Polk County Board of County Commissioners

Meeting Agenda - Final

June 16, 2026 Regular BoCC meeting

In accordance with the American with Disabilities Act, persons with disabilities needing special accommodations to participate in this proceeding should contact the Communications Office not later than 48 hours prior to the proceeding. Their office is located in the County Administration Building, 330 West Church Street in Bartow. Telephone (863) 534-6090 or TTY (863) 534-7777. If hearing impaired dial 7-1-1 for Florida Relay services or call (800) 955-8771 (TTY); dial (800) 955-1339 if you are using a computer.

Any invocation that may be offered before the official start of the Commission meeting shall be the voluntary offering of a private citizen, to and for the benefit of the Commission. The views or beliefs expressed by the invocation speaker have not been previously reviewed or approved by the Commission, and the Commission is not allowed by law to endorse the religious beliefs or views of this, or any other speaker.

If a person decides to appeal any decision made by the board with respect to any matter considered at such meeting or hearing, he or she will need a record of the proceedings, and that, for such purpose, he or she may need to ensure that a verbatim record of the proceedings is made, which record includes the testimony and evidence upon which the appeal is to be based.

Polk County Board of County Commissioners

Meeting Minutes - Draft

June 02, 2026 Regular BoCC meeting

In accordance with the American with Disabilities Act, persons with disabilities needing special accommodations to participate in this proceeding should contact the Communications Office not later than 48 hours prior to the proceeding. Their office is located in the County Administration Building, 330 West Church Street in Bartow. Telephone (863) 534-6090 or TTY (863) 534-7777. If hearing impaired dial 7-1-1 for Florida Relay services or call (800) 955-8771 (TTY); dial (800) 955-1339 if you are using a computer.

Any invocation that may be offered before the official start of the Commission meeting shall be the voluntary offering of a private citizen, to and for the benefit of the Commission. The views or beliefs expressed by the invocation speaker have not been previously reviewed or approved by the Commission, and the Commission is not allowed by law to endorse the religious beliefs or views of this, or any other speaker.

If a person decides to appeal any decision made by the board with respect to any matter considered at such meeting or hearing, he or she will need a record of the proceedings, and that, for such purpose, he or she may need to ensure that a verbatim record of the proceedings is made, which record includes the testimony and evidence upon which the appeal is to be based.

Rollcall

Present:	Commissioner Becky Troutman Commissioner Rick Wilson Commissioner Bill Braswell Commissioner Martha Santiago Commissioner Michael Scott

CALL TO ORDER - 9:00 a.m. (MARTHA SANTIAGO, CHAIR)

INVOCATION

Bill Dehart, Polk County Fire Rescue Chaplain

PLEDGE OF ALLEGIANCE (MARTHA SANTIAGO, CHAIR)

A. PRESENTATIONS and RECOGNITIONS

A.1. Clerk & Comptroller Stacy Butterfield to present the restoration, preservation, and digitization of the historic Cattle Brand Book.

Minutes: Clerk & Comptroller Stacy Butterfield presented the restoration, preservation, and digitization of the historic Cattle Brand Book. She stated from the 1860-1940's the Clerk's office recorded cattle brands used by ranchers to identify their livestock. She said the records become fragile and they worked with Kofile Technologies to professionally store and repackage the original books. She said they also had them digitized so they can be easily accessed online. She said these are a record of families, ranches, industries and traditions that helped shape Polk County and Florida. She said there are records connected with the Bellotto family and George and Jasper

Summerlin. She said replica books are being donated to the Polk County History Center. She thanked Myrtice Young for being here and she welcomed everyone to come out on June 9th for the exhibit. She thanked Kofile Technologies for their great work. She said these highlight the names and legacies of many ranching families that helped shape agricultural history. She recognized those in the audience present. She said after the 1940's the registrations moved to the state and that is why it ends in the 1940's. She said the preservation project did not take long and said they were contacted by Ms. Young and they embarked on the idea a few years ago.

Commissioner Troutman said there is an exhibit in the History Center that allows children to make their own brand. She said it is exciting for kids to see that.

Chair Santiago thanked Clerk Butterfield and all involved to help preserve the history of Polk County.

B. PUBLIC COMMENTS CONCERNING AGENDA ITEMS

B.1. Comments.

Minutes: There was no one from the public wishing to speak on Agenda Items.

C. COUNTY COMPTROLLER (STACY M. BUTTERFIELD, CPA)

C.1. Disbursements.

RESULT:	**APPROVED**
MOVER:	Rick Wilson

G.4. Approve Consultant Services Authorization (CSA) No. 2022-087-03 with HDR, Inc. (Consultant) to provide design services for the Carter Road at Eaglebrook Boulevard Intersection Project. ($393,548.40 one-time expense)

Minutes: County Manager Bill Beasley discussed Consultant Services Authorization No. 2022-087-03 with HDR, Inc., providing design services for the Carter Road at Eaglebrook Boulevard intersection project. He recommended approval.

RESULT:	**APPROVED**

MOVER:	Becky Troutman
SECONDER:	Bill Braswell
AYE:	Troutman, Wilson, Braswell, Santiago, and Scott

H. COMMISSIONER DISTRICT 1 (BECKY TROUTMAN)

H.1. Commissioner Troutman Comments.

Minutes: Commissioner Troutman said they all received an email from the PACE program letting them know that they had a list of people who signed up for their services. She said we are not participating in this program and she asked the Board if this is how they want to continue or is there is an interest in participating in that program.

Upon question, County Attorney Randy Mink said they have always been a special district. He said it can be used for certain improvements to a home such as solar panels, roofing, stormwater type changes, and heat and air. He said once they take the loan out it is put on as a special assessment. He said if they do not pay the special assessment it can be collected through a tax deed sale. He said he is not sure there is much difference than going through a bank other than it is a government entity and they are able to foreclose through a tax deed sale.

Commissioner Braswell said he does not see what value they bring.

Mr. Mink said that has been the position of our Board that this was something we did not want to get into and to leave this to a private entity. He said they tried to expand into Polk County without our permission and they are here now in certain places. He said as part of the settlement they were allowed to continue the ones they had done prior to the statute change. He said the statute states they have to have our approval before they can operate in Polk.

Commissioner Braswell said he does not get their relevance and it seems like a complicated entity that serves no purpose other than being a bank. He said it is not a good idea.

Chair Santiago said this came up a few years ago and the consensus of the Board was we were not interested in working with this agency.

Commissioner Wilson said PACE would give a personal loan, we would basically take it over and turn over to us or the Tax Collector. He said they get their money and their hands are clean.

Mr. Mink said it would be for those who normally would not be able to get a loan through a conventional bank.

Commissioner Braswell said if you cannot afford to borrow money you should not borrow money. He said they are taking a high risk group, guaranteeing they are going to get paid, and walking away. He stated banks are going to think long and hard before loaning the money.

Commissioner Troutman said if we do not participate it helps some of our citizens that can be vulnerable at times. She said that she would support not having them in the county because she does not see a benefit to our residents.

Mr. Mink said our response will be that our Board is not interested in this.

Commissioner Troutman thanked Code Enforcement staff. She said she was able to listen to part of a training that they had done for a community outreach. She said they were meeting with a real estate group regarding the ordinance about the large signs placed in the right-of-way. She thanked them for getting out into the community and for providing the education.

I. COMMISSIONER DISTRICT 2 (RICK WILSON)

I.1. Commissioner Wilson Comments.

Minutes: Commissioner Wilson said it is now hurricane season. He said us Floridians have been through it a lot. He said he has been hearing some good things that we might not be prone to it this year, but all it takes is just one. He reminded everybody that they know what to do and to be ready. He said we need some rain.

J. COMMISSIONER DISTRICT 3 (BILL BRASWELL)

J.1. Commissioner Braswell Comments.

Minutes: Commissioner Braswell had no comments.

K. COMMISSIONER DISTRICT 5 (MICHAEL SCOTT)

K.1. Commissioner Scott Comments.

Minutes: Commissioner Scott reminded the audience about the reduced rate for disposal at the landfill. He said the reduced rate is through the end of June for residential collection. He said it is a great opportunity to be prepared. He said the property tax is all over the news. He said Tennessee has low property taxes but they also have a 9.5% sales tax. He said property tax reduction sounds like a great idea on paper but if you take it out of one pocket you have to replace it with another revenue source. He said when you look at news media they want to get the front page splash. He stated that if you save tens of thousands of dollars over the lifetime ownership of a house but if you have to pay it in sales tax what did you really save. He asked what do you really save. He said there is a large push from the state side to make that appealing and he is not saying it is not appealing. He stated to look at the whole picture before making a decision on the referendum.

Mr. Mink said he believes the hurricane preparation deadline is June 1st. He said if it is June 1st, he will put it on the next agenda to get it extended to July 1st.

County Manager Bill Beasley said yesterday was the opening of the Northeast Convenience site. He said activity was brisk and steady all day long.

L. COMMISSIONER DISTRICT 4 (MARTHA SANTIAGO, CHAIR)

L.1. Chair Santiago Comments.

Minutes: Chair Santiago said with the needs of the citizens the money will have to come somewhere. She said it will be either property taxes or a 9.5% sales tax on good. She thanked Mr. Beasley for bringing up the northeast area. She said she wants to go out there and see how brisk it is going. She said it is well needed because this is the fastest growing area in the county.

N. EXPEDITED HEARINGS PURSUANT TO RESOLUTION NO. 2022-089

Minutes: County Attorney Randy Mink reminded the audience of the procedures for public hearings and the expedited public hearings and swore in those who plan to speak.

N.1. Public Hearing (LDCD-2026-2 Avenue Q Autobody Sub-District) (Adoption Hearing) to consider the adoption of a Sub-District Map change from Business Park Center-1 (BPC-1) to Business Park Center-2 (BPC-2) on approximately one (1) +/- acre.

Minutes: Land Development Director Ben Ziskal reviewed the proposed map amendment. He said that staff and the Planning Commission recommended approval.

The Chair opened a public hearing; no one spoke.

RESULT:	**APPROVED**
MOVER:	Becky Troutman
SECONDER:	Bill Braswell
AYE:	Troutman, Wilson, Braswell, Santiago, and Scott

N.2. Public Hearing (LDCPAL 2026-2 Main Street Corridor Text) (Transmittal Hearing) to consider the adoption of a Comprehensive Plan text amendment to establish a new Section, to be called the Main Street Commercial (MSC) Corridor, in the Future Land Use Element. (No Fiscal Impact)

Minutes: Land Development Director Ben Ziskal reviewed the proposed text amendment. He said that staff and the Planning Commission recommended approval. He said this is a transmittal hearing.

The Chair opened a public hearing; no one spoke.

RESULT:	**APPROVED**
MOVER:	Bill Braswell
SECONDER:	Rick Wilson
AYE:	Troutman, Wilson, Braswell, Santiago, and Scott

N.3. Public Hearing (LDCT-2026-3 Recreational Use Easements) (First Reading) to consider and Land Development Code text amendment, amending Chapter 3, Conditional Uses, Section 303, Criteria for Conditional Uses for High Intensity

Recreation to allow access via easement for firearms ranges. (No Fiscal Impact)

Minutes: Land Development Director Ben Ziskal reviewed the proposed text amendment allowing access via easement for firearms ranges. He said that staff and the Planning Commission recommended approval. He said this is the first reading and no action is necessary.

County Attorney Randy Mink said the staff report has a typo and the correct BoCC hearing date is June 2, 2026, and the ad notice is correct.

Upon question, Mr. Ziskal said exact traffic counts are hard to monitor. He said they would use the ITE manual for estimated projected trips based on the proposed range. He said it would be based on the norms for the facility and for the operations of a gun range.

The Chair opened a public hearing; no one spoke.

N.4. Public Hearing (LDCT-2026-8 ATMs & Vending Machines) (First Reading) to consider the adoption of an ordinance amending the Land Development Code to add standards and definitions for stand-alone vending machines and automated teller machines. (No Fiscal Impact)

Minutes: Land Development Director Ben Ziskal reviewed the proposed text amendment for ATMs and stand-alone vending machines. He said they would not be able to interfere with traffic circulation or the required parking on a commercial site. He said that staff and the Planning Commission recommended approval. He said this is the first reading and no action is required today.

Upon question, Mr. Ziskal said regarding the timeline there are other provisions in the code and it would default to established language within the code. He said they would treat it with other definitions if they are inoperable or abandoned.

The Chair opened a public hearing; no one spoke.

O. PUBLIC HEARINGS

O.1. Public Hearing to consider adoption of a resolution to vacate a portion of a platted public utility easement as shown on the plat of Shadow Wood Unit 2, Winter Haven. (No fiscal impact)

Minutes: Scott Lowery, Real Estate Services, reviewed the proposed vacation request. He said there are no objections to the request. He recommended approval.

Christopher Desrochers, representing the applicant, said he is available for questions.

The Chair opened a public hearing; no one spoke.

RESULT:	**APPROVED**
MOVER:	Becky Troutman
SECONDER:	Michael Scott

AYE:	Troutman, Wilson, Braswell, Santiago, and Scott

O.2. Public Hearing to consider adoption of a resolution to vacate portions of platted, unopened, and unmaintained rights-of-way as shown on the map of Leisure Shores and on the Revised Map of Lake View, Winter Haven, Florida and request Board accept a Drainage Easement from Joann Bissett Knapek. (No fiscal impact)

Minutes: Scott Lowery, Real Estate Services, reviewed the proposed vacation request. He said there are no objections to the request. He said that staff recommends approval

Upon question, Mr. Lowery said most of the construction items appear to be gone.

The Chair opened a public hearing.

Jack Seclet said this was an easement that was left for the homeowners in Leisure Shores. He said they object to it and do not want any changes. He said he has been there 40 years and it does not bother anybody.

Keith McDowell said he has lived here for 40 years. He said it has been meant for the property owners to have access to the lake. He said he objects to the applicant using this as their own private property. He stated this was designed for the people of the community.

Kelly Yudichak said for the last 22.5 years this property has been maintained by her family. She said no one else has taken care of that property. She said the ATV is not hers and she does not know whose it is and she did not connect the lean-to. She said by the lake it has been overgrown for the last 22.5 years and she does not know of anyone who has gone down there to crawl through it to get there.

The Chair closed the public hearing.

Upon question, Mr. Lowery said there is a shallow swale that tapers to almost nothing. He stated the ditch gets much deeper. He said it does allow future drainage if we need to extend the swale or cut it deeper. He said they are granting a 15 foot easement with this. He said he is not aware of any drainage issues.

RESULT:	**APPROVED**
MOVER:	Rick Wilson
SECONDER:	Bill Braswell
AYE:	Troutman, Wilson, Braswell, Santiago, and Scott

O.3. Public Hearing (LDCU-2025-38 Highlands Street MHP) (De Novo Hearing) to consider an appeal to the Planning Commission's decision to deny (7:0) this case on April 1, 2026. (No Fiscal Impact)

Minutes: County Attorney Randy Mink reminded the audience of the De Novo hearing procedures.

The Board confirmed that they have not had ex parte communications or site visits

regarding this case.

Ian Nance, Land Development, showed slides and reviewed the De Novo hearing request. He said the request is for a Conditional Use for a 19-unit mobile home park on 4.93 acres. He said this application is not for increased density. He reviewed the site plan and said a 100-year stormwater pond will be required. He discussed the setbacks and said there will be Type-B buffering. He stated the applicant has agreed to provide an easement for the county to maintain an existing ditch on the southern end of the property. He said no flood zones or wetlands are mapped on the site. He said this is compatible with the area and that staff recommends approval.

Upon question, Mr. Nance said with House Bill 399 they are having multiple units on one property and they cannot decide upon owners, mobile homes and unit types. He said they have changes coming to the Land Development Code to address this. He said there might be a new name for mobile home park in the future.

Commissioner Troutman said that bill says anywhere a single-family resident is allowed that off-site built dwellings will also be considered the same.

Mr. Mink said he will double check and confirm this. He said that most of the changes were effective January 1st and they are still working on part of it.

Mr. Nance stated that we call it residential development park which requires this level of use.

Mr. Mink said even if it is not a mobile home park it was treated as a subdivision and it would still require a Level 3 Review. He said they are not treating it any different.

Upon question, Mr. Nance said these are mobile homes with multiple homes on one piece of property that is owned by one owner. He said to not have an administrative approval it would need 6,000 square foot lots, meet setback requirements and be under the density for RL-4. He said he does not think each unit will have a septic system but they have the large backyards to accommodate that. He said it will still need to go to the Health Department for review. He said the City of Lakeland has a sewer line but it is not feasible to extend it.

Commissioner Scott said one of the issues is access for repair. He said with this being a binding site plan we do not have provisions or knowledge of where the septic systems are going to be. He said this is a critical layout piece and we cannot necessitate that at this level of review. He said there may need to be revisions to the site plan to accommodate the septic tanks so they are not coming back for a modification to move a home to make room for septic treatment.

Mr. Nance said if the Health Department requires advanced treatment of septic they can go down a number of units administratively. He said if sewer is not available and it is not economically feasible, they will have to contact the City of Lakeland. He said at the Level 2 the developer is required to connect. He said this is approximately half a mile from sewer. He showed the sewer line on the map that serves the industrial park. He said it is part of a pre-treatment system. He said they generally require 11,000

square foot lots for septic and he said there are advanced treatment facilities that allow smaller lots.

Chad Brooker, applicant, said with the City of Lakeland they have applied for capacity for water and wastewater and were denied capacity for wastewater. He said they were advised that septic was the only option. He said they are proposing larger common septic systems and not individual units. He said they have been coordinating with septic design/build contractors. He said they are connecting to centralized water and they have to apply for the waiver to get the septic system. He stated his client is proposing a single use rental community for mobile home parks. He said the use is compatible with the area and there are several mobile home parks, mobile home subdivisions, and individual mobile homes in the area. He said this is RL-4 and they can do a fee simple lot subdivision. He said he believes the Planning Commission did not have an issue with compatibility it was drainage. He said there are known flooding issues out there and there is not legal access to the ditch. He said they tried to work with all the owners to dedicate easements for the county to maintain the ditches and there was not enough neighborhood cooperation. He said they did dedicate an easement to the county that covers their portion to alleviate flooding. He said they are proposing a 100-year no discharge storm. He said the pond will be designed to maintain afternoon rain to hurricane waters. He said there will be an emergency overflow discharge point. He said a mobile home park is the request for today.

Commissioner Braswell said the concept of a mobile home park does not bother him. He said when you talk about septic and flooding that raises a red flag for him.

Upon question, Mr. Brooker said the request for sewer has not been made at this level. He said this is the City of Lakeland's utility service area. He said to his knowledge they are not requiring dry lines.

Commissioner Troutman asked if this is a condition they could add onto this.

Mr. Mink said the issue goes back to compatibility and consistency.

Chanda Bennett, Land Development, said before the Comp Plan dry lines were installed. She said they have not been requiring dry lines because a lot of them go unused and decay. She said it is not at their level for decision making and that requirement they work out with utilities. She confirmed that sewer is not a compatibility issue.

Mr. Brooker discussed the dry line system and said that there is not gravity out there to connect. He said if and when the city gets capacity it is a lift station with a pressure pipe force main that connects to it when you put in the dry line system. He said if it stays without pressure it starts to decay, does not pass pressure tests, and gets ripped out and replaced. He said it will be more inline with the elevations near the front of the site. He said there is an elevation drop from north to south. He said the finished floors will be flatter and it will be above that. He said the pond bank will be above that so it can hold back water. He said there will be fill placed to help with the septic. He said he does not have the elevation for the pond. He said the finished floor elevation requirement by the county is a foot. He stated there are certain challenges with this

site. He said they are proposing 10 feet in-between the units and there are wider green spaces for access to the septic systems. He said there is reasonable access to get to the septic systems. He said this is not in a flood zone.

Mr. Nance confirmed that this is consistent with the Land Development Code.

Mr. Brooker discussed the flow patterns and said there will be an easement to access the ditch. He showed where they will be putting the bigger tanks. He said they are looking at approximately 3 or 4 septic tanks and there will be longer drain fields. He said there is one pond. He said the flooding has been centralized around the ditch. He said there are some culverts that are down stream that will bottleneck and restrict flow. He said the goal is that access is through the other properties along the ditch from road to road. He stated he does not know how much it flooded with the hurricanes. He said the pond will be private and the easement will be dedicated to the county for access and maintenance of the ditch. He said they do not want to dedicate anything until this has been resolved.

Mr. Nance said it is a condition of approval in the staff report and has been discussed.

The Chair opened the public hearing.

James Vitiello said this 100-year storm plan is not going to happen. He said the pond is not going to hold it and he was waste deep in water. He discussed the flooding on his property from summer rain storms. He said they have a farm and they bought this property because it was Zone-X with no flooding. He discussed flooding from rain storms. He discussed calling the county and SWFWMD and said nobody will help them. He said the pond is not going to hold this. He said he would be open to granting an easement on his property. He said there is always water running through this.

Roads and Drainage Director Jay Jarvis said he will try to help. He said this area is all private property. He said they have a right-of-way piece where the power plant is that they maintain. He said they did not get permanent easements and they do not piecemeal easements. He said if we are able to get a majority of them they could maintain majority of the system. He said they do not have any permanent drainage easements on this system.

Kyle Brown said he has lived here for 13 years. He showed his property on the map. He discussed flooding and said if they get heavy rains they have two feet of flooding on their property. He said they are the lowest part where all the drainage runs. He said there is continuous water year round. He said they have animals on the property.

Kelly Allred said she is to the south of this property. She said she sent in pictures of rain storm and hurricanes. She said it is the flooding and it is chest deep. She said the water runs south and comes down. She said under #128 there is a huge pond and 10 acres behind them there is a huge ditch that holds tons of water. She said it is not the 19 homes being brought in it is the drainage. She said the people have no idea what they are getting into with the flooding. She said their cars will flood. She said her neighbor is building a wall around her home.

The Chair closed the public hearing.

Mr. Brooker responded to public comments. He said they are going to do what they can to maintain this and he thinks this is more of a regional issue that the county needs to help address. He stated it is not clear who owns this, it is all private properties where the ditch lies and is not in a right-of-way. He said easements for legal maintenance is the way to go. He said they are trying to be part of the solution and not the problem. He discussed the pond and said the runoff will be minimized.

Mr. Mink reminded the Board that there has been discussion on stormwater and drainage and the decision needs to be based on consistency and compatibility. He said there are places where homes are not compatible and that would be a decision of the Board. He stated the Board is looking at the facts presented.

Commissioner Scott discussed the surrounding area and said there are no other adjacent mobile home parks. He said this is not compatible and he thinks the Planning Commission got it right with 7/0 for no.

Chair Santiago discussed the flooding and said the county needs to look at this further.

Commissioner Troutman said for the neighbors to work with Mr. Jarvis for easements so that it can be pieced together.

Mr. Jarvis said this is the headwaters for Itchepackesassa Creek. He said it fills up and backs up to get relief downstream. He said increasing the flow downstream you have to look at the Water Management District's watershed management plan. He said there is a point where you cannot go past what the system can handle and you have to look at the impacts of those downstream.

Commissioner Braswell said previous Boards have made decisions to allow development where it should not be allowed. He said the analysis of these are much better. He said we need to look at the big picture and say these are problem areas. He stated we hear a lot of these cases, we see a lot of these problems and we need to provide common sense solutions. He said maybe this property is not compatible for homes.

Chair Santiago said she is looking at the bigger picture. She said the surrounding neighbors are flooding and she does not see a solution. She said she does not want to see our citizens living in these conditions.

Commissioner Scott discussed the neighbors allowing an easement.

RESULT:	**DENIED**
MOVER:	Michael Scott
SECONDER:	Bill Braswell
AYE:	Troutman, Wilson, Braswell, Santiago, and Scott

O.4. Public Hearing (LDCU-2025-39 Thomas Fish Camp) (De Novo Hearing) to consider an appeal to the Planning Commission’s decision to deny (4:3) a

Conditional Use request for expansion of a legally non-conforming recreational camping use. (No Fiscal Impact)

Minutes: Chanda Bennett, Land Development, showed slides and reviewed the request for a De Novo hearing. She said they are requesting a Conditional Use (CU) for the expansion of a recreational camping facility to expand the number of RV/Cabin sites from 20 to 40 and adding one more residence and accessory building. She said that staff recommends approval and the Planning Commission recommended denial. She said this was approved as a PUD in 1995 and she gave background information on the site. She reviewed the proposed expansion request. She said this meets all the requirements for recreational camping except for direct access to a public road or private road and she said they access the site from unpaved access easements and a paved county maintained road. She said this is compatible with the surrounding land uses and said the expansion will not result in an adverse impact to the surrounding property. She discussed the types of land surrounding this area and said there are single family residences to the south. She said the request is consistent with other camping uses in this area. She showed slides of the subject property. She said this is consistent with the Land Development Code and the Comp Plan. She confirmed that there is a maintenance building.

Commissioner Troutman said there is a guest cottage and they would be adding one permanent structure.

Upon question, Ms. Bennett said the items in gray are support uses to the items listed in yellow. She said there are existing permanent structures on the northern parcel. She confirmed that the 20 units fluctuate overtime. She said the applicant tried to work with the property owner to the north.

Commissioner Troutman, Commissioner Braswell and Commissioner Scott said they have had ex parte communications with both sides.

Commissioner Wilson and Chair Santiago said they have had ex parte communications with the applicant.

Mattie Hardin Tondreault, representing the applicant, discussed the history of the property from the 1980's. She said the property is non-commercial. She discussed Ducks, Inc., and said it is the same people and they are not looking at adding new people. She said this is used for camping and seasonal duck hunting and they are not the ones using ATV's and four wheelers. She said they are going from 20 to 40 with the same people using it. She said if there is more traffic it helps compact the gravel and is a benefit. She said the northern property owner is believed to have intent to make this a commercial operation and that is not consistent with what her client is requesting. She said there have been improvements on the northern parcel without their knowledge or permits. She said she reviewed the opposition emails. She said the opposition was primarily for the northern parcels use of the property and there has been confusion on their intent. She said they are not using this as commercial. She said she was told that Mr. Lightsey no longer opposes this.

Commissioner Scott said this is titled as Thomas Landing Fish Camp expansion and when he reads that it means there is a fish camp actively seeking participants to come

in for those activities.

Upon question, Ms. Tondreault stated the fish camp is what was initially permitted. She said they are asking for a duplication of a couple of those conditional uses. She said the photos of the junk is from the northern parcel and there is one mobile trailer on the southern parcel. She said none of the photographs were from the southern parcel.

Upon question, Ms. Bennett said any new recreational camping use expansion has to have access to a county road.

Mr. Mink said this is an expansion of a legal non-conforming use and it would not stand alone on its own under the code. He said the bait shop is not something they would touch in this process.

Upon question, Ms. Tondreault said this is used by only the members of the limited liability company and is a required membership. She said they want to move this closer to the lake for the access to duck hunting.

Mr. Mink said we are not looking at the users they are looking whether the use is compatible with the surrounding use.

Commissioner Troutman said there is a condition for no commercial activity and a condition of no-short term rental.

Ms. Bennett said there are no conditions for recreational camping. She said the limitation of the intensity is based on the number of camping sites. She said recreational camping is less intense than an RV park. She said commercial is not considered and this is ARR and camping is the only thing that can happen.

Commissioner Troutman discussed if this property was sold and what this property could turn into that might resemble commercial activities.

Ms. Bennett said the analysis was based on if they kept campsites and occupied them on a regular basis. She said the impacts on the infrastructure and roads was not enough of an increase for staff to recommend denial. She said it would be 20 on the north and 20 on the south. She said this is a non-residential use because it is not full time residential but it is not considered commercial.

Commissioner Braswell said people will think it is commercial with people coming in everyday and leaving.

Commissioner Wilson said it is a hunting camp. He said most of these people have been there for generations and they duck hunt. He said with clubs and groups they do not want anybody else in there. He said he does not think there will be any commercial uses there and they want to get this resolved.

Ms. Tondreault said the complaints and opposition is for another property owner and use.

Commissioner Braswell said the issue is it is not commercial now but things change. He said what we decide today could be revisited.

Commissioner Scott asked if this will be evaluated for septic systems.

Ms. Tondreault said there is still a permit application process and review to ensure that it has modern day standards. She said there is a current septic system and if it was not sufficient enough for the bath house they would be willing to bring it up to conforming standards.

The Chair opened a public hearing.

Kevin Maharrey said he is the property owner to the south. He discussed corrections he would like to make to the staff report. He said he has pictures he would like to enter into the record. He said the roads are bad and they will keep moving further and further into Mr. Lightsey's property. He said the site should not have the CU permit. He said it is a lot to put 20 on seven acres.

The Chair closed the public hearing.

Ms.Tondreault spoke in response to public comment. She said there is no competent evidence and there are other land users out there. She said for the road conditions EMS having access is required.

Upon question, Ms. Bennett said they do not feel confident adding more to the public safety condition of approval without speaking to public safety. She said if it is difficult to access they will coordinate the closure of the use until the access is fixed.

Mr. Mink said it would need to be brought to their attention that it does not meet the public safety requirements. He said the Fire Marshall would go out and see if it meets the conditions. He said it would need to be brought in compliance and if they do not operations would stop.

Commissioner Scott discussed being good stewards and maintaining the road for medical emergencies.

Mr. Mink said this has a specific requirement in their condition of approval.

Ms. Bennett said the Lightsey Cattle Company owns the road.

Mr. Mink said this is a paper plat and with these there are easements recorded.

Commissioner Troutman said she had ongoing conversations with Mr. Lightsey. She said he has had input and learned about who the users are now and what the true intent of this application is.

RESULT:	**APPROVED**
MOVER:	Becky Troutman
SECONDER:	Rick Wilson
AYE:	Troutman, Wilson, Braswell, Santiago, and Scott

O.5. Public Hearing (LDSPD-2025-2 Old Dixie Highway SPD (De Novo Hearing) to consider an appeal to the Planning Commission's decision to approve (6:1) this case on April 1, 2026. (No Fiscal Impact)

Minutes: Commissioner Troutman said she has not had any ex parte communications or site visits.

Commissioner Wilson said he has met with the applicant.

Chair Santiago said she has not had any ex parte communications or site visits.

Commissioner Braswell said he has had communications with both sides.

Commissioner Scott said he has had communications with the applicant.

Ian Nance, Land Development, reviewed the De Novo request for a Suburban Planned Development for 31 single-family lots on approximately 20.29 acres. He said that the Planning Commission recommended approval and an appeal was filed. He reviewed the site and he discussed the access to the site, landscaping and buffering. He showed the projected flood zone on a map and he said a flood study will be required. He said there will be private septic systems and connection to sewer is not required. He said this is compatible with surrounding uses and is consistent with the Comp Plan and the Land Development Code. He said that staff recommends approval.

Upon question, Mr. Nance confirmed that Shallot Preserve has 415 lots going in across from Tenoroc. He said the floodplain manager reviews the elevation. He said it is cup for cup compensation for storm floodplain impacts.

Clinton Howerton, County Engineer, said as part of the Level 2 they will be doing the analysis on the site. He said it is a relatively large floodplain. He said they are following the contour lines and it seems to be consistent. He discussed fill volume that is going into the floodplain area and said to make sure that area is being set aside outside so that the net result is a decrease in volume to the floodplain. He said some of the surrounding lots are in the floodplain area.

Mr. Nance said the depth of the lot is 315 feet.

Tony Werschky, applicant, thanked staff and the Planning Commission for participating in this process. He said this property is located in between two metropolitan areas of Auburndale and Lakeland and is close to the Polk Parkway. He said this is part of the Suburban Development Area. He discussed the density and said there are three developments that have a higher density than this. He said that the county will not issue permits unless the final engineered system complies with drainage and flood plain standards. He discussed drainage and said they must make sure that the water does not run onto someone else's property anymore than it has in the past. He said they will work with SWFWMD and FDEP and they will have a wetlands dilenation. He said numerous steps will be taken to ensure less water will go onto surrounding properties.

Charles Brooker, representing the applicant, said staff and Planning Commission find this compatible. He said they are able to achieve the density of the three units per acre based on location points. He said the available density is 2.7 to 2.8 units per acre and they are proposing 2 units per acre. He said they are working on a site plan that is compatible with the area. He said the lots on the north are 300 feet long and they still have 120 feet of developable area. He stated their intent is to not impact the floodplain.

Upon question, Mr. Brooker referred to the map and said the green hatching is what they are considering open space. He said the wetlands are also open space. He said the green hatch borders the access, it will be owned by the HOA and can be accessed by the residents. He said it all can fit within the range and said there is ample room for a 2,000 square foot house and the septic area. He said it is sandy soils throughout the site and he does not think a lot of these will be mounded and they have to get the proper permits. He said it is traversable and this site sometimes will get wet and you cannot get back there and you have to wait for it to dry out. He confirmed that during a wet time of the year it would be unaccessible by a pedestrian. He said it is land left alone to be open, they are committing that it is recreation space, but it is not a requirement of the code.

Jon Leonard, opposition, said he is representing over 40 adjacent residents. He said this is not compatible to adjacent homesteads. He said this has been zoned for over 50 years and this is not a transition area. He discussed the surrounding land use designations. He said this adds 31 septic tanks and he said if it is not compatible they just put in septic tanks. He said they are putting small acreage lots where the septic and wetlands issues are. He said to look at the road and all the cutoffs. He said they are willing to compromise and it if was one and a half acre lots they would not have filed for a De Novo. He said all sides of the property are large acre homesteads. He said the water flows southwest and the back of their properties flood when it rains and that is why they bought their properties with large acreage.

Upon question, Mr. Leonard said the backs of their properties they refer to as seasonal duck ponds with the rain. He said there are 2-3 inches of standing water with a normal rain storm and that is why they have the above bed septic. He said every adjacent property is not compatible.

The Chair opened a public hearing.

Neil Sue said in 2002 he bought two properties and said there is a lot of rain. He said he is worried about two hurricanes within a month and flooding. He asked if he going to have more flooding and he asked for enough ponds.

Rhonda Deese said she supports what Jon has said and she is opposed to the development. She said it is inconsistent with the surrounding rural area. She said the wetlands require protection from wastewater. She said the properties adjacent must conform to the proposed development. She said they are within the southwest flow and compatibility and flooding is an issue. She said she does not know of a septic tank out there that does not have a mound.

Angelo Pimpinelli said Jon submitted a well done document to them. He said going across Old Dixie Highway that Shalamar is not an adjacent comparison. He said all these properties are rural and they are probably a minimum of 3 acres.

Deborah Taylor said her concern is the congestion with a new subdivision that was just put in. She said there will be a hotel and another subdivision. She said her concern is with the traffic on Old Dixie Highway. She said there is already so much development there and it is congested.

The Chair closed the public hearing.

Mr. Werschky spoke in response to public comments. He discussed the surrounding area densities and said they are more dense than what they are proposing. He said they are trying to compromise and put something that is less dense. He said they will conduct a traffic study.

Mr. Brooker said this is a transitional area. He said they believe they are proposing a transition of the sizing and density requirements. He said it is compatible.

Upon question, Mr. Nance said there is an issue with line capacity in that area.

Upon question, Mr. Howerton said we do not get into the details on the septic tanks that are permitted by the state. He discussed looking at the classification of the soils, the requirements for the depth separation, and the bottom of the mountain system. He said they would look at the separation with the seasonal water table and the types of soil.

Upon question, Mr. Nance said Saddle Creek Park is a significant distance and the Lake Myrtle Sports Complex would be the go-to park for this property. He confirmed that pedestrian access would be limited for a recreation area. He said the recreation is a percentage of the open space. He said the stormwater ponds will count as open space if there is a trail around it and buffered. He said there will be sidewalks on both sides of the internal roads and also on the frontage.

Commissioner Scott said looking at properties to the south and the smallest he his able to find .32 acres on the south side of Old Dixie Highway. He said there is not a lot of compatible development around it.

Mr. Brooker said there are similar size lots in the area. He said this provides a compatible transition. He said the septic sizing and determination is done with the building permit. He said it is considered with the soil testing and the size of the drain field and tanks are specific to the house. He said that is vetted through the Building Department, Health Department and the state.

Commissioner Troutman said compatibility does not mean 1.15 acres to 1.15 acres. She said when you look at the table and the surrounding uses with the transitions from less intense to more intense this is a perfect spot to where that transition is occurring.

Commissioner Scott said this site plan as presented is not compatible with the

surrounding area. He said looking at the abutting lot sizes makes this not compatible.

Commissioner Braswell said someone found land and is shoehorning a development into the middle of it. He said this is a pocket of density being stuck into areas of lower density. He said it is house next to house but he does not see it compatible being that it is an enclave of housing. He said he will support denial.

Commissioner Wilson said we do see this around and it is not compatible.

Commissioner Troutman said she is looking at staff and the Planning Commissions' recommendation of approval. She said when she considers compatible she sees this as a transition area. She said she will not support denying this.

Chair Santiago said there are at least 60 foot lots and higher that are being approved. She said she is not going to support a denial.

P. REQUEST FROM THE GENERAL PUBLIC/AUDIENCE AND OPPORTUNITY TO BE HEARD

P.1. Comments.

Minutes: Ashley Schilling discussed her son's death in a motorcycle accident. She said a car pulled out in front of him and he was declared dead on the scene. She said that the driver of the car was talked out of giving a blood sample and the paramedic said it could be used against him. She said EMS seeing there was no policy in place now has a policy is in place ensuring that this never happens again. She said she found out that Florida was not a state that did not have a law for a mandatory blood draw on the scene of a fatality. She said if this law was in place the outcome of her son's case would be different. She said she is trying to pass a law called Blues Law for a mandatory blood draw for an accident with a fatality. She said a law would have stricter punishments for someone who hit and killed someone on a motorcycle. She said her son was 19 years old and this will help so many families to not go through what she went through. She said the person who killed her son got a slap on the wrist and is walking free.

County Manager Bill Beasley said they will talk to the Legislative Delegation and consider it as part of their priority in the legislative session.

County Attorney Randy Mink said the Board can support this and see if they can find a sponsor in the legislature.

Commissioner Troutman said sorry to Ms. Schilling for her situation and thanked her for being here. She said we found that there was a policy lacking and because of her

advocacy that policy is now in place and will help other families going forward.

Debbie Hicks said Animal Control is so much better than it used to be. She said that she had a tour and she believes Captain Varnadore has a vision to change the facility. She said she went to the dog event the past weekend and the cages were big and the dogs were relaxed. She said it was amazing.

Commissioner Scott said critical feedback is good and that is how we get better. He said he appreciates Ms. Hicks' professionalism. He said the sheriff does care about the animals. He said they will not see eye-to-eye on a new building. He will always support making it better.

Eve Salimbene congratulated the shelter and Commissioner Scott for doing some good things. She discussed the feline panleukopenia outbreak and said without an isolation space it is coming out of Animal Control. She said quarantine space is not optional and there are ways to work around this. She discussed the need for an advisory group.

Commissioner Scott asked for Ms. Salimbene to send her thoughts for a quarantine area.

Donna Jean Pyne said she bought 28 acres of land and she is concerned about a data center. She said some of the largest corporations are coming to Florida for cheap electricity and water. She discussed Lakeland Electric and said that a demand cost is charged for solar panels. She asked for no non-disclosure agreements or tax exemptions.

Commissioner Troutman said we have no jurisdiction with what happens with Project Swan.

Rebecka Mclachan said she is an educator and said there is a need to be informed. She said we do not always get accurate news. She said she is starting a community news with digital publication about what is going on to represent. She said she will be contacting the Board to see how she can be more involved. She said she wants to lay out the facts and people should be informed. She said it will be called the Citrus Tea.

Chair Santiago said one of our biggest challenges is getting the information out. She said she has a huge task in front of her.

Cassandra Richards said she has missed them. She said they had a huge meeting with Highland Park and she is trying to get a food bank out there. She said she is here to serve until the day she dies.

Jaxon Samplos said he is here to speak about the Lakeland data center. He spoke in opposition and said Israel is buying our government out. He said God is watching and we the people will not let it happen.

Brad Barker spoke in opposition to the data center. He said there are environmental concerns and the economics will not work out.

Meeting adjourned at 1:26 p.m.

Agenda Item D.1. 6/16/2026

SUBJECT

Approve Consent Agenda.

DESCRIPTION

All items on the Consent Agenda are approved in one motion.

RECOMMENDATION

Approve Consent Agenda.

FISCAL IMPACT

No fiscal impact.

evalle@polkclerkfl.gov

Agenda Item E.1. 6/16/2026

SUBJECT

Approval of precinct changes resulting from newly created districts for US House of Representatives, Florida House of Representatives, and the Florida Senate, as recommended by Melony Bell, Polk County Supervisor of Elections (No fiscal impact).

DESCRIPTION

The Florida Constitution establishes that the Legislature redraws district boundaries following each decennial census. Congressional and legislative district boundaries were subsequently modified through legislative actions, most recently through the enactment of HB 1-D, which was signed into law on May 4, 2026. These changes require corresponding updates to county voting precinct boundaries.

Florida Statute 101.001 states, “The board of county commissioners in each county, upon recommendations and approval of the supervisor, shall alter or create precincts for voting in the county. Each precinct shall be numbered and, as nearly as practicable, composed of contiguous and compact areas.

RECOMMENDATION

Request Board approve precinct changes as recommended by the Polk County Supervisor of Elections, Melony Bell.

FISCAL IMPACT

No fiscal impact.

Agenda Item G.1. 6/16/2026

SUBJECT

Confirm Appointment of Mr. Scott Lowery to serve as the Director of the Real Estate Services Division.

DESCRIPTION

The Polk County Charter specifies the county manager's appointment of executive service employees is subject to confirmation by the Board of County Commissioners.

The County Manager has appointed Scott Lowery to the position of Director of the Polk County Real Estate Services Division, effective August 10, 2026.

Mr. Lowery has served Polk County since 2009 and currently serves as Support Manager for the Real Estate Services Division. In this role, he manages division operations, assists with multimillion-dollar capital improvement program budgets, coordinates complex real estate acquisition projects and provides leadership and guidance to division staff.

Prior to his current position, Mr. Lowery served as Senior Right-of-Way Agent and Right-of-Way Agent I/II, where he managed right-of-way acquisition activities, reviewed legal documentation, coordinated public hearing items, and negotiated property acquisitions for County infrastructure projects. Before joining Polk County, he spent more than a decade in the title and settlement services industry managing office operations, personnel, closings, title examinations, and financial administration.

Mr. Lowery holds a Bachelor of Science in Economics from Kansas State University and earned his Certified Public Manager (CPM) designation through Florida State University. He has also served on several local advisory and regulatory boards, demonstrating a strong commitment to public service and community engagement.

RECOMMENDATION

Recommend the Board confirm the Manager's Appointment of Mr. Scott Lowery to serve as the Real Estate Services Division Director, effective August 10, 2026.

FISCAL IMPACT

The Real Estate Services Director is an authorized position in the adopted budget, and the existing appropriations are sufficient to cover the negotiated base salary of $132,017.00 and employment benefits at approximately $37,188.00.

Agenda Item G.2. 6/16/2026

SUBJECT

Request Board approve construction contract with Jr. Davis Construction Company., Inc. for the Thompson Nursery Road Extension Phase 1 - Segment 1 project. ($33,523,440.79 one-time expense)

DESCRIPTION

The Roads and Drainage Division requested that Procurement solicit bids from qualified contractors for the construction of the Thompson Nursery Road Extension in Winter Haven. The project limits begin at SR 540 and US 17 and extend approximately 1.9 miles to the southeast, ending south of Rifle Range Road (CR 655) and Eloise Loop Road. The scope of work includes, but is not limited to, roadway construction, drainage improvements, pedestrian features, signing and pavement markings, traffic signal installation, and maintenance of traffic.

This project is intended to enhance multimodal mobility along the new roadway with accommodation for pedestrians and bicyclists and will provide bridges over the Wahneta Farms Drainage Canal. Intersections have been designed to improve safety and enhance traffic operations. The new roadway will include curb and gutter and a stormwater collection system to improve drainage conditions.

Bid 25-420, Thompson Nursery Road Extension Phase 1 - Segment 1 project was issued, and seven contractors submitted a bid.

Company	Location	Total
Jr. Davis Construction Company., Inc.	Kissimmee, FL	$ 33,273,440.79
Prince Contracting, LLC	Tampa, FL	$ 33,634,540.00
Cone & Graham, Inc	Tampa, FL	$ 35,532,500.00
Watson Civil Construction, Inc.	St. Augustine, FL	$ 36,484,516.85
Crisdel Group, Inc.	Tampa, FL	$ 38,693,021.37
Hubbard Construction Company	Winter Park, FL	$ 38,915,498.84
RCS Construction Company, Inc	Clermont, FL	$ 42,288,028.88

A recommendation of award was issued to Jr. Davis Construction Company., Inc. and no protests were received. In accordance with Resolution No. 13-066, $250,000.00 was added to the contract for allowance work for a total contract amount of $ 33,523,440.79. The contract time for this project is 1,033 days to final completion. Allowance time for the project is 60 days.

This project is partially funded through a state funded Local Agency Program (LAP) through the Florida Department of Transportation (FDOT). The FDOT has reviewed the documents and approves

the County to enter into a construction contract with the lowest responsive bidder Jr. Davis Construction Company., Inc.

RECOMMENDATION

Request Board approve a construction contract with Jr. Davis Construction Company, Inc. in the amount of $33,523,440.79 for Bid 25-420, Thompson Nursery Road Extension Phase 1 - Segment 1.

FISCAL IMPACT

Funding is budgeted in a Special Revenue Grant Fund and the Impact Fee Zone A Fund in the 5 Year CIP.

PART E

CONTRACT

This Contract is entered into as of the date last executed, (the "Effective Date), by and between Polk County, a political subdivision of the State of Florida, hereinafter referred to as the "County", and **JR. DAVIS CONSTRUCTION COMPANY, INC.** its successors, executors, administrators and assigns, hereinafter referred to as the "Contractor".

WITNESSETH: Whereas the Contractor agrees with the County, for the consideration herein mentioned, and at its own proper cost and expense, to perform all the Work and furnish all the material, equipment, supplies and labor necessary to carry out this agreement in the manner and to the fullest extent as set forth in the attached Bid documents, being hereby made as such a binding part of this Contract as if written word for word herein, and whereas the Contractor has furnished satisfactory Bond and has complied with insurance requirements of the Specifications in Bid 25-420.

NOW THEREFORE, the County and the Contractor do hereby agree as follows:

Article 1. Scope of Work: The Contractor shall perform in accordance with the attached Bid Documents, all the items of Work at the unit prices or lump sum price as listed in the Contractor's Bid Submittal.
Article 2. Contract Price: The Contract price includes the total bid price of $ **33,273,440.79** plus the Allowance Work amount of $ **250,000.00** the total sum being $ **33,523,440.79**. This total contract price shall be reduced by the unused amount of the allowance, if such Work is not completed.

Article 3. Plans and Specifications: The plans and specifications, and other Bid Documents upon which the unit or lump sum prices in the Contractor's Bid Submittal are based, are hereby made a part of this Contract by reference thereto; and are attached hereto.

Article 4 Time of Beginning and Completion: The Contractor agrees to begin Work within 10 calendar days after issuance of a Notice to Proceed by the Procurement Division. The Contractor will complete all Work necessary to reach Substantial Completion within **1,003** calendar days from the Start Date memorialized within the Notice to Proceed. The County and the Contractor agree the balance of all Work to be performed after execution of the Certificate of Substantial Completion shall be complete within **30** days from the date noted on the Certificate of Substantial Completion and shall be evidenced by execution of the Certificate of Final Completion. The Certificate of Final Completion shall be executed by both parties once all Work has been performed and all close out paperwork submitted and processed by the County. Total days for this project are **1,033** days. The allowance time for this project is **60** days.

Article 5. Payment for Quantities: Payment for those items requiring payment on a unit price basis will be made for the actual unit quantities, as provided for in the Technical Specifications.

Article 6. Partial Payments: Payment will be made to the Contractor for the Contract Work actually performed by the Contractor (during the previous calendar month) and approved by the County subject, however, to retention by the County of an amount equal to five percent (5%) of the payment due until such time retainage is reduced in accordance with F. S. 218.735.

Article 7. Final Acceptance and Payment: Upon completion of the Work or as soon thereafter as practicable, the County and Professional shall make a final inspection and, if appropriate, acceptance of the Work, after which Contractor shall prepare a final estimate of all Work completed under this Contract. Payment therefore of the balance due shall be made in accordance with the Contract provisions. Payment on the final estimate shall include the full amount for the Work completed, based on the unit prices or lump sum of this Contract, subject, however, to the deduction of any payments already made under this Contract to the Contractor.

Article 8. Contract Documents: The Contactor and Polk County Procurement shall each obtain a photocopy of this Contract once it is executed. This original Contract shall be retained by the Clerk of Courts, County Comptroller once it is executed.

IN WITNESS THEREOF, the parties hereto have executed this Contract.

Florida Department of State, Division of Corporations

ORDINANCE NO. 2025-020

AN ORDINANCE OF THE POLK COUNTY BOARD OF COUNTY COMMISSIONERS PROVIDING PROCEDURE REQUIREMENTS TO CLOSE POLK COUNTY-OWNED ROADS; PROHIBITING ROAD CLOSURES EXCEEDING FIVE DAYS WITHOUT THE APPROVAL OF THE POLK COUNTY BOARD OF COUNTY COMMISSIONERS; PROVIDING CERTAIN EXEMPTIONS; PROVIDING FOR COMPLIANCE, ENFORCEMENT, AND PENALTIES; PROVIDING AN EFFECTIVE DATE.

WHEREAS, Polk County is responsible for the maintenance of existing county-owned roadway and drainage infrastructure and the construction of new infrastructure to provide safe roadways for residents and visitors; and

WHEREAS, at times, these roadway construction projects require road closures that impede traffic; and

WHEREAS, for the safety of the traveling public and those performing work in the right of way, road closures are required; and

WHEREAS, road closures severely inconvenience the general public and increase traffic on detour roads; and

WHEREAS, it is in the interest of public health, safety, and welfare for the Polk County Board of County Commissioners to improve the policies and procedures concerning road closures in order to ensure that road closures are granted only in instances when no other option exists and for the shortest time required to complete the necessary roadway construction projects;

NOW, THEREFORE, BE IT ORDAINED BY THE BOARD OF COUNTY COMMISSIONERS OF POLK COUNTY, FLORIDA, THAT:

SECTION 1. INCORPORATION OF RECITALS:

The above recitals are hereby fully incorporated in the body of this Ordinance.

SECTION 2. DEFINITIONS:

(A) Road closure – the closing, detouring, or otherwise restricting all lanes of traffic on a county road for more than two (2) hours.
(B) Road Closure Request Form – the application that must be completed and submitted to the Division when requesting a road closure.
(C) Division – the Roads and Drainage Division, which is the division of Polk County government responsible for the maintenance of existing county-owned roadway

and drainage infrastructure and the construction of new infrastructure to provide safe roadways; or the Land Development Division, which is the division responsible for approval of improvements to the road infrastructure associated with development; or any other division designated by the County Manager to carry out the provisions of this Ordinance.

SECTION 3. PROHIBITION OF COUNTY ROAD CLOSURES WITHOUT COUNTY APPROVALS:

County road closures not approved in accordance with this Ordinance or exceeding the time period(s) approved in accordance with this Ordinance are hereby prohibited.

SECTION 4. PROCEDURAL REQUIREMENTS FOR A ROAD CLOSURE:

(A) The Division shall review all requests, set conditions for same, and authorize or deny road closure requests for five (5) days or less for roads that are classified as "collector roads" in the County's road inventory and road closure requests for thirty (30) days or less for roads that are classified as "local residential roads" in the County's road inventory.

(B) Road closure requests exceeding five (5) days for roads that are classified as "collector roads" in the County's road inventory, road closure requests exceeding thirty (30) days for roads that are classified as "local residential roads" in the County's road inventory, and all requests for extensions to previously granted road closures, must be submitted to the Division for initial review to confirm compliance with this Ordinance. Upon completion of the initial review by the Division, the request will be placed on agenda of the Polk County Board of County Commissioners to approve, approve with conditions, or deny. Whether to approve a road closure shall be at the sole discretion of the Polk County Board of County Commissioners acting in its legislative capacity after considering what is in the best interest of the public. Nothing herein shall create a right for an individual, corporation, or other entity to have a road closed at any time.

(C) All applicants seeking a road closure must complete a Road Closure Request Form approved by the Division and must include the following:

a. An aerial location map depicting the work zone location with northing arrow and major roads labeled;
b. A traffic control plan that contains a detour route, the location of signs and devices, and required message boards;
c. Reason(s) for the road closure;
d. Any additional information required by the Division.

In addition:

e. All requests for an extension must have the originally approved Road Closure Request Form; and
f. All road closure requests exceeding fourteen (14) days must also contain a Road Closure Agreement signed by the applicant (*See* Section 4(F)).

(D) The reason(s) for the road closure must be specific and justifiable. Road closure approvals will only be granted upon the following conditions:
a. All other possible alternatives have been explored and found to be impossible or impractical;
b. The road closure enhances public safety;
c. The road closure is necessary to mitigate hazardous working conditions; and
d. The road closure is not merely for the convenience of the applicant, contractor, or requesting party.

(E) Road closure approvals will only be granted for the shortest time required to complete the indicated scope of work.

(F) Road closures exceeding fourteen (14) days require the applicant to enter into a Road Closure Agreement with Polk County at least three (3) days prior to the scheduled closure date. The Road Closure Agreement shall contain the following terms and conditions:
a. The approved date of completion;
b. An "Extensions Clause" that allows Polk County, in its sole discretion, to grant extensions of the road closure due to unforeseen delays;
c. A "Liquidated Damages Clause" whereby the applicant must pay liquidated damages for each calendar day that the applicant fails to reopen the roadway;
d. A "Letter of Credit Clause" whereby the applicant agrees to provide an irrevocable standby Letter of Credit payable to Polk County in an amount that is reasonable to cover the project costs;
e. An "Indemnification Clause" whereby the applicant shall indemnify Polk County; and
f. Any other term or condition that may be deemed reasonable or necessary.

(G) All road closure requests that do not exceed five (5) days must be submitted at least ten (10) working days prior to the anticipated date of closure. Road closures exceeding five (5) days must be submitted at least forty-five (45) working days prior to the anticipated date of closure. The road may not be closed without written approval by the County in accordance with this Ordinance.

(H) Once a road closure request is approved, the applicant must display signage announcing the road closure. Said signage must be displayed for at least five (5) days prior to the date of the road closure and in a conspicuous location in both directions of travel.

SECTION 5. EXEMPTIONS:

The following circumstances are exempt from this Ordinance:

(A) An emergency road closure in response to an act of God or other sudden unexpected event or any occurrence, or threat thereof, whether natural, technological, or manmade, in war or peace, which results or may result in substantial injury or harm to the population or substantial damage or loss of property. In said case of emergency, the Division must be informed as soon as reasonably possible, but no more than twenty-four (24) hours, and the County Manager or the County Manager's designee must approve the road closure.
(B) Road closures effected by Polk County and approved by the Division.
(C) CSX road closures for railroad work.
(D) Road closures due to utility work.
(E) Road closures associated with municipality work.

SECTION 6. COMPLIANCE, ENFORCEMENT, AND PENALTIES:

(A) The Roads and Drainage, Code Enforcement, Land Development, and Utilities Divisions shall ensure compliance and enforcement. In addition, the County's Code Enforcement Officers, the Polk County Sheriff's Office, and any other person authorized to enforce County ordinances may enforce provisions of this Ordinance.
(B) Any enforcement action or legal remedy that shall be available under controlling state law, including, but not limited to, prosecution in the same manner as a misdemeanor with a fine not exceeding Five Hundred Dollars ($500.00) or by imprisonment for a term not exceeding sixty (60) days or by both fine and imprisonment, may be imposed as a penalty. When enforced by a Code Enforcement Officer, the enforcement provisions and procedures contained in the Polk County Code Enforcement Special Magistrate Ordinance, as may be amended, are incorporated herein by reference and will apply. Nothing stated in this Section shall prevent the County from taking such other lawful action in law and equity as may be necessary to remedy any violation of any part of this Ordinance, including without limitation, pursuit of injunctive relief and/or

declaratory relief in a court of competent jurisdiction or utilizing any other action or enforcement method permitted by law.

SECTION 7. STATUTORY CONSTRUCTION AND SEVERABILITY:

The provisions of this Ordinance are severable. If any of the provisions of this Ordinance shall be held unconstitutional or unenforceable by any court of competent jurisdiction, the decision of such court shall not affect or impair any of the remaining provisions of this Ordinance. It is hereby declared to be the legislative intent that this Ordinance would have been adopted had such an unconstitutional provision not been included herein.

SECTION 8. EFFECTIVE DATE:

This Ordinance shall become effective upon filing a certified copy with the Florida Department of State.

STATE OF FLORIDA)
)
COUNTY OF POLK)

I Stacy M. Butterfield, County Clerk and Comptroller for Polk County, Florida, hereby certify that the foregoing is a true and correct copy of Ordinance No. 2025-020 adopted by the Board on April 1, 2025

WITNESS my hand and official seal on this 1st day of April 2025.

For Your Information: What You Need To Know About Tangible Personal Property

Every individual or firm doing business and located in Polk County is also subject to the tangible personal property requirement.

An initial tangible personal property tax return is required to be filed with the Polk County Property Appraiser's Office by April 1st of the year after the business opens. The initial return is required if the business owns or leases any personal property, without regard to the value of that personal property. In subsequent years, however, no return is required unless the combined value of all business equipment is more than 25,000 dollars.

To file an initial tangible personal property tax return or for additional information, visit Polk County Property Appraiser's Office website, polkpa.org.

Bond No: 30275543

EXHIBIT II (cont'd): PERFORMANCE BOND

KNOW ALL MEN BY THESE PRESENTS: That Jr. Davis Construction Company, Inc., as Principal, and Western Surety Company, as Surety, located at 151 N. Franklin Street, Chicago, IL 60606 (Business Address) are held and firmly bound unto Polk County, a political subdivision of the State of Florida, as Obligee, in the sum of Dollars ($33,523,440.79) in lawful currency of the United States, for the payment whereof we bind ourselves, successors, and assigns, jointly and severally, firmly by these presents.

THE CONDITION OF THIS BOND is that if the Principal:

1. Promptly, faithfully, efficiently and fully performs all work, services, duties and obligations set forth and described in that certain purchase order dated _____, 20___ (the "Purchase Order") between Principal and Obligee for performance of providing protective measure – overhead doors, at the times and in the manner proscribed in the Purchase Order; and
2. Pays Obligee all losses, damages (liquidated or actual), expenses, costs, and attorney's fees, including, without limitation, costs and attorney's fees on appeal, that Obligee sustains resulting directly or indirectly from any breach or default by Principal under the Purchase Order; and
3. Performs the guarantee of all work and materials furnished under the Purchase Order for the time specified therein; and
4. Satisfies all claims and demands incurred under the Purchase Order, and fully indemnifies and holds harmless the Obligee from all costs and damages which it may suffer by reason or failure to do so;

then the Surety shall have no obligation under this Performance Bond.

In the event that the Principal shall fail to perform any of the terms, covenants and conditions of the Purchase Order during the period in which this Performance Bond is in effect, the Surety shall remain liable to the Obligee for all such loss or damage (including reasonable attorney's fees and costs and attorney's fees on appeal) resulting from any failure to perform up to the amount of the sum stated above.

In the event that the Surety fails to fulfill its obligations under this Performance Bond, then the Surety shall also indemnify and hold the Obligee harmless from any and all loss, damage, cost and expense, including reasonable attorney's fees and costs for all trial and appellate proceedings, resulting directly or indirectly from the Surety's failure to fulfill its obligations hereunder. This paragraph shall survive the termination or cancellation of this Performance Bond.

The Surety, for value received, hereby stipulates and agrees that its obligations hereunder shall be direct and immediate and not conditional or contingent upon the Obligee's pursuit of its remedies against Principal, shall remain in full force and effect notwithstanding (i) amendments or modifications to the Purchase Order entered into by Obligee and Principal without the Surety's knowledge or consent (ii) waivers of compliance with or any default under the Purchase Order granted by Obligee to Principal without the Surety's knowledge or consent, or (iii) the discharge of Principal from its obligations under the Purchase Order as a result of any proceeding initiated under the Bankruptcy code of 1978, as the same may be amended, or any similar state or federal law, or any limitation of the liability or Principal or its estate as a result of any proceeding.

Any changes in or under the Purchase Order and compliance or non-compliance with any formalities connected with the Purchase Order or the changes shall not affect Surety's obligation under this Performance Bond. The Principal shall notify the Surety of all such changes.

Reference is hereby made to Section 255.05, Florida Statutes, and to the notice and time limitation provisions thereof.

IN WITNESS WHEREOF, this instrument is executed this _____ day of _____, 20__.

Orlando, FL 32801 (407)843-1120

EXHIBIT III: PAYMENT BOND

KNOW ALL MEN BY THESE PRESENTS: That Jr. Davis Construction Company, Inc, as Principal, and Western Surety Company, as Surety, located at 151 N. Franklin Street, Chicago, IL 60606 (Business Address) are held and firmly bound unto Polk County, a political subdivision of the State of Florida, as Obligee in the sum of Thirty Three Million, Five Hundred Twenty Three Thousand, Four Hundred Forty and 79/100 Dollars ($33,523,440.79) in lawful currency of the United States, for the payment whereof we bind ourselves, successors, and assigns, jointly and severally, firmly by these presents.

THE CONDITION OF THIS BOND is that if the Principal:

1. Promptly makes payments to all claimants, as defined in Section 255.05(1), Florida Statutes, supplying Principal with labor, materials, or supplies, used directly or indirectly by Principal in the prosecution of the work provided under and in accordance with that certain purchase order dated _____, 20__ (the "Purchase Order") between Principal and Obligee for; 25--420 Thompson Nursery Road Extension Phase 1 - Segment 1.

then the Surety shall have no obligation under this Payment Bond.

Any action instituted by a claimant under this bond for payment must be in accordance with the notice and time limitation provisions in Section 255.05(2), Florida Statutes.

In the event that the Principal shall fail to promptly make payment to any claimant as described above during the period in which this Payment Bond is in effect, the Surety shall remain liable to the Obligee for all such loss or damage (including reasonable attorney's fees and costs and attorney's fees on appeal) resulting from any such failure up to the amount of the sum stated above.

In the event that the Surety fails to fulfill its obligations under this Payment Bond, then the Surety shall also indemnify and hold the Obligee harmless from any and all loss, damage, cost and expense, including reasonable attorney's fees and costs for all trial and appellate proceedings, resulting directly or indirectly from the Surety's failure to fulfill its obligations hereunder. This paragraph shall survive the termination or cancellation of this Payment Bond.

The Surety, for value received, hereby stipulates and agrees that its obligations hereunder shall be direct and immediate and not conditional or contingent upon the Obligee's pursuit of its remedies against Principal, shall remain in full force and effect notwithstanding (i) amendments or modifications to the Purchase Order entered into by Obligee and Principal without the Surety's knowledge or consent (ii) waivers of compliance with or any default under the Purchase Order granted by Obligee to Principal without the Surety's knowledge or consent, or (iii) the discharge of Principal from its obligations under the Purchase Order as a result of any proceeding initiated under the Bankruptcy code of 1978, as the same may be amended, or any similar state or federal law, or any limitation of the liability or Principal or its estate as a result of any proceeding.

Any changes in or under the Purchase Order and compliance or non-compliance with any formalities connected with the Purchase Order or the changes does not affect Surety's obligation under this Payment Bond. The Principal shall notify the Surety of all such changes.

Reference is hereby made to Section 255.05, Florida Statutes, and to the notice and time limitation provisions thereof.

POWER OF ATTORNEY APPOINTING INDIVIDUAL ATTORNEY-IN-FACT

Know All Men By These Presents, That WESTERN SURETY COMPANY, a South Dakota corporation, is a duly organized and existing corporation having its principal office the City of Sioux Falls, and State of South Dakota, and that it does by virtue of the signature and seal herein affixed hereby make, constitute and appoint

Joseph D Johnson Jr, Francis T O'Reardon, Brett A Ragland, Joseph D Johnson III, Kanani Cordero, Tyler Ragland, Tanner Ragland, Individually

of Orlando, FL, its true and lawful Attorney(s)-in-Fact with full power and authority hereby conferred to sign, seal and execute for and on its behalf bonds, undertakings and other obligatory instruments of similar nature - **In Unlimited Amounts** - and to bind it thereby as fully and to the same extent as if such instruments were signed by a duly authorized officer of the corporation and all the acts of said Attorney, pursuant to the authority hereby given, are hereby ratified and confirmed.

This Power of Attorney is made and executed pursuant to and by authority of the Authorizing By-Laws and Resolutions printed at the bottom of this page, duly adopted, as indicated, by the shareholders of the corporation.

In Witness Whereof, WESTERN SURETY COMPANY has caused these presents to be signed by its Vice President and its corporate seal to be hereto affixed on April 21, 2026.

WESTERN SURETY COMPANY

Larry Kasten, Vice President

State of South Dakota }
County of Minnehaha } ss

On April 21, 2026, before me personally came Larry Kasten, to me known, who, being by me duly sworn, did depose and say: that he resides in the City of Sioux Falls, State of South Dakota; that he is the Vice President of WESTERN SURETY COMPANY described in and which executed the above instrument; that he knows the seal of said corporation; that the seal affixed to the said instrument is such corporate seal; that it was so affixed pursuant to authority given by the Board of Directors of said corporation and that he signed his name thereto pursuant to like authority, and acknowledges same to be the act and deed of said corporation.

My commission expires

December 4, 2031

K. WALSH
NOTARY PUBLIC
SOUTH DAKOTA

K. Walsh, Notary Public

CERTIFICATE

I, P. Kolsrud, Assistant Secretary of WESTERN SURETY COMPANY do hereby certify that the Power of Attorney hereinabove set forth is still in force, and further certify that the By-Laws and Resolutions of the corporation printed below are still in force. In testimony whereof I have hereunto subscribed my name and affixed the seal of the said corporation on _____.

WESTERN SURETY COMPANY

P. Kolsrud, Assistant Secretary

Authorizing By-Laws and Resolutions

ADOPTED BY THE SHAREHOLDERS OF WESTERN SURETY COMPANY

This Power of Attorney is made and executed pursuant to and by authority of the following By-Law duly adopted by the shareholders of the Company.

Section 7. All bonds, policies, undertakings, Powers of Attorney, or other obligations of the corporation shall be executed in the corporate name of the Company by the President, Secretary, and Assistant Secretary, Treasurer, or any Vice President, or by such other officers as the Board of Directors may authorize. The President, any Vice President, Secretary, any Assistant Secretary, or the Treasurer may appoint Attorneys in Fact or agents who shall have authority to issue bonds, policies, or undertakings in the name of the Company. The corporate seal is not necessary for the validity of any bonds, policies, undertakings, Powers of Attorney or other obligations of the corporation. The signature of any such officer and the corporate seal may be printed by facsimile.

This Power of Attorney is signed by Larry Kasten, Vice President, who has been authorized pursuant to the above Bylaw to execute power of attorneys on behalf of Western Surety Company.

This Power of Attorney may be signed by digital signature and sealed by a digital or otherwise electronic-formatted corporate seal under and by the authority of the following Resolution adopted by the Board of Directors of the Company by unanimous written consent dated on April 27, 2022:

"RESOLVED: That it is in the best interest of the Company to periodically ratify and confirm any corporate documents signed by digital signatures and to ratify and confirm the use of a digital or otherwise electronic-formatted corporate seal, each to be considered the act and deed of the Company."

Re: Project: Bid #25-420; Thompson Nursery Road Extension Phase 1 – Segment 1

Dear Ms. Shirah:

This letter is to confirm, on behalf of Western Surety Company, that the Bid Bond submitted by Jr. Davis Construction Company, Inc. in connection with the above-referenced project was issued in the amount of five percent (5%) of the total bid.

The corresponding five percent (5%) bid bond amount is $1,663,672.04.

Please consider this letter as formal confirmation of the bid bond amount as requested by Procurement. Should you require any additional information or documentation, please do not hesitate to contact me.

Sincerely,

Greg Venturoni, AFSB

PART D – EXHIBITS

EXHIBIT I

BID BOND

KNOW ALL MEN BY THESE PRESENTS, that we Jr. Davis Construction Company, Inc. (hereinafter called the Principal) and Western Surety Company (hereinafter called the Surety), a Corporation chartered and existing under the Laws of the State of South Dakota, and authorized to do business in the State of Florida, are held and firmly bound unto the Board of County Commissions, Polk County, Florida, in the full and just sum of Five Percent of the Bid Amount dollars ($ 5% of Bid) good and lawful money of the United States of America, to be paid upon demand of the County, to which payment will and truly be made, we bind ourselves, our heirs, executors, administrators, successors, and assigned jointly and severally and firmly by these presents.

WHEREAS, the Principal is about to submit, or has submitted to the County, a Bid Submittal for the purpose of Bid #25-420: Thompson Nursery Road Extension Phase 1 – Segment 1

NOW THEREFORE, the conditions of this obligation are such if the Bid Submittal is accepted and recommended for award of a contract, the Principal shall, execute a satisfactory contract documents including an executed Performance and Payment Bond payable to County, in the amount of 100 percent (100%) of the total Contract Price, in form and with surety satisfactory to said County, then this obligation to be void, otherwise to be and remaining full force and virtue in law, and the surety shall, upon failure of the Principal to comply with any or all of the foregoing requirements, immediately pay to the aforesaid County, upon demand, the amount of this Bond, in good and lawful money of the United States of America, not as a penalty, but as liquidated damages.

In the event the numerical expression is omitted or expressed as less than five percent (5%) of the total bid price, this figure shall be assumed to be erroneously stated and this bid bond shall be binding upon the Principal and Surety in the amount of five percent (5%) of the total bid price.

IN TESTIMONY THEREOF, the Principal and Surety have caused these presents to be duly signed and sealed this 4th day of March 20 26.

COPYRIGHT 2000, AMS SERVICES INC.

COMMERCIAL GENERAL LIABILITY COVERAGE FORM

Various provisions in this policy restrict coverage. Read the entire policy carefully to determine rights, duties and what is and is not covered.

Throughout this policy the words "you" and "your" refer to the Named Insured shown in the Declarations, and any other person or organization qualifying as a Named Insured under this policy. The words "we", "us" and "our" refer to the company providing this insurance.

The word "insured" means any person or organization qualifying as such under Section II – Who Is An Insured.

Other words and phrases that appear in quotation marks have special meaning. Refer to Section V – Definitions.

SECTION I – COVERAGES

COVERAGE A – BODILY INJURY AND PROPERTY DAMAGE LIABILITY

1. Insuring Agreement

   a. We will pay those sums that the insured becomes legally obligated to pay as damages because of "bodily injury" or "property damage" to which this insurance applies. We will have the right and duty to defend the insured against any "suit" seeking those damages. However, we will have no duty to defend the insured against any "suit" seeking damages for "bodily injury" or "property damage" to which this insurance does not apply. We may, at our discretion, investigate any "occurrence" and settle any claim or "suit" that may result. But:

      (1) The amount we will pay for damages is limited as described in Section III – Limits Of Insurance; and

      (2) Our right and duty to defend end when we have used up the applicable limit of insurance in the payment of judgments or settlements under Coverages A or B or medical expenses under Coverage C.

      No other obligation or liability to pay sums or perform acts or services is covered unless explicitly provided for under Supplementary Payments.

   b. This insurance applies to "bodily injury" and "property damage" only if:

      (1) The "bodily injury" or "property damage" is caused by an "occurrence" that takes place in the "coverage territory";

      (2) The "bodily injury" or "property damage" occurs during the policy period; and

      (3) Prior to the policy period, no insured listed under Paragraph 1. of Section II – Who Is An Insured and no "employee" authorized by you to give or receive notice of an "occurrence" or claim knew that the "bodily injury" or "property damage" had occurred, in whole or in part. If such a listed insured or authorized "employee" knew, prior to the policy period, that the "bodily injury" or "property damage" occurred, then any continuation, change or resumption of such "bodily injury" or "property damage" during or after the policy period will be deemed to have been known prior to the policy period.

   c. "Bodily injury" or "property damage" which occurs during the policy period and was not, prior to the policy period, known to have occurred by any insured listed under Paragraph 1. of Section II – Who Is An Insured or any "employee" authorized by you to give or receive notice of an "occurrence" or claim, includes any continuation, change or resumption of that "bodily injury" or "property damage" after the end of the policy period.

   d. "Bodily injury" or "property damage" will be deemed to have been known to have occurred at the earliest time when any insured listed under Paragraph 1. of Section II – Who Is An Insured or any "employee" authorized by you to give or receive notice of an "occurrence" or claim:

      (1) Reports all, or any part, of the "bodily injury" or "property damage" to us or any other insurer;

      (2) Receives a written or verbal demand or claim for damages because of the "bodily injury" or "property damage"; or

      (3) Becomes aware by any other means that "bodily injury" or "property damage" has occurred or has begun to occur.

© 2017 The Travelers Indemnity Company. All rights reserved.
Includes copyrighted material of Insurance Services Office, Inc. with its permission.

e. Damages because of "bodily injury" include damages claimed by any person or organization for care, loss of services or death resulting at any time from the "bodily injury".

2. Exclusions

This insurance does not apply to:

a. **Expected Or Intended Injury**

"Bodily injury" or "property damage" expected or intended from the standpoint of the insured. This exclusion does not apply to "bodily injury" or "property damage" resulting from the use of reasonable force to protect persons or property.

b. **Contractual Liability**

"Bodily injury" or "property damage" for which the insured is obligated to pay damages by reason of the assumption of liability in a contract or agreement. This exclusion does not apply to liability for damages:

(1) That the insured would have in the absence of the contract or agreement; or

(2) Assumed in a contract or agreement that is an "insured contract", provided that the "bodily injury" or "property damage" occurs subsequent to the execution of the contract or agreement. Solely for the purposes of liability assumed in an "insured contract", reasonable attorneys' fees and necessary litigation expenses incurred by or for a party other than an insured will be deemed to be damages because of "bodily injury" or "property damage", provided that:

(a) Liability to such party for, or for the cost of, that party's defense has also been assumed in the same "insured contract"; and

(b) Such attorneys' fees and litigation expenses are for defense of that party against a civil or alternative dispute resolution proceeding in which damages to which this insurance applies are alleged.

c. **Liquor Liability**

"Bodily injury" or "property damage" for which any insured may be held liable by reason of:

(1) Causing or contributing to the intoxication of any person;

(2) The furnishing of alcoholic beverages to a person under the legal drinking age or under the influence of alcohol; or

(3) Any statute, ordinance or regulation relating to the sale, gift, distribution or use of alcoholic beverages.

This exclusion applies only if you are in the business of manufacturing, distributing, selling, serving or furnishing alcoholic beverages. For the purposes of this exclusion, permitting a person to bring alcoholic beverages on your premises, for consumption on your premises, whether or not a fee is charged or a license is required for such activity, is not by itself considered the business of selling, serving or furnishing alcoholic beverages.

d. **Workers' Compensation And Similar Laws**

Any obligation of the insured under a workers' compensation, disability benefits or unemployment compensation law or any similar law.

e. **Employer's Liability**

"Bodily injury" to:

(1) An "employee" of the insured arising out of and in the course of:

(a) Employment by the insured; or

(b) Performing duties related to the conduct of the insured's business; or

(2) The spouse, child, parent, brother or sister of that "employee" as a consequence of Paragraph (1) above.

This exclusion applies whether the insured may be liable as an employer or in any other capacity and to any obligation to share damages with or repay someone else who must pay damages because of the injury.

This exclusion does not apply to liability assumed by the insured under an "insured contract".

f. **Pollution**

(1) "Bodily injury" or "property damage" arising out of the actual, alleged or threatened discharge, dispersal, seepage, migration, release or escape of "pollutants":

(a) At or from any premises, site or location which is or was at any time owned or occupied by, or rented or loaned to, any insured. However, this subparagraph does not apply to:

(i) "Bodily injury" if sustained within a building and caused by smoke, fumes, vapor or soot produced by or originating from equipment that

is used to heat, cool or dehumidify the building, or produced by or originating from equipment that is used to heat water for personal use by the building's occupants or their guests;

(ii) "Bodily injury" or "property damage" for which you may be held liable, if you are a contractor and the owner or lessee of such premises, site or location has been added to your policy as an additional insured with respect to your ongoing operations performed for that additional insured at that premises, site or location and such premises, site or location is not and never was owned or occupied by, or rented or loaned to, any insured, other than that additional insured; or

(iii) "Bodily injury" or "property damage" arising out of heat, smoke or fumes from a "hostile fire";

(b) At or from any premises, site or location which is or was at any time used by or for any insured or others for the handling, storage, disposal, processing or treatment of waste;

(c) If such "pollutants" are or were at any time transported, handled, stored, treated, disposed of, or processed as waste by or for:

(i) Any insured; or

(ii) Any person or organization for whom you may be legally responsible;

(d) At or from any premises, site or location on which any insured or any contractors or subcontractors working directly or indirectly on any insured's behalf are performing operations if the "pollutants" are brought on or to the premises, site or location in connection with such operations by such insured, contractor or subcontractor. However, this subparagraph does not apply to:

(i) "Bodily injury" or "property damage" arising out of the escape of fuels, lubricants or other operating fluids which are needed to perform the normal electrical, hydraulic or mechanical functions necessary for the operation of "mobile equipment" or its parts, if such fuels, lubricants or other operating fluids escape from a vehicle part designed to hold, store or receive them. This exception does not apply if the "bodily injury" or "property damage" arises out of the intentional discharge, dispersal or release of the fuels, lubricants or other operating fluids, or if such fuels, lubricants or other operating fluids are brought on or to the premises, site or location with the intent that they be discharged, dispersed or released as part of the operations being performed by such insured, contractor or subcontractor;

(ii) "Bodily injury" or "property damage" sustained within a building and caused by the release of gases, fumes or vapors from materials brought into that building in connection with operations being performed by you or on your behalf by a contractor or subcontractor; or

(iii) "Bodily injury" or "property damage" arising out of heat, smoke or fumes from a "hostile fire"; or

(e) At or from any premises, site or location on which any insured or any contractors or subcontractors working directly or indirectly on any insured's behalf are or were at any time performing operations to test for, monitor, clean up, remove, contain, treat, detoxify or neutralize, or in any way respond to, or assess the effects of, "pollutants".

(2) Any loss, cost or expense arising out of any:

(a) Request, demand, order or statutory or regulatory requirement that any insured or others test for, monitor, clean up, remove, contain, treat, detoxify or neutralize, or in any way respond to, or assess the effects of, "pollutants"; or

© 2017 The Travelers Indemnity Company. All rights reserved.
Includes copyrighted material of Insurance Services Office, Inc. with its permission.

(b) Claim or suit by or on behalf of any governmental authority or any other person or organization because of testing for, monitoring, cleaning up, removing, containing, treating, detoxifying or neutralizing, or in any way responding to, or assessing the effects of, "pollutants".

g. Aircraft, Auto Or Watercraft

"Bodily injury" or "property damage" arising out of the ownership, maintenance, use or entrustment to others of any aircraft, "auto" or watercraft owned or operated by or rented or loaned to any insured. Use includes operation and "loading or unloading".

This exclusion applies even if the claims against any insured allege negligence or other wrongdoing in the supervision, hiring, employment, training or monitoring of others by that insured, if the "occurrence" which caused the "bodily injury" or "property damage" involved the ownership, maintenance, use or entrustment to others of any aircraft, "auto" or watercraft that is owned or operated by or rented or loaned to any insured.

This exclusion does not apply to:

(1) A watercraft while ashore on premises you own or rent;

(2) A watercraft you do not own that is:

(a) 50 feet long or less; and

(b) Not being used to carry any person or property for a charge;

(3) Parking an "auto" on, or on the ways next to, premises you own or rent, provided the "auto" is not owned by or rented or loaned to you or the insured;

(4) Liability assumed under any "insured contract" for the ownership, maintenance or use of aircraft or watercraft;

(5) "Bodily injury" or "property damage" arising out of:

(a) The operation of machinery or equipment that is attached to, or part of, a land vehicle that would qualify as "mobile equipment" under the definition of "mobile equipment" if such land vehicle were not subject to a compulsory or financial responsibility law, or other motor vehicle insurance law, where it is licensed or principally garaged; or

(b) The operation of any of the machinery or equipment listed in Paragraph **f.(2)** or **f.(3)** of the definition of "mobile equipment"; or

(6) An aircraft that is:

(a) Chartered with a pilot to any insured;

(b) Not owned by any insured; and

(c) Not being used to carry any person or property for a charge.

h. Mobile Equipment

"Bodily injury" or "property damage" arising out of:

(1) The transportation of "mobile equipment" by an "auto" owned or operated by or rented or loaned to any insured; or

(2) The use of "mobile equipment" in, or while in practice for, or while being prepared for, any prearranged racing, speed, demolition, or stunting activity.

i. War

"Bodily injury" or "property damage" arising out of:

(1) War, including undeclared or civil war;

(2) Warlike action by a military force, including action in hindering or defending against an actual or expected attack, by any government, sovereign or other authority using military personnel or other agents; or

(3) Insurrection, rebellion, revolution, usurped power, or action taken by governmental authority in hindering or defending against any of these.

j. Damage To Property

"Property damage" to:

(1) Property you own, rent, or occupy, including any costs or expenses incurred by you, or any other person, organization or entity, for repair, replacement, enhancement, restoration or maintenance of such property for any reason, including prevention of injury to a person or damage to another's property;

(2) Premises you sell, give away or abandon, if the "property damage" arises out of any part of those premises;

(3) Property loaned to you;

(4) Personal property in the care, custody or control of the insured;

© 2017 The Travelers Indemnity Company. All rights reserved.
Includes copyrighted material of Insurance Services Office, Inc. with its permission.

(5) That particular part of real property on which you or any contractors or subcontractors working directly or indirectly on your behalf are performing operations, if the "property damage" arises out of those operations; or

(6) That particular part of any property that must be restored, repaired or replaced because "your work" was incorrectly performed on it.

Paragraphs (1), (3) and (4) of this exclusion do not apply to "premises damage". A separate limit of insurance applies to "premises damage" as described in Paragraph 6. of Section III – Limits Of Insurance.

Paragraph (2) of this exclusion does not apply if the premises are "your work" and were never occupied, rented or held for rental by you.

Paragraphs (3), (4), (5) and (6) of this exclusion do not apply to liability assumed under a sidetrack agreement.

Paragraph (6) of this exclusion does not apply to "property damage" included in the "products-completed operations hazard".

k. Damage To Your Product

"Property damage" to "your product" arising out of it or any part of it.

l. Damage To Your Work

"Property damage" to "your work" arising out of it or any part of it and included in the "products-completed operations hazard".

This exclusion does not apply if the damaged work or the work out of which the damage arises was performed on your behalf by a subcontractor.

m. Damage To Impaired Property Or Property Not Physically Injured

"Property damage" to "impaired property" or property that has not been physically injured, arising out of:

(1) A defect, deficiency, inadequacy or dangerous condition in "your product" or "your work"; or

(2) A delay or failure by you or anyone acting on your behalf to perform a contract or agreement in accordance with its terms.

This exclusion does not apply to the loss of use of other property arising out of sudden and accidental physical injury to "your product" or "your work" after it has been put to its intended use.

n. Recall Of Products, Work Or Impaired Property

Damages claimed for any loss, cost or expense incurred by you or others for the loss of use, withdrawal, recall, inspection, repair, replacement, adjustment, removal or disposal of:

(1) "Your product";

(2) "Your work"; or

(3) "Impaired property";

if such product, work, or property is withdrawn or recalled from the market or from use by any person or organization because of a known or suspected defect, deficiency, inadequacy or dangerous condition in it.

o. Personal And Advertising Injury

"Bodily injury" arising out of "personal and advertising injury".

p. Electronic Data

Damages arising out of the loss of, loss of use of, damage to, corruption of, inability to access, or inability to manipulate "electronic data".

However, this exclusion does not apply to liability for damages because of "bodily injury".

q. Unsolicited Communication

"Bodily injury" or "property damage" arising out of any actual or alleged violation of any law that restricts or prohibits the sending, transmitting or distributing of "unsolicited communication".

r. Access Or Disclosure Of Confidential Or Personal Information

"Bodily injury" or "property damage" arising out of any access to or disclosure of any person's or organization's confidential or personal information.

s. Asbestos

(1) "Bodily injury" or "property damage" arising out of the actual or alleged presence or actual, alleged or threatened dispersal of asbestos, asbestos fibers or products containing asbestos, provided that the "bodily injury" or "property damage" is caused or contributed to by the hazardous properties of asbestos.

© 2017 The Travelers Indemnity Company. All rights reserved.
Includes copyrighted material of Insurance Services Office, Inc. with its permission.

(2) "Bodily injury" or "property damage" arising out of the actual or alleged presence or actual, alleged or threatened dispersal of any solid, liquid, gaseous or thermal irritant or contaminant, including smoke, vapors, soot, fumes, acids, alkalis, chemicals and waste, and that are part of any claim or "suit" which also alleges any "bodily injury" or "property damage" described in Paragraph (1) above.

(3) Any loss, cost or expense arising out of any:

(a) Request, demand, order or statutory or regulatory requirement that any insured or others test for, monitor, clean up, remove, contain, treat, detoxify or neutralize, or in any way respond to, or assess the effects of, asbestos, asbestos fibers or products containing asbestos; or

(b) Claim or suit by or on behalf of any governmental authority or any other person or organization because of testing for, monitoring, cleaning up, removing, containing, treating, detoxifying or neutralizing, or in any way responding to, or assessing the effects of, asbestos, asbestos fibers or products containing asbestos.

t. **Employment-Related Practices**

"Bodily injury" to:

(1) A person arising out of any:

(a) Refusal to employ that person;

(b) Termination of that person's employment; or

(c) Employment-related practice, policy, act or omission, such as coercion, demotion, evaluation, reassignment, discipline, failure to promote or advance, harassment, humiliation, discrimination, libel, slander, violation of the person's right of privacy, malicious prosecution or false arrest, detention or imprisonment applied to or directed at that person, regardless of whether such practice, policy, act or omission occurs, is applied or is committed before, during or after the time of that person's employment; or

(2) The spouse, child, parent, brother or sister of that person as a consequence of "bodily injury" to that person at whom any of the employment-related practices described in Paragraph (a), (b), or (c) above is directed.

This exclusion applies whether the insured may be liable as an employer or in any other capacity and to any obligation to share damages with or repay someone else who must pay damages because of the "bodily injury".

Exclusions c. through n. do not apply to "premises damage". A separate limit of insurance applies to "premises damage" as described in Paragraph 6. of Section III – Limits Of Insurance.

COVERAGE B – PERSONAL AND ADVERTISING INJURY LIABILITY

1. **Insuring Agreement**

a. We will pay those sums that the insured becomes legally obligated to pay as damages because of "personal and advertising injury" to which this insurance applies. We will have the right and duty to defend the insured against any "suit" seeking those damages. However, we will have no duty to defend the insured against any "suit" seeking damages for "personal and advertising injury" to which this insurance does not apply. We may, at our discretion, investigate any offense and settle any claim or "suit" that may result. But:

(1) The amount we will pay for damages is limited as described in Section III – Limits Of Insurance; and

(2) Our right and duty to defend end when we have used up the applicable limit of insurance in the payment of judgments or settlements under Coverages A or B or medical expenses under Coverage C.

No other obligation or liability to pay sums or perform acts or services is covered unless explicitly provided for under Supplementary Payments.

b. This insurance applies to "personal and advertising injury" caused by an offense arising out of your business but only if the offense was committed in the "coverage territory" during the policy period.

2. **Exclusions**

This insurance does not apply to:

a. **Knowing Violation Of Rights Of Another**

"Personal and advertising injury" caused by or at the direction of the insured with the knowledge that the act would violate the rights of another and would inflict "personal and advertising injury".

© 2017 The Travelers Indemnity Company. All rights reserved.
Includes copyrighted material of Insurance Services Office, Inc. with its permission.

This exclusion does not apply to "personal injury" caused by malicious prosecution.

b. Material Published With Knowledge Of Falsity

"Personal and advertising injury" arising out of oral or written publication, including publication by electronic means, of material, if done by or at the direction of the insured with knowledge of its falsity.

c. Material Published Or Used Prior To Policy Period

(1) "Personal and advertising injury" arising out of oral or written publication, including publication by electronic means, of material whose first publication took place before the beginning of the policy period; or

(2) "Advertising injury" arising out of infringement of copyright, "title" or "slogan" in your "advertisement" whose first infringement in your "advertisement" was committed before the beginning of the policy period.

d. Criminal Acts

"Personal and advertising injury" arising out of a criminal act committed by or at the direction of the insured.

e. Contractual Liability

"Personal and advertising injury" for which the insured has assumed liability in a contract or agreement. This exclusion does not apply to liability for damages:

(1) That the insured would have in the absence of the contract or agreement; or

(2) Because of "personal injury" assumed by you in a contract or agreement that is an "insured contract", provided that the "personal injury" is caused by an offense committed subsequent to the execution of the contract or agreement. Solely for the purposes of liability assumed by you in an "insured contract", reasonable attorneys' fees and necessary litigation expenses incurred by or for a party other than an insured will be deemed to be damages because of "personal injury", provided that:

(a) Liability to such party for, or for the cost of, that party's defense has also been assumed by you in the same "insured contract"; and

(b) Such attorneys' fees and litigation expenses are for defense of that party against a civil or alternative dispute resolution proceeding in which damages to which this insurance applies are alleged.

f. Breach Of Contract

"Advertising injury" arising out of a breach of contract.

g. Quality Or Performance Of Goods – Failure To Conform To Statements

"Advertising injury" arising out of the failure of goods, products or services to conform with any statement of quality or performance made in your "advertisement".

h. Wrong Description Of Prices

"Advertising injury" arising out of the wrong description of the price of goods, products or services stated in your "advertisement".

i. Intellectual Property

"Personal and advertising injury" arising out of any actual or alleged infringement or violation of any of the following rights or laws, or any other "personal and advertising injury" alleged in any claim or "suit" that also alleges any such infringement or violation:

(1) Copyright;

(2) Patent;

(3) Trade dress;

(4) Trade name;

(5) Trademark;

(6) Trade secret; or

(7) Other intellectual property rights or laws.

This exclusion does not apply to:

(1) "Advertising injury" arising out of any actual or alleged infringement or violation of another's copyright, "title" or "slogan" in your "advertisement"; or

(2) Any other "personal and advertising injury" alleged in any claim or "suit" that also alleges any such infringement or violation of another's copyright, "title" or "slogan" in your "advertisement".

j. Insureds In Media And Internet Type Businesses

"Personal and advertising injury" caused by an offense committed by an insured whose business is:

(1) Advertising, "broadcasting" or publishing;

© 2017 The Travelers Indemnity Company, All rights reserved.
Includes copyrighted material of Insurance Services Office, Inc. with its permission.

(2) Designing or determining content of websites for others; or

(3) An Internet search, access, content or service provider.

However, this exclusion does not apply to Paragraphs **a.(1), (2)** and **(3)** of the definition of "personal injury".

For the purposes of this exclusion:

(1) Creating and producing correspondence written in the conduct of your business, bulletins, financial or annual reports, or newsletters about your goods, products or services will not be considered the business of publishing; and

(2) The placing of frames, borders or links, or advertising, for you or others anywhere on the Internet will not, by itself, be considered the business of advertising, "broadcasting" or publishing.

k. Electronic Chatrooms Or Bulletin Boards

"Personal and advertising injury" arising out of an electronic chatroom or bulletin board the insured hosts or owns, or over which the insured exercises control.

l. Unauthorized Use Of Another's Name Or Product

"Personal and advertising injury" arising out of the unauthorized use of another's name or product in your e-mail address, domain name or metatag, or any other similar tactics to mislead another's potential customers.

m. Pollution

"Personal and advertising injury" arising out of the actual, alleged or threatened discharge, dispersal, seepage, migration, release or escape of "pollutants" at any time.

n. Pollution-Related

Any loss, cost or expense arising out of any:

(1) Request, demand, order or statutory or regulatory requirement that any insured or others test for, monitor, clean up, remove, contain, treat, detoxify or neutralize, or in any way respond to, or assess the effects of, "pollutants"; or

(2) Claim or suit by or on behalf of any governmental authority or any other person or organization because of testing for, monitoring, cleaning up, removing, containing, treating, detoxifying or neutralizing, or in any way responding to, or assessing the effects of, "pollutants".

o. War

"Personal and advertising injury" arising out of:

(1) War, including undeclared or civil war;

(2) Warlike action by a military force, including action in hindering or defending against an actual or expected attack, by any government, sovereign or other authority using military personnel or other agents; or

(3) Insurrection, rebellion, revolution, usurped power, or action taken by governmental authority in hindering or defending against any of these.

p. Unsolicited Communication

"Personal and advertising injury" arising out of any actual or alleged violation of any law that restricts or prohibits the sending, transmitting or distributing of "unsolicited communication".

q. Access Or Disclosure Of Confidential Or Personal Information

"Personal and advertising injury" arising out of any access to or disclosure of any person's or organization's confidential or personal information.

r. Asbestos

(1) "Personal and advertising injury" arising out of the actual or alleged presence or actual, alleged or threatened dispersal of asbestos, asbestos fibers or products containing asbestos, provided that the "personal and advertising injury" is caused or contributed to by the hazardous properties of asbestos.

(2) "Personal and advertising injury" arising out of the actual or alleged presence or actual, alleged or threatened dispersal of any solid, liquid, gaseous or thermal irritant or contaminant, including smoke, vapors, soot, fumes, acids, alkalis, chemicals and waste, and that are part of any claim or "suit" which also alleges any "personal and advertising injury" described in Paragraph (1) above.

(3) Any loss, cost or expense arising out of any:

(a) Request, demand, order or statutory or regulatory requirement that any insured or others test for, monitor, clean up, remove, contain, treat, detoxify or neutralize, or in any way respond to, or

© 2017 The Travelers Indemnity Company. All rights reserved.
Includes copyrighted material of Insurance Services Office, Inc. with its permission.

assess the effects of, asbestos, asbestos fibers or products containing asbestos; or

(b) Claim or suit by or on behalf of any governmental authority or any other person or organization because of testing for, monitoring, cleaning up, removing, containing, treating, detoxifying or neutralizing, or in any way responding to, or assessing the effects of, asbestos, asbestos fibers or products containing asbestos.

s. Employment-Related Practices

"Personal injury" to:

(1) A person arising out of any:

(a) Refusal to employ that person;

(b) Termination of that person's employment; or

(c) Employment-related practice, policy, act or omission, such as coercion, demotion, evaluation, reassignment, discipline, failure to promote or advance, harassment, humiliation, discrimination, libel, slander, violation of the person's right of privacy, malicious prosecution or false arrest, detention or imprisonment applied to or directed at that person, regardless of whether such practice, policy, act or omission occurs, is applied or is committed before, during or after the time of that person's employment; or

(2) The spouse, child, parent, brother or sister of that person as a consequence of "personal injury" to that person at whom any of the employment-related practices described in Paragraph (a), (b), or (c) above is directed.

This exclusion applies whether the insured may be liable as an employer or in any other capacity and to any obligation to share damages with or repay someone else who must pay damages because of the "personal injury".

COVERAGE C – MEDICAL PAYMENTS

1. Insuring Agreement

a. We will pay medical expenses as described below for "bodily injury" caused by an accident:

(1) On premises you own or rent;

(2) On ways next to premises you own or rent; or

(3) Because of your operations;

provided that:

(a) The accident takes place in the "coverage territory" and during the policy period;

(b) The expenses are incurred and reported to us within one year of the date of the accident; and

(c) The injured person submits to examination, at our expense, by physicians of our choice as often as we reasonably require.

b. We will make these payments regardless of fault. These payments will not exceed the applicable limit of insurance. We will pay reasonable expenses for:

(1) First aid administered at the time of an accident;

(2) Necessary medical, surgical, X-ray and dental services, including prosthetic devices; and

(3) Necessary ambulance, hospital, professional nursing and funeral services.

2. Exclusions

We will not pay expenses for "bodily injury":

a. Any Insured

To any insured, except "volunteer workers".

b. Hired Person

To a person hired to do work for or on behalf of any insured or a tenant of any insured.

c. Injury On Normally Occupied Premises

To a person injured on that part of premises you own or rent that the person normally occupies.

d. Workers' Compensation And Similar Laws

To a person, whether or not an "employee" of any insured, if benefits for the "bodily injury" are payable or must be provided under a workers' compensation or disability benefits law or a similar law.

e. Athletics Activities

To a person injured while practicing, instructing or participating in any physical exercises or games, sports, or athletic contests.

f. Products-Completed Operations Hazard

Included within the "products-completed operations hazard".

g. Coverage A Exclusions

Excluded under Coverage A.

© 2017 The Travelers Indemnity Company. All rights reserved.
Includes copyrighted material of Insurance Services Office, Inc. with its permission.

SUPPLEMENTARY PAYMENTS

1. We will pay, with respect to any claim we investigate or settle, or any "suit" against an insured we defend:
   a. All expenses we incur.
   b. Up to $2,500 for the cost of bail bonds required because of accidents or traffic law violations arising out of the use of any vehicle to which the Bodily Injury Liability Coverage applies. We do not have to furnish these bonds.
   c. The cost of bonds to release attachments, but only for bond amounts within the applicable limit of insurance. We do not have to furnish these bonds.
   d. All reasonable expenses incurred by the insured at our request to assist us in the investigation or defense of the claim or "suit", including actual loss of earnings up to $500 a day because of time off from work.
   e. All court costs taxed against the insured in the "suit". However, these payments do not include attorneys' fees or attorneys' expenses taxed against the insured.
   f. Prejudgment interest awarded against the insured on that part of the judgment we pay. If we make an offer to pay the applicable limit of insurance, we will not pay any prejudgment interest based on that period of time after the offer.
   g. All interest on the full amount of any judgment that accrues after entry of the judgment and before we have paid, offered to pay, or deposited in court the part of the judgment that is within the applicable limit of insurance.

   These payments will not reduce the limits of insurance.
2. If we defend an insured against a "suit" and an indemnitee of the insured is also named as a party to the "suit", we will defend that indemnitee if all of the following conditions are met:
   a. The "suit" against the indemnitee seeks damages for which the insured has assumed the liability of the indemnitee in a contract or agreement that is an "insured contract";
   b. This insurance applies to such liability assumed by the insured;
   c. The obligation to defend, or the cost of the defense of, that indemnitee, has also been assumed by the insured in the same "insured contract";
   d. The allegations in the "suit" and the information we know about the "occurrence" or offense are such that no conflict appears to exist between the interests of the insured and the interests of the indemnitee;
   e. The indemnitee and the insured ask us to conduct and control the defense of that indemnitee against such "suit" and agree that we can assign the same counsel to defend the insured and the indemnitee; and
   f. The indemnitee:
      (1) Agrees in writing to:
         (a) Cooperate with us in the investigation, settlement or defense of the "suit";
         (b) Immediately send us copies of any demands, notices, summonses or legal papers received in connection with the "suit";
         (c) Notify any other insurer whose coverage is available to the indemnitee; and
         (d) Cooperate with us with respect to coordinating other applicable insurance available to the indemnitee; and
      (2) Provides us with written authorization to:
         (a) Obtain records and other information related to the "suit"; and
         (b) Conduct and control the defense of the indemnitee in such "suit".

   So long as the above conditions are met, attorneys' fees incurred by us in the defense of that indemnitee, necessary litigation expenses incurred by us and necessary litigation expenses incurred by the indemnitee at our request will be paid as Supplementary Payments. Notwithstanding the provisions of Paragraph **2.b.(2)** of Section **I** – Coverages – Coverage A – Bodily Injury And Property Damage Liability or Paragraph **2.e.** of Section **I** – Coverages – Coverage B – Personal And Advertising Injury Liability, such payments will not be deemed to be damages for "bodily injury", "property damage" or "personal injury", and will not reduce the limits of insurance.

   Our obligation to defend an insured's indemnitee and to pay for attorneys' fees and necessary litigation expenses as Supplementary Payments ends when:

© 2017 The Travelers Indemnity Company. All rights reserved.
Includes copyrighted material of Insurance Services Office, Inc. with its permission.

a. We have used up the applicable limit of insurance in the payment of judgments, settlements or medical expenses; or

b. The conditions set forth above, or the terms of the agreement described in Paragraph **f.** above, are no longer met.

SECTION II – WHO IS AN INSURED

1. If you are designated in the Declarations as:
   a. An individual, you and your spouse are insureds, but only with respect to the conduct of a business of which you are the sole owner.
   b. A partnership or joint venture, you are an insured. Your members, your partners, and their spouses are also insureds, but only with respect to the conduct of your business.
   c. A limited liability company, you are an insured. Your members are also insureds, but only with respect to the conduct of your business. Your managers are insureds, but only with respect to their duties as your managers.
   d. An organization other than a partnership, joint venture or limited liability company, you are an insured. Your "executive officers" and directors are insureds, but only with respect to their duties as your officers or directors. Your stockholders are also insureds, but only with respect to their liability as stockholders.
   e. A trust, you are an insured. Your trustees are also insureds, but only with respect to their duties as trustees.
2. Each of the following is also an insured:
   a. Your "volunteer workers" only while performing duties related to the conduct of your business, or your "employees", other than either your "executive officers" (if you are an organization other than a partnership, joint venture or limited liability company) or your managers (if you are a limited liability company), but only for acts within the scope of their employment by you or while performing duties related to the conduct of your business. However, none of these "employees" or "volunteer workers" are insureds for:
      (1) "Bodily injury" or "personal injury":
         (a) To you, to your partners or members (if you are a partnership or joint venture), to your members (if you are a limited liability company), to a co-"employee" while in the course of his or her employment or performing duties related to the conduct of your business, or to your other "volunteer workers" while performing duties related to the conduct of your business;
         (b) To the spouse, child, parent, brother or sister of that co-"employee" or "volunteer worker" as a consequence of Paragraph (1)(a) above;
         (c) For which there is any obligation to share damages with or repay someone else who must pay damages because of the injury described in Paragraph (1)(a) or (b) above; or
         (d) Arising out of his or her providing or failing to provide professional health care services.

      Unless you are in the business or occupation of providing professional health care services, Paragraphs (1)(a), (b), (c) and (d) above do not apply to "bodily injury" arising out of providing or failing to provide first aid or "Good Samaritan services" by any of your "employees" or "volunteer workers", other than an employed or volunteer doctor. Any such "employees" or "volunteer workers" providing or failing to provide first aid or "Good Samaritan services" during their work hours for you will be deemed to be acting within the scope of their employment by you or performing duties related to the conduct of your business.

      (2) "Property damage" to property:
         (a) Owned, occupied or used by;
         (b) Rented to, in the care, custody or control of, or over which physical control is being exercised for any purpose by;

      you, any of your "employees", "volunteer workers", any partner or member (if you are a partnership or joint venture), or any member (if you are a limited liability company).
   b. Any person (other than your "employee" or "volunteer worker"), or any organization, while acting as your real estate manager.
   c. Any person or organization having proper temporary custody of your property if you die, but only:
      (1) With respect to liability arising out of the maintenance or use of that property; and
      (2) Until your legal representative has been appointed.

© 2017 The Travelers Indemnity Company. All rights reserved.
Includes copyrighted material of Insurance Services Office, Inc. with its permission.

d. Your legal representative if you die, but only with respect to duties as such. That representative will have all your rights and duties under this Coverage Part.

e. Any person or organization that, with your express or implied consent, either uses or is responsible for the use of a watercraft that you do not own that is:

(1) 50 feet long or less; and

(2) Not being used to carry any person or property for a charge.

3. Any organization you newly acquire or form, other than a partnership, joint venture or limited liability company, and of which you are the sole owner or in which you maintain an ownership interest of more than 50%, will qualify as a Named Insured if there is no other similar insurance available to that organization. However:

a. Coverage under this provision is afforded only until the 180th day after you acquire or form the organization or the end of the policy period, whichever is earlier;

b. Coverage A does not apply to "bodily injury" or "property damage" that occurred before you acquired or formed the organization; and

c. Coverage B does not apply to "personal and advertising injury" arising out of an offense committed before you acquired or formed the organization.

For the purposes of Paragraph 1. of Section II – Who Is An Insured, each such organization will be deemed to be designated in the Declarations as:

a. An organization, other than a partnership, joint venture or limited liability company; or

b. A trust;

as indicated in its name or the documents that govern its structure.

4. Any person or organization that is a premises owner, manager or lessor and that you have agreed in a written contract or agreement to include as an additional insured on this Coverage Part is an insured, but only with respect to liability for "bodily injury", "property damage" or "personal and advertising injury" that:

a. Is "bodily injury" or "property damage" that occurs, or is "personal and advertising injury" caused by an offense that is committed, subsequent to the signing of that contract or agreement; and

b. Arises out of the ownership, maintenance or use of that part of any premises leased to you.

The insurance provided to such premises owner, manager or lessor is subject to the following provisions:

a. The limits of insurance provided to such premises owner, manager or lessor will be the minimum limits that you agreed to provide in the written contract or agreement, or the limits shown in the Declarations, whichever are less.

b. The insurance provided to such premises owner, manager or lessor does not apply to:

(1) Any "bodily injury" or "property damage" that occurs, or "personal and advertising injury" caused by an offense that is committed, after you cease to be a tenant in that premises; or

(2) Structural alterations, new construction or demolition operations performed by or on behalf of such premises owner, manager or lessor.

5. Any person or organization that is an equipment lessor and that you have agreed in a written contract or agreement to include as an additional insured on this Coverage Part is an insured, but only with respect to liability for "bodily injury", "property damage", or "personal and advertising injury" that:

a. Is "bodily injury" or "property damage" that occurs, or is "personal and advertising injury" caused by an offense that is committed, subsequent to the signing of that contract or agreement; and

b. Is caused, in whole or in part, by your acts or omissions in the maintenance, operation or use of equipment leased to you by such equipment lessor.

The insurance provided to such equipment lessor is subject to the following provisions:

a. The limits of insurance provided to such equipment lessor will be the minimum limits that you agreed to provide in the written contract or agreement, or the limits shown in the Declarations, whichever are less.

b. The insurance provided to such equipment lessor does not apply to any "bodily injury" or "property damage" that occurs, or "personal and advertising injury" caused by an offense that is committed, after the equipment lease expires.

No person or organization is an insured with respect to the conduct of any current or past partnership, joint

© 2017 The Travelers Indemnity Company. All rights reserved.
Includes copyrighted material of Insurance Services Office, Inc. with its permission.

venture or limited liability company that is not shown as a Named Insured in the Declarations. This paragraph does not apply to any such partnership, joint venture or limited liability company that otherwise qualifies as an Insured under Section II – Who Is An Insured.

SECTION III – LIMITS OF INSURANCE

1. The Limits of Insurance shown in the Declarations and the rules below fix the most we will pay regardless of the number of:
   a. Insureds;
   b. Claims made or "suits" brought; or
   c. Persons or organizations making claims or bringing "suits".
2. The General Aggregate Limit is the most we will pay for the sum of:
   a. Medical expenses under Coverage C;
   b. Damages under Coverage A, except damages because of "bodily injury" or "property damage" included in the "products-completed operations hazard"; and
   c. Damages under Coverage B.
3. The Products-Completed Operations Aggregate Limit is the most we will pay under Coverage A for damages because of "bodily injury" and "property damage" included in the "products-completed operations hazard".
4. Subject to Paragraph 2. above, the Personal And Advertising Injury Limit is the most we will pay under Coverage B for the sum of all damages because of all "personal injury" and "advertising injury" sustained by any one person or organization.
5. Subject to Paragraph 2. or 3. above, whichever applies, the Each Occurrence Limit is the most we will pay for the sum of:
   a. Damages under Coverage A; and
   b. Medical expenses under Coverage C;

   because of all "bodily injury" and "property damage" arising out of any one "occurrence".

   For the purposes of determining the applicable Each Occurrence Limit, all related acts or omissions committed in providing or failing to provide first aid or "Good Samaritan services" to any one person will be deemed to be one "occurrence".
6. Subject to Paragraph 5. above, the Damage To Premises Rented To You Limit is the most we will pay under Coverage A for damages because of "premises damage" to any one premises. The Damage To Premises Rented To You Limit will be:
   a. The amount shown for the Damage To Premises Rented To You Limit in the Declarations of this Coverage Part; or
   b. $300,000 if no amount is shown for the Damage To Premises Rented To You Limit in the Declarations of this Coverage Part.
7. Subject to Paragraph 5. above, the Medical Expense Limit is the most we will pay under Coverage C for all medical expenses because of "bodily injury" sustained by any one person.

The Limits of Insurance of this Coverage Part apply separately to each consecutive annual period and to any remaining period of less than 12 months, starting with the beginning of the policy period shown in the Declarations, unless the policy period is extended after issuance for an additional period of less than 12 months. In that case, the additional period will be deemed part of the last preceding period for purposes of determining the Limits of Insurance.

SECTION IV – COMMERCIAL GENERAL LIABILITY CONDITIONS

1. **Bankruptcy**

   Bankruptcy or insolvency of the insured or of the insured's estate will not relieve us of our obligations under this Coverage Part.

2. **Duties In The Event Of Occurrence, Offense, Claim Or Suit**
   a. You must see to it that we are notified as soon as practicable of an "occurrence" or an offense which may result in a claim. To the extent possible, notice should include:
      (1) How, when and where the "occurrence" or offense took place;
      (2) The names and addresses of any injured persons and witnesses; and
      (3) The nature and location of any injury or damage arising out of the "occurrence" or offense.
   b. If a claim is made or "suit" is brought against any insured, you must:
      (1) Immediately record the specifics of the claim or "suit" and the date received; and
      (2) Notify us as soon as practicable.

      You must see to it that we receive written notice of the claim or "suit" as soon as practicable.
   c. You and any other involved insured must:
      (1) Immediately send us copies of any demands, notices, summonses or legal papers received in connection with the claim or "suit";

© 2017 The Travelers Indemnity Company. All rights reserved.
Includes copyrighted material of Insurance Services Office, Inc. with its permission.

(2) Authorize us to obtain records and other information;

(3) Cooperate with us in the investigation or settlement of the claim or defense against the "suit"; and

(4) Assist us, upon our request, in the enforcement of any right against any person or organization which may be liable to the insured because of injury or damage to which this insurance may also apply.

d. No insured will, except at that insured's own cost, voluntarily make a payment, assume any obligation, or incur any expense, other than for first aid, without our consent.

e. The following provisions apply to Paragraph **a.** above, but only for purposes of the insurance provided under this Coverage Part to you or any insured listed in Paragraph **1.** or **2.** of Section II – Who Is An Insured:

(1) Notice to us of such "occurrence" or offense must be given as soon as practicable only after the "occurrence" or offense is known to you (if you are an individual), any of your partners or members who is an individual (if you are a partnership or joint venture), any of your managers who is an individual (if you are a limited liability company), any of your "executive officers" or directors (if you are an organization other than a partnership, joint venture, or limited liability company), any of your trustees who is an individual (if you are a trust) or any "employee" authorized by you to give notice of an "occurrence" or offense.

(2) If you are a partnership, joint venture, limited liability company or trust, and none of your partners, joint venture members, managers or trustees are individuals, notice to us of such "occurrence" or offense must be given as soon as practicable only after the "occurrence" or offense is known by:

(a) Any individual who is:

(i) A partner or member of any partnership or joint venture;

(ii) A manager of any limited liability company;

(iii) An executive officer or director of any other organization; or

(iv) A trustee of any trust;

that is your partner, joint venture member, manager or trustee; or

(b) Any employee authorized by such partnership, joint venture, limited liability company, trust or other organization to give notice of an "occurrence" or offense.

(3) Notice to us of such "occurrence" or offense will be deemed to be given as soon as practicable if it is given in good faith as soon as practicable to your workers' compensation insurer. This applies only if you subsequently give notice to us of the "occurrence" or offense as soon as practicable after any of the persons described in Paragraph **e.(1)** or **(2)** above discovers that the "occurrence" or offense may result in sums to which the insurance provided under this Coverage Part may apply.

However, if this policy includes an endorsement that provides limited coverage for "bodily injury" or "property damage" or pollution costs arising out of a discharge, release or escape of "pollutants" which contains a requirement that the discharge, release or escape of "pollutants" must be reported to us within a specific number of days after its abrupt commencement, this Paragraph **e.** does not affect that requirement.

3. Legal Action Against Us

No person or organization has a right under this Coverage Part:

a. To join us as a party or otherwise bring us into a "suit" asking for damages from an insured; or

b. To sue us on this Coverage Part unless all of its terms have been fully complied with.

A person or organization may sue us to recover on an agreed settlement or on a final judgment against an insured; but we will not be liable for damages that are not payable under the terms of this Coverage Part or that are in excess of the applicable limit of insurance. An agreed settlement means a settlement and release of liability signed by us, the insured, and the claimant or the claimant's legal representative.

© 2017 The Travelers Indemnity Company. All rights reserved.
Includes copyrighted material of Insurance Services Office, Inc. with its permission.

4. **Other Insurance**

If valid and collectible other insurance is available to the insured for a loss we cover under Coverages A or B of this Coverage Part, our obligations are limited as described in Paragraphs **a.** and **b.** below.

As used anywhere in this Coverage Part, other insurance means insurance, or the funding of losses, that is provided by, through or on behalf of:

(i) Another insurance company;

(ii) Us or any of our affiliated insurance companies, except when the Non cumulation of Each Occurrence Limit provision of Paragraph **5.** of Section **III** – Limits Of Insurance or the Non cumulation of Personal and Advertising Injury Limit provision of Paragraph **4.** of Section **III** – Limits of Insurance applies because the Amendment – Non Cumulation Of Each Occurrence Limit Of Liability And Non Cumulation Of Personal And Advertising Injury Limit endorsement is included in this policy;

(iii) Any risk retention group; or

(iv) Any self-insurance method or program, in which case the insured will be deemed to be the provider of other insurance.

Other insurance does not include umbrella insurance, or excess insurance, that was bought specifically to apply in excess of the Limits of Insurance shown in the Declarations of this Coverage Part.

As used anywhere in this Coverage Part, other insurer means a provider of other insurance. As used in Paragraph **c.** below, insurer means a provider of insurance.

a. Primary Insurance

This insurance is primary except when Paragraph **b.** below applies. If this insurance is primary, our obligations are not affected unless any of the other insurance is also primary. Then, we will share with all that other insurance by the method described in Paragraph **c.** below, except when Paragraph **d.** below applies.

b. Excess Insurance

(1) This insurance is excess over:

(a) Any of the other insurance, whether primary, excess, contingent or on any other basis:

(i) That is Fire, Extended Coverage, Builder's Risk, Installation Risk or similar coverage for "your work";

(ii) That is insurance for "premises damage";

(iii) If the loss arises out of the maintenance or use of aircraft, "autos" or watercraft to the extent not subject to any exclusion in this Coverage Part that applies to aircraft, "autos" or watercraft;

(iv) That is insurance available to a premises owner, manager or lessor that qualifies as an insured under Paragraph **4.** of Section **II** – Who Is An Insured, except when Paragraph **d.** below applies; or

(v) That is insurance available to an equipment lessor that qualifies as an insured under Paragraph **5.** of Section **II** – Who Is An Insured, except when Paragraph **d.** below applies.

(b) Any of the other insurance, whether primary, excess, contingent or on any other basis, that is available to the insured when the insured is an additional insured, or is any other insured that does not qualify as a named insured, under such other insurance.

(2) When this insurance is excess, we will have no duty under Coverages A or B to defend the insured against any "suit" if any other insurer has a duty to defend the insured against that "suit". If no other insurer defends, we will undertake to do so, but we will be entitled to the insured's rights against all those other insurers.

(3) When this insurance is excess over other insurance, we will pay only our share of the amount of the loss, if any, that exceeds the sum of:

(a) The total amount that all such other insurance would pay for the loss in the absence of this insurance; and

(b) The total of all deductible and self-insured amounts under all that other insurance.

(4) We will share the remaining loss, if any, with any other insurance that is not described in this Excess Insurance provision and was not bought specifically to apply in excess of the Limits of Insurance shown in the Declarations of this Coverage Part.

© 2017 The Travelers Indemnity Company. All rights reserved.
Includes copyrighted material of Insurance Services Office, Inc. with its permission.

c. **Method Of Sharing**

If all of the other insurance permits contribution by equal shares, we will follow this method also. Under this approach each insurer contributes equal amounts until it has paid its applicable limit of insurance or none of the loss remains, whichever comes first.

If any of the other insurance does not permit contribution by equal shares, we will contribute by limits. Under this method, each insurer's share is based on the ratio of its applicable limit of insurance to the total applicable limits of insurance of all insurers.

d. **Primary And Non-Contributory Insurance If Required By Written Contract**

If you specifically agree in a written contract or agreement that the insurance afforded to an insured under this Coverage Part must apply on a primary basis, or a primary and non-contributory basis, this insurance is primary to other insurance that is available to such insured which covers such insured as a named insured, and we will not share with that other insurance, provided that:

(1) The "bodily injury" or "property damage" for which coverage is sought occurs; and

(2) The "personal and advertising injury" for which coverage is sought is caused by an offense that is committed;

subsequent to the signing of that contract or agreement by you.

5. **Premium Audit**

a. We will compute all premiums for this Coverage Part in accordance with our rules and rates.

b. Premium shown in this Coverage Part as advance premium is a deposit premium only. At the close of each audit period we will compute the earned premium for that period and send notice to the first Named Insured. The due date for audit and retrospective premiums is the date shown as the due date on the bill. If the sum of the advance and audit premiums paid for the policy period is greater than the earned premium, we will return the excess to the first Named Insured.

c. The first Named Insured must keep records of the information we need for premium computation, and send us copies at such times as we may request.

6. **Representations**

By accepting this policy, you agree:

a. The statements in the Declarations are accurate and complete;

b. Those statements are based upon representations you made to us; and

c. We have issued this policy in reliance upon your representations.

The unintentional omission of, or unintentional error in, any information provided by you which we relied upon in issuing this policy will not prejudice your rights under this insurance. However, this provision does not affect our right to collect additional premium or to exercise our rights of cancellation or nonrenewal in accordance with applicable insurance laws or regulations.

7. **Separation Of Insureds**

Except with respect to the Limits of Insurance, and any rights or duties specifically assigned in this Coverage Part to the first Named Insured, this insurance applies:

a. As if each Named Insured were the only Named Insured; and

b. Separately to each insured against whom claim is made or "suit" is brought.

8. **Transfer Of Rights Of Recovery Against Others To Us**

If the insured has rights to recover all or part of any payment we have made under this Coverage Part, those rights are transferred to us. The insured must do nothing after loss to impair them. At our request, the insured will bring "suit" or transfer those rights to us and help us enforce them.

9. **When We Do Not Renew**

If we decide not to renew this Coverage Part, we will mail or deliver to the first Named Insured shown in the Declarations written notice of the nonrenewal not less than 30 days before the expiration date.

If notice is mailed, proof of mailing will be sufficient proof of notice.

SECTION V – DEFINITIONS

1. "Advertisement" means a notice that is broadcast or published to the general public or specific market segments about your goods, products or services for the purpose of attracting customers or supporters. For the purposes of this definition:

a. Notices that are published include material placed on the Internet or on similar electronic means of communication; and

b. Regarding websites, only that part of a website that is about your goods, products or services for the purposes of attracting customers or supporters is considered an advertisement.

© 2017 The Travelers Indemnity Company. All rights reserved.
Includes copyrighted material of Insurance Services Office, Inc. with its permission.

2. "Advertising injury":
   a. Means injury caused by one or more of the following offenses:
      (1) Oral or written publication, including publication by electronic means, of material in your "advertisement" that slanders or libels a person or organization or disparages a person's or organization's goods, products or services, provided that the claim is made or the "suit" is brought by a person or organization that claims to have been slandered or libeled, or that claims to have had its goods, products or services disparaged;
      (2) Oral or written publication, including publication by electronic means, of material in your "advertisement" that:
         (a) Appropriates a person's name, voice, photograph or likeness; or
         (b) Unreasonably places a person in a false light; or
      (3) Infringement of copyright, "title" or "slogan" in your "advertisement", provided that the claim is made or the "suit" is brought by a person or organization that claims ownership of such copyright, "title" or "slogan".
   b. Includes "bodily injury" caused by one or more of the offenses described in Paragraph a. above.
3. "Auto" means:
   a. A land motor vehicle, trailer or semitrailer designed for travel on public roads, including any attached machinery or equipment; or
   b. Any other land vehicle that is subject to a compulsory or financial responsibility law, or other motor vehicle insurance law, where it is licensed or principally garaged.

   However, "auto" does not include "mobile equipment".
4. "Bodily injury" means:
   a. Physical harm, including sickness or disease, sustained by a person; or
   b. Mental anguish, injury or illness, or emotional distress, resulting at any time from such physical harm, sickness or disease.
5. "Broadcasting" means transmitting any audio or visual material for any purpose:
   a. By radio or television; or
   b. In, by or with any other electronic means of communication, such as the Internet, if that material is part of:
      (1) Radio or television programming being transmitted;
      (2) Other entertainment, educational, instructional, music or news programming being transmitted; or
      (3) Advertising transmitted with any of such programming.
6. "Coverage territory" means:
   a. The United States of America (including its territories and possessions), Puerto Rico and Canada;
   b. International waters or airspace, but only if the injury or damage occurs in the course of travel or transportation between any places included in Paragraph a. above; or
   c. All other parts of the world if the injury or damage arises out of:
      (1) Goods or products made or sold by you in the territory described in Paragraph a. above;
      (2) The activities of a person whose home is in the territory described in Paragraph a. above, but is away for a short time on your business; or
      (3) "Personal and advertising injury" offenses that take place through the Internet or similar electronic means of communication;

   provided the insured's responsibility to pay damages is determined in a "suit" on the merits in the territory described in Paragraph a. above, or in a settlement we agree to.
7. "Electronic data" means information, facts or programs stored as or on, created or used on, or transmitted to or from computer software (including systems and applications software), hard or floppy disks, CD-ROMs, tapes, drives, cells, data processing devices or any other media which are used with electronically controlled equipment.
8. "Employee" includes a "leased worker". "Employee" does not include a "temporary worker".
9. "Executive officer" means a person holding any of the officer positions created by your charter, constitution, bylaws or any other similar governing document.

© 2017 The Travelers Indemnity Company. All rights reserved.
Includes copyrighted material of Insurance Services Office, Inc. with its permission.

10. "Good Samaritan services" means any emergency medical services for which no compensation is demanded or received.

11. "Hostile fire" means a fire which becomes uncontrollable or breaks out from where it was intended to be.

12. "Impaired property" means tangible property, other than "your product" or "your work", that cannot be used or is less useful because:

a. It incorporates "your product" or "your work" that is known or thought to be defective, deficient, inadequate or dangerous; or

b. You have failed to fulfill the terms of a contract or agreement;

if such property can be restored to use by the repair, replacement, adjustment or removal of "your product" or "your work" or your fulfilling the terms of the contract or agreement.

13. "Insured contract" means:

a. A contract for a lease of premises. However, that portion of the contract for a lease of premises that indemnifies any person or organization for "premises damage" is not an "insured contract";

b. A sidetrack agreement;

c. Any easement or license agreement, except in connection with construction or demolition operations on or within 50 feet of a railroad;

d. An obligation, as required by ordinance, to indemnify a municipality, except in connection with work for a municipality;

e. An elevator maintenance agreement;

f. That part of any other contract or agreement pertaining to your business (including an indemnification of a municipality in connection with work performed for a municipality) under which you assume the tort liability of another party to pay for "bodily injury", "property damage" or "personal injury" to a third person or organization. Tort liability means a liability that would be imposed by law in the absence of any contract or agreement.

Paragraph **f.** does not include that part of any contract or agreement:

(1) That indemnifies a railroad for "bodily injury" or "property damage" arising out of construction or demolition operations, within 50 feet of any railroad property and affecting any railroad bridge or trestle, tracks, roadbeds, tunnel, underpass or crossing;

(2) That indemnifies an architect, engineer or surveyor for injury or damage arising out of:

(a) Preparing, approving, or failing to prepare or approve, maps, shop drawings, opinions, reports, surveys, field orders, change orders or drawings and specifications; or

(b) Giving directions or instructions, or failing to give them, if that is the primary cause of the injury or damage; or

(3) Under which the insured, if an architect, engineer or surveyor, assumes liability for an injury or damage arising out of the insured's rendering or failure to render professional services, including those listed in Paragraph **(2)** above and supervisory, inspection, architectural or engineering activities.

14. "Leased worker" means a person leased to you by a labor leasing firm under an agreement between you and the labor leasing firm, to perform duties related to the conduct of your business. "Leased worker" does not include a "temporary worker".

15. "Loading or unloading" means the handling of property:

a. After it is moved from the place where it is accepted for movement into or onto an aircraft, watercraft or "auto";

b. While it is in or on an aircraft, watercraft or "auto"; or

c. While it is being moved from an aircraft, watercraft or "auto" to the place where it is finally delivered;

but "loading or unloading" does not include the movement of property by means of a mechanical device, other than a hand truck, that is not attached to the aircraft, watercraft or "auto".

16. "Mobile equipment" means any of the following types of land vehicles, including any attached machinery or equipment:

a. Bulldozers, farm machinery, forklifts and other vehicles designed for use principally off public roads;

b. Vehicles maintained for use solely on or next to premises you own or rent;

c. Vehicles that travel on crawler treads;

© 2017 The Travelers Indemnity Company. All rights reserved.
Includes copyrighted material of Insurance Services Office, Inc. with its permission.

d. Vehicles, whether self-propelled or not, maintained primarily to provide mobility to permanently mounted:

(1) Power cranes, shovels, loaders, diggers or drills; or

(2) Road construction or resurfacing equipment such as graders, scrapers or rollers;

e. Vehicles not described in Paragraph **a.**, **b.**, **c.** or **d.** above that are not self-propelled and are maintained primarily to provide mobility to permanently attached equipment of the following types:

(1) Air compressors, pumps and generators, including spraying, welding, building cleaning, geophysical exploration, lighting and well servicing equipment; or

(2) Cherry pickers and similar devices used to raise or lower workers;

f. Vehicles not described in Paragraph **a.**, **b.**, **c.** or **d.** above maintained primarily for purposes other than the transportation of persons or cargo.

However, self-propelled vehicles with the following types of permanently attached equipment are not "mobile equipment" but will be considered "autos":

(1) Equipment designed primarily for:

(a) Snow removal;

(b) Road maintenance, but not construction or resurfacing; or

(c) Street cleaning;

(2) Cherry pickers and similar devices mounted on automobile or truck chassis and used to raise or lower workers; and

(3) Air compressors, pumps and generators, including spraying, welding, building cleaning, geophysical exploration, lighting and well servicing equipment.

However, "mobile equipment" does not include any land vehicle that is subject to a compulsory or financial responsibility law, or other motor vehicle insurance law, where it is licensed or principally garaged. Such land vehicles are considered "autos".

17. "Occurrence" means:

a. An accident, including continuous or repeated exposure to substantially the same general harmful conditions; or

b. An act or omission committed in providing or failing to provide first aid or "Good Samaritan services" to a person, unless you are in the business or occupation of providing professional health care services.

18. "Personal and advertising injury" means "personal injury" or "advertising injury".

19. "Personal injury":

a. Means injury, other than "advertising injury", caused by one or more of the following offenses:

(1) False arrest, detention or imprisonment;

(2) Malicious prosecution;

(3) The wrongful eviction from, wrongful entry into, or invasion of the right of private occupancy of a room, dwelling or premises that a person occupies, provided that the wrongful eviction, wrongful entry or invasion of the right of private occupancy is committed by or on behalf of the owner, landlord or lessor of that room, dwelling or premises;

(4) Oral or written publication, including publication by electronic means, of material that slanders or libels a person or organization or disparages a person's or organization's goods, products or services, provided that the claim is made or the "suit" is brought by a person or organization that claims to have been slandered or libeled, or that claims to have had its goods, products or services disparaged; or

(5) Oral or written publication, including publication by electronic means, of material that:

(a) Appropriates a person's name, voice, photograph or likeness; or

(b) Unreasonably places a person in a false light.

b. Includes "bodily injury" caused by one or more of the offenses described in Paragraph **a.** above.

20. "Pollutants" mean any solid, liquid, gaseous or thermal irritant or contaminant, including smoke, vapor, soot, fumes, acids, alkalis, chemicals and waste. Waste includes materials to be recycled, reconditioned or reclaimed.

© 2017 The Travelers Indemnity Company. All rights reserved.
Includes copyrighted material of Insurance Services Office, Inc. with its permission.

21. "Premises damage" means:

a. With respect to the first paragraph of the exceptions in Exclusion **j.** of Section **I – Coverage A – Bodily Injury And Property Damage Liability**, "property damage" to any premises while rented to you for a period of seven or fewer consecutive days, including the contents of such premises; or

b. With respect to the exception to Exclusions **c.** through **n.** in the last paragraph of Paragraph **2.** of Section **I – Coverage A – Bodily Injury And Property Damage Liability**, "property damage" to any premises while rented to you for a period of more than seven consecutive days, or while temporarily occupied by you with permission of the owner, caused by:

(1) Fire;

(2) Explosion;

(3) Lightning;

(4) Smoke resulting from fire, explosion or lightning; or

(5) Water.

But "premises damage" under this Paragraph **b.** does not include "property damage" to any premises caused by:

(1) Rupture, bursting, or operation of pressure relief devices;

(2) Rupture or bursting due to expansion or swelling of the contents of any building or structure caused by or resulting from water; or

(3) Explosion of steam boilers, steam pipes, steam engines or steam turbines.

22. "Products-completed operations hazard":

a. Includes all "bodily injury" and "property damage" occurring away from premises you own or rent and arising out of "your product" or "your work" except:

(1) Products that are still in your physical possession; or

(2) Work that has not yet been completed or abandoned. However, "your work" will be deemed completed at the earliest of the following times:

(a) When all of the work called for in your contract has been completed.

(b) When all of the work to be done at the job site has been completed if your contract calls for work at more than one job site.

(c) When that part of the work done at a job site has been put to its intended use by any person or organization other than another contractor or subcontractor working on the same project.

Work that may need service, maintenance, correction, repair or replacement, but which is otherwise complete, will be treated as completed.

b. Does not include "bodily injury" or "property damage" arising out of:

(1) The transportation of property, unless the injury or damage arises out of a condition in or on a vehicle not owned or operated by you, and that condition was created by the "loading or unloading" of that vehicle by any insured;

(2) The existence of tools, uninstalled equipment or abandoned or unused materials; or

(3) Products or operations for which the classification, listed in the Declarations or in a policy Schedule, states that products-completed operations are subject to the General Aggregate Limit.

23. "Property damage" means:

a. Physical injury to tangible property, including all resulting loss of use of that property. All such loss of use will be deemed to occur at the time of the physical injury that caused it; or

b. Loss of use of tangible property that is not physically injured. All such loss of use will be deemed to occur at the time of the "occurrence" that caused it.

For the purposes of this insurance, "electronic data" is not tangible property.

24. "Slogan":

a. Means a phrase that others use for the purpose of attracting attention in their advertising.

b. Does not include a phrase used as, or in, the name of:

(1) Any person or organization, other than you; or

(2) Any business, or any of the premises, goods, products, services or work, of any person or organization, other than you.

© 2017 The Travelers Indemnity Company. All rights reserved.
Includes copyrighted material of Insurance Services Office, Inc. with its permission.

25. "Suit" means a civil proceeding in which damages because of "bodily injury", "property damage" or "personal and advertising injury" to which this insurance applies are alleged. "Suit" includes:

    a. An arbitration proceeding in which such damages are claimed and to which the insured must submit or does submit with our consent; or

    b. Any other alternative dispute resolution proceeding in which such damages are claimed and to which the insured submits with our consent.

26. "Temporary worker" means a person who is furnished to you to substitute for a permanent "employee" on leave or to meet seasonal or short-term workload conditions.

27. "Title" means a name of a literary or artistic work.

28. "Unsolicited communication" means any communication, in any form, that the recipient of such communication did not specifically request to receive.

29. "Volunteer worker" means a person who is not your "employee", and who donates his or her work and acts at the direction of and within the scope of duties determined by you, and is not paid a fee, salary or other compensation by you or anyone else for their work performed for you.

30. "Your product":

    a. Means:

        (1) Any goods or products, other than real property, manufactured, sold, handled, distributed or disposed of by:

            (a) You;

            (b) Others trading under your name; or

            (c) A person or organization whose business or assets you have acquired; and

        (2) Containers (other than vehicles), materials, parts or equipment furnished in connection with such goods or products.

    b. Includes:

        (1) Warranties or representations made at any time with respect to the fitness, quality, durability, performance or use of "your product"; and

        (2) The providing of or failure to provide warnings or instructions.

    c. Does not include vending machines or other property rented to or located for the use of others but not sold.

31. "Your work":

    a. Means:

        (1) Work or operations performed by you or on your behalf; and

        (2) Materials, parts or equipment furnished in connection with such work or operations.

    b. Includes:

        (1) Warranties or representations made at any time with respect to the fitness, quality, durability, performance or use of "your work"; and

        (2) The providing of or failure to provide warnings or instructions.

THIS ENDORSEMENT CHANGES THE POLICY. PLEASE READ IT CAREFULLY.

XTEND ENDORSEMENT FOR CONTRACTORS

This endorsement modifies insurance provided under the following:

COMMERCIAL GENERAL LIABILITY COVERAGE PART

GENERAL DESCRIPTION OF COVERAGE – This endorsement broadens coverage. However, coverage for any injury, damage or medical expenses described in any of the provisions of this endorsement may be excluded or limited by another endorsement to this Coverage Part, and these coverage broadening provisions do not apply to the extent that coverage is excluded or limited by such an endorsement. The following listing is a general coverage description only. Read all the provisions of this endorsement and the rest of your policy carefully to determine rights, duties, and what is and is not covered.

A. Who Is An Insured – Unnamed Subsidiaries

B. Blanket Additional Insured – Governmental Entities – Permits Or Authorizations Relating To Operations

C. Incidental Medical Malpractice

D. Blanket Waiver Of Subrogation

E. Contractual Liability – Railroads

F. Damage To Premises Rented To You

PROVISIONS

A. WHO IS AN INSURED – UNNAMED SUBSIDIARIES

The following is added to **SECTION II – WHO IS AN INSURED**:

Any of your subsidiaries, other than a partnership, joint venture or limited liability company, that is not shown as a Named Insured in the Declarations is a Named Insured if:

a. You are the sole owner of, or maintain an ownership interest of more than 50% in, such subsidiary on the first day of the policy period; and

b. Such subsidiary is not an insured under similar other insurance.

No such subsidiary is an insured for "bodily injury" or "property damage" that occurred, or "personal and advertising injury" caused by an offense committed:

a. Before you maintained an ownership interest of more than 50% in such subsidiary; or

b. After the date, if any, during the policy period that you no longer maintain an ownership interest of more than 50% in such subsidiary.

For purposes of Paragraph **1.** of Section **II** – Who Is An Insured, each such subsidiary will be deemed to be designated in the Declarations as:

a. An organization other than a partnership, joint venture or limited liability company; or

b. A trust;

as indicated in its name or the documents that govern its structure.

B. BLANKET ADDITIONAL INSURED – GOVERNMENTAL ENTITIES – PERMITS OR AUTHORIZATIONS RELATING TO OPERATIONS

The following is added to **SECTION II – WHO IS AN INSURED**:

Any governmental entity that has issued a permit or authorization with respect to operations performed by you or on your behalf and that you are required by any ordinance, law, building code or written contract or agreement to include as an additional insured on this Coverage Part is an insured, but only with respect to liability for "bodily injury", "property damage" or "personal and advertising injury" arising out of such operations.

The insurance provided to such governmental entity does not apply to:

a. Any "bodily injury", "property damage" or "personal and advertising injury" arising out of operations performed for the governmental entity; or

b. Any "bodily injury" or "property damage" included in the "products-completed operations hazard".

© 2017 The Travelers Indemnity Company. All rights reserved.
Includes copyrighted material of Insurance Services Office, Inc., with its permission.

C. INCIDENTAL MEDICAL MALPRACTICE

1. The following replaces Paragraph **b.** of the definition of "occurrence" in the **DEFINITIONS** Section:

   b. An act or omission committed in providing or failing to provide "incidental medical services", first aid or "Good Samaritan services" to a person, unless you are in the business or occupation of providing professional health care services.

2. The following replaces the last paragraph of Paragraph **2.a.(1)** of **SECTION II – WHO IS AN INSURED**:

   Unless you are in the business or occupation of providing professional health care services, Paragraphs **(1)(a)**, **(b)**, **(c)** and **(d)** above do not apply to "bodily injury" arising out of providing or failing to provide:

   (a) "Incidental medical services" by any of your "employees" who is a nurse, nurse assistant, emergency medical technician or paramedic; or

   (b) First aid or "Good Samaritan services" by any of your "employees" or "volunteer workers", other than an employed or volunteer doctor. Any such "employees" or "volunteer workers" providing or failing to provide first aid or "Good Samaritan services" during their work hours for you will be deemed to be acting within the scope of their employment by you or performing duties related to the conduct of your business.

3. The following replaces the last sentence of Paragraph **5.** of **SECTION III – LIMITS OF INSURANCE**:

   For the purposes of determining the applicable Each Occurrence Limit, all related acts or omissions committed in providing or failing to provide "incidental medical services", first aid or "Good Samaritan services" to any one person will be deemed to be one "occurrence".

4. The following exclusion is added to Paragraph **2.**, **Exclusions**, of **SECTION I – COVERAGES – COVERAGE A – BODILY INJURY AND PROPERTY DAMAGE LIABILITY**:

   Sale Of Pharmaceuticals

   "Bodily injury" or "property damage" arising out of the violation of a penal statute or ordinance relating to the sale of pharmaceuticals committed by, or with the knowledge or consent of, the insured.

5. The following is added to the **DEFINITIONS** Section:

   "Incidental medical services" means:

   a. Medical, surgical, dental, laboratory, x-ray or nursing service or treatment, advice or instruction, or the related furnishing of food or beverages; or

   b. The furnishing or dispensing of drugs or medical, dental, or surgical supplies or appliances.

6. The following is added to Paragraph **4.b.**, **Excess Insurance**, of **SECTION IV – COMMERCIAL GENERAL LIABILITY CONDITIONS**:

   This insurance is excess over any valid and collectible other insurance, whether primary, excess, contingent or on any other basis, that is available to any of your "employees" for "bodily injury" that arises out of providing or failing to provide "incidental medical services" to any person to the extent not subject to Paragraph **2.a.(1)** of Section **II** – Who Is An Insured.

D. BLANKET WAIVER OF SUBROGATION

The following is added to Paragraph **8.**, **Transfer Of Rights Of Recovery Against Others To Us**, of **SECTION IV – COMMERCIAL GENERAL LIABILITY CONDITIONS**:

If the insured has agreed in a contract or agreement to waive that insured's right of recovery against any person or organization, we waive our right of recovery against such person or organization, but only for payments we make because of:

a. "Bodily injury" or "property damage" that occurs; or

b. "Personal and advertising injury" caused by an offense that is committed;

subsequent to the execution of the contract or agreement.

E. CONTRACTUAL LIABILITY – RAILROADS

1. The following replaces Paragraph **c.** of the definition of "insured contract" in the **DEFINITIONS** Section:

   c. Any easement or license agreement;

© 2017 The Travelers Indemnity Company. All rights reserved.
Includes copyrighted material of Insurance Services Office, Inc., with its permission.

2. Paragraph **f.(1)** of the definition of "insured contract" in the **DEFINITIONS** Section is deleted.

F. DAMAGE TO PREMISES RENTED TO YOU

The following replaces the definition of "premises damage" in the **DEFINITIONS** Section:

"Premises damage" means "property damage" to:

a. Any premises while rented to you or temporarily occupied by you with permission of the owner; or

b. The contents of any premises while such premises is rented to you, if you rent such premises for a period of seven or fewer consecutive days.

THIS ENDORSEMENT CHANGES THE POLICY. PLEASE READ IT CAREFULLY.

BLANKET ADDITIONAL INSURED – PRIMARY AND NON-CONTRIBUTORY WITH OTHER INSURANCE – CONTRACTORS

This endorsement modifies insurance provided under the following:

BUSINESS AUTO COVERAGE FORM

PROVISIONS

1. The following is added to Paragraph **c.** in **A.1., Who Is An Insured**, of **SECTION II – COVERED AUTOS LIABILITY COVERAGE:**

   This includes any person or organization who you are required under a written contract or agreement, that is signed by you before the "bodily injury" or "property damage" occurs and that is in effect during the policy period, to name as an additional insured for Covered Autos Liability Coverage, but only for damages to which this insurance applies and only to the extent of that person's or organization's liability for the conduct of another "insured".

2. The following is added to Paragraph **B.5., Other Insurance** of **SECTION IV – BUSINESS AUTO CONDITIONS:**

   Regardless of the provisions of paragraph **a.** and paragraph **d.** of this part **5. Other Insurance**, this insurance is primary to and non-contributory with applicable other insurance under which an additional insured person or organization is a named insured when a written contract or agreement with you, that is signed by you before the "bodily injury" or "property damage" occurs and that is in effect during the policy period, requires this insurance to be primary and non-contributory.

THIS ENDORSEMENT CHANGES THE POLICY. PLEASE READ IT CAREFULLY.

BUSINESS AUTO EXTENSION ENDORSEMENT – FLORIDA

This endorsement modifies insurance provided under the following:

BUSINESS AUTO COVERAGE FORM

GENERAL DESCRIPTION OF COVERAGE – This endorsement broadens coverage. However, coverage for any injury, damage or medical expenses described in any of the provisions of this endorsement may be excluded or limited by another endorsement to the Coverage Part, and these coverage broadening provisions do not apply to the extent that coverage is excluded or limited by such an endorsement. The following listing is a general coverage description only. Limitations and exclusions may apply to these coverages. Read all the provisions of this endorsement and the rest of your policy carefully to determine rights, duties, and what is and is not covered.

A. BROAD FORM NAMED INSURED

B. BLANKET ADDITIONAL INSURED

C. EMPLOYEE HIRED AUTO

D. EMPLOYEES AS INSURED

E. SUPPLEMENTARY PAYMENTS – INCREASED LIMITS

F. HIRED AUTO – LIMITED WORLDWIDE COVERAGE – INDEMNITY BASIS

G. WAIVER OF DEDUCTIBLE – GLASS

H. HIRED AUTO PHYSICAL DAMAGE – LOSS OF USE – INCREASED LIMIT

I. PHYSICAL DAMAGE – TRANSPORTATION EXPENSES – INCREASED LIMIT

J. PERSONAL PROPERTY

K. AIRBAGS

L. NOTICE AND KNOWLEDGE OF ACCIDENT OR LOSS

M. BLANKET WAIVER OF SUBROGATION

N. UNINTENTIONAL ERRORS OR OMISSIONS

PROVISIONS

A. BROAD FORM NAMED INSURED

The following is added to Paragraph **A.1., Who Is An Insured**, of **SECTION II – COVERED AUTOS LIABILITY COVERAGE**:

Any organization you newly acquire or form during the policy period over which you maintain 50% or more ownership interest and that is not separately insured for Business Auto Coverage. Coverage under this provision is afforded only until the 180th day after you acquire or form the organization or the end of the policy period, whichever is earlier.

B. BLANKET ADDITIONAL INSURED

The following is added to Paragraph **c.** in **A.1., Who Is An Insured**, of **SECTION II – COVERED AUTOS LIABILITY COVERAGE**:

Any person or organization who is required under a written contract or agreement between you and that person or organization, that is signed and executed by you before the "bodily injury" or "property damage" occurs and that is in effect during the policy period, to be named as an additional insured is an "insured" for Covered Autos Liability Coverage, but only for damages to which this insurance applies and only to the extent that person or organization qualifies as an "insured" under the Who Is An Insured provision contained in Section **II.**

C. EMPLOYEE HIRED AUTO

1. The following is added to Paragraph **A.1., Who Is An Insured**, of **SECTION II – COVERED AUTOS LIABILITY COVERAGE**:

   An "employee" of yours is an "insured" while operating an "auto" hired or rented under a contract or agreement in an "employee's" name, with your permission, while performing duties related to the conduct of your business.

2. The following replaces Paragraph **b.** in **B.5., Other Insurance**, of **SECTION IV – BUSINESS AUTO CONDITIONS**:

   b. For Hired Auto Physical Damage Coverage, the following are deemed to be covered "autos" you own:

© 2021 The Travelers Indemnity Company. All rights reserved.
Includes copyrighted material of Insurance Services Office, Inc. with its permission

(1) Any covered "auto" you lease, hire, rent or borrow; and

(2) Any covered "auto" hired or rented by your "employee" under a contract in an "employee's" name, with your permission, while performing duties related to the conduct of your business.

However, any "auto" that is leased, hired, rented or borrowed with a driver is not a covered "auto".

D. EMPLOYEES AS INSURED

The following is added to Paragraph **A.1., Who Is An Insured**, of **SECTION II – COVERED AUTOS LIABILITY COVERAGE:**

Any "employee" of yours is an "insured" while using a covered "auto" you don't own, hire or borrow in your business or your personal affairs.

E. SUPPLEMENTARY PAYMENTS – INCREASED LIMITS

1. The following replaces Paragraph **A.2.a.(2)**, of **SECTION II – COVERED AUTOS LIABILITY COVERAGE:**

   (2) Up to $3,000 for cost of bail bonds (including bonds for related traffic law violations) required because of an "accident" we cover. We do not have to furnish these bonds.

2. The following replaces Paragraph **A.2.a.(4)**, of **SECTION II – COVERED AUTOS LIABILITY COVERAGE:**

   (4) All reasonable expenses incurred by the "insured" at our request, including actual loss of earnings up to $500 a day because of time off from work.

F. HIRED AUTO – LIMITED WORLDWIDE COVERAGE – INDEMNITY BASIS

The following replaces Subparagraph **(5)** in Paragraph **B.7., Policy Period, Coverage Territory**, of **SECTION IV – BUSINESS AUTO CONDITIONS**:

(5) Anywhere in the world, except any country or jurisdiction while any trade sanction, embargo, or similar regulation imposed by the United States of America applies to and prohibits the transaction of business with or within such country or jurisdiction, for Covered Autos Liability Coverage for any covered "auto" that you lease, hire, rent or borrow without a driver for a period of 30 days or less and that is not an "auto" you lease, hire, rent or borrow from any of your "employees", partners (if you are a partnership), members (if you are a limited liability company) or members of their households.

(a) With respect to any claim made or "suit" brought outside the United States of America, the territories and possessions of the United States of America, Puerto Rico and Canada:

(i) You must arrange to defend the "insured" against, and investigate or settle any such claim or "suit" and keep us advised of all proceedings and actions.

(ii) Neither you nor any other involved "insured" will make any settlement without our consent.

(iii) We may, at our discretion, participate in defending the "insured" against, or in the settlement of, any claim or "suit".

(iv) We will reimburse the "insured" for sums that the "insured" legally must pay as damages because of "bodily injury" or "property damage" to which this insurance applies, that the "insured" pays with our consent, but only up to the limit described in Paragraph **C.**, Limits Of Insurance, of **SECTION II – COVERED AUTOS LIABILITY COVERAGE.**

(v) We will reimburse the "insured" for the reasonable expenses incurred with our consent for your investigation of such claims and your defense of the "insured" against any such "suit", but only up to and included within the limit described in Paragraph **C.**, Limits Of Insurance, of **SECTION II – COVERED AUTOS LIABILITY COVERAGE**, and not in addition to such limit. Our duty to make such payments ends when we have used up the applicable limit of insurance in payments for damages, settlements or defense expenses.

(b) This insurance is excess over any valid and collectible other insurance available to the "insured" whether primary, excess contingent or on any other basis.

© 2021 The Travelers Indemnity Company. All rights reserved.
Includes copyrighted material of Insurance Services Office, Inc. with its permission

(c) This insurance is not a substitute for required or compulsory insurance in any country outside the United States, its territories and possessions, Puerto Rico and Canada.

You agree to maintain all required or compulsory insurance in any such country up to the minimum limits required by local law. Your failure to comply with compulsory insurance requirements will not invalidate the coverage afforded by this policy, but we will only be liable to the same extent we would have been liable had you complied with the compulsory insurance requirements.

(d) It is understood that we are not an admitted or authorized insurer outside the United States of America, its territories and possessions, Puerto Rico and Canada. We assume no responsibility for the furnishing of certificates of insurance, or for compliance in any way with the laws of other countries relating to insurance.

G. WAIVER OF DEDUCTIBLE – GLASS

The following is added to Paragraph **D., Deductible**, of **SECTION III – PHYSICAL DAMAGE COVERAGE:**

No deductible applies under Specified Causes of Loss or Comprehensive coverage for "loss" to glass used in the windshield.

H. HIRED AUTO PHYSICAL DAMAGE – LOSS OF USE – INCREASED LIMIT

The following replaces the last sentence of Paragraph **A.4.b., Loss Of Use Expenses**, of **SECTION III – PHYSICAL DAMAGE COVERAGE:**

However, the most we will pay for any expenses for loss of use is $65 per day, to a maximum of $750 for any one "accident".

I. PHYSICAL DAMAGE – TRANSPORTATION EXPENSES – INCREASED LIMIT

The following replaces the first sentence in Paragraph **A.4.a., Transportation Expenses**, of **SECTION III – PHYSICAL DAMAGE COVERAGE:**

We will pay up to $50 per day to a maximum of $1,500 for temporary transportation expense incurred by you because of the total theft of a covered "auto" of the private passenger type.

J. PERSONAL PROPERTY

The following is added to Paragraph **A.4., Coverage Extensions**, of **SECTION III – PHYSICAL DAMAGE COVERAGE:**

Personal Property

We will pay up to $400 for "loss" to wearing apparel and other personal property which is:

(1) Owned by an "insured"; and

(2) In or on your covered "auto".

This coverage applies only in the event of a total theft of your covered "auto".

No deductibles apply to this Personal Property coverage.

K. AIRBAGS

The following is added to Paragraph **B.3., Exclusions**, of **SECTION III – PHYSICAL DAMAGE COVERAGE:**

Exclusion **3.a.** does not apply to "loss" to one or more airbags in a covered "auto" you own that inflate due to a cause other than a cause of "loss" set forth in Paragraphs **A.1.b.** and **A.1.c.**, but only:

a. If that "auto" is a covered "auto" for Comprehensive Coverage under this policy;

b. The airbags are not covered under any warranty; and

c. The airbags were not intentionally inflated.

We will pay up to a maximum of $1,000 for any one "loss".

L. NOTICE AND KNOWLEDGE OF ACCIDENT OR LOSS

The following is added to Paragraph **A.2.a.**, of **SECTION IV – BUSINESS AUTO CONDITIONS:**

Your duty to give us or our authorized representative prompt notice of the "accident" or "loss" applies only when the "accident" or "loss" is known to:

(a) You (if you are an individual);

(b) A partner (if you are a partnership);

(c) A member (if you are a limited liability company);

(d) An executive officer, director or insurance manager (if you are a corporation or other organization); or

(e) Any "employee" authorized by you to give notice of the "accident" or "loss".

© 2021 The Travelers Indemnity Company. All rights reserved.
Includes copyrighted material of Insurance Services Office, Inc. with its permission

M. BLANKET WAIVER OF SUBROGATION

The following replaces Paragraph **A.5., Transfer Of Rights Of Recovery Against Others To Us**, of **SECTION IV – BUSINESS AUTO CONDITIONS**:

5. Transfer Of Rights Of Recovery Against Others To Us

We waive any right of recovery we may have against any person or organization to the extent required of you by a written contract signed and executed prior to any "accident" or "loss", provided that the "accident" or "loss" arises out of operations contemplated by such contract. The waiver applies only to the person or organization designated in such contract.

N. UNINTENTIONAL ERRORS OR OMISSIONS

The following is added to Paragraph **B.2., Concealment, Misrepresentation, Or Fraud**, of **SECTION IV – BUSINESS AUTO CONDITIONS**:

The unintentional omission of, or unintentional error in, any information given by you shall not prejudice your rights under this insurance. However this provision does not affect our right to collect additional premium or exercise our right of cancellation or non–renewal.

THIS ENDORSEMENT CHANGES THE POLICY. PLEASE READ IT CAREFULLY.

BLANKET ADDITIONAL INSURED – AUTOMATIC STATUS IF REQUIRED BY WRITTEN CONTRACT (CONTRACTORS)

This endorsement modifies insurance provided under the following:

COMMERCIAL GENERAL LIABILITY COVERAGE PART

The following is added to **SECTION II – WHO IS AN INSURED**:

Any person or organization that:

a. You agree in a written contract or agreement to include as an additional insured on this Coverage Part; and

b. Has not been added as an additional insured for the same project by attachment of an endorsement under this Coverage Part which includes such person or organization in the endorsement's schedule;

is an insured, but:

a. Only with respect to liability for "bodily injury" or "property damage" that occurs, or for "personal injury" caused by an offense that is committed, subsequent to the signing of that contract or agreement and while that part of the contract or agreement is in effect; and

b. Only as described in Paragraph **(1)**, **(2)** or **(3)** below, whichever applies:

(1) If the written contract or agreement specifically requires you to provide additional insured coverage to that person or organization by the use of:

(a) The Additional Insured – Owners, Lessees or Contractors – (Fonn B) endorsement CG 20 10 11 85; or

(b) Either or both of the following: the Additional Insured – Owners, Lessees or Contractors – Scheduled Person Or Organization endorsement CG 20 10 10 01, or the Additional Insured – Owners, Lessees or Contractors – Completed Operations endorsement CG 20 37 10 01;

the person or organization is an additional insured only if the injury or damage arises out of "your work" to which the written contract or agreement applies;

(2) If the written contract or agreement specifically requires you to provide additional insured coverage to that person or organization by the use of:

(a) The Additional Insured – Owners, Lessees or Contractors – Scheduled Person or Organization endorsement CG 20 10 07 04 or CG 20 10 04 13, the Additional Insured – Owners, Lessees or Contractors – Completed Operations endorsement CG 20 37 07 04 or CG 20 37 04 13, or both of such endorsements with either of those edition dates; or

(b) Either or both of the following: the Additional Insured – Owners, Lessees or Contractors – Scheduled Person Or Organization endorsement CG 20 10, or the Additional Insured – Owners, Lessees or Contractors – Completed Operations endorsement CG 20 37, without an edition date of such endorsement specified;

the person or organization is an additional insured only if the injury or damage is caused, in whole or in part, by acts or omissions of you or your subcontractor in the performance of "your work" to which the written contract or agreement applies; or

(3) If neither Paragraph **(1)** nor **(2)** above applies:

(a) The person or organization is an additional insured only if, and to the extent that, the injury or damage is caused by acts or omissions of you or your subcontractor in the performance of "your work" to which the written contract or agreement applies; and

(b) Such person or organization does not qualify as an additional insured with respect to the independent acts or omissions of such person or organization.

The insurance provided to such additional insured is subject to the following provisions:

a. If the Limits of Insurance of this Coverage Part shown in the Declarations exceed the minimum limits required by the written contract or agreement, the insurance provided to the additional insured will be limited to such minimum required limits. For the purposes of determining whether

© 2017 The Travelers Indemnity Company. All rights reserved.

this limitation applies, the minimum limits required by the written contract or agreement will be considered to include the minimum limits of any Umbrella or Excess liability coverage required for the additional insured by that written contract or agreement. This provision will not increase the limits of insurance described in Section **III – Limits** Of Insurance.

b. The insurance provided to such additional insured does not apply to:

(1) Any "bodily injury", "property damage" or "personal injury" arising out of the providing, or failure to provide, any professional architectural, engineering or surveying services, including:

(a) The preparing, approving, or failing to prepare or approve, maps, shop drawings, opinions, reports, surveys, field orders or change orders, or the preparing, approving, or failing to prepare or approve, drawings and specifications; and

(b) Supervisory, inspection, architectural or engineering activities.

(2) Any "bodily injury" or "property damage" caused by "your work" and included in the "products-completed operations hazard" unless the written contract or agreement specifically requires you to provide such coverage for that additional insured during the policy period.

c. The additional insured must comply with the following duties:

(1) Give us written notice as soon as practicable of an "occurrence" or an offense which may result in a claim. To the extent possible, such notice should include:

(a) How, when and where the "occurrence" or offense took place;

(b) The names and addresses of any injured persons and witnesses; and

(c) The nature and location of any injury or damage arising out of the "occurrence" or offense.

(2) If a claim is made or "suit" is brought against the additional insured:

(a) Immediately record the specifics of the claim or "suit" and the date received; and

(b) Notify us as soon as practicable and see to it that we receive written notice of the claim or "suit" as soon as practicable.

(3) Immediately send us copies of all legal papers received in connection with the claim or "suit", cooperate with us in the investigation or settlement of the claim or defense against the "suit", and otherwise comply with all policy conditions.

(4) Tender the defense and indemnity of any claim or "suit" to any provider of other insurance which would cover such additional insured for a loss we cover. However, this condition does not affect whether the insurance provided to such additional insured is primary to other insurance available to such additional insured which covers that person or organization as a named insured as described in Paragraph **4.**, Other Insurance, of Section **IV** – Commercial General Liability Conditions.

© 2017 The Travelers Indemnity Company. All rights reserved.

WAIVER OF OUR RIGHT TO RECOVER FROM OTHERS ENDORSEMENT

We have the right to recover our payments from anyone liable for an injury covered by this policy. We will not enforce our right against the person or organization named in the Schedule. (This agreement applies only to the extent that you perform work under a written contract that requires you to obtain this agreement from us.)

This agreement shall not operate directly or indirectly to benefit anyone not named in the Schedule.

Schedule

Blanket Waiver of Subrogation Applies

This endorsement changes the policy to which it is attached and is effective on the date issued unless otherwise stated.

EXHIBIT IV

NON-COLLUSION AFFIDAVIT OF PRIME BIDDER

State of Florida)
SS
County of Osceola)

Kristy Kelley, being first duly sworn, deposes and says that:

1. They are Secretary of Jr. Davis Construction Co., Inc., the Bidder that has submitted the attached Bid;

2. They are fully informed respecting the preparation and contents of the attached Bid and of all pertinent circumstance respecting such Bid;

3. Such Bid is genuine and is not a collusive or sham Bid;

4. Neither the said Bidders nor any of their officers, partners, owners, agents, representatives, employees or parties in interest, including this affiant, has in any way colluded, conspired, connived or agreed, directly or indirectly with any other Bidder, firm or person to submit a collusive or sham Bid in connection with such Contract or has in any manner, directly or indirectly, sought by agreement or collusion of communication or conference with any other Bidder, firm or person to fix the price or prices in the attached Bid of any other Bidder, or to fix any overhead, profit or cost element of the Bid Price or the Bid Price of any other Bidder, or to secure through any collusion, conspiracy, connivance or unlawful agreement any advantage against the County or any person interested in the proposed Contract; and

5. The price or prices quoted in the attached Bid are fair and proper and are not tainted by any collusion, conspiracy, connivance or unlawful agreement on the part of the Bidder or any of its agents, representatives, owners, employees or parties in interest, including this affiant.

EXHIBIT VI

AFFIDAVIT OF PERCENTAGE OF WORK
BID # 25-420

By signing below, the bidder:

- Is certifying that they will be performing, with their own organization, the percentage of work required under the Special Conditions, Section 2 of the contract documents for Bid # 25-420.
- Understands that at the pre-award meeting they will be required to submit a spreadsheet (Exhibit VI-A) listing the complete breakdown of the bid price submitted by area of work. The list must include the division of work being performed, the name of the contractor performing that area of work, the WMBE classification of the contractor, the dollar amount of the work, and the percentage of the total bid price for each division of work.
- Acknowledges that no changes to sub-contractors used will be allowed after submittal at the pre-award meeting unless otherwise approved by the Procurement Director. Any prime contractor that defaults on this requirement may be suspended as allowed within the Procurement Procedures.
- If the percentage of work proposed to be completed by the prime is not equal to, or more than, the amount required, the bid will be considered to be **non-responsive.**

Bidder must sign and have notarized:

The undersigned Bidder hereby certifies that they fully understand the provisions as stated above and will comply.

NOTARY PUBLIC, STATE OF FLORIDA

EXHIBIT VI-B
GOOD FAITH EFFORT DOCUMENTATION

The following is provided for the bidder to use in conjunction with the Good Faith Effort requirement in Section 19.0 of the Invitation for Bid. For your convenience to supplement your own subcontractor/supplier database, we direct you to https://vcl.polk.one/vendordirectory, Procurement & Bids, WMBE Online Directory for additional names. Please list the company's names and the result of your contact for each subcontractor solicited for the following areas of work. Suppliers can be listed in the blank spaces at the bottom of the page. Contacting (5) five firms, if available, shall satisfy the Good Faith Effort requirement. This will be required of the apparent low bidder at the pre-award meeting with Exhibit VI-A, Subcontractor Listing.

Division of Work	Results of Good Faith Effort
1. Striping	
Fausnight	Utilizing
Mcshea	Not Utilizing
Traffic Control Products (WBE)	Not Utilizing
2. Signalization	
Chinchor Electric	Utilizing
Carter Electric	Not Utilizing
Traffic Control Devices	Not Utilizing
Montoya	Not Utilizing

POLK COUNTY PROCUREMENT DIVISION

THOMPSON NURSERY ROAD EXTENSION
PHASE 1 - SEGMENT 1

Bid No.: 25-420

Bid Date: March 4, 2026

Bid Time: 2:00 PM

Part C – BID SUBMITTAL
(Unit Price)

NAME OF PROJECT: BID #25-420, Thompson Nursery Road extension phase 1 - Segment 1

The undersigned, as Bidder, hereby declares that the only person or persons interested in the Bid Submittal as principal or principals is or are named herein and that no other person that herein mentioned has any interest in this Submittal or in the Contract to be entered into; that this Submittal is made without any connection with any other person, company or parties making a Bid Submittal; and that the Submittal is, in all respects, fair and made in good faith, without collusion or fraud.

The Bidder further declares that he/she has examined the site of the Work and informed himself/herself fully in regard to all conditions pertaining to the place where the work is to be done; that he/she has examined the Plans and Specifications for Work and Contractual Documents relative thereto; that they have satisfied themselves relative to the work to be performed.

The Bidder proposes and agrees, if this Bid Submittal is accepted, to contract with the County in the form of Contract specified; and to furnish all necessary materials, equipment, machinery, tools, apparatus, means of transportation and labor necessary to complete the Work.

ALL THE PAGES THAT ARE PART OF THIS SECTION MUST BE PROVIDED FOR THIS BID SUBMITTAL TO BE CONSIDERED BY THE COUNTY

***NOTE: ALL UNIT PRICE PAGES MUST BE SUBMITTED WITH THE BID. FAILURE TO SUBMIT WILL CAUSE THE BID TO BE REJECTED.**

1. **BID PRICE** $ 33,273,440.79
(Note: This total represents the sum of the unit prices on the Bid Sheet.)

WRITTEN AMOUNT (SPELL OUT)

Thirty-three million, two hundred seventy-three thousand, four hundred forty dollars and seventy-nine cents DOLLARS

CENTS

2. **CONTRACT TIME TO COMPLETE THIS PROJECT** 1,033 CALENDAR DAYS

3. **NAME OF BIDDER:** Jr. Davis Construction Company., Inc.
(typed or printed: firm, corporation, business or individual)

BID BOND
(AIA DOCUMENT A310)

PART D – EXHIBITS

EXHIBIT I

BID BOND

KNOW ALL MEN BY THESE PRESENTS, that we Jr. Davis Construction Company, Inc. (hereinafter called the Principal) and Western Surety Company (hereinafter called the Surety), a Corporation chartered and existing under the Laws of the State of South Dakota, and authorized to do business in the State of Florida, are held and firmly bound unto the Board of County Commissions, Polk County, Florida, in the full and just sum of Five Percent of the Bid Amount dollars ($ 5% of Bid) good and lawful money of the United States of America, to be paid upon demand of the County, to which payment will and truly be made, we bind ourselves, our heirs, executors, administrators, successors, and assigned jointly and severally and firmly by these presents.

WHEREAS, the Principal is about to submit, or has submitted to the County, a Bid Submittal for the purpose of Bid #25-420: Thompson Nursery Road Extension Phase 1 – Segment 1

NOW THEREFORE, the conditions of this obligation are such if the Bid Submittal is accepted and recommended for award of a contract, the Principal shall, execute a satisfactory contract documents including an executed Performance and Payment Bond payable to County, in the amount of 100 percent (100%) of the total Contract Price, in form and with surety satisfactory to said County, then this obligation to be void, otherwise to be and remaining full force and virtue in law, and the surety shall, upon failure of the Principal to comply with any or all of the foregoing requirements, immediately pay to the aforesaid County, upon demand, the amount of this Bond, in good and lawful money of the United States of America, not as a penalty, but as liquidated damages.

In the event the numerical expression is omitted or expressed as less than five percent (5%) of the total bid price, this figure shall be assumed to be erroneously stated and this bid bond shall be binding upon the Principal and Surety in the amount of five percent (5%) of the total bid price.

IN TESTIMONY THEREOF, the Principal and Surety have caused these presents to be duly signed and sealed this 4th day of March 20 26.

EXHIBIT IV

NON-COLLUSION AFFIDAVIT OF PRIME BIDDER

State of Florida)
SS
County of Osceola)

Kristy Kelley, being first duly sworn, deposes and says that:

1. They are Secretary of Jr. Davis Construction Co., Inc., the Bidder that has submitted the attached Bid;

2. They are fully informed respecting the preparation and contents of the attached Bid and of all pertinent circumstance respecting such Bid;

3. Such Bid is genuine and is not a collusive or sham Bid;

4. Neither the said Bidders nor any of their officers, partners, owners, agents, representatives, employees or parties in interest, including this affiant, has in any way colluded, conspired, connived or agreed, directly or indirectly with any other Bidder, firm or person to submit a collusive or sham Bid in connection with such Contract or has in any manner, directly or indirectly, sought by agreement or collusion of communication or conference with any other Bidder, firm or person to fix the price or prices in the attached Bid of any other Bidder, or to fix any overhead, profit or cost element of the Bid Price or the Bid Price of any other Bidder, or to secure through any collusion, conspiracy, connivance or unlawful agreement any advantage against the County or any person interested in the proposed Contract; and

5. The price or prices quoted in the attached Bid are fair and proper and are not tainted by any collusion, conspiracy, connivance or unlawful agreement on the part of the Bidder or any of its agents, representatives, owners, employees or parties in interest, including this affiant.

EXHIBIT VI

AFFIDAVIT OF PERCENTAGE OF WORK
BID # 25-420

By signing below, the bidder:

- Is certifying that they will be performing, with their own organization, the percentage of work required under the Special Conditions, Section 2 of the contract documents for Bid # 25-420.
- Understands that at the pre-award meeting they will be required to submit a spreadsheet (Exhibit VI-A) listing the complete breakdown of the bid price submitted by area of work. The list must include the division of work being performed, the name of the contractor performing that area of work, the WMBE classification of the contractor, the dollar amount of the work, and the percentage of the total bid price for each division of work.
- Acknowledges that no changes to sub-contractors used will be allowed after submittal at the pre-award meeting unless otherwise approved by the Procurement Director. Any prime contractor that defaults on this requirement may be suspended as allowed within the Procurement Procedures.
- If the percentage of work proposed to be completed by the prime is not equal to, or more than, the amount required, the bid will be considered to be **non-responsive.**

Bidder must sign and have notarized:

The undersigned Bidder hereby certifies that they fully understand the provisions as stated above and will comply.

For Your Information: What You Need To Know About Tangible Personal Property

Every individual or firm doing business and located in Polk County is also subject to the tangible personal property requirement.

An initial tangible personal property tax return is required to be filed with the Polk County Property Appraiser`s Office by April 1st of the year after the business opens. The initial return is required if the business owns or leases any personal property, without regard to the value of that personal property. In subsequent years, however, no return is required unless the combined value of all business equipment is more than 25,000 dollars.

To file an initial tangible personal property tax return or for additional information, visit Polk County Property Appraiser`s Office website, polkpa.org.

DBPR CUC051665

OFFICE OF JOE G. TEDDER, CFC * TAX COLLECTOR

THIS POLK COUNTY LOCAL BUSINESS TAX RECEIPT MUST BE CONSPICUOUSLY DISPLAYED AT THE BUSINESS LOCATION

PAID - 3415614 07/14/2025 MSF **TAX 0.00** **DAVIS, JR CONSTRUCTION COMPANY INC**

NOTE: Failure to timely renew or those who are no longer in business and fail to provide an out of business notification on or before September 30th are subject to a misdemeanor violation of the law, substantial penalties, collection costs, including possible attorney's fees, etc., and a Special Magistrate hearing.

ATTENTION: A Polk County local business tax receipt is issued for the simple privilege of doing business in Polk County. A local business tax receipt does not convey that a business tax receipt holder is in any other way qualified, registered, certified, or licensed to engage in a specific trade, activity, practice or profession. Before doing business, individuals or firms should know the law pertaining to their business activities. For more information on what is allowed under the law for a given business activity, contact the appropriate governing agencies. For example, those involved in construction related activities should contact their local building officials prior to conducting their work.

REPORT UNLAWFUL ACTIVITY: If you know of a business operating in Polk County that has failed to obtain a county local business tax receipt, please report this unlawful activity. Provide as much information as possible, such as the name of the business, business owner's name, location at which the business is operating, telephone number(s), etc. ***YOU MAY CHOOSE TO REMAIN ANONYMOUS*** Dial: Toll Free Tel. 866-687-8876; Email to: Enforcement@PolkTaxes.com; Mail to: Enforcement, PO Box 2016, Bartow, Florida 33831-2016.

MUNICIPAL LOCAL BUSINESS TAXES ARE ALSO DUE: If your business is located in a municipality that also requires a local business tax receipt, you are required to obtain both the county local business tax receipt and the municipal local business tax receipt. County and municipal local business tax receipt requirements may be significantly different. For more information on municipal local business tax receipt requirements, please contact your municipality.

DISPLAY THIS TAX RECEIPT PROMINANTLY: The law requires this county local business tax receipt to be displayed conspicuously at the place of business in such a manner that it can be open to public view and subject to inspection by all duly authorized officers/agents of the Tax Collector. Upon failure to do so, the taxpayer shall be subject to the payment of another county local business tax receipt.

RENEW THIS TAX RECEIPT BEFORE IT EXPIRES: This is your first or "initial" notice that your county local business tax receipt must be renewed prior to the expiration date indicated on the face of this document.

DISCLOSURE REQUIREMENT; INFORMATION: Pursuant to F.S. 205.0535 (5), the receipt holder's Federal Employee Identification Number or Social Security Number is not subject to a public records request. Pursuant to F.S. 193.074, business telephone numbers and email addresses are confidential unless made public by the receipt holder.

SWORN STATEMENT REMINDER: The county local business tax receipt holder identified on the face of this document has completed a sworn statement affirming they did read, understand and acknowledge the following: ① They completed an annual county local business tax receipt application in which they, under penalties of perjury, did swear or affirm the information provided to obtain this tax receipt is current, true and correct; ② The privilege to conduct business in Polk County, Florida is limited to the activities, professions and/or occupations identified on the application (and this tax receipt); ③ A county local tax receipt does not waive local, state or federal laws and/or requirements, including licensing, registration, and/or certification requirements; ④ They must adhere to all local, state and federal laws and requirements, including, but not limited to, local codes and zoning restrictions; ⑤ An FEIN or Social Security Number is required pursuant to F.S. 205.0535 (5); ⑥ They will only do business under their legal name or have provided a fictitious name registration number to the Tax Collector or provided they will not engage in business until a fictitious name registration number is obtained from the Florida Department of State, Division of Corporations; ⑦ Tangible Personal Property information including the telephone number and email address which are provided in this application are a part of the Property Appraiser's tangible personal property tax return; ⑧ They are required to report changes in business name, ownership and/or location, as well as any changes affecting their status as a county local business tax receipt holder, to the Tax Collector; and, ⑨ They know providing false information to obtain this tax receipt is a criminal offense subject to prosecution.

REPORT CHANGES: The holder of this county local business tax receipt is required to report a change in the following: Business name, ownership, business location, mailing address, business activity and any information that would alter the status of the current tax receipt, such as the loss of a state license or a change in the state license used to qualify for the business activity and/or occupation identified on the current county local business tax receipt.

SOUTHEAST HIGHWAY GUARDRAIL & ATTENUATORS, LLC
1818 S AUSTRALIAN AVE
WEST PALM BEACH, FLORIDA 33409

RE: CERTIFICATE OF QUALIFICATION

The Department of Transportation has qualified your company for the type of work indicated below.

FDOT APPROVED WORK CLASSES:
FENCING, GUARDRAIL

Unless notified otherwise, this Certificate of Qualification will expire **6/30/2026.**

In accordance with Section 337.14(1), Florida Statutes, an application for qualification must be filed within (4) months of the ending date of the applicant's audited annual financial statements.

If the company's maximum capacity has been revised, it may be accessed by logging into the Contractor Prequalification Application System via the following link:
HTTPS://fdotwp1.dot.state.fl.us/ContractorPreQualification

Once logged in, select "View" for the most recently approved application, and then click the "Manage" and "Application Summary" tabs.

The company may apply for a Revised Certificate of Qualification at any time prior to the expiration date of this certificate according to Section 14-22.0041(3), Florida Administrative Code (F.A.C.), by accessing the most recently approved application as shown above and choosing "Update" instead of "View." If certification in additional classes of work is desired, documentation is needed to show that the company has performed such work.

All prequalified contractors are required by Section 14-22.006(3), F.A.C., to certify their work underway monthly in order to adjust maximum bidding capacity to available bidding capacity. You can find the link to this report at the website shown above.

Sincerely,

James E. Taylor II

James E. Taylor II, Prequalification Supervisor

CERTIFICATIONS REGARDING DEBARMENT, SUSPENSION, PROPOSED DEBARMENT, AND OTHER RESPONISBILITY MATTERS

For all awards, subawards, and contracts with certain parties that are debarred, suspended, or otherwise excluded from or ineligible for participation in Federal assistance programs and activities, the Offeror must complete and sign the following:

The Offeror certifies, to the best of its knowledge and belief, that-

(1) This contract is a covered transaction for purposes of 2 C.F.R. pt. 180 and 2 C.F.R. pt. 3000. As such the contractor is required to verify that none of the contractor, its principals (defined at 2 C.F.R. § 180.995), or its affiliates (defined at 2 C.F.R. § 180.905) are excluded (defined at 2 C.F.R. § 180.940) or disqualified (defined at 2 C.F.R. § 180.935).
(2) The contractor must comply with 2 C.F.R. pt. 180, subpart C and 2 C.F.R. pt. 3000, subpart C and must include a requirement to comply with these regulations in any lower tier covered transaction it enters into.
(3) This certification is a material representation of fact relied upon by Polk County, a political subdivision of the State of Florida (the "County"). If it is later determined that the contractor did not comply with 2 C.F.R. pt. 180, subpart C and 2 C.F.R. pt. 3000, subpart C, in addition to remedies available to the Florida Division Emergency Management, the County, and the Federal Government may pursue available remedies, including but not limited to suspension and/or debarment.
(4) The bidder or proposer agrees to comply with the requirements of 2 C.F.R. pt. 180, subpart C and 2 C.F.R. pt. 3000, subpart C while this offer is valid and throughout the period of any contract that may arise from this offer. The bidder or proposer further agrees to include a provision requiring such compliance in its lower tier covered transactions.

Exhibit "B"
APPENDIX A, 44 C.F.R. PART 18 – CERTIFICATION REGARDING LOBBYING

Certification for Contracts, Grants, Loans, and Cooperative Agreements

(To be submitted with each bid or offer exceeding $100,000)

The undersigned Jr. Davis Construction Co., Inc. certifies, to the best of his or her knowledge, that:
(Contractor)

1. No Federal appropriated funds have been paid or will be paid, by or on behalf of the undersigned, to any person for influencing or attempting to influence an officer or employee of an agency, a Member of Congress, an officer or employee of Congress, or an employee of a Member of Congress in connection with the awarding of any Federal contract, the making of any Federal grant, the making of any Federal loan, the entering into of any cooperative agreement, and the extension, continuation, renewal, amendment, or modification of any Federal contract, grant, loan, or cooperative agreement.

2. If any funds other than Federal appropriated funds have been paid or will be paid to any person for influencing or attempting to influence an officer or employee of any agency, a Member of Congress, an officer or employee of Congress, or an employee of a Member of Congress in connection with this Federal contract, grant, loan, or cooperative agreement, the undersigned shall complete and submit Standard Form- LLL, "Disclosure Form to Report Lobbying," in accordance with its instructions.

3. The undersigned shall require that the language of this certification be included in the award documents for all subawards at all tiers (including subcontracts, subgrants, and contracts under grants, loans, and cooperative agreements) and that all subrecipients shall certify and disclose accordingly.

This certification is a material representation of fact upon which reliance was placed when this transaction was made or entered into. Submission of this certification is a prerequisite for making or entering into this transaction imposed by 31, U.S.C. § 1352 (as amended by the Lobbying Disclosure Act of 1995). Any person who fails to file the required certification shall be subject to a civil penalty of not less than $10,000 and not more than $100,000 for each such failure.

The Contractor, Jr. Davis Construction Co., Inc., certifies or affirms the truthfulness and accuracy of each statement of its certification and disclosure, if any. In addition, the Contractor understands and agrees that the provisions of 31 U.S.C. § 3801 *et seq.*, apply to this certification and disclosure, if any.

EXHIBIT VII
TRENCH SAFETY ACT COMPLIANCE
TRENCH EXCAVATION SAFETY SYSTEM AND
SHORING, SPECIAL (TRENCH EXCAVATION)

Trench Excavation Safety System and Shoring, Special (Trench Excavation)

General:

1. The Contractor shall comply with the Florida Trench Safety Act (90-96), Laws of FL.) effective October 1, 1990.

2. The Contractor(s) performing trench safety excavation on this Contract shall comply with the Occupational Safety and Health Administration's (OSHA) trench excavation safety standards, 29 CFR's 1926.650, Subpart P, including all subsequent revisions or updates to these standards as adopted by the Department of Labor and Employment Security (DLES).

3. By submission of his bid and subsequent execution of this Contract, the Contractor certifies that all trench excavation done within his control shall be accomplished in strict adherence with OSHA trench safety standards contacted 29 CFR's 1926.650, Subpart P, including all subsequent revisions or updates to these standards as adopted by the Department of Labor and Employment Security.

4. The Contractor also agrees that he has obtained or will obtain identical certification from his proposed Subcontractors that will perform trench excavation prior to award of the subcontracts and that he will retain such certifications in his files for a period of not less than three years following final acceptance.

5. The Contractor shall consider all available geotechnical information in his design of the trench excavation safety system.

6. Inspections may be conducted by the County and the County's Safety Officer. Serious deficiencies will be corrected on the spot or the job may be closed. Imminent danger citing will result in the immediate cessation of work. Work will resume when the danger is corrected.

7. Bidder acknowledges that included in the various items of the proposal and in the Total Bid Price are costs for complying with the Florida Trench Safety Act (90-96), Laws of FL) effective October 1, 1990. The bidder further identifies the costs to be summarized as follows:

Trench Safety Measure (Description)	Units of Measure (LF, SY)	Unit (QTY)	Unit Cost	Extended Cost
A. Benching & Shoring	LF	15,000	$ 1.00	$ 15,000.00
B.			$	$
C.			$	$
D.			$	$
			Total	$ 15,000.00

Failure to complete the above may result in the bid being declared non-responsive.

EXHIBIT VIII

EQUAL EMPLOYMENT OPPORTUNITY

Polk County is an Equal Opportunity/Affirmative Action Employer.

Pursuant to Executive Order 11246 as amended, you are advised that under the provisions of government contracting, contractors and subcontractors are obliged to take affirmative action to provide equal employment opportunity without regard to race, creed, color, national origin, age or sex.

We are committed to equal opportunity employment effort and expect firms that do business with the County to have a vigorous affirmative action program.

CERTIFICATION BY PROPOSED PRIME OR SUBCONTRACTOR
REGARDING EQUAL EMPLOYMENT OPPORTUNITY

This certification is authorized pursuant to Executive Order 11246, Part II, Section 203(b), (30 F.R. 12319-15). Any Bidder or prospective contractor, or any of the proposed subcontractors, shall state as an initial part of the Bid or negotiations of the Contract whether it has participated in any previous Contract or subcontract to the equal opportunity clause; and, if so, whether it has filed all compliance reports due under applicable instructions.

Where the certification indicated that the prime or subcontractor has not filed a compliance report due under applicable instruction, such Contractor shall be required to submit a compliance report.

Contractor's Name: Jr. Davis Construction Company, Inc.
Address: 210 Hangar Road
Kissimmee, FL 34741

1. Bidder has participated in a previous contract or subcontract, subject to the Equal Opportunity Clause:

YES X NO ____

2. Compliance Reports were required to be filed in connection with such Contract or subcontract:

YES X NO ____

3. Bidder has filed all compliance reports due under applicable instructions:

YES X NO ____

4. If answer to Item 3 is No, please explain in detail on reverse side of this certification.

The Bidder certifies that they do not maintain or provide for their employees any segregated facilities at any of their establishments, and that they do not permit their employees to perform their services at any location under their control where segregated facilities are maintained. The Bidder certifies further that they will not maintain or provide for their employees any segregated facilities at any of their establishments, and that they will not permit their employees to perform their services at any location under their control where segregated facilities are maintained. The Bidder agrees that a breach of this certification will be a violation of the Equal Opportunity clause in any contract resulting from acceptance of this Bid. As used in this certification, the term (segregated facilities" means any waiting rooms, work areas, restrooms, washrooms, restaurants, other eating areas, time clocks, locker rooms, storage areas, dressing areas, parking lots, drinking fountains, recreation/entertainment areas, transportation and housing facilities provided for employees which are segregate by explicit directive or are, in fact, segregated on the basis of race, color, religion or national origin, because of habit, local custom or otherwise. The Bidder agrees that (except where they have obtained identical certification from proposed subcontractors for specific time periods) they will obtain identical certification from proposed Subcontractors prior to the award of subcontracts exceeding $10,000 which are not exempt from the provision of the Equal Opportunity clause; and that they will retain such certifications in their files.

Certification – The information above is true and complete to the best of my knowledge and belief. (A willfully false statement is punishable by law – U.S. Code, Title 18, Section 1001.)

EXHIBIT IX

DRUG-FREE WORKPLACE FORM

The undersigned Bidder in accordance with Florida Statute 287.087 hereby certifies that Jr. Davis Construction Co., Inc. does: (Name of Business)

1. Publish a statement notifying employees that the unlawful manufacture, distribution, dispensing, possession, or use of a controlled substance is prohibited in the workplace and specifying the actions that will be taken against employees for violations of such prohibition.

2. Inform employees about the dangers of drug abuse in the workplace, the business's policy of maintaining a drug-free workplace, any available drug counseling, rehabilitation and employee assistance programs; and the penalties that may be imposed upon employees for drug abuse violations.

3. Give each employee engaged in providing the commodities or contractual services that are under bid a copy of the statement specified in subsection (a).

4. In the statement specified in subsection (1), notify the employees that, as a condition of working on the commodities or contractual services that are under bid, the employee will abide by the terms of the statement and will notify the employer of any conviction of, or plea of guilty or nolo contendere to, any violation of Chapter 1892 or of any controlled substance law of the United States or any state, for a violation occurring in the workplace no later than five (5) days after such conviction.

5. Impose a sanction on or require the satisfactory participation in a drug abuse assistance or rehabilitation program, if such is available in the employee's community, by any employee who is so convicted.

6. Make a good faith effort to continue to maintain a drug-free workplace through implementation of this section.

As the person authorized to sign the statement, I certify that this firm complies fully with the above requirements.

EMPLOYMENT ELIGIBILITY VERIFICATION (E-VERIFY) CERTIFICATION
EXHIBIT XXV
(Florida Statutes, Section 448.095)

PROJECT NAME: Bid 25-420 Thompson Nursery Road Extension - Segment 1

The undersigned, as an authorized officer of the contractor identified below (the "Contractor"), having full knowledge of the statements contained herein, hereby certifies to Polk County, a political subdivision of the State of Florida (the "County"), by and on behalf of the Contractor in accordance with the requirements of Section 448.095, Florida Statutes, as related to the contract entered into by and between the Contractor and the County on or about the date hereof, whereby the Contractor will provide labor, supplies, or services to the County in exchange for salary, wages, or other remuneration (the "Contract"), as follows:

1. Unless otherwise defined herein, terms used in this Certification which are defined in Section 448.095, Florida Statutes, as may be amended from time to time, shall have the meaning ascribed in said statute.

2. Pursuant to Section 448.095(5), Florida Statutes, the Contractor, and any subcontractor under the Contract, must register with and use the E-Verify system to verify the work authorization status of all new employees of the Contractor or subcontractor. The Contractor acknowledges and agrees that (i) the County and the Contractor may not enter into the Contract, and the Contractor may not enter into any subcontracts thereunder, unless each party to the Contract, and each party to any subcontracts thereunder, registers with and uses the E-Verify system; and (ii) use of the U.S. Department of Homeland Security's E-Verify System and compliance with all other terms of this Certification and Section 448.095, Fla. Stat., is an express condition of the Contract, and the County may treat a failure to comply as a material breach of the Contract.

3. By entering into the Contract, the Contractor becomes obligated to comply with the provisions of Section 448.095, Fla. Stat., "Employment Eligibility," as amended from time to time. This includes but is not limited to utilization of the E-Verify System to verify the work authorization status of all newly hired employees, and requiring all subcontractors to provide an affidavit attesting that the subcontractor does not employ, contract with, or subcontract with, an unauthorized alien. The Contractor shall maintain a copy of such affidavit for the duration of the Contract. Failure to comply will lead to termination of the Contract, or if a subcontractor knowingly violates the statute or Section 448.09(1), Fla. Stat., the subcontract must be terminated immediately. If the Contract is terminated pursuant to Section 448.095, Fla. Stat., such termination is not a breach of contract and may not be considered as such. Any challenge to termination under this provision must be filed in the Tenth Judicial Circuit Court of Florida no later than 20 calendar days after the date of termination. If the Contract is terminated for a violation of Section 448.095, Fla. Stat., by the Contractor, the Contractor may not be awarded a public contract for a period of 1 year after the date of termination. The Contractor shall be liable for any additional costs incurred by the County as a result of the termination of the Contract. Nothing in this Certification shall be construed to allow intentional discrimination of any class protected by law.

Exhibit XXVI Affidavit Regarding the Use of Coercion for Labor or Services

In compliance with Section 787.06(13), Florida Statutes, this attestation must be completed by an officer or representative of a nongovernmental entity that is executing, renewing, or extending a contract with Polk County, a political subdivision of the State of Florida.

The undersigned, on behalf of the entity listed below (the "Nongovernmental Entity"), hereby attests under penalty of perjury as follows:

1. I am over the age of 18 and I have personal knowledge of the matters set forth herein.

2. I currently serve as an officer or representative of the Nongovernmental Entity.

3. The Nongovernmental Entity does **not** use coercion for labor or services, as those underlined terms are defined in Section 787.06, Florida Statutes.

4. This declaration is made pursuant to Section 92.525, Fla. Stat. and Section 787.06, Fla. Stat. I understand that making a false statement in this declaration may subject me to criminal penalties.

Under penalties of perjury, I James B. Davis, Jr. (Signatory Name and Title), declare that I have read the foregoing Affidavit Regarding the Use of Coercion for Labor and Services and that the facts stated in it are true.

Further Affiant sayeth naught.

Sealed Bid Number	25-420
Bid Title	Thompson Nursery Road Extension Phase 1 – Segment 1
Due Date/Time:	January 14, 2026, prior to 2:00 pm
Submitted by:	
Deliver To:	Polk County Procurement Division 330 West Church Street, Room 150, Bartow, Florida 33830

Sealed parcel bids may be mailed, express mailed or hand delivered. It is the Bidders responsibility to ensure their package is delivered to the Procurement Division prior to 2:00 p.m. on the Receiving date and time referenced above. Bids delivered at 2:00 p.m. or later will not be accepted.

Electronic Bid Submittal:

If you are interested in submitting your bid electronically bidders may do so via the County's secure electronic submittal website, Kiteworks. Bidders must email kenbrush@polk-county.net at least 48 hours prior to bid opening to receive a link to upload their submittal. Please only upload your documents as a PDF or Excel file for bid sheets. Please use the naming conventions for your files as follows:

For PDF documents "Bid 25-420 – Title of Document"

For Excel Bid Sheets "Bid 25-420 – Bid Sheet"

For more instructions, a video tutorial has been produced to further explain the electronic solicitation submittal process. It can be found by clicking here for Bid Submittals: https://youtu.be/vkn_7AHgioE. If you need assistance accessing this website due to ADA or any other reason, please email Ken Brush at kenbrush@polk-county.net.

Procurement recommends that bidders submitting electronically double check the documents submitted into Kiteworks to ensure all requested information and bid sheet have been uploaded. Failure to upload the completed bid sheet will result in the bid submittal being deemed nonresponsive.

INSTRUCTION TO BIDDERS

1.0 Bids

1.1 Supplementary Conditions, Special Conditions, Plans, Drawings, Instructions to Bidders, the Conditions of the Contract, Exhibits, the Bid Submittal, Technical Specifications, any resulting addenda issued, and the Contract together therein identified constitute the entire "bid package" and upon award shall constitute the Contract Documents concerning this present bid matter.

1.2 The bid must be submitted in a sealed envelope. The face of the envelope should state the Bid Title and Bid Number, the name of the company submitting the bid and the date and time of the bid opening. Bidders are not required to return the Instructions to Bidders, Conditions of the Contract or Contract with their bids, unless specified elsewhere in this Bid Package.

1.3 The following documents, collectively, comprise the "Bid Submittal" which, when tendered, on or before the Bid due date and time, must include:

- Part C – Bid Sheets and Acknowledgement Form,
  - With the manual signature of an authorized representative of the company or their designee,
  - Bid prices must be entered on the Part C – Bid Sheets and Acknowledgement Form (no other bid submittals will be accepted),
  - All information requested on BSU-2 and BSU-3 (or BSL-2 and BSL-3).
- Exhibit I, Bid Bond.

- Exhibit IV, Non-Collusion Affidavit of Prime Bidder.
- Exhibit VI, Affidavit of Percentage of Work (this requirement does not include Exhibit VIA and Exhibit VIB).
- All additional information requested as a "must" item in any Addendum.
- All corrections made by the Bidder to the Bid Sheets and Acknowledgement Form should be acknowledged by written initials of the authorized representative signing the Bid Submittal or their designee. Should a price correction not be acknowledged, lowest price will prevail.
- One original and one copy of the complete Bid Submittal must be tendered.

1.4 All additional requested information and Exhibits must be submitted within a reasonable period of time if chosen as the apparent low, responsive and responsible bidder during the Bid Analysis phase.

- These items include:

    - Exhibit II, Public Performance Bond
    - Exhibit III, Payment of Bond
    - Exhibit V, Non-Collusion Affidavit of Subcontractor
    - Exhibit VI-A, Subcontractor List
    - Exhibit VI-B, Good Faith Effort Documentation
    - Exhibit VII, Trench Safety Act Compliance
    - Exhibit VIII, Equal Employment Opportunity
    - Exhibit IX, Drug-Free Workplace Form
    - Exhibit X, Safety Requirements/Regulations
    - Exhibit XVIII, Certificate of Compliance
    - Exhibit XIX, Affidavit Certification Immigration Laws
    - Exhibit XXII Certification Regarding Debarment, Suspension, Proposed Debarment, and other Responsibility Matters
    - Exhibit XXIII Certification Regarding Lobbying
    - Exhibit XXIV, Scrutinized Companies Certification
    - Exhibit XXV, Employment Eligibility Verification (E-Verify) Certification
    - Exhibit XXVI Affidavit Regarding the Use of Coercion for Labor or Services
    - Any items called for in the Supplementary Conditions

1.5 All prices quoted are to be F.O.B. job site in Polk County, Florida. Bid amount shall be inclusive of all costs. Nothing herein shall prohibit the County from deleting line items and purchasing said items directly from a supplier if it is determined that there is sufficient sales tax savings to make purchasing by the County practical.

1.6 It is the Bidder's responsibility to ensure their bid is delivered at the proper time and place of the bid opening. Bids which for any reason are not so delivered will not be considered. Offers by telegram, telephone, email or facsimile are not acceptable. The bid opening shall be public, on the date and time specified under Invitation for Bid. Bid tabulations may be downloaded from the County's web site. Each Bidder must execute their bid with their full name, and title and give their address, fax, telephone and email

address. In cases where a firm or corporation submits a bid submittal, the bid submittal shall be signed with the full name of each member of the firm, or the name of the officer of the corporation authorized by its by-laws, in addition to the address of such firm or corporation and such officer.

1.7 The Bidder is solely responsible for reading and completely understanding the requirements of the Contract Documents. The bid opening time will be scrupulously observed. Under no circumstances will Bid Submittals delivered after the delivery time specified be considered. Late Bid Submittals shall not be accepted.

1.8 Bid Submittals may be withdrawn by notifying the County, in writing, at any time prior to the deadline for bid submittal. After the deadline, the bids become a record of the County and will not be returned to the Bidder unless the bid is cancelled. It is the responsibility of the Bidder to make a written request for return of the Bid Submittal after notification of cancellation. Absent this written request, the County shall destroy the submittal. Negligence on the part of the Bidder in preparing their Bid Submittal confers no right of withdrawal or modification of their Bid Submittal after such Bid Submittal has been opened by County Staff at the appointed time and place. Bid Submittals and any bid security shall be in force for a period of not less than ninety (90) calendar days after the bid opening time.

1.9 At the time and place specified for the opening of Bid Submittals (see above), every Bid Submittal properly delivered within the time specified for receiving Bid Submittals will be opened and publicly read aloud, irrespective of any irregularities found therein. Bidders and other persons interested may be present or represented.

1.10 Attorneys-in-fact who sign bonds or other surety instruments must attach with each bond or surety instrument an effective and certified power of attorney.

1.11 The Bidder assumes responsibility to examine the site of the Work and become familiar with the form of Submittal, Drawings, Specifications, any Addenda issued thereto and all other forms of Contractual Documents pertaining to the proposed Work. The submission of the bid shall be sufficient to establish the presumption that the Bidder has investigated the site of the Work and is satisfied as to all conditions to be encountered, the character, quantity and quality of the work to be performed and materials furnished in the completion thereof. No pleas of ignorance of conditions or difficulties that may be encountered in the execution of the Work pursuant to this bid package as a result of failure to make necessary and reasonable examinations and investigations will be accepted as an excuse for any failure or omission on the part of the successful Bidder to fulfill, in every detail, all of the requirements of the Contract Documents; nor will they be accepted as a basis for any claims whatsoever for extra compensation or for any extension of time. Prior to the time specified for receiving bid submittals any interpretation or modifications of the proposed Contract documents will be made only by Addendum. The County will send a courtesy notification when addenda are issued to each person to whom attended a mandatory or non-mandatory pre-bid meeting, if applicable; and/or submitted Bidder Registration. It is the sole responsibility of the Bidders to check the County's website at https://www.polk-county.net/business/procurement/ "Notice of Bids" to ensure that all available information, addenda, has been received prior to submitting a bid. The County shall not be responsible for oral instructions.

1.12 The Bid Bond shall be for 5% of the amount bid and shall be submitted with the Bid Submittal. The Performance and Payment Bonds shall be for 100% of the amount bid and, if called out in the contract, the allowance amount; and shall be submitted to procurement along with the executed contract documents as outlined under section 11.0, Approval of Contract. The Bid Bond, Performance, and Payment Bond shall be executed by a surety authorized to do business in the State of Florida and as named in the current list of "Companies Holding Certificates of Authority as Acceptable Sureties on Federal Bonds and as Acceptable Reinsuring Companies" as published in Circular 570 (amended) by the Audit Staff, Bureau of Government Financial Operations, U.S. Treasury Department and A.M. Best rated A VIII or better. All bonds signed by an agent must be accompanied by a certified copy of authority to act and indicate that they are licensed to do business in the State of Florida.

1.13 Unless exempt under Florida Statute, Bidder should furnish a copy of either their State of Florida Contractor Certification or their Florida Registration showing they are licensed in Polk County with its Bid Submittal. The Certification or Registration must be current and effective as of the Bid Submittal date and must be maintained throughout the life of the contract.

2.0 Pre-Qualifications

2.1 When a mandatory pre-bid meeting is specified, all Bidders must register prior to the conclusion of the meeting. Failure to do so will disqualify the firm from bidding. If there is a mandatory site visit, the Bidder must initial the registration sheet prior to completion of the visit to the site. An authorized representative or agent of the Bidder must be present at this meeting, as evidenced by their signature on the meeting's registration sheet, or the Bidder's Submittal will be considered non-responsive.

2.2 It is the Bidder's responsibility to ensure that they comply with the above requirements.

3.0 Joint Venture

If a Joint Venture is contemplated, the Joint Venture Agreement between the parties must be submitted with the bid and the bid must be submitted in the name of the Joint Venture. Otherwise, the bid will be considered non-responsive.

4.0 Bid Errors

Where Bid Submittals have erasures or corrections, each erasure or correction should be acknowledged by written initials of the authorized representative signing the Bid Submittal or their designee. The County reserves the right to reject any Bid Submittal with such erasures or corrections where the accuracy or intent of said Bid Submittal as corrected cannot be determined by County staff. In the case of unit price contracts, if an error is committed in the extension of an item, the unit price as shown in the Bid Submittal will govern. The County staff will verify the extension of the unit prices to verify the correct amount. The County's figures shall prevail.

5.0 No Bid

Should the bidder decide there is no interest in bidding, they should return the "Statement of No Bid".

6.0 Discounts

Discounts shall not be considered in determining the lowest net cost for bid evaluation purposes.

7.0 Material and Construction

All material, equipment and construction furnished shall be new and shall be of good quality, workmanship and material. If silent in specifications, then the most acceptable industry-standard product shall be furnished and installed.

8.0 Conflict of Interest

The award hereunder is subject to the provisions of Florida Statutes, Chapter 112. All Bidders must disclose with their bid the name of any officer, director or agent who is also an employee of the County or any of their agencies. All Bidders must disclose the name of any County employee who owns, directly or indirectly, any interest of any amount in the Bidder's firm or any of their branches.

9.0 Assignment of Contract

Bidder may not make any assignment of the resulting Contract between parties, in whole or in part, without prior written authorization as may be given at the sole discretion of the County.

10.0 Recommendation of Bid Award/Rejection of Bids

10.1 A bid may be recommended for award by the Procurement Director to the lowest responsive and responsible Bidder, provided that Bidder's bid submittal is considered (within the sole discretion of said Procurement Director) reasonable, in the best interest of County to recommend, and no bid protest has been filed. Unless otherwise noted, the basis of recommendation will either be the Base Bid, the Base Bid plus all alternates or any combination thereof, whichever is in the best interest of the County or may be determined by the availability of funds. Should the basis of award be the Base Bid plus selected alternates, the priority of the selection of those alternates will be set forth in the Supplementary Conditions if applicable. The successful Bidder to whom a bid is recommended for award will be so notified by County staff. The Procurement Director, however, at their sole discretion, reserves the right to reject any and all bid submittals or to waive any informality concerning the bid submittal whenever such rejection or waiver is in the best interest of the County. The Procurement Director, likewise, reserves the right to reject the bid submittal of any Bidder who has previously failed to perform properly or to complete on time, contracts of a similar nature; or who is not in a position to perform the contract; or who has habitually and without just cause neglected the payment of bills or otherwise disregarded its obligations to subcontractors, materialmen or employees.

10.2 As part of the recommendation of award by the Procurement Director, any actual bidder or proposed bidder who is allegedly aggrieved in connection with the solicitation or pending recommendation of award of a contract may protest to the Procurement Director, in accordance with the Procurement Policies and Procedures Manual. The procedures are available at the Polk County Procurement Division at (863) 534-6757. Any person who wishes to file a protest regarding the recommendation of award may do so by submitting a non-refundable cashier's check in the amount of $1,000.00 with their initial protest. Failure to follow the bid protest procedure requirements with the time frames prescribed herein as established by Polk County, Florida, shall constitute a waiver of your protest and any resulting claims. If no protests are received, the Procurement Director will work with the Procurement Analyst assigned to this bid to coordinate that the contract documents are executed by the recommended Bidder and placed on a Board agenda for approval by the Board and execution by the Chairman of the Board.

11.0 Approval of Contract

The recommended Bidder will be required to execute the contract documents as outlined in the bid package including, the Performance and Payment Bonds, all signed exhibits and other required information stated in the supplemental conditions or any addendums. The executed documents should be returned to procurement within 10 working days of the documents being sent by procurement to the Bidder for execution. After the executed documents are received back by procurement, they will be given to the County Attorney's Office for approval to be added to a Board agenda for Board approval and execution by the Chairman of the Board.

All contracts are subject to final approval of the Polk County Board of County Commissioners. Persons or firms which incur expenses or change position in anticipation of a contract prior to the Board's approval do so at their own risk.

12.0 Security Forfeiture

If after Bidder's receipt of a notice of recommendation for award the successful Bidder refuses or otherwise neglects to execute and deliver the required Contract documents, including the Performance and Payment Bonds, all signed exhibits, required insurance documents and other required information stated in the supplemental conditions or addendums within a reasonable time, the amount of the Bidder's bid security (Bid Bond) shall be forfeited and the recommendation of award shall be cancelled if such action is deemed to be in the best interests of the County. The Procurement Director will make the determination of "a reasonable time". It is recommended that the executed contract documents be returned to procurement within 10 working days of the documents being sent by procurement to the recommended Bidder for execution. No plea of mistake in the bid or misunderstanding of the conditions of forfeiture shall be available to the Bidder for the recovery of their bid security or as a defense to any action based upon the neglect or refusal to execute the required agreement or furnish the required bonds and insurance certification.

13.0 Laws, Codes and Regulations

The Bidder shall familiarize itself and comply with all Federal, State, County and City laws, codes, ordinances or regulations controlling the action or operation of those engaged in the Work, or affecting materials or methods used, and govern itself in accordance with them. If the Bidder observes that there are conflicts between the Drawings and Specifications or between any other documents, they shall promptly notify the County in writing prior to the Bid Receiving Date. Failure of the Bidder to notify the County of these variances shall not provide relief for compliance to the document as may be interpreted by the County. The Bidder shall hold harmless, to the fullest extent permitted by Florida Law, the County, the Florida Department of Transportation, and all of its officers, agents or servants against any claims or liability arising from, or based upon the violations of any such laws, by-laws, ordinances, regulations, orders or decrees, whether by itself or their employees.

14.0 Safety Requirements/Regulations

14.1 All Bidders are required to submit with their Bid Submittal or prior to award, Exhibit X, Safety Requirements/Regulations which states that if the firm falls under the Occupational Health and Safety Administration (OSHA) Regulations, as interpreted by OSHA, the successful contractor will be able to provide, at the request of the County, a copy of their OSHA 300 Log for the past three (3) years, a copy of the Workers Compensation Modification Rate; a copy of the Contractor's Safety and Health Program, and a copy of the Contractor's Drug Free Workplace Program. Any questions regarding the compliance with this provision shall be directed to Polk County Safety and Loss Control Coordinator, Risk Management Division, (863) 534-5267.

14.2 The Bidder is hereby notified that if awarded the bid and it involves work such as maintenance, repair, turnaround, renovation, construction or engineering on chlorine disinfection facilities or other covered process(es) must be able to provide, at the request of the County, the following items for review: OSHA 300 Log for past five (5) years, current safety program, training program and experience with other related processes. Documented evidence showing compliance with confined space entry, lockout/tagout, emergency response and safe work is required. All contract workers must comply with the facility's safe work practices and controls outlined in the facility safety manual and operating procedures.

14.3 The Bidder is hereby notified that if awarded the bid they shall be responsible for maintenance of traffic within the limits of the project for the duration of the construction period, including any temporary suspensions of the Work. The Contractor shall construct and maintain detours and provide facilities for access to residences, businesses, etc., along the project. The contractor shall furnish, install and maintain traffic control and safety devices during construction, furnish and install work zone pavement markings for maintenance of traffic in construction areas, and provide any other special requirements for safe and expeditious movement of traffic specified on the plans. Maintenance of Traffic includes all facilities, devices and operations as required for safety and convenience of the public within the work zone. Refer to Florida Department of Transportation's (FDOT) latest edition of the Standard Specifications for Road and Bridge Construction and the latest version of the Manual on Uniform Traffic Control Devices (MUTCD) for the minimum national standard for traffic control for highway construction, maintenance, and utility operation.

15.0 Liquidated Damages

Bidders are hereby advised that if the Contract documents so indicate, a reasonable amount for liquidated damages may be assessed for Contractor's failure to meet stated specifications, schedule, or other relevant issues as determined by the County. Information regarding the composition of liquidated damages can be found in the Supplementary Conditions. The liquidated damages are not intended as a penalty.

16.0 Standard Basis for Bidding

Where a particular system, product or material is specified by name, it shall be considered as a standard basis for bidding and as the most satisfactory for its particular purpose. Where two or more products, materials or manufacturers are specified by name, each shall be considered as a predetermined equal and acceptable for its particular purpose; and the bidder may use any of the listed items within their bid.

17.0 Preconstruction Conference

After the Board has approved the Bidder's executed contract and prior to the start of construction, a joint meeting may be held with representatives of the successful Bidder, the County and other invited parties or government agencies which may be affected by or have jurisdiction over the Work.

18.0 Florida Public Entity Crime Statute

The Contractor declares and warrants that neither the Contractor nor any of the Contractor's affiliates, as that term is defined in Section 287.133, Florida Statutes, are subject to the restrictions in Section 287.133, Florida Statutes, regarding the commission of a public entity crime. If during the term of this Agreement, the Contractor or any affiliate is convicted of a public entity crime or is otherwise prohibited from performing work for or transacting business with the County pursuant to Section 287.133, Florida Statutes, then the Contractor shall be in material default of this Agreement, and in such case, the County shall have the rights and remedies as provided herein.

19.0 Preference for Drug-Free Workplace-*Omitted intentionally, not applicable with Federal funding.*

20.0 Requirement to list Subcontractors

The successful Contractor shall provide a list of all proposed subcontractors, other persons or entities (including those who are to furnish materials or equipment fabricated to a special design), the associated costs, and company classification on Exhibit VI-A, Subcontractor List, upon request by Procurement Staff. The list must contain all subcontracted areas of work including those areas of work being self-performed. The total of work noted on this list must match the bid amount stated on Part C, Bid Submittal.

In addition, the successful Contractor should provide documentation reflecting their "Good Faith Effort" in securing the services of minority owned businesses for any appropriate subcontracted areas of work. This documentation shall be noted on Exhibit VI-B, Good Faith Effort, and shall be provided upon request by Procurement Staff.

21.0 Women/Minority Business Enterprise Outreach (WMBE's)

The County hereby notifies all Bidders that W/MBE's are to be afforded a full opportunity to participate in any bid by the County and will not be subject to discrimination on the basis of race, color, sex or national origin. The County asks that Bidders make good faith efforts to use qualified W/MBE subcontractors in preparing their bid. The W/MBE's must be identified as such on the subcontractors list. Bidders are encouraged to contact the Supplier Diversity Office, at (863) 534-5959 for assistance. If a Bidder makes a good faith effort to find and utilize qualified W/MBE subcontractors, but is not successful, they have fulfilled the Good Faith Effort required. Good Faith Effort shall be described as the effort put forth by bidders on construction bids to solicit prices from women/ minority contractors.

22.0 Equal Opportunity for Contractors and Subcontractors

Pursuant to U.S. Executive Order 11246, as amended, you are advised that under the provisions of government contracting, and in accordance with the Executive Order, contractors and subcontractors are obliged to take affirmative action to provide equal opportunity without regard to race, creed, color, national origin, age or sex.

23.0 Additions/Revision/Deletions

Additions, revisions or deletions to the general conditions, specifications or bid price sheets by a Bidder that change the intent of the bid will cause the bid to be non-responsive and the bid will not be considered. The Procurement Director shall be the sole judge as to whether or not any addition, revision, or deletion changes the intent of the bid.

24.0 Unit Prices

Unless otherwise stated in this document unit prices will be utilized to adjust the total compensation due the successful Bidder based on actual quantities provided as part of the Work and verified by the County. Significant changes in quantities, including deletion of any particular item are possible. Negotiation of unit prices shall not be allowed except under conditions of Force Majeure, where those conditions are sufficiently documented to the full satisfaction of the County. No other claim to negotiate unit prices will be considered.

25.0 Code of Ethics

If any bidder violates or is a party to a violation of the code of ethics of the County or the State of Florida, with respect to this bid, such bidder may be disqualified from performing the work described in this bid or from furnishing the goods or services for which the bid is submitted and shall be further disqualified from bidding on any future bids for work, goods, or services for the County.

26.0 Questions

All questions must be submitted in writing and addressed to the appropriate person in the Procurement Division by the specified date and time as listed on page IB-1. The bid cover sheet provides the name of the Procurement Division contact person, as well as their phone number, fax number and e-mail address.

27.0 Bid Protest

Procedures for filing a protest may be obtained from the County's Procurement Division. Failure to follow the bid protest procedure requirements within the time frames prescribed herein as established by the County shall constitute a waiver of the Bidder's right to protest and any resulting claims.

28.0 Prohibition Against Considering Vendor Interests

In accordance with Section 287.05701, Florida Statutes, the County may not (i) request documentation of or consider a Vendor's social, political, or ideological interests when determining if the Vendor is a responsible vendor; or (ii) give preference to a Vendor based on the Vendor's social, political, or ideological interests.

Local Preference *Omitted intentionally, not applicable with State funding.*

Vendor Preference- *Omitted intentionally, not applicable with State funding.*

PART B – CONDITIONS OF CONTRACT

GENERAL CONDITIONS

ARTICLE 1 – CONTRACT DOCUMENTS

1.1 The Contract Documents comprise the entire contract between the County and the Contractor.

ARTICLE 2 – DEFINITIONS

2.1 Whenever used in any of the Contract Documents, the following meaning shall be given to the terms herein defined:

2.1. The term **"Addendum" or "Addenda"** means any changes, revisions or clarifications of the Contract Documents which have been duly issued by the County to prospective Bidders prior to the time of receiving Bids.

2.2. The term **"Allowance Authorization Release"** means the written pre-approval forms signed by the County Manager or their designee for all allowance work.

2.3. The term **"Allowance Work"** means work that may not have been in the specifications and is deemed by the County to be necessary.

2.4. The term **"Application for Payment"** means the pay request accepted by the Construction Project Manager and the County which is to be used by the Contractor in requesting progress or final payments that is accompanied by such supporting documentation as is required by the Contract Documents.

2.5. The term **"Bid Submittal"** means the offer or submittal of the Bidder submitted on the prescribed form setting forth the price(s) for the Work to be performed.

2.6. The term **"Bonds"** means the Bid, Performance, and Payment Bond and other instruments of security furnished by the Contractor and its Surety in accordance with the Contract Documents.

2.7. The term **"Change Order"** means any change that requires the County's approval and either includes a change in the work or a change in the Contract Time.

2.8. The term **"Construction Change Directive"** means any change initiated by the County where a change order has not been agreed to between the County and the Contractor.

2.9. The term **"Construction Project Manager"** means the architectural/engineering firm or individual retained by the County or in-house designated person designated to perform the construction management services for the Work. The Construction Project Manager can also be the County Project Manager.

2.10. The term **"County Project Manager"** means the Polk County representative in charge or employed by the County, for the purpose of directing or being in charge of the work embraced in this Contract.

2.11. The term **"Contract"** means the Contract executed by the County and the Contractor.

2.12. The term **"Contractor"** means the person, firm or corporation entering into the Contract with the County to construct and install the improvements embraced in this Contract.

2.13. The term **"Contractor Certification of Disbursement of Previous Progress Payments to Subcontractors and Suppliers"** means the form that the Contractor must execute and submit with each Application for Payment certifying that the Contractor has paid all Subcontractors and Suppliers their respective pro rata share of all previous payments (to include payments of retainage) that the County has made to Contractor for Work that has been satisfactorily completed.

2.14. The term **"Contract Documents"** means and shall include the following: Special Conditions, Construction Plans, Drawings, Relocation Schedule Permits, Instruction to Bidders, General Conditions, Exhibits, Supplementary Conditions, Technical Reports, Technical Specifications, Bid Submittal, Bid, Performance, and Payment Bonds, all Addenda issued by the County, Certificates of Insurance, Permits, Notice of Award, Allowance Authorization Release Form, Change Order Form, Substantial Completion Form and Final Completion Form duly delivered after execution of Contract.

2.15. The term **"Contract Time"**, unless otherwise provided, means the period of time including adjustments by Change Order, allotted in the Contract Documents for final completion of the work.

2.16. The term **"County"** means Polk County, a political subdivision of the State of Florida, and its authorized designees, agents or employees.

2.17. The term **"Day"** shall be a calendar day unless otherwise defined in the Contract Documents. When any period of time is referred to in the Contract Documents by days, it will be computed to exclude the first and include the last day of such period. If the last day of any such period falls on a Saturday or Sunday or on a County Holiday as set forth below, such day will be omitted from the computation. A calendar day of twenty-four (24) hours measured from midnight to the next midnight will constitute a day.

When the Contract Time is specified as calendar days, workdays will be established in the Special Conditions. Workdays are defined as those days of the week and hours of the day that the Contractor may perform the scope of work defined in the Bid Document. The following County Holidays are non-workdays and are included in the original contract time. The County will not grant additional days for workdays that fall on County Holidays. County Holidays are: New Year's Day, Martin Luther King Day, Memorial Day, Fourth of July, Labor Day, Veterans Day, Thanksgiving Day, the Friday following Thanksgiving Day, Christmas Eve and Christmas Day, all as adopted by the Board of

County Commissioners. The Contractor may request permission to work on a County Holiday. The Contractor shall submit their request to work on a County Holiday a minimum of seven (7) calendar days in advance of the Holiday. However, the County is under no obligation to approve such request, and approval to work on a County Holiday is at the sole discretion of the County.

2.18. The term **"Drawings"** means the Drawings or construction plans listed in Part F.

2.19. The term **"Effective Date of the Contract"** means the date on which the contract has been approved by the Board of County Commissioners.

2.20. The term **"Engineer of Record (EOR)"** means the architectural/engineering firm or individual retained by the County or in-house designated person designated to perform the design engineering services for the Work. The Engineer of Record can also be the County Project Manager.

2.21. The term **"Field Order"** means a written direction to the Contractor from the **Construction Project Manager** that modifies Drawings and Specifications without changing Contract Price or Contract Time.

2.22. The term "**Final Completion**" means completion of all Work associated with the construction of the project, including all incomplete items, those items to be re-worked, and all contract close out documentation (i.e., Owner's Manuals, final as-builts and record drawings, and final application for payment).

2.23. The term **"Free on Board" (FOB)** means the cost of the goods including the shipment to the job site.

2.24. The term **"Good Faith Efforts"** means documented efforts to secure the participation of women and/or minority-owned subcontractors utilizing available resources to assist Bidder.

2.25. The term **"Lump Sum"** means that portion of the total contract amount that is fixed as a result of the amount of the bid submitted by the Contractor. If there is no "Allowance for Work" this amount is the total Contract amount. If there is an "Allowance for Work" then the bid price and the amount of the "Allowance for Work" becomes the total Contract amount

2.26. The term **"Not to Exceed"** means that portion of the total Contract amount described as "Allowance for Work" that along with the amount of the bid submitted by the Contractor becomes the total Contract amount. Changes in the Work submitted by the Contractor that are eligible and approved for funding from the "Allowance for Work" shall not exceed the amount provided a "Allowance for Work" either in a single request or cumulative during the performance of the Work.

2.27. The term **"Notice of Award"** means the written notice issued by the County to the successful bidder.

2.28. The term **"Notice to Proceed"** means a written notice issued by the Procurement Division to the Contractor fixing the date on which the Contract Time will commence and the final completion date which is based on the number of contract days.

2.29. The term **"Project Area"** means the Roadway Project as defined in Section 1 of the Special Conditions.

2.30. The term **"Procurement Director"** means the Director of Polk County Procurement Division or their authorized representatives.

2.31. The term **"Start Date"** means the date of commencement of the work.

2.32. The term **"Subcontractor"** means a person or entity who has direct contact with the Contractor to perform a portion of the Work, to include a person or entity who provides equipment to support completion of the Work under an equipment-rental agreement.

2.33. The term "**Substantial Completion**" means the stage in the progress of the Work when the Work is sufficiently complete in accordance with the Contract Documents, so the County can occupy or utilize the work for its intended purpose.

2.34. The term **"Supplier"** means a person or entity that furnishes materials or equipment that is incorporated into the Work or that is stockpiled within the Project Area or a nearby vicinity for which the County has made partial payment.

2.35. The term **"Technical Reports"** means the reports issued by the County or the Project Manager consisting of written technical material such as soil reports.

2.36. The term **"Unit Price"** means the amount stated in the contract documents as a price per unit of measurement for materials or services required in the work.

2.37. The term "**Utility Work by Roadway Contractor**" means utility plans prepared by a utility owner and made part of this Contract by agreement with the County.

2.38. The term **"Work"** means the entire completed construction or the various separately identifiable parts thereof required to be furnished under the Contract Documents. Work includes and is the result of performing or furnishing labor; furnishing and incorporating material and equipment in the construction; performing or furnishing services; and furnishing documents, all as required by the Contract Documents.

2.39. The term **"Requests for Information (RFI)"** means a written document initiated by the Contractor that is submitted to the Construction Project Manager for coordination with the County and others on a response to any of the following issues:

a. Interpretation of a contract document provision, the meaning of which, is not clear to the Contractor;
b. Errors, omissions or conflicts in the contract documents that are identified by the Contractor; or

c. Pay adjustment or entitlement.

The Construction Project Manager will respond to RFI's within fourteen (14) calendar days from the date received.

ARTICLE 3 – PRELIMINARY MATTERS

3.1 Delivery of Bonds

3.1. When the **Contractor** delivers the executed Contract to the **County**, the **Contractor** shall also deliver to the **County** such Bonds and insurance as may be required in accordance with these Contract Documents.

3.2. Copies of Documents

3.2.1. After the award of the Contract, the **County** shall furnish the **Contractor**, at no cost, five (5) sets of plans and one (1) Contract Document for execution of the work. Additional sets will be supplied at the discretion of the user divisions.

3.3. Commencement of Contract Time; Notice to Proceed

3.3.1. The Contract Time shall commence as established in the Notice to Proceed. A Notice to Proceed may be given at any time after the execution of the Contract by the Chairman of the Board of County Commissioners and after a pre-construction meeting, if applicable.

3.4. Starting the Work

3.4.1. The **Contractor** shall begin the Work on the start date established in the Notice To Proceed. No work shall be done prior to the date on which the Contract Time commences. Any work performed by the **Contractor** prior to the date on which Contract Time commences shall be at the sole risk of the **Contractor**.

3.5. Before Starting Construction

3.5.1. Before undertaking each part of the Work, the **Contractor** shall carefully study and compare the Contract Documents; check and verify pertinent figures shown thereon and all applicable field measurements. The **Contractor** shall promptly report, in writing, to the **Construction Project Manager** and the **County** any conflict, error, ambiguity or discrepancy which the **Contractor** may discover and shall obtain a written interpretation or clarification from the **Construction Project Manager** before proceeding with any Work affected thereby. The **Contractor** shall be liable to the **County** for failure to report any conflict, error, ambiguity or discrepancy in the Contract Documents, if the **Contractor** knew or reasonably should have known thereof.

3.5.2. Prior to the Notice to Proceed (unless otherwise specified in the General Requirements), the **Contractor** shall submit to the **Construction Project Manager** and the **County** for review and ultimate approval the following:

3.5.2.1. A preliminary schedule of the required shop drawings and submittals which will list each required submittal and the times for submitting, reviewing and processing such submittal.

3.5.2.2. A preliminary Schedule of Values for all of the Work which will include quantities and prices of items aggregating the Contract Price. The schedule of values should subdivide the Work into component parts in sufficient detail to serve as the basis for progress payments during construction with sufficient breakdown of lump sum prices to identify items of work. Such amounts will include an appropriate amount of overhead and profit applicable to each item of work. A copy of the schedule of values, with the appropriate bid number and the appropriate W/MBE classification in accordance with Section 17.1 shall be sent to the Procurement Division at 330 West Church Street, Bartow, Florida 33831.

3.5.2.3. A Construction Schedule according to FDOT Specification 8-3.2, Submission of Working Schedule as detailed in the Specification Package included in this Contract. This construction schedule shall be updated and accompany every application for payment submitted. Should the updated construction schedule show any portion of the Work to be behind, the Contractor shall submit with the updated construction schedule a detailed plan for recovery. This updated construction schedule shall be reviewed and approved by the Construction Project Manager or the County at the time of a construction progress meeting that coincides with the submission of the progress application for payment. Failure to submit this recovery plan with the updated construction schedule will cause the application for payment to be rejected until such time the recovery plan is submitted.

3.5.2.4. If a Traffic Control Plan (TCP) is provided in the construction plans and the Contractor intends to use that plan to maintain traffic, the Contractor shall provide a letter to the County stating that the provided TCP will be implemented for this contract. The Contractor may propose an alternative TCP according to the requirements FDOT Standard Specification 102-4 Alternative Traffic Control Plan for consideration by the County. Any alternative TCP must be approved by the County before it can be implemented and shall be prepared at no additional cost to the County. The cost for preparing the TCP shall be included in the lump sum unit price for pay item 102-1 Maintenance of Traffic LS.

3.5.2.5. All lane and/or road closures require approval of the County. The Contractor shall submit a completed Request for Lane or Road Closure form (Contract Exhibits XXII and XXIII) to the Construction Project Manager at least ten (10) working days prior to a road closure and at least seven (7) working days prior to a lane closure. The request must include a complete Traffic Control Plan showing the proposed closure and locations of all signs and traffic control devices. No closures shall be implemented without County approval.

3.5.3. Prior to the effective date of the Contract, the **Contractor** shall deliver to the **County**, with copies to each additional insured identified in the Supplementary Conditions, an original certificate of insurance (and other evidence of insurance which the **County** may reasonably request) which the **Contractor** is required to purchase and maintain in accordance with Article 6.

3.5.4. Before any Work at the site is started, a pre-construction meeting attended by the **Contractor, County Project Manager, Procurement Representative, Construction Project Manager** and others as appropriate will be held to establish a working understanding among the parties as to the Work and to discuss the schedules referred to in 3.5.2, procedures for handling shop drawings and other submittals, processing applications for payment, maintaining required records, and establishing the Notice to Proceed date. After the pre-construction meeting, the **Contractor** shall have ten (10) calendar days to make corrections and adjustments to their schedules and resubmit to the County for review and acceptance. No progress payment shall be made to the **Contractor** until the schedules are submitted to and deemed acceptable by the **Construction Project Manager**; but such acceptance will neither impose on the **Construction Project Manager** responsibility for the sequencing, scheduling or progress of the Work nor interfere with or relieve the **Contractor** from the **Contractor's** full responsibility.. The **Contractor's** schedule of shop drawings and submittals will be acceptable to the **Construction Project Manager** as providing a workable arrangement for reviewing and processing the required Submittals. The **Contractor's** schedule of values shall be approved by the **Construction Project Manager** and the **County** as to form and substance.

3.5.5. The **Contractor**, in addition to preparing an initially acceptable schedule, shall be responsible for maintaining the schedule, including updating the schedule. Schedule updates shall include progression of work as compared to scheduled progress of work. SCHEDULE UPDATES MUST ACCOMPANY EACH PAY REQUEST

ARTICLE 4 – CONTRACT DOCUMENTS, GOVERNING LAW AND VENUE, INTENT, DISCREPANCIES, AMENDING AND REUSE

4.1 Precedence

4.1.1. The Contract Documents comprise the entire agreement between the **County** and the **Contractor** concerning the Work. The Contract Documents are complementary; what is called for by one is as binding as if called for by all. The Contract Documents will be construed in accordance with the Laws of the State of Florida; Venue shall be Polk County.

4.1.2. Unless otherwise specified in the Contract Documents, these General Conditions and the Contract Special Conditions replace the current Division I of the FDOT Standard Specification for Road and Bridge Construction. Division II Construction Details and Division III Materials in the FDOT

Standard Specifications for Road and Bridge Construction, including all revisions current at the time of the bid, shall apply to this project. The applicable publication date of this document is prescribed in the plans.

4.1.3. It is the intent of the Contract Documents to describe a functionally complete Project (or part thereof) to be constructed in accordance with the Contract Documents. Any work, material or equipment that may reasonably be inferred from the Contract Documents or from prevailing custom or trade usage as being required to produce the intended result will be furnished and performed whether or not specifically called for. When words or phrases which have a well-known technical or construction industry or trade meaning are used to describe the Work, material or equipment, such words or phrases shall be interpreted in accordance with that meaning. Clarifications and interpretations of the drawings and specifications shall be issued by the Construction Project Manager.

4.1.4. Except as otherwise specifically stated in the Contract Documents or as may be provided by amendment or supplement thereto issued by one of the methods indicated in 4.3.1 or 4.3.2, the provisions of the Contract Documents shall take precedence in resolving any conflict, error, ambiguity or discrepancy between the provisions of the Contract Documents and the provisions of any such standard, specification, manual, code or instruction (whether or not specifically incorporated by reference in the Contract Documents) and the provisions of any such Laws or Regulations applicable to the performance of the Work (unless such an interpretation of the provisions of the Contract Documents would result in violation of such Law or Regulation).

4.1.5. Reference to standards, specifications, manuals or codes of any technical society, organization or associations, or to the Laws or Regulations of any governmental authority, whether such reference be specific or by implication, shall mean the latest standard, version, specification, manual, code or Laws or Regulations in effect at the time of opening of Bids (or on the Effective Date of the Contract if there were no Bids), except as may be otherwise specifically stated in the Contract Documents.

4.1.6. Whenever any provision of the Contract Documents requires the giving of written notice, it will be deemed to have been validly given if delivered in person to the individual or to a member of the firm or to an officer of the corporation for whom it is intended, or if delivered at or sent by registered or certified mail, postage prepaid, to the last business address known to the giver of the notice.

4.1.7. The Contractor shall keep adequate records and supporting documentation applicable to the Work and Contract. Said records and documentation shall be retained by the Contractor for a minimum of five (5) years from the date of final completion or termination of this Contract. The County shall have the right to audit, inspect and copy all such records and documentation as often as the County deems necessary during the period of the Contract and for a period of five (5) years thereafter provided,

however, such activity shall be conducted only during normal business hours. The County, during this period of time, shall also have the right to obtain a copy of and otherwise inspect any audit made at the direction of the Contractor as concerns the aforesaid records and supporting documentation.

4.2. Conflicts

4.2.1. If, during the performance of the Work, the **Contractor** discovers any conflict, error, ambiguity or discrepancy within the Contract Documents or between the Contract Documents and any provision of any such Law or Regulation applicable to the performance of the Work or of any such standard, specification, manual or code or of any instruction of any Supplier referred to in 7.4, the **Contractor** shall report it to the **Construction Project Manager** and **County Project Manager** in writing at once via the Request for Information (RFI) process; and the **Contractor** shall not proceed with the Work affected thereby (except in an emergency as authorized by 7.13) until receiving written direction from the **Construction Project Manager** or an amendment or supplement to the Contract Documents has been issued by one of the methods indicated in 4.3.1 or 4.3.2.

4.2.2. No provision of any such standard, specification, manual, code or instruction shall be effective to change the duties and responsibilities of the **County, Contractor** or **Construction Project Manager**, or any of their subcontractors, consultants, agents or employees from those set forth in the Contract Documents, nor shall it be effective to assign to the **County**, **Construction Project Manager** or any of the **Construction Project Manager's** consultants, agents or employees any duty or authority to supervise or direct the furnishing or performance of the Work or any duty or authority to undertake responsibility inconsistent with the provisions of the Contract Documents.

4.3. Amending

4.3.1. The Contract Documents may be amended to provide for additions, deletions and revisions to the Work by a Change Order or an Allowance Authorization.

4.3.2. In addition, the requirements of the Contract Documents may be supplemented and minor variations and deviations in the Work may be authorized by a Field Order or the **Construction Project Manager's** written interpretation or clarification.

4.4. Reuse of Documents

4.4.1. The **Contractor**, any Subcontractor, Supplier or other person or organization performing or furnishing any of the Work under a direct or indirect contract with the **County** shall not have or acquire any title to or ownership rights in any of the Drawings, Specifications or other documents

(or copies of any thereof) prepared by or bearing the seal of the **Construction Project Manager** or the **Construction Project Manager's** consultant; and shall not reuse any of such Drawings, Specifications, other documents or copies on extensions of the Project or any other project without written consent of the **County** and specific written verification or adaption by the **Construction Project Manager.**

ARTICLE 5 – PROJECT CONDITIONS

5.1 Availability of Lands

5.1.1. The **County** shall furnish, as indicated in the Contract Documents, the lands upon which the Work is to be performed, rights-of-way and easements for access thereto, and such other lands which are designated for the use of the **Contractor.**

5.1.2. Any additional lands, rights-of-way and easements not furnished by the **County** that the **Contractor** deems necessary, including but not limited to requirements for temporary construction facilities, access and egress, or for storage, shall be obtained in writing from the affected landowner by the **Contractor** at no increase in contract price or extension in contract time, and **Contractor** shall confine his operations to those areas furnished by the **County** or obtained at its expense. The **Contractor** shall hold the **County** harmless for all liabilities associated with said work outside the project area. Before mobilizing or storing any materials or equipment, the **Contractor** shall identify the areas to be used for storage in writing to the **County**. If property other than **County** right-of-way is proposed for storage, the **Contractor** shall provide the **County** a copy of the written approval or agreement from the property owner before mobilizing or storing any materials or equipment on said property.

5.2. Subsurface and Physical Conditions

Copies of any reports of exploration and tests of subsurface conditions at or contiguous to the site that have been utilized in preparing the Contract Documents are included in the Contract Documents.

5.3. Limited Reliance by Contractor Authorized Technical Data

The **Contractor** may rely upon the general accuracy of the "technical data" contained in reports and drawings provided by the **County**. Such "technical data" is identified in the Contract Documents. Except for said reliance on such "technical data," the **Contractor** may not rely upon or make any claim against the **County, the Construction Project Manager** or any of the **Construction Project Manager's** consultants with respect to:

5.3.1.1. the completeness of these reports and drawings for the **Contractor's** purposes, including, but not limited to, any aspects of the means, methods, techniques, sequences and procedures of construction to be employed by the **Contractor** and safety precautions and programs incident thereto; or

5.3.1.2. other data, interpretations, opinions and information contained in said reports or shown or indicated in said drawings; or

5.3.1.3. any **Contractor** interpretation of or conclusion drawn from any "technical data" or any such data, interpretations, opinions or information.

5.4. Unknown or Concealed Conditions (Excluding Existing Utilities)

5.4.1. If conditions are encountered, excluding existing utilities, at the site which are (1) subsurface or otherwise concealed physical conditions which differ materially from those indicated in the Contract Documents or (2) unknown physical conditions of an unusual nature, which differ materially from those ordinarily found to exist and generally recognized as inherent in construction activities of the character provided for in the Contract Documents, then the **Contractor** shall give the **County** notice, through the **Construction Project Manager**, immediately before conditions are disturbed and in no event no later than 24 hours after first observance of the conditions.

5.4.2. The **Project Manager** and the **Construction Project Manager** shall promptly investigate such conditions and, if they differ materially and cause an increase or decrease in the **Contractor's** cost of, or time required for, performance of any part of the Work, the **Project Manager** and the **Construction Project Manager** shall recommend an equitable adjustment in the Contract Price or Contract Time, or both. If the **Project Manager** and the **Construction Project Manager** determine that the conditions at the site are not materially different from those indicated in the Contract Documents or are not materially different from those ordinarily found and that no change in the terms of the Contract is justified, the **Construction Project Manager** shall notify the **Contractor** of the determination in writing. The Work shall be performed after the **Construction Project Manager** provides direction.

5.5. Physical Conditions – Underground Facilities

5.5.1. The information and data shown or indicated in the Contract Documents with respect to existing Underground Facilities at or contiguous to the site is based on information and data furnished to the **County** or the **Construction Project Manager** by the owners of such Underground Facilities or by others. Unless it is otherwise expressly provided in the Supplementary Conditions:

5.5.1.1. The **County** and the **Construction Project Manager** shall not be responsible for the accuracy or completeness of any such information or data; and

5.5.1.2. The cost of the following will be included in the Contract Price and the **Contractor** shall have full responsibility for (i) reviewing and checking all such information and data; (ii) locating all Underground Facilities shown or indicated in the Contract Documents; (iii) coordination of the Work with the owners of such Underground Facilities during construction; and (iv) the safety and protection of all

such Underground Facilities as provided in 7.11 and repairing any damage resulting from the Work.

5.5.2. If an Underground Facility is uncovered or revealed within the project which was not shown or indicated in the Contract Documents, the **Contractor** shall, promptly after becoming aware of and before further disturbing conditions affected by or performing any Work in connection therewith (except in an emergency as required by 7.14), identify the owner of such Underground Facility and give written notice to that owner and to the **County** through the **Construction Project Manager**. The **County Project Manager** and the **Construction Project Manager** will promptly review the Underground Facility and determine the appropriate course of action, if any. If the **County Project Manager** concludes that a change in Contract time is required, a Change Order will be issued as provided in Article 13 to reflect and document such consequences. During such time, the **Contractor** shall be responsible for the safety and protection of such Underground Facility as provided in 7.11. If the **County** and the **Contractor** are unable to agree on the length of time of any such adjustment in Contract Time, the **Contractor** may make a claim as provided in Article 13. However, the **County** and the **Construction Project Manager** shall not be liable to the **Contractor** for any claims, costs, losses or damages incurred or sustained by the **Contractor** on or in connection with any other project or anticipated project.

5.6. Engineering and Layout

5.6.1.5.6.1 Control Points Furnished by the **County**: The **County** will provide centerline control points (Begin Project, End Project, PIs, PTs, etc.) and bench marks at appropriate intervals along the line of the project to facilitate the proper layout of the work. Normally, the **County** will furnish only one bench mark for water crossings. Preserve all reference points and bench marks that the **County** furnishes. As an exception to the above, for projects where the plans do not show a centerline or other survey control line for construction of the work (e.g., resurfacing, safety modifications, etc.) the **County** will provide only points marking the beginning and ending of the project, and all exceptions.

5.6.2. Furnishing of Stake Materials: Furnish all stakes, templates, and other materials necessary for establishing and maintaining the lines and grades necessary for control and construction of the work.

5.6.3. Layout of Work: Utilizing the control points furnished by the **County** in accordance with 5.6.1, establish all horizontal and vertical controls necessary to construct the work in conformity to the Contract Documents. Perform all calculations required, and set all stakes needed such as grade stakes, offset stakes, reference point stakes, slope stakes, and other reference marks or points necessary to provide lines and grades for construction of all roadway, bridge, and miscellaneous items. When performing utility construction as part of the project, establish all horizontal and vertical controls necessary to carry out such work.

5.6.4. Specific Staking Requirements: When performing new base construction as part of the project, set stakes to establish lines and grades for subgrade, base, curb, and related items at intervals along the line of the work no greater than 50 feet on tangents and 25 feet on curves. Set grade stakes at locations that the **County** directs to facilitate checking of subgrade, base, and pavement elevations in crossovers, intersections, and irregular shaped areas.

5.6.4.1. For bridge construction stakes and other control, set references at sufficiently frequent intervals to ensure construction of all components of a structure in accordance with the lines and grades shown in the plans.

5.6.4.2. For projects where the plans do not show a centerline or other survey control line for construction of the work (resurfacing, safety modifications, etc.), provide only such stakes as necessary for horizontal and vertical control of work items.

5.6.4.3. For resurfacing and resurfacing-widening type projects, establish horizontal controls adequate to ensure that the asphalt mix added matches with the existing pavement. In tangent sections, set horizontal control points at 100 foot intervals by an instrument survey. In curve sections, set horizontal control points at 25 foot intervals by locating and referencing the centerline of the existing pavement.

5.6.4.4. Establish by an instrument survey, and mark on the surface of the finished pavement at 25 foot intervals, the points necessary for striping of the finished roadway. As an exception, for resurfacing and resurfacing/widening projects, establish these points in the same manner as used for horizontal control of paving operations. Mark the pavement with white paint. If performing striping, the **County** may approve an alternate method for layout of striping provided that the **Contractor** achieves an alignment equal to or better than the alignment that would be achieved using an instrument survey.

5.6.4.5. For projects that include temporary or permanent striping of "no passing zones", provide the location and length of these zones as shown in the plans, except projects where the vertical or horizontal alignment is new or altered from preconstruction alignment. For projects that consist of new or altered vertical or horizontal alignment, the **County** will provide the location and length of the "no passing zones" during construction. For these projects, notify the **Construction Project Manager** not less than twenty-one (21) calendar days prior to beginning striping.

5.6.4.6. For all projects, set a station identification stake at each right-of-way line at 100 foot intervals and at all locations where a change in right-of-way width occurs. Mark each of these stakes with painted numerals, of a size readable from the roadway, corresponding to the project station at which it is located. As an exception to the above, for projects where plans do not show right-of-way lines, set station identification stakes at locations and intervals appropriate to the type of work being done. For resurfacing and resurfacing/widening projects, set station identification stakes at 200 foot intervals.

5.6.5. Personnel, Equipment, and Record Requirements: Employ only competent personnel and use only suitable equipment in performing layout work. Do not engage the services of any person or persons in the employ of the **County** for performance of layout work. Keep adequate field notes and records while performing as layout work. Make these field notes and records available for the **Construction Project Manager** review as the work progresses, and furnish copies to the **County** at the time of completion of the project. The Engineer's inspection, checking, or acceptance of the **Contractor's** field notes or layout work does not relieve the **Contractor** of his responsibility to achieve the lines, grades, and dimensions shown in the Contract Documents. Prior to final acceptance of the project, mark, in a permanent manner on the surface of the completed work, all horizontal control points originally furnished by the **County.**

5.6.6. Payment: Include the cost of performing layout work as described above in the Contract unit prices for the various items of work that require layout.

5.7. Asbestos, PCBs, Petroleum, Hazardous Waste or Radioactive Material

5.7.1. The **County** shall be responsible for any Asbestos, PCBs, Petroleum, Hazardous Waste or Radioactive material or any hazardous material uncovered or revealed at the site which was not shown or indicated in drawings or specifications or identified in the Contract Documents to be within the scope of the Work and which may present a substantial danger to persons or property exposed thereto in connection with the Work at the site. The **County** shall not be responsible for any such material brought to the site by the **Contractor**, Subcontractor, Suppliers or anyone else for whom the **Contractor** is responsible.

5.7.2. The **Contractor** shall immediately: (i) stop all work in connection with such hazardous condition and in any area affected thereby (except in an emergency as required by 7.13); and (ii) notify the **County** and the **Construction Project Manager** (and thereafter confirm such notice in writing). The **County** shall promptly consult with the **Construction Project Manager** concerning the necessity for the **County** to retain a qualified expert to evaluate such hazardous condition or take corrective action, if any. The **Contractor** shall not be required to resume Work in connection with such hazardous condition or in any such affected area until after the **County** has obtained any required permits related thereto and delivered to the **Contractor** special written notice (i) specifying that such condition and any affected area is or has been rendered safe for the resumption of work; or (ii) specifying any special conditions under which such Work may be resumed safely.

5.7.2.1. If the **County** and the **Contractor** cannot agree as to entitlement to or the amount or extent of an adjustment, if any, in Contract Price or Contract Time as a result of such work stoppage or such special conditions under which Work is agreed by the **Contractor** to be resumed, either party may make a claim therefore as provided in Articles 12 and 13.

5.7.3. If, after receipt of such special written notice, the **Contractor** does not agree to resume such work based on a reasonable belief it is unsafe, or does not agree to resume such work under such special conditions, then the **Contractor** may order such portion of the work that is in connection with such hazardous conditions or in such affected area to be deleted from the Work. If the **County** and the **Contractor** cannot agree as to entitlement to or the amount or extent of an adjustment, if any, in Contract Price or Contract Time as a result of deleting such portion of the Work, then either party may make a claim therefore as provided in Articles 12 and 13. The **County** may have such deleted portion of the Work performed by the **County's** own forces or others in accordance with Article

5.7.4. The provisions of 5.2 and 5.5 are not intended to apply to Asbestos, PCBs, Petroleum, Hazardous Waste or Radioactive Material uncovered or revealed at the site.

Article 6 - BONDS, INSURANCE, INDEMNIFICATION

6.1 Performance and Payment Bonds and Other Bonds

6.1.1. The **Contractor** shall furnish a Performance and a Payment Bond, unless otherwise stated in the Invitation for Bid, in an amount equal to the amount recommended for award, as security for the faithful performance and payment of all the **Contractor's** obligations under the Contract Documents. This Bond shall remain in effect at least until one year after the date when final payment becomes due, except as otherwise provided by Laws or Regulations or by the Contract Documents. The **Contractor** shall also furnish such other Bonds as are required by the Supplementary Conditions. All Bonds shall be in the form prescribed by the Contract Documents except as otherwise provided by Laws or Regulations, and shall be executed by such sureties as are named in the current list of "Companies Holding Certificates of Authority as Acceptable Sureties on Federal Bonds and as Acceptable Reinsuring Companies" as published in Circular 570 (amended) by the Audit Staff, Bureau of Government Financial Operations, U.S. Treasury Department and A.M. Best rated AVIII or better.

6.1.2. The **Contractor** shall be required to furnish additional coverage for added work. The surety is required to increase the amount of the bond in the same amount of one or more change orders.

6.1.3. The bonds required by the Contract Documents to be purchased and maintained by the **Contractor** shall be obtained from a surety that is duly licensed or authorized in the State of Florida to issue bond for the limits and coverages so required. All bonds signed by an agent must be accompanied by a certify copy of authority to act. Such surety shall also meet such additional requirements and qualifications as may be provided in the Contract Documents.

6.1.4. If the surety on any bond furnished by the **Contractor** is declared bankrupt, becomes insolvent, its right to do business is terminated in any state or it ceases to meet the requirements of 6.1.1, the **Contractor** shall within ten (10) work days thereafter substitute another bond and surety, both of which must be acceptable to the **County**.

6.2. Warranty / Maintenance Bond

6.2.1. The **Contractor** shall provide the required Warranty / Maintenance Bonds according to the requirements of the FDOT Standard Specifications for Road and Bridge Construction. Typically, a Warranty/Maintenance Bond is required for Landscaping or Traffic Signal work.

6.3. Certificates of Insurance

6.3.1. All insurance required by the Contract Documents to be purchased and maintained by the **Contractor** shall be obtained from an insurance company that is duly licensed or authorized in the State of Florida to issue insurance policies for the limits and coverages so required. Such insurance companies shall also meet such additional requirements and qualifications as may be provided in the Contract Documents.

6.3.2. The **Contractor** shall deliver to the **County**, with copies to each additional insured identified in 6.4.1, certificates of insurance (and other evidence of insurance requested by the **County** or any other additional insured such as policy endorsements and copies on actual insurance policies if requested) which the **Contractor** is required to purchase and maintain in accordance with 6.4.1.

6.4. Contractor's Liability Insurance

6.4.1. The **Contractor** shall purchase and maintain such liability and other insurance as is appropriate for the work being performed and furnished and will provide protection from claims set forth below which may arise out of or result from the **Contractor's** performance and furnishing of the Work and the **Contractor's** other obligations under the Contract Documents, whether it is to be performed or furnished by the **Contractor**, subcontractor, supplier or anyone for whose acts any of them may be liable. The **Contractor** shall purchase and maintain insurance in force during the contract period with an insurer licensed to do business in the State of Florida; rated "A" or better by A.M. Best Rating Company for Class VIII financial size category, and acceptable to the **County** the following insurances. The limits of liability for the insurance shall provide coverage for not less than the following amounts or greater where required by Laws and Regulations:

a. Workers' Compensation Insurance providing statutory benefits, including those that may be required by any applicable federal statute:

Admitted in Florida:	Yes
Employer's Liability:	$100,000
All States Endorsement:	Statutory
USL & H Endorsement:	Statutory
Voluntary Compensation:	Statutory

b. Commercial General Liability Insurance, naming the County as an additional insured and/or Owner Protective Liability, when required by the County's Risk Manager, Contractual, Products and Completed Operations Liability coverage on an occurrence policy form in limits not less than those listed and deductible amounts not to exceed $25,000.

Aggregate Combined:	$5,000,000
Each Occurrence:	$5,000,000
M&C/CGL:	$5,000,000
Broad Form CGL:	$5,000,000
Contractual Liability:	$5,000,000
Products:	$5,000,000
Completed Operation:	$5,000,000
Personal Injury:	$5,000,000
Independent Contractors:	$5,000,000
XCU Property Damage Excel:	$5,000,000
Umbrella Liability:	_____

Contractors Pollution Legal Liability:	$5,000,000
Regarding Completed Operations Liability:	Continue coverage in force for two (2) years after **County's** acceptance of the project.

c. Automobile Liability Insurance. Coverage shall be maintained by the Contractor as to the ownership, maintenance and use of all of its owned, non-owned, leased or hired vehicles with limits of not less than:

Bodily injury & Property Damage Liability	$5,000,000
Combined Single Limit Each Accident	

6.4.2. These policies will provide that:

1) The insurer(s) waive their rights of subrogation against the **County**, their officials, employees, agents and consultants for Workers' Compensation and General Liability.
2) The **County**, a political subdivision of the State of Florida, shall be named as an additional insured with respect to liability arising from the work performed for the **County** by the **Contractor** (as defined by the scope of this bid and subsequent contract) for Automotive and General Liability policies of insurance. This should be stated on Certificate(s) of Insurance and subsequently endorsed into the policies. A thirty (30) day written notice of cancellation and ten (10) day notice of non-payment is required. Renewal notices to be sent to the Procurement Division.
3) The **Contractor** shall not be given Notice to Proceed under this contract until it has obtained all the insurance required by the Contract Documents and such insurance has been approved by the **County**. The original insurance certificates shall be given to:

Polk County, a political subdivision of the State of Florida
P.O. Box 9005, Drawer AS05
Bartow, Florida 33831-9005

6.4.3. The acceptable form of the certificate of insurance shall be the industry standard ACORD certificate.

6.4.4. Notwithstanding any other provision of these documents to the contrary, the **Contractor** shall not provide Builder's Risk or Architects' and Engineers' Construction Project Manager Liability Insurance unless specially requested by the **County**. The **County** has Builder's Risk coverage and will provide the **Contractor** with appropriate Certificate of Insurance upon request. The County's Builder's Risk policy does not insure the **Contractor's** tools, machinery or equipment that is stored at the job site. If the **Contractor** is required to store tools, machinery or equipment at the job site, the **Contractor** should provide insurance in the form of an equipment floater for the **Contractor's** tools and equipment. The **County** should be named as an additional insured on the **Contractor's** policy, with an appropriate waiver of subrogation as to any claims the **Contractor** or the Contractor's insurer may have against the **County** arising from the storage of the **Contractor's** tools and equipment.

6.4.5. The **Contractor** shall not allow a subcontractor to work on a project without either subcontractor carrying their own Workers' Compensation and Liability insurance or the **Contractor** covering the subcontractor under their policies. The policy is the same for each succeeding sub-tier contractor. The **County** may request proof of such coverage for any subcontractor at any time during the project.

6.4.6. Any additional insurance, if required, will be set forth in the Special Conditions.

6.5. Receipt and Application of Insurance Proceeds

6.5.1. Any loss for Builders Risk under the policies of insurance required by this Contract shall be payable to the **County,** as loss payee, for the insured as their interest may appear. The **County** shall account for all money received and shall distribute it in accordance with such agreement as the parties in interest may reach. If no other special agreement is reached, the damaged work shall be repaired or replaced; the money so received applied on account thereof; and the work and cost thereof covered by an appropriate Change Order or written amendment as determined by the **County**.

6.5.2. The **County**, as loss payee has the power to adjust and settle any loss with the insurers. If such objection is made, the **County**, as loss payee, shall make settlement with the insurers in accordance with such agreement as the parties and interests may reach. If no such agreement among the parties and interests is reached, the **County**, as loss payee, shall adjust and settle the loss with the insurers.

6.6. Indemnification

6.6.1. The **Contractor** shall indemnify, defend (by counsel reasonably acceptable to **County**) and hold harmless the **County** and its employees and agents from and against all liabilities, claims, suits, demands, damages, losses and expenses, including attorney fees, including, but not limited to or resulting from the performance of its Work, provided that any such liability, claim, suit, demand, damage, loss or expenses (a) is attributable to bodily injury, personal injury, sickness, disease or death or injury to or destruction of tangible property, including the loss of use resulting therefrom; and (b) is caused in whole or in part by an act or omission of the **Contractor**, any subcontractor, anyone directly or indirectly employed by any of them, or anyone for whose acts any of them may be liable, whether or not it is caused in whole or in part by the negligence or other fault of a party indemnified hereunder.

6.6.2. In any and all claims against the **County** or any of its agents or employees by any employee of the **Contractor**, any subcontractor, anyone directly or indirectly employed by any of them, or anyone for whose acts any of them may be liable, the indemnification obligation under the previous paragraph shall not be limited in any way as to the amount or type of damages, compensations or benefits payable by or for the **Contractor** or any

subcontractor under workers' compensation acts, disability benefit acts or other employee benefit acts.

6.6.3. The **Contractor** shall indemnify and hold harmless the **County** and anyone directly or indirectly employed by it from and against all claims, suits, demands, damages, losses or expenses (including attorney fees) arising out of any infringement of patent or copyrights held by others; and shall defend all such claims in connection with any alleged infringement of such rights.

ARTICLE 7 – CONTRACTOR'S RESPONSIBILITIES

7.1 Supervision and Superintendence

7.1.1. The **Contractor** shall provide at all times when the Work is being executed a competent superintendent to supervise and direct the Work in accordance with the Contract Documents. The superintendent shall speak and understand English and have at least one other responsible person who speaks and understands English. The superintendent shall not be replaced without written notice to the **County**, through the **Construction Project Manager**, except under extraordinary circumstances. Prior to the commencement of the Work the **Contractor** shall provide a resume of the superintendent that will be assigned the responsibility to supervise the Work. If in the judgment of the **County** the proposed superintendent lacks the experience, skills and expertise to competently and efficiently supervise and direct the Work, then the **County** may require the **Contractor** to assign a different superintendent and the **Contractor** will be required to submit the resume of the replacement for the same consideration as before. The superintendent will be the **Contractor's** representative at the site and shall have authority to act on behalf of the **Contractor.** All communications to the superintendent shall be as binding as if given to the **Contractor**. If during the commencement of the work, the **County** is not satisfied with the superintendent's work, the **County** shall have the right to request a replacement superintendent and the **Contractor** will be required to submit the resume of the replacement for the same consideration as before.

7.1.2. The **Contractor** shall be solely responsible for the means, methods, techniques, sequences and procedures of construction. The **Contractor** shall be responsible to see that the completed Work complies accurately with the Contract Documents.

7.2. Labor, Material and Equipment

7.2.1. The **Contractor** shall provide and pay for competent, suitable, qualified personnel to survey and lay out the Work and perform construction as required by the Contract Documents. The **Contractor** shall at all times maintain good discipline and order on the site.

7.2.2. The **Contractor** shall furnish and pay for all material, equipment, labor, transportation, construction equipment machinery, tools, appliances, fuel,

power, light, heat, telephone, water facilities, sanitary facilities, all other facilities and all other incidentals whether temporary or permanent necessary for the execution, testing, initial operation, and completion of the Work as required by the Contract Documents. Equipment that is leaking fuel, lubricant, coolant, hydraulic fluid or any other hazardous material shall immediately be repaired by the **Contractor** and the **Contractor** shall immediately notify the **County** and the **Construction Project Manager** of the incident and cleanup / repair efforts. The **Contractor** shall clean up and dispose of any hazardous material according to all applicable laws, ordinances, rules and regulations within 24-hours of occurrence. All repairs, removal, clean-up and/or disposal shall be at no cost to the **County**.

7.2.3. All material and equipment shall be new and of good quality, except as otherwise provided in the Contract Documents. The **Contractor** shall provide copies of all delivery tickets, or invoices, for all materials and equipment to be used for the project to the **County** immediately upon delivery or as soon thereafter as is practical. If silent in specifications, then the most acceptable industry-standard product shall be furnished and installed, as approved by the **Construction Project Manager**.

7.2.4. All material and equipment shall be applied, installed, connected, erected, used, cleaned and conditioned in accordance with the instructions of the applicable manufacturer, fabricator or processor, except as otherwise provided in the Contract Documents.

7.3. Substitute Material or Equipment

7.3.1. If the **Contractor** wishes to furnish or use a proposed substitute after the award of the Contract, it shall within thirty (30) calendar days after Notice to Proceed make written application to the **Construction Project Manager** and the **Project Manager** for consideration of such substitute, certifying in writing that the proposed substitute: will perform adequately the duties imposed by the general design; be similar and of equal substance or quality to that specified; and be suited to the same use and capable of performing the same function as that specified. No substitute shall be ordered or installed without the prior written approval of the **Construction Project Manager.** The application shall also contain an itemized estimate of all costs that may result directly or indirectly from acceptance of such substitute, including costs of redesign, delays, maintenance and claims of other contractors affected by the resulting change, all of which shall be considered by the **Project Manager** and the **Construction Project Manager** in evaluating the proposed substitute. Approval of any change in costs or schedule as a result of acceptance of the substitute by the **Construction Project Manager** shall be by Change Order.

7.3.2. This paragraph applies to any cost reduction proposal (hereinafter referred to as a Value Engineering Change Proposal or VECP) initiated and developed by the **Contractor** for the purpose of refining the Contract Documents so as to contribute to design cost effectiveness or significantly improve the quality of the end result. VECPs must result in savings without

impairing essential functions and characteristics such as safety, service, life, reliability, economy of operation, ease of maintenance, aesthetics and necessary standard design features. The **Contractor** must state that they are submitting a VECP proposal. The VECP shall be submitted to the **County** through the **Construction Project Manager**. The **County** reserves the right to reject, at their discretion, any VECP submittal. As a minimum, the following information shall be submitted by the **Contractor** with each VECP:

1) A description of the difference between the existing contract requirement and the proposed change;

2) The comparative advantages and disadvantages; and

3) Separate detailed cost estimates for both the existing contract requirement and the proposed change.

If a VECP is approved by the **County**, the **Contractor** may be entitled to share in the savings up to fifty percent (50%).

7.4. Concerning Subcontractors

7.4.1. The **Contractor** shall be fully responsible for all acts and omissions of their Subcontractors and of persons directly or indirectly employed by them and of persons for whose acts any of them may be liable to the same extent as if they were employed by the **Contractor**. Nothing in the Contract Documents shall create any contractual relationship between any Subcontractor and the **County** or any obligation on the part of the **County** to pay or to see to the payment of any monies due any Subcontractor, except as may otherwise be required by law. The **County** may furnish to any Subcontractor, to the extent practical, evidence of amounts paid to the **Contractor** for specific Work done.

7.4.2. The **Contractor** shall identify and provide information on Subcontractors, Suppliers and other persons or organizations which shall be used by the **Contractor**, in accordance with requirements of the Contract Documents.

7.4.3. The divisions and sections of the Specifications and the identifications of any Drawings shall not control the **Contractor** in dividing work among Subcontractor or delineating the Work to be performed by any specific trade.

7.4.4. The **Contractor** agrees to bind specifically every Subcontractor to the applicable terms and conditions of the Contract Documents, including but not limited to the General Conditions and Supplementary Conditions, for the benefit of the **County.**

7.4.5. All Work performed for the **Contractor** by a Subcontractor shall be pursuant to an appropriate written agreement between the **Contractor** and the Subcontractor which shall contain provisions that waive all rights the

contracting parties may have against one another for damages caused by fire or other perils covered by insurance, except such rights as they may have to the proceeds of such insurance held by the **County** as trustee. The **Contractor** shall pay each Subcontractor an appropriate amount, determined by the value of the Work, of any insurance monies received by the **Contractor** under this insurance.

7.5. Patent Fees and Royalties

7.5.1. The **Contractor** shall pay all license fees and royalties and assume all costs incident to the use of any invention, design, process or device which is the subject of patent rights or copyrights held by others. The **Contractor** shall indemnify and hold harmless the **County** and its employees and agents from and against all claims, costs, losses and damages arising out of or resulting from any infringement of patent rights or copyrights incident to the use in the performance of the Work or resulting from the incorporation in the Work of any invention, design, process, product or device not specified in the Contract Documents.

7.6. Permits

7.6.1. The **Contractor** shall obtain and pay for all construction permits, licenses, governmental charges, inspection fees and all public utility charges which are applicable and necessary for the execution of the Work. These costs are considered incidental to the Work. Permits, if any, that are provided and paid for by the **County**, are listed in the Contract Documents. Any delays associated with the permitting process will be considered for time extensions only; however, no damages or additional compensation for delay will be allowed.

7.6.2. As required by the appropriate Water Management District (WMD), before beginning any dewatering activities, (whether it is discharged offsite or not), the WMD must be notified. The **Contractor** shall provide the **County** with a forty eight (48) hour advance notification of any de-watering activities so the **County** can properly notify the WMD. If the **Contractor**'s dewatering activity results in offsite discharge to wetlands or surface waters, a permit modification of the original construction permit would be required. Furthermore, if the **Contractor**'s dewatering activity results in offsite discharge to wetlands or surface waters, the **Contractor** is to prepare a written dewatering plan and submit said plan to the **County** and the appropriate WMD for approval. The cost for preparing the dewatering plan, the installation thereof and the dewatering shall be included in the unit price for the work requiring dewatering.

7.7. Laws and Regulations

7.7.1. The **Contractor** shall give all notices and comply with all laws, ordinances, rules and regulations applicable to the Work. If the **Contractor** observes that any of the Contract Documents are contradictory to such laws, rules and regulations, it will notify the **Construction Project Manager**

promptly in writing. Any necessary changes shall then be adjusted by an appropriate Change Order. If the **Contractor** performs any Work that they know or should have known to be contrary to such laws, ordinances, rules and regulations and without such notice to the **Construction Project Manager**, the **Contractor** shall bear all related costs.

7.8. Taxes

7.8.1. The **Contractor** shall pay all sales, consumer, use and other similar taxes required to be paid by the **Contractor** in accordance with the Laws and Regulations of the place of the project which are applicable during the performance of the Work.

7.9. Use of Premises

7.9.1. The **Contractor** shall confine their equipment, storage of material, storage of equipment and the operations of their workers to the areas permitted by law, ordinances, permits or the requirements of the Contract Documents. The **Contractor** shall not unreasonably encumber the site with material and equipment. Any loss or damage to the **Contractor's** or any Subcontractor's equipment is solely at the risk of the **Contractor**.

7.9.2. During the progress of the Work, the **Contractor** shall keep the premises free from accumulations of waste material, rubbish and other debris or contaminates resulting from the Work. At the completion of the Work, the **Contractor** shall remove all waste material, rubbish and debris from and about the premises as well as all tools, appliances, construction equipment, machinery and surplus material. The **Contractor** shall leave the site clean and ready for occupancy by the **County** at substantial completion of the Work. All disposals shall be in accordance with applicable laws and regulations. In addition to any other rights available to the **County** under the Contract Documents, the **Contractor**'s failure to maintain the site may result in withholding any amounts due the **Contractor**. The **Contractor** shall restore to original condition all property so designated for alteration by the Contract Documents.

7.9.3. The **Contractor** shall not load or permit any part of any structure to be loaded in any manner that will endanger the structure. The **Contractor** shall not subject any part of the Work or adjacent property to stresses or pressures that will endanger them.

7.10. Record Documents

7.10.1. The **Contractor** shall maintain in a safe place at the site, one (1) record copy of all Drawings, Specifications, Addenda, Permits, Change Orders, Change Requests, Field Orders correspondence, field test records, **Contractor**'s daily reports and construction photographs, and written interpretations and clarifications in good order, and annotated to show all changes made during construction. These record documents, together with all approved samples and shop drawings, will be available at all times

during regular working hours to the **Construction Project Manager** and the **County**. In addition, the **Contractor** shall submit on a daily basis, two (2) copies of the preceding day's daily report to the **County** through the **Construction Project Manager**. The record drawings shall be marked up as the Work progresses to reflect current conditions and shall become the "as-built" plans. The revisions are to be indicated in a neat, well organized manner and are to include the elevation and plan location of all utilities, structures, etc., encountered or installed. A "record" survey book shall be kept and shall include the following items:

1. The location and elevation of all existing Underground Facilities, utilities and structures, etc. encountered.
2. The finished location and elevation of all Underground Facilities, utilities and structures installed, including, but not limited to, fire hydrants, catch basin and manhole lids, inverts, pipes, curbs, driveways, pavement and any and all underground structures.

7.10.2. All record notes shall be kept in book(s) designed "record" and no other survey notes will be kept in such books. The **Contractor** will be required to review with the **County** the status of the "as built" plans and the record survey notes in connection with the **County** evaluation of each Application for Payment. Failure to maintain record documents current shall be just cause to withhold payments for Work performed. Upon completion of the Work, the **County** shall deliver to the **Contractor** a reproducible set of current Plans. The **Contractor** will transfer all his "as-built" information to these reproducibles and deliver the resultant as-built set of plans, together with the record survey book to the **Construction Project Manager** for the **County**. Each completed set of "As-Built" drawings must include on its face, a certified statement by the **Contractor** that the set of "As-Builts" drawings accurately depicts the actual Work as constructed. "As-Built" drawings must meet WMD requirements and at a minimum shall include roadway template data on 100' cross sections including curb elevations, structure invert elevations and outfall elevations.

7.11. Safety and Protection

7.11.1. The **Contractor** shall take all necessary precautions for the safety of and will provide the necessary protection to prevent damage, injury or loss to:

1. All employees on the Work and other persons who may be affected by it.
2. All the Work and all material or equipment to be incorporated, whether in storage on or off the site. The **Contractor** shall assume all risk of loss for stored equipment or material, irrespective of whether the **Contractor** has transferred the title of the stored equipment or material to the **County.**
3. Other property at the site or adjacent to it, including trees, shrubs, lawns, walks, pavements, roadways, structures and utilities not designated for removal, relocation or replacement in the course of construction.
4. When the performance of the Work requires the use of shoring, sheet piling and other special construction related to excavation, and when required by Laws or Regulations, the **Contractor** shall cause the design of said shoring, sheet piling and other special construction to be performed

by a registered Construction Project Manager engineer licensed in the State of Florida. The **Contractor** shall submit, as a Shop Drawing, a certification by the registered engineer, stating that it has complied with this requirement. The **Contractor** shall meet all requirements of such designs prepared by a registered engineer. In addition to any requirements imposed by law, the **Contractor** shall shore up, brace, underpin, and protect as may be necessary, all foundations and other parts of all existing structures adjacent to and adjoining the site of the Work which are in any way affected by the excavations or other operations connected with the performance of the Work.

7.11.2. The **Contractor** is responsible for observing all OSHA regulations and shall self-inspect to ensure this is accomplished. The **Contractor** shall ensure that all personnel are properly trained and shall be able to provide documentation for their personnel that have attended training courses. Examples of such training courses are: Hazard Communications, Traffic Work Zone Safety, Personal Protective Equipment, First Aid/CPR, Permit Required Confined Space, Lock Out/Tag Out of Hazardous Energy. The **Contractor** is required to comply with OSHA Standards regardless of the number of employees they may have.

7.11.3. A **County** representative may periodically monitor work site safety. Should there be safety and/or health violations, classified as Serious, Willful or Criminal/Willful Violations, the **County's** representative may have the authority, but not the duty, to require the **Contractor** to correct the violation in an expeditious manner. Inspections shall be based on requirements contained in law. The definitions of serious, willful and criminal/willful violations are as follows:

1. Serious Violation: A serious violation shall be deemed to exist in a place of employment if there is a substantial probability that death or serious physical harm could result from a condition which exists; or from one or more practices, means, methods, operations or processes which have been adopted or are in use, in such place of employment unless the employer did not, and could not, with the exercise of reasonable diligence, know of the presence of the violation.
2. Willful Violation: May exist where evidence shows that the employer committed an intentional and knowing violation of the Act.
3. Criminal/Willful Violation: A repeat violation of a previously cited willful violation.

7.11.4. Violation of Serious, Willful or Criminal violation may have the following consequences:

1. First violation: The correction may be a verbal warning and the correction shall be done the same day. Written documentation may be maintained by the **County.**
2. Second violation: May result in work stoppage until the violation is corrected. The work stoppage shall not entitle the **Contractor** to additional contract time or compensation. Liquidated damages provision will remain in full force and effect.

3. Third violation: This may constitute a breach of contract for safety violations and may result in termination of the contract, at the sole discretion of the **County.**

Note: The County Safety Officer may stop any job to ensure the safety of all concerned.

7.11.5. Should the work site be in a hazardous area, the **County** may furnish the **Contractor** with information concerning hazards such as types or identification of known toxic material, machine hazards, Material Safety Data Sheets or any other information that would assist the **Contractor** in the planning of a safe work site.

7.11.6. The **Contractor** shall be aware that while working for the **County**, representatives from agencies such as the United States Department of Labor, Occupational Safety and Health Administration (OSHA) are invitees and need not have warrants or permission to enter the work site. These agencies, as well as the County Safety Officer, enter at the pleasure of the **County**.

7.11.7. The **Contractor** shall designate a competent person of its organization whose duty shall be the prevention of accidents at the site. This person shall be the **Contractor's** superintendent, unless otherwise designated in writing by the **Contractor** to the **Construction Project Manager**. All communications to the superintendent shall be as binding as if given to the **Contractor.**

7.11.8. Should there be catastrophic injuries, as defined by OSHA, or a fatality on the worksite, the County Safety Manager, Risk Management Division, (863) 534-5267, shall be notified immediately. The **Contractor** shall promptly report by telephone and in writing to a County Representative and **Construction Project Manager** all accidents arising out of or in connection with the Work which cause death, personal injury (defined by OSHA as a "lost time" accident), or property damage in excess of $500.00; giving full details and statements of any witnesses. County Representatives are defined as follows: The Division Director or the authorized representative, the division Project Manager and County Risk Management. Non-adherence to this policy could be cause for disqualification of the Contractor on future County Projects.

7.11.9. Should the County Safety Manager, require the OSHA 300 Log, a written safety and health plan and/or training documents, these documents shall be at this office within 24 hours of the request. Failure to provide the documentation within that time frame may cause the job to be shut down, at no expense to the **County**, until such documents are received.

7.11.10. In any event the **County** may stop the work when, in the **County's** opinion, the work is being performed in violation of any health and safety rules, regulations or laws. This includes environmental issues.

7.11.11. When it becomes necessary to stop the work for any of the reasons contained herein, the **County** shall issue a Stop Work Order to instruct the **Contractor** to cease work on the project. The **County** shall not be penalized in any manner as a result of this Stop Work Order.

7.12. Drug Free Work Place Policy

7.12.1 The **County** has a very comprehensive policy to ensure a drug free work place. The substance of this policy shall become a part of this contract as described below.

1. The **Contractor** and its employees and Subcontractors are strictly prohibited from the following:

a) Using illegal drugs on **County** property;
b) Manufacturing, distributing, dispensing, selling, possessing, or using a non-prescribed substance, illegal drug or alcohol, while at work or on or in **County** property. Reporting for work or performing work under the influence of a non-prescribed substance, illegal drug or alcohol.

2. If there is reason to believe that this policy is being violated, the **Contractor** shall be required to take immediate action to correct the violation and ensure the **County** that further violations will not occur. The remedy shall, at a minimum, require the person or persons who are the subject of the violation to be banned from the work place.

7.13. Emergencies

7.13.1. In emergencies affecting the safety of persons, the Work or property at the site or adjacent thereto, the **Contractor**, without special instructions or authorization from the **Construction Project Manager** if time or circumstances do not permit, is obligated to prevent or mitigate threatened damage, injury or loss. The **Contractor** shall give the **Construction Project Manager** written notice that the emergency provision has been invoked and shall state the reasons within twenty-four (24) hours of the incident. If the **Contractor** believes the emergency results in additional Work, a claim for a Change Order may be submitted in accordance with the procedures set forth herein.

7.13.1.1. The **Contractor** shall immediately notify the **Construction Project Manager** of all events involving personal injuries to any person on the site, whether or not such person was engaged in the construction of the Project, and shall file a written report on such person(s) and any other event resulting in property damage of any amount within five (5) calendar days of the occurrence.

7.13.1.2. If the **Construction Project Manager** determines that a change in the Contract Documents is required because of the action taken by the **Contractor** in response to such an emergency, a Change Order will be issued to document the consequences of such action.

7.14. Submittals, Shop Drawings, and Samples

7.14.1. In general, the **County** requires shop drawings for items of work not fully detailed in the plans which require additional drawings and coordination prior to constructing the item, including but not limited to:

a. Bridge components not fully detailed in the plans, i.e. segments, steel girder details, post-tensioning details, handrails, etc.
b. Retaining Wall Systems
c. Precast Box Culverts
d. Non-standard lighting, signalization and signing structures and components
e. Building Structures
f. Drainage structures, attenuators, and other nonstmctural items
g. Design and structural details furnished by the Contractor in compliance with the Contract
h. Temporary Works affecting public safety
i. Bridge Structural Steel and Miscellaneous Metals
j. Bridge Concrete components that are not cast-in-place
k. Major and Unusual Structures
l. Minor modifications to the permanent works for the purposes of expediting the **Contractor**'s chosen construction methods
m. Requirements in Provision 7.11.1.5

7.14.2. Other provisions of the Contract Documents may waive the requirement for submittals for certain items; e.g., items constructed from standard drawings or those complying with alternate details for pre-stressed members under FDOT Standard Specification Section 450. The Special Conditions may also list the submittals required.

7.14.3. After checking and verifying all field measurements and after complying with applicable procedures specified in the Specifications, the **Contractor** shall submit to the **Construction Project Manager** for review and approval in accordance with the accepted schedule of Submissions, seven (7) copies for use by the **County**, **Construction Project Manager** and any additional copies as required by the **Contractor** (unless otherwise specified in the Contract Documents) of all Submittals and Shop Drawings, which shall have been checked by and stamped with the approval of **Contractor** and identified as the **Construction Project Manager** may require. The **Contractor** shall submit a copy of the transmittal letter providing drawing numbers and titles for each item included in Submittals and Shop Drawings to the **Construction Project Manager**.

7.14.4. The **Contractor** shall also submit to the **Construction Project Manager** for review and approval, with such promptness as to cause no delay in the Work, all samples required by the Contract Documents. All samples shall have been checked by and stamped with the approval of the **Contractor**, identified clearly as to material, manufacturer, any pertinent data such as catalog numbers and the use for which it is intended.

7.14.5. The **Contractor**'s stamp of approval on any Submittal, Shop Drawing or sample shall constitute its representation to the **County** and the **Construction Project Manager** that the **Contractor** has either determined and verified all quantities, dimensions, field construction criteria, materials,

catalog numbers, specified performance criteria, and similar data or assumes full responsibility for doing so, and that the **Contractor** has reviewed or coordinated each Submittal, Shop Drawing or sample with the requirements of the Work and the Contract Documents.

7.14.6. At the time of each submission, the **Contractor** shall in writing call the **Construction Project Manager's** attention to any deviations that the Submittals, Shop Drawings or samples may have from the requirements of the Contract Documents, and, in addition, shall cause a specific notation to be made on each submission of such variation.

7.14.7. The **Construction Project Manager** will review Submittals, Shop Drawings and review samples and return the **Contractor's** submittals stamped with the following notation:

[ ] APPROVED
[ ] APPROVED AS NOTED
[ ] REVISE AND RESUBMIT
[ ] NOT APPROVED
Reviewed By: ___ _
Date: -------

7.14.8. Approval is only for general conformance with the design concept of the Project and compliance with the information given in the Contract Documents. Such reviews and approvals or other actions shall not extend to means, methods, techniques, sequences, or procedures of construction or to safety precautions and programs incident thereto. The **Contractor** is responsible for dimensions to be confirmed and correlated at the job site; for information that pertains solely to the fabrication processes or to techniques of construction; and for coordination of the Work of all trades.

7.14.9. The **Construction Project Manager's** review and approval will be only for conformance with the design concept of the Project and for compliance with the information given in the Contract Documents and shall not extend to the accuracy of other matters that may be contained in the submittals, including but not limited to such matters as dimensions, quantities, performance of Equipment and systems designed by the **Contractor**, engineering design furnished by the **Contractor**, the Contractor's means, methods, techniques, sequences or procedures of construction (except where a specific means, method, technique, sequence, or procedure of construction is indicated in or required by the Contract Documents) or to safety precautions or programs incident thereto, the correctness of which shall remain the sole responsibility of the **Contractor**. The review and approval of a separate item as such will not indicate approval of the assembly in which the item functions. The **Contractor** shall make any corrections required by the **Construction Project Manager** and shall return the required number of corrected copies of Submittals and Shop Drawings and resubmit new samples for review. The **Contractor** shall direct specific attention in writing to revisions other

than the corrections called for by the **Construction Project Manager** on previous submittals.

7.14.10. The **Construction Project Manager's** review and approval of Submittals, Shop Drawings or samples shall not relieve the **Contractor** from responsibility for any variation from the requirements of the Contract Documents unless the **Contractor** has in writing called the **Construction Project Manager's** attention to each such variation at the time of submission and the **Construction Project Manager** has given written approval of each such variation by a specific written notation thereof incorporated in or accompanying the Submittal, Shop Drawing or sample approval; nor will any approval by the **Construction Project Manager** relieve the **Contractor** from responsibility for errors or omissions in the Submittals, Shop Drawings or samples or from responsibility for having complied with the provisions of 7.14.4.

7.14.11. Where a Submittal, Shop Drawing or sample is required, no related Work shall commence until the submittal has been returned by the **Construction Project Manager** and noted "Approved" or "Approved As Noted".

7.14.12. All costs incurred in connection with the **Construction Project Manager's** review and return of a particular Submittal, Shop Drawing or sample submission after the **Construction Project Manager's** second review shall be borne by the **Contractor**, including the **Construction Project Manager's** charges to the **County** under the terms of their agreements with the **County**. The **County** shall be entitled to deduct these costs from the Contract Price by issuing a Change Order.

7.14.13. In reviewing Submittals, Shop Drawings or samples, the **Construction Project Manager** shall be allowed thirty (30) days from the date the **Construction Project Manager** receives the submittal or re-submittal from the **Contractor** to return the submittal in accordance with this Section, unless otherwise provided in the Contract Documents. The **Construction Project Manager's** review and return of a Submittal, Shop Drawing or sample within the time allowed shall not justify an increase in the Contract Price or an extension in Contract Time. Any delay in connection with the **Contractor's** submittal and any re-submittal of a particular Submittal, Shop Drawing or sample shall represent delays under the control of the **Contractor** and shall not justify an increase in Contract Price or an extension in Contract Time.

ARTICLE 8 – OTHER WORK

8.1 The **County** may perform additional work related to the Project with its own forces or may use other contracts for the execution of additional work. The **Contractor** shall provide the other contractors who are parties to such contracts, including but not limited to, the other contractor's employees, agents, Subcontractors and Suppliers (or the **County's** forces performing the additional work), reasonable opportunity for the introduction and storage of material and equipment and the execution of work, and shall

properly connect and coordinate its work with theirs. The **Contractor** shall do all cutting, fitting and patching of the Work that may be required to make its several parts come together properly and integrate with such other work. The **Contractor** shall not endanger any work of others by cutting, excavating or otherwise altering their work and will only cut or alter their work with the written consent of the **Construction Project Manager** and the others whose work will be affected. The **Contractor** is not entitled to exclusive use of the site.

8.1. If any part of the **Contractor's** work depends (for proper execution or results) upon the work of any other contractor (or the **County**), the **Contractor** will inspect and promptly report to the **Construction Project Manager** in writing any defects or deficiencies in the work that renders it unsuitable for the proper execution and results. The **Contractor's** failure to report shall constitute an acceptance of the other work, except as to defects and deficiencies which may appear in the other work after the execution of its work.

ARTICLE 9 – COUNTY'S RESPONSIBILITIES

9.1 Except as otherwise provided in these General Conditions, the **County** shall issue all communications to the **Contractor** through the **Construction Project Manager.**

9.1. The **County** shall furnish the data required under the Contract Documents and shall make payments to the **Contractor** when due as provided in Article 17.

9.2. The **County's** responsibilities for providing lands, easements and engineering surveys to establish reference points are set forth in Article 5.

ARTICLE 10 – CONSTRUCTION PROJECT MANAGER'S STATUS DURING CONSTRUCTION

10.1 County's Representative

10.1. The **Construction Project Manager** shall be a representative of the **County** during the construction period. The duties, responsibilities and limitations of authority of the **Construction Project Manager** as the **County's** representative during construction are set forth in these General Conditions.

10.2. Visits to the Site

10.2.1. The **Construction Project Manager** shall make periodic visits to the site to observe the progress and quality of the executed Work and to determine, in general, if the Work is proceeding in accordance with the Contract Documents.

10.3. Clarifications and Interpretations

10.3.1. The **Construction Project Manager** shall issue such written clarifications or interpretations of the Contract Documents (in the form of

Revised Plan Sheets from the EOR, Drawings, RFI's, or otherwise) as may be determined necessary, or as reasonably requested by the **Contractor**, which shall be consistent with or reasonably inferable from the overall intent of the Contract Documents. If the **Contractor** believes that a written clarification and interpretation entitles them to an increase in the Contract Price, Contract time, or both, the **Contractor** may make a claim as provided for in Article 11, 12 and 13.

10.4. Rejecting Defective Work

10.4.1. The **Construction Project Manager** has the authority to disapprove or reject Work, which is defective. The **Construction Project Manager** also has authority to require special inspection or testing of the Work at the **Contractor's** expense, as provided in Article 16, whether or not the Work is fabricated, installed or completed when the work has been declared defective.

10.5. Decisions on Disagreements

10.5.1. The **Construction Project Manager** shall interpret the requirements of the Contract Documents and determine the acceptability of the Work. If the **Contractor** disagrees with the **Construction Project Manager's** opinion, the **Contractor** shall refer claims, disputes and other matters relating to the acceptability of the Work or their interpretation of the requirements of the Contract Documents initially to the **Construction Project Manager** in writing with a request for a formal decision. The **Construction Project Manager** will render in writing their opinion concerning the **Contractor's** request for a formal decision and shall submit same to the County **Project Manager.** After receipt of the **Construction Project Manager's** written opinion and all information requested from the **Contractor**, the **County Project Manager** shall render a formal decision in writing, which shall then be conveyed to the **Contractor** by the **Construction Project Manager**. Written notice of each claim, dispute and other matter shall be delivered by the **Contractor** to the **Construction Project Manager** within seven (7) calendar days of the occurrence first happening. Written supporting data will be submitted to the **Construction Project Manager** within fifteen (15) calendar days after the occurrence unless the **Construction Project Manager** allows additional time. If the **Contractor** fails to strictly comply with these notices and submittal time periods, the **Contractor** shall be deemed to have waived their right to assert a claim the **Contractor** might otherwise have had concerning the matter.

10.6. Limitation on Construction Project Manager's Responsibilities

10.6.1. Neither the **Construction Project Manager's** authority to act under this Article or elsewhere in the Contract Documents, nor any decision made in good faith to exercise their authority, shall give rise to any duty or responsibility of the **Construction Project Manager** to the **Contractor**, any Subcontractor, any of their agents or employees.

10.6.1.1. The **Construction Project Manager** shall not be responsible for the construction means, methods, techniques, sequences, procedures or the safety precautions and programs used. The **Construction Project Manager** shall not be responsible for the **Contractor's** failure to perform the Work in accordance with the Contract Documents.

10.6.1.2. The **Construction Project Manager** shall not be responsible for the acts or omissions of the **Contractor**, any Subcontractors, any agents, employees or any other persons performing any of the Work.

ARTICLE 11 – CHANGES IN THE WORK

11.1 Changes

11.1. Without invalidating the Contract, the **County** may at any time order additions, deletions or revisions in the Work. The **Construction Project Manager** shall provide the **Contractor** with a proposal request, identifying the work to be added, deleted or revised. Upon receipt, the **Contractor** shall promptly submit a written proposal for the changed work prepared in accordance with Articles 12 and 13. If the proposal request calls only for the deletion of work, the **Construction Project Manager** may order the partial suspension of any work related to the proposed deletion, in which case the **Contractor** must cease performance as directed; the **Contractor** shall not be entitled to claim lost profits on deleted work. All change work shall be executed under the applicable conditions of the Contract Documents.

11.2. Additional work performed by the **Contractor** without authorization of a Change Order or Allowance Authorization will not entitle the **Contractor** to an increase in the Contract Price or an extension of the Contract Time, except in the case of an emergency as provided in Article 7.13. The effect of this paragraph shall remain paramount and shall prevail irrespective of any conflicting provisions contained in these Contract Documents.

11.3. Upon agreement as to changes in the Work to be performed, work performed in an emergency as provided in Article 7.13, and any other claim of the **Contractor** for a change in the Contract Time or the Contract Price, the **Construction Project Manager** will prepare a written Change Order to be signed by the **Construction Project Manager** and the **Contractor** and submitted to the **County** for approval.

11.4. It is the **Contractor's** responsibility to notify its Surety of any changes affecting the general scope of the Work, Contract Price or Contract Time.

11.5. In the absence of an agreement as provided in 11.1.3, the **County** may, at its sole discretion, issue a Construction Change Directive to the **Contractor**. Pricing of the Construction Change Directive will be in accordance with Article 12. The Construction Change Directive will specify a price and, if applicable, a time extension determined to be reasonable by the **County.** If the **Contractor** fails to sign such Construction Change Directive, the **Contractor** may submit a claim in accordance with

Articles 11, 12,13, and 19 but the **Contractor** shall nevertheless be obligated to fully perform the Work as directed by the Construction Change Directive.

11.6. The **Contractor** shall proceed diligently with performance of the Work as directed by the **County**, regardless of pending claim actions, unless otherwise agreed to in writing.

ARTICLE 12 – CHANGE OF CONTRACT PRICE

12.1 The Contract Price

12.1.1. The Contract Price constitutes the total compensation (subject to written authorized adjustments) payable to the **Contractor** for performing the Work. All duties, responsibilities and obligations assigned to or undertaken by the **Contractor** shall be at the **Contractor's** expense without change in the Contract Price.

12.1.2. The Contract Price may only be increased or decreased by a written Change Order or Construction Change Directive. Any claim for an increase shall be in writing and delivered to the **Construction Project Manager** within seven (7) calendar days of the occurrence first happening. Written supporting data will be submitted to the **Construction Project Manager** within fifteen (15) calendar days after the occurrence unless the County allows additional time.

12.1.3. The value of any work covered by a Change Order or of any claim for an adjustment in the Contract Price will be determined by the following procedures:

12.1.3.1. Designated Unit Price (Field Measure)

The **Contractor** and the **County** recognize and acknowledge that the quantities shown for those items designated in the Bid Submittal (Part C) as unit price items are approximations prepared by the **County** for bid purposes and that the actual compensation payable to the **Contractor** for the utilization of these items is based upon the application of unit prices to the actual quantities of items involved as measured in the field and required to complete the Work as originally defined in the Contract Documents.

When it is determined by the **County** that an addition, deletion or revision to the Work as defined in these Contract Documents is required and affects the quantities required for items designed in the Bid Submittal (Part C) as unit price items, the **Contractor** and the **County** agree that the compensation payable to the **Contractor** for the unit price items shall be adjusted accordingly by a Change Order based upon the application of the appropriate unit prices shown in the Bid Submittal (Part C) and the actual quantities required to complete the Work. The County does not re-negotiate unit prices for Significant Changes as defined in FDOT Division I Specifications.

12.1.3.2. Other Unit Prices

For items not designated in the Bid Submittal (Part C) as unit prices, the **County** and the **Contractor** may establish unit prices as agreed on by Change Order.

12.1.3.3. Lump Sum Items

When it is determined by the **County** that an addition, deletion or revision to the Work is required which results in a change in the Work designated in the Bid Submittal as a

lump sum item, the amount of increase or decrease in the lump sum price shall be established by mutual agreement of the parties.

12.1.4. If the pricing methods specified in 12.1.3 are inapplicable, or if the parties are unable to agree on a price for the changed work, a reasonable price for the same shall be established by the **County** in accordance with 12.2. The **County** shall then process a unilateral Change Order, specifying the said reasonable price, in accordance with 11.1.5. The **Contractor** shall perform the work as directed in the Change Order.

12.1.5. Failure on the part of the **Contractor** to construct any item to plan or authorized dimensions within the specification tolerances shall result in: reconstruction to acceptable tolerances at no additional costs to the **County**; acceptance at no pay; or acceptance at reduced final pay quantity or reduced unit price, all at the discretion of the **County.** Determinations of aggregate monetary change for items identified as lump sum quantities shall be made by the **County** based upon an analysis of the scope of the **Contractor's** failure to construct to plan or authorized dimensions.

12.2. Cost of Work

12.2.1. The term "Cost of Work," for the purpose of Change Orders or Allowance Work, means the cost necessarily incurred and paid by the **Contractor** in the proper performance of the Change Order Work. Except as may be agreed to in writing by the **Construction Project Manager**, such costs shall be in amounts no higher than those prevailing in the area of the Work and may include the categories listed below.

12.2.2. Labor (payroll, taxes, fringe benefits, worker's compensation, health and retirement benefits, sick leave)
12.2.3. Owned Equipment (at lowest applicable equipment manual rate) (Blue Book Value)
12.2.4. Rented Equipment (at actual rental rate)
12.2.5. Material
12.2.6. Supplies
12.2.7. Subcontractors' Costs
12.2.8. Bonds and Insurance
12.2.9. Contractor's Fee (per 12.3)
12.2.10. Permit Fees

12.2.11. The **Contractor** shall require all Subcontractors and Suppliers to comply with all requirements of, and provide itemizations of, all claims in accordance with this Article.

12.2.12. The term "Cost of the Work" shall not include any of the following:

12.2.12.1. Payroll costs and other compensation of the **Contractor's** officers, executives, principals (of partnership and sole proprietorships), general managers, engineers, architects, estimators, layers, auditors, accountants, Procurement and contracting agents, expediters,

timekeepers, clerks and other personnel employed by the **Contractor**, whether at the site or in its principal or a branch office, for general administration of the Change Order work and not specifically included in the agreed upon schedule of job classifications, all of which are to be considered administrative costs covered by the **Contractor's** mark-up.

12.2.12.2. Extraordinary fringe benefits not specifically identified in Article 12.2.1.1.

12.2.12.3. Expenses of **Contractor's** principal and branch offices other than the **Contractor's** office at the site.

12.2.12.4. Any part of the **Contractor's** capital expenses, including interest on the **Contractor's** capital used for the Change Order work and charges against the **Contractor** for delinquent payments.

12.2.12.5. Cost of premiums for all bonds and insurance, whether or not the **Contractor** is required by the Contract Documents to purchase and maintain the same (except for additional bonds and insurance required because of changes in the work).

12.2.12.6. Costs due to the negligence of the **Contractor**, any Subcontractor or anyone directly or indirectly employed by any of them or for whose acts any of them may be liable, including but not limited to: the correction of defective Work; disposal of material or equipment wrongly supplied; and making good any damage to property.

12.2.12.7. Overhead or general expense costs of any kind (other than as provided in 12.3).

12.3. Contractor's Mark-Up

12.3.1. The maximum percentage allowed for the **Contractor's** combined overhead and profit shall be as follows:

12.3.1.1. For all such Change Order work or Allowance Work done, a fixed percentage of the total adjustment to the Contract Price shall be negotiated and shall not exceed ten percent (10%).

12.3.2. For all changes, the **Contractor** shall submit an itemized cost breakdown, together with supporting data in the detail and form as prescribed by the **Construction Project Manager**. When a credit is due, the amount of credit to be allowed by the **Contractor** to the **County** for any change which results in a net decrease in cost will be the amount of the actual net decrease in direct cost as determined by the **Construction Project Manager**, plus the applicable reduction in overhead and profit. When both additions and credits are involved in any change, the combined overhead and profit shall be calculated on the basis of the net change, whether an increase or decrease. In any event, the minimum detail shall be an itemization of all man-hours required by discipline/trade with the unit cost per man-hour and total labor price, labor burden, equipment hours and rate for each piece of equipment, material by units of measure and price per unit, other costs specifically itemized, plus the overhead and profit markup.

ARTICLE 13 – CHANGE OF CONTRACT TIME

13.1 It is the Contractor's duty, responsibility and obligation to perform the Work in accordance with the Contract Documents within the authorized Contract Time. The Contractor shall not submit a CPM Baseline Schedule showing less time than the original contract time established in the Contract Documents. The Contract Time may only be changed by a Change Order. Any request for an extension in the Contract Time shall be made in writing and delivered to the **Construction Project Manager** within seven (7) calendar days of the occurrence first happening and resulting in the claim. Written supporting data will be submitted to the **Project Manager** within fifteen (15) calendar days after the occurrence, unless the **Construction Project Manager** allows additional time. All claims submitted by the **Contractor** for adjustments to the Contract Time must set forth in detail the reasons for and causes of the delay and clearly indicate why the subject delay was beyond the **Contractor's** control or fault.

13.1.1. If the **Contractor** is delayed at any time in the performance, progress, commencement or completion of the Work by any act or neglect of the **County** or the **Construction Project Manager**, by an employee of either, by any separate contractor employed by the **County**, by changes ordered in the Work, by labor disputes, fire, unavoidable casualties, unforeseeable weather conditions, utility conflicts which could not have been identified or foreseen by the **Contractor** using reasonable diligence or by any causes beyond the **Contractor's** control or fault, then the Contract Time shall be extended by Change Order for such reasonable time as the **County** may determine. The **Contractor** shall be entitled to an extension of time for causes only for the number of days of delay which the **County** may determine to be due solely to these causes and only to the extent these occurrences actually delay the completion of the Work; and then only if the **Contractor** shall have strictly complied with all the requirements of the Contract Documents. Provided, however, notwithstanding anything in the Contract Documents to the contrary, no interruption, interference, inefficiency, suspension or delay in the performance, progress, commencement or completion of the Work for any cause whatsoever, including those for which the **County** or the **Construction Project Manager** may be responsible in whole or in part, shall relieve **Contractor** of its duty to perform or give rise to any right to damages or additional compensation from the **County**. The **Contractor's** sole and exclusive remedy against the **County** for interruption, interference, inefficiency, suspension or delay of any aspect of the Work shall be right to seek an extension to the Contract Time in accordance with the procedures set forth herein. The **Contractor** shall have no entitlement to any monetary compensation for any delays. Any time granted by the **County** shall be non-compensable Contract Time.

ARTICLE 14 - UNCONTROLLABLE FORCES (FORCE MAJEURE)

14.1 Neither the **County** nor the **Contractor** shall be considered to be in default of the Contract if delays in, or failure of performance, shall be due to Uncontrollable Forces, the effect of which, by the exercise of reasonable diligence, the non-performing party could not avoid. The term "Uncontrollable Forces" shall mean any event which results in the prevention or delay of performance by a party of its obligations under this

Contract and which is beyond the reasonable control of the non-performing party. It includes, but is not limited to fire, flood, earthquakes, storms, lighting, epidemic, war, riot, civil disturbance, sabotage, and governmental actions.

14.1.1. Neither party shall, however, be excused from performance if nonperformance is due to forces which are preventable, removable, or remediable and which the nonperforming party could have, with the exercise of reasonable diligence, prevented, removed or remedied with reasonable dispatch.

14.1.2. The nonperforming party shall, within five (5) days after being prevented or delayed from performance by an Uncontrollable Force, deliver written notice to the other party particularly describing the circumstance and Uncontrollable Forces preventing its continued performance of the obligations of this Contract and a good faith estimate as to the anticipated duration of the delay.

ARTICLE 15 – WARRANTY AND GUARANTEE

15.1 Warranty and Guarantee

15.1.1. The **Contractor** warrants and guarantees to the **County** that all material and equipment will be new, unless otherwise specified; and that all work will be of good quality, performed in a workmanlike manner, free from faults or defects, and in accordance with the requirements of the Contract Documents and any inspections, tests or approvals referred to in this Article. All unsatisfactory Work, all faulty Work and all Work not conforming to the requirements of the Contract Documents or such inspections, tests, approvals or all applicable building, construction and safety requirements, shall be considered defective. Notice of all defects shall be given to the **Contractor** by the **Construction Project Manager**. All defective work, whether or not in place, may be rejected, corrected or accepted as provided in Article 16.

15.1.2. If, after approval of final payment and prior to the expiration of one year after the date of Final Completion or such longer period of time as may be prescribed by law or by the terms of any applicable special guarantee required by the Contract Documents, any Work or material are found to be defective, incomplete or otherwise not in accordance with the Contract Documents, the **Contractor** shall promptly, without cost to the **County** and in accordance with the **County's** written instructions, either correct such defective Work or, if it has been rejected by the **County,** remove it from the site and replace it with non-defective work. If the **Contractor** does not promptly comply with the terms of such instructions, the **County** may have the defective Work corrected, removed or replaced. All direct and indirect costs of such action will be paid by the **Contractor.**

Article 16 – ACCEPTANCE OF DEFECTIVE WORK

16.1 Tests and Inspections

16.1.1. If the Contract Documents, laws, ordinances, rules, regulations or orders of any public authority having jurisdiction require any Work to specifically be inspected, tested or approved by someone other than the **Contractor**, the **Contractor** shall give the **Construction Project Manager** timely notice. The testing firm(s) (if assigned by the **Contractor** to this Work) and all such inspections, tests or approvals provided for by the **County** shall be identified in writing by the **Construction Project Manager** to the **Contractor**. All other inspections, tests or approvals shall be at the **Contractor's** expense, including additional expenses for inspection and tests required as a result of delays by the **Contractor** or hours worked in excess of 40 hours per week. For all required inspections, tests and approvals on any Work prepared, performed or assembled away from the site, the **Contractor** will furnish the **Construction Project Manager** with the required Certificates of Inspection, testing or approval. All such tests will be in accordance with the methods prescribed by the American Society for Testing and Material or such other applicable organizations as may be required by law or the Contract Documents. Material or Work in place that fail to pass acceptability tests shall be retested at the direction of the **Construction Project Manager** and at the **Contractor's** expense.

16.1.2. Neither observations by the **Construction Project Manager** or the **County Project Manager** nor inspections, tests or approvals by persons other than the **Contractor** shall relieve the **Contractor** of its obligations to perform the Work in accordance with the requirements of the Contract Documents.

16.2. Access to the Work

16.2.1 For the duration of the Work, the **Construction Project Manager** and their representatives, other designated representatives of the **County** and authorized representatives of any regulatory agency shall at all times be given access to the Work. The **Contractor** shall provide proper facilities for such access and observation of the Work and also for any inspection or testing by others.

16.3. Uncovering the Work

16.3.1. If any work required to be inspected, tested or approved is covered prior thereto without the prior written approval of the **Construction Project Manager**, or if any work is covered contrary to the request of the **County Project Manager**, the work shall, if requested by the **Construction Project Manager** or the **County Project Manager**, be uncovered for observation, inspection, testing or approval and replaced at the **Contractor's** expense. If it is found that such Work is defective, the Contractor shall bear the expense of removal and replacement of the Work.

16.4. Stop Work

16.4.1. When work is defective or when the **Contractor** fails to supply sufficient skilled workmen, suitable material, suitable equipment, make prompt payments to Subcontractors for labor, material or equipment, or if the **Contractor** violates any provisions of these Contract Documents; the **County** may order the **Contractor** to stop the work until the cause for such order has been eliminated. However, this right of the **County** to stop the work shall not give rise to any duty on the part of the **County** to exercise this right for the benefit of the **Contractor** or any other party. The **Contractor** shall have no right to claim an increase in the Contract Price or Contract Time or other damages for a stop work order under this paragraph.

16.5. Correction or Removal of Defective Work

16.5.1. When directed by the **Construction Project Manager**, the **Contractor** shall promptly, without cost to the **County** and as specified by the **Construction Project Manager** either correct the defective work whether fabricated, installed or completed, or remove it from the site and replace it with non-defective work. If the **Contractor** does not correct such defective work or remove and replace such defective work within a reasonable time, all as specified in a written notice from the **Construction Project Manager**, the **County** may have the deficiency corrected. All direct and indirect costs of such correction shall be paid by the **Contractor** or deducted from payment to the **Contractor**. The **Contractor** will also bear the expense of correcting or removing and replacing all work of others destroyed or damaged by the correction, removal or replacement of the defective work.

16.6. 16.6 Acceptance of Defective Work

16.6.1. 16.6.1 If, instead of requiring correction or removal and replacement of defective work, the **County** prefers to accept it, the **County** may do so. In such case, if acceptance occurs prior to approval of final payment, a Change Order incorporating the necessary revisions in the Contract Documents, including an appropriate reduction in the Contract Price, shall be issued. If the acceptance occurs after approval of final payment, the **Contractor** shall pay to the **County** an appropriate sum to compensate for the defect in the work.

16.7. 16.7 Neglected Work by Contractor

16.7.1. 16.7.1 If the **Contractor** neglects to execute the Work in accordance with the Contract Documents, including any requirements of the progress schedule, the **Construction Project Manager** may direct the **Contractor** to submit a recovery plan and take specific corrective actions including, but not limited to, employing additional workmen and/or equipment, working extended hours and additional days, all at no cost to the **County**, in order to put the Work back on schedule. If the **Contractor** fails to correct the deficiency or take appropriate corrective action, the **County** may terminate the contract or **Contractor's** right to proceed with

that portion of work and have the work done by others. The cost of completion under such procedure shall be charged against the **Contractor**. A Change Order shall be issued incorporating the necessary revisions in the Contract Documents, including an appropriate reduction in the Contract Price. If the payments due the **Contractor** are not sufficient to cover such amount, the **Contractor** shall pay the difference to the **County.**

16.7.2. 16.7.2 Should the **Contractor** work overtime, weekends or holidays to regain the schedule, all costs to the **County** of associated inspection, construction management and resident engineering shall be identified to the **Contractor** and the Contract Price reduced by a like amount via Change Order.

ARTICLE 17 – PAYMENT AND COMPLETION

17.1 Schedule of Values

17.1.1. *Omitted intentionally, not applicable with State funding.*

17.1.2. *Omitted intentionally, not applicable with State funding.*

17.2. Application for Progress Payment

Contractor Certification of Disbursement of Previous Progress Payments to Subcontractors and Suppliers

17.2.1. At least seven (7) calendar days before the date established for each progress payment (but not more often than once a month), **Contractor** shall submit the following to the **Construction Project Manager** for review: (i) an Application for Payment filled out and signed by the **Contractor** covering the work completed as of the date of the Application; (ii) a Contractor Certification of Disbursement of Previous Progress Payments to Subcontractors and Suppliers (as further described in Subsection 16.2.2 below) in a form the **County** will designate and provide to the **Contractor,** and (iii) all other supporting documentation as is required by the Contract Documents. If payment is requested on the basis of material and equipment not incorporated in the Work but delivered and suitably stored at the site or at another location agreed to in writing, the Application for Payment shall also be accompanied by a bill of sale, invoice or other documentation warranting that the **County** has received the material and equipment free and clear of all liens and evidence that the material and equipment are covered by appropriate property insurance and other arrangements to protect the **County's** interest therein, all of which will be satisfactory to the **County**. Payment is subject to retainage in accordance with F.S. 218.735. The amount of retainage is 5% in accordance with the contract document or as provided in F.S. 218.735.

17.2.2. As additional conditions precedent to the **County**'s obligation to pay the **Contractor** each progress payment, to include the final payment due under the Contract, the **Contractor** must (i) pay all Subcontractors and

Suppliers their respective pro rata share of all previous payments (to include any payments of retainage) that the **County** has made to **Contractor** for Work that has been satisfactorily completed; and (ii) execute and deliver to the **Construction Project Manager** a Contractor Certification of Disbursement of Previous Progress Payments to Subcontractors and Suppliers with its Application for Payment submitted in accordance with Subsection 16.2.1 above. If the **Contractor** has not made the required payments to all Subcontractors and Suppliers, but the **Contractor** has (a) demonstrated good cause (as reasonably determined by the **County**) for not making any required payment; (b) delivered written notice to the **County** and to the applicable Subcontractor or Supplier specifically stating why the **Contractor** has not paid the Subcontractor or Supplier its proportionate share of the progress payments that the **County** has made to the **Contractor** pursuant to the Contract, and (c) completed all other requirements and conditions precedent to the receipt of the requested progress payment, then the **County** will pay **Contractor** the progress payment in accordance with the Contract requirements.

17.3. Contractor's Warranty of Title

17.3.1. **Contractor** warrants and guarantees that title to the work, material and equipment covered by any Application for Payment, whether incorporated in the Work or not, will pass to the **County** no later than the time of payment, free and clear of all liens.

17.4. Approval of Payments

17.4.1. By signing and submitting an Application for Payment, the **Contractor** certifies that all work and/or materials storage associated with the quantities in the Application for Payment have been completed in accordance with the Contract Documents. When the Contract contains Utility Work by the Roadway Contractor the **Contractor** shall prepare a separate Application for Payment for each utility participating in the Utility Work by the Roadway Contractor. The **Contractor** shall submit Applications for Progress Payment for progress successfully performed and completed for each calendar month during the term of the contract.

17.4.2. The **Construction Project Manager**, after receipt of each Application for Payment, will either indicate in writing a recommendation of payment and present the application to the **County**, or return the application to the **Contractor** indicating in writing the **Construction Project Manager's** reasons for refusing to recommend payment. In the latter case, the **Contractor** may make the necessary corrections and resubmit the application. The **County** shall make payment in accordance with F.S. 218.735.

17.4.3. The **Construction Project Manager's** recommendation of any payment requested in an Application for Payment will constitute a representation by the **Construction Project Manager** to the **County** based on the **Construction Project Manager's** review of the Application for

Payment and the accompanying data and schedules, that to the best of the **Construction Project Manager's** knowledge, information and belief:

a) The Work has progressed to the point indicated;

b) The quality of the Work is generally in accordance with the Contract Documents (subject to an evaluation of the Work as a functioning whole prior to or upon substantial completion, to the results of any subsequent tests called for in the Contract Documents, to a final determination of quantities and classifications for Unit Price Work and to any other qualifications stated in the recommendation); and

c) The conditions precedent to the **Contractor's** being entitled to such payment appear to have been fulfilled in so far as it is the **Construction Project Manager's** responsibility to observe the Work.

17.4.4. By recommending any such payment, the **Construction Project Manager** will not be deemed to have represented that: (i) exhaustive or continuous on-site inspections have been made to check the quality or the quantity of the Work beyond the responsibilities specifically assigned to the **Construction Project Manager** in the Contract Documents; or (ii) that there may not be other matters or issues between the parties that might entitle the **Contractor** to be paid additionally by the **County** or entitle the **County** to withhold payment to the **Contractor.**

17.4.5. The **Construction Project Manager's** recommendation of any payment, including final payment, shall not mean that the **Construction Project Manager** is responsible for the **Contractor's** means, methods, techniques, sequences or procedures of construction; or the safety precautions and programs incident thereto; or for any failure of the **Contractor** to comply with Laws and Regulations applicable to the furnishing or performance of Work; or for any failure of the **Contractor** to perform or furnish Work in accordance with the Contract Documents.

17.4.6. The **Construction Project Manager** may refuse to recommend the whole or any part of any payment if, in the **Construction Project Manager's** opinion, they are unable to make the representation that the Application is acceptable to the **County**. The **Construction Project Manager** may also refuse to recommend any such payment or, because of subsequently discovered evidence or the results of subsequent inspections or tests, nullify any such payment or, because of subsequently discovered evidence or the results of subsequent inspections or tests, nullify any such payment previously recommended, to such extent as may be necessary in the **Construction Project Manager's** opinion to protect the **County** from loss because:

a) The Work is defective;

b) The Contract Price has been reduced by Change Order;

c) The **County** has been required to correct defective work or complete work in accordance with Article 15;

d) Claims have been filed against the **County** for which the **Contractor** may be liable; and/or

e) The work was executed unsatisfactorily; the **Contractor** failed to clean up as required in Article 7 or the work is otherwise not in compliance with these Contract Documents.

17.4.7. The **County** will give the **Contractor** immediate notice stating the reasons for such action and promptly pay the **Contractor** the amount so withheld, or any adjustment thereto agreed to by the **County** and the **Contractor**, when the **Contractor** corrects, to the **County's** satisfaction, the reasons for such action.

17.5. Substantial Completion

17.5.1. Definition. Substantial Completion is the stage in the progress of the Work when the Work or specified portion thereof is sufficiently complete in accordance with the Contract Documents so the **County** can occupy or utilize the Work for its intended purpose.

17.5.2. Certificate of Substantial Completion. When the **Contractor** considers that the Work, or a specified portion thereof, which the **County** agrees to accept separately, is substantially complete, the **Contractor** shall notify the **Professional** and the **Project Manager**. Along with such notification, the **Contractor** shall submit to the **Professional** a thorough and inclusive list of all remaining Work items to be completed or corrected. Upon receipt of the **Contractor's** notification and list, the **Professional** and the **Project Manager** will visit the site to determine whether the Work or designated portion thereof is substantially complete. Once the **Professional**, in consultation with the **County**, determines that the Work or specified portion thereof is substantially complete, the **Professional** will prepare a Certificate of Substantial Completion that shall establish the date of Substantial Completion. The Certificate of Substantial Completion shall be submitted to the **Contractor** for its written acceptance and then to the **County** for acceptance and issuance.

17.5.3. Deficiency List. The Certificate of Substantial Completion shall include a list prepared by the **Professional** (the "Deficiency List") of final work items remaining, which must be completed to render the Work, or specified portion thereof, complete, satisfactory, and acceptable in accordance with the Contract Documents. The Deficiency List shall include those items from the **Contractor's** list described in Section 16.5.2 above which remain incomplete or uncorrected as of the date of Substantial Completion, along with any other incomplete or unsatisfactory items as determined by the **Professional** or the **Project Manager**. Failure to include on the Deficiency List any corrective work or pending items not yet completed shall not alter the responsibility of the **Contractor** to complete all

the construction services purchased pursuant to the Contract Documents. The **Professional,** in consultation with the **County**, shall establish a date for completion of the items identified in the Deficiency List, and this date for completion shall be noted on the Certificate of Substantial Completion. The **Professional** shall also include an estimated cost to complete each item on the Deficiency List. Should the **Contractor** fail to complete the items by the date noted on the Certificate of Substantial Completion, the **County** may complete the item and deduct the costs from the final Application for Payment.

17.5.4. Project Closeout and Payment of Retainage. In accordance with Section 255.077(4), Fla. Stat., within 20 business days after developing the Deficiency List, and after receipt of a proper invoice or payment request, the **County** shall pay the **Contractor** the remaining balance of the contract, including any remaining retainage withheld by the **County** pursuant to Section 255.078, Florida Statutes, less an amount equal to 150 percent of the estimated cost to complete the items on the Deficiency List.

17.5.5. Warranties. Warranties required by the Contract Document shall commence on the date of Substantial Completion of the Work or designated portion thereof unless otherwise provided in the Certificate of Substantial Completion.

17.6. Final Completion

17.6.1. To receive the Certificate of Final Completion, the **Contractor** must have completed and submitted the following within the authorized Contract Time: contract close-out documents such as **County** approved Certified As-built Survey Drawings and electronic files, final Application for Payment request including evidence of insurance and consent of surety to final payment, completed punch list, all maintenance and operating instructions, schedules, guarantees, bonds, certificates or other evidence of insurance required by 6.3, certificates of inspection, and any other outstanding items listed on the Certificate of Substantial Completion.

17.6.2. No final payment will be processed by the **County** until all required documentation by the **Contractor** has been accepted and approved by the **Construction Project Manager** and the **County**.

17.6.3. Notwithstanding any other provision of these Contract Documents to the contrary, the **County** and the **Construction Project Manager** are under no duty or obligation whatsoever to any vendor, material provider, subcontractor, laborer or other party to ensure that payments due and owing by the **Contractor** to any of them are or will be made. Such parties shall rely only on the **Contractor**'s surety bonds for remedy of nonpayment by the **Contractor**. The **Contractor** agrees to defend and resolve all claims made by subcontractors, indemnifying the **County** and the **Construction Project Manager** for all claims arising from or resulting from subcontractor, supplier, material men or laborer services in connection with this project.

17.6.4. The **Contractor** will indemnify the County and **Construction Project Manager** for any damages sustained including lost revenues resulting from the **Contractor**'s failure or refusal to perform the work required by these contract documents.

17.6.5. If, on the basis of the **Construction Project Manager's** observation of the Work during construction and final inspection, and the **Construction Project Manager's** review of the final Application for Payment and accompanying documentation as required by the Contract Documents, the **Construction Project Manager** is satisfied that the Work has been completed and the **Contractor**'s other obligations under the Contract Documents have been fulfilled, the **Construction Project Manager** will, after receipt of the final Application for Payment, indicate in writing the **Construction Project Manager's** recommendation of payment and present the Application to the **County** for payment. At the same time, the **Construction Project Manager** will also give written notice to the **County** and the **Contractor** that the Work is acceptable subject to the provision of 17.7. Otherwise, the **Construction Project Manager** will return the application to the **Contractor**, indicating in writing the reasons for refusing to recommend final payment, in which case the **Contractor** shall make the necessary corrections and resubmit the Application. Warranties required by the Contract Document shall commence on the date specified on the Certificate of Final Completion unless otherwise specified.

17.7. Waiver of Claims

17.7.1. The making and acceptance of final payment will constitute a waiver of all claims by the **Contractor** against the **County**, other than those previously made in writing and still unsettled.

17.7.2. The making and acceptance of final payment will constitute a waiver of all claims by the **County** against the **Contractor**, except claims arising from unsettled liens from defective Work appearing after final inspection pursuant to 17.5; from failure to comply with the Contract Documents or the terms of any special guarantees specified therein; or from the **Contractor**'s continuing obligations under the Contract Documents.

ARTICLE 18 - SUSPENSION OF WORK AND TERMINATION

18.1 Suspension of Work

18.1.1. At any time and without cause, the County may suspend the Work or any portion thereof for a period of not more than ninety (90) days by notice in writing to the Contractor and the Construction Project Manager, which will fix the date on which Work will be resumed. The Contractor shall resume the Work on the date so fixed. The Contractor shall be allowed an adjustment in the Contract Price or an extension of the Contract Time, or

both, directly attributable to any such suspension if the Contractor makes any approved claim therefore as provided in Articles 12 and 13.

18.2. Termination for Cause

18.2.1. Upon the occurrence of any one or more of the following events by the **Contractor**:

(a) fails to begin the work under the Contract within the time specified in the Notice to Proceed;

(b) fails to perform the work with sufficient workmen and equipment or with sufficient materials to ensure prompt completion of the Contract;

(c) performs the work unsuitably, or neglects or refuses to remove materials or to perform anew such work that the **County Project Manager** rejects as unacceptable and unsuitable;

(d) discontinues the prosecution of the work, or fails to resume discontinued work within a reasonable time after the **Construction Project Manager** notifies the **Contractor** to do so;

(e) becomes insolvent or is declared bankrupt, or files for reorganization under the bankruptcy code, or commits any act of bankruptcy or insolvency, either voluntarily or involuntarily;

(f) allows any final judgment to stand against him unsatisfied for a period of ten calendar days;

(g) makes an assignment for the benefit of creditors;

(h) fails to comply with Contract requirements regarding minimum wage payments or EEO requirements;

(i) fails to comply with the **Construction Project Manager's** written suspension of work order within the
time allowed for compliance and which time is stated in that suspension of work order; or

(j) for any other cause whatsoever, fails to carry on the Work in an acceptable manner, or if the surety executing the bond, for any reasonable cause, becomes unsatisfactory in the opinion of the **County**;

(k) fails to comply with the provisions of Chapter 119 of the Florida Statutes;

(1) If the **Contractor** disregards laws or regulations of any public agency having jurisdiction;

(m) If the **Contractor** disregards the authority of the **Construction Project Manager** or the **County Project Manager**; or

(n) If the **Contractor** otherwise violates in any substantial way any provisions of the Contract; if the **Contractor**, within a period of ten (10) calendar days after receiving written notice from the **County** delivered to the **Contractor** and the Surety specifying the default(s) as described in subparagraphs (a) through (n) above, fails to correct the conditions of which complaint is made, the **County** will have full power and authority, without violating the Contract, to take possession of the Work out of the hands of the **Contractor** and to declare the **Contractor** in default.

18.2.2. In the event the **County** terminates the Contract for cause and it is subsequently judicially determined that there was no cause for termination, the termination for convenience provision will be the means for disposition of the balance of the Contract obligations.

18.3. Termination for Convenience

18.3.1. The **County** may terminate the entire Contract or any portion thereof, if the **County** determines that termination is in its best interest. The **County** will deliver to the **Contractor** written notice of termination specifying the extent of termination and the effective date. When the **County** terminates the entire Contract, or any portion thereof, before the **Contractor** completes all items of Work in the Contract, the **County** will make payment for the actual number of units or items of Work that the **Contractor** has completed, at the Contract unit price, and such payments will constitute full and complete compensation for such work or items. No payment of any kind or amount will be made for items of work not started. The **County** will not consider any claim for loss of anticipated profits, or overhead of any kind (including home office and jobsite overhead or other indirect impacts). The **County** will consider reimbursing the **Contractor** for actual cost of mobilization (when not otherwise included in the Contract) including moving equipment to the job where the volume of the work that the **Contractor** has completed is too small to compensate the **Contractor** for these expenses under the Contract unit prices. The **County** may purchase at actual cost acceptable materials and supplies procured for the work, that the **County** has inspected, tested, and approved and that the **Contractor** has not incorporated in the work. Submit the proof of actual cost, as shown by receipted bills and actual cost records, at such points of delivery as the **County** may designate. Termination of a contract or a portion thereof, under the provisions of this article, does not relieve the **Contractor** or the surety of its responsibilities for the completed portion of the Contract or its obligations for and concerning any just claims arising out of the work performed. All **Contractor** claims for additional payment, due to the **County**'s termination of the entire Contract or any portion thereof, must meet the requirements of Article 12.

18.4. Completion of Work by County

18.4.1. Upon declaration of default, the **County** will have full power to appropriate or use any or all suitable and acceptable materials and equipment on the site and may enter into an agreement with others to

complete the work under the Contract, or may use other methods to complete the Work in an acceptable manner. The **County** will charge all costs that the **County** incurs because of the **Contractor**'s default, including the costs of completing the Work under the Contract, against the **Contractor**. If the **County** incurs such costs in an amount that exceeds the sum that would have been payable under the Contract, then the **Contractor** and the surety shall be liable and shall pay the **County** the amount of the excess. Such costs incurred by the **County** shall be verified by the **Construction Project Manager** and incorporated in a Change Order but in finishing the work the **County** shall not be required to obtain the lowest figure for the work performed. The **Contractor**'s obligation to pay the difference between such costs and such unpaid balance shall survive termination of the Contract. If, after the ten (10) day notice period and prior to any action by the **County** to otherwise complete the work under the Contract, the **Contractor** establishes his intent to complete the Work in accordance with the **County**'s requirements, then the **County** may allow, in its sole discretion, the **Contractor** to resume the Work, in which case the **County** will deduct from any monies due or that may become due under the Contract, any costs to the **County** incurred by the delay, or from any reason attributable to the delay.

ARTICLE 19 – DISPUTES / CLAIMS

19.1 The **Contractor** shall notify the **County** in writing of all disputes / claims arising under this Contract or its interpretation whether involving law, fact or both, or extra work, and all claims for alleged breach of contract within fourteen (14) calendar days of the commencement of the dispute. Such notice need not detail the amount of the claim but shall state the facts surrounding the claim in sufficient detail to identify the claim, together with its character and scope.

19.1. When submitting a claim, the **Contractor** shall certify under oath and in writing, in accordance with the formalities required by Florida law, that the claim is made in good faith, that the supportive data are accurate and complete to the **Contractor**'s best knowledge and belief, and that the amount of the claim accurately reflects what the **Contractor** in good faith believes to be the **County**'s liability. Such certification must be made by an officer or director of the **Contractor** with the authority to bind the **Contractor**. In the meantime, the **Contractor** shall proceed with the Work as directed. Any claim not presented within the time limit specified in this paragraph shall be deemed to have been waived, except that if the claim is of a continuing character and notice of the claim is not given within fourteen (14) calendar days of its commencement, the claim will be considered only for a period commencing fourteen (14) calendar days prior to the receipt by the **County** of notice thereof. Each decision by the **County** will be in writing and will be mailed to the **Contractor** by registered or certified mail, return receipt requested, directed to the **Contractor's** last known address.

19.2. If the **Contractor** does not agree with any decision of the **County**, the **Contractor** shall be required to seek, prior to instituting any action in a court of law, mediation by a certified circuit court civil mediator who will be agreed to by the parties or, if the parties cannot agree to a mediator within thirty (30) calendar days of the request for mediation, said mediator will be chosen by the **Contractor**. Any mediation

will be held in Polk County, unless otherwise agreed to by the **County** in its discretion. The parties will cooperate in good faith with the mediator with the cost of the mediator split equally between the parties, if the mediator is agreed upon, and by the **Contractor** if agreement on the mediator cannot be reached. If the **Contractor** does not agree with any decision of the **County**, or the mediation is unsuccessful, the **Contractor** shall in no case allow the dispute to delay the Work but shall notify the **County** promptly that the work is proceeding under protest and that the matter in question may be expected from the final releases.

ARTICLE 20 – MISCELLANEOUS

20.1 Limitation of Liability

20.1.1. IN NO EVENT SHALL THE COUNTY BE LIABLE TO THE CONTRACTOR FOR INDIRECT, INCIDENTAL, CONSEQUENTIAL, SPECIAL, EXEMPLARY, OR PUNITIVE DAMAGES OF ANY KIND OR NATURE, INCLUDING LOSS OF PROFIT, WHETHER FORESEEABLE OR NOT, ARISING OUT OF OR RESULTING FROM THE NONPERFORMANCE OR BREACH OF THIS CONTRACT BY THE COUNTY WHETHER BASED IN CONTRACT, COMMON LAW, WARRANTY, TORT, STRICT LIABILITY, CONTRIBUTION, INDEMNITY OR OTHERWISE.

20.2. Severability

20.2.1. The invalidity, illegality, or unenforceability of any provision of this Contract, or the occurrence of any event rendering any portion or provision of this Contract void, shall in no way affect the validity or enforceability of any other portion or provision of the Contract; any void provision shall be deemed severed from the Contract and the balance of the Contract shall be construed and enforced as if the Contract did not contain the particular portion or provision held to be void. The parties further agree to reform the Contract to replace any stricken provision with a valid provision that comes as close as possible to the intent of the stricken provision. The provisions of this section shall not prevent the entire Contract from being void should a provision which is of the essence of the Contract be determined to be void.

20.3. Waiver

20.3.1. A waiver by either the **County** or the **Contractor** of any breach of this Contract shall not be binding upon the waiving party unless such waiver is in writing. In the event of a written waiver, such a waiver shall not affect the waiving party's rights with respect to any other or further breach of this Contract. Except as otherwise stated in Section 17.7, the making or acceptance of a payment by either party with the knowledge of the other party's existing default or breach of the Contract shall not waive such default or breach, or any subsequent default or breach of this Contract, and shall not be construed as doing so.

20.4. Governing Law and Venue

20.4.1. This Contract shall be governed in all respects by the laws of the State of Florida and any litigation with respect thereto shall be brought only in the courts of Polk County, Florida, or in the United States District Court, Middle District of Florida, located in Hillsborough County, Florida.

20.5. Attorneys' Fees and Costs

20.5.1. Each party shall be responsible for its own legal and attorneys' fees, costs, and expenses incurred in connection with any dispute or any litigation arising out of, or relating to this Contract, including attorneys' fees, costs, and expenses incurred for any appellate or bankruptcy proceedings.

20.6. Non-Discrimination

20.6.1. The **Contractor** warrants and represents that all of its employees are treated equally during employment without regard to race, color, religion, gender, age or national origin.

20.7. Public Entity Crimes

20.7.1. The Contractor declares and warrants that neither the Contractor nor any of the Contractor's affiliates, as that term is defined in Section 287.133, Florida Statutes, are subject to the restrictions in Section 287.133, Florida Statutes, regarding the commission of a public entity crime. If during the term of this Agreement, the Contractor or any affiliate is convicted of a public entity crime or is otherwise prohibited from performing work for or transacting business with the County pursuant to Section 287.133, Florida Statutes, then the Contractor shall be in material default of this Agreement, and in such case, the County shall have the rights and remedies as provided herein.

20.8. Survival of Representations and Warranties

20.8.1. All representations, warranties and guarantees made in the Contract Documents will survive final payment and termination or completion of the Contract. Also, the obligation of the **Contractor** to maintain the work until initiation of operation shall survive final payment, termination or completion of the Contract.

ARTICLE 21-Unauthorized Alien(s):

21.1.1 The vendor agrees that unauthorized aliens shall not be employed nor utilized in the performance of the requirements of this solicitation. The County shall consider the employment or utilization of unauthorized aliens a violation of Section 274A(e) of the Immigration and Naturalization Act (8 U.S.C. 1324a). Such violation shall be cause for unilateral termination of this Agreement by the County. As part of the response to this

solicitation, the successful vendor will complete and submit the attached form "Affidavit Certification Immigration Laws."

ARTICLE 22 – PERFORMANCE EVALUATION

22.1 Contractor Evaluation

22.1.1. The **Contractor's** performance should be evaluated during and after completion of the project.

ARTICLE 23 – ALLOWANCES

23.1 Allowance Work

23.1.1. When the **County** determines, at its sole discretion, that it wishes to include an Allowance in the Contract, said amount shall be included in the Contract Price, Article 2 of the Contract (Part E).

23.1.2. Allowance Work, in the amount of five percent (5%) of the construction contract bid amount or $250,000, whichever amount is less, will be included in the contract price. No individual Allowance Work authorization greater than $100,000 shall be effective without the prior approval of the Board of County Commissioners. The Contract Work and all Allowance Work shall be performed in full compliance with all requirements of the Contract Documents. The sum of all approved Allowance Work performed pursuant hereto shall not exceed the amount of the Allowance. When all Work has been completed under this contract any balance of the original Allowance remaining at the completion of all work shall be deducted from the contract price by an approved change order.

23.1.3. The number of calendar days specified in the construction contract for performance of the contract work shall include a total time allowance of no more than 60 days or fifteen percent (15%) of the time specified at the time contract award for final completion of the project, whichever is less, for performance of Allowance Work. When all work has been completed under this contract any time set aside for Allowance Work remaining at the completion of all work shall be deducted from the contract time by an approved change order.

23.1.4. Upon a determination by the County Manager or his designee that certain construction work for which detailed specifications were not prepared or the scope of such work was not fully established at the time the **County** entered into a contract and upon determining that, for the purposes of expediency and efficiency, it would be in the **County's** best interest to have said work completed by the Project's **Contractor**, the County Manager or his designee will take appropriate action pursuant to the "Allowance" provision established under the Contract for the Project.

23.1.5. All changes and time for Allowance Work must be pre-approved in writing by the County Manager or his designee. Said written pre-approval

shall be in the form of an Allowance Authorization Release (AAR), which shall describe in detail the Allowance Work to be performed, the price for the Allowance Work and the time, if any, allocated for performance of the Allowance Work, as well as containing the authorizing signature of the County Manager or his designee. The **Contractor** shall not be authorized to perform any Allowance Work without the required AAR.

ARTICLE 24 – ANNUAL APPROPRIATIONS

24.1 Appropriations

24.1.1. **Contractor** acknowledges that the **County**, during any fiscal year, shall not expend money, incur any liability, or enter into any agreement which, by its terms, involves the expenditure of money in excess of the amounts budgeted or the reduction of revenues for those budgeted agreements that may be available for expenditure during such fiscal year. Any agreement, verbal or written, made in violation of this subsection is null and void, and no money may be paid on such agreement. Nothing herein contained shall prevent the making of agreements for a period exceeding one year, but any agreement so made shall be executory only for the value of the services to be rendered or agreed to be paid for in succeeding fiscal years. Accordingly, the **County**'s performance and obligation to pay under this Contract is contingent upon annual appropriation.

ARTICLE 25 – PUBLIC RECORDS LAW

(a) The Contractor acknowledges the County's obligations under Article I, Section 24, of the Florida Constitution and under Chapter 119, Florida Statutes, to release public records to members of the public upon request and comply in the handling of the materials created under this Agreement. The Contractor further acknowledges that the constitutional and statutory provisions control over the terms of this Agreement. In association with its performance pursuant to this Agreement, the Contractor shall not release or otherwise disclose the content of any documents or information that is specifically exempt from disclosure pursuant to all applicable laws.

(b) Without in any manner limiting the generality of the foregoing, to the extent applicable, the Contractor acknowledges its obligations to comply with Section 119.0701, Florida Statutes, with regard to public records, and shall:

(1) keep and maintain public records required by the County to perform the services required under this Agreement;

(2) upon request from the County's Custodian of Public Records or his/her designee, provide the County with a copy of the requested records or allow the records to be inspected or copied within a reasonable time at a cost that does not exceed the cost provided in Chapter 119, Florida Statutes, or as otherwise provided by law;

(3) ensure that public records that are exempt or confidential and exempt from public records disclosure requirements are not disclosed except as authorized by law for the duration of the term of this Agreement and following completion of this Agreement if the Contractor does not transfer the records to the County; and

(4) upon completion of this Agreement, transfer, at no cost, to the County all public records in possession of the Contractor or keep and maintain public records required by the County to perform the service. If the Contractor transfers all public

records to the County upon completion of this Agreement, the Contractor shall destroy any duplicate public records that are exempt or confidential and exempt from public records disclosure requirements. If the Contractor keeps and maintains public records upon completion of this Agreement, the Contractor shall meet all applicable requirements for retaining public records. All records stored electronically must be provided to the County, upon request from the County's Custodian of Public Records, in a format that is compatible with the information technology systems of the County.

(c) **IF THE CONTRACTOR HAS QUESTIONS REGARDING THE APPLICATION OF CHAPTER 119, FLORIDA STATUTES, TO THE CONTRACTOR'S DUTY TO PROVIDE PUBLIC RECORDS RELATING TO THIS AGREEMENT, CONTACT THE COUNTY'S CUSTODIAN OF PUBLIC RECORDS AT:**

RECORDS MANAGEMENT LIASON OFFICER
POLK COUNTY
330 WEST CHURCH ST.
BARTOW, FL 33830
TELEPHONE: (863) 534-7527
EMAIL: RMLO@POLK-COUNTY.NET

ARTICLE 26 – NO CONSTRUCTION AGAINST DRAFTER

The Parties acknowledge that this Agreement and all the terms and conditions contained herein have been fully reviewed and negotiated by the Parties. Accordingly, any rule of construction to the effect that ambiguities are to be resolved against the drafting party shall not apply in interpreting this Agreement.

ARTICLE 27 – EMPLOYMENT ELIGIBILITY VERIFICATION (E-VERIFY)

A. Unless otherwise defined herein, terms used in this Section which are defined in Section 448.095, Florida Statutes, as may be amended from time to time, shall have the meaning ascribed in said statute.

B. Pursuant to Section 448.095(5), Florida Statutes, the contractor hereto, and any subcontractor thereof, must register with and use the E-Verify system to verify the work authorization status of all new employees of the contractor or subcontractor. The contractor acknowledges and agrees that (i) the County and the contractor may not enter into this Agreement, and the contractor may not enter into any subcontracts hereunder, unless each party to this Agreement, and each party to any subcontracts hereunder, registers with and uses the E-Verify system; and (ii) use of the U.S. Department of Homeland Security's E-Verify System and compliance with all other terms of this Certification and Section 448.095, Fla. Stat., is an express condition of this Agreement, and the County may treat a failure to comply as a material breach of this Agreement.

C. By entering into this Agreement, the contractor becomes obligated to comply with the provisions of Section 448.095, Fla. Stat., "Employment Eligibility," as amended from time to time. This includes but is not limited to utilization of the E-Verify System to verify the work authorization status of all newly hired employees, and requiring all subcontractors to provide an affidavit attesting that the subcontractor does not employ, contract with, or subcontract with, an unauthorized alien. The contractor shall maintain a copy of such affidavit for the duration of this Agreement. Failure to comply will lead to termination of this Agreement, or if a subcontractor knowingly violates the statute or Section 448.09(1), Fla. Stat., the subcontract must be terminated immediately. If this Agreement is terminated pursuant to Section 448.095, Fla. Stat.,

such termination is not a breach of contract and may not be considered as such. Any challenge to termination under this provision must be filed in the Tenth Judicial Circuit Court of Florida no later than 20 calendar days after the date of termination. If this Agreement is terminated for a violation of Section 448.095, Fla. Stat., by the contractor, the contractor may not be awarded a public contract for a period of 1 year after the date of termination. The contractor shall be liable for any additional costs incurred by the County as a result of the termination of this Agreement. Nothing in this Section shall be construed to allow intentional discrimination of any class protected by law.

ARTICLE 28 - Scrutinized Companies and Business Operations Certification; Termination.

A. Certification(s).

(i) By its execution of this Agreement, the Vendor hereby certifies to the County that the Vendor is not on the Scrutinized Companies that Boycott Israel List, created pursuant to Section 215.4725, Florida Statutes, nor is the Vendor engaged in a boycott of Israel, nor was the Vendor on such List or engaged in such a boycott at the time it submitted its bid, proposal, quote, or other form of offer, as applicable, to the County with respect to this Agreement.

(ii) Additionally, if the value of the goods or services acquired under this Agreement are greater than or equal to One Million Dollars ($1,000,000), then the Vendor further certifies to the County as follows:

(a) the Vendor is not on the Scrutinized Companies with Activities in Sudan List, created pursuant to Section 215.473, Florida Statutes; and
(b) the Vendor is not on the Scrutinized Companies with Activities in the Iran Petroleum Energy Sector List, created pursuant to Section 215.473, Florida Statutes; and
(c) the Vendor is not engaged in business operations (as that term is defined in Florida Statutes, Section 287.135) in Cuba or Syria; and
(d) the Vendor was not on any of the Lists referenced in this subsection A(ii), nor engaged in business operations in Cuba or Syria when it submitted its proposal to the County concerning the subject of this Agreement.

(iii) The Vendor hereby acknowledges that it is fully aware of the penalties that may be imposed upon the Vendor for submitting a false certification to the County regarding the foregoing matters.

B. Termination. In addition to any other termination rights stated herein, the County may immediately terminate this Agreement upon the occurrence of any of the following events:

(i) The Vendor is found to have submitted a false certification to the County with respect to any of the matters set forth in subsection A(i) above, or the Vendor is found to have been placed on the Scrutinized Companies that Boycott Israel List or is engaged in a boycott of Israel.

(ii) The Vendor is found to have submitted a false certification to the County with respect to any of the matters set forth in subsection A(ii) above, or the Vendor is found to have been placed on the Scrutinized Companies with Activities in Sudan List, or the Scrutinized Companies with Activities in the Iran Petroleum Energy Sector List, or has been engaged in business operations in Cuba or Syria, and the value of the goods or services acquired under this Agreement are greater than or equal to One Million Dollars ($1,000,000).

SPECIAL CONDITIONS

The County reserves the right to direct purchase any tangible personal property item of the bid in order to save the sales tax on the selected item, which may include equipment, materials, and supplies that are components of a construction bid, but generally will purchase only major items. When the County exercises this option, the following procedures shall be used for ordering, receiving, and paying for the Owner Direct Purchase (ODP) item.

BID PRICES

The bid must include the appropriate Florida State sales tax for all components of the bid that makes up the lump sum amount submitted.

ORDERING

The items selected would be purchased directly from the suppliers the contractor used to submit their bid to the County and therefore made a part of the construction contract executed with the County.

The Contractor shall fully cooperate with the County, providing information for the preparation of County issued purchase orders for these ODP's, monitoring deliveries, and approving invoices.

Following receipt of a sales tax savings form, the Contractors requisition from the supplier and the suppliers quote to the Contractor, the County will issue a purchase order to the supplier for the item selected for ODP to be delivered to the project site. The approved purchase order will be sent to the supplier and the Contractor. The Contractor shall verify that the purchase order was issued correctly. A separate sales tax savings form and a separate purchase order shall be used for each item selected for ODP.

After the County has affirmed that the items contained in the purchase order meets the exemption requirements contained in Section 212.08(6), Florida Statute, and Rule 12A-1.094, Florida Administration Code, the County will issue a Certificate of Entitlement. A Certificate of Entitlement will be issued with each purchase order for each ODP. The original Certificate of Entitlement accompanied by the County approved purchase order, the Contractors requisition to the supplier and the suppliers quote for the selected ODP item will be placed on file with the Florida Department of Revenue. The Contractor and supplier will be issued copies from the County.

EXPEDITING

The Contractor shall be responsible for expediting delivery to ensure that ODP item(s) is received on time to maintain the construction schedule.

RECEIPT

The Contractor shall sign for and receive all materials; and retain packing slips and delivery tickets for all materials delivered for the project. The Contractor shall be responsible for receiving, warranting, ensuring the proper installation and operation of all materials and equipment required for the project, including all ODP items.

BILLINGS/PAYMENTS

All ODP's shall be billed to the County in care of the Contractor.

The Contractor shall check all invoices for accuracy and completeness when received. The Contractor shall be responsible for immediately notifying the supplier of any billing errors and requesting corrected invoices as necessary.

Receipts and invoices must be processed in a timely manner in order to take advantage of any discount payment terms and all discounts shall accrue to the County.

The Contractor shall prepare a direct purchase report for the County upon submittal of each pay request.

OTHER CONSIDERATIONS

The County shall have title to all items of which any payment has been made under these provisions.

The selection of ODP for any item contained within the bid does not relieve the Contractor from liability for that item as it may be related to the quantity ordered, condition, the maintenance and care of the item when delivered, installation, incorporation of the item for its intended use in the work to be performed, and warranty of the item in accordance with the contract documents. The Contractor shall maintain products liability insurance, which shall include ODP items, as required for the normal practice of general contracting.

The County shall have access to all necessary records in order to conduct audits to determine the correctness and accuracy of any item purchased in accordance with these provisions.

REDUCTION

The Contract will be reduced via deductive change order by the amount of all items selected by the County for the ODP's. The deductive change order will require Division Director approval.

SALES TAX SAVINGS FORM

CONTRACT # _____

DESCRIPTION OF PROJECT _____

Materials	(1) Amt in Contract	(2) Sales Tax	(3) Net Amt for Purchase

(1) This is the amount to be deducted from contract by change order.

(2) The amount of the sales tax included in the material purchase line item supplied by contractor.

(3) The amount to be used by Procurement to make the material purchase per the contractor's stated quantities.

PART B – CONDITIONS OF CONTRACT

SUPPLEMENTAL CONDITIONS

Thompson Nursery Road Extension Phase I - Segment 1

Project No. 5400203
FPID# Project No. 452355-1-54-01

1. PROJECT DESCRIPTION, PROJECT LOCATION & SCOPE OF WORK

1.1. Description: The project consists of the Thompson Nursery Road Extension in Winter Haven, Florida. The limits of construction begin at SR 540 and US 17 and extend 1.9 miles to the southeast and ends south of Rifle Range Road (CR 655) and Eloise Loop Rd.

1.2. Location: From Bartow: Go east on US-98 S for 0.3 miles. Turn north onto US-17 N and go 7.8 miles to the intersection of Winter Lake Road (SR 540) and US 17. All distances are approximate.

1.3. Scope of Work: Work includes, but is not limited to, roadway construction including drainage and pedestrian features, signing and pavement markings, traffic signal installation, and maintenance of traffic.

1.4. The CADD files are available upon request. The data within the CADD files is subject to change and it is the contractor's responsibility to request updates when necessary. Should the contractor choose to generate information from the CADD files, other than that which is shown on the signed and sealed plans, the contractor does so at its own risk.

1.5. Estimated construction cost is $44,351,450.00 and the calendar days to final completion is 1,033.

2. QUALIFICATION REQUIREMENTS

2.1. The prime contractor or subcontractors shall be on the **Current List of FDOT Prequalified Contractors** in the following work classes: Drainage; Flexible Paving; Grading; Guardrail; Pavement Marking; Roadway Signing; Traffic Signal; Hot Plant-Mixed Bituminous Courses; Electrical Work; and Sidewalk.

2.2. Contractor must have been in business under the same name or EIN number for a minimum of 5 years.

2.3. The Successful bidder must possess or purchase a Polk County Local Business Tax Receipt (f/k/a Business License) to do business with the County. A copy of such license or proof of purchase must be provided to the Procurement Division prior to award being made.

2.4. Contractor must provide three (3) references from clients in which the bidder has successfully completed projects similar in scope as the prime bidder, within the past ten (10) years. Each reference should include:

- Name of the client
- Address of the client

- Contact person to include:
- Phone number and email address
- Brief description of the project.
- Project address
- Date project completed.
- List of all subcontractors used for project.

References should be submitted with the Bid or must be submitted by the apparent lowest responsive bidder within three (3) business days of request and prior to award. The County reserves the right to contact and verify all references provided.

2.5. **Percentage of Work**: The prime contractor shall perform a minimum of 40% of all work contained within the scope of work as outlined in the bid documents and special conditions. This percentage of work requirement does not include the furnishing of materials or equipment in the construction, if not installed by the primary contractor.

3. BASIS OF AWARD

3.1. Lowest responsive and responsible bidder meeting qualifications and specifications.

3.2. A pre-award meeting may be required during the bid analysis phase. Prior to a recommendation of award being issued by the Procurement Director, a pre-award meeting will be conducted with the County, EOR, Construction Project Manager and the apparent low bidder. This pre-award meeting will be conducted to confirm that the apparent low bidder can perform the required services according to the bid document.

A memorandum of understanding between the County and the apparent low bidder shall be executed within 5 days after the pre-award meeting.

4. PERMITS

4.1. The Following permits have been acquired by the County for the project:

SWFWMD; USACOE

4.2. It shall be the Contractor's responsibility to submit the application, pay application fees and acquire the Florida Department of Environmental Protection (FDEP) Generic Permit for Stormwater Discharge from Construction Activities.

4.3. The contractor is required to obtain a Right-of-Entry from CSX prior to performing any work inside CSX right-of-way. County will reimburse the contractor for the costs of the Right-of-Entry. No mark-up is allowed for Right-of-Entry reimbursement. Bidders shall include CSX flagger costs in their Maintenance of Traffic price. Bidders shall include railroad insurance in their Mobilization price. Information on CSX railroad insurance can be viewed in the CSX Public Project Information Manual.

5. CERTIFIED AS-BUILT SURVEY DRAWINGS

5.1. The Contractor shall prepare and provide the As-Built Survey Drawings to the County in .pdf format and AutoCAD format.

6. DEFINITIONS

6.1. "Certified As-Built Survey Drawings": Means as-built or record survey drawings or maps prepared by a Professional Land Surveyor (PLS) or Professional Surveyor and Mapper (PSM) according to the requirements of F.A.C. 61G17-6.005 Construction Layout Survey, Record or As-Built Survey, Quantity Survey. Certified As-Built Survey Drawings includes both hard copy drawings or maps and the electronic files prepared in AutoCAD® format compatible with the County's computer system. The following are minimum requirements to be shown:

- 6.1.1. Roadway Site Perimeter - Sufficient spot elevations to show as-built topography.
- 6.1.2. Driveway Areas - Sufficient spot elevations to show drainage and slopes.
- 6.1.3. Right-of-Way Swale/Drainage - All culvert inverts; swale flow-line grades; beginning and end bottom elevations; highs and lows along top of bank; and size of swale.
- 6.1.4. Underdrains/Pipe Culvert/PVC Sleeves - All inverts, inlet grate and bottom elevations, and sizes.
- 6.1.5. Outfalls - All pipe inverts, weir box elevations, weir elevation, and sizes.
- 6.1.6. Roadway/Off Site Drainage - All inverts; manhole top elevation; grate top elevations all storm and sanitary, if applicable.
- 6.1.7. Pavement width; curb width; shoulder width; sidewalk and bike path widths, every 100 feet.
- 6.1.8. Elevations; sidewalk; bike path; top and bottom of curb; edge of pavement; and center line of road, every 100 feet.
- 6.1.9. Install new roadway alignment control points upon final roadway completion. Include all intersections and side streets. Latitude, departure and elevations for all control points.
- 6.1.10. Stations and offsets, all structures (including power poles, drainage structures, etc.)

6.2. "County Project Manager": Means the person designated as an agent or representative of the County for the purpose of directing or being in charge of the work embraced in this contract.

6.3. "FDOT": Means the Florida Department of Transportation.

6.4. "Inspector": Means the Professional's person designated as an agent or representative of the County to perform construction inspection.

6.5. "Plans": Means certified construction drawings prepared by the Engineer of Record (EOR).

6.6. "Specialty Engineer": Means a Professional Engineer registered in the State of Florida, other than the Engineer of Record or his subcontracted consultant, who undertakes the design and drawing preparation of components, systems, or installation methods and equipment for specific portions of the project work. The Specialty Engineer may be an employee or officer of the Contractor or a fabricator, an employee or officer of an entity providing components to a fabricator, or an independent consultant. The Specialty Engineer must be

qualified in accordance with the Rules of the Department of Transportation, Chapter 14-75. Any Corporation or Partnership offering engineering services must hold a Certificate of Authorization from the Florida Department of Business and Professional Regulation. For items of work not specifically covered by the Rules of the Department of Transportation, a Specialty Engineer is qualified if he has the following qualifications: (1) Registration as a Professional Engineer in the State of Florida; (2) The education and experience necessary to perform the submitted design as required by the Florida Department of Business and Professional Regulation.

6.7. "Utility Work by Highway Contractor": Means utility work described plans prepared by a utility owner and made a part of this Contract by agreement with the County.

6.8. "Bridge" – a structure, including supports, erected over a depression or over an obstruction such as water, highway or railway, or for elevated roadway, for carrying traffic or other moving loads, and having a length, measured along he center of the roadway, of more than 20 feet between the inside faces of end supports. A multiple-span box culvert is considered a bridge, where the length between the extreme ends of the openings exceeds 20 feet.

7. GENERAL

7.1. The Contractor is solely responsible for all work called for in the Contract Documents according to the terms of the Contract Documents and this responsibility cannot be transferred to subcontractors.

7.2. The hierarchy of authority for this contract shall be:

- First (Highest): Polk County Director of Roads & Drainage
- Second: Polk County Engineering Manager
- Third: Polk County Project Manager

7.3. No work shall be performed under the provisions of this contract on any properties outside the limits of the project area without prior written permission of the lawful affected landowner. Any such permission shall be obtained by the Contractor and shall identify the provisions under which such work is to be performed and written permission obtained shall be provided to the County Project Manager prior to the associated work being performed. The Contractor shall not be compensated for any work outside the project area and shall hold the County harmless for all liabilities associated with said work outside the project area.

7.4. Upon execution of the Contract, the County reserves the right to conduct an audit of the Contractor's records pertaining to the project. The County or its representatives may conduct an audit, or audits, at any time prior to final payment, or thereafter.

8. FDOT STANDARD SPECIFICATIONS FOR ROAD AND BRIDGE CONSTRUCTION

8.1. When the Standard Specifications, Special Provisions, Supplemental Specifications or Technical Special Provisions refer to:

8.1.1. "The Engineer" in the role of construction inspection and construction management, this term is the same as "Construction Project Manager" as defined in the Contract Documents.

8.1.2. "The Department" or "FDOT" in the role of owner of the project, the interpretation of the document shall be that the reference is to the County as the owner of the project.

8.1.3. "State Road," it shall mean any public roadway.

8.1.4. "The Department's acceptance tests," it shall mean the tests adopted by the County.

8.1.5. "The District and/or Central Labs," it shall mean the Contractor's testing subcontractor authorized by the County.

8.2. If any conflicts exist between the specifications prescribed in the Contract Documents, the more stringent requirement shall apply. In case of discrepancy, the governing order of the contract documents is as follows:

1. Special Conditions
2. Technical Special Provisions
3. Plans
4. Road Design, Structures and Traffic Operations Standards
5. General Conditions
6. FDOT Supplemental Specifications
7. Standard Specifications
8. Supplementary Conditions (JPA / Utility)

Computed dimensions govern over scaled dimensions.

8.3. FDOT Standard Specification Section 9-2.1.2 Bituminous Material shall apply to this contract.

8.4. FDOT Standard Specifications 9-1.3, 9-3.1, 9-3.2 shall apply to this contract.

8.5. In sub article 9-3 of the FDOT Standard Specifications the reference to 4-3.2 is changed to County General Condition Article 11.

9. TESTING AND INSPECTIONS

9.1. The Contractor is responsible for all required testing on the project except when the Contract Documents, laws, ordinances, rules, regulations or orders of any public authority having jurisdiction specifically require any Work to be inspected or tested by someone other than the Contractor. For these inspections and testing, the Contractor shall give the County 48-hours notice to prepare for the required inspections or testing. All such inspections, tests or approvals performed by the County shall be identified in writing by the County Project Manager to the Contractor as well as the name of the testing facility that will be performing the inspections and testing.

9.2. Except as described above, all inspections, tests or approvals shall be at the Contractor's expense and shall be included in the unit cost for the appropriate pay item. For all required inspections, tests and approvals on any Work prepared, performed or assembled away from the site, the Contractor will furnish the County Project Manager with the required Certificates of Inspection, testing or approval. All such tests will be in accordance with the methods prescribed by the American Society for Testing and Material (ASTM) or such other applicable organizations as may be required by law or the Contract Documents. Material or

Work in place that fail to pass acceptability tests shall be retested at the direction of the County Project Manager and at the Contractor's expense.

9.3. No work shall be performed, nor materials used, without supervision and/or inspections by a representative of the County. With the exception of Asphalt Plant, The County Project Manager's staff is responsible for required verification testing on the project and will coordinate this work with the Contractor's Quality Control Manager. If there is a discrepancy between the contractor's quality control test and the County Project Manager's verification test, and if either one of the tests fail to meet minimum Specification requirements, both parties will jointly take a split resolution sample and deliver the sample to a pre-determined, independent testing lab contracted by the County. The independent testing lab will not be the same lab providing verification testing services for the County. The results from the independent resolution lab shall be used and accepted by both parties as the final testing results representing the portion of material in question.

10. MATERIALS

10.1. The Contractor shall provide copies of all delivery tickets, or invoices, for all materials and equipment to be used for the project to the County immediately upon delivery or as soon thereafter as is practical.

10.2. Arrangements for storage areas for materials and equipment shall be the responsibility of the Contractor. Before mobilizing or storing any materials or equipment, the Contractor shall identify the areas to be used for storage in writing to the County. If property other than County right-of-way is proposed for storage, the Contractor shall provide the County a copy of the written approval or agreement from the property owner before mobilizing or storing any materials or equipment on said property.

11. WORKSITE VISIBILITY

11.1. No work shall be performed when the visibility is less than two (2) times the Stopping Sight Distance for the highest regulatory posted speed through the project area as defined in the FDOT Manual of Uniform Standards for Design, Construction and Maintenance for Streets and Highways. Visibility distance shall be measured in all directions of travel and at locations and directed by the County. Contract time extensions for substandard visibility shall be assessed according to Article 13 of the General Conditions.

12. FIELD OFFICE

12.1. When a Field Office is included in the Contract, the unit cost for the Field Office shall include electric, telephone, water, sanitary and high-speed internet, including all required application and inspection fees and deposits.

13. EROSION CONTROL

13.1. The Contractor shall conform to the requirements of Polk County Ordinance No. 93-06 and the FDOT Standard Specifications Section 104.

13.2. When erosion control devices or measures fail to prevent erosion or pollution, the Contractor shall be responsible for removing or cleaning up the eroded materials or pollution to the satisfaction of the County and/or State agency having jurisdiction at no additional cost to the County.

13.3. The Contractor shall remove and dispose of temporary erosion control devices after construction and/or establishment of the associated permanent erosion control devices or as directed by the County. The cost for removal shall be included in the unit price for the individual erosion control devices.

14. GRASSING

14.1. Immediately before placing or installing grassing of any type (i.e., seed, seed and mulch, sod), the Contractor shall shape and rake the prepared soil surface by hand. The cost for shaping and raking shall be included in the unit price for the associated grassing pay item.

15. MAINTENANCE OF TRAFFIC

15.1. The terms Traffic Control Plan (TCP) and Maintenance of Traffic Plan (MOT Plan) are intended to be synonymous. The term Maintenance of Traffic (MOT) is the function presented in the TCP.

15.2. If a TCP is provided in the construction plans and the Contractor intends to use that plan to maintain traffic, the Contractor shall provide a letter to the County stating that the provided TCP will be implemented for this contract. The Contractor may propose an Alternative TCP in accordance with FDOT Standard Specification Section 102 for consideration by the County. Any alternative TCP must be approved by the County before it can be implemented and shall be prepared at no additional cost to the County.

15.3. If a TCP is not provided in the construction plans, the Contractor shall prepare a TCP according to the requirements of the FDOT Plans Preparation Manual, the FDOT Roadway and Traffic Design Standards and the FDOT Standard Specifications for Road and Bridge Construction. The TCP shall be prepared by, and signed and sealed by, a Specialty Engineer that is certified by a FDOT approved training agency which meets the FDOT maintenance of traffic training requirement for advanced training. The Contractor shall submit a copy of the certification that the Specialty Engineer is certified by a FDOT approved training agency that meets the FDOT maintenance of traffic training requirement for advanced training. The cost for preparing the TCP shall be included in the lump sum unit price for pay item 102-1 Maintenance of Traffic LS.

15.4. The Contractor shall provide the County a copy of the contractor's Worksite Traffic Supervisor certification that satisfies the requirements of FDOT Standard Specification 105-8.3.

15.5. All lane and/or road closures require approval of the County. The Contractor shall submit a completed Request for Lane or Road Closure form to the County Project Manager at least 14 calendar days before the date of the proposed closure. The request must include a complete Traffic Control Plan showing the proposed closure and locations of all signs and traffic control devices. No closures shall be implemented without County approval.

16. UNDERGROUND FACILITIES

16.1. The location(s) of the utilities shown in the plans (including those designated Vv, Vh and Vvh) are based on limited investigation techniques and should be considered approximate only. The verified locations/elevations apply only at the points shown. Interpolations between these points have not been verified.

17. HISTORICAL AND ARCHAEOLOGICAL

17.1. If historical or archaeological artifacts are discovered at any time on the project site, the Contractor must notify the County, the Water Management District, the Florida Department of State and the Division of Historical Resources. The Contractor shall follow any rules or requests from agencies with jurisdiction. If required to stop work, delay work or perform extra work in the affected area, delays and additional costs will be considered an unforeseen difficulty according to the General Conditions.

18. EMERGENCIES

18.1. In the event of an emergency, the Contractor shall immediately notify the County Project Manager.

19. CONTAMINATION

19.1. Any equipment that is leaking fuel, lubricant, coolant, hydraulic fluid or any other hazardous material shall immediately be repaired by the Contractor to stop the leak. The Contractor shall clean up and dispose of any leaked fluids according to all applicable laws, ordinances, rules and regulations within 24-hours of occurrence. All repairs, removal, clean-up and/or disposal shall be at no cost to the County.

20. SAFETY

20.1. The Contractor is responsible for providing for the safety of all Contractor's or subcontractors personnel working in the Project Area.

20.2. The Contractor is required to comply with Florida Statute (F.S.), Chapter 556, Underground Facility Damage Prevention and Safety Act. The Contractor is responsible for contacting Sunshine State One-Call of Florida, Inc.(Sunshine 811), at 811 or 1-800-432-4770 or www.sunshine811.com, no less than two (2) business days (48 hours) and no more than 5 business days before beginning any excavation, the Contractor provide notification according to the procedures of the F.S. Chapter 556.

21. WORK AREA CLEAN-UP REQUIREMENTS

21.1. During the progress of the Work, the Contractor shall keep the premises and maintained travel lanes free from accumulations of waste, discarded or surplus material, rubbish and other debris or contaminates resulting from the Work.

21.2. Following completion of the Work, Contractor shall remove all waste material, rubbish and debris from and about the premises as well as all tools, appliances, construction equipment, machinery and surplus material. The Contractor shall leave the site clean and ready for occupancy by the County at substantial completion of the Work.

22. WORK STOPPAGE

22.1. From time to time, it may be necessary for the Contractor to stop a portion of the work or all work to accommodate a civic function. If the Contractor will be

required to stop work, the County Project Manager shall notify the Contractor a minimum of five (5) Working Days before any requested work stoppage. Following resuming work, the Contractor and the County Project Manager shall agree to and document the number of additional Days to be added to the Contract Time to accommodate the requested work stoppage.

23. VIDEO RECORDS

23.1. Pre-Construction Video Record: Before beginning mobilization activity, the Contractor shall video record the existing conditions in the project area before the start of any construction activity. The video recording shall document the condition of all above ground features within fifty-feet of the limits of construction, including storm sewer inlets, cross drains and any encroachment into the limits of construction. The video recording shall be delivered to the County Project Manager 14 days prior to the start of any construction activity for review and approval.

23.2. Post-Construction Video Record: In addition to the video recording requirements of FDOT Standard Specification 430-4.8, within ten (10) calendar days after the date of final completion the Contractor shall video record the finished project. The video recording shall document the condition of the finished construction project, all above ground features within fifty-feet of the limits of construction, including storm sewer inlets, cross drains and any encroachment into the limits of construction.

23.3. All video records shall be delivered to the County Project Manager on digital video disk (DVD) or USB flash drive in a format compatible with Microsoft Media Player and labeled with the project number, project name, date and subject, and the name, address and telephone number of the Contractor and the company responsible for recording the video record. The cost for the Pre-Construction Video Record, Post-Construction Video Record and the required DVD or USB flash drive copies shall be included in the lump sum bid unit price for 101-1 Mobilization.

24. APPLICATION FOR PROGRESS PAYMENT

24.1. By signing and submitting an Application for Payment the Contractor certifies that all work and/or materials storage associated with the quantities in the Application for Payment have been completed in accordance with the Contract Documents.

24.2. When the Contract contains Utility Work by Highway Contractor the Contractor shall prepare a separate Application for Payment for each utility participating in the Utility Work by Highway Contractor. The Contractor shall submit Applications for Progress Payment for progress successfully performed and completed for each calendar month during the term of the contract.

24.3. In addition to the requirements of General Conditions 17.6 and 17.7, the final completion and waiver of claims will not be accepted by the County until the Certified As-Built Survey Drawings have been reviewed and accepted by the County and the required number of sets of the accepted Certified As-Built Survey Drawings and electronic files, and the Certificate of Final Completion have been received by the County.

24.4. Each Application for Payment submitted by the Contractor shall include a copy of all invoices for stored materials and the materials certifications for all materials stored or used in the work that is included in said Application for Payment.

25. LIQUIDATED DAMAGES

25.1. The parties acknowledge that it would be difficult or impossible to accurately determine the amount of actual damages the County would or may incur as a consequence of the Contractor's failure to timely deliver the Project Work in accordance with the Contract Documents. Accordingly, in lieu of assessing actual damages if the Contractor fails to timely deliver Project Work, the parties confirm that: (i) the assessment of liquidated damages is reasonable and appropriate; (ii) the terms and the amount(s) of the liquidated damages stated below are reasonable; and (iii) the liquidated damages will be assessed as the County's remedy under such circumstances and not as a penalty.

25.2. Should the Contractor request and be granted additional time to reach substantial completion via change order(s), the last revised date shall be the date used to calculate the time from which liquidated damages will be assessed.

25.3. Liquidated Damages in the amount of $10,244.00 plus 0.005% of any amount over $40 million (round to the nearest whole dollar) per calendar day as authorized by Florida Statutes Section 337.18(2) shall be assessed.

26. PERFORMANCE EVALUATIONS

26.1. The Contractor will be evaluated on the performance of work and administration of the contract. Deficiency letters may be issued to the Contractor by the County for any work or activity of the Contractor or their subcontractors that does not satisfy the terms or intent of the contract. Deficiency letters will be a part of the interim and final Contractor performance evaluations of the contract.

27. PROJECT CONTINGENCIES

27.1. The Bid Form includes $500,000.00 in contingency funds. The contingency funds are divided into five categories. The County shall approve charges against contingencies prior to invoicing. Any established unit prices shall prevail. If there are no unit prices established for the work, then the Contractor shall be reimbursed as defined in the General Conditions. The contingency funds will be used for actual work (time and materials). The contingency funds will not be used for any delay cost but may only be used for unforeseen conditions as determined by and agreed to by the County. The project contingencies have been defined as follows:

27.1.1. Roadway: $500,000.00.

28.

"To the extent provided by law, Contractor shall indemnify, defend, and hold harmless the County and the State of Florida, Department of Transportation, including the Department's officers, agents, and employees, against any actions, claims, or damages arising out of, relating to, or resulting from negligent or wrongful act(s) of Contractor, or any of its officers, agents, or employees, acting within the scope of their office or employment, in connection with the rights granted to or exercised by Contractor.

The foregoing indemnification shall not constitute a waiver of the Department's or County's sovereign immunity beyond the limits set forth in Florida Statutes, Section 768.28. Nor shall the same be construed to constitute agreement by Contractor to indemnify County for the negligent acts or omissions of County, its officers, agents, or employees, or third parties. Nor shall the same be construed to constitute agreement by Contractor to indemnify the Department for the negligent acts or omissions of the Department, its officers, agents, or employees, or third parties. This indemnification shall survive the termination of this Agreement."

29. Damage Recovery

29.1. **Damages Suffered by Third Parties**: In addition to the damages provided for in 8-10.2 and pursuant to Section 337.18 of the Florida Statutes, when the Contractor fails to complete the work within the Contract Time the Department may recover from the Contractor amounts that the Department pays for damages suffered by third parties unless the failure to timely complete the work was caused by the Department's act or omission.

29.2. **Damage Recovery/User Costs**: A damage recovery/user cost will be assessed against the Contractor if all lanes are not open to traffic during the times as shown in the Traffic Control Plans. Costs will be assessed beginning at the appropriate time as shown in the Traffic Control Plans and continue until all lanes are open as recorded by the Engineer. This assessment will be in the following amounts:

First 30 minutes and under: $10,000.00

Each additional 30 minute period or portion thereof: $2,000.00

Such costs will not exceed $29,000.00 over a 24 hour period.

At the discretion of the Engineer, damage recovery/user cost will not be assessed for failure to open traffic lanes if such cause is beyond the control of the Contractor, i.e., catastrophic events, accidents not related or caused by the Contractor's operations.

The Department will have the right to apply as payment on such damages any money which is due to the Contractor by the Department.

30. MISCELLANEOUS

30.1. The regular working hours for Polk County are Monday through Friday from 7:00 am to 5:30 pm. Permission to work outside of the regular work hours must be requested a minimum of two working days in advance from the Construction Project Manager. Permission to work on County holidays must be requested a minimum of two working days in advance from the Construction Project Manager.

30.2. Article 27 of the General Conditions is modified as follows: The Contractor shall utilize E-Verify. The use of E-Verify is mandatory on this project.

30.3. In accordance with the State Funded Grant Agreement, Section 8.c, the Contractor and their subcontractors shall comply with all terms and conditions of the State Funded Grant Agreement and all federal, state, and local laws and regulations applicable to this project.

30.4. An entity or affiliate who has had its Certificate of Qualification suspended, revoked, denied or have further been determined by the Department to be a non-responsible contractor may not submit a bid or perform work for the construction or repair of a public building or public work on a contract with the County.

30.5. In accordance with FS 20.055(5), It is the duty of every state officer, employee, agency, special district, board, commission, contractor, and subcontractor to

cooperate with the inspector general in any investigation, audit, inspection, review, or hearing. The Contractor and subcontractors will comply with this statute.

30.6. In accordance with Section 287.134, Florida Statutes, an entity or affiliate who has been placed on the Discriminatory Vendor List, kept by the Florida Department of Management Services, may not submit a bid on a contract to provide goods or services to a public entity; may not submit a bid on a contract with a public entity for the construction or repair of a public building or public work; may not submit bids on leases of real property to a public entity; may not be awarded or perform work as a contractor, supplier, subcontractor or consultant under a contract with any public entity; and may not transact business with any public entity.

ATTENTION BIDDERS

The Successful Bidder must register in our new Vendor Database if you have not already done so prior to award of this bid. A purchase order cannot be issued to a vendor until they have registered.

You may register by going to the following link:

http://www.polk-county.net/boccsite/Doing-Business/Vendor-Registration/

Registered vendors will receive a User ID and Password to access their company information. All registered vendors must provide their owner gender, owner ethnicity, corporate status, and a minimum of one (1) commodity code to be considered registered. It is the responsibility of all vendors to update their vendor information.

Only registered vendors will receive notifications of future bids and quotes.

Exhibit "A"

CERTIFICATIONS REGARDING DEBARMENT, SUSPENSION, PROPOSED DEBARMENT, AND OTHER RESPONISBILITY MATTERS

For all awards, subawards, and contracts with certain parties that are debarred, suspended, or otherwise excluded from or ineligible for participation in Federal assistance programs and activities, the Offeror must complete and sign the following:

The Offeror certifies, to the best of its knowledge and belief, that-

(1) This contract is a covered transaction for purposes of 2 C.F.R. pt. 180 and 2 C.F.R. pt. 3000. As such the contractor is required to verify that none of the contractor, its principals (defined at 2 C.F.R. § 180.995), or its affiliates (defined at 2 C.F.R. § 180.905) are excluded (defined at 2 C.F.R. § 180.940) or disqualified (defined at 2 C.F.R. § 180.935).
(2) The contractor must comply with 2 C.F.R. pt. 180, subpart C and 2 C.F.R. pt. 3000, subpart C and must include a requirement to comply with these regulations in any lower tier covered transaction it enters into.
(3) This certification is a material representation of fact relied upon by Polk County, a political subdivision of the State of Florida (the "County"). If it is later determined that the contractor did not comply with 2 C.F.R. pt. 180, subpart C and 2 C.F.R. pt. 3000, subpart C, in addition to remedies available to the Florida Division Emergency Management, the County, and the Federal Government may pursue available remedies, including but not limited to suspension and/or debarment.
(4) The bidder or proposer agrees to comply with the requirements of 2 C.F.R. pt. 180, subpart C and 2 C.F.R. pt. 3000, subpart C while this offer is valid and throughout the period of any contract that may arise from this offer. The bidder or proposer further agrees to include a provision requiring such compliance in its lower tier covered transactions.

Exhibit "B"
APPENDIX A, 44 C.F.R. PART 18 – CERTIFICATION REGARDING LOBBYING

Certification for Contracts, Grants, Loans, and Cooperative Agreements

(To be submitted with each bid or offer exceeding $100,000)

The undersigned _____certifies, to the best of his or her knowledge, that:
(Contractor)

1. No Federal appropriated funds have been paid or will be paid, by or on behalf of the undersigned, to any person for influencing or attempting to influence an officer or employee of an agency, a Member of Congress, an officer or employee of Congress, or an employee of a Member of Congress in connection with the awarding of any Federal contract, the making of any Federal grant, the making of any Federal loan, the entering into of any cooperative agreement, and the extension, continuation, renewal, amendment, or modification of any Federal contract, grant, loan, or cooperative agreement.

2. If any funds other than Federal appropriated funds have been paid or will be paid to any person for influencing or attempting to influence an officer or employee of any agency, a Member of Congress, an officer or employee of Congress, or an employee of a Member of Congress in connection with this Federal contract, grant, loan, or cooperative agreement, the undersigned shall complete and submit Standard Form- LLL, "Disclosure Form to Report Lobbying," in accordance with its instructions.

3. The undersigned shall require that the language of this certification be included in the award documents for all subawards at all tiers (including subcontracts, subgrants, and contracts under grants, loans, and cooperative agreements) and that all subrecipients shall certify and disclose accordingly.

This certification is a material representation of fact upon which reliance was placed when this transaction was made or entered into. Submission of this certification is a prerequisite for making or entering into this transaction imposed by 31, U.S.C. § 1352 (as amended by the Lobbying Disclosure Act of 1995). Any person who fails to file the required certification shall be subject to a civil penalty of not less than $10,000 and not more than $100,000 for each such failure.

The Contractor, _____, certifies or affirms the truthfulness and accuracy of each statement of its certification and disclosure, if any. In addition, the Contractor understands and agrees that the provisions of 31 U.S.C. § 3801 *et seq*., apply to this certification and disclosure, if any.

PART D – EXHIBITS

EXHIBIT I

BID BOND

KNOW ALL MEN BY THESE PRESENTS, that we_____(hereinafter called the Principal) and_____(hereinafter called the Surety), a Corporation chartered and existing under the Laws of the State of_____,and authorized to do business in the State of Florida, are held and firmly bound unto the Board of County Commissions, Polk County, Florida, in the full and just sum of_____dollars ($_____) good and lawful money of the United States of America, to be paid upon demand of the County, to which payment will and truly be made, we bind ourselves, our heirs, executors, administrators, successors, and assigned jointly and severally and firmly by these presents.

WHEREAS, the Principal is about to submit, or has submitted to the County, a Bid Submittal for the purpose of

_____

NOW THEREFORE, the conditions of this obligation are such if the Bid Submittal is accepted and recommended for award of a contract, the Principal shall, execute a satisfactory contract documents including an executed Performance and Payment Bond payable to County, in the amount of 100 percent (100%) of the total Contract Price, in form and with surety satisfactory to said County, then this obligation to be void, otherwise to be and remaining full force and virtue in law, and the surety shall, upon failure of the Principal to comply with any or all of the foregoing requirements, immediately pay to the aforesaid County, upon demand, the amount of this Bond, in good and lawful money of the United States of America, not as a penalty, but as liquidated damages.

In the event the numerical expression is omitted or expressed as less than five percent (5%) of the total bid price, this figure shall be assumed to be erroneously stated and this bid bond shall be binding upon the Principal and Surety in the amount of five percent (5%) of the total bid price.

IN TESTIMONY THEREOF, the Principal and Surety have caused these presents to be duly signed and sealed this _____day of_____20__.

EXHIBIT II (cont'd): PERFORMANCE BOND

KNOW ALL MEN BY THESE PRESENTS: That _____, as Principal, and _____, as Surety, located at _____ (Business Address) are held and firmly bound unto Polk County, a political subdivision of the State of Florida, as Obligee, in the sum of Dollars ($_____) in lawful currency of the United States, for the payment whereof we bind ourselves, successors, and assigns, jointly and severally, firmly by these presents.

THE CONDITION OF THIS BOND is that if the Principal:

1. Promptly, faithfully, efficiently and fully performs all work, services, duties and obligations set forth and described in that certain purchase order dated _____, 20___ (the "Purchase Order") between Principal and Obligee for performance of providing protective measure – overhead doors, at the times and in the manner proscribed in the Purchase Order; and
2. Pays Obligee all losses, damages (liquidated or actual), expenses, costs, and attorney's fees, including, without limitation, costs and attorney's fees on appeal, that Obligee sustains resulting directly or indirectly from any breach or default by Principal under the Purchase Order; and
3. Performs the guarantee of all work and materials furnished under the Purchase Order for the time specified therein; and
4. Satisfies all claims and demands incurred under the Purchase Order, and fully indemnifies and holds harmless the Obligee from all costs and damages which it may suffer by reason or failure to do so;

then the Surety shall have no obligation under this Performance Bond.

In the event that the Principal shall fail to perform any of the terms, covenants and conditions of the Purchase Order during the period in which this Performance Bond is in effect, the Surety shall remain liable to the Obligee for all such loss or damage (including reasonable attorney's fees and costs and attorney's fees on appeal) resulting from any failure to perform up to the amount of the sum stated above.

In the event that the Surety fails to fulfill its obligations under this Performance Bond, then the Surety shall also indemnify and hold the Obligee harmless from any and all loss, damage, cost and expense, including reasonable attorney's fees and costs for all trial and appellate proceedings, resulting directly or indirectly from the Surety's failure to fulfill its obligations hereunder. This paragraph shall survive the termination or cancellation of this Performance Bond.

The Surety, for value received, hereby stipulates and agrees that its obligations hereunder shall be direct and immediate and not conditional or contingent upon the Obligee's pursuit of its remedies against Principal, shall remain in full force and effect notwithstanding (i) amendments or modifications to the Purchase Order entered into by Obligee and Principal without the Surety's knowledge or consent (ii) waivers of compliance with or any default under the Purchase Order granted by Obligee to Principal without the Surety's knowledge or consent, or (iii) the discharge of Principal from its obligations under the Purchase Order as a result of any proceeding initiated under the Bankruptcy code of 1978, as the same may be amended, or any similar state or federal law, or any limitation of the liability or Principal or its estate as a result of any proceeding.

Any changes in or under the Purchase Order and compliance or non-compliance with any formalities connected with the Purchase Order or the changes shall not affect Surety's obligation under this Performance Bond. The Principal shall notify the Surety of all such changes.

Reference is hereby made to Section 255.05, Florida Statutes, and to the notice and time limitation provisions thereof.

IN WITNESS WHEREOF, this instrument is executed this _____ day of _____, 20__.

NOTE: Date of the Performance Bond must not be prior to date of Purchase Order. If Contractor is Partnership, all partners should execute Bond.

Important: Surety companies executing Bonds must appear on the Treasury Department's most current list (Circular 570 as amended) and be authorized to transaction business in the State of Florida. Attach a certified copy of Power-of-Attorney appointing individual Attorney-in-Fact for execution of Performance Bond on behalf of Surety.

EXHIBIT III: PAYMENT BOND

KNOW ALL MEN BY THESE PRESENTS: That _____, as Principal, and _____, as Surety, located at _____ _____ (Business Address) are held and firmly bound unto Polk County, a political subdivision of the State of Florida, as Obligee in the sum of _____ Dollars ($_____) in lawful currency of the United States, for the payment whereof we bind ourselves, successors, and assigns, jointly and severally, firmly by these presents.

THE CONDITION OF THIS BOND is that if the Principal:

1. Promptly makes payments to all claimants, as defined in Section 255.05(1), Florida Statutes, supplying Principal with labor, materials, or supplies, used directly or indirectly by Principal in the prosecution of the work provided under and in accordance with that certain purchase order dated _____, 20__ (the "Purchase Order") between Principal and Obligee for; _____.

then the Surety shall have no obligation under this Payment Bond.

Any action instituted by a claimant under this bond for payment must be in accordance with the notice and time limitation provisions in Section 255.05(2), Florida Statutes.

In the event that the Principal shall fail to promptly make payment to any claimant as described above during the period in which this Payment Bond is in effect, the Surety shall remain liable to the Obligee for all such loss or damage (including reasonable attorney's fees and costs and attorney's fees on appeal) resulting from any such failure up to the amount of the sum stated above.

In the event that the Surety fails to fulfill its obligations under this Payment Bond, then the Surety shall also indemnify and hold the Obligee harmless from any and all loss, damage, cost and expense, including reasonable attorney's fees and costs for all trial and appellate proceedings, resulting directly or indirectly from the Surety's failure to fulfill its obligations hereunder. This paragraph shall survive the termination or cancellation of this Payment Bond.

The Surety, for value received, hereby stipulates and agrees that its obligations hereunder shall be direct and immediate and not conditional or contingent upon the Obligee's pursuit of its remedies against Principal, shall remain in full force and effect notwithstanding (i) amendments or modifications to the Purchase Order entered into by Obligee and Principal without the Surety's knowledge or consent (ii) waivers of compliance with or any default under the Purchase Order granted by Obligee to Principal without the Surety's knowledge or consent, or (iii) the discharge of Principal from its obligations under the Purchase Order as a result of any proceeding initiated under the Bankruptcy code of 1978, as the same may be amended, or any similar state or federal law, or any limitation of the liability or Principal or its estate as a result of any proceeding.

Any changes in or under the Purchase Order and compliance or non-compliance with any formalities connected with the Purchase Order or the changes does not affect Surety's obligation under this Payment Bond. The Principal shall notify the Surety of all such changes.

Reference is hereby made to Section 255.05, Florida Statutes, and to the notice and time limitation provisions thereof.

EXHIBIT VI

AFFIDAVIT OF PERCENTAGE OF WORK
BID # 25-420

By signing below, the bidder:

- Is certifying that they will be performing, with their own organization, the percentage of work required under the Special Conditions, Section 2 of the contract documents for Bid #25-420.
- Understands that at the pre-award meeting they will be required to submit a spreadsheet (Exhibit VI-A) listing the complete breakdown of the bid price submitted by area of work. The list must include the division of work being performed, the name of the contractor performing that area of work, the WMBE classification of the contractor, the dollar amount of the work, and the percentage of the total bid price for each division of work.
- Acknowledges that no changes to sub-contractors used will be allowed after submittal at the pre-award meeting unless otherwise approved by the Procurement Director. Any prime contractor that defaults on this requirement may be suspended as allowed within the Procurement Procedures.
- If the percentage of work proposed to be completed by the prime is not equal to, or more than, the amount required, the bid will be considered to be **non-responsive.**

Bidder must sign and have notarized:

The undersigned Bidder hereby certifies that they fully understand the provisions as stated above and will comply.

EXHIBIT VII
TRENCH SAFETY ACT COMPLIANCE
TRENCH EXCAVATION SAFETY SYSTEM AND
SHORING, SPECIAL (TRENCH EXCAVATION)

Trench Excavation Safety System and Shoring, Special (Trench Excavation)

General:

1. The Contractor shall comply with the Florida Trench Safety Act (90-96), Laws of FL.) effective October 1, 1990.

2. The Contractor(s) performing trench safety excavation on this Contract shall comply with the Occupational Safety and Health Administration's (OSHA) trench excavation safety standards, 29 CFR's 1926.650, Subpart P, including all subsequent revisions or updates to these standards as adopted by the Department of Labor and Employment Security (DLES).

3. By submission of his bid and subsequent execution of this Contract, the Contractor certifies that all trench excavation done within his control shall be accomplished in strict adherence with OSHA trench safety standards contacted 29 CFR's 1926.650, Subpart P, including all subsequent revisions or updates to these standards as adopted by the Department of Labor and Employment Security.

4. The Contractor also agrees that he has obtained or will obtain identical certification from his proposed Subcontractors that will perform trench excavation prior to award of the subcontracts and that he will retain such certifications in his files for a period of not less than three years following final acceptance.

5. The Contractor shall consider all available geotechnical information in his design of the trench excavation safety system.

6. Inspections may be conducted by the County and the County's Safety Officer. Serious deficiencies will be corrected on the spot or the job may be closed. Imminent danger citing will result in the immediate cessation of work. Work will resume when the danger is corrected.

7. Bidder acknowledges that included in the various items of the proposal and in the Total Bid Price are costs for complying with the Florida Trench Safety Act (90-96), Laws of FL) effective October 1, 1990. The bidder further identifies the costs to be summarized as follows:

Trench Safety Measure (Description)	Units of Measure (LF, SY)	Unit (QTY)	Unit Cost	Extended Cost
A._____	_____	_____	$_____	$
B._____	_____	_____	$_____	$
C._____	_____	_____	$_____	$
D._____	_____	_____	$_____	$
			Total	$

Failure to complete the above may result in the bid being declared non-responsive.

EXHIBIT VIII

EQUAL EMPLOYMENT OPPORTUNITY

Polk County is an Equal Opportunity/Affirmative Action Employer.

Pursuant to Executive Order 11246 as amended, you are advised that under the provisions of government contracting, contractors and subcontractors are obliged to take affirmative action to provide equal employment opportunity without regard to race, creed, color, national origin, age or sex.

We are committed to equal opportunity employment effort and expect firms that do business with the County to have a vigorous affirmative action program.

CERTIFICATION BY PROPOSED PRIME OR SUBCONTRACTOR
REGARDING EQUAL EMPLOYMENT OPPORTUNITY

This certification is authorized pursuant to Executive Order 11246, Part II, Section 203(b), (30 F.R. 12319-15). Any Bidder or prospective contractor, or any of the proposed subcontractors, shall state as an initial part of the Bid or negotiations of the Contract whether it has participated in any previous Contract or subcontract to the equal opportunity clause; and, if so, whether it has filed all compliance reports due under applicable instructions.

Where the certification indicated that the prime or subcontractor has not filed a compliance report due under applicable instruction, such Contractor shall be required to submit a compliance report.

Contractor's Name: _____
Address: _____
_____

1. Bidder has participated in a previous contract or subcontract, subject to the Equal Opportunity Clause:

YES_____NO ____

2. Compliance Reports were required to be filed in connection with such Contract or subcontract:

YES_____NO ____

3. Bidder has filed all compliance reports due under applicable instructions:

YES_____NO ____

4. If answer to Item 3 is No, please explain in detail on reverse side of this certification.

The Bidder certifies that they do not maintain or provide for their employees any segregated facilities at any of their establishments, and that they do not permit their employees to perform their services at any location under their control where segregated facilities are maintained. The Bidder certifies further that they will not maintain or provide for their employees any segregated facilities at any of their establishments, and that they will not permit their employees to perform their services at any location under their control where segregated facilities are maintained. The Bidder agrees that a breach of this certification will be a violation of the Equal Opportunity clause in any contract resulting from acceptance of this Bid. As used in this certification, the term (segregated facilities" means any waiting rooms, work areas, restrooms, washrooms, restaurants, other eating areas, time clocks, locker rooms, storage areas, dressing areas, parking lots, drinking fountains, recreation/entertainment areas, transportation and housing facilities provided for employees which are segregate by explicit directive or are, in fact, segregated on the basis of race, color, religion or national origin, because of habit, local custom or otherwise. The Bidder agrees that (except where they have obtained identical certification from proposed subcontractors for specific time periods) they will obtain identical certification from proposed Subcontractors prior to the award of subcontracts exceeding $10,000 which are not exempt from the provision of the Equal Opportunity clause; and that they will retain such certifications in their files.

Certification – The information above is true and complete to the best of my knowledge and belief. (A willfully false statement is punishable by law – U.S. Code, Title 18, Section 1001.)

DRUG-FREE WORKPLACE FORM

The undersigned Bidder in accordance with Florida Statute 287.087 hereby certifies that_____does: (Name of Business)

1. Publish a statement notifying employees that the unlawful manufacture, distribution, dispensing, possession, or use of a controlled substance is prohibited in the workplace and specifying the actions that will be taken against employees for violations of such prohibition.

2. Inform employees about the dangers of drug abuse in the workplace, the business's policy of maintaining a drug-free workplace, any available drug counseling, rehabilitation and employee assistance programs; and the penalties that may be imposed upon employees for drug abuse violations.

3. Give each employee engaged in providing the commodities or contractual services that are under bid a copy of the statement specified in subsection (a).

4. In the statement specified in subsection (1), notify the employees that, as a condition of working on the commodities or contractual services that are under bid, the employee will abide by the terms of the statement and will notify the employer of any conviction of, or plea of guilty or nolo contendere to, any violation of Chapter 1892 or of any controlled substance law of the United States or any state, for a violation occurring in the workplace no later than five (5) days after such conviction.

5. Impose a sanction on or require the satisfactory participation in a drug abuse assistance or rehabilitation program, if such is available in the employee's community, by any employee who is so convicted.

6. Make a good faith effort to continue to maintain a drug-free workplace through implementation of this section.

As the person authorized to sign the statement, I certify that this firm complies fully with the above requirements.

CERTIFICATE OF SUBSTANTIAL COMPLETION

Project: _____ County's Project No.: _____

Contract No: _____ Contract Date: _____

Notice to Proceed Date: _____ Completion Date: _____

The Work to which this Certificate applies has been inspected by the authorized representatives of the County, Contractor and Professional, and that Work is hereby declared to be substantially complete in accordance with the Contract Documents on _____. This Certificate of Substantial Completion applies to all Work or a specified portion thereof under the Contract Documents.

Once all punch list items are complete, a list of closeout documents to be completed and corrected is attached hereto for final completion of Contract requirements. This list may not be all-inclusive; and the failure to include an item on it does not alter the responsibility of the Contractor to complete all the Work in accordance with the Contract Documents. The items on the list shall be completed or corrected by the Contractor within____calendar days of the above date of substantial completion.

This Certificate does not constitute an acceptance of the Work that has not been completed in accordance with the Contract Documents; nor is it a release of Contractor's obligations to complete the Work in accordance with the Contract Documents. Signatories agree the project is substantially complete as of the date established herein and that the project can and will function as intended and that the attached list represents deficient items requiring correction/completion prior to final completion and that this list may be amended by the Professional or County to add any other items to bring the Work in compliance with the Contract Documents. If the list is amended a reasonable time shall be given to complete the items added.

SOLICITATION NO.: Bid 25-420

PROJECT NAME: Thompson Nursery Road Extension – Segment 1

The undersigned, as_____of_____ (the "Contractor"), a Florida corporation, hereby certifies the following to Polk County, a political subdivision of the State of Florida, by and on behalf of the Contractor in accordance with the requirements of Florida Statutes, Section 287.135:

(i) the Contractor is not on the Scrutinized Companies with Activities in Sudan List; and

(ii) the Contractor is not on the Scrutinized Companies with Activities in the Iran Petroleum Energy Sector List

(as both such lists are created pursuant to Florida Statutes, Section 215.473); and

(iii) the Contractor does not have business operations (as that term is defined in Florida Statutes, Section 287.135) in Cuba or Syria; and

(iv) the Contractor was not on either of the foregoing lists or conducting business operations in Cuba or Syria when it submitted its bid to the County; and

(v) the Contractor is fully aware of the penalties that may be imposed upon the Contractor for submitting a false certification to the County regarding the foregoing matters; and

(vi) the undersigned is duly authorized to execute this Certification by and on behalf of the Contractor.

EMPLOYMENT ELIGIBILITY VERIFICATION (E-VERIFY) CERTIFICATION
EXHIBIT XXV
(Florida Statutes, Section 448.095)

PROJECT NAME: _____

The undersigned, as an authorized officer of the contractor identified below (the "Contractor"), having full knowledge of the statements contained herein, hereby certifies to Polk County, a political subdivision of the State of Florida (the "County"), by and on behalf of the Contractor in accordance with the requirements of Section 448.095, Florida Statutes, as related to the contract entered into by and between the Contractor and the County on or about the date hereof, whereby the Contractor will provide labor, supplies, or services to the County in exchange for salary, wages, or other remuneration (the "Contract"), as follows:

1. Unless otherwise defined herein, terms used in this Certification which are defined in Section 448.095, Florida Statutes, as may be amended from time to time, shall have the meaning ascribed in said statute.

2. Pursuant to Section 448.095(5), Florida Statutes, the Contractor, and any subcontractor under the Contract, must register with and use the E-Verify system to verify the work authorization status of all new employees of the Contractor or subcontractor. The Contractor acknowledges and agrees that (i) the County and the Contractor may not enter into the Contract, and the Contractor may not enter into any subcontracts thereunder, unless each party to the Contract, and each party to any subcontracts thereunder, registers with and uses the E-Verify system; and (ii) use of the U.S. Department of Homeland Security's E-Verify System and compliance with all other terms of this Certification and Section 448.095, Fla. Stat., is an express condition of the Contract, and the County may treat a failure to comply as a material breach of the Contract.

3. By entering into the Contract, the Contractor becomes obligated to comply with the provisions of Section 448.095, Fla. Stat., "Employment Eligibility," as amended from time to time. This includes but is not limited to utilization of the E-Verify System to verify the work authorization status of all newly hired employees, and requiring all subcontractors to provide an affidavit attesting that the subcontractor does not employ, contract with, or subcontract with, an unauthorized alien. The Contractor shall maintain a copy of such affidavit for the duration of the Contract. Failure to comply will lead to termination of the Contract, or if a subcontractor knowingly violates the statute or Section 448.09(1), Fla. Stat., the subcontract must be terminated immediately. If the Contract is terminated pursuant to Section 448.095, Fla. Stat., such termination is not a breach of contract and may not be considered as such. Any challenge to termination under this provision must be filed in the Tenth Judicial Circuit Court of Florida no later than 20 calendar days after the date of termination. If the Contract is terminated for a violation of Section 448.095, Fla. Stat., by the Contractor, the Contractor may not be awarded a public contract for a period of 1 year after the date of termination. The Contractor shall be liable for any additional costs incurred by the County as a result of the termination of the Contract. Nothing in this Certification shall be construed to allow intentional discrimination of any class protected by law.

Exhibit XXVI Affidavit Regarding the Use of Coercion for Labor or Services

In compliance with Section 787.06(13), Florida Statutes, this attestation must be completed by an officer or representative of a nongovernmental entity that is executing, renewing, or extending a contract with Polk County, a political subdivision of the State of Florida.

The undersigned, on behalf of the entity listed below (the "Nongovernmental Entity"), hereby attests under penalty of perjury as follows:

1. I am over the age of 18 and I have personal knowledge of the matters set forth herein.

2. I currently serve as an officer or representative of the Nongovernmental Entity.

3. The Nongovernmental Entity does **not** use coercion for labor or services, as those underlined terms are defined in Section 787.06, Florida Statutes.

4. This declaration is made pursuant to Section 92.525, Fla. Stat. and Section 787.06, Fla. Stat. I understand that making a false statement in this declaration may subject me to criminal penalties.

Under penalties of perjury, I _____(Signatory Name and Title), declare that I have read the foregoing Affidavit Regarding the Use of Coercion for Labor and Services and that the facts stated in it are true.

PART E

CONTRACT

This Contract is entered into as of the date last executed, (the "Effective Date), by and between Polk County, a political subdivision of the State of Florida, hereinafter referred to as the "County", and _____, its successors, executors, administrators and assigns, hereinafter referred to as the "Contractor".

WITNESSETH: Whereas the Contractor agrees with the County, for the consideration herein mentioned, and at its own proper cost and expense, to perform all the Work and furnish all the material, equipment, supplies and labor necessary to carry out this agreement in the manner and to the fullest extent as set forth in the attached Bid documents, being hereby made as such a binding part of this Contract as if written word for word herein, and whereas the Contractor has furnished satisfactory Bond and has complied with insurance requirements of the Specifications in Bid _____.

NOW THEREFORE, the County and the Contractor do hereby agree as follows:

Article 1. Scope of Work: The Contractor shall perform in accordance with the attached Bid Documents, all the items of Work at the unit prices or lump sum price as listed in the Contractor's Bid Submittal.

Article 2. Contract Price: The Contract price includes the total bid price of $_____ plus the Allowance Work amount of $_____ the total sum being $_____. This total contract price shall be reduced by the unused amount of the allowance, if such Work is not completed.

Article 3. Plans and Specifications: The plans and specifications, and other Bid Documents upon which the unit or lump sum prices in the Contractor's Bid Submittal are based, are hereby made a part of this Contract by reference thereto; and are attached hereto.

Article 4 Time of Beginning and Completion: The Contractor agrees to begin Work within 10 calendar days after issuance of a Notice to Proceed by the Procurement Division. The Contractor will complete all Work necessary to reach Substantial Completion within _____ calendar days from the Start Date memorialized within the Notice to Proceed. The County and the Contractor agree the balance of all Work to be performed after execution of the Certificate of Substantial Completion shall be complete within _____ days from the date noted on the Certificate of Substantial Completion and shall be evidenced by execution of the Certificate of Final Completion. The Certificate of Final Completion shall be executed by both parties once all Work has been performed and all close out paperwork submitted and processed by the County. Total days for this project are _____ days. The allowance time for this project is _____ days.

Article 5. Payment for Quantities: Payment for those items requiring payment on a unit price basis will be made for the actual unit quantities, as provided for in the Technical Specifications.

Article 6. Partial Payments: Payment will be made to the Contractor for the Contract Work actually performed by the Contractor (during the previous calendar month) and approved by the County subject, however, to retention by the County of an amount equal to five percent (5%) of the payment due until such time retainage is reduced in accordance with F. S. 218.735.

Article 7. Final Acceptance and Payment: Upon completion of the Work or as soon thereafter as practicable, the County and Professional shall make a final inspection and, if appropriate, acceptance of the Work, after which Contractor shall prepare a final estimate of all Work completed under this Contract. Payment therefore of the balance due shall be made in accordance with the Contract provisions. Payment on the final estimate shall include the full amount for the Work completed, based on the unit prices or lump sum of this Contract, subject, however, to the deduction of any payments already made under this Contract to the Contractor.

Article 8. Contract Documents: The Contactor and Polk County Procurement shall each obtain a photocopy of this Contract once it is executed. This original Contract shall be retained by the Clerk of Courts, County Comptroller once it is executed.

IN WITNESS THEREOF, the parties hereto have executed this Contract.

ADDENDUM # 5
BID # 25-420, THOMPSON NURSERY ROAD EXTENSION PHASE 1 – SEGMENT 1

Revision 1

Bid Package, Supplemental Conditions - Item 27.1, page 88:

27.1. The Bid Form includes **$4,500,000.00** in contingency funds. The County shall approve charges against contingencies prior to invoicing. Any established unit prices shall prevail. If there are no unit prices established for the work, then the Contractor shall be reimbursed as defined in the General Conditions. The contingency funds will be used for actual work (time and materials). The contingency funds will not be used for any delay cost but may only be used for unforeseen conditions as determined by and agreed to by the County. The project contingencies have been defined as follows:

27.1.1. Roadway: **$4,500,000.00**

Question 1: The wall elevations and details shown on sheets 399 thru 402 show a 36" Single Slope Traffic Barrier (Index 521-610). Please indicate how this wall is to be paid or please add the appropriate pay item?

Answer 1: Pay item will be added to the plan set. Pay Item # 521-8-7. Quantity = 252 LF

Question 2: Can the bid receiving date be extended for 2 weeks?

Answer 2: See Addendum 4. The revised Bid Receiving Date is Wednesday, February 18, 2026, prior to 2:00 p.m.

Question 3: Will the Question deadline date be moved or will it remain on December 22, 2025?

Answer 3: See Addendum 2. The Question Deadline is extended to January 21, 2026, at 4:00 p.m.

Question 4: **Geotechnical Report:** We can find no borings, soil information, or geotechnical reports for the proposed pond excavation in regards to the existing soils, and the roadway plans only provide limited boring information. This information is **required** to determine suitability of the existing soils for use in the project embankment. Please provide a full geotechnical report for the project ASAP, specifically including the proposed ponds.

Answer 4: Please refer to the Information Only – Geotechnical folder in the FTP Site provided above.

Question 5: **Existing Structures:** Plan sheets indicate existing structures are within the roadway alignment and project area. Will all existing structures be removed (by others) prior to the project start? Are all existing structures already removed? Please clarify this issue?

ADDENDUM # 5
BID # 25-420, THOMPSON NURSERY ROAD EXTENSION PHASE 1 – SEGMENT 1

Answer 5: The County removed all of the structures (homes/buildings) that were located within the R/W parcels and to the best of our knowledge the wells that the County was aware of were abandoned at or around the time of the demolition of the structures. If there are wells (or underground structures, etc.) that we were not aware of, they would need to be addressed by the contractor if discovered during the construction via a change order.

Question 6: **Rail Road Flagmen:** Plan notes and specifications reference use of a Rail Road Flagman when required for work or operations within the RR ROW. Is the County paying for any RR flagmen when needed? Who is responsible for payment for any RR Flagmen if/when required?

Answer 6: Flagmen operations are not required for the design as shown. Florida Midland Rail does not require flagmen during night hour operations. If the contractors means and methods require flagmen the contractor would be responsible for payment.

Question 7: **OBG-03:** Plan page 10, typical section for paved & graded driveways states OBG-03 is to be used as the base material. There is no bid item or quantity provided for OBG-03. Please provide a bid item and quantity for this work if it is required?

Answer 7: The quantity for OBG-03 has been provided under the Summary of Permanent Driveways table, sheet 31. The quantity of OBG-3 will be added to the Summary of Pay Items. Quantity = 334 SY

Question 8: **OBG-10:** Plan page 18, typical section for widening states OBG-10 is to be used as the base material. There is no bid item or quantity provided for OBG-10. Please provide a bid item and quantity for this work if it is required?

Answer 8: The quantity for OBG-10 has been provided under the Summary of Pay Items, Sheet #21. Quantity = 167 SY

Question 9: Can cad files be made available for this project specifically any existing and proposed surface models?

Answer 9: Please see the FTP Site instructions on the first page. The CAD files were added in Addendum 2.

Question 10: There is discrepancy in the length of Retaining Wall 1-3. Plan Sheet No. 399 shows the wall 44.5 ft long, while Wall Dimensions Table in Plan Sheet No. 404 shows Wall 1-3 to be 53 ft 4.75 inches long. Please confirm which is the correct length of Retaining Wall 1-3 and confirm Concrete Quantity?

Answer 10: Discrepancy on data table has been corrected. The correct length of wall segment 1-3 is 44.64 feet. The concrete quantity value of 32 cubic yards is correct as it is based on a Wall 1-3 length of 44.67 feet.

ADDENDUM # 5
BID # 25-420, THOMPSON NURSERY ROAD EXTENSION PHASE 1 – SEGMENT 1

Question 11: According to FDOT Index 400-011 there are 3 different schemes for the Gravity Walls. The plans do not show what Scheme is the Gravity Wall in this project. Please confirm which Scheme is the Wall?

Answer 11: Scheme 2.

Question 12: Summary of Pay Items Sheet No. 21 shows Pay Item 400-0-11 with 28 cy. Summary of Walls in Plan Sheet No. 36 shows Pay Item 400-0-11 with 21.7 cy. Please confirm quantity for Pay Item 400-0-11: Concrete Class NS, Gravity Wall?

Answer 12: 28 CY in the Summary of Pay Items is correct. The quantity of 21.7 CY on the Summary of Wall Table is incorrect.

Question 13: Roadway plans Structures S-351 and S-352 appear to be repeated at Station 108+00 and Station 30+45 (Croton Rd). Please clarify these are duplicate and confirm the quantities associated with these structures?

Answer 13: S-351 refers to a curb inlet (P-5) located at STA. 107+65.00. S-352 refers to a manhole (J-7) located at STA. 108+00. Both appear to be displayed in the plans correctly on plan-profile sheet (12).

Question 14: According to the roadway plans, a total of 907 linear feet of 42-inch pipe will be required. However, there is a discrepancy between this quantity and the bid form, which indicates a total of 2,070 linear feet for this item. Please confirm where the additional 1,163 feet of 42-inch pipe will be installed?

Answer 14: 907 linear feet of 42-inch pipe is the correct amount to be required. With a break down of 605 linear feet of Class IV 42" pipe, and 302 linear feet of 42" pipe.

Question 15: Please confirm the removal of existing pipe and the cut and fuse with proposed pipe, shown in Plan sheet C02 of the Water Main Plans, will be able to be done without the need of a wet tap?

Answer 15: Contractor to confirm that isolation of the water main that is directional drilled under US-17 cannot be performed. C01 shows an existing valve to the west of the intersection. If a valve exists at east US-17 drill, closing of the valves shall be coordinated with the City of Eagle Lake. If there is not a valve present between the east end of the directional drill and the existing service to be relocated, a wet tap or line stop can be installed.

Question 16: Please include pay item 0524-001 for Concrete Ditch Pavement?

Answer16: Agreed. Concrete Ditch Pavement to be installed around the Control structures for Ponds 1,2, & 3. Quantity = 12 SY

ADDENDUM # 5
BID # 25-420, THOMPSON NURSERY ROAD EXTENSION PHASE 1 – SEGMENT 1

Question 17: According to the Roadway Plans, sheet 402, a 36" Single-Slope Traffic Barrier with Junction Slab will be required on top of the CIP wall. Please include pay item 521-8-7, CONCRETE BARRIER, WITH JUNCTION SLAB, 36" SINGLE SLOPE, missing from the bid form?

Answer 17: Agreed, value will be added to bid form. Quantity = 252 LF

Question 18: Reviewing the cross-section calculations, example at Station 37+00 (sheet 117), it appears that the regular excavation quantity may not include the removal of the existing asphalt and base (6" thick). Please confirm if the excavation quantity was calculated by removing the existing base?

Answer 18: The excavation quantity has not been calculated with the removal of the existing base. The removal of the existing base is included under Clearing and Grubbing under FDOT Specifications 110-2.

Question 19: According to the roadway plans on sheet 293, phases 2 and 3 detour notes, the contractor will be subject to FDOT Specifications 8-10, 8-11, and 8-12. The Damage Recovery provision in Specification 8-12 has been revised for this project to $10,000 for the first 30 minutes, with an additional $2,000 for each subsequent 30-minute period, not to exceed a total of $29,000 over a 24-hour period. Please confirm how Liquidated Damages (8-10) and Damage Recovery (8-12) will be assessed against the contractor if the work is not completed within the maximum allowed detour closure period?

Answer 19: Damage Recovery Specification 8-12 is applied for any non-compliance with lane closure restrictions or non-compliance with restrictions on the duration of road closures and/or detours. Liquidated Damages relate to overall project completion within contract time and apply if the project is not Final Accepted within contract time.

Question 20: Please confirm if railroad insurance will be required for this project?

Answer 20: Please see the "Bid 25-420 Package," page 80 – Permits 4.3, located on the FTP Site. No, separate railroad insurance is not required for this project. The general insurance as currently required cannot exclude railroads, but a separate additional policy is not required

Question 21: If railroad insurance will be required, please provide insurance limits, Number of Passengers, Freight Numbers, Switching Numbers, and Speed?

Answer 21: See response to Question 20 above.

ADDENDUM # 5
BID # 25-420, THOMPSON NURSERY ROAD EXTENSION PHASE 1 – SEGMENT 1

Question 22: If railroad insurance is required, please confirm railroad employees (flaggers) will be assigned to work at the job site and will be on the railroad's payroll?
Answer 22: See response to Question 6 and 20 above.

Question 23: Please confirm that all drainage pipes shall be reinforced concrete pipe in accordance with the roadway plans, General Note 21?
Answer 23: Yes, concrete class is further specified for specific pipes within the project with greater loads from depth under soil.

Question 24: According to the FDOT Standard Specifications, "DO NOT INCLUDE TEMPORARY ASPHALT for payment under MOT, LS. Refer to Special Detour, pay item 102-2." Please include Special Detour – Temporary Pavement, SY, Pay item 102-2-200, and provide quantities for temporary asphalt pavement and temporary asphalt overbuild?
Answer 24: Per the plans, the MOT is to be bid as lump sum 1. It is the responsibility of the contractor to determine quantities and costs as needed.

Question 25: Please include Special Detour – Temporary Earthwork/Base, CY, Pay item 102-2-300, and provide quantities?
Answer 25: Per the plans, the MOT is to be bid as lump sum 1. It is the responsibility of the contractor to determine quantities and costs as needed.

Question 26: Please include Temporary Barrier, F&I, Low Profile pay item 102-71-13, and provide quantities?
Answer 26: Per the plans, the MOT is to be bid as lump sum 1. It is the responsibility of the contractor to determine quantities and costs as needed.

Question 27: Please include Temporary Barrier, Relocate, Low Profile Concrete pay items 102-71-23, and provide quantities?
Answer 27: Per the plans, the MOT is to be bid as lump sum 1. It is the responsibility of the contractor to determine quantities and costs as needed.

Question 28: Given that the quantities may differ among contractors, to ensure a fair bidding process, and to promote fair competition. Please include the following pay items missing from the Bid Form in accordance with FDOT Standard Specifications.

- 102-30 – Temporary Highway Lighting ?
- 102-60- Work Zone Sign
- 102- 74- A Channelizing Device
- 102- 76- Arrow Board / Advance Warning Arrow Panel
- 102- 78- A Temporary Raised/Retroreflective Pavement Marker (RPM)
- 102- 99- A Portable Changeable Message Sign- Temporary

- 102-115- Type III Barricade
- 102-150- 1 Portable Regulatory Sign ED
- 102-150- 2 Radar Speed Display Unit ED
- 102-911- A Removable Tape Pavement Marking - White/Black
- 102-912- A Removable Tape Pavement Marking – Yellow
- 706- 1- A Raised Pavement Marker
- 710- 1A-BCD Painted Pavement Markings- MOT applications

Answer 28: Per the plans, the MOT is to be bid as lump sum 1. It is the responsibility of the contractor to determine quantities and costs as needed.

Question 29: Plan Sheet C-04 of Water Main Plans shows proposed 4" and 6" pipe being connected to existing lines but there is no detail as how this connection is to be made. Please provide details to clearly understand the connection for both water main lines?

Answer 29: Contractor is to construct water main as shown to reach property. Contractor to shut off existing valve to turn off service to property. Contractor to remove existing water main and relocate backflow assembly and potable meter to area that is north of the proposed water main, and provide enough room to install the backflow preventer for fire main and meter assembly for potable service. Contractor to install 6" gate valve, then 6" tee to separate water and fire service. Fire service to have 6" proposed water main as shown and to connect to existing 6" water main to reinstate fire service. Contractor to install 6"x4" reducer to provide irrigation and potable service. 4"x4" tee used to separate irrigation stubout and potable water service. Irrigation stubout to include 4" valve with 4" restrained cap. Potable service to have 4" main installed with a 4" restrained cap. Contractor to install 2" plug in center of cap to reduce to 2" potable water service. Contractor to install 2" main to install water meter, then contractor to reconnect meter to existing 2" water service. A detail will be provided to supplement this description.

Question 30: Please confirm Gas line relocation, shown in Plan Sheet C09 of Water Main Plans, will take place before the removal of existing WM pipe & installation of proposed WM line?

Answer 30: Utility Work Schedule from FPU is provided with this addendum. Contractor to coordinate removal schedule as needed.

Question 31: Reviewing the bid documents, it appears that the bid form is missing, only the Excel Bid Sheet has been included. Also, in many cases, a specific bid bond form is required as part of the bid submission, and this form is typically incorporated within the bid form package. The bid bond form is essential for us to initiate the process of requesting our bid bond, which generally takes approximately one to

two weeks to be executed. Therefore, to ensure our bid is submitted on time, please provide the complete bid form as soon as possible?

Answer 31: Please see the "Bid 25-420 Package," Part C and Part D, starting on page 93. The documents were provided in those sections.

Question 32: Should the contractor assume that all building demolition, including foundation removal and underground utilities, will be completed by others?

Answer 32: See response to Question 5 above.

Question 33: Will CAD files (including existing and proposed finish grades) be made available for Bidders?

Answer 33: See response to Question 9 above.

Question 34: This is a project valued at over $44 million, and there are major holidays upcoming. Can the bid opening be extended 15 calendar days?

Answer 34: See response to Question 2 above.

Question 35: Included in the bid form is an item for Roadway Contingency in the amount of $500,000.00. According to the Specifications, Polk County General Conditions, Article 12 – Allowances. The county, at its sole discretion, has the authority to include an Allowance in the contract. Such an Allowance amount shall be incorporated into the Contract Price. Please confirm the $500,000.00 included in the bid form is designated as the Allowance for this project?

Answer 35: The $500,000 is for contingencies. There is a revised Bid Sheet included in this Addendum see, this revised bid sheet has increased the project contingency from $500,000 to $4,500,000. The Allowance Work will be calculated in accordance with Article 23 – Allowances. Allowance Work, in the amount of five percent (5%) of the construction contract bid amount or $250,000, whichever amount is less, will be included in the contract price.

Question 36: Not all of the borings have been included in the plans. Please provide full geotechnical report?

Answer 36: See response to Question 4 above.

Question 37: The quantity of excavation seems to be overstated in the bid form. If you add all the quantities from the cross sections, it only comes to 160,486.5 CY. Please confirm excavation quantities.

Answer 37: The earthwork provided in the quantities also includes ponds and driveways.

ADDENDUM # 5
BID # 25-420, THOMPSON NURSERY ROAD EXTENSION PHASE 1 – SEGMENT 1

Question 38: The summary of quantities and the plans only show 907 LF of 42" RCP, but the bid form has 2,070 LF. If the bid form is correct, then please provide detail for the additional 42" RCP that shall be included in the bid?

Answer 38: 907 linear feet of 42-inch pipe is the correct amount to be required. With a break down of 605 linear feet of Class IV 42" pipe, and 302 linear feet of 42" pipe

Question 39: Can the designer provide a KMZ file for use in the bidding process?

Answer 39: Please refer to the Plans folder in the FTP Site, access information above.

Question 40: Please provide the minimum wage tables required for this contract.

Answer 40: No minimum wage tables are required.

Question 41: The project Specification Package/Special Provisions state that: "The FY 2024-25 Edition of the Florida Department of Transportation Standard Specifications is revised as follows: ...". However, the definition of "Contract Documents" in the Polk County General Conditions appears to list items such as the Agreement, General Conditions, Special Conditions, Technical Specifications, Plans, Addenda, etc., but does not expressly list the "Florida Department of Transportation Standard Specifications for Road and Bridge Construction, FY 2024-25 Edition" as a separate Contract Document.

Please confirm the following:

1. Are the Florida Department of Transportation Standard Specifications for Road and Bridge Construction, FY 2024-2025 Edition, intended to be incorporated by reference into this Contract and treated as part of the Contract Documents?
2. If so, please confirm that the FDOT Standard Specifications apply to the Work except where specifically modified or deleted by the project Technical Specifications/Special Provisions or Polk County's General/Supplementary Conditions.

Answer 41: Yes, the FDOT Standard Specifications for Road and Bridge Cosntruction, FY 2024-25 Edition is being incorporated by reference into this contract and treated as part of the contract documents except for Division I. Yes, the FDOT Standard Specifications apply to the Work except where specifically modified or deleted by the project Technical Specifications/Special Provisions or Polk County's General/Supplementary Conditions.

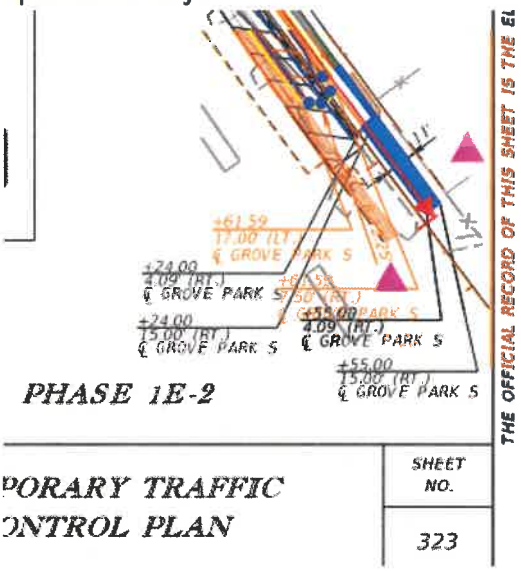
Question 42: Typical Section Sheet 2 Page 10 calls for BG 03 for Driveway A - There is no pay item for this base group. Please clarify?

Answer 42: Quantity for OBG-03 has been provided under the Summary of Permanent Driveways table, Plan Sheet 31.

ADDENDUM # 5
BID # 25-420, THOMPSON NURSERY ROAD EXTENSION PHASE 1 – SEGMENT 1

Question 43: Please clarify the station areas in the MOT where the County has concerns for SP 8-12 Damage Recovery?

Answer 43: See response to Question 19 above.



Question 44: SP 8.3 Calls for a DRB Board--Please add the appropriate pay items for partnering, meetings, & hearings?

Answer 44: Special Provision 8.3 - Polk County does not utilize the FDOT DRB process so no pay items are needed. For dispute resolution the Contractor and CEI will submit written documentation of the issue to Polk County who will have the final determination.

Question 45: Please confirm the lump sum items will be paid per FDOT Specifications?

Answer 45: Yes, the lump sum items will be paid per FDOT Specifications.

Question 46: There appears to be additional temp pavement installed on Grove Park around station 25+0 in Phase 1E-2 that should probably have been installed in Phase 1E. See attached & please clarify?

Answer 46: Temporary pavement is not required to maintain the existing traffic pattern along Grove Park.

Question 47: Please confirm railroad insurance and railroad flagging is not required for this project?

Answer 47: See response to Question 20 above.

ADDENDUM # 5
BID # 25-420, THOMPSON NURSERY ROAD EXTENSION PHASE 1 – SEGMENT 1

Question 48: Please confirm the last two residents on the east side of Grove Park and the last resident on the west side around station 25+0 do not get driveway improvements?
Answer 48: Construction along Grove Park starts at station 25+14. Driveways before the station 25+14 does not get driveway improvements.

Question 49: Will the County please provide the cadd files for the project?
Answer 49: See response to Question 9 above.

Question 50: Please confirm all buildings and wells have been removed & properly abandoned?
Answer 50: See response to Question 5 above.

Question 51: On the plans there appears to be some structures in the path of the roadway. Upon visiting the site it looks like some of these structures have already been demolished. Are there any remaining structures to be removed or have they all been demolished by others already?
Answer 51: See response to Question 5 above.

Question 52: Is there a Bid Bond required for this project and if so how much?
Answer 52: Yes. 5% of the bid price.

Question 53: Is this a Davis Bacon project?
Answer 53: No, this is not a Davis Bacon project.

Question 54: Will a gopher tortoise survey be required for this project?
Answer 54: The contractor should refer to the 2012 ERP for all relevant permit conditions and should follow the FWC Gopher Tortoise Permitting Guidelines. Should gopher tortoises or potentially occupied gopher tortoise burrows be observed within 25' of the project site prior to or during construction, construction will stop and the tortoises should be relocated in accordance with the FWC Gopher Tortoise Permitting Guidelines.

Question 55: Are the laydown yards identified in the documents available for free by the county or will there be a cost to rent them?
Answer 55: Yes, the laydown yards identified in the documents are available for free by the County and there will be no rental costs associated with their use. A license agreement will be needed prior to mobilizing to the properties.

Question 56: On the plan sheets several existing fences are identified for removal but the full extents of the fence removal are not shown and some continue off the page. Can you provide the limits or total length of fence to removed?

Answer 56: The removal of existing fence is the responsibility of the contractor and will be paid under pay items 550-10-210, 550-10-220 and 550-10-325.

Question 57: Is the temporary pavement being paid under the MOT item?
Answer 57: Yes, temporary pavement is being paid under MOT Lump Sum pay item

Question 58: Is there any specific detail for the temporary pavement?
Answer 58: Yes, specific detail for temporary pavement is shown on MOT sheets at critical locations.

Question 59: Are there any fuel adjustments?
Answer 59: No, only for asphalt and other materials that apply.

Question 60: On the permits, are there any ponds that can be overcut more than the limits?
Answer 60: Pond 3 is the only pond that can not be overcut (i.e. excavation must stop at the plan elevation) for all other ponds there is no limit on overcut.

Question 61: SUE relocation, will the contractor be paid for those items?
Answer 61: The contractor will be responsible for locating, protecting, and relocating, if necessary, any Polk County or FDOT utility. The contractor should include such costs in the bid."

Question 62: On the utilities, are there any houses that will need to be reconnected on the water main?
Answer 62: There is one service point detailed in the plans on sheet C-04. There are no residential services that require reconnection.

Question 63: Is there a flow chart for the canals?
Answer 63: There is not a recent flow chart available.

Question 64: VECP issue, is that something you submit before or after the bid?
Answer 64: This will be done after the bid has been awarded.

Question 65: What pay item do we include the subsoil and embankment? Pay Item 13 does not include subsoil.
Answer 65: Sheet 25 of the roadway set provides a subsoil excavation quantity for removal of the subsoil and respective pay item 120-4 for replacement of the removed subsoil.
Question 66: Do all the residents know that this project is coming through?
Answer 66: Yes, they have been notified.

ADDENDUM # 5
BID # 25-420, THOMPSON NURSERY ROAD EXTENSION PHASE 1 – SEGMENT 1

Question 67: Can the contractors access the canals today?
Answer 67: Yes.

Question 68: For the CL IV Retaining Walls, there are Modified Concrete Barrier/Junction Slab-Wall Coping on top of the wall. Where is this to be paid for?
Answer 68: We are adding a pay item: 521-8- 7 Concrete Barrier with Junction Slab, 36" Single Slope. It will have a quantity equal to the length of all the walls.

ADDENDUM # 6
BID # 25-420, THOMPSON NURSERY ROAD EXTENSION PHASE 1 – SEGMENT 1

Q1: Regarding Exhibit VI-B, Good Faith Effort documentation - are there W/MBE goals for this project? If GFE Exhibit VI-B is required to be provided by the successful contractor, which areas of work/divisions of work should be listed?

A1: No, this project is federally funded, and the documents are required from the successful contractor for reporting purposes.

Q2: Could the engineer please provide MOT plans where the temp pavement and overbuild do not cover the existing conditions to assist in determining the limits of overbuild bs widening?

A2: Per the plans, the MOT is to be bid as lump sum 1. It is the responsibility of the contractor to determine quantities and costs as needed.

Q3: Many of the MOT Phases depict pavement markings that were installed in the previous phases, creating duplication in quantities. Could the engineer please provide their MOT quantities for "comparison purposes only" to help clarify this lump sum bid item?

A3: Per the plans, the MOT is to be bid as lump sum 1. It is the responsibility of the contractor to determine quantities and costs as needed.

Q4: Many of the MOT Phases depict temp pavement that was installed in the previous phases, creating duplication in quantities. Could the engineer please provide their MOT quantities for "comparison purposes only" to help clarify this lump sum bid item?

A4: Per the plans, the MOT is to be bid as lump sum 1. It is the responsibility of the contractor to determine quantities and costs as needed.

Q5: Can the contractor work in multiple stages of the same phase at the same time to facilitate streamlining the construction process using the existing MOT plans provided?

A5: The contractor can simultaneously work on multiple stages within the same phase, provided the number of travel lanes is maintained, traffic flow is maintained and lane closure restrictions are followed as specified in the MOT plans.

Q6: PH 4 MOT Sheet 349 appears to be missing EB 10-30 skip as well as the transition striping into one lane at 91=60 +-/- Please clarify.

A6: EB 10-30 skip will be provided in the plans. Additional transition striping into one lane is not needed. Please refer to FDOT standard plans 102-613 and 102-620.

Q7: Supplemental Conditions Section 2.1 indicates the prime contractor or subcontractors must be FDOT prequalified in the listed work classes. Please confirm whether Polk County requires the prime bidder to submit with the bid a subcontractor list identifying the firms intended to perform any FDOT prequalified scopes not self-performed by the prime. If this is not required at bid time, **please confirm when it will be required (post-bid / pre-award) and what format Polk County will accept given the subcontractor and W/MBE exhibits appear to be omitted/partially removed?**

A7: No, the County does not required the prime to submit with the bid a subcontractor list identifying their FDOT pre-qualifications. However, the prime is required to provide said subcontractor list prior to award.

Q8: In MOT PH 4 was it intended to eliminate bike messages in the pavement markings on sheets 350-352? Please clarify if bike messages can wait till final striping configurations.

A8: Yes, bike messages can wait until final configuration.

Q9: 1) Are all utilities required to be designed and installed in full accordance with FDOT Standard Specifications, or 2) Does the project allow the use of Polk County standards and/or materials as specified in the project plans, details, or special provisions, even if they differ from FDOT standards?

A9: 1) The utilities are not proposed to be installed within FDOT ROW. Utilities installed outside of FDOT ROW are subject to be design and installed to Polk County Standards. 2) Utilities installed within FDOT ROW are to be installed with FDOT standard specifications, but materials are to be per Polk County or City of Eagle Lake Standards.

Q10: Please advise whether FDOT standards apply by reference only, or if they govern all utility materials unless specifically modified by the County?

A10: FDOT Standards are for reference for any work within FDOT ROW. Utility materials are to be per Polk County or City of Eagle Lake requirements.

Agenda Item G.3. 6/16/2026

SUBJECT

Request Board Approve Amendment 4 with Kimley-Horn and Associates, for Agreement 2022-041, professional engineering and design services for Thompson Nursery Road (TNR) - Phase II Roadway Widening project. ($3,453,821.68 one-time expense)

DESCRIPTION

The County entered into agreement 2022-041 with Kimley-Horn and Associates on June 7, 2022, to provide professional engineering services for the Thompson Nursery Road Widening and Extension project in the amount of $5,088,870.83. Services included design, permitting, right-of-way acquisition support, and bidding assistance for TNR Phase I - Segment 1, 3, & 4, PD&E (Alignment Study) for Phase I - Segment 2, and an option to include the design of PH I - Segment 2 and PD&E and design for Phase II via an amendment. The proposed four-lane urban collector roadway will extend from US 17 at SR 540 to US 27 at Thompson Nursery Road.

The limits of each segment and phase are listed below:

PH I - Segment 1: SR 540 at US 17 to CR 655 (Rifle Range Road) at Eloise Loop Rd

PH I - Segment 2: CR 655 (Rifle Range Road) at Eloise Loop Rd to East of CSX R/W

PH I - Segment 3: East of CSX Railroad R/W to Eloise Loop Road

PH I - Segment 4: Eloise Loop Road to W. Lake Ruby Drive at Thompson Nursey Rd

PH II: Thompson Nursery Road at West Lake Ruby Drive to US 27

On August 8, 2023, Amendment 1 in the amount of $1,092,555.64 was approved by the Board to allow Kimley-Horn and Associates to modify the scope to add the PD&E study for Phase 2 of the project. The study evaluated the new four-lane, divided roadway following the existing alignment of Thompson Nursery Road, along the center, left, and right. On May 20, 2025, the Board approved the recommended alignment which resulted in a combination of the three alternatives evaluated.

On May 28, 2024, the County entered into a Joint Project Agreement (JPA) with the City of Eagle Lake on the Thompson Nursery Road Extension Phase I - Segment 1 project for additional design and permitting to relocate the city utilities in conjunction with the County's Project. In accordance with the JPA, the City of Eagle Lake furnished the County an advanced deposit of $73,805.18 for the payment of the utility design.

On August 20, 2024, Amendment 2 was approved for additional design services to relocate the city utilities at a not-to-exceed cost of $73,805.18.

On July 15, 2025, the Board approved the recommended alignment for Thompson Nursery Road

Phase I - Segment 2. The PD&E study for this phase is now complete.

On January 20, 2026, Amendment 3 authorized Kimley-Horn to provide professional engineering design and permitting services, right-of-way acquisition support, and bidding assistance at a not-to-exceed cost of $4,119,689.30 for this phase of the project.

Amendment 4 authorizes Kimley-Horn to provide additional professional engineering design services resulting from the expanded scope of work associated with the approved recommended alternatives identified in the Preliminary Engineering Report for Phase II of the project. The amendment is for a not-to-exceed amount of $3,453,821.68 for this phase, bringing the total contract amount to a not-to-exceed cost of $13,828,742.63.

The term of this contract is through final completion of construction.

RECOMMENDATION

Request the Board approve Amendment 4 to Agreement 2022-041, with Kimley-Horn and Associates in the amount of $3,453,821.68, for the Thompson Nursery Road (TNR) - Phase II Roadway Widening project.

FISCAL IMPACT

Funding is available and budgeted within the Roads and Drainage 5 Year CIP.

PROFESSIONAL SERVICE AGREEMENT
#2022-041
AMENDMENT #4

This AMENDMENT #4 is made and entered into, effective as of the date last executed, by and between, Polk County (the "County"), a political subdivision of the State of Florida, situated at 330 W. Church Street, Bartow, Florida 33830, and Kimley-Horn and Associates, Inc. (the "Consultant"), a North Carolina corporation, located at 421 Fayetteville Street, Suite 600, Raleigh, North Carolina 27601, whose Federal Employer Identification number is 56-0885615.

WITNESSETH:

WHEREAS, the County and Consultant entered into Professional Service Agreement 2022-041 dated June 7, 2022 (the "Agreement"), for the purpose of providing professional services in connection with the construction of the Thompson Nursery Road Extension project in four segments with the option to add a fifth segment (Phase 2). Services include engineering design, environmental evaluations, permitting, construction plan development, right-of-way acquisition support, and bid documents/bidding assistance for the project; and

WHEREAS, Amendment 1 was approved by the Board on August 8, 2023, which authorized a scope modification to add Phase 2 to the project. Phase 2 includes a PD&E study for a new four-lane, divided roadway resulting in up to 3 conceptual alignments and completion of design, permitting right-of-way acquisition and bidding support for the chosen alignment; and

WHEREAS, on May 28, 2024, the County entered into a Joint Project Agreement with the City of Eagle Lake for the Thompson Nursery Road Extension project for the design, permitting the relocation of the city utilities in conjunction with the County's Project; and

WHEREAS, Amendment 2 was approved by the Board on August 20, 2024, which authorized the Consultant to provide design services for the water main relocations. The services included design, bidding assistance, construction phase services, and water main utility investigation services. As a result, an additional scope of services, compensation and time was needed; and

WHEREAS, Amendment 3 was approved by the Board on January 20, 2026, which authorized the Consultant to provide design services for Phase 1 - Segment 2. The services included engineering design, environmental evaluations, permitting, construction plan development, right-of-way acquisition support, and bidding assistance. As a result, an additional scope of services, compensation and time was needed; and

WHEREAS, the Consultant has performed the design services for Phase 1 – Segment 2. The County now wishes to authorize the Consultant to provide the design services for Phase 2. The services include engineering design, environmental evaluations, permitting, construction plan development, right-of-way acquisition support, and bidding assistance. As a result, an additional scope of services, compensation and time is needed ; and

WHEREAS, pursuant to Section 16.0 of the Agreement, the County and the Consultant mutually agree to amend the Agreement as set forth below.

NOW, THEREFORE, the County and the Consultant, hereby agree as follows:

1. The recitals stated above are true and correct and are fully incorporated herein.

2. The Agreement is hereby amended to modify Exhibit "A-iii" Scope of Services and Compensation of the Agreement to include the additional services needed, which are more fully set forth and described in Attachment "A" of this Amendment, attached hereto and fully incorporated herein.

3. The Agreement will remain in effect through the completion of construction, unless sooner terminated in accordance with its terms.

4. The cost of the additional design services, which is more fully set forth and described in Attachment "A" to this Amendment 4, shall be a not-to-exceed amount of $3,453,821.68. Accordingly, the total Agreement amount shall be increased from the current not-to-exceed amount of $10,374,920.95 to the new not-to-exceed amount of $13,828,742.63.

5. The Agreement, as amended by this Amendment 4, continues in full force and effect.

THE REMAINDER OF PAGE LEFT INTENTIONALLY BLANK

IN WITNESS WHEREOF, the parties hereto have executed this Amendment 4 as of the Effective Date.

SCOPE OF SERVICES
FOR
THOMPSON NURSERY ROAD EXTENSION – PHASE II
POLK COUNTY

I. DESCRIPTION

Kimley-Horn and Associates Inc. (CONSULTANT) will provide professional services to Polk County Roads and Drainage Division (COUNTY) to prepare Contract Documents for the construction of the Thompson Nursery Road Extension (PROJECT) from the terminus of Thompson Nursery Road Extension Segment 4 (the intersection of Thompson Nursery Road and W. Lake Ruby Dr.) to the US 27. The Total project length is approximately 2.9 miles. A Preliminary Engineering Report was prepared and submitted to Polk County in July 2025 and a recommended alternative was approved by the Board of County Commissioners.

II. OBJECTIVE

The objective of this document is to describe the scope of work and the responsibilities of the CONSULTANT and the COUNTY for the completion of necessary engineering design, environmental evaluations, permitting, construction plan development, right-of-way acquisition support, and bid documents/bidding assistance for the PROJECT. The following is the understanding and purpose of the PROJECT

- The limits of the PROJECT are from the intersection of Thompson Nursery Road (TNR) and W. Lake Ruby Dr and the intersection of Thompson Nursery Road and US 27.
- The existing two-lane Thompson Nursery Road will be widened to a 4-lane divided typical section. Based on the Preliminary Engineering Report, the widening of the road will take place to the north of the current alignment from W Lake Ruby to approximately 1,500 feet east of Lake Ashton Blvd, and then will transition to widening centered around the existing alignment of TNR for the remainder of the project.
- A Preliminary Engineering Report dated April 2025, performed by Kimley-Horn and Associates Inc. recommended a roadway alternative that was approved by the Polk County Board of County Commissioners.
- The PROJECT will include roadway, structures, drainage, signing and pavement markings, lighting, signalization, temporary traffic control, utility adjustment, public involvement, planning, cultural resources, and geotechnical services.
- The PROJECT will require coordination and/or permitting with the Southwest Florida Water Management District (SWFWMD), US Fish and Wildlife Services (USFWS), the US Army Corps of Engineers (USACE), City of Winter Haven, City of Lake Wales, and Polk County.
- The PROJECT will require wetland delineation, permitting, and mitigation for impacts to existing wetlands.
- The PROJECT will require the acquisition of private property for roadway right-of-way, drainage retention pond sites, floodplain compensation and wetland mitigation areas.

- The roadway typical section is a 4-lane divided typical section with a 22-foot median, 12-foot travel lanes, 4-foot bike lanes and 6 ft sidewalks.
- Design will include modifications to the following intersections: Rutledge Court (removal of eastbound right) Duck Down Lane (add eastbound left) Conservation Way (add right and left turns on eastbound and westbound approaches) Sergeant Mary Campbell Way (add eastbound left and remove westbound right) and US 27 (add dual eastbound lefts and northbound lefts, extend eastbound left, close median openings)
- Signalized intersections are provided at Lake Ashton Boulevard, Conservation Way and US 27.
- Structural scope includes a bridge crossing the Peace Creek and signal designs associated with the signalized intersections
- Drainage design includes Flood plain compensation sites, stormwater ponds, a closed drainage system and permitting
- Lighting is proposed for the intersections only, no corridor lighting is included, based on the findings of the Lighting Justification Report dated May 2025.
- Support during the construction phase of the PROJECT is not included in this scope of services. A separate contract will be executed during the construction phase of the PROJECT for Engineer of Record support during construction.
- All topographic, control and right of way survey will be provided by the COUNTY
- Project Survey Datum shall be NGVD 29. (COUNTY has provided this information in the NGVD 88 Datum. Conversion equations will be utilized)
- All right of way maps, legal descriptions and parcel sketches, and title searches for right of way acquisition will be provided by the COUNTY.
- The CONSULTANT will enlist the services of ECHO UES, Inc. as a subconsultant to perform the subsurface utility exploration and utility coordination.
- The CONSULTANT will enlist the services of Imperial Testing and Engineering Inc. as a subconsultant to perform geotechnical testing and engineering for the improvements.
- The CONSULTANT will enlist the services of Archeological Consultants Inc., PA as a subconsultant for cultural resource management on the PROJECT

III. TASK 1 – PHASE II DESIGN SERVICES

1. Survey (By COUNTY):

The COUNTY will provide the required design survey information necessary to support the CONSULTANT'S activities. These surveys shall include, but not be limited to, 3D topographic surveys of the roadway alignment and adjacent areas extending 10 feet beyond the existing and/or proposed right-of-way including all above ground and visible improvements. The survey shall also include stormwater ponds, wetland jurisdictional limits, environmentally sensitive areas, flood plain compensation areas, or other areas where information is needed to support design and permitting of the project. The CONSULTANT will coordinate with the COUNTY's Surveyor to assist with project specifications and requirements. The COUNTY will re-establish survey control for the contractor during construction if necessary.

2. Right of Way Maps (By COUNTY)

1. Right of Way Maps

The COUNTY shall be responsible for the preparation of preliminary and final Right-of-Way Maps for the full length of the project. Complete Right-of-Way Key Maps (1" = 400') and Detail Maps (1" = 40') shall be prepared in accordance with the Minimum Technical Standards as set forth by the Florida Board of Land Surveyors, pursuant to Section 472.027, Florida Statutes. Right-of-Way Detail Maps shall be line drawings (not on aerial photo base) prepared to COUNTY size and format. The COUNTY shall identify areas that require Title Searches. The COUNTY will provide the title searches.

The COUNTY will prepare Key Maps and Detail Maps for review for general conformance to the plans at the following stages of completion with data as specified.

75% Maps

- Project alignment with station ties and curve data.
- All existing rights of way and easements, including maintained rights of way.
- All pertinent land lines, which include section and quarter section lines, and quarter-quarter section lines where applicable, tied to the survey base line and identified as to section, township and range.
- All subdivision boundaries and blocks tied to the survey base line. All blocks, lots and streets within subdivisions that are affected by right-of-way acquisition and/or along the project corridor shall be shown.
- Subdivision names and limits with recording information.
- Cross road alignments.
- Copies of subdivision plats and copies of field survey notes showing alignment, land line ties and improvements (topography).
- Proposed right-of-way and easement lines and controlling base lines with dimensions.
- Property lines.
- Improvements (topography).
- Dimensions for takings and remainders.
- Completed tabulation sheet.
- Limits of construction.

100% Maps

Completed Right-of-Way Maps and Detail Maps and electronic files in AutoCad® format.

2. Legal Description

Legal land descriptions and parcel sketches shall be prepared by the COUNTY along with three copies of each legal description and sketch signed and sealed by the Registered Land Surveyor in responsible charge.

3. Geotechnical Exploration (Imperial Testing and Engineering)

- Review and utilize as appropriate previously collected geotechnical data.
- Review available published soils information.
- Perform site reconnaissance and limited soil boring fieldwork services for confirmation of previously collected data and/or additional soil boring fieldwork for the proposed improvements, as needed, if any changes to the project alignment or locations from previous design.
- For new roadway areas, perform 5-foot soil boring at 100 foot intervals, and measure observed groundwater elevations and estimate seasonal high groundwater level at each soil boring location. Alternate borings between eastbound and westbound lanes. Every 5th boring shall be 15ft deep.
- Obtain LBR / Resilient Modulus to be used for Flexible Pavement Design calculations. 6 LBR's are included in this scope.
- Obtain 5 pavement cores for the following side streets:
  - Traditions blvd: 1 core in asphalt section
  - Lake Ashton Blvd: 1 core in asphalt section
  - US 27 intersection: 3 Cores (1 @ North leg, 1)@ South Leg, and 1 @ east leg of intersection.
- For stormwater areas, where previously collected geotechnical data can be used, perform confirmation 15-foot soil boring at each stormwater area, and measure observed groundwater elevations and estimate seasonal high groundwater level at each soil boring location. Only 1 location of existing stormwater pond.
- For new stormwater areas, perform 15-foot soil boring for every ½-acre of new stormwater area (minimum 2 soil borings for each stormwater area), and measure observed groundwater elevations and estimate seasonal high groundwater level at each soil boring location. There are six new stormwater pond areas and four flood plain compensation areas (FPC)
- Perform muck probing at 100 foot intervals within wetland areas. Perform probes on both eastbound and west bound lanes.
- Perform Standard Penetration Test (SPT) boring for new signal structures – 10 total signal foundations
- Perform SPT borings for bridge crossings
  - Peace Creek Crossing – assume single span bridge

- Visually examine all recovered soil samples in the laboratory. Perform laboratory tests on selected representative samples to aid in classification and to determine selected soil properties. Classification of soils shall be based on the AASHTO Classification System for the roadway and ponds and the Unified Soil Classification System (USCS) for structures
- Prepare Geotechnical Engineering Report that includes: a general assessment of area geology based on experience, study of geological literature and boring information; and a summary of the reviewed data and results of the subsurface exploration, including the recommendations and data on which they are based to assist with roadway embankment and pond construction or foundation design of structures. This shall be presented in a written report under the supervision of a Professional Engineer.

4. Environmental Analysis and Permitting

1. Listed Species Survey

The CONSULTANT shall conduct a general wildlife survey, a species-specific survey for the Florida bonneted bat in accordance with the 2024 Florida Bonneted Bat Consultation Guidelines – Acoustic Survey Methods, and species-specific survey for the gopher tortoise in accordance with the 2023 Gopher Tortoise Permitting Guidelines.

2. Wetland Delineation and Environmental Site Characterization

The CONSULTANT shall be responsible for, but not limited to, the following activities:

- Collect data and information to determine the landward extent of wetlands and other surface waters as detailed in Rule Chapter 62-340, F.A.C., as ratified in Section 373.4211, F.S.; United States Army Corps of Engineers (USACE) Wetland Delineation Manual (Technical Report Y-87-1); Regional Supplement to the Corps of Engineers Wetland Delineation Manual: Atlantic and Gulf Coastal Plain Region (ERDC/EL TR-10-20).
- Set seasonal high-water levels in adjacent wetlands with biological indicators.
- Prepare aerial maps showing the jurisdictional boundaries of wetlands and other surface waters. Aerial maps shall be reproducible, of a scale of 1” = 400’ or more detailed and with recent aerial imagery. The maps shall show the jurisdictional boundaries of each agency. Photocopies of aerials are not acceptable. When necessary, a wetland specific survey will be prepared by a registered surveyor and mapper. All surveyed jurisdictional boundaries are to be tied to the project’s baseline of survey.
- Prepare a written assessment of the current condition and functional value of the wetlands and other surface waters using the Uniform Mitigation Assessment Method. Prepare data in tabular form which includes the ID

number for each wetland (and other surface water, if necessary) impacted, size of wetland to be impacted, type of impact, and identify any wetland (by ID number and size) within the project limits that will not be impacted by the project.

- Prepare and submit SWFWMD Environmental Resource Permit (ERP) application including Sections A, C, and E, an environmental narrative including the results of the species surveys listed above, and a drainage report. Prepare and submit wetland impact plans and a wetland mitigation plan.
- Prepare and submit USACE 404 Standard Permit including ENG 6249 Preliminary Jurisdictional Determination, ENG 4345 Application for Department of the Army Permit, dredge and fill sketches, and an environmental narrative including the results of the species surveys listed above.

3. State Environmental Resource Permit Application

CONSULTANT shall:

1. Schedule and attend one (1) pre-application meeting with the Southwest Florida Water Management District (SWFWMD).
2. Schedule and attend one (1) pre--application meeting with the U.S. Army Corps of Engineers (USACE) to discuss the project and verify the extent of permitting required.
3. Based upon the pre-application meetings, prepare and submit the following permit applications:
   a. SWFWMD Environmental Resource Permit
   b. USACE 404 Standard Permit
4. Submit for a jurisdictional determination as defined by the rules or regulations of each permitting agency processing a permit application for the project. The CONSULTANT will respond to three (3) RAI's per agency application.

5. Cultural Resources (ACI)

- The Consultant shall analyze the impacts to all cultural resources by reviewing the project scope and prepare a Cultural Resource Assessment Survey (CRAS) Report for Phase II which will include the recommended alternative (Alt 1) and preferred pond sites (5 preferred ponds). Background research will be conducted prior to going into the field to identify previously recorded resources and the potential for newly identified resources within the project Area of Potential Effects (APE).
- The archaeological survey will include a visual reconnaissance followed by subsurface testing with the appropriate number of test pits being excavated. If any archaeological sites are located, a Florida Master Site File (FMSF) form will be prepared. In addition, the Consultant will identify any historic resources within the project APE, both previously recorded and newly identified. A FMSF form shall be prepared for all newly identified and updated

previously recorded that have not been evaluated by the State Historic Preservation Officer (SHPO) or that have been substantially altered since they were recorded. Enough data shall be collected to document the significance of each in terms of eligibility for listing in the National Register of Historic Places (NRHP). The CRAS shall be prepared with appropriate documentation detailing the results of the survey and final assessments of resource significance. If any NRHP-eligible or NRHP-listed properties are identified within the APE, then additional documents may be required, such as a Section 106 Case Study, to document the proposed alignments and effects on the historic resource(s).

- All work shall be done in compliance with the National Historic Preservation Act of 1966 (Public Law 89-665, as amended) and the implementing regulations (36 CFR 800) as well as with the provisions contained in Chapters 267 and 373 Florida Statutes (FS) and will meet the specifications set forth in Chapter 1A-46, Florida Administrative Code (FAC). The CRAS will be prepared in accordance with Part 2, Chapter 8 ("Archaeological and Historical Resources") of the Florida Department of Transportation's Project Development and Environment (PD&E) Manual. All work shall be conducted by a professional who meets the Secretary of the Interior's Professional Qualification Standards (48 FR 44716) for archaeology, history, architecture, architectural history, or historic architecture. Concurrence with the findings of the report shall be obtained from Florida SHPO.

6. Drainage Analysis

The CONSULTANT shall analyze and document Drainage Tasks in accordance with all applicable manuals, guidelines, standards, handbooks, procedures, and current design memorandums.

The CONSULTANT shall be responsible for designing a drainage and stormwater management system. All design work shall comply with the requirements of the appropriate regulatory agencies and the FDOT Drainage Manual.

The CONSULTANT shall coordinate with the appropriate permitting agencies and the COUNTY staff. The work will include the engineering analyses for any or all of the following:

1. Base Clearance Analysis

Analyze, determine, and document high water elevations per basin which will be used to set roadway profile grade and roadway materials. Determine surface water elevations at cross drains, floodplains, outfalls and adjacent stormwater ponds. Determine groundwater elevations at intervals between the above-mentioned surface waters. Document findings in a Base Clearance Report.

2. Hydroplaning Analysis

Perform a hydroplaning analysis to assist in the determination of the appropriate roadway geometry for all necessary locations (both typical sections

and critical cross sections) as needed. See the FDOT Hydroplaning Guidance and FDOT Design Manual (FDM) Chapters 210 and 211 for more information.

3. Existing Permit Analysis

Data gathering including desktop analysis of local, state, and federal Drainage permits.

4. Utility Conflict Matrix (for drainage structures)

Populating and coordination of the utility conflict matrix for all drainage structures.

5. Noise Barrier Drainage Analysis

N/A

6. Temporary Drainage Analysis

Evaluate and address drainage to adequately drain the road and maintain existing offsite drainage during all construction phases. Provide documentation.

7. Pond Siting Analysis and Report

Stormwater management memo to validate ponds for proposed stormwater and floodplain compensation sites with information from Geotechnical Report and Polk County right-of-way information.

8. Analysis of Pipe Video Inspection Report

N/A

9. Bridge Hydraulic Report

Calculate hydrology, hydraulics, deck drainage, scour, and appropriate counter measures. Prepare report and the information for the Bridge Hydraulics Recommendation Sheet.

10. Design of Cross Drains

Analyze the hydraulic design and performance of cross drains. Check existing cross drains to determine if they are structurally sound and can be extended. Document the design as required. Determine and provide flood data as required.

11. Design of Ditches and Side Drains

Design roadway conveyance and outfall ditches. This task includes capacity calculations, longitudinal grade adjustments, flow changes, additional adjustments for ditch convergences, selection of suitable channel lining, design of side drain pipes, and documentation. (Design of linear stormwater management facilities in separate task.)

12. Design of Stormwater Management Facility

Offsite or Infield Pond: Design stormwater management facilities to meet

requirements for stormwater quality treatment, attenuation and aesthetics. Develop proposed pond layout (contributing drainage basin, shape, contours, slopes, volumes, tie-ins, aesthetics, etc.), perform routing, pollutant/nutrient loading calculations, recovery calculations, design the outlet control structure and buoyancy calculations for pond liners when necessary.

Roadside Treatment Swales and Linear Ponds: Design stormwater management facilities to meet requirements for stormwater quality treatment, attenuation and aesthetics. Develop proposed pond layout (contributing drainage basin, shape, contours, slopes, volumes, tie-ins, aesthetics, etc.), perform routing, pollutant/nutrient loading calculations, recovery calculations and design the outlet control structure.

13. Design of Floodplain Compensation

Determine floodplain encroachments, coordinate with regulatory agencies, and develop proposed compensation area layout (shape, contours, slopes, volumes, etc.). Document the design following the requirements of the regulatory agency.

14. Design of Storm Drains

Delineate contributing drainage areas, determine runoff, inlet locations, and spread. Calculate hydraulic losses (friction, utility conflict and, if necessary, minor losses). Determine design tailwater and, if necessary, outlet scour protection.

15. Optional Culvert Material

Determine acceptable options for pipe materials using the Culvert Service Life Estimator.

16. Design of Trench Drains

N/A

17. French Drain Systems

N/A

18. Design of French Drain Systems: N/A

19. Evaluation of Existing French Drain Systems: N/A

20. Design of Drainage Wells

N/A

21. Erosion Control Concept

Includes analysis and design of the Erosion Control Concept. Includes creating the design file.

22. Other Drainage Tasks

Includes all efforts for a drainage task not covered by an existing defined task.

23. Drainage Design Documentation Report

Compile drainage design documentation into report format. Include documentation for all the drainage design tasks and associated meetings and decisions, except for stand-alone reports, such as the Pond Siting Analysis Report and Bridge Hydraulics Report.

24. Drainage Quantities for EQ Report

N/A

25. Cost Estimate

Prepare cost estimates for the drainage components, except bridges and earthwork for stormwater management and flood compensation sites.

26. Technical or Modified Special Provisions

27. Quality Assurance/Quality Control

28. Supervision

29. Drainage Meetings

Meetings with DEPARTMENT staff, regulatory agencies, local governments such as meetings with District Drainage Engineer, the Water Management District, FDEP, etc.

30. Field Reviews

31. Coordination

7. Drainage Plans

The CONSULTANT shall prepare Drainage plan sheets, notes, and details. The plans shall include the following sheets necessary to convey the intent and scope of the project for the purposes of construction.

- Drainage Map
- Summary of Drainage Structures
- Optional Pipe/Culvert Material
- Drainage Structures Sheet(s) (Per Structure)
- Stormwater Management Detail Plan Sheet(s)
- Miscellaneous Drainage Detail Sheets
- Erosion Control Plan Sheet(s)
- Stormwater Pollution Prevention Plan (SWPPP) Sheet(s)

8. Design Traffic Analysis – N/A

9. Roadway Design Analysis

1. Typical Section

Typical sections will be designed for conformance with roadway configuration shown in the concept plans and current standards. This task assumes that the typical sections will remain as shown in the completed study. Modification of the typical section is not included in this scope of services and can be performed as an additional service if required. The following Typical Sections will be included in the plans:

- Thompson Nursery Road
- W. Lake Ruby Dr.
- Conservation Way
- US 27

2. Pavement Design

Pavement Design will be designed to accommodate traffic levels through the roadway facility's design life based on updated ESAL values and resilient modulus. Scope includes design for the following:

- Thompson Nursery Road (new design and milling and resurfacing)
- West Lake Ruby Dr (reconstruction)
- Conservation Way (reconstruction)
- US 27 (new design and milling and resurfacing)
- Chalet Suzanne Rd (milling and resurfacing)

3. Traffic Control Plans

Temporary Traffic Control (TTC) plans consisting of general notes, detailed plan sheets and references to the appropriate FDOT Standard Plans (Indices 102-600 through 102-670) will be designed for conformance with current standards. TTC plans will be developed to meet the requirements of the current FDOT Standard Plans indices.

4. Roadway Design Plans

- Cover Sheet will be created per current standards reference and engineer of record
- General Notes will be created with current COUNTY notes
- Drainage Map – The overall drainage map depicting pond locations and contributing basin areas will be developed based on the drainage analysis task.
- Roadway Plan / Profile Sheets – The plan/profile sheets will be created for horizontal and vertical design requirements, intersection configurations, and turnouts for intersecting streets/driveways. Roadside swale grading, proposed drainage structure and cross drain locations, and erosion control measures will be created based on drainage analysis task.
- Intersection Details / Plan Sheets – Intersection detail plan sheets will be designed for consistency with the horizontal and vertical alignment.
- Driveway Details - The driveway details sheets will be created to depict the limits of driveway and/or roadway reconstruction, grading information, and cross drain information for accommodation of existing residential and commercial driveway and/or local private roadway connections.
- Drainage Structure Sheets – Construction plan sheets providing a tabular listing of drainage structure ID's, FDOT Standard Plans Index references, pipe inverts, and pavement elevations will be created based on the drainage analysis task.
- Pond Detail Sheets and Cross Sections – Pond detail sheets and cross sections will be created to depict the construction of new retention facilities based on the drainage analysis task. The Pond Detail Sheets will include detailed grading information, geometric dimensions, undercut and backfill details, earthwork volume calculations, and design hydrologic data.
- Cross Sections – Roadway cross sections at 100-foot intervals will be created for consistency with the horizontal and vertical alignment. .
- Miscellaneous Detail sheets – For those details not contained in the FDOT Standard Plans for Road Construction, the ENGINEER will check specific details necessary for construction.
- Erosion Control / SWPPP Plans – Erosion control plans depicting site specific erosion control measures, as well as general notes, details, and specifications for additional erosion control measures that may be needed depending on site conditions will be reviewed for conformance with current standards. It is assumed that these plans will constitute the Storm Water Pollution Prevention Plan (SWPPP) that the contractor will utilize during construction. This task includes minor update to the erosion control plans to meet the requirements of the current FDOT Standard Plans indices and FDOT specifications.
- Utility Adjustment Plans – The Utility Adjustment Plans will be created based on information provided by the utility providers in the corridor, the

COUNTY survey, and Utility Coordination task for existing utility alignments and proposed utility adjustments. Landscape and Irrigation Plans – not included in this scope.

5. Submittals

The CONSULTANT will submit electronic copies of the roadway plans at 60%, 90%, 100% and Final Plans completion stage to the COUNTY. The ENGINEER will submit copies of the roadway plans at 60% and 90% to affected utility companies.

6. Quantities

The CONSULTANT will check quantities, update them based on the task descriptions and prepare an Opinion of Probable Construction Costs (OPC) document. An OPC with quantities will be submitted with the 60%, 90%, 100% and Final plans.

10. Signalization Design and Plans

Signalized Intersections:

- Lake Ashton Boulevard – Replacement of existing strain pole assembly and pedestrian signals with the installation of three (3) proposed mast arms to treat the three leg intersection. Pedestrian signals for crossing to be provided on all legs of the intersection
    - One (1) temporary modification to loading of existing strain pole assembly and/or proposed mast arms, detection, phasing and clearance intervals is anticipated to be needed to accommodate temporary traffic control plans

Conservation Way – Modification of the existing signalized intersection with the proposed roadway improvements. Modifications will include mast arms, signal heads, detection, preemption, and pedestrian signals.

- US-27 – Replacement of existing strain pole assemblies and pedestrian signals with the installation of four (4) proposed strain poles to treat the four leg intersection. Pedestrian signal for crossing to be provided on all legs of the intersection.
    - One (1) temporary modification to loading of existing strain pole assembly and/or proposed mast arms, detection, phasing and clearance intervals is anticipated to be needed to accommodate temporary traffic control plans

Miscellaneous Signalization Items:

- All signalized intersections will be designed as mast arms and include reflectorized backplates, vehicle detection, APS ready assemblies, overhead internally illuminated street name signs, calculation of clearance calculations

based on FDOT Traffic Engineering Manual (TEM) criteria, and emergency pre-emption calculations.

- Traffic signal interconnect plans will be included under this contract showing conduit only. The interconnect design will run along Thompson Nursery Road, the entire length of the segment.
- All plans shall be prepared in accordance with the latest design standards and practices as detailed in the Manual on Uniform Traffic Control Devices (MUTCD), FDOT Standard Specifications and Design Standards, FDOT Design Manual, FDOT Greenbook, and Americans with Disabilities Act Standards for Accessible Design.
- The signalization plans will be prepared on 11”x17” sheets at a scale of 1”=40’.
- Development of coordinated signal timings are not included as part of this scope of services.
- Signalization Plans will include the following:
  - Key Sheet
  - Tabulation of Quantities Sheet
  - General Notes Sheet
  - Signalization Plan Sheets
  - Intersection Corner Detail Sheets
  - Mast Arm Tabulation Sheet
  - Standard Mast Arm Assemblies Detail Sheet
  - Special Mast Arm Assemblies Detail Sheet
  - Strain Pole Schedule
  - Guidesign Worksheet
  - Interconnect Plan Sheets
  - Splice Details
  - Geotechnical Data Boring Sheets
- Review of signalization plans will be completed by Polk County (maintaining agency).

11. Signing and Pavement Markings

- The design of the signing and pavement markings shall be in accordance with the latest design standards and practices as detailed in the Manual on Uniform Traffic Control Devices (MUTCD), FDOT Standard Specifications and Design Standards, and FDOT Design Manual.
- The plans will be prepared on 11”x17” sheets at a scale of 1”=50’.
- Signing and pavement marking design to incorporate FDOT Roadway Design Bulletin 21-07 for wrong way driving countermeasures, update pavement markings for turn lane requirements per FDOT standard plans Index 711-001, special emphasis crosswalks, update pavement markings based on roadway surface (permanent tape or thermoplastic), incorporation of markings for recently installed driveway access points, and storing latest pavement markings and RPMs in geopak.

- Multipost design of advance signalized intersection signs in accordance with FDOT TEM. Design to include multipost calculation based on FDOT LRFD v1.1.1 and summarized in multipost calculation book.
- Signing and Pavement Marking Plans will include the following:
  - Key Sheet
  - Tabulation of Quantities Sheet
  - General Notes Sheet
  - Signing and Pavement Marking Plan Sheets
  - Guidesign Worksheet
  - Concrete Pavement Markings Detail Sheet
  - Cross Section Sheets
  - Special Sign Assembly Detail Sheet
- Review of plans will be completed by Polk County (maintaining agency).

12. Lighting Analysis and Plans

- Intersection lighting plans will be prepared for signalized intersections listed below. Light fixture, pole, and bracket arm types will be selected based on FDOT and COUNTY preferences. Load center and power service points will be coordinated with TECO Energy. Voltage drop calculations will be performed and photometric analyses will be documented in a Lighting Design Analysis Report.
  - Lake Ashton Boulevard: Lighting design plans will be prepared for the intersection of Thompson Nursery Road at Lake Ashton Boulevard to comply with New or Reconstruction Lighting criteria as outlined in the latest edition of the Florida Design Manual, Table 231.2.1.
  - Conservation Way: Intersection lighting is to be installed as part of a private development. If required, lighting design plans will be prepared to modify the existing lighting at the existing signalized intersection of Conservation Way and Thompson Nursery Road.
  - US 27: Lighting design plans will be prepared for the intersection of Thompson Nursery Road at US 27 to comply with New or Reconstruction Lighting criteria as outlined in the latest edition of the Florida Design Manual, Table 231.2.1

- A Lighting Design Analysis Report (LDAR) will be prepared to summarize the photometric analyses at the signalized intersections.. The analysis will include a printout showing horizontal photometrics at the intersections and vertical photometrics at crosswalks. Voltage drop calculations will be documented in the Appendices. Lighting design criteria, pole, fixture, and bracket arm types, and coordination with utilities/COUNTY staff will be documented in the report. The LDAR will be submitted under a separate cover from the Lighting Design Plans.

13. Structural Design and Plans

1. Mast Arm Design

CONSULTANT will prepare structural calculations in letter format for 10 mast arms. Calculations will be submitted at 90%, 100% and Final submittals. Design will be in accordance with the following:

- AASHTO LRFD Specifications for Structural Supports for Highway Signs, Luminaires, and Traffic Signals, 1st Edition, 2017 Interim Revisions
- FDOT Modifications to AASHTO LRFDLTS-01, January 2026
- FDOT Structures Manual (January 2026)
- FDOT FY 2026-27 Standard Plans
- FDOT Standard Specifications for Road and Bridge Construction (January 2026)

Consultant will prepare Structural Construction Plans utilizing 11”x 17” sheet format for Construction Plan sheets. Plans will be submitted at 90%, 100% and Final submittals.

2. Bridge Design – Peace Creek Crossing

Design will be in accordance with the following:

- AASHTO LRFD Bridge Design Specifications, 10th Edition, 2020
- FDOT Structures Manual (January 2026)
- FDOT FY 2026-27 Standard Plans
- FDOT Standard Specifications for Road and Bridge Construction (January 2026)

a) Kimley-Horn will provide a bridge development report to evaluate bridge alternatives for the crossing. Three bridge alternatives will be analyzed and a cost comparison will be provided. Analysis will include preliminary load calculation, verification of applicability of superstructure and substructure and general bridge layout (number of spans, vertical clearance) A report will be provided detailing the bridge alternative Kimley-Horn recommends for final design.

b) The COUNTY will review and provide direction on the final bridge alternative. For this scope, it is assumed that dual single span, prestressed concrete beam bridges founded on concrete piling will be the selected alternative. If a different alternative is chosen, the scope and fee will require revision.

c) Kimley-Horn will produce bridge structural calculations, including design load rating calculations (90% submittal only), utilizing letter size format. One PDF document will be submitted to the Client at 60%, 90%, and 100% submittals. One signed and sealed PDF document will be submitted to the CLIENT for their records at the Final submittal.

14. Subsurface Utility Exploration (SUE) (ECHO)

Designation includes two-dimensional collection of existing utilities and selected three-dimensional verification as needed for designation. Location includes non-destructive excavation to determine size, type, and location of existing utility, as necessary for final three-dimensional verification. Survey includes collection of data on points as needed for designates and locates. Includes analysis and processing of all field-collected data, and delivery of all appropriate electronic files.

The CONSULTANT shall perform SUE on all locations that include new underground infrastructure or earthwork excavation (i.e. drilled shafts, bridge piles, strain poles, mast arms, miscellaneous foundations, drainage structures, pipe culverts, new ditches, etc.). The expectation is for the CONSULTANT to know exactly where all existing underground utilities and infrastructure are located in areas that work will be performed to properly design for any new underground infrastructure or earthwork excavation that will be constructed on the project. CONSULTANT shall provide electronic depths with the designates.

A Professional Land Surveyor, registered in the State of Florida, shall sign, and seal the data provided and included in the FDOT Verified Utility Locate Plan Sheets. All information shall be provided in the format requested by the COUNTY**.**

15. Utility Coordination (ECHO)

The CONSULTANT is responsible to certify that all necessary arrangements for utility work on this project have been made and will not conflict with the physical construction schedule.

The CONSULTANT should coordinate with COUNTY personnel to coordinate transmittals to Utility Companies and meet production schedules.

The CONSULTANT will follow COUNTY standards, policies, procedures, practices, and design criteria are followed concerning utility coordination.

The CONSULTANT may employ more than one individual or utility engineering consultant to provide utility coordination and engineering design expertise. The CONSULTANT shall identify a dedicated person responsible for managing all utility coordination activities. This person shall be contractually referred to as the Utility Coordination Manager and shall be identified in the CONSULTANT proposal. The Utility Coordination Manager shall be required to satisfactorily demonstrate to the COUNTY personnel that they have the knowledge, skills, and expertise to perform this work.

The CONSULTANT's utility coordination work shall be performed and directed by the Utility Coordination Manager that was identified and approved by COUNTY's Project Manager. Any proposed change of the approved Utility Coordination Manager shall be subject to review and approval by COUNTY's Project Manager prior to any change being made in this contract.

Utilities anticipated on the project: *Charter Communications, Florida Public Utilities, Zayo Group (formerly Lightwave, LLC), Century Link, Comcast, Duke Energy, Frontier Communications, Lumen, City of Lake Wales Utility Department , Polk County Utilities Central Region, Tampa Electric Company, Summit Broadband, Uniti Fiber LLC, City of Winter Haven, Cogent Communications*

16. Public Involvement – N/A

17. Project Administration

Project administration activities will be undertaken throughout the design contract duration that will include the following:

- Project Setup: The CONSULTANT will establish base files and a work plan.
- Kick-off Meeting: The CONSULTANT will participate in a kick-off meeting with the COUNTY's project team.
- Monthly Progress Meetings: On a monthly basis, the CONSULTANT will meet with the COUNTY's project team to review the progress of work and to conduct project reviews and to coordinate with utility companies. Additionally, meetings will be held with affected utility companies. The CONSULTANT will maintain the design schedule and update the schedule following each progress meeting. For each progress meeting, the CONSULTANT will prepare an agenda, meeting minutes, and schedule update.
- Quality Control Plan: The CONSULTANT will provide a Quality Control Plan at the kickoff meeting.

18. Right of Way Acquisition Assistance

CONSULTANT will provide in-design and post-design (pre-construction) review for requests by the COUNTY (Real Estate Services) and prepare draft plan sheets and revisions to final plans to support the County's acquisition process.

19. Bid Document Assistance

This Task includes the scope of services necessary to assist the COUNTY with preparing the PROJECT for competitive bidding by construction contractors.

- The CONSULTANT will provide plans, bid quantities, technical specifications, special provisions for any modifications to the FDOT specifications, the geotechnical report used for design, and review construction bidding documents (including specifications for the subject work prepared by the COUNTY. The COUNTY will prepare bid documents, forms, and coordinate the bid solicitation.
- The CONSULTANT will attend and participate in the Pre-Bid conference. Minutes of meeting will be prepared by the COUNTY.
- The CONSULTANT will assist with bid addenda responses to questions and concerns that are submitted through the COUNTY's Procurement Office during the bidding process.

- Attend Bid Opening Meeting. Assist COUNTY in review of Contractors bids and documents as well as aid with the preparation of a bid recommendation. Minutes of meeting will be prepared by the COUNTY

20. Post Design Services

At the COUNTY'S option, the CONSULTANT may be requested to provide Post Design Services. The COUNTY will supplement the contract fees by change order to provide for Post Design Services not covered in the following section.

The COUNTY will provide full-time on-site inspection (CEI).

IV. PROVISIONS FOR WORK

1. Governing Regulations

The services performed by the CONSULTANT will follow applicable POLK COUNTY and FDOT Standards and Guidelines. The current edition, including updates, of the following References and Guidelines will be used in the performance of this work.

- Polk County Land Development Code
- FDOT Manual of Uniform Minimum Standards for Design, Construction, and Maintenance for Streets and Highways (Florida Greenbook)
- FDOT Florida Design Manual (FDM)
- AASHTO's "A Policy on Geometric Design of Highways and Streets"
- FDOT Standard Plans Index
- FDOT Standard Specifications for Road and Bridge Construction
- FDOT Traffic Engineering Manual
- Florida Manual on Uniform Traffic Studies (MUTS)
- Manual on Uniform Traffic Control Devices (MUTCD)
- FDOT Soils and Foundations Handbook

V. COMPENSATION

CONSULTANT will perform the services detailed above on a labor fee basis with the maximum labor fee of $3,453,821.68. This labor fee includes the following subconsultant fee's:

Imperial Testing: $194,487

ECHO: $382,434.56

ACI: $38,420.12

For a breakdown of individual activity fee's and staff hour estimates see attached Staff Hour Estimation sheet.

CONSULTANT will not exceed the total maximum labor fee shown without authorization from the COUNTY. However, Kimley-Horn reserves the right to reallocate amounts among tasks as necessary. All permitting, application, and similar Project fees will be paid directly by the COUNTY.

Notes: 1. Staff hours for prime consultant come directly from each discipline's worksheet.
2. Staff hours for subconsultants are to be entered manually into columns D through O.
3. For workbooks prepared by subconsultants, their project hours will be totaled in column C.

Field Survey Estimate:

0 4-person crew days

Notes:

1. This worksheet provides the distribution of a firm's total staff hours for a project.
2. Percentages for staff hour distribution by classification are entered below in rows 64 to 98 of this sheet.
3. Total Staff Hours (column O) may not match staff hours from Summary worksheet (column B) due to rounding. Staff hours calculated for employee classifications are to be adjusted so totals in columns B and O match.
4. Formulas under "Total Staff Hours Range" (columns O & P) may be adjusted to provide desired range.

Notes:

1. This worksheet provides the distribution of a firm's total staff hours for a project.
2. Percentages for staff hour distribution by classification are entered below in rows 63 to 96 of this sheet.
3. Total Staff Hours (column O) may not match staff hours from Summary worksheet (column B) due to rounding. Staff hours calculated for employee classifications are to be adjusted so totals in columns B and O match.
4. Formulas under "Total Staff Hours Range" (columns O & P) may be adjusted to provide desired range.

Notes:
1. This worksheet provides the distribution of a firm's total staff hours for a project.
2. Total Staff Hours (column O) may not match staff hours from Summary worksheet (column B) due to rounding. Staff hours calculated for employee classifications are to be adjusted so totals in columns B and O match.
3. Formulas under "Total Staff Hours Range" (columns O & P) may be adjusted to provide desired range.

Field Survey Estimate:
4-man crew days

Task No.	Task	Units	No of Units	Hours/ Unit	Total Hours	Comments
7.1	Utility Kickoff Meeting	LS	1	0	0	DO NOT manually input specific values on this row. This task is computed from the Technical Meetings below.
7.2	Identify Existing Utility Agency Owners (UAOs)	LS	18	1	18	# UAOs within the limits of this project through permit research, field verification, project as builts and Sunshine 811 Design Ticket.
7.3	Make Utility Contacts	LS	18	4	72	Send a statutory contact letter and distribute current phase plans to # of UAOs at 30, 60, 90 and 100% (1 hr per UAO contact @ 4 phases/contacts)
7.4	Exception Processing	LS	1	0	0	N/A
7.5	Preliminary Utility Meeting	LS	1	0	0	DO NOT manually input specific values on this row. This line will be automaticaly computed by the tabulation at the bottom of this tab.
7.6	Individual / Field Meetings	LS	1	14	14	DO NOT manually input specific values on this row. This line will be automaticaly computed by the tabulation at the bottom of this tab.
7.7	Collect and Review Plans and Data from UAO(s)	LS	18	2	36	Collect UAO marked plans, evaluate for content, accuracy, utility type, material, and size. Provide markups to the EOR for incorporation into the plans. Forward all requests for reimbursement and supporting documentation to the County. # UAOs x 1 hr per UAO at both 30% and 60% (1 hr each phase)
7.8	Subordination of Easements Coordination	LS	1	0	0	N/A - by the County ROW office
7.9	Utility Design Meeting	LS	1	12	12	DO NOT manually input specific values on this row. This line will be automaticaly computed by the tabulation at the bottom of this tab.
7.10	Review Utility Markups & Work Schedules, and Processing of Schedules & Agreements	LS	18	4	72	Collect and review RGBs and URS for completeness and correctness. Circulate RGBs and URS for review and comment by all discipline EORs. Circulate Final URS for signatures. (2.00 hrs per document, per phase) DRAFT RGBs and DRAFT URS 2.00 hrs x # UAOs at 90% phase FINAL RGBs and FINAL URS 2.00 hrs x # UAOs at 100% phase
7.11	Utility Coordination/Followup	LS	18	2	36	2 hours per UAO to follow up with delinquent UAO's. May include follow-up contact by correspondence or telephone, assisting UAOs with interpreting plans, and assisting with the completion of the utility relocation schedules or agreements to motivate and ensure UAO compliance to complete and return the required documents in accordance with the project schedule.

Project Activity 7. Utilities (ECHO)

7.12	Utility Constructability Review	LS	18	2	36	Review utility conflict matrix with the EORs for all disciplines. Constructibility review of RGBs with the EOR at 90% or 100% to ensure conflict resolution. Review utility work schedules against plans, determine if there is sufficient time for prior work before contract letting date, and assist the EOR in comparing TTCP phasing for construction compatibility. 1 hr per UAO x # UAOs for RGB conflict resolution 1 hr per UAO x # UAOs for URS construction compatibility
7.13	Additional Utility Services	LS	1	0	0	Optional Services (S/A)
7.14	Processing Utility Work by Highway Contractor (UWHC)	LS	1	0	0	Optional Services (S/A if UWHCA is requested by a UAO)
7.15	Contract Plans to UAO(s)	LS	1	8	8	Send Final S&S Plans to UAOs
7.16	Certification/Close-Out	LS	1	8	8	Quality assurance check for all utility files and supporting documentation, close out any open review assignments, preparation and submittal of the Utility Certification Letter
7.17	Other Utilities	LS	1	8	8	Assist the EOR with the review of Utility Permits submitted during design phases

Agenda Item G.4. 6/16/2026

SUBJECT

Request Board approve 1) Construction Manager at Risk (CMAR), Guaranteed Maximum Price (GMP) Addendum with Miller Construction Management, Inc. for the Caloosa Lake Fire Rescue Station 21 ($6,390,171.95 one-time expense) and 2) CIP amendment and budget transfer from the Emergency Medical Millage Fund in the amount of $1,693,204.00, to fully fund the project.

DESCRIPTION

On July 20, 2021, the Board authorized staff to negotiate CMAR agreements with Miller Construction Management, Inc. to provide pre-construction and construction services for a maximum of four fire rescue stations. The projects included building the fire stations using Polk County's current fire rescue station prototype.

On October 19, 2021, the Board approved the first of the four CMAR agreements for pre-construction services for the Nalcrest Fire Rescue Station. Those services are currently on hold until a water plant is constructed near the site.

On July 5, 2022, the Board approved the second CMAR agreement for pre-construction services for the Watkins Road Fire Rescue Station; and on February 3, 2023, the Board approved the Guaranteed Maximum Price (GMP) addendum to construction the fire station in the amount of $4,804,470.28. Construction of this station was completed in June of 2024.

On October 7, 2025, the County approved the final two CMAR agreements for pre-construction services for both Bradley Junction and Caloosa Lake Fire Rescue Stations.

Pre-construction services are now complete for the Caloosa Lake Fire Rescue Station and Miller Construction has provided the attached GMP to construct the station in the amount of $6,390,171.95. In accordance with Resolution 13-066, $250,000.00 is included in the GMP total for allowance work.

The total contract time is 365 calendar days. In accordance with Resolution 13-066, 54 calendar days have been added for allowance time.

The Caloosa Lake Fire Rescue Station CIP project budget totals $5,300,000.00. The other project required soft costs for design, connection fees, etc. are estimated at $603,032.00 leaving $4,696,968.00 available for construction. Therefore, a CIP amendment is needed in the amount of $1,693,204.00 to fund the construction contract.

RECOMMENDATION

Request Board approve CMAR 2025-066, GMP Addendum with Miller Construction Management,

Inc., for the Caloosa Lake Fire Rescue Station CIP project and CIP amendment and budget transfer from the Emergency Medical Millage Fund Reserve for Future Capital in the amount of $1,693,204.00 to fully fund the project.

FISCAL IMPACT

Request approval of CIP Budget Amendment and transfer from the Emergency Medical Millage Fund Reserve for Future Capital Expansion, funds will be available in the Emergency Medical Millage Fund within the Caloosa Lake Fire Rescue Station CIP project. During the FY 26/27 CIP budget process, the project will be adjusted to fully fund the total project cost.

JUSTIFICATION (Attached Current Fiscal Year CIP Detail Sheets)

APPROVALS

Division Director Approval:	
Policy 6.a: Budget/Procurement	**Policy 6.b: County Management/Designee**
Christa Johnson 5/28/26 (Date)	(Date)

6. **Amending the Adopted CIP** - Circumstances may arise during the fiscal year which makes it necessary to amend the Adopted CIP. Since many of the County's CIP projects span multiple years and funding sources, the Board considers certain variances of estimates to be reasonable and not require BoCC approval. The CIP may be amended as follows:

   a. The Budget and Procurement Director or designee may administratively approve changes to the funding source of a project, as long as the total project budget does not change.

   b. The County Manager or designee may approve project budget increases or decreases, which are less than 5% of the total project budget or $250,000 (whichever is less). Multiple amendments to the same project can be approved by the County Manager if the total is under 5% or $250,000.

GMP ADDENDUM to CONTRACT #2025-066
to
Agreement between Polk County and Construction Manager at Risk

Caloosa Lake Fire Rescue Station 21 – Project No. 24133.01

Pursuant to the CMAR Agreement 2025-066 (the "Agreement") dated October 7, 2025, between Polk County, a political subdivision of the State of Florida (the "County") and Miller Construction Management, LLC. (the "Construction Manager"), with respect to the Project, as identified and described in the Pre-Construction Addendum, the County and the Construction Manager hereby establish a Guaranteed Maximum Price (GMP), Contract Time for the Work and amend the Agreement as set forth below.

1. The Construction Manager's (GMP) for the Work as defined in Section 6.1.3 and the Construction Manager's Fee as defined in Section 6.1.2, for the Construction Phase Services is ($ 6,390,171.95) Six Million Three Hundred Ninety Thousand One Hundred Seventy-One Dollars and Ninety Five Cents.

2. This price is for the performance of the Work in accordance with the Schedules listed below and attached to this Addendum as follows:

Schedule 1 Construction Manager's Personnel.
Schedule 2 Contract Drawings & Specifications.
Schedule 3 GMP Bid Breakdown.
Schedule 4 Clarifications, Assumptions, Exclusions and Allowances.

3. Pursuant to Article 2, Section 2.5, the Project critical dates are as follow:

A.	Construction Phase Commencement Date	To be stated in the Notice to Proceed
B.	Project Substantial Completion Date	335 calendar days from Notice to Proceed
C.	Project Final Completion Date	30 calendar days after Substantial Completion
D.	The Allowance Time for This Project is	54 Days

4. In the event the Construction Manager does not achieve Substantial Completion within the Contract Time, including approved extensions, the Construction Manager shall pay the County, as liquidated damages and not as a penalty, the sum of $ 50.00 per day for each calendar day the actual time of performance exceeds the authorized Contract Time.

5. The Construction Manager shall not be due any additional Construction Phase Fee on increases in the GMP that do not exceed a cumulative total of $ 0.00. Should the GMP be increased by more than $ 0.00 under the terms of Article 7 hereinafter due to no fault of the Construction Manager, the Construction Manager's additional Construction Phase Fee will be 5% percent of that portion of the accumulative increases in the GMP that exceed the GMP by more than $ 0.00.

6. The Construction Manager's Fee for overhead, profit, and general expenses of any kind, except as may be expressly included in Article 9, for services provided during and related to the construction phase, shall be 5 % of the cost of work, as defined under section 6.1.3, and contingency. The Construction Manager's Fee shall be converted to a fix amount upon acceptance of the GMP, subject to changes as described herein, and shall be paid proportionally to the ratio of the work in place, including stored materials (see Article 8.1.3), as it bears on the latest estimate of the total construction cost and/or to the GMP, whichever is less.

7. Pursuant to Section 6.1.3.2.2, the cost of the premiums for all insurance and cost of premiums for all bonds, which the Construction Manager is required to procure by this Agreement specifically for the construction project. General Liability will be cost at a fixed rate of 1.51 % of the final Contract Amount and Construction Manager bonds will be cost at a fixed rate of 2.28 %. The premium stated will be substantiated with industry standard documentation. The cost of the work shall include any subcontractor bonds the Construction Manager deems appropriate. There shall be no Construction Manager Overhead and profit fee on this item.

IN WITNESS WHEREOF, the parties have caused this amendment to be executed by their duly authorized representatives, as of the effective date.

SCHEDULE 3 to the GMP ADDENDUM

Caloosa Lake Fire Rescue Station 21 - Project No. 24133.01

GMP Bid Breakdown

Miller Construction Management, Inc.

Caloosa Lake Fire Rescue Station 21 - (Project No. 24133.01)
Schedule 3 - GMP Cost Breakdown

GMP Submission - 3/18/2026

Bid Package	Description of Work	Price	Subcontractor	Notes
1B	Field Surveying Services	$ 17,600.00	On-Point Surveying, Inc.	Includes building & site layout with certified civil as-built drawings.
2	Sitework Construction	$ 784,328.90	Martin Paving	Includes burning of trees, shrubs, grubbing, and debris on site. ***(See add alternate below to haul and dispose, if burning is not allowed).***
2	Public Supply Well & PulsaTron Chlorinator System	$ 123,000.00	Dunham Well Drilling (Contingency)	Includes all related tanks, eye wash station, piping, and components. The well depth is based on average depths for this area researched from SWFWMD. Actual depth depends 100% on the underground formation. Additional LF beyond the 500 feet of well drilling included in this proposal will be addressed by change order.
	Prefabricated Well Shed Structure or Field Constructed CMU Block Enclosure With Chain Link Gates and Standing Seam Metal Roof Canopy Structure.	$ 35,000.00	Contingency	The enclosed shed is per the note on well site plan C301 included in the enumeration of documents for this project and the CMU block enclosure with chain link gates and standing seam metal roof canopy structure is based of the design used at the Masterpiece Road FRS. Design type and size to be determined. (Excludes design and engineering fees).
2A	Landscape and Irrigation	$ 95,174.00	Capital Maintenance & Landscape	Includes mulch and irrigation sleeves. (Excludes irrigation of sod).
2A	Bahia Sodding	$ 100,750.00	Contingency	Estimated 201,500 SF at .50 per SF.
2B	Dumpster Enclosure CL Fence and Gates	$ 6,380.00	South Florida Fence	Includes the vertical black vinyl privacy slats.
2B	Fire Tank and Well Pad CL Fence and Gates	$ 19,990.00	South Florida Fence (Contingency)	Includes the vertical white vinyl privacy slats, per keynote 14/FT100.
	Geogrid Fabric Weed Control and Stone Aggregate	$ 16,000.00	Martin Paving (Contingency)	Includes a geogrid fabric weed barrier and 4" of #57 stone aggregate inside the fire tank, well, and water treatment equipment fence enclosure based off layout on sheet FT100.
2C	Septic and Drain Field System	$ 27,900.00	Liberty Plumbing and Septic	Includes design and permit. ***(Based on 9 people per shift for 3 shifts or 675 gallons per day flow (27 people at 25 gallons per day per person).***
Division 2 Site Work		**$ 1,226,122.90**		
3	Building Concrete	$ 221,539.00	Level Line Concrete, Inc.	Includes termite soil treatment, concrete curing, and non-shrink grouting.
3	Site Concrete	$ 278,630.00	Level Line Concrete, Inc.	Excludes the radio tower foundation. Not specified.
3	Fire Tank and Well Concrete Pad Engineering	$ 5,000.00	Contingency	No dimensions or design provided.

3	Fire Tank and Well Concrete Pad	$ 39,222.00	Level Line Concrete (Contingency)	No size or design provided. Contingency includes 45' x 45' x 8" thick rebar reinforced concrete pad with 24" x 12" thickened slab edge and the 12' x 16' x 6" thick concrete well pad, per sheet FT100, received on 3/5/2026.
3	Building and Site Joint Fillers and Sealants	$ 19,741.00	Level Line Concrete, Inc.	
Division 3 Concrete		**$ 564,132.00**		
4	8" and 12" Building Masonry	$ 198,560.00	Ron Kendall Masonry, Inc.	The cast-in-place concrete beams are included in the concrete SOW.
Division 4 Masonry		**$ 198,560.00**		
5	Structural Steel	$ 33,430.00	E & S Steel Corporation	Includes steel columns, beams, beam embeds, and anchor bolts.
5	Mezzanine Ships Ladder and Railings	$ 8,000.00	E & S Steel Corporation	
5	Pipe Bollards & Overhead Door Sill Embeds	$ 9,570.00	E & S Steel Corporation	Installation is included in the concrete SOW.
Division 5 Metals		**$ 51,000.00**		
6	Pre-Engineered Wood Roof & Mezz. Trusses	$ 42,438.34	Builder's First Choice	LVL beams are included in rough carpentry materials.
6A	Millwork Cabinets & Counter Tops	$ 62,622.00	D&L Cabinetry	Includes the solid surface window sills & pass-thru window counter.
6A	Added 4th Shift Millwork	$ 4,700.00	D&L Cabinetry (Contingency)	Includes the added wardrobe cabinet in the (9 each) bunk rooms, (1 each) added kitchen panty cabinet, and reduction in kitchen cabinets to accommodate the added refrigerator.
	Stainless Steel Upper Cabinet	$ 14,700.00	Contingency	No specifications provided. Shown above the washer and dryer in corridor 112 on sheets A-101 and A-102A.
Division 6 Carpentry		**$ 124,460.34**		
7 and 9A	Thermal and Sound Insulation	$ 28,300.00	Center State Framing and Drywall	Incl. roof & wall batt insulation & rigid board exterior wall insulation.
7A	Berridge Standing Seam Metal Roof	$ 177,981.00	Central Florida Exteriors, Inc.	Includes the self-adhered underlayment.
7A	Metal Soffit Panels and Fascia Wrap	$ 10,060.00	Central Florida Exteriors, Inc.	
7A	Aluminum Gutters & Down Spouts	$ 6,720.00	Central Florida Exteriors, Inc.	
7A	Interior and Exterior Metal Ceiling Panels	$ 56,844.00	Central Florida Exteriors, Inc.	Included for the interior apparatus bay and mezzanine loading platform ceilings and exterior covered entry and screen porch ceilings.
Division 7 Moisture Protection		**$ 279,905.00**		
8	Exterior Impact Rated Level E Aluminum Storefront Entrances & Windows ***(The optional WINCO impact rated fixed aluminum windows were not considered).***	$ 64,700.00	Countryside Glass & Mirror, Inc.	Includes all exterior storefront entrances and windows, the (1 each) interior type C aluminum sliding pass-thru window, and (2 each) interior type B aluminum storefront windows as specified. YKK is included as an equal to Kawneer.
8	Exercise Room 4' x 8' Wall Mirror	Included	Countryside Glass & Mirror, Inc.	
8A	Doors, Frames, and Hardware - Materials	$ 93,588.20	Door and Hardware Openings, Inc.	Includes all door type G and N glass.
8A	Door and Hardware - Install Labor	$ 15,570.00	Shelmar Doors and Hardware	Door frames are installed by the mason and interior metal frame contractors.
8B	Overhead Doors	$ 158,250.00	Best Rolling Doors	
	Metal Access Panels	$ 3,000.00	Contingency	Includes app. bay ceiling attic access & all gyp. board MEP access panels.

Division 8 Doors and Windows		**$ 335,108.20**		
9	3/4" Three Coat Cement Stucco	$ 56,500.00	Florida Stucco Contractors	
9A	Wood Frame Carpentry - Labor	$ 76,601.00	K-Ron, Inc.	Includes load bearing walls, mezzanine, and roof structure.
9A	Wood Frame Carpentry - Materials	$ 80,930.00	K-Ron, Inc.	Includes LVL beams.
9A	Hardie Mezzanine Deck and Column Trim	Included	K-Ron, Inc.	Included in wood frame labor and materials costs above.
	Wood Frame and Trim Material Contingency	$ 10,000.00	Contingency	Contingency included for possible cost increases and/or scope gaps between the wood frame and metal frame contractors.
9A	Metal Framing, Drywall, & Tile Backer Board	$ 121,650.00	Center State Framing and Drywall	Includes the AC plywood at designated interior walls.
9B	Interior and Exterior Painting	$ 33,000.00	Ryan's Custom Coatings	Includes the apparatus bay traffic lane floor striping.
9C	Suspended Acoustical Ceilings	$ 20,940.00	Acoustical Services, Inc.	Includes R-19 above bunk room ACT ceilings.
9D	Floor Tile, Wall Tile, Tile Base, & Vinyl Base	$ 35,347.25	Nance's Flooring	See requested add alternates for STONHARD epoxy floor system in lieu of ceramic floor tile in toilet/shower rooms. Tile base to remain.
9D	Exercise Room Rubber Sports Floor	$ 5,454.00	Nance's Flooring	
9E	Polished and Stained Concrete Floors	$ 33,621.20	Creative Concrete Services	See requested add alternate for STONHARD epoxy floor system with integral base in lieu of polished concrete with vinyl cove base.
	Polished Concrete Floor and Floor Maintenance Protection Contingency	$ 10,000.00	Contingency	To maintain floor protection and to cover any additional costs related to getting the polished concrete floors acceptable to the Owner.
9E	Clean, Grind, and Seal Apparatus Bay Floor	$ 9,775.00	C & C Painting & Waterproofing	
9E	STONHARD Epoxy Floor System with Integral Base	$ 11,700.00	STONHARD	Included for the mechanical mezzanine 7 mezzanine loading platform, per sheet A-101.
9E	Floor Protection	$ 5,000.00	Creative Concrete Services (Contingency)	Contingency includes material and installation. (To be installed after polishing is complete & prior to wall construction).
Division 9 Finishes		**$ 510,518.45**		
10	Toilet Accessories	$ 4,668.00	Rolling Oak Supply, Inc.	
10	Fire Extinguishers & FEC Cabinets	$ 1,989.00	Rolling Oak Supply, Inc.	
10	Interior and Exterior Signs	$ 17,228.65	Gulf State Signs	Incl. room signs, building letters, address numbers, and logo signs.
10	Flag Pole Materials	$ 6,054.06	Gulf State Signs	Includes engineering.
	Bike Rack	$ 1,400.00	Contingency	No bids received.
	Corner Guards (No specifications provided).	$ 4,350.00	Contingency	Includes (33 each) 2" x 2" x 48" high impact resistant black vinyl corner guards with top and bottom end caps for all gypsum outside corners and exterior gypsum door returns only, per sheet A-102A.
	Knox Box	$ 1,500.00	Contingency	No specifications provided. To be determine by the Fire Marshal.
Division 10 Specialties		**$ 37,189.71**		
11	Bunker Gear Lockers	$ 12,471.02	Laundry Owners Warehouse	Includes 31 each lockers.
11	Added 4th Shift Bunker Gear Lockers	$ 2,000.13	Laundry Owners Warehouse	Contingency included for (5 each) additional bunker gear lockers.
11	Hallowell Open Metal Shelving	$ 6,150.00	D&L Cabinetry	Includes 10 each shelving units.

	Unload, Assemble, and Install the Designated Owner Provided Furnishings, Furniture, and Equipment	$ 5,000.00	Contingency	Included for installation of Owner provided gym equipment and wall mount TV brackets and component shelves in the (9 each) bunk rooms, day room 107, dining room 109, exercise room 110, training room 101, and office 103 only (Total 14 each), per sheet A-102A and specification section 113100.
11	Residential Kitchen Appliances	$ 14,450.31	Milcarsky's Appliance Centre'	Includes installation.
11	Added 4th Shift Residential Refrigerator	$ 1,974.93	Milcarsky's Appliance Centre'	Contingency included for (1 each) additional refrigerator.
11	Ice Machine	$ 8,126.65	Milcarsky's Appliance Centre'	Includes ice bin, remote condenser, & minimum 2-stage filter system.
11	Range Hood with Fire Suppression System	$ 19,500.00	Payne Air Conditioning & Heating	Includes certification by independent fire suppression contractor.
11	Full Height Stainless Steel Range Backsplash	$ 1,500.00	Payne Air Conditioning & Heating	36" wide x 72" tall.
11	Commercial Laundry Equipment	$ 33,196.74	Laundry Owners Warehouse	(2 each) washer extractors, fire soap dispenser, & gear drying rack.
	Residential Side x Side Washer and Dryer	$ 2,500.00	Contingency	No specifications provided. Includes accessories and installation.
Division 11 Equipment		**$ 106,869.78**		
12	Rolling Window Shades	$ 7,279.21	AAA Blinds of Lakeland	
Division 12 Furnishings		**$ 7,279.21**		
13	Patio Screen Enclosure	$ 1,580.00	Robinson Aluminum Construction	
Division 13 Special Construction		**$ 1,580.00**		
15	Fire Sprinkler Protection	$ 82,750.00	Dover Fire and Fab, Inc.	From 1'-0" AFF at riser. Including fully sprinkled attic.
15	Electric Fire Pump and Controller	$ 55,000.00	Dover Fire and Fab, Inc.	Includes all related piping, pipe stands, valves, and signage.
15	Fire Tanks and Related Tank to Tank Piping	$ 175,000.00	Contingency	Includes the (1) 65,000-gallon tank as specified.
15A	Plumbing	$ 203,500.00	All Pro Plumbing Services, Inc.	Includes air compressor, compressed air, & condensate system piping.
15B	HVAC	$ 406,200.00	Payne Air Conditioning & Heating	
Division 15 Mechanical		**$ 922,450.00**		
16	Electric and Technology Systems	$ 511,707.21	AVE-CO Electric	
16	*Site Electric and Lighting*	Included	AVE-CO Electric	
16	*Fire Alarm System*	$ 24,748.00	AVE-CO Electric	
16	*Paging & Intercom Systems*	$ 11,931.65	AVE-CO Electric	
16	*Access Control System*	$ 33,783.91	AVE-CO Electric	
16	*Communication and Data Systems*	$ 37,329.65	AVE-CO Electric	
16	*UL Master Lightning Protection*	$ 23,900.00	AVE-CO Electric	
16	*CATV System*	$ 12,879.10	AVE-CO Electric	
16	*Emergency Generator and ATS*	$ 169,033.04	AVE-CO Electric	Includes the CAT Emergency Generator as directed.
	Emergency Generator Fuel and DEFS	$ 10,000.00	Contingency	
Division 16 Electrical		**$ 835,312.56**		

Divisions 2 Through 16	Cost of Work Subtotal:	**$ 5,200,488.15**		
Division 1	General Conditions / Requirements Subtotal	**$ 415,924.89**		See attached itemized schedule 3 general conditions/staffing estimate.
	Total Cost of Work	**$ 5,616,413.04**		
	Owner Allowance	$ 250,000.00		Included per CM Agreement.
	General Liability Insurance	$ 84,920.17		1.51%
	Performance & Payment Bonds	$ 128,018.09		2.28%
	Subcontractor Performance & Payment Bonds	$ 30,000.00	Contingency	For subcontracts over $ 350,000.00.
	Fee (5% - none on bond, GL, and allowance)	$ 280,820.65		5% of the cost of work, general conditions, and general requirements only.
	GMP Total:	**$ 6,390,171.95**		

Miller Construction Management, Inc.

Caloosa Lake Fire Rescue Station 21 - (Project No. 24133.01) **GMP Submission - 3/18/2026**

Schedule 3 - General Conditions and Staffing Estimate

Description	QTY	Unit	Unit / Price	Total
Blueprint Copies & Reproductions Fees	1	LS	$ 1,000.00	$ 1,000.00
As-Built Record Drawings	1	LS	$ 1,500.00	$ 1,500.00
Postage Fees	1	LS	$ 150.00	$ 150.00
Bid Package 1 - Professional (1 Time) Rough Pre-Clean and (1 Time) Final Clean	1	LS	$ 6,415.00	$ 6,415.00
Contingency for Pressure Washing Concrete Paving, Sidewalks, Patios, and Equipment Pads	1	Contingency	$ 3,000.00	$ 3,000.00
Daily Progress Clean	12	Months	$ 2,000.00	$ 24,000.00
Dumpsters/Trash Hauling	35	Pulls	$ 650.00	$ 22,750.00
Management & Supervision Phones/Hot Spot	12	Months	$ 500.00	$ 6,000.00
Management & Supervision Fuel/Vehicle	52	Weeks	$ 425.00	$ 22,100.00
Punch List Labor & Material	1	LS	$ 4,250.00	$ 4,250.00
Temporary Toilets & Office Holding Tank	12	Months	$ 625.00	$ 7,500.00
Temporary Office & Construction Electric	12	Months	$ 735.00	$ 8,820.00
Temporary Office & Construction Water	12	Months	$ 500.00	$ 6,000.00
Permanent Power				By Owner
Field Office Delivery, Set-Up & Return Fees	1	LS	$ 2,400.00	$ 2,400.00
Field Office Monthly Rent	12	Months	$ 900.00	$ 10,800.00
Field Office Furnishings & Equipment	1	LS	$ 1,100.00	$ 1,100.00
Field Office Supplies	1	LS	$ 500.00	$ 500.00
Drinking Water	1	LS	$ 600.00	$ 600.00
Temporary Protection	1	LS	$ 2,500.00	$ 2,500.00
Bid Package 2B - Temporary Fencing	1	Contingency	$ 11,026.25	$ 11,026.25
Equipment Rental	12	Months	$ 2,000.00	$ 24,000.00
First Aid Supplies	1	LS	$ 500.00	$ 500.00
Safety Equip., Signs, Hand Tools & Consumables	1	LS	$ 10,000.00	$ 10,000.00
Project Sign	1	LS	$ 1,500.00	$ 1,500.00
Construction Personnel				
Principal (2 hrs. per week)	104	Hours	$ 139.16	$ 14,472.64
Superintendent (45 hrs. per week)	2,340	Hours	$ 62.00	$ 145,080.00
Project Manager (15 hrs. per week)	780	Hours	$ 67.45	$ 52,611.00
Project Coordinator (5 hrs. per week)	260	Hours	$ 35.50	$ 9,230.00
Accountant (5 hrs. per week)	260	Hours	$ 62.00	$ 16,120.00
Total				**$ 415,924.89**

SCHEDULE 4 to the GMP ADDENDUM

Caloosa Lake Fire Rescue Station 21 - Project No. 24133.01

Clarifications, Assumptions, Exclusions, and Allowances

Miller Construction Management, Inc.

Caloosa Lake Fire Rescue Station 21 - (Project No. 24133.01)

Schedule 4 - Clarifications, Assumptions, Exclusions, and Allowances

A) Clarifications and Assumptions:

1) Notice to Proceed is assumed to be the latest date of Execution of GMP, Issuance of Building Permits, and issuance of all other required permits.
2) In order to maintain the proposed schedule, this GMP assumes that the Design Team will be available to meet on critical submittals for materials with long lead times. The standard two week duration for review of these critical submittals is specifically excluded.
3) This GMP includes R-30 FSK faced fiberglass batt attic insulation attached to the underside of the roof deck per specification section 072100, not the R-38 insulation per drawing note 706 on sheet A-301.
4) This GMP includes 75' air hose reels per specification section 221513, not 50' air hose reels per drawing note 1501 on sheet A-301.
5) This GMP includes the STONHARD epoxy floor system with integral base at mechanical mezzanine and mezzanine loading platform, per sheets A-101 and A-602, not the epoxy painted floor shown on building section 1/A-301.
6) This GMP includes the 4.5" recessed slab for the entire floor and shower area in toilet rooms 121, 122, and 123, per sheets S-201 and A-103, not just for the showers per sheet A-102.
7) This GMP includes the 2.5" recessed slab for the decon shower floor only, per sheets S-201, A-101, and A-103, not the 4" recess as shown on sheets A-102 and A-102B.
8) This GMP includes a level 4 smooth finish on all gypsum ceilings and a level 4 finish with orange peel texture on all gypsum walls and soffits.
9) This GMP includes the PLC-4 precast u-lintels over all overhead door openings, per structural sheets S-202, S-302, and S-401, and excludes the cast-in-place concrete beams over the overhead door openings as indicated on wall section 2/A-311.
10) This GMP includes the CL-2 cast-in-place concrete beams at covered entry and screen patio openings, per structural sheets S-202, S-302, and S-402, and excludes the precast u-lintels as indicated on wall section 5/A-311.
11) The 6" x 16" AP10 Sail color "White" field wall tile by Daltile is no longer available in the Annapolis Collection. We propose and included using the next available 6" x 18"Annopolis Remix for the field wall tile. (Subject to approval).
12) The 6" x 6" AP10 Sail color "White" bullnose wall tile trim by Daltile is no longer available in the Annapolis Collection. We propose and included using a 6" x 6" cut tile to match the proposed Annopolis Remix wall tile with a Schluter metal edge trim. (Subject to approval).
13) This GMP includes the (31 each) Bunker Gear Racks per equipment specification section 113100, not (30 each) as shown on sheets A-102A and A-102B.

B) Excluded from this GMP and/or to be paid for directly by Owner is the following:

1) Architectural, Structural, MEPFP, Civil, and Landscape Design, Engineering, and Construction Administration Fees.
2) Permit and Plan Review Fees.
3) County or City Impact Fees.
4) Primary Overhead or Underground Electric Service Conduit and Conductors, and Transformers. (This proposal includes the concrete transformer pad and secondary underground conduit and feeders only).
5) Electric Utility Provider Fees.
6) Removal and Relocation of Existing Utility Poles, Light Poles, Guy Wires, Electric Boxes, Overhead Utilities and Underground Utilities.
7) Sewer, Fire, Water and Irrigation Meters, Meter fees, Impact Fees, Tap Fees and Connection Fees.

8) Builder's Risk Insurance. (To be provided and paid for directly by Owner).
9) Insurance Claim Deductibles.
10) Pollution Liability Insurance.
11) Third Party Materials Testing, Quality Control Testing, Floor Flatness and Levelness Testing, and Window Leak Testing. ***(To be provided and paid for directly by Owner, per specification sections 014000 and 014100).***
12) Threshold Inspections.
13) Special Tests and Inspections.
14) Foundation, Improvement, & ALTA Surveys.
15) Removal and Replacement of Unsuitable Materials and Unforeseen Buried Debris and Structures.
16) Hauling and Disposing of Trees, Shrubs, Grubbing, and Debris From Site. ***(This proposal includes burning on site only)***.
17) Wall or Fencing and Gates Around Retention Ponds.
18) Wall or Fencing and Gates Around Emergency Generator and HVAC Equipment Pad.
19) Wall or Fencing and Gates Around Septic Lift Station and Drain field. ***(None considered or specified).***
20) WINCO Impact Rated Level E Fixed Windows for Exterior Openings Type A and E. ***(This proposal includes Kawneer IR501, 2.5" x 5" impact rated level E aluminum storefront window frames with 1 5/16" grey impact glazing).***
21) 100% Sod Irrigation (Irrigation is included for the sod around the building only, per sheet IR100).
22) Bunk Room Bed Frames, Head Boards, Foot Boards, and Mattresses.
23) Bunk Room Night Stands and Desk Chairs.
24) Dining and Day Room Tables, Chairs, Sofas, and Decorations.
25) Kitchen Island Bar Stools.
26) Training Room Tables, Chairs, Podium's, Etc.
27) Training Room Closet Shelving.
28) Gym and/or Exercise Equipment (GC to unload, assemble and install only).
29) Office Furniture, Furnishings, and Equipment.
30) Marker Boards and Tackboards.
31) Remote Desk and Chair in Report Room 102.
32) Storage Cabinet in Toilet Room 104 (By Owner, per floor plan 1/A401).
33) Apparatus Bay Flammable Cabinets (By Owner, per sheets A-102A and A-102B).
34) Apparatus Bay SCBA Compressor (By Owner, per sheets A-101, A-102A, and A-102B).
35) Apparatus Bay Storage Racks and Cabinets (By Owner, per sheet A-102B).
36) Apparatus Bay Work Bench (By Owner, per sheet A-102B).
37) Televisions and Television Components.
38) Television Wall Mount Brackets and Component Shelves. (GC to install the Owner furnished wall mount TV brackets and component shelves in the (9 each) bunk rooms, day room 107, dining room 109, exercise room 110, training room 101, and office 103 only (Total 14 each), per sheet A-102A and specification section 113100.
39) Window Shades at Lobby 100 Exterior Type A Window and Door Sidelight and Dining Room 109 Exterior Type E Window. (Not required, per sheet A-102A).
40) Type Mark 1 Wall Mounted Soap Dispensers at Toilet Room 104 Lavatory, Per Plan Sections 1 and 4/A-401. (No specifications. To be furnished and installed by Owner, if required).
41) Soap Dispensers at Toilet Rooms 121, 122, and 123. (None shown on drawings).
42) Tag C - American Olean BA780 Solid Surface Soap Shelves, Per Specification Section 108000. (Locations or quantities not shown on drawings anywhere).
43) Tag D - Bobrick B-3647 Shower Curtain Rods with Curtains and Hooks, Per Specification Section 108000 for Showers in Toilet Rooms 121, 122, and 123. (This proposal includes one curtain rood with curtain and hooks for the decon room shower only).
44) Tag F - Bradley 934 Towel Rings, Per Specification Section 108000. (Locations or quantities not shown on drawings anywhere).
45) Tag H - Bobrick B-2936-2436 Mirrors, Per Specification Section 108000. (Locations or quantities not shown on drawings anywhere. This proposal included the (4 each) Tag I - Bobrick B-290-3636 Mirrors over the toilet room vanities only).
46) Door Lock Keying (By Owner. Locks are priced with standard cylinders only).

47) Building Plaque (To be provided by Owner, per elevation 5/A-402).
48) Flags of Any Kind.
49) Air Bottles.
50) Pipe Bollard Covers (GC to paint traffic yellow as specified).
51) Unloading, Storage and Installation of Owner Supplied Equipment.
52) Natural or Propane Gas Service, Meters, Tanks and Piping of Any Kind.
53) Washdown Water Service and Hose Bibb at Lift Station.
54) First Responder Radio Frequency Testing and Enhancement Equipment.
55) Radio Communication Systems Tower, Tower Foundation, Wiring, Devices, and Equipment of Any Kind.
56) Lightning Protection for Site Lighting and Emergency Generator.
57) Radon Mitigation Systems.
58) Moisture Mitigation.
59) Wireless Access Points.
60) Aerial Photographs or Any Professional Construction Photography.
61) Permanent Power Usage Fees. (All electric usage fees are to be paid for directly by Owner once the electric meter is permanently installed on building).
62) Communication, Data, and TV Service Cable to Building. (This proposal includes the service entrance conduits with pull strings only).
63) Any Items or Scope of Work Not Specifically Included in the GMP Proposal.
64) Any Work and Associated Costs Related to Plan Changes After the Date of the Bid Documents Listed on Schedule 2 Included in the GMP Addendum.
65) Gopher Tortoise and Sand Skink Permits, Mitigation, Protection, Removal, and/or Relocation Services. (Engineer of record has approval to proceed with construction without any further services).
66) Final Site Fire Line, Fire Pump, FDC, and Dry Hydrant Design and Engineering Fees as Required for Permit.
66) Design and Engineering Fees for the Well, Pressure Tank, and Water Treatment Equipment Enclosure or Roof Structure.

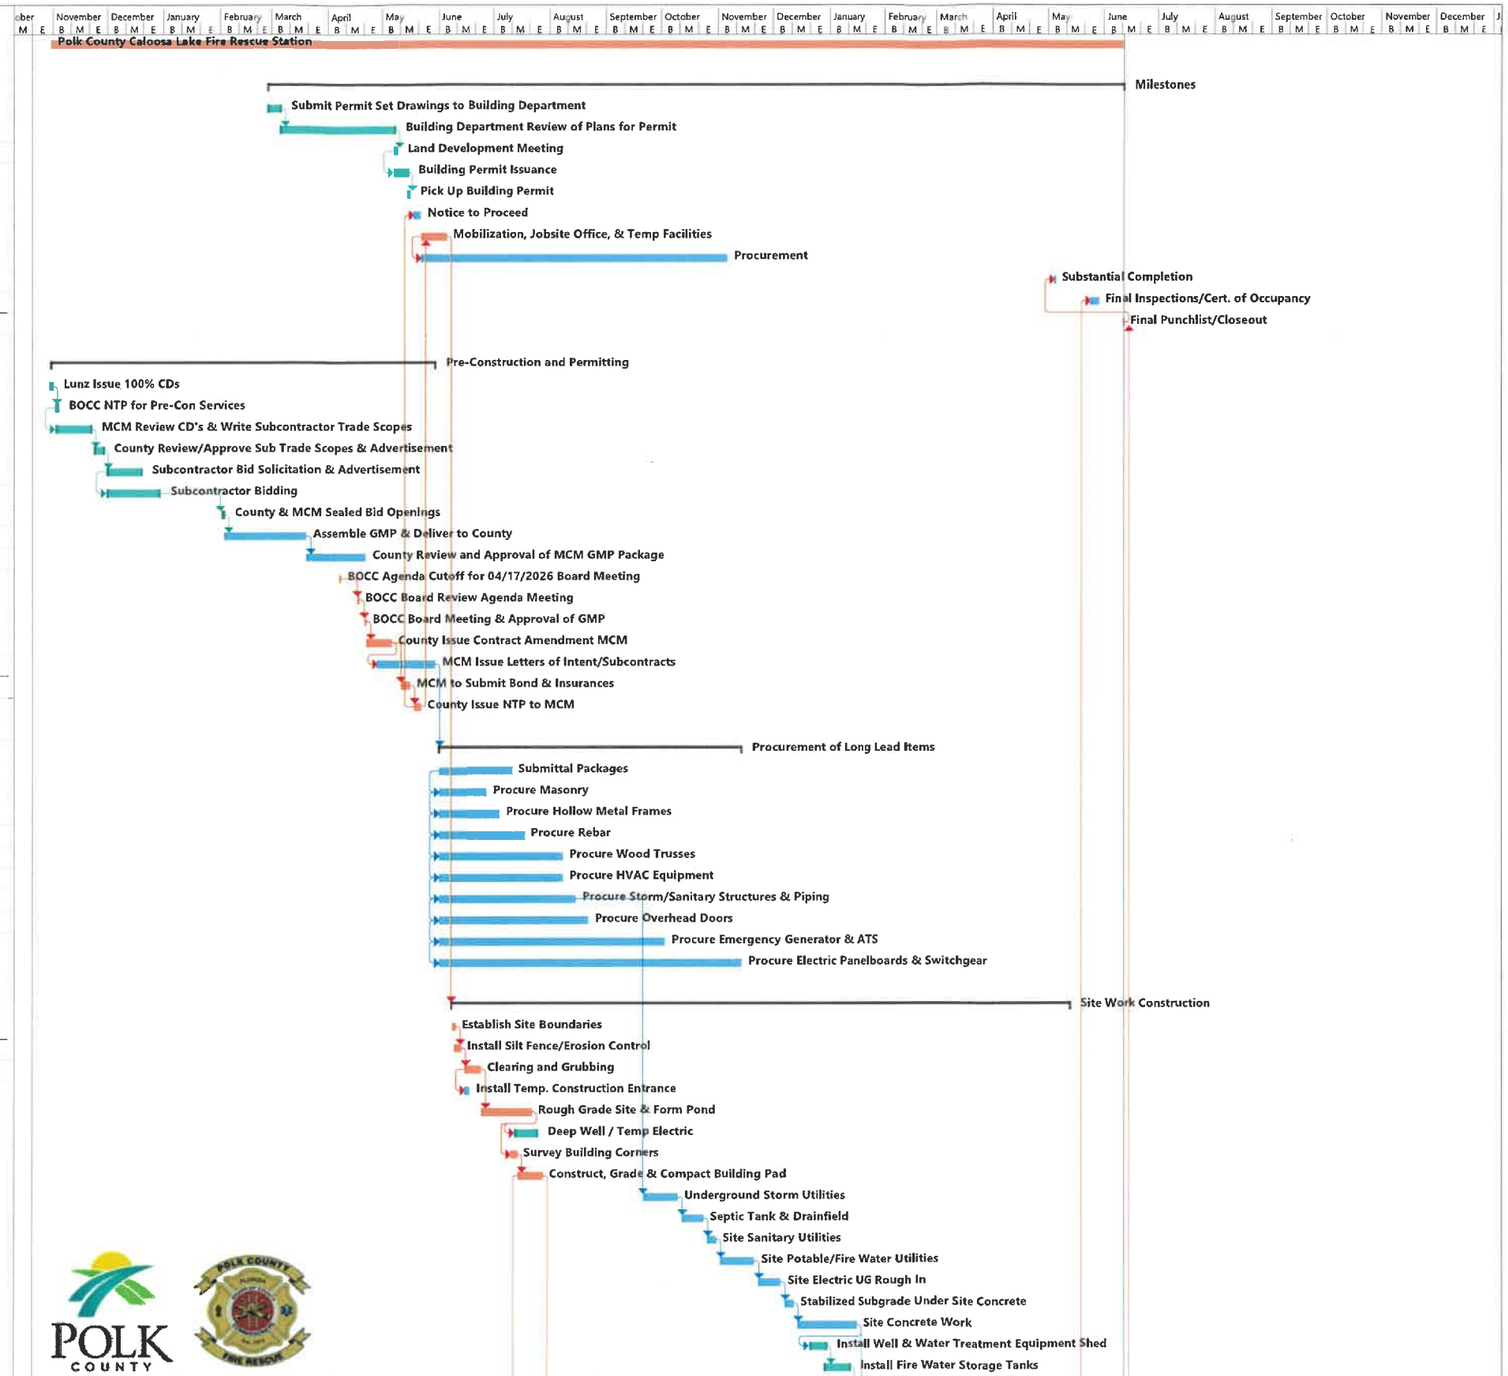
C) The following Contingencies and Allowances have been included in the GMP:

1) Public Supply Well With 5" Diameter Galvanized Steel Casing and 7.5 HP Submersible Pump, VFD, Pressure Tank, Air Compressor, PulsaTron Chlorinator, and all Related Piping - $ 123,000.00. (Similar to what was installed at the Masterpiece Road Fire Rescue Station to produce the required 90 GPM of water).
2) Prefabricated Well and Water Treatment Shed Enclosure Structure per Sheet C301 or CMU Block Enclosure With Chain Link Gates With Canopy Roof Structure and MEP Requirements Not Shown on Drawings - $ 35,000.00. (Type and size of enclosure to be determined).
3) Fire Tank and Well Pad Chain Link Fence and Gate Enclosure with Privacy Slats Based Off Layout on Sheet FT100 - $ 19,990.00.
4) Fire Tank and Well Concrete Pad Engineering - $ 5,000.00. (No drawings or design provided).
5) 45'x45'x8" Thick Fire Tank and 12'x16'x8" Thick Well Concrete Pads Based off Layout on Sheet FT100 - $ 39,222.00.
6) 34' Diameter x 9'-6" Tall, 65,000-Gallon, Galvanized Steel Water Storage Tank with All Related Piping and Components Per Sheets FT100 and FT101 - $ 175,000.00.
7) Geogrid Fabric Weed Barrier and 4" of #57 Stone Aggregate Inside the Fire Tank, Well, and Water Treatment Equipment Fence Enclosure Based off Layout on Sheet FT100 - $16,000.00.
8) Pressure Washing All Exterior Concrete After Project Completion - $ 3,000.00.
9) Temporary Construction Fencing and Gates, If Required - $ 11,026.25.
10) Bahia Sod - $ 100,750.00 or 201,500 SF at .50 per SF.
11) Apparatus Bay Ceiling Attic Access and Gypsum Board MEP Access Panels - $ 3,000.00.
12) Additional Wood Frame and Trim Materials - $ 10,000.00.
13) Polished Concrete Floor and Floor Protection Maintenance Contingency - $ 10,000.00.
14) Floor Protection Materials and Installation - $ 5,000.00. (To be installed after polishing is complete & prior to wall construction).
15) Bike Rack - $ 1,400.00. (No bids received).

16) Corner Guards - $ 4,350.00. (No specifications provided).
17) Knox Box - $ 1,500.00.
18) Unload, Assemble, and Install Owner Provided F.F. & E - $ 5,000.00. (Included for installation of Owner provided gym equipment and TV wall mount brackets and component shelves only).
19) Stainless Steel Upper Cabinet Above Washer and Dryer in Corridor 112 - $ 14,700.00 (No specifications provided).
20) Residential Side x Side Washer and Dryer in Corridor 112 - $ 2,500.00. (No specifications provided).
21) Emergency Generator Fuel and DEFS - $ 10,000.00.
22) Added 4th Shift Millwork - $ 4,700.00.
23) Added 4th Shift Bunker Gear Lockers - $ 2,000.13.
24) Added 4th Shift Refrigerator - $ 1,974.93.
25) Owner Allowance - $ 250,000.00 (Per CMAR Agreement).
26) Subcontractor Performance and Payment Bond - $ 30,000.00 (For subcontracts over $ 350,000.00).

EXHIBIT "K"

Caloosa Lake Fire Rescue Station 4 - Project No. 24133.01



Hourly Rate Schedule

EXHIBIT K Caloosa Lake Fire Rescue Station 21 - Project No. 24133.01 HOURLY RATE SCHEDULE		
COMPANY NAME:	**Miller Construction Management, Inc.**	
Classification:	**Raw Labor Rates:**	**Rates with Labor Burden:**
Pre-construction Manager	$73.52	$104.40
Assistant Estimator / Bids	$36.76	$52.20
Principal	$98.00	$139.16
Accountant	$40.00	$62.00
Project Coordinator	$25.00	$35.50
Project Manager	$47.50	$67.45
Superintendent	$40.00	$62.00
Rough Carpenty	$27.50	$42.63
Finish Carpentry	$27.50	$42.63
Laborer (General)	$15.00	$23.25

Agenda Item G.5. 6/16/2026

SUBJECT

Accela Cloud Software Renewal Agreement - Five-Year Term ($2.79 Million over 5YR Term)

DESCRIPTION

Requesting approval of five-year renewal agreement with Accela, Inc. for continued Software as a Service (SaaS) licensing and support for the County's various divisions using Accela Building and Accela Planning systems, including Enhanced Reporting Database (ERD) services. The renewal provides ongoing access to the permitting, planning, and development services software platform and includes licensing for existing users, additional user licenses, and reporting functionality.

The renewal term is June 24, 2026 through June 23, 2031.

RECOMMENDATION

Recommend approval and execution of the five-year renewal agreement with Accela, Inc.

FISCAL IMPACT

The total contract value is $2,793,144.06 over the five-year term. Annual costs are as follows:

- Year 1 (6/24/2026 - 6/23/2027): $531,386.42
- Year 2 (6/24/2027 - 6/23/2028): $544,670.78
- Year 3 (6/24/2028 - 6/23/2029): $558,288.49
- Year 4 (6/24/2029 - 6/23/2030): $572,246.51
- Year 5 (6/24/2030 - 6/23/2031): $586,551.86

Funding is available within the Information Technology Division budget and will be appropriated annually through the budget process.

REQUEST FOR LEGAL SERVICES

To: County Attorney's Office
Attention: Dane Norman

From: Mae Goding, Drawer No. AS04

Dept: Information Technology Ext. 5905

Date: 05/26/2026

Request (in detail): _____

This proposed renewal form will cover the Accela SaaS renewal for the next 5 years, starting at $531,386.42 for the first year, and increasing over the next four years afterward to the total of $2,793,144.06 over the span of the 5 year renewal.

All clear, no legal concerns.

Thank you,

Dane 5/28/26

Please indicate any time limits involved and attach all necessary documentation.

Renewal Terms/Information:

1. Notwithstanding anything to the contrary, this Order Form is governed by the terms and conditions in the (1) Accela Subscription Services Agreement, dated May 28, 2021, as thereafter amended (where applicable) for Subscription Services, (2) Enhanced Reporting Database (ERD) Policy at Accela Terms for ERD, and (3) Managed Application Services (MAS) Policy at Accela Terms for MAS (collectively, the "Agreement").

2. No additional or conflicting terms or conditions stated in Customer's order documentation, including, without limitation, purchase orders, will be incorporated into or form any part of this Order Form or the governing agreement, and all such terms or conditions will be null and void.

3. For Software Licenses, Accela may terminate this Order Form in the event the Software is phased out across Accela's customer base. In such event, Accela will provide Customer sufficient advance notice and the parties will mutually agree to a migration plan for converting Customer to another Accela generally-available offering with comparable functionality.

4. Subscriptions continue from the Order Start Date through the number of months listed in this Order Form (or if not listed, twelve (12) months). Thereafter Subscriptions automatically renew annually as calculated from Order Start Date of Customer's first Subscription purchase.

5. All Software Licenses, Maintenance, and Subscription purchases are non-cancelable and non-refundable.

6. Pricing is based upon payment by ACH and check. Payment by credit card (including Purchase Cards) for product and services in this Order Form will be subject to a service charge of 3%. There is no service charge for ACH or check payment.

7. Customer may purchase additional licenses at the same price and for the same term as the licenses in this Order Form. Additional licenses purchased in this way will have the same annual price applicable for the purchase period and will have the same uplift and term dates as Customer's existing licenses.

8. If Customer has Enhanced Reporting Database, pricing will be based on a percentage of SaaS Annual Contract Value. As SaaS Annual Contract Value increases/decreases based on seat count changes or annual uplift ERD pricing will be adjusted accordingly at contract renewal.

Polk County

Board of County Commissioners

Agenda Item N.1. 6/16/2026

SUBJECT

Public Hearing (LDCPAL 2026-1 OC Text) (Adoption Hearing) to consider the adoption of a Large-Scale Comprehensive Plan Amendment text amendment to modify the characteristics, location criteria and development criteria for the Office Center (OC) Future Land Use designation. (No Fiscal Impact)

DESCRIPTION

This is a County-initiated request modify policies under Objective 2.113-C Office Centers to add Personal Services as an allowable use, allow Office Centers adjacent to multiple non-residential Future Land Use designations and existing non-residential legally established development, remove a reference to Policy 2.404-A1, remove the limitations on offices within a two-mile radius, and remove development criteria regarding frontage on local roads.

State law requires one Planning Commission hearing, which was held on April 1, 2026, with a recommendation for approval (Vote 7:0). This is the adoption hearing. This request was transmittal to the Florida Department of Commerce on April 21, 2026.

Florida Commerce	No comment by the Florida Department of Commerce amendment No.26-01ESR
Case Planner:	Chanda Bennett, AICP, Comprehensive Planning Administrator

The changes to the Comprehensive Plan Section 2.113-C are:
The request is a Comprehensive Plan text amendment as follows:

- Policy 2.113-C1 Characteristics - to add Personal Services;
- Policy 2.113-C3. b Location Criteria -to add more Future Land Use designations that Office Center can be located adjacent including Linear Commercial Corridor, Rural Cluster Center, Tourist Commercial Center, High Impact Center, Business Park Center, Industrial, Institutional, Employment Center, Mixed Use, Professional Institutional, Interchange Activity Center, and Town Center;
- Policy 2.113-C. c Location Criteria – to remove reference to Policy 2.404-A1 in the Economic Element, and to add adjacent to existing legally established non-residential development.
- Policy 2.113-C. d Location Criteria – remove limitation on percent of office within a two-mile radius;
- Policy 2.113-C. d Location Criteria – clarify current list of items when considering a new Office Center or an expansion.

Summary:

This is a County-initiated Comprehensive Plan text amendment to Section 2.113-C Office Centers (OC). OCs were originally adopted into the Comprehensive Plan in 2000 with mid-block location criteria for low-volume non-residential uses which reserved intersections for more high-volume uses in commercial activity centers. However, the Board directed staff to reevaluate the OC location criteria due to a few OC requests along County Road (CR) 540-A. After a community involvement effort with residents and business along CR 54-A, the OC policies were amended in 2012 as directed by the Board of County Commissioners to have a different set of criteria for locating Office Centers (CPA 12A-03). OCs are currently permitted at the intersections of roadways or adjacent to Activity Centers such as Convenience Centers (CC), Neighborhood Activity Centers (NAC), Community Activity Centers (CAC), Regional Activity Centers (RAC) and Commercial Enclaves CE).

Since this time, staff have been asked over the years about mid-block Future Land Use designations for non-residential uses including legally established non-conforming non-residential uses. With the update to the Comprehensive Plan, staff is recommending this amendment to allow OC designations adjacent to legally established non-residential uses at mid-block locations. Potential location examples include adjacent public safety offices, religious institutions, or older agricultural related structures.

Data and Analysis Summary

Staff considered the current Location Criteria for OCs and situations where offices adjacent to existing legally established non-residential uses are consistent with other Comprehensive Plan policies. The Comprehensive Plan directs development in nodal patterns. In addition, offices, as part of Transitional Areas (Section 2.125-C) are allowable use within 660 feet adjacent to all Activity Centers except Convenience Centers (CC) and Rural Cluster Centers (RCC), Linear Commercial Corridors (LCC), Commercial Enclaves except in the SDA, Industrial and Utilities.

Staff have reviewed the Comprehensive Plans of 12 similar or abutting counties and Polk's two largest cities to identify which jurisdictions have a Future Land Use designation with "office" in the title. Only two (2) of the jurisdictions surveyed have a Future Land Use designation with "office" in the title, and they are for larger office parks with mixed uses but may be permitted in non-intersection locations. However, staff did not evaluate engineering land development regulations that would impact mid-block. In all jurisdictions, offices were always allowed in mixed use districts.

Findings of Fact

- *The request is a Comprehensive Plan text amendment as follows:*
    - *Policy 2.113-C1 Characteristics - to add Personal Services;*
    - *Policy 2.113-C3. b Location Criteria - to add more Future Land Use designations that Office Center can be located adjacent including Linear Commercial Corridor, Rural Cluster Center, Tourist Commercial Center, High Impact Center, Business Park Center, Industrial, Institutional, Employment Center, Mixed Use, Professional Institutional, Interchange Activity Center, and Town Center;*
    - *Policy 2.113-C. c Location Criteria – to remove reference to Policy 2.404-A1 in the Economic Element, and to add adjacent to existing legally established non-residential development.*
    - *Policy 2.113-C. d Location Criteria – remove the limitation on percent of office within a two-mile radius;*
    - *Policy 2.113-C. d Location Criteria – to clarify current list of items when considering a new Office Center or an expansion.*

- *Office Centers are permitted the Transit Supportive Development Area (TSDA), the Urban Growth Area (UGA), Suburban Development Area (SDA), Utility Enclave Area (UEA), Rural Development Area (RDA), and the Neighborhood Utility Service Area (NUSA).*

- *Section 2.125-C Transitional Areas of the Comprehensive Plan permits offices as a transitional use with approval of a Planned Development within 660 feet adjacent to all Activity Centers except Convenience Centers (CC) and Rural Cluster Centers (RCC), Linear Commercial Corridors (LCC), Commercial Enclaves except in the SDA, Industrial and Utilities.*

- *The Office Center policies were amended in 2012 as directed by the Board of County Commissioners to have a different plan for locating Office Centers (CPA 12A-03) which at that time permitted isolated or spot zones of OC along collector or arterial roads based on a community involvement effort with residents and business owners along CR 540-A.*

- *Planning staff have reviewed the Comprehensive Plan of 12 central Florida counties that bear commonalities with Polk and the two largest municipalities in the County. Staff found that two (2) of the 14 jurisdictions had Future Land Use categories with Office in the title with none specifically permitting the category in isolated or spot patterns. All jurisdictions permitted offices as part of mixed-use categories and as transitional uses.*

Development Review Committee Recommendation:

The Land Development Division, based on the information provided with the proposed text amendment application, finds that the proposed text change request is **CONSISTENT** with the Polk County Land Development Code and the Polk County Comprehensive Plan. Staff recommends **APPROVAL** of LDCPAL-2026-1.

Planning Commission Recommendation:

On April 1, 2026 in an advertised public hearing, the Planning Commission voted 7:0 to recommend **APPROVAL** of **LDCPAL-2026-1**.

Department of Florida Commerce Objections, Recommendations, and Comments Report (ORC):

In an Objections, Recommendations, and Comments Report, issued on May 22, 2026, by the Florida Department of Commerce, no comments have been reported.

Analysis

Demonstration of Need for the Amendment

Office Centers (OC) were created after the adoption of the Comprehensive Plan in 2000. At that time it permitted isolated or mid-block zones of OC but only along collector or arterial roadways. Since 2012, Office Centers (OC) have been required adjacent to activity centers. This was the result of input from a community planning effort directed by the Board of County Commissioners with residents and business owners along CR 540-A. This led to changes in Activity Center expansions beyond the current acreage limits in the corresponding Activity Center policies and the current location criteria for OC. The current location criteria is as follows:

> *POLICY 2.113-C3: LOCATION CRITERIA - The establishment of a new Office Center designation shall be located according to the following:*
>
> *a. at the intersection of a local and collector/arterial road, or at the intersection of two collector roads; or at the intersection of two arterial roads;*
>
> *b. Along a collector or arterial roadway adjacent to and existing Activity Center or Commercial Enclave that contains 10% or less in land area developed with professional offices.*
>
> *c. Policy 2.404-A1; and*
>
> *d. the total acreage for Office Center Districts within a two mile radius shall not exceed ten (10) acres unless one of the following can be met:*
>
> *1. the total land area of the existing Office Centers within the two mile radius are 60 percent (60%) developed and the total land area of the existing Activity Centers within the two miles radius are also at least 60 percent (60%) developed with less than 10 percent (10%) of the land area developed as professional office uses; or*
> *2. the remaining undeveloped acreage of the Office Centers within the two mile radius are owned by a single interest or have final, valid engineered construction plans (with building-permit application) or have a valid CU/PD approval; or*
> *3. when item b above is met.*
>
> *When considering the establishment of a new Office Center designation or the expansion of an existing Office Center consideration shall be given to maximizing access to a collector or arterial road and to the guidelines outlined in Policy 2.404-A1. Polk County shall seek to minimize the routing of office traffic through residential areas.*

There are many non-residential mid-block uses throughout the County including public safety structures such as fire stations, religious institutions and long age constructures associated with the agricultural industry. Due to the current location requirements for Office Centers, an OC Future Land Use designation is not consistent with these isolated locations and cannot be located adjacent to an existing legally established non-residential use.

This is something staff have noticed since 2012. This staff initiate text amendment is to address this issue as well as add additional location criteria for OC adjacent to existing non-residential Future Land Use designations. Since offices are considered transitional uses (Section 2.125-C), offices adjacent to existing legally established non-residential uses can add to the compatibility of these nodes of uses. In addition, allowing the clustering of non-residential uses is consistent with the direction of the Comprehensive Plan to plan for non-residential nodal development especially Activity Centers.

Recommended Changes

Based on the current example along CR 540-A, staff recommend that OC be permitted adjacent to existing legally established non-residential uses as well as other Future Land Use designations including - Linear Commercial Corridor, Rural Cluster Center, Tourist Commercial Center, High Impact Center, Business Park Center, Industrial, Institutional, Employment Center, Mixed Use, Professional Institutional, Interchange Activity Center, and Town Center. Moreover, the OC policies are also recommended to add personal services as permitted uses and to make offices located within two miles of a proposed OC Future Land Use designation a consideration for the approval rather than a requirement. These changes allow more locations for OC throughout Polk County and add more flexibility in the consideration of the change.

Limits of the Proposed Ordinance

This amendment applies to only the Office Center (OC) Future Land Use designations in unincorporated Polk County including some Selected Area Plans and the Green Swamp Area of Critical State Concern. This amendment will be reviewed by the State Department of Florida Commerce as a coordinated large scale comprehensive plan amendment.

Comparisons to other Jurisdictions

Staff commonly survey counties along the I-4 corridor for regulatory comparisons because they are most closely similar to Polk. Some of the abutting counties are reviewed along with the two largest cities within the County (Lakeland and Winter Haven). Alachua and Duval counties are also reviewed because of similar demographic and urban-rural mixtures to Polk County. This method of selection creates a survey of 14 total local jurisdictions. Polk County has a rare form of land use regulation with its direct connection between the Comprehensive Plan Future Land Use Map and the zoning of use and structure types.

Table 1

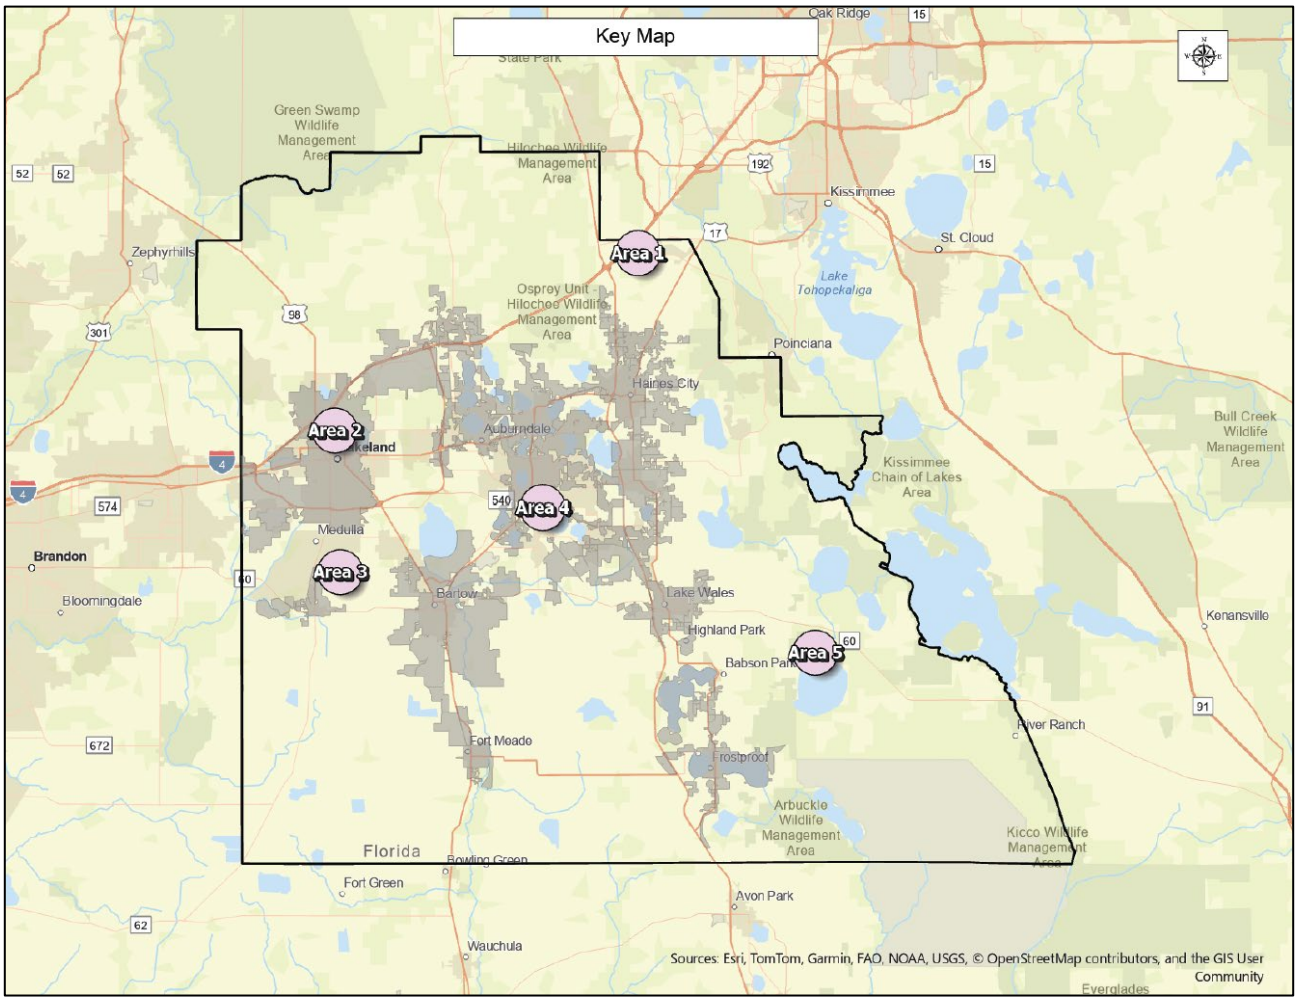
Jurisdiction *(Code citation)*	**Which jurisdictions have Office in the title of their Future Land Use designations in their Comprehensive Plan?**	**How does any Comprehensive Plan Development Criteria permit offices?**
Alachua County *Objective 3.9*	There are no Future Land Use designations with Office in the title.	All office uses are allowed in the Future Land Use designations that permit multiple uses.
Brevard County *Policy 2.5; 2.7; 2.11.B*	There are no Future Land Use designations with Office in the title.	All office uses are allowed in the Future Land Use designations that permit multiple uses.
Duval County	There are no Future Land Use designations with Office in the title.	All office uses are allowed in the Future Land Use designations that permit multiple uses.
Hardee County	There are no Future Land Use designations with Office in the title.	All office uses are allowed in the Future Land Use designations that permit multiple uses.
Highlands County *Policy 1.2. D*	There are no Future Land Use designations with Office in the title.	All office uses are allowed in the Future Land Use designations that permit multiple uses.
Hillsborough County *Objective 2.2*	The Future Land Use categories with Office in the title include Office Commercial (OC).	Many of Future Land Use categories permit offices as part of the allowable mixture of uses.

Table 1

Jurisdiction *(Code citation)*	Which jurisdictions have Office in the title of their Future Land Use designations in their Comprehensive Plan?	How does any Comprehensive Plan Development Criteria permit offices?
Lake County	Only two Future Land Use categories with office in the title include Regional Office and Office Employment Center.	The mention of office throughout the Lake County Comprehensive Plan is intended for categories permitting multiple uses.
Manatee County *Table 2-1*	The categories with Office in the title include Low Intensity Office, Medium Intensity Office, and Retail/office/residential.	The Low Intensity Office includes a mixture of uses including medium density residential and public/semi-public, recreation and schools. The other categories are high intensity uses.
Orange County *Policies under Goal FLU1*	The Future Land Use category with Office in the title is Office (O).	This category is meant for individual offices and office parks. Siting criteria is lead by the general commercial and office criteria which is at nodes and along major roadways with compatibility standards.
Osceola County	There are no Future Land Use designations with Office in the title.	Offices are uses within other Future Land Use designations.
Seminole County *Policy FLU 1.3.3*	The Future Land Use designation with Office in the title is Office.	This category permits residential development as a support function to the office development, allows schools, with special exceptions for hospitals, funeral homes, medical clinics, banks, and public utilities and to encourage the conversation of existing homes into office uses. It is to be located along collector and aerial roadways.
Volusia County Future Land Use Element, E.	There are no Future Land Use designations with Office in the title.	Office development is to conform with commercial use guidelines and locate at intersections of major roads developed with commercial uses and provide for a mixture of uses.
City of Lakeland Table FLU-3	There are no Future Land Use designations with Office in the title.	Offices are uses within other Future Land Use designations.
City of Winter Haven	There are no Future Land Use designations with Office in the title.	Offices are uses within other Future Land Use designations.
NOTE: 1) A table or policy is listed where the Future Land Use designations were listed together. No policy number is provided where the designations where spread throughout the Comprehensive Plan. 2) Some jurisdictions have special area plans for specific developments with office as a land use category. This was not considered due to the this request not directly applicable to a specific development.		

Planning staff have reviewed the Comprehensive Plan of 12 central Florida counties that bear commonalities with Polk and the two largest municipalities in the County. Staff found that two (2) of the 14 jurisdictions had Future Land Use categories with Office in the title with none specifically permitting the category in isolated or spot patterns. All jurisdictions permitted offices as part of mixed-use categories and as transitional uses.

Consistency with the Comprehensive Plan



This amendment is consistent with the first level of the Comprehensive Plan as stated in Section 2.101 where Polk County uses "multi-nodal, urban-cluster" concepts for development in the sense that locating OC adjacent to an existing legally established non-residential development creates a node of development is similar to locating Activity Centers and other FLU designations at intersections. In addition, this text amendment is consistent with Section 2.125-C Transitional Uses that allow offices to be adjacent to more intense non-residential uses in certain designations.

Comments from Other Agencies: None.

ORDINANCE NO. 20 -____

AN ORDINANCE OF THE POLK COUNTY BOARD OF COUNTY COMMISSIONERS REGARDING **LDCPAL-2026-1;** AN AMENDMENT TO THE POLK COUNTY COMPREHENSIVE PLAN; ORDINANCE 92-36, AS AMENDED MODIFYING THE POLICIES UNDER OBJECTIVE 2.133-C OFFICE CENTERS TO ADD PERSONAL SERVICES AS AN ALLOWABLE USE, ALLOW OFFICE CENTERS ADJACENT TO MULTIPLE NON-RESIDENTIAL FUTURE LAND USE DESIGNATIONS AND EXISTING NON-RESIDENTIAL LEGALLY ESTABLISHED DEVELOPMENT, REMOVE A REFERENCE TO POLICY 2.404-A1, REMOVE THE LIMITATIONS ON OFFICES WITHIN A TWO-MILE RADIUS, AND REMOVE DEVELOPMENT CRITERIA REGARDING FRONTAGE ON LOCAL ROADS, PROVIDING FOR SEVERABILITY; AND PROVIDING FOR AN EFFECTIVE DATE.

WHEREAS, pursuant to Article VIII, Section I(g) of the Constitution of the State of Florida and the Community Planning Act, Chapter 163, Part II, Florida Statutes (FS), as amended, (the Act) Polk County is authorized and required to adopt a Comprehensive Plan (Plan); and

WHEREAS, Section 163.3184, FS, and Comprehensive Plan Section 4.305.B, provides for the approval of Large-Scale Comprehensive Plan Amendments; and

WHEREAS, Application LDCPAL 2026-1 is a county-initiated application to modify Policy 2.113-C1 to add "personal services" to the Characteristics and to add "adjacent to existing non-residential development" to Policy 2.113-C3 Location Criteria and remove a reference to Policy 2.404-A1 and the limitation on offices in a two-mile radius (the "Amendment"); and

WHEREAS, pursuant to Section 163.3174, FS, the Local Planning Authority (Planning Commission) conducted a public hearing, with due public notice having been provided, on the Amendment on April 1, 2026; and

WHEREAS, pursuant to Section 163.3184, FS, the Board of County Commissioners on April 21, 2026, held an initial public hearing and authorized transmittal of the Amendment to the Department of Economic Opportunity (DEO) for written comment, and

WHEREAS, DEO, by letter dated May 22, 2026, transmitted objections, recommendations, and comments on the Amendment; and

WHEREAS, pursuant to Section 163.3184, FS, the Board of County Commissioners conducted an adoption public hearing, with due public notice having been provided, on the Amendment on June 2, 2026; and

WHEREAS, the Board of County Commissioners reviewed and considered all comments received during said public hearings, and provided for necessary revisions, if any; and

WHEREAS, the Board of County Commissioners has considered the data and analysis contained within the staff report; and

WHEREAS, the Amendment is consistent with Chapter 163, FS, and the Polk County Comprehensive Plan.

NOW THEREFORE, BE IT ORDAINED by the Polk County Board of County Commissioners:

SECTION 1: LEGISLATIVE FINDINGS OF FACT

The findings of fact set forth in the recitals to this Ordinance are true and correct and hereby adopted.

SECTION 2: COMPREHENSIVE PLAN AMENDMENT

The Future Land Use Map of Ordinance No. 92-36, as amended, (the "Polk County Comprehensive Plan") is hereby amended to reflect a change in the text of the COmprehesive Plan as depicted in Attachment "A".

SECTION 3: SEVERABILITY

If any provision of this Ordinance is held to be illegal, invalid, or unconstitutional by a court of competent jurisdiction the other provisions shall remain in full force and effect.

SECTION 4: EFFECTIVE DATE

The effective date of this plan amendment, if the amendment is not timely challenged, shall be the date the Department of Florida Commerce posts a notice of intent determining that this amendment is in compliance. If timely challenged, or if the state land planning agency issues a notice of intent determining that this amendment is not in compliance, this amendment shall become effective on the date the state land planning agency or the Administration Commission enters a final order determining this adopted amendment to be in compliance. No development orders, development permits, or land uses dependent on this amendment may be issued or commence before it has become effective. No development orders, development permits, or land uses dependent on this amendment may be issued or commence before it has become effective. If a final order of noncompliance is issued by the Administration Commission, this amendment may nevertheless be made effective by adoption of a resolution affirming its effective status, a copy of which resolution shall be sent to the Department of Florida Commerce.

SECTION 5: FILING WITH THE DEPARTMENT OF STATE:

The Clerk and Auditor to the Board of County Commissioners of Polk County, Florida, shall file a certified copy of this ordinance with the Department of State, through the Secretary of State, upon adoption by the Board of County Commissioners of Polk County, Florida.

ADOPTED, in open session of the Polk County Board of County Commissioners with a quorum present and voting this 2nd day of June, 2026.

OBJECTIVE 2.113C OFFICE CENTERS

OBJECTIVE 2.113-C: OFFICE CENTERS -The Polk County Plan shall provide for needs of residents through:

a.the designation and mapping of Office Centers on the Future Land Use Map Series; and

b.the establishment of criteria applicable to the location and development of land within Office Centers.

POLICY 2.113-C1: CHARACTERISTICS - Office Centers are intended to accommodate the office needs of the community they serve. They generally contain lawyer, real estate, engineering, and other professional offices. Medical offices, personal services, and support offices are also allowable in this category.

Usable Area: 10 acres or less

Gross Leasable Area (GLA): 1,000 to 30,000 square feet

Minimum Population Support: 2,500 people

Service-Area Radius: 2 miles or more

Typical Leading Tenant: Professional offices

Other Typical Tenants: Medical offices

POLICY 2.113-C2: DESIGNATION AND MAPPING - Office Centers shall be located throughout Polk County as designated on the Future Land Use Map Series as "Office Centers" (OC).

POLICY 2.113-C3: LOCATION CRITERIA - The establishment of a new Office Center designation shall be located according to the following:

a. at the intersection of a local and collector/arterial road, or at the intersection of two collector roads; or at the intersection of two arterial roads; or

b. Along a collector or arterial roadway adjacent to an~~d~~ existing developed or undeveloped Activity Center, ~~or~~ Commercial Enclave; Linear Commercial Corridor, Rural Cluster Center, Tourist Commercial Center, High Impact Center, Business Park Center, Industrial, Institution, Employment Center, Mixed Use, Professional Institutional, Interchange Activity Center, and Town Center. ~~that contains 10% or less in land area developed with professional offices.~~; or

c. Adjacent to existing legally established non-residential development ~~Policy 2.404-A1; and~~

~~d. the total acreage for Office Center Districts within a two mile radius shall not exceed ten (10) acres unless one of the following can be met:~~

~~1. the total land area of the existing Office Centers within the two mile radius are 60 percent (60%) developed and the total land area of the existing Activity Centers within the two miles radius are also at least 60 percent (60%) developed with less than 10 percent (10%) of the land area developed as professional office uses; or~~

~~2. the remaining undeveloped acreage of the Office Centers within the two mile radius are owned by a single interest or have final, valid engineered construction plans (with building permit application) or have a valid CU/PD approval; or~~

~~3. when item b above is met.~~

d. When considering the establishment of a new Office Center designation or the expansion of an existing Office Center consideration shall be given to the following:

1. maximizing access to a collector or arterial road and to the guidelines outlined in Policy 2.404-A1.~~;~~

2. ~~Polk County shall seek to~~ minimize the routing of office traffic through residential areas.~~;~~

3. The amount of existing office uses within a two mile radius.

POLICY 2.113-C4: DEVELOPMENT CRITERIA - Development within an Office Center shall conform to the following criteria:

a. Development in Office Centers shall have frontage on, or direct access to, a collector or arterial roadway, or a frontage road or service drive which directly serves these roadways. Development within Office Centers shall incorporate the use of frontage roads or shared ingress/egress facilities wherever practical;

b. ~~Office Center expansions, new locations for Office Centers and development within Office Centers may front on or accessed via local roads if the subject parcel(s) is within a quarter mile of a collector or arterial road. If the local road is classified as residential then traffic from the OC shall not be permitted on the local road if there is residential traffic between the driveway for the OC and the collector roadway and until a waiver, per the requirements and standards in the LDC, is approved;~~

c. Adequate parking shall be provided to meet the demands of the uses, and interior traffic-circulation patterns shall facilitate the safe movement of vehicular, bicycle, and pedestrian traffic;

d. Buffering shall be provided where the effects of lighting, noise, and other such factors would adversely affect adjacent land uses. Parking lots, loading areas, dumpsters, utilities and air conditioning units, signage, etc. are examples of facilities which may require special buffering provisions; and

e. Retail uses within an Office Center shall not exceed ten (10) percent of the total land area of the Office Center as the OC is meant for professional employment and personal service businesses.

POLICY 2.113-C5: ADJACENT DEVELOPMENT - Subject to the criteria and requirements of Section 2.125-C relating to Transitional Areas, development adjacent to an Office Center may include the following uses: Medium and High Residential, Neighborhood Activity Centers, Institutional, and Recreation and Open Space.

May 22, 2026

The Honorable Martha Santiago
Chair, Polk County
Board of County Commissioners
330 West Church Road
Bartow, Florida 33830

Dear Chair Santiago,

FloridaCommerce has reviewed the proposed comprehensive plan amendment for Polk County (Amendment No. 26-01ESR) received on April 22, 2026. The review was completed under the expedited state review process. FloridaCommerce has no comment on the proposed amendment.

The local government should act by choosing to adopt, adopt with changes, or not adopt the proposed amendment. For your assistance, FloridaCommerce has enclosed the procedures for adoption and transmittal of the comprehensive plan amendment. In addition, the local government is reminded that:

- Section 163.3184(3)(b), Florida Statutes (F.S.), authorizes other reviewing agencies to provide comments directly to the local government. **If the local government receives reviewing agency comments and they are not resolved, these comments could form the basis for a challenge to the amendment after adoption**.

- The local government shall hold a second public hearing, which shall be a hearing on whether to adopt the comprehensive plan amendment. **If the local government fails, within 180 days after receipt of agency comments, to hold the second public hearing, the amendment is deemed withdrawn** unless extended by agreement with notice to the state land planning agency and any affected person that provided comments on the amendment pursuant to section 163.3184(3)(c)1., F.S**. If the amendment is not adopted at the second public hearing, the amendment shall be formally adopted by the local government within 180 days** after the second public hearing is held **or the amendment is deemed withdrawn.**

- **The adopted amendment must be transmitted to FloridaCommerce within 30 working days after the final adoption hearing or the amendment shall be deemed withdrawn pursuant to 163.3184(3)(c)2., F.S.** Under section 163.3184(3)(c)2. and 4., F.S., **the amendment effective date** is 31 days after FloridaCommerce notifies the local government that the amendment package is complete or, if challenged, until it is found to be in compliance by FloridaCommerce or the Administration Commission.

An equal opportunity employer/program. Auxiliary aids and service are available upon request to individuals with disabilities. All voice telephone numbers on this document may be reached by persons using TTY/TTD equipment via the Florida Relay Service at 711.

If you have any questions concerning this review, please contact Scott Rogers, Regional Planning Administrator, by telephone at (850)-717-8510 or by email via Scott.Rogers@Commerce.fl.gov.

Sincerely,

James D. Stansbury, Chief
Bureau of Community Planning and Growth

SUBMITTAL OF ADOPTED COMPREHENSIVE PLAN AMENDMENTS

FOR EXPEDITED STATE REVIEW

Section 163.3184(3), Florida Statutes

NUMBER OF COPIES TO BE SUBMITTED: Please submit electronically using FloridaCommerce's electronic amendment submittal portal "**Comprehensive Plan and Amendment Upload**" (*https://fldeo.my.salesforce-sites.com/cp/*) **or** submit three complete copies of all comprehensive plan materials, of which one complete paper copy and two complete electronic copies on CD ROM in Portable Document Format (PDF) to the State Land Planning Agency and one copy to each entity below that provided timely comments to the local government: the appropriate Regional Planning Council, Water Management District, Department of Transportation, Department of Environmental Protection, Department of State, the appropriate county (municipal amendments only), the Florida Fish and Wildlife Conservation Commission and the Department of Agriculture and Consumer Services (county plan amendments only), and the Department of Education (amendments relating to public schools), and for certain local governments, the appropriate military installation and any other local government or governmental agency that has filed a written request.

SUBMITTAL LETTER: Please include the following information in the cover letter transmitting the adopted amendment:

_____ State Land Planning Agency identification number for adopted amendment package.

_____ Summary description of the adoption package, including any amendments proposed but not adopted.

_____ Identify if concurrency has been rescinded and indicate for which public facilities. (Transportation, schools, recreation and open space).

_____ Ordinance number and adoption date.

_____ Certification that the adopted amendment(s) has been submitted to all parties that provided timely comments to the local government.

_____ Name, title, address, telephone, FAX number and e-mail address of local government contact.

_____ Letter signed by the chief elected official or the person designated by the local government.

ADOPTION AMENDMENT PACKAGE: Please include the following information in the amendment package:

_____ In the case of text amendments, changes should be shown in strike-through/underline format.

_____ In the case of future land use map amendments, an adopted future land use map, **in color format,** clearly depicting the parcel, its future land use designation and its adopted designation.

_____ A copy of any data and analyses the local government deems appropriate.

Note: If the local government is relying on previously submitted data and analysis, no additional data and analysis is required.

_____ Copy of the executed ordinance adopting the comprehensive plan amendment(s).

Suggested effective date language for the adoption ordinance for expedited review:

> "The effective date of this plan amendment, if the amendment is not timely challenged, shall be 31 days after the state land planning agency notifies the local government that the plan amendment package is complete. If the amendment is timely challenged, this amendment shall become effective on the date the state land planning agency or the Administration Commission enters a final order determining this adopted amendment to be in compliance."

_____ List of additional changes made in the adopted amendment that the State Land Planning Agency did not previously review.

_____ List of findings of the local governing body, if any, that were not included in the ordinance and which provided the basis of the adoption or determination not to adopt the proposed amendment.

_____ Statement indicating the relationship of the additional changes not previously reviewed by the State Land Planning Agency in response to the comment letter from the State Land Planning Agency.

Agenda Item N.2. 6/16/2026

SUBJECT

Public Hearing (LDCT-2026-2 Office Center Consistency) (Adoption Hearing) to consider the adoption of an ordinance amending the Land Development Code to clarify development parameters of the Office Center (OC) district to implement policies in the Comprehensive Plan. (No Fiscal Impact)

DESCRIPTION

This is a County-initiated request for an LDC text amendment to Chapter 2, Section 204, Standard Land Use Districts and Section 205, Table 2.1, Use Table for Standard Land Use Districts of the Polk County Land Development Code; Chapter 4, Section 401.02, Table 4.3, Use Table for Standard Land Use Districts for the Ronald Reagan Selected Area Plan; Chapter 4, Section 401.03, Table 4.8, Use Table for U.S. 27 Selected Area Plan Land Use Districts; Chapter 4, Section 401.04, Table 4.12, Allowable Uses for US Highway 98 SAP; and Chapter 4, Section 401.08, Table 401.08.01 Use Table for Southeast Polk SAP to achieve consistency with the Office Center (OC) and (OCX) Future Land Use Map designations in the Comprehensive Plan; amending Chapter 3, Conditional Uses, Section 303, Criteria for Conditional uses for Off-Site Agricultural Support Activities, Childcare Center, Financial Institutions, Governmental Facility, Research and Development, Sit-Down/Take-Out Restaurant, Leisure/Special Interest School, Technical/Vocational/Trade & Training School, and Veterinary Service to achieve consistency with the Office Center Future Land Use Map designation and Development Criteria in the Comprehensive Plan. State law requires one Planning Commission hearing, which was held on April 1, 2026, with a recommendation for approval by a 7:0 vote.

Section 163.3202, Florida Statutes (F.S.) requires the Board to adopt Land Development Code (LDC) regulations consistent with the implementation of the Polk County Comprehensive Plan. Amendments to the LDC require two public hearings before the Board to be adopted. This is the second of the two hearings.

Request:	An LDC text amendment to Chapter 2, Section 204, Standard Land Use Districts and Section 205, Table 2.1, Use Table for Standard Land Use Districts of the Polk County Land Development Code; Chapter 4, Section 401.02, Table 4.3, Use Table for Standard Land Use Districts for the Ronald Reagan Selected Area Plan; Chapter 4, Section 401.03, Table 4.8, Use Table for U.S. 27 Selected Area Plan Land Use Districts; Chapter 4, Section 401.04, Table 4.12, Allowable Uses for US Highway 98 SAP; and Chapter 4, Section 401.08, Table 401.08.01 Use Table for Southeast Polk SAP to achieve consistency with the Office Center (OC) and (OCX) Future Land Use Map designations in the Comprehensive Plan; amending Chapter 3, Conditional Uses, Section 303, Criteria for Conditional uses for Off-Site Agricultural Support Activities, Childcare Center, Financial Institutions, Governmental Facility, Research and Development, Sit-Down/Take-Out Restaurant, Leisure/Special Interest School, Technical/Vocational/Trade & Training School, and Veterinary Service to achieve consistency with the Office Center Future Land Use Map designation and Development Criteria in the Comprehensive Plan; providing for severability; providing an effective date.
Location:	n/a
Property Owner:	n/a
Parcel Size (Number):	n/a
Development Area:	n/a
Nearest Municipality:	n/a
DRC Recommendation:	Approval
Planning Commission Vote:	Approval 7-0

The change to Chapter 2, Section 204, Standard Land Use Districts of the Polk County Land Development Code is:

- Remove the statement in Section 204.B.6 that "*all development within the OC requires a Level 3 Review*."
- Move Office Center (OC) from Section 204.B, Non-residential Districts/Activity Centers to Section 204.C, Other Standard Land Use Districts.
- Expand on Office Center description to include medical offices, clinics, personal services, and other uses consistent with the Comprehensive Plan.

The changes to Chapter 2, Section 205, Table 2.1, Use Table for Standard Land Use Districts of the Polk County Land Development Code are to the following uses in the Office Center (OC) district:

- Multi-family – not permitted
- Agricultural, Off-site – change from C3 to C2 conditional use

- Funeral Home and Related Facilities – add C3 conditional use
- Government Facility - change from C3 to C2 conditional use
- Hospitals – not permitted
- Research and Development - change from C3 to C2 conditional use
- Restaurant, Sit-down/Take out – add C2 conditional use
- Retail 10,000 – 34,999 sq. ft. – not permitted
- Retail, Less than 10,000 sq. ft - change from C3 to C2 conditional use
- School, Leisure/Special Interest - add C2 conditional use

The changes to Chapter 3, Conditional Uses, Section 303, Criteria for Conditional Uses, of the Polk County Land Development Code are:

- Adding conditions to conform to POLICY 2.113-C4 Office Center Development Criteria for the following uses: Agricultural Support Activities, Off-site; Childcare Center; Financial Institutions; Governmental Facility; Research and Development; Restaurant, Sit-down/Take-out; School, Leisure/Special Interest; School, Technical/Vocational/Trade & Training; and Veterinary Service.

The changes to Chapter 4, Special Districts are to the Office Center (OCX) districts for:

- Ronald Reagan Selected Area Plan
- US 27 Selected Area Plan
- US 98 Selected Area Plan
- Southeast Polk Selected Area Plan

Summary:

Non-residential uses vary significantly in property needs based on visibility and accessibility. Activity Centers form at high volume intersections and are intended for the types of non-residential uses that need high visibility and high accessibility. However, there are many non-residential land uses that do not need high accessibility and thrive on moderate visibility. These are termed midblock non-residential uses. Staff are introducing changes to the Office Center (OC) Future Land Use Map category in the Comprehensive Plan under LDCPAL-2026-1 to restore the designation to its intended characteristics and location requirements as it was originally established in 2001. In 2012, the OC policies were amended based on limited input and analysis. The results of this change have significantly curtailed the amount of OC district establishments throughout the County which forced low-volume and typically midblock uses into properties intended for higher volume commercial. The proposed Comprehensive Plan amendment broadens the possible locations for OC districts.

This Land Development Code (LDC) text amendment is a follow-up to the broadening of locations to adjust the review requirements for specific uses enabled by the Comprehensive Plan policies to further reduce the constraints on utilization of the OC district. Each of the uses listed are considered to be low volume uses that do not need to be located at high volume intersections. Reducing the development burdens on these uses will incentivize their entrepreneurs to seek less costly midblock locations that fulfill their market needs by having fewer burdens and barriers. This amendment also implements the Development Criteria in POLICY 2.113-C4 of the Comprehensive Plan that were not clarified accurately in the LDC.

Data and Analysis Summary

Staff have monitored development within the OC districts and evaluated their effectiveness pre-2012 and post 2012. Staff identified numerous instances where the location and development policies prevented nonresidential uses from forming in appropriate locations. Staff surveyed counties along the I-4 corridor for regulatory comparisons because they are most closely similar to Polk. Some of the abutting counties are reviewed along with the two largest cities within the County (Lakeland and Winter Haven). Alachua and Duval counties are also reviewed because of similar demographic and urban-rural mixtures to Polk County. This method of selection creates a survey of 14 total local jurisdictions.

Findings of Fact

1. *The request is a Land Development Code text amendment to amendment to Chapter 2, Section 204, Standard Land Use Districts and Section 205, Table 2.1, Use Table for Standard Land Use Districts of the Polk County Land Development Code, Chapter 4, Section 401.02, Table 4.3, Use Table for Standard Land Use Districts for the Ronald Reagan Selected Area Plan, Chapter 4, Section 401.03, Table 4.8, Use Table for U.S. 27 Selected Area Plan Land Use Districts, Chapter 4, Section 401.04, Table 4.12, Allowable Uses for US Highway 98 SAP, and Chapter 4, Section 401.08, Table 401.08.01 Use Table for Southeast Polk SAP to achieve consistency with the Office Center (OC) and (OCX) Future Land Use Map designations in the Comprehensive Plan; amending Chapter 3, Conditional Uses, Section 303, Criteria for Conditional uses for Off-Site Agricultural Support Activities, Childcare Center, Financial Institutions, Governmental Facility, Research and Development, Sit-Down/Take-Out Restaurant, Leisure/Special Interest School, Technical/Vocational/Trade & Training School, and Veterinary Service to achieve consistency with the Office Center Future Land Use Map designation and Development Criteria in the Comprehensive Plan.*

2. *This amendment applies to all properties in the unincorporated areas applying for land subdivision, including the Green Swamp Area of Critical State Concern.*

3. *Comprehensive Plan POLICY 2.113-C4: DEVELOPMENT CRITERIA states that "Development within an Office Center shall conform to the following criteria:*

    a. *Development in Office Centers shall have frontage on, or direct access to, a collector or arterial roadway, or a frontage road or service drive which directly serves these roadways. Development within Office Centers shall incorporate the use of frontage roads or shared ingress/egress facilities wherever practical;*
    b. *Office Center expansions, new locations for Office Centers and development within Office Centers may front on or accessed via local roads if the subject parcel(s) is within a quarter mile of a collector or arterial road. If the local road is classified as residential then traffic from the OC shall not be permitted on the local road if there is residential traffic between the driveway for the OC and the collector roadway and until a waiver, per the requirements and standards in the LDC, is approved;*
    c. *Adequate parking shall be provided to meet the demands of the uses, and interior traffic-circulation patterns shall facilitate the safe movement of vehicular, bicycle, and pedestrian traffic;*
    d. *Buffering shall be provided where the effects of lighting, noise, and other such factors would adversely affect adjacent land uses. Parking lots, loading areas, dumpsters, utilities and air conditioning units, signage, etc. are examples of facilities which may require special buffering provisions; and*
    e. *Retail uses within an Office Center shall not exceed ten (10) percent of the total land area of the Office Center as the OC is meant for professional employment businesses."*

4. *Comprehensive Plan POLICY 2.113-C1: CHARACTERISTICS states that "Office Centers are intended to accommodate the office needs of the community they serve. They generally contain lawyer, real estate, engineering, and other professional offices. Medical offices and support offices are also allowable in this category."*

5. *Chapter 10 of the LDC defines **Agricultural Support, Off-Site** as "activities and uses related to the production of agricultural-related products, including, but not limited to, storage and maintenance of grove equipment and farm machinery, fertilizer application, grove installation and service, and farm-management services where such activities are off-site but accessory to a nearby general farming operation. Typical off-site Agricultural Support facilities may include, but are not limited to specialized agricultural service establishments performing storage and maintenance of grove equipment and farm machinery (not to include sales), fertilizer application, grove installation and service, and **farm management services."***

6. *Chapter 10 of the LDC defines **Childcare Center** as "a structure used to provide child care for any part of a day which receives a payment, fee, or grant for any of the children receiving care wherever operated whether or not operated for profit. The following are NOT included: public schools and nonprofit schools and their integral programs; summer camps having children in full-time residence; summer day camps, and Bible schools normally conducted during vacation periods."*

7. *Chapter 10 of the LDC defines **Funeral Home and Related Facilities** as "An establishment engaged in the preparation of human remains for burial or cremation, and ceremonies conducted both on and off site, for the dignified interment of deceased humans."*

8. *Chapter 10 of the LDC defines **Government Facility** as "A building or complex of buildings that houses public facilities, offices, or services. Typical uses include government-administration buildings, police, fire and emergency medical facilities."*

9. *Chapter 10 of the LDC defines **Research and Development** as "Activities typically involving processes or operations of an industrial nature, including establishments performing research and development on a contract basis as well as facilities performing proprietary research and development. Also permitted are testing centers, laboratories (including medical, dental, and other health service laboratories not accessory to a clinic or medical office), and business/industry training schools."*

10. *Chapter 10 of the LDC defines **Restaurant, Sit-down/Take out** as "An establishment whose principal business is the sale of food and beverages and where foods are: 1) served to customers at individual booths or tables, or 2) received by customers at a counter or bar. The customer may or may not consume the food on-site."*

11. *Chapter 10 of the LDC defines **School, Leisure/Special Interest** as "A facility engaged in the instruction of a particular leisure or special interest activity including, but not limited to, dance, karate, and crafts and arts schools. This provision excludes water ski schools."*

12. *Chapter 10 of the LDC defines **Financial Institutions** as "Institutions engaged in deposit banking and closely related functions such as the extension of credit by means of loans and underwriting, purchase, sale or brokerage of securities and other financial investments. Typically, the hours of a financial institution are between 8:00 AM and 5:00 PM Monday through Friday."*

13. *Chapter 10 of the LDC defines **School, Technical** as "The use of land, structures or buildings for the provision of training in various skills and may include but not be limited to business schools, trade schools and vocational schools."*

14. *Chapter 10 of the LDC defines **School, Vocational** as "An establishment which is offered, for compensation, instruction in a trade or craft, including, but not limited to, carpentry, masonry, metal working, machinery repair and operation, welding, fabrication and the like."*

15. *Chapter 10 of the LDC defines **School, Training** as "A facility engaged in the instruction of a particular discipline or skill including, but not limited to, auto driving instruction, aviation instruction, policeman instruction and firefighter instruction. This provision excludes water ski schools."*

16. *Chapter 10 of the LDC defines **Veterinary Service** as "Medical services, associated with a Doctor of Veterinary Medicine (D.V.M.), for animals kept as pets, or livestock."*

17. *Planning staff have reviewed the land development requirements of 12 central Florida counties that bear commonalities with Polk and the two largest municipalities in the County. Staff found that 10 out of the 14 jurisdictions have a separate and distinct office category in their zoning ordinance.*

18. *Of the 10 jurisdictions that had an office district or districts, all 10 listed professional offices, medical offices, and clinics in the permitted uses within the district. Eight permitted banks, seven permitted personal services, six permitted cultural facilities*

Development Review Committee Recommendation:

The Land Development Division, based on the information provided with the proposed text amendment application, finds that the proposed text change request is **CONSISTENT** with the Polk County Land Development Code and the Polk County Comprehensive Plan. Staff recommend **APPROVAL** of LDCT-2026-2.

*At an advertised public hearing on April 1, 2026, the Planning Commission reviewed the ordinance and **voted 7-0** to recommend **APPROVAL** to the Board of County Commissioners.*

Analysis

Introduction

Staff believe that the Office Center (OC) district is a vital land use classification for efficiently delivering needed services to residents within a community. The OC district can be located in close proximity to residential development and provide a step down in intensity between many other non-residential land uses and residential properties. Additionally, staff find that there are other uses besides professional offices that fit into the OC designation as listed in Policies 2.113-C1 through 2.113-C5 of the Comprehensive Plan. Staff also believe that lowering the barriers to development within OC districts delivers needed services to the public and incentivizes the efficient use of available properties.

This amendment combined with the changes to the Comprehensive Plan under case number LDCPAL-2026-1 will improve development within the OC district by providing a diversified spectrum of potential uses. With a wider variety of uses, individual businesses can complement other businesses within a given district.

Recommended Changes

The first step towards eliminating the barriers to development in the OC district is to remove the requirement that all developments undergo a Level 3 Review. This requires a change to Chapter 2, Section 204, Standard Land Use Districts, to remove the statement in Section 204.B.6 that "All development within the OC requires a Level 3 Review." Another change is for consistency. Activity Centers in the Comprehensive Plan require higher levels of review and analysis. Currently, OC is listed as an Activity Center, and it should not be. Activity Centers are located under SECTION 2.110

in the Comprehensive Plan. Office Centers are under SECTION 2.113B with Business Park Centers (BPC). This amendment will move Office Center (OC) from Section 204.B, Non-residential Districts/Activity Centers to Section 204.C, Other Standard Land Use Districts. The last change recommended to LDC Section 204 is to expand the Office Center description to include medical offices, clinics, personal services, and other uses consistent with the Comprehensive Plan. This better describes the intentions for the district. Among the many other applications of this Section of the regulations, it is quoted in all Land Use Verification Letters. This broader explanation will provide sellers with more information that will increase an OC district property's appeal to prospective buyers.

Staff identified a number of uses listed in the OC district that require more scrutiny than is beneficial to the public. Staff is recommending changes to Chapter 2, Section 205, Table 2.1, Use Table for Standard Land Use Districts that reduce the requirements from Level 3 Planning Commission Review to Level 2 Administrative Review for the following uses in the Office Center (OC) district:

- Agricultural, Off-site – change from C3 to C2 conditional use
- Funeral Home and Related Facilities – add C3 conditional use
- Government Facility - change from C3 to C2 conditional use
- Research and Development - change from C3 to C2 conditional use
- Retail, less than 10,000 sq. ft - change from C3 to C2 conditional use

Staff also recommend that the following prohibited uses be added for Administrative Review:

- Restaurant, Sit-down/Take out – add C2 conditional use
- School, Leisure/Special Interest - add C2 conditional use

These uses are allowed within the parameters of OBJECTIVE 2.113-C: OFFICE CENTERS of the Comprehensive Plan and will complement other permitted uses in an OC district.

Multi-family, Hospitals, and Retail 10,000 – 34,999 sq. ft. are inconsistent with the Development Criteria for OC designations in POLICY 2.113-C4 and SECTION 2.109 - LAND USE CATEGORIES AND OVERLAY DISTRICTS of the Comprehensive Plan. Therefore, they must be removed from the Use Table for OC. It misleads the public to leave them in the table because the Plan's prohibition of them supersedes the Code.

Another change needed to bring the LDC into compliance with the Comprehensive Plan is the addition of certain standards pertaining to POLICY 2.113-C4. This policy directs the LDC to embody certain development standards that can only be addressed in LDC Chapter 3, Conditional Uses, Section 303, Criteria for Conditional Uses. These include

- Agricultural Support Activities (Off-site) – OC districts are only intended for farm offices.
- Childcare Centers - may be no more than 10% of an office building or 10% of the total building square footage of an office park.
- Financial Institutions – drive thru facilities are not appropriate in OC districts due to proximity to residential uses.
- Governmental Facility – limited to only government office buildings.
- Research and Development – eliminate erroneous standards but require activity to be contained within enclosed buildings.
- Restaurant, Sit-down/Take-out – limit to 10 percent of an OC district.
- School, Leisure/Special Interest - require activities to be contained within enclosed buildings
- School, Technical/Vocational/Trade & Training, - eliminate redundancy and require activities to be contained within enclosed buildings.
- Veterinary Service - require activities to be contained within enclosed buildings.

There are four Selected Area Plans that have OC districts within them. Ronald Reagan, North US 27, US 98, and Southeast Polk Selected Area Plans. These should be consistent with Table 2.1 for OC districts.

Benefit-cost Analysis of the Amendment

Who does it help?

This amendment combined with LDCPAL-2026-1 will provide better alternatives for entrepreneurs seeking locations for their offices, personal service establishments, and medical facilities. Additionally, it infuses some uses that are complementary to OC district uses. This amendment lowers many regulatory requirements and barriers for low volume non-residential land uses in the Office Center (OC and OCX) districts. The lowering of regulatory barriers along with increasing potential locations for office and office type uses makes these endeavors more feasible. It also prevents expensive high volume/high accessibility retail locations from being clogged with low volume uses that do not need the more accessible and visible sites.

Who does it hurt?

Office Center districts can fit well along collector roads on parcels isolated by surrounding subdivision developments or along corridors that are transitioning to major thoroughfares where single-family housing once lined the roadway. However, when lots are shallow or small there is concern that the non-residential development close to existing residents can create a nuisance due to an increase in intensity. This amendment is removing requirements for Planning Commission approval (Level 3 Review) for many of the conditional uses. This is why it is important that there be safeguards such as the Compatibility Standards in Section 220 and the individual use standards in Section 303 Criteria for Conditional Uses. Maintaining distances, screening and buffering, and keeping all activity within enclosed structures is essential for maintaining a good relationship between non-residential and residential uses.

What is the cost?

This amendment lowers development costs for uses that are not likely to cause detriment to nearby or abutting residential development as long as current compatibility standards and performance requirements for OC districts are met. It removes regulatory barriers that have been found to serve very little public service. The lowering of regulatory barriers along with increasing potential locations for office and office type uses will improve the tax base.

Regulatory History

The County's first zoning ordinance was adopted November 4, 1970 (Ord. 70-03). It had three non-residential districts: General Commercial (GC), Mixed Commercial/Industrial (MIC), and General Industrial (GI). On November 23, 1971, GC and MIC districts were replaced by six commercial districts: Neighborhood Service Centers (C-1), Area Service Centers (C-2), Regional Service Centers (C-3), General Commercial (C-4), Highway Service Commercial (C-5), and Commercial/ Recreation Resort Areas (C-6). It is not until 1983, with the adoption of Ordinance 83-02, that the Office (OF) district is introduced. It permitted Offices and Clinics by right. Financial Institutions, Day-Care Centers, Private Schools, Business and Trade Schools, and Studios for Artists, Dancers, and Photographers were conditional uses that required Board approval. It limited buildings to no greater than 3,000 square feet. Buffers were required when abutting single-family dwellings.

Neither the Comprehensive Plan nor the Land Development Code (LDC) had an Office category until after the LDC was effective. The LDC became effective on September 1, 2000. The Office Center category was not added to the Comprehensive Plan and LDC until July 25, 2001. This district had early success throughout the County providing alternatives for entrepreneurs seeking business locations in mid-block areas rather than being obligated toward high-volume intersections with higher land costs. Dentists, doctors, and beauty salons found these locations very lucrative for meeting the needs of their clientele while not overpaying for locational attributes their business did not need. High-volume intersections are best occupied by uses that are needed on a daily or weekly basis. Businesses that are visited less frequently do not need such high accessibility properties.

The Board developed concerns for the OC land use category in 2012. It was feared by some that the use was becoming too prevalent in one portion of the County. The OC designation was altered in the Comprehensive Plan to significantly restrict the locational possibilities and the uses allowed within were reduced and curtailed. The basis for the Board's decision came from a very small and homogeneous area of the County. The community input came from a small group of citizens in that area, and their motives were not well vetted. Over time, this led to a lack of available commercial properties all over the County. Today, more land is needed to meet the demand for services of a growing population but there are fewer properties available. This land use category needs to be modified so that it is applicable to more locations and available to more business opportunities.

Limits of the Proposed Ordinance

This amendment applies to all lands within the unincorporated areas of Polk County including the Green Swamp Area of Critical State Concern. There are Office Center districts in the North US Highway 27 Selected Area Plan and the Polk City Special Protection Area. This amendment will be forwarded to Florida Commerce for the statutorily required 45-day review.

Comparisons to other Jurisdictions

Staff commonly survey counties along the I-4 corridor for regulatory comparisons because they are most closely similar to Polk. Some of the abutting counties are reviewed along with the two largest cities within the County (Lakeland and Winter Haven). Alachua and Duval counties are also reviewed because of similar demographic and urban-rural mixtures to Polk County. This method of selection creates a survey of 14 total local jurisdictions. Polk County has a rare form of land use regulation with its direct connection between the Comprehensive Plan Future Land Use Map and the zoning and land development policies. While there are not many jurisdictions that have office designations called out in their comprehensive plans, the use of an office district in a zoning ordinance is more typical. Out of the 14 jurisdictions surveyed, all but four (4) did not have a separate and distinct office category in their zoning ordinance.

Table 1

Jurisdiction *(Code citation)*	**Is there an Office Zoning Category?**	**What uses are permitted and conditional within the Office district(s)**
Alachua County *Section 403.11, 404.08*	Administrative and professional (AP) district	Residential over Office Affordable Multifamily Housing Assisted Living/Nursing Home Childcare facilities Educational facility, vocational, business or technical school; college or university Government Buildings and facilities Funeral homes Museum Medical clinic or lab

Table 1

Jurisdiction *(Code citation)*	**Is there an Office Zoning Category?**	**What uses are permitted and conditional within the Office district(s)**
		Business and professional services Bank or financial institution Personal services Gym or fitness center Dance, art, or similar studio
Brevard County *62-1255*	No.	n/a
Duval County *Section 656.311*	Commercial Office (CO) District Commercial, Residential and Office (CRO) District Residential Office (RO) District	Medical, dental, chiropractic, professional or business offices, cosmetology, childcare, Vocational, trade or business schools, Libraries, museums and community centers. Art galleries, dance, art, gymnastics, fitness centers, martial arts and music studios, and theaters for stage performances (but not motion picture theaters). Bed and Breakfasts.
Hardee County *Sec. 3.02.00*	No.	n/a
Highlands County *Section 12.05.244*	Office (O) district.	Professional Offices, Banks, and Libraries. Medical and churches are special exceptions.
Hillsborough County *Section 2.01.02, 2.02.02*	Office Residential (OR) district.	Professional and Medical Offices, Clinics, Funeral Homes, Photography and Broadcasting Studious, Wedding Chapels, Personal Services, Government Offices.
Lake County *Sec. 3.00.00, 3.01.00*	No.	n/a
Manatee County *Section 401.1*	Professional Small (PR-S) district. Medium Office (PR-M) district.	Professional and Medical Offices, Banks, Bed and Breakfast, Clinics, Cultural Facilities, Personal Services, Government Offices, Veterinary Clinic.
Orange County *Section 38-801 thru 38-809* *Section 38-77 Use Table*	Professional Office (P-O) District	Professional and Medical Offices, Banks, Bed and Breakfast, Funeral Services, Clinics, Movie Production Studios, Personal Services, Government Offices, Research and Development.
Osceola County *Chapter 3, Article 3.2, 3.4*	Commercial Office (CO) district	Professional and Medical Offices, Banks, Bed and Breakfast, Crematorium, Clinics, Educational Facilities, Personal Services, Government Offices, Dance, Karate, Art, or Similar Afterschool Care Studio, Childcare, Retail Sales and Services, Veterinary Clinic.
Seminole County *Sec. 30.2.1, 30.4.14,*	Office (OP) district	Professional and Medical Offices, Clinics, Hospitals, Banks, all educational facilities, Funeral Home,
Volusia County *Section 72-241*	General Office, Hospital-Medical (B-1) district	Professional and Medical Offices, Clinics, Hospitals, Banks, Childcare, Personal Services, Libraries, Cultural Centers, Trade Schools, Veterinary Clinics,
City of Lakeland *Sec. 2.2, and 2.3-1*	Low Impact Office (O-1) District Limited Impact Office (O-2) District Moderate Impact Office (O-3) District	Professional and Medical Offices, Multifamily, Bed and Breakfast, Hotels, Banks, Personal Services, Music & Dance Studios, Research and Development, Veterinary Clinics, Neighborhood Convenience Centers.
City of Winter Haven *Sec. 21-31, 21-33*	No.	n/a

Of the jurisdictions surveyed that had office districts, all listed professional offices, medical offices, and clinics in the permitted uses. Most permitted personal services (7), banks (8), and cultural facilities (6). Many of them allow veterinary clinics (4), research and development (3), vocational training (3), funeral services (3), and childcare (3). Some even allow more intense uses such as hospitals, event facilities, and retail uses. However, those were with multiple levels of office categories. Staff found from this survey that office zoning categories can be more broadly used to provide opportunities for other low-volume low-intensity non-residential land uses to coexist with the typical office district uses. Staff considered splitting the OC district into sub-districts to further

broaden the OC list of uses, but the uses considered for the upper tier would require more modification to the Comprehensive Plan policies.

Consistency with the Comprehensive Plan

The primary purpose for this Land Development Code (LDC) text amendment is to align the LDCs more specific development and use standards with the development criteria in Comprehensive Plan POLICY 2.113-C4, and the changes proposed to OBJECTIVE 2.113-C for the Office Center (OC) Future Land Use Map designation under the proposed Comprehensive Plan amendment (CPA) in case number LDCPAL-2026-1. These changes proposed in this LDC text amendment will correspond with the effective date of the CPA amendment adoption scheduled for June 16, 2026.

Consistency with the Florida Statutes

With the adoption of LDCPAL-2026-1, these proposed LDC text amendments will be consistent with Chapter 163 of the Florida Statutes.

Comments from Other Agencies: None.

Draft Ordinance: under separate attachment

ORDINANCE NO. 26-_____

AN ORDINANCE OF THE BOARD OF COUNTY COMMISSIONERS, POLK COUNTY, FLORIDA, LAND DEVELOPMENT CODE AMENDMENT **LDCT-2026-2**, AMENDING ORDINANCE NO. 00-09, AS AMENDED, THE POLK COUNTY LAND DEVELOPMENT CODE, AMENDING CHAPTER 2, SECTION 204, STANDARD LAND USE DISTRICTS, AND SECTION 205, TABLE 2.1, USE TABLE FOR STANDARD LAND USE DISTRICTS OF THE POLK COUNTY LAND DEVELOPMENT CODE; CHAPTER 4, SECTION 401.02, TABLE 4.3, USE TABLE FOR STANDARD LAND USE DISTRICTS FOR THE RONALD REAGAN SELECTED AREA PLAN; CHAPTER 4, SECTION 401.03, TABLE 4.8, USE TABLE FOR U.S. 27 SELECTED AREA PLAN LAND USE DISTRICTS; CHAPTER 4, SECTION 401.04, TABLE 4.12, ALLOWABLE USES FOR US HIGHWAY 98 SAP; AND CHAPTER 4, SECTION 401.08, TABLE 401.08.01, USE TABLE FOR SOUTHEAST POLK SAP TO ACHIEVE CONSISTENCY WITH THE OFFICE CENTER (OC) AND (OCX) FUTURE LAND USE MAP DESIGNATIONS IN THE COMPREHENSIVE PLAN; AMENDING CHAPTER 3, CONDITIONAL USES, SECTION 303, CRITERIA FOR CONDITIONAL USES FOR OFF-SITE AGRICULTURAL SUPPORT ACTIVITIES, CHILDCARE CENTER, FINANCIAL INSTITUTIONS, GOVERNMENTAL FACILITY, RESEARCH AND DEVELOPMENT, SIT-DOWN/TAKE-OUT RESTAURANT, LEISURE/SPECIAL INTEREST SCHOOL, TECHNICAL/VOCATIONAL/TRADE & TRAINING SCHOOL, AND VETERINARY SERVICE TO ACHIEVE CONSISTENCY WITH THE OFFICE CENTER FUTURE LAND USE MAP DESIGNATION AND DEVELOPMENT CRITERIA IN THE COMPREHENSIVE PLAN; PROVIDING FOR SEVERABILITY; PROVIDING AN EFFECTIVE DATE.

WHEREAS, pursuant to Article VIII, Section I(g) of the Constitution of the State of Florida and the Local Government Comprehensive Plan and Land Development Regulation Act, Chapter 163, Part II, Florida Statutes (FS), as amended, (the Act) Polk County is authorized and required to adopt Land Development Regulations consistent with the Polk County Comprehensive Plan; and

WHEREAS the Board of County Commissioners adopted said Land Development Regulations on March 1, 2000, titled the Polk County Land Development Code; and

WHEREAS, Chapter 9, Section 903 of the Land Development Code requires Land Development Code Amendments to be a Level 4 Review; and

WHEREAS, Chapter 9, Section 907 sets forth the purpose and review process for Level 4 Reviews; and

WHEREAS, pursuant to Section 125.67 of the Florida Statutes, every ordinance shall embrace but one subject and matter properly connected therewith; and

WHEREAS, pursuant to Section 163.3164 of the Florida Statutes, the Polk County Planning Commission conducted a public hearing, with due public notice having been provided, on the proposed Land Development Code Amendment on April 1, 2026; and

WHEREAS the proposed text amendment to the Polk County Land Development Code is intended to clarify development parameters of the Office Center (OC) district to implement the policies in the Comprehensive Plan thereby achieving certainty and consistency throughout the code; and

WHEREAS, the Board of County Commissioners, reviewed and considered all comments received during said public hearing, and provided for necessary revisions; and

NOW, THEREFORE, BE IT ORDAINED by the Board of County Commissioners of Polk County, Florida that:

> *NOTE:* The underlined text indicates proposed additions to the current language. The ~~strikeout~~ indicates text to be removed from the current ordinance.

SECTION 1: FINDINGS The findings set forth in the recitals to this Ordinance are true and correct and hereby adopted. In addition, the Board hereby adopts and incorporates herein the staff report and makes the following findings based upon the staff report, testimony, and exhibits presented during the hearing:

a) The Planning Commission, acting in its capacity as the Local Planning Agency for the County, held a public hearing on April 1, 2026. to consider the LDC text amendment contained within the Application and found it to be consistent with the Comprehensive Plan and recommended that the Board adopt the LDC text amendment contained within the Application.

b) Pursuant to Section 907.D.10 of the LDC, the Board shall, in the review of the Application, consider the following factors:

   a. Whether the proposed text amendment is consistent with all relevant requirements of the Code;
   b. Whether the proposed text amendment is consistent with all applicable policies of the Comprehensive Plan; and
   c. Any other matter which the BoCC may deem appropriate and relevant to the text amendment proposal.

c) The Application is consistent with all relevant requirements of the Comprehensive Plan.

d) The Application is consistent with all relevant requirements of the LDC, including without limitation, Section 907.

SECTION 2: Chapter 2, Section 204, Standard Land Use Districts of the Polk County Land Development Code, Polk County Ordinance No. 00-09, as amended, is hereby amended to change Section 204.B, Non-residential Districts/Activity Centers and Section 204.C, Other Standard Land Use Districts in the following manner:

B. **Non-residential Districts/Activity Centers** (Revised 7/25/01 - Ord. 01-57)

1. Rural Cluster Center (RCC): The purpose of the RCC district is to provide locations in the rural area for the placement of retail and service establishments to accommodate the daily shopping needs of rural residents. The RCC district permits commercial and office uses at an intensity and scale necessary to provide the immediate rural population with retail and personal services, agricultural support uses, and community facilities.
2. Convenience Center (CC): The purpose of the CC district is to provide for the convenience shopping needs of residents within an immediate surrounding area. The CC district permits non-residential uses such as offices, convenience stores, gas stations, dry cleaners and community facilities.
3. Neighborhood Activity Center (NAC): The purpose of the NAC district is to provide for the daily shopping needs of residents within neighborhoods surrounding the center. The NAC district non-residential uses such as offices, grocery stores, drug stores banks and community facilities.
4. Community Activity Center (CAC): The purpose of the CAC district is to provide for shopping needs of residents living within a surrounding community. The CAC district permits special residential development, non-residential uses such as offices, department stores, supermarkets, restaurants and community facilities.
5. Regional Activity Center (RAC): The purpose of the RAC district is to provide for the regional shopping needs of residents. The RAC district permits special residential development, regional shopping centers, other regional attractors and community facilities.
6. ~~Office Center (OC): The purpose of the OC district is to provide areas for small offices. The OC district permits professional offices and some retail uses. All development within the OC requires a Level 3 Review.~~

C. **Other Standard Land Use Districts** (Revised: 3/18/14 - Ord. 14-015; 7/29/02 - Ord. 02-51)

1. Linear Commercial Corridor (LCC): The purpose of the LCC district is to recognize existing linear concentrations of commercial, office, institutional, and industrial uses along roadways.
2. Business Park Center-1 (BPC-1): The purpose of the BPC-1 district is to provide areas for office and business park development. The BPC-1 district permits office, research and development parks, distribution centers and wholesaling activities. Some retail uses are also permitted to support the businesses and activities within the Business Park Center.
3. Business Park Center-2 (BPC-2): The purpose of the BPC-2 district is to provide areas for light-industrial activities. The BPC-2 district permits light manufacturing, fabrication, assembly, distribution and wholesaling activities, and some retail uses to support the businesses and activities within the Business Park Center.
4. Commercial Enclave (CE): The purpose of the CE district is to recognize existing concentrations of commercial and office uses located outside of Activity Centers

and Linear Commercial Corridors, whose future development or redevelopment is consistent with the Polk County Comprehensive Plan.

5. High-Impact Commercial Center (HIC): The purpose of the HIC district is to provide areas for non-retail businesses and service establishments that may generate substantial truck traffic, noise, odor, and visual impacts to adjacent properties. The HIC district permits a range of non-residential service establishments and general retail uses to support the businesses and activities.
6. Industrial (IND): The purpose of the IND district is to provide areas for general manufacturing, processing, and distribution of goods. General commercial uses necessary to support the industrial area are also permitted.
7. Phosphate Mining (PM): The purpose of the PM district is to provide areas for phosphate mining operations, phosphate mining support facilities, and other uses that are compatible with and related to phosphate mining and its allied uses.
8. Leisure/Recreation (L/R): The purpose of the L/R district is to provide for facilities and areas oriented primarily towards providing recreation-related services for residents and short-term visitors.
9. Institutional-1 (INST-1): the purpose of the INST-1 district is to provide for the use and development of lands for private and public service structures with minimal external impacts such as elementary and middle schools, government facilities, cultural facilities, hospitals, and Class I and Class II utilities.
10. Institutional-2 (INST-2): the purpose of the INST-2 district is to provide for the use and development of lands for private and public service structures which are characterized primarily by outdoor activities such as high schools, government vehicle maintenance facilities, Class III utilities, solid waste management facilities, and prisons.
11. Recreation and Open Space (ROS): The purpose of the ROS district is to provide for the use and development of lands and areas which are accessible to the public, and which are oriented towards providing recreational activities and services for County residents and visitors.
12. Preservation Areas (PRESV): The purpose of the PRESV district is to provide for the preservation of public or privately owned preservation areas, either obtained for long-term protective purposes, containing sensitive and unique vegetative or animal habitats, or publicly accessible property intended for long-term open space purposes.
13. Tourism-Commercial Center (TCC): The purpose of the TCC district is to provide areas for tourism activities, recreation, and tourist-related commercial establishments. The TCC district permits commercial amusement activities, lodging facilities, service stations, restaurants, gift shops and ancillary non-residential uses to the tourism industry.
14. Office Center (OC): The purpose of the OC district is to provide areas for small offices. The OC district has professional and medical offices, clinics, personal services and limited low volume retail and service uses.

SECTION 3: Chapter 2, Section 205, Table 2.1, Use Table for Standard Land Use Districts of the Polk County Land Development Code, Polk County Ordinance No. 00-09, as amended, is hereby amended to change the use table for the Office Center (OC) Future Land Use Map category in the following manner:

Multi-family – not permitted
Agricultural, Off-site – change from C3 to C2 conditional use
Funeral Home and Related Facilities – add C3 conditional use
Government Facility - change from C3 to C2 conditional use
Hospitals – not permitted
Research and Development - change from C3 to C2 conditional use
Restaurant, Sit-down/Take out – add C2 conditional use
Retail 10,000 – 34,999 sq. ft. – not permitted
Retail, Less than 10,000 sq. ft - change from C3 to C2 conditional use
School, Leisure/Special Interest - add C2 conditional use

SECTION 4: Chapter 3, Conditional Uses, Section 303, Criteria for Conditional Uses, of the Polk County Land Development Code, Polk County Ordinance No. 00-09, as amended, is hereby amended to change the following sub-sections:

Section 303 - Criteria for Conditional Uses

The following land uses are conditional uses and are arranged in alphabetical order for presentation purposes.

…

Agricultural Support Activities, Off-site (Revised 01/30/03 - Ord. 03-14)

1. Within the RS and RCC-R districts, approval of an off-site agricultural support activity shall not impede the orderly development of the surrounding area for residential uses.
2. For all proposed off-site agricultural support facilities, the applicant shall demonstrate a need for the agricultural support facility to be located in the proposed area, and that the proposed agricultural support facility is limited to an intensity and scale necessary to provide support services to agricultural uses within the general support service area.
3. Within OC districts (including OCX), agricultural support activity shall be limited to farm offices.

…

Childcare Center

In addition to the applicable district regulations in Table 2.2, the following standards shall apply:

1. Childcare centers with a licensed capacity of more than 25 children shall not have direct access to a local residential street.
2. A drop-off/pick-up area shall be designated to provide a one-way traffic circulation pattern on the site.
3. There shall be a minimum of 45 square feet of usable, safe outdoor play area per child.

Play area shall be calculated at the rate of 45 square feet per child in any group using the play area at one time. A minimum play area shall be provided for one half of the licensed capacity of the childcare center.

4. The outdoor play area shall be fenced to a minimum height of four feet for childcare centers with a licensed capacity of 25 or fewer children. Those centers with a licensed capacity of more than 25 children shall provide a minimum five foot high fence around the outdoor play area.
5. Development and operation of a childcare center shall conform to the standards contained in the Polk County Child Care Center Regulation (Ord. 87-03, as amended), and all applicable state licensing requirements.
6. Within OC districts (including OCX), childcare centers may be no more than 10% of an office building or 10% of the total building square footage of an office park.

…

Financial Institutions

In addition to the applicable district regulations in Table 2.2, the following standards shall apply:

1. Drive-thrus are not permitted in Office Center (OC) districts.

…

Governmental Facility (Revised 03/19/08 - Ord. 08-005; 06/08/04 Ord. 03-94)

In addition to the applicable district regulations these requirements apply ~~to all new development~~:

1. At a minimum, a visual buffer equal to a Type B buffer (see Section 720) shall be provided between the facility and adjacent residential properties and public roads.
2. All access points shall have at a minimum 50 feet of road frontage and be located on a local commercial or collector road meeting County standards.
3. All structures in residential districts shall be constructed in character with the adjacent neighborhood.
4. All structures in residential districts shall limit any on-site lighting in character with adjacent neighborhoods.
5. Government facilities shall be limited to government offices in Office Center (OC) (including OCX) districts.

…

Research and Development (Revised 5/1/18 - Ord. 18-025; 4/4/02 - Ord. 02-17)

In addition to the applicable district regulations these requirements apply ~~to all new development~~:

~~1. Within existing BPC and IND land use districts~~
   ~~a. All proposed uses and structures shall support the surrounding facilities.~~
   ~~b. All structures shall not exceed fifteen percent of the existing BPC or IND land use.~~
~~2. All structures shall connect to water and sewer facilities.~~
~~3. Research and Development may be permitted within the LCC district as infill when there is an existing Research and Development use on at least two sides of the subject site.~~

~~Additionally, all development within the LCC district shall comply with Section 205 H. of this Code as applicable.~~

1. All activity shall be conducted within enclosed structures in BPC and OC (including BPCX and OCX) districts.

…

Restaurant, Sit-down/Take-out (Revised 11/16/10 - Ord. 10-079; 4/4/02 - Ord. 02-17)

In addition to all applicable regulations the following standards shall apply:

1. Within existing BPC and IND land use districts:
   a. All proposed uses and structures shall support the surrounding facilities.
   b. All structures shall not exceed fifteen percent of the existing developed BPC or IND land use, and the restaurant is an accessory use that supports an existing BPC or IND use.
2. All structures shall connect to water and sewer facilities.
3. All on-site garbage collection facilities shall be screened from any adjacent property.
4. Within OC districts (including OCX), Restaurant, Sit-down/Take-out uses shall comprise no more than ~~20~~ 10 percent of ~~the overall district~~ an Office Park.

…

School, Leisure/Special Interest (Revised 08/05/2014 - Ord. 14-045;12/28/01 - Ord. 01-92)

In addition to the applicable district regulations these requirements shall apply ~~to all new and existing developments proposing to add a leisure/Special Interest School~~:

1. In residential districts, leisure/special interest schools shall be accessory to multi-family developments limited to no illuminated signage and placed in a location subordinate and incidental to the development such as a clubhouse, community room, meeting place or recreational facility.
2. In residential districts, leisure/special interest schools shall be considered home occupations (See Section 206 E., Accessory Uses) if instruction is provided within an occupied residence and for no more than four (4) pupils at a time. Otherwise, a Level 3 Review shall be required.
3. In non-commercial districts hours of operation shall be limited on a case by case basis.
4. There shall be at a minimum 50 feet road frontage, and all access points shall be on a collector road or better if use generates 50 or more Average Annual Daily Trips (AADT). If the Leisure/Special Interest School generates more than 50 AADT based on the Institute of Traffic Engineers (ITE) Rate-Land Use Code, the applicant has the option to provide a detailed study demonstrating that a lower trip generation rate can be achieved. The methodology shall be subject to approval by the Polk Transportation Planning Organization (TPO) and follow the guidelines as set forth in Appendix "C" of this Code.
5. All proposed parking facilities shall be setback at least 25 feet from adjacent residential property.
6. Overflow parking shall be provided if performances are given within the facility; however, design and composition may be based on the frequency of events, location and character of the surrounding area.

7. All activity shall be conducted within enclosed structures in Office Center (OC) districts (including OCX).

School, Technical/Vocational/Trade & Training (Revised 04/13/05 - Ord. 05-01; 12/28/01 - Ord. 01-92)

In addition to the applicable district regulations, the following standards shall apply:

1. The classes shall be located where the applicable activity being taught is permitted. (e.g., a trade school with instruction in machinery repair shall only be allowed where machinery repair is permitted); and
2. Outdoor activity shall provide a minimum Type B Buffer between abutting residential districts.
3. Applicants for schools proposed in A/RR Districts Shall provide adequate and sufficient justification to demonstrate why a specific location is necessary as it pertains to the instruction provided.
4. Facilities incorporating uses that emit excessive noise, light, odor, dust, gas, or vibration shall be adequately buffered and setback from property lines in order to mitigate offsite disturbances or nuisance.
5. All activity shall be conducted within enclosed structures in Office Center (OC) districts (including OCX).

~~**School, Training** (Revised 04/13/05 - Ord. 05-01; 12/28/01 - Ord. 01-92)~~

~~In addition to the applicable district regulations, the following standards shall apply:~~

~~1. The classes shall be located where the applicable activity being taught is permitted (e.g., truck driving school shall be allowed in the districts where motor freight terminals are permitted); and~~
~~2. Outdoor activity shall provide a minimum Type B buffer between abutting residential districts.~~
~~3. Applicants for schools proposed in A/RR Districts Shall provide adequate and sufficient justification to demonstrate why a specific location is necessary as it pertains to the instruction provided.~~
~~4. Facilities incorporating uses that emit excessive noise, light, odor, dust, gas, or vibration shall be adequately buffered and setback from property lines in order to mitigate offsite disturbances or nuisance.~~

…

Veterinary Service (Rev 8/15/07 - Ord. 07-44; 01/30/03 - Ord. 03-14)

In addition to the applicable district regulations ~~in Table 2.2~~, the following standards shall apply:

1. All new veterinary service facilities shall be adjoining the right-of-way of an arterial or paved collector road.
2. All new facilities shall be located no closer than 25 feet from any property boundary adjacent to residential districts (RL, RM, RH, RS, RCC-R).
3. In Office Center (OC) districts, veterinary services shall be limited to stand-alone structures that are separated a minimum of 25 feet from the property lines as well as another structure on site.
4. In OC districts, veterinary services shall be limited to animals of less than 200 pounds of

weight.

5. In OC districts, veterinary services shall require a Level 3 Review if any structure is within 120 feet of a residential structure.

6. All activity shall be conducted within enclosed structures in Office Center (OC) districts (including OCX).

…

SECTION 5: Chapter 4, Section 401.02, Table 4.3, Use Table for Standard Land Use Districts for the **Ronald Reagan Selected Area Plan**, Polk County Ordinance No. 00-09, as amended, is hereby amended to change the use table for the Office Center (OC) Future Land Use Map category in the following manner:

Multi-family – not permitted
Funeral Home and Related Facilities – change from C3 to C2 conditional use
Government Facility - change from C3 to C2 conditional use
Hospitals – not permitted
Recreation & Amusement Intensive – not permitted
Restaurant, Sit-down/Take out – add C2 conditional use
Retail 5,000 – 34,999 sq. ft. – not permitted
Retail, Less than 5,000 sq. ft - change from C3 to C2 conditional use
School, Leisure/Special Interest - change from C3 to C2 conditional use

SECTION 6: Chapter 4, Section 401.03, Table 4.8, Use Table for **U.S. 27 Selected Area Plan** Land Use Districts, Polk County Ordinance No. 00-09, as amended, is hereby amended to change the use table for the Office Center (OC) Future Land Use Map category in the following manner:

Multi-family – not permitted
Childcare Center – change from C3 to C2 conditional use
Emergency Shelter, Large (15 more residents) – not permitted
Financial Institution – change from permitted to C1 conditional use
Government Facility - change from C3 to C2 conditional use
Research and Development - change from C3 to C2 conditional use
Retail 5,000 – 34,999 sq. ft. – not permitted

SECTION 7: Chapter 4, Section 401.04, Table 4.12, Allowable Uses for **US Highway 98 SAP**, Polk County Ordinance No. 00-09, as amended, is hereby amended to change the use table for the Office Center (OC) Future Land Use Map category in the following manner:

Agricultural, Off-site – change from C3 to C2 conditional use
Childcare Center – change from C3 to C2 conditional use
Funeral Home and Related Facilities – add C3 conditional use
Government Facility - change from C3 to C2 conditional use
Printing and Publishing - change from C3 to C2 conditional use
Research and Development - change from C3 to C2 conditional use
Retail 5,000 – 34,999 sq. ft. – not permitted
Retail, Less than 5,000 sq. ft - change from C3 to C2 conditional use
School, Leisure/Special Interest - change from C3 to C2 conditional use
School, Technical/Vocational/Trade & Training - add C2 conditional use

SECTION 8: Chapter 4, Section 401.08, Table 401.08.01 Use Table for SE Polk SAP, Polk County Ordinance No. 00-09, as amended, is hereby amended to change the use table for the Office Center (OC) Future Land Use Map category in the following manner:

Multi Family (5 units or more per building) – not permitted
Agricultural, Off-site – change from C3 to C2 conditional use
Funeral Home and Related Facilities – add C3 conditional use
Government Facility - change from C3 to C2 conditional use
Recreation & Amusement, General – not permitted
Research and Development - change from C3 to C2 conditional use
Restaurant, Sit-down/Take out – add C2 conditional use
Retail 5,000 – 34,999 sq. ft. – not permitted
Retail, Less than 5,000 sq. ft - change from C3 to C2 conditional use
School, Leisure/Special Interest - add C2 conditional use

SECTION 9: SEVERABILITY

If any provision of this Ordinance is held to be illegal, invalid, or unconstitutional by a court of competent jurisdiction the other provisions shall remain in full force and effect.

SECTION 10: EFFECTIVE DATE

This ordinance shall become effective upon filing with the Department of State.

ENACTED BY THE BOARD OF COUNTY COMMISSIONERS OF POLK COUNTY, FLORIDA this _____ day of _____, 2026.

Polk County

Board of County Commissioners

Agenda Item N.3. 6/16/2026

SUBJECT

Public Hearing (LDCPAS-2025-36 Hwy 540A OCX CPA) (Adoption Hearing) to consider the adoption of a Small-Scale Comprehensive Plan Amendment to change Future Land Use Map designation from Residential Suburban-X (RSX) to Office Center-X (OCX) on 1.35± acres.

DESCRIPTION

This is an applicant-initiated request for property located on the north side of Hwy 540A east of Strickland Avenue, west of Crews Lake Road and south of Clubhouse Road, southeast of the City of Lakeland and northwest of the City of Bartow, in Section 14, Township 29, Range 24. State law requires one Planning Commission hearing, which was held June 3, 2026, with a recommendation for approval (7:0).

POLK COUNTY DEVELOPMENT REVIEW COMMITTEE STAFF REPORT

DRC Date:	February 26, 2026
Planning Commission Date:	June 6, 2026
BoCC Dates:	June 16, 2026
Applicant:	Tim Campbell, Clark, Campbell, Lancaster, Workman, & Airth, P.A.
Level of Review:	Level 4 Review, Comprehensive Plan Map Amendment
Case Number and Name:	LDCPAS-2025-36 Hwy 540A OCX CPA
Request:	Small Scale Comprehensive Plan map amendment from Residential Suburban-X (RSX) to Office Center-X (OCX) on 1.35± acres in the Suburban Development Area (SDA).
Location:	The site is located on the north side of Hwy 540A east of Strickland Avenue, west of Crews Lake Road and south of Clubhouse Road, southeast of the City of Lakeland and northwest of the City of Bartow, in Section 14, Township 29, Range 24
Property Owner:	IT Land Investments LLC
Parcel Size:	1.35± acres (242914-282500-006006)
Development Area/Overlays:	Suburban Development Area (SDA) in the US 98 Selected Aria Plan (SAP)
Future Land Use:	Residential Suburban-X (RSX)
Nearest Municipality	Lakeland
DRC Recommendation:	Approval
Planning Commission Vote:	Approval (7:0)
Case Planner:	Robert Bolton, Planner III

Location

Current Future Land Use

Summary of Analysis

This is an applicant request for a Small Scale Comprehensive Plan Amendment (LDCPAS-2026-36) to change the Future Land Use Designation from Residential Suburban-X (RSX) to Office Center-X (OCX) on 1.35± acres in the Suburban Development Area (SDA) and in the US 98 Selected Area Plan (SAP). The site is located on the north side of CR 540A (Central Barn Road), approximately 0.85 feet on the north side of CR 540A (Central Barn Road), approximately 0.85 miles west of US Highway 98 S (Bartow Highway) southeast of the City of Lakeland, in Section 14, Township 29, Range 24.

Compatibility Summary

The site is located on the north side of CR 540A (Central Barn Road), approximately 0.85 mile west of the intersection with US Highway 98. Approximately 15 years ago CR 540A was improved and expanded from a two-lane road to the current four-lane divided Urban Collector. The subject site is adjacent to an existing religious institution constructed in 2006. The primary non-residential support areas for the area are located at the intersections with US Highway 98 and at the intersection with Lakeland Highlands Road. The primary non-residential uses along CR 540A in this area are several different religious institutions, including the one adjacent to the site, and two (2) Office Center (OC). Non-residential development would have to meet all buffering and compatibility setbacks of the Land Development Code. The intended use is for a professional office which would require a Type B landscape buffer and a 50-foot compatibility setback from the residential district to the west. The requested Office Center Future Land Use requested will allow for the site to be developed with a professional office building that is a compatible use within an area that has a high concentration of residential development fronting a four-lane divided Urban Collector road.

Infrastructure and Urban Services Summary

The subject site fronts and will have access to CR 540A. The proposed CPA is not anticipated to degrade the Level-of-service (LOS) standard for transportation, the locally zoned schools, fire, EMS and sheriff public safety resources. The subject site is located within the City of Lakeland water and wastewater serve area. There are no wells on the subject site.

Environmental Conditions Summary

The proposed request is not anticipated to have a negative impact upon the environmental features in the area. The subject site is not located within the one-mile radius of a protected animal and plant species sighting and has no surface water, wetlands or flood zones. The site is not located within the Potential Network Connections area of the Polk Green District Comprehensive Plan Map Series. The project site is not located within an Airport Impact District and is not associated with any historical or archeological sites.

Comprehensive Plan Policies Considered

- Section 2.102 – General Growth Management policies
- Section 2.106 – Suburban Development Areas (SDA) policies
- Section 2.113 – Office Center policies

Findings of Fact

Request and Legal Status

- This is an applicant-initiated request to change the Future Land Use (FLU) designation from Residential Suburban-X (RSX) to Office Center-X (OCX) in the Suburban Growth Area (SGA) on 1.35± acres.

- The site is located on the north side of CR 540A (Central Barn Road), a four-lane divided Urban Collector road.

- The subject site is within the City of Lakeland's Utility Service Area for potable water and wastewater.

- There are sidewalks along the north and south sides of the entirety of Katheen Road from US Highway 98 (Bartow Highway) to the east to Highway 39 (S. Florida Avenue) to the west.

- LDCPAL-2026-1 was transmitted to Florida Commerce on April 21, 2026 by the Board of County Commissioners to amend the Location Criteria for Office Center (Policy 2.113-C3) to allow isolated Office Center (OC) designations when adjacent to legally established non-residential uses. The Adoption Hearing is scheduled for June 2, 2026.

Compatibility

- The subject's surrounding uses are as follows:
  - North – RSX, Church
  - East – RSX, Church, church access
  - South – RL3, Polk County Stormwater & Residential Subdivision
  - West – RL3, Residential Subdivision

- The site is located on the north side of CR 540A (Central Barn Road), a four-lane divided Urban Collector road.

- Adjacent to the north and east is a religious institutional use offices are considered a transitional use between residential use and non-residential uses (Section 2.125-C).

- The Land Development Code Development Standards sets conditions for buffering and compatibility setbacks for the residential district to the west.

- The south side of CR 540A (Central Barn Road) is a County stormwater pond for CR 540A (Central Barn Road), and residential developments.

Infrastructure

- The zoned schools for the site are Highland City Elementary, Bartow Middle School, and Bartow High School.

- First responder Fire and EMS response is from Polk County Fire Rescue Station 28, 4101 Clubhouse Road, Lakeland with a travel distance of 1.5+/- miles and an anticipated average response time of six (6) to eight (8) minutes.

- The subject site is within the Southwest District Commend Area for the Sheriff's office which is located at 4120 US 98 South, Lakeland.

- The subject site is within the City of Lakeland's Utility Service Area for potable water and wastewater.

- There are sidewalks along the north and south sides of the entirety of CR 540A (Central Barn Road) from US Highway 98 (Bartow Highway) to the east to Highway 37 (S. Florida Avenue) to the west.

- CR 540A (Central Barn Road), a four-lane divided urban collector that connects US 98 (Bartow Highway) on the east to US 37 (South Florida Avenue) to the west.

- CR 540A (Central Barn Road) between US 98 and Yarborough Lane has a PCI condition rating that ranges between Poor and Fair. A Minor or Major Traffic study may be required at Level 2 Review (engineered site plan) depending on the final development request made.

- The nearest Citrus Connection route is the Silver Line Express, Stop 701, approximately 1 mile east on US Highway 98 (Bartow Highway).

- The nearest park to the site is Highland City Park. The closest environmental site is the Circle B Bar Reserve.

Environmental

- The area is relatively flat with the highest points located along the northwest border at an elevation of approximately 292 feet, with the lowest parts of the property located along the southern boundary, fronting Hwy 540A with an elevation of approximately 124 feet.

- There are no wetlands or floodplains on the subject site.

- According to the soil survey by the United States Department of Agriculture the subject site is made up of two (2) different soil types: Tavares fine sand, 0 to 5 percent slopes, and Smyrna and Sparr sand, 0 to 5 percent slopes. Future development of the site will be subject to Section 2.303: "Soils" of the County's Comprehensive Plan (in conjunction with the Land Development Code) which requires all development to implement Best Management Practices based on the Department of Environmental Protection's (DEP) Florida Development Manual. The reported soils are based on the United States Department of Agriculture (USDA) Soils Survey.

- According to Polk County Endangered Habitat Maps, the subject site is not located within a one-mile radius of an observed a protected animal species sighting (Source: Florida

Department of Environmental Protection, 2015). However, the applicant will be required to submit a biological walk-over as part of the Level-2 review process.

- The site is not located within the Potential Network Connections area of the Polk Green District Comprehensive Plan Map Series.

- Approximately 2.75 miles west of the site, on the north side of the CR 540A (Central Barn Road) is a 99± acre Conservation Easement recorded in a portion of the W F Hallam & Co's Club Colony Tract, OR Book 4149, Page 0792.

- There are no known archeological or historical resources on the subject site per data from the Florida State Historical Commission.

- The subject site is not within a Wellfield Protection district. The nearest public Wellfield is approximately 0.14 mile south of the site.

Comprehensive Plan Policies

- POLICY 2.102-A1: Development Location states that Polk County shall promote contiguous and compact growth patterns through the development process to minimize energy costs, conserve land, water, and natural resources, minimize the cost of services, and prevent development patterns where tracts of land are by-passed in favor of development more distant from services and existing communities.

- POLICY 2.102-A2: Compatibility - Land shall be developed so that adjacent uses are compatible with each other, pursuant to the requirements of other Policies in this Future Land Use Element, so that one or more of the following provisions are accomplished:
  a. there have been provisions made which buffer incompatible uses from dissimilar uses;
  b. incompatible uses are made to be more compatible to each other through limiting the intensity and scale of the more intense use;
  c. uses are transitioned through a gradual scaling of different land use activities through the use of innovative development techniques such as a Planned Unit Development.

- POLICY 2.102-A3: Distribution states that development shall be distributed throughout the County consistently with this Future Land Use Element so that the public utility, other community services, and public transit and transportation systems can be efficiently utilized; and compact, high-density and intensity development is located where urban services can be made available.

- POLICY 2.102-A4: Timing states that development of land shall be timed and staged in conjunction with the cost-effective and efficient provision of supporting community services which, at a minimum, shall require compliance with the Plan's Level of Service requirements and the County's concurrency management system.

- POLICY 2.106-A3: LAND USE CATEGORIES - The following land use categories shall be permitted within the Suburban Development Areas:
  a. ACTIVITY CENTERS: Community Activity Centers, Neighborhood Activity Centers, Convenience Centers, Tourism Commercial Centers, and High-Impact Commercial Centers shall be permitted within SDAs in accordance with applicable criteria.
  b. RESIDENTIAL: Residential-Suburban.
  c. OTHER: Linear Commercial Corridors, Commercial Enclaves, Industrial, Business-Park Centers. Office Centers, Leisure/Recreation, Institutional, Recreation and Open Space, and Preservation.

  Note: Some land use categories are only allowed in adopted Selected Area Plans, special areas or neighborhood plans as specified in Section 2.109.

- POLICY 2.106-A5: DEVELOPMENT CRITERIA - Development within the Suburban Development Areas shall conform to the following criteria as further specified in the Land Development Code:
  a. support continued agricultural activities by requiring the implementation of compatibility techniques to limit land use conflicts;
  b. protect and preserve open space, agricultural and environmentally sensitive lands by implementing clustering and other conservation development strategies as established in Section 2.1251 of this element;
  c. incorporate design features that promote healthy communities, green building practices, conservation development principles, and other initiatives consistent with Section 2.1251 - Community Design, of this element;
  d. provide access to civic space, parks, green areas, and open space and other amenities;
  e. be supported by public safety (i.e., fire, EMS and law enforcement);
  f. have access to elementary schools;
  g. encourage connectivity between uses within the SDA, and between the SDA and other urban centers and the rural development areas; and
  h. in order to achieve higher densities and intensities allowed by each land use, development in the SDA shall be required to connect to centralized water system and incorporate clustering and other low impact design criteria as established under the Residential Suburban (RS) land use criteria, the Conservation Development Section (Section 2.1251), the Residential Rural Development (RRD) or the Rural Mixed Used Development (RMD) sections (Section 2.1251) of this element.

- POLICY 2.113-C3: LOCATION CRITERIA - The establishment of a new Office Center designation shall be located according to the following:
  a. at the intersection of a local and collector/arterial road, or at the intersection of two collector roads; or at the intersection of two arterial roads; or
  b. Along a collector or arterial roadway adjacent to an existing developed or undeveloped Activity Center, Commercial Enclave; Linear Commercial Corridor, Rural Cluster Center, Tourist Commercial Center, High Impact Center, Business Park Center, Industrial, Institution, Employment Center, Mixed Use, Professional Institutional, Interchange Activity Center, and Town Center; or
  c. Adjacent to existing legally established non-residential development;

d. When considering the establishment of a new Office Center designation or the expansion of an existing Office Center consideration shall be given to the following:
   1. maximizing access to a collector or arterial road and to the guidelines outlined in Policy 2.404-A1.~~;~~
   2. minimize the routing of office traffic through residential areas;
   3. The amount of existing office uses within a two mile radius.

- POLICY 2.113-C4: DEVELOPMENT CRITERIA - Development within an Office Center shall conform to the following criteria:
  a. Development in Office Centers shall have frontage on, or direct access to, a collector or arterial roadway, or a frontage road or service drive which directly serves these roadways. Development within Office Centers shall incorporate the use of frontage roads or shared ingress/egress facilities wherever practical;
  b. Adequate parking shall be provided to meet the demands of the uses, and interior traffic-circulation patterns shall facilitate the safe movement of vehicular, bicycle, and pedestrian traffic;
  c. Buffering shall be provided where the effects of lighting, noise, and other such factors would adversely affect adjacent land uses. Parking lots, loading areas, dumpsters, utilities and air conditioning units, signage, etc. are examples of facilities which may require special buffering provisions; and
  d. Retail uses within an Office Center shall not exceed ten (10) percent of the total land area of the Office Center as the OC is meant for professional employment and personal service businesses.

Development Review Committee (DRC) Recommendation: Based on the information provided by the applicant, recent site visits, and the analysis conducted within this staff report, the DRC finds that with the proposed conditions, the proposed request **IS COMPATIBLE** with the surrounding land uses and general character of the area, **IS CONSISTENT** with the Polk County Comprehensive Plan and Land Development Code, and therefore, the DRC recommends **APPROVAL of LDCPAS-2025-36.**

Planning Commission Decision: On May 6, 2026, in an advertised public hearing, the Planning Commission voted 7:0 to **recommend APPROVAL of LDCPAS-2025-36.**

NOTE: *This staff report was prepared without the benefit of testimony and evidence submitted by the public and other interested parties at a public hearing.*

NOTE: *Issuance of a development permit by the county does not in any way create any rights on the part of the applicant to obtain a permit from a state or federal agency and does not create any liability on the part of the county for issuance of the permit if the applicant fails to obtain requisite approvals or fulfill the obligations imposed by a state or federal agency or undertakes actions that result in a violation of state or federal law.*

NOTE: Approval of this request is only for Level 4 Review and only for those development decisions within the Board of County Commissioners purview. A Level 2 Review (engineered plans) will be required for all site development and shall implement the standard conditions listed in Section 303 of the Land Development Code and the development standards listed in Chapter 7 of the Land Development Code. Upon completion of the Level 2 Process, building permits will be required for all structures in accordance with Chapter 553 of the Florida Statutes.

Compatibility is often regarded as a subjective term used to express ones opinion or feeling about the appropriateness of locating different uses adjacent to each other rather than being based upon facts or evidence to support those opinions or feelings. The American Planning Association (APA) defines compatibility as "the characteristics of different uses or activities or design which allow them to be located near or adjacent to each other in harmony." Some elements affecting compatibility include (but are not limited to): height, scale, mass and bulk of structures, pedestrian or vehicular traffic, landscaping, lighting, noise, odor, or whether or not something is aesthetically pleasing (Source: A Planner's Dictionary; American Planning Association).

According to Policy 2.102-A2 of Polk County's Comprehensive Plan, "land shall be developed so that adjacent uses are compatible with each other, pursuant to the requirements of other Policies in this Future Land Use Element, so that one or more of the following provisions are accomplished: a. there have been provisions made which buffer incompatible uses from dissimilar uses; b. incompatible uses are made to be more compatible to each other through limiting the intensity and scale of the more intense use; and c. uses are transitioned through a gradual scaling of different land use activities through the use of innovative development techniques such as a Planned Unit Development." The "development criteria" and the "density and dimensional regulations" of a land use district are often the measuring tools used by staff to determine compatibility and the appropriateness of locating differentiating uses.

The definition of Compatibility in the Comprehensive Plan is as follows:

> *COMPATIBILITY: A condition in which land uses or conditions can coexist in relative proximity to each other in a stable fashion over time such that no use or condition is unduly negatively impacted directly or indirectly by another use or condition.*

The subject site is 1.36± acres in the Residential Suburban-X (RSX) Future Land Use (FLU) requesting a change to Office Center-X (OCX). The site is located on the north side of CR 540A (Central Barn Road), approximately 0.85 mile west of the intersection with US Highway 98. Over the past 25+ years the CR 540A area has been experiencing continuous residential growth with limited non-residential development. Approximately 15 years ago CR 540A was improved and expanded from a two-lane road to the current four-lane divided Urban Collector. The primary non-

residential support uses for the area are located at the intersections with US Highway 98 and at the intersection with Lakeland Highlands Road. The primary non-residential uses along CR 540A in this area are several different religious institutions, including the one adjacent to the site. There are two (2) Office Center (OC) Land Use districts in this area. One of the OC's is part of a larger residential parcel and represents the road frontage for this residence and is not developed. The other is located near the Valleyview Elementary School and is fully built out and operated as a hair salon. The Office Center-X (OCX) Future Land Use district allows for a limited range of commercial type of uses, See Exhibit 7 for a full list of uses. The site fronts and will only have access to CR 540A. Non-residential development would have to meet all buffering and compatibility setbacks of the Land Development Code. The intended use is for a professional office which would require a Type B landscape buffer and a 50-foot compatibility setback from the residential district to the west. This area has been a very consistent growth markets within Polk County. The requested Office Center Future Land Use requested will allow for the site to be developed with a professional office building that is a compatible use within an area that has a high concentration of residential development fronting a four-lane divided Urban Collector road.

Compatibility with the Surrounding Land Use:
According to *Policy 2.102-A2* of Polk County's Comprehensive Plan, "land shall be developed so that adjacent uses are compatible with each other, pursuant to the requirements of other policies in this Future Land Use Element, so that one or more of the following provisions are accomplished: a. there have been provisions made which buffer incompatible uses from dissimilar uses; b. incompatible uses are made to be more compatible to each other through limiting the intensity and scale of the more intense use; and c. uses are transitioned through a gradual scaling of different land use activities through the use of innovative development techniques such as a Planned Unit Development." The adopted definition for compatibility states it is "a condition in which land uses or conditions can coexist in relative proximity to each other in a stable fashion over time such that no use or condition is unduly negatively impacted directly or indirectly by another use or condition."

The subject site is currently located within the Suburban Development Area (SDA). The subject site has access to and availability of the infrastructure and is considered to be compatible and consistent with the surrounding area.

Nearest Elementary, Middle, and High School:
The schools zoned for the subject property, as shown in Table 2, include Highland City Elementary, Bartow Middle School, and Bartow Senior High. The requested Office Center-X (OCX) is intended for non-residential development and is not intended for residential development. Residential development within the OC would require a Level 3 Planning Commission approval for multi-family development.

Table 2 School Information

Name of School	Annual Estimated Demand	% Capacity 2024-2025 School Year	Average driving distance from subject site
Highland City Elementary	**0 students**	**75%**	**1.2± miles**
Bartow Middle School	**0 students**	**79%**	**6.6± miles**
Bartow Senior High	**0 students**	**66%**	**6.1± miles**

Source: Polk County School Board

Nearest Sheriff, Fire, and EMS Station:
The nearest Sheriff District office is located approximately 7.3 miles from the subject site. Response times vary depending on where the nearest sheriff's deputy patrol car is located rather than the district office. The nearest EMS station is approximately 5.6 miles and Fire station is approximately 4.0 miles EMS station is approximately 2.9 miles from the subject site.

Table 3: Public Safety

	Name of Station	Distance/Response Time*
Sheriff	**Southwest District Command** (4120 US 98 South., Lakeland)	Priority 1 – 8:58 min Priority 2 – 22:54 min
Fire/EMS	**Polk County Fire Rescue Station 28** 4101 Clubhouse Rd, Lakeland	1.5 ± miles / 6-8 min

*Source: Polk County Sheriff's Office and Public Safety. Response times for April 2026. *Response times are based from when the station receives the call, not from when the call is made to 911.*

Water and Sewer Capacity and Service Provider:
Table 4 below details the estimated impact to potable water and wastewater services based upon the buildout for the proposed FLU on the subject site. The subject property is within Polk County's Northwest Service Area for water and wastewater.

A. Available Capacity:
Table 4: Estimated Water and Sewer Impact Analysis

Permitted Density / Intensity	Maximum Permitted in Existing Land Use RSX	Maximum Permitted in Proposed OCX
1.35± acres RL	1.35± acres RS X 5du = 6 du	1.35± acres (58,806 sf) X 0.30 FAR = 17,642 sf
Potable Water Consumption	6 du X 250 gpd = **1,500 GPD**	17,642 sf X 0.25 = **4,411 GPD**
Wastewater Generation	6 du X 200 gpd = **1,200 GPD**	4,411 GPD X 80% = **3529 GPD**

B. Service Provider:
The subject site is located in the City of Lakeland Service Area for water and wastewater. There is a 6" potable water main on the north side of CR 540A. The City of Lakeland has not responded with wastewater availability or capacity for potable water.

C. Available Capacity:
At this time, the City of Lakeland has not responded with potable water and wastewater availability and capacity.

Roadways/Transportation Network:

A. Estimated Demand:
Table 5 following this paragraph shows the Average Annual Daily Trip (AADT) rate and the RSX Peak hour trip rate. The proposed Future Land Use designation change to OCX, at maximum density, will generate more than the current combination of the RS land use.

Table 5: Estimated Transportation Impact Analysis

Permitted Density / Intensity	Maximum Permitted in Existing Land Use RSX	Maximum Permitted in Proposed OCX
1.35± acres RL	1.35± acres RS X 5du = 6 du	1.35± acres (58,806 sf) X 0.30 FAR = 17,642 sf
Average Annual Daily Trips (AADT)	6 du X 7.81 AADT = **47 Trips**	17.642 X 6.74 AADT X 92% **119 Trips**
PM Peak Hour Trips	6 du X 1.00 AADT = 6 **Trips**	17.642 X 1.18 AADT X 92% = **21 Trips**

Source: Concurrency Manual: Single-family @ 7.81 AADT per du and 1.00 AADT PM Peak Hour, OC @ General Office 7.83 AADT per 1,000 sf, 1.18 AADT per 1,000 sf PM Peak Hour,

B. Available Capacity:
Table 6, following this paragraph, displays the available capacity for CR 540A (Central Barn Road). It is anticipated that CR 540A (Central Barn Road) will have sufficient capacity for maximum buildout.

Table 6: Roadway Link Concurrency

Link #	Road Name	Lane Type*	Current LOS	Available Peak Hour Capacity	Minimum LOS Standard	Project 5 Year LOS
4162W	CR 540A (Central Barn Road)	4D*	C	759	D	C
4162E	CR 37B (Lakeland Highlands) to US 98	UC		759		

*Source: Polk County Transportation Planning Organization, 2025 Roadway Network Database January 2025. *4D means four-lane divided, UC means Urban Collector*

C. Roadway Conditions:

CR 540A (Central Barn Road), a four-lane divided urban collector that connects US 98 (Bartow Highway) on the east to US 37 (South Florida Avenue) to the west, an approximate six-mile stretch. Within the subject site's location, the road has a 90-foot right-of-way width and pavement width of 70 feet without shoulders. There are sidewalks on both sides of the road east and west of the site. CR 540A (Central Barn Road) between US 98 and Yarborough Lane has a PCI condition rating that ranges between Poor and Fair.

In general, all the roadways in the area are in adequate condition and have enough capacity to support the potential increase in trips. A Minor or Major Traffic study may be required at Level 2 Review (engineered site plan) depending on the final development request made.

D. Sidewalk Network:
Currently there are sidewalks along the north and south sides of the entirety of CR 540A (Central Barn Road) from US Highway 98 (Bartow Highway) to the east to Highway 39 (S. Florida Avenue) to the west.

E. Planned Improvements:
There are no road improvements currently planned for this area.

F. Mass Transit:
The nearest Citrus Connection route is the Silver Line Express, Stop 701, approximately 1 mile east on US Highway 98 (Bartow Highway).

Environmental Conditions:
Any impact to surface water, wetlands, and storm water management will be in accordance with the requirements of the Comprehensive Plan and Land Development Code.

A. Surface Water:
There are no wetlands on the subject site. The area is relatively flat with the highest points located along the northwest border at an elevation of approximately 292 feet, with the lowest parts of the property located along the southern boundary, fronting Hwy 540A with an elevation of approximately 124 feet.

B. Wetlands/Floodplains:
According to the Polk County Data Viewer the subject site does not indicate any flood zones or wetlands.

C. On-Site Soils:
The subject site is comprised of one (1) soil type: Candler sand, 0 to 5 percent slopes. Future development of the site will be subject to Section 2.303: "Soils" of the County's Comprehensive Plan (in conjunction with the Land Development Code) which requires all development to implement Best Management Practices based on the Department of Environmental Protection's (DEP) Florida Development Manual. The reported soils are based on the United States Department of Agriculture (USDA) Soils Survey.

Table 7

SOIL NAME	SMALL COMMERCIAL BUILDINGS	SEPTIC TANK ABSORPTION FIELDS	PERCENTAGE OF SITE
Candler sand, 0 to 5 percent slopes	Slight	Slight	100+/-%
Source: USDA Web Soil Survey			

D. Wells (Public/Private):
The applicant did not indicate any wells located on the property. The subject property is not within a Wellfield Protection District. The closest Wellfield Protection District is approximately 0.14 miles south of the site.

E. Protected Species:
According to Polk County Protected Species Observation Map and the Florida Fish & Wildlife Conservation Commission (2015), the subject site is located within a one-mile radius of endangered animals. The applicant will be required to submit a biological walk-over as part of the Level-2 review process.

F: Polk Green Districts and Conservation Easements:
The site is not located within the Potential Network Connections area of the Polk Green District Comprehensive Plan Map Series. Approximately 2.75 miles west of the site, on the north side of the CR 540A (Central Barn Road) is a 99± acre Conservation Easement recorded in a portion of the W F Hallam & Co's Club Colony Tract, OR Book 4149, Page 0792.

G. Archeological Resources:
There are no known historical or archeological resources onsite according to the Secretary of the State's Department of Historical Resources Florida Master File.

H. Airports:
The subject site is not located within an Airport Impact District (AID) and Airport Height Notification Zone.

Park Facilities:
The proposed land use change is not anticipated to have a significant impact on the park facility demand or function. The nearest parks are Fort Frasier Trail, Highland City Park, and Highland City Senior Field. The closest environmental site is the Circle B Bar Reserve.

A. Location:
Highland City Park is located at 3930 Ball Park Road, Lakeland, approximately 1.1 miles north of the site. Fort Frasier Trail runs along the east side of US 98 between Bartow and SR 540 (Winter Lake Road).

B. Services:
All of the parks current hours of operation are from 5 a.m. to 10 p.m. Fort Frasier Trail offers approximately 8 mile of walking/ bicycling trails that connect Bartow and the Circle B Bar Reserve. Highland City Park offers basketball courts, pavilions, picnic tables, playground, sports leagues and rest rooms. Highland City Senior Field offers baseball fields, and leagues, softball fields and picnic tables.

C. Multiuse Trails:
The closest free hiking trails are the Fort Frasier Trail and the Circle B Bar Reserve.

D. Environmental Lands:
The Circle B Bar Reserve is located west of Lakeland and is comprised 0f 1,267 acres of natural Florida lands and wetland with walking trails, cycling, nature center, picnic areas, restrooms and wildlife viewing.

E. Planned Improvements:
There are no further recreation improvements scheduled for this area of Polk County at this time.

Consistency with the Comprehensive

The following policies in Table 8 have been included as being the most relevant policies to the proposed request. The policy is first stated and then an analysis of how the request may or may not be consistent with the County's Comprehensive Plan is provided.

Table 8 Comprehensive Plan Policy

Comprehensive Plan Policy	Consistency Analysis
Policy 2.102-A2: Compatibility - Land shall be developed so that adjacent uses are compatible with each other, pursuant to the requirements of other Policies in this Future Land Use Element, so that one or more of the following provisions are accomplished: a. there have been provisions made which buffer incompatible uses from dissimilar uses; b. incompatible uses are made to be more compatible to each other through limiting the intensity and scale of the more intense use; c. uses are transitioned through a gradual scaling of different land use activities through the use of innovative development techniques such as a Planned Unit Development.	Adjacent to the north and east is a religious use property, providing scaling and a stepdown to the residential us to the north and east. Adjacent to the west is a residential development that the Land Development Code provides both buffering and compatibility setbacks that would be meet for development. To the south is a four-lane divided Urban Collector road and a stormwater retention pond for CR 540A.
Policy 2.102-A1: Development Location – Polk County shall promote contiguous and compact growth patterns through the development process to minimize energy costs, conserve land, water, and natural resources, minimize the cost of services, and prevent development patterns where tracts of land are by-passed in favor of development more distant from services and existing communities.	The request fronts the northern side of CR 540A a four-lane Urban Collector road. The site size is 1.35± acres and is not suitable for RS residential development, fronting an Urban Collector road.
Policy 2.102-A3: Distribution states that development shall be distributed throughout the County consistently with this Future Land Use Element so that the public utility, other community services, and public transit and transportation systems can be efficiently utilized; and compact, high-density and intensity development is located where urban services can be made available.	
Policy 2.102-A4: Timing states that development of land shall be timed and staged in conjunction with the cost-effective and efficient provision of supporting community services which, at a minimum, shall require compliance with the Plan's Level of Service requirements and the County's concurrency management system.	The request is for OCX within an area with very little remaining vacant land. There are only two (2) non-residential Land Use districts between US 98 and Lakeland Highlands Road.
Policy 2.102-A10: Location Criteria - The following factors shall be taken into consideration when determining the appropriateness of establishing or expanding any land use or development area: a. nearness to incompatible land uses and future land uses, unless adequate buffering is provided, b. nearness to agriculture-production areas; c. distance from populated areas; d. economic issues, such as minimum population support and market-area radius (where applicable);e. adequacy of support facilities or adequacy of proposed facilities to be provided by the time of development, including, but are not limited to: 1. transportation facilities, including but not limited to, mass transit, sidewalks, trails and bikeways; 2. sanitary sewer and potable water service; 3. storm-water management; 4. solid	

Comprehensive Plan Policy	Consistency Analysis
waste collection and disposal; 5. fire protection with adequate response times, properly trained personnel, and proper fire-fighting equipment; 6. emergency medical service (EMS) provisions; and 7. other public safety features such as law enforcement; 8. schools and other educational facilities 9. parks, open spaces, civic areas and other community facilities, f. environmental factors, including, but not limited to: 1. environmental sensitivity of the property and adjacent property; 2. surface water features, including drainage patterns, basin characteristics, and flood hazards; 3. wetlands and primary aquifer recharge areas; 4. soil characteristics; 5. location of potable water supplies, private wells, public well fields; and 6. climatic conditions, including prevailing winds, when applicable	
POLICY 2.113-C3: LOCATION CRITERIA - The establishment of a new Office Center designation shall be located according to the following: a. at the intersection of a local and collector/arterial road, or at the intersection of two collector roads; or at the intersection of two arterial roads; or b. Along a collector or arterial roadway adjacent to an existing developed or undeveloped Activity Center, Commercial Enclave; Linear Commercial Corridor, Rural Cluster Center, Tourist Commercial Center, High Impact Center, Business Park Center, Industrial, Institution, Employment Center, Mixed Use, Professional Institutional, Interchange Activity Center, and Town Center; or c. Adjacent to existing legally established non-residential development; d. When considering the establishment of a new Office Center designation or the expansion of an existing Office Center consideration shall be given to the following: 1. maximizing access to a collector or arterial road and to the guidelines outlined in Policy 2.404-A1.~~;~~ ~~2.~~ minimize the routing of office traffic through residential areas; 3. The amount of existing office uses within a two mile radius.	The requested OC has frontage along a collector road adjacent to an existing developed existing legally established non-residential development to the north and east of the site.

Urban Sprawl Analysis

Polk County's Comprehensive Plan *Policy 2.102-A10* establishes review criteria intended to discourage the proliferation of urban sprawl. Specific characteristics of urban sprawl have been examined throughout this staff report and are summarized in Table 7 (below). Based on the findings of fact and analysis conducted, the proposed request does not meet the criteria to be considered as urban sprawl.

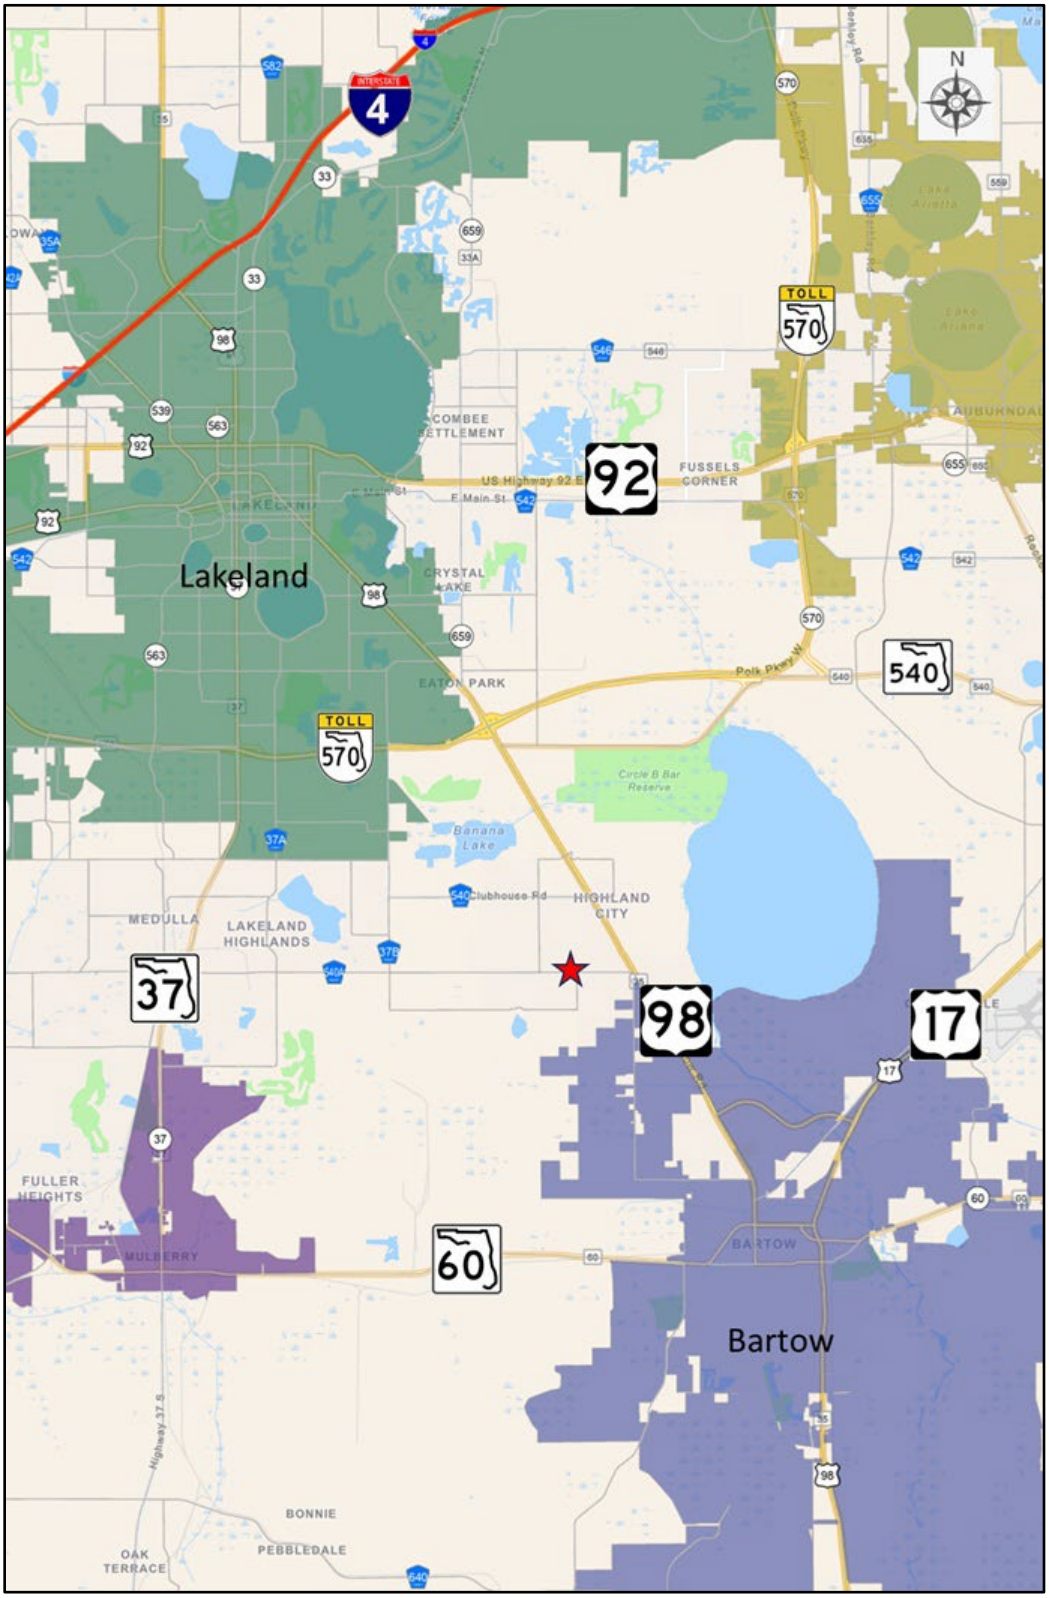

Table 7: Urban Sprawl Criteria

Rule 9J-5 Urban Sprawl Criteria	Page(s) within report
a. *Promotes substantial amounts of low-density, low-intensity, or single use development in excess of demonstrated need.*	Surrounding Land Uses Section
b. *Allows a significant amount of urban development to occur in rural areas.*	Surrounding Land Uses Section
c. *Designates an urban development in radial, strip isolated, or ribbon patterns emanating from existing urban developments.*	Surrounding Land Uses Section
d. *Fails to adequately protect and conserve natural resources and other significant natural systems.*	Environmental Conditions
e. *Fails to adequately protect adjacent agricultural areas.*	Surrounding Land Uses Section
f. *Fails to maximize existing public facilities and services.*	Schools, Public Facilities and Water/Sewer Sections
g. *Fails to minimize the need for future facilities and services.*	Schools, Public Facilities and Water/Sewer Sections
h. *Allows development patterns that will disproportionately increase the cost of providing public facilities and services.*	Surrounding Land Uses Section
i. *Fails to provide a clear separation between urban and rural uses.*	Surrounding Land Uses Section
j. *Discourages infill development or redevelopment of existing neighborhoods.*	Surrounding Land Uses Section
k. *Fails to encourage an attractive and functional mixture of land uses.*	Surrounding Land Uses Section
l. *Will result in poor accessibility among linked or related land uses.*	Surrounding Land Uses Section
m. *Results in the loss of a significant amount of open space.*	Surrounding Land Uses and Environmental Conditions Sections

ORDINANCE NO. 26 -____

AN ORDINANCE OF POLK COUNTY, FLORIDA ADOPTING **LDCPAS-2025-36;** AN AMENDMENT TO THE POLK COUNTY COMPREHENSIVE PLAN, ORDINANCE 92-36, AS AMENDED, TO CHANGE THE FUTURE LAND USE MAP DESIGNATION ON 1.35+/- ACRES FROM RESIDENTIAL SUBURBAN-X (RSX) TO OFFICE CENTER-X (OCX). THE SITE IS LOCATED ON THE NORTH SIDE OF HWY 540A EAST OF STRICKLAND AVENUE, WEST OF CREWS LAKE ROAD AND SOUTH OF CLUBHOUSE ROAD, SOUTHEAST OF THE CITY OF LAKELAND AND NORTHWEST OF THE CITY OF BARTOW, IN SECTION 14, TOWNSHIP 29, RANGE 24; PROVIDING FOR SEVERABILITY; AND PROVIDING FOR AN EFFECTIVE DATE.

WHEREAS, pursuant to Article VIII, Section I(g) of the Constitution of the State of Florida and the Community Planning Act, Chapter 163, Part II, Florida Statutes (FS), as amended, (the Act) Polk County is authorized and required to adopt a Comprehensive Plan (Plan); and

WHEREAS, Section 163.3187, FS, and Comprehensive Plan Section 4.305.B, provides for the approval of Small-Scale Comprehensive Plan Amendments; and

WHEREAS, pursuant to Section 163.3174, FS, the Local Planning Authority (Planning Commission) conducted a public hearing, with due public notice having been provided, on the proposed Plan revisions on June 3, 2026; and

WHEREAS, pursuant to Section 163.3187(2), FS, the Board of County Commissioners conducted an adoption public hearing, with due public notice having been provided, on the proposed Plan revisions on June 16, 2026; and

WHEREAS, the Board of County Commissioners, reviewed and considered all comments received during said public hearing, and provided for necessary revisions; and

NOW THEREFORE, BE IT ORDAINED by the Polk County Board of County Commissioners:

SECTION 1: COMPREHENSIVE PLAN AMENDMENT

The Future Land Use Map of Ordinance No. 92-36, as amended, (the "Polk County Comprehensive Plan") is hereby amended to reflect a change in the Future Land Use designation on a five (5) acre site from Residential Suburban (RS) to Institutional (INST) in the Suburban Development Area (SDA) on the parcel listed below and graphically depicted on the parcel map in Attachment "A".

Parcel 242914-282500-006006

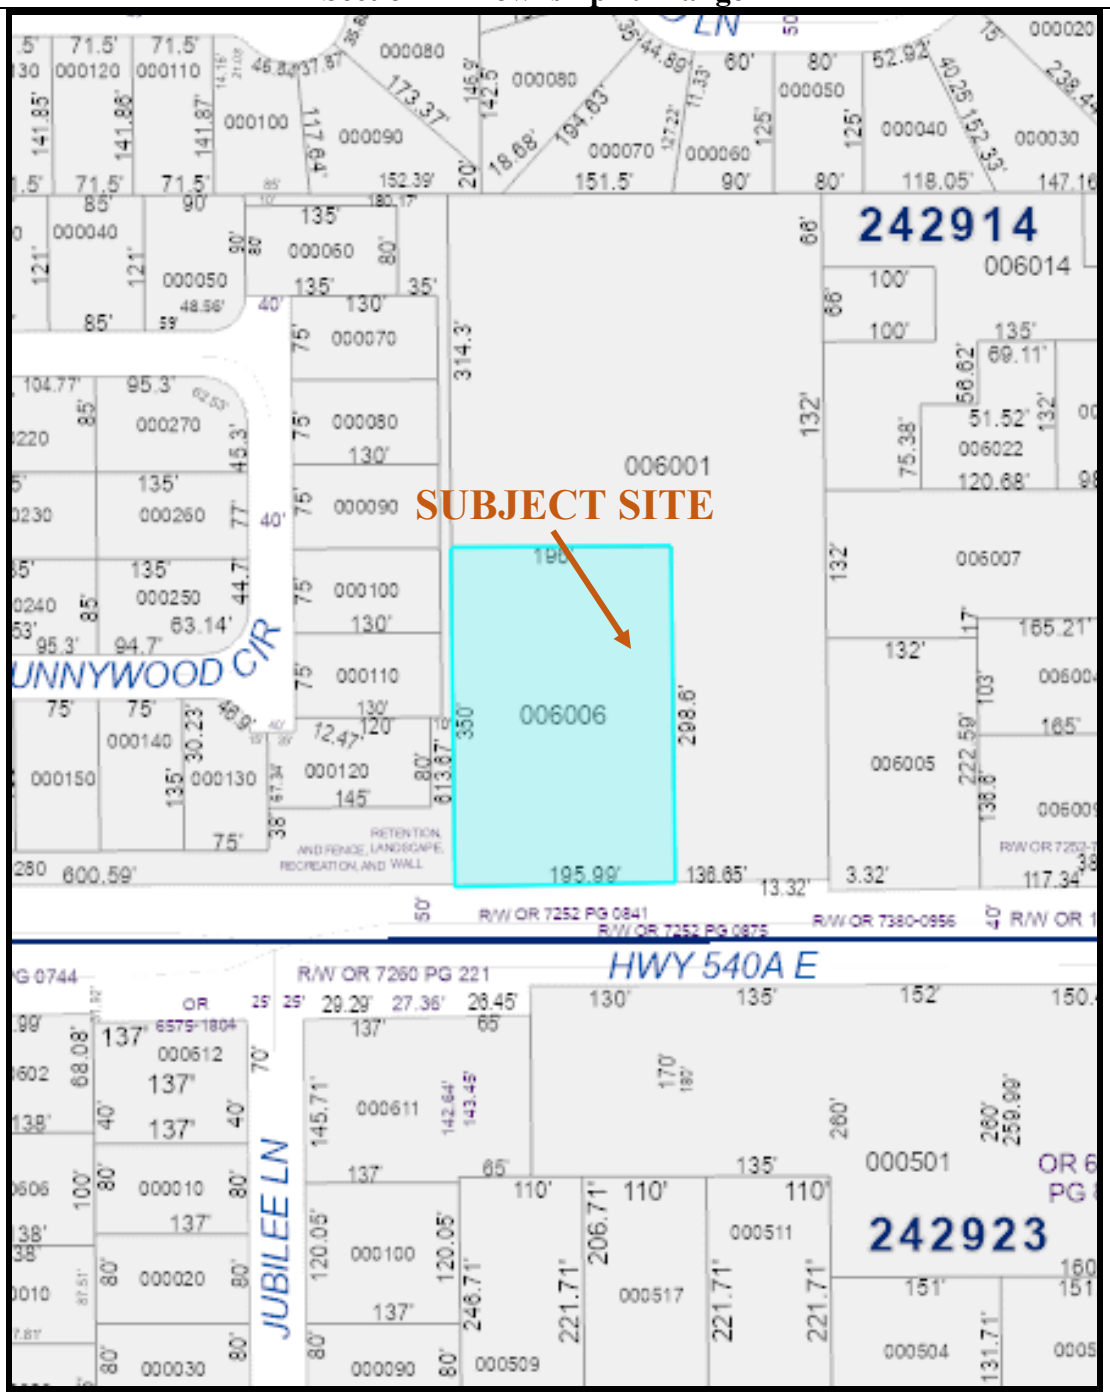
SECTION 2: SEVERABILITY

If any provision of this Ordinance is held to be illegal, invalid, or unconstitutional by a court of competent jurisdiction the other provisions shall remain in full force and effect.

SECTION 3: EFFECTIVE DATE



This ordinance shall be effective on July 17, 2026 (31 days after adoption), unless the amendment is challenged. If challenged, the effective date of this ordinance shall be the date a Final Order is issued by the Department of Economic Opportunity or Administration Commission finding the amendment in compliance in accordance with Section 163.3184 (1)(b), Florida Statutes. No development orders, development permits, or land uses dependent upon this amendment, as described on the attached map of proposed land uses, may be issued or commence before it has become effective.

SECTION 4: FILING WITH THE DEPARTMENT OF STATE:

The Clerk and Auditor to the Board of County Commissioners of Polk County, Florida, shall file a certified copy of this ordinance with the Department of State, through the Secretary of State, upon adoption by the Board of County Commissioners of Polk County, Florida.

ADOPTED, in open session of the Polk County Board of County Commissioners with a quorum present and voting this 16th day of June 2026.

Re: IT Land Investments LLC (Floyd) / Real Estate Matter (4002 E State Rd 540) | Comprehensive Plan Amendment

Dear Ben:

Our firm represents IT Land Investments, LLC (the "**Applicant**") with respect to the proposed development of approximately 1.35 acres of property identified as Polk County Property Appraiser Parcel Identification Number 242914282500006006 (the "**Property**"). This correspondence accompanies our application for a Comprehensive Plan Amendment for the Property. The following shall serve as an explanation of our request.

Explanation of Request

The Property presently has a land use classification of Residential Suburban X ("**RSX**"), is located within the U.S. Highway 98 Selected Area Plan and lies within a Suburban Development Area ("**SDA**"). At the recommendation of County planning staff, the Applicant requests a Comprehensive Plan Amendment to change the land use for the Property to an Office Center ("**OC**") future land use designation (the "**Request**"). The Request is compatible with surrounding uses, and consistent with the standards set forth in the Land Development Code.

Conclusion

We look forward to working with the County to process the application for a Comprehensive Plan Amendment. Please also let us know if we can address any questions or provide any additional supportive information.

Thank you very for your time and consideration.

Sincerely,

Timothy F. Campbell

Copy: Client (transmitted by email)

IMPACT ASSESSMENT STATEMENT

An Impact Assessment Statement is required for all Level 3 and Level 4 Reviews, with the exception of text amendment requests. The purpose of an Impact Assessment Statement is to provide information on the effects a proposed development or land use action will have on the existing neighborhood and general area; on the transportation facilities; on the environment and natural resources of the County; on the public facilities for water, sewer, solid waste disposal, fire, police, public education, parks, recreation, and other utilities; and any other aspect with an identified impact of the development and deemed appropriate for concern.

A sufficient Impact Assessment Statement must address all of the following *(Note: N/A is an insufficient comment, if N/A an explanation must be included):*

Land and Neighborhood Characteristics

Assess the compatibility of the requested land use with adjacent properties and evaluate the suitability of the site for development. At a minimum, address the following specific questions in your response:

1. How and why is the location suitable for the proposed uses? **The location is ideal to provide services along County Road 540A to the surrounding community.**

2. What, if any, are the incompatibility and special efforts needed to minimize the differences in the proposed use with adjacent uses? **The use of the property is consistent with uses in the vicinity of the property and complements the nearby uses.**

3. How will the request influence future development of the area? **The request will allow for flexibility of future uses of the property which will provide services to surrounding residents and those who travel on County Road 540A.**

Access to Roads and Highways

Assess the impact of the proposed development on the existing, planned and programmed road system. At a minimum, address the following specific questions in your response:

1. What is the number of vehicle trips to be generated daily and at the PM peak hour based on the latest Institute of Traffic Engineers (ITE)? Please provide a detailed methodology and calculations.

   While the property owner proposes to generally use the property for office, the specific use and layout have not been determined. As such, we cannot estimate the number of vehicle trips at this time. However, at such time that a specific use is intended for the property, vehicle trips and traffic impacts will be addressed during

the Site Plan Review process and in accordance with the Land Development Code.

2. What modifications to the present transportation system will be required as a result of the proposed development? **No transportation modifications are anticipated at this time as a result of the use of the property.**

3. What is the total number of parking spaces required pursuant to Section 708 of the Land Development Code?

   While the property owner proposes to generally use the property for office, the specific use and layout have not been determined. As such, we cannot estimate the number of parking spaces at this time. However, at such time that a specific use is determined for the property, parking will be addressed during the Site Plan Review process and in accordance with the Land Development Code.

4. What are the proposed methods of access to existing public roads (e.g., direct frontage, intersecting streets, and frontage roads)? **The property will have direct access onto County Road 540A.**

NOTE: *Applications for projects attributing 50 or fewer Average Annual Daily Trips (AADT) according to the latest Institute of Transportation Engineers (ITE) manual may provide a written explanation and justification of why impacts will not be significant in lieu of the required information for* ***"Infrastructure Impacts"*** *items 3 through 9 above.*

Sewage

Determine the impact caused by sewage generated from the proposed development. At a minimum, address the following specific questions in your response:

1. What is the amount of sewage in gallons per day (GPD) expected to be generated by the proposed development? *(Response may be based on Section 703.F of the LDC) Approx.*

   While the property owner proposes to generally use the property for office, the specific use and layout have not been determined. As such, we cannot estimate the amount of sewage at this time. However, at such time that a specific use is determined for the property, sewage generation will be addressed during the Site Plan Review process and in accordance with the Land Development Code.

2. If on-site treatment is proposed, what are the proposed method, level of treatment, and the method of effluent disposal for the proposed sewage? **On-site treatment of wastewater is not proposed for the property.**

3. If offsite treatment, who is the service provider? **City of Lakeland**

4. Where is the nearest sewer line (in feet) to the proposed development *(Sanitary sewer*

shall be considered available if a gravity line, force main, manhole, or lift station is located within an easement or right-of- way under certain conditions listed in Section 702E.3 of the Land Development Code) **Unknown at this time.**

5. What is the provider's general capacity at the time of application? **Unknown at this time.**

6. What is the anticipated date of connection? **The date of connection cannot be anticipated at this time as the final development details for the property have not yet been determined.**

7. What improvements to the providers system are necessary to support the proposed request *(e.g., lift stations, line extensions/expansions, interconnects, etc.)?* **Any improvements necessary to support the proposed request will be addressed during the Site Plan Review process and in accordance with the Land Development Code.**

Water Supply

Determine the amount of water to be used, how it will be distributed, and the impact on the surrounding area. At a minimum, address the following specific questions in your response:

1. What is the proposed source of water supply and/or who is the service provider? **City of Lakeland.**

2. What is the estimated volume of consumption in gallons per day (GPD) *(Response may be based on Section 703 of the LDC)?*

   While the property owner proposes to generally use the property for office, the specific use and layout have not been determined. As such, we cannot estimate the amount of water consumption at this time. However, at such time that a specific use is determined for the property, water consumption will be addressed during the Site Plan Review process and in accordance with the Land Development Code.

3. Where is the nearest potable water connection and re-claimed water connection, including the distance and size of the line? **Unknown at this time.**

4. Who is the service provider? **City of Lakeland.**

5. What is the anticipated date of connection? **The date of connection cannot be anticipated at this time as the final development details for the property have not yet been determined.**

6. What is the provider's general capacity at the time of application? **Unknown at this time.**

7. Is there an existing well on the property(ies)?

Surface Water Management and Drainage

Determine the impact of drainage on the groundwater and surface water quality and quantity caused by the proposed development. At a minimum, address the following specific questions in your response:

1. Discuss the surface water features, including drainage patterns, basin characteristics, and flood hazards, (describe the drainage of the site and any flooding issues): **Stormwater management and drainage will be addressed on-site pursuant to a permit from Southwest Florida Water Management District.**

2. What alterations to the site's natural drainage features, including wetlands, would be necessary to develop the project? **No alterations are proposed with respect to the use of the property.**

Environmental Analysis

Provide an analysis of the character of the subject property and surrounding properties, and further assess the site's suitability for the proposed land use classification based on soils, topography, and the presence of wetlands, floodplain, aquifer recharge areas, scrub or other threatened habitat, and historic resources, including, but not limited to:

1. Discuss the environmental sensitivity of the property and adjacent property in basic terms by identifying any significant features of the site and the surrounding properties. **No environmentally sensitive features have been identified on the site. If environmentally sensitive features are subsequently identified, they will be addressed during the permitting and Site Plan Review process.**

2. What are the wetland and floodplain conditions? Discuss the changes to these features which would result from development of the site. **No wetland or floodplain conditions have been identified on the site. If wetland or floodplain conditions are subsequently identified, they will be addressed during the permitting and Site Plan Review process.**

3. Discuss location of potable water supplies, private wells, public well fields *(discuss the location, address potential impacts)*. **Unknown at this time.**

4. Discuss the location of Airport Buffer Zones (if any) *(discuss the location and address, potential impacts).* **The property is not within an Airport Buffer Zone.**

5. Provide an analysis of soil types and percentage of coverage on site and what effect it will have on development. **The soil type and percentage of coverage on the site is unknown at this time. Any effect that the soil composition will have on the development will be determined and addressed during the Site Plan Review and permitting process.**

Infrastructure Impact Information

What is the nearest location (travel distance), provider, capacity or general response time, and estimated demand of the provision for the following services:

1. Parks and Recreation: **The use of the property is not anticipated to generate additional demand for recreational facilities.**

2. Educational Facilities (e.g., preschool, elementary, middle school, high school): **The use of the property is not anticipated to generate additional demand for educational facilities.**

3. Health Care (e.g., emergency, hospital): **The use of the property is not anticipated to generate additional demand for healthcare facilities. The closest emergency room is located 5.1 miles away (Lakeland Regional Health Freestanding Emergency Department 6150 Florida Ave S).**

4. Fire Protection: **The closest fire services facility is located 1.50 miles away at Polk County Fire Rescue Station 28 (4101 Clubhouse Rd).**

5. Police Protection and Security: **The closest police services facility is the Polk County Sheriff's Office Southwest Command located 4.0 miles away (4120 US-98).**

6. Emergency Medical Services (EMS): **The closest EMS facility is located 1.50 miles away at Polk County Fire Rescue Station 28 (4101 Clubhouse Rd).**

7. Solid Waste (collection and waste generation): **Solid waste services will be provided by Polk County.**

8. How may this request contribute to neighborhood needs? **The use of the property will allow for flexibility of future uses of the property in a manner consistent with surrounding uses which will benefit residents in this area of Polk Conty while reducing travel distance for some residents who seek office services.**

Maps

Maps shall be used to give the public agencies a clear graphic illustration and visual understanding of the proposed development and the potential positive and negative impacts resulting from the development. Maps shall be of sufficient type, size, and scale to facilitate complete understanding of the elements of the proposed development. Scale shall be clearly indicated on each map and the dates of preparation and revisions shall be included. The project boundaries shall be overlaid on all maps. The following **maps shall 8 1/2" x 11"** and accompany Impact Assessment Statements:

Map A: A location map (center the site on the map) showing the relationship of the development to cities, highways, and natural features: **Uploaded to portal.**

Map B: Map depicting the site boundary (properties included in the request): **Uploaded to portal.**

Map C: A site plan consistent with ***Site Plan Standards*** [2] (multiple sheets may be used). In addition to the required number of copies please **include an 81/2"x 11" copy**. Applications for district changes alone are not required but are encouraged to submit a Development Plan: **Site Plan is not required for Comprehensive Plan Amendment.**

NOTE: *Applications for text amendments are not required to submit a complete Impact Assessment Statement, however, all relevant information requested must be addressed. Use this form and the "Demonstration of Need" form as a guide for assessing the impact of a text amendment.*

Agenda Item N.4. 6/16/2026

SUBJECT

Public Hearing (LDCPAS-2026-3 Sumner North Cozart Road CPA) (Adoption Hearing) to consider the adoption of a Small-Scale Comprehensive Plan Amendment to change the Future Land Use Map designation from Business Park Center (BPC) to Industrial (IND) on ±25.8 acres. (No Fiscal Impact)

DESCRIPTION

This is an applicant-initiated request for property located on the north side of Cozart Road, east of Highway 37 South, south of the City of Mulberry, east and west of the CSX railroad, in Section 13, Township 30, Range 23. State law requires one Planning Commission hearing, which was held May 6, 2026, with a recommendation for approval (7:0).

POLK COUNTY
DEVELOPMENT REVIEW COMMITTEE
STAFF REPORT

DRC Date:	February 26, 2026
Planning Commission Date:	May 6, 2026
BoCC Dates:	June 16, 2026
Applicant:	Steve Sloan, PE
Level of Review:	Level 4 Review, Small-Scale Comprehensive Plan Amendment
Case Number and Name:	LDCPAS-2026-3 (Sumner Property Cozart Road CPA)
Request:	Change 25.8 acres from Business Park Center (BPC) to Industrial (IND).
Location:	North of Cozart Road, east of Highway 37 South, south of the City of Mulberry, east and west of the CSX railroad, in Section 13, Township 30, Range 23.
Property Owner:	David and Cathy Sumner
Parcel Size:	25.8 acres
Development Area:	Rural Development Area (RDA)
Future Land Use:	Business Park Center (BPC)
Nearest Municipality:	Mulberry
DRC Recommendation:	Approval
Planning Commission Vote:	Approval (7:0)
Florida Commerce:	Not Applicable
Case Planner(s):	Mark J. Bennett, AICP, FRA-RA, CNU-A, Senior Planner

Location Map

Aerial Photo

Summary:

This is an applicant-initiated Comprehensive Plan map amendment to change 25.8 acres from Business Park Center (BPC) to Industrial (IND) on the Future Land Use Map. The approval justification for this request is based on the following:

1) The presence of industrial uses within the general area and adjacent to the site;
2) Property designated IND is to the south, east and west of the site;
3) Two railroads are flanking the property;
4) The property has direct access (via Cozart Road) to a full median opening onto State Road 37.

Compatibility Summary

There are several reasons why this request is considered to be compatible and consistent with the Comprehensive Plan and Land Development Code. The location of transportation facilities such as railroads and arterial highways is a factor in determining the appropriateness of industrial lands. This property has access to two railroads and an arterial highway. Specifically, one of the criteria for locating Industrial lands is the location of private roads with full median access, as outlined in Policy 2.113-A3.f.3.(a). Therefore, this request is consistent with the applicable policies in the Comprehensive Plan.

Adjacent properties are both designated for industrial types of uses and activities. Because of the similarity in current uses and Future Land Use designations, designating this site as Industrial will be compatible.

Infrastructure Summary

The site is not in a utility service area. Because this amendment is for a non-residential use, schools will not be impacted. There is sufficient roadway capacity. Public safety facilities and services are available.

Environmental Summary

Portions of the site are within the 100-year floodplain and contain wetlands. Ther are no surface waters on or adjacent to the site. No adverse environmental impacts are expected due to the development of this site, subject to compliance with applicable floodplain and wetland regulations.

Comprehensive Plan

Listed below are the relevant sections of the Comprehensive Plan that are applicable to this request:

- Policy 2.102(A1-A15): Growth Management Policies
- Policy 2.108(A1-A6): Rural Development Areas (RDAs)
- Policy 2.113(B1-B5): Business-Park Centers (BPC)
- Policy 2.113(A1-A5): Industrial (IND)

Findings of Fact

Request and Legal Status

- LDCPAS-2026-3 is an applicant-initiated request for a Comprehensive Plan Amendment (CPA) to designate approximately ± 25.8 acres from Business-Park Center (BPC) to Industrial (IND).

- Policy 2.108-A1 describes Rural-Development Areas (RDAs) as all unincorporated areas within the County that are not located within a Transit Supportive Development Area, Urban-Growth Area, Suburban-Development Area, or Utility-Enclave Area. Development in these areas is characterized by large open areas, agricultural use, with scattered development and rural centers. Services are limited and mostly found in the rural centers and clustered developments.

- Policy 2.109-A5 describes the Business Park Center land use district as follows: "The purpose of the Business Park Center (BPC) land use district is to provide areas for office, business park development, and light-industrial activities. The BPC land use permits office, research and development parks, distribution centers, and wholesaling activities. Some retail uses are also permitted to support the businesses and activities within the Business Park Center."

- The property is vacant and undeveloped.

Compatibility

- The Comprehensive Plan defines Compatibility in Section 4.400 as "A condition in which land uses or conditions can coexist in relative proximity to each other in a stable fashion over time such that no use or condition is unduly negatively impacted directly or indirectly by another use or condition."

- The proposed request is for a Industrial (IND) Future Land Use designation.

- This area of Polk County is characterized by industrial uses and phosphate mining.

- Surrounding uses include outdoor storage to the west and northwest, manufacturing to the east, and vacant property north and south of the site.

- Policy 2.104-A3: Land Use Categories (for Rural Development Areas (RDAs)) list Industrial as a permitted use in RDAs.

Infrastructure

- The property is zoned for Kingsford Elementary, Mulberry Middle, and Mulberry Senior High.

- Fire and ambulance response is from Polk County Fire Rescue Station 15, located at 300 Kid Ellis Road, Mulberry. The estimated response time from this station is about nine- to fourteen minutes.

- Sheriff's response to the site is served by the Southwest District, located at 4120 US 98 South, Lakeland. The responses time are as follows: Priority One: 8:55 minutes; Priority Two: 26:47 minutes.

- The subject property is near State Road (SR) 37. SR 37 is an Urban Minor Arterial, according to the Polk County TPO Roadway Network Database, and is the closet road to the site that is monitored for concurrency.

- The subject parcel is next to Cozart Road, a private road.

- The site is not located within a utility service area.

Environmental

- There are wetlands and floodplains on the site.

- The site is comprised of Neilhurst sands. These soils are related to previous phosphate mining activities, has severe suitability for septic tank usage and slight limitations for dwellings without basements.

- According to the Florida Natural Areas Inventory Biodiversity Matrix, the site is an area with a rookery.

- The PolkGreen Map does not show this parcel as part of a potential connection of an overall natural network.

- This site does not have a conservation easement. However, property located ¾ mile north of the site contains a conservation easement.

- This property is not within an Airport Impact District.

- The site is not within a Wellfield Protection District.

- Based on information received from the Secretary of State's Department of Historical Resources office, there are no archeological or historic resources on the site.

Comprehensive Plan Policies

- POLICY 2.102-A1 Development Location, states that Polk County shall promote contiguous and compact growth patterns through the development process to minimize energy costs, conserve land, water, and natural resources, minimize the cost of services, and prevent development patterns where tracts of land are by-passed in favor of development more distant from services and existing communities.

- POLICY 2.102-A2 Compatibility, states that land shall be developed so that adjacent uses are compatible with each other, pursuant to the requirements of other Policies in this Future Land Use Element, so that one or more of the following provisions are accomplished:

  a. there have been provisions made which buffer incompatible uses from dissimilar uses;

b. incompatible uses are made to be more compatible to each other through limiting the intensity and scale of the more intense use;

c. uses are transitioned through a gradual scaling of different land use activities through the use of innovative development techniques such as a Planned Unit Development.

- POLICY 2.102-A3 Distribution, states that development shall be distributed throughout the County consistently with this Future Land Use Element so that the public utility, other community services, and public transit and transportation systems can be efficiently utilized; and compact, high-density and intensity development is located where urban services can be made available.

- POLICY 2.102-A4 Timing, states that development of land shall be timed and staged in conjunction with the cost-effective and efficient provision of supporting community services which, at a minimum, shall require compliance with the Plan's Level of Service requirements and the County's concurrency management system.

- POLICY 2.102-A10 Location Criteria, states the following factors shall be taken into consideration when determining the appropriateness of establishing or expanding any land use or development area:

  a. nearness to incompatible land uses and future land uses, unless adequate buffering is provided;

  b. nearness to agriculture-production areas;

  c. distance from populated areas;

  d. economic issues, such as minimum population support and market-area radius (where applicable);

  e. adequacy of support facilities or adequacy of proposed facilities to be provided by the time of development, including, but are not limited to:

  1. transportation facilities, including but not limited to, mass transit, sidewalks, trails and bikeways;

  2. sanitary sewer and potable water service;

  3. storm-water management;

  4. solid waste collection and disposal;

  5. fire protection with adequate response times, properly trained personnel, and proper fire-fighting equipment;

  6. emergency medical service (EMS) provisions; and

  7. other public safety features such as law enforcement;

  8. schools and other educational facilities

  9. parks, open spaces, civic areas and other community facilities

  f. environmental factors, including, but not limited to:

1. environmental sensitivity of the property and adjacent property;

2. surface water features, including drainage patterns, basin characteristics, and flood hazards;

3. wetlands and primary aquifer recharge areas;

4. soil characteristics;

5. location of potable water supplies, private wells, public well fields; and

6. climatic conditions, including prevailing winds, when applicable.

- POLICY 2.108-A1: DESCRIPTION - Rural-Development Areas (RDA) shall be all unincorporated areas within the County that are not located within a Transit Supportive Development Area, Urban-Growth Area, Suburban-Development Area, or Utility-Enclave Area. Development in these areas is characterized by large open areas, agricultural use, with scattered development and rural centers. Services are limited and mostly found in the rural centers and clustered developments.

- POLICY 2.108-A3: LAND USE CATEGORIES - The following land use categories shall be permitted within Rural-Development Areas:

  a. ACTIVITY CENTERS: Rural-Cluster Centers, and Tourism Commercial Centers shall be permitted within RDAs in accordance with applicable criteria.

  b. RESIDENTIAL: Rural Residential Districts (Section 2.121) and Rural Cluster Center (RCC) shall be permitted within RDA's in accordance with applicable criteria.

  c. OTHER: Linear Commercial Corridors, Commercial Enclaves, Industrial, Business Park Centers, Office Centers, Phosphate Mining, Leisure/Recreation, Agricultural/Residential-Rural, Recreation and Open Space, Preservation, Institutional.

  Note: Some land use categories are only allowed in adopted Selected Area Plans, special areas or neighborhood plans as specified in Section 2.109.

- POLICY 2.113-A1: CHARACTERISTICS - Industrial lands are characterized by facilities for the processing, fabrication, manufacturing, recycling, and distribution of goods, and may contain any use also found within a Business-Park Center. However, land use activities that operate externally to enclosed structures may be permitted within an Industrial Future Land Use designation. Industrial districts are also the appropriate location for land use activities that produce significant amount of noise, odor, vibration, dust, and lighting on and off-site that do not produce a physical product.

- POLICY 2.113-A2: DESIGNATION AND MAPPING - Industrial areas shall be designated and mapped on the Future Land Use Map Series as "Industrial" (IND); shall include all major existing industrial areas; and shall provide for the projected future industrial development needs of the County.

- POLICY 2.113-A3: LOCATION CRITERIA - Industrial development within the County shall occur within lands designated as Industrial on the Future Land Use Map Series. The

following factors shall be taken into consideration when determining the appropriateness of establishing new Industrial areas:

a. Industrial development shall be located within an Transit Supportive Development Area Urban-Growth Area, Suburban-Development Area, Rural-Development Area, or Utility-Enclave Area.

b. Accessibility to major air and ground transportation, including but not limited to arterial roadways, rail lines, and cargo airport terminals.

c. The locational criteria enumerated in Policy 2.102-A9 and Policy 2.102-A10.

d. Industrial facilities should group together in planned industrial districts on sites capable of being expanded and developed in stages.

e. Industrial districts shall be separated significant distances from schools and developed residential areas through a combination of physical separation and screening and/or buffering in accordance with standards in the County's Land Development Code.

f. The location criteria for Industrial Districts shall serve to maximize access to the arterial road system and minimize the routing of commercial traffic through residential areas by requiring access be limited to:

1. arterial roads;

2. collector roads, if the subject parcel is within 2 miles of an intersecting arterial road; or

3. local commercial roads or private roads under the following conditions:

(a) the road has full median access onto to an arterial road;

(b) the road does not serve existing or expected future residential traffic from the surrounding area;

(c) the road has a structural integrity and design characteristics suitable for truck traffic.

g. Applications for establishment of an Industrial district shall include a plan consistent with Policy 2.110-L5.

- POLICY 2.113-A4: DEVELOPMENT CRITERIA - Development within an Industrial area shall conform to the following criteria:

a. Permitted uses include facilities for the processing, fabrication, manufacturing, recycling, bulk material storage, and distribution of goods, disposal yards, and limited retail commercial in accordance with Policy 2.113-A4.b. Other non-residential uses that produce significant amounts of noise, odor, vibration, dust, and lighting on and off-site may be permitted within an industrial district through conditional approval. Permitted uses also include any use found within a Business-Park Center.

b. Retail commercial uses within an industrial area shall be sized for the purpose of serving just the employees of, and visitors to, the industrial area, and shall be limited to a scale appropriate for that purpose. The maximum floor area ratio for commercial uses within an industrial area shall not exceed 0.25.

c. Industrial sites shall be designed to provide for:
    1. adequate parking to meet the demands of the use; and
    2. buffering where the effects of lighting, noise, odors, and other such factors would adversely affect adjacent land uses. Parking lots, loading areas, dumpsters, utilities and air conditioning units, signage, etc., are examples of facilities which may require special buffering provisions.

d. The maximum floor area ratio for non-commercial uses within an Industrial area shall not exceed 0.75 in the TSDA, 0.65 in the UGA, 0.50 in the SDA, and 0.50 in the RDA, unless developed as a Planned Development.

e. Retail sale of goods manufactured on the site of a business located within an Industrial area is allowed provided the operation is incidental and subordinate to the manufacturing activity conducted on site and does not exceed eight percent (8%) of the total floor area or 15,000 square feet, whichever is the lesser.

f. Where centralized water or wastewater services are not available, the maximum impervious surface ratio shall be reduced to afford better protection and function of well and septic tank systems and as required if within a Nutrient Restoration Plan Overlay.

g. Planned Developments within the Industrial district may be permitted a maximum floor area ratio up to 1.5 for innovative and attractive employment centers. Intensity increases shall be reserved for those uses that provide substantial economic income opportunities for the County and its residents. Intensity increases shall only be granted to parcels within the TSDA and UGA. The Land Development Code shall establish development standards and criteria for Planned Developments within the Industrial district.

h. Industrial districts shall be separated from existing schools and developed residential areas through physical separation, screening, buffering, or a combination thereof, consistent with the standards in the County's Land Development Code.

i. Workforce housing for unaccompanied workers in barrack, dormitory, or apartment units under specific design parameters listed in the Land Development Code not to exceed an intensity of thirty-two (32) workers per acre or the limitations established by the Department of Health for water and wastewater usage, whichever allowed intensity is the lesser.

- POLICY 2.113-B-1: CHARACTERISTICS - Business-Park Centers are intended to promote employment opportunities within the region by allowing for the establishment of office parks, research and development parks, areas for light-industrial facilities, distribution centers, and mixed-use employment parks. Business-Park Centers are intended for land use activities that are conducted entirely within enclosed structures with the exception of loading and un-loading. These centers are not intended to accommodate major commercial or other similar high-traffic producing facilities. However, these centers often contain other minor commercial facilities, and wholesale facilities, within the Business-Park Center to support

the businesses located there. General (approximate) characteristics of Business-Park Centers are:

Usable Area: 10 acres or more

Gross Leasable Area (GLA): 500,000 to 2,000,000 sq. ft.

Minimum Population Support: 150,000 or more people

Service-Area Radius: 20 miles or more

Typical Leading Tenant: One or more light-assembly plants, or warehouse facilities

Other Typical Tenants: Offices, distribution centers, research and development firms, High-Density Residential (with proper buffering).

- POLICY 2.113-B-3: LOCATION CRITERIA - Business-Park Centers shall be located with consideration being given to maximizing access to the arterial road system and with consideration given to the guidelines outlined in POLICY 2.404.-A1. In locating Business-Park Centers, Polk County shall seek to minimize the routing of commercial traffic through residential areas. Business-Park Centers shall be located on:

  a. arterial roads;

  b. collector roads, if the proposed district is within 2 miles of an intersecting arterial road;

  c. local commercial roads or private roads under the following conditions:

  1. the road has full median access onto to an arterial road;

  2. the road does not serve existing or expected future residential traffic from the surrounding area; and

  3. the road has a structural integrity and design characteristics suitable for truck traffic.

  d. properties abutting an Industrial (IND) district or railroad line.

- POLICY 2.113-B-4: DEVELOPMENT CRITERIA - Development within a Business-Park Center shall conform to the following criteria:

  a. Business-Park Center developments shall have frontage on, or direct access to, a collector or better roadway, or a local commercial road or service drive that directly connects to a collector roadway or better. Business-Park Centers shall incorporate the use of frontage roads or shared ingress/egress facilities wherever practical.

  b. Adequate parking shall be provided to meet the demands of the uses, and interior traffic-circulation patterns shall facilitate the safe movement of vehicular, bicycle, and pedestrian traffic.

c. Buffering shall be provided where the effects of lighting, noise, odors, and other such factors would adversely affect adjacent land uses. Parking lots, loading areas, dumpsters, utilities and air conditioning units, signage, etc. are examples of facilities which may require special buffering provisions.

d. Commercial activities to support activity within a Business Park Center shall not exceed 15 percent of the total area of the Business Park.

e. The maximum floor area ratio for commercial activities shall not exceed 0.25. The maximum floor area ratio for non-commercial activities shall not exceed 0.75 in the TSDA, 0.65 in the SDA, and 0.50 in the RDA, unless developed as a Planned Development.

f. Retail sale of goods manufactured on the site of a business located within a Business Park Center is allowed without affecting the fifteen percent (15%) of commercial activity permitted for the entire activity center provided the operation is incidental and subordinate to the manufacturing activity conducted on site and does not exceed eight percent (8%) of the total floor area or 15,000 square feet, whichever is the lesser.

g. New residential development within Business Park Centers shall be limited to High-Density Residential (with proper buffering).

h. All research and development, light-industrial, and distribution activities shall be conducted within enclosed structures with the exception of loading and unloading of transport and distribution vehicles. Outdoor storage shall be screened from off-site view and significantly limited in respect to the floor area provided within enclosed structures.

i. Where centralized water or wastewater services are not available, the maximum impervious surface ratio shall be reduced to afford better protection and function of well and septic tank septic and as required if within a Nutrient Restoration Plan Overlay.

j. Planned Developments within the Business Park Center district may be permitted a maximum floor area ratio up to 1.5 for innovative and attractive employment centers. Intensity increases shall be reserved for those uses that provide substantial economic income opportunities for the County and its residents. Intensity increases shall only be granted to parcels within the TSDA and UGA. The FAR in the RDA may be increased to 0.75 when connection to public water and sewer is available and within a half mile of a transit route. The Land Development Code shall establish development standards and criteria for Planned Developments within the BPC district.

k. Workforce housing for unaccompanied workers in barrack, dormitory, or apartment units under specific design parameters listed in the Land Development Code not to exceed an intensity of thirty-two (32) workers per acre or the limitations established by the Department of Health for water and wastewater usage, whichever allowed intensity is the lesser.

Development Review Committee Recommendation: Based on the information provided by the applicant, recent site visits, and the analysis conducted within this staff report, the Development Review Committee (DRC) finds that the request **IS compatible** with the surrounding land uses and general character of the area and **IS consistent** with the Polk County Comprehensive Plan and Land Development Code. Therefore, the DRC recommends **APPROVAL of LDCPAS-2026-3.**

Planning Commission Recommendation: On May 6, 2026, the Planning Commission recommended approval of this request (7:0).

GENERAL NOTES

NOTE: This staff report was prepared without the benefit of testimony and evidence submitted by the public and other parties at a public hearing.

NOTE: All written comments made in the application and subsequent submissions of information made during the application review process, which are on file with the Land Development Division, shall be considered to be binding upon the applicant, provided such comments are not at variance with the Comprehensive Plan, LDC or other development regulations in effect at the time of development.

NOTE: Issuance of a development permit by the county does not in any way create any rights on the part of the applicant to obtain a permit from a state or federal agency and does not create any liability on the part of the county for issuance of the permit if the applicant fails to obtain requisite approvals or fulfill the obligations imposed by a state or federal agency or undertakes actions that result in a violation of state or federal law.

Compatibility with the Surrounding Uses

According to *Policy 2.102-A2* of Polk County's Comprehensive Plan, "land shall be developed so that adjacent uses are compatible with each other, pursuant to the requirements of other policies in this Future Land Use Element, so that one or more of the following provisions are accomplished: a. there have been provisions made which buffer incompatible uses from dissimilar uses; b. incompatible uses are made to be more compatible to each other through limiting the intensity and scale of the more intense use; and c. uses are transitioned through a gradual scaling of different land use activities through the use of innovative development techniques such as a Planned Unit Development." The "development criteria" and the "density and dimensional regulations" of a land use district are often the measuring tools used by staff to determine compatibility and the appropriateness of locating differentiating uses. Compatibility is defined in the Comprehensive Plan as "a condition in which land uses or conditions can coexist in relative proximity to each other in a stable fashion over time such that no use or condition is unduly negatively impacted directly or indirectly by another use or condition."

A. Land Uses

The site is within a Rural Development Area (RDA). RDAs are those unincorporated areas within the County that are not located within a Transit Supportive Development Area, Urban-Growth Area, Suburban-Development Area, or Utility-Enclave Area. Development in these areas is characterized by large open areas, agricultural use, with scattered development and rural centers. Services are limited and mostly found in the rural centers and clustered developments.

Currently, the site has a Future Land Use designation of Business-Park Center (BPC). BPCs are intended to promote employment opportunities within the region by allowing for the establishment of office parks, research and development parks, areas for light-industrial facilities, distribution centers, and mixed-use employment parks. Business-Park Centers are intended for land use activities that are conducted entirely within enclosed structures with the exception of loading and un-loading. These centers are not intended to accommodate major commercial or other similar high traffic producing facilities. However, these centers often contain other minor commercial facilities, and wholesale facilities, within the Business-Park Center to support the businesses located there.

The proposed request is for an Industrial (IND) Future Land Use designation. Generally, Industrial districts contain more intensive uses and activities than contemplated in a Business-Park Center. The Comprehensive Plan describes Industrial Lands as characterized by facilities for the processing, fabrication, manufacturing, recycling, and distribution of goods, and may contain any use also found within a Business-Park Center. However, land use activities that operate externally to enclosed structures may be permitted within an Industrial Future Land Use designation. Industrial districts are also the appropriate location for land use activities that produce significant amount of noise, odor, vibration, dust, and lighting on and off-site that do not produce a physical product.

As shown on the Future Land Use Map, adjacent properties south, east and west of the site are designated Industrial. BPC is located to the north of the site.

The site is vacant. Based on a review of past aerial photos, the site has been vacant since at least 1980. Aerial photos from 1941 to 1971 show a lake on the site, presumably as a result of phosphate mining activities on adjoining properties. Generally, the predominant uses in this area of the

county are industrial or phosphate mining related, with much of the land in this area having been previously mined.

Surrounding uses next to the site include railroads on the western and eastern boundaries of the site. A manufacturing use (YTR Ammunition, an ammunition manufacturer) is southeast of the site. Outdoor storage is located west and northwest of the site. Property to the north and south are vacant.

There are several reasons why this request is considered to be compatible, and consistent with the Comprehensive Plan and Land Development Code. The location of transportation facilities, such as railroads and arterial highways is a factor in determining the appropriateness of industrial lands. This site has access to an arterial highway and is flanked by two railroads. Specifically, one of the criteria for locating Industrial lands is the location of private roads with full median access, as outlined in Policy 2.113-A3.f.3.(a). Therefore, this request is consistent with the applicable policies in the Comprehensive Plan.

Adjacent properties are both designated for industrial types of uses and activities. Because of the similarity in current uses and Future Land Use designations, designating this site as Industrial will be compatible.

B. Infrastructure:

According to Comprehensive Plan POLICY 2.102-A1: DEVELOPMENT LOCATION, "Polk County shall promote contiguous and compact growth patterns through the development process to minimize energy costs, conserve land, water, and natural resources, minimize the cost of services, and prevent development patterns where tracts of land are by-passed in favor of development more distant from services and existing communities."

The site is located in the Rural Development Area (RDA), where connections to water and sewer service are not required.

The following table provides a reference point for notable and pertinent Future Land Use Map districts and existing land uses upon them.

Table 1 Future Land Use Map Districts and Existing Uses

Northwest Industrial (IND) Light Manufacturing	**North** Business Park Center (BPC) Vacant	**Northeast** Industrial (IND) Light Manufacturing
West Industrial (IND) Outdoor Storage	**Subject Site** Business Park Center (BPC) Vacant	**East** Industrial (IND) Light Manufacturing
Southwest Industrial (IND) Vacant	**South** Industrial (IND) Vacant	**Southeast** Industrial (IND) Ammunition Manufacturing

Nearest and Zoned Elementary, Middle, and High School

The schools zoned for the subject property are listed in Table 2 below. Because the request is for a non-residential use, the request will not impact school concurrency.

Table 2: School Information

School	Annual Estimated Demand	Distance from Subject Site
Kingsford Elementary	0	1.5 mile
Mulberry Middle School	0	1.6 miles
Mulberry Senior High	0	2.3 miles

Source: Polk County School Board website

Nearest Sheriff, Fire, and EMS Station

Polk County Fire Rescue provides Advanced Life Support transport to all residents and visitors of Polk County. Emergency response is considered effective if response times are within eight (8) minutes in rural and suburban areas and 13 minutes in urban areas.

Sherriff response times are not as much a function of the distance to the nearest sheriff's substation rather more a function of the overall number of patrol officers within the County. Priority 1 Calls are considered true emergencies, in-progress burglary, robbery, injuries, etc. Priority 2 Calls refer to events that have already occurred, such as a burglary that occurred while the homeowner was on vacation and had just been discovered.

Table 3 provides a breakdown of response times and travel distances for emergency services.

Table 3 Public Safety Information

	Name of Station	Distance	Response Time*
Sheriff	Southwest District, located at 4120 US 98 South, Lakeland	15.65 miles	P1: 8:55 minutes P2: 26:47 minutes
Fire/ EMS	Polk County Fire Rescue Station 15, located at 300 Kid Ellis Rd, Mulberry	3.4 miles	9-14 minutes

*Source: Polk County Sheriff's Office and Public Safety *Response times are based on when the station receives the call and not from when the call is made to 911.*

Water and Wastewater

The subject property is in a Rural Development Area (RDA), where connection to public water and sewer is not required. No sewer service or water lines are available in this area.

A. Estimated Demand

The development of the property under the proposed land use designation should not negatively impact the minimum LOS for the existing facilities, due to the relatively low consumption and generation rates. The following analysis assumes the maximum allowed density/intensity of 561,924 square feet of warehouse space for IND, and 561,924 square feet of professional offices space for BPC.

Table 4 Estimated Water and Sewer Impact Analysis

Maximum Allowable Use: BPC-1 – 25.8 AC/1,123,848 SF of site *.50 FAR = 561,924 SF IND – 25.8 AC/1,123,848 SF of site *.50 FAR = 561,924 SF	Estimated Impact Analysis Business Park Center (BPC-1) to Industrial (IND) *Development Area: RDA*	
	Current Land Use designation BPC-1	**Maximum Permitted Use in Proposed IND**
Current Maximum Allowable Use	561,924 Square Feet (SF)	561,924 Square Feet (SF)
Potable Water Consumption	561,924 SF * .24 GPD/SF = **134,862 GPD**	561,924 SF * .24 GPD/SF = **134,862 GPD**
Wastewater Generation	570,854 SF * 80% of water usage **107,890 GPD**	570,854 SF * 80% of water usage **107,890 GPD**

GPD – Gallons Per Day
Source: Polk County Concurrency Manual and Polk County Utilities: Professional Offices @ .24 GPD/SF (water) & .18 GPD/SF (sewer); Warehouse @ .24 GPD/SF (water) & .18 GPD/SF (sewer)

B. Available Capacity:

Because this property is in a Rural Development Area, public water or sanitary sewer services are not available.

C. Planned Improvements:

No information is known currently about any planned improvements to utilities in this area.

Roadways/ Transportation Network

The Polk County Transportation Planning Organization (TPO) monitors traffic congestion on over 425 roadway segments (950 directional links). The data identifies both daily and peak hour traffic volumes. The peak hour traffic volumes are used to estimate the level-of-service for each roadway, in each direction. Level-of-service refers to the quality of traffic flow. It is the primary measure of traffic congestion. Level-of-service (LOS) is measured on a scale of 'A' to 'F' with LOS 'A' being the best (free-flow traffic) and LOS 'F' being the worst (severe traffic congestion).

The proposed Comprehensive Plan Amendment is not anticipated to affect surrounding roadways or transportation network. The Amendment will not change the LOS below the minimum established standards.

A. Estimated Demand

Table 5, following this paragraph, shows the Average Annual Daily Trip (AADT) rate and the PM Peak hour trip rate. The analysis is based on a maximum permitted use of 561,924 square feet of general light industrial. The following analysis assumes the maximum allowed intensity of 561,924 square feet of warehouse space for BPC and 561,924 square feet for IND.

Table 5 Estimated Transportation Impact Analysis

Maximum Allowable Use: BPC-1 – 25.8 AC/1,123,848 SF of site *.50 FAR = 561,924 SF IND – 25.8 AC/1,123,848 SF of site *.50 FAR = 561,924 SF	Estimated Impact Analysis Business Park Center (BPC-1) to Industrial (IND) Development Area: RDA	
	Current Land Use designation BPC-1	**Maximum Permitted Use in Proposed IND**
	561,924 Square Feet (SF)	561,924 Square Feet (SF)
Average Annual Daily Trips (AADT)	561,924 SF *1.71 trips/1,000 SF = **961 AADT**	561,924 SF * 4.87 trips/1,000 SF = **2,736 AADT**
PM Peak Hour Trips	561,924 SF * .18 trips/1,000 SF = **101 PM Peak Hour Trips**	561,924 SF * .65 trips/1,000 SF = **37 PM Peak Hour Trips**

Source: Concurrency Manual and Table for Minor Traffic Study – Warehousing (ITE 150) – 1.71 AADT/1,000 SF; General Light Industrial (ITE 110) – 3.60 AADT/1,000 SF, 0.49 peak-hour trips/1,000 SF.

B. Available Capacity:

The roads surrounding the subject site should have sufficient capacity available, depending on the eventual use and full build out of the site. The Polk Transportation Planning Organization (TPO) monitors certain roadways based on maximum approved traffic in comparison to current vehicle trips to determine what capacity is available.

Table 6, below, charts the generalized available capacity of the most-affected links.

Table 6 Available Capacity

Link #	**Road Name**	**Current Level of Service (LOS)**	**Available PM Peak Hour Capacity**	**Minimum LOS Standard**	**5-Year Peak Hour Projected LOS**
5801N	SR 37 From: SR 674 To: SR 640	B	582	C	B
5801S	SR 37 From: SR 674 To: SR 640	B	570	C	B

Source: Polk County Transportation Planning Organization, Concurrency Roadway Network Database January 17, 2025

As identified above, SR 37 has sufficient PM peak hour capacity to support future development activity.

The subject parcel is next to Cozart Road. This road is a privately owned road and has a pavement width of 20 feet. There is an easement on the road that allows for access to the site.

C. Roadway Conditions

Because Cozart Road is a privately maintained road, no information regarding the Pavement Condition Index is available.

D. Planned Improvements:

There are no known improvements for this portion of Highway 37 South at this time.

E. Mass Transit

The Route 21X West – Bartow/ Mulberry/ Ft. Meade traverses this section of Highway 37 South in Mulberry. There is a bus stop at the northwest corner of Highway 37 South, about .9 miles walking distance from the site.

F. Sidewalks

There are no sidewalks in front of the subject property, nor along adjacent streets.

Park Facilities and Environmental Lands

The closest County Park is Pinedale Park, located 1 mile south of the site. Because the proposed amendment is for non-residential uses, it will not have an impact on this facility.

A. Location:

Pinedale Park is located on the south side of Temple Street in the Pinedale subdivision in Mulberry (no address available).

B. Services:

Pinedale Park is a County Park is a vacant lot with no special service or equipment.

C. Multi-use Trails:

There are no multi-use trails in the immediate area. According to the Polk GIS Viewer, the closest trails can be found at the Lakeland Highlands Scrub, 5.3 miles Northeast of the site.

Environmental Lands

The site is located close to an Ecological Greenway Network but is not within that area. The closest conservation area is 2.45 miles Northwest of the site, Alafia River Reserve.

Environmental Conditions

There are wetlands and floodplains on this site. Because of these conditions, any development of the site will have to take these conditions into account and comply with the applicable requirements of Section 620 (Wetland Protection) and Section 630 (Flood Hazard Management and Floodplain Protection) of the Land Development Code.

A. Surface Water:

There are no surface waters on the site. A freshwater pond is about 600 feet west of the site.

B. Wetlands/Floodplains:

The site contains floodplains and wetlands.

C. Soils:

The site is comprised of Neilhurst sand/1 to 5 percent slopes, according to the U.S. Department of Agriculture, Soil Conservation Service, Polk County Survey. Table 7, below, lists the soils associated with the subject site.

Table 7 Soils

Soil Name	**Septic Tank Absorption Field Limitations**	**Limitations to Dwellings Without Basements**	**% of Site** *(approximate)*
Neilhurst sand/1 to 5 percent slopes	Severe: wetness	Slight	100.%

Source: Soil Survey of Polk County, Florida 1985, USDA, Soil Conservation Service

Any future development of the site will be subject to Section 2.303: "Soils" of the County's Comprehensive Plan (in conjunction with the Land Development Code) which requires all development to implement Best Management Practices based on the Department of Environmental Protection's (DEP) Florida Development Manual.

D. Protected Species

According to the Florida Natural Areas Inventory Biodiversity Matrix, the site is located within one mile of a rookery. Prior to site clearing or grubbing, the applicant shall hire a qualified professional to conduct a site survey/walkover to ensure that no threatened or endangered plant or animal species exist on the site. If any are discovered, the applicant shall properly protect the specie(s) or mitigate any impacts consistent with federal, state, and local law.

The PolkGreen Map displays this parcel as near potential connection of an overall natural network. Moreover, there are no conservation easements on this parcel, but a property with an conservation easement is ¾ mile north of the site.

E. Archeological Resources:

Based on information received from the Secretary of State's Department of Historical Resources office, there are no archeological or historic resources on the site.

F. Wells (Public/Private)

The site is not within a Wellfield Protection District.

G. Airports:

This property is not within the Airport Impact District.

Economic Factors:

Construction of buildings and site development activities create temporary jobs. Any new business activity that occurs at this site will need more goods and services, thereby generating more economic activity.

The proximity of this site next to Highway 37 and existing railroads provide an opportunity for new businesses to locate on this site, thereby also providing jobs to support the Mulberry community.

Consistency with the Comprehensive Plan

Many policies within the Comprehensive Plan are reviewed for consistency with an application. The most relevant policies for the proposed request are included in this section. The policy is first stated and then an analysis of how the request is provided to state that it may or may not be consistent with the Comprehensive Plan. How the request is **consistent** with the Comprehensive Plan is listed below:

Table 8 Comprehensive Plan

Comprehensive Plan Policy	Consistency Analysis
POLICY 2.102-A2: COMPATIBILITY - Land shall be developed so that adjacent uses are compatible with each other, pursuant to the requirements of other Policies in this Future Land Use Element, so that one or more of the following provisions are accomplished: a. there have been provisions made which buffer incompatible uses from dissimilar uses; b. incompatible uses are made to be more compatible to each other through limiting the intensity and scale of the more intense use; c. uses are transitioned through a gradual scaling of different land use activities through the use of innovative development techniques such as a Planned Unit Development.	The site is in between two properties that are designated as Industrial (IND) and would be compatible.
POLICY 2.102-A1: DEVELOPMENT LOCATION – Polk County shall promote contiguous and compact growth patterns through the development process to minimize energy costs, conserve land, water, and natural resources, minimize the cost of services, and prevent development patterns where tracts of land are by-passed in favor of development more distant from services and existing Communities.	The site is in an existing industrial area.
POLICY 2.102-A10: LOCATION CRITERIA - The following factors shall be taken into consideration when determining the appropriateness of establishing or expanding any land use or development area: a. nearness to incompatible land uses and future land uses, unless adequate buffering is provided, b. nearness to agriculture-production areas; c. distance from populated areas; d. economic issues, such as minimum population support and market-area radius (where applicable); e. adequacy of support facilities or adequacy of proposed facilities to be provided by the time of development, including, but are not limited to: 1. transportation facilities, including but not limited to, mass transit, sidewalks, trails and bikeways; 2.sanitary sewer and potable water service; 3. storm-water management; 4. solid waste collection and disposal; 5. fire protection with adequate response times, properly trained personnel, and proper fire-fighting equipment;	The proximity of the site next to SR 37, next to an existing industrial area, and bordered on two sides by a railroad. These features make the site appropriate for more intensive industrial uses.

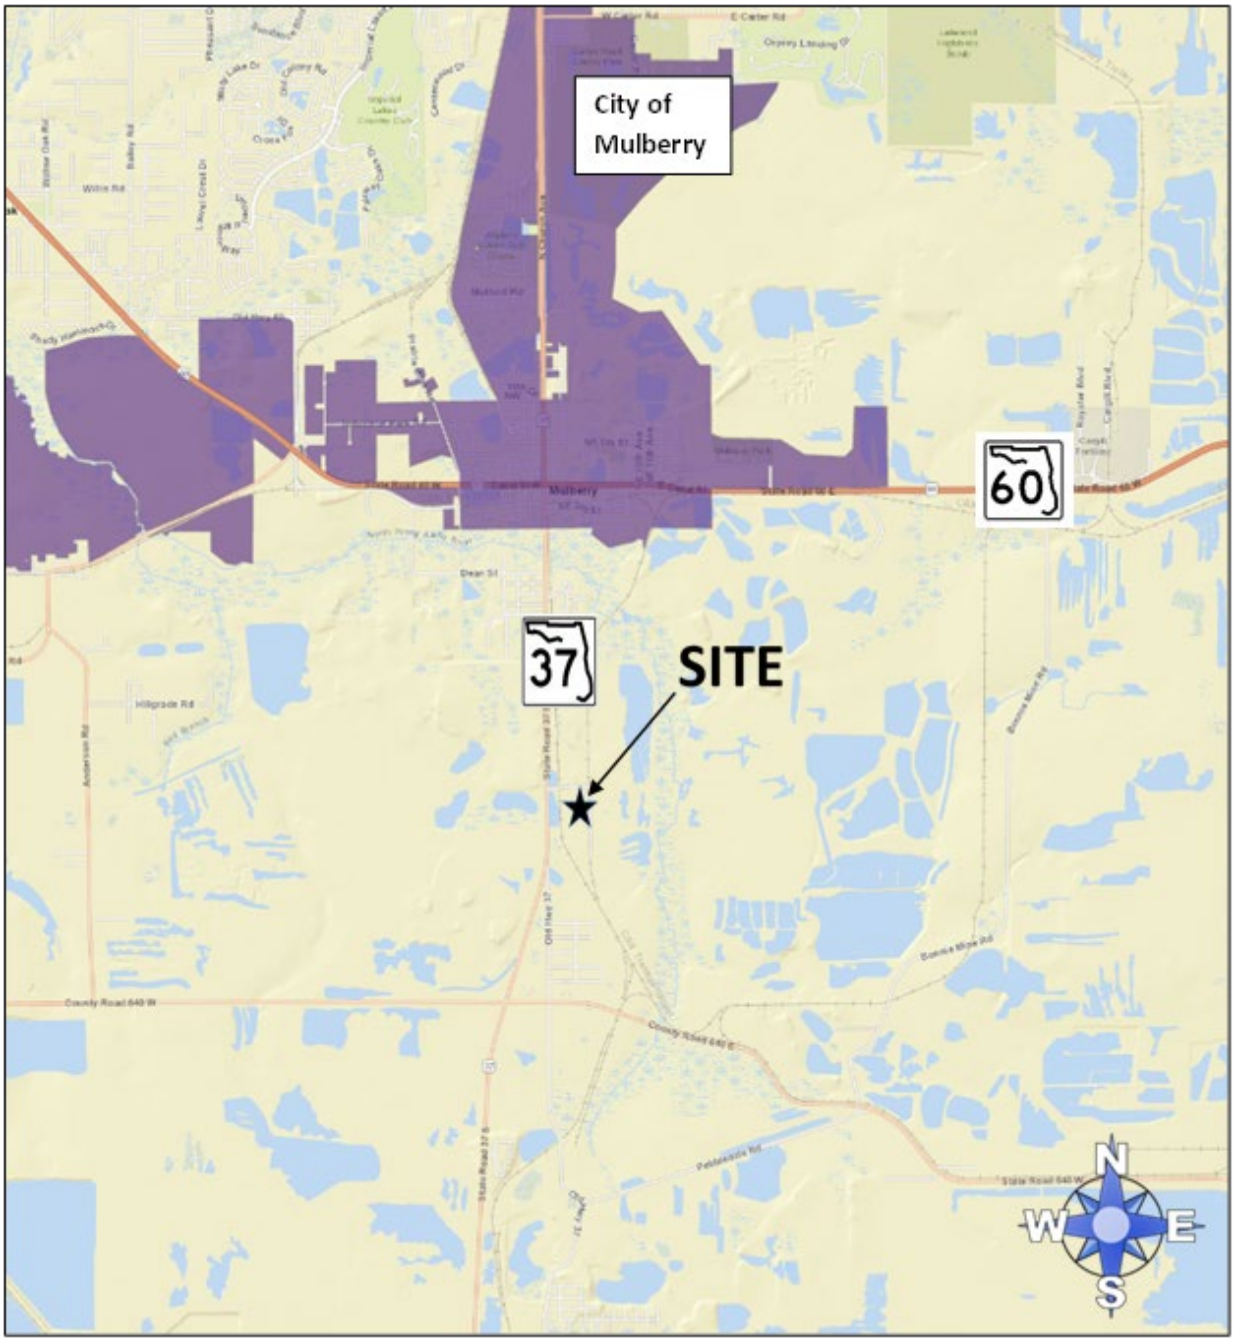
Comprehensive Plan Policy	Consistency Analysis
6. emergency medical service (EMS) provisions; and 7. other public safety features such as law enforcement; 8. schools and other educational facilities 9. parks, open spaces, civic areas and other community facilities, f. environmental factors, including, but not limited to: 1. environmental sensitivity of the property and adjacent property; 2. surface water features, including drainage patterns, basin characteristics, and flood hazards; 3. wetlands and primary aquifer recharge areas; 4. soil characteristics; 5. location of potable water supplies, private wells, public well fields; and 6. climatic conditions, including prevailing winds, when applicable.	
POLICY 2.108-A3: LAND USE CATEGORIES - The following land use categories shall be permitted within Rural-Development Areas: a. ACTIVITY CENTERS: Rural-Cluster Centers, and Tourism Commercial Centers shall be permitted within RDAs in accordance with applicable criteria. b. RESIDENTIAL: Rural Residential Districts (Section 2.121) and Rural Cluster Center (RCC) shall be permitted within RDA's in accordance with applicable criteria. c. OTHER: Linear Commercial Corridors, Commercial Enclaves, Industrial, Business Park Centers, Office Centers, Phosphate Mining, Leisure/Recreation, Agricultural/Residential-Rural, Recreation and Open Space, Preservation, Institutional. Note: Some land use categories are only allowed in adopted Selected Area Plans, special areas or neighborhood plans as specified in Section 2.109.	The site is in a Rural Development Area (RDA).
POLICY 2.113-A3: LOCATION CRITERIA - Industrial development within the County shall occur within lands designated as Industrial on the Future Land Use Map Series. The following factors shall be taken into consideration when determining the appropriateness of establishing new Industrial areas: a. Industrial development shall be located within an Transit Supportive Development Area Urban-Growth Area, Suburban-Development Area, Rural-Development Area, or Utility-Enclave Area. b. Accessibility to major air and ground transportation, including but not limited to arterial roadways, rail lines, and cargo airport terminals. c. The locational criteria enumerated in Policy 2.102-A9 and Policy 2.102-A10. d. Industrial facilities should group together in planned industrial districts on sites capable of being expanded and developed in stages.	This request can be considered to be part of an expansion of an existing industrial district. The site is located near an arterial road, and has direct access next to two railroads. Cozart Road has full median access to SR 37.

Comprehensive Plan Policy	Consistency Analysis
e. Industrial districts shall be separated significant distances from schools and developed residential areas through a combination of physical separation and screening and/or buffering in accordance with standards in the County's Land Development Code. f. The location criteria for Industrial Districts shall serve to maximize access to the arterial road system and minimize the routing of commercial traffic through residential areas by requiring access be limited to: 1. arterial roads; 2. collector roads, if the subject parcel is within 2 miles of an intersecting arterial road; or 3. local commercial roads or private roads under the following conditions: (a) the road has full median access onto to an arterial road; (b) the road does not serve existing or expected future residential traffic from the surrounding area; (c) the road has a structural integrity and design characteristics suitable for truck traffic. g. Applications for establishment of an Industrial district shall include a plan consistent with Policy 2.110-L5.	

Urban Sprawl Analysis
After analyzing the primary indicators of Urban Sprawl per *Policy 2.109-A10* of the Polk County Comprehensive Plan, the proposed request is not considered to be urban sprawl.

Table 9 (below) depicts the Urban Sprawl Criteria used by staff as indicators of Urban Sprawl.

Table 9 Urban Sprawl Criteria



Urban Sprawl Criteria: The following criteria are the primary indicators of urban sprawl per Florida Statutes	
Urban Sprawl Criteria	**Sections where referenced in this report**
a. *Promotes substantial amounts of low-density, low-intensity, or single use development in excess of demonstrated need.*	Summary of analysis
b. *Allows a significant amount of urban development to occur in rural areas.*	Summary of analysis
c. *Designates an urban development in radial, strip isolated, or ribbon patterns emanating from existing urban developments.*	Summary of analysis, surrounding Development, compatibility
d. *Fails to adequately protect and conserve natural resources and other significant natural systems.*	Summary of analysis, surrounding Development, compatibility
e. *Fails to adequately protect adjacent agricultural areas.*	Compatibility with Surrounding Land Uses
f. *Fails to maximize existing public facilities and services.*	Summary of Analysis, Infrastructure
g. *Fails to minimize the need for future facilities and services.*	Summary of Analysis, Infrastructure
h. *Allows development patterns that will disproportionately increase the cost of providing public facilities and services.*	Summary of Analysis, Infrastructure
i. *Fails to provide a clear separation between urban and rural uses.*	Summary of Analysis, Compatibility with Surrounding Land Uses
j. *Discourages infill development or redevelopment of existing neighborhoods.*	Summary of Analysis, Compatibility with Surrounding Land Uses
k. *Fails to encourage an attractive and functional mixture of land uses.*	Summary of Analysis, Compatibility with Surrounding Land Uses
l. *Will result in poor accessibility among linked or related land uses.*	Summary of Analysis, Compatibility with Surrounding Land Uses
m. *Results in the loss of a significant amount of open space.*	Summary of Analysis, Compatibility with Surrounding Land Uses

ORDINANCE NO. 26 -____

AN ORDINANCE OF POLK COUNTY, FLORIDA ADOPTING **LDCPAS-2026-3;** AN AMENDMENT TO THE POLK COUNTY COMPREHENSIVE PLAN, ORDINANCE 92-36, AS AMENDED, TO CHANGE THE FUTURE LAND USE MAP DESIGNATION ON 25.8+/- ACRES FROM BUSINESS PARK CENTER (BPC) TO INDUSTRIAL (IND). THE SITE IS LOCATED NORTH OF COZART ROAD, EAST OF HIGHWAY 37 SOUTH, SOUTH OF THE CITY OF MULBERRY, EAST AND WEST OF THE CSX RAILROAD, IN SECTION 13, TOWNSHIP 30, RANGE 23; PROVIDING FOR SEVERABILITY; AND PROVIDING FOR AN EFFECTIVE DATE.

WHEREAS, pursuant to Article VIII, Section I(g) of the Constitution of the State of Florida and the Community Planning Act, Chapter 163, Part II, Florida Statutes (FS), as amended, (the Act) Polk County is authorized and required to adopt a Comprehensive Plan (Plan); and

WHEREAS, Section 163.3187, FS, and Comprehensive Plan Section 4.305.B, provides for the approval of Small-Scale Comprehensive Plan Amendments; and

WHEREAS, pursuant to Section 163.3174, FS, the Local Planning Authority (Planning Commission) conducted a public hearing, with due public notice having been provided, on the proposed Plan revisions on May 6, 2026; and

WHEREAS, pursuant to Section 163.3187(2), FS, the Board of County Commissioners conducted an adoption public hearing, with due public notice having been provided, on the proposed Plan revisions on June 16, 2026; and

WHEREAS, the Board of County Commissioners, reviewed and considered all comments received during said public hearing, and provided for necessary revisions; and

NOW THEREFORE, BE IT ORDAINED by the Polk County Board of County Commissioners:

SECTION 1: COMPREHENSIVE PLAN AMENDMENT

The Future Land Use Map of Ordinance No. 92-36, as amended, (the "Polk County Comprehensive Plan") is hereby amended to reflect a change in the Future Land Use designation on a 25.8+/- acre site from Business Park Center (BPC) to Industrial (IND) on the parcel listed below and graphically depicted on the parcel map in Attachment "A".

Parcel 233013000000043040

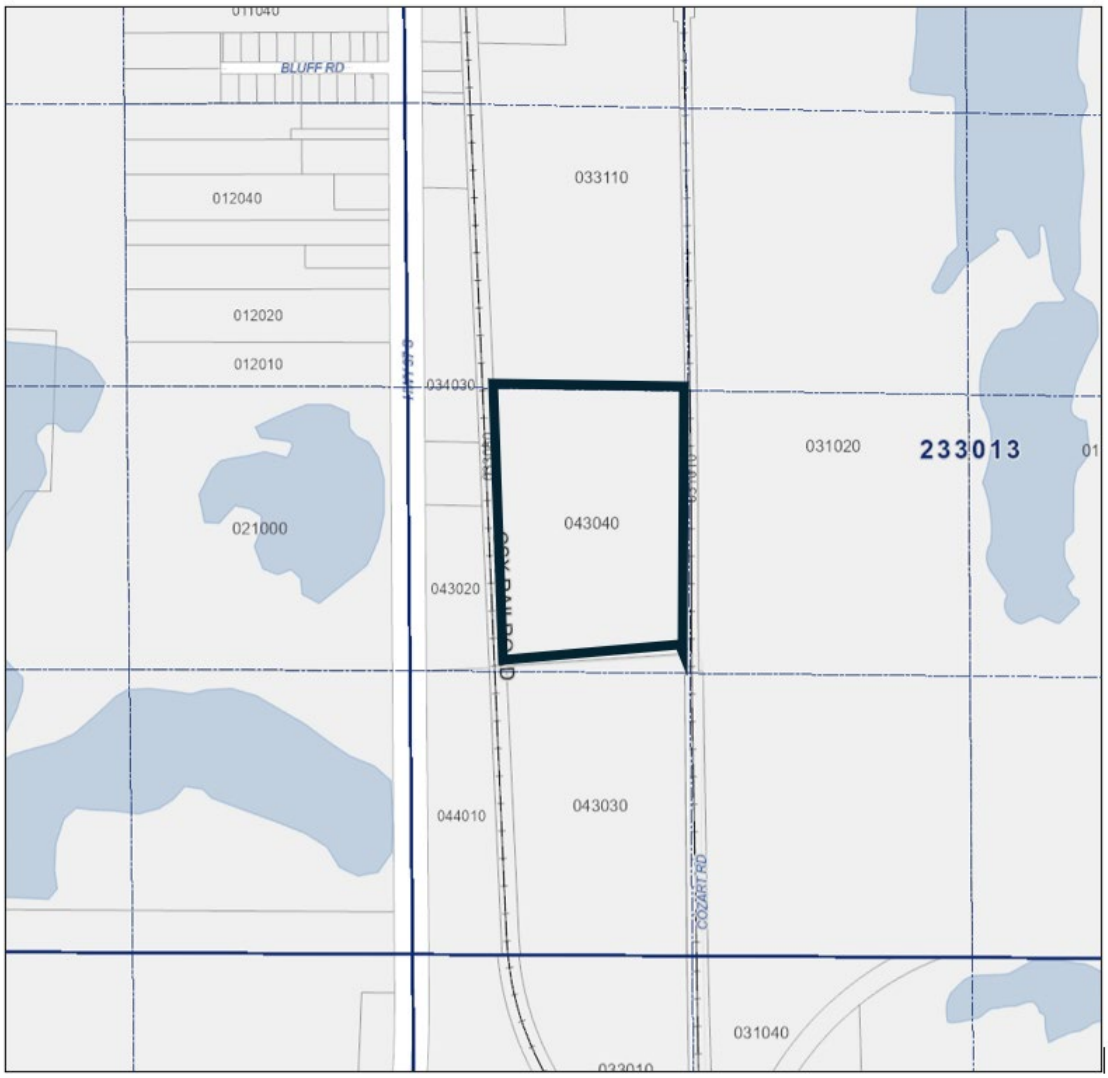
COMM NW COR OF NE1/4 OF NE1/4 RUN N88-44-47W 1324.25 FT N88-45-20W 1401.10 FT S01-02-23E 928.93 FT N88-57-37E 20 FT S01-02-23E 1566.45 FT TO CURVE RUN SELY ALONG CURVE 178.81 FT TO POB CONT SELY ALONG CURVE & R/W LINE OF CSX RR SPUR LINE 900.37 FT TO REVERSE CURVE RUN SELY ALONG CURVE 343.39 FT S86-13-47W 853 FT N02-30-46W 1313 FT S89-12-27E 901.86 FT TO POB

SECTION 2: SEVERABILITY

If any provision of this Ordinance is held to be illegal, invalid, or unconstitutional by a court of competent jurisdiction the other provisions shall remain in full force and effect.

SECTION 3: EFFECTIVE DATE

This ordinance shall be effective on July 17, 2026 (31 days after adoption), unless the amendment is challenged. If challenged, the effective date of this ordinance shall be the date a Final Order is issued by the Department of Commerce or Administration Commission finding the amendment in compliance in accordance with Section 163.3184 (1)(b), Florida Statutes. No development orders, development permits, or land uses dependent upon this amendment, as described on the attached map of proposed land uses, may be issued or commence before it has become effective.



SECTION 4: FILING WITH THE DEPARTMENT OF STATE:

The Clerk and Auditor to the Board of County Commissioners of Polk County, Florida, shall file a certified copy of this ordinance with the Department of State, through the Secretary of State, upon adoption by the Board of County Commissioners of Polk County, Florida.

ADOPTED, in open session of the Polk County Board of County Commissioners with a quorum present and voting this 16th day of June 2026.

Location of Property: 233013-000000-043040

Per F.S. 125.022(1), the County must process applications for development orders and development permits pursuant to timeframes set forth in the statute and as adopted by Land Development Code (LDC) Sections 905 through 908, as follows:

- The County shall notify applicants indicating the application is complete or specify deficiencies within 30 days after receipt of the application.
- If deficiencies are identified, applicants shall have 30 days to submit the required additional information or the application will be withdrawn. Both parties may agree to a reasonable request for an extension of time only in the event of a *force majeure* or other extraordinary circumstance.
- Within 120 days after a Level 2 Review (LDC Section 905) application is deemed complete, the County must approve, approve with conditions, or deny each application. These limits may be reasonably extended by mutual agreement of the applicant and the County for up to 120 days.
- Within 180 days after a Level 3-5 Review (LDC Sections 906-908) application is deemed complete, the County must approve, approve with conditions, or deny each application. These limits may be reasonably extended by mutual agreement of the applicant and the County for up to 90 days.
- Additionally, per F.S. 125.022(2), when reviewing an application for a development permit or development order that is certified by a professional listed in F.S. 403.0877, the County may not request additional information from the applicant more than three times unless the applicant waives the limitation in writing.

To request an extension of processing time and waiver of the limitation on requests for additional information, please fill out and sign this form and return it to OPD staff. **Applicants may request an extension of processing time at the time of filing an initial application or at any time an application is pending before final action.** Please be advised that the Applicant may incur additional advertising fees.

As the Applicant/Agent for Applicant for a development order or development permit from Polk County, I acknowledge the timeframes as listed above and hereby request (check all that apply):

(●) Decline the waiver and agree to comply with the timeframes set forth in F.S. 125.022(1) and the LDC.

( ) A waiver of the limitation on requests for additional information per F.S. 125.022(2).

○ An extension of _____ days for the submittal of additional information necessary for a complete application. *(Granted in the event of extraordinary circumstances)*

○ An extension of _____ days for the County to issue final action approving, approving with conditions, or denying an application for development permit or development order. *(Maximum 120 days for Level 2 Reviews; maximum 90 days for Level 3-5 Reviews)*

Parcel Id: 233013-000000-043040

Narrative

This request is to amend the existing landuse on the subject property from Business Park Center (BPC) to Industrial (IND). The subject property has access to State Road 37 via an easement agreement recorded in OR Book 13444, Pgs 1719-1732). A portion of the subject property is designated as lakes. This is a result of the historical mining on the subject property. The mapping is incorrect as the subject property does not contain a lake. The subject property also contains a portion of floodplain with an undetermined flood elevation. Examination of the topography on the property makes it clear that the mapped floodplain is incorrect. The property will need to have the extent of the floodplain determined (via a flood study) at some point in the future when development plans are determined.

The subject property is consistent with the Polk County Comprehensive Plan and Land Development Code as summarized in the enclosed Impact Assessment Statement and Demonstration of Need.

IMPACT ASSESSMENT STATEMENT

LAND AND NEIGHBORHOOD CHARACTERISTICS

Assess the compatibility of the requested land use with adjacent properties and evaluate the suitability of the site for development. At a minimum, address the following specific questions in your response:

1. *How and why is the location suitable for the proposed uses?*
The subject property currently has a landuse designation of BPC-1 and is bordered to the west, east, and south by Industrial landuse and bordered to the north by BPC-1 landuse. Additionally, the property is bordered by railway to the east and west.

2. *What are, if any, the incompatibility and special efforts needed to minimize the differences in the proposed use with adjacent uses?*
There are no incompatibility or special efforts needed as the site is surrounded by similar uses.

3. *How will the request influence future development of the area?*
This request will provide opportunities for additional Industrial uses compatible with the surrounding area.

ACCESS TO ROADS AND HIGHWAYS

Assess the impact of the proposed development on the existing, planned and programmed road system. At a minimum, address the following specific questions in your response.

4. *What is the number of vehicle trips to be generated daily and at the PM peak hour based on the latest Institute of Traffic Engineers (ITE)?*
Currently there is not a specific use intended for the property, however, the proposed Industrial landuse will generate traffic in a manner similar to other Industrial uses in the area.

5. *What modifications to the present transportation system will be required as a result of the proposed development?*
The subject property is adjacent to Cozart Road to the south and is less than 500 feet from Highway 37. Transportation improvements are not anticipated, however, any future improvements will be determined based on the specific use at the time of Construction Plan review.

6. *What is the total number of parking spaces required pursuant to Section 708 of the Land Development Code?*

Parking will be provided in accordance with the specific development of the property in accordance with Section 708 of the Polk County Land Development Code.

7. *What are the proposed methods of access to existing public roads (e.g., direct frontage, intersecting streets, and frontage roads)?*

Access to the property is via Cozart Road which is less than 500 feet from Highway 37 South.

SEWAGE

Determine the impact caused by sewage generated from the proposed development. At a minimum, address the following specific questions in your response.

8. *What is the amount of sewage in gallons per day (GPD) expected to be generated by the proposed development?*

Future development of the subject property will utilize septic.

9. *If on-site treatment is proposed, what are the proposed methods, level of treatment, and the method of effluent disposal for the proposed sewage?*

Onsite septic and drainfield will be utilized

10. *If offsite treatment, who is the service provider?*

NA

11. *Where is the nearest sewer line (in feet) to the proposed development?*

NA

12. *What is the provider's general capacity at the time of application?*

NA

13. *What is the anticipated date of connection?*

NA

14. *What improvements to the providers system are necessary to support the proposed request?*

NA

WATER SUPPLY

Determine the amount of water to be used, how it will be distributed and the impact on the surrounding area. At a minimum, address the following specific questions in your response.

15. What is the proposed source of water supply and/or who is the service provider?
Onsite well will be used for future development

16. What is the estimated volume of consumption in gallons per day (GPD)?
NA

17. Where is the nearest potable water connection and re-claimed water connection, including the distance and size of the line?
NA

18. Who is the service provider?
NA

19. What is the anticipated date of connection?
NA

20. What is the provider's general capacity at the time of application?
NA

21. Is there an existing well on the property(ies)?
Construction of a well is anticipated with future development

SURFACE WATER MANAGEMENT AND DRAINAGE

Determine the impact of drainage on the groundwater and surface water quality and quantity caused by the proposed development. At a minimum, address the following specific questions in your response.

22. Discuss the surface water features, including drainage patterns, basin characteristics, and flood hazards.
The subject site drains generally from south to north. A portion of the site is within a mapped floodplain with an undetermined flood elevation. The true extent of the floodplain will need to be determined via a floodstudy at the time of future development.

23. What alterations to the site's natural drainage features, including wetlands, would be necessary to develop the project?
No significant alterations to the site's natural drainage direction and/or features are anticipated. Future development will be in accordance with the rules and

regulations of the Southwest Florida Water Management District and Polk County.

ENVIRONMENTAL ANALYSIS

Provide an analysis of the character of the subject property and surrounding properties, and further assess the site's suitability for the proposed land use classification based on soils, topography and the presence of wetlands, floodplain, aquifer recharge areas, scrub or other threatened habitat, and historic resources, including but not limited to:

24. Discuss the environmental sensitivity of the property and adjacent property in basic terms by identifying any significant features of the site and the surrounding properties.

There are no known environmental issues on the subject property. The site is surrounded by rail lines to the east and west and a road to the south. The site will be reviewed by an environmental scientist during Level 2 review for the presence of wetlands, protected species, and other environmentally sensitive areas. The development of the property will comply with the environmental regulations governing the property.

25. What are the wetland and floodplain conditions? Discuss the changes to these features that would result from development of the site.

Wetlands exist in the northwest portion of the subject property. No wetland impacts are anticipated. **A portion of the site is within a mapped floodplain with an undetermined flood elevation. The true extent of the floodplain will need to be determined via a floodstudy at the time of future development.**

26. Discuss location of potable water supplies, private wells, and public well fields.

The subject property is not within a Utility Service Area. There are no known wells on site. Any well discovered will be abandoned in accordance with the SWFWMD Rules and Regulations. Existing offsite wells will not be impacted by the proposed development. Future development will construct a private well.

27. Discuss the location of Airport Buffer Zones.

There are no Airport Buffer Zones near the subject site.

28. Provide an analysis of soil types and percentage of coverage on site and what affect it will have on development.

The site consists almost entirely of Neilhurst soils which will not prohibit development.

INFRASTRUCTURE IMPACT INFORMATION

What is the nearest location (travel distance), provider, capacity or general response time, and estimated demand of the provision for the following services:

29. Parks and Recreation
NA

30. Educational Facilities
The property is zoned for Kingsford Elementary, Mulberry Middle, and Mulberry Senior High.

31. Health Care
Bartow Regional Medical Center is located approximately 11.8 miles from the subject property.

32. Fire Protection
Fire protection is provided by the Polk County Fire Station 15 located at 300 Kid Ellis Road, Mulberry. The estimated response time is 9-14 minutes.

33. Police Protection and Security
Sheriff's response to the site is served by the Southwest District, located at 4120 US 98 South, Lakeland. The response times are 8:55 minutes for Priority One and 26:47 minutes for Priority Two.

34. Emergency Medical Services (EMS)
Ambulance response is from Polk County Fire Station 15 located at 300 Kid Ellis Road, Mulberry. The estimated response time is 9-14 minutes.

35. Solid Waste
Polk County Landfill Solid Waste

36. How may this request contribute to neighborhood needs?
There is a strong and growing demand for property zoned for Industrial uses

IAS - Surface Water Management and Drainage - Please respond to the following questions as outlined in Section 910.E.: To determine the impact of drainage on the groundwater and surface water quality and quantity caused by the proposed development, the applicant shall:

Comment 1: Discuss the impact the proposed development will have on surface water quality.

Response: **No impact to surface water quality is anticipated. Stormwater runoff will be designed in accordance with the Polk County Land Development Code and SWFWMD rules and regulations.**

Comment 2: Describe the alteration to the site's natural drainage features, including wetland, that would be necessary to develop the project

Response: **The site natural drainage patterns will be maintained. Stormwater ponds will be constructed to capture runoff. Pond discharge will be directed to mimic the existing natural drainage patterns.**

Comment 3: Describe the impact of such alterations on the fish and wildlife resources of the site.

Response: **No impacts are anticipated**

Comment 4: Describe local aquifer recharge and groundwater conditions and discuss the changes to these water supplies which would result from development of the site.

Response: **Stormwater ponds will be designed such that aquifer recharge is designed to match existing conditions.**

IAS – Population - Please respond to the following questions as outlined in Section 910.F. To determine the impact of the proposed developments additional population, the applicant shall:

Comment 1: Calculate the projected resident (and transient) population of the proposed development and the generated population in the case of commercial or industrial uses

Response: **The generated population will be dependent of the future development of the property and the future jobs that are created.**

Comment 2: Describe, for commercial and industrial projects, the employment characteristics including the anticipated number of employees, type of skills or training required for the new jobs, the percentage of employees that will be found locally or are expected to be drawn from outside the county or state, and the number of shifts per day and employees per shift

Response: **The employment characteristics are dependent on the future development of the property once specific uses are proposed.**

Comment 3: Indicate the expected demographic composition of the additional population (age/socio-economic factors)

Response: **The future development will not target specific demographics, such as retirement, rental, or low-income individuals. This development will attract a mixture of population due to its proximity to the market areas of Polk County and surrounding counties.**

Comment 4: Describe the proposed service area and the current population thereof.

Response: **The service area is expected to be Central Florida.**

SLOAN

DEMONSTRATION OF NEED

PROJECT NARRATIVE

URBAN SPRAWL ANALYSIS

1. *Could the proposed amendment promote substantial amounts of low-density, low intensity, or single use development in excess of demonstrated need?*
   The proposed Future Land Use change to Industrial is consistent with the surrounding area.

2. *Will passage of the proposed amendment allow a significant amount of urban development to occur in rural areas?*
   The proposed amendment will expand on the Industrial nature of the surrounding area.

3. *Does the proposed amendment create or encourage urban development in radial, strip, isolated, or ribbon patterns emanating from existing urban development?*
   The subject property is located adjacent to the transportation system including existing highways and rail lines.

4. *Does the proposed amendment fail to adequately protect adjacent agriculture areas?*
   There are no agricultural areas adjacent to the subject property.

5. *Could the proposed amendment fail to maximize existing public facilities and services?*
   The proposed amendment encourages further use of the existing transportation infrastructure including the highways and rail system.

6. *Could the proposed amendment fail to minimize the need for future public facilities and services?*
   The proposed amendment is not anticipated to affect the need for future facilities and services in the area in a negative way as the project will utilize the existing public transportation system which has available capacity as well as the adjacent rail system.

7. *Will the proposed amendment allow development patterns that will disproportionately increase the cost of providing public facilities and services?*
   The proposed amendment has no negative effect on future public facilities and services. Public facilities already exist including the transportation system as well as the rail system.

8. *Does the proposed amendment fail to provide clear separation between urban and rural uses?*
   The subject property is in an area of industrial growth.

9. *Will the proposed amendment discourage infill development or redevelopment of existing neighborhoods?*
   NA

10. *Does the proposed amendment fail to encourage an attractive and functional mixture of land uses?*
    The area surrounding the subject property currently has landuses compatible with the proposed Industrial landuse.

11. *Could the proposed amendment result in poor accessibility among linked or related land uses?*
The proposed amendment will promote similar adjacent uses.

12. *As a result of approval of this amendment, how much open space will be lost?*
It is anticipated that the subject property will develop under the Polk County regulations for industrial development and will therefore provide open space in accordance with County requirements.

CORRECTIVE GENERAL WARRANTY DEED
(correcting legal description in OR instrument #2024008904)

Made this January 8, 2024. A.D. by Yavascalar Troy Holding, LLC, a Florida limited liability company, whose address is: 2701 Cozart Rd, Mulberry, FL 33860 hereinafter called the grantor, to David Sumner and Cathy Sumner, husband and wife, whose post office address is: P.O. Box 215, Mulberry, FL 33860, hereinafter called the grantee:

(Whenever used herein the term "grantor" and "grantee" include all the parties to this instrument and the heirs, legal representatives and assigns of individuals, and the successors and assigns of corporations)

Witnesseth, that the grantor, for and in consideration of the sum of Ten Dollars ($10.00) and other valuable considerations, receipt whereof is hereby acknowledged, hereby grants, bargains, sells, aliens, remises, releases, conveys and confirms unto the grantee, all that certain land situate in Polk County, Florida, viz:

That part of the West 3/2 of Section 13, Township 30 South, Range 23 East, Polk County, Florida, lying East of Seaboard Coastline Railroad Main Line being more particularly described as follows: Commence at the Northwest corner of the Northeast 1/4 of the Northeast 1/4 of said Section 13 and run thence North 88 degrees 44 minutes 47 seconds West a distance of 1324.25 feet along the North boundary of Section 13 to the North 1/4 corner of Section 13; thence North 88 degrees 45 minutes 20 seconds West a distance of 1401.10 feet along the North boundary of said Section 13; thence South 01 degrees 02 minutes 23 seconds East a distance of 928.93 feet along the West right of way of CSX Railroad Spur Line; thence North 88 degrees 57 minutes 37 seconds East a distance of 20.00 feet; thence South 01 degrees 02 minutes 23 seconds East a distance of 1566.45 feet along CSX Spur Line; thence with a curve turning to the right with an arc length of 178.81 feet, with a radius of 49804.07 feet, with a chord bearing of South 00 degrees 56 minutes 13 seconds East, with a chord length of 178.81 feet to the Point of Beginning; thence continue along said West right of way of the CSX Spur Line along said curve turning to the right with an arc length of 900.37 feet, with a radius of 49804.07 feet, with a chord bearing of South 00 degrees 18 minutes 58 seconds East, with a chord length of 900.36 feet, thence continue along said West right of way of CSX Spur Line with a reverse curve turning to the left with an arc length of 343.39 feet, with a radius of 20938.72 feet, with a chord bearing of South 00 degrees 13 minutes 10 seconds East, with a chord length of 343.39 feet; thence departing West right of way of CSX Railroad Spur Line; South 86 degrees 13 minutes 47 seconds West a distance of 853.00 feet thence along East right of way of the CSX Railroad Main Line North 02 degrees 30 minutes 46 seconds West a distance of 1313.00 feet; thence departing said East right of way, run South 89 degrees 12 minutes 27 seconds East a distance of 901.86 feet to the Point of Beginning. Together with an easement for ingress and egress, access and passage of vehicles and equipment over and upon the South 50 feet of that part of the Northwest 1/4 of the Northwest 1/4, lying West of Atlantic Coast Line Railroad Company Main Line right of way; and over and upon the South 50 feet of that part of the Northwest 1/4 of the Southwest 1/4, lying West of said railroad right of way, all in Section 13, Township 30 South, Range 23 East, Polk County, Florida.

Parcel ID No.: 23-30-13-000000-043030

Subject to all reservations, covenants, conditions, restrictions and easements of record and to all applicable zoning ordinances and/or restrictions imposed by governmental authorities, if any.

Together with all the tenements, hereditaments and appurtenances thereto belonging or in anywise appertaining.

To Have and to Hold, the same in fee simple forever.

And the grantor hereby covenants with said grantee that the grantor is lawfully seized of said land in fee simple; that the grantor has good right and lawful authority to sell and convey said land; that the grantor hereby fully warrants the title to said land and will defend the same against the lawful claims of all persons whomsoever, and that said land is free of all encumbrances except taxes accruing subsequent to the current year.

EASEMENT AGREEMENT

This Easement Agreement is entered into on this 19th day of February, 2025 by and between Yavascalar Troy Holding, LLC, a Florida limited liability company, of 2701 Cozart Road, Mulberry, FL 33860 ("Troy") Ultra Mag, LLC, a Florida limited liability company, of P. O. Box 6165; Lakeland, Florida 33807 ("Mag") and David Sumner and Cathy Sumner ("Sumner") of P. O. Box 215; Mulberry, Florida 33860.

Background. An Easement exists over the following described property:

The South 50 feet of that part of the NW ¼ of the SW ¼ lying west of railroad right of way along with the South 50 feet of the NW ¼ of the SW ¼ of east said right of way in Section 13, Township 30 South Range 23 East, Polk County, Florida. This easement was created by reservation in that certain Deed attached hereto recorded in Official Records Book 867, page 270, public records of Polk County, Florida, a copy of which is attached hereto as Exhibit A.

This Easement is adjacent to, and provides access to State Road 37 South, a public right of way in Polk County, Florida. However, only Troy and Sumner own property adjacent to the Easement, and therefore, Mag needs additional access. Troy is the owner of the real property described on Exhibit B ("Troy Land"), Sumner is the owner of the real property described on Exhibit C and Mag is owner of the real property described on Exhibit D ("Mag Land"). The Troy Land and the Mag Land are adjacent and contiguous, and the Troy Land and the Sumner Land are separated only by a railroad. The Sumner Land lies adjacent to and north of the easement described on Exhibit A and the vacated Cozart Road. Troy and Mag currently meander into and along the Sumner Land for ingress and egress where the Sumner Land adjoins the easement described on Exhibit A and the vacated Cozart Road.

NOW THEREFOR, in consideration of the sum of Ten Dollars and other good and valuable considerations, the receipt of which is acknowledged by all parties, it is agreed as follows:

1. Troy hereby grants to Mag, an ingress, egress and utility easement over the real property described on Exhibit E ("Easement Property") which is part of the Troy Land. The combined Easement locations referenced above are reflected on the sketch attached hereto as Exhibit F.

2. Sumner hereby grants to Troy and Mag, an ingress egress and utility easement over those lands of Sumner which are adjacent to the easement described on Exhibit A and the vacated Cozart Road which are presently being utilized by the parties for ingress and egress and as further shown in attached composite Exhibit F (the Additional Easement Property).

3. The Easement Property and the Additional Easement Property shall be appurtenant to land of the grantees named in the easements and shall run with the land.

4. Any party shall have the right, but not the obligation, to maintain any Easement Area.

5. The right to maintain the Easement Property shall include, but not be limited to, the right to repair and improve the Easement Property as any party deems necessary or appropriate, and, notwithstanding the foregoing, no party shall have any duty or obligation to perform any repair or maintenance to the Easement Property.

5. This Agreement shall be binding upon and inure to the benefit of the Parties hereto, their guests, and invitees and their respective heirs and assigns.

DEED

OFF REC 867 PAGE 270

The Grantor, SOCONY MOBIL OIL COMPANY, INC., a corporation existing under the laws of the State of New York, having a principal office at 150 East 42nd Street, New York, New York, in consideration of ten dollars and other valuable considerations received from the Grantees, hereby grants and conveys to the Grantees, BERNARD N. KIRKLAND and WILLIE MAE KIRKLAND, his wife, as tenants by the entirety, whose post office address is Route 4, Box 194, Lakeland, Florida, the real property described below.

That part of the west one-quarter (W-1/4) lying west of the Atlantic Coast Line Railroad Company main line right-of-way, in and of Section 13, Township 30 South, Range 23 East, Polk County, Florida, SUBJECT TO right-of-way for State Road 37 along the west side thereof.

The Grantor reserves unto itself, its successors and assigns, an easement for ingress, egress, access, and passage of vehicles and equipment over and upon the south 50 feet of that part of the NW-1/4 of NW-1/4 lying west of said railroad right-of-way and over and upon the south 50 feet of that part of the SW-1/4 of SW-1/4 lying west of said railroad right-of-way, all in and of said Section 13.

This conveyance is subject to (a) existing rights-of-way, if any, for roads and railroads; (b) lien for taxes, if any, which are not yet due and payable; and (c) electric power line easement over the south 160 feet of the property as set forth in instrument granted by Virginia-Carolina Chemical Corporation to Tampa Electric Company, dated September 23, 1954, Deed Book 988, page 81, Polk County, Florida.

The Grantor covenants that the property is free of all encumbrances, that lawful seisin of and good right to convey

Comment: Wetlands - Based on a review of the County's GIS Viewer, it appears that 5.74 acres, generally situated in the NW corner of the site, contain wetlands. Please provide a narrative/analysis of how this amendment will comply with the application wetlands policies in the Comprehensive Plan Future Land Use Element.

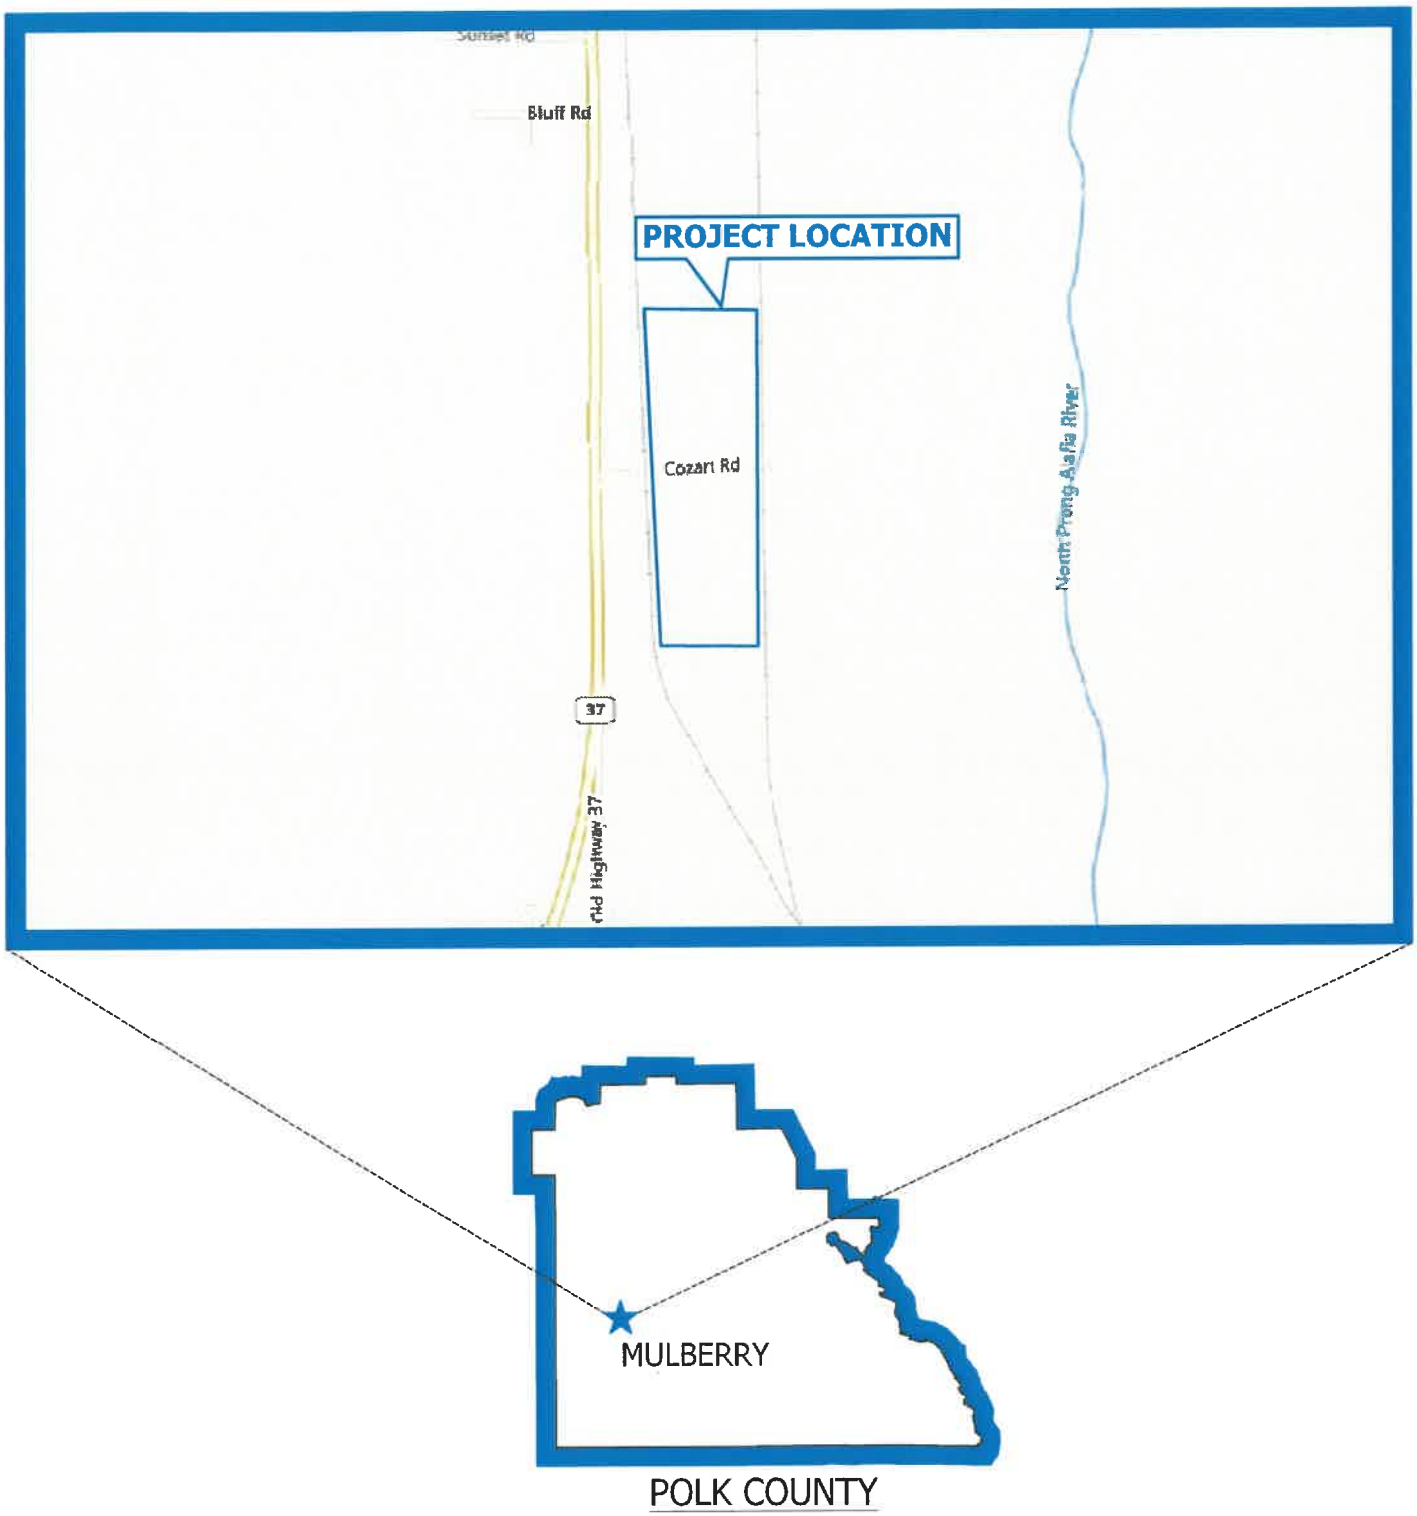
Response: **In accordance with Policy 2.123-C2, it is expected that future development of the subject property will delineate the existing wetlands by a qualified Environmental Scientist and avoid or minimize adverse impacts to the wetlands and the Industrial development will locate on the non-wetland portion of the site**

Comment: Analysis of Plan Industrial Policies - Please provide an analysis of how this request is consistent with the Industrial Policies, as requested in the Pre-Application comments.

Response: **The Industrial landuse request is intended to provide property that can be developed consistently with the surrounding area and allow future businesses to have an appropriate location for potential uses that operate externally to an enclosed structure. The property is located appropriately to established ground transportation and rail lines. There are no schools or residential areas in close proximity to the subject property. At this time, the specific use of the subject property has not been determined, however, this request will allow the property to be marketed to future users with operations consistent with the Industrial landuse.**

Comment: Vehicle Trips - Please provide an estimated building size to show an estimate of vehicle trips to be generated daily and at PM peak hour per Section 910 B. 1 of the LDC.

Response: **At this time a specific user is unknown; however, based on the allowable FAR in the RDA (0.5), we anticipate the site could accommodate 75,000 sf of warehouse and 50,000 sf of manufacturing. Based on this, the estimated vehicle trips would be as follows:**



Warehouse (ITE code 150): 75,000 sf / 1,000 sf x 1.71 trips = 128.25
Manufacturing (ITE code 140): 50,000 sf / 1,000 sf x 4.75 trips = 237.5 trips
Total trips = 366

Comment: Water and Sewer Generation Rates - Please provide an estimated building size to show an estimate of water and sewer generation rates, per Sections 910 C.1. and D.3.of the LDC.

Response: **Water rates are estimated at 0.24 gpd per sf of warehouse and manufacturing space.**
Total Estimated Water Generation = 125,000 sf x 0.24 gpd/sf = 30,000 gpd
Total Estimated Sewer Generation = 0.75 of water = 0.75 x 22,500 gpd

Comment: Maps - Please provide the required maps for the Impact Statement, as required by Section 910. H. of the LDC

Response: **See enclosed maps.**

Mark J. Bennett, AICP, FRA-RA, CNU-A

Experienced Professional in urban planning, zoning, and land development, both in the public and private sector. Proven leader, manager, and entrepreneur. Veteran with 30 years of military service.

Professional Goal – Create Better Communities!

Education:

Student, International Development Doctoral Program, University of Southern Mississippi (current)
Naval Postgraduate School, Monterrey, CA, Graduate Certificate - Stability, Security, and Development in Complex Operations
Royal Military College of Canada, Toronto, ON, CA, Master of Defence Studies
University of Central Florida, Orlando, FL, Master of Public Administration
University of South Florida (USF), Tampa, FL, Bachelor of Arts - Major - Geography

Memberships (Current):

American Institute of Certified Planners (AICP) - Certificate Number 11241
Florida Redevelopment Association – Certified Redevelopment Administrator (FRA-RA); Member, Board of Directors, Chair, Education and Professional Development Committee
Congress of New Urbanism - Accredited Member (CNU-A)
City of Lake Wales Code Enforcement Board
USF School of Public Affairs Master of Urban and Regional Planning Advisory Council
Polk Vision - Leadership Polk Class XV
Haines City/Northeast Polk Chamber of Commerce - Leadership Class X
Senior Army Reserve Commanders Association, Reserve Officers Association, Military Officers Association of America - Imperial Polk County Chapter, American Legion, Veterans of Foreign Wars, 1st Cavalry Division Association

Memberships (Previous):

Summerlin Academy (military-oriented public school of choice) Advisory Committee, Bartow, FL
Polk County Affordable Housing Advisory Committee
City of Lake Wales Planning Board, Community Redevelopment Agency (CRA) Advisory Committee
Polk Transportation Planning Organization – Technical Advisory Committee, Joint Airport Zoning Board
Central Florida Development Council - Investor

Professional Planner Experience:

Senior Planner, Land Development Division, Polk County Board of County Commissioners, Polk County, FL – February 2023 to Present – Conduct long-range planning, development review activities, and special projects. Previously served from February 2006 to March 2007 as a Principal Planner. Initially hired in January 1989 as a student trainee, was promoted to Planner I, II, III, and Senior Planner before leaving in January 1996.

Development Services Director, City of Lake Wales, FL - July 2020 to February 2023 - Department-level position manager responsible for planning & zoning, building permitting and inspections, code compliance, and support of the Community Redevelopment Agency (CRA) for a city of 17,000+ residents and 20 square miles. Previously served as the City Planner from July 1998 to November 2000, Acting Community Services Director from March to June 1999, and the Development Services Director from January 1996 to June 1997.

Deputy Director of Development Services/CRA Manager, City of Haines City, FL – July 2017 to July 2020 – Responsible for the City's CRA, community-development related activities, and special projects for a rapidly growing city of 25,000+ residents comprising 20 square miles. Served as Director of Development Services in absence of Director. Previously served as City Planner from November 1997 to July 1998, and Planning Manager from March 2007 to April 2015.

Planning Director/Principal, Ridge Professional Group – April 2015 to May 2017 – Responsible for all urban planning and zoning functions for an eight-employee land development consulting firm specializing in permitting and engineering design. Also, part-owner of firm, with additional duties of marketing, sales, and public relations.

Urban Planner – Bennett Consulting Services - July 2001 to February 2006 - Owner of urban planning consulting firm, specializing in subcontracting work for planning & civil engineering firms. Projects include processing Comprehensive Plan Amendments, Planned Developments, creation and implementation of annexation and sector plans, due diligence analysis for prospective land purchases, and property development potential analysis. Served as City Planner for Frostproof, FL from March to August 2005. Provided subject-matter expertise/testimony for clients before Polk County, Lake County, Lakeland, Winter Haven, and Lake Wales.

Planning Services Manager/Business Development Manager – M. T. Causley, Inc. – October 2002 to June 2003 - Contract position, responsible for urban planning services and business development activities (including sales, marketing, personnel and project management) for central Florida area.

Site Acquisition/Zoning Specialist – iTactical Services – November 2000 to October 2002 – Contract position, responsible for selection, acquisition/purchase of property, and obtaining zoning/development approval for placement of communications towers.

Zoning Specialist, SBA Communications Corporation - June to November 1997 - Responsible for siting, zoning, and permitting 20 sites to establish the Sprint PCS network in the Tampa Service Area.

Military Experience:

US Army Reserve (Retired) - April 1989 to May 2019 – Final Rank – Colonel. Key Assignments included Civil Affairs Planning Team Chief, 350th Civil Affairs Command, Pensacola, FL, with duty at US Southern Command, Doral, FL; Commander, 3rd Battalion, 349th Regiment (Logistics Support), Camp Shelby, MS; Commander, 5th Battalion, 95th Regiment, (Civil Affairs/Psychological Operations), Lubbock, TX; Civil Affairs Analyst, US Special Operations Command, MacDill Air Force Base, Tampa, FL; Battalion Executive Officer and Commander, A Company, 478th Civil Affairs Battalion, Perrine, FL; and Public Works Officer/Essential Services Team Leader, 1st Armored Division/1st Cavalry Division Governorate Support Team, Baghdad, Iraq.

Significant Awards and Decorations include the Combat Action Badge, Bronze Star (Meritorious Service) and the Parachutist Badge.

Resume of Service Career available upon request.

Hobbies/Personal Interests:

Reading, attending University of South Florida athletic events, and spending time with wife Melissa and their two children.

Board of County Commissioners

Agenda Item N.5. 6/16/2026

SUBJECT

Public Hearing (LDCPAS-2025-12 Keller Road PM to A/RR CPA) (Adoption Hearing) to consider the adoption of a Small-Scale Comprehensive Plan Amendment to change the Future Land Use Map designation from Phosphate Mining (PM) to Agricultural/Residential Rural (A/RR) on 19.47± acres.

DESCRIPTION

This is an applicant-initiated request for property located on the east side of Keller Road, north of Dishong Road and west of Lanier Road, southeast of the City of Fort Meade, in Section 06, Township 32, Range 26. State law requires one Planning Commission hearing, which was held May 6, 2026, with a recommendation for approval (7:0).

POLK COUNTY
DEVELOPMENT REVIEW COMMITTEE
STAFF REPORT

DRC Date:	**May 15, 2025**
Planning Commission Date:	May 6, 2026
BoCC Dates:	June 16, 2026
Applicant:	Polk County
Level of Review:	Level 4 Review, Comprehensive Plan Map Amendment
Case Number and Name:	LDCPAS-2025-12 Keller Road PM to A/RR CPA
Request:	Small Scale Comprehensive Plan map amendment from Phosphate Mining (PM) to Agricultural/Residential Rural (A/RR) on 19.47± acres in the Rural Development Area (RDA).
Location:	The site is south of US Highway 98 E, on the east side of Keller Road, north of Dishong Road and west of Lanier Road, southeast of the City of Fort Meade, in Section 06, Township 32, Range 26
Property Owner:	James Merle Johnson, James R Keller, Timothy James Keller, Tiffany Pangborn, Pamela K Wells
Parcel Size:	19.48± acres (Parcels: 263206000000034010, 263206000000034020, 263206000000034030, 263206000000034040, 263206000000034050, 263206000000034060, 263206000000034070, 263206000000034080, 263206000000034100)
Development Area/Overlays:	Rural Development Area (RDA)
Future Land Use:	Phosphate Mining (PM)
Nearest Municipality	Fort Meade
DRC Recommendation:	Approval
Planning Commission Vote:	Approval (7:0)
Case Planner:	Robert Bolton, Planner III

Location

Current Future Land Use

Summary

A County-initiated request for a Comprehensive Plan Map amendment to change the Future Land Use designation from Phosphate Mining (PM) to Agricultural Residential Rural (A/RR). The subject property is located east of Keller Road, and south of US Highway 98 E, southeast of the City of Fort Meade. The site is 19.48± acres and consists of nine (9) lots in the subject site area with four (4) of the nine (9) lots currently improved with residential dwellings. The dwellings in the sites were constructed in the 1950's and 1960's and are lots of record. The site has not been owned by a mining company, nor been in a mine plan.

This land use change request is consistent with Policy 2.114-A2 that provides if a property designated PM was not owned by a mining company or in a mine plan, the future land use after PM can be A/RR or other recreation and institutional land uses. In addition, this policy allows for the subject site to be developed as if it was already designated A/RR and requiring that the County initiated a Future Land Use designation change to A/RR. This request is consistent with that policy and in line with the other A/RR in the RDA. This request is also part of Board of County Commission request to research, locate and initiate Land Use Changes from Phosphate Mining (PM) to Agricultural/Residential Rural (A/RR) for parcels within the PM that have historically been utilized as residential use with residential dwellings.

Compatibility Summary

Section 2.114 of the Comprehensive Plan lists A/RR as one of the land uses for the conversion of PM lands. The surrounding uses are previously mined lands, with another area of Agricultural Residential Rural (A/RR) to the northwest of the site. Agricultural Residential Rural (A/RR) is the Future Land Use provided in Policy 2.114-A2 of the Comprehensive Plan.

Infrastructure Summary

The infrastructure is rural in nature. The site has been developed with residential dwellings for several decades with phosphate mining occurring around them. The surrounding use is predominantly previously mined lands. Adjacent to the northwest is another residential area that has been developed as rural residential and is located between Keller Road and Parrish Road. These uses are compatible with the current lots of record.

Environmental Summary

There is a small pond on site; however, there are no other floodplains or wetlands on site. The soils map indicates some moderate limitations for the use of septic within the subject area; however, the site is significantly built out with residential dwellings with the vacant lots owned by the residents.

Comprehensive Plan
The relevant sections of the Comprehensive Plan that are applicable to the project request:

- Policy 2.102(A1-A15): Growth Management Policies
- Policy 2.102-A10 Location Criteria
- Section 2.114 Phosphate Mining
- Policy 2.114-A4: Future Development of PM Land

Findings of Fact

Request and Legal Status

- This is a County-initiated request for a Comprehensive Plan Map amendment to change the Future Land Use designation from Phosphate Mining (PM) to Agricultural Residential Rural (A/RR) on 19.48 +/- acres.

- The County is initiating this request is consistent with Comprehensive Plan Policy 2.114-A2 which states that if property in the PM district that was not under a conceptual mining plan and owned by a phosphate mining company "may be developed residentially but the County must initiate a Comprehensive Plan amendment soon after to recognize the new land use."

- This request is also part of Board of County Commission request to research, locate and initiate Land Use Changes from Phosphate Mining (PM) to Agricultural/Residential Rural (A/RR) for parcels within the PM that have historically been utilized as residential use with residential dwellings.

- The subject site has historically been residential and has not been mined.

- The subject properties were not owned by a mining company or part of a mine plan at the time of the adoption of the Comprehensive Plan.

Compatibility

- There are nine (9) lots in the subject site area with four (4) of nine (9) lots currently improved with residential dwellings, five are vacant and owned by the improved lot owners.

- Staff set prior notification letters to the Owners of Record for each of the parcels. No response was received.

- Staff is coordinating with the Phosphate Review Group to obtain any comments per *Policy 2.114-A4,* any comments received may result in update(s) to this Staff Report.

- The earliest residential construction for the improved lots dates back to the 1950's and 1960's

- North of the site between Keller Road and Parrish Road is another area that was developed as rural residential.

- The existing uses surrounding the site are
    - North – PM Vacant, Formerly Phosphate Mined Land, NW, A/RR Residential and Citrus
    - West – PM Vacant, Formerly Phosphate Mined Land, NW, A/RR Residential and Citrus
    - East – PM Vacant, Formerly Phosphate Mined Land
    - South – PM Vacant, Formerly Phosphate Mined Land

Infrastructure

- The subject site parcels have enough road frontage and points of access to permit access points for the vacant lots within the subject site in accordance with Section 705 and Section 822 of the LDC.

- The property fronts Keller Road on the west, with frontage on a private unnamed access road on the south.

- The site has no access to centralized potable water or wastewater services. The closest water line is located on the west side of the Peace River. The closest municipal service area is the City of Fort Mead, north and east of the site.

- The subject property is zoned for Lewis Anna Woodbury Elementary School, Ft Meade Middle/Sr Middle School, and Ft. Meade Senior High School.

- The Sheriff's Regional Command that serves the area is the Polk County Sheriff's Southeast Command Center at 4011 Sgt. Mary Campbell Way in Lake Wales approximately 32 miles to the northeast.

- Fire rescue response from Polk County Fire Rescue Station #10 at 1235 9th St NE N, Fort Meade. It is approximately 3.9 miles driving distance.

- There are no sidewalks along Keller Road.

- The nearest transit route is Route 25 that stops at S. Hendry Avenue and E. Broadway Street in Ft. Meade, approximately 3.2 miles northwest.

- The nearest neighborhood park is the Fort Meade Park. The closest County Regional Park is Loyce Harpe Park. The Bone Valley ATV Park is about eleven (11) miles away.

Environmental

- There is a small pond on the site.

- The subject site does contain wetlands, the small pond is the only floodplain.

- The subject site has Tavares Fine Sand (60%), and Arents (40%).

- The site is located within the Potential Network Connections area of the Polk Green District Comprehensive Plan Map Series.

- Approximately 0.6 mile south of the site has over 500 acres in a Conservation Easement.

- The subject property is not located within a one-mile radius of a protected plant or animal species sighting since 2006 (Source: Florida Natural Areas Inventory 2002, 2006, 2011, & 2015).

- There are no known archeological or historical resources on the subject site per data from the Florida State Historical Commission.

- There are residential use wells on the subject site and it is not located in a wellfield.

- The site is not within an Airport Impact District.

Comprehensive Plan Policies

- POLICY 2.102-A1 Development Location states that Polk County shall promote contiguous and compact growth patterns through the development process to minimize energy costs, conserve land, water, and natural resources, minimize the cost of services, and prevent development patterns where tracts of land are by-passed in favor of development more distant from services and existing communities.

- POLICY 2.102-A2 Compatibility states that land shall be developed so that adjacent uses are compatible with each other, pursuant to the requirements of other Policies in this Future Land Use Element, so that one or more of the following provisions are accomplished: a. there have been provisions made which buffer incompatible uses from dissimilar uses; b. incompatible uses are made to be more compatible to each other through limiting the intensity and scale of the more intense use; c. uses are transitioned through a gradual scaling of different land use activities through the use of innovative development techniques such as a Planned Unit Development.

- POLICY 2.102-A3 Distribution states that development shall be distributed throughout the County consistently with this Future Land Use Element so that the public utility, other community services, and public transit and transportation systems can be efficiently utilized; and compact, high-density and intensity development is located where urban services can be made available.

- POLICY 2.102-A4 Timing states that development of land shall be timed and staged in conjunction with the cost-effective and efficient provision of supporting community services which, at a minimum, shall require compliance with the Plan's Level of Service requirements and the County's concurrency management system.

- POLICY 2.102-A10 Location Criteria states the following factors shall be taken into consideration when determining the appropriateness of establishing or expanding any land use or development area:
  a. nearness to incompatible land uses and future land uses, unless adequate buffering is provided;
  b. nearness to agriculture-production areas;
  c. distance from populated areas;
  d. economic issues, such as minimum population support and market-area radius (where applicable);
  e. adequacy of support facilities or adequacy of proposed facilities to be provided by the time of development, including, but are not limited to:
    1. transportation facilities, including but not limited to, mass transit, sidewalks, trails and bikeways;
    2. sanitary sewer and potable water service;
    3. storm-water management;
    4. solid waste collection and disposal;
    5. fire protection with adequate response times, properly trained personnel, and proper fire-fighting equipment;
    6. emergency medical service (EMS) provisions; and
    7. other public safety features such as law enforcement;
    8. schools and other educational facilities
    9. parks, open spaces, civic areas and other community facilities
  f. environmental factors, including, but not limited to:
    1. environmental sensitivity of the property and adjacent property;
    2. surface water features, including drainage patterns, basin characteristics, and flood hazards;
    3. wetlands and primary aquifer recharge areas;
    4. soil characteristics;
    5. location of potable water supplies, private wells, public well fields; and
    6. climatic conditions, including prevailing winds, when applicable.

- POLICY 2.114-A4: FUTURE DEVELOPMENT OF PM LAND - Polk County shall promote the redevelopment of PM lands by encouraging master planned developments incorporating land uses permitted within Rural Development Areas. Applications for land use amendments will be reviewed by the "Phosphate Mining Review Group." The applicant will be required to submit appropriate data and analysis as required by the amendment process, a copy of the reclamation plan including the subject site(s), and narrative establishing how the proposed land use(s) follows or conforms to the reclamation plan. The proposal shall demonstrate consistency with the goals, objectives, and policies of the Plan, including, county-wide land use needs, compatibility with adjacent uses, and protection of existing natural resources.

  The "Phosphate Mining Review Group" will be composed of a representative from each of the following agencies:
  Department of Environmental Protection, Bureau of Mine Reclamation
  Central Florida Regional Planning Council
  Phosphate Mining Industry
  Florida Institute of Phosphate Mining Research
  Florida Fish and Wildlife Conservation Commission
  Polk County Planning

Polk County Natural Resources
Polk County Cooperative Extension Services, Soils Conservation

- These applications for land use amendments shall be reviewed by the Group prior to application being accepted by the County.

- According to POLICY 2.108-A1 of the Comprehensive Plan, the subject property is in a Rural Development Area (RDA). The RDA "is characterized by large open areas, agricultural use, with scattered development and rural centers. Services are limited and mostly found in the rural centers and clustered developments."

- The subject property is in a Phosphate Mining (PM) Future Land Use Map district. The Comprehensive Plan permits only Phosphate mining and allied industries, land reclamation, agriculture, and Farmworker housing.

- Policy 2.114-A2 of the Comprehensive Plan states that if property in the PM district that was not under a conceptual mining plan and owned by a phosphate mining company "may be developed residentially but the County must initiate a Comprehensive Plan amendment soon after to recognize the new land use."

- For PM lands affected by Policy 2.114-A2, a change to the Agricultural/Residential Rural (A/RR) district is the default category.

- Per Table 2.2 of the Land Development Code (LDC), the minimum residential lot size in an A/RR district is five (5) acres. Single-family residences are a permitted use in A/RR.

Development Review Committee Recommendation: Based on the information provided by the applicant, recent site visits, and the analysis conducted within this staff report, the Development Review Committee finds that with the proposed conditions, the proposed request **IS COMPATIBLE** with the surrounding land uses and general character of the area, **IS CONSISTENT** with the Polk County Comprehensive Plan and Land Development Code, and therefore, the Development Review Committee (DRC) recommends **APPROVAL of LDCPAS 2025-12.**

Planning Commission Recommendation: On May 6, 2026, in an advertised public hearing, the Planning Commission voted 7:0 to **recommend APPROVAL of LDCPAS 2025-12.**

NOTE: *This staff report was prepared without the benefit of testimony and evidence submitted by the public and other interested parties at a public hearing.*

NOTE: *All written comments made in the application and subsequent submissions of information made during the application review process, which are on file with the Land Development Division, shall be considered to be binding upon the applicant, provided such comments are not at variance with the Comprehensive Plan, LDC or other development regulations in effect at the time of development.*

NOTE: *Issuance of a development permit by the county does not in any way create any rights on the part of the applicant to obtain a permit from a state or federal agency and does not create any liability on the part of the county for issuance of the permit if the applicant fails to obtain requisite approvals or fulfill the obligations imposed by a state or federal agency or undertakes actions that result in a violation of state or federal law*.

Analysis

This section of the staff report includes data on the surrounding uses, infrastructure conditions, environmental conditions, and related Comprehensive Plan policies and Land Development Code regulations.

Surrounding Uses

Table 1 identifies the Future Land Use (FLU) designations and the existing uses surrounding the subject site that are immediately adjacent. The subject site has residential dwellings that were constructed in the 1960's and 1970's.

Table 1

Northwest: A/RR Improved and Vacant Residential and Citrus	**North:** PM Vacant Formerly Phosphate Mined Land	**Northeast:** PM Vacant Formerly Phosphate Mined Land
West: PM Vacant Formerly Phosphate Mined Land	**Subject Property:** PM 19.48± acres; Improved Residential, Vacant Residential	**East:** PM Vacant Formerly Phosphate Mined Land
Southwest: PM Vacant Formerly Phosphate Mined Land	**South:** PM Vacant Formerly Phosphate Mined Land	**Southeast:** PM Vacant Formerly Phosphate Mined Land
Source: Polk County Geographical Information System and site visit by County staff		

The infrastructure is limited due to the rural nature of the area. The site has been developed with residential dwellings for several decades with phosphate mining occurring around them. The surrounding use is predominantly previously mined lands. Adjacent to the northwest is another residential area that has been developed as rural residential and is located between Keller Road and Parrish Road. These uses are compatible with the current lots of record.

Compatibility with the Surrounding Uses

According to *Policy 2.102-A2* of Polk County's Comprehensive Plan, "land shall be developed so that adjacent uses are compatible with each other, pursuant to the requirements of other policies in this Future Land Use Element, so that one or more of the following provisions are accomplished: a. there have been provisions made which buffer incompatible uses from dissimilar uses; b. incompatible uses are made to be more compatible to each other through limiting the intensity and scale of the more intense use; and c. uses are transitioned through a gradual scaling of different land use activities through the use of innovative development techniques such as a Planned Unit Development." The "development criteria" and the "density and dimensional regulations" of a land use district are often the measuring tools used by staff to determine compatibility and the appropriateness of locating differentiating uses. Compatibility is defined in the Comprehensive Plan as "a condition in which land uses or conditions can coexist in relative proximity to each other

in a stable fashion over time such that no use or condition is unduly negatively impacted directly or indirectly by another use or condition."

A. Land Uses

Section 2.114 of the Comprehensive Plan, lists A/RR as one of the land uses for the conversion of PM lands. The lands easy of the Peace River were mined for phosphate. The land to the west of the Peace River has historically been City of Fort Meade, residential or citrus groves. The existing residential and citrus nature are compatible with the existing residential development of the subject lots of record.

B. Infrastructure

The infrastructure is limited due to the rural nature of the area. The site has historically been developed with four (4) residential dwellings. Any new development would consist of redevelopment of the existing residential development. The site is currently developed without adding any additional impacts to roads and public safety services.

Nearest Elementary, Middle, and High School

The schools zoned for the subject property are the zoned schools listed in Table 2 below. The site, nine (9) lots, is currently developed with four (4) residential dwellings, with all of the vacant lots owned by existing residents except for one (1) lot. The four (4) vacant lots have the potential for one (1) additional student in elementary, middle and High schools.

Table 2 School Information

Name of School	Annual Estimated Demand	% Capacity 2024-2025 School Year	Average driving distance from subject site
Lewis Anna Woodbury Elementary School	1 student	87%	1.4 ± miles driving distance
Ft Meade Middle/Sr Middle School	1 student	70%	2.6 ± miles driving distance
Ft Meade Senior High School	1 student	57%	2.6 ± miles driving distance

Source: Polk County School Board, Polk County Impact Fee Ordinance, GIS

Nearest Sheriff, Fire, and EMS Station

Table 3 below displays that the nearest Sheriff District office and Fire/EMS stations. Sheriff response times are not as much a function of the distance to the nearest sheriff's substation, but more a function of the overall number of patrol officers within the County.

Table 3 Public Safety Information

	Name of Station	Distance Response Time*

Fire/ EMS	**Station #10** (1235 9th St NE N, Fort Meade, Ft. Meade)	3.9 +/- miles 9-11 minutes

Source: Polk County Sheriff's Office & Polk County Fire Rescue. Response times for April 2026.

Water and Wastewater

The subject site is in the RDA and is not within any utility service area. Water and sewer lines are not near the subject site. The nearest water line is along the east side of Mt Pisgah Road, north of the site at Cox Road and is owned by the City of Ft. Meade. Potable water will be provided by a well, and an onsite septic treatment system will be utilized to handle wastewater for each individual lot. The nearest potable water from Fort Meade is on the west side of the Pease River.

A. Estimated Demand

Table 4, following this paragraph, shows the Average Annual Daily Trip (AADT) rate and the PM Peak hour trip rate being less for the proposed request. However, it is not automatic and not even common that the alternative use for PM is industrial. In fact, most of the land use changes from PM are to A/RR. The changes to IND have been along railroad lines. The subject site is not along a railroad and historically been utilized for residential dwelling. However, IND uses tend to be more impactive in terms of noise, vibrations, and odors. So, the traffic analysis below is based on PM having industrial uses. It is noted that there is not potable water or sewer service to the subject site, water and sewer is provided by well and septic systems

Table 4 Estimated Water and Sewer Impact Analysis

Permitted Intensity 19.47 +/- acres 848,113 sq ft @0.75 FAR = 636,085	**Current PM**	**Maximum Permitted in A/RRX**
	636,085 sf	9 units
Potable Water Consumption	636,085 * 0.24 = **152,661 GPD**	9 X 250 = **2,250 GPD**
Wastewater Generation	152,661 * 80% Water **= 122,129 GPD**	9 X 200 = **1,800 GPD**

Source: Concurrency Manual: PM@ IND rates @ 0.24 per sq ft and 80% for wastewater, single family @ 250 GPD Potable water and 200 Wastewater.

B. Service Provider

The subject site is not within any utility serve areas. Four (4) of the nine (9) parcels are currently improved with single-family dwellings, which use well and septic to provide for these utility needs. The above analysis is at full development, additional capacity would be 1,250 GPD portable water and 1,000 GPD wastewater. Only redevelopment with single-family residential would occur.

C. Available Capacity

The subject site is not within any utility serve areas. Therefore, all development on the subject site will require wells and septic tanks. The capacity of these systems will be based on the parameters of the permitting agency.

D. Planned Improvements

There are no utility improvements near the subject site.

Roadways/Transportation Network

A. Estimated Demand

Table 5, following this paragraph, shows the Average Annual Daily Trip (AADT) rate and the PM Peak hour trip rate being less for the proposed request. However, it is not automatic and not even common that the alternative use for PM is industrial. In fact, most of the land use changes from PM are to A/RR. The changes to IND have been along railroad lines. The subject site is not along a railroad and historically been utilized for residential dwelling. However, IND uses tend to be more impactive in terms of noise, vibrations, and odors. So, the traffic analysis below is based on PM having industrial uses.

The table below analyzes the subject site as if vacant; however, the four (4) of the nine (9) parcels are currently improved with single-family dwellings. The analysis of the site with the four (4) of the nine (9) parcels currently developed with residential indicates 63 AADT and 8 Peak Hour, verses the assumed PM developed intensity, indicating 2,300 ADDT and 392 Peak Hour.

Table 5 Estimated Transportation Impact Analysis

Permitted Intensity 19.47 +/- acres 848,113 sq ft @0.75 FAR = 636,085	**Current PM**	**Maximum Permitted in A/RRX**
	636,085 / 1,000 = 636 sf	9 units
Average Annual Daily Trips (AADT)	636 * 3.93 * 92% new trips = **2,300 AADT**	9 X 7.81 AADT = **71 AADT**
PM Peak Hour Trip	636 * 0.67 * 92% new trips = **392 AADT**	9 X 1 = **9 PM Peak Hour**

Source: Concurrency Manual and Table for Minor Traffic Study –PM @ IND rates ITE Code 140 @ 3.93 AADT per 1,000 square feet and 0.67 PM Peak Hour Trip per 1,000 square feet and 92% new trips, single family @ one house per five acres – 7.81 AADT per unit and 1 PM Peak Hour per unit 100% new trips

B. Available Capacity

The subject site only has direct access to Keller Road, which is not monitored by the Polk Transportation Planning Organization (TPO). Keller Road is a Rural Minor Collector. The nearest monitored road, US 98 and extends east out of Fort Meade. The current Level of Service (LOS) through this part of the County is “B”. The minimum LOS on the eastern portion of US 98 is “C” from Edgewood Dr North to Avon Park Cutoff Road. The current Level of Service (LOS) through this part of the road is “B”. The minimum LOS on this portion of US 98 is “D”.

The existing residential development will not have any significant impact on the roadway capacity.

Table 6					
Link #	**Road Name**	**Current LOS**	**Available Capacity**	**Minimum LOS Standard**	**Projected Five Year LOS**
5400N	US 98 (Edgewood Dr N to US 17)	B	867	D	B
5400S		B	855	D	B
5401N	US 98 (Edgewood Dr N to Avon Park Cutoff Road)	B	547	C	B
5401S		B	535	C	B
Source: Polk Transportation Planning Organization, Roadway network Database April 2026					

C. Roadway Conditions

The subject site has access to Keller Road, which is not monitored by TPO; however, has a PCI condition rating of Poor. US 98 E is a two-lane undivided Principal Arterial Road that appears in good condition. US 98 E is maintained by the Florida Department of Transportation (FDOT). The condition of the roadways and the LOS change over time. The conditions are addressed when development access a road during the Level 2 Review. LOS is a tool that can limit the intensity of a development in the short run.

D. Sidewalk Network

Keller Road does not have any sidewalks. The subject site is in the Rural Development Area (RDA) which does not require sidewalks within the right of way on a public road.

E. Planned Improvements:

There are currently no planned improvements along any of the traffic links.

F. Mass Transit

The nearest transit route is Route 25 that stops at S. Hendry Avenue and E. Broadway Street. This stop is approximately 3.2 miles northwest of the site.

Park Facilities:

The following analysis is based on public recreation facilities. The nearest neighborhood park is the Fort Meade Park. The Bone Valley ATV Park is about eleven (11) miles away.

A. Location:

Fort Meade Park is located in the northeast part of Fort Meade. Its current hours of operations are from 5 a.m. to 10 p.m. The park's amenities include baseball Fields, basketball Court(s), picnic tables, playground, and softball facilities.

Bone Valley ATV Park is on the south side of County Road 630 and east of State Road 37. It is a 200-acre tract of land with 15 trails, hill climbs and free riding areas. Below are the hours and fees for the park, along with important safety and registration information. The address is 10427 County Road 630 W. in Mulberry.

C. Environmental Lands:

There are no County owned Environmental Lands in this part of the County.

D. Planned Improvements:

There are no further recreation improvements scheduled for this area of the County at this time.

Environmental Conditions

The subject site has historically been a residential area with nine (9) lots of record. The area does not have access to municipal water and sewer, historically relying on well and septic for water and sewer. While the lots are lots of record and would be able to be developed with single-family residences they would require to receive approval from the Polk County Health Department for any septic tank installation for the site.

A. Surface Water:

The highest point is 130 feet above sea level; the lowest is 116 feet MSL at the pond on the eastern side of the site, and 121 feet MSL on the southern side of the site. The site drains to the southerly into a flood plain system toward Bowlegs Creek and then into the Peace River. The pond appears to have been made between 1968 and 1970 per Polk County historic aerial photographs.

B. Wetlands/Floodplains:

The subject site has no indicated wetlands or floodplains, except for the pond onsite which is designated a Zone A.

C. Soils:

The subject site is comprised of a mix of soil types as listed in Table 8 following this paragraph. According to the soil survey of Polk County, the soil types range from Moderate to Severe. The site is currently developed with single-family residential.

Table 8

Soil Name	**Septic Tank Absorption Field Limitations**	**Limitations to Dwellings w/o Basements**	**% of Site** *(approximate)*
Tavares fine sand, 0 to 5% slope	Moderate: wetness	Slight	60%
Arents, 0 to 5% slope	Severe: wetness	Severe: wetness	40%

Source: Soil Survey of Polk County, Florida, USDA, Soil Conservation Service

D. Protected Species:

The subject property is not located within a one-mile radius of a protected plant or animal species sighting since 2006 (Source: Florida Natural Areas Inventory 2002, 2006, 2011, & 2015).

E: Polk Green Districts and Conservation Easements:

The site is located within the Potential Network Connections area of the Polk Green District Comprehensive Plan Map Series. Approximately 0.6 mile south of the site has over 500 acres in a Conservation Easement as recorded in OR Book 10740, Page 2012.

F. Archeological and Historical Resources:

According to the Florida Department of State, Division of Historical Resources, there are no archeological or historical resources listed in the Florida Master Site File for the site.

G. Wells (Public/Private)

The subject site is not located on a wellfield. The nearest Wellfield is about three (3) miles northwest, in Fort Meade. The current improved subject parcels as well as other improved properties use wells for their water source.

H. Airports:

The site is not within any Airport Height Notification or In-Flight Visual Interference Zones.

Economic Factors:

The subject site is only 19.48± acres. Most phosphate mines are thousands of acres. The site has historically been residential with an residences dating back to the 1950's and 1960's. This change in land use will provide for a conforming use on the subject site.

Consistency with the Comprehensive Plan

Many policies within the Comprehensive Plan are reviewed for consistency with an application. The most relevant policies for the proposed request are included in this section. The policy is first stated and then an analysis of how the request is provided to state that it may or may not be consistent with the Comprehensive Plan. How the request is **consistent** with the Comprehensive Plan is listed below:

Table 8 Comprehensive Plan and Land Development Code

Comprehensive Plan Policy	Consistency Analysis
POLICY 2.102-A2: COMPATIBILITY - Land shall be developed so that adjacent uses are compatible with each other, pursuant to the requirements of other Policies in this Future Land Use Element, so that one or more of the following provisions are accomplished: a. there have been provisions made which buffer incompatible uses from dissimilar uses; b.	The neighboring Future Land Use Map designations are mostly PM and previously mined for phosphate many years ago. Adjacent to the East, South, and West are previously mined land. These lands were part of the Watson Mine and have been released from reclamation.

Comprehensive Plan Policy	Consistency Analysis
incompatible uses are made to be more compatible to each other through limiting the intensity and scale of the more intense use; c. uses are transitioned through a gradual scaling of different land use activities through the use of innovative development techniques such as a Planned Unit Development.	
POLICY 2.102-A1: DEVELOPMENT LOCATION – Polk County shall promote contiguous and compact growth patterns through the development process to minimize energy costs, conserve land, water, and natural resources, minimize the cost of services, and prevent development patterns where tracts of land are by-passed in favor of development more distant from services and existing Communities.	The proposed low-density use is consistent with services available in the Rural Development Area (RDA).
POLICY 2.102-A4: TIMING - The development of land shall be timed and staged in conjunction with the cost-effective and efficient provision of supporting community services which, at a minimum, shall require compliance with the Plan's Level of Service requirements and the County's concurrency management system.	
POLICY 2.102-A10: LOCATION CRITERIA - The following factors shall be taken into consideration when determining the appropriateness of establishing or expanding any land use or development area: a. nearness to incompatible land uses and future land uses, unless adequate buffering is provided, b. nearness to agriculture-production areas; c. distance from populated areas; d. economic issues, such as minimum population support and market-area radius (where applicable);e. adequacy of support facilities or adequacy of proposed facilities to be provided by the time of development, including, but are not limited to: 1. transportation facilities, including but not limited to, mass transit, sidewalks, trails and bikeways; 2.sanitary sewer and potable water service; 3. storm-water management; 4. solid waste collection and disposal; 5. fire protection with adequate response times, properly trained personnel, and proper fire-fighting equipment; 6. emergency medical service (EMS) provisions; and 7. other public safety features such as law enforcement; 8. schools and other educational facilities 9. parks, open spaces, civic areas and other community facilities, f. environmental factors, including, but not limited to: 1. environmental sensitivity of the property and adjacent property; 2. surface water features, including drainage patterns, basin characteristics, and flood hazards; 3. wetlands and primary aquifer recharge areas; 4. soil characteristics; 5. location of potable water supplies, private wells, public well fields; and 6.	One home per five acres does not require many services other than the potential need for public safety services and access for visitors. The subject site consists of nine (9) lots (existing lots of record), 4 of which are improved with residential dwellings. Existing dwellings date back to the 1950's and 1960's. Homeowners within the subject area have not had access to urban services and have not requested any increased level of urban services. A/RR is the main residential and agricultural designation in the RDA. Therefore, this request is consistent with these policies.

Comprehensive Plan Policy	Consistency Analysis
climatic conditions, including prevailing winds, when applicable.	
Property not meeting the criteria under Policy 2.114-A2 (Designation and Mapping of Phosphate Mining Land) but designated as Phosphate Mining on the Polk County Future Land Use Map Series, may be developed residentially but the County must initiate a Comprehensive Plan amendment soon after to recognize the new land use. Agricultural/Residential-Rural (A/RR) development criteria specified under Section 2.121-A with the exception of Policy 2.121-A2.E.2 (Rural Mixed Use Developments) will be used; and, the applicant must show documentation proving the property was not owned by a phosphate mining company prior to May 1, 1991, the Plan's adoption date. Property purchased from a phosphate company after this date will not be considered an error.	
POLICY 2.114-A3: PERMITTED ACTIVITIES - The following activities shall be permitted within the Phosphate Mining land use category as mapped pursuant to Policy 2.114-A2: a. Phosphate mining and allied industries; b. Land reclamation; c. Agriculture and Farmworker housing under specific design parameters listed in the Land Development Code not to exceed an intensity of sixteen (16) workers per acre; d. Other land uses with conditional approval which are compatible and related with the extraction and processing of phosphate; and e. Subject to the adoption of a Comprehensive Plan amendment, any activities permitted within the following land use designations, which are appropriate for the redevelopment of lands formally utilized for phosphate mining operations and which demonstrate compliance with the Comprehensive Plan criteria for each use: 1 .Preservation. 2. Recreation and Open Space. 3. Leisure/Recreation. 4. Institutional. 5. Rural Cluster Centers. 6. Tourism Commercial Centers. 7. Business Park Centers. 8. Industrial. 9. Rural Mixed-Use Developments. 10. New Communities. 11. Agricultural/Residential Rural only.	A mining company has not owned the subject site and was not part of a Mine Plan. This request is part of a Board of County Commission's request to locate residential use properties that have historically been residential use with residential dwellings and provide residential entitlements to these areas.
POLICY 2.114-A4: FUTURE DEVELOPMENT OF PM LAND - Polk County shall promote the redevelopment of PM lands by encouraging master planned developments incorporating land uses permitted within Rural Development Areas. Applications for land use amendments will be reviewed by the "Phosphate Mining Review Group." The applicant will be required to submit appropriate data and analysis as required by the amendment process, a	Staff is coordinating with the Phosphate Review Group to obtain any comments.

Comprehensive Plan Policy	Consistency Analysis
copy of the reclamation plan including the subject site(s), and narrative establishing how the proposed land use(s) follows or conforms to the reclamation plan. The proposal shall demonstrate consistency with the goals, objectives, and policies of the Plan, including, county-wide land use needs, compatibility with adjacent uses, and protection of existing natural resources. The "Phosphate Mining Review Group" will be composed of a representative from each of the following agencies: Department of Environmental Protection, Bureau of Mine Reclamation Central Florida Regional Planning Council Phosphate Mining Industry Florida Institute of Phosphate Mining Research Florida Fish and Wildlife Conservation Commission Polk County Planning Polk County Natural Resources Polk County Cooperative Extension Services, Soils Conservation These applications for land use amendments shall be reviewed by the Group prior to application being accepted by the County.	

Urban Sprawl Analysis

After analyzing the primary indicators of Urban Sprawl per *Policy 2.109-A10* of the Polk County Comprehensive Plan, it is apparent that the proposed request is not considered urban sprawl based on these criteria and it is permitted in the designated area. Table 9 (below) depicts the Urban Sprawl Criteria used by staff as indicators of Urban Sprawl.

Table 9 Urban Sprawl Criteria

Urban Sprawl Criteria: The following criteria are the primary indicators of urban sprawl per Florida Statutes	
Urban Sprawl Criteria	**Sections where referenced in this report**
a. *Promotes substantial amounts of low-density, low-intensity, or single use development in excess of demonstrated need.*	Summary of analysis
b. *Allows a significant amount of urban development to occur in rural areas.*	Summary of analysis
c. *Designates an urban development in radial, strip isolated, or ribbon patterns emanating from existing urban developments.*	Summary of analysis, surrounding Development, compatibility
d. *Fails to adequately protect and conserve natural resources and other significant natural systems.*	Summary of analysis, surrounding Development, compatibility
e. *Fails to adequately protect adjacent agricultural areas.*	Compatibility with Surrounding Land Uses
f. *Fails to maximize existing public facilities and services.*	Summary of Analysis, Infrastructure
g. *Fails to minimize the need for future facilities and services.*	Summary of Analysis, Infrastructure
h. *Allows development patterns that will disproportionately increase the cost of providing public facilities and services.*	Summary of Analysis, Infrastructure
i. *Fails to provide a clear separation between urban and rural uses.*	Summary of Analysis, Compatibility with Surrounding Land Uses
j. *Discourages infill development or redevelopment of existing neighborhoods.*	Summary of Analysis, Compatibility with Surrounding Land Uses
k. *Fails to encourage an attractive and functional mixture of land uses.*	Summary of Analysis, Compatibility with Surrounding Land Uses
l. *Will result in poor accessibility among linked or related land uses.*	Summary of Analysis, Compatibility with Surrounding Land Uses
m. *Results in the loss of a significant amount of open space.*	Summary of Analysis, Compatibility with Surrounding Land Uses

Permitted and Conditional Uses in A/RR

ORDINANCE NO. 26 -____

AN ORDINANCE OF POLK COUNTY, FLORIDA ADOPTING **LDCPAS-2025-12;** AN AMENDMENT TO THE POLK COUNTY COMPREHENSIVE PLAN, ORDINANCE 92-36, AS AMENDED, TO CHANGE THE FUTURE LAND USE MAP DESIGNATION ON 19.48+/- ACRES FROM PHOSPHATE MINING (PM) TO AGRICULTURAL/RESIDENTIAL RURAL (A/RR). THE SITE IS LOCATED SOUTH OF US HIGHWAY 98 E, ON THE EAST SIDE OF KELLER ROAD, NORTH OF DISHONG ROAD AND WEST OF LANIER ROAD, SOUTHEAST OF THE CITY OF FORT MEADE, IN SECTION 06, TOWNSHIP 32, RANGE 26; PROVIDING FOR SEVERABILITY; AND PROVIDING FOR AN EFFECTIVE DATE.

WHEREAS, pursuant to Article VIII, Section I(g) of the Constitution of the State of Florida and the Community Planning Act, Chapter 163, Part II, Florida Statutes (FS), as amended, (the Act) Polk County is authorized and required to adopt a Comprehensive Plan (Plan); and

WHEREAS, Section 163.3187, FS, and Comprehensive Plan Section 4.305.B, provides for the approval of Small-Scale Comprehensive Plan Amendments; and

WHEREAS, pursuant to Section 163.3174, FS, the Local Planning Authority (Planning Commission) conducted a public hearing, with due public notice having been provided, on the proposed Plan revisions on May 6, 2026; and

WHEREAS, pursuant to Section 163.3187(2), FS, the Board of County Commissioners conducted an adoption public hearing, with due public notice having been provided, on the proposed Plan revisions on June 16, 2026; and

WHEREAS, the Board of County Commissioners, reviewed and considered all comments received during said public hearing, and provided for necessary revisions; and

NOW THEREFORE, BE IT ORDAINED by the Polk County Board of County Commissioners:

SECTION 1: COMPREHENSIVE PLAN AMENDMENT

The Future Land Use Map of Ordinance No. 92-36, as amended, (the "Polk County Comprehensive Plan") is hereby amended to reflect a change in the Future Land Use designation on 19.48± acres from Phosphate Mining (PM) to Agricultural/Residential Rural (A/RR) in the Rural Development Area (RDA) on the parcel listed below and graphically depicted on the parcel map in Attachment "A".

SECTION 2: SEVERABILITY

If any provision of this Ordinance is held to be illegal, invalid, or unconstitutional by a court of competent jurisdiction the other provisions shall remain in full force and effect.

SECTION 3: EFFECTIVE DATE

This ordinance shall be effective on July 17, 2026 (31 days after adoption), unless the amendment is challenged. If challenged, the effective date of this ordinance shall be the date a Final Order is issued by the Department of Economic Opportunity or Administration Commission finding the amendment in compliance in accordance with Section 163.3184 (1)(b), Florida Statutes. No development orders, development permits, or land uses dependent upon this amendment, as described on the attached map of proposed land uses, may be issued or commence before it has become effective.

SECTION 4: FILING WITH THE DEPARTMENT OF STATE:

The Clerk and Auditor to the Board of County Commissioners of Polk County, Florida, shall file a certified copy of this ordinance with the Department of State, through the Secretary of State, upon adoption by the Board of County Commissioners of Polk County, Florida.

ADOPTED, in open session of the Polk County Board of County Commissioners with a quorum present and voting this 16th day of June 2026.

Demonstration of Need and Impact Assessment Statement Form

POLICY 2.102-A11: URBAN SPRAWL CRITERIA - In accordance with Rule 9J-5.006(5) of the Florida Administrative Code, Polk County will discourage the proliferation of urban sprawl by use of the following criteria when determining the appropriateness of establishing or expanding any land use or development area. The analysis must ask whether or not the proposed plan amendment:

a. Promotes, allows, or designates for development substantial areas of the jurisdiction to develop as low-intensity, low-density, or single-use development or uses in excess of demonstrated need.

This land use change to A/RR is not sprawl and does not promote, allow or designate development is substantial areas of Polk County. This request is for A/RR which is an allowable use in the Rural Development Area and is an appropriate land use once PM is not needed as stated in the PM policies in the Comprehensive Plan.

b. Promotes, allows, or designates significant amounts of urban development to occur in rural areas at substantial distances from existing urban areas while leaping over undeveloped lands which are available and suitable for development.

A/RR is not an urban land use.

c. Promotes, allows or designates urban development in radial, strip isolated or ribbon patterns generally emanating from existing urban developments.

The A/RR is somewhat isolated. However, the intent of the PM area was to have land uses change to something other than PM when mining was completed, and A/RR is listed as one of those land uses in Policy 2.114-A3 PERMITTED ACTIVITIES.

d. As a result of premature or poorly planned conversion of rural land to other uses, fails to adequately protect and conserve natural resources, such as, wetlands, floodplains, native vegetation, environmentally sensitive areas, natural shorelines, beaches, bays, estuarine systems, and other significant natural systems.

There are wetlands located on a portion of the subject site. Land Development Code Section 620 Wetland Protection and Section 630 Flood Hazard Management and Floodplain Protection will have to be met by any new development.

e. Fails to adequately protect adjacent agricultural areas and activities including silviculture and active agricultural and silvicultural activities as well as passive agricultural activities and dormant, unique and prime farmlands and soils.

This request is for A/RR which is an allowable use in the Rural Development Area and is an appropriate land use once PM is not needed as stated in the PM policies in the Comprehensive Plan.

f. Fails to maximize use of existing public facilities and services.

The request if approved is consistent with the requirements for septic tanks and wells for wastewater and potable water. Therefore, there is not waste of services per the standards in the Comprehensive Plan.

g. Fails to minimize the use of future public facilities and services.

The area of the County that includes the subject site is not in an area where future public facilities or services are planned.

h. Allows for land use patterns or timing which will disproportionately increase the cost in time, money and energy, of providing public facilities and services including roads, potable water, sanitary sewer, stormwater management, law enforcement education health care, fire and emergency response, and general government.

The request if approved is consistent with the requirements for septic tanks and wells for wastewater and potable water. Therefore, there is not waste of services per the standards in the Comprehensive Plan.

i. Fails to provide a clear separation between urban and rural uses.

This request is for A/RR which is an allowable use in the Rural Development Area and is an appropriate land use once PM is not needed as stated in the PM policies in the Comprehensive Plan. The separation between urban and rural uses is not impacted by this request.

j. Discourages or inhibits in-fill development or redevelopment of existing neighborhoods and communities.

This request is for A/RR which is an allowable use in the Rural Development Area and is an appropriate land use once PM is not needed as stated in the PM policies in the Comprehensive Plan.

k. Fails to encourage an attractive and functional mix of land uses.

This request is for A/RR which is an allowable use in the Rural Development Area and is an appropriate land use once PM is not needed as stated in the PM policies in the Comprehensive Plan. The mixing of land use is not an appropriate land use pattern to promote or require in this area of the County.

l. Results in poor accessibility among linked or related land uses.

The project area consists of 9 lots of record, with 3 of the parcels representing vacant residential lots. The subject parcels have access to a County maintained road, Keller Road, driveways would be required to meet the standards of Section 705 of the LDC.

m. Results in the loss of a significant amount of functional open space.

The project area consists of 9 lots of record, with 3 of the parcels representing vacant residential lots. No significant loss of functional open space is anticipated.

Section 910 Impact Assessment Statements

The purpose of an Impact Assessment Statement is to provide information on the effects a proposed development or land use action will have on the existing neighborhood and general area; on the transportation facilities; on the environment and natural resources of the County; on the public facilities for water, sewer, solid waste disposal, fire, police, public education, parks, recreation, and other utilities; and any other aspect with an identified impact of the development and deemed appropriate for concern.

A. ***Land and Neighborhood Characteristics***

To assess the compatibility of the requested land use district with the adjacent property and to evaluate the suitability of the site for development, the applicant shall:

1. Show how and why is the site suitable for the proposed uses;

Policy 2.114-A2 requires this land use change if the subject site was not owned by a mining company or in a mining plan. Staff has found that the subject site was not owned by a mining company.

2. Provide a site plan showing each type of existing and proposed land use;

The project area of 19.47± acres consists of 9 lots of record, of which 6 are improved residential, with the only new development being on the three (3) vacant residential lots (Map H). Any new development would have to meet the standards for the A/RR in the Polk County Land Development Code.

3. Describe any incompatibility and special efforts needed to minimize the differences in the proposed use with adjacent uses;

There is not active mining occurring to the north, east, south, or west. Therefore, efforts are not needed to minimize differences in uses.

4. Explain how the requested district may influence future development patterns if the proposed change is located in an area presently undeveloped; and

The proposed A/RR is in an area with no current mining to the north, south, east, or west. Therefore, the existing uses of the adjacent properties are considered open space at this time.

5. Describe each of the uses proposed in a Planned Development and identify the following:

The request is a land use change and not a PD.

a. The density and types of residential dwelling units;

b. The type of commercial and industrial uses;

c. The approximate customer service area for commercial uses; and

d. The total area proposed for each type of use, including open space and recreation.

B. ***Access to Roads and Highways***

To assess the impact of the proposed development on the existing, planned and programmed road system, the applicant shall:

1. Calculate the number of vehicle trips to be generated daily and at PM peak hour based on the latest ITE or provide a detailed methodology and calculations;

The project area of 19.47± acres consists of 9 lots of record, of which 6 are improved residential, with the only new development being on the three (3) vacant residential lots The total number of additional trip units anticipated is 24 AADT and 3 PM Peak Hour Trips.

2. Indicate what modifications to the present transportation system will be required as a result of the proposed development;

There are no modifications needed to Keller Road.

3. List the total number of parking spaces and describe the type of parking facilities to be provided in the proposed development;

Two sparking spaces are required outside of the garage, for new development.

4. Indicate the proposed methods of access to the existing public roads (e.g., direct frontage, intersecting streets, frontage roads); and

The project area has approximately 1,325 feet of frontage on Keller Road. Any new residential development will be required to meet Section 822 of the LDC.

5. Indicate the modes of transportation, other than the automobile, that have been considered (e.g., pedestrian, bicycle, bus, train or air) and describe the modes.

There are no other modes of transportation in this area of the county. There are no sidewalks or transit routes in the area.

C. ***Sewage***

To determine the impact caused by sewage generated from the proposed development, the applicant shall:

1. Calculate the amount of sewage in gallons per day (GPD) expected to be generated by the proposed development;

The project area of 19.47± acres consists of 9 lots of record, of which 6 are improved residential, with the only new development being on the three (3) vacant residential lots. The total number of additional lots (3) will potentially generate the need for 1,080 gallons per day potable water and 840 gallons per day wastewater generation.

2. Describe the proposed method and level of treatment, and the method of effluent disposal for the proposed sewage treatment facilities if on-site treatment is proposed;

The property owners will only have access to septic tanks and wells.

3. Indicate the relationship of the proposed sewage system to Polk County's plans and policies for sewage treatment systems;

The property owners will only have access to septic tanks and wells. The project area is not within a utility service area. The location of a septic tank is the responsibility of the Health Department as Polk County does not have any additional requirements of the septic tank location outside of the Green Swamp. The Florida Department of Environmental Protection has the authority for well placement.

4. Identify the service provider; and

5. Indicate the current provider’s capacity and anticipated date of connection.

D. ***Water Supply***

To determine the amount of water to be used, how it will be distributed, and the impact on the surrounding area, the applicant shall:

See answers for sewer supply.

1. Indicate the proposed source of water supply and, the type of treatment;

2. Identify the service provider;

3. Calculate the estimated volume of consumption in gallons per day (GPD); and

4. Indicate the current provider’s capacity and anticipated date of connection.

E. ***Surface Water Management and Drainage***

To determine the impact of drainage on the groundwater and surface water quality and quantity caused by the proposed development, the applicant shall:

1. Discuss the impact the proposed development will have on surface water quality;

The project area represents 9 lots of record that will be changed to A/RR, as lots of record no additional stormwater system will be required. The project area consists of 3 vacant residential lots. Impacts to quality are assumed to be minimal because they are not regulated.

2. Describe the alteration to the site's natural drainage features, including wetland, that would be necessary to develop the project;

Generally sloping from the north, with an elevation of approximately 132 feet, southerly with the southern border elevation approximately 122 feet.

3. Describe the impact of such alterations on the fish and wildlife resources of the site; and

Certainly, any development has impacts on the natural environment. The project area consists of 9 lots of record, with 3 of the parcels representing vacant residential lots. Future development is anticipated to be representative of the existing residential and have minimal impact to the wildlife resources.

4. Describe local aquifer recharge and groundwater conditions and discuss the changes to these water supplies which would result from development of the site.

This is not known at this time.

F. ***Population***

To determine the impact of the proposed developments additional population, the applicant shall:

1. Calculate the projected resident (and transient) population of the proposed development and the generated population in the case of commercial or industrial uses;

The project area consists of 9 lots of record, with 3 of the parcels representing vacant residential lots. The expectation is that residents will be fulltime residents at 2.5 persons per household. This is about 8 persons.

2. Describe, for commercial and industrial projects, the employment characteristics including the anticipated number of employees, type of skills or training required for the new jobs, the percentage of employees that will be found locally or are expected to be drawn from outside the county or state, and the number of shifts per day and employees per shift;

Not Applicable

3. Indicate the expected demographic composition of the additional population (age/socio-economic factors); and

There is not expectation of expected demographics as this is not a PD request.

4. Describe the proposed service area and the current population thereof.

This is not in any service area.

G. ***General Information***

To determine if any special needs or problems will be created by the proposed development, the applicant shall:

1. List and discuss special features of the proposed development that promote desirability and contribute to neighborhood needs; and

This question is more suitable to a PD as a specific product is known. This land use change request is consistent with Policy 2.114-A2 that provides if a property designated PM was not owned by a mining company, the future land use after PM can be A/RR or other recreation and institutional land uses. This request is consistent with that policy and in line with the other A/RR in the RDA. There are citizens that like to live in a rural area as demonstrated by the subject's project area. Of the 9 lots included within the application, 6 lots are improved with single-family dwellings, three (3) are vacant.

2. Discuss the demand on the provision for the following services:

a. Parks and Recreation;

The residents in this property may have interest in competitive sports and will have to go to a regional park as other Polk County citizens. Passive recreation can be provided within each property. However, there are other passive recreational opportunities with other natural areas in the County.

b. Educational Facilities (preschool/elementary/middle school/high school);

The project area consists of 9 lots of record, with 3 of the parcels representing vacant residential lots. For the three (3) vacant lots, the generation rates are listed in the table below. For the three (3) vacant single family lots, the generation is 1 elementary student, 1 middle school student, and 1 high school student. The zoned schools are Lewis Anna Woodbury Elementary, Ft Meade Middle/Sr, and Fort Meade Senior High.

	Elementary	Middle	High	Total
Single-Family	0.208	0.087	0.144	0.439
Multifamily	0.195	0.047	0.069	0.311
Mobile Home	0.144	0.048	0.062	0.254

c. Health Care (emergency/hospital);

The nearest hospital is in the City of Bartow. However, medical clinics are expanding.

d Fire Protection;

The nearest fire station per the Polk County GIS data viewer is in Ft Meade at 1235 9th Street NE. Staff will be asking for the most current information from Public Safety to use in the final staff report.

e. Police Protection and Security; and

The property is in the southwest district for the Sherriff's office. Staff will be asking for the most current response times to use in the final staff report.

f. Electrical Power Supply

The electrical supply is estimated to be TECO.

H. ***Maps***

See attached

1. Maps shall be used to give the public agencies a clear graphic illustration and visual understanding of the proposed development and the potential positive and negative impacts resulting from the development.

2. Maps shall be of sufficient type, size, and scale to facilitate complete understanding of the elements of the proposed development. Scales shall be clearly indicated on each map and the dates of preparation and revisions shall be included. The project boundaries shall be overlaid on all maps. The following maps shall accompany all Impact Assessment Statements:

3. Map A: A location map showing the relationship of the development to cities, highways, and natural features;

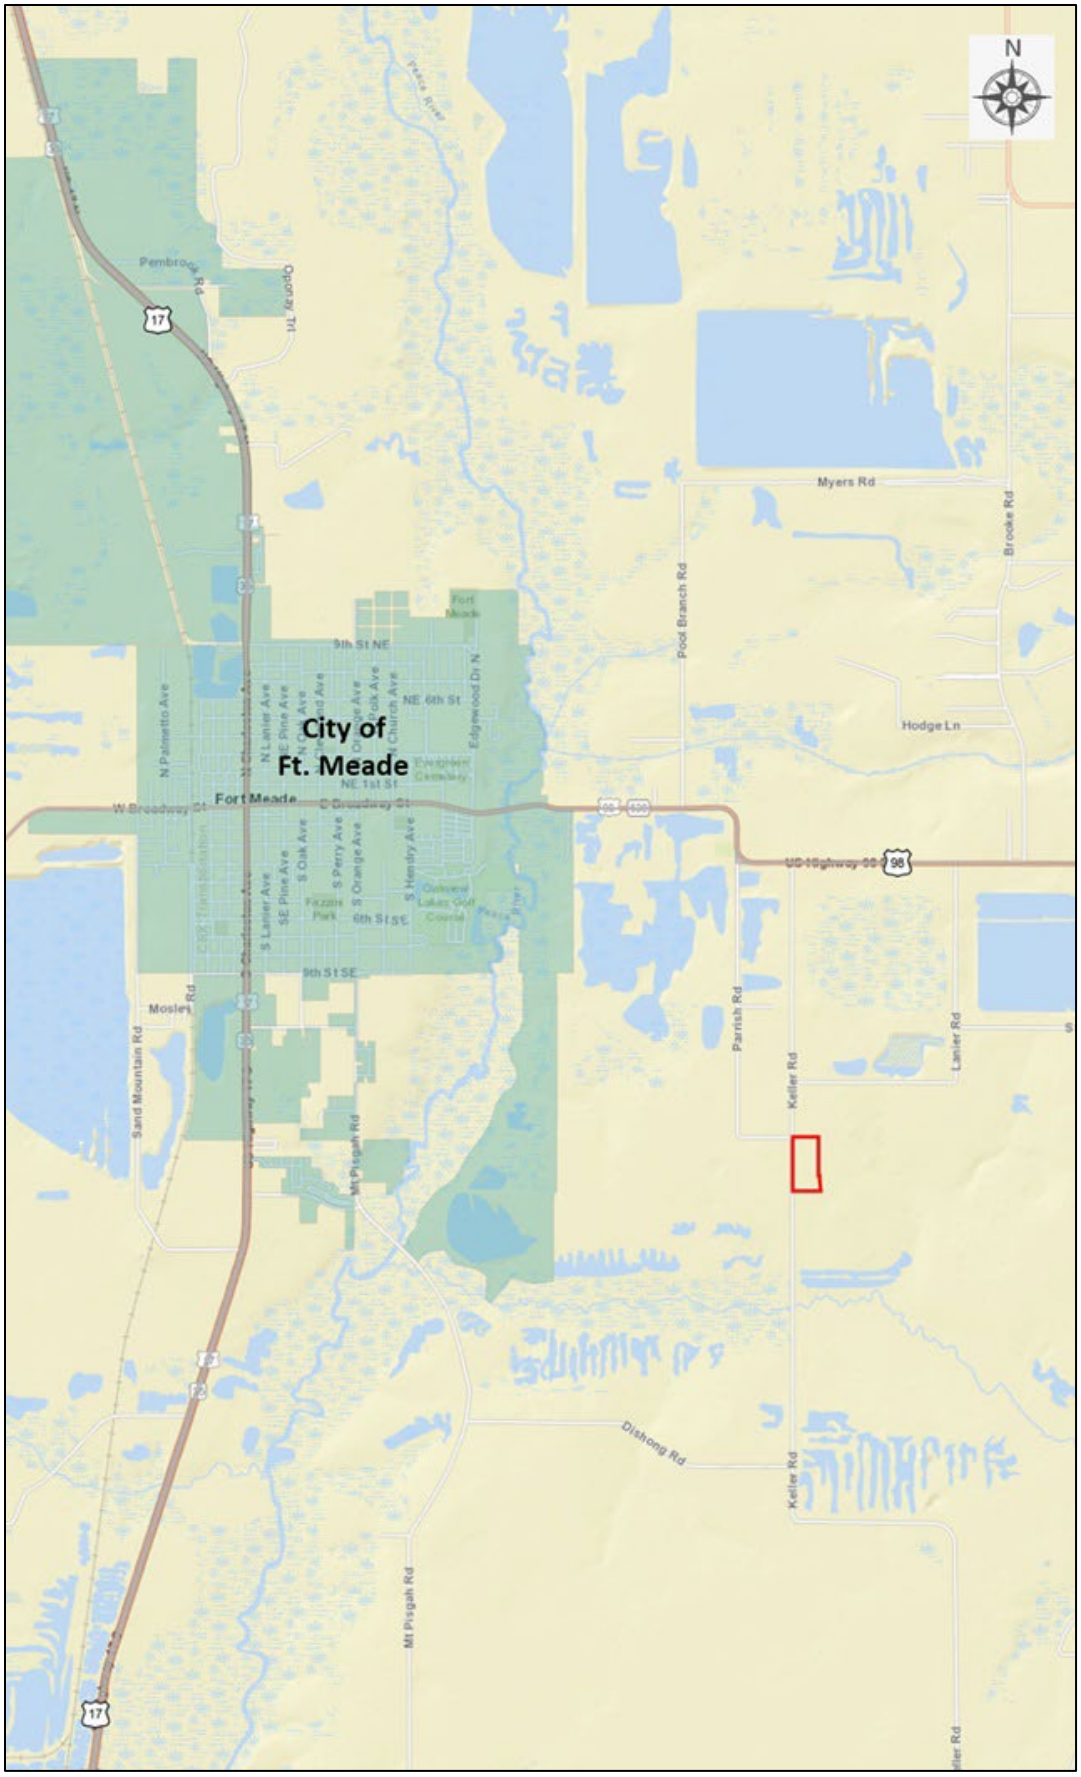
4. Map B: A Topographical Map with contour intervals of no greater than five feet, the identification of the property boundaries, and a delineation of the areas of special flood hazard (100 year flood plain) as shown on the Flood Insurance Rate Maps issued by the Federal Emergency Management Agency (FEMA) for Polk County;

5. Map C: A Land Use and Land Use District Map showing the existing land use designations and districts on and abutting the proposed development, including lot sizes and density;

6. Map D: A Soils Map with soils designated according to Natural Resources Conservation Service classifications. If available, USDA Natural Resources Conservation Service (NRCS) soil surveys are preferable;

7. Map E: A Traffic Circulation Map identifying any existing roads on or adjacent to the proposed development and indicating the name of the roads, maintenance jurisdiction, and pavement and right-of-way widths. **(See Location Map)**

8. Map F: A Site Plan showing land uses, the layout of lots, the type and maximum density for each type of residential area; the typical minimum lot sizes and dimensions for each use and unit type, and the dimensions, locations, and types of buffers, easements, open space areas, parking and loading areas, setbacks, and vehicular circulation routes; and



Not Applicable.

9. Map G: A Drainage Map delineating existing and proposed drainage areas, water retention areas, drainage structures, drainage easements, canals, wetlands, watercourses, and other major drainage features. **See Map B**

Extra Map:

Map H: A Vacant Lot Map identifying the vacant residential lots within the Project Area. These lots represent the land area for future development within the requested Land Use change area.

Agenda Item N.6. 6/16/2026

SUBJECT

Public Hearing (LDCPAS-2025-13 Mt Pisgah Rd PM to A/RR CPA) (Adoption Hearing) to consider the adoption of a Small-Scale Comprehensive Plan Amendment to change the Future Land Use Map designation from Phosphate Mining (PM) to Agricultural/Residential Rural (A/RR) on 2.0± acres.

DESCRIPTION

This is an applicant-initiated request for property located east of Mt. Pisgah Road, south of Oak Drive, north of Berquist Road, west of the Peace River, southeast of the City of Fort Meade, in Section 02, Township 32, Range 25. State law requires one Planning Commission hearing, which was held May 6, 2026, with a recommendation for approval (7:0).

DEVELOPMENT REVIEW COMMITTEE
STAFF REPORT

DRC Date:	**May 15, 2025**
Planning Commission Date:	May 6, 2026
BoCC Dates:	June 16, 2026
Applicant:	Polk County
Level of Review:	Level 4 Review, Comprehensive Plan Map Amendment
Case Number and Name:	LDCPAS-2025-13 Mt. Pisgah Road PM to A/RR CPA
Request:	Small Scale Comprehensive Plan map amendment from Phosphate Mining (PM) to Agricultural/Residential Rural (A/RR) on 2.0± acres in the Rural Development Area (RDA).
Location:	The site is east of Mt. Pisgah Road, south of Oak Drive, north of Berquist Road, west of the Peace River, southeast of the City of Fort Meade, in Section 02, Township 32, Range 25
Property Owner:	Brandon M Outlaw, Cynthia Deniese Yeoman
Parcel Size:	2.0± acres (Parcels: 253202000000033020, 253202000000033050)
Development Area/Overlays:	Rural Development Area (RDA)
Future Land Use:	Phosphate Mining (PM)
Nearest Municipality	Fort Meade
DRC Recommendation:	Approval
Planning Commission Vote:	Approval (7:0)
Case Planner:	Robert Bolton, Planner III

Location

Current Future Land Use

Summary

A County-initiated request for a Comprehensive Plan Map amendment to change the Future Land Use designation from Phosphate Mining (PM) to Agricultural Residential Rural (A/RR). The subject property is located east of Mt. Pisgah Road, and west of the Peace River, south of the City of Fort Meade. The site is 2.0± acres and consists of two (2), one-acre residential sites. The dwellings in the sites were constructed in the late 1960's and early 1970's and are lots of record. The site has not been owned by a mining company, nor been in a mine plan.

This land use change request is consistent with Policy 2.114-A2 that provides if a property designated PM was not owned by a mining company or in a mine plan, the future land use after PM can be A/RR or other recreation and institutional land uses. In addition, this policy allows for the subject site to be developed as if it was already designated A/RR and requiring that the County initiated a Future Land Use designation change to A/RR. This request is consistent with that policy and in line with the other A/RR in the RDA. This request is also part of Board of County Commission request to research, locate and initiate Land Use Changes from Phosphate Mining (PM) to Agricultural/Residential Rural (A/RR) for parcels within the PM that have historically been utilized as residential use with residential dwellings.

Compatibility Summary

Section 2.114 of the Comprehensive Plan lists A/RR as one of the land uses for the conversion of PM lands. The surrounding uses are residential or agricultural in nature and have historically represented the southern unincorporated part of the city of Fort Meade. The phosphate mining in this area was predominantly on the east side of the Peace River. The existing residential use is compatible with the surrounding uses.

Infrastructure Summary

The infrastructure is rural in nature. The site has been developed with residential dwellings for several decades. The phosphate mining that was done in the area was on the east side of the Peace River. The site has good access to public services with water and wastewater to be serviced by private well and septic system. The City of Fort Meade appears to have extended water to the north of the site, there is an existing fire hydrant at the end of Oak Drive, just north of the site.

Environmental Summary

There are no surface waters, wetlands or floodplains on site. The soils map indicates some moderate limitations for the use of septic within the subject area; however, the site's two (2) lots are developed with residential dwellings and no further development is available.

Comprehensive Plan
The relevant sections of the Comprehensive Plan that are applicable to the project request:

- Policy 2.102(A1-A15): Growth Management Policies
- Policy 2.102-A10 Location Criteria
- Section 2.114 Phosphate Mining
- Policy 2.114-A4: Future Development of PM Land

Findings of Fact

Request and Legal Status

- This is a County-initiated request for a Comprehensive Plan Map amendment to change the Future Land Use designation from Phosphate Mining (PM) to Agricultural Residential Rural (A/RR) on 2.0 +/- acres.

- The County is initiating this request is consistent with Comprehensive Plan Policy 2.114-A2 which states that if property in the PM district that was not under a conceptual mining plan and owned by a phosphate mining company "may be developed residentially but the County must initiate a Comprehensive Plan amendment soon after to recognize the new land use."

- This request is also part of Board of County Commission request to research, locate and initiate Land Use Changes from Phosphate Mining (PM) to Agricultural/Residential Rural (A/RR) for parcels within the PM that have historically been utilized as residential use with residential dwellings.

- The subject site has historically been residential and never mined.

- The two (2) parcels are the same as existed in the adoption of the Comprehensive Plan in 1991.

- Even though the parcels are less than five (5) acres, they are vested lots of record.

- The subject properties were not owned by a mining company or part of a mine plan at the time of the adoption of the Comprehensive Plan.

Compatibility

- There are two (2) lots in the subject site area each are improved with residential dwelling.

- Staff is coordinating with the Phosphate Review Group to obtain any comments per *Policy 2.114-A4,* any comments received may result in update(s) to this Staff Report.

- The existing residential dwellings were constructed in the late 1960's and early 1970's.

- Fort Meade has been annexing south of the historic southern boundary of the city, 9th Street SE with city limits to the north, south and west..

- The existing uses surrounding the site are
    - North – RS – Vacant, Citrus Grove and Peace River Flood Plain
    - West – A/RR – Vacant, Citrus Grove
    - East – PM – Vacant, Peace River Flood Plain
    - South – A/RR – Vacant, Peace River Flood Plain

Infrastructure

- The subject parcels have access to Mt. Pisgah Road via a parcel, owned by one of the subject property owners, as an access via easement. This parcel has a Future Land Use designation of A/RR and is not part of the request.

- The site has no access to centralized potable water or wastewater services. The nearest water line is along the east side of Mt Pisgah Road, north of the site at Cox Road and is owned by the City of Ft. Meade.

- The subject property is zoned for Lewis Anna Woodbury Elementary School, Ft Meade Middle/Sr Middle School, and Ft. Meade Senior High School.

- The Sheriff's Regional Command that serves the area is the Polk County Sheriff's Southeast Command Center at 4011 Sgt. Mary Campbell Way in Lake Wales approximately 32 miles to the northeast.

- Fire rescue response from Polk County Fire Rescue Station #10 at 1235 9th St NE N, Fort Meade. It is approximately 2.9 miles driving distance.

- There are no sidewalks along Mt. Pisgah Road.

- The nearest transit route is Route 25 that stops at 9th Street SE and Mt. Pisgah Road in Ft. Meade, approximately ½ mile north.

- The nearest neighborhood park is the Fort Meade Park. The closest County Regional Park is Loyce Harpe Park. The Bone Valley ATV Park is about eleven (11) miles away.

Environmental

- There are no surface waters on site.

- The subject site does contain wetlands and floodplains.

- The subject site has Adamsville Fine Sand (60%), and Holopaw Fine Sand (40%).

- The site is located within the Potential Network Connections area of the Polk Green District Comprehensive Plan Map Series.

- Approximately one mile southeast of the site has over 500 acres in a Conservation Easement.

- The subject property is not located within a one-mile radius of a protected plant or animal species sighting since 2006 (Source: Florida Natural Areas Inventory 2002, 2006, 2011, & 2015).

- There are no known archeological or historical resources on the subject site per data from the Florida State Historical Commission.

- There are residential use wells on the subject site and it is not located in a wellfield.

- The site is not within an Airport Impact District.

Comprehensive Plan Policies

- POLICY 2.102-A1 Development Location states that Polk County shall promote contiguous and compact growth patterns through the development process to minimize energy costs, conserve land, water, and natural resources, minimize the cost of services, and prevent development patterns where tracts of land are by-passed in favor of development more distant from services and existing communities.

- POLICY 2.102-A2 Compatibility states that land shall be developed so that adjacent uses are compatible with each other, pursuant to the requirements of other Policies in this Future Land Use Element, so that one or more of the following provisions are accomplished: a. there have been provisions made which buffer incompatible uses from dissimilar uses; b. incompatible uses are made to be more compatible to each other through limiting the intensity and scale of the more intense use; c. uses are transitioned through a gradual scaling of different land use activities through the use of innovative development techniques such as a Planned Unit Development.

- POLICY 2.102-A3 Distribution states that development shall be distributed throughout the County consistently with this Future Land Use Element so that the public utility, other community services, and public transit and transportation systems can be efficiently utilized; and compact, high-density and intensity development is located where urban services can be made available.

- POLICY 2.102-A4 Timing states that development of land shall be timed and staged in conjunction with the cost-effective and efficient provision of supporting community services which, at a minimum, shall require compliance with the Plan's Level of Service requirements and the County's concurrency management system.

- POLICY 2.102-A10 Location Criteria states the following factors shall be taken into consideration when determining the appropriateness of establishing or expanding any land use or development area:
  a. nearness to incompatible land uses and future land uses, unless adequate buffering is provided;
  b. nearness to agriculture-production areas;
  c. distance from populated areas;
  d. economic issues, such as minimum population support and market-area radius (where applicable);
  e. adequacy of support facilities or adequacy of proposed facilities to be provided by the time of development, including, but are not limited to:
     1. transportation facilities, including but not limited to, mass transit, sidewalks, trails and bikeways;
     2. sanitary sewer and potable water service;
     3. storm-water management;
     4. solid waste collection and disposal;
     5. fire protection with adequate response times, properly trained personnel, and proper fire-fighting equipment;
     6. emergency medical service (EMS) provisions; and
     7. other public safety features such as law enforcement;
     8. schools and other educational facilities
     9. parks, open spaces, civic areas and other community facilities
  f. environmental factors, including, but not limited to:
     1. environmental sensitivity of the property and adjacent property;
     2. surface water features, including drainage patterns, basin characteristics, and flood hazards;
     3. wetlands and primary aquifer recharge areas;
     4. soil characteristics;
     5. location of potable water supplies, private wells, public well fields; and
     6. climatic conditions, including prevailing winds, when applicable.

- POLICY 2.114-A4: FUTURE DEVELOPMENT OF PM LAND - Polk County shall promote the redevelopment of PM lands by encouraging master planned developments incorporating land uses permitted within Rural Development Areas. Applications for land use amendments will be reviewed by the "Phosphate Mining Review Group." The applicant will be required to submit appropriate data and analysis as required by the amendment process, a copy of the reclamation plan including the subject site(s), and narrative establishing how the proposed land use(s) follows or conforms to the reclamation plan. The proposal shall demonstrate consistency with the goals, objectives, and policies of the Plan, including, county-wide land use needs, compatibility with adjacent uses, and protection of existing natural resources.

  The "Phosphate Mining Review Group" will be composed of a representative from each of the following agencies:

  Department of Environmental Protection, Bureau of Mine Reclamation

  Central Florida Regional Planning Council

  Phosphate Mining Industry

Florida Institute of Phosphate Mining Research

Florida Fish and Wildlife Conservation Commission

Polk County Planning

Polk County Natural Resources

Polk County Cooperative Extension Services, Soils Conservation

- These applications for land use amendments shall be reviewed by the Group prior to application being accepted by the County.

- According to POLICY 2.108-A1 of the Comprehensive Plan, the subject property is in a Rural Development Area (RDA). The RDA "is characterized by large open areas, agricultural use, with scattered development and rural centers. Services are limited and mostly found in the rural centers and clustered developments."

- The subject property is in a Phosphate Mining (PM) Future Land Use Map district. The Comprehensive Plan permits only Phosphate mining and allied industries, land reclamation, agriculture, and Farmworker housing.

- Policy 2.114-A2 of the Comprehensive Plan states that if property in the PM district that was not under a conceptual mining plan and owned by a phosphate mining company "may be developed residentially but the County must initiate a Comprehensive Plan amendment soon after to recognize the new land use."

- For PM lands affected by Policy 2.114-A2, a change to the Agricultural/Residential Rural (A/RR) district is the default category.

- Per Table 2.2 of the Land Development Code (LDC), the minimum residential lot size in an A/RR district is five (5) acres. Single-family residences are a permitted use in A/RR.

Development Review Committee Recommendation: Based on the information provided by the applicant, recent site visits, and the analysis conducted within this staff report, the Development Review Committee finds that with the proposed conditions, the proposed request **IS COMPATIBLE** with the surrounding land uses and general character of the area, **IS CONSISTENT** with the Polk County Comprehensive Plan and Land Development Code, and therefore, the Development Review Committee (DRC) recommends **APPROVAL of LDCPAS 2025-13.**

Planning Commission Recommendation: On May 15, 2025, in an advertised public hearing, the Planning Commission voted 7:0 to **recommend APPROVAL of LDCPAS 202-13.**

NOTE: *This staff report was prepared without the benefit of testimony and evidence submitted by the public and other interested parties at a public hearing.*

NOTE: *All written comments made in the application and subsequent submissions of information made during the application review process, which are on file with the Land Development Division, shall be considered to be binding upon the applicant, provided such comments are not at variance with the Comprehensive Plan, LDC or other development regulations in effect at the time of development.*

NOTE: *Issuance of a development permit by the county does not in any way create any rights on the part of the applicant to obtain a permit from a state or federal agency and does not create any liability on the part of the county for issuance of the permit if the applicant fails to obtain requisite approvals or fulfill the obligations imposed by a state or federal agency or undertakes actions that result in a violation of state or federal law*.

Analysis

This section of the staff report includes data on the surrounding uses, infrastructure conditions, environmental conditions, and related Comprehensive Plan policies and Land Development Code regulations.

Surrounding Uses

Table 1 identifies the Future Land Use (FLU) designations and the existing uses surrounding the subject site that are immediately adjacent. The past several decades the subject site has been developed with two (2) residential dwellings. It access Mt. Pisgah Road via an access via easement, owned by one of the subject property owners. Adjacent to the north west and south have historically been citrus groves. To the east is the Peace Rive and its flood plain.

Table 1

Northwest: RS – Vacant Citrus Grove	**North:** RS – Vacant Citrus Grove and Peace River Flood Plain	**Northeast:** RS – Vacant Peace River Flood Plain
West: A/RR – Vacant Citrus Grove	**Subject Property:** PM 2.0± acres; Improved Residential	**East:** PM – Vacant Peace River Flood Plain
Southwest: A/RR – Vacant Citrus Grove	**South:** A/RR – Vacant Peace River Flood Plain	**Southeast:** PM – Vacant Peace River Flood Plain
Source: Polk County Geographical Information System and site visit by County staff		

The infrastructure is limited due to the rural nature of the area. For the past several decades the subject site has been developed with two (2) residential dwellings. The site being located on the west side of the Peace River has historically been a part of the southern Fort Meade unincorporated area which included residential use as well as agricultural and citrus crops. The existing use as residential is compatible with the surrounding uses.

Compatibility with the Surrounding Uses

According to *Policy 2.102-A2* of Polk County's Comprehensive Plan, "land shall be developed so that adjacent uses are compatible with each other, pursuant to the requirements of other policies in this Future Land Use Element, so that one or more of the following provisions are accomplished: a. there have been provisions made which buffer incompatible uses from dissimilar uses; b. incompatible uses are made to be more compatible to each other through limiting the intensity and

scale of the more intense use; and c. uses are transitioned through a gradual scaling of different land use activities through the use of innovative development techniques such as a Planned Unit Development." The "development criteria" and the "density and dimensional regulations" of a land use district are often the measuring tools used by staff to determine compatibility and the appropriateness of locating differentiating uses. Compatibility is defined in the Comprehensive Plan as "a condition in which land uses or conditions can coexist in relative proximity to each other in a stable fashion over time such that no use or condition is unduly negatively impacted directly or indirectly by another use or condition."

A. Land Uses

Section 2.114 of the Comprehensive Plan, lists A/RR as one of the land uses for the conversion of PM lands. The lands easy of the Peace River were mined for phosphate. The land to the west of the Peace River has historically been City of Fort Meade, residential or citrus groves. The existing residential and citrus nature are compatible with the existing residential development of the subject lots of record.

B. Infrastructure

The infrastructure is limited due to the rural nature of the area. The site has historically been developed with two (2) residential dwellings. Any new development would consist of redevelopment of the existing residential development. The site is currently developed not adding any additional impacts to roads and public safety services.

Nearest Elementary, Middle, and High School

The schools zoned for the subject property are the zoned schools listed in Table 2 below. The site is currently developed with two residential dwellings, no additional impacts too the Polk County Scholl system are anticipated..

Table 2 School Information

Name of School	**Annual Estimated Demand**	**% Capacity 2024-2025 School Year**	**Average driving distance from subject site**
Lewis Anna Woodbury Elementary School	1 student	87%	1.4 ± miles driving distance
Ft Meade Middle/Sr Middle School	1 student	70%	2.6 ± miles driving distance
Ft Meade Senior High School	1 student	57%	2.6 ± miles driving distance

Source: Polk County School Board, Polk County Impact Fee Ordinance, GIS

Nearest Sheriff, Fire, and EMS Station

Table 3 below displays that the nearest Sheriff District office and Fire/EMS stations. Sheriff response times are not as much a function of the distance to the nearest sheriff's substation, but more a function of the overall number of patrol officers within the County.

Table 3 Public Safety Information

	Name of Station	**Distance Response Time***
Sheriff	Southe**ast** Command Center (4011 Sgt. Mary Campbell Way in Lake Wales)	32.4 +/- miles Priority 1 – 10:04 Priority 2 – 30:54
Fire/ EMS	**Station #10** (1235 9th St NE N, Fort Meade, Ft. Meade)	2.9 +/- miles 9-11 minutes

Source: Polk County Sheriff's Office & Polk County Fire Rescue. Response times for April 2026.

Water and Wastewater

The subject site is in the RDA and is not within any utility service area. Water and sewer lines are not near the subject site. The nearest water line is along the east side of Mt Pisgah Road, north of the site at Cox Road and is owned by the City of Ft. Meade. Potable water is provided by a well, and an onsite septic treatment system will be utilized to handle wastewater for each individual lot.

A. Estimated Demand

Table 4, following this paragraph, shows the Average Annual Daily Trip (AADT) rate and the PM Peak hour trip rate being less for the proposed request. However, it is not automatic and not even common that the alternative use for PM is industrial. In fact, most of the land use changes from PM are to A/RR. The changes to IND have been along railroad lines. The subject site is not along a railroad and historically been utilized for residential dwelling. However, IND uses tend to be more impactive in terms of noise, vibrations, and odors. So, the traffic analysis below is based on PM having industrial uses. It is noted that there is not potable water or sewer service to the subject site, water and sewer is/would be provided by well and septic systems

Table 4 Estimated Water and Sewer Impact Analysis

Permitted Intensity **2.0 +/- acres** **87,120 sq ft** **@0.75 FAR = 65,340**	**Current PM**	**Maximum Permitted in A/RRX**
	65,340 sf	2 units
Potable Water Consumption	65,340 * 0.24 = **15,682 GPD**	2 X 250 = 50**0 GPD**
Wastewater Generation	15,682 * 80% Water **= 12,546 GPD**	2 X 200 = **400 GPD**

Source: Concurrency Manual: PM@ IND rates @ 0.24 per sq ft and 80% for wastewater, single family @ 250 GPD Potable water and 200 Wastewater.

B. Service Provider

The subject site is not within any utility serve areas. The two (2) parcels are currently improved with single-family dwellings, which use well and septic to provide for these utility needs. Both lots are developed, only redevelopment with single-family residential will occur.

C. Available Capacity

The subject site is not within any utility serve areas. Therefore, all development on the subject site will require wells and septic tanks. The capacity of these systems will be based on the parameters of the permitting agency.

D. Planned Improvements

There are no utility improvements near the subject site.

Roadways/Transportation Network

A. Estimated Demand

The subject parcels have access to Mt. Pisgah Road via a parcel, owned by one of the subject property owners, as an access via easement. This parcel has a Future Land Use designation of A/RR and is not part of the request. Table 5, following this paragraph, shows the Average Annual Daily Trip (AADT) rate and the PM Peak hour trip rate being less for the proposed request. However, it is not automatic and not even common that the alternative use for PM is industrial. In fact, most of the land use changes from PM are to A/RR. The changes to IND have been along railroad lines. The subject site is not along a railroad and historically been utilized for residential dwelling. However, IND uses tend to be more impactive in terms of noise, vibrations, and odors. So, the traffic analysis below is based on PM having industrial uses.

The table below analyses the subject site as if vacant; however, the two (2) parcels are currently improved with single-family dwellings, which use well and septic to provide for these utility needs.. The analysis of the site with the two (2) lots currently developed with residential indicates 16 AADT and 2 Peak Hour, verses the assumed PM developed intensity, indicating 236 ADDT and 41 Peak Hour.

Table 5 Estimated Transportation Impact Analysis

Permitted Intensity Permitted Intensity 2.0 +/- acres 87,120 sq ft @0.75 FAR = 65,340	**Current PM**	**Maximum Permitted in A/RRX**
	65,120 / 1,000 = 65 sf	2 units
Average Annual Daily Trips (AADT)	65 * 3.93 * 92% new trips = **236 AADT**	2 X 7.81 AADT = **16 AADT**
PM Peak Hour Trip	65 * 0.67 * 92% new trips = **41 AADT**	2 X 1 = **2 PM Peak Hour**

Source: Concurrency Manual and Table for Minor Traffic Study –PM @ IND rates ITE Code 140 @ 3.93 AADT per 1,000 square feet and 0.67 PM Peak Hour Trip per 1,000 square feet and 92% new trips, single family @ one house per five acres – 7.81 AADT per unit and 1 PM Peak Hour per unit 100% new trips

B. Available Capacity

The subject site only has direct access to Mt. Pisgah Road, which is not monitored by the Polk Transportation Planning Organization (TPO). Mt. Pisgah Road is a Rural Minor Collector. The nearest monitored road, US 17 is approximately ¾ mile north and west at the end of Oak Drive. US 27 extends south out of Polk County to Punta Gorda and north through Bartow, Orlando, and Jacksonville before entering Georgia. The current Level of Service (LOS) through this part of the road is "C". The minimum LOS on this portion of US 27 is "D". The existing residential development will not have any significant impact on the roadway capacity.

Table 6

Link #	Road Name	Current LOS	Available Capacity	Minimum LOS Standard	Projected Five Year LOS
5003N	US 17/98	C	741	D	C
5003S	US 17 @ US 98 to CR 640	C	784	D	C
5001N	US 17	C	1,119	D	C
5001S	Hardee County Line to 9th Street SE	C	1,153	D	C

Source: Polk Transportation Planning Organization, Roadway network Database April 2026

C. Roadway Conditions

Mt. Pisgah Road and County Line Road (Hardee/Highlands) are two-lane undivided Rural Minor Collector Road that has a PCI condition rating of Very Good.

D. Sidewalk Network

Mt. Pisgah Road does not have any sidewalks. The subject site is in the Rural Development Area (RDA) which does not require sidewalks within the right of way on a public road.

E. Planned Improvements:

There are currently no planned improvements along any of the traffic links.

F. Mass Transit

The nearest transit route is Route 25 that stops at 9th Street SE and Mt. Pisgah Road. This stop is approximately ½ mile north of the site.

Park Facilities:

The following analysis is based on public recreation facilities. The nearest neighborhood park is the Bradley Junction Park. The Bone Valley ATV Park is about eleven (11) miles away.

A. Location:

Fort Meade Park is located in the northeast part of Fort Meade. Its current hours of operations are from 5 a.m. to 10 p.m. The park's amenities include baseball Fields, basketball Court(s), picnic tables, playground, and softball facilities.

Bone Valley ATV Park is on the south side of County Road 630 and east of State Road 37. It is a 200-acre tract of land with 15 trails, hill climbs and free riding areas. Below are the hours and fees for the park, along with important safety and registration information. The address is 10427 County Road 630 W. in Mulberry.

B. Environmental Lands:

There are no County owned Environmental Lands in this part of the County.

C. Planned Improvements:

There are no further recreation improvements scheduled for this area of the County at this time.

Environmental Conditions

The subject site has historically been a residential area with two (2) lots of record. The area does not have access to municipal water and sewer, historically relying on well and septic for water and sewer. There are no vacant lots and any new development would consist of redevelopment of the older residential dwellings.

A. Surface Water:

The highest point is 102 feet above sea level; the lowest is below 87 feet MSL. The site drains to the southeast into a flood plain system and drain that takes surface waters to the Peace River.

B. Wetlands/Floodplains:

The subject site has no indicated wetlands or floodplains.

C. Soils:

The subject site is comprised of a mix of soil types as listed in Table 8 following this paragraph. According to the soil survey of Polk County, the soil types range from Moderate to Severe. The site is currently developed with single-family residential.

Table 8

Soil Name	**Septic Tank Absorption Field Limitations**	**Limitations to Dwellings w/o Basements**	**% of Site** *(approximate)*
Adamsville fine sand, 0 to 1% slope	Severe: wetness	Moderate: wetness	60%
Holopaw Fine sand, 0 to 1% slope	Severe: ponding	Severe: ponding	40%

Source: Soil Survey of Polk County, Florida, USDA, Soil Conservation Service

D. Protected Species:

The subject property is not located within a one-mile radius of a protected plant or animal species sighting since 2006 (Source: Florida Natural Areas Inventory 2002, 2006, 2011, & 2015).

E: Polk Green Districts and Conservation Easements:

The site is located within the Potential Network Connections area of the Polk Green District Comprehensive Plan Map Series. Approximately one mile southeast of the site has over 500 acres in a Conservation Easement as recorded in OR Book 10740, Page 2012.

F. Archeological and Historical Resources:

According to the Florida Department of State, Division of Historical Resources, there are no archeological or historical resources listed in the Florida Master Site File for the site.

G. Wells (Public/Private)

The subject site is not located on a wellfield. The nearest Wellfield is about 1.5 miles northwest, in Fort Meade. The current improved subject parcels as well as other improved properties use wells for their water source.

H. Airports:

The site is not within any Airport Height Notification or In-Flight Visual Interference Zones.

Economic Factors:

The subject site is only 2.0± acres. Most phosphate mines are thousands of acres. The site has historically been residential with The two residential dwellings being constructed in the 1960's and 1970's. This change in land use will provide for a conforming use on the subject site.

Consistency with the Comprehensive Plan

Many policies within the Comprehensive Plan are reviewed for consistency with an application. The most relevant policies for the proposed request are included in this section. The policy is first stated and then an analysis of how the request is provided to state that it may or may not be consistent with the Comprehensive Plan. How the request is **consistent** with the Comprehensive Plan is listed below:

Table 8 Comprehensive Plan and Land Development Code

Comprehensive Plan Policy	Consistency Analysis
POLICY 2.102-A2: COMPATIBILITY - Land shall be developed so that adjacent uses are compatible with each other, pursuant to the requirements of other Policies in this Future Land Use Element, so that one or more of the following provisions are accomplished: a. there have been provisions made which buffer incompatible uses from dissimilar uses; b.	The neighboring Future Land Use Map designations are RS to the north, and A/RR to the west and south, PM is west of the site. The Peace River is west of the site and the historic phosphate mining occurred east of the Peace River. The western side of the Peace River has and is agricultural or residential in use.

Comprehensive Plan Policy	Consistency Analysis
incompatible uses are made to be more compatible to each other through limiting the intensity and scale of the more intense use; c. uses are transitioned through a gradual scaling of different land use activities through the use of innovative development techniques such as a Planned Unit Development.	
POLICY 2.102-A1: DEVELOPMENT LOCATION – Polk County shall promote contiguous and compact growth patterns through the development process to minimize energy costs, conserve land, water, and natural resources, minimize the cost of services, and prevent development patterns where tracts of land are by-passed in favor of development more distant from services and existing Communities.	The proposed low-density use is consistent with services available in the Rural Development Area (RDA).
POLICY 2.102-A4: TIMING - The development of land shall be timed and staged in conjunction with the cost-effective and efficient provision of supporting community services which, at a minimum, shall require compliance with the Plan's Level of Service requirements and the County's concurrency management system.	
POLICY 2.102-A10: LOCATION CRITERIA - The following factors shall be taken into consideration when determining the appropriateness of establishing or expanding any land use or development area: a. nearness to incompatible land uses and future land uses, unless adequate buffering is provided, b. nearness to agriculture-production areas; c. distance from populated areas; d. economic issues, such as minimum population support and market-area radius (where applicable);e. adequacy of support facilities or adequacy of proposed facilities to be provided by the time of development, including, but are not limited to: 1. transportation facilities, including but not limited to, mass transit, sidewalks, trails and bikeways; 2.sanitary sewer and potable water service; 3. storm-water management; 4. solid waste collection and disposal; 5. fire protection with adequate response times, properly trained personnel, and proper fire-fighting equipment; 6. emergency medical service (EMS) provisions; and 7. other public safety features such as law enforcement; 8. schools and other educational facilities 9. parks, open spaces, civic areas and other community facilities, f. environmental factors, including, but not limited to: 1. environmental sensitivity of the property and adjacent property; 2. surface water features, including drainage patterns, basin characteristics, and flood hazards; 3. wetlands and primary aquifer recharge areas; 4. soil characteristics; 5. location of potable water supplies, private wells, public well fields; and 6.	One home per five acres does not need many services at all other than the potential need for public safety services and access for visitors. The subject site consists of two (2) one-acre lots of record. The lots are both improved with residential dwellings originally constructed in the 1960's and 1970's. Homeowners within the subject area have not had access to urban services and have not requested any increased level of urban services. A/RR is the main residential and agricultural designation in the RDA. Therefore, this request is consistent with these policies.

Comprehensive Plan Policy	Consistency Analysis
climatic conditions, including prevailing winds, when applicable.	
Property not meeting the criteria under Policy 2.114-A2 (Designation and Mapping of Phosphate Mining Land) but designated as Phosphate Mining on the Polk County Future Land Use Map Series, may be developed residentially but the County must initiate a Comprehensive Plan amendment soon after to recognize the new land use. Agricultural/Residential-Rural (A/RR) development criteria specified under Section 2.121-A with the exception of Policy 2.121-A2.E.2 (Rural Mixed Use Developments) will be used; and, the applicant must show documentation proving the property was not owned by a phosphate mining company prior to May 1, 1991, the Plan's adoption date. Property purchased from a phosphate company after this date will not be considered an error.	
POLICY 2.114-A3: PERMITTED ACTIVITIES - The following activities shall be permitted within the Phosphate Mining land use category as mapped pursuant to Policy 2.114-A2: a. Phosphate mining and allied industries; b. Land reclamation; c. Agriculture and Farmworker housing under specific design parameters listed in the Land Development Code not to exceed an intensity of sixteen (16) workers per acre; d. Other land uses with conditional approval which are compatible and related with the extraction and processing of phosphate; and e. Subject to the adoption of a Comprehensive Plan amendment, any activities permitted within the following land use designations, which are appropriate for the redevelopment of lands formally utilized for phosphate mining operations and which demonstrate compliance with the Comprehensive Plan criteria for each use: 1. Preservation. 2. Recreation and Open Space. 3. Leisure/Recreation. 4. Institutional. 5. Rural Cluster Centers. 6. Tourism Commercial Centers. 7. Business Park Centers. 8. Industrial. 9. Rural Mixed-Use Developments. 10. New Communities. 11. Agricultural/Residential Rural only.	A mining company has not owned the subject site and was not part of a Mine Plan. This request is part of a Board of County Commission's request to locate residential use properties that have historically been residential use with residential dwellings and provide residential entitlements to these areas.

Comprehensive Plan Policy	Consistency Analysis
POLICY 2.114-A4: FUTURE DEVELOPMENT OF PM LAND - Polk County shall promote the redevelopment of PM lands by encouraging master planned developments incorporating land uses permitted within Rural Development Areas. Applications for land use amendments will be reviewed by the "Phosphate Mining Review Group." The applicant will be required to submit appropriate data and analysis as required by the amendment process, a copy of the reclamation plan including the subject site(s), and narrative establishing how the proposed land use(s) follows or conforms to the reclamation plan. The proposal shall demonstrate consistency with the goals, objectives, and policies of the Plan, including, county-wide land use needs, compatibility with adjacent uses, and protection of existing natural resources. The "Phosphate Mining Review Group" will be composed of a representative from each of the following agencies: Department of Environmental Protection, Bureau of Mine Reclamation Central Florida Regional Planning Council Phosphate Mining Industry Florida Institute of Phosphate Mining Research Florida Fish and Wildlife Conservation Commission Polk County Planning Polk County Natural Resources Polk County Cooperative Extension Services, Soils Conservation These applications for land use amendments shall be reviewed by the Group prior to application being accepted by the County.	Staff is coordinating with the Phosphate Review Group to obtain any comments.

Urban Sprawl Analysis

After analyzing the primary indicators of Urban Sprawl per *Policy 2.109-A10* of the Polk County Comprehensive Plan, it is apparent that the proposed request is not considered urban sprawl based on these criteria and it is permitted in the designated area. Table 9 (below) depicts the Urban Sprawl Criteria used by staff as indicators of Urban Sprawl.

Table 9 Urban Sprawl Criteria

Urban Sprawl Criteria: The following criteria are the primary indicators of urban sprawl per Florida Statutes	
Urban Sprawl Criteria	**Sections where referenced in this report**
a. *Promotes substantial amounts of low-density, low-intensity, or single use development in excess of demonstrated need.*	Summary of analysis
b. *Allows a significant amount of urban development to occur in rural areas.*	Summary of analysis
c. *Designates an urban development in radial, strip isolated, or ribbon patterns emanating from existing urban developments.*	Summary of analysis, surrounding Development, compatibility
d. *Fails to adequately protect and conserve natural resources and other significant natural systems.*	Summary of analysis, surrounding Development, compatibility
e. *Fails to adequately protect adjacent agricultural areas.*	Compatibility with Surrounding Land Uses
f. *Fails to maximize existing public facilities and services.*	Summary of Analysis, Infrastructure
g. *Fails to minimize the need for future facilities and services.*	Summary of Analysis, Infrastructure
h. *Allows development patterns that will disproportionately increase the cost of providing public facilities and services.*	Summary of Analysis, Infrastructure
i. *Fails to provide a clear separation between urban and rural uses.*	Summary of Analysis, Compatibility with Surrounding Land Uses
j. *Discourages infill development or redevelopment of existing neighborhoods.*	Summary of Analysis, Compatibility with Surrounding Land Uses
k. *Fails to encourage an attractive and functional mixture of land uses.*	Summary of Analysis, Compatibility with Surrounding Land Uses
l. *Will result in poor accessibility among linked or related land uses.*	Summary of Analysis, Compatibility with Surrounding Land Uses
m. *Results in the loss of a significant amount of open space.*	Summary of Analysis, Compatibility with Surrounding Land Uses

Permitted and Conditional Uses in A/RR

ORDINANCE NO. 26 -____

AN ORDINANCE OF POLK COUNTY, FLORIDA ADOPTING **LDCPAS-2025-13;** AN AMENDMENT TO THE POLK COUNTY COMPREHENSIVE PLAN, ORDINANCE 92-36, AS AMENDED, TO CHANGE THE FUTURE LAND USE MAP DESIGNATION ON 2.0+/- ACRES FROM PHOSPHATE MINING (PM) TO AGRICULTURAL/RESIDENTIAL RURAL (A/RR). THE SITE IS LOCATED EAST OF MT. PISGAH ROAD, SOUTH OF 9TH STREET SE, NORTH OF BERQUEST ROAD, WEST OF THE PEASE RIVER, SOUTHEAST OF THE CITY OF FORT MEADE, IN SECTION 02, TOWNSHIP 32, RANGE 25, RANGE 26; PROVIDING FOR SEVERABILITY; AND PROVIDING FOR AN EFFECTIVE DATE.

WHEREAS, pursuant to Article VIII, Section I(g) of the Constitution of the State of Florida and the Community Planning Act, Chapter 163, Part II, Florida Statutes (FS), as amended, (the Act) Polk County is authorized and required to adopt a Comprehensive Plan (Plan); and

WHEREAS, Section 163.3187, FS, and Comprehensive Plan Section 4.305.B, provides for the approval of Small-Scale Comprehensive Plan Amendments; and

WHEREAS, pursuant to Section 163.3174, FS, the Local Planning Authority (Planning Commission) conducted a public hearing, with due public notice having been provided, on the proposed Plan revisions on May 6, 2026; and

WHEREAS, pursuant to Section 163.3187(2), FS, the Board of County Commissioners conducted an adoption public hearing, with due public notice having been provided, on the proposed Plan revisions on June 16, 2026; and

WHEREAS, the Board of County Commissioners, reviewed and considered all comments received during said public hearing, and provided for necessary revisions; and

NOW THEREFORE, BE IT ORDAINED by the Polk County Board of County Commissioners:

SECTION 1: COMPREHENSIVE PLAN AMENDMENT

The Future Land Use Map of Ordinance No. 92-36, as amended, (the "Polk County Comprehensive Plan") is hereby amended to reflect a change in the Future Land Use designation on 2.0± acres from Phosphate Mining (PM) to Agricultural/Residential Rural (A/RR) in the Rural Development Area (RDA) on the parcel listed below and graphically depicted on the parcel map in Attachment "A".

Parcel 1

25-32-02-000000-033020

N 208.71 FT OF E 208.71 FT OF NW1/4 OF NW1/4

Parcel 2

25-32-02-000000-033050

S 208.71 FT OF N 417.42 FT OF E 208.71 FT OF NW1/4 OF NW1/4

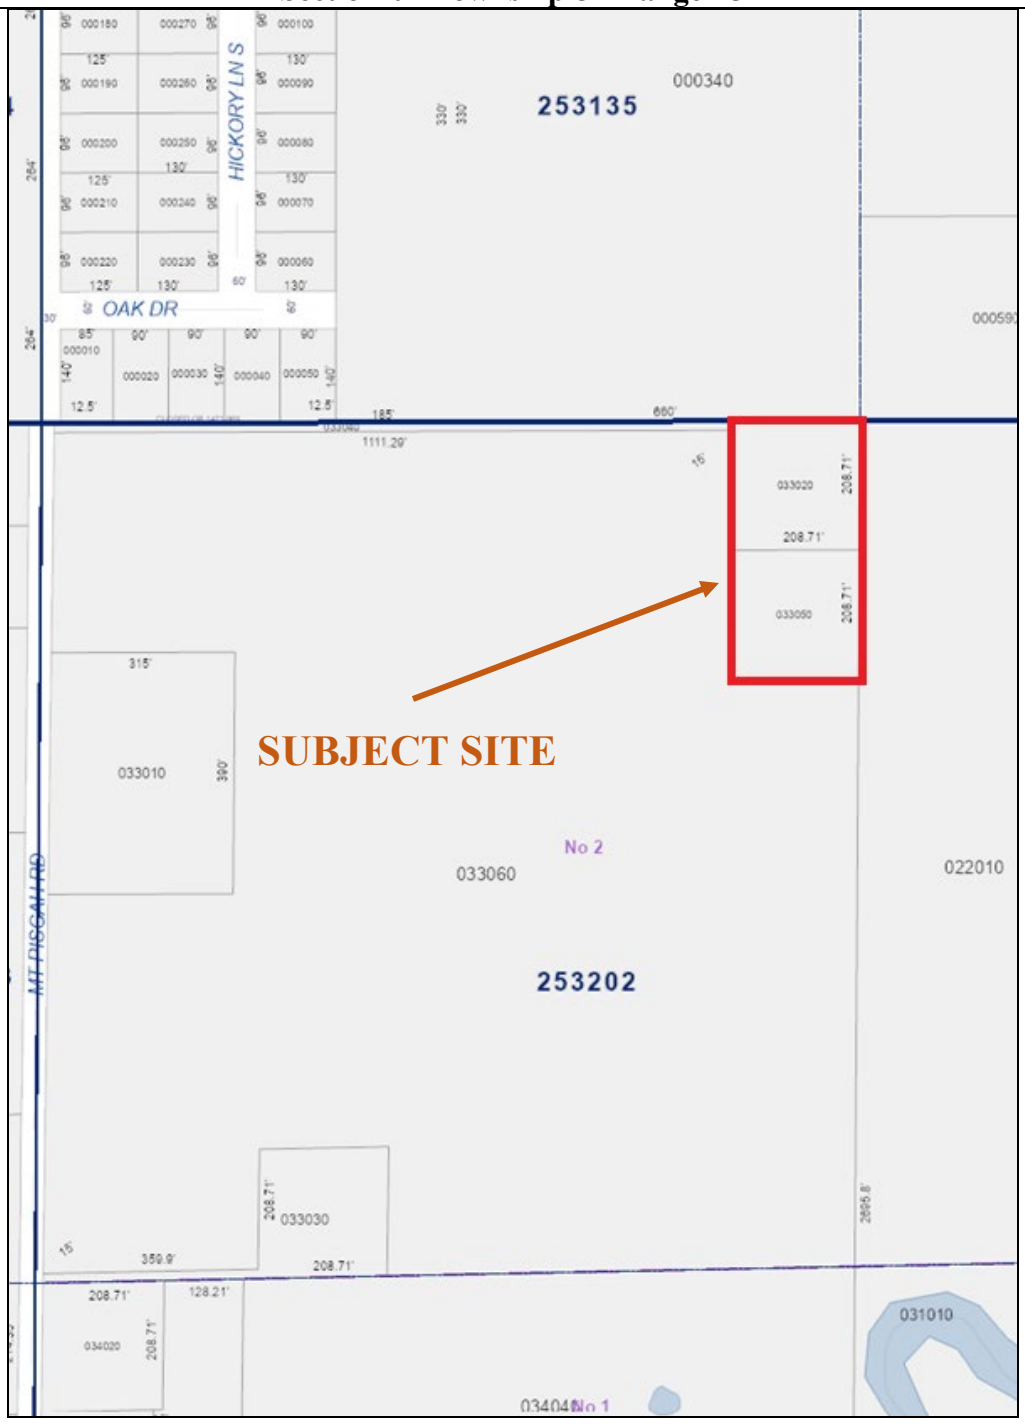
SECTION 2: SEVERABILITY

If any provision of this Ordinance is held to be illegal, invalid, or unconstitutional by a court of competent jurisdiction the other provisions shall remain in full force and effect.

SECTION 3: EFFECTIVE DATE

This ordinance shall be effective on July 17, 2026 (31 days after adoption), unless the amendment is challenged. If challenged, the effective date of this ordinance shall be the date a Final Order is issued by the Department of Economic Opportunity or Administration Commission finding the amendment in compliance in accordance with Section 163.3184 (1)(b), Florida Statutes. No development orders, development permits, or land uses dependent upon this amendment, as described on the attached map of proposed land uses, may be issued or commence before it has become effective.

SECTION 4: FILING WITH THE DEPARTMENT OF STATE:



The Clerk and Auditor to the Board of County Commissioners of Polk County, Florida, shall file a certified copy of this ordinance with the Department of State, through the

Secretary of State, upon adoption by the Board of County Commissioners of Polk County, Florida.

ADOPTED, in open session of the Polk County Board of County Commissioners with a quorum present and voting this 16th day of June 2026.

Note: Not to Scale

Demonstration of Need and Impact Assessment Statement Form

POLICY 2.102-A11: URBAN SPRAWL CRITERIA - In accordance with Rule 9J-5.006(5) of the Florida Administrative Code, Polk County will discourage the proliferation of urban sprawl by use of the following criteria when determining the appropriateness of establishing or expanding any land use or development area. The analysis must ask whether or not the proposed plan amendment:

a. Promotes, allows, or designates for development substantial areas of the jurisdiction to develop as low-intensity, low-density, or single-use development or uses in excess of demonstrated need.

This land use change to A/RR is not sprawl and does not promote, allow or designate development is substantial areas of Polk County. This request is for A/RR which is an allowable use in the Rural Development Area and is an appropriate land use once PM is not needed as stated in the PM policies in the Comprehensive Plan.

b. Promotes, allows, or designates significant amounts of urban development to occur in rural areas at substantial distances from existing urban areas while leaping over undeveloped lands which are available and suitable for development.

A/RR is not an urban land use.

c. Promotes, allows or designates urban development in radial, strip isolated or ribbon patterns generally emanating from existing urban developments.

The A/RR is somewhat isolated. However, the intent of the PM area was to have land uses change to something other than PM when mining was completed, and A/RR is listed as one of those land uses in Policy 2.114-A3 PERMITTED ACTIVITIES.

d. As a result of premature or poorly planned conversion of rural land to other uses, fails to adequately protect and conserve natural resources, such as, wetlands, floodplains, native vegetation, environmentally sensitive areas, natural shorelines, beaches, bays, estuarine systems, and other significant natural systems.

There are no wetlands, floodplain, and floodway located on the subject site.

e. Fails to adequately protect adjacent agricultural areas and activities including silviculture and active agricultural and silvicultural activities as well as passive agricultural activities and dormant, unique and prime farmlands and soils.

This request is for A/RR which is an allowable use in the Rural Development Area and is an appropriate land use once PM is not needed as stated in the PM policies in the Comprehensive Plan.

f. Fails to maximize use of existing public facilities and services.

The request if approved is consistent with the requirements for septic tanks and wells for wastewater and potable water. Therefore, there is not waste of services per the standards in the Comprehensive Plan.

g. Fails to minimize the use of future public facilities and services.

The area of the County that includes the subject site is not in an area where future public facilities or services are planned.

h. Allows for land use patterns or timing which will disproportionately increase the cost in time, money and energy, of providing public facilities and services including roads, potable water, sanitary sewer, stormwater management, law enforcement education health care, fire and emergency response, and general government.

The request if approved is consistent with the requirements for septic tanks and wells for wastewater and potable water. Therefore, there is not waste of services per the standards in the Comprehensive Plan.

i. Fails to provide a clear separation between urban and rural uses.

This request is for A/RR which is an allowable use in the Rural Development Area and is an appropriate land use once PM is not needed as stated in the PM policies in the Comprehensive Plan. The separation between urban and rural uses is not impacted by this request.

j. Discourages or inhibits in-fill development or redevelopment of existing neighborhoods and communities.

This request is for A/RR which is an allowable use in the Rural Development Area and is an appropriate land use once PM is not needed as stated in the PM policies in the Comprehensive Plan.

k. Fails to encourage an attractive and functional mix of land uses.

This request is for A/RR which is an allowable use in the Rural Development Area and is an appropriate land use once PM is not needed as stated in the PM policies in the Comprehensive Plan. The mixing of land use is not an appropriate land use pattern to promote or require in this area of the County.

l. Results in poor accessibility among linked or related land uses.

The project area consists of 2 lots of record, both are improved residential lots. The subject parcels have access to a County maintained road, Mt Pisgah Road, driveways would be required to meet the standards of Section 705 of the LDC.

m. Results in the loss of a significant amount of functional open space.

The project area consists of 2 lots of record, both are improved residential lots. No significant loss of functional open space is anticipated.

Section 910 Impact Assessment Statements

The purpose of an Impact Assessment Statement is to provide information on the effects a proposed development or land use action will have on the existing neighborhood and general area; on the transportation facilities; on the environment and natural resources of the County; on the public facilities for water, sewer, solid waste disposal, fire, police, public education, parks, recreation, and other utilities; and any other aspect with an identified impact of the development and deemed appropriate for concern.

A. *Land and Neighborhood Characteristics*

To assess the compatibility of the requested land use district with the adjacent property and to evaluate the suitability of the site for development, the applicant shall:

1. Show how and why is the site suitable for the proposed uses;

Policy 2.114-A2 requires this land use change if the subject site was not owned by a mining company or in a mining plan. Staff has found that the subject site was not owned by a mining company.

2. Provide a site plan showing each type of existing and proposed land use;

The project area of 2.0± acres consists of 2 lots of record, both are improved residential lots (Map H). Any new development would have to meet the standards for the A/RR in the Polk County Land Development Code.

3. Describe any incompatibility and special efforts needed to minimize the differences in the proposed use with adjacent uses;

There is not active mining occurring to the north, east, south, or west. Therefore, efforts are not needed to minimize differences in uses.

4. Explain how the requested district may influence future development patterns if the proposed change is located in an area presently undeveloped; and

The proposed A/RR is in an area with no current mining to the north, south, east, or west. Therefore, the existing uses of the adjacent properties are considered open space at this time.

5. Describe each of the uses proposed in a Planned Development and identify the following:

The request is a land use change and not a PD.

a. The density and types of residential dwelling units;

b. The type of commercial and industrial uses;

c. The approximate customer service area for commercial uses; and

d. The total area proposed for each type of use, including open space and recreation.

B. ***Access to Roads and Highways***

To assess the impact of the proposed development on the existing, planned and programmed road system, the applicant shall:

1. Calculate the number of vehicle trips to be generated daily and at PM peak hour based on the latest ITE or provide a detailed methodology and calculations;

The project area of 2.0± acres consists of 2 lots of record, both are improved residential lots. The total number of additional trip units anticipated is 24 AADT and 3 PM Peak Hour Trips.

2. Indicate what modifications to the present transportation system will be required as a result of the proposed development;

There are no modifications needed to Mt Pisgah Road.

3. List the total number of parking spaces and describe the type of parking facilities to be provided in the proposed development;

Two sparking spaces are required outside of the garage, for new development.

4. Indicate the proposed methods of access to the existing public roads (e.g., direct frontage, intersecting streets, frontage roads); and

The project area has approximately 15 feet of frontage on Mt Pisgah Road. Any new residential development will be required to meet Section 822 of the LDC.

5. Indicate the modes of transportation, other than the automobile, that have been considered (e.g., pedestrian, bicycle, bus, train or air) and describe the modes.

There are no other modes of transportation in this area of the county. There are no sidewalks or transit routes in the area.

C. ***Sewage***

To determine the impact caused by sewage generated from the proposed development, the applicant shall:

1. Calculate the amount of sewage in gallons per day (GPD) expected to be generated by the proposed development;

The project area of 2.0± acres consists of 2 lots of record, both are improved residential lots. No new development will be made, no impacts to water or sewer capacity.

2. Describe the proposed method and level of treatment, and the method of effluent disposal for the proposed sewage treatment facilities if on-site treatment is proposed;

The property owners will only have access to septic tanks and wells.

3. Indicate the relationship of the proposed sewage system to Polk County's plans and policies for sewage treatment systems;

The property owners will only have access to septic tanks and wells. The project area is not within a utility service area. The location of a septic tank is the responsibility of the Health Department as Polk County does not have any additional requirements of the septic tank location outside of the Green Swamp. The Florida Department of Environmental Protection has the authority for well placement.

4. Identify the service provider; and

5. Indicate the current provider's capacity and anticipated date of connection.

D. ***Water Supply***

To determine the amount of water to be used, how it will be distributed, and the impact on the surrounding area, the applicant shall:

See answers for sewer supply.

1. Indicate the proposed source of water supply and, the type of treatment;

2. Identify the service provider;

3. Calculate the estimated volume of consumption in gallons per day (GPD); and

4. Indicate the current provider's capacity and anticipated date of connection.

E. ***Surface Water Management and Drainage***

To determine the impact of drainage on the groundwater and surface water quality and quantity caused by the proposed development, the applicant shall:

1. Discuss the impact the proposed development will have on surface water quality;

The project area represents 2 lots of record that will be changed to A/RR, as lots of record no additional stormwater system will be required. The project area consists of no vacant residential lots. Impacts to quality are assumed to be minimal because they are not regulated.

2. Describe the alteration to the sites natural drainage features, including wetland, that would be necessary to develop the project;

The highest point on the overall site is at the northwest corner, at 103 feet, sloping to the southwest corner at 87 feet.

3. Describe the impact of such alterations on the fish and wildlife resources of the site; and

Certainly, any development has impacts on the natural environment. The project area consists of 9 lots of record, with 3 of the parcels representing vacant residential lots. Future development is anticipated to be representative of the existing residential and have minimal impact to the wildlife resources.

4. Describe local aquifer recharge and groundwater conditions and discuss the changes to these water supplies which would result from development of the site.

This is not known at this time.

F. ***Population***

To determine the impact of the proposed developments additional population, the applicant shall:

1. Calculate the projected resident (and transient) population of the proposed development and the generated population in the case of commercial or industrial uses;

The project area consists of 2 lots of record, both are improved residential lots. No projected new population is anticipated with the request.

2. Describe, for commercial and industrial projects, the employment characteristics including the anticipated number of employees, type of skills or training required for the new jobs, the percentage of employees that will be found locally or are expected to be drawn from outside the county or state, and the number of shifts per day and employees per shift;

Not Applicable

3. Indicate the expected demographic composition of the additional population (age/socio-economic factors); and

There is not expectation of expected demographics as this is not a PD request.

4. Describe the proposed service area and the current population thereof.

This is not in any service area.

G. ***General Information***

To determine if any special needs or problems will be created by the proposed development, the applicant shall:

1. List and discuss special features of the proposed development that promote desirability and contribute to neighborhood needs; and

This question is more suitable to a PD as a specific product is known. This land use change request is consistent with Policy 2.114-A2 that provides if a property designated PM was not owned by a mining company, the future land use after PM can be A/RR or other recreation and institutional land uses. This request is consistent with that policy and in line with the other A/RR in the RDA. There are citizens that like to live in a rural area as demonstrated by the subject's project area. Of the 2 lots included within the application, there are no vacant lots.

2. Discuss the demand on the provision for the following services:

a. Parks and Recreation;

The residents in this property may have interest in competitive sports and will have to go to a regional park as other Polk County citizens. Passive recreation can be provided within each property. However, there are other passive recreational opportunities with other natural areas in the County.

b. Educational Facilities (preschool/elementary/middle school/high school);

The project area consists of 2 lots of record, with none of the parcels representing vacant residential lots. No increased school impact is anticipated. The zoned schools are Lewis Anna Woodbury Elementary, Ft Meade Middle/Sr, and Fort Meade Senior High.

c. Health Care (emergency/hospital);

The nearest hospital is in the City of Bartow. However, medical clinics are expanding.

d Fire Protection;

The nearest fire station per the Polk County GIS data viewer is in Ft Meade at 1235 9th Street NE. Staff will be asking for the most current information from Public Safety to use in the final staff report.

e. Police Protection and Security; and

The property is in the southwest district for the Sherriff's office. Staff will be asking for the most current response times to use in the final staff report.

f. Electrical Power Supply

The electrical supply is estimated to be TECO.

H. ***Maps***

See attached

1. Maps shall be used to give the public agencies a clear graphic illustration and visual understanding of the proposed development and the potential positive and negative impacts resulting from the development.

2. Maps shall be of sufficient type, size, and scale to facilitate complete understanding of the elements of the proposed development. Scales shall be clearly indicated on each map and the dates of preparation and revisions shall be included. The project boundaries shall be overlaid on all maps. The following maps shall accompany all Impact Assessment Statements:

3. Map A: A location map showing the relationship of the development to cities, highways, and natural features;

4. Map B: A Topographical Map with contour intervals of no greater than five feet, the identification of the property boundaries, and a delineation of the areas of special flood hazard (100 year flood plain) as shown on the Flood Insurance Rate Maps issued by the Federal Emergency Management Agency (FEMA) for Polk County;

5. Map C: A Land Use and Land Use District Map showing the existing land use designations and districts on and abutting the proposed development, including lot sizes and density;

6. Map D: A Soils Map with soils designated according to Natural Resources Conservation Service classifications. If available, USDA Natural Resources Conservation Service (NRCS) soil surveys are preferable;

7. Map E: A Traffic Circulation Map identifying any existing roads on or adjacent to the proposed development and indicating the name of the roads, maintenance jurisdiction, and pavement and right-of-way widths. **(See Location Map)**

8. Map F: A Site Plan showing land uses, the layout of lots, the type and maximum density for each type of residential area; the typical minimum lot sizes and dimensions for each use and unit type, and the dimensions, locations, and types of buffers, easements, open space areas, parking and loading areas, setbacks, and vehicular circulation routes; and

Not Applicable.

9. Map G: A Drainage Map delineating existing and proposed drainage areas, water retention areas, drainage structures, drainage easements, canals, wetlands, watercourses, and other major drainage features. **See Map B**

Extra Map:

Map H: A Vacant Lot Map identifying the vacant residential lots within the Project Area. These lots represent the land area for future development within the requested Land Use change area.

Agenda Item N.7. 6/16/2026

SUBJECT

Public Hearing (LDCPAS-2026-4 Fort Groves CPA) (Adoption Hearing) to consider the adoption of a Small-Scale Comprehensive Plan map amendment to change the land use designation from Phosphate Mining (PM) to Agricultural/Rural Residential (A/RR). (No Fiscal Impact)

DESCRIPTION

This is a County-initiated request for property located south of Hutchins Road, west of Old Bowling Green Road, southwest of the City of Fort Meade in Section 17, Township 32, Range 25.

State law requires one Planning Commission hearing, which was held May 3, 2026, with a recommendation for approval 7:0. Section 163.3187, Florida Statutes require the local governing board to take action on the proposed amendment.

DEVELOPMENT REVIEW COMMITTEE
STAFF REPORT

DRC Date:	March 5, 2026
Planning Commission Date:	May 6, 2026
BoCC Dates:	June 16, 2026
Applicant:	Polk County
Level of Review:	Level 4 Review, Comprehensive Plan Map Amendment
Case Number and Name:	LDCPAS-2026-4 (Fort Groves CPA)
Request:	County initiated Future Land Use Map amendment to change the land use designation from Phosphate Mining (PM) to Agricultural/Rural Residential (A/RR)
Location:	South of Hutchins Road, west of Old Bowling Green Road, southwest of the City of Fort Meade in Section 17, Township 32, Range 25.
Property Owner:	Fort Groves Inc
Parcel Size:	253217-486950-000080, 253217-486950-000070, 253217-486950-000060, 253217-486950-000050, 253217-486950-000030, 253217-486950-000040, 253217-486950-000020, 253217-486950-000010 (+/- 39 acres)
Development Area/Overlays:	Rural Development Area (RDA)
Future Land Use:	Phosphate Mining (PM)
Nearest Municipality	Fort Meade
DRC Recommendation:	Approval
Planning Commission Vote:	Approval 7-0
Case Planner:	Aleya Inglima, Planner II

Location

Current Future Land Use

Summary

This is a County-initiated Comprehensive Plan Map Amendment to change the Future Land Use (FLU) designation on approximately 39-acres, from Phosphate Mining (PM) to Agricultural/Rural Residential (A/RR) in the Rural Development Area (RDA). The subject site is located South of Hutchins Road, west of Old Bowling Green Road, southwest of the City of Fort Meade in Section 17, Township 32, Range 25. This property was previously owned and mined by Cities Service Company in the 1970s. It was later acquired by the applicant in the 90s and encumbrances cleared. Staff recommends approval.

The Fort Groves Plat has received prior approval; however, a portion of the property remains designated for Phosphate Mining on the Future Land Use Map. The proposed amendment is intended to support the long-term planning objectives for the area and the anticipated rural character of development. The Agriculture/Residential Rural designation supports low density residential development and agricultural uses, which are compatible with surrounding rural land uses and consistent with the County's Comprehensive Plan policies.

The amendment does not propose to increase density or intensity beyond what is permitted under the A/RR classification. Rather, it represents a reduction in intensity from a mining designation to a rural land use category. The change will facilitate appropriate rural residential development (1 du/5 ac) while supporting the protection of agricultural lands, maintaining open space, and preserving the rural character of the area.

Compatibility Summary

Section 2.114 of the Comprehensive Plan lists A/RR as one of the land uses for the conversion of PM lands. The surrounding uses are previously mined land and are compatible with five-acre residential lots. The A/RR maximum density of one dwelling unit per five acres is typical of the surrounding area.

Infrastructure Summary

The infrastructure is rural in nature. Public facilities and services are expected to be provided consistent with rural standards. The Agricultural/Residential Rural (A/RR) allows for a density of one dwelling unit per five acres. There is available capacity on Old Bowling Green Road and public safety services are available nearby.

Environmental Summary

There are a few environmental limitations to the development of this site for single-family residences, but they can be easily overcome with one dwelling unit per five acres within the A/RR. The site has no surface waters currently but previously did as a result of the previous mining operations. The soils are Arents and a typical of soils related to reclaimed mining operation and are of variable conditions and onsite investigation is recommended for use stability.

Comprehensive Plan

The relevant sections of the Comprehensive Plan that are applicable to the project request:

- Policy 2.102(A1-A15): Growth Management Policies

- Policy 2.102-A10 Location Criteria
- Section 2.114 Phosphate Mining
- Section 121-A Agricultural/Residential Rural
- Policy 2.114-A4: Future Development of PM Land

Findings of Fact

Request and Legal Status

- This is an County-initiated request for a Comprehensive Plan Map amendment to change the Future Land Use designation from Phosphate Mining (PM) to Agricultural Residential Rural (A/RR) on 39± acres.

- The County is initiating this request is consistent with Comprehensive Plan Policy 2.114-A2 which states that if property in the PM district that was not under a conceptual mining plan and owned by a phosphate mining company "may be developed residentially but the County must initiate a Comprehensive Plan amendment soon after to recognize the new land use."

- Comprehensive Plan Policy 2.114-A3 which states that activities permitted and appropriate for the redevelopment of lands formerly utilized for phosphate mining operations and which demonstrate compliance with the Comprehensive Plan criteria may request a Comprehensive Plan amendment for Agricultural Residential Rural (A/RR)

- The subject property is in a Phosphate Mining (PM) Future Land Use Map district. The Comprehensive Plan permits only Phosphate mining and allied industries, land reclamation, agriculture, and Farmworker housing.

- Per Table 2.2 of the Land Development Code (LDC), the minimum residential lot size in an A/RR district is five (5) acres. Single-family residences are a permitted use in A/RR.

- The subject site includes eight (8) parcels at least five (5) acres or larger within the Fort Groves Plat

- The Fort Groves Plat includes 13 total lots with the northern portion in the A/RR.

Compatibility

The existing uses surrounding the site are:

- North – A/RR, Residential Use and Vacant Land
- East – PM, Former (reclaimed) phosphate mining
- South – PM, Former (reclaimed) phosphate mining
- West – PM, Former (reclaimed) phosphate mining

- The subject site was formerly phosphate mined land and has subsequently been reclaimed.

Infrastructure

- The property fronts Old Bowling Green Road and no other public roadway facility. There are no sidewalks

- The site has no access to centralized potable water or wastewater services.

- The subject property is zoned for Lewis Anna Woodbury Elementary School, Fort Meade Middle/Senior, and Fort Meade Senior High School.

- The Sheriff's Regional Command that serves the area is the Polk County Sheriff's Southeast Command Center at 4011 Sgt. Mary Campbell Way in Lake Wales approximately 32 miles to the northeast.

- Fire rescue response from Polk County Fire Rescue Station #10 at 1235 9th St NE, Fort Meade. It is approximately 6.4 miles driving distance.

- The nearest neighborhood park is the Fort Meade Park. The Bone Valley ATV Park is about twelve (12) miles away.

Environmental

- There are no surface waters on site

- The subject site does show wetlands related to the prior reclamation of the site from phosphate mining.

- The subject is comprised of Arents, with variable conditions and variable conditions and onsite investigation is recommended for use stability.

- There are no endangered species sighting near the property. (Source: Florida Natural Areas Inventory 2002, 2006, 2011, & 2015).

- There are no known archeological or historical resources on the subject site per data from the Florida State Historical Commission.

- The site is not located in a wellfield.

- The site is not within a Airport Impact District.

- The site is located within the Potential Network Connections area of the Polk Green District Comprehensive Plan Map Series.

Comprehensive Plan Policies

- POLICY 2.102-A1 Development Location states that Polk County shall promote contiguous and compact growth patterns through the development process to minimize energy costs, conserve land, water, and natural resources, minimize the cost of services,

and prevent development patterns where tracts of land are by-passed in favor of development more distant from services and existing communities.

- POLICY 2.102-A2 Compatibility states that land shall be developed so that adjacent uses are compatible with each other, pursuant to the requirements of other Policies in this Future Land Use Element, so that one or more of the following provisions are accomplished: a. there have been provisions made which buffer incompatible uses from dissimilar uses; b. incompatible uses are made to be more compatible to each other through limiting the intensity and scale of the more intense use; c. uses are transitioned through a gradual scaling of different land use activities through the use of innovative development techniques such as a Planned Unit Development.

- POLICY 2.102-A3 Distribution states that development shall be distributed throughout the County consistently with this Future Land Use Element so that the public utility, other community services, and public transit and transportation systems can be efficiently utilized; and compact, high-density and intensity development is located where urban services can be made available.

- POLICY 2.102-A4 Timing states that development of land shall be timed and staged in conjunction with the cost-effective and efficient provision of supporting community services which, at a minimum, shall require compliance with the Plan's Level of Service requirements and the County's concurrency management system.

- POLICY 2.102-A10 Location Criteria states the following factors shall be taken into consideration when determining the appropriateness of establishing or expanding any land use or development area:
  a. nearness to incompatible land uses and future land uses, unless adequate buffering is provided;
  b. nearness to agriculture-production areas;
  c. distance from populated areas;
  d. economic issues, such as minimum population support and market-area radius (where applicable);
  e. adequacy of support facilities or adequacy of proposed facilities to be provided by the time of development, including, but are not limited to:
     1. transportation facilities, including but not limited to, mass transit, sidewalks, trails and bikeways;
     2. sanitary sewer and potable water service;
     3. storm-water management;
     4. solid waste collection and disposal;
     5. fire protection with adequate response times, properly trained personnel, and proper fire-fighting equipment;
     6. emergency medical service (EMS) provisions; and
     7. other public safety features such as law enforcement;
     8. schools and other educational facilities
     9. parks, open spaces, civic areas and other community facilities
  f. environmental factors, including, but not limited to:
     1. environmental sensitivity of the property and adjacent property;
     2. surface water features, including drainage patterns, basin characteristics, and flood hazards;

3. wetlands and primary aquifer recharge areas;
4. soil characteristics;
5. location of potable water supplies, private wells, public well fields; and
6. climatic conditions, including prevailing winds, when applicable.

- According to POLICY 2.108-A1 of the Comprehensive Plan, the subject property is in a Rural Development Area (RDA). The RDA "is characterized by large open areas, agricultural use, with scattered development and rural centers. Services are limited and mostly found in the rural centers and clustered developments."

- Policy 2.114-A3: Permitted Activities allows for redevelopment of lands formerly utilized for phosphate mining operation to change to the Agricultural/Residential Rural (A/RR) district.

- POLICY 2.114-A4: FUTURE DEVELOPMENT OF PM LAND - Polk County shall promote the redevelopment of PM lands by encouraging master planned developments incorporating land uses permitted within Rural Development Areas. Applications for land use amendments will be reviewed by the "Phosphate Mining Review Group." The applicant will be required to submit appropriate data and analysis as required by the amendment process, a copy of the reclamation plan including the subject site(s), and narrative establishing how the proposed land use(s) follows or conforms to the reclamation plan. The proposal shall demonstrate consistency with the goals, objectives, and policies of the Plan, including, county-wide land use needs, compatibility with adjacent uses, and protection of existing natural resources.

  The "Phosphate Mining Review Group" will be composed of a representative from each of the following agencies:

  Department of Environmental Protection, Bureau of Mine Reclamation

  Central Florida Regional Planning Council

  Phosphate Mining Industry

  Florida Institute of Phosphate Mining Research

  Florida Fish and Wildlife Conservation Commission

  Polk County Planning

  Polk County Natural Resources

  Polk County Cooperative Extension Services, Soils Conservation

Development Review Committee Recommendation: Based on the information provided by the applicant, recent site visits, and the analysis conducted within this staff report, the Development Review Committee finds that with the proposed conditions, the proposed request **IS COMPATIBLE** with the surrounding land uses and general character of the area, **IS CONSISTENT** with the Polk County Comprehensive Plan and Land Development Code, and therefore, the Development Review Committee (DRC) recommends **APPROVAL of LDCPAS-2026-4.**

Planning Commission Recommendation: On May 6, 2026, in an advertised public hearing, the Planning Commission voted 7:0 to **recommend APPROVAL of LDCPAS 2026-4.**

NOTE: *This staff report was prepared without the benefit of testimony and evidence submitted by the public and other interested parties at a public hearing.*

NOTE: *All written comments made in the application and subsequent submissions of information made during the application review process, which are on file with the Land Development Division, shall be considered to be binding upon the applicant, provided such comments are not at variance with the Comprehensive Plan, LDC or other development regulations in effect at the time of development.*

NOTE: *Issuance of a development permit by the county does not in any way create any rights on the part of the applicant to obtain a permit from a state or federal agency and does not create any liability on the part of the county for issuance of the permit if the applicant fails to obtain requisite approvals or fulfill the obligations imposed by a state or federal agency or undertakes actions that result in a violation of state or federal law.*

Analysis

This section of the staff report includes data on the surrounding uses, infrastructure conditions, environmental conditions, and related Comprehensive Plan policies and Land Development Code regulations.

Surrounding Uses

Table 1 identifies the Future Land Use (FLU) designations and the existing uses surrounding the subject site that are immediately adjacent. This property was previously owned and mined by Cities Service Company in the 1970s. In the 1990s the Fort family acquired the property. The site has been acquired by the applicant and encumbrances cleared. The surrounding mine is currently under reclamation, the Fort Meade mine by Mosaic (see exhibit 6).

Table 1

Northwest: PM ±181-acre parcel Former (reclaimed) phosphate mined land	**North:** Agriculture/Residential Rural (A/RR) Single-family residences In Fort Groves Plat	**Northeast:** Agriculture/Residential Rural (A/RR) Single-family residences
West: PM ±181-acre parcel Former (reclaimed) phosphate mined land	**Subject Property:** PM ±39-acre parcel in Fort Groves Plat Former (reclaimed) phosphate mined land	**East:** PM ±47-acre parcel Former (reclaimed) phosphate mined land
Southwest: PM ±634-acre parcel Former (reclaimed) phosphate mined land	**South:** PM ±634-acre parcel Former (reclaimed) phosphate mined land	**Southeast:** PM ±575-acre parcel Former (reclaimed) phosphate mined land

Source: Polk County Geographical Information System and site visit by County staff

Compatibility with the Surrounding Uses, Environment, and Infrastructure

According to *Policy 2.102-A2* of Polk County's Comprehensive Plan, "land shall be developed so that adjacent uses are compatible with each other, pursuant to the requirements of other policies in this Future Land Use Element, so that one or more of the following provisions are accomplished: a. there have been provisions made which buffer incompatible uses from dissimilar uses; b.

incompatible uses are made to be more compatible to each other through limiting the intensity and scale of the more intense use; and c. uses are transitioned through a gradual scaling of different land use activities through the use of innovative development techniques such as a Planned Unit Development." The adopted definition for compatibility states it is "a condition in which land uses or conditions can coexist in relative proximity to each other in a stable fashion over time such that no use or condition is unduly negatively impacted directly or indirectly by another use or condition."

The subject property was previously mined by Cities Service Company and subsequently reclaimed. The site has no surface water areas but has wetlands as the result of the reclamation process. To the north of the site are several single-family residences on parcels that range in size from one (1) to over ten (10) acres. This area is southwest of the city of Fort Meade and has been developed in a rural manner with lots that are typically an acre or larger.

A. Land Uses:

Section 2.114-A3 of the Comprehensive Plan lists A/RR as one of the land uses for the conversion of PM lands. The surrounding uses are previously mined lands as part of the Fort Meade mine and are compatible with five-acre residential lots. The A/RR maximum density of one dwelling unit per five acres is typical of the surrounding area.

B. Infrastructure:

The infrastructure is rural in nature. The Agricultural/Residential Rural (A/RR) allows for a density of one dwelling unit per five acres or eight (8) potential five-acre residential lots. There is available capacity on US 98 E and public safety services are available nearby.

C. Environmental:

The soil onsite is Arents-Water Complex which could pose septic tank limitations. There are no floodplains apparent on the site. Our GIS viewer does show wetlands on the property. The site is not located within an Airport Impact District or overlay for flight path and height restrictions.

Nearest Elementary, Middle, and High School

The schools zoned for the subject property are the zoned schools listed in Table 2 below. Changes in school zones or annual fluctuations in population cohorts may reveal more capacity at the time these 8 households send students there. On average, 8 single -family dwelling units will only send one child to middle school in a given year.

Table 2

Name of School	Annual Estimated Demand	% Capacity 2025-2026 School Year	Distance From Subject Site
Lewis Anna Woodbury Elementary (Zoned)	1 student	87%	±5.3 mile driving distance
Fort Meade Middle (Zoned)	1 student	70%	±7.0 miles driving distance
Fort Meade High School (Zoned)	1 student	57%	±7.0 miles driving distance

Source: Polk County School Board, Duncan Associates Educational Facility Impact Fee Study, GIS

Nearest Sheriff, Fire, and EMS Station

Fire and EMS response to this project is from Polk County Fire Rescue Station 10, located at 1235 9th St NE, Fort Meade. The travel distance is under 6.4 miles with an average response time of 7-9 minutes. Fire Station 10 is staffed 27/7 with career firefighters and augmented by response from other similarly staffed county fire stations and through interlocal mutual aid agreements with the surrounding municipalities. There are no fire hydrants within the immediate area, which will need to be addressed in the future.

Sheriff's response to the site is served by the Southeast District, located at 4011 Sgt. Mary Campbell Way in Lake Wales. The response times for the Southeast District were: P1 – 10:04 minutes; P2 – 30:54 minutes. Sheriff response times are not as much a function of the distance to the nearest sheriff's substation, but more a function of the overall number of patrol officers within the district. The facilities are within appropriate distances to the subject site for a rural area.

Table 3

	Name of Station	Distance	Response Time*
Sheriff	Southeast District (4011 Sgt. Mary Campbell Way in Lake Wales)	±32 miles	P1: 10:04 minutes P2: 30:54 minutes
Fire/EMS	Polk County Fire Rescue Station #10 (1235 9th St NE, Fort Meade)	±6.4 miles	7-9 minutes

Source: Polk County Sheriff's Office and Public Safety for January 2026; Polk County Fire Rescue Response Times for April 2026
**Response times are based on when the station receives the call and not from when the call is made to 911.*

Water and Wastewater Demand and Capacity

The subject site is in the RDA and is not within any utility service area. Water and sewer lines are not near the subject site. Potable water will be provided by a well, and an onsite septic treatment system will be utilized to handle wastewater for each individual lot.

A. Estimated Demand and Service Provider:

Table 4, following this paragraph, shows the potable water needs and the wastewater generation rates being less for the proposed request. However, it is not automatic and not even common that the alternative use for PM is industrial. In fact, most of the land use changes from PM are to A/RR, which is the context of the request. The changes to IND have been along railroad lines. The subject site is not along a railroad and is adjacent to the city limits of Fort Meade. Therefore, it is more realistic that the proposed use will require more water and generate more wastewater than the historical agricultural use of the subject site. However, IND uses tend to be more impactive in terms of noise, vibrations, and odors. So, the analysis below is based on PM having industrial uses.

Table 4

Subject Property	Estimated Impact Analysis	
±39 acres *PM*	**Maximum Permitted in Existing Land Use** (*PM*)	**Maximum Permitted in Proposed** (*A/RR)*
Permitted Intensity 39± acres	1,698,840 sq ft X 0.75 FAR = 1,274,130	8 platted lots
Potable Water Consumption (GPD)	1,274,130 X 0.24 = 305,791 GPD	8 x 250 = 2,000 GPD

Wastewater Generation (GPD)	305,791 GPD X 80% = 244,633 GPD	8 x 200 = 1,600 GPD

Source: Concurrency Manual: PM@ IND rates @ 0.24 per sq ft and 80% for wastewater, single family @ 250 GPD Potable water and 200 Wastewater.

The subject area of the change includes the majority of the eighth lot. So, for purposes of the impact analysis, 8 lots were used even though 39 acres yields 7.8 lots for (5) acres in size.

B. Service Provider

The subject site is not within any utility service area. Therefore, all development on the subject site will require wells and septic tanks.

C. Available Capacity

The subject site is not within any utility serve areas. Therefore, all development on the subject site will require wells and septic tanks. The capacity of these systems will be based on the parameters of the permitting agency.

D. Planned Improvements

There are no utility improvements near the subject site.

Roadways/Transportation Network

A. Estimated Demand

Table 5, following this paragraph, shows the Average Annual Daily Trip (AADT) rate and the PM Peak hour trip rate being less for the proposed request. However, it is not automatic and not even common that the alternative use for PM is industrial. In fact, most of the land use changes from PM are to A/RR. IND uses tend to be more impactive in terms of noise, vibrations, and odors. So the traffic analysis below is based on PM having industrial uses. The subject area of the change includes the majority of the eighth lot. So, for purposes of the impact analysis, 8 lots were used even though 39 acres yields 7.8 lots for (5) acres in size.

Table 5

Subject Property	**Estimated Impact Analysis**	
±39 acres *PM*	**Maximum Permitted in Existing Land Use** (*PM*)	**Maximum Permitted in Proposed** (*A/RR)*
Average Annual Daily Trips (AADT)	1,274,130 / 1,000 = 1,274 sq ft 1,274 sq ft x 3.93 x 92% = **4,607 AADT**	39 / 5 = 8 units **8 x 7.81 = 63 AADT**
PM Peak Hour Trip	1,274 x 0.67 x 92% = 786 PM Peak Trips	**8 x 1 = 8 PM Peak Hour Trips**

Source: Concurrency Manual and Table for Minor Traffic Study –PM @ IND rates ITE Code 140 @ 3.93 AADT per 1,000 square feet and 0.67 PM Peak Hour Trip per 1,000 square feet and 92% new trips, single family @ one house per five acres – 7.81 AADT per unit and 1 PM Peak Hour per unit 100% new trips

B. Available Capacity:

Old Bowling Green Road is not tracked though TPO roadway database. The nearest link is US 17/Hardee County Line. It has a current Level of Service (LOS) through this part of the County is "C". The minimum LOS on the eastern portion of US 17/Hardee County Line is "D". The density of one (1) house per five acres will generate 8 homes and this is expected to generate a total of 62 AADT and 8 PM Peak Hour Trips. This will not have any significant impact on the roadway capacity.

Table 6

Link #	Road Name	Current Level of Service (LOS)	Available PM Peak Hour Capacity	Minimum LOS Standard	Projected Five Year LOS
5001N	US 17 From: Hardee County Line To: 9th Street SE	C	1,173	D	C
5001S	US 17 From: Hardee County Line To: 9th Street SE	C	1,198	D	C

Source: Polk County Transportation Planning Organization, Concurrency Roadway Network Database January, 2026

C. Roadway Conditions:

Old Bowling Green Road is a two-lane undivided Rural minor collector (RNC) road that appears in good condition. Old Bowling Green Road is maintained by the County. The condition of the roadways and the LOS change over time. The conditions are addressed when development access a road during the Level 2 Review. LOS is a tool that can limit the intensity of a development in the short run.

D. Sidewalk Network

Old Bowling Green Road does not have any sidewalks. The subject site is in the Rural Development Area (RDA) which does not require sidewalks within the right of way on a public road.

E. Planned Improvements:

There are currently no planned improvements along any of the traffic links.

F. Mass Transit

There are no nearby bus routes.

Park Facilities and Environmental Lands

The following analysis is based on public recreation facilities. The nearest neighborhood park is the Bradley Junction Park. The Bone Valley ATV Park is about twelve (12) miles away.

A. Location:

Fort Meade Park is located in the northeast part of Fort Meade. Its current hours of operations are from 5 a.m. to 10 p.m. The park's amenities include baseball Fields, basketball Court(s), picnic tables, playground, and softball facilities.

Bone Valley ATV Park is on the south side of County Road 630 and east of State Road 37. It is a 200-acre tract of land with 15 trails, hill climbs and free riding areas. Below are the hours and fees for the park, along with important safety and registration information. The address is 10427 County Road 630 W. in Mulberry.

C. Environmental Lands:

There are no County owned Environmental Lands in this part of the County.

D. Planned Improvements:

There are no further recreation improvements scheduled for this area of the County at this time.

Environmental Conditions

The site had citrus on it previously, and Polk County data viewer shows it has wetlands as a result of the previous mining operations. The soils are Arents and a typical of soils related to reclaimed mining operation and are of variable conditions and onsite investigation is recommended for use stability.

A. Surface Water:

The highest point is 119 feet above sea level, northwest of the property; the lowest is 102 feet above MSL near the southeast corner. The site has no surface waters but shows wetlands being a result of the reclamation process.

B. Wetlands/Floodplains:

Wetlands show on the County's data viewer covering a portion land. The site has no Flood Zones mapped.

C. Soils:

The subject site is comprised of a mix of soil types as listed in Table 8 following this paragraph. According to the soil survey of Polk County, the soil type is a soil that is related to reclaimed mining operation and are of variable conditions and onsite investigation is recommended for use stability.

Table 7

Soil Name	**Septic Tank Absorption Field Limitations**	**Limitations to Small Commercial Buildings**	**% of Site** *(approximate)*
Arents-Water Complex	Severe: wetness	Severe: wetness	100%

Source: Soil Survey of Polk County, Florida, USDA, Soil Conservation Service

D. Protected Species:

According to Polk County Endangered Habitat Maps, the subject site does not sit within a zone where any protected species have been documented or observed.

E: Polk Green Districts and Conservation Easements:

The site is located within the Potential Network Connections area of the Polk Green District Comprehensive Plan Map Series.

F Archeological and Historical Resources:

According to the Florida Department of State, Division of Historical Resources, there are no archeological or historical resources listed in the Florida Master Site File.

G. Wells (Public/Private)

The subject site is not located on a wellfield. Staff has no knowledge of any wells on site.

H. Airports:

The site is not within any Airport Height Notification or In-Flight Visual Interference Zones.

Economic Factors:

The subject site is only 39± acres, the requested Land Use designation change is to Agricultural/Residential Rural (A/RR) and would have short term economic impact if the site were developed into single-family residential.

Consistency with the Comprehensive Plan

Many policies within the Comprehensive Plan are reviewed for consistency with an application. The most relevant policies for the proposed request are included in this section. The policy is first stated and then an analysis of how the request is provided to state that it may or may not be consistent with the Comprehensive Plan. How the request is **consistent** with the Comprehensive Plan is listed below:

- Policy 2.102-A10 Location Criteria
- Section 2.114 Phosphate Mining
- Section 121-A Agricultural/Residential Rural

Table 8

Comprehensive Plan Policy	Consistency Analysis
Policy 2.102-A1: DEVELOPMENT LOCATION – Polk County shall promote contiguous and compact growth patterns through the development process to minimize energy costs, conserve land, water, and natural resources, minimize the cost of services, and prevent development patterns where tracts of	The requested Agricultural/Residential Rural (A/RR) Future Land Use is intended for low-density use and is consistent with services available in the Rural Development Area (RDA).

Comprehensive Plan Policy	Consistency Analysis
land are by-passed in favor of development more distant from services and existing communities.	
POLICY 2.102-A2: COMPATIBILITY - Land shall be developed so that adjacent uses are compatible with each other, pursuant to the requirements of other Policies in this Future Land Use Element, so that one or more of the following provisions are accomplished: a. there have been provisions made which buffer incompatible uses from dissimilar uses; b. incompatible uses are made to be more compatible to each other through limiting the intensity and scale of the more intense use; c. uses are transitioned through a gradual scaling of different land use activities through the use of innovative development techniques such as a Planned Unit Development.	The neighboring Future Land Use Map designations are predominantly PM & A/RR and previously mined for phosphate. To the north consists of single-family development on lots that range from 1 to 10+ acres. To the northeast is the City of Fort Meade.
POLICY 2.102-A4: TIMING - The development of land shall be timed and staged in conjunction with the cost-effective and efficient provision of supporting community services which, at a minimum, shall require compliance with the Plan's Level of Service requirements and the County's concurrency management system.	One home per five acres does not need many services at all other than the potential need for public safety services and access for visitors. Future homeowners' expectations for urban services should be low this far from the nearest municipality. A/RR is the main residential and agricultural designation in the RDA. Therefore, this request is consistent with these policies.
POLICY 2.114-A3: PERMITTED ACTIVITIES - The following activities shall be permitted within the Phosphate Mining land use category as mapped pursuant to Policy 2.114-A2: a. Phosphate mining and allied industries; b. Land reclamation; c. Agriculture and Farmworker housing under specific design parameters listed in the Land Development Code not to exceed an intensity of sixteen (16) workers per acre; d. Other land uses with conditional approval which are compatible and related with the extraction and processing of phosphate; and e. Subject to the adoption of a Comprehensive Plan amendment, any activities permitted within the following land use designations, which are appropriate for the redevelopment of lands formally utilized for phosphate mining operations and which demonstrate compliance with the Comprehensive Plan criteria for each use: 1. Preservation. 2. Recreation and Open Space. 3. Leisure/Recreation. 4. Institutional. 5. Rural Cluster Centers. 6. Tourism Commercial Centers. 7. Business Park Centers. 8. Industrial. 9. Rural Mixed-Use Developments. 10. New Communities. 11. Agricultural/Residential Rural only.	The site was previously mined for phosphate and was subsequently reclaimed. This Policy allows for the reclaimed land to be remapped for several different Future Land Use districts, A/RR is one of the uses and therefore meets the policy
POLICY 2.114-A4: FUTURE DEVELOPMENT OF PM LAND - Polk County shall promote the redevelopment of PM lands by encouraging master planned developments incorporating land uses permitted within Rural Development Areas. Applications for land use amendments will be reviewed by the "Phosphate Mining Review Group." The applicant will be required to submit appropriate data and analysis as required by the amendment process, a copy of the reclamation plan including the subject site(s), and narrative establishing how the proposed land use(s) follows or conforms to the reclamation plan. The proposal shall demonstrate consistency with the goals, objectives, and policies of the Plan, including, county-wide land use needs,	Staff is coordinating with the Phosphate Review Group to obtain any comments.

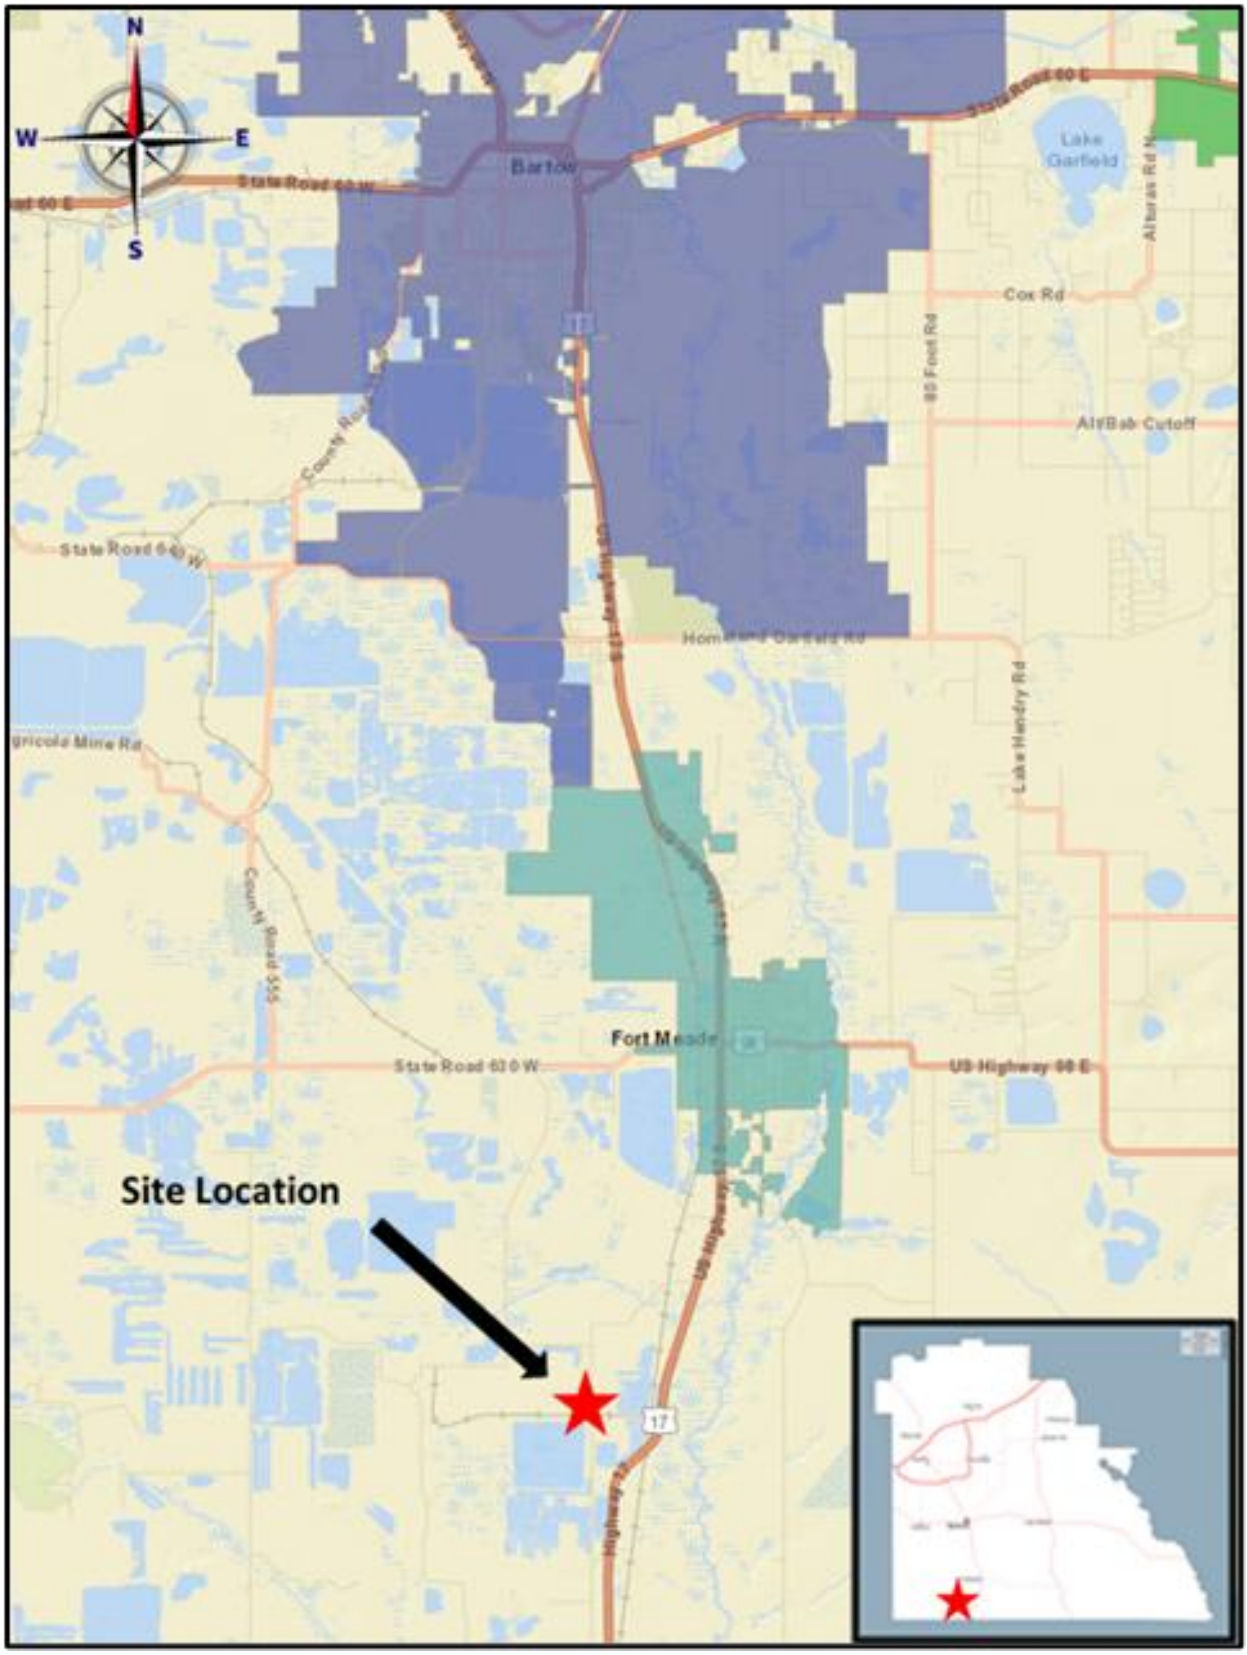
Comprehensive Plan Policy	Consistency Analysis
compatibility with adjacent uses, and protection of existing natural resources. The "Phosphate Mining Review Group" will be composed of a representative from each of the following agencies: Department of Environmental Protection, Bureau of Mine Reclamation Central Florida Regional Planning Council Phosphate Mining Industry Florida Institute of Phosphate Mining Research Florida Fish and Wildlife Conservation Commission Polk County Planning Polk County Natural Resources Polk County Cooperative Extension Services, Soils Conservation These applications for land use amendments shall be reviewed by the Group prior to application being accepted by the County.	

Urban Sprawl Analysis

After analyzing the primary indicators of Urban Sprawl per *Policy 2.109-A10* of the Polk County Comprehensive Plan, it is apparent that the proposed request is not considered urban sprawl based on these criteria and it is permitted in the designated area. Table 11 (below) depicts the Urban Sprawl Criteria used by staff as indicators of Urban Sprawl.

Table 11

Urban Sprawl Criteria: The following criteria are the primary indicators of urban sprawl per Florida Statutes	
Urban Sprawl Criteria	**Sections referenced in this report**
a. Promotes substantial amounts of low-density, low intensity, or single use development in excess of demonstrated need.	Summary of analysis
b. Allows a significant amount of urban development to occur in rural areas.	Summary of analysis
c. Designates an urban development in radial, strip isolated, or ribbon patterns emanating from existing urban developments.	Summary of analysis, surrounding Development, compatibility
d. Fails to adequately protect and conserve natural resources and other significant natural systems.	Summary of analysis, surrounding Development, compatibility
e. Fails to adequately protect adjacent agricultural areas.	Compatibility with Surrounding Land Uses
f. Fails to maximize existing public facilities and services.	Summary of Analysis, Infrastructure
g. Fails to minimize the need for future facilities and services.	Summary of Analysis, Infrastructure
h. Allows development patterns that will disproportionately increase the cost of providing public facilities and services.	Summary of Analysis, Infrastructure
i. Fails to provide a clear separation between urban and rural uses.	Summary of Analysis, Compatibility with Surrounding Land Uses
j. Discourages infill development or redevelopment of existing neighborhoods.	Summary of Analysis, Compatibility with Surrounding Land Uses



Urban Sprawl Criteria: The following criteria are the primary indicators of urban sprawl per Florida Statutes	
Urban Sprawl Criteria	**Sections referenced in this report**
k. Fails to encourage an attractive and functional mixture of land uses.	Summary of Analysis, Compatibility with Surrounding Land Uses
l. Will result in poor accessibility among linked or related land uses.	Summary of Analysis, Compatibility with Surrounding Land Uses
m. Results in the loss of a significant amount of open space.	Summary of Analysis, Compatibility with Surrounding Land Uses

Comments from other Agencies:

The mineral rights owners were notified and staff received no response.

PERMITTED AND CONDITIONAL USES IN A/RR

ORDINANCE NO. 26 -____

AN ORDINANCE OF THE POLK COUNTY BOARD OF COUNTY COMMISSIONERS REGARDING THE ADOPTION OF AMENDMENT **LDCPAS-2026-4;** AN AMENDMENT TO THE POLK COUNTY COMPREHENSIVE PLAN; ORDINANCE 92-36, AS AMENDED TO CHANGE THE FUTURE LAND USE DESIGNATION ON 39± ACRES FROM PHOSPHATE MINING (PM) TO AGRICULTURAL/RESIDENTIAL RURAL (A/RR). THE SUBJECT SITE IS LOCATED SOUTH OF HUTCHINS ROAD, WEST OF OLD BOWLING GREEN ROAD, SOUTHWEST OF THE CITY OF FORT MEADE IN SECTION 17, TOWNSHIP 32, RANGE 25; PROVIDING FOR SEVERABILITY; AND PROVIDING FOR AN EFFECTIVE DATE.

WHEREAS, pursuant to Article VIII, Section I(g) of the Constitution of the State of Florida and the Community Planning Act, Chapter 163, Part II, Florida Statutes (FS), as amended, (the Act) Polk County is authorized and required to adopt a Comprehensive Plan (Plan); and

WHEREAS, Section 163.3187, FS, and Comprehensive Plan Section 4.305.B, provides for the approval of Small-Scale Comprehensive Plan Amendments; and

WHEREAS, pursuant to Section 163.3174, FS, the Local Planning Authority (Planning Commission) conducted a public hearing, with due public notice having been provided, on the proposed Plan revisions on May 6, 2026; and

WHEREAS, pursuant to Section 163.3187(2), FS, the Board of County Commissioners conducted an adoption public hearing, with due public notice having been provided, on the proposed Plan revisions on June 16, 2026; and

WHEREAS, the Board of County Commissioners, reviewed and considered all comments received during said public hearing, and provided for necessary revisions; and

NOW THEREFORE, BE IT ORDAINED by the Polk County Board of County Commissioners:

SECTION 1: COMPREHENSIVE PLAN AMENDMENT

The Future Land Use Map of Ordinance No. 92-36, as amended, (the "Polk County Comprehensive Plan") is hereby amended to reflect a change in the Future Land Use designation on a 39+/- acre site from Phosphate Mining (PM) to Agriculture/Residential Rural (A/RR) on the parcel listed below and graphically depicted on the parcel map in Attachment "A".

Described as: A PORTION OF LAND(S) LYING IN SECTION 17, TOWNSHIP 32 SOUTH, RANGE 25 EAST, POLK COUNTY, FLORIDA, BEING MORE PARTICULARLY DESCRIBED AS: THE SOUTHEAST ¼ OF THE SOUTHEAST ¼ OF SECTION 17, TOWNSHIP 32 SOUTH , RANGE 25 EAST.

Including all of or a portions of the following parcels:

253217-486950-000070,
253217-486950-000060,
253217-486950-000050,
253217-486950-000040,
253217-486950-000030,
253217-486950-000020,
253217-486950-000010,

and a portion of parcel (253217-486950-000080):

SECTION 2: SEVERABILITY

If any provision of this Ordinance is held to be illegal, invalid, or unconstitutional by a court of competent jurisdiction the other provisions shall remain in full force and effect.

SECTION 3: EFFECTIVE DATE

This ordinance shall be effective on July 17, 2026 (31 days after adoption), unless the amendment is challenged. If challenged, the effective date of this ordinance shall be the date a Final Order is issued by the Department of Commerce or Administration Commission finding the amendment in compliance in accordance with Section 163.3184 (1)(b), Florida Statutes. No development orders, development permits, or land uses

dependent upon this amendment, as described on the attached map of proposed land uses, may be issued or commence before it has become effective.

SECTION 4: FILING WITH THE DEPARTMENT OF STATE:

The Clerk and Auditor to the Board of County Commissioners of Polk County, Florida, shall file a certified copy of this ordinance with the Department of State, through the Secretary of State, upon adoption by the Board of County Commissioners of Polk County, Florida.

ADOPTED, in open session of the Polk County Board of County Commissioners with a quorum present and voting this 16th day of June 2026.

PARCEL DETAIL
Note: Not to Scale

Impact Assessment Statement (Fort Groves – PM to A/RR)

Land and Neighborhood Characteristics

The subject property is located in the Fort Groves Plat. The proposed change from Phosphate Mining (PM) to Agricultural/Rural Residential (A/RR) is consistent with the character in the area. The site is suitable for A/RR designation due to its proximity to existing rural residential properties and agricultural lands, as well as reclamation of the Fort Meade mining operations.

Access to Roads and Highways

The subject property is currently served by a County roadway that have historically supported mining-related traffic. A change to A/RR would significantly reduce daily and peak-hour trip generation compared to phosphate mining operations. No roadway modifications are anticipated beyond standard access improvements.

Sewage

The proposed A/RR land use will generate minimal sewage compared to PM uses. Service will be provided through on-site septic systems.

Water Supply

Water demand will be minimal under the A/RR designation. The property will be served by private wells. The proposed change will reduce overall water consumption compared to mining operations.

Surface Water Management and Drainage

The site has been previously impacted by phosphate mining activities. Future development under A/RR will require compliance with stormwater management regulations. Any wetlands will be evaluated.

Environmental Analysis

The subject property reflects characteristics typical of former phosphate mining operations, including altered soils and reclaimed lands. Surrounding properties consist primarily of agricultural and rural residential uses.

The transition to A/RR is expected to support reclamation efforts. Soil on the site varies due to prior mining activity and reclamation.

Narrative

This is a County-initiated Future Land Use (FLU) Map change affecting a portion of a previously approved Fort Groves Plat. The amendment proposes to change the Future Land Use designation from Phosphate Mining (PM) to Agriculture/Residential Rural (A/RR) for approximately half of the plat area.

The Fort Groves Plat has received prior approval; however, a portion of the property remains designated for Phosphate Mining on the Future Land Use Map. The proposed amendment is intended to realign the Future Land Use designation with the long-term planning objectives for the area and the anticipated rural character of development. The Agriculture/Residential Rural designation supports low density residential development and agricultural uses, which are compatible with surrounding rural land uses and consistent with the County's Comprehensive Plan policies for rural areas.

The amendment does not propose to increase density or intensity beyond what is permitted under the A/RR classification. Rather, it represents a reduction in intensity from a mining designation to a rural land use category. The change will facilitate appropriate rural development while supporting the protection of agricultural lands, maintaining open space, and preserving the rural character of the area.

Public facilities and services are expected to be provided consistent with rural standards. The proposed amendment does not introduce urban development patterns, nor does it extend urban infrastructure into rural areas. Instead, it reinforces the separation between urban and rural uses as established in the Comprehensive Plan.

Overall, the proposed Future Land Use amendment is intended to ensure internal consistency within the Comprehensive Plan, align the Future Land Use Map with the approved plat pattern and support rural development within the Fort Groves area.

Demonstration of Need

1. Could the proposed amendment promote substantial amounts of low-density, low intensity, or single-use development in excess of demonstrated need?

No, the amendment converts a Phosphate Mining designation to Agriculture/Residential Rural, which is consistent with rural land use patterns. The change does not introduce additional density beyond what is permitted under A/RR. It aligns the Future Land Use designation with the intended long term rural character of the area.

2. Will passage of the proposed amendment allow a significant amount of urban development to occur in rural areas?

No, the A/RR designation permits rural residential and agricultural uses at low densities. It does not allow urban development and therefore does not introduce significant urban development into rural areas.

3. Does the proposed amendment create or encourage urban development in radial, strip, isolated, or ribbon patterns emanating from existing urban development?

No, the amendment does not expand or extend urban land use designations. It maintains rural development.

4. Does the proposed development fail to adequately protect adjacent agricultural areas?

No, the A/RR designation supports agricultural activities and rural residential uses, which are compatible with adjacent agricultural lands.

5. Could the proposed amendment fail to maximize existing public facilities and services?

No, the A/RR designation anticipates lower service demands than more intensive land use categories. The amendment does not create additional strain on existing public facilities and is consistent with rural service levels.

6. Could the proposed amendment fail to minimize the need for future public facilities and services?

No, rural residential development generates less demand for public infrastructure than urban classifications.

7. Will the proposed amendment allow development patterns that will disproportionately increase the cost of providing public facilities and services?

No, development under A/RR is expected to occur at low density, consistent with rural service standards. The amendment does not introduce urban infrastructure expectations that would disproportionately increase service costs.

8. Does the proposed amendment fail to provide clear separation between urban and rural uses?

No, the A/RR designation reinforces the rural character of the area and maintains separation from urban land use categories.

9. Will the proposed amendment discourage infill development or redevelopment of existing neighborhoods?

The site will maintain a rural land use designation. It is in an area not intended for infill.

10. Does the proposed amendment fail to encourage an attractive and functional mixture of land uses?

No, the A/RR designation supports a compatible mix of rural residential and agricultural uses appropriate to the area's character.

11. Could the proposed amendment result in poor accessibility among linked or related land uses?

No, rural residential and agricultural uses are compatible. The amendment does not disrupt existing or planned patterns.

12. As a result of approval of this amendment, how much open space will be lost?

The change from Phosphate Mining to Agriculture/Residential Rural maintains or increases the likelihood of open space preservation. Agricultural and rural residential uses typically retain significant open space compared to mining or more intensive land uses.

Agenda Item N.8. 6/16/2026

SUBJECT

Public Hearing (LDCT-2026-3 Recreational Use Easements) (Adoption Hearing) to amending Chapter 3, Conditional Uses, Section 303, Criteria for Conditional Uses for High Intensity Recreation to allow access via easement for firearms ranges; providing for severability. (No Fiscal Impact)

DESCRIPTION

This is an applicant-initiated request for an LDC text amendment to Chapter 3, Conditional Uses, Section 303, Criteria for Conditional Uses for High Intensity Recreation to allow access via easement for firearms ranges. State law requires one Planning Commission hearing, which was held on May 6, 2026, with a recommendation for approval by a 7:0 vote.

Section 163.3202, Florida Statutes (F.S.) requires the Board to adopt Land Development Code (LDC) regulations consistent with the implementation of the Polk County Comprehensive Plan. Amendments to the LDC require two public hearings before the Board to be adopted. This is the second of the two hearings.

POLK COUNTY
DEVELOPMENT REVIEW COMMITTEE
STAFF REPORT

DRC Date:	March 5, 2025	**Level of Review:**	4
PC Date:	May 6, 2026	**Type:**	LDC Text Amendment
BoCC Date:	June 6, 2026 June 16, 2026	**Case Numbers:**	LDCT-2026-3
		Case Name:	Firearms Range Access
Applicant:	Tom Wodrich AICP TDW Land Planning	**Case Planner:**	Erik Peterson, AICP

Request:	An LDC text amendment to Chapter 3, Conditional Uses, Section 303, Criteria for Conditional Uses for High Intensity Recreation to allow access via easement for firearms ranges; providing for severability; providing an effective date.
Location:	n/a
Property Owner:	n/a
Parcel Size (Number):	n/a
Development Area:	n/a
Nearest Municipality:	n/a
DRC Recommendation:	Approval
Planning Commission Vote:	Approval 7-0

The changes to Chapter 3, Section 303, High Intensity Recreation are:

- Provide firearms ranges with the option of accessing the range via easement if:
  - ✓ The easement has a minimum width of 20 feet;
  - ✓ The easement does not exceed 0.50 miles (2,640 feet) in length from the nearest paved road;
  - ✓ The construction of the easement provides sufficient ingress and egress for fire trucks, ambulances, and police vehicles;
  - ✓ The firearms range serves no more than 50 daily attendees; and,
  - ✓ The easement is supported by the joinder and maintenance agreement with, and consent of, all fee simple owners under easements to the use of the easement by the subject parcel(s). If joinders are provided for the easement, it shall be accompanied by an ownership and encumbrance report based on the legal description of the easement.

Summary:

High Intensity Recreation includes facilities that host events with greater than 250 people in attendance, discharge firearms, or have lighting for nighttime activities. Heavily attended events and facilities with nighttime lighting have a use volume that warrant the minimum 50 feet of paved public road frontage required in Section 303 of the Land Development Code (LDC). However, low-volume firearms ranges may be better placed in locations farther from paved roadways. This seclusion enables them to be placed in more remote sites with greater noise reduction capabilities.

Polk County maintains over 3,000 miles of public roadways. Most are paved, but not all of them. While the state and cities also maintain a significant amount of paved public roadways, the combined amount of paved public roads in the County does not provide enough frontage to all 2,010 square miles of the County. This amendment request will increase the potential uses of properties without public road frontage.

Data and Analysis Summary

Staff have reviewed the Florida Statutes, Florida Administrative Code, Polk County Comprehensive Plan, the LDC, and the Code of Ordinances and found no violations of policy or inconsistencies with the request. Staff have reviewed a number of adjacent and similar jurisdictions for regulations regarding high intensity recreational uses and firearms ranges. In the survey, most jurisdictions used the conditional use process to address access requirements rather than one policy applying to all recreational uses. Staff researched past regulatory history and performed a benefit cost analysis of the amendment request.

This amendment applies to High Intensity Recreation in the Green Swamp Area of Critical State Concern. Florida Commerce requires a 45-day review on all policy changes affecting development in the Green Swamp Area of Critical State Concern regardless of whether it has a direct relationship to the primary purpose of the Critical Area, which is aquifer recharge and protection.

Findings of Fact

1. *The request is a Land Development Code text amendment to Section 303, Criteria for Conditional Uses for High Intensity Recreation to allow access via easement for firearms ranges.*

2. *This amendment applies to multiple residential and non-residential Future Land Use Map designations including those in the Green Swamp Area of Critical State Concern.*

3. *POLICY 2.125-E1: COMMUNITY FACILITIES' PERMITTED USES of the Comprehensive Plan states "Community Facilities shall be allowed in all land use classifications, unless specifically prohibited elsewhere in this Comprehensive Plan, as a conditional use subject to the location and development controls established in Policy 2.125-E2 and as further regulated by the Land Development Code." Among the types of community facilities listed in the policy are Type E facilities which are "all types of recreation activities and associated infrastructure."*

4. *POLICY 2.125-E2: COMMUNITY FACILITIES' DEVELOPMENT CONTROLS of the Comprehensive Plan states that "Type E facilities may be permitted in all Future Land Use designations in accordance with the policies of this plan and the Land Development Code in accordance with Section 163.3201(1), F.S."*

5. *POLICY 2.117-A1: CHARACTERISTICS states that "Recreation and Open Space (ROS) areas are primarily sites and facilities which are accessible to the general public, and which are oriented toward providing recreation services for the resident and the short and long-term visitor to Polk County. A recreational activity included within recreation and open space areas may be motorized, **allow for the discharge of firearms**, accommodate nighttime use, and produce large crowds at events. Retail sales are limited to concessions at events or to enhance the quality of the recreation experience onsite unless combined with commercially designated lands.*

6. *POLICY 2.128-C2 of the Comprehensive Plan states that "All tracts of land to be developed for non-residential or residential purposes shall have legal access to a paved public road. Non-residential development shall have direct frontage on a paved public road except as otherwise provided herein. Non-residential and multi-family residential developments may gain access to a paved public road through a county approved, private internal service road. Residential development may gain access to a paved public road via a public or private road meeting County standards or via a legally established easement as prescribed in the Land Development Code."*

7. *POLICY 2.128-C3 of the Comprehensive Plan states that "All tracts of land to be developed for non-residential and residential purposes shall have sufficient ingress and egress for fire trucks, ambulances, police cars and other emergency vehicles."*

8. *LDC Section 303 states "All High Intensity Recreation Facilities shall comply with all applicable standards and all of the following conditions:*

   In addition to the applicable district regulations in Table 2.2, the following standards shall apply:

   1. *All outdoor lighting shall be directional and shall not directly radiate onto adjacent properties.*
   2. *All structures and associated activities located in or adjacent to residential districts shall be limited to operation from 7:00 a.m. to 10:00 p.m.*
   3. *All access points shall have at a minimum 50 feet of road frontage on a paved public road.*
   4. *Buildings or structures used for or in connection with any such use shall be located at a minimum of fifty feet from adjoining property which is in a residential district.*

5. *Off street parking or loading spaces shall be located at a minimum of fifty feet from adjoining property which is in a residential district.*
6. *Any proposal for a recreational facility in a location that will render a legal use nonconforming shall require a Level 3 Review.*
7. *Food and retail sales shall be limited to concessions during events. Continual food or retail sales or services provided at High Intensity Recreation Facilities shall require a Level 4 Review. During the Review the Board shall determine that the activity meets the following criteria:a.The activity is clearly subordinate and incidental to the primary recreational use; and,b.The activity is directly related to the performance of the recreational activity.*
8. *Alcohol sales shall be limited to One, Two or Three Day Permits (ODP or SODP), no more than three (3) times per year per location (at the time of adoption, this license was referenced to Section 561.422 F.S).*
9. *RV Camping shall be limited to 10% of the facility and restricted to stays of 30 days or less.*
10. *The required number of parking spaces shall be determined by DRC during Level 2 Review using the following information provided by the applicant:*
    a. *Average daily attendance,*
    b. *Maximum peak event attendance; and,*
    c. *Off-site parking alternatives.*

9. *Chapter 10 of the LDC defines a High Intensity Recreational Facility as "All types of sports venues such as ball fields, courts, and tournament grounds with attendance that may exceed 250 for any event, allow for the discharge of firearms, or with lighting for night-time use by the public. Limited concessions may be permitted, but no permanent alcohol sales. This does not include an Event Facility or Outdoor Concert Venue use."*

Development Review Committee Recommendation:

The Land Development Division, based on the information provided with the proposed text amendment application, finds that the proposed text change request is **CONSISTENT** with the Polk County Land Development Code and the Polk County Comprehensive Plan. Staff recommend **APPROVAL** of LDCT-2025-10.

Planning Commission Recommendation:

*At an advertised public hearing on May 6, 2026, the Planning Commission reviewed the ordinance and **voted 7-0** to recommend **APPROVAL** to the Board of County Commissioners.*

Analysis

Introduction

High Intensity Recreational uses require paved or public road frontage for two primary reasons, public safety and periodic heavy traffic volumes. This is because it is for recreational facilities that serve crowds above 250 people or have lighting for nighttime competitions. While the discharge of firearms has the perception of needing direct public safety access, in practice the demand is low. The analysis to follow demonstrates that relaxing the access requirements for small firearms ranges enhances public welfare while minimizing potential public risk.

Recommended Changes

The current Criteria for Conditional Uses in Section 303 under High Intensity Recreation requires all access points to "have a minimum 50 feet of frontage on a paved public road." This amendment exempts firearms ranges from this requirement if:

- ✓ The easement has a minimum width of 20 feet;

- ✓ The **easement does not exceed 0.50 miles** (2,640 feet) in length from the nearest paved road;
- ✓ The construction of the **easement provides sufficient ingress and egress for fire trucks, ambulances, and police vehicles**;
- ✓ The firearms range serves **no more than 50 daily attendees**; and,
- ✓ The easement is supported by the joinder and maintenance agreement with, and consent of, all fee simple owners under easements to the use of the easement by the subject parcel(s). If joinders are provided for the easement, it shall be accompanied by an ownership and encumbrance report based on the legal description of the easement.

The standards that maintain the most assurance that minimize potential risks to the public are the length of the easement, the limits to those served by it, and the assurance that the access is sufficient for public safety services.

Benefit-cost Analysis of the Amendment

Staff find that the benefits of approving this amendment far outweigh the potential harm to the public or businesses. While some potential risk is increased, more risks and adverse impacts are decreased. Under no circumstances will this amendment directly increase the cost of development.

Who does it help?

Firearms ranges can have loud and sporadic noises that disturb the comfort of surrounding inhabitants and enjoyment of public spaces. The best locations are those far away from land that is commonly used by people. Requiring public road frontage forces these uses to locate closer to places of public interaction. This amendment provides the ability to find more remote locations for small firearms ranges to avoid disturbing residences or businesses. There is also risk avoidance in range design when they can be located farther from public roadways. The farther the firearms range is located from a public road, the less likely that ricochet fire and gunshot noises can cause potential harm to passing motorists.

Who does it hurt?

The concern for allowing High Intensity Recreational uses to be accessed solely via an easement is primarily public safety. Firearms usage has higher potential for needing fast emergency response than typical recreational activities if an accident occurs. However, the risk of such an occurrence is low, especially in smaller groups. This amendment requires public safety staff approval of an unpaved access, and it limits the easement length. It also limits the number of daily attendees to further minimize potential risks.

What is the cost?

This amendment reduces the cost of providing a small firearms range. It lessens the barriers to clubs, entrepreneurs, and proprietors by increasing the amount of potential firearms range sites. Properties without direct roadway frontage are typically less expensive on a per acre basis than those with direct roadway frontage. Also, there are more lands in rural areas that are without paved road frontage that are better for locating firearms ranges than in urban areas.

Regulatory History

Firearms ranges are not specifically referenced under the land use regulations prior to the adoption of the LDC in 2000. Most firearms ranges were considered under the definition of a Club which was "*buildings or facilities owned or operated by a person, corporation, partnership, or other legal entity for social, educational, or recreational purpose - - but not primarily for profit or to render service which is customarily carried on as a business*." These were listed under conditional uses in the Rural Conservation districts (RC, RC-2, RC-5) in the zoning ordinance which required Zoning Advisory Board (ZAB) review and Board of County Commissioners approval. Through the conditional use review process, access requirements could be conditions of approval.

Limits of the Proposed Ordinance

This amendment applies to all Future Land Use Map designations in the unincorporated area of Polk County that allow High Intensity Recreation as a conditional use at all levels of review (C1 through C4). In Agricultural Residential Rural (A/RR), Phosphate Mining (PM), and all the residential districts, High Intensity Recreation is a Level 3 Review (Planning Commission approval). It is a Level 1 administrative review in Tourism Commercial Center (TCC), Leisure/Recreation, Institutional (INST-1 & INST-2), and Recreation/Open Space (ROS). It is the same for these districts in the Green Swamp Area of Critical State Concern. Therefore, this amendment will require state review.

Florida Commerce requires a 45-day review on all policy changes affecting development in the Green Swamp Area of Critical State Concern regardless of whether it has a direct relationship to the primary purpose of the Critical Area, which is aquifer recharge and protection. Therefore, this request will be reviewed by the Florida Commerce Community Planning Department Areas of Critical State Concern Program. Staff believe that this amendment will have no impact on the Critical Area since it allows High Intensity Recreation and access is not a factor in aquifer protection.

Comparisons to other Jurisdictions

Staff survey counties along the I-4 corridor for regulatory comparisons because they are most closely similar to Polk. Some of the abutting counties are also reviewed along with the two largest cities within the County (Lakeland and Winter Haven). Alachua and Duval counties are included in the survey because of similar demographic and urban-rural mixtures to Polk County. This method of selection creates a survey of 14 total local jurisdictions. Through this survey, staff found that direct road frontage for recreation facilities does not coincide. Direct public road frontage is not a necessity based on the type of use rather the volume of attendants and the construction of the access was typically the standard. In most jurisdictions, firearms ranges were conditional uses requiring approval of a public body. Most often the elected officials. In these situations, access requirements come through the nature of the request. Also, when it comes to firearms ranges, it was more important to locate them either in very rural districts or heavy commercial and industrial. The following table displays the results of the survey.

Table 1

Jurisdiction *(Code citation)*	**How are firearms ranges addressed?**	**What uses are permitted with access solely via easement.**	**Are there other requirements firearms ranges**
Alachua County *Sections 404.64, 407.76*	Outdoor recreation	Up to nine single-family residential lots in rural areas.	•5-acre minimum size •Commercial uses shall be limited to payment for rental of equipment and for use of facilities, and retail sales of goods related to the activity on site.
Brevard County *Sections 62-1831.4, 62-102*	Included under civic, philanthropic or fraternal organizations,	a lot or parcel, which was created prior to January 1, 2011	Gun clubs (trap and skeet): 30 acres per shooting area, having a 900-foot radius from the center of the shooting

Table 1

Jurisdiction *(Code citation)*	How are firearms ranges addressed?	What uses are permitted with access solely via easement.	Are there other requirements firearms ranges
	including art galleries. Permitted in Tourist Commercial and Institutional districts		area measured in the shape of a half circle.
Duval County *Section 656.331, 656.334, 656.407, 656.408*	Special Exception in Agriculture districts, Permitted in Recreation and Open Space districts (public)	Only in agriculture districts or as a secondary access in the same district.	Sale and service of alcoholic beverages for on-premises or off-premises consumption in conjunction with a permitted or permissible use by exception.
Hardee County *Sec. 2.04.01, 14.02.31, 5.12.02.11*	Commercial Outdoor Recreation Public Outdoor Recreation	35-feet minimum easement width and the Fire Marshal Inspector shall have the authority to require fire department access be provided to all new development,	No outdoor commercial recreation facility shall be located within 300 feet of any existing residences.
Highlands County *Section 12.05.200, 12.05.283, 12.05. 252*	Only in AU Agricultural, A-1 Airport, and I-2 Industrial districts with special exception	Non-residential	No
Hillsborough County *Section 6.03.01, 6.11.41*	Outdoor Firing Range Only in Agricultural and Manufacturing districts.	a minimum easement width of 50 feet for a roadway access or, for driveways, the minimum width of a two-way driveway is required.	20-acre minimum 15-foot berm 1,000 feet from residential zoning
Lake County *Appendix E*	Not addressed	Minor Lot Splits and Family Density Exception	No
Manatee County *Section 531.41*	Shooting Range Rural Recreation Special use permit in Agricultural districts only.	Anything platted.	Minimum 70 acres earthen berm or masonry fence (minimum six (6) feet high)
Orange County *Sections 38-77*	Not addressed	All development.	No
Osceola County *Chapter 3, Article 3.4.4*	Gun Range (Outdoor) Only in agriculture outside urban service boundary and Industrial IN and IG districts	All development.	No.
Seminole County *Sec. 30.9.8*	Gun Club	All development.	The Board of County Commissioners shall not place any restriction or condition on a gun club
Volusia County *Section 72-2*	Outdoor entertainment and recreational uses and structures	Commercial, industrial and multifamily	No.
City of Lakeland *Article 2, Sec. 2.6 Article 4, Sec. 4.11*	Outdoor Gun Ranges Conditional uses in Commercial C-2, C-4, C-5 and all Industrial Districts	All non-single family residential development.	No.
City of Winter Haven *Sec. 21-531, 21-191*	Outdoor Commercial Recreation Commercial C-3 and C-4, I-1	All land subdivisions must have 20 feet of public road frontage	No.

The data gathered in the survey supports the assertion that access for lower volume uses can be provided via easement rather than mandating an arbitrary condition of ownership over purpose. There were also a few jurisdictions that steered away from any regulations of firearms practices.

Consistency with the Comprehensive Plan

The request is consistent with the Comprehensive Plan's requirements for roadway access. POLICY 2.128-C2 of the Comprehensive Plan states that "*Non-residential development shall have direct frontage on a paved public road except as otherwise provided herein. Non-residential and multi-family residential developments may gain access to a paved public road through a county approved, private internal service road*." This request allows firearms ranges serving 50 or fewer daily attendees to utilize "*a county approved, private internal service road*" as primary access. POLICY 2.128-C3 of the Comprehensive Plan states that "*All tracts of land to be developed for non-residential and residential purposes shall have sufficient ingress and egress for fire trucks, ambulances, police cars and other emergency vehicles*." This amendment requires the construction of an access easement that provides sufficient ingress and egress for fire trucks, ambulances, and police vehicles. The request is also consistent with policies addressing the locations for recreational facilities in POLICIES 2.125-E1 and E2 along with POLICY 2.117-A1.

Consistency with the Florida Statutes

The Florida Statutes 790.15(4) states that it is a first-degree misdemeanor to discharge a firearm in areas where the residential density or zoning district allows one or more units per acre. This is why it is essential to locate firearms ranges in more remote areas away from population. In rural areas, there are often fewer properties with direct frontage on a paved road.

Comments from Other Agencies: Input into the review of this ordinance was provided by Polk Fire Marshal's Office.

Draft Ordinance: under separate attachment

ORDINANCE NO. 26-_____

AN ORDINANCE OF THE BOARD OF COUNTY COMMISSIONERS, POLK COUNTY, FLORIDA, LAND DEVELOPMENT CODE AMENDMENT LDCT-2026-3, AMENDING ORDINANCE NO. 00-09, AS AMENDED, THE POLK COUNTY LAND DEVELOPMENT CODE, AMENDING CHAPTER 3, CONDITIONAL USES, SECTION 303, CRITERIA FOR CONDITIONAL USES FOR HIGH INTENSITY RECREATION TO ALLOW ACCESS VIA EASEMENT FOR FIREARMS RANGES; PROVIDING FOR SEVERABILITY; PROVIDING AN EFFECTIVE DATE.

WHEREAS, pursuant to Article VIII, Section I(g) of the Constitution of the State of Florida and the Local Government Comprehensive Plan and Land Development Regulation Act, Chapter 163, Part II, Florida Statutes (FS), as amended, (the Act) Polk County is authorized and required to adopt Land Development Regulations consistent with the Polk County Comprehensive Plan; and

WHEREAS the Board of County Commissioners adopted said Land Development Regulations on March 1, 2000, titled the Polk County Land Development Code; and

WHEREAS, Chapter 9, Section 903 of the Land Development Code requires Land Development Code Amendments to be a Level 4 Review; and

WHEREAS, Chapter 9, Section 907 sets forth the purpose and review process for Level 4 Reviews; and

WHEREAS, pursuant to Section 125.67 of the Florida Statutes, every ordinance shall embrace but one subject and matter properly connected therewith; and

WHEREAS, pursuant to Section 163.3164 of the Florida Statutes, the Polk County Planning Commission conducted a public hearing, with due public notice having been provided, on the proposed Land Development Code Amendment on May 6, 2026; and

WHEREAS the proposed text amendment to the Polk County Land Development Code is intended to firearms ranges on properties with access only via easement in a limited manner; and

WHEREAS, the Board of County Commissioners reviewed and considered all comments received during said public hearing, and provided for necessary revisions; and

NOW, THEREFORE, BE IT ORDAINED by the Board of County Commissioners of Polk County, Florida that:

NOTE: The underlined text indicates proposed additions to the current language. The ~~strikeout~~ indicates text to be removed from the current ordinance.

SECTION 1: FINDINGS The findings set forth in the recitals to this Ordinance are true and correct and hereby adopted. In addition, the Board hereby adopts and incorporates herein the staff report and makes the following findings based upon the staff report, testimony, and exhibits presented during the hearing:

a) The Planning Commission, acting in its capacity as the Local Planning Agency for the County, held a public hearing on May 6, 2026, to consider the LDC text amendment contained within the Application and found it to be consistent with the Comprehensive Plan and recommended that the Board adopt the LDC text amendment contained within the Application.

b) Pursuant to Section 907.D.10 of the LDC, the Board shall, in the review of the Application, consider the following factors:

   a. Whether the proposed text amendment is consistent with all relevant requirements of the Code;
   b. Whether the proposed text amendment is consistent with all applicable policies of the Comprehensive Plan; and
   c. Any other matter which the BoCC may deem appropriate and relevant to the text amendment proposal.

c) The Application is consistent with all relevant requirements of the Comprehensive Plan.

d) The Application is consistent with all relevant requirements of the LDC, including without limitation, Section 907.

SECTION 2: Chapter 3, Conditional Uses, Section 303, Criteria for Conditional Uses, of the Polk County Land Development Code, Polk County Ordinance No. 00-09, as amended, is hereby amended to change the following sub-sections:

Section 303 - Criteria for Conditional Uses

The following land uses are conditional uses and are arranged in alphabetical order for presentation purposes.

…

Recreation, High Intensity *(Revised 10/2/12 - Ord. 12-030; 5/20/09 - Ord. 09-023; 11/27/02 - Ord. 02-83)*

All High Intensity Recreation Facilities shall comply with all applicable standards and all of the following conditions:

In addition to the applicable district regulations in Table 2.2, the following standards shall apply:

1. All outdoor lighting shall be directional and shall not directly radiate onto adjacent properties.
2. All structures and associated activities located in or adjacent to residential districts shall be limited to operation from 7:00 a.m. to 10:00 p.m.
3. All ~~access points~~ high intensity recreation facilities shall have at a minimum 50 feet of road frontage on a paved public road. For firearms ranges without frontage on a

paved road meeting County standards, access shall be allowed via an easement provided the following conditions are met:

a. The easement has a minimum width of 20 feet;
b. The easement does not exceed 0.50 miles (2,640 feet) in length from the nearest paved road;
c. The construction of the easement provides sufficient ingress and egress for fire trucks, ambulances, and police vehicles;
d. The firearms range serves no more than 50 daily attendees; and,
e. The easement is supported by the joinder and maintenance agreement with, and consent of, all fee simple owners under easements to the use of the easement by the subject parcel(s). If joinders are provided for the easement, it shall be accompanied by an ownership and encumbrance report based on the legal description of the easement.

4. Buildings or structures used for or in connection with any such use shall be located at a minimum of fifty feet from adjoining property which is in a residential district.
5. Off street parking or loading spaces shall be located at a minimum of fifty feet from adjoining property which is in a residential district.
6. Any proposal for a recreational facility in a location that will render a legal use nonconforming shall require a Level 3 Review.
7. Food and retail sales shall be limited to concessions during events. Continual food or retail sales or services provided at High Intensity Recreation Facilities shall require a Level 4 Review. During the Review the Board shall determine that the activity meets the following criteria:
   a. The activity is clearly subordinate and incidental to the primary recreational use; and,
   b. The activity is directly related to the performance of the recreational activity.
8. Alcohol sales shall be limited to One, Two or Three Day Permits (ODP or SODP), no more than three (3) times per year per location (at the time of adoption, this license was referenced to Section 561.422 F.S).
9. RV Camping shall be limited to 10% of the facility and restricted to stays of 30 days or less.
10. The required number of parking spaces shall be determined by DRC during Level 2 Review using the following information provided by the applicant:
    a. Average daily attendance,
    b. Maximum peak event attendance; and,
    c. Off-site parking alternatives.

SECTION 3: SEVERABILITY

If any provision of this Ordinance is held to be illegal, invalid, or unconstitutional by a court of competent jurisdiction the other provisions shall remain in full force and effect.

SECTION 4: EFFECTIVE DATE

This ordinance shall become effective upon filing with the Department of State.

ENACTED BY THE BOARD OF COUNTY COMMISSIONERS OF POLK COUNTY, FLORIDA this _____ day of _____, 2026.

LDCT-2026-3: Text Amendment Justification

This is a text amendment to the Land Development Code for Recreation, High Intensity, to allow certain recreational activities to have access via easements subject to meeting a list of criteria. This is for the types of uses that are, by their nature, dependent upon the rural/wild/remote/natural setting and are best functioning when there are few urban improvements and impediments. For example, hunting and wildlife interactions when vehicles can travel at higher speeds down a paved road. Even the paving of the road itself creates a permanent negative impact on the land, severing wildlife habitats and putting wildlife at greater risk.

In addition to the environmental impacts that are incongruent with these types of uses, the cost of paving deep into the woods is a substantial financial burden, and is cost prohibitive in most cases because of the low financial return from uses like ropes training courses, retreat areas, shooting clubs, primitive campgrounds, hunting areas and similar uses. The uses that are under consideration for this text amendment are limited by the revised text language to those groups or classes with lower daily volumes of people (and traffic) that also depend upon being as remote as possible. For some of the allowable uses in Recreation, High Intensity, the use itself requires them to be far away from public access and exposure due to gun fire.

Requiring road frontage or mandating access on a County paved road over a private road (built to County standards) doesn't ensure the actual recreational use will begin at the road's edge or be any more suitable for public safety access just because they meet that road frontage standard. The Flaming Arrow Boy Scout Camp's pavement stops over 0.50 miles away from the camp activities. Unpaved access (and often via easement) for emergency vehicles and the visitors is more than adequate, and most often preferred. The value and purpose of these types of Recreational uses is greatly enhanced by the remote, lower impact natural setting that engulf them, and limiting pavement and other urban characteristics is the contrast from daily life that people expect when visiting these areas.

The low traffic generation and infrequency of use that characterize these access drives also contributes to them not being financially feasible to pave for their longer distances. The better solution is to have a stabilized road surface that is sufficient for emergency service vehicle access, similar to what the County and State have done with some of their recreational areas. For example, some of the original Van Fleet Trailheads (Deen Still and Green Pond Road trailheads) were built on open grade mix or unpaved roads, and most of the Teneroc Recreation Area and Hilochee Wildlife Management Areas are accessed via unpaved roads.

This text amendment continues to support the Land Development Code and Comprehensive Plan intents to provide safe access, and it proposes to allow a lower-impact types of access for a limited array of uses that can meet a narrow set of criteria. These types of uses are low traffic volume generators, often with private access that reach far back into the wilderness in order to maintain the natural, wild, and open habitat that are at their foundation and support their purpose.

Proposed Text:

Amending Section 303 – Recreation, High Intensity, #3:

Current text:

3. All access points shall have at a minimum 50 feet of road frontage on a paved public road.

Proposed text:

3. All ***development sites*** ~~*access points*~~ *shall have at a minimum 50 feet of road frontage on a paved* ~~*public*~~ *road* ***meeting County standards. For lots without frontage on a paved road meeting County standards, access shall be provided to the development site meeting the following criteria:***
a. Have a minimum width of 20 feet;
b. Not exceed 0.50 miles (2,640 feet) in length from the nearest paved road without a waiver approved by the Planning Commission pursuant to LDC Section 932;
c. Provide for sufficient ingress and egress for fire trucks, ambulances, police cars and emergency vehicles;
d. Have no more than 50 Average Annual Daily Trips (AADT);
e. Be supported by the joinder and consent of all fee owners under easements to the use of the easement by the subject parcel(s). If joinders are provided for the easement, it shall be accompanied by an ownership and encumbrance report based on the legal description of the easement. In lieu of joinders, an applicant may provide a legal opinion from a licensed Florida attorney stating a lot has legal access, along with supporting documentation; and,
f. Be subject to a Level 1 Review and be provided written approval of same prior to obtaining a building permit.

Polk County

Board of County Commissioners

Agenda Item N.9. 6/16/2026

SUBJECT

Public Hearing (LDCT-2026-8 ATMs & Vending Machines) (Adoption Hearing) to consider the adoption of an ordinance amending the Land Development Code to add standards and definitions for stand-alone vending machines and automated teller machines. (No Fiscal Impact)

DESCRIPTION

This is a County-initiated LDC Text Amendment request to Chapter 2, Section 214, to add standards for stand-alone vending machines and automated teller machines; and Chapter 10, Definitions, to add definitions. State law requires one Planning Commission hearing, which was held on May 6, 2026, with a recommendation for approval by a 5:0 vote.

Section 163.3202, Florida Statutes (F.S.) requires the Board to adopt Land Development Code (LDC) regulations consistent with the implementation of the Polk County Comprehensive Plan. Amendments to the LDC require two public hearings before the Board to be adopted. This is the second of the two hearings.

POLK COUNTY
DEVELOPMENT REVIEW COMMITTEE
STAFF REPORT

DRC Date:	April 16, 2026	**Level of Review:**	Level 4 Review
PC Date:	May 6, 2026	**Type:**	LDC Text Amendment
BoCC Date:	June 2, 2026 June 16, 2026	**Case Numbers:** **Case Name:**	LDCT-2026-8 ATMs & Vending Machines
Applicant:	Polk County	**Case Planner:**	Ian Nance

Request:	A County-initiated LDC Text Amendment to add standards and definitions for stand-alone vending machines and automated teller machines.
DRC Recommendation:	Approval
Planning Commission Vote:	Approve 5-0

Among the changes to Chapter 2:

- Add Section 214 to provide standards for stand-alone ATMs and Vending Machines. Standards provide for location criteria, level of review, setbacks, the use of drive-thru facilities, and limitations to the size of these machines.

- Provides a clause to remove inoperable machines.

Among the Changes to Chapter 10, Definitions:

- Adding definition for “Automated Teller Machine, Drive-thru & Stand-Alone.”

- Adding definition for “Vending Machine, Stand-alone”.

Summary:

The Land Development Code (LDC) does not have standards pertaining to stand-alone ATMs or vending machines. A drive-thru & stand-alone ATM is a self-service banking terminal designed for customers to perform financial transactions from their vehicles without visiting a bank branch, while a stand-alone vending machine is a drive-up, automated kiosk designed to sell and dispense products, such as ice and/or water, directly to consumers without the need for an onsite salesperson or cashier.

Stand-alone vending has become popular in recent years for their convenience, especially in the case of ice and water vending. They typically utilize unused parking in large retail plazas for easy access for motorists. Stand-alone and drive-thru ATMs, on the other hand, fill a need as financial institutions downsize. As a "stand-alone" unit, both operate independently of other structures, requiring only a standard electrical connection for County permitting purposes.

Neither use fits the category of traditional accessory uses or structures, as they are not always related to the primary use on a site. As such, and without written criteria, the Building and Land Development divisions have had difficulty consistently directing applicants to the correct standards. Currently, they are being processed as new commercial applications through Building and are permitted with acknowledgment from Land Development on whether a Level 2 Review is required for issuance of a permit.

This amendment will formalize this process while providing necessary criteria for location and levels of approval; setbacks and variances; drive-thru facilities; and limitations, including size of the machine, and impacts on parking spaces and vehicular travel within a parking lot. Finally, this amendment will require inoperable machines to be removed or replaced in a timely manner.

Ultimately, while this amendment will add regulations to the LDC, provisions within this ordinance will provide for lessened restrictions, such as with setbacks, and provide clear paths for permitting for both applicants and County staff.

Relevant Sections, Policies, and/or Regulations to Consider:

LDC Table 2.1 Use Table
LDC Section 206 Accessory Uses
LDC Section 303 Conditional Use Criteria
LDC Chapter 4 Special Districts Use Tables
LDC Chapter 5 Green Swamp Area of Critical State Concern
LDC Section 708 Parking Space Requirements
LDC Chapter 10 Definitions

Findings of Fact

- *A County-initiated LDC Text Amendment to add Section 214, Stand-alone ATMs & Vending Machines, to Chapter 2 for standards and definitions for stand-alone vending machines and automated teller machines.*

- *LDC Chapter 10 defines Structure as, "Any building, sign, wall, fence, or similar physical obstruction placed or erected with or without footers or foundation including all other man-made facilities or infrastructures placed upon a piece of property for any purpose."*

- *LDC Chapter 10 defines Accessory Structure as, "A structure, which is customarily associated with, subordinate in size and incidental in use to the principal structure and located on the same site."*

- *LDC Chapter 10 defines Accessory Use as, "A use which:*

    1. *Is clearly incidental to, customarily found in association with, and serves a principal use;*

    2. *Is subordinate in purpose, area, and extent to the principal use served;*

3. *Is located on the same lot as the principal use, or on an adjoining lot in the same ownership as that of the principal use; and*

4. *Is not the principal use."*

- *Ice and water vending machines in Florida are regulated primarily by the Florida Department of Agriculture and Consumer Services.*

- *LDC Section 912 allows any property owner, BoCC, or agency to apply to the Department to amend the text of this Code, the text of the Comprehensive Plan, or the Future Land Use Map Series (FLUMS) in compliance with procedures prescribed by the Department.*

- *This application has been reviewed for consistency with applicable Comprehensive Plan and LDC policies.*

The Land Development Division, based on the information provided with the proposed text amendment application, finds that the proposed text change request is **CONSISTENT** with the Polk County Land Development Code and the Polk County Comprehensive Plan. Staff recommends **Approval of LDCT-2026-28.**

Analysis:

It is critical within this amendment to differentiate and define what a stand-alone ATM or vending machine is apart from what might otherwise be considered. These are isolated conveniences typically sited within a developed non-residential development, apart from a primary structure, and which encourage drive-up or drive-thru designs. For ATMs, these are not units found within a gas station, attached to the front of a grocery store, or within a bank drive-thru. Stand-alone vending machines are larger in scale to those that dispense sodas or snacks on the outside of a building. They are retail uses but are un-manned and require little infrastructure aside from a water line (for ice and water vending), electricity, and the use of a couple parking spaces.

Currently, no guidance is provided for applicants or staff for permitting these. Staff has accepted permits in non-residential districts, in conjunction with developed non-residential uses, while applying district setbacks. No engineered site plans have been required, only an electrical permit. However, questions have been raised, again by applicants and staff, about guidelines on the placement of these units and their impact on parking requirements. Setbacks, too, have been a point of concern. Both uses require visibility from the road to be useful to the consumer. Technically, accessory structures are intended to be to the side or rear of the primary structure.

For this reason, staff finds it appropriate to create a section within the LDC tailored towards the success of these uses apart from other accessory structures or uses. Staff is proposing reducing the setbacks from all rights-of-way (ROW) to 15 feet, the least-restrictive ROW setback currently in the Code. This is significant, especially along arterial roadways where setbacks are 50-65 feet, depending on classification. However, along these roads, the ROWs themselves are wide, typically to accommodate utilities, drainage structures, and/or future road widening, and the standard

setbacks push these machines further from the edge of pavement and the attention of motorists creating a burden on placing these machines along these roadways, especially when sited within older developments.

To reduce this setback currently requires a variance approval through the Land Use Hearing Officer (LUHO). On March 26, 2026, the LUHO approved a ROW setback for reduction for an ice vending machine at 2787 Recker Highway. With dual frontages along a Minor Arterial (50-foot-setback) and Urban Collector (35-foot-setback), applying the setbacks would have placed the machine within the drive aisles of the existing retail plaza.

Reducing the setback to 15 provides for more flexibility overall; however, in this case, the request was to reduce the setback from 50 to 5 feet from the Recker Highway ROW. Staff recommended approval of this because between the edge of pavement on Recker and the edge of the parking lot where the ice vending machine was to be placed was an intervening 25-foot-wide drainage swale in the ROW. So, the proposed machine was ultimately set back 30 feet from the edge of pavement.

For future cases, this amendment proposes moving ROW variance approvals for these machines from the purview of the LUHO to Land Development staff based on Variance Criteria currently found in the LDC, the same as how setback variances for signs are approved. Staff advises this since ROW setbacks in commercial districts have less to do with impacts on neighbors and aesthetics, and more about impacts to the layout and infrastructure within a development (parking & vehicular circulation) and in the ROW (drainage). In short, it is a technical review. All other district setbacks (side & rear) will be applied, and variances from these will require LUHO approval due to potential impacts on neighbors.

For ATMs, a trend is emerging as banks downsize to provide for independent cash dispensing kiosks, rather than providing for the traditional ATM at a storefront or as a dedicated lane within a drive-thru financial institution. Again, these are often sited within a developed retail plaza with a drive-thru so motorists do not leave their vehicles. The same setbacks will apply as above, but criteria for a drive-thru facility will be applied.

In reality, the reduction of setbacks will only benefit unusual cases when siting these. Those placed within retail plazas will likely exceed 15 feet from the ROW as they will be placed internal to landscaping buffers, drive aisles, etc. What is important with all of these is to ensure that the placement of vending machines and ATMs do not adversely impact parking requirements and safe vehicular travel. The largest ice vending units are approximately 200 sq. ft. Complete with a foundation and bollards, they typically require the area of approximately two parking spaces. The ordinance prohibits the placement of these units if it decreases the number of parking spots to below what is required by Code for the primary use (s) onsite.

In conclusion, staff and applicants have cobbled together various policies within the Code to allow the permitting of these uses. This ordinance provides clearer instruction for Land Development, Building, and applicants, while reducing some burden on applicants.

Benefit-cost Analysis of the Amendment

Who does it help?

This amendment will aid staff and applicants in knowing which standards apply for these uses. Currently, staff has relied on interpretations of the Code for permitting purposes. The reduced setback allows for flexibility when siting these uses. An administrative variance reduces the wait time for an applicant to have a right-of-way setback reduction approved, if the variance criteria can be met.

Who does it hurt?

No harm is anticipated by this text amendment, though some might argue that allowing a large vending machine close to the road affects the aesthetics of an area. A larger harm is not having standards within the LDC. This leads to inconsistent application of standards and confusion between staff and applicants.

What is the cost?

Staff finds there should be no fiscal impacts with this amendment.

Comparisons to other Jurisdictions:

For regulatory comparisons, staff commonly surveys counties along the I-4 corridor; those with a comparable mix of rural, suburban, and urban development like Polk; and the largest cities within Polk. This method of selection creates a survey of 18 total local jurisdictions. The table below reviews standards for stand-alone vending machines and ATM kiosks.

Table 1

Jurisdiction *(Code citation)*	**Specific Vending Machine Standards**	**Specific ATM Kiosk Standards**
Alachua County	No	No
Brevard County	No	No
Duval County	Speaks to customary vending machines.	ATMs shall be located inside principal structures to the greatest extent possible.
Hardee County	Outdoor Vending Machines (excludes newspaper racks, payphones, air pumps, vacuum machines, and ATMs). (a) shall be located within a clearly delineated, contained, architecturally screened area. (b) Decorative structures…shall be used to contain the vending machine area if the existing architecture or building form does not already contain a location. (c) Shall be coordinated with the architectural features of the building when possible. (d) Shall not cover up or obscure existing architectural features.	No
Highlands County	No	No
Hillsborough County	Vending machines are a permitted accessory use when located inside a principal establishment or on the sidewalk(s) adjacent to	Listed in Use Table. Lighting requirements per state regulation.

Jurisdiction *(Code citation)*	Specific Vending Machine Standards	Specific ATM Kiosk Standards
	the exterior wall(s) of the establishment. Vending machines in other locations are regulated as accessory structures.	
Lake County	No	No
Manatee County	No	No
Orange County	Listed in Use Table.	Lighting per state regulation.
Osceola County	No	No
Seminole County	Screening required in special non-residential overlay.	No
Volusia County	No	No
Auburndale	No	No
Bartow	No	No
Haines City	Under "Outside Operations." A site plan shall be provided distinguishing the proposed outdoor display area and the items proposed outdoor display, i.e. vending and/or ice machines.	No
Lakeland	Prohibited in Neighborhood Convenience Centers	No
Lake Wales	Vending machine shelters that serve the public…may be located within the front yard, but no closer than 15 feet to the front property line.	No
Winter Haven	No	No

Mostly, the jurisdictions surveyed did not address the uses proposed in this amendment. References to vending machines had more to do with traditional "snack machines," newspaper vending, or roadside produce vending. This is not to say these vending machines and ATMs are prohibited, rather they are lumped under accessory structures, accessory uses, or outdoor sales/retail.

For instance, the city of Lakeland considers these to be accessory structures which must meet the setbacks for accessory structures. There must be a primary commercial structure already on the property, and they cannot be in any required parking space or vehicle use area like where the waste collection truck needs to access the solid waste bin.

Limits of the Proposed Ordinance

This amendment applies to non-residential Future Land Use districts, including in the Green Swamp Area of Critical State Concern.

The Florida Department of Commerce requires a 45-day review on all policy changes affecting development in the Green Swamp Area of Critical State Concern regardless of whether it has a direct relationship to the primary purpose of the Critical Area, which is aquifer recharge and protection. Therefore, this request will be reviewed by the state. Staff believes that this amendment will have no impact on the Critical Area.

These standards are being created and implemented in order to protect the public health based on unique conditions arising from the location of these facilities (flow of traffic, pedestrian safety, etc.) and the County's interest in promoting the health, safety and welfare of its residents and

visitors. Nothing in these LDC provisions are intended to circumvent, conflict with or supersede the requirements and restrictions of Section 500.459 or 500.511(3), Florida Statutes.

Consistency with the Comprehensive Plan & Land Development Code

The request is consistent with the Comprehensive Plan and the Land Development Code. This is reconfiguring standards already applicable in the Code.

Comments from Other Agencies: This text amendment was reviewed by members of the Development Review Committee without further comment.

Draft Ordinance: Under separate attachment

ORDINANCE NO. 26-_____

AN ORDINANCE OF THE POLK COUNTY BOARD OF COUNTY COMMISSIONERS REGARDING LAND DEVELOPMENT CODE AMENDMENT LDCT-2026-8, AMENDING ORDINANCE NO. 00-09, AS AMENDED, THE POLK COUNTY LAND DEVELOPMENT CODE, ADDING CHAPTER 2, SECTION 214, FOR STANDARDS FOR STAND-ALONE VENDING MACHINES AND AUTOMATED TELLER MACHINES; CHAPTER 10, DEFINITIONS, TO ADD DEFINITIONS; PROVIDING FOR SEVERABILITY; AND PROVIDING FOR AN EFFECTIVE DATE.

WHEREAS, pursuant to Article VIII, Section I(g) of the Constitution of the State of Florida and the Community Planning Act, Chapter 163, Part II, Florida Statutes (FS), as amended, (the Act) Polk County is authorized and required to adopt Land Development Regulations consistent with the Polk County Comprehensive Plan; and

WHEREAS, the Board of County Commissioners adopted said Land Development Regulations on March 1, 2000, titled the Polk County Land Development Code; and

WHEREAS, Chapter 9, Section 903 of the Land Development Code requires Land Development Code Amendments to be a Level 4 Review; and

WHEREAS, Chapter 9, Section 907 sets forth the purpose and review process for Level 4 Reviews; and

WHEREAS, pursuant to Section 125.67 of the Florida Statutes, every ordinance shall embrace but one subject and matter properly connected therewith; and

WHEREAS, pursuant to Section 163.3164 of the Florida Statutes, the Polk County Planning Commission conducted a public hearing, with due public notice having been provided, on the proposed Land Development Code Amendment on May 6, 2026; and

WHEREAS, the proposed text amendment to the Polk County Land Development Code to add standards for stand-alone ATMs and vending machines; and

WHEREAS, the Board of County Commissioners held two public hearings on June 2, 2026, and June 16, 2026, wherein the Board reviewed and considered the Planning Commission's recommendation, the staff report, and all comments received during said public hearings, and provided for necessary revisions; and

NOW, THEREFORE, BE IT ORDAINED by the Board of County Commissioners of Polk County, Florida that:

NOTE: The underlined text indicates proposed additions to the current language. The ~~strikeout~~ indicates text to be removed from the current ordinance.

SECTION 1: FINDINGS The Board hereby finds and determines that:

a) The findings set forth in the recitals to this Ordinance are true and correct and hereby adopted.

b) The Planning Commission, acting in its capacity as the Local Planning Agency for the County, held a public hearing on May 6, 2026, to consider the LDC text amendments contained within Application LDCT-2026-8 and found them to be consistent with the Comprehensive Plan and recommended that the Board adopt the LDC Text Amendment contained within Application LDCT-2026-8.

c) The adoption of LDCT-2026-8 is consistent with the Comprehensive Plan and LDC.

SECTION 2: Chapter 2, Section 214, Stand-alone ATMs & Vending Machines, of the Polk County Land Development Code, Polk Ordinance No. 00-09, as amended, is hereby amended in the following manner:

Section 214 - Stand-alone ATMs & Vending Machines

The section is intended to provide for the permitting of stand-alone & drive-thru Automated Teller Machines (ATMs) and stand-alone vending machines. These units operate independently of other structures onsite, typically requiring only a standard electrical connection and a specific, stationary location usually within a parking lot of an established non-residential development.

These following standards are intended to protect the public health based on unique conditions arising from the location of these facilities (flow of traffic, pedestrian safety, etc.). These provisions are not intended to circumvent, conflict with, or supersede the requirements and restrictions of Section 500.459 or 500.511(3), Florida Statutes.

A. Location

1. Stand-alone ATM kiosks and vending machines may be located and permitted within a developed non-residential property through a Level 1 Review.

2. Stand-alone ATM kiosks and vending machines may be located and permitted on a vacant non-residential property as a primary use, subject to LDC Section 704. Minimum requirements include a commercial vehicle driveway apron and Type "A" landscaping unless stricter standards apply.

B. Setbacks

1. Stand-alone ATM kiosks and vending machines, including the supports of awnings and/or coverings, shall be set back a minimum of 15 feet from public rights-of-way. Side and rear setbacks shall follow the land use district requirements.

    i. Right-of-way setback variances may be granted in accordance with criteria found in Section 931 and approved or denied by the Land Development Division Development Review Committee.

    ii. Side and rear setback variances shall be approved or denied by the Land Use Hearing Officer in accordance with LDC Sections 930 and 931.

2. No stand-alone ATM kiosk or vending machine shall be located within 50 feet of the property line of a residentially-developed or residentially-designated property.

C. Limitations

1. All uses in this Section with a Drive-thru Facility shall adhere to the standards in Section 206.T.

2. If any use under this Section is located within an established parking area, it shall neither reduce the overall number of parking spaces below the minimum required for the principal use (s) of the property, nor have a material adverse effect on the overall traffic circulation of the parking area.

3. Individual kiosks and vending machines are limited to no more than 220 sq. ft., not including space required for foundations, bollards, canopies, and awnings.

4. All kiosks and vending machines shall remain in operable condition. Damaged or inoperable machines shall be repaired, replaced, or removed. If a unit is removed, the site shall be restored to its original condition and purpose as approved by the site plan of the underlying development.

SECTION 3: Chapter 10, Definitions, of the Polk County Land Development Code, Polk Ordinance No. 00-09, as amended, is hereby amended in the following manner:

…

AUTOMATED TELLER MACHINE, DRIVE-THRU & STAND-ALONE: A drive-thru & stand-alone automated teller machine (ATM) is a self-service banking terminal positioned on an island or at the edge of a parking lot and designed specifically for customers to perform financial transactions from their motor vehicles without visiting a bank branch.

…

VENDING MACHINE, STAND-ALONE: A drive-up, automated kiosk designed to sell and dispense products, such as ice and/or water, directly to consumers without the need for an onsite salesperson or cashier. As a "stand-alone" unit, it operates independently, requiring only a standard electrical connection and a specific, stationary location typically within a parking lot of an established non-residential use. These do not include standard vending machines located within a store or along the storefront.

…

SECTION 4: SEVERABILITY

If any provision of this Ordinance is held to be illegal, invalid, or unconstitutional by a court of competent jurisdiction the other provisions shall remain in full force and effect.

SECTION 5: EFFECTIVE DATE

This ordinance shall become effective upon filing with the Department of State.

ENACTED BY THE BOARD OF COUNTY COMMISSIONERS OF POLK COUNTY, FLORIDA this 16th day of June 2026.

Stand-Alone Ice Machine, ATM, and Vending Machines LDC Text Amendment

This is a staff-initiated LDC Text Amendment to add standards into Chapter 2 for stand-alone vending machines, such as ice machines, and ATMs that utilize drive-thrus, either on their own parcel or in conjunction within a retail development.

Currently, the LDC is silent on these machines, but they often require reduced setbacks from the rights-of-way that require a variance. Staff needs to evaluate their impact on parking in an established development and determine if further review is required onsite.

Pursuant to Resolution No. 2022-089, the following individuals are requested to be recognized as experts for land use cases presented under expedited hearing procedures:

- Benjamin A. Dunn, CPM – Director, Office of Planning and Development
- Benjamin J. Ziskal, AICP, CEcD – Director, Land Development Division
- Chanda Bennett, AICP, CPM – Comprehensive Planning Administrator
- Erik Peterson, AICP – Planning Administrator
- Mark Bennett, AICP, FRA-RA, CNU-A - Senior Planner
- Ian Nance – Senior Planner
- Robert Bolton – Planner III
- Johnathan Sims – Planner II
- Aleya Inglima - Planner II
- Andrew Grohowski - Planner II
- Kyle Rogus - Planner I

Skills Summary

- Outgoing, creative, and independent individual with excellent communication, time management, networking, budgeting, and writing skills.

- Strong computer skills including familiarity with Microsoft Office, Outlook, PowerPoint, Adobe Reader, and social media programs.

- Ability to use a variety of sources to conduct qualitative and quantitative research and present findings in a clear, concise format.

Employment History & Accomplishments

Polk County Board of County Commissioners (BoCC) **December 2017 – Present**

Principal Planner – Land Development

- Planning Commission Coordinator
    - Assign Planning Commission and BoCC cases to Land Development planners and track progress.
    - Write and present amendments and ordinances to Polk County's Land Development Code (LDC) and Comprehensive Plan.
    - Conduct analysis of development applications and write staff reports to support the findings.
    - Create slideshows and present cases before BoCC, Planning Commission, and Land Use Hearing Officer.
- Development Review Committee (DRC) Chair
    - Review Pre-Application Requests and provide written response.
    - Serve as liaison for Planning during face-to-face DRC meetings and follow-up with citizens as necessary.
- Site Plan Review
    - Review engineered site plans for compliance with the Comprehensive Plan and LDC.
    - Conduct research for non-conforming use determinations and land use verification letters.

Freelance Writer **February 2012 – Present**

- Published in the *Lakeland Ledger, Orlando Sentinel*, *Florida Game & Fish*, *Lakelander*, *Florida Sportsman*, and *Petersen's Hunting*.

ADEPT Community Services **February 2010 – December 2017**

Support Coordinator/Team Leader

- Coordinated service providers for developmentally disabled Medicaid Waiver Consumers. Created service budgets, request, and justify services through written Support Plans, and maintain consumer files. Serve as advocate for consumers.

- Supervised 4-5 other coordinators. Worked closely with Supervisor on Quality Assurance, Billing, and Human Resources objectives. Visited with consumers and their families to discuss goals and issues with service.

Polk County School Board **October 2008 – February 2010**

Substitute Teacher

Supplemental Instructional Services, Inc **July 2007 - July 2008**
District Coordinator

- Launched company's program in Polk County. Recruited, interviewed, trained, and managed a team of 12 tutors over 8 elementary schools.
- Marketed company and enrolled families at provider fairs.
- Wrote Service-Learning Plans as a contract between parents, company, and School Board for establishing academic goals and benchmarks for achievement.
- Created and delivered monthly invoices to Polk County School Board for company's service and maintained legal documents including leasing information, progress reports, and attendance information.

Polk County School Board **January 2004 - April 2006**
Substitute Teacher

Mulberry Corporation **May - August 1999, 1998**
Administrative Assistant

Education

Master's Degree in Public Administration, 2006
University of Central Florida
Orlando, FL

B.A. Degree in Political Science, 2003
University of Florida
Gainesville, FL

Polk County

Board of County Commissioners

Agenda Item N.10. 6/16/2026

SUBJECT

Public Hearing (LDCPAL 2026-5 ILE Duplex and Sewer Text Amendment CPA) (Transmittal Hearing) to consider the adoption of a Large-Scale Comprehensive Plan Text Amendment to Policies in Section 2.130 modifying sewer connection requirements to allow septic tanks for duplexes in Residential Low-X (RL-X) for Indian Lakes Estates (ILE). This case is related to LDC-2026-12, a companion Land Development Code Text Amendment. (No Fiscal Impact)

DESCRIPTION

This is a County-initiated request. Indian Lakes Estate. ILE is located east of Lake Walk in the Water, south of SR 60 and north of CR 630 between Lake Walk in the Water and the intersection of SR 60 and CR 630.

State law requires one Planning Commission hearing, which was held on June 3, 2026, with a recommendation for approval (Vote 7:0). This is the transmittal hearing to the Florida Department of Commerce, and the adoption hearing is scheduled for August 16, 2026.

POLK COUNTY
DEVELOPMENT REVIEW COMMITTEE
STAFF REPORT

ID #:	**N/A**
DRC Date:	April 30, 2026
Planning Commission Date:	June 3, 2026
BoCC Dates:	June 16, 2026, Transmittal, and August 16, 2026, Adoption
Applicant:	County Initiated
Level of Review:	Level 4 Review, Comprehensive Plan Map Amendment
Case Number and Name:	LDCPAL-2026-5 ILE Comp Plan Text CPA
Request:	Large Scale Comprehensive Plan Text Amendment to Policies in Section 2.130 modifying sewer connection requirements to allow septic tanks for duplexes in Residential Low-X (RL-X). This case is related to LDC-2026-12, a companion Land Development Code Text Amendment.
Location:	Indian Lakes Estates is located east of Lake Walk in the Water, south of SR 60 and north of CR 630 between Lake Walk in the Water and the intersection of SR 60 and CR 630.
Property Owner:	Various property owners in Indian Lakes Estates
Parcel Size:	N/A
Development Area:	Neighborhood Utility Service Area (NUSA) and the Suburban Development Area (SDA)
Future Land Use:	Office Center-X (OCX), Community Activity Center-X (CAC-X), Neighborhood Activity Center-X (NAC-X), Recreation and Open Space-X (ROS-X), Residential Low-X (RL-X) and Residential Suburban-X (RS-X).
Nearest Municipality	Frostproof
DRC Recommendation:	Approval
Planning Commission Vote:	Approval 7:0
Florida Commerce	Pending transmittal
Case Planner:	Chanda Bennett, Comprehensive Planning Administrator

The Comprehensive Plan policy changes are to Section 2.130-B Indian Lakes Estates to:

1) POLICY 2.130-B3.4 –
    a. Adding a foot note to the table in said policy in the row for "RLX" and "RMX" stating "See Policy 2.130B3.4;"
    b. Adding a lead in sentence allowing for bullets to be added stating "The following densities and intensities shall apply related to utility provision."
    c. Correcting a typo by adding "of;"
    d. Made the lead sentence before the table in Policy 2.130-B3.4 a bullet labeled "a."
    e. Added a new bullet "b." stating "Duplex units may be allowed on a single lot or parcel, as the lot or parcel existed on August 16, 2026, without the connection to public sewer in the RL and RM Future Land Use designation per the requirements in the land development regulations."

Summary of Analysis

This is a County-initiated amendment revising Comprehensive Plan policies in Section 2.130-B Indian Lakes Estates. The request modifies the sewer connection requirements to allow one septic tank per duplex structure in Residential Low-X (RL-X). This case is related to LDCT-2026-12, a companion Land Development Code Text Amendment. Connection to centralized sewer is required per Comprehensive Plan Policy 2.130-B3.4 for anything over two (2) dwelling units per acre in the RLX. Table 2.1 of the Land Development Code requires a Level 3 Review for duplex structures in the RLX. However, there is no sewer available in ILE and none is anticipated. The lot sizes in the RLX in ILE are mostly half an acre. The LDC text amendment also proposes duplex units in RLX in ILE to be a "C1."

ILE Background – Indian Lake Estates (ILE) is a platted subdivision of residential & non-residential lots recorded in the official records of Polk County, Florida, consisting of 8,000 ± lots (approx. 5,000 acres). ILE is not a vested development from the DRI statute. On November 30, 2004, the Board of County Commissioners approved a Comprehensive Plan map and text amendment for ILE (CPA 04B-09) based on a request from area property owners because there were no officially recognized land use designations in the Polk County Comprehensive for ILE. Prior to this amendment the Future Land Use designation was Pre-Development of Regional Impact #2. Development approvals were based on the Pre-Planned Unit Development and the subdivision documentation in Building. ILE is also governed by restrictive covenants of which the County does not enforce.

Relevant Sections, Policies, and/or Regulations to Consider:
Policy 2.102-A1: Development Location
Policy 2.102-A2: Compatibility
ILE Goals

Findings of Fact

Request and Legal Status

- This is a County-initiated request to amend Policies 2.130-B3.4 to modify the sewer connection requirements to allow one septic tank per duplex structure in Residential Low-X (RL-X) in Section 2.130-B Indian Lakes Estates (ILE). This case is related to LDCT-2026-12, a companion Land Development Code Text Amendment.

- The companion Land Development Code text amendment (LDCT-2026-12) is proposed to add a use table similar to Table 2.1, and a condition that a duplex is permitted in RLX using a septic tank with only one septic tank per duplex unit on parcels as they existed on August 16, 2026. The use table proposed to be added to Chapter 4 for ILE, part of LDCT-2026-12, will make duplex units a Conditional Use Level 2 Review.

- Two building permits were issued for duplex units in Indian Lakes Estates in error, as follows:

A. BR-2025-8850 on a half-acre parcel ID# 303109-994110-034548 in the RLX on a paved road;
B. BR-2025-6542 on a half-acre parcel ID# 303109994110034803 in Residential Medium-X (RMX) on an unpaved road.
C. The builders have converted the units to a single-family home and may convert the units back to a duplex at some point in the future.

- ILE is a platted subdivision of residential & non-residential lots recorded in the official records of Polk County, Florida, consisting of 8,000 ± lots (approx. 5,000 acres).

- All roads in ILE are privately owned and maintained by ILE.

- On November 30, 2004, the Board of County Commissioners approved a Comprehensive Plan map and text amendment for ILE (CPA 04B-09) based on a request from area property owners because there were no officially recognized land use designations in the Polk County Comprehensive for ILE. Prior to this amendment the Future Land Use designation was Pre-Development of Regional Impact #2.

- Development approvals were based on the Pre-Planned Unit Development and the subdivision documentation in Building.

- The table in Policy 2.130-B3.4 states the maximum density in RLX that can be on centralized water, but no sewer is two (2) dwelling units to the acre and the maximum density in RLX of (5) five dwelling units to the acre must be on public water and sewer. Therefore, any density over two (2) dwelling units per acre require centralized water and sewer connections.

- The use of septic tanks is permitted for densities less than five (5) dwelling units to the acre in other areas of unincorporated Polk County.

- Duplex units in Table 2.1 are currently listed as a Conditional Use Level 3 Review.

- ILE is in the Military Compatibility Zone 1 and Zone 2 for the Avon Park Airforce Range.

Compatibility and Infrastructure

- The Board of County Commissioners denied a Comprehensive Plan amendment (LDCPAL-2024-15) in February of 2025 modifying Policy 2.130-B3.4 to allow densities over two (2) dwelling units per acre to be on septic and to allow duplex units in the Office Center-X (OCX) Future Land Use designation.

- The Board of County Commissioners also denied a companion Land Development Text amendment (LDCT-2024-24) to add a use table to the ILE section in Chapter 4 of the LDC and to reference the allowance for septic.

- ILE is for the most part an isolated community surrounded predominantly by Agriculture/Residential Rural (A/RR) land use. Also surrounding ILE to the north is the Sumica, a 4,031-acre County owned Environmental Lands property. To the west is Lake Walk-in-Water.

- Canopy Oaks, a Recreational Vehicle Park community, is to the south of ILE.

- Water is provided by ILE Utilities, a private, independent company. There is no current active sewer within ILE.

- Approximately 10 percent of ILE is wetland, and approximately 35 percent is shown to contain Federal Emergency Management Area (FEMA) Flood Zones. The majority of the wetland areas lie on the shoreline of Lake Walk-in-Water. Some isolated wetlands appear in the interior of the development along the shoreline of the ponds. Almost all of the known wetlands are located within lands owned by the ILE Homeowners Association and not planned or approved for development.

- The nearest active airport facility is the airfield at River Ranch, a Development of Regional Impact (DRI) seven miles to the east. Airspace for the Avon Park Bombing Range is within closer proximity to the development. Neither of these facilities will be adversely impacted by the fulfillment of the ILE development plan.

- There have been protected plant and community sightings in the eastern part of ILE and there have been protected animal sightings in the eastern and western parts of ILE.

- ILE has a community golf course, several small community parks, an extensive system of greenway trails, community boat ramp, marina, beach and pier onto Lake Walk-In-Water. Additionally, there are several ponds located throughout ILE and to the north is the 4,031 acre Sumica County owned Natural Area.

Comprehensive Plan Policies and Land Development Code Regulations

- POLICY 2.102-A1 Development Location states that Polk County shall promote contiguous and compact growth patterns through the development process to minimize energy costs, conserve land, water, and natural resources, minimize the cost of services, and prevent development patterns where tracts of land are by-passed in favor of development more distant from services and existing communities.

- POLICY 2.102-A2 Compatibility states that land shall be developed so that adjacent uses are compatible with each other, pursuant to the requirements of other Policies in this Future Land Use Element, so that one or more of the following provisions are accomplished: a. there have been provisions made which buffer incompatible uses from dissimilar uses; b. incompatible uses are made to be more compatible to each other through limiting the intensity and scale of the more intense use; c. uses are transitioned through a gradual scaling of different land use activities through the use of innovative development techniques such as a Planned Unit Development.

- The goals of the ILE development in the Comprehensive Plan include:
    - GOAL 2.130-B1: Remain a secure and sustainable suburban resort-oriented community.
    - GOAL 2.130-B2: Preserve the natural beauty, wildlife and solitude of ILE and the surrounding area.
    - GOAL 2.130-B3: Encourage sustainable growth by promoting a mixture of residential and non-residential uses outside the gate; and allowing only single-family residential and amenities with services inside the gate.
    - GOAL 2.130-B4: For Indian Lake Estate to continue to develop at the same quality as it has in the past.

Recommendation

Development Review Committee Recommendation: Based on the information provided and the analysis conducted within this staff report, the Development Review Committee finds that with the proposed conditions the request **IS CONSISTENT** with the Polk County Comprehensive Plan and Land Development Code. Therefore, the Development Review Committee (DRC) recommends **APPROVAL of LDCPAL-2026-5.**

Planning Commission Recommendation: On June 3, 2026, at an advertised public hearing, the Planning Commission recommend **7:0**, to **APPROVE LDCPAL-2026-5.**

GENERAL NOTES
NOTE: This staff report was prepared without the benefit of testimony and evidence submitted by the public and other parties at a public hearing.

Analysis:

Exhibits 2, 3, and 4 display parcels staff have been asked to allow duplex structures in ILE in 2024. Moreover, a building permit has been issued for a duplex unit in the Residential Low-X (RLX) at the south end of Fort Myers Drive on a parcel that is half an acre and a duplex building permit for a property in the Residential Medium-X (RMX) on a half an acre on an unpaved road. Both parcels are connected to public water and on septic. The roads in ILE are all private. The duplex makes the density four (4) dwelling units per acre. Policy 2.130-B3.4 includes a table providing maximum densities and intensities given the availability of centralized water and sewer. This table states the maximum density in Residential Low-X (RLX) as displayed below with the recommended text modification highlighted in yellow.

FLU	Without Central Water or Sewer		With Central Water, but not Sewer		With Central Water & Sewer*	
	Maximum Density	Maximum FAR	Maximum Density	Maximum FAR	Maximum Density	Maximum FAR
RLX	1 du/ac	0.05	2 du/ac **	0.1	5 du/ac	0.25
RMX	1 du/ac	0.05	4 du/ac	0.15	10 du/ac	0.25
OCX	1 du/ac	0.1	2 du/ac	0.2	5 du/ac	0.30
NACX*	1 du/ac	0.1	4 du/ac	0.2	10 du/ac	0.25
CACX*	1 du/ac	0.15	4 du/ac	0.2	10 du/ac	0.35
INSTX	n/a	0.1	n/a	0.2	n/a	0.25
* Residential only permitted in NACX and CACX in connection with retail as a mixed use or live-work unit. ** See Policy 2.130-B3.4						

Most lots in the RL-4X and the RMX in ILE are half acre which is a density of two (2) dwelling units to the acre, if a single-family home is constructed on each. A subdivision of these lots or a duplex on any of these lots makes the density four (4) dwelling units per acre. However, the table in the Comprehensive Plan displayed above does not permit densities above two (2) dwelling units per acre on septic tanks. Other areas in RL-4 in unincorporated Polk County outside of ILE have the option to develop at three (3) and (4) dwelling units per acre with septic tanks if permitted by the Health Department. However, duplex units in RL-4 is a Level 3 Review per Table 2.1 of the Land Development Code.

The LDC text amendment (LDCT-2026-12) is being proposed to add a use table in Chapter 4 for ILE like Table 2.1 in Chapter 2 for just the Future Land Use designations within ILE which are listed below. The only difference will be that duplex units in ILE is proposed a Conditional Use Level 1 Review (C1 - administrative staff level review) versus Table 2.1 that requires a Conditional Use Level 3 Review for all duplex units in RL. Duplex units in RM are a permitted use "P" in Table 2.1.

- Residential Suburban (RS)
- Residential Low (RL)
- Neighborhood Activity Center (NAC)
- Community Activity Center (CAC)
- Institutional (INST)

- Recreation and Open Space (ROS)

Infrastructure Impacts - This does remove some barriers to development that can lead to more growth. However, ILE is a vested development. These changes will encourage development in an area already planned for such. Any infrastructure impacts will be implemented and required per the concurrency standards listed in Chapter 7 of the LDC.

Avon Park Airforce Range Military Compatibility Zone (Range)

ILE is in both Compatibility Zones for the Range. There is a Military Compatibility Zone 1 and Zone 2 (See Exhibit 5). Section 2.124-I of the Comprehensive Plan has policies for the Range.

https://library.municode.com/fl/polk_county/codes/comprehensive_plan?nodeId=CH2DEPO_DIV2.100FULAUSEL_S2.124-IAVPAAIRAMICOZO

These policies address coordination and implementation of the Joint Land Use Study prepared by the Central Florida Regional Planning Council (CFRPC). Chapter 6 of the Land Development Code includes standards for the Range.

https://library.municode.com/fl/polk_county/codes/land_development_code?nodeId=CH6REPR_S642MICOZORE251RD19-008092112OR12-028

The proposed changes will make development in ILE easier which is of a concern for the Range. However, all the lots in ILE are vested lots that are eligible for some type of development.

Comparisons to other Jurisdictions:

Special policies and development code regulations are common in other jurisdictions throughout Florida. The current section for ILE is equivalent to the County's section of the Comprehensive Plan and Land Development Code regarding Selected Area Plans. Section 2.130 of the Comprehensive Plan was created for Developments of Regional Impact (DRI). It seems appropriate to make these changes to the policy related to ILE allow infill development and the potential for more residential development to accommodate the growing population of Polk County rather than creating new residential communities.

Limits of the Proposed Ordinances

The scope of the amendment will impact new development within the RL-4X designation only ILE. The Comprehensive Plan text amendment and the Land Development Code text amendment will allow duplex units in RLX at four dwelling units to the acre on public water and septic.

Consistency with the Comprehensive Plan

Consistency with the Comprehensive Plan and Land Development Code
Many policies within the Comprehensive Plan are reviewed for consistency with an application. The most relevant policies for the proposed request are included in this section. The policy is first stated and then an analysis of how the request is provided to state that it may or may not be consistent with the Comprehensive Plan. How the request is **consistent or inconsistent** with the Comprehensive Plan is listed below:

Table 8 Consistency with the Comprehensive Plan

Policy	Consistency
Policy 2.102-A1: **Development Location** – Polk County shall promote contiguous and compact growth patterns through the development process to minimize energy costs, conserve land, water, and natural resources, minimize the cost of services, and prevent development patterns where tracts of land are by-passed in favor of development more distant from services and existing communities.	The proposed text amendments are a small change to allow for duplex units and allow some growth without sewer. The request is consistent with this policy and with the existing development allowances elsewhere in Polk County.
Policy 2.102-A2: Compatibility - Land shall be developed so that adjacent uses are compatible with each other, pursuant to the requirements of other Policies in this Future Land Use Element, so that one or more of the following provisions are accomplished: a. there have been provisions made which buffer incompatible uses from dissimilar uses; b. incompatible uses are made to be more compatible to each other through limiting the intensity and scale of the more intense use; c. uses are transitioned through a gradual scaling of different land use activities through the use of innovative development techniques such as a Planned Unit Development.	The proposed policy text changes along with the other requirements in the Land Development Code such as Section 220 ensure compatibility with the new uses.

Policy	Consistency
GOAL 2.130-B1: Remain a secure and sustainable suburban resort-oriented community. **GOAL 2.130-B2:** Preserve the natural beauty, wildlife and solitude of ILE and the surrounding area. **GOAL 2.130-B3:** Encourage sustainable growth by promoting a mixture of residential and non-residential uses outside the gate; and allowing only single-family residential and amenities with services inside the gate. **GOAL 2.130-B4:** For Indian Lake Estate to continue to develop at the same quality as it has in the past.	The proposed amendment related to sewer exemption will allow duplex units at no more than four (4) units per acre on public water and sewer.
POLICY 2.124-I2: In compliance with section 163.3175(5), F.S., Polk County shall continue to coordinate with range representatives and the Central Florida Regional Planning Council (CFRPC) to adopt and implement development standards and guidelines that minimize impacts of development on the operations of the military installation. The Land Development Code shall address land use, lighting, height, noise, and communication frequency spectrums in defining the criteria for compatibility within the MCZ.	Polk County has reached out to the Central Florida Regional Planning Council and the Avon Park Airforce Range base representative. The Avon Park Airforce Range did submit a letter of opposition to a similar type of request from January of 2025. This letter is provided under separate cover. An updated letter will be provided if received prior to the Planning Commission hearing.

AN ORDINANCE OF THE POLK COUNTY BOARD OF COUNTY COMMISSIONERS REGARDING THE ADOPTION OF AMENDMENT **LDCPAL 2026-5;** AN AMENDMENT TO THE POLK COUNTY COMPREHENSIVE PLAN; ORDINANCE 92-36, MODIFYING POLICY 2.130-B3.4 REMOVING THE SEWER CONNECTION REQUIREMENT FOR DUPLEX UNITS IN RESIDENTIAL LOW IN INDIAN LAKES ESTATES (ILE). ILE IS LOCATED SOUTH OF SR 60, NORTH OF CR 640 AND EAST OF THE CITY OF LAKE WALES; PROVIDING FOR SEVERABILITY; AND PROVIDING FOR AN EFFECTIVE DATE.

WHEREAS, pursuant to Article VIII, Section I(g) of the Constitution of the State of Florida and the Community Planning Act, Chapter 163, Part II, Florida Statutes (FS), as amended, (the Act) Polk County is authorized and required to adopt a Comprehensive Plan (Plan); and

WHEREAS, Section 163.3184, FS, and Comprehensive Plan Section 4.305.B, provides for the approval of Large-Scale Comprehensive Plan Amendments; and

WHEREAS, Application LDCPAL 2026-5 is a County-initiated application to amend Policies 2.130-B3.3 and 2.130B3.4 regarding sewer connection in Section 2.130-B Indian Lakes Estates of the Comprehensive Plan; (the "Amendment"); and

WHEREAS, pursuant to Section 163.3174, FS, the Local Planning Authority (Planning Commission) conducted a public hearing, with due public notice having been provided, Amendment on June 3, 2026; and

WHEREAS, pursuant to Section 163.3184, FS, the Board of County Commissioners on June 16, 2026, held an initial public hearing and authorized transmittal of the Amendment to the Department of Economic Opportunity (DEO) for written comment, and

WHEREAS, Florida Commerce, by letter dated _____2026 transmitted objections, recommendations, and comments on the Amendment; and

WHEREAS, pursuant to Section 163.3184, FS, the Board of County Commissioners conducted an adoption public hearing, with due public notice having been provided, on the Amendment on August 16, 2026; and

WHEREAS, the Board of County Commissioners, reviewed and considered all comments received during said public hearing, and provided for necessary revisions; if any; and

WHEREAS, the Board of County Commissioners has considered the data and analysis contained within the staff report; and

WHEREAS, the Amendment is consistent with Chapter 163, FS, and the Polk County Comprehensive Plan.

NOW THEREFORE, BE IT ORDAINED by the Polk County Board of County Commissioners:

SECTION 1: LEGISLATIVE FINDINGS OF FACT

The findings of fact set forth in the recitals to this Ordinance are true and correct and hereby adopted.

SECTION 2: COMPREHENSIVE PLAN AMENDMENT

The text of the Comprehensive Plan Ordinance No. 92-36, as amended, (the "Polk County Comprehensive Plan") is hereby amended to reflect changes depicted Attachment "A".

SECTION 3: SEVERABILITY

If any provision of this Ordinance is held to be illegal, invalid, or unconstitutional by a court of competent jurisdiction the other provisions shall remain in full force and effect.

SECTION 4: EFFECTIVE DATE

The effective date of this plan amendment, if the amendment is not timely challenged, shall be the date the Department of Florida Commerce posts a notice of intent determining that this amendment

is in compliance. If timely challenged, or if the state land planning agency issues a notice of intent determining that this amendment is not in compliance, this amendment shall become effective on the date the state land planning agency or the Administration Commission enters a final order determining this adopted amendment to be in compliance.

SECTION 5: FILING WITH THE DEPARTMENT OF STATE:

The Clerk and Auditor to the Board of County Commissioners of Polk County, Florida, shall file a certified copy of this ordinance with the Department of State, through the Secretary of State, upon adoption by the Board of County Commissioners of Polk County, Florida.

ADOPTED, in open session of the Polk County Board of County Commissioners with a quorum present and voting this 16th day of August 2026.

NOTE: The underlined text indicates proposed additions to the current language. The ~~strikeout~~ indicates text to be removed from the current ordinance.

SECTION 2.130-B INDIAN LAKE ESTATES (PRE-DRI #2).

GOAL 2.130-B1: Remain a secure and sustainable suburban resort-oriented community.

OBJECTIVE 2.130-B1: Polk County shall review level of service for roadways, traffic, utilities, educational facilities, public safety, and recreation after 500 new dwelling units are constructed or in five years from the date this amendment becomes effective, which ever comes first and, amend the plan for Indian Lake Estates as needed.

POLICY 2.130-B1.1: No lot subdivided from an existing lots of record or new lot created will be eligible to obtain a building permit.

POLICY 2.130-B1.2: Multi-Family (larger than quadruplex); Group Living Facilities, Family Care Home, Group Home and Congregate; Retail, more than 50,000 square feet; Manufacturing; and Junkyards are prohibited in all ILE land use districts.

POLICY 2.130-B1.3: Commercial Vehicle parking is prohibited within all ILE residential areas. RV and boat parking within all ILE residential areas shall be required to follow County's parking buffer and setback regulations to be outlined in the LDC.

GOAL 2.130-B2: Preserve the natural beauty, wildlife and solitude of ILE and the surrounding area.

POLICY 2.130-B2: No roadway, Greenway, Parkway, canal, lake or other right-of-way shall be closed or vacated within ILE.

GOAL 2.130-B3: Encourage sustainable growth by promoting a mixture of residential and non-residential uses outside the gate; and allowing only single-family residential and amenities with services inside the gate.

OBJECTIVE 2.130-B3: Pursuant to the Polk County Comprehensive Plan Policy 2.110-E1, an area with a population of approximately 20,000 persons (figured at 8,000± lots by 2.5 persons per household) is recommended to have between 20 and 60 acres of Usable Area and 150,000 to 500,000 square feet of Gross Leasable Area (GLA) for commercial and office space. This assumes there are other convenient commercial activity centers within close proximity. Currently there are no other commercial activity centers within close proximity and therefore a greater, approximately 95± acres of commercial and office may be needed in ILE.

POLICY 2.130-B3.1: All land uses for ILE will be modifications in the Polk County Land Development Code (LDC) and Comprehensive Plan (COMP) and contain extra-criteria (X).

POLICY 2.130-B3.2: Uses inside the ILE gate shall consist of single-family conventionally built homes in Residential-Suburban "X" (RSX) district or Recreation and Open Space (ROSX) districts containing community amenities and services.

POLICY 2.130-B3.3: Uses outside the gate will consist of a mixture of low to medium density residential, community services, small scale service retail and professional commercial, and be further defined in the Land Development Code. Examples of these non-residential uses include, but are not limited to; bakery, restaurant, florist, jeweler, arts & crafts/gift shop, motel and/or hotel, grocery store, pharmacy, hardware store, appliance/furniture, electric sales, strip mall, auto and boat service (with sales and leasing), beauty shop/barber, dry cleaner/laundry, electrician, plumber, home improvement (lawn, paint, roof, gutter), child and adult care facility, medical facility (doctor and dentist), attorney office, accountant/financial advisor office, insurance office, and real estate office. Land Use Designations are to include:

Residential Low "X" (RLX): Single family and duplex homes upon review.

Residential Medium "X" (RMX): Single family, duplex and quadruplex homes upon review.

Office Center "X" (OCX): The purpose of the OCX district is to provide areas for small offices. The OC district permits professional offices and some retail uses.

Lots 31—43 in Block 325 and Lots 1—10 in Block 324 along Deland Avenue and Lots 17—28 in Block 334 and Lots 28—46 in Block 335 along St. Petersburg Drive require a Conditional Use Level 3 (C3) review.

Neighborhood Activity Center "X" (NACX): The purpose of the NACX district is to provide for the daily shopping needs of residents within neighborhoods surrounding the center. The NACX district includes non-residential uses such as offices, grocery stores, drug stores banks and community facilities.

Community Activity Center "X" (CACX): The purpose of the CACX district is to provide for shopping needs of residents living within the surrounding community. The CACX district permits special residential development, non-residential uses such as offices, department stores supermarkets, restaurants and community facilities.

Institutional "X" (INSTX): The purpose of the INSTX district is to provide for the use and development of lands for private and public service structures with minimal external impacts such as government facilities, cultural facilities, and Class I and Class II utilities.

Recreation and Open Space "X" (ROSX): The purpose of the ROSX district is to provide for the use and development of lands and areas which are accessible to the public, and which are oriented towards providing recreational activities and services for residents and visitors.

POLICY 2.130-B3.4: Uses outside the gate will have limited intensity if adequate infrastructure and services are not provided. The following densities and intensities shall apply related to utility provision:

a. With regard to utilities, the following table lists the maximum intensities and densities allowed given the availability of centralized water and sewer service:

FLU	Without Central Water or Sewer		With Central Water, but not Sewer		With Central Water & Sewer*	
	Maximum Density	Maximum FAR	Maximum Density	Maximum FAR	Maximum Density	Maximum FAR
RLX	1 du/ac	0.05	2 du/ac **	0.1	5 du/ac	0.25
RMX	1 du/ac	0.05	4 du/ac	0.15	10 du/ac	0.25
OCX	1 du/ac	0.1	2 du/ac	0.2	5 du/ac	0.30
NACX*	1 du/ac	0.1	4 du/ac	0.2	10 du/ac	0.25
CACX*	1 du/ac	0.15	4 du/ac	0.2	10 du/ac	0.35
INSTX	n/a	0.1	n/a	0.2	n/a	0.25

* Residential only permitted in NACX and CACX in connection with retail as a mixed use or live-work unit.
** See Policy 2.130-B3.4, B

b. Duplex units may be allowed on a single lot or parcel, as the lot or parcel existed on August 16, 2026, without the connection to public sewer in the RL Future Land Use designation per the requirements in the land development regulations.

POLICY 2.130-B3.5: Uses desired in all areas of ILE include single-family residential, preserve, open space, recreation area, park, and walking area (greenway). Therefore, additional Recreation and Open Space "X" (ROSX) is to be designated to all parks, Greenways, Parkways, lakes and canals in addition to areas shown on map.

POLICY 2.130-B3.6: Undesired uses in any and all areas of ILE include, but are not limited to; industrial/production, high impact commercial, big box, any new use producing heavy truck traffic, half-way house/"drop-in" center, junkyard, large scale apartment complex. There were additional uses that were not desired that do not appear on this list because the use can not be legally regulated. These uses include, but are not limited to, bar/tavern, pool hall, and adult entertainment/business.

POLICY 2.130-B3.7: Uses that have debated desire amongst the community include, but are not limited to; gas station, light manufacturing/assemblage, clinic, additional churches, religious retreat, school, size of housing; RV, mobile and/or manufactured home areas; RV, truck and boat parking on residential lots. Since these uses have been identified as a mixed desire, they will be conditional uses and require a Level 3 (C3) review.

Table 1.1: Future Land Use Map (FLUM) Acreage

FLU	***Approximate Acreage (of recorded lots)**	****Number of Recorded Lots**	*****Percent (%)**
Residential Suburban (RSX)	3,700	7,500	74
Residential Low (RLX)	200	391	4
Residential Medium (RMX)	40	83	<1
Office Center (OCX)	30 (permitted) 10 (conditional)	87	<1
Neighborhood Activity Center (NACX)	40	71	<1
Community Activity Center (CACX)	15	24	<1
Institutional (INSTX)	15	12	<1
Recreation and Open Space (ROSX)/Right-of-Way	1,000	N/A	20
Total	5,000	8,168	100
* The acreage is an approximate rounded amount and is not an accurate measurement. In order for an accurate measurement an engineer survey is needed.			
** Numbers are a rough count and subject to change.			
*** Percentages have been rounded to nearest positive percent.			

POLICY 2.130-B3.8: Indian Lake Estates (ILE) is a platted subdivision of residential and non-residential lots recorded in the official records of Polk County, Florida, consisting of 8,000± lots (approx. 5,000 acres). ILE is not a vested development from the DRI statute. In addition to assigned land uses, ILE is governed by a set of restrictive covenants. Land use is in addition to, and does not supersede ILE covenants. However, covenants do not supersede County Ordinances. The more restrictive apply, but the County does not enforce covenants.

		TOTAL LOTS = 8,168	
* Numbers are a rough count and subject to change. Also, there are additional non-buildable parcels that have been created as parks, Greenways, Parkways, lakes and canals. Therefore, additional Recreation and Open Space "X" (ROSX) is to be designated to all parks, Greenways, Parkways, lakes and canals in addition to areas shown on map and listed in table.			

Except for certain lots in Units 10, 11, 12, 13, 14 and 17, the permitted use of all lots within this development is single-family residential. The following lots in Units 10 and 11 are designated as RLX:

Block 322	Lots 1—4 (All)
Block 323	Lots 1—6, 11—13
Block 324	Lots 15—22
Block 325	Lots 1—20
Block 326	Lots 25—44
Block 327	Lots 1—10, 22—30
Block 328	Lots 1—10 (All)
Block 329	Lots 1—10 (All)
Block 330	Lots 6—10
Block 331	Lots 1—5
Block 332	Lots 6—10
Block 334	Lots 5—16
Block 335	Lots 1—19
Block 336	Lots 1—29 (All)
Block 337	Lots 1—41 (All)
Block 338	Lots 1—34 (All)
Block 339	Lots 1—30 (All)
Block 340	Lots 1—12, Parcel 034013 (All)
Block 341	Lots 1—34 (All)
Block 342	Lots 1—9 (All)
Block 343	Lots 1—14 (All)
Block 344	Lots 1—15 (All)
Block 345	Lots 40—69

The following lots in Units 10 and 11 are designated as RMX:

Block 317	Lots 1—26 (All)

Block 318	Lot 1, Parcel 031801
Block 333	Lots 1—15 (All)
Block 346	Lots 9—16
Block 347	Lots 1—16 (All)
Block 348	Lots 1—16 (All)

The following lots in Units 10 and 11 are designated as OCX:

Block 320	Lots 3—8
Block 321	Lots 21—25, 29—38
Block 323	Lots 7—10
Block 324	Lots 1—10, 13—14
Block 325	Lots 21, 22, 31—43
Block 326	Lots 23, 24
Block 327	Lots 20, 21
Block 334	Lots 17—28
Block 335	Lots 28—46

The following lots in Units 10 and 17 are designated as NACX:

Block 318	Lots 2—6
Block 319	Lots 1—14
Block 320	Lots 1, 2, 9, 10, 12—28, Parcels 032038 and 000380
Block 321	Lots 26—28
Block 324	Lots 11, 12
Block 325	Lots 23—30
Block 327	Lots 11—19
Block 334	Lots 1—4, 29—32
Block 335	Lots 20—27

The following lots in Units 10 and 17 are designated as CACX:

Block 319	Lots 15—19
Block 320	Lots 29—37, Parcel 000380

The following lots in Units 10 and 11 are designated as INSTX:

Block 321	Parcel 032140
Block 325	Parcel 032544
Block 330	Lots 1—5
Block 331	Lots 6—10

The following lots in Units 10, 13 and 14 are designated as ROSX:

Block 319	Parcels 031920 and 031921
Block 359	Parcel 035917
Block 383	Parcel 038317

Additionally, ROSX is to be designated to all parks, Greenways, Parkways, lakes and canals.

GOAL 2.130-B4: For Indian Lake Estate to continue to develop at the same quality as it has in the past.

OBJECTIVE 2.130-B4: To recognize the Indian Lake Estates Restatement of Residential and Commercial Building Standards in the Polk County Land Development Code.

POLICY 2.130-B4.1: Polk County shall recognize the Indian Lake Estates Restatement of Residential and Commercial Building Standards when developing Land Development Code regulations for ILE.

MEMORANDUM FOR POLK COUNTY PLANNING COMMISSION
Mr. Robert Beltran, Chair
Polk County
330 W. Church Street
Bartow, FL 33831-9005

FROM: 598 RANS/CC
29 South Blvd
Avon Park Air Force Range, FL 33825

SUBJECT: Polk County LDCPAL-2024-15 and LDCT-2024-24

1. I am sending this letter to formally share my viewpoint regarding the proposed Comprehensive Plan and Land Development Code (LDC) text amendments. The proposed Indian Lakes Estates (ILE) Comp Plan and LDC amendments do not present mission sustainment/encroachment concerns for APAFR. We would emphasize, however, increases in residential density underneath military Special Use Airspace (SUA) could result in noise complaints; will increase risk to public safety should an aviation mishap occur; and set a concerning precedence for future compatibility with APAFR.

2. APAFR is the largest USAF air-to-ground training range in the eastern U.S., providing world-class military training for DoW units from across our nation. APAFR's extensive air and ground space provide our nation's warfighters the ability to train like they fight. In consideration of APAFR's airspace, Polk County established Military Compatibility Zones (MAZ) 1 and 2. One segment of airspace, Restricted Airspace R-2901D WEST, extending from 1000 ft to 4000 ft, is located directly above ILE. Development of duplexes underneath low-altitude restricted airspace would typically be a significant encroachment concern, however inclusion into an established residential community, should not have additional negative impact to APAFR's mission.

3. Thank you for your consideration. We sincerely hope this information helps inform your evaluation of these proposed amendments. If you have any questions or want any additional information, please contact me by email at albert.chang@us.af.mil or at my duty mobile number: 813-787-8942.

Commander

Agenda Item N.11. 6/16/2026

SUBJECT

Public Hearing (LDCT-2026-12 ILE LDC Duplex and Use Table Text Change) (First Reading) to consider the adoption of ordinance amending the Land Development Code regarding Chapter 4, Section 402, c. Indian Lakes Estates (Pre-DRI #2) to add a use table and conditions for duplex units on septic tanks, minimum septic tank requirements, and prohibiting parcel subdivision. This case is related to LDCPAL-2026-5, a companion Comprehensive Plan text amendment. (No Fiscal Impact)

DESCRIPTION

This is a County-initiated to modify Chapter 4 regarding Indian Lakes Estates (ILE). ILE is located east of Lake Walk in the Water, south of SR 60 and north of CR 630 between Lake Walk in the Water and the intersection of SR 60 and CR 630. On June 3, 2026, the Planning Commission voted 7:0 to recommend approval of the amendment.

Section 163.3202, Florida Statutes (F.S.) requires the Board to adopt Land Development Code (LDC) regulations consistent with the implementation of the Polk County Comprehensive Plan. Amendments to the LDC require two public hearings before the Board to be adopted. This is the first of the two hearings.

RECOMMENDATION

After the second reading on August 16, 2026

Approve

FISCAL IMPACT

No Fiscal Impact

BoCC Dates:	June 16, 2026, 1st reading, and August 16, 2026, Adoption
Applicant:	County Initiated
Level of Review:	Level 4 Review, Land Development Code Text Amendment
Case Number and Name:	LDCT-2026-12 ILE LDC Text Amendment
Request:	Land Development Code text amendment to Chapter 4, Section 402, c. Indian Lakes Estates (Pre-DRI #2) to add a use table and conditions for duplex units on septic tanks, minimum septic tank requirements, and prohibiting parcel subdivision. This case is related to LDCPAL-2026-5, a companion Comprehensive Plan text amendment.
Location:	Indian Lakes Estates is located east of Lake Walk in the Water, south of SR 60 and north of CR 630 between Lake Walk in the Water and the intersection of SR 60 and CR 630.
Property Owner:	Various property owners in Indian Lakes Estates
Parcel Size:	N/A
Development Area:	Neighborhood Utility Service Area (NUSA) and the Suburban Development Area (SDA)
Future Land Use:	Office Center-X (OCX), Community Activity Center-X (CAC-X), Neighborhood Activity Center-X (NAC-X), Recreation and Open Space-X (ROS-X), Residential Low-X (RL-X) and Residential Suburban-X (RS-X).
Nearest Municipality	Frostproof
DRC Recommendation:	Approval
Planning Commission Vote:	Approval 7:0
Florida Commerce	Pending transmittal
Case Planner:	Chanda Bennett, Comprehensive Planning Administrator

The changes to Chapter 4, section 402, c, Indian Lakes Estates (PRE-DRI #2) are:

1) POLICY 2.130-B3.4 –
    a. Adding two conditions that allow duplex units on septic tanks in the Residential Low-4X (RL-4X) at four dwelling units to the acre. The conditions are summarized as follows:
        i. Each duplex unit in RL-4X shall be limited to one septic tank per duplex unit on a parcel as it existed on August 16, 2026;
        ii. Adding minimum requirements for septic tank design.

Summary of Analysis

This is a County-initiated amendment revising the regulations in Chapter 4, Section 401, c, Indian Lakes Estates (Pre-DRI #2) in the Land Development Code adding a use table and conditions for duplex units on septic tanks, minimum septic tank requirements and prohibiting parcel subdivision. This case is related to LDCPAL-2026-5, a companion Comprehensive Plan text amendment.

These requests modify the sewer connection requirements to allow one septic tank per duplex structure in Residential Low-X (RL-X) at densities over two dwelling units per acre. Connection to centralized sewer is required per Comprehensive Plan Policy 2.130-B3.4 for anything over two (2) dwelling units per acre in the RLX. Table 2.1 of the Land Development Code requires a Level 3 Review for duplex structures in the RLX. However, there is no sewer available in ILE and none is anticipated. The lot sizes in the RLX in ILE are mostly half an acre. This request includes a proposal to make duplex units a Conditional Use Level 1 Review (C1-administrative review). The need for this amendment is due to the two building permits that were issued for duplex units in Indian Lakes Estates in error, as follows:

- BR-2025-8850 on a half-acre parcel ID# 303109-994110-034548 in the RLX on a paved road;
- BR-2025-6542 on a half-acre parcel ID# 303109994110034803 in Residential Medium-X (RMX) on an unpaved road.
- The builders have converted the units to a single-family home and may convert the units back to a duplex at some point in the future.

ILE Background – Indian Lake Estates (ILE) is a platted subdivision of residential & non-residential lots recorded in the official records of Polk County, Florida, consisting of 8,000 ± lots (approx. 5,000 acres). ILE is not a vested development from the DRI statute. On November 30, 2004, the Board of County Commissioners approved a Comprehensive Plan map and text amendment for ILE (CPA 04B-09) based on a request from area property owners because there were no officially recognized land use designations in the Polk County Comprehensive for ILE. Prior to this amendment the Future Land Use designation was Pre-Development of Regional Impact #2. Development approvals were based on the Pre-Planned Unit Development and the subdivision documentation in Building. ILE is also governed by restrictive covenants of which the County does not enforce.

Relevant Sections, Policies, and/or Regulations to Consider:
Policy 2.102-A1: Development Location
Policy 2.102-A2: Compatibility
ILE Goals

Findings of Fact

Request and Legal Status

- This is a Land Development Code text amendment (LDCT-2026-12) proposed to add a use table similar to Table 2.1, conditions that a duplex is permitted in RLX using a septic tank with only one septic tank per duplex unit on parcels as they existed on August 16, 2026, and minimum requirements for the septic tanks. The use table proposed to be added to Chapter 4 for ILE, part of LDCT-2026-12, will make duplex units a Conditional Use Level 2 Review rather than as listed in Table 2.1 for the rest of the County as a Conditional Use Level 3 Review.

- This is a County-initiated request to amend Policies 2.130-B3.4 to modify the sewer connection requirements to allow one septic tank per duplex structure in Residential Low-X (RL-X) in Section 2.130-B Indian Lakes Estates (ILE). This case is related to LDCT-2026-12, a companion Land Development Code Text Amendment.

- Two building permits were issued for duplex units in Indian Lakes Estates in error, as follows:

    A. BR-2025-8850 on a half-acre parcel ID# 303109-994110-034548 in the RLX on a paved road;
    B. BR-2025-6542 on a half-acre parcel ID# 303109994110034803 in Residential Medium-X (RMX) on an unpaved road.
    C. The builders have converted the units to a single-family home and may convert the units back to a duplex at some point in the future.

- ILE is a platted subdivision of residential & non-residential lots recorded in the official records of Polk County, Florida, consisting of 8,000 ± lots (approx. 5,000 acres).

- All roads in ILE are privately owned and maintained by ILE.

- On November 30, 2004, the Board of County Commissioners approved a Comprehensive Plan map and text amendment for ILE (CPA 04B-09) based on a request from area property owners because there were no officially recognized land use designations in the Polk County Comprehensive for ILE. Prior to this amendment the Future Land Use designation was Pre-Development of Regional Impact #2.

- Development approvals were based on the Pre-Planned Unit Development and the subdivision documentation in Building.

- The table in Policy 2.130-B3.4 states the maximum density in RLX that can be on centralized water, but no sewer is two (2) dwelling units to the acre and the maximum density in RLX of (5) five dwelling units to the acre must be on public water and sewer. Therefore, any density over two (2) dwelling units per acre require centralized water and sewer connections.

- The use of septic tanks is permitted for densities less than five (5) dwelling units to the acre in other areas of unincorporated Polk County.

- Duplex units in Table 2.1 are currently listed as a Conditional Use Level 3 Review.

- ILE is in the Military Compatibility Zone 1 and Zone 2 for the Avon Park Airforce Range.

Compatibility and Infrastructure

- The Board of County Commissioners denied a Comprehensive Plan amendment (LDCPAL-2024-15) in February of 2025 modifying Policy 2.130-B3.4 to allow densities over two (2) dwelling units per acre to be on septic and to allow duplex units in the Office Center-X (OCX) Future Land Use designation.

- The Board of County Commissioners also denied a companion Land Development Text amendment (LDCT-2024-24) to add a use table to the ILE section in Chapter 4 of the LDC and to reference the allowance for septic.

- ILE is for the most part an isolated community surrounded predominantly by Agriculture/Residential Rural (A/RR) land use. Also surrounding ILE to the north is the Sumica, a 4,031-acre County owned Environmental Lands property. To the west is Lake Walk-in-Water.

- Canopy Oaks, a Recreational Vehicle Park community, is to the south of ILE.

- Water is provided by ILE Utilities, a private, independent company. There is no current active sewer within ILE.

- Approximately 10 percent of ILE is wetland, and approximately 35 percent is shown to contain Federal Emergency Management Area (FEMA) Flood Zones. The majority of the wetland areas lie on the shoreline of Lake Walk-in-Water. Some isolated wetlands appear in the interior of the development along the shoreline of the ponds. Almost all of the known wetlands are located within lands owned by the ILE Homeowners Association and not planned or approved for development.

- The nearest active airport facility is the airfield at River Ranch, a Development of Regional Impact (DRI) seven miles to the east. Airspace for the Avon Park Bombing Range is within closer proximity to the development. Neither of these facilities will be adversely impacted by the fulfillment of the ILE development plan.

- There have been protected plant and community sightings in the eastern part of ILE and there have been protected animal sightings in the eastern and western parts of ILE.

- ILE has a community golf course, several small community parks, an extensive system of greenway trails, community boat ramp, marina, beach and pier onto Lake Walk-In-Water.

Additionally, there are several ponds located throughout ILE and to the north is the 4,031 acre Sumica County owned Natural Area.

Comprehensive Plan Policies and Land Development Code Regulations

- POLICY 2.102-A1 Development Location states that Polk County shall promote contiguous and compact growth patterns through the development process to minimize energy costs, conserve land, water, and natural resources, minimize the cost of services, and prevent development patterns where tracts of land are by-passed in favor of development more distant from services and existing communities.

- POLICY 2.102-A2 Compatibility states that land shall be developed so that adjacent uses are compatible with each other, pursuant to the requirements of other Policies in this Future Land Use Element, so that one or more of the following provisions are accomplished: a. there have been provisions made which buffer incompatible uses from dissimilar uses; b. incompatible uses are made to be more compatible to each other through limiting the intensity and scale of the more intense use; c. uses are transitioned through a gradual scaling of different land use activities through the use of innovative development techniques such as a Planned Unit Development.

- The goals of the ILE development in the Comprehensive Plan include:
    - GOAL 2.130-B1: Remain a secure and sustainable suburban resort-oriented community.
    - GOAL 2.130-B2: Preserve the natural beauty, wildlife and solitude of ILE and the surrounding area.
    - GOAL 2.130-B3: Encourage sustainable growth by promoting a mixture of residential and non-residential uses outside the gate; and allowing only single-family residential and amenities with services inside the gate.
    - GOAL 2.130-B4: For Indian Lake Estate to continue to develop at the same quality as it has in the past.

Recommendation

Development Review Committee Recommendation: Based on the information provided and the analysis conducted within this staff report, the Development Review Committee finds that with the proposed conditions the request **IS CONSISTENT** with the Polk County Comprehensive Plan and Land Development Code. Therefore, the Development Review Committee (DRC) recommends **APPROVAL of LDCT-2026-12.**

Planning Commission Recommendation: On June 3, 2026, at an advertised public hearing, the Planning Commission recommend 7:0, to **APPROVE/DENY LDCT-2026-12.**

GENERAL NOTES
NOTE: This staff report was prepared without the benefit of testimony and evidence submitted by the public and other parties at a public hearing.

Analysis:

Exhibits 2, 3, and 4 display parcels staff have been asked to allow duplex structures in ILE in 2024. Moreover, a building permit has been issued for a duplex unit in the Residential Low-X (RLX) at the south end of Fort Myers Drive on a parcel that is half an acre and a duplex building permit for a property in the Residential Medium-X (RMX) on a half an acre on an unpaved road. Both parcels are connected to public water and on septic. The roads in ILE are all private. The duplex makes the density four (4) dwelling units per acre. Policy 2.130-B3.4 includes a table providing maximum densities and intensities given the availability of centralized water and sewer. This table states the maximum density in Residential Low-X (RLX) as displayed below with the recommended text modification highlighted in yellow.

FLU	Without Central Water or Sewer		With Central Water, but not Sewer		With Central Water & Sewer*	
	Maximum Density	Maximum FAR	Maximum Density	Maximum FAR	Maximum Density	Maximum FAR
RLX	1 du/ac	0.05	2 du/ac **	0.1	5 du/ac	0.25
RMX	1 du/ac	0.05	4 du/ac	0.15	10 du/ac	0.25
OCX	1 du/ac	0.1	2 du/ac	0.2	5 du/ac	0.30
NACX*	1 du/ac	0.1	4 du/ac	0.2	10 du/ac	0.25
CACX*	1 du/ac	0.15	4 du/ac	0.2	10 du/ac	0.35
INSTX	n/a	0.1	n/a	0.2	n/a	0.25
* Residential only permitted in NACX and CACX in connection with retail as a mixed use or live-work unit. ** See Policy 2.130-B3.4						

Most lots in the RL-4X and the RMX in ILE are half acre which is a density of two (2) dwelling units to the acre, if a single-family home is constructed on each. A subdivision of these lots or a duplex on any of these lots makes the density four (4) dwelling units per acre. However, the table in the Comprehensive Plan displayed above does not permit densities above two (2) dwelling units per acre on septic tanks. Other areas in RL-4 in unincorporated Polk County outside of ILE have the option to develop at three (3) and (4) dwelling units per acre with septic tanks if permitted by the Health Department. However, duplex units in RL-4 is a Level 3 Review per Table 2.1 of the Land Development Code.

The LDC text amendment (LDCT-2026-12) is being proposed to add a use table in Chapter 4 for ILE like Table 2.1 in Chapter 2 for just the Future Land Use designations within ILE which are listed below. The only difference will be that duplex units in ILE is proposed a Conditional Use Level 1 Review (C1 - administrative staff level review) versus Table 2.1 that requires a Conditional Use Level 3 Review for all duplex units in RL. Duplex units in RM are a permitted use "P" in Table 2.1.

- Residential Suburban (RS)
- Residential Low (RL)
- Neighborhood Activity Center (NAC)
- Community Activity Center (CAC)
- Institutional (INST)

- Recreation and Open Space (ROS)

Infrastructure Impacts - This does remove some barriers to development that can lead to more growth. However, ILE is a vested development. These changes will encourage development in an area already planned for such. Any infrastructure impacts will be implemented and required per the concurrency standards listed in Chapter 7 of the LDC.

Avon Park Airforce Range Military Compatibility Zone (Range)

ILE is in both Compatibility Zones for the Range. There is a Military Compatibility Zone 1 and Zone 2 (See Exhibit 5). Section 2.124-I of the Comprehensive Plan has policies for the Range.

https://library.municode.com/fl/polk_county/codes/comprehensive_plan?nodeId=CH2DEPO_DIV2.100FULAUSEL_S2.124-IAVPAAIRAMICOZO

These policies address coordination and implementation of the Joint Land Use Study prepared by the Central Florida Regional Planning Council (CFRPC). Chapter 6 of the Land Development Code includes standards for the Range.

https://library.municode.com/fl/polk_county/codes/land_development_code?nodeId=CH6REPR_S642MICOZORE251RD19-008092112OR12-028

The proposed changes will make development in ILE easier which is of a concern for the Range. However, All the lots in ILE are vested lots that are eligible for some type of development.

Comparisons to other Jurisdictions:

Special policies and development code regulations are common in other jurisdictions throughout Florida. The current section for ILE is equivalent to the County's section of the Comprehensive Plan and Land Development Code regarding Selected Area Plans. Section 2.130 of the Comprehensive Plan was created for Developments of Regional Impact (DRI). It seems appropriate to make these changes to the policy related to ILE allow infill development and the potential for more residential development to accommodate the growing population of Polk County rather than creating new residential communities.

Benefit-Cost Analysis of the Amendment

Who does it help?
This amendment directly benefits the affected landowners in Residential Low by allowing more flexibility in duplex construction. The removal of sewer connection makes duplex unit an obtainable housing type in RL in ILE. In addition, by restricting one septic tank per duplex unit, it does not increase impacts to the environment because each parcel in RL in ILE would receive a septic tank per lot.

Who does it hurt?
There is the potential for existing single-family residents to live adjacent to lots that will receive a duplex unit without a public hearing. Not all property owners consider a mixture of housing types

in a community beneficial. Moreover, the residents of duplex units living on an unpaved road may experience dust and negative impacts on their vehicles. Section 705 of the Land Development Code (LDC) requires all residential structures to access a county paved and maintained road or a private paved road meeting County standard. Chapter 9 of the LDC does permit a waiver to this requirement. Staff will have to determine how these two building permits impact issuing unpaved road frontage waivers for additional building permits.

What is the cost?
There are some roadways in ILE that are not paved. The roads are private, however. Changing duplex units to a C1 instead of a Conditional Use 3 Review has the potential to increase the costs to ILE in terms of road maintenance which does in turn increase the costs to the new residents.

Limits of the Proposed Ordinances

The scope of the amendment will impact new development within the RL-4X designation only ILE. The Comprehensive Plan text amendment and the Land Development Code text amendment will allow duplex units in RLX at four dwelling units to the acre on public water and septic.

Consistency with the Comprehensive Plan

Consistency with the Comprehensive Plan and Land Development Code
Many policies within the Comprehensive Plan are reviewed for consistency with an application. The most relevant policies for the proposed request are included in this section. The policy is first stated and then an analysis of how the request is provided to state that it may or may not be consistent with the Comprehensive Plan. How the request is **consistent or inconsistent** with the Comprehensive Plan is listed below:

Table 8 Consistency with the Comprehensive Plan

Policy	Consistency
Policy 2.102-A1: **Development Location** – Polk County shall promote contiguous and compact growth patterns through the development process to minimize energy costs, conserve land, water, and natural resources, minimize the cost of services, and prevent development patterns where tracts of land are by-passed in favor of development more distant from services and existing communities.	The proposed text amendments are a small change to allow for duplex units and allow some growth without sewer. The request is consistent with this policy and with the existing development allowances elsewhere in Polk County.
Policy 2.102-A2: Compatibility - Land shall be developed so that adjacent uses are compatible with each other, pursuant to the requirements of other Policies in this Future Land Use Element, so that one or more of the following provisions are accomplished: a. there have been provisions made which buffer incompatible uses from dissimilar uses; b. incompatible uses are made to be more compatible to each other through limiting the intensity and scale of the more intense use; c. uses are transitioned through a gradual scaling of different land use activities through the use of innovative development techniques such as a Planned Unit Development.	The proposed policy text changes along with the other requirements in the Land Development Code such as Section 220 ensure compatibility with the new uses.

Policy	Consistency
GOAL 2.130-B1: Remain a secure and sustainable suburban resort-oriented community. **GOAL 2.130-B2:** Preserve the natural beauty, wildlife and solitude of ILE and the surrounding area. **GOAL 2.130-B3:** Encourage sustainable growth by promoting a mixture of residential and non-residential uses outside the gate; and allowing only single-family residential and amenities with services inside the gate. **GOAL 2.130-B4:** For Indian Lake Estate to continue to develop at the same quality as it has in the past.	The proposed amendment related to sewer exemption will allow duplex units at no more than four (4) units per acre on public water and sewer.
POLICY 2.124-I2: In compliance with section 163.3175(5), F.S., Polk County shall continue to coordinate with range representatives and the Central Florida Regional Planning Council (CFRPC) to adopt and implement development standards and guidelines that minimize impacts of development on the operations of the military installation. The Land Development Code shall address land use, lighting, height, noise, and communication frequency spectrums in defining the criteria for compatibility within the MCZ.	Polk County has reached out to the Central Florida Regional Planning Council and the Avon Park Airforce Range base representative. The Avon Park Airforce Range did submit a letter of opposition to a similar type of request from January of 2025. This letter is provided under separate cover. An updated letter will be provided if received prior to the Planning Commission hearing.

ORDINANCE NO. 26-_____

AN ORDINANCE OF THE POLK COUNTY BOARD OF COUNTY COMMISSIONERS REGARDING LAND DEVELOPMENT CODE AMENDMENT **LDCT-2026-12**, AMENDING ORDINANCE NO. 00-09, AS AMENDED, THE POLK COUNTY LAND DEVELOPMENT CODE; MODIFYING CHAPTER 4, SECTION 402.C, TO ADD CONDITIONS FOR WHEN DUPLEX STRUCTURES CAN USE SEPTIC TANKS; TO ADD A USE TABLE; ADD A REFERENCE TO THE ZONING ORDINANCE; DELETE A REFERENCE TO THERE BEING NO LAND USE MAP FOR INDIAN LAKE ESTATES (PRE-DRI #2) ; PROVIDING FOR SEVERABILITY; AND PROVIDING FOR AN EFFECTIVE DATE.

WHEREAS, pursuant to Article VIII, Section I(g) of the Constitution of the State of Florida and the Community Planning Act, Chapter 163, Part II, Florida Statutes (FS), as amended, (the Act) Polk County is authorized and required to adopt a Land Development Regulations consistent with the Polk County Comprehensive Plan; and

WHEREAS, the Board of County Commissioners adopted said Land Development Regulations on March 1, 2000, titled the Polk County Land Development Code; and

WHEREAS, Chapter 9, Section 903 of the Land Development Code requires Land Development Code Amendments to be a Level 4 Review; and

WHEREAS, Chapter 9, Section 907 sets forth the purpose and review process for Level 4 Reviews; and

WHEREAS, pursuant to Section 125.67 of the Florida Statutes, every ordinance shall embrace but one subject and matter properly connected therewith; and

WHEREAS, pursuant to Section 163.3164 of the Florida Statutes, the Polk County Planning Commission conducted a public hearing, with due public notice having been provided, on the proposed Land Development Code Amendment on June 3, 2026; and

WHEREAS, the proposed text amendment to the Polk County Land Development Code shall clarify standards as they pertain to Section 220, Chapter 2 Compatibility Standards, to add Agricultural Residential Rural (A/RR) to the list of Future Land Use designations where 50-foot compatibility zones apply; and add a new Subsection H. to add screening and buffering standards for structures with four (4) or more loading/unloading areas and docking bays; and

WHEREAS, the Board of County Commissioners held two public hearings on June 16, 2026 and August 16, 2026, wherein the Board reviewed and considered the Planning Commission's recommendation, the staff report, and all comments received during said public hearings, and provided for necessary revisions; and

NOW, THEREFORE, BE IT ORDAINED by the Board of County Commissioners of Polk County, Florida that:

> *NOTE:* The underlined text indicates proposed additions to the current language. The ~~strikeout~~ indicates text to be removed from the current ordinance.

SECTION 1: FINDINGS The Board hereby finds and determines that:

a) The findings set forth in the recitals to this Ordinance are true and correct and hereby adopted.

b) The Planning Commission, acting in its capacity as the Local Planning Agency for the County, held a public hearing on June 3, 2026, to consider the LDC text amendments contained within Application LDCT-2026-12 and found them to be consistent with the Comprehensive Plan and recommended that the Board adopt the LDC Text Amendment contained within Application LDCT-2026-12.

c) The adoption of LDCT-2026-12 is consistent with the Comprehensive Plan and LDC.

SECTION 2: Chapter 4, Section 402.C, Development of Regional Impact and Pre-Development of Regional Impact, and Utility Enclave Areas, Indian Lake Estates (Pre-DRI #2) of the Polk County Land Development Code, Polk Ordinance No. 00-09, as amended, is hereby amended in the following manner:

C. **Indian Lake Estates (PRE-DRI #2)**

The following shall apply to Indian Lakes Estates:

1. Description - The Indian Lake Estates development comprises more than 5,000 acres and of the zoning designation of Pre-Existing Planned Unit Development (P.E. PUD) under the repealed zoning ordinances. ~~There is no approved land use map for Indian Lake Estates.~~ Indian Lake Estates is not a vested development from the DRI statute like Poinciana. This development is a platted subdivision, recorded in the official public records of Polk County, Florida as follows:

UNIT #	PLAT BOOK #/PAGE #	LOTS
1	PB 39, PG 1	864
2	PB 39, PG 14	864
3	PB 39, PG 18	432
4	PB 39, PG 30	432
5	PB 39, PG 31	864
6	PB 40, PG 41	847
7	PB 39, PG 46	420
8	PB 39, PG 47	137
9	PB 40, PG 42	864
10	PB 40, PG 14	305
11	PB 40, PG 15	426

12	PB 40, PG 19	(Recreation Area)
13	PB 40, PG 20	544
14	PB 40, PG 21	844
15	PB 40, PG 48	24
16	PB 40, PG 14	78
17	PB 40, PG 50	(Commercial)
		TOTAL LOTS = 7,942

2. Block uses - Except for certain lots in Units 10 and 11, the permitted use of all lots within this development is single-family residential in residential districts. The following lots in Unit 10 are designated as commercial:

Block 318	Lots 1, 5, 6
Block 319	Lots 1-19
Block 320	Lots 9-11
Block 321	Lots 26-28
Block 325	Lots 23-28
Block 327	Lots 14, 15, 17

The following lots in Unit 11 are permitted for single-family or duplex residential structures:

Block 346	Lots 9-16
Block 347	All
Block 348	All

3. Duplexes – Duplex units may be permitted on septic tanks without the requirement to connect to public sewer only in the RL-4 under the following conditions:

a. Each duplex unit, in Residential Low-4, shall be limited to one (1) on-site sewage treatment and disposal system (OSTDS) to serve the duplex structure located on a single parcel as the parcel existed on August 16, 2026. Separate septic systems for individual dwelling units shall not be permitted. The system shall be designed, permitted and installed in accordance with all applicable requirements of the Florida Department of Health and/or Department of Environmental Protection (DEP).

b. The required capacity of the on-site sewage treatment and disposal system shall be based on estimated wastewater flows calculated at a minimum rate of 100 gallons per day per bedroom. The total design flow for the duplex shall be the cumulative total of all bedrooms within both dwelling units. Final system sizing, design, and permitting shall be subject to review and approval by the Florida Department of Health and/or Department of Environmental Protection (DEP) and must meet or exceed all applicable state standards.

MEMORANDUM FOR POLK COUNTY PLANNING COMMISSION
Mr. Robert Beltran, Chair
Polk County
330 W. Church Street
Bartow, FL 33831-9005

FROM: 598 RANS/CC
29 South Blvd
Avon Park Air Force Range, FL 33825

SUBJECT: Polk County LDCPAL-2024-15 and LDCT-2024-24

1. I am sending this letter to formally share my viewpoint regarding the proposed Comprehensive Plan and Land Development Code (LDC) text amendments. The proposed Indian Lakes Estates (ILE) Comp Plan and LDC amendments do not present mission sustainment/encroachment concerns for APAFR. We would emphasize, however, increases in residential density underneath military Special Use Airspace (SUA) could result in noise complaints; will increase risk to public safety should an aviation mishap occur; and set a concerning precedence for future compatibility with APAFR.

2. APAFR is the largest USAF air-to-ground training range in the eastern U.S., providing world-class military training for DoW units from across our nation. APAFR's extensive air and ground space provide our nation's warfighters the ability to train like they fight. In consideration of APAFR's airspace, Polk County established Military Compatibility Zones (MAZ) 1 and 2. One segment of airspace, Restricted Airspace R-2901D WEST, extending from 1000 ft to 4000 ft, is located directly above ILE. Development of duplexes underneath low-altitude restricted airspace would typically be a significant encroachment concern, however inclusion into an established residential community, should not have additional negative impact to APAFR's mission.

3. Thank you for your consideration. We sincerely hope this information helps inform your evaluation of these proposed amendments. If you have any questions or want any additional information, please contact me by email at albert.chang@us.af.mil or at my duty mobile number: 813-787-8942.

Agenda Item N.12. 6/16/2026

SUBJECT

Public Hearing (LDCT-2026-14 Polk City SPA LCCX Text Amendment) (First Reading) to consider the adoption of an ordinance amending the Land Development Code Chapter 5, Green Swamp Area of Critical State Concern, Section 502, Standards for Land Use Districts in the Green Swamp ACSC, Table 5.2, Use Table for Green Swamp ACSC, removing footnote number 1 to allow for Comprehensive Plan Future Land Use Map amendments to the Linear Commercial Corridor-X (LCCX) district in the Polk City Special Protection Area of the Green Swamp Area of Critical State Concern. (No Fiscal Impact)

DESCRIPTION

County-initiated requested text amendment amending Ordinance No. 00-09, as amended, the Polk County Land Development Code, amending Chapter 5, Green Swamp Area of Critical State Concern, Section 502, Standards for Land Use Districts in the Green Swamp ACSC, Table 5.2, Use Table for Green Swamp ACSC, removing footnote number 1 to allow for Comprehensive Plan Future Land Use Map amendments to the Linear Commercial Corridor-X (LCCX) district in the Polk City Special Protection Area of the Green Swamp Area of Critical State Concern; providing for severability; providing an effective date. State law requires one Planning Commission hearing, which was held on June 3, 2026, with a recommendation for approval by a 7:0 vote.

Section 163.3202, Florida Statutes (F.S.) requires the Board to adopt Land Development Code (LDC) regulations consistent with the implementation of the Polk County Comprehensive Plan. Amendments to the LDC require two public hearings before the Board to be adopted. This is the first of the two hearings.

Request:	An LDC text amendment to Chapter 5, Green Swamp Area of Critical State Concern, Section 502, Standards for Land Use Districts in the Green Swamp ACSC, Table 5.2, Use Table for Green Swamp ACSC, removing footnote number 1 to allow for Comprehensive Plan Future Land Use Map amendments to the Linear Commercial Corridor-X (LCCX) district in the Polk City Special Protection Area of the Green Swamp Area of Critical State Concern; providing for severability; providing an effective date.
Location:	n/a
Property Owner:	n/a
Parcel Size (Number):	n/a
Development Area:	n/a
Nearest Municipality:	n/a
DRC Recommendation:	Approval
Planning Commission Vote:	Approval (7:0)

The change to Chapter 5, Section 502, Table 5.2 is:

- The following will be removed:
  ~~Footnotes for Table 5.2~~
  1. ~~Comprehensive Plan Amendments to change a parcel's Future Land Use District to Linear Commercial Corridor within the Polk City Special Protection Area are prohibited by Policy 2.132-C3 of the Polk County Comprehensive Plan. Only parcels with the existing LCCX Future Land Use District are allowed within the Polk City Special Protection Area.~~

Summary:

The proposed amendment is a county initiated request to modify Chapter 5, Green Swamp Area of Critical State Concern, Section 502, Standards for Land Use Districts in the Green Swamp ACSC, Table 5.2, Use Table for Green Swamp ACSC, to remove footnote 1 which references *Policy 2.132-C3 of the Polk County Comprehensive Plan* as the limiting source for expansion of Linear Commercial Corridor-X (LCCX) within the Polk City Special Protection Area (SPA).

The Land Development Code Chapter 5, Green Swamp Area of Critical State Concern, Section 502, Standards for Land Use Districts in the Green Swamp ACSC, Table 5.2 lists LCCX as an allowable Land Use district and has established the permitted and conditional uses for the Land Use district. Currently there is one (1) parcel that has an existing LCCX Future Land Use designation and one (1) parcel that can meet the Comprehensive Plan's criteria for expansion of a Linear Commercial Corridor (LCC) district.

Data and Analysis Summary

Staff have reviewed the Land Development Code Chapter 5 Green Swamp Area of Critical State Concern (ACSC), including Section 504 -Ridge Special Protection Area (Ridge-SAP), Section 505 – Polk City/Urban Growth Special Protection Area (PC-SPA), and Section 506 – Rural Special Protection Area (Rural-SPA). Table 5.2 Use Table for Green Swamp ACSC is the Use Table for the Green Swamp ACSC, including the three (3) SPA's. Of the three (3) SPA's within the Green Swamp ACSC, the footnote only applies to the Polk City/Urban Growth Special Protection Area (PC-SPA).

The amendment, striking the footnote will allow the Polk City SPA, will allow the Land Development Code to have parity within Future Land Use districts on implementation of the Comprehensive Plan Policy 2.132-C3 which permits the Linear Commercial Corridor (existing) (LCC) district. The interpretation, within other LCC districts with the (existing) reference is the (existing) refers to not making a new LCC district, not expansion of an existing LCC district.

The Land Development Code Section 104 – Conflict wit the Comprehensive Plan states "In the event of a conflict between the Polk County Comprehensive Plan and this Code, the Comprehensive Plan shall control." And the Comprehensive Plan Section 1.107.K.1. in reference to conflicts between the Comprehensive Pan and Land Development Code states in part "and the land development regulations are inconsistent, the provisions of the most recently adopted comprehensive plan, or element or portion thereof, shall govern any action taken in regard to an application for a development order." The footnote for Table 5.2, while adopted by the Board of County Commissioners, is considered to be in conflict with both the Land Development Code and Comprehensive Plan as to the above matters of interpretation.

This amendment applies to the Linear Commercial Corridor-X (LCCX) districts in the Green Swamp Area of Critical State Concern. Florida Commerce requires a 45-day review on all policy changes affecting development in the Green Swamp Area of Critical State Concern regardless of whether it has a direct relationship to the primary purpose of the Critical Area, which is aquifer recharge and protection.

Findings of Fact

1. *The request is a Land Development Code text amendment to Section 502, Table 5.2 Criteria for Conditional Uses for High Intensity Recreation to allow access via easement for firearms ranges.*

2. *This amendment applies to the Linear Commercial Corridor-X (LCCX) Future Land Use Map designation within the Polk City SPA in the Green Swamp Area of Critical State Concern.*

3. *On August 18, 2010 the Polk County Board of County Commissioners adopted LDC 10T-08 which established the Linear Commercial Corridor-X (LCCX) as a Future Land Use District within the Green Swamp ACSC adding permitted and conditional uses to Table 5.2, and added Footnote 1, which prohibits the expansion of the LCCX only within the Polk City SPA.*

4. *The Land Development Code Table 5.3 provides the Density and Dimensional Regulations for Green Swamp Area of Critical State Concern including the three (3) SPA's.*

5. *Land Development Code SECTION 104 -Conflict With Comprehensive Plan:*
   In the event of a conflict between the Polk County Comprehensive Plan and this Code, the Comprehensive Plan shall control.

6. *Comprehensive Plan SECTION 1.107 Rules of Interpretation K. Conflicts With Other Ordinances:*
   1. In accordance with Section 163.3194, FS, the following law applies with regard to conflicts with existing land development regulations:
   During the interim period when the provisions of the most recently adopted comprehensive plan, or element or portion thereof, and the land development regulations are inconsistent, the provisions of the most recently adopted comprehensive plan, or element or portion thereof, shall govern any action taken in regard to an application for a development order.
   2. Any land-use densities and intensities, level-of-service standards, or any other standards established within this Plan are considered minimum standards and may be further qualified, refined, and/or restricted through the; Adopted used to implement this Plan, so long as they are consistent with this Plan.

7. *POLICY 2.111-A1: Characteristics, of the Comprehensive Plan for Linear Commercial Corridors states that "Linear Commercial Corridors are characterized by linear concentrations of all types of commercial, office, and institutional uses along a roadway. Some Linear Commercial Corridors may contain existing industrial uses. For parcels with LCC land use designation in the TSDA and/or TCCO, development and redevelopment of areas may also include stand alone residential and mixed use structures."*

8. *POLICY 2.111-A3: Location Criteria, of the Comprehensive Plan for Linear Commercial Corridors states in part that "Expansion of an LCC shall be limited to infill development. Infilling of an existing Linear Commercial Corridor shall be limited to a depth which corresponds to the typical depth of existing development within the general area of the infill development. The extension (along the road) or establishment of new LCC strips shall not be permitted, except to recognized legitimate errors made during the original mapping process."*

9. *POLICY 2.111-A4: Development Criteria, of the Comprehensive Plan for Linear Commercial Corridors states "Development or redevelopment within a Linear Commercial Corridor shall conform to the following criteria:"*
   a. Permitted uses include all types of commercial, office, and institutional uses typically located along a roadway. New industrial and High-Impact-Commercial-type (HIC) development shall be

limited to in-filling existing industrial/HIC areas, and new industrial/HIC development shall not extend or expand these industrial/high-impact areas.

b. *New development or redevelopment of non-residential uses within a Linear Commercial Corridor shall be limited to the intensities of uses at the same or less intensity as adjacent existing uses. New development or redevelopment of non-residential uses adjacent to existing uses shall be compatible with each other without allowing a higher intensity of development.*
c. *Step-down uses shall be encouraged between different intensity uses as in-fill and shall be lower in intensity than the highest existing intensive use. Step-down uses shall be contiguous to an intensive use land use, and shall not be separated from that use by an arterial or collector road, or a natural or man-made barrier which makes the step-down use unnecessary.*
d. *New development or redevelopment within a Linear Commercial Corridor shall incorporate the use of frontage roads wherever there is adequate public right-of-way or there is property available for the expansion of the right-of-way or the establishment of frontage-road easements to facilitate such roads in accordance with recognized highway safety standards. Whenever the placement of frontage roads is not practical, shared ingress/egress facilities shall be used.*
e. *Adequate parking shall be provided to meet the demands of the uses, and interior traffic circulation shall facilitate safe bicycle and pedestrian movement.*
f. *Where the LCC abuts residential areas, uses should be limited to a size, scale, and intensity necessary to provide the residents of the community and surrounding area with retail, personal, and community services. New development or redevelopment of non-residential development adjacent to residential areas shall be compatible with adjacent existing uses without allowing a higher intensity of development.*
g. *Buffering shall be provided where the effects of lighting, noise, odors, and other such factors would adversely affect adjacent land uses. Parking lots, loading areas, dumpsters, utilities and air conditioning units, signage, etc., are examples of facilities that may require special buffering provisions.*
h. *The maximum floor area ratio shall not exceed 0.35 for non-residential development.*

Development Review Committee Recommendation:

The Land Development Division, based on the information provided with the proposed text amendment application, finds that the proposed text change request is **CONSISTENT** with the Polk County Land Development Code and the Polk County Comprehensive Plan. Staff recommend **APPROVAL** of LDCT-2026-14.

Planning Commission Recommendation:

At the June 6, 2026, Planning Commission meeting, the Planning Commission voted 7:0 to recommend **APPROVAL** of LDCT-2026-14.

Analysis

Introduction

The amendment, striking the footnote will allow the Polk City SPA, will allow the Land Development Code to have parity within Future Land Use districts on implementation of the Comprehensive Plan Policy 2.132-C3 which permits the Linear Commercial Corridor (existing) (LCC) district. The interpretation, within other LCC districts with the (existing) reference is the (existing) refers to not making a new LCC district, not expansion of an existing LCC district.

The footnote in the Land Development Code has the implication that the Land Development Code is directing development standards that the Comprehensive Plan is

Within the Polk City SPA only one parcel has a Future Land Use designation of Linear Commercial Corridor-X (LCCX). Authorizing the ability for expansion of a Linear Commercial Corridor-X (LCCX) district allows for the linear concentrations of all types of commercial, office, and institutional uses along a roadway as identified in Section 2.111-A1 of the Comprehensive Plan. Without the ability to expand other non-residential land used districts would need to be utilized and those may not meet the locational criteria. For the Polk City SPA, there is only one (1) parcel that is LCCX. Without the ability, like in the other SPA's, the adjacent property owner would need to part of an application to change to another Future Land Use district.

Recommended Changes

The current Land Development Code Chapter 5, Section 502, Table 5.2, via a footnote prohibits the possible expansion of a Linear Commercial Corridor-X only within the Polk City SPA. The amendment will remove the foot note allowing for expiation of the LCCX in line with the SPA's within the Green Swamp ACSC.

The following will be removed:

~~Footnotes for Table 5.2~~

1. ~~Comprehensive Plan Amendments to change a parcel's Future Land Use District to Linear Commercial Corridor within the Polk City Special Protection Area are prohibited by Policy 2.132-C3 of the Polk County Comprehensive Plan. Only parcels with the existing LCCX Future Land Use District are allowed within the Polk City Special Protection Area.~~

The standards for expansion of Linear Commercial Corridor-X will remain.

Benefit-cost Analysis of the Amendment

Staff find that the benefits of approving this amendment far outweigh the potential harm to the public or businesses. While some potential risk is increased, more risks and adverse impacts are decreased. Under no circumstances will this amendment directly increase the cost of development.

Who does it help?

The amendment will help the County, development and the citizens of the area. It helps the County in bringing the Land Development Code Section 502 Standards for Land Use Districts in the Green Swamp ACSC in alignment with the Land Development Code Policy 2.111-A. It helps the development community in providing consistent development standards within the Green Swamp ACSC. It helps the citizens by providing a path for commercial support development along the US 98 corridor which is currently being widened and upgraded by the Florida Department of Transportation.

Who does it hurt?

The amendment does not have an adverse effect or harm anyone or the community. The request allows the Linear Commercial Corridor-X to operate and expand in the same way it is allowed to in the other Special Protection Areas of the Green Swam ACSC.

What is the cost?

This amendment reduces the cost of development by allowing for the expansion of an existing LCCX district that provides commercial support for the surrounding residential development.

Regulatory History

On August 18, 2010 the Polk County Board of County Commissioners adopted LDC 10T-08 which established the Linear Commercial Corridor-X (LCCX) as a Future Land Use District within the Green Swamp ACSC adding permitted and conditional uses to Table 5.2, and added Footnote 1, which prohibits the expansion of the LCCX only within the Polk City SPA.

The prior amendment appears to have interpreted the use of the (existing) in the Comprehensive Plan, to mean unable to expand, only for the Polk City SPA. The LCCX is an allowable Land Use within the Green Swamp ACSC and has the ability for expiation within other SPA's.

Limits of the Proposed Ordinance

This amendment applies only to the expansion of the Linear Commercial Corridor-X (LCCX) Future Land Use district within the Polk City SPA and the Green Swamp ACSC. All other development standards for the Linear Commercial Corridor-X (LCCX) within the Polk City SPA and the Green Swamp ACSC shall not change. This amendment affects parcels within the Green Swamp Area of Critical State Concern and will require state review.

Florida Commerce requires a 45-day review on all policy changes affecting development in the Green Swamp Area of Critical State Concern regardless of whether it has a direct relationship to the primary purpose of the Critical Area, which is aquifer recharge and protection. Therefore, this request will be reviewed by the Florida Commerce Community Planning Department Areas of Critical State Concern Program. Staff believe that this amendment will have no impact on the Critical Area since the only Linear Commercial Corridor-X (LCCX) is located adjacent to a US Highway 98 a principal arterial road which is currently being widened north of the site to US 301 between Zephyrhills and Dade City in Pasco Caounty.

Comparisons to other Jurisdictions

This section is Not Applicable in that other Jurisdictions do not have a Linear Commercial Corridor-X (LCCX) Future Land Use district within the Green Swamp ACSC.

Consistency with the Comprehensive Plan

The request is consistent with the Comprehensive Plan's requirements for roadway access. SECTION 1.107 Rules of Interpretation K. Conflicts With Other Ordinances, of the Comprehensive Plan which subsection 1, states in part: "*and the land development regulations are inconsistent, the provisions of the most recently adopted comprehensive plan, or element or portion thereof, shall govern any action taken in regard to an application for a development order."* This amendment allows the Linear Commercial Corridor-X (LCCX) Future Land Use district within the Polk City SPA in the Green Swamp ACSC to preform and operate as other Linear Commercial Corridor-X (LCCX) Future Land Use district within the Green Swamp ACSC.

Consistency with the Florida Statutes

Florida Statutes **163.3194** ***Legal status of comprehensive plan*** *(1)(a) After a comprehensive plan, or element or portion thereof, has been adopted in conformity with this act, all development undertaken by, and all actions taken in regard to development orders by, governmental agencies in regard to land covered by such plan or element shall be consistent with such plan or element as adopted.* The remaining subsections of this statue reiterate the subordinate nature of a land development code to the comprehensive plan. The removal of the footnote in Table 5.2 brings the LDC consistent to the Comprehensive Plan.

Draft Ordinance: under separate attachment

ORDINANCE NO. 26-_____

AN ORDINANCE OF THE BOARD OF COUNTY COMMISSIONERS, POLK COUNTY, FLORIDA, LAND DEVELOPMENT CODE AMENDMENT **LDCT-2026-14**, AMENDING ORDINANCE NO. 00-09, AS AMENDED, THE POLK COUNTY LAND DEVELOPMENT CODE, AMENDING CHAPTER 5, GREEN SWAMP AREA OF CRITICAL STATE CONCERN, SECTION 502, STANDARDS FOR LAND USE DISTRICTS IN THE GREEN SWAMP ACSC, TABLE 5.2, USE TABLE FOR GREEN SWAMP ACSC, REMOVING FOOTNOTE NUMBER 1 TO ALLOW FOR COMPREHENSIVE PLAN FUTURE LAND USE MAP AMENDMENTS TO THE LINEAR COMMERCIAL CORRIDOR-X (LCCX) DISTRICT IN THE POLK CITY SPECIAL PROTECTION AREA OF THE GREEN SWAMP AREA OF CRITICAL STATE CONCERN; PROVIDING FOR SEVERABILITY; PROVIDING AN EFFECTIVE DATE.

WHEREAS, pursuant to Article VIII, Section I(g) of the Constitution of the State of Florida and the Local Government Comprehensive Plan and Land Development Regulation Act, Chapter 163, Part II, Florida Statutes (FS), as amended, (the Act) Polk County is authorized and required to adopt Land Development Regulations consistent with the Polk County Comprehensive Plan; and

WHEREAS the Board of County Commissioners adopted said Land Development Regulations on March 1, 2000, titled the Polk County Land Development Code; and

WHEREAS, Chapter 9, Section 903 of the Land Development Code requires Land Development Code Amendments to be a Level 4 Review; and

WHEREAS, Chapter 9, Section 907 sets forth the purpose and review process for Level 4 Reviews; and

WHEREAS, pursuant to Section 125.67 of the Florida Statutes, every ordinance shall embrace but one subject and matter properly connected therewith; and

WHEREAS, pursuant to Section 163.3164 of the Florida Statutes, the Polk County Planning Commission conducted a public hearing, with due public notice having been provided, on the proposed Land Development Code Amendment on June 3, 2026; and

WHEREAS the proposed text amendment to the Polk County Land Development Code is intended to allow for Comprehensive Plan Future Land Use Map amendments to the Linear Commercial Corridor-X district of the Polk City Special Protection Area of the Green Swamp Area of Critical State Concern, provide conditions of approval, and define storage yards; and

WHEREAS, the Board of County Commissioners reviewed and considered all comments received during a public hearing on July 21, 2026, and provided for necessary revisions; and

NOW, THEREFORE, BE IT ORDAINED by the Board of County Commissioners of Polk County, Florida that:

NOTE: The underlined text indicates proposed additions to the current language. The ~~strikeout~~ indicates text to be removed from the current ordinance.

SECTION 1: FINDINGS The findings set forth in the recitals to this Ordinance are true and correct and hereby adopted. In addition, the Board hereby adopts and incorporates herein the staff report and makes the following findings based upon the staff report, testimony, and exhibits presented during the hearing:

a) The Planning Commission, acting in its capacity as the Local Planning Agency for the County, held a public hearing on June 3, 2026. to consider the LDC text amendment contained within the Application and found it to be consistent with the Comprehensive Plan and recommended that the Board adopt the LDC text amendment contained within the Application.

b) Pursuant to Section 907.D.10 of the LDC, the Board shall, in the review of the Application, consider the following factors:

a. Whether the proposed text amendment is consistent with all relevant requirements of the Code;
b. Whether the proposed text amendment is consistent with all applicable policies of the Comprehensive Plan; and
c. Any other matter which the BoCC may deem appropriate and relevant to the text amendment proposal.

c) The Application is consistent with all relevant requirements of the Comprehensive Plan.

d) The Application is consistent with all relevant requirements of the LDC, including without limitation, Section 907.

SECTION 2: Chapter 5, Green Swamp Area of Critical State Concern, Section 502, Standards for Land Use Districts in the Green Swamp ACSC, Table 5.2, Use Table for Green Swamp ACSC of the Polk County Land Development Code, Polk County Ordinance No. 00-09, as amended, is hereby amended to delete footnote 1 as follows:

…

~~1. Comprehensive Plan Amendments to change a parcel's Future Land Use District to Linear Commercial Corridor within the Polk City Special Protection Area are prohibited by Policy 2.132-C3 of the Polk County Comprehensive Plan. Only parcels with the existing LCCX Future Land Use District are allowed within the Polk City Special Protection Area.~~

…

SECTION 3: SEVERABILITY

If any provision of this Ordinance is held to be illegal, invalid, or unconstitutional by a court of competent jurisdiction the other provisions shall remain in full force and effect.

SECTION 4: EFFECTIVE DATE

This ordinance shall become effective upon filing with the Department of State.

ENACTED BY THE BOARD OF COUNTY COMMISSIONERS OF POLK COUNTY, FLORIDA this _____ day of _____, 2026.

Polk City SPA LCCX text amendment
Narrative

The Linear Commercial Corridor (LCCX) district was added to the Polk City Special Protection Area (SPA) in the Green Swamp Area of Critical State Concern (ACSC) of the Comprehensive Plan in June of 2000 which was in between the adoption of the Land Development Code (LDC) in March of that year and the effective date in September. Therefore, the LCCX Future Land Use Map district was not referenced in Chapter 5, Green Swamp Area of Critical State Concern, Section 502, Standards for Land Use Districts in the Green Swamp ACSC, Table 5.2, Use Table for Green Swamp ACSC in the original ordinance. Staff did not discover this omission until 2010. Once realized, staff proposed an amendment to add it to the table. The Board approved case LDC 10T-08 in August of 2010. Along with adding the category to the use tables, staff included a foot note stating, "*Comprehensive Plan Amendments to change a parcel's Future Land Use District to Linear Commercial Corridor within the Polk City Special Protection Area are prohibited by Policy 2.132-C3 of the Polk County Comprehensive Plan. Only parcels with the existing LCCX Future Land Use District are allowed within the Polk City Special Protection Area.*" At the time, this inclusion was prompted by negotiations with staff in the Florida Department of Community Affairs (DCA) Critical Areas of State Concern section.

Staff have found that after 16 years of the plan and code implementation there is a need to recognize and add more areas under the LCCX designation within the Polk City SPA. It is also known that regulations in the LDC cannot dictate what can and cannot be amended in the Comprehensive Plan according to Chapter 163 of the Florida Statutes. This proposed LDC amendment is to rectify this issue.

POLK COUNTY
DEVELOPMENT REVIEW COMMITTEE
STAFF REPORT

DRC Date	**June 17, 2010**	**LEVEL:**	**4**
PC Date:	**July 13, 2010**	**TYPE:**	**Land Development Code (LDC) Text Amendment**
BOCC Date(s):	**July 21, 2010** **August 18, 2010**	**CASE #:**	**LDC 10T-08**

Project Number: 54804 (Polk City SPA LCC)

Request: This is a county initiated request to amend the text of the Land Development Code (LDC) amending Table 5.2, *Use Table for Green Swamp ACSC,* to add the Linear Commercial Corridor-X (LCCX) land use district to the Polk City Special Protection Area section of Table 5.2; providing for severability; providing an effective date.

Applicant: Polk County Growth Management Department

Case Planner: Todd Vargo, AICP

Summary of Analysis:

The proposed amendment is a county initiated request to modify Table 5.2, *Use Table for the Green Swamp Area of Critical State Concern (ACSC)*, to add the LCCX land use district and to establish Permitted and Conditional Uses within the LCCX district. Table 5.2 is divided into two Special Protection Areas (SPAs): the Polk City SPA and the Rural SPA. LCCX is proposed only to be added to the Polk City SPA portion of Table 5.2.

Comprehensive Plan Policy 2.132-C3 prohibits further expansion of the LCCX district within the Polk City SPA. Currently, there is only one parcel within the Polk City Special Protection Area with a Future Land Use of LCCX. Since LCCX is not listed as a Future Land Use district in Table 5.2 there are no guidelines available to determine what permitted and conditional uses are allowed.

Findings of Fact

1. *The proposed Land Development Code text amendment will amend the Polk City Special Protection Area portion of Table 5.2, Use Table for Green Swamp ACSC, to add the Linear Commercial Corridor-X (LCCX) Future Land Use District.*

2. *This amendment shall also establish permitted and conditional uses within the LCCX Future Land Use District for the Polk City Special Protection Area portion of Table 5.2.*

3. Policy 2.132-C3 of the Polk County Comprehensive Plan states:

POLICY 2.132-C3: LAND-USE CATEGORIES — The following land-use categories shall be permitted within the PC-SPA: *[Revised by CPA-2000A-10 (Ord. 00-42);Adopted by BoCC 20 JUN 2000]*

a. Activity Centers:
   1. Business-Park Center X (BPCX)
   2. Convenience Center (CC)
   3. Office Center (OCX)
b. Residential:
   1. Residential-Suburban X (RSX)
   2. Residential-Low X (RLX)
c. Other:
   1. Linear Commercial Corridor (existing) (LCC)
   2. Leisure/Recreation (L/R)
   3. Institution (INST)
   4. Recreation and Open Space (ROS)
   5. Preservation (PRES)

4. A footnote referencing Policy 2.132-C3 of the Polk County Comprehensive Plan and explaining the prohibition against Comprehensive Plan Map Amendments to LCCX is also being added to Table 5.2.

Development Review Committee Recommendation:

The Land Development Division, based on the information provided with the proposed text amendment application, finds that the proposed text change request is **CONSISTENT** with the Polk County Land Development Code and the Polk County Comprehensive Plan. Staff recommends **APPROVAL** of LDC 10T-08.

Planning Commission Recommendation:

At the July 13, 2010, Planning Commission meeting, the Planning Commission voted 6/0 to recommend approval of LDC 10T-08.

Comments from Other Agencies: None

ORDINANCE NO. 10-_____

AN ORDINANCE OF THE POLK COUNTY BOARD OF COUNTY COMMISSIONERS REGARDING LAND DEVELOPMENT CODE AMENDMENT LDC 10T-08, AMENDING ORDINANCE NO. 00-09, AS AMENDED, MODIFYING TABLE 5.2, USE TABLE FOR GREEN SWAMP AREA OF CRITICAL STATE CONCERN, TO ADD THE LINEAR COMMERCIAL CORRIDOR-X (LCCX) LAND USE DISTRICT TO THE POLK CITY SPECIAL PROTECTION AREA; PROVIDING FOR SEVERABILITY; PROVIDING AN EFFECTIVE DATE.

WHEREAS, pursuant to Article VIII, Section I(g) of the Constitution of the State of Florida and the Local Government Comprehensive Plan and Land Development Regulation Act, Chapter 163, Part II, Florida Statutes (FS), as amended, (the Act) Polk County is authorized and required to adopt a Land Development Regulations consistent with the Polk County Comprehensive Plan; and

WHEREAS, the Board of County Commissioners adopted said Land Development Regulations on March 1, 2000, titled the Polk County Land Development Code; and

WHEREAS, Chapter 9, Section 903 of the Land Development Code requires Land Development Code Amendments to be a Level 4 Review; and

WHEREAS, Chapter 9, Section 907 sets forth the purpose and review process for Level 4 Reviews; and

WHEREAS, pursuant to Section 125.67 of the Florida Statutes, every ordinance shall embrace but one subject and matter properly connected therewith; and

WHEREAS, pursuant to Section 163.3164 of the Florida Statutes, the Polk County Planning Commission conducted a public hearing, with due public notice having been provided, on the proposed Land Development Code Amendment on July 13, 2010; and

WHEREAS, the proposed text amendment to the Polk County Land Development Code shall be amended to add the Linear Commercial Corridor-X (LCCX) land use district to the Polk City Special Protection Area portion of Table 5.2, Use Table for Green Swamp ACSC; and

WHEREAS, the Board of County Commissioners, reviewed and considered all comments received during said public hearing, and provided for necessary revisions; and

NOW, THEREFORE, BE IT ORDAINED by the Board of County Commissioners of Polk County, Florida that:

NOTE: The underlined text indicate proposed additions to the current language. The ~~strikeout~~ indicates text to be removed from the current ordinance.

SECTION 1: Table 5.2, Use Table for Green Swamp ACSC, of the Polk County Land Development Code, Polk County Ordinance No. 00-09, as amended, is hereby amended in the following manner:

Polk County

Board of County Commissioners

Agenda Item O.1. 6/16/2026

SUBJECT

Public Hearing (LDCPAS-2026-7 Premier Parking CPA) (Adoption Hearing) to consider the adoption of a Small-Scale Comprehensive Plan map amendment to change the Future Land Use Map designation from Business Park Center (BPC) to Industrial (IND) on +/- 8.59 acres. (No Fiscal Impact)

DESCRIPTION

This is an applicant-initiated request for property located north of Highway 542 W, east of Recker Highway, south of the City of Auburndale in Section 14, Township 28, Range 25.

State law requires one Planning Commission hearing, which was held May 3, 2026, with a recommendation for approval 7:0. Section 163.3187, Florida Statutes require the local governing board to take action on the proposed amendment.

Nearest Municipality:	Auburndale
DRC Recommendation:	Approval
Planning Commission Vote:	7-0 Approval
Case Planner:	Aleya Inglima, Planner II

Location

Current Future Land Use

Summary:

This is an applicant-initiated Comprehensive Plan map amendment to change 8.59 acres from Business Park Center (BPC) to Industrial (IND) on the Future Land Use Map. The approval justification for this request is based on the following:

1) The presence of industrial uses within the general area and adjacent to the site;
2) Property designated Heavy Industrial within the City of Auburndale north of the site;
3) Railroads abuts the property;
4) The property has direct access to Recker Highway and within two (2) miles of US 92.

Compatibility Summary

There are several reasons why this request is considered to be compatible and consistent with the Comprehensive Plan and Land Development Code. The purpose of the IND district is to provide areas for general manufacturing, processing, and distribution of goods. General commercial uses necessary to support the industrial area are also permitted. Recker Highway is an established area for commercial and high intensity uses. The location of transportation facilities such as railroads and arterial highways is a factor in determining the appropriateness of industrial lands. This property is adjacent to a railroad and near an arterial highway. Therefore, this request is consistent with the applicable policies in the Comprehensive Plan.

Adjacent properties are designated for Business Park Center (BPC) types of uses and activities. Property is designated Heavy Industrial within the City of Auburndale north of the site. Due to the similarity in current uses and Future Land Use designations, designating this site as Industrial will be compatible.

Infrastructure Summary

The site is located within City of Auburndale utility service area. Since this amendment is for a non-residential use, schools will not be impacted. There is sufficient roadway capacity. Public safety facilities and services are available. Utilities is with the City of Auburndale. Auburndale has capacity issues for wastewater connections. The City did not comment on capacity but stated that there is a 12-inch potable water main on the east side of Recker Hwy and a 6-inch sanitary force main.

Environmental Summary

Portions of the site contain wetlands. Ther are no surface waters on or adjacent to the site. No adverse environmental impacts are expected due to the development of this site, subject to compliance with applicable wetland regulations.

Comprehensive Plan

Listed below are the relevant sections of the Comprehensive Plan that are applicable to this request:

- Policy 2.102(A1-A15): Growth Management Policies
- Policy 2.104(A1-A6): Transit Supportive Development Areas (TSDA)
- Policy 2.113(B1-B5): Business-Park Centers (BPC)
- Policy 2.113(A1-A5): Industrial (IND)

Findings of Fact

Request and Legal Status

- LDCPAS-2026-7 is an applicant-initiated request for a Comprehensive Plan Amendment (CPA) to designate approximately ± 8.59 acres from Business-Park Center (BPC) to Industrial (IND).

- The current Land Development Code district is Business Park Center-2 (BPC-2)

- Policy 2.104-A1 describes Transit Supportive Development Areas (TSDA) as areas where the availability of infrastructure and other community facilities and services, including, but not limited to mass transit and other transportation alternatives, utilities, public safety, recreational and educational services, promotes and supports the location of higher density and intensity compact, mixed-use development.

- Policy 2.109-A5 describes the Business Park Center land use district as follows: "The purpose of the Business Park Center (BPC) land use district is to provide areas for office, business park development, and light-industrial activities. The BPC land use permits office, research and development parks, distribution centers, and wholesaling activities. Some retail uses are also permitted to support the businesses and activities within the Business Park Center."

- While aerial imagery indicates the presence of storage on-site, a staff site visit confirms that the property is vacant

- The property is currently vacant and undeveloped.

Compatibility

- The Comprehensive Plan defines Compatibility in Section 4.400 as "A condition in which land uses or conditions can coexist in relative proximity to each other in a stable fashion over time such that no use or condition is unduly negatively impacted directly or indirectly by another use or condition."

- The proposed request is for an Industrial (IND) Future Land Use designation.

- Surrounding uses include manufacturing, rail line to the east, and vacant property north and west of the site.

- The subject site is surrounded by BPC or the city.

- Policy 2.104-A3: Land Use Categories for Transit Supportive Development Areas, list Industrial as a permitted use in TSDAs.

Infrastructure

- The property is zoned for Clarence Boswell Elementary, Jere L. Stambaugh Middle, and Auburndale Senior High.

- Fire and ambulance response is from Polk County Fire Rescue Station 5, located at 333 American Spirit Rd, Winter Haven. The estimated response time from this station is about seven- to nine minutes.

- Sheriff's response to the site is served by the Southwest District, located at 4120 US 98 South, Lakeland. The responses time are as follows: Priority One: 8:55 minutes; Priority Two: 26:47 minutes.

- The subject property fronts Recker Highway. Recker Highway is an Urban Minor Arterial, according to the Polk County TPO Roadway Network Database, and is the closet road to the site that is monitored for concurrency.

- The subject parcel is next to Recker Highway, a state road.

- The site is located within City of Auburndale utility service area.

- US 92 is two (2) miles from the subject site.

Environmental

- There are wetlands south on the site.

- The site is comprised of Adamsville fine sand and samsula muck.

- According to the Florida Natural Areas Inventory Biodiversity Matrix, the site is within one mile of an endangered species.

- The PolkGreen Map does not show this parcel as part of a potential connection of an overall natural network.

- This site does not have a conservation easement.

- This property is within an Airport Impact District for Winter Haven regional airport.

- The site is not within a Wellfield Protection District.

- Based on information received from the Secretary of State's Department of Historical Resources office, there are no archeological or historic resources on the site.

Comprehensive Plan Policies

- POLICY 2.102-A1 Development Location, states that Polk County shall promote contiguous and compact growth patterns through the development process to minimize energy costs, conserve land, water, and natural resources, minimize the cost of services, and prevent development patterns where tracts of land are by-passed in favor of development more distant from services and existing communities.

- POLICY 2.102-A2 Compatibility, states that land shall be developed so that adjacent uses are compatible with each other, pursuant to the requirements of other Policies in this Future Land Use Element, so that one or more of the following provisions are accomplished:

a. there have been provisions made which buffer incompatible uses from dissimilar uses;

b. incompatible uses are made to be more compatible to each other through limiting the intensity and scale of the more intense use;

c. uses are transitioned through a gradual scaling of different land use activities through the use of innovative development techniques such as a Planned Unit Development.

- POLICY 2.102-A3 Distribution, states that development shall be distributed throughout the County consistently with this Future Land Use Element so that the public utility, other community services, and public transit and transportation systems can be efficiently utilized; and compact, high-density and intensity development is located where urban services can be made available.

- POLICY 2.102-A4 Timing, states that development of land shall be timed and staged in conjunction with the cost-effective and efficient provision of supporting community services which, at a minimum, shall require compliance with the Plan's Level of Service requirements and the County's concurrency management system.

- POLICY 2.102-A10 Location Criteria, states the following factors shall be taken into consideration when determining the appropriateness of establishing or expanding any land use or development area:

  a. nearness to incompatible land uses and future land uses, unless adequate buffering is provided;

  b. nearness to agriculture-production areas;

  c. distance from populated areas;

  d. economic issues, such as minimum population support and market-area radius (where applicable);

  e. adequacy of support facilities or adequacy of proposed facilities to be provided by the time of development, including, but are not limited to:

  1. transportation facilities, including but not limited to, mass transit, sidewalks, trails and bikeways;

  2. sanitary sewer and potable water service;

  3. storm-water management;

  4. solid waste collection and disposal;

  5. fire protection with adequate response times, properly trained personnel, and proper fire-fighting equipment;

  6. emergency medical service (EMS) provisions; and

  7. other public safety features such as law enforcement;

  8. schools and other educational facilities

9. parks, open spaces, civic areas and other community facilities

f. environmental factors, including, but not limited to:

1. environmental sensitivity of the property and adjacent property;

2. surface water features, including drainage patterns, basin characteristics, and flood hazards;

3. wetlands and primary aquifer recharge areas;

4. soil characteristics;

5. location of potable water supplies, private wells, public well fields; and

6. climatic conditions, including prevailing winds, when applicable.

- POLICY 2.104-A1: DESCRIPTION - Transit Supportive Development Areas shall meet the following criteria:

a. be those areas where the availability of infrastructure and other community facilities and services, including, but not limited to mass transit and other transportation alternatives, utilities, public safety, recreational and educational services, promotes and supports the location of higher density and intensity compact, mixed use development;

b. be supported by existing or planned urban type services that are programmed or expected for the 10-year planning horizon;

c. be designated as part of a coordinated land use and transportation strategy that supports the provision of improved and expanded transit services, as identified in the Transportation Planning Organization (TPO) 2060 Transportation Vision Plan and the connecting circulator routes, in order to increase mobility and travel options;

d. include development criteria that:

1. promote the development of walkable communities which include a balance between employment opportunities, mix of complementary uses and activities, and a range of housing opportunities;

2. improve access to employment areas, schools, shopping and recreational opportunities;

3. POLICY 2.104-A3: LAND USE CATEGORIES - The following land use categories shall be permitted within TSDAs, in accordance with applicable criteria

a. ACTIVITY CENTERS: Regional Activity Centers, Community Activity Centers, Neighborhood Activity Centers, Convenience Centers, Tourism Commercial Centers, Employment Centers and High-Impact Commercial Centers.

b. RESIDENTIAL: Residential-High, Residential-Medium, and Residential-Low Districts.

c. OTHER: Linear Commercial Corridors, Commercial Enclaves, Industrial, Business-Park Centers, Office Centers, Leisure Recreation, Mixed Use, Institutional, Professional

Institutional, Recreation and Open Space, Preservation.

d. POLICY 2.113-A1: CHARACTERISTICS - Industrial lands are characterized by facilities for the processing, fabrication, manufacturing, recycling, and distribution of goods, and may contain any use also found within a Business-Park Center. However, land use activities that operate externally to enclosed structures may be permitted within an Industrial Future Land Use designation. Industrial districts are also the appropriate location for land use activities that produce significant amount of noise, odor, vibration, dust, and lighting on and off-site that do not produce a physical product.

- POLICY 2.113-A2: DESIGNATION AND MAPPING - Industrial areas shall be designated and mapped on the Future Land Use Map Series as "Industrial" (IND); shall include all major existing industrial areas; and shall provide for the projected future industrial development needs of the County.

- POLICY 2.113-A3: LOCATION CRITERIA - Industrial development within the County shall occur within lands designated as Industrial on the Future Land Use Map Series. The following factors shall be taken into consideration when determining the appropriateness of establishing new Industrial areas:

  a. Industrial development shall be located within an Transit Supportive Development Area Urban-Growth Area, Suburban-Development Area, Rural-Development Area, or Utility-Enclave Area.

  b. Accessibility to major air and ground transportation, including but not limited to arterial roadways, rail lines, and cargo airport terminals.

  c. The locational criteria enumerated in Policy 2.102-A9 and Policy 2.102-A10.

  d. Industrial facilities should group together in planned industrial districts on sites capable of being expanded and developed in stages.

  e. Industrial districts shall be separated significant distances from schools and developed residential areas through a combination of physical separation and screening and/or buffering in accordance with standards in the County's Land Development Code.

  f. The location criteria for Industrial Districts shall serve to maximize access to the arterial road system and minimize the routing of commercial traffic through residential areas by requiring access be limited to:

  1. arterial roads;

  2. collector roads, if the subject parcel is within 2 miles of an intersecting arterial road; or

  3. local commercial roads or private roads under the following conditions:

     (a) the road has full median access onto to an arterial road;

     (b) the road does not serve existing or expected future residential traffic from the surrounding area;

(c) the road has a structural integrity and design characteristics suitable for truck traffic.

g. Applications for establishment of an Industrial district shall include a plan consistent with Policy 2.110-L5.

- POLICY 2.113-A4: DEVELOPMENT CRITERIA - Development within an Industrial area shall conform to the following criteria:

a. Permitted uses include facilities for the processing, fabrication, manufacturing, recycling, bulk material storage, and distribution of goods, disposal yards, and limited retail commercial in accordance with Policy 2.113-A4.b. Other non-residential uses that produce significant amounts of noise, odor, vibration, dust, and lighting on and off-site may be permitted within an industrial district through conditional approval. Permitted uses also include any use found within a Business-Park Center.

b. Retail commercial uses within an industrial area shall be sized for the purpose of serving just the employees of, and visitors to, the industrial area, and shall be limited to a scale appropriate for that purpose. The maximum floor area ratio for commercial uses within an industrial area shall not exceed 0.25.

c. Industrial sites shall be designed to provide for:
    1. adequate parking to meet the demands of the use; and
    2. buffering where the effects of lighting, noise, odors, and other such factors would adversely affect adjacent land uses. Parking lots, loading areas, dumpsters, utilities and air conditioning units, signage, etc., are examples of facilities which may require special buffering provisions.

d. The maximum floor area ratio for non-commercial uses within an Industrial area shall not exceed 0.75 in the TSDA, 0.65 in the UGA, 0.50 in the SDA, and 0.50 in the RDA, unless developed as a Planned Development.

e. Retail sale of goods manufactured on the site of a business located within an Industrial area is allowed provided the operation is incidental and subordinate to the manufacturing activity conducted on site and does not exceed eight percent (8%) of the total floor area or 15,000 square feet, whichever is the lesser.

f. Where centralized water or wastewater services are not available, the maximum impervious surface ratio shall be reduced to afford better protection and function of well and septic tank systems and as required if within a Nutrient Restoration Plan Overlay.

g. Planned Developments within the Industrial district may be permitted a maximum floor area ratio up to 1.5 for innovative and attractive employment centers. Intensity increases shall be reserved for those uses that provide substantial economic income opportunities for the County and its residents. Intensity increases shall only be granted to parcels within the TSDA and UGA. The Land Development Code shall establish development standards and criteria for Planned Developments within the Industrial district.

h. Industrial districts shall be separated from existing schools and developed residential areas through physical separation, screening, buffering, or a combination thereof, consistent with the standards in the County's Land Development Code.

i. Workforce housing for unaccompanied workers in barrack, dormitory, or apartment units under specific design parameters listed in the Land Development Code not to exceed an intensity of thirty-two (32) workers per acre or the limitations established by the Department of Health for water and wastewater usage, whichever allowed intensity is the lesser.

e. POLICY 2.113-B-1: CHARACTERISTICS - Business-Park Centers are intended to promote employment opportunities within the region by allowing for the establishment of office parks, research and development parks, areas for light-industrial facilities, distribution centers, and mixed-use employment parks. Business-Park Centers are intended for land use activities that are conducted entirely within enclosed structures with the exception of loading and un-loading. These centers are not intended to accommodate major commercial or other similar high-traffic producing facilities. However, these centers often contain other minor commercial facilities, and wholesale facilities, within the Business-Park Center to support the businesses located there. General (approximate) characteristics of Business-Park Centers are:

Usable Area: 10 acres or more

Gross Leasable Area (GLA): 500,000 to 2,000,000 sq. ft.

Minimum Population Support: 150,000 or more people

Service-Area Radius: 20 miles or more

Typical Leading Tenant: One or more light-assembly plants, or warehouse facilities

Other Typical Tenants: Offices, distribution centers, research and development firms, High-Density Residential (with proper buffering).

f. POLICY 2.113-B-3: LOCATION CRITERIA - Business-Park Centers shall be located with consideration being given to maximizing access to the arterial road system and with consideration given to the guidelines outlined in POLICY 2.404.-A1. In locating Business-Park Centers, Polk County shall seek to minimize the routing of commercial traffic through residential areas. Business-Park Centers shall be located on:

a. arterial roads;

b. collector roads, if the proposed district is within 2 miles of an intersecting arterial road;

c. local commercial roads or private roads under the following conditions:

1. the road has full median access onto to an arterial road;

2. the road does not serve existing or expected future residential traffic from the surrounding area; and

3. the road has a structural integrity and design characteristics suitable for truck traffic.

d. properties abutting an Industrial (IND) district or railroad line.

g. POLICY 2.113-B-4: DEVELOPMENT CRITERIA - Development within a Business-Park Center shall conform to the following criteria:

a. Business-Park Center developments shall have frontage on, or direct access to, a collector or better roadway, or a local commercial road or service drive that directly connects to a collector roadway or better. Business-Park Centers shall incorporate the use of frontage roads or shared ingress/egress facilities wherever practical.

b. Adequate parking shall be provided to meet the demands of the uses, and interior traffic-circulation patterns shall facilitate the safe movement of vehicular, bicycle, and pedestrian traffic.

c. Buffering shall be provided where the effects of lighting, noise, odors, and other such factors would adversely affect adjacent land uses. Parking lots, loading areas, dumpsters, utilities and air conditioning units, signage, etc. are examples of facilities which may require special buffering provisions.

d. Commercial activities to support activity within a Business Park Center shall not exceed 15 percent of the total area of the Business Park.

e. The maximum floor area ratio for commercial activities shall not exceed 0.25. The maximum floor area ratio for non-commercial activities shall not exceed 0.75 in the TSDA, 0.65 in the SDA, and 0.50 in the RDA, unless developed as a Planned Development.

f. Retail sale of goods manufactured on the site of a business located within a Business Park Center is allowed without affecting the fifteen percent (15%) of commercial activity permitted for the entire activity center provided the operation is incidental and subordinate to the manufacturing activity conducted on site and does not exceed eight percent (8%) of the total floor area or 15,000 square feet, whichever is the lesser.

g. New residential development within Business Park Centers shall be limited to High-Density Residential (with proper buffering).

h. All research and development, light-industrial, and distribution activities shall be conducted within enclosed structures with the exception of loading and unloading of transport and distribution vehicles. Outdoor storage shall be screened from off-site view and significantly limited in respect to the floor area provided within enclosed structures.

i. Where centralized water or wastewater services are not available, the maximum impervious surface ratio shall be reduced to afford better protection and function of well and septic tank septic and as required if within a Nutrient Restoration Plan Overlay.

j. Planned Developments within the Business Park Center district may be permitted a maximum floor area ratio up to 1.5 for innovative and attractive employment centers. Intensity increases shall be reserved for those uses that provide substantial economic income opportunities for the County and its residents. Intensity increases shall only be granted to

parcels within the TSDA and UGA. The FAR in the RDA may be increased to 0.75 when connection to public water and sewer is available and within a half mile of a transit route. The Land Development Code shall establish development standards and criteria for Planned Developments within the BPC district.

k. Workforce housing for unaccompanied workers in barrack, dormitory, or apartment units under specific design parameters listed in the Land Development Code not to exceed an intensity of thirty-two (32) workers per acre or the limitations established by the Department of Health for water and wastewater usage, whichever allowed intensity is the lesser.

Development Review Committee Recommendation: Based on the information provided by the applicant, recent site visits, and the analysis conducted within this staff report, the Development Review Committee (DRC) finds that the request **IS compatible** with the surrounding land uses and general character of the area and **IS consistent** with the Polk County Comprehensive Plan and Land Development Code. Therefore, the DRC recommends **APPROVAL of LDCPAS-2026-7.**

Planning Commission Recommendation: On May 6, 2026, in an advertised public hearing, the Planning Commission voted 7:0 to recommend APPROVAL of LDCPAS 2026-7.

GENERAL NOTES

NOTE: This staff report was prepared without the benefit of testimony and evidence submitted by the public and other parties at a public hearing.

NOTE: All written comments made in the application and subsequent submissions of information made during the application review process, which are on file with the Land Development Division, shall be considered to be binding upon the applicant, provided such comments are not at variance with the Comprehensive Plan, LDC or other development regulations in effect at the time of development.

NOTE: Issuance of a development permit by the county does not in any way create any rights on the part of the applicant to obtain a permit from a state or federal agency and does not create any liability on the part of the county for issuance of the permit if the applicant fails to obtain requisite approvals or fulfill the obligations imposed by a state or federal agency or undertakes actions that result in a violation of state or federal law.

Compatibility with the Surrounding Uses

According to *Policy 2.102-A2* of Polk County's Comprehensive Plan, "land shall be developed so that adjacent uses are compatible with each other, pursuant to the requirements of other policies in this Future Land Use Element, so that one or more of the following provisions are accomplished: a. there have been provisions made which buffer incompatible uses from dissimilar uses; b. incompatible uses are made to be more compatible to each other through limiting the intensity and scale of the more intense use; and c. uses are transitioned through a gradual scaling of different land use activities through the use of innovative development techniques such as a Planned Unit Development." The "development criteria" and the "density and dimensional regulations" of a land use district are often the measuring tools used by staff to determine compatibility and the appropriateness of locating differentiating uses. Compatibility is defined in the Comprehensive Plan as "a condition in which land uses or conditions can coexist in relative proximity to each other in a stable fashion over time such that no use or condition is unduly negatively impacted directly or indirectly by another use or condition."

A. Land Uses

The site is within a Transit Supportive Development Area (TSDA). TSDAs serve as a foundation from which a future urban pattern is established, and to provide areas for development at urban densities and intensities. TSDAs are where there exists the availability of infrastructure and other community facilities and services, including, but not limited to mass transit and other transportation alternatives, utilities, public safety, recreational and educational services. The TSDA also promotes and supports the location of higher density and intensity that requires compact and mixed-use development.

While aerial imagery indicates the presence of storage on-site, a staff site visit confirms that the property is vacant. Currently, the site has a Future Land Use designation of Business-Park Center (BPC). BPCs are intended to promote employment opportunities within the region by allowing for the establishment of office parks, research and development parks, areas for light-industrial facilities, distribution centers, and mixed-use employment parks. Business-Park Centers are intended for land use activities that are conducted entirely within enclosed structures with the exception of loading and un-loading. These centers are not intended to accommodate major commercial or other similar high traffic producing facilities. However, these centers often contain other minor commercial facilities, and wholesale facilities, within the Business-Park Center to support the businesses located there.

The proposed request is for an Industrial (IND) Future Land Use designation. Generally, Industrial districts contain more intensive uses and activities than contemplated in a Business-Park Center. The Comprehensive Plan describes Industrial Lands as characterized by facilities for the processing, fabrication, manufacturing, recycling, and distribution of goods, and may contain any use also found within a Business-Park Center. However, land use activities that operate externally to enclosed structures may be permitted within an Industrial Future Land Use designation. Industrial districts are also the appropriate location for land use activities that produce significant amount of noise, odor, vibration, dust, and lighting on and off-site that do not produce a physical product.

As shown on the Future Land Use Map, adjacent properties of the site are designated BPC. IND is located to the north of the site within the City of Auburndale. The site is vacant. Based on a review of past aerial photos, the site has always been vacant.

Surrounding uses next to the site include railroads on the eastern boundaries of the site. A manufacturing use is south of the site. Property to the west and north are vacant.

There are several reasons why this request is considered to be compatible, and consistent with the Comprehensive Plan and Land Development Code. The location of transportation facilities, such as railroads and arterial highways, is a factor in determining the appropriateness of industrial lands. This site is within 2 miles of US 92, an arterial highway, and is adjacent to one railroad. Therefore, this request is consistent with the applicable policies in the Comprehensive Plan.

Adjacent properties are both designated for BPC types of uses and activities. Because of the similarity in current uses and Future Land Use designations, designating this site as Industrial will be compatible.

B. Infrastructure:

According to Comprehensive Plan POLICY 2.102-A1: DEVELOPMENT LOCATION, "Polk County shall promote contiguous and compact growth patterns through the development process to minimize energy costs, conserve land, water, and natural resources, minimize the cost of services, and prevent development patterns where tracts of land are by-passed in favor of development more distant from services and existing communities."

The site is located in the Transit Supportive Development Area (TSDA), where connections is available through the City of Auburndale.

The following table provides a reference point for notable and pertinent Future Land Use Map districts and existing land uses upon them.

Table 1 Future Land Use Map Districts and Existing Uses

Northwest Business Park Center (BPC-2) Cutrale Citrus Juices Vacant	**North** City of Auburndale Light Industrial (LI) Tampa Electric Company Vacant	**Northeast** CXS Rail line
West Business Park Center (BPC-2) Cutrale Citrus Juices Vacant	**Subject Site** Business Park Center (BPC-2) Vacant	**East** CSX Rail line
Southwest Business Park Center (BPC-2) Recker Business Park Plat Vacant	**South** Business Park Center (BPC-2) Vacant	**Southeast** CSX Rail line

Nearest and Zoned Elementary, Middle, and High School

The schools zoned for the subject property are listed in Table 2 below. Because the request is for a non-residential use, the request will not impact school concurrency.

Table 2: School Information

School	Annual Estimated Demand	Distance from Subject Site
Clarence Boswell Elementary	0	3.8 mile
Jere L. Stambaugh Middle	0	2.6 miles
Auburndale Senior High	0	3.0 miles

Source: Polk County School Board website

Nearest Sheriff, Fire, and EMS Station

Polk County Fire Rescue provides Advanced Life Support transport to all residents and visitors of Polk County. Emergency response is considered effective if response times are within eight (8) minutes in rural and suburban areas and 13 minutes in urban areas.

Sherriff response times are not as much a function of the distance to the nearest sheriff's substation rather more a function of the overall number of patrol officers within the County. Priority 1 Calls are considered true emergencies, in-progress burglary, robbery, injuries, etc. Priority 2 Calls refer to events that have already occurred, such as a burglary that occurred while the homeowner was on vacation and had just been discovered.

Table 3 provides a breakdown of response times and travel distances for emergency services.

Table 3 Public Safety Information

	Name of Station	Distance	Response Time*
Sheriff	Southwest District, located at 4120 US 98 South, Lakeland	14.2 miles	P1: 8:55 minutes P2: 26:47 minutes
Fire/ EMS	Polk County Fire Rescue Station 5, located at 333 American Spirit Rd, Winter Haven	1.9 miles	7-9 minutes

*Source: Polk County Sheriff's Office and Public Safety *Response times are based on when the station receives the call and not from when the call is made to 911.*

Water and Wastewater

The subject property is in a Transit Supportive Development Area (TSDA). Connection to public water and sewer is available through the City of Auburndale. The City did not comment on capacity but stated that there is a 12-inch potable water main on the east side of Recker Hwy and a 6-inch sanitary force main.

A. Estimated Demand

The development of the property under the proposed land use designation is not anticipated to degrade the minimum LOS for the existing facilities, due to the relatively low consumption and generation rates. The following analysis assumes the maximum allowed density/intensity of 280,634 square feet of warehouse space for IND, and 280,634 square feet of professional offices space for BPC. The subject site is within the Transit Centers and Corridors overlay (TCCO) which allows up to 2.5 floor area ratio (FAR) in both BPC & IND. However, the LDC permits up to 0.75 which is what was used for calculated impacts.

Table 4 Estimated Water and Sewer Impact Analysis

Maximum Allowable Use: BPC-2 – 8.59 AC/374,180 SF of site *.75 FAR = 280,634 SF	Estimated Impact Analysis Business Park Center (BPC-2) to Industrial (IND)	
	Current Land Use designation BPC-2	**Maximum Permitted Use in Proposed IND**
Current Maximum Allowable Use	280,634 Square Feet (SF)	280,634 Square Feet (SF)
Potable Water Consumption	280,634 SF * .24 GPD/SF = **67,353 GPD**	280,634 SF * .24 GPD/SF = **67,353 GPD**
Wastewater Generation	67,353 SF * 80% of water usage **52,882 GPD**	67,353 SF * 80% of water usage **53,882 GPD**

GPD – Gallons Per Day Source: Polk County Concurrency Manual and Polk County Utilities: Professional Offices @ .24 GPD/SF (water) & .18 GPD/SF (sewer); Warehouse @ .24 GPD/SF (water) & .18 GPD/SF (sewer)

B. Available Capacity:

Utilities are available through the City of Auburndale.

C. Planned Improvements:

No information is known currently about any planned improvements to utilities in this area.

Roadways/ Transportation Network

The Polk County Transportation Planning Organization (TPO) monitors traffic congestion on over 425 roadway segments (950 directional links). The data identifies both daily and peak hour traffic volumes. The peak hour traffic volumes are used to estimate the level-of-service for each roadway, in each direction. Level-of-service refers to the quality of traffic flow. It is the primary measure of traffic congestion. Level-of-service (LOS) is measured on a scale of 'A' to 'F' with LOS 'A' being the best (free-flow traffic) and LOS 'F' being the worst (severe traffic congestion).

The proposed Comprehensive Plan Amendment is not anticipated to affect surrounding roadways or transportation network. The Amendment will not change the LOS below the minimum established standards.

A. Estimated Demand

Table 5, following this paragraph, shows the Average Annual Daily Trip (AADT) rate and the PM Peak hour trip rate. The analysis is based on a maximum permitted use of 280,634 square feet of general light industrial. The following analysis assumes the maximum allowed intensity of 280,634 square feet of warehouse space for BPC and 280,634 square feet for IND.

Table 5 Estimated Transportation Impact Analysis

Maximum Allowable Use: 8.59 AC/374,180 SF of site *.75 FAR = 280,634 SF	Estimated Impact Analysis Business Park Center (BPC-2) to Industrial (IND)	
	Current Land Use designation BPC-2	**Maximum Permitted Use in Proposed IND**
	280,634 SF	280,634 SF
Average Annual Daily Trips (AADT)	280,634 SF *3.60 trips/1,000 SF = **1,010 AADT**	280,634 SF * 1.71 trips/1,000 SF = **480 AADT**
PM Peak Hour Trips	280,634 SF * .49 trips/1,000 SF = **138 PM Peak Hour Trips**	280,634 SF * .18 trips/1,000 SF = **51 PM Peak Hour Trips**

Source: Concurrency Manual and Table for Minor Traffic Study – Warehousing (ITE 150) – 1.71 AADT/1,000 SF; General Light Industrial (ITE 110) – 3.60 AADT/1,000 SF, 0.49 peak-hour trips/1,000 SF.

B. Available Capacity:

The roads surrounding the subject site should have sufficient capacity available, depending on the eventual use and full build out of the site. The Polk Transportation Planning Organization (TPO) monitors certain roadways based on maximum approved traffic in comparison to current vehicle trips to determine what capacity is available.

Table 6, below, charts the generalized available capacity of the most-affected links.

Table 6 Available Capacity

Link #	**Road Name**	**Current Level of Service (LOS)**	**Available PM Peak Hour Capacity**	**Minimum LOS Standard**	**5-Year Peak Hour Projected LOS**

7102S	SR 655 (RECKER HWY)7 From: CR 542 (AVENUE G NW) To: US 92	C	511	D	C

Source: Polk County Transportation Planning Organization, Concurrency Roadway Network Database January 17, 2026

As identified above, Recker Highway has sufficient PM peak hour capacity to support future development activity.

C. Roadway Conditions

Recker Highway is a stated maintained road, no information regarding the Pavement Condition Index is available.

D. Planned Improvements:

There are no known improvements for this portion of Recker Highway at this time.

E. Mass Transit

There are no Citrus Connection routes along Recker Highway.

F. Sidewalks

There are no sidewalks in front of the subject property, nor along adjacent streets.

Park Facilities and Environmental Lands

The closest County Park is Simmers-Young Park, located two (2) miles south of the site. Because the proposed amendment is for non-residential uses, it will not have an impact on this facility.

A. Location:

Simmers-Young Park is located at 339 American Spirit Road in Winter Haven.

B. Services:

Simmers-Young Park is a recreational park in Winter Haven with 10 multi-purpose fields, baseball and softball and league play. There also are picnic facilities, a fishing pond, dog park, playground, restrooms, picnic tables and picnic shelters.

C. Multi-use Trails:

Lake Wales Ridge Wildlife and Environmental Area - Lake Blue trails are near the immediate area.

Environmental Lands

The site is not within an Ecological Greenway Network. The closest conservation area is 2.64 miles southwest of the site.

Environmental Conditions

There are wetlands on the south end of the site. Because of these conditions, any development of the site will have to take these conditions into account and comply with the applicable requirements of Section 620 (Wetland Protection) and Section 630 (Flood Hazard Management and Floodplain Protection) of the Land Development Code.

A. Surface Water:

There are no surface waters on the site. A pond is located about 750 feet northwest of the site.

B. Wetlands/Floodplains:

The site contains wetlands on the south side of the site.

C. Soils:

The site is comprised mostly of Adamsville fine sand, according to the U.S. Department of Agriculture, Soil Conservation Service, Polk County Survey. Table 7, below, lists the soils associated with the subject site.

Table 7 Soils

Soil Name	Septic Tank Absorption Field Limitations	Limitations to Dwellings Without Basements	% of Site *(approximate)*
Adamsville fine sand	Severe: wetness	Moderate: wetness	82.%
Samsula muck	Severe: ponding	Severe: ponding	18%

Source: Soil Survey of Polk County, Florida 1985, USDA, Soil Conservation Service

Any future development of the site will be subject to Section 2.303: "Soils" of the County's Comprehensive Plan (in conjunction with the Land Development Code) which requires all development to implement Best Management Practices based on the Department of Environmental Protection's (DEP) Florida Development Manual.

D. Protected Species

According to the Florida Natural Areas Inventory Biodiversity Matrix, the site is located within one mile of an endangered species. Prior to site clearing or grubbing, the applicant shall hire a qualified professional to conduct a site survey/walkover to ensure that no threatened or endangered plant or animal species exist on the site. If any are discovered, the applicant shall properly protect the specie(s) or mitigate any impacts consistent with federal, state, and local law.

E: Polk Green Districts and Conservation Easements:

The PolkGreen Map displays this parcel as not within a potential connection of an overall natural network. Moreover, there are no conservation easements on this parcel.

F. Archeological Resources:

Based on information received from the Secretary of State's Department of Historical Resources office, there are no archeological or historic resources on the site.

G. Wells (Public/Private)

The site is not within a Wellfield Protection District.

H. Airports:

This property is within the Airport Impact District.

Economic Factors:

Site development activities create temporary jobs. Any new business activity that occurs at this site will need more goods and services, thereby generating more economic activity. The proximity of this site next to Recker Highway and existing railroads provide an opportunity for new businesses to locate on this site, thereby also providing jobs to support the community.

Consistency with the Comprehensive Plan

Many policies within the Comprehensive Plan are reviewed for consistency with an application. The most relevant policies for the proposed request are included in this section. The policy is first stated and then an analysis of how the request is provided to state that it may or may not be

consistent with the Comprehensive Plan. How the request is **consistent** with the Comprehensive Plan is listed below:

Table 8 Comprehensive Plan

Comprehensive Plan Policy	Consistency Analysis
POLICY 2.102-A2: COMPATIBILITY - Land shall be developed so that adjacent uses are compatible with each other, pursuant to the requirements of other Policies in this Future Land Use Element, so that one or more of the following provisions are accomplished: a. there have been provisions made which buffer incompatible uses from dissimilar uses; b. incompatible uses are made to be more compatible to each other through limiting the intensity and scale of the more intense use; c. uses are transitioned through a gradual scaling of different land use activities through the use of innovative development techniques such as a Planned Unit Development.	The site is located in a well-established high intensity area and is considered compatible.
POLICY 2.102-A1: DEVELOPMENT LOCATION – Polk County shall promote contiguous and compact growth patterns through the development process to minimize energy costs, conserve land, water, and natural resources, minimize the cost of services, and prevent development patterns where tracts of land are by-passed in favor of development more distant from services and existing Communities.	The site is located within an existing heavy commercial area. The site also is abutting a railroad line.
POLICY 2.102-A10: LOCATION CRITERIA - The following factors shall be taken into consideration when determining the appropriateness of establishing or expanding any land use or development area: a. nearness to incompatible land uses and future land uses, unless adequate buffering is provided, b. nearness to agriculture-production areas; c. distance from populated areas; d. economic issues, such as minimum population support and market-area radius (where applicable); e. adequacy of support facilities or adequacy of proposed facilities to be provided by the time of development, including, but are not limited to: 1. transportation facilities, including but not limited to, mass transit, sidewalks, trails and bikeways; 2.sanitary sewer and potable water service; 3. storm-water management; 4. solid waste collection and disposal; 5. fire protection with adequate response times, properly trained personnel, and proper fire-fighting equipment; 6. emergency medical service (EMS) provisions; and 7. other public safety features such as law enforcement; 8. schools and other educational facilities 9. parks, open spaces, civic areas and other community facilities, f. environmental factors, including, but not limited to: 1. environmental sensitivity of the property and adjacent property; 2. surface water features, including drainage patterns, basin characteristics, and flood hazards; 3. wetlands and primary aquifer recharge areas;	The proximity of the site fronts Recker Highway, next to an existing industrial area, and bordered by a railroad. These features make the site appropriate for more intensive commercial uses.

Comprehensive Plan Policy	Consistency Analysis
4. soil characteristics; 5. location of potable water supplies, private wells, public well fields; and 6. climatic conditions, including prevailing winds, when applicable.	
POLICY 2.104-A3: LAND USE CATEGORIES - The following land use categories shall be permitted within TSDAs, in accordance with applicable criteria ACTIVITY CENTERS: Regional Activity Centers, Community Activity Centers, Neighborhood Activity Centers, Convenience Centers, Tourism Commercial Centers, Employment Centers and High-Impact Commercial Centers. RESIDENTIAL: Residential-High, Residential-Medium, and Residential-Low Districts. OTHER: Linear Commercial Corridors, Commercial Enclaves, Industrial, Business-Park Centers, Office Centers, Leisure Recreation, Mixed Use, Institutional, Professional Institutional, Recreation and Open Space, Preservation. POLICY 2.113-A1: CHARACTERISTICS - Industrial lands are characterized by facilities for the processing, fabrication, manufacturing, recycling, and distribution of goods, and may contain any use also found within a Business-Park Center. However, land use activities	The site is in a Transit Supportive Development Area (TSDA). IND is allowed in the TSDA.
POLICY 2.113-A3: LOCATION CRITERIA - Industrial development within the County shall occur within lands designated as Industrial on the Future Land Use Map Series. The following factors shall be taken into consideration when determining the appropriateness of establishing new Industrial areas: a. Industrial development shall be located within an Transit Supportive Development Area Urban-Growth Area, Suburban-Development Area, Rural-Development Area, or Utility-Enclave Area. b. Accessibility to major air and ground transportation, including but not limited to arterial roadways, rail lines, and cargo airport terminals. c. The locational criteria enumerated in Policy 2.102-A9 and Policy 2.102-A10. d. Industrial facilities should group together in planned industrial districts on sites capable of being expanded and developed in stages. e. Industrial districts shall be separated significant distances from schools and developed residential areas through a combination of physical separation and screening and/or buffering in accordance with standards in the County's Land Development Code.	The site is located near an arterial road and has direct access next to one railroad. US 92 is a major arterial two (2) miles from the subject site.

Comprehensive Plan Policy	Consistency Analysis
f. The location criteria for Industrial Districts shall serve to maximize access to the arterial road system and minimize the routing of commercial traffic through residential areas by requiring access be limited to: 1. arterial roads; 2. collector roads, if the subject parcel is within 2 miles of an intersecting arterial road; or 3. local commercial roads or private roads under the following conditions: (a) the road has full median access onto to an arterial road; (b) the road does not serve existing or expected future residential traffic from the surrounding area; (c) the road has a structural integrity and design characteristics suitable for truck traffic. g. Applications for establishment of an Industrial district shall include a plan consistent with Policy 2.110-L5.	

Urban Sprawl Analysis

After analyzing the primary indicators of Urban Sprawl per *Policy 2.109-A10* of the Polk County Comprehensive Plan, the proposed request is not considered to be urban sprawl.

Table 9 (below) depicts the Urban Sprawl Criteria used by staff as indicators of Urban Sprawl.

Table 9 Urban Sprawl Criteria

Urban Sprawl Criteria: The following criteria are the primary indicators of urban sprawl per Florida Statutes	
Urban Sprawl Criteria	**Sections where referenced in this report**
a. *Promotes substantial amounts of low-density, low-intensity, or single use development in excess of demonstrated need.*	Summary of analysis
b. *Allows a significant amount of urban development to occur in rural areas.*	Summary of analysis
c. *Designates an urban development in radial, strip isolated, or ribbon patterns emanating from existing urban developments.*	Summary of analysis, surrounding Development, compatibility
d. *Fails to adequately protect and conserve natural resources and other significant natural systems.*	Summary of analysis, surrounding Development, compatibility
e. *Fails to adequately protect adjacent agricultural areas.*	Compatibility with Surrounding Land Uses
f. *Fails to maximize existing public facilities and services.*	Summary of Analysis, Infrastructure
g. *Fails to minimize the need for future facilities and services.*	Summary of Analysis, Infrastructure
h. *Allows development patterns that will disproportionately increase the cost of providing public facilities and services.*	Summary of Analysis, Infrastructure
i. *Fails to provide a clear separation between urban and rural uses.*	Summary of Analysis, Compatibility with Surrounding Land Uses
j. *Discourages infill development or redevelopment of existing neighborhoods.*	Summary of Analysis, Compatibility with Surrounding Land Uses
k. *Fails to encourage an attractive and functional mixture of land uses.*	Summary of Analysis, Compatibility with Surrounding Land Uses
l. *Will result in poor accessibility among linked or related land uses.*	Summary of Analysis, Compatibility with Surrounding Land Uses
m. *Results in the loss of a significant amount of open space.*	Summary of Analysis, Compatibility with Surrounding Land Uses

Comments From Other Agencies:

The City of Auburndale has no objections to the case.

Permitted and Conditional Uses in BPC-2 & IND

City of Auburndale Zoning

February 5, 2026

Polk County Board of County Commissioners
Land Development Division
330 West Church Street
Bartow, FL 33831-9005

Re: Smale-scale Comprehensive Plan Amendment (CPA)
Demonstration of Need Narrative
LLCPPAS-2026-7 Recker Hwy Storage Yard
0 Recker Hwy, Auburndale, FL 33823 (Parcel ID: 25-28-14-000000-041080)

To Whom it May Concern,

Madrid Engineering Group, Inc., dba Madrid CPWG/Madrid CFTL, is pleased to present the below narrative in support of the small-scale comprehensive plan amendment (CPA). The Owner, Premier Parking US LLC, proposes rezoning (changing land use district designation) of the parcel of land located at 0 Reckey Highway, Auburndale, FL 33823, from Business Park Center 2 (BPC-2) to Industrial (IND). The proposed land use district change will allow the Owner to store modular classrooms on the site as a primary use.

The need for outdoor storage on the parcel is essential for the Owner to maximize the space and capabilities of the site. The adjacent land is all vacant. The proposed use will not cause adverse impacts to the surrounding areas/property owners. The need for outdoor storage is realized based on the close proximity to the railroad and location of the site. The change in use will allow outdoor storage which will allow flexibility to the Owner. The Urban Sprawl Criteria below is outlined for the request below.

The proposed development will not promote substantial amounts of low-density, low intensity or single use development is excess. *The proposed development consist of temporary storage and would not be used for permanent storage of vehicles or any other apparatus.*

The proposed development will not produce a significant or any amount of development to the surrounding area.

No urban developments would be affected by this project.

There are no affects on adjacent land uses (specifically agriculture).

Most of the current parcel will still be utilized as open space and the goal is to put a landscape buffer along the frontage to beautify the parcel.

Comprehensive Plan– 2.102-A11 Urban Sprawl Criteria

The information and guidelines outlined in the urban sprawl section of the comprehensive plan do not apply as the site development does not introduce any additional population.

February 2, 2026

Polk County Board of County Commissioners
Land Development Division
330 West Church Street
Bartow, FL 33831-9005

Re: Smale-scale Comprehensive Plan Amendment (CPA)
Impact Assessment Statement (IAS) Narrative
LDDRC-2025-313 Recker Hwy Storage Yard
0 Recker Hwy, Auburndale, FL 33823 (Parcel ID: 25-28-14-000000-041080)

To Whom it May Concern,

Madrid Engineering Group, Inc., dba Madrid CPWG/Madrid CFTL, is pleased to present the below narrative in support of the small-scale comprehensive plan amendment (CPA). The Owner, Premier Parking US LLC, proposes rezoning (changing land use district designation) of the parcel of land located at 0 Reckey Highway, Auburndale, FL 33823, from Business Park Center 2 (BPC-2) to Industrial (IND). The proposed land use district change will allow the Owner to store modular classrooms on the site as a primary use. The Polk County Land Development Code (LDC) does not define outdoor storage as a primary use per (Chapter 2, Section 205, Table 2.1) within the Business Park Center-2 (BPC-2) land use district.

Premier Parking (Owner) utilizes several parcels of land in and around the Polk County area for commercial vehicle storage of semi tractor trailers. Commercial vehicle storage is an allowed use in BPC-2 and is permitted within the parcel in question. The Owner will utilize the parcel for commercial vehicle storage in the future but would like the flexibility to utilize a portion of the property for outdoor storage of the modular classrooms or other storage containers (with no hazardous materials or grease/oils). The temporary modular classroom storage is not allowed as a primary use in the BPC-2 land use district but would be allowed in the IND land use district. IND land use district allows dual primary uses.

Based on conversations with Polk County, staff is potentially looking to add text to the LDC to include a use for such storage purposes. However, the workshop for this text amendment has not occurred to date. The site is looked within the Transit Corridor and Centers Overlay (TCCO) in the Transit Supportive Development Area (TSDA). The site is not located within the Green Swamp Area of Critical State Concern or any other Selected Are Plans (SAPs) or Special Protection Areas (SPAs).

The project does not propose any structures and utility improvements would be limited to connection to City of Auburndale watermain along Recker Highway for irrigation service. No other utilities, including sanitary sewer, will be required for the project. The project does not propose any impervious area. The modular classrooms will be temporarily stored on site and would sit on “cribs” or wooden crates so existing stormwater flow would not be altered by the storage of the modular buildings. No soil disturbance would be anticipated with the proposed project.

LDC Section 910 – Impact Assessment Statements

The below information and responses (*identified in italics*) are provided for each subsection of 910 to provide information on the effects of the proposed development (and land use action) will have on the existing neighborhood and general area; on the transportation facilities; on the environment and natural resources of the County; on the public facilities for water, sewer, solid waste disposal, fire, police, public education, parks, recreation, and other utilities; and any other aspect with an identified impact of the development and deemed appropriate for concern.

A. Land and Neighborhood Characteristics

To assess the compatibility of the requested land use district with the adjacent property and to evaluate the suitability of the site for development, the applicant shall:

1. Show how and why is the site suitable for the proposed uses;
   The parcel was utilized by the previous owner as outdoor storage from the beginning of 2022 until the current Owner purchased the property in September of 2024. No known concerns or complaints were raised by the neighboring parcels or landowners during this time. Since the purchase of the property, the site has remained vacant and is identified as Vacant Industrial (Code 4001) per the property appraiser website.

   The proposed IND Land use district is appropriate for the site due to its location. The parcels to the north and northeast (roughly half area to the east) are located within City of Auburndale city limits which have a Light Industrial (LI) City zoning. The parcels within the City of Auburndale adjacent to the site are owned by Tampa Electric Company. The site to the north has an existing land use of vacant industrial and the property at the northeast, separated by the CSX Corporation railroad parcel, has an existing land use of Utilities.

   The remaining parcels contiguous to the site are within the Polk County BPC-2 land use district. However, the parcels east of the site are separated by the CSX Corporation railroad land parcel. Please note, many parcels directly adjacent to railroads would typically have an industrial use classification or allow storage yards, etc. for use based on proximity of the railroad. The parcels to the west are separated by FDOT right-of-way of State Road 655 (Recker Highway). The vacant industrial property to the south is undeveloped and is mostly encompassed by wetlands. Therefore, the proposed land use district of IND will not have adverse effects on neighboring landowners or communities. All land adjacent to the site is currently vacant.
2. Provide a site plan showing each type of existing and proposed land use;
   Refer to Map F for site plan showing existing and proposed land use.
3. Describe any incompatibility and special efforts needed to minimize the differences in the proposed use with adjacent uses;
   There are no anticipated incompatibilities and special efforts needed to minimize difference in uses. As indicated above in A.1, the existing adjacent parcels are vacant and most are vacant industrial land use. The railroad and FDOT roadway also provide separation from the adjacent BPC-2 land use district parcels.

4. Explain how the requested district may influence future development patterns if the proposed change is located in an area presently undeveloped;
   The requested IND land use district change should not influence development patterns in the area unless other parcels pursue utilization of outdoor storage as a primary use. However, the potential added text to the LDC described by County staff for such uses may alleviate any adverse effects this request has on future development patterns.
5. Describe each of the uses proposed in a Planned Development and identify the following:
   The proposed development is not located within a planned development. Therefore, the items below are not applicable.
   a. The density and types of residential dwelling units;
      N/A, no residential dwellings (and not within planned development)
   b. The type of commercial and industrial uses;
      N/A, not within planned development but the commercial/industrial outdoor storage use will consist of temporary modular classroom storage and potential future commercial vehicle storage.
   c. The approximate customer service area for commercial uses;
      N/A, no customer service areas proposed.
   d. The total area proposed for each type of use, including open space and recreation.
      N/A, not within planned development but the proposed use is not anticipated to encompass more than 50% of the site (4.29 acres).

B. Access to Roads and Highways

To assess the impact of the proposed development on the existing, planned and programmed road system, the applicant shall:

1. Calculate the number of vehicle trips to be generated daily and at PM peak hour based on the latest ITE or provide a detailed methodology and calculations;
   The proposed use is not a use defined within the ITE manual. Based on information provided by the modular classroom storage management, the maximum daily trips would be 10 with max PM peak hour of 1. The average daily generated trips would be less than 1.
2. Indicate what modifications to the present transportation system will be required as a result of the proposed development;
   FDOT owns and maintains SR655 (Recker Highway) and based on pre-application meeting with FDOT staff, no turnlanes or roadway improvements will be required due the proposed project and the corresponding daily trips.
3. List the total number of parking spaces and describe the type of parking facilities to be provided in the proposed development;
   The proposed development is not proposing parking spaces or parking facilities.
4. Indicate the proposed methods of access to the existing public roads (e.g., direct frontage, intersecting streets, frontage roads);
   Site access will be provided by an existing concrete driveway connection to Recker Highway. The existing driveway connection is the only connection to public roads and will remain as previously constructed. No improvements to the driveway connection are proposed or anticipated.

5. Indicate the modes of transportation, other than the automobile, that have been considered (e.g., pedestrian, bicycle, bus, train or air) and describe the modes.
   The parcel is within a rural area located just outside the City of Auburndale city limits. There are no bus routes on Recker Highway or within close proximity to the project. The proposed storage facility will not produce any additional pedestrian or bicycle traffic. Therefore, no proposed sidewalks or pedestrian access are proposed with the project. FDOT had no requirement of providing sidewalks or bicycle lane along Recker Highway during the preliminary pre-application process.

C. Sewage

To determine the impact caused by sewage generated from the proposed development, the applicant shall:

1. Calculate the amount of sewage in gallons per day (GPD) expected to be generated by the proposed development;
   The proposed development will not generate any sewage flows and no sanitary sewer infrastructure or improvements are proposed. No structures are proposed.
2. Describe the proposed method and level of treatment, and the method of effluent disposal for the proposed sewage treatment facilities if on-site treatment is proposed;
   Not applicable; the proposed development will not generate sewage flow and no sanitary sewer infrastructure or improvements are proposed.
3. Indicate the relationship of the proposed sewage system to Polk County's plans and policies for sewage treatment systems;
   Not applicable; the proposed development will not generate sewage flow and no sanitary sewer infrastructure or improvements are proposed.
4. Identify the service provider;
   City of Auburndale. There is an existing sanitary sewer forcemain located on the east side of Recker Highway adjacent to the project.
5. Indicate the current provider's capacity and anticipated date of connection.
   Not applicable; the proposed development will not generate sewage flow and no connection is anticipated.

D. Water Supply

To determine the amount of water to be used, how it will be distributed, and the impact on the surrounding area, the applicant shall:

1. Indicate the proposed source of water supply and, the type of treatment;
   There is an 12" watermain located on the east side of Recker Highway adjacent to the project.
2. Identify the service provider;
   The City of Auburndale.
3. Calculate the estimated volume of consumption in gallons per day (GPD);
   There is no potable consumption volume associated with the project. However, the 12" watermain is anticipated to be utilized for irrigation and only during the plant establishment period. Our irrigation designer anticipates 1800 GPD for this time period.

4. Indicate the current provider's capacity and anticipated date of connection.
   The City of Auburndale has available capacity for the irrigation service. An on-site well may be utilized for irrigation service if capacity issues arise. The anticipated connection date is 10/01/2026.

E. Surface Water Management and Drainage

To determine the impact of drainage on the groundwater and surface water quality and quantity caused by the proposed development, the applicant shall:

1. Discuss the impact the proposed development will have on surface water quality;
   The project does not propose any additional impervious area and therefore, there will be no impact on surface water quality. The Owner will set aside an area at the southern portion of the parcel for future dry retention area and floodplain compensation. While the site is located in FEMA flood zone "X" panel no. 12105C0345G (effective date 12/22/2016), the SWFWMD Lake Handcock Watershed Model shows 100 year floodplain on the southern end of the site.
2. Describe the alteration to the sites natural drainage features, including wetland, that would be necessary to develop the project;
   The modular classrooms will be temporarily stored on site and would sit on "cribs" or wooden crates so existing stormwater flow would not be altered by the storage of the modular buildings. No soil disturbance would be anticipated with the proposed project.

   Surface water from the site sheet flows south to a forested, swampy area at the south end of the site where there is a wetland area which extends to the adjacent parcel to the south. Stormwater is then conveyed under Recker Highway via an existing culvert. Stormwater then flows west.

3. Describe the impact of such alterations on the fish and wildlife resources of the site;
   The proposed development will not adversely affect fish and wildlife.
4. Describe local aquifer recharge and groundwater conditions and discuss the changes to these water supplies which would result from development of the site.
   The proposed development is not proposing new impervious area. Rainfall entering and traveling through the site will be able to percolate as in the existing condition so there is no impact to aquifer recharge and groundwater conditions.

F. Population

To determine the impact of the proposed developments additional population, the applicant shall:

1. Calculate the projected resident (and transient) population of the proposed development and the generated population in the case of commercial or industrial uses;
   The proposed project does not produce any new population to the area.
2. Describe, for commercial and industrial projects, the employment characteristics including the anticipated number of employees, type of skills or training required for the new jobs, the percentage of employees that will be found locally or are expected to be drawn from outside the county or state, and the number of shifts per day and employees per shift;
   The proposed project does not produce any new employees to the area for the proposed storage yard.

3. Indicate the expected demographic composition of the additional population (age/socio-economic factors);
   The proposed project does not produce any new population to the area.
4. Describe the proposed service area and the current population thereof.
   The adjacent parcels are vacant and the project does not propose any increase in population.

G. General Information

To determine if any special needs or problems will be created by the proposed development, the applicant shall:

1. List and discuss special features of the proposed development that promote desirability and contribute to neighborhood needs; and
   The proposed development will provide the required landscaping along the frontage of Reckey Highway which will enhance the site over the existing conditions of the parcel. Barbed wire fencing will be provided for security.
2. Discuss the demand on the provision for the following services:
   a. Parks and Recreation
      The proposed development will not increase population in the area and no demand on parks and recreation are anticipated.
   b. Educational Facilities (preschool/elementary/middle school/high school);
      The proposed development will not increase population in the area and no demand on educational facilities are anticipated.
   c. Health Care (emergency/hospital)
      The proposed development will not increase population in the area and no demand on parks and recreation are anticipated.
   d. Fire Protection
      The proposed development does not propose any permanent structures and thus no demand for fire protection.
   e. Police Protection and Security
      Barbed wire fencing will be provided for security. The entire property is currently fenced and will be fenced.
   f. Electrical Power Supply.
      No electrical power is required for the project.

H. Maps

1. Maps shall be used to give the public agencies a clear graphic illustration and visual understanding of the proposed development and the potential positive and negative impacts resulting from the development.
2. Maps shall be of sufficient type, size, and scale to facilitate complete understanding of the elements of the proposed development. Scales shall be clearly indicated on each map and the dates of preparation and revisions shall be included. The project boundaries shall be overlaid on all maps. The following maps shall accompany all Impact Assessment Statements:

3. Map A: A location map showing the relationship of the development to cities, highways, and natural features;
4. Map B: A Topographical Map with contour intervals of no greater than five feet, the identification of the property boundaries, and a delineation of the areas of special flood hazard (100 year flood plain) as shown on the Flood Insurance Rate Maps issued by the Federal Emergency Management Agency (FEMA) for Polk County;
5. Map C: A Land Use and Land Use District Map showing the existing land use designations and districts on and abutting the proposed development, including lot sizes and density;
6. Map D: A Soils Map with soils designated according to Natural Resources Conservation Service classifications. If available, USDA Natural Resources Conservation Service (NRCS) soil surveys are preferable;
7. Map E: A Traffic Circulation Map identifying any existing roads on or adjacent to the proposed development and indicating the name of the roads, maintenance jurisdiction, and pavement and right-of-way widths.
8. Map F: A Site Plan showing land uses, the layout of lots, the type and maximum density for each type of residential area; the typical minimum lot sizes and dimensions for each use and unit type, and the dimensions, locations, and types of buffers, easements, open space areas, parking and loading areas, setbacks, and vehicular circulation routes;
9. Map G: A Drainage Map delineating existing and proposed drainage areas, water retention areas, drainage structures, drainage easements, canals, wetlands, watercourses, and other major drainage features.

Please refer to the attachment section for the associated maps.

Please do not hesitate to contact me if any additional information is required.

MAP INFORMATION

The soil surveys that comprise your AOI were mapped at 1:20,000.

Warning: Soil Map may not be valid at this scale.

Enlargement of maps beyond the scale of mapping can cause misunderstanding of the detail of mapping and accuracy of soil line placement. The maps do not show the small areas of contrasting soils that could have been shown at a more detailed scale.

Please rely on the bar scale on each map sheet for map measurements.

Source of Map: Natural Resources Conservation Service
Web Soil Survey URL:
Coordinate System: Web Mercator (EPSG:3857)

Maps from the Web Soil Survey are based on the Web Mercator projection, which preserves direction and shape but distorts distance and area. A projection that preserves area, such as the Albers equal-area conic projection, should be used if more accurate calculations of distance or area are required.

This product is generated from the USDA-NRCS certified data as of the version date(s) listed below.

Soil Survey Area: Polk County, Florida
Survey Area Data: Version 23, Aug 29, 2025

Soil map units are labeled (as space allows) for map scales 1:50,000 or larger.

Date(s) aerial images were photographed: Jan 6, 2022—Mar 21, 2022

The orthophoto or other base map on which the soil lines were compiled and digitized probably differs from the background imagery displayed on these maps. As a result, some minor shifting of map unit boundaries may be evident.

Map Unit Legend

Map Unit Symbol	Map Unit Name	Acres in AOI	Percent of AOI
13	Samsula muck, frequently ponded, 0 to 1 percent slopes	1.6	13.5%
31	Adamsville fine sand, 0 to 2 percent slopes	10.5	86.5%
Totals for Area of Interest		**12.2**	**100.0%**

File Date: 02/02/2026

Application Type: BOCC-CPA Small

Application Status: Approved for Hearing

Application Comments:

View ID	Comment	Date

Description of Work: The Owner, Premier Parking US LLC, proposes rezoning (changing land use district designation) of the parcel of land located at 0 Reckey Highway, Auburndale, FL 3382 Business Park Center 2 (BPC-2) to Industrial (IND). The proposed land use district change will allow the Owner to store modular classrooms on the site as a primary use. Parking (Owner) utilizes several parcels of land in and around the Polk County area for commercial vehicle storage of semi tractor trailers. Commercial vehicle storage is allowed use in BPC-2 and is permitted within the parcel in question. The Owner will utilize the parcel for commercial vehicle storage in the future but would like the flexibil utilize a portion of the property for outdoor storage of the modular classrooms or other storage containers (with no hazardous materials or grease/oils). The temporary mo classroom storage is not allowed as a primary use in the BPC-2 land use district but would be allowed in the IND land use district. IND land use district allows dual primar

ORDINANCE NO. 26 -____

AN ORDINANCE OF THE POLK COUNTY BOARD OF COUNTY COMMISSIONERS REGARDING THE ADOPTION OF AMENDMENT **LDCPAS-2026-7;** AN AMENDMENT TO THE POLK COUNTY COMPREHENSIVE PLAN; ORDINANCE 92-36, AS AMENDED TO CHANGE THE FUTURE LAND USE DESIGNATION ON 8.59± ACRES FROM BUSINESS PARK CENTER (BPC) TO INDUSTRIAL (IND). THE SUBJECT SITE IS LOCATED NORTH OF HIGHWAY 542 W, EAST OF RECKER HIGHWAY, SOUTH OF THE CITY OF AUBURNDALE IN SECTION 14, TOWNSHIP 28, RANGE 25; PROVIDING FOR SEVERABILITY; AND PROVIDING FOR AN EFFECTIVE DATE.

WHEREAS, pursuant to Article VIII, Section I(g) of the Constitution of the State of Florida and the Community Planning Act, Chapter 163, Part II, Florida Statutes (FS), as amended, (the Act) Polk County is authorized and required to adopt a Comprehensive Plan (Plan); and

WHEREAS, Section 163.3187, FS, and Comprehensive Plan Section 4.305.B, provides for the approval of Small-Scale Comprehensive Plan Amendments; and

WHEREAS, pursuant to Section 163.3174, FS, the Local Planning Authority (Planning Commission) conducted a public hearing, with due public notice having been provided, on the proposed Plan revisions on May 6, 2026; and

WHEREAS, pursuant to Section 163.3187(2), FS, the Board of County Commissioners conducted an adoption public hearing, with due public notice having been provided, on the proposed Plan revisions on June 16, 2026; and

WHEREAS, the Board of County Commissioners, reviewed and considered all comments received during said public hearing, and provided for necessary revisions; and

NOW THEREFORE, BE IT ORDAINED by the Polk County Board of County Commissioners:

SECTION 1: COMPREHENSIVE PLAN AMENDMENT

The Future Land Use Map of Ordinance No. 92-36, as amended, (the "Polk County Comprehensive Plan") is hereby amended to reflect a change in the Future Land Use designation on a 8.59+/- acre site from Business Park Center (BPC) to Industrial (IND) on the parcel listed below and graphically depicted on the parcel map in Attachment "A".

Parcel: 252814-000000-041080

as described below:

COMM NE COR NE1/4 OF SW1/4 RUN N89-45-31W 1361.82 FT TO WLY R/W OF CSX RR S29-57-57E ALONG SAID R/W 289.81 FT TO POB CONT S29-57-57E 1414.36 FT S81-35-15W 327.07 FT TO ELY R/W OF SR 655 N26-23- 27W ALONG SAID R/W 1422.44 FT S89-45-28E 249.37 FT TO POB.

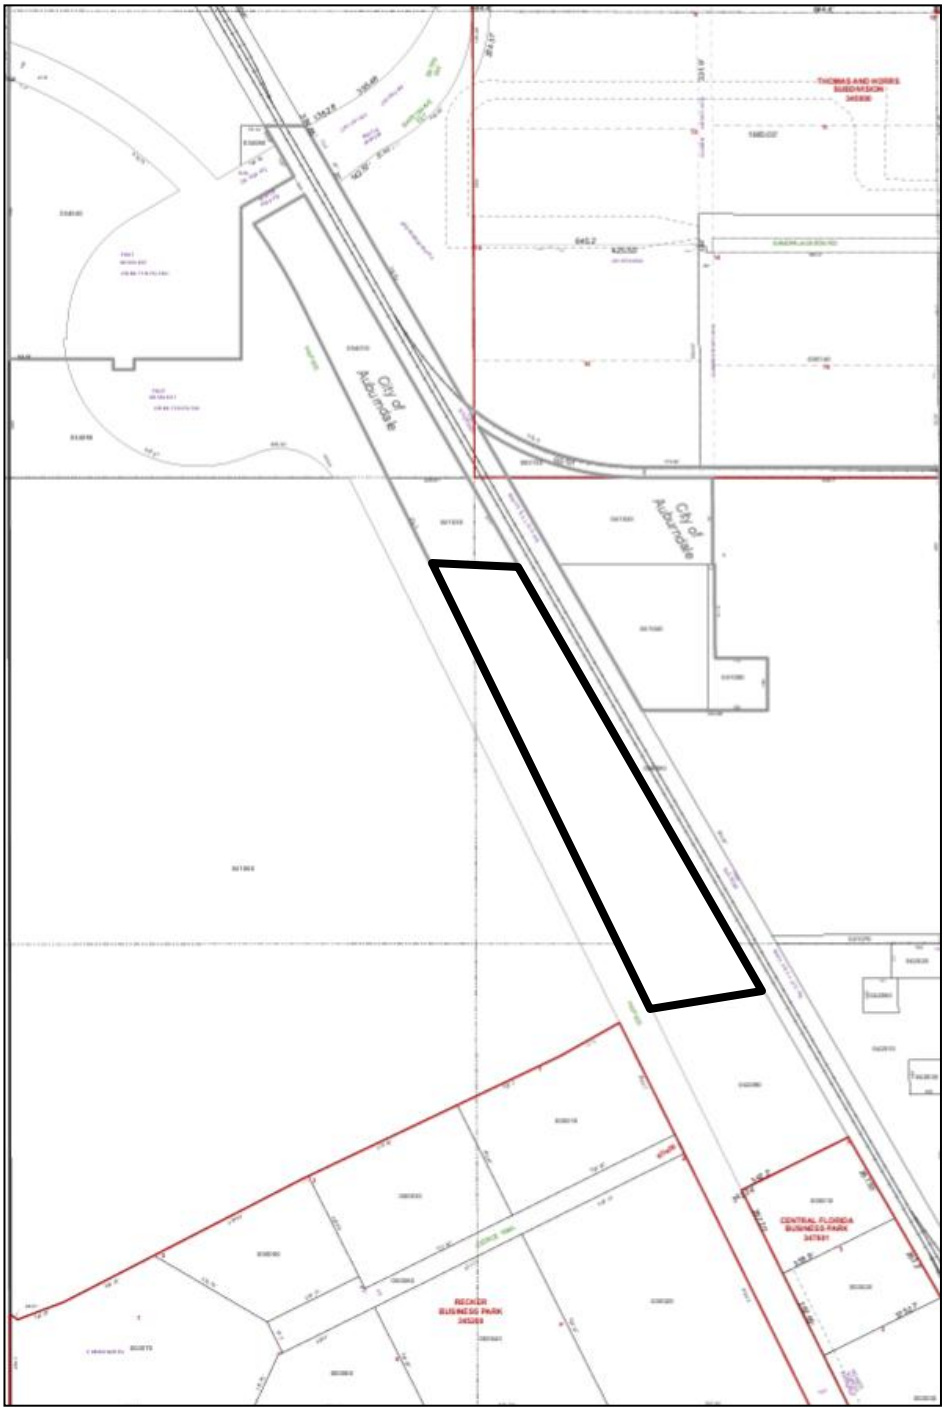
SECTION 2: SEVERABILITY

If any provision of this Ordinance is held to be illegal, invalid, or unconstitutional by a court of competent jurisdiction the other provisions shall remain in full force and effect.

SECTION 3: EFFECTIVE DATE

This ordinance shall be effective on July 17, 2026 (31 days after adoption), unless the amendment is challenged. If challenged, the effective date of this ordinance shall be the date a Final Order is issued by the Department of Commerce or Administration Commission finding the amendment in compliance in accordance with Section 163.3184 (1)(b), Florida Statutes. No development orders, development permits, or land uses dependent upon this amendment, as described on the attached map of proposed land uses, may be issued or commence before it has become effective.

SECTION 4: FILING WITH THE DEPARTMENT OF STATE:



The Clerk and Auditor to the Board of County Commissioners of Polk County, Florida, shall file a certified copy of this ordinance with the Department of State, through the Secretary of State, upon adoption by the Board of County Commissioners of Polk County, Florida.

ADOPTED, in open session of the Polk County Board of County Commissioners with a quorum present and voting this 16th day of June 2026.

PARCEL DETAIL
Note: Not to Scale

Agenda Item O.2. 6/16/2026

SUBJECT

Public Hearing to consider adoption of an ordinance amending Polk County Ordinance 2006-024, the Polk County Procurement Ordinance, as amended, to increase the authorized maximum amount the County Manager may enter into without further Board approval to Two Hundred Thousand Dollars ($200,000).

DESCRIPTION

A Public Hearing is required to consider the adoption of an ordinance amending Polk County Ordinance 2006-024, the Polk County Procurement Ordinance, as amended. The Polk County Board of County Commissioners had delegated to the County Manager the authority to enter into agreements in the amount of One Hundred Thousand Dollars ($100,000) without further approval of the Board. The proposed ordinance would increase the County Manager's authorized amount from One Hundred Thousand Dollars to Two Hundred Thousand Dollars ($200,000).

RECOMMENDATION

Approve and adopt ordinance amending Polk County Ordinance 2006-024, the Polk County Procurement Ordinance, as amended, to increase the authorized maximum amount the County Manager may enter into without further Board approval to Two Hundred Thousand Dollars ($200,000).

FISCAL IMPACT

There is no fiscal impact to the County.

ORDINANCE NO. 2026-___

AN ORDINANCE OF BOARD OF COUNTY COMMISSIONERS OF POLK COUNTY, FLORIDA, AMENDING POLK COUNTY ORDINANCE 06-24, THE POLK COUNTY PROCUREMENT ORDINANCE, AS AMENDED; AMENDING SECTION 3D, AUTHORITY OF THE COUNTY MANAGER; PROVIDING FOR SEVERABILITY; AND PROVIDING AN EFFECTIVE DATE.

WHEREAS, the Board of County Commissioners of Polk County, Florida (the "Board") adopted Ordinance No. 2006-24, the Polk County Procurement Ordinance (as amended, the "Ordinance"), providing for the purchase and procurement of goods, services, supplies, equipment, materials, and the letting of any contract for vertical or horizontal construction of any type for any agency, department, or advisory board under control of the Board; and

WHEREAS, in 2015, the Board amended the Ordinance with Ordinance No. 2015-78, providing for the authorization to allow the County Manager to enter into agreements for the purchase or procurement of goods or services in an amount not to exceed One Hundred Thousand Dollars ($100,000); and

WHEREAS, the Board, after review and recommendation of staff, finds and determines that modifications to the Ordinance are necessary in order to more efficiently provide for the purchase of the highest quality goods and services at the most reasonable cost and for the fair and equitable treatment of persons doing business in Polk County; and

WHEREAS, pursuant to expediency in response to the rising costs of goods and services, the Board wishes to expand the powers of the County Manager to allow them to enter into agreements for the purchase or procurement of goods or services in an amount not to exceed Two Hundred Thousand Dollars ($200,000); and

WHEREAS, said modifications are reflected in this amendment ordinance**.**

NOW, THEREFORE, BE IT ORDAINED BY THE BOARD OF COUNTY COMMISSIONERS OF POLK COUNTY, FLORIDA:

SECTION 1: The recitals above are true and correct and are fully incorporated herein. Capitalized terms not otherwise defined herein shall have the meaning ascribed in the Ordinance.

SECTION 2: Section 3 of the Ordinance, as amended, is hereby amended to replace the following Section 3D:

D. Authority of the County Manager

In Accordance with Polk County Ordinance No. 96-01, and those powers enumerated therein, the County Manager shall have the full power and authority, and is hereby duly authorized, to make, enter into, execute, amend, modify or supplement any contract or agreement for the purchase or procurement of any goods, services, materials, supplies or equipment in an amount not to exceed Two Hundred Thousand Dollars ($200,000.00), on behalf of, in the name of, or purporting to bind the County, without further approval of the Board of County Commissioners, provided that all necessary funding for any such contract or agreement has previously been budgeted and approved by the Board, and the terms and conditions of such contract or agreement have been reviewed and approved by the County Attorney or his/her designee.

SECTION 3: SEVERABILITY.

The provisions of this Ordinance are declared to be severable. If any section, paragraph, sentence, clause, or phrase herein, is, for any reason, held to be invalid or unconstitutional, by a court of competent jurisdiction, such decision shall not affect the validity of the remaining sections, paragraphs, sentences, clauses, or phrases. Such remaining sections shall remain in effect, it being the intent that this ordinance shall remain in effect notwithstanding the invalidity of any part.

SECTION 4: EFFECTIVE DATE.

A certified copy of this ordinance shall be filed with the Office of the Secretary of State, State of Florida within ten (10) days of enactment. Unless specified otherwise, this ordinance shall take effect immediately upon adoption and filing as provided by law.

DULY ADOPTED in regular session, this 16th day of June, 2026

Deputy Clerk

By_____
Martha Santiago, Ed.D., Chair

Agenda Item O.3. 6/16/2026

SUBJECT

Consider a Resolution amending Resolution No 2016-007, the Guidelines for the Execution of Contracts by the County Manager, to increase the authorized maximum amount the County Manager may enter into without further Board approval to Two Hundred Thousand Dollars ($200,000).

DESCRIPTION

The Polk County Board of County Commissioners had delegated to the County Manager the authority to enter into agreements in the amount of One Hundred Thousand Dollars ($100,000) without further approval of the Board. The proposed resolution would increase the County Manager's authorized amount from One Hundred Thousand Dollars to Two Hundred Thousand Dollars ($200,000). There is a proposed Ordinance to increase the authorized amount to $200,000 for procurement agreements. This resolution matches the authorized amount in the proposed ordinance for agreements that do not fall under the procurement procedures.

RECOMMENDATION

Approve and adopt the Resolution amending Resolution No 2016-007, the Guidelines for the Execution of Contracts by the County Manager, to increase the authorized maximum amount the County Manager may enter into without further Board approval to Two Hundred Thousand Dollars ($200,000).

FISCAL IMPACT

There is no fiscal impact to the County.

RESOLUTION NO. 2026-_____

A RESOLUTION OF BOARD OF COUNTY COMMISSIONERS OF POLK COUNTY, FLORIDA, AMENDING AND RESTATING POLK COUNTY RESOLUTION 16-07, ESTABLISHING GUIDELINES FOR EXECUTION OF CONTRACTS BY THE COUNTY MANAGER; AMENDING AND RESTATING SECTION 1, GUIDELINES FOR EXECUTION OF CONTRACTS BY THE COUNTY MANAGER; PROVIDING FOR SEVERABILITY; AND PROVIDING AN EFFECTIVE DATE.

WHEREAS, pursuant to Chapter 125, Florida Statutes, Section 125.70, et eq., and Polk County Ordinance No. 96-01, the Board of County Commissioners of Polk County, Florida (the "Board") is authorized to delegate certain powers, duties, and responsibilities to the County Manager as the chief administrative officer of the County; and

WHEREAS, pursuant to Section 2.02.I of Polk County Ordinance No. 96-01, the County Manager is specifically authorized to negotiate, execute and administer compliance with all leases, contracts or other agreements on behalf of the County, subject to Board oversight and approval; and

WHEREAS, the Board authorized the County Manager to execute agreements in accordance with the guidelines in Resolution No. 2016-07; and

WHEREAS, The Board desires to increase the monetary amount the County Manager is authorized to execute in response to rising prices; and

WHEREAS, Resolution No. 2016-07(1)(F) provides that the Guidelines may be modified or amended at any time by the Board; and

WHEREAS, in order to provide for the economic and efficient conduct of County affairs, the Board has amended and restated, by this Resolution, the Guidelines for Execution of Contracts by the County Manager previously established in Resolution No. 2016-07, as further set forth below.

NOW, THEREFORE, BE IT RESOLVED BY THE BOARD OF COUNTY COMMISSIONERS, POLK COUNTY, FLORIDA, THAT:

SECTION 1: GUIDELINES FOR COUNTY MANAGER CONTRACT. In accordance with Polk County Ordinance No. 96-01, Section 2.02.I. the Board hereby authorizes the County Manager to execute on behalf of the County those contracts as set forth in the following Guidelines for Execution of Contracts by the County Manager (the "Guidelines").

GUIDELINES FOR EXECUTION OF CONTRACTS BY THE COUNTY MANAGER

A. The County Manager is authorized to execute contracts when the monetary amount of the contract, including amendments, is two hundred thousand dollars ($200,000.00) or less, annually. This includes contracts which receive or expend funds or state no monetary amount. If no maximum amount is stated in the contract (such as a per unit cost contract), the limiting amount will be the amount budgeted annually for the contract.

B. The term "contract" as used herein shall include, without limitation, memoranda of understanding, interlocal agreements, license agreements, grant applications, rental agreements, real property agreements, easement agreements, and any other written instrument creating an obligation that is enforceable or otherwise recognizable at law.

C. The terms and conditions of all contracts subject to these Guidelines shall be reviewed and approved by the County Attorney's Office and the Budget Office, where appropriate, and the funding must be duly appropriated by the Board.

D. These Guidelines do not apply to the signature authority for contracts for the purchase or procurement of goods, services, materials, supplies or equipment, which authority is specifically addressed in Polk County Ordinance No. 2026-_____ and the Purchasing Procedures Manual.

E. In the event that any term of these Guidelines is in conflict with any prior authorization or County policy regarding signature authority for contracts, these Guidelines shall control.

F. These Guidelines may be modified or amended at any time by resolution of the Board.

G. Nothing contained in these Guidelines shall be construed as: (i) a delegation of any policy-making authority; or (ii) precluding the Board from considering, approving or disapproving, or executing any contract binding or purporting to bind the County or otherwise creating an obligation to perform or not to perform a particular act.

SECTION 2. SEVERABILITY. If any clause, section or provision of this Resolution shall be declared unconstitutional or invalid for any reason or cause, the remaining portion of said Resolution shall remain in full force and effect and be valid as if such invalid portion thereof had not been incorporated herein.

SECTION 3. EFFECTIVE DATE. This Resolution shall take effect immediately upon its adoption.

DULY ADOPTED this 16th day of June, 2026.

Agenda Item O.4. 6/16/2026

SUBJECT

Consider a Resolution amending Resolution No 2001-094, Polk County Allowance Work policy establishing Allowance Administrator and providing allowance work rates for horizontal and vertical construction.

DESCRIPTION

The Polk County Board of County Commissioners has set out the guidelines for how Allowance Work will be determined in construction contracts. Staff for the Facilities Division and Roads & Drainage Division believe allowance work for vertical and horizontal construction should be divided and subject to different rates to better reflect the unique necessities of the two construction methods. Allowance Work for Horizontal Construction will be in an amount up to fifteen percent (15%) of the construction contract bid amount with no dollar cap will be included in the construction contract price. Allowance Work for Vertical Construction will be in an amount up to ten percent (10%) of the contract bid amount OR Five Hundred Thousand Dollars ($500,000.00), whichever is less, will be included in the construction contract price. Furthermore, the resolution delegates the authority to approve allowance work to the County Division Director, the County Manager, and the Deputy County Manager, referred generally as the “Allowance Administrator”.

RECOMMENDATION

Approve and adopt the Resolution amending Resolution No 2001-094, Polk County Allowance Work policy establishing Allowance Administrator and providing allowance work rates for horizontal and vertical construction.

FISCAL IMPACT

There is no fiscal impact to the County.

RESOLUTION NO. 2026-__

A RESOLUTION OF BOARD OF COUNTY COMMISSIONERS OF POLK COUNTY, FLORIDA, AMENDING AND RESTATING POLICY REGARDING "ALLOWANCE WORK" FOR CONSTRUCTION CONTRACTS; PROVIDING FOR SEVERABILITY; AND PROVIDING AN EFFECTIVE DATE.

WHEREAS, on June 6, 1995, the Board of County Commissioners (the "Board") adopted an "Allowance Work" policy that permitted the County to authorize its general contractors employed under construction contracts to perform certain work that may not have been specifically addressed in the original project specifications, but which the County deemed necessary for the completion of a project; and

WHEREAS, on September 5, 2001, the Board amended the Allowance Work policy in its entirety in Resolution No. 01-94; and

WHEREAS, On July 9th, 2013, the Board again amended the Allowance Work policy in its entirety in Resolution No. 13-66; and

WHEREAS, because of the size, complexity and nature of the various capital construction projects undertaken by the County, it remains in the County's best interest to continue including an "Allowance Work" provision in many of its construction contracts, and to continue the policy's delegation of authority to the County Division Director, the County Manager or the Deputy County Manager (the "Allowance Administrator") to administer all duties associated with the Allowance Work provisions stated in those construction contracts; and

WHEREAS, the Board has determined that a further amendment and a restatement of the Allowance Work policy is necessary to clarify the policy and to provide sufficient construction contract amounts and time necessary to complete any Allowance Work that may be required under a construction contract.

NOW, THEREFORE, BE IT ORDAINED BY THE BOARD OF COUNTY COMMISSIONERS OF POLK COUNTY, FLORIDA:

SECTION 1: ALLOWANCE WORK POLICY. The Board Policy Regarding "Allowance Work" for Construction Contracts originally adopted on June 6, 1995, and amended on September 5, 2001 by Resolution No. 01-94 and amended on July 9, 2013 by Resolution No. 13-66, is hereby amended and restated in its entirety, as follows, and shall apply to all County construction contracts entered into after this date that contain an "Allowance Work" provision:

A. The County Division Director, the County Manager, and the Deputy County Manager (the "Allowance Administrator") are delegated the authority to administer all duties associated

with the "Allowance Work" provisions stated in construction contracts entered into by the County.

B. Upon a determination by the Allowance Administrator, that: (A)(i) certain unforeseen conditions require the performance of additional construction work, or (A)(ii) certain additional construction work for which detailed specifications were not prepared, or the scope of such work was not fully established at the time the Board entered into the construction contract, must be performed to complete the project; and (B) for the purposes of expediency and efficiency it would be in the County's best interest to have the additional construction work completed by the project's contractor, then the Allowance Administrator will take appropriate action pursuant to the "Allowance Work" provision established under project construction contract.

C. Allowance Work shall be divided between Horizontal Construction and Vertical Construction. “Horizontal Construction” means the building of infrastructure that is primarily on the ground or underground level. Horizontal Construction includes roads, highways, parking lots, bridges, runways, pipelines, dams, and other forms of infrastructure that run along the ground or underground rather than being built up. “Vertical Construction” means the building of infrastructure that rises above ground level. Vertical Construction includes buildings, towers, garages, sheds, multi-level structures, or other infrastructure built up rather than constructed along the ground or underground level.

D. Allowance Work for Horizontal Construction will be in an amount up to fifteen percent (15%) of the construction contract bid amount with no dollar cap will be included in the construction contract price. Allowance Work for Vertical Construction will be in an amount up to ten percent (10%) of the contract bid amount OR Five Hundred Thousand Dollars ($500,000.00), whichever is less, will be included in the construction contract price. All Allowance Work shall be performed in full compliance with all requirements of the construction contract. The sum of all approved Allowance Work performed pursuant to this policy shall not exceed the amount stated in this Paragraph 4. Any balance of the Allowance Work amount stated in the construction contract remaining at the completion of all construction contract work shall be deducted from the contract price by an approved Change Order. No individual Allowance Work authorization shall be effective without the prior approval of the Allowance Administrator.

E. The number of calendar days specified in the construction contract for performance of the contract work shall include a total time allowance up to fifteen percent (15%) of the time specified at the time of contract award for final completion of the project for the performance of Allowance Work.

F. All charges and time for Allowance Work must be pre-approved in writing by the Allowance Administrator. The written pre-approval shall be in the form of an Allowance Authorization Release (AAR), which shall describe in detail the Allowance Work to be performed, the price for the Allowance Work, and the time, if any, allocated for performance of the Allowance Work. To be effective an AAR must include the authorizing signature of the Allowance Administrator. The contractor shall not be authorized to perform any Allowance Work without receipt of a completed AAR signed by the Allowance Administrator.

SECTION 2. SEVERABILITY. If any clause, section or provision of this Resolution shall be declared unconstitutional or invalid for any reason or cause, the remaining portion of said Resolution shall remain in full force and effect and be valid as if such invalid portion thereof had not been incorporated herein.

SECTION 3. EFFECTIVE DATE. This Resolution shall take effect immediately upon its adoption.

DULY ADOPTED this 16th of June, 2026.

Polk County

Board of County Commissioners

Agenda Item R.2. 6/16/2026

SUBJECT

SET HEARING: (LDCT-2026- Shimmering Drive Text) amend Appendix E, Section E105, Parcel Specific Comprehensive Plan Amendments with Conditions limiting allowable uses within the CAC, providing for an Activity Center Plan for an expansion of an Activity center on property subject to LDCPAS-2025-24. The suggested hearing dates are for the first reading on July 7, 2026, at 9:15 a.m. and the adoption hearing date on July 21, 2026, at 9:15 a.m.

DESCRIPTION

This is a County-initiated request for an LDC text amendment amending Ordinance No. 00-09, as amended, the Polk County Land Development Code, to amend Appendix E, Section E105, Parcel Specific Comprehensive Plan Amendments, providing for an Activity Center Plan for an expansion of an Activity center on property subject to LDCPAS-2025-24. The subject property is located on the south side of Shimmering Drive (Shepherd Road) east of Strickland Avenue, east of Clark Lake and north of W. Carter Road, north of the City of Mulberry, in Section 25, Township 29, Range 23; Providing for Severability; and Providing for an Effective Date. State law requires one Planning Commission hearing, which will be held on June 3, 2026.

Section 163.3202, Florida Statutes (F.S.) requires the Board to adopt Land Development Code (LDC) regulations consistent with the implementation of the Polk County Comprehensive Plan. Amendments to the LDC require two public hearings before the Board to be adopted.

RECOMMENDATION

Request Board set for the first reading on July 7, 2026, at 9:15 a.m. and the adoption hearing date on July 21, 2026, at 9:15 a.m.

FISCAL IMPACT

No Fiscal Impact

RESIDENTIAL MAINTENANCE BOND Bond No. 0859297

KNOWN ALL MEN BY THESE PRESENTS, That we, Alta Davenport, LLC, as Principal, and Harco National Insurance Company, a corporation organized and doing business under and by virtue of the laws of the State of Illinois and duly licensed to conduct surety business in the State of Florida, as Surety ("Principal" and "Surety" collectively the "Obligors"), are held and firmly bound unto Polk County, a political subdivision of the State of Florida, as Obligee, in the sum of Thirty Three Thousand Six Hundred Twelve & 28/100 ---------- ($ 33,612.28) Dollars, for which payment, well and truly to be made, we bind ourselves, our heirs, executors, administrators, successors, and assigns, jointly and severally, firmly by these presents.

WHEREAS, Polk County's Land Development Code (hereinafter "LDC") is by reference incorporated into and made part of this Maintenance Bond (hereinafter "Bond"); and

WHEREAS, the Principal has constructed the improvements described in the Engineer's Cost Estimate, attached hereto as Exhibit "A" and incorporated into and made part of this Bond (hereinafter "Improvements"), in the Alta Davenport subdivision, in accordance with the drawings, plans, specifications, and other data and information (hereinafter "Plans") filed with Polk County's Land Development Division, which Plans are by reference incorporated into and made part of this Bond; and

WHEREAS, the Principal wishes to dedicate the Improvements to the public; and

WHEREAS, the LDC requires as a condition of acceptance of the Improvements that the Principal provide to the Obligee a bond warranting the Improvements for a definite period of time following the Obligee's final acceptance of said Improvements; and

WHEREAS, this Bond shall commence upon the date of the Obligee's acceptance of the Improvements (the "Bond Commencement Date").

NOW, THEREFORE, the conditions of this Bond are such that:

1. If the Principal shall warrant and indemnify for a period of one (1) year(s) following the Bond Commencement Date (the "Warranty Period") against all loss that Obligee may sustain resulting from defects in construction, design, workmanship and materials (the "Defect") of the Improvements; and

2. If the Principal shall correct all Defects to the Improvements that are discovered during the Warranty Period;

Then upon approval by the Obligee this Bond shall be void, otherwise to remain in full force and effect.

3. The Obligee, its authorized agent or officer, shall notify the Principal and Surety in writing

of any Defect and shall specify in the notice a reasonable period of time for the Principal to correct the Defect. The Surety unconditionally covenants and agrees that if the Principal fails to correct the Defect within the time specified, the Surety shall forthwith correct the Defect and pay the cost thereof, including without limitation, engineering, legal, and contingent costs.

4. Should the Surety fail or refuse to perform any of its obligations pursuant to this Bond, the Obligee shall have the right to resort to any and all legal remedies against the Principal and Surety, or either, both at law and in equity including specific performance, to which the Principal and Surety unconditionally agree. In such case, the Obligors agree to pay all costs incurred by the Obligee, including attorney's fees and costs, and venue shall be in the courts of Polk County, Florida or in the United States District Court, Middle District of Florida, located in Hillsborough County, Florida.

5. All notices, demands, and correspondence with respect to this Bond shall be in writing and deemed effective on the date of certified mailing addressed to the following, notwithstanding any changes to the addresses listed below:

The Surety at:
Harco National Insurance Company
4200 Six Forks Rd, Suite 1400
Raleigh, NC 27609

The Principal at:
Alta Davenport, LLC
3715 Northside Pkwy NW, Suite 4-600
Atlanta, GA 30327

The Obligee at:
Polk County, Land Development Division
330 West Church Street
PO Box 9005 – Drawer GM03
Bartow, FL 33831-9005

This Bond commences on the Bond Commencement Date and shall remain in full force and effect until the correction of all Defects for which timely notice has been provided to the Principal and Surety, even if the time required to correct such Defect exceeds the Warranty Period. This Bond shall be released by the Obligee if all the Conditions of this Bond remain satisfied at the end of the Warranty Period.

IN WITNESS WHEREOF, the Principal and Surety have caused this Bond to be executed by their duly authorized officers this 16th day of July, 20 24.

HARCO NATIONAL INSURANCE COMPANY
INTERNATIONAL FIDELITY INSURANCE COMPANY

Member companies of IAT Insurance Group, Headquartered: 4200 Six Forks Rd, Suite 1400, Raleigh, NC 27609

KNOW ALL MEN BY THESE PRESENTS: That **HARCO NATIONAL INSURANCE COMPANY**, a corporation organized and existing under the laws of the State of Illinois, and **INTERNATIONAL FIDELITY INSURANCE COMPANY**, a corporation organized and existing under the laws of the State of New Jersey, and having their principal offices located respectively in the cities of Rolling Meadows, Illinois and Newark, New Jersey, do hereby constitute and appoint

NATASHE A. DAVIS, TIFFANY SOKO, MARGARET A. GINEM

Tampa, FL

their true and lawful attorney(s)-in-fact to execute, seal and deliver for and on its behalf as surety, any and all bonds and undertakings, contracts of indemnity and other writings obligatory in the nature thereof, which are or may be allowed, required or permitted by law, statute, rule, regulation, contract or otherwise, and the execution of such instrument(s) in pursuance of these presents, shall be as binding upon the said **HARCO NATIONAL INSURANCE COMPANY** and **INTERNATIONAL FIDELITY INSURANCE COMPANY**, as fully and amply, to all intents and purposes, as if the same had been duly executed and acknowledged by their regularly elected officers at their principal offices.

This Power of Attorney is executed, and may be revoked, pursuant to and by authority of the By-Laws of **HARCO NATIONAL INSURANCE COMPANY** and **INTERNATIONAL FIDELITY INSURANCE COMPANY** and is granted under and by authority of the following resolution adopted by the Board of Directors of **INTERNATIONAL FIDELITY INSURANCE COMPANY** at a meeting duly held on the 13th day of December, 2018 and by the Board of Directors of **HARCO NATIONAL INSURANCE COMPANY** at a meeting held on the 13th day of December, 2018.

"**RESOLVED**, that (1) the Chief Executive Officer, President, Executive Vice President, Senior Vice President, Vice President, or Secretary of the Corporation shall have the power to appoint, and to revoke the appointments of, Attorneys-in-Fact or agents with power and authority as defined or limited in their respective powers of attorney, and to execute on behalf of the Corporation and affix the Corporation's seal thereto, bonds, undertakings, recognizances, contracts of indemnity and other written obligations in the nature thereof or related thereto; and (2) any such Officers of the Corporation may appoint and revoke the appointments of joint-control custodians, agents for acceptance of process, and Attorneys-in-fact with authority to execute waivers and consents on behalf of the Corporation; and (3) the signature of any such Officer of the Corporation and the Corporation's seal may be affixed by facsimile to any power of attorney or certification given for the execution of any bond, undertaking, recognizance, contract of indemnity or other written obligation in the nature thereof or related thereto, such signature and seals when so used whether heretofore or hereafter, being hereby adopted by the Corporation as the original signature of such officer and the original seal of the Corporation, to be valid and binding upon the Corporation with the same force and effect as though manually affixed."

IN WITNESS WHEREOF, **HARCO NATIONAL INSURANCE COMPANY** and **INTERNATIONAL FIDELITY INSURANCE COMPANY** have each executed and attested these presents on this 31st day of December, 2023

RESIDENTIAL MAINTENANCE BOND Bond No. 1102218

KNOWN ALL MEN BY THESE PRESENTS, That we, Stanley Martin Homes, LLC, as Principal, and Lexon Insurance Company, a corporation organized and doing business under and by virtue of the laws of the State of Texas and duly licensed to conduct surety business in the State of Florida, as Surety ("Principal" and "Surety" collectively the "Obligors"), are held and firmly bound unto Polk County, a political subdivision of the State of Florida, as Obligee, in the sum of Forty Six Thousand Nine Hundred Two and 88/100 ($ 46,902.88) Dollars, for which payment, well and truly to be made, we bind ourselves, our heirs, executors, administrators, successors, and assigns, jointly and severally, firmly by these presents.

WHEREAS, Polk County's Land Development Code (hereinafter "LDC") is by reference incorporated into and made part of this Maintenance Bond (hereinafter "Bond"); and

WHEREAS, the Principal has constructed the improvements described in the Engineer's Cost Estimate, attached hereto as Exhibit "A" and incorporated into and made part of this Bond (hereinafter "Improvements"), in the Bimini Bay Townhomes subdivision, in accordance with the drawings, plans, specifications, and other data and information (hereinafter "Plans") filed with Polk County's Land Development Division, which Plans are by reference incorporated into and made part of this Bond; and

WHEREAS, the Principal wishes to dedicate the Improvements to the public; and

WHEREAS, the LDC requires as a condition of acceptance of the Improvements that the Principal provide to the Obligee a bond warranting the Improvements for a definite period of time following the Obligee's final acceptance of said Improvements; and

WHEREAS, this Bond shall commence upon the date of the Obligee's acceptance of the Improvements (the "Bond Commencement Date").

NOW, THEREFORE, the conditions of this Bond are such that:

1. If the Principal shall warrant and indemnify for a period of two (2) year(s) following the Bond Commencement Date (the "Warranty Period") against all loss that Obligee may sustain resulting from defects in construction, design, workmanship and materials (the "Defect") of the Improvements; and

2. If the Principal shall correct all Defects to the Improvements that are discovered during the Warranty Period;

Then upon approval by the Obligee this Bond shall be void, otherwise to remain in full force and effect.

3. The Obligee, its authorized agent or officer, shall notify the Principal and Surety in writing

of any Defect and shall specify in the notice a reasonable period of time for the Principal to correct the Defect. The Surety unconditionally covenants and agrees that if the Principal fails to correct the Defect within the time specified, the Surety shall forthwith correct the Defect and pay the cost thereof, including without limitation, engineering, legal, and contingent costs.

4. Should the Surety fail or refuse to perform any of its obligations pursuant to this Bond, the Obligee shall have the right to resort to any and all legal remedies against the Principal and Surety, or either, both at law and in equity including specific performance, to which the Principal and Surety unconditionally agree. In such case, the Obligors agree to pay all costs incurred by the Obligee, including attorney's fees and costs, and venue shall be in the courts of Polk County, Florida or in the United States District Court, Middle District of Florida, located in Hillsborough County, Florida.

5. All notices, demands, and correspondence with respect to this Bond shall be in writing and deemed effective on the date of certified mailing addressed to the following, notwithstanding any changes to the addresses listed below:

The Surety at:
10002 Shelbyville Road, Suite 100
Louisville, KY 40223

The Principal at:
11710 Plaza America Drive, #1100
Reston, VA 20190

The Obligee at:
Polk County, Land Development Division
330 West Church Street
PO Box 9005 – Drawer GM03
Bartow, FL 33831-9005

This Bond commences on the Bond Commencement Date and shall remain in full force and effect until the correction of all Defects for which timely notice has been provided to the Principal and Surety, even if the time required to correct such Defect exceeds the Warranty Period. This Bond shall be released by the Obligee if all the Conditions of this Bond remain satisfied at the end of the Warranty Period.

IN WITNESS WHEREOF, the Principal and Surety have caused this Bond to be executed by their duly authorized officers this 13th day of September, 20 24.

KNOW ALL BY THESE PRESENTS, that **Endurance Assurance Corporation, a Delaware corporation ('EAC'), Endurance American Insurance Company, a Delaware corporation ('EAIC'), Lexon Insurance Company, a Texas corporation ('LIC'), and/or Bond Safeguard Insurance Company, a South Dakota corporation ('BSIC'), each,** a "Company" and collectively, **"Sompo International,"** do hereby constitute and appoint: **Abigail E Curtiss, Ashley Martin, Dana E. Wium, Holly L. Lynch, Holly Tallone, Jessica Hedrick, Jordan Fisher, Julia C Zalesky, Kathleen M. Coen, Kelly Wolff**
as true and lawful Attorney(s)-In-Fact to make, execute, seal, and deliver for, and on its behalf as surety or co-surety; bonds and undertakings given for any and all purposes, also to execute and deliver on its behalf as aforesaid renewals, extensions, agreements, waivers, consents or stipulations relating to such bonds or undertakings provided, however, that no single bond or undertaking so made, executed and delivered shall obligate the Company for any portion of the penal sum thereof in excess of the sum of **One Hundred Million ($100,000,000.00)**

Such bonds and undertakings for said purposes, when duly executed by said attorney(s)-in-fact, shall be binding upon the Company as fully and to the same extent as if signed by the President of the Company under its corporate seal attested by its Corporate Secretary.

This appointment is made under and by authority of certain resolutions adopted by the board of directors of each Company by unanimous written consent effective the 30th day of March, 2023 for BSIC and LIC and the 17th day of May, 2023 for EAC and EAIC, a copy of which appears below under the heading entitled "Certificate".

This Power of Attorney is signed and sealed by facsimile under and by authority of the following resolution adopted by the board of directors of each Company by unanimous written consent effective the 30th day of March, 2023 for BSIC and LIC and the 17th day of May, 2023 for EAC and EAIC and said resolution has not since been revoked, amended or repealed:

RESOLVED, that the signature of an individual named above and the seal of the Company may be affixed to any such power of attorney or any certificate relating thereto by facsimile, and any such power of attorney or certificate bearing such facsimile signature or seal shall be valid and binding upon the Company in the future with respect to any bond or undertaking to which it is attached.

IN WITNESS WHEREOF, each Company has caused this instrument to be signed by the following officers, and its corporate seal to be affixed this 25th day of May, 2023.

CERTIFICATE

I, the undersigned Officer of each Company, DO HEREBY CERTIFY that:

1. That the original power of attorney of which the foregoing is a copy was duly executed on behalf of each Company and has not since been revoked, amended or modified; that the undersigned has compared the foregoing copy thereof with the original power of attorney, and that the same is a true and correct copy of the original power of attorney and of the whole thereof;
2. The following are resolutions which were adopted by the board of directors of each Company by unanimous written consent effective the 30th day of March, 2023 for BSIC and LIC and the 17th day of May, 2023 for EAC and EAIC and said resolutions have not since been revoked, amended or modified:
   "RESOLVED, that each of the individuals named below is authorized to make, execute, seal and deliver for and on behalf of the Company any and all bonds, undertakings or obligations in surety or co-surety with others: RICHARD M. APPEL, MATTHEW E. CURRAN, MARGARET HYLAND, SHARON L. SIMS, CHRISTOPHER L. SPARRO,
   and be it further
   RESOLVED, that each of the individuals named above is authorized to appoint attorneys-in-fact for the purpose of making, executing, sealing and delivering bonds,
   undertakings or obligations in surety or co-surety for and on behalf of the Company."
3. The undersigned further certifies that the above resolutions are true and correct copies of the resolutions as so recorded and of the whole thereof.

IN WITNESS WHEREOF, I have hereunto set my hand and affixed the corporate seal this 13th day of September, 20 2024

NOTICE: U. S. TREASURY DEPARTMENT'S OFFICE OF FOREIGN ASSETS CONTROL (OFAC)

No coverage is provided by this Notice nor can it be construed to replace any provisions of any surety bond or other surety coverage provided. This Notice provides information concerning possible impact on your surety coverage due to directives issued by OFAC. **Please read this Notice carefully.**
The Office of Foreign Assets Control (OFAC) administers and enforces sanctions policy, based on Presidential declarations of "national emergency". OFAC has identified and listed numerous foreign agents, front organizations, terrorists, terrorist organizations, and narcotics traffickers as "Specially Designated Nationals and Blocked Persons". This list can be located on the United States Treasury's website – https://www.treasury.gov/resource-center/sanctions/SDN-List
In accordance with OFAC regulations, if it is determined that you or any other person or entity claiming the benefits of any coverage has violated U.S. sanctions law or is a Specially Designated National and Blocked Person, as identified by OFAC, any coverage will be considered a blocked or frozen contract and all provisions of any coverage provided are immediately subject to OFAC. When a surety bond or other form of surety coverage is considered to be such a blocked or frozen contract, no payments nor premium refunds may be made without authorization from OFAC. Other limitations on the premiums and payments may also apply.

Any reproductions are void.

MAINTENANCE BOND Bond No. LICX1984331

KNOWN ALL MEN BY THESE PRESENTS, that We, Westside Haines City Community Development District as Principal, and Lexon Insurance Company, a corporation organized and doing business under and by virtue of the laws of the State of Texas and duly licensed to conduct surety business in the State of Florida, as Surety ("Principal" and "Surety" collectively the "Obligors"), are held and firmly bound unto Polk County, a political subdivision of the State of Florida (the "County"), as Obligee, in the sum of One Hundred Seventy-Six Thousand, Five Hundred Forty & 14/100 ($ 176,540.14) Dollars, for which payment, well and truly to be made, we bind ourselves, our heirs, executors, administrators, successors, and assigns, jointly and severally, by these presents:

WHEREAS, the County's Land Development Code (hereinafter "LDC") is by reference incorporated into and made part of this Maintenance Bond (hereinafter "Bond"); and

WHEREAS, the Principal has pursuant to the Subdivision Agreement attached hereto and incorporated herein as Exhibit "A" constructed the following improvements Water, Sanitary, Reclaim, as further described in the Engineer's Cost Estimate, attached hereto and incorporated herein as Exhibit "B" and incorporated into and made part of this Bond (hereinafter "Improvements"), in the Brentwood Phase 4-5 platted subdivision (the "Subdivision"), in accordance with the drawings, plans, specifications, and other data and information (hereinafter "Plans") filed with the County's Land Development Division, which Plans are by reference incorporated into and made part of this Bond; and

WHEREAS, the LDC requires as a condition of acceptance of the Improvements that the Principal provide to the Obligee a bond warranting the Improvements for a definite period of time following the Obligee's final acceptance of said Improvements; and

WHERAS, this Bond shall commence upon the date of the Obligee's acceptance of the Improvements (the "Bond Commencement Date").

NOW, THEREFORE, the conditions of this Bond are such that:

1. If the Principal shall warrant and indemnify for a period of One (1) year(s) following the Bond Commencement Date (the "Warranty Period"), against all loss that Obligee may sustain resulting from defects in construction, design, workmanship, and materials (the "Defect");

2. If the Principal shall correct any Defect to the Improvements that is discovered during the Warranty Period; and

3. If the Principal shall faithfully perform the Subdivision Agreement at the times and in the manner prescribed in said Agreement;

Then upon approval by the Obligee this Bond shall be void, otherwise to remain in full force and effect.

4. The Obligee, its authorized agent or officer, shall notify the Principal and Surety in writing

of any Defect and shall specify in the notice a reasonable period of time for the Principal to correct the Defect. The Surety unconditionally covenants and agrees that if the Principal fails to correct the Defect within the time specified, the Surety shall forthwith correct the Defect and pay the cost thereof, including without limitation, engineering, legal, and contingent costs.

5. Should the Surety fail or refuse to perform any of its obligations pursuant to this Bond, the Obligee shall have the right to resort to any and all legal remedies against the Principal and Surety, or either, both at law and in equity including specific performance, to which the Principal and Surety unconditionally agree. In such case, the Obligors agree to pay all costs incurred by the Obligee, including attorney's fees and costs, and venue shall be in the courts of Polk County, Florida or in the United States District Court, Middle District of Florida, located in Hillsborough County, Florida.

6. All notices, demands, and correspondence with respect to this Bond shall be in writing and deemed effective on the date of certified mailing addressed to the following, notwithstanding any changes in address:

The Surety at:

Lexon Insurance Company
12890 Lebanon Road

CERTIFICATE

I, the undersigned Officer of each Company, DO HEREBY CERTIFY that:

1. That the original power of attorney of which the foregoing is a copy was duly executed on behalf of each Company and has not since been revoked, amended or modified; that the undersigned has compared the foregoing copy thereof with the original power of attorney, and that the same is a true and correct copy of the original power of attorney and of the whole thereof;
2. The following are resolutions which were adopted by the board of directors of each Company by unanimous written consent effective 30th day of March, 2023 for BSIC and LIC and the 17th day of May, 2023 for EAC and EAIC and said resolutions have not since been revoked, amended or modified:

   "RESOLVED, that each of the individuals named below is authorized to make, execute, seal and deliver for and on behalf of the Company any and all bonds, undertakings or obligations in surety or co-surety with others: RICHARD M. APPEL, MATTHEW E. CURRAN, MARGARET HYLAND, SHARON L. SIMS, CHRISTOPHER L. SPARRO,

   and be it further

   RESOLVED, that each of the individuals named above is authorized to appoint attorneys-in-fact for the purpose of making, executing, sealing and delivering bonds, undertakings or obligations in surety or co-surety for and on behalf of the Company."
3. The undersigned further certifies that the above resolutions are true and correct copies of the resolutions as so recorded and of the whole thereof.

IN WITNESS WHEREOF, I have hereunto set my hand and affixed the corporate seal this 22nd day of January, 2025.

NOTICE: U. S. TREASURY DEPARTMENT'S OFFICE OF FOREIGN ASSETS CONTROL (OFAC)

No coverage is provided by this Notice nor can it be construed to replace any provisions of any surety bond or other surety coverage provided. This Notice provides information concerning possible impact on your surety coverage due to directives issued by OFAC. **Please read this Notice carefully.**

The Office of Foreign Assets Control (OFAC) administers and enforces sanctions policy, based on Presidential declarations of "national emergency". OFAC has identified and listed numerous foreign agents, front organizations, terrorists, terrorist organizations, and narcotics traffickers as "Specially Designated Nationals and Blocked Persons". This list can be located on the United States Treasury's website – https://www.treasury.gov/resource-center/sanctions/SDN-List.

In accordance with OFAC regulations, if it is determined that you or any other person or entity claiming the benefits of any coverage has violated U.S. sanctions law or is a Specially Designated National and Blocked Person, as identified by OFAC, any coverage will be considered a blocked or frozen contract and all provisions of any coverage provided are immediately subject to OFAC. When a surety bond or other form of surety coverage is considered to be such a blocked or frozen contract, no payments nor premium refunds may be made without authorization from OFAC. Other limitations on the premiums and payments may also apply.

Any reproductions are void.

MAINTENANCE BOND Bond No. LICX1984330

KNOWN ALL MEN BY THESE PRESENTS, that We, Westside Haines City Community Development District, as Principal, and Lexon Insurance Company, a corporation organized and doing business under and by virtue of the laws of the State of Texas and duly licensed to conduct surety business in the State of Florida, as Surety ("Principal" and "Surety" collectively the "Obligors"), are held and firmly bound unto Polk County, a political subdivision of the State of Florida (the "County"), as Obligee, in the sum of One Hundred Eighty-Seven Thousand, Forty & 45/100 ($ 187,040.45) Dollars, for which payment, well and truly to be made, we bind ourselves, our heirs, executors, administrators, successors, and assigns, jointly and severally, by these presents:

WHEREAS, the County's Land Development Code (hereinafter "LDC") is by reference incorporated into and made part of this Maintenance Bond (hereinafter "Bond"); and

WHEREAS, the Principal has pursuant to the Subdivision Agreement attached hereto and incorporated herein as Exhibit "A" constructed the following improvements Water, Sanitary, Reclaim-Offsite, as further described in the Engineer's Cost Estimate, attached hereto and incorporated herein as Exhibit "B" and incorporated into and made part of this Bond (hereinafter "Improvements"), in the Cascades Phase 3 platted subdivision (the "Subdivision"), in accordance with the drawings, plans, specifications, and other data and information (hereinafter "Plans") filed with the County's Land Development Division, which Plans are by reference incorporated into and made part of this Bond; and

WHEREAS, the LDC requires as a condition of acceptance of the Improvements that the Principal provide to the Obligee a bond warranting the Improvements for a definite period of time following the Obligee's final acceptance of said Improvements; and

WHERAS, this Bond shall commence upon the date of the Obligee's acceptance of the Improvements (the "Bond Commencement Date").

NOW, THEREFORE, the conditions of this Bond are such that:

1. If the Principal shall warrant and indemnify for a period of One (1) year(s) following the Bond Commencement Date (the "Warranty Period"), against all loss that Obligee may sustain resulting from defects in construction, design, workmanship, and materials (the "Defect");

2. If the Principal shall correct any Defect to the Improvements that is discovered during the Warranty Period; and

3. If the Principal shall faithfully perform the Subdivision Agreement at the times and in the manner prescribed in said Agreement;

Then upon approval by the Obligee this Bond shall be void, otherwise to remain in full force and effect.

4. The Obligee, its authorized agent or officer, shall notify the Principal and Surety in writing

of any Defect and shall specify in the notice a reasonable period of time for the Principal to correct the Defect. The Surety unconditionally covenants and agrees that if the Principal fails to correct the Defect within the time specified, the Surety shall forthwith correct the Defect and pay the cost thereof, including without limitation, engineering, legal, and contingent costs.

5. Should the Surety fail or refuse to perform any of its obligations pursuant to this Bond, the Obligee shall have the right to resort to any and all legal remedies against the Principal and Surety, or either, both at law and in equity including specific performance, to which the Principal and Surety unconditionally agree. In such case, the Obligors agree to pay all costs incurred by the Obligee, including attorney's fees and costs, and venue shall be in the courts of Polk County, Florida or in the United States District Court, Middle District of Florida, located in Hillsborough County, Florida.

6. All notices, demands, and correspondence with respect to this Bond shall be in writing and deemed effective on the date of certified mailing addressed to the following, notwithstanding any changes in address:

The Surety at:

Lexon Insurance Company
12890 Lebanon Road
Mt Juliet, TN 37122

The Principal at:

Westside Haines City Community Development District
219 E. Livingston Street
Orlando, FL 32801

The Obligee at:
Polk County, Land Development Division
330 West Church Street
PO Box 9005 – Drawer GM03
Bartow, FL 33831-9005

This Bond commences on the Bond Commencement Date and shall remain in full force and effect until the correction of all Defects for which timely notice has been provided to the Principal and Surety, even if the time required to correct such Defect exceeds the Warranty Period. This Bond shall be released by the Obligee if all the Conditions of this Bond remain satisfied at the end of the Warranty Period.

[Signatures appear on the next page]

IN WITNESS WHEREOF, the Principal and the Surety have caused this Bond to be executed by their duly authorized officers this 22nd day of January, 2025.

RESIDENTIAL MAINTENANCE BOND Bond No. 016244304

KNOWN ALL MEN BY THESE PRESENTS, That we, Lake Gibson Owner, LLC, as Principal, and Liberty Mutual Insurance Company, a corporation organized and doing business under and by virtue of the laws of the State of Massachusetts and duly licensed to conduct surety business in the State of Florida, as Surety ("Principal" and "Surety" collectively the "Obligors"), are held and firmly bound unto Polk County, a political subdivision of the State of Florida, as Obligee, in the sum of Forty-one Thousand Five Hundred Forty-eight and 20/100 ($ 41,548.20) Dollars, for which payment, well and truly to be made, we bind ourselves, our heirs, executors, administrators, successors, and assigns, jointly and severally, firmly by these presents.

WHEREAS, Polk County's Land Development Code (hereinafter "LDC") is by reference incorporated into and made part of this Maintenance Bond (hereinafter "Bond"); and

WHEREAS, the Principal has constructed the improvements described in the Engineer's Cost Estimate, attached hereto as Exhibit "A" and incorporated into and made part of this Bond (hereinafter "Improvements"), in the Lake Gibson subdivision, in accordance with the drawings, plans, specifications, and other data and information (hereinafter "Plans") filed with Polk County's Land Development Division, which Plans are by reference incorporated into and made part of this Bond; and

WHEREAS, the Principal wishes to dedicate the Improvements to the public; and

WHEREAS, the LDC requires as a condition of acceptance of the Improvements that the Principal provide to the Obligee a bond warranting the Improvements for a definite period of time following the Obligee's final acceptance of said Improvements; and

WHEREAS, this Bond shall commence upon the date of the Obligee's acceptance of the Improvements (the "Bond Commencement Date").

NOW, THEREFORE, the conditions of this Bond are such that:

1. If the Principal shall warrant and indemnify for a period of One (1) year(s) following the Bond Commencement Date (the "Warranty Period") against all loss that Obligee may sustain resulting from defects in construction, design, workmanship and materials (the "Defect") of the Improvements; and

2. If the Principal shall correct all Defects to the Improvements that are discovered during the Warranty Period;

Then upon approval by the Obligee this Bond shall be void, otherwise to remain in full force and effect.

3. The Obligee, its authorized agent or officer, shall notify the Principal and Surety in writing

of any Defect and shall specify in the notice a reasonable period of time for the Principal to correct the Defect. The Surety unconditionally covenants and agrees that if the Principal fails to correct the Defect within the time specified, the Surety shall forthwith correct the Defect and pay the cost thereof, including without limitation, engineering, legal, and contingent costs.

4. Should the Surety fail or refuse to perform any of its obligations pursuant to this Bond, the Obligee shall have the right to resort to any and all legal remedies against the Principal and Surety, or either, both at law and in equity including specific performance, to which the Principal and Surety unconditionally agree. In such case, the Obligors agree to pay all costs incurred by the Obligee, including attorney's fees and costs, and venue shall be in the courts of Polk County, Florida or in the United States District Court, Middle District of Florida, located in Hillsborough County, Florida.

5. All notices, demands, and correspondence with respect to this Bond shall be in writing and deemed effective on the date of certified mailing addressed to the following, notwithstanding any changes to the addresses listed below:

The Surety at:

175 Berkeley Street
Boston, MA 02116

The Principal at:

39 Georgia Avenue, SE, Suite 200
Atlanta, GA 30312

The Obligee at:
Polk County, Land Development Division
330 West Church Street
PO Box 9005 – Drawer GM03
Bartow, FL 33831-9005

This Bond commences on the Bond Commencement Date and shall remain in full force and effect until the correction of all Defects for which timely notice has been provided to the Principal and Surety, even if the time required to correct such Defect exceeds the Warranty Period. This Bond shall be released by the Obligee if all the Conditions of this Bond remain satisfied at the end of the Warranty Period.

IN WITNESS WHEREOF, the Principal and Surety have caused this Bond to be executed by their duly authorized officers this 26 day of February, 2024.

This Power of Attorney is made and executed pursuant to and by authority of the following By-laws and Authorizations of The Ohio Casualty Insurance Company, Liberty Mutual Insurance Company, and West American Insurance Company which resolutions are now in full force and effect reading as follows:

ARTICLE IV – OFFICERS: Section 12. Power of Attorney.
Any officer or other official of the Corporation authorized for that purpose in writing by the Chairman or the President, and subject to such limitation as the Chairman or the President may prescribe, shall appoint such attorneys-in-fact, as may be necessary to act in behalf of the Corporation to make, execute, seal, acknowledge and deliver as surety any and all undertakings, bonds, recognizances and other surety obligations. Such attorneys-in-fact, subject to the limitations set forth in their respective powers of attorney, shall have full power to bind the Corporation by their signature and execution of any such instruments and to attach thereto the seal of the Corporation. When so executed, such instruments shall be as binding as if signed by the President and attested to by the Secretary. Any power or authority granted to any representative or attorney-in-fact under the provisions of this article may be revoked at any time by the Board, the Chairman, the President or by the officer or officers granting such power or authority.

ARTICLE XIII – Execution of Contracts: Section 5. Surety Bonds and Undertakings.
Any officer of the Company authorized for that purpose in writing by the chairman or the president, and subject to such limitations as the chairman or the president may prescribe, shall appoint such attorneys-in-fact, as may be necessary to act in behalf of the Company to make, execute, seal, acknowledge and deliver as surety any and all undertakings, bonds, recognizances and other surety obligations. Such attorneys-in-fact subject to the limitations set forth in their respective powers of attorney, shall have full power to bind the Company by their signature and execution of any such instruments and to attach thereto the seal of the Company. When so executed such instruments shall be as binding as if signed by the president and attested by the secretary.

Certificate of Designation – The President of the Company, acting pursuant to the Bylaws of the Company, authorizes David M. Carey, Assistant Secretary to appoint such attorneys-in-fact as may be necessary to act on behalf of the Company to make, execute, seal, acknowledge and deliver as surety any and all undertakings, bonds, recognizances and other surety obligations.

Authorization – By unanimous consent of the Company's Board of Directors, the Company consents that facsimile or mechanically reproduced signature of any assistant secretary of the Company, wherever appearing upon a certified copy of any power of attorney issued by the Company in connection with surety bonds, shall be valid and binding upon the Company with the same force and effect as though manually affixed.

I, Renee C. Llewellyn, the undersigned, Assistant Secretary, The Ohio Casualty Insurance Company, Liberty Mutual Insurance Company, and West American Insurance Company do hereby certify that the original power of attorney of which the foregoing is a full, true and correct copy of the Power of Attorney executed by said Companies, is in full force and effect and has not been revoked.

IN TESTIMONY WHEREOF, I have hereunto set my hand and affixed the seals of said Companies this 26 day of February 2024.

Agenda Item R.10. 6/16/2026

SUBJECT

Approve the release of a warranty and surety in the amount of $6,425.43 in the form of Maintenance Bond No. 41K237614 for Minnesota Avenue Waterline. (No Fiscal Impact)

DESCRIPTION

On March 4, 2025, the Board accepted Maintenance Bond No. 41K237614 in the amount of $6,425.43. A warranty inspection was performed on February 18, 2026, concerning all items listed in the engineer's cost estimate. These items have been completed to the satisfaction of Polk County. The Land Development Division requests the Board release Maintenance Bond No. 41K237614 in the amount of $6,425.43.

RECOMMENDATION

Request Board approve the release of Maintenance Bond No. 41K237614 in the amount of $6,425.43 for Minnesota Avenue Waterline.

FISCAL IMPACT

No Fiscal Impact

COMMERCIAL MAINTENANCE BOND

Bond No. 41K237614

KNOWN ALL MEN BY THESE PRESENTS, That we, GE Investments of Polk, LLC, as Principal, and The Ohio Casualty Insurance Company, a corporation organized and doing business under and by virtue of the laws of the State of NH and duly licensed to conduct surety business in the State of Florida, as Surety, are held and firmly bound unto Polk County, a political subdivision of the State of Florida, as Obligee, in the sum of Six Thousand Four Hundred Twenty Five & 43/100 Dollars ($6,425.43) Dollars, for which payment, well and truly to be made, we bind ourselves, our heirs, executors and successors, jointly and severally firmly by these presents.

WHEREAS, Polk County's Land Development Code (hereinafter "LDC") is by reference incorporated into and made part of this Maintenance Bond (hereinafter "Bond"); and

WHEREAS, the Principal has constructed the improvements described in the Engineer's Cost Estimate, attached hereto as Exhibit "A" and incorporated into and made part of this Bond (hereinafter "Improvements"), in accordance with the drawings, plans, specifications, and other data and information (hereinafter "Plans") for the Minnesota Avenue/Ross Street - Babson Park as filed with Polk County's Land Development Division, which Plans are by reference incorporated into and made part of this Bond; and

WHEREAS, the Principal wishes to dedicate the Improvements to the public; and

WHEREAS, the LDC requires as a condition of acceptance of the Improvements that the Principal provide to the Obligee a bond warranting the Improvements for a definite period of time following the Obligee's final acceptance of said Improvements; and

WHEREAS, this Bond shall commence upon the date of the Obligee's acceptance of the Improvements (the "Bond Commencement Date").

NOW, THEREFORE, the conditions of this Bond are such that:

1. If the Principal shall warrant and indemnify for a period of One (1) year(s) following the Bond Commencement Date (the "Warranty Period") against all loss that Obligee may sustain resulting from defects in construction, design, workmanship and materials (the "Defect"); and

2. If the Principal shall correct all Defects to the Improvements that are discovered during the Warranty Period;

Then upon approval by the Obligee this Bond shall be void, otherwise to remain in full force and effect.

3. The Obligee, its authorized agent or officer, shall notify the Principal and Surety in writing of any Defect and shall specify in the notice a reasonable period of time for the Principal to correct the Defect. The Surety unconditionally covenants and agrees that if the Principal fails to correct the Defect within the time specified, the Surety shall forthwith correct the Defect and pay the cost thereof, including without limitation, engineering, legal, and contingent costs.

4. Should the Surety fail or refuse to perform any of its obligations pursuant to this Bond, the Obligee shall have the right to resort to any and all legal remedies against the Principal and Surety, or either, both at law and in equity including specific performance, to which the Principal and Surety unconditionally agree. In such case, the Obligors agree to pay all costs incurred by the Obligee, including attorney's fees and costs, and venue shall be in the courts of Polk County, Florida or in the United States District Court, Middle District of Florida, located in Hillsborough County, Florida.

5. All notices, demands, and correspondence with respect to this Bond shall be in writing and deemed effective on the date of certified mailing addressed to the following, notwithstanding any changes to the addresses listed below:

The Surety at:

The Ohio Casualty Insurance Company
175 Berkley Street
Boston, MA 02116

The Principal at:

GE Investments of Polk, LLC
1925 E. Edgewood Dr. Ste. 100
Lakeland, FL 33803

The Obligee at:
Polk County, Land Development Division
330 West Church Street
PO Box 9005 – Drawer GM03
Bartow, FL 33831-9005

This Bond commences on the Bond Commencement Date and shall remain in full force and effect until the correction of all Defects for which timely notice has been provided to the Principal and Surety, even if the time required to correct such Defect exceeds the Warranty Period. This Bond shall be released by the Obligee if all the Conditions of this Bond remain satisfied at the end of the Warranty Period.

IN WITNESS WHEREOF, the Principal and Surety have caused this Bond to be executed by their duly authorized officers this 18 day of December, 2024.

Teresa Pastella, Notary Public

This Power of Attorney is made and executed pursuant to and by authority of the following By-laws and Authorizations of The Ohio Casualty Insurance Company, Liberty Mutual Insurance Company, and West American Insurance Company which resolutions are now in full force and effect reading as follows:

ARTICLE IV – OFFICERS: Section 12. Power of Attorney.
Any officer or other official of the Corporation authorized for that purpose in writing by the Chairman or the President, and subject to such limitation as the Chairman or the President may prescribe, shall appoint such attorneys-in-fact, as may be necessary to act in behalf of the Corporation to make, execute, seal, acknowledge and deliver as surety any and all undertakings, bonds, recognizances and other surety obligations. Such attorneys-in-fact, subject to the limitations set forth in their respective powers of attorney, shall have full power to bind the Corporation by their signature and execution of any such instruments and to attach thereto the seal of the Corporation. When so executed, such instruments shall be as binding as if signed by the President and attested to by the Secretary. Any power or authority granted to any representative or attorney-in-fact under the provisions of this article may be revoked at any time by the Board, the Chairman, the President or by the officer or officers granting such power or authority.

ARTICLE XIII – Execution of Contracts: Section 5. Surety Bonds and Undertakings.
Any officer of the Company authorized for that purpose in writing by the chairman or the president, and subject to such limitations as the chairman or the president may prescribe, shall appoint such attorneys-in-fact, as may be necessary to act in behalf of the Company to make, execute, seal, acknowledge and deliver as surety any and all undertakings, bonds, recognizances and other surety obligations. Such attorneys-in-fact subject to the limitations set forth in their respective powers of attorney, shall have full power to bind the Company by their signature and execution of any such instruments and to attach thereto the seal of the Company. When so executed such instruments shall be as binding as if signed by the president and attested by the secretary.

Certificate of Designation – The President of the Company, acting pursuant to the Bylaws of the Company, authorizes David M. Carey, Assistant Secretary to appoint such attorneys-in-fact as may be necessary to act on behalf of the Company to make, execute, seal, acknowledge and deliver as surety any and all undertakings, bonds, recognizances and other surety obligations.

Authorization – By unanimous consent of the Company's Board of Directors, the Company consents that facsimile or mechanically reproduced signature of any assistant secretary of the Company, wherever appearing upon a certified copy of any power of attorney issued by the Company in connection with surety bonds, shall be valid and binding upon the Company with the same force and effect as though manually affixed.

I, Renee C. Llewellyn, the undersigned, Assistant Secretary, The Ohio Casualty Insurance Company, Liberty Mutual Insurance Company, and West American Insurance Company do hereby certify that the original power of attorney of which the foregoing is a full, true and correct copy of the Power of Attorney executed by said Companies, is in full force and effect and has not been revoked.

IN TESTIMONY WHEREOF, I have hereunto set my hand and affixed the seals of said Companies this 18 day of December, 2024.

By: _____
Renee C. Llewellyn, Assistant Secretary

On this 31st day of December, 2018, before me came the individual who executed the preceding instrument, to me personally known, and, being by me duly sworn, said he is the therein described and authorized officer of **HARCO NATIONAL INSURANCE COMPANY** and **INTERNATIONAL FIDELITY INSURANCE COMPANY**; that the seals affixed to said instrument are the Corporate Seals of said Companies; that the said Corporate Seals and his signature were duly affixed by order of the Boards of Directors of said Companies.

SHIRELLE A. OUTLEY NOTARY PUBLIC No. 50079910 NEW JERSEY My Comm. Exp. 04-04-2023

IN TESTIMONY WHEREOF, I have hereunto set my hand affixed my Official Seal, at the City of Newark, New Jersey the day and year first above written.

Shirelle A. Outley

Shirelle A. a Notary Public of New Jersey
My Commission Expires April 4, 2023

CERTIFICATION

I, the undersigned officer of **HARCO NATIONAL INSURANCE COMPANY** and **INTERNATIONAL FIDELITY INSURANCE COMPANY** do hereby certify that I have compared the foregoing copy of the Power of Attorney and affidavit, and the copy of the Sections of the By-Laws of said Companies as set forth in said Power of Attorney, with the originals on file in the home office of said companies, and that the same are correct transcripts thereof, and of the whole of the said originals, and that the said Power of Attorney has not been revoked and is now in full force and effect.

IN TESTIMONY WHEREOF, I have hereunto set my hand on this day, 8/1/2023

Irene Martins, Assistant Secretary

A00846

Polk County

Board of County Commissioners

Agenda Item R.13. 6/16/2026

SUBJECT

Approve the release of a warranty and surety in the amount of $11,068.83 in the form of Maintenance Bond No. FL616202 for Strickland Brothers at US Hwy 27 & Student Drive. (No Fiscal Impact)

DESCRIPTION

On January 21, 2025, the Board accepted Maintenance Bond No. FL616202 in the amount of $11,068.83. A warranty inspection was performed on February 19, 2026, concerning all items listed in the engineer's cost estimate. These items have been completed to the satisfaction of Polk County. The Land Development Division requests the Board release Maintenance Bond No. FL616202 in the amount of $11,068.83.

RECOMMENDATION

Request Board approve the release of Maintenance Bond No. FL616202 in the amount of $11,068.83 for Strickland Brothers at US Hwy 27 & Student Drive.

FISCAL IMPACT

No Fiscal Impact

COMMERCIAL MAINTENANCE BOND

Bond No. FL616202

KNOWN ALL MEN BY THESE PRESENTS, That we, RDP 20, LLC, as Principal, and Merchants Bonding Company (Mutual), a corporation organized and doing business under and by virtue of the laws of the State of Florida and duly licensed to conduct surety business in the State of Florida, as Surety, are held and firmly bound unto Polk County, a political subdivision of the State of Florida, as Obligee, in the sum of Eleven Thousand Sixty Eight and 83/100 ---------- ($ 11,068.83--) Dollars, for which payment, well and truly to be made, we bind ourselves, our heirs, executors and successors, jointly and severally firmly by these presents.

WHEREAS, Polk County's Land Development Code (hereinafter "LDC") is by reference incorporated into and made part of this Maintenance Bond (hereinafter "Bond"); and

WHEREAS, the Principal has constructed the improvements described in the Engineer's Cost Estimate, attached hereto as Exhibit "A" and incorporated into and made part of this Bond (hereinafter "Improvements"), in accordance with the drawings, plans, specifications, and other data and information (hereinafter "Plans") for the Strickland Brothers at US Hwy 27 & Student Dr LDSUR-2024-24 as filed with Polk County's Land Development Division, which Plans are by reference incorporated into and made part of this Bond; and

WHEREAS, the Principal wishes to dedicate the Improvements to the public; and

WHEREAS, the LDC requires as a condition of acceptance of the Improvements that the Principal provide to the Obligee a bond warranting the Improvements for a definite period of time following the Obligee's final acceptance of said Improvements; and

WHEREAS, this Bond shall commence upon the date of the Obligee's acceptance of the Improvements (the "Bond Commencement Date").

NOW, THEREFORE, the conditions of this Bond are such that:

1. If the Principal shall warrant and indemnify for a period of eighteen (18) months ~~year(s)~~ following the Bond Commencement Date (the "Warranty Period") against all loss that Obligee may sustain resulting from defects in construction, design, workmanship and materials (the "Defect"); and

2. If the Principal shall correct all Defects to the Improvements that are discovered during the Warranty Period;

Then upon approval by the Obligee this Bond shall be void, otherwise to remain in full force and effect.

3. The Obligee, its authorized agent or officer, shall notify the Principal and Surety in writing of any Defect and shall specify in the notice a reasonable period of time for the Principal to correct the Defect. The Surety unconditionally covenants and agrees that if the Principal fails to correct the Defect within the time specified, the Surety shall forthwith correct the Defect and pay the cost thereof, including without limitation, engineering, legal, and contingent costs.

4. Should the Surety fail or refuse to perform any of its obligations pursuant to this Bond, the Obligee shall have the right to resort to any and all legal remedies against the Principal and Surety, or either, both at law and in equity including specific performance, to which the Principal and Surety unconditionally agree. In such case, the Obligors agree to pay all costs incurred by the Obligee, including attorney's fees and costs, and venue shall be in the courts of Polk County, Florida or in the United States District Court, Middle District of Florida, located in Hillsborough County, Florida.

5. All notices, demands, and correspondence with respect to this Bond shall be in writing and deemed effective on the date of certified mailing addressed to the following, notwithstanding any changes to the addresses listed below:

The Surety at:

Merchants Bonding Company (Mutual)
6700 Westown Parkway
West Des Moines, IA 50266

The Principal at:

RDP 20, LLC
140 E Morse Blvd #J
Winter Park, FL 32789

The Obligee at:

Polk County, Land Development Division
330 West Church Street
PO Box 9005 – Drawer GM03
Bartow, FL 33831-9005

This Bond commences on the Bond Commencement Date and shall remain in full force and effect until the correction of all Defects for which timely notice has been provided to the Principal and Surety, even if the time required to correct such Defect exceeds the Warranty Period. This Bond shall be released by the Obligee if all the Conditions of this Bond remain satisfied at the end of the Warranty Period.

IN WITNESS WHEREOF, the Principal and Surety have caused this Bond to be executed by their duly authorized officers this 26th day of July, 2024.

MERCHANTS BONDING COMPANY™

POWER OF ATTORNEY

Know All Persons By These Presents, that MERCHANTS BONDING COMPANY (MUTUAL) and MERCHANTS NATIONAL BONDING, INC., both being corporations of the State of Iowa, d/b/a Merchants National Indemnity Company (in California only) (herein collectively called the "Companies") do hereby make, constitute and appoint, individually,

Pamela J Thompson; Steve P Farmer; Tyler D DeBord

their true and lawful Attorney(s)-in-Fact, to sign its name as surety(ies) and to execute, seal and acknowledge any and all bonds, undertakings, contracts and other written instruments in the nature thereof, on behalf of the Companies in their business of guaranteeing the fidelity of persons, guaranteeing the performance of contracts and executing or guaranteeing bonds and undertakings required or permitted in any actions or proceedings allowed by law.

This Power-of-Attorney is granted and is signed and sealed by facsimile under and by authority of the following By-Laws adopted by the Board of Directors of Merchants Bonding Company (Mutual) on April 23, 2011 and amended August 14, 2015 and adopted by the Board of Directors of Merchants National Bonding, Inc., on October 16, 2015.

"The President, Secretary, Treasurer, or any Assistant Treasurer or any Assistant Secretary or any Vice President shall have power and authority to appoint Attorneys-in-Fact, and to authorize them to execute on behalf of the Company, and attach the seal of the Company thereto, bonds and undertakings, recognizances, contracts of indemnity and other writings obligatory in the nature thereof."

"The signature of any authorized officer and the seal of the Company may be affixed by facsimile or electronic transmission to any Power of Attorney or Certification thereof authorizing the execution and delivery of any bond, undertaking, recognizance, or other suretyship obligations of the Company, and such signature and seal when so used shall have the same force and effect as though manually fixed."

In connection with obligations in favor of the Florida Department of Transportation only, it is agreed that the power and aut hority hereby given to the Attorney-in-Fact includes any and all consents for the release of retained percentages and/or final estimates on engineering and construction contracts required by the State of Florida Department of Transportation. It is fully understood that consenting to the State of Florida Department of Transportation making payment of the final estimate to the Contractor and/or its assignee, shall not relieve this surety company of any of its obligations under its bond.

In connection with obligations in favor of the Kentucky Department of Highways only, it is agreed that the power and authority hereby given to the Attorney-in-Fact cannot be modified or revoked unless prior written personal notice of such intent has been given to the Commissioner-Department of Highways of the Commonwealth of Kentucky at least thirty (30) days prior to the modification or revocation.

In Witness Whereof, the Companies have caused this instrument to be signed and sealed this 8th day of December , 2022 .

POWER OF ATTORNEY

1079

KNOW ALL BY THESE PRESENTS, that **Endurance Assurance Corporation**, a Delaware corporation ("EAC"), **Endurance American Insurance Company**, a Delaware corporation ("EAIC"), **Lexon Insurance Company**, a Texas corporation ("LIC"), and/or **Bond Safeguard Insurance Company**, a South Dakota corporation ("BSIC"), each, a "Company" and collectively, "**Sompo International**," do hereby constitute and appoint: **James I. Moore, Stephen T. Kazmer, Dawn L. Morgan, Kelly A. Gardner, Jennifer J. McComb, Melissa Schmidt, Tariese M. Pisciotto, Diane Rubright, Amy Wickett, Martin Moss** as true and lawful Attorney(s)-In-Fact to make, execute, seal, and deliver for, and on its behalf as surety or co-surety; bonds and undertakings given for any and all purposes, also to execute and deliver on its behalf as aforesaid renewals, extensions, agreements, waivers, consents or stipulations relating to such bonds or undertakings provided, however, that no single bond or undertaking so made, executed and delivered shall obligate the Company for any portion of the penal sum thereof in excess of the sum of **One Hundred Million Dollars ($100,000,000.00).**

Such bonds and undertakings for said purposes, when duly executed by said attorney(s)-in-fact, shall be binding upon the Company as fully and to the same extent as if signed by the President of the Company under its corporate seal attested by its Corporate Secretary.

This appointment is made under and by authority of certain resolutions adopted by the board of directors of each Company by unanimous written consent effective the 30th day of March, 2023 for BSIC and LIC and the 17th day of May, 2023 for EAC and EAIC, a copy of which appears below under the heading entitled "Certificate".

This Power of Attorney is signed and sealed by facsimile under and by authority of the following resolution adopted by the board of directors of each Company by unanimous written consent effective the 30th day of March, 2023 for BSIC and LIC and the 17th day of May, 2023 for EAC and EAIC and said resolution has not since been revoked, amended or repealed:

RESOLVED, that the signature of an individual named above and the seal of the Company may be affixed to any such power of attorney or any certificate relating thereto by facsimile, and any such power of attorney or certificate bearing such facsimile signature or seal shall be valid and binding upon the Company in the future with respect to any bond or undertaking to which it is attached.

IN WITNESS WHEREOF, each Company has caused this instrument to be signed by the following officers, and its corporate seal to be affixed this 25th day of May, 2023.

ACKNOWLEDGEMENT

On this 25th day of May, 2023, before me, personally came the above signatories known to me, who being duly sworn, did depose and say that he/they is/are officer of each of the Companies; and that he executed said instrument on behalf of each Company by authority of his office under the by-laws of each Company.

By: Amy Taylor, Notary Public – My Commission Expires 3/9/27

CERTIFICATE

I, the undersigned Officer of each Company, DO HEREBY CERTIFY that:

1. That the original power of attorney of which the foregoing is a copy was duly executed on behalf of each Company and has not since been revoked, amended or modified; that the undersigned has compared the foregoing copy thereof with the original power of attorney, and that the same is a true and correct copy of the original power of attorney and of the whole thereof;
2. The following are resolutions which were adopted by the board of directors of each Company by unanimous written consent effective 30th day of March, 2023 for BSIC and LIC and the 17th day of May, 2023 for EAC and EAIC and said resolutions have not since been revoked, amended or modified:

   "RESOLVED, that each of the individuals named below is authorized to make, execute, seal and deliver for and on behalf of the Company any and all bonds, undertakings or obligations in surety or co-surety with others: RICHARD M. APPEL, MATTHEW E. CURRAN, MARGARET HYLAND, SHARON L. SIMS, CHRISTOPHER L. SPARRO,

   and be it further

   RESOLVED, that each of the individuals named above is authorized to appoint attorneys-in-fact for the purpose of making, executing, sealing and delivering bonds, undertakings or obligations in surety or co-surety for and on behalf of the Company."
3. The undersigned further certifies that the above resolutions are true and correct copies of the resolutions as so recorded and of the whole thereof.

IN WITNESS WHEREOF, I have hereunto set my hand and affixed the corporate seal this 18th day of October 2024.

NOTICE: U. S. TREASURY DEPARTMENT'S OFFICE OF FOREIGN ASSETS CONTROL (OFAC)

No coverage is provided by this Notice nor can it be construed to replace any provisions of any surety bond or other surety coverage provided. This Notice provides information concerning possible impact on your surety coverage due to directives issued by OFAC. **Please read this Notice carefully.**

The Office of Foreign Assets Control (OFAC) administers and enforces sanctions policy, based on Presidential declarations of "national emergency". OFAC has identified and listed numerous foreign agents, front organizations, terrorists, terrorist organizations, and narcotics traffickers as "Specially Designated Nationals and Blocked Persons". This list can be located on the United States Treasury's website – https://www.treasury.gov/resource-center/sanctions/SDN-List.

In accordance with OFAC regulations, if it is determined that you or any other person or entity claiming the benefits of any coverage has violated U.S. sanctions law or is a Specially Designated National and Blocked Person, as identified by OFAC, any coverage will be considered a blocked or frozen contract and all provisions of any coverage provided are immediately subject to OFAC. When a surety bond or other form of surety coverage is considered to be such a blocked or frozen contract, no payments nor premium refunds may be made without authorization from OFAC. Other limitations on the premiums and payments may also apply.

Any reproductions are void.

RESIDENTIAL MAINTENANCE BOND Bond No. 024275411

KNOWN ALL MEN BY THESE PRESENTS, That we, KB Home Orlando, LLC, as Principal, and Liberty Mutual Insurance Company, a corporation organized and doing business under and by virtue of the laws of the State of Massachusetts and duly licensed to conduct surety business in the State of Florida, as Surety ("Principal" and "Surety" collectively the "Obligors"), are held and firmly bound unto Polk County, a political subdivision of the State of Florida, as Obligee, in the sum of One Hundred Thirty Two Thousand Three Hundred Forty Two and 75/100 ($ 132,342.75) Dollars, for which payment, well and truly to be made, we bind ourselves, our heirs, executors, administrators, successors, and assigns, jointly and severally, firmly by these presents.

WHEREAS, Polk County's Land Development Code (hereinafter "LDC") is by reference incorporated into and made part of this Maintenance Bond (hereinafter "Bond"); and

WHEREAS, the Principal has constructed the improvements described in the Engineer's Cost Estimate, attached hereto as Exhibit "A" and incorporated into and made part of this Bond (hereinafter "Improvements"), in the Wilder Pines subdivision, in accordance with the drawings, plans, specifications, and other data and information (hereinafter "Plans") filed with Polk County's Land Development Division, which Plans are by reference incorporated into and made part of this Bond; and

WHEREAS, the Principal wishes to dedicate the Improvements to the public; and

WHEREAS, the LDC requires as a condition of acceptance of the Improvements that the Principal provide to the Obligee a bond warranting the Improvements for a definite period of time following the Obligee's final acceptance of said Improvements; and

WHEREAS, this Bond shall commence upon the date of the Obligee's acceptance of the Improvements (the "Bond Commencement Date").

NOW, THEREFORE, the conditions of this Bond are such that:

1. If the Principal shall warrant and indemnify for a period of Two (2) year(s) following the Bond Commencement Date (the "Warranty Period") against all loss that Obligee may sustain resulting from defects in construction, design, workmanship and materials (the "Defect") of the Improvements; and

2. If the Principal shall correct all Defects to the Improvements that are discovered during the Warranty Period;

Then upon approval by the Obligee this Bond shall be void, otherwise to remain in full force and effect.

3. The Obligee, its authorized agent or officer, shall notify the Principal and Surety in writing

of any Defect and shall specify in the notice a reasonable period of time for the Principal to correct the Defect. The Surety unconditionally covenants and agrees that if the Principal fails to correct the Defect within the time specified, the Surety shall forthwith correct the Defect and pay the cost thereof, including without limitation, engineering, legal, and contingent costs.

4. Should the Surety fail or refuse to perform any of its obligations pursuant to this Bond, the Obligee shall have the right to resort to any and all legal remedies against the Principal and Surety, or either, both at law and in equity including specific performance, to which the Principal and Surety unconditionally agree. In such case, the Obligors agree to pay all costs incurred by the Obligee, including attorney's fees and costs, and venue shall be in the courts of Polk County, Florida or in the United States District Court, Middle District of Florida, located in Hillsborough County, Florida.

5. All notices, demands, and correspondence with respect to this Bond shall be in writing and deemed effective on the date of certified mailing addressed to the following, notwithstanding any changes to the addresses listed below:
