This Power of Attorney is made and executed pursuant to and by authority of the following By-laws and Authorizations of The Ohio Casualty Insurance Company, Liberty Mutual Insurance Company, and West American Insurance Company which resolutions are now in full force and effect reading as follows:

ARTICLE IV – OFFICERS: Section 12. Power of Attorney.
Any officer or other official of the Corporation authorized for that purpose in writing by the Chairman or the President, and subject to such limitation as the Chairman or the President may prescribe, shall appoint such attorneys-in-fact, as may be necessary to act in behalf of the Corporation to make, execute, seal, acknowledge and deliver as surety any and all undertakings, bonds, recognizances and other surety obligations. Such attorneys-in-fact, subject to the limitations set forth in their respective powers of attorney, shall have full power to bind the Corporation by their signature and execution of any such instruments and to attach thereto the seal of the Corporation. When so executed, such instruments shall be as binding as if signed by the President and attested to by the Secretary. Any power or authority granted to any representative or attorney-in-fact under the provisions of this article may be revoked at any time by the Board, the Chairman, the President or by the officer or officers granting such power or authority.

ARTICLE XIII - Execution of Contracts: Section 5. Surety Bonds and Undertakings.
Any officer of the Company authorized for that purpose in writing by the chairman or the president, and subject to such limitations as the chairman or the president may prescribe, shall appoint such attorneys-in-fact, as may be necessary to act in behalf of the Company to make, execute, seal, acknowledge and deliver as surety any and all undertakings, bonds, recognizances and other surety obligations. Such attorneys-in-fact, subject to the limitations set forth in their respective powers of attorney, shall have full power to bind the Company by their signature and execution of any such instruments and to attach thereto the seal of the Company. When so executed such instruments shall be as binding as if signed by the president and attested by the secretary.

Certificate of Designation – The President of the Company, acting pursuant to the Bylaws of the Company, authorizes David M. Carey, Assistant Secretary to appoint such attorneys-infact as may be necessary to act on behalf of the Company to make, execute, seal, acknowledge and deliver as surety any and all undertakings, bonds, recognizances and other surety obligations.

Authorization – By unanimous consent of the Company's Board of Directors, the Company consents that facsimile or mechanically reproduced signature of any assistant secretary of the Company, wherever appearing upon a certified copy of any power of attorney issued by the Company in connection with surety bonds, shall be valid and binding upon the Company with the same force and effect as though manually affixed.

I, Renee C. Llewellyn, the undersigned, Assistant Secretary, of Liberty Mutual Insurance Company, The Ohio Casualty Insurance Company, and West American Insurance Company do hereby certify that this power of attorney executed by said Companies is in full force and effect and has not been revoked.

IN TESTIMONY WHEREOF, I have hereunto set my hand and affixed the seals of said Companies this 1st day of April, 2024

Polk County

Board of County Commissioners

Agenda Item R.19. 6/16/2026

SUBJECT

Approve recommended changes to the functional classification of select Polk County roads: Golden Gate Blvd (No fiscal impact)

DESCRIPTION

The Functional Classification Committee is comprised of representatives from the following Department and Divisions: Office of Planning & Development, Polk Transportation Planning Organization, Transportation Engineering and Land Development. The purpose of the committee is to review the existing functional classification of Polk County roads, per the "County Road Functional Classification" criteria adopted by the Board on August 5, 1997. The committee makes recommendations regarding the reclassification of roads as necessary and appropriate.

The committee has reviewed the following road and made the following reclassification recommendation:

ROAD #	LOCATION	ROAD NAME	Road Segment	CURRENT FC	PROPOSED FC
750610	Polk City	Golden Gate Blvd	Mt. Olive Rd to Revelation Dr	Rural Minor Collector (RMC)	Local Residential (LR)

RECOMMENDATION

Request Board approve the County Road Functional Classifications as identified.

FISCAL IMPACT

No Fiscal Impact

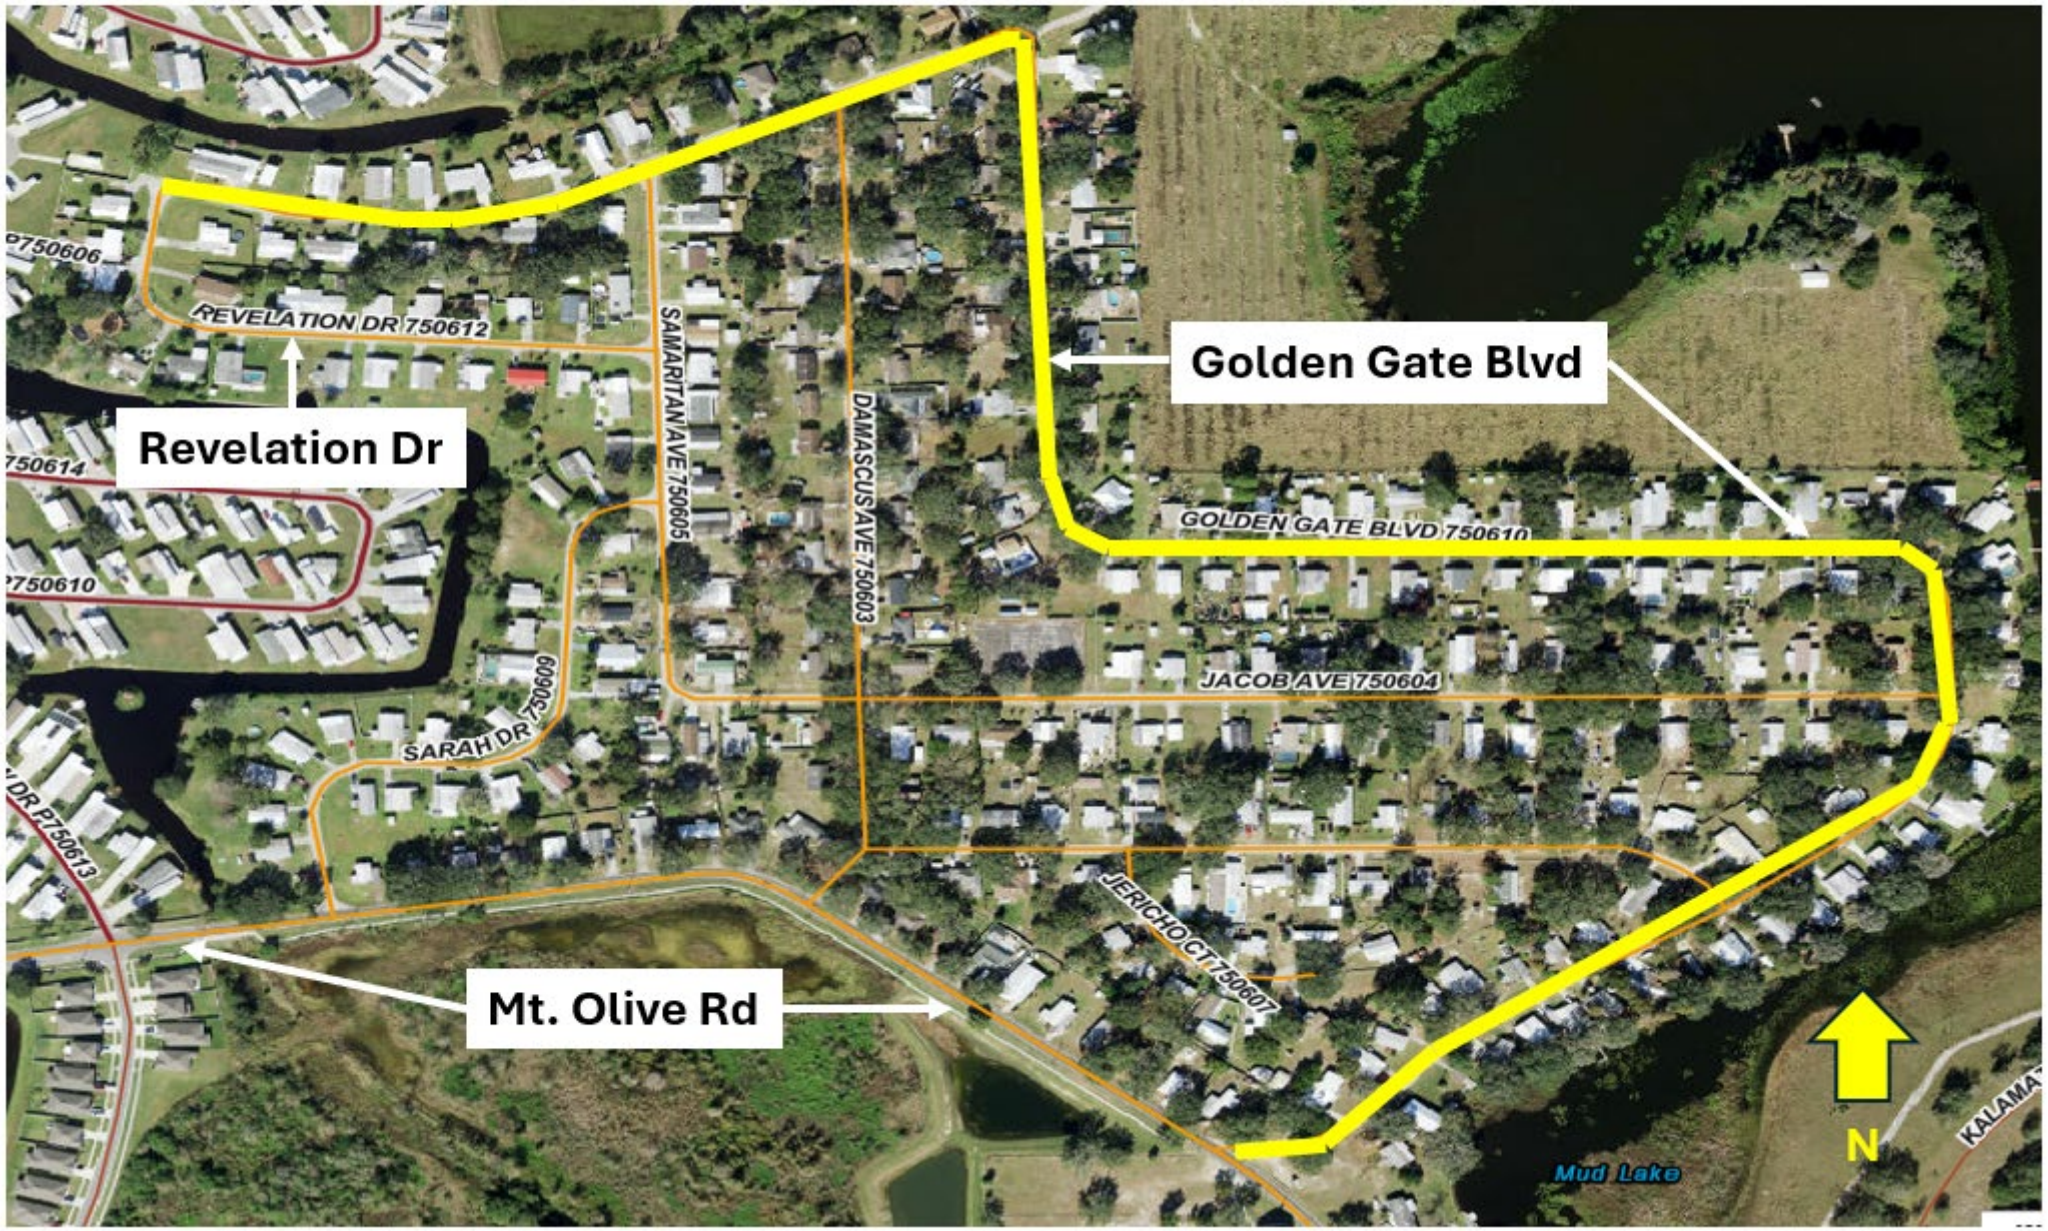
750610	Polk City	Golden Gate Blvd	Mt. Olive Rd to Revelation Dr	Rural Minor Collector (RMC)	Local Residential (LR)



COUNTY ROAD FUNCTIONAL CLASSIFICATION

EXHIBIT A.

Adopted 08/05/97

ROAD SYSTEM	DEFINITION *Definition, volume, spacing and % mileage are used as presumptive guide in assigning functional class.*	TRIP PURPOSES *These trip purposes are used to determine functional classification. Road class is assigned where one or more of listed criteria is met.*	ROAD CLASS	VOLUME/ SPACING	% MILEAGE	
					Urban	Rural
ARTERIAL	The arterial road system primarily serves through-traffic and provides access to abutting properties as a secondary function. Arterial roads provide the highest degree of mobility and serve the largest proportion of total travel, i.e. vehicle miles traveled (traffic volume x mileage). This system is composed of interstate highways, other principal arterials and minor arterials. Arterial roads serve trips between and through cities. Arterials should form a reasonably integrated system to handle trips between different areas of a city, and the length of a typical trip on the system should exceed one mile. Principal arterials interconnect the large activity centers within an urban area as well as important rural routes. Minor arterials interconnect with and augment the principal arterial system, distribute travel to smaller activity centers and geographic areas with the urban area, and connect to major collector roads. ***Travel Movement:*** Main Movement (Principal Arterial) Distributor (Minor Arterial)	**(a) Travel to and through urbanized areas.** A primary route that connects one urbanized area to another. **(b) Travel to and through small urban areas.** The Primary route connecting one small urban area to an adjacent small urban area, an adjacent urbanized area, or to the network of roads connecting urbanized areas to each other. **(c) Interstate and regional commerce.** A route which has a United States Route designation granted by the American Association of State Highway Transportation Officials is considered to serve the primary purpose of interstate commerce. Those roads which serve the purpose of travel to and through urbanized areas are considered to serve the needs of regional commerce and thus meet both trip purposes. **(d) Access to municipal airports and major rail terminals or intermodal transfer facilities.** **(e) Access to major public facilities.** The primary route providing access to the major point of entrance to a major public facility. Major public facilities are defined to include: universities or community colleges; regional medical centers; natural attractions, such as state parks, that draw from a regional area and serve an average daily attendance of 1,000 persons in a single area; manmade attractions, such as theme parks, that attract audiences from a regional area; publicly-owned cultural and historic facilities, such as performing arts centers, civic center, and museums, that attract from a regional area. **(f) Interconnection of major thoroughfares.** A route that provides a high volume cross-connection between roads that meet at least two of the above listed purposes. For this trip purpose, the term "high-volume" is defined as a road with at least 25% of the volume observed on the connected roads at a point within one-half mile of the applicable intersections.	**Principal Arterial** **Trip Purposes:** **(a) - (c)**	**≥ 25,000 ADT**	5-10%	2-4%
			Minor Arterial **Trip Purposes:** **(d) - (f)**	**≥ 10,000 and < 25,000** —— **½ mile (cbd) to 1 mile**	15 - 25% (Principal + Minor)	6-10% (Principal + Minor)
COLLECTOR	The collector road system provides land access and traffic circulation within residential neighborhoods - commercial and industrial areas. Collectors provide a mix of mobility and land access functions; however, the main function of collectors is to conduct traffic from local residential streets to arterials. Collectors do not handle long through- trips and are not, of necessity, continuous for any great length. This system is composed rural major collector roads, rural minor collector roads, and urban collectors (differentiation between major and minor classes is not made in urban areas). In urban areas, collectors serve internal traffic movements within an area of the city, such as a subdivision, and connect this area with the arterial system. In rural areas, major collectors serve generators of intracounty importance, e.g. important mining and agricultural areas, and link these places with nearby larger towns or cities. Rural minor collectors provide service to the remaining small communities and link locally important generators with rural hinterland. ***Travel Movement:*** Collection; Access	**(g) Access to minor public facilities.** The primary route providing access to the major point of entrance to a minor public facility. Minor public facilities are those which do not meet the requirements listed in Paragraph (e), above, and include manmade attractions and publicly-owned cultural and historical facilities that attract local audiences. **(h) Interconnection of minor thoroughfares.** A route that provides cross-connection between roads that meet at least one of the above listed purposes. **(i) Access to concentrated land use areas.** A route that connects major thoroughfares to concentrations of land use, such as the primary connection to a community, large residential subdivision, neighborhood shopping center, or a public facility serving a local audience. **(j) Access to diffuse land use areas.** A route that connects major thoroughfares to diffuse areas of a single or mixed land use, such as the primary connection to a farming area consisting of large acreage tracts or scattered small residential developments.	**Urban Collector** **Trip Purposes:** **(g) - (i)**	**≥ 1,500 and < 10,000** —— **½ mile**	5-10%	20 - 25%
			Rural Major Collector **Trip Purposes:** **(g) - (i)**	**≥ 1,500 and < 10,000**		
			Rural Minor Collector **Trip Purpose: (j)**	**< 1,500**		
LOCAL	This road system comprises all roadways not on the arterial or collector system. Local streets primarily provide direct access to abutting land uses such as homes, and through-traffic movement is deliberately discouraged. These streets make up a large percentage of the total street mileage but carry a small proportion of the vehicle miles in travel. ***Travel Movement:*** Access; Termination	**(k) Travel between home and the nearest road on the primary road network composed of arterial and collector roads.** A route that connects residences to the roads serving longer trips, e.g., roads within a residential subdivision. **(l) Travel between commercial, industrial, and agricultural areas and the nearest road on the primary road network composed of arterial and collector roads.** A route that connects clusters of commercial, industrial, agricultural or mixed-residential land uses to the roads serving longer trips, e.g., roads within an industrial park.	**Local Residential** **Trip Purpose: (k)**	**< 1,500**	65 - 80%	65 - 75%
			Local Commercial **Trip Purpose: (l)**	**< 1,500**		

Golden Gate Blvd from Mt. Olive Rd to Revelation Dr
(RMC to LR)

Agenda Item R.20. 6/16/2026

SUBJECT

Approve Subcontract Amendment two between the Ounce of Prevention Fund of Florida, Healthy Families Florida, and Polk County, a political subdivision of the State of Florida (Healthy Families Polk) Fiscal Year 2026-2027. ($1,580,498 one-time revenue and $2,092,538 one-time expense)

DESCRIPTION

On December 8, 1998, the Board approved the initial contract to partner with The Ounce of Prevention Fund of Florida, Healthy Families Florida to support Healthy Families Polk, which is a home visitation program that promotes positive parenting, self-sufficiency, healthy child development, and prevents poor childhood outcomes such as abuse and neglect.

Amendment two will renew and amend The Ounce of Prevention Fund of Florida contract effective July 1, 2026 through June 30, 2031. The contract number will change to #25-31-31.

The Ounce of Prevention Fund of Florida through Healthy Families Florida will provide base funding of $1,446,553 and a one-time non-reoccurring amount of $133,945 for a total revenue amount of $1,580,498.
The County (Healthy Families Polk) will provide and maintain the minimum required cash match of $361,639 plus an additional $1,730,899 in order to fund the County's ongoing salary plan, for a total expense amount of $2,092,538.

RECOMMENDATION

Request board approval of Subcontract Amendment two between the Ounce of Prevention Fund of Florida, Healthy Families Florida, and Polk County, a political subdivision of the State of Florida, for the provision of Healthy Families Polk services in Fiscal Year 2026-2027.

FISCAL IMPACT

Funds are budgeted in the Special Revenue Grant Fund and General Fund.

AMENDMENT TO A SUBCONTRACT BETWEEN THE OUNCE OF PREVENTION FUND OF FLORIDA / HEALTHY FAMILIES FLORIDA AND POLK COUNTY, A POLITICAL SUBDIVISION OF THE STATE OF FLORIDA

SUBCONTRACT AMENDMENT #002 FY 2026-2027

THIS AMENDMENT is entered into between the Ounce of Prevention Fund of Florida, hereinafter referred to as "OPFF," and Healthy Families Florida, hereinafter referred to as "HFF", and Polk County, a political subdivision of the State of Florida (HF Polk), hereinafter referred to as the "Provider", for the provision of Healthy Families Florida as outlined below:

Amendment #0001, effective 2/1/2026, changes in: reduction to "Other" contributions; contract language as noted; revised deliverables table; revised attachments.

Amendment #0002, effective 7/1/2026, Contract number changed from 25-30-31 to 25-31-31 due to contract term change; revised contributions; staffing patterns; contract language as noted; revised deliverables table; revised attachments.

Subcontract **Section 1. ENGAGEMENT, TERM AND CONTRACT DOCUMENT**, is hereby deleted and the following is inserted in lieu thereof:

1. ENGAGEMENT, TERM AND CONTRACT DOCUMENT

1.1. Purpose and Contract Amount

The **OPFF/HFF** is engaging the Provider to offering a prevention program that uses intensive home visiting services to meet the needs of a family. The program is designed to improve the development and life outcomes of children and to preserve and strengthen families with a primary emphasis on the prevention of child maltreatment, in accordance with the terms and conditions specified in this Subcontract including all attachments and exhibits, which constitute the Subcontract document as further described in Section 2. Payable as provided in Section 3 hereof, with an annual amount not to exceed **$1,580,498.00,** as allocated below:

- Ounce of Prevention Base Grant amount $**1,446,553.00,**
- Ounce of Prevention One-time non-recurring amount of **$133,945.00,**

All funding is subject to the availability of funds. This grant amount will cover Fiscal Year **2026-2027** as further described in Section 3 hereof, payable as provided in Section 3.1. Fiscal Year grant amount will be contingent upon the Florida Legislature approved budgets. Any costs or services paid for under any other Subcontract or from any other source are not eligible for payment under this

1.1.1 Cash and In-Kind Contributions

1.1.1.1. The Provider shall provide and maintain a minimum of **$361,639,** which represents a twenty-five percent (25%) contribution towards the OPFF/ HFF grant funds for the HFF program. The 25% required contribution will apply to Fiscal Year **2026-2027**. The Provider's cash and in-kind contribution for the Fiscal Year **2026-2027** subcontract period is $**361,639.00** which represents **25%** percent (%) of the OPFF/HFF grant funds. The Provider's Other contributions for the Fiscal Year **2026-2027** subcontract period are $**1,730,899.00** which represents **119.7%** (%) of the OPFF/HFF grant funds but is not included in the 25% match requirement.

1.1.1.2. If the Provider is unable to meet the minimum requirement of the cash and/or in-kind contribution, the Provider must submit a letter with this Subcontract justifying why the site is unable to meet the minimum requirement. Organizations providing cash or in-kind contributions must submit a letter on their organization's letterhead signed by an authorized official of the organization with the contract or amendment.

Subcontract **Section 1.2– <u>EFFECTIVE AND END DATE</u>**, is hereby deleted and the following is inserted in lieu thereof:

1.2. Effective and End Date

1.2.1. This Contract shall be effective **<u>July 1, 2025,</u>** or the last party signature date, whichever is later (Effective Date). The service performance period under this Contract shall commence on **<u>July 1, 2025,</u>** or the Effective Date of this Contract, whichever is later, and shall end at midnight, Eastern time, on **<u>June 30, 2031</u>** (End Date), subject to the survival of terms provisions of 7.4. Any earlier termination of this Contract amends the End Date.

1.2.2. This Subcontract will be amended annually based on availability of State Funds and satisfactory outcomes and performance. If this Subcontract is renewed, the HFF grant funding will be based on the budget approved by the Florida Legislature.

1.2.3. This Subcontract may be renewed in accordance with §§287.057(14) or 287.058(1)(g), Florida Statutes (F.S.).

Subcontract **Section 1.3.3. - <u>OFFICIAL PAYEE AND PARTY REPRESENTATIVES TABLE</u>**, is hereby deleted and the following is inserted in lieu thereof:

1.3. Official Payee and Party Representatives

1.3.1. Per section 402.7305(1)(a), Florida Statutes (F.S.), the Contract Specialist is the primary point of contact through which all contracting information flows between the OPFF and the Provider.

1.3.2. Upon change of representatives (names, addresses, telephone numbers or e-mail addresses) by either party, notice shall be provided in writing to the other party prior to the change.

1.3.3. Changes to contact information for persons identified in 1.3 can be by Notice.

a. Lead Agency Organization Name	Polk County, a political subdivision of the State of Florida

The name, address, telephone number, fax number and e-mail of the **Polk backup** representative **(add position title)** responsible for administration of the HF program under this Subcontract:	Back-Up Contact's Name: Minelia Berrios-Gonzalez Address: HS10, P. O. Box 9005 City/State/Zip Code: Bartow, FL 33813 Phone Number & Ext: 863-534-5258 Cell Number: 863 289-1037 Fax Number: 863-534-7042 E-mail: mineliaBerrios-Gonzalez@polkfl.gov
h. The contact information of the **Training Contact is the same as the Program Manager**	
i. The name, address, telephone number, fax number and e-mail address of the Contract Specialist for this Subcontract are:	Suzie Godfrey, HFF Subcontract Specialist Healthy Families Florida 325 John Knox Road, Building L, Suite 200 Tallahassee, Florida 32303 Phone: 850-488-1752 x 104 Cell: 850-755-7848 Fax:850-488-5562 Deliverables: Hffdeliverables@ounce.org E-mail: sgodfrey@ounce.org

Subcontract **Section 4.1.1.3.6– FOUNDATIONS OF DISABILITY RIGHTS ONLINE TRAINING AND ATTESTATION**, is hereby deleted and the following is inserted in lieu thereof:

4.1.1.3.6 Foundations of Disability Rights Online Training and Attestation - The Department requires each Contract/Subcontract Provider agency's direct service employees to complete **Foundations of Disability Rights Online training** and sign **Attachment 16 – Foundations of Disability Rights Attestation**. The training and the attestation must be completed upon hire and **annually by April 25th.** Direct service employees performing under this Subcontract will also print their certificate of completion, attach it to their Attestation of Understanding (http://www.dcf.state.fl.us/admin/training/docs/DCF%20Attestation%20Form.pdf), and maintain them in their personnel file. The training is located in the MyFLLearn system. https://www.myflfamilies.com/services/child-family/child-and-family-well-being/my-fl-learn.

Subcontract **Section 4.1.1.3.7– FOUNDATIONS OF DISABILITY RIGHTS ONLINE TRAINING**, is hereby deleted and the following is inserted in lieu thereof:

4.1.1.3.7. Foundations of Disability Rights On-Line Training - The Provider must submit an original notarized **Attachment 21- Letter of Affidavit for DCF Required On-line Training** to Hffdeliverables@ounce.org **annually by April 30th** attesting that **all** employees, including HFF Grant, Subcontracted and Contribution funded staff, have completed the Foundations of Disability Rights, online training. The affidavit also attests that the completed certificates and signed attestations forms have been printed and are maintained in each employee's personnel file. The contract specialist will send the templated **Attachment 21- Letter of Affidavit for DCF Required On-line Training** out upon DCF notification of updated training.

Subcontract **Section 4.16.1– EMPLOYMENT SCREENING**, is hereby deleted and the following is inserted in lieu thereof:

4.16.1. As described in CFOP 60-25, Chapter 2 (implementing §110.1127, F.S.), as a condition of

initial and continued employment, the Provider shall ensure all staff, whether employees or independent contractors, are screened by the Department in accordance with chapter 435, F.S., are of good moral character and meet the Level 2 Employment Screening standards in §§435.04, 110.1127, and 39.001(2), F.S., including:

4.16.1.1. Employment history checks

4.16.1.2. Fingerprinting for all criminal record checks;

4.16.1.3. Statewide criminal and juvenile delinquency records checks through the Florida Department of Law Enforcement (FDLE);

4.16.1.4. Federal criminal records checks from the Federal Bureau of Investigation via the Florida Department of Law Enforcement;

4.16.1.5. Security background investigation, which may include criminal record checks by local law enforcement agencies; and

4.16.1.6. Attestation by each employee, subject to penalty of perjury, to meeting the requirements for qualifying for employment pursuant to chapter 435, F.S., and agreeing to inform the employer immediately if arrested for any of the disqualifying offenses while employed by the employer.

4.16.1.7. A security background investigation under this section also includes a search of the sexual predator and sexual offender registries of any state in which the current or prospective employee resided during the immediate preceding 5 years.

Subcontract **Section 5.3.3.3 – HIPAA AFFIDAVIT**, is hereby deleted and the following is inserted in lieu thereof:

5.3.3.3. HIPAA Affidavit - The Provider must submit an original notarized **Attachment 21- Letter of Affidavit for DCF Required On-line Training** to Hffdeliverables@ounce.org **annually by April 30th** attesting that **all** employees, both HFF Grant and Contribution funded staff, have completed the Health Insurance Portability Accountability Act (HIPAA) online training. The affidavit also attests that the completed certificates have been printed and will be maintained in each employee's personnel file. The contract specialist will send the Letter of Affidavit on HIPAA Online Training template out upon notification of updated training.

Subcontract **Section 5.4.3 – DCF SECURITY AWARENESS AFFIDAVIT**, is hereby deleted and the following is inserted in lieu thereof:

5.4.3 DCF Security Awareness Affidavit - The Provider must submit an original notarized **Attachment 21- Letter of Affidavit for DCF Required On-line Training** to Hffdeliverables@ounce.org attesting that **all** employees, volunteers and interns, both HFF Grant and Contribution funded staff, have completed the Department of Children and Families Security Awareness Online Training. This training must be completed **annually by April 30th**. The affidavit also attests that the completed certificates are maintained in each employee's personnel file. The contract specialist will send the Letter of Affidavit on Department Security Awareness template out upon notification of updated training.

Subcontract **Exhibit C-2.1.1 - STAFF COMPOSITION TABLE**, is hereby deleted and the following is inserted in lieu thereof:

C-2.1.1 Staff Composition Table

The staff composition funded by HFF dollars and contributions is identified in the following table and based on a 40-hour work week.

Non-HFF Core Positions	Total # of FTEs	# of FTEs Funded by HFF Dollars	# of FTEs Funded by Cash Contributions	# of FTEs Funded by Other Funding

D-2 Emergency Preparedness Plan.

D.2.1 By March 31st, the site must submit the emergency preparedness plan that shall include provisions for pre-disaster records, computers and office equipment protection and recovery plan that will allow the Provider to continue functioning in compliance with the executed Subcontract in the event of an actual emergency. The plan shall also include how staff will communicate during/following an emergency, how staff will work with families on preparing for emergencies and how staff will help families recover from an emergency. This update must be submitted to Hffdeliverables@ounce.org.

D.2.2 The OPFF agrees to respond in writing within 30 days of receipt of the plan accepting, rejecting, or requesting modifications. In the event of an emergency, the OPFF may exercise oversight authority over such Provider in order to assure implementation of agreed emergency relief provisions.

D-3 Policies and Procedures

Submit the updated Policies and Procedures, using the updated HFF Policies and Procedures. Review, revise and submit all Policies and Procedures, by **November 30th**. The updated Policies and Procedures must be submitted to Hffdeliverables@ounce.org.

Attachment 1 - Financial Compliance CF 1120 FY 25-26 is hereby deleted in its entirety and replaced with **Attachment 1 - Financial Compliance CF 1120** for FY 2026-2027 with revised language.

Attachment 3a- Initial Budget and Revenue Summary FY 25-26 is hereby deleted in its entirety and replaced with **Attachment 3a** - Budget and Revenue Summary for FY 2026-2027.

Attachment 6- Civil Rights Compliance Checklist FY 25-26 is hereby deleted in its entirety and replaced with **Attachment 6- Civil Rights Compliance Checklist** for FY 2026-2027.

Attachment 7 - Single-Point-of-Contact Information FY 25-26 is hereby deleted in its entirety and replaced with **Attachment 7 - Single-Point-of-Contact Information** for FY 2026-2027.

Attachment 8 -Organizational Chart FY 25-26 is hereby deleted in its entirety and replaced with **Attachment 8 -Organizational Chart** for FY 2026-2027.

Attachment 12 - Executive Compensation Annual Report FY 25-26 is hereby deleted in its entirety and replaced with **Attachment 12 - Executive Compensation Annual Report** for FY 2026-2027.

Attachment 22 - Information Resource Request Form FY 25-26 is hereby deleted in its entirety and replaced with a revised Attachment 22 - Information Resource Request Form FY 26-27 for FY 2026-2027.

ATTACHMENT 1
FINANCIAL COMPLIANCE

The administration of resources awarded by the Department to the Provider may be subject to audits as described in this Attachment.

1. MONITORING

1.1. In addition to reviews of audits conducted in accordance with 2 CFR §§200.500- 200.521 and §215.97, F.S., as revised, the Department may monitor or conduct oversight reviews to evaluate compliance with contract, management, and programmatic requirements. Monitoring or oversight reviews include on-site visits by Department staff, agreed-upon-procedures engagements as described in 2 CFR §200.425, or other procedures. By entering into this agreement, the Provider shall comply and cooperate with any monitoring or oversight reviews deemed appropriate by the Department. In the event the Department determines that a limited scope audit of the Provider is appropriate, the Provider shall comply with any additional instructions provided by the Department regarding such audit. The Provider shall comply and cooperate with any inspections, reviews, investigations, or audits deemed necessary by the Department's Inspector General, the state's Chief Financial Officer or the Auditor General.

2. AUDITS

2.1. Part I: Federal Requirements

2.1.1. This part is applicable if the Provider is a state or local government, or a nonprofit organization as defined in 2 CFR §§200.500-200.521.

2.1.2. In the event the Provider expends $750,000 ($1,000,000 for fiscal years beginning on or after October 1, 2024) or more in federal awards during its fiscal year, the Provider must have a single or program-specific audit conducted in accordance with the provisions of 2 CFR §§200.500-200.521. The Provider shall provide a copy of the single audit to the Department's Single Audit Unit and its contract manager. In the event the Provider expends less than $750,000 ($1,000,000 for fiscal years beginning on or after October 1, 2024) in federal awards during its fiscal year, the Provider shall provide certification to the Department's Single Audit Unit and its contract manager that a single audit was not required. If the Provider elects to have an audit that is not required by these provisions, the cost of the audit must be paid from non-federal resources. In determining the federal awards expended during its fiscal year, the Provider shall consider all sources of federal awards, including federal resources received from the Department of Children & Families, federal government (direct), other state agencies, and other non-state entities. The determination of amounts of federal awards expended shall be in accordance with guidelines established by 2 CFR §§200.500-200.521. An audit of the Provider conducted by the Auditor General in accordance with the provisions of 2 CFR Part 200 §§200.500-200.521 will meet the requirements of this part. In connection with the above audit requirements, the Provider shall fulfill the requirements relative to auditee responsibilities as provided in 2 CFR §200.508.

2.1.3. The audit's schedule of expenditures shall disclose the expenditures by contract number for each contract with the Department in effect during the audit period. The audit's financial statements shall disclose whether or not the matching requirement was met for each applicable contract. All questioned costs and liabilities due the Department shall be fully disclosed in the audit report package with reference to the specific contract number.

2.2. Part II: State Requirements

2.2.1. This part is applicable if the Provider is a non-state entity as defined by §215.97(2), F.S.

2.2.2. In the event the Provider expends $750,000 or more in state financial assistance during its fiscal year, the Provider must have a state single or project-specific audit conducted in accordance with §215.97, F.S.; applicable rules of the Department of Financial Services; and Chapters 10.550 (local governmental entities) or 10.650 (nonprofit and for-profit organizations), Rules of the Auditor General. The Provider shall provide a copy of the single audit to the Department's Single Audit Unit and itcontract manager. In the event the Provider expends less than $750,000 in state financial assistance during its fiscal year, the Provider shall provide certification to the Department's Single Audit Unit and its contract

manager that a single audit was not required. If the Provider elects to have an audit that is not required by these provisions, the cost of the audit must be paid from non-state resources. In determining the state financial assistance expended during its fiscal year, the Provider shall consider all sources of state financial assistance, including state financial assistance received from the Department of Children & Families, other state agencies, and other non-state entities. State financial assistance does not include federal direct or pass-through awards and resources received by a non-state entity for federal program matching requirements.

2.2.3. In connection with the audit requirements addressed in the preceding paragraph, the Provider shall ensure that the audit complies with the requirements of §215.97(8), F.S. This includes submission of a financial reporting package as defined by §215.97(2), F.S., and Chapters 10.550 or 10.650, Rules of the Auditor General.

2.2.4. The audit's schedule of expenditures shall disclose the expenditures by contract number for each contract with the Department in effect during the audit period. The audit's financial statements shall disclose whether or not the matching requirement was met for each applicable contract. All questioned costs and liabilities due the Department shall be fully disclosed in the audit report package with reference to the specific contract number.

2.3. Part III: Report Submission

2.3.1. Audit reporting packages (including management letters, if issued) required pursuant to this agreement shall be submitted to the Department within 30 (federal) or 45 (state) days of the Provider's receipt of the audit report or within nine months after the end of the Provider's audit period, whichever occurs first, directly to each of the following unless otherwise required by Florida Statutes:

2.3.1.1. The Contract Manager for this contract (1 electronic copy, 1 hard copy and management letter, if issued):

OPFF/Healthy Families Florida
Attn: Suzie Godfrey
111 North Gadsden Street
Tallahassee, FL 32301
Email address: sgodfrey@ounce.org

2.3.1.2. Department of Children & Families, Office of the Inspector General, Single Audit Unit HQW.IG.Single.Audit@myflfamilies.com.

2.3.1.3. Reporting packages required by **Part I** of this attachment shall be submitted, when required by 2 CFR §200.512 (d), by or on behalf of the Provider directly to the Federal Audit Clearinghouse using the Federal Audit Clearinghouse's Internet Data Entry System, located at: https://www.fac.gov/, and other federal agencies and pass-through entities in accordance with 2 CFR §200.512.

2.3.1.4. Reporting packages required by **Part II** of this agreement shall be submitted by or on behalf of the Provider directly to the state Auditor General (one paper copy and one electronic copy) at:

Auditor General
Local Government Audits/251
Claude Pepper Building, Room 401
111 West Madison Street Tallahassee, Florida 32399-1450
Email address: flaudgen_localgovt@aud.state.fl.us.

The Auditor General's website (https://flauditor.gov) provides instructions for filing an electronic copy of a financial reporting package.

2.3.2. When submitting reporting packages to the Department for audits done in accordance with 2 CFR §§200.500-200.521, or Chapters 10.550 (local governmental entities), or 10.650 (nonprofit or for-profit organizations), Rules of the Auditor General, the Provider shall include correspondence from the auditor indicating the date the audit report package was delivered to the Provider. When such correspondence is not available, the date that the audit report package was delivered by the auditor to the Provider must be indicated in correspondence submitted to the Department in

accordance with Chapter 10.558(3) or Chapter 10.657(2), Rules of the Auditor General.

2.3.3. Certifications that audits were not required shall be submitted within 90 days of the end of the Provider's audit period.

2.3.4. Any other reports and information required to be submitted to the Department pursuant to this attachment shall be done so timely.

2.4. Record Retention

The Provider shall retain sufficient records demonstrating its compliance with the terms of this agreement for a period of six years from the date the audit report is issued and shall allow the Department or its designee, Chief Financial Officer or Auditor General access to such records upon request. The Provider shall ensure that audit working papers are made available to the Department or its designee, Chief Financial Officer or Auditor General upon request for a period of three years from the date the audit report is issued, unless extended in writing by the Department.

Executive Compensation Annual Report

Instructions: Upon entering into a contract with the Department of Children and Families (Department), and annually by May 1 of each year, providers in a contract with the Department must complete Sections 1 and 2 of this form, and Section 3 if required. Completion of this document is required to comply with the Federal Funding Accountability and Transparency Act (FFATA) and Executive Order 20-44. All references to entity or contract(s) in Sections 2 and 3 shall refer to the Entity and Contract(s) identified in Section 1. Upon completion submit this form to the relevant Department Contract manager(s).

Section 1: Attestation

I swear (or affirm) to my authority to make binding representations on behalf of the entity listed below, the information contained in this document is accurate and complete to the best of the below-listed entity's knowledge, and both I and the below-listed entity intend the Department rely upon the information contained in this document.

Type of Identification Produced: _____

Section 2: Qualifying Questions

1) Did one or more of the contract(s) result from the Entity being named in federal law or Florida Statutes (substantive or appropriation) as the required recipient of a single source, public-private agreement?

☐ Yes ▣ No

2) During the preceding fiscal year, did the Entity receive 50% or more of its budget from either the State of Florida or from a combination of State and Federal funds?

☐ Yes ▣ No

3) During the preceding fiscal year, did the Entity: (a) receive more than $25 million in total federal funding, (b) the federal funds so received accounted for more than 80% of the Provider's annual gross revenue, and (c) was the compensation of top five executives for the preceding fiscal year not available publicly?

☐ Yes ▣ No

If the answer to **any** question in this section is Yes, you must proceed to and complete **Section 3**. Otherwise, submit this form to your relevant Department Contract Manager.

Section 3: Annual Executive Compensation Report

Attach the latest copy of the Entity's most recent IRS Form 990 and complete the following. If the IRS 990 form is unavailable for the last fiscal year, please explain why:

List the Entity's current directors, board members, chief executive officer, chief financial officer, chief operating officer, and any other person performing equivalent functions by their title, total annual compensation, and the percentage of compensation from state (FL %) or federal (Fed %) allocations. If any executive compensation changes prior to the next annual report, the Entity must submit an updated version of this report with those changes, and their total annual compensation. Total annual compensation includes salary, bonuses, cashed-in-leave, cash equivalents, paid personal leave, severance pay, retirement benefits, deferred compensation, real-property gifts, and any other payout [see also 17 CFR 229.402(c)(2)]. Include the percentage of the total compensation directly from the state or federal allocations to the contracted entity. If any of the above-listed persons also receive compensation from organizations that: (a) created or were created by the Entity; (b) that were created by any of the above-listed persons whose compensation therefrom also derives from state or federal allocations; or (c) contract with the Entity, then identify the organization(s), their relationship with the Entity or the above listed person, and that person's annual compensation from each such organization, and the percentage of that compensation from state (FL %) or federal (Fed %) allocations. The Entity is not required to disclose the additional compensation a person receives from organizations that contract with the Entity if the above listed person was identified solely upon the person's status as an uncompensated member of the Entity's board of directors, whatever the person's actual title in the organization.

Protocol for the Purchase of Property Purchased with HFF Grant Funding

Protocol for the Purchase of Property

All technology, furniture and phones purchased with HFF Grant funds must be pre-approved by the Department of Children and Families (Department). If a technology/furniture/phone purchase is made without Department approval the cost will not be reimbursed. Once an approved IRR is sent to the site the purchase must be made within 30 days or the IRR is invalid. DCF now requires that the order confirmation for the approved IRR items be sent to sgodfrey@ounce.org within 28 days of the IRR approval date. All approved purchases made between April and June must be made, delivered, installed, paid for and invoiced no later than the June invoice. If the payment is made after June 30th, the cost will not be reimbursed by the Department or OPFF.

A formal contract/amendment is required prior to the purchase of any property item not specifically listed in the approved budget. The amendment must be approved by the Department prior to execution by the parties. Once the Department receives the executed amendment, then the IRR may be sent to the Department. The IRR and quotes must be submitted to the contract specialist at sgodfrey@ounce.org.

The contract specialist will review the request and then send it to management for review. If the documentation is in order, it is sent back to the contract specialist and the contract specialist will submit the IRR and quotes to the Department contract manager for approval. If modifications are necessary, the contract specialist will contact the staff person who submitted the request. Upon Department approval, the contract specialist will notify the site. The site must not make any purchase until the contract specialist has emailed final Department approval to the staff person who submitted the request.

Ensure that all technology/furniture/phones purchased with HFF Grant funds are sufficiently covered by your insurance policy for replacement value. If technology/furniture/phones purchased with HFF Grant funds is destroyed, stolen or lost, there must be sufficient insurance coverage to replace the item at no additional cost to HFF.

Obtaining Approval to Purchase Technology Equipment Using Ounce of Prevention/HFF Grant Funds

All sites must submit an Information Resource Request (IRR) form and quotes (using the least expensive options available) for each type of technology/equipment/furniture/phone being requested to the contract specialist sgodfrey@ounce.org.

All quotes must:

1. Show all detailed equipment specifications for each piece of technology listed on the quote
2. Number of each type of item requested (if you want 5 desktops and 3 laptops the quotes must reflect those numbers)
3. Required 3-year warranty (what the coverage includes) on all computers
4. Required 3-year license for Endpoint encryption software on all laptop computers
5. Legible vendor contact information, link to the item and the date quote was pulled

6. Quotes should be locked in for at least 30 days to allow time for the approval process,
7. Ensure that the quotes are legible and clear when submitted
8. Saved in the following format "name of site, name of vendor and type of equipment"

An IRR is not needed to purchase a mouse, flash drive or keyboard (unless the items are specialized or cost is higher than a basic model). The purchase request must be for the lowest priced item. The site's budget must include sufficient funds for the full purchase price prior to submitting a request. The last date to request an IRR for the fiscal year will be noted during the lapse planning time frame, unless a different time frame is specified by DCF**.**

An IRR is needed for purchasing:

1. Any type of technology regardless of cost. Examples include but are not limited to:
   a. Computers (Desk or Laptop)
   b. Monitors
   c. Tablets
   d. Docking Stations
   e. DVD players
   f. Televisions
   g. Projectors
   h. Cameras
   i. Phones
   j. Digital storage devices
   k. Specialized keyboards
   l. Headsets
   m. Web cameras
2. **Any** software other than Microsoft Office Suite or basic Adobe
3. **Licenses** (Computer / Digital / Virtual Meeting)
4. **Furniture** - Examples include but are not limited to:
   a. **Desk** (Regular / Module / Stand -up)
   b. **Chairs** (Desk, Office, conference)
   c. **Cabinets** (file / storage / other)
   d. **Tables** (End tables/conference/other)
   e. Module walls
   f. Bookshelf
   g. Specialized furniture
5. Items with a purchase price, **or** value of $1,000 or more
6. Items that have a life of 12 months **or** longer

Installation/Assembly Fees – If using HFF Grant funds, this type of expense must also be included on the IRR along with quotes in section B located on page 2.

All items purchased using HFF Grant funds must have a property inventory tag and be listed on the Cumulative Property Inventory.

For equipment or items not listed above, contact Suzie Godfrey at 850-782-4038 or email sgodfrey@ounce.org for verification that the items are allowable prior to purchasing any of these items. If you purchase before receiving an approved IRR DCF will ***not*** reimburse that expense and the lead agency must cover the expense.

For additional information or support please contact:
Suzie Godfrey - sgodfrey@ounce.org - 850-782-4038

AFFIDAVIT OF GOOD MORAL CHARACTER

State of Florida County of _____

Before me this day personally appeared _____ who, being duly
(Applicant's/Employee's Name)
sworn, deposes and says:

As an applicant for employment with, an employee of, a volunteer for, or an applicant for certification with _____, I affirm and attest under penalty of perjury that I meet the moral character requirements for employment, as required by the Florida Statutes and rules, in that:

I have not been arrested with disposition pending or found guilty of, regardless of adjudication, or entered a plea of nolo contender or guilty to or have been adjudicated delinquent and the record has not been sealed or expunged for, any offense prohibited under any of the following provisions of the Florida Statutes or under any similar statute of another jurisdiction for any of the offenses listed below:

	Relating to:
Section: 39.205	failure to report child abuse, abandonment, or neglect

April 14, 2026

The Ounce of Prevention Fund of Florida
Healthy Families Florida
111 North Gadsden Street, Suite 200
Tallahassee, FL 32301-1507

To Whom It May Concern:

The State Fiscal Year 2025/2026 contract between the Ounce of Prevention Fund of Florida/Healthy Families Florida and the Polk County Board of County Commissioners will be presented to the Board after July 15, 2026.

The contract provides as follows:

$361,639.00 Polk County cash match

$1,730,899.00 Polk County other funding

The matching and other funding will be used to support salaries, wages, payroll taxes, benefits and other expenses not paid through Healthy Families Florida.

This approval is pending final approval and execution of the contract by the Polk County Board of County Commissioners.

Sincerely,

Marcia Andresen

Director

Agenda Item R.21. 6/16/2026

SUBJECT

Resolution to approve the 2026-2027, 2027-2028, 2028-2029 Local Housing Assistance Plan (LHAP) for the State Housing Initiatives Partnership (SHIP) Program. (No fiscal impact).

DESCRIPTION

In accordance with Chapter 420, Part VII, Florida Statutes, which governs the State Housing Initiatives Partnership (SHIP) Program, Polk County is required to prepare and submit a Local Housing Assistance Plan (LHAP) every three years. The LHAP establishes the County's housing assistance strategies and projected accomplishments for State Fiscal Years 2026-2027 through 2028 -2029 ensuring continued compliance with program requirements and eligibility for SHIP funding. The proposed LHAP maintains the County's existing housing strategies with revisions to certain program policies. Notable updates include modifications to the allowable expenditure limits for mobile home assistance activities. The SHIP program is anticipated to provide approximately $4.6 million annually. The Affordable Housing Advisory Committee (AHAC) reviewed and recommended the LHAP on April 16, 2026.

RECOMMENDATION

For the Board to approve the FY 2026-2027, 2027-2028, 2028-2029 Local Housing Assistance Plan and direct the Housing and Neighborhood Development Office to transmit the plan to the Florida Housing Finance Corporation for approval.

FISCAL IMPACT

No fiscal impact.

Exhibit D
67-37.005(1), F.A.C.
2026

CERTIFICATION TO
FLORIDA HOUSING FINANCE CORPORATION

Local Government or Interlocal Entity: Polk County

Certifies that:

(1) The availability of SHIP funds will be advertised pursuant to program requirements in 420.907-420.9079, Florida Statutes.

(2) All SHIP funds will be expended in a manner which will ensure that there will be no discrimination on the basis of race, color, national origin, sex, handicap, familial status, or religion.

(3) A process to determine eligibility and for selection of recipients for funds has been developed.

(4) Recipients of funds will be required to contractually commit to program guidelines and loan terms.

(5) Florida Housing will be notified promptly if the local government /interlocal entity will be unable to comply with any provision of the local housing assistance plan (LHAP).

(6) The LHAP provides a plan for the encumbrance of funds within twelve months of the end of the State fiscal year in which they are received and a plan for the expenditure of SHIP funds including allocation, program income and recaptured funds within 24 months following the end of the State fiscal year in which they are received.

(7) The LHAP conforms to the Local Government Comprehensive Plan, or that an amendment to the Local Government Comprehensive Plan will be initiated at the next available opportunity to insure conformance with the LHAP.

(8) Amendments to the approved LHAP shall be provided to the Florida Housing for review and/or approval within 21 days after adoption.

(9) The trust fund exists with a qualified depository for all SHIP funds as well as program income or recaptured funds.

(10) Amounts on deposit in the local housing assistance trust fund shall be invested as permitted by law.

(11) The local housing assistance trust fund shall be separately stated as a special revenue fund in the local governments audited financial statements (ACFR). An electronic copy of the ACFR or a hyperlink shall be provided to Florida Housing by June 30 of the applicable year.

(12) Evidence of compliance with the Florida Single Audit Act, as referenced in Section 215.97, F.S. shall be provided to Florida Housing by June 30 of the applicable year.

(13) SHIP funds will not be pledged for debt service on bonds.

(14) Developers receiving assistance from both SHIP and the Low-Income Housing Tax Credit (LIHTC) Program shall comply with the income, affordability and other LIHTC requirements, similarly, any units receiving assistance from other federal programs shall comply with all Federal and SHIP program requirements.

(15) Loans shall be provided for periods not exceeding 30 years, except for deferred payment loans or loans that extend beyond 30 years which continue to serve eligible persons.

(16) Rental Units constructed or rehabilitated with SHIP funds shall be monitored for compliance with tenant income requirements and affordability requirements or as required in Section 420.9075 (3)(e). To the extent another governmental entity provides periodic monitoring and determination, a municipality, county or local housing financing authority may rely on such monitoring and determination of tenant eligibility.

(17) The LHAP meets the requirements of Section 420.907-9079 FS, and Rule Chapter 67-37 FAC.

(18) The provisions of Chapter 83-220, Laws of Florida have not been implemented (except for Miami-Dade County).

A. Administrative Budget for each fiscal year covered in the Plan B. Timeline for Estimated Encumbrance and Expenditure C. Housing Delivery Goals Chart (HDGC) For Each Fiscal Year Covered in the plan D. Signed LHAP Certification E. Signed, dated, witnessed, or attested adopting resolution F. Ordinance: (If changed from the original creating ordinance) G. Interlocal Agreement H. Subordination Policy	

I. Program Details:

A. LG(s)

Name of Local Government	Polk County, a political subdivision of the State of Florida
Does this LHAP contain an interlocal agreement?	No
If yes, name of other local government(s)	N/A

B. Purpose of the program:

- To meet the housing needs of the very low, low, and moderate-income households;
- To expand production of and preserve affordable housing; and
- To further the housing element of the local government comprehensive plan specific to affordable housing.

C. Fiscal years covered by the Plan: 2026-2027,2027-2028,2028-2029

D. Governance: The SHIP Program is established in accordance with Section 420.907-9079, Florida Statutes and Chapter 67-37, Florida Administrative Code. Cities and Counties must be in compliance with these applicable statutes, rules and any additional requirements as established through the Legislative process.

E. Local Housing Partnership: The SHIP Program encourages building active partnerships between government, lending institutions, builders and developers, not-for-profit and community-based housing providers and service organizations, providers of professional services related to affordable housing, advocates for low-income persons, real estate professionals, persons or entities that can provide housing or support services and lead agencies of the local continuums of care.

F. Leveraging: The Plan is intended to increase the availability of affordable residential units by combining local resources and cost saving measures into a local housing partnership and using public and private funds to reduce the cost of housing. SHIP funds may be leveraged with or used to supplement other Florida Housing Finance Corporation programs and to provide local match to obtain federal housing grants or programs.

G. Public Input: Public input was solicited through face-to-face meetings with housing providers, social service providers and local lenders and neighborhood associations. Public input was solicited through the local newspaper in the advertising of the Local Housing Assistance Plan and the Notice of Funding Availability.

H. Advertising and Outreach: SHIP funding availability shall be advertised in a newspaper of general circulation and periodicals serving ethnic and diverse neighborhoods, at least 30 days before the beginning of the application period. If no funding is available due to a waiting list, no notice of funding availability is required.

I. Waiting List/Priorities: A waiting list will be established when there are eligible applicants for strategies that no longer have funding available. Those households on the waiting list will be notified of their status. Applicants will be maintained in an order that is consistent with the time completed applications

were submitted as well as any established funding priorities as described in this plan.

The following priorities for funding (very low income, Special Needs, etc.) described/listed here apply to all strategies unless otherwise stated in an individual strategy in Section II:

Polk County will accept applications during the advertised "Application Period" which will be 30 days from the publication of the Notice of Funding Availability advertisement. Applications will be placed in order of receipt and separated based on strategy applied for. When funds are available for a particular strategy, the applicants from the waiting list will be contacted to complete/update the application for SHIP assistance. Applicants will be placed in the queue for assistance once they have provided all required documentation and been deemed SHIP eligible.

Ranking Priority:

1. Special Needs Households
   a. Very low
   b. Low
   c. Moderate
2. After Special Needs Set-asides are met
   a. Very Low
   b. Low
   c. Moderate

3. For the Demolition/Reconstruction Strategy priority will be given to those homes that are owned by the elderly defined as over age 62 and homes which are uninhabitable.

4. Essential Service Personnel – see definition under letter T.

J. **Discrimination:** In accordance with the provisions of ss.760.20-760.37, it is unlawful to discriminate on the basis of race, color, religion, sex, national origin, age, handicap, or marital status in the award application process for eligible housing.

K. **Support Services and Counseling:** Support services are available from various sources. Available support services may include but are not limited to: Homeownership Counseling (Pre and Post), Credit Counseling, Tenant Counseling, Foreclosure Counseling and Transportation, and Heirs' Property Title Clearing Services.

L. **Purchase Price Limits:** The sales price or value of new or existing eligible housing may not exceed 90% of the average area purchase price in the statistical area in which the eligible housing is located. Such an average area purchase price may be calculated for any 12-month period beginning not earlier than the fourth calendar year prior to the year in which the award occurs. The sales price of new and existing units, which can be lower but may not exceed 90% of the average area purchase price established by the U.S. Treasury Department or as described above.
The methodology used is:

U.S. Treasury Department	X
Local HFA Numbers	

M. **Income Limits, Rent Limits and Affordability:** The Income and Rent Limits used in the SHIP Program are

updated annually by the Department of Housing and Urban Development and posted at www.floridahousing.org.

"Affordable" means that monthly rents or mortgage payments including taxes and insurance do not exceed 30 percent of that amount which represents the percentage of the median annual gross income for the households as indicated in Sections 420.9071, F.S. However, it is not the intent to limit an individual household's ability to devote more than 30% of its income for housing, and housing for which a household devotes more than 30% of its income shall be deemed Affordable if the first institutional mortgage lender is satisfied that the household can afford mortgage payments in excess of the 30% benchmark and in the case of rental housing does not exceed those rental limits adjusted for bedroom size.

N. **Welfare Transition Program:** Should an eligible sponsor be used, a qualification system and selection criteria for applications for Awards to eligible sponsors shall be developed, which includes a description that demonstrates how eligible sponsors that employ personnel from the Welfare Transition Program will be given preference in the selection process.

O. **Monitoring and First Right of Refusal:** In the case of rental housing, the staff and any entity that has administrative authority for implementing the local housing assistance plan assisting rental developments shall annually monitor and determine tenant eligibility or, to the extent another governmental entity provides periodic monitoring and determination, a municipality, county, or local housing financing authority may rely on such monitoring and determination of tenant eligibility. However, any loan or grant in the original amount of $10,000 or less shall not be subject to these annual monitoring and determination of tenant eligibility requirements. Tenant eligibility will be monitored annually for no less than 15 years or the term of assistance whichever is longer unless as specified above. Eligible sponsors that offer rental housing for sale before 15 years or that have remaining mortgages funded under this program must give a first right of refusal to eligible nonprofit organizations for purchase at the current market value for continued occupancy by eligible persons.

P. **Administrative Budget:** A line-item budget is attached as Exhibit A. The city/county finds that the moneys deposited in the local housing assistance trust fund are necessary to administer and implement the local housing assistance plan.

Section 420.9075 Florida Statute and Chapter 67-37, Florida Administrative Code, states: *"A county or an eligible municipality may not exceed the 5 percent limitation on administrative costs, unless its governing body finds, by resolution, that 5 percent of the local housing distribution plus 5 percent of program income is insufficient to adequately pay the necessary costs of administering the local housing assistance plan."*

Section 420.9075 Florida Statute and Chapter 67-37, Florida Administrative Code, further states: *"The cost of administering the program may not exceed 10 percent of the local housing distribution plus 5 percent of program income deposited into the trust fund, except that small counties, as defined in s. 120.52(19), and eligible municipalities receiving a local housing distribution of up to $350,000 may use up to 10 percent of program income for administrative costs." The applicable local jurisdiction has adopted the above findings in the resolution attached as Exhibit E.*

Q. **Program Administration:** Administration of the local housing assistance plan will be performed by:

Entity	Duties	Admin. Fee Percentage
Polk County HND Staff	Oversight and management of grant funds	10%

R. **First-time Homebuyer Definition:** For any strategies designed for first-time homebuyers, the following definition will apply: *An individual who has had no ownership in a principal residence during the 3-year period ending on the date of purchase of the property. This includes a spouse (if either meets the above test, they are considered first-time homebuyers). A single parent who has only owned a home with a former spouse while married. An individual who is a displaced homemaker and has only owned with a spouse. An individual who has only owned a principal residence not permanently affixed to a permanent foundation in accordance with applicable regulations. An individual who has only owned a property that was not in compliance with state, local or model building codes, and which cannot be brought into compliance for less than the cost of constructing a permanent structure.*

S. **Project Delivery Costs:** Inhouse staff perform Project Delivery Costs that are associated with rehabilitation projects such as, but not limited to, inspections, assessments, recording fees, estimates and work write-ups which will be granted to the homeowner. Project delivery costs will not exceed 5% of the construction cost. Additional costs are performed by non-salaried vendors shall include survey fees, appraisal fees, title service fees, permitting fees, environmental testing fees, and septic tank pump outs. These additional costs are actual amounts of services and deliverables and will be in the form of a grant to the homeowner. All above will be included in the maximum award of assistance to the homeowner.

T. **Essential Service Personnel Definition (ESP):** ESP includes teachers and educators, other school district, community college, and university employees, police and fire personnel, health care personnel, skilled building trades personnel and Polk County government employees.

U. **Describe efforts to incorporate Green Building and Energy Saving products and processes:**

1. Low or No-VOC paint for all interior walls (Low-VOC means 50 grams per liter or less for flat paint; 150 grams per liter or less for non-flat paint);
2. Low-flow water fixtures in bathrooms—Watersense labeled products or the following specifications:
   a. Toilets: 1.6 gallons/flush or less,
   b. Faucets: 1.5 gallons/minute or less,
   c. Showerheads: 2.2 gallons/minute or less;
3. Energy Star qualified refrigerator.
4. Energy Star qualified exhaust fans in all bathrooms; and
5. Air conditioning: Minimum SEER of 14.

V. **Describe efforts to meet the 20% Special Needs set-aside:** The 20% Special Needs set-aside will be met through the Owner-Occupied Rehabilitation and Demolition/Reconstruction. Special Needs clients are moved to the top of the list for Owner-Occupied Rehabilitation and Demolition/Reconstruction programs. In addition, the County will provide outreach for the targeted population.

W. Describe efforts to reduce homelessness: The County works with agencies serving local homeless populations including the Homeless Coalition of Polk County and Lakeland, Winter Haven/Polk County Continuum of Care members. Assistance is primarily through rental assistance to place individuals or families in rental or transitional housing for the purpose of providing a stable housing situation for up to twelve months. HND staff members stay updated about funding sources to pay past due rents and offer move in assistance. The HND Office works closely with the lead agency of the Continuum of Care so that housing programs are complementary and not duplicative or working at cross purposes.

Polk County receives federal Emergency Solutions Grant (ESG) Funds each year which is passed through to local homeless assistance providers under a Request for Application (RFA) process. Funds awarded are used by local Emergency Shelters for operations and essential services. Rental assistance may be provided by an ESG Subrecipient. HND Staff makes referrals to the Polk County Veterans Services office and resources available to homeless veterans.

Section II. LHAP Housing Strategies:

A. Purchase Assistance	Code 1, 2

a. Summary: SHIP funds will be awarded for down payment and closing costs to households to purchase a newly constructed or existing home located in Polk County, Florida. A newly constructed home must have received a certificate of occupancy within the last twelve months. Polk County staff will administer and process purchase assistance.

b. Fiscal Years Covered: 2026-2027, 2027-2028, 2028-2029

c. Income Categories to be served: Very low, low, moderate

d. Maximum award:

Very Low:	$50,000
Low:	$40,000
Moderate:	$30,000

e. Terms:

1. Repayment loan/deferred loan: Funds will be awarded as a deferred subordinate loan secured by a recorded subordinate mortgage and note.
2. Interest Rate: 0%
3. Years in loan term: 5 Years
4. Forgiveness: Loan is forgiven at the end of the 5th year.
5. Repayment: Not required as long as the loan is in good standing.
6. Default: The loan will be determined to be in default if any of the following occurs during the Loan term: loss of homeowner's insurance, sale, transfer, or conveyance of property, conversion to a rental property, loss of homestead exemption status, or failure to occupy the home as primary residence, failure to pay property taxes. If any of these occur, the outstanding balance will be due and payable. In cases where the combined loan to value exceeds 100%, the amount

over 110% may not be subject to recapture, per the requirements of the first mortgage holder. In cases where the qualifying homeowner(s) die(s) during the loan term, the loan may be assumed by a SHIP eligible heir who will occupy the home as a primary residence. If the legal heir is not SHIP eligible or chooses not to occupy the home, the outstanding balance of the loan will be due and payable.

If the home is foreclosed on by a superior mortgage holder, the county will make an effort to recapture funds through the legal process if it is determined that adequate funds may be available to justify pursuing a repayment.

f. Recipient Selection Criteria: Applicants will be ranked for assistance based on a first-qualified, first- served basis with the priorities as outlined in Section I. Waiting List/Priorities. The home buyer must also meet the following qualifications:

1. Qualify for a first mortgage through a qualified lender or approved not for profit sponsor providing first mortgage financing;
2. Complete a HUD certified homebuyer education class within the 18 months prior to closing;
3. Contribute a minimum of $750 toward the purchase of the home.
4. In all cases, the buyer receives the benefit of SHIP assistance in the form of reduced purchase price and/or closing cost assistance classified as a first-time homebuyer. See definition letter R above.
5. The owner must have lived in Polk County, Florida one year prior to application for down payment and closing costs assistance or must work in Polk County Florida.
6. Must have a bank financed property, no lease to own and cannot have owned a home within the last three (3) years.

g. Sponsor Selection Criteria: N/A

h. Additional Information: The County has a Subordination Policy if there is a request to subordinate purchase assistance funds. The Polk County Subordination Policy is attached in Exhibit H. No household shall be assisted with purchase assistance more than once within a three (3) year period.

B. Demolition/Reconstruction	Code 4

a. Summary: SHIP funds will be used to provide replacement housing for eligible owner-occupied homes once the evaluation of costs for the rehabilitation exceeds fifty percent (50%) of the value of the existing housing unit. Only those dwellings occupied by eligible homeowners wishing to participate in a voluntary demolition program will be considered qualified for replacement if:

1. The home is found to be unfit for human habitation in accordance with standards set forth in the current Florida Building Code.
2. The homeowner has owned and occupied the dwelling to be demolished for not less than 365 days prior to execution of such an agreement.
3. May not ask for additional assistance for 15 years after new home has been constructed, except in the case of a declared disaster.
4. Applicants seeking assistance for a vacant lot must demonstrate that the property became vacant as a direct result of a damaging event that occurred within the past three (3) years.

b. Fiscal Years Covered: 2026-2027, 2027-2028, 2028-2029

c. Income Categories to be served: Very low and low

d. Maximum Award: $230,000

e. Terms:

1. Repayment deferred loan: Funds will be awarded as a deferred loan secured by a recorded subordinate mortgage and note.
2. Interest Rate: 0%
3. Years in loan term: 15 years.
4. Forgiveness: Loan is forgiven at the end of 15 years.
5. Repayment: Not required as long as the loan is in good standing.
6. Applicants must have a legally valid plan in place that addresses the disposition of the assisted property upon their death. This requirement may be satisfied through a will, trust, recorded deed (including, but not limited to, a life estate or enhance deed), beneficiary designation, or other legally recognized instrument. The plan must clearly identify the intended recipient(s) or provide a mechanism for determining ownership of the property after death. Documentation of such plan, in a form acceptable to the administering agency, must be provided prior to approval to ensure continuity of ownership and to protect the long-term integrity of the housing assistance program.
7. Default: The loan will be determined to be in default if any of the following occurs during the Loan term: loss of homeowner's insurance, sale, transfer, or conveyance of property, conversion to a rental property, loss of homestead exemption status, failure to occupy the home as primary residence, or failure to pay property taxes. If any of these occur, the outstanding balance will be due and payable.

   In cases where the qualifying homeowner(s) die(s) during the loan term, the loan may be assumed by a SHIP eligible heir who will occupy the home as a primary residence. If the legal heir is not SHIP eligible or chooses not to occupy the home, the outstanding balance of the loan will be due and payable.

   If the home is foreclosed on by a superior mortgage holder, the county will make an effort to recapture funds through the legal process if it is determined that adequate funds may be available to justify pursuing a repayment.

f. Recipient Selection Criteria: Applicants will be ranked for assistance based on a first-qualified, first served basis with the priorities as outlined in Section I. Waiting List/Priorities.

g. Sponsor Selection Criteria: N/A

h. Additional Information: Mobile homes and manufactured homes will not be eligible for assistance unless the owner agrees that the mobile/manufactured home will be removed from the site. Clients will be required to sign a Demolition Agreement for their existing mobile/manufactured home.

Applicants with existing mortgages are not eligible for this strategy. Once the client has

received a newly constructed home, no other assistance will be provided until after the fifteenth (15) year of occupancy except in the case of a declared disaster. ADA access requests will be reviewed on a case- by-case basis and approved by the Housing and Neighborhood Office Manager. Relocation funds of no more than $4,000 per client will be provided as a grant to the homeowner for this strategy. Homeowners assisted under this strategy will be required to obtain temporary housing on their own.

C. Owner Occupied Rehabilitation – Minor	Code 3

a. Summary: SHIP funds will be awarded to households in need of repairs to correct code violations, health and safety issues, roofing systems (including soffit and fascia), septic tanks, septic tank abandonment and sewer tie in, or wells and handicapped accessibility including ramps, grab bars, widen doors for access. Assistance from this strategy is based on the initial inspection/evaluation of the property and the estimated dollar amount of the work to be completed. Clients remain in the home and are not required to relocate under this strategy.

b. Fiscal Years Covered: 2026-2027, 2027-2028, 2028-2029

c. Income Categories to be served: Very low, and low

d. Maximum award: $ 55,000

e. Terms:

1. Deferred loan/grant: Funds for Minor Rehabilitation will be awarded as a deferred loan secured by a recorded subordinate mortgage/note.
2. Interest Rate: 0%
3. Years in loan term: 5 years.
4. Forgiveness: 5 years - loan is forgiven at the end of the 5th year.
5. Repayment: Not required as long as the loan is in good standing.
6. Applicants must have a legally valid plan in place that addresses the disposition of the assisted property upon their death. This requirement may be satisfied through a will, trust, recorded deed (including, but not limited to, a life estate or enhance deed), beneficiary designation, or other legally recognized instrument. The plan must clearly identify the intended recipient(s) or provide a mechanism for determining ownership of the property after death. Documentation of such plan, in a form acceptable to the administering agency, must be provided prior to approval to ensure continuity of ownership and to protect the long-term integrity of the housing assistance program.
7. Default: The loan will be determined to be in default if any of the following occurs during the Loan term: Sale, transfer, or conveyance of property, conversion to a rental property, loss of homestead exemption status, or failure to occupy the home as primary residence, failure to pay property taxes. If any of these occur, the outstanding balance will be due and payable.

In cases where the qualifying homeowner(s) die(s) during the loan term, the loan may be assumed by a SHIP eligible heir who will occupy the home as a primary residence. If the legal heir is not SHIP eligible or chooses not to occupy the home, the outstanding balance of the loan will be due and payable.

If the home is foreclosed on by a superior mortgage holder, the county will make an effort to recapture funds through the legal process if it is determined that adequate funds may be available to justify pursuing a repayment.

f. Recipient/Tenant Selection Criteria: Applicants will be ranked for assistance based on a first- qualified, first-served basis with the priorities as outlined in Section I. Waiting List/Priorities.

g. Sponsor Selection Criteria: N/A

h. Additional Information: Mobile and manufactured homes are not generally eligible for Minor Owner-Occupied Rehabilitation. However, if repairs are needed for households with special housing needs, as defined in 420.0004 (13), Florida Statutes, in a mobile or manufactured home, for health and safety purposes, the following may be provided: non-attached exterior ramps, septic systems,
sewer and water tie-ins. No work will be completed on the exterior structure or interior of the mobile and/or manufactured home. If there is a health and safety concern the case may be submitted to the Housing and Neighborhood Development Manager for review and potential approval.. SHIP funds for this Strategy will be awarded to any qualified applicant one-time every five years, except in the case of a declared disaster. Condominiums, duplexes, and triplexes ae not eligible for minor repair services.

D. Owner Occupied Rehabilitation – Major	Code 3

a. Summary: SHIP funds will be awarded to households in need of repairs to correct code violations, health and safety issues, roofing systems (including soffit and fascia), septic tanks, septic tank abandonment and sewer tie in, or wells and handicapped accessibility including ramps, grab bars, widen doors for access. The funding level is based on the initial inspection/evaluation of the property and the estimated dollar amount of the work to be completed. The client is required to move out of the house while the rehabilitation work is being completed. Relocation funds of no more than $4,000 per client will be provided as a grant to the homeowner. Homeowners assisted under this strategy will be required to obtain temporary housing on their own.

b. Fiscal Years Covered: 2026-2027, 2027-2028, 2028-2029

c. Income Categories to be served: Very low, and low

d. Maximum award: $110,000

e. Terms:

1. Deferred loan/grant: Funds for Major Rehabilitation will be awarded as a deferred loan secured by a recorded subordinate mortgage/note.
2. Interest Rate: 0%
3. Years in loan term: 10 years
4. Forgiveness: 10 years – loan is forgiven at the end of the 10th year.

5. Repayment: Not required as long as the loan is in good standing.
6. Applicants must have a legally valid plan in place that addresses the disposition of the assisted property upon their death. This requirement may be satisfied through a will, trust, recorded deed (including, but not limited to, a life estate or enhance deed), beneficiary designation, or other legally recognized instrument. The plan must clearly identify the intended recipient(s) or provide a mechanism for determining ownership of the property after death. Documentation of such plan, in a form acceptable to the administering agency, must be provided prior to approval to ensure continuity of ownership and to protect the long-term integrity of the housing assistance program.
7. Default: The loan will be determined to be in default if any of the following occurs during the Loan term: Loss of Homeowner's Insurance, sale, transfer, or conveyance of property, conversion to a rental property, loss of homestead exemption status; or failure to occupy the home as primary residence, failure to pay property taxes. If any of these occur, the outstanding balance will be due and payable. In cases where the qualifying homeowner(s) die(s) during the loan term, the loan may be assumed by a SHIP eligible heir who will occupy the home as a primary residence. If the legal heir is not SHIP eligible or chooses not to occupy the home, the outstanding balance of the loan will be due and payable.

If the home is foreclosed on by a superior mortgage holder, the county will make an effort to recapture funds through the legal process if it is determined that adequate funds may be available to justify pursuing a repayment.

f. Recipient/Tenant Selection Criteria: Applicants will be ranked for assistance based on a first-qualified, first-served basis with the priorities as outlined in Section I. Waiting List/Priorities.

g. Sponsor Selection Criteria: N/A

h. Additional Information: Mobile and manufactured homes are not generally eligible for Major Owner-Occupied Rehabilitation. However, if repairs are needed for households with special housing needs, as defined in section 420.0004 (13), Florida Statutes, in a mobile or manufactured home, for health and safety purposes, the following may be provided: nonattached exterior ramps, septic systems, sewer and water tie-ins. No work will be completed on the exterior structure or interior of the mobile and/or manufactured home. If there is a health and safety concern the case may be submitted to the Housing and Neighborhood Development Manager for review and potential approval. In accordance with SHIP guidelines, no more than 20 percent of SHIP funds may be used for assistance for mobile homes, which must have been constructed after June 1994 to be considered eligible housing. The mobile home must be installed by a State licensed company. Condominiums, duplexes, and triplexes ae not eligible for major repair services.

SHIP funds for this Strategy will be awarded one time during a ten-year period, after the end of the tenth year the client may request additional assistance as a minor OOR case type only: except in the case of a declared disaster. Relocation funds of no more than $4,000 (included in the maximum award) per client will be provided as a grant

to the homeowner for this strategy. Homeowners assisted under this strategy will be required to obtain temporary housing on their own.

E. New Construction -Homeownership	Code 10

a. Summary: This strategy is designed to promote the acquisition and/or construction of affordable housing for homeownership opportunities and to promote infill housing. Developers/contractors will be required to submit proposals to provide housing that conforms to the County's proposal request specifications and housing plan. Polk County HND may choose to administer this program and self-perform as developer/contractor. Eligible properties include single family homes. All homes will be sold to eligible applicants.

b. Fiscal Years Covered: 2026-2027, 2027-2028, 2028-2029

c. Income Categories to be served: Very low, low, and moderate

d. Maximum award: $250,000 per unit
Home Buyer: Subsidy $35,000 very low, $25,000 low and $15,000 moderate income households.

e. Terms:

1. Homebuyer: Funds will be awarded as a deferred loan secured by a recorded subordinate mortgage and note.
2. Interest Rate: 0%
3. Sponsor: N/A
4. Years in loan term: **Homebuyer**: 15 years on deferred loan subsidy and assessed value of land.
5. Forgiveness: **Homebuyer:** Loan is forgiven at the end of the loan term 15 years.
6. Repayment: Not required as long as the loan is in good standing.
7. Applicants must have a legally valid plan in place that addresses the disposition of the assisted property upon their death. This requirement may be satisfied through a will, trust, recorded deed (including, but not limited to, a life estate or enhance deed), beneficiary designation, or other legally recognized instrument. The plan must clearly identify the intended recipient(s) or provide a mechanism for determining ownership of the property after death. Documentation of such plan, in a form acceptable to the administering agency, must be provided prior to approval to ensure continuity of ownership and to protect the long-term integrity of the housing assistance program.
8. Default: N/A

Homebuyer: The loan will be determined to be in default if any of the following occurs during the loan term: sale, transfer, or conveyance of property; loss of homeowner's insurance; conversion to a rental property; loss of homestead exemption status; failure to occupy the home as primary residence; or failure to pay property taxes. If any of these occur, the outstanding balance will be due and payable.

In the event of default, which is defined as not meeting the occupancy, eligibility and/or ownership requirements, the County may foreclose to recover funds made available for assistance which is secured by a mortgage and note on the property. In cases where the qualifying homeowner(s) die(s) during the loan term, the loan may be assumed by a SHIP eligible heir who will occupy the home as a primary residence. If the legal heir is not SHIP

eligible or chooses not to occupy the home, the outstanding balance of the loan will be due and payable.

If the home is foreclosed on by a superior mortgage holder, the County will make an effort to recapture funds through the legal process if it is determined that adequate funds may be available to justify pursuing a repayment.

f. Recipient/Tenant Selection Criteria: For new construction homeownership, assistance will be provided on a first qualified, first served basis. The home buyer must meet the following qualifications:

1. Qualify for a first mortgage through a qualified lender or approved not for profit sponsor providing first mortgage financing;
2. Complete a HUD certified homebuyer education class within the 18 months prior to closing;
3. Contribute a minimum of $750 toward the purchase of the home.
4. In all cases, the buyer receives the benefit of SHIP assistance in the form of reduced mortgage amount and classified as a first-time homebuyer (cannot own a home during the 3- year period prior to the closing date.)
5. Assistance cannot exceed 50% of the cost of the home including closing cost.
6. SHIP Down Payment and closing costs assistance (DPA) will be provided based on need. Assistance up to $50,000 for very-low-income buyers, $40,000 for low-income buyers and $ 30,000 for moderate-income buyers. DPA Loan is forgiven at the end of 5 years.
7. As stated above Home Buyer: Subsidy $35,000 very low, $25,000 low and $15,000 moderate income households and will be secured with a 15-year deferred loan.
8. A 15-year deferred loan will be placed on the assessed value of the land.

F. Rental Development	Code 14, 21

a. Summary: Funds will be awarded to developers of affordable rental units that are awarded construction financing through other state or federal housing programs to construct or rehabilitate affordable rental units. This funding is intended to be used as gap financing required for the project. In cases where a smaller development (less than 50 units) is being proposed that includes Special Needs units, the county may choose to provide a larger amount of the overall construction

b. Fiscal Years Covered: 2026-2027, 2027-2028, 2028-2029

c. Income Categories to be served: Very low, low, and moderate

d. Maximum award:
$200,000 maximum per rental unit and up to $5,000,000 per development (new construction). Project maximum: $100,000 per unit for developments over 50 units $200,000 for developments with 50 units or less that includes Special Needs units.

e. Terms: Repayment loan/deferred loan/grant: For for-profit developers, funds will be awarded as a loan secured by a recorded subordinate mortgage and note. For non-profit

developers, funds will be awarded as a forgivable loan secured by a recorded subordinate mortgage and note.

1. Interest Rate: The interest rate will be determined by type of developer requesting funds:
   a) 3% for For-profit developers who are not supplying additional subsidy funds.
   b) Fixed rate of 2% for For-profit developers who are contributing additional sources of subsidy that will be leveraged with SHIP funds.
   c) 1% for non-profit developers who are contributing additional sources of subsidy that will be leveraged with SHIP funds.
2. Years in loan term: 30 years.
3. Forgiveness: For non-profits, the loan is forgiven at the end of the term.
4. Repayment: For-profits, the loan is due and payable at the end of the term unless the county negotiates an extended loan term to secure affordable rental units in the best interest of the county's residents.
5. Default: For all awards, a default will be determined as: sale, transfer, or conveyance of property; conversion to another use, failure to maintain insurance on the units, failure to maintain standards for compliance as required by any of the funding sources. If any of these occur, the outstanding balance will be due and payable.
6. Final determination of rate and term will be made by HND staff depending on market conditions and the recommendation from credit underwriting.

f. Recipient/Tenant Selection Criteria: All applicants for residence in a SHIP-assisted unit must meet income qualifications of the program as determined and reported by the developer's management company for the development.

g. Sponsor/Sub-recipient Selection Criteria: Developers will apply to the county through a RFA process that is open one time a year. The RFA will require proof of developer experience in providing affordable rental housing, proof of financial capacity, evidence of site control (or contract for sale), proof of ability to proceed once all funding is closed, and a housing unit design plan that meets with the county's housing element in the Comprehensive Plan.

h. Additional Information: Developers will be required to meet compliance reporting requirements on the development necessary to meet the statutory requirements for monitoring of SHIP rental units.

G. Rental Assistance	Code 13, 23, 26

a. Summary: Funds will be awarded to renter households that are in need of assistance for security and utility deposit assistance and mobile homeowners in need of lot rental assistance, not to exceed six (6) months. Provide eviction prevention assistance (up to three months) and/or rapid re-housing assistance (up to six (6) months). Applicants will be assisted inhouse or through the local Continuum of Care Coordinated Entry System.

b. Fiscal Years Covered: 2026-207, 2027-2028, 2028-2029

c. Income Categories to be served: Very low, and low

d. Maximum award: $12,000

e. Terms:
   1. Repayment loan/deferred loan/grant: Funds will be awarded as a grant
   2. Interest Rate: N/A
   3. Years in loan term: N/A
   4. Forgiveness: N/A
   5. Repayment: N/A
   6. Default: N/A

f. Recipient/Tenant Selection Criteria: Applicants who are homeless or at risk of homelessness (i.e., seeking eviction prevention) will be referred to by the local Continuum of Care Coordinated Entry system, and be assisted on a first-qualified, first-served basis. Applicants with one or more special needs household members may apply directly to the CoC or may be referred to the CoC by a special needs service provider.

g. Sponsor Selection Criteria: Polk County will issue a Request of Application (RFA) from eligible non- profit subrecipient organizations interested in administering Polk County's Rapid Rehousing strategy. Selection criteria include experience managing similar programs, background information on many applicants (e.g., through the Homeless Management Information System), and capacity to provide housing stability counseling.

h. Additional Information: To be eligible for Rapid Rehousing assistance, the recipient must be homeless as defined in S. 420.621. Assistance provided as necessary to help individuals living in shelters or in places not meant for human habitation move as quickly as possible into permanent housing and achieve stability in that housing. Eligible costs may also include utilities, rental application fees, last month's rent, and payments.

Eviction prevention will be provided to households who have fallen behind on their rent and have received an eviction notice. The recipients must show that they are able to continue making the monthly rental payments. Eligible reasons for falling behind on rent are as follows:

- Involuntary loss in pay due to unemployment/underemployment
- Divorce/separation resulting in a temporary loss in income
- Death of a spouse resulting in a loss in income
- Sudden, unforeseen medical payments
- Involuntary loss of verifiable income from other sources (temporary or permanent)

H. Foreclosure Prevention	Code 7
a. Summary: Funds will be awarded to qualified homeowners to retain their home by preventing foreclosure action on the first mortgage. Applicants must be delinquent at least one full mortgage payment but no more than three (3) months in arrears.	

b. Fiscal Years Covered: 2026-2027, 2027-2028, 2028-2029

c. Income Categories to be served: Very low, and low

d. Maximum award: $12,000

e. Terms:

1. Repayment loan/deferred loan/grant: Funds will be awarded as a deferred loan secured by a recorded subordinate mortgage and note.
2. Interest Rate: 0%
3. Years in loan term: 5 years
4. Forgiveness: Loan is forgiven at the end of the 5th year.
5. Repayment: Not required as long as the loan is in good standing.
6. Default: The loan will be determined to be in default if any of the following occurs during the Loan term: death, sale, transfer, or conveyance of property, conversion to a rental property, loss of homestead exemption status, or failure to occupy the home as primary residence, failure to pay property taxes. If any of these occur, the outstanding balance will be due and payable.

If the home is foreclosed on by a superior mortgage holder, the county will make an effort to recapture funds through the legal process if it is determined that adequate funds may be available to justify pursuing a repayment.

f. Recipient/Tenant Selection Criteria: This strategy is designed to assist individuals who have fully amortizing mortgage. Assistance will provide only one time to applicants on a first-qualified, first served basis. The home buyer must meet the following qualifications:

1. Applicants must provide proof of arrearage in the form of notification from the mortgage holder.
2. Applicants must provide evidence of the hardship that caused the nonpayment of their mortgage. Eligible reasons are loss of employment, sudden medical expenses, divorce or separation, death in the immediate family and unforeseen home repairs bills.
3. Applicants must submit current income analysis, credit history, and employment history.
4. Applicants must attend and complete a budget, credit, or debt reduction course through a HUD approved counseling agency.
5. Applicants must provide written evidence of the ability to resume making monthly payments after the assistance is provided, which included an explanation of how the hardship has been overcome and a budget plan approved by the counseling agency.

g. Sponsor Selection Criteria: N/A

h. Additional Information: Property shall have no other liens other than the first mortgage or grant lien to include SHIP, CDBG or NSP. No assistance will be provided to any property whose home is in the process of foreclosure.

This program is subject to funding availability and may not be awarded every fiscal year.

I. Disaster Assistance	Code 5, 16

a. Summary: The Disaster Strategy provides assistance to households following a disaster as declared by the President of the United States or Governor of the State of Florida. This strategy will only be implemented in the event of a disaster using any funds that have not yet been encumbered or with additional disaster funds allocated by Florida Housing Finance Corporation. SHIP disaster funds may be used for items such as, but not limited to:

(a) Owners will be reimbursed for emergency supplies for eligible households to weatherproof damaged homes;

(b) Interim repairs to avoid further damage; tree and debris removal required to make the individual housing unit habitable;

(c) Construction of wells or repair of existing wells where public water is not available;

(d) Payment of insurance deductibles for rehabilitation of homes covered under homeowners' insurance policies; (Granted if under $8,000)

(e) Security deposit for eligible recipients that have been displaced from their homes due to disaster; (Granted if under $5,000)

(f) Rental assistance for eligible recipients that have been displaced from their homes due to disaster. (Granted for 6 months or up to $12,000)

(g) Strategies included in the approved LHAP that benefit applicants directly affected by the declared disaster.

(h) Other activities as proposed by the county and approved by Florida Housing.

b. Fiscal Years Covered: 2026-2027, 2027-2028, 2028-2029

c. Income Categories to be served: Very low, low, and moderate

d. Maximum award: $55,000

e. Terms:

1. Deferred loan/grant: All SHIP funds provided to eligible households, except direct rental assistance (grant), will be in the form of a deferred payment loan secured by a recorded mortgage and note.
2. Interest Rate: 0 %
3. Years in loan term: 5 years
4. Forgiveness: Loan is forgiven at the end of the 5th year.
5. Repayment: Not required as long as the loan is in good standing.
6. Default: The loan will be determined to be in default if any of the following occurs during the Loan term: loss of homeowner's insurance, sale, transfer, or conveyance of property; conversion to a rental property, loss of homestead exemption status, failure to occupy the home as primary residence, or failure to pay property taxes. If any of these occur, the outstanding balance will be due and payable.

In cases where the qualifying homeowner(s) die(s) during the loan term, the loan may be assumed by a SHIP eligible heir who will occupy the home as a primary residence. If the legal heir is not SHIP eligible or chooses not to occupy the home, the outstanding balance of the loan will be due and payable.

f. Recipient/Tenant Selection Criteria: First qualified, first served (1) Priority shall be given to

persons who have special housing needs and individuals or household that qualify as Elderly as defined in 420.503, F.S.

g. Sponsor Selection Criteria: N/A

h. Additional Information: An applicant requesting an emergency repair will be required to:

1. Allow the rehabilitation specialist to access the home for an inspection to determine the need for the repair.
2. Provide proof of homeowner's insurance policy and verification of a claim was filed with your provider. Provide proof whether or not the insurance will cover any part of the repair.
3. Must have filed a claim with FEMA if eligible.

Mobile homes and manufactured homes will not be eligible for assistance. However, if there is an emergency accessibility hardship case, involving a manufactured home, it will be evaluated based on the merits of the hardship claim, supporting documentation, as well as the amount of assistance needed and is subject to HND management approval.

III. LHAP Incentive Strategies

In addition to the **required Incentive Strategy A and Strategy B**, include all adopted incentives with the policies and procedures used for implementation as provided in Section 420.9076, F.S.:

A. **Name of the Strategy: Expedited Permitting**

Polk County began expedited permitting for affordable housing in 1998. The County has long offered same day single family permits for walk-in customers, which is also a valuable resource for expediting affordable housing projects. In 2018, the County began using an online development review and permitting system, known as the Accela Citizen Portal. While the County still offers same day single family permitting, now customers can apply electronically. Applicants submitting through Accela can indicate in the project description they are constructing an affordable housing project. The review and approval of such projects are conducted within one (1) business day. Multi-family building permit applications are only accepted online, and the review is initiated within three (3) business days. Because of the SB 102 known as the Live Local Act HND coordinated with the Building Division to insert instructions to obtain Expedited Permitting for affordable housing developments on the Building's Division's website.

B. **Name of the Strategy: Ongoing Review Process**

An ongoing process for review of local policies, ordinances, regulations, and plan provisions that increase the cost of housing prior to their adoption.

Provide a description of the procedures used to implement this strategy: Polk County HND staff coordinates with other County departments regarding ordinances or regulations impacting affordable housing. Staff provides reports and updates to the AHAC for review and discussion at their regularly scheduled meetings. The AHAC provides staff with input and recommendations and HND prepares various reports

for Polk County Board of County Commissioners (BoCC) consideration. Plan reviews are now conducted electronically.

C. Other Incentive Strategies Adopted:

Name of Strategy: Waiver of Impact Fees

Polk County has waived impact fees since 2007 totaling $8.7 million. To date Polk County continues to waive all impact fees for single family and multi-family housing construction for households making less than 80% of area median income for the area. The County also mitigates workforce housing impact fees for single family and multifamily construction at 100% except for educational impact fees for households making up to 120% of area median income for the Lakeland-Winter Haven MSA.

Name of Strategy: Inventory of Publicly Owned Land Suitable for Affordable Housing

a. Established policy and procedures: Polk County maintains a list of properties that are suitable for affordable housing and open to public sale. This inventory list is available on the County website and is a tool that can be used by interested developers to encourage increased production of affordable housing.

Name of Strategy: The Support of Development near Transportation Hubs, Employment Centers and Mixed-Use Developments

a. Established policy and procedures: The Polk County Comprehensive Plan encourages development to locate near transportation hubs, major employment centers and promotes mixed use- developments. The goal of the Polk County Comprehensive Plan is "To achieve an economically viable, efficient, safe, quality-living environment, through balanced and compact growth, compatible land use patterns, and wise use of economic and physical resources, while protecting and the natural environment".

In addition, the Polk County Comprehensive Plan discourages urban sprawl and outlines criteria to follow when determining the appropriateness of establishing or expanding any land use or development area, in accordance with the Florida Administrative Code. The Urban Sprawl Criteria are outlined in Policy 2.102-A10 of the Polk County Comprehensive Plan.

Policy 2.102-A11: Urban Sprawl Criteria In accordance with Rule 9J-5.006(5) of the Florida Administrative Code, Polk County will discourage the proliferation of urban sprawl by use of the following criteria when determining the appropriateness of establishing or expanding any land use or development area. The analysis must ask whether or not the proposed plan amendment:

a. Promotes allows or designates for development substantial areas of the jurisdiction to develop as low-intensity, low-density, or single-use development or uses in excess of demonstrated need.

b. Promotes, allows, or designates significant amounts of urban development to occur in rural areas at substantial distances from existing urban areas while leaping over undeveloped lands which are available and suitable for development.

c. Promotes, allows, or designates urban development in radial, strip isolated or ribbon patterns generally emanating from existing urban developments.

d. As a result of premature or poorly planned conversion of rural land to other uses, fails to adequately protect and conserve natural resources, such as, wetlands, floodplains, native vegetation, environmentally sensitive areas, natural shorelines, beaches, bays, estuarine system, and other natural systems.

e. Fails to adequately protect adjacent agricultural areas and activities including Silviculture and active agricultural and Silvicultural activities as well as passive agricultural activities and dormant, unique, and prime farmlands and soils.

f. Fails to maximize use of existing public facilities and services.

g. Fails to minimize the use of future public facilities and services.

h. Allows for land use patterns or timing which will disproportionately increase the cost in time, money, and energy, of providing public facilities and services including roads, potable water, sanitary sewer, storm water management, law enforcement education health care, fire and emergency response, and general government.

i. Fails to provide a clear separation between urban and rural uses.

j. Discourages or inhibits in-fill development or redevelopment.

k. Fails to encourage an attractive and functional mix of land uses.

l. Results in poor accessibility among linked or related land uses.

m. Results in the loss of a significant amount of functional open space.

Name of Strategy: Demolition Lien Waiver

This is an amendment to the current structural Maintenance Ordinance and will implement a process to release the claim of lien for the costs incurred by the County for a demolition of unsafe structures. These lots are located throughout Polk County and the affordable housing Demolition Lien Waiver is targeted to very low (50% of the area median income), low (80% of the area median income) and moderate-income persons (120% of the area median income) persons. Affordable Housing shall mean a Dwelling Unit which is offered for sale or rent to Low-Income Persons or Very-Low-Income Persons and which monthly rent or monthly mortgage payments, including taxes and insurance, do not exceed thirty (30) per cent of that amount which represents the percentage of the median adjusted gross income for Low-Income Persons and Very-Low-Income Persons.

IV. EXHIBITS:

Required

A. Administrative Budget for each fiscal year covered in the Plan.

B. Timeline for Estimated Encumbrance and Expenditure.

C. Housing Delivery Goals Chart (HDGC) For Each Fiscal Year Covered in the plan.

D. Signed LHAP Certification.

E. Signed, dated, witnessed, or attested adopting resolution.

Optional

F. Ordinance: (If changed from the original creating ordinance).

G. Interlocal Agreement (Required if applicable). – N/A

H. Other Documents Incorporated by Reference. – Polk County Subordination Policy

POLK COUNTY
HOUSING AND NEIGHBORHOOD DEVELOPMENT OFFICE
HOUSING DEVELOPMENT SECTION

SUBORDINATION POLICY

1. It is Polk County's policy not to subordinate. However, we will consider a subordination on a case-by-case basis if there is a reduction in the interest rate of the first mortgage.

2. Requests for waiver of the policy must be in writing from the lending institution and submitted to:

   Housing Administrative Supervisor Polk County
   Housing and Neighborhood Development Office
   P.O. Box 9005, Drawer HS04
   Bartow, Florida 33831-9005
   Telephone: (863) 534-5241
   Fax: (863) 534-0349

3. Requests for waiver of the policy require approval from the Board of County Commissioners (BoCC), requiring approximately thirty days for completion. Prior to approval, the following documentation must be provided to the Housing Administrative Supervisor:

   A. Lender's Proof of licensure to do business in the State of Florida.
   B. Authorization for Release of Information signed by the homeowner (signatures will be verified).
   C. **A copy of the first mortgage/note must be provided along with current balance and interest rate. Polk County's equity may not be included in the refinance.**
   D. Loan Estimate completed.
   E. Uniform Underwriting and Transmittal Summary (1008) completed.
   F. Uniform Residential Loan Application (1003) completed.
   G. **If HUD-1008 or HUD-1003 is incomplete as to income and/or front and back ratio, provide two paystubs for each person who reside in the home and are above 18 years of age.**
   H. Complete terms and conditions of the new loan.
   I. Reason for the Subordination request.
   J. Indicate if the taxes and insurance payments are included in the new loan or if the homeowner will be responsible for them.

K. **The homeowner's equity may not be used to consolidate debts, i.e., credit card debt nor homeowner's equity line of credit.**

L. **Other supporting documentation as to the validity of the reason may be requested.**

Note: Consideration **will not** be given to any request for waiver of the subordination policy without this information. Additional information may be required.

1. The County very rarely agrees to subordinate, usually only for proven hardship. ***Credit card debt is not a basis for a waiver of the Subordination Policy when opening a home equity line of credit***. In the rare instance that the County agrees to subordinate, it takes a minimum of thirty days for the County Manager to approve and authorize the Subordination. **The homeowner(s) will need to sign the Subordination Agreement prior to the request being sent to the County Manager.** After County Manager approval, the signed Subordination Agreement will be sent to the lender for loan closing. The lender is responsible for recording the Subordination Agreement. The lender is also responsible for providing a copy of the recorded Subordination Agreement to Polk County.

2. Request(s) for waiver **will be** reviewed and a decision made on a case-by-case basis on such merits as the following:
   a. Emergency needs arising out of natural disasters.
   b. Emergency repairs which eliminate a threat to the health or safety of the occupants or that eliminate an immediate or imminent danger to the dwelling itself.
   c. Refinancing to lower the interest rate on the first mortgage if the closing costs and/or fees can be recovered within four (4) years.
   d. Refinancing for medical emergencies.
   e. If there is sufficient equity to support all outstanding mortgages.

3. Requests for waiver **will not be** considered under the following conditions:
   a. The Loan to Value ratio exceeds 100%.
   b. The housing Debt to Income ratio exceeds 33%.
   c. The total Debt to Income ratio exceeds 40%.
   d. The mortgage lender and applicant fail to provide all required documentation.
   e. The Homeowner does not reside at the property.
   f. The Homeowner received a prior approved Subordination.

ADMINISTRATIVE BUDGET FOR EACH FISCAL YEAR

Polk County

Fiscal Year: 2026-2027		
Estimated SHIP Funds for Fiscal Year:	$	4,594,574.00
Salaries and Benefits	$	445,000.00
Office Supplies and Equipment	$	11,000.00
Travel Per diem Workshops, etc.	$	2,500.00
Advertising	$	1,000.00

Details:

Exhibit B
Timeline for SHIP Expenditures

Polk County affirms that funds allocated for these fiscal years will meet the following deadlines:

Fiscal Year	Encumbered	Expended	Closeout Report
2026-2027	6/30/2028	6/30/2029	9/15/2029
2027-2028	6/30/2029	6/30/2030	9/15/2030
2028-2029	6/30/2030	6/30/2031	9/15/2031

If funds allocated for these fiscal years is not anticipated to meet expenditure deadlines, Florida Housing Finance Corporation should be notified according to the following dates:

Fiscal Year	Funds Not Expended	Closeout AR Not Submitted
2026-2027	3/30/2029	6/15/2029
2027-2028	3/30/2030	6/15/2030
2028-2029	3/30/2031	6/15/2031

Requests for Expenditure Extensions (close-out year ONLY) must be emailed to kathy.cutler@floridahousing.org and include:

1. A statement that "(city/county) requests an extension to the expenditure deadline for fiscal year N/A.
2. The amount of funds that is not expended.
3. The amount of funds that is not encumbered or has been recaptured.
4. A detailed plan/timeline of how/when the money will be expended.

Note: an extension to the expenditure deadline (June 30) does not relieve the requirement to submit (September 15) the annual report online detailing all funds that have been expended.

Other Key Deadlines:

AHAC reports are due annually by December 31. Local governments receiving the minimum (or less) allocation may choose not to report.

ACFR financial statements are due each June 30 for the report ending September 30 of the previous year.

RESOLUTION #: _____

A RESOLUTION OF THE POLK COUNTY BOARD OF COUNTY COMMISSSIONERS, POLK COUNTY A POLITICAL SUBDIVISION OF THE STATE OF FLORIDA APPROVING THE LOCAL HOUSING ASSISTANCE PLAN AS REQUIRED BY THE STATE HOUSING INITIATIVES PARTNERSHIP PROGRAM ACT, SUBSECTIONS 420.907-420.9079, FLORIDA STATUTES;AND RULE CHAPTER 67-37, FLORIDA ADMINISTRATIVE CODE; AUTHORIZING AND DIRECTING THE BOARD CHAIR TO EXECUTE ANY NECESSARY DOCUMENTS AND CERTIFICATIONS NEEDED BY THE STATE; AUTHORIZING THE SUBMISSION OF THE LOCAL HOUSING ASSISTANCE PLAN FOR REVIEW AND APPROVAL BY THE FLORIDA HOUSING FINANCE CORPORATION; AND PROVIDING AN EFFECTIVE DATE.

* * * * * * * * * *

WHEREAS, the State of Florida enacted the William E. Sadowski Affordable Housing Act, Chapter 92-317 of Florida Sessions Laws, allocating a portion of documentary stamp taxes on deeds to local governments for the development and maintenance of affordable housing; and

WHEREAS, the State Housing Initiatives Partnership (SHIP) Act, ss. 420.907-420.9079, Florida Statutes (1992), and Rule Chapter 67-37, Florida Administrative Code, requires local governments to develop a one- to three-year Local Housing Assistance Plan (LHAP) outlining how funds will be used; and

WHEREAS, the SHIP Act requires local governments to establish the maximum SHIP funds allowable for each strategy; and

WHEREAS, the SHIP Act further requires local governments to establish an average area purchase price for new and existing housing benefiting from awards made pursuant to the Act; and

WHEREAS, the methodology and purchase prices used are defined in the attached LHAP; and

WHEREAS, pursuant to section 420.9075, Florida Statutes, the Board of County Commissioners finds that 5 percent of the local housing distribution plus 5 percent of program income is insufficient to adequately pay the necessary costs of administering the LHAP. The cost of administering the LHAP may not exceed 10 percent of the local housing distribution plus 5% of program income deposited into the trust fund, except that small counties, as defined in s. 120.52(19), and eligible municipalities receiving a local housing distribution of up to $350,000 may use up to 10 percent of program income for administrative costs; and

Exhibit E
67-37.005(1), F.A.C.
2026

WHEREAS, the Economic and Community Development Department has prepared a three-year LHAP for submission to the Florida Housing Finance Corporation; and

WHEREAS, the Board of County Commissioners finds that it is in the best interest of the public for the Polk County to submit the LHAP for review and approval so as to qualify for said documentary stamp tax funds; and

NOW THEREFORE, BE IT RESOLVED BY THE BOARD OF COUNTY COMMISSIONERS OF POLK COUNTY, FLORIDA that:

Section 1: The Polk County Board of County Commissioners hereby approves the Local Housing Assistance Plan (LHAP), as attached and incorporated hereto for submission to the Florida Housing Finance Corporation as required by ss. 420.907-420-9079, Florida Statutes, for fiscal years 2026-2027, 2027-2028, 2028-2029.

Section 2: The Chairman, Chair or designee is hereby designated and authorized to execute any documents and certifications required by the Florida Housing Finance Corporation as related to the Local Housing Assistance Plan, and to do all things necessary and proper to carry out the term and conditions of said program.

Section 3: This Resolution shall take effect immediately upon its adoption.

PASSED AND ADOPTED THIS _____ DAY OF _____, _____.

Polk County Incentive Strategies Report

Affordable Housing Advisory Committee
Report to the Polk County Board of County Commissioners
SHIP Affordable Housing Incentive Strategies

SUBMITTED TO: Martha Santiago, Chair
POLK COUNTY BOARD OF COUNTY COMMISSIONERS

SUBMITTED TO: Rob Dearduff, Director of Special Programs
FLORIDA HOUSING FINANCE CORPORATION

DATE SUBMITTED: _____

PREPARED BY: Affordable Housing Advisory Committee (AHAC)

BACKGROUND

As a recipient of State Housing Initiative Partnership funds, Polk County established an Affordable Housing Advisory Committee on Dec. 17, 2003, as required by the Florida Statutes, Sec. 420.9076. The AHAC is responsible for reviewing and evaluating local plans, policies, procedures, land development regulations, the Comprehensive Plan, and other aspects of Polk County's housing activities that impact the production of affordable housing. Further, the AHAC is specifically directed by the SHIP Statute to consider and evaluate the implementation of the incentives set out at Florida Statues, Sec. 420.9076 (4)(a)-(k). Based on the AHAC evaluation, it may recommend to local government that it make modifications of, exceptions to, or creation of new plans, policies, procedures, and other governing vehicles which would encourage production of affordable housing.

As approved by the Polk County Board of County Commissioners, the recommendations are used to amend the Local Housing Assistance Plan, the local Comprehensive Plan, land development regulations, and other policies affecting affordable housing.

COMMITTEE COMPOSITION

The Polk County Board of County Commissioners appointed or re-appointed members to the Committee for staggered three-year terms. Florida Statutes, Sec. 420.9076(2) lists the categories from which committee members must be selected. Each AHAC must have a locally elected official from the county participating in the SHIP program. The locally elected official must be a County Commissioner. The elected official will count as a member of the AHAC for purposes of meeting the number of members requirements. There must be at least eight committee members, but not more than eleven, with representation from at least six of the following categories:

(a) A citizen who is actively engaged in the residential home building industry in connection with affordable housing.
(b) A citizen who is actively engaged in the banking or mortgage banking industry in connection with affordable housing.
(c) A citizen who is a representative of those areas of labor actively engaged in home building in

connection with affordable housing.
(d) A citizen who is actively engaged as an advocate for low-income people in connection with affordable housing.
(e) A citizen who is actively engaged as a for-profit provider of affordable housing.
(f) A citizen who is actively engaged as a not-for-profit provider of affordable housing.
(g) A citizen who is actively engaged as a real estate professional in connection with affordable housing.
(h) A citizen who actively serves on the local planning agency pursuant to s. 163.3174. If the local planning agency is comprised of the governing board of the county or municipality, the governing board may appoint a designee who is knowledgeable in the local planning process.
(i) A citizen who resides within the jurisdiction of the local governing body making the appointments.
(j) A citizen who represents employers within the jurisdiction.
(k) A citizen who represents essential services personnel, as defined in the local housing assistance plan.

The appointed AHAC Committee members are included here, along with their category affiliation.

Name	Category Represented	Date Appointed
1. Becky Troutman	Elected Official	12/3/2024 – 12/3/2027
2. Vermishia Pitts	A. A citizen who is actively engaged in the residential home building industry in connection with affordable housing.	05/06/2025 – 05/06/28
3. Mark Piburn	B. A citizen who is actively engaged in the banking or mortgage banking industry in connection with affordable housing.	01/06/2024 - 12/31/2026
4. Mark A. Ferreira	C. A Citizen who is a representative of those areas of labor actively engaged in home building in connection with affordable housing.	05/062025 – 05/06/2028
5. Nicole Redmond	D. A citizen who is actively engaged as an advocate for low-income people in connection with affordable housing.	01/01/2024 – 12/31/2026
6. Gordon Moore	E. A citizen who is actively engaged as a for-profit provider of affordable housing.	01/01/2026-12/31/2029
7. Bridget Engleman	F. A citizen who is actively engaged as a not-for-profit provider of affordable housing.	01/01/2026-12/31/2029
8. Hattie Wilson	G. A citizen who is actively engaged as a real estate professional in connection with affordable housing.	01/01/2026-12/31/2029

	governing body making the appointments	
11. Tom Wodrich	I. A citizen who resides within the jurisdiction of the local governing body making the appointments	01/01/2024 - 12/31/2026

AFFORDABLE HOUSING RECOMMENDATIONS

The AHAC has reviewed local government plans, policies, and procedures; ordinances; regulations; statutes; and the comprehensive plan, among other documents applicable to affordable housing, for evaluation of their impacts on affordable housing. Further, the AHAC has specifically considered and evaluated the strategies set out at Florida Statues, Sec. 420.9076 (4)(a)(k). Based on this review and evaluation, the AHAC has formulated recommendations to the County Commission that it incorporated into its housing strategy certain changes designed to encourage and facilitate the production of affordable housing.

The AHAC, from its review, consideration, evaluation, and recommendations, drafts and submits this report to the County Commission, to the Florida Housing Finance Corporation, and the Florida Housing Coalition, as the entity providing statewide training and technical assistance for the Affordable Housing Catalyst Program, which details the scope of its work and the resulting recommendations.

From the review and evaluation of the local government documents listed here, the AHAC makes these recommendations to the Polk County Board of County Commissioners that it incorporate into its housing strategy. The AHAC has reviewed, considered, and evaluated the following strategies provided in the SHIP Statute at Florida Statutes, Sec. 420.9076 (4):

(a) The processing of approvals of development orders or permits for affordable housing projects is expedited to a greater degree than other projects, as provided in s. 163.3177(6)(f)3.
(b) All allowable fee waivers provided for the development or construction of affordable housing.
(c) The allowance of flexibility in densities for affordable housing.
(d) The reservation of infrastructure capacity for housing for very-low-income persons, low-income persons, and moderate-income persons.
(e) Affordable accessory residential units.
(f) The reduction of parking and setback requirements for affordable housing.
(g) The allowance of flexible lot configurations, including zero-lot-line configurations for affordable housing.
(h) The modification of street requirements for affordable housing.
(i) The establishment of a process by which a local government considers, before adoption, policies, procedures, ordinances, regulations, or plan provisions that increase the cost of housing.
(j) The preparation of a printed inventory of locally owned public lands suitable for affordable housing.
(k) The support of development near transportation hubs and major employment centers and mixed-use developments.
(l) Demolition Lien Waiver

A) EXPEDITED PERMITTING

Meeting Synopsis:

Pursuant to Section 420.9076, Florida Statutes, Polk County offers an expedited permitting process for qualified affordable housing projects. This expedited permitting process moves these projects ahead in

the permitting queue to fast track the process. An application is provided on the Polk County website in the building permit area for affordable housing projects. Once a building permit has been submitted for the qualified project, the completed application is then submitted by email for the expedited process to the building division. Polk County began expedited permitting for affordable housing in 1998. The County has long offered same day single family permits for walk-in customers, which is also a valuable resource for expediting affordable housing projects. In 2018, the County began using an online development review and permitting system, known as the Accela Citizen Portal. While the County still offers same day single family permitting, now customers can apply electronically. Applicants submitting through Accela can indicate in the project description they are constructing an affordable housing project. The review and approval of such projects are conducted within one (1) business day. Multi-family building permit applications are only accepted online, and the review is initiated within three (3) business days. Because of the SB 102 known as the Live Local Act, HND coordinated with the Building Division to insert instructions to obtain Expedited Permitting for affordable housing developments on the Building's Division's website.

Existing Strategy: **Yes**
AHAC Recommendation: Recommended Strategy
Schedule for Implementation: **In place and functioning as intended**

B) IMPACT FEE WAIVERS FOR AFFORDABLE HOUSING

Meeting Synopsis:
Polk County has waived impact fees since 2007 totaling $8.7 million. To date Polk County continues to waive all impact fees for single family and multi-family housing construction for households making less than 80% of area median income for the area. The County also mitigates workforce housing impact fees for single family and multifamily construction at 100% except for educational impact fees for households making up to 120% of area median income for the Lakeland-Winter Haven MSA.

Existing Strategy: **Yes**
AHAC Recommendation: Recommended Strategy
Schedule for Implementation: **Existing Strategy in Place and functioning as intended**

C) FLEXIBLE DENSITIES

Meeting Synopsis:
POLICY 2.104-A6: GENERAL INCENTIVES

– Polk County shall encourage and promote compact, mixed-use by allowing:

a. increased densities and intensities within the Transit Corridors and Centers Overlay District subject to Policy 2.104-A7; and

b. increased densities for affordable or workforce housing subject to Policy 2.104-A7.

Existing Strategy: **Yes**
AHAC Recommendation: Recommended Strategy
Schedule for Implementation: **Existing Strategy in Place and functioning as intended**

D) RESERVATION OF INFRASTRUCTURE CAPACITY

Meeting Synopsis:
At this time, this incentive is not specifically offered by Polk County as part of the development process. The Committee recommends revisiting reservation of transportation concurrency for affordable housing

developments. The Polk County Comprehensive Plan outlines Infrastructure capacity in the following chapters:

CHAPTER 3 PUBLIC FACILITIES POLICIES DIVISION 3.100 INFRASTRUCTURE ELEMENT SECTION 3.101 INTRODUCTION

The purpose of the Sanitary Sewer, Solid Waste, Drainage, Potable Water, and Natural Groundwater Aquifer Recharge Element (Infrastructure Element) is to serve as a guide to Polk County in providing for necessary public facilities and services. The infrastructure Element must be correlated with future land use projections.

Existing Strategy: NO

AHAC Recommendation: Committee recommends revisiting reservation of transportation concurrency

Schedule for Implementation: Program Year 2025?

E) AFFORDABLE ACCESSORY RESIDENTIAL UNITS

Meeting Synopsis:

Section 206 Accessory Uses

Accessory uses are permitted in conjunction with the primary use in all land use districts. Accessory uses are those land uses that are incidental and subordinate to the primary use of the property (see table 2.1 for a list of primary land uses allowed per district). Specific requirements pertaining to the determination of what is incidental and subordinate for certain types of accessory uses are listed in the section and sections to follow in this chapter. All accessory uses contained herein, and any other not included shall comply with Section 209.

A. Accessory Dwelling Unit (ADU)

Accessory dwelling units (ADUs) may be permitted as accessory uses to single-'family detached homes and mobile homes in all residential districts and lots of record for residential purposes subject to the applicable district regulations and the following requirements:

1. No more than one accessory dwelling unit may be permitted on any single-family residential lot or parcel.
2. An accessory dwelling unit shall be located in the side or rear yard of the principal dwelling unit.
3. Accessory dwelling units may utilize setbacks pertaining to accessory structures unless attached to the principal structure.
4. Mobile homes shall not be permitted to be used as accessory dwelling units. However. where mobile homes are the primary residence. An accessory dwelling unit built to the standards of the Florida Building Code may be permitted provided it is 50% or less in heated floor space than the mobile home.
5. Accessory dwelling units shall be permitted subject to a Level I Review.
6. Accessory dwelling units shall not be approved for short-term rental or vacation rental.
7. ADUs may be rented. leased, or serve as housing for living assistants. guests, or family members. ADU's may not be subdivided from the parent property or placed under separate ownership from the primary dwelling.
8. ADUs in conformance with this section do not count as additional dwelling units in the calculation of density.
9. When an ADU is attached to the principal structure. uses the same electrical service and plumbing as the primary dwelling unit, access is through a subordinate entrance on the rear or side of the principal structure, and the primary dwelling unit and ADU combined do not exceed five bedrooms. It is considered one single-family home, and the parcel is eligible for an additional detached ADU.

Existing Strategy: Yes
AHAC Recommendation: Recommended Strategy
Schedule for Implementation: **Existing Strategy in Place and functioning as intended**

F) PARKING AND SETBACK REQUIREMENTS

Meeting Synopsis:
Polk County does not have a specific program for parking reduction for just affordable housing developments.
The Land Development Code Section 710 outlines Alternative Parking Strategies (APS). Section 710 Alternative Parking Strategies (APS)
A. Parking Study
A parking study shall be required for the following:

1. Uses for which a parking requirement is not listed in Table 7.10.
2. When proposing an exemption from or reduction in the minimum parking requirements through an APS.
3. When requesting a parking space deferral.

The Land Development Code also provides a provision for waivers for parking and other requirements as outlined in Chapter 9 Section 932.

Existing Strategy: Yes
AHAC Recommendation: Existing Strategy
Schedule for Implementation: **Existing Strategy in Place and functioning as intended**

G) FLEXIBLE LOT CONFIGURATIONS

Meeting Synopsis:
Polk County does not have a flexible lot configuration for affordable housing developments, but the zero-lot-line provision is outlined in the Land Development Code below:

POLICY 2.204-A6: Polk County shall develop, within its Land Development Code, an administrative site plan review process for residential developments which incorporate innovative approaches to site design (clustering Section 753, and zero-lot-line Section 755, etc.) as a technique to reduce housing costs.

Existing Strategy: Yes
AHAC Recommendation: Recommended Strategy
Schedule for Implementation: **Existing Strategy in Place and functioning as intended**

H) MODIFICATION OF STREET REQUIREMENTS

Meeting Synopsis:
The County does not have a program that modifies the street requirements for affordable housing developments. The Polk County Land Development Code Section 824 – Roadway Design outlines the requirements for sidewalks, public and private roads.

Existing Strategy: Yes
AHAC Recommendation: Recommended design requirements per Land Development Code
Schedule for Implementation: **Existing**

I) PROCESS OF ONGOING REVIEW

Meeting Synopsis:

Over the last year Land Development Staff reviewed Land Development Code text for criteria for conditional uses for individual mobile homes to allow mobile homes by right in subdivision plats recorded prior to 1971. This administrative change will save individuals clients $966 per case by streamlining the approval process.

AHAC Recommendation: Recommended Strategy

Schedule for Implementation: **Existing Strategy ongoing**

J) PUBLIC LAND INVENTORY

Meeting Synopsis:

Escheated property is available for affordable housing development.

Existing Strategy: Currently in place and is utilized to assist in the development of affordable housing units

AHAC Recommendation: Recommended Strategy

Schedule for Implementation: **Adopted and functioning as intended**

K) SUPPORT OF DEVELOPMENT NEAR TRANSPORTATION HUBS

Meeting Synopsis:

POLICY 2.104-A6: GENERAL INCENTIVES – Polk County shall encourage and promote compact, mixed-use by allowing a. increased densities and intensities within the Transit Corridors and Centers Overlay District subject to Policy 2.104-A7; and POLK COUNTY COMPREHENSIVE PLAN FUTURE LAND USE ELEMENT Adopted: 18 NOV 92 Page B-19
(Revised August 2016)

b. increased densities for affordable or workforce housing subject to Policy 2.104- A7.

POLICY 2.104-A7: DENSITIES AND INTENSITIES –To promote energy efficient land use patterns and compact mixed-use development, the TSDA and the Transit Corridors and Centers Overlay (TCC Overlay) within the TSDA shall include higher densities and intensities of development. The maximum densities and intensities listed in Table 2.104.1 exceed those listed in Policy 2.109-A1 and Policy 2.119- A1 and the policies that include the description for each of the referenced land use category as provided for within this Element. The Mixed-Use category within Tables 2.104.1 and 2.104.2 is for those non-residential land use categories that permit residential as provided for in this Element or the Appendices for the Selected Area Plans (SAP). The Transit Corridors and Centers Overlay includes three separate components that expand the residential density of selected Future Land Use Districts. These three components as depicted in Figure 1. include:

a. Transit Corridor – an area within ¼ mile of fixed route transit service.
b. Transit Center – an area within a one-mile radius of the point of access for transit services; and
c. Transit Center Core – an area within ¼ mile of the point of access for transit services.

Maximum densities are established within the Transit Supportive Development Area (TSDA) and the respective components of the Transit Corridors and Centers Overlay as listed in Table 2.104.1. The maximum densities are not guaranteed within the respective land use categories and shall only be permitted subject to the requirements established in Policy 2.104-A5 Development Criteria and Policy

2.124-A3 Design Principles. Table 2.104.1 also includes recommended minimum densities to support future investments in public transportation. These recommended minimum densities may be required under the Land Development Code to coincide with planned public or private sector transit investments. Residential projects with less than the recommended minimum density will be encouraged to include a site design that allows for project phasing in order to preserve the maximum development potential of the subject parcel

Existing Strategy: Yes
AHAC Recommendation: Recommended Strategy
Schedule for Implementation: **Adopted currently in place**

L) Demolition Lien Waiver

Meeting Synopsis:

The committee recommended amending the ordinance to include multifamily duplex or tri-plex apartments. Staff met with the County Departments to review the internal process for this incentive. The amendment to the current structural Maintenance Ordinance was implemented and a process to release the claim of lien for the costs incurred by the County for a demolition of unsafe structures was finalized. These lots are located throughout Polk County, and the affordable housing Demolition Lien Waiver is targeted to very low (50% of the area median income), low (80% of the area median income) and moderate-income persons (120% of the area median income) persons. Affordable Housing shall mean a Dwelling Unit which is offered for sale or rent to Low-Income Persons or Very-Low-Income Persons and which monthly rent or monthly mortgage payments, including taxes and insurance, do not exceed thirty (30) per cent of that amount which represents the percentage of the median adjusted gross income for Low-Income Persons and Very-Low-Income Persons.

Existing Strategy: **Currently in place and is utilized to assist in the development of affordable housing units**

AHAC Recommendation: Recommended Strategy
Schedule for Implementation: **Adopted**

Agenda Item R.22. 6/16/2026

SUBJECT

Approve Amendment No. 5 to Agreement 2021-015 with Heritage Health Solutions Inc. for third party administrative off-site medical services. (No fiscal impact at this time)

DESCRIPTION

On March 2, 2021, the County entered into Agreement 2021-015 with Heritage Health Solutions Inc. to provide third-party administrator services related to inmate medical care that is performed off-site such as specialist, emergency room, hospitalization, and prescription plan services. The agreement includes, but is not limited to, provider network management, pre-authorizations, and claims administration.

On August 8, 2023, the County executed Amendment No. 1 to add additional health-related services including specialty medical, pharmaceutical, and laboratory services.

On February 16, 2024, the County executed Amendment No. 2 extending the Agreement for a two (2) year term through March 1, 2026.

On August 20, 2024, the County executed Amendment No. 3 to allow the purchase of bulk prescription orders as an alternative to individual prescriptions of medications provided to the Pharmacy Dispensary.

On March 2, 2026, the County executed Amendment No. 4 extending the Agreement through August 31, 2026, while a new procurement method and resulting agreement is brought to the Board for approval.

Due to the State of Florida House Bill 4059, the Health and Human Services Division has requested to revise the Cost Sheet to remain in compliance with the House Bill executed on April 14, 2026.

This amendment is effective April 16, 2026.

RECOMMENDATION

Request the Board approve Amendment No. 5 to Agreement 2021-015 with Heritage Health Solutions Inc., for third party administrative healthcare services for Polk County inmates.

FISCAL IMPACT

No fiscal impact at this time.

AGREEMENT FOR THIRD PARTY ADMINISTRATIVE SERVICES FOR OFF-SITE MEDICAL SERVICES

#2021-015
AMENDMENT #5

This Amendment #5 (Amendment"), effective as of April 16, 2026 (the "Effective Date"), is hereby entered into by and between Polk County, a political subdivision of the State of Florida, (the "County"), situated at 330 W. Church Street, Bartow, Florida 33830, and Heritage Health Solutions, Inc. (the "Vendor"), a Texas corporation, headquartered at 750 Canyon Drive, Coppell, Texas, 75019 whose Federal Employer Identification Number is 271516386.

WITNESSETH:

WHEREAS, the County and Vendor entered into Agreement 2021-015 dated March 2, 2021, for the purpose of providing administrative services in connection with the payment of certain inmate healthcare services not provided on-site at the County jail facilities; and

WHEREAS, on August 8, 2023, Amendment #1 was executed for the purpose of the Vendor providing administrative services for additional inmate healthcare services, including specialty medical and healthcare services that may be performed on-site at the jail facilities, certain pharmaceutical and prescription drug services; and

WHEREAS, on February 16, 2024, Amendment #2 was executed for the purpose of extending the Agreement for an additional two (2) year term, effective March 2, 2024, and through March 1, 2026; and

WHEREAS, on August 20, 2024, Amendment #3 was executed for the purpose of providing bulk prescription orders as an alternative to provide individual prescriptions of medications to the Pharmacy Dispensary at county jail facilities; and

WHEREAS, on March 2, 2026, Amendment #4 was executed for the purpose of extending the Agreement, for an additional six (6) month term, effective March 2, 2026, and through August 31, 2026; and

WHEREAS, the Parties wish to modify Section 3.0, Compensation to the Agreement in accordance with the State of Florida House Bill 4059, which became effective April 16, 2026; and

WHEREAS, pursuant to Section 16.0 of the Agreement, the County and the Vendor mutually agree to amend the Agreement as set forth below.

NOW, THEREFORE, the County and the Vendor hereby agree as follows:

1. The recitals stated above are true and correct and are fully incorporated herein.

2. Exhibit "B", Cost Sheet of the Agreement is hereby revised and replaced in its entirety with the adjusted Cost Sheet attached hereto as Exhibit "B-2".

3. The Agreement, as amended by this Amendment #5, continues in full force and effect.

(THE REMAINDER OF THE PAGE LEFT INTENTIONALLY BLANK)
[SIGNATURE PAGE FOLLOWS]

IN WITNESS WHEREOF, the parties hereto have executed this Amendment as of the Effective Date.

COST SHEET

[%] TPA Administrative Fee– per net paid claim is 20%

[$$] Fixed Claim Adjudication Fee– per claim is $40.00

Non-contracted provider claims will be processed in accordance with the State of Florida House Bill 4059 (2026) for Polk County at the rate of 110% of the Medicare Physician Fee Schedule/OPPS/IPPS. Pricing must reflect the specific Geographic Practice Cost Index (GPCI) for the local jurisdiction (Loc: 99).

- If the non-contracted provider's negative operating margin is validated by the Agency for Healthcare Administration (AHCA), may invoice at 125% of the Medicare Physician Fee Schedule/OPPS/IPPS.
- The non-contracted provider may use a higher rate if a separate contract with the County permits them to do so.

Board of County Commissioners

Agenda Item R.23. 6/16/2026

SUBJECT

Approve budget amendment to transfer funds from the Facilities Operating budget to the Facilities Capital budget within the General Fund ($107,503 One-time transfer).

DESCRIPTION

Facilities budgeted for two new vehicles in FY24/25, but due to delays, the vehicles were delivered in FY25/26. As a result, the expenses were incurred this year without an allocated budget.

RECOMMENDATION

Request Board approve budget amendment to transfer funds from the Facilities Operating Budget to the Facilities Capital Budget within the General Fund ($107,503 One-time transfer).

FISCAL IMPACT

Funds are available and budgeted in the General Fund within the Facilities Operating Budget. Budget Amendment transfers funds from the Facilities Operating budget to the Facilities Capital Budget.

Subject: RE: December Vehicle Charges

Good Morning,

The two charges of $12,230.28 are upfitting charges for the 2 - FY 24/25 Facilities add vehicles.

The two $ 41,520.85 are for the vehicles, it looks like fixed assets carried them over as Prepaids because they were paid for in FY 24/25, but you hadn't physically received the vehicles. It also looks like the are going to reverse those two adjustments at closing of this year 25/26.

The Vehicles are 2124-3939 and 2124-3940.

Thank you,
Delia Jouppi

Subject: December Vehicle Charges

Good afternoon Delia,

I wanted to touch base with you about some charges that appeared back in December related to vehicle acquisitions. We don't have any budget allocated for new vehicles this fiscal year so I'm hoping you might be able to shed some light on what these charges pertain to.

I've attached an account analysis report for your use. Any information you can provide will be greatly appreciated.

Thanks,

POLK COUNTY

Agenda Item R.24. 6/16/2026

SUBJECT

Approve Consultant Services Agreement (CSA) 2022-061-06 with Chastain Skillman, Inc. to provide professional engineering services for Loyce E. Harpe Park in Mulberry ($309,315.00 one-time expense.)

DESCRIPTION

Loyce E. Harpe Park in Mulberry is an expansive multi-use recreational area spanning over 200 acres. The park boasts a diverse set of amenities including six soccer fields, four softball fields, nine baseball fields, an all-inclusive playground, skate park, a large pavilion for rentals, and is home to an award-winning disc golf course and fifteen miles of mountain bike paths. Due to the popularity and consistent use of the park, ongoing development is currently underway. Amenities currently being added to the park are a basketball court, two restroom / concession buildings, a pedestrian bridge to safely traverse from the parking area to the soccer fields and new fencing.

The population growth in the area has created a high demand for the use of the athletic fields in the park. Consistent demand for use of the soccer fields, an expanded soccer season, and poor drainage have contributed to the deterioration of the fields within Loyce E. Harpe Park. These factors have also made it difficult to provide the maintenance required to keep the fields in proper playing condition. Converting the fields to artificial turf is an effective means to address field issues and allows for expanded use of the fields by eliminating down time for maintenance and turf recovery.

This agreement will provide design, permitting, geotechnical services, surveying and construction administration services for the conversion of the six multi-purpose soccer fields to artificial turf. Due to the continuous year-round play from the leagues, renovating the fields to artificial turf will significantly improve field durability, increase play time, and reduce maintenance costs associated with mowing, irrigation, and re-sodding.

RECOMMENDATION

Request Board approve (CSA) 2022-061-06 with Chastain Skillman Inc. for professional engineering services for Loyce E Harpe Park in Mulberry in the amount of $309,315.00.

FISCAL IMPACT

Funds are budgeted and available in the 5-year Parks & Natural Resources CIP within the East Park Impact Fee District Fund.

EXHIBIT A

Loyce Harpe Park - Mulberry
Civil Engineering Services to Convert Six Soccer Fields to Artificial Turf
Scope of Services and Professional Fee

Client:	Polk County Board of County Commissioners
Project Name:	Loyce Harpe Park – Mulberry, Florida Convert Existing Natural Grass Soccer Fields to Artificial Turf
CSI File No.:	WRC26001
Date:	February 19, 2026

Polk County Parks and Natural Resources Division (PNR) is seeking design, permitting, geotechnical services, surveying and construction administration services for converting six (6) natural grass soccer fields to artificial turf in Loyce Harpe Park in Mulberry, Fl.

PNR is seeking to convert the above referenced fields of the park to artificial turf. Developing a performance specification and/ or bid documents for a complete artificial turf system that includes sub-base, drainage, carpet and in-fill to meet the site conditions and recreational level of use will be a critical component of the scope / deliverable. The scope includes coordinating and submitting all permit modifications, or exemption letters from the agencies described below (i.e. Water Management District, etc.).

PNR does not anticipate any potable water, sanitary sewer utility design, and/or permitting to be required. Any irrigation to be removed shall be on an "as-found" basis during construction and shall be the reponsibility of the contractor. Water and Sewer Utilities and Irrigation design is not included in this project.

PNR requires digital copies of all data and deliverables, in both a pdf format and in usable shapefiles, when appropriate, to include but not limited to: site survey, geotechnical survey locations, concept design, final design plans, as-builts and other data collected that is georeferenced for this project. This shall include two (2) sets of signed and sealed hard copy plans.

Upon authorization of the Agreement between the Polk County Board of County Commissioners (Client) and Chastain Skillman, LLC. (CS), will be responsible to provide engineering services as well as permitting for the entire project initially, however; limited construction administration will be spread out, as described in detail, over a 3 year period. Specifically, the Scope-of-Services shall include the following task items:

SCOPE-OF-SERVICES: CS will be responsible to provide:

I. Project Initiation:

1. **Project Kickoff Meeting:**
   a.) Attend a kickoff meeting with the Client and the Design Team in order to understand the lines of communication, goals/objectives of the project and schedule.

2. **Preapplication Conferences:**
   a.) Schedule and meet with the following regulatory agencies to review the design and permitting requirements for the conversion of the existing grass soccer fields to synthetic turf:
   - Southwest Florida Water Management District.
   - Polk County Land Development.

3. **Environmental Services:**
   a.) Contract with Environmental Science and Technologies, (ESA) to perform a cursory environmental site review to include:
   - Desk top Review of Parcel Limits – Prior to any field surveys, a desk top review will be conducted of the site to determine any potential constraints that may currently exist. This includes, but not limited to, National Wetlands Inventory, National Resource Conservation Service Soils and United States Geographical Survey Topographic databases. Listed species databases. Listed species databases will be reviewed as well as Audubon Florida Eagle Watch Bald Eagle Locator.
   - Preliminary Listed Species Survey – During the site review a preliminary listed species survey will be conducted to determine the potential for the existence of state and federally listed species and/or their habitat within the review area. While on site a 15% gopher tortoise burrow survey will be conducted to determine the potential density of individuals on the site.
   - Wetland/Waterbody Delineation – ESA will delineate all wetlands and waterbodies in accordance with Chapter 62-340, Florida Administrative Code (F.A.C.). In addition, all other surface water (OSW) features within the review area will be reviewed and field located where applicable.
   - Environmental Memorandum Preparation – Upon completion of the field review of the proposed site, an environmental Memorandum will be written that define the environmental constraints that exist within the Project Area. This memo will describe the onsite site conditions, wetlands and waterbodies, permitting, mitigation option, listed species avoidance and minimization measures.
   - Coastal Zone Management (CZM) Act Exemption – Because of the location of the park and since wetland features that are

considered Waters of the U.S. (WOTUS) are not proposed to be impacted as a result of the project, it is anticipated that the park improvements will be exempt from the CZM Act. As part of the Environmental Memo preparation, the CZM Act exemption will be addressed.

- Florida Master Site File TRA Search – A database search will be conducted with the Department of Historical Resources (DHR) to identify any previously recorded archaeological and cultural resource sites.

4. **Topographical Survey:**

a) CS will be responsible for preparing a Topographic Survey of an approximately 25-acre portion of Loyce E. Harpe Park, located at 500 West Carter Road, Mulberry, Florida, 33860, as shown on the attached Survey Exhibit. This survey will be prepared to aid in the design of the soccer fields located at the park. The specific scope items are listed below.

- Conduct office research, field coordination, and quality control measures as deemed necessary by CS in order to produce the survey.
- The horizontal datum for the project will be NAD 83 (2011 Adjustment), Florida State Plane, West Zone (902). All measurements will be in US Surveyor's Feet (sFT).
- Locate and depict aboveground improvements on the survey within the project limits.
- The vertical datum for the project will be based on the North American Vertical Datum of 1988 (NAVD88).
- Provide spot elevations and one-foot (+/-) contours. The spot elevations upon which the contours are based will be indicated on the drawings. An interpolated one-foot contour line (+/- 6 inches) will also be plotted on the drawing.
- The spot elevations will extend approximately to the limits as shown on the attached Survey Exhibit.
- Provide invert information of accessible storm water and sanitary sewer structures.
- Locate trees of 6-inch diameter or larger as measured at approximately 4 feet above the ground. In areas of dense tree coverage, only the edge of the tree line will be depicted.
- Pavement markings and roadway signage location with sign content.
- Provide electronic copy of the survey in AutoCAD Civil 3D 2018, excluding title block and certifications.
- Provide an electronic copy of the signed and sealed survey(s) of the above-referenced site. The survey(s) will be performed in accordance with standards of practice adopted by the State of Florida Department of Agriculture and Consumer Services.

Survey Certification: The survey certification shall read as follows: I hereby certify that this drawing correctly reflects the results of a recent survey made under my direction and this survey was made in accordance with Standard of Practice adopted by the State of Florida Department of Agriculture and Consumer Services, Board of Professional Surveyors and Mappers, Chapter 5J-17 of the Florida Administrative Code, pursuant to Section 472.027, Florida Statutes.

5. **Geotechnical Investigation Report:**
   a) Contract with Madrid Engineering Group, Inc. to provide a Geotechnical Report of the soccer field area to include:
      - Site reconnaissance to review existing conditions in the field.
      - Utility locates via Sunshine One Call (required 3 days prior to the field work).
      - Mobilization to the site.
      - Conduct twelve (12) hand auger borings (2 in each soccer field), to a maximum depth of 6 feet below ground surface (beg), within the soccer field area.
      - Conduct two (2) shallow (approximately 2 feet deep) test pits and two (2) hand auger borings to a depth of 10 feet below existing grade (beg), within the retention areas. At the base of the test pit, two (2) undisturbed samples will be collected (1 horizontal and 1 vertical) for permeability testing in the laboratory.
      - Provide an electronic copy of the report signed and sealed by a registered professional geotechnical engineer which will include:
        - A description of the site, fieldwork, laboratory testing and general soil conditions encountered.
        - Measured apparent and estimated seasonal high groundwater level within the soccer field and retention areas.
        - General geotechnical recommendations for stormwater pond.

II. Conceptual Plan:

1. Attend one (1) meeting with the Client and Design Team for the purpose of finalizing the layout and dimensions of the six (6) soccer fields.
2. After the above meeting, submit the final Conceptual Plan to the Client for approval.

III. Civil Engineering Site/Grading/Soccer Fields:

1. Based on the approved Conceptual Site Plan above, prepare the final engineered Site Plan for the six (6) existing natural turf soccer fields.
2. Design collector storm sewer to existing on-site retention areas. For ease in permitting, every attempt will be made to maintain existing drainage patterns. No new impervious area is proposed.
3. Contract with OSports to provide:

- Prepare plans and specifications for the conversion of the six (6) existing soccer field to artificial turf, including:
  - Field Layout and striping/graphics plans based off NCAA and/or NFHS design requirements.
  - Field area grading plans.
  - Field area utility plans containing:
    - Layout of field underdrain and storm collector system.
    - Layout of electrical or future use conduit pathways.
  - Field cross sections and field related details.
- Assist with coordination of graphics design for the field lines, field logo with PNR and include in our plan set.
- Provide drawings stamped and sealed by a Professional Architect and/or Engineer registered in the State of Florida.
- Attend a design kick-off meeting and up to (3) design review meetings with PNR and any stakeholders to determine the basis of design, design schedule and address any comments of the design of the facility.
- Provide drawings and specifications for review at 30%, 60% and 90% Construction Documents/For Permit deliverables.
- Provide opinion of probable cost for the artificial turf fields at 60% and 90% deliverables.

IV. Permit Documents and Applications:

1. Prepare and submit permit packages and respond to comments from required agencies and jurisdictions. The following are anticipated:
   a. Southwest Florida Water Management District – Modification of existing Environmental Resource Permit. No new impervious area is proposed.
   b. Polk County – Land Development Review.
   c. Coastal Zone Management Act (Exemption).
   d. Florida Department of Environmental Protection – NPDES to be submitted by Owner or Contractor.

V. Project Specifications Manual:

1. Provide the County with project specifications for all civil engineering, including artificial turf. A technical specifications manual, with Opinion of Probable Cost (Containing Quantities) will be provided at 60% and 90% completion with final construction specifications and Opinion of Probable Cost being provided at 100% completion.

VI. Limited Construction Administration:

1. Phase I consisting of the two (2) westerly tournament level soccer fields, expected to be constructed in 2027.
   a. Limited construction administration shall consist of the following:
      - Responding to bidder's questions (RFI's).

- Attend a construction kick-off meeting with PNR, contractors, and any subcontractors to review planned construction activities, construction drawings and specifications.
- Reviewing Shop Drawings and submittals.
- Review/Prepare Change Orders.
- Review Contractor's Application for Payments.
- Attend up to Sixteen (16) construction meetings at 2 hrs. each.
- Respond to Contractor questions.
- Attend substantial and final inspections on-site.

2. Phase 2 consisting of the two (2) middle soccer fields, expected to be constructed in 2028.
   a. Limited construction administration shall consist of the following:
      - Responding to bidder's questions (RFI's).
      - Attend a construction kick-off meeting with PNR, contractors, and any subcontractors to review planned construction activities, construction drawings and specifications.
      - Reviewing Shop Drawings and submittals.
      - Review/Prepare Change Orders.
      - Review Contractor's Application for Payments.
      - Attend up to Sixteen (16) construction meetings at 2 hrs. each.
      - Respond to Contractor questions.
      - Attend substantial and final inspections on-site.

3. Phase 3 consisting of the two (2) easterly soccer fields, expected to be constructed in 2029.
   a. Limited construction administration shall consist of the following:
      - Responding to bidder's questions (RFI's).
      - Attend a construction kick-off meeting with PNR, contractors, and any subcontractors to review planned construction activities, construction drawings and specifications.
      - Reviewing Shop Drawings and submittals.
      - Review/Prepare Change Orders.
      - Review Contractor's Application for Payments.
      - Attend up to Sixteen (16) construction meetings at 2 hrs. each.
      - Respond to Contractor questions.
      - Attend substantial and final inspections on-site.

VII. Record Drawings

1. Phase I Construction consisting of the two (2) westerly tournament level soccer fields.
   a. Prepare record drawings based on the contractor provided as-built drawings. CS requires four (4) signed/sealed (Florida Registered Professional Surveyor) copies of the "as-built" drawings, as well as a pdf file and a CAD file.
   b. Provide 1 hard copy, 1 pdf copy, and 1 CAD copy to the Client.

2. Phase 2 Constuction consisting of the two (2) middle soccer fileds.
   a. Prepare record drawings based on the contractor provided as-built drawings. CS requires four (4) signed/sealed (Florida Registered Professional Surveyor) copies of the "as-built" drawings, as well as a pdf file and a CAD file.
   b. Provide 1 hard copy, 1 pdf copy, and 1 CAD copy to the Client.

3. Phase 3 Constuction consisting of the two (2) easterly soccer fields.
   c. Prepare record drawings based on the contractor provided as-built drawings. CS requires four (4) signed/sealed (Florida Registered Professional Surveyor) copies of the "as-built" drawings, as well as a pdf file and a CAD file.
   d. Provide 1 hard copy, 1 pdf copy, and 1 CAD copy to the Client.

EXAMPLE OF SERVICES NOT INCLUDED:

- Payment of utility locate fees, if any, provided by the utility companies.
- Archaeological cultural resource field study.
- Appraisal or land acquisition services.
- Wetland delineation and location, permitting or design.
- Bald Eagle Permitting.
- Gopher Tortoise Permitting or Relocation.
- Listed species relocation.
- Phase I Site Assessment.
- Concrete walks, fencing, lighting or any other services beyond those expressly stated in the Scope-of-Services herein.
- Research, Excavation, and location of underground improvements.
- Boundary Survey or ALTA/ACSM Land Title Survey.
- Landscape and irrigation services.
- Electrical, Potable Water or Sanitary Sewer Utilities.
- Verification of accuracy of information provided by others.
- Any other services not expressly stated in the Scope-of-Services herein.

ASSUMPTIONS:

The Scope-of-Services and Compensation arrangement outlined in this Task Order are based on the following assumptions:

1. It is assumed that the Client will furnish CS with all information as to its requirements including any special or extraordinary considerations for the Project, and also to make available existing pertinent data.
2. It is assumed that the information required to complete CS's services will be readily available.
3. It is assumed that the information provided by the Client and any third parties is accurate and can be relied upon by CS.

4. It is assumed that a zoning or land use change will not be required for the development.
5. It is assumed that the gopher tortoise permitting, and relocation is not part of this work.
6. It is assumed that the sand-skink survey and permitting is not a part of this work.

PERIOD OF SERVICE:

Upon acceptance of this agreement and receipt of a Notice to Proceed from Polk County, the Consultant will promptly initiate its services and would expect to substantially complete the services through submittal for permitting within approximately One-Hundred Twenty (120) days. The time required for review of drawings by the agencies, approval of permits, and the County's Construction Manager review is estimated at 90 days but is beyond the control of the Consultant.

The following general schedule is anticipated for the period of service:

Task	Duration
Project Design	120 Days
Permitting	60 Days
Bidding (During Permitting)	60 Days
Construction	240 Days
Permitting Close-out	30 Days

This Space Intentionally Left Blank

COMPENSATION:

Our compensation for the Surveying and Professional Engineering Services delineated above will be based on the Lump Sum of $268,970.00 as summarized below:

TASK	DESCRIPTION	FEE, $
I.	Project Initiation	
1	Kickoff Meeting	1,680
2	Preapplication Conferences	2,260
3	Environmental Services	6,965
4	Topographical Survey	17,900
5	Geotechnical Investigation Report	9,850
II	Conceptual Plan (30%)	27,977
III	Civil Engineering Site/Grading/Soccer Fields	
1	Final Site Plan	6,590
2	Collector Storm Sewer and Retention Area	8,900
3	60% Design Plans, Opinion of Probable Cost, Technical Specs.	29,806
4	90% Design Plans, Opinion of Probable Cost, Technical Specs.	28,806
5	100% Design Plans, Opinion of Probable Cost, Technical Specs	28,806
IV	Permit Documents and Applications	10,330
V	Project Specifications Manual	6,600
VI	Limited Construction Administration	
	Phase 1 Construction	25,750
	Phase 2 Construction	25,750
	Phase 3 Construction	25,750
VII	Record Drawings	
	Phase 1 Construction	1,750
	Phase 2 Construction	1,750
	Phase 3 Construction	1,750
	LUMP SUM	**$268,970**

TASK	CONTINGENCY	FEE, $
I.	15% Contingency (Not to be Utilized without prior County Approval)	40,345
	LUMP SUM	**$40,345**

The Client and CS agree that the individual tasks may be exceeded, provided the total fixed fee is not exceeded without the prior written authorization from the Client.

We trust that this working arrangement is agreeable with you, and if so, would appreciate execution of this Letter-of-Agreement in the appropriate spaces provided below and the return of one executed copy of same to this office.

Coverage Extension Endorsement

ZURICH

THIS ENDORSEMENT CHANGES THE POLICY. PLEASE READ IT CAREFULLY.	
Policy No. BAP 8720274 - 02	Effective Date: 06/30/2025

This endorsement modifies insurance provided under the:

Business Auto Coverage Form
Motor Carrier Coverage Form

A. Amended Who Is An Insured

1. The following is added to the **Who Is An Insured** Provision in **Section II – Covered Autos Liability Coverage**:

   The following are also "insureds":

   a. Any "employee" of yours is an "insured" while using a covered "auto" you don't own, hire or borrow for acts performed within the scope of employment by you. Any "employee" of yours is also an "insured" while operating an "auto" hired or rented under a contract or agreement in an "employee's" name, with your permission, while performing duties related to the conduct of your business.

   b. Anyone volunteering services to you is an "insured" while using a covered "auto" you don't own, hire or borrow to transport your clients or other persons in activities necessary to your business.

   c. Anyone else who furnishes an "auto" referenced in Paragraphs **A.1.a.** and **A.1.b.** in this endorsement.

   d. Where and to the extent permitted by law, any person(s) or organization(s) where required by written contract or written agreement with you executed prior to any "accident", including those person(s) or organization(s) directing your work pursuant to such written contract or written agreement with you, provided the "accident" arises out of operations governed by such contract or agreement and only up to the limits required in the written contract or written agreement, or the Limits of Insurance shown in the Declarations, whichever is less.

2. The following is added to the **Other Insurance** Condition in the Business Auto Coverage Form and the **Other Insurance – Primary and Excess Insurance Provisions Condition** in the Motor Carrier Coverage Form:

   Coverage for any person(s) or organization(s), where required by written contract or written agreement with you executed prior to any "accident", will apply on a primary and non-contributory basis and any insurance maintained by the additional "insured" will apply on an excess basis. However, in no event will this coverage extend beyond the terms and conditions of the Coverage Form.

B. Amendment – Supplementary Payments

Paragraphs **a.(2)** and **a.(4)** of the **Coverage Extensions** Provision in **Section II – Covered Autos Liability Coverage** are replaced by the following:

(2) Up to $5,000 for the cost of bail bonds (including bonds for related traffic law violations) required because of an "accident" we cover. We do not have to furnish these bonds.

(4) All reasonable expenses incurred by the "insured" at our request, including actual loss of earnings up to $500 a day because of time off from work.

C. Fellow Employee Coverage

The **Fellow Employee** Exclusion contained in **Section II – Covered Autos Liability Coverage** does not apply.

Includes copyrighted material of Insurance Services Office, Inc., with its permission.

D. Driver Safety Program Liability and Physical Damage Coverage

1. The following is added to the **Racing** Exclusion in **Section II – Covered Autos Liability Coverage**:

   This exclusion does not apply to covered "autos" participating in a driver safety program event, such as, but not limited to, auto or truck rodeos and other auto or truck agility demonstrations.

2. The following is added to Paragraph **2.** in **B. Exclusions** of **Section III – Physical Damage Coverage** of the Business Auto Coverage Form and Paragraph **2.b.** in **B. Exclusions** of **Section IV – Physical Damage Coverage** of the Motor Carrier Coverage Form:

   This exclusion does not apply to covered "autos" participating in a driver safety program event, such as, but not limited to, auto or truck rodeos and other auto or truck agility demonstrations.

E. Lease or Loan Gap Coverage

The following is added to the **Coverage** Provision of the **Physical Damage Coverage** Section:

Lease Or Loan Gap Coverage

In the event of a total "loss" to a covered "auto", we will pay any unpaid amount due on the lease or loan for a covered "auto", less:

a. Any amount paid under the **Physical Damage Coverage** Section of the Coverage Form; and

b. Any:

(1) Overdue lease or loan payments at the time of the "loss";

(2) Financial penalties imposed under a lease for excessive use, abnormal wear and tear or high mileage;

(3) Security deposits not returned by the lessor;

(4) Costs for extended warranties, credit life insurance, health, accident or disability insurance purchased with the loan or lease; and

(5) Carry-over balances from previous leases or loans.

F. Towing and Labor

Paragraph **A.2.** of the **Physical Damage Coverage** Section is replaced by the following:

We will pay up to $75 for towing and labor costs incurred each time a covered "auto" that is a "private passenger type", light truck or medium truck is disabled. However, the labor must be performed at the place of disablement.

As used in this provision, "private passenger type" means a private passenger or station wagon type "auto" and includes an "auto" of the pickup or van type if not used for business purposes.

G. Extended Glass Coverage

The following is added to Paragraph **A.3.a.** of the **Physical Damage Coverage** Section:

If glass must be replaced, the deductible shown in the Declarations will apply. However, if glass can be repaired and is actually repaired rather than replaced, the deductible will be waived. You have the option of having the glass repaired rather than replaced.

H. Hired Auto Physical Damage – Increased Loss of Use Expenses

The **Coverage Extension** for **Loss Of Use Expenses** in the **Physical Damage Coverage** Section is replaced by the following:

Loss Of Use Expenses

For Hired Auto Physical Damage, we will pay expenses for which an "insured" becomes legally responsible to pay for loss of use of a vehicle rented or hired without a driver under a written rental contract or written rental agreement. We will pay for loss of use expenses if caused by:

(1) Other than collision only if the Declarations indicate that Comprehensive Coverage is provided for any covered "auto";

Includes copyrighted material of Insurance Services Office, Inc., with its permission.

(2) Specified Causes Of Loss only if the Declarations indicate that Specified Causes Of Loss Coverage is provided for any covered "auto"; or

(3) Collision only if the Declarations indicate that Collision Coverage is provided for any covered "auto".

However, the most we will pay for any expenses for loss of use is $100 per day, to a maximum of $3000.

I. Personal Effects Coverage

The following is added to the **Coverage** Provision of the **Physical Damage Coverage** Section:

Personal Effects Coverage

a. We will pay up to $750 for "loss" to personal effects which are:

(1) Personal property owned by an "insured"; and

(2) In or on a covered "auto".

b. Subject to Paragraph **a.** above, the amount to be paid for "loss" to personal effects will be based on the lesser of:

(1) The reasonable cost to replace; or

(2) The actual cash value.

c. The coverage provided in Paragraphs **a.** and **b.** above, only applies in the event of a total theft of a covered "auto". No deductible applies to this coverage. However, we will not pay for "loss" to personal effects of any of the following:

(1) Accounts, bills, currency, deeds, evidence of debt, money, notes, securities, or commercial paper or other documents of value.

(2) Bullion, gold, silver, platinum, or other precious alloys or metals; furs or fur garments; jewelry, watches, precious or semi-precious stones.

(3) Paintings, statuary and other works of art.

(4) Contraband or property in the course of illegal transportation or trade.

(5) Tapes, records, discs or other similar devices used with audio, visual or data electronic equipment.

Any coverage provided by this Provision is excess over any other insurance coverage available for the same "loss".

J. Tapes, Records and Discs Coverage

1. The Exclusion in Paragraph **B.4.a.** of **Section III – Physical Damage Coverage** in the Business Auto Coverage Form and the Exclusion in Paragraph **B.2.c.** of **Section IV – Physical Damage Coverage** in the Motor Carrier Coverage Form does not apply.

2. The following is added to Paragraph **1.a. Comprehensive Coverage** under the **Coverage** Provision of the **Physical Damage Coverage** Section:

   We will pay for "loss" to tapes, records, discs or other similar devices used with audio, visual or data electronic equipment. We will pay only if the tapes, records, discs or other similar audio, visual or data electronic devices:

   (a) Are the property of an "insured"; and

   (b) Are in a covered "auto" at the time of "loss".

   The most we will pay for such "loss" to tapes, records, discs or other similar devices is $500. The **Physical Damage Coverage Deductible** Provision does not apply to such "loss".

K. Airbag Coverage

The Exclusion in Paragraph **B.3.a.** of **Section III – Physical Damage Coverage** in the Business Auto Coverage Form and the Exclusion in Paragraph **B.4.a.** of **Section IV – Physical Damage Coverage** in the Motor Carrier Coverage Form does not apply to the accidental discharge of an airbag.

L. Two or More Deductibles

The following is added to the **Deductible** Provision of the **Physical Damage Coverage** Section:

Includes copyrighted material of Insurance Services Office, Inc., with its permission.

If an accident is covered both by this policy or Coverage Form and by another policy or Coverage Form issued to you by us, the following applies for each covered "auto" on a per vehicle basis:

1. If the deductible on this policy or Coverage Form is the smaller (or smallest) deductible, it will be waived; or
2. If the deductible on this policy or Coverage Form is not the smaller (or smallest) deductible, it will be reduced by the amount of the smaller (or smallest) deductible.

M. Temporary Substitute Autos – Physical Damage

1. The following is added to **Section I – Covered Autos**:

   Temporary Substitute Autos – Physical Damage

   If Physical Damage Coverage is provided by this Coverage Form on your owned covered "autos", the following types of vehicles are also covered "autos" for Physical Damage Coverage:

   Any "auto" you do not own when used with the permission of its owner as a temporary substitute for a covered "auto" you do own but is out of service because of its:

   1. Breakdown;
   2. Repair;
   3. Servicing;
   4. "Loss"; or
   5. Destruction.

2. The following is added to the Paragraph **A. Coverage** Provision of the **Physical Damage Coverage** Section:

   Temporary Substitute Autos – Physical Damage

   We will pay the owner for "loss" to the temporary substitute "auto" unless the "loss" results from fraudulent acts or omissions on your part. If we make any payment to the owner, we will obtain the owner's rights against any other party.

   The deductible for the temporary substitute "auto" will be the same as the deductible for the covered "auto" it replaces.

N. Amended Duties In The Event Of Accident, Claim, Suit Or Loss

Paragraph **a.** of the **Duties In The Event Of Accident, Claim, Suit Or Loss** Condition is replaced by the following:

a. In the event of "accident", claim, "suit" or "loss", you must give us or our authorized representative prompt notice of the "accident", claim, "suit" or "loss". However, these duties only apply when the "accident", claim, "suit" or "loss" is known to you (if you are an individual), a partner (if you are a partnership), a member (if you are a limited liability company) or an executive officer or insurance manager (if you are a corporation). The failure of any agent, servant or employee of the "insured" to notify us of any "accident", claim, "suit" or "loss" shall not invalidate the insurance afforded by this policy.

Include, as soon as practicable:

(1) How, when and where the "accident" or "loss" occurred and if a claim is made or "suit" is brought, written notice of the claim or "suit" including, but not limited to, the date and details of such claim or "suit";

(2) The "insured's" name and address; and

(3) To the extent possible, the names and addresses of any injured persons and witnesses.

If you report an "accident", claim, "suit" or "loss" to another insurer when you should have reported to us, your failure to report to us will not be seen as a violation of these amended duties provided you give us notice as soon as practicable after the fact of the delay becomes known to you.

O. Waiver of Transfer Of Rights Of Recovery Against Others To Us

The following is added to the **Transfer Of Rights Of Recovery Against Others To Us** Condition:

Includes copyrighted material of Insurance Services Office, Inc., with its permission.

This Condition does not apply to the extent required of you by a written contract, executed prior to any "accident" or "loss", provided that the "accident" or "loss" arises out of operations contemplated by such contract. This waiver only applies to the person or organization designated in the contract.

P. Employee Hired Autos – Physical Damage

Paragraph **b.** of the **Other Insurance** Condition in the Business Auto Coverage Form and Paragraph **f.** of the **Other Insurance – Primary and Excess Insurance Provisions** Condition in the Motor Carrier Coverage Form are replaced by the following:

For Hired Auto Physical Damage Coverage, the following are deemed to be covered "autos" you own:

(1) Any covered "auto" you lease, hire, rent or borrow; and

(2) Any covered "auto" hired or rented under a written contract or written agreement entered into by an "employee" or elected or appointed official with your permission while being operated within the course and scope of that "employee's" employment by you or that elected or appointed official's duties as respect their obligations to you.

However, any "auto" that is leased, hired, rented or borrowed with a driver is not a covered "auto".

Q. Unintentional Failure to Disclose Hazards

The following is added to the **Concealment, Misrepresentation Or Fraud** Condition:

However, we will not deny coverage under this Coverage Form if you unintentionally:

(1) Fail to disclose any hazards existing at the inception date of this Coverage Form; or

(2) Make an error, omission, improper description of "autos" or other misstatement of information.

You must notify us as soon as possible after the discovery of any hazards or any other information that was not provided to us prior to the acceptance of this policy.

R. Hired Auto – World Wide Coverage

Paragraph **7.b.(5)** of the **Policy Period, Coverage Territory** Condition is replaced by the following:

(5) Anywhere else in the world if a covered "auto" is leased, hired, rented or borrowed for a period of 60 days or less,

S. Bodily Injury Redefined

The definition of "bodily injury" in the **Definitions** Section is replaced by the following:

"Bodily injury" means bodily injury, sickness or disease, sustained by a person including death or mental anguish, resulting from any of these at any time. Mental anguish means any type of mental or emotional illness or disease.

T. Expected Or Intended Injury

The **Expected Or Intended Injury** Exclusion in Paragraph **B. Exclusions** under **Section II – Covered Auto Liability Coverage** is replaced by the following:

Expected Or Intended Injury

"Bodily injury" or "property damage" expected or intended from the standpoint of the "insured". This exclusion does not apply to "bodily injury" or "property damage" resulting from the use of reasonable force to protect persons or property.

U. Physical Damage – Additional Temporary Transportation Expense Coverage

Paragraph **A.4.a.** of **Section III – Physical Damage Coverage** is replaced by the following:

4. Coverage Extensions

a. Transportation Expenses

We will pay up to $50 per day to a maximum of $1,000 for temporary transportation expense incurred by you because of the total theft of a covered "auto" of the private passenger type. We will pay only for those covered "autos" for which you carry either Comprehensive or Specified Causes of Loss Coverage. We will pay for temporary transportation expenses incurred during the period beginning 48 hours after the theft and ending, regardless of the policy's expiration, when the covered "auto" is returned to use or we pay for its "loss".

Includes copyrighted material of Insurance Services Office, Inc., with its permission.

V. Replacement of a Private Passenger Auto with a Hybrid or Alternative Fuel Source Auto

The following is added to Paragraph **A. Coverage** of the **Physical Damage Coverage** Section:

In the event of a total "loss" to a covered "auto" of the private passenger type that is replaced with a hybrid "auto" or "auto" powered by an alternative fuel source of the private passenger type, we will pay an additional 10% of the cost of the replacement "auto", excluding tax, title, license, other fees and any aftermarket vehicle upgrades, up to a maximum of $2500. The covered "auto" must be replaced by a hybrid "auto" or an "auto" powered by an alternative fuel source within 60 calendar days of the payment of the "loss" and evidenced by a bill of sale or new vehicle lease agreement.

To qualify as a hybrid "auto", the "auto" must be powered by a conventional gasoline engine and another source of propulsion power. The other source of propulsion power must be electric, hydrogen, propane, solar or natural gas, either compressed or liquefied. To qualify as an "auto" powered by an alternative fuel source, the "auto" must be powered by a source of propulsion power other than a conventional gasoline engine. An "auto" solely propelled by biofuel, gasoline or diesel fuel or any blend thereof is not an "auto" powered by an alternative fuel source.

W. Return of Stolen Automobile

The following is added to the **Coverage Extension** Provision of the **Physical Damage Coverage** Section:

If a covered "auto" is stolen and recovered, we will pay the cost of transport to return the "auto" to you. We will pay only for those covered "autos" for which you carry either Comprehensive or Specified Causes of Loss Coverage.

All other terms, conditions, provisions and exclusions of this policy remain the same.

Includes copyrighted material of Insurance Services Office, Inc., with its permission.

Blanket Notification To Others Of Cancellation

ZURICH

THIS ENDORSEMENT CHANGES THE POLICY. PLEASE READ IT CAREFULLY.	
Policy No. GLO 8720273 - 02	Effective Date: 06/30/2025

This endorsement modifies insurance provided under the:

Commercial General Liability Coverage Part

A. If we cancel this Coverage Part by written notice to the first Named Insured for any reason other than nonpayment of premium, we will deliver electronic notification that such Coverage Part has been cancelled to each person or organization shown in a Schedule provided to us by the First Named Insured. Such Schedule:

1. Must be initially provided to us within 15 days:
   a. After the beginning of the policy period shown in the Declarations; or
   b. After this endorsement has been added to policy;
2. Must contain the names and e-mail addresses of only the persons or organizations requiring notification that such Coverage Part has been cancelled;
3. Must be in an electronic format that is acceptable to us; and
4. Must be accurate.

Such Schedule may be updated and provided to us by the First Named Insured during the policy period. Such updated Schedule must comply with Paragraphs **2. 3.** and **4.** above.

B. Our delivery of the electronic notification as described in Paragraph **A.** of this endorsement will be based on the most recent Schedule in our records as of the date the notice of cancellation is mailed or delivered to the first Named Insured. Delivery of the notification as described in Paragraph **A.** of this endorsement will be completed as soon as practicable after the effective date of cancellation to the first Named Insured.

C. Proof of e-mailing the electronic notification will be sufficient proof that we have complied with Paragraphs **A.** and **B.** of this endorsement.

D. Our delivery of electronic notification described in Paragraphs **A.** and **B.** of this endorsement is intended as a courtesy only. Our failure to provide such delivery of electronic notification will not:

1. Extend the Coverage Part cancellation date;
2. Negate the cancellation; or
3. Provide any additional insurance that would not have been provided in the absence of this endorsement.

E. We are not responsible for the accuracy, integrity, timeliness and validity of information contained in the Schedule provided to us as described in Paragraphs **A.** and **B.** of this endorsement.

All other terms, conditions, provisions and exclusions of this policy remain the same.

Named Insured:

Address (including ZIP Code):

This endorsement modifies insurance provided under the:

Commercial General Liability Coverage Part

1. The following paragraph is added to the Other Insurance Condition of Section **IV – Commercial General Liability Conditions**:

   This insurance is primary insurance to and will not seek contribution from any other insurance available to an additional insured under this policy provided that:

   a. The additional insured is a Named Insured under such other insurance; and

   b. You are required by a written contract or written agreement that this insurance would be primary and would not seek contribution from any other insurance available to the additional insured.

2. The following paragraph is added to Paragraph **4.b.** of the Other Insurance Condition of Section **IV – Commercial General Liability Conditions**:

   This insurance is excess over:

   Any of the other insurance, whether primary, excess, contingent or on any other basis, available to an additional insured, in which the additional insured on our policy is also covered as an additional insured on another policy providing coverage for the same "occurrence", offense, claim or "suit". This provision does not apply to any policy in which the additional insured is a Named Insured on such other policy and where our policy is required by written contract or written agreement to provide coverage to the additional insured on a primary and non-contributory basis.

All other terms and conditions of this policy remain unchanged.

Includes copyrighted material of Insurance Services Office, Inc., with its permission.

Commercial General Liability Coverage Part

SCHEDULE

Name Of Additional Insured Person(s) Or Organization(s):	Location(s) Of Covered Operations
ANY PERSON OR ORGANIZATION, OTHER THAN AN ARCHITECT, ENGINEER OR SURVEYOR, WHOM YOU ARE REQUIRED TO ADD AS AN ADDITIONAL INSURED UNDER THIS POLICY UNDER A WRITTEN CONTRACT OR WRITTEN AGREEMENT EXECUTED PRIOR TO LOSS.	ANY LOCATION OR PROJECT, OTHER THAN A WRAP-UP OR OTHER CONSOLIDATED INSURANCE PROGRAM LOCATION OR PROJECT FOR WHICH INSURANCE IS OTHERWISE SEPARATELY PROVIDED TO YOU BY A WRAP-UP OR OTHER CONSOLIDATED INSURANCE PROGRAM

A. Section **II – Who Is An Insured** is amended to include as an additional insured the person(s) or organization(s) shown in the Schedule of this endorsement, but only with respect to liability for "bodily injury", "property damage" or "personal and advertising injury" caused, in whole or in part, by:

1. Your acts or omissions; or
2. The acts or omissions of those acting on your behalf;

in the performance of your ongoing operations for the additional insured(s) at the location(s) designated in such Schedule.

B. With respect to the insurance afforded to these additional insureds, the following additional exclusions apply:

This insurance does not apply to "bodily injury" or "property damage" occurring after:

1. All work, including materials, parts or equipment furnished in connection with such work, on the project (other than service, maintenance or repairs) to be performed by or on behalf of the additional insured(s) at the location of the covered operations has been completed; or

Includes copyrighted material of Insurance Services Office, Inc., with its permission.

2. That portion of "your work" out of which the injury or damage arises has been put to its intended use by any person or organization other than another contractor or subcontractor engaged in performing operations for a principal as a part of the same project.

All other terms, conditions, provisions and exclusions of this policy remain the same.

Includes copyrighted material of Insurance Services Office, Inc., with its permission.

THIS ENDORSEMENT CHANGES THE POLICY. PLEASE READ IT CAREFULLY.

DESIGNATED CONSTRUCTION PROJECT(S) GENERAL AGGREGATE LIMIT

This endorsement modifies insurance provided under the following:

COMMERCIAL GENERAL LIABILITY COVERAGE PART

SCHEDULE

Designated Construction Project(s):
Information required to complete this Schedule, if not shown above, will be shown in the Declarations.

A. For all sums which the insured becomes legally obligated to pay as damages caused by "occurrences" under Section **I** – Coverage **A,** and for all medical expenses caused by accidents under Section **I** – Coverage **C,** which can be attributed only to ongoing operations at a single designated construction project shown in the Schedule above:

1. A separate Designated Construction Project General Aggregate Limit applies to each designated construction project, and that limit is equal to the amount of the General Aggregate Limit shown in the Declarations.
2. The Designated Construction Project General Aggregate Limit is the most we will pay for the sum of all damages under Coverage **A,** except damages because of "bodily injury" or "property damage" included in the "products-completed operations hazard", and for medical expenses under Coverage **C** regardless of the number of:
   a. Insureds;
   b. Claims made or "suits" brought; or
   c. Persons or organizations making claims or bringing "suits".
3. Any payments made under Coverage **A** for damages or under Coverage **C** for medical expenses shall reduce the Designated Construction Project General Aggregate Limit for that designated construction project. Such payments shall not reduce the General Aggregate Limit shown in the Declarations nor shall they reduce any other Designated Construction Project General Aggregate Limit for any other designated construction project shown in the Schedule above.
4. The limits shown in the Declarations for Each Occurrence, Damage To Premises Rented To You and Medical Expense continue to apply. However, instead of being subject to the General Aggregate Limit shown in the Declarations, such limits will be subject to the applicable Designated Construction Project General Aggregate Limit.

© Insurance Services Office, Inc., 2008

B. For all sums which the insured becomes legally obligated to pay as damages caused by "occurrences" under Section **I** – Coverage **A,** and for all medical expenses caused by accidents under Section **I** – Coverage **C,** which cannot be attributed only to ongoing operations at a single designated construction project shown in the Schedule above:

1. Any payments made under Coverage **A** for damages or under Coverage **C** for medical expenses shall reduce the amount available under the General Aggregate Limit or the Products-completed Operations Aggregate Limit, whichever is applicable; and
2. Such payments shall not reduce any Designated Construction Project General Aggregate Limit.

C. When coverage for liability arising out of the "products-completed operations hazard" is provided, any payments for damages because of "bodily injury" or "property damage" included in the "products-completed operations hazard" will reduce the Products-completed Operations Aggregate Limit, and not reduce the General Aggregate Limit nor the Designated Construction Project General Aggregate Limit.

D. If the applicable designated construction project has been abandoned, delayed, or abandoned and then restarted, or if the authorized contracting parties deviate from plans, blueprints, designs, specifications or timetables, the project will still be deemed to be the same construction project.

E. The provisions of Section **III** – Limits Of Insurance not otherwise modified by this endorsement shall continue to apply as stipulated.

Polk County

Board of County Commissioners

Agenda Item R.25. 6/16/2026

SUBJECT

SET HEARING to consider a request to vacate platted and unmaintained right-of-way shown on the plat of Bevington Manor. (Suggested hearing date is July 7, 2026, at 9:00 a.m. or immediately following the regular agenda)

DESCRIPTION

The County has received the following request to adopt a resolution vacating, abandoning, discontinuing, closing, renouncing, and disclaiming any rights of the County or the public in certain platted and unmaintained right-of-way within Polk County. Florida Statutes, Section 336.10, requires the Commissioners hold a public hearing to consider Petitions adopting resolutions vacating, abandoning, discontinuing, closing, renouncing, and disclaiming property under their control. Setting a public hearing date will comply with Florida Statutes and allow the request to be considered.

Request Board set a public hearing date for the following request to vacate platted and unmaintained right-of-way. Suggested Hearing Date: Tuesday, July 7, 2026, at 9:00 a.m., or immediately following the regular agenda:

1. Consider a petition by Jim Schultz to adopt a resolution vacating the north half of platted and unmaintained right-of-way shown as Roosevelt Street, lying south of Lots 119 and 120, on the plat of Bevington Manor recorded in Plat Book 20, at Page 47, Public Records of Polk County, Florida. The subject right-of-way lies in Section 3, Township 28 South, Range 24 East.

RECOMMENDATION

Request Board set a Public Hearing on Tuesday, July 7, 2026, at 9:00 a.m., or immediately following the regular agenda, to consider the preceding item.

FISCAL IMPACT

No fiscal impact.

Agenda Item R.26. 6/16/2026

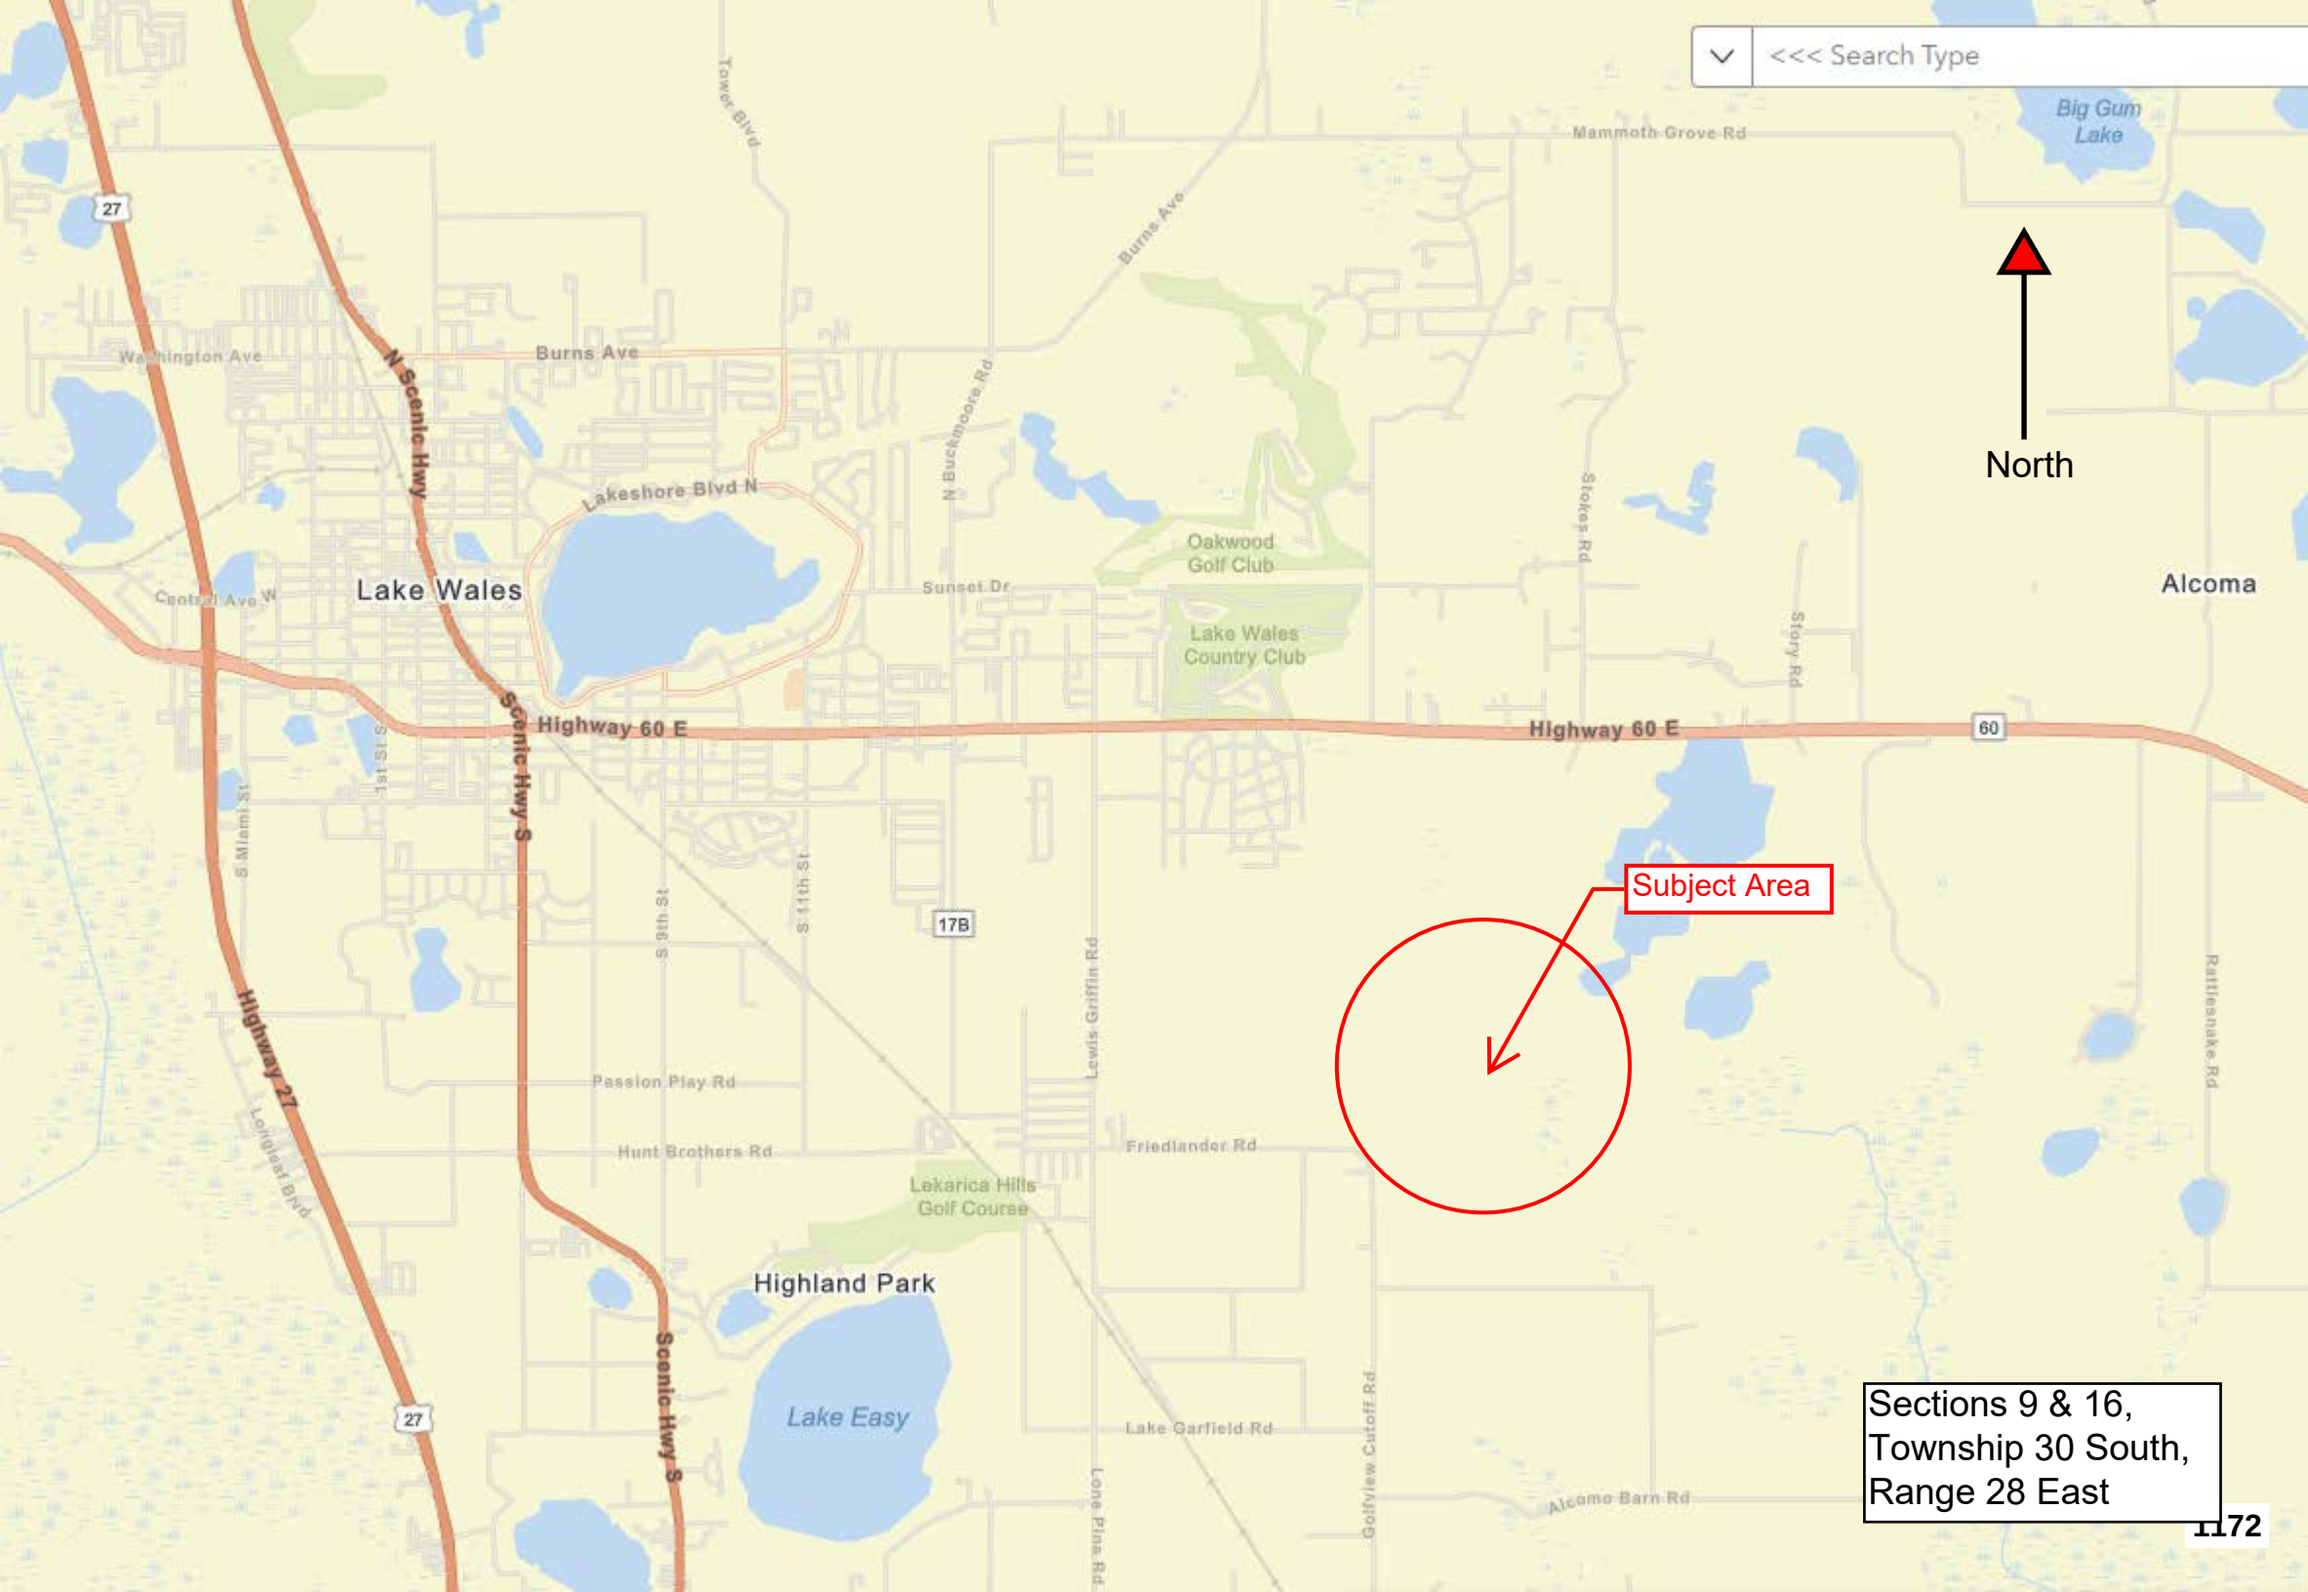
SUBJECT

Approve Grazing Lease Agreement between Polk County and Stuart Cattle & Equipment, LLC. ($7,500 annual revenue)

DESCRIPTION

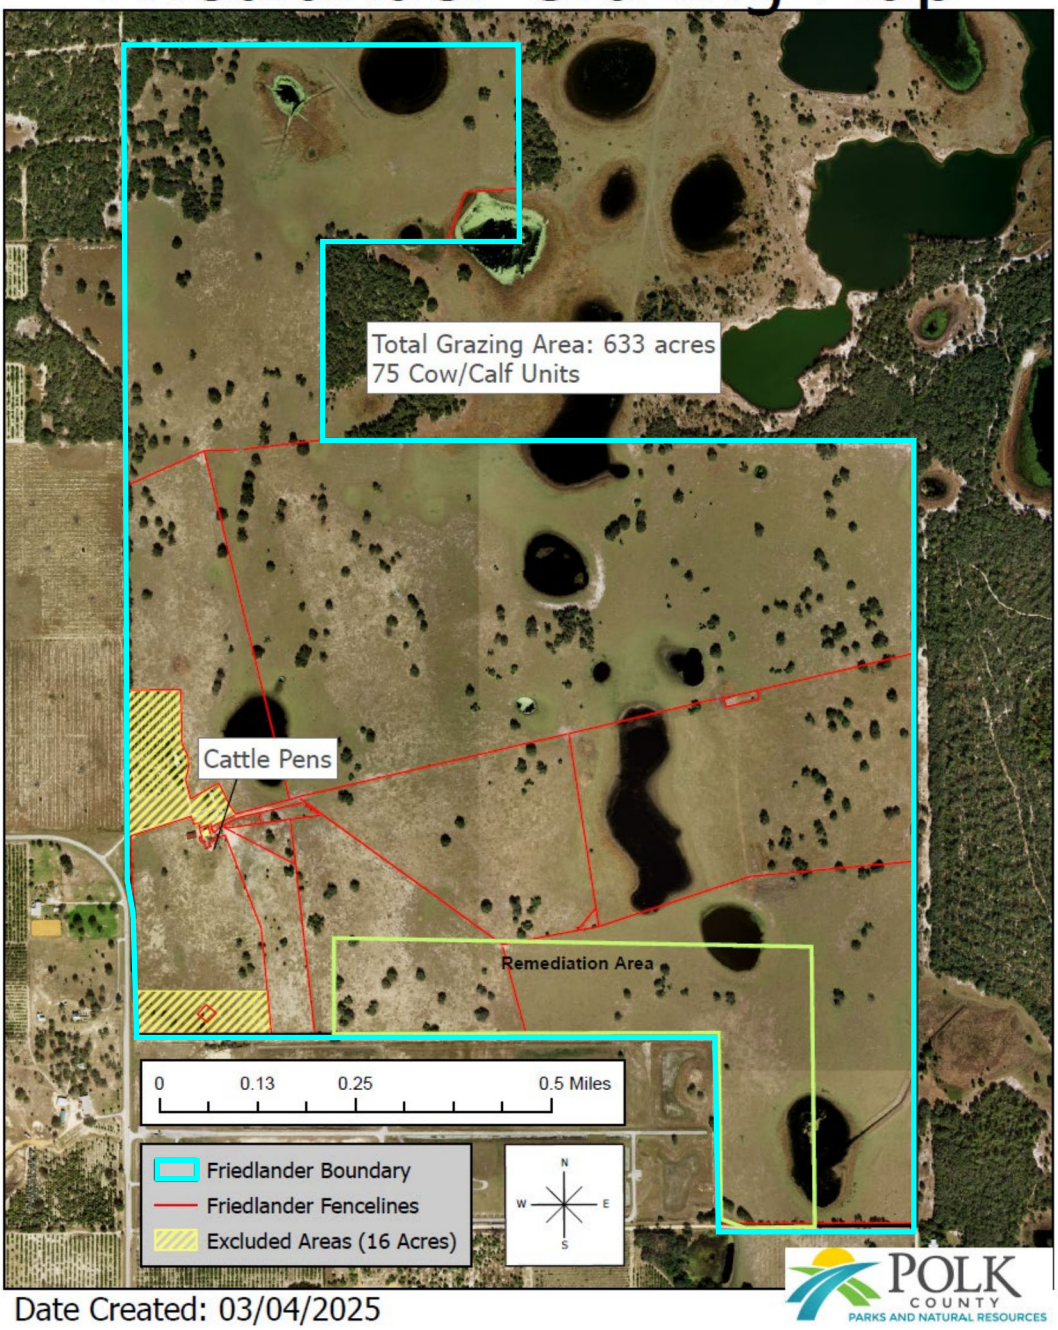
In December 2024, the County purchased a large tract of land located along Friedlander Road in the Lake Wales area in conjunction with a recommendation by the Conservation Land Acquisition Selection Advisory Committee ("CLASAC"). The property contains a total of approximately 649-acres the majority of which was historically utilized for cattle grazing operations. Cattle grazing has been previously utilized as beneficial and effective tool to aid in the management of certain properties acquired for conservation purposes. The Parks and Natural Resources Division requested Procurement solicit proposals from qualified vendors to lease portions of the County-owned property, totaling approximately 633 acres. Request for Proposal (RFP) 26-095 was issued and two proposals were received. On April 7, 2026, the Board approved the selection committee's recommendation to enter lease negotiations with the highest ranked proposer, Stuart Cattle & Equipment, LLC ("Stuart"). Negotiations between the County and Stuart have resulted in an annual lease amount of $7,500 and Stuart has executed and delivered a Grazing Lease Agreement with an initial term of five (5) years beginning July 1, 2026 which includes two 5-year renewal terms. Approving the aforementioned Grazing Lease Agreement will allow Stuart Cattle & Equipment to utilize the designated portions of the property for its grazing operations and assist the County with maintenance associated with the property.

RECOMMENDATION



Request Board approve the above-mentioned Grazing Lease Agreement with Stuart Cattle & Equipment, LLC.

FISCAL IMPACT



Annual lease proceeds in the amount of $7,500 to be deposited into the appropriate fund, as determined by Finance and Accounting.

GRAZING LEASE AGREEMENT

THIS LEASE AGREEMENT (the "Agreement"), is entered into as of the Effective Date defined in Section 38, below, by and between **POLK COUNTY**, a political subdivision of the State of Florida (the "Lessor"), 330 West Church Street, Bartow, Florida 33830, and Stuart Cattle & Equipment, LLC, a Florida limited liability company (the "Lessee"), 1462 Stokes Road, Lake Wales, Florida 33898.

RECITALS

WHEREAS, the Lessor owns that certain real property identified as Parcel ID Numbers 283009-000000-041000 and 283016-000000-011000 which is more particularly described in Exhibit "A"("County Parcels") located in Polk County, Florida; and

WHEREAS, the Lessor entered into an Extended Occupancy and Hold Harmless Agreement with an effective date of December 18, 2024, over a portion of the County Parcels containing a residential structure as depicted on the aerial drawings attached hereto as Exhibit "B". In addition to the residential structure shown on Exhibit "B" certain additional areas are being excluded which are shown on Exhibits "C-1" and "C-2". The County Parcels LESS and EXCEPT the areas depicted on Exhibits "B", "C-1" and "C-2" shall hereinafter be referred to as the "Property"; and

WHEREAS, the Property is primarily unimproved and the County division responsible for managing the Property, the Parks and Natural Resources Division, has concluded that the current highest and best use of the Property is for cattle grazing purposes; and

WHEREAS, the Lessor has solicited responsive bids from those who could use the Property for cattle grazing purposes pursuant to the Request for Proposal 26-095 (the "RFP"); and

WHEREAS, upon receipt and evaluation of all responsive bids, the Lessee has been selected to lease the Property from the County in accordance with the terms and conditions of this Agreement; and

WHEREAS, the Lessor's Board of County Commissioners acting pursuant to Florida Statutes, Section 125.35, has determined that it is in the Lessor's best interest to Lease the Property to the Lessee for the term and upon all the conditions described in this Agreement.

NOW, THEREFORE, in consideration of the mutual covenants stated herein and for other good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, the parties hereby agree, as follows:

1. **RECITALS.** The foregoing recitals are true and correct and are incorporated into this Agreement.

2. **LEASE.** Lessor hereby leases and rents the Property to the Lessee, and the Lessee does hereby lease and rent the Property from Lessor, in accordance with the terms and conditions stated in this Agreement.

3. **TERM.**

(a) Term. The term (the "Term") of the lease governed by this Agreement shall be Five (5) years to commence on July 1, 2026, which is the date (the "Commencement Date") that the Lessor delivers possession of the Property to the Lessee, and shall terminate June 30, 2031, unless sooner terminated in accordance with another provision of this Agreement.

(b) Early Termination. Either party may terminate this Agreement at any time by delivering sixty (60) days prior written notice to the other party. Upon termination of the Agreement the Lessee shall surrender possession of the Property to the Lessor in accordance with Section 20, below. Provided Lessee is not in default of the Agreement, within thirty (30) days after an early termination pursuant to this Section 3(b) the Lessor shall deliver to the Lessee a prorated amount of the Base Rent Lessee has paid Lessor for the Initial Term being terminated.

(c) Renewal Term(s). Provided the Lessee is not in default of this Agreement (or any other agreement with the Lessor) and neither party has terminated the Agreement pursuant to Section 3(b), above, the Agreement will renew without further action of either party for (2) additional 5-year terms (each a "Renewal Term") which shall commence on July 1, 2031 and July 1, 2036. Each Renewal Term shall be in accordance with the terms and conditions stated in this Agreement.

4. **RENT.** The term "Rent" as used in this Agreement shall mean Base Rent and Additional Rent, both as defined in this Section 4, together with any and all other amounts that are payable from the Lessee to the Lessor pursuant to this Agreement.

(a) Base Rent. For its use and occupancy of the Property during each year of the Term, the Lessee shall pay Lessor in advance an annual Base Rent of Seven Thousand, Five Hundred and 00/100 Dollars ($7,500.00), together with any sales, use or other tax due thereon, without abatement, demand, deduction, or offset whatsoever.

(b) Additional Rent. The Lessee shall pay as "Additional Rent" all other sums due from the Lessee to the Lessor in accordance with this Agreement.

(c) Payment. The Lessee's obligation to pay Rent (which includes the Base Rent and any Additional Rent) shall commence on the Commencement Date. For the first year of the Term, the Lessee shall pay a prorated amount of the annual Base Rent on the Commencement Date. Thereafter, during the Term, the Lessee shall pay the Lessor the annual Base Rent on or before January 1st of each subsequent year. Any Additional Rent shall be payable as and when due pursuant to the applicable Agreement sections. If Rent is not paid on or before the tenth (10th) day after it is due, then Lessee shall also pay Lessor a late payment fee equal to five percent (5%) of the Rent payment. Lessee shall remit payment to Lessor at the address stated in Section 31, Notice, below, or at

such other place or places that Lessor may from time to time designate to Lessee by written notice.

5. **ACCEPTANCE OF PROPERTY; ASSUMPTION OF RISK.**

(a) The Lessee acknowledges that the Lessor has not made any representation to the Lessee as to whether the Property is suitable or safe for the Lessee's intended use. The Lessee has examined the condition of the Property, determined that the Property is acceptable for its intended and permitted use, and waives any and all defects that may exist within the Property and any structures or other improvements thereon.

(b) By its execution of this Agreement, the Lessee does hereby assume all risks associated with its occupancy and use of the Property and acknowledges that the Lessee shall be solely responsible and answerable for any and all accidents and injuries to persons or property occurring in, on, or around the Property, without regard to the limits of Lessee's liability insurance required pursuant to Section 12, below.

(c) The Lessor is not required or obligated to make any repair or improvement to the Property.

(d) The Lessor shall not be responsible to the Lessee, its officers, agents, employees, guests or invitees, for any damage or injury caused by or due to the Property, or any structures, improvements, or any appurtenance thereof, being out-of-repair or improperly constructed unless such damage or injury results from the sole negligence of the Lessor, and then only to the extent permitted in accordance with Section 768.28, Florida Statutes.

6. **USE OF PROPERTY; RESTRICTIONS; LESSOR ACCESS.**

(a) Grazing shall be limited to domestic cattle only and the Lessee shall manage the stocking rate, as determined by the Lessor, to prevent damage to the property. Lessee shall not permit any swine, bison, fowl, goats, sheep, or any other animal to pasture, graze, or be located on the Property. Lessee shall not permit any malnourished or diseased cattle on the Property. In addition, the Lessor may decide to allow public access to the site in the future, therefore, all horses used on site should be up to date on Coggins.

(b) The Lessee shall not permit the cattle grazing to restrict the movement of wildlife through the Property or to interfere with any use of adjoining real property.

(c) The Lessee shall not hunt or fish on the Property and shall not permit any other person to hunt or fish on the Property. Lessee acknowledges that the Lessor has reserved all hunting and fishing rights and privileges upon the Property.

(d) The Lessee must obtain approval from the Lessor to trap or remove any feral animals causing damage to the leased area or harm to the cattle from the property.

(e) The Lessee shall use and conduct its operations on the Property in accordance with all applicable federal, state and local laws, statutes, regulations, and ordinances. The Lessee shall obtain and maintain all necessary permits and licenses required to conduct its business on the Property.

(f) Lessor has designated a portion of the Property for its use in conjunction with remediation activities associated with the adjacent Southeast Landfill as depicted on the attached Exhibit "C-1" ("Remediation Area"). Lessee shall not conduct its grazing operations in a manner which would prevent the Lessor from utilizing or accessing the Remediation Area for its remediation activities which may include, but are not limited to, installing or sampling monitoring wells, collecting soil samples, soil removal, etcetera. Lessor reserves the right to temporarily or permanently suspend the Lessee's use of the Remediation Area, or any portion thereof, if Lessor determines, in its sole discretion, that the area or a portion thereof is needed for its remediation activities.

(g) The Lessee shall not use the Property in any manner that would (i) violate the conditions and restrictions stated in this Agreement; (ii) create a nuisance or trespass; or (iii) vitiate or increase the rate of the Lessor's insurance on the Property.

(h) The Lessee shall not store any equipment or any materials on the Property that are not directly related to the use of its cattle operations on the Property.

(i) The Lessee shall not dump, spray, or spread sludge on the Property and shall prevent others from doing the same.

(j) The Lessor will be responsible for all prescribed burning on the Friedlander Preserve site and will notify the Lessee of scheduled burns within the grazing areas. The Lessee may conduct a prescribed burn, only if Lessee is a Certified Florida Prescribed Burn Manager. All burns conducted by Lessee must be approved, in writing, by the Lessor before the Lessee request a burn authorization from the Department of Agriculture and Consumer Sciences – Florida Forest Service. Lessee must submit burn authorization with authorization number, weather reports, and all other related material to the Lessor preceding the burn. Lessee will be responsible for all activities from the burn from ignition to mop up to declared out. Failure to comply with this directive shall be cause for immediate termination of this lease by the Lessor.

(k) The Lessee shall pay or cause to be paid all charges for water, electricity, gas, oil, sewer, telephone service and any and all other utilities used upon the Property throughout the Term, including any connection fees.

(l) The Lessee acknowledges that they're strictly prohibited from cultivating and harvesting any hay crop grasses located on the Property. Lessee may not fertilize the pasture area. Lessee may not treat native vegetation.

(m) Lessor retains the right to restrict grazing in certain areas of the Property when deemed necessary by the Lessor. The temporary restriction of the Lessee's right to graze cattle

on the affected areas of the Property shall not give rise to a reduction or refund of Base Rent or be the basis for any claim Lessor is in default of the Agreement.

(n) Lessee must provide the Lessor a phone number for contact in case of an emergency and during the Term keep such number in service or immediately notify the Lessor of a new contact phone number where the Lessee may be contacted at all times. It is the responsibility of the Lessee to provide to the Lessor a person and a phone number that can be reached at all times in case of an emergency, the person must be able to be on site and able to make repairs within four (4) hours.

(o) If the Lessor chooses to allow public access to the Property then the Lessee must remain professional when approached by the public. No use of profanity is allowed. No use of derogatory, provocative, or foul music is allowed. Music must stay at an acceptable volume.

(p) Lessee acknowledges that the Property may only be used for "bona fide agricultural purposes" as described in Section 193.461(3)(b), Florida Statutes, and Lessee shall not take any action or inaction, nor cause or permit any action or inaction to be taken, which would result in the loss of the Agricultural (AG) Classification on the Property, as further set forth and described in Section 11 below.

(q) The parties acknowledge that the Property contains one (1) contiguous area to be used by Lessee for the pasture of domestic cattle, as depicted on the attached composite Exhibit "A", incorporated herein by reference. The approved grazing areas total is approximately 633 acres. The total number of cow/calf units shall not exceed 75 unless approved by the Lessor's Parks and Natural Resources Division Director, or his or her designee. Lessor will work with Lessee after two years to reassess stocking capacity. Lessee shall implement a rotational grazing system, guided by forage and stubble height to enhance the pasture recovery and ensure even nutrient distribution. The Lessee should prepare and provide to the Lessor's Parks and Natural Resources Division Director, or his or her designee a Grazing Management Plan. The Plan must be approved within the first sixty (60) days of the notice to proceed. The Lessor, as the owner of the property said areas, hereby grants Lessee ingress/egress access over, across and through such property for the purpose of allowing the Lessee to conduct routine maintenance and care of the Property and the Lessee's cattle located thereon, without the requirement of further written approval from the Lessor. Notwithstanding anything to the contrary contained herein, the Lessor may grant the Lessee access over, across and through certain portions of said Lessor property in order to move Lessee's cattle from one area of the Property to another; provided that such access and movement of cattle must be coordinated with and pre-approved in writing by the Lessor's Parks and Natural Resources Division Director, or his or her designee, pursuant to the notice provisions stated in Section 31. Such prior written consent may be withheld in the Lessor's discretion.

(r) The Lessee shall comply with all other requirements, responsibilities, prohibitions, and specifications as provided in the RFP.

7. **ALTERATIONS AND IMPROVEMENTS.** The Lessee shall not make or permit anyone to alter the Property in any way including, but not limited, to plowing, ditching, digging water holes, changing the Property grading or drainage, or to construct any improvement or place any structure, whether temporary or permanent, thereon (any of the foregoing, an "Alteration") without the prior express written consent of Lessor, which the Lessor may withhold in its discretion. Any permissible Alteration that the Lessee may make to the Property shall, at the sole election of the Lessor, either: (i) remain in and be surrendered with the Property and shall become the property of the Lessor at the expiration or early termination of this Agreement, free and clear of any claims, liens, mortgages or encumbrances; or (ii) be removed by Lessee upon termination of this Agreement with Lessee restoring the Property to the same condition that existed on the Commencement Date, reasonable wear and tear excepted. If the Lessee incurs reasonable costs necessary to make a permissible Alteration that will remain with the Property upon the expiration or earlier termination of the Lease, then, provided that the Lessee has received prior written consent from the Lessor acknowledging and approving the Alteration cost, the Lessee may apply the reasonable cost it incurred in making the Alteration toward its next annual Base Rent payment, but in no case shall the credit for such incurred costs in any year of the Term exceed the annual Base Rent payment. To qualify for the credit toward that payment, the Lessee must timely submit sufficient proof to the Lessor of the reasonable costs actually incurred for the Alteration and provide evidence all project work has been completed. The chemical cost for herbicide chemicals purchased and used in the treatment of the invasive exotic plants on the Property may be used to reduce the annual lease payment. Proof of purchase of chemicals and application records must be submitted to the Lessor's Parks and Natural Resources Division Director, or his or her designee. This Section 7 shall survive expiration or any termination of this Agreement. The Lessee's use of portable freestanding panels and pens at locations approved in advance by the Lessor is not a violation of the restriction stated in this subparagraph.

8. **MAINTENANCE, REPAIR AND OPERATIONAL RESPONSIBILITIES.**

(a) The Lessee shall at its sole cost and expense build, maintain and keep in good state of repair, adequate and substantial fences around the Property to ensure all cattle are contained therein. Before installing any fencing, the Lessee shall obtain the Lessor's approval of its proposed Property fencing plan. To do so, the Lessee shall deliver to the Lessor a written Property fencing plan that depicts and describes the type and location of all the proposed fencing to include proper gates and passageways for automobiles and other vehicles. The Lessee may use existing cattle pens. If the existing pens are utilized, then the Lessee must maintain those cattle pens. The Lessor is open to the Lessee constructing portable cattle pens. Locations and designs must be approved, in writing, by the Lessor's Parks and Natural Resources Division Director, or his or her designee. The Lessor shall not unreasonably withhold its approval of the proposed Property fencing plan or unreasonably delay in delivering its response to the Lessee's request, however, the Lessor may condition its approval of a proposed fencing

plan upon the Lessee making reasonable adjustments to the plan. When installing its fencing, the Lessee will provide locks to the fence gates and shall furnish a key to these locks to the Lessor.

(b) The Lessee shall actively manage and secure the Property by mowing, pasture management, maintaining all existing fencing and gates within the grazing areas and, if needed, install new fences or gates prior to delivery of cattle complying with the terms and conditions of this Agreement.

(c) The Lessor may provide fence materials to the Lessee to make necessary repairs or replace fence sections, however, all labor and equipment costs for the fence work will be the responsibility of the Lessee. Any modifications to the fencing alignment must to be approved in writing by the Lessor's Parks and Natural Resources Division Director, or his or her designee.

(d) The mowing of the pastures must be at a time agreed to by the Lessor's Parks and Natural Resources Division Director, or his or her designee. The mowing schedule will be developed to include variables such as excessive rainfall, drought, or other unforeseen conditions. At a maximum, the mowing requirement of the Lessee will not be more than twice a year over the pastures included in this Agreement.

(e) The Lessee shall be responsible for exotic plant removal in the pastures, holding pens and center lane. The exotic removal will be by mechanical and/or chemical treatment with an herbicide approved by the Environmental Protection Agency (EPA) for use on the target species. Mechanical control may be accomplished by mowing (i.e. batwing, bush hog, or fixed width). The Lessee shall spot spray invasive exotic weeds, included but not limited to tropical soda apple (*Solanum viarum*), cogongrass (*Imperata cylindrical*), Chinese Tallow (*Triadica sebifera*), Camphor tree (*Cinnamomum camphora*) and Brazilian pepper (*Schinus terebinthifolius*). Herbicides shall be provided by Lessee. Lessee must follow the approved labels. At a minimum, treatment must be conducted every six months.

(f) The Lessee shall, at its own cost and expense, keep and maintain the Property in good order and in a clean, safe, and attractive condition. The Lessee shall keep the Property free of overgrowth, junk, debris, and litter.

(g) The Lessee shall implement and comply with current Florida Department of Agriculture and Consumer Services Water Quality Best Management Practices for Florida Cow/Calf Operations and adhere to any future updates.

(h) The Lessee shall provide biweekly security of the premises by examining the perimeter fencing and all gates within the pasture areas. Repairs should be made upon discovery. The Lessee should also provide emergency phone numbers to the Lessor's Parks and Natural Resources Division Director, or his or her designee. Emergency repairs or cattle outside of the designated pasture areas, must be corrected within five hours of notice to the Lessee.

(i) The Lessee shall immediately report to the Lessor the occurrence of the following incidents on the Property: fire, vandalism, theft, poaching, trespass, any condition that poses a nuisance or a threat to the public health, safety and welfare, and any hazard, condition, or situation which results or may result in damage to the Property or any improvements thereon, or which may be or become a liability to the Lessor.

(j) During the Term, the Lessor and the Lessee shall meet annually at a mutually convenient time to review the Lessee's Property maintenance and management plan and its performance. If at such meeting the parties cannot agree as to any required changes to such plan, then either party may terminate the Agreement pursuant to Section 3(b), above.

(k) The Lessor is not responsible for maintaining or repairing any part of the Property.

(l) The Lessee shall immediately report any incident of the following to the Project Manager: Fire, Vandalism, Theft, Poaching, Trespassing, Any hazard or condition or situation that may become a liability to the County or may be damaging to the property or improvements on the property.

9. **SIGNAGE**. The Lessee shall not paint or place any signs, placards, or any other notice or advertisement of any type or character in, on, or upon the Property without the prior written consent of the Lessor which the Lessor may withhold in its discretion.

10. **LIENS**. The Lessee shall not mortgage, pledge, or otherwise encumber its interests (i) in the Property, and (ii) under this Agreement. The Lessee, at its own cost and expense, shall at all times keep the Lessor's interests in and to the Property free and clear from and against all claims, liens, and legal processes of the Lessee's creditors and the Lessee shall protect and defend the Lessor's interests against the same.

11. **TAXES / AGRICULTURAL CLASSIFICATION**.

(a) The Lessee shall be solely responsible for payment of any applicable sales taxes, use fees, excise fees, tariffs, property taxes and charges of any government, utility or other regulating entity arising from or related to its use, occupation or operation of the Premises, including, without limitation, any real or personal property taxes assessed against the Property. Any and all such taxes and fees shall be considered Additional Rent, as defined in Section 4(b), and shall be paid by Lessee to Lessor within fifteen (15) days of Lessee's receipt of written notice from Lessor specifying the amount of such fees assessed by the applicable taxing authority for the particular Term year. Lessee shall remit payment in accordance with the terms of Section 4(c) above.

(b) The Lessee acknowledges and agrees that the Lessor may submit an application for Agricultural (AG) Classification on the Property to the Polk County Property Appraiser for the 2025 Tax Year and each year thereafter, as may be required to maintain the classification, throughout the Term. The Lessee shall timely provide copies of any supporting documentation

required in order for Lessor to submit a complete application. The Lessor shall be responsible for payment of any fees associated with the filing of the application and any petition to the value adjustment board, as applicable. The Lessor shall notify the Lessee in writing as to whether the application for AG Classification is denied or approved. If the AG Classification is approved, Lessee shall cooperate with Lessor in the filing of any additional returns required, including, without limitation, a Tangible Personal Property Return. In no event shall the Lessor be liable to the Lessee for any denial of the AG Classification for any year.

(c) In addition to the Property use restrictions set forth in Section 6, above, throughout the Term, the Lessee shall comply with all requirements of Section 193.461, Florida Statutes, to maintain the Property's use for a bona fide agricultural purpose. This shall include, without limitation, the Lessee's maintenance of a commercial herd of at least the minimum number head of cattle on the Property as may be established from time to time by the Property Appraiser, maintenance of receipts from the sale of stock and expenses incurred from the AG operation, and compliance with any and all other statutory requirements and minimum guidelines for AG Classification published by the Property Appraiser related to use of the Property as Pasture.

(d) Notwithstanding anything to the contrary contained herein, including, without limitation, Section 7 above, the Lessee shall not make, nor cause or permit to be made, any alteration or improvement to the Property which would result in the failure of the Property to receive the AG Classification, or once received, the loss of such classification.

(e) Any violation of the provisions of this Section 11 shall be grounds for the Lessor to immediately terminate this Agreement, resume possession of the Property for its own account, and pursue any other remedy or remedies provided by law or equity, without any further notice or demand to the Lessee.

12. INSURANCE. During the Term the Lessee shall purchase and maintain in force during the Lease Term the insurance as specified with an insurer licensed to do business in the State of Florida; rated "A" or better by A.M. Best Rating Company for Class VIII financial size category. Polk County, a political subdivision of the State of Florida, must be named as an additional insured with respect to liability arising from all work performed for Polk County, for Automobile and General Liability policies of insurance. Workers' Compensation Insurance providing statutory benefits, including those that may be required by any applicable federal statute. Any sole proprietor or partner actively engaged in the construction industry, and any corporate officer of a construction or non-construction industry corporation who elects to be exempt from the provisions of the workers' compensation law must provide either a workers' compensation exemption certificate (construction industry) or a letter stating the exemption status and number of employees (non- construction industry). Commercial General Liability Insurance $1,000,000 combined single limit of liability for bodily injuries, death, and property damage, and personal injury resulting from any one occurrence, including the following coverages: Completed Operations, Broad Form CG. Comprehensive Automobile Liability Insurance $1,000,000; combined single limit of liability for bodily injuries, death and property damage resulting from any one occurrence, including all

owned, hired and non-owned vehicles. Tenant shall maintain Pollution Liability insurance coverage with a minimum limit of not less than $2,000,000 Each Occurrence / $4,000,000 annual aggregate. The general liability and workers' compensation policies shall contain a waiver of subrogation in favor of Polk County. An original certificate of insurance must be on file in the Procurement Division prior to taking possession of the property. Each Certificate of Insurance must list the Certificate Holder as: Polk County, a political subdivision of the State of Florida, 330 W Church St, Room 150, Bartow, FL 33830.

13. **INDEMNITY**. The Lessee shall indemnify, defend (by counsel reasonably acceptable to the Lessor), protect and hold the Lessor and its commissioners, officers, employees and agents, harmless from and against any and all claims, actions, causes of action, penalties, forfeitures, damages, losses, expenses and liabilities whatsoever (including, without limitation, attorneys' fees, costs and expenses incurred during negotiation, through litigation and all appeals therefrom) caused by, incident to, resulting from, arising out of, or occurring in connection with, directly or indirectly, (i) the Lessee's performance, non-performance, or breach of its duties and obligations under this Agreement, (ii) the use and occupation of the Property by the Lessee, its officers, employees, agents, guests, licensees, or invitees, and (iii) the negligent acts, error or omissions, or the intentional or willful misconduct of the Lessee, its officers, employees, agents, guests, licensees, invitees, or anyone for whose acts any of them may be liable. This Section 13 shall survive the expiration or early termination of this Agreement.

14. **DEFAULT.**

(a) Except as stated in the following sentence, if the Lessor materially defaults in any of its duties or obligations stated in this Agreement and fails to cure the same within ten (10) days after the date that the Lessee delivers written notice to the Lessor of any such default, then the Lessee may terminate this Agreement. If, however, the Lessor's material default is such that it cannot be reasonably cured within ten (10) days, then the Lessee shall not have the right to terminate this Agreement for such default if the Lessor commences the necessary curative actions within a reasonable time after receiving Lessee's notice and thereafter diligently pursues the cure to completion.

(b) Except as otherwise stated in this subparagraph, if the Lessee materially defaults in any of its duties and obligations under this Agreement and fails to cure such default within ten (10) days after the date Lessor delivers written notice to the Lessee of any such default or if the Lessee should cease or discontinue use and occupancy of the Property for any period in excess of sixty (60) days, then upon either event the Lessor may terminate this Agreement, resume possession of the Property for its own account, and pursue any other remedy or remedies provided by law or equity, without any further notice or demand to the Lessee. If, however, the Lessee's material default of any Agreement duty or obligation is such that it cannot be reasonably cured within ten (10) days, then the Lessor shall not have the right to pursue a remedy for such default if the Lessee commences the necessary curative actions within a reasonable time after receiving the Lessor's notice and thereafter diligently pursues the cure to completion.

Notwithstanding the foregoing, if at any time a condition exists on the Property, whether through the Lessee's material default or otherwise, that poses a nuisance or a threat to the public health, safety and welfare, then upon its notice of such condition from any source, the Lessee shall immediately notify the Lessor of such nuisance or threat and immediately begin to remediate the condition.

(c) The Lessor will not be liable for any loss or damage suffered by Lessee resulting from the Lessor's exercise of its rights pursuant to this Section 14.

15. **LIABILITY LIMIT. IN NO EVENT, SHALL THE LESSOR BE LIABLE TO THE LESSEE FOR INDIRECT, INCIDENTAL, CONSEQUENTIAL, SPECIAL, EXEMPLARY, OR PUNITIVE DAMAGES OF ANY KIND OR NATURE, INCLUDING LOSS OF PROFIT, WHETHER FORESEEABLE OR NOT, ARISING OUT OF OR RESULTING FROM THE NONPERFORMANCE OR BREACH OF THIS AGREEMENT BY THE LESSOR WHETHER BASED IN CONTRACT, COMMON LAW, WARRANTY, TORT, STRICT LIABILITY, CONTRIBUTION, INDEMNITY OR OTHERWISE.**

16. **ATTORNEYS' FEES AND COSTS.** In connection with any dispute or any litigation arising out of, or relating to this Agreement, each party shall be responsible for its own legal and attorneys' fees, costs and expenses incurred in connection with any dispute or any litigation arising out of, or relating to this Agreement, including attorneys' fees, costs, and expenses incurred for any appellate or bankruptcy proceedings.

17. **EMINENT DOMAIN.** If the whole of the Property, or such portion thereof as will make the Property unusable to the Lessee for its intended purpose, is condemned or taken by any legally constituted authority for any public use or purpose, then in either of these events, this Agreement shall terminate and the lease of the Property shall cease on the date when possession of the Property is taken by the condemning authorities. If a portion of the Property is taken, but not an amount that would make the Property unusable to the Lessee for its intended purpose, then this Agreement shall continue in full force and effect. The Lessee shall have no right or claim to any part of any award made to or received by the Lessor for such condemnation or taking, and all awards for the same shall be made solely to the Lessor. The Lessee shall, however, have the right to pursue any separate award that does not reduce the award to which the Lessor is entitled.

18. **ASSIGNMENT.** The Lessee shall not (i) assign this Agreement or any interest therein; (ii) sublease the Property or any portion thereof; or (iii) permit use of the Property by any party other than the Lessee, all without the Lessor's prior written consent, which consent may be withheld in the Lessor's sole discretion.

19. **HAZARDOUS MATERIALS.** Lessee shall not knowingly or unknowingly generate, store, treat, dispose of, install or otherwise cause or permit any Hazardous Material (defined, below) to be brought upon, kept or used in or about the Property by the Lessee, its guests, employees, contractors or invitees. If Lessee fails to comply with the foregoing covenant, then the Lessee shall be wholly responsible for (i) all costs incurred in connection with any investigation

of site conditions and cleanup, remediation, removal, or restoration work required by any federal, state, or local governmental agency because of the presence of the Hazardous Materials; and (ii) all consequential damage or loss that the Lessor incurs, both regardless of whether such costs, damages or loss arise during or after the term of this Agreement. If Lessee must take any remedial action in accordance with this section, the Lessee shall first obtain Lessor's approval and then immediately take all actions (at the Lessee's sole expense) that are necessary to return the Property to the condition existing prior to the introduction of such Hazardous Materials. The term "Hazardous Materials" is defined to include, but not be limited, to any and all substances, materials, wastes, pollutants, elements or compounds in such quantities as are currently or shall in the future be classified as hazardous, toxic, dangerous or capable of posing a risk of injury to health, safety, or property by any Federal, State or local statute, law, ordinance, code, rule, regulation, order, or decree. This Section 19 shall survive the expiration or the early termination of this Agreement.

20. **SURRENDER OF PROPERTY.** Upon the expiration of the Agreement or whenever the Lessor is entitled to the possession of the Property, the Lessee shall immediately surrender the Property to the Lessor in essentially the same condition as at the beginning of the Term. All personal items shall be removed from the property. The Lessee's obligation to observe and perform the covenants of this section shall survive the expiration or early termination of this Agreement. Upon an Early Termination of the Agreement pursuant to Section 3(b), above, the Lessee shall remove the grazing animals and any Alterations to be removed pursuant to Section 7, above, during the time period between receipt of the termination notice and the Agreement Early Termination date.

21. **HOLDING OVER.** If the Lessee holds over after the expiration of the Term, with or without the express written consent of Lessor, the resulting tenancy shall be a month-to-month tenancy. There shall not be an automatic renewal or extension of the month-to-month tenancy, and the Lessee shall pay Rent in the same amount payable during the last full month of the Agreement Term. Any month-to-month tenancy established pursuant to this Section 21 shall be subject to every other term, covenant, condition, and agreement contained herein. The Lessor may terminate the month-to-month tenancy without cause upon giving 15 days prior written notice to the Lessee.

22. **FORCE MAJEURE**. Either party hereunder may be temporarily excused from performance if an Event of Force Majeure directly or indirectly causes its nonperformance. An "Event of Force Majeure" is defined as any unforeseeable event which results in the prevention or delay of performance by a party of its obligations under this Agreement and which is beyond the reasonable control of the nonperforming party. It includes, but is not limited to fire, flood, earthquakes, storms, lightning, epidemic, war, riot, civil disturbance, sabotage, and material or labor restrictions by governmental authority. Neither party shall be excused from performance if non-performance is due to forces which are reasonably preventable, removable, or remediable and which the non-performing party could have, with the exercise of reasonable diligence, prevented, removed, or remedied prior to, during, or immediately after their occurrence. Within five (5) days

after the occurrence of an Event of Force Majeure, the non-performing party shall deliver written notice to the other party describing the event in reasonably sufficient detail, along with proof of how the event has precluded the non-performing party from performing its obligations hereunder, and a good faith estimate as to the anticipated duration of the delay and the means and methods for correcting the delay. The non-performing party's obligations, so far as those obligations are affected by the Event of Force Majeure, shall be temporarily suspended during, but no longer than, the continuance of the Event of Force Majeure and for a reasonable time thereafter, as may be required for the non-performing party to return to normal business operations. If excused from performing any obligations under this Agreement due to the occurrence of an Event of Force Majeure, the non-performing party shall promptly, diligently, and in good faith take all reasonable action required for it to be able to commence or resume performance of its obligations under this Agreement. During any such time period, the non-performing party shall keep the other party duly notified of all such actions required for it to be able to commence or resume performance of its obligations under this Agreement.

23. **BROKERS.** Lessor and Lessee represent and warrant to each other that they have had no dealings with any broker or agent in connection with this Agreement and that no third party is due a commission, fee, or any other payment in association with the lease of the Property to the Lessee. Each party shall be responsible to pay any claims made by anyone for any compensation, commissions, and charges claimed by any broker or agent with whom such party may have dealt with respect to this Agreement or the negotiations thereof.

24. **NO DISCRIMINATION.** The Lessee warrants and represents that all of its employees are treated equally during employment without regard to race, color, religion, gender, age or national origin.

25. **RELATIONSHIP.** This Agreement creates a Lessor-Lessee relationship between the parties. Nothing in this Agreement shall be deemed or construed as creating any other relationship between the parties.

26. **WAIVER.** The failure of a party to enforce any right hereunder shall not be deemed a waiver of such right. No covenant, condition, or provision of this Agreement can be waived except with the written consent of each party. Any such waiver by the parties in one instance shall not constitute a waiver of any subsequent similar condition, circumstance or default, unless specifically stated in the written consent.

27. **SEVERABILITY.** If any term, covenant, or condition of this Agreement or the application thereof to any person or circumstances shall to any extent, be deemed lawfully invalid or unenforceable, the remainder of this Agreement, or the application of such term, covenant, or condition to persons or circumstances other than those as to which it is held invalid or unenforceable, shall not be affected thereby and each term, covenant, and condition of this Agreement shall be valid and enforced to the fullest extent permitted by law. The Lessor and Lessee shall reform the Agreement to replace any stricken provision with a valid provision that

comes as close as possible to the intent of the stricken provision. The provisions of this section shall not prevent the entire Agreement from being void should a provision, which is of the essence of the Agreement, be determined void.

28. **CONSTRUCTION; CAPTIONS.** This Agreement is the product of joint efforts of the parties and no provision shall be interpreted or construed in favor of either party by virtue of authorship of such provision. The captions in this Agreement are for convenience of reference only and shall not define or limit any the terms or provisions hereof.

29. **MODIFICATION.** This Agreement may only be modified by a written amendment mutually accepted by the Parties and executed with the same formality as this Agreement. No oral modifications will be effective or binding. In the event of a conflict between the covenants, terms, and/or provisions of this Agreement and any written amendments hereto, the provisions of the latest executed instrument shall take precedence.

30. **INTEGRATION.** Lessee and Lessor agree that this Agreement sets forth the entire agreement between the parties with respect to its subject matter and that there are no promises or understandings other than those stated herein. This Agreement supersedes all prior agreements, contracts, proposals, representations, negotiations, letters, or other communications between the parties pertaining to the lease of the above-described property, whether written or oral.

31. **NOTICE.** All notices under this Agreement (except those required under Section 6(q), as further described below) shall be in writing and may be given by any of the following methods: (1) personal delivery, (2) certified mail, postage prepaid, or (3) via nationally recognized overnight delivery service, prepaid, when sent to the following:

Lessor	Polk County Attention: Director Real Estate Services P.O. Box 9005, Drawer RE-01 Bartow, Florida 33831-9005
Lessee	Stuart Cattle & Equipment, LLC Attn: H. Stuart Fitzgerald, Managing Member 1465 Stokes Road Lake Wales, FL 33859

Notices shall be effective when received or refused at the addresses specified above. A party may from time to time change the address to which its notice is to be directed by delivering written notice to the other in accordance with this Section 31. Any communications between the parties that are not required by this Agreement may be sent via U. S. first-class mail, postage prepaid, at the addresses designated above, or as may otherwise be agreed between the parties. For any notice

required pursuant to Section 6(q) of this Agreement, in addition to the notice methods set forth above, notice shall be sufficient when emailed: (i) to the Lessor at the email address on file for the Lessor's Parks and Natural Resources Division Director, or his or her designee; and (ii) to the Lessee at the Lessee's email address listed above, as may be subsequently changed by providing written notice consistent with the provisions herein. Such emailed notice shall be effective upon receipt, confirmed via reply email.

32. **LESSEE REPRESENTATIONS.** The Lessee hereby represents and warrants the following to the Lessor:

(a) Lessee is a Limited Liability Company that is duly organized and existing in good standing under the laws of the State of Florida with full right and authority to do business within the State of Florida.

(b) Lessee's performance under this Agreement will not violate or breach any contract or agreement to which the Lessee is a party or is otherwise bound, and will not violate any governmental statute, ordinance, rule, or regulation.

(c) Lessee has the full right and authority to enter into this Agreement and to perform its obligations in accordance with its terms.

(d) Lessee now has and will continue to maintain all licenses and approvals required to conduct its businesses, and that it will at all times conduct its business activities in a reputable manner.

(e) Lessee has no obligation or indebtedness that would impair its ability to fulfill the terms of this Agreement.

(f) Each individual executing this Agreement on behalf of the Lessee is authorized to do so.

33. **COUNTERPARTS.** This Agreement may be executed in multiple counterparts each of which shall be an original, but which collectively shall form a single agreement.

34. **GOVERNING LAW; VENUE**. This Agreement shall be governed and interpreted under the laws of the State of Florida, and the ordinances, rules, and regulations of Polk County, Florida. Venue for any action relating to the construction, interpretation, or enforcement of this Agreement shall be in or for the Tenth Judicial Circuit, Polk County, Florida.

35. **PUBLIC ENTITY CRIMES.** The Lessee understands and acknowledges that this Agreement will be voidable by the County in the event the conditions stated in Florida Statutes, Section 287.133 relating to conviction for a public entity crime apply to the Lessee.

36. **INDEPENDENT CONTRACTOR.** Nothing stated in this Agreement is intended or should be construed in any manner as creating or establishing a relationship of co-partners between the parties, or as constituting the Lessee (including its officers, employees, and agents) as the agent, representative, or employee of the County for any purpose, or in any manner, whatsoever. The

Lessee is to be and shall remain forever an independent Lessee with respect to all Services performed under this Agreement. The Lessee shall not pledge the County's credit or make the County a guarantor of payment or surety for any contract, debt, obligation, judgment, lien or any form of indebtedness and the Lessee shall have no right to speak for or bind the County in any manner.

37. **PUBLIC RECORDS LAW.**

(a) The Lessee acknowledges the County's obligations under Article I, Section 24, of the Florida Constitution and under Chapter 119, Florida Statutes, to release public records to members of the public upon request and comply in the handling of the materials created under this Agreement. The Lessee further acknowledges that the constitutional and statutory provisions control over the terms of this Agreement. In association with its performance pursuant to this Agreement, the Lessee shall not release or otherwise disclose the content of any documents or information that is specifically exempt from disclosure pursuant to all applicable laws.

(b)Without in any manner limiting the generality of the foregoing, to the extent applicable, the Lessee acknowledges its obligations to comply with Section 119.0701, Florida Statutes, with regard to public records, and shall:

(i) keep and maintain public records required by the County to perform the services required under this Agreement;

(ii) upon request from the County's Custodian of Public Records or his/her designee, provide the County with a copy of the requested records or allow the records to be inspected or copied within a reasonable time at a cost that does not exceed the cost provided in Chapter 119, Florida Statutes, or as otherwise provided by law;

(iii) ensure that public records that are exempt or confidential and exempt from public records disclosure requirements are not disclosed except as authorized by law for the duration of the term of this Agreement and following completion of this Agreement if the Vendor does not transfer the records to the County; and

(iv) upon completion of this Agreement, transfer, at no cost, to the County all public records in possession of the Lessee or keep and maintain public records required by the County to perform the service. If the Lessee transfers all public records to the County upon completion of this Agreement, the Lessee shall destroy any duplicate public records that are exempt or confidential and exempt from public records disclosure requirements. If the Lessee keeps and maintains public records upon completion of this Agreement, the Lessee shall meet all applicable requirements for retaining public records. All records stored electronically must be provided to the County, upon request from the County's Custodian of Public Records, in a format that is compatible with the information technology systems of the County.

(c) **IF THE LESSEE HAS QUESTIONS REGARDING THE APPLICATION OF CHAPTER 119, FLORIDA STATUTES, TO THE LESSEE'S DUTY TO PROVIDE PUBLIC RECORDS RELATING TO THIS AGREEMENT, CONTACT THE COUNTY'S CUSTODIAN OF PUBLIC RECORDS AT:**

Board of County Commissioners

Agenda Item R.27. 6/16/2026

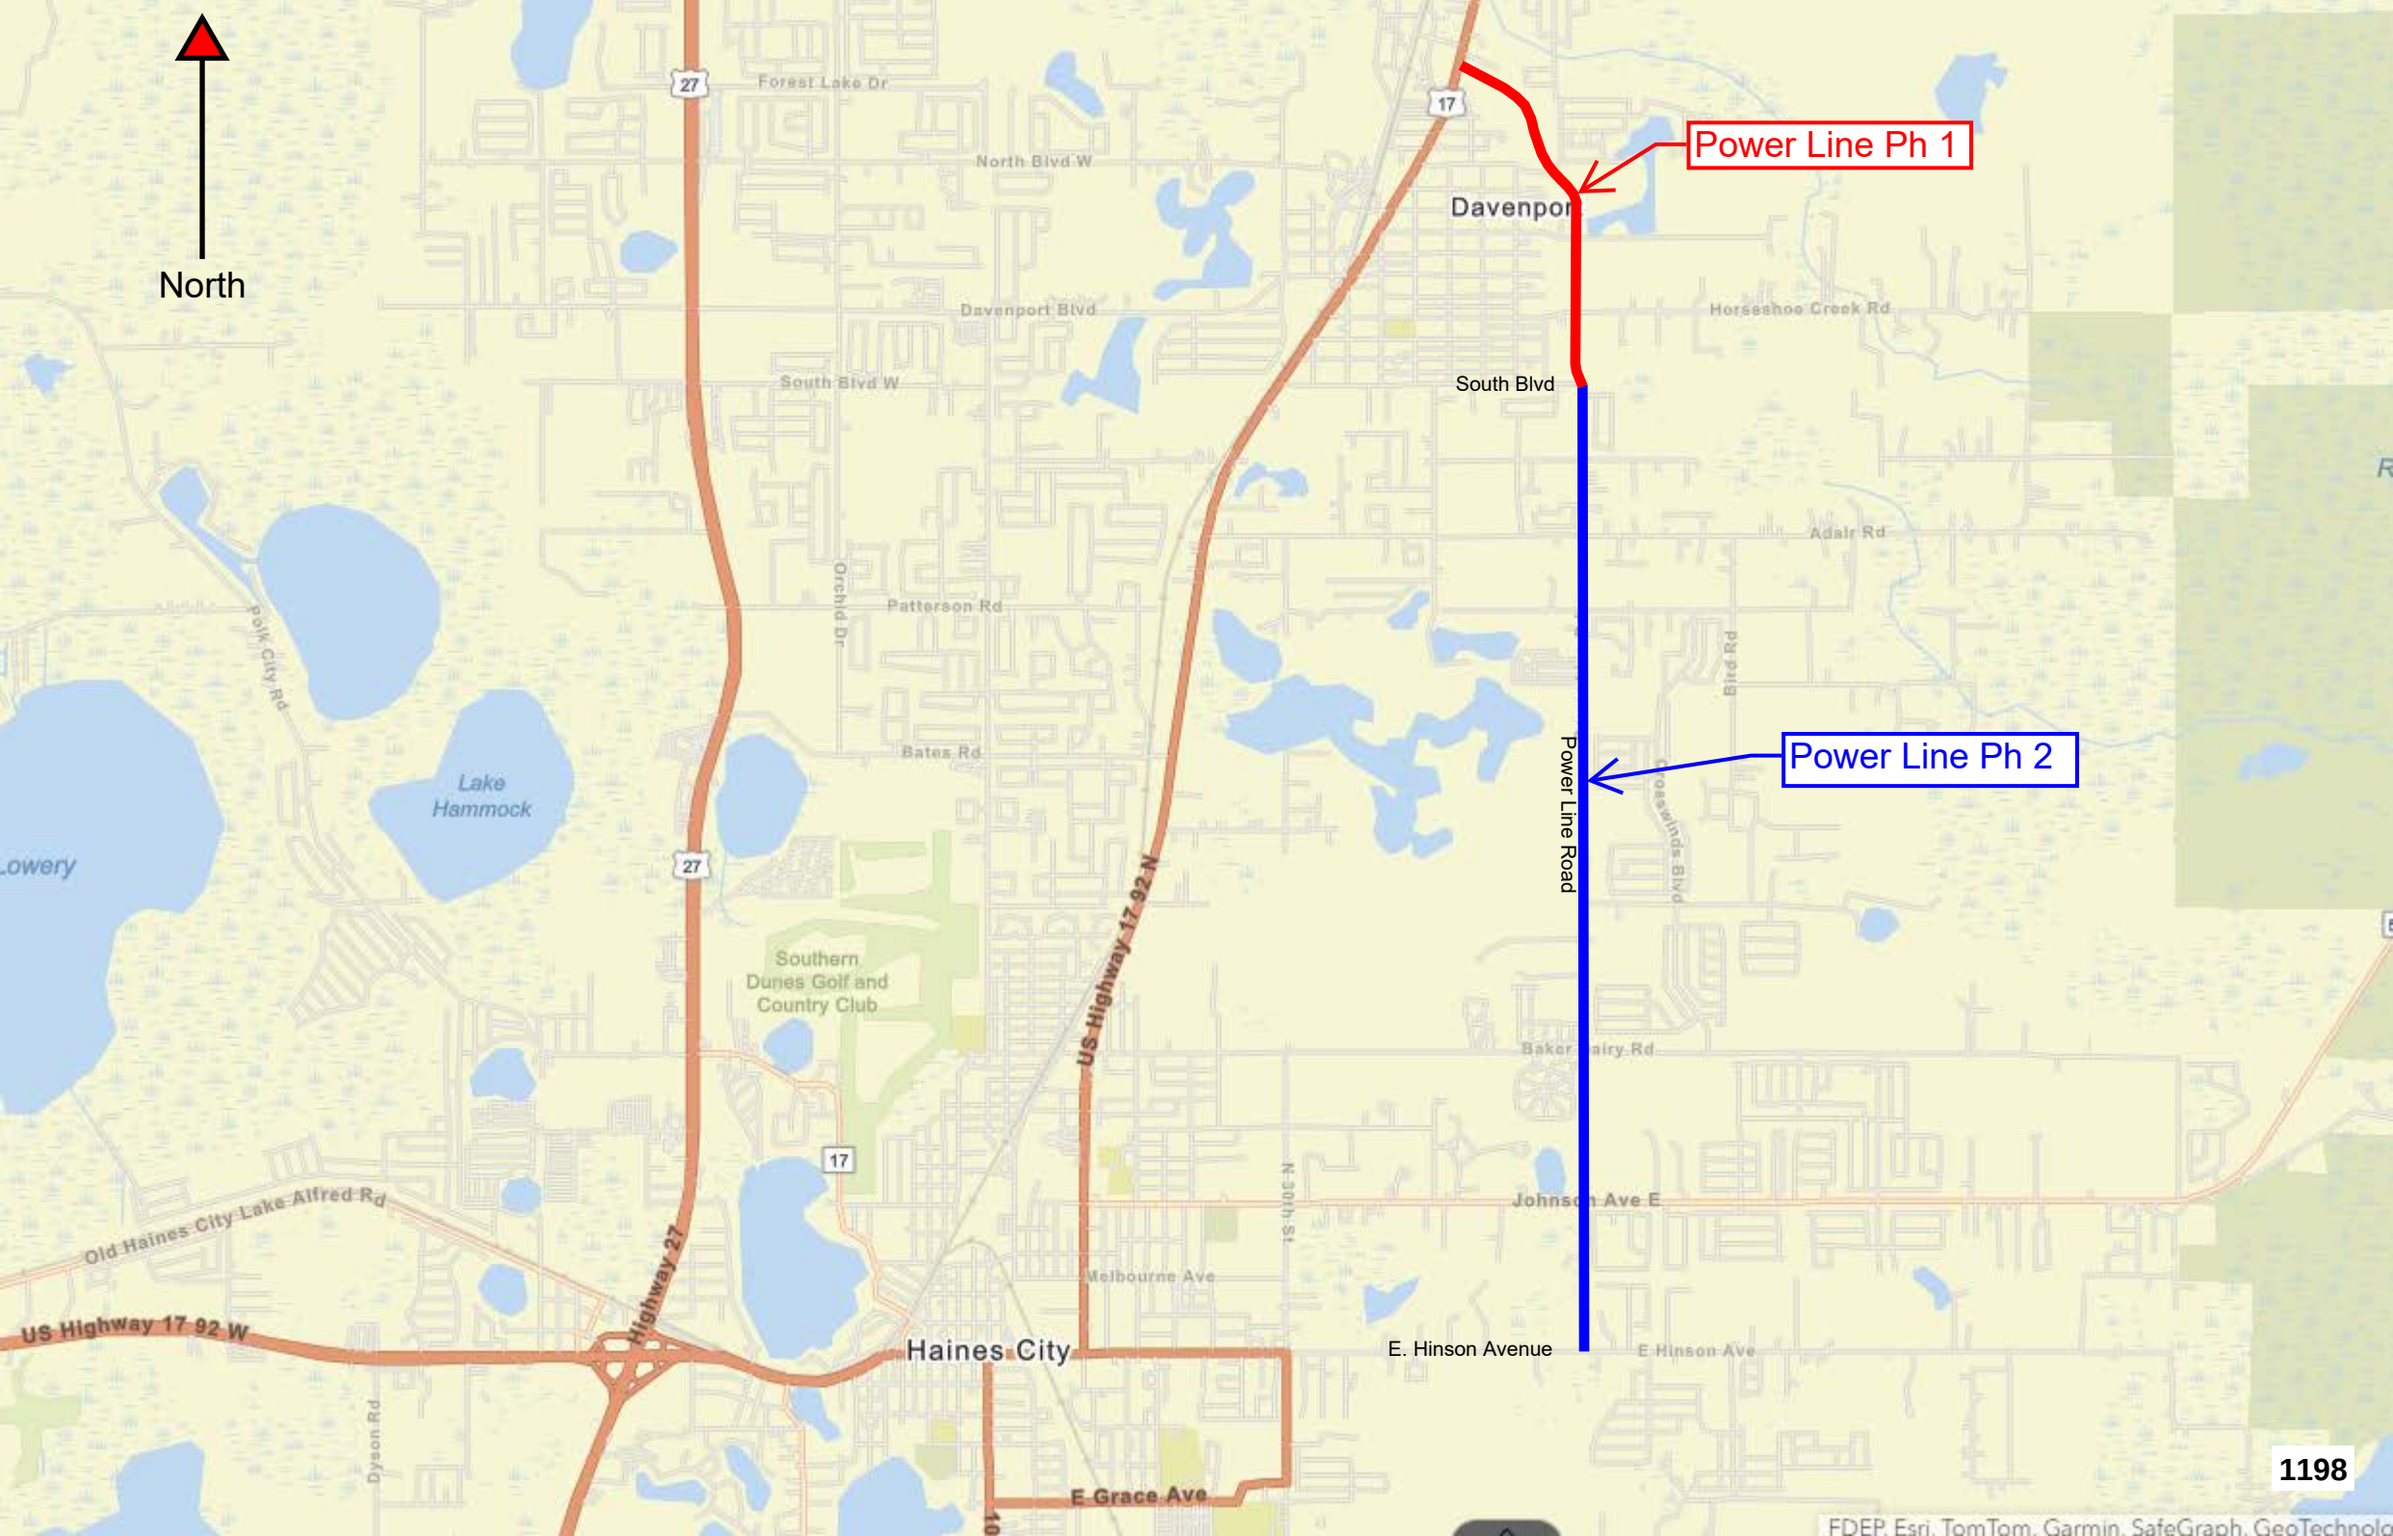
SUBJECT

Adopt a resolution in conjunction with a State-Funded Grant Agreement between the Florida Department of Transportation ("FDOT") and Polk County for the Power Line Road Phase 2 Project. (No fiscal impact)

DESCRIPTION

In May of 2026 the Board approved a State-Funded Grant Agreement with FDOT for right-of-way acquisition funding for the Power Line Road Phase 2 Project in the amount of $7,500,000. The grant agreement, executed by the Chair, was delivered to FDOT and is awaiting final approval and signature by the District. FDOT recently contacted the County and requested a resolution by the Board in conjunction with the approval of the grant agreement. Adopting a resolution will allow FDOT to finalize its approval of the State-Funded Grant Agreement for the Power Line Road Phase 2 Project.

RECOMMENDATION



Request Board adopt the above-mentioned resolution.

FISCAL IMPACT

No fiscal impact.

COUNTY OF POLK, STATE OF FLORIDA

RESOLUTION NO. 2026 -_____

Local Agency Program Agreement (FPN: 452963-3-44-01) with the Florida Department of Transportation for the Power Line Road Phase 2 Widening Project from South Boulevard to Hinson Avenue.

A RESOLUTION OF THE POLK COUNTY BOARD OF COUNTY COMMISSIONERS AUTHORIZING THE EXECUTION OF THAT CERTAIN STATE-FUNDED GRANT AGREEMENT WITH THE FLORIDA DEPARTMENT OF TRANSPORTATION.

WHEREAS, the Polk County Board of County Commissioners have the authority to enter into a State-Funded Grant Agreement with the Florida Department of Transportation to undertake a project as authorized by Florida Statute § 339.08.

NOW, THEREFORE BE IT RESOLVED by the Board of County Commissioners of Polk County, Florida that:

1. The State-Funded Grant Agreement with the Florida Department of Transportation for the Power Line Road Phase 2 Widening Project from South Boulevard to Hinson Avenue is approved; and

2. The Board of County Commissioners approved the State-Funded Grant Agreement at its regularly scheduled meeting held May 5, 2026 which was executed by the Chair on, or about that date. The Florida Department of Transportation has requested a resolution acknowledging that the Chair is hereby authorized to enter into, modify, or terminate the State-Funded Grant Agreement with the Florida Department of Transportation, unless specifically rescinded.

DULY ADOPTED this 16th day of June, 2026.

Board of County Commissioners

Agenda Item R.28. 6/16/2026

SUBJECT

Approve Consultant Services Authorization (CSA) No. 22-090-05 with Kimly-Horn and Associates, Inc. (Consultant) to provide professional engineering services in connection with preparations of initial engineering documents and 15% Line and Grade plans to guide the design of the Kraft Road Bridge No. 164121 Replacement Project. ($144,658.40 one-time expense)

DESCRIPTION

Based on the most recent FDOT Bridge Inspection Report for the Kraft Rd Bridge (No. 164121) crossing over Kraft Canal, the structure is structurally deficient due to the poor condition of its superstructure. Polk County has requested the Consultant to provide professional engineering services for the preparation of a Bridge Hydraulic Report (BHR), Bridge Development Report (BDR), and 15% Line & Grade plans to determine feasible crossing alternatives and a recommendation for the replacement of the existing bridge.

This CSA will retain the Consultant to perform the aforementioned services at a not-to-exceed fee of $144,658.40 and will be completed in accordance with the Scope of Services in “Exhibit A”.

RECOMMENDATION

Request Board approve CSA No. 22-090-05 with Kimly-Horn and Associates, Inc. (Consultant) to provide professional engineering services for the preparation of a Bridge Hydraulic Report (BHR), Bridge Development Report (BDR), and 15% Line & Grade in connection with the Kraft Rd crossing over Kraft Canal project at a not-to-exceed cost of $144,658.40.

FISCAL IMPACT

Funds are budgeted and available in the Transportation Trust Fund.

INDIVIDUAL PROJECT ORDER NUMBER 05

MSA 22-090-05 ALTERNATIVES STUDY- KRAFT ROAD BRIDGE OVER FOODS CANAL #164121 BRIDGE REPLACEMENT

Describing a specific agreement between Kimley-Horn and Associates, Inc. (the Consultant), and Polk County Roads and Drainage (the Client) in accordance with the terms of the Master Consultant Agreement for Professional Engineering Services (MSA 22-090) dated October 4th, 2022 which is incorporated herein by reference.

Identification of Project:

Project Name: Alternatives Study – Kraft Road Bridge over Food Canal Bridge Replacement
KH Project Manager: Joseph A. Roberts Jr.

Project Understanding

The County has requested a proposal for engineering services for an alternatives study of the Kraft Road bridge crossing over Foods Canal located approximately 0.26 miles north of US 92 within Section 20, Township 28 south, and Range 23 East. The intent of the project is to determine feasible crossing alternatives and identify their impacts to the surrounding area, the cost of feasible alternatives and provide a recommendation for the replacement of the existing structure. The project will analyze the required hydraulic opening of the crossing, determine wetland impacts of the feasible alternatives, identify roadway modifications necessary to meet current standards and provide preliminary structural analysis of the crossings in order to determine structural costs.

General topographic survey will be performed by Polk County.

Kimley»Horn

Scope of Services

1. Project Management

The Consultant shall provide project management, coordination, and administration throughout the duration of the project.
Services shall include:

- Conduct a project kickoff meeting with the County
- Develop and maintain a project schedule
- Monthly coordination with the County and project team
- Subconsultant coordination, as applicable
- Quality control reviews in accordance with the Consultant's QA/QC procedures
- Preparation of monthly invoices
- Coordination with regulatory agencies, as required

Deliverables:

- Meeting minutes
- Project schedule updates

2. Roadway Analysis

The Consultant shall evaluate existing roadway conditions and identify modifications required to accommodate proposed crossing alternatives.

Services shall include:

- Review County-provided survey, aerials, and available roadway data
- Evaluate existing horizontal and vertical geometry of Kraft Road
- Develop conceptual typical sections consistent with current design criteria
- Identify roadway alignment modifications necessary to meet current standards
- Evaluate tie-ins to existing roadway and maintenance of traffic considerations
- Identify potential right-of-way constraints

Design shall be consistent with applicable FDOT Design Manual (FDM) criteria, as appropriate for the facility classification.

Deliverables:

- Conceptual typical sections
- Preliminary roadway alignment exhibits
- Roadway analysis memorandum

3. Hydraulic Analysis

The Consultant shall perform hydraulic analyses to determine the required opening for the crossing and evaluate impacts of proposed alternatives.

Kimley»Horn

3.1 Data Collection, Coordination and Field Review

Kimley-Horn will obtain and review hydrologic data and boundary conditions from existing FEMA FIS study models and available models from the County. The current fee for the Flood Insurance Study (FIS) Data Requests Form to FEMA Engineering Library is $325. This fee will be paid by Kimley-Horn and billed to the County for reimbursement. Other potential submittal fees required by the County and FEMA are not included in this task and will be the responsibility of the County to pay directly.

Kimley-Horn will study this data using best available aerial photography or land plans. This data will be reviewed and compared to the current FEMA floodplain mapping and regional regression flow rates. Field visit will be performed to validate the best available model assumptions.

Consultant will provide the following modeling coordination services:

- Consultant will meet with County staff at the project kickoff meeting to identify available design information and record drawings. Consultant will coordinate with County staff to obtain copies of relevant readily available documents.
- Consultant will attend up to two meetings with the County staff to discuss the project.

3.2 Culvert Analysis (HEC-RAS)

Kimley-Horn will prepare a revised existing condition hydraulic model for this segment of the canal crossing under Kraft Road using the FEMA-effective model. Kimley-Horn will request any existing effective model and supporting digital data (Flood Insurance Study (FIS) Data Requests Form) to FEMA Engineering Library. If FEMA has an effective model on file (HEC-2 or HEC-RAS) that covers the project site, Kimley-Horn will create a Duplicate Effective Model that will be updated with the best available data and correct any errors that occur and will create a Corrected Effective Model that will work as the existing conditions hydrology and hydraulic (H&H) model.

3.3 Box Culvert Deck Drainage Analysis

Kimley-Horn will perform a drainage analysis of the box culvert deck to determine the placement of inlets along the roadway adjacent to the bridge. The analysis will consist of delineating basins, runoff calculations, and spread calculations.

3.4 Scour Analysis

A scour and hydraulics analysis will be performed by Kimley-Horn using the information provided by The Client, field review, construction plans, and scour countermeasure material analysis to recommend a means of scour protection around the box culvert headwalls.

Services shall include:

- Review available hydrologic and hydraulic data for Foods Canal
- Develop hydraulic models to determine required conveyance capacity
- Evaluate existing and proposed crossing conditions
- Determine required hydraulic opening for each alternative

- Assess potential impacts to upstream and downstream conditions
- Coordinate findings with environmental considerations

Analyses shall be performed in accordance with applicable FDOT Drainage Manual and local criteria.

Deliverables:
- Hydraulic analysis report
- Supporting calculations and model output
- Summary of required hydraulic opening for each alternative

4. Structural Analysis

The Consultant shall perform preliminary structural evaluations for feasible bridge crossing alternatives. Services shall include:
- Review available information for the existing structure
- Develop conceptual bridge alternatives (e.g., single-span, multi-span, culvert options if applicable)
- Evaluate span arrangements and structural systems
- Perform preliminary structural sizing and layout
- Identify foundation considerations based on available information
- Develop planning-level construction cost estimates for each alternative
- Evaluate constructability considerations

Structural concepts shall be consistent with the AASHTO LRFD Bridge Design Specifications and FDOT Structures Design Guidelines.

Deliverables:
- Conceptual structure layouts
- Preliminary structural cost estimates
- Structural evaluation memorandum

5. Natural Resources Assessment

Consultant shall conduct a Natural Resources Assessment to identify wetlands and surface waters and upland habitats (including potential sensitive habitats) in the project area and shall evaluate the potential for usage by endangered and threatened species (listed species). In preparing this assessment, the Consultant shall conduct the following tasks:

1. Review readily available natural resource documentation, previous environmental studies, soils map, Federal Emergency Management Agency (FEMA) Flood Insurance Rate Map (FIRM) maps and listed species information.
2. Request information from the Florida Natural Areas Inventory (FNAI), Florida Fish and Wildlife Conservation Commission (FWC), and U.S. Fish and Wildlife Service Information for Planning and Consultation (IPaC) regarding known occurrences of listed species on and in the vicinity of the subject property.
3. Map habitat types, including wetlands, on an aerial photograph.
4. Research wetland mitigation options including banks servicing the area and mitigation costs.
5. Summarize the anticipated regulatory permit requirements.

This task does not include site reconnaissance.

Kimley»Horn

6. Cultural Resources

Kimley-Horn shall conduct a Cultural Resource desktop analysis to identify and evaluate cultural resources within a project's Area of Potential Effect (APE). In preparing this assessment, the CONSULTANT shall conduct the following objectives:

Task 6.1 Records Review

This task consists of the following:

1. Record Search – obtain available Cultural Resource Assessment Survey (CRAS) reports recorded in the Florida Master Site File available from the Florida Division of Historic Resources.
2. Aerial Photography Review – obtain and examine readily available historical aerial photographs of the site and surrounding vicinity to assess the potential for unrecorded historic properties. Aerial photographs will be researched to the earliest data that is reasonably obtainable.
3. Review of Historical Maps – obtain and examine readily available fire insurance maps and historical topographic maps.
4. Other Historical Sources – obtain and examine other historical sources relevant to the completion of the desktop review and analysis.

Task 6.2 Data Analysis

This task consists of the following:

1. Recorded Cultural Resources Analysis – conduct a desktop review of existing Cultural Resources and spatial datasets available through a Geographic Information System (GIS) framework identify existing surveys and resources.

2. Possible Unrecorded Cultural Resources Analysis – conduct a desktop review of historical sources and spatial environmental datasets to identify the potential for unrecorded cultural resources to be impacted by the proposed project.

Task 6.3 Report Preparation

Upon completion of the tasks, Kimley-Horn will prepare a summary report of the results of the desktop analysis and literature review. The report will focus on the flowing objectives:

1. Summarize data to identify potential known constraints.

2. Recommend additional CRAS survey needed to support the federal and state permit applications to comply with Section 106 of the National Historic Preservation Act, Florida Statutes (F.S.) 267 and 373 and adhere to standards set forth in Florida Rule Chapter 1A-46.

Cultural Resources work will not include:

1. The preparation of a CRAS for concurrence from the State Historic Preservation Office (SHPO).

2. New historic resource evaluations or updated evaluations to previously recorded resources

3. The preparation of FMSF resource forms

Kimley»Horn

7. Geotechnical Analysis
See attached scope and provided by Ardaman and Associates.

8. Alternatives Analysis

The Consultant shall develop and evaluate feasible crossing alternatives and recommend a preferred alternative.

Services shall include:

- Develop multiple conceptual crossing alternatives
- Evaluate alternatives based on:
  - Hydraulic performance
  - Environmental impacts (including wetlands)
  - Roadway modifications
  - Structural feasibility
  - Constructability
  - Planning-level cost estimates
- Prepare comparative evaluation matrix
- Conduct coordination meeting(s) with the County to review alternatives
- Refine alternatives based on County input
- Identify and recommend a preferred alternative

Deliverables:
- Alternatives analysis report
- Concept exhibits for each alternative
- Comparative evaluation matrix
- Recommended preferred alternative

Scope Assumptions
- Topographic survey will be provided by Polk County
- Analyses are planning-level and intended to support alternative selection
- No permitting or final design is included

Kimley»Horn

Information Provided By Client

Kimley-Horn will provide a survey graphic and description of the following to the Client requesting the topographic survey to be completed by the County for this project. Kimley-Horn will rely on this information for design.

- Available right of way and easement data
- Available record or as-built plans for existing roadway and/or development construction plans
- Topographic Survey
  - Design-level B Boundary, Topographic Survey by a registered surveyor
  - Locate the existing right-of-way
  - Information, locations and elevations of crown lines, centerlines, edges of pavement, pavement markings, above ground utilities, visible features of underground utilities, identification and designation of existing utilities, existing drainage structures (including inverts, and sizes along the entire project corridor), and establishment of roadway baselines with reference points.
  - Vertical Datum to be in NAVD 1988. Deliverables will include:
  - Topographic Survey in either MicroStation DGN format or AutoCAD DWG format.
  - Accurate Digital terrain model (DTM) or surface for use in MicroStation or AutoCAD
  - Signed and sealed survey in PDF format for inclusion in the Plan set.

Schedule

We will provide our services as expeditiously as practicable with the goal of meeting a mutually agreed upon schedule.

Fee and Expenses

Kimley-Horn will perform the services in Tasks 1 – 8 for the total not to exceed fee below. Individual task amounts are informational only. All permitting, application, and similar project fees will be paid directly by the County.

Task	Not To Exceed Fee
Task 1: Project Management	$6,600.00
Task 2: Roadway Analysis	$ 24,900.00
Task 3: Drainage Analysis	$ 34,350.00
Task 4: Structural Analysis	$29,225.00
Task 5: Natural Resources Assessment	$5,050.00
Task 6: Cultural Resources	$5,955.00
Task 7: Geotechnical Evaluation	$ 29,678.40
Task 8: Alternatives Analysis Report	$ 8,900.00
Total Not to Exceed Fee	$144,658.40

Not to exceed fees will be invoiced monthly based upon the overall percentage of services performed.

Kimley»Horn

Closure

We appreciate the opportunity to provide these services. Please contact me at (407) 427-1661 or joseph.roberts @kimley-horn.com if you have any questions.

Sincerely,

March 16, 2026
Revised April 8, 2026
Proposal File No. 26-60-067

Kimley-Horn
189 South Orange Avenue, Suite 1000
Orlando, Florida 32801

Attention: Mr. Joseph Roberts, P.E.

Subject: Proposal for Preliminary Subsurface Soil Exploration and Geotechnical Engineering Evaluation
Proposed Bridge Replacement
Kraft Road over Kraft Canal (Structure No. 164121)
Polk County, Florida

Dear Mr. Roberts:

As requested, we are pleased to present this proposal for conducting a preliminary subsurface soil exploration and preliminary geotechnical engineering evaluation for the subject project. Based on information provided by you, the project may consist of replacing an existing bridge located on Kraft Road. We understand that the bridge may be replaced by a single span structure; however, the County may also consider a culvert crossing alternative. In addition, roadway improvements will likely be required for the bridge approaches.

The scope of our work will include determining if the soil characteristics are suitable to construct the proposed bridge and associated roadway improvements. We have assumed that on the order of 0 to 2 feet of fill will be required for the new approach embankment or raising of the grades proposed. Preliminary data for the optional box culvert crossing will also be provided. In addition, we understand that a temporary bridge will not be required to manage traffic during the construction of the permanent new structure. We will also perform a corrosivity test series (i.e., pH, sulfate, chloride and resistivity) on a soil sample and surface water sample obtained at the crossing location.

The following summarizes our proposed scope of work and associated fees for conducting the subject exploration.

FIELD EXPLORATION

The field exploration program will include the following:

Description	Number of Borings	Depth Below Ground Surface (feet)
Bridge	2 SPT	130
Roadway	4 Auger 2 SPT	7 20

We note that the SPT borings may terminate at depth shallower than 130 feet if very dense and/or hard soils are encountered.

The location of the SPT borings will be based on accessibility for our truck-mounted drilling equipment but will be in close proximity to the existing bridge. We note that 2 days of MOT will be required to perform for the borings.

The SPT borings will be drilled using a procedure similar to the Standard Penetration Test outlined in ASTM D-1586. The borings will be sampled at 18-inch intervals to 10 feet deep and at 5-foot intervals below 10 feet. The auger borings will be drilled using a 4-inch diameter truck-mounted continuous flight auger. Each sample will be removed from the sampler or auger in the field and then examined and visually classified by our crew chief. Representative portions will be sealed and packaged for transportation to our laboratory for further analysis as required. Water level observations will be made in the borehole during the drilling operation.

We note that in the event that we are requested to drill the two bridge SPT borings at 2.5-foot sampling intervals (i.e., standard FDOT protocol for bridge projects) rather than 5-foot sampling intervals, additional charges of $48.00, $57.00 and $64.00 will apply for each additional SPT split spoon sample collected between 0-50 feet, 50-100 feet and 100-150 feet respectively. This correlates to a total additional charge of $2,772.00 assuming both bridge borings are drilled to a total depth of 130 feet below the existing ground surface.

Muck probes will be conducted at selected locations within the canal to preliminarily measure the depth of soft organic soils. These probes are performed by hand-pushing slender steel rod into the ground until penetration is refused. The depth is recorded as the assumed depth of muck. We have budgeted a total of 16 hours of muck probing, an 8-hour day with a two-person crew, into this proposal.

Pavement cores will be obtained using a 6-inch diameter core barrel from two locations specified by you. We will measure the thickness of the asphalt and base and observe the base type at each core location. The coreholes will be backfilled with cold-patch asphalt upon completion. We note that maintenance of traffic (MOT) will be required for this.

LABORATORY PROGRAM

Routine laboratory visual classification will be performed along with specific classification tests deemed necessary (i.e., sieve analysis, organic content and Atterberg limits). The results of the sieve analysis tests will be used to determine the D_{50} size of soils obtained within the depth of potential scour. In addition, two corrosion series tests (pH, sulfate, chloride and resistivity) will be performed on one soil sample and one surface water sample.

PRELIMINARY ENGINEERING ANALYSIS AND REPORT

Engineering analysis of all data obtained will be made to evaluate general subsurface conditions and to provide engineering recommendations relative to bridge foundation support. Specifically, we will perform static pile capacity analyses using the FB-Deep program for square concrete piles. We will also provide the D_{50} results from the sieve analysis tests for use by others in determining scour depths. For the optional box culvert, soil design parameters will be provided. In addition, we will provide the results of the muck probing operations.

Our recommendations, along with all data developed during the exploration will be submitted in a written report upon conclusion of the study.

COST ESTIMATE

The costs associated with the aforementioned tasks are estimated as follows. The total cost will not be exceeded without prior authorization.

Stake Borings and Coordinate Utility Locations with Sunshine State One-Call by Assistant Project Engineer; 8 hours @ $155.00/hour	$1,240.00
Mobilize Drilling Crew and Equipment; 1 mobilization @ $600.00/mob.	$600.00
SPT Borings; 2 borings x 130 l.f., 2 borings x 20 l.f.	
(0 - 50 l.f.) 140 l.f. @ $20.25/l.f.	$2,835.00
(50 - 100 l.f.) 100 l.f. @ $24.25/l.f.	$2,425.00
(100 - 150 l.f.) 60 l.f. @ $33.00/l.f.	$1,980.00
Grout Boreholes; 300 l.f. @ $6.75/l.f.	$2,025.00
Auger Borings; 28 l.f. @ $15.50/l.f.	$434.00
Asphalt Cores; 2 cores @ $98.00/each	$196.00
Moving Between Boreholes; 2 drill-crew hours @ $295.00/hour	$590.00
Maintenance-of-Traffic estimate; lump sum	$5,000.00

Muck Probes by Senior Technicians; 16 hours @ $98.50/hour	$1,576.00
Laboratory Classification Testing;	
Percent Fines; 4 tests @ $49.25/each	$197.00
Sieve Analysis; 10 tests @ $83.00/each	$830.00
Atterberg Limits; 4 tests @ $155.00/each	$620.00
Natural Moisture Content; 8 tests @ $19.70/each	$157.60
Organic Content; 4 tests @ $47.20/each	$188.80
Corrosion Series Testing; 2 tests @ $247.00/each	$494.00
Senior Project Engineer; 8 hours @ $196.00/hour	$1,568.00
Project Engineer; 30 hours @ $176.00/hour	$5,280.00
CADD Draftsperson; 12 hours @ $96.00/hour	$1,152.00
Technical Secretary; 4 hours @ $72.50/hour	$290.00
TOTAL	**$29,678.40**

If temporary casing is needed to prevent borehole collapse during drilling, a cost of $14.00 per linear foot of casing installed between 0 and 50 feet deep ($17.25 per linear foot between 51 and 100 feet deep) will be added to the above total.

TERMS AND CONDITIONS

This proposal is subject to the following terms and conditions: (1) access to boring locations is to be readily available to our truck-mounted drilling equipment, (2) the proposed number of borings and the boring depths will be adequate, (3) undisturbed samples and consolidation tests on fine grained soils are not budgeted into the total cost, (4) Ardaman & Associates will not take responsibility for damages to underground structures and/or services that are not located by Sunshine State One-Call; their locations are to be provided by the client prior to commencement of the field work, (5) exploration or evaluation of the environmental (ecological or hazardous/toxic material related) condition of the site and subsurface is not included, (6) the maintenance of traffic budget will suffice to perform the field work, (7) this proposed exploration is a relatively shallow exploration and is not intended to be an evaluation for sinkhole potential, and (8) this is a preliminary level study. Additional field exploration, laboratory testing and engineering evaluation will be required prior to final design. Ardaman will be glad to provide a proposal for any needed supplemental services as the project design progresses.

CLOSURE

We appreciate the opportunity to submit this proposal and look forward to working with you on this project. If this proposal meets with your approval, please provide authorization to proceed. Please call if you have any questions or require additional information.

Very truly yours,
ARDAMAN & ASSOCIATES, INC.

Agenda Item R.29. 6/16/2026

SUBJECT

Request Board approve Amendment 2 to agreement 2022-013 with AECOM Technical Services, Inc. for the North Ridge Trail project. ($29,092.00 one-time expense)

DESCRIPTION

The County entered into agreement 2022-013 with AECOM Technical Services, Inc. on March 1, 2022, to provide professional engineering services for the North Ridge Trail Project from Deen Still Road to Sand Mine Road in the amount of $353,006.00.

On March 21, 2023, Amendment 1 in the amount of $323,232.00 was approved by the Board to allow AECOM to prepare and submit a new environmental resource permit application and perform a subsurface utility exploration to identify and mitigate potential underground utility conflicts.

This Amendment 2 provides lighting design and plans preparation for the traffic circles on North Ridge Trail specifically at Pinedale Drive, California Boulevard, and Highlands Reserve Boulevard for a not-to-exceed cost of $29,092.00. This will bring the total project to a not-to-exceed cost of $705,330.00.

RECOMMENDATION

Approve Amendment 2 to agreement 2022-013 with AECOM Technical Services, Inc. in the amount of $29,092.00 for the North Ridge Trail Project.

FISCAL IMPACT

Funding is available in the Transportation Millage Fund.

PROFESSIONAL SERVICE AGREEMENT
#2022-013
AMENDMENT #2

This AMENDMENT is made and entered into, effective as of the date last executed, by and between, Polk County (the "County"), a political subdivision of the State of Florida, situated at 330 W. Church Street, Bartow, Florida 33830, and AECOM Technical Services, Inc. (the "Consultant"), a California corporation, headquartered at 300 South Grand Avenue, 9th Floor, Los Angeles, California, whose Federal Employer Identification number is 95-2661922.

WITNESSETH:

WHEREAS, the County and Consultant entered into Professional Service Agreement 2022-013 dated March 1, 2022 (the "Agreement"), for the purpose of providing professional services in connection with the North Ridge Trail project located in northeast Polk County, from Deen Still Road to Sand Mine Road, to review and update current construction plans and specifications, segmenting construction plans, and post design services; and

WHEREAS, Amendment #1, authorized a scope modification to the original scope of work to resubmit expired existing permits for construction, resulting in a Request for Additional Information letter from the Florida Department of Environmental Protection to conduct additional surveys and prepare documentation to address the request, with the cost of the additional services not-to-exceed in the amount of $323,232.00; and

WHEREAS, the parties now desire to amend the Agreement to incorporate and authorize a scope modification for additional design services for traffic control lighting at the roundabout that was not included in the original scope; and

WHEREAS, pursuant to Section 16.0 of the Agreement, the County and the Consultant mutually agree to amend the Agreement as set forth below.

NOW, THEREFORE, the County and the Consultant, hereby agree as follows:

1. The recitals stated above are true and correct and are fully incorporated herein.

2. The Agreement is hereby amended to modify Exhibit "Aiii" Scope of Services and Compensation of the Agreement to include the additional services needed, which are more fully set forth and described in Exhibit "A" of this Amendment, attached hereto and fully incorporated herein.

3. The cost of the additional services, which is more fully set forth and described in Exhibit "A" to this Amendment, shall be a not-to-exceed amount of $29,092.00. Accordingly, the total Agreement amount shall be increased from the original not-to-exceed amount of $676,238.00 to the new not-to-exceed amount of $705,330.00.

4. The Agreement will remain in effect through the completion of the construction.

5. The Agreement, as amended by this Amendment #2, continues in full force and effect.

IN WITNESS WHEREOF, the parties hereto have executed this Amendment.

SCOPE OF SERVICES

Polk County Project # 5400206

Updating Construction Plans for North Ridge Trail

1. **PURPOSE**

Provide Lighting design and plans preparation for the traffic circles on North Ridge Trail. Specifically at PineDale Drive, California Boulevard, and Highlands Reserve Boulevard.

2. **DESIGN ELEMENTS**

Perform photometric analysis at the above locations

Generate necessary Pole Data Table and Legends

Provide Plan sheets for each location

Develop Service Point Details for new service locations

Generate a tech memo or report for design elements / findings

Design criteria will meet the current FDOT Design Manual Section 231.

There will be 2 project submittals for the report and Lighting Plans.

3. **Cost / Fee**

The proposed maximum not to exceed fee for professional engineering services is $29,092.00 and is located in Exhibit A-1.

SECRETARY'S CERTIFICATE

AECOM TECHNICAL SERVICES, INC.
a California corporation

I, Armond Tatevossian, DO HEREBY CERTIFY that I am a duly elected and acting Secretary of AECOM Technical Services, Inc., a corporation organized under the laws of the State of California ("ATS" or "Corporation"), and the keeper of its records and corporate seal.

I FURTHER CERTIFY that ATS's full legal address is c/o CT Corporation System, 330 North Brand Blvd., Suite 700, Glendale, California 91203-2336 and that the Corporation's principal place of business is 300 South Grand Ave., 9th Floor, Los Angeles, California 90071.

I FURTHER CERTIFY that pursuant to the Written Consent of the Board of Directors of ATS, adopted on April 28, 2026, and attached hereto as Exhibit A, Jeffrey Blazowski has signatory authority for ATS and is authorized to execute contracts and other documents on behalf of the Corporation.

IN WITNESS WHEREOF, I have subscribed my name and affixed the seal of the Corporation, this 1st day of May 2026.

Armond Tatevossian
Secretary

PROFESSIONAL SERVICE AGREEMENT
#2022-013
AMENDMENT #2

This AMENDMENT is made and entered into, effective as of the date last executed, by and between, Polk County (the "County"), a political subdivision of the State of Florida, situated at 330 W. Church Street, Bartow, Florida 33830, and AECOM Technical Services, Inc. (the "Consultant"), a California corporation, headquartered at 300 South Grand Avenue, 9th Floor, Los Angeles, California, whose Federal Employer Identification number is 95-2661922.

WITNESSETH:

WHEREAS, the County and Consultant entered into Professional Service Agreement 2022-013 dated March 1, 2022 (the "Agreement"), for the purpose of providing professional services in connection with the North Ridge Trail project located in northeast Polk County, from Deen Still Road to Sand Mine Road, to review and update current construction plans and specifications, segmenting construction plans, and post design services; and

WHEREAS, Amendment #1, authorized a scope modification to the original scope of work to resubmit expired existing permits for construction, resulting in a Request for Additional Information letter from the Florida Department of Environmental Protection to conduct additional surveys and prepare documentation to address the request, with the cost of the additional services not-to-exceed in the amount of $323,232.00; and

WHEREAS, the parties now desire to amend the Agreement to incorporate and authorize a scope modification for additional design services for traffic control lighting at the roundabout that was not included in the original scope; and

WHEREAS, pursuant to Section 16.0 of the Agreement, the County and the Consultant mutually agree to amend the Agreement as set forth below.

NOW, THEREFORE, the County and the Consultant, hereby agree as follows:

1. The recitals stated above are true and correct and are fully incorporated herein.

2. The Agreement is hereby amended to modify Exhibit "Aiii" Scope of Services and Compensation of the Agreement to include the additional services needed, which are more fully set forth and described in Exhibit "A" of this Amendment, attached hereto and fully incorporated herein.

3. The cost of the additional services, which is more fully set forth and described in Exhibit "A" to this Amendment, shall be a not-to-exceed amount of $29,092.00. Accordingly, the total Agreement amount shall be increased from the original not-to-exceed amount of $676,238.00 to the new not-to-exceed amount of $705,330.00.

4. The Agreement will remain in effect through the completion of the construction.

5. The Agreement, as amended by this Amendment #2, continues in full force and effect.

IN WITNESS WHEREOF, the parties hereto have executed this Amendment.

SCOPE OF SERVICES

Polk County Project # 5400206

Updating Construction Plans for North Ridge Trail

1. **PURPOSE**

Provide Lighting design and plans preparation for the traffic circles on North Ridge Trail. Specifically at PineDale Drive, California Boulevard, and Highlands Reserve Boulevard.

2. **DESIGN ELEMENTS**

Perform photometric analysis at the above locations

Generate necessary Pole Data Table and Legends

Provide Plan sheets for each location

Develop Service Point Details for new service locations

Generate a tech memo or report for design elements / findings

Design criteria will meet the current FDOT Design Manual Section 231.

There will be 2 project submittals for the report and Lighting Plans.

3. **Cost / Fee**

The proposed maximum not to exceed fee for professional engineering services is $29,092.00 and is located in Exhibit A-1.

Agenda Item R.30. 6/16/2026

SUBJECT

Request Board Approve Amendment 3 with WSP USA, for Agreement 2022-029, South Lake Wales drainage improvement project. ($11,637.00 one-time expense)

DESCRIPTION

The County entered into an agreement with WSP USA on May 3, 2022, to provide professional engineering services for the South Lake Wales drainage improvement project in the amount of $214,748.00. The project consisted of updates to an existing drainage study, design, engineering, and post-design services.

On August 8, 2023, Amendment 1 in the amount of $90,910.00 was approved by the Board to allow WSP USA to perform a drainage analysis to support the Washington Street closed conveyance system and new US 27 drainage connection.

On June 4, 2024, Amendment 2 in the amount of $67,115.25 was approved by the Board to allow WSP USA to perform additional subsurface utility engineering and survey services, historic property review as well as post-design services.

This Amendment 3 provides for the additional post-design services support at a not-to-exceed cost of $11,637.00. This will bring the total project to a not-to-exceed cost of $384,410.25.

RECOMMENDATION

Request the Board approve Amendment 3 to Agreement 2022-029, with WSP USA.

FISCAL IMPACT

Funds are budgeted and available in the Transportation Millage Fund.

PROFESSIONAL SERVICE AGREEMENT
#2022-029
AMENDMENT #3

This AMENDMENT #3 is made and entered into, effective as of the date last executed, by and between, Polk County (the "County"), a political subdivision of the State of Florida, situated at 330 W. Church Street, Bartow, Florida 33830, and WSP USA, Inc. (the "Consultant"), a New York corporation, located at One Penn Plaza, 2nd Floor, New York, NY 10119, whose Federal Employer Identification number is 11-1531569.

WITNESSETH:

WHEREAS, the County and Consultant entered into Professional Service Agreement 2022-029 dated May 3, 2022 (the "Agreement"), for the purpose of providing professional services in connection with South Lake Wales Drainage Improvements, an American Rescue Plan funded project; and

WHEREAS, pursuant to the Scope of Services contained in the Agreement, the Consultant is assisting the County with the implementation of drainage improvements for the South Lake Wales Neighborhood Drainage Improvements in southeast Polk County; and

WHEREAS, a flooding investigation study was performed in 2009 and the basis for this scope is based on the Alternative 3 presented in the South Lake Wales Subdivision Drainage Improvement Study; and

WHEREAS, Alternative 3 includes increasing the conveyance along local roads, numerous side drainpipes and additional storage capacity with two stormwater ponds on private lots, and the cost of these services was a not-to-exceed cost of $214,748.00; and

WHEREAS, Amendment #1 authorized a scope modification to the original scope of work planned for a drainage connection onto the Warner University property located on the south side of Presidents Drive, since the planned connection was no longer feasible due to site development on Warner University property and a new connection to US 25 (State Road 25) was required and the cost of additional services was a not-to-exceed amount of $90,910.00; and

WHEREAS, Amendment # 2 authorized a scope modification for additional subsurface utility engineering and survey services, cultural resource services and post-design services because the original scope of work did not include a sufficient amount of subsurface utility engineering investigations and post design support services were not included, and an response to the Engineer's Southwest Florida Water Management District (SWFWMD) permit submittal, the Division of Historical Resources requested the project area be reviewed for possible effects on historic properties, or otherwise historical, architectural, or archaeological value. The cost of the additional services was a not-to-exceed amount of $ 67,115.25; and

WHEREAS, the parties now desire to amend the Agreement to incorporate and authorize a scope modification for additional post design services, which includes design revisions, responses to requests for information by the County, and any associated construction observation; and

WHEREAS, pursuant to Section 16.0 of the Agreement, the County and the Consultant mutually agree to amend the Agreement as set forth below.

NOW, THEREFORE, the County and the Consultant, hereby agree as follows:

1. The recitals stated above are true and correct and are fully incorporated herein.

2. The Agreement is hereby amended to supplement and expand Exhibit "A-iii" Scope of Services and Compensation of the Agreement to include the additional services needed, which are more fully set forth and described in Attachment "A" of this Amendment, attached hereto and fully incorporated herein.

3. The cost of the additional services, which is more fully set forth and described in Attachment "A" to this Amendment #3, shall be a not-to-exceed amount of $11,637.00.

4. The Agreement will remain in effect through the completion of construction.

5. The Agreement, as amended by this Amendment #3, continues in full force and effect.

THE REMAINDER OF PAGE LEFT INTENTIONALLY BLANK

IN WITNESS WHEREOF, the parties hereto have executed this Amendment #2 as of the Effective Date.

ATTACHMENT "A"

Amendment #3 to Professional Service Agreement #2022-029

SCOPE OF SERVICES

This Attachment "A" to Amendment #3 forms an integral part of Professional Service Agreement (2022-029) between Polk County (hereinafter referred to as the COUNTY) and WSP USA, Inc. (Hereinafter referred to as the ENGINEER) relative to the project described as follows:

I. PROJECT TITLE

Professional engineering services for the South Lake Wales Drainage Improvements, PID 5400209.

II. PROJECT UNDERSTANDING

Polk County (COUNTY) has selected WSP USA, Inc. (ENGINEER) to assist with the implementation of drainage improvements for South Lake Wales neighborhood drainage improvements, located in southeast Polk County.

III. SUPPLEMENT SERVICES – ADDITIONAL POST DESIGN SUPPORT

Additional post design support services.

Post Design Services:

The ENGINEER will attend coordination meetings and any field meetings during the duration of Additional Post Design Services following the issuance of the Notice to Proceed with Additional Post Design Services.

The ENGINEER will complete required design revisions as approved by the COUNTY.

The ENGINEER will respond to request for information (RFI), as requested by the COUNTY.

The ENGINEER shall perform limited construction observation related to request for information, if required.

Project Close-out: The ENGINEER will review constructed facilities with the COUNTY and their construction contractor to assist in verifying substantial compliance with the approved construction plans and will assist the COUNTY in preparing a punch list to be provided to the CONTRACTOR if requested by the COUNTY.

IV. DELIVERABLES

1. Plan revision

V. COMPENSATION

The ENGINEER will perform the services described herein for a lump sum fee of $11,637.00.

Polk County

Board of County Commissioners

Agenda Item R.31. 6/16/2026

SUBJECT

Adopt a Resolution Setting Speed Limits on Bomber Road, near Winter Haven. ($242.40 one-time expense)

DESCRIPTION

The Roads & Drainage Division received a request from an area resident to reduce the speed limit along the western portion of the roadway. In researching the request, the Roads & Drainage Division discovered Resolution 2025-125, establishing speed zones of 45 M.P.H., adopted by the Board on October 7, 2025, which is attached to the proposed Resolution as Exhibit “A.” Bomber Road is located in the Winter Haven area in S-14, T-29S, R-25E, and is classified as an Urban Collector road.

Staff conducted traffic studies on Bomber Road as outlined in FS 316.189, and investigated the five-year crash history. It was subsequently determined that postings of 35 M.P.H. and 45 M.P.H. are reasonable for this road. To comply with statutory requirements, it is necessary for the Board to adopt a Resolution establishing the proposed speed limits.

RECOMMENDATION

Request Board adopt the associated Resolution to establish the proposed speed zones for Bomber Road. Cost for installation of signs is estimated at $242.40.

FISCAL IMPACT

Funds are budgeted in the FY 25/26 Transportation Millage Fund.

(863) 535-2200

RESOLUTION NO.: _____

WHEREAS, the Board of County Commissioners, by adopting Resolution 2025-125, dated October 7, 2025, attached hereto as Exhibit “A”, caused Bomber Road, a County-maintained Urban Collector road, to be posted 45 M.P.H., and

WHEREAS, the Polk County Roads & Drainage Division has since conducted speed studies for Bomber Road (Road Number 951406); from US Highway 17 to County Road 655 (Rifle Range Road). Located in S-14, T-29S, R-25E., and

WHEREAS said studies were made in accordance with the procedures established by the State of Florida Department of Transportation, and it was subsequently determined that postings of 35 M.P.H. and 45 M.P.H. are reasonable, and

WHEREAS under the laws of the State of Florida, the Board of County Commissioners is vested with the authority to establish speed limits on County maintained roads,

NOW, THEREFORE, BE IT RESOLVED that the Polk County Roads & Drainage Division is herewith directed to cause Bomber Road to be posted 35 M.P.H. from US Highway 17 to Ben Durance Road and 45 M.P.H. from Ben Durance Road to County Road 655 (Rifle Range Road). Further, Resolution 2025-125, dated October 7, 2025, attached hereto as Exhibit “A”, is hereby repealed.

Adopted in Regular Session duly assembled this 16th day of June 2026.

RESOLUTION NO.: 2025-125

WHEREAS, the Board of County Commissioners, by adopting a Resolution dated March 24, 1987, attached hereto as Exhibit "A", caused Bomber Road, a County-maintained Urban Collector road, to be posted 45 M.P.H., and

WHEREAS, the Polk County Roads & Drainage Division has since conducted speed studies for Bomber Road (Road Number 951406); from US Highway 17 to County Road 655 (Rifle Range Road). Located in S-14, T-29S, R-25E., and

WHEREAS said studies were made in accordance with the procedures established by the State of Florida Department of Transportation, and it was subsequently determined that a posting of 45 M.P.H. is reasonable, and

WHEREAS under the laws of the State of Florida, the Board of County Commissioners is vested with the authority to establish speed limits on County maintained roads,

NOW, THEREFORE, BE IT RESOLVED that the Polk County Roads & Drainage Division is herewith directed to cause Bomber Road to be posted 45 M.P.H. from US Highway 17 to County Road 655 (Rifle Range Road). Further, that Resolution dated March 24, 1987, attached hereto as Exhibit "A", is hereby repealed.

DATED this 7th day of October 2025.

Exhibit "A"

951406

RESOLUTION

WHEREAS the Polk County Engineer, through the Polk County Traffic Engineering Deparment, has made a speed study on CR 559, from US 17 to CR 655, which is located in Section 14, Township 29 South, Range 25 East, and

WHEREAS said study was made in accordance with procedures established by the State of Florida Department of Transportation, and

WHEREAS under the laws of the State of Florida, the Board of County Commissioners is vested with the authority to establish speed limits on County Maintained roads,

NOW, THEREFORE, BE IT RESOLVED that the County Engineer be and is herewith directed to cause said CR 559, from US 17 to CR 655, which is located in Section 14, Township 29 South, Range 25 East to be posted as follows:

MP 0.00 to MP 0.50	45 M.P.H.
MP 0.50 to MP 2.30	55 M.P.H.
MP 2.30 to MP 3.30	45 M.P.H.

STATE OF FLORIDA

COUNTY OF POLK

I, E. D. "BUD" DIXON, Clerk of the Board of County Commissioners of Polk County, Florida, hereby certify that the foregoing is a true and correct copy of a resolution adopted by the said Board in the 24th day of March, 1987.

WITNESS my hand and official seal of said Board this 30th day of March, 1987.

E. D. "BUD" DIXON, Clerk

Polk County

Board of County Commissioners

Agenda Item R.32. 6/16/2026

SUBJECT

Request the Board execute forms related to the Lake Bonny Hazard Mitigation Grant Application and act as the Authorized Agent for Project. (No Fiscal Impact)

DESCRIPTION

The Roads and Drainage Division has submitted a Hazard Mitigation Grant to the Florida Department of Emergency Management (FDEM) for the flooding that occurred on Lake Bonny as result of Hurricane Milton. The Division has been actively responding to follow-up questions from the FDEM.

To complete the application, FDEM is requesting the Board act as the Authorized Agent on the Application. This will require the Chairperson to sign the FDEM Point of Contact Form as the Authorized Agent.

The Chairperson is also being requested to execute the following forms: Form 424D that lists specific assurances for construction activities in the event the submitted application is approved, the Project Maintenance Agreement Form that requires the County to provide for the routine maintenance of any facilities or improvements constructed with federal funding, and the Sub-Recipient Management Cost (SRMC) Request Form that indicates the County has declined to seek reimbursement for administrative expenses related to management of the grant (if awarded).

RECOMMENDATION

Request Board of County Commissioners acts as the Authorized Agent for the Lake Bonny Hazard Mitigation Grant Application and executes Form 424D, Project Maintenance Agreement Form, Point of Contact Form, and the SRMC Request Form.

FISCAL IMPACT

No Fiscal Impact

ASSURANCES - CONSTRUCTION PROGRAMS

OMB Number: 4040-0009
Expiration Date: 06/30/2028

Public reporting burden for this collection of information is estimated to average 15 minutes per response, including time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. Send comments regarding the burden estimate or any other aspect of this collection of information, including suggestions for reducing this burden, to the Office of Management and Budget, Paperwork Reduction Project (0348-0042), Washington, DC 20503.

PLEASE DO NOT RETURN YOUR COMPLETED FORM TO THE OFFICE OF MANAGEMENT AND BUDGET. SEND IT TO THE ADDRESS PROVIDED BY THE SPONSORING AGENCY.

NOTE: Certain of these assurances may not be applicable to your project or program. If you have questions, please contact the Awarding Agency. Further, certain Federal assistance awarding agencies may require applicants to certify to additional assurances. If such is the case, you will be notified.

As the duly authorized representative of the applicant:, I certify that the applicant:

1. Has the legal authority to apply for Federal assistance, and the institutional, managerial and financial capability (including funds sufficient to pay the non-Federal share of project costs) to ensure proper planning, management and completion of project described in this application.
2. Will give the awarding agency, the Comptroller General of the United States and, if appropriate, the State, the right to examine all records, books, papers, or documents related to the assistance; and will establish a proper accounting system in accordance with generally accepted accounting standards or agency directives.
3. Will not dispose of, modify the use of, or change the terms of the real property title or other interest in the site and facilities without permission and instructions from the awarding agency. Will record the Federal interest in the title of real property in accordance with awarding agency directives and will include a covenant in the title of real property acquired in whole or in part with Federal assistance funds to assure nondiscrimination during the useful life of the project.
4. Will comply with the requirements of the assistance awarding agency with regard to the drafting, review and approval of construction plans and specifications.
5. Will provide and maintain competent and adequate engineering supervision at the construction site to ensure that the complete work conforms with the approved plans and specifications and will furnish progressive reports and such other information as may be required by the assistance awarding agency or State.
6. Will initiate and complete the work within the applicable time frame after receipt of approval of the awarding agency.
7. Will establish safeguards to prohibit employees from using their positions for a purpose that constitutes or presents the appearance of personal or organizational conflict of interest, or personal gain.
8. Will comply with the Intergovernmental Personnel Act of 1970 (42 U.S.C. §§4728-4763) relating to prescribed standards of merit systems for programs funded under one of the 19 statutes or regulations specified in Appendix A of OPM's Standards for a Merit System of Personnel Administration (5 C.F.R. 900, Subpart F).
9. Will comply with the Lead-Based Paint Poisoning Prevention Act (42 U.S.C. §§4801 et seq.) which prohibits the use of lead-based paint in construction or rehabilitation of residence structures.
10. Will comply with all Federal statutes relating to non-discrimination. These include but are not limited to: (a) Title VI of the Civil Rights Act of 1964 (P.L. 88-352) which prohibits discrimination on the basis of race, color or national origin; (b) Title IX of the Education Amendments of 1972, as amended (20 U.S.C. §§1681 1683, and 1685-1686), which prohibits discrimination on the basis of sex; (c) Section 504 of the Rehabilitation Act of 1973, as amended (29) U.S.C. §794), which prohibits discrimination on the basis of handicaps; (d) the Age Discrimination Act of 1975, as amended (42 U.S.C. §§6101-6107), which prohibits discrimination on the basis of age; (e) the Drug Abuse Office and Treatment Act of 1972 (P.L. 92-255), as amended relating to nondiscrimination on the basis of drug abuse; (f) the Comprehensive Alcohol Abuse and Alcoholism Prevention, Treatment and Rehabilitation Act of 1970 (P.L. 91-616), as amended, relating to nondiscrimination on the basis of alcohol abuse or alcoholism; (g) §§523 and 527 of the Public Health Service Act of 1912 (42 U.S.C. §§290 dd-3 and 290 ee 3), as amended, relating to confidentiality of alcohol and drug abuse patient records; (h) Title VIII of the Civil Rights Act of 1968 (42 U.S.C. §§3601 et seq.), as amended, relating to nondiscrimination in the sale, rental or financing of housing; (i) any other nondiscrimination provisions in the specific statue(s) under which application for Federal assistance is being made; and (j) the requirements of any other nondiscrimination statue(s) which may apply to the application.

11. Will comply, or has already complied, with the requirements of Titles II and III of the Uniform Relocation Assistance and Real Property Acquisition Policies Act of 1970 (P.L. 91-646) which provide for fair and equitable treatment of persons displaced or whose property is acquired as a result of Federal and federally-assisted programs. These requirements apply to all interests in real property acquired for project purposes regardless of Federal participation in purchases.

12. Will comply with the provisions of the Hatch Act (5 U.S.C. §§1501-1508 and 7324-7328) which limit the political activities of employees whose principal employment activities are funded in whole or in part with Federal funds.

13. Will comply, as applicable, with the provisions of the Davis-Bacon Act (40 U.S.C. §§276a to 276a-7), the Copeland Act (40 U.S.C. §276c and 18 U.S.C. §874), and the Contract Work Hours and Safety Standards Act (40 U.S.C. §§327-333) regarding labor standards for federally-assisted construction subagreements.

14. Will comply with flood insurance purchase requirements of Section 102(a) of the Flood Disaster Protection Act of 1973 (P.L. 93-234) which requires recipients in a special flood hazard area to participate in the program and to purchase flood insurance if the total cost of insurable construction and acquisition is $10,000 or more.

15. Will comply with environmental standards which may be prescribed pursuant to the following: (a) institution of environmental quality control measures under the National Environmental Policy Act of 1969 (P.L. 91-190) and Executive Order (EO) 11514; (b) notification of violating facilities pursuant to EO 11738; (c) protection of wetlands pursuant to EO 11990; (d) evaluation of flood hazards in floodplains in accordance with EO 11988; (e) assurance of project consistency with the approved State management program developed under the Coastal Zone Management Act of 1972 (16 U.S.C. §§1451 et seq.); (f) conformity of Federal actions to State (Clean Air) implementation Plans under Section 176(c) of the Clean Air Act of 1955, as amended (42 U.S.C. §§7401 et seq.); (g) protection of underground sources of drinking water under the Safe Drinking Water Act of 1974, as amended (P.L. 93-523); and, (h) protection of endangered species under the Endangered Species Act of 1973, as amended (P.L. 93-205).

16. Will comply with the Wild and Scenic Rivers Act of 1968 (16 U.S.C. §§1271 et seq.) related to protecting components or potential components of the national wild and scenic rivers system.

17. Will assist the awarding agency in assuring compliance with Section 106 of the National Historic Preservation Act of 1966, as amended (16 U.S.C. §470), EO 11593 (identification and protection of historic properties), and the Archaeological and Historic Preservation Act of 1974 (16 U.S.C. §§469a-1 et seq).

18. Will cause to be performed the required financial and compliance audits in accordance with the Single Audit Act Amendments of 1996 and OMB Circular No. A-133, "Audits of States, Local Governments, and Non-Profit Organizations."

19. Will comply with all applicable requirements of all other Federal laws, executive orders, regulations, and policies governing this program.

20. Will comply with the requirements of Section 106(g) of the Trafficking Victims Protection Act (TVPA) of 2000, as amended (22 U.S.C. 7104) which prohibits grant award recipients or a sub-recipient from (1) Engaging in severe forms of trafficking in persons during the period of time that the award is in effect (2) Procuring a commercial sex act during the period of time that the award is in effect or (3) Using forced labor in the performance of the award or subawards under the award.

Maintenance Agreement

All applicants whose proposed project involves the retrofit or modification of existing public property or whose proposed project would result in the public ownership or management of property, structures, or facilities, must first sign the following agreement prior to submitting the application to FEMA.

(NOTE: Those applicants whose project only involves the retrofitting, elevation, or other modification to private property where the ownership will remain private after project completion DO NOT have to complete this form.)

The Polk County Board of County Commissioners of Polk County, State of Florida, hereby agrees that if it receives any Federal aid as a result of the attached project application, it will accept responsibility, at its own expense if necessary, for the ***routine*** maintenance of any real property, structures, or facilities acquired or constructed as a result of such Federal aid**.** Routine maintenance shall include, but not be limited to, such responsibilities as keeping vacant land clear of debris, garbage, and vermin; keeping stream channels, culverts, and storm drains clear of obstructions and debris; and keeping detention ponds free of debris, trees, and woody growth.

The purpose of this agreement is to make clear the Sub-recipient's maintenance responsibilities following project award and to show the Sub-recipients acceptance of these responsibilities. It does not replace, supersede, or add to any other maintenance responsibilities imposed by Federal law or regulation and which are in force on the date of project award.

Paragraph (3) Agreement –

In accordance with section 215.971 (2), Florida Statutes, the Division's Grant Manager (Project Manager) shall be responsible for enforcing performance of this Agreement's terms and conditions and shall serve as the Division's liaison with the Sub-Recipient.

1. The name and address of the Representative of the Sub-Recipient responsible for the Administration of the Agreement is the Primary Point of Contact (POC).
2. In the event that different representatives or addresses are designated by either party after execution of the Agreement, notice of the name and address of the new representative will be provided to the other party.

A Contractor/Consultant/Sub-Contractor CANNOT be the Primary Point of Contract (POC), as the Representative of the Sub-Recipient (POC) responsible for the administration of the Agreement. **This must be an employee of the municipality**. Could ONLY be an alternate, with the limitation of not having signature or requesting change authority.

If the POC has changed, or you anticipate it changing in the future, please provide to your project manager an update form with that information AS SOON AS POSSIBLE. We also recommend designating an alternate POC if you may be out or unavailable and/or an emergency or non-compliancy issue may arise.

Guidance for Completing the Point of Contact form

1. **Project #**: Enter the FEMA project number (one project per form)
2. **Updated date**: Enter the date the change in POC or date effective
3. **Project Title:** Enter the title of the project
4. **New Primary Point of Contact:** *must be an employee of the awarded municipality Sub-Recipient, and active in the managing the project.*
   a. Enter all the information for the new primary POC – Name and Title, Address, Work Phone #, Mobile #, Email Address and signature

Alternate Point of Contact(s) *Recommend that an Alternate POC, with similar experience to be able to fill in when the Primary POC is unavailable.*

5. **1st Alternate Point of Contact:** *employee of the awarded municipality (SR Employee) or Contractor, or Consultant*
   a. Enter all the information for the Alternate POC – Name and Title, Company, Address, Work Phone #, Mobile #, Email Address and list of restrictions.
6. **2nd Alternate Point of Contact:** If applicable – *employee of the awarded municipality (SR Employee) or Contractor, or Consultant*
   a. Enter all the information for the alternate POC – Name and Title, Company, Address, Work Phone #, Mobile #, Email Address and list of restrictions.

AUTHORIZED AGENT *(or current POC listed in the executed contract as the representative)*

7. Enter all the information for the approved Authorizing Agent – Name and Title, Address, Work Phone #, Mobile #, Email Address and signature

CAO Project Number: 2026-363 Log-Out Date: 5-28-26

Agenda Item R.33. 6/16/2026

SUBJECT

Request Board approve agreements with CrowderGulf Joint Venture, Inc. as the primary and Looks Great Services of MS, Inc. as the secondary for debris removal services. (No fiscal impact until a disaster event)

DESCRIPTION

Roads and Drainage requested Procurement to solicit proposals for the purpose of disaster debris clean-up and other related services resulting from, but not limited to, catastrophic events such as tornadoes and hurricanes. Services include but are not limited to collecting and removing debris from the public rights-of-way, roads, both public and private as directed by the County; demolition and removal of condemned structures and buildings that pose a threat to public safety and resulting from the disaster event; processing debris including sorting, grinding, mulching, and burning; and disposing of debris at designated sites within Polk County; establishing and operating temporary debris staging and processing sites; collecting and disposing of hazardous waste, biohazardous waste and dead animals.

Request for Proposal (RFP) 26-011, Disaster Debris Removal Services was issued and thirteen vendors submitted proposals. On April 21, 2026, the Board authorized staff to enter into contract negotiations with proposers, starting with the highest-ranked proposer CrowderGulf Joint Venture, Inc. as the primary, AshBritt, Inc. as the secondary and Looks Great Services of MS, Inc. as the tertiary.

AshBritt, Inc. declined the opportunity to enter into a secondary agreement. As a result, Looks Great Services of MS, Inc. will be designated as the secondary.

These agreements will be in place for 5 years.

RECOMMENDATION

Request Board approve agreements with CrowderGulf Joint Venture, Inc. as the primary and Looks Great Services of MS, Inc. as the secondary regarding RFP 26-011, Disaster Debris Removal Services.

FISCAL IMPACT

Funding for these services will initially be borne by Polk County, yet all costs incurred are anticipated to be reimbursed by FEMA.

DISASTER DEBRIS REMOVAL SERVICES AGREEMENT (PRIMARY)

THIS AGREEMENT (the "Agreement") is entered into as of the Effective Date (defined in Section 1, below) by and between Polk County (the "County"), a political subdivision of the State of Florida, 330 W. Church Street, Bartow, Florida, 33830, and Crowder-Gulf Joint Venture, Inc. (the "Contractor"), a Florida corporation, whose principal address is 5629 Commerce Blvd E, Mobile, Alabama 36619 and whose Federal Employer Identification Number is 01-0626019.

WHEREAS, the Contractor has considerable expertise in disaster debris removal services; and

WHEREAS, the County desires to retain the services of a competent and qualified Contractor to provide disaster debris removal services; and

WHEREAS, the County has solicited for these Contractor services via an advertised request for proposals ("RFP 26-011") and has received numerous responsive proposals thereto; and

WHEREAS, after review and consideration of all responsive proposals, the County intends to engage the Contractor to provide it the disaster debris removal services; and

WHEREAS, the Contractor remains agreeable to providing the County the Contractor services and represents that it is competent, qualified, capable and prepared to do so according to the terms and conditions stated herein.

NOW, THEREFORE, in consideration of the mutual understandings and covenants set forth herein, the County and the Contractor hereby agree, as follows:

1.0 Effective Date; Term

1.1 This Agreement shall take effect on the date (the "Effective Date") of its execution by the Chairman, Board of County Commissioners.

1.2 The term of this Agreement shall be for a five (5) year time period, commencing upon the Effective Date, unless otherwise sooner terminated as provided herein.

2.0 Contractor Services

2.1 The County does hereby retain the Contractor to furnish those services and to perform those tasks (collectively, the "Services") as further described in (i) the County's Request for Proposals RFP #26-011, to include all attachments and addenda, and (ii) the Contractor's responsive proposal thereto (collectively, (i) and (ii) are "RFP 26-011"), all of which are incorporated into this Agreement by this reference. A complete copy of the Scope of Services

section of RFP 26-011 and the Contractor's responsive proposal is attached as a composite **Exhibit "A"** and made a part of this Agreement.

2.2 Contractor shall perform the services described in the Scope of Services section of RFP 26-011, as those Services may be further specifically designated and authorized by the County in a separate written Conditional Notice to Proceed the County will deliver to the Contractor prior to the Contractor's commencement of the Services required in association with the County's clean-up and recovery from a particular disaster or emergency event. The form for the Conditional Notice to Proceed shall be substantially in the form provided on **Exhibit "E"** which is attached hereto and made a part of this Agreement.

2.3 The County will contact and coordinate with the Contractor prior to issuing a Notice to Proceed for a disaster or emergency event. The Contractor will provide the name(s) of the supervisor(s)\liaison officer who will be primarily responsible for the Contractor providing the required Services. Additionally, before the Notice-To-Proceed is issued the Contractor will deliver to the County a performance bond in the form provided on **Exhibit "D"** which is attached hereto and made a part hereof in an amount to be reasonably determined by the County but which will not be less than $1,000,000.00. The actual bond amount will be determined based upon the estimated costs of the Services required as a consequence of the particular disaster or emergency event.

2.4 Contractor acknowledges that the County has engaged a secondary vendor to provide the Services described in RFP 26-011 should the County determine in its sole and absolute discretion that the Contractor may, is or will be unable to perform the full scope of work of a particular project within the time period the County requires all such work to be completed, and nothing stated herein provides the Contractor with the exclusive right to perform the Services.

3.0 Compensation

3.1 General

3.1.1 In consideration for it providing the Services, during the Agreement Term the County shall pay the Contractor a unit price that shall not exceed the amounts stated in **Exhibit "B"**, which is attached hereto and made a part of this Agreement. The Compensation Schedule identifies all items to perform billable services pursuant to this Agreement and the associated amount the County will pay the Contractor for Services performed by those items. The

County is not obligated to pay the Contractor a fee for any work performed or Services provided by items not listed on the Compensation Schedule. The unit prices may be increased by the Procurement Director following the one year anniversary of the Effective Date, when it is in the best interest of the County. Increases will be determined by the appropriate price index as approved by the Procurement Director. Equipment rates and hourly labor rates will be reimbursed at those rates approved by the Federal Emergency Management Agency ("FEMA") for any given year. No Board action will be necessary for unit price increase.

3.1.2 All the Contractor's invoices for payment must reference this Agreement and must be submitted using a form approved by the County Auditor.

3.1.3 The Contractor shall attach all appropriate cost substantiations to the invoice and shall deliver the invoices to:

Roads and Drainage Division
3000 Sheffield Road
Winter Haven, FL 33880
Attn:

3.1.4 The Contractor will clearly state "Final Invoice" on the Contractor's final/last billing for the Services rendered to the County. The Contractor's submission of a Final Invoice is its certification that all Services have been properly performed and all charges and costs have been invoiced to the County. This account will be closed upon the County's receipt of a Final Invoice. The Contractor hereby waives any charges not properly included on its Final Invoice.

3.1.5 The County's payment of the Final Invoice shall not constitute evidence of the County's acceptance of the Contractor's performance of the Service or the County's acceptance of any work.

3.1.6 All Contractor's invoices shall be accompanied by time and task records for all billable hours appearing on the invoice. Additional supporting documents may be requested by the County and, if so requested, shall be furnished by the Contractor to the County Auditor's satisfaction.

3.1.7 The Contractor's project manager or designated payroll officer is attesting to the correctness and accuracy of all charges and requested reimbursements stated in each invoice.

3.2 Reimbursable Expenses

3.2.1 The Contractor's requests for payment of "out-of-pocket" expenses eligible for reimbursement under the terms of this Agreement shall be reimbursed per the County's Reimbursable Schedule that is attached as **Exhibit "C"** and made a part of this Agreement. The Contractor's requests for payment shall include copies of paid receipts, invoices or other documentation acceptable to the County's Auditor. To qualify for reimbursement, the Contractor's documentation shall be sufficient to establish that the expense was actually incurred and necessary in the performance of the Services performed in accordance with this Agreement.

3.2.2 Reimbursable Expenses are the actual, pre-approved, expenses incurred directly in connection with the Contractor providing the Services.

4.0 Contractor's Responsibilities

4.1 The Contractor shall be responsible for the professional quality, accuracy, competence, methodology, and the coordination of all Services performed pursuant to this Agreement.

4.2 The County's review, approval, acceptance, or payment for any of the Contractor's Services shall not be construed to: (i) operate as a waiver of any rights the County possesses under this Agreement; or (ii) waive or release any claim or cause of action arising out of the Contractor's performance or nonperformance of this Agreement. The Contractor shall be and will always remain liable to the County in accordance with applicable law for any and all damages to the County caused by the Contractor's negligent or wrongful performance or nonperformance of any of the Services to be furnished under this Agreement.

5.0 Ownership of Documents

All analyses, reference data, bills, completed reports, or any other form of written instrument or document created or resulting from the Contractor's performance of the Services pursuant to this Agreement shall become the property of the County after payment is made to the Contractor for such instruments or documents.

6.0 Termination

6.1 The County may terminate this Agreement, in whole or in part, at any time, either for the County's convenience or because of the failure of the Contractor to fulfill its obligations under this Agreement, subject to the cure period provided in Section 26.0, by delivering written notice to the Contractor. Upon receipt of such notice, the Contractor shall:

6.1.1 Immediately discontinue all affected Services unless the notice directs otherwise, and

6.1.2 Deliver to the County all data, reports, summaries, and any and all such other information and materials of whatever type or nature as may have been accumulated by the Contractor in performing this Agreement, whether completed or in process.

6.2 Unless in dispute or subject to the County's right of set-off or other remedy, the Contractor shall be paid for Services actually rendered to the date of termination.

6.3 The rights and remedies of the County provided for in this Section 6 are in addition and supplemental to any and all other rights and remedies provided by law or under this Agreement.

7.0 No Contingent Fees

The Contractor warrants that it has not employed or retained any company or person, other than a bona fide employee working solely for the Contractor to solicit or secure this Agreement and that it has not paid or agreed to pay any person, company, corporation, individual or firm, other than a bona fide employee working solely for the Contractor, any fee, commission, percentage, gift, or other consideration contingent upon or resulting from award of or making of the Agreement. For the breach or violation of this provision, the County shall have the right to terminate the Agreement at its sole discretion, without liability and to deduct from the Agreement price, or otherwise recover, the full amount of such fee, commission, percentage, gift, or consideration.

8.0 Assignment

The Contractor shall not assign, transfer, or encumber this Agreement, or any interest herein, under any circumstances, without obtaining the prior written consent of the County, which consent may be withheld in the County's exercise of its reasonable discretion.

9.0 Professional Associates and Subcontractors

If the Contractor requires the assistance of any professional associates or subcontractors in connection with its providing the Services the Contractor must obtain the prior express written approval of the County, which the County may withhold in its discretion, before any such professional associate or subcontractor may perform any work for the County. If after obtaining the County's approval the Contractor utilizes any professional associates or subcontractors in the delivery of the Services, then the Contractor shall remain solely and fully liable to the County for

the performance or nonperformance of all such professional associates and subcontractors. The failure of a professional associate or subcontractor to timely or properly perform any of its obligations to the Contractor shall not relieve the Contractor of its obligations to the County under this Agreement.

10.0 Indemnification of County

Contractor, to the extent permitted by law, shall indemnify, defend (by counsel reasonably acceptable to County) protect and hold the County, and its officers, employees and agents harmless from and against any and all, claims, actions, causes of action, liabilities, penalties, forfeitures, damages, losses, and expenses (including, without limitation, attorneys' fees costs and expenses incurred during negotiation, through litigation and all appeals therefrom) whatsoever including, but not limited to, those pertaining to the death of or injury to any person, or damage to any property, arising out of or resulting from (i) the failure of Contractor to comply with applicable laws, rules or regulations, (ii) the breach by Contractor of its obligations under this Agreement, (iii) any claim for trademark, patent or copyright infringement arising out of the scope of Contractor's performance or nonperformance of this Agreement, or (iv) the negligent acts, errors or omissions, or intentional or willful misconduct, of Contractor, its professional associates, subcontractors, agents, and employees; provided, however, that Contractor shall not be obligated to defend or indemnify the County with respect to any such claims or damages arising out of the County's sole negligence. The provisions of this Section 10.0 shall survive the expiration or earlier termination of this Agreement.

11.0 Insurance Requirements

The Contractor shall maintain at all times the following minimum levels of insurance and shall, without in any way altering its liability, obtain, pay for and maintain insurance for the coverage and amounts of coverage not less than those set forth below. The Contractor shall provide the County original Certificates of Insurance satisfactory to the County to evidence such coverage before any work commences. The County shall be named as an additional insured on General and Automobile Liability policies. General Liability and Workers' Compensation policies shall contain a waiver of subrogation in favor of Polk County. The commercial General Liability Policy shall (by endorsement if necessary) provide contractual liability coverage for the contractual indemnity stated in Section 10, above. All insurance coverage shall be written with a company having an A.M. Best rating of at least the "A" category and size category of VIII. The

Contractor's self-insured retention or deductible per line of coverage shall not exceed $25,000 without the permission of the County. In the event of any failure by the Contractor to comply with the provisions of this Section 11, the County may, at its option, upon notice to the Contractor suspend Contractor's performance of the Services for cause until there is full compliance. Alternatively, the County may purchase such insurance at the Contractor's expense, provided that the County shall have no obligation to do so and if the County shall do so, the Contractor shall not be relieved of or excused from the obligation to obtain and maintain such insurance amounts and coverage.

Comprehensive Automobile Liability Insurance. $2,000,000.00 combined single limit of liability for bodily injuries, death and property damage resulting from any one occurrence, including all owned, hired, and non-owned vehicles.

Commercial General Liability. $4,000,000.00 combined single limit of liability for bodily injuries, death and property damage, and personal injury resulting from any one occurrence, including the following coverages:

Premises and Operations:

> Broad Form Commercial General Liability Endorsement to include Blanket Contractual liability (specifically covering, but not limited to, the contractual obligations assumed by the Firm); Personal Injury (with employment and contractual exclusions deleted); and Broad Form Property Damage coverage.

Independent Contractors:

> Delete Exclusion relative to collapse, explosion and underground; Property Damage Hazards; Cross Liability Endorsement; and Contractual liability (specifically covering, but not limited to, the contractual obligations assumed by the Firm)

Workers Compensation. The Contractor shall provide, pay for, and maintain workers compensation insurance on all employees, its agents or subcontractors as required by Florida Statutes.

Pollution Liability Insurance: $1,000,000 including pollution due to automobile operations.

Employer's Liability. $1,000,000.

12.0 Public Entity Crimes

The Contractor declares and warrants that neither the Contractor nor any of the Contractor's affiliates, as that term is defined in Section 287.133, Florida Statutes, are subject to the restrictions in Section 287.133, Florida Statutes, regarding the commission of a public entity crime. If during the term of this Agreement, the Contractor or any affiliate is convicted of a public entity crime or is otherwise prohibited from performing work for or transacting business with the County pursuant to Section 287.133, Florida Statutes, then the Contractor shall be in material default of this Agreement, and in such case, the County shall have the rights and remedies as provided herein.

13.0 Non-Discrimination

The Contractor warrants and represents that all of its employees are treated equally during employment without regard to race, color, religion, gender, age or national origin.

14.0 Designation of Party Representatives

14.1 Upon receipt of a request from the Contractor, the County shall designate in writing one or more of its employees who are authorized to act by and on behalf of the County to transmit instructions, receive information and interpret and define the County's policy and decisions with respect to the Services to be provided pursuant to this Agreement.

14.2 The Contractor shall designate or appoint one or more Contractor representatives who are authorized to act on behalf of and to bind the Contractor regarding all matters involving the conduct of its performance pursuant to this Agreement.

15.0 All Prior Agreements Superseded

This document incorporates and includes all prior negotiations, correspondence, conversations, agreements or understandings applicable to the matters contained herein and the parties agree that there are no commitments, agreements or understandings concerning the subject matter of this Agreement that are not contained in this document or its designated exhibits. Accordingly, it is agreed that no deviation from the terms hereof shall be predicated upon any prior representations or agreements, whether oral or written.

16.0 Modifications, Amendments or Alterations

No modification, amendment or alteration in the terms or conditions contained herein shall be effective unless agreed to and executed in writing by both parties to this Agreement in a form acceptable to the County.

17.0 Independent Contractor

Nothing stated in this Agreement is intended or should be construed in any manner as creating or establishing a relationship of co-partners between the parties, or as constituting the Contractor (including its officers, employees, and agents) as the agent, representative, or employee of the County for any purpose, or in any manner, whatsoever. The Contractor is to be and shall remain forever an independent contractor with respect to all Services performed under this Agreement. The Contractor shall not pledge the County's credit or make the County a guarantor of payment or surety for any contract, debt, obligation, judgment, lien or any form of indebtedness and the Contractor shall have no right to speak for or bind the County in any manner.

18.0 Public Records Law

(a) The Contractor acknowledges the County's obligations under Article I, Section 24, of the Florida Constitution and under Chapter 119, Florida Statutes, to release public records to members of the public upon request and comply in the handling of the materials created under this Agreement. The Contractor further acknowledges that the constitutional and statutory provisions control over the terms of this Agreement. In association with its performance pursuant to this Agreement, the Contractor shall not release or otherwise disclose the content of any documents or information that is specifically exempt from disclosure pursuant to all applicable laws.

(b) Without in any manner limiting the generality of the foregoing, to the extent applicable, the Contractor acknowledges its obligations to comply with Section 119.0701, Florida Statutes, with regard to public records, and shall:

(1) keep and maintain public records required by the County to perform the services required under this Agreement;

(2) upon request from the County's Custodian of Public Records or his/her designee, provide the County with a copy of the requested records or allow the records to be inspected or copied within a reasonable time at a cost that does not exceed the cost provided in Chapter 119, Florida Statutes, or as otherwise provided by law;

(3) ensure that public records that are exempt or confidential and exempt from public records disclosure requirements are not disclosed except as authorized by law for the duration of the term of this Agreement and following completion of this Agreement if the Contractor does not transfer the records to the County; and

(4) upon completion of this Agreement, transfer, at no cost, to the County all public records in possession of the Contractor or keep and maintain public records required by the County to perform the service. If the Contractor transfers all public records to the County upon completion of this Agreement, the Contractor shall destroy any duplicate public records that are exempt or confidential and exempt from public records disclosure requirements. If the Contractor keeps and maintains public records upon completion of this Agreement, the Contractor shall meet all

applicable requirements for retaining public records. All records stored electronically must be provided to the County, upon request from the County's Custodian of Public Records, in a format that is compatible with the information technology systems of the County.

(c) **IF THE CONTRACTOR HAS QUESTIONS REGARDING THE APPLICATION OF CHAPTER 119, FLORIDA STATUTES, TO THE CONTRACTOR'S DUTY TO PROVIDE PUBLIC RECORDS RELATING TO THIS AGREEMENT, CONTACT THE COUNTY'S CUSTODIAN OF PUBLIC RECORDS AT:**

RECORDS MANAGEMENT LIASON OFFICER

POLK COUNTY

330 WEST CHURCH ST.

BARTOW, FL 33830

TELEPHONE: (863) 534-7670

EMAIL: RMCO@POLKFL.GOV

19.0 Compliance with Laws and Regulations

In providing all Services pursuant to this Agreement, the Contractor shall abide by all statutes, ordinances, rules, and regulations pertaining to or regulating the provisions of such Services, including those now in effect and hereafter adopted. Any violation of said statutes, ordinances, rules, or regulations shall constitute a material breach of this Agreement, and shall entitle the County to terminate this Agreement immediately upon delivery of written notice of termination to the Contractor.

20.0 Governing Law and Venue

This Agreement shall be governed in all respects by the laws of the State of Florida and any litigation with respect thereto shall be brought only in the courts of Polk County, Florida or in the United States District Court, Middle District of Florida, located in Hillsborough County, Florida.

21.0 Notices

Whenever either party desires to give notice unto the other, it must be given by written notice, delivered (i) in person, (ii) via registered or certified United States mail, postage prepaid with return receipt requested, or (iii) via nationally recognized overnight delivery service, and addressed to the party for whom it is intended at the place last specified by each party. The place

for giving of notice shall remain such until it is changed by written notice delivered in compliance with the provisions of this Section 21. For the present, the parties designate the following as the respective places for giving of notice, to wit:

For County: Roads & Drainage Division
3000 Sheffield Road
Winter Haven, Florida 33880
Attention: Division Director

For Contractor: Crowder-Gulf Joint Venture, Inc.
5629 Commerce Blvd E
Mobile, Alabama 36619
Attention: Ashley Ramsay-Naile, President

22.0 Severability

The invalidity, illegality, or unenforceability of any provision of this Agreement, or the occurrence of any event rendering any portion or provision of this Agreement void, shall in no way affect the validity or enforceability of any other portion or provision of the Agreement; any void provision shall be deemed severed from the Agreement and the balance of the Agreement shall be construed and enforced as if the Agreement did not contain the particular portion or provision held to be void. The parties further agree to reform the Agreement to replace any stricken provision with a valid provision that comes as close as possible to the intent of the stricken provision. The provisions of this section shall not prevent the entire Agreement from being void should a provision which is of the essence of the Agreement be determined to be void.

23.0 Annual Appropriations

Contractor acknowledges that during any fiscal year the County shall not expend money, incur any liability, or enter into any agreement which by its terms involves the expenditure of money in excess of the amounts budgeted as available for expenditure during such fiscal year. Accordingly, any agreement, verbal or written, the County may make in violation of this fiscal limitation is null and void, and no money may be paid on such agreement. The County may enter into agreements whose duration exceeds one year; however, any such agreement shall be executory only for the value of the services to be rendered which the County agrees to pay as allocated in its annual budget for each succeeding fiscal year. Accordingly, the County's performance and obligation to pay the Contractor under this Agreement is contingent upon annual appropriations being made for that purpose.

24.0 Unauthorized Alien(s)

The Contractor shall not employ or utilize unauthorized aliens in the performance of the Services provided pursuant to this Agreement. The County shall consider the employment or utilization of unauthorized aliens a violation of Section 274A(e) of the Immigration and Naturalization Act (8 U.S.C. 1324a) and a cause for the County's unilateral termination of this Agreement. When delivering executed counterparts of this Agreement to the County, the Contractor shall also deliver a completed and executed counterpart of the attached "AFFIDAVIT CERTIFICATION IMMIGRATION LAWS" form.

25.0 Contractor Representations

25.1 The Contractor hereby represents and warrants the following to the County:

25.1.1 Contractor is a corporation that is duly organized and existing in good standing under the laws of the State of Florida with full right and authority to do business within the State of Florida.

25.1.2 Contractor's performance under this Agreement will not violate or breach any contract or agreement to which the Contractor is a party or is otherwise bound, and will not violate any governmental statute, ordinance, rule, or regulation.

25.1.3 Contractor has the full right and authority to enter into this Agreement and to perform its obligations in accordance with its terms.

25.1.4 Contractor now has and will continue to maintain all licenses and approvals required to conduct its business, and that it will at all times conduct its business activities in a reputable manner.

25.1.5 Contractor has no obligation or indebtedness that would impair its ability to fulfill the terms of this Agreement.

25.1.6 Contractor has the personnel and experience necessary to perform all Services in a professional and workmanlike manner.

25.1.7 Contractor shall exercise the same degree of care, skill, and diligence in the performance of the Services as provided by a professional of like experience, knowledge and resources, under similar circumstances.

25.1.8 Contractor shall, at no additional cost to the County, re-perform those Services which fail to satisfy the foregoing standard of care or which otherwise fail to meet the requirements of this Agreement.

25.1.9 Each individual executing this Agreement on behalf of the Contractor is authorized to do so.

26.0 Default and Remedy

A. Process. If the Contractor materially defaults in the timely performance of any Contract obligation, including any changes, modifications, changes in scope issued thereunder, or if the Contractor is otherwise in material default of the Contract, including, without limitation, the Contractor's failure to timely deliver any portion, or the entirety, of the Project Work in accordance with the Contract documents, then the County shall have the right to (i) with or without terminating the Contract, immediately call the Performance Bond and Payment Bond, and engage other contractors or providers at the Contractor's sole cost and expense to provide those unperformed or deficient Contract obligations of the Contractor; (ii) set-off the monetary amount of any and all damages arising therefrom, whether direct or indirect, actual or liquidated, from the amounts due Contractor pursuant to the Contract documents, (iii) immediately terminate the Contract by delivering written notice to the Contractor, and (iv) pursue any and all remedies available in law, equity, and under the Contract, including, without limitation, the recovery of any increased cost to the County to complete the Project Work due to the loss of FEMA Public Assistance funding caused, directly or indirectly, by the Contractor's default. Upon any such termination pursuant to this Section, the County shall pay the Contractor the full amount due and owing for all services properly performed through the date of the Contract termination, less any amount subject to the County's right of set-off, and all liability of the County to the Contractor shall cease.

B. Certain Material Defaults. Among other matters, including without limitation, the Contractor's failure to timely deliver any portion, or the entirety, of the Project Work in accordance with the Contract documents, as described immediately above, any of the following shall constitute the Contractor's material default of the Contract: the appointment of a receiver to take possession of all or substantially all of the Contractor's assets, a general assignment by the Contractor for the benefit of creditors, or any action taken by or suffered by Contractor under any insolvency or bankruptcy act; or the Contractor is convicted of a public entity crime, is determined to have violated federal or state law prohibiting discrimination as stated in Section 287.134, Florida Statutes, or is prohibited from performing work for or transacting business with the County pursuant to Section 287.133 or to Section 287.134, Florida Statutes; or an assignment of the Contract made without the express written consent of the County; or the submission of a false certification to the County or engagement in prohibited business operations, both as described in the Contract Documents.

27.0 Limitation of Liability

IN NO EVENT, SHALL THE COUNTY BE LIABLE TO THE CONTRACTOR FOR INDIRECT, INCIDENTAL, CONSEQUENTIAL, SPECIAL, EXEMPLARY, OR PUNITIVE DAMAGES OF ANY KIND OR NATURE, INCLUDING LOSS OF PROFIT, WHETHER FORESEEABLE OR NOT, ARISING OUT OF OR RESULTING FROM THE NONPERFORMANCE OR BREACH OF THIS CONTRACT BY THE COUNTY WHETHER BASED IN CONTRACT, COMMON LAW, WARRANTY, TORT, STRICT LIABILITY, CONTRIBUTION, INDEMNITY OR OTHERWISE.

28.0 Waiver

A waiver by either County or Contractor of any breach of this Agreement shall not be binding upon the waiving party unless such waiver is in writing. In the event of a written waiver, such a waiver shall not affect the waiving party's rights with respect to any other or further breach of this Agreement. The making or acceptance of a payment by either party with the knowledge of the other party's existing default or breach of the Agreement shall not waive such default or breach, or any subsequent default or breach of this Agreement, and shall not be construed as doing so.

29.0 Attorneys' Fees and Costs

Each party shall be responsible for its own legal and attorneys' fees, costs and expenses incurred in connection with any dispute or any litigation arising out of, or relating to this Agreement, including attorneys' fees, costs, and expenses incurred for any appellate or bankruptcy proceedings.

30.0 Force Majeure

Either party hereunder may be temporarily excused from performance if an Event of Force Majeure directly or indirectly causes its nonperformance. An "Event of Force Majeure" is defined as any event which results in the prevention or delay of performance by a party of its obligations under this Agreement and which is beyond the reasonable control of the nonperforming party. It includes, but is not limited to fire, flood, earthquakes, storms, lightning, epidemic, war, riot, civil disturbance, sabotage, and governmental actions. Neither party shall be excused from performance if non-performance is due to forces which are reasonably preventable, removable, or remediable and which the non-performing party could have, with the exercise of reasonable diligence, prevented, removed, or remedied prior to, during, or immediately after their occurrence. Within five (5) days after the occurrence of an Event of Force Majeure, the non-performing party shall deliver written notice to the other party describing the event in reasonably sufficient detail, along

with proof of how the event has precluded the non-performing party from performing its obligations hereunder, and a good faith estimate as to the anticipated duration of the delay and the means and methods for correcting the delay. The non-performing party's obligations, so far as those obligations are affected by the Event of Force Majeure, shall be temporarily suspended during, but no longer than, the continuance of the Event of Force Majeure and for a reasonable time thereafter as may be required for the non-performing party to return to normal business operations. If excused from performing any obligations under this Agreement due to the occurrence of an Event of Force Majeure, the non-performing party shall promptly, diligently, and in good faith take all reasonable action required for it to be able to commence or resume performance of its obligations under this Agreement. During any such time period, the non-performing party shall keep the other party duly notified of all such actions required for it to be able to commence or resume performance of its obligations under this Agreement.

31.0 Key Personnel

The Contractor shall notify the County if any of the Contractor's Key Personnel (as defined, below) change during the Term of the Agreement. To the extent possible, the Contractor shall notify the County at least ten (10) days prior to any proposed change in its Key Personnel. At the County's request the Contractor shall remove without consequence to the County any of the Vendor's contractors, sub-contractors, sub-consultants, agents or employees and replace the same with an appropriate substitute having the required skill and experience necessary to perform the Services. The County shall have the right to reject the Contractor's proposed changes in Key Personnel. The following individuals shall be considered "Key Personnel:"

Name: Ashely Ramsay-Naile

Name: Reid Loper

Name: Jacob "Matt" Tate

Name: Wes Naile

Name: Wilber Ledet

Name: Wesley Naile

Name: Drew Sprinkle

Name: Nick Pratt

Name: Jeff Zemlik

Name: Gina Walley

Name: Don Madio

Name: Joe Hayes

Name: Matt Lucas

Name: Jesus Carretie

32.0 Scrutinized Companies and Business Operations Certification; Termination.

A. Certification(s).

(i) By its execution of this Agreement, the Contractor hereby certifies to the County that the Contractor is not on the Scrutinized Companies that Boycott Israel List, created pursuant to Section 215.4725, Florida Statutes, nor is the Contractor engaged in a boycott of Israel, nor was the Contractor on such List or engaged in such a boycott at the time it submitted its bid, proposal, quote, or other form of offer, as applicable, to the County with respect to this Agreement.

(ii) Additionally, if the value of the goods or services acquired under this Agreement are greater than or equal to One Million Dollars ($1,000,000), then the Contractor further certifies to the County as follows:

(a) the Contractor is not on the Scrutinized Companies with Activities in Sudan List, created pursuant to Section 215.473, Florida Statutes; and

(b) the Contractor is not on the Scrutinized Companies with Activities in the Iran Petroleum Energy Sector List, created pursuant to Section 215.473, Florida Statutes; and

(c) the Contractor is not engaged in business operations (as that term is defined in Florida Statutes, Section 287.135) in Cuba or Syria; and

(d) the Contractor was not on any of the Lists referenced in this subsection A(ii), nor engaged in business operations in Cuba or Syria when it submitted its proposal to the County concerning the subject of this Agreement.

(iii) The Contractor hereby acknowledges that it is fully aware of the penalties that may be imposed upon the Contractor for submitting a false certification to the County regarding the foregoing matters.

B. Termination. In addition to any other termination rights stated herein, the County may immediately terminate this Agreement upon the occurrence of any of the following events:

(i) The Contractor is found to have submitted a false certification to the County with respect to any of the matters set forth in subsection A(i) above, or the Contractor is found to have been placed on the Scrutinized Companies that Boycott Israel List or is engaged in a boycott of Israel.

(ii) The Contractor is found to have submitted a false certification to the County with respect to any of the matters set forth in subsection A(ii) above, or the Contractor is found to have been placed on the Scrutinized Companies with Activities in Sudan List, or the Scrutinized Companies with Activities in the Iran Petroleum Energy Sector List, or has been engaged in business operations in Cuba or Syria, and the value of the goods or services acquired under this Agreement are greater than or equal to One Million Dollars ($1,000,000).

33.0 No Construction Against Drafter

The Parties acknowledge that this Agreement and all the terms and conditions contained herein have been fully reviewed and negotiated by the Parties. Accordingly, any rule of construction to the effect that ambiguities are to be resolved against the drafting party shall not apply in interpreting this Agreement.

34.0 Federal Provisions

The Supplemental Conditions – Federal Clauses set forth in the RFP 26-011, attached here to as Exhibit Ai, are hereby fully incorporated by this specific reference, as if set forth in the body of this Agreement.

35.0 Breach During Emergency Recovery Period.

Pursuant to section 252.505, Florida Statutes, in the event this Agreement concerns goods or services related to a natural emergency, Vendor agrees that if Vendor breaches this Agreement during the Emergency Recovery Period, then the County shall be entitled to (a) a payment of $5000, and (b) recovery of damages, which may take the form of actual and consequential damages or liquidated damages. The term "Emergency Recovery Period" means a one-year period that begins on the date the Governor of Florida initially declared a state of emergency for a natural emergency.

36.0 Conditional Notice to Proceed Minimum Amount.

As a condition precedent to the issuance of any Notice-To-Proceed, Vendor shall furnish to County a performance bond in a minimum amount of One Million Dollars ($1,000,000.00) in a form reasonably acceptable to the County. County retains the right to require a higher initial performance bond for any reason deemed necessary to the County. The parties acknowledge the services required in response to an emergency cannot fully be determined in advance. Therefore, upon the occurrence of such an emergency event, County shall determine the actual amount of the performance bond and adjust the required amount from the Vendor accordingly. Vendor's failure to provide the initial performance bond or the adjusted performance bond shall constitute a

material breach of the obligations under this Agreement and shall provide the County with the right to withhold the Notice to Proceed, suspend Services, procure substitute Services, and exercise any right or remedy provided under this Agreement or applicable law.

37.0 Future Debris Management Contractual Obligations.

Vendor shall provide County with priority status in response Services to be performed under this Agreement. During activation, resources will not be diverted away from the County. Vendor acknowledges this priority, as well as responsiveness with personnel, material, equipment, and service delivery are all material under this Agreement. Accordingly, Vendor shall, within thirty (30) days of entering into a new debris management, emergency response, disaster recovery, or similar contractual obligation with other entity during the Term of this Agreement, provide County with written notice of such a contractual obligations and provide the County with reasonable assurances that the new obligations will not interfere with Vendor's performance of this Agreement, including County's priority status. In addition, Vendor shall, on June 1st of every year during the Term of this Agreement, provide County with a written letter identifying all new debris management, emergency response, disaster recovery, or similar contractual obligations entered into during the preceding twelve (12) months. Along with the names of all the new obligations, the letter will include assurances that the obligations will not interfere with Vendor's performance of this Agreement, including County's priority status. Vendor's failure to provide a timely disclosure shall constitute a material breach of this Agreement.

38.0 Project Manager Assignment.

Vendor shall designate a Project Manager to be the key personnel to this Agreement. The Project Manager shall be an individual capable of committing Vendor resources including, without limitation, equipment, personnel, subcontractors, and financial expenditures, without seeking off-site corporate approval. The Vendor shall provide written certification the Project Manager is not committed to another debris management agreement during the Term of this Agreement.

(THE REMAINDER OF THE PAGE IS LEFT INTENTIONALLY BLANK; THE AGREEMENT CONTINUES ON THE FOLLOWING PAGE WITH THE PARTIES SIGNATURES.)

IN WITNESS WHEREOF, the parties hereto have executed this Agreement as of the Effective Date.

EMPLOYMENT ELIGIBILITY VERIFICATION (E-VERIFY) CERTIFICATION

(Florida Statutes, Section 448.095)

PROJECT NAME: RFP 26-011

The undersigned, as an authorized officer of the contractor identified below (the "**Contractor**"), having full knowledge of the statements contained herein, hereby certifies to Polk County, a political subdivision of the State of Florida (the "**County**"), by and on behalf of the Contractor in accordance with the requirements of Section 448.095, Florida Statutes, as related to the contract entered into by and between the Contractor and the County on or about the date hereof, whereby the Contractor will provide labor, supplies, or services to the County in exchange for salary, wages, or other remuneration (the "**Contract**"), as follows:

1. Unless otherwise defined herein, terms used in this Certification which are defined in Section 448.095, Florida Statutes, as may be amended from time to time, shall have the meaning ascribed in said statute.

2. Pursuant to Section 448.095(5), Florida Statutes, the Contractor, and any subcontractor under the Contract, must register with and use the E-Verify system to verify the work authorization status of all new employees of the Contractor or subcontractor. The Contractor acknowledges and agrees that (i) the County and the Contractor may not enter into the Contract, and the Contractor may not enter into any subcontracts thereunder, unless each party to the Contract, and each party to any subcontracts thereunder, registers with and uses the E-Verify system; and (ii) use of the U.S. Department of Homeland Security's E-Verify System and compliance with all other terms of this Certification and Section 448.095, Fla. Stat., is an express condition of the Contract, and the County may treat a failure to comply as a material breach of the Contract.

3. By entering into the Contract, the Contractor becomes obligated to comply with the provisions of Section 448.095, Fla. Stat., "Employment Eligibility," as amended from time to time. This includes but is not limited to utilization of the E-Verify System to verify the work authorization status of all newly hired employees, and requiring all subcontractors to provide an affidavit attesting that the subcontractor does not employ, contract with, or subcontract with, an unauthorized alien. The Contractor shall maintain a copy of such affidavit for the duration of the Contract. Failure to comply will lead to termination of the Contract, or if a subcontractor knowingly violates the statute or Section 448.09(1), Fla. Stat., the subcontract must be terminated immediately. If the Contract is terminated pursuant to Section 448.095, Fla. Stat., such termination is not a breach of contract and may not be considered as such. Any challenge to termination under this provision must be filed in the Tenth Judicial Circuit Court of Florida no later than 20 calendar days after the date of termination. If the Contract is terminated for a violation of Section 448.095, Fla. Stat., by the Contractor, the Contractor may not be awarded a public contract for a period of 1 year after the date of termination. The Contractor shall be liable for any additional costs incurred by the County as a result of the termination of the Contract. Nothing in this Certification shall be construed to allow intentional discrimination of any class protected by law.

Affidavit Regarding the Use of Coercion for Labor or Services

In compliance with Section 787.06(13), Florida Statutes, this attestation must be completed by an officer or representative of a nongovernmental entity that is executing, renewing, or extending a contract with Polk County, a political subdivision of the State of Florida.

The undersigned, on behalf of the entity listed below (the "Nongovernmental Entity"), hereby attests under penalty of perjury as follows:

1. I am over the age of 18 and I have personal knowledge of the matters set forth herein.

2. I currently serve as an officer or representative of the Nongovernmental Entity.

3. The Nongovernmental Entity does **not** use coercion for labor or services, as those underlined terms are defined in Section 787.06, Florida Statutes.

4. This declaration is made pursuant to Section 92.525, Fla. Stat. and Section 787.06, Fla. Stat. I understand that making a false statement in this declaration may subject me to criminal penalties.

Under penalties of perjury, I Ashley Ramsay-Naile, President (Signatory Name and Title), declare that I have read the foregoing Affidavit Regarding the Use of Coercion for Labor and Services and that the facts stated in it are true.

Further Affiant sayeth naught.

RFP NOTICE

Polk County, a political subdivision of the State of Florida, requests the submittal of proposals from vendors that are interested in providing debris removal services as described herein. Sealed proposals must be received in the Procurement Division, prior to the due date and time listed below.

RFP Number and Title: 26-011, Disaster Debris Removal Services

Description: Provide disaster debris clean-up and other related services resulting from, but not limited to, catastrophic events such as tornadoes and hurricanes

Receiving Period: Prior to 2:00 p.m., Wednesday, December 31, 2025

Bid Opening: Wednesday, December 31, 2025, at 2:00 p.m. or as soon as possible thereafter.

This form is for RFP registration only. Please scroll down for additional information.

Special Instructions:

Questions regarding this RFP must be in writing and must be sent to Ken Brush Procurement Contracts Manager, via email at kenbrush@polk-county.net or via fax at (863) 534-6789. All questions must be received by Monday, December 15, 2025, 4:00 p.m.

RFP REGISTRATION

You must register using this form to receive notice of any addenda to these documents. Please fax the completed form to the Procurement Division as soon as possible. It is the vendor's responsibility to verify if addenda have been issued.

RFP Number: 26-011

RFP Title: Disaster Debris Removal Services

This form is for bid registration only. Please scroll down for additional information.

Carefully complete this form and return it to the Procurement Division via e-mail to procurement@polk-county.net or fax (863) 534-6789. You must submit one form for each solicitation that you are registering for.

PROPOSAL SUBMITTAL INSTRUCTIONS

Proposers must submit their proposal prior to 2:00 p.m. on the receiving date. Proposals must be submitted in a "sealed" parcel or electronically through Polk County's secure website, Kiteworks. Proposals will be publicly opened at 2:00 p.m. on the receiving date.

Sealed Parcel Submittal:

If you are submitting a sealed parcel proposal submit one (1) original marked ORIGINAL and five (5) copies marked COPY of the proposal in a sealed parcel to the Procurement Division. The parcel should be labeled "RFP #26-011, Disaster Debris Removal Services" and marked with the proposer's name and address. The Proposals may be mailed or delivered to:

Polk County Procurement Division

330 West Church Street, Room 150

Bartow, FL 33830

To assist with labeling the sealed parcel, please cut along the outer border and affix this label. Be sure to include the name of the company submitting the proposal where requested.

Sealed Proposal. DO NOT OPEN	
RFP Number	26-011

Submitted by:	
Deliver To:	Polk County Procurement Division 330 West Church Street, Room 150, Bartow, Florida 33830

Proposals may be mailed, express mailed or hand delivered. It is the Proposers responsibility to ensure their package is delivered to the Procurement Division prior to 2:00 p.m. on the Receiving date and time referenced above. Proposals delivered at 2:00 p.m. or later will not be accepted.

Electronic Proposals Submittal:

All prospective Proposers that are interested in submitting their proposals electronically can do so via the County's secure electronic submittal website, Kiteworks. Proposers must email kenbrush@polk-county.net at least 48 hours prior to opening to receive a link to upload their submittal. Please only upload your documents as a PDF or Excel file for the Cost Tab, if applicable. Please use the name convention of your files as follow:

"RFP 26-011 Tab 1"

"RFP 26-011 Tab 2"

"RFP 26-011 Tab 3"

"RFP 26-011 Tab 4"

"RFP 26-011 Tab 5"

"RFP 26-011 Tab 6"

"RFP 26-011 Tab 7"

For more instructions, a video tutorial has been produced to further explain the electronic solicitation submittal process. It can be found by clicking here for RFP Submittals: https://youtu.be/vkn_7AHqioE. If you need assistance accessing this website due to ADA or any other reason, please email Ken Brush at kenbrush@polk-county.net.

Procurement recommends that Proposers submitting electronically double check the documents submitted into Kiteworks to ensure all requested tab information has been uploaded. Failure to upload the requested tab information may result in the proposal being deemed nonresponsive.

POLK COUNTY
Procurement Division
Fran McAskill
Procurement Director
REQUEST FOR PROPOSAL 26-011
Disaster Debris Removal Services

Sealed proposals will be received in the Procurement Division, Wednesday, December 31, 2025, prior to 2:00 p.m.

Attached are important instructions and specifications regarding responses to this Request for Proposal (the "RFP"). The failure of a responding proposer (a "Proposer") to follow these instructions could result in Proposer disqualification from consideration for a contract to be awarded pursuant to this RFP.

This document is issued by Polk County (the "County") which is the sole distributor of this RFP and all addenda and changes to the RFP documents. The County shall record its responses to inquiries and provide any supplemental instructions or additional documents pertaining to this RFP in the form of written addenda to the RFP. The County shall post all such addenda, together with any other information pertaining to this RFP, on the County's website at https://www.polk-county.net/business/procurement/. It is the sole responsibility of each Proposer to review the website prior to submitting a responsive proposal (a "Proposal") to this RFP to ensure that that the Proposer has obtained all available instructions, addenda, changes, supporting documents, and any other information pertaining to this RFP.

The County is not responsible for any solicitations issued through subscriber, publications, or other sources not connected with the County and the Proposer should not rely on such sources for information regarding the RFP solicitation.

Questions regarding this RFP must be in writing and must be sent to Ken Brush, Procurement Contracts Manager, via email at kenbrush@polk-county.net or via fax at (863) 534-6789. **All questions must be received by Monday, December 15, 2025, 4:00 p.m.**

Proposers and any prospective proposers shall not contact, communicate with or discuss any matter relating in any way to this RFP with any member of the Polk County Board of County Commissioners or any employee of Polk County other than the County Procurement Director or the individual designated above. This prohibition begins with the issuance of the Request for Proposal and ends upon execution of the final contract. Any such communication initiated by a Proposer or prospective proposer shall be grounds for disqualifying the offender from consideration for a contract to be awarded pursuant to this RFP and for contracts to be awarded pursuant to RFPs or Requests for Bid that the County may issue in the future.

A Proposer's responsive Proposal to this RFP may be mailed, express mailed, or hand delivered to:

Polk County Procurement Division
330 West Church Street, Room 150
Bartow, Florida 33830
(863)534-6757

Introduction/Background

Polk County, a political subdivision of the State of Florida, is soliciting proposals from qualified firms to provide disaster debris clean-up and other related services.

Award of this RFP may be made to up to three (3) Contractors and will be used when the magnitude of an emergency is such that the County is not able to manage with their own resources. Contractors shall be identified as the primary, secondary, and tertiary awardee based on order of final ranking. The area given to any one contractor will depend on the magnitude of the emergency.

The primary vendor will be contracted to provide the services needed. If the primary vendor is not available, or fails to respond within 24 hours, the County will then contact the secondary vendor. If the secondary vendor is not available or fails to respond within 24 hours, the County will then contact the tertiary vendor.

There are other public agencies within Polk County that may wish to use the provisions of this RFP. Attachment A should be signed and included with your submittal. Please refer to submittal criteria for further detail.

SPECIFICATIONS

PURPOSE

The purpose of these specifications is to describe the requirements of the County relative to the Disaster Debris Removal Services sought by the County in the removal of debris resulting from, but not limited to, catastrophic events such as tornadoes and hurricanes. The resulting contract would potentially be invoked for County, State, and Federally declared disaster events. Services may include: collecting and removing debris including the clearing and removal of debris from the public right-of-way, streets and roads, either public or private as directed by the client; demolition and removal of condemned structures and buildings that pose a threat to public safety and resulting from the disaster event; processing debris including sorting, grinding, mulching, and burning; and disposing of debris at designated sites within Polk County; establishing and operating temporary debris staging and processing sites; collecting and disposing of hazardous waste, biohazardous waste and dead animals.

GENERAL REQUIREMENTS

The Contractor(s) shall furnish all necessary personnel, materials, equipment, labor, supervision, facilities, and shall otherwise provide all services necessary for, or incidental to, the performance of all work as defined in these specifications.

It is the sole responsibility of the Contractor(s) to ensure that, should Subcontractor(s) be utilized by the Contractor for any portion of the work, these Subcontractor(s) shall meet or exceed the same requirements instituted for the Contractor pertaining to this contract.

The Contractor(s) shall notify the County within (24) twenty four hours of notice of any legal or regulatory actions, or any Notices of Violation taken against the Contractor(s) or Subcontractor(s) utilized within the scope of this contract.

Upon receipt of the Notice of Violation or Warning Notice or upon notification or request from the County, the Contractor shall immediately prepare their response or draft a County response to the notice and begin corrective action against any non-complying condition. Failure by the Contractor to take corrective action which is required by law or the Contract Documents shall result in the County taking whatever measures are necessary to correct the condition and deducting the cost of such corrective action from the Contractor's Operating Fee Payment. The Contractor will be responsible for any fines resulting from any violations of Federal, State, or local laws or regulations.

Permits and licenses of a temporary nature necessary for the completion of contracted Services shall be secured and paid for by the Contractor with the assistance of the County, unless otherwise stated in this RFP. The Contractor shall not be held responsible to secure permits and/or licenses when the requirements for same have been waived due to a declaration of an emergency or disaster.

Under the general oversight of the County, the Contractor will supervise and direct all work, workers, and equipment. The Contractor is solely responsible for the means, methods, techniques, sequences, safety program, and procedures utilized. The Contractor will employ and maintain on the work site a qualified and accessible supervisor(s) on the work site(s) and provide the County a liaison officer, as directed. At least one accessible and designated supervisor in the area of operation and the liaison officer shall have full authority to act on behalf of the Contractor and all communications given to the supervisor or liaison officer in writing by the County's Authorized Representative shall be as binding as if given to the Contractor.

The name(s) of the supervisor(s)\liaison officer will be supplied to the County for each issuance of an event Notice-To-Proceed. Additionally, a performance bond for the minimum amount of $1,000,000 will be required before the Notice-To-Proceed is issued. The actual amount will be determined at the time of the event, and an adjusted performance bond will need to be obtained for the estimated total amount. Please see (Attachments D & E)

The Contractor shall have the ability to guarantee operations and pay vendors and sub-contractor(s) for 60 days prior to receiving payments from the County.

Retainage in the amount of ten percent (10%) will be withheld until all work has been completed and has been approved by the County.

The Contractor shall participate in an annual on-sight pre-coordination meeting as directed by the County at no additional cost to the County.

The Contractor shall, to the extent practical, give priority to utilizing resources in Polk County and the surrounding area, including but not limited to procuring supplies and equipment, awarding subcontracts, and employing workers.

The Contractor shall make daily reports to the County to detail the progress of the debris removal and disposal program. Such reports shall include a description of all areas where work was done, detailing the street names, and address blocks where debris removal was completed. The reports must also include the types and volumes of debris transported, reduced, and disposed. The Contractor shall also provide other operational and complaint tracking reports as requested by the County.

The Contractor shall disclose future debris management contractual obligations and provide reasonable assurance that such obligations will not preclude the Contractor from meeting its obligations under the contract resulting from this RFP. Such disclosure shall be provided to the County within 30 days of entering into said contractual obligation.

The Contractor's response shall meet the following minimum standards:

- Following a notice to mobilize, the ability to provide an advance team to the County Emergency Operations Center prior to hurricane landfall;
- Ability to marshal/stage personnel and equipment for rapid deployment into the County while protecting those assets from damage/destruction from the event;
- Ability to be fully operational for clearing debris to open emergency routes within 24 hours of initial notice to proceed;
- Ability to be fully operational for hauling, sorting, and storing of debris within 48 hours of initial notice to proceed;
- Ability to be fully operational for the reduction and disposal of debris within 72 hours of initial notice to proceed;
- Ability to maintain full operational capability, 12 hours per day, 7 days per week for an extended period;
- Ability to rapidly adjust the flow of resources based on the extent and magnitude of damage/debris.

Additionally, the Contractor's response shall meet the following minimum standards:

- Ability to clear all debris from all County maintained street, road, and highway within 45 days from initial event notice to proceed (First Push);

- Ability to remove (haul) all debris from all County maintained street, road and highway rights of way within 90 days from initial event notice to proceed;
- Ability to complete the entire debris management process from initial clearance through final disposal within 180 days from initial event notice to proceed.
- Due to the nature of the emergency and circumstances that may inhibit compliance with the times specified above, a reasonable adjustment to the completion dates may be made by mutual agreement between the Contractor and the County.
- Fiscal capability to maintain operations for 60 days following the initial notice to proceed.

SCOPE OF SERVICES

It is the intent of this scope for the Contractor to remove, as quickly as possible, all hazards to life and property resulting from the occurrence of a catastrophic or disastrous event in the County. Clean up, demolition, and removal will be task order (notice-to-proceed) specific and limited to "Eligible Debris." The term "Eligible Debris" shall be defined by the County as (1) that debris which the County determines must be removed to eliminate immediate threats to life, public health, and safety; (2) that debris which the County determines must be removed to eliminate immediate threats of significant damage to improved public or private property; (3) that debris which the County determines must be removed to ensure economic recovery of the affected community, and; (4) as defined under Stafford Act, 44 CFR, PA Guide FEMA 322, Policy Digest FEMA 321, Debris Management Guide FEMA 325, FEMA Policy 9523.4.

Specifically, the Scope of Services will include the following items:

ELIGIBLE DEBRIS REMOVAL

1. Emergency Road Clearance

   The Contractor shall accomplish the cutting, tossing, and/or pushing of Eligible Debris from the primary transportation routes as identified by and directed by the County. This operational aspect of the scope of services shall be for the first 70 (plus or minus) hours after an event.

2. Eligible Debris Removal from Public Rights-of-Way

   As identified by and directed by the County, the Contractor shall accomplish the pick-up and hauling of all Eligible Debris to the designated Temporary Debris Staging and Reduction Sites (individually or collectively, the "TDSRS) from public rights-of-way, or private roads, and shall maintain debris work sites to appropriate use standards, safety standards, and regulatory requirements. The Contractor shall segregate all debris to the extent practical. Clean woody debris, and other natural materials that can

be chipped, mulched, burned, and disposed of in some other similar manner shall be collected and handled separately from other debris.

3. Demolition of Structures, Debris Removal from Private Property (Right-of Entry Program) and Publicly Owned Property (other than Rights-of-Way)

Should an imminent threat to life, safety, and health to the general public be present on private property or publicly owned property as referenced above, the Contractor as identified to and directed by the County, will accomplish the demolition of structures and the removal and relocation of the designated Eligible Debris to the public rights-of-way. This service shall commence upon receipt by the Contractor from the County the completed right of entry forms, hold harmless agreements, the non-duplication of benefits agreements, an address specific task order, and the physical marking of each structure by the County. This scope of service includes the demolition of structures and the transportation of residual debris to a TDSRS or final disposal site. All identified hazardous waste (to include any hazardous materials) shall be delivered directly to an approved DEP site and other environmental agencies. No hazardous waste shall be housed at any TDSRS. The County has determined that it is in the best interest of the health and safety of its citizens to limit the disposal of hazardous waste to the NCLP. The Contractor shall maintain all debris work sites to appropriate use standards, safety standards, and regulatory requirements.

4. Hazardous Stumps (Removal, Back-fill, Haul)

As identified and directed by the County, the Contractor shall remove all hazardous stumps, as identified by the County, haul each stump to a TDSRS, and backfill each stump hole with compatible material as determined by the County and the Contractor. Each stump shall be inspected by the County and Contractor inspectors and documented as to the appropriate category of size for invoicing. The size of stumps will be calculated by measuring the circumference of the stump at a point two (2) feet above the highest intersecting root from the root ball and then dividing by 3.14 to the 3rd digit, or other method approved by the County and FEMA.

Stumps will be removed if it is in the right-of-way and is 50% uprooted. If removal of the stump creates a hole, the Contractor will back fill the hole. All stumps will be photographed and located on GPS. Stumps removed from right-of-way will be billed out on a "per each" basis. Any stump brought to the curb by a landowner will be hauled and billed on a "per cubic yard" basis.

The removal of hazardous stumps 24 inches and smaller in diameter will be treated as normal debris and paid based on the FEMA stump Conversion Table (see Attachment "C" FEMA DAP9523.11)

All work performed under this section must adhere to requirements noted in 44 Code of Federal Regulations (CFR).

5. Leaning Trees / Hanging Limbs (Trimming, cutting, felling)

As directed by the County, the Contractor shall remove hazardous leaning trees and hanging limbs that pose a threat to life, public health, safety, and/or improved public property. Hazardous trees will be measured at 4.5 feet above the ground and hazardous hangers will be measured at the point of breakage. The removal of hazardous hangers will be compensated on a per tree rate and all hazardous hangers in a tree must be removed by the Contractor.

Each tree and limb shall then be placed in safest location along the right-of-way where the debris resulting from this scope of services shall be removed utilizing the scope of services Item 2: Debris Removal from Public Rights-of-Way or private roads.

6. Temporary Debris Staging and Reduction Sites (TDSRS)

Immediately after execution of the Disaster Debris Removal Services contract, the Contractor and the County will jointly develop a list of the alternative temporary sites for debris management. The parties shall annually thereafter review and confirm the acceptable locations stated on the resulting TDSRS list. The Contractor will be responsible for collecting and testing appropriate environmental samples prior to beginning operations at each TDSRS location. The Contractor will thoroughly video tape and/or photograph each TDSRS site before any debris management activities begin, and will thereafter periodically update video and photographic documentation to track site evolution.

The Contractor will operate and manage each TDSRS to accept and process all Eligible Debris. The Contractor shall be responsible for any land lease obligations that arise in relation to a TDSRS. The Contractor shall be responsible for any and all necessary site preparation, to include but not limited, to the following: any site work and materials necessary to build and maintain stabilized roads for ingress or egress, or any roads throughout the site; the construction of a roofed inspection tower sufficient for a minimum of three (3) inspectors; any environmental requirements including, but not be limited, to wind-born debris control fencing, silt fencing, or water retention berms; the construction of an area for an office trailer and parking; and any other items necessary for site operations and management. The Contractor shall provide and maintain portable and sanitary facilities and fresh water at each TDSRS Inspection Station.

All hazardous waste shall be delivered directly to a site approved by DEP and other environmental agencies. It shall be the contractor's responsibility to remove all hazardous waste and materials within 24 hours of delivery.

The inspection of every load, in and out, is further defined in the "Other Operational Considerations" section below. Processing may include, but is not limited, to reduction by tub grinding, incineration when approved, or other alternate methods of reduction such as compaction. Prior to reduction, all debris will be segregated between vegetative debris, construction and demolition debris (C&D), recyclable debris, white goods, and hazardous wastes. The Contractor shall be responsible for the transporting and removing of all materials not requiring landfilling. All debris requiring landfilling shall be transported to the designated landfill facility, unless otherwise directed by the County. The Contractor shall provide the necessary equipment at the landfill site or otherwise assist with any off-loading of debris.

All processing activities shall be conducted in compliance with all federal, state, and local rules and regulations. It shall be the responsibility of the Contractor to obtain and pay for all permits required to construct, operate, maintain, close, and reclaim the TDSRS debris-processing sites. The Contractor shall maintain each TDSRS site in accordance with all local, state, and federal rules and regulations including at a minimum, erosion control, stormwater management, and fire control, rodent and insect control, animal control in general, noise abatement, odor control, and other site management and site maintenance. The Contractor shall provide stabilized ingress and egress to each debris-processing site and shall maintain such access throughout the life of the site.

The Contractor shall not transport hazardous waste or any hazardous materials to a TDSRS or to any other sites that are not specifically authorized to accept such waste or materials. The Contractor shall be responsible for proper handling and storage of any hazardous waste or hazardous materials brought to the TDSRS. The Contractor shall designate a suitable area at each TDSRS to accommodate all hazardous waste or hazardous materials that the Contractor or a third party may inadvertently bring to a TDSRS. The designated area shall be lined with impervious material surrounded with berms or other containment structures to contain any potential leakage.

The Contractor shall conduct all required testing at the TDSRS, as required by Federal, State, and Local laws, standards, regulations, and operating permits. All guidelines in the latest edition of FEMA's Public Assistance Debris Management Guidelines shall be followed and complied with in the establishment, operation of, and closing of the TDSRS.

The Contractor shall ensure that TDSRS site reclamation shall be accomplished in accordance with all Federal, State, and Local laws, standards, and regulations. The Contractor shall restore the TDSRS to its pre-use condition which may require, among other matters removal of all remaining equipment and debris, grading the site to historical conditions, seeding and mulching of the exposed areas, and performing other work the County deems necessary to restore the site to such condition.

The Contractor's liability to the County for any environmental contamination of the TDSRS (to include adversely affected surrounding areas) shall remain in place after all TDSRS site reclamation services have been completed. The Contractor shall be liable and shall remain liable for any required clean up and necessary remediation of the TDSRS and adversely affected surrounding areas after the expiration or early termination of the Disaster Debris Removal Services contract with the County.

If it becomes necessary to have scales at the TDSRS, the Contractor's reasonable costs to obtain the required scales will be a reimbursable expense.

7. Disaster Event Generated Hazardous Wastes Abatement

The Contractor shall abate all hazardous waste (to include any hazardous materials) identified by the County in accordance with all applicable Federal, State, and Local laws, standards, and regulations to include, but not be limited to, 29 CFR 1910.120, 40 CFR 311, and 49 CFR 100-199.

8. Disaster Event Generated Biohazardous Wastes Abatement

The Contractor shall abate all biohazardous waste identified by the County in accordance with all applicable Federal, State, and Local laws, standards, and regulations.

9. Dead Animal Collection, Transportation, and Disposal

The Contractor shall collect, transport, and dispose of dead livestock, poultry, and large animals (deer, wild pigs, exotic species, etc.). Disposal will be accomplished in any permissible manner consistent with Federal, State, and County laws, rules, and regulations. The collection, transportation, and disposal of small domestic pets are the responsibility of the County.

10. Electronic Communications

The Contractor shall provide the County, in the event that normal communication (power, telephone, radio, cell phones, etc.) is unavailable, with SAT-COM (Satellite radio's, telephones, etc.) or a reliable electronic system of communication as follows:

1 (one) each with Contractor representative
1 (one) per crew
1 (one) at each disposal site

OTHER OPERATIONAL CONSIDERATIONS

1. Documentation and Inspections

All storm debris shall be subject to inspection by the County or any Public Authority in accordance with generally accepted standards to insure compliance with the contract and applicable local, state, and Federal laws. The Contractor will, at all times, provide the County access to all work sites and disposal areas. In addition, authorized representatives and agents of any participating Federal or state agency shall be permitted to inspect all work and materials. The Contractor and the County or County's Representative will each have personnel in place at each TDSRS to verify the contents (cubic yards or tons) of the vehicles entering the TDSRS. Records will be maintained via load tickets of every vehicle entering the TDSRS, its cubic yardage or tonnage and verification of the vehicle leaving the TDSRS to ensure that it is in fact empty. The Contractor and the County will monitor the material to determine that it in fact consists of Eligible Debris. The Contractor and the County will have personnel in place at the pick up site to verify the contents, location, date and time of the vehicles departing for the TDSRS. Prior to use, the Contractor and the County will establish and record the certified cubic yards capacity and will inspect each haul truck. The Contractor will include and provide disposal tickets, field inspection reports, and other data sufficient to provide substantiation for Federal (FEMA, etc.) and State reimbursement, if applicable. The Contractor will assist the County in preparation of Federal (FEMA, FHWA, etc.) and State reports for any potential reimbursement through the training of County employees and the review of documentation prior to submittal. The Contractor will work closely with the Florida Division of Emergency Management, FEMA, FHWA, the County's designated Debris Monitoring Contractor, and other applicable State and Federal Agencies to insure that eligible debris collection and data documenting same appropriately addresses concerns of the likely reimbursement agencies. The Contractor will be required to digitally GPS document each load received at each TDSRS or to be taken to a disposition site which will result in a claim for reimbursement or payment. The digital GPS documentation will be

performed to clearly show the transport vehicles identification number and the contents of the vehicle.

2. Priority of Work Areas

The County will establish in advance the priority of and shall approve each work area in which the Contractor will be allowed to work. Daily and/or weekly communication will be held to determine approved work areas. The Contractor shall remove all Eligible Debris from the approved work areas and shall leave the areas from which the Eligible Debris is removed in a clean and neat condition with the understanding that there will be certain debris that is not picked up by equipment, machinery, and general laborers used by the Contractor. Determination of when a work area is in a clean and neat condition will be at the reasonable judgment of the County.

3. Working Hours

All activity associated with gathering and loading of Eligible Debris shall be performed during visible daylight hours only. Hauling of Eligible Debris to a TDSRS will only be allowed during visible daylight hours between dawn and dusk. The Contractor may work during these hours seven (7) days per week including holidays. It is understood between the parties that at each TDSRS debris reduction may occur twenty-four (24) hours, seven (7) days per week if the Contractor deems it necessary and safe. Contractor shall be responsible for obtaining sites to stage equipment, such as trucks, while not in use.

4. Debris Disposal

The Contractor shall process, recycle, and dispose of all Eligible Debris, reduced Eligible Debris, ash residue, and other products of the debris management process in accordance with all applicable Federal, State, and local laws, standards, and regulations. Final disposition locations shall be at the discretion of the Contractor with prior acceptance by the County, except for those materials to be landfilled as determined by the County. Debris to be landfilled will be at the County's designated landfill facility or as directed by the County. The Contractor and County inspectors assigned to the disposition process shall maintain disposition and disposal records and documentation. Documentation shall be quantified in Cubic Yards, tons, or quantity. The Contractor must provide five part load tickets or approved electronic documentation.

5. White Goods

The Contractor may expect to encounter "white goods" available for disposal. For purposes of the contract "white goods" will be those goods

that constitute "household appliances" as defined in the Florida Administrative Code. The Contractor shall dispose of all white goods encountered in accordance with applicable Federal, State, and local laws.

Any white goods that may contain Freon, such as refrigerators, freezers, or air conditioners, shall have the Freon removed by the Contractor in accordance to applicable regulatory requirements. There is no additional payment made for handling of white goods, as this cost of work is included in the cubic yard unit price for debris removal.

6. Multiple Scheduled Passes

The Contractor shall make multiple scheduled passes of each site, location, or area impacted by the disaster. This manner of debris removal is required to allow citizens and the County to return to their properties and bring debris to the right-of–way as recovery progresses. The number and schedule of passes shall be determined through County/Contractor consultation. It is the County's intent that the Contractor will make as many passes as the County may direct to complete the removal and lawful disposal of all natural disaster generated Eligible Debris.

7. Certification of Load Carrying Capacity

The Contractor shall submit to the County certification indicating the type of vehicle, make, model, license plate number, Contractor equipment number, and measured maximum volume, in cubic yards, of the load bed of each piece of equipment utilized to haul debris. The measured volume of each piece of equipment shall be calculated from actual physical measurement performed by the County. The reported maximum volume of any load bed shall be the same as shown on the signs fixed to each piece of equipment. Vehicles shall be labeled with distinctive numbers for the County. Photo documentation will be required by the County.

All trucks and trailers utilized in hauling debris shall be provided with a tailgate that will permit the vehicle to be loaded to capacity and effectively contain the debris on the vehicle while hauling. Sideboards or other extensions to the bed are allowable provided they meet all applicable rules and regulations, cover the front and/or sides, and are constructed in a manner to withstand severe operating conditions. Once installed, all sideboards and extensions must remain in place throughout the operation, or the vehicle must be remeasured and remarked. All extensions to the bed are subject to acceptance or rejection by the County. The Contractor shall conform to the F.S. 316.520 which covers the tarping of loads. Damaged extensions are subject to immediate disqualification by authorized County personnel.

8. Traffic Control

The Contractor shall mitigate the impact of their operations on local traffic to the fullest extent practicable. The Contractor is responsible for establishing and maintaining appropriate traffic controls in all work areas, including each TDSRS. The Contractor shall provide sufficient signing, flagging, and barricading to ensure the safety of vehicular and pedestrian traffic in all work areas. All work shall be done in conformity with all Federal, State, and local laws, regulations, and ordinances governing personnel, equipment, and workplace.

9. Recycled Materials Documentation

The Contractor shall provide documentation for all items salvaged or recycled. Documentation shall include identification of material type, quantity, the location material is accepted for salvage or recycling, and the value of the salvaged or recycled material. Contractor shall provide the value of the salvaged or recycled material back to the County as a reimbursement or credit so that the County can provide the reimbursement or credit back to FEMA, as required by FEMA. Value of the material will be defined as the value of the material as paid to the Contractor by the entity accepting the material for salvage or recycling.

10. Emergency Operations Center (EOC)

The Contractor shall be required to provide current/up-to-date field condition information to the County's EOC.

11. Contractor Required Submittals and Tasks with Timeframes from Contract NTP if Pre-Event Awarded Contract

Contractor site visit of County TDSRS	30 Days
Aerial Markups of TDSRS with Site Layouts	60 Days
Load Tickets with Use Procedure	30 Days
Contractor's Load Ticket Accounting Software	30 Days
Contractor Debris Separation Requirements/Procedures	30 Days

12. Pricing

Pricing within resulting contract may be used by any of the public agencies located within Polk County

Tipping fees should not be included as part of the unit price. Traditionally, tipping fees are separated from the operating fees and charged to the municipality at cost.

AGREEMENT

The term of this agreement will be for five (5) years. The Actual term will be negotiated as part of Elevation Level 4, Contract Negotiations.

SUBMITTAL

Submittals should not contain information in excess of that requested, must be concise, and must specifically address the issues of this RFP. The responses should be in the same order as the selection and evaluation procedures. Proposals are to be printed double-sided. Unnecessarily elaborate brochures or other presentations beyond those sufficient to present a complete and effective submittal to this solicitation are not desired and may be construed as an indication of the proposer's lack of cost consciousness. Elaborate artwork, expensive visual aids, and other presentation aids are neither necessary nor desired, unless specifically requested. The proposal submittals should be contained within a three (3) ring binder (original and each copy in separate binders). Each submittal should contain:

Tab 1, Introduction:

- Introduction letter describing your firm, experience, number of years in business, contact name, company address, phone number and email address of contact person. (One page, single or double sided)
- Attachment A – Understanding terms, conditions, and pricing may be used by any public agencies located within Polk County.

Tab 2, Financial Reports (Not Part of Scoring Criteria)

Provide the following information.

1. Financial Statements
    a. Audited financial statements for the last five years
    b. Audited financial statements of the applicant's parent company, if applicable, for the past five years.

c. Audited financial statements of any and all co-applicants partners for the past five years.
d. Interim quarterly financial statements to date subsequent to the last financial audit.
e. Securities and Exchange Commission (SEC) Reports (if publicly held corporation)
    - The most current 10K report
    - The most current 10Q report
f. Companies not publicly held corporations
    - Annual financial report
    - Quarterly financial report

2. Ratios
    a. Income statement and balance sheet ratios which are standard to the bidders industries
3. Corporate Structure
    a. Description of ownership/legal structure of applicant
    b. Description of ownership/legal structure of co-applicants partners/etc.
    c. Description of ownership/legal structure of parent corporation, if any
    d. Organization chart of applicant as it relates to parent corporation, holding company, co-applicants, subsidiary corporations and/or affiliated companies
4. Credit:
    a. List of all lines of credit
    b. Status of all lines of credit
5. Cash Flow Projections
    a. Provide detailed projections and assumptions of cash flows showing project revenues, operating and capital expenditures through the life of the contract of the corporation providing the goods/services to Polk County
6. Litigation:
    a. List of litigation, past, pending and threatened to applicant and relevant associated corporate entities
    b. Actual and/or potential financial impact

c. Indicate whether applicant has ever filed bankruptcy and describe the circumstances.

7. Debt Information:
    a. Covenant tests required in conjunction with existing loan agreement/s
    b. Certification from the company's chief financial officer that, as of the date of such certification, no events of default have occurred or are continuing under the terms of the company's outstanding debt
8. Other:
    a. The period of performance is for a five year term. The successful bidder understands and agrees to provide to the County the above listed documents, statements and reports on an annual basis. These documents, statements and report shall be provided within 90 days following the end of the bidder's fiscal year. The County reserves the right to request interim quarterly financial reports.

9. Details/exceptions pertaining to the above:

    a. Financial Statements:
        - The audited financial statements should be performed by a reputable firm of independent certified public accountants.
        - In situations where audited financial statements are precluded, the applicant must provide:
        - Unaudited financial statements for the last 5 years
        - Federal Tax returns for the last 5 years
        - Unaudited interim quarterly financial statements subsequent to the last fiscal year's unaudited statements
        - For situations where the applicant corporate entity and/or related parent company, co-applicant, etc. is less than 5 years old, provide the 1.a, b, c for all years of existence.
        - Will be evaluated for profitability in three of the applicant's last five years and demonstration of positive trend for the future.

b. SEC Reports
   - Not applicable for applicants that are not public corporations

c. Ratios:
   - Applies to all applicants. Industry standard ratios, where available, will be the basis for comparison. In situations where industry standard ratios are not available, the County will use appropriate ratios applicable to the vendor's financial strength relative to the type of work to be performed for the County.

d. Corporate Structure:
   - Applies to all applicants, from sole proprietorship to subchapter S corporations to public corporations.

e. Credit:
   - Applies to all applicants

f. Cash Flow Projections:
   - Applies to all applicants

g. Litigation:
   - Applies to all applicants

h. Debt Information
   - Applies to all applicants

Respondents are required to submit the company's past five years of audited financial statements to demonstrate their current financial condition and stability. The audited financial reports shall be submitted in a **separate envelope** and must be marked in the left hand corner on the outside of the envelope as follows:

Financial Statements
Disaster Debris Removal Services
RFP No. 26-011
Opening Date: Wednesday, December 31, 2025
Name & Address of Respondent:

Telephone Number of Respondent:

Pursuant to Chapter 119.071(1)(c) Florida Statutes, FS, financial information will be exempt from examination by anyone other than legally authorized Selection Committee members and government staff. The County will maintain the confidentiality of such financial data to the extent allowed by law.

A condition of any contract entered into between the County and an awarded Contractor will be that the Contractor shall provide on an annual basis copies of the Contractor's audited financial statements to demonstrate the Contractor's financial stability. Failure to provide such audited financial statements on an annual basis may result in the contract being terminated.

Letter from Contractor's bonding company listing the contractor's bonding limits. Include letter in envelope with financial statements.

It will be at the sole discretion of the County whether any information disclosed pursuant to this Tab 2, or otherwise discovered during the RFP process, may result in the non-selection of the Proposer, regardless of their scoring.

Tab 3, Compensation Schedule (5 Points)

The Respondent shall complete the compensation schedule included as Attachment B. The Contractor is to include all costs that the Contractor may anticipate incurring during the performance of the disaster recovery work as outlined on Attachment B. For items not listed, the County will only pay the FEMA rates.

The hourly rates for labor may be increased by the Procurement Director after the contract has been in place for a minimum of 12-months, when it is in the best interest of the County. Increases will be determined by the appropriate price index as approved by the Procurement Director or Designee. No Board action will be necessary for labor rate increases.

Proposers shall declare that, to the best of their knowledge and experience with Federal and State reimbursement procedures and requirements, that all proposed costs and payment methods are reasonable and customary for the service listed.

Tab 4, Experience (30 Points)

- Describe the firm's experience with providing similar size and scope of work as outlined in this RFP. (One page, single or double sided)
- Provide a minimum of three (3) and a maximum of five (5) projects performed within the past five (5) years for which your firm performed debris removal services. At least two (2) of the projects shall be from a disaster recovery project performed for a public or governmental agency. At least three (3) of the projects shall be for disaster recovery project performed as the lead Contractor. At least two (2) of the projects shall be for projects in excess of 250,000 cubic yards. **(Limit response to two (2) page per project)**
    - For each project please provide:
        a. Name of disaster and location of the project;
        b. Size and cost of the project;
        c. Project representative name, address, phone number, and email address;
        d. Date project was completed or is anticipated to be completed; compare to the original date.
        e. Identify the key staff and their role in each project;
        f. Provide the original budget and the final budget of the project. Explain the reason(s) for differences, such as owner requested change, contractor claim, and insufficient plans and specifications.

g. A brief description of the project and what role your firm played in the project.
h. Identify if multiple temporary debris processing sites were established where collected debris was sorted, screened for sand, recycled, ground, mulched, burned, or otherwise segregated for transport and disposal.
i. Identify your firm's expertise and experience in assessing, removing, and disposing of specialty debris including hazardous materials, hazardous wastes, biohazardous wastes, dead animals, and hazardous stumps.
j. Identify your firm's expertise and experience in demolition of structures, and debris removal from private property (Right-of-Entry Programs) and publicly owned property (other than Rights-of-Way).

Tab 5, Resources and Availability (30 Points)

- Provide your firm's organizational structure.
- Provide a resume for the project manager and all key personnel that will be involved in providing the services as outlined in the scope of work. (1 page single or double sided for each resume)
- Demonstrate each key staff's availability to respond to the needs of the project (Two (2) pages maximum for all key staff members)
- Identify subcontractors or joint ventures to be used, if any. For each subcontractor or joint venture identified please provide:
    - A brief description of their experience outlining their qualifications to perform the intended services
    - A brief resume for each key personnel that will be assigned to perform the intended services.
- Identify types and quantities of recovery equipment. The Contractor must clearly identify if equipment is owned by the Contractor or if the equipment is available from other sources.

- The County expects personnel, Subcontractors and equipment identified in the proposal response to be available for work to complete services identified under

this solicitation. The County further expects that the identified equipment will be sufficiently maintained so as to be available to operate in a safe and reliable manner. The Contractor must provide an estimate of the current workload and future commitments to other emergency response contracts both in man-hours per year and as a percentage of total workload for all key project personnel. The Contractor must provide reasonable assurance that the identified personnel will be available to work on future projects. The Contractor must provide reasonable assurance that all equipment identified for disaster recovery will be available and are not contractually obligated to other projects (e.g. residential collection contracts, solid waste transfer contracts, or other disaster debris removal contracts.) The Contractor shall provide a list of all contractual obligations for similar disaster recovery services and provide reasonable assurance that such contracts will not interfere with or preclude the Contractor from responding to the County with the Contractor's full force of manpower and equipment. The Contractor shall disclosure future contractual obligations throughout the term of the contract and provides reasonable assurance that such obligations will not preclude the Contractor from meeting its obligations under this RFP.

- The Contractor must include a mobilization/operation plan that outlines the Contractor's mobilization/operation procedures following a disaster event. Any supplemental plans or operating procedures referenced in proposal must be submitted with your proposal. These additional supporting documents will not count towards the total page count. This outline should include a breakdown of the time required to perform each mobilization task including the time required to mobilize the Contractor's forces, time to establish an on-site emergency response and communication center, time to mobilize recovery equipment, time to establish Temporary Debris Storage and Reduction Sites (TDSRS), and the time required to mobilize Subcontractors. The mobilization/operation plan shall include a breakdown of the manpower and equipment that will be assembled during each phase of the Contractor's response. The response should show how you meet the following minimum standards:

- Following a notice to mobilize, the ability to provide an advance team to the County Emergency Operations Center prior to hurricane landfall;
- Ability to marshal/stage personnel and equipment for rapid deployment into the County while protecting those assets from damage/destruction from the event;
- Ability to be fully operational for clearing debris to open emergency routes within 24 hours of initial notice to proceed;
- Ability to be fully operational for hauling, sorting, and storing of debris within 48 hours of initial notice to proceed;
- Ability to be fully operational for the reduction and disposal of debris within 72 hours of initial notice to proceed;
- Ability to maintain full operational capability, 12 hours per day, 7 days per week for an extended period;
- Ability to rapidly adjust the flow of resources based on the extent and magnitude of damage/debris.

Additionally, the Contractor's response should show how you meet the following minimum standards:

- Ability to clear all debris from all County maintained street, road and highway within 45 days from initial notice to proceed;
- Ability to remove (haul) all debris from all county maintained street, road and highway rights of way within 90 days from initial notice to proceed;
- Ability to complete the entire debris management process from initial clearance through final disposal within 180 days from initial notice to proceed.
- Due to the nature of the emergency and circumstances that may inhibit compliance with the times specified above, a reasonable adjustment to the completion dates may be made by mutual agreement between the Contractor and the County.

- Fiscal capability to maintain operations for 60 days following the initial notice to proceed.

The operation plan for the TDSRS shall describe the operations expected – materials handling, reduction, storage, recycling operations, equipment maintenance, etc. The Contractor shall include provisions for air curtain burning.

A description of the on-site emergency response and communication center must be provided including the type of communication employed by the Contractor and the Contractor's ability to interface with the County's emergency response equipment.

A comprehensive equipment list and man-hour listing must be included in this section.

Tab 6, Project Management (30 Points)

The Contractor should describe the organizational structure, Contractor assigned liaison officer, plans to meet with the County at the location and times specified, and "chain of command" of the Contractor's response team and the project management methods that are most appropriate to perform the contract services outlined in Section V. The discussion should include: methods for communicating with team members and County staff, protocols for team work assignments, data management and project tracking methodologies and capabilities, schedule controls, and any other appropriate management considerations. The Contractor should also discuss the Contractor's staffing and ability to supervise multiple clean-up crews and subcontractors. This discussion should include the Contractor's project management methods that ensure the quality of the work being performed by the Contractor's crews and subcontractors.

Contractor shall provide a comprehensive description of their proposed quality control plan. The description shall include, as a minimum, the Contractor's quality control organization and its authority, the Contractor's overview of the tasks to be inspected, reports and methods of inspections

Tab 7, Surveys of Past Performance (5 Points)

- Provide reference surveys from past clients for the projects identified under Tab 4.
- Completed surveys. (See Exhibit 1) Procurement will take the average of all surveys and score as follows:
    - Average Score between 9-10 (10 Points)
    - Average Score between 7-8 (8 Points)
    - Average Score between 5-6 (6 Points)
    - Average Score between 3-4 (4 Points)
    - Average Score between 1-2 (2 Points)
    - Average Score of 0 (0 Points)

EVALUATION CRITERIA AND SELECTION PROCESS

Proposals will be evaluated in accordance with this section and all applicable County procurement policies and procedures.

The County shall appoint a selection committee (the "Selection Committee") that will be responsible for evaluating and scoring/ranking the Proposals in accordance with this Section.

The County will use a competitive selection process based on the Elevation Levels described in this Section. At Elevation Levels 2 and 3, the Selection Committee will score and/or rank the Proposals as applicable.

Selection of a final Proposal will be based upon the following steps and factors:

Elevation Level 1 (Procurement Requirements Assessment)

The County Procurement Division shall review all Proposals for conformance with RFP guidelines and detailed submittal requirements. At the County's discretion, non-conforming Proposals may be eliminated from further consideration and conforming Proposals shall be elevated to Elevation Level 2.

Procurement will distribute Proposals and evaluation criteria to the Selection Committee.

The Selection Committee may convene to review questions that arise during individual member review of submitted Proposals before Elevation Level 2 to allow for questions, clarifications, explanations, or other discussion to be held before the review of Proposals is completed.

Elevation Level 2 (Selection Committee Evaluation)

Procurement shall score each Proposal on the following evaluation criteria:

- Compensation Schedule (Tab 3)-5 Points
- Surveys of Past Performance (Tab 7)-5 Points

  Subtotal Points-10 Points

by the process stated under each corresponding Tab description

Each Selection Committee member shall score each Proposal on the following evaluation criteria:

- Experience (Tap 4)-30 points
- Resources and Availability (Tab 5)-30 points
- Project Management (Tab 6)-30 points

  Subtotal Points-90 points

by the following process:

Each Selection Committee member shall determine which of the following descriptions applies to each of the foregoing evaluation criteria:

EXCELLENT (1.0): Of the highest or finest quality; exceptional; superior; superb; exquisite; peerless. The Proposer provided information for a given criteria that satisfied the requirements and described specifically how and what will be accomplished in such a manner that exhibited an exceptional and superior degree of understanding, skill, and competency, both qualitatively and quantitatively. The facts included in the narrative (including all supporting documentation, diagrams, drawings, charts, and schedules, etc.) demonstrate the Proposer's ability to perform and deliver far beyond expectation.

VERY GOOD (0.8): To a high degree; better than or above competent and/or skillful. The Proposer provided information for a given criteria that satisfied the requirements and described specifically how and what will be accomplished in such a manner that exhibited a very high degree of understanding, skill, and competency, both qualitatively and quantitatively. The facts included in the narrative (including all supporting

documentation, diagrams, drawings, charts, and schedules, etc.) demonstrate the Proposer's ability to perform and deliver beyond expectation.

GOOD (0.6): Having positive or desirable qualities; competent; skilled; above average. The Proposer provided information for a given criteria that satisfied the requirements and described specifically how and what will be accomplished in such a manner that exhibited a skillful and above-average degree of understanding, skill, and competency, both qualitatively and quantitatively. The facts included in the narrative (including all supporting documentation, diagrams, drawings, charts, and schedules, etc.) demonstrate the Proposer's ability to perform and deliver at the expected level.

FAIR (0.4): Average; moderate; mediocre; adequate; sufficient; satisfactory; standard. The Proposer provided information for a given criteria that satisfied the requirements and described sufficiently how and what will be accomplished in a manner that exhibited an adequate and average degree of understanding, skill, and competency, both qualitatively and quantitatively. The facts included in the narrative (including all supporting documentation, diagrams, drawings, charts, and schedules, etc.) demonstrate the Proposer's ability to perform and deliver at a level slightly below expectation.

POOR (0.2): Inadequate; lacking; inferior in quality; of little or less merit; substandard; marginal.

The Proposer provided information for a given criteria that did not satisfy the requirements and described in an inadequate manner how and what will be accomplished. The information provided simply reiterated a requirement, contained inaccurate statements or references, lacked adequate information, or was of inferior quality. The facts included in the narrative (including all supporting documentation, diagrams, drawings, charts, and schedules, etc.) demonstrate the Proposer's ability to perform and deliver at a substandard and inferior level.

UNACCEPTABLE (0.0):

The Proposer failed to provide any information for a given criteria, provided information that could not be understood, or did not provide the information for a given category as requested.

After a Selection Committee member has determined the description applicable for each evaluation criterion, the total points available for such criterion shall be multiplied by the factor associated with the applicable description to produce the number of points allocated for that evaluation criterion. For example, a Selection Committee member classifies the "Experience and Expertise" criterion (which shall be worth 25 points for the purpose of this example) as "Very Good" (which is a description factor multiplier of 0.8). The points that Selection Committee member allocated for that evaluation criterion would be 20, calculated as follows: 25 available points x 0.8 applicable description factor multiplier = 20 points.

A Selection Committee member's total score for each Proposal shall equal the sum of the total points allocated for each evaluation criteria.

When all Selection Committee members have completed their Proposal evaluations, the individual Selection Committee member's total scores for each Proposal will be added together to produce a final score for each Proposal.

Procurement will confirm the calculations for the final score for each Proposal. Then, Procurement shall publish a rank-ordered listing of the Proposals to the Selection Committee with the Proposal receiving the highest point as the highest-ranked Proposal.

If the Selection Committee decides to interview Proposers based on the final scores, then at a minimum the Selection Committee shall elevate the two highest-ranked Proposers to Elevation Level 3 for interviews. If the Selection Committee decides not to interview Proposers, they will collectively decide if they would like to recommend the Board, or if applicable the County Manager authorize staff to enter into Contract Negotiations with all Proposers, starting with the highest scoring Proposer. After Board or County Manager approval, as applicable, to authorize staff to negotiate a contract, the Proposers will then be elevated to Elevation Level 4 for contract negotiations.

The determination of whether the County Manager may authorize negotiations, without further approval of the Board, is contingent upon whether the anticipated cost of the agreement exceeds $100,000. The County Manager may authorize contract negotiations for contracts which are not anticipated to exceed $100,000 in total.

Elevation Level 3 (Proposer Interviews)

The Selection Committee shall conduct interviews of the Proposers that it has elevated from Elevation Level 2 to Elevation Level 3. During an interview, elevated Proposers shall make a presentation describing the key elements of their Proposal and/or address any specific topics the Selection Committee may determine necessary. The Selection Committee members will have an opportunity to inquire about any aspect of the RFP and the Proposer's Proposal. After all elevated Proposer interviews, each Selection Committee member shall evaluate each Proposer with emphasis on the following:

Proposer interview and presentation focusing on the key elements of their presentation and answers to questions of the Selection Committee.

After the interviews, each Selection Committee member will individually rank the Proposers in numerical order beginning at number 1 for the highest-ranked Proposer. Procurement shall receive and compile each Selection Committee member's ranking of each Proposer, and then publish a rank-ordered listing of Proposers to the Selection Committee, based on the combined average rankings given each Proposer. The Selection Committee members will then collectively decide if they would like to recommend the Board, or if applicable the County manager, authorize staff to enter into Contract Negotiations with all Proposers elevated to Proposer Interviews, starting with the highest-ranked Proposer. After Board or County Manager approval, as applicable, to authorize staff to negotiate a contract, the highest-ranked Proposer will then be elevated to Elevation Level 4, Contract Negotiations.

The determination of whether the County Manager may authorize negotiations, without further approval of the Board, is contingent upon whether the anticipated cost of the agreement exceeds $100,000. The County Manager may authorize contract negotiations for contracts which are not anticipated to exceed $100,000 in total.

Elevation Level 4 (Contract Negotiations)

If a Proposer is elevated to this level, the User division, with the assistance of the Procurement and the County Attorney's Office, shall negotiate an Agreement with the elevated Proposer.

If after negotiating for a reasonable time period the parties cannot agree on a contract, the County shall, in its sole discretion, terminate further contract negotiations with that Proposer. Procurement shall notify the Selection Committee that contract negotiations with the elevated Proposer have terminated. The Selection Committee shall then determine whether to enter into contract negotiations with the next-highest-ranked Proposer, and so on. If the Selection Committee decides not to recommend contract negotiations with the next-highest-ranked Proposer, and so on, or if the County determines there is no other Proposer with whom the County can successfully negotiate a contract, then the RFP Selection Process shall terminate.

After contract negotiations with a Proposer are successfully completed pursuant to Elevation Level 4, the Selection Committee shall recommend to the Board of County Commissioners or County Manager, as applicable, that it selects such Proposer to provide the services as outlined in the Agreement. The Board of County Commissioners or County Manager, as applicable, shall make the final decision whether the County shall enter into an Agreement with a Proposer.

The determination of whether the County Manager may execute a contract, without further Board approval, is contingent upon whether the cost of the agreement exceeds $100,000. The County Manager may execute contracts that do not exceed $100,000 in total.

GENERAL CONDITIONS

BID OPENING

Proposers may attend the Bid Opening in person or via conference call by dialing (646) 558-8656 and enter Meeting ID: 327 647 2818. A listing of all proposers will be posted to Procurement's website as soon as possible after bid opening.

COMMUNICATIONS

After the issuance of any Request for Proposal, prospective proposers shall not contact, communicate with or discuss any matter relating in any way to the Request for Proposal with the Board of County Commissioners, the County Manager, or any employee of Polk County other than the Procurement Director or as directed in the cover page of the Request for Proposal. This prohibition begins with the issuance of any Request for Proposal and ends upon execution of the final contract. Such communications initiated by a proposer shall be grounds for disqualifying the offending proposer from consideration for award of the proposal and/or any future proposal.

INSURANCE REQUIREMENTS

The selected firm, if any, shall maintain, at all times, the following minimum levels of insurance and; shall, without in any way altering their liability, obtain, pay for and maintain insurance for the coverages and amounts of coverage not less than those set forth below. Provide to the County original Certificates of Insurance satisfactory to the County to evidence such coverage before any work commences. Polk County, a political subdivision of the State of Florida, shall be an additional named insured on all policies related to the project; excluding workers' compensation and professional liability. The Workers' Compensation and General Liability policies shall contain a waiver of subrogation in favor of Polk County. All insurance coverage shall be written with a company having an A.M. Best Rating of at least the "A" category and size category of VIII. The firm's deductible per line of coverage shall not exceed $25,000 without the permission of the County. Policies that include Self Insured Retention will not be accepted. In the event of any failure by the firm to comply with the provisions; the County may, at its option, on notice to the firm suspend the project for cause until there is full compliance. Alternatively, the County may purchase such insurance at the firm's expense, provided that the County shall have no obligation to do so and if the County shall do so, the firm shall not be relieved of or excused from the obligation to obtain and maintain such insurance amounts and coverages.

Workers' Compensation and Employer's Liability Insurance providing statutory benefits, including those that may be required by any applicable federal statute:

Admitted in Florida	Yes

Employer's Liability	$1,000,000
All States Endorsement	Statutory
Voluntary Compensation	Statutory

Commercial General Liability Insurance. $4,000,000 combined single limit of liability for bodily injuries, death, and property damage, and personal injury resulting from any one occurrence, including the following coverages:

Premises and Operations and Products/Completed Operations;

Broad Form Commercial General Liability Endorsement to include blanket contractual liability (specifically covering, but not limited to, the contractual obligations assumed by the Firm); Personal Injury (with employment and contractual exclusions deleted) and Broad Form Property Damage coverages;

Independent Contractors; Delete Exclusion relative to Collapse, Explosion and Underground Property Damage Hazards; Policy must include Separation of Insureds Clause.

Comprehensive Automobile Liability Insurance. $2,000,000 combined single limit of liability for bodily injuries, death, and property damage, and personal injury resulting from any one occurrence, including all owned, hired and non-owned vehicles.

Pollution Liability Insurance. $1,000,000 including pollution due to automobile operations.

INDEMNIFICATION

Contractor, to the extent permitted by law, shall indemnify, defend (by counsel reasonably acceptable to County), protect and hold the County, and its officers, employees and agents, harmless from and against any and all, claims, actions, causes of action, liabilities, penalties, forfeitures, damages, losses, and expenses whatsoever (including, without limitation, attorneys' fees, costs, and expenses incurred during negotiation, through litigation and all appeals therefrom) including, without limitation, those pertaining to the death of or injury to any person, or damage to any property, arising out of or resulting from (i) the failure of Contractor to comply with applicable laws, rules or regulations, (ii) the breach by Contractor of its obligations under any Agreement with the County entered into pursuant to this solicitation, (iii) any claim for trademark, patent, or copyright infringement arising out of the scope of Contractor's performance or nonperformance of the Agreement, or (iv) the negligent acts, errors or omissions, or intentional or willful misconduct, of Contractor, its professional associates,

subcontractors, agents, and employees; provided, however, that Contractor shall not be obligated to defend or indemnify the County with respect to any such claims or damages arising out of the County's sole negligence. The obligations imposed by this Section shall survive the expiration or earlier termination of the Agreement.

PUBLIC ENTITY CRIMES STATEMENT

The Contractor declares and warrants that neither the Contractor nor any of the Contractor's affiliates, as that term is defined in Section 287.133, Florida Statutes, are subject to the restrictions in Section 287.133, Florida Statutes, regarding the commission of a public entity crime. If during the term of this Agreement, the Contractor or any affiliate is convicted of a public entity crime or is otherwise prohibited from performing work for or transacting business with the County pursuant to Section 287.133, Florida Statutes, then the Contractor shall be in material default of this Agreement, and in such case, the County shall have the rights and remedies as provided herein.

EQUAL OPPORTUNITY/AFFIRMATIVE ACTION

The County is an equal opportunity/affirmative action employer. The County is committed to equal opportunity employment effort; and expects Contractors that do business with the County to have a vigorous affirmative action program.

WOMEN/MINORITY BUSINESS ENTERPRISE OUTREACH

The County hereby notifies all Proposers that W/MBE's are to be afforded a full opportunity to participate in any request for proposal by the County and will not be subject to discrimination on the basis of race, color, sex or national origin.

AFFIRMATION

By submitting their proposal, the Proposer affirms that the proposal is genuine and not made in the interest of or on behalf of any undisclosed person, Contractor or corporation and is not submitted in conformity with any agreement or rules of any group, association, organization or corporation; the Proposer has not directly or indirectly induced or solicited any other person to submit a false or sham proposal; the Proposer has not solicited or induced any person, Contractor or corporation to refrain from

submitting a proposal; and the Proposer has not sought by collusion to obtain for him/herself any advantage over other persons or over the County.

DEVELOPMENT COSTS

Neither the County nor its representative(s) shall be liable for any expenses incurred in connection with preparation of a submittal to the RFP. Proposers should prepare their proposals simply and economically, providing a straightforward and concise description of the proposer's ability to meet the requirements of the RFP.

ADDENDA

The County may record its responses to inquiries and any supplemental instructions in the form of written addenda. The addenda will be posted on the County's website at https://www.polk-county.net/business/procurement/. It is the sole responsibility of the proposers to check the website to ensure that all available information has been received prior to submitting a proposal.

CODE OF ETHICS

If any proposer violates or is a party to a violation of the code of ethics of Polk County or the State of Florida, with respect to this proposal, such proposer may be disqualified from performing the work described in this proposal or from furnishing the goods or services for which the proposal is submitted and shall be further disqualified from bidding on any future proposals for work, goods, or services for the County.

DRUG FREE WORKPLACE

Preference shall be given to businesses with Drug Free Workplace (DFW) programs. Whenever two or more proposals, which are equal with respect to price, quality and service, are received by the County for the procurement of commodities or contractual services, a proposal received from a business that has provided a statement that it is a DFW shall be given preference in the award process.

APPLICABLE LAWS AND COURTS

This RFP and any resulting agreements shall be governed in all respects by the laws of the State of Florida and any litigation with respect thereto shall be brought only in the courts of Polk County, State of Florida or the Middle District of Florida, Hillsborough

County, Florida. The proposer shall comply with all applicable federal, state and local laws and regulations.

CONTRACT

All contracts are subject to final approval of the Polk County Board of County Commissioners or County Manager, as applicable. Persons or Contractors which incur expenses or change position in anticipation of a contract prior to the Board's approval do so at their own risk.

PROPOSAL ACCEPTANCE PERIOD

A proposal shall be binding upon the offeror and irrevocable by it for one hundred and twenty (120) calendar days following the proposal opening date. Any proposal in which offeror shortens the acceptance period may be rejected.

ADDITION/DELETION

The County reserves the right to add to or delete any item from this proposal or resulting agreements when deemed to be in the best interest of the County.

INVOICING AND PAYMENT: The successful proposer shall submit a properly certified invoice to the County at the contract prices**. An original invoice shall be submitted to the appropriate User Division.** The proposer shall include the contract number and/or the purchase order number on all invoices. By submitting an invoice, the proposer's Project Manager or any authorized officer is attesting to the correctness and accuracy of all charges. Invoices will be processed for payment when approved by the appropriate Division's Project Manager or designee. The County's payment of an invoice shall not constitute evidence of the County's acceptance of the Proposers performance of the Service or the County's acceptance of any work.

PROPRIETARY INFORMATION

In accordance with Chapter 119 of the Florida Statutes (Public Records Law) and except as may be provided by other applicable State and Federal Law, all proposers should be aware that Request for Proposals and the submittals thereto are in the public domain. However, the proposers are required to identify specifically any information contained in their proposals which they consider confidential and/or proprietary and which they believe to be exempt from disclosure, citing specifically the applicable

exempting law. Proposers should provide a redacted copy of proposal with submittal, or must provide within thirty (30) days from the Proposal due date.

All proposals received from proposers in response to this Request for Proposal will become the property of the County and will not be returned to the proposers. In the event of contract award, all documentation produced as part of the contract will become the exclusive property of the County.

REVIEW OF PROPOSAL FILES

In accordance with Chapter 119.071 of the Florida Statutes, the submittals received for this Request for Proposal are exempt from review for thirty (30) days after the Bid Opening Date or at Recommendation of Award, whichever event occurs first.

Should the RFP be cancelled and re-solicited for any reason, proposal submittals shall remain exempt from disclosure for a period not to exceed twelve (12) months or at Recommendation of Award of the subsequent solicitation.

RFP PROTEST: Any proposer desiring to file a protest, with respect to a recommended award of any RFP, shall do so by filing a written protest. The written protest must be in the possession of the Procurement Division within three (3) working days of the Notice of Recommended Award mailing date. All proposers who submitted a proposal will be sent a Notice of Recommended Award, unless only one proposal was received.

A copy of the protest procedures may be obtained from the Polk County Procurement Division or can be downloaded from the County's website at https://www.polk-county.net/business/procurement/protest-procedures/.

FAILURE TO FOLLOW PROTEST PROCEDURE REQUIREMENTS WITHIN THE TIME FRAMES PRESCRIBED HEREIN AS ESTABLISHED BY POLK COUNTY, FLORIDA, SHALL CONSTITUTE A WAIVER OF THE PROPOSER'S RIGHT TO PROTEST AND ANY RESULTING CLAIM.

UNAUTHORIZED ALIEN(S)

The vendor agrees that unauthorized aliens shall not be employed nor utilized in the performance of the requirements of this solicitation. The County shall consider the employment or utilization of unauthorized aliens a violation of Section 274A(e) of the

Immigration and Naturalization Act (8 U.S.C. 1324a). Such violation shall be cause for unilateral termination of this Agreement by the County. As part of the response to this solicitation, the successful Contractor will complete and submit the attached form "AFFIDAVIT CERTIFICATION IMMIGRATION LAWS."

EMPLOYMENT ELIGIBILITY VERIFICATION (E-Verify)

A. Unless otherwise defined herein, terms used in this Section which are defined in Section 448.095, Florida Statutes, as may be amended from time to time, shall have the meaning ascribed in said statute.

B. Pursuant to Section 448.095(5), Florida Statutes, the contractor hereto, and any subcontractor thereof, must register with and use the E-Verify system to verify the work authorization status of all new employees of the contractor or subcontractor. The contractor acknowledges and agrees that (i) the County and the contractor may not enter into this Agreement, and the contractor may not enter into any subcontracts hereunder, unless each party to this Agreement, and each party to any subcontracts hereunder, registers with and uses the E-Verify system; and (ii) use of the U.S. Department of Homeland Security's E-Verify System and compliance with all other terms of this Certification and Section 448.095, Fla. Stat., is an express condition of this Agreement, and the County may treat a failure to comply as a material breach of this Agreement.

C. By entering into this Agreement, the contractor becomes obligated to comply with the provisions of Section 448.095, Fla. Stat., "Employment Eligibility," as amended from time to time. This includes but is not limited to utilization of the E-Verify System to verify the work authorization status of all newly hired employees, and requiring all subcontractors to provide an affidavit attesting that the subcontractor does not employ, contract with, or subcontract with, an unauthorized alien. The contractor shall maintain a copy of such affidavit for the duration of this Agreement. Failure to comply will lead to termination of this Agreement, or if a subcontractor knowingly violates the statute or Section 448.09(1), Fla. Stat., the subcontract must be terminated immediately. If this Agreement is terminated pursuant to Section 448.095, Fla. Stat., such termination is not a breach of contract and may not be considered as such. Any challenge to termination under this provision must be filed in the Tenth Judicial Circuit Court of Florida no later than 20 calendar days after the date of termination. If this Agreement is terminated for a violation of Section 448.095, Fla. Stat., by the contractor, the contractor may not be awarded a public contract for a period of 1 year after the date of termination. The contractor shall be liable for any additional costs incurred by the County as a result of the termination of this Agreement. Nothing in this Section shall be construed to allow intentional discrimination of any class protected by law.

LIMITATIONS

The County reserves the right to revise, amend or withdraw this proposal at any time to protect its interest. Proposers will not be compensated by the County for costs incurred in preparation of responses to this RFP.

ATTORNEY'S FEES AND COSTS: Each party shall be responsible for its own legal and attorney's fees, costs and expenses incurred in connection with any dispute or any litigation arising out of, or relating to this Agreement, including attorney's fees, costs and expenses incurred for any appellate or bankruptcy proceedings.

Prohibition Against Considering Vendor Interests: In accordance with Section 287.05701, Florida Statutes, the County may not (i) request documentation of or consider a Vendor's social, political, or ideological interests when determining if the Vendor is a responsible vendor; or (ii) give preference to a Vendor based on the Vendor's social, political, or ideological interests.

PUBLIC RECORD LAWS

(a)The Contractor acknowledges the County's obligations under Article I, Section 24, of the Florida Constitution and under Chapter 119, Florida Statutes, to release public records to members of the public upon request and comply in the handling of the materials created under this Agreement. The Contractor further acknowledges that the constitutional and statutory provisions control over the terms of this Agreement. In association with its performance pursuant to this Agreement, the Contractor shall not release or otherwise disclose the content of any documents or information that is specifically exempt from disclosure pursuant to all applicable laws.

(b) Without in any manner limiting the generality of the foregoing, to the extent applicable, the Contractor acknowledges its obligations to comply with Section 119.0701, Florida Statutes, with regard to public records, and shall:

(1) keep and maintain public records required by the County to perform the services required under this Agreement;

(2) upon request from the County's Custodian of Public Records or his/her designee, provide the County with a copy of the requested records or allow the records to be inspected or copied within a reasonable time at a cost that does not exceed the cost provided in Chapter 119, Florida Statutes, or as otherwise provided by law;

(3) ensure that public records that are exempt or confidential and exempt from public records disclosure requirements are not disclosed except as authorized by law for the duration of the term of this Agreement and following completion of this Agreement if the Contractor does not transfer the records to the County; and

(4) upon completion of this Agreement, transfer, at no cost, to the County all public records in possession of the Contractor or keep and maintain public records required by the County to perform the service. If the Contractor transfers all public records to the County upon completion of this Agreement, the Contractor shall destroy any duplicate public records that are exempt or confidential and exempt from public records disclosure requirements. If the Contractor keeps and maintains public records upon completion of this Agreement, the Contractor shall meet all applicable

requirements for retaining public records. All records stored electronically must be provided to the County, upon request from the County's Custodian of Public Records, in a format that is compatible with the information technology systems of the County.

(c) **IF THE CONTRACTOR HAS QUESTIONS REGARDING THE APPLICATION OF CHAPTER 119, FLORIDA STATUTES, TO THE CONTRACTOR'S DUTY TO PROVIDE PUBLIC RECORDS RELATING TO THIS AGREEMENT, CONTACT THE COUNTY'S CUSTODIAN OF PUBLIC RECORDS AT:**

RECORDS MANAGEMENT LIAISON OFFICER
POLK COUNTY
330 WEST CHURCH ST
BARTOW, FL 33830
TELEPHONE: (863) 534-7670
EMAIL: RMLO@POLK-COUNTY.NET

Scrutinized Companies and Business Operations Certification; Termination.

A. Certification(s)

(I) By its execution of this Agreement, the Vendor hereby certifies to the County that the Vendor is not on the Scrutinized Companies that Boycott Israel List, created pursuant to Section 215.4725, Florida Statutes, nor is the Vendor engaged in a boycott of Israel, nor was the Vendor on such List or engaged in such a boycott at the time it submitted its bid, proposal, quote, or other form of offer, as applicable, to the County with respect to this Agreement.

(II) Additionally, if the value of the goods or services acquired under this Agreement are greater than or equal to One Million Dollars ($1,000,000), then the Vendor further certifies to the County as follows:

(a) the Vendor is not on the Scrutinized Companies with Activities in Sudan List, created pursuant to Section 215.473, Florida Statutes; and
(b) the Vendor is not on the Scrutinized Companies with Activities in the Iran Petroleum Energy Sector List, created pursuant to Section 215.473, Florida Statutes; and
(c) the Vendor is not engaged in business operations (as that term is defined in Florida Statutes, Section 287.135) in Cuba or Syria; and
(d) the Vendor was not on any of the Lists referenced in this subsection A(ii), nor engaged in business operations in Cuba or Syria when it submitted its proposal to the County concerning the subject of this Agreement.

(iii) The Vendor hereby acknowledges that it is fully aware of the penalties that may be imposed upon the Vendor for submitting a false certification to the County regarding the foregoing matters.

B. Termination. In addition to any other termination rights stated herein, the County may immediately terminate this Agreement upon the occurrence of any of the following events:

(i) The Vendor is found to have submitted a false certification to the County with respect to any of the matters set forth in subsection A(i) above, or the Vendor is found to have been placed on the Scrutinized Companies that Boycott Israel List or is engaged in a boycott of Israel.

(ii) The Vendor is found to have submitted a false certification to the County with respect to any of the matters set forth in subsection A(ii) above, or the Vendor is found to have been placed on the Scrutinized Companies with Activities in Sudan List, or the Scrutinized Companies with Activities in the Iran Petroleum Energy Sector List, or has been engaged in business operations in Cuba or Syria, and the value of the goods or services acquired under this Agreement are greater than or equal to One Million Dollars ($1,000,000).

SUPPLEMENTAL CONDITIONS

Breach During Emergency Recovery Period. Pursuant to §252.505, Fla. Stat, in the event this Agreement concerns goods or services related to a natural emergency, Vendor agrees that if Vendor breaches this Agreement during the Emergency Recovery Period, then the County shall be entitled to (a) a payment of $5000, and (b) recovery of damages, which may take the form of actual and consequential damages or liquidated damages. The term "Emergency Recovery Period" means a one-year period that begins on the date the Governor of Florida initially declared a state of emergency for a natural emergency. This provision shall survive the termination of this Agreement.

FEDERAL CLAUSES

The County may seek funding reimbursement for all or a portion of the services provided under this Agreement from FEMA Public Assistance. In accordance with the federal procurement standards at 2 C.F.R. sections 200.317 through 200.327 the following clauses are incorporated in this bid, any resulting award with the prime Vendor, and any resulting contracts between the prime Vendor and sub-contractors and material suppliers. The following conditions are supplemental to the General Terms and Conditions. Where there is conflict, these Supplemental Conditions prevail unless the General Terms and Conditions are stricter.

Equal Employment Opportunity. (Only applicable to construction bids)

During the performance of this Contract, the Contractor agrees as follows:

(1) The Contractor will not discriminate against any employee or applicant for employment because of race, color, religion, sex, or national origin. The contractor will take affirmative action to ensure that applicants are employed, and that employees are treated during employment without regard to their race, color, religion, sex, or national origin. Such action shall include, but not be limited to the following: Employment, upgrading, demotion, or transfer; recruitment or recruitment advertising; layoff or termination; rates of pay or other forms of compensation; and selection for training, including apprenticeship. The contractor agrees to post in conspicuous places, available

to employees and applicants for employment, notices to be provided setting forth the provisions of this nondiscrimination clause.

(2) The Contractor will, in all solicitations or advertisements for employees placed by or on behalf of the contractor, state that all qualified applicants will receive considerations for employment without regard to race, color, religion, sex, or national origin.

(3) The Contractor will send to each labor union or representative of workers with which he has a collective bargaining agreement or other contract or understanding, a notice to be provided advising the said labor union or workers' representatives of the Contractor's commitments under this section and shall post copies of the notice in conspicuous places available to employees and applicants for employment.

(4) The contractor will comply with all provisions of Executive Order 11246 of September 24, 1965, and of the rules, regulations, and relevant orders of the Secretary of Labor.

(5) The Contractor will furnish all information and reports required by Executive Order 11246 of September 24, 1965, and by rules, regulations, and orders of the Secretary of Labor, or pursuant thereto, and will permit access to his books, records, and accounts by the administering agency and the Secretary of Labor for purposes of investigation to ascertain compliance with such rules, regulations, and orders.

(6) In the event of the Contractor's noncompliance with the nondiscrimination clauses of this contract/Purchase Order or with any of the said rules, regulations, or orders, this contract/Purchase Order may be canceled, terminated, or suspended in whole or in part and the contractor may be declared ineligible for further Government contracts or federally assisted construction contracts in accordance with procedures authorized in Executive Order 11246 of September 24, 1965, and such other sanctions as may be imposed and remedies invoked as provided in Executive Order 11246 of September 24, 1965, or by rule, regulation, or order of the Secretary of Labor, or as otherwise provided by law.

(7) The Contractor will include the portion of the sentence immediately preceding paragraph (1) and the provisions of paragraphs (1) through (7) in every subcontract or purchase order unless exempted by rules, regulations, or orders of the Secretary of Labor issued pursuant to section 204 of Executive Order 11246 of September 24, 1965, so that such provisions will be binding upon each subcontractor or vendor. The Contractor will take such action with respect to any subcontract or purchase order as the administering agency may direct as a means of enforcing such provisions, including sanctions for noncompliance: Provided, however, That in the event a Contractor becomes involved in, or is threatened with, litigation with a subcontractor or vendor as a result of such direction by the administering agency the contractor may request the United States to enter into such litigation to protect the interests of the United States.

Contract Work Hours and Safety Standards Act.

(1) Overtime requirements. Neither the Contractor, nor any subcontractor contracting for any part of the contract work which may require or involve the employment of laborers or mechanics shall require or permit any such laborer or mechanic in any workweek in which he or she is employed on such work to work in

excess of forty hours in such workweek unless such laborer or mechanic receives compensation at a rate not less than one and one-half times the basic rate of pay for all hours worked in excess of forty hours in such workweek.

(2) Violation; liability for unpaid wages; liquidated damages. In the event of any violation of the clause set forth in paragraph (1) of this section the Contractor and any subcontractor responsible therefor shall be liable for the unpaid wages. In addition, such contractor and subcontractor shall be liable to the United States (in the case of work done under contract for the District of Columbia or a territory, to such District or to such territory), for liquidated damages. Such liquidated damages shall be computed with respect to each individual laborer or mechanic, including watchmen and guards, employed in violation of the clause set forth in paragraph (1) of this section, in the sum of $10 for each calendar day on which such individual was required or permitted to work in excess of the standard workweek of forty hours without payment of the overtime wages required by the clause set forth in paragraph (1) of this section.

(3) Withholding for unpaid wages and liquidated damages. The (write in the name of the Federal agency or the loan or grant recipient) shall upon its own action or upon written request of an authorized representative of the Department of Labor withhold or cause to be withheld, from any moneys payable on account of work performed by the contractor or subcontractor under any such contract or any other Federal contract with the same prime contractor, or any other federally-assisted contract subject to the Contract Work Hours and Safety Standards Act, which is held by the same prime contractor, such sums as may be determined to be necessary to satisfy any liabilities of such contractor or subcontractor for unpaid wages and liquidated damages as provided in the clause set forth in paragraph (2) of this section.

(4) Subcontracts. The Contractor or subcontractor shall insert in any subcontracts the clauses set forth in paragraph (1) through (4) of this section and also a clause requiring the subcontractors to include these clauses in any lower tier subcontracts. The prime contractor shall be responsible for compliance by any subcontractor or lower tier subcontractor with the clauses set forth in paragraphs (1) through (4) of this section.

Clean Air Act and the Federal Water Pollution Control Act.

Clean Air Act

(1) The Contractor agrees to comply with all applicable standards, orders or regulations issued pursuant to the Clean Air Act, as amended, 42 U.S.C. § 7401 et seq.

(2) The Contractor agrees to report each violation to the County and understands and agrees that the County will, in turn, report each violation as required to assure notification to the State of Florida Department of Economic Opportunity, US Department of Housing and Urban Development, and the appropriate Environmental Protection Agency Regional Office.

(3) The Contractor agrees to include these requirements in each subcontract exceeding $150,000 financed in whole or in part with Federal assistance provided by US Department of Housing and Urban Development.

Federal Water Pollution Control Act

(1) The Contractor agrees to comply with all applicable standards, orders or regulations issued pursuant to the Federal Water Pollution Control Act, as amended, 33 U.S.C. 1251 et seq.

(2) The Contractor agrees to report each violation to the County and understands and agrees that the (County will, in turn, report each violation as required to assure notification to the Florida Department of Economic Opportunity, US Department of Housing and Urban Development, and the appropriate Environmental Protection Agency Regional Office.

(3) The Contractor agrees to include these requirements in each subcontract exceeding $150,000 financed in whole or in part with Federal assistance provided by US Department of Housing and Urban Development.

Debarment and Suspension. (Exhibit "A")

(1) This Contract/Purchase Order is a covered transaction for purposes of 2 C.F.R. pt. 180 and 2 C.F.R. pt. 3000. As such the contractor is required to verify that none of the Contractor, its principals (defined at 2 C.F.R. § 180.995), or its affiliates (defined at 2 C.F.R. § 180.905) are excluded (defined at 2 C.F.R. § 180.940) or disqualified (defined at 2 C.F.R. § 180.935).

(2) The Contractor must comply with 2 C.F.R. pt. 180, subpart C and 2 C.F.R. pt. 3000, subpart C and must include a requirement to comply with these regulations in any lower tier covered transaction it enters into.

(3) This certification is a material representation of fact relied upon by Polk County. If it is later determined that the Contractor did not comply with 2 C.F.R. pt. 180, subpart C and 2 C.F.R. pt. 3000, subpart C, in addition to remedies available to the Florida Division of Management and the County, the Federal Government may pursue available remedies, including but not limited to suspension and/or debarment.

(4) The bidder or proposer agrees to comply with the requirements of 2 C.F.R. pt. 180, subpart C and 2 C.F.R. pt. 3000, subpart C while this offer is valid and throughout the period of any contract or purchase order that may arise from this offer. The bidder or proposer further agrees to include a provision requiring such compliance in its lower tier covered transactions.

Byrd Anti-Lobbying Amendment, 31 U.S.C. § 1352 (as amended)

Contractors who apply or bid for an award of $100,000 or more shall file the required certification (attached hereto as Exhibit "B"). Each tier certifies to the tier above that it will not and has not used Federal appropriated funds to pay any person or organization for influencing or attempting to influence an officer or employee of any agency, a member of Congress, officer or employee of Congress, or an employee of a member of Congress in connection with obtaining any Federal contract, grant, or any other award covered by 31 U.S.C. § 1352. Each tier shall also disclose any lobbying with non-Federal funds that takes place in connection with obtaining any Federal award. Such disclosures are forwarded from tier to tier up to the recipient.

Procurement of Recovered Materials.

(1) In the performance of this Contract/Purchase Order, the Contractor shall to the greatest extent practicable and consistent with law, purchase, acquire, or use products and services that can be reused, refurbished, or recycled; contain recycled content, are biobased, or are energy and water efficient; and are sustainable. Additionally, Contractors shall make maximum use of products containing recovered materials that are EPA- designated items unless the product cannot be acquired—

(i) Competitively within a timeframe providing for compliance with the contract performance schedule;

(ii) Meeting contract performance requirements; or

(iii) At a reasonable price.

(2) Information about this requirement, along with the list of EPA-designate items, is available at EPA's Comprehensive Procurement Guidelines web site, https://www.epa.gov/smm/comprehensive-procurement-guideline-cpg-program."

Domestic Preference

In accordance with 2 CFR §200.322, to the greatest extent practicable and consistent with law under a Federal award, the County must provide a preference for the purchase acquisition, or use of goods, products, or materials produced in the United States (including but not limited to iron, aluminum, steel, cement, and other manufactured products). The requirements of this section must be included in all subawards including all contracts and purchase orders for work or products under this award. For purposes of this section:

(1) "Produced in the United States" means, for iron and steel products, that all manufacturing processes, from the initial melting stage through the application of coatings, occurred in the United States.

(2) "Manufactured products" means items and construction materials composed in whole or in part of non-ferrous metals such as aluminum; plastics and polymer based products such as polyvinyl chloride pipe; aggregates such as concrete; glass, including optical fiber; and lumber.

Affirmative Action.

In accordance with 2 CFR §200.321, the County is committed to taking all necessary steps to assure that minority businesses, women's business enterprises, veteran-owned businesses and labor surplus area firms are used when possible. The Contractor shall also take such affirmative steps in the selection of its subcontractors, laborers and materialmen. Affirmative steps include:

(1) Placing qualified small and minority businesses, women's business enterprises, and veteran-owned businesses on solicitation lists;

(2) Assuring that small and minority businesses, women's business enterprises, and veteran-owned businesses are solicited whenever they are potential sources;

(3) Dividing total requirements, when economically feasible, into smaller tasks or quantities to permit maximum participation by small and minority businesses,

women's business enterprises, and veteran-owned businesses;

(4) Establishing delivery schedules, where the requirement permits, which encourage participation by small and minority businesses, women's business enterprises, and veteran-owned businesses; and

(5) Using the services and assistance, as appropriate, of such organizations as the Small Business Administration and the Minority Business Development Agency of the Department of Commerce.

Access to Records. The following access to records requirements apply to this Purchase Order:

(1) The Contractor agrees to provide the Florida Department of Economic Opportunity, Polk County, the US Department of Housing and Urban Development Administrator, the Comptroller General of the United States, or any of their authorized representative's access to any books, documents, papers, and records of the Contractor which are directly pertinent to this Purchase Order for the purposes of making audits, examinations, excerpts, and transcriptions.

(2) The Contractor agrees to permit any of the foregoing parties to reproduce by any means whatsoever or to copy excerpts and transcriptions as reasonably needed.

(3) The Contractor agrees to provide the US Department of Housing and Urban Development Administrator or his authorized representative's access to construction or other work sites pertaining to the work being completed under the Purchase Order."

DHS Seal, Logo, and Flags. The Contractor shall not use the DHS seal(s), logos, crests, or reproductions of flags or likenesses of DHS agency officials without specific FEMA pre- approval.

Compliance with Federal Law, Regulations, and Executive Orders. This is an acknowledgement that US Department of Housing and Urban Development financial assistance will be used to fund the Purchase Order only. The Contractor will comply will all applicable federal law, regulations, executive orders, US Department of Housing and Urban Development policies, procedures, and directives.

No Obligation by Federal Government. The Federal Government is not a party to this Purchase Order and is not subject to any obligations or liabilities to the non-Federal entity, contractor, or any other party pertaining to any matter resulting from this Purchase Order.

Program Fraud and False or Fraudulent Statements or Related Acts.

The Contractor acknowledges that 31 U.S.C. Chap. 38 (Administrative Remedies for False Claims and Statements) applies to the Contractor's actions pertaining to this Purchase Order.

Default and Remedy

Process. If the Contractor materially defaults in the timely performance of any Contract obligation, or if the Contractor is otherwise in material default of the Contract, including, without limitation, the Contractor's failure to timely deliver any portion, or the entirety, of the Project Work in accordance with the Contract documents, then the County shall have the right to (i) with or without terminating the Contract, immediately call in any bonds or other form of security, and engage other Contractors or providers at the

Contractor's sole cost and expense to provide those unperformed or deficient Contract obligations of the Contractor; (ii) set-off the monetary amount of any and all damages arising therefrom, whether direct or indirect, actual or liquidated, from the amounts due Contractor pursuant to the Contract documents, (iii) immediately terminate the Contract by delivering written notice to the Contractor, and (iv) pursue any and all remedies available in law, equity, and under the Contract, including, without limitation, the recovery of any increased cost to the County to complete the Project Work due to the loss of CDBG-MIT funding caused, directly or indirectly, by the Contractor's delay. Upon any such termination pursuant to this Section, the County shall pay the Contractor the full amount due and owing for all services properly performed through the date of the Contract termination, less any amount subject to the County's right of set-off, and all liability of the County to the Contractor shall cease.

Certain Material Defaults.

Among other matters, including without limitation, the Contractor's failure to timely deliver any portion, or the entirety, of the Project Work in accordance with the Contract documents, as described immediately above, any of the following shall constitute the Contractor's material default of the Contract: the appointment of a receiver to take possession of all or substantially all of the Contractor's assets, a general assignment by the Contractor for the benefit of creditors, or any action taken by or suffered by Contractor under any insolvency or bankruptcy act; or the Contractor is convicted of a public entity crime, is determined to have violated federal or state law prohibiting discrimination as stated in Section 287.134, Florida Statutes, or is prohibited from performing work for or transacting business with the County pursuant to Section 287.133 or to Section 287.134, Florida Statutes; or an assignment of the Contract made without the express written consent of the County; or the submission of a false certification to the County or engagement in prohibited business operations, both as described in the Contract Documents.

Prohibition on Certain Telecommunications and Video Surveillance Services or Equipment

In accordance with 2 CFR §200.216 and Appendix II to Part 200, subsection (K), no funding or services provided pursuant to or in connection with this Contract, shall in any way be used to:

(1) Procure or obtain;

(2) Extend or renew a contract to procure or obtain; or

(3) Enter into a contract (or extend or renew a contract) to procure or obtain equipment, services, or systems that uses covered telecommunications equipment or services as a substantial or essential component of any system, or as critical technology as part of any system. As described in Public Law 115–232, section 889, covered telecommunications equipment is telecommunications equipment produced by Huawei Technologies Company or ZTE Corporation (or any subsidiary or affiliate of such entities).

(i) For the purpose of public safety, security of government facilities, physical security surveillance of critical infrastructure, and other national security purposes, video surveillance and telecommunications equipment produced by Hytera Communications Corporation, Hangzhou Hikvision Digital Technology Company, or Dahua Technology Company (or any subsidiary or affiliate of such entities).

(ii) Telecommunications or video surveillance services provided by such entities or using such equipment.

(iii) Telecommunications or video surveillance equipment or services produced or provided by an entity that the Secretary of Defense, in consultation with the Director of the National Intelligence or the Director of the Federal Bureau of Investigation, reasonably believes to be an entity owned or controlled by, or otherwise connected to, the government of a covered foreign country.

Proposers Incorporation Information
(Submittal Page)

The following section should be completed by all bidders and submitted with their bid submittal:

Company Name: _____

DBA/Fictitious Name (if applicable): _____

TIN #: _____

Address: _____

City: _____

State: _____

Zip Code: _____

County: _____

Note: Company name must match legal name assigned to the TIN number. A current W9 should be submitted with your bid submittal.

Contact Person: _____

Phone Number: _____

Cell Phone Number: _____

Email Address: _____

Type of Organization (select one type)

- ☐ Sole Proprietorship
- ☐ Partnership
- ☐ Non-Profit
- ☐ Sub Chapter
- ☐ Joint Venture
- ☐ Corporation
- ☐ LLC
- ☐ LLP
- ☐ Publicly Traded
- ☐ Employee Owned

State of Incorporation: _____

The Successful vendor must complete and submit this form prior to award. The Successful vendor must invoice using the company name listed above.

Drug-Free Workplace Form

(Submittal Page)

The undersigned vendor in accordance with Florida Statue 287.087 hereby certifies that, (Name of the Business): _____ does:

1. Publish a statement notifying employees that the unlawful manufacture, distribution, dispensing, possession or use of a controlled substance is prohibited in the workplace and specifying the actions that will be taken against employees for violations of such prohibition.
2. Inform employees about the dangers of drug abuse in the workplace, the business's policy of maintaining a drug-free workplace, any available drug counseling, rehabilitation programs, employee assistance programs and the penalties that may be imposed upon employees for drug abuse violations.
3. Give each employee engaged in providing the commodities or contractual services that are under this RFP a copy of the statement specified in subsection (1).
4. In the statement specified in subsection (1), notify the employees that, as a condition of working on the commodities or contractual services that are under this RFP, the employee will abide by the terms of the statement and will notify the employer of any conviction of, plea of guilty or nolo contendere to, any violation of Chapter 1893 or of any controlled substance law of the United States or any state, for a violation occurring in the workplace no later than five (5) days after such conviction.
5. Impose a sanction on or require the satisfactory participation in a drug abuse assistance or rehabilitation program, if such is available in the employee's community, by any employee who is so convicted.
6. Make a good faith effort to continue to maintain a drug-free workplace through implementation of this section.

As the person authorized to sign the statement, I certify that this firm complies fully with the above requirements.

EXHIBIT 1
DETAILED INSTRUCTIONS ON HOW TO PREPARE AND SEND PERFORMANCE SURVEYS

The objective of this process is to identify the past performance of the Contractor submitting a proposal package. This is accomplished by sending survey forms to past customers. The customers should return the forms directly to the Contractor. The Contractor is to include all surveys in their proposal package.

Sending the Survey

The surveys shall be sent to all clients for whom the Contractor has identified under Tab 4. Surveys should correlate to all projects identified under Tab 4.

If more surveys are included, Procurement will only use those identified under Tab 4.

1. The Contractor shall complete the following information for each customer that a survey will be sent

CLIENT NAME	Name of the company that the work was performed for (i.e. Hillsborough County).
FIRST NAME	First name of the person who will answer customer satisfaction questions.
LAST NAME	Last name of the person who will answer customer satisfaction questions.
PHONE NUMBER	Current phone number for the reference (including area code).
EMAIL ADDRESS	Current email address for the reference.
PROJECT NAME	Name of the project (Debris Removal Services for Hillsborough County 2024), Etc.
COST OF SERVICES	Cost of services ($3,000,000)
DATE COMPLETE	Date when the services were completed. (i.e. 5/31/2024)

2. The Contractor is responsible for verifying that their information is accurate prior to submission for references.

3. The survey must contain different services/projects. You cannot have multiple people evaluating the same job. However, one person may evaluate several different jobs.

4. The past projects can be either completed or on-going.

5. The past client/owner must evaluate and complete the survey.

Preparing the Surveys

1. The Contractor is responsible for sending out a performance survey to the clients that have been identified under Tab 4. The survey can be found on the next page.
2. The Contractor should enter the past clients' contact information, and project information on each survey form for each reference. The Contractor should also enter their name as the Contractor being surveyed.
3. The Contractor is responsible for ensuring all references/surveys are included in their submittal under Tab 7
4. Polk County Procurement may contact the reference for additional information or to clarify survey data. If the reference cannot be contacted, there will be no credit given for that reference.

Survey Questionnaire – Polk County

RFP 26-011, Disaster Debris Removal Services

To: _____ (Name of Person completing survey)

_____ (Name of Client Company/Contractor)

Phone Number: _____ Email: _____

Subject: Past Performance Survey of Similar work:

Project name: _____

Name of Vendor being surveyed: _____

Cost of Services: Original Cost: _____ Ending Cost: _____

EMPLOYMENT ELIGIBILITY VERIFICATION (E-VERIFY) CERTIFICATION

(Florida Statutes, Section 448.095)

PROJECT NAME: _____

The undersigned, as an authorized officer of the contractor identified below (the "**Contractor**"), having full knowledge of the statements contained herein, hereby certifies to Polk County, a political subdivision of the State of Florida (the "**County**"), by and on behalf of the Contractor in accordance with the requirements of Section 448.095, Florida Statutes, as related to the contract entered into by and between the Contractor and the County on or about the date hereof, whereby the Contractor will provide labor, supplies, or services to the County in exchange for salary, wages, or other remuneration (the "**Contract**"), as follows:

1. Unless otherwise defined herein, terms used in this Certification which are defined in Section 448.095, Florida Statutes, as may be amended from time to time, shall have the meaning ascribed in said statute.

2. Pursuant to Section 448.095(5), Florida Statutes, the Contractor, and any subcontractor under the Contract, must register with and use the E-Verify system to verify the work authorization status of all new employees of the Contractor or subcontractor. The Contractor acknowledges and agrees that (i) the County and the Contractor may not enter into the Contract, and the Contractor may not enter into any subcontracts thereunder, unless each party to the Contract, and each party to any subcontracts thereunder, registers with and uses the E-Verify system; and (ii) use of the U.S. Department of Homeland Security's E-Verify System and compliance with all other terms of this Certification and Section 448.095, Fla. Stat., is an express condition of the Contract, and the County may treat a failure to comply as a material breach of the Contract.

3. By entering into the Contract, the Contractor becomes obligated to comply with the provisions of Section 448.095, Fla. Stat., "Employment Eligibility," as amended from time to time. This includes but is not limited to utilization of the E-Verify System to verify the work authorization status of all newly hired employees, and requiring all subcontractors to provide an affidavit attesting that the subcontractor does not employ, contract with, or subcontract with, an unauthorized alien. The Contractor shall maintain a copy of such affidavit for the duration of the Contract. Failure to comply will lead to termination of the Contract, or if a subcontractor knowingly violates the statute or Section 448.09(1), Fla. Stat., the subcontract must be terminated immediately. If the Contract is terminated pursuant to Section 448.095, Fla. Stat., such termination is not a breach of contract and may not be considered as such. Any challenge to termination under this provision must be filed in the Tenth Judicial Circuit Court of Florida no later than 20 calendar days after the date of termination. If the Contract is terminated for a violation of Section 448.095, Fla. Stat., by the Contractor, the Contractor may not be awarded a public contract for a period of 1 year after the date of termination. The Contractor shall be liable for any additional costs incurred by the County as a result of the termination of the Contract. Nothing in this Certification shall be construed to allow intentional discrimination of any class protected by law.

CERTIFICATIONS REGARDING DEBARMENT, SUSPENSION, PROPOSED DEBARMENT, AND OTHER RESPONSIBILITY MATTERS

For all awards, subawards, and contracts with certain parties that are debarred, suspended, or otherwise excluded from or ineligible for participation in Federal assistance programs and activities, the Offeror must complete and sign the following:

The Offeror certifies, to the best of its knowledge and belief, that-

(1) This contract is a covered transaction for purposes of 2 C.F.R. pt. 180 and 2 C.F.R. pt. 3000. As such the contractor is required to verify that none of the contractor, its principals (defined at 2 C.F.R. § 180.995), or its affiliates (defined at 2 C.F.R. § 180.905) are excluded (defined at 2 C.F.R. § 180.940) or disqualified (defined at 2 C.F.R. § 180.935).

(2) The contractor must comply with 2 C.F.R. pt. 180, subpart C and 2 C.F.R. pt. 3000, subpart C and must include a requirement to comply with these regulations in any lower tier covered transaction it enters into.

(3) This certification is a material representation of fact relied upon by Polk County, a political subdivision of the State of Florida (the "County"). If it is later determined that the contractor did not comply with 2 C.F.R. pt. 180, subpart C and 2 C.F.R. pt. 3000, subpart C, in addition to remedies available to the Florida Division Emergency Management, the County, and the Federal Government may pursue available remedies, including but not limited to suspension and/or debarment.

(4) The bidder or proposer agrees to comply with the requirements of 2 C.F.R. pt. 180, subpart C and 2 C.F.R. pt. 3000, subpart C while this offer is valid and throughout the period of any contract that may arise from this offer. The bidder or proposer further agrees to include a provision requiring such compliance in its lower tier covered transactions.

APPENDIX A, 44 C.F.R. PART 18 – CERTIFICATION REGARDING LOBBYING

Certification for Contracts, Grants, Loans, and Cooperative Agreements

(To be submitted with each bid or offer exceeding $100,000)

The undersigned _____ (Contractor) certifies, to the best of his or her knowledge, that:

1. No Federal appropriated funds have been paid or will be paid, by or on behalf of the undersigned, to any person for influencing or attempting to influence an officer or employee of an agency, a Member of Congress, an officer or employee of Congress, or an employee of a Member of Congress in connection with the awarding of any Federal contract, the making of any Federal grant, the making of any Federal loan, the entering into of any cooperative agreement, and the extension, continuation, renewal, amendment, or modification of any Federal contract, grant, loan, or cooperative agreement.

2. If any funds other than Federal appropriated funds have been paid or will be paid to any person for influencing or attempting to influence an officer or employee of any agency, a Member of Congress, an officer or employee of Congress, or an employee of a Member of Congress in connection with this Federal contract, grant, loan, or cooperative agreement, the undersigned shall complete and submit Standard Form- LLL, "Disclosure Form to Report Lobbying," in accordance with its instructions.

3. The undersigned shall require that the language of this certification be included in the award documents for all subawards at all tiers (including subcontracts, subgrants, and contracts under grants, loans, and cooperative agreements) and that all subrecipients shall certify and disclose accordingly.

This certification is a material representation of fact upon which reliance was placed when this transaction was made or entered into. Submission of this certification is a prerequisite for making or entering into this transaction imposed by 31, U.S.C. § 1352 (as amended by the Lobbying Disclosure Act of 1995). Any person who fails to file the required certification shall be subject to a civil penalty of not less than $10,000 and not more than $100,000 for each such failure.

The Contractor, _____ , certifies or affirms the truthfulness and accuracy of each statement of its certification and disclosure, if any. In addition, the Contractor understands and agrees that the provisions of 31 U.S.C. § 3801 *et seq.*, apply to this certification and disclosure, if any.

FEMA
DISASTER ASSISTANCE POLICY

I. TITLE: Hazardous Stump Extraction and Removal Eligibility

II. DATE: MAY 15 2007

III. PURPOSE:

Establish criteria used to reimburse applicants for removing eligible hazardous stumps from public or, where authorized, private property.

IV. SCOPE AND AUDIENCE:

The policy is applicable to all major disasters and emergencies declared on or after the date of publication. It is intended for all personnel involved in the administration and execution of the Public Assistance Program, including applicants.

V. AUTHORITY:

Sections 403 and 407 of the Robert T. Stafford Disaster Relief and Emergency Assistance Act, 42 U.S.C. 5121-5206, as amended.

VI. BACKGROUND:

Public Assistance regulations authorize reimbursement for the removal of debris from public and private land when it is in the public interest. Such removal is in the public interest when it is necessary to: eliminate immediate threats to life, public health and safety, or eliminate immediate threats of significant damage to improved public or private property; or to ensure economic recovery of the affected community to the benefit of the community at large. Trees that are uprooted during a disaster event such that all or part of their roots are exposed may pose an immediate threat to public health and safety.

VII. POLICY:

A. When a disaster event uproots a tree or stump (i.e., 50% or more of root ball is exposed) on a public right-of-way, improved public property or improved property owned by certain private nonprofit organizations, and the exposed root ball poses an immediate threat to life, public health and safety, FEMA may provide supplemental assistance to remove, transport, dispose, and provide fill for the root cavity of an eligible uprooted tree or stump. The Federal Emergency Management Agency (FEMA) will reimburse applicants reasonable costs for this type of work only when uprooted stumps are more than 24 inches in diameter (measured two feet from the ground), with the consensus of the Applicant and the State, and is approved in

advance by FEMA, using the attached Hazardous Stump Worksheet.

1. If it is necessary to remove an uprooted stump before it can be inspected by FEMA because it poses a threat that must be dealt with immediately, the applicant must submit documentation, to FEMA including photographs, that establishes its location on public property, specifics on the threat, stump diameter measured two feet up the trunk from the ground, quantity of material to fill the hole, and any special circumstances.

2. FEMA will reimburse applicants for extraction, transport and disposal of stumps with a diameter of 24 inches or smaller at the unit cost rate for regular vegetative debris, using the attached Stump Conversion Table, as such stumps do not require special equipment.

3. FEMA will reimburse applicants at the unit cost rate (usually cubic yards) for normal debris removal for all stumps, regardless of size, placed on the rights-of-way by others (i.e., contractors did not extract them from public property or property of eligible Private Non Profit organization). In such instances, applicants do not incur additional cost to remove these stumps because the same equipment that is used to pick up "regular" debris can be used to pick-up these stumps.

4. If an applicant incurs additional costs in picking up large stumps (over 24 inches in diameter) from rights-of-way, it should complete the Hazardous Stump Worksheet and present documentation to FEMA in advance for consideration.

5. Stumps with less than 50% of their root ball exposed should be cut flush at ground level and the cut portion included with regular vegetative debris.

6. Straightening or bracing of trees is eligible for reimbursement if it is less costly than removal and disposal. Applicant must provide a cost analysis showing cost effectiveness.

VIII. ORIGINATING OFFICE: Disaster Assistance Directorate (Public Assistance Division)

IX. SUPERSESSION: This policy supersedes Recovery Policy Number 9523.11, Hazard Stump Removal and Extraction Eligibility dated May 6, 2006.

X. REVIEW DATE: Three years from the date of publication.

David Garratt
Acting Assistant Administrator
Disaster Assistance Directorate

Stump Conversion Table

Diameter to Volume Capacity

The quantification of the cubic yards of debris for each size of stump in the following table was derived from FEMA field studies conducted throughout the State of Florida during the debris removal operations following Hurricanes Charley, Frances, Ivan and Jeanne. The following formula is used to derive cubic yards:

$$\frac{[(\text{Stump Diameter}^2 \times 0.7854) \times \text{Stump Length}] + [(\text{Root Ball Diameter}^2 \times 0.7854) \times \text{Root Ball Height}]}{46656}$$

0.7854 is one-fourth Pi and is a constant.
46656 is used to convert cubic inches to cubic yards and is a constant

The formula used to calculate the cubic yardage used the following factors, based upon findings in the field:

- Stump diameter measured two feet up from ground
- Stump diameter to root ball diameter ratio of 1:3.6
- Root ball height of 31"

Stump Diameter (Inches)	Debris Volume (Cubic Yards)	Stump Diameter (Inches)	Debris Volume (Cubic Yards)

EVENT PERFORMANCE BOND

PERFORMANCE BOND

KNOW ALL MEN BY THESE PRESENTS: That _____, as Principal, and _____ as Surety, located at _____ (Business Address) are held and firmly bound unto Polk County, a political subdivision of the State of Florida, as Obligee, in the sum of Dollars ($_____) in lawful currency of the United States, for the payment whereof we bind ourselves, successors, and assigns, jointly and severally, firmly by these presents.

THE CONDITION OF THIS BOND is that if the Principal:

Promptly, faithfully, efficiently and fully performs all work, services, duties and obligations set forth and described in that certain purchase order dated _____, 20__ (the "Purchase Order") between Principal and Obligee for performance of debris removal at any County location arising from damage caused by a disaster event, at the times and in the manner prescribed in the Purchase Order; and

Pays Obligee all losses, damages (liquidated or actual), expenses, costs, and attorney's fees, including, without limitation, costs and attorney's fees on appeal, that Obligee sustains resulting directly or indirectly from any breach or default by Principal under the Purchase Order; and

Performs the guarantee of all work and materials furnished under the Purchase Order for the time specified therein; and

Satisfies all claims and demands incurred under the Purchase Order, and fully indemnifies and holds harmless the Obligee from all costs and damages which it may suffer by reason or failure to do so;

then the Surety shall have no obligation under this Performance Bond.

In the event that the Principal shall fail to perform any of the terms, covenants and conditions of the Purchase Order during the period in which this Performance Bond is in effect, the Surety shall remain liable to the Obligee for all such loss or damage (including reasonable attorney's fees and costs and attorney's fees on appeal) resulting from any failure to perform up to the amount of the sum stated above.

In the event that the Surety fails to fulfill its obligations under this Performance Bond, then the Surety shall also indemnify and hold the Obligee harmless from any and all loss, damage, cost and expense, including reasonable attorney's fees and costs for all trial and appellate proceedings, resulting directly or indirectly from the Surety's failure to fulfill its obligations hereunder. This paragraph shall survive the termination or cancellation of this Performance Bond.

The Surety, for value received, hereby stipulates and agrees that its obligations hereunder shall be direct and immediate and not conditional or contingent upon the Obligee's pursuit of its remedies against Principal, shall remain in full force and effect notwithstanding (i) amendments or modifications to the Purchase Order entered into by Obligee and Principal without the Surety's knowledge or consent (ii) waivers of compliance with or any default under the Purchase Order granted by Obligee to Principal without the Surety's knowledge or consent, or (iii) the discharge of Principal from its obligations under the Purchase Order as a result of any proceeding initiated under the Bankruptcy code of 1978, as the same may be amended, or any similar state or federal law, or any limitation of the liability or Principal or its estate as a result of any proceeding.

Any changes in or under the Purchase Order and compliance or non-compliance with any formalities connected with the Purchase Order or the changes shall not affect Surety's obligation under this Performance Bond. The Principal shall notify the Surety of all such changes.

Reference is hereby made to Section 255.05, Florida Statutes, and to the notice and time limitation provisions thereof.

IN WITNESS WHEREOF, this instrument is executed this _____ day of _____, 20__.

Draft Agreement

DISASTER DEBRIS REMOVAL SERVICES AGREEMENT

THIS DISASTER DEBRIS REMOVAL SERVICES AGREEMENT (the "Agreement") is entered into as of the Effective Date (defined in Section 1, below) by and between Polk County (the "County"), a political subdivision of the State of Florida, situated at 330 W. Church Street, Bartow, Florida, 33830, and _____ (the "Contractor"), a _____ corporation, at _____, and whose Federal Employer Identification Number is _____ _____.

WHEREAS, the Contractor has considerable expertise in disaster debris removal services; and

WHEREAS, the County desires to employ the Contractor to provide disaster debris removal services to Polk County; and

WHEREAS, the County has solicited for these Contractor services via an advertised request for proposal ("RFP 26-011") and has received numerous responsive proposals thereto; and

WHEREAS, after review and consideration of all responsive proposals, the County intends to engage the Contractor to provide it the disaster debris removal services; and

WHEREAS, the Contractor is able and agreeable to providing the County the Contractor services and represents that it is competent, qualified, capable and prepared to do so according to the terms and conditions stated herein;

NOW, THEREFORE, in consideration of the mutual understandings and covenants set forth herein, the County and the Contractor hereby agree, as follows:

1.0 **Effective Date; Term**

1.1 This Agreement shall take effect on the date (the "Effective Date") of its execution by the County.

1.2 The term of this Agreement shall be for a five (5) year time period, commencing upon the Effective Date and remaining in full force and effect thereafter, unless otherwise sooner terminated as provided herein.

2.0 **Contractor Services**

2.1 The County does hereby retain the Contractor to furnish those services and to perform those tasks (collectively, the "Services") as further described in (i) the County's Request for Proposals RFP #26-011, to include all attachments and addenda, (ii) the Contractor's responsive proposal,

and (iii) Scope of Services thereto (collectively, (i), (ii), and (iii) are "RFP 26-011"), all of which are incorporated into this Agreement by this reference, attached hereto as a composite Exhibit "A" and made a part of this Agreement.

3.0 **Compensation**

3.1 General

3.1.1 In consideration for its providing the Services, during the Agreement Term the County shall pay the Contractor a fee that shall not exceed the amounts stated in Exhibit "B", which is attached hereto and made a part of this Agreement. The Compensation Schedule identifies all billable services pursuant to this Agreement and the associated amount the County will pay the Contractor for Services performed. The County is not obligated to pay the Contractor a fee for any work performed or Services provided not listed on the Compensation Schedule. The rates shown on the Compensation Schedule may be increased annually by written authorization of the Procurement Director following the one-year anniversary of the Effective Date, when it is in the best interest of the County. Rate increases will be determined by the appropriate price index as approved by the Procurement Director. No action by the Board of County Commissioners will be necessary for such rate increases

3.1.2 All the Contractor's invoices for payment must reference the Agreement and must be submitted using a form approved by the County Auditor.

3.1.3 The Contractor shall attach all appropriate cost substantiations to the invoice and shall deliver the invoices to:

Roads and Drainage Division
3000 Sheffield Road
Winter Haven, Florida 33880

3.1.4 The Contractor will clearly state "Final Invoice" on the Contractor's final/last billing for the Services rendered to the County. The Contractor's submission of a Final Invoice is its certification that all Services have been properly performed and all charges and costs have been invoiced to the County. This account will be closed upon the County's receipt of a Final Invoice. The Contractor hereby waives any charges not properly included on its Final Invoice.

3.1.5 The County's payment of the Final Invoice shall not constitute evidence of the County's acceptance of the Contractor's performance of the Service or the County's acceptance of any work.

3.1.6 All Contractor's invoices shall be accompanied by time and task records for all billable hours appearing on the invoice. Additional supporting documents may be requested by the County and, if so requested, shall be furnished by the Contractor to the County Auditor's satisfaction.

3.1.6 By its submission of an invoice, the Contractor's project manager or designated payroll officer shall be deemed to be attesting to the correctness and accuracy of all charges and requested reimbursements stated in such invoice.

3.2 Reimbursable Expenses

3.2.1 All Contractor requests for payment of out-of-pocket expenses eligible for reimbursement per under the terms of this Agreement shall be reimbursed per the negotiated Scope of Work (Exhibit A-iii) and in accordance with the County's Reimbursable Schedule that is attached hereto as Exhibit "C" and made a part of this Agreement. The Contractor's requests for payment shall include copies of paid receipts, invoices or other documentation acceptable to the County's Auditor. To qualify for reimbursement, the Contractor's documentation shall be sufficient to establish that the expense was actually incurred and necessary in the Contractor's performance of the Services in accordance with this Agreement.

3.2.2 Reimbursable Expenses are the actual, pre-approved, expenses incurred directly in connection with the Contractor providing the Services.

4.0 **Contractor's Responsibilities**

4.1 The Contractor shall be responsible for the professional quality, accuracy, competence, methodology, and the coordination of all Services performed pursuant to this Agreement.

4.2 The County's review, approval, acceptance, or payment for any of the Contractor's Services shall not be construed to: (i) operate as a waiver of any rights the County possesses under this Agreement; or (ii) waive or release any claim or cause of action arising out of the Contractor's performance or nonperformance of this Agreement. The Contractor shall be and will always remain liable to the County in accordance with applicable law for any and all damages to the County caused by the Contractor's negligent or wrongful performance or nonperformance of any of the Services to be furnished under this Agreement.

5.0 **Ownership of Documents**

All analyses, reference data, bills, completed reports, or any other form of written instrument or document created or resulting from the Contractor's performance of the Services pursuant to this Agreement shall become the property of the County after payment is made to the Contractor for such instruments or documents.

6.0 **Termination**

6.1 The County may terminate this Agreement, in whole or in part, at any time, either for the County's convenience or because of the failure of the Contractor to fulfill its obligations under this Agreement, subject to the cure period provided in Section 26.0, by delivering written notice to the Contractor. Upon receipt of such notice, the Contractor shall:

6.1.1 Immediately discontinue all affected Services unless the notice directs otherwise, and

6.1.2 Deliver to the County all data, reports, summaries, and any and all such other information and materials of whatever type or nature as may have been accumulated by the Contractor in performing this Agreement, whether completed or in process.

6.2 Unless in dispute or subject to the County's right of set-off or other remedy, the Contractor shall be paid for Services actually rendered to the date of termination.

6.3 The rights and remedies of the County provided for in this Section 6 are in addition and supplemental to any and all other rights and remedies provided by law or under this Agreement.

7.0 **No Contingent Fees**

The Contractor warrants that it has not employed or retained any company or person, other than a bona fide employee working solely for the Contractor to solicit or secure this Agreement and that it has not paid or agreed to pay any person, company, corporation, individual or firm, other than a bona fide employee working solely for the Contractor, any fee, commission, percentage, gift, or other consideration contingent upon or resulting from award of or making of the Agreement. For the breach or violation of this provision, the County shall have the right to terminate the Agreement at its sole discretion, without liability and to deduct from the Agreement price, or otherwise recover, the full amount of such fee, commission, percentage, gift, or consideration.

8.0 **Assignment**

The Contractor shall not assign, transfer, or encumber this Agreement, or any interest herein, under any circumstances, without obtaining the prior written consent of the County, which consent may be withheld in the County's exercise of its reasonable discretion.

9.0 **Professional Associates and Subcontractors**

If the Contractor requires the assistance of any professional associates or subcontractors in connection with its providing the Services the Contractor must obtain the prior express written approval of the County, which the County may withhold in its discretion, before any such professional associate or

subcontractor may perform any work for the County. If after obtaining the County's approval the Contractor utilizes any professional associates or subcontractors in the delivery of the Services then the Contractor shall remain solely and fully liable to the County for the performance or nonperformance of all such professional associates and subcontractors. The failure of a professional associate or subcontractor to timely or properly perform any of its obligations to the Contractor shall not relieve the Contractor of its obligations to the County under this Agreement.

10.0 **Indemnification of County**

Contractor, to the maximum extent permitted by law, shall indemnify, defend (by counsel reasonably acceptable to County) protect and hold the County, and its officers, employees and agents harmless from and against any and all, claims, actions, causes of action, liabilities, penalties, forfeitures, damages, losses, and expenses (including, without limitation, attorneys' fees costs and expenses incurred during negotiation, through litigation and all appeals therefrom) whatsoever including, but not limited, to those pertaining to the death of or injury to any person, or damage to any property, arising out of or resulting from (i) the failure of Contractor to comply with applicable laws, rules or regulations, (ii) the breach by Contractor of its obligations under this Agreement, (iii) any claim for trademark, patent or copyright infringement arising out of the scope of Contractor's performance or nonperformance of this Agreement, or (iv) the negligent acts, errors or omissions, or intentional or willful misconduct, of Contractor, its professional associates, subcontractors, agents, and employees provided, however, that Contractor shall not be obligated to defend or indemnify the County with respect to any such claims or damages arising out of the County's sole negligence.

11.0 **Insurance Requirements**

The Contractor shall maintain at all times the following minimum levels of insurance and shall, without in any way altering its liability, obtain, pay for and maintain insurance for the coverage and amounts of coverage not less than those set forth below. The Contractor shall provide the County original Certificates of Insurance satisfactory to the County to evidence such coverage before any work commences. The County shall be named as an additional insured on General and Automobile Liability policies. General Liability and Workers' Compensation policies shall contain a waiver of subrogation in favor of Polk County. The commercial General Liability Policy shall (by endorsement if necessary) provide contractual liability coverage for the contractual indemnity stated in Section 10, above. All insurance coverage shall be written with a company having an A.M. Best rating of at least the "A" category and size category of VIII. The Contractor's self-insured retention or deductible per line of coverage shall not exceed $25,000 without the permission of the County. In the event of any failure by the Contractor to comply with the provisions of this Section 11, the County may, at its option, upon notice to the Contractor suspend Contractor's

performance of the Services for cause until there is full compliance. Alternatively, the County may purchase such insurance at the Contractor's expense, provided that the County shall have no obligation to do so and if the County shall do so, the Contractor shall not be relieved of or excused from the obligation to obtain and maintain such insurance amounts and coverage.

Comprehensive Automobile Liability Insurance. $2,000,000.00 combined single limit of liability for bodily injuries, death and property damage resulting from any one occurrence, including all owned, hired, and non-owned vehicles.

Commercial General Liability. $4,000,000.00 combined single limit of liability for bodily injuries, death and property damage, and personal injury resulting from any one occurrence, including the following coverages:

Premises and Operations:

> Broad Form Commercial General Liability Endorsement to include Blanket Contractual liability (specifically covering, but not limited to, the contractual obligations assumed by the Firm); Personal Injury (with employment and contractual exclusions deleted); and Broad Form Property Damage coverage.

Independent Contractors:

> Delete Exclusion relative to collapse, explosion and underground; Property Damage Hazards; Cross Liability Endorsement; and Contractual liability (specifically covering, but not limited to, the contractual obligations assumed by the Firm)

Workers Compensation. The Contractor shall provide, pay for, and maintain workers compensation insurance on all employees, its agents or subcontractors as required by Florida Statutes.

Pollution Liability Insurance. $1,000,000 including pollution due to automobiles.

Employer's Liability. $1,000,000.

12.0 **Public Entity Crimes**

The Contractor declares and warrants that neither the Contractor nor any of the Contractor's affiliates, as that term is defined in Section 287.133, Florida Statutes, are subject to the restrictions in Section 287.133, Florida Statutes, regarding the commission of a public entity crime. If during the term of this Agreement, the Contractor or any affiliate is convicted of a public entity crime or is otherwise prohibited from performing work for or transacting business with the County pursuant to

Section 287.133, Florida Statutes, then the Contractor shall be in material default of this Agreement, and in such case, the County shall have the rights and remedies as provided herein.

13.0 **Non-Discrimination**

The Contractor warrants and represents that all of its employees are treated equally during employment without regard to race, color, religion, gender, age or national origin.

14.0 **Designation of Party Representatives**

14.1 Upon receipt of a request from the Contractor, the County shall designate in writing one or more of its employees who are authorized to act by and on behalf of the County to transmit instructions, receive information and interpret and define the County's policy and decisions with respect to the Services to be provided pursuant to this Agreement.

14.2 The Contractor shall designate or appoint one or more Contractor representatives who are authorized to act on behalf of and to bind the Contractor regarding all matters involving the conduct of its performance pursuant to this Agreement.

15.0 **All Prior Agreements Superseded**

This document incorporates and includes all prior negotiations, correspondence, conversations, agreements or understandings applicable to the matters contained herein and the parties agree that there are no commitments, agreements or understandings concerning the subject matter of this Agreement that are not contained in this document or its designated exhibits. Accordingly, it is agreed that no deviation from the terms hereof shall be predicated upon any prior representations or agreements, whether oral or written.

16.0 **Modifications, Amendments or Alterations**

No modification, amendment or alteration in the terms or conditions contained herein shall be effective unless agreed to and executed in writing by both parties to this Agreement in a form acceptable to the County.

17.0 **Independent Contractor**

Nothing stated in this Agreement is intended or should be construed in any manner as creating or establishing a relationship of co-partners between the parties, or as constituting the Contractor (including its officers, employees, and agents) as the agent, representative, or employee of the County for any purpose, or in any manner, whatsoever. The Contractor is to be and shall remain forever an independent contractor with respect to all Services performed under this Agreement. The Contractor shall not pledge the County's credit or make the County a guarantor of payment or surety for any contract, debt, obligation, judgment,

lien or any form of indebtedness and the Contractor shall have no right to speak for or bind the County in any manner.

18.0 **Public Records Law**

(a) The Contractor acknowledges the County's obligations under Article I, Section 24, of the Florida Constitution and under Chapter 119, Florida Statutes, to release public records to members of the public upon request and comply in the handling of the materials created under this Agreement. The Contractor further acknowledges that the constitutional and statutory provisions control over the terms of this Agreement. In association with its performance pursuant to this Agreement, the Contractor shall not release or otherwise disclose the content of any documents or information that is specifically exempt from disclosure pursuant to all applicable laws.

(b) Without in any manner limiting the generality of the foregoing, to the extent applicable, the Contractor acknowledges its obligations to comply with Section 119.0701, Florida Statutes, with regard to public records, and shall:

(1) keep and maintain public records required by the County to perform the services required under this Agreement;

(2) upon request from the County's Custodian of Public Records or his/her designee, provide the County with a copy of the requested records or allow the records to be inspected or copied within a reasonable time at a cost that does not exceed the cost provided in Chapter 119, Florida Statutes, or as otherwise provided by law;

(3) ensure that public records that are exempt or confidential and exempt from public records disclosure requirements are not disclosed except as authorized by law for the duration of the term of this Agreement and following completion of this Agreement if the Contractor does not transfer the records to the County; and

(4) upon completion of this Agreement, transfer, at no cost, to the County all public records in possession of the Contractor or keep and maintain public records required by the County to perform the service. If the Contractor transfers all public records to the County upon completion of this Agreement, the Contractor shall destroy any duplicate public records that are exempt or confidential and exempt from public records disclosure requirements. If the Contractor keeps and maintains public records upon completion of this Agreement, the Contractor shall meet all applicable requirements for retaining public records. All records stored electronically must be provided to the County, upon request from the County's Custodian of Public Records, in a format that is compatible with the information technology systems of the County.

(c) IF THE CONTRACTOR HAS QUESTIONS REGARDING THE APPLICATION OF CHAPTER 119, FLORIDA STATUTES, TO THE CONTRACTOR'S DUTY TO PROVIDE PUBLIC RECORDS RELATING TO THIS AGREEMENT, CONTACT THE COUNTY'S CUSTODIAN OF PUBLIC RECORDS AT:

RECORDS MANAGEMENT LIAISON OFFICER

POLK COUNTY

330 WEST CHURCH ST.

BARTOW, FL 33830

TELEPHONE: (863) 534-7670

EMAIL: RMLO@POLK-COUNTY.NET

19.0 **Compliance with Laws and Regulations**

In providing all Services pursuant to this Agreement, the Contractor shall abide by all statutes, ordinances, rules, and regulations pertaining to or regulating the provisions of such Services, including those now in effect and hereafter adopted. Any violation of said statutes, ordinances, rules, or regulations shall constitute a material breach of this Agreement and shall entitle the County to terminate this Agreement immediately upon delivery of written notice of termination to the Contractor.

20.0 **Governing Law and Venue**

This Agreement shall be governed in all respects by the laws of the State of Florida and any litigation with respect thereto shall be brought only in the courts of Polk County, Florida or in the United States District Court, Middle District of Florida, located in Hillsborough County, Florida. Each party shall be responsible for its own attorneys' fees and other legal costs and expenses.

21.0 **Notices**

Whenever either party desires to give notice unto the other, it must be given by written notice, delivered (i) in person, (ii) via registered or certified United States mail, postage prepaid with return receipt requested, or (iii) via nationally recognized overnight delivery service, and addressed to the party for whom it is intended at the place last specified by each party. The place for giving of notice shall remain such until it is changed by written notice delivered in compliance with the provisions of this Section 21. For the present, the parties designate the following as the respective places for giving of notice, to wit:

For County: Roads and Drainage Division
330 West Church Street
Bartow, Florida 33830
Attention: Division Director

For Contractor:

_____

_____

Attention: _____

22.0 Severability

The invalidity, illegality, or unenforceability of any provision of this Agreement, or the occurrence of any event rendering any portion or provision of this Agreement void, shall in no way affect the validity or enforceability of any other portion or provision of the Agreement; any void provision shall be deemed severed from the Agreement and the balance of the Agreement shall be construed and enforced as if the Agreement did not contain the particular portion or provision held to be void. The parties further agree to reform the Agreement to replace any stricken provision with a valid provision that comes as close as possible to the intent of the stricken provision. The provisions of this section shall not prevent the entire Agreement from being void should a provision which is of the essence of the Agreement be determined to be void.

23.0 Annual Appropriations

Contractor acknowledges that during any fiscal year the County shall not expend money, incur any liability, or enter into any agreement which by its terms involves the expenditure of money in excess of the amounts budgeted as available for expenditure during such fiscal year. Accordingly, any agreement, verbal or written, the County may make in violation of this fiscal limitation is null and void, and no money may be paid on such agreement. The County may enter into agreements whose duration exceeds one year; however, any such agreement shall be executory only for the value of the services to be rendered which the County agrees to pay as allocated in its annual budget for each succeeding fiscal year. Accordingly, the County's performance and obligation to pay the Contractor under this Agreement is contingent upon annual appropriations being made for that purpose.

24.0 Employment Eligibility Verification (E-VERIFY)

A. Unless otherwise defined herein, terms used in this Section which are defined in Section 448.095, Florida Statutes, as may be amended from time to time, shall have the meaning ascribed in said statute.

B. Pursuant to Section 448.095(5), Florida Statutes, the contractor hereto, and any subcontractor thereof, must register with and use the E-Verify system to verify the work authorization status of all new employees of the contractor or subcontractor. The contractor acknowledges and agrees that (i) the County and the contractor may not enter into this Agreement, and the contractor may not enter into any subcontracts hereunder, unless each party to this Agreement, and each party to any subcontracts hereunder, registers with and uses the E-Verify system; and (ii) use of the U.S. Department of Homeland Security's E-Verify System and compliance with all other terms of this Certification and Section 448.095, Fla. Stat., is an express condition of this Agreement, and the County may treat a failure to comply as a material breach of this Agreement.

C. By entering into this Agreement, the contractor becomes obligated to comply with the provisions of Section 448.095, Fla. Stat., "Employment Eligibility," as amended from time to time. This includes but is not limited to utilization of the E-Verify System to verify the work authorization status of all newly hired employees, and requiring all subcontractors to provide an affidavit attesting that the subcontractor does not employ, contract with, or subcontract with, an unauthorized alien. The contractor shall maintain a copy of such affidavit for the duration of this Agreement. Failure to comply will lead to termination of this Agreement, or if a subcontractor knowingly violates the statute or Section 448.09(1), Fla. Stat., the subcontract must be terminated immediately. If this Agreement is terminated pursuant to Section 448.095, Fla. Stat., such termination is not a breach of contract and may not be considered as such. Any challenge to termination under this provision must be filed in the Tenth Judicial Circuit Court of Florida no later than 20 calendar days after the date of termination. If this Agreement is terminated for a violation of Section 448.095, Fla. Stat., by the contractor, the contractor may not be awarded a public contract for a period of 1 year after the date of termination. The contractor shall be liable for any additional costs incurred by the County as a result of the termination of this Agreement. Nothing in this Section shall be construed to allow intentional discrimination of any class protected by law.

25.0 Contractor Representations

25.1 The Contractor hereby represents and warrants the following to the County:

25.1.1 Contractor is a _____ company that is duly organized and existing in good standing under the laws of the State of _____ with full right and authority to do business within the State of Florida.

25.1.2 Contractor's performance under this Agreement will not violate or breach any contract or agreement to which the Contractor is a party or is otherwise bound, and will not violate any governmental statute, ordinance, rule, or regulation.

25.1.3 Contractor has the full right and authority to enter into this Agreement and to perform its obligations in accordance with its terms.

25.1.4 Contractor now has and will continue to maintain all licenses and approvals required to conduct its business, and that it will at all times conduct its business activities in a reputable manner.

25.1.5 Contractor has no obligation or indebtedness that would impair its ability to fulfill the terms of this Agreement.

25.1.6 Contractor has the personnel and experience necessary to perform all Services in a professional and workmanlike manner.

25.1.7 Contractor shall exercise the same degree of care, skill, and diligence in the performance of the Services as provided by a professional of like experience, knowledge and resources, under similar circumstances.

25.1.8 Contractor shall, at no additional cost to County, re-perform those Services which fail to satisfy the foregoing standard of care or which otherwise fail to meet the requirements of this Agreement.

25.1.9 Each individual executing this Agreement on behalf of the Contractor is authorized to do so.

26.0 Default and Remedy

If the Contractor materially defaults in its obligations under this Agreement and fails to cure the same within fifteen (15) days after the date the Contractor receives written notice of the default from the County, then the County shall have the right to (i) immediately terminate this Agreement by delivering written notice to the Contractor, and (ii) pursue any and all remedies available in law, equity, and under this Agreement. If the County materially defaults in its obligations under this Agreement and fails to cure the same within fifteen (15) days after the date the County receives written notice of the default from the Contractor, then the Contractor shall have the right to immediately terminate this Agreement by delivering written notice to the County. Upon any such termination, the County shall pay the Contractor the full amount due and owing for all Services performed through the date of Agreement termination.

27.0 Limitation of Liability

IN NO EVENT, SHALL THE COUNTY BE LIABLE TO THE CONTRACTOR FOR INDIRECT, INCIDENTAL, CONSEQUENTIAL, SPECIAL, EXEMPLARY, OR PUNITIVE DAMAGES OF ANY KIND OR NATURE, INCLUDING LOSS OF PROFIT, WHETHER FORESEEABLE OR NOT, ARISING OUT OF OR RESULTING FROM THE NONPERFORMANCE OR BREACH OF THIS CONTRACT BY THE COUNTY WHETHER BASED IN CONTRACT, COMMON LAW, WARRANTY, TORT, STRICT LIABILITY, CONTRIBUTION, INDEMNITY OR OTHERWISE.

28.0 Waiver

A waiver by either County or Contractor of any breach of this Agreement shall not be binding upon the waiving party unless such waiver is in writing. In the event of a written waiver, such a waiver shall not affect the waiving party's rights with respect to any other or further breach of this Agreement. The making or acceptance of a payment by either party with the knowledge of the other party's existing default or breach

of the Agreement shall not waive such default or breach, or any subsequent default or breach of this Agreement, and shall not be construed as doing so.

29.0 Attorneys' Fees and Costs

Each party shall be responsible for its own legal and attorneys' fees, costs and expenses incurred in connection with any dispute or any litigation arising out of, or relating to this Agreement, including attorneys' fees, costs, and expenses incurred for any appellate or bankruptcy proceedings.

30.0 Force Majeure

Either party hereunder may be temporarily excused from performance if an Event of Force Majeure directly or indirectly causes its nonperformance. An "Event of Force Majeure" is defined as any event which results in the prevention or delay of performance by a party of its obligations under this Agreement and which is beyond the reasonable control of the nonperforming party. It includes, but is not limited to fire, flood, earthquakes, storms, lightning, epidemic, war, riot, civil disturbance, sabotage, and governmental actions. Neither party shall be excused from performance if non-performance is due to forces which are reasonably preventable, removable, or remediable and which the non-performing party could have, with the exercise of reasonable diligence, prevented, removed, or remedied prior to, during, or immediately after their occurrence. Within five (5) days after the occurrence of an Event of Force Majeure, the non-performing party shall deliver written notice to the other party describing the event in reasonably sufficient detail, along with proof of how the event has precluded the non-performing party from performing its obligations hereunder, and a good faith estimate as to the anticipated duration of the delay and the means and methods for correcting the delay. The non-performing party's obligations, so far as those obligations are affected by the Event of Force Majeure, shall be temporarily suspended during, but no longer than, the continuance of the Event of Force Majeure and for a reasonable time thereafter as may be required for the non-performing party to return to normal business operations. If excused from performing any obligations under this Agreement due to the occurrence of an Event of Force Majeure, the non-performing party shall promptly, diligently, and in good faith take all reasonable action required for it to be able to commence or resume performance of its obligations under this Agreement. During any such time period, the non-performing party shall keep the other party duly notified of all such actions required for it to be able to commence or resume performance of its obligations under this Agreement.

31.0 Key Personnel

The Contractor shall notify the County if any of the Contractor's Key Personnel (as defined, below) change during the Term of the Agreement. To the extent possible, the Contractor shall notify the County at least ten (10) days prior to any proposed change in its Key Personnel. At the County's request the Contractor

shall remove without consequence to the County any of the Contractor's contractors, sub-contractors, sub-Contractors, agents or employees and replace the same with an appropriate substitute having the required skill and experience necessary to perform the Services. The County shall have the right to reject the Contractor's proposed changes in Key Personnel. The following individuals shall be considered "Key Personnel:"

Name: _____

Name: _____

Name: _____

Name: _____

32.0 Scrutinized Companies and Business Operations Certification; Termination.

A. Certification(s).

(i) By its execution of this Agreement, the Vendor hereby certifies to the County that the Vendor is not on the Scrutinized Companies that Boycott Israel List, created pursuant to Section 215.4725, Florida Statutes, nor is the Vendor engaged in a boycott of Israel, nor was the Vendor on such List or engaged in such a boycott at the time it submitted its bid, proposal, quote, or other form of offer, as applicable, to the County with respect to this Agreement.

(ii) Additionally, if the value of the goods or services acquired under this Agreement are greater than or equal to One Million Dollars ($1,000,000), then the Vendor further certifies to the County as follows:

(a) the Vendor is not on the Scrutinized Companies with Activities in Sudan List, created pursuant to Section 215.473, Florida Statutes; and

(b) the Vendor is not on the Scrutinized Companies with Activities in the Iran Petroleum Energy Sector List, created pursuant to Section 215.473, Florida Statutes; and

(c) the Vendor is not engaged in business operations (as that term is defined in Florida Statutes, Section 287.135) in Cuba or Syria; and

(d) the Vendor was not on any of the Lists referenced in this subsection A(ii), nor engaged in business operations in Cuba or Syria when it submitted its proposal to the County concerning the subject of this Agreement.

(iii) The Vendor hereby acknowledges that it is fully aware of the penalties that may be imposed upon the Vendor for submitting a false certification to the County regarding the foregoing matters.

B. Termination. In addition to any other termination rights stated herein, the County may immediately terminate this Agreement upon the occurrence of any of the following events:

(i) The Vendor is found to have submitted a false certification to the County with respect to any of the matters set forth in subsection A(i) above, or the Vendor is found to have been placed on the Scrutinized Companies that Boycott Israel List or is engaged in a boycott of Israel.

(ii) The Vendor is found to have submitted a false certification to the County with respect to any of the matters set forth in subsection A(ii) above, or the Vendor is found to have been placed on the Scrutinized Companies with Activities in Sudan List, or the Scrutinized Companies with Activities in the Iran Petroleum Energy Sector List, or has been engaged in business operations in Cuba or Syria, and the value of the goods or services acquired under this Agreement are greater than or equal to One Million Dollars ($1,000,000).

33. No Construction Against Drafter

The Parties acknowledge that this Agreement and all the terms and conditions contained herein have been fully reviewed and negotiated by the Parties. Accordingly, any rule of construction to the effect that ambiguities are to be resolved against the drafting party shall not apply in interpreting this Agreement.

34. Unauthorized Alien(s)

The Contractor shall not employ or utilize unauthorized aliens in the performance of the Services provided pursuant to this Agreement. The County shall consider the employment or utilization of unauthorized aliens a violation of Section 274A(e) of the Immigration and Naturalization Act (8 U.S.C. 1324a) and a cause for the County's unilateral termination of this Agreement. When delivering executed counterparts of this Agreement to the County, the Contractor shall also deliver a completed and executed counterpart of the attached "AFFIDAVIT CERTIFICATION IMMIGRATION LAWS" form.

(THE REMAINDER OF THE PAGE IS LEFT INTENTIONALLY BLANK;
THE AGREEMENT CONTINUES ON THE FOLLOWING PAGE
WITH THE PARTIES SIGNATURES.)

IN WITNESS WHEREOF, the parties hereto have executed this Agreement as of the Effective Date.

RFP # 26-011, Disaster Debris Removal Services

Addendum # 4

Question 1: If this is a term contract subject to renewal, what is the maximum number of option periods?
Answer 1: The term is 5 years from the effective date of the agreement.

Question 2: Has the current contract gone full term?
Answer 2: The current agreements were set to expire on February 15, 2026, but have been extended and will remain in place until the new agreements are in effect.

Question 3: Have all options to extend the current contract been exercised?
Answer 3: The agreements may extend upon Board approval.

Question 4: Who is the incumbent, and how long has the incumbent been providing the requested services?
Answer 4: The current incumbents are AshBritt, Inc. as the primary, Crowder-Gulf Joint Venture, Inc. as the secondary, and Ceres Environmental Services, Inc. as the tertiary. These agreements have been in place since February 16, 2021.

Question 5: To what extent will the location of the bidder's proposed location or headquarters have a bearing on any award?
Answer 5: There are no points associated with the proposer's location or headquarters.

Question 6: What is the required onsite response time?
Answer 6: Immediately after Impact.

Question 7: What is the total size or geographic scope of the service area?
Answer 7: The estimated geographic area 2500 square miles.

Question 8: What is the total mileage of roads within the scope of the service area?
Answer 8: Please see the response to Question 7 above.

Question 9: Are any specific professional credentials required to qualify for the contract?
Answer 9: The vendor must demonstrate significant professional expertise in hurricane response, mitigation, and recovery services including proven experience working in post – storm environments.

Question 10: Will the resulting contract include a guaranteed minimum payment to the vendor?
Answer 10: There is no guaranteed minimum payment. The successful vendor will be paid in accordance with the Price Sheet finalized with agreement.

Question 11: Are there any superseding prior agreements that may impact this contract?
Answer 11: No.

Question 12: When/what was the most recent event that precipitated the activation of the existing or previous contract?
Answer 12: Hurricane Milton 2024.

RFP # 26-011, Disaster Debris Removal Services

Addendum # 4

Question 13:	Approximately how many cubic yards of debris were collected from the most recent event?
Answer 13:	1 million (Vegetative & C & D)
Question 14:	What estimated or actual dollars were paid to the incumbent(s) after the most recent event?
Answer 14:	Estimated $16,200,000.
Question 15:	How many times have the incumbent's services been utilized in the previous five years?
Answer 15:	Two (2) Hurricane Events
Question 16:	Please reconfirm the due date for this procurement by providing it in response to answers to questions. 12.31 is New Year's Eve?
Answer 16:	See above, proposal receiving date extension.
Question 17:	If there was a previous solicitation for these services, what was its title, number, release date, and due date?
Answer 17:	RFP 20-298, Disaster Debris Removal. Released September 3, 2020, and opened October 14, 2020.
Question 18:	Why has this bid been released at this time?
Answer 18:	The current agreements were set to expire on February 15, 2026, but have been extended and will remain in place until the new agreements are in effect.
Question 19:	When is the anticipated award date?
Answer 19:	The agreement is anticipated to be executed in April or May 2026.
Question 20:	Are bidders permitted to deviate in any way from any manner of quoting fees you may be expecting? For example, if there is a pricing page in the RFP, can bidders submit an alternate fee structure? If there is no pricing page in the RFP, do you have any preference for how bidders should quote fees or can bidders create their own pricing categories?
Answer 20:	Please use the pricing sheet provided in the RFP. Negotiations on alternate pricing can be made at level 4 of the elevation.
Question 21:	Please describe your level of satisfaction with your current or recent vendor(s) for the same purchasing activity, if applicable?
Answer 21:	Polk County was satisfied with the current vendor.
Question 22:	Please provide the names of selection committee members?
Answer 22:	John Bohde, Deputy County Manager Michael Teate, Roads & Drainage Gloria Reyes, Roads & Drainage Ricky Norris, Roads & Drainage Darrell Johnson, Supplier Diversity

RFP # 26-011, Disaster Debris Removal Services

Addendum # 4

Question 23: Please provide the date, time, and location when the evaluation committee meeting will be held to evaluate proposals?

Answer 23: All meetings will be held at Polk County Administration Building located at 330 W Church St, Bartow FL 33830, on the 4th floor. The dates and times are proposed as follows:
1st Meeting – February 16, 2026, at 10:00am (Conference Room 413)
2nd Meeting – March 2, 2026, at 9:00am (Conference Room 413)
3rd Meeting – March 24, 2026, at 9:00am (Conference Room 407)

Question 24: Where will the evaluation committee meeting notice be posted?

Answer 24: Please visit the Procurement website at: https://www.polkfl.gov/business/procurement/.

Question 25: Where will the recommendation for award be posted?

Answer 25: Please visit the Procurement website at: https://www.polkfl.gov/business/procurement/.

Question 26: Will the recommendation for award be emailed to all respondents (awardees and non-awardees)?

Answer 26: Yes.

Question 27: Can the County confirm if the recommendation for award will be presented to the BOCC?

Answer 27: Yes.

Question 28: If the County schedules interviews after the written evaluation has been completed, is the written evaluation score compiled within the interview score to determine final ranking?

Answer 28: No. Please see "Elevation Level 3" in RFP Package, page 32.

Question 29: Page 18-Tab 1. Introduction. Please confirm whether *this is or is not* part of the scoring criteria?

Answer 29: There are no points associated with Tab 1.

Question 30: Page 18 – Tab 2. of the RFP indicates that Financial Reports are not part of the scoring Criteria. Having the Financial Capacity to fund a project for several months without receiving payment, but still paying your subcontractors, is extremely important in this industry. Would the County consider adding Financial Reports as part of the scoring criteria?

Answer 30: No.

Question 31: Page 21 of the Solicitation states that the audited financial reports shall be submitted in a separate envelope and must be marked in the left-hand corner on the outside of the envelope as follows: Can the County confirm that it does not want hard copies for Tab 2 and that electronic submission of these documents is acceptable?

Answer 31: Electronic submissions through the County's Kiteworks would be acceptable.

RFP # 26-011, Disaster Debris Removal Services

Addendum # 4

Question 32: The County has identified 7 Tabs to be electronically submitted. However, none of those tabs indicate where the required forms should be included. Can the County add Tab 8 for required forms?

Answer 32: The required forms may be added to Tab 1 or in a separate Tab 8.

Question 33: For the Draft Agreement, can the County confirm that no sections of this agreement should be filled out and submitted with our proposal, including pages 91 and 92?

Answer 33: Do not fill in the agreement. The draft agreement is a sample of what the agreement will be with the successful vendors.

Question 34: Does the County want the Affidavit Regarding the Use of Coercion for Labor or Services on page 93 filled out, signed, and submitted with our proposal?

Answer 34: The Affidavit Regarding the Use of Coercion for Labor form does not need to be submitted with the submittal. It will be required at the time the agreement is carried out with a successful vendors.

Question 35: Can the County please confirm if you have pre-identified Final Disposal Locations (FDS)?

Answer 35: Yes, the county has multiple sites throughout the county and receives pre-authorization every year in May or June.

Question 36: When was the last time the County had a contract activation for Debris Removal? How many CYs were removed?

Answer 36: Please see above responses for Question 12 and 13.

Question 37: Has the County determined which landfill(s) can be used? If so, please provide locations?

Answer 37: 10 Environmental Loop S, Winter Haven, FL 33880

Question 38: Will annual contract price increases based on Consumer Price Index (CPI) be allowed?

Answer 38: CPI may be used to determine an annual increase.

Question 39: Can the County provide which contractor held the previous or holds the current contract for the services requested in this solicitation with pricing?

Answer 39: Please see the information provided on the FTP site through Addendum 1.

Question 40: Can the County provide the address for their Emergency Operations Center?

Answer 40: 1890 Jim Keene Blvd, Winter Haven, FL 33880.

RFP # 26-011, Disaster Debris Removal Services

Addendum # 4

Question 41:	How often can we invoice?
Answer 41:	The monitor will review the invoices from the debris contractor to ensure they are correct and if deemed correct then the invoice will be submitted to Polk County.
Question 42:	Does the County have a monitoring firm contracted? If so, which monitoring firm?
Answer 42:	Monitoring services are currently being solicited at the same time as this RFP 26-012.

RFP # 26-011, Disaster Debris Removal Services

Addendum # 6

Question 1: Page 29 of the Solicitation indicates that hourly rates for labor may be increased by the Procurement Director after the contract has been in place for a minimum of 12 months. Can the County confirm that the unit rates may also be increased?

Answer 1: The hourly rates for labor have been removed, please see the FTP Site for "RFP 26-011, Addendum #6, Revised Attachment B". Yes, the unit rate may be increased by the Procurement Director after the contract has been in place for a minimum of 12 months.

Question 2: Regarding the evaluation of the Pricing, does the County intend on adding up all unit price line items to get a total figure to compare against other proposer's or will there be estimated quantities assigned to calculate a total extended price?

Answer 2: A "Revised Attachment "B", Compensation Schedule" has been provided on the FTP Site. See the revised "Tab 3, Compensation Schedule below.

Question 3: If quantities are going to be assigned, what will they be?

Answer 3: Quantities are not being assigned. Refer to Answer 2 above.

Question 4: Regarding the evaluation of the hourly pricing, how does the County intend on weighing the hourly line items?

Answer 4: Refer to Answer 2 above.

Question 5: Will all fees for both the unit rates and the hourly rates be totaled as one figure to determine the total price for evaluation? (We would like the exact methodology evaluators are required to use to determine which price proposal will receive the Maximum Points)?

Answer 5: The hourly rates have been removed from Attachment "B". Refer to Answer 2 above.

Question 6: Can the County please confirm your pre-authorized TDSR locations?

Answer 6: See Facility List on *next page…*

RFP # 26-011, Disaster Debris Removal Services
Addendum # 6

Revision
RFP Package, Tab 3 – page 22-23

Tab 3, Compensation Schedule (5 Points)
Proposers shall complete the compensation schedule included as Attachment B. For items not listed, the County will only pay the FEMA rates.

The unit pricing may be increased by the Procurement Director, or designee, after the contract has been in place for a minimum of 12 months, when it is in the best interest of the County. Increases will be determined by the appropriate price index as approved by the Procurement Director or Designee. No Board action will be necessary for unit price increases.

The Proposer with the lowest total cost will be allocated 5 points. Each additional Proposers cost point allocation will be calculated based upon their relative cost difference from the lowest Proposer.

Re: RFP #26-011 - Disaster Debris Removal Services

CrowderGulf is pleased to submit the enclosed proposal as a firm and irrevocable offer in response to the referenced bid and express our strong desire to partner with Polk County for Disaster Debris Removal Services. We are confident that our experience, resources, and commitment to collaboration make us the best choice to support the County's recovery efforts.

With over fifty-five (55) years of experience and more than **six hundred (600) successful disaster recovery projects** completed across sixteen (16) states—**including Florida**—CrowderGulf has developed one of the most capable recovery management teams in the nation. Our work has resulted in the removal, reduction, and disposal of over **four hundred twenty-five (425) million cubic yards of debris**, demonstrating our ability to meet and exceed the scope of work outlined by Polk County.

Commitment to Polk County

We understand the importance of a strong, cooperative relationship between the County and its contractor. CrowderGulf is committed to fostering a year-round partnership built on trust, transparency, and responsiveness. Our approach emphasizes open communication and collaboration to ensure services align with the County's priorities throughout the contract term. Since our last engagement with Polk County, we have implemented continuous improvement measures to strengthen our operations and ensure exceptional performance:

- **Dedicated, Experienced Project Management**: A veteran, experienced Project Manager will be assigned to Polk County for the duration of the contract—from activation through closeout—providing consistency and accountability. The Project Manager from the 2017 Hurricane Irma activation will not be assigned to any project within the County.
- **Revamped Subcontractor Pool**: We have thoroughly vetted and refined our subcontractor network to ensure quality and reliability. Subcontractors previously assigned to Polk County will not return for future activations.
- **Selective Contract Approach**: CrowderGulf takes a strategic approach to contract bidding, reducing saturation and enabling us to dedicate resources and attention to building strong client relationships.
- **Support for DMS and Final Disposal**: Our team will assist Polk County in identifying Debris Management Sites (DMS) and Final Disposal Sites (FDS), ensuring all sites are approved by the County prior to use and fully compliant with the Florida Department of Environmental Protection (FDEP) and other regulatory requirements.

Highlights of Past Projects in Florida

- **2025 APWA 5-Year Public Works Directors Roundtable Appreciation Award**
- **2023 APWA Award of Excellence**
- 2022 Hurricanes Ian & Nicole – 44 Contracts Activated – 62 DMS Managed – $412,363,005 – 19,160,671 Total Cubic Yards
- 2018 Hurricane Michael (FL, GA) – 16 Activations – $252,281,133 Invoice Amount – 12,256,345 Total Cubic Yards
- **2017 Hurricane Irma – American Public Works Association (APWA) – 2018 Contractor of the Year (City of Punta Gorda, FL)**

Proven Expertise and Resources

CrowderGulf brings unmatched experience and resources to disaster debris management. Our management team includes former FEMA Directors, Emergency Managers and certified Debris Specialists with decades of hands-on field experience. This expertise ensures that every aspect of debris operations, from initial mobilization to final closeout, is executed with precision, compliance, and efficiency.

Our personnel hold numerous FEMA and OSHA certifications in emergency management, safety, and environmental compliance and remain engaged from contract activation through closeout. This commitment to training and professional development means our team is fully prepared to navigate complex regulatory requirements, **including FEMA Public Assistance Program and Policy Guidelines and 2 CFR compliance**. We also provide **year-round "blue-sky" planning and training at no cost**, helping our clients strengthen readiness before disaster strikes.

Beyond expertise, CrowderGulf maintains a robust inventory of heavy equipment and a vetted network of subcontractors, ensuring rapid deployment and scalability for any event. Our selective approach to contract bidding reduces saturation, allowing us to dedicate resources and attention to Polk County when needed most.

Financial strength is another cornerstone of our reliability. CrowderGulf maintains substantial bonding capacity and a strong line of credit, enabling uninterrupted operations and timely, weekly subcontractor payments—even in the event of delayed reimbursements. This financial stability ensures that Polk County can count on us to deliver without compromise, even during concurrent contract activations. CrowderGulf has always met all financial obligations without interruption.

AGGREGATE BONDING CAPACITY	**$ 1,000,000,000**
SINGLE BONDING CAPACITY	**$ 250,000,000**
OTHER AVAILABLE FUNDING	**$ 150,000,000**

We also maintain ***all required insurances***, including General Liability, Personal Injury, Workers Compensation, Automobile/Equipment Liability, as well as Maritime Insurance, providing full protection for the County throughout the contract term. Additional information regarding insurance is included in our proposal.

Your Local Team

Don Madio, Florida Regional Director, and **Joe Hayes, Senior Project Manager and Regional Manager**, will serve as primary points of contact for Polk County. Both have extensive experience managing disaster recovery operations in Florida and are committed to supporting the County throughout the contract term. Our management team will be available to attend any meetings and is committed to being involved in day-to-day operations and any issues that may arise.

Most recently, Don and Joe managed multiple concurrent activations following Hurricanes Irma, Michael, Ian, and Milton, and will provide valuable knowledge and experience with an inherent commitment and dedication to Polk County.

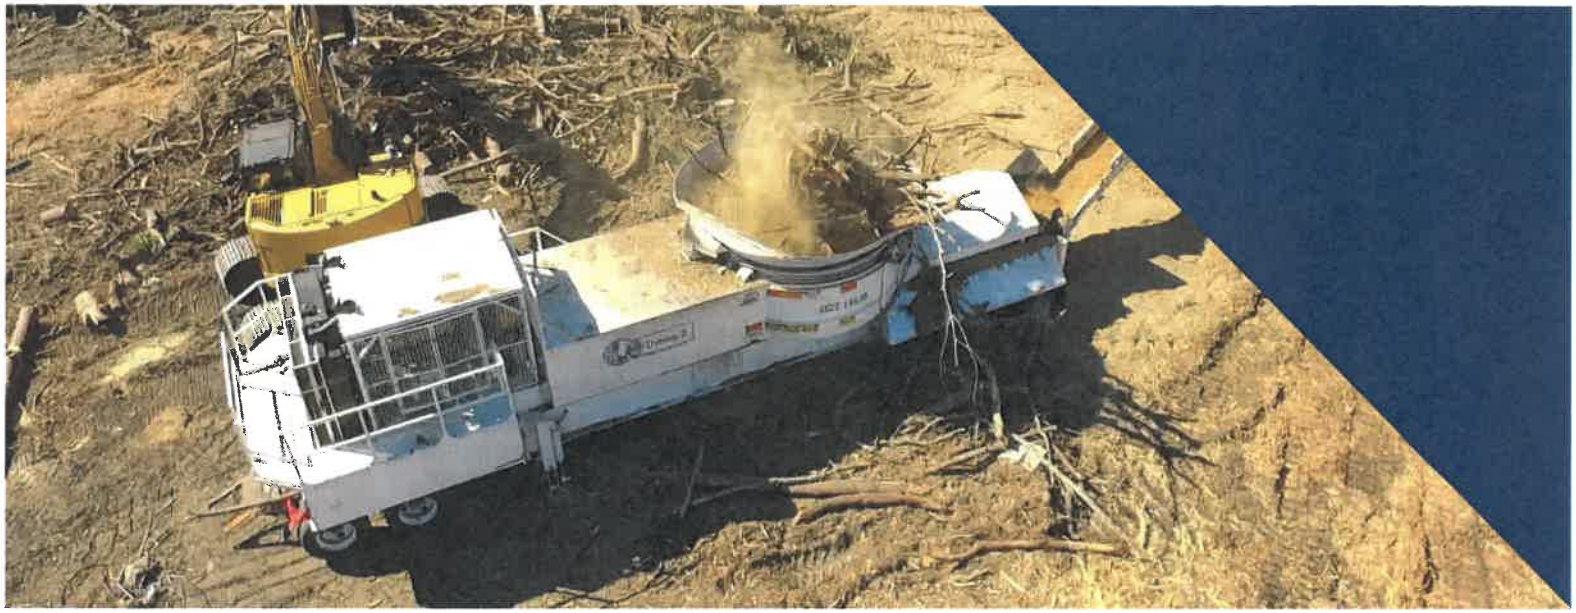
- **Don Madio**: 813-285-8749 | dmadio@crowdergulf.com
- **Joe Hayes**: 561-315-1360 | jhayes@crowdergulf.com
- **CrowderGulf Disaster Assistance Office**: 1-800-992-6207

Services

CrowderGulf has encountered and successfully handled everything within the County's Scope of Work identified in the RFP, demonstrated in the Past Performance section of this proposal. This includes removal of eligible disaster-related vegetation, construction & demolition (C&D), hazardous waste, white goods, e-goods, stump removal, marine debris removal, debris reduction and disposal etc.

Our Disaster Management Services include the following:

Pre Planning and Training	Waterway Debris Removal	Demolition
Emergency Road Clearance	Marine Salvage	Dredging
ROW & ROW Debris Removal	Bio-Mass Recycling	Portable Housing
Development & Operation of DMS	Derelict Vehicle and Abandoned Vehicle Removal	Levee Construction
Final Debris Disposal	Removal & Disposal of White Goods & E-Goods	Sonar Scanning
Hazardous Materials Handling	Tree Trimming and Removal (leaners /hangers)	Marine Construction
Technical Disaster Recovery Assistance	Sand Removal, Screening & Beach Restoration	Cellular Tower Construction
Historic Property Preservation	Temporary Ice, Water and Other Consumables	Road and Utility Work
Bulkhead and Pier Replacement Pile Driving	Temporary Power Services/Generators	Land Clearing and Site Prep



We greatly appreciate the opportunity to submit this proposal and look forward to building a strong, collaborative relationship with Polk County. Our team is prepared to exceed expectations and deliver safe, efficient, and compliant debris management services.

As the President of CrowderGulf, I attest that this proposal is presented in fairness and in good faith without collusion or fraud and I, Ashley Ramsay-Naile, have the authority to bind CrowderGulf in all transactions relative to the award of **RFP #26-011.** In addition, Reid Loper, Vice President, also has the authority to bind the company.

Best Regards,

Ashley Ramsay-Naile

Polk County, FL

RFP 26-011 for Disaster Debris Removal Services

Addendum # 6

Revised Attachment "B"

PROPOSAL PRICE SHEETS

DISASTER DEBRIS REMOVAL SERVICES

THE FOLLOWING ARE SUBMITTED BY THE BIDDER FOR THE PURPOSE OF:

A. Arriving at an estimated total price.

B. Establishing price factors to be utilized in adjusting the estimated total price resulting from modification(s) issued or annual renewals.

Clarification of pay items

A. Disposal costs at final site as designated by the County shall be the responsibility of the County.

B. Mileage noted in the Price Sheet shall be based on a one-way haul distance.

C. Line item 2: Work consists of the demolition, collection, transportation, and disposal of eligible C&D debris to an approved TDSRS or hazardouse waste final site. Demolition of structures and debris removal shall be calculated at a cubic yard rate.

D. Line item 6: The Contractor shall invoice the County for hazardous stump removal, backfilling, and hauling to the TDSRS utilizing the categories noted.

- Committed to the **same highly skilled qualified Project Management Team remaining with the project** from start to finish.
- Large cadre of management personnel with extensive disaster debris training and experience.
- **Completed simultaneous** debris projects after all major hurricanes **since 1969.**
- Successfully completed over **600 FEMA funded** disaster recovery projects.
- Effectively removed, managed and disposed of over **425 million cubic yards of debris.**
- Industry leader in **waterway debris removal**, including work from New Jersey to Texas.
- Fully committed to using local citizens and qualified local subcontractors to the maximum extent, including Minority Business Enterprise (MBE) owners.
- **No lawsuits, liens or judgments by clients ever** filed or pending and no bankruptcy proceedings filed or pending.
- **No lawsuits, liens or judgments by CrowderGulf** to clients ever filed.
- Over **$150 million** of company-owned/leased equipment available for rapid response.
- Experienced in always providing unlimited support and accurate FEMA compliant documentation to ensure that no clients are denied reimbursement.
- CrowderGulf offers a well-developed, adaptable, and proven Debris Management Plan that is reviewed and revised after every event.
- Quality Control always maintained to reinforce the "Clean as You Go" policy for debris removal.
- Technical advice and training available to all clients throughout the contract term, at no cost to client.
- Significant financial strength:

AGGREGATE BONDING CAPACITY	**$ 1,000,000,000**
SINGLE BONDING CAPACITY	**$ 250,000,000**
OTHER AVAILABLE FUNDING	**$ 150,000,000**

Over Fifty-five Years of Debris Management Experience

CrowderGulf is a national full-service debris management company, with over **fifty-five years** of experience throughout the United States, helping communities, like Polk County, recover from disasters as rapidly and efficiently as possible. The roots of the company began in 1969, from the work of John and Woodie Ramsay, brothers, and recent graduates of Auburn University. They grew up truck farming in south Mobile County, AL, less than 10 miles from the Mississippi State line. When Hurricane Camille devastated the Mississippi Gulf Coast in 1969, the Ramsay brothers joined forces with local contractors, to clean up Biloxi, MS and much of the Gulf Coast.

In 1984, as the brothers' work branched out into other areas, they began doing business as Gulf Equipment Corporation, as an Alabama General Contractor licensed in seven Southeastern states. Based on the work generated, they developed three divisions in Gulf Equipment: tower erection, construction, and disaster debris management.

In 2002, CrowderGulf was formally created by John Ramsay, as an independent disaster debris management company. John's honesty, reliability and respect for all clients, along with his extensive knowledge and experience in disaster debris cleanup, were key to the strong qualified team that he built over the years. Today, **Ashley Ramsay-Naile**, John's oldest daughter, is president of CrowderGulf. Ashley has continued to build a strong, qualified team, using her years of experience and excellent management skills to continue to grow and improve the Company.

During the last five decades, the Company has managed over **600 disaster recovery projects in 17 states and has successfully removed, reduced and disposed of over 425 million cubic yards of debris.** CrowderGulf's current and past performance, as highlighted in this proposal, demonstrates our expertise in successfully completing multiple contracts simultaneously, regardless of their locations or the amount of damage.

CrowderGulf has responded to numerous natural and manmade disasters that activated hundreds of contracts, each involving its own unique challenges and circumstances. Having performed debris management operations across the United States, CrowderGulf has encountered and successfully handled everything within the County's Scope of Work identified in this RFP. We are committed to completing every project in a minimum amount of time and in a safe, orderly, and practical manner. CrowderGulf contracts have involved disaster debris work in all eligible areas identified in FEMA's Public Assistance Program, Category A. The confidence that we can deliver services to the County effectively and efficiently is bred from our past successes.

All disaster management work is completed in full regulatory compliance with all local, state and federal agencies involved in disaster recovery, **including the Federal Emergency Management Agency (FEMA), the Federal Highway Administration (FHWA), the Environmental Protection Agency (EPA), the Florida Department of Environmental Protection (FDEP), The Florida Department of Transportation (FDOT), the Florida Department of Health (FDOH), and the Florida Division of Emergency Management (FDEM).** This commitment to regulatory detail has earned CrowderGulf a reputation as a company of integrity, dependability and reliability.

CrowderGulf is committed to working as a team with County personnel to facilitate the pre-planning that will ensure a smooth debris removal operation in the event of a disaster. We can assist in preparing and updating Debris Management, Emergency Operations and Mitigation Plans. In addition, CrowderGulf will provide preparedness training designed specifically to meet the needs of the County. **Our training and technical advice are provided free of charge throughout the contract term.**

The CrowderGulf Staff will provide Polk County with priority service, quality performance and expert on-site management. The combination of CrowderGulf's human resources, extensive equipment inventory, financial capacity and experienced subcontracting teams, allows the company to honor all contractual commitments with dispatch and efficiency, regardless of geographic location or size of disaster. The depth of these integrated components will also allow CrowderGulf to respond to those special needs of the County that may not have been considered in the pre-event contract.

Past Projects

2022 Hurricane Ian – Lee County, FL

Time Period: *09/30/2022-10/31/2023*

Funding Source: *FEMA DR-4673-FL*

Amount Invoiced: *$136,279,075*

Volume Removed: *8,135,961 Cubic Yards*

Number of DMS Managed: *18*

Lee County
Southwest Florida

CrowderGulf Key Personnel:

Joe Hayes – Regional Manager
Don Madio – Regional Director
Nick Pratt – Director of Operations

In the late afternoon hours of September 28th, 2022, Hurricane Ian made landfall in Cayo Costa, Florida as a later recategorized Category 5 hurricane: slamming into the Southwest Florida coastline with a fifteen-foot wall of surge and wind speeds more than 160 mph. The resulting operational environment, emergent challenges, and overwhelming austerity of the devastated coastline set the stage for a historic response in the wake of this catastrophic storm. Ian's fatal surge, paired with its relentless winds, claimed over 160 lives and caused over 112 billion dollars in damage: making it the second deadliest storm on record, and the costliest storm to ever make landfall in the State of Florida.

In the days leading up to landfall of Hurricane Ian, CrowderGulf senior staff and key members of the Lee County Solid Waste Department established communication and began high level communication and coordination on a potential debris mission related to Ian. Relying on a longstanding relationship, and a comprehensive framework of planning and preparation methodically structured by year-round coordination and successful past performance, both Lee County and CrowderGulf prepared for an imminent large-scale response. CrowderGulf's Senior Project Manager reported to the Lee County Emergency Operations Center in the early morning hours following the storm and immediately began conducting aerial damage assessments with the Lee County Sheriff's Office Aviation Unit. Upon approach over coastal Lee County and the barrier islands, the devastating impacts of Ian's pounding surge and blistering winds were clear, leaving the coastline etched with truly catastrophic destruction. Multiple coastal bridges experienced catastrophic failures because of the historic surge, leaving entire spans of the Sanibel Causeway in collapse and the Matlacha Pass Bridge washed into the coastal waters, taking with it the historic fishing village of Matlacha. With the County's coastal communities left inaccessible, it quickly became apparent that the distinct and historic nature of Ian's devastation would require an unprecedented response.

Having prepositioned an extensive fleet of resources and personnel throughout the State, additional key members of CrowderGulf's senior staff and over one hundred Emergency PUSH crews were on the ground just hours after the first round of aerial assessments the morning following landfall. With CrowderGulf's Senior Project Manager filling an advisory role for State and County Leadership in the County's EOC, CrowderGulf's Director of Operations began mobilizing additional prepositioned resources as well as the fleet of specialized equipment and operators needed to conduct the full-scale barge operation that would serve as a lifeline for the coastal communities isolated by Ian's devastation. CrowderGulf's Director of Safety began damage assessments from the ground, focusing on the emergent safety concerns stemming from the austere operational environment.

In total, CrowderGulf removed over ***6.3 Million Cubic Yards*** of debris from Lee County Rights-of-Ways. Dedicated planning, and proof of concept through practical application, made up the framework of contingencies that allowed CrowderGulf the immediate operational infrastructure needed to account for the scope of Hurricane Ian, and allowed CrowderGulf's senior staff to augment the rapidly evolving response with specialized operations and innovative solutions to the unique challenges created by the storm's historic devastation.

Additional work performed under the scope of the Lee County pre-event contract includes:

- ***The collection, management, and disposal of 461 Tons of Household Hazardous Waste (HHW)***, keeping environmental safety and compliance at the forefront of operations, and playing a critical role in protecting Lee County's sensitive coastal eco-systems from further devastation in the wake of Ian.
- ***The collection, management, reduction, and disposal of 12,493 White Goods***, adding an additional layer to CrowderGulf's role in safeguarding the environmentally sensitive areas of the county by properly removing and disposing of freon, as well as compacting and recycling the inert components of each unit.
- ***The collection and disposal of over 10,000 units of E-Waste***, further augmenting the dedicated removal and responsible disposal of mass volumes of hazardous debris streams posing the largest ecological threats to the environment of Lee County, and more broadly, the sensitive eco-systems of coastal Southwest Florida.
- ***The removal of over 6,000 Hazardous Trees, and nearly 40,000 Hazardous Hanging Limbs*** that posed an imminent threat to Lee County right of ways, and public safety at large.
- ***Specialized debris removal operations at over 60 School District of Lee County Schools,*** including a substantial hazardous tree removal operation that restored safe access to schools across the county, and allowed SDLC schools to reopen just weeks removed from landfall.
- ***Specialized debris removal operations at over 200 Lee County Parks and Facilities,*** including: all Lee County Parks, Lee County Emergency Services facilities, Lee County Utilities compounds/ features, Lee County Libraries, Lee County BoCC administrative buildings, Lee County Department of Transportation facilities, Lee County Transit compounds, and Lee County Health Department facilities. These operations required enhanced logistical planning due to the multiple scopes and the urgent need to restore access to vital county resources, while also ensuring the safety of Lee County personnel and the county's many citizens in desperate need of service.
- ***The clearance, staging, management, screening, and replacement of nearly 150,000 Cubic Yards of debris contaminated sand,*** identifying, securing, and utilizing *14 separate staging sites* to accommodate the mass volumes displaced by Ian. This extensive cradle to grave operation saw CrowderGulf charged with clearing, screening, and ultimately restoring the County's beaches. CrowderGulf's county-led screening operation, in conjunction with CrowderGulf's municipal beach debris removal operations, charged CrowderGulf with a key role in the restoration of the county's many beloved and historically significant beaches.
- ***Debris management for Lee County Natural Resources waterway debris removal program,*** including site management, reduction, and disposal of nearly ***250,000 Cubic Yards*** of waterborne vegetative and construction and demolition debris (C&D). At Lee County's request, CrowderGulf allocated additional resources, equipment, and personnel to the Natural Resource Department's effort, sharing use of three of its debris management sites (DMS) throughout the county, and played a critical role in restoring Lee County's waterways. CrowderGulf supported the Natural Resources Department and its contractor through 2 separate administrative and operational phases, seamlessly integrating the external operations into the dozens of CrowderGulf operations ongoing within Lee County.
- ***The staging, management, processing, and haul-out of reduced debris from Lee County DMS to final disposal sites (FDS)*** throughout the Tri-County area. Lee County's over ***6.3 Million Cubic Yards*** was comprised of nearly ***2.3 Million Cubic Yards of Construction and Demolition Debris (C&D)*** and nearly ***4 Million Cubic Yards of Vegetative Debris***. While the bulk of the volume collected throughout the county was comprised of traditional debris streams, the overwhelming volume totals were further compounded by the atypical ratio of C&D debris, posing distinct challenges throughout the entire debris management process. Successfully managing the overall debris volume, while accounting for the additional unique considerations defined by Ian's impacts, is a testament to both CrowderGulf's dynamic capabilities, and the dedicated planning effort between client and contractor.

2022 Hurricane Ian – City of Sanibel, FL

Time Period: *10/01/2022-07/24/2023*

Funding Source: *FEMA DR-4673-FL*

Amount Invoiced: *$ 56,243,244* **Number of DMS Managed:** *7*

Volume Removed: *1,923,997 cubic yards*

City of Sanibel Contact Information:

Scott Krawczuk, Public Works Deputy Director
Address: 800 Dunlop Road Sanibel, FL 33957
Phone: (239) 472-6397/ (239) 770-2554
Email: Scott.krawczuk@mysanibel.com

CrowderGulf Key Personnel:

Barrett Holmes – Regional Director
Reid Loper – Senior Vice President
Nick Pratt – Director of Operations

On September 28, 2022 Hurricane Ian made landfall on Sanibel Island as a deadly Category 4 Hurricane. Maximum sustained winds of 155 mph and a storm surge inundation of an unprecedented 12 to 18 feet caused catastrophic damage to Sanibel Island and the causeway linking island to the mainland. The causeway was breeched in multiple locations, and it would be weeks before Florida Department of Transportation could make temporary repairs.

The causeway damage did not hinder CrowderGulf's efforts to begin recovery operations. Following rapid aerial and ground assessments operations were underway. CrowderGulf immediately began coordinating, managing and supervising barge operations to ensure critical equipment, supplies and logistical support were available to enable a rapid recovery on the island. On October 3, 2022, CrowderGulf landed the first barge of heavy equipment on Sanibel Island to begin emergency push operations to clear debris and sand from roads to begin recovery. Within the next several weeks, CrowderGulf transported over 1,200 pieces of essential equipment and supplies to Sanibel Island. All Equipment, material and supplies necessary to support debris removal operations were transported by barge: debris removal trucks, Heavy loaders, excavators, skid steers, fuel trucks, water trucks, maintenance/support trucks, buckets trucks, and campers for housing. Additionally, barge transportation for other agencies was vital to expedite recovery: electrical utility trucks, fire trucks, police vehicles, refrigeration vans, propone tankers and fuel trucks were the many vehicles that were transported by barge.

Due to the extensive damage caused by Hurricane Ian, CrowderGulf established 5 debris management sites to remove and process over 2.2 million cubic yards of storm debris from the Island, including Lee County maintained Captiva. The effort also included safely removing 13,154 hazardous trees/limbs from roadways and bike trails, 15,583 white goods, 7,102 pieces of electronic waste and 6,873 pounds of household hazardous waste. One of the construction and demolition debris management sites was reclaimed to provide a nature preserve to the Sanibel Captiva Conservation Foundation (SCCF). During the debris removal operations, nesting bald eagles raised a pair of young fledglings adjacent to the debris management site. The Puschel Preserve Eagles were quite famous and became a symbol of resilience and recovery for the residents of Sanibel Island. The Puschel Preserve will serve as a lasting reminder that a beautiful and sustainable park was created following the devastation of Hurricane Ian for the residents and visitors of Sanibel Island to enjoy for generations to come.

Additionally, 12,357 cubic yards of bulk beach debris and 3,823 cubic yards of dirty sand was screened and processed. This enabled the City of Sanibel to open 3 beach parks and 7 beach access points so residents and tourists could once again begin enjoying the beaches on Sanibel Island.

2024 Hurricanes Helene & Milton – City of St. Petersburg, FL

Time Period:
10/11/2024 – 02/05/2025

Amount Invoiced: *$89,344,939*

Funding Source: FEMA DR-4828-FL/ DR-4834-FL **Number of DMS Managed:** 4

Volume Removed: *2,161,481 cubic yards*

Client Contact Information:
Bob Turner, Assistant. Director, Sanitation
Address: 2001 28th St N, Saint Petersburg, FL 33713
Phone: 727-239-9380
Email: Robert.Turner1@stpete.org

CrowderGulf Key Personnel:
Nick Pratt – Director of Operations
Don Madio – Regional Director
Max Clark – Project Manager

On September 26, 2024, Hurricane Helene struck the west coast of Florida. Its surge caused massive flooding in thousands of homes throughout the city. Less than two weeks later, Hurricane Milton struck as a category 3 storm—the second-most intense Atlantic hurricane ever recorded over the Gulf of Mexico. The city had never dealt with such an unprecedented situation. Helene was mostly a flooding event, however, Milton packed 110+ mph winds displacing debris across the city.

CrowderGulf crews and personnel were already working in the city following Hurricane Helene, but Milton called for hundreds of additional resources. More than 100 trucks and crews worked around the clock to remove and dispose of over 2.15 million cubic yards of debris. Four debris management sites (DMS) were used to process and reduce the debris that both storms generated. A citizen drop-off site was also seamlessly integrated into CrowderGulf debris management operations. The vegetative debris was reduced via grinding. C&D was compacted using specialized equipment. Over 5,000 White Goods, 20,000 units of E-Waste and over 850,000 lbs. of Hazardous Household Material were taken to an approved holding facility before final disposal. 160 hazardous trees were removed along with 26,000 hazardous limbs. Crews also removed over 70 hazardous stumps. CrowderGulf restored all four sites to their pre-use condition and completed all operations within 120 days.

2024 Hurricane Milton – City of Dunedin, FL

Time Period:
10/15/2024 – 12/21/2024, 11/1/2024 - Ongoing

City of DUNEDIN Florida

Amount Invoiced: *$89,344,939/ $1,400,000 (NRCS)*

Funding Source: FEMA DR-4828-FL/ DR-4834-FL/ NRCS **Number of DMS Managed:** 1

Volume Removed: *113,306 cubic yards/ 13,000+ cubic yards (NRCS)*

Client Contact Information:

Bill Pickrum, Director of Solid Waste
Address: 1070 Virginia St. Dunedin, FL 34698
Phone: 727-298-3215
Email: wpickrum@dunedin.fl

CrowderGulf Key Personnel:

Nick Pratt – Director of Operations
Don Madio – Florida Regional Director
Joseph Schley – Project Manager

In the fall of 2024, Hurricane's Helene and Milton generated more than 113,000 cubic yards of debris in the city of Dunedin. CrowderGulf responded with six self-loading truck and trailer units to remove several types of debris, including a large amount of C&D due to the unprecedent flooding caused by both storms. Crews also removed leaners, hangers, and stumps. One debris management site (DMS) was used to process all the material. Grinding of vegetation and compaction of C&D were the methods used for reduction. Over 240 white goods, 700 units of electronic waste, and over 74,000 pounds (37 Tons) of household hazardous waste were taken to an approved facility for final disposal. Debris removal, reduction, hazardous tree work, final disposal and site reclamation were all completed within 60 days.

In early November 2025, CrowderGulf began waterway debris removal operations for the City of Dunedin under Natural Resource Conservation Service (NRCS) grant funding. Critical city drainage channels sustained major damage and obstructions throughout the course of back-to-back tropical impacts in 2024, requiring both land-based and waterborne debris removal operations. For land-based applications, hand-labor, as well as specialized rubber-tired and rubber-tracked equipment are utilized to perform clearance and removal throughout low-access sections of the work area. For waterborne operations, a lightweight, high-floatation barge is utilized to access, clear, and remove debris from navigable sections of the impacted channels. This ongoing work is being conducted adjacent to and through both public and private property throughout the City of Dunedin, requiring enhanced coordination with city representatives, as well as commercial and private property owners throughout the area. The project's ongoing success is a tribute to CrowderGulf's capabilities and overall capacity to ensure not only a complete response across multiple project timelines and funding sources, but also our commitment to continued coordination with stakeholders through all phases of response and recovery.

2020 Hurricane Sally – Baldwin County, AL

Time Period:
09/25/2020 – 04/07/2021

Amount Invoiced: *$61,896,884*

Funding Source: *FEMA DR-4563-AL* **Number of DMS Managed:** *13*

Volume Removed: *5,656,294 Cubic Yards*

Client Contact Information:

Terri Graham - Baldwin County Solid Waste Director;
Address: 15140 County Road 49, Summerdale, AL 36580
Phone: (251) 972-8574
Email: TGraham@baldwincountyal.gov

CrowderGulf Key Personnel:

Nick Pratt – Director of Operations
Reid Loper – Vice President

Debris Management

Baldwin County is the southernmost county in the State of Alabama bordering the Gulf of Mexico. It is the largest County by area in the State, encompassing over 2,027 square miles of land mass and over 450 sq. miles of water. Baldwin County is one of the fastest growing Counties in Alabama and has a population of over 231,000 people.

The County had not experienced a landfall hurricane since Hurricane Ivan in 2004, but on September 16, 2020, Hurricane Sally made landfall in the County's municipal jurisdiction of Gulf Shores. On September 25th, 2020, the Baldwin County Commission authorized CrowderGulf to begin Right of Way (ROW) pickup of debris generated by this strong category 3 storm. CrowderGulf's debris management team and large cadre of self-loading grapple trucks began to remove the debris from the 1600 miles of county-maintained roadways. To effectively and efficiently manage the debris cleanup, CrowderGulf established, and managed 13 strategically located Debris Management Sites in the County. Our team worked closely with the Baldwin County Solid Waste Department and the County's monitoring company to certify and register over 70 trucks and trailers.

During the first week of clean up, CrowderGulf cleared over 263,752 cubic yards. After 30 days, CrowderGulf had cleared over 1,579,174 cubic yards from the ROW and cut approximately 27,727 dangerous or hazardous trees. The County experienced additional tropical storm force winds and rains from Hurricane Zeta which slowed the ability to utilize the established DMS. Despite setbacks encountered with the additional land falling storm, CrowderGulf was able to ramp up debris collection efforts and bring our debris removal totals to 3,162,952 cubic yards within the first 60 days of the project. At the conclusion of the project, CrowderGulf had removed, reduced and disposed of over *4,509,547 Cubic Yards of debris and removed and disposed over 39,799 trees, 6030 leaning trees along with 181 white good items and e-waste materials.*

Experience with Specialty Debris

CrowderGulf's supervisory personnel are experienced in identifying and assessing potential problems imposed by specialty debris including **Abandoned Vehicles and Vessels; Animal Carcass Removal, Demo Asbestos Containing Materials; Electronic waste (E-Waste); Freon and White Goods; Household Hazardous Waste (HHW); and Waterway (Sand, Beach, and Wet Marine Debris).** As mentioned above, CrowderGulf works in conjunction with all federal, state and local regulatory agencies and strictly follows all regulatory guidance. If removal and disposal is beyond the area of our expertise, we will use NEXGEN Environmental Inc., a highly qualified and licensed Hazmat contractor, to remove and dispose of any such materials.

NXGEN ENVIRONMENTAL

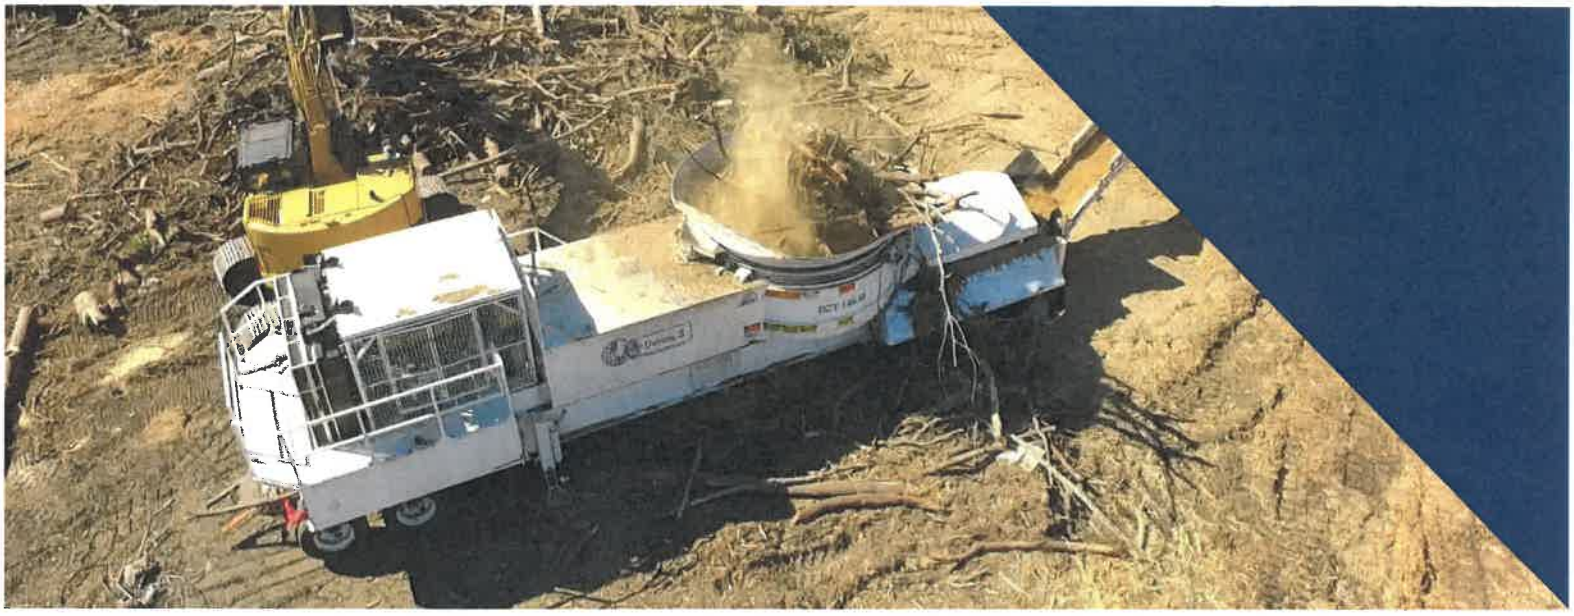
Operational Highlight – Hurricane Ian (2022)

Florida Division of Emergency Management (FDEM) – Lee County, Florida



- Private, Commercial (PPDR/ CPDR) and Titled Property Debris Removal *(11/30/2022 – 01/29/2024)*

CrowderGulf's operations for the State of Florida's Division of Emergency Management (FDEM) in Lee County, Florida following Hurricane Ian exemplifies our teams ability to conduct large-scale structural demolition and disposal operations, as well as debris removal from private, commercial, and public property. Throughout the operational timeline, CrowderGulf executed over 1,200 invidual work orders for private and commerial debris removal, including tasked debris removal in public property work areas. Case management responsibilities included review and execution of work orders, as well as project scheduling and daily coordination with State representatives. Scopes of service included individual operations for structural demolition, asbestos abatement and removal, debris removal, hazardous tree work and hazardous stumps, vehicle and vessel removal and disposal, white goods with freon removal, household hazardous waste, and concrete removal and disposal. CrowderGulf's operations for the State of Florida in service to Lee County resulted in *1.5 million cubic yards* of private and commercial property debris removal for total a project value of *$95,353,212*. Most notably, CrowderGulf's pre-event disaster debris removal activations accounted for over *10.3 million cubic yards* of additional debris debris removed throughout Lee County during the Hurricane Ian response. In total, CrowderGulf removed, processed, and disposed of nearly ***12 million cubic yards*** of debris within the county while simultaneously servicing 30 additional contract activations across the State of Florida stemming from Ian.

Polk County, FL

RFP 26-011 for Disaster Debris Removal Services

Tab 5. Resources and Availability

Organizational Chart

The Organizational Chart presented below depicts the structure and chain of command of the Company. CrowderGulf uses an organizational hierarchy based on the nationally recognized Incident Command System (ICS). The ICS employs a cascade of organizational components in groups of five or less to assure good quality control in high stress operations. This arrangement limits the respective spans of control to tolerable levels. CrowderGulf's use of the ICS-based hierarchy of responsibilities exploits the strength and flexibility of its management/supervisory structure.

Key Personnel

CrowderGulf Disaster Management brings the most responsible and experienced organization to partner with Polk County. CrowderGulf's extensive experience and personnel resources enable us to quickly assemble uniquely trained and experienced project teams and match specialized equipment and subcontractor resources with project execution requirements.

All CrowderGulf officers, managers and supervisors have been involved in previous successful disaster related to debris operations and have been fully trained in quality control, safety, ethics and drug policies of CrowderGulf. Should we need their services we have additional management resources that include retired and semi-retired construction, City, County, FEMA, and Power Company professionals who are experienced in managing and inspecting disaster related work. We also have a standby agreement in place with various engineering companies to provide personnel for engineering services, if needed.

▪ Project Management Team Member Bios

The names and biographical information about CrowderGulf's professional staff that could be assigned to the County's Management Team are provided below. Everyone is very experienced in emergency debris management. Depending on the need, additional staff may serve the County. All additional CrowderGulf staff added will be upon approval of the County. CrowderGulf personnel assigned are dedicated to the project from activation until project closeout. Assigned personnel will devote 100% of their time to the County. This provides consistency and enhances communication with all recovery agencies involved with the County's recovery. Those members highlighted in yellow have been specifically assigned to support Polk County's contract management needs throughout the year across the contract term, including any activations in the County. Staff members highlighted in green are assigned to support the direct pre-planning and client support needs of the County throughout the year across the contract term, as well as project management.

▪ Corporate Management Team / Top Level Management Personnel

The personnel listed below bring a wealth of disaster debris removal and management experience. They have been involved in management and operational decisions of all past contract activations for the past 10 years. Their knowledge and expertise make them invaluable assets in any debris removal operation from startup to final invoicing and reconciliation.

Ashley Ramsay-Naile – President

Mrs. Ramsay-Naile is a Graduate of the University of South Alabama. She has been involved in managing the day-to-day business of CrowderGulf operations since 1995 when Hurricane Opal impacted the Florida Panhandle. She has played a vital role in establishing the Disaster Administration Office (DAO) in which she has structured and managed since its acquisition. As President for CrowderGulf, her role has provided a liaison to clients, logistics coordination with our field operations, contract negotiations, preparation of proposals, subcontractor coordination, field supervisor, project management, and all aspects of back-office activities including accounts payable, accounts receivable and human resources.

Having served in both field and documentation management positions, Mrs. Ramsay-Naile is very knowledgeable in all aspects of the debris recovery business and a national leader in the field. **Due to Ashley's integrity and excellent leadership skills, CrowderGulf has continued to cultivate one of the most dedicated and capable teams in the disaster debris recovery business.** Mrs. Ramsay-Naile is involved with all aspects of decision making for CrowderGulf and is an authorized contract signer for the Company.

CrowderGulf President, Ashley Ramsay-Naile will act as an authorized signer, and will be directly involved in any resulting evaluations, negotiations and recommendations for Polk County.

Reid Loper – Senior Vice President

With over 15 years of experience in the disaster recovery field, Reid Loper is a recognized leader in managing recovery efforts for some of the nation's most catastrophic disasters. As a subject matter expert in debris specific FEMA policies and procedures, Loper is also an industry authority in waterway debris removal methods, having contributed significantly to the development of best practices in this specialized area. Loper's extensive experience includes pivotal roles in disaster recovery efforts such as the BP Deepwater Horizon oil spill, Hurricane Sandy in New Jersey, Hurricane Michael on the Florida Panhandle, along with record setting storms such as Hurricanes Ian, Helene and Milton.

Specializing in complex, high-risk debris removal operations, Loper has expertise in navigating challenging logistical hurdles, difficult access scenarios, hazardous waste handling and disposal in post-disaster environments. He is widely regarded for his ability to manage operations in challenging conditions and his leadership in ensuring efficient and safe recovery operations is second to none. Having reviewed and personally performed pricing for over 1,500 disaster-specific debris removal RFPs, he is a sought-after expert in the field. He has served on numerous panels alongside industry leaders and government officials, offering guidance on effective strategies for executing disaster recovery missions.

Reid Loper began his career at CrowderGulf in 2010 as a Senior Project Manager after gaining valuable management experience at a leading commercial construction company in Atlanta, GA. His ability to manage multiple projects simultaneously was honed during the BP Deepwater Horizon incident, where he successfully oversaw more than 1,200 personnel, 600 pieces of equipment, and eight forward operating bases across Alabama as an integral part of the Incident Command System. In 2012, he was selected to lead CrowderGulf's Hurricane Sandy Response for the Department of Environmental Protection in New Jersey. Since then, Loper has managed the removal of more than 92 million cubic yards of debris across various CrowderGulf projects. Promoted to Vice President, Reid played a pivotal role during the unprecedented 2017 storm season, overseeing 93 simultaneous debris missions. During the aftermath of Hurricane Michael in 2018, Loper led efforts to remove over 14.4 million cubic yards of debris from the Florida Panhandle. In 2020, one of the most active storm seasons in history, he managed more than 22 million cubic yards of debris removal across Louisiana, Mississippi, and Alabama.

In addition to his leadership role in disaster recovery, Reid Loper is a nationally recognized expert in waterborne debris removal and manages CrowderGulf's Waterway Debris Removal division, overseeing projects throughout the nation. A graduate of Auburn University with a bachelor's degree in aerospace engineering, Loper is a LEED Accredited Professional who has received certifications from FEMA and NIMS. He is a member of NEMA and holds OSHA 30 and HAZWOPER 40 certifications. He also holds general contractor licenses in Virginia, North Carolina, South Carolina, Georgia, Alabama, Mississippi, and Louisiana. He currently serves on the board of the Alabama Coastal Foundation. Loper is married and the proud father of three little girls.

CrowderGulf Senior Vice President, Reid Loper will act as an authorized signer, and will be directly involved in any resulting evaluations, negotiations and recommendations for Polk County. Additionally, Mr. Loper will assign CrowderGulf project management and field staff to tailor a complete project and field management team for any resulting activations in Polk County.

Jacob "Matt" Tate – Director of National Response and Recovery

Matt retired after 25 years with United States Army Corps of Engineers (USACE) with 20 of those years providing leadership in a variety of USACE projects, programs, and disaster related response missions. During his time with USACE, Matt was deployed as a Type 1 Debris Subject Matter Expert (Lead Debris SME) to 38 different disaster events that included floods, hurricanes, typhoons, wildfires, winter weather and building collapses throughout the United States and outside the continental United States. Matt has extensive knowledge in overall Project Management including Contract and Scope of Work development, Contract Negotiations, Budgeting, Scheduling, Resourcing, Cost Estimating, Quality Control, Safety and Debris Management /Removal Operations to include Right-of-Way Debris Removal (ROW), Private Property Debris Removal (PPDR), Commercial Debris Removal (CDR), Demolition, Waterway/Marine Debris, Debris Management Site (DMS) Development and Operations, Reduction, Recycling and Disposal. His extensive background makes him uniquely qualified to take on CG's newest role of "National Director of Response and Recovery". In this role, Matt will expand CG's opportunities in the federal markets while also bolstering our already successful pre-event contract, as well as establish and foster strategic teaming partnerships.

Matt started his esteemed career as an Engineering co-op student in 1999 with USACE Mobile District. After graduating from the University of South Alabama in 2003 with a Bachelor of Science in Civil Engineering, Matt worked his way up to Supervisory Civil Engineer, and in 2008 was selected as Mobile District Disaster Program Manager for the Emergency Management Branch, Operations Division. Serving in this position, he was responsible for readiness and response activities throughout the district's area of responsibility which included all hazards disaster related programs, directives, detailed plans, and preparedness measures. He also served as the USACE National Debris Program Manager/ Lead Subject Matter Expert where he managed all FEMA missions that included assigned debris activities to the Department of Defense. Matt frequently briefed and provided information to the Head Quarters USACE and General Staff. He served as the primary point of contact for all manners of debris mission activation and deployment recommendations, to be prepared for potential debris missions. Matt received numerous awards and recognition throughout his illustrious career.

CrowderGulf National Director of Response and Recovery, Matt Tate, will be directly involved in any resulting evaluations, negotiations and recommendations for Polk County. Additionally, Matt will continually advise and support management and field staff on updated Federal and State Public Assistance Policies, current debris management best practices and any specialized programs resulting from specific disaster events.

Nick Pratt – Director of Operations

Mr. Pratt serves as CrowderGulf's Director of Operations. Nick is the lead in the initial onsite team when a disaster strikes our clients. His ability to assess damage, evaluate the needs, coordinate field assets and subcontractor resources is invaluable to the overall success of our many projects. Since starting work with CrowderGulf in 2004, Nick has worked in every disaster activation from Florida to Texas and New York to New Jersey. He has honed his skills as he worked in various field leadership positions, from crew foreman, equipment operator, field supervisor, project manager, and currently as the Director of Operations. Nick is a trustworthy man of action that works with Clients in an honest and forthright manner to help restore cities and counties after a disaster. His work ethic and management skills have gained him the respect of all that work with him, including the CrowderGulf team, Clients and subcontractors.

Since 2005, Nick has been one of the first CrowderGulf team members to be on the ground and/or in the air assessing the needs of our clients, communicating with our team and directing the necessary resources to ensure every project is working to restore citizens to normalcy as quickly as possible. Mr. Pratt also serves as a vital Quality Control agent to ensure that all work is completed efficiently and within the parameters of all FEMA regulations, local and state laws.

He initially handled all the logistics for the Oil Spill project, putting hundreds of pieces of CrowderGulf equipment in place and directing and training hundreds of CrowderGulf employees throughout the operation. Nick has continued to assist our team by providing his expert knowledge and leadership in the field to complete any assignment given to him on or ahead of schedule. Nick has played a vital role as project manager for our large waterway debris removal contract with the New Jersey Dept. of Environmental Services, as a result of Hurricane Sandy in 2012. From 2012- 2018, Nick has worked numerous disaster responses for CrowderGulf providing Project Management and asset coordination assistance for multi-state responses. In 2017, Nick worked to secure subcontractors, field personnel, equipment and assets after Hurricane Harvey struck the Texas Coast.

Hurricane Irma devastated Florida two weeks later and he remobilized and oversaw the same task items along the Florida Coast. He managed to supply necessary subcontractors and equipment to all **91 activated contracts** in Texas and Florida after those two historical storms. **These two storms combined to require services from 683 Total Subcontractors throughout 2 States**. In addition, Mr. Pratt has been the Senior Project Manager in the field for the Florida Department of Environmental Protection waterway debris removal project that occurred after Hurricane Irma. Multiple Counties throughout Florida activated contracts and he worked with Project Managers to remove approximately **250,000 Cubic Yards** of waterway debris.

In 2018, Mr. Pratt provided leadership and resource assets for CrowderGulf's simultaneous activations in North Carolina following Hurricane Florence, in which CrowderGulf had 20 contract activations and in the Florida Panhandle for 11 additional contract activations following the devastating Category V, Hurricane Michael. Mr. Pratt worked to secure necessary subcontractors, field personnel and equipment to approximately 11 Clients after Hurricanes Laura and Delta struck Louisiana and Hurricane Sally severely damaged the Alabama Coast. **Most recently Mr. Pratt worked in the States of Florida, Georgia, North Carolina and South Carolina after Hurricanes Milton and Helene caused severe damage and historic flooding. These activations were historic in nature because the storms damages areas not prone to typical hurricane winds and flooding.** His ability to assess each project's needs, assign personnel, and inventory assets has been instrumental in our ability to meet each contract activation with the necessary resources to quickly and efficiently respond to each client. Mr. Pratt attended the University of South Alabama. He also holds certificates in CPR and First Aid, 40-hour HAZWOPER and refresher and in 30 HR OSHA Construction. (NIMS Trained)

CrowderGulf Director of Operations, Nick Pratt, will be directly involved with any activations in Polk County. Mr. Pratt will allocate and assign equipment, operators, project resources and subcontractors, including specialized debris removal equipment, ensuring a complete and fully staffed response in coordination with Polk County stakeholders.

Margaret R. Wright, Ph.D. – Senior Documentation Director

Dr. Wright has over 25 years of professional training and managerial experience. As a vital member of CrowderGulf's Senior Management Team, her roles have included technical proposal writing, training developer and facilitator, regulations compliance, management of record keeping, including day-to-day operations of work completed, communication and coordination with contracting entities during reconciling process, and conducting formal evaluations upon project completion.

Dr. Wright worked in field operations, 2003 – 2010, setting up and managing field offices, hiring and training personnel to work with all required documentation, and at CrowderGulf's Disaster Assistance Office (DAO) after all major disasters since 2010. Her work in the field began several years before monitoring companies were prevalent and before ADMS was developed. All ticket data were entered into CrowderGulf's unique and strong database that was developed by a retired engineer on staff. After Hurricane Ike in 2003, Dr. Wright developed an Orientation Training Program for Hurricane Preparedness and FEMA Regulations. She and Mr. Young presented training courses throughout Florida, Virginia, South Carolina and Texas for CrowderGulf Clients with pre-event contracts.

As an example of CrowderGulf's commitment to Clients, in 2017, Dr. Wright worked **onsite** for over six weeks with our client and their monitoring firm to assure that documentation and FEMA reimbursement went smoothly after Hurricane Hermine. She worked to properly invoice and document approximately 9 Million Dollars for the City of Tallahassee and Leon County. Dr. Wright currently assists with proposal writing and mentoring new employees on disaster debris operations. (NIMS Trained)

John Campbell – Senior Director

Mr. Campbell has experience in disaster response planning and management since 1968. He has a B.S. degree in Political Science from the University of Southern Mississippi and a Master's degree in Logistics Management from the Florida Institute of Technology. After retirement from the U.S. Army as a full Colonel with 30 years of service, he served for six years as Chief of Operations for Lee County Emergency Management in Fort Myers, Florida. He has direct experience in debris recovery operations from Hurricane Iniki in Hawaii and Hurricanes Charley, Ivan and Wilma that impacted Southwest Florida. He also provided mutual aide to Escambia County, Florida following Hurricane Ivan. During his 36 years of public service, he amassed an extensive background in high-level management, disaster response and training. He also trains CrowderGulf clients in all facets of debris management, Incident Command System (ICS), National Incident Management System (NIMS) and the FEMA PA program process. Mr. Campbell was previously qualified as an accredited Professional Emergency Manager through the Florida Emergency Preparedness Association (FEPA) and remains active in the organization.
(NIMS Certified Instructor)

Raymond "Buddy" Young – Senior Director

Mr. Young was **Regional Director of FEMA Region VI from 1993 – 2001** and served as Administrator for 133 federally declared disasters and emergencies. He is nationally known and recognized in the Emergency Management field and is extremely knowledgeable about FEMA policies and procedures. He is a retired Captain of the Arkansas State Police where he served for 26 years. As the Director of Operations, Mr. Young has been directly involved in the field operations for all major disasters from Hurricane Isabel in 2003. Mr. Young's FEMA knowledge and experience is invaluable to both CrowderGulf and all clients as decisions must be made during the cleanup operation. Mr. Young is one of the most knowledgeable people working in the debris management field with firsthand experience in managing major disasters. He is also a current member of the Board of Directors for the Disaster Recovery Contractors Association (DRCA). (NIMS Trained)

Gary Jones – FEMA Specialist and Technical Assistance Manager

Mr. Jones has over 28 years' experience working for the Federal Emergency Management Agency (FEM A). He served as **Deputy Regional Director of FEMA Region VI for 17 years**. During those 17 years as Deputy, he also served as Acting Regional Director for 4 years. Mr. Jones was responsible for administration of emergency management programs in the FEMA Region VI states of Arkansas, Louisiana, New Mexico, Oklahoma, and Texas. He provided direct oversight and implementation of response and recovery operations for presidentially declared disasters in the five-state region.

Additionally, Mr. Jones served as a Branch Chief managing several Technological Hazards Branch programs to include Radiological Emergency Management Preparedness, Radiological Defense, and Hazardous Materials, Earthquake and Hurricane Preparedness, Dam Safety and Chemical Stockpile Emergency Preparedness programs. He was designated Federal Coordinating Officer for Hurricanes Katrina, Rita and Georges and provided executive leadership to over 300 federally declared disasters. Mr. Jones has a master's degree from Tulane University and a Bachelor's Degree from the University of Arkansas. (NIMS Trained)

▪ Regional Directors and Regional Managers

Don Madio – Regional Director (FL)

Don Madio is a life-long resident of Florida and serves as CrowderGulf's Regional Director for the state. Mr. Madio began his career in the disaster recovery industry in 1999. Since that time, he has served on more than 200 mid-to-large scale disaster recovery, waterway, and debris management projects. Upon taking a position with CrowderGulf following Hurricane Mathew, Don oversaw seven debris removal and waterway projects that were successfully completed within the client's time frame and contract specifications. Shortly thereafter, in 2017, Don became Florida's Regional Manager following the devastation of Hurricane Irma, one of the most powerful and damaging Atlantic hurricanes ever recorded. His extensive management experience, multi-tasking and organizational skills served him well as he was tasked to oversee operations throughout the state.

He and his team of project managers and field supervisors successfully managed the removal of over 11.8 million cubic yards of debris for 64 debris management and waterway projects. Following Hurricane Michael's destructive impacts in the Florida Panhandle, Don helped supervise multiple projects throughout the region, where over 15 million cubic yards of debris were removed and disposed. Recently, Don worked throughout the state of Florida providing guidance and assistance to CrowderGulf clients affected by Hurricane's Ian and Nicole in 2022.

Don also helped supervise the management of 34 different contract activations for both storms. He continues to provide guidance for those projects and multiple activations in the wake of Hurricane Idalia along Florida's West Coast in 2023. When he isn't in the midst of storm season, Don enjoys traveling the state and building relationships with clients as well as providing contract maintenance, training, and technical assistance. A seasoned believer in pre-planning and operational improvement, Don also administers annual training to project managers, field supervisors, and regional subcontractors. Mr. Madio is a University of Florida graduate and holds multiple FEMA and USACE certifications.

Serving as Florida Regional Director, Don Madio will be one of the County's direct points of contact for day-to-day pre-planning and coordination, client education, prior to an event, and throughout any resulting activations in the County. Additionally, Mr. Madio will be directly involved with any evaluations or recommendations in Polk County.

Barrett Holmes – Regional Director (East Coast)

Colonel (Retired) Holmes joined the CrowderGulf Management Team with more than 30 years of successful leadership and management experience with the United States Army. He is a combat veteran of the United States Army with a distinguished military career where he successfully led engineer units from the platoon to the brigade level. He commanded the 20th Engineer Battalion and was assigned to the First Brigade Combat Team of the First Cavalry Division, Fort Hood, Texas. The Battalion was awarded the Army Valorous Unit Citation for their Combat Service during Operation Iraqi Freedom II. Under his leadership, the 20th Engineer Battalion supervised construction projects valued at over $718 million in eastern Baghdad, Iraq under austere conditions. Following his service in Iraq, Colonel Holmes was selected to command the Japan Engineer District in Tokyo, Japan. As the District Engineer, he led the design and construction agency for all Unites States forces and federal agencies in Japan and was responsible for a multinational construction program valued at over $975 million.

Colonel Holmes then served as the Defense Coordinating Officer (DCO), the Principal Department of Defense representative with the Federal Emergency Management Agency (FEMA) Region IV. He coordinated Department of Defense resources for numerous disasters to include Hurricanes Earl, Isaac, and Sandy and provided extended support for the United States Coast Guard during the Gulf Coast clean-up following the Deep-Water Horizon oil spill.
Since Barrett joined the CrowderGulf Team he has deployed in 16 activations and managed over 65 projects that include hurricanes, floods, tornadoes and ice storms. In 2022 when Hurricane Ian devastated Florida's Gulf coast, Barrett managed CrowderGulf's complex recovery operation on Sanibel Island, Florida. Sanibel's causeway and bridges breeched in multiple locations; CrowderGulf rapidly established barging operations and transported over 1,200 pieces of equipment to expedite recovery.

During his 40 plus years of service and work experience he has developed an extensive background in leadership skills, training management and disaster response. During his tenure with CrowderGulf, Barrett has conducted well over 200 training sessions with clients, and he is able to share lessons learned and experience with clients to better prepare them for disasters. He received a BA degree from Clemson University, as MA degree from the University of Florida and is a graduate of the Army War College with a Master of Strategic Studies degree. He also affiliated with the Society of American Military Engineers and the Army Engineer Association. (NIMS Trained)

Bill Doran – Director of Government Programs and Policy / Regional Director (LA)

A Louisiana native, Bill is a highly knowledgeable and experienced member of the CrowderGulf Team. He has decades of experience in Disaster Recovery and is considered a Subject Matter Expert (SME) regarding Federal Programs, State and Federal Government Intergovernmental Affairs involved in Disaster Preparedness, Response, Recovery and Mitigation, to include Federal Grant Programs for FEMA, HUD, USDA, USACOE, Dept of Homeland Security and U.S. Armed Forces. He retired as a presidentially appointed Federal Coordinating Officer (FCO) with FEMA after 8 years, serving in both the Obama and Trump Administrations.

Prior to joining FEMA, Bill retired as an Air Force Colonel with 28 years of total service. Bill's experience includes over 25 Federally declared disasters in 9 different states. These include Hurricane Harvey, Texas & Baton Rouge Flood Recovery, the Moore Tornado in Oklahoma, and Katrina/Rita Long Term Recovery as well as serving as the Response Director for FEMA Region 6.

While in the Air Force, Bill was assigned as Joint Director of Military Support for the Louisiana National Guard to support domestic operations for Homeland security and Disaster support to civil authorities, including the Responses to Hurricanes Katrina/Rita, Gustav/Ike and the BP Oil Spill. Prior to that he also served as the full-time Squadron Commander for Aircraft Maintenance of the F-15 aircraft while stationed at NAS Joint Reserve Base New Orleans. Highlights of service include conducting operations for Noble Eagle post 9/11 and deploying to the Middle East twice for ongoing operations. Bill holds degrees from the Emergency Management Institute Executive Academy (Harvard Kennedy School of Government, Naval Post Graduate School, University of Hawaii, Texas A&M), the University of Maryland, (MD Master of Science in Management), the USAF Air War College and Louisiana State University (B.A. Journalism). Bill is also a Certified Emergency Manager (CEM) by the International Association of Emergency Managers.

Leigh Anne Ryals, ALEM, CLEM – Regional Director (AL, MS & TX)

Mrs. Ryals has over 17 years of experience and training in Emergency Management. She has 11 years serving as an Emergency Management Director and 5 years serving as a Disaster Public Information Officer. She has worked on 12 Presidential Disaster Declarations and one Incident of National Significance, the Deep-Water Horizon oil spill, and of those disasters she served as Incident Commander for eight of those events prior to starting work with CrowderGulf. Mrs. Ryals joined CrowderGulf in 2011 and immediately began work in North Carolina following Hurricane Irene. She used her knowledge of the FEMA Public Assistance Reimbursement Program and experience to provide quality control and project oversight to assist our team and our clients in program policy and procedures. She serves as a Regional Director for the states of Alabama, Mississippi and Texas.

Mrs. Ryals experience includes writing Debris Management and Mitigation Plans for County and Municipal Governments. She is extremely knowledgeable with FEMA's public assistance policies and procedures and has been successful in the FEMA appeals process. She has served as a member of the FEMA Hurricane Liaison Team and testified before the 110th and 111th U.S. Congress on Hurricane Katrina Preparedness and Response Initiatives – Best Management Practices. She obtained valuable knowledge in documentation proper damage survey, reports/technical writing, and extensive knowledge on FEMA policy and procedure. Mrs. Ryals learned first-hand the type of documentation and determination it takes to be successful in an OIG / FEMA audit.

Mrs. Ryals utilizes her knowledge and previous experience to train new Project Managers and enjoys sharing her experience through classes, seminars and national and state held conferences. She conducts client preparedness and education training and serves as the Regional Director for CrowderGulf and a Project Manager when needed. Following Hurricane Milton in Florida, Hurricane Matthew in Georgia, Hurricane Harvey in Texas and Hurricane Sally in Alabama, Mrs. Ryals utilized her knowledge and skills to provide project management expertise. Following Hurricane Ian, Mrs. Ryals provided Project Management Services to Synergy Inc., a private insurance Company representing the Charlotte County Florida School System. This work included the collection, removal and disposal of debris for thirty-five school properties and the demolition of two school facilities. She was Licensed and Certified as an Alabama Emergency Manager; and a NIMS 300 & 400 Course Instructor. She holds numerous FEMA and State Emergency Management Certifications.

Drew Sprinkle – Deputy Director of Pre-Event Services

Mr. Sprinkle currently serves as the **Deputy Director of Pre Event Services** and **Regional Manager for Alabama and Mississippi** at CrowderGulf. With over a decade of experience in the disaster debris removal industry, Drew has successfully led a wide range of complex projects. His diverse roles within CrowderGulf have provided him with a comprehensive understanding of the business's multifaceted operations.

Drew's initial experience with CrowderGulf was in 2008 following Hurricane Ike, serving as a Field Supervisor on the Bolivar Peninsula in Texas. In 2010, he contributed to the BP Oil Spill response as a Logistics Supervisor. Drew returned to CrowderGulf full-time role in 2017 as a Project Manager, bringing valuable experience from his previous position as a Logistics Account Manager at a leading firm in Chattanooga, TN.

From 2018 to 2022, Drew directed numerous projects of varying size and complexity, including:

- **2018:** Successfully supervised over 200 employees during a major environmental response in South Florida, overseeing the removal of more than 4,000 tons of decomposing marine life caused by a Red Tide Fish Kill.
- **2018:** Managed recovery operations in **Horry County, SC**, following **Hurricane Florence**.
- **2018-2019:** Led debris removal and disposal efforts in **Parker** and **Lynn Haven, FL**, after **Hurricane Michael**, coordinating the removal of over **1.2 million cubic yards** of debris.
- **2020**: Served as Project Manager for the City of Gulf Shores, AL, in the aftermath of Hurricane Sally,
- **2022**, Managed recovery efforts in the City of Venice, FL, following Hurricane Ian.

In addition to his debris recovery expertise, Drew has overseen several high-profile special projects. Most recently he managed a **$9 million marine construction project for The Nature Conservancy,** which involved constructing 33 oyster reefs, using precision limestone placement techniques, to ensure design tolerances were met. As Senior Project Manager, he was responsible for project bidding, subcontractor coordination, submittal packages, client communication, and invoicing.

Drew has recently assumed a more prominent role at the CrowderGulf Disaster Administrative Office (DAO), where he serves as the **Deputy Director of Pre-Event Services**. In this capacity, he facilitates communication between CrowderGulf clients and the Operations team to ensure the accurate management of contract amendments, cost estimates, and proposal organization, and not to exceed amounts. Drew also plays a key role in pricing pre-event contracts under the direction of Senior Vice President Reid Loper.

Drew holds a Bachelor's degree in Business Administration with a concentration in Supply Chain Management from Auburn University. He is a licensed General Contractor in **Alabama, North Carolina, California, and Tennessee**, and holds multiple industry certifications, including **OSHA 30, TWIC, and NIMS**. Additionally, he possesses a U.S. **Coast Guard Merchant Mariner Credential (OUPV)**.

CrowderGulf's Deputy Director of Pre-Event Services, Drew Sprinkle, will be one of Polk County's day-to-day points of contact for contract-related updates and pre-event services.

Joe Hayes - Regional Manager (FL)

Joe Hayes grew up around the storm relief and disaster debris management industry. Combined with a strong background in general contracting, agriculture, and various other aspects of debris management, he is accustomed to providing the leadership and oversight to complete projects expediently, efficiently, and to the clients' utmost satisfaction. In 2016, Joe joined the CrowderGulf team as a field supervisor in the wake of Hurricane Matthew. In 2017, following Hurricane Irma, Joe was tasked as a Project Manager; managing several projects throughout the South Florida area after Irma caused widespread damage throughout the state. Through these projects and the combined effort of the CrowderGulf team, **10 MILLION CUBIC YARDS** of Hurricane Irma related debris were managed and disposed of; facilitating an extensive statewide recovery.

In 2018, following the devastation of Hurricane Michael's effect on the Florida Panhandle, Joe was tasked with managing the removal and disposal of debris left by this strong category 5 hurricane in Jackson County, FL. Mr.

Hayes, along with his CrowderGulf team were able to mitigate the challenges of such a large-scale disaster all the while employing innovative support and leadership to provide relief to the devastated county. He and his team of field supervisors oversaw hundreds of assets and personnel; providing the logistics that resulted in over **2.5 MILLION CUBIC YARDS** of debris being removed and disposed of in Jackson County alone.

In 2020, Mr. Hayes along with other key members of the CrowderGulf management team were sent to Calcasieu Parish, Louisiana after Hurricane Laura tore through the state. Having been tasked with managing the recovery effort in the unincorporated portion of the Parish, Joe and his colleagues removed over **7 MILLION of the estimated 12.5 MILLION CUBIC YARDs** of debris for the Parish and its included municipalities.

In 2022, following the catastrophic impacts of Hurricane Ian in Lee County, Florida, Joe and the CrowderGulf team collected over **6.3 MILLION CUBIC YARDS** from the rights-of-way throughout the unincorporated county, contributing to an over **12 MILLION CUBIC YARD** CrowderGulf response and recovery effort throughout all of Lee County. Returning to Lee County in 2024, Joe and his management team collected over **550,000 CUBIC YARDS** of debris stemming from Hurricanes Helene and Milton, including extensive debris removal barging operations for three of the County's heavily impacted barrier island communities.

Along with Joe 's experience in managing large-scale disaster recovery projects, he has also managed a broad range of other debris projects throughout Florida and the southeast. When he is not in the field, Joe is a CrowderGulf representative for the State of Florida, ensuring the utmost level of preparedness and support for each client. Mr. Hayes is a Florida native, a lifelong Palm Beach County resident, and is an honors graduate of Florida Atlantic University. (NIMS Trained)

Serving as Florida Regional Manager, Joe Hayes will be one of the County's direct points of contact for day-to-day pre-planning and coordination, client education, prior to an event and throughout any resulting activations in the County. Additionally, Mr. Hayes will be directly involved with any evaluations or recommendations for Polk County.

Barton Holmes – Regional Manager (East Coast)

Barton brings to CrowderGulf a distinguished background in Law Enforcement and service in the US Army with US Army Special Operations Command. Mr. Holmes joined CrowderGulf in 2016 as a Field Supervisor during multiple activations for Hurricane Matthew where he developed and implemented the industry's first usage of drones for debris removal documentation and volumetric calculation. His insight allowed the CrowderGulf team to streamline various aspects of the Hurricane Matthew recovery effort for the Island of Hilton Head and other clients along the East Coast. In 2017, Barton was tasked as a project manager for multiple projects along the Texas Coast in the aftermath of Hurricane Harvey. In 2021, Mr. Holmes worked with Warren County and Bowling Green, Kentucky, after an EF-3 Tornado caused damage throughout the State. The Kentucky Team worked to remove and dispose of over 200,000 cubic yards of debris. They battled severe weather in the form of ice storms and even had to deal with another tornado hitting the City of Bowling Green, just a month after the first.

After Hurricane Ian devastated much of Lee County, FL, in 2022, Barton was the Project Manager that oversaw the massive cleanup in Fort Myers Beach, FL. His calm manner and leadership skills were a major asset to the town and CrowderGulf's team. He conscientiously worked through all the issues and was able to manage the removal of over 800,000 cy of debris. Currently, he serves as the Regional Manager for CrowderGulf's clients in the Eastern Region, developing and conducting training programs and enriching CrowderGulf's long lasting relationships with our clients.

Valerie Gonzalez – Regional Manager (TX)

Ms. Gonzalez is a native Texan who enjoys the State's vast natural beauty. She believes in honesty, integrity, and a strong work ethic. Born and raised in the Lower Rio Grande Valley, Ms. Gonzalez attended the University of Texas at San Antonio, where she earned undergraduate degrees in Biology and Criminal Justice. She later attended graduate school in Houston, earning her Juris Doctor from the Thurgood Marshall School of Law, where she graduated as valedictorian. Before joining CrowderGulf, Ms. Gonzalez served as the Director of Environmental Health for Aransas County. During her tenure, she oversaw debris operations following Hurricane Harvey—a catastrophic Category 4 storm that made landfall in Aransas County. In her role as debris manager, she successfully coordinated local, state, and federal efforts related to debris cleanup, including waterway and private property debris removal.

Ms. Gonzalez's ability to effectively communicate, collaborate, and coordinate with multiple agencies involved in debris management led to her recruitment and acceptance into the Texas Department of Emergency Management (TDEM) Disaster Recovery Task Force (DRTF) as a debris specialist. As CrowderGulf's Texas Regional Manager, Ms. Gonzalez assists local government personnel by providing training in debris management and identifying Disaster Management Sites in strategic locations to support more efficient debris removal. These trainings offer pre-storm insight into debris operations and post-storm evaluations to identify opportunities for operational improvement.

Since joining the CrowderGulf team, Ms. Gonzalez has successfully managed debris operations in several locations. Most recently, she played a key role in the debris response to the catastrophic July 4, 2025, floods that impacted the San Gabriel River in Georgetown, Texas. In the 2024 storm season, she directly managed several projects including Clay County, Florida, following Hurricane Helene/Milton in October 2024 and Angleton, Texas, after Hurricane Beryl in July 2024.

Across these projects, Ms. Gonzalez has assisted with permitting temporary Disaster Management Sites, communicating daily with clients to provide progress updates and prioritizing debris collection, scheduling debris trucks by zone, identifying and setting up final disposal sites, and coordinating with monitoring companies to ensure successful project completion. As the Texas Regional Manager, she also oversaw various other Hurricane Beryl projects.

Other projects that Ms. Gonzalez was also involved in include Winter Storm Uri in 2023 which heavily impacted Austin and Travis County, the straight-line winds that impacted Angleton March 2023, and the June 2023 straight-line winds in Montgomery County.

▪ Field Personnel and Project Management Team

Jeff Zemlik – Safety Manager

Mr. Jeff Zemlik graduated from Columbia Southern University, graduating with degrees in Occupational Safety and health as well as Organizational Management. Originally hailing from the Chicagoland area, Mr. Zemlik joined the CrowderGulf team in 2010 during the BP Oil Spill. During this cleanup effort, Jeff headed up the contractor safety program for the state of Alabama.

Every CrowderGulf activation requires Safety in the field, and Mr. Zemlik's field presence is one of his strongest qualities. Regardless of size, safety policies and procedures are strictly enforced, either by Jeff personally, or by the team of trained safety professionals managed by Mr. Zemlik. During Hurricanes Harvey and Irma, Jeff directed the safety program for over 1,500 hauling trucks doing work in three states without recordable injuries or fines. In addition, he provided operational oversight for debris removal operations in Brazoria County, TX.

In 2018, after Hurricane Michael Jeff took the lead in Panama City's "PUSH" operations, providing oversight for the City's leaner/hanger program and removal of trees from publicly owned spaces, as well as providing safety leadership to the entire area of operations.

During the hyperactive hurricane season of 2020, Jeff spearheaded supplying PPE to various government agencies pertaining to COVID-19 protection. 2020 project highlights included removal of 60,000 yards of seaweed after Hurricane Cristobal, over 200 PUSH crews post Hurricane Laura, and working closely with the Audubon Society of New Orleans, LA for post Hurricane Zeta cleanup at several of their unique facilities that house common zoo animals and endangered species. In 2022, Mr. Zemlik was deployed to Lee County, Florida, providing safety and environmental management, and overseeing all material being hauled from debris management sites to final disposal for all CrowderGulf projects.

Between 2023 and 2025, Mr. Zemlik demonstrated exceptional leadership and safety oversight during a series of severe storms, including Hurricane Idalia, Beryl, Helene, and Milton, across Florida, Texas, and South Carolina. He coordinated rapid response efforts such as hazardous limb and fallen tree removal from Taylor County, Florida schools, debris clearance, and emergency power restoration, often working tirelessly from sunrise to sunset, even during holiday weekends. His expertise ensured the safety of all CrowderGulf work crews and the swift reopening of several public schools, alongside supporting municipal agencies like Laurens County Electric Co-OP in South Carolina and Sarasota County Parks in Florida, where he managed large-scale hazardous tree removal, debris clearance, and specialized programs addressing storm-damaged appliances, thereby safeguarding communities and restoring vital infrastructure amidst ongoing natural disasters.

In addition to his accredited degrees, Mr. Zemlik holds his OSHA 500, trains all HAZWOPER associates, USACE CQM and 385-1-1 training. He also has his Asbestos Inspector and Supervisor Certifications. Mr. Zemlik manages the DOT program for the Company, and is trained in Fishbone root cause analysis, incident inceptions. Additional training and certifications include SONS & TWIC, OSHA 10-hour General Industry, OSHA 510 & 500, Leadership & influence. Jeff has also obtained his ISA Certified Arborist classification and is a local ISA member of both **Texas and Florida Chapters**. (NIMS Trained)

Serving as Safety Manager and CrowderGulf Staff Arborist, Jeff Zemlik will be involved directly in all aspects of operational safety and quality control during any future activations in Polk County.

Wilber Ledet – Deputy Director of Operations

Wilber's disaster experience started when he and his family lost their home in Biloxi, MS, during Hurricane Katrina in 2005. He built a new home for his family in a safer location and after Hurricane Ike in 2008, he began working for CrowderGulf, managing the removal of wet debris targets identified by the CrowderGulf sonar crew, from West Galveston Bay, Tiki Island and Omega Bay, TX. This project also included his expertise in managing the stored vessel reclamation program in which he assisted in the removal of hazardous substances from the vessel and coordinated its proper disposal.

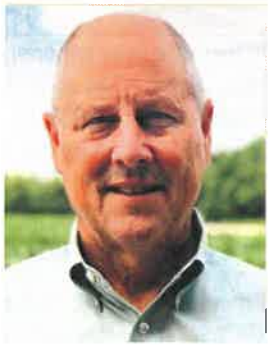
From 2010 to 2012, Wilber served as Project Manager, assigned to the Deepwater Horizon Oil Spill, managing up to 800 HazWoper certified responders and facilitating daily meetings with Environmental Teams and BP officials. In 2012, following Hurricane Isaac, Mr. Ledet was assigned as Project Manager to oversee the sand removal, sand screening and beach berm construction for the Town of Dauphin Island, AL. construction for the Town of Dauphin Island, AL.

Wilber's excellent leadership and work ethic has been instrumental in CrowderGulf's success in projects throughout several states from New Jersey after Hurricane Sandy in 2012, to managing large land and waterway projects in AL, LA, FL, SC, after hurricanes from 2014 to 2023.

Wilber currently acts as the Assistant Operations Manager and is instrumental in setting up operations after every disaster activation and ensuring that every project is completed to the satisfaction of CrowderGulf's clients. His knowledge of how to get an operation started and taking it to successful completion while effectively communicating with Clients, subcontractors, and the Management team, is a major contributor to CrowderGulf's success in every project.

CrowderGulf Deputy Director of Operations, Wilber Ledet, will be directly involved with any future debris removal activations in Polk County. Mr. Ledet will assist in allocating and assigning equipment, operators, project resources and subcontractors, including specialized debris removal equipment, ensuring a complete and fully staffed response in coordination with Polk County stakeholders.

Matt Lucas – Senior Project Manager



Mr. Lucas has over 25 years of extensive experience in debris cleanup. He managed the Hurricane Harvey cleanup in Port Arthur, TX, which resulted in **1 million cubic yards** of debris being removed and properly disposed.

After Hurricane Michael devastated Panama City, FL, Mr. Lucas was the Sr. Project Manager for the City with management of all rights-of-way (ROW), ditches, PPDR work, and the six temporary debris manage sites (TDMS), which resulted **in 4 million cubic yards** of debris being removed from the City.

In 2022, after Hurricane Ian damaged much of Florida, Matt was the Project Manager in Sarasota County. His excellent communication and leadership skills and his calm demeanor were key in the successful work accomplished in Sarasota County. Matt is very experienced and a positive asset to CrowderGulf. Before coming to work for CrowderGulf, Matt worked for the state of New Jersey and the New York Port Authority when the destruction of the World Trade Centers occurred. Matt was instrumental in the construction of various logistical sites for the cleanup operations. Matt has owned and operated several businesses throughout his career. He has held a New Jersey A901 disposal license, a New Jersey electrical license, 100-ton U.S. Coast Guard License, and a CDL.

CrowderGulf Senior Project Manager, Matt Lucas will be assigned to any resulting activations in Polk County. Mr. Lucas will be responsible for day-to-day operational oversight and quality control, as well as communication and coordination with Polk County stakeholders.

Howard Turner - Project Manager

Mr. Turner has a long career spanning over two decades in the debris management industry. He began his management career at Grind-All where he oversaw scheduling and operations of multiple grinders, screens, loaders, excavators, mulch coloring plants, trucks, and miscellaneous equipment. He was also responsible for the operation of three production sites manufacturing a variety of natural and colored mulches, topsoil, mixed soils, and compost. After Hurricane Isabel devastated the eastern portion of Virginia and the Carolinas in 2003, Mr. Turner joined CrowderGulf and utilized his experience in debris site and debris reduction management for CrowderGulf. Mr. Turner served a variety of roles in the cities of Virginia Beach, Norfolk, Suffolk, and Newport News while also assisting in the counties of James City, York, and Suffolk. He was responsible for aspects of disaster debris collection and reduction, final disposal of reduced debris, damage claims, client contact, and debris management site restoration. Since 2004, as a Project Manager, Mr. Turner has been responsible for day-to-day management of all disaster recovery activities including collection crews and equipment, debris reduction and disposal, site restoration, and Liaison to client municipalities, Army Corps of Engineers, and FEMA. Mr. Turner has managed projects for CrowderGulf in Florida, Georgia, Virginia, North Carolina, South Carolina, Alabama, and Arkansas. His years of experience in the debris industry and excellent communication skills ensure that the lives of citizens of every Client are restored to as close to normal as quickly as possible.

Isam Brisco – Project Manager

Mr. Brisco currently serves as a Project Manager for CrowderGulf. Since joining the company in 2017 as a Field Supervisor, Mr. Brisco has demonstrated exceptional technical proficiency, leadership, and commitment to operational excellence overseeing large-scale disaster recovery and debris removal programs across the Gulf Coast and Southeast United States.

Following historic flooding in 2017 as a result of Hurricane Harvey, Mr. Brisco successfully managed debris removal operations in Dickinson, Texas and enhanced hauling efficiency while reducing construction and demolition waste volumes. His coordination with city officials, subcontractors, and monitoring teams ensured safe, compliant, and timely project execution under demanding field conditions.

More recently, Mr. Brisco has served as Project Manager for CrowderGulf on multiple federally and municipally funded emergency response activations. His portfolio includes management of both right-of-way (ROW) and private property debris removal (PPDR) programs, as well as complex drainage lateral restoration projects requiring logistical precision and precise regulatory compliance.

Mr. Brisco's most recent assignments and project involvement include:

- 2017: Hurricane Harvey, Dickinson, TX – Debris Removal Operations
- 2018: Hurricane Michael, West Bay County, FL – Project Manager
- 2019: Tropical Storm Imelda, Montgomery County, TX – Flood Response
- 2020: Hurricane Laura, Calcasieu Parish, LA – ROW Debris Removal
- 2021: Hurricane Nicholas, Brazoria County and Lake Jackson, TX / Calcasieu Parish Drainage Laterals
- 2022–2024: Calcasieu Parish Drainage Lateral Projects – Removal of **over 2.2 million cubic yards** of storm debris across **800+ miles of drainage laterals**
- 2023: Montgomery County, TX Windstorm / Calcasieu Parish PPDR
- 2024: Calcasieu Parish PPDR / Montgomery County Flood Response / Hurricane Beryl, TX / Hurricane Milton, FL
- 2025: Hurricane Milton (FL) / Carrollton, TX Windstorm / Georgetown, TX Flood Recovery

Mr. Brisco is a Graduate of the University of North Texas. He is also a Certified Asbestos Supervisor, bringing both technical expertise and strong guidance to each activation. His extensive experience coordinating with federal, state, and local agencies, combined with his operational insight in debris logistics, field supervision, and contractor management, continues to make him a valuable leader within CrowderGulf's disaster response and recovery programs (NIMS Trained).

Robert Lewis Najor – Project Manager & Quality Control

Robert (Lew) began work for CrowderGulf in 2017, following a 25-year career with the United States Army Corps of Engineers (USACE). While at the USACE, Robert held such positions as Project Manager and Construction Quality Control (CQC) Manager. He worked on USACE projects for Debris Management Services from 1993 – 2016.

Robert's industry knowledge of disaster and debris related projects with the USACE, and civilian contracting companies has led to his in-depth experience with removal and reduction, beach restoration, levee enlargement and buildup, operation Blue Roof projects, and flood control across the Gulf Coast. In addition to his extensive industry background, Robert is certified by the United States Army Corps of Engineers for Construction Quality Management for Contractors and is certified by the State of Florida Department of Business and Professional Regulation as an Underground Utility and Excavation Contractor. Robert's experience and ability to provide damage assessments has been a major asset in evaluating the aftermath of disaster events to help Clients. His training and experience with debris and project management and his understanding of the complexity of CQC Management has been instrumental in the successful completion of many of CrowderGulf's debris removal projects. Robert also holds a Class B certified driver's license and is a heavy equipment operator.

Jim Frye – Project Manager

Mr. Frye's debris management career spans 20 years working throughout the United States. He began working for CrowderGulf as a Project Manager in 2017after Hurricane Irma. Since then, he has been involved in every CrowderGulf activation and has worked hurricanes, red tide events, tornadoes and floods. His communication skills and multi-tasking abilities make him an excellent project manager. Jim is well-versed in ensuring a well-run project, from managing assigned assets, subcontractor coordination, locating staging areas and debris sites, to working with Clients to ensure that project is completed to their satisfaction.

Jim has managed projects for CrowderGulf to include Fort Myers in 2017 after Hurricane Irma, Lee County, FL in 2018 after Red Tide, Leland, NC in 2018 after Hurricane Florence, I Panama City, FL in 2018-2020 after Hurricane Michael, Sulphur, LA 2020-2022 after Hurricane Laura, Fort Myers, FL after Hurricane Ian in 2022-2024, multiple towns in TX after a 2024 Wind Event (Richardson, Coppell, Carrollton), Greenville, SC after Hurricane Helene in 2024 and Mitchell County, NC 2025. (NIMS Trained)

Marian Banks – Project Manager

Mr. Banks has worked in the debris removal industry for almost 10 years. He has extensive background in tornado, hurricane and wildfire activations. His excellent communication skills and dedication to each project he is assigned increases his success. He has worked in Florida, Iowa, Kentucky and Texas for CrowderGulf. And had previously handled multiple activations in Louisiana, Florida and in California after the Camp Fire in Butte County.

Before joining CrowderGulf, he had a successful career in law enforcement as a lead detective in the Cornelia Police Department for over 10 years. (NIMS Trained)

▪ Disaster Administration Office Team

Wesley Naile – Director of Pre-Event Services

Mr. Naile has had experience in the disaster and recovery field since 2004, when he served in Volusia County, Florida, as CrowderGulf's Project Manager during Hurricanes Charley, Frances and Jeanne. In 2005, he was assigned the role of Logistics Coordinator working out of the Disaster Administration Office (DAO), coordinating materials, equipment and subcontractors to CrowderGulf's clients. Mr. Naile's roles now include managing the database for pre-event contracts information, coordinating with new and existing clients in establishing pre-event contract awards and contract documents and coordinating with clients on contract renewals. When disasters strike, Wes and his staff coordinate all field resources that Project Managers need to get their jobs up and running. This includes everything from portlets, towers, generators, portable housing, etc. Wes served three years in the U.S. Army as a 12B Combat Engineer with an honorable discharge. He also attended the University of South Carolina-Beaufort. He is also NIMS Trained.

CrowderGulf's Director of Pre-Event Services, Wes Naile, will be Polk County's day-to-day point of contact for contract-related updates and client services.

Jesus Carretie – Program Manager

Based in Florida, Jesus Carretie serves on the CrowderGulf team as our Program Manager. This role requires the overseeing of the fulfillment of CrowderGulf's goals throughout one or multiple projects. This is accomplished by coordinating and strategizing across the different facets of a project from start to completion. Most recently, Mr. Carretie's role became especially integral in managing a pilot program involving Private Property (PPDR), Commercial Property (CPDR), and Title Property debris removal in the Southwest part of Florida under the Florida Department of Emergency Management. This was a result of Hurricane Ian (DR-4673-FL). Under this PPDR/CPDR/Title Property program, CrowderGulf accomplished the completion of debris removal, titled property removal, and/or demolition on over 2,400 properties.

Additionally, Mr. Carretie assists in a variety of roles that include Data Management, Invoicing, Project Management, Business Management, and Client Relations. Mr. Carretie has been in Emergency Management and Disaster Recovery since 2014 and has worked on the numerous Debris Management projects including 2014 South Carolina Winter, Hurricanes Hermine and Irma, 2020 Oregon Wildfires, and Hurricane Ian debris removal. Prior to joining CrowderGulf's team, Mr. Carretie has also worked as a Senior Grants Specialist in a FEMA Public Assistance project, and as a Production Manager on a Community Development Block Grant-Disaster Recovery project.

Florida Program Manager, Jesus Carretie will be the County's day-to-day contact for project invoicing, administrative support, Public Assistance Policy education and advisory, and will be assigned to any specialty programs such as Private/ Commercial Property Debris Removal (PPDR/ CPDR) occurring in Polk County at the time of activation.

Amber Ramsay – Public/Community Relations and Marketing Manager

Ms. Ramsay has been CrowderGulf's Public/Community Relations and Marketing Manager since 2004. Throughout the year she interfaces with Clients and acts as CrowderGulf's (continuing education) Conference Coordinator. During a disaster, one of her main responsibilities is to liaison between CrowderGulf's Project Managers and USACE, elected officials, public work directors, incident commanders of Emergency Operations Centers and Clients. She coordinates directly with Public Information Officers and assists in the release of pertinent debris recovery operations to the citizens. Some of her field experience includes Field Supervisor in Pascagoula, MS after Hurricane Ivan in 2004, Lake Charles, LA after Hurricane Rita in 2005, Deere Park, TX after Hurricane Ike in 2008, and in Edenton, NC after Hurricane Irene in 2011 and Dauphin Island, AL after Hurricane Isaac in 2012. Prior to coming to CrowderGulf she was a Marketing/Sales Manager for McKenzie-Childs in New York City for 10 years. Ms. Ramsay is a Graduate of Auburn University. (NIMS Trained)

Lauren Bell – Controller

Lauren joined CrowderGulf in 2022 as Controller where she is responsible for overseeing financial reporting and accounting operations. During a disaster, her role helps to ensure CrowderGulf maintains adequate capital reserves for field operations to move without economic interruption. Prior to joining CrowderGulf, Lauren served as Assistant Controller for The American Equity Underwriters, Inc, where she led a team responsible for financial operations including consolidated financial statement preparation, corporate analysis, forecasting and budgeting. Lauren began her career in public accounting at KPMG LLP in Birmingham, serving audit clients in a variety of industries. She holds a Bachelor of Science in Commerce and Business Administration and a Master of Accountancy from The University of Alabama.

Gina Walley – Accounts Receivable Manager / Documentation Specialist

Ms. Walley has been the Accounts Receivable Manager and Documentation Specialist since 2005. She continually interfaces with clients and client representatives to build a strong team relationship to provide accurate documentation to support CrowderGulf work. She works closely with clients during FEMA audits to provide necessary documentation in a timely manner. Her background in Computer Engineering Technology has helped her in creating and managing all in-house databases. Each database is specifically designed to meet the client's needs. In addition to client databases, she also builds databases that house pertinent company data such as contract information, subcontractor information and historical CrowderGulf information. Shortly after Hurricane Ike in 2008, she teamed with a programmer to build a unique and powerful database that has proven to increase accuracy in data recording. Ms. Walley's experience has spanned across more than 20 major hurricane events as well as numerous non-disaster-related projects. (NIMS Trained)

CrowderGulf's Accounts Receivable Manager and Documentation Specialist, Gina Walley, will be directly involved with all project invoicing during any contract activations in Polk County.

Marcus Lund – Systems Engineering Manager

During his many years of experience in IT consulting, implementation and cyber security, Marcus Lund has developed the skills and knowledge necessary to manage and secure IT networks of all sizes. He started his career in 2008 with a Managed Service Provider where he began learning every aspect of network management, security and recovery needs. Some of his certifications include VMWare Certified Professional (VCP), Microsoft Certified Professional (MCP), Certified Systems Analyst, Certified Sonicwall Security Admin (CSSA) along with other network certifications.

Managing many businesses across several fields has created a learning environment for Marcus to adapt his skills with IT security no matter what the requirements. Fields in which Marcus has implemented and managed IT security include government, industrial, medical, construction, logistics and finance.

Over the years Marcus has been recruited many times to assist with cyber security issues such as ransomware and data loss. With his experience he has learned what it takes to handle any IT emergency and therefore has learned the skills needed to implement the needed measures to help prevent these disasters from occurring.

In addition to managing all IT needs for CrowderGulf, Marcus is also leading our digital disaster recovery and prevention efforts for our clients. He can run a full network risk assessment and provide a full managed services solution with backups and security to protect a client as needed. Along with the added protection he is also able to work with clients to assist them by providing IT consulting services for other IT needs such as cyber liability insurance applications, Active Directory, VMWare, Citrix, Microsoft Exchange and many more.

Jenny Todd Weaver – Subcontractor SMBE Compliance Manager

Mrs. Weaver manages subcontractors, develops, and promotes CrowderGulf's Small/Minority Business division. Her focal point is to contact and localize subcontractors during and after the RFP development phase in an effort to maintain community involvement and maximize local small /minority businesses participation. In 2003, she earned a Bachelor of Science degree in Marketing and a minor in Mathematics from the University of Alabama. After graduation, she joined a law firm in Tuscaloosa. In 2005 she joined the CrowderGulf Team which was during the rebuilding process along the Gulf Coast after Hurricane Katrina. The legal experience she gained made her the ideal candidate to oversee the subcontracting operations. (NIMS Trained)

Resumes have been provided at the end of this section

No employee identified for anticipated assignment to the County's Site Management Team has ever been a defendant in any proceeding involving or arising out of debris removal services.

Additional Personnel

The following is a partial list of CrowderGulf's available management, administrative, and supervisory personnel (full resumes are available upon request) who, depending on the scope of work, may be assigned to the contract:

Full Time and DAO Personnel

Last Name	First Name	Position
Teofilo	Tiffany	Accounts Payable Asst
Wright	Kerry	Warehouse Manager
Simon	Paris	Accounting Clerk
Suters	Donna	Executive Administrative Assistant / Accounts Receivable
Turner	Mary	Logistics, Contract Management
Edwards	Melinda	Executive Administrative Assistant
Noll	Kerrie	Proposal Manager
Snell	Brandi	Receptionist
Melton	Madi	Administrative Assistant
Sprinkle	Aimee	Receptionist, Accounting Clerk
Holmes	Betsey	Executive Administrative Assistant
Simmons	Cadie	Accounting Clerk
Kessler	Kurtis	Logistics & Facilities Administrator

CROWDER GULF

Resumes

Ashley Ramsay-Naile
President

Core Competencies

- Disaster Response & Recovery
- Emergency Planning & Management
- Strategic Leadership & Negotiation
- Contract Administration
- Budgeting & Cost Control
- Procurement & Vendor Management
- Project Planning & Execution
- Client & Partner Relations & Engagement
- Operational Compliance
- Team Development & Performance Management

Education & Affiliations

- Bachelor of Science, Special Education, University of South Alabama
- Governor-Appointed Member, Alabama State Workforce Investment Board
- Board Member, Family Business Institute, University of South Carolina

Professional Overview

As President of CrowderGulf, Ashley Ramsay-Naile brings more than three decades of experience leading large-scale disaster response and debris management operations nationwide. Known for her **steady leadership, strategic foresight, and operational excellence,** she has overseen recovery missions for **dozens of federally declared disasters**, hurricanes, and major weather events.

Since joining CrowderGulf in 2004, Ms. Ramsay-Naile has advanced from Project Manager to Chief Operating Officer and now President—driving the company's growth into **one of the most trusted disaster recovery contractors in the nation**. She manages all administrative, financial, and field operations with a focus on **efficiency, accountability, and client satisfaction**.

Her deep expertise in **emergency management, contract negotiation, and resource optimization** ensures that every CrowderGulf project—from initial mobilization through final closeout—meets the highest standards of safety, compliance, and performance.

Key Achievements & Responsibilities

- **Operational Leadership:** Directed enterprise-wide operations and disaster activations across multiple states, overseeing hundreds of personnel, subcontractors, and equipment assets
- **Strategic Program Management:** Led response and recovery missions for more than 30 federally declared disasters, including major hurricanes, floods, tornadoes, and environmental emergencies
- **Financial Oversight:** Managed administrative and financial processes for debris projects exceeding hundreds of millions in total value, ensuring transparency and fiscal control
- **Regulatory Compliance:** Supervised accounts receivable/payable, documentation, and reporting for complex multi-jurisdictional operations to maintain compliance with FEMA and client audit standards
- **Contract Negotiation:** Negotiated contracts, vendor agreements, and procurement strategies to secure favorable terms and ensure timely delivery of materials and services
- **Process Optimization:** Championed company-wide process improvements, streamlining mobilization timelines, enhanced safety performance, and improved client satisfaction metrics
- **Client Coordination:** Maintained proactive communication with city, county, and state officials to coordinate debris operations, permitting, and environmental compliance
- **Strategic Growth:** Guided organizational growth through business development, workforce planning, and long-term strategic partnerships

Representative Project Portfolio

- **Hurricanes Milton, Helene, Francine, Debbie, and Beryl (2024):** Company-wide oversight of multi-state debris recovery and reduction operations
- **Hurricanes Ian & Nicole (2022)**: Company-wide oversight of large-scale debris removal, temporary debris reduction sites, and final disposal coordination
- **Hurricanes Irma & Harvey, Michael, Laura, Sally, & Ida (2017-2021):** Oversaw complex, multi-state debris management operations, ensuring efficient execution of concurrent activations, temporary reduction sites, and final disposal logistics.
- **Deepwater Horizon Oil Spill (2010):** Coordinated shoreline cleanup and documentation for one of the largest environmental recovery efforts in U.S. history.

Reid Loper

Senior Vice President, LEED AP

Core Competencies

- Disaster Response & Recovery
- Large-Scale Operations Management
- Marine & Waterway Debris Removal
- Contract Negotiation & Administration
- Project Estimating & Budgeting
- Strategic Planning
- Multi-State Activation Management
- Client Relations
- Safety Leadership
- Business Development
- Technical Proposal Writing
- Personnel & Equipment Logistics

Education & Certifications

- Bachelor of Science, Aerospace Engineering, Auburn University
- LEED AP (Leadership in Energy and Environmental Design Accredited Professional)
- National Incident Management System: Multiple Certifications
- HAZWOPER 40-Hour & 8-Hour Refresher
- NASCLA Accredited Contractor
- OSHA 10 & 30-Hour Safety
- Licensed General Contractor (Qualified Agent) - AL, GA, LA, MS, SC, & VA

Professional Overview

Reid Loper is a proven leader in large-scale disaster recovery operations, with 15 years of experience directing complex, multi-state debris management and emergency response missions. Since joining CrowderGulf in 2010, he has led or overseen **more than 18 federally declared disaster responses** and managed **over $800 million in projects** involving debris removal, sand screening, dredging, marine and waterway debris removal, and vessel operations.

As Senior Vice President, he provides strategic oversight for CrowderGulf's national response operations, ensuring safe, compliant, and cost-effective performance across diverse mission types. Recognized as one of the industry's foremost experts in **waterways debris management,** he has led more marine debris recovery missions since 2012 than any other professional in the field.

Mr. Loper's **field-tested leadership** is defined by **strategic planning, disciplined execution**, and **strong client relationships**. His prior experience in commercial construction enhances his ability to manage complex programs with technical precision, financial accountability, and operational efficiency.

Key Achievements & Responsibilities

- **Strategic Program Leadership:** Directed multi-regional, simultaneous activations for hurricanes, tornadoes, floods, and ice storms, ensuring safe, compliant, and profitable execution across diverse geographies
- **Financial Oversight:** Managed more than $800 million in total project costs, consistently meeting performance and profitability goals
- **Operational Command:** Supervised teams of more than 1,200 field staff and 600+ assets, ensuring readiness and rapid mobilization in dynamic emergency environments.
- **Contract & Client Management:** Negotiated and execute complex client contracts; managed subcontractor compliance, insurance, billing, and performance
- **Business Development:** Spearheaded proposal development, RFP responses, and technical presentations; cultivated long-term relationships with local, state, and federal clients
- **Safety Leadership:** Maintained company-wide TRIR below 2.0, integrating safety and operations into a unified management system
- **Innovation & Growth:** Developed new operational models for marine debris removal and expanded CrowderGulf's footprint into new markets

Representative Project Portfolio

- **Hurricanes Milton, Helene, Francine, Debbie, and Beryl (2024):** Directed 70+ activations across five states, coordinating large-scale debris and marine recovery operations
- **Hurricanes Ian & Nicole (2022)**: Oversaw 44 activations in Florida and South Carolina; accelerated recovery timelines through optimized logistics and contractor coordination
- **Hurricanes Irma & Harvey (2017):** Managed concurrent activations in Florida and Texas, including removal of over 250,000 CY of waterway debris for Florida DEP
- **Deepwater Horizon Oil Spill (2010):** Served as Senior Project Manager overseeing statewide response for Alabama, coordinating large-scale vessel operations and shoreline cleanup

(Selected major activations; full list available upon request)

CROWDER GULF

Core Competencies

- Disaster Recovery & Debris Operations
- Strategic & Operational Planning
- Emergency Management
- Interagency Coordination
- Federal Program Leadership
- Contract Management
- Training & Workforce Readiness
- Client Relations
- Logistics & Field Operations

Education, Awards, & Certifications

- Bachelor of Science, Civil Engineering, University of South Alabama
- National Incident Management System: Multiple ICS and ESF certifications
- Army Engineer Association Bronze Order of the De Fleury Medal
- Civilian Award for Humanitarian Service
- Superior Civilian Service Award
- Achievement Medal for Civilian Service
- Commander's Award for Civilian Service
- USACE South Atlantic Division Emergency Manager and Responder of the Year

Matt Tate

National Director for Response & Recovery

Professional Overview

Matt Tate is a **nationally recognized leader in disaster recovery and debris management** with over 20 years of experience directing large-scale emergency operations across the United States. His expertise spans every phase of disaster response—from initial mobilization and debris clearance to long-term recovery and after-action improvement.

As CrowderGulf's National Director for Response and Recovery, Mr. Tate leverages his extensive U.S. Army Corps of Engineers (USACE) background to strengthen federal partnerships, advance operational capabilities, and ensure rapid, compliant, and cost-effective service delivery. He has managed debris programs valued at **over $5 billion,** trained national response teams, and shaped policy and best practices that continue to guide national debris operations today.

Key Achievements & Responsibilities

- **Strategic Program Leadership:** Directed national response and recovery initiatives for federal and local clients, expanding CrowderGulf's footprint across multiple states & markets
- **Federal Debris Management Expertise**: Led the USACE National Debris Program, overseeing seven ESF #3 Debris Planning and Response Teams and more than 40 subject matter experts supporting FEMA mission assignments nationwide
- **Operational Excellence:** Developed and executed logistics, staffing, and operational plans for complex, multi-state activations, ensuring rapid mobilization, field coordination, and regulatory compliance
- **Training & Workforce Development:** Implemented the Mobile Training Team (MTT) model to improve national debris team readiness, training hundreds of personnel for field operations, quality assurance, and specialty debris streams
- **Contract & Fiscal Oversight:** Served as Contracting Officer's Representative (COR) for the USACE Advanced Contract Initiative (ACI), managing programs exceeding $5 billion and leading two Source Selection Evaluation Boards
- **Interagency Coordination:** Served as the USACE liaison to FEMA, DHS, and other federal, state, and tribal agencies, ensuring synchronized debris missions under ESF #3 and supporting operations at multiple levels
- **Continuous Improvement:** Integrated lessons learned into USACE and CrowderGulf training, plans, and Standard Operating Procedures, strengthening nationwide debris response through data-driven after-action programs
- **Field Operations Leadership:** Deployed as Debris SME and mission manager to major disasters across the U.S., providing lifecycle mission management

Representative Project Portfolio

- **Hurricanes Milton, Helene, Francine, Debbie, and Beryl (2024):** Coordinated 70+ activations across five states, coordinating large-scale debris & marine recovery operations
- **Maui Wildfires (2023)**: Led USACE debris response & recovery operations, including a PPDR mission for more than 2,000 structures and construction of a temporary debris management site for final regulated disposal of hazardous materials
- **Hurricanes Ian & Nicole; NM Wildfires; KY Floods (2022)**: Provided debris technical assistance and oversight to the state and FEMA; led PPDR missions for more than 400 structures in challenging terrain with significant environmental constraints
- **Hurricanes Laura, Sally, Zeta, and Ida (2020-2021):** Provided debris technical assistance and oversight to the states and FEMA; managed deployment of hundreds of volunteer responders

(Selected major activations; full list available upon request)

Nick Pratt

Director of Operations

Core Competencies

- Disaster Debris Management & Recovery Operations
- Multi-State Field Operations Oversight
- Strategic Planning & Logistics Coordination
- Contractor & Subcontractor Management
- Environmental Protection & Regulatory Compliance
- Resource Allocation & Workforce Optimization
- Equipment & Resource Readiness Management

Education & Certifications

- Coursework in Disaster Management & Emergency Services, University of South Alabama
- CPR & First Aid
- 40-Hour HAZWOPER Certification; 20-Hour Refresher
- OSHA Construction Safety
- National Incident Management System: Multiple ICS certifications

Professional Overview

Nick Pratt is a results-driven disaster recovery and debris management professional with over 20 years of experience leading complex, multi-state response operations. He specializes in directing large-scale disaster debris removal projects, coordinating personnel, equipment, and subcontractors to deliver safe, efficient, and timely outcomes.

Mr. Pratt has a proven track record of managing operations for hurricanes, tornadoes, floods, and other severe weather events, consistently meeting or exceeding project goals. He excels at pre-event planning, resource allocation, and strategic execution, ensuring operations run smoothly from initial mobilization through final debris disposal. Known for his ability to build cohesive teams and foster operational excellence, he maintains strict compliance with federal, state, and local regulations while implementing innovative solutions to optimize efficiency and minimize risk.

Key Achievements & Responsibilities

- **Operational Leadership:** Directed multi-state disaster debris operations, coordinating hundreds of personnel, equipment, and subcontractors to complete complex projects safely and efficiently
- **Project & Asset Management:** Oversaw the planning, staging, and deployment of field assets to ensure timely execution and adherence to project goals
- **Environmental Compliance:** Led waterway debris removal and other sensitive operations while maintaining strict environmental protection standards
- **Interagency Coordination:** Managed communication and coordination with federal, state, and local agencies to streamline disaster response and ensure compliance
- **Performance Oversight:** Implemented quality control processes and performance monitoring to maximize productivity, reduce rework, and meet or exceed operational benchmarks

Representative Project Portfolio

- **Hurricane Helene (2024):** Directed 16 activations across four states, managing multi-state debris removal operations resulting in timely clearance of over 1.5 million cubic yards of debris
- **Hurricane Milton (2024):** Oversaw 32 activations in Florida, implementing strategic logistics and operational planning that improved crew productivity and ensured safe disposal of vegetative and construction debris across multiple counties
- **Hurricane Debbie & Francine (2024):** Managed single-activation responses in GA and LA, optimizing local resources and ensuring compliance with FEMA debris management protocols while expediting debris clearance
- **Hurricane Beryl, Winds & Floods (2024):** Coordinated 29 activations across three states, leading multi-jurisdictional debris removal, enhancing operational efficiency, and supporting critical post-storm infrastructure restoration
- **Hurricane Idalia & Misc. Winter Storms (2023):** Directed 15 activations across six states, overseeing almost 2 million cubic yards of debris removal, coordinating multiple crews and temporary debris sites to accelerate storm recovery

(Selected major activations; full list available upon request)

CROWDER GULF

Core Competencies

- Disaster Recovery Operations
- Marine Debris & Vessel Reclamation
- Hazardous Material Management
- Environmental Remediation
- FEMA & USACE Compliance
- Team Leadership & Safety Training
- Sand Recovery & Beach Restoration
- Shoreline Stabilization & Environmental Stewardship
- Operational Planning & Logistics
- Contract & Resource Management

Education & Certifications

- USACE Construction Quality Management for Contractors Certification
- OSHA 30-Hour Construction Safety Course
- HAZWOPER 40-Hour Certification
- National Incident Management System: Multiple ICS certifications

Wilber Ledet

Deputy Director of Operations

Professional Overview

With over 16 years of experience in disaster recovery, marine debris operations, and large-scale environmental response, Mr. Ledet brings proven leadership in coordinating complex field operations across multiple states and agencies. His expertise spans vessel reclamation, hazardous material removal, sand reclamation, and debris management for both public and private sector clients. He has successfully managed multimillion cubic-yard debris removal projects, ensuring full regulatory compliance and environmental stewardship under FEMA and USACE guidelines.

Mr. Ledet is known for his operational precision, team leadership, and safety-first approach. He has developed and implemented training programs, optimized resource deployment, and led field teams through high-pressure recovery missions. His consistent delivery of safe, efficient, and high-quality results has contributed to the success of numerous disaster recovery missions nationwide.

Key Achievements & Responsibilities

- **Project Leadership & Field Operations:** Directed multimillion-cubic-yard debris removal, marine debris recovery, and reclamation efforts across multiple states, maintaining schedule, safety, and environmental standards
- **Environmental Compliance:** Ensured adherence to federal, state, and local regulations during hazardous material removal, waste disposal, and shoreline restoration operations
- **Marine & Vessel Reclamation:** Oversaw vessel storage, fuel and oil removal, and environmentally responsible disposal, reducing contamination risk and restoring waterways to navigable condition
- **Training & Safety Oversight:** Implemented staff training programs and daily safety briefings, ensuring compliance with OSHA and HAZWOPER protocols across all operations
- **Coordination:** Collaborated with federal, state, and local officials, including FEMA, USACE, and environmental agencies, to align project execution with mission objectives

Representative Project Portfolio

- **Hurricane Idalia (FL, GA, 2023):** Led multi-state debris recovery operations, coordinating resources across regional teams for rapid mobilization and cleanup
- **Tornado & Storm Response (AR, FL, NC, TX, VA, 2023):** Managed simultaneous activations, streamlining logistics and field oversight
- **Hurricanes Ian & Nicole (FL, 2022):** Directed large-scale debris management operations with focus on coastal environmental protection
- **Hurricane Ida (LA, MS, 2021):** Managed debris clearance and disposal, ensuring compliance with FEMA debris eligibility requirements
- **Hurricane Laura & Sally (LA, AL, FL, 2020):** Supervised simultaneous operations totaling over one million cubic yards of debris removal
- **Hurricane Florence & Michael (NC, 2018):** Oversaw 1.1 million CY debris removal and disposal across multiple jurisdictions

(Selected major activations; full list available upon request)

Margaret Wright, Ph.D

Senior Documentation Director

Core Competencies

- Disaster Documentation & Data Management
- QA/QC Oversight & Compliance
- Technical Writing, Editing, & RFP Support
- FEMA Policy & Audit Support
- Debris Management Training & Mentorship
- Multi-State Project Coordination
- Change Management & Documentation
- Historical Data Analysis & Reporting

Education & Certifications

- Ph.D, Instructional Design & Development, University of South Alabama
- Masters Degree, University of South Alabama
- AA Certification, Learning Disabilities, University of South Alabama
- Bachelor of Science, Elementary Education, Auburn University
- National Incident Management System - Multiple ICS certifications

Professional Overview

Margaret R. Wright, PhD, is a highly experienced disaster documentation and QA/QC leader with nearly 30 years in disaster recovery, debris operations, and emergency management. She specializes in managing large-scale documentation teams, coordinating FEMA-compliant processes, and ensuring accurate reconciliation and invoicing across multi-state disaster projects. Dr. Wright brings extensive expertise in training development, technical proposal writing, program evaluation, and quality assurance oversight for complex debris operations.

She has led documentation and reconciliation for hundreds of disaster activations, including hurricanes, tornadoes, ice storms, and flooding across Florida, Texas, North Carolina, South Carolina, Louisiana, Maryland, and Virginia. Dr. Wright is recognized for her ability to streamline documentation workflows, mentor project managers, and provide strategic guidance on compliance and audit readiness. Her leadership ensures consistency, accuracy, and timeliness in all documentation processes, supporting both field operations and client reporting.

Key Achievements & Responsibilities

- **Documentation Leadership:** Directed all aspects of disaster project documentation, ticket reconciliation, invoicing, and FEMA audit compliance for multi-state, large-scale debris removal operations
- **Quality Assurance/Quality Control:** Served as Director of QC/QA documentation teams, ensuring accurate data collection, reporting, and technical compliance for dozens of simultaneous contracts
- **Training & Mentorship:** Developed and maintained CrowderGulf Project Manager Training Manual; designed, coordinated, and conducted client and internal training sessions across multiple states
- **Technical Proposal Development:** Managed proposal writing and editing teams for pre-event RFPs, ensuring accuracy and alignment with contract requirements
- **Program Evaluation & Research:** Conducted post-project evaluation research, analyzing operations and documentation efficiency to guide process improvements
- **Client & Audit Support:** Provided technical assistance to clients for FEMA audits, coordinated follow-up documentation, and ensured accurate reporting of debris operations.
- **Field Office Operations:** Oversaw setup, staffing, and management of Debris Management Field Offices, coordinating personnel and workflows for high-volume activations.

Representative Project Portfolio

- **Hurricanes Beryl, Debbie, Francine, Helene, Milton & Winds/Floods (2024):** Oversaw documentation for multiple simultaneous debris projects across impacted jurisdictions
- **Hurricane Idalia & Tornadoes (2023):** Managed documentation and QA/QC for multiple activations
- **Hurricanes Ian & Nicole (2022):** Directed all documentation and oversaw documentation QA/QC for multiple concurrent and overlapping activations in Florida
- **Hurricanes Ida & Nicholas (2021):** Supervised documentation flow for multiple contracts across MS, LA, and TX
- **Hurricanes Sally & Zeta (2020):** Assisted self-monitoring clients in FEMA-required documentation processes
- **Hurricanes Florence & Michael (2018):** Led QC/QA documentation teams for 30 simultaneous contracts in NC, SC, and FL

(Selected major activations; full list available upon request)

CROWDER GULF

Core Competencies

- Disaster Operations Planning & Pre-Event Logistics
- Multi-State Contract & Project Management
- Debris Operations & Large-Scale Recovery
- Interagency Coordination & Client Engagement
- Equipment & Resource Readiness Management
- Operational Process Improvement & Risk Mitigation
- Emergency Response Communication Systems Management
- Strategic Resource Allocation

Education & Certifications

- Bachelor of Science, University of South Carolina
- US Army - 12B Combat Engineer
- National Incident Management System: Multiple ICS certifications

Wesley Naile

Director of Pre-Event Services

Professional Overview

Wesley Naile is a results-driven disaster operations leader with over 20 years of experience in pre-event planning, logistical coordination, and disaster debris operations. He excels at developing and managing complex operational strategies, deploying pre-positioned equipment, and leading teams to execute large-scale recovery and mitigation efforts efficiently and safely. Mr. Naile has extensive expertise in planning, procurement, tactical operations, and interagency coordination, ensuring disaster readiness across multiple states and jurisdictions.

He is recognized for streamlining logistics and communication systems, implementing innovative pre-event strategies, and ensuring rapid, safe, and effective deployment of personnel and resources. His leadership style emphasizes proactive planning, operational excellence, and team development, enabling high-performing results in high-pressure disaster environments.

Key Achievements & Responsibilities

- **Pre-Event Planning & Logistics:** Oversees all pre-event disaster planning, equipment staging, and "Quick Kit" readiness to ensure rapid deployment and operational efficiency
- **Contracts & Project Oversight:** Manages multiple disaster contracts across federal, state, and local agencies, ensuring timely and compliant debris removal and disaster response operations
- **Team Leadership & Training:** Directs and trains multi-disciplinary teams, providing clear guidance on safety, operational procedures, and project execution
- **Interagency Coordination:** Cultivates and leverages strong collaborative relationships with FEMA, USACE, and state and local agencies to streamline communication and ensure unified operational strategies
- **Operational Process Improvement:** Evaluates and implements innovative logistical processes, procedures, and systems to maximize disaster response efficiency and minimize operational delays
- **Equipment & Supply Management:** Maintains and manages warehouses, equipment, and pre-positioned supplies for rapid activation during disasters

Representative Project Portfolio

- **Hurricane Idalia & Tornado/Winter Storms (2023):** Managed 12 activations across AL, AR, FL, NC, TX, and VA, nearly 2 million CY of debris removed/disposed
- **Hurricanes Ian & Nicole (2022):** Supervised 44 activations in FL, LA, and SC, over 13 million CY of debris removed/disposed
- **Hurricanes Nicholas & Ida; Tornadoes & Flooding (2021):** Directed 14 activations in TX, LA, and KY, including disaster debris and flood mitigation
- **Hurricanes Delta, Zeta & Sally (2020):** Oversaw 18 activations in LA, TX, AL, and FL, including large-scale C&D and vegetative debris removal
- **Hurricane Laura (2020):** Supervised 8 activations in LA & TX, coordinating multi-jurisdictional debris operations
- **Hurricane Michael (2018):** Managed 11 activations in FL & GA, 12 million CY of debris removed, including FL DEP waterways

(Selected major activations; full list available upon request)

Drew Sprinkle

Deputy Director of Pre-Event Services

Core Competencies

- Disaster Debris Operations & Field Management
- Pre-Event Planning & Client Coordination
- Subcontractor Oversight & Performance Management
- Heavy Marine Construction & Coastal Infrastructure
- Regulatory Compliance & Documentation Management
- Safety Leadership & Quality Control
- GIS, Reporting Systems, & Project Scheduling

Education, Licenses, & Certifications

- Bachelor of Science, Auburn University
- Alabama Heavy Construction General Contractor License
- North Carolina Highway & Heavy Construction License
- California Class A General Engineering Contractor License
- National Incident Management System - multiple ICS certifications
- USACE Construction Quality Management
- OSHA Certified

Professional Overview

Drew Sprinkle is an experienced project manager and pre-event services leader with a strong background in disaster debris operations, heavy marine construction, subcontractor oversight, and multi-jurisdictional client coordination. With nearly a decade of hands-on experience at CrowderGulf, he has managed large, complex field operations involving hundreds of personnel and equipment assets while ensuring regulatory compliance, safety performance, and meticulous documentation across all project phases.

Mr. Sprinkle excels at client communication, operational problem-solving, and quality-driven execution, consistently delivering efficient, compliant, and cost-effective results. His industry experience spans hurricanes, tornadoes, flooding, shoreline restoration, marine construction, and habitat restoration projects across the Southeast and Gulf Coast. He also serves as the qualified individual for CrowderGulf's general contractor licenses in Alabama, North Carolina, and California.

Key Achievements & Responsibilities

- **Project Leadership:** Directs large-scale debris and construction projects, overseeing field operations, staffing, equipment, and daily progress to meet client objectives.
- **Client Coordination:** Serves as the primary liaison to municipal, county, and state clients, ensuring clear communication, schedule alignment, and rapid issue resolution.
- **Subcontractor Oversight:** Manages subcontractor performance, reporting accuracy, and documentation compliance to support timely invoicing and payment.
- **Operational Efficiency:** Implements process improvements, field solutions, and productivity enhancements to maximize output and minimize project delays.
- **Safety & Compliance:** Leads safety meetings, enforces regulatory standards, and maintains strict adherence to OSHA, USACE CQM, and project-specific protocols.
- **Technical Execution:** Delivers heavy marine construction support—including rock placement, dredging, and shoreline restoration—when not deployed for disaster operations.
- **Pre-Event Services:** Supports proposal development, client deliverables, and pre-event contract readiness across multiple states.

Representative Project Portfolio

- **Hurricane Idalia (2023):** Managed four activations across Florida & Georgia, overseeing debris operations, subcontractor coordination, and client communication
- **Lightning Point Shoreline Restoration Phase II (2023):** Directed $1.4M coastal restoration effort in Bayou La Batre, AL, including rock placement and access-channel dredging
- **Hurricane Ian (2022):** Supported 35 activations in Florida, including managing all debris operations for the City of Venice
- **Hurricane Nicole (2022):** Managed debris collection across three county activations in Florida
- **Hurricane Ida (2021):** Led field operations and subcontractor oversight for debris removal activities in Gulfport, MS
- **ALDOT Bridge Fender System Repair (2021):** Executed marine infrastructure repairs supporting state transportation assets in Dauphin Island, AL
- **Lightning Point Shoreline Restoration (2021):** Supported major living shoreline habitat restoration in Bayou La Batre, AL
- **Hurricanes Delta & Zeta (2020):** Coordinated multi-state debris operations across Mississippi & Texas under tight response timelines

(Selected major activations; full list available upon request)

Leigh Anne Ryals

Regional Director – Alabama, Mississippi, Texas

Core Competencies

- Disaster Response & Recovery Operations
- FEMA Public Assistance Policy & Documentation
- Multi-Jurisdictional Incident Coordination
- Crisis Communications
- Project Management & Client Relations
- Technical Writing & Proposal Development
- Emergency Management Training & Instruction
- Team Leadership & Contractor Oversight

Education, Affiliations, & Certifications

- Bachelor of Arts, Radford University
- Certified Local Emergency Manager (CLEM), Alabama
- Advanced Level Certification in Emergency Management (ALEM)
- CPR & Bloodborne Pathogens Certified
- National Incident Management System Certified Instructor
- USACE Construction Quality Management

Professional Overview

Ms. Leigh Anne Ryals is an accomplished emergency management and disaster recovery leader with extensive experience directing large-scale debris operations, coordinating multi-agency response efforts, and guiding municipal and county governments through complex FEMA recovery programs. She brings strong expertise in debris management, client coordination, public information, and project oversight across multiple states and disaster types.

At CrowderGulf, Ms. Ryals has served as Regional Director, Project Manager, Incident Commander, and Government Liaison, recognized for her operational efficiency, FEMA policy expertise, and high-level client service. She has supported 12 Presidential Disaster Declarations, delivered training across the Southeast, and provided strategic guidance on FEMA PA policy, documentation, and disaster readiness. Her portfolio spans hurricanes, tornadoes, ice storms, and specialized debris missions in AL, MS, TX, FL, GA, NC, and SC.

Key Achievements & Responsibilities

- **Regional Leadership:** Directs debris operations and provides daily oversight for Project Managers across AL, MS, and TX, ensuring consistent performance, compliance, and client satisfaction
- **Client Liaison:** Serves as the primary point of contact for regional municipal and county clients, offering expert guidance on FEMA PA policy, reimbursement documentation, and disaster recovery procedures
- **Operational Management:** Leads multi-jurisdictional debris removal missions for hurricanes, tornadoes, and ice storms, coordinating field teams, subcontractors, and monitoring partners to maintain safe and efficient operations
- **Project Execution:** Manages high-profile activations and statewide responses delivering timely and compliant project outcomes
- **Training & Capacity Development**: Conducts annual disaster debris management training for city and county governments and provides policy updates and best practices at national and state emergency management conferences

Representative Project Portfolio

- **Hurricane Ian (2022)**: Supported debris clearing and removal for 38 school and support facilities in Florida, ensuring rapid restoration of safe access and operational continuity
- **Hurricanes Nicholas & Ida (2021)**: Managed multi-jurisdiction debris operations and served as government liaison in Texas, Mississippi, and Louisiana, aligning field activities with FEMA PA requirements
- **Hurricane Sally (2020) – City of Daphne, AL:** Directed debris removal operations and client coordination to expedite community recovery and documentation accuracy
- **Tornado & Special Projects (2019):** Oversaw two Texas county activations, providing debris management support and technical guidance to local officials
- **Hurricane Dorian (2019):** Led two debris removal activations in South Carolina, ensuring compliance with FEMA policies and supporting local government recovery operations
- **Hurricane Michael (2018) – Panama City Beach, FL:** Served as QC and Data Manager in Panama City, FL for more than 12 million cubic yards of debris, establishing rigorous documentation, reporting, and quality standards

(Selected major activations; full list available upon request)

CROWDER GULF

Core Competencies

- Disaster Debris Operations & Emergency Response
- Multi-Site Project Coordination & Logistics
- Team Leadership & Workforce Development
- Risk Management & Safety Compliance
- Strategic Planning & Interagency Collaboration
- Client Relations & Government Liaison
- Safety Management & OSHA Standards
- Strategic Planning & Team Leadership

Education, Affiliations, & Certifications

- Master of Science, Construction Management, University of Florida
- Master of Science, Strategic Studies, U.S. Army Senior Staff College
- Bachelor of Science, Agricultural Economics, Clemson University
- Certified Emergency Manager (CEM), International Association of Emergency Managers
- Society of American Military Engineers
- Army Engineer Association

Barrett Holmes

Regional Director – East Coast

Professional Overview

Barrett Holmes is an accomplished disaster response and recovery leader with over 30 years of experience managing large-scale, multi-site emergency operations across the Eastern U.S. He is known for building high-performing teams, optimizing operational efficiency, and delivering measurable results under pressure. Mr. Holmes is experienced in strategic planning, operational oversight, and coordinating with federal, state, and local agencies to execute complex disaster recovery missions.

Mr. Holmes drives results by mentoring high-performing teams, streamlining operations, and building trusted relationships with clients and government partners, consistently turning complex projects into successful outcomes.

Key Achievements & Responsibilities

- **Regional Operations Leadership:** Directed regional disaster debris removal operations across multiple states, leading project managers, field personnel, and subcontractors to execute complex, multi-site recovery efforts efficiently
- **Operational Planning & Execution:** Developed and implemented logistics plans for personnel, equipment, and temporary debris management sites, ensuring safe and timely removal of millions of cubic yards of debris
- **Resource & Workforce Management:** Optimized allocation of crews, trucks, and equipment across multiple simultaneous activations, improving efficiency and maximizing project outcomes
- **Safety & Risk Oversight:** Enforced rigorous safety protocols, risk management measures, and environmental compliance across all operations, reducing incidents and maintaining regulatory adherence
- **Team Development & Mentorship:** Coached and mentored project managers and field staff, building high-performing teams capable of executing large-scale, high-pressure disaster recovery projects
- **Performance Optimization:** Implemented innovative operational strategies and quality control measures, achieving measurable improvements in response times, debris removal rates, and client satisfaction

Representative Project Portfolio

- **Hurricane Idalia, Tornadoes & Storms (2023):** Directed regional debris removal operations across multiple counties, efficiently managing personnel, equipment, and temporary disposal sites to restore impacted communities
- **Hurricanes Ian & Nicole (2022):** Led multi-county disaster response, coordinating teams to remove millions of cubic yards of C&D and vegetative debris while ensuring regulatory compliance and public safety
- **Hurricanes Ida & Nicholas; KY Tornadoes & Floods (2021):** Oversaw large-scale debris operations, integrating multiple municipal and county contracts and maintaining seamless communication with government agencies
- **Hurricanes Laura, Sally, Delta & Zeta (2020):** Managed operations for multi-parish, multi-state activations, directing crews through C&D, white goods, and HHW removal, while maintaining schedule and budget adherence
- **Hurricane Dorian, Tropical Storm Imelda & Tornadoes (2019):** Coordinated debris removal across multiple states, implementing strategic resource deployment and operational oversight for maximum efficiency.

(Selected major activations; full list available upon request)

Donald Madio

Regional Director – Florida

Core Competencies

- Disaster Response & Recovery Operations
- FEMA Public Assistance Program
- Emergency Operations Planning & Execution
- Multi-Agency Coordination & Client Engagement
- Project Management & Contract Oversight
- Regulatory Compliance & Documentation Control
- Risk & Impact Analysis
- Training & Technical Assistance
- Crisis Communication & Public Information Management

Education & Certifications

- Bachelor of Science, Public Relations, University of Florida, Gainesville
- OSHA/MOT Certified
- National Incident Management System: Multiple ICS certifications

Professional Overview

Donald Madio is a disaster recovery and debris management specialist with over 25 years of experience leading large-scale emergency response and recovery operations across the United States. As a Regional Director for CrowderGulf, he has managed complex, multi-jurisdictional projects involving FEMA, USACE, HUD, and other federal, state, and local agencies.

He is recognized for his strategic leadership, technical expertise in the FEMA Public Assistance Program, and proven ability to deliver rapid, compliant, and cost-effective debris management solutions. His career is defined by high-impact coordination across teams, agencies, and contractors—consistently improving recovery efficiency, safety, and documentation accuracy in disaster environments.

Key Achievements & Responsibilities

- **Regional Leadership:** Oversees debris management and disaster recovery operations across the Southeast, directing multi-state teams and ensuring timely, cost-effective project delivery
- **Program & Compliance Management:** Ensures all activities adhere to FEMA Public Assistance, USACE, HUD, and EPA regulations, optimizing reimbursement and audit readiness
- **Operational Execution:** Leads planning, mobilization, and execution for hurricane, flood, tornado, and ice storm recovery missions—completing projects exceeding 13 million cubic yards of debris removal
- **Interagency Coordination:** Cultivates and leverages strong working relationships with federal, state, and local officials to streamline communication, resource allocation, and mission success
- **Process Optimization:** Implements operational procedures that enhance efficiency, reduce cost, and improve safety and documentation accuracy
- **Training & Mentorship:** Develops and facilitates technical training for federal, state, and local partners to strengthen disaster readiness and response capacity

Representative Project Portfolio

- **Hurricanes Ian & Nicole (2022) – Florida:** Directed 34 contract activations statewide, managing debris operations exceeding 13 million cubic yards
- **Hurricane Idalia & Winter Storms (2023) – AR, FL, GA, NC, TX & VA:** Supervised 15 contracts across six states, removing nearly 2 million cubic yards of debris
- **Hurricane Michael (2018) – Florida Panhandle:** Oversaw 11 contracts totaling 12 million cubic yards of debris, restoring access and supporting community recovery
- **Hurricane Irma (2017–2018) – Florida:** Managed 64 contract activations throughout the state, coordinating large-scale debris removal and site reduction operations
- **Hurricane Matthew (2016–2017) – Flagler County, FL:** Led debris management for multiple municipalities, achieving full project closeout within FEMA timelines
- **Red Tide Cleanup (2018) – Southwest Florida:** Directed marine and coastal debris removal in Collier, Lee, and Sarasota Counties, ensuring environmental compliance

Bill Doran

Regional Manager – Louisiana

Core Competencies

- Disaster Recovery & Emergency Management
- Federal Interagency Coordination (FEMA, HUD, DHS, USACE)
- Public Assistance & Mitigation Programs
- Executive Leadership & Policy Development
- Strategic Planning & Program Delivery
- Multi-State Operations & Intergovernmental Affairs
- Crisis Communication & Client Engagement
- Military Support to Civil Authorities

Education & Certifications

- Master of Science, Management, University of Maryland
- Bachelor of Arts, Journalism, Louisiana State University
- Certified Emergency Manager (CEM), International Association of Emergency Managers
- Board Member, Louisiana Emergency Preparedness Association
- Emergency Management Institute Executive Academy
- U.S. Air War College

Professional Overview

Bill Doran is a seasoned emergency management and disaster recovery executive with more than 30 years of progressive leadership experience spanning federal, state, military, and private-sector operations. His background includes service as a **Presidentially appointed Federal Coordinating Officer (FCO)** for FEMA Region VI, executive-level consulting for Ernst & Young, and senior program direction for Plexos Group and CrowderGulf.

Mr. Doran's career reflects a rare blend of **strategic acumen, operational command, and intergovernmental coordination**, developed through decades of leadership in all-hazards preparedness, response, recovery, and mitigation. He has coordinated billions in federal disaster aid, led complex recovery missions across nine states, and advised governors, senior military officials, and cabinet-level leaders on disaster policy and operations. As Regional Director for CrowderGulf in Louisiana, he leverages this deep experience to deliver efficient, compliant, and community-focused recovery programs.

Key Achievements & Responsibilities

- **Strategic Leadership & Program Oversight:** Directs CrowderGulf operations throughout Louisiana, overseeing multi-state response and recovery activations, contract execution, and client engagement for hurricanes, floods, ice storms, and tornado events
- **Federal Coordination & Policy Expertise:** Served as FEMA Federal Coordinating Officer for 25 federally declared disasters, leading interagency collaboration among federal, state, tribal, and local partners to deliver timely and effective disaster assistance
- **Executive Program Management:** Guided multi-billion-dollar recovery missions, including DR-4277-LA (Baton Rouge Floods) and multiple Texas disasters, achieving over $3 billion in combined aid delivery and cost savings through operational and policy innovation
- **Consulting & Advisory Experience:** Provided senior-level policy, program, and subject matter expertise to FEMA, HUD, USDA, DHS, and DoD through Ernst & Young and Plexos Group, ensuring alignment between government and private-sector emergency management practices
- **Organizational Leadership & Process Improvement:** Led FEMA's Louisiana Recovery Office for Hurricanes Katrina and Rita and directed the FEMA Region VI Response Division, implementing reforms to streamline coordination, reduce costs, and enhance transparency

Representative Project Portfolio

- **Presidentially Appointed FCO (2010-2018):** Presidential appointee for 25 federally declared disasters, coordinating all federal recovery and mitigation assistance; directed multi-state operations in nine states and advised the FEMA Administrator on national disaster response policy
- **Baton Rouge Floods (2016):** Delivered over $2.4 billion in aid, including $750M in Public Assistance and $750M in Individual Assistance; directed one of the largest temporary housing missions in FEMA history with over 4,000 units; implemented QC measures that saved the federal government nearly $30 million in program costs
- **Texas Floods (2016)**: Administered over $1 billion in federal aid across 120 counties while navigating complex political environments among federal, state, and local agencies

(Selected major activations; full list available upon request)

Joe Hayes

Regional Manager – Florida

Core Competencies

- Disaster Debris Operations & Recovery
- Multi-Jurisdictional Project Management
- Debris Estimation & Reduction Strategies
- Field Operations & Crew Supervision
- Operational Logistics & Asset Coordination
- Client Relations & Advisory
- Safety Management & OSHA Standards
- Strategic Planning & Team Leadership
- Performance Metrics & Quality Assurance

Education & Certifications

- Bachelor of Arts, College of Inquiry And Social Design; Florida Atlantic University
- OSHA 30-Hour Construction Safety & Health Certification
- National Incident Management System: Multiple ICS certifications

Professional Overview

Joe Hayes is a dynamic senior project manager with 10+ years of experience leading large-scale disaster response and debris removal operations across Florida and the Gulf Coast. He is experienced in directing multi-phase recovery efforts for hurricanes, floods, tornadoes, and environmental hazards, with a proven ability to manage multiple simultaneous scopes, coordinate personnel and equipment, and maintain clear communication with federal, state, and local officials.

Mr. Hayes specializes in operational logistics, strategic planning, and client advisory support, consistently delivering efficient, safe, and FEMA-compliant results in complex and austere environments. He is adept at developing innovative response protocols that maximize efficiency, enhance client satisfaction, and set new industry standards.

Key Achievements & Responsibilities

- **Regional Operations Leadership:** Directed large-scale disaster response efforts in Florida and Louisiana, managing personnel, subcontractors, and equipment to ensure timely, efficient, and compliant debris removal operations
- **Multi-Phase Project Management:** Oversaw concurrent debris removal scopes across multiple jurisdictions, providing logistical oversight, operational planning, and on-site decision-making for complex disaster events
- **Client Relations & Advisory:** Served as primary point of contact for county, municipal, and state officials, providing operational guidance, administrative updates, and strategic support for disaster response and recovery
- **Operational Efficiency & Safety:** Implemented hands-on management and innovative processes to streamline mobilization, optimize debris removal operations, and ensure adherence to safety and regulatory standards
- **Strategic Oversight & Reporting:** Supported senior management teams by coordinating multi-million-cubic-yard debris operations, monitoring project progress, and ensuring accurate reporting to clients and regulatory agencies

Representative Project Portfolio

- **Hurricane Ian (2022):** Directed statewide recovery operations, including 10+ million cubic yards removed from Lee County ROW; managed personnel, assets, and subcontractors while coordinating with local, state, and federal agencies to ensure safe, efficient debris removal
- **Red Tide Fish Kill (2021):** Served as senior project manager for the mass fish kill event in Fort Myers, FL, overseeing removal & disposal of almost 2 tons of dead fish from Florida beaches and shorelines
- **Hurricane Laura (2020):** Oversaw removal of nearly 7 million cubic yards of debris in Calcasieu Parish, LA, integrating multiple municipal contracts and providing operational oversight across the parish for a combined 12+ million cubic yards
- **Hurricane Michael (2018):** Managed debris removal logistics in Jackson County, FL for nearly 3 million cubic yards of debris; coordinated directly with county officials and FDOT to expand scope and improve efficiency
- **Hurricane Irma (2017):** Directed debris operations for Jupiter, Palm Springs, Stuart, and Vero Beach, FL; provided advisory support statewide to augment a 10+ million cubic yard recovery effort

(Selected major activations; full list available upon request)

CROWDER GULF

Core Competencies

- Large-Scale Disaster Debris Operations Management
- Strategic Planning & Leadership
- Multi-State Program Coordination & Oversight
- Client & Government Relations
- Risk Mitigation & Safety Compliance
- Resource & Asset Logistics Optimization
- Budgeting, Cost Control, & Contract Administration
- Innovative Technology Integration

Education & Certifications

- Special Forces Assessment & Qualification Course
- US Army John F. Kennedy Special Warfare Center & School NCOA Basic Leadership Course
- US Army Airborne School
- US Army Infantry School
- South Carolina Criminal Justice Academy, Basic Law Enforcement Class
- National Incident Management System: Multiple ICS certifications

Barton Holmes

Regional Manager – East Coast

Professional Overview

Barton Holmes is a resourceful and results-driven leader with over 15 years of progressive management experience in disaster response, debris operations, and team leadership across national and international projects. He is adept at assembling, coaching, and motivating high-performing teams to achieve operational excellence while maintaining safety, compliance, and ethical standards.

Mr. Holmes is skilled in strategic planning, project oversight, and complex multi-site operations, with a proven ability to deliver results under pressure. He has extensive experience overseeing large-scale disaster debris removal efforts across multiple states, ensuring the safe and efficient execution of all operational scopes while maintaining the highest standards of safety, compliance, and accountability.

Key Achievements & Responsibilities

- **Disaster Debris Management:** Directed multi-state recovery operations, overseeing personnel, assets, and subcontractors to ensure safe, compliant, and efficient debris removal under demanding conditions
- **Operational Oversight:** Managed all phases of large-scale response projects, maintaining alignment with federal, state, and municipal standards to meet or exceed client expectations
- **Business Development & Training:** Designed and implemented workforce development programs to enhance operational readiness and support regional expansion initiatives
- **Innovation & Technology:** Introduced drone and data-driven documentation systems to streamline project monitoring, reporting, and quality assurance
- **Client & Agency Collaboration:** Served as primary liaison for municipal, county, and state clients, facilitating transparent communication, rapid decision-making, and integrated operational coordination

Representative Project Portfolio

- **Hurricane Idalia, Tornadoes & Storms (2023):** Directed multi-state operations for VA Beach, Eastern NC, and South Georgia, coordinating multiple project teams and resources
- **Hurricane Ian (2022): S**enior Project Manager for Fort Myers Beach, FL, overseeing one of the most complex post-storm debris operations in company history
- **Bowling Green, KY Tornado (2021):** Managed large-scale debris recovery and restoration activities, coordinating with local officials and emergency agencies
- **Hurricane Florence (2018):** Led debris operations for multiple North and South Carolina jurisdictions, achieving over 20 million cubic yards of debris removal
- **Hurricane Harvey (2017):** Oversaw operations for multiple coastal Texas municipalities, ensuring rapid clearance and compliance with federal recovery standards

(Selected major activations; full list available upon request)

Valerie Gonzalez

Regional Manager – Texas

Core Competencies

- Disaster Response & Debris Management
- FEMA Public Assistance & Documentation
- Environmental Health & Regulatory Compliance
- Intergovernmental Coordination
- Public Administration & Program Leadership
- Policy Interpretation & Legal Analysis
- Training & Community Engagement
- Bilingual Communication (English/Spanish)

Education, Affiliations, & Certifications

- Juris Doctor (Valedictorian), Thurgood Marshall School of Law, Texas Southern University
- Bachelor of Arts, Criminal Justice, University of Texas at San Antonio
- Bachelor of Science, Biology, University of Texas at San Antonio
- State Bar of Texas – Active Member in Good Standing
- Registered Sanitarian & Floodplain Management, Municipal Solid Waste Operator (Class B)
- Member of the Texas Environmental Health Association
- Certified Texas Emergency Manager

Professional Overview

Valerie Gonzalez is an accomplished environmental health and disaster recovery professional with over a decade of leadership experience in public sector environmental regulation, emergency management, and large-scale debris operations. As Regional Manager for CrowderGulf in Texas, she oversees multi-site emergency response projects, directing project managers, subcontractors, and field personnel to ensure safe, compliant, and efficient operations across multiple jurisdictions.

Her prior service as Director of Environmental Health for Aransas County, Texas, combined with her extensive legal background, gives her a rare dual perspective on environmental regulation and operational execution. Ms. Gonzalez is recognized for her deep understanding of FEMA debris management protocols, Texas administrative and environmental regulations, and her ability to build collaborative partnerships among local, state, and federal agencies. She is widely regarded as a Debris Management Specialist, known for translating complex regulatory requirements into practical field solutions that enhance community resilience and accelerate disaster recovery.

Key Achievements & Responsibilities

- **Regional Operations Leadership:** Directs multiple emergency debris and recovery projects across Texas, managing regional staff, subcontractors, and equipment to deliver safe, efficient, and FEMA-compliant operations
- **Environmental Program Management:** Led Aransas County's Environmental Health Department, overseeing Environmental Health, Solid Waste, and Vector Control divisions and ensuring full compliance with TCEQ, TDA, and TDLR regulations
- **Disaster & Debris Management Expertise:** Served as Debris Manager for Aransas County after Hurricane Harvey, coordinating with FEMA, TDEM, TXDOT, and USACE. Later deployed with the Texas Division of Emergency Management's Disaster Recovery Task Force to support wildfire debris removal and recovery operations
- **Legal & Regulatory Experience:** Practiced law in Houston with expertise in environmental, contract, and probate matters; skilled in compliance review, legal research, and documentation for regulated industries
- **Public Engagement & Training:** Developed and delivered public education programs on environmental health and debris management, fostering community collaboration and interagency coordination

Representative Project Portfolio

- **Hurricanes Beryl, Helene & Milton (2024):** Oversaw debris response and recovery operations and permitting in several counties, including Clay County (FL) after Hurricanes Helene and Milton, and Angleton, TX after Hurricane Beryl
- **2023 Winter Storms & Straight-Line Winds:** Led regional debris response and recovery operations across Texas, coordinating multi-site activations, field personnel, and FEMA-compliant documentation in partnership with local and state clients
- **Eastland County (TX) Wildfires (2022):** Served as the TDEM Disaster Recovery Task Force Debris Specialist Liaison for debris removal, disposal, and volunteer coordination
- **Hurricane Harvey (2017 - 2022):** Directed countywide environmental health and debris programs in Aransas County; managed debris removal and recovery following Hurricane Harvey; ensured compliance with state and federal regulations; and maintained interagency coordination with FEMA and TDEM

(Selected major activations; full list available upon request)

Clayton Young

Regional Director – Texas

Core Competencies

- Disaster Debris Removal, Reduction, & Disposal
- Emergency Response Planning & Management
- Multi-Jurisdictional Project Management
- Pre-event Planning & Operational Strategy
- Project Estimation, Bidding, & Contract Negotiation
- Client Relations
- Team Leadership & Training
- Watershed Management

Education & Certifications

- Bachelor of Arts, Entrepreneurial Management, University of North Texas
- Watershed Management Certification
- National Incident Management System - Multiple ICS certifications

Professional Overview

Clayton Young is a seasoned disaster response and debris management professional with extensive experience leading multi-jurisdictional recovery operations across Texas, Louisiana, and North Carolina. He has managed large-scale debris removal, reduction, hauling, and disposal operations for hurricanes, tropical storms, flooding, and tornadoes, ensuring compliance with FEMA and municipal requirements.

Mr. Young also provides strategic guidance, pre-event planning, and technical support to municipal clients, helping optimize operational efficiency and disaster readiness. His background in entrepreneurship and project management enhances his ability to negotiate contracts, estimate work, and coordinate teams effectively. Mr. Young's strong communication and cultural awareness allow him to work seamlessly with municipal officials, subcontractors, and community partners.

Key Achievements & Responsibilities

- **Operational Leadership:** Directs large-scale debris operations across multiple counties, managing crews, subcontractors, and field operations for timely debris removal and disposal
- **Disaster Management Expertise:** Oversees hurricane, tropical storm, flooding, and tornado response operations in urban and rural areas, ensuring municipal and FEMA compliance
- **Client & Partner Coordination:** Serves as CrowderGulf's primary liaison with local governments and federal agencies to align operations with policy and maintain clear communication
- **Project Management:** Leads field-level debris operations, flood response, buyout programs, and post-disaster restoration projects, ensuring efficient execution of all contracts
- **Strategic Planning & Bidding:** Supports pre-event planning, competitive bidding, and project estimation to optimize operations and meet client goals
- **Training & Mentorship:** Provides guidance and oversight to project teams on disaster response protocols, safety standards, and operational best practices.

Representative Project Portfolio

- **Hurricanes Ida & Nicholas (2021):** Managed debris removal, hauling, and reduction operations across multiple counties
- **Hurricanes Laura, Sally, Delta, & Zeta (2020):** Supported multi-jurisdictional debris operations, ensuring timely collection and disposal
- **Hurricane Dorian, Tropical Storm Imelda, & Tornadoes (2019):** Oversaw field operations and municipal coordination for storm-impacted regions
- **Hurricanes Florence (2018)**: Served as Project Manager for Duplin County, NC, managing removal and disposal of more than 200,000 CY of debris
- **Hurricane Harvey (2017)**: Served as Project Manager for multiple municipal clients and Texas GLO Waterway Projects including Colorado River, San Bernard River, Brazos River, Chocolate Bayou, and Oyster Creek

(Selected major activations; full list available upon request)

Matthew Lucas

Senior Project Manager

Core Competencies

- Disaster Recovery Operations
- Construction & Demolition Oversight
- Electrical & Utility Infrastructure
- Contract Administration & Procurement
- Project Scheduling & Logisitics Coordination
- Safety & Risk Management Compliance
- Client, Contractor, & Agency Relations
- Team Leadership & Workforce Development

Education, Licenses, & Certifications

- Electrical Construction, Mercer County Vocational Technical School
- New Jersey Electrical Contractor License #9758
- New Jersey A901 Disposal License
- 100-Ton USCG Captain's License
- New Jersey CDL-A with Medical Card
- OSHA 10/30 & First Aid Certification
- National Incident Management System: Multiple ICS certifications

Professional Overview

Matthew Lucas is a seasoned construction and disaster recovery leader with over three decades of progressive experience managing complex infrastructure, debris management, and electrical construction projects. He has successfully led multimillion-dollar recovery and restoration operations for hurricanes, floods, and other federally declared disasters, earning a reputation for operational excellence, safety, and accountability.

Throughout his career, Mr. Lucas has demonstrated exceptional ability to coordinate large, diverse teams and maintain strong partnerships with federal, state, and local agencies. His expertise spans contract negotiation, project logistics, and technical oversight of debris removal, demolition, and electrical system installations. A results-driven leader, he excels under pressure, delivering efficient, compliant, and cost-effective solutions that strengthen community resilience and support mission-critical recovery efforts.

Key Achievements & Responsibilities

- **Disaster Recovery Operations:** Directed large-scale debris removal, demolition, and infrastructure repair for multiple FEMA-declared disasters, ensuring full compliance with federal, state, and local standards
- **Project Leadership:** Led multidisciplinary teams, subcontractors, and field crews to safely and efficiently execute projects exceeding hundreds of thousands of cubic yards of debris removal
- **Client Coordination:** Maintained proactive communication with municipal leaders, USACE representatives, and federal partners to ensure timely progress reporting and transparent project execution
- **Contract & Financial Management:** Negotiated vendor agreements and oversaw procurement, invoicing, and cost control to achieve operational efficiency and fiscal accountability
- **Safety & Compliance Oversight:** Implemented robust safety programs, training initiatives, and site audits to uphold OSHA standards and minimize incidents across all project sites

Representative Project Portfolio

- **Hurricane Laura (2020):** Directed debris removal operations in Alexandria, LA, clearing over 250,000 cubic yards of storm debris while ensuring regulatory compliance and public safety
- **Hurricane Michael (2018):** Led debris removal across a 30-mile operational corridor, in and around Panama City, FL, including private property and deep ditch clearing, restoring access and reducing flood risk
- **Hurricane Matthew (2016):** Managed large-scale debris removal across two municipalities, overseeing subcontractors and debris sites to expedite community recovery in Fayetteville, NC
- **Hurricane Harvey (2017):** Supervised extensive storm debris clearance and multiple temporary debris reduction sites in Port Arthur, TX, coordinating with city, state, and federal agencies to maintain operational efficiency

(Selected major activations; full list available upon request)

Lew Najor

Project Manager

Core Competencies

- Disaster Debris Operations Management
- Quality Control & Compliance
- Project Planning & Execution
- Team Leadership & Training
- Client Communication & Reporting
- Hazardous Materials & Environmental Safety
- Marine Debris & Coastal Project Management

Education, Licenses, & Certifications

- Bachelor of Science, Auburn University
- Associate's Degree, Jefferson Davis Community College
- USACE Construction Project Managemet Certification
- Florida Underground Utility Excavation License #CUCO57058
- Class B CDL & OSHA 10-Hour Training
- National Incident Management System: Multiple ICS certifications

Professional Overview

Lew Najor is an experienced Project Manager with over 25 years in disaster debris management, quality control, and construction operations, and a proven ability to lead large-scale projects, ensure compliance with federal, state, and local regulations, and maintain high-quality standards across multiple sites. He is skilled at implementing structured Quality Control programs, coordinating field teams, and optimizing operational efficiency under challenging conditions.

Mr. Najor is known for his results-oriented approach that emphasizes safety, cost-effectiveness, and schedule adherence. He is adept at managing simultaneous activations, overseeing debris removal operations, and providing actionable reporting to senior management and clients. He is a strong communicator with the ability to train, mentor, and lead high-performing teams to deliver measurable outcomes.

Key Achievements & Responsibilities

- **Quality Control Implementation:** Developed and executed three-phase Quality Control programs for debris operations, ensuring compliance with contract requirements and regulatory standards
- **Debris Operations Oversight:** Directed daily operations of debris removal crews, monitored production rates, and ensured safe, efficient, and compliant work across multiple activations
- **Contract and Project Management:** Managed project execution from mobilization to closeout, including client communications, resource allocation, and schedule oversight
- **Safety & Regulatory Compliance:** Monitored safety protocols and adherence to environmental and construction regulations, issuing rework logs and corrective actions when needed
- **Reporting & Documentation:** Prepared detailed weekly reports, tracked definable features of work, and maintained accurate debris removal documentation for federal and local agencies

Representative Project Portfolio

- **St. John the Baptist Parish, LA (2022-2023):** Oversaw NRCS canals, ditches, waterways, PPDR, and ROW operations
- **Pensacola East Bay Oyster Habitat Restoration (2021-2022):** Managed placement of 70K tons of aggregate and installation of 33 habitat reefs
- **Hurricanes Laura, Sally, Delta & Zeta (2020):** Supervised large-scale debris removal activations across multiple jurisdictions, counties, and states
- **Tropical Storm Imelda & Hurricane Dorian (2019):** Directed operations in Texas and South Carolina, ensuring quality control compliance
- **Hurricane Michael (2018):** Provided quality control oversight of 2 million cubic yards of debris removal in Bay County, FL

(Selected major activations; full list available upon request)

Howard Turner
Project Manager

Core Competencies

- Disaster Debris Operations Management
- TDSRS Site Management
- Vegetative Debris Grinding & Reduction
- Client & Agency Coordination
- Logistics & Crew Scheduling
- Claims Resolution & Quality Assurance
- Documentation & FEMA Compliance
- Environmental & Special Projects Oversight

Education & Certifications

- Bachelor of Science, University of Richmond
- Commonwealth of Virginia Class A& B General Contractor
- Commonwealth of Virginia - General Mineral Miner
- Commonwealth of Virginia - Certified Flagger
- OSHA HAZWOPER & Construction Training
- Red Cross First Aid/CPR

Professional Overview

Howard Turner is a veteran disaster recovery and debris management leader with more than two decades of experience directing large-scale debris operations, managing Temporary Disposal Storage & Reductions Sites (TDSRS) sites, and coordinating post-disaster recovery efforts across numerous states and hazard types. He brings deep expertise in debris reduction, subcontractor oversight, site restoration, operational logistics, documentation verification, and client coordination under FEMA Public Assistance programs.

Over his 20+ years with CrowderGulf and partner operations, he has delivered high-efficiency field management, reliable service to municipal and county clients, and consistent execution across hurricanes, tornadoes, winter storms, and special reduction missions.

Key Achievements & Responsibilities

- **Operational Leadership:** Manages daily debris removal, reduction, hauling, and disposal operations, including TDSRS oversight and subcontractor supervision.
- **Debris Reduction Management:** Leads grinding operations, secures additional sites, and ensures efficient processing, transport, and beneficial reuse of vegetative materials and wood fiber.
- **Client & InCoordination:** Acts as primary liaison with CrowderGulf clients and FEMA, resolving claims, aligning operations with policy, and maintaining clear communication.
- **Contract & Proposal Management:** Develops bid proposals, manages post-event contract changes, and supports competitive procurement for debris and reduction services.
- **Logistics & Crew Scheduling:** Plans and schedules crews, equipment, and site activities to ensure timely rights-of-way debris collection and coordinated material transport.
- **Compliance & Documentation:** Verifies load tickets, delivery records, and reduction documentation to ensure accurate invoicing and FEMA audit readiness.

Representative Project Portfolio

- **Hurricane Idalia (2023):** Managed multi-jurisdiction debris reduction and hauling operations across impacted communities in Florida and Georgia
- **Miscellaneous Storms & Tornadoes (2023):** Directed diverse tornado and severe-storm debris response missions for 11 activations in five states
- **Hurricane Ian (2022):** Led large-scale debris site management and reduction operations across 35 separate activations in Florida
- **Hurricane Nicole (2022):** Coordinated field operations and site oversight for coastal debris impacts in Florida
- **Winter Storms, Tornadoes & Special Projects (2022):** Supervised varied debris reduction and hauling missions across multiple hazard types in three states
- **Hurricane Ida (2021):** Managed municipal debris operations in Gulfport, MS, including reduction, hauling, and final disposal logistics
- **ALDOT Bridge Special Project (2021):** Oversaw debris and material movement supporting bridge and infrastructure restoration in Dauphin Island, AL
- **Kentucky Tornadoes (2021)**: Directed debris removal and reduction operations across tornado-affected communities

(Selected major activations; full list available upon request)

Isam Brisco
Project Manager

Core Competencies

- Debris Management Operations
- Construction & Project Management
- Emergency Response & Recovery
- Client Communication & Coordination
- Site Permitting & Compliance
- Logistics & Resource Management
- Field Operations Leadership
- Crew & Contractor Oversight

Education & Certifications

- Bachelor of Arts, Hospitality Management, University of North Texas
- Certified Asbestos Supervisor
- National Incident Management System: Multiple ICS certifications

Professional Overview

Isam Brisco is an accomplished Project Manager with over a decade of experience leading large-scale construction and disaster recovery operations across the Gulf Coast and Southeast regions. His expertise spans the full lifecycle of debris management projects—from rapid emergency mobilization and push operations to long-term drainage restoration and debris reduction site management.

Known for his strong leadership, organizational precision, and results-driven approach, Mr. Brisco has directed multi-million-yard debris operations and coordinated hundreds of field personnel, subcontractors, and equipment assets to achieve safe, efficient, and compliant project completion. His proven track record of operational excellence, client satisfaction, and innovative problem-solving makes him a trusted leader within CrowderGulf's disaster response and recovery division.

Key Achievements & Responsibilities

- **Strategic Program Leadership:** Directed large-scale debris removal and drainage restoration operations across multiple states, overseeing hundreds of personnel and managing millions of cubic yards of material safely, efficiently, and within budget
- **Operational Excellence:** Delivered complex disaster recovery missions—often across concurrent activations—by optimizing resources, accelerating timelines, and maintaining strict compliance with FEMA and local standards.
- **Client & Sub-contractor Coordination:** Served as the primary point of contact for clients, monitoring firms, and subcontractors, ensuring clear communication, issue resolution, and alignment of operational priorities across all project phases
- **Continuous Improvement:** Implemented process improvements and field innovations that streamlined mobilization, enhanced safety, and improved performance metrics for debris management programs nationwide.

Representative Project Portfolio

- **Hurricane Milton Floods – Hillsborough County, FL (2025):** Directed debris removal operations across multiple Florida counties; managed field crews, subcontractors, and monitoring teams to expedite recovery and reduce public safety risks
- **Private Property Debris Removal (PPDR) & Drainage Lateral Project – Calcasieu Parish, LA (2024):** Oversaw complex drainage and debris removal in flood-prone areas, coordinating marine-based access and compliance with environmental regulations
- **Hurricane Beryl & Flooding – Montgomery County, TX (2024):** Led coordinated recovery and debris operations in residential areas; ensured efficient communication and completion of multiple simultaneous activations
- **Hurricane Nicholas – Texas (2021):** Directed six concurrent debris removal contracts; established access agreements with thousands of property owners to facilitate safe and lawful debris removal
- **Hurricane Laura – Calcasieu Parish, LA (2020–2021):** Managed daily operations for 200+ trucks removing nearly 100,000 cubic yards of debris per day; permitted 12 temporary debris sites; completed 6.2 million cubic yards of total debris removal and reduction
- **Hurricane Michael – Bay County, FL (2018–2019):** Led push operations and site permitting for post-storm clearance; managed debris site operations that removed nearly 2 million cubic yards of debris

(Selected major activations; full list available upon request)

Buddy Young
Senior Director

Core Competencies

- Disaster Debris Management Operations
- Emergency Management & FEMA Compliance
- Multi-State Project Oversight & Coordination
- Pre-event Planning & Preparedness Training
- Special Projects
- Operational Leadership & Strategic Oversight
- Marine Debris & Demolition

Education & Certifications

- Keeler Polygraph Institute, Graduate
- FBI National Academy, Graduate
- Arkansas State Police Academy, Graduate
- Certificate of Public Administration, University of Arkansas
- National Incident Management System - Multiple ICS certifications

Professional Overview

Buddy Young is a nationally recognized leader in emergency management and disaster debris operations with decades of experience directing large-scale recovery efforts. He served as Regional Director for FEMA Region VI from 1993–2001, overseeing 133 federally declared disasters and emergencies. Since joining CrowderGulf in 2003, Mr. Young has served as Director of Debris Operations and Senior Project Manager for all major hurricanes in the Southeast, managing debris removal, reduction, disposal, and special projects including demolition and marine debris operations.

He provides strategic guidance, preparedness training, and technical support to municipal and county clients, leveraging his extensive knowledge of federal disaster programs and compliance requirements. Additionally, Mr. Young has conducted full-scale emergency response exercises as an adjunct instructor with the Texas A&M Engineering Extension Program and serves on the Board of Directors for the Disaster Recovery Contractors Association (DRCA).

Key Achievements & Responsibilities

- **Operational Leadership:** Directed large-scale debris operations across multiple jurisdictions, including removal, reduction, hauling, and disposal
- **Disaster Management Expertise:** Oversaw field operations for hurricanes, tornadoes, ice storms, and flooding, ensuring compliance with FEMA and municipal requirements
- **Training & Preparedness:** Developed and delivered annual pre-event debris management training for municipal clients in multiple states
- **Client & Agency Coordination:** Serves as senior liaison between CrowderGulf, local governments, and federal agencies to ensure effective response and recovery
- **Strategic Oversight:** Provides guidance on technical proposals, operational planning, and emergency management exercises for multi-state projects
- **Special Projects Management:** Led marine debris removal, demolition, and other non-standard debris operations, ensuring safety, efficiency, and regulatory compliance

Representative Project Portfolio

- **Hurricane Idalia & Tornadoes (2023):** Provided oversight and direction for multiple activations across the Gulf Coast
- **Hurricanes Ian & Nicole (2022):** Oversaw comprehensive debris removal, reduction, and disposal operations across multiple counties
- **Hurricanes Ida & Nicholas (2021):** Oversaw debris operations and municipal coordination for high-impact storm events
- **Hurricanes Laura, Sally, Delta, & Zeta (2020):** Provided oversight and direction of multi-jurisdictional debris operations for impacted municipalities across four states
- **Hurricanes Florence & Michael (2018):** Managed debris operations and field project oversight for multiple municipal contracts

(Selected major activations; full list available upon request)

John Campbell
Senior Director

Core Competencies

- FEMA Public Assistance Operations
- Large-Scale Debris Removal & Reduction
- Multi-State Project Oversight & Coordination
- Pre-event Planning & Preparedness Training
- Regional & Executive Project Oversight
- Debris Management Training & Preparedness
- Government & Client Coordination

Education & Certifications

- United States Army, Colonel (Retired)
- National Incident Management System - Multiple ICS certifications

Professional Overview

John M. Campbell is a senior emergency management and disaster recovery leader with more than four decades of public and private sector experience supporting large-scale disaster response operations. He has served in senior leadership roles for CrowderGulf since 2006, providing regional and national oversight for FEMA-funded debris removal, reduction, and disposal operations following major hurricanes, floods, tornadoes, and severe storms.

Mr. Campbell brings deep operational expertise gained through managing dozens of simultaneous activations across multiple states, combined with prior executive leadership in county emergency management and a distinguished military career retiring as a U.S. Army Colonel. His background uniquely positions him to bridge field operations, government coordination, safety oversight, and emergency planning, while delivering compliant, efficient recovery outcomes for clients.

Key Achievements & Responsibilities

- **Senior Disaster Operations Leadership:** Provides executive oversight for debris management operations across multiple states and hazard types
- **Regional & Multi-Event Management:** Served as Regional Manager or Senior Project Manager for up to 61 simultaneous activations during major hurricane events
- **Debris Operations Oversight:** Directed vegetative debris removal, hazardous tree operations, grinding, hauling, disposal, and marine debris cleanup
- **Client & Agency Coordination:** Works directly with municipal, county, state, and federal partners to align operations with FEMA Public Assistance requirements
- **Training & Preparedness:** Led debris management training for CrowderGulf clients and serves as consultant for debris management plan development
- **Emergency Management Expertise:** Applies prior experience as Emergency Management Chief of Operations and Planning to disaster response execution

Representative Project Portfolio

- **Hurricane Idalia & Tornadoes (2023):** Provided senior leadership oversight and direction for debris response operations across multiple impacted jurisdictions
- **Hurricanes Ian & Nicole (2022):** Oversaw comprehensive debris removal, reduction, and disposal operations across Florida
- **Hurricanes Ida & Nicholas (2021):** Oversaw debris operations and municipal coordination for high-impact storm events
- **Hurricanes Laura, Sally, Delta, & Zeta (2020):** Provided oversight and direction of multi-jurisdictional debris operations for impacted municipalities across four states
- **Hurricane Florence (2018):** Served as Regional Manager for all county and municipal activations throughout North and South Carolina.
- **Hurricane Irma (2017):** Served as Regional Manager for 61 simultaneous activations across Florida

(Selected major activations; full list available upon request)

Jeff Zemlik

Health & Safety Manager

Core Competencies

- Disaster Debris Operations Safety Management
- Health, Environmental, & Marine Safety
- OSAH & Regulatory Compliance
- Hazard Analysis & Job Safety Analysis
- Incident Investigation & Case Management
- Safety Program Development & Implementation
- Employee Training & HAZWOPER Instruction
- Permit Oversight & Compliance

Education & Certifications

- Bachelor of Arts, Occupational Health & Safety, Columbia Southern University
- Associate's Degree, Organizational Management, Indian River State College
- National Incident Management System - Multiple ICS certifications
- 40-Hour HAZWOPER Certificate & Instructor
- SONS & TWIC Certified

Professional Overview

Jeff Zemlik is a highly experienced Health & Safety Manager with extensive expertise in disaster debris operations, environmental safety, and marine operations. Since joining CrowderGulf in 2010, he has developed, implemented, and overseen comprehensive safety programs for debris removal, reduction, hauling, and disposal projects across multiple states.

Mr. Zemlik has managed safety operations for hundreds of field personnel during major hurricanes, tornadoes, flooding events, and large-scale environmental responses, including oil spill recovery and marine debris removal. He is skilled in regulatory compliance, incident investigation, hazard analysis, and employee training, ensuring zero OSHA recordable incidents across numerous high-risk projects. He also serves as an adjunct HAZWOPER instructor, providing hands-on safety training to over 240 employees.

Key Achievements & Responsibilities

- **Operational Safety Leadership:** Directs health and safety for all debris operations, managing up to 16 safety observers and monitoring field crews across multiple states
- **Program Development & Implementation:** Designs and enforces project-specific safety plans, procedures, and policies, including permits, hot-work protocols, lockout/tagout, and ground disturbance programs
- **Incident Management:** Leads thorough incident investigations and aggressive case management to prevent recurrence and ensure compliance with federal, state, and local regulations
- **Training & Mentorship:** Conducts daily safety briefings and provides structured training programs, including HAZWOPER certification and Job Safety Analysis (JSA) oversight
- **Documentation & Compliance:** Maintains all safety records, JSA documentation, and regulatory files, ensuring proper electronic and physical preservation for audits and inspections
- **Client Coordination:** Collaborates with municipal clients, subcontractors, and federal agencies to align safety programs with operational requirements and regulatory standards

Representative Project Portfolio

- **Hurricane Idalia (2023):** Oversaw safety for four activated debris contracts, managing crews and monitoring compliance across impacted jurisdictions
- **Miscellaneous Ice Storms & Tornadoes (2023):** Directed safety operations for eleven activated contracts following tornadoes and severe storms
- **Hurricanes Ian & Nicole (2022):** Monitored field safety for thirty-five activations, including debris collection, hauling, and reduction operations
- **Hurricane Ida & Nicolas; Severe Flooding & Tornadoes (2021):** Supervised safety operations for twenty-four activated contracts, ensuring zero OSHA recordable incidents
- **Hurricanes Laura, Sally, & Zeta (2020)**: Directed safety programs across twenty-eight activations and coordinated 27, 37, and 9 DMS sites

(Selected major activations; full list available upon request)

Jesus Carretie

Program Manager

Core Competencies

- Disaster Recovery Operations & Program Management
- FEMA Public Assistance & Compliance
- Debris Removal Oversight & Data Management
- Contract Administration & Financial Controls
- Client, Contractor & Agency Coordination
- Quality Assurance & Operational Readiness
- Automated Debris Management Systems (ADMS)
- Bilingual Communication (English/Spanish)

Education & Certifications

- Associate of Arts/Bachelor of Arts Candidate, Accounting & Real Estate, Florida State University
- National Incident Management System: Multiple ICS certifications

Professional Overview

Jesus Carretie is an accomplished Program Manager with more than a decade of experience leading large-scale disaster recovery and debris management operations across the United States. He has overseen complex response efforts for hurricanes, floods, tornadoes, and wildfires, providing strategic direction from field mobilization through project closeout. His expertise spans data management, financial oversight, and client relations, with a proven record of managing multimillion-cubic-yard debris programs efficiently and in full compliance with FEMA and state requirements.

Mr. Carretie is known for his collaborative leadership and ability to coordinate seamlessly with federal, state, and local agencies to ensure transparent, accountable, and timely disaster recovery operations. Bilingual in English and Spanish and highly proficient in Automated Debris Management Systems (ADMS), he brings a balance of technical expertise and people-centered leadership that consistently drives successful outcomes for CrowderGulf clients and communities nationwide.

Key Achievements & Responsibilities

- **Program & Project Leadership:** Leads multi-state recovery operations for hurricanes, floods, tornadoes, and wildfires, providing strategic oversight of personnel, logistics, and project execution from mobilization through completion
- **Operational & Financial Management:** Oversees quality control, invoicing, and data management for FEMA-funded debris programs exceeding tens of millions in value, ensuring accuracy, transparency, and audit readiness
- **Client & Partner Coordination:** Serves as primary liaison for Florida-based and national clients, maintaining strong relationships with government officials, monitoring firms, and subcontractors to ensure seamless communication and contract performance
- **Continuous Improvement & Innovation:** Implements process improvements, reporting tools, and best practices to strengthen accountability, enhance efficiency, and accelerate program delivery across all recovery operations

Representative Project Portfolio

- **2023 Hurricanes and Tornados:** Directed hurricane debris removal operations across multiple Florida and Georgia counties through four activations; managed 11 additional activations nationwide, including Arkansas, Florida, North Carolina, Texas, and Virginia
- **Hurricane Ian (2022):** Led data management, invoicing, proposal writing, project management, and client relations teams with a focus on Florida operations
- **Hurricane Michael (2020):** Managed FEMA Public Assistance Category A debris projects totaling more than $200 million for Bay County, FL
- **Oregon Wildfires (2020):** Served as Branch Director for the Oregon Department of Transportation's wildfire recovery mission, managing HR, invoicing, and data systems for removal of 100,000 hazardous trees and 76,000 cubic yards of debris
- **Hurricane Irma (2017-2020):** Managed data and financial documentation for 23 Hurricane Irma debris removal contracts in Florida, tracking over 10 million cubic yards of debris and 200,000 hazardous trees/limbs; oversaw data management, reporting, and performance tracking for the Florida Department of Economic Opportunity's Rebuild Florida CDBG-DR program

(Selected major activations; full list available upon request)

Curt Johnson

Senior Project Manager

Core Competencies

- FEMA Public Assistance Compliance
- Debris Monitoring & Removal Operations
- Hazardous Tree & Special Waste Management
- Private Property Debris Removal (PPDR)
- Right-of-Entry (ROE) Programs
- QA/QC & Audit Readiness
- Environmental & Historic Preservation Coordination
- Team Leadership & Contractor Oversight
- Multi-Jurisdictional Project Management
- Safety & Operational Risk Management

Certifications

- OSHA 40-Hour HAZWOPER
- Certified HACCP Manager
- TWIC Card Holder
- National Incident Management System: Multiple ICS certifications

Professional Overview

Curt Johnson is a senior emergency management professional with more than 20 years of leadership experience and over 13 years specializing in FEMA-funded debris monitoring and removal operations. He has served in senior leadership roles including Senior Project Manager, Senior Regional Manager, Senior Debris Specialist, and Subject Matter Expert on large-scale disaster recovery projects across multiple states and U.S. territories.

Throughout his career, Mr. Johnson has overseen high-value debris operations supporting more than $206 million in federal reimbursements, managing complex Cat A projects involving vegetative debris, construction and demolition debris, hazardous trees, PPDR, and special waste streams. His background includes extensive experience in QA/QC oversight, regulatory compliance, environmental and historic preservation coordination, and large-team leadership. Prior to entering emergency management, Curt served honorably in the United States Coast Guard, bringing a disciplined, mission-focused approach to disaster response operations.

Key Achievements & Responsibilities

- **Disaster Operations Leadership:** Serves as Senior Project Manager and Regional Manager for large-scale FEMA debris monitoring and removal projects
- **Debris Volume Oversight:** Directed removal and reduction of 10+ million cubic yards of vegetative and C&D debris and 700,000+ hazardous trees and limbs
- **FEMA Compliance & QA/QC:** Implements QA/QC programs to ensure documentation accuracy, eligibility, and audit readiness
- **PPDR & ROE Management:** Oversees Private Property Debris Removal programs and Right-of-Entry execution involving thousands of parcels
- **Team & Resource Management:** Leads and mentors large, multi-disciplinary teams of up to 250+ staff across simultaneous activations
- **Specialized Debris Projects:** Manages environmentally sensitive and historic preservation debris operations requiring interagency coordination

Representative Project Portfolio

- **Hurricane Milton (2024):** Led debris removal across eastern Orange County, FL, managing 25,661 CY of vegetative and C&D debris from ROWs, parks, and county properties
- **Hurricane Idalia (2023):** Served as the Senior PM/Regional Manager in Taylor County, FL, overseeing removal of 22,568 CY of debris, 318 hazardous trees, and 979 limbs; managed 35 staff and $792K Cat A costs
- **Hurricane Ian (2022):** Directed debris operations in Sanford, FL, totaling 44,646 CY, managing 64 staff and $674K Cat A costs
- **Hurricane Ida (2021):** Managed removal of 41,000+ CY of debris and special waste from levees for the Southeast Louisiana Flood Protection Authority; supported SOW development and led 41 staff on a $3.37M Cat A project
- **Hurricane Isaias (2020):** Served as Senior PM for debris operations exceeding 1.5 million CY, managing 70–80 staff and Cat A costs exceeding $5.3M
- **Hurricane Florence (2018-2019):** Led debris monitoring for multiple jurisdictions in North Carolina, overseeing 1.6M+ CY of debris and 7,500+ hazardous trees, with Cat A costs over $13.3M

(Selected major activations; full list available upon request)

CROWDER GULF

Rich Holiday
Project Manager

Core Competencies

- Disaster Debris Operations Management
- Strategic Planning & Logistics Coordination
- Field Team Leadership & Workforce Integration
- Safety, Compliance, & Environmental Oversight
- Interagency & Client Relations
- Advanced Mapping & GIS Integration
- Quality Assurance & Operational Efficiency
- Multi-Project Management Across Diverse Regions
- Risk Assessment & Emergency Response Planning

Certifications

- OSHA 30-Hour Certification
- National Incident Management System: Multiple ICS certifications

Professional Overview

Rich Holiday is a results-driven Project Manager with over 10 years of leadership in disaster recovery and debris operations across the United States. He excels at managing complex, large-scale projects under challenging conditions, integrating logistics, field operations, and client coordination to deliver efficient and compliant outcomes. Known for combining technical expertise with strategic oversight, Mr. Holiday consistently improves operational processes and maximizes team performance.

He has extensive experience coordinating municipal, state, and federal responses, including FEMA and FDEM missions, across diverse disaster types such as hurricanes, wildfires, floods, and oil spill recovery. Mr. Holiday's approach prioritizes safety, environmental stewardship, and client satisfaction, while implementing innovative field solutions and mapping technology to enhance efficiency and reporting.

Key Achievements & Responsibilities

- **Project Leadership:** Directed large-scale debris management operations across multiple states, overseeing logistics, safety, and field performance for multimillion-cubic-yard recovery missions
- **Operational Oversight:** Supervised more than 50 subcontractors and hundreds of personnel to ensure efficient debris removal, compliance, and schedule adherence under high-pressure disaster conditions
- **Client & Interagency Coordination:** Served as primary liaison with municipal, state, and federal partners to ensure transparency, client satisfaction, and alignment with FEMA and USACE requirements
- **Safety & Compliance:** Enforced strict safety and environmental protection standards across all job sites, achieving zero-incident operations in high-risk recovery environments
- **Process Innovation:** Integrated GIS and digital mapping tools to enhance operational efficiency, situational awareness, and performance reporting in disaster recovery projects

Representative Project Portfolio

- **Hurricane Ian (2022–2024):** Managed large-scale right-of-way debris operations in Lee County, FL, removing over 6.3 million cubic yards, overseeing 50+ subcontractors and multiple municipal and state-led missions
- **Hurricane Ida (2021):** Led waterway debris removal operations in Lafayette, LA, ensuring environmental compliance and efficient recovery efforts
- **Camp Fire Wildfire (2018):** Supervised wildfire debris removal and disposal in Paradise, CA, maintaining strict environmental and safety standards
- **Hurricane Michael (2018):** Directed countywide debris collection and disposal operations in Bay County, FL, optimizing safety and logistics performance
- **Hurricane Florence (2018):** Coordinated flood-related debris operations in Brunswick & Pender Counties, NC, ensuring compliance with FEMA and local regulations

(Selected major activations; full list available upon request)

Brandon Remley
Project Manager

Core Competencies

- Disaster Debris Removal Operations
- Waterway & Marine Debris Management
- FEMA Public Assistance & Compliance
- DMS Operations
- Municipal & County Project Coordination
- Safety & Regulatory Compliance
- Production Tracking & Reporting
- Contractor & Crew Coordination

Certifications

- HAZWOPER Certified
- Respirator Fit Test
- H_2S Safety Certified
- SafeLand Certified

Professional Overview

Brandon Remley is an experienced Project Manager with a strong background in large-scale disaster debris operations, waterway restoration, and municipal recovery projects. Since joining CrowderGulf in 2022, he has supported and led complex city and county-led debris removal efforts across multiple states, managing high-volume operations following major hurricane events.

Mr. Remley's experience spans FEMA-funded waterway debris removal, private property debris removal (PPDR), debris management site (DMS) oversight, and multi-jurisdictional coordination. Prior to disaster recovery, he built a strong operational foundation in the energy sector, managing production and midstream facilities with a focus on safety, compliance, and equipment reliability.

Key Achievements & Responsibilities

- **Disaster Operations Management:** Manages municipal debris removal and waterway restoration operations following major hurricane events, ensuring compliance with FEMA and state requirements
- **Waterway Debris Removal:** Supports and leads large-scale river, bayou, and drainage system cleanups, restoring natural flow and protecting critical infrastructure
- **Volume & Site Oversight:** Oversees debris management sites (DMS) and monitors debris reduction, hauling, and disposal activities across multiple jurisdictions
- **Interagency Coordination:** Works closely with municipal clients, contractors, and regulatory agencies to align field operations with project objectives and compliance standards.
- **Operational Reporting:** Tracks production metrics, debris quantities, and site performance to support documentation, invoicing, and reimbursement processes
- **Safety & Compliance:** Applies industry safety standards and certifications to maintain safe work environments across active field operations

Representative Project Portfolio

- **Hurricane Laura Recovery (2022):** Supported FEMA's largest waterway debris removal project to date, clearing over 900 miles of bayous, canals, and drainage laterals, and assisting with PPDR operations on more than 350 private properties in Calcasieu Parish, LA
- **Hurricane Beryl (2024):** Assisted in managing debris removal operations in Montgomery County, TX, totaling over 1.3 million cubic yards of storm debris
- **Hurricanes Helene & Milton (2024):** Served as Project Manager in Tarpon Springs and Oldsmar, FL, overseeing debris removal operations totaling over 200,000 cubic yards across municipal rights-of-way. Managed debris removal from more than 250 retention ponds in Hillsborough County, FL, totaling 65,000 cubic yards, supporting flood mitigation and infrastructure protection.
- **Hurricane Helene Recovery (2024):** Served as Project Manager in Cleveland County, NC, overseeing DMS operations and large-scale waterway debris removal from over 60 miles of rivers and creeks

(Selected major activations; full list available upon request)

CROWDER GULF

Core Competencies

- Federal Emergency Management Leadership
- Disaster Response & Recovery Operations
- Interagency Coordination & Policy Implementation
- Strategic Program Development & Oversight
- FEMA Compliance & Technical Assistance
- Risk Assessment & Hazard Mitigation
- Public Safety & Infrastructure Resilience
- Crisis Management & Emergency Preparedness
- Client & Government Relations

Education & Certifications

- Master of Public Health Administration, Tulane University
- Bachelor of Education, University of Arkansas
- National Incident Management System: Multiple ICS certifications

Gary Jones
FEMA Specialist

Professional Overview

Gary Jones is an accomplished emergency management executive with over 40 years of experience leading large-scale federal response and recovery operations across the United States. He brings exceptional expertise in policy implementation, interagency coordination, and disaster program management, developed over 28 years with the Federal Emergency Management Agency (FEMA). Mr. Jones served as Deputy Regional Director for FEMA Region VI, providing strategic oversight for hundreds of federally declared disasters across Arkansas, Louisiana, New Mexico, Oklahoma, and Texas.

As a Presidentially-appointed Federal Coordinating Officer, he directed national-level operations for Hurricanes Katrina, Rita, and Georges, delivering coordinated response and recovery across multiple jurisdictions. He is recognized for strong leadership under pressure, cross-sector collaboration, and commitment to improving disaster readiness, resilience and operational excellence at every level of government.

Key Achievements & Responsibilities

- **Executive Disaster Oversight:** Directed large-scale FEMA disaster response and recovery operations across Region VI, managing resources and personnel for more than 300 federally declared disasters
- **Policy Development & Implementation:** Led the creation and execution of national preparedness programs for radiological, chemical, and natural hazard events
- **Client & Partner Engagement:** Cultivated and leveraged intergovernmental relationships to streamline disaster communication, coordination, and response efficiency
- **Public Health & Emergency Services Leadership:** Directed statewide EMS operations and professional certification programs in Arkansas, improving healthcare access and emergency response capabilities
- **Advisory & Technical Expertise:** Provided FEMA technical assistance and policy guidance to public-sector clients and private disaster response teams to ensure compliance and effective recovery

Representative Project Portfolio

- **Hurricanes Katrina, Rita & Georges:** Served as FEMA Federal Coordinating Officer, leading interagency recovery operations across multiple states
- **Hurricane Andrew:** Directed multi-state federal response and recovery coordination
- **Oklahoma City Bombing:** Led FEMA Region VI's response coordination and recovery support
- **Columbia Space Shuttle Disaster:** Oversaw federal coordination and debris recovery operations
- **Tropical Storm Allison:** Managed regional flood recovery and mitigation efforts

(Selected major activations; full list available upon request)

Amber Ramsay
Director of Marketing

Core Competencies

- Disaster Recovery Communications & Public Relations
- Emergency Operations Planning & Coordination
- Strategic Marketing & Outreach
- Client Engagement & Liaison Management
- Training & Education for Clients & Field Teams
- Media & Community Information Management
- Program Development & Client Support
- Crisis Communication & Rapid Response
- Cross-Functional Team Leadership

Education & Certifications

- Bachelor of Science, Auburn University
- National Incident Management System: Multiple ICS certifications

Professional Overview

Amber Ramsay is an accomplished marketing and communications professional with over 25 years of experience supporting disaster recovery operations and strategic client engagement. She leverages her expertise in community relations, media management, and emergency planning to ensure clear communication between field operations, federal and local agencies, and the public. Ms. Ramsay excels at developing proactive strategies to improve outreach, client satisfaction, and program effectiveness in high-pressure disaster environments.

She is highly skilled in coordinating multi-state disaster response efforts, preparing and managing media communications, and providing technical guidance on FEMA eligibility and public assistance programs. Ms. Ramsay has a proven ability to build strong partnerships with government officials, community leaders, and operational teams, and to represent organizational interests at national and regional conferences.

Key Achievements & Responsibilities

- **Community & Client Engagement:** Served as the primary liaison between CrowderGulf, USACE, elected officials, and clients, ensuring consistent communication and understanding of project scope and FEMA requirements
- **Media & Public Relations Management:** Coordinated press releases, media briefings, and public communications related to debris operations, enhancing transparency and community trust
- **Debris Program Oversight:** Managed CrowderGulf's Community Debris Hotline and Damage Claim Program, ensuring timely response to public inquiries and issues
- **Training & Education:** Conducted annual training sessions for clients and project managers on disaster debris management procedures and FEMA eligibility, increasing operational efficiency
- **Professional Representation:** Represented CrowderGulf at state, regional, and national conferences and seminars, promoting best practices and organizational expertise in disaster recovery

Representative Project Portfolio

- **Hurricane Idalia (2023):** Oversaw communications and public engagement for four activations, providing timely updates to communities and local officials
- **Miscellaneous Storms & Tornadoes (2023):** Managed information flow across 11 activations, supporting multi-state debris removal operations
- **Hurricane Ian (2022):** Directed media and community relations for 35 activations, ensuring clarity in FEMA eligibility and debris removal procedures
- **Hurricane Nicole (2022):** Managed communications for three activations, maintaining consistent public messaging and operational transparency
- **Hurricane Irma (2017):** Directed media and community relations across 61 activations, supporting large-scale debris removal operations.
- **Hurricane Harvey (2017):** Coordinated communications for 26 activations, maintaining consistent messaging to federal, state, and local agencies.

(Selected major activations; full list available upon request)

CROWDER GULF

Core Competencies

- Disaster Documentation & Record-Keeping
- Data Analysis & Reporting
- Invoice Reconciliation & Accounts Receivable
- Client Coordination & Communication
- Database Design & Management
- FEMA Compliance & Audit Support
- Proposal Support & Historical Data Presentation
- Multi-Event Project Oversight

Education & Certifications

- Associate's Degree, Electronics & Computer Engineering Technology Remington College
- Coursework, University of Southern Mississippi
- Coursework, Faulkner State Community College
- National Incident Management System - Multiple ICS certifications

Gina Walley

Documentation Specialist

Professional Overview

Gina Walley is a seasoned Documentation and Data Management Specialist with nearly two decades of experience supporting large-scale disaster recovery operations. She brings expertise in invoice reconciliation, data capture and analysis, database development, and historical project documentation to ensure accurate reporting, compliance, and effective client communication.

Ms. Walley has played a critical role in streamlining project documentation, supporting FEMA audits, and providing actionable insights for pre- and post-event recovery projects across multiple states and hazard types.

Key Achievements & Responsibilities

- **Documentation Management:** Ensures accurate and sufficient records of work completed, supporting client reporting and historical project tracking
- **Data Analysis & Audit Support:** Reviews and validates project data, prepares charts and tables for proposals, and assists clients with audits and investigations
- **Invoice & Accounts Receivable Management:** Prepares accurate invoices based on contract requirements, reconciles data, and maintains client satisfaction through timely reporting
- **Database Development & Management:** Designs and maintains client-specific databases to capture project data efficiently and support invoicing, reporting, and FEMA compliance
- **Client & Interagency Coordination:** Serves as a primary point of contact for client inquiries, reconciles discrepancies, and ensures documentation aligns with contractual and regulatory requirements
- **Project Reporting & Historical Data Support:** Creates visualizations, reports, and summaries from past projects to support proposals, performance reviews, and operational planning

Representative Project Portfolio

- **Hurricane Idalia (2023):** Managed documentation and data reconciliation for multi-jurisdictional debris operations for six activations in Florida and Georgia
- **Texas and Arkansas Tornadoes (2023):** Oversaw invoice generation and database management to support rapid response operations for three separate, concurrent activations
- **Hurricanes Ian & Nicole (2022):** Led comprehensive data and invoice management for 38 concurrent and overlapping activations across Florida
- **Kentucky Tornadoes (2021):** Provided accurate project documentation, invoice reconciliation, and database oversight
- **Hurricane Nicholas (2021):** Directed reconciliation of invoices and management of client-specific databases throughout the Gulf Coast for seven concurrent activations
- **Hurricane Ida (2021):** Ensured accurate records, reporting, and compliance with FEMA and municipal requirements for four activations in two states
- **Hurricanes Zeta, Delta, Sally & Laura (2020):** Managed invoices and databases for multiple disaster response and debris removal operations across five states

(Selected major activations; full list available upon request)

Jenny Todd Weaver

Subcontract Manager

Core Competencies

- Subcontractor Management & Oversight
- Minority & Disadvantaged Business Engagement (S/WMBE)
- Contract Administration & RFP Preparation
- Invoicing, Reconciliation, & Accounts Oversight
- FEMA Compliance & Audit Support
- Data Management & Tracking
- Multi-Event Activation Coordination

Education & Certifications

- Bachelor of Science, Marketing, University of Alabama
- Associate's degree, General Studies Faulkner State Community College
- National Incident Management System - Multiple ICS certifications
- First Aid/CPR

Professional Overview

Jenny Todd Weaver is a highly experienced Subcontract Manager with 18 years supporting large-scale disaster recovery operations, specializing in subcontractor management, minority and disadvantaged business engagement, and contract compliance. She brings extensive expertise in RFP preparation, subcontract execution, database management, and multi-event activation coordination.

Ms. Weaver has successfully overseen hundreds of subcontractors across complex debris operations, ensuring compliance with federal and state regulations while maintaining client satisfaction during high-volume disaster responses. She has consistently demonstrated the ability to streamline subcontractor processes, improve operational efficiency, and maintain accurate documentation for FEMA auditing and municipal reporting. Her strategic approach to subcontractor engagement ensures that projects meet both budgetary and timeline goals while fostering strong relationships with local contractors and community.

Key Achievements & Responsibilities

- **Subcontract Management:** Executes subcontractor activations, oversees insurance and compliance requirements, and manages subcontractor reconciliation
- **S/WMBE Engagement:** Develops and implements company Small, Minority, and Women-Owned Business utilization plans and solicits local subcontractors to meet client goals
- **Contract Administration & Proposal Support:** Assists in RFP preparation, organizes proposals, and reviews contracts to ensure adherence to scope, pricing, and regulatory requirements
- **Data Management & Analysis:** Maintains and analyzes debris area databases, organizes field certifications, and reconciles subcontractor invoices with municipalities
- **Audit & Documentation Support:** Investigates discrepancies, prepares final reconciliations, and ensures accurate documentation for invoicing and FEMA compliance
- **Client & SCoordination:** Serves as primary point of contact for subcontractors and municipal clients, facilitating timely communication and issue resolution

Representative Project Portfolio

- **Hurricane Idalia (2023):** Managed subcontractor activations and compliance for multi-jurisdictional debris operations in Florida and Georgia
- **Texas and Arkansas Tornadoes (2023):** Directed subcontractor oversight and invoice reconciliation during severe storm response for three concurrent activations
- **Hurricanes Ian & Nicole (2022):** Oversaw large-scale subcontractor deployment, documentation, and compliance tracking for 38 concurrent and overlapping activations
- **Kentucky Tornadoes (2021):** Coordinated subcontractor crews and reconciled project data for FEMA compliance
- **Hurricane Nicholas (2021):** Managed subcontractor engagement and documentation for multiple county debris operations in Texas
- **Hurricane Ida (2021):** Directed subcontractor operations and ensured alignment with municipal and federal requirements in Mississippi and Louisiana
- **Hurricanes Zeta, Delta, Sally & Laura (2020):** Managed diverse subcontractor teams and project documentation across multiple disaster events
- **Hurricanes Michael & Florence (2018-2020):** Oversaw subcontractor activations and compliance for over 80 disaster operations in Florida and Georgia

(Selected major activations; full list available upon request)

Understanding of Governmental Programs

CrowderGulf's management team includes previous FEMA Directors, Emergency Managers and FEMA trained Debris Specialists. Numerous certifications are held by all our key management staff as well as our field operations staff. This wealth of knowledge is used to assist our clients in complying with FEMA guidelines and completing all paperwork that they may be called upon to provide FEMA, FHWA or the Office of Inspector General. Our staff is well-versed in the Code of Federal Regulations (44 CFR), FEMA's Public Assistance Program and Policy Guide (incorporating Debris Management Guide (FEMA 325), and Public Assistance Debris Monitoring Guide (FEMA 327). Today, the staff holds numerous FEMA course certifications and several OSHA Health & Safety and Hazardous Materials certifications. CrowderGulf employees are required to attend State and National conferences and training classes for continuing education credits and certification maintenance on a yearly basis.

Additional Courses that are relevant to Debris Management that are held by staff members include the following:

Course No.	Course Name	Course No.	Course Name
IS 1	Emergency Program Mgr.	IS-2	Emergency Preparedness in the USA
IS-5	Intro to Hazardous Materials	IS-10/11	Animals in Disaster
IS-26	Guide to Points of Distribution	IS-27	Orientation to FEMA logistics
IS-30/31	Mitigation e-Grants training	IS-30/31	Mitigation e-Grants training
IS-35.10	FEMA Ethics	IS-45.11	FEMA Safety Orientation
IS-55	Household Hazardous Materials	IS-75	FEMA Military Resources and EMA
IS 100	Intro to ICS	IS-111	Livestock in Disaster
IS-111	Livestock in Disaster	IS-101/102	Deployment Basics
IS-120	Introduction to exercises	IS-139	Exercise Design
IS 200	ICS for single resources & Initial Action Incidents	G-202	Debris Management
K-202	Debris MGT Planning Course for State Tribal / locals	IS-208	State Disaster Management
IS-230	Principals of Emergency Management	IS-235	Emergency Planning
IS-240	Leadership & Influence	IS-242	Effective Communications
IS-241	Decision Making and Problem Solving	IS-250	Emergency Support Functions
IS-250	Emergency Support Functions	IS-253b	Overview of FEMA'S Environmental and Historic Preservation Review
E-257	State Director's Training	IS-288	Role of Vol. Agencies in Emer. Mgt.
L-269	Managing FEMA Staff on Disaster Ops.	L-292	Disaster Field Operations Mgt.
IS-300	Intermediate ICS	IS-317	Intro to Community Emergency Response Teams
IS-324a	Community Hurricane Preparedness	IS- 363	Hurricane Readiness
G-363	Hurricane Readiness	L-382	Public Assistance Coordinator (PAC) Crew Leader
G-385	Disaster Response and Recovery Operations	IS-393	Intro. Hazard Mitigation
IS-403	Individual Assistance	IS 400	Advanced ICS
L-545	Basic Human Resources for Disaster Supv.	L-449	ICS Incident Command Train the Trainer
IS-552	The Public Works Role in Emergency Management	IS-546	Continuity of Operations Planning (COOP)
IS-631	Public Assistance Operations	IS-630	Intro to Public Assistance Process
IS-633	Debris Management Plan Development	IS-632	Intro to Debris Ops in FEMA's PA Program
E-684	Integrating Science into Em. Mgt. Policies & Dec.	L-680	Emergency Management – A Leadership Challenge

Subcontractors

It is company policy to utilize **qualified local subcontractors** to the maximum extent possible in **compliance with 44 CFR 206.10.** Per Client compliance requirements under **44 CFR 13.36(e)**, CrowderGulf, as Prime Contractor, will take all affirmative steps required to assure that minority firms, women's business enterprises, and labor area surplus firms are used when possible.

CrowderGulf maintains a national subcontractor **database of over 3,200 pre-qualified subcontractors**, which allows us to identify companies by size, equipment and geographical location. Prospective subcontractors may visit our website, www.crowdergulf.com, to register or may fax information to the Disaster Administration Office for review. Due to CrowderGulf's reputation of always treating our subcontractors fairly and paying them on a weekly basis, we have a surplus of subcontractors throughout the nation ready to work at a moment's notice.

The graphic below gives a breakdown of the number and general region that we have registered subcontractors. The number changes periodically as new subcontractors register on our website. For several reasons this number grows after a major disaster.

Subcontracting Practices

It is the practice of CrowderGulf to subcontract debris work and services using the following guidance:

1. Subcontract to the maximum extent possible with local firms and small businesses. In addition, preference will be given to qualified local vendors for equipment rental and supplies sourced in the jurisdictional boundaries.
2. Promote the use of local contracting by tasking a senior manager to assure notification through local media and organizations.
3. Promote subcontracting only with assured compliance with equal opportunity hiring.
4. Provide all subcontractors with a clear chain of command for purposes of official and/or unofficial communications.
5. Accept, process and pay invoices of subcontractors in accordance with the CrowderGulf policy.
6. Provide priority subcontracting considerations to/for subcontractors that have provided quality work to CrowderGulf in past operations – consistent with the subcontracting policy.

7. CrowderGulf does not have a set-a-side percentage of subcontracted work for any classification of subcontractor, but will give special attention to small, disadvantaged firms and/or women-owned small business firms for contract work or services needed.
8. CrowderGulf is committed to promoting the use of small minority, disadvantaged firms and/or women-owned small business firms for contract work, whenever and wherever possible.
9. We currently maintain an active pre-qualified subcontractor database, tracking current certifications of local and regional D/M/W/SBE qualified subcontractors. Subcontractors can mail, fax, e-mail or log on to www.crowdergulf.com to submit their company information for review. If necessary, we will use additional outlets such as newspapers, publications, websites, etc.
10. As required by each awarded contract, CrowderGulf will meet or exceed the goals and expectations of the local minority workforce population and the utilization of minority professional firms, consultants and/or suppliers. CrowderGulf will maintain all the requirements set forth by the Client.

Subcontracting Policy

It is standard policy that all subcontractors comply with all the contractual conditions and commitments of CrowderGulf. As such, all subcontractors shall agree to the following:

1. Enroll in the E-Verify program and provide acceptable evidence of enrollment at the time of subcontract execution. Acceptable evidence consists of a copy of the properly completed E-Verify Company Profile page or a copy of the fully executed E-Verify Memorandum of Understanding for the company. It shall be the **Subcontractor's** responsibility to familiarize themselves with all rules and regulations governing this program.
2. Read and formally acknowledge by signature the CrowderGulf Contract for subcontractors and Safety Manual as provided by CrowderGulf.
3. Provide satisfactory evidence of bonding and licensing that complies with contract and jurisdictional requirements.
4. Provide assurances that no current owner, principal or officer of the firm is or has ever been debarred by the state and/or federal government.
5. Obtain and furnish satisfactory evidence of required insurance from a responsible insurer.
6. Give all notices and fully comply with all local, state and federal laws – including, but not limited to, social security, workers compensation and unemployment insurance, DOT, etc.
7. Begin work to be performed within two full working days after a subcontractor is notified of a subcontract award, unless otherwise stipulated in the subcontract arrangements. The subcontractor will pay for all materials, equipment and labor used in the performance of the subcontract(s).
8. In the event a subcontractor makes an untimely start, or is unable to supply sufficient skilled workmen, equipment or materials to satisfy the subcontract arrangements, CrowderGulf may terminate the employment/contract of the subcontractor for cause.
9. Take all reasonable safety precautions with respect to contracted work, complying with all safety, workplace standards and environmental measures as directed by CrowderGulf.
10. Furnish periodic progress reports on the work as directed by CrowderGulf, plus use the debris reporting system selected by CrowderGulf.
11. Provide CrowderGulf with progress payment billings (as agreed in the respective subcontracts).
12. Final payments to subcontractor(s) may be deferred pending receipt of contractual or statutory lien waivers, releases, closeout documents or other encumbrances.
13. Other stipulations may apply as may be required by unique local conditions.

Understanding Requirements

CrowderGulf takes several steps during the proposal preparation process to ensure local subcontractor participation as well as Minority/Women-owned Business Enterprises (M/WBE) utilization policies and 44 CFR 13.36(e) compliance are met. Understanding exactly what the Client is requesting during this initial proposal phase is key to implementation upon activation. To clearly define the expectations required we are taking several preliminary steps, which include:

- reviewing M/WBE policies and procedures to determine specific goals set by the Client,
- determining utilization breakdowns required,
- identifying all required certifications and/or M/WBE directories to be used for soliciting M/WBE firms, and
- any further breakdowns of percentage goals.

Once these steps are completed and we have a clear understanding of all requirements we continue with the following process:

Steps in the Process:

1. **Before Solicitation**: CrowderGulf compiles a list of local subcontractors from our Database of pre-qualified subs. These companies have either worked for CrowderGulf and are in good standing, have registered through our website, www.crowdergulf.com, or have been previously solicited by CrowderGulf. All subcontractors must meet the following requirements to be considered for prequalification:
   a. **Verification:** Through one or more of the following websites:
      - *The **System for Award Management** (SAM) is **a Federal Government owned and operated** free web site that consolidates the capabilities in CCR/FedReg, ORCA, and EPLS. SAM is used to review all subcontractors' debarred status prior to approval as a prequalified subcontractor(https://www.sam.gov/)*
      - *SBA HUBZone Search-confirmation, (http://dsbs.sba.gov/dsbs/search/dsp_searchhubzone.cfm)*
      - *Dun and Bradstreet, (https://sso.dnbi.com)*
   b. **E-Verify Enrollment:** Subcontractors must enroll in the E-Verify program and provide acceptable evidence of enrollment at the time of subcontract execution. Acceptable evidence consists of a copy of the properly completed E-Verify Company Profile page or a copy of the fully executed E-Verify Memorandum of Understanding for the company. For additional information regarding the Employment Eligibility Verification System (E-Verify) program, visit http://www.dhs.gov/E-Verify. It is the subcontractor's responsibility to familiarize themselves with all rules and regulations governing this program.
   c. **Insurance**: Obtain and furnish satisfactory evidence of required insurance from a responsible insurer.
2. **Directory Checks:** If specific directories are to be used, CrowderGulf will check the Client website for directory access or contact the M/WBE Office for a list of potential M/WBE firms to be utilized, then compare this list to our current list of local prequalified subcontractors to find possible matches.
3. **Initial Contact:** Contact is made with M/WBE firms that offer services similar to our scope of work. Initial contact is made by phone then followed by email, confirming the phone conversation.
4. **Correspondence:** Emailed and/or faxed correspondence provides MBE firms with specific details regarding the request, i.e., scope of work directly from the RFP documents, registration and requirements information, and specific deadlines for submitting these documents to the CrowderGulf M/WBE Subcontracts Manager.
5. **Documentation Review:** Should letters of intent from interested firms and further proof of M/WBE certifications be required by the Client, CrowderGulf will compile the received documentation and review for completeness.
6. **Inclusion in Proposal:** Only those firms that have met set deadlines and returned all requested documentations will be considered for inclusion in the final proposal to the Client as a responsive M/WBE Firm.
7. **Percentage Goals:** Should the appropriations assigned to the responsive M/WBE firms not meet the Client's percentage goal, firm percentages will be adjusted and executed by both parties upon mutual agreement.
8. **Notification**: Once the RFP evaluation process is complete and award notices are received, these M/WBE firms are notified of the results, and any additional documentation is requested to be kept in the Client's file.
9. **Annual Updates:** Current CrowderGulf client folders are updated yearly with current local pre-qualified subcontractors as well as M/WBE firm confirmations.
10. **Client Activation:** Upon Client activation, if any of the proposed local M/WBE firms are no longer able to fulfill assigned goals, CrowderGulf will identify other certified M/WBE firms to replace inactive M/WBE firms to maintain our proposed percentage goals. CrowderGulf will provide a detailed explanation as well as further commitments from other M/WBE certified subcontractors to perform scope of work in lieu of previously committed Subcontractors.

Reporting

With the nature of "Stand-By" event contracts being on an "as needed" basis, utilization/activation of the identified M/WBE firms will be based on CrowderGulf's activation by Client. Should the Client have yearly or quarterly reports to be submitted, CrowderGulf will file the needed reports upon request.

Good Faith Effort

As required by each awarded contract, CrowderGulf will meet or exceed the goals and expectations on the local minority workforce population and the utilization of minority professional firms, consultants and/or suppliers. CrowderGulf will maintain all requirements set forth by the County to maintain compliance with **44 CFR 13.36 (e) and FEMA Super Circular 2 C.F.R. Chapter 2, Part 200.**

Affirmative Steps Include:

1. Placing qualified small and minority businesses and women-owned business enterprises on solicitation lists.
2. Assuring that small and minority businesses, and women-owned business enterprises are solicited whenever they are potential sources.
3. Dividing total requirements, when economically feasible, into smaller tasks or quantities to permit maximum participation by small and minority businesses, and women-owned business enterprises.
4. Establishing delivery schedules, where the requirement permits, which encourage participation by small and minority businesses, and women-owned business enterprises; and
5. Using the services and assistance, as appropriate, of such organizations as the Small Business Administration and the Minority Business Development Agency of the Department of Commerce.

Subcontractor Oversight

In the past, CrowderGulf has mobilized over **400** subcontractors with as many as **5,000 people, 2,600 trucks, and 800 pieces of loading equipment**. To ensure the same Quality Control and efficient operations for the State, CrowderGulf's Management Team will rely on National Incident Management Systems (NIMS) protocols to identify the proper number of supervisors for each debris management operation. CrowderGulf is fully prepared to marshal identify the proper number of supervisors for each debris management operation. CrowderGulf is fully prepared to marshal as many Field Project Managers and Debris Supervisors as needed to meet the County's debris management requirements. Project Managers and Field Supervisors will have the direct responsibility to ensure all workers have received the proper safety training and education in Federal Rules and Regulations as they pertain to debris removal operations.

Minority/Small Business Enterprise (M/SBE) Subcontractors

See enclosed a partial list of qualified M/SBE Subcontractors. A current qualified subcontractor list will be provided to the County for pre-approval prior to an event upon request.

Company-owned/Leased Equipment

CrowderGulf maintains a large inventory of company-owned/leased equipment that is debris specific and available for immediate response to a disaster. Company-owned/leased equipment will be pre-positioned for emergency PUSH operations and dispatched to the disaster area immediately upon the receipt of a NTP to begin restoring critical services in Polk County as quickly as possible.

All equipment needed to restore Polk County after a disaster event will be immediately available upon NTP. This includes specialty equipment as needed to restore parks and other sensitive areas within the County without damaging property.

The following is a partial list of company-owned equipment available for use in any debris operation:

EQUIPMENT	UNITS
• Self-Loading Trucks; (130 – 160 cubic yards)	90
• Dump Trucks (16 yards – 50 yards)	153
• Rubber Tire Loaders (equipped with debris handling grapples)	26
• Rubber Tire and Track Equipped Excavators (with buckets and grapples)	18
• Pick-Up Trucks (equipped with portable phones for Foremen)	40
• Service Trucks	12
• Skid-Steer Loaders (equipped with buckets and grapples)	20
• Cherrington Beach Cleaners 4500 & 4500 XL	5
• Stationary Power Screens – (sand screener)	2
• Diamond Z 14' Tub Grinders	6
• Shallow and deep-water boats equipped with latest sonar and photo equipment	4
• Barges, tugs and large boats for heavy marine debris removal	4

Equipment Rental Agreements

CrowderGulf also maintains active accounts with all major national equipment rental companies to supplement equipment needs as may be required (i.e. Beard, Hertz, Caterpillar, John Deere, United Rental, Sunbelt, etc.).

All equipment shall meet all federal, state and local regulations.

Additional Equipment Information

- All equipment used for this contract will be rubber wheeled, or rubber tracked unless otherwise approved by the County.
- To the maximum extent possible, CrowderGulf and its subcontractors shall use self-loading trucks with grapples or grapple attachments. Hand loading will not be permitted.
- No subcontractor will be allowed to solicit work from private citizens while assigned to the contract.
- No equipment assigned to this contract will be used for any other contract work.
- All trucks will be marked with proper signage. The lettering will be 3 inches in height or greater to allow for readability and clarity.

Our equipment list has been provided at the end of this Section.

Anticipated Outside Support/Subcontractor Equipment

CrowderGulf's has developed a Nationwide Database of Approved and Trusted Subcontractors & Vendors. It is company policy to utilize **qualified local subcontractors** to the maximum extent possible in compliance with **44 CFR 206.10**. We also try to employ a percentage of qualified Minority Business Enterprise (MBE) subcontractors. In previous disaster activations, CrowderGulf has pre-positioned manpower and equipment to provide immediate response. The table below provides the number of subcontractors, and their equipment listed in our database, in relation to the State of Florida.

Availability and Assurances

Due to the uncertainty of disaster related events, it is difficult to predict when a contract activation will occur. Regardless of the number of contracts CrowderGulf has activated after a disaster, in 50+ years, we have never failed to meet a client's contract requirements for equipment, resources and personnel. Having an experienced management team, a large pool of company owned equipment and operators, a nationwide database of trusted and experienced subcontractors and agreements with national rental companies, allows CrowderGulf the ability to assure the County that we can and will meet your disaster response needs. We are committed to providing the County with priority service, quality performance and onsite management. We will work as a team with you and your representatives to successfully restore the County to some sense of normalcy, following all FEMA regulations and within the designated timeline established by the County's contract. The severity of the disaster will determine how many employees will be assigned to a specific client. Depending on the scope of the disaster, CrowderGulf will use a combination of company crews and subcontractors to perform work. We will begin with CrowderGulf personnel and local resources and proceed to add additional manpower and subcontractors until we have a sufficient workforce in place to ensure the County that we can effectively manage and handle the disaster effort. CrowderGulf will adjust assets as required to optimize operations.

Current Primary Disaster Recovery Contracts

The chart below contains CrowderGulf's current pre-event contracts held throughout the United States. CrowderGulf is committed to fulfilling each of its contracts with the same unwavering attention and service, regardless of the number of activations for any given event or storm season. Our proven track record demonstrates the expertise, resources, and personnel necessary to manage multiple, large-scale activations simultaneously while ensuring client satisfaction.

At the time of this solicitation, our active workload represents less than one percent of CrowderGulf's total operational and administrative capacity. This includes our management and field teams, company-owned debris removal equipment, subcontractor network, and the support of our Disaster Administration Office (DAO).

Principles of Project Management

Standards

CrowderGulf conducts all debris operations to meet or exceed all regulations and program standards of FEMA Public Assistance Program and Policy Guide, Version 5.0, Effective January 6, 2025 (incorporating FEMA 325 Debris Management Guide and FEMA 327 Debris Monitoring Guide), the Occupational Safety and Health Administration, the Environmental Protection Agency, and all other local, state and federal agencies.

Responsiveness

CrowderGulf will be in contact with the County's Debris Manager at least 48-72 hours prior to a tropical storm and/or hurricane making landfall or immediately upon the occurrence of any debris generating event within Polk County.

- Within 12 hours of receiving a NTP CrowderGulf will have our management team report to the County representative for operations planning and mobilization of personnel and equipment.

- Mobilization for PUSH operations will begin within 12-24 hours of NTP.
- Within 48 hours of initial NTP, crews will be fully operational and hauling debris.
- Within 72 hours of the NTP, a DMS is fully operational for reduction and disposal of debris.
- Crews will maintain full debris hauling operational capacity, seven days a week during daylight hours, until completion of the project, to the satisfaction of Polk County.
- The DMS may, if required to meet the needs of the County, operate 24 hours per day.

Reimbursement Assistance

CrowderGulf's debris management staff consists of previous FEMA Regional Directors and Deputy Directors, County and County Emergency Management Directors and emergency operations personnel with over 20± years of experience in working State and Federal Disaster Declarations. CrowderGulf is prepared to share its knowledge and experience concerning reimbursement matters with County personnel to obtain maximum reimbursement by utilizing accurate record keeping and exacting quality control measures. Specifically, CrowderGulf will assist with:

- Estimating debris volumes for initial damage assessment
- Developing Project Worksheets/Damage Survey Reports
- Identifying eligible and ineligible reimbursements
- Documenting every element of the recovery process and reviewing all records to assure that they meet federal and state reimbursement guidelines
- Orientating and training Polk County personnel on requirements for quality and quantity of required documentation
- Closeout and final audit
- Hazard Mitigation Planning efforts
- FEMA Disaster Assistance policy changes

Corporate Support On-Site Operations

Daily operational decisions and daily communications with Polk County will be facilitated by the CrowderGulf on-site Management team. If needed, one or more field offices will be set up immediately upon NTP. Local citizens will be employed and trained to work in the field office under experienced CrowderGulf management supervision. Local employees are always an asset to the response and recovery operation. Their knowledge of the area and its people is invaluable to CrowderGulf's overall operations. The Team will be fully reinforced at all levels by logistical support, records management/storage, report development and other operations at CrowderGulf's main office in Mobile, Alabama.

On-Site Project Management

CrowderGulf utilizes National Incident Management Systems (NIMS) principles in our command structure, planning, operations, logistics and administration. This will not only facilitate an easy interface with the County's Emergency Operations Center but also ensures maximum quality control by limiting the span of supervision for individual field managers.

Pre-Planning - Readiness Planning and Training

On at least an annual basis, CrowderGulf specialists will provide training and pre-planning sessions. In addition, our Debris Reduction specialists will be available to review and advise on potential Debris Management Sites. Preparedness training will be tailored to Polk County needs and requests.

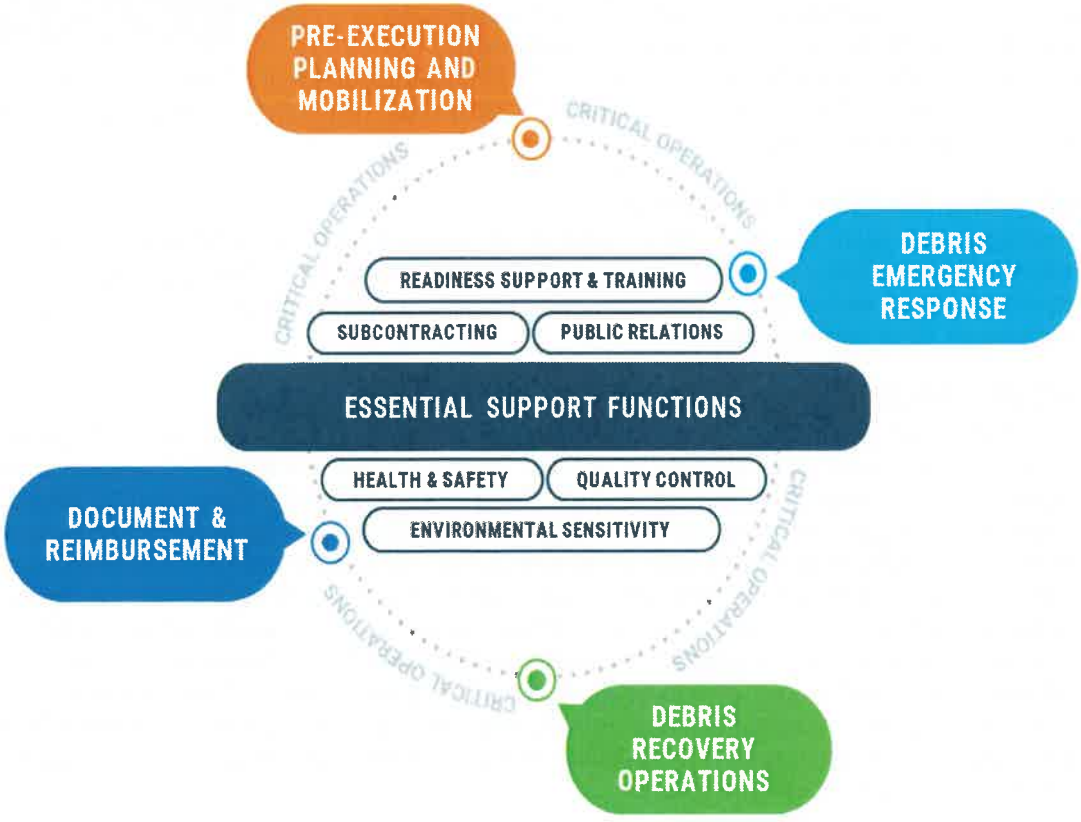
Audio/Visual Presentations

CrowderGulf has the capability to generate audio and video presentations to help the County communicate necessary information to the public or to document the overall operation. One of our first tasks is to video all the existing conditions. This is typically done during the initial damage assessment. Please visit our website to see some of our previous video documents.

Please view our website @ www.crowdergulf.com for more information

Debris Management and Operations Plan

The CrowderGulf **Debris Management and Operations Plan** establishes an early appraisal of disaster damage, moves trained and well-equipped crews into affected areas in the shortest time possible and follows a disaster-specific work plan. This ensures that our personnel and equipment will be mobilized and in place of removing and reducing debris in the most efficient and effective manner and with the least possible impact to citizens.



The amount of damage that occurs during a natural disaster and the effort required to restore the affected areas varies with each situation. CrowderGulf's comprehensive **Debris Management and Operations Plan is a flexible strategy that integrates Critical Operations and Essential Support Functions** to ensure the most efficient and cost-effective debris management for Polk County. These Operations and Functions are identified below and fully defined in the following sections. Each is integral to a comprehensive debris management effort.

Critical Operations *(action items that are set in motion by an event)*

- Pre- Execution Planning and Mobilization
- Debris Emergency Response
- Debris Recovery Operations
- Documentation and Reimbursement

Essential Support Functions *(support functions for Critical Operations)*

- Readiness Support and Training
- Subcontracting
- Quality Control
- Health and Safety
- Environmental Sensitivity
- Public Relations

The **Debris Management and Operations Plan** was developed with only one objective – **to assist Clients that have suffered the effects of a disaster return to normal as quickly, as efficiently and as inexpensively as possible.** The Plan's components have been the cornerstone of CrowderGulf's disaster relief efforts for the past 50 years. When an event is likely to occur, all stakeholders are put on alert and resources are marshaled. Immediately after the event occurs, Mobilization of personnel and equipment resources begins in anticipation of the initial Debris Emergency Response or "PUSH" period. As additional resources flow to the impacted areas, Debris Recovery Operations – the most demanding phase - is initiated. This is the phase in which CrowderGulf delivers what it has promised and makes certain that debris is removed and reduced as quickly and as efficiently as possible. Throughout the operation, the Documentation of all work must be completely and accurately documented for Reimbursement to occur.

The four Critical Operations described here - **Mobilization, Debris Emergency Response, Debris Recovery Operations and Documentation and Reimbursement** - form the central core of the CrowderGulf Debris Management and Operations plan. These elements are supported and enabled by six Essential Support Functions. Although not as visible during the debris management process, each support function - **Readiness Support and Training, Subcontracting, Quality Control, Health and Safety, Environmental Sensitivity, and Public Relations,** - is fundamentally important to CrowderGulf being able to provide a successful debris management effort. All these elements are discussed briefly in the following sections.

CRITICAL OPERATIONS

➢ Pre-Execution Planning and Mobilization

Alert and Team Notifications

If there is advanced notice (i.e., a hurricane), this phase will commence as soon as a disaster appears to be a credible threat to Polk County. The CrowderGulf call-down list will be checked to verify accuracy. The CrowderGulf Director of Operations will assess the information received from the National Weather Service and in consultation with Pok County's Debris Manager will determine the necessity for a full notification action. If it is determined that notification is needed, he will direct activation of the CrowderGulf Calling Plan with stand-by instructions for individual contractors/subcontractors to be notified.

Preparation and Pre-Execution Planning

Based on the high probability of a known event, the Director of Operations (DO) will direct initial preparation of manpower and equipment. He will inform all responding personnel as to situation status, departure, tasking and assets to mobilize. The Director of Operations will manage the commencement of mobilization, the tasking of the support units, and the dispatch of managers, crews and equipment.

CrowderGulf's Mobilization of Resources

CrowderGulf shall contact the County's Debris Manager for a minimum of 48 hours prior to a hurricane event or immediately upon the occurrence of a major disaster or debris generating event in which there is no advance warning. Mobilization will take place immediately upon receipt of a NTP and in accordance with requirements as defined by the County's Debris Manager. Within 24-48 hours of receiving the NTP, CrowderGulf management team will be working on site with the County and its Debris Manager to begin planning the required mobilization and operations for debris removal. Debris removal from streets and roads ("PUSH") shall begin within 12 hours of receipt of the NTP and reduction and disposal operations shall be in full operation within 48-72 hours. The severity of the disaster will determine how many employees and/or subcontractors will be assigned to a specific disaster event. Depending on the scope of the disaster, CrowderGulf will use a combination of company crews and subcontractors to perform work. We will begin with CrowderGulf personnel and proceed to add additional manpower and subcontractors until we have a sufficient workforce in place to effectively manage and handle the disaster recovery effort. Specific management personnel that will be assigned to this contract are provided in later sections of this proposal.

Ongoing Communication Within CrowderGulf

To ensure that all clients are being served and CrowderGulf personnel are involved and knowledgeable about any needs and/or concerns, Reid Loper, our Senior Vice President, or designee, hosts a daily planning, operations and coordination call for all Senior Management Staff, Field Project Managers and Support staff to identify any areas of improvement, shortfalls in staffing or resources and resolve any critical issues that need to be addressed.

Microsoft Teams software is used for daily calls, which allows for real-time communication regardless of where the participants are located. These calls help facilitate information sharing across the company which incorporates a commitment to continual learning, programmatic improvements that support our readiness and response, adaptability, strengthens internal and external communications, and client relationships as well as improving CrowderGulf's mission delivery.

Staffing the Emergency Operations Center

CrowderGulf will commit a senior employee to be stationed in the County's Emergency Operations Center to coordinate plans for debris operations, communications and scheduling with the County's Emergency Management personnel. If requested by the County, this senior management representative will be on site in the Emergency Operations Center prior to storm landfall.

Staging of Resources

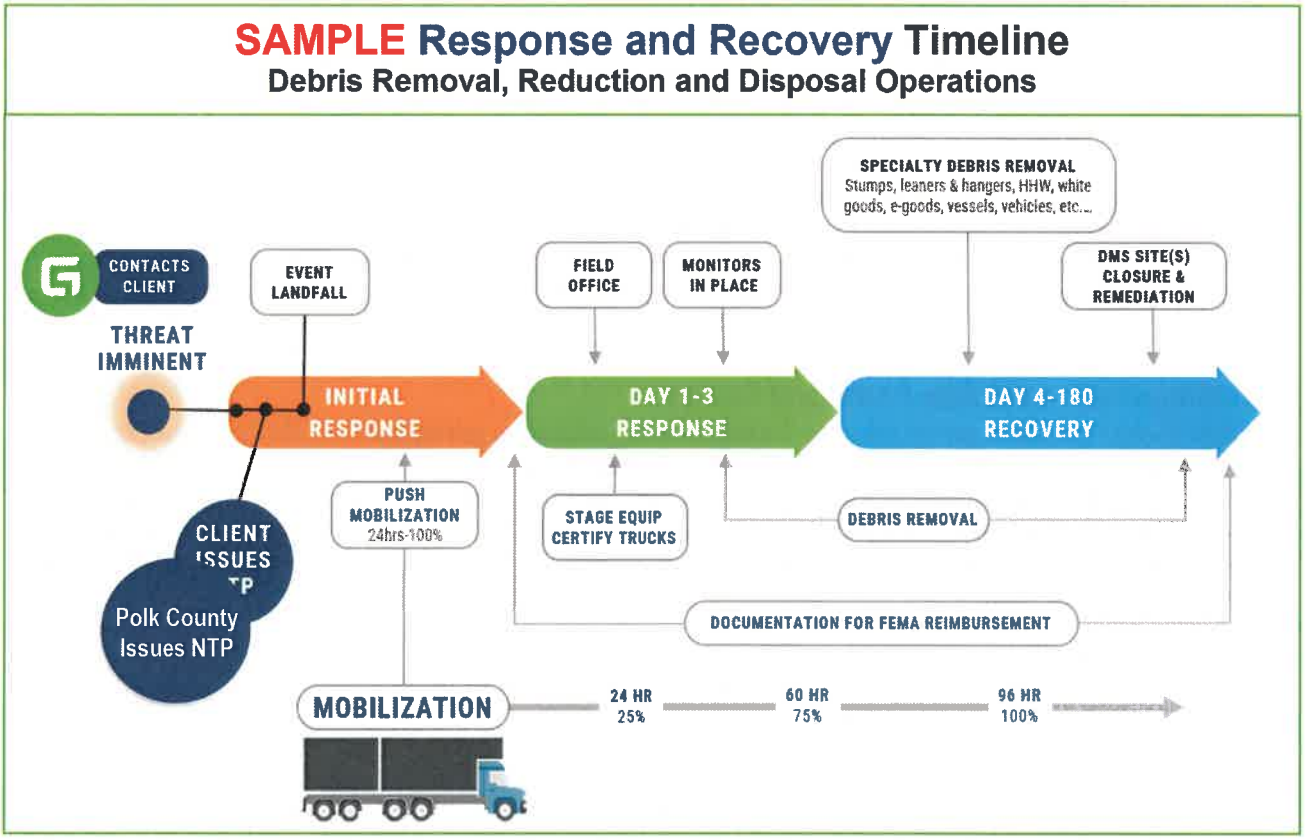
When a disaster is imminent, we will review the need for staging equipment within a safe distance (100-150 miles) from the potential area of impact. Local equipment and resources will be secured in safe locations and ready for mobilization. As soon as the storm passes the area and a Task Order (TO) issued, equipment and manpower will be staged at a convenient location near the truck certification area for the County.

Very early in the mobilization process, CrowderGulf will obtain a large hard surfaced parking area which will be used as a staging area to begin truck and equipment certification and safety inspections. These important steps must take place in advance of moving debris on a unit price payment basis.

The staging area becomes the initial reporting location for all subcontractors. Subcontractors employed under pre-event subcontracts, subcontractors and individuals seeking work, and potential suppliers and vendors, will be directed to this central point. If necessary, we will position a Mobile Emergency Response Command Center Unit at this location to facilitate operations. Additionally, if temporary fueling and shelter facilities are required, they will be positioned at this location, if possible.

Communications/Mobile Command Center

Should disaster conditions warrant the need, CrowderGulf may establish a self-sufficient Mobile Command Center, with full **communications capability,** in the disaster area and dedicate it solely to the recovery effort. The CrowderGulf Command Center is a state-of-the art Prevost bus that provides living quarters and a fully functioning office space for our key management personnel. The Command Center gives CrowderGulf the ability to position key people in disaster areas that are otherwise uninhabitable. This invaluable tool allows CrowderGulf to provide our clients with unmatched response times when it matters most.



Operational Support

CrowderGulf's main office will serve as headquarters for "back-office" operational support and documentation center. Throughout the project, this office will support field operations on all levels and maintain backup files and records for reimbursement.

Sample Mobilization Parameters

Below are CrowderGulf's anticipated mobilization timelines for debris removal work. CrowderGulf has never failed to meet the end timelines for completing all projects and remains committed to meeting all timelines.

- Contacting the County's Emergency Operations Manager 48-72 hours prior to a predicted disaster event.
- Providing an advance CrowderGulf representative to the County's Emergency Operations Center 24-48 hours prior to a predicted disaster event or upon receiving notification of pending activation, if requested.
- Staging personnel and equipment near the County to provide rapid deployment after the storm, while protecting those assets from damage/destruction by the event.
- Mobilizing resources and being operational for clearing debris and opening critical routes ("PUSH") within 24 hours of NTP if requested by the County.
- Being fully operational for hauling, sorting, and storing debris within 48 hours of initial NTP.
- Being fully operational for reduction and disposal of debris within 72 hours of initial NTP.
- Maintaining full operational capability, 24 hours per day, 7 days per week for an extended period.
- Rapidly adjusting the flow of resources based on the extent and magnitude of damage/debris.
- Providing Rapid Response Crews (RRC) as may be required.
- Being able to clear all debris from all County maintained streets, roads and highway rights-of-way within 45 days from initial NTP.
- Being able to remove (haul) all debris from all County maintained street, road and highway rights of way within 90 days from initial notice to proceed
- Being able to complete the entire debris management process from initial clearance through final disposal within 180 days from initial NTP.
- Fiscal capability to maintain operations for 60 days following the initial NTP.

Because each activation / storm presents separate challenges and situations, the above information has been provided as a sample. During our pre-event training sessions with the County, we will work to frame out possible timelines for minor and maior activations.

➢ Debris Emergency Response

Debris Response activities occur immediately after an event to clear emergency access routes. This initial phase of operations normally consists of clearing debris that may hinder immediate lifesaving actions within the disaster area and/or pose an immediate threat to public health and safety. The Debris Response phase includes immediate actions for the removal of debris to facilitate search and rescue efforts, allow access to critical facilities, and prevent flooding. Actions required during the response phase are usually completed within a matter of days following a disaster event. During Debris Response, CrowderGulf will conduct an emergency "PUSH" of critical streets and roads sufficient to allow for the movement of emergency vehicles. "PUSH" crews can be on-site and working within hours of an event. County staff shall determine priorities for "PUSH" activities with primary emphasis on major thoroughfares. Multiple crews will be conducting emergency "PUSH" activities within 24 hours of receipt of an NTP.

Requirements for government services increase dramatically following a major disaster. After emergency access has been provided to hospitals, police and fire stations, the next priority normally is to open access to other critical community facilities, such as schools, municipal buildings, water treatment plants, wastewater treatment plants, power generation units, airports and seaports.

As soon as critical facility locations are identified, CrowderGulf will dispatch "clearing crews". Depending on the damage, multiple crews will be deployed within 48 hours of receiving NTP. The "clearing crews" will use all available resources with focus on local personnel and firms. Each "clearing crew" at a minimum will consist of:

- Two pieces of rubber-tired pushing / loading equipment such as backhoe loaders, rubber tired front-end loaders, and skid steer loaders with operators
- Two - three chain saw operators, laborers, flaggers with transport vehicles
- Five 16 to 20 cubic yard capacity dump trucks with drivers
- One Quality Control/Foreman with communications capability and pickup truck
- Equipment and resources needed to transport crew from one site to another

To maximize efficiency, the clearing crew may, depending on the size of the roadway and severity of damage, split into two work teams clearing at different locations on the same street or road. If a crew divides into two work teams, visual contact and effective radio or cellular communication will be maintained between the teams.

When needed, Search and Rescue Support Crews will be provided. At a minimum, each crew will consist of one track hoe excavator, minimum 150hp with operator, three laborers/riggers, one crew foreman, slings, riggings, implements, and transport equipment

The safety of the clearing crews in this early stage of work will be a paramount concern. Downed power lines, falling trees, equipment and chain saw injuries, worker fatigue, and a host of unanticipated hazards demand constant attention by all team members. Therefore, **toolbox safety discussions** will be a **daily requirement** for the team. Work areas will be surveyed for hazards before work begins and throughout the clearing operation. Special hazard observation responsibility will be assigned to the Quality Control Manager.

The following is an example a Debris Response priority list with an Operational Triage approach:	
Primary	**Secondary**
• Fire, police, and ambulance service routes	• Major arterial routes
• Access routes to hospitals, trauma units, and nursing centers	• Utility access routes
• Routes to the emergency operations center	• Communication towers and systems access
• Routes to government facilities	• Routes to shelters
• Supply routes to emergency supply distribution centers	• Routes to the disaster debris management sites (DMS)

Emergency Road Clearance Objectives

CrowderGulf will execute all Emergency Road Clearance objectives with the same level of quality, commitment, and coordination that defines our operations. Priority efforts will focus on restoring access for emergency personnel and essential public safety services before and immediately after an event. Resource allocation will be driven by urgent needs and County directives. Once primary routes and critical access points are cleared, crews will transition to feeder roads and residential streets to support full recovery operations.

➢ Debris Recovery Operations

Debris Recovery consists of the removal and disposal of FEMA eligible storm-generated debris to ensure the orderly recovery of the community and eliminate less immediate threats to public health and safety. The debris removal, reduction and disposal procedures are addressed in specific detail in the following paragraphs.

Important Operational Considerations: At this point in the operation, decisions regarding the movement, storage, reduction and disposal of the debris will have a huge impact on the efficiency and effectiveness of the overall project. As in all CrowderGulf debris operations, we apply a set of standard principles to managing debris operations which include but are not limited to the following:

- Never load debris on a truck before the Debris Management Site (DMS) or landfill has been identified.
- Handle only debris that meets FEMA's eligibility criteria.
- Sort debris before initial loading, whenever possible, to increase efficiency.
- Clean streets/roads thoroughly at each pass, i.e., "Clean as You Go" policy.
- If possible, load debris only once and deliver directly to the final disposal site.
- Use debris management sites (DMS) only when they increase operational efficiency.
- Use the most efficient reduction method approved by the client.
- Recycle if costs to benefits are favorable.
- Use privately-owned or, if available, publicly owned landfills for final disposal.

Collection Methods

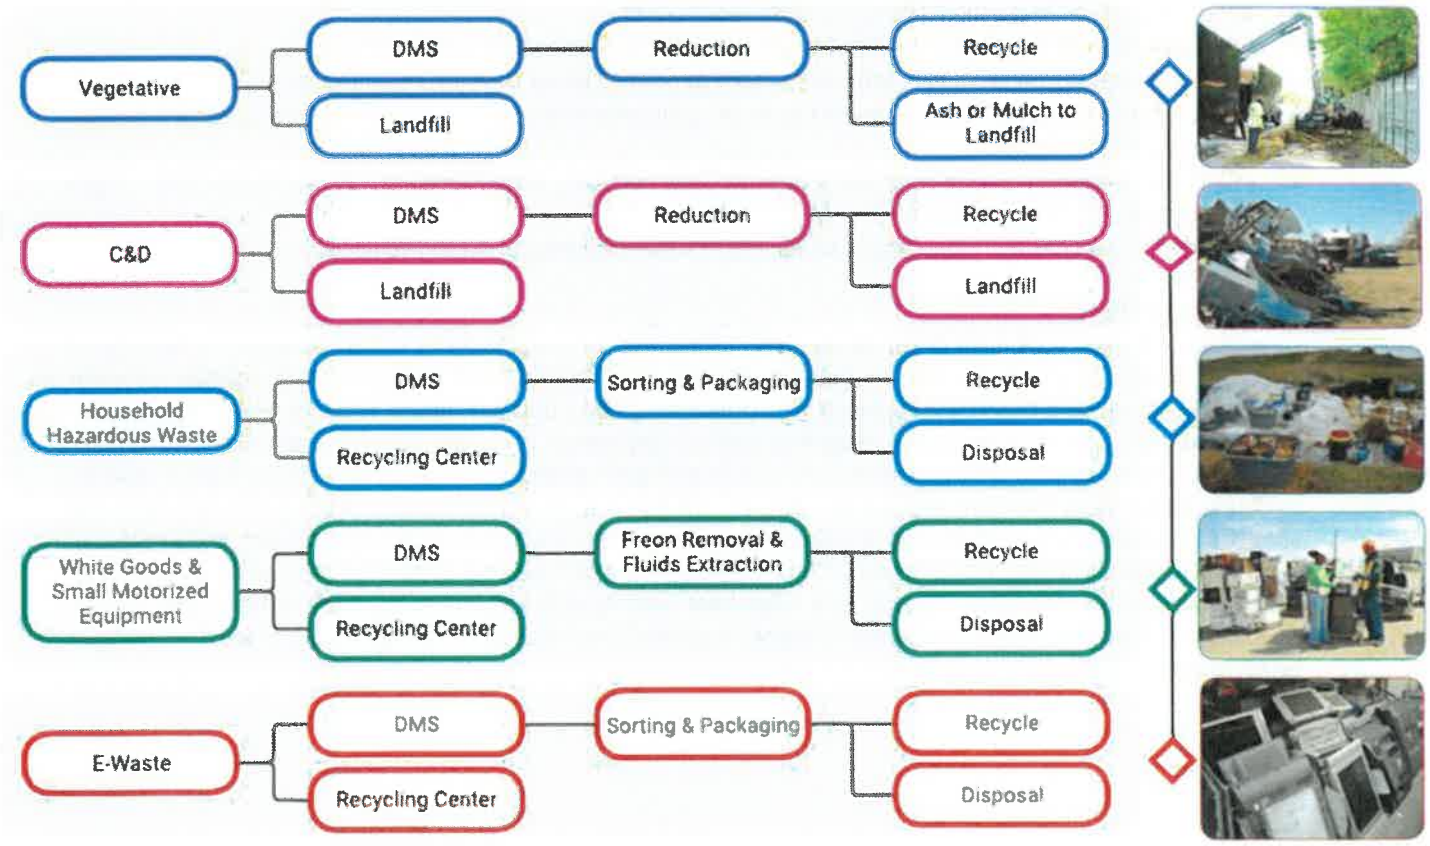
A critical component of any FEMA-compliant debris management plan is the timely and efficient collection of debris. Rapid implementation following a disaster reassures the public that recovery efforts are underway and helps restore normalcy as quickly as possible. The type, volume, and urgency of debris removal will determine which collection method is utilized. Polk County may employ one or both of the following methods:

1. Curbside Collection

Under this method, storm-related debris is placed along public rights-of-way for pickup. Source-segregated collection—where debris types are separated—maximizes salvage value and supports efficient recycling and reduction processes. This approach is especially important for hazardous or environmentally sensitive materials such as household hazardous waste and white goods.

Alternatively, mixed debris collection allows residents to place all debris types (vegetative and construction & demolition) in one designated area. While convenient for residents, mixed loads hinder recycling efforts and increase operational costs due to the need for separation. Per FEMA Public Assistance Program requirements, any load containing mixed vegetative and C&D debris must be classified as C&D for eligibility and documentation purposes. Accurate load classification and documentation are essential to maintain compliance and ensure reimbursement.

2. Collection Centers



This method requires residents to transport debris to designated drop-off locations. Large roll-off containers may be placed on public property or rights-of-way, with separate bins for different debris types. All collection centers must be monitored and documented to confirm that deposited materials are storm-related, eligible under FEMA guidelines, and generated by County residents. Proper monitoring and recordkeeping are critical for audit compliance.

Public Education and Compliance

Regardless of the method used, proactive communication is essential. Educating residents before an event and keeping them informed throughout recovery—regarding what, when, and where debris should be placed—reduces confusion and stress. CrowderGulf will assist Polk County in providing clear, FEMA-compliant public information and signage to ensure debris is removed safely, efficiently, and in accordance with federal reimbursement requirements.

Debris Types

Polk County will determine the scope of the debris to be managed under this contract. However, CrowderGulf is prepared to assist the County in hauling, reducing and disposing of all eligible debris types in accordance with FEMA's Public Assistance Program and Policy Guide. These include vegetative debris, construction & demolition (C&D) debris, hazardous waste, white goods, household hazardous waste (HHW), electronic waste, abandoned vehicles and vessels, putrescent debris, infectious waste, chemical, biological, radiological, and nuclear-contaminated debris. The following diagram is a breakdown of the general **debris stream**:

Truck Certification

All debris hauling trucks will be certified by the County or a County representative/Debris Monitoring Firm before any hauling begins. The inside bed dimensions of all trucks will be accurately measured, and all safety requirements will be checked and approved. This information along with the description and a picture of the truck, driver's name, license and tag number will be recorded on the FEMA compliant certification forms provided by CrowderGulf. The County will retain the original copy of the form and provide CrowderGulf and the driver with copies. The driver's copy must always remain in the truck. A placard displaying the trucks' identification and measurement information will be always displayed on both sides of the vehicle. Specific truck documentation requirements are discussed in the **Documentation and Reimbursement** Section of this proposal.

Sectoring and Crew Assignments

Upon NTP, CrowderGulf will assist Polk County in assessing damage and developing a specific plan of action. The affected areas will be divided into sectors and then crews, subcontractors, and equipment will be assigned. All areas will be served simultaneously.

Loading Debris

Prerequisites for Loading Debris:

- Truck certification and safety inspections completed on all trucks hauling debris
- Identification of disposal site
- If needed for efficiency, identification and preparation of debris management sites
- Sectioning of County with subcontractor assignments
- Quality Control organization operational
- Load ticketing and data management process operational
- Accident Prevention Plan (APP), Site Safety and Health Plans (SSHP), Activity Hazard Analyses (AHAs)
- Initial safety and health briefing for all personnel complete
- Specific training on traffic control complete for all debris crews
- Preparatory inspections of each worksite by Quality Control staff and debris crew foreman
- Work area cleared of safety and health hazards such as downed power lines and hazardous materials
- Inspection of work area for water meters, fire hydrants, utility pedestals and other infrastructure components that could be damaged by equipment
- FEMA debris eligibility criteria communicated to all Crew Foremen, Superintendents, Quality Control staff, Project Managers, and Equipment Operators
- Overhead power lines and other utility lines identified for safe clearance of loading equipment

Crew Composition

CrowderGulf matches equipment to the requirements of the task. Crew composition varies depending on the type of equipment used in performing the loading operation. For example, crews with self-loading trucks do not need separate loading equipment that is required to support a crew consisting of dump trucks or trailers. However, every crew requires traffic control personnel, a foreman and a designated quality control person. Also, each crew requires a chain saw operator and laborer(s) to assist in the ground support work. Usually each piece of loading equipment (self-loading truck or separate loader) is supported by one saw operator, two laborers and two flaggers. At a minimum, debris separation crews will consist of two laborers, one chain saw operator with saw, one skid steer loader with operator and implements, all equipment necessary to transport personnel and equipment from one work site to another. When necessary, ground crews will separate and sort the debris by type, saw fallen trees and vegetative debris at the public rights-of-way, and be constantly alert for water meters, fire hydrants, utility pedestals and other infrastructure components that could be damaged by equipment.

Crew Sizes

The size of debris loading crews will be dictated by the severity and localization of damage. Each crew foreman will be experienced in organizing and directing debris crews and will be provided with sufficient chain saw operators, flagmen, laborers and knuckle boom operators to assure rapid and efficient debris removal.

An example of a Crew is demonstrated in the chart below:

Manpower/Equipment Required	Task Responsibility	No. per Crew
Crew Foreman with experience in organizing & running crews with previous work in disaster related jobs	Provide on-site management of the crew to ensure quality performance, safety & maximum productivity	1
80 - 140 CY self-loader trucks &/or 20 – 60 CY dump trucks with skilled operators, all with skilled, experienced operators	Pick up debris from curbside & haul to DMS or final disposal	4-6 (or as area dictates)
Chain Saws & Experienced Operators (as needed)	Reduce large trees & limbs to manageable size & trim debris hanging from loaded trucks	1-2
Flagmen	Direct traffic flow & truck movement	3-6
Laborers	Gather small debris that loaders are unable to grasp	2

Truck and Equipment Considerations

The number of debris hauling trucks assigned to each crew will be determined by the time required to transport a load of debris to the disposal site, dump the load and return to the loading site. Sufficient trucks or trailer hauling equipment will be assigned to each crew to preclude having idle loading equipment. If hauling equipment is found idle and frequently waiting to be loaded, some of the hauling equipment will be reassigned to other crews. Crews will be adjusted as needed to maximize the use of all trucks and equipment.

Often, on the first pass of debris removal operations, large stumps, tree trunks and other heavy debris must be left for loading by larger more specialized equipment. CrowderGulf will make every attempt to "Clean as You Go". However, there are situations when the need for expedient debris removal precludes achieving this standard completely. As required and directed, specialized equipment will be mobilized on subsequent passes to handle the removal of stumps, other large debris and backfill of stump holes.

Truck Drivers will not be issued a load ticket until:

- The tailgate is secured to prevent debris from falling out of the truck while enroute to disposal site
- The trimming of overhanging limbs and debris from around the truck or trailer is complete. This includes debris protruding from the truck bed that may pose a risk of utility line damage. (Actual height depends on local line installation height)
- The debris hauling container is loaded as completely (fully) as safely possible

Once the load ticket is issued, the truck driver will safely move the vehicle out of the loading zone and into normal traffic flow in route to the disposal site or to a Debris Management Site (DMS).

"From this resident, we thank you and all of your crews for keeping the recovery from being another disaster, as often happens. It has been a pleasure having your team in our backyards."

Citizen, High Island, TX

Repair and Maintenance Equipment

CrowderGulf can perform maintenance and repair in the field where the work is happening. In the aftermath of a disaster, circumstances may prohibit local businesses from being available. The local resources may have experienced personal and/or business damage that take priority. To guarantee that we have safe, always functioning equipment, CrowderGulf has built a large support system of service trucks for our company-owned equipment and subcontractor equipment, should they need assistance.

Service Trucks - CrowderGulf often utilizes our fleet of smaller service vehicles. These are typically one plus ton trucks outfitted with specialized equipment to make field services easier to complete. Features of these trucks include the following:

- Air Compressors
- Lubricant
- Welding Equipment
- Exhaust and other Fluids
- Boom Cranes
- Small Tools
- Tommy-gates
- Misc. Small Parts

Box Service Trucks - When a repair or service requires heavier equipment and additional support, CrowderGulf provides our "box trucks" which have several different types of equipment to allow the CrowderGulf employed full-time mechanic more options when conducting repairs. These units typically keep on hand the following supplies:

- Large air compressors
- Exhaust & other fluids
- Welding Equipment
- Lift gates
- Several sets of various size tires
- Hydraulic hose crimping machines
- Hydraulic lines
- Misc. Small Parts
- Small tools
- Hoses
- Lubricant
- Fittings

Mobile Repair Shop

CrowderGulf also owns a state-of-the-art mobile repair shop. This is a larger unit, towed by a semi-truck. Once set up in an area, this unit performs the same as a shop. Features of this unit are self-contained, diesel-powered electrical system, full hydraulic hose manufacturing ability, tool room, tire racks, outside flood lighting, and many other features that allow this unit to function like a full featured automotive repair shop. No matter the situation, CrowderGulf can utilize in-house assets to maintain our fleet during any size activation.

Hauling Debris

The hauling or transport process begins at the time the truck or trailer leaves the "loading zone". Safe transport of debris material to the disposal site becomes the drivers' primary concern. Drivers remain responsible for their loads until safely dumped at the disposal site.

All drivers will follow the most direct and safe pre-planned route to the nearest disposal site. Particular attention to safety is required in the areas near school buses, school zones and other areas of pedestrian foot traffic. Tarps or load covers are applied as required by local or state regulations.

On arriving at the disposal site, the driver will maneuver the hauling container for inspection by a County representative in the inspection tower. The load will be "called" by the County representative estimating the percentage of the full volume or by estimating the number of cubic yards short of full volume. Drivers working for CrowderGulf are instructed never to disagree or complain about the load "call". Any concerns the driver has are to be directed to his or her crew foreman or supervisor for resolution.

When the debris is safely delivered to the disposal site, it will be mandatory to dump the load only when the truck and trailer are level. This prevents the dangerous hazard of trucks and trailers tipping over. CrowderGulf will employ spotters at the dumpsite to assist drivers in dumping safely.

When the dumping process is complete, the driver will maneuver the hauling container back to the inspection tower for a quick check to make sure all debris has been removed during the dumping process. Any debris hung in the truck or trailer bed must be removed before the truck or trailer leaves the disposal site. All dumpsites will have a dumpsite manager to supervise and oversee the day-to-day operations. A safety officer will also be onsite to ensure all safety measures are being executed. Flaggers will be strategically placed at the site to direct traffic flow safely into and out of the disposal site.

Debris Hauling Prerequisites:

- Debris will only be transported in trucks or trailers capable of rapidly and mechanically unloading.
- No self-load trailers will be used. Exceptions to this standard may be necessary to efficiently and safely transport HHW, E-Waste, ACM or white goods.
- All trucks and trailers hauling debris must have completed the truck certification process establishing approved volume for the debris-hauling container.
- All trucks and trailers must have successfully completed the prescribed Safety Inspection.
- Drivers will be instructed to use the most direct and safe route to the nearest disposal site.
- Drivers will be required to wear safety vests and steel-toed shoes when working.
- If loads are required to be covered during transport, the hauling container must be equipped with a functional cover or "tarp" to prevent flying debris during transport.

Note: *Proper trimming of loads at the loading site is the best prevention for debris falling out during transport.*

Safety Measures

The Safety Manager and Safety Officers will monitor all safety procedures and daily reports of accidents and/or property damage. The Safety Manager or designee will also be responsible for coordinating and conducting safety meetings with crew members and subcontractor personnel. Safety is critical throughout all operations and is discussed later within this **Debris Operations Plan.**

Truck and Equipment Maintenance

Well-maintained trucks and equipment are essential for efficient operations. CrowderGulf's crew foremen, subcontractor foremen, and the Field Project Manager will be responsible for keeping all trucks and equipment in good working condition and prepared for each workday. A CrowderGulf mechanic will be on the job for troubleshooting and maintenance of equipment. Local mechanic shops will also be utilized.

Traffic Control

CrowderGulf will use its best efforts to mitigate the impact of debris removal operations on local traffic. Sufficient signing, flagging, barricading, safety equipment and communications devices will be used to ensure the safety of vehicular and pedestrian traffic in all work areas. All work shall be done in conformity with applicable federal, state, local laws, regulations and ordinances.

Hours of Operation

Debris will be collected and loaded during visible daylight hours (dawn to dusk) seven days per week. Debris reduction at the DMS may take place 24 hours per day, seven days per week if required or requested and approved by the County.

Number of Passes

CrowderGulf will make as many passes as the County may direct in order to successfully complete the debris removal process. Normally, a few days may need to elapse between each pass so that the citizens have time to get their debris to the Right of Way (ROW).

Daily Coordinated Issue Management Meetings

Daily meetings will be held between the Field Project Manager, Field Supervisors, the Subcontractor Crew Foremen and representatives of Polk County to discuss progress, needed adjustments and other issues. Decisions to increase/decrease manpower and/or equipment or change work areas will be made with approval of the County.

Accurate Record Keeping

CrowderGulf utilizes several systems to assure accurate truck certification and debris hauling information. Production reports, shift inspection checklists, safety meeting reports, quality controls, and daily crew and equipment usage reports are some of the Quality Control measures used to provide accuracy in the documentation process.

Using the most appropriate technology provides the necessary information to make decisions during the recovery operation. It also improves our ability to provide all documentation needed for maximum reimbursement from FEMA and other agencies. Details of our documentation procedures are fully described in the ***Documentation and Reimbursement*** *section of this proposal.*

Documenting and Resolving Damages

During the debris removal process there will always be some minor damage situations that occur regardless of the care taken during work. CrowderGulf will respond quickly to all damage claims by the County or its citizens and will work diligently to resolve such claims to the satisfaction of all involved. We are aware of the trauma and disruption to normal lifestyles that result from a natural disaster. Our personnel are thoroughly indoctrinated regarding our policy to always be caring, courteous, polite, and responsive to the needs of the citizens of the community.

Citizens will be provided with an avenue to report damages. One option will be a citizens' hot line. The County, the monitoring company or CrowderGulf may provide the hotline. Regardless of the method chosen to provide the information, CrowderGulf is committed to resolving the damage complaint as quickly as possible to the satisfaction of the County and its citizens.

We will employ a Claims Resolution Person (CRP) to handle all property damage that may occur during the recovery process. If possible, a local resident with excellent communication and negotiating skills will be employed to fill this position. This person will be tasked with responding to and amicably resolving all incidents that may occur.

Temporary Debris Management Site Development

CrowderGulf has vast experience with selecting, developing, managing and operating Temporary Debris Management Sites. We are committed to efficient and safe DMS operations and require all personnel to be vigilant in always using safe practices. In the context of this proposal, the terms **"*Temporary Debris Separation and Reduction Site*"** and the term **"*Debris Management Site*" (DMS)** are used interchangeably.

DMS are established when debris cannot be taken directly from the collection point to the final disposition location. A DMS is a location to temporarily store, reduce, separate, and/or process debris before it is hauled to its final disposition.

DMS Site Selection

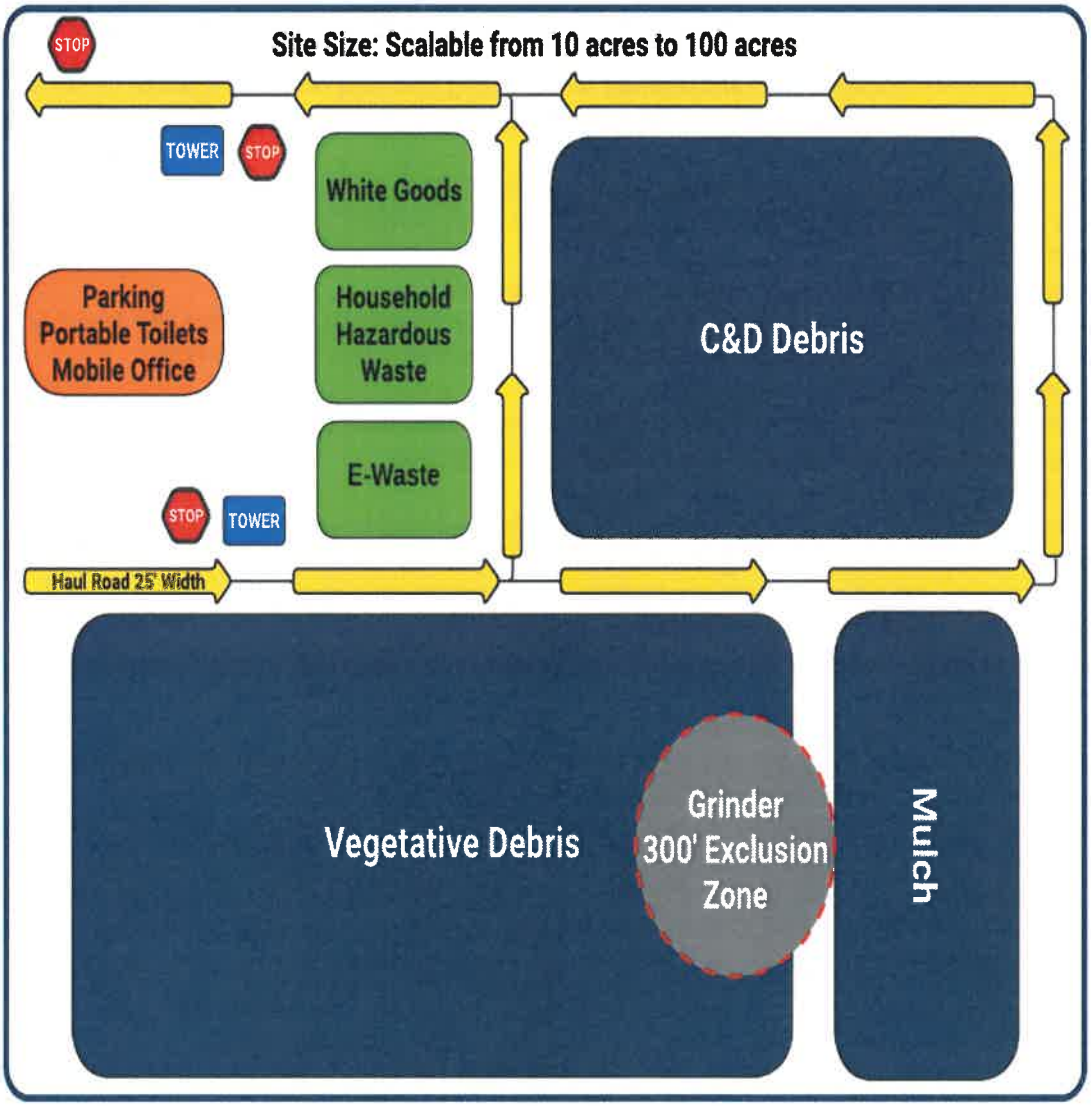
Site selection is probably the most important decision affecting DMS operations. CrowderGulf will work closely with Polk County to identify and secure suitable locations. Specific Site Plans will be developed for each DMS either upon activation or upon request by the County and will follow FEMA's Public Assistance Program and Policy Guide for site plan development. Once site selection is approved by the appropriate Debris Managers, CrowderGulf will perform baseline environmental testing protocols as required and will obtain any required special permits and environmental permissions. Costs associated with the preparation, operation, and restoration of DMS's are addressed in the unit price schedule. Unless otherwise denoted, the cost for DMS restoration is handled as a pass-through cost with no markup. Site selection should be based on the following criteria:

- Ownership
- Potential for Land Lease Agreements
- Size
- Location
- Environmental and historic concerns (baseline study findings)
- Required Permits

DMS Design and Operational Features

The information gathered during the baseline data collection becomes important to the design of the site. The efficiency and the overall success of the DMS operations are determined by how the site is designed.

A minimum of the following features will be designed into the DMS plan.

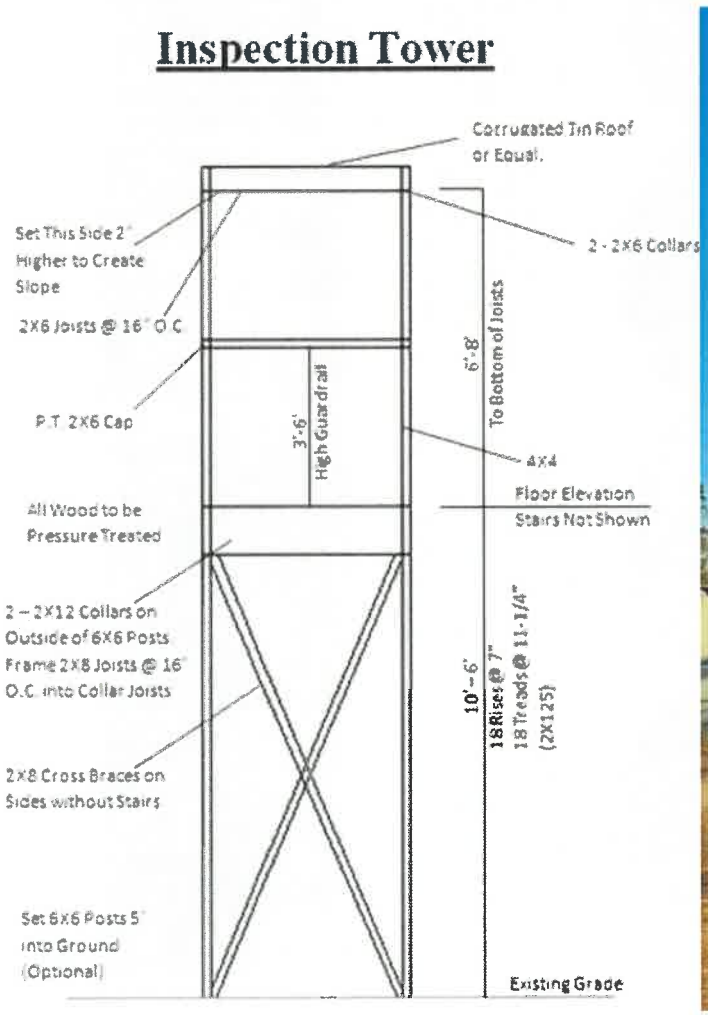


- Portable toilet facilities will be conveniently located to serve the inspection towers, crews working on the site, and office facilities
- Perimeter chain-link fencing, erosion and sediment control fencing, and other necessary drainage control methods
- Site traffic flow will provide for orderly movement of vehicles and equipment to avoid crossing traffic lanes with the construction of two entrances/exits with lockable gates
- At the request of Polk County, the DMS(s) may be restricted to County and Contractor vehicles only
- Safe and ready access to fire safety and rescue equipment will be provided to all functional sections of the site and to debris stockpiles
- A Safety Zone of at least 200' will be established around the grinder
- Air Curtain Incinerator (ACI) or Open burning safety zone will be established and will be 1,200' from any structure (other than inspection tower) and no less than 250' from any other pile or type of debris on site
- Ash storage pit will be adjacent to ACI units
- Compacted crushed rock and/or mulch will be used on ingress/egress road surfaces
- A designated personnel parking area for 30 vehicles will be established
- Space for two 12'x50' office trailers will be established
- Development of a lined Hazardous Materials Containment Area surrounded by a berm
- Two vegetative debris piles for grinding operations
- Sufficient area for chip piles to minimize pile height to prevent spontaneous combustion
- C&D debris area will be separate from other debris areas
- Adequate area maintained at each site for truck maneuverability and a stable level surface for equipment to complete the dumping process
- Sufficient area for crew to separate mixed debris, if needed
- Site orientation will provide for ACI operations and grinding operations to be located downwind from offices and inspection towers (i.e., prevailing winds will be considered when setting up site)
- If necessary, separate areas/sites for the public to use for dumping vegetative and C&D debris will be provided. Depending on the process prescribed for allowing this, a separate tower may be required to facilitate accounting for the material entering the public section. If off site citizen collection areas are developed in accordance with the County's Debris Management Plan, CrowderGulf will remove debris from those sites on a regular basis as directed by the County's Project Manager.

DMS Site Plan

A DMS Plan will be prepared for a scale of 1" = 50'. The Task Order Specific Management and Operations Plan will be updated to include the Site Management Plans for all DMSs, and Disposal Sites operated by CrowderGulf. The DMS Plan will display such functions as:

- Access to the Site
- Site Preparation – clearing, erosion control, and grading
- Traffic Control
- Site Security, Safety and Segregation of debris storage areas
- Location of ash disposal area, hazardous material containment area, contractor work area, and inspection towers
- Location of incineration operations and chipping operations
- Location of existing structures or sensitive areas requiring protection
- Household Hazardous Waste (HHW) or Hazardous, Toxic and Radioactive Waste (HTRW) storage
- A detailed list of equipment
- Sanitation facilities

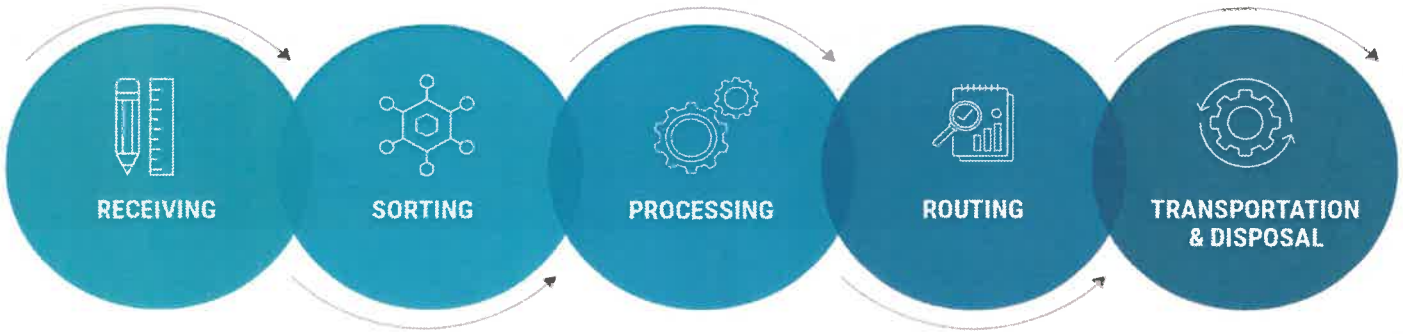


The general site plan shown will be modified to fit the needs of each specific DMS and will incorporate all specifications addressed in the FEMA's Public Assistance Program and Policy Guide and all local, state and federal regulations and requirements.

Inspection Towers

At no cost to Polk County, CrowderGulf will construct a minimum of one inspection tower at each site adjacent to the roadway. A minimum of one exit lane for all trucks to use will be visible from a tower. This allows for checking truck beds before exiting, ensuring that they are completely empty. The Inspection tower site location will provide a .25-mile approach outside the public road system to accommodate any truck back up.

- All towers will be OSHA and FEMA compliant. At a minimum, the towers will be constructed with pressure treated wood with the floor elevation of the tower 15' above the existing ground elevation; the floor area shall be 8'x 8', constructed of 2"x8" joists, 16" O.C. with ¾" plywood supported by four 6"x 8" posts.
- The perimeter of the floor area will be protected by a 4' high wall constructed of 2"x 4" studs and ½" plywood. The floor area will be covered by a corrugated tin roof.
- The roof shall provide a minimum of 6'8" of headroom below the support beams.
- Wooden steps will provide access with a handrail. In addition, the construction of towers will comply with all applicable County building codes.
- Inspection towers shall be capable of seating a minimum of three inspectors each.
- Towers will be removed at the completion of the project or when the site is no longer needed.



Hazardous Materials Containment Area

In accordance with FEMA's Public Assistance and Program Policy Guide, CrowderGulf will construct an area designed for the temporary storage and confinement of hazardous material. Material deposited into this facility will be inventoried and stabilized. Any leaking containers will be placed in "over pack drums". A well-marked, defined and enforced NO SMOKING area will be established within 200 feet of this area.

Minimum Design Criteria for the Hazardous Materials Containment Area:

- 30'x 30' in size, the perimeter lined with hay bales stacked in place
- Waterproof liner or plastic ground protection cove
- Rain and snow cover for the entire area

Debris Separation and Reduction

Debris Separation

The Debris Reduction Manager will supervise the separation and segregation of all loads deposited at the DMS. If site segregation is required because of mixed loads, the separation will reflect the six categories cited below. Each of the following categories of debris will be managed in full compliance with the CrowderGulf Environmental Plan and local, state and federal standards:

- Clean, vegetative debris
- Vegetative debris containing other foreign matter
- Construction and Demolition (C&D) Debris
- Salvageable or recyclable debris
- White Goods, e-Waste
- Household Hazardous Waste (HHW), Asbestos Containing Materials (ACM), and Toxic Materials/Waster

Vegetative debris will be placed into two or more piles (no more than 15' high) which will allow for volume reduction without interfering with the ongoing dumping operation or until the dumping and/or reduction operations are complete. As directed by the County's representative, all construction and demolition (C&D) debris will be hauled directly to a certified landfill or prepared for reduction or recycling if feasible. White goods will be degassed, crushed and bailed for sale as scrap metal.

Methods of Debris Reduction

There are two primary types of reduction methods – incineration and chipping/grinding. After all major storms, we have used both grinding and burning to reduce debris, however, grinding has become the more common method due to environmental issues with burning.

- **Chipping and Grinding**

The chipping and grinding of vegetative debris reduce the volume by 75%. Many times, clean chips will be recycled as bio-mass fuel. CrowderGulf is very experienced with chipping/grinding debris and has used this method in many of our disaster contracts for the past ten years. When grinding/chipping is utilized as the reduction method, all safety and compliance regulations are enforced throughout the operation.

- **Incineration**

There are several incineration methods available for volume reduction. These include uncontrolled open-air incineration, controlled open-air incineration, air curtain pit incineration, and portable air curtain incineration. Portable air curtain incineration is the most efficient incineration system available because the pre-manufactured pit is engineered to precise dimensions to complement the blower system. Any burning method used will only be conducted with concurrence from the County. Burning vegetative debris can produce up to a 95% reduction rate. In those situations where air curtain incineration may be approved by the County, all environmental compliance and safety concerns will be addressed within the site-specific plan. Setbacks and buffer zones will be established within and around the reduction sites not only for public safety but also for the safety of the debris operations.

A setback of at least 100' will be maintained between the debris piles and the incineration area. There will be a buffer of 1,000' between the incineration area and the nearest building to create a zone for emergency vehicles, if needed. The fire will be extinguished two hours before the anticipated removal of the ash mound. The ash mound will be removed before it reaches two feet below the lip of the incineration pit. To prevent explosions, hazardous or contaminated flammable material will not be placed in the pit. Finally, fencing and signage are simple and effective means to keep the public away from the incineration area.

The CrowderGulf **Environmental Plan** addresses and provides detailed guidance on DMS environmental concerns such as dust, smoke, erosion, storm water plus hazardous and toxic wastes. If the DMS is near an environmentally sensitive area or has any historical or cultural sites in proximity, special environmental consideration will be taken to protect and preserve such areas.

Debris Reduction Timelines

The following **Timeline of the Debris Reduction Plan** provides an overview of tasks and identifies the time frame within which each task shall be completed.

DEBRIS REDUCTION PLAN TIMELINE	
TASK	**TIME FRAME (from NTP)**
Conduct requirements assessment of damaged area for DMS.	Within 24 hrs.
Develop DMS according to Management Plan, including rd. construction, erosion control, portable office & toilet facility	Within 48 hrs.
Ensure that all necessary permits from the proper State agency are in place in order to perform debris storage/reduction activities on the selected site.	Within 48 hrs.
Construct observation platforms according to FEMA requirements	Within 48 hrs.
Construct grinding, burn pit, ash storage & hazardous waste storage areas	Within 48 hrs.
Determine the number of burners &/or grinders/chippers required per site	Within 48 hrs.
Ensure Hazardous Waste Plan in place	Within 48 hrs.
If burning is permitted, begin construction of burn pits	Within 48 hrs.
Complete installation of burners	Within 72 hrs.
Secure permits & transport grinders/chippers to designated reduction areas	Within 72 hrs.
Set up grinders/chippers	Within 96 hrs.
Maintain records of hours worked for operators, location worked, repairs, etc.	Daily
Ensure maintenance of burners &/or grinders/chippers	Daily
Make dumpsite adjustments	Daily
Provide daily operations reports to Project Manager & County Rep	Daily
Inspect DMS operations for safety & quality control monitoring	Daily & periodically
Handle storage & disposal of hazardous waste	As required
Restoration of site upon project completion to County's specifications	Upon completion of project
Provide for demobilization of equipment	Upon completion of all tasks

The **Basic Debris Reduction Crew Table** provides the typical number of crew members and their responsibilities per TDMS.

Basic Debris Reduction Crews		
Personnel / Equipment	**Task Responsibility**	**Crew #**
DMS Reduction Project Mgr.	Supervise set up & daily ops of debris reduction site; Ensure all safety regulations enforced	1
Day Foreman	Monitor incoming trucks, direct separation of materials; Supervise reduction crews; Monitor for safety regulations being followed and report infractions to Foreman	1
Night Foreman *(if burning)*	Supervise crews & secure site, Monitor safety regulations & report infractions to Foreman	1
Spotters	Monitor incoming debris types; Ensure drivers drop loads in proper locations at stockpiles; Direct clean loads of recyclable material to storage areas; Follow all safety requirements & report any infractions to Foreman	2 - 4
Flagmen	Direct flow of incoming & outgoing trucks at site; Follow all safety requirements & report any infractions to Foreman	2 - 4
Laborers	Assist with debris separation, if required.	2 - 4
Water Truck w/spray nozzles & high-pressure hose	Spray nozzles used for dust control, High pressure for hose for fire control	1
Road Grader w/Operator	Maintain rds. & site	1
Onsite Fuel & Oil Storage Tanks	Replenish equipment as needed	2 - 4
Track Hoe w/grapple w/Operators	Build burn pit according to Ops Manual; Clean ash from pits & pile in designated areas; Supply debris to burn pit & grinder	2 - 4
Bulldozer &/or Rubber Tire Loader w/Operator	Stockpile material; Push debris with Track hoe	2 - 4
Burner Technician / Mechanic	Initial burner set-up; Assist starting fires according to Ops Manual; Daily maintenance & care of burner & loader equipment	1 / Site when burning
1000-1200hp Tub or Horizontal Grinder	Grind vegetative debris	1 / Site when grinding
Grinder Operator	Fuel tub grinder & control grinder operation	1 / Grinder

Debris Disposal

Final disposition of the products for debris reduction will be made in accordance with instructions from the County and in keeping with all federal, state and local laws.

Vegetative Debris

Based on the County's decision, all vegetative debris will be ground or burned. If ground, the reduced vegetative mulch will be hauled to a properly permitted final disposal site in accordance with all local, state and federal regulations. If vegetative debris is burned, the ash will be hauled to a properly permitted final disposal site. In past disasters we have also recycled clean ash as fertilizer on farmland. We will properly recycle mulch and ash to the greatest extent possible and within permitted regulations.

Construction and Demolition Debris (C&D)

All C&D material shall be disposed of in facilities approved by Polk County in accordance with all federal, state and local laws.

Debris Recycling Plan

Based on the debris management goals and objectives of Polk County, CrowderGulf will implement debris recycling programs as marketing opportunities allow. When recycling is feasible, CrowderGulf will monitor procedures to ensure that the recycling contractors comply with local, tribal, state and federal environmental regulations. Any reimbursement for recycled material will be credited or returned directly to the County.

Vegetative Debris

The vast amount of vegetative debris produced by a natural disaster creates a real recycling challenge. We will make maximum efforts to recycle all organic material. Experience has taught us that it will still require freight cost and tipping fees, but recycling is still the best option as opposed to using up valuable landfill space.

CrowderGulf has over 50 years of experience regarding innovative recycling opportunities. In many cases, CrowderGulf can work with local resources to find secondary uses for wood chips, as opposed to sending them to a landfill. Recent examples include:

- After 2022's Hurricane Ian, CrowderGulf disposed of over 100,000 cubic yards of reduced vegetation (mulch) on Pine Island in Lee County, Florida, using "beneficial use" agreements for final disposition. CrowderGulf serviced nearly 30 agricultural Small Business Enterprises (SBEs) throughout Lee County, including Matlatcha, Bokeelia, and St. James City, by providing mulch to assist in critical restoration efforts on their properties. This process streamlined CrowderGulf's final disposal efforts on Pine Island, provided a cost-efficient solution to Lee County by mitigating the need for long, off-island hauls, and assisted Lee County agricultural SBE's in their rebuilding efforts post-Ian.
- After Hurricane Ian, mulch was taken to various composting facilities where they were used to make compost that benefited local nurseries and the agricultural industry.
- After Hurricanes Michael in 2018 and Isaac in 2012, local paper mills utilized clean wood chips for bio-mass fuel.
- After the historically active storm seasons of 2003 and 2004, CrowderGulf shipped clean wood chips to Italy to be used as bio-mass fuel.

Specifically, our plan involves the following:

1. Debris crews will be encouraged to cut tree trunks into 8' or longer lengths for delivery to dump site. Quality logs will be separated and marketed to pulp mills, sawmills, and veneer mills. Timber in the log form is always marketable, and depending on quality can be transported to market even if the markets are relatively far away.
2. Stumps usually have large quantities of dirt attached, which contributes to the low quality of fuel chips. Stumps will be split and burned if burning is permitted. If burning is not permitted, split stumps will be ground and resulting chips will be kept separate.
3. Limbs, twigs, short blocks and inferior logs will be ground or burned. To reduce contamination of chips with dirt, care will be taken to use rubber-tire loaders with rakes and track hoes with grapples.
4. Every effort will be made to move chips to organic fuel users in a wide area. CrowderGulf will begin moving chips as soon as possible to prevent the buildup of massive chip piles that create a potential fire hazard.
5. **CrowderGulf has contacts with major paper mills, sugar mills, and other organic fuel users in the Southeast.** When CrowderGulf is awarded a contract, we will work to get tentative agreements with users who are in proximity.
6. If local laws and regulations permit, CrowderGulf will secure land in a rural area(s) as close as possible to our chipping operations. Chips unfit for fuel or chips surplus will be piled on the property, mixed with ash from burning operations that have been tested and free of contamination, and turned periodically to produce quality marketable compost suitable for landscaping use or applications to farmland.

C&D Debris

Concrete, asphalt and masonry products can be crushed and used as base material for certain road construction products or as a trench backfill. Debris targeted for base materials will need to meet certain size specifications as determined by the end user. The County may choose to recycle these products themselves. As an example, after Hurricane Ike, Galveston County recycled the crushed concrete (from home slabs on Bolivar Peninsula) by using it for road reconstruction and for a new government building foundation. Hurricanes and tornadoes can cause extensive damage to mobile homes, sun porches, and green houses. Most of the nonferrous and ferrous metal debris is suitable for recycling. Trailer frames, trailer parts, appliances and other metal items will be properly separated, crushed, baled and recycled. Any proceeds will be credited to Polk County.

Site Closure and Restoration

Upon completion of debris reduction operations, all DMSs will be restored to pre-existing conditions. All equipment, inspection towers, and any other temporary buildings will be removed. Burn pits will be returned to the existing grade. Any unburned or chipped materials will be hauled to an appropriate facility. Separated metals, plastics, white goods or other materials and types will be disposed of as required by contract or regulations. Site reclamation / remediation will be billed back to the client at a pass-through cost. In addition, if groundwater and / or soil testing are required, these items will be billed to the client at as pass through cost. A final site inspection will be conducted by County authorities, and any discrepancies will be corrected. All work, including site restoration and closeout will be concluded within 30 calendar days of notice from the County that the last load of debris has been delivered.

Wa-ke Hatchee Park DMS – Lee County, Florida

Wakehatchee Park DMS				
Reduction method(s):				
Vegetation	-	-	8,611	417,643
Construction & Demolition (CD)	-	-	11,753	596,648
Concrete	-	-	12	488
Wakehatchee Park DMS Totals	-	-	20,376	1,014,779

Wa-ke Hatchee DMS received over 1 million cubic yards of debris during CrowderGulf's response to Hurricane Ian's catastrophic impacts on Lee County, Florida. Wa-ke Hatchee served as 1 of 18 debris management sites managed by CrowderGulf in the historic response, taking in debris from one of the most heavily damaged areas of Lee County. Surrounded by a county park, a middle school, South Florida Water Management District (SFWMD) drainage infrastructure, and coastal waterways, this site exemplifies CrowderGulf's commitment to site remediation and restoration. Additionally, it illustrates CrowderGulf's dedication to environmental stewardship and our close coordination with each impacted community to mitigate any further strain to its citizens stemming from debris removal operations, both pre- and post-event.

➢ Documentation and Reimbursement

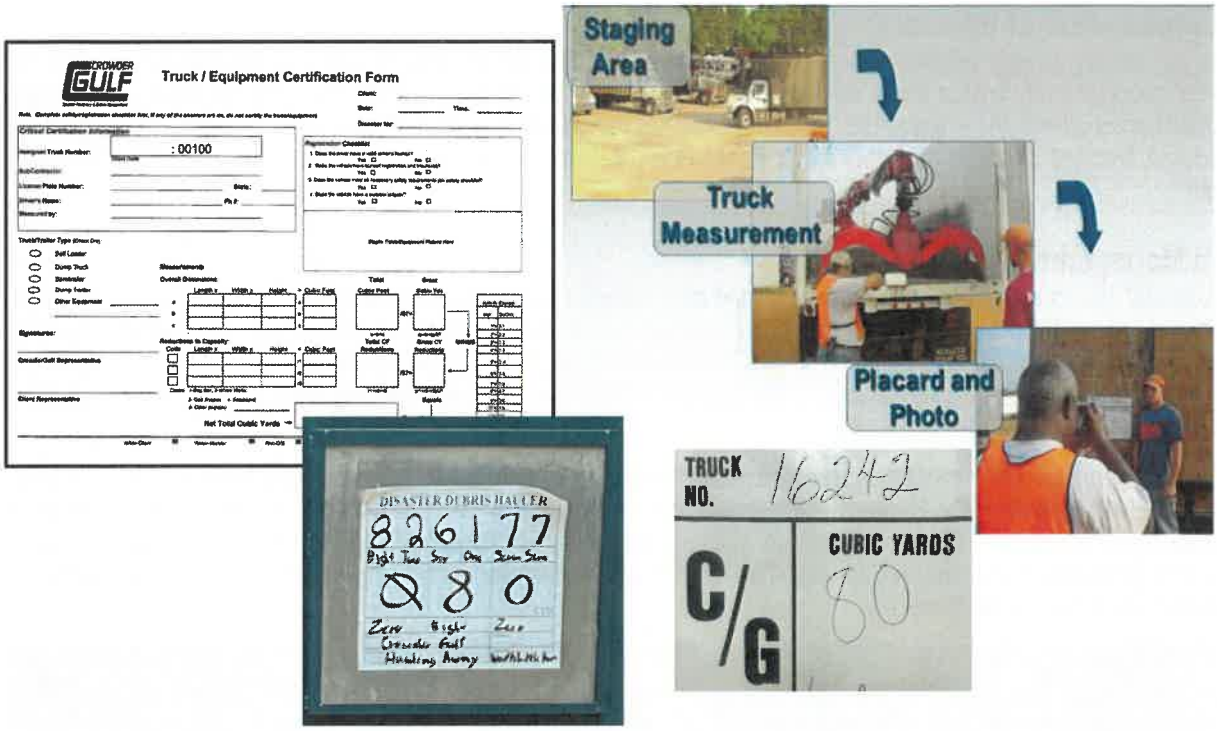
CrowderGulf has always been successful in supporting our clients with accurate and complete documentation records. This documentation is readily available to the County, FEMA, FHWA and any other agency that provides reimbursement.

Superior record keeping using the best available technology from the beginning to the end of the project is critical. Financial accountability is maintained throughout the process by using a system of checks and balances that are tied directly to the quantitative documentation originating in the field. Throughout the project, FEMA Public Assistance Program and Policy Guide will be followed and serve as the foundation of our documentation and accounting systems.

Monitoring Companies and Electronic Ticketing

Monitoring Companies are often contracted by the Client to serve as their representative in monitoring and documenting all debris work. All experienced, credible monitoring companies use an Automated Debris Management System (ADMS) that captures all required information for FEMA reimbursement. CrowderGulf has vast experience working with numerous monitoring companies and is familiar and compatible with their programs, processes and procedures. It is important that CrowderGulf and the County's representative (i.e., monitoring company) establish and maintain a positive and professional relationship throughout the project. This is necessary for the communication flow to be open with the central focus on making sure all documentation for eligible work is accurate, timely, and readily accessible to the County.

Documentation for Debris Hauling



To maximize accuracy of accounting, CrowderGulf utilizes the following system of project controls:

Phase 1 - Truck Certification

All debris hauling trucks are certified in accordance with FEMA guidelines. Part of the certification procedure includes truck safety checks. Any trucks not meeting the safety requirements will not be certified until infractions are remedied.

Documentation procedures include:

- The County's representative / monitoring company measures the interior dimensions of all debris hauling truck beds to determine the measured cubic yard capacity
- Safety and insurance requirements check is part of the certification process
- The County's representative, CrowderGulf, and the driver will each retain a copy of the completed *Truck Certification Form*
- All equipment is affixed with placards displaying the owner's name, equipment number and certified capacity
- The County's representative/monitoring company may attach a unique bar code to the truck placard of each truck as part of their ADMS program
- Photo documentation is provided for each hauling truck and driver
- An electronic Capacity Certification Log is maintained in the field as a quality control tool

Phase 2 - Debris Load Ticket Completion

The load ticket is the primary debris-tracking document that records the transport of debris from the original collection point to the DMS or final disposal site. This information is now provided electronically by the client's monitoring company.

- Debris monitors in the field initiate the electronic ticket process by entering the truck number, the debris type, and the debris pick-up address/location.
- When the driver arrives at the DMS or the Final Disposal Site, the tower monitor will complete the electronic ticket information by determining and entering the debris load amount.
- While the debris hauler may receive a paper copy of the load information, CrowderGulf provides the data electronically including a digital copy of each ticket.
- CrowderGulf downloads and saves electronic information from the monitoring company's secure website in real-time or the same day as debris loads are hauled.

If a Client decides to self-monitor and not use ADMS, the process is the same and includes the following procedures:

- Completion of a multi-part *Debris Load Ticket* for each truckload of debris
- The county representative(s) at the loading site(s) inspects each loaded truck; legibly and accurately records the required information on a multiple-copy paper ticket and provides the debris hauler with a partially completed ticket that the driver takes to the DMS/final disposal site.
- County representative(s) in inspection tower at the DMS or final disposal site(s) take the ticket from the driver and complete the required disposal information.
- The county representative(s) retain the original completed ticket, and a copy is provided to the driver and a CrowderGulf representative.
- CrowderGulf field office personnel process the tickets by sending electronic copies to the Home Office for additional quality control checks, data entry and storage.

Accurate completion of these two phases of quantitative and descriptive debris information is imperative for cost reimbursement and contractor invoicing. When electronic ticketing is used, the above procedures are slightly modified according to the firm acquired that represents the County (monitoring company), while still maintaining the same quality of information and satisfying all FEMA requirements.

Documentation of Special Projects

There are usually several additional recovery projects besides ROW debris removal and disposal that are required to address geographically unique storm damage. Each project is preceded by a specific task order to serve as a formal request to proceed with the project. The Task Order outlines the parameters of the project and establishes the pay rates associated. Detailed documentation that meets FEMA Public Assistance Program and Policy Guide will be kept for each project.

Data Management

CrowderGulf utilizes a comprehensive and seasoned data collection and storage process with all projects. Regardless of whether electronic (ADMS) or paper ticketing documentation is used by the County or representative, CrowderGulf easily adapts data capturing procedures to accommodate all requirements. CrowderGulf's database is specifically designed to capture and track quantitative and descriptive debris data for the entire project while storing ticket images for reconciliation support and audit documentation support.

Technology has made documentation, reconciling and invoicing a more efficient, transparent process that can help expedite FEMA reimbursement. However, the technology is only as good as the people using it. CrowderGulf has capable, well-trained personnel with the commitment to ensure functionality and accurate information on a continuous basis. CrowderGulf has qualified, committed personnel full-time throughout the year ready to provide documentation support even years after the project is complete.

> "One of CrowderGulf's most important attributes is their adherence to FEMA protocol. They exhibited a thorough understanding of FEMA regulations and procedures, consistently following protocol. As a result, we encountered no issues with FEMA's reimbursement throughout our collaboration, which is a testament to the company's commitment to compliance and professionalism."
>
> **Nicholas E. Hunter**
> **Mayor, City of Lake Charles**

Reports and Information

CrowderGulf provides comprehensive reporting to track debris removal progress and support ongoing project planning. Our team has the capability and experience to tailor reports to meet the unique specifications of any project or specific phases of work. Reports can be generated quickly to capture the exact data requested by Polk County.

Standard Daily and Weekly Reports Include:

We can provide the County with the following daily and weekly reports (at a minimum):

- Total cubic yards hauled
- Total cubic yards of vegetative debris hauled
- Total cubic yards of C&D debris hauled
- Total cubic yards of Stump debris hauled
- Total leaners or hangers cut
- Total cubic yards of mulch debris hauled
- Total cubic yards hauled to each DMS
- Other customized reports as requested

Reports can be delivered in **Excel**, **Word**, or **PDF** format, ensuring flexibility and ease of use for County staff.

Reconciliation and Invoicing

A critical component of the documentation process is reconciling all truck certifications and load tickets prior to invoicing. CrowderGulf has earned a strong reputation with clients and monitoring firms by ensuring that all data is fully reconciled before invoices are submitted. This process is continuous throughout the project and includes the following steps:

- **Weekly Subcontractor Invoices:** All subcontractors are required to submit weekly invoices to CrowderGulf.
- **Data Verification:** CrowderGulf's Documentation Team compares each subcontractor's invoice against data downloaded from the monitoring firm's Automated Debris Management System (ADMS), verifying total debris quantities and load counts for each truck.
- **Discrepancy Resolution:** Any discrepancies are immediately addressed with both the monitoring company and the subcontractor.
- **Ongoing Reconciliation:** This process continues throughout the project to ensure accuracy and compliance.
- **Invoice Submission:** Once reconciliation is complete, CrowderGulf submits the invoice to the monitoring company.
- **Final Review:** Any remaining discrepancies are resolved between CrowderGulf and the monitoring company before submission to the Client.
- **Compliance:** CrowderGulf adheres to all contract requirements regarding invoice frequency and format.

Invoice Formats and Flexibility

Invoices can be prepared based on client preferences, including:

- Dollar-limit per invoice
- Designated work periods (e.g., weekly)
- Single-task invoices

CrowderGulf strives to accommodate client and monitoring company requirements for format and timing. While invoicing schedules are typically outlined in the contract, adjustments may be necessary due to disaster severity or resource constraints. CrowderGulf's strong financial stability allows us to adapt to these situations without disrupting operations.

Documentation Maintenance

CrowderGulf maintains all documentation for a period of at least 7-10 years, depending on the requirements. All tickets and truck certifications, task orders, and any other pertinent documentation are kept in both hard copy and electronic format. Having all documents in an organized electronic file allows for easy access if and when FEMA audits the work.

FEMA Requirements and Assistance in the Reimbursement Process

CrowderGulf works closely with all regulatory agencies to ensure minimum issues in our disaster management efforts. Over the past 20 years, **98%** of CrowderGulf's work has been with Cities, Counties, States and Agencies that received reimbursement from FEMA under the Public Assistance (PA) Reimbursement Program. As a result of our success in documenting all aspects of the debris management process to support reimbursements, CrowderGulf has established itself as one of the most respected debris contractors in the United States.

CrowderGulf's former FEMA Directors, Emergency Managers and FEMA trained Debris Specialists are available to assist in complying with FEMA guidelines and completing all documentation required by FEMA, FHWA or the Office of Inspector General. **Our Staff is well versed in the Code of Federal Regulations (44 CFR), FEMA's Public Assistance Program and Policy Guide (incorporating FEMA Debris Management Guide (FEMA 325), and the Public Assistance Debris Monitoring Guide (FEMA 327).**

CrowderGulf will share its knowledge and experience concerning reimbursement matters. The goal is to obtain maximum reimbursement by utilizing extremely accurate record keeping and exacting quality control measures.

Specifically, CrowderGulf will assist the County with the following:

- Developing Project Worksheets
- Estimating debris volumes for initial damage assessment
- Identifying eligible and ineligible reimbursements
- Documenting every element of the recovery process

- Reviewing all records to assure that they meet federal and state reimbursement guidelines
- Providing various levels of training for County employees
- Documenting all facets of work to support the claim process
- Maintain all documents for 7-10 years

Reimbursement

CrowderGulf is committed to completing any emergency management and recovery project for the County in the minimum amount of time and at the best possible price. We work in full regulatory compliance with all agencies involved in disaster recovery including but not limited to:

- Federal Emergency Management Agency (FEMA)
- Federal Highway Administration (FHWA)
- Environmental Protection Agency (EPA)
- United States Coast Guard (USCG)
- United States Army Corps of Engineers (USACE)
- Florida Department of Transportation (FDOT)
- Florida Division of Emergency Management (FDEM)

"CrowderGulf has developed a seamless process which allows for the rapid deployment of essential workers, maintained vital communication lines with all parties involved in the cleanup efforts and has strategically allocated resources to the areas of greatest need...They maintain the highest standards in the industry and operate with a level of integrity that is difficult to match."

Mark Claypoole
Gotus Trucking, LLC

ESSENTIAL SUPPORT FUNCTIONS

➢ Readiness Support and Training

CrowderGulf's long and successful history of disaster response and recovery success is, in large part, a result of continuous Readiness Planning and Training. CrowderGulf is dedicated to a year-round cycle of preparation, practice, review and analysis to refine our procedures and processes. We strive for continuous improvement with the goal of exceeding expectations where it matters, in project execution. Joint training and pre-planning with the County will be an important part of Readiness Planning. **On at least an annual basis, CrowderGulf specialists will provide training and pre-planning sessions.** In addition, our Regional Directors and Project Managers will be available to review and advise on potential DMSs. Preparedness training will be tailored to the County's needs and requests.

Usually, training will consist of all or some of the following topics:

- General understanding of the disaster declaration process
- Understanding the importance of thorough documentation in all processes
- Contract scope of work & scope of work timeframe
- FEMA debris removal eligibility & FEMA required documentation
- Responsibilities of the County & the contractor for debris management
- Pre-event actions
- Management team roles & responsibilities
- Initial response & recovery operations
- Debris removal & monitoring functions
- Truck certification process
- Documentation
- Close out & reimbursement

Training and pre-planning sessions are designed by the needs of each individual Client. CrowderGulf is experienced in assessing the needs of each Client and providing the knowledge and training needed for a successful event. CrowderGulf can provide a more in-depth session for the Clients who need training and plan development specific to their geographical location. CrowderGulf is experienced in assessing the needs of each Client and providing the knowledge and training needed for a successful event. In these situations, CrowderGulf provides in-depth training and plan development through PowerPoint presentations, handouts and tabletop exercises. During the in-depth training and planning sessions, CrowderGulf can offer assistance in helping the decision makers make informed decisions regarding such things as DMS needs and locations, whether it is in the best interest of the Client to acquire a monitoring firm and identify any other concerns that may not have been previously identified.

➢ Subcontracting

Please see Tab 5. Resources and Availability for our complete Subcontracting Plan.

➢ Quality Control

The purpose of a Quality Control Plan is to provide guidance and consistent attention to workplace policies and procedures to facilitate efficient, effective, and safe debris removal and reduction. **CrowderGulf's success in managing quality is achieved by our commitment and attention to the people, processes, and procedures involved in our projects. This starts with identifying and communicating the following Fundamental Values for Quality Control Success:**

- Assurance of open and honest communication with clients at all levels to foster a clear and mutual understanding of expectations and promote mutual respect.
- Commitment to high quality standards - "Lead by Example".
- Dedication to staff training and education at all levels to ensure the correct and safe performance of their tasks.
- Implementing "Clean as You Go" policy for every task

Please see Tab 6 – Project Management for our complete Sample Quality Control Plan.

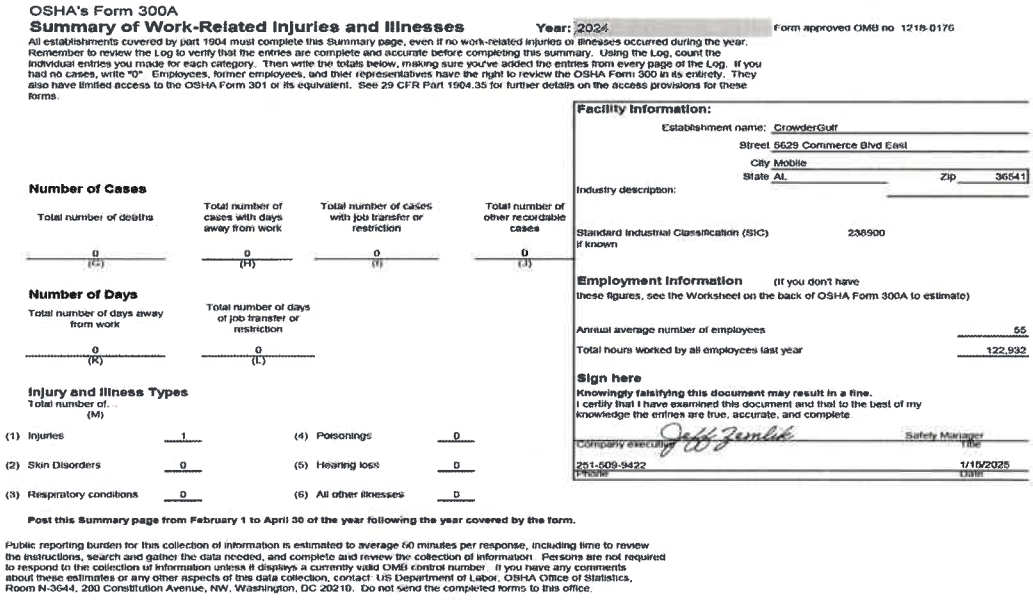
➢ Health and Safety

CrowderGulf's Philosophy of Safety

All Company operations are managed with an aggressive and proactive commitment to the safety and well-being of employees, subcontractors and the public at large. We believe that this commitment to safety must go hand-in-hand with our commitment to quality production and cost efficiency. CrowderGulf believes that ALL injuries and accidents are preventable through the establishment of and compliance with safe work procedures. Therefore, the prevention of bodily injury and the safeguarding of health are the first considerations in all workplace actions and are the responsibility of every employee and subcontractor at all levels. This philosophy is reinforced and fulfilled as defined below:

- The CrowderGulf Safety Plan for the County shall always be in place to provide mandated directives, required actions, procedures and guidance for all levels of employees from initial response to final closure. The Safety Plan is intended to ensure that all employees work safely and remain safe.
- At all times, CrowderGulf will comply with appropriate safety/ security laws and regulations such as those established by:
  - The Occupational Safety and Health Act (OSHA),
  - The EPA (Environmental Protection Agency),
  - The DOT (Department of Transportation),
  - All other applicable federal, state and local safety and health regulations, and any additional safety standards required by the County

Corporate Commitment to Safety



CrowderGulf is committed to providing an accident-free experience for our employees, subcontractors, visitors to our work sites and to the public we encounter during the execution of our projects. Our leadership team is firmly committed to the belief that "All Accidents Are Preventable". To emphasize our commitment to achieving an accident-free experience in every CrowderGulf project, our Company's Senior Executive, Mrs. Ashley Ramsay-Naile, serves as the senior Safety Official. Mrs. Ramsay-Naile's personal attention to CrowderGulf's safety, health and accident prevention performance establishes an absolute standard of top priority for all personnel throughout the organization. Many companies have written safety plans for individual safety topics, but few have a comprehensive plan designed to drive all company operations. CrowderGulf's corporate commitment to safety starts with its written Health and Safety Plan and includes all facets of company planning and operations. Our complete Health and Safety Plan is available upon request.

Safety Performance Summary

Since 2014, CrowderGulf has received no citations, notifications or violations, pertaining to OSHA. CrowderGulf has worked approximately 1,798,603 and experienced 1 total recordable, which is well below industry standard. CrowderGulf policy is that daily toolbox meetings are mandatory, and the Job Safety Analysis (JSA) process to be used as a communication tool for our workers. Every person involved in a CrowderGulf project has not only the right, but the responsibility to stop the job if an unsafe act or situation is discovered, or if there is a need for more understanding of the work process.

Year	Hours Worked	OSHA Recordable	Days Away From Work Cases	R.I.F Rate (Recordable Incident Frequency)	D.a.r.t. Rate (Days Away, Restrictions, or Transfers)
2024	122,932	0	0	0	0
2023	114,400	0	0	0	0
2022	414,960	1	1	.48	.48
2021	161,180	0	0	0	0

2014	89,478	0	0	0	0

*As additional documentation of our exemplary safety record, our most current **OSHA Form 300A – Summary of Work-Related Injuries and Illnesses**, as well as previous years', can be provided upon request.*

OSHA's Form 300A

Summary of Work-Related Injuries and Illnesses Year: 2024 Form approved OMB no. 1218-0176

All establishments covered by part 1904 must complete this Summary page, even if no work-related injuries or illnesses occurred during the year. Remember to review the Log to verify that the entries are complete and accurate before completing this summary. Using the Log, count the individual entries you made for each category. Then write the totals below, making sure you've added the entries from every page of the Log. If you had no cases, write "0". Employees, former employees, and their representatives have the right to review the OSHA Form 300 in its entirety. They also have limited access to the OSHA Form 301 or its equivalent. See 29 CFR Part 1904.35 for further details on the access provisions for these forms.

Post this Summary page from February 1 to April 30 of the year following the year covered by the form.

Public reporting burden for this collection of information is estimated to average 50 minutes per response, including time to review the instructions, search and gather the data needed, and complete and review the collection of information. Persons are not required to respond to the collection of information unless it displays a currently valid OMB control number. If you have any comments about these estimates or any other aspects of this data collection, contact: US Department of Labor, OSHA Office of Statistics, Room N-3644, 200 Constitution Avenue, NW, Washington, DC 20210. Do not send the completed forms to this office.

CrowderGulf's Site Specific Safety Plan

The Accident Prevention Plan (APP) and Site Safety and Health Plans (SSHP) for the County shall include the following commitments:

- Maintaining a safety and health program that meets the requirements of OHSA and all applicable laws.
- Equipping employees and subcontractors with the required safety equipment, hard hats, clothing, and other safety materials necessary to perform specific work tasks.
- Preparing an Accident Prevention Plan (APP) and Site Safety and Health Plans (SSHP) to inventory and address specific work hazards.
- Providing employees and subcontractors with the continuing safety and health training necessary to enable them to perform their work in a safe manner.
- Assuring that at no time, while on duty, may employees or subcontractors be under the influence of alcohol, narcotics, intoxicants or mind-altering substances. Violations of this policy may result in immediate dismissal.
- Assuring that employees and subcontractors be required to immediately report all accidents, injuries, and "near misses" to their supervisor.
- Conducting safety meetings to review past activities, plan for new or changed operations, review hazard analyses and establish safe working procedures.
- Communication of Health, Safety, Security and Environment (HSSE) standards will take place in orientation trainings, safety meetings specific to individual situations, daily toolbox meetings, memos and other ways CrowderGulf deems appropriate.
- Assuring that all associates, regardless of position know that they have the right to "Stop the Job" in the event of a HSSE deficiency.
- Conducting Job Hazard Analyses (JHA) to define the activities being performed, the sequences of work, the specific hazards anticipated, and the control measures to be implemented to eliminate or reduce each hazard to an acceptable level.

A list of local Hospitals, Police Stations, and Fire/Emergency Response Stations will be provided as part of the Safety Plan after project activation.

SAFETY WILL BE THE PARAMOUNT CONCERN AT ALL TIMES

➢ Environmental and Cultural Sensitivity

CrowderGulf is committed to unequivocal protection of the environment at all work sites and surrounding areas. This is accomplished by paying attention to organizational, operational and performance details. CrowderGulf personnel or subcontractors assigned to specific contractual duties that substantially impact environmental quality (i.e., incinerator operators) will have the quality of their work continually evaluated by a senior supervisor. Employees with duties partially or indirectly applicable to environmental protection will have those duties evaluated daily, whether relating to noise, smoke, dust, traffic, drainage or general containment actions or containment actions specifically related to hazardous materials.

Regulatory Permits and Compliance

CrowderGulf will ensure all applicable permits are obtained before work is started, including but not limited to the following:

- Reclamation of Surface Mining Sites
- Ground and Surface Water
- Local Health Department Permits
- Air Quality
- Forestry
- Storm Water

We work in full regulatory compliance with all agencies involved in disaster recovery including, but not limited to:

- Federal Emergency Management Agency (FEMA)
- Federal Highway Administration (FHWA)
- Environmental Protection Agency (EPA)
- United States Army Corps of Engineers (USACE)
- Florida Division of Emergency Management (FDEM)
- Department of Health (DOH)
- Department of Transportation (DOT)
- United States Coast Guard (USCG)
- Florida Dept. of Environmental Protection (FDEP)
- Florida Dept. of Transportation (FDOT)

Environmental and Historic Considerations

State and local regulations, laws and ordinances will be addressed and followed for all environmental and historic preservation issues. The following list provides a brief review of the primary Federal laws which must be considered during debris management practices:

- National Environmental Policy Act
- Clean Water Act
- Clean Air Act
- Coastal Barrier Resources Act
- Coastal Zone Management Act
- Endangered Species Act
- Fish and Wildlife Coordination Act
- Wild and Scenic Rivers Act
- Executive Orders
- National Historic Preservation Act
- Resource Conservation & Recovery Act

CrowderGulf has experience in restoring TDMS sites to natural preserve areas. One such example is the Puschel Preserve area on Sanibel Island, Florida.

On September 28, 2022, Hurricane Ian made landfall on Sanibel Island as a deadly Category 4 Hurricane. Maximum sustained winds of 155 mph and a storm surge inundation of an unprecedented 12 to 18 feet caused catastrophic damage to Sanibel Island and the causeway linking island to the mainland. Due to the extensive damage caused by Hurricane Ian, CrowderGulf established 5 debris management sites to remove and process over 2.2 million cubic yards of storm debris from the Island. The effort also included safely removing 13,154 hazardous trees/limbs from roadways and bike trails, 15,583 white goods, 7,102 pieces of electronic waste and 6,873 pounds of household hazardous waste.

One of the construction and demolition debris management sites was reclaimed to provide a nature preserve to the Sanibel Captiva Conservation Foundation (SCCF). During the debris removal operations, nesting bald eagles raised a pair of young fledglings adjacent to the debris management site. The Puschel Preserve Eagles were quite famous and became a symbol of resilience and recovery for the residents of Sanibel Island. The Puschel Preserve will serve as a lasting reminder that a beautiful and sustainable park was created following the devastation of Hurricane Ian for the residents and visitors of Sanibel Island to enjoy for generations to come.

Please visit CrowderGulf's website to view full video with an overview of the Puschel Preserve Project:
https://crowdergulf.com/crowder-gulf-tv/

Environmental, Historical, or Archeological Sensitive Areas

In many cases, historical or archeological sensitive items may be marked as debris. CrowderGulf's goal is to disturb artifacts as little as possible when performing debris removal operations. CrowderGulf will work with the State and utilize historical and archeological maps to mark these areas using GPS. These coordinates will be uploaded to our GPS units to create a buffer zone that will alert crews to sensitive areas. If an artifact is recovered, operations will be stopped, and the proper authorities will be notified. Environmentally sensitive areas will be dealt with in the same manner. While working within known environmentally sensitive areas, CrowderGulf will utilize natural resource advisors (NRA) to aid debris removal operations in minimizing impact.

Specific Environmental Concerns

Spills or Leaks

Should a spill or leak occur during the performance of this contract, CrowderGulf will report the spill or leak to the County. CrowderGulf shall be responsible for cleaning up all spills in compliance with federal, state, and local laws and regulations and at no cost to the County or other government entities.

Asbestos Containing Materials

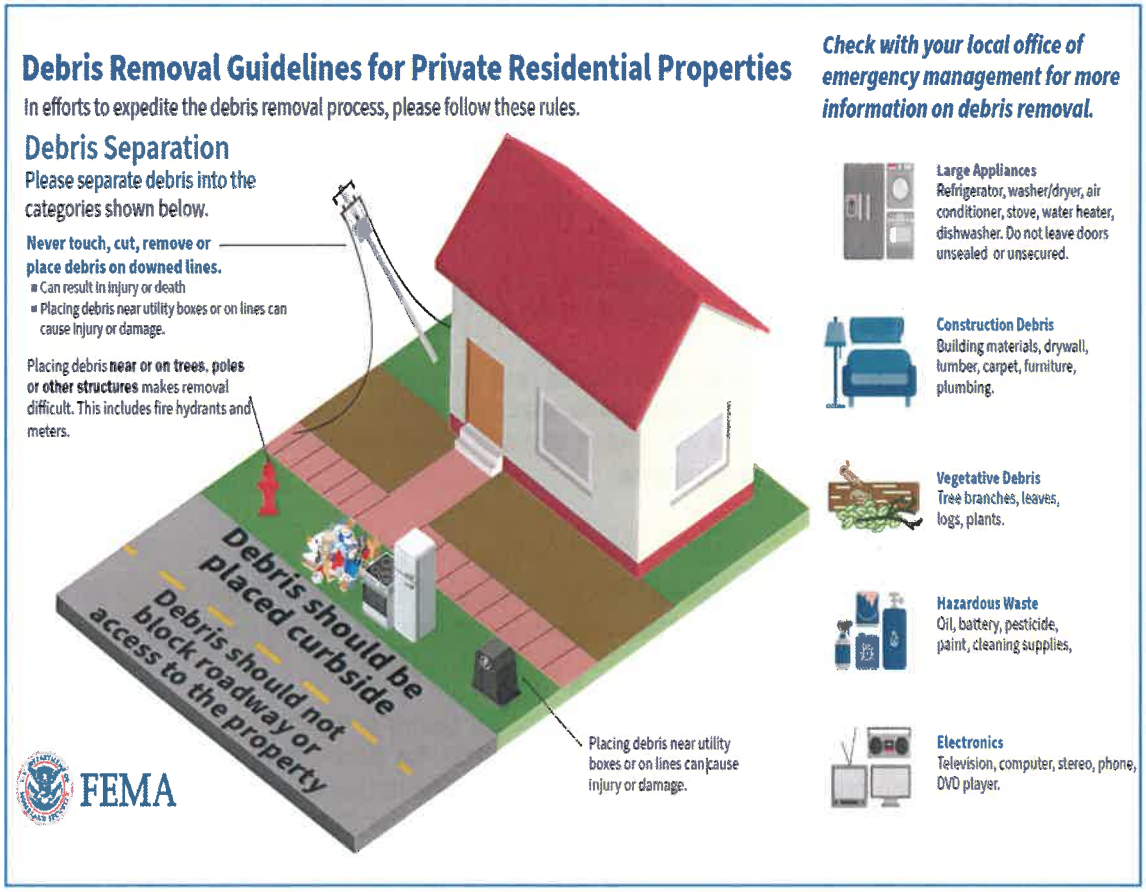
CrowderGulf is experienced in successfully managing the removal of asbestos containing material. If asbestos is encountered during a recovery effort for the County, CrowderGulf will utilize its resources to ensure all asbestos related activities are in accordance with Environmental Protection Agency (EPA) requirements, specifically the National Emission Standards for Hazardous Air Pollutants (NESHAP) 40 CFR Part 61, Subpart M.

CrowderGulf staff will always comply with all environmental laws and regulations. CrowderGulf will conduct all debris operations outlined in this proposal to meet the program standards provided for in the **FEMA Public Assistance Program and Policy Guide**. In addition, CrowderGulf will conduct all debris related operations in accordance with all applicable federal, state, and local laws, rules and/or regulations.

➢ Public Relations

After a disaster, residents want answers regarding recovery operations. CrowderGulf will work closely with the County to ensure that the residents are given accurate and timely information for their use and own individual planning purposes.

Developing a Public Information Campaign



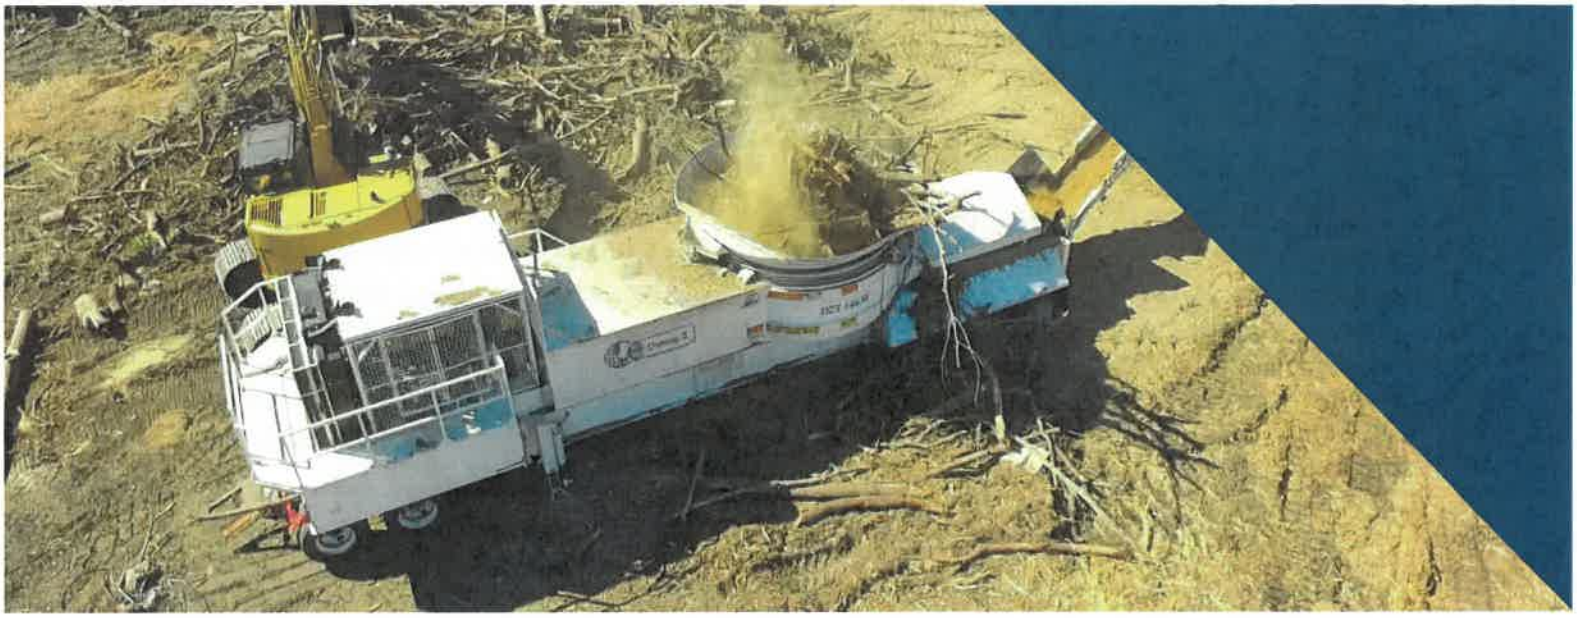
Experienced CrowderGulf personnel will be available to assist the County in the development of a public information campaign, specifically to the disaster. The information could include the parameters, rules and guidelines of debris operations so residents can begin their personal recovery activities. The language used will be simple and easy for all residents to understand. Materials and information may be distributed in more than one language for it to be understood by non-English-speaking populations and neighborhoods.

Distribution Strategy

The following are suggested vehicles for distributing information:

- **Media** – Local television, radio, newspapers, or community newsletters
- **Social Media** – Connect with citizens via Social Media Applications
- **Internet Site** – Polk County Website (https://www.polk-county.net
- **Public Forums** – Interactive meetings at town hall or shopping area kiosks
- **Direct Mail Products** – Door hangers, direct mail, fact sheets, flyers within billings, and billboards
- **County or Emergency Management Applications** – Integrate updates with preferred digital applications

Sample Flyer that can be distributed to local media outlets to assist citizens in properly segregating their debris curbside:



Updates and Redistribution

The public information strategy will be able to address changes and revisions as debris removal operations progress. During the early stages of the operations, distribution may rely on the immediate transmission of the information through radio and television, to update the public regarding the debris removal operations. Once operations become more routine and predictable, the information can be distributed through the print media, such as newspapers, mailings, and flyers.

Debris Information Center

CrowderGulf can assist the County in establishing a temporary debris information center to address concerns and complaints, and answer questions that are not included in the public information campaign at large. The debris information center may also be utilized to report fraud. Regardless of the venue, it will be important to address the residents' concerns, complaints, and questions in a timely and efficient manner. Feedback from the information center will give the Management Team an indication of how effective and efficient the operations are progressing. The County and the On-Site Management Team may use this information to adjust operations appropriately.

RFP 26-011 for Disaster Debris Removal Services

Tab 6. Project Management

Contract Management - Ability to Execute Concurrent Contracts Across Multiple Regions

CrowderGulf has a proven history of simultaneously managing multiple contracts, fluctuating workloads and many specialty debris projects such as waterway debris removal and demolition. CrowderGulf has at its disposal an extensive inventory of company-owned equipment coupled with a large pool of dedicated subcontractors to complete any project, large or small Most importantly, our full-time, disaster-experienced management teams are committed to serving all clients with integrity, promptness and reliability.

The Summary Table below provides a snapshot of CrowderGulf's relevant disaster work experience. It reflects the Company's ability to successfully complete multiple simultaneous disaster projects by providing the personnel and equipment resources needed, regardless of size, location, number of active projects, or the nature and severity of the disaster. Over 98% of the 631 disaster projects listed in the table below were the result of pre-event contracts that were activated after a disaster. CrowderGulf successfully provided every Client with all the detailed, accurate and timely documentation required by FEMA to receive reimbursement.

SUMMARY TABLE OF SIMULTANEOUS DISASTER DEBRIS PROJECTS

Year	Hurricanes & Storm Disasters	Simultaneous Contract Activations	# of DMS Managed	Invoice Amt	Approx. Cubic Yards (CY)
2025	Ice Storm, Straight Line Winds, Floods	4	4	$2,647,501	37,410
2024	Hurricanes Milton, Helene, Francine, Beryl, Debby, & Straight-Line Winds, Severe Storms	89	151	$461,874,363	18,772,394
2023	Hurricane Idalia; Ice Storm, Tornados,	19	8	$34,270,393	2,003,207
2022	Hurricanes Ian & Nicole, Severe Storms	45	82	$413,321,806	19,454,567
2021	Hurricanes Ida, Nicholas; Tornados, Storms	25	26	$56,594,407	2,772,654
2020	Hurricanes Laura, Sally, Zeta; Tropical Storm (TS) Cristobal, Hanna, Tornados	39	91	$572,126,410	32,237,626
2019	Hurricane Dorian, TS Imelda, Tornado,	7	4	$4,558,359	169,827
2018	Hurricanes Florence & Michael, Red Tide	40	56	$284,507,351	19,311,887
2017	Hurricanes Irma, Harvey, Nate, TS Cindy	98	144	$298,172,017	18,559,759
2016	Hurricanes Hermine & Matthew; Severe Storms, Flooding, Tornado	53	36	$100,501,633	6,725,538
2015	Severe Storms, (Flood & Tornados)	10	0	$2,311,844	109,578
2014	Ice Storms Pax & Ulysses, Severe Storms	14	5	$9,866,559	669,314
2012	Hurricanes Isaac & Sandy	13	4	$60,627,670	972,993
2011	Hurricane Irene	31	13	$14,754,641	1,673,821
2008	Hurricane Ike	36	27	$178,318,425	16,933,904
2005	Hurricanes Dennis, Katrina, Rita, Wilma	69	41	$281,418,949	19,441,656
2004	Hurricanes Charley, Frances, Ivan, Jeanne	36	61	$292,426,233	16,800,678
2003	Hurricane Isabel	16	19	$66,344,733	5,447,815

CrowderGulf Services Available in the County

CrowderGulf has a detailed and strategic plan tailored to meet the needs and specific requirements of the County. The services provided will consist of furnishing all labor, materials, and equipment to complete and deliver full Emergency Response and Recovery Services. CrowderGulf can offer the County the widest possible spectrum of debris management and disaster recovery services which are itemized below:

Pre Planning & Training

Annual pre-disaster debris management planning sessions include training, review of emergency management plans, Debris Management Site (DMS) selection and other disaster recovery components.

Aerial Assessment via Helicopter Flyover

After a storm has impacted a large area, CrowderGulf often implements the use of a **helicopter flyover** with local officials, to assess the damage. This allows our team to prioritize which areas may need assistance sooner than others based on severity of damage, as well as see progress once work starts.

Emergency Road Clearance "PUSH"

CrowderGulf provides push services by making certain that roadways designated by the County are clear and passable within 70 working hours from issuance of a Notice to Proceed (NTP) with such clearance.

Right of Way (ROW) Debris Removal

CrowderGulf performs permitting, clearing, and removing FEMA eligible disaster debris from the public rights-of-way, streets, roads, canals, lakes, ponds, and waterways as directed by Polk County. Each load of debris is accurately recorded electronically or on load tickets and presented to the County daily along with requested daily and weekly production reports.

Private Property Debris Removal (PPDR)

When requested, permitted, and approved by FEMA, State, or Local Government, CrowderGulf can conduct debris removal operations from private property. Debris must eliminate the immediate threat to lives, public health, and safety; and must be a result of the declared incident and within the designated area. Each load of debris is accurately recorded electronically or on load tickets and presented to the County daily along with requested daily and weekly production reports.

Development and Operation of Temporary Debris Management Sites (TDMS)

CrowderGulf constructs TDMS to handle the volume of debris generated in the County by the disaster. Operation of the TDMS includes debris separation, reduction, recycling and proper holding, separating and disposal of hazardous waste and fluids. TDMS are fully restored to original condition after project completion. CrowderGulf can also assist in selecting and identifying appropriate TDMS locations and provide site specific operational plans.

Final Debris Disposal

CrowderGulf disposes of all debris, including reduced debris, in accordance with all applicable federal, state and local laws, standards and regulations. At the County's request, tipping fees associated with final disposal facilities can be paid by CrowderGulf and back billed to the County as a pass-through cost.

Stump Removal

All stump removal will be conducted following all FEMA Public Assistance Program and Policy Guidelines. Stumps left on the rights-of-way will be hauled as regular vegetative debris. Only hazardous stumps that meet FEMA stump requirements will be removed upon FEMA approval. Complete documentation will be collected before and after the extraction.

Tree Trimming & Removal (Leaners and Hangers)

CrowderGulf performs tree trimming and removal in accordance with American National Standard ANSI A300. Other tasks also associated with tree trimming are tree topping, stump grinding, grubbing, clearing, hauling and disposal of trees to abate imminent and/or significant threats to public health and safety. All tree work is directed by the County and a FEMA representative. CrowderGulf has certified arborists to assist the County with tree trimming and removal.

Arborist Program

Understanding the dynamics of tree growth and health is pivotal in fostering resilient tree canopies, particularly in the face of natural disasters such as high wind events and tropical systems. Mismanaged tree canopies not only escalate debris generation post-disaster but also increases the threat to public health and safety. At CrowderGulf, we recognize the significance of arboriculture in disaster recovery efforts. Building upon our longstanding provision of arborist services post-storm disaster, we have expanded our program to include pre-storm disaster arborist services aimed at proactive canopy management within the framework of contemporary arboriculture standards.

In-House Arborist:

CrowderGulf provides an in-house arborist who works closely with our safety team, ensuring adherence to arboriculture and safety protocols across all CG projects. This expert not only oversees tree crews but also provides invaluable guidance to Project Managers (PMs) on safeguarding undamaged trees, prioritizing high-value trees to minimize additional damage, and managing arboriculture procedures aligned with FEMA reimbursement criteria. Moreover, our arborist team possesses utility training, equipping them to address concerns regarding right-of-way access and usage, including complexities arising from interactions with various utility companies within the canopy's vicinity.

Detailed Inspection:
Measuring a 3-inch tree limb in a Level 2 Assessment to guide precise trimming and ensure compliance with ANSI A300 arboriculture practices.

Level 1 Assessment:

A Level 1 Limited Visual assessment conducted by our trained arborists offers a rapid yet comprehensive evaluation of trees across extensive areas. By methodically traversing designated zones, our arborists examine trees and vegetation to identify potential risks, focusing on signs of disease, decay, and structural defects that could pose hazards to people or property. These assessments serve as crucial initial screenings to promptly identify trees requiring immediate action, ensuring proactive hazard mitigation before potential damage or liability occurs.

Level 2 Assessment:

During a Level 2 Basic assessment, our certified arborists conduct thorough visual inspections of trees and their surroundings to identify defects or hazards. Utilizing specialized tools and techniques, they examine the tree's trunk, branches, and crown for indications of decay, disease, or compromised structural integrity. Following this assessment, arborists determine whether observed conditions warrant a more intensive Level 3 Advanced assessment, providing property owners with detailed reports outlining risk ratings and recommended mitigation measures.

Level 3 Assessment:

Level 3 Advanced assessments involve in-depth evaluations of a tree's structural integrity and health, employing advanced diagnostic tools and techniques to uncover hidden defects or decay. Climbing inspections, resistance drilling, sonic tomography, and root system inspections enable arborists to assess structural defects, disease progression, and overall tree health accurately. The findings from these assessments inform tailored care measures, empowering property owners, managers, or municipalities to make informed decisions regarding tree management and disaster preparedness.

Demolition

CrowderGulf provides demolition services and removal of condemned structures and buildings that pose a threat to public health and safety. All demolition services requested commence with safety and regulatory requirements in place and all local, state and federal requirements are followed.

Derelict Vehicle and Vessel Removal

CrowderGulf can perform all aspects of vessel and vehicle removal from land or water. Also offered is assistance with ownership records and contact verification procedures. If needed, a storage site is established, maintained and managed for the vessel and/or vehicle holding, as may be required by law. Documentation is kept on all stages of the removal of each vessel and vehicle from collection to final disposal.

Removal & Disposal of White Goods & E-Waste

CrowderGulf is experienced in the special handling of white goods (refrigerators, stoves, ac units, etc.) and e-goods (electronic equipment). All regulations on the proper disposal of hazardous fluids removal are followed.

Waterway Debris Removal & Shoreline Restoration

CrowderGulf has completed numerous projects throughout the Southeast removing marine debris from storm water drainage ditches to large rivers and canal systems. Removal of debris from the rivers and canals can require the use of shallow draft boats and barges equipped with knuckle-booms or track-hoes with debris grapples. In shallow water areas with limited access and in extremely sensitive areas, the debris is removed by hand labor. CrowderGulf has also completed earthen-fill repairs and restoration as well as armored shorelines consisting of riprap, (both stone and recycled concrete). CrowderGulf also has the capabilities and experience installing gabions, geo-web products and various types of bulkheads and retaining walls.

Sonar Scanning

CrowderGulf has conducted numerous large scale operations utilizing sonar imagery and underwater video and photography. Sonar scanning is a technological and efficient way to locate and remove sunken marine debris from waterways.

Technical Disaster Recovery Assistance

CrowderGulf can aid with all aspects of the Public Assistance Program including damage survey reports, project worksheets, documentation support and consultations/negotiation services and any other technical assistance needed.

Other Services CrowderGulf is Experienced in are, but not limited to:

- Household Hazardous Waste (HHW)
- Levee Construction
- Land Clearing and Site Preparation
- Road and Utility Work
- Marine Salvage
- Marine Construction
- Bulkhead and Pier Replacement
- Portable Housing
- Cellular Tower Construction
- Temporary Ice, Water and Other Consumables
- Hazardous Materials Handling
- Park Restoration & Historic Property Preservation
- Temporary Power Services/Generators
- Dredging
- Pile Driving
- Bio-Mass Recycling
- Wetlands Restoration
- Sand Screening

Drone Capabilities

CrowderGulf utilizes cutting-edge drone technology, integrated with advanced mapping and analysis software, and enhances precision with GNSS survey receivers equipped with Real-Time Kinematic (RTK) technology. This comprehensive suite of tools is pivotal in our debris management operations, including on city owned properties, private properties, linear utility easements, and public rights of way, ensuring that our documentation meets the stringent accuracy and compliance standards required for FEMA reimbursement.

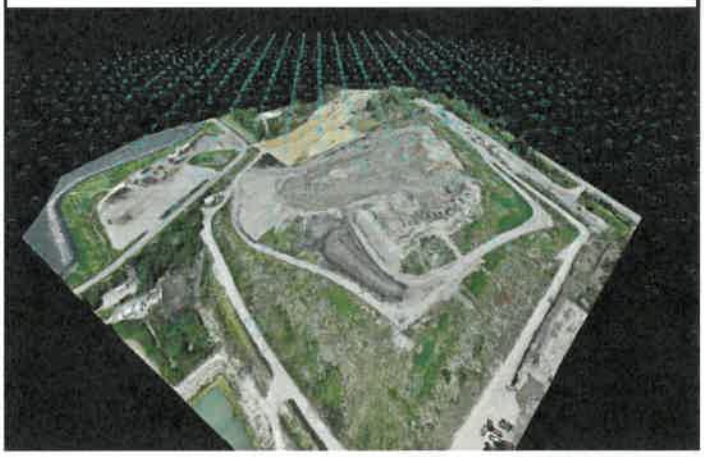
Accurate Documentation for FEMA Reimbursement: The precision offered by the Drone's high-resolution imaging combined with GNSS survey receivers and RTK technology, giving centimeter level positioning accuracy, ensures that every piece of debris documentation is accurate and verifiable. FEMA requires detailed, precise, and auditable data to approve reimbursement claims. Our technology stack provides georeferenced images and detailed maps that meet these requirements by accurately documenting the location, extent, and type of debris, ensuring that all information is FEMA-compliant.

Private Property Debris Removal Documentation: The advanced imaging and precise location data capture capabilities of our equipment facilitate comprehensive documentation of debris on private properties. This level of detail is critical not only for operational efficiency but also for providing the necessary documentation to FEMA, which often requires proof of debris impact and removal for reimbursement.

Linear Easement (Utilities & Waterway)/Right of Way Documentation: For debris located in linear easements (both land and water) and rights of way, our drones and GNSS receivers map and document with pinpoint accuracy. The ability to survey and map easements, waterways, and rights of way provides tremendous operational benefits. This ensures that all necessary documentation for FEMA reimbursement is complete and accurate, showing exactly where debris was removed, the volume of debris, and the condition pre & post-removal.

Enhanced Mapping and Estimating with RTK: RTK technology enhances our mapping and estimating capabilities by providing centimeter-level accuracy. This allows for exact volume measurements and detailed debris mapping, which are crucial for real time operational decision making and FEMA reimbursement claims. Accurate volume estimations ensure that claims are reflective of the actual work performed, which is necessary for securing appropriate reimbursement.

Post Processing and 3D Modeling: The integration of precise aerial data with advanced software allows for the creation of detailed 3D models and volumetric assessments, which can be used in the preparation of FEMA reimbursement documentation and internal/ public messaging and information sharing. These models provide a clear, indisputable base for claims, enhancing the transparency and traceability of the cleanup efforts.



Monitoring and Mitigating Environmental Impacts: Our accurate mapping and detailed documentation also play a role in demonstrating compliance with environmental regulations, a factor often reviewed in conjunction with FEMA reimbursement. We document the initial environmental state, the impact of debris, and the restoration efforts, all of which are crucial for maintaining environmental compliance and fulfilling FEMA's requirements.

By deploying Enterprise level drones, GNSS Survey Receivers, and RTK technology, CrowderGulf not only streamlines debris management operations but also ensures that every aspect of our documentation is precise and compliant with FEMA's stringent standards. This meticulous approach to accuracy and documentation greatly enhances our ability to secure timely and adequate FEMA reimbursements, supporting the financial stability clients and operational continuity of our debris management efforts.

Benefits of Drone Technology:

- High Resolution Aerial Maps of DMS or Affected Area
- Debris Estimation
- Damage Assessments
- 3D Models
- Waterway/Easement Mapping, Assessments and Surveys
- High-Definition Video
- Live Stream Video for Emergency Operations Center (EOC) or other meetings
- Site/Project Documentation
- Historical Documentation
- **Environmental Impact Surveys**
- Allows for effective distribution of information to the public showing the scope of the project.
- Training
- Public Messaging Deliverables
- More cost effective than traditional aerial platforms
- Can be deployed quickly in the most austere environments with little support.

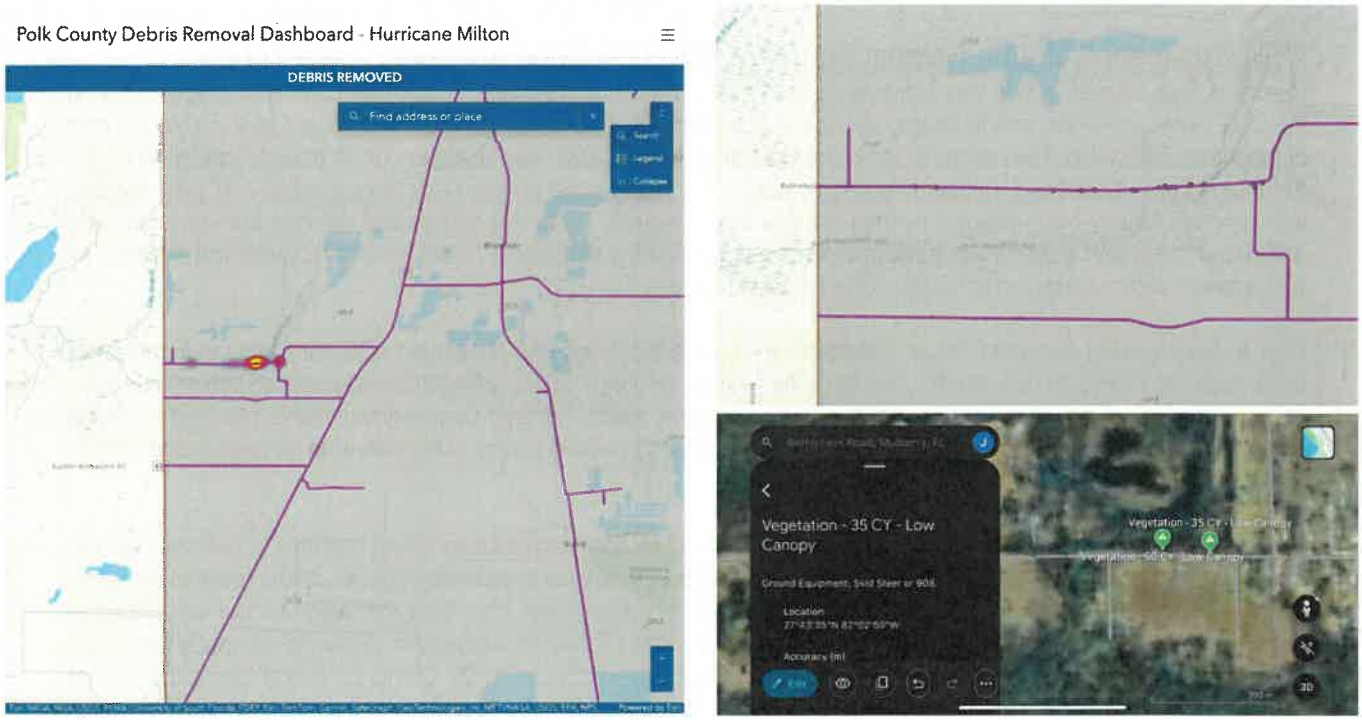
Field Mapping Capabilities

CrowderGulf's commitment to client support, quality control, and effective project control delivery has been a key component in our success across our over fifty-five (55) years serving communities like Polk County in the wake of disaster. As advancements in technology and updated Public Assistance Policies create new evolutions in disaster response and recovery, CrowderGulf's ability to map and communicate real-time information has matched each evolution stride for stride. CrowderGulf's senior and field management team have the ability to conduct and map damage assessments, as well as create mapping throughout each phase of the project timeline to relay any number of relevant project metrics, hazards/ potential disruptions to service, right-of-way (ROW) debris volumes through each debris collection "pass," as well as map, plan, and track progress for specialty scopes of service such as waterway debris removal.



Our team utilizes arcGIS layers, Google Earth, and additional open-source programs capable of running Large Language Models (LLM's) to incorporate project metrics for both internal use in the field and project schedule reporting. This technological capability allows CrowderGulf to integrate pre-existing, designated "debris zones" with field mapping, as well as create delineated work areas as needed, if none exist. CrowderGulf's field mapping system allows management team members to create "workbooks" or maps on demand completely offline, most notably, in catastrophic events where cellular and internet connectivity have been severely impacted or lost all together. This system is compatible with both major Operating Systems (OS) and can be easily shared between devices. Mapping, including the ability to produce hard copies, will be available to all project management team members, subcontractors, and Polk County Stakeholders and their representatives.

The applications for our field mapping system are nearly endless respective to each individual disaster and resulting scopes of service. Having Polk County's boundaries (including incorporated municipalities), as well as its Debris Management Sites (DMS) pre-loaded prior to any event or activation, CrowderGulf's management team will be able to support the County's recovery from the very outset of any disaster debris removal project in the County. Additionally, this system can be used to integrate "blue-sky" planning information such as indicating work areas with aging infrastructure or increased susceptibility to flooding/ surge impacts, for example. CrowderGulf's mapping serves to augment the County's GIS department, as well as provide context or additional in conjunction with the mapping provided by the County's Debris Monitoring Firm. This effort in ensuring the utmost client support in any disaster event, regardless of size and scope, further exemplifies CrowderGulf's commitment to providing Polk County with the most engaged project management team and the best partner in disaster debris removal.

Pictured is an example of "debris zones" being created for Fort Myers Beach after Hurricanes Helene/ Milton impacted the Town in the fall of 2024. This "workbook" was shared between CrowderGulf's Senior Project Manager, Project Manager, and Field Supervisor to complete multiple targeted passes on debris streams such as Vegetation, C&D, and HHW. A similar mapping system was utilized in the fall of 2022 after Hurricane Ian devastated the Town with a catastrophic 14-foot storm surge. CrowderGulf's field mapping system allowed our team to conduct operations following Hurricanes Helene and Milton amidst the larger rebuilding effort stemming from Ian by indicating areas of heavy construction, or infrastructure installations, for example. This allowed CrowderGulf to provide the Town with the most efficient, effective debris removal operations while mitigating any delays of service for both debris' removal and overall restoration on the nine (9) square-mile island. CrowderGulf's operations for the Town post-Ian resulted in nearly one-million cubic yards being collected and disposed of, while debris operations following Helene and Milton resulted in less than 15,000 cubic yards being collected.

The drastic difference in operational considerations and project parameters between the two responses across the same work area highlights CrowderGulf's commitment to our clients by utilizing every possible tool to ensure project quality control across activations of any size and/ or scope. Most recently, these field mapping workbook communications played a key role in successfully completing 115 disaster debris removal activations in 2024, including the effective management of over 120 Debris Management Sites (DMS) and 95 Final Disposal Sites (FDS) across the State of Florida and the Southeastern United States. Utilizing this methodology, CrowderGulf completed 99.8% all right-of-way collection within the 100% reimbursement window across the State of Florida, collecting and disposing of over sixteen (16) million cubic yards across all projects.

CrowderGulf's field mapping methodologies are used in conjunction with Polk County's Debris Monitoring Firms' (DMF) debris dashboard and digital mapping. The example above represents CrowderGulf's field management team coordinating with debris monitors, county departmental personnel tasked in disaster debris functions, as well as our own internal operators and ground crews. In this scenario, CrowderGulf field staff would communicate a potential operational challenge in the form of a low tree canopy along Bethlehem Road in the Polk County municipality of Mulberry, FL. This easily communicable file is used to coordinate proper traffic safety protocols and the application of equipment with the appropriate operational footprint, as well as the articulation and attachments best suited to safely and efficiently remove the debris without causing damage to valuable debris assets or private property. The ability to forecast and mitigate potential delays in service is critical to project success through all phases of operations, especially in areas with an acute, outlying debris field with above average transit times as pictured above.

Past Performance and Experience

For all activations, CrowderGulf Management teams have been led by highly qualified, disaster-experienced, knowledgeable personnel. These individuals are well-versed in FEMA regulations, including eligible work, funding and reimbursement requirements. Several of CrowderGulf's personnel have held emergency management positions both locally, as well as state and federal positions. These individuals provide updates and training to CrowderGulf staff on a regular basis. Details of personnel qualifications are provided in the **Key Personnel Section** of this proposal. CrowderGulf's ability to successfully manage multiple contracts, within client timelines and FEMA guidelines, is highlighted in the following excerpts of experience following major natural disasters. A Summary Chart is included at the end of each year's work that shows the varied scopes of work that were completed.

2024 Hurricanes Milton, Helene, Francine, Debby & Beryl & Straight-Line Winds

Hurricane Season in 2024 was very active along both the Gulf Coast and the East Coast. Five hurricanes made landfall in the U. S.: three in Florida, one in Texas, and one in Louisiana. Over 350 lives were lost and according to FEMA the cost of more than $90 billion. The second storm of the season, on July 8, 2024, was Hurricane Beryl. It made landfall along the Southeast Texas Coast as a re-intensified Hurricane 1. The Texas coast suffered extensive flooding and wind damage with Brazoria County being affected by the east side of the eyewall. There was widespread damage from downed trees and power lines, with flooding and infrastructure damage occurring throughout numerous other coastal communities as well as many communities further inland in the Houston region.

Prior to Beryl coming ashore in Texas, CrowderGulf's operational team was pre-staged near our clients to immediately begin assisting them with their needs. One day after landfall, on July 9, 2024, CrowderGulf was activated to provide push crews to the City of Angleton for emergency clearing of priority roads. City and County governments received mounting pressure from state and federal officials (FEMA) to help provide a complete picture of the statewide damage based on their damage assessments.

CrowderGulf assisted clients with this task by mobilizing multiple assessment crews which coordinated with each of our clients to provide individualized debris removal quantity and cost estimates and develop specific debris removal timelines. While CrowderGulf teams were developing debris estimates, simultaneously, other team members worked with Clients to identify, permit and develop Temporary Debris Management Sites (TDMS) throughout the damaged areas. By the end of the first week after Beryl's destructive path, CrowderGulf had been activated by 20 Clients (municipalities and counties) and crews were removing debris from the rights-of-ways. CrowderGulf developed and managed nineteen (19) Temporary Debris Management Sites (TDMS) to reduce the debris produced by Hurricane Beryl.

On September 26th, Hurricane Helene, a Category 4 storm made landfall. More than 230 people were killed from this violent storm's devastation across Florida, Georgia, South Carolina, North Carolia, Virginia and Tennessee. CrowderGulf responded to 16 client activations resulting in the removal of 1.2 million Cubic Yards of debris. Two weeks into the cleanup efforts for Hurricane Helene, Hurricane Milton made landfall on the eastern side of the Gulf of Mexico at Siesta Key, Florida. This powerful category 3 hurricane resulted in 32 client activations. CrowderGulf removed over 3.5 million cubic yards of debris with project totals reaching over 100 million dollars for the debris removal and recovery work.

2022 Hurricanes Ian and Nicole

- **Hurricane Ian Impact**: Hurricane Ian made landfall on September 28, 2022, in Southwest Florida, near Fort Myers, as a strong Category 4 storm. Ian is currently estimated to be the costliest storm in Florida's history. The Town of Fort Myers Beach, City of Sanibel, and Lee County suffered catastrophic damage. Widespread wind and flood damage occurred throughout the impacted areas and severe storm surge damage in the beach towns and communities within Lee County.
- **Immediate Response**: As the day broke and Ian's winds had weakened, the devastation was unimaginable. One of the first things reported to the team was the destruction of the Sanibel Causeway, cutting the City of Sanibel off from the mainland. CrowderGulf immediately recognized the need to set up barging for the City. We coordinated with the City and mobilized barges the following day. On October 1, 2022, just three days after Ian's landfall, CrowderGulf got the first barge on the scene.
- **Barge Operations**: Barge operations involving five large barges supplied by CrowderGulf, supported transporting fire, police, EMC, power companies to the island for approximately three weeks.
- **Emergency PUSH Operations:** In the first hours after Hurricane Ian's devastation, while barge operations were being set up for Sanibel, CrowderGulf was also performing emergency PUSH operations in Lee County, Fort Myers, Fort Myers Beach, Estero, and Bonita Springs. All combined, CrowderGulf had approximately 200 PUSH crews operating within the State of Florida.

Full-scale Operations: While PUSH crews cleared roads, other CrowderGulf crews developed 63 Temporary Debris Management Sites (TDMS) throughout the damaged areas to start receiving debris. CrowderGulf began hauling debris from the ROW to TDMS just three days after landfall. Within Unincorporated Lee County, CrowderGulf achieved a maximum daily production of 107,000 cubic yards per day, resulting in over **8 million** cubic yards being removed. Response-wide in the State of Florida for Hurricane Ian, CrowderGulf reached a maximum daily production of 194,000 cubic yards per day, resulting in more than 17 million cubic yards of debris being removed.

2021 Hurricanes Ida and Nicholas

On August 29, 2021, Hurricane Ida impacted much of coastal Louisiana, including St. John the Baptist Parish. With hurricane force winds more than 150-mph, Ida was a deadly and destructive Category 4 Atlantic hurricane that became one of the most damaging hurricanes to make landfall in the state of Louisiana.

CrowderGulf held a pre-event contract with St. John the Baptist Parish and CrowderGulf's contracts manager, Wes Naile, was in contact to discuss the possibility of the issuance of a Notice to Proceed (NTP), once the Parish was in the cone of uncertainty. On September 7, 2021, in the immediate aftermath of Ida, as soon as it was deemed safe and a NTP was issued by the Parish, our Director of Operations was on the ground doing damage assessment.
CrowderGulf's Management team immediately mobilized all personnel, support equipment, and assets for the initial PUSH on all essential roadways. Simultaneously, resources for the Rights-of-Way (ROW) debris removal. Three debris management sites (DMS) were immediately developed to accept incoming storm debris. This project activated approximately 30 self-loading grapple trucks as well as several wheel loaders, skid-steers and other supporting equipment required to perform all necessary actions. After six months, the final pass was initiated, and the debris removal portion of the Parish project was completed on May 15, 2022.

On March 4, 2022, the Parish activated CrowderGulf to begin debris removal operations in waterways, drainage laterals and ditches. The CrowderGulf Team removed and disposed of over **79,000 cubic yards** of debris, and the contract remains open for future work with laterals and ditches.

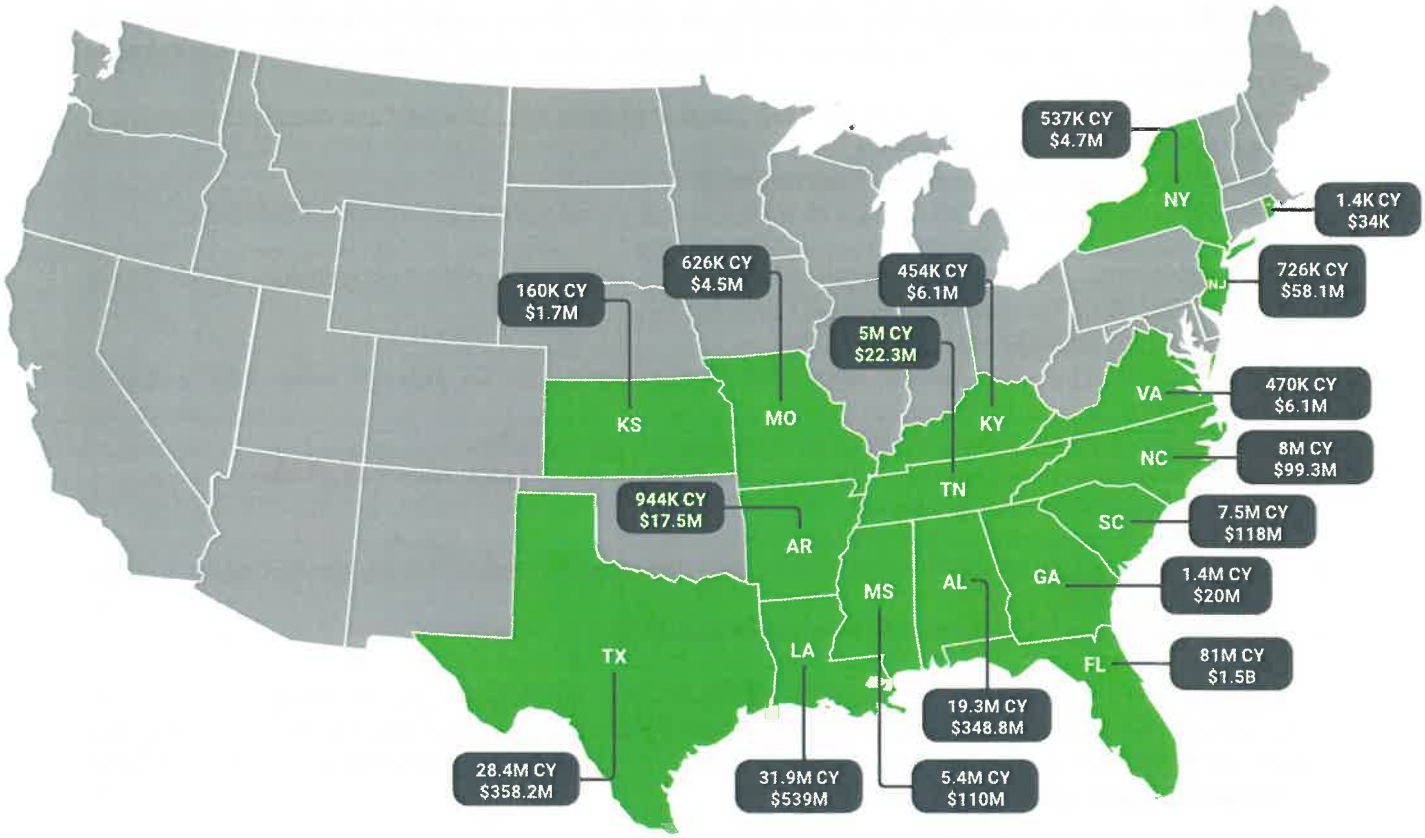
2020 Hurricanes Laura and Sally, Zeta, TS Cristobal & Tornados

In 2020, CrowderGulf responded to nine major disasters with 34 contract activations in six different states. CrowderGulf developed and managed 49 Debris Management Sites (DMS) during activations. These debris activations were conducted simultaneously with multiple missions occurring within and across regions. During the first 60 days after Hurricanes Laura and Sally, CrowderGulf removed over 12 million cubic yards of debris from the ROW. This consistent daily production of over 204,000 cubic yards of debris per day demonstrated CrowderGulf's unparalleled capabilities. Moreover, these productions were achieved without sacrificing safety, quality, cost or schedule. All of this was made possible by having qualified, disaster-experienced key management personnel and subcontractors, effective sectoring, and an efficient staffing approach.



Hurricane Laura made landfall near Cameron, LA, on August 27, 2020, as a Category 4 Hurricane with peak sustained winds of over 150 mph. Within a few hours after the dangerous winds passed, the CrowderGulf Team was on the ground in Calcasieu Parish and the cities of Lake Charles, Sulphur, Dequincy, Vinton, Westlake and Iowa. CrowderGulf executed the pre-storm response plans and immediately began debris assessment and removal operations.

Due to the widespread destruction, CrowderGulf dispatched over 500 Push Team to clear the roads for emergency vehicles to access the citizens in need. Simultaneously with the Emergency Road Clearance operation, the CrowderGulf Management Team located, leased, permitted and developed 16 Debris Management Sites (DMS) to store and reduce the hurricane generated debris.

Overall, CrowderGulf had 34 activations removed, reduced and disposed of over 19 million cubic yards of hurricane generated debris from the ROW. In addition to PUSH operations, ROW hauling, tree work and disposal operations, CrowderGulf also worked within Calcasieu Parish to remove debris from over 1,600 miles of drainage laterals throughout the Parish. As a result, over 2.2 million cubic yards of debris have been removed and disposed of from the ditches and waterways within the Parish.

CrowderGulf's At a Glance - Historical Workload & Experience across the U.S.

Quality Assurance/Quality Control Plan (QA/QC)

CrowderGulf's success in managing quality is achieved by our commitment and attention to the people, processes, and procedures involved in our projects. This starts with identifying and communicating the following Fundamental Values to Quality Control Success:

- Assurance of open and honest communication with clients at all levels to foster a clear and mutual understanding of expectations and promote mutual respect.
- Commitment to high quality standards – "Lead by Example."
- Dedication to staff training and education at all levels to ensure correct and safe performance of their tasks.

The systematic incorporation of Quality Management into contract work is accomplished using contract specific Quality Control Plans (QC Plan). The objective of each QC Plan is to:

- Establish and communicate standards for quality
- Established the organization (people) responsible for implementing the QC plan and assign mission specific responsibilities.
- Prescribe the processes, procedures, and tools necessary for achieving quality.
- Establish a process for identifying quality deficiencies quickly and correcting the deficiencies promptly.
- Document and report quality management.
- Incorporate Safety and Health in Quality Management
- Identify and incorporate into quality management criteria and standards applicable to the specific contract work (i.e. FEMA Debris Eligibility Criteria).
- Promote the concept "Clean As You Go" in the debris removal process.

CrowderGulf's contract-specific Quality Control Plan addresses operational features unique to the task orders issued. These contract-specific Quality Control Plan prescribes the plans, procedures, and organization that CrowderGulf uses to ensure the debris removal, reduction and disposal operations, including that of subcontractors, and includes **strict** compliance with FEMA debris eligibility criteria.

Three Phased Control Approach

The foundation of CrowderGulf's Quality Management Program is the "Three Phased Control Approach." The Quality Control Manager (QCM) has the responsibility for ensuring implementation of the Three Phased Control process throughout the Project.

Preparatory Phase: The first phase, Preparatory Phase, begins well in advance of initial debris removal and continues into every new definable feature of work. Development and approval of necessary submittals, inspection and acceptance of equipment, operational and safety inspections of all work sites, obtaining necessary permits, identifying quality standards and identifying FEMA eligibility criteria, are all examples of actions that may be taken in the Preparatory phase for work. Documentation is normally accomplished using contract specific Checklists. These Checklists are designed to record the necessary resources, controls, and procedures, to accomplish the work safely and in compliance with all contract specifications and FEMA eligibility criteria.

Initial Phase Inspection: The initial control or inspection of each segment of work is made at the onset of the debris operation. This is the best opportunity to get the work off to a proper start in full compliance with contract requirements and consistent with FEMA eligibility criteria. If there are differences of opinion in the interpretation of contract requirements or applicable criteria, issues can be discussed and settled at the onset of work much easier than after the work begins. Applying Initial Phase Inspection of Quality Management to debris work requires onsite meetings at appropriate client work locations, to agree on standards and work processes. Here potential problems or safety hazards are identified as well as actions to manage the challenges. Expectations are identified and documented. This Initial Phase Inspection is the appropriate time to:

- Inspect site conditions immediately before initiating work.
- Document pre-existing damages.
- Identify site specific hazards.
- Identify actions to ensure quality and safety standards are met.

Documentation is normally accomplished using an Initial Phase Inspection Record. The Quality Control Manager (QCM) is responsible for ensuring the Initial Phase Inspections are conducted appropriately and documented.

Follow-Up Phase: Follow-up inspection and testing are geared toward a continuation of compliance with quality standards and workmanship quality, established during preparatory and initial phases. An important aspect of the follow-up phase is ensuring corrective actions taken are effective and appropriately implemented.

Follow-up Phase Inspections are accomplished daily to ensure maintenance of high-quality work standards and high safety standards. The Follow-Up Phase inspections are normally accomplished by the Quality Control Manager or Safety Manager and documented. The QCM is responsible for ensuring the completeness and effectiveness of this phase of control. The documentation of deficiencies, unsatisfactory conditions, and corrective actions, must be accomplished and completed in a timely manner to ensure the effectiveness of the Quality Control System.

At any time, the QCM may prescribe specialized or more frequent resting or inspections to maintain the quality standards and ensure the effectiveness of the quality control system.

The last step in the Follow-Up phase is the Close-out Inspection. At the completion of a task or definable feature of work, a Close-out Inspection occurs. Any nonconforming work is identified and corrective action specified. This inspection process remains open until all agree on task completion consistent with contract requirements and applicable criteria. Documentation and signatures on a Close-out Inspection Record finalizes the Follow-Up Phase.

One important feature of the Close-out Inspection Record is the documentation of lessons learned. Obtaining the input of those individuals working on the project provides valuable insight into process improvement opportunities. Recording this information into the Quality Control System facilitates use of the information to improve future work processes and procedures.

Quality Control Organization

CrowderGulf President:
Mrs. Ashley Ramsay-Naile, President of CrowderGulf, has the ultimate responsibility for Quality Management in the delivery of Disaster Projects. She is responsible for ensuring the effectiveness of the Quality Control Program throughout the life cycle of the Project.

Operations Manager (OM) / Director of Operations:
The Operations Manager represents CrowderGulf in all matters pertaining to project requirements. This includes the responsibility for ensuring the effectiveness of the Quality Control Program and Safety & Health Program throughout the project delivery process. The OM has full authority to make all decisions necessary on behalf of CrowderGulf. This person has direct access to Mrs. Ramsay-Naile at all times.

Additional Responsibilities of the Operations Manager, if required / requested:
- Managing and allocating personnel and subcontractor resources.
- Addressing unsatisfactory performance in quality management (or other areas) with employee or subcontractors.
- Representing CrowderGulf in contacts with Client, Federal, State, and Local Agencies.
- Ensuring the resolution of any quality management issues presented by the Quality Control Manager (QCM).
- Ensuring the resolution of any safety and health issues presented by the Senior Safety and Health Manager.
- Ensuring all required submittals and documentation are prepared completely and delivered timely to Client.

Quality Control Manager (QCM):

The QCM will usually be the field Project Manager who has the responsibility for ensuring the effective implementation of CrowderGulf's Quality Control Plan during the life of the project. The QCM is also responsible for identifying quality management needs not addressed in the Quality Control Plan and acting to adequately address those needs. The QCM serves as the primary Quality Manager providing technical advice to the Operations Manager and all Quality Control Staff. The QCM has immediate access to the OM for all matters pertaining to Quality Management.

The QCM has the authority to remove personnel, replace personnel, or reassign duties of personnel in situations of noncompliance with our quality management procedures or standards to include the Accident Prevention Plan for this project.

Additional Responsibilities of the Quality Control Manager (QCM), if required / requested:

- Serve as the "Champion" for Quality in this Project: promote the concept of "Clean As You Go" throughout the debris removal process.
- Ensure all pre-work plans, submittals, and documentation have been submitted to the Client and approved in advance of work or within the time specified by the Client.
- Ensure all Preparatory Inspections are accomplished and documented for all new tasks and definable features of work.
- Ensure the Initial Phase Inspections are conducted appropriately and documented by the Quality Control Area Manager*, the Quality Control Sector Manger*, the Quality Control Site Representative*, or as appropriate the Quality Control specialized personnel*.
- Ensure the completeness and effectiveness of follow-up inspections.
- Identify and facilitate any specialized quality control inspections or testing necessary.
- Ensure the effectiveness and documentation of the "Closeout Inspection" process.
- Ensure compliance with contract plans and specifications.
- Ensure compliance with FEMA debris eligibility criteria.

These positions will only be filled if dictated by the size of disaster

Quality Control Site Representative (QCSR) if requested and/or dictated by size of disaster:

The responsibilities of the Quality Control Site Representatives are assigned to CrowderGulf / subcontractor Foremen. These individuals are the first level crew supervisors. Each QCSR is normally responsible for no more than three debris crews. Assignments are made ensuring a QCSR is immediately available to each crew with no more than five-minute response time. One or more QCSRs are assigned to each Debris Storage and Reduction Site, depending on the size, operation schedule, and requirements for each site. This person is responsible for ensuring the crew's work complies with the Quality Control Plan, Accident Prevention Plan, and applicable FEMA eligibility criteria. Technical support is obtained from the QCM.

Additional Responsibilities of the Quality Control Site Representative, if requested / required:

- Schedule, coordinate, communicate, and document all inspections and tests as prescribed by the Three Phased Control Process.
- Ensure Daily Quality Control Reports are complete, accurate, and submitted to the CQSM in a timely manner.
- Monitor crew strength, crew type, and crew distribution for efficiency and effectiveness.
- Make recommendations to the QCSM for adjustments as needed to improve operations.
- Ensure inspection of work areas ahead of crews documenting existing infrastructure damages, safety hazards, applicable damages to private property, etc.; accomplishes this as a part of the Initial Phase Inspection; document findings on the Initial Phase Inspection Record.
- Documents, photographs, records, and reports any damage to infrastructure, private property, utilities, etc. occurring during the work process.
- Reports to QCSM any unresolved issues, concerns or situations not complying with the Quality Control Plan, accident Prevention Plan, or FEMA eligibility criteria.
- Stops work as needed to gain compliance.

Training

One of CrowderGulf's keys to quality success is to train and educate staff at all levels to perform their tasks correctly and safely. This value is implemented throughout the organization to include all internal and subcontractor staff in task specific technical and safety training. CrowderGulf's Management and Supervisory Teams are trained in the use and implementation of the Company Quality Control Plan and in the procedures and forms used for tracking.

Training topics typically included in CrowderGulf Quality Control Plans:

- **Hazard Identification** – Overhead power lines, downed power lines, gas cylinders in debris piles, Household Hazardous Waste (HHW) Identification and segregation, Hazardous Toxic and radiological Waste 9HTRW) identification and reporting procedures.
- **Reduction and Disposal Site Safety** – Addressing all aspects of the safe operation and management of these sites, such as equipment safety, area traffic safety, safe dumping procedures, dust control, burn safety, etc.
- **Curb Side Work and Traffic Safety** – Traffic control flagging, working on busy streets, work zone safety, trimming loads, safe tailgates, personal protective equipment use and care, debris segregation and sorting at curbside, protecting infrastructure and private property during debris removal operations, etc.
- **Private Property Debris Removal** – Procedures, checks, requirements, and documentation required before and after private property debris removal
- **Form and Report Preparation** – Procedures and requirements for accurately preparing forms and reports specified by the Quality Control Plan and Accident Prevention Plan to include the Site Safety and Health Plan(s)
- **FEMA Debris Eligibility Criteria** –Training for all quality control staff and for the crews includes specific FEMA debris eligibility criteria. Should this Criteria change during the project all quality control personnel and debris crew personnel are retained to maintain a current knowledge and understanding of the criteria.
- **Operation Quality Standards** – The task specific standards for quality we expect our crews to achieve.
- **Business Relationships and Ethics** – This is an important segment of our training that addresses expectations and standards for maintaining a professional relationship with our Clients. Required standards include honesty and integrity (ethics), responsible stewardship of tax dollars, and professionalism in all we do
- **"Clean As You Go" Policy** – Cleaning each area thoroughly so as not to leave any remaining debris

Quality Standards

Quality Standards are identified and documented for each definable feature of work. These standards are developed to facilitate their use in evaluating our performance in the delivery.

These standards are unique to each major definable feature of work and some are operationally specific. Most unique standards are identified and documented in the pre-work checklists used during the Preparatory and Initial Phase Inspections. To illustrate the concept and use of quality standards in our Quality Control Program, we offer the following examples. Please note that the lists below are only examples and not considered complete lists of Quality Standards in a typical debris operation:

Examples of Quality Standards for: ***Initial Emergency Clearing and Debris Removal, if required***

- Fully equipped crew operational within 24-48 hours.
- Pre-work safety checks of equipment and work site completed.
- Crew members trained in the use of equipment.
- 100% use of appropriate personal protective equipment (PPE).
- Tracking and accounting for hourly equipment accomplished accurately and submitted in a timely manner.
- Crew assignments and movement coordinates and approved by client.

Examples of Quality Standards for: ***Curbside Debris Removal***

- Multiple fully equipped crews operational within 24-48 hours. Number of Crews depends on size of actual event.
- Pre-work safety checks of equipment and work site completed.
- Crew members trained in the use of equipment.
- 100% use of appropriate personal protective equipment.
- Crew assignments and movement coordinated and approved by client.
- Debris appropriately sorted and segregated at curbside before loading.
- Loaded debris trucks routed to nearest debris storage or disposal site.
- Debris crews only handling debris complying with FEMA eligibility Criteria.
- Loads trimmed before leaving load site.

Examples of Quality Standards for: ***Debris Reduction, Storage or Disposal Site Management***

- Site design meets or exceeds prescribed design criteria for features such as traffic flow, tower requirements, safety zones, level dumping areas, toilet facilities, and storage of Household Hazardous Waste, "e-waste," Freon containing appliances, etc.
- Debris hauling containers have sideboards repaired as soon as damage occurs or they are re-measured.
- Reduction operations meet prescribed production criteria.
- Site closure complies with all regulatory requirements, lease terms, and best management practices.

Debris Management

The Quality Control Manager (QCM) is responsible for ensuring that deficiencies are reported at all levels of our quality management organization. The QCM is also responsible for ensuring the deficiencies reported are tracked, resolved or corrected promptly, analyzed for trends, and appropriate procedures or policies are implemented to prevent reoccurrence.

Subcontractor and Company crews not complying with our prescribed quality standards receive written documentation of non-compliance and corrective action requirements as soon as the non-complying action is discovered. This is documented in the appropriate daily reports. Repeat occurrences of non-compliance results in positive action by our Quality Management team to retrain, reassign, or remove the offending crew.

Each deficiency is documented and assigned a "correction period." This "correction period" may be '*immediately*,' for safety deficiencies that place people or equipment at risk. The prescribed correction period may be "*before the next day's operation*," for deficiencies in process or procedure but that do not place personnel or equipment at risk. Failure to complete the necessary corrections within the "correction period" results in the equipment, crew, or subcontractor receiving a "**Stop Work Notice**" until the prescribed corrections are completed. Repeated deficiencies indicating an intentional disregard for our quality standards are not tolerated. Individuals, crews, or subcontractors disregarding the Quality Standards and Health Safety Standards are terminated. **CrowderGulf quality standards are not negotiable!**

Damages to Infrastructure and Private Property

Throughout all three phases of our Quality management process, we identify, mark, document, and re-inspect infrastructure improvements and private property features vulnerable to damage in the debris removal, transportation, and reduction processes. Zero damage is our goal. When damages do occur, we have an established process for implementing the appropriate corrective action.

Synopsis of the CrowderGulf Damage Resolution Process:

- The damage is identified, documented in daily Quality Control Report, photographed, and initial fact finding occurs.
- Copies of reports and all information turned over to the CrowderGulf staff member assigned damage resolution responsibilities.
- If facts reveal damage was caused by a CrowderGulf crew or subcontractor, that crew or subcontractor is provided the opportunity to repair, replace or settle the damage to the satisfaction of the owner (release of liability from owner required).

- An amount of money adequate to cover costs of repairs is withheld from the appropriate subcontractor payment until repair is completed by that subcontractor or as a result of CrowderGulf action, monies are not released until a release of liability is obtained from the owner.
- A member of the CrowderGulf Administrative Team, typically our Safety Manager is designated as the "point of contact" for damages; all personnel are provided this individual's name and contact information to pass out to those making claim for damage resolution.

Documentation and Reporting

The Quality Control Manager (QCM) has the responsibility to ensure prompt delivery of accurate and complete daily reports. The QCM certifies and delivers to the Client and/or designees a report on the Quality Control Activities for the previously agreed upon time period. Periods of no work are documented on the first report following the no work period. CrowderGulf daily reports may include, at a minimum, the following information:

- A complete list of subcontractor names and assigned areas of responsibility
- Work performed each day by location, description of work, and crew/subcontractor performing the work
- Copies of any and all test reports or control activity reports generated during the reporting period.
- Any noted deviations from plans/specifications along with the documentation of instructions given or received relative to the deviation(s)
- All production data pertaining to the volume of material by debris category removed from curbside, reduced, recycled, temporarily stored, and deposited at final disposal site.

Financial Capability

Financial strength is one of the most important aspects for Polk County to consider when selecting a debris contractor. Following a major disaster, the County's financial burdens could be substantial. It is important to have a financially strong disaster-experienced contractor, such as CrowderGulf, that will work to get the job completed, regardless of any delays in invoice payments.

CrowderGulf's financial stability is solid and reliable, and we have established an excellent line of credit with our financial institution. We have always paid our subcontractors and personnel weekly and met all financial obligations without interruption. Over the years, CrowderGulf has paid millions of dollars before receiving any payments. CrowderGulf's long time commitment to pay subcontractors weekly has allowed us to attract the most experienced and well-equipped subcontractors in the nation.

CrowderGulf has had extensive experience working disasters and is personally aware that many municipalities are not financially prepared to handle the cost of a major recovery effort. We understand that it takes time to work through the bureaucracy and obtain funding. Consequently, CrowderGulf's position has always been one of patience with our clients as they endeavor to meet our invoices.

AGGREGATE BONDING CAPACITY	**$ 1,000,000,000**
SINGLE BONDING CAPACITY	**$ 250,000,000**
OTHER AVAILABLE FUNDING	**$ 150,000,000**

Insurance

CrowderGulf maintains ***all required insurances*** such as General Liability, Personal Injury, Workers Compensation, Automobile/Equipment Liability, as well as Maritime Insurance. Gray Insurance Company of Metairie, Louisiana provides this insurance coverage. *See Insurance Certification Sample attached.*

Equal Opportunity Employer

CrowderGulf is an ***Equal Opportunity Employer***. It is our policy to provide employment and work process free of any unlawful discrimination. We will promote the value of a diverse work force, which fosters fair treatment of all individuals based on knowledge, skill, ability and performance.

Drug Free Workplace

CrowderGulf is a participant in the ***National Drug Free Workplace Program***. Our policy prohibits drug distribution, possession or use while in the employment of CrowderGulf. This policy applies to all subcontractors and/or consultants that support or assist in any work conducted. Employee training, counseling and/or employee assistance programs bolster the drug free policy.

Litigation Summary

CrowderGulf strives to maintain the utmost integrity and reputation in this industry. We have been very successful over the many years we have been in business but as any company can attest, being in business does allow a certain amount of exposure.

CrowderGulf has no open lawsuits or litigation. In addition, the most current Dun & Bradstreet Report for CrowderGulf identifies the total number of suits, liens, judgments and bankruptcy proceedings as zero. Due to our diligent efforts, we have been involved in very few litigation cases, none of any significance.

Code of Business Ethics

In mid-year of 2000, CrowderGulf adopted a written ***Code of Business Ethics*** that applies to all employees with special responsibilities on Foremen, Supervisors and Managers. The ethics program is in four parts: 1) The Ethic Logic; 2) Ethical Standards; 3) Ethics Policy; and 4) Ethics Training. The policy and standards are equally weighted on employees, contractors, subcontractors and consultants. *Our ethics plan is available upon request.*

Criminal Convictions

CrowderGulf has never had any Criminal Convictions against CrowderGulf, company owners or officers.

Penalties

CrowderGulf has never been terminated or debarred from a Contract.

Conflict of Interest

CrowderGulf nor its ownership, officers, management or staff have a conflict of interest to disclose with the County at this time.

RE: CrowderGulf Joint Venture, Inc.
CrowderGulf, LLC
Status of Bondability

To Whom It May Concern:

Sterling Seacrest Pritchard is proud to represent CrowderGulf Joint Venture, Inc and CrowderGulf, LLC. We consider them to be a premier contractor in their field, and we do not hesitate to recommend them for your project needs.

Travelers Casualty and Surety Company of America has an A.M. Best rating of "A++, XV" and provides a bonding program to CrowderGulf Joint Venture, Inc. and CrowderGulf, LLC with single bond limits up to $250,000,000 and an aggregate program of $1,000,000,000. These limits are not to be construed as maximums but are established to handle the daily needs of our client.

As always, Travelers Casualty and Surety Company of America reserves the right to perform standard underwriting at the time of any bond request. This includes, but will not be limited to, the acceptability of the contract documents, bond forms and project financing. We assume no liability for any reason if we do not execute the bonds as requested. This letter is not an assumption of liability, nor should it be considered a bid, payment, or performance bond. If you should have any questions, please do not hesitate to contact us.

Sincerely,

Sterling Seacrest Pritchard

PATHWAY
INSURANCE GROUP

RE: CrowderGulf LLC & CrowderGulf Joint Ventures, Inc.

To Whom It May Concern:

Pathway Insurance Group handles all insurance for CrowderGulf. The current coverages and Limits carried by CrowderGulf are some of the highest in their industry and have been vetted by risk managers, municipalities, and other organizations throughout the country. We believe these limits are reasonable considering the scope of work performed by CrowderGulf. The Insured also does an excellent job with its subcontractor program and vetting subcontracts and insurance limits maintained by their subcontractors. We are also in constant communication with the leadership at CrowderGulf regarding the state of the insurance marketplace and their activations.

However, in the event of an activation that warrants higher limit requirements, additional limits are readily available to CrowderGulf in the marketplace within 24-48 hours from our current insurance carriers as well as others in the market.

I have attached a sample of their current limit of coverage for your convenience. Please feel free to reach out to me regarding any questions related to the insurance for CrowderGulf.

Sincerely,

Robby Farmer
Vice President
Pathway Insurance Group LLC

CROWDER GULF

Tab 7. Surveys of Past Performance

Polk County, FL

RFP 26-011 for Disaster Debris Removal Services

EXHIBIT 1
DETAILED INSTRUCTIONS ON HOW TO PREPARE AND SEND PERFORMANCE SURVEYS

The objective of this process is to identify the past performance of the Contractor submitting a proposal package. This is accomplished by sending survey forms to past customers. The customers should return the forms directly to the Contractor. The Contractor is to include all surveys in their proposal package.

Sending the Survey

The surveys shall be sent to all clients for whom the Contractor has identified under Tab 4. Surveys should correlate to all projects identified under Tab 4.

If more surveys are included, Procurement will only use those identified under Tab 4.

1. The Contractor shall complete the following information for each customer that a survey will be sent

CLIENT NAME	Name of the company that the work was performed for (i.e. Hillsborough County).
FIRST NAME	First name of the person who will answer customer satisfaction questions.
LAST NAME	Last name of the person who will answer customer satisfaction questions.
PHONE NUMBER	Current phone number for the reference (including area code).
EMAIL ADDRESS	Current email address for the reference.
PROJECT NAME	Name of the project (Debris Removal Services for Hillsborough County 2024), Etc.
COST OF SERVICES	Cost of services ($3,000,000)
DATE COMPLETE	Date when the services were completed. (i.e. 5/31/2024)

2. The Contractor is responsible for verifying that their information is accurate prior to submission for references.

3. The survey must contain different services/projects. You cannot have multiple people evaluating the same job. However, one person may evaluate several different jobs.

4. The past projects can be either completed or on-going.

5. The past client/owner must evaluate and complete the survey.

Preparing the Surveys

1. The Contractor is responsible for sending out a performance survey to the clients that have been identified under Tab 4. The survey can be found on the next page.
2. The Contractor should enter the past clients' contact information, and project information on each survey form for each reference. The Contractor should also enter their name as the Contractor being surveyed.
3. The Contractor is responsible for ensuring all references/surveys are included in their submittal under Tab 7
4. Polk County Procurement may contact the reference for additional information or to clarify survey data. If the reference cannot be contacted, there will be no credit given for that reference.

RFP # 26-011, Disaster Debris Removal Services

Addendum # 6

Question 1: Page 29 of the Solicitation indicates that hourly rates for labor may be increased by the Procurement Director after the contract has been in place for a minimum of 12 months. Can the County confirm that the unit rates may also be increased?

Answer 1: The hourly rates for labor have been removed, please see the FTP Site for "RFP 26-011, Addendum #6, Revised Attachment B". Yes, the unit rate may be increased by the Procurement Director after the contract has been in place for a minimum of 12 months.

Question 2: Regarding the evaluation of the Pricing, does the County intend on adding up all unit price line items to get a total figure to compare against other proposer's or will there be estimated quantities assigned to calculate a total extended price?

Answer 2: A "Revised Attachment "B", Compensation Schedule" has been provided on the FTP Site. See the revised "Tab 3, Compensation Schedule below.

Question 3: If quantities are going to be assigned, what will they be?

Answer 3: Quantities are not being assigned. Refer to Answer 2 above.

Question 4: Regarding the evaluation of the hourly pricing, how does the County intend on weighing the hourly line items?

Answer 4: Refer to Answer 2 above.

Question 5: Will all fees for both the unit rates and the hourly rates be totaled as one figure to determine the total price for evaluation? (We would like the exact methodology evaluators are required to use to determine which price proposal will receive the Maximum Points)?

Answer 5: The hourly rates have been removed from Attachment "B". Refer to Answer 2 above.

Question 6: Can the County please confirm your pre-authorized TDSR locations?

Answer 6: See Facility List on *next page…*

RFP # 26-011, Disaster Debris Removal Services
Addendum # 6

SIMERS YOUNG DDMS	70 FLORIDA CITRUS BLVD

Revision
RFP Package, Tab 3 – page 22-23

Tab 3, Compensation Schedule (5 Points)
Proposers shall complete the compensation schedule included as Attachment B. For items not listed, the County will only pay the FEMA rates.

The unit pricing may be increased by the Procurement Director, or designee, after the contract has been in place for a minimum of 12 months, when it is in the best interest of the County. Increases will be determined by the appropriate price index as approved by the Procurement Director or Designee. No Board action will be necessary for unit price increases.

The Proposer with the lowest total cost will be allocated 5 points. Each additional Proposers cost point allocation will be calculated based upon their relative cost difference from the lowest Proposer.

RFP # 26-011, Disaster Debris Removal Services

Addendum # 4

Question 1: If this is a term contract subject to renewal, what is the maximum number of option periods?
Answer 1: The term is 5 years from the effective date of the agreement.

Question 2: Has the current contract gone full term?
Answer 2: The current agreements were set to expire on February 15, 2026, but have been extended and will remain in place until the new agreements are in effect.

Question 3: Have all options to extend the current contract been exercised?
Answer 3: The agreements may extend upon Board approval.

Question 4: Who is the incumbent, and how long has the incumbent been providing the requested services?
Answer 4: The current incumbents are AshBritt, Inc. as the primary, Crowder-Gulf Joint Venture, Inc. as the secondary, and Ceres Environmental Services, Inc. as the tertiary. These agreements have been in place since February 16, 2021.

Question 5: To what extent will the location of the bidder's proposed location or headquarters have a bearing on any award?
Answer 5: There are no points associated with the proposer's location or headquarters.

Question 6: What is the required onsite response time?
Answer 6: Immediately after Impact.

Question 7: What is the total size or geographic scope of the service area?
Answer 7: The estimated geographic area 2500 square miles.

Question 8: What is the total mileage of roads within the scope of the service area?
Answer 8: Please see the response to Question 7 above.

Question 9: Are any specific professional credentials required to qualify for the contract?
Answer 9: The vendor must demonstrate significant professional expertise in hurricane response, mitigation, and recovery services including proven experience working in post – storm environments.

Question 10: Will the resulting contract include a guaranteed minimum payment to the vendor?
Answer 10: There is no guaranteed minimum payment. The successful vendor will be paid in accordance with the Price Sheet finalized with agreement.

Question 11: Are there any superseding prior agreements that may impact this contract?
Answer 11: No.

Question 12: When/what was the most recent event that precipitated the activation of the existing or previous contract?
Answer 12: Hurricane Milton 2024.

RFP # 26-011, Disaster Debris Removal Services

Addendum # 4

Question 13:	Approximately how many cubic yards of debris were collected from the most recent event?
Answer 13:	1 million (Vegetative & C & D)
Question 14:	What estimated or actual dollars were paid to the incumbent(s) after the most recent event?
Answer 14:	Estimated $16,200,000.
Question 15:	How many times have the incumbent's services been utilized in the previous five years?
Answer 15:	Two (2) Hurricane Events
Question 16:	Please reconfirm the due date for this procurement by providing it in response to answers to questions. 12.31 is New Year's Eve?
Answer 16:	See above, proposal receiving date extension.
Question 17:	If there was a previous solicitation for these services, what was its title, number, release date, and due date?
Answer 17:	RFP 20-298, Disaster Debris Removal. Released September 3, 2020, and opened October 14, 2020.
Question 18:	Why has this bid been released at this time?
Answer 18:	The current agreements were set to expire on February 15, 2026, but have been extended and will remain in place until the new agreements are in effect.
Question 19:	When is the anticipated award date?
Answer 19:	The agreement is anticipated to be executed in April or May 2026.
Question 20:	Are bidders permitted to deviate in any way from any manner of quoting fees you may be expecting? For example, if there is a pricing page in the RFP, can bidders submit an alternate fee structure? If there is no pricing page in the RFP, do you have any preference for how bidders should quote fees or can bidders create their own pricing categories?
Answer 20:	Please use the pricing sheet provided in the RFP. Negotiations on alternate pricing can be made at level 4 of the elevation.
Question 21:	Please describe your level of satisfaction with your current or recent vendor(s) for the same purchasing activity, if applicable?
Answer 21:	Polk County was satisfied with the current vendor.
Question 22:	Please provide the names of selection committee members?
Answer 22:	John Bohde, Deputy County Manager Michael Teate, Roads & Drainage Gloria Reyes, Roads & Drainage Ricky Norris, Roads & Drainage Darrell Johnson, Supplier Diversity

RFP # 26-011, Disaster Debris Removal Services

Addendum # 4

Question 23:	Please provide the date, time, and location when the evaluation committee meeting will be held to evaluate proposals?
Answer 23:	All meetings will be held at Polk County Administration Building located at 330 W Church St, Bartow FL 33830, on the 4th floor. The dates and times are proposed as follows: 1st Meeting – February 16, 2026, at 10:00am (Conference Room 413) 2nd Meeting – March 2, 2026, at 9:00am (Conference Room 413) 3rd Meeting – March 24, 2026, at 9:00am (Conference Room 407)
Question 24:	Where will the evaluation committee meeting notice be posted?
Answer 24:	Please visit the Procurement website at: https://www.polkfl.gov/business/procurement/.
Question 25:	Where will the recommendation for award be posted?
Answer 25:	Please visit the Procurement website at: https://www.polkfl.gov/business/procurement/.
Question 26:	Will the recommendation for award be emailed to all respondents (awardees and non-awardees)?
Answer 26:	Yes.
Question 27:	Can the County confirm if the recommendation for award will be presented to the BOCC?
Answer 27:	Yes.
Question 28:	If the County schedules interviews after the written evaluation has been completed, is the written evaluation score compiled within the interview score to determine final ranking?
Answer 28:	No. Please see "Elevation Level 3" in RFP Package, page 32.
Question 29:	Page 18-Tab 1. Introduction. Please confirm whether *this is or is not* part of the scoring criteria?
Answer 29:	There are no points associated with Tab 1.
Question 30:	Page 18 – Tab 2. of the RFP indicates that Financial Reports are not part of the scoring Criteria. Having the Financial Capacity to fund a project for several months without receiving payment, but still paying your subcontractors, is extremely important in this industry. Would the County consider adding Financial Reports as part of the scoring criteria?
Answer 30:	No.
Question 31:	Page 21 of the Solicitation states that the audited financial reports shall be submitted in a separate envelope and must be marked in the left-hand corner on the outside of the envelope as follows: Can the County confirm that it does not want hard copies for Tab 2 and that electronic submission of these documents is acceptable?
Answer 31:	Electronic submissions through the County's Kiteworks would be acceptable.

RFP # 26-011, Disaster Debris Removal Services

Addendum # 4

Question 32: The County has identified 7 Tabs to be electronically submitted. However, none of those tabs indicate where the required forms should be included. Can the County add Tab 8 for required forms?

Answer 32: The required forms may be added to Tab 1 or in a separate Tab 8.

Question 33: For the Draft Agreement, can the County confirm that no sections of this agreement should be filled out and submitted with our proposal, including pages 91 and 92?

Answer 33: Do not fill in the agreement. The draft agreement is a sample of what the agreement will be with the successful vendors.

Question 34: Does the County want the Affidavit Regarding the Use of Coercion for Labor or Services on page 93 filled out, signed, and submitted with our proposal?

Answer 34: The Affidavit Regarding the Use of Coercion for Labor form does not need to be submitted with the submittal. It will be required at the time the agreement is carried out with a successful vendors.

Question 35: Can the County please confirm if you have pre-identified Final Disposal Locations (FDS)?

Answer 35: Yes, the county has multiple sites throughout the county and receives pre-authorization every year in May or June.

Question 36: When was the last time the County had a contract activation for Debris Removal? How many CYs were removed?

Answer 36: Please see above responses for Question 12 and 13.

Question 37: Has the County determined which landfill(s) can be used? If so, please provide locations?

Answer 37: 10 Environmental Loop S, Winter Haven, FL 33880

Question 38: Will annual contract price increases based on Consumer Price Index (CPI) be allowed?

Answer 38: CPI may be used to determine an annual increase.

Question 39: Can the County provide which contractor held the previous or holds the current contract for the services requested in this solicitation with pricing?

Answer 39: Please see the information provided on the FTP site through Addendum 1.

Question 40: Can the County provide the address for their Emergency Operations Center?

Answer 40: 1890 Jim Keene Blvd, Winter Haven, FL 33880.

RFP # 26-011, Disaster Debris Removal Services

Addendum # 4

Question 41:	How often can we invoice?
Answer 41:	The monitor will review the invoices from the debris contractor to ensure they are correct and if deemed correct then the invoice will be submitted to Polk County.
Question 42:	Does the County have a monitoring firm contracted? If so, which monitoring firm?
Answer 42:	Monitoring services are currently being solicited at the same time as this RFP 26-012.

Drug-Free Workplace Form

(Submittal Page)

The undersigned vendor in accordance with Florida Statue 287.087 hereby certifies that, (Name of the Business): CrowderGulf Joint Venture, Inc. does:

1. Publish a statement notifying employees that the unlawful manufacture, distribution, dispensing, possession or use of a controlled substance is prohibited in the workplace and specifying the actions that will be taken against employees for violations of such prohibition.
2. Inform employees about the dangers of drug abuse in the workplace, the business's policy of maintaining a drug-free workplace, any available drug counseling, rehabilitation programs, employee assistance programs and the penalties that may be imposed upon employees for drug abuse violations.
3. Give each employee engaged in providing the commodities or contractual services that are under this RFP a copy of the statement specified in subsection (1).
4. In the statement specified in subsection (1), notify the employees that, as a condition of working on the commodities or contractual services that are under this RFP, the employee will abide by the terms of the statement and will notify the employer of any conviction of, plea of guilty or nolo contendere to, any violation of Chapter 1893 or of any controlled substance law of the United States or any state, for a violation occurring in the workplace no later than five (5) days after such conviction.
5. Impose a sanction on or require the satisfactory participation in a drug abuse assistance or rehabilitation program, if such is available in the employee's community, by any employee who is so convicted.
6. Make a good faith effort to continue to maintain a drug-free workplace through implementation of this section.

As the person authorized to sign the statement, I certify that this firm complies fully with the above requirements.

EMPLOYMENT ELIGIBILITY VERIFICATION (E-VERIFY) CERTIFICATION
(Florida Statutes, Section 448.095)

PROJECT NAME: RFP 26-011 Disaster Debris Removal Services

The undersigned, as an authorized officer of the contractor identified below (the "**Contractor**"), having full knowledge of the statements contained herein, hereby certifies to Polk County, a political subdivision of the State of Florida (the "**County**"), by and on behalf of the Contractor in accordance with the requirements of Section 448.095, Florida Statutes, as related to the contract entered into by and between the Contractor and the County on or about the date hereof, whereby the Contractor will provide labor, supplies, or services to the County in exchange for salary, wages, or other remuneration (the "**Contract**"), as follows:

1. Unless otherwise defined herein, terms used in this Certification which are defined in Section 448.095, Florida Statutes, as may be amended from time to time, shall have the meaning ascribed in said statute.

2. Pursuant to Section 448.095(5), Florida Statutes, the Contractor, and any subcontractor under the Contract, must register with and use the E-Verify system to verify the work authorization status of all new employees of the Contractor or subcontractor. The Contractor acknowledges and agrees that (i) the County and the Contractor may not enter into the Contract, and the Contractor may not enter into any subcontracts thereunder, unless each party to the Contract, and each party to any subcontracts thereunder, registers with and uses the E-Verify system; and (ii) use of the U.S. Department of Homeland Security's E-Verify System and compliance with all other terms of this Certification and Section 448.095, Fla. Stat., is an express condition of the Contract, and the County may treat a failure to comply as a material breach of the Contract.

3. By entering into the Contract, the Contractor becomes obligated to comply with the provisions of Section 448.095, Fla. Stat., "Employment Eligibility," as amended from time to time. This includes but is not limited to utilization of the E-Verify System to verify the work authorization status of all newly hired employees, and requiring all subcontractors to provide an affidavit attesting that the subcontractor does not employ, contract with, or subcontract with, an unauthorized alien. The Contractor shall maintain a copy of such affidavit for the duration of the Contract. Failure to comply will lead to termination of the Contract, or if a subcontractor knowingly violates the statute or Section 448.09(1), Fla. Stat., the subcontract must be terminated immediately. If the Contract is terminated pursuant to Section 448.095, Fla. Stat., such termination is not a breach of contract and may not be considered as such. Any challenge to termination under this provision must be filed in the Tenth Judicial Circuit Court of Florida no later than 20 calendar days after the date of termination. If the Contract is terminated for a violation of Section 448.095, Fla. Stat., by the Contractor, the Contractor may not be awarded a public contract for a period of 1 year after the date of termination. The Contractor shall be liable for any additional costs incurred by the County as a result of the termination of the Contract. Nothing in this Certification shall be construed to allow intentional discrimination of any class protected by law.

Executed this 9th day of January, 20 26.

EQUAL EMPLOYMENT OPPORTUNITY

AFFIRMATIVE ACTION PROGRAM

This company is an equal employment opportunity employer. It is the policy of this company to assure that applicants are employed, and that applicants are treated during employment, without regard to their race, religion, sex, color, national origin, age, disability, veteran status, military obligations, genetic information or any other characteristics protected by law. Such action shall include: employment, upgrading, demotion, transfer; recruitment or recruitment advertising; layoff or termination; rates of pay or other forms of compensation; and selection for training, including apprenticeship, pre-apprenticeship, and/or on-the-job-training.

1. Publication and dissemination of this company's written policy of equal employment opportunity.
   A. Each employee is informed that we are an equal opportunity employer and where our policy is posted.
   B. Our policy is reviewed annually, or more frequently if required by contract, with all supervisory personnel.

2. Appointment of Equal Employment Officer charged with the responsibility of securing compliance and advising corporate Officials of progress.
   Equal Employment Officer: Mary G. White
   Office #: 251-478-6848
   Email: hr@crowdergulf.com

3. Notification of all recruitment sources that the company, as an equal opportunity employer, solicits referral of qualified applicants without regard to race, religion, sex, color, national origin, age, disability, veteran status, military obligations, genetic information or any other characteristics protected by law.

4. The upgrading and promotion of employees shall be made based on qualifications and ability without regard to race, religion, sex, color, national origin, age, disability, veteran status, military obligations, genetic information or any other characteristics protected by law.

5. We request from all employees, especially minorities and females, that they refer any qualified friends or relatives to us for employment.

6. All company facilities and activities shall be non-segregated.

7. All Advertisements for employment shall contain the statement, "We are an Equal Opportunity Employer".

8. We continuously monitor, control, evaluate, and obtain feedback in regard to the application of our Equal Employment Opportunity policy at all levels.

9. All personnel activities shall be monitored to ensure that this Equal Employment Opportunity policy is being carried out.

10. CrowderGulf complies with all federal and state laws and regulations regarding Equal Employment Opportunity.

11. In succession to the previous EEO Officer, effective Mary G. White was appointed EEO Officer for the company effective 8/15/2011. Any person who believes he or she has been discriminated against should direct their complaint to Mary G. White.

CERTIFICATIONS REGARDING DEBARMENT, SUSPENSION, PROPOSED DEBARMENT, AND OTHER RESPONSIBILITY MATTERS

For all awards, subawards, and contracts with certain parties that are debarred, suspended, or otherwise excluded from or ineligible for participation in Federal assistance programs and activities, the Offeror must complete and sign the following:

The Offeror certifies, to the best of its knowledge and belief, that-

(1) This contract is a covered transaction for purposes of 2 C.F.R. pt. 180 and 2 C.F.R. pt. 3000. As such the contractor is required to verify that none of the contractor, its principals (defined at 2 C.F.R. § 180.995), or its affiliates (defined at 2 C.F.R. § 180.905) are excluded (defined at 2 C.F.R. § 180.940) or disqualified (defined at 2 C.F.R. § 180.935).

(2) The contractor must comply with 2 C.F.R. pt. 180, subpart C and 2 C.F.R. pt. 3000, subpart C and must include a requirement to comply with these regulations in any lower tier covered transaction it enters into.

(3) This certification is a material representation of fact relied upon by Polk County, a political subdivision of the State of Florida (the "County"). If it is later determined that the contractor did not comply with 2 C.F.R. pt. 180, subpart C and 2 C.F.R. pt. 3000, subpart C, in addition to remedies available to the Florida Division Emergency Management, the County, and the Federal Government may pursue available remedies, including but not limited to suspension and/or debarment.

(4) The bidder or proposer agrees to comply with the requirements of 2 C.F.R. pt. 180, subpart C and 2 C.F.R. pt. 3000, subpart C while this offer is valid and throughout the period of any contract that may arise from this offer. The bidder or proposer further agrees to include a provision requiring such compliance in its lower tier covered transactions.

EXHIBIT "B"

APPENDIX A, 44 C.F.R. PART 18 – CERTIFICATION REGARDING LOBBYING

Certification for Contracts, Grants, Loans, and Cooperative Agreements

(To be submitted with each bid or offer exceeding $100,000)

The undersigned CrowderGulf Joint Venture, Inc. (Contractor) certifies, to the best of his or her knowledge, that:

1. No Federal appropriated funds have been paid or will be paid, by or on behalf of the undersigned, to any person for influencing or attempting to influence an officer or employee of an agency, a Member of Congress, an officer or employee of Congress, or an employee of a Member of Congress in connection with the awarding of any Federal contract, the making of any Federal grant, the making of any Federal loan, the entering into of any cooperative agreement, and the extension, continuation, renewal, amendment, or modification of any Federal contract, grant, loan, or cooperative agreement.

2. If any funds other than Federal appropriated funds have been paid or will be paid to any person for influencing or attempting to influence an officer or employee of any agency, a Member of Congress, an officer or employee of Congress, or an employee of a Member of Congress in connection with this Federal contract, grant, loan, or cooperative agreement, the undersigned shall complete and submit Standard Form- LLL, "Disclosure Form to Report Lobbying," in accordance with its instructions.

3. The undersigned shall require that the language of this certification be included in the award documents for all subawards at all tiers (including subcontracts, subgrants, and contracts under grants, loans, and cooperative agreements) and that all subrecipients shall certify and disclose accordingly.

This certification is a material representation of fact upon which reliance was placed when this transaction was made or entered into. Submission of this certification is a prerequisite for making or entering into this transaction imposed by 31, U.S.C. § 1352 (as amended by the Lobbying Disclosure Act of 1995). Any person who fails to file the required certification shall be subject to a civil penalty of not less than $10,000 and not more than $100,000 for each such failure.

The Contractor, CrowderGulf Joint Venture, Inc., certifies or affirms the truthfulness and accuracy of each statement of its certification and disclosure, if any. In addition, the Contractor understands and agrees that the provisions of 31 U.S.C. § 3801 *et seq.*, apply to this certification and disclosure, if any.

FEMA
DISASTER ASSISTANCE POLICY

I. TITLE: **Hazardous Stump Extraction and Removal Eligibility**

II. DATE: MAY 15 2007

III. PURPOSE:

Establish criteria used to reimburse applicants for removing eligible hazardous stumps from public or, where authorized, private property.

IV. SCOPE AND AUDIENCE:

The policy is applicable to all major disasters and emergencies declared on or after the date of publication. It is intended for all personnel involved in the administration and execution of the Public Assistance Program, including applicants.

V. AUTHORITY:

Sections 403 and 407 of the Robert T. Stafford Disaster Relief and Emergency Assistance Act, 42 U.S.C. 5121-5206, as amended.

VI. BACKGROUND:

Public Assistance regulations authorize reimbursement for the removal of debris from public and private land when it is in the public interest. Such removal is in the public interest when it is necessary to: eliminate immediate threats to life, public health and safety, or eliminate immediate threats of significant damage to improved public or private property; or to ensure economic recovery of the affected community to the benefit of the community at large. Trees that are uprooted during a disaster event such that all or part of their roots are exposed may pose an immediate threat to public health and safety.

VII. POLICY:

A. When a disaster event uproots a tree or stump (i.e., 50% or more of root ball is exposed) on a public right-of-way, improved public property or improved property owned by certain private nonprofit organizations, and the exposed root ball poses an immediate threat to life, public health and safety, FEMA may provide supplemental assistance to remove, transport, dispose, and provide fill for the root cavity of an eligible uprooted tree or stump. The Federal Emergency Management Agency (FEMA) will reimburse applicants reasonable costs for this type of work only when uprooted stumps are more than 24 inches in diameter (measured two feet from the ground), with the consensus of the Applicant and the State, and is approved in

advance by FEMA, using the attached Hazardous Stump Worksheet.

1. If it is necessary to remove an uprooted stump before it can be inspected by FEMA because it poses a threat that must be dealt with immediately, the applicant must submit documentation, to FEMA including photographs, that establishes its location on public property, specifics on the threat, stump diameter measured two feet up the trunk from the ground, quantity of material to fill the hole, and any special circumstances.

2. FEMA will reimburse applicants for extraction, transport and disposal of stumps with a diameter of 24 inches or smaller at the unit cost rate for regular vegetative debris, using the attached Stump Conversion Table, as such stumps do not require special equipment.

3. FEMA will reimburse applicants at the unit cost rate (usually cubic yards) for normal debris removal for all stumps, regardless of size, placed on the rights-of-way by others (i.e., contractors did not extract them from public property or property of eligible Private Non Profit organization). In such instances, applicants do not incur additional cost to remove these stumps because the same equipment that is used to pick up "regular" debris can be used to pick-up these stumps.

4. If an applicant incurs additional costs in picking up large stumps (over 24 inches in diameter) from rights-of-way, it should complete the Hazardous Stump Worksheet and present documentation to FEMA in advance for consideration.

5. Stumps with less than 50% of their root ball exposed should be cut flush at ground level and the cut portion included with regular vegetative debris.

6. Straightening or bracing of trees is eligible for reimbursement if it is less costly than removal and disposal. Applicant must provide a cost analysis showing cost effectiveness.

VIII. ORIGINATING OFFICE: Disaster Assistance Directorate (Public Assistance Division)

IX. SUPERSESSION: This policy supersedes Recovery Policy Number 9523.11, Hazard Stump Removal and Extraction Eligibility dated May 6, 2006.

X. REVIEW DATE: Three years from the date of publication.

David Garratt

Stump Conversion Table

Diameter to Volume Capacity

The quantification of the cubic yards of debris for each size of stump in the following table was derived from FEMA field studies conducted throughout the State of Florida during the debris removal operations following Hurricanes Charley, Frances, Ivan and Jeanne. The following formula is used to derive cubic yards:

$$\frac{[(\text{Stump Diameter}^2 \times 0.7854) \times \text{Stump Length}] + [(\text{Root Ball Diameter}^2 \times 0.7854) \times \text{Root Ball Height}]}{46656}$$

0.7854 is one-fourth Pi and is a constant.
46656 is used to convert cubic inches to cubic yards and is a constant

The formula used to calculate the cubic yardage used the following factors, based upon findings in the field:

- Stump diameter measured two feet up from ground
- Stump diameter to root ball diameter ratio of 1:3.6
- Root ball height of 31"

Stump Diameter (Inches)	Debris Volume (Cubic Yards)	Stump Diameter (Inches)	Debris Volume (Cubic Yards)

EVENT PERFORMANCE BOND

PERFORMANCE BOND

KNOW ALL MEN BY THESE PRESENTS: That _____, as Principal, and _____ as Surety, located at _____ (Business Address) are held and firmly bound unto Polk County, a political subdivision of the State of Florida, as Obligee, in the sum of Dollars ($_____) in lawful currency of the United States, for the payment whereof we bind ourselves, successors, and assigns, jointly and severally, firmly by these presents.

THE CONDITION OF THIS BOND is that if the Principal:

Promptly, faithfully, efficiently and fully performs all work, services, duties and obligations set forth and described in that certain purchase order dated _____, 20__ (the "Purchase Order") between Principal and Obligee for performance of debris removal at any County location arising from damage caused by a disaster event, at the times and in the manner prescribed in the Purchase Order; and

Pays Obligee all losses, damages (liquidated or actual), expenses, costs, and attorney's fees, including, without limitation, costs and attorney's fees on appeal, that Obligee sustains resulting directly or indirectly from any breach or default by Principal under the Purchase Order; and

Performs the guarantee of all work and materials furnished under the Purchase Order for the time specified therein; and

Satisfies all claims and demands incurred under the Purchase Order, and fully indemnifies and holds harmless the Obligee from all costs and damages which it may suffer by reason or failure to do so;

then the Surety shall have no obligation under this Performance Bond.

In the event that the Principal shall fail to perform any of the terms, covenants and conditions of the Purchase Order during the period in which this Performance Bond is in effect, the Surety shall remain liable to the Obligee for all such loss or damage (including reasonable attorney's fees and costs and attorney's fees on appeal) resulting from any failure to perform up to the amount of the sum stated above.

In the event that the Surety fails to fulfill its obligations under this Performance Bond, then the Surety shall also indemnify and hold the Obligee harmless from any and all loss, damage, cost and expense, including reasonable attorney's fees and costs for all trial and appellate proceedings, resulting directly or indirectly from the Surety's failure to fulfill its obligations hereunder. This paragraph shall survive the termination or cancellation of this Performance Bond.

The Surety, for value received, hereby stipulates and agrees that its obligations hereunder shall be direct and immediate and not conditional or contingent upon the Obligee's pursuit of its remedies against Principal, shall remain in full force and effect notwithstanding (i) amendments or modifications to the Purchase Order entered into by Obligee and Principal without the Surety's knowledge or consent (ii) waivers of compliance with or any default under the Purchase Order granted by Obligee to Principal without the Surety's knowledge or consent, or (iii) the discharge of Principal from its obligations under the Purchase Order as a result of any proceeding initiated under the Bankruptcy code of 1978, as the same may be amended, or any similar state or federal law, or any limitation of the liability or Principal or its estate as a result of any proceeding.

Any changes in or under the Purchase Order and compliance or non-compliance with any formalities connected with the Purchase Order or the changes shall not affect Surety's obligation under this Performance Bond. The Principal shall notify the Surety of all such changes.

Reference is hereby made to Section 255.05, Florida Statutes, and to the notice and time limitation provisions thereof.

RE: CERTIFICATE OF QUALIFICATION

The Department of Transportation has qualified your company for the type of work indicated below.

FDOT APPROVED WORK CLASSES:
DEBRIS REMOVAL (EMERGENCY)

Unless notified otherwise, this Certificate of Qualification will expire **6/30/2026.**

In accordance with Section 337.14(1), Florida Statutes, an application for qualification must be filed within (4) months of the ending date of the applicant's audited annual financial statements.

If the company's maximum capacity has been revised, it may be accessed by logging into the Contractor Prequalification Application System via the following link:
HTTPS://fdotwp1.dot.state.fl.us/ContractorPreQualification

Once logged in, select "View" for the most recently approved application, and then click the "Manage" and "Application Summary" tabs.

The company may apply for a Revised Certificate of Qualification at any time prior to the expiration date of this certificate according to Section 14-22.0041(3), Florida Administrative Code (F.A.C.), by accessing the most recently approved application as shown above and choosing "Update" instead of "View." If certification in additional classes of work is desired, documentation is needed to show that the company has performed such work.

All prequalified contractors are required by Section 14-22.006(3), F.A.C., to certify their work underway monthly in order to adjust maximum bidding capacity to available bidding capacity. You can find the link to this report at the website shown above.

Sincerely,

James E. Taylor II

Form **W-9**
(Rev. March 2024)
Department of the Treasury
Internal Revenue Service

Request for Taxpayer Identification Number and Certification

Go to *www.irs.gov/FormW9* for instructions and the latest information.

Give form to the requester. Do not send to the IRS.

Before you begin. For guidance related to the purpose of Form W-9, see *Purpose of Form*, below.

Print or type. See *Specific Instructions* on page 3.

1 Name of entity/individual. An entry is required. (For a sole proprietor or disregarded entity, enter the owner's name on line 1, and enter the business/disregarded entity's name on line 2.)

CrowderGulf Joint Venture, Inc.

2 Business name/disregarded entity name, if different from above.

3a Check the appropriate box for federal tax classification of the entity/individual whose name is entered on line 1. Check only **one** of the following seven boxes.

☐ Individual/sole proprietor ☑ C corporation ☐ S corporation ☐ Partnership ☐ Trust/estate

☐ LLC. Enter the tax classification (C = C corporation, S = S corporation, P = Partnership) . . . . .

Note: Check the "LLC" box above and, in the entry space, enter the appropriate code (C, S, or P) for the tax classification of the LLC, unless it is a disregarded entity. A disregarded entity should instead check the appropriate box for the tax classification of its owner.

☐ Other (see instructions)

4 Exemptions (codes apply only to certain entities, not individuals; see instructions on page 3):

Exempt payee code (if any)

Exemption from Foreign Account Tax Compliance Act (FATCA) reporting code (if any)

(Applies to accounts maintained outside the United States.)

3b If on line 3a you checked "Partnership" or "Trust/estate," or checked "LLC" and entered "P" as its tax classification, and you are providing this form to a partnership, trust, or estate in which you have an ownership interest, check this box if you have any foreign partners, owners, or beneficiaries. See instructions . . . . . ☐

5 Address (number, street, and apt. or suite no.). See instructions.

5629 Commerce Blvd E

Requester's name and address (optional)

6 City, state, and ZIP code

Mobile, AL 36619

7 List account number(s) here (optional)

Part I Taxpayer Identification Number (TIN)

Enter your TIN in the appropriate box. The TIN provided must match the name given on line 1 to avoid backup withholding. For individuals, this is generally your social security number (SSN). However, for a resident alien, sole proprietor, or disregarded entity, see the instructions for Part I, later. For other entities, it is your employer identification number (EIN). If you do not have a number, see *How to get a TIN*, later.

Note: If the account is in more than one name, see the instructions for line 1. See also *What Name and Number To Give the Requester* for guidelines on whose number to enter.

Social security number

			–			–				

or

Employer identification number

0	1	–	0	6	2	6	0	1	9

Part II Certification

Under penalties of perjury, I certify that:

1. The number shown on this form is my correct taxpayer identification number (or I am waiting for a number to be issued to me); and
2. I am not subject to backup withholding because (a) I am exempt from backup withholding, or (b) I have not been notified by the Internal Revenue Service (IRS) that I am subject to backup withholding as a result of a failure to report all interest or dividends, or (c) the IRS has notified me that I am no longer subject to backup withholding; and
3. I am a U.S. citizen or other U.S. person (defined below); and
4. The FATCA code(s) entered on this form (if any) indicating that I am exempt from FATCA reporting is correct.

Certification instructions. You must cross out item 2 above if you have been notified by the IRS that you are currently subject to backup withholding because you have failed to report all interest and dividends on your tax return. For real estate transactions, item 2 does not apply. For mortgage interest paid, acquisition or abandonment of secured property, cancellation of debt, contributions to an individual retirement arrangement (IRA), and, generally, payments other than interest and dividends, you are not required to sign the certification, but you must provide your correct TIN. See the instructions for Part II, later.

Sign Here | **Signature of U.S. person** Ashley Ramsay-Naile | **Date** 1/19/2026

General Instructions

Section references are to the Internal Revenue Code unless otherwise noted.

Future developments. For the latest information about developments related to Form W-9 and its instructions, such as legislation enacted after they were published, go to *www.irs.gov/FormW9*.

What's New

Line 3a has been modified to clarify how a disregarded entity completes this line. An LLC that is a disregarded entity should check the appropriate box for the tax classification of its owner. Otherwise, it should check the "LLC" box and enter its appropriate tax classification.

New line 3b has been added to this form. A flow-through entity is required to complete this line to indicate that it has direct or indirect foreign partners, owners, or beneficiaries when it provides the Form W-9 to another flow-through entity in which it has an ownership interest. This change is intended to provide a flow-through entity with information regarding the status of its indirect foreign partners, owners, or beneficiaries, so that it can satisfy any applicable reporting requirements. For example, a partnership that has any indirect foreign partners may be required to complete Schedules K-2 and K-3. See the Partnership Instructions for Schedules K-2 and K-3 (Form 1065).

Purpose of Form

An individual or entity (Form W-9 requester) who is required to file an information return with the IRS is giving you this form because they

EVENT PERFORMANCE BOND

PERFORMANCE BOND

KNOW ALL MEN BY THESE PRESENTS: That _____, as Principal, and _____ as Surety, located at _____ (Business Address) are held and firmly bound unto Polk County, a political subdivision of the State of Florida, as Obligee, in the sum of _____Dollars ($_____) in lawful currency of the United States, for the payment whereof we bind ourselves, successors, and assigns, jointly and severally, firmly by these presents.

THE CONDITION OF THIS BOND is that if the Principal:

Promptly, faithfully, efficiently and fully performs all work, services, duties and obligations set forth and described in that certain Disaster Debris Removal Services Agreement _____ (the "Agreement") dated_____ between Principal and Obligee for performance of debris removal at any County location arising from damage caused by _____, at the times and in the manner prescribed in the Agreement; and

Pays Obligee all losses, damages (liquidated or actual), expenses, costs, and attorney's fees, including, without limitation, costs and attorney's fees on appeal, that Obligee sustains resulting directly or indirectly from any breach or default by Principal under the Agreement; and

Performs the guarantee of all work and materials furnished under the Agreement for the time specified therein; and

Satisfies all claims and demands incurred under the Agreement, and fully indemnifies and holds harmless the Obligee from all costs and damages which it may suffer by reason or failure to do so;

then the Surety shall have no obligation under this Performance Bond.

In the event that the Principal shall fail to perform any of the terms, covenants and conditions of the Agreement during the period in which this Performance Bond is in effect, the Surety shall remain liable to the Obligee for all such loss or damage (including reasonable attorney's fees and costs and attorney's fees on appeal) resulting from any failure to perform up to the amount of the sum stated above.

In the event that the Surety fails to fulfill its obligations under this Performance Bond, then the Surety shall also indemnify and hold the Obligee harmless from any and all loss, damage, cost and expense, including reasonable attorney's fees and costs for all trial and appellate proceedings, resulting directly or indirectly from the Surety's failure to fulfill its obligations hereunder. This paragraph shall survive the termination or cancellation of this Performance Bond.

The Surety, for value received, hereby stipulates and agrees that its obligations hereunder shall be direct and immediate and not conditional or contingent upon the Obligee's pursuit of its remedies against Principal, shall remain in full force and effect notwithstanding (i) amendments or modifications to the Agreement entered into by Obligee and Principal without the Surety's knowledge or consent (ii) waivers of compliance with or any default under the Agreement granted by Obligee to Principal without the Surety's knowledge or consent, or (iii) the discharge of Principal from its obligations under the Agreement as a result of any proceeding initiated under the Bankruptcy code of 1978, as the same may be amended, or any similar state or federal law, or any limitation of the liability or Principal or its estate as a result of any proceeding.

Any changes in or under the Agreement and compliance or non-compliance with any formalities connected with the Agreement or the changes shall not affect Surety's obligation under this Performance Bond. The Principal shall notify the Surety of all such changes.

Reference is hereby made to Section 255.05, Florida Statutes, and to the notice and time limitation provisions thereof.

DISASTER DEBRIS REMOVAL SERVICES AGREEMENT (SECONDARY)

THIS AGREEMENT (the "Agreement") is entered into as of the Effective Date (defined in Section 1, below) by and between Polk County (the "County"), a political subdivision of the State of Florida, 330 W. Church Street, Bartow, Florida, 33830, and Looks Great Services of MS, Inc. (the "Contractor"), a Mississippi corporation, whose principal address is 1501 Highway 13 North, Columbia, MS 39429 and whose Federal Employer Identification Number is 27-4125328.

WHEREAS, the Contractor has considerable expertise in disaster debris removal services; and

WHEREAS, the County desires to retain the services of a competent and qualified Contractor to provide disaster debris removal services; and

WHEREAS, the County has solicited for these Contractor services via an advertised request for proposals ("RFP 26-011") and has received numerous responsive proposals thereto; and

WHEREAS, after review and consideration of all responsive proposals, the County intends to engage the Contractor to provide it the disaster debris removal services; and

WHEREAS, the Contractor remains agreeable to providing the County the Contractor services and represents that it is competent, qualified, capable and prepared to do so according to the terms and conditions stated herein.

NOW, THEREFORE, in consideration of the mutual understandings and covenants set forth herein, the County and the Contractor hereby agree, as follows:

1.0 Effective Date; Term

1.1 This Agreement shall take effect on the date (the "Effective Date") of its execution by the Chairman, Board of County Commissioners.

1.2 The term of this Agreement shall be for a five (5) year time period, commencing upon the Effective Date, unless otherwise sooner terminated as provided herein.

2.0 Contractor Services

2.1 The County does hereby retain the Contractor to furnish those services and to perform those tasks (collectively, the "Services") as further described in (i) the County's Request for Proposals RFP #26-011, to include all attachments and addenda, and (ii) the Contractor's responsive proposal thereto (collectively, (i) and (ii) are "RFP 26-011"), all of which are

incorporated into this Agreement by this reference. A complete copy of the Scope of Services section of RFP 26-011 and the Contractor's responsive proposal is attached as a composite **Exhibit "A"** and made a part of this Agreement.

2.2 Contractor shall perform the services described in the Scope of Services section of RFP 26-011, as those Services may be further specifically designated and authorized by the County in a separate written Conditional Notice to Proceed the County will deliver to the Contractor prior to the Contractor's commencement of the Services required in association with the County's clean-up and recovery from a particular disaster or emergency event. The form for the Conditional Notice to Proceed shall be substantially in the form provided on **Exhibit "E"** which is attached hereto and made a part of this Agreement.

2.3 The County will contact and coordinate with the Contractor prior to issuing a Notice to Proceed for a disaster or emergency event. The Contractor will provide the name(s) of the supervisor(s)\liaison officer who will be primarily responsible for the Contractor providing the required Services. Additionally, before the Notice-To-Proceed is issued the Contractor will deliver to the County a performance bond in the form provided on **Exhibit "D"** which is attached hereto and made a part hereof in an amount to be reasonably determined by the County but which will not be less than $1,000,000.00. The actual bond amount will be determined based upon the estimated costs of the Services required as a consequence of the particular disaster or emergency event.

2.4 Contractor acknowledges that the County has engaged a primary vendor to provide the Services described in RFP 26-011 should the County determine in its sole and absolute discretion that the Contractor may, is or will be unable to perform the full scope of work of a particular project within the time period the County requires all such work to be completed, and nothing stated herein provides the Contractor with the exclusive right to perform the Services.

3.0 Compensation

3.1 General

3.1.1 In consideration for it providing the Services, during the Agreement Term the County shall pay the Contractor a unit price that shall not exceed the amounts stated in **Exhibit "B"**, which is attached hereto and made a part of this Agreement. The Compensation Schedule identifies all items to perform billable services pursuant to this Agreement and the

associated amount the County will pay the Contractor for Services performed by those items. The County is not obligated to pay the Contractor a fee for any work performed or Services provided by items not listed on the Compensation Schedule. The unit prices may be increased by the Procurement Director following the one year anniversary of the Effective Date, when it is in the best interest of the County. Increases will be determined by the appropriate price index as approved by the Procurement Director. Equipment rates and hourly labor rates will be reimbursed at those rates approved by the Federal Emergency Management Agency ("FEMA") for any given year. No Board action will be necessary for unit price increase.

3.1.2 All the Contractor's invoices for payment must reference this Agreement and must be submitted using a form approved by the County Auditor.

3.1.3 The Contractor shall attach all appropriate cost substantiations to the invoice and shall deliver the invoices to:

Roads and Drainage Division
3000 Sheffield Road
Winter Haven, FL 33880
Attn:

3.1.4 The Contractor will clearly state "Final Invoice" on the Contractor's final/last billing for the Services rendered to the County. The Contractor's submission of a Final Invoice is its certification that all Services have been properly performed and all charges and costs have been invoiced to the County. This account will be closed upon the County's receipt of a Final Invoice. The Contractor hereby waives any charges not properly included on its Final Invoice.

3.1.5 The County's payment of the Final Invoice shall not constitute evidence of the County's acceptance of the Contractor's performance of the Service or the County's acceptance of any work.

3.1.6 All Contractor's invoices shall be accompanied by time and task records for all billable hours appearing on the invoice. Additional supporting documents may be requested by the County and, if so requested, shall be furnished by the Contractor to the County Auditor's satisfaction.

3.1.7 The Contractor's project manager or designated payroll officer is attesting to the correctness and accuracy of all charges and requested reimbursements stated in each invoice.

3.2 Reimbursable Expenses

3.2.1 The Contractor's requests for payment of "out-of-pocket" expenses eligible for reimbursement under the terms of this Agreement shall be reimbursed per the County's Reimbursable Schedule that is attached as **Exhibit "C"** and made a part of this Agreement. The Contractor's requests for payment shall include copies of paid receipts, invoices or other documentation acceptable to the County's Auditor. To qualify for reimbursement, the Contractor's documentation shall be sufficient to establish that the expense was actually incurred and necessary in the performance of the Services performed in accordance with this Agreement.

3.2.2 Reimbursable Expenses are the actual, pre-approved, expenses incurred directly in connection with the Contractor providing the Services.

4.0 Contractor's Responsibilities

4.1 The Contractor shall be responsible for the professional quality, accuracy, competence, methodology, and the coordination of all Services performed pursuant to this Agreement.

4.2 The County's review, approval, acceptance, or payment for any of the Contractor's Services shall not be construed to: (i) operate as a waiver of any rights the County possesses under this Agreement; or (ii) waive or release any claim or cause of action arising out of the Contractor's performance or nonperformance of this Agreement. The Contractor shall be and will always remain liable to the County in accordance with applicable law for any and all damages to the County caused by the Contractor's negligent or wrongful performance or nonperformance of any of the Services to be furnished under this Agreement.

5.0 Ownership of Documents

All analyses, reference data, bills, completed reports, or any other form of written instrument or document created or resulting from the Contractor's performance of the Services pursuant to this Agreement shall become the property of the County after payment is made to the Contractor for such instruments or documents.

6.0 Termination

6.1 The County may terminate this Agreement, in whole or in part, at any time, either for the County's convenience or because of the failure of the Contractor to fulfill its obligations under this Agreement, subject to the cure period provided in Section 26.0, by delivering written notice to the Contractor. Upon receipt of such notice, the Contractor shall:

6.1.1 Immediately discontinue all affected Services unless the notice directs otherwise, and

6.1.2 Deliver to the County all data, reports, summaries, and any and all such other information and materials of whatever type or nature as may have been accumulated by the Contractor in performing this Agreement, whether completed or in process.

6.2 Unless in dispute or subject to the County's right of set-off or other remedy, the Contractor shall be paid for Services actually rendered to the date of termination.

6.3 The rights and remedies of the County provided for in this Section 6 are in addition and supplemental to any and all other rights and remedies provided by law or under this Agreement.

7.0 No Contingent Fees

The Contractor warrants that it has not employed or retained any company or person, other than a bona fide employee working solely for the Contractor to solicit or secure this Agreement and that it has not paid or agreed to pay any person, company, corporation, individual or firm, other than a bona fide employee working solely for the Contractor, any fee, commission, percentage, gift, or other consideration contingent upon or resulting from award of or making of the Agreement. For the breach or violation of this provision, the County shall have the right to terminate the Agreement at its sole discretion, without liability and to deduct from the Agreement price, or otherwise recover, the full amount of such fee, commission, percentage, gift, or consideration.

8.0 Assignment

The Contractor shall not assign, transfer, or encumber this Agreement, or any interest herein, under any circumstances, without obtaining the prior written consent of the County, which consent may be withheld in the County's exercise of its reasonable discretion.

9.0 Professional Associates and Subcontractors

If the Contractor requires the assistance of any professional associates or subcontractors in connection with its providing the Services the Contractor must obtain the prior express written approval of the County, which the County may withhold in its discretion, before any such professional associate or subcontractor may perform any work for the County. If after obtaining the County's approval the Contractor utilizes any professional associates or subcontractors in the delivery of the Services, then the Contractor shall remain solely and fully liable to the County for

the performance or nonperformance of all such professional associates and subcontractors. The failure of a professional associate or subcontractor to timely or properly perform any of its obligations to the Contractor shall not relieve the Contractor of its obligations to the County under this Agreement.

10.0 Indemnification of County

Contractor, to the extent permitted by law, shall indemnify, defend (by counsel reasonably acceptable to County) protect and hold the County, and its officers, employees and agents harmless from and against any and all, claims, actions, causes of action, liabilities, penalties, forfeitures, damages, losses, and expenses (including, without limitation, attorneys' fees costs and expenses incurred during negotiation, through litigation and all appeals therefrom) whatsoever including, but not limited to, those pertaining to the death of or injury to any person, or damage to any property, arising out of or resulting from (i) the failure of Contractor to comply with applicable laws, rules or regulations, (ii) the breach by Contractor of its obligations under this Agreement, (iii) any claim for trademark, patent or copyright infringement arising out of the scope of Contractor's performance or nonperformance of this Agreement, or (iv) the negligent acts, errors or omissions, or intentional or willful misconduct, of Contractor, its professional associates, subcontractors, agents, and employees; provided, however, that Contractor shall not be obligated to defend or indemnify the County with respect to any such claims or damages arising out of the County's sole negligence. The provisions of this Section 10.0 shall survive the expiration or earlier termination of this Agreement.

11.0 Insurance Requirements

The Contractor shall maintain at all times the following minimum levels of insurance and shall, without in any way altering its liability, obtain, pay for and maintain insurance for the coverage and amounts of coverage not less than those set forth below. The Contractor shall provide the County original Certificates of Insurance satisfactory to the County to evidence such coverage before any work commences. The County shall be named as an additional insured on General and Automobile Liability policies. General Liability and Workers' Compensation policies shall contain a waiver of subrogation in favor of Polk County. The commercial General Liability Policy shall (by endorsement if necessary) provide contractual liability coverage for the contractual indemnity stated in Section 10, above. All insurance coverage shall be written with a company having an A.M. Best rating of at least the "A" category and size category of VIII. The

Contractor's self-insured retention or deductible per line of coverage shall not exceed $25,000 without the permission of the County. In the event of any failure by the Contractor to comply with the provisions of this Section 11, the County may, at its option, upon notice to the Contractor suspend Contractor's performance of the Services for cause until there is full compliance. Alternatively, the County may purchase such insurance at the Contractor's expense, provided that the County shall have no obligation to do so and if the County shall do so, the Contractor shall not be relieved of or excused from the obligation to obtain and maintain such insurance amounts and coverage.

Comprehensive Automobile Liability Insurance. $2,000,000.00 combined single limit of liability for bodily injuries, death and property damage resulting from any one occurrence, including all owned, hired, and non-owned vehicles.

Commercial General Liability. $4,000,000.00 combined single limit of liability for bodily injuries, death and property damage, and personal injury resulting from any one occurrence, including the following coverages:

Premises and Operations:

> Broad Form Commercial General Liability Endorsement to include Blanket Contractual liability (specifically covering, but not limited to, the contractual obligations assumed by the Firm); Personal Injury (with employment and contractual exclusions deleted); and Broad Form Property Damage coverage.

Independent Contractors:

> Delete Exclusion relative to collapse, explosion and underground; Property Damage Hazards; Cross Liability Endorsement; and Contractual liability (specifically covering, but not limited to, the contractual obligations assumed by the Firm)

Workers Compensation. The Contractor shall provide, pay for, and maintain workers compensation insurance on all employees, its agents or subcontractors as required by Florida Statutes.

Pollution Liability Insurance: $1,000,000 including pollution due to automobile operations.

Employer's Liability. $1,000,000.

12.0 Public Entity Crimes

The Contractor declares and warrants that neither the Contractor nor any of the Contractor's affiliates, as that term is defined in Section 287.133, Florida Statutes, are subject to the restrictions in Section 287.133, Florida Statutes, regarding the commission of a public entity crime. If during the term of this Agreement, the Contractor or any affiliate is convicted of a public entity crime or is otherwise prohibited from performing work for or transacting business with the County pursuant to Section 287.133, Florida Statutes, then the Contractor shall be in material default of this Agreement, and in such case, the County shall have the rights and remedies as provided herein.

13.0 Non-Discrimination

The Contractor warrants and represents that all of its employees are treated equally during employment without regard to race, color, religion, gender, age or national origin.

14.0 Designation of Party Representatives

14.1 Upon receipt of a request from the Contractor, the County shall designate in writing one or more of its employees who are authorized to act by and on behalf of the County to transmit instructions, receive information and interpret and define the County's policy and decisions with respect to the Services to be provided pursuant to this Agreement.

14.2 The Contractor shall designate or appoint one or more Contractor representatives who are authorized to act on behalf of and to bind the Contractor regarding all matters involving the conduct of its performance pursuant to this Agreement.

15.0 All Prior Agreements Superseded

This document incorporates and includes all prior negotiations, correspondence, conversations, agreements or understandings applicable to the matters contained herein and the parties agree that there are no commitments, agreements or understandings concerning the subject matter of this Agreement that are not contained in this document or its designated exhibits. Accordingly, it is agreed that no deviation from the terms hereof shall be predicated upon any prior representations or agreements, whether oral or written.

16.0 Modifications, Amendments or Alterations

No modification, amendment or alteration in the terms or conditions contained herein shall be effective unless agreed to and executed in writing by both parties to this Agreement in a form acceptable to the County.

17.0 Independent Contractor

Nothing stated in this Agreement is intended or should be construed in any manner as creating or establishing a relationship of co-partners between the parties, or as constituting the Contractor (including its officers, employees, and agents) as the agent, representative, or employee of the County for any purpose, or in any manner, whatsoever. The Contractor is to be and shall remain forever an independent contractor with respect to all Services performed under this Agreement. The Contractor shall not pledge the County's credit or make the County a guarantor of payment or surety for any contract, debt, obligation, judgment, lien or any form of indebtedness and the Contractor shall have no right to speak for or bind the County in any manner.

18.0 Public Records Law

(a) The Contractor acknowledges the County's obligations under Article I, Section 24, of the Florida Constitution and under Chapter 119, Florida Statutes, to release public records to members of the public upon request and comply in the handling of the materials created under this Agreement. The Contractor further acknowledges that the constitutional and statutory provisions control over the terms of this Agreement. In association with its performance pursuant to this Agreement, the Contractor shall not release or otherwise disclose the content of any documents or information that is specifically exempt from disclosure pursuant to all applicable laws.

(b) Without in any manner limiting the generality of the foregoing, to the extent applicable, the Contractor acknowledges its obligations to comply with Section 119.0701, Florida Statutes, with regard to public records, and shall:

(1) keep and maintain public records required by the County to perform the services required under this Agreement;

(2) upon request from the County's Custodian of Public Records or his/her designee, provide the County with a copy of the requested records or allow the records to be inspected or copied within a reasonable time at a cost that does not exceed the cost provided in Chapter 119, Florida Statutes, or as otherwise provided by law;

(3) ensure that public records that are exempt or confidential and exempt from public records disclosure requirements are not disclosed except as authorized by law for the duration of the term of this Agreement and following completion of this Agreement if the Contractor does not transfer the records to the County; and

(4) upon completion of this Agreement, transfer, at no cost, to the County all public records in possession of the Contractor or keep and maintain public records required by the County to perform the service. If the Contractor transfers all public records to the County upon completion of this Agreement, the Contractor shall destroy any duplicate public records that are exempt or confidential and exempt from public records disclosure requirements. If the Contractor keeps and maintains public records upon completion of this Agreement, the Contractor shall meet all

applicable requirements for retaining public records. All records stored electronically must be provided to the County, upon request from the County's Custodian of Public Records, in a format that is compatible with the information technology systems of the County.

(c) **IF THE CONTRACTOR HAS QUESTIONS REGARDING THE APPLICATION OF CHAPTER 119, FLORIDA STATUTES, TO THE CONTRACTOR'S DUTY TO PROVIDE PUBLIC RECORDS RELATING TO THIS AGREEMENT, CONTACT THE COUNTY'S CUSTODIAN OF PUBLIC RECORDS AT:**

RECORDS MANAGEMENT LIASON OFFICER

POLK COUNTY

330 WEST CHURCH ST.

BARTOW, FL 33830

TELEPHONE: (863) 534-7670

EMAIL: RMCO@POLKFL.GOV

19.0 Compliance with Laws and Regulations

In providing all Services pursuant to this Agreement, the Contractor shall abide by all statutes, ordinances, rules, and regulations pertaining to or regulating the provisions of such Services, including those now in effect and hereafter adopted. Any violation of said statutes, ordinances, rules, or regulations shall constitute a material breach of this Agreement, and shall entitle the County to terminate this Agreement immediately upon delivery of written notice of termination to the Contractor.

20.0 Governing Law and Venue

This Agreement shall be governed in all respects by the laws of the State of Florida and any litigation with respect thereto shall be brought only in the courts of Polk County, Florida or in the United States District Court, Middle District of Florida, located in Hillsborough County, Florida.

21.0 Notices

Whenever either party desires to give notice unto the other, it must be given by written notice, delivered (i) in person, (ii) via registered or certified United States mail, postage prepaid with return receipt requested, or (iii) via nationally recognized overnight delivery service, and addressed to the party for whom it is intended at the place last specified by each party. The place

for giving of notice shall remain such until it is changed by written notice delivered in compliance with the provisions of this Section 21. For the present, the parties designate the following as the respective places for giving of notice, to wit:

For County: Roads & Drainage Division
3000 Sheffield Road
Winter Haven, Florida 33880
Attention: Division Director

For Contractor: Looks Great Services of MS, Inc.
1501 Highway 13 North
Columbia, MS 39429
Attention:

22.0 Severability

The invalidity, illegality, or unenforceability of any provision of this Agreement, or the occurrence of any event rendering any portion or provision of this Agreement void, shall in no way affect the validity or enforceability of any other portion or provision of the Agreement; any void provision shall be deemed severed from the Agreement and the balance of the Agreement shall be construed and enforced as if the Agreement did not contain the particular portion or provision held to be void. The parties further agree to reform the Agreement to replace any stricken provision with a valid provision that comes as close as possible to the intent of the stricken provision. The provisions of this section shall not prevent the entire Agreement from being void should a provision which is of the essence of the Agreement be determined to be void.

23.0 Annual Appropriations

Contractor acknowledges that during any fiscal year the County shall not expend money, incur any liability, or enter into any agreement which by its terms involves the expenditure of money in excess of the amounts budgeted as available for expenditure during such fiscal year. Accordingly, any agreement, verbal or written, the County may make in violation of this fiscal limitation is null and void, and no money may be paid on such agreement. The County may enter into agreements whose duration exceeds one year; however, any such agreement shall be executory only for the value of the services to be rendered which the County agrees to pay as allocated in its annual budget for each succeeding fiscal year. Accordingly, the County's performance and obligation to pay the Contractor under this Agreement is contingent upon annual appropriations being made for that purpose.

24.0 Unauthorized Alien(s)

The Contractor shall not employ or utilize unauthorized aliens in the performance of the Services provided pursuant to this Agreement. The County shall consider the employment or utilization of unauthorized aliens a violation of Section 274A(e) of the Immigration and Naturalization Act (8 U.S.C. 1324a) and a cause for the County's unilateral termination of this Agreement. When delivering executed counterparts of this Agreement to the County, the Contractor shall also deliver a completed and executed counterpart of the attached "AFFIDAVIT CERTIFICATION IMMIGRATION LAWS" form.

25.0 Contractor Representations

25.1 The Contractor hereby represents and warrants the following to the County:

25.1.1 Contractor is a corporation that is duly organized and existing in good standing under the laws of the State of Mississippi with full right and authority to do business within the State of Florida.

25.1.2 Contractor's performance under this Agreement will not violate or breach any contract or agreement to which the Contractor is a party or is otherwise bound, and will not violate any governmental statute, ordinance, rule, or regulation.

25.1.3 Contractor has the full right and authority to enter into this Agreement and to perform its obligations in accordance with its terms.

25.1.4 Contractor now has and will continue to maintain all licenses and approvals required to conduct its business, and that it will at all times conduct its business activities in a reputable manner.

25.1.5 Contractor has no obligation or indebtedness that would impair its ability to fulfill the terms of this Agreement.

25.1.6 Contractor has the personnel and experience necessary to perform all Services in a professional and workmanlike manner.

25.1.7 Contractor shall exercise the same degree of care, skill, and diligence in the performance of the Services as provided by a professional of like experience, knowledge and resources, under similar circumstances.

25.1.8 Contractor shall, at no additional cost to the County, re-perform those Services which fail to satisfy the foregoing standard of care or which otherwise fail to meet the requirements of this Agreement.

25.1.9 Each individual executing this Agreement on behalf of the Contractor is authorized to do so.

26.0 Default and Remedy

A. Process. If the Contractor materially defaults in the timely performance of any Contract obligation, including any changes, modifications, changes in scope issued thereunder, or if the Contractor is otherwise in material default of the Contract, including, without limitation, the Contractor's failure to timely deliver any portion, or the entirety, of the Project Work in accordance with the Contract documents, then the County shall have the right to (i) with or without terminating the Contract, immediately call the Performance Bond and Payment Bond, and engage other contractors or providers at the Contractor's sole cost and expense to provide those unperformed or deficient Contract obligations of the Contractor; (ii) set-off the monetary amount of any and all damages arising therefrom, whether direct or indirect, actual or liquidated, from the amounts due Contractor pursuant to the Contract documents, (iii) immediately terminate the Contract by delivering written notice to the Contractor, and (iv) pursue any and all remedies available in law, equity, and under the Contract, including, without limitation, the recovery of any increased cost to the County to complete the Project Work due to the loss of FEMA Public Assistance funding caused, directly or indirectly, by the Contractor's default. Upon any such termination pursuant to this Section, the County shall pay the Contractor the full amount due and owing for all services properly performed through the date of the Contract termination, less any amount subject to the County's right of set-off, and all liability of the County to the Contractor shall cease.

B. Certain Material Defaults. Among other matters, including without limitation, the Contractor's failure to timely deliver any portion, or the entirety, of the Project Work in accordance with the Contract documents, as described immediately above, any of the following shall constitute the Contractor's material default of the Contract: the appointment of a receiver to take possession of all or substantially all of the Contractor's assets, a general assignment by the Contractor for the benefit of creditors, or any action taken by or suffered by Contractor under any insolvency or bankruptcy act; or the Contractor is convicted of a public entity crime, is determined to have violated federal or state law prohibiting discrimination as stated in Section 287.134, Florida Statutes, or is prohibited from performing work for or transacting business with the County pursuant to Section 287.133 or to Section 287.134, Florida Statutes; or an assignment of the Contract made without the express written consent of the County; or the submission of a false certification to the County or engagement in prohibited business operations, both as described in the Contract Documents.

27.0 Limitation of Liability

IN NO EVENT, SHALL THE COUNTY BE LIABLE TO THE CONTRACTOR FOR INDIRECT, INCIDENTAL, CONSEQUENTIAL, SPECIAL, EXEMPLARY, OR PUNITIVE DAMAGES OF ANY KIND OR NATURE, INCLUDING LOSS OF PROFIT, WHETHER FORESEEABLE OR NOT, ARISING OUT OF OR RESULTING FROM THE NONPERFORMANCE OR BREACH OF THIS CONTRACT BY THE COUNTY WHETHER BASED IN CONTRACT, COMMON LAW, WARRANTY, TORT, STRICT LIABILITY, CONTRIBUTION, INDEMNITY OR OTHERWISE.

28.0 Waiver

A waiver by either County or Contractor of any breach of this Agreement shall not be binding upon the waiving party unless such waiver is in writing. In the event of a written waiver, such a waiver shall not affect the waiving party's rights with respect to any other or further breach of this Agreement. The making or acceptance of a payment by either party with the knowledge of the other party's existing default or breach of the Agreement shall not waive such default or breach, or any subsequent default or breach of this Agreement, and shall not be construed as doing so.

29.0 Attorneys' Fees and Costs

Each party shall be responsible for its own legal and attorneys' fees, costs and expenses incurred in connection with any dispute or any litigation arising out of, or relating to this Agreement, including attorneys' fees, costs, and expenses incurred for any appellate or bankruptcy proceedings.

30.0 Force Majeure

Either party hereunder may be temporarily excused from performance if an Event of Force Majeure directly or indirectly causes its nonperformance. An "Event of Force Majeure" is defined as any event which results in the prevention or delay of performance by a party of its obligations under this Agreement and which is beyond the reasonable control of the nonperforming party. It includes, but is not limited to fire, flood, earthquakes, storms, lightning, epidemic, war, riot, civil disturbance, sabotage, and governmental actions. Neither party shall be excused from performance if non-performance is due to forces which are reasonably preventable, removable, or remediable and which the non-performing party could have, with the exercise of reasonable diligence, prevented, removed, or remedied prior to, during, or immediately after their occurrence. Within five (5) days after the occurrence of an Event of Force Majeure, the non-performing party shall deliver written notice to the other party describing the event in reasonably sufficient detail, along

with proof of how the event has precluded the non-performing party from performing its obligations hereunder, and a good faith estimate as to the anticipated duration of the delay and the means and methods for correcting the delay. The non-performing party's obligations, so far as those obligations are affected by the Event of Force Majeure, shall be temporarily suspended during, but no longer than, the continuance of the Event of Force Majeure and for a reasonable time thereafter as may be required for the non-performing party to return to normal business operations. If excused from performing any obligations under this Agreement due to the occurrence of an Event of Force Majeure, the non-performing party shall promptly, diligently, and in good faith take all reasonable action required for it to be able to commence or resume performance of its obligations under this Agreement. During any such time period, the non-performing party shall keep the other party duly notified of all such actions required for it to be able to commence or resume performance of its obligations under this Agreement.

31.0 Key Personnel

The Contractor shall notify the County if any of the Contractor's Key Personnel (as defined, below) change during the Term of the Agreement. To the extent possible, the Contractor shall notify the County at least ten (10) days prior to any proposed change in its Key Personnel. At the County's request the Contractor shall remove without consequence to the County any of the Vendor's contractors, sub-contractors, sub-consultants, agents or employees and replace the same with an appropriate substitute having the required skill and experience necessary to perform the Services. The County shall have the right to reject the Contractor's proposed changes in Key Personnel. The following individuals shall be considered "Key Personnel:"

Name: Yolanda Agoglia

Name: Kristian Agoglia

Name: Sean Hunt

Name: Jerry Day

Name: Max Elkins

Name: Don Lucas

Name: Melvin Sorto

32.0 Scrutinized Companies and Business Operations Certification; Termination.

A. Certification(s).

(i) By its execution of this Agreement, the Contractor hereby certifies to the County that the Contractor is not on the Scrutinized Companies that Boycott Israel List, created pursuant to Section 215.4725, Florida Statutes, nor is the Contractor engaged in a boycott of Israel, nor was the Contractor on such List or engaged in such a boycott at the time it submitted its bid, proposal, quote, or other form of offer, as applicable, to the County with respect to this Agreement.

(ii) Additionally, if the value of the goods or services acquired under this Agreement are greater than or equal to One Million Dollars ($1,000,000), then the Contractor further certifies to the County as follows:

(a) the Contractor is not on the Scrutinized Companies with Activities in Sudan List, created pursuant to Section 215.473, Florida Statutes; and

(b) the Contractor is not on the Scrutinized Companies with Activities in the Iran Petroleum Energy Sector List, created pursuant to Section 215.473, Florida Statutes; and

(c) the Contractor is not engaged in business operations (as that term is defined in Florida Statutes, Section 287.135) in Cuba or Syria; and

(d) the Contractor was not on any of the Lists referenced in this subsection A(ii), nor engaged in business operations in Cuba or Syria when it submitted its proposal to the County concerning the subject of this Agreement.

(iii) The Contractor hereby acknowledges that it is fully aware of the penalties that may be imposed upon the Contractor for submitting a false certification to the County regarding the foregoing matters.

B. Termination. In addition to any other termination rights stated herein, the County may immediately terminate this Agreement upon the occurrence of any of the following events:

(i) The Contractor is found to have submitted a false certification to the County with respect to any of the matters set forth in subsection A(i) above, or the Contractor is found to have been placed on the Scrutinized Companies that Boycott Israel List or is engaged in a boycott of Israel.

(ii) The Contractor is found to have submitted a false certification to the County with respect to any of the matters set forth in subsection A(ii) above, or the Contractor is found to have been placed on the Scrutinized Companies with Activities in Sudan List, or the Scrutinized Companies with Activities in the Iran Petroleum Energy Sector List, or has been engaged in business operations in Cuba or Syria, and the value of the goods or services acquired under this Agreement are greater than or equal to One Million Dollars ($1,000,000).

33.0 No Construction Against Drafter

The Parties acknowledge that this Agreement and all the terms and conditions contained herein have been fully reviewed and negotiated by the Parties. Accordingly, any rule of construction to the effect that ambiguities are to be resolved against the drafting party shall not apply in interpreting this Agreement.

34.0 Federal Provisions

The Supplemental Conditions – Federal Clauses set forth in the RFP 26-011, attached here to as Exhibit Ai, are hereby fully incorporated by this specific reference, as if set forth in the body of this Agreement.

35.0 Breach During Emergency Recovery Period.

Pursuant to section 252.505, Florida Statutes, in the event this Agreement concerns goods or services related to a natural emergency, Vendor agrees that if Vendor breaches this Agreement during the Emergency Recovery Period, then the County shall be entitled to (a) a payment of $5000, and (b) recovery of damages, which may take the form of actual and consequential damages or liquidated damages. The term "Emergency Recovery Period" means a one-year period that begins on the date the Governor of Florida initially declared a state of emergency for a natural emergency.

36.0 Conditional Notice to Proceed Minimum Amount.

As a condition precedent to the issuance of any Notice-To-Proceed, Vendor shall furnish to County a performance bond in a minimum amount of One Million Dollars ($1,000,000.00) in a form reasonably acceptable to the County. County retains the right to require a higher initial performance bond for any reason deemed necessary to the County. The parties acknowledge the services required in response to an emergency cannot fully be determined in advance. Therefore, upon the occurrence of such an emergency event, County shall determine the actual amount of the performance bond and adjust the required amount from the Vendor accordingly. Vendor's failure to provide the initial performance bond or the adjusted performance bond shall constitute a material breach of the obligations under this Agreement and shall provide the County with the right to withhold the Notice to Proceed, suspend Services, procure substitute Services, and exercise any right or remedy provided under this Agreement or applicable law.

37.0 Future Debris Management Contractual Obligations.

Vendor shall provide County with priority status in response Services to be performed under this Agreement. During activation, resources will not be diverted away from the County.

Vendor acknowledges this priority, as well as responsiveness with personnel, material, equipment, and service delivery are all material under this Agreement. Accordingly, Vendor shall, within thirty (30) days of entering into a new debris management, emergency response, disaster recovery, or similar contractual obligation with other entity during the Term of this Agreement, provide County with written notice of such a contractual obligations and provide the County with reasonable assurances that the new obligations will not interfere with Vendor's performance of this Agreement, including County's priority status. In addition, Vendor shall, on June 1st of every year during the Term of this Agreement, provide County with a written letter identifying all new debris management, emergency response, disaster recovery, or similar contractual obligations entered into during the preceding twelve (12) months. Along with the names of all the new obligations, the letter will include assurances that the obligations will not interfere with Vendor's performance of this Agreement, including County's priority status. Vendor's failure to provide a timely disclosure shall constitute a material breach of this Agreement.

38.0 Project Manager Assignment.

Vendor shall designate a Project Manager to be the key personnel to this Agreement. The Project Manager shall be an individual capable of committing Vendor resources including, without limitation, equipment, personnel, subcontractors, and financial expenditures, without seeking off-site corporate approval. The Vendor shall provide written certification the Project Manager is not committed to another debris management agreement during the Term of this Agreement.

(THE REMAINDER OF THE PAGE IS LEFT INTENTIONALLY BLANK; THE AGREEMENT CONTINUES ON THE FOLLOWING PAGE WITH THE PARTIES SIGNATURES.)

IN WITNESS WHEREOF, the parties hereto have executed this Agreement as of the Effective Date.

EMPLOYMENT ELIGIBILITY VERIFICATION (E-VERIFY) CERTIFICATION

(Florida Statutes, Section 448.095)

PROJECT NAME: RFP 26-011

The undersigned, as an authorized officer of the contractor identified below (the "**Contractor**"), having full knowledge of the statements contained herein, hereby certifies to Polk County, a political subdivision of the State of Florida (the "**County**"), by and on behalf of the Contractor in accordance with the requirements of Section 448.095, Florida Statutes, as related to the contract entered into by and between the Contractor and the County on or about the date hereof, whereby the Contractor will provide labor, supplies, or services to the County in exchange for salary, wages, or other remuneration (the "**Contract**"), as follows:

1. Unless otherwise defined herein, terms used in this Certification which are defined in Section 448.095, Florida Statutes, as may be amended from time to time, shall have the meaning ascribed in said statute.

2. Pursuant to Section 448.095(5), Florida Statutes, the Contractor, and any subcontractor under the Contract, must register with and use the E-Verify system to verify the work authorization status of all new employees of the Contractor or subcontractor. The Contractor acknowledges and agrees that (i) the County and the Contractor may not enter into the Contract, and the Contractor may not enter into any subcontracts thereunder, unless each party to the Contract, and each party to any subcontracts thereunder, registers with and uses the E-Verify system; and (ii) use of the U.S. Department of Homeland Security's E-Verify System and compliance with all other terms of this Certification and Section 448.095, Fla. Stat., is an express condition of the Contract, and the County may treat a failure to comply as a material breach of the Contract.

3. By entering into the Contract, the Contractor becomes obligated to comply with the provisions of Section 448.095, Fla. Stat., "Employment Eligibility," as amended from time to time. This includes but is not limited to utilization of the E-Verify System to verify the work authorization status of all newly hired employees, and requiring all subcontractors to provide an affidavit attesting that the subcontractor does not employ, contract with, or subcontract with, an unauthorized alien. The Contractor shall maintain a copy of such affidavit for the duration of the Contract. Failure to comply will lead to termination of the Contract, or if a subcontractor knowingly violates the statute or Section 448.09(1), Fla. Stat., the subcontract must be terminated immediately. If the Contract is terminated pursuant to Section 448.095, Fla. Stat., such termination is not a breach of contract and may not be considered as such. Any challenge to termination under this provision must be filed in the Tenth Judicial Circuit Court of Florida no later than 20 calendar days after the date of termination. If the Contract is terminated for a violation of Section 448.095, Fla. Stat., by the Contractor, the Contractor may not be awarded a public contract for a period of 1 year after the date of termination. The Contractor shall be liable for any additional costs incurred by the County as a result of the termination of the Contract. Nothing in this Certification shall be construed to allow intentional discrimination of any class protected by law.

Executed this 5th day of May, 2026.

Affidavit Regarding the Use of Coercion for Labor or Services

In compliance with Section 787.06(13), Florida Statutes, this attestation must be completed by an officer or representative of a nongovernmental entity that is executing, renewing, or extending a contract with Polk County, a political subdivision of the State of Florida.

The undersigned, on behalf of the entity listed below (the "Nongovernmental Entity"), hereby attests under penalty of perjury as follows:

1. I am over the age of 18 and I have personal knowledge of the matters set forth herein.

2. I currently serve as an officer or representative of the Nongovernmental Entity.

3. The Nongovernmental Entity does **not** use coercion for labor or services, as those underlined terms are defined in Section 787.06, Florida Statutes.

4. This declaration is made pursuant to Section 92.525, Fla. Stat. and Section 787.06, Fla. Stat. I understand that making a false statement in this declaration may subject me to criminal penalties.

Under penalties of perjury, I Kristian Agoglia (Signatory Name and Title), declare that I have read the foregoing Affidavit Regarding the Use of Coercion for Labor and Services and that the facts stated in it are true.

Further Affiant sayeth naught.

Florida Department of State, Division of Corporations

RFP NOTICE

Polk County, a political subdivision of the State of Florida, requests the submittal of proposals from vendors that are interested in providing debris removal services as described herein. Sealed proposals must be received in the Procurement Division, prior to the due date and time listed below.

RFP Number and Title: 26-011, Disaster Debris Removal Services

Description: Provide disaster debris clean-up and other related services resulting from, but not limited to, catastrophic events such as tornadoes and hurricanes

Receiving Period: Prior to 2:00 p.m., Wednesday, December 31, 2025

Bid Opening: Wednesday, December 31, 2025, at 2:00 p.m. or as soon as possible thereafter.

This form is for RFP registration only. Please scroll down for additional information.

Special Instructions:

Questions regarding this RFP must be in writing and must be sent to Ken Brush Procurement Contracts Manager, via email at kenbrush@polk-county.net or via fax at (863) 534-6789. All questions must be received by Monday, December 15, 2025, 4:00 p.m.

RFP REGISTRATION

You must register using this form to receive notice of any addenda to these documents. Please fax the completed form to the Procurement Division as soon as possible. It is the vendor's responsibility to verify if addenda have been issued.

RFP Number: 26-011

RFP Title: Disaster Debris Removal Services

This form is for bid registration only. Please scroll down for additional information.

Carefully complete this form and return it to the Procurement Division via e-mail to procurement@polk-county.net or fax (863) 534-6789. You must submit one form for each solicitation that you are registering for.

PROPOSAL SUBMITTAL INSTRUCTIONS

Proposers must submit their proposal prior to 2:00 p.m. on the receiving date. Proposals must be submitted in a “sealed” parcel or electronically through Polk County’s secure website, Kiteworks. Proposals will be publicly opened at 2:00 p.m. on the receiving date.

Sealed Parcel Submittal:

If you are submitting a sealed parcel proposal submit one (1) original marked ORIGINAL and five (5) copies marked COPY of the proposal in a sealed parcel to the Procurement Division. The parcel should be labeled “RFP #26-011, Disaster Debris Removal Services” and marked with the proposer’s name and address. The Proposals may be mailed or delivered to:

Polk County Procurement Division

330 West Church Street, Room 150

Bartow, FL 33830

To assist with labeling the sealed parcel, please cut along the outer border and affix this label. Be sure to include the name of the company submitting the proposal where requested.

Sealed Proposal. DO NOT OPEN	
RFP Number	26-011
RFP Title	Disaster Debris Removal Services

Submitted by:	
Deliver To:	Polk County Procurement Division 330 West Church Street, Room 150, Bartow, Florida 33830

Proposals may be mailed, express mailed or hand delivered. It is the Proposers responsibility to ensure their package is delivered to the Procurement Division prior to 2:00 p.m. on the Receiving date and time referenced above. Proposals delivered at 2:00 p.m. or later will not be accepted.

Electronic Proposals Submittal:

All prospective Proposers that are interested in submitting their proposals electronically can do so via the County's secure electronic submittal website, Kiteworks. Proposers must email kenbrush@polk-county.net at least 48 hours prior to opening to receive a link to upload their submittal. Please only upload your documents as a PDF or Excel file for the Cost Tab, if applicable. Please use the name convention of your files as follow:

"RFP 26-011 Tab 1"

"RFP 26-011 Tab 2"

"RFP 26-011 Tab 3"

"RFP 26-011 Tab 4"

"RFP 26-011 Tab 5"

"RFP 26-011 Tab 6"

"RFP 26-011 Tab 7"

For more instructions, a video tutorial has been produced to further explain the electronic solicitation submittal process. It can be found by clicking here for RFP Submittals: https://youtu.be/vkn_7AHgioE. If you need assistance accessing this website due to ADA or any other reason, please email Ken Brush at kenbrush@polk-county.net.

Procurement recommends that Proposers submitting electronically double check the documents submitted into Kiteworks to ensure all requested tab information has been uploaded. Failure to upload the requested tab information may result in the proposal being deemed nonresponsive.

POLK COUNTY
Procurement Division
Fran McAskill
Procurement Director
REQUEST FOR PROPOSAL 26-011
Disaster Debris Removal Services

Sealed proposals will be received in the Procurement Division, Wednesday, December 31, 2025, prior to 2:00 p.m.

Attached are important instructions and specifications regarding responses to this Request for Proposal (the "RFP"). The failure of a responding proposer (a "Proposer") to follow these instructions could result in Proposer disqualification from consideration for a contract to be awarded pursuant to this RFP.

This document is issued by Polk County (the "County") which is the sole distributor of this RFP and all addenda and changes to the RFP documents. The County shall record its responses to inquiries and provide any supplemental instructions or additional documents pertaining to this RFP in the form of written addenda to the RFP. The County shall post all such addenda, together with any other information pertaining to this RFP, on the County's website at https://www.polk-county.net/business/procurement/. It is the sole responsibility of each Proposer to review the website prior to submitting a responsive proposal (a "Proposal") to this RFP to ensure that that the Proposer has obtained all available instructions, addenda, changes, supporting documents, and any other information pertaining to this RFP.

The County is not responsible for any solicitations issued through subscriber, publications, or other sources not connected with the County and the Proposer should not rely on such sources for information regarding the RFP solicitation.

Questions regarding this RFP must be in writing and must be sent to Ken Brush, Procurement Contracts Manager, via email at kenbrush@polk-county.net or via fax at (863) 534-6789. **All questions must be received by Monday, December 15, 2025, 4:00 p.m.**

Proposers and any prospective proposers shall not contact, communicate with or discuss any matter relating in any way to this RFP with any member of the Polk County Board of County Commissioners or any employee of Polk County other than the County Procurement Director or the individual designated above. This prohibition begins with the issuance of the Request for Proposal and ends upon execution of the final contract. Any such communication initiated by a Proposer or prospective proposer shall be grounds for disqualifying the offender from consideration for a contract to be awarded pursuant to this RFP and for contracts to be awarded pursuant to RFPs or Requests for Bid that the County may issue in the future.

A Proposer's responsive Proposal to this RFP may be mailed, express mailed, or hand delivered to:

Polk County Procurement Division
330 West Church Street, Room 150
Bartow, Florida 33830
(863)534-6757

Introduction/Background

Polk County, a political subdivision of the State of Florida, is soliciting proposals from qualified firms to provide disaster debris clean-up and other related services.

Award of this RFP may be made to up to three (3) Contractors and will be used when the magnitude of an emergency is such that the County is not able to manage with their own resources. Contractors shall be identified as the primary, secondary, and tertiary awardee based on order of final ranking. The area given to any one contractor will depend on the magnitude of the emergency.

The primary vendor will be contracted to provide the services needed. If the primary vendor is not available, or fails to respond within 24 hours, the County will then contact the secondary vendor. If the secondary vendor is not available or fails to respond within 24 hours, the County will then contact the tertiary vendor.

There are other public agencies within Polk County that may wish to use the provisions of this RFP. Attachment A should be signed and included with your submittal. Please refer to submittal criteria for further detail.

SPECIFICATIONS

PURPOSE

The purpose of these specifications is to describe the requirements of the County relative to the Disaster Debris Removal Services sought by the County in the removal of debris resulting from, but not limited to, catastrophic events such as tornadoes and hurricanes. The resulting contract would potentially be invoked for County, State, and Federally declared disaster events. Services may include: collecting and removing debris including the clearing and removal of debris from the public right-of-way, streets and roads, either public or private as directed by the client; demolition and removal of condemned structures and buildings that pose a threat to public safety and resulting from the disaster event; processing debris including sorting, grinding, mulching, and burning; and disposing of debris at designated sites within Polk County; establishing and operating temporary debris staging and processing sites; collecting and disposing of hazardous waste, biohazardous waste and dead animals.

GENERAL REQUIREMENTS

The Contractor(s) shall furnish all necessary personnel, materials, equipment, labor, supervision, facilities, and shall otherwise provide all services necessary for, or incidental to, the performance of all work as defined in these specifications.

It is the sole responsibility of the Contractor(s) to ensure that, should Subcontractor(s) be utilized by the Contractor for any portion of the work, these Subcontractor(s) shall meet or exceed the same requirements instituted for the Contractor pertaining to this contract.

The Contractor(s) shall notify the County within (24) twenty four hours of notice of any legal or regulatory actions, or any Notices of Violation taken against the Contractor(s) or Subcontractor(s) utilized within the scope of this contract.

Upon receipt of the Notice of Violation or Warning Notice or upon notification or request from the County, the Contractor shall immediately prepare their response or draft a County response to the notice and begin corrective action against any non-complying condition. Failure by the Contractor to take corrective action which is required by law or the Contract Documents shall result in the County taking whatever measures are necessary to correct the condition and deducting the cost of such corrective action from the Contractor's Operating Fee Payment. The Contractor will be responsible for any fines resulting from any violations of Federal, State, or local laws or regulations.

Permits and licenses of a temporary nature necessary for the completion of contracted Services shall be secured and paid for by the Contractor with the assistance of the County, unless otherwise stated in this RFP. The Contractor shall not be held responsible to secure permits and/or licenses when the requirements for same have been waived due to a declaration of an emergency or disaster.

Under the general oversight of the County, the Contractor will supervise and direct all work, workers, and equipment. The Contractor is solely responsible for the means, methods, techniques, sequences, safety program, and procedures utilized. The Contractor will employ and maintain on the work site a qualified and accessible supervisor(s) on the work site(s) and provide the County a liaison officer, as directed. At least one accessible and designated supervisor in the area of operation and the liaison officer shall have full authority to act on behalf of the Contractor and all communications given to the supervisor or liaison officer in writing by the County's Authorized Representative shall be as binding as if given to the Contractor.

The name(s) of the supervisor(s)\liaison officer will be supplied to the County for each issuance of an event Notice-To-Proceed. Additionally, a performance bond for the minimum amount of $1,000,000 will be required before the Notice-To-Proceed is issued. The actual amount will be determined at the time of the event, and an adjusted performance bond will need to be obtained for the estimated total amount. Please see (Attachments D & E)

The Contractor shall have the ability to guarantee operations and pay vendors and sub-contractor(s) for 60 days prior to receiving payments from the County.

Retainage in the amount of ten percent (10%) will be withheld until all work has been completed and has been approved by the County.

The Contractor shall participate in an annual on-sight pre-coordination meeting as directed by the County at no additional cost to the County.

The Contractor shall, to the extent practical, give priority to utilizing resources in Polk County and the surrounding area, including but not limited to procuring supplies and equipment, awarding subcontracts, and employing workers.

The Contractor shall make daily reports to the County to detail the progress of the debris removal and disposal program. Such reports shall include a description of all areas where work was done, detailing the street names, and address blocks where debris removal was completed. The reports must also include the types and volumes of debris transported, reduced, and disposed. The Contractor shall also provide other operational and complaint tracking reports as requested by the County.

The Contractor shall disclose future debris management contractual obligations and provide reasonable assurance that such obligations will not preclude the Contractor from meeting its obligations under the contract resulting from this RFP. Such disclosure shall be provided to the County within 30 days of entering into said contractual obligation.

The Contractor's response shall meet the following minimum standards:

- Following a notice to mobilize, the ability to provide an advance team to the County Emergency Operations Center prior to hurricane landfall;
- Ability to marshal/stage personnel and equipment for rapid deployment into the County while protecting those assets from damage/destruction from the event;
- Ability to be fully operational for clearing debris to open emergency routes within 24 hours of initial notice to proceed;
- Ability to be fully operational for hauling, sorting, and storing of debris within 48 hours of initial notice to proceed;
- Ability to be fully operational for the reduction and disposal of debris within 72 hours of initial notice to proceed;
- Ability to maintain full operational capability, 12 hours per day, 7 days per week for an extended period;
- Ability to rapidly adjust the flow of resources based on the extent and magnitude of damage/debris.

Additionally, the Contractor's response shall meet the following minimum standards:

- Ability to clear all debris from all County maintained street, road, and highway within 45 days from initial event notice to proceed (First Push);

- Ability to remove (haul) all debris from all County maintained street, road and highway rights of way within 90 days from initial event notice to proceed;
- Ability to complete the entire debris management process from initial clearance through final disposal within 180 days from initial event notice to proceed.
- Due to the nature of the emergency and circumstances that may inhibit compliance with the times specified above, a reasonable adjustment to the completion dates may be made by mutual agreement between the Contractor and the County.
- Fiscal capability to maintain operations for 60 days following the initial notice to proceed.

SCOPE OF SERVICES

It is the intent of this scope for the Contractor to remove, as quickly as possible, all hazards to life and property resulting from the occurrence of a catastrophic or disastrous event in the County. Clean up, demolition, and removal will be task order (notice-to-proceed) specific and limited to "Eligible Debris." The term "Eligible Debris" shall be defined by the County as (1) that debris which the County determines must be removed to eliminate immediate threats to life, public health, and safety; (2) that debris which the County determines must be removed to eliminate immediate threats of significant damage to improved public or private property; (3) that debris which the County determines must be removed to ensure economic recovery of the affected community, and; (4) as defined under Stafford Act, 44 CFR, PA Guide FEMA 322, Policy Digest FEMA 321, Debris Management Guide FEMA 325, FEMA Policy 9523.4.

Specifically, the Scope of Services will include the following items:

ELIGIBLE DEBRIS REMOVAL

1. Emergency Road Clearance

   The Contractor shall accomplish the cutting, tossing, and/or pushing of Eligible Debris from the primary transportation routes as identified by and directed by the County. This operational aspect of the scope of services shall be for the first 70 (plus or minus) hours after an event.

2. Eligible Debris Removal from Public Rights-of-Way

   As identified by and directed by the County, the Contractor shall accomplish the pick-up and hauling of all Eligible Debris to the designated Temporary Debris Staging and Reduction Sites (individually or collectively, the "TDSRS) from public rights-of-way, or private roads, and shall maintain debris work sites to appropriate use standards, safety standards, and regulatory requirements. The Contractor shall segregate all debris to the extent practical. Clean woody debris, and other natural materials that can

be chipped, mulched, burned, and disposed of in some other similar manner shall be collected and handled separately from other debris.

3. Demolition of Structures, Debris Removal from Private Property (Right-of Entry Program) and Publicly Owned Property (other than Rights-of-Way)

Should an imminent threat to life, safety, and health to the general public be present on private property or publicly owned property as referenced above, the Contractor as identified to and directed by the County, will accomplish the demolition of structures and the removal and relocation of the designated Eligible Debris to the public rights-of-way. This service shall commence upon receipt by the Contractor from the County the completed right of entry forms, hold harmless agreements, the non-duplication of benefits agreements, an address specific task order, and the physical marking of each structure by the County. This scope of service includes the demolition of structures and the transportation of residual debris to a TDSRS or final disposal site. All identified hazardous waste (to include any hazardous materials) shall be delivered directly to an approved DEP site and other environmental agencies. No hazardous waste shall be housed at any TDSRS. The County has determined that it is in the best interest of the health and safety of its citizens to limit the disposal of hazardous waste to the NCLP. The Contractor shall maintain all debris work sites to appropriate use standards, safety standards, and regulatory requirements.

4. Hazardous Stumps (Removal, Back-fill, Haul)

As identified and directed by the County, the Contractor shall remove all hazardous stumps, as identified by the County, haul each stump to a TDSRS, and backfill each stump hole with compatible material as determined by the County and the Contractor. Each stump shall be inspected by the County and Contractor inspectors and documented as to the appropriate category of size for invoicing. The size of stumps will be calculated by measuring the circumference of the stump at a point two (2) feet above the highest intersecting root from the root ball and then dividing by 3.14 to the 3rd digit, or other method approved by the County and FEMA.

Stumps will be removed if it is in the right-of-way and is 50% uprooted. If removal of the stump creates a hole, the Contractor will back fill the hole. All stumps will be photographed and located on GPS. Stumps removed from right-of-way will be billed out on a “per each” basis. Any stump brought to the curb by a landowner will be hauled and billed on a “per cubic yard” basis.

The removal of hazardous stumps 24 inches and smaller in diameter will be treated as normal debris and paid based on the FEMA stump Conversion Table (see Attachment “C” FEMA DAP9523.11)

All work performed under this section must adhere to requirements noted in 44 Code of Federal Regulations (CFR).

5. Leaning Trees / Hanging Limbs (Trimming, cutting, felling)

As directed by the County, the Contractor shall remove hazardous leaning trees and hanging limbs that pose a threat to life, public health, safety, and/or improved public property. Hazardous trees will be measured at 4.5 feet above the ground and hazardous hangers will be measured at the point of breakage. The removal of hazardous hangers will be compensated on a per tree rate and all hazardous hangers in a tree must be removed by the Contractor.

Each tree and limb shall then be placed in safest location along the right-of-way where the debris resulting from this scope of services shall be removed utilizing the scope of services Item 2: Debris Removal from Public Rights-of-Way or private roads.

6. Temporary Debris Staging and Reduction Sites (TDSRS)

Immediately after execution of the Disaster Debris Removal Services contract, the Contractor and the County will jointly develop a list of the alternative temporary sites for debris management. The parties shall annually thereafter review and confirm the acceptable locations stated on the resulting TDSRS list. The Contractor will be responsible for collecting and testing appropriate environmental samples prior to beginning operations at each TDSRS location. The Contractor will thoroughly video tape and/or photograph each TDSRS site before any debris management activities begin, and will thereafter periodically update video and photographic documentation to track site evolution.

The Contractor will operate and manage each TDSRS to accept and process all Eligible Debris. The Contractor shall be responsible for any land lease obligations that arise in relation to a TDSRS. The Contractor shall be responsible for any and all necessary site preparation, to include but not limited, to the following: any site work and materials necessary to build and maintain stabilized roads for ingress or egress, or any roads throughout the site; the construction of a roofed inspection tower sufficient for a minimum of three (3) inspectors; any environmental requirements including, but not be limited, to wind-born debris control fencing, silt fencing, or water retention berms; the construction of an area for an office trailer and parking; and any other items necessary for site operations and management. The Contractor shall provide and maintain portable and sanitary facilities and fresh water at each TDSRS Inspection Station.

All hazardous waste shall be delivered directly to a site approved by DEP and other environmental agencies. It shall be the contractor's responsibility to remove all hazardous waste and materials within 24 hours of delivery.

The inspection of every load, in and out, is further defined in the "Other Operational Considerations" section below. Processing may include, but is not limited, to reduction by tub grinding, incineration when approved, or other alternate methods of reduction such as compaction. Prior to reduction, all debris will be segregated between vegetative debris, construction and demolition debris (C&D), recyclable debris, white goods, and hazardous wastes. The Contractor shall be responsible for the transporting and removing of all materials not requiring landfilling. All debris requiring landfilling shall be transported to the designated landfill facility, unless otherwise directed by the County. The Contractor shall provide the necessary equipment at the landfill site or otherwise assist with any off-loading of debris.

All processing activities shall be conducted in compliance with all federal, state, and local rules and regulations. It shall be the responsibility of the Contractor to obtain and pay for all permits required to construct, operate, maintain, close, and reclaim the TDSRS debris-processing sites. The Contractor shall maintain each TDSRS site in accordance with all local, state, and federal rules and regulations including at a minimum, erosion control, stormwater management, and fire control, rodent and insect control, animal control in general, noise abatement, odor control, and other site management and site maintenance. The Contractor shall provide stabilized ingress and egress to each debris-processing site and shall maintain such access throughout the life of the site.

The Contractor shall not transport hazardous waste or any hazardous materials to a TDSRS or to any other sites that are not specifically authorized to accept such waste or materials. The Contractor shall be responsible for proper handling and storage of any hazardous waste or hazardous materials brought to the TDSRS. The Contractor shall designate a suitable area at each TDSRS to accommodate all hazardous waste or hazardous materials that the Contractor or a third party may inadvertently bring to a TDSRS. The designated area shall be lined with impervious material surrounded with berms or other containment structures to contain any potential leakage.

The Contractor shall conduct all required testing at the TDSRS, as required by Federal, State, and Local laws, standards, regulations, and operating permits. All guidelines in the latest edition of FEMA's Public Assistance Debris Management Guidelines shall be followed and complied with in the establishment, operation of, and closing of the TDSRS.

The Contractor shall ensure that TDSRS site reclamation shall be accomplished in accordance with all Federal, State, and Local laws, standards, and regulations. The Contractor shall restore the TDSRS to its pre-use condition which may require, among other matters removal of all remaining equipment and debris, grading the site to historical conditions, seeding and mulching of the exposed areas, and performing other work the County deems necessary to restore the site to such condition.

The Contractor's liability to the County for any environmental contamination of the TDSRS (to include adversely affected surrounding areas) shall remain in place after all TDSRS site reclamation services have been completed. The Contractor shall be liable and shall remain liable for any required clean up and necessary remediation of the TDSRS and adversely affected surrounding areas after the expiration or early termination of the Disaster Debris Removal Services contract with the County.

If it becomes necessary to have scales at the TDSRS, the Contractor's reasonable costs to obtain the required scales will be a reimbursable expense.

7. Disaster Event Generated Hazardous Wastes Abatement

The Contractor shall abate all hazardous waste (to include any hazardous materials) identified by the County in accordance with all applicable Federal, State, and Local laws, standards, and regulations to include, but not be limited to, 29 CFR 1910.120, 40 CFR 311, and 49 CFR 100-199.

8. Disaster Event Generated Biohazardous Wastes Abatement

The Contractor shall abate all biohazardous waste identified by the County in accordance with all applicable Federal, State, and Local laws, standards, and regulations.

9. Dead Animal Collection, Transportation, and Disposal

The Contractor shall collect, transport, and dispose of dead livestock, poultry, and large animals (deer, wild pigs, exotic species, etc.). Disposal will be accomplished in any permissible manner consistent with Federal, State, and County laws, rules, and regulations. The collection, transportation, and disposal of small domestic pets are the responsibility of the County.

10. Electronic Communications

The Contractor shall provide the County, in the event that normal communication (power, telephone, radio, cell phones, etc.) is unavailable, with SAT-COM (Satellite radio's, telephones, etc.) or a reliable electronic system of communication as follows:

1 (one) each with Contractor representative
1 (one) per crew
1 (one) at each disposal site

OTHER OPERATIONAL CONSIDERATIONS

1. Documentation and Inspections

All storm debris shall be subject to inspection by the County or any Public Authority in accordance with generally accepted standards to insure compliance with the contract and applicable local, state, and Federal laws. The Contractor will, at all times, provide the County access to all work sites and disposal areas. In addition, authorized representatives and agents of any participating Federal or state agency shall be permitted to inspect all work and materials. The Contractor and the County or County's Representative will each have personnel in place at each TDSRS to verify the contents (cubic yards or tons) of the vehicles entering the TDSRS. Records will be maintained via load tickets of every vehicle entering the TDSRS, its cubic yardage or tonnage and verification of the vehicle leaving the TDSRS to ensure that it is in fact empty. The Contractor and the County will monitor the material to determine that it in fact consists of Eligible Debris. The Contractor and the County will have personnel in place at the pick up site to verify the contents, location, date and time of the vehicles departing for the TDSRS. Prior to use, the Contractor and the County will establish and record the certified cubic yards capacity and will inspect each haul truck. The Contractor will include and provide disposal tickets, field inspection reports, and other data sufficient to provide substantiation for Federal (FEMA, etc.) and State reimbursement, if applicable. The Contractor will assist the County in preparation of Federal (FEMA, FHWA, etc.) and State reports for any potential reimbursement through the training of County employees and the review of documentation prior to submittal. The Contractor will work closely with the Florida Division of Emergency Management, FEMA, FHWA, the County's designated Debris Monitoring Contractor, and other applicable State and Federal Agencies to insure that eligible debris collection and data documenting same appropriately addresses concerns of the likely reimbursement agencies. The Contractor will be required to digitally GPS document each load received at each TDSRS or to be taken to a disposition site which will result in a claim for reimbursement or payment. The digital GPS documentation will be

performed to clearly show the transport vehicles identification number and the contents of the vehicle.

2. Priority of Work Areas

The County will establish in advance the priority of and shall approve each work area in which the Contractor will be allowed to work. Daily and/or weekly communication will be held to determine approved work areas. The Contractor shall remove all Eligible Debris from the approved work areas and shall leave the areas from which the Eligible Debris is removed in a clean and neat condition with the understanding that there will be certain debris that is not picked up by equipment, machinery, and general laborers used by the Contractor. Determination of when a work area is in a clean and neat condition will be at the reasonable judgment of the County.

3. Working Hours

All activity associated with gathering and loading of Eligible Debris shall be performed during visible daylight hours only. Hauling of Eligible Debris to a TDSRS will only be allowed during visible daylight hours between dawn and dusk. The Contractor may work during these hours seven (7) days per week including holidays. It is understood between the parties that at each TDSRS debris reduction may occur twenty-four (24) hours, seven (7) days per week if the Contractor deems it necessary and safe. Contractor shall be responsible for obtaining sites to stage equipment, such as trucks, while not in use.

4. Debris Disposal

The Contractor shall process, recycle, and dispose of all Eligible Debris, reduced Eligible Debris, ash residue, and other products of the debris management process in accordance with all applicable Federal, State, and local laws, standards, and regulations. Final disposition locations shall be at the discretion of the Contractor with prior acceptance by the County, except for those materials to be landfilled as determined by the County. Debris to be landfilled will be at the County's designated landfill facility or as directed by the County. The Contractor and County inspectors assigned to the disposition process shall maintain disposition and disposal records and documentation. Documentation shall be quantified in Cubic Yards, tons, or quantity. The Contractor must provide five part load tickets or approved electronic documentation.

5. White Goods

The Contractor may expect to encounter "white goods" available for disposal. For purposes of the contract "white goods" will be those goods

that constitute “household appliances” as defined in the Florida Administrative Code. The Contractor shall dispose of all white goods encountered in accordance with applicable Federal, State, and local laws.

Any white goods that may contain Freon, such as refrigerators, freezers, or air conditioners, shall have the Freon removed by the Contractor in accordance to applicable regulatory requirements. There is no additional payment made for handling of white goods, as this cost of work is included in the cubic yard unit price for debris removal.

6. Multiple Scheduled Passes

The Contractor shall make multiple scheduled passes of each site, location, or area impacted by the disaster. This manner of debris removal is required to allow citizens and the County to return to their properties and bring debris to the right-of–way as recovery progresses. The number and schedule of passes shall be determined through County/Contractor consultation. It is the County’s intent that the Contractor will make as many passes as the County may direct to complete the removal and lawful disposal of all natural disaster generated Eligible Debris.

7. Certification of Load Carrying Capacity

The Contractor shall submit to the County certification indicating the type of vehicle, make, model, license plate number, Contractor equipment number, and measured maximum volume, in cubic yards, of the load bed of each piece of equipment utilized to haul debris. The measured volume of each piece of equipment shall be calculated from actual physical measurement performed by the County. The reported maximum volume of any load bed shall be the same as shown on the signs fixed to each piece of equipment. Vehicles shall be labeled with distinctive numbers for the County. Photo documentation will be required by the County.

All trucks and trailers utilized in hauling debris shall be provided with a tailgate that will permit the vehicle to be loaded to capacity and effectively contain the debris on the vehicle while hauling. Sideboards or other extensions to the bed are allowable provided they meet all applicable rules and regulations, cover the front and/or sides, and are constructed in a manner to withstand severe operating conditions. Once installed, all sideboards and extensions must remain in place throughout the operation, or the vehicle must be remeasured and remarked. All extensions to the bed are subject to acceptance or rejection by the County. The Contractor shall conform to the F.S. 316.520 which covers the tarping of loads. Damaged extensions are subject to immediate disqualification by authorized County personnel.

8. Traffic Control

The Contractor shall mitigate the impact of their operations on local traffic to the fullest extent practicable. The Contractor is responsible for establishing and maintaining appropriate traffic controls in all work areas, including each TDSRS. The Contractor shall provide sufficient signing, flagging, and barricading to ensure the safety of vehicular and pedestrian traffic in all work areas. All work shall be done in conformity with all Federal, State, and local laws, regulations, and ordinances governing personnel, equipment, and workplace.

9. Recycled Materials Documentation

The Contractor shall provide documentation for all items salvaged or recycled. Documentation shall include identification of material type, quantity, the location material is accepted for salvage or recycling, and the value of the salvaged or recycled material. Contractor shall provide the value of the salvaged or recycled material back to the County as a reimbursement or credit so that the County can provide the reimbursement or credit back to FEMA, as required by FEMA. Value of the material will be defined as the value of the material as paid to the Contractor by the entity accepting the material for salvage or recycling.

10. Emergency Operations Center (EOC)

The Contractor shall be required to provide current/up-to-date field condition information to the County's EOC.

11. Contractor Required Submittals and Tasks with Timeframes from Contract NTP if Pre-Event Awarded Contract

Contractor site visit of County TDSRS	30 Days
Aerial Markups of TDSRS with Site Layouts	60 Days
Load Tickets with Use Procedure	30 Days
Contractor's Load Ticket Accounting Software	30 Days
Contractor Debris Separation Requirements/Procedures	30 Days

12. Pricing

Pricing within resulting contract may be used by any of the public agencies located within Polk County

Tipping fees should not be included as part of the unit price. Traditionally, tipping fees are separated from the operating fees and charged to the municipality at cost.

AGREEMENT

The term of this agreement will be for five (5) years. The Actual term will be negotiated as part of Elevation Level 4, Contract Negotiations.

SUBMITTAL

Submittals should not contain information in excess of that requested, must be concise, and must specifically address the issues of this RFP. The responses should be in the same order as the selection and evaluation procedures. Proposals are to be printed double-sided. Unnecessarily elaborate brochures or other presentations beyond those sufficient to present a complete and effective submittal to this solicitation are not desired and may be construed as an indication of the proposer's lack of cost consciousness. Elaborate artwork, expensive visual aids, and other presentation aids are neither necessary nor desired, unless specifically requested. The proposal submittals should be contained within a three (3) ring binder (original and each copy in separate binders). Each submittal should contain:

Tab 1, Introduction:

- Introduction letter describing your firm, experience, number of years in business, contact name, company address, phone number and email address of contact person. (One page, single or double sided)
- Attachment A – Understanding terms, conditions, and pricing may be used by any public agencies located within Polk County.

Tab 2, Financial Reports (Not Part of Scoring Criteria)

Provide the following information.

1. Financial Statements
    a. Audited financial statements for the last five years
    b. Audited financial statements of the applicant's parent company, if applicable, for the past five years.

c. Audited financial statements of any and all co-applicants partners for the past five years.
d. Interim quarterly financial statements to date subsequent to the last financial audit.
e. Securities and Exchange Commission (SEC) Reports (if publicly held corporation)
    - The most current 10K report
    - The most current 10Q report
f. Companies not publicly held corporations
    - Annual financial report
    - Quarterly financial report

2. Ratios
    a. Income statement and balance sheet ratios which are standard to the bidders industries
3. Corporate Structure
    a. Description of ownership/legal structure of applicant
    b. Description of ownership/legal structure of co-applicants partners/etc.
    c. Description of ownership/legal structure of parent corporation, if any
    d. Organization chart of applicant as it relates to parent corporation, holding company, co-applicants, subsidiary corporations and/or affiliated companies
4. Credit:
    a. List of all lines of credit
    b. Status of all lines of credit
5. Cash Flow Projections
    a. Provide detailed projections and assumptions of cash flows showing project revenues, operating and capital expenditures through the life of the contract of the corporation providing the goods/services to Polk County
6. Litigation:
    a. List of litigation, past, pending and threatened to applicant and relevant associated corporate entities
    b. Actual and/or potential financial impact

c. Indicate whether applicant has ever filed bankruptcy and describe the circumstances.

7. Debt Information:
    a. Covenant tests required in conjunction with existing loan agreement/s
    b. Certification from the company's chief financial officer that, as of the date of such certification, no events of default have occurred or are continuing under the terms of the company's outstanding debt
8. Other:
    a. The period of performance is for a five year term. The successful bidder understands and agrees to provide to the County the above listed documents, statements and reports on an annual basis. These documents, statements and report shall be provided within 90 days following the end of the bidder's fiscal year. The County reserves the right to request interim quarterly financial reports.

9. Details/exceptions pertaining to the above:

    a. Financial Statements:
        - The audited financial statements should be performed by a reputable firm of independent certified public accountants.
        - In situations where audited financial statements are precluded, the applicant must provide:
        - Unaudited financial statements for the last 5 years
        - Federal Tax returns for the last 5 years
        - Unaudited interim quarterly financial statements subsequent to the last fiscal year's unaudited statements
        - For situations where the applicant corporate entity and/or related parent company, co-applicant, etc. is less than 5 years old, provide the 1.a, b, c for all years of existence.
        - Will be evaluated for profitability in three of the applicant's last five years and demonstration of positive trend for the future.

b. SEC Reports
    - Not applicable for applicants that are not public corporations

c. Ratios:
    - Applies to all applicants. Industry standard ratios, where available, will be the basis for comparison. In situations where industry standard ratios are not available, the County will use appropriate ratios applicable to the vendor's financial strength relative to the type of work to be performed for the County.

d. Corporate Structure:
    - Applies to all applicants, from sole proprietorship to subchapter S corporations to public corporations.

e. Credit:
    - Applies to all applicants

f. Cash Flow Projections:
    - Applies to all applicants

g. Litigation:
    - Applies to all applicants

h. Debt Information
    - Applies to all applicants

Respondents are required to submit the company's past five years of audited financial statements to demonstrate their current financial condition and stability. The audited financial reports shall be submitted in a **separate envelope** and must be marked in the left hand corner on the outside of the envelope as follows:

Financial Statements
Disaster Debris Removal Services
RFP No. 26-011
Opening Date: Wednesday, December 31, 2025
Name & Address of Respondent:

Telephone Number of Respondent:

Pursuant to Chapter 119.071(1)(c) Florida Statutes, FS, financial information will be exempt from examination by anyone other than legally authorized Selection Committee members and government staff. The County will maintain the confidentiality of such financial data to the extent allowed by law.

A condition of any contract entered into between the County and an awarded Contractor will be that the Contractor shall provide on an annual basis copies of the Contractor's audited financial statements to demonstrate the Contractor's financial stability. Failure to provide such audited financial statements on an annual basis may result in the contract being terminated.

Letter from Contractor's bonding company listing the contractor's bonding limits. Include letter in envelope with financial statements.

It will be at the sole discretion of the County whether any information disclosed pursuant to this Tab 2, or otherwise discovered during the RFP process, may result in the non-selection of the Proposer, regardless of their scoring.

Tab 3, Compensation Schedule (5 Points)

The Respondent shall complete the compensation schedule included as Attachment B. The Contractor is to include all costs that the Contractor may anticipate incurring during the performance of the disaster recovery work as outlined on Attachment B. For items not listed, the County will only pay the FEMA rates.

The hourly rates for labor may be increased by the Procurement Director after the contract has been in place for a minimum of 12-months, when it is in the best interest of the County. Increases will be determined by the appropriate price index as approved by the Procurement Director or Designee. No Board action will be necessary for labor rate increases.

Proposers shall declare that, to the best of their knowledge and experience with Federal and State reimbursement procedures and requirements, that all proposed costs and payment methods are reasonable and customary for the service listed.

Tab 4, Experience (30 Points)

- Describe the firm's experience with providing similar size and scope of work as outlined in this RFP. (One page, single or double sided)
- Provide a minimum of three (3) and a maximum of five (5) projects performed within the past five (5) years for which your firm performed debris removal services. At least two (2) of the projects shall be from a disaster recovery project performed for a public or governmental agency. At least three (3) of the projects shall be for disaster recovery project performed as the lead Contractor. At least two (2) of the projects shall be for projects in excess of 250,000 cubic yards. **(Limit response to two (2) page per project)**
    - For each project please provide:
        a. Name of disaster and location of the project;
        b. Size and cost of the project;
        c. Project representative name, address, phone number, and email address;
        d. Date project was completed or is anticipated to be completed; compare to the original date.
        e. Identify the key staff and their role in each project;
        f. Provide the original budget and the final budget of the project. Explain the reason(s) for differences, such as owner requested change, contractor claim, and insufficient plans and specifications.

g. A brief description of the project and what role your firm played in the project.
h. Identify if multiple temporary debris processing sites were established where collected debris was sorted, screened for sand, recycled, ground, mulched, burned, or otherwise segregated for transport and disposal.
i. Identify your firm's expertise and experience in assessing, removing, and disposing of specialty debris including hazardous materials, hazardous wastes, biohazardous wastes, dead animals, and hazardous stumps.
j. Identify your firm's expertise and experience in demolition of structures, and debris removal from private property (Right-of-Entry Programs) and publicly owned property (other than Rights-of-Way).

Tab 5, Resources and Availability (30 Points)

- Provide your firm's organizational structure.
- Provide a resume for the project manager and all key personnel that will be involved in providing the services as outlined in the scope of work. (1 page single or double sided for each resume)
- Demonstrate each key staff's availability to respond to the needs of the project (Two (2) pages maximum for all key staff members)
- Identify subcontractors or joint ventures to be used, if any. For each subcontractor or joint venture identified please provide:
    - A brief description of their experience outlining their qualifications to perform the intended services
    - A brief resume for each key personnel that will be assigned to perform the intended services.
- Identify types and quantities of recovery equipment. The Contractor must clearly identify if equipment is owned by the Contractor or if the equipment is available from other sources.

- The County expects personnel, Subcontractors and equipment identified in the proposal response to be available for work to complete services identified under

this solicitation. The County further expects that the identified equipment will be sufficiently maintained so as to be available to operate in a safe and reliable manner. The Contractor must provide an estimate of the current workload and future commitments to other emergency response contracts both in man-hours per year and as a percentage of total workload for all key project personnel. The Contractor must provide reasonable assurance that the identified personnel will be available to work on future projects. The Contractor must provide reasonable assurance that all equipment identified for disaster recovery will be available and are not contractually obligated to other projects (e.g. residential collection contracts, solid waste transfer contracts, or other disaster debris removal contracts.) The Contractor shall provide a list of all contractual obligations for similar disaster recovery services and provide reasonable assurance that such contracts will not interfere with or preclude the Contractor from responding to the County with the Contractor's full force of manpower and equipment. The Contractor shall disclosure future contractual obligations throughout the term of the contract and provides reasonable assurance that such obligations will not preclude the Contractor from meeting its obligations under this RFP.

- The Contractor must include a mobilization/operation plan that outlines the Contractor's mobilization/operation procedures following a disaster event. Any supplemental plans or operating procedures referenced in proposal must be submitted with your proposal. These additional supporting documents will not count towards the total page count. This outline should include a breakdown of the time required to perform each mobilization task including the time required to mobilize the Contractor's forces, time to establish an on-site emergency response and communication center, time to mobilize recovery equipment, time to establish Temporary Debris Storage and Reduction Sites (TDSRS), and the time required to mobilize Subcontractors. The mobilization/operation plan shall include a breakdown of the manpower and equipment that will be assembled during each phase of the Contractor's response. The response should show how you meet the following minimum standards:

- Following a notice to mobilize, the ability to provide an advance team to the County Emergency Operations Center prior to hurricane landfall;
- Ability to marshal/stage personnel and equipment for rapid deployment into the County while protecting those assets from damage/destruction from the event;
- Ability to be fully operational for clearing debris to open emergency routes within 24 hours of initial notice to proceed;
- Ability to be fully operational for hauling, sorting, and storing of debris within 48 hours of initial notice to proceed;
- Ability to be fully operational for the reduction and disposal of debris within 72 hours of initial notice to proceed;
- Ability to maintain full operational capability, 12 hours per day, 7 days per week for an extended period;
- Ability to rapidly adjust the flow of resources based on the extent and magnitude of damage/debris.

Additionally, the Contractor's response should show how you meet the following minimum standards:

- Ability to clear all debris from all County maintained street, road and highway within 45 days from initial notice to proceed;
- Ability to remove (haul) all debris from all county maintained street, road and highway rights of way within 90 days from initial notice to proceed;
- Ability to complete the entire debris management process from initial clearance through final disposal within 180 days from initial notice to proceed.
- Due to the nature of the emergency and circumstances that may inhibit compliance with the times specified above, a reasonable adjustment to the completion dates may be made by mutual agreement between the Contractor and the County.

- Fiscal capability to maintain operations for 60 days following the initial notice to proceed.

The operation plan for the TDSRS shall describe the operations expected – materials handling, reduction, storage, recycling operations, equipment maintenance, etc. The Contractor shall include provisions for air curtain burning.

A description of the on-site emergency response and communication center must be provided including the type of communication employed by the Contractor and the Contractor's ability to interface with the County's emergency response equipment.

A comprehensive equipment list and man-hour listing must be included in this section.

Tab 6, Project Management (30 Points)

The Contractor should describe the organizational structure, Contractor assigned liaison officer, plans to meet with the County at the location and times specified, and "chain of command" of the Contractor's response team and the project management methods that are most appropriate to perform the contract services outlined in Section V. The discussion should include: methods for communicating with team members and County staff, protocols for team work assignments, data management and project tracking methodologies and capabilities, schedule controls, and any other appropriate management considerations. The Contractor should also discuss the Contractor's staffing and ability to supervise multiple clean-up crews and subcontractors. This discussion should include the Contractor's project management methods that ensure the quality of the work being performed by the Contractor's crews and subcontractors.

Contractor shall provide a comprehensive description of their proposed quality control plan. The description shall include, as a minimum, the Contractor's quality control organization and its authority, the Contractor's overview of the tasks to be inspected, reports and methods of inspections

Tab 7, Surveys of Past Performance (5 Points)

- Provide reference surveys from past clients for the projects identified under Tab 4.
- Completed surveys. (See Exhibit 1) Procurement will take the average of all surveys and score as follows:
    - Average Score between 9-10 (10 Points)
    - Average Score between 7-8 (8 Points)
    - Average Score between 5-6 (6 Points)
    - Average Score between 3-4 (4 Points)
    - Average Score between 1-2 (2 Points)
    - Average Score of 0 (0 Points)

EVALUATION CRITERIA AND SELECTION PROCESS

Proposals will be evaluated in accordance with this section and all applicable County procurement policies and procedures.

The County shall appoint a selection committee (the "Selection Committee") that will be responsible for evaluating and scoring/ranking the Proposals in accordance with this Section.

The County will use a competitive selection process based on the Elevation Levels described in this Section. At Elevation Levels 2 and 3, the Selection Committee will score and/or rank the Proposals as applicable.

Selection of a final Proposal will be based upon the following steps and factors:

Elevation Level 1 (Procurement Requirements Assessment)

The County Procurement Division shall review all Proposals for conformance with RFP guidelines and detailed submittal requirements. At the County's discretion, non-conforming Proposals may be eliminated from further consideration and conforming Proposals shall be elevated to Elevation Level 2.

Procurement will distribute Proposals and evaluation criteria to the Selection Committee.

The Selection Committee may convene to review questions that arise during individual member review of submitted Proposals before Elevation Level 2 to allow for questions, clarifications, explanations, or other discussion to be held before the review of Proposals is completed.

Elevation Level 2 (Selection Committee Evaluation)

Procurement shall score each Proposal on the following evaluation criteria:

- Compensation Schedule (Tab 3)-5 Points
- Surveys of Past Performance (Tab 7)-5 Points

  Subtotal Points-10 Points

by the process stated under each corresponding Tab description

Each Selection Committee member shall score each Proposal on the following evaluation criteria:

- Experience (Tap 4)-30 points
- Resources and Availability (Tab 5)-30 points
- Project Management (Tab 6)-30 points

  Subtotal Points-90 points

by the following process:

Each Selection Committee member shall determine which of the following descriptions applies to each of the foregoing evaluation criteria:

EXCELLENT (1.0): Of the highest or finest quality; exceptional; superior; superb; exquisite; peerless. The Proposer provided information for a given criteria that satisfied the requirements and described specifically how and what will be accomplished in such a manner that exhibited an exceptional and superior degree of understanding, skill, and competency, both qualitatively and quantitatively. The facts included in the narrative (including all supporting documentation, diagrams, drawings, charts, and schedules, etc.) demonstrate the Proposer's ability to perform and deliver far beyond expectation.

VERY GOOD (0.8): To a high degree; better than or above competent and/or skillful. The Proposer provided information for a given criteria that satisfied the requirements and described specifically how and what will be accomplished in such a manner that exhibited a very high degree of understanding, skill, and competency, both qualitatively and quantitatively. The facts included in the narrative (including all supporting

documentation, diagrams, drawings, charts, and schedules, etc.) demonstrate the Proposer's ability to perform and deliver beyond expectation.

GOOD (0.6): Having positive or desirable qualities; competent; skilled; above average. The Proposer provided information for a given criteria that satisfied the requirements and described specifically how and what will be accomplished in such a manner that exhibited a skillful and above-average degree of understanding, skill, and competency, both qualitatively and quantitatively. The facts included in the narrative (including all supporting documentation, diagrams, drawings, charts, and schedules, etc.) demonstrate the Proposer's ability to perform and deliver at the expected level.

FAIR (0.4): Average; moderate; mediocre; adequate; sufficient; satisfactory; standard. The Proposer provided information for a given criteria that satisfied the requirements and described sufficiently how and what will be accomplished in a manner that exhibited an adequate and average degree of understanding, skill, and competency, both qualitatively and quantitatively. The facts included in the narrative (including all supporting documentation, diagrams, drawings, charts, and schedules, etc.) demonstrate the Proposer's ability to perform and deliver at a level slightly below expectation.

POOR (0.2): Inadequate; lacking; inferior in quality; of little or less merit; substandard; marginal.

The Proposer provided information for a given criteria that did not satisfy the requirements and described in an inadequate manner how and what will be accomplished. The information provided simply reiterated a requirement, contained inaccurate statements or references, lacked adequate information, or was of inferior quality. The facts included in the narrative (including all supporting documentation, diagrams, drawings, charts, and schedules, etc.) demonstrate the Proposer's ability to perform and deliver at a substandard and inferior level.

UNACCEPTABLE (0.0):

The Proposer failed to provide any information for a given criteria, provided information that could not be understood, or did not provide the information for a given category as requested.

After a Selection Committee member has determined the description applicable for each evaluation criterion, the total points available for such criterion shall be multiplied by the factor associated with the applicable description to produce the number of points allocated for that evaluation criterion. For example, a Selection Committee member classifies the “Experience and Expertise” criterion (which shall be worth 25 points for the purpose of this example) as “Very Good” (which is a description factor multiplier of 0.8). The points that Selection Committee member allocated for that evaluation criterion would be 20, calculated as follows: 25 available points x 0.8 applicable description factor multiplier = 20 points.

A Selection Committee member’s total score for each Proposal shall equal the sum of the total points allocated for each evaluation criteria.

When all Selection Committee members have completed their Proposal evaluations, the individual Selection Committee member’s total scores for each Proposal will be added together to produce a final score for each Proposal.

Procurement will confirm the calculations for the final score for each Proposal. Then, Procurement shall publish a rank-ordered listing of the Proposals to the Selection Committee with the Proposal receiving the highest point as the highest-ranked Proposal.

If the Selection Committee decides to interview Proposers based on the final scores, then at a minimum the Selection Committee shall elevate the two highest-ranked Proposers to Elevation Level 3 for interviews. If the Selection Committee decides not to interview Proposers, they will collectively decide if they would like to recommend the Board, or if applicable the County Manager authorize staff to enter into Contract Negotiations with all Proposers, starting with the highest scoring Proposer. After Board or County Manager approval, as applicable, to authorize staff to negotiate a contract, the Proposers will then be elevated to Elevation Level 4 for contract negotiations.

The determination of whether the County Manager may authorize negotiations, without further approval of the Board, is contingent upon whether the anticipated cost of the agreement exceeds $100,000. The County Manager may authorize contract negotiations for contracts which are not anticipated to exceed $100,000 in total.

Elevation Level 3 (Proposer Interviews)

The Selection Committee shall conduct interviews of the Proposers that it has elevated from Elevation Level 2 to Elevation Level 3. During an interview, elevated Proposers shall make a presentation describing the key elements of their Proposal and/or address any specific topics the Selection Committee may determine necessary. The Selection Committee members will have an opportunity to inquire about any aspect of the RFP and the Proposer's Proposal. After all elevated Proposer interviews, each Selection Committee member shall evaluate each Proposer with emphasis on the following:

Proposer interview and presentation focusing on the key elements of their presentation and answers to questions of the Selection Committee.

After the interviews, each Selection Committee member will individually rank the Proposers in numerical order beginning at number 1 for the highest-ranked Proposer. Procurement shall receive and compile each Selection Committee member's ranking of each Proposer, and then publish a rank-ordered listing of Proposers to the Selection Committee, based on the combined average rankings given each Proposer. The Selection Committee members will then collectively decide if they would like to recommend the Board, or if applicable the County manager, authorize staff to enter into Contract Negotiations with all Proposers elevated to Proposer Interviews, starting with the highest-ranked Proposer. After Board or County Manager approval, as applicable, to authorize staff to negotiate a contract, the highest-ranked Proposer will then be elevated to Elevation Level 4, Contract Negotiations.

The determination of whether the County Manager may authorize negotiations, without further approval of the Board, is contingent upon whether the anticipated cost of the agreement exceeds $100,000. The County Manager may authorize contract negotiations for contracts which are not anticipated to exceed $100,000 in total.

Elevation Level 4 (Contract Negotiations)

If a Proposer is elevated to this level, the User division, with the assistance of the Procurement and the County Attorney's Office, shall negotiate an Agreement with the elevated Proposer.

If after negotiating for a reasonable time period the parties cannot agree on a contract, the County shall, in its sole discretion, terminate further contract negotiations with that Proposer. Procurement shall notify the Selection Committee that contract negotiations with the elevated Proposer have terminated. The Selection Committee shall then determine whether to enter into contract negotiations with the next-highest-ranked Proposer, and so on. If the Selection Committee decides not to recommend contract negotiations with the next-highest-ranked Proposer, and so on, or if the County determines there is no other Proposer with whom the County can successfully negotiate a contract, then the RFP Selection Process shall terminate.

After contract negotiations with a Proposer are successfully completed pursuant to Elevation Level 4, the Selection Committee shall recommend to the Board of County Commissioners or County Manager, as applicable, that it selects such Proposer to provide the services as outlined in the Agreement. The Board of County Commissioners or County Manager, as applicable, shall make the final decision whether the County shall enter into an Agreement with a Proposer.

The determination of whether the County Manager may execute a contract, without further Board approval, is contingent upon whether the cost of the agreement exceeds $100,000. The County Manager may execute contracts that do not exceed $100,000 in total.

GENERAL CONDITIONS

BID OPENING

Proposers may attend the Bid Opening in person or via conference call by dialing (646) 558-8656 and enter Meeting ID: 327 647 2818. A listing of all proposers will be posted to Procurement's website as soon as possible after bid opening.

COMMUNICATIONS

After the issuance of any Request for Proposal, prospective proposers shall not contact, communicate with or discuss any matter relating in any way to the Request for Proposal with the Board of County Commissioners, the County Manager, or any employee of Polk County other than the Procurement Director or as directed in the cover page of the Request for Proposal. This prohibition begins with the issuance of any Request for Proposal and ends upon execution of the final contract. Such communications initiated by a proposer shall be grounds for disqualifying the offending proposer from consideration for award of the proposal and/or any future proposal.

INSURANCE REQUIREMENTS

The selected firm, if any, shall maintain, at all times, the following minimum levels of insurance and; shall, without in any way altering their liability, obtain, pay for and maintain insurance for the coverages and amounts of coverage not less than those set forth below. Provide to the County original Certificates of Insurance satisfactory to the County to evidence such coverage before any work commences. Polk County, a political subdivision of the State of Florida, shall be an additional named insured on all policies related to the project; excluding workers' compensation and professional liability. The Workers' Compensation and General Liability policies shall contain a waiver of subrogation in favor of Polk County. All insurance coverage shall be written with a company having an A.M. Best Rating of at least the "A" category and size category of VIII. The firm's deductible per line of coverage shall not exceed $25,000 without the permission of the County. Policies that include Self Insured Retention will not be accepted. In the event of any failure by the firm to comply with the provisions; the County may, at its option, on notice to the firm suspend the project for cause until there is full compliance. Alternatively, the County may purchase such insurance at the firm's expense, provided that the County shall have no obligation to do so and if the County shall do so, the firm shall not be relieved of or excused from the obligation to obtain and maintain such insurance amounts and coverages.

Workers' Compensation and Employer's Liability Insurance providing statutory benefits, including those that may be required by any applicable federal statute:

Admitted in Florida Yes

Employer's Liability	$1,000,000
All States Endorsement	Statutory
Voluntary Compensation	Statutory

Commercial General Liability Insurance. $4,000,000 combined single limit of liability for bodily injuries, death, and property damage, and personal injury resulting from any one occurrence, including the following coverages:

Premises and Operations and Products/Completed Operations;

Broad Form Commercial General Liability Endorsement to include blanket contractual liability (specifically covering, but not limited to, the contractual obligations assumed by the Firm); Personal Injury (with employment and contractual exclusions deleted) and Broad Form Property Damage coverages;

Independent Contractors; Delete Exclusion relative to Collapse, Explosion and Underground Property Damage Hazards; Policy must include Separation of Insureds Clause.

Comprehensive Automobile Liability Insurance. $2,000,000 combined single limit of liability for bodily injuries, death, and property damage, and personal injury resulting from any one occurrence, including all owned, hired and non-owned vehicles.

Pollution Liability Insurance. $1,000,000 including pollution due to automobile operations.

INDEMNIFICATION

Contractor, to the extent permitted by law, shall indemnify, defend (by counsel reasonably acceptable to County), protect and hold the County, and its officers, employees and agents, harmless from and against any and all, claims, actions, causes of action, liabilities, penalties, forfeitures, damages, losses, and expenses whatsoever (including, without limitation, attorneys' fees, costs, and expenses incurred during negotiation, through litigation and all appeals therefrom) including, without limitation, those pertaining to the death of or injury to any person, or damage to any property, arising out of or resulting from (i) the failure of Contractor to comply with applicable laws, rules or regulations, (ii) the breach by Contractor of its obligations under any Agreement with the County entered into pursuant to this solicitation, (iii) any claim for trademark, patent, or copyright infringement arising out of the scope of Contractor's performance or nonperformance of the Agreement, or (iv) the negligent acts, errors or omissions, or intentional or willful misconduct, of Contractor, its professional associates,

subcontractors, agents, and employees; provided, however, that Contractor shall not be obligated to defend or indemnify the County with respect to any such claims or damages arising out of the County's sole negligence. The obligations imposed by this Section shall survive the expiration or earlier termination of the Agreement.

PUBLIC ENTITY CRIMES STATEMENT

The Contractor declares and warrants that neither the Contractor nor any of the Contractor's affiliates, as that term is defined in Section 287.133, Florida Statutes, are subject to the restrictions in Section 287.133, Florida Statutes, regarding the commission of a public entity crime. If during the term of this Agreement, the Contractor or any affiliate is convicted of a public entity crime or is otherwise prohibited from performing work for or transacting business with the County pursuant to Section 287.133, Florida Statutes, then the Contractor shall be in material default of this Agreement, and in such case, the County shall have the rights and remedies as provided herein.

EQUAL OPPORTUNITY/AFFIRMATIVE ACTION

The County is an equal opportunity/affirmative action employer. The County is committed to equal opportunity employment effort; and expects Contractors that do business with the County to have a vigorous affirmative action program.

WOMEN/MINORITY BUSINESS ENTERPRISE OUTREACH

The County hereby notifies all Proposers that W/MBE's are to be afforded a full opportunity to participate in any request for proposal by the County and will not be subject to discrimination on the basis of race, color, sex or national origin.

AFFIRMATION

By submitting their proposal, the Proposer affirms that the proposal is genuine and not made in the interest of or on behalf of any undisclosed person, Contractor or corporation and is not submitted in conformity with any agreement or rules of any group, association, organization or corporation; the Proposer has not directly or indirectly induced or solicited any other person to submit a false or sham proposal; the Proposer has not solicited or induced any person, Contractor or corporation to refrain from

submitting a proposal; and the Proposer has not sought by collusion to obtain for him/herself any advantage over other persons or over the County.

DEVELOPMENT COSTS

Neither the County nor its representative(s) shall be liable for any expenses incurred in connection with preparation of a submittal to the RFP. Proposers should prepare their proposals simply and economically, providing a straightforward and concise description of the proposer's ability to meet the requirements of the RFP.

ADDENDA

The County may record its responses to inquiries and any supplemental instructions in the form of written addenda. The addenda will be posted on the County's website at https://www.polk-county.net/business/procurement/. It is the sole responsibility of the proposers to check the website to ensure that all available information has been received prior to submitting a proposal.

CODE OF ETHICS

If any proposer violates or is a party to a violation of the code of ethics of Polk County or the State of Florida, with respect to this proposal, such proposer may be disqualified from performing the work described in this proposal or from furnishing the goods or services for which the proposal is submitted and shall be further disqualified from bidding on any future proposals for work, goods, or services for the County.

DRUG FREE WORKPLACE

Preference shall be given to businesses with Drug Free Workplace (DFW) programs. Whenever two or more proposals, which are equal with respect to price, quality and service, are received by the County for the procurement of commodities or contractual services, a proposal received from a business that has provided a statement that it is a DFW shall be given preference in the award process.

APPLICABLE LAWS AND COURTS

This RFP and any resulting agreements shall be governed in all respects by the laws of the State of Florida and any litigation with respect thereto shall be brought only in the courts of Polk County, State of Florida or the Middle District of Florida, Hillsborough

County, Florida. The proposer shall comply with all applicable federal, state and local laws and regulations.

CONTRACT

All contracts are subject to final approval of the Polk County Board of County Commissioners or County Manager, as applicable. Persons or Contractors which incur expenses or change position in anticipation of a contract prior to the Board's approval do so at their own risk.

PROPOSAL ACCEPTANCE PERIOD

A proposal shall be binding upon the offeror and irrevocable by it for one hundred and twenty (120) calendar days following the proposal opening date. Any proposal in which offeror shortens the acceptance period may be rejected.

ADDITION/DELETION

The County reserves the right to add to or delete any item from this proposal or resulting agreements when deemed to be in the best interest of the County.

INVOICING AND PAYMENT: The successful proposer shall submit a properly certified invoice to the County at the contract prices**. An original invoice shall be submitted to the appropriate User Division.** The proposer shall include the contract number and/or the purchase order number on all invoices. By submitting an invoice, the proposer's Project Manager or any authorized officer is attesting to the correctness and accuracy of all charges. Invoices will be processed for payment when approved by the appropriate Division's Project Manager or designee. The County's payment of an invoice shall not constitute evidence of the County's acceptance of the Proposers performance of the Service or the County's acceptance of any work.

PROPRIETARY INFORMATION

In accordance with Chapter 119 of the Florida Statutes (Public Records Law) and except as may be provided by other applicable State and Federal Law, all proposers should be aware that Request for Proposals and the submittals thereto are in the public domain. However, the proposers are required to identify specifically any information contained in their proposals which they consider confidential and/or proprietary and which they believe to be exempt from disclosure, citing specifically the applicable

exempting law. Proposers should provide a redacted copy of proposal with submittal, or must provide within thirty (30) days from the Proposal due date.

All proposals received from proposers in response to this Request for Proposal will become the property of the County and will not be returned to the proposers. In the event of contract award, all documentation produced as part of the contract will become the exclusive property of the County.

REVIEW OF PROPOSAL FILES

In accordance with Chapter 119.071 of the Florida Statutes, the submittals received for this Request for Proposal are exempt from review for thirty (30) days after the Bid Opening Date or at Recommendation of Award, whichever event occurs first.

Should the RFP be cancelled and re-solicited for any reason, proposal submittals shall remain exempt from disclosure for a period not to exceed twelve (12) months or at Recommendation of Award of the subsequent solicitation.

RFP PROTEST: Any proposer desiring to file a protest, with respect to a recommended award of any RFP, shall do so by filing a written protest. The written protest must be in the possession of the Procurement Division within three (3) working days of the Notice of Recommended Award mailing date. All proposers who submitted a proposal will be sent a Notice of Recommended Award, unless only one proposal was received.

A copy of the protest procedures may be obtained from the Polk County Procurement Division or can be downloaded from the County's website at https://www.polk-county.net/business/procurement/protest-procedures/.

FAILURE TO FOLLOW PROTEST PROCEDURE REQUIREMENTS WITHIN THE TIME FRAMES PRESCRIBED HEREIN AS ESTABLISHED BY POLK COUNTY, FLORIDA, SHALL CONSTITUTE A WAIVER OF THE PROPOSER'S RIGHT TO PROTEST AND ANY RESULTING CLAIM.

UNAUTHORIZED ALIEN(S)

The vendor agrees that unauthorized aliens shall not be employed nor utilized in the performance of the requirements of this solicitation. The County shall consider the employment or utilization of unauthorized aliens a violation of Section 274A(e) of the

Immigration and Naturalization Act (8 U.S.C. 1324a). Such violation shall be cause for unilateral termination of this Agreement by the County. As part of the response to this solicitation, the successful Contractor will complete and submit the attached form "AFFIDAVIT CERTIFICATION IMMIGRATION LAWS."

EMPLOYMENT ELIGIBILITY VERIFICATION (E-Verify)

A. Unless otherwise defined herein, terms used in this Section which are defined in Section 448.095, Florida Statutes, as may be amended from time to time, shall have the meaning ascribed in said statute.

B. Pursuant to Section 448.095(5), Florida Statutes, the contractor hereto, and any subcontractor thereof, must register with and use the E-Verify system to verify the work authorization status of all new employees of the contractor or subcontractor. The contractor acknowledges and agrees that (i) the County and the contractor may not enter into this Agreement, and the contractor may not enter into any subcontracts hereunder, unless each party to this Agreement, and each party to any subcontracts hereunder, registers with and uses the E-Verify system; and (ii) use of the U.S. Department of Homeland Security's E-Verify System and compliance with all other terms of this Certification and Section 448.095, Fla. Stat., is an express condition of this Agreement, and the County may treat a failure to comply as a material breach of this Agreement.

C. By entering into this Agreement, the contractor becomes obligated to comply with the provisions of Section 448.095, Fla. Stat., "Employment Eligibility," as amended from time to time. This includes but is not limited to utilization of the E-Verify System to verify the work authorization status of all newly hired employees, and requiring all subcontractors to provide an affidavit attesting that the subcontractor does not employ, contract with, or subcontract with, an unauthorized alien. The contractor shall maintain a copy of such affidavit for the duration of this Agreement. Failure to comply will lead to termination of this Agreement, or if a subcontractor knowingly violates the statute or Section 448.09(1), Fla. Stat., the subcontract must be terminated immediately. If this Agreement is terminated pursuant to Section 448.095, Fla. Stat., such termination is not a breach of contract and may not be considered as such. Any challenge to termination under this provision must be filed in the Tenth Judicial Circuit Court of Florida no later than 20 calendar days after the date of termination. If this Agreement is terminated for a violation of Section 448.095, Fla. Stat., by the contractor, the contractor may not be awarded a public contract for a period of 1 year after the date of termination. The contractor shall be liable for any additional costs incurred by the County as a result of the termination of this Agreement. Nothing in this Section shall be construed to allow intentional discrimination of any class protected by law.

LIMITATIONS

The County reserves the right to revise, amend or withdraw this proposal at any time to protect its interest. Proposers will not be compensated by the County for costs incurred in preparation of responses to this RFP.

ATTORNEY'S FEES AND COSTS: Each party shall be responsible for its own legal and attorney's fees, costs and expenses incurred in connection with any dispute or any litigation arising out of, or relating to this Agreement, including attorney's fees, costs and expenses incurred for any appellate or bankruptcy proceedings.

Prohibition Against Considering Vendor Interests: In accordance with Section 287.05701, Florida Statutes, the County may not (i) request documentation of or consider a Vendor's social, political, or ideological interests when determining if the Vendor is a responsible vendor; or (ii) give preference to a Vendor based on the Vendor's social, political, or ideological interests.

PUBLIC RECORD LAWS

(a)The Contractor acknowledges the County's obligations under Article I, Section 24, of the Florida Constitution and under Chapter 119, Florida Statutes, to release public records to members of the public upon request and comply in the handling of the materials created under this Agreement. The Contractor further acknowledges that the constitutional and statutory provisions control over the terms of this Agreement. In association with its performance pursuant to this Agreement, the Contractor shall not release or otherwise disclose the content of any documents or information that is specifically exempt from disclosure pursuant to all applicable laws.

(b) Without in any manner limiting the generality of the foregoing, to the extent applicable, the Contractor acknowledges its obligations to comply with Section 119.0701, Florida Statutes, with regard to public records, and shall:

(1) keep and maintain public records required by the County to perform the services required under this Agreement;

(2) upon request from the County's Custodian of Public Records or his/her designee, provide the County with a copy of the requested records or allow the records to be inspected or copied within a reasonable time at a cost that does not exceed the cost provided in Chapter 119, Florida Statutes, or as otherwise provided by law;

(3) ensure that public records that are exempt or confidential and exempt from public records disclosure requirements are not disclosed except as authorized by law for the duration of the term of this Agreement and following completion of this Agreement if the Contractor does not transfer the records to the County; and

(4) upon completion of this Agreement, transfer, at no cost, to the County all public records in possession of the Contractor or keep and maintain public records required by the County to perform the service. If the Contractor transfers all public records to the County upon completion of this Agreement, the Contractor shall destroy any duplicate public records that are exempt or confidential and exempt from public records disclosure requirements. If the Contractor keeps and maintains public records upon completion of this Agreement, the Contractor shall meet all applicable

requirements for retaining public records. All records stored electronically must be provided to the County, upon request from the County's Custodian of Public Records, in a format that is compatible with the information technology systems of the County.

(c) **IF THE CONTRACTOR HAS QUESTIONS REGARDING THE APPLICATION OF CHAPTER 119, FLORIDA STATUTES, TO THE CONTRACTOR'S DUTY TO PROVIDE PUBLIC RECORDS RELATING TO THIS AGREEMENT, CONTACT THE COUNTY'S CUSTODIAN OF PUBLIC RECORDS AT:**

RECORDS MANAGEMENT LIAISON OFFICER
POLK COUNTY

BARTOW, FL 33830
TELEPHONE: (863) 534-7670
EMAIL: RMLO@POLK-COUNTY.NET

Scrutinized Companies and Business Operations Certification; Termination.

A. Certification(s)

(I) By its execution of this Agreement, the Vendor hereby certifies to the County that the Vendor is not on the Scrutinized Companies that Boycott Israel List, created pursuant to Section 215.4725, Florida Statutes, nor is the Vendor engaged in a boycott of Israel, nor was the Vendor on such List or engaged in such a boycott at the time it submitted its bid, proposal, quote, or other form of offer, as applicable, to the County with respect to this Agreement.

(II) Additionally, if the value of the goods or services acquired under this Agreement are greater than or equal to One Million Dollars ($1,000,000), then the Vendor further certifies to the County as follows:

(a) the Vendor is not on the Scrutinized Companies with Activities in Sudan List, created pursuant to Section 215.473, Florida Statutes; and
(b) the Vendor is not on the Scrutinized Companies with Activities in the Iran Petroleum Energy Sector List, created pursuant to Section 215.473, Florida Statutes; and
(c) the Vendor is not engaged in business operations (as that term is defined in Florida Statutes, Section 287.135) in Cuba or Syria; and
(d) the Vendor was not on any of the Lists referenced in this subsection A(ii), nor engaged in business operations in Cuba or Syria when it submitted its proposal to the County concerning the subject of this Agreement.

(iii) The Vendor hereby acknowledges that it is fully aware of the penalties that may be imposed upon the Vendor for submitting a false certification to the County regarding the foregoing matters.

B. Termination. In addition to any other termination rights stated herein, the County may immediately terminate this Agreement upon the occurrence of any of the following events:

(i) The Vendor is found to have submitted a false certification to the County with respect to any of the matters set forth in subsection A(i) above, or the Vendor is found to have been placed on the Scrutinized Companies that Boycott Israel List or is engaged in a boycott of Israel.

(ii) The Vendor is found to have submitted a false certification to the County with respect to any of the matters set forth in subsection A(ii) above, or the Vendor is found to have been placed on the Scrutinized Companies with Activities in Sudan List, or the Scrutinized Companies with Activities in the Iran Petroleum Energy Sector List, or has been engaged in business operations in Cuba or Syria, and the value of the goods or services acquired under this Agreement are greater than or equal to One Million Dollars ($1,000,000).

SUPPLEMENTAL CONDITIONS

Breach During Emergency Recovery Period. Pursuant to §252.505, Fla. Stat, in the event this Agreement concerns goods or services related to a natural emergency, Vendor agrees that if Vendor breaches this Agreement during the Emergency Recovery Period, then the County shall be entitled to (a) a payment of $5000, and (b) recovery of damages, which may take the form of actual and consequential damages or liquidated damages. The term “Emergency Recovery Period” means a one-year period that begins on the date the Governor of Florida initially declared a state of emergency for a natural emergency. This provision shall survive the termination of this Agreement.

FEDERAL CLAUSES

The County may seek funding reimbursement for all or a portion of the services provided under this Agreement from FEMA Public Assistance. In accordance with the federal procurement standards at 2 C.F.R. sections 200.317 through 200.327 the following clauses are incorporated in this bid, any resulting award with the prime Vendor, and any resulting contracts between the prime Vendor and sub-contractors and material suppliers. The following conditions are supplemental to the General Terms and Conditions. Where there is conflict, these Supplemental Conditions prevail unless the General Terms and Conditions are stricter.

Equal Employment Opportunity. (Only applicable to construction bids)

During the performance of this Contract, the Contractor agrees as follows:

(1) The Contractor will not discriminate against any employee or applicant for employment because of race, color, religion, sex, or national origin. The contractor will take affirmative action to ensure that applicants are employed, and that employees are treated during employment without regard to their race, color, religion, sex, or national origin. Such action shall include, but not be limited to the following: Employment, upgrading, demotion, or transfer; recruitment or recruitment advertising; layoff or termination; rates of pay or other forms of compensation; and selection for training, including apprenticeship. The contractor agrees to post in conspicuous places, available

to employees and applicants for employment, notices to be provided setting forth the provisions of this nondiscrimination clause.

(2) The Contractor will, in all solicitations or advertisements for employees placed by or on behalf of the contractor, state that all qualified applicants will receive considerations for employment without regard to race, color, religion, sex, or national origin.

(3) The Contractor will send to each labor union or representative of workers with which he has a collective bargaining agreement or other contract or understanding, a notice to be provided advising the said labor union or workers' representatives of the Contractor's commitments under this section and shall post copies of the notice in conspicuous places available to employees and applicants for employment.

(4) The contractor will comply with all provisions of Executive Order 11246 of September 24, 1965, and of the rules, regulations, and relevant orders of the Secretary of Labor.

(5) The Contractor will furnish all information and reports required by Executive Order 11246 of September 24, 1965, and by rules, regulations, and orders of the Secretary of Labor, or pursuant thereto, and will permit access to his books, records, and accounts by the administering agency and the Secretary of Labor for purposes of investigation to ascertain compliance with such rules, regulations, and orders.

(6) In the event of the Contractor's noncompliance with the nondiscrimination clauses of this contract/Purchase Order or with any of the said rules, regulations, or orders, this contract/Purchase Order may be canceled, terminated, or suspended in whole or in part and the contractor may be declared ineligible for further Government contracts or federally assisted construction contracts in accordance with procedures authorized in Executive Order 11246 of September 24, 1965, and such other sanctions as may be imposed and remedies invoked as provided in Executive Order 11246 of September 24, 1965, or by rule, regulation, or order of the Secretary of Labor, or as otherwise provided by law.

(7) The Contractor will include the portion of the sentence immediately preceding paragraph (1) and the provisions of paragraphs (1) through (7) in every subcontract or purchase order unless exempted by rules, regulations, or orders of the Secretary of Labor issued pursuant to section 204 of Executive Order 11246 of September 24, 1965, so that such provisions will be binding upon each subcontractor or vendor. The Contractor will take such action with respect to any subcontract or purchase order as the administering agency may direct as a means of enforcing such provisions, including sanctions for noncompliance: Provided, however, That in the event a Contractor becomes involved in, or is threatened with, litigation with a subcontractor or vendor as a result of such direction by the administering agency the contractor may request the United States to enter into such litigation to protect the interests of the United States.

Contract Work Hours and Safety Standards Act.

(1) Overtime requirements. Neither the Contractor, nor any subcontractor contracting for any part of the contract work which may require or involve the employment of laborers or mechanics shall require or permit any such laborer or mechanic in any workweek in which he or she is employed on such work to work in

excess of forty hours in such workweek unless such laborer or mechanic receives compensation at a rate not less than one and one-half times the basic rate of pay for all hours worked in excess of forty hours in such workweek.

(2) Violation; liability for unpaid wages; liquidated damages. In the event of any violation of the clause set forth in paragraph (1) of this section the Contractor and any subcontractor responsible therefor shall be liable for the unpaid wages. In addition, such contractor and subcontractor shall be liable to the United States (in the case of work done under contract for the District of Columbia or a territory, to such District or to such territory), for liquidated damages. Such liquidated damages shall be computed with respect to each individual laborer or mechanic, including watchmen and guards, employed in violation of the clause set forth in paragraph (1) of this section, in the sum of $10 for each calendar day on which such individual was required or permitted to work in excess of the standard workweek of forty hours without payment of the overtime wages required by the clause set forth in paragraph (1) of this section.

(3) Withholding for unpaid wages and liquidated damages. The (write in the name of the Federal agency or the loan or grant recipient) shall upon its own action or upon written request of an authorized representative of the Department of Labor withhold or cause to be withheld, from any moneys payable on account of work performed by the contractor or subcontractor under any such contract or any other Federal contract with the same prime contractor, or any other federally-assisted contract subject to the Contract Work Hours and Safety Standards Act, which is held by the same prime contractor, such sums as may be determined to be necessary to satisfy any liabilities of such contractor or subcontractor for unpaid wages and liquidated damages as provided in the clause set forth in paragraph (2) of this section.

(4) Subcontracts. The Contractor or subcontractor shall insert in any subcontracts the clauses set forth in paragraph (1) through (4) of this section and also a clause requiring the subcontractors to include these clauses in any lower tier subcontracts. The prime contractor shall be responsible for compliance by any subcontractor or lower tier subcontractor with the clauses set forth in paragraphs (1) through (4) of this section.

Clean Air Act and the Federal Water Pollution Control Act.

Clean Air Act

(1) The Contractor agrees to comply with all applicable standards, orders or regulations issued pursuant to the Clean Air Act, as amended, 42 U.S.C. § 7401 et seq.

(2) The Contractor agrees to report each violation to the County and understands and agrees that the County will, in turn, report each violation as required to assure notification to the State of Florida Department of Economic Opportunity, US Department of Housing and Urban Development, and the appropriate Environmental Protection Agency Regional Office.

(3) The Contractor agrees to include these requirements in each subcontract exceeding $150,000 financed in whole or in part with Federal assistance provided by US Department of Housing and Urban Development.

Federal Water Pollution Control Act

(1) The Contractor agrees to comply with all applicable standards, orders or regulations issued pursuant to the Federal Water Pollution Control Act, as amended, 33 U.S.C. 1251 et seq.

(2) The Contractor agrees to report each violation to the County and understands and agrees that the (County will, in turn, report each violation as required to assure notification to the Florida Department of Economic Opportunity, US Department of Housing and Urban Development, and the appropriate Environmental Protection Agency Regional Office.

(3) The Contractor agrees to include these requirements in each subcontract exceeding $150,000 financed in whole or in part with Federal assistance provided by US Department of Housing and Urban Development.

Debarment and Suspension. (Exhibit "A")

(1) This Contract/Purchase Order is a covered transaction for purposes of 2 C.F.R. pt. 180 and 2 C.F.R. pt. 3000. As such the contractor is required to verify that none of the Contractor, its principals (defined at 2 C.F.R. § 180.995), or its affiliates (defined at 2 C.F.R. § 180.905) are excluded (defined at 2 C.F.R. § 180.940) or disqualified (defined at 2 C.F.R. § 180.935).

(2) The Contractor must comply with 2 C.F.R. pt. 180, subpart C and 2 C.F.R. pt. 3000, subpart C and must include a requirement to comply with these regulations in any lower tier covered transaction it enters into.

(3) This certification is a material representation of fact relied upon by Polk County. If it is later determined that the Contractor did not comply with 2 C.F.R. pt. 180, subpart C and 2 C.F.R. pt. 3000, subpart C, in addition to remedies available to the Florida Division of Management and the County, the Federal Government may pursue available remedies, including but not limited to suspension and/or debarment.

(4) The bidder or proposer agrees to comply with the requirements of 2 C.F.R. pt. 180, subpart C and 2 C.F.R. pt. 3000, subpart C while this offer is valid and throughout the period of any contract or purchase order that may arise from this offer. The bidder or proposer further agrees to include a provision requiring such compliance in its lower tier covered transactions.

Byrd Anti-Lobbying Amendment, 31 U.S.C. § 1352 (as amended)

Contractors who apply or bid for an award of $100,000 or more shall file the required certification (attached hereto as Exhibit "B"). Each tier certifies to the tier above that it will not and has not used Federal appropriated funds to pay any person or organization for influencing or attempting to influence an officer or employee of any agency, a member of Congress, officer or employee of Congress, or an employee of a member of Congress in connection with obtaining any Federal contract, grant, or any other award covered by 31 U.S.C. § 1352. Each tier shall also disclose any lobbying with non-Federal funds that takes place in connection with obtaining any Federal award. Such disclosures are forwarded from tier to tier up to the recipient.

Procurement of Recovered Materials.

(1) In the performance of this Contract/Purchase Order, the Contractor shall to the greatest extent practicable and consistent with law, purchase, acquire, or use products and services that can be reused, refurbished, or recycled; contain recycled content, are biobased, or are energy and water efficient; and are sustainable. Additionally, Contractors shall make maximum use of products containing recovered materials that are EPA- designated items unless the product cannot be acquired—

(i) Competitively within a timeframe providing for compliance with the contract performance schedule;

(ii) Meeting contract performance requirements; or

(iii) At a reasonable price.

(2) Information about this requirement, along with the list of EPA-designate items, is available at EPA's Comprehensive Procurement Guidelines web site, https://www.epa.gov/smm/comprehensive-procurement-guideline-cpg-program."

Domestic Preference

In accordance with 2 CFR §200.322, to the greatest extent practicable and consistent with law under a Federal award, the County must provide a preference for the purchase acquisition, or use of goods, products, or materials produced in the United States (including but not limited to iron, aluminum, steel, cement, and other manufactured products). The requirements of this section must be included in all subawards including all contracts and purchase orders for work or products under this award. For purposes of this section:

(1) "Produced in the United States" means, for iron and steel products, that all manufacturing processes, from the initial melting stage through the application of coatings, occurred in the United States.

(2) "Manufactured products" means items and construction materials composed in whole or in part of non-ferrous metals such as aluminum; plastics and polymer based products such as polyvinyl chloride pipe; aggregates such as concrete; glass, including optical fiber; and lumber.

Affirmative Action.

In accordance with 2 CFR §200.321, the County is committed to taking all necessary steps to assure that minority businesses, women's business enterprises, veteran-owned businesses and labor surplus area firms are used when possible. The Contractor shall also take such affirmative steps in the selection of its subcontractors, laborers and materialmen. Affirmative steps include:

(1) Placing qualified small and minority businesses, women's business enterprises, and veteran-owned businesses on solicitation lists;

(2) Assuring that small and minority businesses, women's business enterprises, and veteran-owned businesses are solicited whenever they are potential sources;

(3) Dividing total requirements, when economically feasible, into smaller tasks or quantities to permit maximum participation by small and minority businesses,

women's business enterprises, and veteran-owned businesses;

(4) Establishing delivery schedules, where the requirement permits, which encourage participation by small and minority businesses, women's business enterprises, and veteran-owned businesses; and

(5) Using the services and assistance, as appropriate, of such organizations as the Small Business Administration and the Minority Business Development Agency of the Department of Commerce.

Access to Records. The following access to records requirements apply to this Purchase Order:

(1) The Contractor agrees to provide the Florida Department of Economic Opportunity, Polk County, the US Department of Housing and Urban Development Administrator, the Comptroller General of the United States, or any of their authorized representative's access to any books, documents, papers, and records of the Contractor which are directly pertinent to this Purchase Order for the purposes of making audits, examinations, excerpts, and transcriptions.

(2) The Contractor agrees to permit any of the foregoing parties to reproduce by any means whatsoever or to copy excerpts and transcriptions as reasonably needed.

(3) The Contractor agrees to provide the US Department of Housing and Urban Development Administrator or his authorized representative's access to construction or other work sites pertaining to the work being completed under the Purchase Order."

DHS Seal, Logo, and Flags. The Contractor shall not use the DHS seal(s), logos, crests, or reproductions of flags or likenesses of DHS agency officials without specific FEMA pre- approval.

Compliance with Federal Law, Regulations, and Executive Orders. This is an acknowledgement that US Department of Housing and Urban Development financial assistance will be used to fund the Purchase Order only. The Contractor will comply will all applicable federal law, regulations, executive orders, US Department of Housing and Urban Development policies, procedures, and directives.

No Obligation by Federal Government. The Federal Government is not a party to this Purchase Order and is not subject to any obligations or liabilities to the non-Federal entity, contractor, or any other party pertaining to any matter resulting from this Purchase Order.

Program Fraud and False or Fraudulent Statements or Related Acts.

The Contractor acknowledges that 31 U.S.C. Chap. 38 (Administrative Remedies for False Claims and Statements) applies to the Contractor's actions pertaining to this Purchase Order.

Default and Remedy

Process. If the Contractor materially defaults in the timely performance of any Contract obligation, or if the Contractor is otherwise in material default of the Contract, including, without limitation, the Contractor's failure to timely deliver any portion, or the entirety, of the Project Work in accordance with the Contract documents, then the County shall have the right to (i) with or without terminating the Contract, immediately call in any bonds or other form of security, and engage other Contractors or providers at the

Contractor's sole cost and expense to provide those unperformed or deficient Contract obligations of the Contractor; (ii) set-off the monetary amount of any and all damages arising therefrom, whether direct or indirect, actual or liquidated, from the amounts due Contractor pursuant to the Contract documents, (iii) immediately terminate the Contract by delivering written notice to the Contractor, and (iv) pursue any and all remedies available in law, equity, and under the Contract, including, without limitation, the recovery of any increased cost to the County to complete the Project Work due to the loss of CDBG-MIT funding caused, directly or indirectly, by the Contractor's delay. Upon any such termination pursuant to this Section, the County shall pay the Contractor the full amount due and owing for all services properly performed through the date of the Contract termination, less any amount subject to the County's right of set-off, and all liability of the County to the Contractor shall cease.

Certain Material Defaults.

Among other matters, including without limitation, the Contractor's failure to timely deliver any portion, or the entirety, of the Project Work in accordance with the Contract documents, as described immediately above, any of the following shall constitute the Contractor's material default of the Contract: the appointment of a receiver to take possession of all or substantially all of the Contractor's assets, a general assignment by the Contractor for the benefit of creditors, or any action taken by or suffered by Contractor under any insolvency or bankruptcy act; or the Contractor is convicted of a public entity crime, is determined to have violated federal or state law prohibiting discrimination as stated in Section 287.134, Florida Statutes, or is prohibited from performing work for or transacting business with the County pursuant to Section 287.133 or to Section 287.134, Florida Statutes; or an assignment of the Contract made without the express written consent of the County; or the submission of a false certification to the County or engagement in prohibited business operations, both as described in the Contract Documents.

Prohibition on Certain Telecommunications and Video Surveillance Services or Equipment

In accordance with 2 CFR §200.216 and Appendix II to Part 200, subsection (K), no funding or services provided pursuant to or in connection with this Contract, shall in any way be used to:

(1) Procure or obtain;

(2) Extend or renew a contract to procure or obtain; or

(3) Enter into a contract (or extend or renew a contract) to procure or obtain equipment, services, or systems that uses covered telecommunications equipment or services as a substantial or essential component of any system, or as critical technology as part of any system. As described in Public Law 115–232, section 889, covered telecommunications equipment is telecommunications equipment produced by Huawei Technologies Company or ZTE Corporation (or any subsidiary or affiliate of such entities).

(i) For the purpose of public safety, security of government facilities, physical security surveillance of critical infrastructure, and other national security purposes, video surveillance and telecommunications equipment produced by Hytera Communications Corporation, Hangzhou Hikvision Digital Technology Company, or Dahua Technology Company (or any subsidiary or affiliate of such entities).

(ii) Telecommunications or video surveillance services provided by such entities or using such equipment.

(iii) Telecommunications or video surveillance equipment or services produced or provided by an entity that the Secretary of Defense, in consultation with the Director of the National Intelligence or the Director of the Federal Bureau of Investigation, reasonably believes to be an entity owned or controlled by, or otherwise connected to, the government of a covered foreign country.

Proposers Incorporation Information

(Submittal Page)

The following section should be completed by all bidders and submitted with their bid submittal:

Company Name: _____

DBA/Fictitious Name (if applicable): _____

TIN #: _____

Address: _____

City: _____

State: _____

Zip Code: _____

County: _____

Note: Company name must match legal name assigned to the TIN number. A current W9 should be submitted with your bid submittal.

Contact Person: _____

Phone Number: _____

Cell Phone Number: _____

Email Address: _____

Type of Organization (select one type)

- □ Sole Proprietorship
- □ Partnership
- □ Non-Profit
- □ Sub Chapter
- □ Joint Venture
- □ Corporation
- □ LLC
- □ LLP
- □ Publicly Traded
- □ Employee Owned

State of Incorporation: _____

The Successful vendor must complete and submit this form prior to award. The Successful vendor must invoice using the company name listed above.

Drug-Free Workplace Form

(Submittal Page)

The undersigned vendor in accordance with Florida Statue 287.087 hereby certifies that, (Name of the Business): _____ does:

1. Publish a statement notifying employees that the unlawful manufacture, distribution, dispensing, possession or use of a controlled substance is prohibited in the workplace and specifying the actions that will be taken against employees for violations of such prohibition.
2. Inform employees about the dangers of drug abuse in the workplace, the business's policy of maintaining a drug-free workplace, any available drug counseling, rehabilitation programs, employee assistance programs and the penalties that may be imposed upon employees for drug abuse violations.
3. Give each employee engaged in providing the commodities or contractual services that are under this RFP a copy of the statement specified in subsection (1).
4. In the statement specified in subsection (1), notify the employees that, as a condition of working on the commodities or contractual services that are under this RFP, the employee will abide by the terms of the statement and will notify the employer of any conviction of, plea of guilty or nolo contendere to, any violation of Chapter 1893 or of any controlled substance law of the United States or any state, for a violation occurring in the workplace no later than five (5) days after such conviction.
5. Impose a sanction on or require the satisfactory participation in a drug abuse assistance or rehabilitation program, if such is available in the employee's community, by any employee who is so convicted.
6. Make a good faith effort to continue to maintain a drug-free workplace through implementation of this section.

As the person authorized to sign the statement, I certify that this firm complies fully with the above requirements.

EXHIBIT 1
DETAILED INSTRUCTIONS ON HOW TO PREPARE AND SEND PERFORMANCE SURVEYS

The objective of this process is to identify the past performance of the Contractor submitting a proposal package. This is accomplished by sending survey forms to past customers. The customers should return the forms directly to the Contractor. The Contractor is to include all surveys in their proposal package.

Sending the Survey

The surveys shall be sent to all clients for whom the Contractor has identified under Tab 4. Surveys should correlate to all projects identified under Tab 4.

If more surveys are included, Procurement will only use those identified under Tab 4.

1. The Contractor shall complete the following information for each customer that a survey will be sent

CLIENT NAME	Name of the company that the work was performed for (i.e. Hillsborough County).
FIRST NAME	First name of the person who will answer customer satisfaction questions.
LAST NAME	Last name of the person who will answer customer satisfaction questions.
PHONE NUMBER	Current phone number for the reference (including area code).
EMAIL ADDRESS	Current email address for the reference.
PROJECT NAME	Name of the project (Debris Removal Services for Hillsborough County 2024), Etc.
COST OF SERVICES	Cost of services ($3,000,000)
DATE COMPLETE	Date when the services were completed. (i.e. 5/31/2024)

2. The Contractor is responsible for verifying that their information is accurate prior to submission for references.

3. The survey must contain different services/projects. You cannot have multiple people evaluating the same job. However, one person may evaluate several different jobs.

4. The past projects can be either completed or on-going.

5. The past client/owner must evaluate and complete the survey.

Preparing the Surveys

1. The Contractor is responsible for sending out a performance survey to the clients that have been identified under Tab 4. The survey can be found on the next page.
2. The Contractor should enter the past clients' contact information, and project information on each survey form for each reference. The Contractor should also enter their name as the Contractor being surveyed.
3. The Contractor is responsible for ensuring all references/surveys are included in their submittal under Tab 7
4. Polk County Procurement may contact the reference for additional information or to clarify survey data. If the reference cannot be contacted, there will be no credit given for that reference.

Survey Questionnaire – Polk County

RFP 26-011, Disaster Debris Removal Services

To: _____ (Name of Person completing survey)

_____ (Name of Client Company/Contractor)

Phone Number: _____ Email: _____

Subject: Past Performance Survey of Similar work:

Project name: _____

Name of Vendor being surveyed: _____

Cost of Services: Original Cost: _____ Ending Cost: _____

Contract Start Date: _____ Contract End Date: _____

Rate each of the criteria on a scale of 1 to 10, with 10 representing that you were very satisfied (and would hire the Contractor /individual again) and 1 representing that you were very unsatisfied (and would never hire the Contractor /individual again). Please rate each of the criteria to the best of your knowledge. If you do not have sufficient knowledge of past performance in a particular area, leave it blank.

NO	CRITERIA	UNIT	SCORE
1	Ability to manage cost	(1-10)	
2	Ability to maintain project schedule (complete on-time/early)	(1-10)	
3	Quality of workmanship	(1-10)	
4	Professionalism and ability to manage	(1-10)	
5	Ability to communicate with Debris Monitoring Contractor	(1-10)	
6	Ability to communicate with Client's staff	(1-10)	
7	Ability to resolve issues promptly	(1-10)	
8	Ability to follow protocol	(1-10)	
9	Ability to maintain proper documentation	(1-10)	
10	Close out process	(1-10)	
11	Overall Client satisfaction and comfort level in hiring	(1-10)

EMPLOYMENT ELIGIBILITY VERIFICATION (E-VERIFY) CERTIFICATION

(Florida Statutes, Section 448.095)

PROJECT NAME: _____

The undersigned, as an authorized officer of the contractor identified below (the "**Contractor**"), having full knowledge of the statements contained herein, hereby certifies to Polk County, a political subdivision of the State of Florida (the "**County**"), by and on behalf of the Contractor in accordance with the requirements of Section 448.095, Florida Statutes, as related to the contract entered into by and between the Contractor and the County on or about the date hereof, whereby the Contractor will provide labor, supplies, or services to the County in exchange for salary, wages, or other remuneration (the "**Contract**"), as follows:

1. Unless otherwise defined herein, terms used in this Certification which are defined in Section 448.095, Florida Statutes, as may be amended from time to time, shall have the meaning ascribed in said statute.

2. Pursuant to Section 448.095(5), Florida Statutes, the Contractor, and any subcontractor under the Contract, must register with and use the E-Verify system to verify the work authorization status of all new employees of the Contractor or subcontractor. The Contractor acknowledges and agrees that (i) the County and the Contractor may not enter into the Contract, and the Contractor may not enter into any subcontracts thereunder, unless each party to the Contract, and each party to any subcontracts thereunder, registers with and uses the E-Verify system; and (ii) use of the U.S. Department of Homeland Security's E-Verify System and compliance with all other terms of this Certification and Section 448.095, Fla. Stat., is an express condition of the Contract, and the County may treat a failure to comply as a material breach of the Contract.

3. By entering into the Contract, the Contractor becomes obligated to comply with the provisions of Section 448.095, Fla. Stat., "Employment Eligibility," as amended from time to time. This includes but is not limited to utilization of the E-Verify System to verify the work authorization status of all newly hired employees, and requiring all subcontractors to provide an affidavit attesting that the subcontractor does not employ, contract with, or subcontract with, an unauthorized alien. The Contractor shall maintain a copy of such affidavit for the duration of the Contract. Failure to comply will lead to termination of the Contract, or if a subcontractor knowingly violates the statute or Section 448.09(1), Fla. Stat., the subcontract must be terminated immediately. If the Contract is terminated pursuant to Section 448.095, Fla. Stat., such termination is not a breach of contract and may not be considered as such. Any challenge to termination under this provision must be filed in the Tenth Judicial Circuit Court of Florida no later than 20 calendar days after the date of termination. If the Contract is terminated for a violation of Section 448.095, Fla. Stat., by the Contractor, the Contractor may not be awarded a public contract for a period of 1 year after the date of termination. The Contractor shall be liable for any additional costs incurred by the County as a result of the termination of the Contract. Nothing in this Certification shall be construed to allow intentional discrimination of any class protected by law.

CERTIFICATIONS REGARDING DEBARMENT, SUSPENSION, PROPOSED DEBARMENT, AND OTHER RESPONSIBILITY MATTERS

For all awards, subawards, and contracts with certain parties that are debarred, suspended, or otherwise excluded from or ineligible for participation in Federal assistance programs and activities, the Offeror must complete and sign the following:

The Offeror certifies, to the best of its knowledge and belief, that-

(1) This contract is a covered transaction for purposes of 2 C.F.R. pt. 180 and 2 C.F.R. pt. 3000. As such the contractor is required to verify that none of the contractor, its principals (defined at 2 C.F.R. § 180.995), or its affiliates (defined at 2 C.F.R. § 180.905) are excluded (defined at 2 C.F.R. § 180.940) or disqualified (defined at 2 C.F.R. § 180.935).

(2) The contractor must comply with 2 C.F.R. pt. 180, subpart C and 2 C.F.R. pt. 3000, subpart C and must include a requirement to comply with these regulations in any lower tier covered transaction it enters into.

(3) This certification is a material representation of fact relied upon by Polk County, a political subdivision of the State of Florida (the "County"). If it is later determined that the contractor did not comply with 2 C.F.R. pt. 180, subpart C and 2 C.F.R. pt. 3000, subpart C, in addition to remedies available to the Florida Division Emergency Management, the County, and the Federal Government may pursue available remedies, including but not limited to suspension and/or debarment.

(4) The bidder or proposer agrees to comply with the requirements of 2 C.F.R. pt. 180, subpart C and 2 C.F.R. pt. 3000, subpart C while this offer is valid and throughout the period of any contract that may arise from this offer. The bidder or proposer further agrees to include a provision requiring such compliance in its lower tier covered transactions.

APPENDIX A, 44 C.F.R. PART 18 – CERTIFICATION REGARDING LOBBYING

Certification for Contracts, Grants, Loans, and Cooperative Agreements

(To be submitted with each bid or offer exceeding $100,000)

The undersigned _____ (Contractor) certifies, to the best of his or her knowledge, that:

1. No Federal appropriated funds have been paid or will be paid, by or on behalf of the undersigned, to any person for influencing or attempting to influence an officer or employee of an agency, a Member of Congress, an officer or employee of Congress, or an employee of a Member of Congress in connection with the awarding of any Federal contract, the making of any Federal grant, the making of any Federal loan, the entering into of any cooperative agreement, and the extension, continuation, renewal, amendment, or modification of any Federal contract, grant, loan, or cooperative agreement.

2. If any funds other than Federal appropriated funds have been paid or will be paid to any person for influencing or attempting to influence an officer or employee of any agency, a Member of Congress, an officer or employee of Congress, or an employee of a Member of Congress in connection with this Federal contract, grant, loan, or cooperative agreement, the undersigned shall complete and submit Standard Form- LLL, "Disclosure Form to Report Lobbying," in accordance with its instructions.

3. The undersigned shall require that the language of this certification be included in the award documents for all subawards at all tiers (including subcontracts, subgrants, and contracts under grants, loans, and cooperative agreements) and that all subrecipients shall certify and disclose accordingly.

This certification is a material representation of fact upon which reliance was placed when this transaction was made or entered into. Submission of this certification is a prerequisite for making or entering into this transaction imposed by 31, U.S.C. § 1352 (as amended by the Lobbying Disclosure Act of 1995). Any person who fails to file the required certification shall be subject to a civil penalty of not less than $10,000 and not more than $100,000 for each such failure.

The Contractor, _____ , certifies or affirms the truthfulness and accuracy of each statement of its certification and disclosure, if any. In addition, the Contractor understands and agrees that the provisions of 31 U.S.C. § 3801 *et seq*., apply to this certification and disclosure, if any.

DAP9523.11

FEMA
DISASTER ASSISTANCE POLICY

I. TITLE: Hazardous Stump Extraction and Removal Eligibility

II. DATE: MAY 15 2007

III. PURPOSE:

Establish criteria used to reimburse applicants for removing eligible hazardous stumps from public or, where authorized, private property.

IV. SCOPE AND AUDIENCE:

The policy is applicable to all major disasters and emergencies declared on or after the date of publication. It is intended for all personnel involved in the administration and execution of the Public Assistance Program, including applicants.

V. AUTHORITY:

Sections 403 and 407 of the Robert T. Stafford Disaster Relief and Emergency Assistance Act, 42 U.S.C. 5121-5206, as amended.

VI. BACKGROUND:

Public Assistance regulations authorize reimbursement for the removal of debris from public and private land when it is in the public interest. Such removal is in the public interest when it is necessary to: eliminate immediate threats to life, public health and safety, or eliminate immediate threats of significant damage to improved public or private property; or to ensure economic recovery of the affected community to the benefit of the community at large. Trees that are uprooted during a disaster event such that all or part of their roots are exposed may pose an immediate threat to public health and safety.

VII. POLICY:

A. When a disaster event uproots a tree or stump (i.e., 50% or more of root ball is exposed) on a public right-of-way, improved public property or improved property owned by certain private nonprofit organizations, and the exposed root ball poses an immediate threat to life, public health and safety, FEMA may provide supplemental assistance to remove, transport, dispose, and provide fill for the root cavity of an eligible uprooted tree or stump. The Federal Emergency Management Agency (FEMA) will reimburse applicants reasonable costs for this type of work only when uprooted stumps are more than 24 inches in diameter (measured two feet from the ground), with the consensus of the Applicant and the State, and is approved in

advance by FEMA, using the attached Hazardous Stump Worksheet.

1. If it is necessary to remove an uprooted stump before it can be inspected by FEMA because it poses a threat that must be dealt with immediately, the applicant must submit documentation, to FEMA including photographs, that establishes its location on public property, specifics on the threat, stump diameter measured two feet up the trunk from the ground, quantity of material to fill the hole, and any special circumstances.

2. FEMA will reimburse applicants for extraction, transport and disposal of stumps with a diameter of 24 inches or smaller at the unit cost rate for regular vegetative debris, using the attached Stump Conversion Table, as such stumps do not require special equipment.

3. FEMA will reimburse applicants at the unit cost rate (usually cubic yards) for normal debris removal for all stumps, regardless of size, placed on the rights-of-way by others (i.e., contractors did not extract them from public property or property of eligible Private Non Profit organization). In such instances, applicants do not incur additional cost to remove these stumps because the same equipment that is used to pick up "regular" debris can be used to pick-up these stumps.

4. If an applicant incurs additional costs in picking up large stumps (over 24 inches in diameter) from rights-of-way, it should complete the Hazardous Stump Worksheet and present documentation to FEMA in advance for consideration.

5. Stumps with less than 50% of their root ball exposed should be cut flush at ground level and the cut portion included with regular vegetative debris.

6. Straightening or bracing of trees is eligible for reimbursement if it is less costly than removal and disposal. Applicant must provide a cost analysis showing cost effectiveness.

VIII. ORIGINATING OFFICE: Disaster Assistance Directorate (Public Assistance Division)

IX. SUPERSESSION: This policy supersedes Recovery Policy Number 9523.11, Hazard Stump Removal and Extraction Eligibility dated May 6, 2006.

X. REVIEW DATE: Three years from the date of publication.

David Garratt
Acting Assistant Administrator
Disaster Assistance Directorate

Stump Conversion Table

Diameter to Volume Capacity

The quantification of the cubic yards of debris for each size of stump in the following table was derived from FEMA field studies conducted throughout the State of Florida during the debris removal operations following Hurricanes Charley, Frances, Ivan and Jeanne. The following formula is used to derive cubic yards:

$$\frac{[(\text{Stump Diameter}^2 \times 0.7854) \times \text{Stump Length}] + [(\text{Root Ball Diameter}^2 \times 0.7854) \times \text{Root Ball Height}]}{46656}$$

0.7854 is one-fourth Pi and is a constant.
46656 is used to convert cubic inches to cubic yards and is a constant

The formula used to calculate the cubic yardage used the following factors, based upon findings in the field:

- Stump diameter measured two feet up from ground
- Stump diameter to root ball diameter ratio of 1:3.6
- Root ball height of 31”

Stump Diameter (Inches)	Debris Volume (Cubic Yards)	Stump Diameter (Inches)	Debris Volume (Cubic Yards)

EVENT PERFORMANCE BOND

PERFORMANCE BOND

KNOW ALL MEN BY THESE PRESENTS: That _____, as Principal, and _____ as Surety, located at _____ (Business Address) are held and firmly bound unto Polk County, a political subdivision of the State of Florida, as Obligee, in the sum of Dollars ($_____) in lawful currency of the United States, for the payment whereof we bind ourselves, successors, and assigns, jointly and severally, firmly by these presents.

THE CONDITION OF THIS BOND is that if the Principal:

Promptly, faithfully, efficiently and fully performs all work, services, duties and obligations set forth and described in that certain purchase order dated _____, 20__ (the "Purchase Order") between Principal and Obligee for performance of debris removal at any County location arising from damage caused by a disaster event, at the times and in the manner prescribed in the Purchase Order; and

Pays Obligee all losses, damages (liquidated or actual), expenses, costs, and attorney's fees, including, without limitation, costs and attorney's fees on appeal, that Obligee sustains resulting directly or indirectly from any breach or default by Principal under the Purchase Order; and

Performs the guarantee of all work and materials furnished under the Purchase Order for the time specified therein; and

Satisfies all claims and demands incurred under the Purchase Order, and fully indemnifies and holds harmless the Obligee from all costs and damages which it may suffer by reason or failure to do so;

then the Surety shall have no obligation under this Performance Bond.

In the event that the Principal shall fail to perform any of the terms, covenants and conditions of the Purchase Order during the period in which this Performance Bond is in effect, the Surety shall remain liable to the Obligee for all such loss or damage (including reasonable attorney's fees and costs and attorney's fees on appeal) resulting from any failure to perform up to the amount of the sum stated above.

In the event that the Surety fails to fulfill its obligations under this Performance Bond, then the Surety shall also indemnify and hold the Obligee harmless from any and all loss, damage, cost and expense, including reasonable attorney's fees and costs for all trial and appellate proceedings, resulting directly or indirectly from the Surety's failure to fulfill its obligations hereunder. This paragraph shall survive the termination or cancellation of this Performance Bond.

The Surety, for value received, hereby stipulates and agrees that its obligations hereunder shall be direct and immediate and not conditional or contingent upon the Obligee's pursuit of its remedies against Principal, shall remain in full force and effect notwithstanding (i) amendments or modifications to the Purchase Order entered into by Obligee and Principal without the Surety's knowledge or consent (ii) waivers of compliance with or any default under the Purchase Order granted by Obligee to Principal without the Surety's knowledge or consent, or (iii) the discharge of Principal from its obligations under the Purchase Order as a result of any proceeding initiated under the Bankruptcy code of 1978, as the same may be amended, or any similar state or federal law, or any limitation of the liability or Principal or its estate as a result of any proceeding.

Any changes in or under the Purchase Order and compliance or non-compliance with any formalities connected with the Purchase Order or the changes shall not affect Surety's obligation under this Performance Bond. The Principal shall notify the Surety of all such changes.

Reference is hereby made to Section 255.05, Florida Statutes, and to the notice and time limitation provisions thereof.

IN WITNESS WHEREOF, this instrument is executed this _____ day of _____, 20__.

Draft Agreement
DISASTER DEBRIS REMOVAL SERVICES AGREEMENT

THIS DISASTER DEBRIS REMOVAL SERVICES AGREEMENT (the "Agreement") is entered into as of the Effective Date (defined in Section 1, below) by and between Polk County (the "County"), a political subdivision of the State of Florida, situated at 330 W. Church Street, Bartow, Florida, 33830, and _____ (the "Contractor"), a _____ corporation, at _____, and whose Federal Employer Identification Number is _____ _____.

WHEREAS, the Contractor has considerable expertise in disaster debris removal services; and

WHEREAS, the County desires to employ the Contractor to provide disaster debris removal services to Polk County; and

WHEREAS, the County has solicited for these Contractor services via an advertised request for proposal ("RFP 26-011") and has received numerous responsive proposals thereto; and

WHEREAS, after review and consideration of all responsive proposals, the County intends to engage the Contractor to provide it the disaster debris removal services; and

WHEREAS, the Contractor is able and agreeable to providing the County the Contractor services and represents that it is competent, qualified, capable and prepared to do so according to the terms and conditions stated herein;

NOW, THEREFORE, in consideration of the mutual understandings and covenants set forth herein, the County and the Contractor hereby agree, as follows:

1.0 **Effective Date; Term**

1.1 This Agreement shall take effect on the date (the "Effective Date") of its execution by the County.

1.2 The term of this Agreement shall be for a five (5) year time period, commencing upon the Effective Date and remaining in full force and effect thereafter, unless otherwise sooner terminated as provided herein.

2.0 **Contractor Services**

2.1 The County does hereby retain the Contractor to furnish those services and to perform those tasks (collectively, the "Services") as further described in (i) the County's Request for Proposals RFP #26-011, to include all attachments and addenda, (ii) the Contractor's responsive proposal,

and (iii) Scope of Services thereto (collectively, (i), (ii), and (iii) are "RFP 26-011"), all of which are incorporated into this Agreement by this reference, attached hereto as a composite Exhibit "A" and made a part of this Agreement.

3.0 **Compensation**

3.1 General

3.1.1 In consideration for its providing the Services, during the Agreement Term the County shall pay the Contractor a fee that shall not exceed the amounts stated in Exhibit "B", which is attached hereto and made a part of this Agreement. The Compensation Schedule identifies all billable services pursuant to this Agreement and the associated amount the County will pay the Contractor for Services performed. The County is not obligated to pay the Contractor a fee for any work performed or Services provided not listed on the Compensation Schedule. The rates shown on the Compensation Schedule may be increased annually by written authorization of the Procurement Director following the one-year anniversary of the Effective Date, when it is in the best interest of the County. Rate increases will be determined by the appropriate price index as approved by the Procurement Director. No action by the Board of County Commissioners will be necessary for such rate increases

3.1.2 All the Contractor's invoices for payment must reference the Agreement and must be submitted using a form approved by the County Auditor.

3.1.3 The Contractor shall attach all appropriate cost substantiations to the invoice and shall deliver the invoices to:

Roads and Drainage Division
3000 Sheffield Road
Winter Haven, Florida 33880

3.1.4 The Contractor will clearly state "Final Invoice" on the Contractor's final/last billing for the Services rendered to the County. The Contractor's submission of a Final Invoice is its certification that all Services have been properly performed and all charges and costs have been invoiced to the County. This account will be closed upon the County's receipt of a Final Invoice. The Contractor hereby waives any charges not properly included on its Final Invoice.

3.1.5 The County's payment of the Final Invoice shall not constitute evidence of the County's acceptance of the Contractor's performance of the Service or the County's acceptance of any work.

3.1.6 All Contractor's invoices shall be accompanied by time and task records for all billable hours appearing on the invoice. Additional supporting documents may be requested by the County and, if so requested, shall be furnished by the Contractor to the County Auditor's satisfaction.

3.1.6 By its submission of an invoice, the Contractor's project manager or designated payroll officer shall be deemed to be attesting to the correctness and accuracy of all charges and requested reimbursements stated in such invoice.

3.2 Reimbursable Expenses

3.2.1 All Contractor requests for payment of out-of-pocket expenses eligible for reimbursement per under the terms of this Agreement shall be reimbursed per the negotiated Scope of Work (Exhibit A-iii) and in accordance with the County's Reimbursable Schedule that is attached hereto as Exhibit "C" and made a part of this Agreement. The Contractor's requests for payment shall include copies of paid receipts, invoices or other documentation acceptable to the County's Auditor. To qualify for reimbursement, the Contractor's documentation shall be sufficient to establish that the expense was actually incurred and necessary in the Contractor's performance of the Services in accordance with this Agreement.

3.2.2 Reimbursable Expenses are the actual, pre-approved, expenses incurred directly in connection with the Contractor providing the Services.

4.0 **Contractor's Responsibilities**

4.1 The Contractor shall be responsible for the professional quality, accuracy, competence, methodology, and the coordination of all Services performed pursuant to this Agreement.

4.2 The County's review, approval, acceptance, or payment for any of the Contractor's Services shall not be construed to: (i) operate as a waiver of any rights the County possesses under this Agreement; or (ii) waive or release any claim or cause of action arising out of the Contractor's performance or nonperformance of this Agreement. The Contractor shall be and will always remain liable to the County in accordance with applicable law for any and all damages to the County caused by the Contractor's negligent or wrongful performance or nonperformance of any of the Services to be furnished under this Agreement.

5.0 **Ownership of Documents**

All analyses, reference data, bills, completed reports, or any other form of written instrument or document created or resulting from the Contractor's performance of the Services pursuant to this Agreement shall become the property of the County after payment is made to the Contractor for such instruments or documents.

6.0 **Termination**

6.1 The County may terminate this Agreement, in whole or in part, at any time, either for the County's convenience or because of the failure of the Contractor to fulfill its obligations under this Agreement, subject to the cure period provided in Section 26.0, by delivering written notice to the Contractor. Upon receipt of such notice, the Contractor shall:

6.1.1 Immediately discontinue all affected Services unless the notice directs otherwise, and

6.1.2 Deliver to the County all data, reports, summaries, and any and all such other information and materials of whatever type or nature as may have been accumulated by the Contractor in performing this Agreement, whether completed or in process.

6.2 Unless in dispute or subject to the County's right of set-off or other remedy, the Contractor shall be paid for Services actually rendered to the date of termination.

6.3 The rights and remedies of the County provided for in this Section 6 are in addition and supplemental to any and all other rights and remedies provided by law or under this Agreement.

7.0 **No Contingent Fees**

The Contractor warrants that it has not employed or retained any company or person, other than a bona fide employee working solely for the Contractor to solicit or secure this Agreement and that it has not paid or agreed to pay any person, company, corporation, individual or firm, other than a bona fide employee working solely for the Contractor, any fee, commission, percentage, gift, or other consideration contingent upon or resulting from award of or making of the Agreement. For the breach or violation of this provision, the County shall have the right to terminate the Agreement at its sole discretion, without liability and to deduct from the Agreement price, or otherwise recover, the full amount of such fee, commission, percentage, gift, or consideration.

8.0 **Assignment**

The Contractor shall not assign, transfer, or encumber this Agreement, or any interest herein, under any circumstances, without obtaining the prior written consent of the County, which consent may be withheld in the County's exercise of its reasonable discretion.

9.0 **Professional Associates and Subcontractors**

If the Contractor requires the assistance of any professional associates or subcontractors in connection with its providing the Services the Contractor must obtain the prior express written approval of the County, which the County may withhold in its discretion, before any such professional associate or

subcontractor may perform any work for the County. If after obtaining the County's approval the Contractor utilizes any professional associates or subcontractors in the delivery of the Services then the Contractor shall remain solely and fully liable to the County for the performance or nonperformance of all such professional associates and subcontractors. The failure of a professional associate or subcontractor to timely or properly perform any of its obligations to the Contractor shall not relieve the Contractor of its obligations to the County under this Agreement.

10.0 **Indemnification of County**

Contractor, to the maximum extent permitted by law, shall indemnify, defend (by counsel reasonably acceptable to County) protect and hold the County, and its officers, employees and agents harmless from and against any and all, claims, actions, causes of action, liabilities, penalties, forfeitures, damages, losses, and expenses (including, without limitation, attorneys' fees costs and expenses incurred during negotiation, through litigation and all appeals therefrom) whatsoever including, but not limited, to those pertaining to the death of or injury to any person, or damage to any property, arising out of or resulting from (i) the failure of Contractor to comply with applicable laws, rules or regulations, (ii) the breach by Contractor of its obligations under this Agreement, (iii) any claim for trademark, patent or copyright infringement arising out of the scope of Contractor's performance or nonperformance of this Agreement, or (iv) the negligent acts, errors or omissions, or intentional or willful misconduct, of Contractor, its professional associates, subcontractors, agents, and employees provided, however, that Contractor shall not be obligated to defend or indemnify the County with respect to any such claims or damages arising out of the County's sole negligence.

11.0 **Insurance Requirements**

The Contractor shall maintain at all times the following minimum levels of insurance and shall, without in any way altering its liability, obtain, pay for and maintain insurance for the coverage and amounts of coverage not less than those set forth below. The Contractor shall provide the County original Certificates of Insurance satisfactory to the County to evidence such coverage before any work commences. The County shall be named as an additional insured on General and Automobile Liability policies. General Liability and Workers' Compensation policies shall contain a waiver of subrogation in favor of Polk County. The commercial General Liability Policy shall (by endorsement if necessary) provide contractual liability coverage for the contractual indemnity stated in Section 10, above. All insurance coverage shall be written with a company having an A.M. Best rating of at least the "A" category and size category of VIII. The Contractor's self-insured retention or deductible per line of coverage shall not exceed $25,000 without the permission of the County. In the event of any failure by the Contractor to comply with the provisions of this Section 11, the County may, at its option, upon notice to the Contractor suspend Contractor's

performance of the Services for cause until there is full compliance. Alternatively, the County may purchase such insurance at the Contractor's expense, provided that the County shall have no obligation to do so and if the County shall do so, the Contractor shall not be relieved of or excused from the obligation to obtain and maintain such insurance amounts and coverage.

Comprehensive Automobile Liability Insurance. $2,000,000.00 combined single limit of liability for bodily injuries, death and property damage resulting from any one occurrence, including all owned, hired, and non-owned vehicles.

Commercial General Liability. $4,000,000.00 combined single limit of liability for bodily injuries, death and property damage, and personal injury resulting from any one occurrence, including the following coverages:

Premises and Operations:

> Broad Form Commercial General Liability Endorsement to include Blanket Contractual liability (specifically covering, but not limited to, the contractual obligations assumed by the Firm); Personal Injury (with employment and contractual exclusions deleted); and Broad Form Property Damage coverage.

Independent Contractors:

> Delete Exclusion relative to collapse, explosion and underground; Property Damage Hazards; Cross Liability Endorsement; and Contractual liability (specifically covering, but not limited to, the contractual obligations assumed by the Firm)

Workers Compensation. The Contractor shall provide, pay for, and maintain workers compensation insurance on all employees, its agents or subcontractors as required by Florida Statutes.

Pollution Liability Insurance. $1,000,000 including pollution due to automobiles.

Employer's Liability. $1,000,000.

12.0 **Public Entity Crimes**

The Contractor declares and warrants that neither the Contractor nor any of the Contractor's affiliates, as that term is defined in Section 287.133, Florida Statutes, are subject to the restrictions in Section 287.133, Florida Statutes, regarding the commission of a public entity crime. If during the term of this Agreement, the Contractor or any affiliate is convicted of a public entity crime or is otherwise prohibited from performing work for or transacting business with the County pursuant to

Section 287.133, Florida Statutes, then the Contractor shall be in material default of this Agreement, and in such case, the County shall have the rights and remedies as provided herein.

13.0 **Non-Discrimination**

The Contractor warrants and represents that all of its employees are treated equally during employment without regard to race, color, religion, gender, age or national origin.

14.0 **Designation of Party Representatives**

14.1 Upon receipt of a request from the Contractor, the County shall designate in writing one or more of its employees who are authorized to act by and on behalf of the County to transmit instructions, receive information and interpret and define the County's policy and decisions with respect to the Services to be provided pursuant to this Agreement.

14.2 The Contractor shall designate or appoint one or more Contractor representatives who are authorized to act on behalf of and to bind the Contractor regarding all matters involving the conduct of its performance pursuant to this Agreement.

15.0 **All Prior Agreements Superseded**

This document incorporates and includes all prior negotiations, correspondence, conversations, agreements or understandings applicable to the matters contained herein and the parties agree that there are no commitments, agreements or understandings concerning the subject matter of this Agreement that are not contained in this document or its designated exhibits. Accordingly, it is agreed that no deviation from the terms hereof shall be predicated upon any prior representations or agreements, whether oral or written.

16.0 **Modifications, Amendments or Alterations**

No modification, amendment or alteration in the terms or conditions contained herein shall be effective unless agreed to and executed in writing by both parties to this Agreement in a form acceptable to the County.

17.0 **Independent Contractor**

Nothing stated in this Agreement is intended or should be construed in any manner as creating or establishing a relationship of co-partners between the parties, or as constituting the Contractor (including its officers, employees, and agents) as the agent, representative, or employee of the County for any purpose, or in any manner, whatsoever. The Contractor is to be and shall remain forever an independent contractor with respect to all Services performed under this Agreement. The Contractor shall not pledge the County's credit or make the County a guarantor of payment or surety for any contract, debt, obligation, judgment,

lien or any form of indebtedness and the Contractor shall have no right to speak for or bind the County in any manner.

18.0 **Public Records Law**

(a) The Contractor acknowledges the County's obligations under Article I, Section 24, of the Florida Constitution and under Chapter 119, Florida Statutes, to release public records to members of the public upon request and comply in the handling of the materials created under this Agreement. The Contractor further acknowledges that the constitutional and statutory provisions control over the terms of this Agreement. In association with its performance pursuant to this Agreement, the Contractor shall not release or otherwise disclose the content of any documents or information that is specifically exempt from disclosure pursuant to all applicable laws.

(b) Without in any manner limiting the generality of the foregoing, to the extent applicable, the Contractor acknowledges its obligations to comply with Section 119.0701, Florida Statutes, with regard to public records, and shall:

(1) keep and maintain public records required by the County to perform the services required under this Agreement;

(2) upon request from the County's Custodian of Public Records or his/her designee, provide the County with a copy of the requested records or allow the records to be inspected or copied within a reasonable time at a cost that does not exceed the cost provided in Chapter 119, Florida Statutes, or as otherwise provided by law;

(3) ensure that public records that are exempt or confidential and exempt from public records disclosure requirements are not disclosed except as authorized by law for the duration of the term of this Agreement and following completion of this Agreement if the Contractor does not transfer the records to the County; and

(4) upon completion of this Agreement, transfer, at no cost, to the County all public records in possession of the Contractor or keep and maintain public records required by the County to perform the service. If the Contractor transfers all public records to the County upon completion of this Agreement, the Contractor shall destroy any duplicate public records that are exempt or confidential and exempt from public records disclosure requirements. If the Contractor keeps and maintains public records upon completion of this Agreement, the Contractor shall meet all applicable requirements for retaining public records. All records stored electronically must be provided to the County, upon request from the County's Custodian of Public Records, in a format that is compatible with the information technology systems of the County.

(c) **IF THE CONTRACTOR HAS QUESTIONS REGARDING THE APPLICATION OF CHAPTER 119, FLORIDA STATUTES, TO THE CONTRACTOR'S DUTY TO PROVIDE PUBLIC RECORDS RELATING TO THIS AGREEMENT, CONTACT THE COUNTY'S CUSTODIAN OF PUBLIC RECORDS AT:**

RECORDS MANAGEMENT LIAISON OFFICER

POLK COUNTY

330 WEST CHURCH ST.
BARTOW, FL 33830
TELEPHONE: (863) 534-7670
EMAIL: RMLO@POLK-COUNTY.NET

19.0 **Compliance with Laws and Regulations**

In providing all Services pursuant to this Agreement, the Contractor shall abide by all statutes, ordinances, rules, and regulations pertaining to or regulating the provisions of such Services, including those now in effect and hereafter adopted. Any violation of said statutes, ordinances, rules, or regulations shall constitute a material breach of this Agreement and shall entitle the County to terminate this Agreement immediately upon delivery of written notice of termination to the Contractor.

20.0 **Governing Law and Venue**

This Agreement shall be governed in all respects by the laws of the State of Florida and any litigation with respect thereto shall be brought only in the courts of Polk County, Florida or in the United States District Court, Middle District of Florida, located in Hillsborough County, Florida. Each party shall be responsible for its own attorneys' fees and other legal costs and expenses.

21.0 **Notices**

Whenever either party desires to give notice unto the other, it must be given by written notice, delivered (i) in person, (ii) via registered or certified United States mail, postage prepaid with return receipt requested, or (iii) via nationally recognized overnight delivery service, and addressed to the party for whom it is intended at the place last specified by each party. The place for giving of notice shall remain such until it is changed by written notice delivered in compliance with the provisions of this Section 21. For the present, the parties designate the following as the respective places for giving of notice, to wit:

For County: Roads and Drainage Division
330 West Church Street
Bartow, Florida 33830
Attention: Division Director

For Contractor:

Attention: _____

22.0 Severability

The invalidity, illegality, or unenforceability of any provision of this Agreement, or the occurrence of any event rendering any portion or provision of this Agreement void, shall in no way affect the validity or enforceability of any other portion or provision of the Agreement; any void provision shall be deemed severed from the Agreement and the balance of the Agreement shall be construed and enforced as if the Agreement did not contain the particular portion or provision held to be void. The parties further agree to reform the Agreement to replace any stricken provision with a valid provision that comes as close as possible to the intent of the stricken provision. The provisions of this section shall not prevent the entire Agreement from being void should a provision which is of the essence of the Agreement be determined to be void.

23.0 Annual Appropriations

Contractor acknowledges that during any fiscal year the County shall not expend money, incur any liability, or enter into any agreement which by its terms involves the expenditure of money in excess of the amounts budgeted as available for expenditure during such fiscal year. Accordingly, any agreement, verbal or written, the County may make in violation of this fiscal limitation is null and void, and no money may be paid on such agreement. The County may enter into agreements whose duration exceeds one year; however, any such agreement shall be executory only for the value of the services to be rendered which the County agrees to pay as allocated in its annual budget for each succeeding fiscal year. Accordingly, the County's performance and obligation to pay the Contractor under this Agreement is contingent upon annual appropriations being made for that purpose.

24.0 Employment Eligibility Verification (E-VERIFY)

A. Unless otherwise defined herein, terms used in this Section which are defined in Section 448.095, Florida Statutes, as may be amended from time to time, shall have the meaning ascribed in said statute.

B. Pursuant to Section 448.095(5), Florida Statutes, the contractor hereto, and any subcontractor thereof, must register with and use the E-Verify system to verify the work authorization status of all new employees of the contractor or subcontractor. The contractor acknowledges and agrees that (i) the County and the contractor may not enter into this Agreement, and the contractor may not enter into any subcontracts hereunder, unless each party to this Agreement, and each party to any subcontracts hereunder, registers with and uses the E-Verify system; and (ii) use of the U.S. Department of Homeland Security's E-Verify System and compliance with all other terms of this Certification and Section 448.095, Fla. Stat., is an express condition of this Agreement, and the County may treat a failure to comply as a material breach of this Agreement.

C. By entering into this Agreement, the contractor becomes obligated to comply with the provisions of Section 448.095, Fla. Stat., "Employment Eligibility," as amended from time to time. This includes but is not limited to utilization of the E-Verify System to verify the work authorization status of all newly hired employees, and requiring all subcontractors to provide an affidavit attesting that the subcontractor does not employ, contract with, or subcontract with, an unauthorized alien. The contractor shall maintain a copy of such affidavit for the duration of this Agreement. Failure to comply will lead to termination of this Agreement, or if a subcontractor knowingly violates the statute or Section 448.09(1), Fla. Stat., the subcontract must be terminated immediately. If this Agreement is terminated pursuant to Section 448.095, Fla. Stat., such termination is not a breach of contract and may not be considered as such. Any challenge to termination under this provision must be filed in the Tenth Judicial Circuit Court of Florida no later than 20 calendar days after the date of termination. If this Agreement is terminated for a violation of Section 448.095, Fla. Stat., by the contractor, the contractor may not be awarded a public contract for a period of 1 year after the date of termination. The contractor shall be liable for any additional costs incurred by the County as a result of the termination of this Agreement. Nothing in this Section shall be construed to allow intentional discrimination of any class protected by law.

25.0 Contractor Representations

25.1 The Contractor hereby represents and warrants the following to the County:

25.1.1 Contractor is a _____ company that is duly organized and existing in good standing under the laws of the State of _____ with full right and authority to do business within the State of Florida.

25.1.2 Contractor's performance under this Agreement will not violate or breach any contract or agreement to which the Contractor is a party or is otherwise bound, and will not violate any governmental statute, ordinance, rule, or regulation.

25.1.3 Contractor has the full right and authority to enter into this Agreement and to perform its obligations in accordance with its terms.

25.1.4 Contractor now has and will continue to maintain all licenses and approvals required to conduct its business, and that it will at all times conduct its business activities in a reputable manner.

25.1.5 Contractor has no obligation or indebtedness that would impair its ability to fulfill the terms of this Agreement.

25.1.6 Contractor has the personnel and experience necessary to perform all Services in a professional and workmanlike manner.

25.1.7 Contractor shall exercise the same degree of care, skill, and diligence in the performance of the Services as provided by a professional of like experience, knowledge and resources, under similar circumstances.

25.1.8 Contractor shall, at no additional cost to County, re-perform those Services which fail to satisfy the foregoing standard of care or which otherwise fail to meet the requirements of this Agreement.

25.1.9 Each individual executing this Agreement on behalf of the Contractor is authorized to do so.

26.0 Default and Remedy

If the Contractor materially defaults in its obligations under this Agreement and fails to cure the same within fifteen (15) days after the date the Contractor receives written notice of the default from the County, then the County shall have the right to (i) immediately terminate this Agreement by delivering written notice to the Contractor, and (ii) pursue any and all remedies available in law, equity, and under this Agreement. If the County materially defaults in its obligations under this Agreement and fails to cure the same within fifteen (15) days after the date the County receives written notice of the default from the Contractor, then the Contractor shall have the right to immediately terminate this Agreement by delivering written notice to the County. Upon any such termination, the County shall pay the Contractor the full amount due and owing for all Services performed through the date of Agreement termination.

27.0 Limitation of Liability

IN NO EVENT, SHALL THE COUNTY BE LIABLE TO THE CONTRACTOR FOR INDIRECT, INCIDENTAL, CONSEQUENTIAL, SPECIAL, EXEMPLARY, OR PUNITIVE DAMAGES OF ANY KIND OR NATURE, INCLUDING LOSS OF PROFIT, WHETHER FORESEEABLE OR NOT, ARISING OUT OF OR RESULTING FROM THE NONPERFORMANCE OR BREACH OF THIS CONTRACT BY THE COUNTY WHETHER BASED IN CONTRACT, COMMON LAW, WARRANTY, TORT, STRICT LIABILITY, CONTRIBUTION, INDEMNITY OR OTHERWISE.

28.0 Waiver

A waiver by either County or Contractor of any breach of this Agreement shall not be binding upon the waiving party unless such waiver is in writing. In the event of a written waiver, such a waiver shall not affect the waiving party's rights with respect to any other or further breach of this Agreement. The making or acceptance of a payment by either party with the knowledge of the other party's existing default or breach

of the Agreement shall not waive such default or breach, or any subsequent default or breach of this Agreement, and shall not be construed as doing so.

29.0 Attorneys' Fees and Costs

Each party shall be responsible for its own legal and attorneys' fees, costs and expenses incurred in connection with any dispute or any litigation arising out of, or relating to this Agreement, including attorneys' fees, costs, and expenses incurred for any appellate or bankruptcy proceedings.

30.0 Force Majeure

Either party hereunder may be temporarily excused from performance if an Event of Force Majeure directly or indirectly causes its nonperformance. An "Event of Force Majeure" is defined as any event which results in the prevention or delay of performance by a party of its obligations under this Agreement and which is beyond the reasonable control of the nonperforming party. It includes, but is not limited to fire, flood, earthquakes, storms, lightning, epidemic, war, riot, civil disturbance, sabotage, and governmental actions. Neither party shall be excused from performance if non-performance is due to forces which are reasonably preventable, removable, or remediable and which the non-performing party could have, with the exercise of reasonable diligence, prevented, removed, or remedied prior to, during, or immediately after their occurrence. Within five (5) days after the occurrence of an Event of Force Majeure, the non-performing party shall deliver written notice to the other party describing the event in reasonably sufficient detail, along with proof of how the event has precluded the non-performing party from performing its obligations hereunder, and a good faith estimate as to the anticipated duration of the delay and the means and methods for correcting the delay. The non-performing party's obligations, so far as those obligations are affected by the Event of Force Majeure, shall be temporarily suspended during, but no longer than, the continuance of the Event of Force Majeure and for a reasonable time thereafter as may be required for the non-performing party to return to normal business operations. If excused from performing any obligations under this Agreement due to the occurrence of an Event of Force Majeure, the non-performing party shall promptly, diligently, and in good faith take all reasonable action required for it to be able to commence or resume performance of its obligations under this Agreement. During any such time period, the non-performing party shall keep the other party duly notified of all such actions required for it to be able to commence or resume performance of its obligations under this Agreement.

31.0 Key Personnel

The Contractor shall notify the County if any of the Contractor's Key Personnel (as defined, below) change during the Term of the Agreement. To the extent possible, the Contractor shall notify the County at least ten (10) days prior to any proposed change in its Key Personnel. At the County's request the Contractor

shall remove without consequence to the County any of the Contractor's contractors, sub-contractors, sub-Contractors, agents or employees and replace the same with an appropriate substitute having the required skill and experience necessary to perform the Services. The County shall have the right to reject the Contractor's proposed changes in Key Personnel. The following individuals shall be considered "Key Personnel:"

Name: _____

Name: _____

Name: _____

Name: _____

32.0 Scrutinized Companies and Business Operations Certification; Termination.

A. Certification(s).

(i) By its execution of this Agreement, the Vendor hereby certifies to the County that the Vendor is not on the Scrutinized Companies that Boycott Israel List, created pursuant to Section 215.4725, Florida Statutes, nor is the Vendor engaged in a boycott of Israel, nor was the Vendor on such List or engaged in such a boycott at the time it submitted its bid, proposal, quote, or other form of offer, as applicable, to the County with respect to this Agreement.

(ii) Additionally, if the value of the goods or services acquired under this Agreement are greater than or equal to One Million Dollars ($1,000,000), then the Vendor further certifies to the County as follows:

(a) the Vendor is not on the Scrutinized Companies with Activities in Sudan List, created pursuant to Section 215.473, Florida Statutes; and

(b) the Vendor is not on the Scrutinized Companies with Activities in the Iran Petroleum Energy Sector List, created pursuant to Section 215.473, Florida Statutes; and

(c) the Vendor is not engaged in business operations (as that term is defined in Florida Statutes, Section 287.135) in Cuba or Syria; and

(d) the Vendor was not on any of the Lists referenced in this subsection A(ii), nor engaged in business operations in Cuba or Syria when it submitted its proposal to the County concerning the subject of this Agreement.

(iii) The Vendor hereby acknowledges that it is fully aware of the penalties that may be imposed upon the Vendor for submitting a false certification to the County regarding the foregoing matters.

B. Termination. In addition to any other termination rights stated herein, the County may immediately terminate this Agreement upon the occurrence of any of the following events:

(i) The Vendor is found to have submitted a false certification to the County with respect to any of the matters set forth in subsection A(i) above, or the Vendor is found to have been placed on the Scrutinized Companies that Boycott Israel List or is engaged in a boycott of Israel.

(ii) The Vendor is found to have submitted a false certification to the County with respect to any of the matters set forth in subsection A(ii) above, or the Vendor is found to have been placed on the Scrutinized Companies with Activities in Sudan List, or the Scrutinized Companies with Activities in the Iran Petroleum Energy Sector List, or has been engaged in business operations in Cuba or Syria, and the value of the goods or services acquired under this Agreement are greater than or equal to One Million Dollars ($1,000,000).

33. No Construction Against Drafter

The Parties acknowledge that this Agreement and all the terms and conditions contained herein have been fully reviewed and negotiated by the Parties. Accordingly, any rule of construction to the effect that ambiguities are to be resolved against the drafting party shall not apply in interpreting this Agreement.

34. Unauthorized Alien(s)

The Contractor shall not employ or utilize unauthorized aliens in the performance of the Services provided pursuant to this Agreement. The County shall consider the employment or utilization of unauthorized aliens a violation of Section 274A(e) of the Immigration and Naturalization Act (8 U.S.C. 1324a) and a cause for the County's unilateral termination of this Agreement. When delivering executed counterparts of this Agreement to the County, the Contractor shall also deliver a completed and executed counterpart of the attached "AFFIDAVIT CERTIFICATION IMMIGRATION LAWS" form.

(THE REMAINDER OF THE PAGE IS LEFT INTENTIONALLY BLANK;
THE AGREEMENT CONTINUES ON THE FOLLOWING PAGE
WITH THE PARTIES SIGNATURES.)

IN WITNESS WHEREOF, the parties hereto have executed this Agreement as of the Effective Date.

RFP # 26-011, Disaster Debris Removal Services

Addendum # 4

Question 1: If this is a term contract subject to renewal, what is the maximum number of option periods?
Answer 1: The term is 5 years from the effective date of the agreement.

Question 2: Has the current contract gone full term?
Answer 2: The current agreements were set to expire on February 15, 2026, but have been extended and will remain in place until the new agreements are in effect.

Question 3: Have all options to extend the current contract been exercised?
Answer 3: The agreements may extend upon Board approval.

Question 4: Who is the incumbent, and how long has the incumbent been providing the requested services?
Answer 4: The current incumbents are AshBritt, Inc. as the primary, Crowder-Gulf Joint Venture, Inc. as the secondary, and Ceres Environmental Services, Inc. as the tertiary. These agreements have been in place since February 16, 2021.

Question 5: To what extent will the location of the bidder's proposed location or headquarters have a bearing on any award?
Answer 5: There are no points associated with the proposer's location or headquarters.

Question 6: What is the required onsite response time?
Answer 6: Immediately after Impact.

Question 7: What is the total size or geographic scope of the service area?
Answer 7: The estimated geographic area 2500 square miles.

Question 8: What is the total mileage of roads within the scope of the service area?
Answer 8: Please see the response to Question 7 above.

Question 9: Are any specific professional credentials required to qualify for the contract?
Answer 9: The vendor must demonstrate significant professional expertise in hurricane response, mitigation, and recovery services including proven experience working in post – storm environments.

Question 10: Will the resulting contract include a guaranteed minimum payment to the vendor?
Answer 10: There is no guaranteed minimum payment. The successful vendor will be paid in accordance with the Price Sheet finalized with agreement.

Question 11: Are there any superseding prior agreements that may impact this contract?
Answer 11: No.

Question 12: When/what was the most recent event that precipitated the activation of the existing or previous contract?
Answer 12: Hurricane Milton 2024.

RFP # 26-011, Disaster Debris Removal Services

Addendum # 4

Question 13: Approximately how many cubic yards of debris were collected from the most recent event?

Answer 13: 1 million (Vegetative & C & D)

Question 14: What estimated or actual dollars were paid to the incumbent(s) after the most recent event?

Answer 14: Estimated $16,200,000.

Question 15: How many times have the incumbent's services been utilized in the previous five years?

Answer 15: Two (2) Hurricane Events

Question 16: Please reconfirm the due date for this procurement by providing it in response to answers to questions. 12.31 is New Year's Eve?

Answer 16: See above, proposal receiving date extension.

Question 17: If there was a previous solicitation for these services, what was its title, number, release date, and due date?

Answer 17: RFP 20-298, Disaster Debris Removal. Released September 3, 2020, and opened October 14, 2020.

Question 18: Why has this bid been released at this time?

Answer 18: The current agreements were set to expire on February 15, 2026, but have been extended and will remain in place until the new agreements are in effect.

Question 19: When is the anticipated award date?

Answer 19: The agreement is anticipated to be executed in April or May 2026.

Question 20: Are bidders permitted to deviate in any way from any manner of quoting fees you may be expecting? For example, if there is a pricing page in the RFP, can bidders submit an alternate fee structure? If there is no pricing page in the RFP, do you have any preference for how bidders should quote fees or can bidders create their own pricing categories?

Answer 20: Please use the pricing sheet provided in the RFP. Negotiations on alternate pricing can be made at level 4 of the elevation.

Question 21: Please describe your level of satisfaction with your current or recent vendor(s) for the same purchasing activity, if applicable?

Answer 21: Polk County was satisfied with the current vendor.

Question 22: Please provide the names of selection committee members?

Answer 22: John Bohde, Deputy County Manager
Michael Teate, Roads & Drainage
Gloria Reyes, Roads & Drainage
Ricky Norris, Roads & Drainage
Darrell Johnson, Supplier Diversity

RFP # 26-011, Disaster Debris Removal Services

Addendum # 4

Question 23: Please provide the date, time, and location when the evaluation committee meeting will be held to evaluate proposals?

Answer 23: All meetings will be held at Polk County Administration Building located at 330 W Church St, Bartow FL 33830, on the 4th floor. The dates and times are proposed as follows:
1st Meeting – February 16, 2026, at 10:00am (Conference Room 413)
2nd Meeting – March 2, 2026, at 9:00am (Conference Room 413)
3rd Meeting – March 24, 2026, at 9:00am (Conference Room 407)

Question 24: Where will the evaluation committee meeting notice be posted?

Answer 24: Please visit the Procurement website at: https://www.polkfl.gov/business/procurement/.

Question 25: Where will the recommendation for award be posted?

Answer 25: Please visit the Procurement website at: https://www.polkfl.gov/business/procurement/.

Question 26: Will the recommendation for award be emailed to all respondents (awardees and non-awardees)?

Answer 26: Yes.

Question 27: Can the County confirm if the recommendation for award will be presented to the BOCC?

Answer 27: Yes.

Question 28: If the County schedules interviews after the written evaluation has been completed, is the written evaluation score compiled within the interview score to determine final ranking?

Answer 28: No. Please see “Elevation Level 3” in RFP Package, page 32.

Question 29: Page 18-Tab 1. Introduction. Please confirm whether *this is or is not* part of the scoring criteria?

Answer 29: There are no points associated with Tab 1.

Question 30: Page 18 – Tab 2. of the RFP indicates that Financial Reports are not part of the scoring Criteria. Having the Financial Capacity to fund a project for several months without receiving payment, but still paying your subcontractors, is extremely important in this industry. Would the County consider adding Financial Reports as part of the scoring criteria?

Answer 30: No.

Question 31: Page 21 of the Solicitation states that the audited financial reports shall be submitted in a separate envelope and must be marked in the left-hand corner on the outside of the envelope as follows: Can the County confirm that it does not want hard copies for Tab 2 and that electronic submission of these documents is acceptable?

Answer 31: Electronic submissions through the County’s Kiteworks would be acceptable.

Question 32: The County has identified 7 Tabs to be electronically submitted. However, none of those tabs indicate where the required forms should be included. Can the County add Tab 8 for required forms?

Answer 32: The required forms may be added to Tab 1 or in a separate Tab 8.

Question 33: For the Draft Agreement, can the County confirm that no sections of this agreement should be filled out and submitted with our proposal, including pages 91 and 92?

Answer 33: Do not fill in the agreement. The draft agreement is a sample of what the agreement will be with the successful vendors.

Question 34: Does the County want the Affidavit Regarding the Use of Coercion for Labor or Services on page 93 filled out, signed, and submitted with our proposal?

Answer 34: The Affidavit Regarding the Use of Coercion for Labor form does not need to be submitted with the submittal. It will be required at the time the agreement is carried out with a successful vendors.

Question 35: Can the County please confirm if you have pre-identified Final Disposal Locations (FDS)?

Answer 35: Yes, the county has multiple sites throughout the county and receives pre-authorization every year in May or June.

Question 36: When was the last time the County had a contract activation for Debris Removal? How many CYs were removed?

Answer 36: Please see above responses for Question 12 and 13.

Question 37: Has the County determined which landfill(s) can be used? If so, please provide locations?

Answer 37: 10 Environmental Loop S, Winter Haven, FL 33880

Question 38: Will annual contract price increases based on Consumer Price Index (CPI) be allowed?

Answer 38: CPI may be used to determine an annual increase.

Question 39: Can the County provide which contractor held the previous or holds the current contract for the services requested in this solicitation with pricing?

Answer 39: Please see the information provided on the FTP site through Addendum 1.

Question 40: Can the County provide the address for their Emergency Operations Center?

Answer 40: 1890 Jim Keene Blvd, Winter Haven, FL 33880.

RFP # 26-011, Disaster Debris Removal Services

Addendum # 4

Question 41: How often can we invoice?

Answer 41: The monitor will review the invoices from the debris contractor to ensure they are correct and if deemed correct then the invoice will be submitted to Polk County.

Question 42: Does the County have a monitoring firm contracted? If so, which monitoring firm?

Answer 42: Monitoring services are currently being solicited at the same time as this RFP 26-012.

February 5, 2026

POLK COUNTY, A POLITICAL SUBDIVISION OF THE STATE OF FLORIDA

ADDENDUM #5

RFP 26-011, Disaster Debris Removal

This addendum is issued to clarify, add to, revise and/or delete items of the RFP Documents for this work. This Addendum is a part of the RFP Documents and acknowledgment of its receipt should be noted on the Addendum.

Contained within this addendum: Receiving date extension.

The Proposal Receiving Date has been extended one (1) week. The revised Proposal Receiving Date is Wednesday, February 18, 2026, prior to 2:00 p.m.

Respectfully,

Tabatha Shirah

POLK COUNTY, A POLITICAL SUBDIVISION OF THE STATE OF FLORIDA
ADDENDUM # 6

RFP # 26-011, Disaster Debris Removal Services

This addendum is issued to clarify, add to, revise and/or delete items of the RFP Document for this work. This Addendum is a part of the RFP Document and acknowledgment of its receipt shall be noted on the Addendum.

Contained within this addendum: questions & answers, revisions, revised Attachment B added to FTP Site and selection committee meeting update.

To receive a copy of **"RFP 26-011, Addendum #6, Revised Attachment B,"** please go the following FTP site: https://ftp3.polk-county.net, you will be prompted for a User ID and Password. The User ID is procurevendor and the password is solicitation. After you have logged in to the FTP site, double click on the file folder "**RFP 26-011, Disaster Debris Remova**l", select "Open" or "Save As" to download the documents. If you need assistance accessing this website due to ADA or any other reason, please email Tabatha Shirah at tabathashirah@polkfl.gov.

Selection Committee Meeting Update:
March 4, 2026 @ 2:30 p.m. – 11:00 a.m. at the Polk County Administration Building in Procurement Conference Room 150 – Procurement will distribute the Proposals and evaluation criteria to the Selection Committee.

March 24, 2026 @ 9:00 a.m. – 11:00 a.m. at the Polk County Administration Building in Conference Room 407 – Selection Committee meeting to score and elevate Proposers. At this meeting the Selection Committee will decide if they would like to interview Proposer(s) or if they would like to recommend to enter into contract negotiations with the highest ranked Proposer.

March 31, 2026 @ 1:00 p.m. - 4:00 p.m. at the Polk County Administration Building in Conference Room 407 – If the Selection Committee decides to interview Proposer(s), the interviews will be held on this date and time.

RFP # 26-011, Disaster Debris Removal Services

Addendum # 6

Question 1: Page 29 of the Solicitation indicates that hourly rates for labor may be increased by the Procurement Director after the contract has been in place for a minimum of 12 months. Can the County confirm that the unit rates may also be increased?

Answer 1: The hourly rates for labor have been removed, please see the FTP Site for "RFP 26-011, Addendum #6, Revised Attachment B". Yes, the unit rate may be increased by the Procurement Director after the contract has been in place for a minimum of 12 months.

Question 2: Regarding the evaluation of the Pricing, does the County intend on adding up all unit price line items to get a total figure to compare against other proposer's or will there be estimated quantities assigned to calculate a total extended price?

Answer 2: A "Revised Attachment "B", Compensation Schedule" has been provided on the FTP Site. See the revised "Tab 3, Compensation Schedule below.

Question 3: If quantities are going to be assigned, what will they be?

Answer 3: Quantities are not being assigned. Refer to Answer 2 above.

Question 4: Regarding the evaluation of the hourly pricing, how does the County intend on weighing the hourly line items?

Answer 4: Refer to Answer 2 above.

Question 5: Will all fees for both the unit rates and the hourly rates be totaled as one figure to determine the total price for evaluation? (We would like the exact methodology evaluators are required to use to determine which price proposal will receive the Maximum Points)?

Answer 5: The hourly rates have been removed from Attachment "B". Refer to Answer 2 above.

Question 6: Can the County please confirm your pre-authorized TDSR locations?

Answer 6: See Facility List on *next page…*

Facility List:

Revision

RFP Package, Tab 3 – page 22-23

Tab 3, Compensation Schedule (5 Points)
Proposers shall complete the compensation schedule included as Attachment B. For items not listed, the County will only pay the FEMA rates.

The unit pricing may be increased by the Procurement Director, or designee, after the contract has been in place for a minimum of 12 months, when it is in the best interest of the County. Increases will be determined by the appropriate price index as approved by the Procurement Director or Designee. No Board action will be necessary for unit price increases.

The Proposer with the lowest total cost will be allocated 5 points. Each additional Proposers cost point allocation will be calculated based upon their relative cost difference from the lowest Proposer.

Executive Summary

The occurrence of storm disasters in the United States has increased sharply in recent years. With the prediction of larger and more destructive storms in the near future, Looks Great Services of MS, Inc. has developed quick response teams and a fleet of more than 350 pieces of specialized debris management equipment. Because of our experience in providing equipment and leadership in such emergencies, we are now a part of aiding agencies in the pre-disaster planning process.

In 1999 Looks Great Services, Inc. was founded in New York. The company has recruited, developed, and trained a team of individuals able to respond to client needs in a professional and courteous manner. In spring 2005, Looks Great Services of Charlotte was launched in North Carolina. In addition to the same services offered in New York, Charlotte added the manufacturing of vegetation products, such as mulch and topsoil, and moved into the land clearing/development industry. In spring 2010, Looks Great Services of MS was established opening operations in Columbia, MS and has the designation as a woman-owned small business. The increased demand for companies that provide utility line clearing as well as right-of-way clearing and maintenance in the mid-south region has allowed the company to continue its steady expansion to over 250 full-time employees. In 2024, Looks Great Services opened an office location in Dallas, Texas to further expand field operations. With locations in the Northeast, Mid-Atlantic and the Mid-South regions and 25 years of vegetative management experience, we are strategically positioned to provide vegetation services across the East Coast and beyond.

In addition to the LGS equipment, we have pre-approved contractors which will provide immediate additional labor and equipment. We can quickly expand our services to over 1,000 pieces of equipment to meet the requirements necessary to handle any disaster.

From destructive insects to winter ice damage, LGS is prepared to respond to situations anywhere in the United States. Our storm damage relief team is available to townships, cities, counties, and states. In cooperation with other professional organizations, today, LGS is continually asked to provide leadership, equipment, and personnel to aid in vegetation management.

Services Provided by Looks Great Services

- Pre-Disaster Management and Planning
- FEMA Public Assistance Program Guidance
- 72 Hour Emergency Road Clearance
- Vegetative Debris Removal (ROW & ROE)
- C&D Debris Removal (ROW & ROE)
- TDMS Management & Operation
- Final Debris Disposal
- Hazardous Tree Removal (Leaners)
- Hazardous Tree Trimming (Hangers)
- Stump Removals
- Demolition
- Sand Screening & Beach Restoration
- Canal & Waterway Debris Removal
- Vehicle & Watercraft Removal
- White Goods Disposal
- Household Hazardous Waste (HHW)
- Aerial Video and Imagery Damage Survey (Drone)

Company Overview

Synopsis

Year Established: 1999

Current number of employees: 275

Bonding Capacity: $200 Million

Successfully completed disaster projects: 300+

TDSRS

Experienced Management

LGS has more than 275 full-time employees that are managed by several dozen professionals. These professions include degrees in Business and Finance, Occupational Safety, Biology, Emergency and Disaster Management, Construction Management, Land Management, Civil Engineering, Construction Engineering, Marketing, and Accounting. Members of management are also FEMA trained, NIMS trained, and OSHA Safety training. LGS has a wide array of experience in different geographical areas ranging from Maryland to Kansas and Texas to Florida, and even Puerto Rico.

One of the core strengths of LGS' management is its ability to adapt. One occasion was when a client in Mississippi did not have the local resources to operate its own landfill. LGS managed to hire a local subcontractor to provide oversight services and LGS self-performed the landfill operations. This accomplished multiple things that the client was ecstatic over: landfill operations were unimpeded, local minority subcontractor participation was utilized, and LGS brought a more positive economic impact to the client than was anticipated.

Final Haul-Out

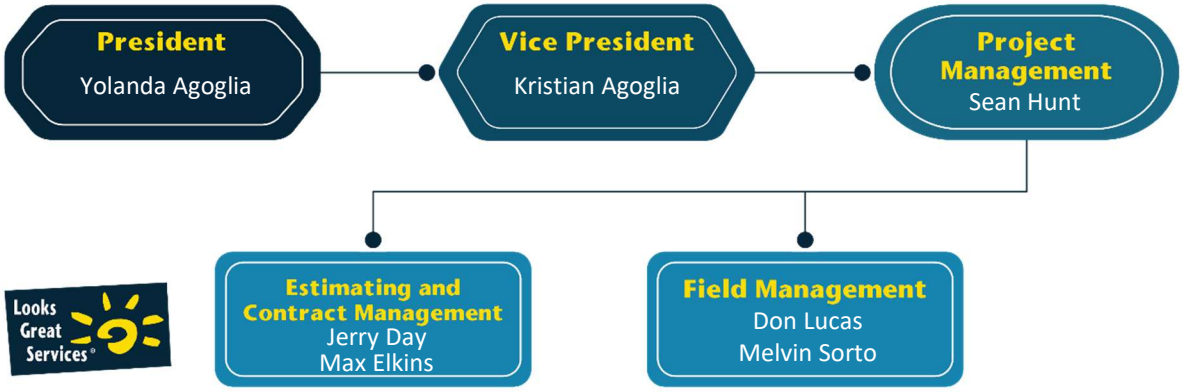
LGS also has a strong commitment to safety. LGS has one of the lowest EMR ratings in its industry and prides itself on maintaining an exceptional safety record. LGS management instills a "Brother's Keeper" mentality in its approach to safety.

Rapid Mobilization

With experience comes knowledge, and this has allowed LGS to evolve its deployment process. By streamlining and pre-planning, LGS can mobilize teams and equipment to predetermined staging areas until the storm passes. Post-storm, these teams can quickly begin assessing the damage and working closely with the client to put together a work plan. LGS can provide significant resources, equipment, and staff within 24 hours of a storm passing. For purposes of this RFP, LGS would deploy equipment and resources from its main office in Columbia.

Monitor Tower

Financial Stability



When it comes to finances, resources are not an obstacle for LGS. With a bonding capacity of 200 million dollars, working capital in excess of 20 million dollars, and the ability to cash-flow multiple projects simultaneously, LGS' financial stability is without question solid. LGS also has the rare distinction of having no debt on any equipment or resources.

Drug-Free Workplace Form

(Submittal Page)

The undersigned vendor in accordance with Florida Statue 287.087 hereby certifies that, (Name of the Business): Looks Great Services of MS, Inc. does:

1. Publish a statement notifying employees that the unlawful manufacture, distribution, dispensing, possession or use of a controlled substance is prohibited in the workplace and specifying the actions that will be taken against employees for violations of such prohibition.
2. Inform employees about the dangers of drug abuse in the workplace, the business's policy of maintaining a drug-free workplace, any available drug counseling, rehabilitation programs, employee assistance programs and the penalties that may be imposed upon employees for drug abuse violations.
3. Give each employee engaged in providing the commodities or contractual services that are under this RFP a copy of the statement specified in subsection (1).
4. In the statement specified in subsection (1), notify the employees that, as a condition of working on the commodities or contractual services that are under this RFP, the employee will abide by the terms of the statement and will notify the employer of any conviction of, plea of guilty or nolo contendere to, any violation of Chapter 1893 or of any controlled substance law of the United States or any state, for a violation occurring in the workplace no later than five (5) days after such conviction.
5. Impose a sanction on or require the satisfactory participation in a drug abuse assistance or rehabilitation program, if such is available in the employee's community, by any employee who is so convicted.
6. Make a good faith effort to continue to maintain a drug-free workplace through implementation of this section.

As the person authorized to sign the statement, I certify that this firm complies fully with the above requirements.

EMPLOYMENT ELIGIBILITY VERIFICATION (E-VERIFY) CERTIFICATION

(Florida Statutes, Section 448.095)

PROJECT NAME: Disaster Debris Removal Services

The undersigned, as an authorized officer of the contractor identified below (the "**Contractor**"), having full knowledge of the statements contained herein, hereby certifies to Polk County, a political subdivision of the State of Florida (the "**County**"), by and on behalf of the Contractor in accordance with the requirements of Section 448.095, Florida Statutes, as related to the contract entered into by and between the Contractor and the County on or about the date hereof, whereby the Contractor will provide labor, supplies, or services to the County in exchange for salary, wages, or other remuneration (the "**Contract**"), as follows:

1. Unless otherwise defined herein, terms used in this Certification which are defined in Section 448.095, Florida Statutes, as may be amended from time to time, shall have the meaning ascribed in said statute.

2. Pursuant to Section 448.095(5), Florida Statutes, the Contractor, and any subcontractor under the Contract, must register with and use the E-Verify system to verify the work authorization status of all new employees of the Contractor or subcontractor. The Contractor acknowledges and agrees that (i) the County and the Contractor may not enter into the Contract, and the Contractor may not enter into any subcontracts thereunder, unless each party to the Contract, and each party to any subcontracts thereunder, registers with and uses the E-Verify system; and (ii) use of the U.S. Department of Homeland Security's E-Verify System and compliance with all other terms of this Certification and Section 448.095, Fla. Stat., is an express condition of the Contract, and the County may treat a failure to comply as a material breach of the Contract.

3. By entering into the Contract, the Contractor becomes obligated to comply with the provisions of Section 448.095, Fla. Stat., "Employment Eligibility," as amended from time to time. This includes but is not limited to utilization of the E-Verify System to verify the work authorization status of all newly hired employees, and requiring all subcontractors to provide an affidavit attesting that the subcontractor does not employ, contract with, or subcontract with, an unauthorized alien. The Contractor shall maintain a copy of such affidavit for the duration of the Contract. Failure to comply will lead to termination of the Contract, or if a subcontractor knowingly violates the statute or Section 448.09(1), Fla. Stat., the subcontract must be terminated immediately. If the Contract is terminated pursuant to Section 448.095, Fla. Stat., such termination is not a breach of contract and may not be considered as such. Any challenge to termination under this provision must be filed in the Tenth Judicial Circuit Court of Florida no later than 20 calendar days after the date of termination. If the Contract is terminated for a violation of Section 448.095, Fla. Stat., by the Contractor, the Contractor may not be awarded a public contract for a period of 1 year after the date of termination. The Contractor shall be liable for any additional costs incurred by the County as a result of the termination of the Contract. Nothing in this Certification shall be construed to allow intentional discrimination of any class protected by law.

Executed this 29 day of January, 2026.

EXHIBIT "A"

CERTIFICATIONS REGARDING DEBARMENT, SUSPENSION, PROPOSED DEBARMENT, AND OTHER RESPONSIBILITY MATTERS

For all awards, subawards, and contracts with certain parties that are debarred, suspended, or otherwise excluded from or ineligible for participation in Federal assistance programs and activities, the Offeror must complete and sign the following:

The Offeror certifies, to the best of its knowledge and belief, that-

(1) This contract is a covered transaction for purposes of 2 C.F.R. pt. 180 and 2 C.F.R. pt. 3000. As such the contractor is required to verify that none of the contractor, its principals (defined at 2 C.F.R. § 180.995), or its affiliates (defined at 2 C.F.R. § 180.905) are excluded (defined at 2 C.F.R. § 180.940) or disqualified (defined at 2 C.F.R. § 180.935).

(2) The contractor must comply with 2 C.F.R. pt. 180, subpart C and 2 C.F.R. pt. 3000, subpart C and must include a requirement to comply with these regulations in any lower tier covered transaction it enters into.

(3) This certification is a material representation of fact relied upon by Polk County, a political subdivision of the State of Florida (the "County"). If it is later determined that the contractor did not comply with 2 C.F.R. pt. 180, subpart C and 2 C.F.R. pt. 3000, subpart C, in addition to remedies available to the Florida Division Emergency Management, the County, and the Federal Government may pursue available remedies, including but not limited to suspension and/or debarment.

(4) The bidder or proposer agrees to comply with the requirements of 2 C.F.R. pt. 180, subpart C and 2 C.F.R. pt. 3000, subpart C while this offer is valid and throughout the period of any contract that may arise from this offer. The bidder or proposer further agrees to include a provision requiring such compliance in its lower tier covered transactions.

EXHIBIT "B"

APPENDIX A, 44 C.F.R. PART 18 – CERTIFICATION REGARDING LOBBYING

Certification for Contracts, Grants, Loans, and Cooperative Agreements

(To be submitted with each bid or offer exceeding $100,000)

The undersigned Looks Great Services of MS, Inc. (Contractor) certifies, to the best of his or her knowledge, that:

1. No Federal appropriated funds have been paid or will be paid, by or on behalf of the undersigned, to any person for influencing or attempting to influence an officer or employee of an agency, a Member of Congress, an officer or employee of Congress, or an employee of a Member of Congress in connection with the awarding of any Federal contract, the making of any Federal grant, the making of any Federal loan, the entering into of any cooperative agreement, and the extension, continuation, renewal, amendment, or modification of any Federal contract, grant, loan, or cooperative agreement.

2. If any funds other than Federal appropriated funds have been paid or will be paid to any person for influencing or attempting to influence an officer or employee of any agency, a Member of Congress, an officer or employee of Congress, or an employee of a Member of Congress in connection with this Federal contract, grant, loan, or cooperative agreement, the undersigned shall complete and submit Standard Form- LLL, "Disclosure Form to Report Lobbying," in accordance with its instructions.

3. The undersigned shall require that the language of this certification be included in the award documents for all subawards at all tiers (including subcontracts, subgrants, and contracts under grants, loans, and cooperative agreements) and that all subrecipients shall certify and disclose accordingly.

This certification is a material representation of fact upon which reliance was placed when this transaction was made or entered into. Submission of this certification is a prerequisite for making or entering into this transaction imposed by 31, U.S.C. § 1352 (as amended by the Lobbying Disclosure Act of 1995). Any person who fails to file the required certification shall be subject to a civil penalty of not less than $10,000 and not more than $100,000 for each such failure.

The Contractor, Looks Great Services of MS, Inc. , certifies or affirms the truthfulness and accuracy of each statement of its certification and disclosure, if any. In addition, the Contractor understands and agrees that the provisions of 31 U.S.C. § 3801 *et seq*., apply to this certification and disclosure, if any.

POLK COUNTY, A POLITICAL SUBDIVISION OF THE STATE OF FLORIDA
ADDENDUM # 6

RFP # 26-011, Disaster Debris Removal Services

This addendum is issued to clarify, add to, revise and/or delete items of the RFP Document for this work. This Addendum is a part of the RFP Document and acknowledgment of its receipt shall be noted on the Addendum.

Contained within this addendum: questions & answers, revisions, revised Attachment B added to FTP Site and selection committee meeting update.

To receive a copy of **"RFP 26-011, Addendum #6, Revised Attachment B,"** please go the following FTP site: https://ftp3.polk-county.net, you will be prompted for a User ID and Password. The User ID is procurevendor and the password is solicitation. After you have logged in to the FTP site, double click on the file folder "**RFP 26-011, Disaster Debris Remova**l", select "Open" or "Save As" to download the documents. If you need assistance accessing this website due to ADA or any other reason, please email Tabatha Shirah at tabathashirah@polkfl.gov.

Selection Committee Meeting Update:
March 4, 2026 @ 2:30 p.m. – 11:00 a.m. at the Polk County Administration Building in Procurement Conference Room 150 – Procurement will distribute the Proposals and evaluation criteria to the Selection Committee.

March 24, 2026 @ 9:00 a.m. – 11:00 a.m. at the Polk County Administration Building in Conference Room 407 – Selection Committee meeting to score and elevate Proposers. At this meeting the Selection Committee will decide if they would like to interview Proposer(s) or if they would like to recommend to enter into contract negotiations with the highest ranked Proposer.

March 31, 2026 @ 1:00 p.m. - 4:00 p.m. at the Polk County Administration Building in Conference Room 407 – If the Selection Committee decides to interview Proposer(s), the interviews will be held on this date and time.

Tab 3 – Compensation Schedule

Addendum # 6

Revised Attachment "B"

PROPOSAL PRICE SHEETS
DISASTER DEBRIS REMOVAL SERVICES

THE FOLLOWING ARE SUBMITTED BY THE BIDDER FOR THE PURPOSE OF:

A. Arriving at an estimated total price.
B. Establishing price factors to be utilized in adjusting the estimated total price resulting from modification(s) issued or annual renewals.

Clarification of pay items

A. Disposal costs at final site as designated by the County shall be the responsibility of the County.

B. Mileage noted in the Price Sheet shall be based on a one-way haul distance.
C. Line item 2: Work consists of the demolition, collection, transportation, and disposal of eligible C&D debris to an approved TDSRS or hazardouse waste final site. Demolition of structures and debris removal shall be calculated at a cubic yard rate.
D. Line item 6: The Contractor shall invoice the County for hazardous stump removal, backfilling, and hauling to the TDSRS utilizing the categories noted.

Revised Attachment "B"

Item No.	Description	UoM	Unit Price
	Level 1: 0 - 50,000 CY of Debris		
1	Gathering, pick-up, and hauling debris to TDSRS		
	A. 0 - 20 miles	CY	$8.50
	B. Over 20 miles	CY	$10.50
2	Demolition of identified structures, gathering, pick-up, and hauling C&D debris to TDSRS or hazardous waste final site		
	A. 0 - 20 miles	CY	$22.00
	B. Over 20 miles	CY	$25.00
3	Site management and processing of debris at TDSRS		
	A. Grinding	CY	$4.50
	B. Burning	CY	$2.85
4	Removal of eligible leaning trees and eligible hanging limbs		
	A. 6" - 12.99" diameter tree	EA	$100.00
	B. 13" - 24.99" diameter tree	EA	$200.00
	C. 25" - 36.99 diameter tree	EA	$350.00
	D. 37" - 48.99" diameter tree	EA	$500.00
	E. 49" and greater diameter tree	EA	$650.00
	F. Removal of all hanging limbs per tree	EA	$85.00
5	Loading and hauling processed debris from TDSRS to final disposal site		
	A. 0 - 40 miles	CY	$9.00
	B. Over 40 miles	CY	$11.00
6	Hazardous stumps		
	A. 24.01" - 36.99" diameter	EA	$400.00
	B. 37" - 48.99" diameter	EA	$475.00

	C. 49" and greater diameter	EA	$595.00
7	Dead animal collection, transportation, and disposal	LB	$1.00
8	Removal, transport, and disposal of eligible household hazardous waste	LB	$15.00
9	Removal, transport, and disposal of disaster generated hazardous waste	LB	$15.00
	Level 2: 50,000 - 200,000 CY of Debris		
1	Gathering, pick-up, and hauling debris to TDSRS		
	A. 0 - 20 miles	CY	$8.50
	B. Over 20 miles	CY	$10.50

Recent Simultaneous Contract Experience

- **2024 Florida, Arkansas, & Kentucky Tornadoes:**

On May 10th, Florida State University in Tallahassee, FL, was struck by three EF-2 tornadoes. Just sixteen days later, on May 26th, Rogers, AR, and Bentonville, AR, were both hit by an EF-2 tornado, while Caldwell County, KY, faced the devastation of an EF-3 tornado. In both instances, within hours of the storms passing, Looks Great Services personnel were on the road, mobilizing quickly to assist in disaster recovery and debris removal efforts. These powerful tornadoes generated over 2 million cubic yards of debris.

- **2023 Mississippi & Arkansas Tornadoes:**

On March 24th, 2023, an EF-4 tornado struck Amory, MS while other tornadoes struck the town of Winona, MS as well as Panola County, MS & Montgomery County, MS. LGS was awarded for all 4 projects. Recovery efforts began immediately following the award. All projects operational within 48 hours of Notice to Proceed.

One week later, on March 31st, 2023, an EF-3 tornado struck Wynne, AR and Cross County, AR in which LGS was also awarded both projects. LGS responded immediately and was more than capable of handling multiple projects in multiple states utilizing internal crews, as well as pre-screened subcontractors led by a team of experienced LGS project managers.

LGS far exceeded client expectations on all five projects delivering exceptional results maximizing FEMA reimbursement for all parties involved. LGS collected, processed, and disposed of over 1 million cubic yards of debris resulting from the devasting damages in all Counties/Cities impacted by the tornadoes.

- **2023 Alabama Tornadoes:**

Starting in January of 2023 LGS was awarded Eutaw, AL, Dallas County, AL, and Elmore County, AL when multiple tornadoes touched down throughout the State of Alabama. LGS was once again activated through

a cooperative County purchasing agreement through the Association of Alabama County Commissions of Alabama (ACCA). LGS performed all jobs simultaneously and was able to complete all projects successfully on time collecting over 300,000 cubic yards of debris along with the hazardous tree pruning and removals managing numerous disposal sites throughout the state.

- **2022 Hurricane Ian:**

Before Hurricane Ian made landfall LGS was initially activated and mobilized over 200 personnel, over 100 pieces of equipment, in place ready to assist for Florida Power & Light. LGS performed so highly that Florida Power & Light kept LGS assisting the restoration efforts throughout the duration of the initial activation. LGS was then activated as the prime contractor for the City of Oviedo, FL and was also staged prior to Hurricane Ian making landfall. LGS then performed the cleanup efforts including debris removal, tree trimming/removal, debris reduction, hauling, and more for the City of Oviedo once again exceeding expectations. Then, after Hurricane Ian made landfall LGS was asked to assist other entities throughout the entire State of Florida including Hardee County, FL, Seminole County, FL, New Smyrna, FL, Holly Hill, FL, Florida Department of Transportation in Hardee County, FL & Lee County, Fl as well as Florida New College.

- **2022 Tornadoes:**

LGS was awarded Caldwell County, Marshall County, Princeton, KY, Lincoln County, MS, and Hendersonville, TN in early 2022. By utilizing a combination of subcontractors and self-performing management and tree trimming, LGS jointly completed 5 contracts at one time. Collectively this amounted to more than 800,000 yards of debris in 3 separate states. LGS successfully completed all work on time and in accordance with all specifications.

- **2021 Hurricane Zeta:**

LGS holds the District 3 contract for the Association of County Commissions of Alabama, which contains 13 counties in this District. After Hurricane Zeta caused a significant amount of damage in this District, LGS was activated by 3 counties at the same time. With the help of local subcontractors, LGS collectively managed, hauled, reduced, and disposed of more than 400,000 yards of vegetative debris in Dallas, Marengo, and Wilcox Counties within a 4-month period. LGS successfully completed all work in a timely manner and in accordance with all specifications.

- **2020 Tornadoes:**

In 2020, one of the largest tornado outbreaks occurred in Mississippi. LGS was awarded 3 separate contracts by the MS Department of Transportation as well contracts with Jasper County, Jefferson Davis County, Lawrence County, Marion County, and Jones County. LGS simultaneously completed all these contracts within a 4-month period and collectively processed more than 550,000 CY of debris. LGS successfully completed all work in a timely manner and in accordance with all specifications.

- **2017 Hurricane Irma:**

In 2017, Hurricane Irma caused widespread damage in Florida, Georgia, and South Carolina. LGS was awarded 3 separate contracts by Florida: Florida City, Miami Shores, and El Portal. LGS simultaneously completed all these contracts within a 3-month period and collectively processed more than 225,000 CY of debris. LGS successfully completed all work in a timely manner and in accordance with all specifications

Large-Scale Past Performance

Since 2001 LGS has been involved in FEMA reimbursed projects. LGS works in compliance with the law, the regulations, and FEMA's codified policies regarding the FEMA Public Assistance (PA) Program. Below is a list of the individual FEMA contracts LGS has managed as the prime contractor that involved more than 250,000 CY of debris removed in the past 10 years.

HEREBY GRANTS
WOMAN OWNED SMALL BUSINESS (WOSB) CERTIFICATION TO

LOOKS GREAT SERVICES OF MS, INC.

The identified small business is an eligible WOSB for the WOSB Program, as set forth in 13 C.F.R. part 127 and has been certified as such by an SBA approved Third Party Certifier pursuant to the Third Party Agreement, dated June 30, 2011, and available at www.sba.gov/wosb.

The WOSB Certification expires on the date herein unless there is a change to the SBA's regulation that makes the WOSB ineligible or there is a change in the WOSB that makes the WOSB ineligible. If either occurs, this WOSB Certification is immediately invalid. The WOSB must not misrepresent its certification status to any other party, including any local or State government or contracting official or the Federal government or any of its contracting officials.

Adam Ham

Professional Experience:

September 2023 – Present — Looks Great Services of MS, Inc
Project Manager

Serves as a Project Manager/Estimator/Sales Director at Looks Great Services of MS. Here, he played a pivotal role in managing a 30-million-dollar contract for the cleanup of Hurricane Idalia in Lake City, Florida as well as a 24-million-dollar waterway debris removal project in DeSoto County, Florida removing debris from Hurricane Ian totaling nearly 700,000 cubic yards. After Hurricane Helene in 2024, Adam managed operations in Georgia where Looks Great Services removed and disposed of more than 3 million cubic yards of vegetative debris from the right of way. He leads project management efforts, including estimation, scheduling, resource allocation, data entry, and quality control. Additionally, he develops and maintains strong client relationships, resulting in increased sales and repeat business. Adam's skill set includes expertise in operations management, project management, quality control, estimation, and cost analysis. He is also proficient in sales, business development, client relationship management, leadership, communication, and negotiation.

May 2016 - September 2023 — DHAM Construction
Director of Operations and Quality Control Manager

He served as the Director of Operations and Quality Control Manager for DHAM Construction. In this role, he oversaw daily operations and managed multiple projects simultaneously, ensuring timely completion and adherence to quality standards. He implemented and enforced quality control measures, enhancing project efficiency and customer satisfaction. Furthermore, he successfully managed multimillion-dollar projects, contributing to the company's annual revenue growth.

Certifications
OSHA Code 29 CFR1910.120 Hazwoper
Disaster Recovery Awareness
Disaster Management for Electric Power Systems
Debris Management Planning

Spencer Stovall

Professional Experience

July 2023 – Present — Looks Great Services of MS, Inc.
Project Manager

Acts as the Project Manager/Estimator/Sales Director at Looks Great Services of MS. In this capacity, he was instrumental in overseeing a $30 million contract for Hurricane Idalia cleanup in Lake City, Florida. He directed project management activities such as estimation, scheduling, resource allocation, data entry, and quality control. Moreover, he fostered and maintained strong client relationships, which resulted in increased sales and repeat

business. Spencer's expertise spans operations management, project management, quality control, estimation, and cost analysis. Additionally, he excels in sales, business development, client relationship management, leadership, team building, communication, and negotiation.

May 2020 – July 2023	Debris Tech Project Manager

Manage Disaster Debris Related Projects consisting of $15 million or less. Oversaw all aspects of the job. Coordinated debris cleanup, hauling routes, debris separation, TDMS site management, costs controls, schedules, and communication with clients. Tracked number of debris hauled and separated accordingly. Served as a liaison between City/County, State, FEMA officials, and the field operations to ensure safe and efficient operations as well as updates on progress of the cleanup efforts.

December 2019 – March 2020	Dungan Engineering Surveyor

Successfully conducted several land and boundary surveys for various projects, utilizing advanced surveying instruments to collect precise data on land features. Ensured accuracy and regulatory compliance by analyzing survey data, producing detailed CAD reports, and resolving boundary discrepancies through thorough research. Collaborated closely with engineers, architects, and construction managers, providing essential survey insights and maintaining clear communication with clients and government agencies. Involved in the planning and managing of survey projects, supervising field teams, and implementing quality control measures. Addressed challenges with critical thinking, resulting in successful project completion, enhanced client relationships, and consistently high-quality survey results.

Education
JONE COLLEGE – Ellisville, MS – Associate of Arts – 2019
UNIVERSITY OF SOUTHERN MISSISSIPPI – B.S. in Construction Management – 2021
Certifications
Haz whopper 40 Hour

Disaster Management for Electric Power Systems
Debris Management Planning

Max Elkins

Professional Experience

May 2023 - Present	Looks Great Services of MS, Inc. Executive Director of Contracting

Serves and oversees the bidding & estimating division to ensure the accuracy and efficiency of all processes, driving the company's success in securing contracts and maximizing profitability. Additionally, involved in the management of the utility division, handling contract negotiations, data collection, job cost accounting, and fostering strong customer relations. Current role extends to overseeing the financial data of 10 utility contracts spanning across the Southeast United States, ensuring meticulous financial management and strategic decision-making to achieve organizational objectives.

January 2022 – May 2023	HORNE, LLP Auditor

Responsibilities included performing detailed examinations of financial statements, transaction records, and internal control systems to ensure compliance with regulatory standards and company policies. Actively participated in planning audit procedures, including risk assessment and materiality determination, to tailor a unique approach to each client. Conducted fieldwork, gathering evidence through interviews, observation, and analysis, and documented my findings for review by managers and partners. Additionally, worked closely with

clients to address any discrepancies or concerns, providing guidance on improving internal processes and controls.

Education
UNIVERSITY OF SOUTHERN MISSISSIPPI – Hattiesburg, MS – B.S. in Accountancy – 2022

Paul Pickett

Professional Experience

August 2023 – Present — Looks Great Services of MS, Inc.
Project Executive/Compliance Officer

Oversee the estimates and contract preparation for proposed work. Work in conjunction with the Vice President, Operations Manager, and Field Operations Manager to find, estimate, and procure work. Coordinate scheduling, subcontracting, and co-manage existing projects with the Operations Manager. Assist in local business development and relations. Handles job costs, payment applications, oversees data reconciliation and project management documentation for existing jobs. Manages contracts, subcontracts, and data reconciliation.

June 2012 – August 2023 — MS Department of Public Safety

Technical Approach

Field Organizational Structure

Technical Approach and Methodology

Prior to commencing debris removal operations and within 48 hours, or as required in the Task Order, Looks Great Services of MS, Inc. (LGS) will submit to Polk County the Contractor Quality Control and Operations Plans which describe the organizational structure and additional key personnel involved in the cleanup, the technical approach and methodology to be used, site specific operational components, the specific geographical area management, the LGS Site Specific Health and Safety Plan (SSHSP), Accident Prevention Plan (APP), Activity Hazard Analysis (AHAs), a copy of the LGS Quality Control Plan (CQC), and approaches to waste reduction and recycling through Beneficial Re-Use, all specific to the Task Order and Area of Operations (AO). The Plan will indicate where operations will begin and which streets/roads will be cleared during the initial period though submission of a 2, 7- and 14-day plan. Operation locations will be decided upon and in conjunction with the County.

The Contractor Quality Control and Operations Plans will be updated by the LGS Operations Manager and CQC System Manager as necessary and as required by Polk County. LGS' final Contractor Quality Control and Operations Plans will include organizational structure and key personnel involved in the cleanup, updated technical approach and methodology to be used, updated site-specific operational components, updated specific geographical area management, updated SSHSP, updated APP, updated AHAs, updated CQC, and updated approaches to waste reduction and recycling through Beneficial Re-Use. The plan will also include continually updated submissions of 2, 7- and 14-day plans, all specific to the Task Order and AO as well as work to be performed by subcontractors, a comprehensive list of subcontractors at each tier, and measures to be taken by LGS and its subcontractors to control hazards associated with services performed, and materials or equipment utilized.

During implementation of services, LGS will attend all meetings convened by Polk County with respect to the response effort, when directed by the County to do so or otherwise necessary to carry out the work. The KO may/will issue subsequent TOs to mobilize and begin Emergency Road Clearance, Debris Removal from Public Roads, Streets and ROWs and Hauling to Debris Management or Final Disposal Sites, Vegetative Debris Reduction at Debris Management Sites (TDSRS) including site management, Final Disposal of Reduced Chips, Testing of Ash and Disposal at Landfill, Removal of Freon Containing White Goods, Removal of Non-Freon Containing White Goods, construction of an Inspection Tower(s), construction of a Hazardous Waste Containment Area(s), deployment of Household Hazardous Waste Separation and Removal Crew(s), activation of Debris Separation Crew(s), and activation of Search and Rescue Support Crew(s) and /or HTRW Separation Crew(s).

Resource Management and Logistics

LGS utilizes the National Incident Management System (NIMS) wherein we have established systems for describing, inventorying, requesting, and tracking resources. Debris Management and Event Response activities require carefully managed resources (personnel, teams, facilities, equipment and/or supplies) to meet event needs. Utilization of the Radial Form Technology (RaFT) iPad-based database system allows for resource typing, inventorying, organizing, and tracking the dispatch, deployment and recovery of resources before, during and after an event.

Resource management should be dynamic in nature to support any event and be adaptable to changes. Efficient and effective deployment of resources requires that resource management concepts and principles be used in all phases of Debris Management and Event Response.

The resource management process can be separated into two parts: resource management as an element of preparedness and resource management during an event. The preparedness activities (resource typing, credentialing, and inventorying) are conducted on a continual basis to help ensure that resources are ready to be mobilized when called to an event. Resource management during an event is a finite process, as shown in the below figure, with a distinct beginning and ending specific to the needs of the event.

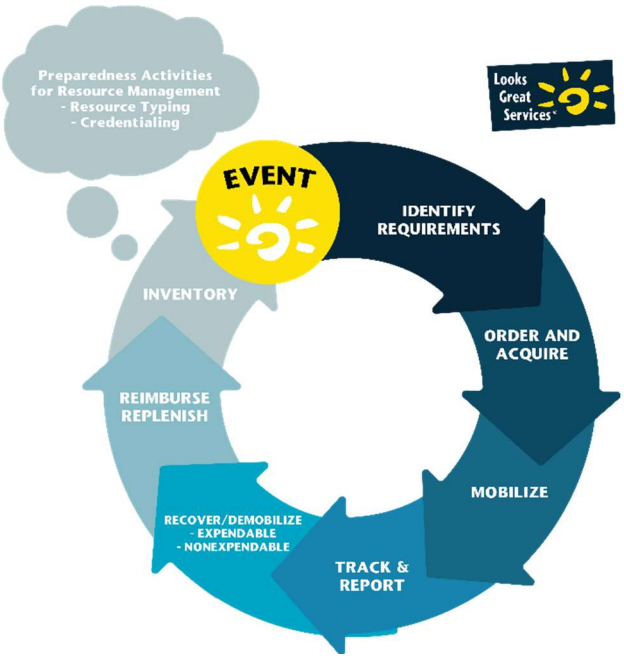

Figure 1: Resource Management Cycle

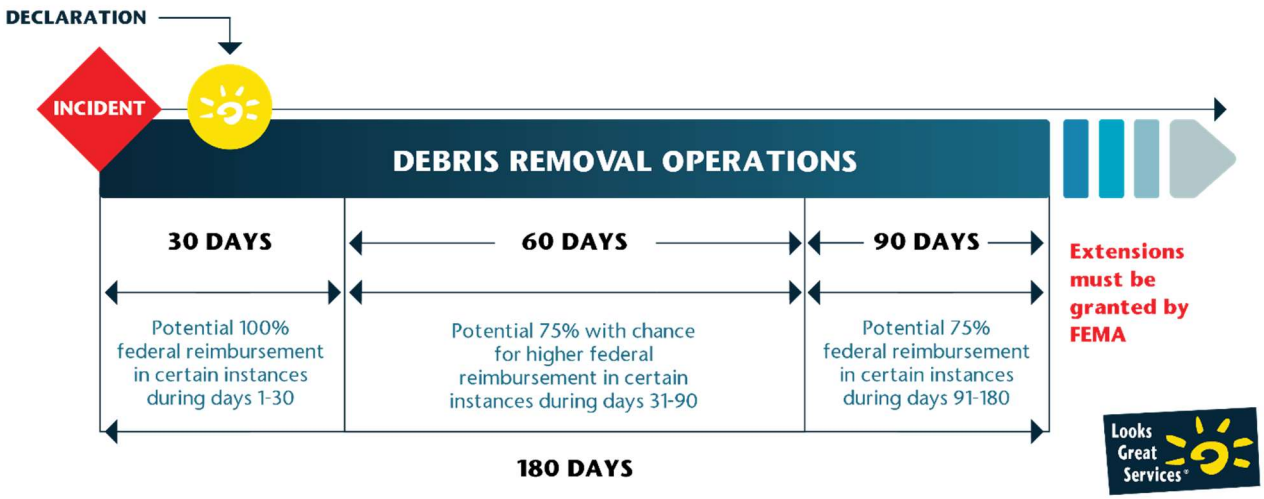
Mobilization of Personnel and Equipment

Looks Great Services (LGS) will mobilize and arrive on-site within 24 hours of receiving a Notice to Proceed from the County.



Upon issuance of a Notice to Proceed, Looks Great Services (LGS) will provide and transport all necessary supplies, equipment, materials, and personnel to execute the full scope of work outlined in the RFP or as required by the specific disaster. LGS will secure clearance from underground and overhead utilities, property owners, and relevant government entities for all operational locations, including equipment staging sites, Vegetative and C&D TDSRS, and the final DMS. LGS and its subcontractors will ensure that equipment and vehicles are ready to mobilize immediately upon notification. The scope of work includes, but is not limited to:

- Vegetative debris removal
- Construction and demolition (C&D) debris removal
- Grinding of generated debris
- Household hazardous waste management
- Removal of animal carcasses
- Disposal of putrefied wastes
- Removal of vehicles and vessels
- E-waste removal
- White goods removal

FEMA Public Assistance Program (Reimbursement Process)

FEMA Programs and other Funding Streams

LGS works within and in compliance with the law, the regulations, and FEMA's codified policies regarding the FEMA Public Assistance (PA) Program. This includes, but is not limited to, the Sandy Recovery Improvement Act's amendments to the Stafford Act (42 U.S.C. 5121 et seq.), Section 428, Public Assistance Alternative Procedures (PAAP) and the PAAP Pilot Program for Debris Removal (https://www.fema.gov/alternative-procedures) performed under Section 407 (42 U.S.C. 5173), Debris Removal, of the Stafford Act. The debris pilot program allows for increases in the federal share of grant monies for PA program applicants for eligible debris removal costs incurred during certain initial time periods following a disaster, with certain restrictions and programmatic requirements. LGS has as one of its core principles to provide professional services that benefit the client in every way possible. That principle leads LGS to work diligently to increase our response level and the amounts of work that can safely be accomplished during those initial time periods to maximize the reimbursement potential for our clients under the PAAP Pilot Program for Debris Removal. LGS ensures that our clients are aware of how the critical documentation trail must provide the proper substantiation for our clients to successfully acquire that funding. Further, LGS has a long standing relationship with FEMA programmatic management consulting experts that LGS makes available to our clients to ensure that our clients maximize eligible programmatic funding, and that our clients are able to both identify the eligible work that can be performed, and the numerous funding streams available to our clients to help them fund the monumental task that is the recovery process following a disaster – that assistance covers all disaster recovery programs and is not limited to only debris removal – please see the resume section for more details on the FEMA programmatic management consulting experts.

Documentation and Reimbursement

LGS has a proven history in supporting our clients with accurate and complete documentation. This documentation is made readily available to any reimbursement agency or client. Records are tracked daily from the beginning of the project to final closeout.

Financial accountability is maintained via a system based on the field data that's gathered and reconciled. All documentation systems comply with FEMA 325 guidelines.

Debris Hauling Documentation

Phase 1 – Truck Certification

Debris trucks are all certified prior to beginning a project. This includes:

- Measuring the truck beds to determine an accurate cubic yard capacity.
- Driver, safety, and insurance checks.
- Truck Certification Form is completed, and a copy is retained by the driver, monitor, and client.
- Placards displaying capacity, project truck number, and contractor's name are affixed to the truck.
- Monitors are given truck logs to verify placards as an added measure of accuracy.

Phase 2 –Tickets

Tickets are electronic or multi-part and are required for reimbursement purposes. Client representatives or monitors will fill out and sign off on completed tickets. These will then be used in the reconciliation and QC process. The tickets used are as follows:

Debris Load Tickets are a 5-part ticket that records the transport of debris from the collection point to the DMS or final disposal site. Monitors document the operations at each location to ensure proper protocols.

Leaner/Hanger Tickets are a 5-part ticket that records the trimming or removal or leaning trees or hanging limbs. Monitors document the size, location, and other various aspects of the process.

Daily Log Tickets are a 2-part ticket that records the hours worked by the contractor's labor and equipment when hourly rate items are activated. Monitors log and verify each unit's hours worked throughout the day.

Data Management

LGS uses a database system that is easily adaptable to any requirements. Regardless of whether the electronic or physical documentation is utilized, LGS' database can track and extract data for use in the reconciliation process. LGS has trained employees who carefully prepare reconciled reports on a weekly or semi-weekly basis to submit with invoicing. Working with the monitors, LGS compares these reports with the monitors as an added checks and balances system, which helps to expedite the reimbursement process.

Once the data is reconciled and completed, LGS will maintain and store all records for a minimum of 7 years. Both electronic and physical copies are catalogued and stored for quick access as needed.

Reimbursement

LGS works closely with all agencies to ensure issues are minimized or eliminated in disaster reimbursement projects. As an example, LGS was recently asked to produce ticket records for an audit that the debris monitor was engaged in. The monitor could not find records on more than two dozen tickets. Within less than 2 hours LGS found the copies of the missing tickets in its database and submitted them to the respective parties. This helped the monitor and the client greatly in their reimbursement process. LGS will give the same "over-the-top" service to all its clients.

As an added measure, LGS has personnel that are well-versed in CFR, PAPPG, and other FEMA guidelines and are available to assist the client in completing any required documentation for reimbursement.

Debris Management Process Plans and Procedures

Debris Pick-up (Loading at Curbside)

Commencement of Pick-Up

LGS will mobilize within 24 hours of receipt of a Task Order or Notice to Proceed. Debris pick-up will commence within 24 to 48 hours of receipt of a Task Order and Notice to Proceed from the County. Debris operations will commence in an orderly and manageable fashion on streets and roads cleared sufficiently for access as designated by the Polk County Task Order(s).

Field Supervisors/Crew Foremen

Project Managers will report to the Senior Project Manager. All LGS Managers will be responsible to ensure work is conducted only in those areas designated by the County. Supervisors will not allow work to commence in additional areas until directed by a Polk County Task Order. Supervisors will be responsible for the safety of all personnel and equipment. Supervisors will be responsible for collection of daily personnel and equipment time logs, and their distribution to LGS designated representative with a copy given to Polk County's Authorized Representative (AR).

Crew foremen will report to their designated supervisor. Foremen will be responsible to ensure work assignments received from their supervisor are completed to the requirements of the Polk County Task Order. Foremen will be responsible for maintaining the daily personnel and equipment time logs.

Equipment

Debris pick-up equipment will include but is not limited to the following:

- Self-Loaders/Knuckle-boom trucks.
- Rubber tire front end loaders with grapple buckets.
- Rubber tire front end loaders with 4-in-1 buckets.
- Rubber tire backhoes with thumb.
- Haul trucks with attached grapple arms.
- Other specialized equipment (e.g. Bobcat).

The cadre of equipment:
- Is owned or leased
- Is available for movement
- Will be leased in other areas if necessary
- Transportation Plan has been developed

Maintenance/Fuel Vehicles and Personnel

Maintenance/fuel vehicles will be assigned and manned as needed to provide an adequate supply of fuel and to provide all required field maintenance to ensure equipment operations.

Hand Crews

1–2 laborers with sufficient hand tools will accompany each piece of heavy equipment.

Operations

Debris segregation and sorting will be conducted at street/road level to the maximum amount practical and as instructed by the Polk County TOs. All debris will be picked up and loaded into haul trucks in a safe and workman-like manner to ensure compliance with the Corporate Safety Plan. Safety will not be compromised and is outlined with specifics in the LGS Safety Plan. All crew foreman and field supervisors will be responsible to ensure a rapid and cost effective as possible operation. Operators, to ensure maximum loading and safe transport of material, will size all vegetative debris with a CR present.

All construction and demolition materials will be sized for heavy equipment to ensure maximum loading and safe transport of materials within EPA and DOT standards. Obvious hazardous materials will be dealt with in accordance with the Polk County Task Order and the Corporate Environmental Protection Plan and in compliance with the Corporate Safety Plan.

Traffic control personnel, with appropriate traffic control safety equipment, will be stationed at each approach point of the work area to maintain traffic control and prevent personal injury to ensure compliance with the Corporate Safety Plan. Additional traffic control personnel will be stationed throughout the area, as needed, to ensure safe operations.

Debris Hauling

Debris hauling may consist of 2 distinct operations as follows:

1. Hauling of unreduced debris from origination point to staging area (Temporary Debris Management Site(s) - TDMS.)
2. Hauling of reduced debris from staging area to final disposal site.

Construction and Demolition Debris:

LGS advises Polk County that construction and demolition debris be hauled directly to final disposal site from point of origination. This direct haul method will ensure that all demolition debris is handled in accordance with local, state, and federal requirements. The direct haul method is not considered expeditious operation, it is the industry's best practice to construction and demolition debris as little as possible due to the potentially hazardous nature of the material.

Vegetative Debris:

LGS advises Polk County that vegetative debris be hauled to a TDSRS in order to expedite debris removal. It is the operational goal of LGS to complete debris removal services as quickly as possible for the County, in order that they may be able to take advantage of the 60-day window of maximum reimbursement. The TDSRS site will ensure that LGS operations are completed in the shortest amount of time; therefore, reducing direct costs to the County such as monitoring, management, and the need for additional reimbursable assets. This method of operations allows for the most efficient completion of debris removal, which is in the best interest of the health and safety of the public.

Hazardous Leaner and Hanger Removal

Looks Great Services is operationally capable of providing specialized crews that are trained and equipped to remove hazardous leaners from Right-of-Way and any trees containing eligible hangers. These available in-house resources set LGS apart by allowing us to provide ISA Certified Utility Arborist supervised tree crews. Our daily experience in providing vegetation management for utilities allows us to offer these services, thus ensuring a thorough inspection of all affected trees and properly addressing the County's needs and meeting their requirements.

Field Supervisors/Crew Foremen

Field supervisors will report to the senior field supervisor. All field supervisors will ensure that all hauling operations comply with local, state, and federal DOT standards in effect at that time and ensure compliance with the Corporate Safety Plan. All supervisors will be responsible to ensure work is conducted only in those areas designated by Polk County. Supervisors will not allow work to commence in additional areas until directed by the County's Authorized Representative.

Supervisors will be responsible for the safety of all personnel and equipment. Supervisors will be responsible for collection of daily personnel and equipment time logs, and their distribution to LGS designated representative(s) with a copy given to Polk County. Supervisors will be responsible for ensuring

accuracy, completing CQC and collecting load/haul tickets and daily load/haul logs from haul truck operators. The supervisor will complete forms.
Crew foremen and project managers will report to their designated supervisor. Foremen will be responsible to ensure work assignments received from their supervisor are completed to the requirements of the Polk County Task Order. Foremen will be responsible for maintaining the daily personnel and equipment time logs.

Equipment

Hauling equipment will include, but is not limited to:

- 16-20 cubic yard dump trucks.
- 21-30 cubic yard dump trucks.
- 30-50 cubic yard tractor trailers.
- 50-75 cubic yard tractor trailers.
- 75-100+ cubic yard tractor trailers.
- Roll-off dumpsters or any other hauling equipment.

The cadre of equipment:
- Is owned or leased
- Is available for movement
- Will be leased in other areas if necessary
- Transportation Plan has been developed

Experience has shown that, for longer haul distances, larger capacity trucks (100 + C/Ys) are more cost effective.

All equipment will be mechanically loaded only, and haul truck beds will be equipped with tailgates constructed of materials (i.e. chain-link fence, safety fence, etc.) that will safely contain debris, allow each haul truck to be loaded to its capacity and also allow rapid dumping of debris from the bed. Any haul truck bed that has or will have vertical extensions installed, will comply with the following restrictions:

Haul truck bed extensions will comply with all applicable local, state and federal laws. Bed extensions, when installed, will be located, and secured to the front-end, left side and right side of the bed. Bed extensions will not extend beyond 24 inches above the manufacturer's bed height. Bed extensions will be constructed of not less than 2" x 6" lumber placed flush against the manufacturer's bed and each subsequent piece of lumber to withstand loader impact. Lumber will be secured to the manufacturer's bed with angle or channel iron and bolts. Each side extension will be secured with metal brackets and bolts to the front-end extension. All supervisors will utilize the check sheet provided by LGS Safety Officer to ensure all safety equipment is maintained and operable on all debris hauling equipment to ensure compliance with the Corporate Safety Plan.

Past experience has shown that, for longer haul distances, larger capacity trucks (100 + C/Ys) are more cost effective.

All equipment will be mechanically loaded only, and haul truck beds will be equipped with tailgates constructed of materials (i.e. chain-link fence, safety fence, etc.) that will safely contain debris, allow each haul truck to be loaded to its capacity and also allow rapid dumping of debris from the bed. Any haul truck bed that has or will have vertical extensions installed, will comply with the following restrictions:

Haul truck bed extensions will comply with all applicable local, state, and federal laws. Bed extensions will not extend beyond 24 inches above the manufacturer's bed height. Bed extensions will be constructed of not less than 2" x 6" lumber placed flush against the manufacturer's bed and each subsequent piece of lumber to withstand loader impact. Lumber will be secured to the manufacturer's bed with angle or channel iron and bolts. Each side extension will be secured with metal brackets and bolts to the front-end extension. All supervisors will utilize the check sheet provided by LGS Safety Officer to ensure all safety equipment is maintained and operable on all debris hauling equipment to ensure compliance with the Corporate Safety Plan.

Maintenance/Fuel Vehicles and Personnel

Maintenance/fuel vehicles will be assigned and manned as needed to provide an adequate supply of fuel and to provide all required field maintenance to ensure equipment operations.

Operations

All field supervisors will ensure that all debris-hauling operators are licensed and/or certified to operate the required equipment. All debris-hauling operators will be given area maps designating assignment/authorized areas of operations as well as transport routes designated and/or approved by Polk County. All debris haul operators will visibly display colored signs provided by LGS and, if applicable, Polk County. LGS signs are secured, weather-proof signs will be placed on the driver and passenger doors of the vehicle cab. Any signs provided by the County will be displayed on both sides of the forward most section of the vehicle bed, unless otherwise directed by the County. All signs will be removed from the exterior of the vehicle, at close of business each day and secured by the driver to prevent theft or loss.

Colored paper signs/passes will be displayed on the driver's side windshield of each vehicle. The color of the sign/pass is subject to change, without notice, to ensure quality control measures regarding authority to enter work sites. Each sign/pass will contain the following information: company logo, contract location, the County's name, contract number, truck number, date of issue, supervisor name/signature.

All debris pick-up and haul operators will maintain the numbered debris hauling/transportation documentation/verification form "LGS Debris Transportation". Each form contains directions, which should be followed. All supervisors will be responsible to ensure that all employees utilizing and/or inputting information on the form are procedurally trained. It will be each supervisor's responsibility to maintain a supply of the required number of forms. Forms will be distributed by supervisors/foremen to debris haul operators during debris pick-up operations. All debris haul operators will maintain daily ticket/haul records to be turned into field supervisors, with copies of load tickets at close of business each day.

Reduction and Site Management

Debris Staging

Debris staging sites, TDSRS, will be located, acquired, and designated by Polk County unless specified otherwise. Construction of TDSRS elements will commence immediately upon receipt of a Task Order and Notice to Proceed from the County. LGS will ensure that TDSRS construction will be accomplished as rapidly as possible, because of the criticality of staging sites to the debris removal process as a whole.

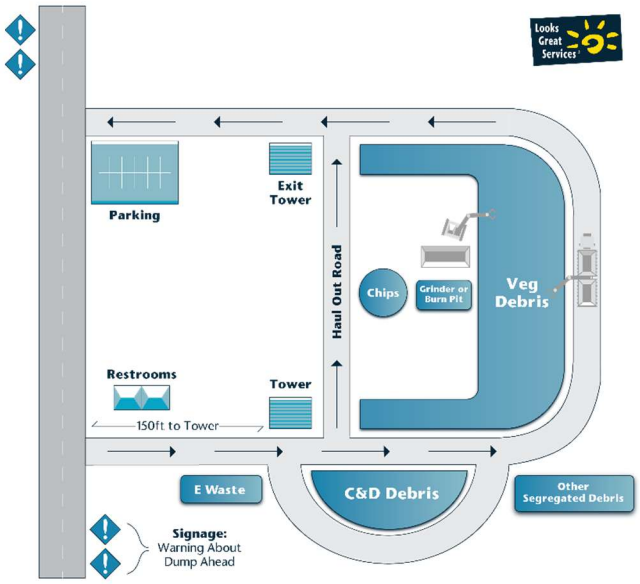


Figure 2: TDSRS Sample Layout

Field Supervisors/Crew Foremen

Field supervisors will report to the senior field supervisor. Debris staging site supervisors (TDSRS Managers) will be responsible for management of all operations of the TDSRS to include site safety, haul load inspection, segregation, traffic control, dumping, reduction, security, and remediation. Supervisors will be responsible for the safety of all personnel and equipment to ensure compliance with the Corporate Accident Prevention Plan as part of the Corporate Safety Plan.

LGS Supervisors will be responsible for collection of daily personnel and equipment time logs, and their distribution to LGS designated representative with a copy given to Polk County. LGS Supervisors will be responsible for collecting load/haul tickets and daily load/haul logs from haul truck operators. Inspection tower personnel will complete the forms.

Crew foremen will report to their designated supervisor. Foremen will be responsible to ensure work assignments received from their supervisor are completed to the requirements of the Polk County Task Order. Foremen will be responsible for maintaining the daily personnel and equipment time logs.

Equipment

Debris staging site equipment may include but is not limited to the following:

- Excavators with thumb.
- Track type tractors with root rakes.
- Track type tractors with push blades.
- Farm type tractor with box blade.
- Motor grader.
- Rubber tire loader.
- Tub grinder.
- Brush chipper.
- Air curtain burner.

All equipment will meet current safety standards.

Maintenance/Fuel Vehicles and Personnel

Maintenance/fuel vehicles will be assigned and manned as needed to provide an adequate supply of fuel to maintain equipment operations. Maintenance/fuel vehicles will be assigned and manned as needed to provide all required field maintenance to ensure equipment operations.

Laborers:

1–2 laborers with specialized hand tools for segregation and separation will accompany each piece of heavy equipment.

Debris Staging Site Key Steps

The following information will be utilized to create a location specific site management plan and site safety plan to accompany this plan.

Site Access

Separate points of ingress and egress should be established if possible. Temporary acceleration and deceleration lanes should be established adjacent to the primary road leading to and from site access points, if approved by Polk County and appropriate authority having jurisdiction over primary road right-of-way. All temporary roads leading to and through the debris staging site should be constructed and maintained for all weather use (i.e. – rock laid roads).

Inspection Towers

Inspection towers will be constructed to facilitate observation and quantification of debris hauled for storage at debris staging sites. No less than two inspection towers will be utilized at each debris staging site. One tower at point of ingress for use by LGS CQC and the Polk County QA, one tower at point of egress to ensure all debris hauling trucks are in fact empty upon leaving the site. The egress tower should be manned by at least one representative from the County.

Traffic Controls

Traffic control personnel, with appropriate traffic control safety equipment, will be stationed at the ingress observation tower to maintain vehicular and pedestrian traffic control. Additional traffic control personnel will be stationed throughout the site, as needed, to enforce proper dumping and prevent personal injury to ensure compliance with the Corporate Safety Plan.

Environmental Protection

LGS' Environmental Protection Plan incorporates such issues as erosion control, hazardous and toxic wastes, dust and smoke control. The Clean Water Act, Storm Water Act, Resource Conservation and Recovery Act, Superfund Amendments and Reauthorization Act and others are incorporated in full by LGS' Environmental Protection Plan. Environmentally sensitive areas (i.e. wetlands, habitat, historical sites) within or in proximity to a debris staging site will be avoided, designated as sensitive, protected, and access restricted to the extent possible from adverse impact. All requirements of pertinent environmental standards will be complied with.

Debris Storage Areas

Debris will be segregated into 5 main areas of concern as follows unless otherwise instructed by Polk County:

- Vegetative debris

- Vegetative debris will be cleaned of C&D debris to the extent possible to facilitate compliance with requirements for reduction of vegetative debris.

- Construction and Demolition (C&D) Debris
  - C&D debris will be dampened prior to dumping and periodically as needed, to comply with local, state, and federal EPA standards.
- Recyclable/salvage
  - Recyclable/salvageable materials, including eWastes, will be stockpiled in accordance with the Polk County Task Order.
- White goods
  - White goods will be stockpiled in accordance with the Polk County Task Order.
- Hazardous and/or toxic wastes (HHW and HTRW)
  - HHW/HTRW will be segregated and stored in a County approved containment area. All site personnel will receive a safety briefing regarding operations involving HHW/HTRW to prevent personal injury and ensure compliance with the Corporate Accident Prevention Plan as part of the Corporate Safety Plan. HHW/HTRW containment site perimeter will be posted and secured for personnel safety.

Safety Precautions

Water Trucks

The required number of water trucks will be stationed at each debris-staging site. Water trucks will be utilized to reduce the threat of friable materials from C&D debris being released into the atmosphere. Water trucks will be utilized to reduce the threat of fire from all types of debris. If necessary, water trucks will be utilized in fire suppression operations. Water trucks will be utilized to dampen areas, including temporary roadways, to suppress dust from trucks entering and leaving the TDSRS.

Fire Suppression Equipment

Fire extinguishers will be located throughout each debris staging site as required by the site management plan, site safety plan, OSHA requirements and the Polk County Task Order. All debris staging site personnel will be trained in incipient fire suppression operations and safety procedures, to include operation of fire extinguishers and water trucks and to ensure compliance with the Corporate Safety Plan.

Debris Segregation

This section discusses the guidelines for debris segregation not already discussed previously in this plan.

Street/road Level Segregation

All foremen will direct debris removal personnel to segregate debris into six areas:

- Vegetative debris
- C&D debris
- Recyclable/salvageable materials
- White goods
- HHW
- eWaste

Segregation of debris at the street/road level will not take precedence over completing street/road debris removal operations in a safe and rapid manner. All personnel conducting debris segregation at the street/road level will receive a safety briefing on potential hazards and injury prevention to ensure compliance with the Corporate Safety Plan.

Debris Segregation at Staging Sites

Staging site supervisors will ensure that all debris haul operators deposit debris in areas designated for the type debris hauled. Debris hauled to staging sites in mixed loads will be segregated by heavy equipment when possible and by hand crew when necessary.

Vegetative debris will be placed into two separate piles:

- The first pile (pile one) will be the dumping point until enough has been accumulated to commence a continuous reduction operation.
- Pile two will be started and accumulated until the reduction of the pile one has been completed.
- At which time, dumping of vegetative debris on pile two will cease and pile one will be replenished. This rotation will continue until the task is completed.
- All personnel involved in vegetative debris segregation operations will receive a safety briefing for all effected job to ensure compliance with the Corporate Safety Plan.
- C&D debris will be placed into one or more piles, as required, to reduce the threat of a fire conflagration until it is reduced or disposed.

LGS will consult with the County, local fire officials and pertinent environmental officials regarding the requirements for stock piling of C&D debris.

White goods will be segregated, as required by the Polk County Task Order. White goods will be placed and stored until instructed by the County as to its final disposition.

Salvageable/recyclable materials will be segregated, as required by the Polk County Task Order. Salvageable/recyclable materials will be segregated and stored until instructed by the County as to its final disposition.

HHW/HTRW will be segregated and stored in a County approved containment area. All site personnel will receive a safety briefing regarding operations involving HHW/HTRW. The HHW/HTRW containment site perimeter will be posted and secured for personnel safety and to ensure compliance with the Corporate Safety Plan as well as the LGS Corporate Environmental Protection Plan. HTW will be segregated and stored until instructed by the County as to its final disposition.

Please see the diagram below for Debris Accountability.

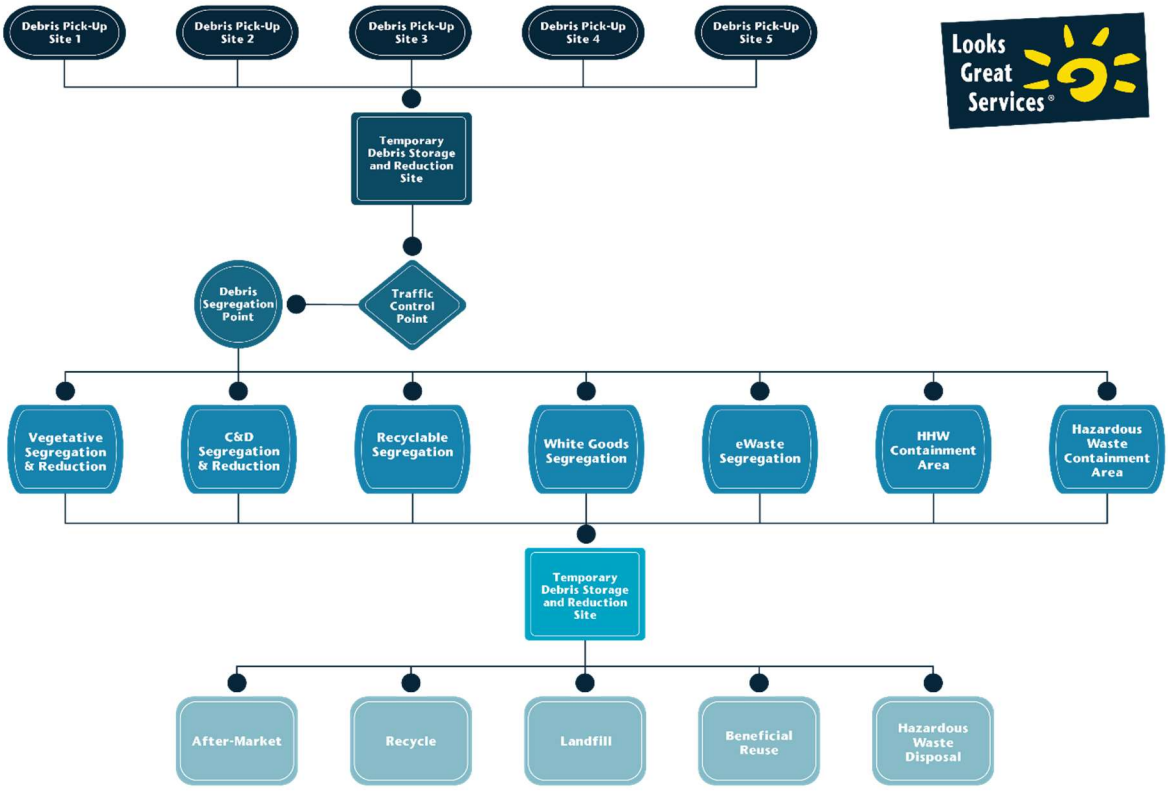

Figure 3: Debris Accountability Flow Chart

Debris Reduction

This section discusses guidelines to be followed during debris reduction operations not already addressed in this plan. If required by a Polk County Task Order or Notice-to-Proceed, night operations may be conducted. Night operations will be limited to reduction of debris by burning. Night operations will only be conducted upon a determination by the LGS Safety Officer and concurrence by Polk County, that such operations may be conducted in a safe manner.

Grinding, Chipping and/or Shredding Operations

Grinding, chipping, and/or shredding operations will be accomplished on all vegetative debris not reduced by burning operations. Grinding, chipping, and/or shredding operations are the preferred method of reduction for vegetative debris to accomplish environmental resource conservation through recycling/salvage of wood chips. Although this operation is preferred for environmental purposes, it is also the most time consuming and costly reduction operation due to material handling and haul disposal costs after reduction operations have been accomplished. Grinding, chipping, and/or shredding of C&D materials is prohibited by and within numerous jurisdictions. Grinding, chipping, and/or shredding operations will be accomplished on the type of debris (vegetative and/or C&D) as directed by the Polk County Task Order.

Grinding, chipping, and/or shredding of vegetative debris will be accomplished on the piles of vegetative debris as set out below:

- Vegetative debris will be placed into two separate piles.
    - The first pile (pile one) will be the dumping point until a sufficient quantity has been accumulated to commence a continuous reduction operation.

- Pile two will be started and accumulated until the reduction of the pile one has been completed.
    - At which time, dumping of vegetative debris on pile two will cease and pile one will be replenished. This rotation will continue until the task is completed.

All LGS personnel involved in vegetative debris grinding, chipping, and/or shredding operations will receive a safety briefing for all affected job functions.

A track-type tractor with blade or a rubber tire loader will pick-up, and stockpile chips for temporary storage. Chips will be loaded out and hauled to a final disposal site as quickly as possible to reduce the threat of a fire. All appropriate fire protection measures will be established and maintained in accordance with the site management plan, site safety plan and the Polk County Task Order. Water trucks will be utilized to reduce the threat of fire from all types of debris. If necessary, water trucks will be utilized in fire suppression operations.

Debris Disposal

Debris disposal is the pre-planned, pre-approved operation of placing debris in approved disposition sites.

Debris disposal operations can be segmented into three distinct operations:

- Haul to and tip at debris disposal site.
- Physical operation of debris disposal site.
- Augmentation of debris disposal site permanent staff and equipment.

Disposal Site(s)

A disposal site may be a dump and/or a landfill owned and operated by private or public sectors.

Non-burnable debris will be disposed only at a dump and/or landfill designated to receive materials other than toxic hazardous waste.

Equipment

Debris disposal hauling equipment will include, but is not limited to:

- 16-30 cubic yard dump truck
- 30-100 cubic yard tractor-trailer or other such haulers as Polk County may direct.

Past experience has shown that the farther the haul distance, larger capacity trucks are more effective. All haul truck beds will be equipped with tailgates constructed of materials (i.e. chain-link fence, safety fence, etc.) that will safely contain debris, allow each haul truck to be loaded to its capacity and allow rapid dumping of debris from the bed.

Any haul truck bed that has or will have vertical extensions installed, will comply with the following restrictions:

- Disposal haul truck bed extensions will comply with all applicable local, state, and federal laws.
- Bed extensions, when installed, will be located, and secured to the front-end, left side and right side of the bed.
- Bed extensions will not extend beyond 24 inches above the manufacturer's bed height. Bed extensions will be constructed of not less than 2"x6" lumber.
- All disposal trucks will be mechanically loaded and pre-measured and accepted by Polk County before being utilized in debris removal operations.

Maintenance/Fuel Vehicles and Personnel

Maintenance/fuel vehicles will be assigned and manned as needed to provide an adequate supply of fuel to maintain equipment operations. Maintenance/fuel vehicles will be assigned and manned as needed to provide all required field maintenance to ensure equipment operations.

Safety

All supervisors and/or foremen will utilize the check sheet provided by the assigned LGS Safety Officer to ensure all safety equipment is maintained and operable on all debris disposal hauling equipment and to ensure compliance with the Corporate Safety Plan.

Operations

All field supervisors will ensure that all debris disposal-hauling operators are licensed and/or certified to operate the required equipment. All debris disposal operators will be given area maps designating assignment/authorized areas of operations as well as transport routes designated and/or approved by Polk County. All debris disposal haul operators will visibly display colored signs provided by LGS and, if applicable, Polk County. LGS signs are weatherproof signs to be placed on the driver and passenger doors of the vehicle cab. Any signs provided by Polk County will be displayed on both sides of the forward most section of the vehicle bed, unless otherwise directed by the Polk County Task Order/NTP.

All signs will be removed from the exterior of the vehicle at close of business each day and secured by the driver to prevent theft or loss. Signs will be replaced on the vehicle at the beginning of the workday. Colored paper signs/passes will be displayed on the driver's side windshield of each vehicle. The color of the sign/pass is subject to change, without notice, to ensure quality control measures regarding authority to exit work sites and enter disposal site(s).

All debris disposal haul operators will maintain the numbered debris hauling/transportation documentation/verification form(s). Each form contains directions, which should be followed. All supervisors will be responsible to ensure that all employees utilizing and/or inputting information on the form are procedurally trained. It will be each supervisor's responsibility to maintain a supply of the required number of forms. Forms will be distributed by supervisors/foremen to debris disposal haul operators during loading operations and after completing the applicable sections on the aforementioned documentation forms.

All debris disposal operators will maintain daily ticket/haul records to be turned into field supervisors, with copies of load tickets at close of business each day.

Management of HHW, HTRW, White Goods, E-wastes, Automobiles, Putrefied Foods, Tires, Gasoline, and Powered Tools

LGS Environmental Experience

LGS has experience with Hazardous Waste Storage and collection. LGS was contracted to develop a plan to handle household hazardous waste (HHHW) collection for the City of Houston during a major flood event. Upon plan approval, LGS mobilized to collect the HHW from all areas of the city. LGS mobilized 85 technicians and all equipment necessary to carry out the plan, which involved approximately 46,000 residential structures. LGS established a collection point and command center to manage the event. Plans were implemented to complete a sweep of all affected areas of the city for the collection of HHW. Crews were equipped within 48 hours and mobilized to the collection area. LGS personnel created grids and mapped the areas for each crew to work daily. Crews were directed into various areas of the city based on damage and debris recovery activities. Collection crews separated HHW from other debris and staged the segregated items for pick up. The entire affected area of the city was covered in one sweep and HHW was successfully kept out of the landfills used to handle organic debris. Contaminants included cyanides, acids, pesticides, hydrocarbons, hydrocarbon derivatives, bases, etc.

- White Goods: LGS has successfully completed numerous similar projects and is confident in our ability to perform the scope of work associated with this project. As with projects of this nature, it is essential to understand the health effects of the exposure to bacterial pathogens. Though like blood borne pathogens, many bacteria are difficult to visualize and are more easily transmitted through general contact. Often, individuals will fail to recognize the symptoms associated with bacterium exposures and consequently mistreat or mistake the symptoms as that of the common cold. However, individuals who fail to recognize the exposure may experience an extended recovery period and the conditions may actually grow more severe. All personnel that LGS will use in the completion of this project understand the effects of this type of exposure. LGS will evaluate and provide, as required, booster shots to prevent associated disease. (E.g. hepatitis)

- Health and Safety: LGS takes the health and safety of their employees seriously with a site health and safety plan being developed and approved for each project prior to mobilization. All of LGS' personnel working with hazardous materials have completed at least 40 hours of OSHA- required hazardous waste operations training per 29 CRFR 1910.120. LGS has also has a substance abuse policy and program in place, which meets or exceeds Government Requirements.

Household Hazardous Waste (HHW)

Household Hazardous Waste (HHW) is excluded from the definition of Hazardous Waste and therefore does not require the same collection or handling procedures as Hazardous Waste.

Acceptable Materials include, but are not limited to:

- Batteries
- Waste Oil
- Waste Fuels
- Paint
- Chemicals
- Antifreeze
- Pesticides
- Spray Cans
- Unidentified Liquids
- Household Cleaners

Collection Points (To be identified by the KO)

Once the collection points are identified, LGS will set up/staging for the containment areas. The waste will be identified, labeled and segregated for disposal.

A Certified Hazardous Materials Manager (CHMM) will be on site receiving and segregating wastes, sorting to waste containers in accordance with the waste disposal contract. The CHMM will also make sure all waste containers are properly labeled, the area has warning signs and hours posted, track receipts, maintain a facility log, conduct storage facility inspections, limit access, maintain the site in a clean and orderly condition and have hazardous waste clean-up ready and available at a moment's notice at all times. The on staff CHMM will also make sure that the storage HHW is open seven days a week for a minimum of 8 hours per day. LGS will ensure that all regulations are followed.

Collection of HHW

Crews (1-truck, 2-technicians) will make passes through the affected areas. The crews will be assigned a mapped area in which they will make their sweeps. Once the team has a full load, they will return to the collection sites to off-load materials.

Contractor Site Specific Safety and Health Plans, Accident Prevention Plans, and Safety Management Manual

LGS has a current comprehensive safety manual to support our corporate safety program. LGS updated our company Site Specific Safety and Health Plan (Accident Prevention Plan/Safety Assurance Policy and Procedure Manual) in the early Spring of 2013 after contracting with the USACE NAD/New York District Debris RFO for Hurricane Sandy. Using the most recent edition of EM 385-1-1, the following is a summary of our complete Site-Specific Safety and Health Plan, a template suitable for project customization and deliverable to the Polk County within three (3) days after receipt of Notice to Proceed. While referred to as a template, our APP/Safety Assurance Plan is a working and active program for the company. Selected excerpts from LGS' 122-page APP/Safety Assurance Plan starts in section 3.4.1, much of the outline has been included for topical review, given proposal space limitations. LGS works to create a “safety culture” in our company. Every employee is empowered to stop a task where there is a risk of severe injury or death. Safety training and pre-task safety orientation are essential elements of the LGS safety program.

Accident Prevention Program

(Refer to contract clause entitled, "Accident Prevention" (FAR 52.236-13).) Within three (3) days after receipt of Notice of Award of the contract task order, four copies of the Accident Prevention Program will be submitted to the Contracting Officer for review and acceptance.

Before initiation of work on the task order, a site specific, Accident Prevention Plan (APP) with appropriate appendices written in English by the Prime Contractor for the specific work and hazards of the contract task order and implementing in detail the pertinent requirements of the most recent edition of EM 385-1-1 will be reviewed and found acceptable by the Government.

Designated Authority (GDA)

APPs will be developed and submitted by LGS in the formats provided in the most recent edition of EM 385- 1-1. The APP will address each of the elements/sub-elements in the outline contained in the order that they are provided in the manual. If by the nature of the work an item is not applicable, LGS will state and provide a justification for why that element/sub-element is not applicable.

The APP will be developed by qualified personnel and will be signed in accordance with EM 385-1-1. LGS will be responsible for documenting the qualified person's credentials. The APP will be job-specific and will include work to be performed by subcontractors and measures to be taken by LGS to control hazards associated with materials, services, or equipment provided by suppliers.

LGS will not commence physical work at the site until the program has been accepted by the Contracting Officer, or his/her authorized representative.

Accident Investigations and Reporting

Refer to EM 385-1-1, Section 01.D. Accidents will be investigated, and reports completed by the immediate supervisor of the employee(s) involved and reported to the Contracting Officer or his/her representative immediately and the accident report submitted on ENG Form 3394 within one working day after the accident occurs. All data reported must be complete, timely and accurate. A follow-up report will be submitted when the estimated lost time days differ from the actual lost time days.

Our accident investigation procedures require immediate reporting to our corporate HR manager. In the absence of the HR manager, our Corporate COO will be contacted. Each vehicle operating on a Looks Great Services project has a notebook with required documentation that must be filled out at the accident scene and provided to our corporate office. If it happens to be an accident with injury, the HR Director or their designee will immediately deploy to the accident scene to investigate and fill out the required documentation. This is corporate policy.

The Looks Great Services safety responsibilities encompass all project activities including those of subcontractors. Requirements of the Looks Great Services Safety System include this Accident Prevention Plan, Activity Hazard Analyses, site specific hazard plans, safety policies, procedures, the requirements of EM 385-1-1, rules, standards, safe work practices, as well as federal/state/OSHA requirements and other pertinent safety and health regulations. LGS' objective, through our safety management, training, and execution is to create a "safety culture" in the company. Our safety record indicates our success. To enhance deployment of the Looks Great Services Safety System in subcontractor organizations, Site Safety and Health Officer ensures that each subcontractor:

- Assigns all employees and personnel with all the safety qualification requirements, responsibilities, and authority as Looks Great Services employees.
- Complies with the training requirements.
- At the time of mobilization, provide a list of the Supervisors names and contact numbers. This list will be kept current and provide phone numbers where the Supervisors can be reached 24 hours a day, 7 days a week for emergency purposes.
- Receives a site specific operational and safety brief before starting work at the site.

The subcontractor may not delegate project-related safety responsibilities to any other organization.

Disaster Debris Waste Reduction and Recycling Strategy

Recycling and Reuse

Disaster debris waste reduction and recycling are key and essential components of disaster response operations. The volume of disaster debris can quickly overwhelm the logistics of quickly moving and disposing of the materials. LGS is organized and fully equipped to deal with ferrous and non-ferrous metal debris, soil, construction and demolition material, composting material, and hazardous materials. LGS has extensive and comprehensive experience in waste management as shown in our past performance supporting disaster events. Our teaming agreement scopes of work show the exceptional breadth and depth of the LGS team's capability to manage and execute recycling and reuse operations.

Recycling and reuse strategies involve diverting material from the disposal stream and reusing it. The recycling and reuse of disaster debris is most often limited to metals, soils, and construction and demolition debris. Recycling and reuse debris types are described below.

- Metals: Most nonferrous and ferrous metal debris is suitable for recycling. Metal maulers and shredders can be used to shred automobiles, trailer frames, trailer parts, appliances, building materials and other metal items. Ferrous and nonferrous metals are separated using an electromagnet and then sold to metal recycling firms.

- Soil: Soil can be combined with other organic materials that will decompose over time. This procedure produces significant amounts of material, which can be sold, recycled back into the agricultural community, or stored onsite to be used as cover when the site is returned to its pre- incident state. In agricultural areas where chemical fertilizers are used heavily, recovered soil may be too contaminated for use on residential or existing agricultural land. Jurisdictions should consult with their local health department to establish what monitoring and testing is necessary to ensure that soil is not contaminated with chemicals. If the soil is not suitable for agricultural or residential use, it may ultimately need to be disposed of at a permitted landfill.

- Construction and Demolition: Concrete, asphalt, and masonry products can be crushed and used as base material for certain road construction products, or as trench backfill. Debris targeted for base materials needs to meet certain size specifications as determined by the end user. Clean wood products used in construction can also be chipped or ground and used as mulch or hog fuel.

- Composting: Composting is the controlled decomposition of organic materials, such as leaves, grass, wood, and food scraps, by microorganisms. The result of this decomposition process is compost – a crumbly, earthy smelling, soil-like material. Yard trimmings and food scraps make up about 25 percent of the waste generated in the average household; composting can greatly reduce the amount of waste that ends up in landfills or incinerators. A section of DMSs should be reserved to receive compost material after a disaster. Composting can be used not only for backyard garden soil additives, farmlands, highways, and other landscaping projects, it can also be put to many innovative uses. Jurisdictions using composting to reduce organic material need to be aware of, and prepared to mitigate, several hazards, which include spontaneous combustion of piles and vector control for rodents.

Volume Reduction Methods

LGS will employ the full range of options and capabilities to reduce the volume of debris waste material quickly, efficiently, and effectively. The methods employed will include chipping, grinding and/or shredding and incineration.

Volume reduction methods reduce the volume of disaster debris (including vegetative debris, construction demolition debris, plastics, rubber, and metals) to decrease impact on disposal facilities or create opportunities to reuse debris. Descriptions of volume reduction methods are as follows:

- Chipping, Grinding and/or Shredding: Effective chipping, grinding and/or shredding can reduce the waste volume by up to 75 percent. We have assembled the team, the equipment and capability to process material in large volumes immediately upon issue of the NTP. LGS has an organic capability based on our past performance and experience in disaster recovery at the federal, state, and local level as shown in our past performance. In addition to our own capabilities, we have outstanding small business subcontractors who will support the LGS team in chipping, grinding and/or shredding the debris that is suitable for this method. We have equipment that can be quickly moved to the operational area to facilitate volume reduction. The equipment includes several high-quality, modern pieces of volume reduction equipment. In addition, we will put preexisting contracting in place to lease or buy additional equipment if necessary to support operations. We will work with Polk County, stakeholders, and potential users and purchasers of the reduced material in disposing of it quickly and cost-effectively for recycling and reuse applications. The benefit of using a reduction method can be increased by identifying alternate uses for the residual material. The ability to use recycled wood chips as mulch for agricultural purposes, fuel for industrial heating, or in a cogeneration power plant helps to offset the cost of the reduction operations. Jurisdictions using chipping, grinding and/or shredding to reduce the volume of vegetative debris must be careful to ensure that contaminants such as plastics, soils, rocks, and special wastes are not present in the vegetative debris after processing. LGS has state of the art technology to separate contaminants from vegetative debris to produce a clean product for beneficial reuse. Care must

also be taken when reducing construction and demolition debris to ensure that it does not contain hazardous materials, such as asbestos or lead.

- Incineration: Air curtain pit incineration, portable incinerators, and controlled incineration in rural areas are all methods for reducing disaster debris. The decision to use incineration as a reduction strategy for some types of debris would be made by the Clean Air Regulatory Agency. We will use all appropriate incineration options upon approval by Polk County and local authorities. LGS has extensive experience in all types of incineration. We understand the risk, the techniques to reduce the risk, and critical need to work with Polk County and local authorities. However, we understand that incineration, when properly employed, can be a valuable tool in reducing the volume of debris and restoring public safety and health in disaster areas. It is a process we have used extensively and effectively in disaster management operations. Potential incineration methods include Hog Fuel Incinerators, Air Curtain Pit Incineration, Pre-permitted Portable Incinerators and Rural Controlled Incineration.

Open Air Incineration – Katrina 2005

Problem Waste Processing and Disposal

Problem waste, such as pathogenic waste; white goods; household hazardous waste; or biological or nuclear waste, requires additional handling before it can be processed or disposed of and will vary depending on the type and scope of the debris-causing incident. During debris processing, problem waste should be removed and stored in a secure location until it can be disposed of properly. Because of their prevalence during debris-causing incidents, several types of waste warrant further discussion:

Vegetative Mulching - MS Tornadoes 2017

- Household Hazardous Waste (HHW): HHW has been prevalent during past disaster debris causing incidents. Task Order specific strategies need to be developed to collect and store HHW during disaster debris operations. The actual approach and methodology for handling HHW, HTRW and other specialized wastes are in Section 3.2 of this proposal.

- White Goods: White goods (including refrigerators) are commonly discarded after debris-causing incidents because they no longer function or as a result of extended power outages that cause their contents to decompose. Refrigerators are often processed in groups to remove the refrigerant along with any food waste, before being recycled.

- Electronic Waste (E-waste): E-waste may contain a variety of potentially toxic chemicals, including heavy metals and polychlorinated biphenyls (PCBs). EPA has specifically classified cathode ray tube (CRT) monitors as hazardous waste, and other electronic components may also qualify. Whenever possible, E-waste should be separated from other waste and recycled by an e-waste processor.

- Treated Wood: Treated wood includes different types of building material, including telephone poles, railroad ties, fence posts, and wood used to construct docks. Care needs to be taken to ensure treated wood is not chipped, shredded, mulched, composted, incinerated, or disposed of in unlined landfills during processing and disposal.

- Gypsum Drywall: When gypsum deteriorates in landfills it can create hydrogen sulfide gas, which poses an explosion and inhalation hazard. Large amounts of drywall are often created during storms and floods. Landfill managers must be aware of this and implement the proper precautions. If possible, gypsum drywall should be recycled rather than disposed of in a landfill.

- Asbestos: Regulations for asbestos handling are well established by several different local, state, and federal agencies, including Ecology and the Clean Air Regulatory Agencies. After a major debris- causing incident, asbestos inspections may not be possible prior to demolition, resulting in an increased risk to public health. Jurisdictions should work with the Clean Air Regulatory Agency and local public health agencies to ensure waste that possibly contains asbestos is properly handled and disposed of.

- Human Waste: Following a disaster that disables water, sewer, or septic systems, citizens may have human waste stored in containers that require disposal. This is considered biohazardous waste that cannot be included in the debris stream. Close cooperation is necessary between emergency managers, local public health officials, and utility personnel to properly collect and dispose of this waste.

Whenever possible, jurisdictions should attempt to segregate hazardous substances from the waste stream as early in processing as possible to prevent contamination of larger amounts of waste.
Jurisdictions undergoing any cleanup effort that includes hazardous waste should consult with their local hazardous waste staff, public health officials, and EPA to ensure the protection of public health.

Debris Sorting and Diversion

When establishing and operating debris management and neighborhood collection sites the site manager is responsible for ensuring appropriate staff are available to monitor debris and ensure debris are sorted into appropriate categories for recycling, reuse, special waste processing, and disposal.

Effective sorting and diversion begin at the point of pickup in neighborhoods and communities. LGS will work with the stakeholders to educate residents who are affected to encourage sorting, when possible, at the point of origin. LGS has established the organization and capability to mobilize quickly with tools, equipment, and PPE to begin the sorting and diversion process immediately upon issue of the NTP. This will ensure immediate positive benefits to the affected communities and reduce the risk of health-threatening pathogens, vermin, and injury from disaster debris. We have organized to deal with all categories of recyclables and reusables quickly and effectively, waste requiring special processing and waste that can be immediately disposed of. Effective sorting in the early stages of the debris removal process will optimize resource utilization, improve health and safety, and reduce the logistics burden of moving large volumes of debris quickly. Our company's profile, our past performance and supervision, and our small business teaming relationships illustrate our capacity to perform this critical task.

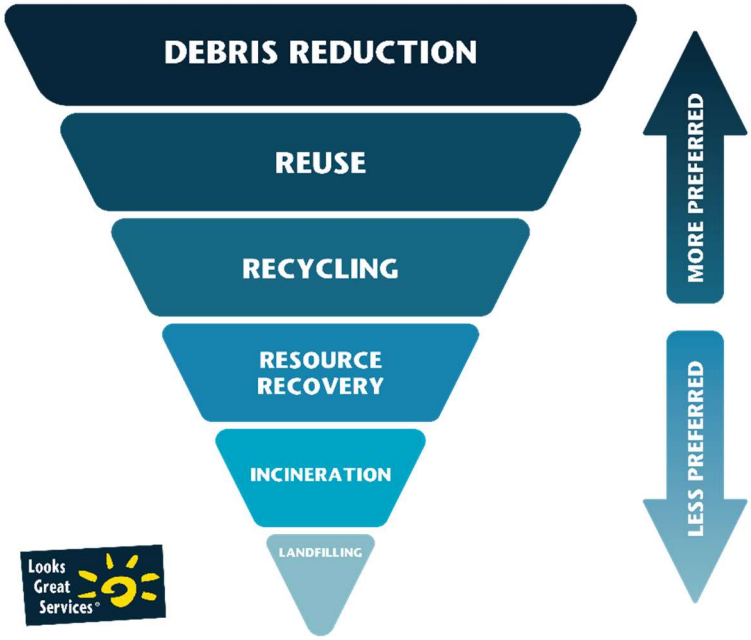

Figure 4: Solid Waste Management Hierarchy

*Diversion of optimal MSW from landfills and incineration should be part of the any comprehensive solid waste disposal plan as incineration is an outmoded 1980's technology. The U.S. Environmental Protection Agency (EPA) does not consider waste to energy (WTE) incineration to be a recognized form of recycling. While there are a few states that legislatively consider WTE to receive some recycling credit, WTE creates airborne pollutants that are toxic and generate volume of 27% of toxic ash that must be permanently landfilled.

Tab 6 – Project Management

Key Personnel

Looks Great Services of MS, Inc. is proud to present a highly experienced and capable team to support Polk County's disaster debris management needs. Each key individual brings substantial expertise in emergency response, large-scale debris operations, and FEMA compliance.

- **Kristian Agoglia – Vice President (Principal-in-Charge)**
  Mr. Agoglia has over 20 years of hands-on experience in disaster response and vegetation management. As Vice President and co-founder of Looks Great Services of MS, Inc., he has overseen more than 110 FEMA-eligible projects since 2002, including multi-state storm events and simultaneous recovery efforts. Mr. Agoglia provides executive leadership, strategic oversight, and ensures full compliance with all contractual, safety, and regulatory standards.
- **Sean Hunt – Project Executive**
  Mr. Hunt oversees all facets of the Emergency Response Division. With over 48 FEMA events managed, including Hurricane Katrina and Hurricane Sandy, he specializes in coordinating large-scale response operations, budget oversight, and ensuring all project phases—from mobilization to closeout—are completed on time and within scope.
- **Adam Ham – Project Manager**
  Mr. Ham brings expertise in managing multimillion-dollar disaster response efforts. At LGS, he has led cleanup operations for Hurricane Idalia and Hurricane Ian, overseeing the removal of over 3 million cubic yards of debris. His responsibilities include scheduling, quality control, client communication, field crew supervision and subcontractor supervision.
- **Spencer Stovall – Project Manager**
  Mr. Stovall has extensive experience of managing disaster debris removal projects across Florida and the Southeast. His leadership in debris tracking, TDMS operations, and client coordination during events such as Hurricane Idalia has resulted in successful project delivery and ongoing partnerships with local governments.
- **Max Elkins – Executive Director of Contracting**
  Mr. Elkins oversees all bidding and estimating operations and supports contract execution and financial controls. His background in auditing and large-scale contract management ensures precision in pricing, forecasting, and compliance. He also manages financial tracking across multiple utility and debris-related contracts.
- **Paul Pickett – Compliance Officer**
  Mr. Pickett has over two decades of construction and contract management experience, including serving as the Director of Construction & Maintenance for the Mississippi Department of Public Safety. He oversees project documentation, and ensures all federal, state, and local regulations—including FEMA reimbursement guidelines—are strictly followed.
- **Jenn Bass – Safety Director**
  Reporting directly to Vice President Kristian Agoglia, Ms. Bass leads all safety planning, field inspections, and OSHA compliance efforts. She enforces job site safety protocols, conducts employee training, and maintains real-time documentation of compliance records to ensure a culture of safety across all project sites.

Why Choose Looks Great Services?

With decades of experience in disaster response, a deep bench of pre-qualified subcontractors, and a flawless safety and compliance record, Looks Great Services is uniquely positioned to support Polk County's recovery efforts efficiently, professionally, and in full compliance with FEMA regulations. Our proposed project team brings not only the technical expertise and field-tested leadership necessary for large-scale debris operations, but also a clear understanding of Polk County's specific project requirements, reporting expectations, and regulatory standards. This insight ensures a seamless, proactive approach to execution and accountability from day one.

Core Capabilities

Looks Great Services of MS, Inc. (LGS) is a full-service disaster response contractor with deep expertise in FEMA-compliant debris operations. Our core capabilities include:

- **Emergency Roadway Clearance:** Rapid deployment of crews and equipment to reopen critical roads within 24–70 hours of event onset.
- **Vegetative & C&D Debris Removal:** Collection, hauling, and disposal of debris from rights-of-way and eligible private properties.
- **Hazardous Tree Services:** Removal of storm-damaged trees, limbs, and stumps posing threats to public safety.
- **Demolition Services:** Decommissioning and demolition of structurally compromised buildings, including RACM/non-RACM structures, with full regulatory compliance.
- **Debris Management Site (DMS) Operations:** Site setup, operation, and debris reduction through grinding, controlled burning, ACI, and compaction.
- **Hazardous Waste Handling:** Removal and disposal of HHW, white goods, e-waste, dead animals, and contaminated debris.
- **Waterway & Beach Restoration:** Marine debris recovery and sand screening/replacement for shoreline restoration.
- **FEMA Documentation & Regulatory Compliance:** Proven record of maximizing federal reimbursement through precise compliance with FEMA, OSHA, EPA, and FDEP regulations.

Project Understanding & Scenarios

As part of this solicitation, management plans for Event Types are provided to describe what actions will be taken. LGS has put in place a Technical Approach and a Debris Management Plan that are applicable to any type of event, no matter the severity. Please refer to the Technical Approach, Debris Management Process Plans and Procedures, Geographic Area Management, Contractor Site Specific Safety and Health Plans, Quality System Management, and Disaster Waste Reduction and Recycling Sections in the following pages for an in-depth explanation of this management plan. The plans mentioned above are included in the Technical Approach and Debris Plan of this proposal and are designed to be adaptable and scalable based on any type of event.

Spot Jobs – Localized

In this scenario, the Project Manager will begin performing damage assessments with the County's representatives and monitoring company. The PM will then begin coordinating logistics with the County and landfills. Further, the PM will be determining the number of crews needed to provide removal, hauling, and/or reduction of localized debris. This includes activating local subcontractors for immediate resources as needed. LGS will be assisting government resources as well. For an in-depth breakdown of the debris operations, please see the Debris Management Plan of this proposal.

Small Event

This will entail the same steps as in the Localized event above but will have the addition of a debris management site. LGS will coordinate with the County a debris site(s) for stockpiling debris that will allow for ideal haul routes, meet federal, state, and local regulations, and provide a layout to unload debris in the most efficient manner. A site management supervisor will be provided to oversee and maintain the site operations. In this scenario, LGS will utilize "zones" for debris removal as mentioned in the Debris Plan. This will allow for organized operations and presence throughout the County simultaneously. Reduction will be completed by way of grinding or burning. In the event there is C&D debris, it will be separated and compacted at the debris site. For an in-depth breakdown of the debris operations, please see the Debris Plan of this proposal.

Significant Event

This includes all the scope from the previous event types but will utilize larger scale reduction operations at a designated TDSRS. The PM will help coordinate the location of the debris site. Monitor towers will be placed at the entrance and debris site access roads will be maintained to allow for efficient unloading operations. The grinders or incinerators, if used, will be placed in a location to allow for trucks to unload uninterrupted, but allow for debris to be near maximize production. Chips will then be stockpiled in a separate area so as not to impede traffic but be accessible for loading into walking floor trucks to be disposed of accordingly. Ash will be handled in a manner to not be mixed with soils or become airborne. Disposal will be handled in accordance with DEQ regulations. All FEMA, federal, state, and local regulations will be adhered to throughout the process.

Significant/Catastrophic Events

These events include everything from the previous event types but expand the operations further. Multiple debris sites are possible and will be jointly coordinated. Hauling will be coordinated from Zones and Sectors to each debris site. Hazardous waste will be separated and contained as per regulations. LGS will provide planning and management of all debris removal operations, including traffic control, recycling, and permitting. LGS will utilize a Project Manager (Sean Hunt) with multiple Assistant Managers to oversee the project.

Subcontracting Plan

Corporate Policy

As a Woman-Owned Small Business and DBE, Looks Great Services of MS, Inc. (LGS), in efforts to ensure compliance with FAR Part 19, although as a small business we are not required to do so, and in anticipation of similar requirements as are contained in this solicitation, has previously developed this Local and Small Business Participation Plan (LSBPP) for implementation during operations. This LSBPP shall be made part of and included in any subsequent subcontracts let by LGS where FAR Part 19 applies. In conjunction with this LSBPP, for each contract subject to the FAR, LGS shall develop a contract specific Small Business Subcontracting Plan (SBSP) to ensure compliance and make each subsequent SBSP be attached hereto as a supplement to this LSBPP.

LGS' corporate policy is that all business, whether large or small, be afforded an opportunity for full participation in the free enterprise system, and to implement this policy, LGS is committed to promoting full and equitable participation by qualified small business in the provision of goods and services to Polk County through subcontract to LGS.

In compliance with FAR Part 19, the LSBPP includes, at a minimum:

1) Each subcontracting plan required under 19.702(a)(1) and (2) must include –

    i) Separate percentage goals for using small business concerns and small disadvantaged business concerns as subcontractors;
    ii) The name of an individual employed by the offeror who will administer the offeror's subcontracting program, and a description of the duties of the individual;
    iii) A description of the efforts the offeror will make to ensure that small business concerns and small disadvantaged business concerns will have an equitable opportunity to compete for subcontracts;
    iv) Assurances that the offeror will include the clause at 52.219-8, Utilization of Small Business Concerns and Small Disadvantaged Business Concerns (see 19.708(b)), in all subcontracts that offer further subcontracting opportunities, and that the offeror will require all subcontractors (except small business concerns) that receive subcontracts in excess of $500,000 ($1,000,000 for construction) to adopt a plan similar to the plan required by the clause at 52.219-9, Small Business and Small Disadvantaged Business Subcontracting Plan (see 19.708 (c));
    v) Assurances that the offeror will (i) cooperate in any studies or surveys as may be required, (ii) submit periodic reports in order to allow the Government to determine the extent of compliance by the offeror with the subcontracting plan, and (iii) submit Standard Form (SF) 294, Subcontracting Report for Individual Contracts, and SF 295, Summary Subcontract Report, in accordance with the instructions on the forms.
    vi) A recitation of the types of records the offeror will maintain to demonstrate procedures adopted to comply with the requirements and goals in the plan, including establishing source lists; and a description of the efforts to locate small and small disadvantaged business concerns and to award subcontracts to them.

2) Contractors may establish, on a plant or division-wide basis, a master subcontracting plan which contains all the elements required by the clause at 52.219-9, Small Business and Small Disadvantaged Business Subcontracting Plan, except goals. Master plans shall be effective for a 1-year period after approval by the contracting officer; however, a master plan when incorporated in an individual plan shall apply to that contract throughout the life of the contract.
3) For contracts containing options, the cumulative value of the basic contract and all options is considered in determining whether a subcontracting plan is necessary (see 19.705-2(a)). If a plan is necessary and the offeror is submitting an individual contract plan, the plan shall contain all the elements required by 19.704(a) and shall contain separate parts, one for the basic contract and one for each option.

Methods to Determine Qualified Subcontractors

LGS will use a prequalification process to determine the subcontractors to meet Federal and Local goals as per the specifications in the RFP. The prequalification process will provide a way to select subcontractors that meet the requirements set forth by the governing bodies. The prequalification process will look for the following:

1) Familiarity with Certified Payroll;
2) Certified Small Business classification (as applicable)
3) Worker's Comp and Liability Insurance are in place as required;
4) Adequate equipment to perform work according to the specifications;
5) Ability to maintain equipment;
6) Ability to put a safety plan in place as required.

LGS will also work with the County and other governing bodies in prequalification process in order to assemble the best possible team to perform the work.

Inclusion of FAR 52.219-8

LGS will include contract clause FAR 52.219-8 in all subcontracts that offer further subcontracting opportunities and will require all subcontractors (except small business concerns) that receive contracts more than $500,000.00 ($1,000,000.00 for construction) to adopt a plan similar to the LGS Small Business Subcontracting Plan (SBSP) and as required by FAR 52.219- 9, Small Business and Small Disadvantaged Business Subcontracting Plan.

Good Faith Efforts

Having utilized small business subcontractor support on past projects, LGS has developed and maintained an extensive subcontractor database. To expand this database and include more SB and DBE concerns in the impacted areas, additional published electronic data resource information has been and will continue to be used in our operations nationally. Documentation of our outreach programs supporting SB subcontracting efforts, Letters of Commitment and other periodic internal reports will be maintained by LGS and shall be available for review at any time by the government.

Many of the services required under this solicitation will be performed using our own internal resources and our team's existing nationwide personnel, facilities, and equipment. However, LGS has already reached out to local SBs and DBEs in response to this RFP. A list of local business concerns, including SBs and DBEs are included at the end of this section. LGS takes great pride in our long history of rapidly mobilizing and effectively managing large teams of subcontractors.

Services and Supplies to Subcontract

LGS plans to subcontract a portion of the following item(s) in relation to the goals contained herein for any subsequent contract because of this solicitation:

- Curbside/Right-of-way debris collection and transportation
- Equipment transportation for mobilization and operational support
- Demolition of structures (should we be tasked with this operation)
- Debris reduction operations (should we be tasked with this operation)
- Debris disposal operations
- Debris recycling for beneficial reuse
- General labor
- Safety and Loss Control Services
- Quality Assurance/Quality Control
- Environmental Services

Tab 7 – Surveys of Past Performances

Survey Questionnaire – Polk County

RFP 26-011, Disaster Debris Removal Services

To: Shawn Wombles (Name of Person completing survey)

Johnson County, Georgia (Name of Client Company/Contractor)

Phone Number: 478-864-9754 Email: swombles@johnsonco.org

Subject: Past Performance Survey of Similar work:

Project name: Hurricane Helene

Name of Vendor being surveyed: Looks Great Services

Cost of Services: Original Cost: Unknown Ending Cost: $14,285,000.00

Contract Start Date: 9/27/2024 Contract End Date: 3/28/2025

Rate each of the criteria on a scale of 1 to 10, with 10 representing that you were very satisfied (and would hire the Contractor /individual again) and 1 representing that you were very unsatisfied (and would never hire the Contractor /individual again). Please rate each of the criteria to the best of your knowledge. If you do not have sufficient knowledge of past performance in a particular area, leave it blank.

NO	CRITERIA	UNIT	SCORE
1	Ability to manage cost	(1-10)	10
2	Ability to maintain project schedule (complete on-time/early)	(1-10)	10
3	Quality of workmanship	(1-10)	10
4	Professionalism and ability to manage	(1-10)	10
5	Ability to communicate with Debris Monitoring Contractor	(1-10)	10
6	Ability to communicate with Client's staff	(1-10)	10
7	Ability to resolve issues promptly	(1-10)	10
8	Ability to follow protocol	(1-10)	10
9	Ability to maintain proper documentation	(1-10)	10
10	Close out process	(1-10)	10
11	Overall Client satisfaction and comfort level in hiring	(1-10)	10

Exhibit B
Compensation Schedule

Addendum # 6

Revised Attachment "B"

PROPOSAL PRICE SHEETS
DISASTER DEBRIS REMOVAL SERVICES

THE FOLLOWING ARE SUBMITTED BY THE BIDDER FOR THE PURPOSE OF:

A. Arriving at an estimated total price.

B. Establishing price factors to be utilized in adjusting the estimated total price resulting from modification(s) issued or annual renewals.

Clarification of pay items

A. Disposal costs at final site as designated by the County shall be the responsibility of the County.

B. Mileage noted in the Price Sheet shall be based on a one-way haul distance.

C. Line item 2: Work consists of the demolition, collection, transportation, and disposal of eligible C&D debris to an approved TDSRS or hazardouse waste final site. Demolition of structures and debris removal shall be calculated at a cubic yard rate.

D. Line item 6: The Contractor shall invoice the County for hazardous stump removal, backfilling, and hauling to the TDSRS utilizing the categories noted.

Revised Attachment "B"

Item No.	Description	UoM	Unit Price
	Level 1: 0 - 50,000 CY of Debris		
1	Gathering, pick-up, and hauling debris to TDSRS

Board of County Commissioners

REIMBURSABLE COST SCHEDULE

1.	Subcontractor Services	Actual Costs
2.	Travel & Mileage Expenses	In accordance with Chapter 112.061, F.S.; and further defined in the Polk County Employee Handbook for pre-approved out-of-county travel (excluding travel from home offices located outside of Polk County to the Polk County line).
3.	Pre-approved Equipment (includes purchase and rental of equipment used in project)	Actual Costs

EXHIBIT D

EVENT PERFORMANCE BOND

PERFORMANCE BOND

KNOW ALL MEN BY THESE PRESENTS: That _____, as Principal, and _____ as Surety, located at _____ (Business Address) are held and firmly bound unto Polk County, a political subdivision of the State of Florida, as Obligee, in the sum of _____Dollars ($_____) in lawful currency of the United States, for the payment whereof we bind ourselves, successors, and assigns, jointly and severally, firmly by these presents.

THE CONDITION OF THIS BOND is that if the Principal:

Promptly, faithfully, efficiently and fully performs all work, services, duties and obligations set forth and described in that certain Disaster Debris Removal Services Agreement _____ (the "Agreement") dated_____ between Principal and Obligee for performance of debris removal at any County location arising from damage caused by _____, at the times and in the manner prescribed in the Agreement; and

Pays Obligee all losses, damages (liquidated or actual), expenses, costs, and attorney's fees, including, without limitation, costs and attorney's fees on appeal, that Obligee sustains resulting directly or indirectly from any breach or default by Principal under the Agreement; and

Performs the guarantee of all work and materials furnished under the Agreement for the time specified therein; and

Satisfies all claims and demands incurred under the Agreement, and fully indemnifies and holds harmless the Obligee from all costs and damages which it may suffer by reason or failure to do so;

then the Surety shall have no obligation under this Performance Bond.

In the event that the Principal shall fail to perform any of the terms, covenants and conditions of the Agreement during the period in which this Performance Bond is in effect, the Surety shall remain liable to the Obligee for all such loss or damage (including reasonable attorney's fees and costs and attorney's fees on appeal) resulting from any failure to perform up to the amount of the sum stated above.

In the event that the Surety fails to fulfill its obligations under this Performance Bond, then the Surety shall also indemnify and hold the Obligee harmless from any and all loss, damage, cost and expense, including reasonable attorney's fees and costs for all trial and appellate proceedings, resulting directly or indirectly from the Surety's failure to fulfill its obligations hereunder. This paragraph shall survive the termination or cancellation of this Performance Bond.

NOTE: Date of the Performance Bond must not be prior to date of Agreement. If Contractor is Partnership, all partners should execute Bond.

Important: Surety companies executing Bonds must appear on the Treasury Department's most current list (Circular 570 as amended) and be authorized to transaction business in the State of Florida. Attach a certified copy of Power-of-Attorney appointing individual Attorney-in-Fact for execution of Performance Bond on behalf of Surety.

Polk County

Board of County Commissioners

Agenda Item R.34. 6/16/2026

SUBJECT

Request Board approve agreements with Rostan Solutions, LLC as the primary, Tetra Tech, Inc. as the secondary and Thompson Consulting Services, LLC as the tertiary for debris monitoring services. (No fiscal impact until a disaster event)

DESCRIPTION

Roads and Drainage requested Procurement to solicit proposals for the purpose of Disaster debris removal monitoring and other related services resulting from, but not limited to, catastrophic events such as tornadoes and hurricanes. The work includes, but is not limited to; monitoring field operations regarding all storm generated debris, debris pickup, debris hauling, debris staging and reduction, temporary debris storage site management, debris management, and final disposal of debris to an approved facility.

Request for Proposal (RFP) 26-012, Disaster Debris Monitoring Services was issued and five vendors submitted proposals. On April 21, 2026, the Board authorized staff to enter into contract negotiations with all interviewed proposers, starting with the highest-ranked proposer Rostan Solutions, LLC as the primary, Tetra Tech, Inc. as the secondary, and Thompson Consulting Services, LLC as the tertiary.

These agreements will be in place for 5 years.

RECOMMENDATION

Request Board approve agreements with Rostan Solutions, LLC as the primary, Tetra Tech, Inc. as the secondary and Thompson Consulting Services, LLC as the tertiary for debris monitoring services regarding RFP 26-012, Disaster Debris Monitoring Services.

FISCAL IMPACT

Funding for these services will initially be borne by Polk County, yet all costs incurred are anticipated to be reimbursed by FEMA.

DISASTER DEBRIS MONITORING SERVICES AGREEMENT (PRIMARY)

THIS DISASTER DEBRIS MONITORING SERVICES AGREEMENT (the "Agreement") is entered into as of the Effective Date (defined in Section 1, below) by and between Polk County (the "County"), a political subdivision of the State of Florida, 330 W. Church Street, Bartow, Florida, 33830, and Rostan Solutions, LLC (the "Contractor"), a Florida limited liability company, whose principal address is 9897 Lake Worth Road - Ste 303, Lake Worth, FL 33467, and whose Federal Employer Identification Number is 20-5425053.

WHEREAS, the Contractor has considerable expertise in disaster debris monitoring services; and

WHEREAS, the County desires to retain the services of a competent and qualified Contractor to provide disaster debris monitoring services; and

WHEREAS, the County has solicited for these Contractor services via an advertised request for proposals ("RFP 26-012")and has received numerous responsive proposals thereto; and

WHEREAS, after review and consideration of all responsive proposals, the County intends to engage the Contractor to provide it the disaster debris monitoring services; and

WHEREAS, the Contractor remains agreeable to providing the County the Contractor services and represents that it is competent, qualified, capable and prepared to do so according to the terms and conditions stated herein.

NOW, THEREFORE, in consideration of the mutual understandings and covenants set forth herein, the County and the Contractor hereby agree, as follows:

1.0 Effective Date; Term

1.1 This Agreement shall take effect on the date (the "Effective Date") of its execution by the Chairman, Board of County Commissioners.

1.2 The term of this Agreement shall be for a five (5) year time period, commencing upon the Effective Date, unless otherwise sooner terminated as provided herein.

2.0 Contractor Services

2.1 The County does hereby retain the Contractor to furnish those services and to perform those tasks (collectively, the "Services") as further described in (i) the County's Request for Proposals RFP #26-012 to include all attachments and addenda, and (ii) the Contractor's responsive proposal thereto (collectively, (i) and (ii) are "RFP 26-012"), all of which are incorporated into this Agreement by this reference. A complete copy of the Scope of Services

section of RFP 26-012 and the Contractor's responsive proposal is attached as a composite **Exhibit "A"** and made a part of this Agreement.

2.2 Contractor shall perform the services described in the Scope of Services section of RFP 26-012, as those Services may be further specifically designated and authorized by the County in a separate written Notice to Proceed the County will deliver to the Contractor prior to the Contractor's commencement of the Services required in association with the County's clean-up and recovery from a particular disaster or emergency event. The form for the Conditional-Notice-to-Proceed shall be substantially in the form provided on **Exhibit "E"** which is attached hereto and made a part of this Agreement.

2.3 The County will contact and coordinate with the Contractor prior to issuing a Notice to Proceed for a disaster or emergency event. The Contractor will provide the name(s) of the supervisor(s)\liaison officer who will be primarily responsible for the Contractor providing the required Services. Additionally, before the Notice-To-Proceed is issued the Contractor will deliver to the County a performance bond in the form provided on **Exhibit "D"** which is attached hereto and made a part hereof in an amount to be reasonably determined by the County but which will not be less than $500,000.00. The actual bond amount will be determined based upon the estimated costs of the Services required as a consequence of the particular disaster or emergency event.

2.4 Contractor acknowledges that the County has engaged a secondary vendor and may engage a tertiary vendor to provide the Services described in RFP 26-012 should the County determine in its sole and absolute discretion that the Contractor may, is or will be unable to perform the full scope of work of a particular project within the time period the County requires all such work to be completed.

3.0 Compensation

3.1 General

3.1.1 In consideration for its providing the Services, during the Agreement Term the County shall pay the Contractor a fee that shall not exceed the amounts stated in **Exhibit "B"**, which is attached hereto and made a part of this Agreement. The Compensation Schedule identifies all job classifications of those who may perform billable services pursuant to this Agreement and the associated amount the County will pay the Contractor for Services performed by those in each job classification. The County is not obligated to pay the Contractor a fee for any work performed or Services provided by personnel whose job classifications are not

listed on the Compensation Schedule. The hourly rates for labor may be increased by the Procurement Director following the one-year anniversary of the Effective Date, when it is in the best interest of the County. Increases will be determined by the appropriate price index as approved by the Procurement Director but in no event shall the hourly labor rates exceed those approved by the Federal Emergency Management Agency ("FEMA") for any given year. No Board action will be necessary for labor rate increases

3.1.2 All the Contractor's invoices for payment must reference this Agreement and must be submitted using a form approved by the County Auditor.

3.1.3 The Contractor shall attach all appropriate cost substantiations to the invoice and shall deliver the invoices to:

Roads and Drainage Division
3000 Sheffield Road
Winter Haven, FL 33880

3.1.4 The Contractor will clearly state "Final Invoice" on the Contractor's final/last billing for the Services rendered to the County. The Contractor's submission of a Final Invoice is its certification that all Services have been properly performed and all charges and costs have been invoiced to the County. This account will be closed upon the County's receipt of a Final Invoice. The Contractor hereby waives any charges not properly included on its Final Invoice.

3.1.5 The County's payment of the Final Invoice shall not constitute evidence of the County's acceptance of the Contractor's performance of the Service or the County's acceptance of any work.

3.1.6 All Contractor's invoices shall be accompanied by time and task records for all billable hours appearing on the invoice. Additional supporting documents may be requested by the County and, if so requested, shall be furnished by the Contractor to the County Auditor's satisfaction.

3.1.7 The Contractor's project manager or designated payroll officer is attesting to the correctness and accuracy of all charges and requested reimbursements stated in each invoice.

3.1.8 The Contractor's requests for payment of "out-of-pocket" expenses eligible for reimbursement under the terms of this Agreement shall be reimbursed per the County's Reimbursable Schedule that is attached as **Exhibit "C"** and made a part of this Agreement. The

Contractor's requests for payment shall include copies of paid receipts, invoices or other documentation acceptable to the County's Auditor. To qualify for reimbursement, the Contractor's documentation shall be sufficient to establish that the expense was actually incurred and necessary in the performance of the Services performed in accordance with this Agreement.

4.0 Contractor's Responsibilities

4.1 The Contractor shall be responsible for the professional quality, accuracy, competence, methodology, and the coordination of all Services performed pursuant to this Agreement.

4.2 The County's review, approval, acceptance, or payment for any of the Contractor's Services shall not be construed to: (i) operate as a waiver of any rights the County possesses under this Agreement; or (ii) waive or release any claim or cause of action arising out of the Contractor's performance or nonperformance of this Agreement. The Contractor shall be and will always remain liable to the County in accordance with applicable law for any and all damages to the County caused by the Contractor's negligent or wrongful performance or nonperformance of any of the Services to be furnished under this Agreement.

5.0 Ownership of Documents

All analyses, reference data, bills, completed reports, or any other form of written instrument or document created or resulting from the Contractor's performance of the Services pursuant to this Agreement shall become the property of the County after payment is made to the Contractor for such instruments or documents.

6.0 Termination

6.1 The County may terminate this Agreement, in whole or in part, at any time, either for the County's convenience or because of the failure of the Contractor to fulfill its obligations under this Agreement, subject to the cure period provided in Section 26.0, by delivering written notice to the Contractor. Upon receipt of such notice, the Contractor shall:

6.1.1 Immediately discontinue all affected Services unless the notice directs otherwise, and

6.1.2 Deliver to the County all data, reports, summaries, and any and all such other information and materials of whatever type or nature as may have been accumulated by the Contractor in performing this Agreement, whether completed or in process.

6.2 Unless in dispute or subject to the County's right of set-off or other remedy, the Contractor shall be paid for Services actually rendered to the date of termination.

6.3 The rights and remedies of the County provided for in this Section 6 are in addition and supplemental to any and all other rights and remedies provided by law or under this Agreement.

7.0 No Contingent Fees

The Contractor warrants that it has not employed or retained any company or person, other than a bona fide employee working solely for the Contractor to solicit or secure this Agreement and that it has not paid or agreed to pay any person, company, corporation, individual or firm, other than a bona fide employee working solely for the Contractor, any fee, commission, percentage, gift, or other consideration contingent upon or resulting from award of or making of the Agreement. For the breach or violation of this provision, the County shall have the right to terminate the Agreement at its sole discretion, without liability and to deduct from the Agreement price, or otherwise recover, the full amount of such fee, commission, percentage, gift, or consideration.

8.0 Assignment

The Contractor shall not assign, transfer, or encumber this Agreement, or any interest herein, under any circumstances, without obtaining the prior written consent of the County, which consent may be withheld in the County's exercise of its reasonable discretion.

9.0 Professional Associates and Subcontractors

If the Contractor requires the assistance of any professional associates or subcontractors in connection with its providing the Services, the Contractor must obtain the prior express written approval of the County, which the County may withhold in its discretion, before any such professional associate or subcontractor may perform any work for the County. If after obtaining the County's approval the Contractor utilizes any professional associates or subcontractors in the delivery of the Services then the Contractor shall remain solely and fully liable to the County for the performance or nonperformance of all such professional associates and subcontractors. The failure of a professional associate or subcontractor to timely or properly perform any of its obligations to the Contractor shall not relieve the Contractor of its obligations to the County under this Agreement.

10.0 Indemnification of County

Contractor, to the extent permitted by law, shall indemnify, defend (by counsel reasonably acceptable to County) protect and hold the County, and its officers, employees and agents harmless from and against any and all, claims, actions, causes of action, liabilities, penalties, forfeitures, damages, losses, and expenses (including, without limitation, attorneys' fees costs and expenses incurred during negotiation, through litigation and all appeals therefrom) whatsoever including, but not limited to, those pertaining to the death of or injury to any person, or damage to any property, arising out of or resulting from (i) the failure of Contractor to comply with applicable laws, rules or regulations, (ii) the breach by Contractor of its obligations under this Agreement, (iii) any claim for trademark, patent or copyright infringement arising out of the scope of Contractor's performance or nonperformance of this Agreement, or (iv) the negligent acts, errors or omissions, or intentional or willful misconduct, of Contractor, its professional associates, subcontractors, agents, and employees; provided, however, that Contractor shall not be obligated to defend or indemnify the County with respect to any such claims or damages arising out of the County's sole negligence. The provisions of this Section 10.0 shall survive the expiration or earlier termination of this Agreement.

11.0 Insurance Requirements

The Contractor shall maintain at all times the following minimum levels of insurance and shall, without in any way altering its liability, obtain, pay for and maintain insurance for the coverage and amounts of coverage not less than those set forth below. The Contractor shall provide the County original Certificates of Insurance satisfactory to the County to evidence such coverage before any work commences. The County shall be named as an additional insured on General and Automobile Liability policies. General Liability and Workers' Compensation policies shall contain a waiver of subrogation in favor of Polk County. The commercial General Liability Policy shall (by endorsement if necessary) provide contractual liability coverage for the contractual indemnity stated in Section 10, above. All insurance coverage shall be written with a company having an A.M. Best rating of at least the "A" category and size category of VIII. The Contractor's self-insured retention or deductible per line of coverage shall not exceed $25,000 without the permission of the County. In the event of any failure by the Contractor to comply with the provisions of this Section 11, the County may, at its option, upon notice to the Contractor suspend Contractor's performance of the Services for cause until there is full compliance.

Alternatively, the County may purchase such insurance at the Contractor's expense, provided that the County shall have no obligation to do so and if the County shall do so, the Contractor shall not be relieved of or excused from the obligation to obtain and maintain such insurance amounts and coverage.

Comprehensive Automobile Liability Insurance. $1,000,000.00 combined single limit of liability for bodily injuries, death and property damage resulting from any one occurrence, including all owned, hired, and non-owned vehicles.

Commercial General Liability. $1,000,000.00 combined single limit of liability for bodily injuries, death and property damage, and personal injury resulting from any one occurrence, including the following coverages:

Premises and Operations:

> Broad Form Commercial General Liability Endorsement to include Blanket Contractual liability (specifically covering, but not limited to, the contractual obligations assumed by the Firm); Personal Injury (with employment and contractual exclusions deleted); and Broad Form Property Damage coverage.

Independent Contractors:

> Delete Exclusion relative to collapse, explosion and underground; Property Damage Hazards; Cross Liability Endorsement; and Contractual liability (specifically covering, but not limited to, the contractual obligations assumed by the Firm)

Workers Compensation. The Contractor shall provide, pay for, and maintain workers compensation insurance on all employees, its agents or subcontractors as required by Florida Statutes.

Pollution Liability Insurance: $1,000,000 including pollution due to automobile operations.

Employer's Liability. $1,000,000.

12.0 Public Entity Crimes

The Contractor understands and acknowledges that this Agreement will be voidable by the County in the event the conditions stated in Florida Statutes, Section 287.133 relating to conviction for a public entity crime apply to the Contractor.

13.0 Non-Discrimination

The Contractor warrants and represents that all of its employees are treated equally during employment without regard to race, color, religion, gender, age or national origin.

14.0 Designation of Party Representatives

14.1 Upon receipt of a request from the Contractor, the County shall designate in writing one or more of its employees who are authorized to act by and on behalf of the County to transmit instructions, receive information and interpret and define the County's policy and decisions with respect to the Services to be provided pursuant to this Agreement.

14.2 The Contractor shall designate or appoint one or more Contractor representatives who are authorized to act on behalf of and to bind the Contractor regarding all matters involving the conduct of its performance pursuant to this Agreement.

15.0 All Prior Agreements Superseded

This document incorporates and includes all prior negotiations, correspondence, conversations, agreements or understandings applicable to the matters contained herein and the parties agree that there are no commitments, agreements or understandings concerning the subject matter of this Agreement that are not contained in this document or its designated exhibits. Accordingly, it is agreed that no deviation from the terms hereof shall be predicated upon any prior representations or agreements, whether oral or written.

16.0 Modifications, Amendments or Alterations

No modification, amendment or alteration in the terms or conditions contained herein shall be effective unless agreed to and executed in writing by both parties to this Agreement in a form acceptable to the County.

17.0 Independent Contractor

Nothing stated in this Agreement is intended or should be construed in any manner as creating or establishing a relationship of co-partners between the parties, or as constituting the Contractor (including its officers, employees, and agents) as the agent, representative, or employee of the County for any purpose, or in any manner, whatsoever. The Contractor is to be and shall remain forever an independent contractor with respect to all Services performed under this Agreement. The Contractor shall not pledge the County's credit or make the County a guarantor of payment or surety for any contract, debt, obligation, judgment, lien or any form of indebtedness and the Contractor shall have no right to speak for or bind the County in any manner.

18.0 Public Records Law

(a) The Contractor acknowledges the County's obligations under Article I, Section 24, of the Florida Constitution and under Chapter 119, Florida Statutes, to release public records to members of the public upon request and comply in the handling of the materials created under this Agreement. The Contractor further acknowledges that the constitutional and statutory provisions control over the terms of this Agreement. In association with its performance pursuant to this Agreement, the Contractor shall not release or otherwise disclose the content of any documents or information that is specifically exempt from disclosure pursuant to all applicable laws.

(b) Without in any manner limiting the generality of the foregoing, to the extent applicable, the Contractor acknowledges its obligations to comply with Section 119.0701, Florida Statutes, with regard to public records, and shall:

(1) keep and maintain public records required by the County to perform the services required under this Agreement;

(2) upon request from the County's Custodian of Public Records or his/her designee, provide the County with a copy of the requested records or allow the records to be inspected or copied within a reasonable time at a cost that does not exceed the cost provided in Chapter 119, Florida Statutes, or as otherwise provided by law;

(3) ensure that public records that are exempt or confidential and exempt from public records disclosure requirements are not disclosed except as authorized by law for the duration of the term of this Agreement and following completion of this Agreement if the Contractor does not transfer the records to the County; and

(4) upon completion of this Agreement, transfer, at no cost, to the County all public records in possession of the Contractor or keep and maintain public records required by the County to perform the service. If the Contractor transfers all public records to the County upon completion of this Agreement, the Contractor shall destroy any duplicate public records that are exempt or confidential and exempt from public records disclosure requirements. If the Contractor keeps and maintains public records upon completion of this Agreement, the Contractor shall meet all applicable requirements for retaining public records. All records stored electronically must be provided to the County, upon request from the County's Custodian of Public Records, in a format that is compatible with the information technology systems of the County.

(c) **IF THE CONTRACTOR HAS QUESTIONS REGARDING THE APPLICATION OF CHAPTER 119, FLORIDA STATUTES, TO THE CONTRACTOR'S DUTY TO PROVIDE PUBLIC RECORDS RELATING TO THIS AGREEMENT, CONTACT THE COUNTY'S CUSTODIAN OF PUBLIC RECORDS AT:**

RECORDS MANAGEMENT LIASON OFFICER
POLK COUNTY
330 WEST CHURCH ST.
BARTOW, FL 33830
TELEPHONE: (863) 534-7670
EMAIL: RMCO@POLKFL.GOV

19.0 Compliance with Laws and Regulations

In providing all Services pursuant to this Agreement, the Contractor shall abide by all statutes, ordinances, rules, and regulations pertaining to or regulating the provisions of such Services, including those now in effect and hereafter adopted. Any violation of said statutes, ordinances, rules, or regulations shall constitute a material breach of this Agreement, and shall entitle the County to terminate this Agreement immediately upon delivery of written notice of termination to the Contractor.

20.0 Governing Law and Venue

This Agreement shall be governed in all respects by the laws of the State of Florida and any litigation with respect thereto shall be brought only in the courts of Polk County, Florida or in the United States District Court, Middle District of Florida, located in Hillsborough County, Florida.

21.0 Notices

Whenever either party desires to give notice unto the other, it must be given by written notice, delivered (i) in person, (ii) via registered or certified United States mail, postage prepaid with return receipt requested, or (iii) via nationally recognized overnight delivery service, and addressed to the party for whom it is intended at the place last specified by each party. The place for giving of notice shall remain such until it is changed by written notice delivered in compliance with the provisions of this Section 21. For the present, the parties designate the following as the respective places for giving of notice, to wit:

For County: Polk County Roads & Drainage Division
3000 Sheffield Road
Winter Haven, Florida 33880

For Contractor: Rostan Solutions, LLC
9897 Lake Worth Road
Ste 303
Lake Worth, FL 33467

22.0 Severability

The invalidity, illegality, or unenforceability of any provision of this Agreement, or the occurrence of any event rendering any portion or provision of this Agreement void, shall in no way affect the validity or enforceability of any other portion or provision of the Agreement; any void provision shall be deemed severed from the Agreement and the balance of the Agreement

shall be construed and enforced as if the Agreement did not contain the particular portion or provision held to be void. The parties further agree to reform the Agreement to replace any stricken provision with a valid provision that comes as close as possible to the intent of the stricken provision. The provisions of this section shall not prevent the entire Agreement from being void should a provision which is of the essence of the Agreement be determined to be void.

23.0 Annual Appropriations

Contractor acknowledges that during any fiscal year the County shall not expend money, incur any liability, or enter into any agreement which by its terms involves the expenditure of money in excess of the amounts budgeted as available for expenditure during such fiscal year. Accordingly, any agreement, verbal or written, the County may make in violation of this fiscal limitation is null and void, and no money may be paid on such agreement. The County may enter into agreements whose duration exceeds one year; however, any such agreement shall be executory only for the value of the services to be rendered which the County agrees to pay as allocated in its annual budget for each succeeding fiscal year. Accordingly, the County's performance and obligation to pay the Contractor under this Agreement is contingent upon annual appropriations being made for that purpose.

24.0 Unauthorized Alien(s)

The Contractor shall not employ or utilize unauthorized aliens in the performance of the Services provided pursuant to this Agreement. The County shall consider the employment or utilization of unauthorized aliens a violation of Section 274A(e) of the Immigration and Naturalization Act (8 U.S.C. 1324a) and a cause for the County's unilateral termination of this Agreement. When delivering executed counterparts of this Agreement to the County, the Contractor shall also deliver a completed and executed counterpart of the attached "AFFIDAVIT CERTIFICATION IMMIGRATION LAWS" form.

25.0 Contractor Representations

25.1 The Contractor hereby represents and warrants the following to the County:

25.1.1 Contractor is a corporation that is duly organized and existing in good standing under the laws of the State of Florida with full right and authority to do business within the State of Florida.

25.1.2 Contractor's performance under this Agreement will not violate or breach any contract or agreement to which the Contractor is a party or is otherwise bound, and will not violate any governmental statute, ordinance, rule, or regulation.

25.1.3 Contractor has the full right and authority to enter into this Agreement and to perform its obligations in accordance with its terms.

25.1.4 Contractor now has and will continue to maintain all licenses and approvals required to conduct its business, and that it will at all times conduct its business activities in a reputable manner.

25.1.5 Contractor has no obligation or indebtedness that would impair its ability to fulfill the terms of this Agreement.

25.1.6 Contractor has the personnel and experience necessary to perform all Services in a professional and workmanlike manner.

25.1.7 Contractor shall exercise the same degree of care, skill, and diligence in the performance of the Services as provided by a professional of like experience, knowledge and resources, under similar circumstances.

25.1.8 Contractor shall, at no additional cost to the County, re-perform those Services which fail to satisfy the foregoing standard of care or which otherwise fail to meet the requirements of this Agreement.

25.1.9 Each individual executing this Agreement on behalf of the Contractor is authorized to do so.

26.0 Default and Remedy

A. Process. If the Contractor materially defaults in the timely performance of any Contract obligation, including any changes, modifications, changes in scope issued thereunder, or if the Contractor is otherwise in material default of the Contract, including, without limitation, the Contractor's failure to timely deliver any portion, or the entirety, of the Project Work in accordance with the Contract documents, then the County shall have the right to (i) with or without terminating the Contract, immediately call the Performance Bond and Payment Bond, and engage other contractors or providers at the Contractor's sole cost and expense to provide those unperformed or deficient Contract obligations of the Contractor; (ii) set-off the monetary amount of any and all damages arising therefrom, whether direct or indirect, actual or liquidated, from the amounts due Contractor pursuant to the Contract documents, (iii) immediately terminate the Contract by delivering written notice to the Contractor, and (iv) pursue any and all remedies available in law, equity, and under the Contract, including, without limitation, the recovery of any increased cost to the County to complete the Project Work due to the loss of FEMA Public Assistance funding caused, directly or indirectly, by the Contractor's default. Upon any such termination

pursuant to this Section, the County shall pay the Contractor the full amount due and owing for all services properly performed through the date of the Contract termination, less any amount subject to the County's right of set-off, and all liability of the County to the Contractor shall cease.

B. Certain Material Defaults. Among other matters, including without limitation, the Contractor's failure to timely deliver any portion, or the entirety, of the Project Work in accordance with the Contract documents, as described immediately above, any of the following shall constitute the Contractor's material default of the Contract: the appointment of a receiver to take possession of all or substantially all of the Contractor's assets, a general assignment by the Contractor for the benefit of creditors, or any action taken by or suffered by Contractor under any insolvency or bankruptcy act; or the Contractor is convicted of a public entity crime, is determined to have violated federal or state law prohibiting discrimination as stated in Section 287.134, Florida Statutes, or is prohibited from performing work for or transacting business with the County pursuant to Section 287.133 or to Section 287.134, Florida Statutes; or an assignment of the Contract made without the express written consent of the County; or the submission of a false certification to the County or engagement in prohibited business operations, both as described in the Contract Documents.

27.0 Limitation of Liability

IN NO EVENT, SHALL THE COUNTY BE LIABLE TO THE CONTRACTOR FOR INDIRECT, INCIDENTAL, CONSEQUENTIAL, SPECIAL, EXEMPLARY, OR PUNITIVE DAMAGES OF ANY KIND OR NATURE, INCLUDING LOSS OF PROFIT, WHETHER FORESEEABLE OR NOT, ARISING OUT OF OR RESULTING FROM THE NONPERFORMANCE OR BREACH OF THIS CONTRACT BY THE COUNTY WHETHER BASED IN CONTRACT, COMMON LAW, WARRANTY, TORT, STRICT LIABILITY, CONTRIBUTION, INDEMNITY OR OTHERWISE.

28.0 Waiver

A waiver by either County or Contractor of any breach of this Agreement shall not be binding upon the waiving party unless such waiver is in writing. In the event of a written waiver, such a waiver shall not affect the waiving party's rights with respect to any other or further breach of this Agreement. The making or acceptance of a payment by either party with the knowledge of the other party's existing default or breach of the Agreement shall not waive such default or breach, or any subsequent default or breach of this Agreement, and shall not be construed as doing so.

29.0 Attorneys' Fees and Costs

Each party shall be responsible for its own legal and attorneys' fees, costs and expenses incurred in connection with any dispute or any litigation arising out of, or relating to this

Agreement, including attorneys' fees, costs, and expenses incurred for any appellate or bankruptcy proceedings.

30.0 Force Majeure

Either party hereunder may be temporarily excused from performance if an Event of Force Majeure directly or indirectly causes its nonperformance. An "Event of Force Majeure" is defined as any event which results in the prevention or delay of performance by a party of its obligations under this Agreement and which is beyond the reasonable control of the nonperforming party. It includes, but is not limited to fire, flood, earthquakes, storms, lightning, epidemic, war, riot, civil disturbance, sabotage, and governmental actions. Neither party shall be excused from performance if non-performance is due to forces which are reasonably preventable, removable, or remediable and which the non-performing party could have, with the exercise of reasonable diligence, prevented, removed, or remedied prior to, during, or immediately after their occurrence. Within five (5) days after the occurrence of an Event of Force Majeure, the non-performing party shall deliver written notice to the other party describing the event in reasonably sufficient detail, along with proof of how the event has precluded the non-performing party from performing its obligations hereunder, and a good faith estimate as to the anticipated duration of the delay and the means and methods for correcting the delay. The non-performing party's obligations, so far as those obligations are affected by the Event of Force Majeure, shall be temporarily suspended during, but no longer than, the continuance of the Event of Force Majeure and for a reasonable time thereafter as may be required for the non-performing party to return to normal business operations. If excused from performing any obligations under this Agreement due to the occurrence of an Event of Force Majeure, the non-performing party shall promptly, diligently, and in good faith take all reasonable action required for it to be able to commence or resume performance of its obligations under this Agreement. During any such time period, the non-performing party shall keep the other party duly notified of all such actions required for it to be able to commence or resume performance of its obligations under this Agreement.

31.0 Key Personnel

The Contractor shall notify the County if any of the Contractor's Key Personnel (as defined, below) change during the Term of the Agreement. To the extent possible, the Contractor shall notify the County at least ten (10) days prior to any proposed change in its Key Personnel. At the County's request the Contractor shall remove without consequence to the County any of

the Vendor's contractors, sub-contractors, sub-consultants, agents or employees and replace the same with an appropriate substitute having the required skill and experience necessary to perform the Services. The County shall have the right to reject the Contractor's proposed changes in Key Personnel. The following individuals shall be considered "Key Personnel:"

Name: Travis Mays

Name: Darius Stankunas

Name: Sam Rosania

Name: Kyle Jones, CEM

Name: Katie Taylor

Name: Matt Mooneyham

Name: Allen Fowler

Name: Jeff Cousins

Name: Adam Ferguson

Name: Jordan Bryant

Name: Denise Jankauskas

32.0 Scrutinized Companies and Business Operations Certification; Termination.

A. Certification(s).

(i) By its execution of this Agreement, the Contractor hereby certifies to the County that the Contractor is not on the Scrutinized Companies that Boycott Israel List, created pursuant to Section 215.4725, Florida Statutes, nor is the Contractor engaged in a boycott of Israel, nor was the Contractor on such List or engaged in such a boycott at the time it submitted its bid, proposal, quote, or other form of offer, as applicable, to the County with respect to this Agreement.

(ii) Additionally, if the value of the goods or services acquired under this Agreement are greater than or equal to One Million Dollars ($1,000,000), then the Contractor further certifies to the County as follows:

(a) the Contractor is not on the Scrutinized Companies with Activities in Sudan List, created pursuant to Section 215.473, Florida Statutes; and

(b) the Contractor is not on the Scrutinized Companies with Activities in the Iran Petroleum Energy Sector List, created pursuant to Section 215.473, Florida Statutes; and

(c) the Contractor is not engaged in business operations (as that term is defined in Florida Statutes, Section 287.135) in Cuba or Syria; and

(d) the Contractor was not on any of the Lists referenced in this subsection A(ii), nor engaged in business operations in Cuba or Syria when it submitted its proposal to the County concerning the subject of this Agreement.

(iii) The Contractor hereby acknowledges that it is fully aware of the penalties that may be imposed upon the Contractor for submitting a false certification to the County regarding the foregoing matters.

B. Termination. In addition to any other termination rights stated herein, the County may immediately terminate this Agreement upon the occurrence of any of the following events:

(i) The Contractor is found to have submitted a false certification to the County with respect to any of the matters set forth in subsection A(i) above, or the Contractor is found to have been placed on the Scrutinized Companies that Boycott Israel List or is engaged in a boycott of Israel.

(ii) The Contractor is found to have submitted a false certification to the County with respect to any of the matters set forth in subsection A(ii) above, or the Contractor is found to have been placed on the Scrutinized Companies with Activities in Sudan List, or the Scrutinized Companies with Activities in the Iran Petroleum Energy Sector List, or has been engaged in business operations in Cuba or Syria, and the value of the goods or services acquired under this Agreement are greater than or equal to One Million Dollars ($1,000,000).

33. No Construction Against Drafter

The Parties acknowledge that this Agreement and all the terms and conditions contained herein have been fully reviewed and negotiated by the Parties. Accordingly, any rule of construction to the effect that ambiguities are to be resolved against the drafting party shall not apply in interpreting this Agreement.

34. Federal Provisions

The Supplemental Conditions – Federal Clauses set forth in the RFP 26-012, attached as **Exhibit A,** are hereby fully incorporated by this specific reference, as if set forth in the body of this Agreement.

35. Breach During Emergency Recovery Period.

Pursuant to §252.505, Fla. Stat., in the event this Agreement concerns goods or services related to a natural emergency, Vendor agrees that if Vendor breaches this Agreement during the Emergency Recovery Period, then the County shall be entitled to (a) a payment of $5000, and (b) recovery of damages, which may take the form of actual and consequential damages or liquidated damages. The term "Emergency Recovery Period" means a one-year period that begins on the date the

Governor of Florida initially declared a state of emergency for a natural emergency. This provision shall survive the termination of this Agreement.

(THE REMAINDER OF THE PAGE IS LEFT INTENTIONALLY BLANK; THE AGREEMENT CONTINUES ON THE FOLLOWING PAGE WITH THE PARTIES SIGNATURES.)

IN WITNESS WHEREOF, the parties hereto have executed this Agreement as of the Effective Date.

EMPLOYMENT ELIGIBILITY VERIFICATION (E-VERIFY) CERTIFICATION

(Florida Statutes, Section 448.095)

PROJECT NAME: RFP 26-012

The undersigned, as an authorized officer of the contractor identified below (the "**Contractor**"), having full knowledge of the statements contained herein, hereby certifies to Polk County, a political subdivision of the State of Florida (the "**County**"), by and on behalf of the Contractor in accordance with the requirements of Section 448.095, Florida Statutes, as related to the contract entered into by and between the Contractor and the County on or about the date hereof, whereby the Contractor will provide labor, supplies, or services to the County in exchange for salary, wages, or other remuneration (the "**Contract**"), as follows:

1. Unless otherwise defined herein, terms used in this Certification which are defined in Section 448.095, Florida Statutes, as may be amended from time to time, shall have the meaning ascribed in said statute.

2. Pursuant to Section 448.095(5), Florida Statutes, the Contractor, and any subcontractor under the Contract, must register with and use the E-Verify system to verify the work authorization status of all new employees of the Contractor or subcontractor. The Contractor acknowledges and agrees that (i) the County and the Contractor may not enter into the Contract, and the Contractor may not enter into any subcontracts thereunder, unless each party to the Contract, and each party to any subcontracts thereunder, registers with and uses the E-Verify system; and (ii) use of the U.S. Department of Homeland Security's E-Verify System and compliance with all other terms of this Certification and Section 448.095, Fla. Stat., is an express condition of the Contract, and the County may treat a failure to comply as a material breach of the Contract.

3. By entering into the Contract, the Contractor becomes obligated to comply with the provisions of Section 448.095, Fla. Stat., "Employment Eligibility," as amended from time to time. This includes but is not limited to utilization of the E-Verify System to verify the work authorization status of all newly hired employees, and requiring all subcontractors to provide an affidavit attesting that the subcontractor does not employ, contract with, or subcontract with, an unauthorized alien. The Contractor shall maintain a copy of such affidavit for the duration of the Contract. Failure to comply will lead to termination of the Contract, or if a subcontractor knowingly violates the statute or Section 448.09(1), Fla. Stat., the subcontract must be terminated immediately. If the Contract is terminated pursuant to Section 448.095, Fla. Stat., such termination is not a breach of contract and may not be considered as such. Any challenge to termination under this provision must be filed in the Tenth Judicial Circuit Court of Florida no later than 20 calendar days after the date of termination. If the Contract is terminated for a violation of Section 448.095, Fla. Stat., by the Contractor, the Contractor may not be awarded a public contract for a period of 1 year after the date of termination. The Contractor shall be liable for any additional costs incurred by the County as a result of the termination of the Contract. Nothing in this Certification shall be construed to allow intentional discrimination of any class protected by law.

Affidavit Regarding the Use of Coercion for Labor or Services

In compliance with Section 787.06(13), Florida Statutes, this attestation must be completed by an officer or representative of a nongovernmental entity that is executing, renewing, or extending a contract with Polk County, a political subdivision of the State of Florida.

The undersigned, on behalf of the entity listed below (the "Nongovernmental Entity"), hereby attests under penalty of perjury as follows:

1. I am over the age of 18 and I have personal knowledge of the matters set forth herein.

2. I currently serve as an officer or representative of the Nongovernmental Entity.

3. The Nongovernmental Entity does **not** use coercion for labor or services, as those underlined terms are defined in Section 787.06, Florida Statutes.

4. This declaration is made pursuant to Section 92.525, Fla. Stat. and Section 787.06, Fla. Stat. I understand that making a false statement in this declaration may subject me to criminal penalties.

Under penalties of perjury, I TRAVIS MAYS, PRINCIPAL/VICE PRESIDENT (Signatory Name and Title), declare that I have read the foregoing Affidavit Regarding the Use of Coercion for Labor and Services and that the facts stated in it are true.

Further Affiant sayeth naught.

Florida Department of State, Division of Corporations

Exhibit Ai

RFP NOTICE

Polk County, a political subdivision of the State of Florida, requests the submittal of proposals from vendors that are interested in providing debris monitoring services as described herein. Sealed proposals must be received in the Procurement Division, prior to the due date and time listed below.

RFP Number and Title: 26-012, Disaster Debris Monitoring Services

Description: Provide disaster debris removal monitoring and other related services resulting from, but not limited to, catastrophic events such as tornadoes and hurricanes.

Receiving Period: Prior to 2:00 p.m., Wednesday, December 31, 2025

Bid Opening: Wednesday, December 31, 2025, at 2:00 p.m. or as soon as possible thereafter.

This form is for RFP registration only. Please scroll down for additional information.

Special Instructions

Questions regarding this RFP must be in writing and must be sent to Ken Brush Procurement Contracts Manager, via email at kenbrush@polk-county.net or via fax at (863) 534-6789. All questions must be received by Monday, December 15, 2025, 4:00 p.m.

RFP REGISTRATION

You must register using this form to receive notice of any addenda to these documents. Please fax the completed form to the Procurement Division as soon as possible. It is the vendor's responsibility to verify if addenda have been issued.

RFP Number: 26-012

RFP Title: Disaster Debris Monitoring Services

This form is for bid registration only. Please scroll down for additional information.

Carefully complete this form and return it to the Procurement Division via e-mail to procurement@polk-county.net or fax (863) 534-6789. You must submit one form for each solicitation that you are registering for.

PROPOSAL SUBMITTAL INSTRUCTIONS

Proposers must submit their proposal prior to 2:00 p.m. on the receiving date. Proposals must be submitted in a "sealed" parcel or electronically through Polk County's secure website, Kiteworks. Proposals will be publicly opened at 2:00 p.m. on the receiving date.

Sealed Parcel Submittal:

If you are submitting a sealed parcel proposal submit one (1) original marked ORIGINAL and five (5) copies marked COPY of the proposal in a sealed parcel to the Procurement Division. The parcel should be labeled "RFP #26-012, Disaster Debris Monitoring Services" and marked with the proposer's name and address. The Proposals may be mailed or delivered to:

Polk County Procurement Division

330 West Church Street, Room 150

Bartow, FL 33830

To assist with labeling the sealed parcel, please cut along the outer border and affix this label. Be sure to include the name of the company submitting the proposal where requested.

Sealed Proposal. DO NOT OPEN	
RFP Number	26-012
RFP Title	Disaster Debris Monitoring Services
Due Date/Time:	December 31, 2025, prior to 2:00 pm
Submitted by:	
Deliver To:	Polk County Procurement Division 330 West Church Street, Room 150, Bartow, Florida 33830

Proposals may be mailed, express mailed or hand delivered. It is the Proposers responsibility to ensure their package is delivered to the Procurement Division prior to 2:00 p.m. on the Receiving date and time referenced above. Proposals delivered at 2:00 p.m. or later will not be accepted.

Electronic Proposals Submittal:

All prospective Proposers that are interested in submitting their proposals electronically can do so via the County's secure electronic submittal website, Kiteworks. Proposers must email kenbrush@polk-county.net at least 48 hours prior to opening to receive a link to upload their submittal. Please only upload your documents as a PDF or Excel file for the Cost Tab, if applicable. Please use the name convention of your files as follow:

"RFP 26-012 Tab 1"

"RFP 26-012 Tab 2"

"RFP 26-012 Tab 3"

"RFP 26-012 Tab 4"

"RFP 26-012 Tab 5"

For more instructions, a video tutorial has been produced to further explain the electronic solicitation submittal process. It can be found by clicking here for RFP Submittals: https://youtu.be/vkn_7AHgioE. If you need assistance accessing this website due to ADA or any other reason, please email Ken Brush at kenbrush@polk-county.net.

Procurement recommends that Proposers submitting electronically double check the documents submitted into Kiteworks to ensure all requested tab information has been uploaded. Failure to upload the requested tab information may result in the proposal being deemed nonresponsive.

POLK COUNTY
Procurement Division
Fran McAskill
Procurement Director
REQUEST FOR PROPOSAL 26-012
Disaster Debris Monitoring Services

Sealed proposals will be received in the Procurement Division, Wednesday, December 31, 2025, prior to 2:00 p.m.

Attached are important instructions and specifications regarding responses to this Request for Proposal (the "RFP"). The failure of a responding proposer (a "Proposer") to follow these instructions could result in Proposer disqualification from consideration for a contract to be awarded pursuant to this RFP.

This document is issued by Polk County (the "County") which is the sole distributor of this RFP and all addenda and changes to the RFP documents. The County shall record its responses to inquiries and provide any supplemental instructions or additional documents pertaining to this RFP in the form of written addenda to the RFP. The County shall post all such addenda, together with any other information pertaining to this RFP, on the County's website at https://www.polk-county.net/business/procurement/. It is the sole responsibility of each Proposer to review the website prior to submitting a responsive proposal (a "Proposal") to this RFP to ensure that that the Proposer has obtained all available instructions, addenda, changes, supporting documents, and any other information pertaining to this RFP.

The County is not responsible for any solicitations issued through subscriber, publications, or other sources not connected with the County and the Proposer should not rely on such sources for information regarding the RFP solicitation.

Questions regarding this RFP must be in writing and must be sent to Ken Brush, Procurement Contracts Manager, via email at kenbrush@polk-county.net or via fax at (863) 534-6789. **All questions must be received by Monday, December 15, 2025, 4:00 p.m.**

Proposers and any prospective proposers shall not contact, communicate with or discuss any matter relating in any way to this RFP with any member of the Polk County Board of County Commissioners or any employee of Polk County other than the County Procurement Director or the individual designated above. This prohibition begins with the issuance of the Request for Proposal and ends upon execution of the final contract. Any such communication initiated by a Proposer or prospective proposer shall be grounds for disqualifying the offender from consideration for a contract to be awarded pursuant to this RFP and for contracts to be awarded pursuant to RFPs or Requests for Bid that the County may issue in the future.

A Proposer's responsive Proposal to this RFP may be mailed, express mailed, or hand delivered to:

Polk County Procurement Division
330 West Church Street, Room 150
Bartow, Florida 33830
(863)534-6757

Introduction

Polk County, a political subdivision of the State of Florida, seeks the submittal of proposals from qualified firms who are interested in providing professional services in monitoring debris removal services in accordance with the Polk County Debris Management Plan.

Award of this RFP may be made to up to three (3) Contractors and will be used when the magnitude of an emergency is such that the County is not able to manage with their own resources. Contractors shall be identified as the primary, secondary, and tertiary awardee based on order of final ranking. The area given to any one contractor will depend on the magnitude of the emergency.

The primary vendor will be contacted to provide the services needed. If the primary vendor is not available, or fails to respond within 24 hours, the County will then contract the secondary vendor. If the secondary vendor is not available or fails to respond with 24 hours, the County will then contact the tertiary vendor.

There are other public agencies within Polk County that may wish to use the provisions of this RFP. Attachment A must be signed and included with your submittal. Please refer to submittal criteria for further detail.

SCOPE OF SERVICES

This statement of work describes and defines the services which are required for debris removal monitoring for Polk County (County). The work includes but is not limited to; monitoring field operations regarding all storm generated debris, debris pickup, debris hauling, debris staging and reduction, temporary debris storage site management, debris management, and final disposal of debris to an approved facility. Roads and other County facilities will be identified by the County and direction will be given to the Contractor for clearing these roads and facilities in accordance with the County Debris Management Plan. The County reserves the right to add or remove highway segments

at the direction of the Debris Manager. While this scope provides for debris removal work off the state road system, no work on or off the state road system is guaranteed. The County, at its sole discretion, may elect to perform the work with in-house forces or other contract forces or may cancel the contract at any time if determined to be in the best interest of the County.

The Consultant shall have experience in the Federal Highway Administration Emergency Relief Program (FHWA-ER), the Federal Emergency Management Agency Public Assistance Program (FEMA-PA), and other applicable federal, state, and/or local programs to assist the County in its emergency response and recovery efforts. Proper documentation by the Consultant as required by FHWA and FEMA is required for all debris removal monitoring operations to ensure reimbursement to the County from the appropriate agency.

The Consultant will be responsible for tracking all of the contract costs and adhering to the "not to exceed" limit as defined. Proper notification must be given to the County as costs approach this limit.

The successful firm must adhere to all requirements and regulations established by the Federal Emergency Management Agency (FEMA), Federal Highway Administration (FHWA), Florida Department of Transportation (FDOT), and any other governmental agency with jurisdiction over response and recovery actions.

The Consultant shall assist the County specifically with debris management services to include, but not limited to, the following items:

- Provide training of select County staff in essential debris management and collection functions to insure appropriate and responsive interface with field debris collection contractors and County, state, and federal agencies.
- Provide field inspectors at designated check points to check and verify information on debris removal and at Temporary Debris Storage Reduction Site (TDSRS) located throughout Polk County.

The Consultant will provide assistance with the scheduling, dispatching and logistical operations of the field inspectors assigned to work areas for storm debris cleanup. This will include:

- Setting up the schedule for inspectors each day.
- Certification of the volumetric measurement (cy) either prior to or during and event of each truck that is added into service; this shall be the physical measurement of the truck bed.
- Keeping a record of contract haulers' trucks: cubic yardage, time in and out, number of loads/day, and other data as requested by designated County personnel.
- Determining truck assignments as well as a 2 week future schedule of where trucks will be.
- Coordinating with County personnel to respond to problems in the field.
- Conducting "end-of day" duties, such as verifying all trucks have left the disposal site, locking down of the facility.
- Surveying the area for special needs: identifying tree stumps, hazard trees, C&D debris, potential problems – a location list should be kept of these areas.
- Recording on a computer tracking system of the streets where debris was collected.
- Performing other duties as directed by dispatch/staging operation or designated County personnel.

The Consultant will collect baseline data per local, state and federal requirements from the designated emergency debris management sites prior to opening of the sites.

The Consultant will assist the County in obtaining necessary local, state and federal permits for the designated emergency debris management sites.

GENERAL REQUIREMENTS

The Contractor(s) shall furnish all necessary personnel, materials, equipment, labor, supervision, facilities, and shall otherwise provide all services necessary for, or incidental to, the performance of all work as defined in these specifications.

It is the sole responsibility of the Contractor(s) to ensure that, should Subcontractor(s) be utilized by the Contractor for any portion of the work, these Subcontractor(s) shall meet or exceed the same requirements instituted for the Contractor pertaining to this contract.

The Contractor(s) shall notify the County within (24) twenty four hours of notice of any legal or regulatory actions, or any Notices of Violation taken against the Contractor(s) or Subcontractor(s) utilized within the scope of this contract.

Upon receipt of the Notice of Violation or Warning Notice or upon notification or request from the County, the Contractor shall immediately prepare their response or draft a County response to the notice and begin corrective action against any non-complying condition. Failure by the Contractor to take corrective action which is required by law or the Contract Documents shall result in the County taking whatever measures are necessary to correct the condition and deducting the cost of such corrective action from the Contractor's Operating Fee Payment. The Contractor will be responsible for any fines resulting from any violations of Federal, State, or local laws or regulations.

Permits and licenses of a temporary nature necessary for the completion of contracted Services shall be secured and paid for by the Contractor with the assistance of the County, unless otherwise stated in this RFP. The Contractor shall not be held responsible to secure permits and/or licenses when the requirements for same have been waived due to a declaration of an emergency or disaster.

Under the general oversight of the County, the Contractor will supervise and direct all work, workers, and equipment. The Contractor is solely responsible for the means, methods, techniques, sequences, safety program, and procedures utilized. The

Contractor will employ and maintain on the work site a qualified and accessible supervisor(s) on the work site(s) and provide the County a liaison officer, as directed. At least one accessible and designated supervisor in the area of operation and the liaison officer shall have full authority to act on behalf of the Contractor and all communications given to the supervisor or liaison officer in writing by the County's Authorized Representative shall be as binding as if given to the Contractor.

The name(s) of the supervisor(s)\liaison officer will be supplied to the County for each issuance of an event Notice-To-Proceed. Additionally, a performance bond for the minimum amount of $1,000,000 will be required before the Notice-To-Proceed is issued. The actual amount will be determined at the time of the event and an adjusted performance bond will need to be obtained for the estimated total amount. Please see (Attachments D & E)

The Contractor shall have the ability to guarantee operations, and pay vendors and sub-contractor(s) for 60 days prior to receiving payments from the County.

Retainage in the amount of ten percent (10%) will be withheld until all work has been completed and has been approved by the County.

The Contractor shall participate in an annual on-sight pre-coordination meeting as directed by the County at no additional cost to the County.

The Contractor shall, to the extent practical, give priority to utilizing resources in Polk County and the surrounding area, including but not limited to procuring supplies and equipment, awarding subcontracts, and employing workers.

The Contractor shall make daily reports to the County to detail the progress of the debris removal and disposal program. Such reports shall include a description of all areas where work was done, detailing the street names, and address blocks where debris removal was completed. The reports must also include the types and volumes of

debris transported, reduced, and disposed. The Contractor shall also provide other operational and complaint tracking reports as requested by the County.

The Contractor shall disclose future debris management contractual obligations and provide reasonable assurance that such obligations will not preclude the Contractor from meeting its obligations under the contract resulting from this RFP. Such disclosure shall be provided to the County within 30 days of entering into said contractual obligation.

AGREEMENT

The term of this agreement will be for approximately 5 years. The Actual term will be negotiated as part of Elevation Level 4, Contract Negotiations.

SUBMITTAL

Submittals should not contain information in excess of that requested, must be concise, and must specifically address the issues of this RFP. The responses should be in the same order as the selection and evaluation procedures. Proposals are to be printed double-sided. Unnecessarily elaborate brochures or other presentations beyond those sufficient to present a complete and effective submittal to this solicitation are not desired and may be construed as an indication of the proposer's lack of cost consciousness. Elaborate artwork, expensive visual aids, and other presentation aids are neither necessary nor desired, unless specifically requested. The proposal submittals should be contained within a three (3) ring binder (original and each copy in separate binders). Each submittal should contain:

Tab 1, Introduction:

- Introduction letter describing your firm, experience, number of years in business, contact name, company address, phone number and email address of contact person. (One page, single or double sided)
- Attachment A – Understanding terms, conditions, and pricing may be used by any public agencies located within Polk County.

Tab 2, Experience and Expertise (40 Points)

- Provide your firm's organization structure.

- Provide a resume for the project manager and all key personnel that will be involved in providing the services as outlined in the scope of work. (1 page single or double sided for each resume)
- Describe the firm's experience with providing similar size and scope of work as outlined in this RFP. (One page, single or double sided)
- Provide a minimum of three (3) and a maximum of five (5) projects that demonstrates your firm's experience with debris removal services for similar scope of work services in the past five (5) years. At least two (2) of the projects shall be from a disaster recovery project performed for a public or governmental agency. At least three (3) of the projects shall be for disaster recovery project performed as the prime. At least two (2) of the projects shall be for projects in excess of 250,000 cubic yards. For each project identified please include (2 pages for each project, single or doubled sided):
    - Client name
    - Contact person
    - Contact's phone number and email address
    - Cost of the services
    - Start and end date of project.
    - Name of disaster and location of the project
    - Brief description of the services provided
        - A brief description of the project and what role your firm played in the project.
        - Identify if multiple temporary debris processing sites were established where collected debris was sorted, screened for sand, recycled, ground, mulched, burned, or otherwise segregated for transport and disposal.
        - Identify your firm's expertise and experience in assessing, removing, and disposing of specialty debris including hazardous materials, hazardous wastes, biohazardous wastes, dead animals, and hazardous stumps.

- Identify your firm's expertise and experience in demolition of structures, and debris removal from private property (Right-of-Entry Programs) and publicly owned property (other than Rights-of-Way).

Tab 3, Resources and Availability (40 points)

- Provide an organizational chart of the team highlighting the key individuals who will work on this contract as identified above.
- The key staff presented in the contractor's response shall be the staff utilized on this contract. Please provide the resumes of the key staff including, but not limited to, the items in the list below (One (1) page maximum per resume):
  a) Name and current position held by the person
  b) Name, title and project assignment
  c) Experience:
     (1) Types of projects.
     (2) Size of projects (dollar value of project).
     (3) What were their specific project involvements?

- Demonstrate each key staff's availability to respond to the needs of the project (Two (2) pages maximum for all key staff members)
- Identify sub-contractors or joint ventures to be used, if any. For each sub-contractor or joint venture identified please provide:

  - A brief description of their experience outlining their qualifications to perform the intended services
  - A brief resume for each key personnel that will be assigned to perform

Tab 4, Compensation Schedule (10 Points)

- The Respondent shall complete the compensation schedule included as Attachment B. The Consultant is to include all costs that the Consultant may anticipate incurring during the performance of the disaster recovery work as outlined on Attachment B. For items not listed, the County will only pay the FEMA rates.

- The hourly rates for labor may be increased by the Procurement Director after the contract has been in place for a minimum of 12-months, when it is in the best interest of the County. Increases will be determined by the appropriate price index as approved by the Procurement Director or Designee. No Board action will be necessary for labor rate increases.

- Proposers shall declare that, to the best of their knowledge and experience with Federal and State reimbursement procedures and requirements, that all proposed costs and payment methods are reasonable and customary for the service listed.

Tab 5, Surveys of Past Performance (10 Points)

- Provide reference surveys from past clients for the projects identified under Tab 2.
- Completed surveys. (See Exhibit 1) Procurement will take the average of all surveys and score as follows:
    - Average Score between 9-10 (10 Points)
    - Average Score between 7-8 (8 Points)
    - Average Score between 5-6 (6 Points)
    - Average Score between 3-4 (4 Points)
    - Average Score between 1-2 (2 Points)
    - Average Score of 0 (0 Points)

EVALUATION CRITERIA AND SELECTION PROCESS

Proposals will be evaluated in accordance with this section and all applicable County procurement policies and procedures.

The County shall appoint a selection committee (the "Selection Committee") that will be responsible for evaluating and scoring/ranking the Proposals in accordance with this Section.

The County will use a competitive selection process based on the Elevation Levels described in this Section. At Elevation Levels 2 and 3, the Selection Committee will score and/or rank the Proposals as applicable.

Selection of a final Proposal will be based upon the following steps and factors:

Elevation Level 1 (Procurement Requirements Assessment)

The County Procurement Division shall review all Proposals for conformance with RFP guidelines and detailed submittal requirements. At the County's discretion, non-conforming Proposals may be eliminated from further consideration and conforming Proposals shall be elevated to Elevation Level 2.

Procurement will distribute Proposals and evaluation criteria to the Selection Committee.

The Selection Committee may convene to review questions that arise during individual member review of submitted Proposals before Elevation Level 2 to allow for questions, clarifications, explanations, or other discussion to be held before the review of Proposals is completed.

Elevation Level 2 (Selection Committee Evaluation)

Procurement shall score each Proposal on the following evaluation criteria:

- Compensation (Tab 4)- 10 points
- Surveys of Past Performance (Tab 5)-10 points

  Subtotal Points-20 Points

by the process stated under each corresponding Tab description

Each Selection Committee member shall score each Proposal on the following evaluation criteria:

- Experience and Expertise (Tap 2)-40 points
- Approach and Methodology (Tab 3)-40 points

  Subtotal Points-80 points

by the following process:

Each Selection Committee member shall determine which of the following descriptions applies to each of the foregoing evaluation criteria:

EXCELLENT (1.0): Of the highest or finest quality; exceptional; superior; superb; exquisite; peerless. The Proposer provided information for a given criteria that satisfied the requirements and described specifically how and what will be accomplished in such a manner that exhibited an exceptional and superior degree of understanding, skill, and competency, both qualitatively and quantitatively. The facts included in the narrative (including all supporting documentation, diagrams, drawings, charts, and schedules, etc.) demonstrate the Proposer's ability to perform and deliver far beyond expectation.

VERY GOOD (0.8): To a high degree; better than or above competent and/or skillful. The Proposer provided information for a given criteria that satisfied the requirements and described specifically how and what will be accomplished in such a manner that exhibited a very high degree of understanding, skill, and competency, both qualitatively

and quantitatively. The facts included in the narrative (including all supporting documentation, diagrams, drawings, charts, and schedules, etc.) demonstrate the Proposer's ability to perform and deliver beyond expectation.

GOOD (0.6): Having positive or desirable qualities; competent; skilled; above average. The Proposer provided information for a given criteria that satisfied the requirements and described specifically how and what will be accomplished in such a manner that exhibited a skillful and above-average degree of understanding, skill, and competency, both qualitatively and quantitatively. The facts included in the narrative (including all supporting documentation, diagrams, drawings, charts, and schedules, etc.) demonstrate the Proposer's ability to perform and deliver at the expected level.

FAIR (0.4): Average; moderate; mediocre; adequate; sufficient; satisfactory; standard. The Proposer provided information for a given criteria that satisfied the requirements and described sufficiently how and what will be accomplished in a manner that exhibited an adequate and average degree of understanding, skill, and competency, both qualitatively and quantitatively. The facts included in the narrative (including all supporting documentation, diagrams, drawings, charts, and schedules, etc.) demonstrate the Proposer's ability to perform and deliver at a level slightly below expectation.

POOR (0.2): Inadequate; lacking; inferior in quality; of little or less merit; substandard; marginal.

The Proposer provided information for a given criteria that did not satisfy the requirements and described in an inadequate manner how and what will be accomplished. The information provided simply reiterated a requirement, contained inaccurate statements or references, lacked adequate information, or was of inferior quality. The facts included in the narrative (including all supporting documentation, diagrams, drawings, charts, and schedules, etc.) demonstrate the Proposer's ability to perform and deliver at a substandard and inferior level.

UNACCEPTABLE (0.0):

The Proposer failed to provide any information for a given criteria, provided information that could not be understood, or did not provide the information for a given category as requested.

After a Selection Committee member has determined the description applicable for each evaluation criterion, the total points available for such criterion shall be multiplied by the factor associated with the applicable description to produce the number of points allocated for that evaluation criterion. For example, a Selection Committee member classifies the "Experience and Expertise" criterion (which shall be worth 25 points for the purpose of this example) as "Very Good" (which is a description factor multiplier of 0.8). The points that Selection Committee member allocated for that evaluation criterion would be 20, calculated as follows: 25 available points x 0.8 applicable description factor multiplier = 20 points.

A Selection Committee member's total score for each Proposal shall equal the sum of the total points allocated for each evaluation criteria.

When all Selection Committee members have completed their Proposal evaluations, the individual Selection Committee member's total scores for each Proposal will be added together to produce a final score for each Proposal.

Procurement will confirm the calculations for the final score for each Proposal. Then, Procurement shall publish a rank-ordered listing of the Proposals to the Selection Committee with the Proposal receiving the highest point as the highest-ranked Proposal.

If the Selection Committee decides to interview Proposers based on the final scores, then at a minimum the Selection Committee shall elevate the two highest-ranked Proposers to Elevation Level 3 for interviews. If the Selection Committee decides not to interview Proposers, they will collectively decide if they would like to recommend the Board, or if applicable the County Manager authorize staff to enter into Contract Negotiations with all Proposers, starting with the highest scoring Proposer. After Board or County Manager approval, as applicable, to authorize staff to negotiate a contract, the Proposers will then be elevated to Elevation Level 4 for contract negotiations.

The determination of whether the County Manager may authorize negotiations, without further approval of the Board, is contingent upon whether the anticipated cost of the agreement exceeds $100,000. The County Manager may authorize contract negotiations for contracts which are not anticipated to exceed $100,000 in total.

Elevation Level 3 (Proposer Interviews)

The Selection Committee shall conduct interviews of the Proposers that it has elevated from Elevation Level 2 to Elevation Level 3. During an interview, elevated Proposers shall make a presentation describing the key elements of their Proposal and/or address any specific topics the Selection Committee may determine necessary. The Selection Committee members will have an opportunity to inquire about any aspect of the RFP and the Proposer's Proposal. After all elevated Proposer interviews, each Selection Committee member shall evaluate each Proposer with emphasis on the following:

Proposer interview and presentation focusing on the key elements of their presentation and answers to questions of the Selection Committee.

After the interviews, each Selection Committee member will individually rank the Proposers in numerical order beginning at number 1 for the highest-ranked Proposer. Procurement shall receive and compile each Selection Committee member's ranking of each Proposer, and then publish a rank-ordered listing of Proposers to the Selection Committee, based on the combined average rankings given each Proposer. The Selection Committee members will then collectively decide if they would like to recommend the Board, or if applicable the County manager, authorize staff to enter into Contract Negotiations with all Proposers elevated to Proposer Interviews, starting with the highest-ranked Proposer. After Board or County Manager approval, as applicable, to authorize staff to negotiate a contract, the highest-ranked Proposer will then be elevated to Elevation Level 4, Contract Negotiations.

The determination of whether the County Manager may authorize negotiations, without further approval of the Board, is contingent upon whether the anticipated cost of the agreement exceeds $100,000. The County Manager may authorize contract negotiations for contracts which are not anticipated to exceed $100,000 in total.

Elevation Level 4 (Contract Negotiations)

If a Proposer is elevated to this level, the User division, with the assistance of the Procurement and the County Attorney's Office, shall negotiate an Agreement with the elevated Proposer.

If after negotiating for a reasonable time period the parties cannot agree on a contract, the County shall, in its sole discretion, terminate further contract negotiations with that Proposer. Procurement shall notify the Selection Committee that contract negotiations with the elevated Proposer have terminated. The Selection Committee shall then determine whether to enter into contract negotiations with the next-highest-ranked Proposer, and so on. If the Selection Committee decides not to recommend contract negotiations with the next-highest-ranked Proposer, and so on, or if the County determines there is no other Proposer with whom the County can successfully negotiate a contract, then the RFP Selection Process shall terminate.

After contract negotiations with a Proposer are successfully completed pursuant to Elevation Level 4, the Selection Committee shall recommend to the Board of County Commissioners or County Manager, as applicable, that it selects such Proposer to provide the services as outlined in the Agreement. The Board of County Commissioners or County Manager, as applicable, shall make the final decision whether the County shall enter into an Agreement with a Proposer.

The determination of whether the County Manager may execute a contract, without further Board approval, is contingent upon whether the cost of the agreement exceeds $100,000. The County Manager may execute contracts that do not exceed $100,000 in total.

GENERAL CONDITIONS

BID OPENING

Proposers may attend the Bid Opening in person or via conference call by dialing (646) 558-8656 and enter Meeting ID: 327 647 2818. A listing of all proposers will be posted to Procurement's website as soon as possible after bid opening.

COMMUNICATIONS

After the issuance of any Request for Proposal, prospective proposers shall not contact, communicate with or discuss any matter relating in any way to the Request for Proposal with the Board of County Commissioners, the County Manager, or any employee of Polk County other than the Procurement Director or as directed in the cover page of the Request for Proposal. This prohibition begins with the issuance of any Request for Proposal and ends upon execution of the final contract. Such communications initiated by a proposer shall be grounds for disqualifying the offending proposer from consideration for award of the proposal and/or any future proposal.

INSURANCE REQUIREMENTS

The selected firm, if any, shall maintain, at all times, the following minimum levels of insurance and; shall, without in any way altering their liability, obtain, pay for and maintain insurance for the coverages and amounts of coverage not less than those set forth below. Provide to the County original Certificates of Insurance satisfactory to the County to evidence such coverage before any work commences. Polk County, a political subdivision of the State of Florida, shall be an additional named insured on all policies related to the project; excluding workers' compensation and professional liability. The Workers' Compensation and General Liability policies shall contain a waiver of subrogation in favor of Polk County. All insurance coverage shall be written with a company having an A.M. Best Rating of at least the "A" category and size category of VIII. The firm's deductible per line of coverage shall not exceed $25,000 without the permission of the County. Policies that include Self Insured Retention will not be accepted. In the event of any failure by the firm to comply with the provisions; the County may, at its option, on notice to the firm suspend the project for cause until there is full compliance. Alternatively, the County may purchase such insurance at the firm's expense, provided that the County shall have no obligation to do so and if the County shall do so, the firm shall not be relieved of or excused from the obligation to obtain and maintain such insurance amounts and coverages.

Workers' Compensation and Employer's Liability Insurance providing statutory benefits, including those that may be required by any applicable federal statute:

Admitted in Florida	Yes

Employer's Liability	$1,000,000
All States Endorsement	Statutory
Voluntary Compensation	Statutory

Commercial General Liability Insurance. $1,000,000 combined single limit of liability for bodily injuries, death, and property damage, and personal injury resulting from any one occurrence, including the following coverages:

Premises and Operations and Products/Completed Operations;

Broad Form Commercial General Liability Endorsement to include blanket contractual liability (specifically covering, but not limited to, the contractual obligations assumed by the Firm); Personal Injury (with employment and contractual exclusions deleted) and Broad Form Property Damage coverages;

Independent Contractors; Delete Exclusion relative to Collapse, Explosion and Underground Property Damage Hazards; Policy must include Separation of Insureds Clause.

Comprehensive Automobile Liability Insurance. $1,000,000 combined single limit of liability for bodily injuries, death, and property damage, and personal injury resulting from any one occurrence, including all owned, hired and non-owned vehicles.

Pollution Liability Insurance. $1,000,000 including pollution due to automobile operations.

INDEMNIFICATION

Consultant, to the extent permitted by law, shall indemnify, defend (by counsel reasonably acceptable to County), protect and hold the County, and its officers, employees and agents, harmless from and against any and all, claims, actions, causes of action, liabilities, penalties, forfeitures, damages, losses, and expenses whatsoever (including, without limitation, attorneys' fees, costs, and expenses incurred during negotiation, through litigation and all appeals therefrom) including, without limitation, those pertaining to the death of or injury to any person, or damage to any property, arising out of or resulting from (i) the failure of Consultant to comply with applicable laws, rules or regulations, (ii) the breach by Consultant of its obligations under any Agreement with the County entered into pursuant to this solicitation, (iii) any claim for trademark, patent, or copyright infringement arising out of the scope of Consultant's performance or nonperformance of the Agreement, or (iv) the negligent acts, errors or omissions, or intentional or willful misconduct, of Consultant, its professional associates,

subcontractors, agents, and employees; provided, however, that Consultant shall not be obligated to defend or indemnify the County with respect to any such claims or damages arising out of the County's sole negligence. The obligations imposed by this Section shall survive the expiration or earlier termination of the Agreement.

PUBLIC ENTITY CRIMES STATEMENT

The Consultant declares and warrants that neither the Consultant nor any of the Consultant's affiliates, as that term is defined in Section 287.133, Florida Statutes, are subject to the restrictions in Section 287.133, Florida Statutes, regarding the commission of a public entity crime. If during the term of this Agreement, the Consultant or any affiliate is convicted of a public entity crime or is otherwise prohibited from performing work for or transacting business with the County pursuant to Section 287.133, Florida Statutes, then the Consultant shall be in material default of this Agreement, and in such case, the County shall have the rights and remedies as provided herein.

EQUAL OPPORTUNITY/AFFIRMATIVE ACTION

The County is an equal opportunity/affirmative action employer. The County is committed to equal opportunity employment effort; and expects Consultants that do business with the County to have a vigorous affirmative action program.

WOMEN/MINORITY BUSINESS ENTERPRISE OUTREACH

The County hereby notifies all Proposers that W/MBE's are to be afforded a full opportunity to participate in any request for proposal by the County and will not be subject to discrimination on the basis of race, color, sex or national origin.

AFFIRMATION

By submitting their proposal, the Proposer affirms that the proposal is genuine and not made in the interest of or on behalf of any undisclosed person, Consultant or corporation and is not submitted in conformity with any agreement or rules of any group, association, organization or corporation; the Proposer has not directly or indirectly induced or solicited any other person to submit a false or sham proposal; the Proposer has not solicited or induced any person, Consultant or corporation to refrain from

submitting a proposal; and the Proposer has not sought by collusion to obtain for him/herself any advantage over other persons or over the County.

DEVELOPMENT COSTS

Neither the County nor its representative(s) shall be liable for any expenses incurred in connection with preparation of a submittal to the RFP. Proposers should prepare their proposals simply and economically, providing a straightforward and concise description of the proposer's ability to meet the requirements of the RFP.

ADDENDA

The County may record its responses to inquiries and any supplemental instructions in the form of written addenda. The addenda will be posted on the County's website at https://www.polk-county.net/business/procurement/. It is the sole responsibility of the proposers to check the website to ensure that all available information has been received prior to submitting a proposal.

CODE OF ETHICS

If any proposer violates or is a party to a violation of the code of ethics of Polk County or the State of Florida, with respect to this proposal, such proposer may be disqualified from performing the work described in this proposal or from furnishing the goods or services for which the proposal is submitted and shall be further disqualified from bidding on any future proposals for work, goods, or services for the County.

DRUG FREE WORKPLACE

Preference shall be given to businesses with Drug Free Workplace (DFW) programs. Whenever two or more proposals, which are equal with respect to price, quality and service, are received by the County for the procurement of commodities or contractual services, a proposal received from a business that has provided a statement that it is a DFW shall be given preference in the award process.

APPLICABLE LAWS AND COURTS

This RFP and any resulting agreements shall be governed in all respects by the laws of the State of Florida and any litigation with respect thereto shall be brought only in the courts of Polk County, State of Florida or the Middle District of Florida, Hillsborough

County, Florida. The proposer shall comply with all applicable federal, state and local laws and regulations.

CONTRACT

All contracts are subject to final approval of the Polk County Board of County Commissioners or County Manager, as applicable. Persons or Consultants which incur expenses or change position in anticipation of a contract prior to the Board's approval do so at their own risk.

PROPOSAL ACCEPTANCE PERIOD

A proposal shall be binding upon the offeror and irrevocable by it for one hundred and twenty (120) calendar days following the proposal opening date. Any proposal in which offeror shortens the acceptance period may be rejected.

ADDITION/DELETION

The County reserves the right to add to or delete any item from this proposal or resulting agreements when deemed to be in the best interest of the County.

INVOICING AND PAYMENT: The successful proposer shall submit a properly certified invoice to the County at the contract prices**. An original invoice shall be submitted to the appropriate User Division.** The proposer shall include the contract number and/or the purchase order number on all invoices. By submitting an invoice, the proposer's Project Manager or any authorized officer is attesting to the correctness and accuracy of all charges. Invoices will be processed for payment when approved by the appropriate Division's Project Manager or designee. The County's payment of an invoice shall not constitute evidence of the County's acceptance of the Proposers performance of the Service or the County's acceptance of any work.

PROPRIETARY INFORMATION

In accordance with Chapter 119 of the Florida Statutes (Public Records Law) and except as may be provided by other applicable State and Federal Law, all proposers should be aware that Request for Proposals and the submittals thereto are in the public domain. However, the proposers are required to identify specifically any information contained in their proposals which they consider confidential and/or proprietary and which they believe to be exempt from disclosure, citing specifically the applicable

exempting law. Proposers should provide a redacted copy of proposal with submittal, or must provide within thirty (30) days from the Proposal due date.

All proposals received from proposers in response to this Request for Proposal will become the property of the County and will not be returned to the proposers. In the event of contract award, all documentation produced as part of the contract will become the exclusive property of the County.

REVIEW OF PROPOSAL FILES

In accordance with Chapter 119.071 of the Florida Statutes, the submittals received for this Request for Proposal are exempt from review for thirty (30) days after the Bid Opening Date or at Recommendation of Award, whichever event occurs first.

Should the RFP be cancelled and re-solicited for any reason, proposal submittals shall remain exempt from disclosure for a period not to exceed twelve (12) months or at Recommendation of Award of the subsequent solicitation.

RFP PROTEST: Any proposer desiring to file a protest, with respect to a recommended award of any RFP, shall do so by filing a written protest. The written protest must be in the possession of the Procurement Division within three (3) working days of the Notice of Recommended Award mailing date. All proposers who submitted a proposal will be sent a Notice of Recommended Award, unless only one proposal was received.

A copy of the protest procedures may be obtained from the Polk County Procurement Division or can be downloaded from the County's website at https://www.polk-county.net/business/procurement/protest-procedures/.

FAILURE TO FOLLOW PROTEST PROCEDURE REQUIREMENTS WITHIN THE TIME FRAMES PRESCRIBED HEREIN AS ESTABLISHED BY POLK COUNTY, FLORIDA, SHALL CONSTITUTE A WAIVER OF THE PROPOSER'S RIGHT TO PROTEST AND ANY RESULTING CLAIM.

UNAUTHORIZED ALIEN(S)

The vendor agrees that unauthorized aliens shall not be employed nor utilized in the performance of the requirements of this solicitation. The County shall consider the employment or utilization of unauthorized aliens a violation of Section 274A(e) of the

Immigration and Naturalization Act (8 U.S.C. 1324a). Such violation shall be cause for unilateral termination of this Agreement by the County. As part of the response to this solicitation, the successful Consultant will complete and submit the attached form "AFFIDAVIT CERTIFICATION IMMIGRATION LAWS."

EMPLOYMENT ELIGIBILITY VERIFICATION (E-Verify)

A. Unless otherwise defined herein, terms used in this Section which are defined in Section 448.095, Florida Statutes, as may be amended from time to time, shall have the meaning ascribed in said statute.

B. Pursuant to Section 448.095(5), Florida Statutes, the contractor hereto, and any subcontractor thereof, must register with and use the E-Verify system to verify the work authorization status of all new employees of the contractor or subcontractor. The contractor acknowledges and agrees that (i) the County and the contractor may not enter into this Agreement, and the contractor may not enter into any subcontracts hereunder, unless each party to this Agreement, and each party to any subcontracts hereunder, registers with and uses the E-Verify system; and (ii) use of the U.S. Department of Homeland Security's E-Verify System and compliance with all other terms of this Certification and Section 448.095, Fla. Stat., is an express condition of this Agreement, and the County may treat a failure to comply as a material breach of this Agreement.

C. By entering into this Agreement, the contractor becomes obligated to comply with the provisions of Section 448.095, Fla. Stat., "Employment Eligibility," as amended from time to time. This includes but is not limited to utilization of the E-Verify System to verify the work authorization status of all newly hired employees, and requiring all subcontractors to provide an affidavit attesting that the subcontractor does not employ, contract with, or subcontract with, an unauthorized alien. The contractor shall maintain a copy of such affidavit for the duration of this Agreement. Failure to comply will lead to termination of this Agreement, or if a subcontractor knowingly violates the statute or Section 448.09(1), Fla. Stat., the subcontract must be terminated immediately. If this Agreement is terminated pursuant to Section 448.095, Fla. Stat., such termination is not a breach of contract and may not be considered as such. Any challenge to termination under this provision must be filed in the Tenth Judicial Circuit Court of Florida no later than 20 calendar days after the date of termination. If this Agreement is terminated for a violation of Section 448.095, Fla. Stat., by the contractor, the contractor may not be awarded a public contract for a period of 1 year after the date of termination. The contractor shall be liable for any additional costs incurred by the County as a result of the termination of this Agreement. Nothing in this Section shall be construed to allow intentional discrimination of any class protected by law.

LIMITATIONS

The County reserves the right to revise, amend or withdraw this proposal at any time to protect its interest. Proposers will not be compensated by the County for costs incurred in preparation of responses to this RFP.

ATTORNEY'S FEES AND COSTS: Each party shall be responsible for its own legal and attorney's fees, costs and expenses incurred in connection with any dispute or any litigation arising out of, or relating to this Agreement, including attorney's fees, costs and expenses incurred for any appellate or bankruptcy proceedings.

Prohibition Against Considering Vendor Interests: In accordance with Section 287.05701, Florida Statutes, the County may not (i) request documentation of or consider a Vendor's social, political, or ideological interests when determining if the Vendor is a responsible vendor; or (ii) give preference to a Vendor based on the Vendor's social, political, or ideological interests.

PUBLIC RECORD LAWS

(a)The Consultant acknowledges the County's obligations under Article I, Section 24, of the Florida Constitution and under Chapter 119, Florida Statutes, to release public records to members of the public upon request and comply in the handling of the materials created under this Agreement. The Consultant further acknowledges that the constitutional and statutory provisions control over the terms of this Agreement. In association with its performance pursuant to this Agreement, the Consultant shall not release or otherwise disclose the content of any documents or information that is specifically exempt from disclosure pursuant to all applicable laws.

(b) Without in any manner limiting the generality of the foregoing, to the extent applicable, the Consultant acknowledges its obligations to comply with Section 119.0701, Florida Statutes, with regard to public records, and shall:

(1) keep and maintain public records required by the County to perform the services required under this Agreement;

(2) upon request from the County's Custodian of Public Records or his/her designee, provide the County with a copy of the requested records or allow the records to be inspected or copied within a reasonable time at a cost that does not exceed the cost provided in Chapter 119, Florida Statutes, or as otherwise provided by law;

(3) ensure that public records that are exempt or confidential and exempt from public records disclosure requirements are not disclosed except as authorized by law for the duration of the term of this Agreement and following completion of this Agreement if the Consultant does not transfer the records to the County; and

(4) upon completion of this Agreement, transfer, at no cost, to the County all public records in possession of the Consultant or keep and maintain public records required by the County to perform the service. If the Consultant transfers all public records to the County upon completion of this Agreement, the Consultant shall destroy any duplicate public records that are exempt or confidential and exempt from public records disclosure requirements. If the Consultant keeps and maintains public records upon completion of this Agreement, the Consultant shall meet all applicable

requirements for retaining public records. All records stored electronically must be provided to the County, upon request from the County's Custodian of Public Records, in a format that is compatible with the information technology systems of the County.

(c) **IF THE CONSULTANT HAS QUESTIONS REGARDING THE APPLICATION OF CHAPTER 119, FLORIDA STATUTES, TO THE CONSULTANT'S DUTY TO PROVIDE PUBLIC RECORDS RELATING TO THIS AGREEMENT, CONTACT THE COUNTY'S CUSTODIAN OF PUBLIC RECORDS AT:**

RECORDS MANAGEMENT LIAISON OFFICER

EMAIL: RMLO@POLK-COUNTY.NET

Scrutinized Companies and Business Operations Certification; Termination.

A. Certification(s)

(I) By its execution of this Agreement, the Vendor hereby certifies to the County that the Vendor is not on the Scrutinized Companies that Boycott Israel List, created pursuant to Section 215.4725, Florida Statutes, nor is the Vendor engaged in a boycott of Israel, nor was the Vendor on such List or engaged in such a boycott at the time it submitted its bid, proposal, quote, or other form of offer, as applicable, to the County with respect to this Agreement.

(II) Additionally, if the value of the goods or services acquired under this Agreement are greater than or equal to One Million Dollars ($1,000,000), then the Vendor further certifies to the County as follows:

(a) the Vendor is not on the Scrutinized Companies with Activities in Sudan List, created pursuant to Section 215.473, Florida Statutes; and
(b) the Vendor is not on the Scrutinized Companies with Activities in the Iran Petroleum Energy Sector List, created pursuant to Section 215.473, Florida Statutes; and
(c) the Vendor is not engaged in business operations (as that term is defined in Florida Statutes, Section 287.135) in Cuba or Syria; and
(d) the Vendor was not on any of the Lists referenced in this subsection A(ii), nor engaged in business operations in Cuba or Syria when it submitted its proposal to the County concerning the subject of this Agreement.

(iii) The Vendor hereby acknowledges that it is fully aware of the penalties that may be imposed upon the Vendor for submitting a false certification to the County regarding the foregoing matters.

B. Termination. In addition to any other termination rights stated herein, the County may immediately terminate this Agreement upon the occurrence of any of the following events:

(i) The Vendor is found to have submitted a false certification to the County with respect to any of the matters set forth in subsection A(i) above, or the Vendor is found to have been placed on the Scrutinized Companies that Boycott Israel List or is engaged in a boycott of Israel.

(ii) The Vendor is found to have submitted a false certification to the County with respect to any of the matters set forth in subsection A(ii) above, or the Vendor is found to have been placed on the Scrutinized Companies with Activities in Sudan List, or the Scrutinized Companies with Activities in the Iran Petroleum Energy Sector List, or has been engaged in business operations in Cuba or Syria, and the value of the goods or services acquired under this Agreement are greater than or equal to One Million Dollars ($1,000,000).

SUPPLEMENTAL CONDITIONS

Breach During Emergency Recovery Period. Pursuant to §252.505, Fla. Stat, in the event this Agreement concerns goods or services related to a natural emergency, Vendor agrees that if Vendor breaches this Agreement during the Emergency Recovery Period, then the County shall be entitled to (a) a payment of $5000, and (b) recovery of damages, which may take the form of actual and consequential damages or liquidated damages. The term "Emergency Recovery Period" means a one-year period that begins on the date the Governor of Florida initially declared a state of emergency for a natural emergency. This provision shall survive the termination of this Agreement.

FEDERAL CLAUSES

The County may seek funding reimbursement for all or a portion of the services provided under this Agreement from FEMA Public Assistance. In accordance with the federal procurement standards at 2 C.F.R. sections 200.317 through 200.327 the following clauses are incorporated in this bid, any resulting award with the prime Vendor, and any resulting contracts between the prime Vendor and sub-contractors and material suppliers. The following conditions are supplemental to the General Terms and Conditions. Where there is conflict, these Supplemental Conditions prevail unless the General Terms and Conditions are stricter.

Equal Employment Opportunity. (Only applicable to construction bids)

During the performance of this Contract, the Contractor agrees as follows:

(1) The Contractor will not discriminate against any employee or applicant for employment because of race, color, religion, sex, or national origin. The contractor will take affirmative action to ensure that applicants are employed, and that employees are treated during employment without regard to their race, color, religion, sex, or national origin. Such action shall include, but not be limited to the following: Employment, upgrading, demotion, or transfer; recruitment or recruitment advertising; layoff or termination; rates of pay or other forms of compensation; and selection for training, including apprenticeship. The contractor agrees to post in conspicuous places, available

to employees and applicants for employment, notices to be provided setting forth the provisions of this nondiscrimination clause.

(2) The Contractor will, in all solicitations or advertisements for employees placed by or on behalf of the contractor, state that all qualified applicants will receive considerations for employment without regard to race, color, religion, sex, or national origin.

(3) The Contractor will send to each labor union or representative of workers with which he has a collective bargaining agreement or other contract or understanding, a notice to be provided advising the said labor union or workers' representatives of the Contractor's commitments under this section and shall post copies of the notice in conspicuous places available to employees and applicants for employment.

(4) The contractor will comply with all provisions of Executive Order 11246 of September 24, 1965, and of the rules, regulations, and relevant orders of the Secretary of Labor.

(5) The Contractor will furnish all information and reports required by Executive Order 11246 of September 24, 1965, and by rules, regulations, and orders of the Secretary of Labor, or pursuant thereto, and will permit access to his books, records, and accounts by the administering agency and the Secretary of Labor for purposes of investigation to ascertain compliance with such rules, regulations, and orders.

(6) In the event of the Contractor's noncompliance with the nondiscrimination clauses of this contract/Purchase Order or with any of the said rules, regulations, or orders, this contract/Purchase Order may be canceled, terminated, or suspended in whole or in part and the contractor may be declared ineligible for further Government contracts or federally assisted construction contracts in accordance with procedures authorized in Executive Order 11246 of September 24, 1965, and such other sanctions as may be imposed and remedies invoked as provided in Executive Order 11246 of September 24, 1965, or by rule, regulation, or order of the Secretary of Labor, or as otherwise provided by law.

(7) The Contractor will include the portion of the sentence immediately preceding paragraph (1) and the provisions of paragraphs (1) through (7) in every subcontract or purchase order unless exempted by rules, regulations, or orders of the Secretary of Labor issued pursuant to section 204 of Executive Order 11246 of September 24, 1965, so that such provisions will be binding upon each subcontractor or vendor. The Contractor will take such action with respect to any subcontract or purchase order as the administering agency may direct as a means of enforcing such provisions, including sanctions for noncompliance: Provided, however, That in the event a Contractor becomes involved in, or is threatened with, litigation with a subcontractor or vendor as a result of such direction by the administering agency the contractor may request the United States to enter into such litigation to protect the interests of the United States.

Contract Work Hours and Safety Standards Act.

(1) Overtime requirements. Neither the Contractor, nor any subcontractor contracting for any part of the contract work which may require or involve the employment of laborers or mechanics shall require or permit any such laborer or mechanic in any workweek in which he or she is employed on such work to work in

excess of forty hours in such workweek unless such laborer or mechanic receives compensation at a rate not less than one and one-half times the basic rate of pay for all hours worked in excess of forty hours in such workweek.

(2) Violation; liability for unpaid wages; liquidated damages. In the event of any violation of the clause set forth in paragraph (1) of this section the Contractor and any subcontractor responsible therefor shall be liable for the unpaid wages. In addition, such contractor and subcontractor shall be liable to the United States (in the case of work done under contract for the District of Columbia or a territory, to such District or to such territory), for liquidated damages. Such liquidated damages shall be computed with respect to each individual laborer or mechanic, including watchmen and guards, employed in violation of the clause set forth in paragraph (1) of this section, in the sum of $10 for each calendar day on which such individual was required or permitted to work in excess of the standard workweek of forty hours without payment of the overtime wages required by the clause set forth in paragraph (1) of this section.

(3) Withholding for unpaid wages and liquidated damages. The (write in the name of the Federal agency or the loan or grant recipient) shall upon its own action or upon written request of an authorized representative of the Department of Labor withhold or cause to be withheld, from any moneys payable on account of work performed by the contractor or subcontractor under any such contract or any other Federal contract with the same prime contractor, or any other federally-assisted contract subject to the Contract Work Hours and Safety Standards Act, which is held by the same prime contractor, such sums as may be determined to be necessary to satisfy any liabilities of such contractor or subcontractor for unpaid wages and liquidated damages as provided in the clause set forth in paragraph (2) of this section.

(4) Subcontracts. The Contractor or subcontractor shall insert in any subcontracts the clauses set forth in paragraph (1) through (4) of this section and also a clause requiring the subcontractors to include these clauses in any lower tier subcontracts. The prime contractor shall be responsible for compliance by any subcontractor or lower tier subcontractor with the clauses set forth in paragraphs (1) through (4) of this section.

Clean Air Act and the Federal Water Pollution Control Act.

Clean Air Act

(1) The Contractor agrees to comply with all applicable standards, orders or regulations issued pursuant to the Clean Air Act, as amended, 42 U.S.C. § 7401 et seq.

(2) The Contractor agrees to report each violation to the County and understands and agrees that the County will, in turn, report each violation as required to assure notification to the State of Florida Department of Economic Opportunity, US Department of Housing and Urban Development, and the appropriate Environmental Protection Agency Regional Office.

(3) The Contractor agrees to include these requirements in each subcontract exceeding $150,000 financed in whole or in part with Federal assistance provided by US Department of Housing and Urban Development.

Federal Water Pollution Control Act

(1) The Contractor agrees to comply with all applicable standards, orders or regulations issued pursuant to the Federal Water Pollution Control Act, as amended, 33 U.S.C. 1251 et seq.

(2) The Contractor agrees to report each violation to the County and understands and agrees that the (County will, in turn, report each violation as required to assure notification to the Florida Department of Economic Opportunity, US Department of Housing and Urban Development, and the appropriate Environmental Protection Agency Regional Office.

(3) The Contractor agrees to include these requirements in each subcontract exceeding $150,000 financed in whole or in part with Federal assistance provided by US Department of Housing and Urban Development.

Debarment and Suspension. (Exhibit "A")

(1) This Contract/Purchase Order is a covered transaction for purposes of 2 C.F.R. pt. 180 and 2 C.F.R. pt. 3000. As such the contractor is required to verify that none of the Contractor, its principals (defined at 2 C.F.R. § 180.995), or its affiliates (defined at 2 C.F.R. § 180.905) are excluded (defined at 2 C.F.R. § 180.940) or disqualified (defined at 2 C.F.R. § 180.935).

(2) The Contractor must comply with 2 C.F.R. pt. 180, subpart C and 2 C.F.R. pt. 3000, subpart C and must include a requirement to comply with these regulations in any lower tier covered transaction it enters into.

(3) This certification is a material representation of fact relied upon by Polk County. If it is later determined that the Contractor did not comply with 2 C.F.R. pt. 180, subpart C and 2 C.F.R. pt. 3000, subpart C, in addition to remedies available to the Florida Division of Management and the County, the Federal Government may pursue available remedies, including but not limited to suspension and/or debarment.

(4) The bidder or proposer agrees to comply with the requirements of 2 C.F.R. pt. 180, subpart C and 2 C.F.R. pt. 3000, subpart C while this offer is valid and throughout the period of any contract or purchase order that may arise from this offer. The bidder or proposer further agrees to include a provision requiring such compliance in its lower tier covered transactions.

Byrd Anti-Lobbying Amendment, 31 U.S.C. § 1352 (as amended)

Contractors who apply or bid for an award of $100,000 or more shall file the required certification (attached hereto as Exhibit "B"). Each tier certifies to the tier above that it will not and has not used Federal appropriated funds to pay any person or organization for influencing or attempting to influence an officer or employee of any agency, a member of Congress, officer or employee of Congress, or an employee of a member of Congress in connection with obtaining any Federal contract, grant, or any other award covered by 31 U.S.C. § 1352. Each tier shall also disclose any lobbying with non-Federal funds that takes place in connection with obtaining any Federal award. Such disclosures are forwarded from tier to tier up to the recipient.

Procurement of Recovered Materials.

(1) In the performance of this Contract/Purchase Order, the Contractor shall to the greatest extent practicable and consistent with law, purchase, acquire, or use products and services that can be reused, refurbished, or recycled; contain recycled content, are biobased, or are energy and water efficient; and are sustainable. Additionally, Consultants shall make maximum use of products containing recovered materials that are EPA- designated items unless the product cannot be acquired—

(i) Competitively within a timeframe providing for compliance with the contract performance schedule;

(ii) Meeting contract performance requirements; or

(iii) At a reasonable price.

(2) Information about this requirement, along with the list of EPA-designate items, is available at EPA's Comprehensive Procurement Guidelines web site, https://www.epa.gov/smm/comprehensive-procurement-guideline-cpg-program."

Domestic Preference

In accordance with 2 CFR §200.322, to the greatest extent practicable and consistent with law under a Federal award, the County must provide a preference for the purchase acquisition, or use of goods, products, or materials produced in the United States (including but not limited to iron, aluminum, steel, cement, and other manufactured products). The requirements of this section must be included in all subawards including all contracts and purchase orders for work or products under this award. For purposes of this section:

(1) "Produced in the United States" means, for iron and steel products, that all manufacturing processes, from the initial melting stage through the application of coatings, occurred in the United States.

(2) "Manufactured products" means items and construction materials composed in whole or in part of non-ferrous metals such as aluminum; plastics and polymer based products such as polyvinyl chloride pipe; aggregates such as concrete; glass, including optical fiber; and lumber.

Affirmative Action.

In accordance with 2 CFR §200.321, the County is committed to taking all necessary steps to assure that minority businesses, women's business enterprises, veteran-owned businesses and labor surplus area firms are used when possible. The Contractor shall also take such affirmative steps in the selection of its subcontractors, laborers and materialmen. Affirmative steps include:

(1) Placing qualified small and minority businesses, women's business enterprises, and veteran-owned businesses on solicitation lists;

(2) Assuring that small and minority businesses, women's business enterprises, and veteran-owned businesses are solicited whenever they are potential sources;

(3) Dividing total requirements, when economically feasible, into smaller tasks or quantities to permit maximum participation by small and minority businesses,

women's business enterprises, and veteran-owned businesses;

(4) Establishing delivery schedules, where the requirement permits, which encourage participation by small and minority businesses, women's business enterprises, and veteran-owned businesses; and

(5) Using the services and assistance, as appropriate, of such organizations as the Small Business Administration and the Minority Business Development Agency of the Department of Commerce.

Access to Records. The following access to records requirements apply to this Purchase Order:

(1) The Contractor agrees to provide the Florida Department of Economic Opportunity, Polk County, the US Department of Housing and Urban Development Administrator, the Comptroller General of the United States, or any of their authorized representative's access to any books, documents, papers, and records of the Contractor which are directly pertinent to this Purchase Order for the purposes of making audits, examinations, excerpts, and transcriptions.

(2) The Contractor agrees to permit any of the foregoing parties to reproduce by any means whatsoever or to copy excerpts and transcriptions as reasonably needed.

(3) The Contractor agrees to provide the US Department of Housing and Urban Development Administrator or his authorized representative's access to construction or other work sites pertaining to the work being completed under the Purchase Order."

DHS Seal, Logo, and Flags. The Contractor shall not use the DHS seal(s), logos, crests, or reproductions of flags or likenesses of DHS agency officials without specific FEMA pre- approval.

Compliance with Federal Law, Regulations, and Executive Orders. This is an acknowledgement that US Department of Housing and Urban Development financial assistance will be used to fund the Purchase Order only. The Contractor will comply will all applicable federal law, regulations, executive orders, US Department of Housing and Urban Development policies, procedures, and directives.

No Obligation by Federal Government. The Federal Government is not a party to this Purchase Order and is not subject to any obligations or liabilities to the non-Federal entity, contractor, or any other party pertaining to any matter resulting from this Purchase Order.

Program Fraud and False or Fraudulent Statements or Related Acts.

The Contractor acknowledges that 31 U.S.C. Chap. 38 (Administrative Remedies for False Claims and Statements) applies to the Contractor's actions pertaining to this Purchase Order.

Default and Remedy

Process. If the Contractor materially defaults in the timely performance of any Contract obligation, or if the Contractor is otherwise in material default of the Contract, including, without limitation, the Contractor's failure to timely deliver any portion, or the entirety, of the Project Work in accordance with the Contract documents, then the County shall have the right to (i) with or without terminating the Contract, immediately call in any bonds or other form of security, and engage other Contractors or providers at the

Contractor's sole cost and expense to provide those unperformed or deficient Contract obligations of the Contractor; (ii) set-off the monetary amount of any and all damages arising therefrom, whether direct or indirect, actual or liquidated, from the amounts due Contractor pursuant to the Contract documents, (iii) immediately terminate the Contract by delivering written notice to the Contractor, and (iv) pursue any and all remedies available in law, equity, and under the Contract, including, without limitation, the recovery of any increased cost to the County to complete the Project Work due to the loss of CDBG-MIT funding caused, directly or indirectly, by the Contractor's delay. Upon any such termination pursuant to this Section, the County shall pay the Contractor the full amount due and owing for all services properly performed through the date of the Contract termination, less any amount subject to the County's right of set-off, and all liability of the County to the Contractor shall cease.

Certain Material Defaults.

Among other matters, including without limitation, the Contractor's failure to timely deliver any portion, or the entirety, of the Project Work in accordance with the Contract documents, as described immediately above, any of the following shall constitute the Contractor's material default of the Contract: the appointment of a receiver to take possession of all or substantially all of the Contractor's assets, a general assignment by the Contractor for the benefit of creditors, or any action taken by or suffered by Contractor under any insolvency or bankruptcy act; or the Contractor is convicted of a public entity crime, is determined to have violated federal or state law prohibiting discrimination as stated in Section 287.134, Florida Statutes, or is prohibited from performing work for or transacting business with the County pursuant to Section 287.133 or to Section 287.134, Florida Statutes; or an assignment of the Contract made without the express written consent of the County; or the submission of a false certification to the County or engagement in prohibited business operations, both as described in the Contract Documents.

Prohibition on Certain Telecommunications and Video Surveillance Services or Equipment

In accordance with 2 CFR §200.216 and Appendix II to Part 200, subsection (K), no funding or services provided pursuant to or in connection with this Contract, shall in any way be used to:

(1) Procure or obtain;

(2) Extend or renew a contract to procure or obtain; or

(3) Enter into a contract (or extend or renew a contract) to procure or obtain equipment, services, or systems that uses covered telecommunications equipment or services as a substantial or essential component of any system, or as critical technology as part of any system. As described in Public Law 115–232, section 889, covered telecommunications equipment is telecommunications equipment produced by Huawei Technologies Company or ZTE Corporation (or any subsidiary or affiliate of such entities).

(i) For the purpose of public safety, security of government facilities, physical security surveillance of critical infrastructure, and other national security purposes, video surveillance and telecommunications equipment produced by Hytera Communications Corporation, Hangzhou Hikvision Digital Technology Company, or Dahua Technology Company (or any subsidiary or affiliate of such entities).

(ii) Telecommunications or video surveillance services provided by such entities or using such equipment.

(iii) Telecommunications or video surveillance equipment or services produced or provided by an entity that the Secretary of Defense, in consultation with the Director of the National Intelligence or the Director of the Federal Bureau of Investigation, reasonably believes to be an entity owned or controlled by, or otherwise connected to, the government of a covered foreign country.

The Successful vendor must complete and submit this form prior to award. The Successful vendor must invoice using the company name listed above.

Drug-Free Workplace Form

(Submittal Page)

The undersigned vendor in accordance with Florida Statue 287.087 hereby certifies that, (Name of the Business): _____ does:

1. Publish a statement notifying employees that the unlawful manufacture, distribution, dispensing, possession or use of a controlled substance is prohibited in the workplace and specifying the actions that will be taken against employees for violations of such prohibition.
2. Inform employees about the dangers of drug abuse in the workplace, the business's policy of maintaining a drug-free workplace, any available drug counseling, rehabilitation programs, employee assistance programs and the penalties that may be imposed upon employees for drug abuse violations.
3. Give each employee engaged in providing the commodities or contractual services that are under this RFP a copy of the statement specified in subsection (1).
4. In the statement specified in subsection (1), notify the employees that, as a condition of working on the commodities or contractual services that are under this RFP, the employee will abide by the terms of the statement and will notify the employer of any conviction of, plea of guilty or nolo contendere to, any violation of Chapter 1893 or of any controlled substance law of the United States or any state, for a violation occurring in the workplace no later than five (5) days after such conviction.
5. Impose a sanction on or require the satisfactory participation in a drug abuse assistance or rehabilitation program, if such is available in the employee's community, by any employee who is so convicted.
6. Make a good faith effort to continue to maintain a drug-free workplace through implementation of this section.

As the person authorized to sign the statement, I certify that this firm complies fully with the above requirements.

EXHIBIT 1
DETAILED INSTRUCTIONS ON HOW TO PREPARE AND SEND PERFORMANCE SURVEYS

The objective of this process is to identify the past performance of the Consultant submitting a proposal package. This is accomplished by sending survey forms to past customers. The customers should return the forms directly to the Consultant. The Consultant is to include all surveys in their proposal package.

Sending the Survey

The surveys shall be sent to all clients for whom the Consultant has identified under Tab 2. Surveys should correlate to all projects identified under Tab 2.

If more surveys are included, Procurement will only use those identified under Tab 2.

1. The Consultant shall complete the following information for each customer that a survey will be sent

CLIENT NAME	Name of the company that the work was performed for (i.e. Hillsborough County).
FIRST NAME	First name of the person who will answer customer satisfaction questions.
LAST NAME	Last name of the person who will answer customer satisfaction questions.
PHONE NUMBER	Current phone number for the reference (including area code).
EMAIL ADDRESS	Current email address for the reference.
PROJECT NAME	Name of the project (Monitoring Services for Hillsborough County Hurricane Milton), Etc.
COST OF SERVICES	Cost of services ($1,000,000)
DATE COMPLETE	Date when the services were completed. (i.e. 5/31/2023)

2. The Consultant is responsible for verifying that their information is accurate prior to submission for references.

3. The survey must contain different services/projects. You cannot have multiple people evaluating the same job. However, one person may evaluate several different jobs.

4. The past projects can be either completed or on-going.

5. The past client/owner must evaluate and complete the survey.

Preparing the Surveys

1. The Consultant is responsible for sending out a performance survey to the clients that have been identified under Tab 2. The survey can be found on the next page.
2. The Consultant should enter the past clients' contact information, and project information on each survey form for each reference. The Consultant should also enter their name as the Consultant being surveyed.
3. The Consultant is responsible for ensuring all references/surveys are included in their submittal under Tab 5
4. Polk County Procurement may contact the reference for additional information or to clarify survey data. If the reference cannot be contacted, there will be no credit given for that reference.

Survey Questionnaire – Polk County

RFP 26-012, Disaster Debris Monitoring Services

To: _____ (Name of Person completing survey)

_____ (Name of Client Company/Consultant)

Phone Number: _____ Email: _____

Subject: Past Performance Survey of Similar work:

Project name: _____

Name of Vendor being surveyed: _____

Cost of Services: Original Cost: _____ Ending Cost: _____

Contract Start Date: _____ Contract End Date: _____

Rate each of the criteria on a scale of 1 to 10, with 10 representing that you were very satisfied (and would hire the Consultant /individual again) and 1 representing that you were very unsatisfied (and would never hire the Consultant /individual again). Please rate each of the criteria to the best of your knowledge. If you do not have sufficient knowledge of past performance in a particular area, leave it blank.

NO	CRITERIA	UNIT	SCORE
1	Ability to manage cost	(1-10)	
2	Ability to maintain project schedule (complete on-time/early)	(1-10)	
3	Quality of workmanship	(1-10)	
4	Professionalism and ability to manage	(1-10)	
5	Ability to communicate with Debris Removal Contractor	(1-10)	
6	Ability to communicate with Client's staff	(1-10)

EMPLOYMENT ELIGIBILITY VERIFICATION (E-VERIFY) CERTIFICATION
(Florida Statutes, Section 448.095)

PROJECT NAME: _____

The undersigned, as an authorized officer of the contractor identified below (the "**Contractor**"), having full knowledge of the statements contained herein, hereby certifies to Polk County, a political subdivision of the State of Florida (the "**County**"), by and on behalf of the Contractor in accordance with the requirements of Section 448.095, Florida Statutes, as related to the contract entered into by and between the Contractor and the County on or about the date hereof, whereby the Contractor will provide labor, supplies, or services to the County in exchange for salary, wages, or other remuneration (the "**Contract**"), as follows:

1. Unless otherwise defined herein, terms used in this Certification which are defined in Section 448.095, Florida Statutes, as may be amended from time to time, shall have the meaning ascribed in said statute.

2. Pursuant to Section 448.095(5), Florida Statutes, the Contractor, and any subcontractor under the Contract, must register with and use the E-Verify system to verify the work authorization status of all new employees of the Contractor or subcontractor. The Contractor acknowledges and agrees that (i) the County and the Contractor may not enter into the Contract, and the Contractor may not enter into any subcontracts thereunder, unless each party to the Contract, and each party to any subcontracts thereunder, registers with and uses the E-Verify system; and (ii) use of the U.S. Department of Homeland Security's E-Verify System and compliance with all other terms of this Certification and Section 448.095, Fla. Stat., is an express condition of the Contract, and the County may treat a failure to comply as a material breach of the Contract.

3. By entering into the Contract, the Contractor becomes obligated to comply with the provisions of Section 448.095, Fla. Stat., "Employment Eligibility," as amended from time to time. This includes but is not limited to utilization of the E-Verify System to verify the work authorization status of all newly hired employees, and requiring all subcontractors to provide an affidavit attesting that the subcontractor does not employ, contract with, or subcontract with, an unauthorized alien. The Contractor shall maintain a copy of such affidavit for the duration of the Contract. Failure to comply will lead to termination of the Contract, or if a subcontractor knowingly violates the statute or Section 448.09(1), Fla. Stat., the subcontract must be terminated immediately. If the Contract is terminated pursuant to Section 448.095, Fla. Stat., such termination is not a breach of contract and may not be considered as such. Any challenge to termination under this provision must be filed in the Tenth Judicial Circuit Court of Florida no later than 20 calendar days after the date of termination. If the Contract is terminated for a violation of Section 448.095, Fla. Stat., by the Contractor, the Contractor may not be awarded a public contract for a period of 1 year after the date of termination. The Contractor shall be liable for any additional costs incurred by the County as a result of the termination of the Contract. Nothing in this Certification shall be construed to allow intentional discrimination of any class protected by law.

EXHIBIT "A"

CERTIFICATIONS REGARDING DEBARMENT, SUSPENSION, PROPOSED DEBARMENT, AND OTHER RESPONSIBILITY MATTERS

For all awards, subawards, and contracts with certain parties that are debarred, suspended, or otherwise excluded from or ineligible for participation in Federal assistance programs and activities, the Offeror must complete and sign the following:

The Offeror certifies, to the best of its knowledge and belief, that-

(1) This contract is a covered transaction for purposes of 2 C.F.R. pt. 180 and 2 C.F.R. pt. 3000. As such the contractor is required to verify that none of the contractor, its principals (defined at 2 C.F.R. § 180.995), or its affiliates (defined at 2 C.F.R. § 180.905) are excluded (defined at 2 C.F.R. § 180.940) or disqualified (defined at 2 C.F.R. § 180.935).

(2) The contractor must comply with 2 C.F.R. pt. 180, subpart C and 2 C.F.R. pt. 3000, subpart C and must include a requirement to comply with these regulations in any lower tier covered transaction it enters into.

(3) This certification is a material representation of fact relied upon by Polk County, a political subdivision of the State of Florida (the "County"). If it is later determined that the contractor did not comply with 2 C.F.R. pt. 180, subpart C and 2 C.F.R. pt. 3000, subpart C, in addition to remedies available to the Florida Division Emergency Management, the County, and the Federal Government may pursue available remedies, including but not limited to suspension and/or debarment.

(4) The bidder or proposer agrees to comply with the requirements of 2 C.F.R. pt. 180, subpart C and 2 C.F.R. pt. 3000, subpart C while this offer is valid and throughout the period of any contract that may arise from this offer. The bidder or proposer further agrees to include a provision requiring such compliance in its lower tier covered transactions.

EXHIBIT "B"

APPENDIX A, 44 C.F.R. PART 18 – CERTIFICATION REGARDING LOBBYING

Certification for Contracts, Grants, Loans, and Cooperative Agreements

(To be submitted with each bid or offer exceeding $100,000)

The undersigned _____ (Contractor) certifies, to the best of his or her knowledge, that:

1. No Federal appropriated funds have been paid or will be paid, by or on behalf of the undersigned, to any person for influencing or attempting to influence an officer or employee of an agency, a Member of Congress, an officer or employee of Congress, or an employee of a Member of Congress in connection with the awarding of any Federal contract, the making of any Federal grant, the making of any Federal loan, the entering into of any cooperative agreement, and the extension, continuation, renewal, amendment, or modification of any Federal contract, grant, loan, or cooperative agreement.

2. If any funds other than Federal appropriated funds have been paid or will be paid to any person for influencing or attempting to influence an officer or employee of any agency, a Member of Congress, an officer or employee of Congress, or an employee of a Member of Congress in connection with this Federal contract, grant, loan, or cooperative agreement, the undersigned shall complete and submit Standard Form- LLL, "Disclosure Form to Report Lobbying," in accordance with its instructions.

3. The undersigned shall require that the language of this certification be included in the award documents for all subawards at all tiers (including subcontracts, subgrants, and contracts under grants, loans, and cooperative agreements) and that all subrecipients shall certify and disclose accordingly.

This certification is a material representation of fact upon which reliance was placed when this transaction was made or entered into. Submission of this certification is a prerequisite for making or entering into this transaction imposed by 31, U.S.C. § 1352 (as amended by the Lobbying Disclosure Act of 1995). Any person who fails to file the required certification shall be subject to a civil penalty of not less than $10,000 and not more than $100,000 for each such failure.

The Contractor, _____ , certifies or affirms the truthfulness and accuracy of each statement of its certification and disclosure, if any. In addition, the Contractor understands and agrees that the provisions of 31 U.S.C. § 3801 *et seq.*, apply to this certification and disclosure, if any.

Draft Agreement
Disaster Debris Monitoring Services

THIS AGREEMENT (the "Agreement") is entered into as of the Effective Date (defined in Section 1, below) by and between Polk County (the "County"), a political subdivision of the State of Florida, situated at 330 W. Church Street, Bartow, Florida, 33830, and _____ (the "Consultant"), a _____ corporation, at _____, and whose Federal Employer Identification Number is _____.

WHEREAS, the Consultant has considerable expertise in debris removal monitoring services; and

WHEREAS, the County desires to employ the Consultant to provide disaster debris removal monitoring services; and

WHEREAS, the County has solicited for these consultant services via an advertised request for proposal ("RFP 26-012") and has received numerous responsive proposals thereto; and

WHEREAS, after review and consideration of all responsive proposals, the County intends to engage the Consultant to provide it the disaster debris monitoring services; and

WHEREAS, the Consultant is able and agreeable to providing the County the services and represents that it is competent, qualified, capable and prepared to do so according to the terms and conditions stated herein;

NOW, THEREFORE, in consideration of the mutual understandings and covenants set forth herein, the County and the Consultant hereby agree, as follows:

1.0 **Effective Date; Term**

1.1 This Agreement shall take effect on the date (the "Effective Date") of its execution by the County.

1.2 The term of this Agreement shall be for a five (5) year time period, commencing upon the Effective Date and remaining in full force and effect thereafter, unless otherwise sooner terminated as provided herein.

2.0 **Consultant Services**

2.1 The County does hereby retain the Consultant to furnish those services and to perform those tasks (collectively, the "Services") as further described in (i) the County's Request for Proposals RFP #26-012, to include all attachments and addenda, and (ii) the Consultant's responsive proposal thereto (collectively, (i) and (ii) are "RFP 26-012"), all of which are

incorporated into this Agreement by this reference, attached hereto as a composite Exhibit "A" and made a part of this Agreement.

2.2 Consultant shall perform the services described in the Scope of Services section of RFP 26-012, as those Services may be further specifically designated and authorized by the County in a separate written Notice to Proceed the County will deliver to the Consultant prior to the Consultant's commencement of the Services required in association with the County's clean-up and recovery from a particular disaster or emergency event. The form for the Notice-to-Proceed shall be substantially in the form provided on Exhibit "E" which is attached hereto and made a part of this Agreement.

2.3 The County will contact and coordinate with the Consultant prior to issuing a Notice to Proceed for a disaster or emergency event. The Consultant will provide the name(s) of the supervisor(s)\liaison officer who will be primarily responsible for the Consultant providing the required Services. Additionally, before the Notice-To-Proceed is issued the Consultant will deliver to the County a performance bond in the form provided on Exhibit "D" which is attached hereto and made a part hereof in an amount to be reasonably determined by the County but which will not be less than $500,000.00. The actual bond amount will be determined based upon the estimated costs of the Services required as a consequence of the particular disaster or emergency event.

2.4 The Consultant acknowledges that the County has engaged a secondary vendor and may engage a tertiary vendor to provide the Services described in RFP 20-299 should the County determine in its sole and absolute discretion that the Consultant may, is or will be unable to perform the full scope of work of a particular project within the time period the County requires all such work to be completed.

3.0 **Compensation**

3.1 General

3.1.1 In consideration for its providing the Services, during the Agreement Term the County shall pay the Consultant a fee that shall not exceed the amounts stated in Exhibit "B", which is attached hereto and made a part of this Agreement (the "Compensation Schedule"). The Compensation Schedule identifies all billable services pursuant to this Agreement and the associated amount the County will pay the Consultant for Services performed. The County is not obligated to pay the Consultant a fee for any work performed or Services provided not listed

on the Compensation Schedule. The rates shown on the Compensation Schedule may be increased annually by written authorization of the Procurement Director following the one year anniversary of the Effective Date, when it is in the best interest of the County. Rate increases will be determined by the appropriate price index as approved by the Procurement Director. No action by the Board of County Commissioners will be necessary for such rate increases

3.1.2 At its option the County may choose to engage the Consultant to perform additional, related consulting services beyond the scope of the Services for which the County shall pay the Consultant in accordance with the rates set forth in the Compensation Schedule.

3.1.3 All the Consultant's invoices for payment must reference the Agreement and must be submitted using a form approved by the County Auditor.

3.1.4 The Consultant shall attach all appropriate cost substantiations to the invoice and shall deliver the invoices to:

Roads and Drainage Division
3000 Sheffield Road
Winter Have, FL 33880

3.1.5 The Consultant will clearly state "Final Invoice" on the Consultant's final/last billing for the Services rendered to the County. The Consultant's submission of a Final Invoice is its certification that all Services have been properly performed and all charges and costs have been invoiced to the County. This account will be closed upon the County's receipt of a Final Invoice. The Consultant hereby waives any charges not properly included on its Final Invoice.

3.1.6 The County's payment of the Final Invoice shall not constitute evidence of the County's acceptance of the Consultant's performance of the Service or the County's acceptance of any work.

3.1.7 By its submission of an invoice, the Consultant's project manager or designated payroll officer shall be deemed to be attesting to the correctness and accuracy of all charges and requested reimbursements stated in such invoice.

3.1.8 The Consultant's requests for payment of "out-of-pocket" expenses eligible for reimbursement under the terms of this Agreement shall be reimbursed per the County's Reimbursable Schedule that is attached as Exhibit "C" and made a part of this Agreement. The Consultant's requests for payment shall include copies of paid receipts, invoices or other

documentation acceptable to the County's Auditor. To qualify for reimbursement, the Consultant's documentation shall be sufficient to establish that the expense was actually incurred and necessary in the performance of the Services performed in accordance with this Agreement

4.0 **Consultant's Responsibilities**

4.1 The Consultant shall be responsible for the professional quality, accuracy, competence, methodology, and the coordination of all Services performed pursuant to this Agreement.

4.2 The County's review, approval, acceptance, or payment for any of the Consultant's Services shall not be construed to: (i) operate as a waiver of any rights the County possesses under this Agreement; or (ii) waive or release any claim or cause of action arising out of the Consultant's performance or nonperformance of this Agreement. The Consultant shall be and will always remain liable to the County in accordance with applicable law for any and all damages to the County caused by the Consultant's negligent or wrongful performance or nonperformance of any of the Services to be furnished under this Agreement.

5.0 **Ownership of Documents**

All analyses, reference data, bills, completed reports, or any other form of written instrument or document created or resulting from the Consultant's performance of the Services pursuant to this Agreement shall become the property of the County after payment is made to the Consultant for such instruments or documents.

6.0 **Termination**

6.1 The County may terminate this Agreement, in whole or in part, at any time, either for the County's convenience or because of the failure of the Consultant to fulfill its obligations under this Agreement, subject to the cure period provided in Section 26.0, by delivering written notice to the Consultant. Upon receipt of such notice, the Consultant shall:

6.1.1 Immediately discontinue all affected Services unless the notice directs otherwise, and

6.1.2 Deliver to the County all data, reports, summaries, and any and all such other information and materials of whatever type or nature as may have been accumulated by the Consultant in performing this Agreement, whether completed or in process.

6.2 Unless in dispute or subject to the County's right of set-off or other remedy, the Consultant shall be paid for Services actually rendered to the date of termination.

6.3 The rights and remedies of the County provided for in this Section 6 are in addition and supplemental to any and all other rights and remedies provided by law or under this Agreement.

7.0 **No Contingent Fees**

The Consultant warrants that it has not employed or retained any company or person, other than a bona fide employee working solely for the Consultant to solicit or secure this Agreement and that it has not paid or agreed to pay any person, company, corporation, individual or firm, other than a bona fide employee working solely for the Consultant, any fee, commission, percentage, gift, or other consideration contingent upon or resulting from award of or making of the Agreement. For the breach or violation of this provision, the County shall have the right to terminate the Agreement at its sole discretion, without liability and to deduct from the Agreement price, or otherwise recover, the full amount of such fee, commission, percentage, gift, or consideration.

8.0 **Assignment**

The Consultant shall not assign, transfer, or encumber this Agreement, or any interest herein, under any circumstances, without obtaining the prior written consent of the County, which consent may be withheld in the County's exercise of its reasonable discretion.

9.0 **Professional Associates and Subcontractors**

If the Consultant requires the assistance of any professional associates or subcontractors in connection with its providing the Services the Consultant must obtain the prior express written approval of the County, which the County may withhold in its discretion, before any such professional associate or subcontractor may perform any work for the County. If after obtaining the County's approval the Consultant utilizes any professional associates or subcontractors in the delivery of the Services then the Consultant shall remain solely and fully liable to the County for the performance or nonperformance of all such professional associates and subcontractors. The failure of a professional associate or subcontractor to timely or properly perform any of its obligations to the Consultant shall not relieve the Consultant of its obligations to the County under this Agreement.

10.0 **Indemnification of County**

Consultant, to the maximum extent permitted by law, shall indemnify, defend (by counsel reasonably acceptable to County) protect and hold the County, and its officers, employees and

agents harmless from and against any and all, claims, actions, causes of action, liabilities, penalties, forfeitures, damages, losses, and expenses (including, without limitation, attorneys' fees costs and expenses incurred during negotiation, through litigation and all appeals therefrom) whatsoever including, but not limited, to those pertaining to the death of or injury to any person, or damage to any property, arising out of or resulting from (i) the failure of Consultant to comply with applicable laws, rules or regulations, (ii) the breach by Consultant of its obligations under this Agreement, (iii) any claim for trademark, patent or copyright infringement arising out of the scope of Consultant's performance or nonperformance of this Agreement, or (iv) the negligent acts, errors or omissions, or intentional or willful misconduct, of Consultant, its professional associates, subcontractors, agents, and employees provided, however, that Consultant shall not be obligated to defend or indemnify the County with respect to any such claims or damages arising out of the County's sole negligence.

11.0 **Insurance Requirements**

The Consultant shall maintain at all times the following minimum levels of insurance and shall, without in any way altering its liability, obtain, pay for and maintain insurance for the coverage and amounts of coverage not less than those set forth below. The Consultant shall provide the County original Certificates of Insurance satisfactory to the County to evidence such coverage before any work commences. The County shall be named as an additional insured on General and Automobile Liability policies. General Liability and Workers' Compensation policies shall contain a waiver of subrogation in favor of Polk County. The commercial General Liability Policy shall (by endorsement if necessary) provide contractual liability coverage for the contractual indemnity stated in Section 10, above. All insurance coverage shall be written with a company having an A.M. Best rating of at least the "A" category and size category of VIII. The Consultant's self-insured retention or deductible per line of coverage shall not exceed $25,000 without the permission of the County. In the event of any failure by the Consultant to comply with the provisions of this Section 11, the County may, at its option, upon notice to the Consultant suspend Consultant's performance of the Services for cause until there is full compliance. Alternatively, the County may purchase such insurance at the Consultant's expense, provided that the County shall have no obligation to do so and if the County shall do so, the Consultant shall not be relieved of or excused from the obligation to obtain and maintain such insurance amounts and coverage.

Comprehensive Automobile Liability Insurance. $1,000,000.00 combined single limit of liability for bodily injuries, death and property damage resulting from any one occurrence, including all owned, hired, and non-owned vehicles.

Commercial General Liability. $1,000,000.00 combined single limit of liability for bodily injuries, death and property damage, and personal injury resulting from any one occurrence, including the following coverages:

Premises and Operations:

> Broad Form Commercial General Liability Endorsement to include Blanket Contractual liability (specifically covering, but not limited to, the contractual obligations assumed by the Firm); Personal Injury (with employment and contractual exclusions deleted); and Broad Form Property Damage coverage.

Independent Contractors:

> Delete Exclusion relative to collapse, explosion and underground; Property Damage Hazards; Cross Liability Endorsement; and Contractual liability (specifically covering, but not limited to, the contractual obligations assumed by the Firm)

Workers Compensation. The Consultant shall provide, pay for, and maintain workers compensation insurance on all employees, its agents or subcontractors as required by Florida Statutes.

Pollution Liability Insurance: $1,000,000 including pollution due to automobile operations.

Employer's Liability. $1,000,000.

12.0 **Public Entity Crimes**

The Contractor declares and warrants that neither the Contractor nor any of the Contractor's affiliates, as that term is defined in Section 287.133, Florida Statutes, are subject to the restrictions in Section 287.133, Florida Statutes, regarding the commission of a public entity crime. If during the term of this Agreement, the Contractor or any affiliate is convicted of a public entity crime or is otherwise prohibited from performing work for or transacting business with the County pursuant to Section 287.133, Florida Statutes, then the Contractor shall be in material

default of this Agreement, and in such case, the County shall have the rights and remedies as provided herein.

13.0 **Non-Discrimination**

The Consultant warrants and represents that all of its employees are treated equally during employment without regard to race, color, religion, gender, age or national origin.

14.0 **Designation of Party Representatives**

14.1 Upon receipt of a request from the Consultant, the County shall designate in writing one or more of its employees who are authorized to act by and on behalf of the County to transmit instructions, receive information and interpret and define the County's policy and decisions with respect to the Services to be provided pursuant to this Agreement.

14.2 The Consultant shall designate or appoint one or more Consultant representatives who are authorized to act on behalf of and to bind the Consultant regarding all matters involving the conduct of its performance pursuant to this Agreement.

15.0 **All Prior Agreements Superseded**

This document incorporates and includes all prior negotiations, correspondence, conversations, agreements or understandings applicable to the matters contained herein and the parties agree that there are no commitments, agreements or understandings concerning the subject matter of this Agreement that are not contained in this document or its designated exhibits. Accordingly, it is agreed that no deviation from the terms hereof shall be predicated upon any prior representations or agreements, whether oral or written.

16.0 **Modifications, Amendments or Alterations**

No modification, amendment or alteration in the terms or conditions contained herein shall be effective unless agreed to and executed in writing by both parties to this Agreement in a form acceptable to the County.

17.0 **Independent Contractor**

Nothing stated in this Agreement is intended or should be construed in any manner as creating or establishing a relationship of co-partners between the parties, or as constituting the Consultant (including its officers, employees, and agents) as the agent, representative, or employee of the County for any purpose, or in any manner, whatsoever. The Consultant is to be and shall remain forever an independent contractor with respect to all Services performed under this Agreement. The Consultant shall not pledge the County's credit or make the County a guarantor

of payment or surety for any contract, debt, obligation, judgment, lien or any form of indebtedness and the Consultant shall have no right to speak for or bind the County in any manner.

18.0 **Public Records Law**

(a) The Contractor acknowledges the County's obligations under Article I, Section 24, of the Florida Constitution and under Chapter 119, Florida Statutes, to release public records to members of the public upon request and comply in the handling of the materials created under this Agreement. The Contractor further acknowledges that the constitutional and statutory provisions control over the terms of this Agreement. In association with its performance pursuant to this Agreement, the Contractor shall not release or otherwise disclose the content of any documents or information that is specifically exempt from disclosure pursuant to all applicable laws.

(b) Without in any manner limiting the generality of the foregoing, to the extent applicable, the Contractor acknowledges its obligations to comply with Section 119.0701, Florida Statutes, with regard to public records, and shall:

(1) keep and maintain public records required by the County to perform the services required under this Agreement;

(2) upon request from the County's Custodian of Public Records or his/her designee, provide the County with a copy of the requested records or allow the records to be inspected or copied within a reasonable time at a cost that does not exceed the cost provided in Chapter 119, Florida Statutes, or as otherwise provided by law;

(3) ensure that public records that are exempt or confidential and exempt from public records disclosure requirements are not disclosed except as authorized by law for the duration of the term of this Agreement and following completion of this Agreement if the Contractor does not transfer the records to the County; and

(4) upon completion of this Agreement, transfer, at no cost, to the County all public records in possession of the Contractor or keep and maintain public records required by the County to perform the service. If the Contractor transfers all public records to the County upon completion of this Agreement, the Contractor shall destroy any duplicate public records that are exempt or confidential and exempt from public records disclosure requirements. If the Contractor keeps and maintains public records upon completion of this Agreement, the Contractor shall meet all applicable requirements for retaining public records. All records stored electronically must be provided to the County, upon request from the County's Custodian of Public Records, in a format that is compatible with the information technology systems of the County.

(c) **IF THE CONTRACTOR HAS QUESTIONS REGARDING THE APPLICATION OF CHAPTER 119, FLORIDA STATUTES, TO THE CONTRACTOR'S DUTY TO PROVIDE PUBLIC RECORDS RELATING TO THIS AGREEMENT, CONTACT THE COUNTY'S CUSTODIAN OF PUBLIC RECORDS AT:**

RECORDS MANAGEMENT LIAISON OFFICER
POLK COUNTY
330 WEST CHURCH ST.
BARTOW, FL 33830
TELEPHONE: (863) 534-7670
EMAIL: RMLO@POLK-COUNTY.NET

19.0 **Compliance with Laws and Regulations**

In providing all Services pursuant to this Agreement, the Consultant shall abide by all statutes, ordinances, rules, and regulations pertaining to or regulating the provisions of such Services, including those now in effect and hereafter adopted. Any violation of said statutes, ordinances, rules, or regulations shall constitute a material breach of this Agreement, and shall entitle the County to terminate this Agreement immediately upon delivery of written notice of termination to the Consultant.

20.0 **Governing Law and Venue**

This Agreement shall be governed in all respects by the laws of the State of Florida and any litigation with respect thereto shall be brought only in the courts of Polk County, Florida or in the United States District Court, Middle District of Florida, located in Hillsborough County, Florida. Each party shall be responsible for its own attorneys' fees and other legal costs and expenses.

21.0 **Notices**

Whenever either party desires to give notice unto the other, it must be given by written notice, delivered (i) in person, (ii) via registered or certified United States mail, postage prepaid with return receipt requested, or (iii) via nationally recognized overnight delivery service, and addressed to the party for whom it is intended at the place last specified by each party. The place for giving of notice shall remain such until it is changed by written notice delivered in compliance with the provisions of this Section 21. For the present, the parties designate the following as the respective places for giving of notice, to wit:

For County: Roads & Drainage Division
3000 Sheffield Road
Winter Haven, FL 33880

For Consultant: _____
_____
_____
Attention: _____

22.0 Severability

The invalidity, illegality, or unenforceability of any provision of this Agreement, or the occurrence of any event rendering any portion or provision of this Agreement void, shall in no way affect the validity or enforceability of any other portion or provision of the Agreement; any

void provision shall be deemed severed from the Agreement and the balance of the Agreement shall be construed and enforced as if the Agreement did not contain the particular portion or provision held to be void. The parties further agree to reform the Agreement to replace any stricken provision with a valid provision that comes as close as possible to the intent of the stricken provision. The provisions of this section shall not prevent the entire Agreement from being void should a provision which is of the essence of the Agreement be determined to be void.

23.0 Annual Appropriations

Consultant acknowledges that during any fiscal year the County shall not expend money, incur any liability, or enter into any agreement which by its terms involves the expenditure of money in excess of the amounts budgeted as available for expenditure during such fiscal year. Accordingly, any agreement, verbal or written, the County may make in violation of this fiscal limitation is null and void, and no money may be paid on such agreement. The County may enter into agreements whose duration exceeds one year; however, any such agreement shall be executory only for the value of the services to be rendered which the County agrees to pay as allocated in its annual budget for each succeeding fiscal year. Accordingly, the County's performance and obligation to pay the Consultant under this Agreement is contingent upon annual appropriations being made for that purpose.

24.0 Employment Eligibility Verification (E-VERIFY)

A. Unless otherwise defined herein, terms used in this Section which are defined in Section 448.095, Florida Statutes, as may be amended from time to time, shall have the meaning ascribed in said statute.

B. Pursuant to Section 448.095(5), Florida Statutes, the contractor hereto, and any subcontractor thereof, must register with and use the E-Verify system to verify the work authorization status of all new employees of the contractor or subcontractor. The contractor acknowledges and agrees that (i) the County and the contractor may not enter into this Agreement, and the contractor may not enter into any subcontracts hereunder, unless each party to this Agreement, and each party to any subcontracts hereunder, registers with and uses the E-Verify system; and (ii) use of the U.S. Department of Homeland Security's E-Verify System and compliance with all other terms of this Certification and Section 448.095, Fla. Stat., is an express condition of this Agreement, and the County may treat a failure to comply as a material breach of this Agreement.

C. By entering into this Agreement, the contractor becomes obligated to comply with the provisions of Section 448.095, Fla. Stat., "Employment Eligibility," as amended from time to time. This includes but is not limited to utilization of the E-Verify System to verify the work authorization status of all newly hired employees, and requiring all subcontractors to provide an affidavit attesting that the subcontractor does not employ, contract with, or subcontract with, an unauthorized alien. The contractor shall maintain a copy of such affidavit for the duration of this Agreement. Failure to comply will lead to termination of this Agreement, or if a subcontractor

knowingly violates the statute or Section 448.09(1), Fla. Stat., the subcontract must be terminated immediately. If this Agreement is terminated pursuant to Section 448.095, Fla. Stat., such termination is not a breach of contract and may not be considered as such. Any challenge to termination under this provision must be filed in the Tenth Judicial Circuit Court of Florida no later than 20 calendar days after the date of termination. If this Agreement is terminated for a violation of Section 448.095, Fla. Stat., by the contractor, the contractor may not be awarded a public contract for a period of 1 year after the date of termination. The contractor shall be liable for any additional costs incurred by the County as a result of the termination of this Agreement. Nothing in this Section shall be construed to allow intentional discrimination of any class protected by law.

25.0 Consultant Representations

25.1 The Consultant hereby represents and warrants the following to the County:

25.1.1 Consultant is a _____ corporation that is duly organized and existing in good standing under the laws of the State of _____ with full right and authority to do business within the State of Florida.

25.1.2 Consultant's performance under this Agreement will not violate or breach any contract or agreement to which the Consultant is a party or is otherwise bound, and will not violate any governmental statute, ordinance, rule, or regulation.

25.1.3 Consultant has the full right and authority to enter into this Agreement and to perform its obligations in accordance with its terms.

25.1.4 Consultant now has and will continue to maintain all licenses and approvals required to conduct its business, and that it will at all times conduct its business activities in a reputable manner.

25.1.5 Consultant has no obligation or indebtedness that would impair its ability to fulfill the terms of this Agreement.

25.1.6 Consultant has the personnel and experience necessary to perform all Services in a professional and workmanlike manner.

25.1.7 Consultant shall exercise the same degree of care, skill, and diligence in the performance of the Services as provided by a professional of like experience, knowledge and resources, under similar circumstances.

25.1.8 Consultant shall, at no additional cost to County, re-perform those Services which fail to satisfy the foregoing standard of care or which otherwise fail to meet the requirements of this Agreement.

25.1.9 Each individual executing this Agreement on behalf of the Consultant is authorized to do so.

26.0 Default and Remedy

If the Consultant materially defaults in its obligations under this Agreement and fails to cure the same within fifteen (15) days after the date the Consultant receives written notice of the default from the County, then the County shall have the right to (i) immediately terminate this Agreement by delivering written notice to the Consultant, and (ii) pursue any and all remedies available in law, equity, and under this Agreement. If the County materially defaults in its obligations under this Agreement and fails to cure the same within fifteen (15) days after the date the County receives written notice of the default from the Consultant, then the Consultant shall have the right to immediately terminate this Agreement by delivering written notice to the County. Upon any such termination, the County shall pay the Consultant the full amount due and owing for all Services performed through the date of Agreement termination.

27.0 Limitation of Liability

IN NO EVENT, SHALL THE COUNTY BE LIABLE TO THE CONSULTANT FOR INDIRECT, INCIDENTAL, CONSEQUENTIAL, SPECIAL, EXEMPLARY, OR PUNITIVE DAMAGES OF ANY KIND OR NATURE, INCLUDING LOSS OF PROFIT, WHETHER FORESEEABLE OR NOT, ARISING OUT OF OR RESULTING FROM THE NONPERFORMANCE OR BREACH OF THIS CONTRACT BY THE COUNTY WHETHER BASED IN CONTRACT, COMMON LAW, WARRANTY, TORT, STRICT LIABILITY, CONTRIBUTION, INDEMNITY OR OTHERWISE.

28.0 Waiver

A waiver by either County or Consultant of any breach of this Agreement shall not be binding upon the waiving party unless such waiver is in writing. In the event of a written waiver, such a waiver shall not affect the waiving party's rights with respect to any other or further breach of this Agreement. The making or acceptance of a payment by either party with the knowledge of the other party's existing default or breach of the Agreement shall not waive such default or breach, or any subsequent default or breach of this Agreement, and shall not be construed as doing so.

29.0 Attorneys' Fees and Costs

Each party shall be responsible for its own legal and attorneys' fees, costs and expenses incurred in connection with any dispute or any litigation arising out of, or relating to this

Agreement, including attorneys' fees, costs, and expenses incurred for any appellate or bankruptcy proceedings.

30.0 Force Majeure

Either party hereunder may be temporarily excused from performance if an Event of Force Majeure directly or indirectly causes its nonperformance. An "Event of Force Majeure" is defined as any event which results in the prevention or delay of performance by a party of its obligations under this Agreement and which is beyond the reasonable control of the nonperforming party. It includes, but is not limited to fire, flood, earthquakes, storms, lightning, epidemic, war, riot, civil disturbance, sabotage, and governmental actions. Neither party shall be excused from performance if non-performance is due to forces which are reasonably preventable, removable, or remediable and which the non-performing party could have, with the exercise of reasonable diligence, prevented, removed, or remedied prior to, during, or immediately after their occurrence. Within five (5) days after the occurrence of an Event of Force Majeure, the non-performing party shall deliver written notice to the other party describing the event in reasonably sufficient detail, along with proof of how the event has precluded the non-performing party from performing its obligations hereunder, and a good faith estimate as to the anticipated duration of the delay and the means and methods for correcting the delay. The non-performing party's obligations, so far as those obligations are affected by the Event of Force Majeure, shall be temporarily suspended during, but no longer than, the continuance of the Event of Force Majeure and for a reasonable time thereafter as may be required for the non-performing party to return to normal business operations. If excused from performing any obligations under this Agreement due to the occurrence of an Event of Force Majeure, the non-performing party shall promptly, diligently, and in good faith take all reasonable action required for it to be able to commence or resume performance of its obligations under this Agreement. During any such time period, the non-performing party shall keep the other party duly notified of all such actions required for it to be able to commence or resume performance of its obligations under this Agreement.

31.0 Key Personnel

The Consultant shall notify the County if any of the Consultant's Key Personnel (as defined, below) change during the Term of the Agreement. To the extent possible, the Consultant shall notify the County at least ten (10) days prior to any proposed change in its Key Personnel. At the County's request the Consultant shall remove without consequence to the County any of

the Consultant's contractors, sub-contractors, sub-consultants, agents or employees and replace the same with an appropriate substitute having the required skill and experience necessary to perform the Services. The County shall have the right to reject the Consultant's proposed changes in Key Personnel. The following individuals shall be considered "Key Personnel:"

Name: _____

Name: _____

Name: _____

Name: _____

32.0 Scrutinized Companies and Business Operations Certification; Termination.

A. Certification(s).

(i) By its execution of this Agreement, the Vendor hereby certifies to the County that the Vendor is not on the Scrutinized Companies that Boycott Israel List, created pursuant to Section 215.4725, Florida Statutes, nor is the Vendor engaged in a boycott of Israel, nor was the Vendor on such List or engaged in such a boycott at the time it submitted its bid, proposal, quote, or other form of offer, as applicable, to the County with respect to this Agreement.

(ii) Additionally, if the value of the goods or services acquired under this Agreement are greater than or equal to One Million Dollars ($1,000,000), then the Vendor further certifies to the County as follows:

(a) the Vendor is not on the Scrutinized Companies with Activities in Sudan List, created pursuant to Section 215.473, Florida Statutes; and

(b) the Vendor is not on the Scrutinized Companies with Activities in the Iran Petroleum Energy Sector List, created pursuant to Section 215.473, Florida Statutes; and

(c) the Vendor is not engaged in business operations (as that term is defined in Florida Statutes, Section 287.135) in Cuba or Syria; and

(d) the Vendor was not on any of the Lists referenced in this subsection A(ii), nor engaged in business operations in Cuba or Syria when it submitted its proposal to the County concerning the subject of this Agreement.

(iii) The Vendor hereby acknowledges that it is fully aware of the penalties that may be imposed upon the Vendor for submitting a false certification to the County regarding the foregoing matters.

B. Termination. In addition to any other termination rights stated herein, the County may immediately terminate this Agreement upon the occurrence of any of the following events:

(i) The Vendor is found to have submitted a false certification to the County with respect to any of the matters set forth in subsection A(i) above, or the Vendor is found to have been placed on the Scrutinized Companies that Boycott Israel List or is engaged in a boycott of Israel.

(ii) The Vendor is found to have submitted a false certification to the County with respect to any of the matters set forth in subsection A(ii) above, or the Vendor is found to have been placed on the Scrutinized Companies with Activities in Sudan List, or the Scrutinized Companies with Activities in the Iran Petroleum Energy Sector List, or has been engaged in business operations in Cuba or Syria, and the value of the goods or services acquired under this Agreement are greater than or equal to One Million Dollars ($1,000,000).

33. No Construction Against Drafter

The Parties acknowledge that this Agreement and all the terms and conditions contained herein have been fully reviewed and negotiated by the Parties. Accordingly, any rule of construction to the effect that ambiguities are to be resolved against the drafting party shall not apply in interpreting this Agreement.

34. Unauthorized Alien(s)

The Consultant shall not employ or utilize unauthorized aliens in the performance of the Services provided pursuant to this Agreement. The County shall consider the employment or utilization of unauthorized aliens a violation of Section 274A(e) of the Immigration and Naturalization Act (8 U.S.C. 1324a) and a cause for the County's unilateral termination of this Agreement. When delivering executed counterparts of this Agreement to the County, the Consultant shall also deliver a completed and executed counterpart of the attached "AFFIDAVIT CERTIFICATION IMMIGRATION LAWS" form.

**(THE REMAINDER OF THE PAGE IS LEFT INTENTIONALLY BLANK;
