivered

POLK COUNTY, FLA.
BY SW D.C.

DEMONSTRATION OF NEED

1. Could the proposed amendment promote substantial amounts of low-density, low intensity, or single use development in excess of demonstrated need?

   No. Central Florida and Polk County are exhibiting residential growth and need. It is anticipated there have been over 1,300 building permits for new construction in Polk County since October 2024. The proposed amendment is necessary to meet the continued demand in the area. The development of the subject site is limited by natural wetland features requiring strategic planning to minimize and avoid impacts.

2. Will passage of the proposed amendment allow a significant amount of urban development to occur in rural areas ?

   No. The proposed request is an effort to master plan development of the parcels, in light of recently approved development and the construction of the overpass, in order to efficiently and effectively develop the property. The property is immediately adjacent to the northern boundary of the Old Florida Plantation DRI, which was approved by Polk County BoCC in 1999 and annexed into the municipal limits of the City of Bartow. According to the City of Bartow's Future Land Use Map the Old Florida Plantation DRI contains residential high, residential medium, and residential low entitlements. The area is no longer rural as there is ample infrastructure and nearby commercial to support the residential community considered in the proposed request.

3. Does the proposed amendment create or encourage urban development in radial, strip, isolated, or ribbon patterns emanating from existing urban development?

   No.

4. Does the proposed amendment fail to adequately protect adjacent agriculture areas?

   No. There is limited agricultural land in the area. To the extent necessary, there are significant natural features that would provide for buffers from other existing development in the area.

5. Could the proposed amendment fail to maximize existing public facilities and services?

   No. The Land Use would utilize the existing water infrastructure and provide for future extension of the County's sanitary force main.

6. Could the proposed amendment fail to minimize the need for future public facilities and services?

   No. The Land Use would limit the impact on water infrastructure. The future extension would be designed for the needed use unless the County required upsizing to serve additional areas for the future.

7. Will the proposed amendment allow development patterns that will

disproportionately increase the cost of providing public facilities and services?

No. The development pattern would be appropriate and proportionate to the facilities existing and to be extended in the future.

8. Does the proposed amendment fail to provide clear separation between urban and rural uses?

Due to the investment in infrastructure in the area, it is not appropriate to consider this area rural. There are urban services and infrastructure within the area for the property. To the extent there is larger lot development adjacent to the site, there is ample wetland areas

9. Will the proposed amendment discourage infill development or redevelopment of existing neighborhoods?

No. The change in Land Use would encourage more appropriate redevelopment in the future as a result of the overpass construction changing the feel of the area.

10. Does the proposed amendment fail to encourage an attractive and functional mixture of land uses?

No. The change in Land Use would be more appropriate to the change brought by the overpass construction while still developing around and maintaining natural features.

11. Could the proposed amendment result in poor accessibility among linked or related land uses?

No. The land would have accessibility based on the type of access.

12. As a result of approval of this amendment, how much open space will be lost?

None. The site is currently impacted by the construction of the new parkway extension, which has impacted the ability to continue the previous agricultural activities.

AGENT OF RECORD LETTER

TO WHOM IT MAY CONCERN:

I (We), LENORE CROSLAND STUART designate and appoint the following:

Jason A. Alligood, PE- Kimley Horn and Associates, Inc. the Agent of Record for the purpose of representing us during the Level III and IV Conditional use process with the Polk County Board of County Commissioners, pertaining to the project located within Polk County, Florida and further identified as Parcel number(s): 25-29-10-000000-011010 and 25-29-03-000000-022120.

The Agent of Record is hereby vested with authority to make any representations, agreement, or promises which are necessary in conjunction with the said application/project. The Agent of Record is also authorized to accept or reject any conditions imposed by any reviewing board or entity.

Date: 3 DEC 2024

LEVEL 4 REVIEW

Lenore Crosland Stuart and Margrette Kennedy Stuart Satterfield (collectively and individually the "Owner") are proposing a a map amendment to allow for higher density residential development than currently allowed (approximately 326.92 acres) on Parcels 25-29-03-000000-022120 and 25-29-10-000000-011010 (approximately 326.92 acres) located west of the intersection of Thornhill Road and Spirit Lake Road in unincorporated Polk County, Florida. The site does not have a registered address, but is listed as Thornhill Road, Bartow, FL 33830 on the Polk County Property Appraiser website.

The existing land use of Parcel 25-29-03-000000-022120 is RL-1. Parcel 25-29-10-000000-011010 has split zoning, with existing land use of RL-1 on the eastern portion and A/RR on the western portion. The proposed amendment includes a change to RM and RL-4.

This application includes an Impact Assessment Statement as well as a description of this project's consistency with the Polk County Land Development Code and Polk County Comprehensive Plan. Attachments include a legal description, deed, site "bubble" plan, and map series.

The following legal descriptions were taken from the Polk County Property Appraiser for Parcels 25-29-03-000000-022120 and 25-29-10-000000-011010. A more detailed legal description for the proposed 326.92 acres development is also included.

Land and Neighborhood Characteristics

Assess the compatibility of the requested land use with adjacent properties and evaluate the suitability of the site for development. At a minimum, address the following specific questions in your response:

1. How and why is the location suitable for the proposed uses?

The proposed location currently allows residential development at a lower density than is appropriate given recent changes to the regional transportation network and in light of new development in the area. With the Polk Parkway extension bifurcating the property and including elevated overpasses with Mechanically Stabilized Earthwalls (MSE), the current land use designations of Agricultural/Rural Residential (A/RR) and the Rural Development Area (RDA) of the property and the surrounding area will change from its current feel. The land now being directly adjacent to the parkway would not likely be favorable for single family detached developments but be more in line with multi-family and single family attached (townhome) development, which is what has occurred in similarly situated areas along the Polk Parkway in other areas. Higher density developments and residential medium areas are located just to the east of the subject property.

2. What are, if any, the incompatibility and special efforts needed to minimize the differences in the proposed use with adjacent uses?

The adjacent uses are either vacant or include a few larger lot single family residential developments. The introduction of the elevated overpass will create separation with historic development to the west of the site There are natural wetland features that can serve as natural buffers along with The Land Development Code requirements that should be adequate to address buffering needs.

3. How will the request influence future development of the area?

With the introduction of the parkway extension, and existing and newer higher density residential development just to the east, it is anticipated development will transition to less rural feel and more to a higher density development feel.

Access to Roads and Highways

Assess the impact of the proposed development on the existing, planned and programmed road system, the applicant shall:

1. What is the number of vehicle trips to be generated daily and at the PM peak hour based on the latest Institute of Traffic Engineers (ITE)? Please provide a detailed methodology and calculations.

The total acreage of the site is approximately 326.92 acres. The bubble plan indicates an approximately 615Single-Family Attached dwelling units. The ITE Manual for Single-Family Attached Housing (215) generates 7.20 trips per dwelling unit daily, and 0.61 trips per dwelling unit at the PM peak hour. Therefore, the formula is as follows:

615*7.20 = 4,428 Daily Trips

615*0.61 = 376 Peak Hour Trips

The bubble plan indicates approximately 291 Multi-Family dwelling units. The ITE Manual for Multi-Family Housing (220) generates 6.74 trips per dwelling unit daily, and 0.57 trips per dwelling unit at the PM peak hour. Therefore, the formula is as follows:

291*6.74 = 1,962 Daily Trips

291*0.57 = 166 Peak Hour Trips

The total number of daily trips generated by the property is 6,390 trips. The total number of PM peak hour trips generated by the property is 542 trips.

2. What modifications to the present transportation system will be required as a result of the proposed development?

Per the Polk County Land Development Code (LDC) roadways less than 24-foot-wide will require widening along the property frontage. Thornhill Road, which lies along the north side of the property is currently 22 feet wide and will require widening along the south ROW for the length of the development. Turn lanes will also likely be required on Thornhill Road to allow access to the proposed development.

3. What is the total number of parking spaces required pursuant to Section 708 of the Land Development Code?

According to section 708 of the Polk County Land Development Code (LDC), Multi-Family (excluding townhomes) are required to provide 2.0 spaces per unit. Townhouse Developments (Single-Family attached) are required to provide 2.0 spaces per unit, excluding garages. Handicapped parking shall be provided in accordance with the Federal Americans with Disabilities Act.

4. What are the proposed methods of access to existing public roads (e.g., direct frontage, intersecting streets, and frontage roads)?

The site has access to Thornhill Road along the north property frontage. Thornhill Road is an Urban Collector with Level of Service B and 22-foot pavement width.

*NOTE: Applications for projects attributing 50 or fewer Average Annual Daily Trips (AADT) according to the latest Institute of Transportation Engineers (ITE) manual may provide a written explanation and justification of why impacts will not be significant in lieu of the required information for **"Infrastructure Impacts"** items 3 through 9 above.*

Sewage

Determine the impact caused by sewage generated from the proposed development. At a minimum, address the following specific questions in your response:

1. What is the amount of sewage in gallons per day (GPD) expected to be generated by the proposed development? (*Response may be based on Section 703.F of the LDC*)

Using Polk County standards, water and wastewater capacity application the development would generate a maximum sewage generated is estimated as follows:

906 units = 500 RECs x 2780 gpd/ERC = 135,000 GPD

2. If on-site treatment is proposed, what are the proposed method, level of treatment, and the method of effluent disposal for the proposed sewage?

Not applicable as the site does not utilize on-site systems.

3. If offsite treatment, who is the service provider?

The service provider is Polk County Utilities.

4. Where is the nearest sewer line (in feet) to the proposed development (*Sanitary sewer shall be considered available if a gravity line, force main, manhole, or lift station is located within an easement or right-of- way under certain conditions listed in Section 702E.3 of the Land Development Code*)

There is an existing sanitary sewer line located approximately 0.5 miles east of the property along Thornhill Road. New development along Thornhill Road will be extending the sanitary sewer closer to the property. At the completion of this new development, the sanitary sewer will be roughly 1500 feet from the east property line along Thornhill Road.

5. What is the provider's general capacity at the time of application?

The provider's general capacity is unknown at the time of this application. However, a capacity request was submitted and there is not an anticipation that capacity will be an issue.

6. What is the anticipated date of connection?

The anticipated date of connection is unknown at the time of this application. The date of connection will be determined based on development schedules.

7. What improvements to the providers system are necessary to support the proposed request *(e.g., lift stations, line extensions/expansions, interconnects, etc.)*?

The sanitary sewer force main line will need to be extended along Thornhill Road to provide service to the property.

<u>Water Supply</u>

Determine the amount of water to be used, how it will be distributed, and the impact on the surrounding area. At a minimum, address the following specific questions in your response:

1. What is the proposed source of water supply and/or who is the service provider?

Potable water is provided by Polk County Utilities public supply.

2. What is the estimated volume of consumption in gallons per day (GPD)? (*Response may be based on Section 703 of the LDC*)

Using Polk County standards, water and wastewater capacity application the development would generate a maximum potable demand is estimated as follows:

906 units = 610 RECs x 360 gpd/ERC = 219,600 GPD

3. Where is the nearest potable water connection and re-claimed water connection, including the distance and size of the line?

There is a 12-inch water line located to the north of the property. This water line runs along the Thornhill Road. Connection will be made to this line located along Thornhill Road.

4. Who is the service provider?

The service provider is Polk County Utilities.

5. What is the anticipated date of connection?

The anticipated date of connection is unknown at the time of this application. The date of connection will be determined based on development schedules.

6. What is the provider's general capacity at the time of application?

The provider's general capacity is unknown at the time of this application. However, a capacity request was submitted and there is not an anticipation that capacity will be an issue.

7. Is there an existing well on the property(ies)?

Yes, there are permitted wells per the Southwest Florida Water Management District's (SWFWMD) online water use permit map. These wells are described in Water Use Permit No. 20000136.006 and Water Use Permit No. 20 021135.000. Permit No. 20000136.006 is one existing 12" diameter well for withdrawal of groundwater for agricultural use. This is shown located east of the parkway extension. This well has an average withdrawal of 1400 GPD and a peak withdrawal of 4000 GPD.

Permit No. 20 021135.000 consists of one proposed 12" diameter well for withdrawal of groundwater, and forty-one proposed 2" diameter monitoring wells for mining and dewatering use. The 12" diameter well has an average withdrawal of 101,500 GPD and a peak withdrawal of 110,500 GPD. This well permit was associated with potential mining activities for the construction of the parkway extension. This work never initiated as the parkway fill was obtained from a separate site. It is not believed the wells were ever installed.

Surface Water Management and Drainage

Determine the impact of drainage on the groundwater and surface water quality and quantity caused by the proposed development. At a minimum, address the following specific questions in your response:

1. Discuss the surface water features, including drainage patterns, basin characteristics, and flood hazards, (describe the drainage of the site and any flooding issues)

The property generally slopes from northeast (about elevation 129) to west (about elevation 103 at west property line) before discharging into freshwater ponds and Lake Hancock (about elevation 98). A notable portion of the site is located within FEMA flood zone A.

2. What alterations to the site's natural drainage features, including wetlands, would be necessary to develop the project?

The proposed drainage will maintain the general flow patterns with stormwater being provided at the low end of the development area before discharging at matching pre-post rates into Lake Hancock and existing wetlands. Wetland impacts by future development would be required to meet state, regional, and local regulations by minimization and mitigation.

Environmental Analysis

Provide an analysis of the character of the subject property and surrounding properties, and further assess the site's suitability for the proposed land use classification based on soils, topography, and the presence of wetlands, floodplain, aquifer recharge areas, scrub or other threatened habitat, and historic resources, including, but not limited to:

1. Discuss the environmental sensitivity of the property and adjacent property in basic terms by identifying any significant features of the site and the surrounding properties.

Any future development on site will be required to adhere to state, regional, and local regulations regarding impacts to wetlands, floodplain, endangered species, etc.

2. What are the wetland and floodplain conditions? Discuss the changes to these features which would result from development of the site.

There are wetlands and surface water features throughout the property. A notable portion of the property is located within FEMA flood zone A. Future development will be required to adhere to state, regional, and local regulations regarding impacts to wetlands and floodplains.

3. Discuss location of potable water supplies, private wells, public well fields *(discuss the location, address potential impacts)*, and;

There is a potential agricultural well on the east parcel. This would be anticipated to be abandoned with future residential development or utilized for irrigation purposes. The Polk County GIS website does not indicate the land being within a wellfield protection district.

4. Discuss the location of Airport Buffer Zones (if any) *(discuss the location and address, potential impacts).*

The subject site does not appear to be within an Airport Buffer Zone

5. Provide an analysis of soil types and percentage of coverage on site and what effect it will have on development.

A breakdown of soil types and percent coverage of the development area is shown in **Table 1** below. The organic muck is largely confined to the wetland areas, which would be minimized in impact. The soils, with the exception of muck, are generally suitable for the proposed development, with 1.8% of the site coverage having hydrologic group A, 2.26% being group C, 6.54% group D, and 89% being group B/D.

Table 1: Soil Types and Percent Coverage on Development Site

Soil Type	Hydrologic Group	Area (Acres)	Percent Coverage
Adamsville Fine Sand	C	7.4	2.26%
Hontoon Muck	B/D	66	20.18%
Immokalee Sand	B/D	29.7	9.08%
Placid and Myakka Fine Sands	D	21.4	6.54%
Pomona Fine Sand	B/D	25.4	7.77%
Samsula Muck	B/D	70.9	21.69%
Smyrna and Myakka Fine Sands	B/D	99	30.28%
Tavares Fine Sand	A	5.9	1.80%

Infrastructure Impact Information

What is the nearest location (travel distance), provider, capacity or general response time, and estimated demand of the provision for the following services:

1. Parks and Recreation; The closet County park is Grassy Lake Park, which is located across Thornhill Road to the northeast of the site. The park is approximately 1.6 miles from the property.

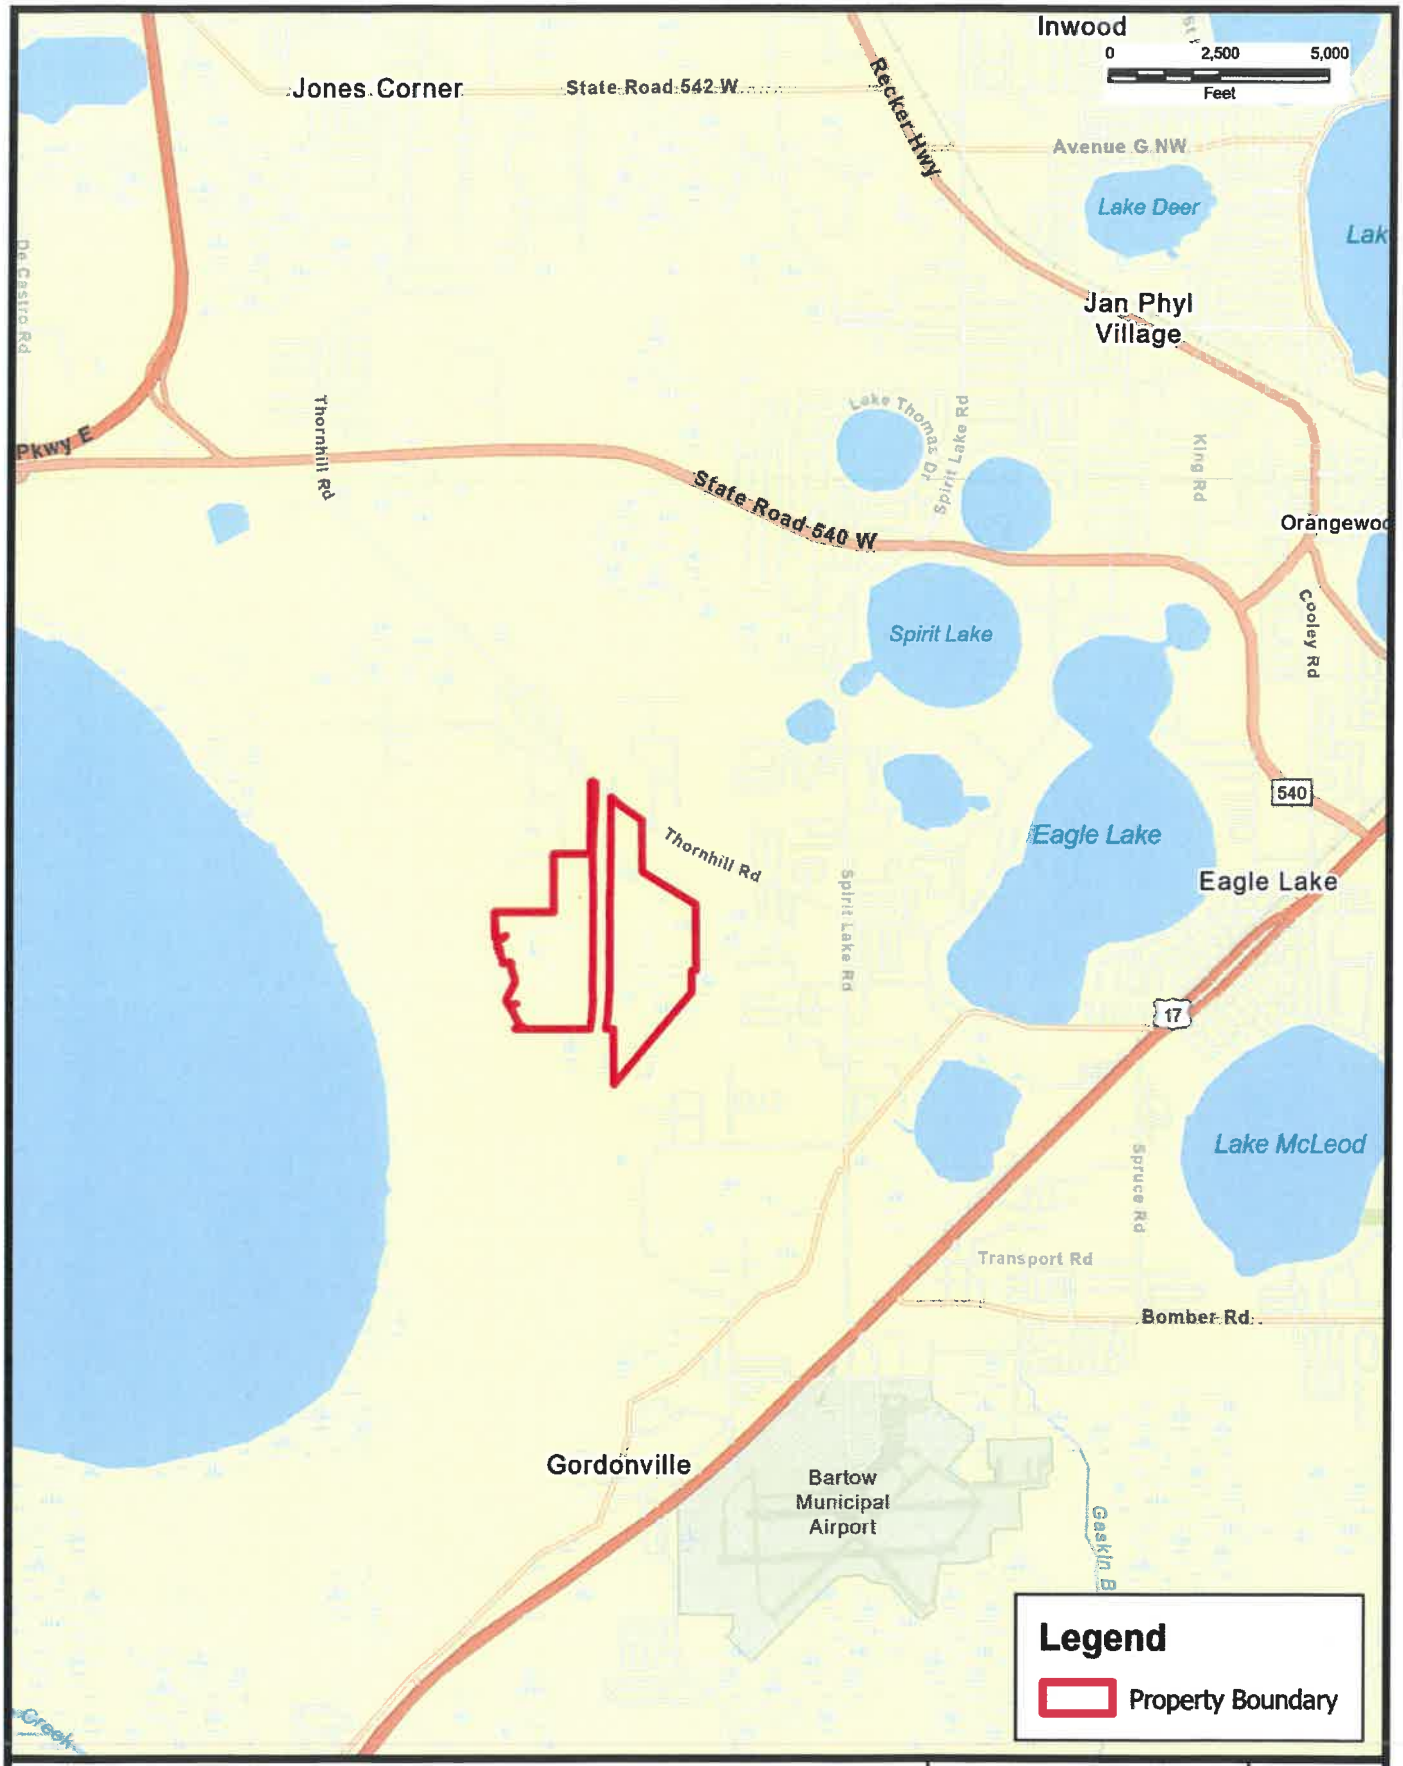
2. Educational Facilities (e.g., preschool, elementary, middle school, high school); The closest schools include Eagle Lake Elementary, a proposed Middle School, and Lake Region Senior High

School. These schools are approximately 2.5 miles, 2.2 miles, and 4 miles from the property, respectively.

3. Health Care (e.g., emergency, hospital); The nearest Hospitals are Regency Medical Center and Bartow Regional Medical Center. Regency Medical Center is approximately 6 miles from the property, while Bartow Regional Medical Center is approximately 8 miles from the property.

4. Fire Protection; The nearest fire station is Eagle Lake station (Polk County Fire Rescue Station 17), located at 185 3rd Street South, Eagle Lake 33839. The fire station is approximately 3 miles from the property.

5. Emergency Medical Services (EMS); See answer to 4 above.



6. Solid Waste (collection and waste generation); All waste is transported to the County's Landfill.

7. How may this request contribute to neighborhood needs?

This would allow for future development of more multi-family and townhome units for the area which would make available new product types to the area in support of the existing mix of new development, historic large lot development, and manufactured home developments and will increase property tax revenues from the property which has historically been under agricultural exemption. In addition, roadway improvements and utility extensions would be completed as part of future development.

Demonstration of Need

The amendment would allow higher density more appropriate to the change in land use feel the parkway extension will create. The construction of new infrastructure, like the Polk Parkway, provides new residential needs for the area to support the new traffic patterns which will allow residents to new and more convenient access to the interstate network. Large lot, single family detached developments are incompatible with these uses and areless likely to develop adjacent to an elevated parkway with MSE walls.

STUART PROPERTY - BUBBLE PLAN

December 5, 2024

Mark J. Bennett, AICP, FRA-RA, CNU-A

Experienced Professional in urban planning, zoning, and land development, both in the public and private sector. Proven leader, manager, and entrepreneur. Veteran with 30 years of military service.

Professional Goal – Create Better Communities!

Education:

Student, International Development Doctoral Program, University of Southern Mississippi (current)
Naval Postgraduate School, Monterrey, CA, Graduate Certificate - Stability, Security, and Development in Complex Operations
Royal Military College of Canada, Toronto, ON, CA, Master of Defence Studies
University of Central Florida, Orlando, FL, Master of Public Administration
University of South Florida (USF), Tampa, FL, Bachelor of Arts - Major - Geography

Memberships (Current):

American Institute of Certified Planners (AICP) - Certificate Number 11241
Florida Redevelopment Association – Certified Redevelopment Administrator (FRA-RA); Member, Board of Directors, Chair, Education and Professional Development Committee
Congress of New Urbanism - Accredited Member (CNU-A)
City of Lake Wales Code Enforcement Board
USF School of Public Affairs Master of Urban and Regional Planning Advisory Council
Polk Vision - Leadership Polk Class XV
Haines City/Northeast Polk Chamber of Commerce - Leadership Class X
Senior Army Reserve Commanders Association, Reserve Officers Association, Military Officers Association of America - Imperial Polk County Chapter, American Legion, Veterans of Foreign Wars, 1st Cavalry Division Association

Memberships (Previous):

Summerlin Academy (military-oriented public school of choice) Advisory Committee, Bartow, FL
Polk County Affordable Housing Advisory Committee
City of Lake Wales Planning Board, Community Redevelopment Agency (CRA) Advisory Committee
Polk Transportation Planning Organization – Technical Advisory Committee, Joint Airport Zoning Board
Central Florida Development Council - Investor

Professional Planner Experience:

Senior Planner, Land Development Division, Polk County Board of County Commissioners, Polk County, FL – February 2023 to Present – Conduct long-range planning, development review activities, and special projects. Previously served from February 2006 to March 2007 as a Principal Planner. Initially hired in January 1989 as a student trainee, was promoted to Planner I, II, III, and Senior Planner before leaving in January 1996.

Development Services Director, City of Lake Wales, FL - July 2020 to February 2023 - Department-level position manager responsible for planning & zoning, building permitting and inspections, code compliance, and support of the Community Redevelopment Agency (CRA) for a city of 17,000+ residents and 20 square miles. Previously served as the City Planner from July 1998 to November 2000, Acting Community Services Director from March to June 1999, and the Development Services Director from January 1996 to June 1997.

Deputy Director of Development Services/CRA Manager, City of Haines City, FL – July 2017 to July 2020 – Responsible for the City's CRA, community-development related activities, and special projects for a rapidly growing city of 25,000+ residents comprising 20 square miles. Served as Director of Development Services in absence of Director. Previously served as City Planner from November 1997 to July 1998, and Planning Manager from March 2007 to April 2015.

Planning Director/Principal, Ridge Professional Group – April 2015 to May 2017 – Responsible for all urban planning and zoning functions for an eight-employee land development consulting firm specializing in permitting and engineering design. Also, part-owner of firm, with additional duties of marketing, sales, and public relations.

Urban Planner – Bennett Consulting Services - July 2001 to February 2006 - Owner of urban planning consulting firm, specializing in subcontracting work for planning & civil engineering firms. Projects include processing Comprehensive Plan Amendments, Planned Developments, creation and implementation of annexation and sector plans, due diligence analysis for prospective land purchases, and property development potential analysis. Served as City Planner for Frostproof, FL from March to August 2005. Provided subject-matter expertise/testimony for clients before Polk County, Lake County, Lakeland, Winter Haven, and Lake Wales.

Planning Services Manager/Business Development Manager – M. T. Causley, Inc. – October 2002 to June 2003 - Contract position, responsible for urban planning services and business development activities (including sales, marketing, personnel and project management) for central Florida area.

Site Acquisition/Zoning Specialist – iTactical Services – November 2000 to October 2002 – Contract position, responsible for selection, acquisition/purchase of property, and obtaining zoning/development approval for placement of communications towers.

Zoning Specialist, SBA Communications Corporation - June to November 1997 - Responsible for siting, zoning, and permitting 20 sites to establish the Sprint PCS network in the Tampa Service Area.

Military Experience:

US Army Reserve (Retired) - April 1989 to May 2019 – Final Rank – Colonel. Key Assignments included Civil Affairs Planning Team Chief, 350th Civil Affairs Command, Pensacola, FL, with duty at US Southern Command, Doral, FL; Commander, 3rd Battalion, 349th Regiment (Logistics Support), Camp Shelby, MS; Commander, 5th Battalion, 95th Regiment, (Civil Affairs/Psychological Operations), Lubbock, TX; Civil Affairs Analyst, US Special Operations Command, MacDill Air Force Base, Tampa, FL; Battalion Executive Officer and Commander, A Company, 478th Civil Affairs Battalion, Perrine, FL; and Public Works Officer/Essential Services Team Leader, 1st Armored Division/1st Cavalry Division Governorate Support Team, Baghdad, Iraq.

Significant Awards and Decorations include the Combat Action Badge, Bronze Star (Meritorious Service) and the Parachutist Badge.

Resume of Service Career available upon request.

Hobbies/Personal Interests:

Reading, attending University of South Florida athletic events, and spending time with wife Melissa and their two children.

Agenda Item O.1. 8/19/2025

SUBJECT

Public Hearing (LDCPAS-2025-9 ECP Small Scale CPA) (Adoption Hearing) to consider the adoption of an applicant-initiated Small-Scale Comprehensive Plan Map Amendment to change the Future Land Use (FLU) designation from Town Center (TCX) to Employment Center (ECX) in the US 98 Selected Area Plan on +/- 5.45 acres. (No Fiscal Impact)

DESCRIPTION

This is an applicant-initiated Small-Scale Comprehensive Plan Map Amendment for property located south of Clubhouse Road, east of US Highway 98, west of First Street Southeast, and north of County Road 540A, north of the City of Bartow in the US 98 Selected Area Plan, in Sections 14, Township 29, and Range 24.

State law requires one Planning Commission hearing, which was held on July 9th, 2025, with a recommendation for approval with a vote of 7:0.

RECOMMENDATION

Adopt

FISCAL IMPACT

No Fiscal Impact

		Case Name:	ECP Small Scale CPA
Applicant:	Bart Allen, Peterson & Myers	**Case Planner:**	J.P. Sims, Planner II

Request:	A Future Land Use designation change from Town Center (TCX) to Employment Center (ECX) on 5.45 +/- acres.
Location:	The subject property is located south of Clubhouse Road, west of First Street Southeast, east of US Highway 98, north of County Road 540A, in the US 98 Selected Area Plan, north of Bartow city limits, in Sections 14, Township 29, and Range 24.
Property Owner:	ADM Florida Properties LLC
Parcel Size/number:	5.45 +/- acres (Parcel #242914-000000-011010, 242914-283000-030510)
Development Area:	Transit Supportive Development Area (TSDA)
Nearest Municipality:	City of Lakeland
DRC Recommendation:	Approval
Planning Commission Vote:	Approval (7-0)
Public Comment:	None
Florida Commerce*	N/A

Location Map

Current Future Land Use Map

Summary

The applicant, Bart Allen, of Peterson and Myers Law Firm, is requesting a Small-Scale Comprehensive Plan Amendment to change the Future Land Use Designations from Town Center (TCX) to Employment Center (ECX) on 5.45-acre parcels of property in the Transit Supportive Development Area (TSDA), TCCO Corridor in Center, and the US 98 Selected Area Plan (SAP). Site is located south of Clubhouse Road, west of First Street Southeast, east of US Highway 98, and north of County Road 540A, north of Bartow city limits, in Sections 11, Township 29, and Range 24.

Compatibility Summary

This request will be compatible with the surrounding area as US Highway 98 is an Urban Collector, which promotes a diversity of uses. It has Residential Medium (RMX) surrounding the subject site to the east, while north, south, and west are Town Center (TCX). All properties are developed in some capacity. There is currently a Culver's quick service restaurant and a vacant warehouse developed on the site, with single family residences to the east and a McDonald's restaurant to the north. Per the applicant, the proposed change reflects the fact the property has never developed in conjunction with the primary node of the Town Center. Moreover, the property is not of sufficient size or shape to take advantage of the TCX uses. As a result, the requested change will maintain the ability to develop with uses supporting and complementary to the larger TCX area.

Infrastructure Summary

The subject site is within the Lakeland Utilities Service Area for both water and sewer. This was confirmed by the Utilities GIS. The road with access, Clubhouse Road, is an Urban Collector maintained by Polk County, where there is available capacity with close proximity to US Highway 98. Mass transit is available in the area with the Silver Line from Citrus Connection on Bartow Highway with a stop directly adjacent to the site. Public safety response times are normal for this part of the County, and school capacity should not be an issue in the future as the applicant is looking to construct only one additional home. The request is compatible with the available infrastructure.

Environmental Summary

The nearest neighborhood park is Highland City Park 0.5 miles southwest of the site driving, and the nearest regional Park is Banana Lake Park 1.5 miles driving to the west of the subject site. The site is entirely comprised of Candler Sand. There are no wetlands or flood zone on site.

Comprehensive Plan

The relevant sections of the Comprehensive Plan that are applicable to the project request:

- Policy 2.102(A1-A15): Growth Management Policies
- Policy 2.102-A10 Location Criteria
- Policy 2.104(A1-A7): Transit Supportive Development Area (TSDA)
- Policy 2.131-RA4: DEVELOPMENT CRITERIA FOR MODIFIED LAND USE CATEGORIES – Town Center
- Policy 2.131-RA4: DEVELOPMENT CRITERIA FOR MODIFIED LAND USE CATEGORIES – Employment Center

Findings of Fact

Request and Legal Status

- This is an applicant-initiated request for the Future Land Use designation change from Town Center (TCX) to Employment Center (ECX).

- The subject site is in the US Highway 98 which promotes a diverse development of lands along the corridor.

- The subject site is already developed with a Culver's quick service restaurant and a vacant warehouse.

Compatibility

- The existing uses surrounding the site are:
    - North – TCX; McDonald's quick service restaurant
    - West – TCX; various commercial uses including a church and business
    - East – RMX; single family residential
    - South – TCX; undeveloped

Infrastructure

- The zoned schools for the site are Highland City Elementary, Bartow Middle, and Bartow Senior High School.

- Polk County Fire Rescue Station 28 will be the response unit for fire and EMS for this site. It is located at 4101 Clubhouse Road in Highland City, with an approximate travel distance of 0.3 miles.

- The subject site is within the Sheriff Department's Southwest District. The Southwest District Office is located at 4120 US Highway 98 South in Lakeland.

- The subject site is within the Lakeland Utilities Service Area for both water and sewer.

- Clubhouse Road has sidewalks along its entirety from west to east. There are sidewalks along US Highway 98.

- The closest mass transit route is the Silver Line with Citrus Connection. The closest bus stop to the subject site is on US Highway 98 south of the Clubhouse Road intersection.

- The nearest neighborhood park is Highland City Park 0.5 miles southwest of the site, and the nearest regional Park is Banana Lake Park 1.5 miles to the west of the subject site.

Environmental

- The subject site is relatively flat with a high elevation of 119 feet on the southeast side of the site and a low of 116 feet on the northwest side of the site.

- There are no wetlands or flood zone on site.

- The soil type for the site is 100% Candler Sand.

- According to Polk County Endangered Habitat Maps, the subject site is not located within a one-mile radius of an observation of a protected animal species (Source: Florida Department of Environmental Protection, 2015).

- There are no known archeological or historical resources on the subject site per data from the Florida State Historical Commission.

- There are no wells on the subject site and it is not located in a wellfield.

- The site is not within an Airport Impact District.

- On the Polk Green Map, site does show in the Potential Network Connection. However, site and area around is partially developed with residential uses and slated for commercial uses so is most likely not a viable connection spot.

Comprehensive Plan Policies

- POLICY 2.102-A1 Development Location states that Polk County shall promote contiguous and compact growth patterns through the development process to minimize energy costs, conserve land, water, and natural resources, minimize the cost of services, and prevent development patterns where tracts of land are by-passed in favor of development more distant from services and existing communities.

- POLICY 2.102-A2 Compatibility states that land shall be developed so that adjacent uses are compatible with each other, pursuant to the requirements of other Policies in this Future Land Use Element, so that one or more of the following provisions are accomplished: a.

there have been provisions made which buffer incompatible uses from dissimilar uses; b. incompatible uses are made to be more compatible to each other through limiting the intensity and scale of the more intense use; c. uses are transitioned through a gradual scaling of different land use activities through the use of innovative development techniques such as a Planned Unit Development.

- POLICY 2.102-A3 Distribution states that development shall be distributed throughout the County consistently with this Future Land Use Element so that the public utility, other community services, and public transit and transportation systems can be efficiently utilized; and compact, high-density and intensity development is located where urban services can be made available.

- POLICY 2.102-A4 Timing states that development of land shall be timed and staged in conjunction with the cost-effective and efficient provision of supporting community services which, at a minimum, shall require compliance with the Plan's Level of Service requirements and the County's concurrency management system.

- POLICY 2.102-A10 Location Criteria states the following factors shall be taken into consideration when determining the appropriateness of establishing or expanding any land use or development area:
  a. nearness to incompatible land uses and future land uses, unless adequate buffering is provided;
  b. nearness to agriculture-production areas;
  c. distance from populated areas;
  d. economic issues, such as minimum population support and market-area radius (where applicable);
  e. adequacy of support facilities or adequacy of proposed facilities to be provided by the time of development, including, but are not limited to:
     1. transportation facilities, including but not limited to, mass transit, sidewalks, trails and bikeways;
     2. sanitary sewer and potable water service;
     3. storm-water management;
     4. solid waste collection and disposal;
     5. fire protection with adequate response times, properly trained personnel, and proper fire-fighting equipment;
     6. emergency medical service (EMS) provisions; and
     7. other public safety features such as law enforcement;
     8. schools and other educational facilities
     9. parks, open spaces, civic areas and other community facilities
  f. environmental factors, including, but not limited to:
     1. environmental sensitivity of the property and adjacent property;
     2. surface water features, including drainage patterns, basin characteristics, and flood hazards;
     3. wetlands and primary aquifer recharge areas;
     4. soil characteristics;
     5. location of potable water supplies, private wells, public well fields; and
     6. climatic conditions, including prevailing winds, when applicable.

- POLICY 2.104-A1: DESCRIPTION - Transit Supportive Development Areas shall meet the following criteria:

    - a.be those areas where the availability of infrastructure and other community facilities and services, including, but not limited to mass transit and other transportation alternatives, utilities, public safety, recreational and educational services, promotes and supports the location of higher density and intensity compact, mixed use development;
    - b.be supported by existing or planned urban type services that are programmed or expected for the 10-year planning horizon;
    - c.be designated as part of a coordinated land use and transportation strategy that supports the provision of improved and expanded transit services, as identified in the Transportation Planning Organization (TPO) 2060 Transportation Vision Plan and the connecting circulator routes, in order to increase mobility and travel options;
    - d. include development criteria that:1.promote the development of walkable communities which include a balance between employment opportunities, mix of complementary uses and activities, and a range of housing opportunities;2.improve access to employment areas, schools, shopping and recreational opportunities;

- POLICY 2.104-A2: DESIGNATION AND MAPPING - The Future Land Use Map Series shall designate and map TSDAs for those areas of the County meeting the general characteristics of this Section 2.104.

- POLICY 2.104-A3: LAND USE CATEGORIES - The following land use categories shall be permitted within TSDAs, in accordance with applicable criteria

    - ACTIVITY CENTERS: Regional Activity Centers, Community Activity Centers, Neighborhood Activity Centers, Convenience Centers, Tourism Commercial Centers, Employment Centers and High-Impact Commercial Centers.
    - RESIDENTIAL: Residential-High, Residential-Medium, and Residential-Low Districts.
    - OTHER: Linear Commercial Corridors, Commercial Enclaves, Industrial, Business-Park Centers, Office Centers, Leisure Recreation, Mixed Use, Institutional, Professional Institutional, Recreation and Open Space, Preservation.

    - Note: Some land use categories are only allowed in adopted Selected Area Plans, special areas or neighborhood plans as specified in the definitions in Section 2.109.

- POLICY 2.104-A4: OVERLAY DISTRICTS - All overlay Districts shall be permitted within TSDAs and UGAs in accordance with applicable criteria.

- POLICY 2.104-A5: DEVELOPMENT CRITERIA - Development within the Transit Supportive Development Areas shall conform to the following criteria as further specified by the Land Development Code:

    - provide access to transit facilities;
    - connect to centralized potable water and sanitary sewer systems;

- incorporate design features that promote healthy communities and green building practices, as established in Section 2.1251, Community Design, of this element;
- implement "Complete Street" and "Conservation Development" principles as established under Section 2.1251, Community Design, of this element;
- integrate pedestrian-oriented features, including sidewalks, trails or walkways into every development including appropriate pedestrian shelters or awnings;
- provide access to civic space, parks, green areas, and open space and other amenities;
- g.be supported by public safety (i.e., fire, EMS and law enforcement);
- have access to public schools;
- provide connectivity with adjacent uses within the TSDA, and facilitate connectivity between the TSDA and other urban centers and the rural development areas.
- encourage the inclusion of a variety of housing choices, other than single family detached homes, townhomes, condominiums, and residential units in mixed use buildings by establishing minimum densities that preclude the exclusive use of single family detached units within designated areas as established in Policy 2.104-A7.

- POLICY 2.104-A6: GENERAL INCENTIVES - Polk County shall encourage and promote compact, mixed-use by allowing:

  - increased densities and intensities within the Transit Corridors and Centers Overlay District subject to Policy 2.104-A7; and
  - increased densities for affordable or workforce housing subject to Policy 2.104-A7.

- POLICY 2.104-A7: DENSITIES AND INTENSITIES - To promote energy efficient land use patterns and compact mixed-use development, the TSDA and the Transit Corridors and Centers Overlay (TCC Overlay) within the TSDA shall include higher densities and intensities of development. The maximum densities and intensities listed in Table 2.104.1 exceed those listed in Policy 2.109-A1 and Policy 2.119-A1 and the policies that include the description for each of the referenced land use category as provided for within this Element. The Mixed Use category within Tables 2.104.1 and 2.104.2 is for those non-residential land use categories that permit residential as provided for in this Element or the Appendices for the Selected Area Plans (SAP). The Transit Corridors and Centers Overlay includes three separate components that expand the residential density of selected Future Land Use Districts. These three components as depicted in Figure 1. include:

  - Transit Corridor - an area within ¼ mile of fixed route transit service;
  - Transit Center - an area within a one mile radius of the point of access for transit services; and
  - Transit Center Core - an area within ¼ mile of the point of access for transit services.
  - Maximum densities are established within the TSDA and the respective components of the Transit Corridors and Centers Overlay as listed in Table 2.104.1. The maximum densities are not guaranteed within the respective land use categories and shall only be permitted subject to the requirements established in Policy 2.104-A5 Development Criteria and Policy 2.124-A3 Design Principles. Table 2.104.1

also includes recommended minimum densities to support future investments in public transportation. These recommended minimum densities may be required under the Land Development Code to coincide with planned public or private sector transit investments. Residential projects with less than the recommended minimum density will be encouraged to include a site design that allows for project phasing in order to preserve the maximum development potential of the subject parcel(s).

- POLICY 2.131-RA4: DEVELOPMENT CRITERIA FOR MODIFIED LAND USE CATEGORIES
    - F. EMPLOYMENT CENTER (ECX) - The Employment Center is an Activity Center designed to allow light assembly, office and research parks, low impact commercial, and other business uses to serve southeastern Lakeland and northwestern Bartow populations, as well as the educational campuses of the University of South Florida, Polk Community College, and Travis Vocational Technical Center.
        - 1.DESIGNATION AND MAPPING - The Employment Center is designated on the Future Land Use Map Series as "Employment Center X" (ECX).
        - 2.GENERAL CHARACTERISTICS - The ECX in this SAP is intended to accommodate the employment and functional needs of the college and vocational school campuses and the residents living within the area between the cities of Bartow and Lakeland along the US Highway 98 corridor. The ECX will generally contain uses that will generate employment as well as support facilities for the users and employees of the area. General (approximate) characteristics of the Employment Center Xs are:
            - (a)Gross Leasable Area (GLA): 100,000—500,000 square feet, on average,
            - (b)Minimum Population Support: 20,000,
            - (c)Market Area Radius: 3+ miles,
            - (d)Typical Tenants: Services to the universities and colleges, bookstores, offices, light assembly, warehousing, distribution centers, research firms, development firms, medical clinics, convenience stores, restaurants, professional offices, financial institutions, recreational uses, communication facilities, High-Density Residential, hotel/motel, and uses that support or directly relate to the college campuses and the development of a research park, including personal services.
        - 3.DEVELOPMENT CRITERIA - Development within an ECX shall conform to the following criteria:
            - (a) Access to parcels shall be by an internal road system, frontage roads, cross-access easements, shared ingress/egress access easements, or some combination of these. New individual driveways accessing US Highway 98 will be permitted in compliance with FDOT requirements for this facility (US Highway 98 CAMP).
            - (b) Different uses shall incorporate the use of shared ingress/egress facilities consistent with this SAP.

- (c) Parking shall be provided to meet the needs of the uses in an efficient manner that best suits the community collectively through optional methods such as shared parking and permeable surface parking design.
- (d) Interior traffic-circulation patterns shall facilitate the safe movement of vehicular, bicycle, and pedestrian traffic.
- (e) Buffering that meets the County development standards as set forth in the Land Development Code shall be provided where effects of lighting, noise, odors, and other such factors would adversely impact adjacent land uses.
- (f) Light industrial uses which include at least 50% office space, assemble products, and conduct research and development, but do not manufacture any products shall be permitted without a Local Planning Agency review.
- (g) The maximum FAR shall be 0.70. Higher FARs will be allowed through bonus points per the Land Development Code for a total of 1.5.
- (h) Commercial and personal services are limited to 30 percent of the ECX district. The maximum floor area ratio for commercial uses shall be 0.60 but higher FARs may be allowed for a total of 75 percent with bonus points.
- (i) All development shall provide adequate access and amenities for mass-transit services.
- (j) Development within this land use designation shall incorporate pedestrian oriented design to allow safe access from the surrounding parking area and adjacent residential.
- (k) Residential uses shall be limited to High-Density Residential as a primary use up to 25 percent of the ECX district. Location of residential units above non-residential uses shall be encouraged by not considering such units against the maximum residential percentages and densities if the residential is an accessory use.
- (l) Warehouse uses which include at least 50 percent office space or office is the principal use shall be permitted without a Local Planning Agency review.

- H. TOWN CENTER - The Town Center is the primary cultural and entertainment district for the overall community especially for Highland City. It is not intended for any other town Centers to be located within this SAP.
    - 1.DESIGNATION AND MAPPING - Town Centers are established as designated on the Future Land Use Map Series as - Town Center@ (TCX) for this SAP.
    - 2.GENERAL CHARACTERISTICS - The Town Center will include dining, cafes, bars and pubs, retail, boutiques, music venues, professional office, and multi-family residential. The Town Center shall include a community focus such as a park, plaza, or lakefront. The Town Center will exist and grow as a mixed-use area along specific urban design guidelines. The district is

envisioned to be designed as a harmonious grouping of buildings that include cohesive architecture, and pedestrian spaces.

- 3.DEVELOPMENT GUIDELINES - Development within the Town Center shall conform to the following criteria:
  - a. Development proposals of ten acres or more shall provide a central focal feature such as a park or square;
  - b. Residential development shall be apartment-style or townhouse-style;
  - c. Loading docks, utility facilities, car washes, and storage areas shall not be visible from any abutting rights-of-way;
  - d. Parking lots shall be specifically prohibited between the building and US Highway 98;
  - e. US Highway 98 shall be lined with pedestrian-oriented features which are constructed in a uniform arrangement.
  - f. Signs shall be monument-style or building-mounted; pole signs shall be specifically prohibited.
  - g. Developments shall have a consistent streetscape style;
  - h. Pedestrian walkways shall be integrated into every development including appropriate pedestrian shelters or awnings;
  - i. Residential uses shall be limited at Special Residential densities as a primary use up to 25 percent of the TCX district. Location of residential units above non-residential uses shall be encouraged by not considering such units against the maximum residential percentages and densities if the residential is an accessory use.

Development Review Committee Recommendation: Based on the information provided by the applicant, recent site visits, and the analysis conducted within this staff report, the Development Review Committee finds that with the proposed conditions, the proposed request **IS COMPATIBLE** with the surrounding land uses and general character of the area, **IS CONSISTENT** with the Polk County Comprehensive Plan and Land Development Code, and therefore, the Development Review Committee (DRC) recommends **APPROVAL of LDCPAS 2025-9.**

Planning Commission Recommendation: On July 9th, 2025, in an advertised public hearing, the Planning Commission voted 7:0 to **recommend APPROVAL of LDCPAS-2025-9.**

NOTE: *This staff report was prepared without the benefit of testimony and evidence submitted by the public and other interested parties at a public hearing.*

NOTE: *All written comments made in the application and subsequent submissions of information made during the application review process, which are on file with the Land Development Division, shall be considered to be binding upon the applicant, provided such comments are not at variance with the Comprehensive Plan, LDC or other development regulations in effect at the time of development.*

NOTE: *Issuance of a development permit by the county does not in any way create any rights on the part of the applicant to obtain a permit from a state or federal agency and does not create any liability on the part of the county for issuance of the permit if the applicant fails to obtain requisite*

approvals or fulfill the obligations imposed by a state or federal agency or undertakes actions that result in a violation of state or federal law.

Analysis
This section of the staff report includes data on the surrounding uses, infrastructure conditions, environmental conditions, and related Comprehensive Plan policies and Land Development Code regulations.

Surrounding Uses
Table 1 identifies the Future Land Use (FLU) designations and the existing uses surrounding the subject site that are immediately adjacent.

Table 1 Surrounding Uses

Northwest TCX; Highland City Publix Plaza	**North** TCX; McDonald's QSR	**Northeast** TCX; multifamily residential
West TCX; various commercial uses	**Subject Site** TCX; Culver's QSR and vacant warehouse	**East** RMX; single family residential
Southwest TCX; various commercial uses	**South** RMX; single family residential	**Southeast** RL-4X; single family residential

Source: Polk County Geographical Information System and site visit by County staff

Compatibility with the Surrounding Uses

According to *Policy 2.102-A2* of Polk County's Comprehensive Plan, "land shall be developed so that adjacent uses are compatible with each other, pursuant to the requirements of other policies in this Future Land Use Element, so that one or more of the following provisions are accomplished: a. there have been provisions made which buffer incompatible uses from dissimilar uses; b. incompatible uses are made to be more compatible to each other through limiting the intensity and scale of the more intense use; and c. uses are transitioned through a gradual scaling of different land use activities through the use of innovative development techniques such as a Planned Unit Development." The "development criteria" and the "density and dimensional regulations" of a land use district are often the measuring tools used by staff to determine compatibility and the appropriateness of locating differentiating uses. Compatibility is defined in the Comprehensive Plan as "a condition in which land uses or conditions can coexist in relative proximity to each other in a stable fashion over time such that no use or condition is unduly negatively impacted directly or indirectly by another use or condition."

A. Land Uses

The purpose of TSDA's is to serve as a foundation from which a future urban pattern is established, and to provide areas for development at urban densities and intensities. TSDA's are areas within the County that, at a minimum, are currently served, or are programmed within the applicable Comprehensive Plan Capital Improvement Program to be served within the next ten years by County owned, municipal, or County franchised central sanitary sewage and potable water systems. TSDA's are also supported by, or programmed to be supported by, other services typically

found to accompany urban development such as public safety services, an urban road network, and developed parks.

The request is a Future Land Use designation that is compatible with the surrounding area. In Section 2.131-RA4 of the Land Development Code, Employment Center is allowed within the US 98 Selected Area Plan and TSDA, and it can include many different types of commercial developments.

B. Infrastructure

The subject site is within the Lakeland Utilities Service Area for both water and sewer. The Utilities GIS confirms that the water lines surround the subject site along Clubhouse Road. The parcel accesses onto Clubhouse Road, an Urban Collector, that connects to US Highway 98, a Principal Arterial. There is available transportation capacity on both roads. Public safety response times are normal for this part of the County. While there is capacity within the schools, this area has many approved projects currently in development which could alter that capacity. However, this site is expected to remain commercial, so no student generation should occur. The request is compatible with the available infrastructure.

Nearest Elementary, Middle, and High School

The schools zoned for the subject property are the zoned schools listed in Table 2 below. Per the requirements in Chapter 7 of the Land Development Code, the applicant will have to work out capacity for any development request with the school board. However, this site is expected to remain commercial, so no student generation should occur.

Table 2 School Information

Name of School	Annual Estimated Demand	% Capacity 2022-2023 School Year	Average driving distance from subject site
Highland City Elementary School	**0 student**	**77%**	**0.3 miles**
Bartow Middle School	**0 student**	**96%**	**7 miles**
Bartow Senior High School	**0 student**	**81%**	**6.4 miles**

Source: Polk County School Board, Polk County Impact Fee Ordinance, GIS

Nearest Sheriff, Fire, and EMS Station

Table 3 below displays that the nearest Sheriff District office and Fire/EMS stations. Sheriff response times are not as much a function of the distance to the nearest sheriff's substation, but more a function of the overall number of patrol officers within the County.

Table 3 Public Safety Information

	Name of Station	Distance Response Time*
Sheriff	**Southwest District Command Unit (**4120 US Highway 98 South, Lakeland, FL)	10.9 +/- miles Priority 1 – 9:29 Priority 2 – 26:04
Fire/ EMS	**Station #28** (4101 Clubhouse Road, Highland City, FL)	0.3 +/- miles

Source: Polk County Sheriff's Office & Polk County Fire Rescue. Response times for March 2025.

Water and Wastewater

A. Estimated Demand

The subject site is within the City of Lakeland's Utility Service Area for potable water and sewer. The proposed ECX would potentially use more water and wastewater than the current land use of TCX.

Table 4 Estimated Water and Sewer Impact Analysis

Permitted Intensity	**Maximum Permitted in Existing Land Use TCX**	**Maximum Allowable in Proposed ECX**
5.45 +/-acres **237,402 sq ft**	**5.45 acres = 237,402 sq ft** **X 0.35 FAR = 83,091 sq ft**	**5.45 +/- acres X 237,402 sq ft** **X 0.70 FAR = 166,181 sq ft**
Potable Water Consumption	**83,091 sq ft X 0.15 GPD =** **12,464 GPD**	**166,181 sq ft X 0.24 GPD =** **39,884 GPD**
Wastewater Generation	**12,464 GPD X 80% =** **9,971 GPD**	**39,884 GPD X 80% =** **31,907 GPD**

Source: Concurrency Manual: Town Center (TC) uses Supermarket and Grocery Store as LDA with 0.35 FAR and 0.15 GPD/sf, Employment Center uses General Offices as LDA with 0.70 FAR and 0.24/sf, and 80% of water for wastewater.

B. Service Provider

The subject site is within the City of Lakeland's Utility Service Area for water and sewer. There is a Distribution Main Line for water that runs northwest to southeast along Third Street Southeast, which is east of the subject site. There are no wastewater lines that appear on the Utilities GIS, but the Impact Assessment Statement provided by the applicant indicates it will use pre-existing wastewater lines being used by the development on site.

C. Available Capacity

Information is not available for capacity as the water and wastewater is handled by City of Lakeland Utilities.

D. Planned Improvements

There are no improvements planned at this time.

Roadways/Transportation Network

A. Estimated Demand

Table 5, following this paragraph, shows the Average Annual Daily Trip (AADT) rate and the PM Peak hour trip rate. The Future Land Use change may result in higher trips.

Table 5 Estimated Transportation Impact Analysis

Permitted Intensity	**Maximum Permitted in Existing Land Use TCX**	**Maximum Allowable in Proposed ECX**
5.45 +/-acres **237,402 sq ft**	**5.45 +/- acres = 237,402 sq ft** **X 0.35 FAR = 83,091 sq ft / 1000 = 83 sf**	**5.45 +/- acres = = 237,402 sq ft** **X 0.70 FAR = 166,181 sq ft / 1000 = 166 sq ft**
Average Annual	**83 sq ft X 60.06 AADT =** **3,792 Trips (76% New Trips)**	**166 sq ft X 10.84 AADT =** **1,656 Trips (92% New Trips)**
PM Peak	**83 sf X 8.95 PM Peak =** **565 Trips (76% New Trips)**	**166 sq ft X 1.44 PM Peak =** **239 Trips (92% New Trips)**

Source: Concurrency Manual and Table for Minor Traffic Study –Supermarket LDA at 60.06 AADT and 8.95 PM Peak Hours (76% new trips), and General Office Building LDA at 10.84 AADT and 1.44 Peak Hours (92% new trips).

B. Available Capacity

The roads surrounding the subject site have sufficient PM Peak capacity available for a commercial development. There is currently a Culver's restaurant and vacant warehouse developed on the site. The table after this paragraph provides the current PM Peak Hour capacities of the nearby road links.

Table 6					
Link #	**Road Name**	**Current LOS**	**Available Capacity**	**Minimum LOS Standard**	**Projected Five Year LOS**
8423E	CLUBHOUSE ROAD EAST (FIRST STREET) to (US 98)	C	610	D	C
8423W		C	603	D	C
5406N	US 98 (SR 540 (WINTER LAKE ROAD) to SR 570 (POLK PARKWAY)	C	1013	D	C
5406S		C	932	D	C
Source: Polk Transportation Planning Organization, Roadway network Database 2023					

C. Roadway Conditions

Clubhouse Road is an Urban Collector with available capacity in both directions. US Highway 98 is maintained by the state so conditions are not tracked by Polk County. The condition of the roadways and the LOS change over time. The conditions are addressed when development accesses a road during the Level 2 Review. LOS is a tool that can limit the intensity of a development.

D. Sidewalk Network

There are sidewalks running west to east along Clubhouse Road, and there are sidewalks that run north to south along the east side of US Highway 98 west of the subject site.

E. Planned Improvements:

There are currently no planned County improvements along any of the traffic links.

F. Mass Transit

The closest mass transit route is the Silver Line with Citrus Connection, with the closest stop being on US Highway 98 south of the Clubhouse Road intersection, adjacent to the south of the site.

Park Facilities:

The following analysis is based on public recreation facilities.

A. Location:

The nearest neighborhood park is Highland City Park 0.5 miles southwest of the site driving, and the nearest regional Park is Banana Lake Park 1.5 miles driving to the west of the subject site.

B. Services:

Highland City Park has a baseball complex, playground, and open pavilion space. Banana Lake Park has picnic areas, a playground, a walking trail, boat ramp, and a fishing pier.

C. Multi-use Trails:

The closest free hiking trail is the Fort Fraser Trail which is adjacent to the southwest of the subject site. The site will be required to provide a connection to this trail.

D. Environmental Lands:

This site contains no County owned environmental lands. The closest environmental lands to the site is the Circle B Bar Reserve which is 1.38 +/- miles to the northeast of the subject site.

E. Planned Improvements:

There are no further recreation improvements scheduled for this area of the County at this time.

Environmental Conditions

The site is entirely comprised of Candler Sand, which is suitable for building.

A. Surface Water:

There is no surface water on the subject site. On the Polk Green Map, site does show in the Potential Network Connection. However, site and area around is partially developed with residential uses and slated for commercial uses so is most likely not a viable connection spot. The site is almost flat with a low of 116 feet in the northwest corner and a high of 119 feet in the southeast corner.

B. Wetlands/Floodplains:

There are no wetlands or floodplains on the subject site. There is Flood Zone AE to the north of the subject site.

C. Soils:

The subject site is comprised of a mix of soil types as listed in Table 8 following this paragraph. According to the soil survey of Polk County, the soil is 100% Candler Sand which is suitable for most construction.

Table 8

Soil Name	**Septic Tank Absorption Field Limitations**	**Limitations to Dwellings w/o Basements**	**% of Site** *(approximate)*
Candler sand (21)	Slight	Slight	100%

*Source: Soil Survey of Polk County, Florida, USDA, Soil Conservation Service *Because of poor filtration, ground water contamination is a hazard in many areas that have a concentration of homes with septic tanks.*

D. Protected Species

According to the Florida Biodiversity Matrix GIS application, no threatened or endangered plant or animal species exist on the site. If any are discovered, the applicant shall properly protect the specie(s) or mitigate any impacts consistent with federal, state, and local law.

E. Archeological Resources:

According to the Florida Department of State, Division of Historical Resources, there are no archeological sites listed in the Florida Master Site File.

F. Wells (Public/Private)

The subject site is not located in a Wellfield Protection District and does not have any wells on site. The site will be connecting to water from City of Lakeland Utilities. The closest Well site is 0.47 miles to the southeast of the subject site.

G. Airports:

The site is not within an Airport Impact District.

Economic Factors:

There are no known economic factors that would impact the development of this site.

Consistency with the Comprehensive Plan
Many policies within the Comprehensive Plan are reviewed for consistency with an application. The most relevant policies for the proposed request are included in this section. The policy is first stated and then an analysis of how the request is provided to state that it may or may not be consistent with the Comprehensive Plan. How the request is **consistent** with the Comprehensive Plan is listed below:

Table 8 Comprehensive Plan and Land Development Code

Comprehensive Plan Policy	Consistency Analysis
POLICY 2.102-A2: COMPATIBILITY - Land shall be developed so that adjacent uses are compatible with each other, pursuant to the requirements of other Policies in this Future Land Use Element, so that one or more of the following provisions are accomplished: a. there have been provisions made which buffer incompatible uses from dissimilar uses; b. incompatible uses are made to be more compatible to each other through limiting the intensity and scale of the more intense use; c. uses are transitioned through a gradual scaling of different land use activities through the use of innovative development techniques such as a Planned Unit Development.	The Comprehensive Plan permits a variety of different Future Land Use designations in urban areas and contribute to a combination of mixed uses. Employment Center (ECX) would be compatible with the surrounding area of TCX and RL-4X.

Comprehensive Plan Policy	Consistency Analysis
POLICY 2.102-A1: DEVELOPMENT LOCATION – Polk County shall promote contiguous and compact growth patterns through the development process to minimize energy costs, conserve land, water, and natural resources, minimize the cost of services, and prevent development patterns where tracts of land are by-passed in favor of development more distant from services and existing Communities.	The lands surrounding the subject site are already detached single family homes to the east, with commercial uses to the west, south, and north. City of Lakeland Utilities are available in this area for water and wastewater. This request is consistent with this policy.
POLICY 2.102-A4: TIMING - The development of land shall be timed and staged in conjunction with the cost-effective and efficient provision of supporting community services which, at a minimum, shall require compliance with the Plan's Level of Service requirements and the County's concurrency management system.	The timing is consistent with the growth in the area as the surrounding sites to the north and south are already being used for commercial purposes. There is ample connectivity to water and electricity. Fire is close by with low response times, while Sheriff is close enough to not be an issue. None of the three schools that are zoned for the site are at capacity. The overall parcel does not contain wetlands or floodplains. The site is developed with a quick service restaurant and vacant warehouse, and is surrounded by compatible uses.
POLICY 2.102-A10: LOCATION CRITERIA - The following factors shall be taken into consideration when determining the appropriateness of establishing or expanding any land use or development area: a. nearness to incompatible land uses and future land uses, unless adequate buffering is provided, b. nearness to agriculture-production areas; c. distance from populated areas; d. economic issues, such as minimum population support and market-area radius (where applicable);e. adequacy of support facilities or adequacy of proposed facilities to be provided by the time of development, including, but are not limited to: 1. transportation facilities, including but not limited to, mass transit, sidewalks, trails and bikeways; 2.sanitary sewer and potable water service; 3. storm-water management; 4. solid waste collection and disposal; 5. fire protection with adequate response times, properly trained personnel, and proper fire-fighting equipment; 6. emergency medical service (EMS) provisions; and 7. other public safety features such as law enforcement; 8. schools and other educational facilities 9. parks, open spaces, civic areas and other community facilities, f. environmental factors, including, but not limited to: 1. environmental sensitivity of the property and adjacent property; 2. surface water features, including drainage patterns, basin characteristics, and flood hazards; 3. wetlands and primary aquifer recharge areas; 4. soil characteristics; 5. location of potable water supplies, private wells, public well fields; and 6. climatic conditions, including prevailing winds, when applicable.	

Comprehensive Plan Policy	Consistency Analysis
• POLICY 2.104-A1: DESCRIPTION - Transit Supportive Development Areas shall meet the following criteria: o a.be those areas where the availability of infrastructure and other community facilities and services, including, but not limited to mass transit and other transportation alternatives, utilities, public safety, recreational and educational services, promotes and supports the location of higher density and intensity compact, mixed-use development; o b.be supported by existing or planned urban type services that are programmed or expected for the 10-year planning horizon; o c.be designated as part of a coordinated land use and transportation strategy that supports the provision of improved and expanded transit services, as identified in the Transportation Planning Organization (TPO) 2060 Transportation Vision Plan and the connecting circulator routes, in order to increase mobility and travel options; o d. include development criteria that:1.promote the development of walkable communities which include a balance between employment opportunities, mix of complementary uses and activities, and a range of housing opportunities;2.improve access to employment areas, schools, shopping and recreational opportunities; • POLICY 2.104-A2: DESIGNATION AND MAPPING - The Future Land Use Map Series shall designate and map TSDAs for those areas of the County meeting the general characteristics of this Section 2.104. • POLICY 2.104-A3: LAND USE CATEGORIES - The following land use categories shall be permitted within TSDAs, in accordance with applicable criteria o ACTIVITY CENTERS: Regional Activity Centers, Community Activity Centers, Neighborhood Activity Centers, Convenience Centers, Tourism Commercial Centers, Employment Centers and High-Impact Commercial Centers. o RESIDENTIAL: Residential-High, Residential-Medium, and Residential-Low Districts. o OTHER: Linear Commercial Corridors, Commercial Enclaves, Industrial, Business-Park Centers, Office Centers, Leisure Recreation, Mixed	Employment Center is an allowable use in the TSDA and US 98 SAP. There is ample infrastructure available in the area to support this land use with connections to water and sewer connections through City of Lakeland. Sidewalks run north to south along the nearby US Highway 98 and west to east along Clubhouse Road. Clubhouse Road is an Urban Collector Road with available capacity. There are emergency services, parks, education, mass transit, and higher density residential development close by to the northeast. The subject site sits within the Transit Corridor Center which allows for higher density developments.

Comprehensive Plan Policy	Consistency Analysis
Use, Institutional, Professional Institutional, Recreation and Open Space, Preservation. o Note: Some land use categories are only allowed in adopted Selected Area Plans, special areas or neighborhood plans as specified in the definitions in Section 2.109. • POLICY 2.104-A4: OVERLAY DISTRICTS - All overlay Districts shall be permitted within TSDAs and UGAs in accordance with applicable criteria. • POLICY 2.104-A5: DEVELOPMENT CRITERIA - Development within the Transit Supportive Development Areas shall conform to the following criteria as further specified by the Land Development Code: o provide access to transit facilities; o connect to centralized potable water and sanitary sewer systems; o incorporate design features that promote healthy communities and green building practices, as established in Section 2.1251, Community Design, of this element; o implement "Complete Street" and "Conservation Development" principles as established under Section 2.1251, Community Design, of this element; o integrate pedestrian-oriented features, including sidewalks, trails or walkways into every development including appropriate pedestrian shelters or awnings; o provide access to civic space, parks, green areas, and open space and other amenities; o g.be supported by public safety (i.e., fire, EMS and law enforcement); o have access to public schools; o provide connectivity with adjacent uses within the TSDA, and facilitate connectivity between the TSDA and other urban centers and the rural development areas. o encourage the inclusion of a variety of housing choices, other than single family detached homes, townhomes, condominiums, and residential units in mixed use buildings by establishing minimum densities that preclude the exclusive use of single family detached units within designated areas as established in Policy 2.104-A7.	

Comprehensive Plan Policy	Consistency Analysis
• POLICY 2.104-A6: GENERAL INCENTIVES - Polk County shall encourage and promote compact, mixed-use by allowing: o increased densities and intensities within the Transit Corridors and Centers Overlay District subject to Policy 2.104-A7; and o increased densities for affordable or workforce housing subject to Policy 2.104-A7. • POLICY 2.104-A7: DENSITIES AND INTENSITIES - To promote energy efficient land use patterns and compact mixed-use development, the TSDA and the Transit Corridors and Centers Overlay (TCC Overlay) within the TSDA shall include higher densities and intensities of development. The maximum densities and intensities listed in Table 2.104.1 exceed those listed in Policy 2.109-A1 and Policy 2.119-A1 and the policies that include the description for each of the referenced land use category as provided for within this Element. The Mixed Use category within Tables 2.104.1 and 2.104.2 is for those non-residential land use categories that permit residential as provided for in this Element or the Appendices for the Selected Area Plans (SAP). The Transit Corridors and Centers Overlay includes three separate components that expand the residential density of selected Future Land Use Districts. These three components as depicted in Figure 1. include: o Transit Corridor - an area within ¼ mile of fixed route transit service; o Transit Center - an area within a one mile radius of the point of access for transit services; and o Transit Center Core - an area within ¼ mile of the point of access for transit services. o Maximum densities are established within the TSDA and the respective components of the Transit Corridors and Centers Overlay as listed in Table 2.104.1. The maximum densities are not guaranteed within the respective land use categories and shall only be permitted subject to the requirements established in Policy 2.104-A5 Development Criteria and Policy 2.124-A3 Design Principles. Table 2.104.1 also includes recommended minimum densities to support future investments in public transportation. These recommended minimum densities may be required under the Land Development Code to coincide with planned public or private sector transit investments. Residential projects with less than the recommended minimum density will be encouraged to include a site	

Comprehensive Plan Policy	Consistency Analysis
design that allows for project phasing in order to preserve the maximum development potential of the subject parcel(s).	
o F. EMPLOYMENT CENTER (ECX) - The Employment Center is an Activity Center designed to allow light assembly, office and research parks, low impact commercial, and other business uses to serve southeastern Lakeland and northwestern Bartow populations, as well as the educational campuses of the University of South Florida, Polk Community College, and Travis Vocational Technical Center. 1.DESIGNATION AND MAPPING - The Employment Center is designated on the Future Land Use Map Series as "Employment Center X" (ECX). 2.GENERAL CHARACTERISTICS - The ECX in this SAP is intended to accommodate the employment and functional needs of the college and vocational school campuses and the residents living within the area between the cities of Bartow and Lakeland along the US Highway 98 corridor. The ECX will generally contain uses that will generate employment as well as support facilities for the users and employees of the area. General (approximate) characteristics of the Employment Center Xs are: • (a)Gross Leasable Area (GLA): 100,000—500,000 square feet, on average, • (b)Minimum Population Support: 20,000, • (c)Market Area Radius: 3+ miles, • (d)Typical Tenants: Services to the universities and colleges, bookstores, offices, light assembly, warehousing, distribution centers, research firms, development firms, medical clinics, convenience stores, restaurants, professional offices, financial institutions, recreational uses, communication facilities, High-Density Residential, hotel/motel, and uses that support or directly relate to the college campuses and the development of a research park, including personal services. 3.DEVELOPMENT CRITERIA - Development within an ECX shall conform to the following criteria: • (a) Access to parcels shall be by an internal road system, frontage roads, cross-access easements, shared ingress/egress access easements, or some combination of these. New individual driveways accessing US Highway 98 will be permitted in	The subject site is currently designated as Town Center (TCX) in the US 98 SAP, which is also an allowable use in the TSDA and abuts appropriate land uses. The site already has a quick service restaurant and vacant warehouse developed on it and is abutting single family residences to the east. Commercial uses are abutting the site to the north, west, and south. ECX allows for a higher FAR of 0.70 than TCX does with a limit of 0.35, so a development could be almost twice as large in ECX as in TCX. The applicant has indicated that their desire to change this to ECX stems from wanting it to develop independent of the rest of the TCX, but still retain similar uses such as restaurants and other commercial uses.

Comprehensive Plan Policy	Consistency Analysis
compliance with FDOT requirements for this facility (US Highway 98 CAMP). • (b) Different uses shall incorporate the use of shared ingress/egress facilities consistent with this SAP. • (c) Parking shall be provided to meet the needs of the uses in an efficient manner that best suits the community collectively through optional methods such as shared parking and permeable surface parking design. • (d) Interior traffic-circulation patterns shall facilitate the safe movement of vehicular, bicycle, and pedestrian traffic. • (e) Buffering that meets the County development standards as set forth in the Land Development Code shall be provided where effects of lighting, noise, odors, and other such factors would adversely impact adjacent land uses. • (f) Light industrial uses which include at least 50% office space, assemble products, and conduct research and development, but do not manufacture any products shall be permitted without a Local Planning Agency review. • (g) The maximum FAR shall be 0.70. Higher FARs will be allowed through bonus points per the Land Development Code for a total of 1.5. • (h) Commercial and personal services are limited to 30 percent of the ECX district. The maximum floor area ratio for commercial uses shall be 0.60 but higher FARs may be allowed for a total of 75 percent with bonus points. • (i) All development shall provide adequate access and amenities for mass-transit services. • (j) Development within this land use designation shall incorporate pedestrian oriented design to allow safe access from the surrounding parking area and adjacent residential. • (k) Residential uses shall be limited to High-Density Residential as a primary use up to 25 percent of the ECX district. Location of residential units above non-residential uses shall be encouraged by not considering such units against the maximum residential percentages and densities if the residential is an accessory use. • (l) Warehouse uses which include at least 50 percent office space or office is the principal use shall be permitted without a Local Planning Agency review.	

Urban Sprawl Analysis

After analyzing the primary indicators of Urban Sprawl per *Policy 2.109-A10* of the Polk County Comprehensive Plan, it is apparent that the proposed request is not considered urban sprawl based on these criteria and it is permitted in the designated area. Table 9 (below) depicts the Urban Sprawl Criteria used by staff as indicators of Urban Sprawl.

Table 9 Urban Sprawl Criteria

Urban Sprawl Criteria: The following criteria are the primary indicators of urban sprawl per Florida Statutes	
Urban Sprawl Criteria	**Sections where referenced in this report**
a. *Promotes substantial amounts of low-density, low-intensity, or single use development in excess of demonstrated need.*	Summary of analysis
b. *Allows a significant amount of urban development to occur in rural areas.*	Summary of analysis
c. *Designates an urban development in radial, strip isolated, or ribbon patterns emanating from existing urban developments.*	Summary of analysis, surrounding Development, compatibility
d. *Fails to adequately protect and conserve natural resources and other significant natural systems.*	Summary of analysis, surrounding Development, compatibility
e. *Fails to adequately protect adjacent agricultural areas.*	Compatibility with Surrounding Land Uses
f. *Fails to maximize existing public facilities and services.*	Summary of Analysis, Infrastructure
g. *Fails to minimize the need for future facilities and services.*	Summary of Analysis, Infrastructure
h. *Allows development patterns that will disproportionately increase the cost of providing public facilities and services.*	Summary of Analysis, Infrastructure
i. *Fails to provide a clear separation between urban and rural uses.*	Summary of Analysis, Compatibility with Surrounding Land Uses
j. *Discourages infill development or redevelopment of existing neighborhoods.*	Summary of Analysis, Compatibility with Surrounding Land Uses
k. *Fails to encourage an attractive and functional mixture of land uses.*	Summary of Analysis, Compatibility with Surrounding Land Uses
l. *Will result in poor accessibility among linked or related land uses.*	Summary of Analysis, Compatibility with Surrounding Land Uses
m. *Results in the loss of a significant amount of open space.*	Summary of Analysis, Compatibility with Surrounding Land Uses

ORDINANCE NO. 25 -____

AN ORDINANCE OF THE POLK COUNTY BOARD OF COUNTY COMMISSIONERS REGARDING THE ADOPTION OF AMENDMENT **LDCPAS-2025-9;** AN AMENDMENT TO THE POLK COUNTY COMPREHENSIVE PLAN; ORDINANCE 92-36, AS AMENDED TO CHANGE THE FUTURE LAND USE DESIGNATION ON +/- 5.5 ACRES FROM TOWN CENTER (TCX) TO EMPLOYMENT CENTER (ECX), IN THE TRANSIT SUPPORTIVE DEVELOPMENT AREA (TSDA) AND US 98 SELECTED AREA PLAN. THE SUBJECT SITE IS LOCATED SOUTH OF CLUBHOUSE ROAD, EAST OF US HIGHWAY 98, WEST OF FIRST STREET SOUTHEAST, NORTH OF HANCOCK AVENUE, AND NORTHWEST OF THE CITY OF BARTOW, IN SECTION 14, TOWNSHIP 29, RANGE 24, PROVIDING FOR SEVERABILITY; AND PROVIDING FOR AN EFFECTIVE DATE.

WHEREAS, pursuant to Article VIII, Section I(g) of the Constitution of the State of Florida and the Community Planning Act, Chapter 163, Part II, Florida Statutes (FS), as amended, (the Act) Polk County is authorized and required to adopt a Comprehensive Plan (Plan); and

WHEREAS, Section 163.3187, FS, and Comprehensive Plan Section 4.305.B, provides for the approval of Small-Scale Comprehensive Plan Amendments; and

WHEREAS, pursuant to Section 163.3174, FS, the Local Planning Authority (Planning Commission) conducted a public hearing, with due public notice having been provided, on the proposed Plan revisions on July 9th, 2025; and

WHEREAS, pursuant to Section 163.3187(2), FS, the Board of County Commissioners conducted an adoption public hearing, with due public notice having been provided, on the proposed Plan revisions on August 19th, 2025; and

WHEREAS, the Board of County Commissioners, reviewed and considered all comments received during said public hearing, and provided for necessary revisions; and

NOW THEREFORE, BE IT ORDAINED by the Polk County Board of County Commissioners:

SECTION 2: COMPREHENSIVE PLAN AMENDMENT

The Future Land Use Map of Ordinance No. 92-36, as amended, (the "Polk County Comprehensive Plan") is hereby amended to reflect a change in the Future Land Use designation on a +/- 5.45 acres site from Town Center (TCX) to Employment Center (ECX), in the Transit Supportive Development Area (TSDA) and US 98 Selected Area Plan on the parcel listed below and graphically depicted on the parcel map in Attachment "A".

SECTION 3: SEVERABILITY

If any provision of this Ordinance is held to be illegal, invalid, or unconstitutional by a court of competent jurisdiction the other provisions shall remain in full force and effect.

SECTION 4: EFFECTIVE DATE

This ordinance shall be effective on September 20th, 2025 (31 days after adoption), unless the amendment is challenged. If challenged, the effective date of this ordinance shall be the date a Final Order is issued by the Department of Economic Opportunity or Administration Commission finding the amendment in compliance in accordance with Section 163.3184 (1)(b), Florida Statutes. No development orders, development permits, or land uses dependent upon this amendment, as described on the attached map of proposed land uses, may be issued or commence before it has become effective.

SECTION 5: LEGAL DESCRIPTION:

SECTION 6: FILING WITH THE DEPARTMENT OF STATE:

The Clerk and Auditor to the Board of County Commissioners of Polk County, Florida, shall file a certified copy of this ordinance with the Department of State, through the Secretary of State, upon adoption by the Board of County Commissioners of Polk County, Florida.

ADOPTED, in open session of the Polk County Board of County Commissioners with a quorum present and voting this August 19th, 2025.**ATTACHMENT "A"**

LDCPAS-2025-9
Development Area: Transit Supportive Development Area (TSDA)
Location: South of Clubhouse Road, east of US Highway 98, west of First Street Southeast, north of Hancock Avenue, and northwest of the city of Bartow.
Section-14 Township-29 Range-24

PARCEL DETAIL

Note: Not to Scale

Explanation of Request and Justification

The applicant is requesting a Small Scale Comprehensive Plan Map Amendment to change the future land use designation from Town Center- X (TCX) to Employment Center-X (ECX) on approximately five and one-half (5.5) acres of property. See attached exhibits included with the application. The Property Owner and Applicants have developed or are developing a number of uses on the property, including a fast casual restaurant with drive thru, and are proposing similar uses on the balance of the parcels. The proposed change reflects the fact the property has never developed in conjunction with the primary node of the Town Center. Moreover, the property is not of sufficient size or shape to take advantage of the TCX uses. As a result, the requested change will maintain the ability to develop with uses supporting and complementary to the larger TCX area.

An additional consideration in the design of the site, relates to maximizing the opportunity to draw from the existing vehicular traffic on US 98. Therefore, the proposed site will be designed to ensure the project related traffic moves south off of Clubhouse Road, at the existing signalized intersection. The project will not have direct access to US 98.

Finally, the proposed project is consistent with all of the locational criteria and policies for the Employment Center (ECX) future land use policies in the US 98 Selected Area Plan. A brief analysis of the relevant provisions is provided.

A. Transit Supportive Development Area Policies

The Polk County Comprehensive Plan provides guidance to identify the appropriate locations for the various land use designations available. Specifically, Under Policy 2.104-A3 of the Polk County Comprehensive Plan, Employment Centers are a permitted land use in the Transit Supportive Development Area (TSDA). Policy 2.104-A9 explicitly requires Employment Center as only available within an adopted Selected Area Plan. The subject property meets both location criteria. In addition, the site is adjacent to a Citrus Connection bus stop (Highland City at Central Ave SE) pursuant to Policy 2.104-A5(a.) of the Comprehensive Plan.

B. Employment Center X Policies

The general characteristics referenced in Policy 2.131-RA4(F)(2) of the Comprehensive Plan for Employment Center X (ECX) districts describes the uses as accommodating the functional services, commercial, and employment needs of the area. The subject property is in close proximity of the site to Polk State College (+/-2.3 miles) and Travis Technical College (3.1 miles). In addition, the site can provide commercial uses to residential districts to the east and south of the site and those utilizing US 98.

The Property Owner and Applicants have developed or are developing several uses on the property, including a fast casual restaurant with drive thru, oil change, and other similar uses pursuant to Policy 2.131-RA4(F)(2)(d) of the Comprehensive Plan and allowed pursuant to Allowable Uses identified in Table 4.12 of the County's Land Development Code which will support or directly relate to the needs of the area. This is consistent with the development pattern and integration of ECX and TCX districts at the northeast corner of the US 98 and Clubhouse

Road. Further, the Comprehensive Plan and Land Development code identify and prescribe certain development criteria relative shared access, buffering, parking, and other issues to establish compatible development with the adjacent TCX districts and existing residential to the east. All other site-specific requirements will be fully addressed at Level 2.

Impact Assessment Statement

A. Land and Neighborhood Characteristics: to assess the compatibility of the requested land use district with the adjacent property and to evaluate the suitability of the site for development, the applicant shall:

1. Show how and why is the site suitable for the proposed uses;

The applicant is requesting a Small Scale Comprehensive Plan Map Amendment to change the future land use designation from Town Center- X (TCX) to Employment Center-X (ECX) on approximately 5.5 acres of property. See attached exhibits included with the application. The Property Owner and Applicants have developed or are developing a number of uses on the property, including a fast casual restaurant with drive thru and proposing similar uses on the balance of the site. The proposed change reflects the fact the property has never developed in conjunction with the primary node of the Town Center. Moreover, the property is not of sufficient size or shape to take advantage of the TCX uses. As a result, the requested change will maintain the ability to develop with uses supporting and complementary to the larger TCX area.

2. Provide a site plan showing each type of existing and proposed land use;

See attached Future Land Use Map.

3. Describe any incompatibility and special efforts needed to minimize the differences in the proposed use with adjacent uses;

Please see narrative provided above. With the location of the project along US Hwy 98, the site specific landscaping and buffering required by the Polk County Land Development Code adequately ensures that the proposed request is compatible with adjacent uses and entitlements in the area. The Applicant will take any and all reasonable and necessary steps to minimize impacts to the properties surrounding the requested land use map amendment.

4. Explain how the requested district may influence future development patterns if the proposed change is located in an area presently undeveloped;

The proposed change does not introduce a new activity in the area and is consistent and supportive of the future development pattern. The proposed land use change is an incremental expansion of the existing business park activity, north of the site. This proposed request maximizes the opportunity to utilize the existing rail line and the existing infrastructure in place.

5. Describe each of the uses proposed in a Planned Development and identify the following:

a. The density and types of residential dwelling units;

b. The type of commercial and industrial uses;

c. The approximate customer service area for commercial uses;

d. The total area proposed for each type of use, including open space and recreation

The Property is not within a Planned Development. Any development of the Property would be consistent with the Polk County Land Development Code, the Polk County Comprehensive Plan, and proposed site specific development criteria.

B. Access to Roads and Highways: to assess the impact of the proposed development on the existing, planned and programmed road system, the applicant shall:

1. Calculate the number of vehicle trips to be generated daily and at PM peak hour based on the latest ITE or provide a detailed methodology and calculations;

Traffic counts and road impacts will be addressed at Level 2 once a specific site plan is established.

2. Indicate what modifications to the present transportation system will be required as a result of the proposed development;

The Property will utilize the ingress/egress only from Bella Vista Street. It is anticipated minor transportation improvements will be required for ingress/egress of the site. The specific intersection types will be will be fully addressed at Level 2.

3. List the total number of parking spaces and describe the type of parking facilities to be provided in the proposed development;

The proposed development shall provide the requisite number of parking spaces required by the Polk County Land Development Code, which will be determined at Level 2 based on the actual square footages of the buildings constructed.

4. Indicate the proposed methods of access to the existing public roads (e.g., direct frontage, intersecting streets, frontage roads); and

The property has frontage on US Hwy 98, Clubhouse Road, and 3rd Street SE. Ingress and Egress will be designed to move traffic to the existing signalized intersection. It is anticipated minor transportation improvements will be required for ingress/egress of the site. The specific intersection types will be will be fully addressed at Level 2.

5. Indicate the modes of transportation, other than the automobile, that have been considered (e.g., pedestrian, bicycle, bus, train or air) and describe the modes.

The site has access to the Fort Frasier Trail and pedestrian access will be further evaluated at Level 2.

C. Sewage: to determine the impact caused by sewage generated from the proposed development, the applicant shall:

1. Calculate the amount of sewage in gallons per day (GPD) expected to be generated by the proposed development;

Based on theoretical development potential of the property as TCX, we do not anticipate any change in sewage generation as a result of the change to ECX.

2. Describe the proposed method and level of treatment, and the method of effluent disposal for the proposed sewage treatment facilities if on-site treatment is proposed;

The Property will connect to existing public utilities from City of Lakeland.

3. Indicate the relationship of the proposed sewage system to Polk County's plans and policies for sewage treatment systems;

Any proposed system will be designed in conjunction with the applicable utility department and the appropriate standards.

4. Identify the service provider; and

The Property will connect to existing public utilities from City of Lakeland.

5. Indicate the current provider's capacity and anticipated date of connection.

Capacity and the date of connection will be more fully understood and addressed at Level 2.

D. Water Supply: to determine the amount of water to be used, how it will be distributed, and the impact on the surrounding area, the applicant shall:

1. Indicate the proposed source of water supply and, the type of treatment;

The Property will connect to existing public utilities from City of Lakeland.

2. Identify the service provider;

The Property will connect to existing public utilities from City of Lakeland.

3. Calculate the estimated volume of consumption in gallons per day (GPD); and

Based on theoretical development potential of the property as TCX, we do not anticipate any change in potable water consumption as a result of the change to ECX.

4. Indicate the current provider's capacity and anticipated date of connection

Capacity and the date of connection will be more fully understood and addressed at Level 2.

E. Surface Water Management and Drainage: to determine the impact of drainage on the groundwater and surface water quality and quantity caused by the proposed development, the applicant shall:

1. Discuss the impact the proposed development will have on surface water quality;

The stormwater management system for the project site will be designed to meet regulatory requirements that will ensure adequate BMPs are instituted. The property does not have any areas of concern and surface water quality will not be negatively impacted by the development.

2. Describe the alteration to the sites natural drainage features, including wetland, that would be necessary to develop the project;

There are no state or federal jurisdictional wetlands or surface water features located within the project site.

3. Describe the impact of such alterations on the fish and wildlife resources of the site;

Based on the available GIS information, there are no state or federally jurisdictional wetland or surface water features or other bodies of open water identified within the project site. No significant impact to existing wildlife resources is anticipated from the project.

4. Describe local aquifer recharge and groundwater conditions and discuss the changes to these water supplies which would result from development of the site.

No change is anticipated.

F. Population: to determine the impact of the proposed developments additional population, the applicant shall:

1. Calculate the projected resident (and transient) population of the proposed development and the generated population in the case of commercial or industrial uses;

Indeterminable at this time.

2. Describe, for commercial and industrial projects, the employment characteristics including the anticipated number of employees, type of skills or training required for the new jobs, the percentage of employees that will be found locally or are expected to be drawn from outside the county or state, and the number of shifts per day and employees per shift;

Based on theoretical development potential of the property as TCX, we do not anticipate any change in in employment characteristics as a result of the change to ECX.

3. Indicate the expected demographic composition of the additional population (age/socio-economic factors); and

Indeterminable at this time.

4. Describe the proposed service area and the current population thereof.

Indeterminable at this time.

G. General Information: to determine if any special needs or problems will be created by the proposed development, the applicant shall:

1. List and discuss special features of the proposed development that promote desirability and contribute to neighborhood needs; and

The proposed future land use map amendment would allow for the parcel to be developed consistent with the other non-residential activities in the area.

2. Discuss the demand on the provision for the following services:

a. Parks and Recreation;

None.

b. Educational Facilities (preschool/elementary/middle school/high school);

None.

c. Health Care (emergency/hospital);

None.

d. Fire Protection;

Indeterminable at this time.

e. Police Protection and Security; and

Indeterminable at this time.

f. Electrical Power Supply

Indeterminable at this time.

H. Maps: the following maps shall accompany all Impact Assessment Statements:

Map A: A location map showing the relationship of the development to cities, highways, and natural features;

See attached Location Map

Map B: A Topographical Map with contour intervals of no greater than five feet, the identification of the property boundaries, and a delineation of the areas of special flood hazard (100 year flood plain) as shown on the Flood Insurance Rate Maps issued by the Federal Emergency Management Agency (FEMA) for Polk County;

See attached Topographical Map.

Map C: A Land Use and Land Use District Map showing the existing land use designations and districts on and abutting the proposed development, including lot sizes and density;

See attached Future Land Use Map (current and requested).

Map D: A Soils Map with soils designated according to Natural Resources Conservation Service classifications. If available, USDA Natural Resources Conservation Service (NRCS) soil surveys are preferable;

See attached Soils Map

Map E: A Traffic Circulation Map identifying any existing roads on or adjacent to the proposed development and indicating the name of the roads, maintenance jurisdiction, and pavement and right-of-way widths.

See attached Concept Plan.

Map F: A Site Plan showing land uses, the layout of lots, the type and maximum density for each type of residential area; the typical minimum lot sizes and dimensions for each use and unit type, and the dimensions, locations, and types of buffers, easements, open space areas, parking and loading areas, setbacks, and vehicular circulation routes; and

See attached Concept Plan.

Map G: A Drainage Map delineating existing and proposed drainage areas, water retention areas, drainage structures, drainage easements, canals, wetlands, watercourses, and other major drainage features.

A Drainage Map is not available at this time, as we do not have any engineered plans to evaluate the proposed location of stormwater ponds, buildings, impervious surface, etc.

INSPECTOR GENERAL AUDIT REPORT

Report #2025-10: Summary of Cash Control Reviews

The Honorable Board of County Commissioners

We have conducted reviews of all Divisions of Polk County Board of County Commissioners that handled cash, checks, or credit cards. For those programs with findings, we followed up to assure that weaknesses in internal control were addressed sufficiently to protect County revenues.

Our audit objectives were to determine the adequacy of controls over cash handling, verify the accuracy of recorded revenue, and observe the safekeeping of assets. The scope of our audits included review of internal controls, walkthrough of operations with key employees, interviews of staff, and evaluations of procedures, policies, and controls. We also performed unannounced cash counts and reviewed cash receipt documentation.

We greatly appreciate the cooperation and assistance provided by division staff and management during the course of our reviews, and their prompt action to address potential issues. All initial findings were corrected promptly upon follow-up.

We hope you find this report useful in ensuring that Polk County government provides the best possible services to our residents.

Respectfully submitted,

_____

Lita McHugh, CPA, CIG, CIGI
Inspector General

Results

Our review of cash controls focused on all programs where employees handled cash, credit cards, or checks to collect funds on behalf of the County. We referred to the memo "Internal Controls for Cash Receipts and Revenue" prepared by the Clerk's office that was previously communicated to County employees as a reference for best practices.

Overall, most programs implemented good internal controls, to include:

- separation of incompatible duties by using different employees,
- accurate recording of fees collected,
- timely provision of receipts to customers,
- restrictive endorsement of checks received,
- safeguarding and prompt deposit of funds collected,
- monitoring by management of over and short amounts.

We communicated observations and recommendations to management via individual reports for each Division. Management for each program provided action plans to address findings, if any, providing the name of the responsible employee and a target date.

We followed up with the Divisions where there were findings or recommendations. All programs successfully implemented the proposed actions plans to mitigate any internal control issues found during our review.

A summary of the areas we visited and the types of issues noted is below.

Conclusion:

Overall, BoCC Divisions generally follow best practices in the handling of cash, checks, and credit cards.

For those programs where the IG found potential weakness, management responded timely to observations and recommendations.

INSPECTOR GENERAL AUDIT REPORT

Report #2025-06: Residential Waste Assessments (Audit 2024-13)

The Honorable Board of County Commissioners

We have conducted an audit of the Polk County 2024 Residential Waste Assessment Roll.

Our audit objective was to assure that parcels are properly assessed in compliance with ordinances 2013-069 and 2024-054, and with resolution 2024-172.

We appreciate the cooperation and assistance provided by the Solid Waste Division as well as the Property Appraiser during the course of our audit.

We hope you find this report useful in ensuring that Polk County government provides the best possible services to our residents.

Respectfully submitted,

_____

Lita McHugh, CPA, CIG, CIGI
Inspector General

Approved:

Stacy M. Butterfield, CPA
Clerk of the Circuit Court and County Comptroller

Background

The Department of Inspector General (IG) of the Polk County Clerk and Comptroller completed an audit of the 2024 Residential Waste Program Services Assessments roll. The roll lists all residential units subject to annual waste collection and disposal assessments. This roll is prepared by the Property Appraiser and communicated to the Polk County Solid Waste Division, for residential service, and to the Tax Collector for inclusion on the property tax roll. Our audit determined that, overall, current administrative controls provide sufficient assurance that only residential parcels benefiting from Residential Waste Program Services are assessed.

Ordinance 13-069 authorizes the BoCC to levy non-ad valorem assessments against parcels with residential dwelling units in unincorporated areas, in order to provide waste collection and disposal services. The amount of the assessment is determined annually, via a formal rate resolution approved by the BoCC each year. Resolution No. 24-172 set forward the rates for the 2024/25 fiscal year. Assessments are included in the annual ad valorem tax bill for residents within the assessment area. Payments from customers are collected by the Polk County Tax Collector then remitted to the BoCC. The 2024 Waste Services Assessment Roll listed 157,050 parcels containing 161,975 units. Total Collection Assessments were $42,795,414.75 and Disposal Assessments were $11,824,175.

Scope and Methodology

The scope of our audit included an examination of a statistical sample of parcels on the 2024 Residential Waste Services Assessment Roll. Our audit was designed to test the 2024 roll to determine if administrative controls were sufficient to ensure compliance with Polk County ordinance 13-069 and with Florida Statutes.

We audited several different subpopulations of the assessment roll to identify parcels that were potentially assessed inaccurately:

- Tested a random, statistical sample from all 157,050 parcels of the assessment roll.
- Reviewed the nonconforming population for errors. This consisted of commercially zoned property, previously zoned residential, that has been "grandfathered" to be used as residential property (175 parcels).
- Tested vacant residential parcels with assessments to determine if the assessment is proper (54 parcels).
- Tested parcels with a vacant Department of Revenue (DOR) code, assessed but with no mobile home account and no permit (16 parcels).
- Tested parcels with a vacant DOR code, an associated mobile home record, and assessments (272 parcels).
- Tested a statistical sample from the Property Appraiser's list of 2,434 parcels with a vacant DOR code, assessments, and a building permit record in 2024 or 2025.

- Reviewed a list of demolished properties obtained from the Building Division to determine if either the houses were either reconstructed or the assessments were removed.

Our audit was conducted in accordance with the *Global Internal Audit Standards* of The Institute of Internal Auditors and the *Principles and Standards for Offices of Inspector General* of the Association of Inspectors General. Accordingly, it included such tests of records and other auditing procedures as we considered necessary in the circumstances.

Results

Overall, current administrative controls were effective to ensure that only residential parcels benefiting from Residential Waste Program Services are placed on the residential assessment roll. There are no prior audit findings that required follow-up. We detected no errors by Solid Waste Division in our testing of the 2024 residential waste assessment roll.

Observation:

The Solid Waste Division cannot make changes to residential waste services roll but relies on the Property Appraiser's records to assess collection and disposal fees. The two county offices communicate regularly regarding changes to parcel classifications.

During our testing, we reviewed records for commercially zoned parcels, previously zoned residential, now "grandfathered" as residential. These parcels are termed "nonconforming". In order to maintain residential classification and receive residential waste services, it is necessary for the parcels to have a unit that can be considered a living structure.

During testing of nonconforming parcels, we identified 38 parcels that did not appear to contain any residential structures based on aerial views of the property. Most of these properties appeared to be used strictly for business purposes. We narrowed this list down to 29 parcels for in-person site visits. Results from the site visits further narrowed the list to 18 properties that we asked the Office of Planning & Development to review using their extensive tools. In the end, OPD staff agreed with us that 17 of those 18 parcels should no longer be considered residential and should be reclassified from nonconforming to commercial.

Recommendation:

Incorrect classification of parcels as residential, when the use is actually commercial, may result in collection of less property taxes and fire assessments for the County. Some of the parcels had commercial waste collection containers onsite and thus were paying twice for waste collection.

We will provide information on the 17 parcels to the Property Appraiser for reconsideration of the parcel classification.

Agenda Item R.4. 8/19/2025

SUBJECT

Establish Holiday and Board meeting schedule for 2026.

DESCRIPTION

The proposed holiday schedule follows the adopted Board policy. The policy provides ten (10) holidays annually.

The Polk County Charter requires the Board to provide, by Resolution, the location, time and place for holding all regular meetings of the Board of County Commissioners, outlined in Article 2, Section 2.7 of the Polk County charter.

RECOMMENDATION

Request Board approve the holiday and Board meeting schedule for 2026.

FISCAL IMPACT

No Fiscal Impact.

PERFORMANCE BOND Bond No. 0270161

KNOWN ALL MEN BY THESE PRESENTS, that We, Stanley Martin Homes, LLC, as Principal, and Berkley Insurance Company, a corporation organized and doing business under and by virtue of the laws of the State of Delaware and duly licensed to conduct surety business in the State of Florida, as Surety ("Principal" and "Surety" collectively the "Obligors"), are held and firmly bound unto Polk County, a political subdivision of the State of Florida (the "County"), as Obligee, in the sum of One Million Six Hundred Seven Thousand One Hundred Twenty Six and 84/100 ($ 1,607,126.84) Dollars, for which payment, well and truly to be made, we bind ourselves, our heirs, executors and successors, jointly and severally as well as severally only for the purpose of allowing a joint action or actions against any or all of us.

WHEREAS, the County's Land Development Code (hereinafter "LDC") is by reference incorporated into and made part of this Performance Bond (hereinafter "Bond"); and

WHEREAS, the Principal has agreed to construct the improvements described in the Engineer's Cost Estimate, attached hereto as Exhibit "A" and incorporated into and made part of this Bond (hereinafter "Improvements"), in the Bimini Bay Townhomes platted subdivision (the "Subdivision"), in accordance with the drawings, plans, specifications, and other data and information (hereinafter "Plans") filed with the County's Land Development Division, which Plans are by reference incorporated into and made part of this Bond; and

WHEREAS, the LDC requires the Principal to provide and maintain full performance security guaranteeing the completion and approval of all private or public on-site or off-site Improvements.

NOW, THEREFORE, the conditions of this Bond are such that:

1. If the Principal shall well and truly construct the Improvements in the Subdivision in accordance with the Plans and LDC by July 2, 2026 (the "Guaranty Period"), as verified by Polk County's Land Development Division, then upon approval by the Obligee this Bond shall be null and void.

2. The Surety unconditionally covenants and agrees that if the Principal fails to complete all or any part of the Improvements within the Guaranty Period, the Surety, upon written notice from the Obligee, its authorized agent or officer, of the default, shall forthwith perform and complete the Improvements and pay the cost thereof, including without limitation, engineering, legal, and contingent costs.

3. Alternatively, the Obligee may demand up to the full amount of the Bond, such amount determined solely by the Obligee in its reasonable discretion, and the Surety shall pay the Obligee said amount within thirty (30) days of Obligee's written notification, for Obligee to construct, or caused to be constructed the Improvements if the Principal should fail or refuse to do so.

4. Should the Surety fail or refuse to perform any of its obligations pursuant to this Bond, the Obligee shall have the right to resort to any and all legal remedies against the Principal and Surety, or either, both at law and in equity including specific performance, to which the Principal and Surety unconditionally agree. In such case, the Obligors agree to pay all costs incurred by the Obligee, including court costs and attorney's fees, and venue shall be in the courts of Polk County, Florida or in the United States District Court, Middle District of Florida, located in Hillsborough County, Florida.

5. The Surety, for value received, hereby stipulates and agrees that no change, extension of time, alteration, addition or deletion to the proposed Improvements, or the plans, specifications and schedules covering same, shall in any way affect the Surety's obligation on this Bond, and it does hereby waive notice of any such change, extension of time, alteration, addition or deletion to the proposed Improvements or the plans, specifications and schedules.

6. All notices, demands, and correspondence with respect to this Bond shall be in writing and deemed effective on the date of certified mailing addressed to the following, notwithstanding any changes in address:

The Surety at:
475 Steamboat Road
Greenwich, CT 06830

The Principal at:

11710 Plaza American Drive, #1100
Reston, VA 20190

The Obligee at:
Polk County, Land Development Division
330 West Church Street
PO Box 9005 – Drawer GM03
Bartow, FL 33831-9005

[Signatures appear on the next page]

POWER OF ATTORNEY
BERKLEY INSURANCE COMPANY
WILMINGTON, DELAWARE

KNOW ALL MEN BY THESE PRESENTS, that BERKLEY INSURANCE COMPANY (the "Company"), a corporation duly organized and existing under the laws of the State of Delaware, having its principal office in Greenwich, CT, has made, constituted and appointed, and does by these presents make, constitute and appoint: ***Holly Tallone; Louis J. Bensinger; Kathleen M. Coen; Gary Giulietti; Julia C. Zalesky; Abigail E. Curtiss; Jordan Fisher; Ashley Martin; Dana E. Wium; Kelly Wolff; or Ryan W. Duffy of Lockton Companies, LLC of Blue Bell, PA*** its true and lawful Attorney-in-Fact, to sign its name as surety only as delineated below and to execute, seal, acknowledge and deliver any and all bonds and undertakings, with the exception of Financial Guaranty Insurance, providing that no single obligation shall exceed **Fifty Million and 00/100 U.S. Dollars (U.S.$50,000,000.00),** to the same extent as if such bonds had been duly executed and acknowledged by the regularly elected officers of the Company at its principal office in their own proper persons.

This Power of Attorney shall be construed and enforced in accordance with, and governed by, the laws of the State of Delaware, without giving effect to the principles of conflicts of laws thereof. This Power of Attorney is granted pursuant to the following resolutions which were duly and validly adopted at a meeting of the Board of Directors of the Company held on January 25, 2010:

RESOLVED, that, with respect to the Surety business written by Berkley Surety, the Chairman of the Board, Chief Executive Officer, President or any Vice President of the Company, in conjunction with the Secretary or any Assistant Secretary are hereby authorized to execute powers of attorney authorizing and qualifying the attorney-in-fact named therein to execute bonds, undertakings, recognizances, or other suretyship obligations on behalf of the Company, and to affix the corporate seal of the Company to powers of attorney executed pursuant hereto; and said officers may remove any such attorney-in-fact and revoke any power of attorney previously granted; and further
RESOLVED, that such power of attorney limits the acts of those named therein to the bonds, undertakings, recognizances, or other suretyship obligations specifically named therein, and they have no authority to bind the Company except in the manner and to the extent therein stated; and further
RESOLVED, that such power of attorney revokes all previous powers issued on behalf of the attorney-in-fact named; and further
RESOLVED, that the signature of any authorized officer and the seal of the Company may be affixed by facsimile to any power of attorney or certification thereof authorizing the execution and delivery of any bond, undertaking, recognizance, or other suretyship obligation of the Company; and such signature and seal when so used shall have the same force and effect as though manually affixed. The Company may continue to use for the purposes herein stated the facsimile signature of any person or persons who shall have been such officer or officers of the Company, notwithstanding the fact that they may have ceased to be such at the time when such instruments shall be issued.

IN WITNESS WHEREOF, the Company has caused these presents to be signed and attested by its appropriate officers and its corporate seal hereunto affixed this 2nd day of May, 2024.

COMMERCIAL PERFORMANCE BOND

Bond No. GM221512

KNOWN ALL MEN BY THESE PRESENTS, That we, Building Hope Snively Avenue, LLC as Principal, and Great Midwest Insurance Company, a corporation organized and doing business under and by virtue of the laws of the State of Texas and duly licensed to conduct surety business in the State of Florida, as Surety, are held and firmly bound unto Polk County, a political subdivision of the State of Florida, as Obligee, in the aggregate sum of Six hundred-seventy-five thousand, Eight hundred thirty and 18/100 ($675,830.18) Dollars (hereinafter the "Total Penal Sum"), for which payment, well and truly to be made, we bind ourselves, our heirs, executors, administrators, successors and assigns, jointly and severally firmly by these presents.

WHEREAS, the Principal has agreed to construct the improvements described in the Engineer's Cost Estimate, attached hereto as Exhibit "A" and incorporated into and made part of this Bond (hereinafter "Improvements"), for the Building Hope Cypress Junction LDROW-2025-28 project located at 807 Snively Avenue, Winterhaven Florida 33880 (the "Project"), in accordance with the drawings, plans, specifications, and other data and information (hereinafter "Plans") filed with the County's Land Development Division, which Plans are by reference incorporated into and made part of this Bond; and

WHEREAS, Polk County's Land Development Code (hereinafter "LDC") is by reference incorporated into and made part of this Performance Bond (hereinafter "Bond"); and

WHEREAS, the Principal has agreed to provide this Bond to guarantee completion of the Improvements.

NOW, THEREFORE, the conditions of this Bond are as follows:

1. The Principal shall complete the Improvements in accordance with the Plans and LDC to the satisfaction of the Polk County Land Development Division by October 1, 2026, or such later date that the Obligee may approve in writing. The Bond shall commence upon the date of issue by the Surety and shall remain in full force and effect until the Obligee releases it (the "Coverage Period"). The Surety shall not terminate this Bond until the Coverage Period has ended.

2. The Surety unconditionally covenants and agrees that if the Principal fails to perform all or any part of the required Improvements within the time specified in Paragraph 1, above, the Surety, upon written notice from the Obligee, its authorized agent or officer, of the default, shall forthwith perform and complete the Improvements and pay the cost thereof, including without limitation, engineering, legal, and contingent costs.

3. The Surety further agrees that the Obligee may demand up to the full amount of the Bond, such amount determined solely by the Obligee in its reasonable discretion, and

the Surety shall forthwith pay the Obligee said amount within thirty (30) days of Obligee's written notification, for Obligee to construct, or caused to be constructed the Improvements if the Principal should fail or refuse to do so. The liability of the Surety shall not be discharged by any payment or succession of payments hereunder, unless and until such payment or payments shall amount in the aggregate to the Total Penal Sum of this Bond.

4. Should the Surety fail or refuse to perform any of its obligations pursuant to this Bond, the Obligee shall have the right to resort to any and all legal remedies against the Principal and Surety, or either, both at law and in equity including specific performance, to which the Principal and Surety unconditionally agree. In such case, the Obligors agree to pay all costs incurred by the Obligee, including court costs and attorney's fees, and venue shall be in the courts of Polk County, Florida or in the United States District Court, Middle District of Florida, located in Hillsborough County, Florida.

5. All notices, demands and correspondence with respect to this Bond shall be in writing and addressed to:

The Surety: Great Midwest Insurance Company
800 Gessner Road #600
Houston, TX 77024

The Principal: Building Hope Snively Avenue, LLC
1730 Pennsylvania Ave. NW #250
Washington, DC 20006

The Obligee:
Polk County, Land Development Division
330 W. Church St.
PO Box 9005—Drawer GM03
Bartow, FL 33831-9005

6. The Surety, for value received, hereby stipulates and agrees that no change, extension of time, alteration, addition, or deletion to the Improvements shall in any way affect the Surety's obligation on this Bond, and it does hereby waive notice of any such change, extension of time, alteration, addition or deletion to the Improvements or the Plans, specifications and schedules.

THIS BOND DATED THE 3rd DAY OF July, 20 25,
(the date of issue by the Surety).

POWER OF ATTORNEY

Great Midwest Insurance Company

KNOW ALL MEN BY THESE PRESENTS, that **GREAT MIDWEST INSURANCE COMPANY**, a Texas Corporation, with its principal office in Houston, TX, does hereby constitute and appoint: George F. Howard, Andrew F. Howard, Patrick W. Howard, Katie Horvath, Brian Carr

its true and lawful Attorney(s)-In-Fact to make, execute, seal and deliver for, and on its behalf as surety, any and all bonds, undertakings or other writings obligatory in nature of a bond.

This authority is made under and by the authority of a resolution which was passed by the Board of Directors of **GREAT MIDWEST INSURANCE COMPANY**, on the 1st day of April, 2025 as follows:

Resolved, that the President, or any officer, be and hereby is, authorized to appoint and empower any representative of the Company or other person or persons as Attorney-In-Fact to execute on behalf of the Company any bonds, undertakings, policies, contracts of indemnity or other writings obligatory in nature of a bond not to exceed One-Hundred Million dollars ($100,000,000.00), which the Company might execute through its duly elected officers, and affix the seal of the Company thereto. Any said execution of such documents by an Attorney-In-Fact shall be as binding upon the Company as if they had been duly executed and acknowledged by the regularly elected officers of the Company. Any Attorney-In-Fact, so appointed, may be removed in the Company's sole discretion and the authority so granted may be revoked as specified in the Power of Attorney.

Resolved, that the signature of the President and the seal of the Company may be affixed by electronic mail on any power of attorney granted, and the signature of the Secretary, and the seal of the Company may be affixed by electronic mail to any certificate of any such power and any such power or certificate bearing such electronic signature and seal shall be valid and binding on the Company. Any such power so executed and sealed and certificate so executed and sealed shall, with respect to any bond of undertaking to which it is attached, continue to be valid and binding on the Company.

IN WITNESS THEREOF, **GREAT MIDWEST INSURANCE COMPANY**, has caused this instrument to be signed by its President, and its Corporate Seal to be affixed this 8th day of April, 2025.

GREAT MIDWEST INSURANCE COMPANY — CORPORATE SEAL — TEXAS CORPORATION

GREAT MIDWEST INSURANCE COMPANY

BY Mark W. Haushill

Mark W. Haushill
President

ACKNOWLEDGEMENT

On this 8th day of April 2025, before me, personally came Mark W. Haushill to me known, who being duly sworn, did depose and say that he is the President of **GREAT MIDWEST INSURANCE COMPANY**, the corporation described in and which executed the above instrument; that he executed said instrument on behalf of the corporation by authority of his office under the By-laws of said corporation.

COMMERCIAL PERFORMANCE BOND

Bond No. GM 226224

KNOWN ALL MEN BY THESE PRESENTS, That we, 653th LLC, as Principal, and Great Midwest Insurance Company, a corporation organized and doing business under and by virtue of the laws of the State of Texas and duly licensed to conduct surety business in the State of Florida, as Surety, are held and firmly bound unto Polk County, a political subdivision of the State of Florida, as Obligee, in the aggregate sum of Ninety-Eight Thousand Three Hundred Forty and 00/100 ($ 98,340.00) Dollars (hereinafter the "Total Penal Sum"), for which payment, well and truly to be made, we bind ourselves, our heirs, executors, administrators, successors and assigns, jointly and severally firmly by these presents.

WHEREAS, the Principal has agreed to construct the improvements described in the Engineer's Cost Estimate, attached hereto as Exhibit "A" and incorporated into and made part of this Bond (hereinafter "Improvements"), for the Right of Way project located at Serenity at Peace Creek Reserve (the "Project"), in accordance with the drawings, plans, specifications, and other data and information (hereinafter "Plans") filed with the County's Land Development Division, which Plans are by reference incorporated into and made part of this Bond; and

WHEREAS, Polk County's Land Development Code (hereinafter "LDC") is by reference incorporated into and made part of this Performance Bond (hereinafter "Bond"); and

WHEREAS, the Principal has agreed to provide this Bond to guarantee completion of the Improvements.

NOW, THEREFORE, the conditions of this Bond are as follows:

1. The Principal shall complete the Improvements in accordance with the Plans and LDC to the satisfaction of the Polk County Land Development Division by 11/30/2025, or such later date that the Obligee may approve in writing. The Bond shall commence upon the date of issue by the Surety and shall remain in full force and effect until the Obligee releases it (the "Coverage Period"). The Surety shall not terminate this Bond until the Coverage Period has ended.

2. The Surety unconditionally covenants and agrees that if the Principal fails to perform all or any part of the required Improvements within the time specified in Paragraph 1, above, the Surety, upon written notice from the Obligee, its authorized agent or officer, of the default, shall forthwith perform and complete the Improvements and pay the cost thereof, including without limitation, engineering, legal, and contingent costs.

3. The Surety further agrees that the Obligee may demand up to the full amount of the Bond, such amount determined solely by the Obligee in its reasonable discretion, and

the Surety shall forthwith pay the Obligee said amount within thirty (30) days of Obligee's written notification, for Obligee to construct, or caused to be constructed the Improvements if the Principal should fail or refuse to do so. The liability of the Surety shall not be discharged by any payment or succession of payments hereunder, unless and until such payment or payments shall amount in the aggregate to the Total Penal Sum of this Bond.

4. Should the Surety fail or refuse to perform any of its obligations pursuant to this Bond, the Obligee shall have the right to resort to any and all legal remedies against the Principal and Surety, or either, both at law and in equity including specific performance, to which the Principal and Surety unconditionally agree. In such case, the Obligors agree to pay all costs incurred by the Obligee, including court costs and attorney's fees, and venue shall be in the courts of Polk County, Florida or in the United States District Court, Middle District of Florida, located in Hillsborough County, Florida.

5. All notices, demands and correspondence with respect to this Bond shall be in writing and addressed to:

The Surety:
Great Midwest Insurance Company
800 Gessner, Suite 600
Houston, TX 77024

The Principal:
653th LLC
4900 Dundee Road
Winter Haven, FL 33884

The Obligee:
Polk County, Land Development Division
330 W. Church St.
PO Box 9005—Drawer GM03
Bartow, FL 33831-9005

6. The Surety, for value received, hereby stipulates and agrees that no change, extension of time, alteration, addition, or deletion to the Improvements shall in any way affect the Surety's obligation on this Bond, and it does hereby waive notice of any such change, extension of time, alteration, addition or deletion to the Improvements or the Plans, specifications and schedules.

THIS BOND DATED THE 5th DAY OF June, 20 25,
(the date of issue by the Surety).

POWER OF ATTORNEY

Great Midwest Insurance Company

KNOW ALL MEN BY THESE PRESENTS, that **GREAT MIDWEST INSURANCE COMPANY**, a Texas Corporation, with its principal office in Houston, TX, does hereby constitute and appoint: Jo M Chonko, Michael W. Brown, Charles Lydecker

its true and lawful Attorney(s)-In-Fact to make, execute, seal and deliver for, and on its behalf as surety, any and all bonds, undertakings or other writings obligatory in nature of a bond.

This authority is made under and by the authority of a resolution which was passed by the Board of Directors of **GREAT MIDWEST INSURANCE COMPANY**, on the 1st day of April, 2025 as follows:

Resolved, that the President, or any officer, be and hereby is, authorized to appoint and empower any representative of the Company or other person or persons as Attorney-In-Fact to execute on behalf of the Company any bonds, undertakings, policies, contracts of indemnity or other writings obligatory in nature of a bond not to exceed One-Hundred Million dollars ($100,000,000.00), which the Company might execute through its duly elected officers, and affix the seal of the Company thereto. Any said execution of such documents by an Attorney-In-Fact shall be as binding upon the Company as if they had been duly executed and acknowledged by the regularly elected officers of the Company. Any Attorney-In-Fact, so appointed, may be removed in the Company's sole discretion and the authority so granted may be revoked as specified in the Power of Attorney.

Resolved, that the signature of the President and the seal of the Company may be affixed by electronic mail on any power of attorney granted, and the signature of the Secretary, and the seal of the Company may be affixed by electronic mail to any certificate of any such power and any such power or certificate bearing such electronic signature and seal shall be valid and binding on the Company. Any such power so executed and sealed and certificate so executed and sealed shall, with respect to any bond of undertaking to which it is attached, continue to be valid and binding on the Company.

IN WITNESS THEREOF, **GREAT MIDWEST INSURANCE COMPANY**, has caused this instrument to be signed by its President, and its Corporate Seal to be affixed this 8th day of April, 2025.

Agenda Item R.11. 8/19/2025

SUBJECT

Proportionate Share Agreement with Polk Petro, LLC for the Haines City Commercial Development. (In the amount of $143,334.14 to mitigate transportation impacts.)

DESCRIPTION

This is a request to enter into a Proportionate Share Agreement between POLK PETRO, LLC (hereinafter referred to as DEVELOPER) and POLK COUNTY in the amount of $143,334.14. The Developer is actively engaged in developing a multi-use project with a convenience store (known as Haines City Commercial) that will be located at the northwest corner of the County Road 544 and Barrington Road intersection. The proposed project will gain direct access to County Road 544, an urban collector roadway maintained by the County.

This proportionate share agreement is being entered into to help mitigate the anticipated Level-of-Service deficiency and satisfy transportation concurrency requirements for the Haines City Commercial Development. The proportionate share calculation is based upon the identified capacity improvements to the following intersections:

1. CR 544 at Detour Road (Convert from Two Way Stop Control to Signal);

2. CR 544 at Barrington Drive (Convert from Two Way Stop Control to Signal); and

3. CR 544 at SR 17 (Adjust Signal Timing).

Therefore, pursuant to Section 163.3180(5)(h), Florida Statutes, as amended, the Developer shall provide the County with proportionate share mitigation for the Excess Trips triggered by their development. The Developer and County have agreed to the total proportionate share payment of $143,334.14 necessary to mitigate the impact of Excess Trips on deficient roadways through buildout of the development, with $119,010.34 being eligible for Transportation Impact Fee Credits as provided by statute. The subject agreement satisfies the Developer’s obligation for mitigation of impacts per Section 163.3180(5)(h), Florida Statutes.

RECOMMENDATION

Request the Board approve the Proportionate Share Agreement needed for mitigation of identified transportation impacts associated with the Haines City Commercial Development.

FISCAL IMPACT

As a part of the Proportionate Share Agreement with Polk Petro, LLC, the developer will be eligible for Transportation Impact Fee Credits not to exceed $119,010.34.

PROPORTIONATE SHARE AGREEMENT for HAINES CITY COMMERCIAL (CR 544 at Barrington Drive)

This Proportionate Share Agreement (the "Agreement") is made and entered into as of the Effective Date (defined in Section 3.7 below), by and between POLK PETRO, LLC, a Florida limited liability company (the "Owner") and **POLK COUNTY,** a political subdivision of the State of Florida, whose address is 330 West Church Street, Bartow, Florida 33830 (hereinafter referred to as "Polk County" or "County") pursuant to the authority of Section 163.3180, Florida Statutes (2022). Owner and Polk County are referred to herein individually as a "Party" and collectively as the "Parties."

WITNESSETH:

WHEREAS, Owner is the owner of real property located at the northwest corner of the CR 555 and Barrington Drive intersection, as more specifically described in the legal description attached hereto as **Exhibit "A"** ("Owner's Property"); and

WHEREAS, Owner is seeking to enter into a proportionate share agreement with the County to mitigate transportation impacts on a County owned and maintained road. The proposed development is a convenience store with retail on the Owner's Property (" Project"), which is located within the City Limits of Haines city and as depicted in the site plan attached as **Exhibit "B "**; and

WHEREAS, direct access to the Project is via C.R. 544 (Lake Marion Creek Road) , which is a County-maintained roadway; and

WHEREAS, Owner has submitted to the County for Level 2 review of a driveway permit and concurrency review, Polk County project number: **LDROW-2025-4**; and

WHEREAS, as part of the Level 2 review, the County has notified the Owner that the Project will generate deficient PM Peak Hour trips (collectively, the "Excess Trips") for the roadway segments of CR 544 at Detour Road; CR 544 at Barrington Drive; and CR 544 at SR 17 (collectively, the "Deficient Segments"); and

WHEREAS, the Excess Trips will cause the Deficient Segments to operate below adopted Level of Service standards; therefore, pursuant to Section 163.3180(5)(h), Florida Statutes, the Owner shall provide the County with proportionate share mitigation for the Excess Trips; and

WHEREAS, the Owner has commissioned a traffic study by Kimley Horn dated May 2024 (the "Traffic Study"), which is incorporated herein by this reference, to identify certain

improvements necessary to alleviate existing infrastructure deficiencies, Project-related impacts, and maintain the functionality of the transportation network, and a copy of the Estimated PM Peak Hour Project Trips as included in the Traffic Study is attached hereto as **Exhibit "C"**; and

WHEREAS, the County has reviewed and approved the Traffic Study; and

WHEREAS, the County and Owner have agreed that the proportionate share payment necessary to mitigate the impact of the Excess Trips on the Deficient Segments through the current anticipated Project buildout is One hundred Forty-three thousand, three hundred thirty-four dollars and fourteen cents (**$143,334.14**) (the "Proportionate Share amount"); and

WHEREAS, this Agreement will provide the assurance to the Owner that upon payment of the Proportionate Share amount, Owner shall be deemed to have satisfied all requirements for mitigation of the traffic impacts of the Project on all roads affected by the Project within the County's jurisdiction through buildout of the Project; and

WHEREAS, while this Agreement shall reserve transportation capacity forestablished amounts of development on Owner's Property as provided herein, Owner is not hereby granted the right to develop until Owner obtains all other necessary approvals from Polk County and other applicable local, regional, state and federal governmental agencies.

NOW THEREFORE, in consideration of the premises hereof, the mutual covenants contained herein, and other good and valuable consideration, the receipt and sufficiency of which is hereby acknowledged, the Parties hereto covenant and agree as follows:

Article I
RECITALS AND DEFINITIONS

1.1 **Recitals.** The Recitals stated above are an integral part of this Agreement and are incorporated herein by reference as if fully set forth herein.

1.2 **Definitions.** Terms which are capitalized herein shall be defined as set forth in the Recitals above or as otherwise defined in this Agreement.

Article II
CONDITIONS OF AGREEMENT

2.1 **Legal Description of the Properties.** The legal description of the Owner's Property is attached to this Agreement as **Exhibit "A"**;

2.2 **Calculation of PS Payment.** The calculated Proportionate Share amount for the Deficient Segments, as described in **Exhibit "D,"** totals One hundred Forty-three thousand, three hundred thirty-four dollars and fourteen cents (**$143,334.14**) and shall be paid by Owner to the County (the "PS Payment") to mitigate the Excess Trips. This PS Payment was calculated in accordance with the methodology outlined in Section 163.3180, Florida Statutes, and is specific to development of the proposed convenience store Project only. For clarity, Table 15 of the Traffic Study as set forth on Exhibit "D" calculates the total intersection proportionate fair share amount ($286,668.29) for development of the entire Owner's Property parcel, including multiple additional projects and uses, however, this Agreement

relates only to the Proportionate Share amount, as set forth above, calculated to address impacts specific to development of the convenience store Project. Owner and County agree that the Excess Trips will constitute the Project's impact on the Deficient Segments based upon (i) the Owner's Traffic Study, and (ii) the calculations described in Exhibits "C" and "D." The Traffic Study is on file with the Land Development Division and available for inspection. The Owner and County further acknowledge and agree that the PS Payment as set forth above shall be the final and binding calculation of the amount the Owner is required to pay through the buildout of the currently approved Project as proportionate share mitigation for impacts of the Project upon roadways within the County's jurisdiction; provided, however, that if Owner subsequently increases the number of units and/or square footage, as applicable, of the Project, the Project may then be subject to an additional concurrency evaluation and proportionate share agreement as set forth in Section 2.7 below. Owner and County further acknowledge and agree that the calculation of, and agreement regarding, the amount of the PS Payment constitute material inducements for the parties to enter into this Agreement. The Owner further understands and agrees that Polk County reserves the right to allocate the PS Payment to one or more transportation improvements within the Project's transportation impact fee district.

2.3 **Timing of PS Payment, Issuance of Concurrency.** Within sixty (60) days following the Effective Date, Owner shall deliver a check to County in the amount of One hundred Forty-three thousand, three hundred thirty-four dollars and fourteen cents (**$143,334.14**) as the PS Payment. Within twenty-one (21) days following its receipt of the PS Payment, County shall issue Level 2 approval and concurrency sufficient to encumber traffic capacity for the Project, irrespective of any actual traffic deficiency on the Deficient Segments. In the event Owner has not paid the PS Payment within sixty (60) days of the Effective Date, this Agreement shall become null and void.

2.4 **Satisfaction of Transportation Improvement Requirements.** County hereby acknowledges and agrees that upon Owner's payment of the PS Payment as required herein, and absent any change in the Project increasing the number of trips as set forth in section 2.7 below, Owner shall be deemed to have satisfied all requirements for the mitigation of the traffic impacts of the Project on all roads affected by the Project within County's jurisdiction through buildout of the Project. Owner shall be entitled to fully and completely develop the Project, without regard to whether the improvements to the Deficient Segments are actually constructed. Additionally, nothing herein shall be construed to exempt Owner from meeting the requirements of all other applicable laws, regulations, and/or County Code provisions or from making the required payment of transportation impact fees applicable to the Project.

2.5 **No Refund.** The PS Payment is non-refundable.

2.6 **Development Permits.** Owner shall be required to secure all applicable local development permits for any proposed construction on its Property. Owner will also obtain all required county, region, state, or federal approvals, prior to the development of its Property.

2.7 **Increase in Project Trips.** Any change to the Project which increases the unit count and/or square footage, as applicable, may result in an increase in trips on the Deficient Segments or other segments within the transportation impact area, as defined by County. Owner

understands and agrees that any such additional trips are neither vested nor otherwise permitted under this Agreement, and that Owner is precluded from asserting any such vesting. In addition, Owner understands and agrees that any such changes resulting in an increase in trips may cause this Agreement to become null and void, and/or may require application for and execution of an additional Proportionate Share Agreement, along with any other required documentation, for the number of increased trips.

2.8 **Insufficiency of Agreement.** In the event that this Agreement fails to address a particular permit, condition, term, or restriction, Owner shall not be relieved of the necessity of complying with the law governing said permitting requirements, conditions, terms, or restrictions.

2.9 **Compliance with Applicable Standards.** Any public facility, including water, wastewater or transportation facility, designed and constructed by Owner shall be in compliance with all applicable Polk County requirements, and applicable region, state and federal standards and requirements.

2.10 **Consistency with Florida Statutes**. The Parties agree that this Agreement satisfies the requirements for all applicable statutes, including without limitation, requirements for a binding Proportionate Share Mitigation Agreement in Section 163.3180(5), Florida Statutes.

2.11 **Transportation Impact Fee Credits**. Pursuant to Section 163.3180(5), Transportation Impact Fees shall be credited to Owner for payment of the Proportionate Share amount minus the percentage share that the Project's traffic represents of the added capacity of the selected improvement. The Transportation Impact Fee Credits shall be subject to Section 2.11 of the Polk County Amended and Restated Comprehensive Impact Fee Ordinance (Ord. No. 2024-062, referred to hereinafter as the "Ordinance") and the following requirements:

2.11.1 The total, maximum, cumulative amount of Transportation Impact Fee credits issued hereunder shall not exceed One Hundred Nineteen Thousand, Ten dollars and Thirty-Four cents (**$119,010.34**), which includes a credit reduction in the amount of Twenty-Four thousand Three hundred Twenty-Three dollars and eighty cents (**$24,323.80**) for the percentage share that the Project's traffic represents of the added capacity to CR 544 . In no event shall Owner receive credits in excess of the PS Payment, and in the event the PS Payment exceeds the applicable Transportation Impact Fees, Owner shall not be entitled to a refund for the amount of the PS Payment in excess of such Transportation Impact Fees. Nothing in this Agreement shall be deemed to require the County to continue to levy or collect Transportation Impact Fees, or, if levied, to levy them for any certain amount.

2.11.2 Transportation Impact Fee credits granted pursuant to this Agreement are assignable and transferrable in accordance with section 163.31801, Florida Statutes.

2.11.3 The value of each impact fee credit(s) shall be the value of the impact fee at the time each future development project is submitted to Polk County for transportation impact fee credit. The submittal for impact fee credits shall occur during the site/construction plan (Level 2) review, in conjunction with granting concurrency for the Project or any future projects. Said submittal shall include a development site plan(s) and access to the County road system approvals as granted by the County and the local government that has jurisdiction.

2.11.4 Owner, and their successors and assigns, shall have ten (10) years from the date of issuance in which to use any Transportation Impact Fee Credits issued hereunder. Any impact fee credits issued hereunder shall be governed by the Ordinance.

Article III
MISCELLANEOUS PROVISIONS

3.1 Notices. Any notice delivered with respect to this Agreement shall be in writing and deemed delivered (whether or not actually received) (i) when hand delivered to the person(s) hereinafter designated, or (ii) upon deposit of such notice in the United States mail, postage prepaid, certified mail, return receipt requested, addressed to the person at the address set forth below, or to such other address or other person as the party shall have specified by written notice to the other party delivered in accordance herewith:

3.1.1 Polk County:

Chairman
Polk County Board of County Commissioners
330 West Church Street
Bartow, Florida 33830

with a copy to:

County Attorney
Polk County Board of County Commissioners
330 West Church Street
Bartow, Florida 33830

Concurrency and Entitlements Manager
Polk County Office of Planning and Development
330 West Church Street
Bartow, Florida 33830

Owner:
Polk Petro, LLC
2067 Professional Center Drive
Orange Park, FL 32073-4461

3.2 **Amendment or Cancellation.** No amendment, modification, or other change(s) to this Agreement shall be binding upon the Parties unless in writing and formally executed by all of the Parties.

3.3 **Recordation.** Within 14 days after Polk County approves and executes this Agreement, Polk County shall record the Agreement in the public records of Polk County, Florida. Polk County shall pay the costs of recording this Agreement as well as any amendment, cancellation, modification, extension, or revocation thereto.

3.4 **Applicable Law, Enforcement, Jurisdiction and Venue.** This Agreementshall be subject to the following provisions:

3.4.1 This Agreement and the rights and obligations of the Countyand Owner hereunder shall be interpreted, governed by, construed under, and enforced in accordance with the applicable laws of the State of Florida, and the Laws of Polk County pursuant to the LDC, Polk County Comprehensive Plan, and any amendments thereto in effect on the EffectiveDate of this Agreement.

3.4.2 Venue for any litigation pertaining to the subject matter hereof shall be exclusively in the state courts in and for Polk County, Florida, or Federal Court in the Middle District of Florida, located in Tampa, Florida.

3.4.3 Each Party shall bear its own expense for any litigation resulting from this Agreement, which shall include but not be limited to attorneyfees and applicable courts costs, including appellate proceedings.

3.4.4 If any section, phrase, sentence or portion of this Agreementis, for any reason, held to be invalid by any court of competent jurisdiction,such portion shall be deemed as a separate, distinct, and independentprovision, and such holding shall not affect the validity of the remaining portions hereof.

3.4.5 The fact that this Agreement does not detail all laws, rules, regulations, permits, conditions, terms and restrictions that must be satisfiedto develop the Owner's Property shall not relieve the Owner, the County, or their respective successors in interest, of the obligation to comply with the laws governing such permit requirements, conditions, terms and regulations, except as otherwise provided herein.

3.5 **Successors; Notice of Transfer.** This Agreement shall be binding upon and the benefits and obligations of this Agreement shall inure to all heirs, legal representatives, successors and assigns of the Parties to this Agreement, and shall be a covenant running with the Property and be binding upon the successors and assigns of the Owner and upon any person, firm, corporation, or entity who may become the success in interest in the Owner's Property. Within thirty (30) days of the date of the Owner's transfer of any of its interests in the Property, Owner shall provide notice to the County.

3.6 **Entire Agreement.** This Agreement contains the entire understanding between the Parties, and the Parties agree that no representation was made by or on behalfof any Party that is not contained in this Agreement, and that in entering intothis Agreement neither relied upon, or was entitled to rely upon, any representation not herein specifically set forth.

3.7 **Effective Date.** This Agreement shall become effective upon the County's execution of the Agreement (the "Effective Date").

3.8 **No Third Party Beneficiaries.** This Agreement is made for the sole benefit and protection of the Parties, their successors and assigns, and no other persons shall have any right of action hereunder.

3.9 **Default and Opportunity to Cure.** With exception of the timing of the PS Payment as set forth in Section 2.3, the Parties acknowledge and agree that in the event of a default by the Parties respecting an obligation under this Agreement, the non-defaulting Party or Parties shall provide notice of said default to the defaulting Party pursuant to Paragraph 3.1 above, and the defaulting Party shall have thirty (30) days after receipt of said notice within which to cure the default described in said notice.

3.10 **Days.** The term "days" in this Agreement shall mean calendar days unless otherwise so noted. If a date for performance falls on a Saturday, Sunday or legal State ofFlorida or federal holiday, the date for performance shall be extended until the next calendar day that is not a Saturday, Sunday or legal Holiday.

3.11 **Exhibits.** All exhibits attached hereto contain additional terms of this Agreement and are incorporated herein by this reference.

3.11 **Release.** For and in consideration of the mutual agreements set forth herein, Owner agrees the terms and conditions of this Agreement are reasonable under the totality of the circumstances, and on behalf of its successors, assigns or trustees, and anyone claiming by, though, or under any of them, do hereby fully waive, release and forever discharge Polk County from and against any claims for inverse condemnation, regulatory takings, U.S.C. Section 1983, or claims under Chapter 70, Florida Statutes, arising out of or resulting from the terms and conditions hereof. The Owner acknowledges and agrees that its agreement to this release is a material inducement to Polk County to enter into thisAgreement. The Owner agrees that this release is to the specific causes of action listed and should not be deemed a release of any non-listed causes of action to which the Owner may be entitled.

3.12 **Limitation of Liability**. IN NO EVENT SHALL POLK COUNTY BE LIABLE TO THE OWNER FOR INDIRECT, INCIDENTAL, CONSEQUENTIAL, SPECIAL,

EXEMPLARY, OR PUNITIVE DAMAGES OF ANY KIND OR NATURE, INCLUDING LOSS OF PROFIT, WHETHER FORESEEABLE OR NOT, ARISING OUT OF OR RESULTING FROM THE NONPERFORMANCE OR BREACH OF THIS AGREEMENT BY POLK COUNTY WHETHER BASED IN CONTRACT, COMMON LAW, WARRANTY, TORT, STRICT LIABILITY, CONTRIBUTION, INDEMNITY OR OTHERWISE.

IN WITNESS WHEREOF, the Parties hereto, through their duly authorized representatives, have executed this Agreement on the day(s) and year set forth below.

						TOTAL	*$286,668.29*

Notes:

1. Construction costs per previously completed studies in Haines City.
2. Intersection Capacity determined from Synchro v11 analysis completed as part of the TIA.
3. Proportionate share based on project trips using the intersection. Prop. Share % = Project Trips / (Improved Capacity - Existing Capacity) x 100
4. Proportionate share for the convenience store impacts have been calculated to be 50% of the identified total costs.

Convenience Store PS Total	$143,334.14

EXHIBIT "E"

IMPACT FEE CREDIT REIMBURSEMENT

Impact Fee Credit Reimbursement Requirements

1. To submit a request for impact fee credits as outlined in the agreement with the County, the developer must first complete all transportation improvements as depicted and described in the agreement; or provide documentation that required proportionate share payment has been made and received by the County as described in the agreement.
2. The developer shall then submit a request for reimbursement of impact fee credits to the County. This request shall include backup documentation of the actual construction costs, as evidenced by invoices paid and other appropriate supporting documentation deemed sufficient by the County. Only expenditures on qualifying transportation improvements are eligible for impact fee credits as described in the agreement and Section 4.04B of the Impact Fee Ordinance.
3. Once the review of the backup documentation is complete, the request for reimbursement shall be forwarded to the Fiscal Manager of the Office of Planning & Development to begin the issuance of impact fee credits.
4. Polk County prepares the impact fee credits as individual vouchers applied on a per-lot basis for future development. The value of each impact fee credit voucher is based on the County transportation impact fees assessed on each lot at the time of request.
5. Impact fee credits granted to the developer pursuant to the agreement are assignable and transferable in accordance with section 163.31801(10), Florida Statutes.
6. Once impact fee credits have been issued, the developer must assign a person to sign each voucher as the impact fee credit holder.
7. Impact fee credit vouchers must be provided to the appropriate jurisdiction prior to the payment of impact fees on a lot. If impact fees are paid prior to the submittal of the impact fee credit voucher, the developer may not request a refund of paid impact fees.
8. The jurisdiction must be provided with the original voucher; a copy will not be honored. Each voucher has a stamp and raised seal from the County to confirm its validity.
9. Each impact fee credit voucher has a cash value; thus, it is the responsibility of the developer to maintain their vouchers. The County shall not replace lost impact fee credit vouchers. If a permit is voided the developer may request a replacement voucher only if the County is provided with the voided impact fee credit voucher.

Questions regarding impact fee credits can be directed to the Fiscal Manager of the Office of Planning & Development by calling (863) 534-6460.

Agenda Item R.12. 8/19/2025

SUBJECT

Approve piggyback agreement with Randstad Technologies, LLC. for information technology staff augmentation services. (One-time cost $191,535.00)

DESCRIPTION

Information Technology, along with the Utilities Division, are requesting approval for a project with Randstad Digital to modernize how the County manages and shares information across departments. The first step in this effort is to create a space for modern tools-like dashboards and custom apps- into Microsoft's cloud environment called Azure. Using Microsoft Azure will provide the County with a supported and secure foundation for future technological needs. While the initial focus is to build the base structure and dashboards for a single division, the goal is to create a setup that can grow and support data needs countywide.

The Utilities division is leading the way by being the first to leverage Azure. As part of the project, they will build a central place to store and organize their data so they can create useful reports and visual tools. These will help them manage and monitor important systems like customer service (CIS Infinity), asset tracking and maintenance (Lucity), and mapping tools (GIS viewers). This means faster access to information, better decision-making, and improved services for the community.

Eventually, other divisions across the County will be able to use this same cloud setup when they are ready. By building a shared system from the start, the County will avoid duplicating work and make it easier to create reports and tools that span multiple divisions. This project is not just about upgrading our technology, it's about setting the stage for smarter, more connected County operations in the years ahead.

The State of Florida Department of Management Services solicited an Invitation to Bid (23-80101507 -ITB), resulting in an agreement with Randstad Technologies, LLC for Information Technology Staff Augmentation Services, who is a local vendor with an office in Lakeland.

The attached agreement with Randstad is for the purchase of software-based phones, equipment and implementation services as follows:

- Assist IT staff with the setting up of an Azure tenant cloud foundation - $47,137.00 (one-time cost)
- Implementation of an Azure Power BI and Power Apps- $144,398.00 (one-time cost)

The implementation services will commence upon approval by the Board.

RECOMMENDATION

Request Board approve piggyback agreement with Randstad Technologies, LLC. for Information Technology staff augmentation services in the amount of $191,535.00.

FISCAL IMPACT

Funds in the amount of $47,137.00 are budgeted in the Information Technology Technical Services Operating Budget and the remaining $144,398.00 is budgeted in the R&R Buildings and Non-Production Projects Budget.

PIGGYBACK AGREEMENT FOR INFORMATION TECHNOLOGY STAFF AUGMENTATION SERVICES

THIS PIGGYBACK AGREEMENT (the "Agreement") is entered into as of the Effective Date defined in Section 3A, below, by and between Polk County (the "County"), a political subdivision of the State of Florida, situated at 330 W. Church Street, Bartow, Florida 33830, and Randstad North America, Inc. dba Randstad Technologies, LLC (the "Vendor"), a Delaware corporation, 3625 Cumberland Blvd., Suite 500, Atlanta, GA 30339, and whose Federal Employer Identification Number is 58-2426357.

WHEREAS, the County's Procurement Ordinance and Procurement Procedures permit it to enter into piggyback purchasing agreements; and

WHEREAS, the County requires the services of a vendor who can provide information technology staff augmentation services; and

WHEREAS, the Vendor has contracted with the State of Florida, Department of Management Services to provide information technology staff augmentation services pursuant to that certain Contract No. 80101507-23-STC-ITSA dated as of October 27, 2023 (the "DMS Agreement") which those parties entered into upon the Department of Management Services' award of ITB No. 23-80101507-ITB to Vendor for information technology staff augmentation services; and

WHEREAS, the County and the Vendor have determined that the DMS Agreement is an acceptable agreement upon which the County and the Vendor may establish a piggyback agreement.

NOW, THEREFORE, in consideration of the promises contained herein, the parties hereby agree, as follows:

1. **Recitals.** The above stated recitals are true and correct.

2. **Terms and Conditions; Conflict.** Except as otherwise stated herein, the terms and conditions of the DMS Agreement shall form the basis of this Agreement, with the County having the rights, duties, and obligations of the "Department" thereunder. A true and correct copy of the DMS Agreement is attached as Exhibit "A" and incorporated herein. If any provision of this Agreement conflicts with any provision of the DMS Agreement, then the terms, conditions, and provisions of this Agreement shall control.

3. **Engagement of Work.** The County hereby engages Randstad and Randstad hereby accepts said engagement for the purpose of providing the Services to the County. Randstad shall provide the Services in accordance with the provisions of this Contract; the DMS Agreement; the Azure Build Engagement Statement of Work attached to this Agreement as Exhibit B; and the Azure Power BI & Power Apps Migrate Engagement State of Work attached this Agreement as Exhibit C.

4. **Compensation.** In consideration for its providing the Services, the County shall pay the Vendor a lump sum fee of $47,137.00 in accordance with solution pricing set forth in Exhibit "B" for the Azure Build Engagement; and a lump sum fee of $144,398.00 in accordance with pricing set forth in Exhibit "C" for the Azure Power BI & Power Apps Migrate Engagement.

5. **Supplemental Terms and Conditions.** The terms and conditions of the DMS Agreement are hereby modified or supplemented, as follows:

   A. **Term.** The term of this Agreement shall commence on the date (the "Effective Date") the later of the two parties executes the Agreement and, unless sooner terminated pursuant to Section 3.D herein, shall continue until the first to occur of the

following: (i) upon expiration or earlier termination of the DMS Agreement (it being acknowledged and understood that the latest possible termination date for the DMS Agreement is September 30, 2027); or (ii) upon termination by the County, for any reason or no reason, following 30 days' written notice to the Vendor.

B. **Insurance.** The Vendor shall maintain at all times the following minimum levels of insurance and shall, without in any way altering its liability, obtain, pay for and maintain insurance for the coverage and amounts of coverage not less than those set forth below. The Vendor shall provide the County original Certificates of Insurance satisfactory to the County to evidence such coverage before any work commences. The County shall be named as an additional insured on the General Liability policy. General Liability and Workers' Compensation policies shall contain a waiver of subrogation in favor of Polk County. The commercial General Liability Policy shall (by endorsement if necessary) provide contractual liability coverage for the contractual indemnity stated in Section C, below. All insurance coverage shall be written with a company having an A.M. Best rating of at least the "A" category and size category of VIII. The Vendor's self-insured retention or deductible per line of coverage shall not exceed $25,000 without the permission of the County. In the event of any failure by the Vendor to comply with the provisions of this Section 11, the County may, at its option, upon notice to the Vendor suspend Vendor's performance of the Services for cause until there is full compliance. Alternatively, the County may purchase such insurance at the Vendor's expense, provided that the County shall have no obligation to do so and if the County shall do so, the Vendor shall not be relieved of or excused from the obligation to obtain and maintain such insurance amounts and coverage.

Commercial General Liability. $1,000,000.00 combined single limit of liability for bodily injuries, death and property damage, and personal injury resulting from any one occurrence, including the following coverages:

Premises and Operations:

> Broad Form Commercial General Liability Endorsement to include Blanket Contractual liability (specifically covering, but not limited to, the contractual obligations assumed by the Firm); Personal Injury (with employment and contractual exclusions deleted); and Broad Form Property Damage coverage.

Independent Contractors:

> Delete Exclusion relative to collapse, explosion and underground; Property Damage Hazards; Cross Liability Endorsement; and Contractual liability (specifically covering, but not limited to, the contractual obligations assumed by the Firm)

Workers Compensation. The Vendor shall provide, pay for, and maintain workers compensation insurance on all employees, its agents or subcontractors as required by Florida Statutes.

C. **Indemnity.** Vendor, to the maximum extent permitted by law, shall indemnify, defend (by counsel reasonably acceptable to County) protect and hold the County, and its officers, employees and agents harmless from and against any and all, claims, actions, causes of action, liabilities, penalties, forfeitures, damages, losses, and expenses (including, without limitation, attorneys' fees costs and

expenses incurred during negotiation, through litigation and all appeals therefrom) whatsoever including, but not limited, to those pertaining to the death of or injury to any person, or damage to any property, arising out of or resulting from (i) the failure of Vendor to comply with applicable laws, rules or regulations, (ii) the breach by Vendor of its obligations under this Agreement, (iii) any claim for trademark, patent or copyright infringement arising out of the scope of Vendor's performance or nonperformance of this Agreement, or (iv) the negligent acts, errors or omissions, or intentional or willful misconduct, of Vendor, its professional associates, subcontractors, agents, and employees provided, however, that Vendor shall not be obligated to defend or indemnify the County with respect to any such claims or damages arising out of the County's sole negligence.

D. Force Majeure. Either party hereunder may be temporarily excused from performance if an Event of Force Majeure directly or indirectly causes its nonperformance. An "Event of Force Majeure" is defined as any event which results in the prevention or delay of performance by a party of its obligations under this Agreement and which is beyond the reasonable control of the nonperforming party. It includes, but is not limited to fire, flood, earthquakes, storms, lightning, epidemic, war, riot, civil disturbance, sabotage, and governmental actions. Neither party shall be excused from performance if non-performance is due to forces which are reasonably preventable, removable, or remediable and which the non-performing party could have, with the exercise of reasonable diligence, prevented, removed, or remedied prior to, during, or immediately after their occurrence. Within five (5) days after the occurrence of an Event of Force Majeure, the non-performing party shall deliver written notice to the other party describing the event in reasonably sufficient detail, along with proof of how the event has precluded the non-performing party from performing its obligations hereunder, and a good faith estimate as to the anticipated duration of the delay and the means and methods for correcting the delay. The non-performing party's obligations, so far as those obligations are affected by the Event of Force Majeure, shall be temporarily suspended during, but no longer than, the continuance of the Event of Force Majeure and for a reasonable time thereafter as may be required for the non-performing party to return to normal business operations. If excused from performing any obligations under this Agreement due to the occurrence of an Event of Force Majeure, the non-performing party shall promptly, diligently, and in good faith take all reasonable action required for it to be able to commence or resume performance of its obligations under this Agreement. During any such time period, the non-performing party shall keep the other party duly notified of all such actions required for it to be able to commence or resume performance of its obligations under this Agreement.

E. Default and Remedy. If Vendor materially defaults in its obligations under this Agreement, then the County shall have the right to (i) immediately terminate this Agreement by delivering written notice to Vendor, and (ii) pursue any and all remedies available in law, equity, and under this Agreement. If the County materially defaults in its obligations under this Agreement, then Vendor shall have the right to immediately terminate this Agreement by delivering written notice to the County and to seek payment from County for those services Vendor has provided but for which has not yet been paid.

F. Attorneys' Fees and Costs. In connection with any dispute or any litigation arising out of, or relating to this Agreement, each party shall be responsible for its own legal and attorneys' fees, costs and expenses, including attorneys' fees, costs, and

expenses incurred for any appellate or bankruptcy proceedings.

G. Dispute Resolution. Notwithstanding anything in the DMS Agreement to the contrary, there shall be no arbitration of any dispute arising or pertaining to this Agreement. The parties shall resolve all such disputes via voluntary and non-binding mediation or negotiation.

H. LIMITATION OF LIABILITY. IN NO EVENT SHALL THE COUNTY BE LIABLE TO THE VENDOR FOR INDIRECT, INCIDENTAL, CONSEQUENTIAL, SPECIAL, EXEMPLARY, OR PUNITIVE DAMAGES OF ANY KIND OR NATURE WHATSOEVER INCLUDING LOSS OF PROFIT, WHETHER FORESEEABLE OR NOT, ARISING OUT OF OR RESULTING FROM THE NONPERFORMANCE OR BREACH OF THIS CONTRACT BY THE COUNTY WHETHER BASED IN CONTRACT, COMMON LAW, WARRANTY, TORT, STRICT LIABILITY, CONTRIBUTION, INDEMNITY OR OTHERWISE.

I. Governing Law. This Agreement shall be governed in all respects by the Laws of the State of Florida, without regard to conflicts of the laws principles.

J. Venue. Any litigation with respect to this Agreement shall be brought and prosecuted only in the courts of Polk County, Florida or in the United States District Court, Middle District of Florida, located in Hillsborough County, Florida.

K. Notice. All notices, requests, consents and other communications required or permitted under this Agreement shall be in writing, and shall be, as elected by the person giving such notice, hand delivered by nationally recognized messenger or by courier service, or mailed by registered or certified mail, return receipt requested, and addressed, as follows:

If to the County: Polk County Information Technology Division
Attention: IT Director
330 West Church Street
Bartow, FL 33831-9005

If to Vendor: Randstad Technologies, LLC
Attention: Melissa Shrout
3625 Cumberland Blvd., Suite 600

L. Non-exclusive Agreement. This Agreement does not grant the Vendor the exclusive right to provide the County information technology staff augmentation services during the Agreement term. The County may utilize its own personnel to perform such services or it may employ other vendors or contractors to provide such services.

M. Public Records Law.

(a) The Contractor acknowledges the County's obligations under Article I, Section 24, of the Florida Constitution and under Chapter 119, Florida Statutes, to release public records to members of the public upon request and comply in the handling of the materials created under this Agreement. The Vendor further acknowledges that the constitutional and statutory provisions control over the terms

of this Agreement. In association with its performance pursuant to this Agreement, the Vendor shall not release or otherwise disclose the content of any documents or information that is specifically exempt from disclosure pursuant to all applicable laws.

(b) Without in any manner limiting the generality of the foregoing, to the extent applicable, the Vendor acknowledges its obligations to comply with Section 119.0701, Florida Statutes, with regard to public records, and shall:

(1) keep and maintain public records required by the County to perform the services required under this Agreement;

(2) upon request from the County's Custodian of Public Records or his/her designee, provide the County with a copy of the requested records or allow the records to be inspected or copied within a reasonable time at a cost that does not exceed the cost provided in Chapter 119, Florida Statutes, or as otherwise provided by law;

(3) ensure that public records that are exempt or confidential and exempt from public records disclosure requirements are not disclosed except as authorized by law for the duration of the term of this Agreement and following completion of this Agreement if the Vendor does not transfer the records to the County; and

(4) upon completion of this Agreement, transfer, at no cost, to the County all public records in possession of the Vendor or keep and maintain public records required by the County to perform the service. If the Vendor transfers all public records to the County upon completion of this Agreement, the Vendor shall destroy any duplicate public records that are exempt or confidential and exempt from public records disclosure requirements. If the Vendor keeps and maintains public records upon completion of this Agreement, the Vendor shall meet all applicable requirements for retaining public records. All records stored electronically must be provided to the County, upon request from the County's Custodian of Public Records, in a format that is compatible with the information technology systems of the County.

(c) **IF THE VENDOR HAS QUESTIONS REGARDING THE APPLICATION OF CHAPTER 119, FLORIDA STATUTES, TO THE VENDOR'S DUTY TO PROVIDE PUBLIC RECORDS RELATING TO THIS AGREEMENT, CONTACT THE COUNTY'S CUSTODIAN OF PUBLIC RECORDS AT:**

RECORDS MANAGEMENT LIAISON OFFICER

POLK COUNTY

330 WEST CHURCH ST.

BARTOW, FL 33830

TELEPHONE: (863) 534-7527

EMAIL: RMLO@POLK-COUNTY.NET

N. Scrutinized Companies and Business Operations Certification; Termination.

A. Certification(s).

(i) By its execution of this Agreement, the Vendor hereby certifies to the County that the Vendor is not on the Scrutinized Companies that Boycott Israel List, created pursuant to Section 215.4725, Florida Statutes, nor is the Vendor engaged in a boycott of Israel, nor was the Vendor on such List or engaged in such a boycott at the time it submitted its bid, proposal, quote, or other form of offer, as applicable, to the County with respect to this Agreement.

(ii) Additionally, if the value of the goods or services acquired under this Agreement are greater than or equal to One Million Dollars ($1,000,000), then the Vendor further certifies to the County as follows:

(a) the Vendor is not on the Scrutinized Companies with Activities in Sudan List, created pursuant to Section 215.473, Florida Statutes; and

(b) the Vendor is not on the Scrutinized Companies with Activities in the Iran Petroleum Energy Sector List, created pursuant to Section 215.473, Florida Statutes; and

(c) the Vendor is not engaged in business operations (as that term is defined in Florida Statutes, Section 287.135) in Cuba or Syria; and

(d) the Vendor was not on any of the Lists referenced in this subsection A(ii), nor engaged in business operations in Cuba or Syria when it submitted its proposal to the County concerning the subject of this Agreement.

(iii) The Vendor hereby acknowledges that it is fully aware of the penalties that may be imposed upon the Vendor for submitting a false certification to the County regarding the foregoing matters.

B. Termination. In addition to any other termination rights stated herein, the County may immediately terminate this Agreement upon the occurrence of any of the following events:

(i) the Vendor is found to have submitted a false certification to the County with respect to any of the matters set forth in subsection A(i) above, or the Vendor is found to have been placed on the Scrutinized Companies that Boycott Israel List or is engaged in a boycott of Israel; or

(ii) the Vendor is found to have submitted a false certification to the County with respect to any of the matters set forth in subsection A(ii) above, or the Vendor is found to have been placed on the Scrutinized Companies with Activities in Sudan List, or the Scrutinized Companies with Activities in the Iran Petroleum Energy Sector List, or has been engaged in business operations in Cuba or Syria, and the value of the goods or services acquired under this Agreement are greater than or equal to One Million Dollars ($1,000,000).

O. No Construction Against Drafter. The Parties acknowledge that this Agreement and all the terms and conditions contained herein have been fully reviewed and negotiated by the Parties. Accordingly, any rule of construction to the effect that ambiguities are to be resolved against the drafting party shall not apply

in interpreting this Agreement.

P. **Public Entity Crimes.** The Vendor declares and warrants that neither the Vendor nor any of the Vendor's affiliates, as that term is defined in Section 287.133, Florida Statutes, are subject to the restrictions in Section 287.133, Florida Statutes, regarding the commission of a public entity crime. If during the term of this Agreement, the Vendor or any affiliate is convicted of a public entity crime or is otherwise prohibited from performing work for or transacting business with the County pursuant to Section 287.133, Florida Statutes, then the Vendor shall be in material default of this Agreement, and in such case, the County shall have the rights and remedies as provided herein.

Q. **Contingency Funds.** Contingency funds have been included in the contract for additional hours necessary to perform the work. Vendor must have written approval from the IT Director prior to performing any additional hours. Email is an acceptable form of written approval. Any unused portion of the contingency shall be returned to the County by amendment to the purchase order.

R. **Unauthorized Alien(s)**

The Vendor shall not employ or utilize unauthorized aliens in the performance of the Services provided pursuant to this Agreement. The County shall consider the employment or utilization of unauthorized aliens a violation of Section 274A(e) of the Immigration and Naturalization Act (8 U.S.C. 1324a) and a cause for the County's unilateral termination of this Agreement. When delivering executed counterparts of this Agreement to the County, the Vendor shall also deliver a completed and executed counterpart of the attached "AFFIDAVIT CERTIFICATION IMMIGRATION LAWS" form.

S. **Employment Eligibility Verification (E-VERIFY)**

A. Unless otherwise defined herein, terms used in this Section which are defined in Section 448.095, Florida Statutes, as may be amended from time to time, shall have the meaning ascribed in said statute.

B. Pursuant to Section 448.095(5), Florida Statutes, the contractor hereto, and any subcontractor thereof, must register with and use the E-Verify system to verify the work authorization status of all new employees of the contractor or subcontractor. The contractor acknowledges and agrees that (i) the County and the contractor may not enter into this Agreement, and the contractor may not enter into any subcontracts hereunder, unless each party to this Agreement, and each party to any subcontracts hereunder, registers with and uses the E-Verify system; and (ii) use of the U.S. Department of Homeland Security's E-Verify System and compliance with all other terms of this Certification and Section 448.095, Fla. Stat., is an express condition of this Agreement, and the County may treat a failure to comply as a material breach of this Agreement.

C. By entering into this Agreement, the contractor becomes obligated to comply with the provisions of Section 448.095, Fla. Stat., "Employment Eligibility," as amended from time to time. This includes but is not limited to utilization of the E-Verify System to verify the work authorization status of all newly hired employees, and requiring all subcontractors to provide an affidavit attesting that the subcontractor does not employ, contract with, or subcontract with, an unauthorized alien. The contractor shall maintain a copy of such affidavit for the duration of this

Agreement. Failure to comply will lead to termination of this Agreement, or if a subcontractor knowingly violates the statute or Section 448.09(1), Fla. Stat., the subcontract must be terminated immediately. If this Agreement is terminated pursuant to Section 448.095, Fla. Stat., such termination is not a breach of contract and may not be considered as such. Any challenge to termination under this provision must be filed in the Tenth Judicial Circuit Court of Florida no later than 20 calendar days after the date of termination. If this Agreement is terminated for a violation of Section 448.095, Fla. Stat., by the contractor, the contractor may not be awarded a public contract for a period of 1 year after the date of termination. The contractor shall be liable for any additional costs incurred by the County as a result of the termination of this Agreement. Nothing in this Section shall be construed to allow intentional discrimination of any class protected by law.

T. **Entire Agreement.** This Agreement sets forth the entire understanding and agreement between the parties. This Agreement may only be modified or changed in writing, and such modifications and changes signed by both parties.

THE REMAINDER OF THIS PAGE HAS BEEN INTENTIONALLY LEFT BLANK. CONTINUE TO THE NEXT PAGE FOR SIGNATURES.

IN WITNESS WHEREOF, the parties hereto have executed this Agreement as of the Effective Date.

Department of MANAGEMENT SERVICES
We serve those who serve Florida

State Term Contract No. 80101507-23-STC-ITSA
for
Information Technology Staff Augmentation Services

This Contract is between the State of Florida, Department of Management Services (Department), an agency of the State of Florida, and Randstad North America, Inc. dba Randstad Technologies, LLC (Contractor), collectively referred to herein as the "Parties."

Accordingly, the Parties agree as follows:

I. Initial Contract Term.

The Initial Contract Term shall be for four years, with no renewals. The Initial Contract Term shall begin on October 1, 2023, or on the last date signed by all parties, whichever is later. The Contract shall expire on September 30, 2027, unless terminated earlier in accordance with the Special Contract Conditions or Additional Special Contract Conditions.

II. Contract.

As used in this document, "Contract" (whether or not capitalized) shall, unless the context requires otherwise, include this document and all incorporated Exhibits, which set forth the entire understanding of the Parties and supersedes all prior agreements. All modifications to this Contract must be in writing and signed by all Parties.

All Contract Exhibits listed below are incorporated in their entirety into, and form part of, this Contract. The Contract document and Exhibits shall have priority in the following order:

a) This Contract document
b) Contract Exhibit A, Scope of Work
c) Contract Exhibit B, Additional Special Contract Conditions
d) Contract Exhibit C, Special Contract Conditions
e) Contract Exhibit D, Price Sheet
f) Contract Exhibit E, Resume Self-Certification Form
g) Contract Exhibit F, Contractor Selection Justification Form
h) Contract Exhibit G, Contractor Performance Survey
i) Contract Exhibit H, Job Family Descriptions

DocuSign Envelope ID: 2C7C1590-00EE-4FF7-A168-EF16F329E578

III. Contract Management.

Department's Contract Manager:
Frank Miller
Division of State Purchasing
Florida Department of Management Services
4050 Esplanade Way, Suite 360
Tallahassee, Florida 32399-0950
Telephone: (850) 488-8855
Email: frank.miller@dms.fl.gov

Contractor's Contract Manager:
Name: Melissa Shrout
Randstad North America, Inc. dba Randstad Technologies, LLC
Address:3625 Cumberland Blvd., Suite 600
City, State, Zip: Atlanta, GA 30339
Telephone: (770) 937-7000
Email: rus-contracts@randstadusa.com

This Contract is executed by the undersigned officials as duly authorized. This Contract is not valid and binding on all Parties until signed and dated by both Parties.

Exhibit A
Scope of Work

1. Purpose

To provide Customers with a State Term Contract (STC) for Information Technology Staff Augmentation Services, pursuant to the terms set forth in this Scope of Work.

The Department intends to issue a supplemental Invitation to Bid on an annual basis for the remaining term of the State Term Contract beginning in 2024. New Vendors may submit a bid for Prequalification annually. Additionally, current Vendors on the State Term Contract may submit supplemental bids annually beginning in 2024 to prequalify for additional Job Titles.

2. Definitions

Business Day – Monday through Friday, inclusive, except for those holidays specified in section 110.117, F.S., from 8:00 a.m. to 5:00 p.m., in the time zone the Customer is located.

Ceiling Rate – The maximum price a Contractor may charge for an associated Job Title or Scope Variant.

Confidential Information – Information that is trade secret or otherwise confidential or exempt from disclosure under Florida or federal law.

Contract – The written agreement between the Department and the Contractor resulting from 23-80101507-ITB.

Contractor – A Vendor that enters into a Contract with the Department as a result of 23-80101507-ITB.

Customer – A State Agency or Eligible User, as defined in Rule 60A-1.001, Florida Administrative Code (F.A.C.).

Department – The Department of Management Services, a State Agency.

Information Technology (IT) – as defined in 287.012(15), Florida Statutes (F.S.).

Information Technology (IT) Experience – Experience working in the computer science industry that involves performing IT services and utilizing equipment, hardware, software, firmware, programs, systems, networks, infrastructure, media, and related material.

Information Technology (IT) Staff Augmentation Contract Experience – Demonstrated prior work experience in the allocation and outsourcing of qualified IT Staff to augment a workforce on a temporary basis.

Job Family – A group of related Job Titles within Exhibit H, Job Family Descriptions.

Job Title – The position described within Exhibit H, Job Family Descriptions. The Job Family Descriptions document includes each Job Title's general characteristics and dimensions.

DocuSign Envelope ID: 2C7C1590-00EE-4FF7-A168-EF16F329E578

MyFloridaMarkerPlace (MFMP) – the State of Florida's eProcurement system and connects vendors with state government organizations that purchase goods and services.

Operational Formula – The day-to-day actions of a company that are guided by a policy or procedure that is prescribed for repetitive use as a practice, in accordance with agreed upon operations that are aimed at obtaining a desired outcome.

Principal Personnel – The management of the Contractor's company who makes operational decisions.

Proposed Price – The Vendor's maximum hourly rate for an associated Job Title or Scope Variant for the initial and renewal term. A "not to exceed" price.

Scope Variant – A gradation of experience within a Job Title.

Staff – The temporary staff provided by the Contractor or Contractor's subcontractor(s) to render information technology services identified by Customers.

State – The State of Florida.

3. Contractor's General Responsibilities

The Contractor, regardless of any delegation or subcontract entered by the Contractor, shall be responsible for the following when providing Information Technology Staff Augmentation Services:

3.1 The Contractor is responsible for the comprehensive management of Staff. Staff shall not be deemed an employee of the State or deemed to be entitled to any benefits associated with such employment and the Contractor shall be responsible for the administration and maintenance of all employment and payroll records, payroll processing, remittance of payroll and taxes, and all administrative tasks required by State and federal law associated with payment of Staff.

3.2 The Contractor shall provide Staff in accordance with Customer Request for Quotes (RFQ), and as described in Exhibit H, Job Family Descriptions document. Customers may include a detailed scope of work, specific requirements of the work to be performed, and any requirements of Staff within the Request for Quotes.

3.3 The Contractor shall possess the professional and technical Staff necessary to allocate, outsource, and manage qualified Staff to perform the services requested by the Customer.

3.4 The Contractor shall provide Customers with Staff who have sufficient skill and experience to perform the services assigned to them.

3.5 The Contractor is responsible for ensuring that all Information Technology Staff Augmentation Services furnished under the Contract meet the professional standards and quality that prevails among information technology professionals in the same discipline and of similar knowledge and skill engaged in related work throughout Florida under the same or similar circumstances.

DocuSign Envelope ID: 2C7C1590-00EE-4FF7-A168-EF16F329E578

3.6 The Contractor shall provide, at its own expense, any training necessary for keeping Contractor's Staff abreast of industry advances and for maintaining proficiency in equipment and systems that are available on the commercial market.

3.7 The Contractor shall, at its own expense, be responsible for adhering to the Contract background screening requirements, testing, evaluations, advertising, recruitment, and disciplinary actions of Contractor's Staff.

3.8 The Contractor, throughout the term of the Contract, shall maintain all licenses, permits, qualifications, insurance, and approvals of whatever nature that are legally required for Contractor and Staff to perform the Information Technology Staff Augmentation Services.

3.9 Contractor shall be responsible for all costs associated with the administration of this Contract.

3.10 The Contractor shall adhere to all work policies, procedures, and standards established by the Department and Customer.

3.11 The Contractor shall ensure that Staff conform with the Customer's policies in all respects while on the Customer's premises, and is responsible for obtaining all rules, regulations, policies, etc.

3.12 Contractor shall only provide Information Technology Staff Augmentation services for those Job Titles awarded to the Contractor and shall be paid on an hourly basis. Contracts resulting from this solicitation should not be structured as fixed-price agreements or used for any services requiring authorization for payment of milestone tasks.

4. Subcontracts and Staff

4.1 The Contractor is fully responsible for satisfactory completion of all work on this Contract. The Contractor shall ensure and provide assurances to the Department or Customer upon request, that any subcontractor(s) or Staff provided under this Contract has the necessary qualifications and abilities to perform in accordance with the terms and conditions of this Contract.

The Contractor must provide the Customer with the names of Staff considered for work on a purchase order issued under this Contract. The Customer shall retain the right to reject any Staff whose qualifications or performance, in the Customer's exclusive judgment, is insufficient.

4.2 The Contractor agrees to be responsible for all work performed and all expenses incurred by subcontractors and Staff while performing work under this Contract.

4.3 Any subcontract or Staff arrangements must be evidenced by a written document available to the Department or Customer.

DocuSign Envelope ID: 2C7C1590-00EE-4FF7-A168-EF16F329E578

4.4 The Contractor agrees to make payments to the subcontractor or Staff within seven working days after receipt of full or partial payments from the Customer in accordance with Section 287.0585, F.S., unless otherwise stated in the contract between Contractor and subcontractor or required by law.

4.5 The Contractor agrees that neither the Department nor the Customer shall be liable to any subcontractor or Staff for any expenses or liabilities incurred in furtherance of this Contract, and Contractor shall be solely liable to the subcontractor and Staff for all expenses and liabilities incurred under the Contractor's contract or subcontract. The Contractor, at its expense, shall defend the Customer and the Department against any subcontractor or Staff claims regarding compensation or payment.

4.6 The Department supports diversity in its procurements and contracts, and requests that Contractors who engage in subcontracting offer subcontracting opportunities to certified woman-, veteran-, and minority-owned small businesses. The Contractor may contact the Office of Supplier Diversity at osdinfo@dms.myflorida.com for information on certified business enterprises available for subcontracting opportunities.

5. Conduct of Employees and Staff

Contractor shall ensure that all of Contractor's employees and Staff provided under the Contract shall adhere to the standards of conduct prescribed in the Customer's personnel policy and procedure guidelines, particularly rules of conduct, security procedures, and any other applicable rules, regulations, policies, and procedures of the Customer, including but not limited to Rule Chapter 33-208, Florida Administrative Code. The Contractor shall ensure that all Staff and employees wear attire suitable for the position, either a standard uniform or business casual dress, identified by the Customer.

6. Contractor Security Clearance

Customers may designate certain duties and/or positions as positions of "special trust" because they involve special trust responsibilities, are located in sensitive locations, or have key capabilities with access to sensitive or confidential information. The designation of a special trust position or duties is at the sole discretion of the Customer. Contractor or Contractor's employees and Staff who, in the performance of this Contract, will be assigned to work in positions determined by the Customer to be positions of special trust, may be required to submit to background screening and be approved by the Customer to work on this Contract.

7. Purchasing Card

The State has implemented a purchasing card (P-Card). The Contractor may receive payments via the State's P-Card. P-Card acceptance for purchases is a mandatory requirement for the Contract but is not the exclusive method of payment. If the State changes its P-Card platform during the term of Contract, the Contractor shall make all necessary changes to accept payment via the State's new P-Card platform within 30 calendar days of notification of such change.

DocuSign Envelope ID: 2C7C1590-00EE-4FF7-A168-EF16F329E578

8. Purchase Order Requirements

Customers shall use a Request for Quote per section 287.056(2), Florida Statutes, when making purchases off of this State Term Contract. Customers shall issue Request for Quotes to at least 25 vendors approved to provide IT Staff Augmentation services in accordance with section 287.0591(5), Florida Statutes. Customers shall order services from the Request for Quote via a Purchase Order with the Customers' selected Contractor. The terms of the Purchase Order shall not conflict with the terms and conditions established by this Contract.

In accepting a Purchase Order, the Contractor recognizes its responsibility for all tasks and deliverables contained therein, warrants that it has fully informed itself of all relevant factors affecting accomplishment of the tasks and deliverables and agrees to be fully accountable for the performance thereof.

9. Request for Quotes

9.1 Customers needing Information Technology Staff Augmentation Services will issue a Request for Quote (RFQ) each time they desire to solicit Information Technology Staff Augmentation Services. The Customer shall issue a detailed RFQ that includes a term, service levels, educational qualifications and experience needed.

Pursuant to sections 287.056(2) and 287.0591(5), F.S., an Agency must ensure that a RFQ is issued to a minimum of 25 contracted vendors awarded to provide the applicable information Technology Staff Augmentation contractual services sought by the Agency. Some contractors are not contracted to provide all Job Titles, and the vendors selected to issue a RFQ to must have been awarded to provide the specific Job Title(s) as requested in the Agency RFQ.

9.2 Pursuant to section 287.056(2), F.S., RFQs performed within the scope of this Contract are not independent competitive solicitations and are not subject to the notice or challenge provisions of section 120.57(3), F.S.

9.3 While the specific format of the RFQ is left to the discretion of the agency, Customers will issue a RFQ document each time they desire to solicit Information Technology Staff Augmentation Services and shall send the RFQ document electronically via email or through MFMP to at least 25 Contractors that offer the specific awarded Job Title(s) sought by the Agency. When responding to a RFQ, Contractor must submit a completed Resume Self-Certification Form with the Contractor's response.

9.4 Customers issuing RFQs against this Contract should note when responses are due and when the Customer anticipates awarding the RFQ.

10. Resume Self-Certification Form

When submitting a response to an RFQ, the Contractor shall submit with its response a completed and signed Exhibit E, Resume Self-Certification Form to the Customer for each proposed Staff member identified in the RFQ response.

11. Ongoing Performance Measures

The Department intends to use performance-reporting tools in order to measure the performance of Contractor(s). These tools will include the Contractor Performance Survey (Exhibit G), to be completed by Customers on a quarterly basis. Such measures will allow the Department to better track Vendor performance through the term of the Contract(s) and ensure that Contractor(s) consistently provide quality services to the State and its Customers. The

DocuSign Envelope ID: 2C7C1590-00EE-4FF7-A168-EF16F329E578

Department reserves the right to modify the Contractor Performance Survey document and introduce additional performance-reporting tools as they are developed, including online tools (e.g. tools within MFMP or on the Department's website).

12. Holidays
The following days are observed as holidays by state agencies in accordance with section 110.117, F.S.:

- New Year's Day
- Birthday of Martin Luther King, Jr., third Monday in January
- Memorial Day
- Independence Day
- Labor Day
- Veterans' Day, November 11
- Thanksgiving Day
- Friday after Thanksgiving
- Christmas Day

If any of these holidays falls on Saturday, the preceding Friday shall be observed as a holiday. If any of these holidays falls on Sunday, the following Monday shall be observed as a holiday. Customers may have additional holiday(s) observed specifically by the Customer which will be detailed in the Customer's order.

13. Contract Reporting
The Contractor shall report information on orders received from Customers associated with this Contract. The Contractor shall submit reports in accordance with the following schedule:

Report	Period Covered	Due Date
MFMP Transaction Fee Report	Calendar month	15 calendar days after the end of each month
Quarterly Sales Report	State's Fiscal Quarter	30 calendar days after close of the period
Diversity Report (submitted to the Customer)	State Fiscal Year	30 Business Days after close of the period

14. MFMP Transaction Fee Report
The Contractor is required to submit monthly MFMP Transaction Fee Reports in the Department's electronic format. Reports are due 15 calendar days after the end of the reporting period. For information on how to submit Transaction Fee Reports online, please reference the detailed fee reporting instructions and vendor training presentations available online at the "Transaction Fee & Reporting" section and "Training for Vendors" subsections under the "Vendors" tab on the MFMP website. Assistance with Transaction Fee Reporting is also available from the MFMP Customer Service Desk by email at: VendorHelp@myfloridamarketplace.com or telephone 866-FLA-EPRO (866-352-3776) from 8:00 a.m. to 6:00 p.m. Eastern Time.

DocuSign Envelope ID: 2C7C1590-00EE-4FF7-A168-EF16F329E578

15. Quarterly Sales Reports
The Contractor shall submit a completed Quarterly Sales Report electronically, in the required format, to the Department's Contract Manager within thirty (30) calendar days after close of each quarter. The State's fiscal quarters close on September 30, December 31, March 31, and June 30. The quarterly sales report can be found here: https://www.dms.myflorida.com/business_operations/state_purchasing/vendor_resources/quarterly_sales_report_format.

The Contract Quarterly Sales Report will include all sales and orders associated with this Contract from Customers received during the reporting period. Initiation and submission of the Sales Report is the responsibility of the Contractor without prompting or notification from the DMS Contract Manager.

Failure to provide the quarterly sales report will result in the imposition of financial consequences and may result in the Contractor being found in default and the termination of the Contract. Initiation and submission of the quarterly sales report are the responsibility of the Contractor without prompting or notification by the Department. Sales will be reviewed on a quarterly basis. If no sales are recorded during the period, the Contractor must submit a report stating that there was no activity. If no sales are recorded in two consecutive quarters, the Contractor may be placed in probationary status or the Department may terminate the Contract.

Quarter 1 – (July-September) – due 30 calendar days after the close of the period
Quarter 2 – (October-December) – due 30 calendar days after the close of the period
Quarter 3 – (January-March) – due 30 calendar days after the close of the period
Quarter 4 – (April-June) due 30 calendar days after the close of the period

Exceptions may be made if a delay in submitting reports is attributable to circumstances that are clearly beyond the control of the Contractor. The burden of proof of unavoidable delay shall rest with the Contractor and shall be supplied in a written form and submitted to the Department.

The Department reserves the right to request additional sales information as needed.

16. Certified and Minority Business Enterprises Reports
Upon Customer request, the Contractor shall report to the requesting Customer the Contractor's spend with certified and other minority business enterprises in the provision of commodities or services related to the Customer's orders. These reports shall include the period covered, the name, minority code, and Federal Employer Identification Number of each minority business utilized during the period; commodities and services provided by the minority business enterprise, and the amount paid to each minority business enterprise on behalf of the Customer.

17. Ad Hoc Reports
The Department or Customer may require additional Contract information such as copies of purchase orders or ad hoc sales reports. The Contractor shall submit information in response to these specific ad hoc requests for reports within the specified amount of time as requested by the Department or Customer.

18. Business Review Meetings
In order to maintain the relationship between the Department and the Contractor, each quarter the Department may request a business review meeting. The business review meeting may include, but is not limited to, the following:

DocuSign Envelope ID: 2C7C1590-00EE-4FF7-A168-EF16F329E578

- Successful completion of deliverables
- Review of the Contractor's performance
- Review of minimum required reports
- Addressing of any elevated Customer issues
- Review of continuous improvement ideas that may help lower total costs and improve business efficiencies.

19. Financial Consequences

The Department reserves the right to impose financial consequences when the Contractor fails to comply with the requirements of the Contract. The following financial consequences will apply for the Contractor's non-performance under the Contract. The Customer and the Contractor may agree to add additional Financial Consequences on an as-needed basis beyond those stated herein to apply to that Customer's resultant contract or purchase order. The State of Florida reserves the right to withhold payment or implement other appropriate remedies, such as Contract termination or nonrenewal, when the Contractor has failed to comply with the provisions of the Contract. The Contractor and the Department agree that financial consequences for non-performance are an estimate of damages which are difficult to ascertain and are not penalties.

The financial consequences below will be paid and received by the Department of Management Services within 30 calendar days from the due date specified by the Department. These financial consequences below are individually assessed for failures over each target period beginning with the first full month or quarter of the Contract performance and every month or quarter, respectively, thereafter.

Deliverable	Performance Metric	Performance Due Date	Financial Consequence for Non-Performance
Contractor will timely submit completed Quarterly Sales Reports	All Quarterly Sales Reports will be submitted timely with the required information	Reports are due on or before the 30th calendar day after the close of each State fiscal quarter	$250 per Calendar Day late/not received by the Contract Manager
Contractor will timely submit completed MFMP Transaction Fee Reports	All MFMP Transaction Fee Reports will be submitted timely with the required information	Reports are due on or before the 15th calendar day after the close of each month	$100 per Calendar Day late/not received by the Contract Manager

Failure to timely provide Quarterly Sales Reports, transaction fee reports, or other reports as required will result in the imposition of financial consequences and repeated failures or non- payment of financial consequences owed under this Contract may result in the Contractor being found in default and the termination of the Contract.

No favorable action will be considered when Contractor has outstanding Contract Quarterly Sales Reports, MFMP Transaction Fee Reports, or any other documentation

DocuSign Envelope ID: 2C7C1590-00EE-4FF7-A168-EF16F329E578

owed to the Department or Customer, to include fees / monies, that is required under this Contract.

20. Routine Communications
All routine communications related to the Contract shall be sent to the Department's Contract Manager. If any of the Contractor's contract information changes during the life of the Contract, the Contractor shall notify the Department's Contract Manager; such updates do not necessitate a formal amendment to the Contract. Communications relating to a Customer contract or purchase order should be addressed to the contact person identified in the contract or purchase order. Routine communications may be my email, regular mail, or telephone.

21. Contract Transition
Upon Contract expiration or termination, the Contractor shall ensure a seamless transfer of Contract responsibilities with any subsequent Contractor necessary to transition the Products and services of the Contract. The incumbent Contractor assumes all expenses related to the contract transition.

22. Other Fees and Charges
Additional fees (including but not limited to, property taxes, fuel surcharges, interest fees, license fees, and late payment fees except where permitted by section 215.422(3)(b), F.S.) or fees not permitted elsewhere in the Contract are prohibited.

DocuSign Envelope ID: 2C7C1590-00EE-4FF7-A168-EF16F329E578

Department of MANAGEMENT SERVICES
We serve those who serve Florida

Exhibit B
ADDITIONAL SPECIAL CONTRACT CONDITIONS

A. Special Contract Conditions revisions: the corresponding subsections of the Special Contract Conditions referenced below are replaced in their entirety with the following:

2.2 Renewal.
Upon written agreement, the Department and the Contractor may renew the Contract in whole or in part only as set forth in the Contract documents, and in accordance with section 287.057(14), F.S.

3.2.2 Preferred Pricing
This section intentionally blank.

3.4 Purchase Order.
A Customer may use purchase orders to buy commodities or contractual services pursuant to the Contract and, if applicable, the Contractor must provide commodities or contractual services pursuant to purchase orders. Purchase orders issued pursuant to the Contract must be received by the Contractor no later than the close of business on the last day of the Contract's term. The Contractor is required to accept timely purchase orders specifying delivery schedules that extend beyond the Contract term even when such extended delivery will occur after expiration of the Contract. Purchase orders shall be valid through their specified term and performance by the Contractor, and all terms and conditions of the Contract shall survive the termination or expiration of the Contract and apply to the Contractor's performance. The duration of purchase orders for recurring deliverables shall not exceed the expiration of the Contract by more than twelve months. However, if an extended pricing plan offered in the state term or agency contract is selected by the ordering entity, the contract terms on pricing plans and renewals shall govern the maximum duration of purchase orders reflecting such pricing plans and renewals. Any purchase order terms and conditions conflicting with these Special Contract Conditions shall not become a part of the Contract.

3.7 Transaction Fees.
The State of Florida, through the Department of Management Services, has instituted MyFloridaMarketPlace, a statewide eProcurement system. Pursuant to Section 287.057(24), F.S., all payments shall be assessed a Transaction Fee of one percent (1.0%), or as may otherwise be established by law, which the vendor shall pay to the State.

For payments within the State accounting system (FLAIR or its successor), the Transaction Fee shall, when possible, be automatically deducted from payments to the vendor. If automatic deduction is not possible, the vendor shall pay the Transaction Fee pursuant to subsection 60A-1.031(2), F.A.C. By submission of these reports and corresponding

DocuSign Envelope ID: 2C7C1590-00EE-4FF7-A168-EF16F329E578

payments, vendor certifies their correctness. All such reports and payments shall be subject to audit by the State or its designee.

The vendor shall receive a credit for any Transaction Fee paid by the vendor for the purchase of any item(s) if such item(s) are returned to the vendor through no fault, act, or omission of the vendor. Notwithstanding the foregoing, a Transaction Fee is non-refundable when an item is rejected or returned, or declined, due to the vendor's failure to perform or comply with specifications or requirements of the agreement.

Vendors will submit any monthly reports required pursuant to the rule. All such reports and payments will be subject to audit. Failure to comply with the payment of the Transaction Fees or submission of required reporting of transactions shall constitute grounds for declaring the Vendor in default.

5.1 Conduct of Business.
The Contractor must comply with all laws, rules, codes, ordinances, and licensing requirements that are applicable to the conduct of its business, including those of federal, state, and local agencies having jurisdiction and authority. For example, the Contractor must comply with section 274A of the Immigration and Nationality Act, the Americans with Disabilities Act, Health Insurance Portability and Accountability Act, if applicable, and all prohibitions against discrimination on the basis of race, religion, sex, creed, national origin, handicap, marital status, or veteran's status. The provisions of subparagraphs 287.058(1)(a)-(c) and (g), F.S., are hereby incorporated by reference.

Nothing contained within this Contract shall be construed to prohibit the Contractor from disclosing information relevant to performance of the Contract or purchase order to members or staff of the Florida Senate or Florida House of Representatives.

Pursuant to section 287.057(26), F.S., the Contractor shall answer all questions of, and ensure a representative will be available to, a continuing oversight team.
The Contractor will comply with all applicable disclosure requirements set forth in section 286.101, F.S. In the event the Department of Financial Services issues the Contractor a final order determining a third or subsequent violation pursuant to section 286.101(7)(c), F.S., the Contractor shall immediately notify the Department and applicable Customers and shall be disqualified from Contract eligibility.

5.4 Convicted, Discriminatory, Antitrust Violator, and Suspended Vendor Lists.
In accordance with sections 287.133, 287.134, and 287.137, F.S., the Contractor is hereby informed of the provisions of sections 287.133(2)(a), 287.134(2)(a), and 287.137(2)(a), F.S. For purposes of this Contract, a person or affiliate who is on the Convicted Vendor List, the Discriminatory Vendor List, or the Antitrust Violator Vendor List may not perform work as a contractor, supplier, subcontractor, or consultant under the Contract. The Contractor must notify the Department if it or any of its suppliers, subcontractors, or consultants have been placed on the Convicted Vendor List, the Discriminatory Vendor List, or the Antitrust Violator Vendor List during the term of the Contract.

In accordance with section 287.1351, F.S., a vendor placed on the Suspended Vendor List may not enter into or renew a contract to provide any goods or services to an agency after its placement on the Suspended Vendor List.

DocuSign Envelope ID: 2C7C1590-00EE-4FF7-A168-EF16F329E578

A firm or individual placed on the Suspended Vendor List pursuant to section 287.1351, F.S., the Convicted Vendor List pursuant to section 287.133, F.S., the Antitrust Violator Vendor List pursuant to section 287.137, F.S., or the Discriminatory Vendor List pursuant to section 287.134, F.S., is immediately disqualified from Contract eligibility.

5.6 Cooperation with Inspector General and Records Retention.
Pursuant to section 20.055(5), F.S., the Contractor understands and will comply with its duty to cooperate with the Inspector General in any investigation, audit, inspection, review, or hearing. Upon request of the Inspector General or any other authorized State official, the Contractor must provide any information the Inspector General deems relevant. Such information may include, but will not be limited to, the Contractor's business or financial records, documents, or files of any type or form that refer to or relate to the Contract. The Contractor will retain such records for the longer of five years after the expiration or termination of the Contract, or the period required by the General Records Schedules maintained by the Florida Department of State, at the Department of State's Records Management website. The Contractor agrees to reimburse the State of Florida for the reasonable costs of investigation incurred by the Inspector General or other authorized State of Florida official for investigations of the Contractor's compliance with the terms of this or any other agreement between the Contractor and the State of Florida which results in the suspension or debarment of the Contractor. Such costs will include but will not be limited to: salaries of investigators, including overtime; travel and lodging expenses; and expert witness and documentary fees. The Contractor agrees to impose the same obligations to cooperate with the Inspector General and retain records on any subcontractors used to provide goods or services under the Contract.

6.10 Cooperative Purchasing. Pursuant to their own governing laws, and subject to the agreement of the Contractor, governmental entities that are not Customers may make purchases under the terms and conditions contained herein, if agreed to by Contractor. Such purchases are independent of the Contract between the Department and the Contractor, and the Department is not a party to these transactions. Agencies seeking to make purchases under this Contract are required to follow the requirements of Rule 60A-1.045(6), F.A.C.

8.1.1 Termination of Contract.
The Department may terminate the Contract for refusal by the Contractor to comply with this section by not allowing access to all public records, as defined in Chapter 119, F.S., made or received by the Contractor in conjunction with the Contract unless the records are exempt from s. 24(a) of Art. I of the State Constitution and section 119.071(1), F.S.

8.1.2 Statutory Notice.
Pursuant to section 119.0701(2)(a), F.S., for contracts for services with a contractor acting on behalf of a public agency, as defined in section 119.011(2), F.S., the following applies:

IF THE CONTRACTOR HAS QUESTIONS REGARDING THE APPLICATION OF CHAPTER 119, FLORIDA STATUTES, TO THE CONTRACTOR'S DUTY TO PROVIDE PUBLIC RECORDS RELATING TO THIS CONTRACT, CONTACT THE DEPARTMENT'S CUSTODIAN OF PUBLIC RECORDS AT PUBLICRECORDS@DMS.FL.GOV, (850) 487-1082 OR 4050 ESPLANADE WAY, SUITE 160, TALLAHASSEE, FLORIDA 32399-0950.

DocuSign Envelope ID: 2C7C1590-00EE-4FF7-A168-EF16F329E578

Pursuant to section 119.0701(2)(b), F.S., for contracts for services with a contractor acting on behalf of a public agency as defined in section 119.011(2), F.S., the Contractor shall:

(a) Keep and maintain public records required by the public agency to perform the service.

(b) Upon request from the public agency's custodian of public records, provide the public agency with a copy of the requested records or allow the records to be inspected or copied within a reasonable time at a cost that does not exceed the cost provided in Chapter 119, F.S., or as otherwise provided by law.

(c) Ensure that public records that are exempt or confidential and exempt from public records disclosure are not disclosed except as authorized by law for the duration of the Contract term and following the completion of the Contract if the Contractor does not transfer the records to the public agency.

(d) Upon completion of the Contract, transfer, at no cost, to the public agency all public records in possession of the Contractor or keep and maintain public records required by the public agency to perform the service. If the Contractor transfers all public records to the public agency upon completion of the Contract, the Contractor shall destroy any duplicate public records that are exempt or confidential and exempt from public records disclosure requirements. If the Contractor keeps and maintains public records upon completion of the Contract, the Contractor shall meet all applicable requirements for retaining public records. All records stored electronically must be provided to the public agency, upon request from the public agency's custodian of public records, in a format that is compatible with the information technology systems of the public agency.

12.1 Performance or Compliance Audits.
The Department may conduct or have conducted performance and/or compliance audits of the Contractor and subcontractors as determined by the Department. The Department may conduct an audit and review all the Contractor's and subcontractors' data and records that directly relate to the Contract. To the extent necessary to verify the Contractor's fees and claims for payment under the Contract, the Contractor's agreements or contracts with subcontractors, partners, or agents of the Contractor, pertaining to the Contract, may be inspected by the Department upon fifteen (15) calendar days' notice, during normal working hours and in accordance with the Contractor's facility access procedures where facility access is required. Release statements from its subcontractors, partners, or agents are not required for the Department or its designee to conduct compliance and performance audits on any of the Contractor's contracts relating to this Contract. The Inspector General, in accordance with section 5.6, the State of Florida's Chief Financial Officer, and the Office of the Auditor General shall also have authority to perform audits and inspections.

13.2 E-Verify.
The Contractor and its subcontractors shall register with and use the U.S. Department of Homeland Security's (DHS) E-Verify system to verify the work authorization status of all new employees of the contractor or subcontractor in accordance with section 448.095, F.S. The Contractor shall obtain an affidavit from its subcontractors in accordance with paragraph (5)(b) of section 448.095, F.S., and maintain a copy of such affidavit for the duration of the Contract.

B. Special Contract Conditions additions: the following subsection is added to the Special Contract Conditions:

DocuSign Envelope ID: 2C7C1590-00EE-4FF7-A168-EF16F329E578

12.3 Document Inspection.
In accordance with section 216.1366, F.S., the Department or a state agency is authorized to inspect the: (a) financial records, papers, and documents of the Contractor that are directly related to the performance of the Contract or the expenditure of state funds; and (b) programmatic records, papers, and documents of the Contractor which the Department or state agency determines are necessary to monitor the performance of the Contract or to ensure that the terms of the Contract are being met. The Contractor shall provide such records, papers, and documents requested by the Department or a state agency within 10 Business Days after the request is made.

SECTION 1. DEFINITION.

The following definition applies in addition to the definitions in Chapter 287, Florida Statutes (F.S.), and Rule Chapter 60A-1, Florida Administrative Code (F.A.C.):

1.1 Customer.
The agency or eligible user that purchases commodities or contractual services pursuant to the Contract.

SECTION 2. CONTRACT TERM AND TERMINATION.

2.1 Initial Term.
The initial term will begin on the date set forth in the Contract documents or on the date the Contract is signed by all Parties, whichever is later.

2.2 Renewal.
Upon written agreement, the Department and the Contractor may renew the Contract in whole or in part only as set forth in the Contract documents, and in accordance with section 287.057(13), F.S.

2.3 Suspension of Work and Termination.

2.3.1 Suspension of Work.
The Department may, at its sole discretion, suspend any or all activities under the Contract, at any time, when it is in the best interest of the State of Florida to do so. The Customer may suspend a resulting contract or purchase order, at any time, when in the best interest of the Customer to do so. The Department or Customer will provide the Contractor written notice outlining the particulars of the suspension. After receiving a suspension notice, the Contractor must comply with the notice and will cease the performance of the Contract or purchase order. Suspension of work will not entitle the Contractor to any additional compensation. The Contractor will not resume performance of the Contract or purchase order until so authorized by the Department.

2.3.2 Termination for Convenience.
The Contract may be terminated by the Department in whole or in part at any time, in the best interest of the State of Florida. If the Contract is terminated before performance is completed, the Contractor will be paid only for that work satisfactorily performed for which costs can be substantiated. Such payment, however, may not exceed an amount which is the same percentage of the Contract price as the amount of work satisfactorily performed. All work in progress will become the property of the Customer and will be turned over promptly by the Contractor.

2.3.3 Termination for Cause.
If the performance of the Contractor is not in compliance with the Contract requirements or the Contractor has defaulted, the Department may:

(a) immediately terminate the Contract;
(b) notify the Contractor of the noncompliance or default, require correction, and specify the date by which the correction must be completed before the Contract is terminated; or
(c) take other action deemed appropriate by the Department.

DocuSign Envelope ID: 2C7C1590-00EE-4FF7-A168-EF16F329E578

SECTION 3. PAYMENT AND FEES.

3.1 Pricing.
The Contractor will not exceed the pricing set forth in the Contract documents.

3.2 Price Decreases.
The following price decrease terms will apply to the Contract:

3.2.1 Quantity Discounts. Contractor may offer additional discounts for one-time delivery of large single orders;

3.2.2 Preferred Pricing. The Contractor guarantees that the pricing indicated in this Contract is a maximum price. Additionally, Contractor's pricing will not exceed the pricing offered under comparable contracts. Comparable contracts are those that are similar in size, scope, and terms. In compliance with section 216.0113, F.S., Contractor must annually submit an affidavit from the Contractor's authorized representative attesting that the Contract complies with this clause.

3.2.3 Sales Promotions. In addition to decreasing prices for the balance of the Contract term due to a change in market conditions, the Contractor may conduct sales promotions involving price reductions for a specified lesser period. The Contractor must submit documentation identifying the proposed: (1) starting and ending dates of the promotion, (2) commodities or contractual services involved, and (3) promotional prices compared to then-authorized prices.

3.3 Payment Invoicing.
The Contractor will be paid upon submission of invoices to the Customer after delivery and acceptance of commodities or contractual services is confirmed by the Customer. Invoices must contain sufficient detail for an audit and contain the Contract Number and the Contractor's Federal Employer Identification Number.

3.4 Purchase Order.
A Customer may use purchase orders to buy commodities or contractual services pursuant to the Contract and, if applicable, the Contractor must provide commodities or contractual services pursuant to purchase orders. Purchase orders issued pursuant to the Contract must be received by the Contractor no later than the close of business on the last day of the Contract's term. The Contractor is required to accept timely purchase orders specifying delivery schedules that extend beyond the Contract term even when such extended delivery will occur after expiration of the Contract. Purchase orders shall be valid through their specified term and performance by the Contractor, and all terms and conditions of the Contract shall survive the termination or expiration of the Contract and apply to the Contractor's performance. The duration of purchase orders for recurring deliverables shall not exceed the expiration of the Contract by more than twelve months. Any purchase order terms and conditions conflicting with these Special Contract Conditions shall not become a part of the Contract.

3.5 Travel.
Travel expenses are not reimbursable unless specifically authorized by the Customer in writing and may be reimbursed only in accordance with section 112.061, F.S.

DocuSign Envelope ID: 2C7C1590-00EE-4FF7-A168-EF16F329E578

3.6 Annual Appropriation.
Pursuant to section 287.0582, F.S., if the Contract binds the State of Florida or an agency for the purchase of services or tangible personal property for a period in excess of one fiscal year, the State of Florida's performance and obligation to pay under the Contract is contingent upon an annual appropriation by the Legislature.

3.7 Transaction Fees.
The State of Florida, through the Department of Management Services, has instituted MyFloridaMarketPlace, a statewide eProcurement system pursuant to section 287.057(22), F.S. All payments issued by Customers to registered Vendors for purchases of commodities or contractual services will be assessed Transaction Fees as prescribed by rule 60A-1.031, F.A.C., or as may otherwise be established by law. Vendors must pay the Transaction Fees and agree to automatic deduction of the Transaction Fees when automatic deduction becomes available. Vendors will submit any monthly reports required pursuant to the rule. All such reports and payments will be subject to audit. Failure to comply with the payment of the Transaction Fees or reporting of transactions will constitute grounds for declaring the Vendor in default and subject the Vendor to exclusion from business with the State of Florida.

3.8 Taxes.
Taxes, customs, and tariffs on commodities or contractual services purchased under the Contract will not be assessed against the Customer or Department unless authorized by Florida law.

3.9 Return of Funds.
Contractor will return any overpayments due to unearned funds or funds disallowed pursuant to the terms of the Contract that were disbursed to the Contractor. The Contractor must return any overpayment within forty (40) calendar days after either discovery by the Contractor, its independent auditor, or notification by the Department or Customer of the overpayment.

SECTION 4. CONTRACT MANAGEMENT.

4.1 Composition and Priority.
The Contractor agrees to provide commodities or contractual services to the Customer as specified in the Contract. Additionally, the terms of the Contract supersede the terms of all prior agreements between the Parties on this subject matter.

4.2 Notices.
All notices required under the Contract must be delivered to the designated Contract Manager in a manner identified by the Department.

4.3 Department's Contract Manager.
The Department's Contract Manager, who is primarily responsible for the Department's oversight of the Contract, will be identified in a separate writing to the Contractor upon Contract signing in the following format:

Department's Contract Manager Name

DocuSign Envelope ID: 2C7C1590-00EE-4FF7-A168-EF16F329E578

Department's Name
Department's Physical Address
Department's Telephone #
Department's Email Address

If the Department changes the Contract Manager, the Department will notify the Contractor. Such a change does not require an amendment to the Contract.

4.4 Contractor's Contract Manager.
The Contractor's Contract Manager, who is primarily responsible for the Contractor's oversight of the Contract performance, will be identified in a separate writing to the Department upon Contract signing in the following format:

Contractor's Contract Manager Name
Contractor's Name
Contractor's Physical Address
Contractor's Telephone #
Contractor's Email Address

If the Contractor changes its Contract Manager, the Contractor will notify the Department. Such a change does not require an amendment to the Contract.

4.5 Diversity.

4.5.1 Office of Supplier Diversity.
The State of Florida supports its diverse business community by creating opportunities for woman-, veteran-, and minority-owned small business enterprises to participate in procurements and contracts. The Department encourages supplier diversity through certification of woman-, veteran-, and minority-owned small business enterprises and provides advocacy, outreach, and networking through regional business events. For additional information, please contact the Office of Supplier Diversity (OSD) at osdinfo@dms.myflorida.com.

4.5.2 Diversity Reporting.
Upon request, the Contractor will report to the Department its spend with business enterprises certified by the OSD. These reports must include the time period covered, the name and Federal Employer Identification Number of each business enterprise utilized during the period, commodities and contractual services provided by the business enterprise, and the amount paid to the business enterprise on behalf of each agency purchasing under the Contract.

4.6 RESPECT.
Subject to the agency determination provided for in section 413.036, F.S., the following statement applies:

IT IS EXPRESSLY UNDERSTOOD AND AGREED THAT ANY ARTICLES THAT ARE THE SUBJECT OF, OR REQUIRED TO CARRY OUT, THIS CONTRACT SHALL BE PURCHASED FROM A NONPROFIT AGENCY FOR THE BLIND OR FOR THE SEVERELY HANDICAPPED THAT IS QUALIFIED PURSUANT TO CHAPTER 413, FLORIDA STATUTES, IN THE SAME MANNER AND UNDER THE SAME PROCEDURES SET FORTH IN SECTION 413.036(1) AND (2), FLORIDA STATUTES;

DocuSign Envelope ID: 2C7C1590-00EE-4FF7-A168-EF16F329E578

AND FOR PURPOSES OF THIS CONTRACT THE PERSON, FIRM, OR OTHER BUSINESS ENTITY CARRYING OUT THE PROVISIONS OF THIS CONTRACT SHALL BE DEEMED TO BE SUBSTITUTED FOR THE STATE AGENCY INSOFAR AS DEALINGS WITH SUCH QUALIFIED NONPROFIT AGENCY ARE CONCERNED.

Additional information about RESPECT and the commodities or contractual services it offers is available at https://www.respectofflorida.org.

4.7 PRIDE.
Subject to the agency determination provided for in sections 287.042(1) and 946.515, F.S., the following statement applies:

IT IS EXPRESSLY UNDERSTOOD AND AGREED THAT ANY ARTICLES WHICH ARE THE SUBJECT OF, OR REQUIRED TO CARRY OUT, THIS CONTRACT SHALL BE PURCHASED FROM THE CORPORATION IDENTIFIED UNDER CHAPTER 946, F.S., IN THE SAME MANNER AND UNDER THE SAME PROCEDURES SET FORTH IN SECTION 946.515(2) AND (4), F.S.; AND FOR PURPOSES OF THIS CONTRACT THE PERSON, FIRM, OR OTHER BUSINESS ENTITY CARRYING OUT THE PROVISIONS OF THIS CONTRACT SHALL BE DEEMED TO BE SUBSTITUTED FOR THIS AGENCY INSOFAR AS DEALINGS WITH SUCH CORPORATION ARE CONCERNED.

Additional information about PRIDE and the commodities or contractual services it offers is available at https://www.pride-enterprises.org.

SECTION 5. COMPLIANCE WITH LAWS.

5.1 Conduct of Business.
The Contractor must comply with all laws, rules, codes, ordinances, and licensing requirements that are applicable to the conduct of its business, including those of federal, state, and local agencies having jurisdiction and authority. For example, the Contractor must comply with section 274A of the Immigration and Nationality Act, the Americans with Disabilities Act, Health Insurance Portability and Accountability Act, if applicable, and all prohibitions against discrimination on the basis of race, religion, sex, creed, national origin, handicap, marital status, or veteran's status. The provisions of subparagraphs 287.058(1)(a)-(c), and (g), F.S., are hereby incorporated by reference.

5.2 Dispute Resolution, Governing Law, and Venue.
Any dispute concerning performance of the Contract shall be decided by the Department's designated Contract Manager, who will reduce the decision to writing and serve a copy on the Contractor. The decision of the Contract Manager shall be final and conclusive. Exhaustion of this administrative remedy is an absolute condition precedent to the Contractor's ability to pursue legal action related to the Contract or any other form of dispute resolution. The laws of the State of Florida govern the Contract. The Parties submit to the jurisdiction of the courts of the State of Florida exclusively for any legal action related to the Contract. Further, the Contractor hereby waives all privileges and rights relating to venue it may have under Chapter 47, F.S., and all such venue privileges and rights it may have under any other statute, rule, or case law, including, but not limited to, those based on convenience. The Contractor hereby submits to venue in the county chosen by the Department.

5.3 Department of State Registration.

DocuSign Envelope ID: 2C7C1590-00EE-4FF7-A168-EF16F329E578

Consistent with Title XXXVI, F.S., the Contractor and any subcontractors that assert status, other than a sole proprietor, must provide the Department with conclusive evidence of a certificate of status, not subject to qualification, if a Florida business entity, or of a certificate of authorization if a foreign business entity.

5.4 Suspended, Convicted, and Discriminatory Vendor Lists.
In accordance with sections 287.042, 287.133, and 287.134, F.S., an entity or affiliate who is on the Suspended Vendor List, Convicted Vendor List, or Discriminatory Vendor List may not perform work as a contractor, supplier, subcontractor, or consultant under the Contract. The Contractor must notify the Department if it or any of its suppliers, subcontractors, or consultants have been placed on the Suspended Vendor List, Convicted Vendor List, or Discriminatory Vendor List during the term of the Contract.

5.5 Scrutinized Companies - Termination by the Department.
The Department may, at its option, terminate the Contract if the Contractor is found to have submitted a false certification as provided under section 287.135(5), F.S., or been placed on the Scrutinized Companies with Activities in Sudan List or the Scrutinized Companies with Activities in the Iran Petroleum Energy Sector List, or been engaged in business operations in Cuba or Syria, or to have been placed on the Scrutinized Companies that Boycott Israel List or is engaged in a boycott of Israel.

5.6 Cooperation with Inspector General and Records Retention.
Pursuant to section 20.055(5), F.S., the Contractor understands and will comply with its duty to cooperate with the Inspector General in any investigation, audit, inspection, review, or hearing. Upon request of the Inspector General or any other authorized State official, the Contractor must provide any information the Inspector General deems relevant to the Contractor's integrity or responsibility. Such information may include, but will not be limited to, the Contractor's business or financial records, documents, or files of any type or form that refer to or relate to the Contract. The Contractor will retain such records for the longer of five years after the expiration of the Contract, or the period required by the General Records Schedules maintained by the Florida Department of State, at the Department of State’s Records Management website. The Contractor agrees to reimburse the State of Florida for the reasonable costs of investigation incurred by the Inspector General or other authorized State of Florida official for investigations of the Contractor's compliance with the terms of this or any other agreement between the Contractor and the State of Florida which results in the suspension or debarment of the Contractor. Such costs will include but will not be limited to: salaries of investigators, including overtime; travel and lodging expenses; and expert witness and documentary fees. The Contractor agrees to impose the same obligations to cooperate with the Inspector General and retain records on any subcontractors used to provide goods or services under the Contract.

SECTION 6. MISCELLANEOUS.

6.1 Subcontractors.
The Contractor will not subcontract any work under the Contract without prior written consent of the Department. The Contractor is fully responsible for satisfactory completion of all its subcontracted work. The Department supports diversity in its procurements and contracts, and requests that the Contractor offer subcontracting opportunities to certified woman-, veteran-, and minority-owned small businesses. The

DocuSign Envelope ID: 2C7C1590-00EE-4FF7-A168-EF16F329E578

Contractor may contact the OSD at osdhelp@dms.myflorida.com for information on certified small business enterprises available for subcontracting opportunities.

6.2 Assignment.
The Contractor will not sell, assign, or transfer any of its rights, duties, or obligations under the Contract without the prior written consent of the Department. However, the Contractor may waive its right to receive payment and assign same upon notice to the Department. In the event of any assignment, the Contractor remains responsible for performance of the Contract, unless such responsibility is expressly waived by the Department. The Department may assign the Contract with prior written notice to the Contractor.

6.3 Independent Contractor.
The Contractor and its employees, agents, representatives, and subcontractors are independent contractors and not employees or agents of the State of Florida and are not entitled to State of Florida benefits. The Department and Customer will not be bound by any acts or conduct of the Contractor or its employees, agents, representatives, or subcontractors. The Contractor agrees to include this provision in all its subcontracts under the Contract.

6.4 Inspection and Acceptance of Commodities.

6.4.1 Risk of Loss.
Matters of inspection and acceptance are addressed in section 215.422, F.S. Until acceptance, risk of loss or damage will remain with the Contractor. The Contractor will be responsible for filing, processing, and collecting all damage claims. To assist the Contractor with damage claims, the Customer will: record any evidence of visible damage on all copies of the delivering carrier's bill of lading; report damages to the carrier and the Contractor; and provide the Contractor with a copy of the carrier's bill of lading and damage inspection report.

6.4.2 Rejected Commodities.
When a Customer rejects a commodity, Contractor will remove the commodity from the premises within ten (10) calendar days after notification of rejection, and the risk of loss will remain with the Contractor. Commodities not removed by the Contractor within ten (10) calendar days will be deemed abandoned by the Contractor, and the Customer will have the right to dispose of such commodities. Contractor will reimburse the Customer for costs and expenses incurred in storing or effecting removal or disposition of rejected commodities.

6.5 Safety Standards.
Performance of the Contract for all commodities or contractual services must comply with requirements of the Occupational Safety and Health Act and other applicable State of Florida and federal requirements.

6.6 Ombudsman.
A Vendor Ombudsman has been established within the Department of Financial Services. The duties of this office are found in section 215.422, F.S., which include disseminating information relative to prompt payment and assisting contractors in receiving their payments in a timely manner from a Customer. The Vendor Ombudsman may be contacted at (850) 413-5516.

DocuSign Envelope ID: 2C7C1590-00EE-4FF7-A168-EF16F329E578

6.7 Time is of the Essence.
Time is of the essence regarding every obligation of the Contractor under the Contract. Each obligation is deemed material, and a breach of any such obligation (including a breach resulting from untimely performance) is a material breach.

6.8 Waiver.
The delay or failure by the Department or the Customer to exercise or enforce any rights under the Contract will not constitute waiver of such rights.

6.9 Modification and Severability.
The Contract may only be modified by written agreement between the Department and the Contractor. Should a court determine any provision of the Contract is invalid, the remaining provisions will not be affected, and the rights and obligations of the Parties will be construed and enforced as if the Contract did not contain the provision held invalid.

6.10 Cooperative Purchasing.
Pursuant to their own governing laws, and subject to the agreement of the Contractor, governmental entities that are not Customers may make purchases under the terms and conditions contained herein, if agreed to by Contractor. Such purchases are independent of the Contract between the Department and the Contractor, and the Department is not a party to these transactions. Agencies seeking to make purchases under this Contract are required to follow the requirements of Rule 60A-1.045(5), F.A.C.

SECTION 7. LIABILITY AND INSURANCE.

7.1 Workers' Compensation Insurance.
The Contractor shall maintain workers' compensation insurance as required under the Florida Workers' Compensation Law or the workers' compensation law of another jurisdiction where applicable. The Contractor must require all subcontractors to similarly provide workers' compensation insurance for all of the latter's employees. In the event work is being performed by the Contractor under the Contract and any class of employees performing the work is not protected under Workers' Compensation statutes, the Contractor must provide, and cause each subcontractor to provide, adequate insurance satisfactory to the Department, for the protection of employees not otherwise protected.

7.2 General Liability Insurance.
The Contractor must secure and maintain Commercial General Liability Insurance, including bodily injury, property damage, products, personal and advertising injury, and completed operations. This insurance must provide coverage for all claims that may arise from performance of the Contract or completed operations, whether by the Contractor or anyone directly or indirectly employed by the Contractor. Such insurance must include the State of Florida as an additional insured for the entire length of the resulting contract. The Contractor is responsible for determining the minimum limits of liability necessary to provide reasonable financial protections to the Contractor and the State of Florida under the resulting contract.

7.3 Florida Authorized Insurers.

DocuSign Envelope ID: 2C7C1590-00EE-4FF7-A168-EF16F329E578

All insurance shall be with insurers authorized and eligible to transact the applicable line of insurance business in the State of Florida. The Contractor shall provide Certification(s) of Insurance evidencing that all appropriate coverage is in place and showing the Department to be an additional insured.

7.4 Performance Bond.
Unless otherwise prohibited by law, the Department may require the Contractor to furnish, without additional cost to the Department, a performance bond or irrevocable letter of credit or other form of security for the satisfactory performance of work hereunder. The Department shall determine the type and amount of security.

7.5 Indemnification.
To the extent permitted by Florida law, the Contractor agrees to indemnify, defend, and hold the Customer and the State of Florida, its officers, employees, and agents harmless from all fines, claims, assessments, suits, judgments, or damages, including consequential, special, indirect, and punitive damages, including court costs and attorney's fees, arising from or relating to violation or infringement of a trademark, copyright, patent, trade secret, or intellectual property right or out of any acts, actions, breaches, neglect, or omissions of the Contractor, its employees, agents, subcontractors, assignees, or delegates related to the Contract, as well as for any determination arising out of or related to the Contract that the Contractor or Contractor's employees, agents, subcontractors, assignees, or delegates are not independent contractors in relation to the Customer. The Contract does not constitute a waiver of sovereign immunity or consent by the Customer or the State of Florida or its subdivisions to suit by third parties. Without limiting this indemnification, the Customer may provide the Contractor (1) written notice of any action or threatened action, (2) the opportunity to take over and settle or defend any such action at Contractor's sole expense, and (3) assistance in defending the action at Contractor's sole expense.

7.6 Limitation of Liability.
Unless otherwise specifically enumerated in the Contract or in the purchase order, neither the Department nor the Customer shall be liable for special, indirect, punitive, or consequential damages, including lost data or records (unless the Contract or purchase order requires the Contractor to back-up data or records), even if the Department or Customer has been advised that such damages are possible. Neither the Department nor the Customer shall be liable for lost profits, lost revenue, or lost institutional operating savings. The Department or Customer may, in addition to other remedies available to them at law or equity and upon notice to the Contractor, retain such monies from amounts due Contractor as may be necessary to satisfy any claim for damages, penalties, costs, and the like asserted by or against them. The State may set off any liability or other obligation of the Contractor or its affiliates to the State against any payments due the Contractor under any contract with the State.

SECTION 8. PUBLIC RECORDS, TRADE SECRETS, DOCUMENT MANAGEMENT, AND INTELLECTUAL PROPERTY.

8.1 Public Records.

8.1.1 Termination of Contract.

DocuSign Envelope ID: 2C7C1590-00EE-4FF7-A168-EF16F329E578

The Department may terminate the Contract for refusal by the Contractor to comply with this section by not allowing access to all public records, as defined in Chapter 119, F. S., made or received by the Contractor in conjunction with the Contract.

8.1.2 Statutory Notice.
Pursuant to section 119.0701(2)(a), F.S., for contracts for services with a contractor acting on behalf of a public agency, as defined in section 119.011(2), F.S., the following applies:

IF THE CONTRACTOR HAS QUESTIONS REGARDING THE APPLICATION OF CHAPTER 119, FLORIDA STATUTES, TO THE CONTRACTOR'S DUTY TO PROVIDE PUBLIC RECORDS RELATING TO THIS CONTRACT, CONTACT THE CUSTODIAN OF PUBLIC RECORDS AT THE TELEPHONE NUMBER, EMAIL ADDRESS, AND MAILING ADDRESS PROVIDED IN THE RESULTING CONTRACT OR PURCHASE ORDER.

Pursuant to section 119.0701(2)(b), F.S., for contracts for services with a contractor acting on behalf of a public agency as defined in section 119.011(2), F.S., the Contractor shall:

(a) Keep and maintain public records required by the public agency to perform the service.
(b) Upon request from the public agency's custodian of public records, provide the public agency with a copy of the requested records or allow the records to be inspected or copied within a reasonable time at a cost that does not exceed the cost provided in Chapter 119, F.S., or as otherwise provided by law.
(c) Ensure that public records that are exempt or confidential and exempt from public records disclosure are not disclosed except as authorized by law for the duration of the Contract term and following the completion of the Contract if the Contractor does not transfer the records to the public agency.
(d) Upon completion of the Contract, transfer, at no cost, to the public agency all public records in possession of the Contractor or keep and maintain public records required by the public agency to perform the service. If the Contractor transfers all public records to the public agency upon completion of the Contract, the Contractor shall destroy any duplicate public records that are exempt or confidential and exempt from public records disclosure requirements. If the Contractor keeps and maintains public records upon completion of the Contract, the Contractor shall meet all applicable requirements for retaining public records. All records stored electronically must be provided to the public agency, upon request from the public agency's custodian of public records, in a format that is compatible with the information technology systems of the public agency.

8.2 Protection of Trade Secrets or Otherwise Confidential Information.

8.2.1 Contractor Designation of Trade Secrets or Otherwise Confidential Information.
If the Contractor considers any portion of materials to be trade secret under section 688.002 or 812.081, F.S., or otherwise confidential under Florida or federal law, the Contractor must clearly designate that portion of the materials as trade secret or otherwise confidential when submitted to the Department. The Contractor will be

DocuSign Envelope ID: 2C7C1590-00EE-4FF7-A168-EF16F329E578

responsible for responding to and resolving all claims for access to Contract-related materials it has designated trade secret or otherwise confidential.

8.2.2 Public Records Requests.
If the Department receives a public records request for materials designated by the Contractor as trade secret or otherwise confidential under Florida or federal law, the Contractor will be responsible for taking the appropriate legal action in response to the request. If the Contractor fails to take appropriate and timely action to protect the materials designated as trade secret or otherwise confidential, the Department will provide the materials to the requester.

8.2.3 Indemnification Related to Confidentiality of Materials.
The Contractor will protect, defend, indemnify, and hold harmless the Department for claims, costs, fines, and attorney's fees arising from or relating to its designation of materials as trade secret or otherwise confidential.

8.3 Document Management.
The Contractor must retain sufficient documentation to substantiate claims for payment under the Contract and all other records, electronic files, papers, and documents that were made in relation to this Contract. The Contractor must retain all documents related to the Contract for five (5) years after expiration of the Contract or, if longer, the period required by the General Records Schedules maintained by the Florida Department of State available at the Department of State's Records Management website.

8.4 Intellectual Property.

8.4.1 Ownership.
Unless specifically addressed otherwise in the Contract, the State of Florida shall be the owner of all intellectual property rights to all property created or developed in connection with the Contract.

8.4.2 Patentable Inventions or Discoveries.
Any inventions or discoveries developed in the course, or as a result, of services in connection with the Contract that are patentable pursuant to 35 U.S.C. § 101 are the sole property of the State of Florida. Contractor must inform the Customer of any inventions or discoveries developed or made through performance of the Contract, and such inventions or discoveries will be referred to the Florida Department of State for a determination on whether patent protection will be sought. The State of Florida will be the sole owner of all patents resulting from any invention or discovery made through performance of the Contract.

8.4.3 Copyrightable Works.
Contractor must notify the Department or State of Florida of any publications, artwork, or other copyrightable works developed in connection with the Contract. All copyrights created or developed through performance of the Contract are owned solely by the State of Florida.

SECTION 9. DATA SECURITY.

DocuSign Envelope ID: 2C7C1590-00EE-4FF7-A168-EF16F329E578

The Contractor will maintain the security of State of Florida data including, but not limited to, maintaining a secure area around any displayed visible data and ensuring data is stored and secured when not in use. The Contractor and subcontractors will not perform any of the services from outside of the United States, and the Contractor will not allow any State of Florida data to be sent by any medium, transmitted, or accessed outside the United States due to Contractor's action or inaction. In the event of a security breach involving State of Florida data, the Contractor shall give notice to the Customer and the Department within one business day. "Security breach" for purposes of this section will refer to a confirmed event that compromises the confidentiality, integrity, or availability of data. Once a data breach has been contained, the Contractor must provide the Department with a post-incident report documenting all containment, eradication, and recovery measures taken. The Department reserves the right in its sole discretion to enlist a third party to audit Contractor's findings and produce an independent report, and the Contractor will fully cooperate with the third party. The Contractor will also comply with all HIPAA requirements and any other state and federal rules and regulations regarding security of information.

SECTION 10. GRATUITIES, LOBBYING, AND COMMUNICATIONS.

10.1 Gratuities.
The Contractor will not, in connection with this Contract, directly or indirectly (1) offer, give, or agree to give anything of value to anyone as consideration for any State of Florida officer's or employee's decision, opinion, recommendation, vote, other exercise of discretion, or violation of a known legal duty, or (2) offer, give, or agree to give to anyone anything of value for the benefit of, or at the direction or request of, any State of Florida officer or employee.

10.2 Lobbying.
In accordance with sections 11.062 and 216.347, F.S., Contract funds are not to be used for the purpose of lobbying the Legislature, the judicial branch, or the Department. Pursuant to section 287.058(6), F.S., the Contract does not prohibit the Contractor from lobbying the executive or legislative branch concerning the scope of services, performance, term, or compensation regarding the Contract after the Contract is executed and during the Contract term.

10.3 Communications.

10.3.1 Contractor Communication or Disclosure.
The Contractor shall not make any public statements, press releases, publicity releases, or other similar communications concerning the Contract or its subject matter or otherwise disclose or permit to be disclosed any of the data or other information obtained or furnished in compliance with the Contract, without first notifying the Customer's Contract Manager and securing the Customer's prior written consent.

10.3.2 Use of Customer Statements.
The Contractor shall not use any statement attributable to the Customer or its employees for the Contractor's promotions, press releases, publicity releases, marketing, corporate communications, or other similar communications, without first notifying the Customer's Contract Manager and securing the Customer's prior written consent.

DocuSign Envelope ID: 2C7C1590-00EE-4FF7-A168-EF16F329E578

SECTION 11. CONTRACT MONITORING.

11.1 Performance Standards.
The Contractor agrees to perform all tasks and provide deliverables as set forth in the Contract. The Department and the Customer will be entitled at all times, upon request, to be advised as to the status of work being done by the Contractor and of the details thereof.

11.2 Performance Deficiencies and Financial Consequences of Non-Performance.

11.2.1 Proposal of Corrective Action Plan.
In addition to the processes set forth in the Contract (e.g., service level agreements), if the Department or Customer determines that there is a performance deficiency that requires correction by the Contractor, then the Department or Customer will notify the Contractor. The correction must be made within a time-frame specified by the Department or Customer. The Contractor must provide the Department or Customer with a corrective action plan describing how the Contractor will address all performance deficiencies identified by the Department or Customer.

11.2.2 Retainage for Unacceptable Corrective Action Plan or Plan Failure.
If the corrective action plan is unacceptable to the Department or Customer, or implementation of the plan fails to remedy the performance deficiencies, the Department or Customer will retain ten percent (10%) of the total invoice amount. The retainage will be withheld until the Contractor resolves the performance deficiencies. If the performance deficiencies are resolved, the Contractor may invoice the Department or Customer for the retained amount. If the Contractor fails to resolve the performance deficiencies, the retained amount will be forfeited to compensate the Department or Customer for the performance deficiencies.

11.3 Performance Delay.

11.3.1 Notification.
The Contractor will promptly notify the Department or Customer upon becoming aware of any circumstances that may reasonably be expected to jeopardize the timely and successful completion (or delivery) of any commodity or contractual service. The Contractor will use commercially reasonable efforts to avoid or minimize any delays in performance and will inform the Department or the Customer of the steps the Contractor is taking or will take to do so, and the projected actual completion (or delivery) time. If the Contractor believes a delay in performance by the Department or the Customer has caused or will cause the Contractor to be unable to perform its obligations on time, the Contractor will promptly so notify the Department and use commercially reasonable efforts to perform its obligations on time notwithstanding the Department’s delay.

11.3.2 Liquidated Damages.
The Contractor acknowledges that delayed performance will damage the DepartmentCustomer, but by their nature such damages are difficult to ascertain. Accordingly, the liquidated damages provisions stated in the Contract documents will apply. Liquidated damages are not intended to be a penalty and are solely intended to compensate for damages.

11.4 Force Majeure, Notice of Delay, and No Damages for Delay.

DocuSign Envelope ID: 2C7C1590-00EE-4FF7-A168-EF16F329E578

The Contractor will not be responsible for delay resulting from its failure to perform if neither the fault nor the negligence of the Contractor or its employees or agents contributed to the delay, and the delay is due directly to fire, explosion, earthquake, windstorm, flood, radioactive or toxic chemical hazard, war, military hostilities, terrorism, civil emergency, embargo, riot, strike, violent civil unrest, or other similar cause wholly beyond the Contractor's reasonable control, or for any of the foregoing that affect subcontractors or suppliers if no alternate source of supply is available to the Contractor. The foregoing does not excuse delay which could have been avoided if the Contractor implemented any risk mitigation required by the Contract. In case of any delay the Contractor believes is excusable, the Contractor will notify the Department in writing of the delay or potential delay and describe the cause of the delay either (1) within ten (10) calendar days after the cause that created or will create the delay first arose, if the Contractor could reasonably foresee that a delay could occur as a result, or (2) if delay is not reasonably foreseeable, within five (5) calendar days after the date the Contractor first had reason to believe that a delay could result. The foregoing will constitute the Contractor's sole remedy or excuse with respect to delay. Providing notice in strict accordance with this paragraph is a condition precedent to such remedy. No claim for damages will be asserted by the Contractor. The Contractor will not be entitled to an increase in the Contract price or payment of any kind from the Department for direct, indirect, consequential, impact or other costs, expenses or damages, including but not limited to costs of acceleration or inefficiency, arising because of delay, disruption, interference, or hindrance from any cause whatsoever. If performance is suspended or delayed, in whole or in part, due to any of the causes described in this paragraph, after the causes have ceased to exist the Contractor will perform at no increased cost, unless the Department determines, in its sole discretion, that the delay will significantly impair the value of the Contract to the State of Florida or to Customers, in which case the Department may (1) accept allocated performance or deliveries from the Contractor, provided that the Contractor grants preferential treatment to Customers and the Department with respect to commodities or contractual services subjected to allocation, or (2) purchase from other sources (without recourse to and by the Contractor for the related costs and expenses) to replace all or part of the commodity or contractual services that are the subject of the delay, which purchases may be deducted from the Contract quantity, or (3) terminate the Contract in whole or in part.

SECTION 12. CONTRACT AUDITS.

12.1 Performance or Compliance Audits.
The Department may conduct or have conducted performance and/or compliance audits of the Contractor and subcontractors as determined by the Department. The Department may conduct an audit and review all the Contractor's and subcontractors' data and records that directly relate to the Contract. To the extent necessary to verify the Contractor's fees and claims for payment under the Contract, the Contractor's agreements or contracts with subcontractors, partners, or agents of the Contractor, pertaining to the Contract, may be inspected by the Department upon fifteen (15) calendar days' notice, during normal working hours and in accordance with the Contractor's facility access procedures where facility access is required. Release statements from its subcontractors, partners, or agents are not required for the Department or its designee to conduct compliance and performance audits on any of the Contractor's contracts relating to this Contract. The Inspector General, in accordance with section 5.6, the State of Florida's Chief Financial Officer, the Office of the Auditor General also have authority to perform audits and inspections.

DocuSign Envelope ID: 2C7C1590-00EE-4FF7-A168-EF16F329E578

12.2 Payment Audit.
Records of costs incurred under terms of the Contract will be maintained in accordance with section 8.3 of these Special Contract Conditions. Records of costs incurred will include the Contractor's general accounting records, together with supporting documents and records of the Contractor and all subcontractors performing work, and all other records of the Contractor and subcontractors considered necessary by the Department, the State of Florida's Chief Financial Officer, or the Office of the Auditor General.

SECTION 13. BACKGROUND SCREENING AND SECURITY.

13.1 Background Check.
The Department or Customer may require the Contractor to conduct background checks of its employees, agents, representatives, and subcontractors as directed by the Department or Customer. The cost of the background checks will be borne by the Contractor. The Department or Customer may require the Contractor to exclude the Contractor's employees, agents, representatives, or subcontractors based on the background check results. In addition, the Contractor must ensure that all persons have a responsibility to self-report to the Contractor within three (3) calendar days any arrest for any disqualifying offense. The Contractor must notify the Contract Manager within twenty-four (24) hours of all details concerning any reported arrest. Upon the request of the Department or Customer, the Contractor will re-screen any of its employees, agents, representatives, and subcontractors during the term of the Contract.

13.2 E-Verify.
The Contractor must use the U.S. Department of Homeland Security's E-Verify system to verify the employment eligibility of all new employees hired during the term of the Contract for the services specified in the Contract. The Contractor must also include a requirement in subcontracts that the subcontractor must utilize the E-Verify system to verify the employment eligibility of all new employees hired by the subcontractor during the Contract term. In order to implement this provision, the Contractor must provide a copy of its DHS Memorandum of Understanding (MOU) to the Contract Manager within five (5) calendar days of Contract execution. If the Contractor is not enrolled in DHS E-Verify System, it will do so within five (5) calendar days of notice of Contract award and provide the Contract Manager a copy of its MOU within five (5) calendar days of Contract execution. The link to E-Verify is https://www.uscis.gov/e-verify. Upon each Contractor or subcontractor new hire, the Contractor must provide a statement within five (5) calendar days to the Contract Manager identifying the new hire with its E-Verify case number.

13.3 Disqualifying Offenses.
If at any time it is determined that a person has been found guilty of a misdemeanor or felony offense as a result of a trial or has entered a plea of guilty or nolo contendere, regardless of whether adjudication was withheld, within the last six (6) years from the date of the court's determination for the crimes listed below, or their equivalent in any jurisdiction, the Contractor is required to immediately remove that person from any position with access to State of Florida data or directly performing services under the Contract. The disqualifying offenses are as follows:

(a) Computer related crimes;
(b) Information technology crimes;

DocuSign Envelope ID: 2C7C1590-00EE-4FF7-A168-EF16F329E578

(c) Fraudulent practices;
(d) False pretenses;
(e) Frauds;
(f) Credit card crimes;
(g) Forgery;
(h) Counterfeiting;
(i) Violations involving checks or drafts;
(j) Misuse of medical or personnel records; and
(k) Felony theft.

13.4 Confidentiality.
The Contractor must maintain confidentiality of all confidential data, files, and records related to the commodities or contractual services provided pursuant to the Contract and must comply with all state and federal laws, including, but not limited to sections 381.004, 384.29, 392.65, and 456.057, F.S. The Contractor's confidentiality procedures must be consistent with the most recent version of the Department security policies, protocols, and procedures. The Contractor must also comply with any applicable professional standards with respect to confidentiality of information.

SECTION 14. WARRANTY OF CONTRACTOR'S ABILITY TO PERFORM.

The Contractor warrants that, to the best of its knowledge, there is no pending or threatened action, proceeding, or investigation, or any other legal or financial condition, that would in any way prohibit, restrain, or diminish the Contractor's ability to satisfy its Contract obligations. The Contractor warrants that neither it nor any affiliate is currently on the Suspended Vendor List, Convicted Vendor List, or the Discriminatory Vendor List, or on any similar list maintained by any other state or the federal government. The Contractor shall immediately notify the Department in writing if its ability to perform is compromised in any manner during the term of the Contract.

Resume Self-Certification Form

The Contractor's candidates shall complete this Resume Self-Certification Form. Completed Resume Self-Certification Forms shall be submitted within the Contractor's response to Customer's Request for Quotes.

"I the undersigned do hereby certify, under the penalty of perjury, that information in my resume submitted for consideration of the State of Florida contract position is true, correct, complete, and made in good faith to the best of my knowledge and belief. If an omission, falsification, misstatement, or misrepresentation has been made regarding my education, work ability, experience, employment history, and/or fitness for employment as a contractor, I may be disqualified as a contractor, and the matter will be reported to appropriate agency or law enforcement personnel. I understand that there may be civil and/or criminal penalties for misrepresenting pertinent information in connection with contract positions, including, but not limited to, penalties available under sections 287.133 or 817.566, Florida Statutes. I further understand that if I am not a United States citizen, violation cases may be reported to the US Department of Homeland Security for potential deportation."

"In addition, I the undersigned do hereby consent to the release of my information by employers, educational institutions, law enforcement agencies, and other individuals and organizations to investigators and other authorized agents of Florida for verification and investigation purposes. I understand that any documents submitted to procure a contract(s) with the State of Florida, including resumes, are public records."

Contractor Performance Survey
Rating Definitions

Excellent (3)

- There are no quality problems.
- There are no cost issues.
- There are no delays.
- Responses to inquiries, technical, service, and administrative issues are effective and responsive.

Acceptable (2)

- Non-conformances do not impact achievement of contract requirements.
- Cost issues do not impact achievement of contract requirements.
- Delays do not impact achievement of contract requirements.
- Response to inquiries, technical, service, and administrative issues is usually effective and responsive.

Poor (1)

- Non-conformances are compromising the achievement of contract requirements.
- Cost issues are compromising performance of contract requirements.
- Delays are compromising the achievement of contract requirements.
- Response to inquiries, technical, service, and administrative issues is not effective and responsive.

Scoring: Ratings will be averaged together and then rounded to achieve the Overall Contractor Performance Rating.

EXHIBIT H

JOB FAMILY DESCRIPTIONS

JOB FAMILY: APPLICATIONS DEVELOPMENT

Job Title: Director, Systems and Programming **Job#: 1200**

General Characteristics

Responsible for the full systems development life cycle management of projects/programs. Provides direction for technical and business resources. Actively participates in long-range strategy planning and manages policy development to address complex business issues, provides leadership to cross-functional teams. Serves as the primary point of contact from project/program inception to delivery. Defines and develops project management infrastructure, manages a methodology driven quality plan, monitors and controls the quality of the deliverable, as well as manages the project completion process through customer acceptance. Works with business unit managers and forms alliances on projects, operational decisions, scheduling requirements/conflicts and vendor contract clarification.

Dimensions

Education:

Bachelor's or Master's Degree in Computer Science, Information Systems, or other related field. Or equivalent work experience.

Experience:

A minimum of 10 years of IT and business/industry work experience, with at least 3 years of leadership experience in managing multiple, large, cross-functional teams or projects, and influencing senior level management and key stakeholders. Requires advanced technical and business knowledge in software development life cycle, quality assurance, project management and other related disciplines/processes.

Breadth:

Senior level management in systems analysis and applications development. Has overall responsibility for department decisions and management. Provides strategic direction, coaches and mentors more junior management staff and/or senior technical staff. Accountable for IT functional/departmental results. Frequently reports to a Chief Information Officer or Chief Technology Officer.

DocuSign Envelope ID: 2C7C1590-00EE-4FF7-A168-EF16F329E578

EXHIBIT H

JOB FAMILY DESCRIPTIONS

JOB FAMILY: APPLICATIONS DEVELOPMENT

Job Title: Manager, Applications Development **Job#: 1210**

General Characteristics

Coordinates systems analysis and applications development activities through direct and indirect staff. Directs development teams in the areas of scheduling, technical direction, future planning and standard development practices. Participates in budgeting and capital equipment processes and quality improvement activities for the development organization. Meets scheduled milestones to ensure project/ program objectives are met in a timely manner and has an in-depth knowledge of the principles, theories, practices and techniques for managing the activities related to planning, managing and implementing systems analysis and applications development projects and programs.

Dimensions

Education:

Bachelor's Degree in Computer Science, Information Systems, or other related field. Or equivalent work experience.

Experience:

A minimum of 7 years of IT and business work experience including managing team(s) in systems analysis and/or programming functions.

Breadth:

Middle level management in systems analysis and programming functions. Typically manages and mentors supervisors, project leads and/or technical staff. Works under general direction of senior level management. Frequently reports to a Director, Systems and Programming, Departmental IT Executive or Operating Unit IT Executive.

DocuSign Envelope ID: 2C7C1590-00EE-4FF7-A168-EF16F329E578

JOB FAMILY DESCRIPTIONS

JOB FAMILY: APPLICATIONS DEVELOPMENT

Job Title: Applications Architect **Job#: 1220**

General Characteristics

Provides design recommendations based on long-term IT organization strategy. Develops enterprise level application and custom integration solutions including major enhancements and interfaces, functions and features. Uses a variety of platforms to provide automated systems applications to customers. Provides expertise regarding the integration of applications across the business. Determines specifications, then plans, designs, and develops the most complex and business critical software solutions, utilizing appropriate software engineering processes—either individually or in concert with project team. Will assist in the most difficult support problems.

Develops programming and development standards and procedures as well as programming architectures for code reuse. Has in-depth knowledge of state-of-the art programming languages and object-oriented approaches in designing, coding, testing and debugging programs. Understands and consistently applies the attributes and processes of current application development methodologies. Researches and maintains knowledge in emerging technologies and possible application to the business. Viewed both internally and externally as a technical expert and critical technical resource across multiple disciplines. Acts as an internal consultant, advocate, mentor and change agent.

Dimensions

Education:

Bachelor’s or Master’s Degree in Computer Science, Information Systems, or other related field. Or equivalent work experience.

Experience:

A minimum of 7 years of experience in multiple IT areas and 2–3 years of relevant architecture experience. Requires advanced to expert level knowledge and understanding of architecture, applicationssystems design and integration.

Complexity:

Expert/lead technical role. Typically works on multiple IT projects as a project leader. Works on projects/issues of high complexity that require in-depth knowledge across multiple technical areas and business segments. Coaches and mentors more junior technical staff.

JOB FAMILY DESCRIPTIONS

JOB FAMILY: APPLICATIONS DEVELOPMENT

Job Title: Enterprise Application Integration (EAI) Engineer **Job#: 1230**

General Characteristics

Responsible for developing and deploying integrated solutions aimed at modernizing, consolidating and coordinating the independently designed applications within and across the enterprises. Determines how existing applications, legacy systems, databases, Web interfaces and/or hardware logic, which may be currently operating on multiple platforms, work together to meet the new and emerging enterprise requirements. Develops methods to efficiently reuse existing components. Works with users to gather business requirements, performs database analysis, codes and tests middleware routines to ensure successful and seamless communication among the various IT systems and applications components. Participates in component and data architecture design, software product evaluation and buy vs. build recommendations. Possesses skills and knowledge of Enterprise Application Integration (EAI) methodologies and processes such as object-oriented programming, distributed, cross-platform program communication using message brokers with Common Object Request Broker Architecture, enterprise-wide content and data distribution using common databases and data standards implemented with the Extensible Markup Language (XML), middleware applications and message queuing approaches.

Dimensions

Education:

Bachelor’s or Master’s Degree in Computer Science, Information Systems, or other related field. Or equivalent work experience.

Experience:

A minimum of 5 years of programming/systems analysis experience with emphasis in applications andsystems architectural design and development, database and middleware technologies.

Complexity:

Advanced professional level role. Works on projects that may span a broad range of systems and enterprise-wide complex components. Requires in-depth knowledge across multiple technical environments and possesses increased level of business knowledge. Works on major projects providing subject matter expertise and technical direction to more junior technical staff.

JOB FAMILY: DATA STRATEGY AND MANAGEMENT

Job Title: Database Manager **Job#: 1400**

General Characteristics
Responsible for ensuring the design, maintenance and implementation of database management systems, which provides the organization with orderly methods of data storage and controlled access to data. Possesses the technical expertise to provide leadership and manage the design and development of the organization's database environment. Ensures the design and installation of database management system applications and the establishment of the appropriate linkages to existing database applications and to other data processing systems. Ensures the development of a backup and recovery scheme for the database environment and the development and implementation of disaster recovery and business continuance procedures.

Dimensions
Education:
Bachelor's Degree in Computer Science, Information Systems, or other related field. Or equivalent work experience.

Experience:
A minimum of 7 years of experience in development, implementation and maintenance of database management systems across multiple platforms. Requires prior management, supervisory or team leader experience including project management experience.

Breadth:
Middle level management in database management and administration functions. Works under general direction of senior level management. Typically manages and mentors supervisors, project leaders and/or technical staff. Frequently reports to a Chief Technology Officer, IT Chief Operating Officer, Director, Systems and Programming, Operating Unit IT Executive or Departmental IT Executive.

JOB FAMILY DESCRIPTIONS

JOB FAMILY: DATA STRATEGY AND MANAGEMENT

Job Title: Data Architect **Job#: 1410**

General Characteristics

Responsible for enterprise-wide data design, balancing optimization of data access with batch loading and resource utilization factors. Knowledgeable in most aspects of designing and constructing data architectures, operational data stores, and data marts. Focuses on enterprise-wide data modeling and database design. Defines data architecture standards, policies and procedures for the organization, structure, attributes and nomenclature of data elements, and applies accepted data content standards to technology projects. Responsible for business analysis, data acquisition and access analysis and design, Database Management Systems optimization, recovery strategy and load strategy design and implementation.

Dimensions

Education:

Bachelor’s or Master’s Degree in Computer Science, Information Systems, or other related field. Or equivalent work experience.

Experience:

A minimum of 7 years of experience with large and complex database management systems.

Complexity:

Expert/lead technical role. Defines and plans database architectures for enterprise systems. Works on multiple projects as a project leader or as the subject matter expert. Works on projects/issues of high complexity that require in-depth knowledge across multiple technical areas and business segments. Coaches and mentors more junior technical staff.

JOB FAMILY DESCRIPTIONS

JOB FAMILY: DATA STRATEGY AND MANAGEMENT

Job Title: Data Modeler **Job#: 1420**

General Characteristics

Accountable for analyzing and developing complex logical database designs, logical data models and relational data definitions in support of corporate and customer information systems requirements. Understands the methodologies and technologies that depict the flow of data within and between technology systems and business functions/operations. Responsible for the identification and resolution of information flow, content issues and the transformation of business requirements into logical data models. This position identifies opportunities to reduce data redundancy, trends in data uses and single sources of data.

Dimensions

Education:

Bachelor’s Degree in Computer Science, Information Systems, or other related field. Or equivalent work experience.

Experience:

A minimum of 4 years of IT work experience in data modeling, data analysis, relational DBMS design and support and relevant computing environments.

Complexity:

Intermediate professional level role. Designs logical data models of low to medium complexity. Works on small to large, complex projects that require increased skill in multiple technical environments. Works on one or more projects as a project team member or sometimes as a project lead. May coach more junior technical staff.

JOB FAMILY DESCRIPTIONS

JOB FAMILY: DATA STRATEGY AND MANAGEMENT

Job Title: Database Analyst **Job#: 1430**

General Characteristics

Responsible for designing, modeling, developing and supporting Database Management Systems (DBMS). Analyzes data requirements, application and processing architectures, data dictionaries, and database schema(s), and then designs, develops, amends, optimizes, and certifies database schema design to meet system(s) requirements. Gathers, analyzes, and normalizes relevant information related to, and from business processes, functions, and operations to evaluate data credibility and determine relevance and meaning. Develops database and warehousing designs across multiple platforms and computing environments. Develops an overall data architecture that supports the information needs of the business in a flexible but secure environment.

Dimensions

Education:

Bachelor’s Degree in Computer Science, Information Systems, or other related field. Or equivalent work experience.

Experience:

A minimum of 3 years of IT work experience in DBA, DBMS design and support and relevant computing environments.

Complexity:

Intermediate professional level role. Designs and supports DBMS of low to medium complexity. Works on one or more projects as a project team member or sometimes as a project leader. May coach more junior technical staff.

JOB FAMILY DESCRIPTIONS

JOB FAMILY: DATA STRATEGY AND MANAGEMENT

Job Title: Database Administrator **Job#: 1440**

General Characteristics

Manages and maintains all production and non-production databases. Responsible for standards and design of physical data storage, maintenance, access and security administration. Performs backup and recovery on Database Management Systems, configures database parameters, and prototype designs against logical data models, defines data repository requirements, data dictionaries and warehousing requirements. This position optimizes database access and allocates/re-allocates database resources for optimum configuration, database performance and cost.

Dimensions

Education:

Bachelor's Degree in Computer Science, Information Systems, or other related field. Or equivalent work experience.

Experience:

A minimum of 3 years of experience working with various database management systems in database design, testing, implementation, maintenance and administration in a multiple platform environment.

Complexity:

Intermediate professional level role. Supports multiple services and multiple databases of medium to high complexity (complexity defined by database size, technology used, systems feeds and interfaces) with multiple concurrent users, ensuring control, integrity and accessibility of data. Works on multiple projects as a project leader or sometimes as a project advisor. May coach more junior technical staff.

JOB FAMILY: QUALITY ASSURANCE

Job Title: Manager, Quality Assurance **Job#: 1600**

General Characteristics

Responsible for managing the definition, implementation and integration of quality principles and quality processes into the design and development of software and IT processes. Ensures that quality methods and procedures are executed. Ensures that products, applications, and systems are in compliance with established quality standards, and meet customer requirements. Analyzes best-in-class processes, establishes customer satisfaction metrics, understands the interaction and relationship of business operations and operating systems and network processes. Champions the application of quality principles in business and IT processes through training, meeting and team facilitation, communication programs and team building activities. Responsible for researching, developing and implementing testing methods and procedures. Ensures that products meet the highest quality standards. Monitors and reports on defects.

Dimensions

Education:

Bachelor’s Degree in Computer Science, Information Systems, or other related field. Or equivalent work experience.

Experience:

A minimum of 7 years of systems development and business experience. Experience in developing and conducting test processes for multiple types of systems, client users and/or units across an organization. Requires prior management, supervisory or team leader experience.

Breadth:

Middle level management in quality assurance functions. Works under general direction of senior level management. Typically manages and mentors supervisors, project leaders and/or technical staff. Acts as a project leader and a subject matter expert on multiple and complex projects. Frequently reports to a IT Chief Operating Officer, Operating Unit IT Executive, Departmental IT Executive or Director, Systems and Programming.

JOB FAMILY DESCRIPTIONS

JOB FAMILY: QUALITY ASSURANCE

Job Title: Quality Engineering Consultant **Job#: 1610**

General Characteristics

Responsible for establishing and implementing quality assurance and compliance processes for the IT organization. Works closely with IT leaders to develop and implement an overall quality maturity roadmap and plan for each IT functional area. Works with development, testing and production teams to develop, publish and implement software quality assurance plans. Reviews progress toward the plan regularly with IT leaders, technical teams and customers to make modifications as necessary. Establishes internal IT service quality control standards, policies and procedures. Monitors, evaluates, manages and executes audit processes to ensure compliance. Coordinates and facilitates quality assurance activities across projects with project managers. Provides guidance and subject matter expertise to IT teams on QA methodologies and processes, educates them on their responsibilities/accountabilities for the purpose of achieving on-time and quality deliverables. Makes recommendations and directs improvements to the software development lifecycle process. Documents non-compliance to policies, process and standards and assists in their resolution. Analyzes and identifies trends in IT performance metrics. Designs, monitors and analyzes performance metrics program for quality improvement initiatives. Conducts audits and analyzes findings to develop appropriate corrective action recommendations. Provides training on established processes and policies. Needed skills and knowledge include systems lifecycle development, project management, quality management and improvement methodologies and standards such as Total Quality Management (TQM), Six Sigma and the Software Engineering Institute—Capability Maturity Model (SEI-CMM).

Dimensions

Education:

Bachelor’s or Master’s Degree in Computer Science, Information Systems, Business Administration, or other related field. Or equivalent work experience.

Experience:

A minimum of 7 years of IT and business experience, with at least 5 years in Quality Assurance, 2 to 3 years of audit or assessment or other relevant experience.

Complexity:

Expert/lead technical role. Provides strategic direction, guidance and integrated solutions to enterprise-wide quality engineering initiatives. Works on multiple projects as a project leader or as the subject matter expert. Works on projects/issues of high complexity that require in-depth knowledge across multiple technical areas and business segments. Coaches and mentors more junior technical staff.

JOB FAMILY DESCRIPTIONS

JOB FAMILY: INTERNET PLANNING, ENGINEERING AND OPERATIONS

Job Title: Internet/Web Architect **Job#: 2610**

General Characteristics

Responsible for gathering business requirements and translating them into Internet/Web architecture to achieve business objectives. Analyzes assigned specifications, planning, designing, and developing solutions, utilizing appropriate Internet/Intranet/Extranet architecture processes supporting a wide range of content—either individually or in concert with project team members. Provides appropriate documentation for object design decisions, estimating assumptions, applets, and performance metrics—as required by organization architecture process standards, or as assigned. Responsible for minimizing the issues between the client and the server applications and for the overall set-up and design of the Internet and Web server architecture. Impact and complexity of this job increases if organization is utilizing Internet solutions (vs. only Intranet), especially those with significant business impact (e.g., e-business).

Dimensions

Education:

Bachelor's or Master's Degree in Computer Science, Information Systems, or other related field. Or equivalent work experience.

Experience:

A minimum of 5 years of IT work experience with demonstrated knowledge in architecture design, software development, database management systems and systems integration in multi-platform environments.

Complexity:

Advanced professional level role. Defines Web architectures and design for the enterprise. Works on multiple projects as a project leader or frequently as the subject matter expert. Works on projects/issues of medium to high complexity that require demonstrated knowledge across multiple technical areas and business segments. Coaches and mentors more junior technical staff.

DocuSign Envelope ID: 2C7C1590-00EE-4FF7-A168-EF16F329E578

JOB FAMILY DESCRIPTIONS

JOB FAMILY: INTERNET PLANNING, ENGINEERING AND OPERATIONS

Job Title: Internet/Web Engineer **Job#: 2620**

General Characteristics
Integrally involved in the development and support of all Internet/Intranet/Extranet sites and supporting systems. Works closely with other IT groups and customers to define the system design and user interface based on customer needs and objectives. Participates in all phases of the development and implementation process, and may act as a project manager on special projects. Ensures the integration of the Web servers and all other supporting systems. Responsible for system tuning, optimization of information/data processing, maintenance and support of the production environment.

Dimensions
Education:
Bachelor’s Degree in Computer Science, Information Systems, or other related field. Or equivalent work experience.

Experience:
A minimum of 4 years of IT work experience in systems analysis, development and engineering in an online environment.

Complexity:
Intermediate professional level role. Develops solutions requiring analysis and research. Works on small to large, complex projects that require increased skill in multiple technical environments and possesses knowledge in a specific business area. Works on one or more projects as a project team member or occasionally as a project leader. May coach more junior technical staff.

JOB FAMILY DESCRIPTIONS

JOB FAMILY: INTERNET PLANNING, ENGINEERING AND OPERATIONS

Job Title: Web Applications Programmer **Job#: 2630**

General Characteristics

Develops, maintains, and supports applications for the organization's Internet/Intranet sites. Gathers and analyzes requirements. Programs all or selected components of Web applications. Documents components and applications. Develops automation techniques to enable end-user content publishing; programs, tests and implements mapped graphic images, forms and HTML pages; handles client browser support inquiries; maintains links to external sites and accuracy on internal links while ensuring up-to-date information. Researches, evaluates and recommends new Internet tools and applications for use in assigned responsibilities. The senior level Web Applications Programmer has experience in a variety of the more difficult Web tools and languages.

Dimensions

Education:

Bachelor's Degree in Computer Science, Information Systems, or other related field. Or equivalent work experience.

Experience:

A minimum of 3 years of IT work experience in software development, installation and modification in an online environment.

Complexity:

Intermediate professional level role. Develops solutions requiring analysis and research. Works on small to large, complex projects that require increased skill in multiple technical environments and possesses knowledge in a specific business area. JOB FAMILY DESCRIPTIONS

JOB FAMILY: INTERNET PLANNING, ENGINEERING AND OPERATIONS

Job Title: Web Designer **Job#: 2640**

General Characteristics

Responsible for the design, development and creation of user-centered designs for Web sites. Responsibilities include human factors engineering, heuristic evaluations and usability testing for Web and client based applications as well as metrics setting and monitoring for assessing the usability of the Web application. Works to improve the usability, usefulness, and desirability of Web sites in collaboration with Graphic Designers, Product Managers, Engineering Staff and other Web Designers. Must be able to perform usability tests, provide design prototypes and provide ad hoc user interface consulting.

Responsible for requirements gathering and articulation of user interface issues—including development of page/site prototypes. Must be knowledgeable of user-centered design methodology, user scenarios, usability testing, storyboarding, paper and interactive prototypes.

Must have demonstrated skills in graphic applications, HTML development tools and other applicable authoring tools, Web production, front-end development using programming and scripting languages. Must be able to integrate design into program rules and system architecture and create innovative approaches to improving the end-user experience. Must be familiar with platform/browser compatibility and basic usability issues.

Dimensions

Education:

Bachelor’s Degree in Computer Science, Information Systems, Graphic Design, or other related field. Or equivalent work experience.

Experience:

A minimum of 3 years of combined IT and graphic design experience. Able to understand HTML and strong working knowledge of Web generators and photographic libraries. Possesses a portfolio of Web sites or solutions.

Complexity:

Intermediate professional level role. Works on moderately complex, to complex projects that require a solid understanding of Web design and layout. Works on multiple projects as a team member and sometimes as a project leader. May coach more junior technical staff.

JOB FAMILY DESCRIPTIONS

JOB FAMILY: INTERNET PLANNING, ENGINEERING AND OPERATIONS

Job Title: Webmaster **Job#: 2650**

General Characteristics

Accountable for the design, upgrading, enhancement, maintenance, availability and effectiveness of technical functionality and content for one or more Web sites of the enterprise. Coordinates the publishing of Web site content, user interface, look/feel and level of specificity to suit a wide range of needs. Responsible for working closely with marketing and systems teams to coordinate content, developing on-going site structure and updates. Knowledge and experience in HTML, including style sheets, templates, complex tables, frames, image maps, CGI programming, applets, animation, multimedia design and delivery, and Web publishing procedures, is essential.

Primary focus is generally on gathering requirements that relate to the organization's business objectives relative to site audiences, and continuous content updates and site upgrades to enhance site hits/visits. Webmaster, in a junior role, would focus more extensively on programming content rather than the technical aspects of this position. Impact and complexity of this job increases if organization is utilizing Internet solutions (vs. only Intranet), especially those having significant business impact (e.g., e-business).

Dimensions

Education:

Bachelor's Degree in Computer Science, Information Systems, or other related field. Or equivalent work experience.

Experience:

A minimum of 4 years of IT work experience. Experience in systems administration, Web graphic design, development and implementation experience using HTML, Perl and CGI languages.

Complexity:

Intermediate professional level role. Works on projects/systems/issues of medium to high complexity. Provides design, implementation, maintenance and administration support for Web systems and services. Works on one or more projects as a project team member, occasionally as a project leader. May coach more junior technical staff.

JOB FAMILY DESCRIPTIONS

JOB FAMILY: INTERNET PLANNING, ENGINEERING AND OPERATIONS

Job Title: Internet/Web Systems Administrator **Job#: 2660**

General Characteristics

Responsible for ensuring the control, integrity, and accessibility of the Internet/Intranet for the enterprise. Responsible for change management procedures regarding the installation and testing of all upgrades and enhancements for the Internet/Intranet infrastructure. Responsible for proper initial installation as well as subsequent installations of updates/patches; preparation of system documentation; proactive, regular checks of system components for errors and application of necessary corrective action; set-up and maintenance of Web servers. Knowledgeable in all levels of Internet/Web security and the associated requirements for their application. Designs, develops and administers firewalls as a means of preventing unauthorized access to enterprise networks. Provides technical support to internal users and external customers; troubleshoots problems and takes corrective action on a timely, effective basis.

Dimensions

Education:

Bachelor’s Degree in Computer Science, Information Systems, or other related field. Or equivalent work experience.

Experience:

A minimum of 3 years of IT work experience with Web-related software and hardware products, and systems administration experience with multi-platform environments.

Complexity:

Intermediate professional level role. Works on small to large, moderately complex Web sites. Works on multiple Web sites as a project team member, occasionally as a project leader. May coach more junior technical staff.

JOB FAMILY DESCRIPTIONS

JOB FAMILY: INTERNET PLANNING, ENGINEERING AND OPERATIONS

Job Title: Web Customer Support Specialist **Job#: 2670**

General Characteristics

Responsible for providing support services to users of Internet and Extranet sites. Provides technical advice and guidance relative to problems involving user interface, browser, hardware and supporting software. Troubleshoots and restores routine technical service and equipment troubles by analyzing, identifying and diagnosing faults and symptoms using established processes and procedures. Maintains a knowledge database and call tracking database to enhance quality of problem resolutions.

Coordinates efforts with the Help Desk to ensure all calls outside the customer environment are effectively resolved. Works in a team setting, sharing information and assisting others with calls. Provides input to Web development team for site improvements based on customer feedback. This job is very similar to an experienced Help Desk professional, with the added responsibility of interfacing directly with external customers to the business. As a result, customer service and technical competencies are very critical, as this may be the only “live” interface a customer has with the business.

Dimensions

Education:

Bachelor’s Degree in Computer Science, Information Systems, or other related field. Or equivalent work experience.

Experience:

A minimum of 3 years IT work experience in PC or client/server platform, network or systems administration in relevant computing environments.

Complexity:

Intermediate professional level role. Works on projects/systems/issues of medium to high complexity. Provides internal and external customer support for Web systems and services. Works on one or more projects as a project team member, occasionally as a project leader. May coach more junior technical staff.

JOB FAMILY DESCRIPTIONS

JOB FAMILY: BUSINESS INTELLIGENCE SYSTEMS MANAGEMENT

Job Title: Business Intelligence Architect **Job#: 3420**

General Characteristics

Responsible for leading the design and support of enterprise-wide business intelligence applications and architecture. Works with enterprise-wide business and IT senior management to understand and prioritize data and information requirements. Solves complex technical problems. Optimizes the performance of enterprise business intelligence tools by defining data to filter and index that add value to the user. Creates testing methodology and criteria. Designs and coordinates a curriculum for coaching and training customers in the use of business intelligence tools to enhance business decision-making capability. Develops standards, policies and procedures for the form, structure and attributes of the business intelligence tools and systems. Develops data/information quality metrics. Researches new technology and develops business cases to support enterprise-wide business intelligence solutions.

Dimensions

Education:

Bachelor’s or Master’s Degree in Computer Science, Information Systems, or other related field. Or equivalent work experience.

Experience:

A minimum of 7 years of experience with large and complex database management systems, business intelligence tools and systems.

Complexity:

Expert/lead technical role. Provides technical expertise and direction for the development of complex enterprise-wide business intelligence and decision support systems solutions. Works on multiple projects as a project leader or sometimes as a business subject matter expert. Works on highly complex projects that require in-depth knowledge across multiple technical areas and business segments. Coaches and mentors more junior technical staff.

JOB FAMILY: BUSINESS INTELLIGENCE SYSTEMS MANAGEMENT

Job Title: Data Warehouse Analyst **Job#: 3430**

General Characteristics

Responsible for gathering and assessing business information needs and preparing system requirements. Performs analyses, development and evaluation of data mining in a data warehouse environment which includes data design, database architecture, metadata and repository creation. Uses data mining and data analysis tools. Reviews and validates data loaded into the data warehouse for accuracy. Interacts with user community to produce reporting requirements. Provides technical consulting to users of the various data warehouses and advises users on conflicts and inappropriate data usage.

Responsible for prototyping solutions, preparing test scripts, and conducting tests and for data replication, extraction, loading, cleansing, and data modeling for data warehouses. Maintains knowledge of software tools, languages, scripts, and shells that effectively support the data warehouse environment in different operating system environments. Possesses working knowledge of Relational Database Management Systems (RDBMS) and data warehouse front-end tools. Must have an extensive knowledge of data warehouse and data mart concepts.

Dimensions

Education:

Bachelor’s Degree in Computer Science, Information Systems, or other related field. Or equivalent work experience.

Experience:

A minimum of 3 years of IT work experience in business intelligence tools and systems.

Complexity:

Intermediate professional level role. Provides data warehouse architectural design, development and support in multi-platform environments. Works on multiple projects as a team member and may lead projects of moderate complexity. May coach more junior technical staff.

JOB FAMILY DESCRIPTIONS

JOB FAMILY: BUSINESS INTELLIGENCE SYSTEMS MANAGEMENT

Job Title: Knowledge Engineer **Job#: 4000**

General Characteristics

Responsible for developing an infrastructure and process to capture knowledge gained by the organization through successful system interventions and enabling its shared use. Oversees the identification of critical knowledge, its usage, availability and the needs of various business groups. Involved in modeling information sources, flows and critical paths, as well as understanding how information is turned into knowledge and the relationship of knowledge and how it supports and enables key business processes. Facilitates the development of supporting knowledge architecture and standards. Works with operations staff to define an operational framework that defines, develops and implements delivery systems, systems management, policies and security frameworks to ensure delivery of knowledge and information to appropriate groups.

Possesses expertise in process and data modeling, architectural development methodologies, IT planning methodologies and extensive knowledge of the enterprise's business and decision-making processes. Must possess strong leadership skills to gain credibility with various business leaders and stakeholders. Makes complex IT and business decisions. Works with other IT groups to ensure solid cross-functional decisions are made as a team.

Dimensions

Education:

Bachelor's or Master's Degree in Computer Science, Information Systems, Business Administration, or other related field. Or equivalent work experience.

Experience:

A minimum of 7 years of IT and business/industry work experience. Experience with document management, groupware, relational database systems, data warehouse and data mining, Web and systems analysis/development.

Complexity:

Expert/lead technical role. Develops infrastructure and process for identifying and sharing enterprise's core technical and business knowledge. Works on multiple projects as a project leader or as the subject matter expert. Works on projects/issues of high complexity that require demonstrated knowledge across multiple technical areas and business segments. Coaches and mentors more junior technical staff.

JOB FAMILY DESCRIPTIONS

JOB FAMILY: ENTERPRISE RESOURCE PLANNING (ERP)

Job Title: ERP Team Lead **Job#: 4200**

General Characteristics

Accountable for providing overall direction and integration for a specific ERP module, functional and/or business area. Understands the business strategy of a particular function/area and works with the team to define business requirements. Communicates and coordinates with other Team Leads, business leadership, and Project Manager to ensure appropriate integration of processes and modules across the enterprise. Oversees, defines and monitors critical path activities and resolves issues or escalates issues to the Project Manager as needed. Drives the design and implementation of new business processes with organizational structure and required ERP configuration.

Must possess an in-depth understanding of the business function/process supported, and also be viewed as a credible representative of that business function/process. Successful implementation is dependent on the ability of the incumbent to influence business leadership and management decisions and drive ownership and acceptance of changes to the business.

Dimensions

Education:

Bachelor’s Degree in Computer Science, Information Systems, Business Administration, or other related field. Or equivalent work experience.

Experience:

A minimum of 7 years of IT and business work experience including managing team(s) responsible for systems implementation and/or infrastructure support. Often is recruited internally from high-level managementpositions in the organization.

Breadth:

Middle level management. Works under general direction of senior level management. Typically manages and mentors supervisors, project leads and/or technical staff. Degree of integration driven by ERP requires a consensus decision making process across Team Leads. Once key decisions are made, Team Lead then has autonomy for the technical decisions to support the business, but business process decisions are made through constant education and negotiation with business leadership and management. Works on complex business issues, which have a significant impact to the enterprise and across enterprise processes and functions due to the integration of ERP. Frequently reports to a Chief Technology Officer, Competency Center Leader or Departmental IT Executive.

JOB FAMILY DESCRIPTIONS

JOB FAMILY: ENTERPRISE RESOURCE PLANNING (ERP)

Job Title: ERP Team Member **Job#: 4210**

General Characteristics

Responsible for documenting the “to-be” processes, defining performance metrics and identifying and resolving process gaps. Has a strong understanding and experience in the ERP methodology used by the organization. Responsible for mapping the business processes to ERP modules (often in conjunction with consultants) and participates in user acceptance testing. Often is involved in the creation of documentation and training materials, and may deliver training during implementation. May also act in a system support role immediately after implementation. Incumbents in this position come from the business, with an expert level of understanding of all of the business processes of the function they represent. They also serve as a communications liaison to the business during the implementation.

Dimensions

Education:

Bachelor’s Degree in function represented in the business. Or equivalent work experience.

Experience:

A minimum of 3 years of business and/or ERP implementation experience.

Complexity:

Intermediate professional level role. Works on multiple projects as a project team member, occasionally as a technical leader. Works on small to large, complex projects that require increased skill in multiple technical environments and knowledge of a specific business area. May coach more junior technical staff.

Job Title: ERP Configurer **Job#: 4220**

General Characteristics

Performs functional analysis, requirements, definition and ERP module configuration and testing. Responsible for conducting prototypes, developing functional specifications, data mapping, function mapping, setting of configuration tables and setting of transaction/control tables. Has a thorough understanding of the business processes and flows to enable the analysis of business requirements and the development of solutions for the business functions. Responsible for the identification of and resolution of gaps in the business processes. Involved in security/authorization set-up, user documentation, data interface design, data migration and reconciliation. May be involved in the installation and tuning of modification, as well as archiving data. Generally this position has light programming skills in the appropriate language to develop necessary “work arounds.”

Dimensions

Education:

Bachelor’s Degree in Computer Science, Information Systems, Business Administration, or other related field. Or equivalent work experience.

Experience:

A minimum of 3 years of IT work experience in systems/applications development or support functions.

Complexity:

Intermediate professional level role. Provides support for the user community and development team in the design, development, configuration and testing of ERP modules. Works on multiple functional tasks that tend to be of medium technological complexity. Identifies and recommends functional and technological solutions. JOB FAMILY: SOURCING AND VENDOR RELATIONSHIP MANAGEMENT

Job Title: Manager, Outsourcing Contracts **Job#: 5010**

General Characteristics

Responsible for all activities relating to the outsourcing contract management function. Leads contract efforts from contract signing, through vendor transition and current operational state. Establishes metrics, process and procedures and oversight management model required to ensure optimum vendor delivery, service, quality and pricing. Monitors vendor contracts to ensure terms and conditions are met; defines and manages vendor penalties/incentives if performance does not meet established criteria/exceeds established criteria.

Interprets the contract for the enterprise. Sets vendor directions and priorities. Creates, negotiates and incorporates contract amendments. Renegotiates contract, if required, to accommodate scope changes or changes in business requirements. Reviews vendor proposals and negotiates pricing/terms. Reviews vendor invoices for accuracy, and owns enterprise budget responsibility for the outsourcing expense. Serves as first point of negotiation for vendor disputes. Complexity of position can vary significantly depending on deal size/scope, single vs. multiple contract responsibility, and whether responsibility covers IT outsourcing contracts exclusively or all enterprise outsourcing contracts.

Dimensions

Education:

Bachelor’s Degree in Business Administration, or other related field. Or equivalent work experience.

Experience:

A minimum of 7 years of finance or contract management work experience including managing team(s), specifically within the IT area.

Breadth:

Middle level management. Works under general direction of senior level management. Typically manages and mentors supervisors, project leads and/or technical staff. Supports multiple contracts or complex enterprise agreements. Works on projects that range in size, complexity and contract duration. Frequently reports to a Chief Technology Officer, IT Chief Operating Officer, Chief Information Officer, Chief Financial Officer or Chief Sourcing Officer.

JOB FAMILY DESCRIPTIONS

JOB FAMILY: SOURCING AND VENDOR RELATIONSHIP MANAGEMENT

Job Title: Technical Advisor **Job#: 5200**

General Characteristics

In an outsourcing environment, works with service providers to ensure their in-scope technical solutions are consistent with enterprise's business strategy and architecture. Works closely with business unit performance managers and quality assurance staff to review service provider problems, to analyze and validate the accuracy of information and the feasibility of solutions. May troubleshoot performance issues and resolve problems with service providers. Tracks industry trends and maintains knowledge of new technologies in the area of expertise to better evaluate business unit service requests and service provider proposals. Keeps current on the participating business strategies and advises when solutions may or may not be leveraged across the enterprise. Understands the value of technology in the enterprise's business processes, works with service providers to identify opportunities for innovation, cost reduction and improved efficiencies and reviews service provider solutions. In addition, this role provides input into the in-scope technical architecture for outsourcing projects.

Dimensions

Education:

Bachelor's or Master's Degree in Business Administration, or other related field. Or equivalent work experience.

Experience:

A minimum of 7 years of IT experience within one or more specialty areas. Has a deep level of understanding surrounding information systems, networking theory and architecture standards in areas of expertise.

Complexity:

Expert/lead technical role. Works on one or more projects as the subject matter expert or technical leader/consultant. When involved with a project team, acts in a consultative manner and typically does not provide administrative or management type of support. Works on complex tasks, projects or supports issues that involve a high degree of risk, impacts business unit performance and makes use of the individual's high level of knowledge within one or more areas of specialty. Coaches and mentors more junior technical staff.

JOB FAMILY DESCRIPTIONS

JOB FAMILY: BUSINESS MANAGEMENT/ADMINISTRATION

Job Title: Director, HR/IT **Job #: 5500**

General Characteristics

Acts as the strategic liaison between HR and IT. Provides HR leadership support and counsel to the IT organization in the areas of workforce planning, recruiting, training and career development, organization design, performance management, compensation, recognition and change management. Works with CIO and IT leadership team to develop a people strategy that supports the goals of the IT organization. Develop action plans and strategies to address particular IT workforce needs. Promotes innovation and continuous improvement in the IT organization.

Works with the IT leadership team to drive broad cultural change and position the organization for long-term success by helping to build a high performing IT workforce. Analyzes and presents information to the IT leadership team that enables good decision making and encourages the focus around key people issues. Ensures IT human capital management practices and programs align with and are in compliance with corporate HR policies and standards.

This position may have a joint reporting function into human resources and senior IT leadership (the CIO). This is a multifaceted position requiring a broad combination of skills spanning human resources, general management capabilities, and a solid understanding of IT functions, roles and responsibilities.

Dimensions

Education:

Bachelor’s or Master’s Degree in Business Administration, Human Resources, or other related field. Or equivalent work experience.

Experience:

A minimum of 10 years of related experience in HR and IT including 3 years of leadership experience in managing medium to large teams and influencing senior level management and key stakeholders. Must have a broad knowledge of the IT function and in-depth knowledge of HR function.

Breadth:

Senior level management. Typically manages and mentors mid-level managers. Works on multiple, complex projects in a leadership capacity by providing direction and support. Frequently reports to a corporate human resource executive, Chief Information Officer or IT Chief Operating Officer.

JOB FAMILY DESCRIPTIONS

JOB FAMILY: SECURITY MANAGEMENT

Job Title: Data Security Specialist **Job#: 6820**

General Characteristics

Responsible for the planning, design, enforcement and audit of security policies and procedures which safeguard the integrity of and access to enterprise systems, files and data elements. Responsible for acting on security violations. Maintains knowledge of changing technologies, and provides recommendations for adaptation of new technologies or policies. Recognizes and identifies potential areas where existing data security policies and procedures require change, or where new ones need to be developed, especially regarding future business expansion. Provides management with risk assessments and security briefings to advise them of critical issues that may affect customer, or corporate security objectives. Evaluates and recommends security products, services and/or procedures to enhance productivity and effectiveness. Oversees security awareness programs and provides education on security policies and practices.

Dimensions

Education:

Bachelor’s Degree in Computer Science, Information Systems, or other related field. Or equivalent work experience.

Experience:

A minimum of 4 years of IT work experience with a broad range of exposure to systems analysis, applications development, database design and administration; one to two years of experience with informationsecurity. Requires knowledge of security issues, techniques and implications across all existing computer platforms.

Complexity:

Intermediate professional level role. Works on multiple projects as a team member and leads the data-related security components. Develops security solutions for medium to highly complex assignments. May coach more junior technical staff.

JOB FAMILY DESCRIPTIONS

JOB FAMILY: SECURITY MANAGEMENT

Job Title: Network Security Specialist **Job#: 6830**

General Characteristics

Involved in the full life cycle of network security management. Assists in the development and implementation of security policies, procedures and measures in a networking environment. Responsible for firewall configuration, maintenance, monitoring and other various network security measures. Performs security assessments and reviews networking initiatives for security compliance. Prepares status reports on security matters to develop security risk analysis scenarios and response procedures. Involved in the continual improvement of the network infrastructure and implementation of new security-based technologies. Evaluates and recommends security products for various platforms in the networking environment. Educates users about network security policies and consults on security issues. Must have broad technical knowledge of client/server, network topology and network/infrastructure security.

Dimensions

Education:

Bachelor’s Degree in Computer Science, Information Systems, or other related field. Or equivalent work experience.

Experience:

A minimum of 3 years of combined IT and security work experience with a broad exposure to infrastructure/network and multi-platform environments. Requires knowledge of security issues, techniques and implications across all existing computer platforms.

Complexity:

Intermediate professional level role. Develops security solutions for medium to high complex assignments. Works on multiple projects as a team member and lead network-related security components. May coach more junior technical staff.

JOB FAMILY DESCRIPTIONS

JOB FAMILY: SECURITY MANAGEMENT

Job Title: Systems Security Specialist **Job#: 6840**

General Characteristics

Develops, evaluates and manages systems security across the enterprise. Areas of concentration include account management, password auditing, network based and Web application based vulnerability scanning, virus management and intrusion detection. Requires technical expertise in systems administration and security tools, combined with the knowledge of security practices and procedures. Assists in the development and implementation of security policies and procedures (e.g., user log-on and authentication rules, security breach escalation procedures, security auditing procedures and use of firewalls and encryption routines). Prepares status reports on security matters to develop security risk analysis scenarios and response procedures.

Enforces security policies and procedures by administering and monitoring security profiles, reviews security violation reports and investigates possible security exceptions, updates, and maintains and documents security controls. Involved in the evaluation of products and/or procedures to enhance productivity and effectiveness. Provides direct support to the business and IT staff for systems security related issues. Educates users on systems security standards and procedures. Must have broad technical knowledge of network operating systems (e.g., UNIX, NT).

Dimensions

Education:

Bachelor’s Degree in Computer Science, Information Systems, or other related field. Or equivalent work experience.

Experience:

A minimum of 2 years of combined IT and security work experience with a broad exposure to infrastructure/network and multi-platform environments. Requires knowledge of security issues, techniques and implications across all existing computer platforms.

Complexity:

Intermediate professional level role. Develops security solutions for medium to high complex assignments. Works on multiple projects as a team member and lead systems-related security components. May coach more junior technical staff.

JOB FAMILY DESCRIPTIONS

JOB FAMILY: PRODUCT DEVELOPMENT

Job Title: Manager, Product Development **Job#: 7200**

General Characteristics

Manages research and development activities relating to the design and development of software or hardware products and qualification or re-qualification of new and existing products. Works with a cross-functional team to ensure fulfillment of product requirements, evaluates product performance and transition products from development to commercialization. Assists in determining product delivery and deployment dates for new product releases, feature and maintenance releases and regular corrective service or service pack releases.

Acts as a technical consultant to the product organization and leads research, and prototyping of innovative technologies and products. Ensures the technology and architectural roadmap of engineering is properly aligned with and supports the product/business road map. Acts as a customer liaison on technical issues related to product integration, custom development and requirements. May lead major releases and ensure feature enhancements respond to customer requests. Responsible for product delivery managing schedules and tasks related to all aspects of product development.

Dimensions

Education:

Bachelor’s Degree in Computer Science, Information Systems, Engineering, or other related field. Or equivalent work experience.

Experience:

A minimum of 7 years of high-tech industry, product engineering and/or IT work experience. Experiencewith managing team(s) responsible for software, hardware design, engineering and development functions.

Breadth:

Middle level management. Works under general direction of senior level management. Typically manages and mentors supervisors, project leads and/or technical staff. Works on multiple, complex projects as a project leader and a subject matter expert. Frequently reports to a corporate senior level software development executive, research and development executive or Chief Technology Officer.

DocuSign Envelope ID: 2C7C1590-00EE-4FF7-A168-EF16F329E578

JOB FAMILY: PRODUCT DEVELOPMENT

Job Title: Product Architect **Job#: 7210**

General Characteristics

Chairs the product architecture team and provides technical leadership in the planning, design and architect phases of software or hardware product development. Identifies, evaluates, and recommends solutions using advanced architectures and technologies to facilitate rapid development and implementation. Understands key competitors' products and differentiating features. Works with a cross-functional team to translate customer requirements into detailed architectural approaches and product specifications, creates realistic development plans and schedules, evaluates and prioritizes requests for product changes and enhancements.

Understands business needs as well as customer and market requirements. Applies creativity, in-depth technical and theoretical knowledge, and experience in solving highly complex architectural design problems. Recommends new technology directions or options to maintain products' competitive advantages. Communicates technology design and any related issues to technical and non-technical audiences including customers and technical partners. Prepares and documents product architecture plans. May design technical testing methods to meet target product scalability and performance objectives. Participates in the standards committees and other industry gatherings to track industry trends and maintains knowledge of new technologies to better serve the enterprise's architecture needs.

Dimensions

Education:

Bachelor's or Master's Degree in Computer Science, Information Systems, Engineering or other related field. Or equivalent work experience.

Experience:

A minimum of 7 years of high-tech industry, product engineering and/or IT work experience.

Complexity:

Expert/lead technical role. Provides technical expertise and direction for the development of complex hardware and software projects. Works on multiple projects as a project leader or as the subject matter expert. Works on projects/issues of high complexity that require in-depth knowledge across multiple technical areas and business segments. Coaches and mentors more junior technical staff.

DocuSign Envelope ID: 2C7C1590-00EE-4FF7-A168-EF16F329E578

JOB FAMILY: PRODUCT DEVELOPMENT

Job Title: Product Engineer **Job#: 7220**

General Characteristics

Responsible for all aspects of software or hardware product delivery and performance. Works with design engineering and test team to drive products from design completion to volume production release. Performs various engineering tests to verify and validate product designs, such as defining and specifying new product Design Verification Test (DVT) requirements and participation in the DVT process. Supports product evaluation and qualification on leading edge technology components. Ensures that production schedules are followed and product(s) meet specifications and quality requirements. Interacts with product engineering, quality, manufacturing and marketing teams to analyze and provide technical support to help resolve customers' product related problems/issues.

Dimensions

Education:

Bachelor's Degree in Computer Science, Information Systems, Engineering or other related field. Or equivalent work experience.

Experience:

A minimum of 4 years of high-tech industry, product engineering and/or IT work experience.

Complexity:

Intermediate professional level role. Performs product design and engineering work for medium to highly complex assignments. Works on multiple projects as a team member, sometimes as a technical leader. May coach more junior technical staff.

JOB FAMILY: SYSTEMS PROGRAMMING AND ADMINISTRATION

Job Title: Manager, Systems Software **Job#: 7400**

General Characteristics

Responsible for managing the programming, administration and support activities for the enterprise's operating systems that may reside on multiple platforms. Has a high level understanding of operating systems and foundation architecture. Accountable for operating systems software selection and development and continued maintenance of such systems to improve efficiencies. Develops departmental standards and procedures including systems programming standards and program documentation requirements. Defines and monitors multiple projects, provides technical and administrative supervision. Must interface with members of the IT and user community to coordinate activities relating to the implementation of new software. Provides technical consultation and support to users and other IT staff.

Dimensions

Education:

Bachelor's Degree in Computer Science, Information Systems, or other related field. Or equivalent work experience.

Experience:

A minimum of 7 years of IT work experience including managing team(s) responsible for systems engineering, development, administration and support.

Breadth:

Middle level management. Works under general direction of senior level management. Typically manages and mentors supervisors, project leads and/or technical staff. Works on multiple, complex projects as a project leader and a subject matter expert. Frequently reports to a Chief Information Officer, IT Chief Operating Officer, Chief Technology Officer, Operating Unit IT Executive or Departmental IT Executive.

DocuSign Envelope ID: 2C7C1590-00EE-4FF7-A168-EF16F329E578

JOB FAMILY: SYSTEMS PROGRAMMING AND ADMINISTRATION

Job Title: Systems Architect **Job#: 7410**

General Characteristics

Responsible for providing senior level expertise on decisions and priorities regarding the enterprise's overall systems architecture. Facilitates the establishment and implementation of standards and guidelines that guide the design of technology solutions including architecting and implementing solutions requiring integration of multiple platforms, operating systems and applications across the enterprise. Reviews, advises and designs standard software and hardware builds, system options, risks, costs vs. benefits and impact on the enterprise business process and goals.

Develops and documents the framework for integration and implementation for changes to technical standards. Assists in the development of and manages an architecture governance process. Provides technical guidance to project team areas as appropriate. Tracks industry trends and maintains knowledge of new technologies to better serve the enterprise's architecture needs.

Dimensions

Education:

Bachelor's or Master's Degree in Computer Science, Information Systems, or other related field. Or equivalent work experience.

Experience:

A minimum of 7 years of IT work experience in infrastructure/systems environments performing systems planning, architecture design, engineering (hardware and software) and optimization.

Complexity:

Expert/lead technical role. Defines systems architecture and design for the enterprise. Works on multiple projects as a project leader or as the subject matter expert. Works on projects/issues of high complexity that require in-depth knowledge across multiple technical areas and business segments. Coaches and mentors more junior technical staff.

DocuSign Envelope ID: 2C7C1590-00EE-4FF7-A168-EF16F329E578

JOB FAMILY: SYSTEMS PROGRAMMING AND ADMINISTRATION

Job Title: Systems Software Programmer **Job#: 7420**

General Characteristics

Responsible for the analysis, development, modification, installation, testing and maintenance of operating systems software. Possesses a strong understanding of systems programming, graphical user interfaces and control languages. Evaluates vendor supplied software packages and makes recommendations to IT management. Modifies and/or debugs vendor-supplied utilities and packages. Modifies, installs and prepares technical documentation for system software applications. Diagnoses, isolates and de-bugs software problems and performs problem resolution. Monitors systems capacity and performance, plans and executes disaster recovery procedures and provides Tier 2 technical support.

Dimensions

Education:

Bachelor's Degree in Computer Science, Information Systems, or other related field. Or equivalent work experience.

Experience:

A minimum of 4 years of IT work experience in systems administration and programming.

Complexity:

Intermediate professional level role. Works on multiple products, activities and projects as a project team member, occasionally as a project leader. Works on moderately complex tasks, projects, activities or support issues that require increased skill in multiple technical environments and has expertise in one product/system. May coach more junior technical staff.

DocuSign Envelope ID: 2C7C1590-00EE-4FF7-A168-EF16F329E578

JOB FAMILY: SYSTEMS PROGRAMMING AND ADMINISTRATION

Job Title: Groupware Specialist **Job#: 7430**

General Characteristics

Responsibilities include defining the business requirements for the organization's next generation of collaborative work tools, which involves working with end-users to develop specifications for the development and implementation of groupware applications (e.g., Lotus Notes, Microsoft Exchange). Based on the business requirements, responsible for the implementation, maintenance and support of groupware systems. Evaluates and recommends associated hardware/software solutions based on business requirements and user needs.

Responsibilities include providing technical leadership in the design, development and promotion of selected groupware strategies. Actively involved in engineering and deploying various groupware applications such as team collaborative computing, Internet and wireless access, document sharing and next generation messaging clients.

Dimensions

Education:

Bachelor's Degree in Computer Science, Information Systems, or other related field. Or equivalent work experience.

Experience:

A minimum of 2 years of IT work experience in programming and systems analysis. Experience with groupware/messaging technologies, tools and relevant platforms.

Complexity:

Intermediate professional level role. Works on multiple products, activities and projects as a project team member, occasionally as a project leader. Works on moderately complex tasks, projects, activities or support issues that require increased skill in multiple technical environments and has expertise in one product/system. May coach more junior technical staff.

DocuSign Envelope ID: 2C7C1590-00EE-4FF7-A168-EF16F329E578

JOB FAMILY: SYSTEMS PROGRAMMING AND ADMINISTRATION

Job Title: Systems Administrator **Job#: 7440**

General Characteristics

Deploys the release of new technologies as well as designs, installs, configures, maintains and performs system integration testing of PC/server operating systems, related utilities and hardware. Responsible for trouble shooting server problems as reported by users. Researches, evaluates and recommends software and hardware products. Supports Web access and electronic messaging services and maintains a secure systems environment. Provides new hardware specifications to users based on application needs and anticipated growth, installs new servers and maintains the server infrastructure.

Dimensions

Education:

Bachelor's Degree in Computer Science, Information Systems, or other related field. Or equivalent work experience.

Experience:

A minimum of 3 years of IT work experience. Requires a high level of expertise in multiple systemenvironments.

Complexity:

Intermediate professional level role. Defines procedures for monitoring and evaluates, diagnoses and establishes work plan to resolve system issues. Performs troubleshooting for complex hardware, software and network problems. Works on multiple projects as a project team member, occasionally as a project leader. May coach more junior technical staff.

DocuSign Envelope ID: 2C7C1590-00EE-4FF7-A168-EF16F329E578

JOB FAMILY: SYSTEMS PROGRAMMING AND ADMINISTRATION

Job Title: UNIX Systems Administrator **Job#: 7450**

General Characteristics

Installs, configures, maintains and performs system integration testing of UNIX based operating systems, related utilities and hardware. Responsible for troubleshooting UNIX-based hardware and software problems. Monitors systems activities and fine tunes system parameters and configuration to optimize performance and ensure security of systems. Performs capacity analysis, monitors and controls usage of disk space. Develops procedures for routine administration including backup/restore, shutdown, and startup. Provides recommendations for improving the server environment, such as capacity thresholds, security gaps, patch levels and hardware recalls.

Dimensions

Education:

Bachelor's Degree in Computer Science, Information Systems, or other related field. Or equivalent work experience.

Experience:

A minimum of 3 years of IT work experience. Requires a high level of expertise in multiple systemenvironments with emphasis in UNIX-based systems.

Complexity:

Intermediate professional level role. Defines procedures for monitoring and evaluates, diagnoses and establishes work plan to resolve system issues. Performs troubleshooting for complex hardware, software and network problems. Works on multiple projects as a project team member, occasionally as a project leader. May coach more junior technical staff.

DocuSign Envelope ID: 2C7C1590-00EE-4FF7-A168-EF16F329E578

JOB FAMILY: SYSTEMS PROGRAMMING AND ADMINISTRATION

Job Title: Storage Management Specialist **Job#: 7460**

General Characteristics

Provides efficient and reliable storage allocation and defines backup, recovery, archival procedures. Develops and implements business continuity practices for storage management. Installs, configures, tests and implements storage management software and hardware. Monitors use and availability of storage resources. Maintains and modifies backup and recovery procedures to meet high availability and mission critical business needs. Troubleshoots storage related issues and takes appropriate actions. Generates reports and analysis on storage usage. Maintains storage configurations to provide capacity planning and performance monitoring/tuning of systems. Benchmarks, evaluates and makes recommendations for the selection of storage management software and hardware products. Possesses skills and knowledge related to network, operating systems, Storage Area Network (SAN), Network Attached Storage (NAS) and tape backup solutions.

Dimensions

Education:

Bachelor’s Degree in Computer Science, Information Systems, or other related field. Or equivalent work experience.

Experience:

A minimum of 3 years of IT work experience. Requires a high level of expertise in multiple system environments. Experience with networking, storage and systems administration.

Complexity:

Intermediate professional level role. Defines procedures for monitoring and evaluates, diagnoses and establishes work plan to resolve storage management issues. Works on multiple products, activities and projects as a project team member, occasionally as a project leader. May coach more junior technical staff.

DocuSign Envelope ID: 2C7C1590-00EE-4FF7-A168-EF16F329E578

JOB FAMILY: BUSINESS ANALYSIS AND PLANNING

Job Title: Director, Enterprise Architecture **Job#: 7500**

General Characteristics

Leads the creation and/or evolution of the enterprise architecture function/program including coordination of an appropriately balanced pursuit of enterprise business, information, technical and solution architectures. Leads the identification and analysis of enterprise business drivers to develop enterprise architecture requirements. Analyzes technology industry and market trends and determines potential impact upon the enterprise. Leads the development of enterprise architecture governance structure based on business and IT strategies. Oversees enterprise architecture implementation and ongoing refinement activities. Directs the development and execution of a communication (including education) plan for enterprise architecture standards. Acts as a sounding board or consultant to IT and business leaders in the development of IT solutions for business needs.

Dimensions

Education:

Bachelor's or Master's Degree in Computer Science, Information Systems, or other related field. Or equivalent work experience.

Experience:

A minimum of 10 years of IT and business/industry work experience including architecture design and deployment, systems lifecycle management and infrastructure planning and operations, with 3 years of leadership experience in managing multiple, large, cross-functional teams or projects, and influencing senior level management and key stakeholders.

Breadth:

Senior level management. Participates in the technical aspects of strategic decisions regarding IT for the enterprise. Implements and manages those initiatives with complete autonomy. Makes decisions for the organization based on the highest degree of technical complexity and through understanding the far-reaching implications across the IT organization. Frequently reports to a Chief Information Officer or Chief Technology Officer of an enterprise.

DocuSign Envelope ID: 2C7C1590-00EE-4FF7-A168-EF16F329E578

JOB FAMILY: BUSINESS ANALYSIS AND PLANNING

Job Title: Manager, IT Business Planning **Job#: 7600**

General Characteristics

Assists the IT organization in defining and implementing its business plan and goals to support the strategy and goals of the organization. Responsible for working with IT and business leaders to create the business plan for IT. Assists in the cascading of plans to the various IT divisions/departments. Scans the external IT environment to provide a common set of planning assumptions, competitive analysis, current and future market assessments for products and services to the business, and a common set of planning processes and tools to assist those with planning responsibility in IT. Assists IT and business leadership in actualizing the business plans within their own area of responsibility, working with them to ensure that technical and resource decisions link to the overall IT plan. Works closely with the enterprise's business planning leaders to ensure alignment.

Responsible for ensuring that business planning and purpose is considered in all key IT decisions, and therefore must be involved in the discussion and decision making process for technology, business, and human resource investments on an on-going basis. Works with Finance and Human Resources to represent the needs of IT and understand the cost and human resources impact of those needs in creating, implementing and adjusting business plans.

This position typically reports to the CIO. Ensures alignment of the IT strategy to the business strategy. Responsible for ensuring integration of all work performed across all business units. Responsible for educating senior business leaders on the IT strategy as well as educating senior IT leadership on the direction of the business. High degree of business complexity and impact to overall success of IT in meeting business needs.

Dimensions

Education:

Bachelor's Degree in Computer Science, Information Systems, Business Administration, Finance, or other related field. Or equivalent work experience.

Experience:

A minimum of 7 years of IT and business work experience with a broad range of exposure to various technical environments and business segments. Experience with managing team(s) responsible in strategicplanning, infrastructure and operational support functions.

Breadth:

Middle level management. Works under general direction of senior level management. Typically manages and mentors supervisors, project leads and/or technical staff. Works on multiple, complex projects as a project leader and a subject matter expert. Frequently reports to a Chief Information Officer, IT Chief Operating Officer, Chief Technology Officer or Operating Unit IT Executive.

DocuSign Envelope ID: 2C7C1590-00EE-4FF7-A168-EF16F329E578

JOB FAMILY: BUSINESS ANALYSIS AND PLANNING

Job Title: Enterprise Architect **Job#: 7610**

General Characteristics

Provides overall direction, guidance and definition of an enterprise's architecture to effectively support the corporate business strategy. Responsibilities include researching, analyzing, designing, proposing, and delivering solutions that are appropriate for the business and technology strategies. Must have significant business knowledge and have one or more areas of technical expertise in which they concentrate. Interfaces across several business areas, acting as visionary to proactively assist in defining the direction for future projects. Responsible for conception of solutions, building consensus and the selling and execution of such solutions.

Dimensions

Education:

Bachelor's or Master's Degree in Computer Science, Information Systems, or other related field. Or equivalent work experience.

Experience:

A minimum of 7 years of IT work experience in multiple IT areas and 2 to 3 years of relevant enterprise-wide architecture experience in one or more specialty areas.

Complexity:

Expert/lead technical role. Defines enterprise-wide architectures and designs across multiple IT functional areas. Works on multiple projects as a project leader or as the subject matter expert. Works on highly complex projects that require in-depth knowledge across multiple technical areas and business segments. Coaches and mentors more junior technical staff.

DocuSign Envelope ID: 2C7C1590-00EE-4FF7-A168-EF16F329E578

JOB FAMILY: BUSINESS ANALYSIS AND PLANNING

Job Title: Business Process Consultant **Job#: 7620**

General Characteristics

Facilitates the optimization of business unit performance by enhancing the alignment between business processes and information technology. Responsible for actively resolving day-to-day technology needs of the business unit with a focus on the analysis of processes—dissecting problems and suggesting solutions. Includes complex systems process analysis, design and simulation. Must understand technical problems and solutions in relation to the current, as well as the future business environment. Must be able to suggest plans to integrate new and existing processes. Provides input and supports planning and prioritization for business process engineering related activities, including developing the business unit process engineering plan and integrating that plan with the corporate plan. Possesses knowledge and experience leveraging both IT solutions and business process improvements.

Participates in continuous review and update to ensure that processes meet changing business unit conditions. Identifies processes for improvement, documents existing processes, identifies and analyzes gaps between current processes and the desired state, designs new processes, develops process performance measures and plans the transition to a new process. Provides counsel and leadership on future use of technology and business process improvements. This requires a high level of understanding of the organization's business systems and processes as well as industry-wide requirements. Must demonstrate expertise in strategic planning, tactical execution, project management, process management and business systems requirements definition.

Dimensions

Education:

Bachelor's or Master's Degree in Computer Science, Information Systems, Business Administration, or other related field. Or equivalent work experience.

Experience:

A minimum of 7 years of IT experience, 4 years of experience in process engineering and 2 years experience in project management.

Complexity:

Expert/lead technical role. Works on large, complex projects that have enterprise-wide impact and require subject matter expertise of multiple process improvement areas and mastery of process improvement tools. Works as a project team member on multiple projects to facilitate process improvements involving multiple sites or business areas, often as a project leader. Coaches and mentors more junior staff.

DocuSign Envelope ID: 2C7C1590-00EE-4FF7-A168-EF16F329E578

JOB FAMILY: BUSINESS ANALYSIS AND PLANNING

Job Title: IT Business Consultant **Job#: 7630**

General Characteristics

Works with business leaders and acts as a liaison between IT and business units (typically leadership for assigned business units) or vendors. Viewed as integral to the business in any decisions that may be impacted by technology. Acts as a business relationship manager responsible for the collection, analysis, review, documentation and communication of business needs and requirements to the IT organization. Leads the gathering of business needs as well as the design of solutions through direct interaction with business unit leaders. Focuses on developing and improving business processes at all times, assisting with the development of metrics, both within the technology and business organizations.

Has a strong understanding of information systems, business processes, the key drivers and measures of success for the business, and the short- and long-term direction of the business and technology. Identifies, proposes and influences business solutions, negotiates deliverables and requirements across multiple business customers or organizations. Ensures that the design and integration of proposed system, software and hardware solutions leads to the development and growth of the business through effective use of technology. Integrally involved in ‘buy vs. build’ decisions.

Dimensions

Education:

CONTRACT AMENDMENT NO.: 1
Contract No.: 80101507-23-STC-ITSA
Contract Name: Information Technology Staff Augmentation Services

This Contract Amendment to Contract No. 80101507-23-STC-ITSA ("Contract") is made by the State of Florida, Department of Management Services ("Department") Randstad North America, Inc. dba Randstad Technologies, LLC ("Contractor"), collectively referred to herein as the "Parties."

WHEREAS the Parties entered into the Contract which became effective on October 27, 2023 for the provision of Information Technology Staff Augmentation Services;

WHEREAS the Parties agreed that the Contract may be amended by mutal agreement as provided in Exhibit C, Special Contract Conditions (Florida), subsection 6.9, Modification and Severability.

ACCORDINGLY, and in consideration of the mutual promises contained in the Contract documents, the Parties agree as follows:

I. Contract Amendment.

A. Contract Exhibit A, Scope of Work, is hereby deleted and replaced in its entirety with the attached Exhibit A, Scope of Work, which is incorporated into the Contract by reference herein.

B. Contract Exhibit B, Additional Special Contract Conditions, is hereby deleted in its entirety and replaced with the attached Exhibit B, Additional Special Contract Conditions, which is incorporated into the ACS by reference herein.

C. Contract Exhibit I, PUR 1355: Foreign Country of Concern Attestation, is hereby incorporated in its entirety to the ACS by reference herein.

IV. Warranty of Authority. Each person signing this Amendment warrants that he or she is duly authorized to do so and to bind the respective party.

V. Conflict. To the extent any of the terms of this Amendment conflict with the terms of the Contract, the terms of this Amendment shall control.

VI. Effect. Unless otherwise modified by this Amendment, all terms and conditions contained in the Contract shall continue in full force and effect. This Amendment is effective when signed by both Parties.

IN WITNESS WHEREOF, the Parties have executed this Amendment by their duly authorized representatives.

Exhibit A
Scope of Work

1. Purpose

To provide Customers with a State Term Contract (STC) for Information Technology Staff Augmentation Services, pursuant to the terms set forth in this Scope of Work. The Department intends to issue a supplemental Invitation to Bid on an annual basis for the remaining term of the State Term Contract beginning in 2024. New Vendors may submit a bid for Prequalification annually. Additionally, current Vendors on the State Term Contract may submit supplemental bids annually beginning in 2024 to prequalify for additional Job Titles.

2. Definitions

Business Day – Monday through Friday, inclusive, except for those holidays specified in section 110.117, F.S., from 8:00 a.m. to 5:00 p.m., in the time zone the Customer is located.

Ceiling Rate – The maximum price a Contractor may charge for an associated Job Title or Scope Variant.

Confidential Information – Information that is trade secret or otherwise confidential or exempt from disclosure under Florida or federal law.

Contract – The written agreement between the Department and the Contractor resulting from 23-80101507-ITB.

Contractor – A Vendor that enters into a Contract with the Department as a result of 23-80101507-ITB.

Customer – A State Agency or Eligible User, as defined in Rule 60A-1.001, Florida Administrative Code (F.A.C.).

Department – The Department of Management Services, a State Agency.

Information Technology (IT) – as defined in 287.012(15), Florida Statutes (F.S.).

Information Technology (IT) Experience – Experience working in the computer science industry that involves performing IT services and utilizing equipment, hardware, software, firmware, programs, systems, networks, infrastructure, media, and related material.

Information Technology (IT) Staff Augmentation Contract Experience – Demonstrated prior work experience in the allocation and outsourcing of qualified IT Staff to augment a workforce on a temporary basis.

Job Family – A group of related Job Titles within Exhibit H, Job Family Descriptions.

Job Title – The position described within Exhibit H, Job Family Descriptions. The Job Family Descriptions document includes each Job Title’s general characteristics and dimensions.

MyFloridaMarkerPlace (MFMP) – the State of Florida's eProcurement system and connects vendors with state government organizations that purchase goods and services.

DocuSign Envelope ID: 10D724FD-21F4-4FA5-9D0B-DD3674FADC40

Operational Formula – The day-to-day actions of a company that are guided by a policy or procedure that is prescribed for repetitive use as a practice, in accordance with agreed upon operations that are aimed at obtaining a desired outcome.

Principal Personnel – The management of the Contractor's company who makes operational decisions.

Proposed Price – The Vendor's maximum hourly rate for an associated Job Title or Scope Variant for the initial and renewal term. A "not to exceed" price.

Scope Variant – A gradation of experience within a Job Title.

Staff – The temporary staff provided by the Contractor or Contractor's subcontractor(s) to render information technology services identified by Customers.

State – The State of Florida.

3. Contractor's General Responsibilities

The Contractor, regardless of any delegation or subcontract entered by the Contractor, shall be responsible for the following when providing Information Technology Staff Augmentation Services:

3.1 The Contractor is responsible for the comprehensive management of Staff. Staff shall not be deemed an employee of the State or deemed to be entitled to any benefits associated with such employment and the Contractor shall be responsible for the administration and maintenance of all employment and payroll records, payroll processing, remittance of payroll and taxes, and all administrative tasks required by State and federal law associated with payment of Staff.

3.2 The Contractor shall provide Staff in accordance with Customer Request for Quotes (RFQ), and as described in Exhibit H, Job Family Descriptions document. Customers may include a detailed scope of work, specific requirements of the work to be performed, and any requirements of Staff within the Request for Quotes.

3.3 The Contractor shall possess the professional and technical Staff necessary to allocate, outsource, and manage qualified Staff to perform the services requested by the Customer.

3.4 The Contractor shall provide Customers with Staff who have sufficient skill and experience to perform the services assigned to them.

3.5 The Contractor is responsible for ensuring that all Information Technology Staff Augmentation Services furnished under the Contract meet the professional standards and quality that prevails among information technology professionals in the same discipline and of similar knowledge and skill engaged in related work throughout Florida under the same or similar circumstances.

3.6 The Contractor shall provide, at its own expense, any training necessary for keeping Contractor's Staff abreast of industry advances and for maintaining proficiency in equipment and systems that are available on the commercial market.

DocuSign Envelope ID: 10D724FD-21F4-4FA5-9D0B-DD3674FADC40

3.7 The Contractor shall, at its own expense, be responsible for adhering to the Contract background screening requirements, testing, evaluations, advertising, recruitment, and disciplinary actions of Contractor's Staff.

3.8 The Contractor, throughout the term of the Contract, shall maintain all licenses, permits, qualifications, insurance, and approvals of whatever nature that are legally required for Contractor and Staff to perform the Information Technology Staff Augmentation Services.

3.9 Contractor shall be responsible for all costs associated with the administration of this Contract.

3.10 The Contractor shall adhere to all work policies, procedures, and standards established by the Department and Customer.

3.11 The Contractor shall ensure that Staff conform with the Customer's policies in all respects while on the Customer's premises, and is responsible for obtaining all rules, regulations, policies, etc.

3.12 The Contractor shall only provide Information Technology Staff Augmentation services for those Job Titles awarded to the Contractor. Contractor shall be paid on an hourly basis unless Customer requests in their RFQ a project-based pricing structure in accordance with Section 9.5, below.

4. Subcontracts and Staff

4.1 The Contractor is fully responsible for satisfactory completion of all work on this Contract. The Contractor shall ensure and provide assurances to the Department or Customer upon request, that any subcontractor(s) or Staff provided under this Contract has the necessary qualifications and abilities to perform in accordance with the terms and conditions of this Contract.

The Contractor must provide the Customer with the names of Staff considered for work on a purchase order issued under this Contract. The Customer shall retain the right to reject any Staff whose qualifications or performance, in the Customer's exclusive judgment, is insufficient.

4.2 The Contractor agrees to be responsible for all work performed and all expenses incurred by subcontractors and Staff while performing work under this Contract.

4.3 Any subcontract or Staff arrangements must be evidenced by a written document available to the Department or Customer.

4.4 The Contractor agrees to make payments to the subcontractor or Staff within seven working days after receipt of full or partial payments from the Customer in accordance with Section 287.0585, F.S., unless otherwise stated in the contract between Contractor and subcontractor or required by law.

DocuSign Envelope ID: 10D724FD-21F4-4FA5-9D0B-DD3674FADC40

4.5 The Contractor agrees that neither the Department nor the Customer shall be liable to any subcontractor or Staff for any expenses or liabilities incurred in furtherance of this Contract, and Contractor shall be solely liable to the subcontractor and Staff for all expenses and liabilities incurred under the Contractor's contract or subcontract. The Contractor, at its expense, shall defend the Customer and the Department against any subcontractor or Staff claims regarding compensation or payment.

4.6 The Department supports diversity in its procurements and contracts, and requests that Contractors who engage in subcontracting offer subcontracting opportunities to certified woman-, veteran-, and minority-owned small businesses. The Contractor may contact the Office of Supplier Diversity at osdinfo@dms.myflorida.com for information on certified business enterprises available for subcontracting opportunities.

5. Conduct of Employees and Staff

Contractor shall ensure that all of Contractor's employees and Staff provided under the Contract shall adhere to the standards of conduct prescribed in the Customer's personnel policy and procedure guidelines, particularly rules of conduct, security procedures, and any other applicable rules, regulations, policies, and procedures of the Customer, including but not limited to Rule Chapter 33-208, Florida Administrative Code. The Contractor shall ensure that all Staff and employees wear attire suitable for the position, either a standard uniform or business casual dress, identified by the Customer.

6. Contractor Security Clearance

Customers may designate certain duties and/or positions as positions of "special trust" because they involve special trust responsibilities, are located in sensitive locations, or have key capabilities with access to sensitive or confidential information. The designation of a special trust position or duties is at the sole discretion of the Customer. Contractor or Contractor's employees and Staff who, in the performance of this Contract, will be assigned to work in positions determined by the Customer to be positions of special trust, may be required to submit to background screening and be approved by the Customer to work on this Contract.

7. Purchasing Card

The State has implemented a purchasing card (P-Card). The Contractor may receive payments via the State's P-Card. P-Card acceptance for purchases is a mandatory requirement for the Contract but is not the exclusive method of payment. If the State changes its P-Card platform during the term of Contract, the Contractor shall make all necessary changes to accept payment via the State's new P-Card platform within 30 calendar days of notification of such change.

8. Purchase Order Requirements

Customers shall use a Request for Quote per section 287.056(2), Florida Statutes, when making purchases off of this State Term Contract. Customers shall issue Request for Quotes to at least 25 vendors to provide IT Staff Augmentation services in accordance with section 287.0591(5), Florida Statutes. Customers shall order services from the Request for Quote via a Purchase Order with the Customers' selected Contractor. The terms of the Purchase Order shall not conflict with the terms and conditions established by this Contract.

In accepting a Purchase Order, the Contractor recognizes its responsibility for all tasks and deliverables contained therein, warrants that it has fully informed itself of all relevant factors

DocuSign Envelope ID: 10D724FD-21F4-4FA5-9D0B-DD3674FADC40

affecting accomplishment of the tasks and deliverables and agrees to be fully accountable for the performance thereof.

9. Request for Quotes

9.1 Customers needing Information Technology Staff Augmentation Services will issue a Request for Quote (RFQ) each time they desire to solicit Information Technology Staff Augmentation Services. The Customer shall issue a detailed RFQ that includes a pricing model, term, service levels, educational qualifications and experience needed. Pursuant to sections 287.056(2) and 287.0591(5), F.S., an Agency must ensure that a RFQ is issued to a minimum of 25 contracted vendors awarded to provide the applicable Information Technology Staff Augmentation contractual services sought by the Agency. Some contractors are not contracted to provide all Job Titles, and the vendors selected to issue a RFQ to must have been awarded to provide the specific Job Title(s) as requested in the Agency RFQ.

9.2 Pursuant to section 287.056(2), F.S., RFQs performed within the scope of this Contract are not independent competitive solicitations and are not subject to the notice or challenge provisions of section 120.57(3), F.S.

9.3 While the specific format of the RFQ is left to the discretion of the agency, Customers will issue a RFQ document each time they desire to solicit Information Technology Staff Augmentation Services and shall send the RFQ document electronically via email or through MFMP to at least 25 Contractors that offer the specific awarded Job Title(s) sought by the Agency. When responding to a RFQ, Contractor must submit a completed Resume Self-Certification Form with the Contractor's response.

9.4 Customers issuing RFQs against this Contract should note when responses are due and when the Customer anticipates awarding the RFQ.

9.5 RFQs with project-based pricing, and any Purchase Orders issued from such RFQs, shall require payment dependent on completion of deliverables and tasks only and may not contain payment for hourly work. Customers who choose to use project-based pricing are not exempt from the requirements listed in Section 3.5, Request for Quote(s) Requirement, and must negotiate all pricing, fees, and related expenses associated with the completion of each task and deliverable. Project-based RFQs and Purchase Orders shall not include services that were not awarded to the Contractor or commodities that are not contemplated by this Contract. Quotes received in response to project-based RFQs shall include, and the total cost of the Purchase Order issued shall not exceed, an estimated cost to complete the RFQ requirements under the hourly pricing model for comparison. Project-based pricing is intended to provide predictability and a discount to Customers relative to the maximum hourly rates. Under no circumstances may a project-based price be permitted to be greater than the hourly rates.

10. Resume Self-Certification Form

When submitting a response to an RFQ, the Contractor shall submit with its response a completed and signed Exhibit E, Resume Self-Certification Form to the Customer for each proposed Staff member identified in the RFQ response.

DocuSign Envelope ID: 10D724FD-21F4-4FA5-9D0B-DD3674FADC40

11. Ongoing Performance Measures
The Department intends to use performance-reporting tools in order to measure the performance of Contractor(s). These tools will include the Contractor Performance Survey (Exhibit G), to be completed by Customers on a quarterly basis. Such measures will allow the Department to better track Vendor performance through the term of the Contract(s) and ensure that Contractor(s) consistently provide quality services to the State and its Customers. The Department reserves the right to modify the Contractor Performance Survey document and introduce additional performance-reporting tools as they are developed, including online tools (e.g. tools within MFMP or on the Department's website).

12. Holidays
The following days are observed as holidays by state agencies in accordance with section 110.117, F.S.:

- New Year's Day
- Birthday of Martin Luther King, Jr., third Monday in January
- Memorial Day
- Independence Day
- Labor Day
- Veterans' Day, November 11
- Thanksgiving Day
- Friday after Thanksgiving
- Christmas Day

If any of these holidays falls on Saturday, the preceding Friday shall be observed as a holiday. If any of these holidays falls on Sunday, the following Monday shall be observed as a holiday. Customers may have additional holiday(s) observed specifically by the Customer which will be detailed in the Customer's order.

13. Contract Reporting
The Contractor shall report information on orders received from Customers associated with this Contract. The Contractor shall submit reports in accordance with the following schedule:

Report	Period Covered	Due Date
MFMP Transaction Fee Report	Calendar month	15 calendar days after the end of each month
Quarterly Sales Report	State's Fiscal Quarter	30 calendar days after close of the period
Diversity Report (submitted to the Customer)	State Fiscal Year	30 Business Days after close of the period

14. MFMP Transaction Fee Report
The Contractor is required to submit monthly MFMP Transaction Fee Reports in the Department's electronic format. Reports are due 15 calendar days after the end of the reporting period. For information on how to submit Transaction Fee Reports online, please reference the detailed fee reporting instructions and vendor training presentations available online at the

DocuSign Envelope ID: 10D724FD-21F4-4FA5-9D0B-DD3674FADC40

"Transaction Fee & Reporting" section and "Training for Vendors" subsections under the "Vendors" tab on the MFMP website. Assistance with Transaction Fee Reporting is also available from the MFMP Customer Service Desk by email at: VendorHelp@myfloridamarketplace.com or telephone 866-FLA-EPRO (866-352-3776) from 8:00 a.m. to 6:00 p.m. Eastern Time.

15. Quarterly Sales Reports
The Contractor shall submit a completed Quarterly Sales Report electronically, in the required format, to the Department's Contract Manager within thirty (30) calendar days after close of each quarter. The State's fiscal quarters close on September 30, December 31, March 31, and June 30. The quarterly sales report can be found here: https://www.dms.myflorida.com/business_operations/state_purchasing/vendor_resources/quarterly_sales_report_format.

The Contract Quarterly Sales Report will include all sales and orders associated with this Contract from Customers received during the reporting period. Initiation and submission of the Sales Report is the responsibility of the Contractor without prompting or notification from the DMS Contract Manager.

Failure to provide the quarterly sales report will result in the imposition of financial consequences and may result in the Contractor being found in default and the termination of the Contract. Initiation and submission of the quarterly sales report are the responsibility of the Contractor without prompting or notification by the Department. Sales will be reviewed on a quarterly basis. If no sales are recorded during the period, the Contractor must submit a report stating that there was no activity. If no sales are recorded in two consecutive quarters, the Contractor may be placed in probationary status or the Department may terminate the Contract.

Quarter 1 – (July-September) – due 30 calendar days after the close of the period
Quarter 2 – (October-December) – due 30 calendar days after the close of the period
Quarter 3 – (January-March) – due 30 calendar days after the close of the period
Quarter 4 – (April-June) due 30 calendar days after the close of the period

Exceptions may be made if a delay in submitting reports is attributable to circumstances that are clearly beyond the control of the Contractor. The burden of proof of unavoidable delay shall rest with the Contractor and shall be supplied in a written form and submitted to the Department.

The Department reserves the right to request additional sales information as needed.

16. Certified and Minority Business Enterprises Reports
Upon Customer request, the Contractor shall report to the requesting Customer the Contractor's spend with certified and other minority business enterprises in the provision of commodities or services related to the Customer's orders. These reports shall include the period covered, the name, minority code, and Federal Employer Identification Number of each minority business utilized during the period; commodities and services provided by the minority business enterprise, and the amount paid to each minority business enterprise on behalf of the Customer.

17. Ad Hoc Reports
The Department or Customer may require additional Contract information such as copies of purchase orders or ad hoc sales reports. The Contractor shall submit information in response to these specific ad hoc requests for reports within the specified amount of time as requested by the Department or Customer.

DocuSign Envelope ID: 10D724FD-21F4-4FA5-9D0B-DD3674FADC40

18. Business Review Meetings
In order to maintain the relationship between the Department and the Contractor, each quarter the Department may request a business review meeting. The business review meeting may include, but is not limited to, the following:

- Successful completion of deliverables
- Review of the Contractor's performance
- Review of minimum required reports
- Addressing of any elevated Customer issues
- Review of continuous improvement ideas that may help lower total costs and improve business efficiencies.

19. Financial Consequences
The Department reserves the right to impose financial consequences when the Contractor fails to comply with the requirements of the Contract. The following financial consequences will apply for the Contractor's non-performance under the Contract. The Customer and the Contractor may agree to add additional Financial Consequences on an as-needed basis beyond those stated herein to apply to that Customer's resultant contract or purchase order. The State of Florida reserves the right to withhold payment or implement other appropriate remedies, such as Contract termination or nonrenewal, when the Contractor has failed to comply with the provisions of the Contract. The Contractor and the Department agree that financial consequences for non-performance are an estimate of damages which are difficult to ascertain and are not penalties.

The financial consequences below will be paid and received by the Department of Management Services within 30 calendar days from the due date specified by the Department. These financial consequences below are individually assessed for failures over each target period beginning with the first full month or quarter of the Contract performance and every month or quarter, respectively, thereafter.

Deliverable	Performance Metric	Performance Due Date	Financial Consequence for Non-Performance
Contractor will timely submit completed Quarterly Sales Reports	All Quarterly Sales Reports will be submitted timely with the required information	Reports are due on or before the 30th calendar day after the close of each State fiscal quarter	$250 per Calendar Day late/not received by the Contract Manager
Contractor will timely submit completed MFMP Transaction Fee Reports	All MFMP Transaction Fee Reports will be submitted timely with the required information	Reports are due on or before the 15th calendar day after the close of each month	$100 per Calendar Day late/not received by the Contract Manager

Failure to timely provide Quarterly Sales Reports, transaction fee reports, or other reports as required will result in the imposition of financial consequences and repeated

DocuSign Envelope ID: 10D724FD-21F4-4FA5-9D0B-DD3674FADC40

failures or non- payment of financial consequences owed under this Contract may result in the Contractor being found in default and the termination of the Contract.

No favorable action will be considered when Contractor has outstanding Contract Quarterly Sales Reports, MFMP Transaction Fee Reports, or any other documentation owed to the Department or Customer, to include fees / monies, that is required under this Contract.

20. Routine Communications
All routine communications related to the Contract shall be sent to the Department's Contract Manager. If any of the Contractor's contract information changes during the life of the Contract, the Contractor shall notify the Department's Contract Manager; such updates do not necessitate a formal amendment to the Contract. Communications relating to a Customer contract or purchase order should be addressed to the contact person identified in the contract or purchase order. Routine communications may be my email, regular mail, or telephone.

21. Contract Transition
Upon Contract expiration or termination, the Contractor shall ensure a seamless transfer of Contract responsibilities with any subsequent Contractor necessary to transition the Products and services of the Contract. The incumbent Contractor assumes all expenses related to the contract transition.

22. Other Fees and Charges
Additional fees (including but not limited to, property taxes, fuel surcharges, interest fees, license fees, and late payment fees except where permitted by section 215.422(3)(b), F.S.) or fees not permitted elsewhere in the Contract are prohibited.

DocuSign Envelope ID: 10D724FD-21F4-4FA5-9D0B-DD3674FADC40

Department of MANAGEMENT SERVICES
We serve those who serve Florida

Exhibit B
ADDITIONAL SPECIAL CONTRACT CONDITIONS

A. Special Contract Conditions revisions: the corresponding subsections of the Special Contract Conditions referenced below are replaced in their entirety with the following:

2.2 Renewal.
Upon written agreement, the Department and the Contractor may renew the Contract in whole or in part only as set forth in the Contract documents, and in accordance with section 287.057(14), F.S.

3.4 Purchase Order.
A Customer may use purchase orders to buy commodities or contractual services pursuant to the Contract and, if applicable, the Contractor must provide commodities or contractual services pursuant to purchase orders. Purchase orders issued pursuant to the Contract must be received by the Contractor no later than the close of business on the last day of the Contract's term. The Contractor is required to accept timely purchase orders specifying delivery schedules that extend beyond the Contract term even when such extended delivery will occur after expiration of the Contract. Purchase orders shall be valid through their specified term and performance by the Contractor, and all terms and conditions of the Contract shall survive the termination or expiration of the Contract and apply to the Contractor's performance. The duration of purchase orders for recurring deliverables shall not exceed the expiration of the Contract by more than twelve months. However, if an extended pricing plan offered in the state term or agency contract is selected by the ordering entity, the contract terms on pricing plans and renewals shall govern the maximum duration of purchase orders reflecting such pricing plans and renewals. Any purchase order terms and conditions conflicting with these Special Contract Conditions shall not become a part of the Contract.

3.7 Transaction Fees.
The State of Florida, through the Department of Management Services, has instituted MyFloridaMarketPlace, a statewide eProcurement system. Pursuant to Section 287.057(24), F.S., all payments shall be assessed a Transaction Fee of one percent (1.0%), or as may otherwise be established by law, which the vendor shall pay to the State.

For payments within the State accounting system (FLAIR or its successor), the Transaction Fee shall, when possible, be automatically deducted from payments to the vendor. If automatic deduction is not possible, the vendor shall pay the Transaction Fee pursuant to subsection 60A-1.031(2), F.A.C. By submission of these reports and corresponding payments, vendor certifies their correctness. All such reports and payments shall be subject to audit by the State or its designee.

The vendor shall receive a credit for any Transaction Fee paid by the vendor for the purchase of any item(s) if such item(s) are returned to the vendor through no fault, act, or omission of the vendor. Notwithstanding the foregoing, a Transaction Fee is non-refundable when an item

DocuSign Envelope ID: 10D724FD-21F4-4FA5-9D0B-DD3674FADC40

is rejected or returned, or declined, due to the vendor's failure to perform or comply with specifications or requirements of the agreement.

Vendors will submit any monthly reports required pursuant to the rule. All such reports and payments will be subject to audit. Failure to comply with the payment of the Transaction Fees or submission of required reporting of transactions shall constitute grounds for declaring the Vendor in default.

5.1 Conduct of Business.
The Contractor must comply with all laws, rules, codes, ordinances, and licensing requirements that are applicable to the conduct of its business, including those of federal, state, and local agencies having jurisdiction and authority. For example, the Contractor must comply with section 274A of the Immigration and Nationality Act, the Americans with Disabilities Act, Health Insurance Portability and Accountability Act, if applicable, and all prohibitions against discrimination on the basis of race, religion, sex, creed, national origin, handicap, marital status, or veteran's status. The provisions of subparagraphs 287.058(1)(a)-(c) and (g), F.S., are hereby incorporated by reference.

Nothing contained within this Contract shall be construed to prohibit the Contractor from disclosing information relevant to performance of the Contract or purchase order to members or staff of the Florida Senate or Florida House of Representatives.

Pursuant to section 287.057(26), F.S., the Contractor shall answer all questions of, and ensure a representative will be available to, a continuing oversight team.
The Contractor will comply with all applicable disclosure requirements set forth in section 286.101, F.S. In the event the Department of Financial Services issues the Contractor a final order determining a third or subsequent violation pursuant to section 286.101(7)(c), F.S., the Contractor shall immediately notify the Department and applicable Customers and shall be disqualified from Contract eligibility.

5.4 Convicted, Discriminatory, Antitrust Violator, and Suspended Vendor Lists.
In accordance with sections 287.133, 287.134, and 287.137, F.S., the Contractor is hereby informed of the provisions of sections 287.133(2)(a), 287.134(2)(a), and 287.137(2)(a), F.S. For purposes of this Contract, a person or affiliate who is on the Convicted Vendor List, the Discriminatory Vendor List, or the Antitrust Violator Vendor List may not perform work as a contractor, supplier, subcontractor, or consultant under the Contract. The Contractor must notify the Department if it or any of its suppliers, subcontractors, or consultants have been placed on the Convicted Vendor List, the Discriminatory Vendor List, or the Antitrust Violator Vendor List during the term of the Contract.

In accordance with section 287.1351, F.S., a vendor placed on the Suspended Vendor List may not enter into or renew a contract to provide any goods or services to an agency after its placement on the Suspended Vendor List.

A firm or individual placed on the Suspended Vendor List pursuant to section 287.1351, F.S., the Convicted Vendor List pursuant to section 287.133, F.S., the Antitrust Violator Vendor List pursuant to section 287.137, F.S., or the Discriminatory Vendor List pursuant to section 287.134, F.S., is immediately disqualified from Contract eligibility.

DocuSign Envelope ID: 10D724FD-21F4-4FA5-9D0B-DD3674FADC40

5.5 Scrutinized Companies - Termination by the Department.
The Department may, at its option, terminate the Contract if the Contractor is found to have submitted a false certification as provided under section 287.135(5), F.S., or been placed on the Scrutinized Companies with Activities in Sudan List or the Scrutinized Companies with Activities in the Iran Terrorism Sectors List, or been engaged in business operations in Cuba or Syria, or to have been placed on the Scrutinized Companies that Boycott Israel List or is engaged in a boycott of Israel.

5.6 Cooperation with Inspector General and Records Retention.
Pursuant to section 20.055(5), F.S., the Contractor understands and will comply with its duty to cooperate with the Inspector General in any investigation, audit, inspection, review, or hearing. Upon request of the Inspector General or any other authorized State official, the Contractor must provide any information the Inspector General deems relevant. Such information may include, but will not be limited to, the Contractor's business or financial records, documents, or files of any type or form that refer to or relate to the Contract. The Contractor will retain such records for the longer of five years after the expiration or termination of the Contract, or the period required by the General Records Schedules maintained by the Florida Department of State, at the Department of State's Records Management website. The Contractor agrees to reimburse the State of Florida for the reasonable costs of investigation incurred by the Inspector General or other authorized State of Florida official for investigations of the Contractor's compliance with the terms of this or any other agreement between the Contractor and the State of Florida which results in the suspension or debarment of the Contractor. Such costs will include but will not be limited to: salaries of investigators, including overtime; travel and lodging expenses; and expert witness and documentary fees. The Contractor agrees to impose the same obligations to cooperate with the Inspector General and retain records on any subcontractors used to provide goods or services under the Contract.

6.10 Cooperative Purchasing. Pursuant to their own governing laws, and subject to the agreement of the Contractor, governmental entities that are not Customers may make purchases under the terms and conditions contained herein, if agreed to by Contractor. Such purchases are independent of the Contract between the Department and the Contractor, and the Department is not a party to these transactions. Agencies seeking to make purchases under this Contract are required to follow the requirements of Rule 60A-1.045(6), F.A.C.

8.1.1 Termination of Contract.
The Department may terminate the Contract for refusal by the Contractor to comply with this section by not allowing access to all public records, as defined in Chapter 119, F.S., made or received by the Contractor in conjunction with the Contract unless the records are exempt from s. 24(a) of Art. I of the State Constitution and section 119.071(1), F.S.

8.1.2 Statutory Notice.
Pursuant to section 119.0701(2)(a), F.S., for contracts for services with a contractor acting on behalf of a public agency, as defined in section 119.011(2), F.S., the following applies:

IF THE CONTRACTOR HAS QUESTIONS REGARDING THE APPLICATION OF CHAPTER 119, FLORIDA STATUTES, TO THE CONTRACTOR'S DUTY TO PROVIDE PUBLIC RECORDS RELATING TO THIS CONTRACT, CONTACT THE DEPARTMENT'S CUSTODIAN

DocuSign Envelope ID: 10D724FD-21F4-4FA5-9D0B-DD3674FADC40

OF PUBLIC RECORDS AT PUBLICRECORDS@DMS.FL.GOV, (850) 487-1082 OR 4050 ESPLANADE WAY, SUITE 160, TALLAHASSEE, FLORIDA 32399-0950.

Pursuant to section 119.0701(2)(b), F.S., for contracts for services with a contractor acting on behalf of a public agency as defined in section 119.011(2), F.S., the Contractor shall:

(a) Keep and maintain public records required by the public agency to perform the service.

(b) Upon request from the public agency's custodian of public records, provide the public agency with a copy of the requested records or allow the records to be inspected or copied within a reasonable time at a cost that does not exceed the cost provided in Chapter 119, F.S., or as otherwise provided by law.

(c) Ensure that public records that are exempt or confidential and exempt from public records disclosure are not disclosed except as authorized by law for the duration of the Contract term and following the completion of the Contract if the Contractor does not transfer the records to the public agency.

(d) Upon completion of the Contract, transfer, at no cost, to the public agency all public records in possession of the Contractor or keep and maintain public records required by the public agency to perform the service. If the Contractor transfers all public records to the public agency upon completion of the Contract, the Contractor shall destroy any duplicate public records that are exempt or confidential and exempt from public records disclosure requirements. If the Contractor keeps and maintains public records upon completion of the Contract, the Contractor shall meet all applicable requirements for retaining public records. All records stored electronically must be provided to the public agency, upon request from the public agency's custodian of public records, in a format that is compatible with the information technology systems of the public agency.

12.1 Performance or Compliance Audits.
The Department may conduct or have conducted performance and/or compliance audits of the Contractor and subcontractors as determined by the Department. The Department may conduct an audit and review all the Contractor's and subcontractors' data and records that directly relate to the Contract. To the extent necessary to verify the Contractor's fees and claims for payment under the Contract, the Contractor's agreements or contracts with subcontractors, partners, or agents of the Contractor, pertaining to the Contract, may be inspected by the Department upon fifteen (15) calendar days' notice, during normal working hours and in accordance with the Contractor's facility access procedures where facility access is required. Release statements from its subcontractors, partners, or agents are not required for the Department or its designee to conduct compliance and performance audits on any of the Contractor's contracts relating to this Contract. The Inspector General, in accordance with section 5.6, the State of Florida's Chief Financial Officer, and the Office of the Auditor General shall also have authority to perform audits and inspections.

13.2 E-Verify.
The Contractor and its subcontractors shall register with and use the U.S. Department of Homeland Security's (DHS) E-Verify system to verify the work authorization status of all new employees of the contractor or subcontractor in accordance with section 448.095, F.S. The

DocuSign Envelope ID: 10D724FD-21F4-4FA5-9D0B-DD3674FADC40

Contractor shall obtain an affidavit from its subcontractors in accordance with paragraph (5)(b) of section 448.095, F.S., and maintain a copy of such affidavit for the duration of the Contract.

B. Special Contract Conditions additions: the following subsections are added to the Special Contract Conditions:

5.7 Foreign Country of Concern Attestation.
If the Contract or Customer's purchase order issued pursuant to this Contract grants the Contractor access to an individual's personal identifying information as defined in section 501.171, Florida Statutes, the Contractor must, prior to execution, extension, or renewal of this Contract or Customer purchase order, complete and submit to the applicable Governmental Entity the Form PUR 1355, "Foreign Country of Concern Attestation Form," available at: http://www.flrules.org/Gateway/reference.asp?No=Ref-15958.

5.8 Common Carrier Attestation.
The Contractor as a Common Carrier, as defined in section 908.111, Florida Statutes, or contracted carrier must, prior to execution, amendment, or renewal of this Contract or Customer purchase order issued pursuant to this Contract, complete and submit to the applicable Governmental Entity the Form PUR 1808, "Common Carrier or Contracted Carrier Attestation Form," available at:
http://www.flrules.org/Gateway/reference.asp?No=Ref-14614.

This Contract or a Customer purchase order may be terminated if the Contractor is found to be in violation of the submitted attestation.

12.3 Document Inspection.
In accordance with section 216.1366, F.S., the Department or a state agency is authorized to inspect the: (a) financial records, papers, and documents of the Contractor that are directly related to the performance of the Contract or the expenditure of state funds; and (b) programmatic records, papers, and documents of the Contractor which the Department or state agency determines are necessary to monitor the performance of the Contract or to ensure that the terms of the Contract are being met. The Contractor shall provide such records, papers, and documents requested by the Department or a state agency within 10 Business Days after the request is made.

DocuSign Envelope ID: 10D724FD-21F4-4FA5-9D0B-DD3674FADC40

FOREIGN COUNTRY OF CONCERN ATTESTATION
(PUR 1355)

This form must be completed by an officer or representative of an entity submitting a bid, proposal, or reply to, or entering into, renewing, or extending, a contract with a Governmental Entity which would grant the entity access to an individual's Personal Identifying Information. Capitalized terms used herein have the definitions ascribed in Rule 60A-1.020, F.A.C.

Randstad North America, Inc. dba Randstad Technologies, LLC is not owned by the government of a Foreign Country of Concern, is not organized under the laws of nor has its Principal Place of Business in a Foreign Country of Concern, and the government of a Foreign Country of Concern does not have a Controlling Interest in the entity.

Under penalties of perjury, I declare that I have read the foregoing statement and that the facts stated in it are true.

The information contained herein is being submitted in connection with the business relationship by and between Randstad North America, Inc. (or a subsidiary company) and Recipient. This document contains trade secrets or otherwise confidential information owned by Randstad North America, Inc. This document and the information contained herein may not be copied, distributed, used or otherwise disclosed to third parties unless expressly authorized in writing by Randstad North America, Inc. ***© Randstad North America, Inc. 2025***

1. our understanding.

This Statement of Work No. 01 (the "**SOW**") is executed and made a part of the Contract No. 80101507-23-STC-ITSA (as amended, the "**Contract**") between Randstad North America, Inc. dba Randstad Technologies, LLC ("**Randstad**" or "**Contractor**") and the State of Florida, Department of Management Services (the "**State**"). The parties acknowledge and agree that this SOW is entered into by and between Randstad and Polk County ("**Client**"), in accordance with the Piggyback Agreement between Randstad and Client, effective July 25, 2025 (together with the Contract, the "**Agreement**"). Capitalized terms not defined in this SOW shall have the meaning set forth in the Agreement. Transactions performed under this SOW will be conducted in accordance with and be subject to the terms and conditions of the Agreement and this SOW; provided that, in the event of a conflict between the Agreement and this SOW, the terms of the SOW shall prevail.

Client is looking to set up their tenant in Azure public cloud. They are looking to migrate their existing Power BI dashboard and existing/current Power Apps platform to Azure to start, but have future plans to migrate other applications workloads also to Azure.

As of now, Client has only internal staff as the users of this cloud environment. There would be sharing of data across multiple divisions within the Client.

Client is seeking a partner to provide them recommendations on best practices and help them to set up an Azure tenant cloud foundation.

Randstad Digital, LLC (to be included in the defined term, "**Randstad**" and "**Contractor**") is a Microsoft Solutions Partner, part of the Microsoft Cloud Partner Program and part of one of the largest Information Technology ("**IT**") services and staffing companies in the nation. Randstad has achieved this status by demonstrating to Microsoft that it has the resources and proven experience needed to address the complexities inherent with these types of projects.

Randstad will deliver this project end to end leveraging its professional services and project management competencies.

2. solution overview and scope.

Randstad has reviewed and understands Client's requirements.

Randstad proposes a project based engagement directly supported and led through its Cloud Services practice specialty, a sub practice within Randstad's Technology Solutions: Infrastructure Services Practice. Randstad will assign and direct practice resources (including delivery leadership, project management, and technical roles) in support of Client's engagement.

This solution addresses Client's immediate requirement to build a cloud foundation environment on Azure which can host Power BI and Power Apps workloads to start with, but also ensures that the cloud foundation design and build is done to make it scalable to host future workloads as well. The solution will be delivered in phases, as further detailed below (collectively, the "**Services**").

2.1 approach

Randstad will leverage its cloud discovery, design, implementation and management methodologies and frameworks which are designed to ensure a high degree of collaboration and transparency throughout the project and that the efforts between Randstad and Client yield high-value and meaningful outcomes.

2.2 discovery, design and recommendations.

The discovery and design phase is a crucial step to ensure the Azure tenant is built to scale and also aligned to industry best practices. This phase will focus on gathering comprehensive information about the current state environment/requirements, identify project objectives, assess requirements and scope, and develop a high level design blueprint for the future state environment. Understanding of the current (state) environment/requirements and services ensures that the future (state) provides the same or enhanced functionality to the end users.

2.2.1 discovery

Review current and future state business and IT needs, validate assumptions and requirements. Adjust planning as required based on mutually agreed upon requirements. Facilitate review sessions, document current and future goals and objectives, and capture desired intent and requirements for the following areas:

- Scope of Project - Expectations, deliverables, defining KPIs, metrics, and terms for success
- Conduct functional & non-functional requirements (NFR) sessions
- Change management activities/communications review
- Existing Entra ID configuration
- Licensing requirements
- Tenant(s) configuration requirements
- Hygiene, privacy and security requirements
- Evaluation of security controls, IAM and MFA policies, network configurations, data encryption and compliance requirements (also in compliance with NIST).
- Consideration of business continuity and failover scenarios (DR/HA).

2.2.2 plan, design and recommendations

This phase includes the development of high-level and low-level designs (HLD and LLD) for networking, security, compute, and storage components. The outcome will be a comprehensive, client-approved architectural blueprint, including validated network diagrams, security controls, and cloud infrastructure landing zones.
This phase will also include a plan to build the Azure cloud foundation.
Additionally, Randstad will also provide recommendations to build and manage the Azure cloud tenant. These recommendations would be aligned to industry best practice, well architected frameworks and NIST compliances to ensure the Azure tenant is built to scale and manage:

- high level and low level design blueprint for cloud foundation
- recommendations on GCC vs Commercial tenant (pros and cons)
- identify resource provisioning approach

- best practices for cost allocation, resource tagging, policies, designing subscription hierarchies under a tenant.
- define approach for boot strapping cloud resources
- address high availability and DR scenarios for business critical workloads

2.2.3 deliverables

- Landing zone non Functional Requirements (NFR) (Microsoft Word document)
- High-level build landing zone design blueprint(Microsoft Word document)
- Cloud foundation build plan
- Microsoft engineering review and approval (if required)
- Recommendations on Azure cloud build and manage best practices (Microsoft Word document)
- Conduct workshop on cloud security best practices

2.3 build.

Randstad will implement the build design, as defined in the NFR, and perform the required cloud foundation implementation and configurations in preparation to support the PowerBI and Power Apps environment migration process.

2.3.1 build

During the build phase of the engagement Randstad will perform the required implementation and configurations, as defined in the NFR.

Randstad will perform the following:

- build Cloud foundation aligned to NIST and Azure Well Architected Framework guidelines
  - setup tenant and subscription
  - deploy IAM services
    - integrate with any existing EntraID for IAM
    - Azure AD
    - Conditional Access Policies
    - MFA / PIM
    - Configure RBAC services
  - configure relevant virtual networks across Azure regions with necessary network and firewall configurations
  - implement required security solutions and governance frameworks
- configure connectivity to access Azure cloud tenant
- configure recommended and approved Azure policies, blueprints, cost management alerts, etc
- perform test scenarios to ensure the foundation build meets the NFR requirement
- Create build documentation

2.3.2 deliverables

- Client acceptance documentation
  - Production ready cloud foundation environment

- Revised design specification(s) (as required)
- Updates to NFR (as required)

2.4 transition & close.

At the conclusion of the project a final knowledge transfer session will occur, and a final project deliverable will be provided for authorization.

2.4.1 knowledge transfer and hypercare

A knowledge transfer session will occur with the Client's staff responsible for the ongoing administration of the azure landing zone environment. Randstad will perform the following:

- Finalize all project documentation and conduct a lessons learned session
- Provide training to Client teams on general administration guidelines and basic troubleshooting measures

2.4.2 deliverables

- Project summation report
  - Final 'As built'
  - Lessons learned summary

2.5 Optional: Contingency/Additional Scope.

Additional funding may be utilized for additional hours as requested to execute any additional scope for the project. Additional scope authorization will be facilitated as outlined in Section 10 - change order process below.

- Any unused portion of this fund will not be invoiced
- Services delivered under this Optional phase will only be delivered and or invoiced with an approved change order from the Client and Randstad

3. deliverable acceptance criteria.

Acceptance criteria for deliverables will be defined at the commencement of specific deliverable development activities, and agreed upon by Client and Randstad, prior to Randstad starting the development of the specific deliverable.

At the completion of each deliverable, Client will evaluate the deliverable according to the agreed upon acceptance criteria and provide Randstad with formal acceptance or reasons for non-acceptance.

Review of and provision of feedback on deliverables will be serviced in a timely manner, and in any event within five (5) business days. In the event this timescale is exceeded, Randstad will assume that such deliverable has been accepted by Client and proceed accordingly.

4. scope assumptions and exclusions.

The following assumptions or clarifications have been taken into consideration in developing this SOW:

1. Client to provide valid licensing for target state environment
2. Client to provide required network connectivity (VPN, ExpressRoute) required to support environment
3. Existing EntraID will be used to integrate with Azure tenant
4. Any configuration, troubleshooting, or integration of third party systems (if any) will be performed by the client
5. Client will be responsible for alignment with Microsoft account representation to coordinate for engineering reviews (if required).

5. engagement management.

Randstad will utilize the formal Project Management (PM) structure established in earlier phases of the engagement. All deployment activities will be supported by a Randstad PM to manage the Randstad staff and services activities of this engagement.

5.1 project management responsibilities.

The Randstad PM will coordinate for all aspects of engagement management. Overall Randstad PM responsibilities include the following:

- Provide the necessary management, coordination, scheduling, and administrative assistance to the Client stakeholders in order to provide the services defined in this budgetary proposal.
- Hold virtual meetings with Client stakeholders on a regular basis to help ensure effective communications and to help ensure the identification and resolution of issues.
- Work closely with the Client stakeholders to determine the impact and cause of schedule changes, and to support the communication of these changes to Client stakeholders in a timely manner.
- Capture all open issues and coordinating and scheduling resources required to resolve any issues from the installations.
- Bear responsibility for the primary communication with the Client stakeholders and overall project performance.
- Manage and communicate project / resource schedule.
- Participate in all requisite calls, coordinate resources, coordinate on-site activities.
- Manage and mitigate risk identified in the delivery of defined services.

5.2 engagement oversight.

A Randstad Delivery Director will oversee the engagement. The Delivery Director has a primary responsibility of assuring that the engagement meets Customer's requirements, including satisfaction with Randstad as a vendor. The Delivery Director will achieve this goal through regular discussion with the project team, review of deliverables, and communications with Client at the commencement, throughout, and at the conclusion of the engagement. The purpose of this is to discuss the status of the engagement, acceptance of the final deliverable, changes in scope, plans, the level of satisfaction, and any other key issues.

6. services locations.

Services will be provided from work from home resources and/or onsite at a Randstad delivery center, from within the United States.

7. project schedule.

The term of this SOW shall commence as of the date of receipt of the applicable PO as set forth in the "acceptance" Section below (the "**Effective Date**"), and shall continue for a period of twelve (12) months unless sooner terminated in accordance with the SOW or the Agreement (the "**Term**"). Either party may terminate this SOW for any reason with at least thirty (30) days' prior written notice.
In the event that Client terminates the Services, Randstad will generate an invoice and Client will compensate Randstad for the work performed to date, and not yet invoiced, plus any reasonable work effort required to package and deliver any deliverables or property due to Client.

Services are expected to begin within two (2) weeks from execution of this SOW and will run coterminous with the Term. The estimated project schedule is noted in the table below:

Phase	Estimated Calendar Weeks
Assess	2
Plan, Design & Recommendations	4
Build and Test	3
Transition & Close	2
Total:	**11**

8. technology.

Randstad shall provide each Randstad personnel with a laptop. Client shall provide Randstad and Randstad personnel with all necessary access to deliver the Services including a means for allowing secure remote access. Client shall maintain and implement current security protocols to ensure Randstad's personnel are appropriately accessing Client's network and systems and ensure Randstad is provided updated documentation as it relates to any changes regarding aforementioned security protocols as deemed appropriate.

9. client responsibilities.

Client hereby agrees to undertake the following, and understands that failure to do so may impact the engagement's timeline and estimated effort and fee cost:

1. Maintain a proactive data backup procedure and will perform necessary data backups of the environment prior to any changes within the environment occurring. Randstad is not responsible for any data loss or consequences of lost data due to any factors, including but not limited to, server outages, software failures, hard drive bad sector areas, network outages or backup failures.
2. Provide Randstad personnel with the necessary access to Client offices, computing facilities and applications, with security clearance, in order for them to complete the engagement. Such access will be available at the commencement of the engagement.
3. Provide a means for allowing secure remote access to required systems for assigned Randstad resource(s) to carry out the above tasks.
4. Designate a Project Sponsor.
5. Provide access to the appropriate Subject Matter Experts ("SMEs"), systems, tools, and processes.
6. Support the scheduling of project progress review meetings as required to monitor the progress of the project.
7. Acquire, at Client expense, platform, end user, or third party tools (e.g., Microsoft licensing/subscriptions, etc.)
8. Shall maintain and implement current security protocols to ensure Randstad's personnel are appropriately accessing Client's network and systems to deliver the Services and ensure Randstad is provided updated documentation as it relates to any changes regarding aforementioned security protocols as deemed appropriate.
9. Ensure Randstad's resources will not have access to and will not be required to handle Protected Health Information (PHI), financial information and/or Personally Identifiable Information (PII) [in the course of performing day to day tasks.
10. Ensure that the scope of work of the Statement of Work will not be communicated, shared, or used to for the purpose of benefiting any entity either directly or indirectly that is subject to global sanctions; and in the event it is, shall provide Randstad with prompt notice thereof.
11. Confirms/represents that the provision of services by, and payment by Client to, Randstad shall not result in any breach of any trade, economic or financial sanctions laws or regulations.
12. Comply with all federal, state, and local laws, rules, regulations, ordinances, orders and directions applicable to it and its use of Randstad Personnel.

10. change order process.

Randstad recognizes that the dynamic nature of project circumstances may require material changes in the scope of the work or service delivery parameters described herein. Requests for such changes may be initiated by either Randstad or Client.

A Change Request document will be completed by the requesting Party, describing the nature of the change, the reason for the change, and the anticipated effect the change will have on the scope of work, Randstad resources and delivery schedule.

The designated project manager of the requesting Party will review the proposed change with his/her counterpart. Both Parties will evaluate and negotiate in good faith the changes to be made and the additional charges or billing arrangements, if any, to implement them. The Change Request as negotiated will be signed by authorized representatives of Randstad and Client, fully executing the resulting approved Change Order. Client will have the final determination as to which scope changes should be completed by Randstad and which should be postponed to a later date or altogether dismissed. Until such time as the Parties execute the Change Order, Randstad shall be under no obligation to perform the change(s) described in the Change Order. Upon execution, the approved Change Order will be incorporated into, and made a part of, this scope of work and previously approved pertinent Change Orders.

11. solution pricing.

Randstad estimates the costs and resource requirements to be provided on a fixed fee and milestone basis using the invoicing schedule detailed below:

Phase	Estimated Fees
Assess	$10,013
Plan, Design & Recommendations	$13,199
Build and Test	$11,588
Transition & Close	$2,337
Optional: Contingency/Additional scope	$10,000
Total:	**$47,137**

- Travel and expenses are not expected and are therefore excluded. Any travel requested by Client will be agreed to by both Parties.

11.1 pricing assumptions.

The following assumptions have been made in developing this SOW, including the estimates provided herein. If any of the assumptions prove to be invalid, or further assumptions are required, Randstad reserves the right to revise the content of this document and the associated estimates.

1. A project kick-off meeting will occur prior to the project start date. Additional responsibilities from Client may be identified at that meeting (e.g., site plans, areas of investigation, requirements changes, etc.), and may affect project timeline or pricing.
2. Adjustments in effort and associated fee costs may be required due to refinement of requirements, an increase or decrease in expected installation times, changes (increases or decreases) that Client may authorize in connection with the scope of work, delays resulting from unanticipated causes, or for other reasons.
3. Randstad is not a license reseller. Randstad's pricing does not include subscription or licensing fees of any kind nor does it include the fees associated with third party tools.
4. The general daily working schedule will follow the local region's standard business practices, Mondays through Fridays. No overtime, weekend or holiday work is anticipated at this time. Any other deviation must be mutually agreed between Client and Randstad.
5. Randstad will convene a Project Closure Meeting (via conference call), at the conclusion of services delivery, to ensure both parties are in agreement that the Services have been completed, that issues have been addressed, and that any follow-on activities by either party are understood.
6. Taxes are not included in the above fee costs. Client is responsible for any and all invoice withholding, VAT, excise, sales taxes, as applicable.
7. The terms of the Agreement shall take precedence and supersede any and all terms and conditions associated with a Purchase Order ("**PO**") associated with this scope of work.

acceptance.

In lieu of signatures, this SOW shall become effective upon receipt of a valid and fully funded PO referencing this scope of work.

The information contained herein is being submitted in connection with the business relationship by and between Randstad North America, Inc. (or a subsidiary company) and Recipient. This document contains trade secrets or otherwise confidential information owned by Randstad North America, Inc. This document and the information contained herein may not be copied, distributed, used or otherwise disclosed to third parties unless expressly authorized in writing by Randstad North America, Inc. ***© Randstad North America, Inc. 2025***

1. our understanding.

This Statement of Work No. 01 (the "**SOW**") is executed and made a part of the Contract No. 80101507-23-STC-ITSA (as amended, the "**Contract**") between Randstad North America, Inc. dba Randstad Technologies, LLC ("**Randstad**" or "**Contractor**") and the State of Florida, Department of Management Services (the "**State**"). The parties acknowledge and agree that this SOW is entered into by and between Randstad and Polk County ("**Client**"), in accordance with the Piggyback Agreement between Randstad and Client, effective July 25, 2025 (together with the Contract, the "**Agreement**"). Capitalized terms not defined in this SOW shall have the meaning set forth in the Agreement. Transactions performed under this SOW will be conducted in accordance with and be subject to the terms and conditions of the Agreement and this SOW; provided that, in the event of a conflict between the Agreement and this SOW, the terms of the SOW shall prevail.

Client is looking to set up their tenant in Azure public cloud. They are looking to migrate their existing Power BI dashboard and existing/current Power Apps platform to Azure to start, but have future plans to migrate other applications workloads also to Azure.

As of now, Client has only internal staff as the users of this cloud environment. There would be sharing of data across multiple divisions within the Client.

Randstad Digital, LLC (to be included in the defined term, "**Randstad**" and "**Contractor**") is a Microsoft Solutions Partner, part of the Microsoft Cloud Partner Program and part of one of the largest Information Technology ("**IT**") services and staffing companies in the nation. Randstad has achieved this status by demonstrating to Microsoft that it has the resources and proven experience needed to address the complexities inherent with these types of projects.

Randstad will deliver this project end to end leveraging its professional services and project management competencies.

2. solution overview and scope.

Randstad has reviewed and understands Client's requirements.

Randstad proposes a project based engagement directly supported and led through its Cloud Services practice specialty, a sub practice within Randstad's Technology Solutions: Infrastructure Services Practice. Randstad will assign and direct practice resources (including delivery leadership, project management, and technical roles) in support of Client's engagement.

This solution addresses Client's immediate requirement to host Power BI and current/existing Power Apps environment on Azure The solution will be delivered in phases, as further detailed below (collectively, the "**Services**").

2.1 approach

Randstad will leverage its discovery, design, deployment & implementation and manage methodologies and frameworks which are designed to ensure a high degree of collaboration and transparency

throughout the project and that the efforts between Randstad and Client yield high-value and meaningful outcomes.

2.2 discovery, design and recommendations.

The discovery and design phase is a crucial step to ensure the Azure tenant is configured to scale and also aligned to industry best practices. This phase will focus on gathering comprehensive information about the PowerBI and Power Apps current state environment, identify project objectives, assess requirements and scope, and develop a high level design blueprint for the future state environment. Understanding of the current (state) environment and services ensures that the future (state) provides the same or enhanced functionality to the end users.

2.2.1 discovery

Review current and future state business and IT needs, validate assumptions and requirements. Adjust planning as required based on mutually agreed upon requirements. Facilitate review sessions, document current and future goals and objectives, and capture desired intent and requirements for the following areas:

- Scope of Project - Expectations, deliverables, defining KPIs, metrics, and terms for success
- Conduct functional & non-functional requirements (NFR) sessions
- Understand technical specifications of existing Power BI dashboards and current/existing Power Apps, multiple data sources and its integrations aspects
  - Gather data source details, including types, locations, and access methods
  - Determine data refresh frequency and performance expectations
  - Define data storage requirements and integration points for Power Apps (if any)
  - Specify user interface and user experience (UI/UX) requirements
- Define security and access control requirements for Power BI reports and dashboards
- Determine security requirements and user permissions for Power Apps
- Change management activities/communications review
- Licensing requirements
- Tenant(s) configuration requirements for Power BI and Power Apps
- Hygiene, privacy and security requirements
- Identification of known critical workloads and their dependencies.
- Identify connectivity requirements
- Identification of risks related to the build and migration phases.
- Building risk mitigation strategies and contingency plans.
- Consideration of business continuity and failover scenarios (DR/HA).

2.2.2 plan, design and recommendations

This phase includes the development of high-level and low-level designs (HLD and LLD) for Azure environment to host Power BI and Power Apps workloads.
This phase will also include a plan to deploy and migrate PowerBI environment in Azure cloud.

- high level and low level design blueprint for Power BI and PowerApps workloads to be hosted in Azure cloud
- define approach for migrating Power BI, current/existing Power Apps environment to Azure tenant
  - integrating data sources
  - defining user defined access protocols, data security needs
  - connectivity requirements

2.2.3 deliverables

- Non Functional Requirements (NFR) (Microsoft Word document)
- High-level build design blueprint(Microsoft Word document)
- Power BI and Power Apps deployment plan

2.3 deploy

During the Deployment phase, Randstad will support the deployment to the approved PowerBI and Power Apps environment, with Client's ongoing timely approvals and guidance as to all processes and procedures pertaining to their environment as required.

Randstad will perform the following:

- setup and configure base infrastructure/platform services in Azure tenant which are required to host PowerBI and Power Apps environment
  - Provision Azure resources required for Power BI (e.g., Azure Analysis Services, Azure SQL Database, if applicable)
  - Provision or configure any necessary Azure services for Power Apps (e.g., Common Data Service, Azure SQL Database)
  - Implement security settings and access controls for Power BI workspaces and apps
  - Configure connections, gateways, and data sources for Power Apps
- configure Power BI workspaces, apps, and sharing settings according to the design
- set up user roles, permissions, and sharing
- integrate third party data sources which have API led integration
- In collaboration with Client, execute the deployment, including PowerBI and current/existing Power Apps data migration, while minimizing disruptions for users
- Monitor the deployment progress and address any encountered issues.
- Validate the successful deployment of the environment
- Acceptance of Power BI and Power Apps environment functional readiness from the Client
- validate Power BI report functionality, performance, and data accuracy in the Azure environment

2.3.1 deliverables

- Client acceptance of PowerBI environment in Azure cloud tenant
- Revised design specification(s) (as required)

- Updates to NFR (as required)
- Finalized "as-built" and operate documentation

2.4 transition & close.

At the conclusion of the project a final knowledge transfer session will occur, and a final project deliverable will be provided for authorization.

2.4.1 knowledge transfer and hypercare

A knowledge transfer session will occur with the Client's staff responsible for the ongoing administration of the environment. Additionally, Randstad will also provide 2 weeks of hypercare support to ensure systems stability and seamless transition to the Client engineering team.
Randstad will perform the following:

- Conduct a post-deployment evaluation and identify lessons learned
- Finalize all project documentation and conduct a lessons learned session
- Provide training to Client teams on general administration guidelines and basic troubleshooting measures
- Discuss planning and requirements of future scope requirements

2.4.2 deliverables

- Project summation report
  - Final 'As built'
  - Lessons learned summary
  - Recommendations for future scope and provide GRC framework for day 0 and operational governance of the cloud tenant

2.5 Optional: Contingency/Additional Scope.

Additional funding may be utilized for additional hours as requested to execute any additional scope for the project. Additional scope authorization will be facilitated as outlined in Section 10 - change order process below.

- Any unused portion of this fund will not be invoiced
- Services delivered under this Optional phase will only be delivered and or invoiced with an approved change order from the Client and Randstad

3. deliverable acceptance criteria.

Acceptance criteria for deliverables will be defined at the commencement of specific deliverable development activities, and agreed upon by Client and Randstad, prior to Randstad starting the development of the specific deliverable.

At the completion of each deliverable, Client will evaluate the deliverable according to the agreed upon acceptance criteria and provide Randstad with formal acceptance or reasons for non-acceptance.

Review of and provision of feedback on deliverables will be serviced in a timely manner, and in any event within five (5) business days. In the event this timescale is exceeded, Randstad will assume that such deliverable has been accepted by Client and proceed accordingly.

4. scope assumptions and exclusions.

The following assumptions or clarifications have been taken into consideration in developing this SOW:

1. Azure cloud foundation is built, tested and available, to host Power BI and Power Apps workloads, as a prerequisite for this engagement
2. Client to provide valid licensing for target state environment
3. Client to provide required network connectivity (VPN, ExpressRoute) required to support environment
4. Enhancements of PowerBI dashboards and reports and Power Apps is out of scope
5. Decommissioning of existing on-premises/ existing PowerBI and Power Apps hosted environment is considered to be out of scope for the engagement
6. Any configuration, troubleshooting, or integration of third party systems (if any) will be performed by the client
7. Client will be responsible for alignment with Microsoft account representation to coordinate for engineering reviews (if required).

5. engagement management.

Randstad will utilize the formal Project Management (PM) structure established in earlier phases of the engagement. All deployment activities will be supported by a Randstad PM to manage the Randstad staff and services activities of this engagement.

5.1 project management responsibilities.

The Randstad PM will coordinate for all aspects of engagement management. Overall Randstad PM responsibilities include the following:

- Provide the necessary management, coordination, scheduling, and administrative assistance to the Client stakeholders in order to provide the services defined in this budgetary proposal.
- Hold virtual meetings with Client stakeholders on a regular basis to help ensure effective communications and to help ensure the identification and resolution of issues.
- Work closely with the Client stakeholders to determine the impact and cause of schedule changes, and to support the communication of these changes to Client stakeholders in a timely manner.
- Capture all open issues and coordinating and scheduling resources required to resolve any issues from the installations.
- Bear responsibility for the primary communication with the Client stakeholders and overall project performance.
- Manage and communicate project / resource schedule.
- Participate in all requisite calls, coordinate resources, coordinate on-site activities.
- Manage and mitigate risk identified in the delivery of defined services.

5.2 engagement oversight.

A Randstad Delivery Director will oversee the engagement. The Delivery Director has a primary responsibility of assuring that the engagement meets Customer's requirements, including satisfaction with Randstad as a vendor. The Delivery Director will achieve this goal through regular discussion with the project team, review of deliverables, and communications with Client at the commencement, throughout, and at the conclusion of the engagement. The purpose of this is to discuss the status of the engagement, acceptance of the final deliverable, changes in scope, plans, the level of satisfaction, and any other key issues.

6. services locations.

Services will be provided from work from home resources and/or onsite at a Randstad delivery center, from within the United States.

7. project schedule.

The term of this SOW shall commence as of the date of receipt of the applicable PO as set forth in the "acceptance" Section below (the "**Effective Date**"), and shall continue for a period of twelve (12) months unless sooner terminated in accordance with the SOW or the Agreement (the "**Term**"). Either party may terminate this SOW for any reason with at least thirty (30) days' prior written notice.

In the event that Client terminates the Services, Randstad will generate an invoice and Client will compensate Randstad for the work performed to date, and not yet invoiced, plus any reasonable work effort required to package and deliver any deliverables or property due to Client.

Services are expected to begin within two (2) weeks execution of this SOW and will run coterminous with the Term. The estimated project schedule is noted in the table below:

Phase	Estimated Calendar Weeks
Assess	2
Plan, Design & Recommendations	4
Deploy	5
Transition & Close	2
Total:	**13**

8. technology.

Randstad shall provide each Randstad personnel with a laptop. Client shall provide Randstad and Randstad personnel with all necessary access to deliver the Services including a means for allowing secure remote access. Client shall maintain and implement current security protocols to ensure Randstad's personnel are appropriately accessing Client's network and systems and ensure Randstad is provided updated documentation as it relates to any changes regarding aforementioned security protocols as deemed appropriate.

9. client responsibilities.

Client hereby agrees to undertake the following, and understands that failure to do so may impact the engagement's timeline and estimated effort and fee cost:

1. Maintain a proactive data backup procedure and will perform necessary data backups of the environment prior to any changes within the environment occurring. Randstad is not responsible for any data loss or consequences of lost data due to any factors, including but not limited to, server outages, software failures, hard drive bad sector areas, network outages or backup failures.
2. Provide Randstad personnel with the necessary access to Client offices, computing facilities and applications, with security clearance, in order for them to complete the engagement. Such access will be available at the commencement of the engagement.
3. Provide a means for allowing secure remote access to required systems for assigned Randstad resource(s) to carry out the above tasks.
4. Designate a Project Sponsor.
5. Provide all required data regarding PowerBI and Power Apps related technical and business environments and business processes will be readily available for Randstad's consultant.
6. Provide access to the appropriate Subject Matter Experts ("SMEs"), systems, tools, and processes.
7. Support the scheduling of project progress review meetings as required to monitor the progress of the project.
8. Acquire, at Client expense, platform, end user, or third party tools (e.g., Microsoft licensing/subscriptions, etc.)
9. Shall maintain and implement current security protocols to ensure Randstad's personnel are appropriately accessing Client's network and systems to deliver the Services and ensure Randstad is provided updated documentation as it relates to any changes regarding aforementioned security protocols as deemed appropriate.
10. Ensure Randstad's resources will not have access to and will not be required to handle Protected Health Information (PHI), financial information and/or Personally Identifiable Information (PII) [in the course of performing day to day tasks.
11. Ensure that the scope of work of the Statement of Work will not be communicated, shared, or used to for the purpose of benefiting any entity either directly or indirectly that is subject to global sanctions; and in the event it is, shall provide Randstad with prompt notice thereof.
12. Confirms/represents that the provision of services by, and payment by Client to, Randstad shall not result in any breach of any trade, economic or financial sanctions laws or regulations.
13. Comply with all federal, state, and local laws, rules, regulations, ordinances, orders and directions applicable to it and its use of Randstad Personnel.

10. change order process.

Randstad recognizes that the dynamic nature of project circumstances may require material changes in the scope of the work or service delivery parameters described herein. Requests for such changes may be initiated by either Randstad or Client.

A Change Request document will be completed by the requesting Party, describing the nature of the change, the reason for the change, and the anticipated effect the change will have on the scope of work, Randstad resources and delivery schedule.

The designated project manager of the requesting Party will review the proposed change with his/her counterpart. Both Parties will evaluate and negotiate in good faith the changes to be made and the additional charges or billing arrangements, if any, to implement them. The Change Request as negotiated will be signed by authorized representatives of Randstad and Client, fully executing the resulting approved Change Order. Client will have the final determination as to which scope changes should be completed by Randstad and which should be postponed to a later date or altogether dismissed. Until such time as the Parties execute the Change Order, Randstad shall be under no obligation to perform the change(s) described in the Change Order. Upon execution, the approved Change Order will be incorporated into, and made a part of, this scope of work and previously approved pertinent Change Orders.

11. solution pricing.

Randstad estimates the costs and resource requirements to be provided on a fixed fee and milestone basis using the invoicing schedule detailed below:

Phase	Estimated Fees
Assess	$10,069
Plan, Design & Recommendations	$24,649
Deploy	$56,367
Transition & Close	$13,313
Optional: Contingency/Additional scope	$40,000
Total:	**$144,398**

- Travel and expenses are not expected and are therefore excluded. Any travel requested by Client will be agreed to by both Parties.

11.1 pricing assumptions.

The following assumptions have been made in developing this budgetary proposal, including the estimates provided herein. If any of the assumptions prove to be invalid, or further assumptions are required, Randstad reserves the right to revise the content of this document and the associated estimates.

1. A project kick-off meeting will occur prior to the project start date. Additional responsibilities from Client may be identified at that meeting (e.g., site plans, areas of investigation, requirements changes, etc.), and may affect project timeline or pricing.
2. Adjustments in effort and associated fee costs may be required due to refinement of requirements, an increase or decrease in expected installation times, changes (increases or decreases) that Client may authorize in connection with the scope of work, delays resulting from unanticipated causes, or for other reasons.
3. Randstad is not a license reseller. Randstad's pricing does not include subscription or licensing fees of any kind nor does it include the fees associated with third party tools.
4. The general daily working schedule will follow the local region's standard business practices, Mondays through Fridays. No overtime, weekend or holiday work is anticipated at this time. Any other deviation must be mutually agreed between Client and Randstad.
5. Randstad will convene a Project Closure Meeting (via conference call), at the conclusion of services delivery, to ensure both parties are in agreement that the Services have been completed, that issues have been addressed, and that any follow-on activities by either party are understood.
6. Taxes are not included in the above fee costs. Client is responsible for any and all invoice withholding, VAT, excise, sales taxes, as applicable.
7. The terms of the Agreement shall take precedence and supersede any and all terms and conditions associated with a Purchase Order ("**PO**") associated with this scope of work.

acceptance.

In lieu of signatures, this SOW shall become effective upon receipt of a valid and fully funded PO referencing this scope of work.

Agenda Item R.13. 8/19/2025

SUBJECT

Approve the First Amendment to the Central Florida Health Care Agreement, Inc. - Extend Term and Increase Funding by $1,515,500 for Completion of Mulberry Community Health Center Renovations. (Total amount not to exceed $5,515,500 for purchase and renovation)

DESCRIPTION

Central Florida Health Care, Inc. (CFHC), a Federally Qualified Health Center, has long served Polk County by providing affordable primary care, specialty services, dental, and behavioral health care to underserved residents, including members of the Polk HealthCare Plan.

In April 2024, the County entered into an agreement with CFHC to support the purchase and renovation of a 13,862-square-foot facility to become the Mulberry Community Health Center. This facility will expand access to comprehensive health services for low-income residents in Mulberry and surrounding communities. The original agreement allocated $4 million in County funding - $2,050,000 for the building purchase and $1,950,000 for renovations. The purchase is complete, and renovations are underway, with an estimated completion date of March 2026.

CFHC's original funding request was $5,515,500. The Citizens HealthCare Oversight Committee took a cautionary approach and initially approved $4 million and that once the building was purchased and renovations were initiated, they would endorse a recommendation to the Board of County Commissioners to allocate the remaining required funds based upon the CFHC initial budget request.

This first amendment extends the term from September 30, 2025, to September 30, 2026, and increases County funding by $1,515,500, bringing the total to $5,515,500. Of this, $3,465,500 will be dedicated to renovations.

The Citizens HealthCare Oversight Committee received and approved this funding request.

RECOMMENDATION

Approve the first amendment to the contract with Central Florida Health Care for the Mulberry Community Health Center.

FISCAL IMPACT

Funds are available in the Indigent Health Care Fund.

Joy Johnson, Administrator, Health and Human Services, 863-534-5204

POLK COUNTY
FIRST AMENDMENT TO CONTRACT FOR FUNDING
CONTRACT # 24-567-IHC

This First Amendment to Contract for Funding ("First Amendment") by and between **Central Florida Health Care, Inc.** ("CFHC"), and Polk County, a political subdivision of the State of Florida ("COUNTY") is effective as of October 1, 2025, ("First Amendment Effective Date"). (CFHC and COUNTY shall be referred to jointly as the "Parties").

WITNESS TO:

WHEREAS, the Parties entered into that certain Contract which is effective from April 1, 2024 through September 30, 2025 for capital funding for the purchase and renovation of the Mulberry Community Health Center; and

WHEREAS, the Parties now desire to enter into this First Amendment for the purposes of extending the term of the Contract and increasing the funding amount; and

WHEREAS, capitalized terms used but not otherwise defined herein shall have the meaning ascribed to them in the Contract.

NOW, THEREFORE, in consideration of the mutual promises set forth herein, and other good and valuable consideration, the Parties hereby agree as follows:

1. The foregoing recitals are true and correct and are incorporated herein by reference.

2. The term of this Contract is effective April 1, 2024 through September 30, 2026.

3. Article 2 Funding, Procedures for Invoicing and Payment; Repayment Obligation; Lien section a. is amended and restated as follows:

   a. The COUNTY agrees to pay CFHC an amount not to exceed Five Million Five Hundred Fifteen Thousand Five Hundred and no/100 dollars ($5,515,500) (the "Award") as described in Exhibit A (the "Budget") solely for reimbursement of the purchase price of the Property and Project construction costs CFHC incurred renovating the Mulberry Community Health Center, as follows:

      i. Up to Two Million Fifty Thousand and no/100 dollars ($2,050,000) for the contracted purchase price of the Property. CFHC will provide the COUNTY a copy of the final closing statement which verifies the purchase price CFHC paid at closing.

      ii. Up to Three Million Four Hundred Sixty-Five Thousand Five Hundred and no/100 dollars ($3,465,500) for renovation costs. The COUNTY will disburse the Award to CFHC in one or more payments of various amounts as described in Section 2.b. below.

   Notwithstanding the foregoing or anything to the contrary contained herein, COUNTY's obligation to pay the aforementioned amount is expressly contingent on approval by the COUNTY's Board of County Commissioners of the referenced budgeted amount.

4. Article 5 Assurance/General Provisions is amended to add the following section:

   f. No Coercion for Labor or Services. Concurrently with its execution of this First Amendment, CFHC has executed an affidavit (Exhibit D) which has been signed by an officer or representative of CFHC under penalty of perjury attesting that CFHC does not use coercion for labor or services as those terms are defined in Florida Statutes, § 787.06, as that statute may be subsequently revised or amended. Failure to provide the required affidavit is a material default of this Contract. CFHC shall provide the COUNTY the same type of affidavit upon any renewal or extension of the Contract as required by Section 787.06.

5. Exhibit A Budget is amended and replaced with the attached Exhibit A Budget of this First Amendment.

6. Exhibit D No Coercion for Labor or Services Affidavit is incorporated in the Contract with the attached Exhibit D No Coercion for Labor or Services Affidavit of this First Amendment.

7. Except as specifically set forth in this First Amendment, all the terms and conditions of the Contract shall remain in full force and effect.

IN WITNESS WHEREOF, the Parties hereto duly execute this First Amendment effective the First Amendment Effective Date.

POLK COUNTY
CONTRACT FOR FUNDING
CONTRACT # 24-567-IHC

This Contract for Funding ("Contract") is made effective from **April 1, 2024** ("Effective Date") to **September 30, 2025** by and between **Central Florida Health Care, Inc.**, a Florida not-for-profit corporation ("**CFHC**"), and Polk County, a political subdivision of the State of Florida ("**COUNTY**") (**CFHC** and **COUNTY** shall be referred to jointly as the "Parties").

RECITALS

WHEREAS, CFHC timely submitted a funding request in which CFHC proposed to purchase and renovate a new community health center (the "Mulberry Community Health Center") to expand services to include: primary care, specialty care, pharmacy, and dental (the "Project") from which it will provide medical services to Polk County residents who are "qualified residents" as defined in Polk County Ordinance 2015-76, the Polk County Indigent Health Care Plan Extension Ordinance; and;

WHEREAS, CFHC currently operates a health care facility in Mulberry (NW 9th Avenue); and

WHEREAS, CFHC plans to purchase and renovate the new Mulberry Community Health Center on its real property (Church Avenue) (the "Property") described on the attached Exhibit C; and

WHEREAS, CFHC's Project was presented to the Citizens Healthcare Oversight Committee who approved the recommendation; and

WHEREAS, the County has determined it is in the best interest of Polk County residents to support the Project by awarding CFHC funding upon the terms and conditions described in this Contract.

NOW THEREFORE, in consideration of the mutual promises set forth herein and other good and valuable consideration, the Parties hereby agree as follows:

1. Recitals. The forgoing recitals are true correct and are incorporated herein by reference.

2. Funding, Procedures for Invoicing and Payment; Repayment Obligation; Lien.

   a. The COUNTY agrees to pay CFHC an amount not to exceed Four Million and no/100 dollars ($4,000,000) (the "Award") as described in Exhibit A (the "Budget") solely for reimbursement of the purchase price of the Property and Project construction costs CFHC incurred renovating the Mulberry Community Health Center, as follows:

      i. Up to Two Million Fifty Thousand and no/100 dollars ($2,050,000) for the contracted purchase price of the Property. CFHC will provide the COUNTY a copy of the final closing statement which verifies the purchase price the CFHC paid at closing.

      ii. Up to One Million Nine Hundred Fifty Thousand and no/100 dollars ($1,950,000) for renovation costs. The County will disburse the Award to CFHC in one or more payments of various amounts as described in Section 2. b. below.

   Notwithstanding the foregoing or anything to the contrary contained herein, COUNTY's obligation to pay the aforementioned amount is expressly contingent on approval by the COUNTY's Board of County Commissioners of the referenced budgeted amount.

   b. As it renovates the Mulberry Community Health Center CFHC shall, as needed, deliver or cause to be delivered a monthly invoice as described in Exhibit B (Invoice Template) for reimbursement of Project construction services costs it has incurred. Invoices will be submitted by the last calendar day of the month following the end

of the month which is the subject of the report. Supporting documentation for invoice(s) shall include a signed American Institute of Architects (AIA) Document G702-1992 "Application and Certification for Payment", signed AIA Document G703 "Continuation Sheets", and copy of check(s) CFHC issued to the Project general contractor for the amounts CFHC seek reimbursement.

c. The COUNTY may, at its discretion, inspect any documents, records, and files retained by CFHC to verify accuracy of all submitted invoices and reports.

d. Upon receiving the invoices and supporting documentation, the COUNTY shall review such invoices and supporting documentation to determine whether the invoiced items are proper for payment. The COUNTY will reimburse CFHC for construction services expenses based upon approved invoices. The COUNTY is not obligated to pay any portion of the Award to CFHC when CFHC is in default of any Contract obligation or requirement.

e. CFHC shall promptly return to the COUNTY any overpayments of funds disallowed pursuant to the terms and conditions of the Contract. In the event that the Parties or their independent auditors discover that an overpayment has been made, the overpayment shall be repaid immediately without prior notification from the COUNTY. In the event that the COUNTY first discovers an overpayment has been made, the COUNTY will notify CFHC of such findings. The obligations of this Section 3. e. shall survive the expiration or earlier termination of the Contract.

f. Upon the occurrence of any of the following events within ten (10) years from the Effective Date: (i) CFHC's sale or transfer of title to the Property to include without limitation a sale or transfer which occurs upon the sale or transfer of a controlling interest in CFHC (ii) CFHC's failure to enter or to maintain a Contract for Services with the COUNTY for providing health care services to qualified residents at the Mulberry Community Health Center; or (iii) CFHC otherwise ceases to provide health care services to qualified residents at the Mulberry Community Health Center; then within thirty (30) days after any such occurrence CFHC shall repay the COUNTY the full amount of the Award; provided, however, that CFHC may be permitted to transfer the Property and improvements thereon to an affiliated, nonprofit corporation that is a supporting organization to, and controlled by, CFHC (the "CFHC Hold Co"), for purposes of entering into a new markets tax credit financing transaction, provided that upon such transfer, CFHC and CFHC Hold Co shall enter into a lease agreement where CFHC operates the health center constructed thereon, and the COUNTY's lien pursuant to Section 2(g) below will be filed against CFHC's leasehold interest in the Property. CFHC shall provide notice to COUNTY of any such property transfer and such property transfer will not negate CFHC's liability as a primary obligor under this Agreement. The provisions of this Section 2 f. shall survive the expiration or earlier termination of this Contract and shall continue in force and effect until the expiration of the repayment period described in this section.

g. CFHC shall secure its repayment obligation stated in Section 2. f. by executing a lien in favor of the COUNTY which shall be in a form and have content acceptable to the COUNTY. CFHC's execution and delivery of the lien is a condition precedent to the COUNTY's obligation to disburse the Award. Upon receipt, the COUNTY will record the lien among the public records of Polk County. If necessary and upon request from CFHC the COUNTY will subordinate the lien granted to it pursuant to this Section 2. g. to the lien securing primary funding for the Project. The COUNTY's subordination may be evidenced by a separate agreement having a form and content acceptable to the COUNTY. The provisions of this Section 2. g. shall survive the expiration or earlier termination of the Contract and shall continue in force and effect until the expiration of the repayment period described in Section 2. f.

3. Financial Responsibility. CFHC agrees as follows:

a. Upon request, CFHC shall provide the COUNTY, through any authorized representative thereof, timely access to and the right to copy, examine, and audit any and all files, records, books, papers, or documents relating to the Project, and all expenses incurred and reimbursed under the terms of this Contract, and the use or expenditure of the Award.

b. CFHC shall maintain books, records, and documents in accordance with generally accepted accounting principles, procedures and practices which sufficiently and properly reflect all expenditures of the Award funding provided under this Contract.

c. Any funds expended in violation of the Contract shall be refunded in full by CFHC to COUNTY from non-federal and non-state resources.

d. The provision of this Section 3 shall survive the expiration or earlier termination of this Contract.

4. Reporting.

a. Upon selection of a general contractor, CFHC will provide the COUNTY with a copy of the construction proposal and project timeline.

b. CFHC shall deliver to the COUNTY quarterly project completion update reports. All Quarterly Reports are due by the last calendar day of the month following the end of each quarter. Upon termination of this Contract, unless an occurrence described in Section 2 f. above arises and the COUNTY has been repaid in full, CFHC shall continue to deliver the quarterly project completion reports to the COUNTY until the Project is complete. The Project shall be considered complete when all associated construction has been accomplished, a Certificate of Occupancy or equivalent authorization has been issued, and CFHC is occupying and providing health services to qualified residents within Mulberry Community Health Center building. The reporting obligation will shall survive the expiration or earlier termination of this Contract.

5. Assurances/General Provisions. CFHC shall comply with all applicable Federal, State, City of Mulberry, and County laws, ordinances, codes and regulations with respect to the Project. Any conflict or inconsistency between the above Federal, State, City, or County guidelines and regulations and this Contract shall be resolved in favor of the more restrictive regulations.

a. CFHC certifies compliance with Paragraph (2)(a) of Section 287.133 Florida Statutes, which provides that a "person or affiliate who has been placed on the convicted vendor list following a conviction for a public entity crime may not submit a bid on a contract to provide any goods or services to a public entity, may not submit a bid on a contract with a public entity for the construction or repair of a public building or public work, may not be awarded or perform work as a contractor, supplier, subcontractor, or consultant under a contract with any public entity, and may not transact business with any public entity in excess of the threshold amount provided in Section 287.017, for CATEGORY TWO for a period of 36 months from the date of being placed on the convicted vendor list." CFHC acknowledges that this Contract shall be void if they have violated the above-referenced statute. Additionally, CFHC shall ensure compliance with the U.S. Department of Health Office of Inspector General Medicare/Medicaid fraud, waste, and abuse requirements.

b. Public Meetings and Records.

i. CFHC acknowledges the COUNTY's obligations under Article I, Section 24, of the Florida Constitution and under Chapter 119, Florida Statutes, to release public records to members of the public upon request and comply in the handling of the materials created under this Contract. CFHC further acknowledges that the constitutional and statutory provisions control over the terms of this Contract. In association with its performance pursuant to this Contract, CFHC shall not release or otherwise disclose the content of any documents or information that is specifically exempt from disclosure pursuant to all applicable laws.

ii. Without in any manner limiting the generality of the foregoing, to the extent applicable, CFHC acknowledges its obligations to comply with Section 119.0701, Florida Statutes, with regard to public records, and shall:

iii. keep and maintain public records required by the COUNTY to perform the Services required under this Contract;

iv. upon request from the COUNTY's Custodian of Public Records or his/her designee, provide the COUNTY with a copy of the requested records or allow the records to be inspected or copied within a reasonable time at a cost that does not exceed the cost provided in Chapter 119, Florida Statutes, or as otherwise provided by law;

v. ensure that public records that are exempt or confidential and exempt from public records disclosure requirements are not disclosed except as authorized by law for the duration of the term of this Contract and following completion of this Contract if CFHC does not transfer the records to the COUNTY; and

vi. upon completion of this Contract, transfer, at no cost, to the COUNTY all public records in possession of CFHC or keep and maintain public records required by the COUNTY to perform the service. If CFHC transfers all public records to the COUNTY upon completion of this Contract, CFHC shall destroy any duplicate public records that are exempt or confidential and exempt from public records disclosure requirements. If CFHC keeps and maintains public records upon completion of this Contract, CFHC shall meet all applicable requirements for retaining public records. All records stored electronically must be provided to the COUNTY, upon request from the COUNTY's Custodian of Public Records, in a format that is compatible with the information technology systems of the COUNTY.

c. IF CFHC HAS QUESTIONS REGARDING THE APPLICATION OF CHAPTER 119, FLORIDA STATUTES, TO CFHC'S DUTY TO PROVIDE PUBLIC RECORDS RELATING TO THIS CONTRACT, CONTACT THE COUNTY'S CUSTODIAN OF PUBLIC RECORDS AT:

RECORDS MANAGEMENT LIAISON OFFICER
POLK COUNTY
330 WEST CHURCH ST.
BARTOW, FL 33830
TELEPHONE: (863) 534-7527
EMAIL: RMLO@POLK-COUNTY.NET

d. Non-Discrimination. CFHC and all those under the CFHC's control shall not discriminate against any business, employee, applicant, client or subscriber because of race, creed, color, disability, religion, sexual orientation, national ancestry, or origin. CFHC shall comply with all applicable requirements and provisions of the Americans with Disabilities Act.

e. Integration. The entire Contract between the Parties and its corresponding Exhibits are set forth herein and contained within this document and the Parties agree that there are no commitments, agreements, or understandings concerning the subject matter of this Contract that are not contained herein. Accordingly, it is agreed that no deviation from the terms hereof shall be predicated upon any prior representations or agreements whether oral or written.

6. Conflict of Interest. No person who is an employee, agent, consultant, officer, or appointed official of CFHC and who is in a position to participate in a decision making process or gain inside information with regard to activities relevant to the terms of this Contract, may obtain a personal or financial interest or benefit from the activity, or have an interest in any contract, subcontract, or agreement with respect thereto, or the proceeds there under, either for themselves or those with whom they have family or business ties, during their tenure or for one (1) year thereafter.

7. Indemnification. CFHC shall indemnify and hold harmless the COUNTY, its agents, and employees, from all suits, actions, claims, demands, damages, losses, expenses, including attorney's fees, costs and judgments of every kind and description to which the COUNTY, its agents or employees may be subjected to by reason of injury to persons or death or property damage, resulting from or growing out of any action of commission, omission, negligence or fault of CFHC, its officers, employees, agents, representatives, architects, engineers and other design professionals,

contractors, subcontractors, material suppliers, workers, and others for whom it is responsible in connection with the Project and with this Contract, CFHC's performance hereof or any work performed hereunder. CFHC shall indemnify and hold harmless the COUNTY, its agents and employees, from all suits, actions, claims, demands, damages, losses, expenses, including without limitation attorneys' fees, costs of judgments of every kind and description arising from, based upon or growing out of the violation of any Federal, State, County or City law, ordinance or regulation by CFHC or any of the parties identified in this Section 7. Funds made available pursuant to this Contract shall not be used by CFHC for the purpose of initiating or pursuing litigation against the COUNTY.

8. Insurance.

a. CFHC shall maintain at all times the following minimum levels of insurance and shall, without in any way altering their liability, obtain, pay for, and maintain insurance for the coverages and amount of coverage not less than those set forth below:

i. Commercial Property Insurance – Builders Risk insurance coverage provided by CFHC in the amount of the value of the current building and assets while under construction. Upon Project completion, CFHC will obtain a new policy in the amount of $4,000,000.00 with COUNTY named as the loss payee on the policy.

ii. Comprehensive General Liability – $1,000,000.00 combined single limit of liability for bodily injuries, death, and property damage, and personal injury resulting from any one occurrence, including the following coverages:

1. Premises and Ongoing/Completed Operations; and

2. Broad Form Commercial General Liability Endorsement to include blanket contractual liability (specifically covering, but not limited to, the contractual obligations assumed by the firm); Personal Injury (with employment and contractual exclusions deleted); and Broad Form Property Damage coverages.

iii. Independent Contractors (if applicable) – Delete Exclusion relative to Property Damage Hazards; Cross Liability Endorsement; and Contractual liability.

iv. Comprehensive Automobile Liability Insurance: $1,000,000 combined single limit of liability for bodily injury, death and property damage resulting from any one occurrence, including all owned, hired and non-owned vehicles and shall be primary to any other available insurance.

v. Workers' Compensation Insurance: Vendor shall maintain Workers' Compensation coverage for all employees, agents, volunteers and subcontractors as required under Florida Statutes, including those that may be required by any applicable federal statute.

b. CFHC shall provide the COUNTY a copy of the Certificate of Insurance to evidence such coverage prior to commencement of work under the terms of this Contract. Such Certificate of Insurance shall provide that there shall be no termination, non-renewal modification, or expiration of such coverage except with forty-five (45) calendar days prior written notice to the COUNTY. The County shall be named as an additional insured for all work being performed for Polk County for General Liability, Automobile Liability. For General Liability, Additional Insured status must apply to both ongoing and completed operations. General Liability should be on a primary and non-contributory basis. All policies shall contain a waiver of subrogation in favor of the County.

c. CFHC shall provide property insurance for all property in an amount satisfactory to the COUNTY. CFHC shall require all its contractors to carry insurance and bond in an amount not less than funds awarded by CFHC to its contractors.

9. Amendments. This Contract may only be amended by a written instrument executed by the Parties which specifically refers to this Contract.

10. Interpretation. The Parties have been represented by counsel or have had the opportunity to be represented by counsel, during the negotiation and preparation of this Contract and therefore waive the application of any law or rule of construction providing that ambiguities in a contract shall be construed against the Party drafting the contract.

11. Assignment. This Contract and the Parties' respective rights, interests and obligations herein are not assignable without the prior written consent of the parties.

12. No Third-Party Beneficiaries. Nothing in this Contract, express or implied, is intended to or will be construed to confer on any person, other than the Parties to this Contract, any right, remedy, or claim under or with respect to this Contract.

13. Relationship of the Parties. Nothing in this Contract is intended nor shall be construed to create any form of partnership or joint venture relationship between or among the parties, or to allow either to exercise control or direction over the other.

14. Applicable Law/Venue. This Contract shall be governed by the laws of the State of Florida. Venue of any legal action arising or pertaining to the Contract shall lie only in the courts of the Tenth Judicial Circuit located in Polk County, Florida.

15. Severability. If any Contract provision is held invalid or unenforceable in any respect for any reason, the validity and enforceability of any such provision in any other respect and of the remaining provisions of this Contract will not be in any way impaired.

16. Notices. All notices required by this Contract shall be in writing. All notices, requests, demands or communication required, permitted or desired to be given hereunder shall be deemed effectively given when personally delivered or sent by fax with copy sent by overnight courier, addressed as follows:

CENTRAL FLORIDA HEALTH CARE, INC.:	**COUNTY:**
Ann Claussen, Chief Executive Officer Central Florida Health Care, Inc. 47 5th Street, NW Winter Haven, FL 33881	Paula McGhee, Provider Services Manager Health and Human Services Polk County, Board of County Commissioners 2135 Marshall Edwards Drive Bartow, FL 33830-6757

or to such other address as such party has specified by notice in writing to the other party. Notice shall be deemed to have been duly given when: (a) received, if personally delivered; (b) the day after it is sent, if sent by recognized expedited delivery services; or (c) three (3) days after it is sent, if mailed, first class mail, postage prepaid.

17. Default and Remedy. If the CFHC should fail to comply with any of the provisions of this Contract and fail to cure such compliance within ten (10) days after receiving written notice from the COUNTY, the COUNTY may withhold, temporarily or permanently, all or any unpaid portion of the Award until such failure is cured, or it may terminate the Contract. In addition to the foregoing, upon any uncured default the County may pursue any other available legal or equitable remedy.

18. No Waiver. Any failure on the part of the COUNTY or CFHC, as applicable, to exercise promptly any rights given herein shall not operate to forfeit any of the said rights nor constitute a waiver thereof as to any future occasion.

19. Termination.

    a. Prior to the COUNTY providing any Award funding to CFHC, CFHC may terminate this Contract upon five (5) days prior written notice to the COUNTY. The COUNTY may terminate the Contract for CFHC's uncured default as provided in Section 17, above. In the event of an uncured breach of this Contract, either of the Parties

may terminate this Contract immediately, upon receipt of written notice by the other. The COUNTY may take any other remedy or action that may be legally available to it in the event of such breach.

b. If the COUNTY terminates the Contract due to CFHC's material default, then within seven (7) days after such termination CFHC shall repay the COUNTY the full amount of the Award which it had disbursed to CFHC.

c. This Contract may be terminated at the option of the COUNTY if CFHC is found to have been placed on the Scrutinized Companies that Boycott Israel List or is engaged in a boycott of Israel. In addition, this Contract may be terminated at the option of the COUNTY if CFHC is found to have submitted a false certification as provided under Section 287.135(5), Florida Statutes; has been placed on the Scrutinized Companies with Activities in Sudan List or the Scrutinized Companies with Activities in the Iran Petroleum Energy Sector List; or has been engaged in business operations in Cuba or Syria.

20. Counterparts. This document shall be executed in two (2) counterparts, each of which shall be deemed to be an original.

IN WITNESS WHEREOF, the Parties have executed this Contract as of the Effective Date.

Agenda Item R.14. 8/19/2025

SUBJECT

Approve selection committee's recommendation to authorize staff to enter contract negotiations with Driven Security LLC, to remove the current security systems, and provide and install new security systems at the Polk County South County and the Central County Jail Facilities. (No fiscal impact)

DESCRIPTION

The Facilities Management Division requested Procurement to solicit proposals from qualified vendors to enter into an agreement to remove the current security systems, and provide and install new security systems at the Polk County South County and the Central County Jail Facilities. The security system selected through this Request for Proposals (RFP) may also be deployed at other County locations to support the standardization of equipment and ensure consistent training across our facilities. In addition to the installation agreement, a separate 10-year maintenance agreement will be negotiated with the successful vendor and will take effect upon the final completion of this project.

RFP 25-191, Polk County South & Central County Jail Security Upgrades was issued, and eight vendors submitted proposals. The selection committee met on May 29, 2025, to evaluate and score the proposals. The four highest scored firms were elevated to interviews. On July 29, 2025, the selection committee conducted interviews and received presentations from the proposers. After the interviews, the selection committee ranked the proposers. The consensus of the selection committee was to request the Board authorize staff to enter into contract negotiations with all proposers, beginning with the highest ranked proposer, Driven Security LLC.

The following is a listing of the proposers and their rankings:

Proposer	Location	Rank
Driven Security	Brentwood, TN	1
Black Creek Integrated Systems Corp.	Irondale, AL	2
Production & Process Technologies	Palmetto, FL	3
Securitas Technology Corp.	Uniontown, OH	4

A recommendation of award was posted, and no protests were received.

RECOMMENDATION

Request Board approve the selection committee's recommendation and authorize staff to enter into

contract negotiations with all proposers, beginning with the highest ranked proposer, Driven Security LLC for RFP 25-191, Polk County South & Central County Jail Security Upgrades, and moving to the second-highest ranked proposer and so on, if negotiations with Driven Security LLC are unsuccessful.

FISCAL IMPACT

There is no fiscal impact during negotiations.

Introduction

- **Why Driven Security**
  - "Protection with Purpose"
  - Prioritization
    - Ownership/Executive involvement, start to finish
    - Dedicated project team throughout the project
    - Direct account management from sales and manufacturers
    - 24/7 US based support
  - Track Record of Success
    - Experience with large enterprise jail systems and Verkada
    - Detail oriented approach, planned and executed with zero downtime
    - Deep understanding of Johnson Controls and Verkada on large scale law enforcement upgrades
    - Comprehensive internal processes to ensure inventory is reserved, labor is committed, and plans are executed efficiently and on schedule

Verkada (2021), Confidential

Introduction

- **What Technology and Why**
  - Verkada and JCI
    - Verkada is running seamlessly in over 30,000 locations in the USA
    - Verkada is the #1 cloud security solution in the World.
    - Verkada is an appreciating asset with automatic firmware updates (no manual pushes or patching)
    - Verkada protects your investment: 24/7 with 365 day US based support, 10 year hardware warranty, software continually improves with updates (no buy-ups/addons later on), unlimited users/permissions
    - Strong Security stance with SOC 2 Type 2 compliance
    - Johnson Controls **non-proprietary** integrated control system(s) are in over 150+ large Jail / Prison facilities in the USA
    - Johnson Controls is a tried and true solution that has been in business for almost 150 years. They are world renowned and trusted
    - Our team has a local presence and the ability to support your facilities

Verkada (2021), Confidential

Introduction

- **How We Will Successfully Manage Your Project**
  - Company ownership will be onsite monthly
  - Executives from JCI and Verkada on site regularly
  - Dedicated Driven and JCI project management
  - Dedicated Verkada Solutions Engineer for the project
  - Weekly and monthly status meetings to ensure on time performance
- **Ready to Start**
  - Inventory is set aside and ready to deploy
    - Verkada cameras, viewing stations and support technicians are reserved
    - Non Verkada equipment is qualified and submitted to suppliers
  - Labor is allocated to the project
    - Technicians for the project are coming from Tampa and Orlando
    - Local technicians post installation are able to be on site for emergencies within 2-4 hours as needed

Closing Remarks

- **Key Takeaways**
  - Polk County is the exact type of client we have built our business on. Everything they do and are about is with purpose. We would be honored to win your trust today and protect your organization.
  - Top down, bottom up, our organizations have highlighted Polk County as the priority, if selected, to procure, plan and execute in securing your facilities successfully.
  - Technology is as good as it gets, and fits what your facilities need for the next 10 years and beyond.
  - Our inventory and labor are ready to go. We have been planning for this for months.
  - Our purpose, is to secure your facility the way we would secure our own. Our references if asked, will all speak to the fact that our level of care, and desire to excel on behalf of our clients is unmatched.

<u>Our entire team thanks you all for the opportunity to be of service to your County</u>

RFP 25-191, Polk County South & Central County Jail Security Upgrades

Interviews/Ranking Meeting Minutes

July 29, 2025

Selection Committee Members:

Mark Kithcart, Facilities Management
Josh Hutton, Facilities Management
Kyle Holland, Facilities Management
Darrell Johnson, Equal Opportunity
Grant Ewert, Information Technology
Christopher Calabro, PCSO
Michael Allen, PCSO
Kevin McGraw, PSCO
Michael Kennon, PSCO

Staff: Tabatha Shirah, Procurement Analyst
Mike Baselice, Procurement Analyst
Noah Milov, County Attorney's Office

Others (Ranking Meeting):

Seth Mercer, Black Creek
Shea Pope, Driven Security
Adam Birdwell, Driven Security
Scott Moyer, Securitas Technology
Terry Ottinger, Geutebruck USA
Steve McDonald, Stark Tech
Liam Carmona, Geutebruck USA

Interviews convened at approximately 9:00 a.m. on Tuesday, July 29, 2025. All Selection Committee members were present. Presentations were made in alphabetical order followed by questions of the Committee. The interviews ended at approximately 4:35 p.m.

After the Presentation/Interviews, the Selection Committee meeting became open to the public at 4:45 p.m. The Selection Committee ranked the firms from one to three with a ranking of one for the Proposer deemed to be the most highly qualified to perform the required services. The following are the firms interviewed and their final ranking by the Selection Committee.

Proposer	**Rank**
Driven Security	1
Black Creek Integrated Systems Corp.	2
Production & Process Technologies	3
Securitas Technology Corp.	4

In accordance with the RFP's Selection Process, Elevation Level 3, Proposer Interviews, the Selection Committee collectively decided to recommend the Board authorize staff to enter into contract negotiations with the highest-ranked Proposer, Driven Security. Should negotiations fail with Driven Security, negotiations will be terminated, and staff will begin negotiations with the 2nd highest-ranked Proposer, Black Creek Integrated Systems Corp. Should negotiations fail with Black Creek Integrated Systems Corp., negotiations will be terminated, and staff will begin negotiations with the 3rd highest-ranked Proposer, Production & Process Technologies. Should negotiations fail with Production & Process Technologies, negotiations will be terminated, and staff will begin negotiations with the 4th highest-ranked Proposer, Securitas Technology Corp.

Meeting was adjourned at approximately 5:00 p.m.

Respectfully submitted,

Tabatha Shirah

Executive Summary

Driven Security and Johnson Controls are premier companies within the security industry forming a strategic design-build partnership to provide a complete integrated security system for the facilities of Polk County. Together our companies provide almost 150 years of experience transforming facilities with award-winning technologies. We recognize that no one product or technology can address all of your security needs, so we offer a multi-tiered, multi-technology approach that combines leading-edge services and systems in an integrated environment that can lower the total cost of ownership.

Prisons and other correctional facilities seeking a total facility-wide solution have the opportunity to standardize on a single network-based platform that can streamline communications and provide interoperability, manageability and scalability. With our planning, layout, connected solutions, installation and support experience, we can offer a security system robust enough to handle the rigors and complexities of today's criminal justice operations. Our solutions are backed by experts who strive for excellence. When we work with a criminal justice facility, our team is committed to devising the best security solution, deploying it with attention to quality and providing excellent service and support.

When you are upgrading existing security capabilities and meeting new operational or regulatory requirements, we can be just what you need in your partners. With our wealth of equipment installation experience at criminal justice facilities, we know firsthand the infrastructure requirements of the industry. To help you safeguard your criminal justice facility with an advanced integrated security solution, we bring a wide array of capabilities together – needs analysis, planning, system layout, installation, integration, commissioning and uninterrupted support services.

We can combine leading technologies with customized design-build services in an integrated environment. It's a multi-tiered, multi-technology approach that recognizes no one product or application can address all of today's threats, and with the help of our value-oriented methodology, you can explore and implement innovations aimed at lowering costs, improving efficiency, enhancing security and anticipating future needs. Together we provide a unique and highly specialized team that can manage the planning, layout, installation and commissioning of your project.

Driven Security is a leading security technology company specializing in cloud-based physical security solutions tailored for law enforcement, commercial, educational, industrial, and municipal organizations. Driven's headquarters is in Brentwood, Tennessee and they have additional offices in Phoenix, Huntsville, Tampa, and Austin. Driven serves clients across the United States and offers a range of services for correctional facilities such as hybrid cloud-based video surveillance, intrusion detection, specialty enclosures and fencing solutions, barricades, security laminates, automated access control systems,

and security threat assessments. Driven partners with industry leaders such as Verkada for hybrid cloud-based platforms, ZeroEyes AI-driven weapon detection, and CEIA metal detection solutions. Driven is the largest provider of Verkada equipment to law enforcement facilities in the country and currently has a Platinum Verkada Reseller status. Driven's team has collectively completed over $1B of construction projects.

Johnson Controls is a global leader in smart, healthy, and sustainable building technologies. Founded in 1885 by Warren S. Johnson, the company has extensive experience in innovating building solutions. Johnson Controls employs over 100,000 people across more than 150 countries. The company offers a comprehensive portfolio of products and services, including HVAC equipment, building automation systems, fire detection and suppression, and security solutions. Johnson Controls is an industry leader in correctional facility security. Johnson Controls is an industry leader in correctional facility security. The team is well versed in software and camera integration, PLC's, locking control systems, and all phases of the project from design all the way through commissioning and training for the project. Johnson Controls is currently active in over 175 criminal justice facilities in the United States. Many of these facilities are among the largest in the country. Johnson Controls initiatives include upgrading outdated infrastructures with modern systems such as video surveillance, access control, fire detection, and suppression systems. These efforts aim to improve safety, operational efficiency, and emergency response capabilities within correctional environments.

Together our companies can offer a comprehensive solution that meets or exceeds the needs and requests presented in this RFP. We bring a track record of excellence in secure facility upgrades backed by a depth of experience in law enforcement, municipal, and detention environments ensuring that Polk County receives a future-ready, fully compliant, and expertly managed design-build solution. Your county desires to unify your security platform across all facilities, while being stewards of the funds available to you. Our teams are prepared and uniquely qualified to unify your systems, manage the costs by value engineering your solution through the design build process and deliver an integrated security solution that will service your collective teams and environments as your county grow into the future.

Polk County a Political Subdivision of the State of Florida - Vendor Security Questionnaire (Version 4.0)

The Polk County BoCC Information Technology Division, when considering any IT hardware/software solution, must ensure that due diligence is taken to validate that we are in compliance with local, state and national statutes and guidelines. When considering a technical purchase please complete the vendor identification section below and then respond to all questions and provide supporting documentation as requested. **If documents are requested please click on the appropriate "Vendor Response" column. Please Leverage the "Dropdown" button for each question. Click "Insert" tab on Ribbon, Click "Object" button in "Text" group, and then select the appropriate file(s) to support the response for every request or question in each row. Please ensure each file is submitted in PDF format. Control References, where applicable, have been provided to assist with each request or question. Please provide any additional comments in the "Vendor Comments" column.**

POLK COUNTY
Florida's Crossroads of Opportunity

Vendor Name:	Verkada
Vendor Contact:	Driven Security - Adam Birdwell
Vendor Phone:	6155334503
Vendor Email:	adam@drivenlocks.com
Project Name:	RFP 25-191 Polk County South & Central County Jail Security Upgrades
Date Completed:	4/30/2025

#	Question	Vendor Response	Vendor Comments
1	**Document Requests and Information Security Policies**		
1.1	Please attach a copy of your current Cyber liability insurance and Professional Liability insurance policies	Attached	Current insurance certificate available at https://my.pima.app/p/verkada/verkada-standard-security-docs
1.2	Does the vendor have individual(s) that are responsible for their IT Security Program?	Not attached (Please explain in "Vendor Comments")	Kyle Randolph is our Chief Information Security Officer.
1.3	Does the vendor have a Risk Management Program that includes IT related risks?	Attached	Verkada has a risk management program that is based on NIST 800-30 Guide for Conducting Risk Assessments. Verkada's Risk Management Policy is available at https://my.pima.app/p/verkada/verkada-standard-security-docs.
1.4	Does the vendor have a SOC2 audit report covering application controls?	Attached	Verkada's SOC 2 Type 2 report available at https://my.pima.app/p/verkada/verkada-standard-security-docs
1.5	Please attach a copy of your latest penetration test and/or vulnerability assessment report	Attached	Verkada performs independent security assessments of the Command platform at least twice per year. An executive summary of the most recent assessment may be accessed at https://my.pima.app/p/verkada/verkada-standard-security-docs
1.6	Does the solution involve a vendor or other third party transmitting, processing or storing protected health information (PHI)? Has a Business Associate Agreement been signed?	Attached	For an overview of our HIPAA compliance measures and how Verkada ensures the protection of sensitive data, please see our HIPAA documentation here: https://docs.verkada.com/docs/hipaa-compliance.pdf

1.7	Is the solution designed to comply with PCI, HIPPA, CJIS and other requirements?	Attached	– Our solution is designed to support/comply with PCI, CJIS, and HIPPA – Verkada does not manage any payment card data – Verkada has a significant number of customers, including retail stores and banks, for which it plays a key role in helping those customers maintain PCI compliance with respect to both physical and cyber security. – Verkada provides full access control event history (retained beyond the minimum PCI requirement of 90 days) that can automatically sync with Verkada camera footage. This event history can be easily examined, filtered, and exported to send to any recipient or external system. You can configure automatic alerting to send a notification (including over SMS and email) when an event occurs that meets your alerting criteria. – Verkada meets and exceeds the high cybersecurity bar needed by PCI-compliant organizations: – Verkada systems do not have vendor provided default passwords; SAML/OAuth and 2-factor authentication are available as standard options. – Verkada automatically logs all user access and sessions via audit logs, which cannot be tampered with or altered. These audit logs are backed up into geographically redundant data centers. – Verkada systems accurately record date and time, using the industry-standard Network Time Protocol (NTP). – Verkada enables authorized administrators to review live and historical access control statuses and events on any device at any time, and to export this data on-demand or on a predetermined schedule. – For more information on how Verkada helps support PCI compliance please click HERE.
1.8	Does the vendor outsource management or support of the solution?	Not applicable	Verkada customer support is available 24/7, details here. They can be contacted via the live chat functionality present within command, email or by phone. Product support is included with the cloud license and is available throughout the 10 year warranty period. Services include troubleshooting any challenge that a customer may have with their camera as well as overnight shipping of a new device if the camera is inoperable and covered under warranty. 24/7 Service is achieved by support representatives in Australia, London, and USA. The support team are direct employees and are primarily located in San Mateo, CA at Verkada HQ. Management of the solution is a customer and/or installation partner responsibility

1.9	Does the vendor have processes to monitor changes to regulations, and to implement applicable changes in a timely manner?	Not attached (Please explain in "Vendor Comments")	Privacy is fundamental to our philosophy. We have diligently endeavored to integrate privacy considerations into the design and development of our products and services. This approach ensures that our platforms deliver the security and functionality desired by our customers while respecting the privacy of individuals interacting with their organizations. Our steadfast commitment to privacy is guided by core principles: ownership, controls, privacy by default, transparency, and data minimization. Verkada aligns its privacy practices with the standards set by US state privacy laws. Acting as a data processor for customer personal data, Verkada utilizes Standard Contractual Clauses to establish a legal basis for transferring personal data from the EU/UK to the US. Furthermore, Verkada has disabled face detection and "person of interest notifications" in four US jurisdictions with regulations restricting private entities' use of facial recognition technology. These jurisdictions encompass Texas, Illinois, Baltimore (Maryland), and Portland (Oregon).
1.10	Does the security design of the solutions infrastructure allow for segregation of each customer's application environment and data?	Attached	The Verkada cloud solution is a multi-tenant application that implements security boundaries and individual keys per customer to ensure there is no commingling of data. Customer data is separated using logical access controls based on organization ID. Entities in the Verkada solution (organizations, users, cameras) are identified by cryptographically unguessable UUIDs, cameras belong to organizations, users are affiliated with organizations. User tokens are tied to the Org ID and associated keys, ensuring that no data outside of the user's organization can be decrypted or viewed. Only users affiliated with an organization explicitly can access the organization data. Architecture Info can be found at the below link: https://my.pima.app/p/verkada/verkada-standard-security-docs
2	**Asset Management**		
2.1	Do you maintain an inventory of all hardware and software assets, including ownership?	Yes	Yes, Assets are classified in terms of business criticality, service-level expectations, and operation continuity requirements. A complete inventory of business-critical assets located at all sites and their usage over time are maintained and updated regularly. Policies and procedures also exist for the secure disposal of equipment.
2.2	Do you have an information classification scheme and process designed to ensure that information is protected according to its confidentiality requirements?	Yes	Client data in the form of video and audio is stored on the Verkada cameras themselves and stored for a retention period of 30, 60, 90, 120, 365 days based on hardware model. This camera footage can be backed up to the cloud on a per camera basis as necessary. Given this backup is uplink bandwidth intensive, this backup can be scheduled by the administrator (https://help.verkada.com/en/articles/2452653-cloud-backup) Client data in the AWS cloud is redundantly stored across isolated AWS Availability Zones providing redundancy for the data as well as high availability of the application. Backups of customer data stores are performed daily to an isolated AWS account for backups using AWS Backup.
2.3	Do you maintain an inventory or map of data flows between both internal and external information systems?	Yes	Diagrams available in https://my.pima.app/p/verkada/verkada-standard-security-docs.

3	**Governance**		
3.1	Do you have an information security policy that has been approved by management and communicated to all applicable parties?	Yes	Information Security policies are reviewed and updated annually by the Security and Privacy Governance Committee, which includes the CISO, VP of Product, CTO, CFO and General Counsel. The policies are available at https://my.pima.app/p/verkada/verkada-standard-security-docs
3.2	Do you have an information security policy exception process that includes formal acceptance of risk by the risk owner?	Yes	Verkada has a risk management program that is based on NIST 800-30 Guide for Conducting Risk Assessments. Verkada's Risk Management Policy is available at https://my.pima.app/p/verkada/verkada-standard-security-docs.
3.4	Do you regularly perform security threat and risk assessments on critical information systems using an industry-standard risk assessment methodology?	Yes	Verkada performs periodic penetration tests both via internal personal and third parties. Third Party Pen Tests are performed quarterly. An executive summaries of the most recent independent assessments is available at https://my.pima.app/p/verkada/verkada-standard-security-docs
3.5	Have you designated an individual, who is at least at a manager level, who is responsible for information security activities?	Yes	Kyle Randolph is our Chief Information Security Officer.
4	**Supply Chain Risk Management**		
4.1	Do you perform security assessments on potential suppliers prior to entering into agreements with them?	Yes	Verkada reviews the SOC 2 reports annually of its service providers that store or process customer product data.
4.2	Do your agreements with suppliers include appropriate measures designed to meet security requirements?	Yes	Verkada has a vendor management program which is governed by the Verkada Vendor Risk and Compliance Management Policy. Critical vendors are re-assessed yearly according to the Verkada Risk Management Policy. Both policies are available at https://my.pima.app/p/verkada/verkada-standard-security-docs.
4.3	Do you regularly evaluate suppliers to ensure that they are meeting their security obligations?	Yes	Verkada reviews the SOC 2 reports annually of its service providers that store or process customer product data.
5	**Identity Management, Authentication, and Access Control**		
5.1	Is all access to information systems formally approved by the appropriate asset owner?	Yes	For the Command platform, new users must be invited by an Organization Administrator specific to that company's Organization in order to access Command. For Verkada workforce members' access to Verkada's production systems and applications, there is a formal request and approval process for granting access to systems and applications.
5.2	Can all access to information systems be traced to unique individuals?	Yes	Yes. Audit logs are maintained at both the Organization (user / login) level as well as on specific cameras. The timestamp of the action, IP address of the user, username of the user and action taken are logged. Full details of all actions logged can be found here: https://help.verkada.com/en/articles/2729935-audit-logs
5.3	Are all access rights to information systems regularly reviewed for appropriateness by the asset owners?	Yes	Access reviews for crtiical systems are performed quarterly. quarterly for internal employees. Clients manage access to their organization in Command. Verkada's solution provides reporting interfaces for customers to review their own system owners and users access.
5.4	Are all access rights to information systems immediately revoked upon employee/contractor termination or change of role?	Yes	Access management is automated and immediate at the time of Verkada personnel offboarding and role transition. Customers can implement the same functionality via SSO/SAML configuration

5.5	Do you restrict and control the use of privileged accounts through the use of a Privileged Account Management system or equivalent controls?	Yes	Yes. Verkada audits & logs a variety of security controls to detect anomalous admin/privileged account activity, which include, but are not limited to: – authentication activity for zero trust network access (which is required to access backend Verkada systems & data) – Just-in-time, time-limited access request system (Verkada engineers are required to file requests via this system to obtain temporary privileged access to systems & data) – This includes requests, reviews, approvals, and revocations – Authentication, onboarding & offboarding from corporate single sign-on (SSO) – Activity from AWS KMS & IAM This activity is logged & stored in Verkada's SIEM. Detections & alerts on these logs are written by Verkada's Detection & Response team.
5.6	Do you manage access permissions and authorizations, incorporating the principles of least privilege (or "need to know") and separation of duties?	Yes	Verkada has full integration with SAML 2.0 authentication methods such as Okta/Duo/Active Directory/OneLogin. Additionally, Verkada supports SCIM integration that allows users to be provisioned from a central database with user permissions. For more information on SCIM integration and SAML, please reference the following link: https://help.verkada.com/en/articles/1132395-user-authentication-and-provisioning and this article for details on role-based access controls in Command https://help.verkada.com/en/articles/4148620-roles-and-permissions-for-command
5.7	Does the solution operate on the premise that "access that is not explicitly authorized is forbidden"?	Yes	Yes all credentials for access to production systems are configured with the least privilege and following best practice. Authorized Verkada staff are permitted to access and view system information only for the purpose of troubleshooting and software development and only with customer approval. Verkada operates on a least privilege model, limiting the access to core system administrative accounts
5.8	Do you require the use of multi-factor authentication for all remote access to organizational data, including email?	Yes	Verkada can be set up to require user authentication through an organization's IDP, including Microsoft Azure, Okta, OneLogin, Google Workspace, ADFS, and Jumpcloud, with any multi-factor authentication options provided by the IDP. In addition, if authentication is performed directly with Verkada (and not through an IDP), users can set up multi factor authentication via security key, authenticator app or SMS. Details at https://help.verkada.com/en/articles/3831845-enable-2fa-for-your-command-account . MFA is optional by default, but can be set as required for the organization. For more information please see our Authentication and Provisioning Overview.
5.9	Do you require the use of multi-factor authentication for all administrative access to cloud-based information systems?	Yes	Verkada employees are required to use multifactor authentication including hardware keys. Customers have the ability to enable Two Factor Authentication for their accounts via SMS or through an authenticator app in order to login. https://help.verkada.com/en/articles/1132395-authentication-and-provisioning-overview
5.10	Does the solution have a configurable, automatic logoff feature after a period of inactivity?	Yes	Command in a web browser has an Administrative configurable Org wide setting for Session Timeout Duration to force users to reauthenticate after a set period of time. The mobile Command app has the ability to configure app security where reauthentication is required after 15 minutes.

5.11	Does the solution allow for restriction of access based on source IP address?	Yes	The Verkada solution can integrate with SSO solutions via SAML. When implemented, IP based restriction can be enforced via SAML.
5.12	Does the solution support the use of complex passwords?	Yes	Passwords are held to security guidelines: 8 characters minimum; 1 number, 1 symbol, 1 alpha; does not contain email; no reuse allowed. The Verkada solution can integrate with SSO solutions via SAML. When implemented, expirations can be enforced via SAML.
5.13	Does the solution include configurable account lockout settings?	Yes	Yes, the Verkada solution implements a user lockout after 7 failed attempts. The lockout period is 15 minutes. Administrators do not have the ability to unlock a user account.
5.14	Are the Passwords unreadable during login?	Yes	Passwords are not able to be read by default during login.
5.15	Are all "default" passwords changed during system installation?	Not applicable (Please explain)	All passwords are explicitly set by the user at the time of implementation. No default passwords are in use.
6	**Human Resource Security & Unauthorized Access to Data**		
6.1	Do you have an information security awareness program designed to ensure that all employees and contractors receive security education as relevant to their job function?	Yes	Employees receive initial security training on date of employment and annually. Additionally, Verkada conducts ongoing security and privacy awareness training. Topics include: – How Common is Cybercrime? – Threats and Red Flags – Phishing – Social Media Sharing – Fake Profiles – Pretexting – Disinformation – Internet-Based Attacks – Tailgating – Lock Workstations/Clean Desk – Quiz
6.2	Do you conduct regular phishing simulation tests of your employees?	Yes	Employees receive initial security training on date of employment and annually. Additionally, Verkada conducts ongoing security and privacy awareness training. Topics include: – How Common is Cybercrime? – Threats and Red Flags – Phishing – Social Media Sharing – Fake Profiles – Pretexting – Disinformation – Internet-Based Attacks – Tailgating – Lock Workstations/Clean Desk – Quiz

6.3	Do you conduct appropriate background checks on all new employees based on the sensitivity of the role that they are being hired for?	Yes	Verkada performs background checks at the time of hiring all employees and contractors. Background checks, depending on region, will include: – United States – County Criminal Court Search - 7 Years - Up to 3 Counties – Domestic Watch List Search – Social Security Number Trace – Nationwide Criminal Databases Search – Sex Offender Registry Search – Canada – RCMP Criminal Check & ID Verification – Other regions – No check at this time
6.4	Do you require all new employees and contractors to sign confidentiality agreements?	Yes	All Verkada employees and contractors must sign a confidentiality agreement.
6.5	Does the vendor's workforce understand their responsibilities regarding the copying and disclosing of sensitive information?	Yes	**At Employment Onboarding**: All employees are required to sign an NDA as a part of their onboarding process. This is done to safeguard sensitive information and proprietary data they may have access to during their employment. **Contractors**: Before starting work, all contractors are required to sign NDAs. This ensures that even though they are not permanent employees, they are still obligated to maintain the confidentiality of the company's sensitive information they may come in contact with. **Third-Party and Hosted Data Centre Providers**: All third-party vendors, including hosted data center providers, are required to sign an NDA before engaging in business with our company. This is a crucial step given they might have access to critical company data. The NDA aims to secure any information that is shared with them and restrict unauthorized use or disclosure. **Partnerships and Collaborations**: During strategic partnerships, collaborations, or business agreements, NDAs are signed to protect the proprietary and confidential information that might be shared between the organizations.
7	**Data Security**		
7.1	Do you require that all removable media, which may contain organizational data, is encrypted?	Not applicable (Please explain)	Technical controls are in place to forbid the use of removable media.

7.2	Do you require that all media, including hardcopies, containing organizational data is disposed of securely when no longer required?	Yes	Yes, all Verkada storage media must be given to Verkada IT for disposal and all storage media will be sanitized prior to disposal. For the camera footage, Verkada may, upon a written request from a customer's authorized account administrators, decommission a camera -- or camera. The decommissioning request must be made within the administrator's authenticated Verkada Offering environment. Once processed, this request will permanently delete all the data stored on the device and restore the hardware to its factory-set defaults. Within the AWS infrastructure, AWS procedures include a decommissioning process that is designed to prevent customer data from being exposed to unauthorized individuals. AWS uses the techniques detailed in NIST 800-88 as part of the decommissioning process.
7.3	Have you implemented data loss prevention tools?	Not applicable (Please explain)	All production endpoint devices have mandatory encryption for storage and strict role based access and time restrictions to limit data exfiltration.
7.4	Do you secure sensitive data at rest? (e.g. full disk encryption on all laptops, database encryption, salted and hashed passwords)	Yes	All data stored on the camera is AES 128-bit encrypted and all data stored in AWS is 256-bit encrypted.
8	**System & Software Acquisition, Development, & Change Control**		
8.1	Are information security requirements defined for all new information systems, whether acquired or developed?	Yes	The Information Security policy and program is modeled after NIST CSF and takes into consideration NIST 800-53 rev 5, ISO 27002, and 2017 AICPA Trust Services Criteria for Security (aka SOC 2).
8.2	Are development and testing environments separate from the production environment?	Yes	Verkada separates its production environment from its development and test environments.
8.3	Are your applications developed with secure coding practices, including the OWASP Top 10 Most Critical Web Application Security Risks?	Yes	Verkada runs web security scans at least weekly that cover the OWASP Top Ten. For code review Verkada implements segregation-of-duties across its SDLC as well as system management. All changes to the code base go through a peer code review process utilizing static analysis tools such as Semgrep. All software engineers must complete secure coding training that covers secure coding concepts, including OWASP top ten considerations.

8.4	Are your web applications protected by an application layer firewall?	No	Below are the reasons we do not implement WAF: We understand that WAFs are commonly used to enhance web security. Still, in our case, we have implemented a robust set of compensating controls that effectively mitigate the risks WAFs are typically designed to address. Here are the key reasons why a WAF is not required in our architecture:– **Built-in Web Security Protections** – Our application follows secure coding best practices, including **Content Security Policy (CSP), output encoding, and anti-CSRF token checks** to mitigate common web vulnerabilities such as XSS and CSRF. Additionally, our frontend is built using React, which output-encodes data by default, helping prevent cross-site scripting (XSS) attacks by ensuring untrusted data is properly sanitized before rendering.– **Proactive Vulnerability Management** – We implement **static code analysis, mandatory code reviews, web application security scanning, and cloud security posture management tools**. This approach ensures that vulnerabilities such as SQL injection, XSS, and other injection-based attacks are identified and mitigated before they reach production.– **Istio Gateway for Authentication & API Security**—We leverage **an Istio gateway to enforce authentication and validate API paths**. This ensures that only authenticated traffic is allowed and that only published API endpoints can be accessed externally. It prevents unauthorized access and significantly reduces attack vectors that a WAF would typically protect against.– **AWS Native Security Measures** – Our architecture leverages **AWS Shield** for DDoS protection and **AWS Load Balancers** to distribute traffic securely. These services provide a foundational layer of security against volumetric attacks, ensuring high availability and resilience against malicious traffic.– **Custom Rate Limiting Implementation**—We have built an **in-house rate-limiting mechanism** to prevent abuse and limit excessive requests. This control complements our other security layers and protects against brute-force attacks and API misuse. With these comprehensive security controls in place, we ensure that our applications are effectively protected against web-based threats without needing a WAF.
8.5	Do you incorporate threat modeling into application design?	Yes	
5.6	Is application source code tested for vulnerabilities using source code reviews or static and dynamic application security testing?	Yes	Verkada utilizes Static code analysis, mandatory code reviews, web application security scanning and cloud security posture management tools to identify and mitigate injection vulnerabilities.
8.7	Are new information systems scanned for vulnerabilities prior to deployment?	Yes	Vulnerability scans are run daily. Vulnerabilities are ticketed and fixed according to internal Service Level Objective timelines based on security severity.
8.8	Do you monitor and restrict the installation of unauthorized software?	Yes	We do not allow direct access to device interfaces and therefore do not allow additional software installation.
8.9	Does the vendor have separate development, test & production environments for programming?	Yes	Verkada separates its production environment from its development and test environments.
8.10	Is a detailed security testing of the application, including peer review, part of the software development process?	Yes	All code changes require peer review, including security code review.

8.11	Do change management procedures include testing & approval of code changes prior to implementation?	Yes	Verkada has a rigorous change management, update and deployment program in place. Updates are reviewed in mandatory peer code reviews, tested on internal test systems, then pushed to a set of “canary” devices on our production network. Next, users who opt in to our beta program receive updates, and then the update is pushed to the entire population. Verkada runs sweeps to update any new or re-connected devices that may not have received the original update. Verkada maintains a full audit log of all changes made to each device and to the system.
8.12	Does vendor conduct continuous testing to ensure that code changes to the application do not introduce vulnerabilities?	Yes	– **Built-in Web Security Protections** – Our application follows secure coding best practices, including **Content Security Policy (CSP), output encoding, and anti-CSRF token checks** to mitigate common web vulnerabilities such as XSS and CSRF. Additionally, our frontend is built using React, which output-encodes data by default, helping prevent cross-site scripting (XSS) attacks by ensuring untrusted data is properly sanitized before rendering. – **Proactive Vulnerability Management** – We implement **static code analysis, mandatory code reviews, web application security scanning, and cloud security posture management tools**. This approach ensures that vulnerabilities such as SQL injection, XSS, and other injection-based attacks are identified and mitigated before they reach production. – **Istio Gateway for Authentication & API Security**—We leverage **an Istio gateway to enforce authentication and validate API paths**. This ensures that only authenticated traffic is allowed and that only published API endpoints can be accessed externally. It prevents unauthorized access and significantly reduces attack vectors that a WAF would typically protect against. – **AWS Native Security Measures** – Our architecture leverages **AWS Shield** for DDoS protection and **AWS Load Balancers** to distribute traffic securely. These services provide a foundational layer of security against volumetric attacks, ensuring high availability and resilience against malicious traffic. – **Custom Rate Limiting Implementation**—We have built an **in-house rate-limiting mechanism** to prevent abuse and limit excessive requests. This control complements our other security layers and protects against brute-force attacks and API misuse.
8.13	Does the vendor provide information regarding 3rd party applications that solution utilizes?	Not applicable (Please explain)	No third party software is required to deploy the Verkada surveillance solution.

8.14	Does the vendor use the minimum information or data necessary for solution setup & ongoing processing?	Yes	Verkada can provide granular administrative levels for all sites as well as site-based individual privileges. There are four levels of access that a user or group may have to a site or sub-site: – **Site Admin:** Permits users to view cameras, add cameras, archive and share video, change camera settings, create and delete archived videos, take snapshots, and edit site permissions. – **Site Viewer:** Permits users to view cameras, create archived videos, and take snapshots. – **Live-Only Viewer:** Permits users to only view camera live streams (no access to historical video, archives, or live link sharing). – **No Access:** Users will have no access to the site or sub-site's camera live feeds, historical video, or archives. For organization wide-access, you can create Org Admins. These roles will allow you access to all sites and sub-sites within the district. The role allows for the creation of other admins. Please find a roles and permissions overview here.
8.15	Does the vendor solution include de-identifying confidential data (if applicable) used for testing?	Not applicable (Please explain)	We do not associate analytics data with identifying information by default, the only identifying information that would be correlated with user data would be entered by the application owner.
8.16	Does the vendor environment utilize methods to detect & block application level software attacks?	Yes	Yes. Verkada audits & logs a variety of security controls to detect anomalous admin/privileged account activity, which include, but are not limited to: – authentication activity for zero trust network access (which is required to access backend Verkada systems & data) – Just-in-time, time-limited access request system (Verkada engineers are required to file requests via this system to obtain temporary privileged access to systems & data) – This includes requests, reviews, approvals, and revocations – Authentication, onboarding & offboarding from corporate single sign-on (SSO) – Activity from AWS KMS & IAM This activity is logged & stored in Verkada's SIEM. Detections & alerts on these logs are written by Verkada's Detection & Response team.
9	**Physical and Environmental Security**		
9.1	Are physical security perimeter controls implemented around sensitive locations such as data centers?	Yes	Physical security controls at the AWS data centers are detailed here: https://aws.amazon.com/compliance/data-center/controls/
9.2	Are all visitors appropriately identified, logged, and escorted while in sensitive locations?	Yes	All visitors are required to sign in at the front desk using Verkada's Guest product and are escorted by employees to non-public areas.
9.3	Does the physical controls for the data center facilities, include controls such as backup power supplies, generators, etc.?	Yes	Yes, details at https://aws.amazon.com/compliance/data-center/controls/

9.4	Does the vendor have policies & processes in place for the secure disposal and reuse of IT equipment?	Yes	Yes, all Verkada storage media must be given to Verkada IT for disposal and all storage media will be sanitized prior to disposal. For the camera footage, Verkada may, upon a written request from a customer's authorized account administrators, decommission a camera -- or camera. The decommissioning request must be made within the administrator's authenticated Verkada Offering environment. Once processed, this request will permanently delete all the data stored on the device and restore the hardware to its factory-set defaults. Within the AWS infrastructure, AWS procedures include a decommissioning process that is designed to prevent customer data from being exposed to unauthorized individuals. AWS uses the techniques detailed in NIST 800-88 as part of the decommissioning process.
10	**Information Protection Processes and Procedures**		
10.1	Are security configuration baselines defined and implemented for all endpoints and network devices?	Yes	Verkada leverages Configuration-as-Code where possible for configuration management. All configuration-as-code changes must be peer reviewed. Manual changes are manually reviewed as part of a Change Management process.
10.2	Do you use automated tools to verify that endpoints and network devices comply with their baselines?	Yes	Verkada runs periodic firmware integrity checks on all cameras to ensure there hasn’t been any tampering with our firmware and releases regular updates to its firmware. These updates enhance security and functionality, and they are included at no cost as part of your cloud license. To ensure failsafe updates, each Verkada device is equipped with a dual-partition firmware bank. If a device were to fail an automated check, our security team would be notified immediately and you are then contacted.
10.3	Do you segregate your network into zones based on trust levels, and control the flow of traffic between zones?	Yes	The Verkada cloud solution is a single multi-tenant application that implements security boundaries (logical access control based on organization ID) and individual keys per customer to ensure there is no commingling of data. Entities in the Verkada solution (organizations, users, cameras) are identified by unguessable UUIDs, cameras belong to organizations, users are affiliated with organizations. User tokens are tied to the Org ID and associated keys, ensuring that no data outside of the user's organization can be decrypted or viewed. Only users affiliated with an organization explicitly can access the organization data. This practice is a standard business practice.
10.4	Are all changes to information systems recorded, planned, and tested?	Yes	Modifications to the production environment are governed by the Change Management Standard.
10.5	Are all information systems that are susceptible to malware protected by up-to-date anti-malware software?	Yes	Verkada servers are hosted in AWS and run Linux. Linux is not a common target for viruses, so no antivirus. Server integrity and potential malware activity is monitored by Verkada's Cloud Security Posture Management tool.

10.6	Do you have a backup and recovery process designed to ensure that data can be recovered in the event of unexpected loss?	Yes	Client data in the form of video and audio is stored on the Verkada cameras themselves and stored for a retention period of 30, 60, 90, 120, 365 days based on hardware model. This camera footage can be backed up to the cloud on a per camera basis as necessary. Given this backup is uplink bandwidth intensive, this backup can be scheduled by the administrator (https://help.verkada.com/en/articles/2452653-enable-cloud-backup). Camera video data backups may be stored in AWS or Backblaze B2 depending on the region configured for storage. Client data in the AWS cloud is redundantly stored across isolated AWS Availability Zones providing redundancy for the data as well as high availability of the application. Backups of customer data stores are performed daily to an isolated AWS account for backups using AWS Backup.
10.7	Do you monitor external sources, such as vendor bulletins, for newly identified vulnerabilities and patches?	Yes	Vulnerability scans are run daily. Vulnerabilities are ticketed and fixed according to internal Service Level Objective timelines based on security severity.
10.8	Do you evaluate, test, and apply information system patches in a timely fashion according to their risk?	Yes	Vulnerabilities and Patches are fixed/applied according to Service Level Objective timelines specified in Verkada's Vulnerability Management Standard depending on their CVSS score and risk level.
11	**Data Protection & Protective Technology**		
11.1	Have security event logging requirements been defined, and are all information systems configured to meet logging requirements?	Yes	Yes, Verkada monitors security logs and alerts in a SIEM.
11.2	Are security event logs protected and retained per defined logging requirements?	Yes	Security logs are retained for at least 365 days.
11.3	Have you deployed intrusion detection or prevention systems at the network perimeter?	No	Verkada has implemented compensating controls for network security and detection rules related to network security in its SIEM.
11.4	Have you deployed tools to limit web browsing activity based on URL categories?	No	All production endpoint devices have mandatory encryption for storage and strict role based access and time restrictions to limit data exfiltration.
11.5	Have you deployed controls to detect and mitigate denial of service attacks?	Yes	Verkada's AWS environment is protected by AWS Shield.
11.6	Are there management policies & procedures in place to protect the use & storage of cryptographic keys (PKI)?	Yes	The camera footage and data stored on the cameras themselves is encrypted using AES 128 encryption. Any data and footage stored in the Verkada AWS cloud (thumbnails, archived video, credentials, metadata) is encrypted using AES 256 encryption. Individual per camera encryption keys are managed using AWS Key Management Service (KMS: https://aws.amazon.com/kms/). AWS KMS is a secure and resilient service that uses hardware security modules that have been validated under FIPS 140-2. Keys are rotated monthly.
11.7	Does the solution securely transmit sensitive data over public networks (e.g. passwords, command shells, files with sensitive content, database connections, email encryption)?	Yes	All data, including login credentials and other sensitive data, are encrypted with TLS 1.2 or greater for all connections to the Command platform over public networks.
12	**Security Continuous Monitoring & Login Auditing**		
12.1	Have you deployed automated tools to collect, correlate, and analyze security event logs from multiple sources for anomalies?	Yes	Yes, Verkada monitors security logs and alerts in a SIEM.
12.2	Are security alerts monitored 24x7?	Yes	Yes, Verkada monitors security logs and alerts in a SIEM.
12.3	Do you employ automated tools to scan information systems for vulnerabilities on a regular basis?	Yes	Vulnerability scans are run daily. Vulnerabilities are ticketed and fixed according to internal Service Level Objective timelines based on security severity.
12.4	Does the solution record all exceptions & security relevant events in application & system logs?	Yes	Audit logs are retained for 365 days. Customers may access the audit log for their organization in the Command platform.

12.5	Are all audit logs secure from modifications?	Yes	Yes. Audit logs are maintained at both the Organization (user / login) level as well as on specific cameras. The timestamp of the action, IP address of the user, username of the user and action taken are logged. Full details of all actions logged can be found here: https://help.verkada.com/en/articles/2729935-audit-logs The logs are immutable on the web from a user perspective. They can be modified after downloading (CSV format)
12.6	Are the application audit logs recorded?	Yes	Yes. Audit logs are maintained at both the Organization (user / login) level as well as on specific cameras. The timestamp of the action, IP address of the user, username of the user and action taken are logged. Full details of all actions logged can be found here: https://help.verkada.com/en/articles/2729935-audit-logs
12.7	Are the logs regularly reviewed to examine user ID's, dates & times of log on & log off, login failure events, etc.?	Yes	Yes, for more information on audit logs, please see the following : https://help.verkada.com/en/articles/2729935-audit-logs
12.8	Are the system logs reviewed at a defined frequency & retained for as long as required?	Yes	Audit logs are retained for 365 days. Customers may access the audit log for their organization in the Command platform.
13	**Information Security Incident Management & Disclosure of Security Breaches**		
13.1	Do you have a formal, documented security incident response plan?	Yes	Verkada's Security Incident Response Plan is available at https://my.pima.app/p/verkada/verkada-standard-security-docs
13.2	Do you conduct regular tests of your security incident response plan?	Yes	Verkada's security incident response plan is tested at least annually with tabletop exercises.
13.3	Are all security incidents recorded, classified, and tracked?	Yes	Yes, Verkada monitors security logs and alerts in a SIEM.
13.4	Are forensic investigations conducted as part of incident response?	Yes	Verkada's Security Incident Response Plan is available at https://my.pima.app/p/verkada/verkada-standard-security-docs
13.5	Does the vendor have procedures to notify the Polk County BoCC IT Division following the discovery of a breach without reasonable delay?	Yes	If a Verkada security incident affects a customer, Verkada will notify that customer within 48 hours.
13.6	Does the disclosure notification include the identification of data & each individual whose private data has been, or is reasonably believed to have been accessed, acquired, or disclosed during the breach?	Yes	In the event of a breach or a suspected breach there will be emailed written notice sent to the client within 48 hours of discovery of the breach. This email shall include the identification of the dataset that was compromised and investigative details (if applicable). Verkada's incident response plan is available at https://my.pima.app/p/verkada/verkada-standard-security-docs .
13.7	When a breach is discovered, does the vendor assign ownership of a breach for reporting purposes?	Yes	In the event of a breach or a suspected breach there will be emailed written notice sent to the client within 48 hours of discovery of the breach. This email shall include the identification of the dataset that was compromised and investigative details (if applicable). Verkada's incident response plan is available at https://my.pima.app/p/verkada/verkada-standard-security-docs .
14	**Privacy**		
14.1	Do you have a data retention policy and process that is designed to meet relevant privacy regulations?	Yes	The Verkada cloud solution is a multi-tenant application that implements security boundaries and individual keys per customer to ensure there is no commingling of data. Customer data is separated using logical access controls based on organization ID. Entities in the Verkada solution (organizations, users, cameras) are identified by cryptographically unguessable UUIDs, cameras belong to organizations, users are affiliated with organizations. User tokens are tied to the Org ID and associated keys, ensuring that no data outside of the user's organization can be decrypted or viewed. Only users affiliated with an organization explicitly can access the organization data.

14.2	Do you maintain an inventory and mapping of where all personal data is stored that includes cross-border data flows?	Yes	Diagrams available in https://my.pima.app/p/verkada/verkada-standard-security-docs.
15	**Disaster Recovery, Business Continuity & System Availability**		
15.1	Does the vendor have a developed & documented Disaster Recovery and Business Continuity Plans?	Yes	Verkada's Disaster Recovery & Business Continuity plan is available at https://my.pima.app/p/verkada/verkada-standard-security-docs
15.2	Has the Disaster Recovery Plan been tested within the last year? If not, when?	No	Verkada's most recent Disaster Recovery test was completed in September 2023.
15.3	Does the solution have a disaster recovery plan and procedures?	Yes	Client data in the form of video and audio is stored on the Verkada cameras themselves and stored for a retention period of 30, 60, 90, 120, 365 days based on hardware model. This camera footage can be backed up to the cloud on a per camera basis as necessary. Given this backup is uplink bandwidth intensive, this backup can be scheduled by the administrator (https://help.verkada.com/en/articles/2452653-enable-cloud-backup) Client data in the AWS cloud is redundantly stored across isolated AWS Availability Zones providing redundancy for the data as well as high availability of the application. Backups of customer data stores are performed daily to an isolated AWS account for backups using AWS Backup. Verkada has no limitations on the number of Cameras or products being added to the same site as we do not rely on a physical infrastructure like NVR or DVR. We are elastic and seamless therefore sky is the limit in terms of scalability and ease of deployment.
15.4	Are the backups encrypted using 256 bit AES encryption or better?	Yes	Cloud backups utilize AES 256-bit encryption
16	**Anti-malware and Vulnerability Management**		
16.1	Does the solution support the use of anti-malware protection?	No	Verkada servers are hosted in AWS and run Linux. Linux is not a common target for viruses, so no antivirus. Server integrity and potential malware activity is monitored by Verkada's Cloud Security Posture Management tool. Verkada is a cloud based solution and is not relavent the use of anti-malware protection for client machines.
16.2	Does the vendor have processes to monitor & manage system vulnerabilities to mitigate malware?	Yes	Vulnerability scans are run daily. Vulnerabilities are ticketed and fixed according to internal Service Level Objective timelines based on security severity.
16.3	Does the vendor have a comprehensive patch & vulnerability management program to include internal systems as well as external services, software & products along with reliable customer notifications?	Yes	Yes. Verkada uses recommended AWS tools and services for vulnerability detection and patch management. Patches are pushed out to the Verkada cameras on an as-needed basis. The devices continually query the Verkada firmware upgrade server and pull firmware automatically. Once downloaded the devices go through the following process to ensure they have received a valid firmware update. The device will confirm the source, run a health check and confirm that it is a committed release. Verkada's Command platform applies patches at all levels of the tech stack according to internal SLO timelines according to security severity.
16.4	Does the vendor scan for system vulnerabilities on a continuous or regular basis?	Yes	Vulnerability scans are run daily. Vulnerabilities are ticketed and fixed according to internal Service Level Objective timelines based on security severity.

16.5	Does the vendor have procedures in place to determine if assets have been compromised?	Yes	Yes. Verkada audits & logs a variety of security controls to detect anomalous admin/privileged account activity, which include, but are not limited to: – authentication activity for zero trust network access (which is required to access backend Verkada systems & data) – Just-in-time, time-limited access request system (Verkada engineers are required to file requests via this system to obtain temporary privileged access to systems & data) – This includes requests, reviews, approvals, and revocations – Authentication, onboarding & offboarding from corporate single sign-on (SSO) – Activity from AWS KMS & IAM This activity is logged & stored in Verkada's SIEM. Detections & alerts on these logs are written by Verkada's Detection & Response team.
16.6	Does the vendor have a configuration management program?	Yes	Verkada leverages Configuration-as-Code where possible for configuration management. All configuration-as-code changes must be peer reviewed. Manual changes are manually reviewed as part of a Change Management process.
17	**Data Life Cycle Controls**		
17.1	Does the vendor agree to end of contract separation provisions related to data?	Yes	Yes, all Verkada storage media must be given to Verkada IT for disposal and all storage media will be sanitized prior to disposal. For the camera footage, Verkada may, upon a written request from a customer's authorized account administrators, decommission a camera -- or camera. The decommissioning request must be made within the administrator's authenticated Verkada Offering environment. Once processed, this request will permanently delete all the data stored on the device and restore the hardware to its factory-set defaults. Within the AWS infrastructure, AWS procedures include a decommissioning process that is designed to prevent customer data from being exposed to unauthorized individuals. AWS uses the techniques detailed in NIST 800-88 as part of the decommissioning process.
17.2	Does the vendor have a defined process for secure disposal of customer's data?	Yes	Yes, all Verkada storage media must be given to Verkada IT for disposal and all storage media will be sanitized prior to disposal. For the camera footage, Verkada may, upon a written request from a customer's authorized account administrators, decommission a camera -- or camera. The decommissioning request must be made within the administrator's authenticated Verkada Offering environment. Once processed, this request will permanently delete all the data stored on the device and restore the hardware to its factory-set defaults. Within the AWS infrastructure, AWS procedures include a decommissioning process that is designed to prevent customer data from being exposed to unauthorized individuals. AWS uses the techniques detailed in NIST 800-88 as part of the decommissioning process.

Risk Management Policy

Purpose

The purpose of this policy is to define the methodology for the assessment and treatment of information security risks within Verkada, and to define the acceptable level of risk as set by Verkada's leadership.

Scope

Risk assessment and risk treatment are applied to the entire scope of Verkada's information security program, and to all assets which are used within Verkada or which could have an impact on information security within it. This policy applies to all employees of Verkada who take part in risk assessment and risk treatment.

Background

A key element of Verkada's information security program is a holistic and systematic approach to risk management. This policy defines the requirements and processes for Verkada to identify information security risks. The process consists of four parts: identification of Verkada's assets, as well as the threats and vulnerabilities that apply; assessment of the likelihood and consequence (risk) of the threats and vulnerabilities being realized, identification of treatment for each unacceptable risk, and evaluation of the residual risk after treatment.

Policy

Risk Assessment

- The risk assessment process includes the identification of threats and vulnerabilities having to do with company assets.
- The first step in the risk assessment is to identify all assets within the scope of the information security program; in other words, all assets which may affect the confidentiality, integrity, and/or availability of information in the organization. Assets may include documents in paper or electronic form, applications, databases, information technology equipment, infrastructure, and external/outsourced services and processes. For each asset, an owner must be identified.
- The next step is to identify all threats and vulnerabilities associated with each asset. Threats and vulnerabilities must be listed in a risk assessment table. Each asset may be associated with multiple threats, and each threat may be associated with multiple vulnerabilities.
- For each risk, an owner must be identified. The risk owner and the asset owner may be the same individual.
- Once risk owners are identified, they must assess:

Driven Security
adam@drivensecurity.com

    - Impact for each combination of threats and vulnerabilities for an individual asset if such a risk materializes.
    - Likelihood of occurrence of such a risk (i.e. the probability that a threat will exploit the vulnerability of the respective asset).
    - Criteria for determining impact and likelihood are defined in the tables below.
- The risk level is calculated by multiplying the impact score and the likelihood score.

Description of Impact Levels and Criteria

Impact (Score)	**Definition**
Incidental (1.0)	• Minimal financial loss • Local media attention quickly remedied • Not reportable to regulator • Isolated staff dissatisfaction
Minor (2.0)	• Minor financial loss • Local reputational damage • Reportable incident to regulator, no follow up • General staff morale problems and increase in turnover
Moderate (3.0)	• Moderate financial loss • National short-term negative media coverage • Report of breach to regulator with immediate correction to be implemented • Widespread staff morale problems and high turnover
Major (4.0)	• Significant financial loss • National long-term negative media coverage; significant loss of market share • Report to regulator requiring major project for corrective action • Some senior managers leave, high turnover of experienced staff, not perceived as employer of choice
Extreme (5.0)	• Massive financial loss over $50,000,000 • International long-term negative media coverage; game-changing loss of market share • Significant prosecution and fines, litigation including class actions, incarceration of leadership • Multiple senior leaders leave

Description of Likelihood Levels and Criteria

Likelihood (Weight Factor)	**Definition**
Rare (1.0)	Once in 100 years or less (<10% chance of occurrence over the life of the company)
Unlikely (2.0)	Once in 50 to 100 years (10% to 35% chance of occurrence over the life of the company)
Possible (3.0)	Once in 25 to 50 years (35% to 65% chance of occurrence over the life of the company)
Likely (4.0)	Once in 2 to 25 years (65% to 90% chance of occurrence over the life of the

Driven Security
adam@drivenlocks.com

	company)
Almost Certain (5.0)	Up to once in 2 years or more (90% or greater chance of occurrence over the life of the company)

Risk Rating Criteria

Risk Rating:
Low Risk: Less than or equal to 4.0
Medium Risk: Greater than 4.0 but less than or equal to 9.0
High Risk: Greater than 9.0 but less than or equal to 16.0
Critical Risk: Greater than 16.0

Risk Rating Matrix

RISK SCORE MATRIX						
		Impact				
		INCIDENTAL (1.0)	**MINOR (2.0)**	**MODERATE (3.0)**	**MAJOR (4.0)**	**EXTREME (5.0)**
Likelihood	**RARE (1.0)**	**LOW** 1.0 x 1.0 = 1.0	**LOW** 1.0 x 2.0 = 2.0	**LOW** 1.0 x 3.0 = 3.0	**MEDIUM** 1.0 x 4.0 = 4.0	**MEDIUM** 1.0 x 5.0 = 5.0
	UNLIKELY (2.0)	**LOW** 2.0 x 1.0 = 2.0	**MEDIUM** 2.0 x 2.0 = 4.0	**MEDIUM** 2.0 x 3.0 = 6.0	**MEDIUM** 2.0 x 4.0 = 8.0	**HIGH** 2.0 x 5.0 = 10.0
	POSSIBLE (3.0)	**LOW** 3.0 x 1.0 = 3.0	**MEDIUM** 3.0 x 2.0 = 6.0	**MEDIUM** 3.0 x 3.0 = 9.0	**HIGH** 3.0 x 4.0 = 12.0	**HIGH** 3.0 x 5.0 = 15.0

Driven Security
adam@drivenlocks.com

	LIKELY **(4.0)**	**MEDIUM** 4.0 x 1.0 = 4.0	**MEDIUM** 4.0 x 2.0 = 8.0	**HIGH** 4.0 x 3.0 = 12.0	**HIGH** 4.0 x 4.0 = 16.0	**CRITICAL** 4.0 x 5.0 = 20.0
	CERTAIN **(5.0)**	**MEDIUM** 5.0 x 1.0 = 5.0	**HIGH** 5.0 x 2.0 = 10.0	**HIGH** 5.0 x 3.0 = 15.0	**CRITICAL** 5.0 x 4.0 = 20.0	**CRITICAL** 5.0 x 5.0 = 25.0

Risk Remediation

- As part of this risk remediation process, the Company shall determine objectives for mitigating or treating risks. All high and critical risks must be treated. For continuous improvement purposes, company managers may also opt to treat medium and/or low risks for company assets.
- Treatment options for risks include the following options:
    - Selection or development of security control(s).
    - Transferring the risks to a third party; for example, by purchasing an insurance policy or signing a contract with suppliers or partners.
    - Avoiding the risk by discontinuing the business activity that causes such risk.
    - Accepting the risk; this option is permitted only if the selection of other risk treatment options would cost more than the potential impact of the risk being realized.
- After selecting a treatment option, the risk owner should estimate the new impact and likelihood values after the planned controls are implemented.

Regular Reviews of Risk Assessment and Risk Treatment

- The Risk Assessment Report must be updated when newly identified risks are identified. At a minimum, this update and review shall be conducted **once per year**.

Reporting

- The results of risk assessments, and all subsequent reviews, shall be documented in a Risk Assessment Report.

Independent Service Auditor's Report

To the Management of Verkada Inc.

Scope

We have examined Verkada Inc.'s (Verkada) accompanying description of its Command Platform system found in Section III titled "Verkada's Description of its Command Platform System" throughout the period April 1, 2024 to September 30, 2024 (description) based on the criteria for a description of a service organization's system set forth in *DC 200, 2018 Description Criteria for a Description of a Service Organization's System in a SOC 2® Report* (AICPA, *Description Criteria*) (description criteria) and the suitability of the design and operating effectiveness of controls stated in the description throughout the period April 1, 2024 to September 30, 2024, to provide reasonable assurance that Verkada's service commitments and system requirements were achieved based on the trust services criteria relevant to security (applicable trust services criteria) set forth in *TSP 100, 2017 Trust Services Criteria for Security, Availability, Processing Integrity, Confidentiality, and Privacy* (AICPA, *Trust Services Criteria*).

Verkada uses Amazon Web Services (AWS), a subservice organization, to provide cloud infrastructure services; Backblaze, a subservice organization, to provide cloud data storage services; Okta, a subservice organization, to provide identity and access management services; and GitHub, a subservice organization, to provide code management and continuous integration services. The description indicates that complementary subservice organization controls that are suitably designed and operating effectively are necessary, along with controls at Verkada to achieve Verkada's service commitments and system requirements based on the applicable trust services criteria. The description presents Verkada's controls, the applicable trust services criteria, and the types of complementary subservice organization controls assumed in the design of Verkada's controls. The description does not disclose the actual controls at the subservice organizations. Our examination did not include the services provided by the subservice organizations, and we have not evaluated the suitability of the design or operating effectiveness of such complementary subservice organization controls.

The description indicates that certain complementary user entity controls that are suitably designed and operating effectively are necessary, along with controls at Verkada, to achieve Verkada's service commitments and system requirements based on the applicable trust services criteria. The description presents Verkada's controls, the applicable trust services criteria, and the complementary user entity controls assumed in the design of Verkada's controls. Our examination did not include such complementary user entity controls and we have not evaluated the suitability of the design or operating effectiveness of such controls.

The information included in Section V, "Other Information Provided by Verkada That is Not Covered by the Service Auditor's Report," is presented by Verkada's management to provide additional information and is not a part of Verkada's description of its Command Platform system made available to user entities during the period April 1, 2024 to September 30, 2024. Information about Verkada's response to the exception has not been subjected to the procedures applied in the examination and accordingly, we express no opinion on it.

Service Organization's Responsibilities

Verkada is responsible for its service commitments and system requirements and for designing, implementing, and operating effective controls within the system to provide reasonable assurance that Verkada's service commitments and system requirements were achieved. In Section II,

Private Security Agreements adam@verkada.com

Generated by Pima.app April 28, 2025 · 08:33 AM PDT

Verkada has provided the accompanying assertion titled "Assertion of Verkada Management" (assertion) about the description and the suitability of design and operating effectiveness of controls stated therein. Verkada is also responsible for preparing the description and assertion, including the completeness, accuracy, and method of presentation of the description and assertion; providing the services covered by the description; selecting the applicable trust services criteria and stating the related controls in the description; and identifying the risks that threaten the achievement of the service organization's service commitments and system requirements.

Service Auditor's Responsibilities

Our responsibility is to express an opinion on the description and on the suitability of design and operating effectiveness of controls stated in the description based on our examination. Our examination was conducted in accordance with attestation standards established by the American Institute of Certified Public Accountants. Those standards require that we plan and perform our examination to obtain reasonable assurance about whether, in all material respects, the description is presented in accordance with the description criteria and the controls stated therein were suitably designed and operated effectively to provide reasonable assurance that the service organization's service commitments and system requirements were achieved based on the applicable trust services criteria. We believe that the evidence we obtained is sufficient and appropriate to provide a reasonable basis for our opinion.

We are required to be independent and to meet our other ethical responsibilities in accordance with relevant ethical requirements relating to the examination engagement.

An examination of a description of a service organization's system and the suitability of the design and operating effectiveness of controls involves—

- obtaining an understanding of the system and the service organization's service commitments and system requirements.
- assessing the risks that the description is not presented in accordance with the description criteria and that controls were not suitably designed or did not operate effectively.
- performing procedures to obtain evidence about whether the description is presented in accordance with the description criteria.
- performing procedures to obtain evidence about whether controls stated in the description were suitably designed to provide reasonable assurance that the service organization achieved its service commitments and system requirements based on the applicable trust services criteria.
- testing the operating effectiveness of controls stated in the description to provide reasonable assurance that the service organization achieved its service commitments and system requirements based on the applicable trust services criteria.
- evaluating the overall presentation of the description.

Our examination also included performing such other procedures as we considered necessary in the circumstances.

Inherent Limitations

The description is prepared to meet the common needs of a broad range of report users and may not, therefore, include every aspect of the system that individual users may consider important to meet their informational needs. There are inherent limitations in any system of internal control, including the possibility of human error and the circumvention of controls. Because of their nature, controls may not always operate effectively to provide reasonable assurance that the service organization's service commitments and system requirements are achieved based on the applicable trust services criteria. Also, the projection to the future of any conclusions about the

Driven Security
claire@drivenlocks.com

Generated by Pima.app April 28, 2025 · 08:33 AM PDT

suitability of the design or operating effectiveness of controls is subject to the risk that controls may become inadequate because of changes in conditions or that the degree of compliance with the policies or procedures may deteriorate.

Description of Tests of Controls

The specific controls we tested, and the nature, timing, and results of those tests are listed in Section IV, "Trust Services Categories, Criteria, Related Controls, Tests of Controls, and Results of Tests" of this report.

Basis for Qualified Opinion

The accompanying description of Verkada's Command Platform system states that Verkada reviews compliance reports for high-risk vendors annually. However, for three out of seven high-risk vendors selected for testing, the review of compliance reports was not documented and for four out of seven high-risk vendors selected for testing, the review of compliance reports was not complete and accurate. As a result, the controls were not operating effectively throughout the period April 1, 2024 to September 30, 2024 to provide reasonable assurance that the service organization's service commitments and system requirements were achieved based on trust services criterion *CC9.2 - The entity assesses and manages risks associated with vendors and business partners.*

Opinion

In our opinion, in all material respects—

a) The description presents Verkada's Command Platform system that was designed and implemented throughout the period April 1, 2024 to September 30, 2024 in accordance with the description criteria.

b) The controls stated in the description were suitably designed throughout the period April 1, 2024 to September 30, 2024 to provide reasonable assurance that Verkada's service commitments and system requirements would be achieved based on the applicable trust services criteria, if its controls operated effectively throughout that period and if the subservice organizations and user entities applied the complementary controls assumed in the design of Verkada's controls throughout that period.

c) Except for the matter described in the Basis for Qualified Opinion paragraph, the controls stated in the description operated effectively throughout the period April 1, 2024 to September 30, 2024 to provide reasonable assurance that Verkada's service commitments and system requirements were achieved based on the applicable trust services criteria, if complementary subservice organization controls and complementary user entity controls assumed in the design of Verkada's controls operated effectively throughout that period.

Restricted Use

This report, including the description of tests of controls and results thereof in Section IV, is intended solely for the information and use of Verkada; user entities of Verkada's Command Platform system during some or all of the period April 1, 2024 to September 30, 2024; business partners of Verkada subject to risks arising from interactions with the Command Platform system; practitioners providing services to such user entities and business partners; prospective user entities and business partners; and regulators who have sufficient knowledge and understanding of the following:

- The nature of the service provided by the service organization.

Driven Security
alan@drivensecurity.com

Generated by Pima.app April 28, 2025 · 08:33 AM PDT

- How the service organization's system interacts with user entities, business partners, subservice organizations, and other parties.
- Internal control and its limitations.
- Complementary user entity controls and complementary subservice organization controls and how those controls interact with the controls at the service organization to achieve the service organization's service commitments and system requirements.
- User entity responsibilities and how they may affect the user entity's ability to effectively use the service organization's services.
- The applicable trust services criteria.
- The risks that may threaten the achievement of the service organization's service commitments and system requirements and how controls address those risks.

This report is not intended to be, and should not be, used by anyone other than these specified parties.

II. Assertion of Verkada Management

Driven Security
adam@drivenlocks.com

Assertion of Verkada Management

We have prepared the accompanying description of Verkada Inc.'s (Verkada) Command Platform system titled "Verkada's Description of its Command Platform System" throughout the period April 1, 2024 to September 30, 2024 (description) based on the criteria for a description of a service organization's system set forth in *DC 200, 2018 Description Criteria for a Description of a Service Organization's System in a SOC 2® Report* (AICPA, *Description Criteria*) (description criteria). The description is intended to provide report users with information about the Command Platform system that may be useful when assessing the risks arising from interactions with Verkada's system, particularly information about system controls that Verkada has designed, implemented, and operated to provide reasonable assurance that its service commitments and system requirements were achieved based on the trust services criteria relevant to security (applicable trust services criteria) set forth in *TSP 100, 2017 Trust Services Criteria for Security, Availability, Processing Integrity, Confidentiality, and Privacy* (AICPA, *Trust Services Criteria*).

Verkada uses Amazon Web Services (AWS), a subservice organization, to provide cloud infrastructure services; Backblaze, a subservice organization, to provide cloud data storage services; Okta, a subservice organization, to provide identity and access management services; and GitHub, a subservice organization, to provide code management and continuous integration services. The description indicates that complementary subservice organization controls that are suitably designed and operating effectively are necessary, along with controls at Verkada, to achieve Verkada's service commitments and system requirements based on the applicable trust services criteria. The description presents the service organization's controls, the applicable trust services criteria, and the types of complementary subservice organization controls assumed in the design of the service organization's controls. The description does not disclose the actual controls at the subservice organizations.

The description indicates that complementary user entity controls that are suitably designed and operating effectively are necessary, along with controls at Verkada, to achieve Verkada's service commitments and system requirements based on the applicable trust services criteria. The description presents the service organization's controls, the applicable trust services criteria, and the complementary user entity controls assumed in the design of the service organization's controls.

We confirm, to the best of our knowledge and belief, that—

1. The description presents Verkada's Command Platform system that was designed and implemented throughout the period April 1, 2024 to September 30, 2024 in accordance with the description criteria.
2. The controls stated in the description were suitably designed throughout the period April 1, 2024 to September 30, 2024 to provide reasonable assurance that Verkada's service commitments and system requirements would be achieved based on the applicable trust services criteria, if its controls operated effectively throughout that period, and if the subservice organizations and user entities applied the complementary controls assumed in the design of Verkada's controls throughout that period.
3. Except for the matter described in paragraph 4, the controls stated in the description operated effectively throughout the period April 1, 2024 to September 30, 2024 to provide reasonable assurance that Verkada's service commitments and system requirements were achieved based on the applicable trust services criteria, if complementary subservice organization controls

Driven Security
adam@drivensecurity.com

Generated by Pima.app April 28, 2025 · 08:33 AM PDT

and complementary user entity controls assumed in the design of Verkada's controls operated effectively throughout that period.

4) The accompanying description of Verkada's Command Platform system states that Verkada reviews compliance reports for high-risk vendors annually. for three out of seven high-risk vendors selected for testing, the review of compliance reports was not documented and for four out of seven high-risk vendors selected for testing, the review of compliance reports was not complete and accurate. As a result, the controls were not operating effectively throughout the period April 1, 2024 to September 30, 2024 to provide reasonable assurance that the service organization's service commitments and system requirements were achieved based on trust services criterion *CC9.2 - The entity assesses and manages risks associated with vendors and business partners.*

III. Verkada's Description of its Command Platform System

Driven Security
adam@drivenlocks.com

Scope and Boundaries of the System

This is a System and Organization Controls (SOC) 2 Type 2 report and includes a description of Verkada Inc.'s (Verkada, service organization, or Company) Command Platform system, and the controls in place to provide reasonable assurance that Verkada's service commitments and system requirements were achieved based on the trust services criteria relevant to security (applicable trust services criteria) set forth in *TSP 100, 2017 Trust Services Criteria for Security, Availability, Processing Integrity, Confidentiality, and Privacy* (AICPA, *Trust Services Criteria*), throughout the period April 1, 2024 to September 30, 2024, which may be relevant to users of the Command Platform system. It does not encompass all aspects of the services provided or procedures followed for other activities performed by Verkada.

Company Background and Services Provided

Verkada was founded in 2016. Headquartered in San Mateo, California, Verkada provides its customers with cloud-managed physical security devices, including cameras, environmental sensors, camera viewing stations, access control devices, and intrusion detection devices, and a cloud-managed visitor management system. These devices and the visitor management system are managed through Verkada's cloud-based Command Platform, which is used by customers to protect people and assets, secure facilities, and gain new insights that improve the efficiency of their physical security operations.

The system description in this report details the Command Platform. Management and maintenance of the security of physical security devices, such as cameras and sensors, connected to the Command Platform or any other services offered by Verkada were not considered to be in scope for purposes of this report.

In September 2023, Verkada launched a new production cloud infrastructure account to support the servicing of EU-based customers and in April 2024 Verkada launched a new production cloud infrastructure account to support the servicing of Australia-based customers. The US, EU and Australia production accounts were considered to be in scope for the purposes of this report.

Subservice Providers

Verkada uses AWS to provide cloud infrastructure services, Backblaze to provide cloud data storage services, Okta to provide identity and access management services, and GitHub to provide code management and continuous integration services. The description presents Verkada's controls, the applicable trust services criteria, and the types of complementary subservice organization controls assumed in the design of Verkada's controls. The description does not disclose the actual controls at the subservice organizations.

Principal Service Commitments and System Requirements

Verkada designs its processes and procedures to meet objectives for its Command Platform system. Those objectives are based on the service commitments that Verkada makes to user entities and the system requirements that Verkada has established for their services.

Security commitments are standardized and include implementing commercially reasonable technical, administrative, and organizational measures to protect customer data from loss, misuse, and unauthorized access, disclosure, alteration, or destruction. Additional commitments include, but are not limited to the following:

- Authorizing access to information resources, including production systems and customer data, on the principle of least privilege and conducts annual access control reviews

Driven Security
adam@drivenlocks.com

Generated by Pima.app April 28, 2025 · 08:33 AM PDT

- Requiring two factor authentication and/or single sign-on to access sensitive systems and applications
- Establishing formal guidelines for employee passwords to govern the management and use of authentication mechanisms, and requiring the use of password managers, automatic screensaver locks, hard disk encryption, and other endpoint security measures
- Implementing a version control system helps manage source code, documentation, release labeling, and other change management tasks
- Implementing business continuity and incident response plans to effectively respond to a business interruption or security incident to minimize impact to customers
- Implementing formal risk management processes specify risk tolerances and the process for evaluating risks based on identified threats and the specified tolerances. Verkada conducts a risk assessment at least annually
- Performing regular backups and retains them in accordance with a predefined schedule
- Ensuring that all connections to its web application from its users are encrypted using certificated TLS configurations
- Storing customer data in databases that are encrypted at rest
- Using configurations that ensure only approved networking ports and protocols are implemented
- Monitoring server CPU use, free storage space, message age and read I/O in Verkada's databases, servers and messaging queues and notify appropriate personnel of any events or incidents based on predetermined criteria

Verkada establishes operational requirements that support the achievement of security commitments and other system requirements. Such requirements are communicated in Verkada's system policies and procedures, system design documentation, and contracts with customers. Information security policies define an organization-wide approach to how systems and data are protected. These include policies around how the service is designed and developed, how the system is operated, how internal networks are managed, and how employees are hired and trained.

System Incidents

Verkada did not identify any system incidents that occurred during the period April 1, 2024 to September 30, 2024 that were the result of controls that were not suitably designed or operating effectively, or that resulted in a significant failure in the achievement of one or more of the service commitments or system requirements.

Significant Changes to the System and Controls

Verkada did not identify any significant changes to the system or controls during the examination period.

Components of the System Used to Provide the Services

Infrastructure

Verkada supports a remote workforce. Verkada issues company workstations to new employees upon hire and provisions access to Verkada systems, which operates on software as a service (SaaS) platforms.

Verkada's Command Platform web-based platform ("the platform") is maintained on an AWS cloud environment. The following are key infrastructure services used by the platform:

Component	Purpose
AWS Route 53	Route 53 is a highly available and scalable Domain Name System (DNS) web service.
AWS CloudFront	CloudFront is a content delivery network (CDN) operated by AWS that provides a globally distributed network of proxy servers that cache content, more locally to consumers, to improve access speed for downloading the content.
AWS ELB	AWS Elastic Load Balancing (ELB) helps Verkada automatically distribute incoming application traffic across multiple targets and virtual appliances across multiple Availability Zones (AZs).
AWS VPC	AWS Virtual Private Cloud (VPC) is a service that lets Verkada launch AWS resources in logically isolated virtual networks that they define, including the provisioning of private subnets for production compute and database services.
AWS IAM	AWS Identity and Access Management (IAM) manages AWS users and groups using permission-based logical access management to allow and deny access to AWS resources.
AWS EC2	AWS Elastic Compute Cloud (EC2) is a virtual server service providing elastic compute cloud for running EKS.
AWS EKS	AWS Elastic Kubernetes Service (EKS) is an Amazon-managed service that Verkada uses to run Kubernetes on AWS.
AWS Lambda	An event-driven, serverless computing platform that runs code in response to events and automatically manages the computing resources required by that code.
AWS ElastiCache	ElastiCache is a fully managed in-memory data store and caching service that improves the performance of web applications by

Driven Security
adam@drivensecurity.com

Component	Purpose
	retrieving information from managed in-memory caches. Data such as customer's name, email address, physical address, etc. is stored here.
AWS RDS	AWS Relational Database Service (RDS) is a fully managed, open-source cloud database service that allows Verkada to easily operate and scale their databases used to support the Command Platform. RDS is used to store application service data such as user data, customer organizational data, and customer device information.
AWS DynamoDB	DynamoDB is a fully managed proprietary NoSQL database service that supports key-value and document data structures and offers continuous backups, automated multi-region replication, and in-memory caching. DynamoDB stores customer user and product metadata.
AWS S3	AWS Simple Storage Service (S3) is an object storage service offering industry-leading scalability, data availability, security, and performance. Verkada uses S3 buckets to store video footage from Verkada's customers' cameras, as well as infrastructure log files.
Backblaze	Backblaze is used by Verkada as the primary cloud data storage service to store encrypted backups of video footage from Verkada's customers' cameras. Backblaze is Verkada's default storage service for the storage of customer video files unless customers specifically request the use of AWS S3 in scenarios, such as geographic limitations, where Backblaze is not available.

Software

Verkada uses the following software in support of the platform and related business processes:

Software	Purpose
Okta	Okta is an identity and access management service used by Verkada to manage and secure user authentication into applications.
GitHub	GitHub is the source code repository and continuous integration (CI) platform used by Verkada.

Driver Security
@driversecurity.com
Generated by Pima.app April 28, 2025 · 08:33 AM PDT

Software	Purpose
Terraform	Infrastructure as code software tool to manage cloud services and configurations.
MonoCI	Verkada's in-house developed tool to facilitate the execution of continuous integration tests for specific production services.
Bazel	Verkada uses Bazel to facilitate the execution of continuous integration tests and the building of new containers for deployment to production for specific production services.
Argo CD	Verkada uses Argo CD to support the continuous deployment (CD) of code to the platform.
AWS CodeBuild	Verkada uses CodeBuild in conjunction with code that is tested through MonoCI to support the building and packaging of new code for deployment.
Datadog	Observability service for cloud-scale applications, providing performance monitoring for servers, databases, tools, and services, through a SaaS-based data analytics platform.
OpenSearch	Verkada uses OpenSearch for device logging and monitoring alongside Datadog. OpenSearch is used to monitor Verkada customer Internet of Things (IoT) devices connected to the Command Platform. Verkada self-hosts OpenSearch within their own AWS environment. Data such as customer's name, email address, physical address, etc. is stored here. No customer data processed through the Command Platform is stored here.
Orca Security	Orca Security is agentless, workload-deep, context-aware cloud infrastructure security and compliance service used to monitor activity for Verkada's infrastructure, including infrastructure vulnerabilities and potential non-compliance with industry security benchmarks. Verkada also uses Orca's File Integrity Monitoring (FIM) service.
Wiz	Wiz is a cloud security tool used by Verkada that provides visibility into cloud infrastructure, identifying security risks, vulnerabilities, and compliance issues across cloud environments. *Verkada began using Wiz on August 5, 2024.*

Generated by Pima.app April 28, 2025 · 08:33 AM PDT

Software	Purpose
Panther	Panther is a cloud-based security information and event management (SIEM) tool used by Verkada to aggregate logs and configure security alerts, including intrusion detection. *Verkada deprecated Panther on September 7, 2024.*
vStreamAlert	An in-house developed tool used by Verkada to aggregate logs and configure security alerts, including intrusion detection. *Verkada began using vStreamAlert on August 31, 2024.*
OpsGenie	OpsGenie is an incident response tool used by Verkada which has been configured to receive critical performance alerts, notify the appropriate teams, and to log events through resolution.
Google Maps API	Verkada's visitor management module of the Command Platform uses the Google Maps API to resolve visitor's addresses. Visitor data is not stored in Google's cloud environment.
Drata	Drata is the compliance automation tool used by Verkada to track and manage their compliance with company security requirements.
Kandji	Kanji is a mobile device management (MDM) platform for Mac devices.
JumpCloud	JumpCloud is an MDM platform for Windows and Linux devices.
Linear	Linear helps Verkada plan, assign, track, report, and manage work as a ticketing and work management tool.
Twilio	Communications tool used by Verkada to send product and service-related updates and alerts to customers.
Intercom	Verkada uses Intercom for live chat support for customers when they are using the Command Platform.
BambooHR	BambooHR is the human resources information system (HRIS) used by Verkada to manage and maintain onboarding and compliance requirements for their employees.

People

Verkada is organized by functional area. Within functional areas, organizational and reporting hierarchies are defined and responsibilities are assigned.

Component	Responsibilities
Executive Leadership Team (ELT)	Responsible for overseeing company-wide activities, establishing and accomplishing goals, and managing objectives.
Security and Privacy Governance Committee	Responsible for overseeing performance of the security and privacy programs, risk management, and strategy.
People (Human Resources)	Responsible for onboarding new personnel, assigning the roles and positions of new hires, maintaining the Employee Handbook and its acceptance by personnel, performing background checks, maintaining organization charts, and facilitating the employee termination process.
Legal	Responsible for advising on legal and regulatory issues related to security and privacy
Product Management	Responsible for overseeing the product life cycle, including adding new product functionality.
Engineering	Responsible for the development, testing, deployment, and maintenance of source code for the Command Platform. Assists customers with technical support when necessary.
Information Technology (IT)	Responsible for managing corporate IT infrastructure, including corporate IT security controls and laptops issued to Company personnel.
Security	Responsible for defining and executing the Company's security and compliance activities, and managing access to the engineering infrastructure.
Support	Responsible for providing technical support to customers.

Policies and Procedures

Verkada maintains the following documented policies and procedures to support the internal control environment:

- Acceptable Use Policy
- Acceptable Use of Products Policy
- Acceptable Use of Technology Policy
- Access Control Policy
- Asset Management Policy
- Background Check Standard
- Business Continuity Plan
- Change Management Standard
- Data Classification Policy
- Data Protection Policy
- Data Retention Standard
- Disaster Recovery Plan
- Employee Handbook
- Eng Access Management Standard
- Generative AI Policy
- Incident Response Plan
- Information Security Policy
- Network Security Standard
- Password Policy
- Physical Security Policy
- Remote Access Standard
- Risk Management Policy
- Secrets Management Standard
- Secure Communications Standard
- Security and Privacy Governance Committee
- Security Vulnerability Management Standard
- Software and Open Source Policy
- System Hardening Standard
- System Security Monitoring Standard
- Vendor Risk and Compliance Management Policy

Data

Data stored and processed by the Command Platform system consists of customer data such as names, contact information, images, video recordings, and application usage data, along with application and infrastructure logs.

Data is classified by risk and controls are applied based on the classification. Data retention and data destruction policies and procedures are in place and employees are trained on the proper use and safeguards of data.

Description of the Controls Relevant to the Applicable Criteria

Verkada has specified the scope of this examination to include the Security category and has identified the controls that have been designed and operated to achieve the related trust services criteria based on Verkada's service commitments and system requirements. Verkada's controls are presented below.

Control Environment

Organizational Governance and Structure

- Verkada maintains an organizational chart which includes organizational structure, reporting lines, and authorities.
- Members of the Board of Directors are independent of management.
- The Board of Directors meets quarterly to provide oversight and guidance to Verkada management, including organizational, internal control, and information security risk management strategies.
- The Security and Privacy Governance Committee meets on a regular basis to review compliance with security and privacy practices and privacy regulations. The Committee members have sufficient expertise to oversee management's ability to design, implement, and operate information security controls.

Roles and Responsibilities

- Management has established defined roles and responsibilities to oversee implementation of information security policies across the organization.
- Verkada positions have detailed job descriptions that list qualifications, such as requisite skills and experience, which candidates must meet in order to be hired by Verkada.

Hiring and Onboarding

- Verkada's new hires are required to go through an official recruiting process during which their qualifications and experience are screened to ensure that they are competent and capable of fulfilling their specific job responsibilities.
- Verkada new hires are required to pass a background check as a condition of their employment.
- Verkada's Employee Handbook includes a formal Code of Conduct which is approved by management and accessible to all employees. Employees must sign the Employee Handbook upon hire.
- Verkada has policies and procedures in place to establish acceptable use of information assets approved by management. Employees must sign the Acceptable Use Policy upon hire.

Employee Training and Development

- Verkada has established training programs for information security to help employees understand their obligations and responsibilities to comply with Verkada's security policies and procedures, including the identification and reporting of incidents. Full-time employees are required to complete the training upon hire and annually thereafter.
- Verkada evaluates the performance of employees through annual performance evaluations.

Driven Security
adam@drivensecurity.com

Generated by Pima.app April 28, 2025 · 08:33 AM PDT

Communication and Information

Policies and Procedures

- Verkada Management has approved security policies, and all employees accept these procedures when hired.
- Verkada has a defined Information Security Policy that covers policies and procedures to support the functioning of internal control.
- Verkada has an established policy and procedures that govern the use of cryptographic controls.

Internal Communications

- Verkada provides a process to employees for reporting security, confidentiality, integrity, and availability features, incidents, and concerns, along with any other complaints to the company management.
- The Security team communicates important information security events to company management in a timely manner.
- Verkada maintains an accurate architecture diagram to document system boundaries to support the functioning of internal control.

External Communications

- Verkada maintains an End User Agreement that is available to all external users and that details the company's security commitments regarding the systems. External users must accept the End User Agreement prior to their account being created on Verkada's Command Platform.
- Verkada communicates system changes to customers that may affect security and availability.
- Verkada provides a process to customers and external users for reporting security failures, incidents, and concerns.

Risk Assessment

- Verkada has defined a formal risk management process that specifies risk tolerances and the process for evaluating risks based on identified threats and the specified tolerances.
- Verkada conducts a formal risk assessment which is reviewed at least annually.
- Verkada's Management prepares a remediation plan to formally manage the resolution of findings identified in risk assessment activities.

Monitoring Activities

Internal Control Monitoring

- Verkada has an assigned Security team that is responsible for the design, implementation, management, and review of the organization's security policies, standards, baselines, procedures, and guidelines.
- Verkada uses a cloud-based system and control monitoring tool to help monitor control activities and ensure internal controls are operating as anticipated. The Security Engineering Team meets on a weekly basis to review failing controls presented in the monitoring tools' dashboard.
- Verkada performs control self-assessments at least annually to gain assurance that security controls are in place and operating effectively. Corrective actions are taken based on relevant findings.

Driven Security
adam@drivenlocks.com

Generated by Pima.app April 28, 2025 · 08:33 AM PDT

Penetration Testing and 3rd Party Assessments

- Verkada engages with a third-party to conduct penetration tests of the production environment at least annually. Results are reviewed by management and critical and high-priority findings are tracked to resolution.
- Verkada engages with a third-party to conduct vulnerability scans of the production environment at least quarterly. Results are reviewed by management and critical and high-priority findings are tracked to resolution.

Logical Access Controls

User Access Management

- Verkada uses role-based access through Okta to provision access to AWS, Backblaze, GitHub, Argo CD, the Command Platform, Cloudflare, and Twilio.
- Verkada uses role-based access to manage user access to AWS, Backblaze, GitHub, Argo CD, the Command Platform, Cloudflare, and Twilio which enables Verkada to restrict access to authorized personnel based on job titles.
- Verkada restricts administrative access to AWS, Backblaze, GitHub, the Command Platform, Cloudflare, and Twilio to authorized personnel based on job requirements.
- Verkada enforces minimum password length, password complexity, and multi-factor authentication (MFA) for user login AWS, Backblaze, GitHub, Argo CD, the Command Platform, Cloudflare, and Twilio.
- Verkada's Command Platform user passwords are stored using a salted password hash.
- System access is removed from terminated employees within one business day. Employee devices are locked as part of the offboarding process.
- Verkada performs user access control reviews for AWS, Backblaze, GitHub, Argo CD, and the Command Platform annually, at minimum.

Data Storage and Encryption

- Read/write access to S3 buckets and Backblaze is configured to restrict public access.
- Data stored in S3 buckets, RDS databases, and Backblaze databases is encrypted at rest.

Data Retention and Disposal

- Verkada has a Data Deletion Policy to help guide the deletion of customer data.

Perimeter Security

- Verkada configures security groups and load balancers to restrict access to production environment resources to authorized traffic.
- Verkada configures network access control lists (NACLs) at the subnet level to help restrict access to authorized traffic.
- An intrusion detection system (IDS) is in place to detect potential intrusions and alert personnel when a potential intrusion is detected.

Transmission of Information

- Verkada enforces secure and encrypted connections when accessing production and staging resources.
- Verkada ensures that all connections to its web application from its users are encrypted.
- Verkada enforces secure transmission of information when sending data to the cloud storage provider.

Driven Security
adam@drivenlocks.com

Generated by Pima.app April 28, 2025 · 08:33 AM PDT

Workstation Security

- MDM systems are in place to centrally manage mobile devices supporting the service.
- Verkada ensures that all company-issued computers use a screensaver lock with a timeout of no more than 15 minutes.
- Verkada ensures that company-issued laptops have encrypted hard-disks.
- Verkada's workstation operating system security patches are applied automatically.
- Verkada requires antivirus software to be installed on workstations to protect the network against malware.

System Operations

Security Monitoring

- Verkada has enabled infrastructure logs throughout their production environment. Infrastructure logs are stored encrypted, log file validation is enabled, and access to infrastructure logs is restricted to those who require access to perform their job duties.
- Verkada has configured SIEM tools that collect and store server logs in a central location. Access to the logs stored in the SIEM tools is restricted to authorized users.
- Verkada has configured its SIEM tools to send alerts to the business communications channel to alert the appropriate teams when anomalous system events occur. The SIEM tools are also configured to automatically create a ticket in their issue and project tracking software when critical and high-severity events occur, where the events are logged and tracked through resolution.
- Verkada ensures that file integrity monitoring (FIM) software is in place to detect whether operating system and application software files have been tampered with.

Performance Monitoring

- Verkada has configured a cloud observability service to monitor their cloud infrastructure for system performance issues. Critical and high-severity alerts are sent to the incident response tool to alert the on-call engineer.

Incident Response

- Verkada has an established Cybersecurity Incident Response Plan that outlines management responsibilities and procedures to ensure a quick, effective, and orderly response to information security incidents.
- Verkada has implemented a Cybersecurity Incident Response Plan that includes steps for creating, prioritizing, assigning, and tracking follow-ups to completion.
- Security incidents are logged, tracked, resolved, and communicated to affected parties by management according to Verkada's security incident response policies and procedures. All security incidents are evaluated to determine whether they could have resulted in a failure to meet security commitments and objectives.
- Verkada has implemented a Cybersecurity Incident Response Plan that includes documenting "Lessons Learned" and "Root Cause Analysis" after P0 security incidents and sharing them with the broader engineering team.
- Verkada has identified an incident response team that quantifies and monitors incidents involving security, availability, processing integrity, and confidentiality at the company.
- Verkada ensures that incident response plan testing is performed on an annual basis.

Driven Security

Change Management

- Verkada has developed policies and procedures governing the system development life cycle, including documented policies for tracking, testing, approving, and validating changes.
- Separate environments are used for testing and production for Verkada's application.
- Verkada's customer data is segregated from the data of other customers.
- Verkada uses a version control system to manage source code, documentation, release labeling, and other change management tasks.
- Verkada ensures that code changes are tested prior to implementation to ensure quality and security.
- Verkada systematically requires code changes to undergo code reviews and tests prior to merging to the master branch by someone other than the person who made the code change.
- Verkada ensures that releases are approved by code owners prior to merging into the master branch.
- Verkada restricts deployment permissions to engineers through role-based access.
- Hardening standards are in place to ensure that newly deployed server instances are appropriately secured.
- Verkada monitors host operating systems and container images for vulnerabilities and for services running on container images that are older than 14 days. Tickets are automatically created for identified vulnerabilities and for services requiring redeployment because the container images are older than 14 days.

Risk Mitigation

Data Backup and Restoration

- Verkada performs database backups daily and retains them in accordance with a predefined schedule in the Backup Policy.

Disaster Recovery and Business Continuity

- Verkada has an established Disaster Recovery Plan that outlines roles and responsibilities and detailed procedures for recovery of systems.
- Verkada conducts annual disaster recovery tests and documents results according to the Disaster Recovery Plan.
- Verkada maintains cybersecurity insurance to mitigate the financial impact of business disruptions.

Vendor Management

- Verkada has a Vendor Risk and Compliance Management Policy to help define and assess vendor risk, implement controls to mitigate vendor-related risks, and manage vendor relationships.
- Verkada maintains a directory of its key vendors, including their compliance reports. High-risk vendor compliance reports are reviewed annually.
- Verkada maintains a directory of its key vendors, including its agreements that specify terms, conditions and responsibilities.

Complementary Subservice Organization Controls

Verkada's controls related to the Command Platform system cover only a portion of the overall control environment required to provide reasonable assurance that the service commitments and system requirements were achieved. It is not feasible that the service commitments and system requirements can be achieved solely by Verkada's controls. The complementary subservice organization controls in the table below are expected to be implemented and operating effectively:

Number	Complementary Subservice Organization Control ("CSOC")	Applicable Criteria
AWS		
1.	The entity implements logical access security software, infrastructure, and architectures over protected information assets to protect them from security events to meet the entity's objectives.	CC6.1, CC6.3
2.	The entity restricts physical access to facilities and protected information assets (for example, data center facilities, back-up media storage, and other sensitive locations) to authorized personnel to meet the entity's objectives.	CC6.4
3.	Production media is securely decommissioned and physically destroyed prior to being removed from the data center.	CC6.5
4.	The entity identifies, selects, and develops risk mitigation activities for risks arising from potential business disruptions.	CC3.2, CC3.4, CC9.1
5.	The entity authorizes, designs, develops or acquires, implements, operates, approves, maintains, and monitors environmental protections, software, data back-up processes, and recovery infrastructure to meet its objectives.	CC7.5, CC9.1
6.	The entity designs and maintains system infrastructure for high availability and tests recovery plan procedures supporting system recovery to meet its objectives.	CC6.7, CC,9.1
7.	The entity restricts access to data and software to personnel authorized and provisioned with logical security controls.	CC6.1, CC6.2, CC6.3
8.	The entity designs, develops, and maintains software to transmit confidential data securely, and ensures that connections over public networks between trusted parties are encrypted.	CC6.7
9.	The entity practices secure software change and development procedures to help prevent against vulnerabilities.	CC8.1
10.	The entity designs, maintains and monitors the security of operating systems supporting managed compute and data storage services.	CC6.8, CC7.1, CC7.2, CC7.3
11.	The entity encrypts and backs up DynamoDB databases where customer data resides.	CC6.1, CC6.6, CC9.1

Complementary User Entity Controls

Verkada's controls related to the Command Platform system cover only a portion of the overall control environment required to provide reasonable assurance that the service commitments and system requirements were achieved. It is not feasible that the service commitments and system requirements can be achieved solely by Verkada's controls. The complementary user entity controls in the table below are expected to be implemented and operating effectively:

Number	Complementary User Entity Control	Applicable Criteria
1.	Reporting issues or security concerns related to the Command Platform system to Verkada Inc. in a timely manner.	CC2.3, CC3.3

User Entity Responsibilities

Verkada's system is designed with the assumption that certain responsibilities fall to the user of the system. The control responsibilities listed below are the responsibility of the users of the system. These controls are expected to be in operation at the user entities to complement Verkada's controls. User entities are responsible for their own control environments and their operational effectiveness. The list of controls below should not be a comprehensive list of all control activities that should be implemented by user entities.

Number	User Entity Responsibility
1.	Cooperating with Verkada in establishing account credentials for verifying that only designated employees have access to administrative functions of the Command Platform system.
2.	Protecting the security of customer account credentials for access to Verkada systems that store or process confidential data.
3.	Performing periodic reviews of user access to customer's account.
4.	Complying with applicable contracts and Verkada's terms of service, including the use of reasonable efforts to prevent unauthorized access to or use of the Platform, and immediate notification to Verkada of unauthorized access and use of the Command Platform system.
5.	Transmitting documents containing sensitive information via encrypted data connections approved by Verkada .

IV. Trust Services Categories, Criteria, Related Controls, Tests of Controls, and Results of Tests

Driven Security
adam@drivenlocks.com

Information Provided by the Service Auditor

This report is intended to provide information to the management of Verkada , user entities of the Verkada's Command Platform system, and prospective user entities, independent auditors and practitioners providing services to those entities, who have a sufficient understanding to consider it, along with other information including information about the controls implemented by the user entity. This report is intended to provide information about the suitability of the design and operating effectiveness of the controls implemented to achieve the service commitments and system requirements based on the criteria relevant to Security (applicable trust services criteria) set forth in *TSP 100, 2017 Trust Services Criteria for Security, Availability, Processing Integrity, Confidentiality, and Privacy* (AICPA, *Trust Services Criteria*), throughout the period April 1, 2024 to September 30, 2024 .

Although the applicable trust services criteria and related controls are presented in this section, they are an integral part of Verkada's description of its Command Platform system throughout the period April 1, 2024 to September 30, 2024 .

The examination was performed in accordance with attestation standards established by the American Institute of Certified Public Accountants, specifically AT-C sections 105 and 205 and the guidance contained in the AICPA Guide *Reporting on Controls at a Service Organization Relevant to Security, Availability, Processing Integrity, Confidentiality, or Privacy*. It is each user entity's responsibility to evaluate this information in relation to the internal control structure in place at each user entity in order to assess the total internal control structure. If an effective internal control structure is not in place at user entities, Verkada's controls may not compensate for such weaknesses.

This description is intended to focus on Verkada's controls surrounding the Command Platform system throughout the period April 1, 2024 to September 30, 2024; it does not encompass all aspects of the services provided or controls performed by Verkada . Unique processes or control situations not described in the report are outside the scope of this report.

Tests of Controls

Our examination of the description of Verkada's Command Platform system and the suitability of the design and operating effectiveness of the controls to achieve the related service commitments and system requirements based on the services criteria stated in the description involved performing procedures to obtain evidence about the presentation of the description of the system in accordance with the description criteria and the suitability of the design and operating effectiveness of those controls to achieve the related service commitments and system requirements based on the services criteria stated in the description. Our procedures included assessing the risks that the description is not presented in accordance with the description criteria and that the controls were not suitably designed or operating effectively to achieve the related service commitments and system requirements based on the services stated in the description.

Our procedures also included testing the operating effectiveness of those controls that we consider necessary to provide reasonable assurance that the related service commitments and system requirements based on the applicable trust services criteria stated in the description were achieved throughout the period April 1, 2024 to September 30, 2024.

Our tests of controls were designed to cover a representative number of activities throughout the April 1, 2024 to September 30, 2024, for each of the controls listed in Section IV, which are designed to achieve the related service commitments and system requirements based on the

Driven Security
atlanta@drivensecurity.com

Generated by Pima.app April 28, 2025 · 08:33 AM PDT

applicable trust services criteria. In selecting particular tests of controls, we considered: (a) the nature of the controls being tested, (b) the types and competence of available evidential matter, (c) the criteria to be achieved, (d) the assessed level of control risk, and (e) the expected efficiency and effectiveness of the test.

Geels Norton LLC's testing of controls was restricted to the controls specified by Verkada in Section IV, and was not extended to controls in effect at user locations or other controls which were not documented as tested under each control criteria listed in Section IV. The description of Geels Norton LLC's tests of controls and results of those tests are presented in this section of the report. The description of the tests of controls and the results of those tests are the responsibility of Geels Norton LLC and should be considered information provided by Geels Norton LLC.

CC1.0 - Common Criteria Related to the Control Environment

CC1.1 - The entity demonstrates a commitment to integrity and ethical values.

Control Number	Description of Control	Description of Test	Result of Testing
CC1.1.1	Members of the Board of Directors are independent of management.	Inspected the list of Board of Directors to determine that members of the Board of Directors are independent of management.	No exceptions noted.
CC1.1.2	The Security and Privacy Governance Committee meets on a regular basis to review compliance with security and privacy practices and privacy regulations. The Committee members have sufficient expertise to oversee management's ability to design, implement, and operate information security controls.	Inspected the Security and Privacy Committee Charter to determine that the Committee members have sufficient expertise to oversee management's ability to design, implement and operate information security controls. Inspected the meeting agenda and related action items from a Security and Privacy Governance Committee meeting during the examination period to determine that the Security and Privacy Governance Committee meets on a regular basis to review compliance with security and privacy practices and privacy regulations.	No exceptions noted.
CC1.1.3	Verkada new hires are required to pass a background check as a condition of their employment.	Inspected the background checks for a selection of US-based new employees to determine that Verkada new hires are required to pass a background check as a condition of their employment.	No exceptions noted.

CC2.3 - The entity communicates with external parties regarding matters affecting the functioning of internal control.

Control Number	Description of Control	Description of Test	Result of Testing
CC2.3.1	Verkada maintains an End User Agreement that is available to all external users and that details the company's security commitments regarding the systems. External users must accept the End User Agreement prior to their account being created on Verkada's Command Platform.	Inspected the End User Agreement on Verkada's website to determine that Verkada maintains an End User Agreement that is available to all external users and details the company's security commitments. Inspected the Verkada Command Platform profile creation page and login page to determine that external users must accept the End User Agreement prior to their account being created.	No exceptions noted.
CC2.3.2	Verkada provides a process to customers and external users for reporting security failures, incidents, and concerns.	Inspected Verkada's vulnerability reporting form and vulnerability dashboard to determine that Verkada provides a process to customers and external users for reporting security failures, incidents, and concerns.	No exceptions noted.
CC2.3.3	Verkada communicates system changes to customers that may affect security and availability.	Inspected the Verkada product updates and status pages to determine that Verkada communicates system changes to customers that may affect security and availability.	No exceptions noted.
CC2.3.4	Verkada maintains a directory of its key vendors, including its agreements that specify terms, conditions and responsibilities.	Inspected Verkada's vendor directory and the terms of service for a selection of high-risk vendors to determine that Verkada maintains a directory of its key vendors, including its agreements that specify terms, conditions and responsibilities.	No exceptions noted.

CC3.0 - Common Criteria Related to Risk Assessment

CC3.1 - The entity specifies objectives with sufficient clarity to enable the identification and assessment of risks relating to objectives.

Control Number	Description of Control	Description of Test	Result of Testing
CC3.1.1	Verkada has defined a formal risk management process that specifies risk tolerances and the process for evaluating risks based on identified threats and the specified tolerances.	Inspected the Risk Management Policy to determine that Verkada has defined a formal risk management process that specifies risk tolerances and the process for evaluating risks based on identified threats and the specified tolerances.	No exceptions noted.
CC3.1.2	Verkada conducts a formal risk assessment which is reviewed at least annually.	Inspected the annual risk assessment and the Security and Privacy Committee meeting minutes to determine that Verkada conducts a formal risk assessment which is reviewed at least annually.	No exceptions noted.
CC3.1.3	Management has established defined roles and responsibilities to oversee implementation of information security policies across the organization.	Inspected the Information Security Policy to determine that management has established defined roles and responsibilities to oversee implementation of information security policies across the organization.	No exceptions noted.
CC3.1.4	Verkada has an assigned Security team that is responsible for the design, implementation, management, and review of the organization's security policies, standards, baselines, procedures, and guidelines.	Inspected the Security and Privacy Governance Committee Charter, the meeting agenda from a Committee meeting during the examination period, and Committee action items to determine that Verkada has an assigned Security team that is responsible for the design, implementation, management, and review of the organization's security policies, standards, baselines, procedures, and guidelines.	No exceptions noted.

CC6.2 - Prior to issuing system credentials and granting system access, the entity registers and authorizes new internal and external users whose access is administered by the entity. For those users whose access is administered by the entity, user system credentials are removed when user access is no longer authorized.

Control Number	Description of Control	Description of Test	Result of Testing
CC6.2.1	Verkada uses role-based access through Okta to provision access to AWS, Backblaze, GitHub, Argo CD, the Command Platform, Cloudflare, and Twilio.	Inspected Okta and role-based permissions configured configuration files to determine that Verkada uses role-based access through Okta to provision access to AWS, Backblaze, GitHub, Argo CD, the Command Platform, Cloudflare, and Twilio.	No exceptions noted.
CC6.2.2	Verkada performs user access control reviews for AWS, Backblaze, GitHub, Argo CD, and the Command Platform annually, at minimum.	Inspected the completed annual user access control review ticket to determine that Verkada performs user access control reviews for AWS, Backblaze, GitHub, Argo CD, and the Command Platform annually, at minimum.	No exceptions noted.
CC6.2.3	System access is removed from terminated employees within one business day. Employee devices are locked as part of the offboarding process.	Inspected the offboarding ticket and access removal configuration for a selection of terminated employees to determine that system access is removed from terminated employees within one business day and that employee devices are locked as part of the offboarding process.	No exceptions noted.

CC7.5 - The entity identifies, develops, and implements activities to recover from identified security incidents.

Control Number	Description of Control	Description of Test	Result of Testing
CC7.5.1	Verkada has implemented a Cybersecurity Incident Response Plan that includes steps for creating, prioritizing, assigning, and tracking follow-ups to completion.	Inspected the Cybersecurity Incident Response Plan and the ticket for the security incident during the examination period to determine that Verkada has implemented a Cybersecurity Incident Response Plan that includes steps for creating, prioritizing, assigning, and tracking follow-ups to completion.	No exceptions noted.
CC7.5.2	Verkada has an established Cybersecurity Incident Response Plan that outlines management responsibilities and procedures to ensure a quick, effective, and orderly response to information security incidents.	Inspected the Cybersecurity Incident Response Plan to determine that Verkada has an established Cybersecurity Incident Response Policy that outlines management responsibilities and procedures to ensure a quick, effective, and orderly response to information security incidents.	No exceptions noted.
CC7.5.3	Verkada has identified an incident response team that quantifies and monitors incidents involving security, availability, processing integrity, and confidentiality at the company.	Inspected the Cybersecurity Incident Response Plan to determine that Verkada has identified an incident response team that quantifies and monitors incidents involving security, availability, processing integrity, and confidentiality at the company.	No exceptions noted.
CC7.5.4	Verkada ensures that incident response plan testing is performed on an annual basis.	Inspected the Verkada Incident Response Tabletop Exercise slides and the calendar meeting invitation supporting Verkada's most recent incident response tabletop exercise to determine that Verkada performs incident response plan testing annually.	No exceptions noted.

Control Number	Description of Control	Description of Test	Result of Testing
CC7.5.5	Verkada has implemented a Cybersecurity Incident Response Plan that includes documenting "Lessons Learned" and "Root Cause Analysis" after P0 security incidents and sharing them with the broader engineering team.	Inspected the Cybersecurity Incident Response Plan to determine that Verkada has implemented an incident response policy that includes documenting "Lessons Learned" and "Root Cause Analysis after P0 security incidents and sharing them with the broader engineering team. Inspected the list of security incidents identified during the examination period to determine that there were no P0 incidents.	No exceptions noted. The circumstances that warrant the operation of this control, as it relates to performing a root cause analysis and reviewing lessons learned for P0 security incidents, did not occur during the examination period and, as a result, the operating effectiveness of this control could not be tested.
CC7.5.6	Verkada has an established Disaster Recovery Plan that outlines roles and responsibilities and detailed procedures for recovery of systems.	Inspected the Disaster Recovery Plan to determine that Verkada has an established Disaster Recovery Plan that outlines roles and responsibilities and detailed procedures for recovery of systems.	No exceptions noted.
CC7.5.7	Verkada performs database backups daily and retains them in accordance with a predefined schedule in the Backup Policy.	Inspected the Information Security Policy and database backup configurations to determine that Verkada performs database backups daily and retains them in accordance with a predefined schedule in the Backup Policy.	No exceptions noted.
CC7.5.8	Verkada conducts annual disaster recovery tests and documents results according to the Disaster Recovery Plan.	Inspected the Disaster Recovery Plan and tabletop test results from the most recent annual disaster recovery test to determine that Verkada conducts annual disaster recovery tests and documents results according to the Disaster Recovery Plan.	No exceptions noted.

CC8.0 - Common Criteria Related to Change Management

CC8.1 - The entity authorizes, designs, develops or acquires, configures, documents, tests, approves, and implements changes to infrastructure, data, software, and procedures to meet its objectives.

Control Number	Description of Control	Description of Test	Result of Testing
CC8.1.1	Verkada has developed policies and procedures governing the system development life cycle, including documented policies for tracking, testing, approving, and validating changes.	Inspected the Change Management Standard and Software Security Standard to determine that Verkada has developed policies and procedures governing the system development life cycle, including documented policies for tracking, testing, approving, and validating changes.	No exceptions noted.
CC8.1.2	Separate environments are used for testing and production for Verkada's application.	Inspected Verkada's logically separated AWS accounts to determine that separate environments are used for testing and production for Verkada's application	No exceptions noted.
CC8.1.3	Verkada uses a version control system to manage source code, documentation, release labeling, and other change management tasks.	Inspected the version control system to determine that Verkada uses a version control system to manage source code, documentation, release labeling, and other change management tasks.	No exceptions noted.

Management's Responses to Control Exceptions

Control Number	Controls Specified by Verkada, Inc.	Results of Tests	Management Response
CC3.2.4, CC4.1.3, CC6.4.3, CC9.2.3	Verkada maintains a directory of its key vendors, including their compliance reports. High-risk vendor compliance reports are reviewed annually.	For three out of seven high-risk vendors selected for testing, the review of compliance reports was not documented. For four out of seven high-risk vendors selected for testing, the review of compliance reports was not complete and accurate.	To address these findings, we have updated the standardized vendor security review procedure to include specific documentation of report details, impact assessments, control validation, and vendor review record keeping. All high-risk vendors identified in the audit have since been reviewed according to this updated procedure.

Verkada

How Verkada Supports HIPAA Compliance

Background

In 1996, the Health Insurance Portability and Accountability Act (HIPAA) was enacted to protect the use and disclosure of medical records and other individually identifiable health information. It established national standards for the protection of sensitive health records. These protections were later extended to electronic health records in 2009 through the passage of the Health Information Technology for Economic and Clinical Health (HITECH) Act.

Who must comply with HIPAA?

The Department of Health and Human Services stipulates that HIPAA must be followed by all "covered entities" including:

- Healthcare Providers (including hospitals, medical centers, clinics, physicians, pharmacies and nursing homes)
- Health Plans (including company health insurers, health plans, health maintenance organizations (HMOs) and government programs that pay for healthcare)
- Healthcare Clearinghouses

and their vendors who process PHI on their behalf, also known as "business associates."

How is HIPAA enforced?

HIPAA is enforced primarily by The Department of Health and Human Services-Office for Civil Rights (OCR). The HITECH Act extends similar investigative authority to the State Attorneys General. Upon receiving a complaint or report of a security breach, the OCR begins conducting an investigation or general audit depending on the severity and specificity of the violation. Serious cases of non-compliance can result in substantial fines and penalties (in excess of 1.5 million per year) and potential criminal charges.

Title II – The Administrative Simplification Provisions

Title II of HIPAA codifies rules for maintaining the security and privacy of individually identifiable health information. These provisions, known as the Administrative Simplification rules, require the Department of Health and Human Services (HHS) to establish specific standards for the protection and use of healthcare information. Accordingly, the HHS created a number of rules that have become the basis for what most refer to as HIPAA compliance.

The Privacy Rule

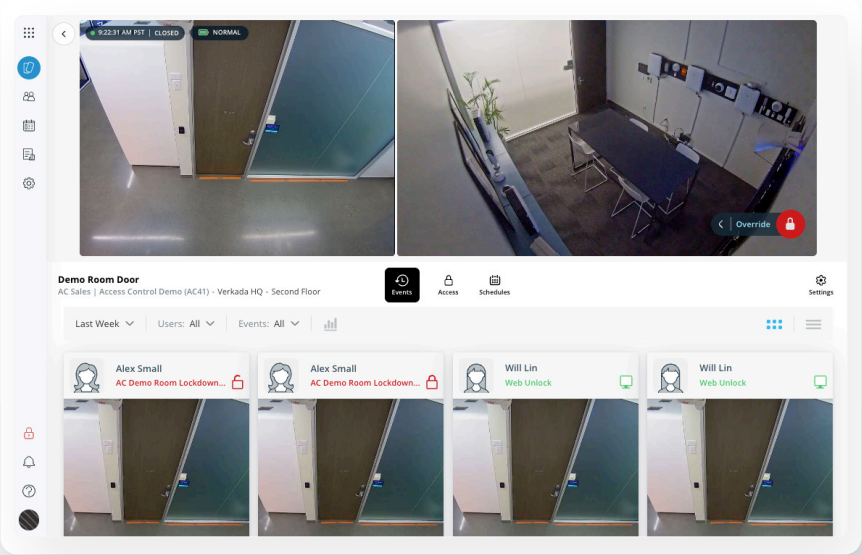
Since the adoption of HIPAA, the HHS has established a number of regulations for the access and disclosure of medical records and other individually identifiable health information, referred to as protected health information (PHI). These regulations are collectively known as "the Privacy Rule."

In limited circumstances, video surveillance footage can be considered PHI if it can be used to *directly identify* an individual and their treatment. This could include footage from a patient's room or from another treatment area such as an operating room. However, footage of common areas such as entrance ways, waiting rooms, or storage closets is not considered PHI and can be shared or stored with fewer restrictions.

For more guidance see www.hhs.gov/hipaa/for-professionals/security/guidance/index.html

The Security Rule

In order to protect and ensure the privacy afforded to patients by the Privacy Rule, HHS published Security Standards for the Protection of Electronic Protected Health Information (e-PHI), also referred to as "the Security Rule." As the title implies, the Security Rule extends protections of the Privacy Rule to records that are stored and transferred electronically rather than physically.



Specifically, covered entities and their business associates must:

- Ensure the confidentiality, integrity and availability of all e-PHI they create, receive, maintain or transmit
- Identify and protect against reasonably anticipated threats to the security or integrity of the information
- Protect against reasonably anticipated, impermissible uses or disclosures
- Ensure compliance by their workforce

HIPAA Administrative Safeguards	How Verkada Helps
Security management process **[45 C.F.R. § 164.306(e)]** A covered entity must identify and analyze potential risks to e-PHI and it must implement security measures that reduce risks and vulnerabilities to a reasonable and appropriate level.	Verkada Surveillance and Access Control systems can be used to actively monitor secure sites where e-PHI is accessed or stored. Verkada performs regular security audits of its storage and transfer of data, including e-PHI. Read more about Verkada Security at www.verkada.com/security
Information Access Management **[45 C.F.R. § 164.308(a)(4)(i)]** Consistent with the Privacy Rule standard limiting uses and disclosures of PHI to the "minimum necessary," the Security Rule requires a covered entity to implement policies and procedures for authorizing access to e-PHI only when such access is appropriate based on the user or recipient's role (role-based access)	Verkada Command features Role Based Access Control (RBAC), allowing for least privileged access permissions granted on the individual and organizational level.
Information Access Management **[45 C.F.R. § 164.308(a)(4)(i)]** A covered entity must provide for appropriate authorization and supervision of workforce members who work with e-PHI. A covered entity must train all workforce members regarding its security policies and procedures and must have and apply appropriate sanctions against workforce members who violate its policies and procedures.	Verkada systems are simple to set up and operate, making user training easy to perform.

Physical Safeguards

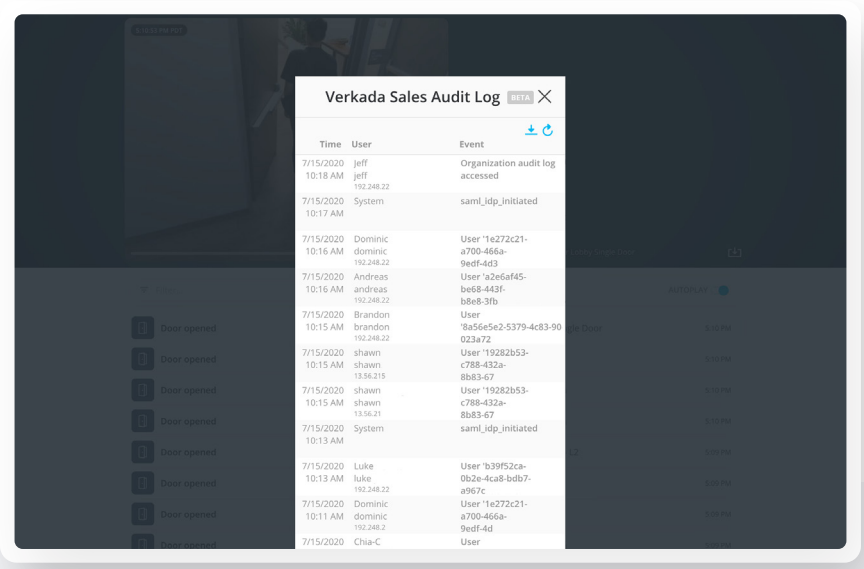
Facility Access and Control

[45 C.F.R. § 164.310(a)]

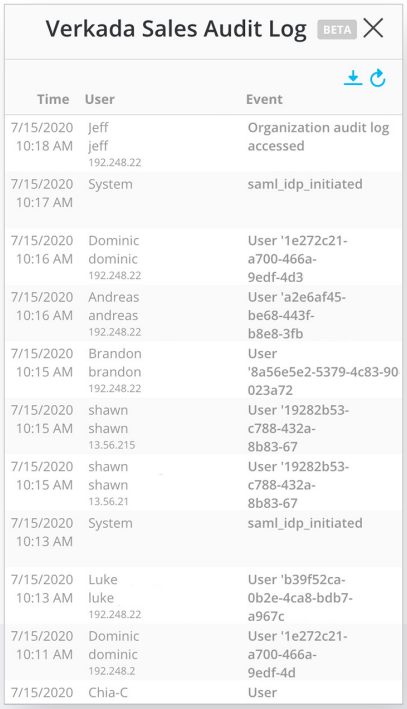
A covered entity must identify and analyze potential risks to e-PHI and it must implement security measures that reduce risks and vulnerabilities to a reasonable and appropriate level.

How Verkada Helps

Verkada Cameras and Access Control can be installed in key locations, such as workstations, to actively monitor how they're being used.



Workstation and Device Security



[45 C.F.R. § 164.308(a)(2)]

A covered entity must implement policies and procedures to specify proper use of and access to workstations and electronic media. A covered entity also must have in place policies and procedures regarding the transfer, removal, disposal and re-use of electronic media, to ensure appropriate protection of electronic protected health information (e-PHI).

Verkada Access Control makes it easy to assign physical access to only the right parties. Tiered, role-based permissions simplify the process of giving new users the correct level of access.

Technical Safeguards

Access Control

[45 C.F.R. § 164.312(a)]

A covered entity must implement technical policies and procedures that allow only authorized persons to access electronic protected health information (e-PHI).

How Verkada Helps

Verkada Access Control includes a tiered role-based model to help ensure only authorized persons access e-PHI. Verkada also integrates with the most trusted Single Sign-On identity providers in the industry. Traditional Multi-Factor Authentication is available to enhance access controls.

Audit Controls

[45 C.F.R. § 164.308(a)(2)]

A covered entity must implement hardware, software, and/or procedural mechanisms to record and examine access and other activity in information systems that contain or use e-PHI.

Verkada Command features comprehensive audit logs that record the identity of anyone who has accessed the system and any changes that they have made.

Integrity Controls

[45 C.F.R. § 164.312(c)]

A covered entity must implement policies and procedures to ensure that e-PHI is not improperly altered or destroyed. Electronic measures must be put in place to con rm that e-PHI has not been improperly altered or destroyed.

Verkada data is stored redundantly across multiple local AWS servers. In the unlikely event that one data center is compromised or disabled, e-PHI will be preserved in other in-region data centers.

Transmission Security
[45 C.F.R. § 164.312(E)]

A covered entity must implement technical security measures that guard against unauthorized access to e-PHI that is being transmitted over an electronic network

How Verkada Helps

All Verkada data is encrypted in transit using the AES 128 and TLS v1.2 algorithms, whether footage is being sent to the cloud or accessed by a mobile device.

Verkada is Trusted by Over 250 Healthcare Organizations

Verkada ISMS Statement of Applicability 1.0

The Statement of Applicability (SOA) links Verkada's risk assessment and treatment with the implementation of the ISMS. It provides the company with an overview of what needs to be done in information security, why, and how.

The SOA will list all Annex A controls that are applicable and those that are not. Each control decision will have a justification as to whether they were implemented, why and where (see below).

ISO 27001

To Whom It May Concern,

This letter attests that Anvil Secure, hereby referred to as Anvil, performed a web application penetration test against the Verkada Command web application and its backend APIs. Two Anvil security engineers performed testing and reporting tasks across (15) days from April 9 to 18, 2024.

Prior to conducting the assessment, a kick-off call was scheduled with Verkada to confirm the target scope, as well as discuss testing requirements and dependencies that might be needed to successfully complete the test. The main focus was mutually agreed to be on the new features introduced since the latest application assessment, which were the following: Web Authentication, PassKey Management, Partner Tools, Temporary Users, Incident Management, and Session Management. The Verkada Command web application and APIs were also tested as a whole, but in a time-boxed manner focusing only on likely attack vectors and entry points. The primary objective of this assessment was to identify potential threats in Verkada Command, which could translate to risks that would affect the confidentiality, integrity and availability of the application itself and the customer data it holds.

Anvil performed both manual and automated testing against the targets using a white-box approach. The code of every component was provided to Anvil by Verkada, and was used to validate assumptions about server-side behavior for the different components. Credentials were also provided for accessing a Verkada Command environment with test devices already set up, to ensure better coverage.

As a result, a total of nine (9) findings were identified, including one (1) high-severity, six (6) low-severity, and two (2) informational-severity findings. A remediation test was conducted by an Anvil security engineer between June 26 and June 27, 2024. Of the one (1) high-severity and six (6) low-severity findings, all six (6) low-severity findings were fully remediated, and the high-severity finding was partially remediated.

It is noted that the original high-severity finding has been downgraded to medium-severity, as the majority of targets have been addressed. Verkada has an ongoing project to address the remaining targets. In addition, one of the original informational-severity findings was tied to a few outdated JavaScript dependencies that were identified, which have mostly been addressed by Verkada. There is also an ongoing program to address these issues more proactively in the future.

Mr. Kevin Jones
Johnson Controls Criminal Justice Operations
1281 Newell Parkway
Montgomery, AL 36110

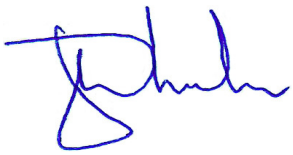
Dear Mr. Jones:

Please accept this letter as recognition of Johnson Controls Criminal Justice Operations' nearly 20 years of experience programming, installing, and supporting Omron Automation products (PLC's, relays, etc.) and Omron-InduSoft HMI products in the Security & Detention industry. This letter may serve as a validation of your current status as an Omron-InduSoft Certified System Integrator.

Thank you for your continued support and valuable expertise in applying our products in the detention industry.

Sincerely,

Sam Mader
Strategic Account Manager - Security and Detention Industry
Omron Electronics, LLC
(608) 286-5657



June 18th, 2020

To Whom It May Concern:

Please accept by this letter that Johnson Controls, USA (JCI) is an authorized dealer of Harding Instruments' MicroComm DXI and DXL digital intercom systems, and is fully qualified to design, install, and support these systems.

Any questions or concerns regarding the above may be addressed to the undersigned.

Sincerely,

Joseph Wheeler, P. Eng.

President

EMPLOYMENT ELIGIBILITY VERIFICATION (E-VERIFY) CERTIFICATION
(Florida Statutes, Section 448.095)

PROJECT NAME: **Polk County South & Central County Jail Security Upgrades**

The undersigned, as an authorized officer of the contractor identified below (the "**Contractor**"), having full knowledge of the statements contained herein, hereby certifies to Polk County, a political subdivision of the State of Florida (the "**County**"), by and on behalf of the Contractor in accordance with the requirements of Section 448.095, Florida Statutes, as related to the contract entered into by and between the Contractor and the County on or about the date hereof, whereby the Contractor will provide labor, supplies, or services to the County in exchange for salary, wages, or other remuneration (the "**Contract**"), as follows:

1. Unless otherwise defined herein, terms used in this Certification which are defined in Section 448.095, Florida Statutes, as may be amended from time to time, shall have the meaning ascribed in said statute.

2. Pursuant to Section 448.095(5), Florida Statutes, the Contractor, and any subcontractor under the Contract, must register with and use the E-Verify system to verify the work authorization status of all new employees of the Contractor or subcontractor. The Contractor acknowledges and agrees that (i) the County and the Contractor may not enter into the Contract, and the Contractor may not enter into any subcontracts thereunder, unless each party to the Contract, and each party to any subcontracts thereunder, registers with and uses the E-Verify system; and (ii) use of the U.S. Department of Homeland Security's E-Verify System and compliance with all other terms of this Certification and Section 448.095, Fla. Stat., is an express condition of the Contract, and the County may treat a failure to comply as a material breach of the Contract.

3. By entering into the Contract, the Contractor becomes obligated to comply with the provisions of Section 448.095, Fla. Stat., "Employment Eligibility," as amended from time to time. This includes but is not limited to utilization of the E-Verify System to verify the work authorization status of all newly hired employees, and requiring all subcontractors to provide an affidavit attesting that the subcontractor does not employ, contract with, or subcontract with, an unauthorized alien. The Contractor shall maintain a copy of such affidavit for the duration of the Contract. Failure to comply will lead to termination of the Contract, or if a subcontractor knowingly violates the statute or Section 448.09(1), Fla. Stat., the subcontract must be terminated immediately. If the Contract is terminated pursuant to Section 448.095, Fla. Stat., such termination is not a breach of contract and may not be considered as such. Any challenge to termination under this provision must be filed in the Tenth Judicial Circuit Court of Florida no later than 20 calendar days after the date of termination. If the Contract is terminated for a violation of Section 448.095, Fla. Stat., by the Contractor, the Contractor may not be awarded a public contract for a period of 1 year after the date of termination. The Contractor shall be liable for any additional costs incurred by the County as a result of the termination of the Contract. Nothing in this Certification shall be construed to allow intentional discrimination of any class protected by law.

Executed this 28th day of April, 2025.

Drug-Free Workplace Form

(Submittal Page)

The undersigned vendor in accordance with Florida Statue 287.087 hereby certifies that, (Name of the Business): Driven Security LLC does:

1. Publish a statement notifying employees that the unlawful manufacture, distribution, dispensing, possession or use of a controlled substance is prohibited in the workplace and specifying the actions that will be taken against employees for violations of such prohibition.
2. Inform employees about the dangers of drug abuse in the workplace, the business's policy of maintaining a drug-free workplace, any available drug counseling, rehabilitation programs, employee assistance programs and the penalties that may be imposed upon employees for drug abuse violations.
3. Give each employee engaged in providing the commodities or contractual services that are under this RFP a copy of the statement specified in subsection (1).
4. In the statement specified in subsection (1), notify the employees that, as a condition of working on the commodities or contractual services that are under this RFP, the employee will abide by the terms of the statement and will notify the employer of any conviction of, plea of guilty or nolo contendere to, any violation of Chapter 1893 or of any controlled substance law of the United States or any state, for a violation occurring in the workplace no later than five (5) days after such conviction.
5. Impose a sanction on or require the satisfactory participation in a drug abuse assistance or rehabilitation program, if such is available in the employee's community, by any employee who is so convicted.
6. Make a good faith effort to continue to maintain a drug-free workplace through implementation of this section.

As the person authorized to sign the statement, I certify that this firm complies fully with the above requirements.

State of Incorporation: Wisconsin

The Successful vendor must complete and submit this form prior to award. The Successful vendor must invoice using the company name listed above.

Form **W-9**
(Rev. March 2024)
Department of the Treasury
Internal Revenue Service

Request for Taxpayer Identification Number and Certification

Go to *www.irs.gov/FormW9* for instructions and the latest information.

Give form to the requester. Do not send to the IRS.

Before you begin. For guidance related to the purpose of Form W-9, see *Purpose of Form*, below.

Print or type. See ***Specific Instructions*** on page 3.

1 Name of entity/individual. An entry is required. (For a sole proprietor or disregarded entity, enter the owner's name on line 1, and enter the business/disregarded entity's name on line 2.)

JOHNSON CONTROLS US HOLDINGS INC

2 Business name/disregarded entity name, if different from above.

JOHNSON CONTROLS FIRE PROTECTION LP (FEIN 58-2608861, FKA SimplexGrinnell LP)

3a Check the appropriate box for federal tax classification of the entity/individual whose name is entered on line 1. Check only **one** of the following seven boxes.

☐ Individual/sole proprietor ☑ C corporation ☐ S corporation ☐ Partnership ☐ Trust/estate

☐ LLC. Enter the tax classification (C = C corporation, S = S corporation, P = Partnership) . . . . .

Note: Check the "LLC" box above and, in the entry space, enter the appropriate code (C, S, or P) for the tax classification of the LLC, unless it is a disregarded entity. A disregarded entity should instead check the appropriate box for the tax classification of its owner.

☐ Other (see instructions)

3b If on line 3a you checked "Partnership" or "Trust/estate," or checked "LLC" and entered "P" as its tax classification, and you are providing this form to a partnership, trust, or estate in which you have an ownership interest, check this box if you have any foreign partners, owners, or beneficiaries. See instructions . . . . . ☐

4 Exemptions (codes apply only to certain entities, not individuals; see instructions on page 3):

Exempt payee code (if any) **5**

Exemption from Foreign Account Tax Compliance Act (FATCA) reporting code (if any) **E**

(Applies to accounts maintained outside the United States.)

5 Address (number, street, and apt. or suite no.). See instructions.

5757 N Green Bay Ave

6 City, state, and ZIP code

Milwaukee WI 53209

Requester's name and address (optional)

7 List account number(s) here (optional)

Part I Taxpayer Identification Number (TIN)

Enter your TIN in the appropriate box. The TIN provided must match the name given on line 1 to avoid backup withholding. For individuals, this is generally your social security number (SSN). However, for a resident alien, sole proprietor, or disregarded entity, see the instructions for Part I, later. For other entities, it is your employer identification number (EIN). If you do not have a number, see *How to get a TIN*, later.

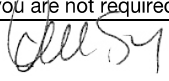
Note: If the account is in more than one name, see the instructions for line 1. See also *What Name and Number To Give the Requester* for guidelines on whose number to enter.

Social security number

			–		–				

or

Employer identification number



8	2	–	4	1	7	6	1	0	7

Part II Certification

Under penalties of perjury, I certify that:

1. The number shown on this form is my correct taxpayer identification number (or I am waiting for a number to be issued to me); and
2. I am not subject to backup withholding because (a) I am exempt from backup withholding, or (b) I have not been notified by the Internal Revenue Service (IRS) that I am subject to backup withholding as a result of a failure to report all interest or dividends, or (c) the IRS has notified me that I am no longer subject to backup withholding; and
3. I am a U.S. citizen or other U.S. person (defined below); and
4. The FATCA code(s) entered on this form (if any) indicating that I am exempt from FATCA reporting is correct.

Certification instructions. You must cross out item 2 above if you have been notified by the IRS that you are currently subject to backup withholding because you have failed to report all interest and dividends on your tax return. For real estate transactions, item 2 does not apply. For mortgage interest paid, acquisition or abandonment of secured property, cancellation of debt, contributions to an individual retirement arrangement (IRA), and, generally, payments other than interest and dividends, you are not required to sign the certification, but you must provide your correct TIN. See the instructions for Part II, later.

General Instructions

Section references are to the Internal Revenue Code unless otherwise noted.

Future developments. For the latest information about developments related to Form W-9 and its instructions, such as legislation enacted after they were published, go to *www.irs.gov/FormW9*.

What's New

Line 3a has been modified to clarify how a disregarded entity completes this line. An LLC that is a disregarded entity should check the appropriate box for the tax classification of its owner. Otherwise, it should check the "LLC" box and enter its appropriate tax classification.

New line 3b has been added to this form. A flow-through entity is required to complete this line to indicate that it has direct or indirect foreign partners, owners, or beneficiaries when it provides the Form W-9 to another flow-through entity in which it has an ownership interest. This change is intended to provide a flow-through entity with information regarding the status of its indirect foreign partners, owners, or beneficiaries, so that it can satisfy any applicable reporting requirements. For example, a partnership that has any indirect foreign partners may be required to complete Schedules K-2 and K-3. See the Partnership Instructions for Schedules K-2 and K-3 (Form 1065).

Purpose of Form

An individual or entity (Form W-9 requester) who is required to file an information return with the IRS is giving you this form because they

Johnson Controls
5757 N. Green Bay Ave.
Milwaukee, WI 53209
www.johnsoncontrols.com

October 14, 2022

Re: Clarification of Johnson Controls Fire Protection LP's W-9

Dear Sir/Madam:

We provide this letter to address any confusion around the W-9 submitted Johnson Controls Fire Protection LP. This is the entity with whom you have contracted, the entity providing products and services to you, and the entity billing you.

However, you may have noticed that the W-9 lists the name of Johnson Controls US Holdings Inc in Line 1. It also lists the FEIN of Johnson Controls US Holdings Inc in Part 1. The reason for this is below.

Johnson Controls Fire Protection LP is a limited partnership that is owned by multiple single-member LLCs that are all disregarded for income tax purposes. As such, the IRS treats Johnson Controls Fire Protection LP as a disregarded entity (in other words, a division of its corporate parent company) for income tax purposes. Because of this, **the IRS requires that we state on ALL W-9 forms the name and FEIN of our corporate parent that actually files the federal tax return.**

The language below is taken directly from the IRS website. As you can see, we are required by IRS rules to provide our corporate parent's FEIN and cannot issue a W-9 with the FEIN of Johnson Controls Fire Protection LP in Part 1. Nor can we list the name Johnson Controls Fire Protection LP in Line 1, despite the fact that this is the legal entity with whom you are dealing.

> **Taxpayer Identification Number**
>
> For federal income tax purposes, a single-member LLC classified as a disregarded entity generally must use the owner's social security number (SSN) or EIN for all information returns and reporting related to income tax. For example, if a disregarded entity LLC that is owned by an individual is required to provide a Form W-9, Request for Taxpayer Identification Number and Certification, the W-9 should provide the owner's SSN or EIN, not the LLC's EIN.

Source: www.irs.gov

Johnson Controls Fire Protection LP is listed on the second line (as directed by the IRS). For cross-reference purposes within your AP systems, we have also listed Johnson Controls Fire Protection LP's FEIN (58-2608861) on line 2 of the W-9.

EFFECT OF THE W-9
Since the parent entity of Johnson Controls Fire Protection LP is a valid (SubChapter C) corporation, the W-9 certification operates to justify your reporting treatment as follows:

1. Payments made to Johnson Controls Fire Protection LP are NOT subject to 1099 reporting;
2. Payments made to Johnson Controls Fire Protection LP are NOT subject to IRS Back-Up Withholding; and
3. Payments made to Johnson Controls Fire Protection LP are NOT subject to FATCA reporting.

Please note that the address listed on the W-9 represents the formal location of our organization's books and records. However, this W-9 certification applies equally to ALL operational addresses/offices maintained by Johnson Controls Fire Protection LP.

If you have further questions, please consult your tax team.

The Successful vendor must complete and submit this form prior to award. The Successful vendor must invoice using the company name listed above.

Form **W-9**
(Rev. March 2024)
Department of the Treasury
Internal Revenue Service

Request for Taxpayer Identification Number and Certification

Go to *www.irs.gov/FormW9* for instructions and the latest information.

Give form to the requester. Do not send to the IRS.

Before you begin. For guidance related to the purpose of Form W-9, see *Purpose of Form*, below.

Print or type. See ***Specific Instructions*** on page 3.

1 Name of entity/individual. An entry is required. (For a sole proprietor or disregarded entity, enter the owner's name on line 1, and enter the business/disregarded entity's name on line 2.)

Driven Security

2 Business name/disregarded entity name, if different from above.

3a Check the appropriate box for federal tax classification of the entity/individual whose name is entered on line 1. Check only **one** of the following seven boxes.

☐ Individual/sole proprietor ☐ C corporation ☐ S corporation ☐ Partnership ☐ Trust/estate

☑ LLC. Enter the tax classification (C = C corporation, S = S corporation, P = Partnership) . . . . **P**

Note: Check the "LLC" box above and, in the entry space, enter the appropriate code (C, S, or P) for the tax classification of the LLC, unless it is a disregarded entity. A disregarded entity should instead check the appropriate box for the tax classification of its owner.

☐ Other (see instructions) _____

3b If on line 3a you checked "Partnership" or "Trust/estate," or checked "LLC" and entered "P" as its tax classification, and you are providing this form to a partnership, trust, or estate in which you have an ownership interest, check this box if you have any foreign partners, owners, or beneficiaries. See instructions . . . . . ☐

4 Exemptions (codes apply only to certain entities, not individuals; see instructions on page 3):

Exempt payee code (if any) _____

Exemption from Foreign Account Tax Compliance Act (FATCA) reporting code (if any) _____

(Applies to accounts maintained outside the United States.)

5 Address (number, street, and apt. or suite no.). See instructions.

ADDITIONAL REMARKS

THIS ADDITIONAL REMARKS FORM IS A SCHEDULE TO ACORD FORM,
FORM NUMBER: 25 FORM TITLE: Certificate of Liability Insurance

WORKERS COMPENSATION:
Workers Compensation "AOS" Policy includes coverage for employees from the following States WHILE WORKING IN ANY STATE:AK, AL, AR, AZ, CA, CO, CT, DC, DE, FL, GA, HI, IA, ID, IL, IN, KS, KY, LA, MA, MD, ME, MI, MN, MO, MS, MT, NC, NE, NH, NJ, NM, NV, NY, OK, OR, PA, RI, SC, SD, TN, TX, UT, VA, VT, WI, & WV.

PRIMARY COVERAGE:
The General Liability and Automobile Liability policies are primary and not excess of or contributing with other insurance or self-insurance, where required by written lease or written contract. For General Liability, this applies to both ongoing and completed operations.

WAIVER OF SUBROGATION:
The General Liability, Automobile Liability, Workers' Compensation and Employers Liability policies include a Waiver of Subrogation in favor of the certholder and any other person or organization, BUT ONLY to the extent required by written contract.

ADDITIONAL INSURED - AUTOMOBILE LIABILITY:
The Automobile Liability policy, if required by written contract, includes coverage for Additional Insureds as required by such written contract.

ADDITIONAL INSURED - GENERAL LIABILITY:
For General Liability, if required by written contract, the following are included as additional insureds, as required pursuant to a written contract with a named insured, per attached Policy Endorsements A2 and A2A. THE CERTIFICATE HOLDER LISTED ON THIS CERTIFICATE OF LIABILITY INSURANCE, AND EACH OTHER PERSON OR ORGANIZATION REQUIRED TO BE INCLUDED AS AN ADDITIONAL INSURED PURSUANT TO A WRITTEN CONTRACT WITH THE NAMED INSURED

ONGOING OPERATIONS AND COMPLETED OPERATIONS INSURANCE
The General Liability Insurance includes insurance for ongoing operations and completed operations.

LIMIT OF LIABILITY:
The Liability Limit that applies is the amount indicated on the face of this Certificate of Liability Insurance, or the minimum Liability limit that is required by the written contract, whichever is less. If there is no contract then the Liability Limit is limited to $1,000,000.

NOTICE OF CANCELLATION TO CERTIFICATE HOLDERS:
Should any of the above described policies be cancelled, other than for non-payment, before the expiration date thereof, 30 days advice of cancellation will be delivered to certificate holders in accordance with the policy endorsements.

ADDITIONAL INSURED - OWNERS, LESSEES OR CONTRACTORS - SCHEDULED PERSON OR ORGANIZATION - ENDORSEMENT A2

Named Insured Johnson Controls US Holdings, Inc.			Endorsement Number
Policy Prefix	Policy Number MWZY 313947 24	Policy Period 10/01/24 - 10/01/25	Effective Date of Endorsement 10/01/24
Issued By Old Republic Insurance Company			

THIS ENDORSEMENT CHANGES THE POLICY. PLEASE READ IT CAREFULLY.

This endorsement modifies insurance provided under the following:

COMMERCIAL GENERAL LIABILITY COVERAGE PART

SCHEDULE

Name Of Additional Insured Person(s) Or Organization(s):
If required by contract, the person or organization listed on the certificate of insurance as additional insured, and each other person or organization required to be included as an additional insured pursuant to a contract with a named insured.

Location(s) Of Covered Operations:
As required by contract.

Information required to complete this Schedule, if not shown above, will be shown in the Declarations.

A. **Section II - Who Is An Insured** is amended to include as an additional insured the person(s) or organization(s) shown in the Schedule, but only with respect to liability for "bodily injury", "property damage" or "personal and advertising injury" caused solely by:

1. Your acts or omissions; or

2. The acts or omissions of those acting on your behalf;

in the performance of your ongoing operations for the additional insured(s) at the location(s) designated above.

B. With respect to the insurance afforded to these additional insureds, the following additional exclusions apply:

This insurance does not apply to "bodily injury" or "property damage" occurring after:

1. All work, including materials, parts or equipment furnished in connection with such work, on the project (other than service, maintenance or repairs) to be performed by or on behalf of the additional insured(s) at the location of the covered operations has been completed; or

2. That portion of "your work" out of which the injury or damage arises has been put to its intended use by any person or organization other than another contractor or subcontractor engaged in performing operations for a principal as a part of the same project.

ADDITIONAL REMARKS

THIS ADDITIONAL REMARKS FORM IS A SCHEDULE TO ACORD FORM,
FORM NUMBER: 25 FORM TITLE: Certificate of Liability Insurance

WORKERS COMPENSATION:
Workers Compensation "AOS" Policy includes coverage for employees from the following States WHILE WORKING IN ANY STATE.AK, AL, AR, AZ, CA, CO, CT, DC, DE, FL, GA, HI, IA, ID, IL, IN, KS, KY, LA, MA, MD, ME, MI, MN, MO, MS, MT, NC, NE, NH, NJ, NM, NV, NY, OK, OR, PA, RI, SC, SD, TN, TX, UT, VA, VT, WI, & WV.

PRIMARY COVERAGE:
The General Liability and Automobile Liability policies are primary and not excess of or contributing with other insurance or self-insurance, where required by written lease or written contract. For General Liability, this applies to both ongoing and completed operations.

WAIVER OF SUBROGATION:
The General Liability, Automobile Liability, Workers' Compensation and Employers Liability policies include a Waiver of Subrogation in favor of the certholder and any other person or organization, BUT ONLY to the extent required by written contract.

ADDITIONAL INSURED - AUTOMOBILE LIABILITY:
The Automobile Liability policy, if required by written contract, includes coverage for Additional Insureds as required by such written contract.

ADDITIONAL INSURED - GENERAL LIABILITY:
For General Liability, if required by written contract, the following are included as additional insureds, as required pursuant to a written contract with a named insured, per attached Policy Endorsements A2 and A2A. THE CERTIFICATE HOLDER LISTED ON THIS CERTIFICATE OF LIABILITY INSURANCE, AND EACH OTHER PERSON OR ORGANIZATION REQUIRED TO BE INCLUDED AS AN ADDITIONAL INSURED PURSUANT TO A WRITTEN CONTRACT WITH THE NAMED INSURED.

ONGOING OPERATIONS AND COMPLETED OPERATIONS INSURANCE
The General Liability Insurance includes insurance for ongoing operations and completed operations.

LIMIT OF LIABILITY:
The Liability Limit that applies is the amount indicated on the face of this Certificate of Liability Insurance, or the minimum Liability limit that is required by the written contract, whichever is less. If there is no contract then the Liability Limit is limited to $1,000,000.

NOTICE OF CANCELLATION TO CERTIFICATE HOLDERS:
Should any of the above described policies be cancelled, other than for non-payment, before the expiration date thereof, 30 days advice of cancellation will be delivered to certificate holders in accordance with the policy endorsements.

This endorsement modifies insurance provided under the following:

COMMERCIAL GENERAL LIABILITY COVERAGE PART

SCHEDULE

Name Of Additional Insured Person(s) Or Organization(s):
If required by contract, the person or organization listed on the certificate of insurance as additional insured, and each other person or organization required to be included as an additional insured pursuant to a contract with a named insured.

Location(s) Of Covered Operations:
As required by contract.

Information required to complete this Schedule, if not shown above, will be shown in the Declarations.

A. **Section II - Who Is An Insured** is amended to include as an additional insured the person(s) or organization(s) shown in the Schedule, but only with respect to liability for "bodily injury", "property damage" or "personal and advertising injury" caused solely by:

1. Your acts or omissions; or

2. The acts or omissions of those acting on your behalf;

in the performance of your ongoing operations for the additional insured(s) at the location(s) designated above.

B. With respect to the insurance afforded to these additional insureds, the following additional exclusions apply:

This insurance does not apply to "bodily injury" or "property damage" occurring after:

1. All work, including materials, parts or equipment furnished in connection with such work, on the project (other than service, maintenance or repairs) to be performed by or on behalf of the additional insured(s) at the location of the covered operations has been completed; or

2. That portion of "your work" out of which the injury or damage arises has been put to its intended use by any person or organization other than another contractor or subcontractor engaged in performing operations for a principal as a part of the same project.

Question 1: 1) Can you confirm that RFP #25-191 Polk County South & Central County Jail Security Upgrades will not include Door Hardware such as locks and will be Security Controls Only? 2) If so, do you know if a separate RFP will be forthcoming for this work?

Answer 1: 1) This RFP will not include door hardware such as locks. 2) The County has a separate solicitation that will be forthcoming replacing the Slider Cell Doors at the Central County Jail Only but it is not part of this RFP.

Question 2: Page 7, **Qualifications**, item #3 requires a completed SOC2 Type 2 report be submitted, and states that the SOC2 form is provided on the FTP site. The only document available on the FTP site is the "Polk County BoCC IT Vendor-Security-Questionnaire V4" Excel spreadsheet.

1) Is this Excel spreadsheet the SOC2 form?
2) If not, please provide the SOC2 form.
3) Under which Tab (Tabs 1-5) should this Excel spreadsheet be included in the electronic upload?

Answer 2: 1) Yes. 2) N/A. 3) Please place this items in "Tab 1, Executive Summary," after introduction letter.

Question 3: The subject RFP includes the following documents to be completed and returned with our proposal; under which Tab (Tabs 1-5) should these be included?

a. Proposers Incorporation Information (Submittal Page) – RFP page 27
b. Drug-Free Workplace Form – RFP page 28
c. Affidavit Certification Immigration Laws – RFP page 32
d. Employment Eligibility Verification (e-Verify) Certification – RFP page 33

Answer 3: Please place these items in "Tab 1, Executive Summary," after introduction letter.

Question 4: Page 8, **System Minimum Requirements, Door Controls**, includes the statement, "Electric strikes must meet appropriate ANSI/BHMAA A156.3 standards." Does the Agency anticipate the replacement of existing door locks and/or electric strikes? If so, please specify number and type.

Answer 4: This was for reference only. No door locks are anticipated during this project.

Question 5: Does the Agency have a preferred low voltage/electrical contractor for the provision of conduit/cable where new cable may be needed (example: new CAT6 cable for new IP cameras)? If so, please provide the name and contact information for same.

Answer 5: Polk County doesn't have a preferred low voltage/electrical contractor.

Question 6: Regarding low bandwidth requirements, please designate which location(s) or area(s) would require additional bandwidth?

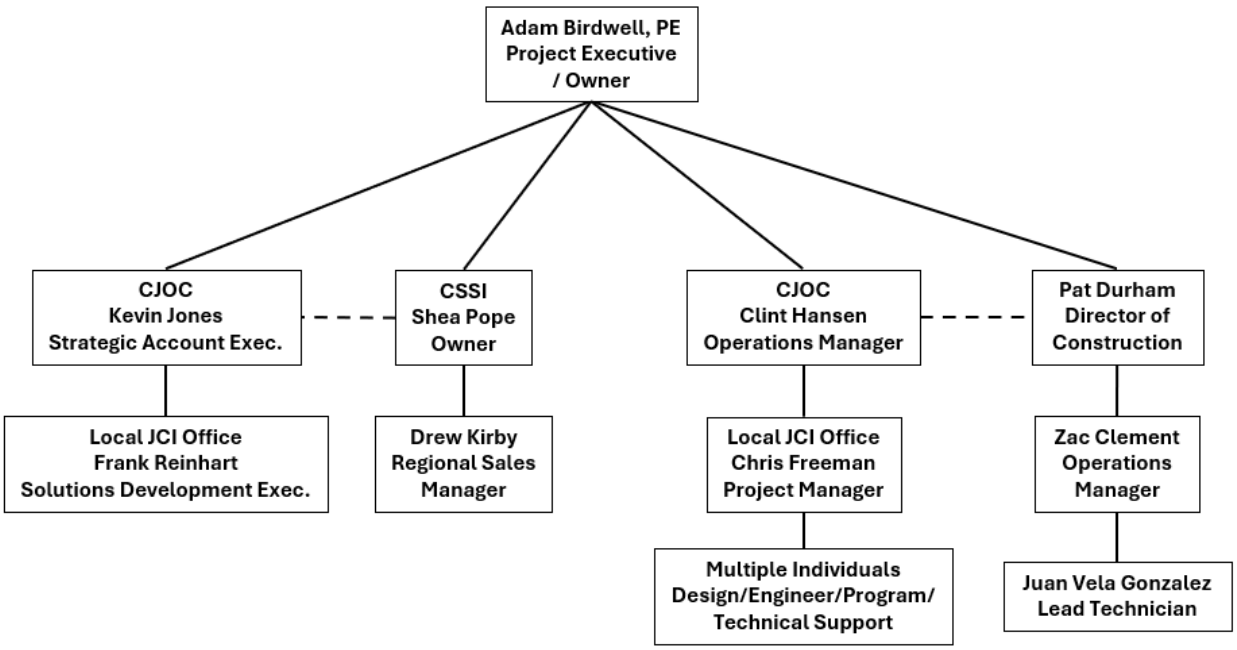
Answer 6: This would be required for the Cloud Base solution for incoming data transfers.

Question 7: Please designate which systems must be 'cloud based'.

Answer 7: The County would like the option for the camera system to be either cloud based or on premises.

Question 8: 1) Is not meeting the 10-year EIN requirement a strict disqualification or just a basis for consideration in the review process?
2) If a company has been in business under the same EIN for 8 years, but their owners and team have 10+ years of experience individually, would that meet qualification?
3) Request the County reduce qualification from 10 years in business under the same EIN to 5 years?

Answer 8: 1) It would disqualify your company.
2) No, the qualification is for the company not the individuals experience at your company.
3) The requirements in the Qualifications will not be reduced.



Question 9: Due to the required amount of Survey Questionnaires to be submitted with our RFP response, and the Easter/Spring Break holiday coming up, we respectfully ask for a two-week extension?

Answer 9: One-week extension approved, see page one of Addendum 2 for extension information.

Experience, Expertise, Personnel, & Technical Resources

Project Organization Structure

Adam Birdwell, PE – Owner

241 Wilson Pike Circle
Brentwood, TN 37027

615.533.4503

Adam has over 20 years of experience in the industry leading teams in over $400 million of work including Retail, Industrial/Manufacturing, Warehouses, Multi-family, Healthcare, Office, University, and Correctional projects. Adam is a licensed professional engineer in the state of Tennessee and is a LEED Accredited Professional. He also has his General Contractor's License, Low Voltage Electrical License, and Security / Alarm Systems License in multiple states.

Employment History

Driven Security
Brentwood, TN
2020 - Present
Owner
Oversee and manage all operations of the company

The Graceway Group
Brentwood, TN
2020 - Present
Owner
Oversee and manage all operations of the company

Elmington
Nashville, TN
2017 - 2019
Vice President of Construction
Oversaw all construction operations within the company. He was responsible for the supervision, direction, communication, and development of the Project Teams, ensuring the overall positive outcome of the projects. He aligned all aspects of the project to meet Internal and External Client Expectations. He ensured that successful client and subcontractor relationships were maintained. Adam's leadership allowed the project teams to deliver quality projects on time and under budget.

Lithko Contracting
Nashville, TN
2013 - 2017
Operations Manager
Oversaw all operations of the BURG. Working closely with the project teams, he provided operational support to ensure a positive outcome for all projects. He engaged the team to develop an overall project plan and set expectations for the project. He validated project status and made recommendations to the project teams to

ensure that execution goals were met. Adam directed and aligned manpower resources to meet execution goals and ensure successful projects. Adam was responsible for maintaining customer relationships by staying engaged with the customers throughout the projects. Adam maintained communication with customer leadership to resolve any conflicts or issues that arose throughout the phases of projects.

Charter Construction

Nashville, TN
2004-2013
Project Manager
Adam used his engineering background to provide a high level of project management skill. His field work experience allowed him to communicate and work closely with field personnel as well as design professionals. He used the latest computer software and equipment to efficiently manage and provide timely information for the construction process. He was responsible for all aspects of the project from preconstruction to closeout. Once he created the schedules, he worked closely with field crews to manage the progress of the project. Adam prepared and approved shop drawings and submittals, using AutoCAD and other design and review software. Adam tracked job cost information and reviewed it with the teams in the field to ensure successful financial outcomes for the projects. He was also responsible for preparing monthly financials for review by company leadership and monthly billings to the owner/general contractor.

Kevin B. Jones – Strategic Account Manager

1281 Newell Parkway
Montgomery, Alabama 36110
334-309-1474

Employment History

Simplex Time Recorder Co.
Gardner Massachusetts
1992 - 1993
Electronic Estimator
Duties included but not limited to the following;

Specification reading and note irregularities

Device take off's

Preliminary design of integrated systems

Simplex Time Recorder Co.
Gardner, Massachusetts
1993 - 1994
Associate Sales Engineer
As an Associate Sales Engineer, my responsibility was to assist all Simplex districts in the design, lay out, and pricing for detention related integrated projects. Included traveling to train the local district's sales force on detention integrated projects and delivery.

Simplex Time Recorder Co.

Clearwater Florida

1994 - 1996
Assistant Project Manager/Engineer
During these two years I was responsible for the complete engineering and documentation for the Pinellas County Courthouse project, contract value $1.4 million. Stationed "on-site", it was my primary duty to make sure all integrated systems were engineered, documented and installed correctly. I assisted with the installation, test check out, and training of the following systems; CCTV, Door Control, Intercommunications, Officer Duress System, Touch Screen Work Stations, Courtroom Video System, and Graphic Control Panels.

SimplexGrinnell

Prattville, Alabama

1996 - 2001
Senior Project Engineer
Serving as Senior Project Engineer – Responsibilities include complete design, engineering, testing, training and project close out documentation for at least 50 detention related projects that SimplexGrinnell districts secured.

SimplexGrinnell

Prattville, Alabama

2001 - 2006
Detention Support Specialist
As a Detention Support Specialist it was my duty to assist any and all SimplexGrinnell districts in the detention market. Duties included, training the local sales representative in the nuances of a detention project, obtain specifications and drawings and assist the local sales representative in bidding at least 75 integrated systems, presentations to Architects and Engineers to show case SimplexGrinnell's ability to design, deliver, close out a detention related project.

Johnson Controls – Legacy SimplexGrinnell

Montgomery, Alabama

2006 - Present
Strategic Account Manager
My duties are to track detention related projects, report the identified projects to the individual districts, coordinate and review project documents in conjunction with local District offices prior to the bidding of Criminal Justice Facilities to insure that Johnson Controls will comply with all of the requirements as indicated in the contract documents. Other duties include the complete design and pricing for integrated security systems, assign margin percentage dictated by current market.

Certifications – Include

Franklin, TN
2003 - 2020
Partner
Assisted in growing company revenue over $28M as a partner. Sponsored multiple ERP conversions along with a WMS conversion. Assisted in obtaining rights to multiple professional sports leagues, and over 10 exclusive contracts with colleges across the country. Assisted in 2016 on an asset purchase to acquire new licensing rights. Helped facilitate management buyout in 2012.Assisted in growing company revenue over $28M as a partner. Sponsored multiple ERP conversions along with a WMS conversion. Assisted in obtaining rights to multiple professional sports leagues, and over 10 exclusive contracts with colleges across the country.
In my tenure led customer service, sales, shipping, IT, warehousing, procurement, quality assurance, etc... Integrator of software tying into SAP, MAS 200. In my tenure throughput increased from 500 orders to 7000 daily. Developed efficiency programs, training manuals, key performance metrics for employees. Created the "Ability to promise" inventory control that allowed for 50% less inventory. Revenue dramatically increased 50% from 2006-10, 60% from 2011-15, and 25% from 2016-18. I personally managed over $2M of licensing contracts and over $6M of E-commerce revenue operationally. Our team developed forecasting and analytic inventory ordering programs that lowered inventory to sales % to less than 8.5% yearly. Implemented automation directly with factories in China and Vietnam, saving 33% employee costs. Drove factory allocation

from four factories to twelve, and purchasing dollars increased from $9M to $16M yearly. Helped implement and oversee an office in China managing Quality assurance, factory orders and sourcing. Drove pricing down 10% across multiple factories. Developed deep experience in EDI, shipping, warehousing and distribution, IT, efficiency analysis of multiple departments, ERP management and selection, freight management and vendor relations.

Regional Sales Manager
Managed 450 sales accounts in a territory of accounts geographically all west of the Mississippi. Distribution channels ranged from mass accounts to startups. Responsible for over $2 million dollars of revenue and I hit quota each year. During my time in this position company revenues grew 6x in 3 years. Managed 15 independent field reps across 12 states. I helped collaborate in product development as well. Also managed all things technical for the business including server management, ERP development and maintenance, and custom programming. Managed 450 sales accounts in a territory of accounts geographically all west of the Mississippi. Distribution channels ranged from mass accounts to startups. Responsible for over $2 million dollars of revenue and I hit quota each year. During my time in this position company revenues grew 6x in 3 years. Managed 15 independent field reps across 12 states. I helped collaborate in product development as well.

Mojetto LLC
Collierville, TN
2009 - 2011
Partner
Helped increase revenues from $60K to $800K during my tenure in this sports licensed goods online E-commerce business. Brought specific knowledge of vendor and supply chain management. Increased vendor integrations from five companies to over forty at my exit. Implemented a state of the art customized order management platform that seamlessly integrated across Amazon, Amazon FBA, Sears E-comm, Ebay and others. Mojetto during my tenure was a top 10 E-commerce vendor for over 20 wholesale sports licensed customers.

Project Qualifications Summary

Over 20 years of experience managing, installing, and servicing fire alarm and low-voltage systems across commercial, transportation, and healthcare sectors. Specializing in project coordination, permit acquisition, field installation management, and system commissioning. Successfully led complex fire alarm projects at Tampa International Airport and other high-profile facilities.

Certifications & Training

- NICET III – Certification #139023
- OSHA 10-Hour Safety Training
- Factory Trained on:
  - Simplex: 4005, 4006, 4008, 4010, 4100+, 4100U, 4007ES, 4010ES, 4100ES
  - Zettler Sentinel 500 Nurse Call System

Relevant Project Experience

SimplexGrinnell LP / Johnson Controls Fire Protection

Install Technician/Project Manager | October 2008 – Present

- Lead project manager for multi-phase fire alarm upgrades at Tampa International Airport.
- Coordinated directly with owner's representatives and general contractors to plan and execute installations.
- Scheduled manpower, managed material procurement, and maintained project timelines.
- Utilized Accela permitting portal and managed Notice of Commencement filings for Hillsborough County.
- Oversaw field technicians and installation quality control.
- Programmed and commissioned Simplex fire alarm and access control systems.
- Identified and executed change orders to accommodate project scope revisions.

SimplexGrinnell LP

Senior Fire Alarm Service Technician | September 2006 – October 2008

- Serviced and programmed fire alarm, access control, and nurse call systems.
- Specialized in diagnostics of circuit faults, grounding issues, and system malfunctions.
- Supported both warranty and long-term service contracts for commercial clients.

Highlighted Project Contributions

- **Project 935362501 – West Jail Sally Port & Booking** (Feb 2009 – April 2010)

Served as the lead installer under Superintendent Bobby Belisle and Clint Hanson from CJOC. Responsible for wiring and final terminations of intercom devices, cameras, locks, PLCs, DVRs. System programming was completed by Clint w/CJOC.

- **Project 949545203 – SCJ Video Visitation**

Acted as lead installer for the SCJ Video Visitation system under Superintendent Bobby Belisle. Completed all wiring and terminations of visitation system components. System programming was handled by Bobby Belisle and Herold Harrod.

- **Unnamed Visitation Project – Near Gainesville, FL**

Acted as lead installer for the SCJ Video Visitation system under Superintendent Bobby Belisle. Completed all wiring and terminations of visitation system components. System programming was handled by Bobby Belisle

Johnson Controls – National Leader in Correctional Facility Systems Integration

Johnson Controls brings decades of proven success in the design, engineering, and integration of security control systems for county, state, and federal correctional institutions. With hundreds of successful installations nationwide, Johnson Controls is an established expert in deploying:

- Harding Intercom Systems – Specifically engineered for detention environments, Harding systems are a staple in correctional-grade communications. Johnson Controls is one of the most experienced system integrators of Harding intercoms, having implemented solutions across maximum-security prisons and county jails alike.
- Omron PLC Control Systems – Johnson Controls' technical team specializes in designing programmable logic controller (PLC) networks for automating cell doors, gates, sally ports, HVAC controls, and emergency overrides with robust system redundancy and lockdown capability.
- Aveva InduSoft HMI Integration – Their in-house engineers develop user-friendly graphical interfaces that provide operators with real-time visibility and control of facility-wide systems, ensuring intuitive operation and streamlined incident response.

This experience includes full life-cycle project delivery — from engineering and permitting, through installation, commissioning, and support — tailored specifically for secure, 24/7 operational environments.

Driven Security – Scalable Surveillance & Low Voltage Expertise in Critical Sectors

Driven Security has extensive experience in municipal, educational, and law enforcement environments, particularly in delivering Verkada-based camera upgrades and low-voltage infrastructure deployment across multi-building campuses and public facilities.

Key areas of expertise include:

- Verkada Surveillance Upgrades – Driven Security has deployed Verkada CD and CH series cameras in more than 200+ mission-critical sites, including city halls, police departments, school campuses, and

fire stations. Their team is proficient in strategic placement, edge recording, analytics configuration, and secure remote access provisioning.

- Low Voltage & Structured Cabling – All projects include comprehensive low voltage wiring, PoE camera networks, patch panels, rack design, and network switch integration — executed to ANSI/TIA standards and tailored for future scalability.
- Municipal Compliance & Law Enforcement Coordination – Their team is accustomed to working within the operational parameters and compliance requirements of government-owned facilities, including security clearances, shift-sensitive work schedules, and integration with public safety systems.

Combined Capabilities: Purpose-Built for Correctional Facility Upgrades

Together, Johnson Controls and Driven Security offer a complementary, full-scope solution that aligns precisely with the needs outlined in the RFP:

- Johnson Controls provides unmatched experience with intercom, PLC, and SCADA/HMI system upgrades in corrections.
- Driven Security delivers advanced, scalable video surveillance, cabling, and system deployment services grounded in municipal, law enforcement, and education sector projects.

Both firms bring the required technical depth, project capacity, and operational familiarity to ensure a secure, timely, and mission-focused upgrade of the county correctional facility's integrated security system.

Start and End Date of Project:
Start Date: September 20, 2020
Completion Date: April 16th, 2025

Brief Description of Services Provided and Why the Customer Needed the Solution:
Madison County sought to modernize outdated surveillance systems at its **main county jail, service center** and **county courthouse**. The legacy infrastructure lacked remote access, reliable storage, and intelligent video analytics.

Driven Security was selected to provide a turnkey upgrade using **Verkada's cloud-native surveillance and access platform**. The project included:

- **Deployment of Verkada CD42 cameras** to cover interior corridors, holding cells, interrogation rooms, and administrative areas
- **CD52 cameras** for perimeter and parking coverage
- Centralized management through **Verkada Command software**
- Full **Cat6A structured cabling**, switch configuration, and PoE deployment
- Training for law enforcement staff and IT administrators
- Post-deployment monitoring and support

This solution provided the County with secure, scalable, and remotely manageable infrastructure, enabling real-time visibility, simplified evidence retrieval, and stronger facility access control.

Number of Devices Installed:

- **400 cameras total:**
  - 350 Verkada CD-series (indoor)
  - 50 Verkada CD52 (outdoor)
- **40 viewing stations**

PROJECT Reference #3:Client name: JCI - Ohio Department of Rehab and Corrections

REMOVED BY PROCUREMENT

Project Reference #4 – Adams County IL Law Enforcement Countywide Upgrade

Contact Person:
David Hochgraber
IT Director – Adams County Illinois

Contact Phone Number and Email Address:
Phone: (217) 277-2161
Email: dhochgraber@co.adams.il.us

Cost of the Project:
$910,000

Start and End Date of Project:
Start Date: January 27, 2023
Completion Date: 4/16/2025 (change orders and additional products added)

Brief Description of Services Provided and Why the Customer Needed the Solution:
Adams County sought to modernize outdated surveillance and access control systems at its **police headquarters, municipal jail**, and **county courthouse, along with all other county buildings**. The legacy infrastructure lacked remote access, reliable storage, and intelligent video analytics. Most of the county buildings were using various different systems for security.

Driven Security was selected to provide a turnkey upgrade using **Verkada's cloud-native surveillance and access platform**. The project included:

- **Deployment of Verkada CD42, CD52, CH52 and CD62 cameras** to cover interior corridors, holding cells, interrogation rooms, and administrative areas
- **CH52 multisensor cameras** for perimeter and parking coverage
- **Verkada Access Control** units to secure all restricted doors and integrate badge-based staff access
- Centralized management through **Verkada Command software for all county buildings**
- Full **Cat6A structured cabling**, switch configuration, and PoE deployment
- Training for law enforcement staff and IT administrators
- Post-deployment support
- Camera call up integration from the Control Room to Verkada

This solution provided the County with secure, scalable, and remotely manageable infrastructure, enabling real-time visibility, simplified evidence retrieval, and stronger facility access control. The finance and IT teams can predict better how much the security systems will cost over the life of use.

A big factor in the purchase was the ability to see all cameras and access control in one platform. David told us that the 10 year warranty on Verkada products, along with the 24/7 US based support was a deciding factor. Our team has been by the customer's side during the first two years of use, performing training and guidance as issues arise.

Number of Devices Installed:

- 480 cameras total
- 210 access control doors connected to Verkada controllers
- 40 viewing stations
- 10 intercoms
- 24 environmental sensors

PROJECT Reference #5:Client name: JCI – Buncombe County, NC

REMOVED BY PROCUREMENT

Project Reference #6 – Marion County AL Schools Countywide Upgrade

Contact Person:
Patrick Sutton
Superintendent – Marion County Schools

Contact Phone Number and Email Address:
Phone: (205) -412-6859
Email: psutton@mcbe.net

Cost of the Project:
$1,600,000

Start and End Date of Project:
Start Date: September 1st, 2024
Completion Date: December 31st,, 2024

Brief Description of Services Provided and Why the Customer Needed the Solution:
Marion County Schools sought to modernize outdated surveillance systems at its **various educational facilities** The legacy infrastructure lacked remote access, reliable storage, and intelligent video analytics.

Driven Security was selected to provide a turnkey upgrade using **Verkada's cloud-native surveillance platform**. The project included:

- **Deployment of Verkada CD62 cameras** to cover hallways, classrooms and recreational facilities
- **CH52 multisensor cameras** for perimeter and parking coverage
- Centralized management through **Verkada Command software**
- Full **Cat6A structured cabling**, switch configuration, and PoE deployment
- Training for staff and IT administrators
- Post-deployment monitoring and support

This solution provided the County with secure, scalable, and remotely manageable infrastructure, enabling real-time visibility, simplified evidence retrieval, and stronger facility control.

Number of Devices Installed:

- **715 cameras total:**
  - 660 Verkada CD-series (indoor)
  - 55 Verkada CH52 (outdoor multisensor)

This facility is currently undergoing a second phase to add access control to all schools based on how well the Verkada cameras have performed, along with how well the sale and installation did as well.

PROJECT Reference #7Client name: JCI – Nova Scotia Correctional Facility, Canada

REMOVED BY PROCUREMENT

Project Reference #8 – Lead Schools Systemwide Upgrade

Contact Person:
Maggie Stampley
Admin – Lead Schools

Contact Phone Number and Email Address:
Phone: (615) 800-8293
Email: maggie.stampley@leadpublicschools.org

Cost of the Project:
$700,000

Start and End Date of Project:
Start Date: April 1, 2024
Completion Date: February 1, 2025

Brief Description of Services Provided and Why the Customer Needed the Solution:
Lead Schools sought to modernize outdated surveillance and access control systems at its **main offices, classrooms and exterior of over five separate campuses**. The legacy infrastructure lacked remote access, reliable storage, and intelligent video analytics.

Driven Security was selected to provide a turnkey upgrade using **Verkada's cloud-native surveillance and access platform**. The project included:

- **Deployment of Verkada CD42 and CD52 cameras** to cover **main offices, classrooms and exterior of over five separate campuses**
- **CH52 multisensor cameras** for perimeter and parking coverage
- **Verkada Access Control** units to secure all exterior doors and integrate badge-based staff access
- Centralized management through **Verkada Command software**
- Full **Cat6A structured cabling**, switch configuration, and PoE deployment
- Training for staff and IT administrators
- Post-deployment monitoring and support

This solution provided the school system with secure, scalable, and remotely manageable infrastructure, enabling real-time visibility, simplified video retrieval, and stronger facility access control.

Number of Devices Installed:

- **200 cameras total:**
  - 140 Verkada CD-series (indoor)
  - 60 Verkada CH52 (outdoor multisensor)
- **40 access control doors** connected to Verkada controllers

Project Reference #9 – Swain County NC Law Enforcement Countywide Upgrade

Contact Person:
Jason Gardner
Director – Swain County Jail

Contact Phone Number and Email Address:
Phone: 828-488-0159
Email: jbgardner@swaincountync.gov

Cost of the Project:
$261,000

Start and End Date of Project:
Start Date: August 1, 2024
Completion Date: October 1, 2024

Brief Description of Services Provided and Why the Customer Needed the Solution:
Swain County sought to modernize outdated surveillance systems at its **municipal jail**, and **county courthouse**. The legacy infrastructure lacked remote access, reliable storage, and intelligent video analytics.

Driven Security was selected to provide a turnkey upgrade using **Verkada's cloud-native surveillance**. The project included:

- **Deployment of Verkada CD42 and CD52 cameras** to cover interior corridors, holding cells, interrogation rooms, and administrative areas
- **CH52 multisensor cameras** for perimeter and parking coverage
- **Integrated Verkada camera call ups for detention officer use**
- Centralized management through **Verkada Command software**
- Full **Cat6A structured cabling**, switch configuration, and PoE deployment
- Training for law enforcement staff and IT administrators
- Post-deployment monitoring and support

This solution provided the County with secure, scalable, and remotely manageable infrastructure, enabling real-time visibility, simplified evidence retrieval, and stronger facility access control.

Number of Devices Installed:

- **100 cameras total:**
  - 75 Verkada CD-series (indoor)
  - 25 Verkada CH52 (outdoor multisensor)

Project Reference #10 – Buncombe County NC Law Enforcement Countywide Upgrade

Contact Person:
David Thompson
IT Director – Buncombe County Jail

Contact Phone Number and Email Address:
Phone: (828) 775 - 6704
Email: David.Thompson@buncombenc.gov

Cost of the Project:
$612,000

Start and End Date of Project:
Start Date: February 12, 2023
Completion Date: November 1, 2023

Brief Description of Services Provided and Why the Customer Needed the Solution:
Buncombe County sought to modernize outdated surveillance systems at its **Jail headquarters, county courthouse, and county wide facilities**. The legacy infrastructure lacked remote access, reliable storage, and intelligent video analytics.

Driven Security was selected to provide a turnkey upgrade using **Verkada's cloud-native surveillance**. The project included:

- **Deployment of Verkada CD42, CH52 multisensors and CD52 cameras** to cover interior corridors, holding cells, interrogation rooms, and administrative areas
- **CH52 multisensor cameras** for perimeter and parking coverage
- **Integrated camera callups for detention officers to view**
- Centralized management through **Verkada Command software**
- Full **Cat6A structured cabling**, switch configuration, and PoE deployment
- Training for law enforcement staff and IT administrators
- Post-deployment monitoring and support

This solution provided the County with secure, scalable, and remotely manageable infrastructure, enabling real-time visibility, simplified evidence retrieval, and stronger security control.

Number of Devices Installed:

- **300 cameras total:**
  - 240 Verkada CD-series (indoor)
  - 40 Verkada CD52
  - 20 Verkada CH52 (outdoor multisensor)
  - 8 Viewing Stations

Project Reference #11 – Auburn Housing Authority AL Systemwide Upgrade

Contact Person:
Richetta Stephens
Admin – Auburn Housing Authority

Contact Phone Number and Email Address:
Phone: (480) 555-2041
Email: samantha.reyes@fairmontcity.gov

Cost of the Project:
$400,000

Start and End Date of Project:
Start Date: September 1, 2020
Completion Date: April 1, 2025

Brief Description of Services Provided and Why the Customer Needed the Solution:
Auburn Housing sought to modernize outdated surveillance systems at its **government housing projects across the county**. The legacy infrastructure lacked remote access, reliable storage, and intelligent video analytics.

Driven Security was selected to provide a turnkey upgrade using **Verkada's cloud-native surveillance and access platform**. The project included:

- **Deployment of Verkada CD42 and CD52 cameras** to cover all interior and exterior areas of the housing projects
- **CD52 cameras** for perimeter and parking coverage
- Centralized management through **Verkada Command software**
- Full **Cat6A structured cabling**, switch configuration, and PoE deployment
- Training for staff and IT administrators
- Post-deployment monitoring and support

This solution provided the County with secure, scalable, and remotely manageable infrastructure, enabling real-time visibility, simplified video retrieval, and stronger security control.

Number of Devices Installed:

- **150 cameras total:**
  - 120 Verkada CD-series (indoor)
  - 30 Verkada CD52 (outdoor)

TAB 3

Approach to Project

Driven Security and Johnson Controls have established a highly effective partnership grounded in mutual expertise, seamless coordination, and a shared commitment to delivering high-quality, integrated security solutions for critical facilities. Together, our teams have successfully executed multiple facility security upgrades, combining Johnson Controls' industry-leading experience in PLC automation, intercom systems, and HMI interfaces with Driven Security's expertise in advanced surveillance, access control, and low-voltage infrastructure.

Throughout the design and build phases of past projects, our companies collaborated closely — aligning engineering disciplines, streamlining timelines, and maintaining open communication with clients and stakeholders to ensure minimal disruption to facility operations. We leveraged our complementary strengths to deliver turnkey systems that were fully tested, thoroughly documented, and tailored to each facility's operational demands.

As we look at Polk County in particular, both Driven Security and Johnson Controls remain fully committed to continuing this partnership in the service of your County. Together, we offer the capacity, experience, and long-term dedication required to support the county's security modernization goals across both large correctional facilities ensuring safety, scalability, and operational resilience for years to come.

Below is a general outline of our approach to the work of these projects:

1) <u>Operator Control Room Workstations</u>
    a) Due to the different technologies at each facility, (Central with "Analogue Switch / LED" & South with "IP Computers") the concept will be that all existing Control Rooms will receive:
        i) Computer
        ii) 27" Touch Monitor
        iii) GUI Software License
        iv) UPS for an approx. 15 – 20-minute runtime
    b) Existing "monitor and control" apparatuses as explained above (analogue / IP), will be removed and new equipment will be installed.
    c) If any existing Control Room at either facility needs new consoles, the existing will be removed and replaced with new modern ergonomical consoles.
    d) Each facility will be provided with one (1) spare PC that can be used in any location.

2) Programmable Logic Controllers
   a) Due to the different technologies at each facility, (Central with "No PLC - *considered hardwired*" & South with "PLC - *considered current technology*") the concept will be that all existing Equipment Rooms will receive:
      i) **Central** – Complete Rip & Replace of all existing control equipment and be replaced with up-to-date PLC and downstream equipment (relays / fuses / power supplies etc.)
      ii) **South** – Complete Rip & Replace of existing PLC equipment only and be replaced with up-to-date PLC and all downstream equipment will remain.
         (1) Due to the standard downstream equipment which is considered up-to-date even though it was installed years ago, it is not necessary to remove, this will save costs on equipment, labor and most importantly downtime when converting over to the new system.
            (a) However, in future interviews, if the county would like this equipment to be replaced, then when it comes to the pricing, this will be included.
   b) Existing field device wiring will remain and be re-terminated on new system.
   c) Existing field devices will remain.
   d) Will re-utilize existing head-end enclosures.
   e) All new equipment will receive a UPS for an approx. 15 – 20-minute runtime.

3) Intercom and Page
   a) Due to the different technologies at each facility, (Central with "Building Stand-Alone" & South with "Networked IP") the concept will be that all existing Control Rooms / Equipment Rooms will receive:
      i) Control Rooms – VoIP Master Station
         Type of Master Station to be discussed at future interviews / meetings
      ii) Equipment Rooms – Digital Controllers
         Quantity of controllers to be decided by quantity of existing stations wired to each room.
   b) Existing field device wiring will remain and be re-terminated on new system.
   c) **NOTE: without proper inspections of existing field intercom stations, it is anticipated that all existing intercom stations will be replaced**
   d) Existing page speakers will remain.
      i) Current page zones will stay the same.
   e) New Page Amplifiers will be provided.
   f) The new system will be equipped with Audio Threshold Detection, which is a software-based selection.
   g) Audio Recording Server will be provided.
   h) Will provide new head-end enclosures at all locations where appropriate or utilize existing rack space where appropriate.

4) Camera System
   a) The overall layout of the new cameras will be designed to meet or exceed the existing coverage, addressing any potential existing blind spots.
   b) We will utilize all of the types of cameras that are available to us to provide the best possible design for Polk County
   c) We will utilize viewing stations in control rooms and other strategic locations to maximize the effectiveness of the new integrated system.
   d) 24/7 US based support, 10 year warranty on hardware
   e) Storage can be recorded or live view only as desired
   f) Storage can be chosen up to 365 days as desired
   g) Secure camera housing that is vandal proof
   h) Unlimited user capacity and capability
   i) RTSP streams from the cameras will be utilized for integration with the touch screen camera call ups
   j) Compliant hardware and software that is up to code on all UL and NDAA requirements

5) Security Management System (Reports)
   a) A new SMS with a printer will be provided for each facility so that all security commands made within the detention facility will be logged
   b) The SMS will be installed in the Central Control room

6) Networking Equipment / Infrastructure
   a) POE + switches shall be provided and configured per the specifications of the county
   b) We recommend a complete new network infrastructure at the central facility
   c) South's network infrastructure could potentially be re-used but we recommend new network switches at a minimum

Additional Services / Labor:

1) Operator Workstation Screen/Icon review meetings
2) Un-Termination of existing field device wiring
3) Removal of existing equipment stated above
   a) Will be handed over to owner for their discretion to keep or throw away
4) Installation of new equipment stated above
5) Re-termination of existing field device wiring to new equipment
6) Detailed enclosure drawings (head-end equipment)
7) Head-end point-to-point drawings
8) Programming for new systems
9) Head-End equipment fabrication (where applicable)
10) Complete systems PRE and POST test of existing field devices
11) Pre-Commission of upgraded areas (when completed independently) and a full commission once all areas have been upgraded (see proposed schedule)
12) Owner Training

a) Operator Training will be 4 - 4-hour sessions
b) Maintenance Training will be 2 - 4-hour sessions

13) Final Documentation (as-builds)

Additional Comments / Conditions:

1) Diagnostics or repair for any existing field device and / or wiring
    a. If an existing field device is found inoperable while completing the Pre-Test of existing systems, this device will be noted.
    b. If the failed device is still inoperable after the Post-Test, a quote will be provided for time and material to repair
2) A secure gateway module will be provided so that technicians can tunnel into system and check health, provide diagnostics and / or programming changes
3) No integration of existing Fire Alarm / Building Automation Systems has been discussed at this time
4) Initially the equipment will be warranted for one (1) year unless additional years are appropriate (10) per the RFP through the negotiations

Based up the limited amount of specific information provided about each facility, it is difficult to provide a hard schedule, but based upon previous project experience, we would expect the work at each facility to take 12-24 months. Below is a rough outline of the expected project phases:

Project Schedule: PLC, Camera, and Intercom Upgrade at Correctional Facility

Timeline	Phase	Key Activities
TBD	Project Kickoff	- Stakeholder meeting - Site access planning - Security clearance processing
TBD	Site Assessment	- Evaluate existing systems - Inventory hardware - Identify integration points
TBD	Design & Engineering	- Finalize upgrade specs (PLC, IP cameras, intercoms) - Develop system architecture & wiring diagrams
TBD	Procurement	- Order equipment (cameras, PLCs, intercoms, switches) - Confirm delivery timelines
TBD	Infrastructure Preparation	- Run conduit and cabling - Prep equipment racks and electrical panels
TBD	Equipment Delivery & Staging	- Receive and inspect hardware - Configure and pre-program systems offsite
TBD	Installation	- Install PLCs in control rooms - Mount cameras and intercom units - Terminate wiring
TBD	Integration & Programming	- Integrate camera feeds with VMS - Configure PLC logic - Sync intercom endpoints
TBD	Testing & Commissioning	- Conduct full system test - Verify failover and security protocols
TBD	Training	- Train correctional staff and maintenance personnel on system use and basic troubleshooting
TBD	Project Closeout & Handover	- Final walkthrough and punch list - Deliver documentation (as-builts, manuals) - Obtain client sign-off

QA / QC

Our teams have established a comprehensive Quality Assurance (QA) and Quality Control (QC) program to ensure the delivery of high-quality products and services across their operations. The programs integrate robust supplier management, continuous improvement methodologies, and advanced digital tools to uphold and enhance quality standards.

Johnson Controls

1. Global Supplier Performance Standards Manual (GSPSM):
This manual outlines Johnson Controls' expectations for suppliers, emphasizing compliance with international standards such as ISO 9001:2015 for quality management, ISO 14001:2015 for environmental management, and ISO 45001:2018 for occupational health and safety. Suppliers are required to demonstrate their commitment to integrity, ethics, and quality through appropriate management standards.

2. Six Sigma Methodology:
Johnson Controls employs Six Sigma methodologies to achieve high-quality outcomes. Suppliers are expected to adhere to these practices, aiming for less than 250 defective parts per million (DPPM) for direct materials and a 15% reduction in supplier-related warranty events.

3. Issue Resolution Information System (IRIS):
To address and resolve quality issues efficiently, Johnson Controls utilizes IRIS, a system designed for tracking and managing supplier-related quality concerns. This tool facilitates communication and corrective actions between Johnson Controls and its suppliers.

4. Continuous Improvement Initiatives:
The company integrates Lean Manufacturing and Six Sigma programs with critical thinking methodologies to drive continuous improvement. This approach focuses on eliminating waste, reducing variation, and solving complex problems to enhance operational efficiency.

5. Digital Tools and Training:
Johnson Controls offers training services through its Training Institute, providing courses on HVAC, Building Automation Systems (BAS), and Variable Refrigerant Flow (VRF) systems. These programs ensure that technicians are well-equipped to maintain and improve quality standards.

Driven Security

1. Service Design & Implementation

- **Integration with Industry Standards:** We ensure that all security solutions comply with relevant industry standards and regulations, providing clients with reliable and compliant systems. We do this by selecting manufacturers that comply with all local, state and federal compliance.

2. Personnel Training & Certification

- **Comprehensive Training Programs:** Implement ongoing training for all staff members to stay updated on the latest Verkada security technologies and protocols.
- **Certification Requirements:** Encourage and support staff in obtaining relevant Verkada certifications to maintain a high level of expertise within the team.

3. System Monitoring & Maintenance

- **Regular System Audits:** Conduct periodic audits of security systems to ensure optimal performance and identify areas for improvement.
- **Preventive Maintenance:** Establish a schedule for routine maintenance to prevent system failures and ensure continuous protection for clients.

4. Client Feedback & Continuous Improvement

- **Feedback Mechanisms:** Implement channels for clients to provide feedback on services, facilitating ongoing improvements and client satisfaction.
- **Performance Metrics:** Track key performance indicators to assess the effectiveness of security solutions and make data-driven enhancements.

5. Emergency Response & Incident Management

- **Incident Response Plans:** Develop and maintain comprehensive incident response strategies to address potential security breaches or system failures promptly.
- **Post-Incident Analysis:** After any security incident, perform thorough analyses to understand root causes and implement measures to prevent future occurrences.

TAB 4

Software, Equipment, and Devices

For the camera needs in your facilities, our team is proposing the use of Verkada cameras. Verkada is one of the leading physical security providers in the world. Their solutions stand out for their ease of deployment and user-friendly design, ensuring that any team, regardless of technical expertise, can implement them in environments ranging from local offices to a global network of distributed sites. The following brochures outline their entire offering of products. We have also included specific data sheets of their top cameras in each of their product lines. They provide a wide range of options that can meet any need including pan-tilt-zoom (PTZ), multi-sensor, fisheye, bullet (with license plate recognition), and dome cameras.

These cameras are easily accessible through Verkada Command as well as Verkada's Viewing Stations and also seamlessly integrate into the overall integrated security system that we are proposing below. All camera streams will be able to be called up by the touch screen interface that controls all integrated solutions working in conjunction with the new digital intercom and locking control system. The viewing stations allow you to view up to 36 cameras simultaneously on a monitor from a simple plug and play network device. Verkada cameras offer up to 365 days of onboard and/or cloud storage. An unlimited amount of users my access your account at no additional cost. Verkada has built-in audit logs, tamper detection, and role-based controls that meet strict government compliance and security policies. Verkada provides 24/7 USA based remote support with an industry leading 10 year Verkada hardware warranty. Their product lines include everything from environmental sensors to guest management systems. Cellular gateways are also available to meet the needs of any remote locations without current network access. Verkada cameras can provide for the current needs of your facilities as well as needs that may arise in the future.

The products discussed below will complete the integrated security system for your facility. They are industry standard and non-proprietary. We will hand over all programming files and as-built drawings after the commissioning of your system. This provides you with full control of your system and the ability to manage it in the future as you see fit. Data sheets have been provided for all of the primary components of the system. We will utilize Dell workstations for the operator control rooms, Omron PLCs, Harding intercoms, and Dell servers for your security management system (SMS reports).

Harding intercoms are engineered for detention applications with ruggedized, tamper-resistant stations. They support selecting communication to pods, gates, control rooms, and administrative offices. They allow full automation of door releases, alarm triggers, and lockdown procedures through Omron PLC control.
