COMPENSATION SCHEDULE

Hourly Labor Rates for Disaster Debris Monitoring Services
CONTRACTOR will be compensated on the actual hours of services furnished multiplied by the rates listed in Table 1 below.

Table 1: Hourly Labor Rates

Labor Category	Hourly Rate
Principal-in-Charge	
Project Manager	
Deputy Project Manager	
Operations Manager	
FEMA Coordinator	
Field Supervisor	
Scheduling/Routing Managers	
GIS Operator	
Disposal Site Monitor	
Collection Monitor	
Citizen Drop-off Site Monitor	
Billing/Invoicing/Data Manager	
Load Ticket Data Entry Clerk	
Project Coordinator	
Principal Public Assistance Advisor	
Senior Public Assistance Manager	
Public Assistance Analyst	

In accordance with 2 CFR 200.318, Hourly labor rates shall be direct labor hours charged at fixed hourly rates that reflect wages, general and administrative expenses, travel (mileage, lodging, per diem, etc.), and profit.

Reimbursable costs are allowed if pre-approved to by the County. These costs are limited to office equipment/supplies, office space, cameras, GPS equipment, safety equipment and any other items requested by the County that is not part of the normal work function.

Subcontractor services will be reimbursed at actual costs.

***For items not listed, the County will only pay FEMA approved rates**
****Hourly rates cannot exceed FEMA approved rates**

FEMA

DISASTER ASSISTANCE POLICY

I. TITLE: Hazardous Stump Extraction and Removal Eligibility

II. DATE: MAY 15 2007

III. PURPOSE:

Establish criteria used to reimburse applicants for removing eligible hazardous stumps from public or, where authorized, private property.

IV. SCOPE AND AUDIENCE:

The policy is applicable to all major disasters and emergencies declared on or after the date of publication. It is intended for all personnel involved in the administration and execution of the Public Assistance Program, including applicants.

V. AUTHORITY:

Sections 403 and 407 of the Robert T. Stafford Disaster Relief and Emergency Assistance Act, 42 U.S.C. 5121-5206, as amended.

VI. BACKGROUND:

Public Assistance regulations authorize reimbursement for the removal of debris from public and private land when it is in the public interest. Such removal is in the public interest when it is necessary to: eliminate immediate threats to life, public health and safety, or eliminate immediate threats of significant damage to improved public or private property; or to ensure economic recovery of the affected community to the benefit of the community at large. Trees that are uprooted during a disaster event such that all or part of their roots are exposed may pose an immediate threat to public health and safety.

VII. POLICY:

A. When a disaster event uproots a tree or stump (i.e., 50% or more of root ball is exposed) on a public right-of-way, improved public property or improved property owned by certain private nonprofit organizations, and the exposed root ball poses an immediate threat to life, public health and safety, FEMA may provide supplemental assistance to remove, transport, dispose, and provide fill for the root cavity of an eligible uprooted tree or stump. The Federal Emergency Management Agency (FEMA) will reimburse applicants reasonable costs for this type of work only when uprooted stumps are more than 24 inches in diameter (measured two feet from the ground), with the consensus of the Applicant and the State, and is approved in

advance by FEMA, using the attached Hazardous Stump Worksheet.

1. If it is necessary to remove an uprooted stump before it can be inspected by FEMA because it poses a threat that must be dealt with immediately, the applicant must submit documentation, to FEMA including photographs, that establishes its location on public property, specifics on the threat, stump diameter measured two feet up the trunk from the ground, quantity of material to fill the hole, and any special circumstances.

2. FEMA will reimburse applicants for extraction, transport and disposal of stumps with a diameter of 24 inches or smaller at the unit cost rate for regular vegetative debris, using the attached Stump Conversion Table, as such stumps do not require special equipment.

3. FEMA will reimburse applicants at the unit cost rate (usually cubic yards) for normal debris removal for all stumps, regardless of size, placed on the rights-of-way by others (i.e., contractors did not extract them from public property or property of eligible Private Non Profit organization). In such instances, applicants do not incur additional cost to remove these stumps because the same equipment that is used to pick up "regular" debris can be used to pick-up these stumps.

4. If an applicant incurs additional costs in picking up large stumps (over 24 inches in diameter) from rights-of-way, it should complete the Hazardous Stump Worksheet and present documentation to FEMA in advance for consideration.

5. Stumps with less than 50% of their root ball exposed should be cut flush at ground level and the cut portion included with regular vegetative debris.

6. Straightening or bracing of trees is eligible for reimbursement if it is less costly than removal and disposal. Applicant must provide a cost analysis showing cost effectiveness.

VIII. ORIGINATING OFFICE: Disaster Assistance Directorate (Public Assistance Division)

IX. SUPERSESSION: This policy supersedes Recovery Policy Number 9523.11, Hazard Stump Removal and Extraction Eligibility dated May 6, 2006.

X. REVIEW DATE: Three years from the date of publication.

David Garratt
Acting Assistant Administrator
Disaster Assistance Directorate

Stump Conversion Table

Diameter to Volume Capacity

The quantification of the cubic yards of debris for each size of stump in the following table was derived from FEMA field studies conducted throughout the State of Florida during the debris removal operations following Hurricanes Charley, Frances, Ivan and Jeanne. The following formula is used to derive cubic yards:

$$\frac{[(\text{Stump Diameter}^2 \times 0.7854) \times \text{Stump Length}] + [(\text{Root Ball Diameter}^2 \times 0.7854) \times \text{Root Ball Height}]}{46656}$$

0.7854 is one-fourth Pi and is a constant.
46656 is used to convert cubic inches to cubic yards and is a constant

The formula used to calculate the cubic yardage used the following factors, based upon findings in the field:

- Stump diameter measured two feet up from ground
- Stump diameter to root ball diameter ratio of 1:3.6
- Root ball height of 31"

Stump Diameter (Inches)	Debris Volume (Cubic Yards)	Stump Diameter (Inches)	Debris Volume (Cubic Yards)
6	0.3	46	15.2
7	0.4	47	15.8

EVENT PERFORMANCE BOND

PERFORMANCE BOND

KNOW ALL MEN BY THESE PRESENTS: That _____, as Principal, and _____ as Surety, located at _____ (Business Address) are held and firmly bound unto Polk County, a political subdivision of the State of Florida, as Obligee, in the sum of Dollars ($_____) in lawful currency of the United States, for the payment whereof we bind ourselves, successors, and assigns, jointly and severally, firmly by these presents.

THE CONDITION OF THIS BOND is that if the Principal:

Promptly, faithfully, efficiently and fully performs all work, services, duties and obligations set forth and described in that certain purchase order dated _____, 20__ (the "Purchase Order") between Principal and Obligee for performance of debris removal at any County location arising from damage caused by a disaster event, at the times and in the manner prescribed in the Purchase Order; and

Pays Obligee all losses, damages (liquidated or actual), expenses, costs, and attorney's fees, including, without limitation, costs and attorney's fees on appeal, that Obligee sustains resulting directly or indirectly from any breach or default by Principal under the Purchase Order; and

Performs the guarantee of all work and materials furnished under the Purchase Order for the time specified therein; and

Satisfies all claims and demands incurred under the Purchase Order, and fully indemnifies and holds harmless the Obligee from all costs and damages which it may suffer by reason or failure to do so;

then the Surety shall have no obligation under this Performance Bond.

In the event that the Principal shall fail to perform any of the terms, covenants and conditions of the Purchase Order during the period in which this Performance Bond is in effect, the Surety shall remain liable to the Obligee for all such loss or damage (including reasonable attorney's fees and costs and attorney's fees on appeal) resulting from any failure to perform up to the amount of the sum stated above.

In the event that the Surety fails to fulfill its obligations under this Performance Bond, then the Surety shall also indemnify and hold the Obligee harmless from any and all loss, damage, cost and expense, including reasonable attorney's fees and costs for all trial and appellate proceedings, resulting directly or indirectly from the Surety's failure to fulfill its obligations hereunder. This paragraph shall survive the termination or cancellation of this Performance Bond.

The Surety, for value received, hereby stipulates and agrees that its obligations hereunder shall be direct and immediate and not conditional or contingent upon the Obligee's pursuit of its remedies against Principal, shall remain in full force and effect notwithstanding (i) amendments or modifications to the Purchase Order entered into by Obligee and Principal without the Surety's knowledge or consent (ii) waivers of compliance with or any default under the Purchase Order granted by Obligee to Principal without the Surety's knowledge or consent, or (iii) the discharge of Principal from its obligations under the Purchase Order as a result of any proceeding initiated under the Bankruptcy code of 1978, as the same may be amended, or any similar state or federal law, or any limitation of the liability or Principal or its estate as a result of any proceeding.

Any changes in or under the Purchase Order and compliance or non-compliance with any formalities connected with the Purchase Order or the changes shall not affect Surety's obligation under this Performance Bond. The Principal shall notify the Surety of all such changes.

Reference is hereby made to Section 255.05, Florida Statutes, and to the notice and time limitation provisions thereof.

IN WITNESS WHEREOF, this instrument is executed this _____ day of _____, 20__.

RFP 26-012, Disaster Debris Monitoring Services
Addendum # 4

Question 1: If this is a term contract subject to renewal, what is the maximum number of option periods?
Answer 1: The term is 5 years from the effective date of the agreement.

Question 2: Has the current contract gone full term?
Answer 2: The current agreements were set to expire on February 15, 2026, but have been extended and will remain in place until the new agreements are in effect.

Question 3: Have all options to extend the current contract been exercised?
Answer 3: Yes.

Question 4: Who is the incumbent, and how long has the incumbent been providing the requested services?
Answer 4: The current incumbents are Tetra Tech, Inc. as the primary and Thompson Consulting Services, LLC as the secondary. These agreements have been in place since February 16, 2021.

Question 5: What is the maximum number of hours post-event before work must commence?
Answer 5: Staff is communicating 24 to 48 hours before impact. Successful vendors are expected to mobilize as soon as the storm has passed, and the weather conditions are safe to drive in.

Question 6: Are any specific professional credentials required to qualify for the contract?
Answer 6: The vendor must demonstrate significant professional expertise in hurricane response, mitigation, and recovery services including proven experience working in post – storm environments.

Question 7: Will the resulting contract include a guaranteed minimum payment to the vendor?
Answer 7: Yes.

Question 8: Are there any superseding prior agreements that may impact this contract?
Answer 8: No.

Question 9: When/what was the most recent event that precipitated the activation of the existing or previous contract?
Answer 9: Hurricane Milton 2024

Question 10:	Approximately how many cubic yards of debris were collected from the most recent event?
Answer 10:	1 million (Vegetative & C&D)
Question 11:	What estimated or actual dollars were paid to the incumbent(s) after the most recent event?
Answer 11:	Estimated 5.5 Million
Question 12:	How many times have the incumbent's services been utilized in the previous five years?
Answer 12:	The incumbent's services were utilized twice for two different hurricanes and yearly for truck / equipment certification.
Question 13:	If there was a previous solicitation for these services, what was its title, number, release date, and due date?
Answer 13:	RFP 20-299, Disaster Debris Monitoring Services, Released September 3, 2020, and opened October 14, 2020.
Question 14:	When is the anticipated contract start date?
Answer 14:	The agreement is anticipated to be executed in April or May 2026.
Question 15:	Can you please provide greater explanation of your expectations related to any required subcontracting to minority-owned, women-owned, or other types or categories of small or disadvantaged businesses? For example, what is required with the proposal, and what is required to comply during the term of the contract?
Answer 15:	No expectations are applicable with FEMA Funds.
Question 16:	Are bidders permitted to deviate in any way from any manner of quoting fees you may be expecting? For example, if there is a pricing page in the RFP, can bidders submit an alternate fee structure? If there is no pricing page in the RFP, do you have any preference for how bidders should quote fees or can bidders create their own pricing categories?
Answer 16:	No, Proposers must use the pricing sheet provided in the RFP. Negotiations on alternate pricing may be made at Level 4 of the Elevation.
Question 17:	Please describe your level of satisfaction with your current or recent vendor(s) for the same purchasing activity, if applicable?
Answer 17:	Polk County was satisfied with the current vendor.

Question 18:	Is their a preferred Proposal delivery method, electronic or sealed parcel?
Answer 18:	Electronic
Question 19:	Can the County confirm forms to be returned are: RFP Registration Proposers Incorporation Information Drug Free Workplace Performance Survey Questionnaires Affidavit Certification Immigration Laws Employment Eligibility Verification (E-Verify) Certification Exhibit A: Certification Regarding Debarment, Suspension, Proposed Debarment, and Other Responsibility Matters Exhibit B: Appendix A, 44 C.F.R. Part 18 – Certification Regarding Lobbying Attachment A (Cooperative agreement for Polk County public agencies) Attachment B: Compensation Schedule
Answer 19:	Yes, all documents listed above, as well as any information requested in each tab, and signature acknowledgement of all addenda issued.
Question 20:	Could the County please confirm where the completed Questionnaire (Exhibit 1) for Tab 5 – Surveys of Past Performance should be sent for RFP 26-012? Should past clients email the completed surveys directly to Polk County, and if so, to which email address? Or should they return them to the vendor for inclusion in our proposal package?
Answer 20:	Please see RFP Package, Preparing the Surveys, page 40. The firm is responsible for ensuring all references/surveys are included in their submittal, and do not have references email Polk County Procurement directly.
Question 21:	Could the County please confirm whether vendors are permitted to include an appendix with additional or supporting information? Specifically, we would like to know if an appendix may be used to provide supplemental details that further explain the firm's experience and qualifications, without conflicting with the page limitations outlined in the Submittal Requirements?
Answer 21:	Please submit only the materials requested in the RFP package. Firms selected for interviews will have the opportunity to provide additional details regarding their experience, qualifications, and related information.

Question 22:	Would the County consider extending the page limit for these sections, as doing so would allow vendors to provide information that may better support the County's evaluation and understanding of each firm's capabilities?
Answer 22:	Not at this time
Question 23:	The RFP uses the phrase 'one page, single or double sided' throughout the proposal that specifies page limits. Could the County please clarify whether this means one physical sheet of paper (allowing content on both sides), or if the County intends this to be a strict one-page limit regardless of printing orientation?
Answer 23:	One page, single- or double-sided, means a single physical sheet.
Question 24:	On Page 11 - Tab 2 and Tab 3 request the same information about Organization Staff Chart & Staff Experience, but on (page 15 RFP) under Evaluation Level 2 under bullet point APPROACH and METHODOLOGY suggests TAB 3 is required for this and measured for 40 points?
Answer 24:	See Revision 1 below.
Question 25:	Is there a firm currently providing these same services for Polk County? If so, who is the incumbent?
Answer 25:	AshBritt
Question 26:	If there is an incumbent providing these services, are they eligible to respond to the current RFP?
Answer 26:	Yes.
Question 27:	Were the services provided by the incumbent and how would you rate them?
Answer 27:	Yes, incumbent was satisfactory.
Question 28:	How many times has Polk County activated the contract within the last 5 years?
Answer 28:	2
Answer 29:	Can you please advise if a debris monitoring firm is already under contract to perform debris monitoring services for the county? If so, can you please identify the firm?
Answer 29:	Tetra Tech

Question 30: Can you please advise if a performance bond will be required for debris monitoring firms because Attachment D speaks to debris removal, not monitoring. See language below from Attachment D?

Answer 30: Event Performance Bond is required, language will be changed to "Debris Monitoring."

Revision 1

RFP Package, Elevation Level 2, page 15:

Elevation Level 2 (Selection Committee Evaluation)

Procurement shall score each Proposal on the following evaluation criteria:

- Compensation Schedule (Tab 4) - 10 points
- Surveys of Past Performance (Tab 5) - 10 points

Subtotal Points-20 Points

by the process stated under each corresponding Tab description

Each Selection Committee member shall score each Proposal on the following evaluation criteria:

- Experience and Expertise (Tap 2)- 40 points
- **Resources and Availability** (Tab 3)- 40 points

Subtotal Points-80 points

by the following process:

Each Selection Committee member shall determine which of the following descriptions applies to each of the foregoing evaluation criteria:

Title: _____

Company: _____

Question 1: Are proposers permitted to input zero-dollar ($0.00) rates for certain roles on *Attachment B: Compensation Schedule*?

Answer 1: No, Proposers may not list $0.00 rates for required labor categories. All positions identified in Attachment B must include a reasonable fully burdened rate. Please see the FTP Site for "**RFP 26-012, Addendum 6 - Revised Attachment B**", some labor categories have been removed.

Question 2: Should the use of an ADMS electronic ticketing system be incorporated into the pricing structure on *Attachment B: Compensation Schedule*?

Answer 2: Yes, if a proposer intends to utilize an ADMS electronic ticketing system, they should incorporate all costs associated with the use of the system into their pricing and shall be fully burdened into the hourly rates for the applicable debris monitoring positions provided on Attachment B: Compensation Schedule.\

Question 3: The manual process of filling out load tickets can jeopardize proper FEMA reimbursement if human error occurs. Utilizing electronic load tickets, computer tablets, and systems employing electronic contractor IDs with an Automated Debris Management System (ADMS) has become the industry standard and is critical for any successful debris operation. Because of the factors listed, we would like to confirm that any charges for the use of an ADMS are to be fully burdened in the proposed debris monitoring positions hourly rates provided and not as a separate hourly rate or separate position, separate flat rate, or substitutional charge for any listed position?

Answer 3: See answer for Question 2 above.

Revision

RFP Package, Tab 4 – page 13-14

Tab 4, Compensation Schedule (10 Points)

Proposers shall complete the compensation schedule included as Attachment B. For items not listed, the County will only pay the FEMA rates.

The unit pricing may be increased by the Procurement Director, or designee, after the contract has been in place for a minimum of 12 months, when it is in the best interest of the County. Increases will be determined by the appropriate price index as approved by the Procurement Director or Designee; however, the hourly rates cannot exceed the FEMA approved rates. No Board action will be necessary for unit price increases.

The Proposer with the lowest total cost will be allocated 10 points. Each additional Proposers cost point allocation will be calculated based upon their relative cost difference from the lowest Proposers cost.

Bartow, Florida 33830

Re: RFP No. 26-012—Disaster Debris Monitoring Services

Dear Ms. Shirah and Selection Committee Members,

It is with sincere gratitude that Rostan Solutions, LLC (hereinafter, Rostan) submits our proposal in response to Polk County's (hereinafter, County) request for proposals for disaster debris monitoring services. As a disaster debris monitoring and recovery consulting services firm, we take our responsibility seriously. This means prioritizing responsiveness and understanding that attentiveness to detail, open and honest communication, and efficiency in our work efforts are paramount to supporting the County's recovery efforts and achieving successful outcomes.

Some of Rostan's key attributes include:

FLORIDA PRESENCE

Simply put, Rostan is a Florida company. Our roots were established in the late 90's in the Ybor City area of Tampa Bay, and formalized in 2006 when Rostan became its own brand, as an owned subsidiary of Malcolm Pirnie, Inc. Today Rostan is a privately held firm entering our 20th year in business. Rostan is an established Florida firm having served clients in more than 23 counties statewide.

CUTTING EDGE TECHNOLOGY

HAULPASS®

For nearly 20 years, HaulPass® has been recognized as the original and most trusted name in automated debris management systems (ADMS). Developed by Rostan in the aftermath of Hurricane Katrina, HaulPass® led the digital wave, replacing traditional 5-ply carbon ticketing methods to a fully digital debris monitoring platform. The current generation of HaulPass® was launched in 2019 in response to Hurricane Dorian and has been utilized on more than 60 projects since that time. Rostan continues to commit millions of dollars to the advancement and improvement of HaulPass®, driving ongoing innovation and the development of new capabilities to maintain its position as an industry-leading ADMS platform.

Since HaulPass® was developed, we have never delayed a recovery effort, stopped work, or been forced to use another data collection method.

COST INTEGRITY

While cost is an important consideration in the County's selection process, Rostan understands that true value extends beyond a fee schedule. As a small business, Rostan operates with a streamlined organizational structure that allows for direct oversight, faster decision-making, and disciplined cost control. Unlike large or publicly traded firms with significant corporate overhead, Rostan does not carry extensive backend costs that are then passed on to clients.

This lean operating model enables Rostan to deploy highly qualified personnel only where they add value, ensuring appropriate oversight without unnecessary staffing. As responsible stewards of public funds, we are committed to maximizing every dollar invested in recovery efforts. The result is a cost-effective delivery model that consistently achieves operational efficiency, fiscal accountability, and measurable savings for our clients.

KEY PERSONNEL/POINT OF CONTACT

Rostan proposes a leadership team intentionally structured to provide Polk County, Florida with continuity, institutional knowledge, and proven disaster-recovery expertise. Rostan has made a significant commitment to investing in

Matthew Mooneyham and Katie Taylor, both widely recognized as top-tier leaders within the disaster recovery industry. This investment reflects Rostan's long-term commitment to experienced leadership, accountability, and operational excellence.

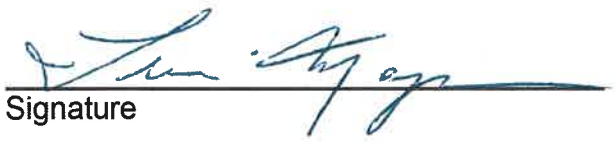
In addition, Allen Fowler, Matthew Mooneyham, and Katie Taylor have each directly supported and led debris operations for Polk County during *Hurricanes Irma, Ian, and Milton*. Collectively, this team brings firsthand knowledge of Polk County's operations, processes, personnel, and recovery expectations, allowing for immediate effectiveness and minimal ramp-up time following activation.

- **Katie Taylor** will serve as Rostan's Client Manager and primary day-to-day point of contact for the County. Katie brings extensive experience working with and on behalf of Polk County through her prior employment and provides direct client engagement, responsiveness, and continuity.
- **Allen Fowler** will serve as the Project Manager, responsible for overall project execution, coordination of field operations, staffing oversight, and ensuring compliance with County, State, and FEMA requirements.
- **Matthew Mooneyham** will serve as Rostan's debris program lead, overseeing contractual matters, renewals, and technical clarifications specific to this proposal.

This leadership structure ensures Polk County receives direct access to experienced decision-makers with established knowledge of the County—without the inefficiencies or added overhead associated with layered corporate management structures.

CLIENT MANAGER	OPERATIONAL CONTACT	ADMINISTRATIVE CONTACT
Katie Taylor Client Manager 9897 Lake Worth Road, Suite 303 Lake Worth, FL 33467 Tel: 850-501-1525 Fax: 813-333-7330 Email: ktaylor@rostan.com	Allen Fowler Project Manager 9897 Lake Worth Road, Suite 303 Lake Worth, FL 33467 Tel: 863-212-2578 Fax: 813-333-7330 Email: afowler@rostan.com	Matthew Mooneyham Program Manager 9897 Lake Worth Road, Suite 303 Lake Worth, FL 33467 Tel: 850-530-7151 Fax: 813-333-7330 Email: mmooneyham@rostan.com

In closing, Rostan is committed to supporting the County through all means and methods necessary to ensure successful recovery outcomes. Upon the County's request, Rostan will assign a dedicated Data Management team to work from County-provided office space. This team will be accessible to county staff to answer questions and ensure data information is understood and available for the county. All project activities will be conducted with full transparency, and the Project Manager will provide routine briefings to the County-appointed representative throughout the day and remain available for coordination for the duration of the project. Rostan will maintain 24/7 availability to ensure timely response and support for all operational needs.



Rostan is deliberate in selecting the projects and clients it supports, allowing the firm to maintain appropriate staffing levels and focused management oversight. As a result, Polk County will receive consistent attention, responsive leadership, and dedicated resources without dilution across an excessive client base. The proposed project team possesses in-depth knowledge of Polk County's operations and is prepared to seamlessly continue providing the level of attention to detail and service that Polk County expects!

Very truly yours,

Travis Mays
Principal/Vice President

2.1 ROSTAN TEAM PROFILE

ROSTAN SOLUTIONS, LLC

Rostan is dedicated to providing expert guidance, resolute standards of care, and attentive focus in support of municipal and private sector clients throughout the United States. With a business practice built around the core elements of the disaster life cycle, Rostan employs high-character professionals with a broad range of experience and expertise.

OUR AREAS OF EXPERTISE

Rostan's business was formed with an initial focus on debris monitoring services and has grown over the past 20 years to encompass several related service lines including planning and mitigation, long-term recovery, post-disaster construction management, and specialized technical support services.

- Debris Monitoring
- Long-Term Recovery
- Planning and Mitigation
- Program Management
- Technical Services

OUR PERSONNEL

With roughly 50 professionals dedicated to our practice year-round, Rostan maintains firsthand knowledge of federal and state-level laws, policy and compliance, and disaster recovery guidance that governs the services that we provide to our clients.

Rostan has assisted state and local governments throughout all disaster recovery phases contemplated by the County's RFP. Rostan's key disaster debris management team members have more than 200 years of combined experience in disaster debris management operations and Public Assistance support services resulting from earthquakes, floods, tornadoes, snow/ice storms, fires, and hurricanes.

Our team is intimately familiar with the policies and procedures of the Federal Emergency Management Administration, National Resource Conservation Service (NRCS), Florida Department of Environmental Protection (FDEP), Florida Department of Transportation (FDOT), Florida Division of Emergency Management (FDEM), U.S. Department of Housing and Urban Development (HUD), and the Federal Highway Administration (FHWA). We have proven success in meeting document and record requirements for FEMA (HMGP and PA), HHS, HUD (CDBG), and NRCS grant programs. Our core personnel have remained consistent through the years enabling us to harness our collective experience as we grow and develop new talented resources to support our growing client base.

Key personnel resumes have been included under *Tab 3.3: Rostan Team Resumes.*

ROSTAN SOLUTIONS SERVICE OFFERINGS—DISASTER LIFE CYCLE

PREPAREDNESS: *BEFORE DISASTER STRIKES, ROSTAN CAN HELP YOU BE READY FOR ANY EMERGENCY*

- Federal [FEMA] Procurement Policies and Procedures Review and Assessment
- Pre-Event Disaster Response and Recovery Procurement Support
- Comprehensive Emergency Plan Development and Review
- Continuity of Operations ("COOP") Plan Development and Review
- Debris Management Plan Development and Seasonal Review
- DMS Permitting and Regulatory Support Including Identification and Baseline Assessment
- FEMA Public Assistance Pre-Event Audit
- Community Rating System ("CRS") Support and Staff Augmentation
- Training and Exercises

RESPONSE & RELIEF: *ROSTAN IS YOUR PARTNER DURING THE DISASTER TO ENSURE OPERATIONAL CONTINUITY*

- Debris Monitoring [of Debris Removal]
  - General Debris Removal Management
  - Private Property Demolition and Debris Removal Oversight
  - Waterway Debris Removal Oversight

2.4 SIMILAR PAST PROJECTS

CITY OF NORTH PORT, FL
PUBLIC ASSISTANCE, GRANTS FUNDING, DEBRIS MANAGEMENT SERVICES
MULTIPLE PROJECTS | 2017 – ONGOING

HURRICANE MILTON | FEMA DR-4834 | 42,000 CY | COST: $165,000

In October of 2024, Hurricane Milton swept through the state of Florida causing significant damage and impacting thousands of people. The City of North Port, home to nearly 75,000 people, was one of the many areas affected by this damaging storm. Tree damage was moderate and isolated but needed to be cleaned up. The City initially conducted collection operations internally but eventually engaged their on-call contractor to finish debris collection efforts. Rostan was activated and monitored the removal of more than 650 truckloads, totaling more than 11,000 cubic yards of vegetative debris. Additionally, collective City and contractor debris was processed into mulch and hauled to final disposal by the City's contractor. More than 30,000 CY of mulch was hauled to final disposal.

HURRICANE IAN | FEMA DR-4673 | 2.8 MILLION CY | COST: $4.1 MILLION

In 2022, North Port, FL was a city of more than 60,000 people and 100 square miles, located on the Southeastern border of Sarasota County. On September 28, 2022, Hurricane Ian made landfall in southwest Florida just below peak intensity as a category 4 hurricane. It was the third-costliest weather disaster on record, and the deadliest hurricane to strike the state of Florida since 1935. The City of North Port was one of the many municipalities affected by this major storm. The impacts

were devastating. Many trees were down and many homes experienced flooding and wind damage. Rostan was activated to provide debris monitoring and public assistance support services and within hours of the storm, Rostan personnel were on the ground hiring local monitors and meeting with the City and contractors to begin work. Rostan monitored nearly 43,000 truckloads of debris totaling approximately 2.4 million cubic yards (CY) collected from the ROW and hauled to three temporary disposal facilities and 3,500 truck loads totaling approximately 400,000 CY of reduced debris hauled to two final disposal facilities. In addition, Rostan monitored the removal of over 8,500 hazardous trees and 20,000 hazardous tree limbs from the ROW.

Total Leaners	**8,543**
Private Communities (Right of Entry)	**Yes**

Additionally, Rostan continues to serve as the program management consulting firm for all City mitigation and public assistance recovery projects. Rostan is responsible for coordinating all programmatic activities and serves as the City liaison to FEMA and FDEM for all correspondence and meetings. Additional responsibilities include data collection and dissemination for all tasks involved in the project as well as reporting to the state of Florida for record keeping, including state-required requests for reimbursement and quarterly reporting.

HURRICANE IRMA | FEMA DR-4337 | 48,000 CY | COST: $470,000

Following Hurricane Irma, North Port was left with hundreds of damaged, hazardous trees and nearly 50,000 cubic yards of vegetative debris on the Right-of-Way. Awarded the City's standby debris monitoring contract in 2014, Rostan coordinated daily with both the hauling contractor and key City personnel to complete debris cleanup in 73 days. Following the cessation of debris operations, Rostan supported the City through the organization and submission project worksheets (PWs) for both "emergency" and "permanent" work under FEMA's Public Assistance (PA) program. In addition, though outside the scope of Rostan's engagement with the City, Rostan staff provided support to the City to help it secure an $800,000.00 Hazard Mitigation Grant Program (HMGP) grant to purchase and install a backup emergency generator at its City Hall/Emergency Operations Center.

MCDUFFIE COUNTY, GA
DEBRIS MONITORING AND PUBLIC ASSISTANCE SUPPORT SERVICES
HURRICANE HELENE | FEMA DR-4830
1.1 MILLION CY | 2024–2025 | COST: $1.5 MILLION

Hurricane Helene was a devastating category 4 storm that made landfall in the big bend region of Florida and continued north into and across the state of Georgia. This caused an extreme amount of damage to areas that had not seen a storm like this in a long time. McDuffie County, home to more than 21,000 residents, was one of the many areas that was impacted by this devastating storm.

Immediately following the storm, Rostan was hired through an exigent contract to provide debris monitoring services and was later awarded a multi-year standby contract. Rostan monitored the removal of more than 16,000 truckloads of debris collected from the Right-of-Way (ROW) totaling more than 870,000 cubic yards of vegetative debris. Haul out included more than 3.500 truckloads transporting more than 225,000 cubic yards of mulch. In addition to the debris collection, Rostan also monitored the removal of nearly 10,000 hazardous hanging limbs and nearly 2,000 hazardous leaning trees from the ROW.

MULTIPLE PROJECTS | 2022 • 2025

HURRICANE MILTON | FEMA DR-4834 | 194,000 CY | 2024 | COST: $285,000

In October of 2024, Hurricane Milton swept through the state of Florida causing significant damage and impacting thousands of people. The City of Pinellas Park, home to over 53,000 people, was one of the many areas affected by this damaging storm. Rostan was activated to provide debris monitoring services and monitored the removal of more than 4,300 truckloads of debris collected from the Right-of-Way (ROW). This amounted to more than 157,000 cubic yards of vegetative debris and over 11,500 cubic yards of construction and demolition debris. In addition, over 2,200 hazardous hanging limbs were removed from the ROW.

HURRICANE IAN | FEMA DR-4673 | 5,200 CY | 2022 | COST: $12,000

Hurricane Ian was one of the most destructive hurricanes to ever make landfall in the state of Florida. It devastated southwest and central Florida in many different places. Pinellas Park is a city located within Pinellas County that has a population of approximately 50,000 people. Rostan was ready to work as soon as the City requested our services to track the debris removal effort. Although this area was not hit as hard as some other areas, there was moderate damage in pockets within the City limits. This resulted in the collection of more than 5,000 cubic yards of debris which was eventually mulched and hauled to a final disposal landfill. Additionally, since 2019, Rostan has served as the program management consulting firm to the City of Pinellas Park for all City mitigation, CDBG, ARPA, and public assistance recovery projects. Rostan is responsible for coordinating all programmatic activities and serves as the city liaison to FEMA and FDEM for all correspondence and meetings. Further responsibilities include data collection and dissemination for all tasks involved in the project as well as reporting to the state of Florida for record keeping, including state-required requests for reimbursement and quarterly reporting.

MULTIPLE PROJECTS | 2022 • 2023 • 2024

HURRICANE HELENE | FEMA DR-4828 | 290,000 CY | COST: $430,000

Hurricane Helene was a devastating category 4 storm that made landfall in the big bend region of Florida. The City of St. Pete Beach, home to nearly 10,000 residents, was one of the many areas that was affected by this hurricane with catastrophic flooding. Rostan was contracted to provide debris monitoring services for the City of St. Pete Beach. Rostan monitored the removal of more than 4,600 truckloads of debris collected from the Right-of-Way (ROW). This amounted to more than 1,000 cubic yards of sand debris, 200,000 cubic yards of construction and demolition (C&D) debris, and 13,000 cubic yards of vegetative debris.

HURRICANE IDALIA | FEMA DR-4734 | 1,750 CY | COST: $30,000

Hurricane Idalia was a powerful and destructive Category 4 hurricane that caused significant damage across the southeastern United States, especially Florida. The City of St. Pete Beach was one of the many municipalities affected by the storm. At this time, St. Pete Beach was home to approximately 10,000 full-time residents within Pinellas County and was one of the most popular tourist destinations on the west coast of Florida. Rostan was on the ground and ready to work within days of the storm making landfall. Rostan hired local monitors and immediately commenced work in tracking debris removal efforts. This resulted in over 1,400 cubic yards of vegetative debris, 350 cubic yards of C&D debris, and 920 pounds of household hazardous waste being collected from the public ROW and hauled to a final disposal landfill.

HURRICANE IAN | FEMA DR-4673 | 3,630 CY | COST: $32,000

Hurricane Ian cast devastation upon a large majority of Florida, and the city of St. Pete Beach happened to fall victim to some of the damage. Rostan was on the ground and ready to work within days of the storm making landfall. Rostan hired local monitors and immediately commenced work in tracking debris removal efforts. This resulted in nearly 4,000 cubic yards of vegetative debris being collected from the public ROW and hauled to a temporary disposal site. The debris was then mulched and hauled to a final disposal landfill.

VILLAGE OF ESTERO, FL
DEBRIS MANAGEMENT AND PUBLIC ASSISTANCE SUPPORT SERVICES
HURRICANE IAN | FEMA DR-4673 | 375,000 CY
2022–2023 | COST: $640,000

Rostan's work with the Village of Estero is representative of the services we provided to our clients throughout the state following Hurricane Ian. The Village of Estero is a community that covers an area of approximately 25 square miles with a population of 37,000 people. It is located in Lee County, FL just south of Fort Myers and includes numerous private, gated communities. Rostan has served as the Village's on-call debris monitoring consultant since 2017. Rostan was in communication with the Village's Department of Public Works before Hurricane Ian had made landfall in preparation for an imminent deployment. Rostan staff was on the ground October 2, 2022, with debris monitoring activities commencing on October 4. Rostan hired over 40 local employees to serve as debris monitors. Debris monitoring efforts were completed in 91 days and a total of 375,000 cubic yards of storm-generated debris was collected and properly disposed. Over 1,350 hazardous limbs and 47 damaged or uprooted trees were also removed. Additionally, 660 white goods, 555 electronic waste items, and just over 7,700 pounds of household hazardous waste was properly disposed of.

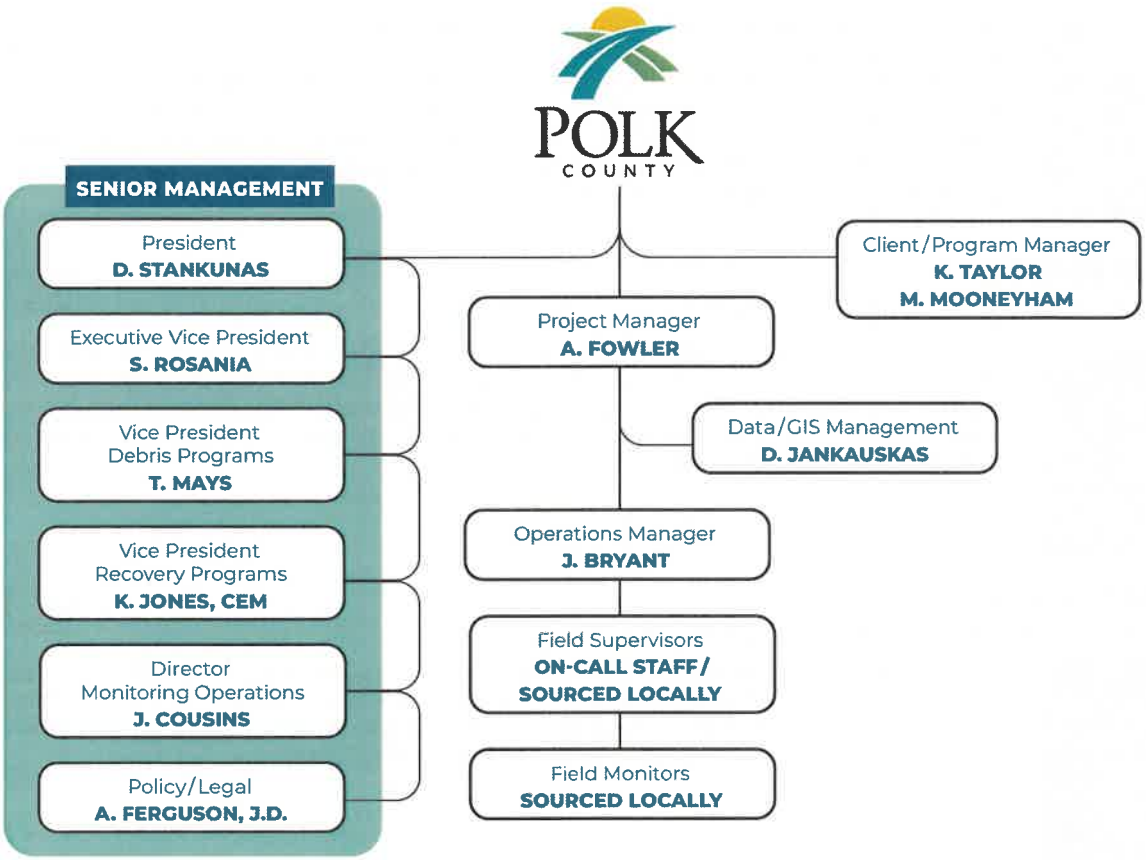
TAB 3 – RESOURCES AND AVAILABILITY

3.1 Project Organizational Structure



3.2 Key Personnel

3.3 Rostan Team Resumes

3.1 PROJECT ORGANIZATIONAL STRUCTURE

PROJECT ORGANIZATIONAL STRUCTURE

The Rostan team is organized to create a seamless and transparent approach to projects. As shown in the following organizational chart, we have assembled a team of seasoned professionals with the qualifications and experience needed for this project. This organizational structure provides the County with a defined leadership and communication structure.

3.2 KEY PERSONNEL

Rostan has assembled a project team consisting of highly competent professional staff with a proven track record in developing innovative solutions to complex disaster recovery challenges. Our experience is that the key to an expeditious recovery includes careful planning, consistency, and the ability to adapt to changing circumstances and conditions on a frequent basis. We strive to anticipate problems before they arise and resolve them by relying on our past experiences, best-practices, and our understanding of current regulations. Our team has been organized to best meet the needs of the County, so that we can quickly, efficiently, and cost effectively execute the projects tasks that the County requires. We believe that maintaining close communications with County contractors, and State and FEMA representatives provides for efficient recovery management. We also believe that maximizing the use of local personnel not only helps the community recover more quickly, it also provides for operational efficiencies due to familiarity with roads, traffic patterns, and local culture.

DARIUS STANKUNAS

PRINCIPAL • PRESIDENT

ROSTAN

Mr. Stankunas, President of Rostan, has over 30 years of experience in environmental and solid waste management and for the past 20 years has specialized in disaster planning and recovery management activities. He is an expert in pre- and post-event disaster planning and recovery and has managed numerous disaster recovery projects both at the regional and local levels. Mr. Stankunas has served as Program Manager on numerous disaster debris recovery projects in Mississippi, Alabama, Florida, Virginia, New Jersey, Texas, Louisiana, Missouri, South Carolina, North Carolina, Georgia, New York, and Puerto Rico.

SAM ROSANIA

PRINCIPAL • EXECUTIVE VICE PRESIDENT

ROSTAN

Mr. Rosania is the Co-Founder and Executive Vice President of Rostan and has more than 40 years of experience working for the public and the private sector. Mr. Rosania's areas of expertise include disaster management and recovery, integrated solid waste management, and hazardous waste management. He is a co-founder of Rostan and has fulfilled an advisory and support role on every debris monitoring project since Rostan was founded.

TRAVIS MAYS

PRINCIPAL • VICE PRESIDENT, DEBRIS PROGRAMS

ROSTAN

Mr. Mays serves as Rostan's Vice President of Debris Programs. He has 18 years of experience and has personally led the management of some of Rostan's largest debris removal monitoring projects including multiple USACE projects and has had an oversight role on every debris monitoring project since 2011. He has been on staff with Rostan since 2008.

KYLE JONES, CEM

PRINCIPAL • VICE PRESIDENT, RECOVERY PROGRAMS

ROSTAN

Mr. Jones is a Certified Emergency Manager (CEM) with emergency management and hazard mitigation experience. He is regarded as a subject matter expert in the HMGP and FEMA Public Assistance Programs through the International Association of Emergency Managers (IAEM) and has worked with recovery and mitigation projects since 2004. He also specializes in development of PWs, the FEMA appeal process, Code of Federal Regulation (CFR) analysis, and identification of Federal funding sources for clients. Mr. Jones has extensive programmatic knowledge of the 404 and 406 Grant Programs and has over a decade of hands-on experience in managing major Federal disaster declarations and program funding. Mr. Jones has been on staff with Rostan since 2018.

EMPLOYEE SPOTLIGHT

KATIE TAYLOR
CLIENT/PROGRAM MANAGER

ROSTAN

Ms. Taylor has extensive experience in the debris monitoring field. With over 20 years of experience, she will be responsible for implementation of the specific programs tasked by the County. Ms. Taylor is also responsible for program oversight, task order preparation, forecasting, and quality assurance. Ms. Taylor joined the Rostan team in 2025. ***She has served the County during multiple hurricane recovery efforts.***

MATT MOONEYHAM
CLIENT/PROGRAM MANAGER

ROSTAN

Mr. Mooneyham has been a capital projects manager in various sectors for more than 20 years. He has experience in a variety of disciplines including commercial construction, residential construction, local government infrastructure, federal government construction, and emergency management and disaster response. Mr. Mooneyham has completed millions of dollars of infrastructure projects including housing, road and bridge, storm water, other large-scale capital projects. He has an in-depth of understanding of FEMA guidelines and compliance having served as project manager following several disasters, including every major disaster event since 2004. This includes some of the larger events such as Hurricane Ivan, Hurricane Michael, the BP Oil Spill, Hurricane Irma, Maria, Michael, Laura, Ian, Milton/Helene and other smaller hurricanes and natural disasters throughout the United States. Mr. Mooneyham joined the Rostan team in 2025. ***He has previously been involved in the County's debris removal monitoring efforts.***

ALLEN FOWLER
PROJECT MANAGER

ROSTAN

Mr. Fowler is responsible for overseeing field operational activities for field monitors, supervisors, and contractors. This includes hiring and training employees and managing quality assurance. Additionally, Mr. Fowler is adept at strategizing process improvements to ensure tasks are completed in a timely and compliant manner. ***Mr. Fowler has previously served the County during its Hurricane Milton and Ian recovery efforts.***

POLK COUNTY HURRICANE MILTON DISPOSAL SITES

JEFF COUSINS

DIRECTOR, DEBRIS PROGRAMS

ROSTAN

Mr. Cousins has 21 years of experience managing debris monitoring and disaster recovery projects for clients at the local, state, and federal level. He serves as Rostan's Director of Monitoring Operations. He has managed large-scale projects for clients including New Jersey Department of Environmental Protection, Cumberland County, TN, and Liberty County, FL. Mr. Cousins has an array of experience managing ROW debris removal; leaner, hanger, and hazardous stump removal; waterways debris removal, demolition, and PPDR operations from startup to closeout. He has been on staff with Rostan since 2004.

ADAM FERGUSON

POLICY / LEGAL

ROSTAN

Mr. Ferguson has 21 years of experience in disaster recovery, mitigation, and grants management. He acts as a Senior Programmatic Specialist for Disaster Recovery Operations supporting states, local governments, and utilities in the identification, pursuit, and securing of state and federal aid. He is skilled in providing technical guidance and assistance in demonstrating programmatic eligibility. Mr. Ferguson also directs programmatic and administrative appeals processes for clients facing adverse agency determinations. He has been on staff with Rostan since 2017.

JORDAN BRYANT

OPERATIONS MANAGER

ROSTAN

Mr. Bryant has 20 years of disaster recovery management experience and serves as one of Rostan's Senior Project Managers. He is a subject matter expert in all facets of debris programs and has been assigned to serve some of Rostan's most notable clients including Cameron Parish, LA, Coconut Creek, FL, USACE, Puerto Rico Department of Public Works and Transportation (DTOP), Cumberland County, TN, and New Jersey Department of Environmental Protection. Mr. Bryant has extensive experience in debris monitoring, ADMS system support, and FEMA reimbursement support. He has been on staff with Rostan since 2006.

DENISE JANKAUSKAS

GIS/DATA MANAGEMENT

ROSTAN

Ms. Jankauskas has 14 years of experience managing data collection and quality control of data elements for debris monitoring projects. Her strict attention to detail, coupled with a comprehensive background in graphics and design, enables her project teams to meet all project reporting requirements in a timely manner while maintaining the highest data integrity standards. She has been on staff with Rostan since 2012.

For more detailed information, resumes of these key individuals anticipated to serve the County can be found under Section 3.3 Rostan Team Resumes

Mr. Rosania has more than 43 years of experience working for the public and the private sector related to disaster management and recovery, Public Assistance funding, emergency management, public health, integrated solid waste management and hazardous waste management. Mr. Rosania has been extensively involved with hazard mitigation, emergency management and disaster management and recovery operations since 1998. He is recognized as an expert in Integrated Solid Waste Management Planning and pre- and post- incident disaster planning and recovery. Mr. Rosania has managed numerous disaster recovery projects both at the regional and local level. He is very familiar with local, state and federal regulations associated with disaster management and mitigation, solid and hazardous waste management, including the Stafford Act and FEMA regulations.

RECENT PROFESSIONAL EXPERIENCE

MULTIPLE FLORIDA JURISDICTIONS
FEMA DR-4828 & DR-4834 || 2024–2025

Project Cost: $1,790,000.00

DEBRIS MONITORING. PROGRAM MANAGEMENT, AND PUBLIC ASSISTANCE SUPPORT SERVICES

Following Hurricanes Helene and Milton, Rostan was activated by several on-call clients in southwest Florida to support debris removal operations. Clients included:

City of Belleair Beach City of North Port City of Pinellas Park City of Safety Harbor City of St. Pete Beach	City of Treasure Island Town of North Redington Beach Town of Redington Beach Town of Redington Shores

MULTIPLE FLORIDA JURISDICTIONS
FEMA DR-4673 || 2022–2023

Project Cost: $5,715,000.00

DEBRIS MONITORING AND PUBLIC ASSISTANCE SUPPORT SERVICES

Principal and Executive Vice President responsible for project quality control and providing technical expertise to support Rostan's deployment and debris monitoring projects for multiple jurisdictions following Hurricane Ian. Rostan was activated by several on-call clients in Florida to provide debris monitoring and public assistance support services. Rostan hired more than 300 local monitors to support these clients recovery efforts. Clients include:

City of Sarasota Village of Estero	Town of Windermere City of North Port	City of Pinellas Park City of St. Pete Beach

The City of North Port, FL was particularly hard hit as the eyewall of Hurricane Ian hovered over the City for several hours. Nearly 200 monitors were hired to support this effort resulting in the collection of more than 2,000,000 cubic yards of debris and the removal of nearly 30,000 hazardous trees and hanging limbs. Three DMS locations and two final disposal sites were utilized.

SAMUEL M. ROSANIA

ROSTAN

Principal • Executive Vice President

MULTIPLE LOUISIANA JURISDICTIONS || FEMA DR-4611 || 2021–2022

Project Cost: $715,000.00

DEBRIS MONITORING AND PUBLIC ASSISTANCE SUPPORT SERVICES

Following Hurricane Ida, Rostan was activated by several on-call clients in eastern Louisiana to support debris removal operations and implement private property debris removal (PPDR) programs. Clients include:

New Orleans City Park	City of Slidell	Plaquemines Parish	St. James Parish
City of Gretna	Town of Pearl River	Town of Lutcher	Town of Gramercy

BRAZORIA COUNTY, TX || HURRICANE NICHOLAS || 2021

Project Cost: $100,000.00

DEBRIS MONITORING AND MANAGEMENT SERVICES

Rostan was activated to provide debris monitoring services following impacts from Hurricane Nicholas in Brazoria County, TX. Rostan monitored the removal and disposal of nearly 60,000 CY. Nearly 900 loads of debris were received at the disposal site by County contractors. Additionally, Rostan documented receipt of debris at the DMS from a number of other municipalities within the County.

WEST FELICIANA PARISH, LA || FEMA DR-4462 || 2019–2021

PUBLIC ASSISTANCE, GRANTS FUNDING, DEBRIS MONITORING AND MANAGEMENT

Project Principal responsible for providing overall project quality following severe catastrophic flooding in March 2019. Also provided, as needed, recommendations and guidance regarding all Public Assistance categories (A-G), as well as, 406 and 404 Mitigation opportunities associated with the Parish's damaged infrastructure.

CHARLESTON COUNTY, SC || FEMA DR-4464 || 2019–2020

Project Cost: $600,000.00

DEBRIS MONITORING AND PUBLIC ASSISTANCE SUPPORT SERVICES

Project Principal and Client Liaison responsible for Rostan to provide debris monitoring services to oversee debris contractor collection services countrywide. Services included debris monitoring and management, FEMA Public Assistance program and other funding program assistance related to County owned and/or maintained public infrastructure, procurement assistance and construction/post construction support.

MULTIPLE FLORIDA JURISDICTIONS || FEMA DR-4399 || 2018–2019

Project Cost: $2,000,000.00

DEBRIS MONITORING AND PUBLIC ASSISTANCE SUPPORT SERVICES

Mr. Rosania served as the Client Liaison for all debris monitoring and Public Assistance support projects in the State of Florida following Hurricane Michael. Rostan is currently providing our services to 12 clients located in the Florida Panhandle, including Liberty County, Calhoun County, and the cities of Bristol, Chattahoochee, and Quincy.

MULTIPLE FLORIDA JURISDICTIONS || FEMA DR-4337 || 2017–2018

Project Cost: $4,783,900.00

DEBRIS MONITORING AND PUBLIC ASSISTANCE SUPPORT SERVICES

Mr. Rosania served as the Client Liaison for all debris monitoring projects in the State of Florida following Hurricane Irma. In total Rostan provided debris removal monitoring services to more than 20 clients throughout the state.

CHARLESTON COUNTY, SC || FEMA DR-4241 || 2015 – ONGOING

PUBLIC ASSISTANCE, GRANTS FUNDING, DEBRIS MONITORING AND MANAGEMENT

Client Liaison responsible for Rostan providing professional disaster recovery services to Charleston County SC as a result of severe storms and flooding from October 1-23, 2015 (FEMA DR-4241). Services include debris monitoring and management, FEMA Public Assistance program and other funding program assistance related to County owned and/or maintained public infrastructure, procurement assistance and construction/post construction support.

Mr. Mays joined the Rostan team in 2008 following a brief stint in the insurance industry after graduating from the University of Houston in 2006. He serves as a Principal and Rostan's Vice President of Debris Programs. Mr. Mays prefers a hands-on approach to projects and is regularly involved in the day-to-day activities of Rostan projects large and small. During his 18 years with Rostan, he has served in every operational debris monitoring role and utilizes this experience, and knowledge gained working on behalf of more than 100 clients, to shape his team's continued development.

Mr. Mays is integrally involved in the day-to-day management of Rostan's debris monitoring services line. Responsibilities include mobilization and logistics, resource management, procurement and contracting, budgeting, invoicing and accounts receivable, technical program and policy support, HaulPass® development and integration, and client development and management.

RECENT PROFESSIONAL EXPERIENCE

Mr. Jones is a Certified Emergency Manager with a tenured background in emergency management, public assistance, hazard mitigation, and other federal cost recovery programs. He specializes in maximizing funding sources for clients and applying the federal regulations and/or policies to projects. Mr. Jones also specializes in FEMA Appeals, Code of Federal Regulation analysis, and interfaces with FEMA/HUD and State Agencies on behalf of clients to ensure program success for project funding. Mr. Jones' extensive disaster recovery background yields tremendous programmatic knowledge of the 404 and 406 mitigation programs with nearly two decades of hands-on experience in managing HMGP/HMA, Public Assistance Programs, and other major federal disaster declarations on behalf of clients.

PROJECT AND PROGRAMS EXPERIENCE

PROGRAM MANAGEMENT || 2014–PRESENT

FEMA PUBLIC ASSISTANCE PROGRAMS

Served as the Program Executive for Public Assistance Programs on behalf of clients that are impacted by a disaster totaling over $5B in program management since 2014. Responsible for the operation and management of the program and representing client interests from the initial damage assessment phase, through the project scoping meeting, to costing and reimbursements until closeout and if applicable, appeals and/or arbitration across numerous sectors of Applicants and Sub-Applicants. Client Sectors include State Agency, Local County/Parish Government, Municipal Governments, Water Districts, Utilities, Houses of Worship, Private Non-Profits, Hospital Systems, School Systems, Housing Authorities, Drainage Districts and Airports.

FEMA HAZARD MITIGATION PROGRAMS

Served as the Program Executive for Hazard Mitigation Programs on behalf of clients that are allocated or seek to apply for Hazard Mitigation funding through the 404 HMGP Program or through the Non-Disaster Grant Programs. Mr. Jones has managed and overseen over $500MM in project awards spanning his career in residential mitigation projects for Acquisitions, Elevations, Mitigation Reconstructions, Safe Rooms, Drainage/Infrastructure Projects, Wind Retrofits, Green Infrastructure Design and Generator Initiative projects.

HUD/CDBG PROGRAMS

Served as the Program Executive for HUD and CDBG-DR programs on behalf of clients that are impacted and receive federal funding totaling over $100MM in program management since 2014. Mr. Jones is responsible for managing the overall project and representing client interests from the initial application development phase to the project award. He also oversees the project implementation and coordinates with project stakeholders on behalf of clients to fast track program implementation.

MULTIPLE MUNICIPALITES, FLORIDA || HURRICANE IAN FEMA DR-4673 || 2022-2023

Project Cost: $5,715,000.00

DEBRIS MANAGEMENT AND PUBLIC ASSISTANCE SUPPORT SERVICES

As Director of Debris Operations, Mr. Cousins provided support and technical assistance to the Project Managers, serving 6 municipalities in Florida. He was directly responsible for ensuring that our debris monitoring teams provided the highest level of client service. Mr. Cousins was involved in all day-to-day operations. Rostan has deployed more than 400 employees and tracked over 40,000 truckloads totaling more than 2.9 million cubic yards of storm debris. This includes removing more than 30,000 hazardous trees and limbs. Our debris monitoring clients included:

City of North Port	City of Pinellas Park	City of Sarasota	City of St. Pete Beach	Town of Windemere	Village of Estero

BRAZORIA COUNTY, TX || HURRICANE NICHOLAS || 2021

Project Cost: $100,000.00

DEBRIS MONITORING AND MANAGEMENT

As Director of Debris Operations, Mr. Cousins Provided project quality control and technical support during Rostan's activation following Hurricane Nicholas in Brazoria County, TX. Rostan monitored the removal and disposal of nearly 60,000 CY. Nearly 900 loads of debris were received at the disposal site by County contractors. Additionally, Rostan documented receipt of debris at the DMS from several other municipalities within the County.

MULTIPLE MUNICIPALITIES, LOUISIANA || FEMA DR-4611 || 2021-2022

Project Cost: $715,000.00

DEBRIS MONITORING, GRANT MANAGEMENT, AND PUBLIC ASSISTANCE SUPPORT SERVICES

Following Hurricane Ida, Rostan was activated by several on-call clients in eastern Louisiana to support debris removal operations and implement private property debris removal (PPDR) programs. Mr. Cousins provided oversight, quality control, and technical support. Clients include:

New Orleans City Park City of Gretna	City of Slidell Town of Pearl River	Plaquemines Parish Town of Lutcher	St. James Parish Town of Gramercy

CAMERON PARISH, LA || FEMA DR-4559 || 2020-2023

Project Cost: $3,300,000.00

DEBRIS MANAGEMENT AND PUBLIC ASSISTANCE SUPPORT SERVICES

Director of Debris Operations provided support and technical assistance to the Project Manager in Cameron Parish following Hurricane Laura. Hurricane Laura was the 10th strongest hurricane on record. Mr. Cousins is involved in all day-to-day operations and represents Rostan in Parish meetings. Rostan has deployed more than 100 employees and tracked more than 22,000 truckloads totaling more than 1.3 million cubic yards of storm debris. This includes removing more than 1,700 hazardous trees and limbs, 3,200 white goods, and more than 1,300 electronic waste units.

CHARLESTON COUNTY, SC || FEMA DR-4464 || 2019-2020

Project Cost: $1,500,000.00

DEBRIS MANAGEMENT AND PUBLIC ASSISTANCE SUPPORT SERVICES

Mr. Cousins served as Project Manager and was responsible for overseeing all aspects of Rostan's services for Charleston County. This included hiring, training, and deploying a local team of debris removal monitors, providing daily client updates, contractor coordination, certification of hauler equipment, and deployment of the HaulPass® Automated Debris Management System. Over 100 local monitors were hired and trained, more than 655,000 cubic yards of debris was collected and processed, and more than 5,200 hazardous trees and limbs were removed.

LIBERTY COUNTY, FL || FEMA DR-4399 || 2018-2019

Project Cost: $2,000,000.00

DEBRIS MANAGEMENT AND PUBLIC ASSISTANCE SUPPORT SERVICES

Mr. Cousins served as Rostan's Project Manager for our work in Liberty County following Hurricane Michael in October 2018. He was responsible for debris removal monitoring, client coordination, DMS monitoring, hauler invoice reconciliation, and the hiring, training, and deployment of more than 100 local staff. In addition, he was responsible for the successful deployment of the HaulPass® Automated Debris Management System. Over 522,000 cubic yards of storm-generated debris were removed and processed, and more than 34,000 hazardous trees were removed and disposed of.

Supervision of Field Operations

Allen Fowler is responsible for overseeing field operational activities for field monitors, supervisors, and contractors. This includes hiring and training employees and managing quality assurance. Additionally, Allen is adept at strategizing process improvements to ensure tasks are completed in a timely and compliant manner.

PROFESSIONAL EXPERIENCE

PROJECT MANAGER

Mr. Fowler led the implementation of programs directed by the client through specific purchase orders. Responsibilities include overseeing program activities, preparing task orders, managing forecasts, and ensuring quality assurance to meet project goals and standards. In addition, he coordinated cross-functional teams, tracked project milestones, and provided regular updates to key stakeholders to ensure seamless execution and alignment with the client's objectives.

- Polk County, FL -Hurricane Milton, 2024–2025
- Leon County, FL -Hurricane Helene, 2024–2025
- Town of Katy, TX - Hurricane Beryl, 2024–2025

OPERATIONS MANAGER

Mr. Fowler assisted with project initiation, the identification of local debris management sites, and the hiring and training of locally hired debris monitors. As an operations manager, he was responsible for managing debris monitoring resources, overseeing field staff, and interacting with clients and partners to efficiently recover disaster debris. This includes scheduling debris monitoring resources, providing field staff with appropriate training, submitting dispatches to account for staff and their hours worked, and documenting recovery efforts.

- Leon County, FL -Hurricane Idalia, September - November 2023
- Sharkey County, MS - Tornadoes, May- July 2023
- City of Rolling Fork, MS -Tornadoes, May-September 2023
- City of Central, LA - Hurricane Ida, September - November 2021
- City of Lake Charles, LA - Severe Storms and Floods, June - October 2021
- Rapides Parish, LA-Hurricane Ida, October 2020-August 2021
- Okaloosa County, FL -Hurricane Sally, September -November 2020
- City of Sulphur, LA-Hurricane Laura, August 2020 -June 2021
- City of Parker, FL -Hurricane Michael, October 2018 -May 2019
- City of Callaway, FL -Hurricane Michael, October 2018 -December 2019
- City of Springfield, FL -Hurricane Michael, October 2018 -July 2019

DEPUTY PROJECT MANAGER

Allen assisted the Project Manager in overseeing field operations, scheduling, health and safety, inventory control, equipment distribution, field staff management, and quality assurance and quality control.

- Polk County, FL -Hurricane Ian, October 2022 -February 2023

Mr. Bryant joined the Rostan team in 2006 following Hurricane Katrina and currently serves as a senior project manager having responded to more than 20 disaster recovery events in his 19 years with Rostan. He is a seasoned expert in debris monitoring and disaster recovery and is often responsible for managing some of Rostan's most complex deployments including waterborne and private property debris removal projects. He is a key member of Rostan's deployment team and has extensive experience in all aspects of debris monitoring, HaulPass® ADMS system implementation and data tracking, and FEMA reimbursement support.

RECENT PROFESSIONAL EXPERIENCE

LANIER COUNTY, GA || FEMA DR-4830 || 2024

DEBRIS MANAGEMENT AND PUBLIC ASSISTANCE SUPPORT SERVICES

Project Cost: $1,576,000.00

After Hurricane Helene devastated Georgia in September 2024, Rostan was contracted to monitor debris removal across Lanier County. Mr Bryant served as project manager, in charge of monitoring the removal of over 28,000 truckloads of debris from the right-of-way totaling more than 1.7 million cubic yards. Additionally, Mr. Bryant trained and led teams to monitor the removal of over 9,000 hanging limbs and 6,300 hazardous trees throughout the County.

IRWIN COUNTY, GA || FEMA DR-4830 || 2024

DEBRIS MANAGEMENT AND PUBLIC ASSISTANCE SUPPORT SERVICES

Project Cost: $782,000.00

Pursuant to Hurricane Helene, Rostan was contracted to monitor debris removal across Irwin County. Mr Bryant served as project manager, in charge of monitoring the removal of over 6,000 truckloads of debris from the right-of-way totaling more than 270,000 cubic yards. Additionally, Mr. Bryant trained and led teams to monitor the removal of over 7,700 hanging limbs and 200 hazardous trees throughout the County.

ASSUMPTION PARISH, LA || FEMA DR-4817 || 2024

DEBRIS MANAGEMENT AND PUBLIC ASSISTANCE SUPPORT SERVICES

Project Cost: $100,000.00

In September of 2024, Hurricane Francine damaged areas of southern Louisiana. Mr Bryant served as project manager overseeing debris monitoring services.

SUWANNEE VALLEY ELECTRICAL COOP, LIVE OAK, FL FEMA DR-4734 || 2023

AUTOMATED DEBRIS MANAGEMENT SYSTEM

Project Cost: $1,200,000.00

In August of 2023, Hurricane Idalia intensified to a category 4 hurricane and caused extensive damage in northern Florida. Rostan was contracted to provide ADMS services on behalf of Tidal Basin in their effort to monitor debris removal across 4 counties, spanning 4,100 miles of electrical lines. Mr. Bryant served as project manager, overseeing all aspects of Rostan's services,

including, to date, the tracking of over 667,000 cubic yards of debris, and over 66,000 hazardous trees, utilizing over 330 certified hauling and bucket trucks. Mr. Bryant was also in charge of training over 300 debris monitors.

CAMERON PARISH, LA || FEMA DR-4559 || 2020-2021

Project Cost: $3,300,000.00

DEBRIS MANAGEMENT AND PUBLIC ASSISTANCE SUPPORT SERVICES

Project manager in charge of overseeing all debris monitoring services throughout Cameron Parish following the peak Category 4 landfall of Hurricane Laura. The Parish was impacted again mid-project by Hurricane Delta, further complicating an already large-scale cleanup effort. With Parish-wide power outages for months and limited cellular communications, Mr. Bryant led a team of over 100 employees monitoring and tracking over 30,000 truckloads totaling more than 1.4 million cubic yards of storm debris. This included the removal of over 1,900 hazardous trees and tree limbs, over 4,100 white goods, over 3,000 units of electronic waste, over 46,000 pounds of household hazardous waste, and over 300 small engines including derelict vehicles and vessels.

WEST FELICIANA PARISH, LA || FEMA DR-4462 || 2019-2020

Project Cost: $1,500,000.00

DEBRIS MANAGEMENT AND PUBLIC ASSISTANCE SUPPORT SERVICES

Project manager in charge of overseeing the removal of debris following a flooding event that substantially impacted areas of the Parish in 2019. Mr. Bryant was instrumental in helping to oversee the monitoring and tracking of over 6,300 truckloads totaling over 123,000 cubic yards of storm debris removed from the Right-of-Way (ROW).

CHARLESTON COUNTY, SC || FEMA DR-4464 || 2019-2020

Project Cost: $600,000.00

DEBRIS MANAGEMENT AND PUBLIC ASSISTANCE SUPPORT SERVICES

Operations Manager assisting in overseeing debris cleanup throughout Charleston County following Hurricane Dorian. Mr. Bryant was responsible for overseeing the monitoring and tracking of over 11,750 truckloads totaling over 615,000 cubic yards of storm debris, as well as the removal of over 5,200 hazardous trees and limbs removed from the Right-of-Way (ROW).

PUERTO RICO DEPARTMENT OF PUBLIC TRANSPORTATION & PUBLIC WORKS (DTOP) || FEMA DR-4339 || 2018-2019

Project Cost: $680,000.00

DEBRIS MANAGEMENT AND PUBLIC ASSISTANCE SUPPORT SERVICES

Project manager in charge of overseeing debris cleanup throughout Puerto Rico on behalf of Puerto Rico's DTOP following Hurricane Maria. Mr. Bryant was responsible for overseeing the monitoring and tracking of over 13,300 truckloads totaling over 216,000 cubic meters of storm debris removed from the Right-of-Way (ROW). He served as the lead debris removal consultant, and was responsible for staff training and management, contractor invoice management, and data management and reporting.

NEW JERSEY DEPARTMENT OF ENVIRONMENTAL PROTECTION FEMA DR-4086 || 2012-2014

Project Cost: $4,996,700.00

DEBRIS MANAGEMENT AND PUBLIC ASSISTANCE SUPPORT SERVICES

Operations manager in charge of overseeing debris cleanup in 17 municipalities throughout the state of New Jersey following Hurricane Sandy. Mr. Bryant served as the lead operations manager throughout New Jersey, responsible for managing multiple projects concurrently. He supported all field operations throughout the state, typically taking on a direct project management role on most of the larger projects. He was responsible for overseeing the monitoring and tracking of over 33 thousand truckloads of Hurricane Sandy debris totaling 1.3 million cubic yards, and additionally over 2,400 truckloads totaling over 55 thousand tons of debris that was tracked by weight.

Additionally, Mr. Bryant served as operations manager overseeing the debris cleanup of all state waterways in the central region of New Jersey. Mr. Bryant was directly responsible for training and managing a staff of over 30 people spread across a large geographic region. He oversaw all monitoring efforts for the removal of over 80,000 cubic yards of water generated debris, including submerged vehicles and vessels tracked in coordination with the state police. Mr. Bryant was also in charge of overseeing the monitoring of all dredging operations throughout the central region of New Jersey. He also was responsible for all contractor invoice reconciliation. His team successfully monitored and tracked the removal and disposal of over 450,000 cubic yards of dredged material.

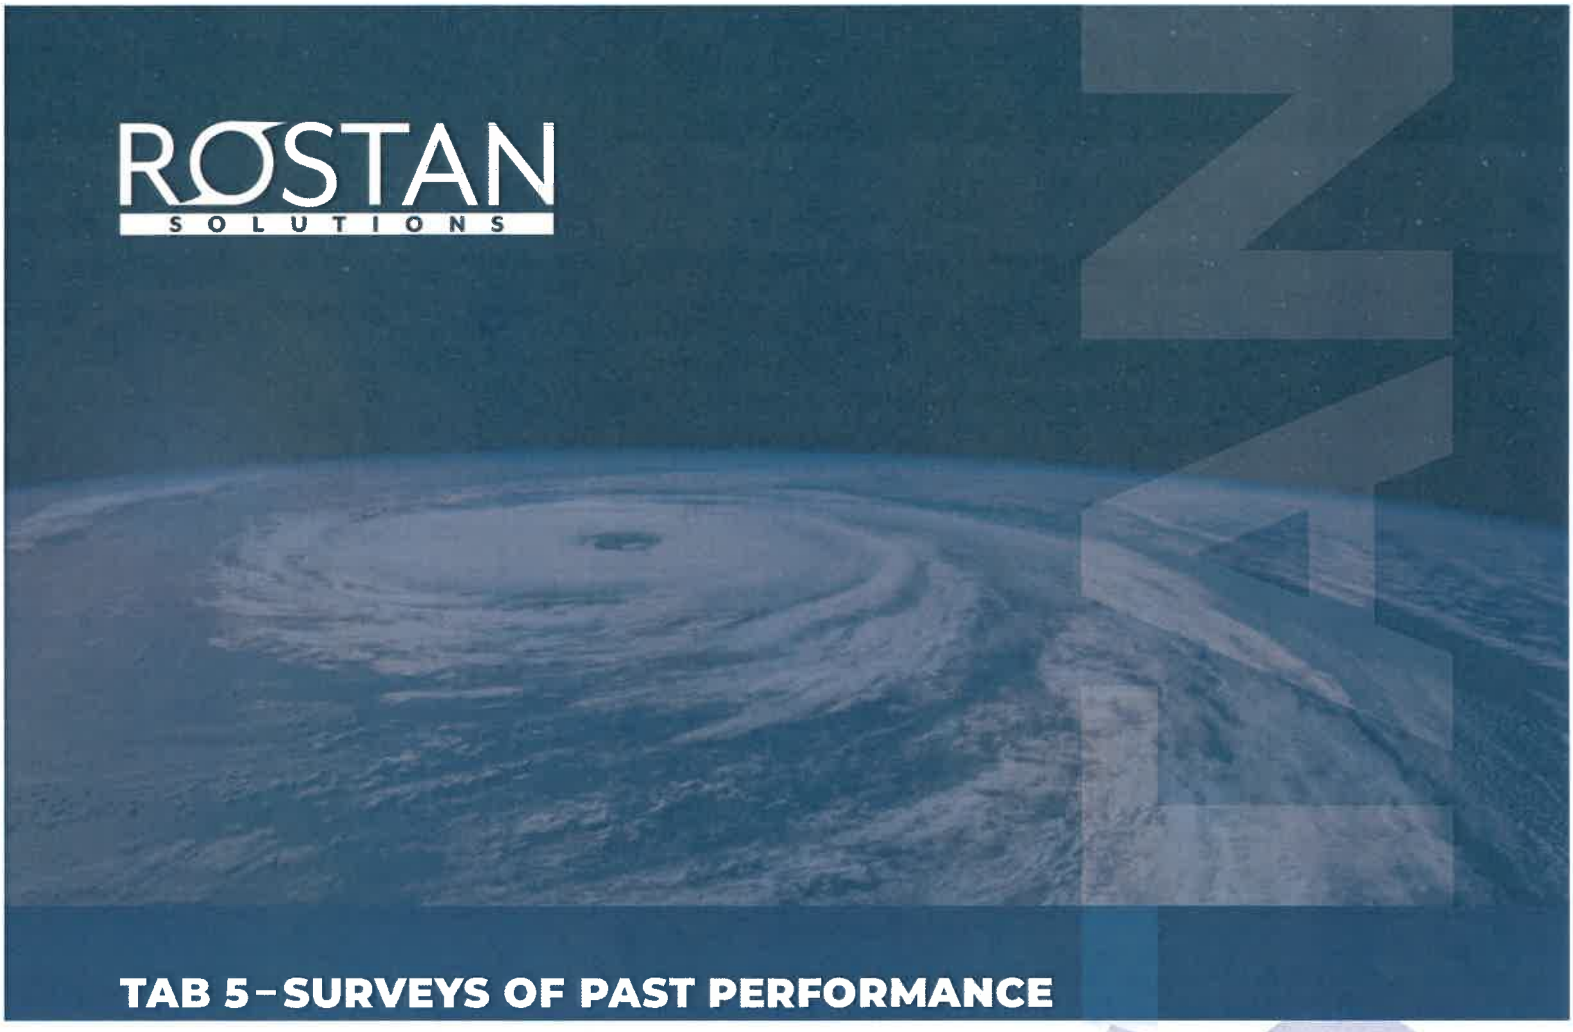
GRAND TOTAL	$ 635.00

In accordance with 2 CFR 200 Subpart E, Hourly labor rates shall be direct labor hours charged at fixed hourly rates that reflect wages, general and administrative expenses, travel (mileage, lodging, per diem, etc.), and profit.



Reimbursable costs are allowed if pre-approved by the County. These costs are limited to office equipment/supplies, office space, cameras, GPS equipment, safety equipment and any other items requested by the County that is not part of the normal work function.

Subcontractor services will be reimbursed at actual costs.

***For items not listed, the County will only pay FEMA approved rates**

**Hourly rates cannot exceed FEMA approved rates

To the best of Rostan's knowledge and experience with Federal and State reimbursement procedures and requirements, that all proposed costs and payment methods are reasonable and customary for the service listed.

The Successful vendor must complete and submit this form prior to award. The Successful vendor must invoice using the company name listed above.

Form **W-9**
(Rev. March 2024)
Department of the Treasury
Internal Revenue Service

Request for Taxpayer Identification Number and Certification

Go to *www.irs.gov/FormW9* for instructions and the latest information.

Give form to the requester. Do not send to the IRS.

Before you begin. For guidance related to the purpose of Form W-9, see *Purpose of Form*, below.

Print or type. See *Specific Instructions* on page 3.

1 Name of entity/individual. An entry is required. (For a sole proprietor or disregarded entity, enter the owner's name on line 1, and enter the business/disregarded entity's name on line 2.)

Rostan Solutions, LLC

2 Business name/disregarded entity name, if different from above.

3a Check the appropriate box for federal tax classification of the entity/individual whose name is entered on line 1. Check only **one** of the following seven boxes.

☐ Individual/sole proprietor ☐ C corporation ☐ S corporation ☐ Partnership ☐ Trust/estate

☒ LLC. Enter the tax classification (C = C corporation, S = S corporation, P = Partnership) . . . . S

Note: Check the "LLC" box above and, in the entry space, enter the appropriate code (C, S, or P) for the tax classification of the LLC, unless it is a disregarded entity. A disregarded entity should instead check the appropriate box for the tax classification of its owner.

☐ Other (see instructions)

4 Exemptions (codes apply only to certain entities, not individuals; see instructions on page 3):

Exempt payee code (if any)

Exemption from Foreign Account Tax Compliance Act (FATCA) reporting code (if any)

(Applies to accounts maintained outside the United States.)

3b If on line 3a you checked "Partnership" or "Trust/estate," or checked "LLC" and entered "P" as its tax classification, and you are providing this form to a partnership, trust, or estate in which you have an ownership interest, check this box if you have any foreign partners, owners, or beneficiaries. See instructions . . . . . ☐

5 Address (number, street, and apt. or suite no.). See instructions.

9897 Lake Worth Road, Suite 303

Requester's name and address (optional)

6 City, state, and ZIP code

Lake Worth, FL 33467

7 List account number(s) here (optional)

Part I Taxpayer Identification Number (TIN)

Enter your TIN in the appropriate box. The TIN provided must match the name given on line 1 to avoid backup withholding. For individuals, this is generally your social security number (SSN). However, for a resident alien, sole proprietor, or disregarded entity, see the instructions for Part I, later. For other entities, it is your employer identification number (EIN). If you do not have a number, see *How to get a TIN*, later.

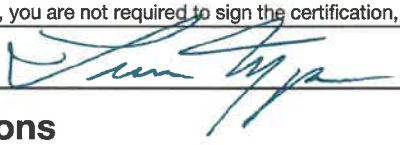
Note: If the account is in more than one name, see the instructions for line 1. See also *What Name and Number To Give the Requester* for guidelines on whose number to enter.

Social security number

			–			–				

or

Employer identification number



2	0	–	5	4	2	5	0	5	3

Part II Certification

Under penalties of perjury, I certify that:

1. The number shown on this form is my correct taxpayer identification number (or I am waiting for a number to be issued to me); and
2. I am not subject to backup withholding because (a) I am exempt from backup withholding, or (b) I have not been notified by the Internal Revenue Service (IRS) that I am subject to backup withholding as a result of a failure to report all interest or dividends, or (c) the IRS has notified me that I am no longer subject to backup withholding; and
3. I am a U.S. citizen or other U.S. person (defined below); and
4. The FATCA code(s) entered on this form (if any) indicating that I am exempt from FATCA reporting is correct.

Certification instructions. You must cross out item 2 above if you have been notified by the IRS that you are currently subject to backup withholding because you have failed to report all interest and dividends on your tax return. For real estate transactions, item 2 does not apply. For mortgage interest paid, acquisition or abandonment of secured property, cancellation of debt, contributions to an individual retirement arrangement (IRA), and, generally, payments other than interest and dividends, you are not required to sign the certification, but you must provide your correct TIN. See the instructions for Part II, later.

Sign Here **Signature of U.S. person**  **Date** 2/16/2026

General Instructions

Section references are to the Internal Revenue Code unless otherwise noted.

Future developments. For the latest information about developments related to Form W-9 and its instructions, such as legislation enacted after they were published, go to *www.irs.gov/FormW9*.

What's New

Line 3a has been modified to clarify how a disregarded entity completes this line. An LLC that is a disregarded entity should check the appropriate box for the tax classification of its owner. Otherwise, it should check the "LLC" box and enter its appropriate tax classification.

New line 3b has been added to this form. A flow-through entity is required to complete this line to indicate that it has direct or indirect foreign partners, owners, or beneficiaries when it provides the Form W-9 to another flow-through entity in which it has an ownership interest. This change is intended to provide a flow-through entity with information regarding the status of its indirect foreign partners, owners, or beneficiaries, so that it can satisfy any applicable reporting requirements. For example, a partnership that has any indirect foreign partners may be required to complete Schedules K-2 and K-3. See the Partnership Instructions for Schedules K-2 and K-3 (Form 1065).

Purpose of Form

An individual or entity (Form W-9 requester) who is required to file an information return with the IRS is giving you this form because they

2019

Drug-Free Workplace Form

(Submittal Page)

The undersigned vendor in accordance with Florida Statue 287.087 hereby certifies that, (Name of the Business): Rostan Solutions, LLC does:

1. Publish a statement notifying employees that the unlawful manufacture, distribution, dispensing, possession or use of a controlled substance is prohibited in the workplace and specifying the actions that will be taken against employees for violations of such prohibition.
2. Inform employees about the dangers of drug abuse in the workplace, the business's policy of maintaining a drug-free workplace, any available drug counseling, rehabilitation programs, employee assistance programs and the penalties that may be imposed upon employees for drug abuse violations.
3. Give each employee engaged in providing the commodities or contractual services that are under this RFP a copy of the statement specified in subsection (1).
4. In the statement specified in subsection (1), notify the employees that, as a condition of working on the commodities or contractual services that are under this RFP, the employee will abide by the terms of the statement and will notify the employer of any conviction of, plea of guilty or nolo contendere to, any violation of Chapter 1893 or of any controlled substance law of the United States or any state, for a violation occurring in the workplace no later than five (5) days after such conviction.
5. Impose a sanction on or require the satisfactory participation in a drug abuse assistance or rehabilitation program, if such is available in the employee's community, by any employee who is so convicted.
6. Make a good faith effort to continue to maintain a drug-free workplace through implementation of this section.

As the person authorized to sign the statement, I certify that this firm complies fully with the above requirements.

EMPLOYMENT ELIGIBILITY VERIFICATION (E-VERIFY) CERTIFICATION
(Florida Statutes, Section 448.095)

PROJECT NAME: RFP No. 26-012: Disaster Debris Monitoring Services

The undersigned, as an authorized officer of the contractor identified below (the "**Contractor**"), having full knowledge of the statements contained herein, hereby certifies to Polk County, a political subdivision of the State of Florida (the "**County**"), by and on behalf of the Contractor in accordance with the requirements of Section 448.095, Florida Statutes, as related to the contract entered into by and between the Contractor and the County on or about the date hereof, whereby the Contractor will provide labor, supplies, or services to the County in exchange for salary, wages, or other remuneration (the "**Contract**"), as follows:

1. Unless otherwise defined herein, terms used in this Certification which are defined in Section 448.095, Florida Statutes, as may be amended from time to time, shall have the meaning ascribed in said statute.

2. Pursuant to Section 448.095(5), Florida Statutes, the Contractor, and any subcontractor under the Contract, must register with and use the E-Verify system to verify the work authorization status of all new employees of the Contractor or subcontractor. The Contractor acknowledges and agrees that (i) the County and the Contractor may not enter into the Contract, and the Contractor may not enter into any subcontracts thereunder, unless each party to the Contract, and each party to any subcontracts thereunder, registers with and uses the E-Verify system; and (ii) use of the U.S. Department of Homeland Security's E-Verify System and compliance with all other terms of this Certification and Section 448.095, Fla. Stat., is an express condition of the Contract, and the County may treat a failure to comply as a material breach of the Contract.

3. By entering into the Contract, the Contractor becomes obligated to comply with the provisions of Section 448.095, Fla. Stat., "Employment Eligibility," as amended from time to time. This includes but is not limited to utilization of the E-Verify System to verify the work authorization status of all newly hired employees, and requiring all subcontractors to provide an affidavit attesting that the subcontractor does not employ, contract with, or subcontract with, an unauthorized alien. The Contractor shall maintain a copy of such affidavit for the duration of the Contract. Failure to comply will lead to termination of the Contract, or if a subcontractor knowingly violates the statute or Section 448.09(1), Fla. Stat., the subcontract must be terminated immediately. If the Contract is terminated pursuant to Section 448.095, Fla. Stat., such termination is not a breach of contract and may not be considered as such. Any challenge to termination under this provision must be filed in the Tenth Judicial Circuit Court of Florida no later than 20 calendar days after the date of termination. If the Contract is terminated for a violation of Section 448.095, Fla. Stat., by the Contractor, the Contractor may not be awarded a public contract for a period of 1 year after the date of termination. The Contractor shall be liable for any additional costs incurred by the County as a result of the termination of the Contract. Nothing in this Certification shall be construed to allow intentional discrimination of any class protected by law.

Executed this 16th day of February, 2026.

EXHIBIT "A"

CERTIFICATIONS REGARDING DEBARMENT, SUSPENSION, PROPOSED DEBARMENT, AND OTHER RESPONSIBILITY MATTERS

For all awards, subawards, and contracts with certain parties that are debarred, suspended, or otherwise excluded from or ineligible for participation in Federal assistance programs and activities, the Offeror must complete and sign the following:

The Offeror certifies, to the best of its knowledge and belief, that-

(1) This contract is a covered transaction for purposes of 2 C.F.R. pt. 180 and 2 C.F.R. pt. 3000. As such the contractor is required to verify that none of the contractor, its principals (defined at 2 C.F.R. § 180.995), or its affiliates (defined at 2 C.F.R. § 180.905) are excluded (defined at 2 C.F.R. § 180.940) or disqualified (defined at 2 C.F.R. § 180.935).

(2) The contractor must comply with 2 C.F.R. pt. 180, subpart C and 2 C.F.R. pt. 3000, subpart C and must include a requirement to comply with these regulations in any lower tier covered transaction it enters into.

(3) This certification is a material representation of fact relied upon by Polk County, a political subdivision of the State of Florida (the "County"). If it is later determined that the contractor did not comply with 2 C.F.R. pt. 180, subpart C and 2 C.F.R. pt. 3000, subpart C, in addition to remedies available to the Florida Division Emergency Management, the County, and the Federal Government may pursue available remedies, including but not limited to suspension and/or debarment.

(4) The bidder or proposer agrees to comply with the requirements of 2 C.F.R. pt. 180, subpart C and 2 C.F.R. pt. 3000, subpart C while this offer is valid and throughout the period of any contract that may arise from this offer. The bidder or proposer further agrees to include a provision requiring such compliance in its lower tier covered transactions.

EXHIBIT "B"

APPENDIX A, 44 C.F.R. PART 18 – CERTIFICATION REGARDING LOBBYING

Certification for Contracts, Grants, Loans, and Cooperative Agreements

(To be submitted with each bid or offer exceeding $100,000)

The undersigned Rostan Solutions, LLC (Contractor) certifies, to the best of his or her knowledge, that:

1. No Federal appropriated funds have been paid or will be paid, by or on behalf of the undersigned, to any person for influencing or attempting to influence an officer or employee of an agency, a Member of Congress, an officer or employee of Congress, or an employee of a Member of Congress in connection with the awarding of any Federal contract, the making of any Federal grant, the making of any Federal loan, the entering into of any cooperative agreement, and the extension, continuation, renewal, amendment, or modification of any Federal contract, grant, loan, or cooperative agreement.

2. If any funds other than Federal appropriated funds have been paid or will be paid to any person for influencing or attempting to influence an officer or employee of any agency, a Member of Congress, an officer or employee of Congress, or an employee of a Member of Congress in connection with this Federal contract, grant, loan, or cooperative agreement, the undersigned shall complete and submit Standard Form- LLL, "Disclosure Form to Report Lobbying," in accordance with its instructions.

3. The undersigned shall require that the language of this certification be included in the award documents for all subawards at all tiers (including subcontracts, subgrants, and contracts under grants, loans, and cooperative agreements) and that all subrecipients shall certify and disclose accordingly.

This certification is a material representation of fact upon which reliance was placed when this transaction was made or entered into. Submission of this certification is a prerequisite for making or entering into this transaction imposed by 31, U.S.C. § 1352 (as amended by the Lobbying Disclosure Act of 1995). Any person who fails to file the required certification shall be subject to a civil penalty of not less than $10,000 and not more than $100,000 for each such failure.

The Contractor, Rostan Solutions, LLC, certifies or affirms the truthfulness and accuracy of each statement of its certification and disclosure, if any. In addition, the Contractor understands and agrees that the provisions of 31 U.S.C. § 3801 *et seq.*, apply to this certification and disclosure, if any.

RFP 26-012, Disaster Debris Monitoring Services
Addendum # 4

Question 1: If this is a term contract subject to renewal, what is the maximum number of option periods?
Answer 1: The term is 5 years from the effective date of the agreement.

Question 2: Has the current contract gone full term?
Answer 2: The current agreements were set to expire on February 15, 2026, but have been extended and will remain in place until the new agreements are in effect.

Question 3: Have all options to extend the current contract been exercised?
Answer 3: Yes.

Question 4: Who is the incumbent, and how long has the incumbent been providing the requested services?
Answer 4: The current incumbents are Tetra Tech, Inc. as the primary and Thompson Consulting Services, LLC as the secondary. These agreements have been in place since February 16, 2021.

Question 5: What is the maximum number of hours post-event before work must commence?
Answer 5: Staff is communicating 24 to 48 hours before impact. Successful vendors are expected to mobilize as soon as the storm has passed, and the weather conditions are safe to drive in.

Question 6: Are any specific professional credentials required to qualify for the contract?
Answer 6: The vendor must demonstrate significant professional expertise in hurricane response, mitigation, and recovery services including proven experience working in post – storm environments.

Question 7: Will the resulting contract include a guaranteed minimum payment to the vendor?
Answer 7: Yes.

Question 8: Are there any superseding prior agreements that may impact this contract?
Answer 8: No.

Question 9: When/what was the most recent event that precipitated the activation of the existing or previous contract?
Answer 9: Hurricane Milton 2024

Question 10:	Approximately how many cubic yards of debris were collected from the most recent event?
Answer 10:	1 million (Vegetative & C&D)
Question 11:	What estimated or actual dollars were paid to the incumbent(s) after the most recent event?
Answer 11:	Estimated 5.5 Million
Question 12:	How many times have the incumbent's services been utilized in the previous five years?
Answer 12:	The incumbent's services were utilized twice for two different hurricanes and yearly for truck / equipment certification.
Question 13:	If there was a previous solicitation for these services, what was its title, number, release date, and due date?
Answer 13:	RFP 20-299, Disaster Debris Monitoring Services, Released September 3, 2020, and opened October 14, 2020.
Question 14:	When is the anticipated contract start date?
Answer 14:	The agreement is anticipated to be executed in April or May 2026.
Question 15:	Can you please provide greater explanation of your expectations related to any required subcontracting to minority-owned, women-owned, or other types or categories of small or disadvantaged businesses? For example, what is required with the proposal, and what is required to comply during the term of the contract?
Answer 15:	No expectations are applicable with FEMA Funds.
Question 16:	Are bidders permitted to deviate in any way from any manner of quoting fees you may be expecting? For example, if there is a pricing page in the RFP, can bidders submit an alternate fee structure? If there is no pricing page in the RFP, do you have any preference for how bidders should quote fees or can bidders create their own pricing categories?
Answer 16:	No, Proposers must use the pricing sheet provided in the RFP. Negotiations on alternate pricing may be made at Level 4 of the Elevation.
Question 17:	Please describe your level of satisfaction with your current or recent vendor(s) for the same purchasing activity, if applicable?
Answer 17:	Polk County was satisfied with the current vendor.

Question 18:	Is their a preferred Proposal delivery method, electronic or sealed parcel?
Answer 18:	Electronic
Question 19:	Can the County confirm forms to be returned are: RFP Registration Proposers Incorporation Information Drug Free Workplace Performance Survey Questionnaires Affidavit Certification Immigration Laws Employment Eligibility Verification (E-Verify) Certification Exhibit A: Certification Regarding Debarment, Suspension, Proposed Debarment, and Other Responsibility Matters Exhibit B: Appendix A, 44 C.F.R. Part 18 – Certification Regarding Lobbying Attachment A (Cooperative agreement for Polk County public agencies) Attachment B: Compensation Schedule
Answer 19:	Yes, all documents listed above, as well as any information requested in each tab, and signature acknowledgement of all addenda issued.
Question 20:	Could the County please confirm where the completed Questionnaire (Exhibit 1) for Tab 5 – Surveys of Past Performance should be sent for RFP 26-012? Should past clients email the completed surveys directly to Polk County, and if so, to which email address? Or should they return them to the vendor for inclusion in our proposal package?
Answer 20:	Please see RFP Package, Preparing the Surveys, page 40. The firm is responsible for ensuring all references/surveys are included in their submittal, and do not have references email Polk County Procurement directly.
Question 21:	Could the County please confirm whether vendors are permitted to include an appendix with additional or supporting information? Specifically, we would like to know if an appendix may be used to provide supplemental details that further explain the firm's experience and qualifications, without conflicting with the page limitations outlined in the Submittal Requirements?
Answer 21:	Please submit only the materials requested in the RFP package. Firms selected for interviews will have the opportunity to provide additional details regarding their experience, qualifications, and related information.

Question 22:	Would the County consider extending the page limit for these sections, as doing so would allow vendors to provide information that may better support the County's evaluation and understanding of each firm's capabilities?
Answer 22:	Not at this time
Question 23:	The RFP uses the phrase 'one page, single or double sided' throughout the proposal that specifies page limits. Could the County please clarify whether this means one physical sheet of paper (allowing content on both sides), or if the County intends this to be a strict one-page limit regardless of printing orientation?
Answer 23:	One page, single- or double-sided, means a single physical sheet.
Question 24:	On Page 11 - Tab 2 and Tab 3 request the same information about Organization Staff Chart & Staff Experience, but on (page 15 RFP) under Evaluation Level 2 under bullet point APPROACH and METHODOLOGY suggests TAB 3 is required for this and measured for 40 points?
Answer 24:	See Revision 1 below.
Question 25:	Is there a firm currently providing these same services for Polk County? If so, who is the incumbent?
Answer 25:	AshBritt
Question 26:	If there is an incumbent providing these services, are they eligible to respond to the current RFP?
Answer 26:	Yes.
Question 27:	Were the services provided by the incumbent and how would you rate them?
Answer 27:	Yes, incumbent was satisfactory.
Question 28:	How many times has Polk County activated the contract within the last 5 years?
Answer 28:	2
Answer 29:	Can you please advise if a debris monitoring firm is already under contract to perform debris monitoring services for the county? If so, can you please identify the firm?
Answer 29:	Tetra Tech

Question 30: Can you please advise if a performance bond will be required for debris monitoring firms because Attachment D speaks to debris removal, not monitoring. See language below from Attachment D?

Answer 30: Event Performance Bond is required, language will be changed to "Debris Monitoring."

Revision 1

RFP Package, Elevation Level 2, page 15:

Elevation Level 2 (Selection Committee Evaluation)

Procurement shall score each Proposal on the following evaluation criteria:

- Compensation Schedule (Tab 4) - 10 points
- Surveys of Past Performance (Tab 5) - 10 points

Subtotal Points-20 Points

by the process stated under each corresponding Tab description

Each Selection Committee member shall score each Proposal on the following evaluation criteria:

- Experience and Expertise (Tap 2)- 40 points
- **Resources and Availability** (Tab 3)- 40 points

Subtotal Points-80 points

by the following process:

Each Selection Committee member shall determine which of the following descriptions applies to each of the foregoing evaluation criteria:

Question 1: Are proposers permitted to input zero-dollar ($0.00) rates for certain roles on *Attachment B: Compensation Schedule*?

Answer 1: No, Proposers may not list $0.00 rates for required labor categories. All positions identified in Attachment B must include a reasonable fully burdened rate. Please see the FTP Site for "**RFP 26-012, Addendum 6 - Revised Attachment B**", some labor categories have been removed.

Question 2: Should the use of an ADMS electronic ticketing system be incorporated into the pricing structure on *Attachment B: Compensation Schedule*?

Answer 2: Yes, if a proposer intends to utilize an ADMS electronic ticketing system, they should incorporate all costs associated with the use of the system into their pricing and shall be fully burdened into the hourly rates for the applicable debris monitoring positions provided on Attachment B: Compensation Schedule.\

Question 3: The manual process of filling out load tickets can jeopardize proper FEMA reimbursement if human error occurs. Utilizing electronic load tickets, computer tablets, and systems employing electronic contractor IDs with an Automated Debris Management System (ADMS) has become the industry standard and is critical for any successful debris operation. Because of the factors listed, we would like to confirm that any charges for the use of an ADMS are to be fully burdened in the proposed debris monitoring positions hourly rates provided and not as a separate hourly rate or separate position, separate flat rate, or substitutional charge for any listed position?

Answer 3: See answer for Question 2 above.

Revision

RFP Package, Tab 4 – page 13-14

Tab 4, Compensation Schedule (10 Points)

Proposers shall complete the compensation schedule included as Attachment B. For items not listed, the County will only pay the FEMA rates.

The unit pricing may be increased by the Procurement Director, or designee, after the contract has been in place for a minimum of 12 months, when it is in the best interest of the County. Increases will be determined by the appropriate price index as approved by the Procurement Director or Designee; however, the hourly rates cannot exceed the FEMA approved rates. No Board action will be necessary for unit price increases.

The Proposer with the lowest total cost will be allocated 10 points. Each additional Proposers cost point allocation will be calculated based upon their relative cost difference from the lowest Proposers cost.

EXHIBIT B - Rostan Solutions
COMPENSATION SCHEDULE

Hourly Labor Rates for Disaster Debris Monitoring Services

CONTRACTOR will be compensated on the actual hours of services furnished multiplied by the rates listed in Table 1 below.

Table 1: Hourly Labor Rates

Labor Category	Hourly Billing Rate
Principal -In-Charge	$ 70.00
Project Manager	$ 70.00
Deputy Project Manager	$ 70.00
Operations Manager	$ 65.00
Field Supervisor	$ 50.00
GIS Operator	$ 45.00
Disposal Site Monitor	$ 37.00
Collection Monitor	$ 37.00
Citizen Drop-off Site Monitor	$ 37.00
Billing/Invoicing/Data Manager	$ 60.00
Load Ticket Data Entry Clerk	$ 1.00
Project Coordinator	$ 30.00
GRAND TOTAL	$ 572.00

In accordance with 2 CFR 200 Subpart E, Hourly labor rates shall be direct labor hours charged at fixed hourly rates that reflect wages, general and administrative expenses, travel (mileage, lodging, per diem, etc.), and profit.

Reimbursable costs are allowed if pre-approved by the County. These costs are limited to office equipment/supplies, office space, cameras, GPS equipment, safety equipment and any other items requested by the County that is not part of the normal work function.

Subcontractor services will be reimbursed at actual costs.

***For items not listed, the County will only pay FEMA approved rates**

**Equipment rates cannot exceed FEMA approved rates

EVENT PERFORMANCE BOND

PERFORMANCE BOND

KNOW ALL MEN BY THESE PRESENTS: That _____, as Principal, and _____ as Surety, located at _____ (Business Address) are held and firmly bound unto Polk County, a political subdivision of the State of Florida, as Obligee, in the sum of _____Dollars ($_____) in lawful currency of the United States, for the payment whereof we bind ourselves, successors, and assigns, jointly and severally, firmly by these presents.

THE CONDITION OF THIS BOND is that if the Principal:

Promptly, faithfully, efficiently and fully performs all work, services, duties and obligations set forth and described in that certain Disaster Debris Monitoring Services Agreement #_____ (the "Agreement") dated _____ between Principal and Obligee for performance of debris monitoring at any County location arising from damage caused by _____, at the times and in the manner prescribed in the Agreement; and

Pays Obligee all losses, damages (liquidated or actual), expenses, costs, and attorney's fees, including, without limitation, costs and attorney's fees on appeal, that Obligee sustains resulting directly or indirectly from any breach or default by Principal under the Agreement; and

Performs the guarantee of all work and materials furnished under the Agreement for the time specified therein; and

Satisfies all claims and demands incurred under the Agreement, and fully indemnifies and holds harmless the Obligee from all costs and damages which it may suffer by reason or failure to do so;

then the Surety shall have no obligation under this Performance Bond.

In the event that the Principal shall fail to perform any of the terms, covenants and conditions of the Agreement during the period in which this Performance Bond is in effect, the Surety shall remain liable to the Obligee for all such loss or damage (including reasonable attorney's fees and costs and attorney's fees on appeal) resulting from any failure to perform up to the amount of the sum stated above.

In the event that the Surety fails to fulfill its obligations under this Performance Bond, then the Surety shall also indemnify and hold the Obligee harmless from any and all loss, damage, cost and expense, including reasonable attorney's fees and costs for all trial and appellate proceedings, resulting directly or indirectly from the Surety's failure to fulfill its obligations hereunder. This paragraph shall survive the termination or cancellation of this Performance Bond.

The Surety, for value received, hereby stipulates and agrees that its obligations hereunder shall be direct and immediate and not conditional or contingent upon the Obligee's pursuit of its remedies against Principal, shall remain in full force and effect notwithstanding (i) amendments or modifications to the Agreement entered into by Obligee and Principal without the Surety's knowledge or consent (ii) waivers of compliance with or any default under the Agreement granted by Obligee to Principal without the Surety's knowledge or consent, or (iii) the discharge of Principal from its obligations under the Agreement as a result of any proceeding initiated under the Bankruptcy code of 1978, as the same may be amended, or any similar state or federal law, or any limitation of the liability or Principal or its estate as a result of any proceeding.

Any changes in or under the Agreement and compliance or non-compliance with any formalities connected with the Agreement or the changes shall not affect Surety's obligation under this Performance Bond. The Principal shall notify the Surety of all such changes.

Reference is hereby made to Section 255.05, Florida Statutes, and to the notice and time limitation provisions thereof.

IN WITNESS WHEREOF, this instrument is executed this _____ day of _____, 20__.

DISASTER DEBRIS MONITORING SERVICES AGREEMENT (SECONDARY)

THIS DISASTER DEBRIS MONITORING SERVICES AGREEMENT (the "Agreement") is entered into as of the Effective Date (defined in Section 1, below) by and between Polk County (the "County"), a political subdivision of the State of Florida, 330 W. Church Street, Bartow, Florida, 33830, and Tetra Tech, Inc. (the "Contractor"), a Delaware Corporation, whose principal address is 3475 E. Foothill Blvd., Pasadena, CA 91107, and whose Federal Employer Identification Number is 95-4148514.

WHEREAS, the Contractor has considerable expertise in disaster debris monitoring services; and

WHEREAS, the County desires to retain the services of a competent and qualified Contractor to provide disaster debris monitoring services; and

WHEREAS, the County has solicited for these Contractor services via an advertised request for proposals ("RFP 26-012") and has received numerous responsive proposals thereto; and

WHEREAS, after review and consideration of all responsive proposals, the County intends to engage the Contractor to provide it the disaster debris monitoring services; and

WHEREAS, the Contractor remains agreeable to providing the County the Contractor services and represents that it is competent, qualified, capable and prepared to do so according to the terms and conditions stated herein.

NOW, THEREFORE, in consideration of the mutual understandings and covenants set forth herein, the County and the Contractor hereby agree, as follows:

1.0 Effective Date; Term

1.1 This Agreement shall take effect on the date (the "Effective Date") of its execution by the Chairman, Board of County Commissioners.

1.2 The term of this Agreement shall be for a five (5) year time period, commencing upon the Effective Date, unless otherwise sooner terminated as provided herein.

2.0 Contractor Services

2.1 The County does hereby retain the Contractor to furnish those services and to perform those tasks (collectively, the "Services") as further described in (i) the County's Request for Proposals RFP #26-012 to include all attachments and addenda, and (ii) the Contractor's responsive proposal thereto (collectively, (i) and (ii) are "RFP 26-012"), all of which are

incorporated into this Agreement by this reference. A complete copy of the Scope of Services section of RFP 26-012 and the Contractor's responsive proposal is attached as a composite **Exhibit "A"** and made a part of this Agreement.

2.2 Contractor shall perform the services described in the Scope of Services section of RFP 26-012, as those Services may be further specifically designated and authorized by the County in a separate written Notice to Proceed the County will deliver to the Contractor prior to the Contractor's commencement of the Services required in association with the County's clean-up and recovery from a particular disaster or emergency event. The form for the Conditional-Notice-to-Proceed shall be substantially in the form provided on **Exhibit "E"** which is attached hereto and made a part of this Agreement.

2.3 The County will contact and coordinate with the Contractor prior to issuing a Notice to Proceed for a disaster or emergency event. The Contractor will provide the name(s) of the supervisor(s)\liaison officer who will be primarily responsible for the Contractor providing the required Services. Additionally, before the Notice-To-Proceed is issued the Contractor will deliver to the County a performance bond in the form provided on **Exhibit "D"** which is attached hereto and made a part hereof in an amount to be reasonably determined by the County but which will not be less than $500,000.00. The actual bond amount will be determined based upon the estimated costs of the Services required as a consequence of the particular disaster or emergency event.

2.4 Contractor acknowledges that the County has engaged a primary vendor and may engage a tertiary vendor to provide the Services described in RFP 26-012 should the County determine in its sole and absolute discretion that the Contractor may, is or will be unable to perform the full scope of work of a particular project within the time period the County requires all such work to be completed.

3.0 Compensation

3.1 General

3.1.1 In consideration for its providing the Services, during the Agreement Term the County shall pay the Contractor a fee that shall not exceed the amounts stated in **Exhibit "B"**, which is attached hereto and made a part of this Agreement. The Compensation Schedule identifies all job classifications of those who may perform billable services pursuant to this Agreement and the associated amount the County will pay the Contractor for Services performed by those in each job classification. The County is not obligated to pay the Contractor

a fee for any work performed or Services provided by personnel whose job classifications are not listed on the Compensation Schedule. The hourly rates for labor may be increased by the Procurement Director following the one-year anniversary of the Effective Date, when it is in the best interest of the County. Increases will be determined by the appropriate price index as approved by the Procurement Director but in no event shall the hourly labor rates exceed those approved by the Federal Emergency Management Agency ("FEMA") for any given year. No Board action will be necessary for labor rate increases

3.1.2 All the Contractor's invoices for payment must reference this Agreement and must be submitted using a form approved by the County Auditor.

3.1.3 The Contractor shall attach all appropriate cost substantiations to the invoice and shall deliver the invoices to:

Roads and Drainage Division
3000 Sheffield Road
Winter Haven, FL 33880

3.1.4 The Contractor will clearly state "Final Invoice" on the Contractor's final/last billing for the Services rendered to the County. The Contractor's submission of a Final Invoice is its certification that all Services have been properly performed and all charges and costs have been invoiced to the County. This account will be closed upon the County's receipt of a Final Invoice. The Contractor hereby waives any charges not properly included on its Final Invoice.

3.1.5 The County's payment of the Final Invoice shall not constitute evidence of the County's acceptance of the Contractor's performance of the Service or the County's acceptance of any work.

3.1.6 All Contractor's invoices shall be accompanied by time and task records for all billable hours appearing on the invoice. Additional supporting documents may be requested by the County and, if so requested, shall be furnished by the Contractor to the County Auditor's satisfaction.

3.1.7 The Contractor's project manager or designated payroll officer is attesting to the correctness and accuracy of all charges and requested reimbursements stated in each invoice.

3.1.8 The Contractor's requests for payment of "out-of-pocket" expenses eligible for reimbursement under the terms of this Agreement shall be reimbursed per the County's

Reimbursable Schedule that is attached as **Exhibit "C"** and made a part of this Agreement. The Contractor's requests for payment shall include copies of paid receipts, invoices or other documentation acceptable to the County's Auditor. To qualify for reimbursement, the Contractor's documentation shall be sufficient to establish that the expense was actually incurred and necessary in the performance of the Services performed in accordance with this Agreement.

4.0 Contractor's Responsibilities

4.1 The Contractor shall be responsible for the professional quality, accuracy, competence, methodology, and the coordination of all Services performed pursuant to this Agreement.

4.2 The County's review, approval, acceptance, or payment for any of the Contractor's Services shall not be construed to: (i) operate as a waiver of any rights the County possesses under this Agreement; or (ii) waive or release any claim or cause of action arising out of the Contractor's performance or nonperformance of this Agreement. The Contractor shall be and will always remain liable to the County in accordance with applicable law for any and all damages to the County caused by the Contractor's negligent or wrongful performance or nonperformance of any of the Services to be furnished under this Agreement.

5.0 Ownership of Documents

All analyses, reference data, bills, completed reports, or any other form of written instrument or document created or resulting from the Contractor's performance of the Services pursuant to this Agreement shall become the property of the County after payment is made to the Contractor for such instruments or documents.

6.0 Termination

6.1 The County may terminate this Agreement, in whole or in part, at any time, either for the County's convenience or because of the failure of the Contractor to fulfill its obligations under this Agreement, subject to the cure period provided in Section 26.0, by delivering written notice to the Contractor. Upon receipt of such notice, the Contractor shall:

6.1.1 Immediately discontinue all affected Services unless the notice directs otherwise, and

6.1.2 Deliver to the County all data, reports, summaries, and any and all such other information and materials of whatever type or nature as may have been accumulated by the Contractor in performing this Agreement, whether completed or in process.

6.2 Unless in dispute or subject to the County's right of set-off or other remedy, the Contractor shall be paid for Services actually rendered to the date of termination.

6.3 The rights and remedies of the County provided for in this Section 6 are in addition and supplemental to any and all other rights and remedies provided by law or under this Agreement.

7.0 No Contingent Fees

The Contractor warrants that it has not employed or retained any company or person, other than a bona fide employee working solely for the Contractor to solicit or secure this Agreement and that it has not paid or agreed to pay any person, company, corporation, individual or firm, other than a bona fide employee working solely for the Contractor, any fee, commission, percentage, gift, or other consideration contingent upon or resulting from award of or making of the Agreement. For the breach or violation of this provision, the County shall have the right to terminate the Agreement at its sole discretion, without liability and to deduct from the Agreement price, or otherwise recover, the full amount of such fee, commission, percentage, gift, or consideration.

8.0 Assignment

The Contractor shall not assign, transfer, or encumber this Agreement, or any interest herein, under any circumstances, without obtaining the prior written consent of the County, which consent may be withheld in the County's exercise of its reasonable discretion.

9.0 Professional Associates and Subcontractors

If the Contractor requires the assistance of any professional associates or subcontractors in connection with its providing the Services, the Contractor must obtain the prior express written approval of the County, which the County may withhold in its discretion, before any such professional associate or subcontractor may perform any work for the County. If after obtaining the County's approval the Contractor utilizes any professional associates or subcontractors in the delivery of the Services then the Contractor shall remain solely and fully liable to the County for the performance or nonperformance of all such professional associates and subcontractors. The failure of a professional associate or subcontractor to timely or properly perform any of its obligations to the Contractor shall not relieve the Contractor of its obligations to the County under this Agreement.

10.0 Indemnification of County

Contractor, to the extent permitted by law, shall indemnify, defend (by counsel reasonably acceptable to County) protect and hold the County, and its officers, employees and agents harmless from and against any and all, claims, actions, causes of action, liabilities, penalties, forfeitures, damages, losses, and expenses (including, without limitation, attorneys' fees costs and expenses incurred during negotiation, through litigation and all appeals therefrom) whatsoever including, but not limited to, those pertaining to the death of or injury to any person, or damage to any property, arising out of or resulting from (i) the failure of Contractor to comply with applicable laws, rules or regulations, (ii) the breach by Contractor of its obligations under this Agreement, (iii) any claim for trademark, patent or copyright infringement arising out of the scope of Contractor's performance or nonperformance of this Agreement, or (iv) the negligent acts, errors or omissions, or intentional or willful misconduct, of Contractor, its professional associates, subcontractors, agents, and employees; provided, however, that Contractor shall not be obligated to defend or indemnify the County with respect to any such claims or damages arising out of the County's sole negligence. The provisions of this Section 10.0 shall survive the expiration or earlier termination of this Agreement.

11.0 Insurance Requirements

The Contractor shall maintain at all times the following minimum levels of insurance and shall, without in any way altering its liability, obtain, pay for and maintain insurance for the coverage and amounts of coverage not less than those set forth below. The Contractor shall provide the County original Certificates of Insurance satisfactory to the County to evidence such coverage before any work commences. The County shall be named as an additional insured on General and Automobile Liability policies. General Liability and Workers' Compensation policies shall contain a waiver of subrogation in favor of Polk County. The commercial General Liability Policy shall (by endorsement if necessary) provide contractual liability coverage for the contractual indemnity stated in Section 10, above. All insurance coverage shall be written with a company having an A.M. Best rating of at least the "A" category and size category of VIII. The Contractor's self-insured retention or deductible per line of coverage shall not exceed $25,000 without the permission of the County. In the event of any failure by the Contractor to comply with the provisions of this Section 11, the County may, at its option, upon notice to the Contractor suspend Contractor's performance of the Services for cause until there is full compliance.

Alternatively, the County may purchase such insurance at the Contractor's expense, provided that the County shall have no obligation to do so and if the County shall do so, the Contractor shall not be relieved of or excused from the obligation to obtain and maintain such insurance amounts and coverage.

Comprehensive Automobile Liability Insurance. $1,000,000.00 combined single limit of liability for bodily injuries, death and property damage resulting from any one occurrence, including all owned, hired, and non-owned vehicles.

Commercial General Liability. $1,000,000.00 combined single limit of liability for bodily injuries, death and property damage, and personal injury resulting from any one occurrence, including the following coverages:

Premises and Operations:

> Broad Form Commercial General Liability Endorsement to include Blanket Contractual liability (specifically covering, but not limited to, the contractual obligations assumed by the Firm); Personal Injury (with employment and contractual exclusions deleted); and Broad Form Property Damage coverage.

Independent Contractors:

> Delete Exclusion relative to collapse, explosion and underground; Property Damage Hazards; Cross Liability Endorsement; and Contractual liability (specifically covering, but not limited to, the contractual obligations assumed by the Firm)

Workers Compensation. The Contractor shall provide, pay for, and maintain workers compensation insurance on all employees, its agents or subcontractors as required by Florida Statutes.

Pollution Liability Insurance: $1,000,000 including pollution due to automobile operations.

Employer's Liability. $1,000,000.

12.0 Public Entity Crimes

The Contractor understands and acknowledges that this Agreement will be voidable by the County in the event the conditions stated in Florida Statutes, Section 287.133 relating to conviction for a public entity crime apply to the Contractor.

13.0 Non-Discrimination

The Contractor warrants and represents that all of its employees are treated equally during employment without regard to race, color, religion, gender, age or national origin.

14.0 Designation of Party Representatives

14.1 Upon receipt of a request from the Contractor, the County shall designate in writing one or more of its employees who are authorized to act by and on behalf of the County to transmit instructions, receive information and interpret and define the County's policy and decisions with respect to the Services to be provided pursuant to this Agreement.

14.2 The Contractor shall designate or appoint one or more Contractor representatives who are authorized to act on behalf of and to bind the Contractor regarding all matters involving the conduct of its performance pursuant to this Agreement.

15.0 All Prior Agreements Superseded

This document incorporates and includes all prior negotiations, correspondence, conversations, agreements or understandings applicable to the matters contained herein and the parties agree that there are no commitments, agreements or understandings concerning the subject matter of this Agreement that are not contained in this document or its designated exhibits. Accordingly, it is agreed that no deviation from the terms hereof shall be predicated upon any prior representations or agreements, whether oral or written.

16.0 Modifications, Amendments or Alterations

No modification, amendment or alteration in the terms or conditions contained herein shall be effective unless agreed to and executed in writing by both parties to this Agreement in a form acceptable to the County.

17.0 Independent Contractor

Nothing stated in this Agreement is intended or should be construed in any manner as creating or establishing a relationship of co-partners between the parties, or as constituting the Contractor (including its officers, employees, and agents) as the agent, representative, or employee of the County for any purpose, or in any manner, whatsoever. The Contractor is to be and shall remain forever an independent contractor with respect to all Services performed under this Agreement. The Contractor shall not pledge the County's credit or make the County a guarantor of payment or surety for any contract, debt, obligation, judgment, lien or any form of indebtedness and the Contractor shall have no right to speak for or bind the County in any manner.

18.0 Public Records Law

(a) The Contractor acknowledges the County's obligations under Article I, Section 24, of the Florida Constitution and under Chapter 119, Florida Statutes, to release public records to members of the public upon request and comply in the handling of the materials created under this Agreement. The Contractor further acknowledges that the constitutional and statutory provisions control over the terms of this Agreement. In association with its performance pursuant to this Agreement, the Contractor shall not release or otherwise disclose the content of any documents or information that is specifically exempt from disclosure pursuant to all applicable laws.

(b) Without in any manner limiting the generality of the foregoing, to the extent applicable, the Contractor acknowledges its obligations to comply with Section 119.0701, Florida Statutes, with regard to public records, and shall:

(1) keep and maintain public records required by the County to perform the services required under this Agreement;

(2) upon request from the County's Custodian of Public Records or his/her designee, provide the County with a copy of the requested records or allow the records to be inspected or copied within a reasonable time at a cost that does not exceed the cost provided in Chapter 119, Florida Statutes, or as otherwise provided by law;

(3) ensure that public records that are exempt or confidential and exempt from public records disclosure requirements are not disclosed except as authorized by law for the duration of the term of this Agreement and following completion of this Agreement if the Contractor does not transfer the records to the County; and

(4) upon completion of this Agreement, transfer, at no cost, to the County all public records in possession of the Contractor or keep and maintain public records required by the County to perform the service. If the Contractor transfers all public records to the County upon completion of this Agreement, the Contractor shall destroy any duplicate public records that are exempt or confidential and exempt from public records disclosure requirements. If the Contractor keeps and maintains public records upon completion of this Agreement, the Contractor shall meet all applicable requirements for retaining public records. All records stored electronically must be provided to the County, upon request from the County's Custodian of Public Records, in a format that is compatible with the information technology systems of the County.

(c) **IF THE CONTRACTOR HAS QUESTIONS REGARDING THE APPLICATION OF CHAPTER 119, FLORIDA STATUTES, TO THE CONTRACTOR'S DUTY TO PROVIDE PUBLIC RECORDS RELATING TO THIS AGREEMENT, CONTACT THE COUNTY'S CUSTODIAN OF PUBLIC RECORDS AT:**

RECORDS MANAGEMENT LIASON OFFICER
POLK COUNTY
330 WEST CHURCH ST.
BARTOW, FL 33830
TELEPHONE: (863) 534-7670
EMAIL: RMCO@POLKFL.GOV

19.0 Compliance with Laws and Regulations

In providing all Services pursuant to this Agreement, the Contractor shall abide by all statutes, ordinances, rules, and regulations pertaining to or regulating the provisions of such Services, including those now in effect and hereafter adopted. Any violation of said statutes, ordinances, rules, or regulations shall constitute a material breach of this Agreement, and shall entitle the County to terminate this Agreement immediately upon delivery of written notice of termination to the Contractor.

20.0 Governing Law and Venue

This Agreement shall be governed in all respects by the laws of the State of Florida and any litigation with respect thereto shall be brought only in the courts of Polk County, Florida or in the United States District Court, Middle District of Florida, located in Hillsborough County, Florida.

21.0 Notices

Whenever either party desires to give notice unto the other, it must be given by written notice, delivered (i) in person, (ii) via registered or certified United States mail, postage prepaid with return receipt requested, or (iii) via nationally recognized overnight delivery service, and addressed to the party for whom it is intended at the place last specified by each party. The place for giving of notice shall remain such until it is changed by written notice delivered in compliance with the provisions of this Section 21. For the present, the parties designate the following as the respective places for giving of notice, to wit:

For County: Polk County Roads & Drainage Division
3000 Sheffield Road
Winter Haven, Florida 33880

For Contractor: Tetra Tech, Inc.
3475 E. Foothill Blvd.
Pasadena, CA 91107

22.0 Severability

The invalidity, illegality, or unenforceability of any provision of this Agreement, or the occurrence of any event rendering any portion or provision of this Agreement void, shall in no way affect the validity or enforceability of any other portion or provision of the Agreement; any void provision shall be deemed severed from the Agreement and the balance of the Agreement shall be construed and enforced as if the Agreement did not contain the particular portion or

provision held to be void. The parties further agree to reform the Agreement to replace any stricken provision with a valid provision that comes as close as possible to the intent of the stricken provision. The provisions of this section shall not prevent the entire Agreement from being void should a provision which is of the essence of the Agreement be determined to be void.

23.0 Annual Appropriations

Contractor acknowledges that during any fiscal year the County shall not expend money, incur any liability, or enter into any agreement which by its terms involves the expenditure of money in excess of the amounts budgeted as available for expenditure during such fiscal year. Accordingly, any agreement, verbal or written, the County may make in violation of this fiscal limitation is null and void, and no money may be paid on such agreement. The County may enter into agreements whose duration exceeds one year; however, any such agreement shall be executory only for the value of the services to be rendered which the County agrees to pay as allocated in its annual budget for each succeeding fiscal year. Accordingly, the County's performance and obligation to pay the Contractor under this Agreement is contingent upon annual appropriations being made for that purpose.

24.0 Unauthorized Alien(s)

The Contractor shall not employ or utilize unauthorized aliens in the performance of the Services provided pursuant to this Agreement. The County shall consider the employment or utilization of unauthorized aliens a violation of Section 274A(e) of the Immigration and Naturalization Act (8 U.S.C. 1324a) and a cause for the County's unilateral termination of this Agreement. When delivering executed counterparts of this Agreement to the County, the Contractor shall also deliver a completed and executed counterpart of the attached "AFFIDAVIT CERTIFICATION IMMIGRATION LAWS" form.

25.0 Contractor Representations

25.1 The Contractor hereby represents and warrants the following to the County:

25.1.1 Contractor is a corporation that is duly organized and existing in good standing under the laws of the State of Delaware with full right and authority to do business within the State of Florida.

25.1.2 Contractor's performance under this Agreement will not violate or breach any contract or agreement to which the Contractor is a party or is otherwise bound, and will not violate any governmental statute, ordinance, rule, or regulation.

25.1.3 Contractor has the full right and authority to enter into this Agreement and to perform its obligations in accordance with its terms.

25.1.4 Contractor now has and will continue to maintain all licenses and approvals required to conduct its business, and that it will at all times conduct its business activities in a reputable manner.

25.1.5 Contractor has no obligation or indebtedness that would impair its ability to fulfill the terms of this Agreement.

25.1.6 Contractor has the personnel and experience necessary to perform all Services in a professional and workmanlike manner.

25.1.7 Contractor shall exercise the same degree of care, skill, and diligence in the performance of the Services as provided by a professional of like experience, knowledge and resources, under similar circumstances.

25.1.8 Contractor shall, at no additional cost to the County, re-perform those Services which fail to satisfy the foregoing standard of care or which otherwise fail to meet the requirements of this Agreement.

25.1.9 Each individual executing this Agreement on behalf of the Contractor is authorized to do so.

26.0 Default and Remedy

A. Process. If the Contractor materially defaults in the timely performance of any Contract obligation, including any changes, modifications, changes in scope issued thereunder, or if the Contractor is otherwise in material default of the Contract, including, without limitation, the Contractor's failure to timely deliver any portion, or the entirety, of the Project Work in accordance with the Contract documents, then the County shall have the right to (i) with or without terminating the Contract, immediately call the Performance Bond and Payment Bond, and engage other contractors or providers at the Contractor's sole cost and expense to provide those unperformed or deficient Contract obligations of the Contractor; (ii) set-off the monetary amount of any and all damages arising therefrom, whether direct or indirect, actual or liquidated, from the amounts due Contractor pursuant to the Contract documents, (iii) immediately terminate the Contract by delivering written notice to the Contractor, and (iv) pursue any and all remedies available in law, equity, and under the Contract, including, without limitation, the recovery of any increased cost to the County to complete the Project Work due to the loss of FEMA Public Assistance funding caused, directly or indirectly, by the Contractor's default. Upon any such termination pursuant to this Section, the County shall pay the Contractor the full amount due and owing for all services properly performed through the date of the Contract termination, less any amount subject to the County's right of set-off, and all liability of the County to the Contractor shall cease.

B. Certain Material Defaults. Among other matters, including without limitation, the Contractor's failure to timely deliver any portion, or the entirety, of the Project Work in accordance with the Contract documents, as described immediately above, any of the following shall constitute the Contractor's material default of the Contract: the appointment of a receiver to take possession of all or substantially all of the Contractor's assets, a general assignment by the Contractor for the benefit of creditors, or any action taken by or suffered by Contractor under any insolvency or bankruptcy act; or the Contractor is convicted of a public entity crime, is determined to have violated federal or state law prohibiting discrimination as stated in Section 287.134, Florida Statutes, or is prohibited from performing work for or transacting business with the County pursuant to Section 287.133 or to Section 287.134, Florida Statutes; or an assignment of the Contract made without the express written consent of the County; or the submission of a false certification to the County or engagement in prohibited business operations, both as described in the Contract Documents.

27.0 Limitation of Liability

IN NO EVENT, SHALL THE COUNTY BE LIABLE TO THE CONTRACTOR FOR INDIRECT, INCIDENTAL, CONSEQUENTIAL, SPECIAL, EXEMPLARY, OR PUNITIVE DAMAGES OF ANY KIND OR NATURE, INCLUDING LOSS OF PROFIT, WHETHER FORESEEABLE OR NOT, ARISING OUT OF OR RESULTING FROM THE NONPERFORMANCE OR BREACH OF THIS CONTRACT BY THE COUNTY WHETHER BASED IN CONTRACT, COMMON LAW, WARRANTY, TORT, STRICT LIABILITY, CONTRIBUTION, INDEMNITY OR OTHERWISE.

28.0 Waiver

A waiver by either County or Contractor of any breach of this Agreement shall not be binding upon the waiving party unless such waiver is in writing. In the event of a written waiver, such a waiver shall not affect the waiving party's rights with respect to any other or further breach of this Agreement. The making or acceptance of a payment by either party with the knowledge of the other party's existing default or breach of the Agreement shall not waive such default or breach, or any subsequent default or breach of this Agreement, and shall not be construed as doing so.

29.0 Attorneys' Fees and Costs

Each party shall be responsible for its own legal and attorneys' fees, costs and expenses incurred in connection with any dispute or any litigation arising out of, or relating to this Agreement, including attorneys' fees, costs, and expenses incurred for any appellate or bankruptcy proceedings.

30.0 Force Majeure

Either party hereunder may be temporarily excused from performance if an Event of Force Majeure directly or indirectly causes its nonperformance. An "Event of Force Majeure" is defined as any event which results in the prevention or delay of performance by a party of its obligations under this Agreement and which is beyond the reasonable control of the nonperforming party. It includes, but is not limited to fire, flood, earthquakes, storms, lightning, epidemic, war, riot, civil disturbance, sabotage, and governmental actions. Neither party shall be excused from performance if non-performance is due to forces which are reasonably preventable, removable, or remediable and which the non-performing party could have, with the exercise of reasonable diligence, prevented, removed, or remedied prior to, during, or immediately after their occurrence. Within five (5) days after the occurrence of an Event of Force Majeure, the non-performing party shall deliver written notice to the other party describing the event in reasonably sufficient detail, along with proof of how the event has precluded the non-performing party from performing its obligations hereunder, and a good faith estimate as to the anticipated duration of the delay and the means and methods for correcting the delay. The non-performing party's obligations, so far as those obligations are affected by the Event of Force Majeure, shall be temporarily suspended during, but no longer than, the continuance of the Event of Force Majeure and for a reasonable time thereafter as may be required for the non-performing party to return to normal business operations. If excused from performing any obligations under this Agreement due to the occurrence of an Event of Force Majeure, the non-performing party shall promptly, diligently, and in good faith take all reasonable action required for it to be able to commence or resume performance of its obligations under this Agreement. During any such time period, the non-performing party shall keep the other party duly notified of all such actions required for it to be able to commence or resume performance of its obligations under this Agreement.

31.0 Key Personnel

The Contractor shall notify the County if any of the Contractor's Key Personnel (as defined, below) change during the Term of the Agreement. To the extent possible, the Contractor shall notify the County at least ten (10) days prior to any proposed change in its Key Personnel. At the County's request the Contractor shall remove without consequence to the County any of the Vendor's contractors, sub-contractors, sub-consultants, agents or employees and replace the same with an appropriate substitute having the required skill and experience necessary to perform

the Services. The County shall have the right to reject the Contractor's proposed changes in Key Personnel. The following individuals shall be considered "Key Personnel:"

Name: Edward Green

Name: Tommy Webster

Name: Sommer Parish

Name: Johnathan Burgiel

Name: Ralph Natale

Name: Chuck McLendon

Name: Allison McLeary

Name: Jaezy Dieguez

Name: Jeff Dickerson

Name: Ricardo Bosques

Name: Rika Nagatomo

Name: Macy Moore

32.0 Scrutinized Companies and Business Operations Certification; Termination.

A. Certification(s).

(i) By its execution of this Agreement, the Contractor hereby certifies to the County that the Contractor is not on the Scrutinized Companies that Boycott Israel List, created pursuant to Section 215.4725, Florida Statutes, nor is the Contractor engaged in a boycott of Israel, nor was the Contractor on such List or engaged in such a boycott at the time it submitted its bid, proposal, quote, or other form of offer, as applicable, to the County with respect to this Agreement.

(ii) Additionally, if the value of the goods or services acquired under this Agreement are greater than or equal to One Million Dollars ($1,000,000), then the Contractor further certifies to the County as follows:

(a) the Contractor is not on the Scrutinized Companies with Activities in Sudan List, created pursuant to Section 215.473, Florida Statutes; and

(b) the Contractor is not on the Scrutinized Companies with Activities in the Iran Petroleum Energy Sector List, created pursuant to Section 215.473, Florida Statutes; and

(c) the Contractor is not engaged in business operations (as that term is defined in Florida Statutes, Section 287.135) in Cuba or Syria; and

(d) the Contractor was not on any of the Lists referenced in this subsection A(ii), nor engaged in business operations in Cuba or Syria when it submitted its proposal to the County concerning the subject of this Agreement.

(iii) The Contractor hereby acknowledges that it is fully aware of the penalties that may be imposed upon the Contractor for submitting a false certification to the County regarding the foregoing matters.

B. Termination. In addition to any other termination rights stated herein, the County may immediately terminate this Agreement upon the occurrence of any of the following events:

(i) The Contractor is found to have submitted a false certification to the County with respect to any of the matters set forth in subsection A(i) above, or the Contractor is found to have been placed on the Scrutinized Companies that Boycott Israel List or is engaged in a boycott of Israel.

(ii) The Contractor is found to have submitted a false certification to the County with respect to any of the matters set forth in subsection A(ii) above, or the Contractor is found to have been placed on the Scrutinized Companies with Activities in Sudan List, or the Scrutinized Companies with Activities in the Iran Petroleum Energy Sector List, or has been engaged in business operations in Cuba or Syria, and the value of the goods or services acquired under this Agreement are greater than or equal to One Million Dollars ($1,000,000).

33. No Construction Against Drafter

The Parties acknowledge that this Agreement and all the terms and conditions contained herein have been fully reviewed and negotiated by the Parties. Accordingly, any rule of construction to the effect that ambiguities are to be resolved against the drafting party shall not apply in interpreting this Agreement.

34. Federal Provisions

The Supplemental Conditions – Federal Clauses set forth in the RFP 26-012, attached as **Exhibit A,** are hereby fully incorporated by this specific reference, as if set forth in the body of this Agreement.

35. Breach During Emergency Recovery Period.

Pursuant to §252.505, Fla. Stat., in the event this Agreement concerns goods or services related to a natural emergency, Vendor agrees that if Vendor breaches this Agreement during the Emergency Recovery Period, then the County shall be entitled to (a) a payment of $5000, and (b) recovery of damages, which may take the form of actual and consequential damages or liquidated damages. The term "Emergency Recovery Period" means a one-year period that begins on the date the

Governor of Florida initially declared a state of emergency for a natural emergency. This provision shall survive the termination of this Agreement.

(THE REMAINDER OF THE PAGE IS LEFT INTENTIONALLY BLANK; THE AGREEMENT CONTINUES ON THE FOLLOWING PAGE WITH THE PARTIES SIGNATURES.)

IN WITNESS WHEREOF, the parties hereto have executed this Agreement as of the Effective Date.

EMPLOYMENT ELIGIBILITY VERIFICATION (E-VERIFY) CERTIFICATION

(Florida Statutes, Section 448.095)

PROJECT NAME: RFP 26-012

The undersigned, as an authorized officer of the contractor identified below (the "**Contractor**"), having full knowledge of the statements contained herein, hereby certifies to Polk County, a political subdivision of the State of Florida (the "**County**"), by and on behalf of the Contractor in accordance with the requirements of Section 448.095, Florida Statutes, as related to the contract entered into by and between the Contractor and the County on or about the date hereof, whereby the Contractor will provide labor, supplies, or services to the County in exchange for salary, wages, or other remuneration (the "**Contract**"), as follows:

1. Unless otherwise defined herein, terms used in this Certification which are defined in Section 448.095, Florida Statutes, as may be amended from time to time, shall have the meaning ascribed in said statute.

2. Pursuant to Section 448.095(5), Florida Statutes, the Contractor, and any subcontractor under the Contract, must register with and use the E-Verify system to verify the work authorization status of all new employees of the Contractor or subcontractor. The Contractor acknowledges and agrees that (i) the County and the Contractor may not enter into the Contract, and the Contractor may not enter into any subcontracts thereunder, unless each party to the Contract, and each party to any subcontracts thereunder, registers with and uses the E-Verify system; and (ii) use of the U.S. Department of Homeland Security's E-Verify System and compliance with all other terms of this Certification and Section 448.095, Fla. Stat., is an express condition of the Contract, and the County may treat a failure to comply as a material breach of the Contract.

3. By entering into the Contract, the Contractor becomes obligated to comply with the provisions of Section 448.095, Fla. Stat., "Employment Eligibility," as amended from time to time. This includes but is not limited to utilization of the E-Verify System to verify the work authorization status of all newly hired employees, and requiring all subcontractors to provide an affidavit attesting that the subcontractor does not employ, contract with, or subcontract with, an unauthorized alien. The Contractor shall maintain a copy of such affidavit for the duration of the Contract. Failure to comply will lead to termination of the Contract, or if a subcontractor knowingly violates the statute or Section 448.09(1), Fla. Stat., the subcontract must be terminated immediately. If the Contract is terminated pursuant to Section 448.095, Fla. Stat., such termination is not a breach of contract and may not be considered as such. Any challenge to termination under this provision must be filed in the Tenth Judicial Circuit Court of Florida no later than 20 calendar days after the date of termination. If the Contract is terminated for a violation of Section 448.095, Fla. Stat., by the Contractor, the Contractor may not be awarded a public contract for a period of 1 year after the date of termination. The Contractor shall be liable for any additional costs incurred by the County as a result of the termination of the Contract. Nothing in this Certification shall be construed to allow intentional discrimination of any class protected by law.

Executed this 4th day of June, 2026.

ATTEST: **CONTRACTOR:**

By: _____ By: _____

Printed Name: Kayla Lemaire Printed Name: Jonathan Burgiel

Its: Contract Administrator Its: Business Unit President

Affidavit Regarding the Use of Coercion for Labor or Services

In compliance with Section 787.06(13), Florida Statutes, this attestation must be completed by an officer or representative of a nongovernmental entity that is executing, renewing, or extending a contract with Polk County, a political subdivision of the State of Florida.

The undersigned, on behalf of the entity listed below (the "Nongovernmental Entity"), hereby attests under penalty of perjury as follows:

1. I am over the age of 18 and I have personal knowledge of the matters set forth herein.

2. I currently serve as an officer or representative of the Nongovernmental Entity.

3. The Nongovernmental Entity does **not** use coercion for labor or services, as those underlined terms are defined in Section 787.06, Florida Statutes.

4. This declaration is made pursuant to Section 92.525, Fla. Stat. and Section 787.06, Fla. Stat. I understand that making a false statement in this declaration may subject me to criminal penalties.

Under penalties of perjury, I Jonathan Burgiel, Business Unit President (Signatory Name and Title), declare that I have read the foregoing Affidavit Regarding the Use of Coercion for Labor and Services and that the facts stated in it are true.

Further Affiant sayeth naught.

Florida Department of State, Division of Corporations

Exhibit Ai

RFP NOTICE

Polk County, a political subdivision of the State of Florida, requests the submittal of proposals from vendors that are interested in providing debris monitoring services as described herein. Sealed proposals must be received in the Procurement Division, prior to the due date and time listed below.

RFP Number and Title: 26-012, Disaster Debris Monitoring Services

Description: Provide disaster debris removal monitoring and other related services resulting from, but not limited to, catastrophic events such as tornadoes and hurricanes.

Receiving Period: Prior to 2:00 p.m., Wednesday, December 31, 2025

Bid Opening: Wednesday, December 31, 2025, at 2:00 p.m. or as soon as possible thereafter.

This form is for RFP registration only. Please scroll down for additional information.

Special Instructions

Questions regarding this RFP must be in writing and must be sent to Ken Brush Procurement Contracts Manager, via email at kenbrush@polk-county.net or via fax at (863) 534-6789. All questions must be received by Monday, December 15, 2025, 4:00 p.m.

RFP REGISTRATION

You must register using this form to receive notice of any addenda to these documents. Please fax the completed form to the Procurement Division as soon as possible. It is the vendor's responsibility to verify if addenda have been issued.

RFP Number: 26-012

RFP Title: Disaster Debris Monitoring Services

This form is for bid registration only. Please scroll down for additional information.

Carefully complete this form and return it to the Procurement Division via e-mail to procurement@polk-county.net or fax (863) 534-6789. You must submit one form for each solicitation that you are registering for.

PROPOSAL SUBMITTAL INSTRUCTIONS

Proposers must submit their proposal prior to 2:00 p.m. on the receiving date. Proposals must be submitted in a "sealed" parcel or electronically through Polk County's secure website, Kiteworks. Proposals will be publicly opened at 2:00 p.m. on the receiving date.

Sealed Parcel Submittal:

If you are submitting a sealed parcel proposal submit one (1) original marked ORIGINAL and five (5) copies marked COPY of the proposal in a sealed parcel to the Procurement Division. The parcel should be labeled "RFP #26-012, Disaster Debris Monitoring Services" and marked with the proposer's name and address. The Proposals may be mailed or delivered to:

Polk County Procurement Division

330 West Church Street, Room 150

Bartow, FL 33830

To assist with labeling the sealed parcel, please cut along the outer border and affix this label. Be sure to include the name of the company submitting the proposal where requested.

Sealed Proposal. DO NOT OPEN	
RFP Number	26-012
RFP Title	Disaster Debris Monitoring Services
Due Date/Time:	December 31, 2025, prior to 2:00 pm
Submitted by:	
Deliver To:	Polk County Procurement Division 330 West Church Street, Room 150, Bartow, Florida 33830

Proposals may be mailed, express mailed or hand delivered. It is the Proposers responsibility to ensure their package is delivered to the Procurement Division prior to 2:00 p.m. on the Receiving date and time referenced above. Proposals delivered at 2:00 p.m. or later will not be accepted.

Electronic Proposals Submittal:

All prospective Proposers that are interested in submitting their proposals electronically can do so via the County's secure electronic submittal website, Kiteworks. Proposers must email kenbrush@polk-county.net at least 48 hours prior to opening to receive a link to upload their submittal. Please only upload your documents as a PDF or Excel file for the Cost Tab, if applicable. Please use the name convention of your files as follow:

"RFP 26-012 Tab 1"

"RFP 26-012 Tab 2"

"RFP 26-012 Tab 3"

"RFP 26-012 Tab 4"

"RFP 26-012 Tab 5"

For more instructions, a video tutorial has been produced to further explain the electronic solicitation submittal process. It can be found by clicking here for RFP Submittals: https://youtu.be/vkn_7AHqioE. If you need assistance accessing this website due to ADA or any other reason, please email Ken Brush at kenbrush@polk-county.net.

Procurement recommends that Proposers submitting electronically double check the documents submitted into Kiteworks to ensure all requested tab information has been uploaded. Failure to upload the requested tab information may result in the proposal being deemed nonresponsive.

POLK COUNTY
Procurement Division
Fran McAskill
Procurement Director
REQUEST FOR PROPOSAL 26-012
Disaster Debris Monitoring Services

Sealed proposals will be received in the Procurement Division, Wednesday, December 31, 2025, prior to 2:00 p.m.

Attached are important instructions and specifications regarding responses to this Request for Proposal (the "RFP"). The failure of a responding proposer (a "Proposer") to follow these instructions could result in Proposer disqualification from consideration for a contract to be awarded pursuant to this RFP.

This document is issued by Polk County (the "County") which is the sole distributor of this RFP and all addenda and changes to the RFP documents. The County shall record its responses to inquiries and provide any supplemental instructions or additional documents pertaining to this RFP in the form of written addenda to the RFP. The County shall post all such addenda, together with any other information pertaining to this RFP, on the County's website at https://www.polk-county.net/business/procurement/. It is the sole responsibility of each Proposer to review the website prior to submitting a responsive proposal (a "Proposal") to this RFP to ensure that that the Proposer has obtained all available instructions, addenda, changes, supporting documents, and any other information pertaining to this RFP.

The County is not responsible for any solicitations issued through subscriber, publications, or other sources not connected with the County and the Proposer should not rely on such sources for information regarding the RFP solicitation.

Questions regarding this RFP must be in writing and must be sent to Ken Brush, Procurement Contracts Manager, via email at kenbrush@polk-county.net or via fax at (863) 534-6789. **All questions must be received by Monday, December 15, 2025, 4:00 p.m.**

Proposers and any prospective proposers shall not contact, communicate with or discuss any matter relating in any way to this RFP with any member of the Polk County Board of County Commissioners or any employee of Polk County other than the County Procurement Director or the individual designated above. This prohibition begins with the issuance of the Request for Proposal and ends upon execution of the final contract. Any such communication initiated by a Proposer or prospective proposer shall be grounds for disqualifying the offender from consideration for a contract to be awarded pursuant to this RFP and for contracts to be awarded pursuant to RFPs or Requests for Bid that the County may issue in the future.

A Proposer's responsive Proposal to this RFP may be mailed, express mailed, or hand delivered to:

Polk County Procurement Division
330 West Church Street, Room 150
Bartow, Florida 33830
(863)534-6757

Introduction

Polk County, a political subdivision of the State of Florida, seeks the submittal of proposals from qualified firms who are interested in providing professional services in monitoring debris removal services in accordance with the Polk County Debris Management Plan.

Award of this RFP may be made to up to three (3) Contractors and will be used when the magnitude of an emergency is such that the County is not able to manage with their own resources. Contractors shall be identified as the primary, secondary, and tertiary awardee based on order of final ranking. The area given to any one contractor will depend on the magnitude of the emergency.

The primary vendor will be contacted to provide the services needed. If the primary vendor is not available, or fails to respond within 24 hours, the County will then contract the secondary vendor. If the secondary vendor is not available or fails to respond with 24 hours, the County will then contact the tertiary vendor.

There are other public agencies within Polk County that may wish to use the provisions of this RFP. Attachment A must be signed and included with your submittal. Please refer to submittal criteria for further detail.

SCOPE OF SERVICES

This statement of work describes and defines the services which are required for debris removal monitoring for Polk County (County). The work includes but is not limited to; monitoring field operations regarding all storm generated debris, debris pickup, debris hauling, debris staging and reduction, temporary debris storage site management, debris management, and final disposal of debris to an approved facility. Roads and other County facilities will be identified by the County and direction will be given to the Contractor for clearing these roads and facilities in accordance with the County Debris Management Plan. The County reserves the right to add or remove highway segments

at the direction of the Debris Manager. While this scope provides for debris removal work off the state road system, no work on or off the state road system is guaranteed. The County, at its sole discretion, may elect to perform the work with in-house forces or other contract forces or may cancel the contract at any time if determined to be in the best interest of the County.

The Consultant shall have experience in the Federal Highway Administration Emergency Relief Program (FHWA-ER), the Federal Emergency Management Agency Public Assistance Program (FEMA-PA), and other applicable federal, state, and/or local programs to assist the County in its emergency response and recovery efforts. Proper documentation by the Consultant as required by FHWA and FEMA is required for all debris removal monitoring operations to ensure reimbursement to the County from the appropriate agency.

The Consultant will be responsible for tracking all of the contract costs and adhering to the "not to exceed" limit as defined. Proper notification must be given to the County as costs approach this limit.

The successful firm must adhere to all requirements and regulations established by the Federal Emergency Management Agency (FEMA), Federal Highway Administration (FHWA), Florida Department of Transportation (FDOT), and any other governmental agency with jurisdiction over response and recovery actions.

The Consultant shall assist the County specifically with debris management services to include, but not limited to, the following items:

- Provide training of select County staff in essential debris management and collection functions to insure appropriate and responsive interface with field debris collection contractors and County, state, and federal agencies.
- Provide field inspectors at designated check points to check and verify information on debris removal and at Temporary Debris Storage Reduction Site (TDSRS) located throughout Polk County.

The Consultant will provide assistance with the scheduling, dispatching and logistical operations of the field inspectors assigned to work areas for storm debris cleanup. This will include:

- Setting up the schedule for inspectors each day.
- Certification of the volumetric measurement (cy) either prior to or during and event of each truck that is added into service; this shall be the physical measurement of the truck bed.
- Keeping a record of contract haulers' trucks: cubic yardage, time in and out, number of loads/day, and other data as requested by designated County personnel.
- Determining truck assignments as well as a 2 week future schedule of where trucks will be.
- Coordinating with County personnel to respond to problems in the field.
- Conducting "end-of day" duties, such as verifying all trucks have left the disposal site, locking down of the facility.
- Surveying the area for special needs: identifying tree stumps, hazard trees, C&D debris, potential problems – a location list should be kept of these areas.
- Recording on a computer tracking system of the streets where debris was collected.
- Performing other duties as directed by dispatch/staging operation or designated County personnel.

The Consultant will collect baseline data per local, state and federal requirements from the designated emergency debris management sites prior to opening of the sites.

The Consultant will assist the County in obtaining necessary local, state and federal permits for the designated emergency debris management sites.

GENERAL REQUIREMENTS

The Contractor(s) shall furnish all necessary personnel, materials, equipment, labor, supervision, facilities, and shall otherwise provide all services necessary for, or incidental to, the performance of all work as defined in these specifications.

It is the sole responsibility of the Contractor(s) to ensure that, should Subcontractor(s) be utilized by the Contractor for any portion of the work, these Subcontractor(s) shall meet or exceed the same requirements instituted for the Contractor pertaining to this contract.

The Contractor(s) shall notify the County within (24) twenty four hours of notice of any legal or regulatory actions, or any Notices of Violation taken against the Contractor(s) or Subcontractor(s) utilized within the scope of this contract.

Upon receipt of the Notice of Violation or Warning Notice or upon notification or request from the County, the Contractor shall immediately prepare their response or draft a County response to the notice and begin corrective action against any non-complying condition. Failure by the Contractor to take corrective action which is required by law or the Contract Documents shall result in the County taking whatever measures are necessary to correct the condition and deducting the cost of such corrective action from the Contractor's Operating Fee Payment. The Contractor will be responsible for any fines resulting from any violations of Federal, State, or local laws or regulations.

Permits and licenses of a temporary nature necessary for the completion of contracted Services shall be secured and paid for by the Contractor with the assistance of the County, unless otherwise stated in this RFP. The Contractor shall not be held responsible to secure permits and/or licenses when the requirements for same have been waived due to a declaration of an emergency or disaster.

Under the general oversight of the County, the Contractor will supervise and direct all work, workers, and equipment. The Contractor is solely responsible for the means, methods, techniques, sequences, safety program, and procedures utilized. The

Contractor will employ and maintain on the work site a qualified and accessible supervisor(s) on the work site(s) and provide the County a liaison officer, as directed. At least one accessible and designated supervisor in the area of operation and the liaison officer shall have full authority to act on behalf of the Contractor and all communications given to the supervisor or liaison officer in writing by the County's Authorized Representative shall be as binding as if given to the Contractor.

The name(s) of the supervisor(s)\liaison officer will be supplied to the County for each issuance of an event Notice-To-Proceed. Additionally, a performance bond for the minimum amount of $1,000,000 will be required before the Notice-To-Proceed is issued. The actual amount will be determined at the time of the event and an adjusted performance bond will need to be obtained for the estimated total amount. Please see (Attachments D & E)

The Contractor shall have the ability to guarantee operations, and pay vendors and sub-contractor(s) for 60 days prior to receiving payments from the County.

Retainage in the amount of ten percent (10%) will be withheld until all work has been completed and has been approved by the County.

The Contractor shall participate in an annual on-sight pre-coordination meeting as directed by the County at no additional cost to the County.

The Contractor shall, to the extent practical, give priority to utilizing resources in Polk County and the surrounding area, including but not limited to procuring supplies and equipment, awarding subcontracts, and employing workers.

The Contractor shall make daily reports to the County to detail the progress of the debris removal and disposal program. Such reports shall include a description of all areas where work was done, detailing the street names, and address blocks where debris removal was completed. The reports must also include the types and volumes of

debris transported, reduced, and disposed. The Contractor shall also provide other operational and complaint tracking reports as requested by the County.

The Contractor shall disclose future debris management contractual obligations and provide reasonable assurance that such obligations will not preclude the Contractor from meeting its obligations under the contract resulting from this RFP. Such disclosure shall be provided to the County within 30 days of entering into said contractual obligation.

AGREEMENT

The term of this agreement will be for approximately 5 years. The Actual term will be negotiated as part of Elevation Level 4, Contract Negotiations.

SUBMITTAL

Submittals should not contain information in excess of that requested, must be concise, and must specifically address the issues of this RFP. The responses should be in the same order as the selection and evaluation procedures. Proposals are to be printed double-sided. Unnecessarily elaborate brochures or other presentations beyond those sufficient to present a complete and effective submittal to this solicitation are not desired and may be construed as an indication of the proposer's lack of cost consciousness. Elaborate artwork, expensive visual aids, and other presentation aids are neither necessary nor desired, unless specifically requested. The proposal submittals should be contained within a three (3) ring binder (original and each copy in separate binders). Each submittal should contain:

Tab 1, Introduction:

- Introduction letter describing your firm, experience, number of years in business, contact name, company address, phone number and email address of contact person. (One page, single or double sided)
- Attachment A – Understanding terms, conditions, and pricing may be used by any public agencies located within Polk County.

Tab 2, Experience and Expertise (40 Points)

- Provide your firm's organization structure.

- Provide a resume for the project manager and all key personnel that will be involved in providing the services as outlined in the scope of work. (1 page single or double sided for each resume)
- Describe the firm's experience with providing similar size and scope of work as outlined in this RFP. (One page, single or double sided)
- Provide a minimum of three (3) and a maximum of five (5) projects that demonstrates your firm's experience with debris removal services for similar scope of work services in the past five (5) years. At least two (2) of the projects shall be from a disaster recovery project performed for a public or governmental agency. At least three (3) of the projects shall be for disaster recovery project performed as the prime. At least two (2) of the projects shall be for projects in excess of 250,000 cubic yards. For each project identified please include (2 pages for each project, single or doubled sided):
    - Client name
    - Contact person
    - Contact's phone number and email address
    - Cost of the services
    - Start and end date of project.
    - Name of disaster and location of the project
    - Brief description of the services provided
        - A brief description of the project and what role your firm played in the project.
        - Identify if multiple temporary debris processing sites were established where collected debris was sorted, screened for sand, recycled, ground, mulched, burned, or otherwise segregated for transport and disposal.
        - Identify your firm's expertise and experience in assessing, removing, and disposing of specialty debris including hazardous materials, hazardous wastes, biohazardous wastes, dead animals, and hazardous stumps.

- Identify your firm's expertise and experience in demolition of structures, and debris removal from private property (Right-of-Entry Programs) and publicly owned property (other than Rights-of-Way).

Tab 3, Resources and Availability (40 points)

- Provide an organizational chart of the team highlighting the key individuals who will work on this contract as identified above.
- The key staff presented in the contractor's response shall be the staff utilized on this contract. Please provide the resumes of the key staff including, but not limited to, the items in the list below (One (1) page maximum per resume):
  a) Name and current position held by the person
  b) Name, title and project assignment
  c) Experience:
     (1) Types of projects.
     (2) Size of projects (dollar value of project).
     (3) What were their specific project involvements?

- Demonstrate each key staff's availability to respond to the needs of the project (Two (2) pages maximum for all key staff members)
- Identify sub-contractors or joint ventures to be used, if any. For each sub-contractor or joint venture identified please provide:

  - A brief description of their experience outlining their qualifications to perform the intended services
  - A brief resume for each key personnel that will be assigned to perform

Tab 4, Compensation Schedule (10 Points)

- The Respondent shall complete the compensation schedule included as Attachment B. The Consultant is to include all costs that the Consultant may anticipate incurring during the performance of the disaster recovery work as outlined on Attachment B. For items not listed, the County will only pay the FEMA rates.

- The hourly rates for labor may be increased by the Procurement Director after the contract has been in place for a minimum of 12-months, when it is in the best interest of the County. Increases will be determined by the appropriate price index as approved by the Procurement Director or Designee. No Board action will be necessary for labor rate increases.

- Proposers shall declare that, to the best of their knowledge and experience with Federal and State reimbursement procedures and requirements, that all proposed costs and payment methods are reasonable and customary for the service listed.

Tab 5, Surveys of Past Performance (10 Points)

- Provide reference surveys from past clients for the projects identified under Tab 2.
- Completed surveys. (See Exhibit 1) Procurement will take the average of all surveys and score as follows:
  - Average Score between 9-10 (10 Points)
  - Average Score between 7-8 (8 Points)
  - Average Score between 5-6 (6 Points)
  - Average Score between 3-4 (4 Points)
  - Average Score between 1-2 (2 Points)
  - Average Score of 0 (0 Points)

EVALUATION CRITERIA AND SELECTION PROCESS

Proposals will be evaluated in accordance with this section and all applicable County procurement policies and procedures.

The County shall appoint a selection committee (the "Selection Committee") that will be responsible for evaluating and scoring/ranking the Proposals in accordance with this Section.

The County will use a competitive selection process based on the Elevation Levels described in this Section. At Elevation Levels 2 and 3, the Selection Committee will score and/or rank the Proposals as applicable.

Selection of a final Proposal will be based upon the following steps and factors:

Elevation Level 1 (Procurement Requirements Assessment)

The County Procurement Division shall review all Proposals for conformance with RFP guidelines and detailed submittal requirements. At the County's discretion, non-conforming Proposals may be eliminated from further consideration and conforming Proposals shall be elevated to Elevation Level 2.

Procurement will distribute Proposals and evaluation criteria to the Selection Committee.

The Selection Committee may convene to review questions that arise during individual member review of submitted Proposals before Elevation Level 2 to allow for questions, clarifications, explanations, or other discussion to be held before the review of Proposals is completed.

Elevation Level 2 (Selection Committee Evaluation)

Procurement shall score each Proposal on the following evaluation criteria:

- Compensation (Tab 4)- 10 points
- Surveys of Past Performance (Tab 5)-10 points

  Subtotal Points-20 Points

by the process stated under each corresponding Tab description

Each Selection Committee member shall score each Proposal on the following evaluation criteria:

- Experience and Expertise (Tap 2)-40 points
- Approach and Methodology (Tab 3)-40 points

  Subtotal Points-80 points

by the following process:

Each Selection Committee member shall determine which of the following descriptions applies to each of the foregoing evaluation criteria:

EXCELLENT (1.0): Of the highest or finest quality; exceptional; superior; superb; exquisite; peerless. The Proposer provided information for a given criteria that satisfied the requirements and described specifically how and what will be accomplished in such a manner that exhibited an exceptional and superior degree of understanding, skill, and competency, both qualitatively and quantitatively. The facts included in the narrative (including all supporting documentation, diagrams, drawings, charts, and schedules, etc.) demonstrate the Proposer's ability to perform and deliver far beyond expectation.

VERY GOOD (0.8): To a high degree; better than or above competent and/or skillful. The Proposer provided information for a given criteria that satisfied the requirements and described specifically how and what will be accomplished in such a manner that exhibited a very high degree of understanding, skill, and competency, both qualitatively

and quantitatively. The facts included in the narrative (including all supporting documentation, diagrams, drawings, charts, and schedules, etc.) demonstrate the Proposer's ability to perform and deliver beyond expectation.

GOOD (0.6): Having positive or desirable qualities; competent; skilled; above average. The Proposer provided information for a given criteria that satisfied the requirements and described specifically how and what will be accomplished in such a manner that exhibited a skillful and above-average degree of understanding, skill, and competency, both qualitatively and quantitatively. The facts included in the narrative (including all supporting documentation, diagrams, drawings, charts, and schedules, etc.) demonstrate the Proposer's ability to perform and deliver at the expected level.

FAIR (0.4): Average; moderate; mediocre; adequate; sufficient; satisfactory; standard. The Proposer provided information for a given criteria that satisfied the requirements and described sufficiently how and what will be accomplished in a manner that exhibited an adequate and average degree of understanding, skill, and competency, both qualitatively and quantitatively. The facts included in the narrative (including all supporting documentation, diagrams, drawings, charts, and schedules, etc.) demonstrate the Proposer's ability to perform and deliver at a level slightly below expectation.

POOR (0.2): Inadequate; lacking; inferior in quality; of little or less merit; substandard; marginal.

The Proposer provided information for a given criteria that did not satisfy the requirements and described in an inadequate manner how and what will be accomplished. The information provided simply reiterated a requirement, contained inaccurate statements or references, lacked adequate information, or was of inferior quality. The facts included in the narrative (including all supporting documentation, diagrams, drawings, charts, and schedules, etc.) demonstrate the Proposer's ability to perform and deliver at a substandard and inferior level.

UNACCEPTABLE (0.0):

The Proposer failed to provide any information for a given criteria, provided information that could not be understood, or did not provide the information for a given category as requested.

After a Selection Committee member has determined the description applicable for each evaluation criterion, the total points available for such criterion shall be multiplied by the factor associated with the applicable description to produce the number of points allocated for that evaluation criterion. For example, a Selection Committee member classifies the "Experience and Expertise" criterion (which shall be worth 25 points for the purpose of this example) as "Very Good" (which is a description factor multiplier of 0.8). The points that Selection Committee member allocated for that evaluation criterion would be 20, calculated as follows: 25 available points x 0.8 applicable description factor multiplier = 20 points.

A Selection Committee member's total score for each Proposal shall equal the sum of the total points allocated for each evaluation criteria.

When all Selection Committee members have completed their Proposal evaluations, the individual Selection Committee member's total scores for each Proposal will be added together to produce a final score for each Proposal.

Procurement will confirm the calculations for the final score for each Proposal. Then, Procurement shall publish a rank-ordered listing of the Proposals to the Selection Committee with the Proposal receiving the highest point as the highest-ranked Proposal.

If the Selection Committee decides to interview Proposers based on the final scores, then at a minimum the Selection Committee shall elevate the two highest-ranked Proposers to Elevation Level 3 for interviews. If the Selection Committee decides not to interview Proposers, they will collectively decide if they would like to recommend the Board, or if applicable the County Manager authorize staff to enter into Contract Negotiations with all Proposers, starting with the highest scoring Proposer. After Board or County Manager approval, as applicable, to authorize staff to negotiate a contract, the Proposers will then be elevated to Elevation Level 4 for contract negotiations.

The determination of whether the County Manager may authorize negotiations, without further approval of the Board, is contingent upon whether the anticipated cost of the agreement exceeds $100,000. The County Manager may authorize contract negotiations for contracts which are not anticipated to exceed $100,000 in total.

Elevation Level 3 (Proposer Interviews)

The Selection Committee shall conduct interviews of the Proposers that it has elevated from Elevation Level 2 to Elevation Level 3. During an interview, elevated Proposers shall make a presentation describing the key elements of their Proposal and/or address any specific topics the Selection Committee may determine necessary. The Selection Committee members will have an opportunity to inquire about any aspect of the RFP and the Proposer's Proposal. After all elevated Proposer interviews, each Selection Committee member shall evaluate each Proposer with emphasis on the following:

Proposer interview and presentation focusing on the key elements of their presentation and answers to questions of the Selection Committee.

After the interviews, each Selection Committee member will individually rank the Proposers in numerical order beginning at number 1 for the highest-ranked Proposer. Procurement shall receive and compile each Selection Committee member's ranking of each Proposer, and then publish a rank-ordered listing of Proposers to the Selection Committee, based on the combined average rankings given each Proposer. The Selection Committee members will then collectively decide if they would like to recommend the Board, or if applicable the County manager, authorize staff to enter into Contract Negotiations with all Proposers elevated to Proposer Interviews, starting with the highest-ranked Proposer. After Board or County Manager approval, as applicable, to authorize staff to negotiate a contract, the highest-ranked Proposer will then be elevated to Elevation Level 4, Contract Negotiations.

The determination of whether the County Manager may authorize negotiations, without further approval of the Board, is contingent upon whether the anticipated cost of the agreement exceeds $100,000. The County Manager may authorize contract negotiations for contracts which are not anticipated to exceed $100,000 in total.

Elevation Level 4 (Contract Negotiations)

If a Proposer is elevated to this level, the User division, with the assistance of the Procurement and the County Attorney's Office, shall negotiate an Agreement with the elevated Proposer.

If after negotiating for a reasonable time period the parties cannot agree on a contract, the County shall, in its sole discretion, terminate further contract negotiations with that Proposer. Procurement shall notify the Selection Committee that contract negotiations with the elevated Proposer have terminated. The Selection Committee shall then determine whether to enter into contract negotiations with the next-highest-ranked Proposer, and so on. If the Selection Committee decides not to recommend contract negotiations with the next-highest-ranked Proposer, and so on, or if the County determines there is no other Proposer with whom the County can successfully negotiate a contract, then the RFP Selection Process shall terminate.

After contract negotiations with a Proposer are successfully completed pursuant to Elevation Level 4, the Selection Committee shall recommend to the Board of County Commissioners or County Manager, as applicable, that it selects such Proposer to provide the services as outlined in the Agreement. The Board of County Commissioners or County Manager, as applicable, shall make the final decision whether the County shall enter into an Agreement with a Proposer.

The determination of whether the County Manager may execute a contract, without further Board approval, is contingent upon whether the cost of the agreement exceeds $100,000. The County Manager may execute contracts that do not exceed $100,000 in total.

GENERAL CONDITIONS

BID OPENING

Proposers may attend the Bid Opening in person or via conference call by dialing (646) 558-8656 and enter Meeting ID: 327 647 2818. A listing of all proposers will be posted to Procurement's website as soon as possible after bid opening.

COMMUNICATIONS

After the issuance of any Request for Proposal, prospective proposers shall not contact, communicate with or discuss any matter relating in any way to the Request for Proposal with the Board of County Commissioners, the County Manager, or any employee of Polk County other than the Procurement Director or as directed in the cover page of the Request for Proposal. This prohibition begins with the issuance of any Request for Proposal and ends upon execution of the final contract. Such communications initiated by a proposer shall be grounds for disqualifying the offending proposer from consideration for award of the proposal and/or any future proposal.

INSURANCE REQUIREMENTS

The selected firm, if any, shall maintain, at all times, the following minimum levels of insurance and; shall, without in any way altering their liability, obtain, pay for and maintain insurance for the coverages and amounts of coverage not less than those set forth below. Provide to the County original Certificates of Insurance satisfactory to the County to evidence such coverage before any work commences. Polk County, a political subdivision of the State of Florida, shall be an additional named insured on all policies related to the project; excluding workers' compensation and professional liability. The Workers' Compensation and General Liability policies shall contain a waiver of subrogation in favor of Polk County. All insurance coverage shall be written with a company having an A.M. Best Rating of at least the "A" category and size category of VIII. The firm's deductible per line of coverage shall not exceed $25,000 without the permission of the County. Policies that include Self Insured Retention will not be accepted. In the event of any failure by the firm to comply with the provisions; the County may, at its option, on notice to the firm suspend the project for cause until there is full compliance. Alternatively, the County may purchase such insurance at the firm's expense, provided that the County shall have no obligation to do so and if the County shall do so, the firm shall not be relieved of or excused from the obligation to obtain and maintain such insurance amounts and coverages.

Workers' Compensation and Employer's Liability Insurance providing statutory benefits, including those that may be required by any applicable federal statute:

Admitted in Florida	Yes

Employer's Liability	$1,000,000
All States Endorsement	Statutory
Voluntary Compensation	Statutory

Commercial General Liability Insurance. $1,000,000 combined single limit of liability for bodily injuries, death, and property damage, and personal injury resulting from any one occurrence, including the following coverages:

Premises and Operations and Products/Completed Operations;

Broad Form Commercial General Liability Endorsement to include blanket contractual liability (specifically covering, but not limited to, the contractual obligations assumed by the Firm); Personal Injury (with employment and contractual exclusions deleted) and Broad Form Property Damage coverages;

Independent Contractors; Delete Exclusion relative to Collapse, Explosion and Underground Property Damage Hazards; Policy must include Separation of Insureds Clause.

Comprehensive Automobile Liability Insurance. $1,000,000 combined single limit of liability for bodily injuries, death, and property damage, and personal injury resulting from any one occurrence, including all owned, hired and non-owned vehicles.

Pollution Liability Insurance. $1,000,000 including pollution due to automobile operations.

INDEMNIFICATION

Consultant, to the extent permitted by law, shall indemnify, defend (by counsel reasonably acceptable to County), protect and hold the County, and its officers, employees and agents, harmless from and against any and all, claims, actions, causes of action, liabilities, penalties, forfeitures, damages, losses, and expenses whatsoever (including, without limitation, attorneys' fees, costs, and expenses incurred during negotiation, through litigation and all appeals therefrom) including, without limitation, those pertaining to the death of or injury to any person, or damage to any property, arising out of or resulting from (i) the failure of Consultant to comply with applicable laws, rules or regulations, (ii) the breach by Consultant of its obligations under any Agreement with the County entered into pursuant to this solicitation, (iii) any claim for trademark, patent, or copyright infringement arising out of the scope of Consultant's performance or nonperformance of the Agreement, or (iv) the negligent acts, errors or omissions, or intentional or willful misconduct, of Consultant, its professional associates,

subcontractors, agents, and employees; provided, however, that Consultant shall not be obligated to defend or indemnify the County with respect to any such claims or damages arising out of the County's sole negligence. The obligations imposed by this Section shall survive the expiration or earlier termination of the Agreement.

PUBLIC ENTITY CRIMES STATEMENT

The Consultant declares and warrants that neither the Consultant nor any of the Consultant's affiliates, as that term is defined in Section 287.133, Florida Statutes, are subject to the restrictions in Section 287.133, Florida Statutes, regarding the commission of a public entity crime. If during the term of this Agreement, the Consultant or any affiliate is convicted of a public entity crime or is otherwise prohibited from performing work for or transacting business with the County pursuant to Section 287.133, Florida Statutes, then the Consultant shall be in material default of this Agreement, and in such case, the County shall have the rights and remedies as provided herein.

EQUAL OPPORTUNITY/AFFIRMATIVE ACTION

The County is an equal opportunity/affirmative action employer. The County is committed to equal opportunity employment effort; and expects Consultants that do business with the County to have a vigorous affirmative action program.

WOMEN/MINORITY BUSINESS ENTERPRISE OUTREACH

The County hereby notifies all Proposers that W/MBE's are to be afforded a full opportunity to participate in any request for proposal by the County and will not be subject to discrimination on the basis of race, color, sex or national origin.

AFFIRMATION

By submitting their proposal, the Proposer affirms that the proposal is genuine and not made in the interest of or on behalf of any undisclosed person, Consultant or corporation and is not submitted in conformity with any agreement or rules of any group, association, organization or corporation; the Proposer has not directly or indirectly induced or solicited any other person to submit a false or sham proposal; the Proposer has not solicited or induced any person, Consultant or corporation to refrain from

submitting a proposal; and the Proposer has not sought by collusion to obtain for him/herself any advantage over other persons or over the County.

DEVELOPMENT COSTS

Neither the County nor its representative(s) shall be liable for any expenses incurred in connection with preparation of a submittal to the RFP. Proposers should prepare their proposals simply and economically, providing a straightforward and concise description of the proposer's ability to meet the requirements of the RFP.

ADDENDA

The County may record its responses to inquiries and any supplemental instructions in the form of written addenda. The addenda will be posted on the County's website at https://www.polk-county.net/business/procurement/. It is the sole responsibility of the proposers to check the website to ensure that all available information has been received prior to submitting a proposal.

CODE OF ETHICS

If any proposer violates or is a party to a violation of the code of ethics of Polk County or the State of Florida, with respect to this proposal, such proposer may be disqualified from performing the work described in this proposal or from furnishing the goods or services for which the proposal is submitted and shall be further disqualified from bidding on any future proposals for work, goods, or services for the County.

DRUG FREE WORKPLACE

Preference shall be given to businesses with Drug Free Workplace (DFW) programs. Whenever two or more proposals, which are equal with respect to price, quality and service, are received by the County for the procurement of commodities or contractual services, a proposal received from a business that has provided a statement that it is a DFW shall be given preference in the award process.

APPLICABLE LAWS AND COURTS

This RFP and any resulting agreements shall be governed in all respects by the laws of the State of Florida and any litigation with respect thereto shall be brought only in the courts of Polk County, State of Florida or the Middle District of Florida, Hillsborough

County, Florida. The proposer shall comply with all applicable federal, state and local laws and regulations.

CONTRACT

All contracts are subject to final approval of the Polk County Board of County Commissioners or County Manager, as applicable. Persons or Consultants which incur expenses or change position in anticipation of a contract prior to the Board's approval do so at their own risk.

PROPOSAL ACCEPTANCE PERIOD

A proposal shall be binding upon the offeror and irrevocable by it for one hundred and twenty (120) calendar days following the proposal opening date. Any proposal in which offeror shortens the acceptance period may be rejected.

ADDITION/DELETION

The County reserves the right to add to or delete any item from this proposal or resulting agreements when deemed to be in the best interest of the County.

INVOICING AND PAYMENT: The successful proposer shall submit a properly certified invoice to the County at the contract prices**. An original invoice shall be submitted to the appropriate User Division.** The proposer shall include the contract number and/or the purchase order number on all invoices. By submitting an invoice, the proposer's Project Manager or any authorized officer is attesting to the correctness and accuracy of all charges. Invoices will be processed for payment when approved by the appropriate Division's Project Manager or designee. The County's payment of an invoice shall not constitute evidence of the County's acceptance of the Proposers performance of the Service or the County's acceptance of any work.

PROPRIETARY INFORMATION

In accordance with Chapter 119 of the Florida Statutes (Public Records Law) and except as may be provided by other applicable State and Federal Law, all proposers should be aware that Request for Proposals and the submittals thereto are in the public domain. However, the proposers are required to identify specifically any information contained in their proposals which they consider confidential and/or proprietary and which they believe to be exempt from disclosure, citing specifically the applicable

exempting law. Proposers should provide a redacted copy of proposal with submittal, or must provide within thirty (30) days from the Proposal due date.

All proposals received from proposers in response to this Request for Proposal will become the property of the County and will not be returned to the proposers. In the event of contract award, all documentation produced as part of the contract will become the exclusive property of the County.

REVIEW OF PROPOSAL FILES

In accordance with Chapter 119.071 of the Florida Statutes, the submittals received for this Request for Proposal are exempt from review for thirty (30) days after the Bid Opening Date or at Recommendation of Award, whichever event occurs first.

Should the RFP be cancelled and re-solicited for any reason, proposal submittals shall remain exempt from disclosure for a period not to exceed twelve (12) months or at Recommendation of Award of the subsequent solicitation.

RFP PROTEST: Any proposer desiring to file a protest, with respect to a recommended award of any RFP, shall do so by filing a written protest. The written protest must be in the possession of the Procurement Division within three (3) working days of the Notice of Recommended Award mailing date. All proposers who submitted a proposal will be sent a Notice of Recommended Award, unless only one proposal was received.

A copy of the protest procedures may be obtained from the Polk County Procurement Division or can be downloaded from the County's website at https://www.polk-county.net/business/procurement/protest-procedures/.

FAILURE TO FOLLOW PROTEST PROCEDURE REQUIREMENTS WITHIN THE TIME FRAMES PRESCRIBED HEREIN AS ESTABLISHED BY POLK COUNTY, FLORIDA, SHALL CONSTITUTE A WAIVER OF THE PROPOSER'S RIGHT TO PROTEST AND ANY RESULTING CLAIM.

UNAUTHORIZED ALIEN(S)

The vendor agrees that unauthorized aliens shall not be employed nor utilized in the performance of the requirements of this solicitation. The County shall consider the employment or utilization of unauthorized aliens a violation of Section 274A(e) of the

Immigration and Naturalization Act (8 U.S.C. 1324a). Such violation shall be cause for unilateral termination of this Agreement by the County. As part of the response to this solicitation, the successful Consultant will complete and submit the attached form "AFFIDAVIT CERTIFICATION IMMIGRATION LAWS."

EMPLOYMENT ELIGIBILITY VERIFICATION (E-Verify)

A. Unless otherwise defined herein, terms used in this Section which are defined in Section 448.095, Florida Statutes, as may be amended from time to time, shall have the meaning ascribed in said statute.

B. Pursuant to Section 448.095(5), Florida Statutes, the contractor hereto, and any subcontractor thereof, must register with and use the E-Verify system to verify the work authorization status of all new employees of the contractor or subcontractor. The contractor acknowledges and agrees that (i) the County and the contractor may not enter into this Agreement, and the contractor may not enter into any subcontracts hereunder, unless each party to this Agreement, and each party to any subcontracts hereunder, registers with and uses the E-Verify system; and (ii) use of the U.S. Department of Homeland Security's E-Verify System and compliance with all other terms of this Certification and Section 448.095, Fla. Stat., is an express condition of this Agreement, and the County may treat a failure to comply as a material breach of this Agreement.

C. By entering into this Agreement, the contractor becomes obligated to comply with the provisions of Section 448.095, Fla. Stat., "Employment Eligibility," as amended from time to time. This includes but is not limited to utilization of the E-Verify System to verify the work authorization status of all newly hired employees, and requiring all subcontractors to provide an affidavit attesting that the subcontractor does not employ, contract with, or subcontract with, an unauthorized alien. The contractor shall maintain a copy of such affidavit for the duration of this Agreement. Failure to comply will lead to termination of this Agreement, or if a subcontractor knowingly violates the statute or Section 448.09(1), Fla. Stat., the subcontract must be terminated immediately. If this Agreement is terminated pursuant to Section 448.095, Fla. Stat., such termination is not a breach of contract and may not be considered as such. Any challenge to termination under this provision must be filed in the Tenth Judicial Circuit Court of Florida no later than 20 calendar days after the date of termination. If this Agreement is terminated for a violation of Section 448.095, Fla. Stat., by the contractor, the contractor may not be awarded a public contract for a period of 1 year after the date of termination. The contractor shall be liable for any additional costs incurred by the County as a result of the termination of this Agreement. Nothing in this Section shall be construed to allow intentional discrimination of any class protected by law.

LIMITATIONS

The County reserves the right to revise, amend or withdraw this proposal at any time to protect its interest. Proposers will not be compensated by the County for costs incurred in preparation of responses to this RFP.

ATTORNEY'S FEES AND COSTS: Each party shall be responsible for its own legal and attorney's fees, costs and expenses incurred in connection with any dispute or any litigation arising out of, or relating to this Agreement, including attorney's fees, costs and expenses incurred for any appellate or bankruptcy proceedings.

Prohibition Against Considering Vendor Interests: In accordance with Section 287.05701, Florida Statutes, the County may not (i) request documentation of or consider a Vendor's social, political, or ideological interests when determining if the Vendor is a responsible vendor; or (ii) give preference to a Vendor based on the Vendor's social, political, or ideological interests.

PUBLIC RECORD LAWS

(a)The Consultant acknowledges the County's obligations under Article I, Section 24, of the Florida Constitution and under Chapter 119, Florida Statutes, to release public records to members of the public upon request and comply in the handling of the materials created under this Agreement. The Consultant further acknowledges that the constitutional and statutory provisions control over the terms of this Agreement. In association with its performance pursuant to this Agreement, the Consultant shall not release or otherwise disclose the content of any documents or information that is specifically exempt from disclosure pursuant to all applicable laws.

(b) Without in any manner limiting the generality of the foregoing, to the extent applicable, the Consultant acknowledges its obligations to comply with Section 119.0701, Florida Statutes, with regard to public records, and shall:

(1) keep and maintain public records required by the County to perform the services required under this Agreement;

(2) upon request from the County's Custodian of Public Records or his/her designee, provide the County with a copy of the requested records or allow the records to be inspected or copied within a reasonable time at a cost that does not exceed the cost provided in Chapter 119, Florida Statutes, or as otherwise provided by law;

(3) ensure that public records that are exempt or confidential and exempt from public records disclosure requirements are not disclosed except as authorized by law for the duration of the term of this Agreement and following completion of this Agreement if the Consultant does not transfer the records to the County; and

(4) upon completion of this Agreement, transfer, at no cost, to the County all public records in possession of the Consultant or keep and maintain public records required by the County to perform the service. If the Consultant transfers all public records to the County upon completion of this Agreement, the Consultant shall destroy any duplicate public records that are exempt or confidential and exempt from public records disclosure requirements. If the Consultant keeps and maintains public records upon completion of this Agreement, the Consultant shall meet all applicable

requirements for retaining public records. All records stored electronically must be provided to the County, upon request from the County's Custodian of Public Records, in a format that is compatible with the information technology systems of the County.

(c) **IF THE CONSULTANT HAS QUESTIONS REGARDING THE APPLICATION OF CHAPTER 119, FLORIDA STATUTES, TO THE CONSULTANT'S DUTY TO PROVIDE PUBLIC RECORDS RELATING TO THIS AGREEMENT, CONTACT THE COUNTY'S CUSTODIAN OF PUBLIC RECORDS AT:**

RECORDS MANAGEMENT LIAISON OFFICER
POLK COUNTY
330 WEST CHURCH ST
BARTOW, FL 33830
TELEPHONE: (863) 534-7670
EMAIL: RMLO@POLK-COUNTY.NET

Scrutinized Companies and Business Operations Certification; Termination.

A. Certification(s)

(I) By its execution of this Agreement, the Vendor hereby certifies to the County that the Vendor is not on the Scrutinized Companies that Boycott Israel List, created pursuant to Section 215.4725, Florida Statutes, nor is the Vendor engaged in a boycott of Israel, nor was the Vendor on such List or engaged in such a boycott at the time it submitted its bid, proposal, quote, or other form of offer, as applicable, to the County with respect to this Agreement.

(II) Additionally, if the value of the goods or services acquired under this Agreement are greater than or equal to One Million Dollars ($1,000,000), then the Vendor further certifies to the County as follows:

(a) the Vendor is not on the Scrutinized Companies with Activities in Sudan List, created pursuant to Section 215.473, Florida Statutes; and
(b) the Vendor is not on the Scrutinized Companies with Activities in the Iran Petroleum Energy Sector List, created pursuant to Section 215.473, Florida Statutes; and
(c) the Vendor is not engaged in business operations (as that term is defined in Florida Statutes, Section 287.135) in Cuba or Syria; and
(d) the Vendor was not on any of the Lists referenced in this subsection A(ii), nor engaged in business operations in Cuba or Syria when it submitted its proposal to the County concerning the subject of this Agreement.

(iii) The Vendor hereby acknowledges that it is fully aware of the penalties that may be imposed upon the Vendor for submitting a false certification to the County regarding the foregoing matters.

B. Termination. In addition to any other termination rights stated herein, the County may immediately terminate this Agreement upon the occurrence of any of the following events:

(i) The Vendor is found to have submitted a false certification to the County with respect to any of the matters set forth in subsection A(i) above, or the Vendor is found to have been placed on the Scrutinized Companies that Boycott Israel List or is engaged in a boycott of Israel.

(ii) The Vendor is found to have submitted a false certification to the County with respect to any of the matters set forth in subsection A(ii) above, or the Vendor is found to have been placed on the Scrutinized Companies with Activities in Sudan List, or the Scrutinized Companies with Activities in the Iran Petroleum Energy Sector List, or has been engaged in business operations in Cuba or Syria, and the value of the goods or services acquired under this Agreement are greater than or equal to One Million Dollars ($1,000,000).

SUPPLEMENTAL CONDITIONS

Breach During Emergency Recovery Period. Pursuant to §252.505, Fla. Stat, in the event this Agreement concerns goods or services related to a natural emergency, Vendor agrees that if Vendor breaches this Agreement during the Emergency Recovery Period, then the County shall be entitled to (a) a payment of $5000, and (b) recovery of damages, which may take the form of actual and consequential damages or liquidated damages. The term "Emergency Recovery Period" means a one-year period that begins on the date the Governor of Florida initially declared a state of emergency for a natural emergency. This provision shall survive the termination of this Agreement.

FEDERAL CLAUSES

The County may seek funding reimbursement for all or a portion of the services provided under this Agreement from FEMA Public Assistance. In accordance with the federal procurement standards at 2 C.F.R. sections 200.317 through 200.327 the following clauses are incorporated in this bid, any resulting award with the prime Vendor, and any resulting contracts between the prime Vendor and sub-contractors and material suppliers. The following conditions are supplemental to the General Terms and Conditions. Where there is conflict, these Supplemental Conditions prevail unless the General Terms and Conditions are stricter.

Equal Employment Opportunity. (Only applicable to construction bids)

During the performance of this Contract, the Contractor agrees as follows:

(1) The Contractor will not discriminate against any employee or applicant for employment because of race, color, religion, sex, or national origin. The contractor will take affirmative action to ensure that applicants are employed, and that employees are treated during employment without regard to their race, color, religion, sex, or national origin. Such action shall include, but not be limited to the following: Employment, upgrading, demotion, or transfer; recruitment or recruitment advertising; layoff or termination; rates of pay or other forms of compensation; and selection for training, including apprenticeship. The contractor agrees to post in conspicuous places, available

to employees and applicants for employment, notices to be provided setting forth the provisions of this nondiscrimination clause.

(2) The Contractor will, in all solicitations or advertisements for employees placed by or on behalf of the contractor, state that all qualified applicants will receive considerations for employment without regard to race, color, religion, sex, or national origin.

(3) The Contractor will send to each labor union or representative of workers with which he has a collective bargaining agreement or other contract or understanding, a notice to be provided advising the said labor union or workers' representatives of the Contractor's commitments under this section and shall post copies of the notice in conspicuous places available to employees and applicants for employment.

(4) The contractor will comply with all provisions of Executive Order 11246 of September 24, 1965, and of the rules, regulations, and relevant orders of the Secretary of Labor.

(5) The Contractor will furnish all information and reports required by Executive Order 11246 of September 24, 1965, and by rules, regulations, and orders of the Secretary of Labor, or pursuant thereto, and will permit access to his books, records, and accounts by the administering agency and the Secretary of Labor for purposes of investigation to ascertain compliance with such rules, regulations, and orders.

(6) In the event of the Contractor's noncompliance with the nondiscrimination clauses of this contract/Purchase Order or with any of the said rules, regulations, or orders, this contract/Purchase Order may be canceled, terminated, or suspended in whole or in part and the contractor may be declared ineligible for further Government contracts or federally assisted construction contracts in accordance with procedures authorized in Executive Order 11246 of September 24, 1965, and such other sanctions as may be imposed and remedies invoked as provided in Executive Order 11246 of September 24, 1965, or by rule, regulation, or order of the Secretary of Labor, or as otherwise provided by law.

(7) The Contractor will include the portion of the sentence immediately preceding paragraph (1) and the provisions of paragraphs (1) through (7) in every subcontract or purchase order unless exempted by rules, regulations, or orders of the Secretary of Labor issued pursuant to section 204 of Executive Order 11246 of September 24, 1965, so that such provisions will be binding upon each subcontractor or vendor. The Contractor will take such action with respect to any subcontract or purchase order as the administering agency may direct as a means of enforcing such provisions, including sanctions for noncompliance: Provided, however, That in the event a Contractor becomes involved in, or is threatened with, litigation with a subcontractor or vendor as a result of such direction by the administering agency the contractor may request the United States to enter into such litigation to protect the interests of the United States.

Contract Work Hours and Safety Standards Act.

(1) Overtime requirements. Neither the Contractor, nor any subcontractor contracting for any part of the contract work which may require or involve the employment of laborers or mechanics shall require or permit any such laborer or mechanic in any workweek in which he or she is employed on such work to work in

excess of forty hours in such workweek unless such laborer or mechanic receives compensation at a rate not less than one and one-half times the basic rate of pay for all hours worked in excess of forty hours in such workweek.

(2) Violation; liability for unpaid wages; liquidated damages. In the event of any violation of the clause set forth in paragraph (1) of this section the Contractor and any subcontractor responsible therefor shall be liable for the unpaid wages. In addition, such contractor and subcontractor shall be liable to the United States (in the case of work done under contract for the District of Columbia or a territory, to such District or to such territory), for liquidated damages. Such liquidated damages shall be computed with respect to each individual laborer or mechanic, including watchmen and guards, employed in violation of the clause set forth in paragraph (1) of this section, in the sum of $10 for each calendar day on which such individual was required or permitted to work in excess of the standard workweek of forty hours without payment of the overtime wages required by the clause set forth in paragraph (1) of this section.

(3) Withholding for unpaid wages and liquidated damages. The (write in the name of the Federal agency or the loan or grant recipient) shall upon its own action or upon written request of an authorized representative of the Department of Labor withhold or cause to be withheld, from any moneys payable on account of work performed by the contractor or subcontractor under any such contract or any other Federal contract with the same prime contractor, or any other federally-assisted contract subject to the Contract Work Hours and Safety Standards Act, which is held by the same prime contractor, such sums as may be determined to be necessary to satisfy any liabilities of such contractor or subcontractor for unpaid wages and liquidated damages as provided in the clause set forth in paragraph (2) of this section.

(4) Subcontracts. The Contractor or subcontractor shall insert in any subcontracts the clauses set forth in paragraph (1) through (4) of this section and also a clause requiring the subcontractors to include these clauses in any lower tier subcontracts. The prime contractor shall be responsible for compliance by any subcontractor or lower tier subcontractor with the clauses set forth in paragraphs (1) through (4) of this section.

Clean Air Act and the Federal Water Pollution Control Act.

Clean Air Act

(1) The Contractor agrees to comply with all applicable standards, orders or regulations issued pursuant to the Clean Air Act, as amended, 42 U.S.C. § 7401 et seq.

(2) The Contractor agrees to report each violation to the County and understands and agrees that the County will, in turn, report each violation as required to assure notification to the State of Florida Department of Economic Opportunity, US Department of Housing and Urban Development, and the appropriate Environmental Protection Agency Regional Office.

(3) The Contractor agrees to include these requirements in each subcontract exceeding $150,000 financed in whole or in part with Federal assistance provided by US Department of Housing and Urban Development.

Federal Water Pollution Control Act

(1) The Contractor agrees to comply with all applicable standards, orders or regulations issued pursuant to the Federal Water Pollution Control Act, as amended, 33 U.S.C. 1251 et seq.

(2) The Contractor agrees to report each violation to the County and understands and agrees that the (County will, in turn, report each violation as required to assure notification to the Florida Department of Economic Opportunity, US Department of Housing and Urban Development, and the appropriate Environmental Protection Agency Regional Office.

(3) The Contractor agrees to include these requirements in each subcontract exceeding $150,000 financed in whole or in part with Federal assistance provided by US Department of Housing and Urban Development.

Debarment and Suspension. (Exhibit "A")

(1) This Contract/Purchase Order is a covered transaction for purposes of 2 C.F.R. pt. 180 and 2 C.F.R. pt. 3000. As such the contractor is required to verify that none of the Contractor, its principals (defined at 2 C.F.R. § 180.995), or its affiliates (defined at 2 C.F.R. § 180.905) are excluded (defined at 2 C.F.R. § 180.940) or disqualified (defined at 2 C.F.R. § 180.935).

(2) The Contractor must comply with 2 C.F.R. pt. 180, subpart C and 2 C.F.R. pt. 3000, subpart C and must include a requirement to comply with these regulations in any lower tier covered transaction it enters into.

(3) This certification is a material representation of fact relied upon by Polk County. If it is later determined that the Contractor did not comply with 2 C.F.R. pt. 180, subpart C and 2 C.F.R. pt. 3000, subpart C, in addition to remedies available to the Florida Division of Management and the County, the Federal Government may pursue available remedies, including but not limited to suspension and/or debarment.

(4) The bidder or proposer agrees to comply with the requirements of 2 C.F.R. pt. 180, subpart C and 2 C.F.R. pt. 3000, subpart C while this offer is valid and throughout the period of any contract or purchase order that may arise from this offer. The bidder or proposer further agrees to include a provision requiring such compliance in its lower tier covered transactions.

Byrd Anti-Lobbying Amendment, 31 U.S.C. § 1352 (as amended)

Contractors who apply or bid for an award of $100,000 or more shall file the required certification (attached hereto as Exhibit "B"). Each tier certifies to the tier above that it will not and has not used Federal appropriated funds to pay any person or organization for influencing or attempting to influence an officer or employee of any agency, a member of Congress, officer or employee of Congress, or an employee of a member of Congress in connection with obtaining any Federal contract, grant, or any other award covered by 31 U.S.C. § 1352. Each tier shall also disclose any lobbying with non-Federal funds that takes place in connection with obtaining any Federal award. Such disclosures are forwarded from tier to tier up to the recipient.

Procurement of Recovered Materials.

(1) In the performance of this Contract/Purchase Order, the Contractor shall to the greatest extent practicable and consistent with law, purchase, acquire, or use products and services that can be reused, refurbished, or recycled; contain recycled content, are biobased, or are energy and water efficient; and are sustainable. Additionally, Consultants shall make maximum use of products containing recovered materials that are EPA- designated items unless the product cannot be acquired—

(i) Competitively within a timeframe providing for compliance with the contract performance schedule;

(ii) Meeting contract performance requirements; or

(iii) At a reasonable price.

(2) Information about this requirement, along with the list of EPA-designate items, is available at EPA's Comprehensive Procurement Guidelines web site, https://www.epa.gov/smm/comprehensive-procurement-guideline-cpg-program."

Domestic Preference

In accordance with 2 CFR §200.322, to the greatest extent practicable and consistent with law under a Federal award, the County must provide a preference for the purchase acquisition, or use of goods, products, or materials produced in the United States (including but not limited to iron, aluminum, steel, cement, and other manufactured products). The requirements of this section must be included in all subawards including all contracts and purchase orders for work or products under this award. For purposes of this section:

(1) "Produced in the United States" means, for iron and steel products, that all manufacturing processes, from the initial melting stage through the application of coatings, occurred in the United States.

(2) "Manufactured products" means items and construction materials composed in whole or in part of non-ferrous metals such as aluminum; plastics and polymer based products such as polyvinyl chloride pipe; aggregates such as concrete; glass, including optical fiber; and lumber.

Affirmative Action.

In accordance with 2 CFR §200.321, the County is committed to taking all necessary steps to assure that minority businesses, women's business enterprises, veteran-owned businesses and labor surplus area firms are used when possible. The Contractor shall also take such affirmative steps in the selection of its subcontractors, laborers and materialmen. Affirmative steps include:

(1) Placing qualified small and minority businesses, women's business enterprises, and veteran-owned businesses on solicitation lists;

(2) Assuring that small and minority businesses, women's business enterprises, and veteran-owned businesses are solicited whenever they are potential sources;

(3) Dividing total requirements, when economically feasible, into smaller tasks or quantities to permit maximum participation by small and minority businesses,

women's business enterprises, and veteran-owned businesses;

(4) Establishing delivery schedules, where the requirement permits, which encourage participation by small and minority businesses, women's business enterprises, and veteran-owned businesses; and

(5) Using the services and assistance, as appropriate, of such organizations as the Small Business Administration and the Minority Business Development Agency of the Department of Commerce.

Access to Records. The following access to records requirements apply to this Purchase Order:

(1) The Contractor agrees to provide the Florida Department of Economic Opportunity, Polk County, the US Department of Housing and Urban Development Administrator, the Comptroller General of the United States, or any of their authorized representative's access to any books, documents, papers, and records of the Contractor which are directly pertinent to this Purchase Order for the purposes of making audits, examinations, excerpts, and transcriptions.

(2) The Contractor agrees to permit any of the foregoing parties to reproduce by any means whatsoever or to copy excerpts and transcriptions as reasonably needed.

(3) The Contractor agrees to provide the US Department of Housing and Urban Development Administrator or his authorized representative's access to construction or other work sites pertaining to the work being completed under the Purchase Order."

DHS Seal, Logo, and Flags. The Contractor shall not use the DHS seal(s), logos, crests, or reproductions of flags or likenesses of DHS agency officials without specific FEMA pre- approval.

Compliance with Federal Law, Regulations, and Executive Orders. This is an acknowledgement that US Department of Housing and Urban Development financial assistance will be used to fund the Purchase Order only. The Contractor will comply will all applicable federal law, regulations, executive orders, US Department of Housing and Urban Development policies, procedures, and directives.

No Obligation by Federal Government. The Federal Government is not a party to this Purchase Order and is not subject to any obligations or liabilities to the non-Federal entity, contractor, or any other party pertaining to any matter resulting from this Purchase Order.

Program Fraud and False or Fraudulent Statements or Related Acts.

The Contractor acknowledges that 31 U.S.C. Chap. 38 (Administrative Remedies for False Claims and Statements) applies to the Contractor's actions pertaining to this Purchase Order.

Default and Remedy

Process. If the Contractor materially defaults in the timely performance of any Contract obligation, or if the Contractor is otherwise in material default of the Contract, including, without limitation, the Contractor's failure to timely deliver any portion, or the entirety, of the Project Work in accordance with the Contract documents, then the County shall have the right to (i) with or without terminating the Contract, immediately call in any bonds or other form of security, and engage other Contractors or providers at the

Contractor's sole cost and expense to provide those unperformed or deficient Contract obligations of the Contractor; (ii) set-off the monetary amount of any and all damages arising therefrom, whether direct or indirect, actual or liquidated, from the amounts due Contractor pursuant to the Contract documents, (iii) immediately terminate the Contract by delivering written notice to the Contractor, and (iv) pursue any and all remedies available in law, equity, and under the Contract, including, without limitation, the recovery of any increased cost to the County to complete the Project Work due to the loss of CDBG-MIT funding caused, directly or indirectly, by the Contractor's delay. Upon any such termination pursuant to this Section, the County shall pay the Contractor the full amount due and owing for all services properly performed through the date of the Contract termination, less any amount subject to the County's right of set-off, and all liability of the County to the Contractor shall cease.

Certain Material Defaults.

Among other matters, including without limitation, the Contractor's failure to timely deliver any portion, or the entirety, of the Project Work in accordance with the Contract documents, as described immediately above, any of the following shall constitute the Contractor's material default of the Contract: the appointment of a receiver to take possession of all or substantially all of the Contractor's assets, a general assignment by the Contractor for the benefit of creditors, or any action taken by or suffered by Contractor under any insolvency or bankruptcy act; or the Contractor is convicted of a public entity crime, is determined to have violated federal or state law prohibiting discrimination as stated in Section 287.134, Florida Statutes, or is prohibited from performing work for or transacting business with the County pursuant to Section 287.133 or to Section 287.134, Florida Statutes; or an assignment of the Contract made without the express written consent of the County; or the submission of a false certification to the County or engagement in prohibited business operations, both as described in the Contract Documents.

Prohibition on Certain Telecommunications and Video Surveillance Services or Equipment

In accordance with 2 CFR §200.216 and Appendix II to Part 200, subsection (K), no funding or services provided pursuant to or in connection with this Contract, shall in any way be used to:

(1) Procure or obtain;

(2) Extend or renew a contract to procure or obtain; or

(3) Enter into a contract (or extend or renew a contract) to procure or obtain equipment, services, or systems that uses covered telecommunications equipment or services as a substantial or essential component of any system, or as critical technology as part of any system. As described in Public Law 115–232, section 889, covered telecommunications equipment is telecommunications equipment produced by Huawei Technologies Company or ZTE Corporation (or any subsidiary or affiliate of such entities).

(i) For the purpose of public safety, security of government facilities, physical security surveillance of critical infrastructure, and other national security purposes, video surveillance and telecommunications equipment produced by Hytera Communications Corporation, Hangzhou Hikvision Digital Technology Company, or Dahua Technology Company (or any subsidiary or affiliate of such entities).

(ii) Telecommunications or video surveillance services provided by such entities or using such equipment.

(iii) Telecommunications or video surveillance equipment or services produced or provided by an entity that the Secretary of Defense, in consultation with the Director of the National Intelligence or the Director of the Federal Bureau of Investigation, reasonably believes to be an entity owned or controlled by, or otherwise connected to, the government of a covered foreign country.

- ☐ Publicly Traded
- ☐ Employee Owned

State of Incorporation: _____

The Successful vendor must complete and submit this form prior to award. The Successful vendor must invoice using the company name listed above.

Drug-Free Workplace Form

(Submittal Page)

The undersigned vendor in accordance with Florida Statue 287.087 hereby certifies that, (Name of the Business): _____ does:

1. Publish a statement notifying employees that the unlawful manufacture, distribution, dispensing, possession or use of a controlled substance is prohibited in the workplace and specifying the actions that will be taken against employees for violations of such prohibition.
2. Inform employees about the dangers of drug abuse in the workplace, the business's policy of maintaining a drug-free workplace, any available drug counseling, rehabilitation programs, employee assistance programs and the penalties that may be imposed upon employees for drug abuse violations.
3. Give each employee engaged in providing the commodities or contractual services that are under this RFP a copy of the statement specified in subsection (1).
4. In the statement specified in subsection (1), notify the employees that, as a condition of working on the commodities or contractual services that are under this RFP, the employee will abide by the terms of the statement and will notify the employer of any conviction of, plea of guilty or nolo contendere to, any violation of Chapter 1893 or of any controlled substance law of the United States or any state, for a violation occurring in the workplace no later than five (5) days after such conviction.
5. Impose a sanction on or require the satisfactory participation in a drug abuse assistance or rehabilitation program, if such is available in the employee's community, by any employee who is so convicted.
6. Make a good faith effort to continue to maintain a drug-free workplace through implementation of this section.

As the person authorized to sign the statement, I certify that this firm complies fully with the above requirements.

EXHIBIT 1
DETAILED INSTRUCTIONS ON HOW TO PREPARE AND SEND PERFORMANCE SURVEYS

The objective of this process is to identify the past performance of the Consultant submitting a proposal package. This is accomplished by sending survey forms to past customers. The customers should return the forms directly to the Consultant. The Consultant is to include all surveys in their proposal package.

Sending the Survey

The surveys shall be sent to all clients for whom the Consultant has identified under Tab 2. Surveys should correlate to all projects identified under Tab 2.

If more surveys are included, Procurement will only use those identified under Tab 2.

1. The Consultant shall complete the following information for each customer that a survey will be sent

CLIENT NAME	Name of the company that the work was performed for (i.e. Hillsborough County).
FIRST NAME	First name of the person who will answer customer satisfaction questions.
LAST NAME	Last name of the person who will answer customer satisfaction questions.
PHONE NUMBER	Current phone number for the reference (including area code).
EMAIL ADDRESS	Current email address for the reference.
PROJECT NAME	Name of the project (Monitoring Services for Hillsborough County Hurricane Milton), Etc.
COST OF SERVICES	Cost of services ($1,000,000)
DATE COMPLETE	Date when the services were completed. (i.e. 5/31/2023)

2. The Consultant is responsible for verifying that their information is accurate prior to submission for references.

3. The survey must contain different services/projects. You cannot have multiple people evaluating the same job. However, one person may evaluate several different jobs.

4. The past projects can be either completed or on-going.

5. The past client/owner must evaluate and complete the survey.

Preparing the Surveys

1. The Consultant is responsible for sending out a performance survey to the clients that have been identified under Tab 2. The survey can be found on the next page.
2. The Consultant should enter the past clients' contact information, and project information on each survey form for each reference. The Consultant should also enter their name as the Consultant being surveyed.
3. The Consultant is responsible for ensuring all references/surveys are included in their submittal under Tab 5
4. Polk County Procurement may contact the reference for additional information or to clarify survey data. If the reference cannot be contacted, there will be no credit given for that reference.

Survey Questionnaire – Polk County

RFP 26-012, Disaster Debris Monitoring Services

To: _____ (Name of Person completing survey)

_____ (Name of Client Company/Consultant)

Phone Number: _____ Email: _____

Subject: Past Performance Survey of Similar work:

Project name: _____

Name of Vendor being surveyed: _____

Cost of Services: Original Cost: _____ Ending Cost: _____

Contract Start Date: _____ Contract End Date: _____

Rate each of the criteria on a scale of 1 to 10, with 10 representing that you were very satisfied (and would hire the Consultant /individual again) and 1 representing that you were very unsatisfied (and would never hire the Consultant /individual again). Please rate each of the criteria to the best of your knowledge. If you do not have sufficient knowledge of past performance in a particular area, leave it blank.

NO	CRITERIA	UNIT	SCORE
1	Ability to manage cost	(1-10)	
2	Ability to maintain project schedule (complete on-time/early)	(1-10)	
3	Quality of workmanship	(1-10)	
4	Professionalism and ability to manage	(1-10)	
5	Ability to communicate with Debris Removal Contractor	(1-10)	
6	Ability to communicate with Client's staff	(1-10)	
7	Ability to resolve issues promptly	(1-10)	
8	Ability to follow protocol	(1-10)	
9	Ability to maintain proper documentation	(1-10)

EMPLOYMENT ELIGIBILITY VERIFICATION (E-VERIFY) CERTIFICATION
(Florida Statutes, Section 448.095)

PROJECT NAME: _____

The undersigned, as an authorized officer of the contractor identified below (the "**Contractor**"), having full knowledge of the statements contained herein, hereby certifies to Polk County, a political subdivision of the State of Florida (the "**County**"), by and on behalf of the Contractor in accordance with the requirements of Section 448.095, Florida Statutes, as related to the contract entered into by and between the Contractor and the County on or about the date hereof, whereby the Contractor will provide labor, supplies, or services to the County in exchange for salary, wages, or other remuneration (the "**Contract**"), as follows:

1. Unless otherwise defined herein, terms used in this Certification which are defined in Section 448.095, Florida Statutes, as may be amended from time to time, shall have the meaning ascribed in said statute.

2. Pursuant to Section 448.095(5), Florida Statutes, the Contractor, and any subcontractor under the Contract, must register with and use the E-Verify system to verify the work authorization status of all new employees of the Contractor or subcontractor. The Contractor acknowledges and agrees that (i) the County and the Contractor may not enter into the Contract, and the Contractor may not enter into any subcontracts thereunder, unless each party to the Contract, and each party to any subcontracts thereunder, registers with and uses the E-Verify system; and (ii) use of the U.S. Department of Homeland Security's E-Verify System and compliance with all other terms of this Certification and Section 448.095, Fla. Stat., is an express condition of the Contract, and the County may treat a failure to comply as a material breach of the Contract.

3. By entering into the Contract, the Contractor becomes obligated to comply with the provisions of Section 448.095, Fla. Stat., "Employment Eligibility," as amended from time to time. This includes but is not limited to utilization of the E-Verify System to verify the work authorization status of all newly hired employees, and requiring all subcontractors to provide an affidavit attesting that the subcontractor does not employ, contract with, or subcontract with, an unauthorized alien. The Contractor shall maintain a copy of such affidavit for the duration of the Contract. Failure to comply will lead to termination of the Contract, or if a subcontractor knowingly violates the statute or Section 448.09(1), Fla. Stat., the subcontract must be terminated immediately. If the Contract is terminated pursuant to Section 448.095, Fla. Stat., such termination is not a breach of contract and may not be considered as such. Any challenge to termination under this provision must be filed in the Tenth Judicial Circuit Court of Florida no later than 20 calendar days after the date of termination. If the Contract is terminated for a violation of Section 448.095, Fla. Stat., by the Contractor, the Contractor may not be awarded a public contract for a period of 1 year after the date of termination. The Contractor shall be liable for any additional costs incurred by the County as a result of the termination of the Contract. Nothing in this Certification shall be construed to allow intentional discrimination of any class protected by law.

CERTIFICATIONS REGARDING DEBARMENT, SUSPENSION, PROPOSED DEBARMENT, AND OTHER RESPONSIBILITY MATTERS

For all awards, subawards, and contracts with certain parties that are debarred, suspended, or otherwise excluded from or ineligible for participation in Federal assistance programs and activities, the Offeror must complete and sign the following:

The Offeror certifies, to the best of its knowledge and belief, that-

(1) This contract is a covered transaction for purposes of 2 C.F.R. pt. 180 and 2 C.F.R. pt. 3000. As such the contractor is required to verify that none of the contractor, its principals (defined at 2 C.F.R. § 180.995), or its affiliates (defined at 2 C.F.R. § 180.905) are excluded (defined at 2 C.F.R. § 180.940) or disqualified (defined at 2 C.F.R. § 180.935).

(2) The contractor must comply with 2 C.F.R. pt. 180, subpart C and 2 C.F.R. pt. 3000, subpart C and must include a requirement to comply with these regulations in any lower tier covered transaction it enters into.

(3) This certification is a material representation of fact relied upon by Polk County, a political subdivision of the State of Florida (the "County"). If it is later determined that the contractor did not comply with 2 C.F.R. pt. 180, subpart C and 2 C.F.R. pt. 3000, subpart C, in addition to remedies available to the Florida Division Emergency Management, the County, and the Federal Government may pursue available remedies, including but not limited to suspension and/or debarment.

(4) The bidder or proposer agrees to comply with the requirements of 2 C.F.R. pt. 180, subpart C and 2 C.F.R. pt. 3000, subpart C while this offer is valid and throughout the period of any contract that may arise from this offer. The bidder or proposer further agrees to include a provision requiring such compliance in its lower tier covered transactions.

APPENDIX A, 44 C.F.R. PART 18 – CERTIFICATION REGARDING LOBBYING

Certification for Contracts, Grants, Loans, and Cooperative Agreements

(To be submitted with each bid or offer exceeding $100,000)

The undersigned _____ (Contractor) certifies, to the best of his or her knowledge, that:

1. No Federal appropriated funds have been paid or will be paid, by or on behalf of the undersigned, to any person for influencing or attempting to influence an officer or employee of an agency, a Member of Congress, an officer or employee of Congress, or an employee of a Member of Congress in connection with the awarding of any Federal contract, the making of any Federal grant, the making of any Federal loan, the entering into of any cooperative agreement, and the extension, continuation, renewal, amendment, or modification of any Federal contract, grant, loan, or cooperative agreement.

2. If any funds other than Federal appropriated funds have been paid or will be paid to any person for influencing or attempting to influence an officer or employee of any agency, a Member of Congress, an officer or employee of Congress, or an employee of a Member of Congress in connection with this Federal contract, grant, loan, or cooperative agreement, the undersigned shall complete and submit Standard Form- LLL, "Disclosure Form to Report Lobbying," in accordance with its instructions.

3. The undersigned shall require that the language of this certification be included in the award documents for all subawards at all tiers (including subcontracts, subgrants, and contracts under grants, loans, and cooperative agreements) and that all subrecipients shall certify and disclose accordingly.

This certification is a material representation of fact upon which reliance was placed when this transaction was made or entered into. Submission of this certification is a prerequisite for making or entering into this transaction imposed by 31, U.S.C. § 1352 (as amended by the Lobbying Disclosure Act of 1995). Any person who fails to file the required certification shall be subject to a civil penalty of not less than $10,000 and not more than $100,000 for each such failure.

The Contractor, _____ , certifies or affirms the truthfulness and accuracy of each statement of its certification and disclosure, if any. In addition, the Contractor understands and agrees that the provisions of 31 U.S.C. § 3801 *et seq.*, apply to this certification and disclosure, if any.

Date _____

Draft Agreement
Disaster Debris Monitoring Services

THIS AGREEMENT (the "Agreement") is entered into as of the Effective Date (defined in Section 1, below) by and between Polk County (the "County"), a political subdivision of the State of Florida, situated at 330 W. Church Street, Bartow, Florida, 33830, and _____ (the "Consultant"), a _____ corporation, at _____, and whose Federal Employer Identification Number is _____.

WHEREAS, the Consultant has considerable expertise in debris removal monitoring services; and

WHEREAS, the County desires to employ the Consultant to provide disaster debris removal monitoring services; and

WHEREAS, the County has solicited for these consultant services via an advertised request for proposal ("RFP 26-012") and has received numerous responsive proposals thereto; and

WHEREAS, after review and consideration of all responsive proposals, the County intends to engage the Consultant to provide it the disaster debris monitoring services; and

WHEREAS, the Consultant is able and agreeable to providing the County the services and represents that it is competent, qualified, capable and prepared to do so according to the terms and conditions stated herein;

NOW, THEREFORE, in consideration of the mutual understandings and covenants set forth herein, the County and the Consultant hereby agree, as follows:

1.0 **Effective Date; Term**

1.1 This Agreement shall take effect on the date (the "Effective Date") of its execution by the County.

1.2 The term of this Agreement shall be for a five (5) year time period, commencing upon the Effective Date and remaining in full force and effect thereafter, unless otherwise sooner terminated as provided herein.

2.0 **Consultant Services**

2.1 The County does hereby retain the Consultant to furnish those services and to perform those tasks (collectively, the "Services") as further described in (i) the County's Request for Proposals RFP #26-012, to include all attachments and addenda, and (ii) the Consultant's responsive proposal thereto (collectively, (i) and (ii) are "RFP 26-012"), all of which are

incorporated into this Agreement by this reference, attached hereto as a composite Exhibit "A" and made a part of this Agreement.

2.2 Consultant shall perform the services described in the Scope of Services section of RFP 26-012, as those Services may be further specifically designated and authorized by the County in a separate written Notice to Proceed the County will deliver to the Consultant prior to the Consultant's commencement of the Services required in association with the County's clean-up and recovery from a particular disaster or emergency event. The form for the Notice-to-Proceed shall be substantially in the form provided on Exhibit "E" which is attached hereto and made a part of this Agreement.

2.3 The County will contact and coordinate with the Consultant prior to issuing a Notice to Proceed for a disaster or emergency event. The Consultant will provide the name(s) of the supervisor(s)\liaison officer who will be primarily responsible for the Consultant providing the required Services. Additionally, before the Notice-To-Proceed is issued the Consultant will deliver to the County a performance bond in the form provided on Exhibit "D" which is attached hereto and made a part hereof in an amount to be reasonably determined by the County but which will not be less than $500,000.00. The actual bond amount will be determined based upon the estimated costs of the Services required as a consequence of the particular disaster or emergency event.

2.4 The Consultant acknowledges that the County has engaged a secondary vendor and may engage a tertiary vendor to provide the Services described in RFP 20-299 should the County determine in its sole and absolute discretion that the Consultant may, is or will be unable to perform the full scope of work of a particular project within the time period the County requires all such work to be completed.

3.0 **Compensation**

3.1 General

3.1.1 In consideration for its providing the Services, during the Agreement Term the County shall pay the Consultant a fee that shall not exceed the amounts stated in Exhibit "B", which is attached hereto and made a part of this Agreement (the "Compensation Schedule"). The Compensation Schedule identifies all billable services pursuant to this Agreement and the associated amount the County will pay the Consultant for Services performed. The County is not obligated to pay the Consultant a fee for any work performed or Services provided not listed

on the Compensation Schedule. The rates shown on the Compensation Schedule may be increased annually by written authorization of the Procurement Director following the one year anniversary of the Effective Date, when it is in the best interest of the County. Rate increases will be determined by the appropriate price index as approved by the Procurement Director. No action by the Board of County Commissioners will be necessary for such rate increases

3.1.2 At its option the County may choose to engage the Consultant to perform additional, related consulting services beyond the scope of the Services for which the County shall pay the Consultant in accordance with the rates set forth in the Compensation Schedule.

3.1.3 All the Consultant's invoices for payment must reference the Agreement and must be submitted using a form approved by the County Auditor.

3.1.4 The Consultant shall attach all appropriate cost substantiations to the invoice and shall deliver the invoices to:

Roads and Drainage Division
3000 Sheffield Road
Winter Have, FL 33880

3.1.5 The Consultant will clearly state "Final Invoice" on the Consultant's final/last billing for the Services rendered to the County. The Consultant's submission of a Final Invoice is its certification that all Services have been properly performed and all charges and costs have been invoiced to the County. This account will be closed upon the County's receipt of a Final Invoice. The Consultant hereby waives any charges not properly included on its Final Invoice.

3.1.6 The County's payment of the Final Invoice shall not constitute evidence of the County's acceptance of the Consultant's performance of the Service or the County's acceptance of any work.

3.1.7 By its submission of an invoice, the Consultant's project manager or designated payroll officer shall be deemed to be attesting to the correctness and accuracy of all charges and requested reimbursements stated in such invoice.

3.1.8 The Consultant's requests for payment of "out-of-pocket" expenses eligible for reimbursement under the terms of this Agreement shall be reimbursed per the County's Reimbursable Schedule that is attached as Exhibit "C" and made a part of this Agreement. The Consultant's requests for payment shall include copies of paid receipts, invoices or other

documentation acceptable to the County's Auditor. To qualify for reimbursement, the Consultant's documentation shall be sufficient to establish that the expense was actually incurred and necessary in the performance of the Services performed in accordance with this Agreement

4.0 **Consultant's Responsibilities**

4.1 The Consultant shall be responsible for the professional quality, accuracy, competence, methodology, and the coordination of all Services performed pursuant to this Agreement.

4.2 The County's review, approval, acceptance, or payment for any of the Consultant's Services shall not be construed to: (i) operate as a waiver of any rights the County possesses under this Agreement; or (ii) waive or release any claim or cause of action arising out of the Consultant's performance or nonperformance of this Agreement. The Consultant shall be and will always remain liable to the County in accordance with applicable law for any and all damages to the County caused by the Consultant's negligent or wrongful performance or nonperformance of any of the Services to be furnished under this Agreement.

5.0 **Ownership of Documents**

All analyses, reference data, bills, completed reports, or any other form of written instrument or document created or resulting from the Consultant's performance of the Services pursuant to this Agreement shall become the property of the County after payment is made to the Consultant for such instruments or documents.

6.0 **Termination**

6.1 The County may terminate this Agreement, in whole or in part, at any time, either for the County's convenience or because of the failure of the Consultant to fulfill its obligations under this Agreement, subject to the cure period provided in Section 26.0, by delivering written notice to the Consultant. Upon receipt of such notice, the Consultant shall:

6.1.1 Immediately discontinue all affected Services unless the notice directs otherwise, and

6.1.2 Deliver to the County all data, reports, summaries, and any and all such other information and materials of whatever type or nature as may have been accumulated by the Consultant in performing this Agreement, whether completed or in process.

6.2 Unless in dispute or subject to the County's right of set-off or other remedy, the Consultant shall be paid for Services actually rendered to the date of termination.

6.3 The rights and remedies of the County provided for in this Section 6 are in addition and supplemental to any and all other rights and remedies provided by law or under this Agreement.

7.0 **No Contingent Fees**

The Consultant warrants that it has not employed or retained any company or person, other than a bona fide employee working solely for the Consultant to solicit or secure this Agreement and that it has not paid or agreed to pay any person, company, corporation, individual or firm, other than a bona fide employee working solely for the Consultant, any fee, commission, percentage, gift, or other consideration contingent upon or resulting from award of or making of the Agreement. For the breach or violation of this provision, the County shall have the right to terminate the Agreement at its sole discretion, without liability and to deduct from the Agreement price, or otherwise recover, the full amount of such fee, commission, percentage, gift, or consideration.

8.0 **Assignment**

The Consultant shall not assign, transfer, or encumber this Agreement, or any interest herein, under any circumstances, without obtaining the prior written consent of the County, which consent may be withheld in the County's exercise of its reasonable discretion.

9.0 **Professional Associates and Subcontractors**

If the Consultant requires the assistance of any professional associates or subcontractors in connection with its providing the Services the Consultant must obtain the prior express written approval of the County, which the County may withhold in its discretion, before any such professional associate or subcontractor may perform any work for the County. If after obtaining the County's approval the Consultant utilizes any professional associates or subcontractors in the delivery of the Services then the Consultant shall remain solely and fully liable to the County for the performance or nonperformance of all such professional associates and subcontractors. The failure of a professional associate or subcontractor to timely or properly perform any of its obligations to the Consultant shall not relieve the Consultant of its obligations to the County under this Agreement.

10.0 **Indemnification of County**

Consultant, to the maximum extent permitted by law, shall indemnify, defend (by counsel reasonably acceptable to County) protect and hold the County, and its officers, employees and

agents harmless from and against any and all, claims, actions, causes of action, liabilities, penalties, forfeitures, damages, losses, and expenses (including, without limitation, attorneys' fees costs and expenses incurred during negotiation, through litigation and all appeals therefrom) whatsoever including, but not limited, to those pertaining to the death of or injury to any person, or damage to any property, arising out of or resulting from (i) the failure of Consultant to comply with applicable laws, rules or regulations, (ii) the breach by Consultant of its obligations under this Agreement, (iii) any claim for trademark, patent or copyright infringement arising out of the scope of Consultant's performance or nonperformance of this Agreement, or (iv) the negligent acts, errors or omissions, or intentional or willful misconduct, of Consultant, its professional associates, subcontractors, agents, and employees provided, however, that Consultant shall not be obligated to defend or indemnify the County with respect to any such claims or damages arising out of the County's sole negligence.

11.0 **Insurance Requirements**

The Consultant shall maintain at all times the following minimum levels of insurance and shall, without in any way altering its liability, obtain, pay for and maintain insurance for the coverage and amounts of coverage not less than those set forth below. The Consultant shall provide the County original Certificates of Insurance satisfactory to the County to evidence such coverage before any work commences. The County shall be named as an additional insured on General and Automobile Liability policies. General Liability and Workers' Compensation policies shall contain a waiver of subrogation in favor of Polk County. The commercial General Liability Policy shall (by endorsement if necessary) provide contractual liability coverage for the contractual indemnity stated in Section 10, above. All insurance coverage shall be written with a company having an A.M. Best rating of at least the "A" category and size category of VIII. The Consultant's self-insured retention or deductible per line of coverage shall not exceed $25,000 without the permission of the County. In the event of any failure by the Consultant to comply with the provisions of this Section 11, the County may, at its option, upon notice to the Consultant suspend Consultant's performance of the Services for cause until there is full compliance. Alternatively, the County may purchase such insurance at the Consultant's expense, provided that the County shall have no obligation to do so and if the County shall do so, the Consultant shall not be relieved of or excused from the obligation to obtain and maintain such insurance amounts and coverage.

Comprehensive Automobile Liability Insurance. $1,000,000.00 combined single limit of liability for bodily injuries, death and property damage resulting from any one occurrence, including all owned, hired, and non-owned vehicles.

Commercial General Liability. $1,000,000.00 combined single limit of liability for bodily injuries, death and property damage, and personal injury resulting from any one occurrence, including the following coverages:

Premises and Operations:

> Broad Form Commercial General Liability Endorsement to include Blanket Contractual liability (specifically covering, but not limited to, the contractual obligations assumed by the Firm); Personal Injury (with employment and contractual exclusions deleted); and Broad Form Property Damage coverage.

Independent Contractors:

> Delete Exclusion relative to collapse, explosion and underground; Property Damage Hazards; Cross Liability Endorsement; and Contractual liability (specifically covering, but not limited to, the contractual obligations assumed by the Firm)

Workers Compensation. The Consultant shall provide, pay for, and maintain workers compensation insurance on all employees, its agents or subcontractors as required by Florida Statutes.

Pollution Liability Insurance: $1,000,000 including pollution due to automobile operations.

Employer's Liability. $1,000,000.

12.0 **Public Entity Crimes**

The Contractor declares and warrants that neither the Contractor nor any of the Contractor's affiliates, as that term is defined in Section 287.133, Florida Statutes, are subject to the restrictions in Section 287.133, Florida Statutes, regarding the commission of a public entity crime. If during the term of this Agreement, the Contractor or any affiliate is convicted of a public entity crime or is otherwise prohibited from performing work for or transacting business with the County pursuant to Section 287.133, Florida Statutes, then the Contractor shall be in material

default of this Agreement, and in such case, the County shall have the rights and remedies as provided herein.

13.0 **Non-Discrimination**

The Consultant warrants and represents that all of its employees are treated equally during employment without regard to race, color, religion, gender, age or national origin.

14.0 **Designation of Party Representatives**

14.1 Upon receipt of a request from the Consultant, the County shall designate in writing one or more of its employees who are authorized to act by and on behalf of the County to transmit instructions, receive information and interpret and define the County's policy and decisions with respect to the Services to be provided pursuant to this Agreement.

14.2 The Consultant shall designate or appoint one or more Consultant representatives who are authorized to act on behalf of and to bind the Consultant regarding all matters involving the conduct of its performance pursuant to this Agreement.

15.0 **All Prior Agreements Superseded**

This document incorporates and includes all prior negotiations, correspondence, conversations, agreements or understandings applicable to the matters contained herein and the parties agree that there are no commitments, agreements or understandings concerning the subject matter of this Agreement that are not contained in this document or its designated exhibits. Accordingly, it is agreed that no deviation from the terms hereof shall be predicated upon any prior representations or agreements, whether oral or written.

16.0 **Modifications, Amendments or Alterations**

No modification, amendment or alteration in the terms or conditions contained herein shall be effective unless agreed to and executed in writing by both parties to this Agreement in a form acceptable to the County.

17.0 **Independent Contractor**

Nothing stated in this Agreement is intended or should be construed in any manner as creating or establishing a relationship of co-partners between the parties, or as constituting the Consultant (including its officers, employees, and agents) as the agent, representative, or employee of the County for any purpose, or in any manner, whatsoever. The Consultant is to be and shall remain forever an independent contractor with respect to all Services performed under this Agreement. The Consultant shall not pledge the County's credit or make the County a guarantor

of payment or surety for any contract, debt, obligation, judgment, lien or any form of indebtedness and the Consultant shall have no right to speak for or bind the County in any manner.

18.0 **Public Records Law**

(a) The Contractor acknowledges the County's obligations under Article I, Section 24, of the Florida Constitution and under Chapter 119, Florida Statutes, to release public records to members of the public upon request and comply in the handling of the materials created under this Agreement. The Contractor further acknowledges that the constitutional and statutory provisions control over the terms of this Agreement. In association with its performance pursuant to this Agreement, the Contractor shall not release or otherwise disclose the content of any documents or information that is specifically exempt from disclosure pursuant to all applicable laws.

(b) Without in any manner limiting the generality of the foregoing, to the extent applicable, the Contractor acknowledges its obligations to comply with Section 119.0701, Florida Statutes, with regard to public records, and shall:

(1) keep and maintain public records required by the County to perform the services required under this Agreement;

(2) upon request from the County's Custodian of Public Records or his/her designee, provide the County with a copy of the requested records or allow the records to be inspected or copied within a reasonable time at a cost that does not exceed the cost provided in Chapter 119, Florida Statutes, or as otherwise provided by law;

(3) ensure that public records that are exempt or confidential and exempt from public records disclosure requirements are not disclosed except as authorized by law for the duration of the term of this Agreement and following completion of this Agreement if the Contractor does not transfer the records to the County; and

(4) upon completion of this Agreement, transfer, at no cost, to the County all public records in possession of the Contractor or keep and maintain public records required by the County to perform the service. If the Contractor transfers all public records to the County upon completion of this Agreement, the Contractor shall destroy any duplicate public records that are exempt or confidential and exempt from public records disclosure requirements. If the Contractor keeps and maintains public records upon completion of this Agreement, the Contractor shall meet all applicable requirements for retaining public records. All records stored electronically must be provided to the County, upon request from the County's Custodian of Public Records, in a format that is compatible with the information technology systems of the County.

(c) **IF THE CONTRACTOR HAS QUESTIONS REGARDING THE APPLICATION OF CHAPTER 119, FLORIDA STATUTES, TO THE CONTRACTOR'S DUTY TO PROVIDE PUBLIC RECORDS RELATING TO THIS AGREEMENT, CONTACT THE COUNTY'S CUSTODIAN OF PUBLIC RECORDS AT:**

RECORDS MANAGEMENT LIAISON OFFICER
POLK COUNTY
330 WEST CHURCH ST.
BARTOW, FL 33830
TELEPHONE: (863) 534-7670
EMAIL: RMLO@POLK-COUNTY.NET

19.0 **Compliance with Laws and Regulations**

In providing all Services pursuant to this Agreement, the Consultant shall abide by all statutes, ordinances, rules, and regulations pertaining to or regulating the provisions of such Services, including those now in effect and hereafter adopted. Any violation of said statutes, ordinances, rules, or regulations shall constitute a material breach of this Agreement, and shall entitle the County to terminate this Agreement immediately upon delivery of written notice of termination to the Consultant.

20.0 **Governing Law and Venue**

This Agreement shall be governed in all respects by the laws of the State of Florida and any litigation with respect thereto shall be brought only in the courts of Polk County, Florida or in the United States District Court, Middle District of Florida, located in Hillsborough County, Florida. Each party shall be responsible for its own attorneys' fees and other legal costs and expenses.

21.0 **Notices**

Whenever either party desires to give notice unto the other, it must be given by written notice, delivered (i) in person, (ii) via registered or certified United States mail, postage prepaid with return receipt requested, or (iii) via nationally recognized overnight delivery service, and addressed to the party for whom it is intended at the place last specified by each party. The place for giving of notice shall remain such until it is changed by written notice delivered in compliance with the provisions of this Section 21. For the present, the parties designate the following as the respective places for giving of notice, to wit:

For County: Roads & Drainage Division
3000 Sheffield Road
Winter Haven, FL 33880

For Consultant: _____
_____
_____
Attention: _____

22.0 Severability

The invalidity, illegality, or unenforceability of any provision of this Agreement, or the occurrence of any event rendering any portion or provision of this Agreement void, shall in no way affect the validity or enforceability of any other portion or provision of the Agreement; any

void provision shall be deemed severed from the Agreement and the balance of the Agreement shall be construed and enforced as if the Agreement did not contain the particular portion or provision held to be void. The parties further agree to reform the Agreement to replace any stricken provision with a valid provision that comes as close as possible to the intent of the stricken provision. The provisions of this section shall not prevent the entire Agreement from being void should a provision which is of the essence of the Agreement be determined to be void.

23.0 Annual Appropriations

Consultant acknowledges that during any fiscal year the County shall not expend money, incur any liability, or enter into any agreement which by its terms involves the expenditure of money in excess of the amounts budgeted as available for expenditure during such fiscal year. Accordingly, any agreement, verbal or written, the County may make in violation of this fiscal limitation is null and void, and no money may be paid on such agreement. The County may enter into agreements whose duration exceeds one year; however, any such agreement shall be executory only for the value of the services to be rendered which the County agrees to pay as allocated in its annual budget for each succeeding fiscal year. Accordingly, the County's performance and obligation to pay the Consultant under this Agreement is contingent upon annual appropriations being made for that purpose.

24.0 Employment Eligibility Verification (E-VERIFY)

A. Unless otherwise defined herein, terms used in this Section which are defined in Section 448.095, Florida Statutes, as may be amended from time to time, shall have the meaning ascribed in said statute.

B. Pursuant to Section 448.095(5), Florida Statutes, the contractor hereto, and any subcontractor thereof, must register with and use the E-Verify system to verify the work authorization status of all new employees of the contractor or subcontractor. The contractor acknowledges and agrees that (i) the County and the contractor may not enter into this Agreement, and the contractor may not enter into any subcontracts hereunder, unless each party to this Agreement, and each party to any subcontracts hereunder, registers with and uses the E-Verify system; and (ii) use of the U.S. Department of Homeland Security's E-Verify System and compliance with all other terms of this Certification and Section 448.095, Fla. Stat., is an express condition of this Agreement, and the County may treat a failure to comply as a material breach of this Agreement.

C. By entering into this Agreement, the contractor becomes obligated to comply with the provisions of Section 448.095, Fla. Stat., "Employment Eligibility," as amended from time to time. This includes but is not limited to utilization of the E-Verify System to verify the work authorization status of all newly hired employees, and requiring all subcontractors to provide an affidavit attesting that the subcontractor does not employ, contract with, or subcontract with, an unauthorized alien. The contractor shall maintain a copy of such affidavit for the duration of this Agreement. Failure to comply will lead to termination of this Agreement, or if a subcontractor

knowingly violates the statute or Section 448.09(1), Fla. Stat., the subcontract must be terminated immediately. If this Agreement is terminated pursuant to Section 448.095, Fla. Stat., such termination is not a breach of contract and may not be considered as such. Any challenge to termination under this provision must be filed in the Tenth Judicial Circuit Court of Florida no later than 20 calendar days after the date of termination. If this Agreement is terminated for a violation of Section 448.095, Fla. Stat., by the contractor, the contractor may not be awarded a public contract for a period of 1 year after the date of termination. The contractor shall be liable for any additional costs incurred by the County as a result of the termination of this Agreement. Nothing in this Section shall be construed to allow intentional discrimination of any class protected by law.

25.0 Consultant Representations

25.1 The Consultant hereby represents and warrants the following to the County:

25.1.1 Consultant is a _____ corporation that is duly organized and existing in good standing under the laws of the State of _____ with full right and authority to do business within the State of Florida.

25.1.2 Consultant's performance under this Agreement will not violate or breach any contract or agreement to which the Consultant is a party or is otherwise bound, and will not violate any governmental statute, ordinance, rule, or regulation.

25.1.3 Consultant has the full right and authority to enter into this Agreement and to perform its obligations in accordance with its terms.

25.1.4 Consultant now has and will continue to maintain all licenses and approvals required to conduct its business, and that it will at all times conduct its business activities in a reputable manner.

25.1.5 Consultant has no obligation or indebtedness that would impair its ability to fulfill the terms of this Agreement.

25.1.6 Consultant has the personnel and experience necessary to perform all Services in a professional and workmanlike manner.

25.1.7 Consultant shall exercise the same degree of care, skill, and diligence in the performance of the Services as provided by a professional of like experience, knowledge and resources, under similar circumstances.

25.1.8 Consultant shall, at no additional cost to County, re-perform those Services which fail to satisfy the foregoing standard of care or which otherwise fail to meet the requirements of this Agreement.

25.1.9 Each individual executing this Agreement on behalf of the Consultant is authorized to do so.

26.0 Default and Remedy

If the Consultant materially defaults in its obligations under this Agreement and fails to cure the same within fifteen (15) days after the date the Consultant receives written notice of the default from the County, then the County shall have the right to (i) immediately terminate this Agreement by delivering written notice to the Consultant, and (ii) pursue any and all remedies available in law, equity, and under this Agreement. If the County materially defaults in its obligations under this Agreement and fails to cure the same within fifteen (15) days after the date the County receives written notice of the default from the Consultant, then the Consultant shall have the right to immediately terminate this Agreement by delivering written notice to the County. Upon any such termination, the County shall pay the Consultant the full amount due and owing for all Services performed through the date of Agreement termination.

27.0 Limitation of Liability

IN NO EVENT, SHALL THE COUNTY BE LIABLE TO THE CONSULTANT FOR INDIRECT, INCIDENTAL, CONSEQUENTIAL, SPECIAL, EXEMPLARY, OR PUNITIVE DAMAGES OF ANY KIND OR NATURE, INCLUDING LOSS OF PROFIT, WHETHER FORESEEABLE OR NOT, ARISING OUT OF OR RESULTING FROM THE NONPERFORMANCE OR BREACH OF THIS CONTRACT BY THE COUNTY WHETHER BASED IN CONTRACT, COMMON LAW, WARRANTY, TORT, STRICT LIABILITY, CONTRIBUTION, INDEMNITY OR OTHERWISE.

28.0 Waiver

A waiver by either County or Consultant of any breach of this Agreement shall not be binding upon the waiving party unless such waiver is in writing. In the event of a written waiver, such a waiver shall not affect the waiving party's rights with respect to any other or further breach of this Agreement. The making or acceptance of a payment by either party with the knowledge of the other party's existing default or breach of the Agreement shall not waive such default or breach, or any subsequent default or breach of this Agreement, and shall not be construed as doing so.

29.0 Attorneys' Fees and Costs

Each party shall be responsible for its own legal and attorneys' fees, costs and expenses incurred in connection with any dispute or any litigation arising out of, or relating to this

Agreement, including attorneys' fees, costs, and expenses incurred for any appellate or bankruptcy proceedings.

30.0 Force Majeure

Either party hereunder may be temporarily excused from performance if an Event of Force Majeure directly or indirectly causes its nonperformance. An "Event of Force Majeure" is defined as any event which results in the prevention or delay of performance by a party of its obligations under this Agreement and which is beyond the reasonable control of the nonperforming party. It includes, but is not limited to fire, flood, earthquakes, storms, lightning, epidemic, war, riot, civil disturbance, sabotage, and governmental actions. Neither party shall be excused from performance if non-performance is due to forces which are reasonably preventable, removable, or remediable and which the non-performing party could have, with the exercise of reasonable diligence, prevented, removed, or remedied prior to, during, or immediately after their occurrence. Within five (5) days after the occurrence of an Event of Force Majeure, the non-performing party shall deliver written notice to the other party describing the event in reasonably sufficient detail, along with proof of how the event has precluded the non-performing party from performing its obligations hereunder, and a good faith estimate as to the anticipated duration of the delay and the means and methods for correcting the delay. The non-performing party's obligations, so far as those obligations are affected by the Event of Force Majeure, shall be temporarily suspended during, but no longer than, the continuance of the Event of Force Majeure and for a reasonable time thereafter as may be required for the non-performing party to return to normal business operations. If excused from performing any obligations under this Agreement due to the occurrence of an Event of Force Majeure, the non-performing party shall promptly, diligently, and in good faith take all reasonable action required for it to be able to commence or resume performance of its obligations under this Agreement. During any such time period, the non-performing party shall keep the other party duly notified of all such actions required for it to be able to commence or resume performance of its obligations under this Agreement.

31.0 Key Personnel

The Consultant shall notify the County if any of the Consultant's Key Personnel (as defined, below) change during the Term of the Agreement. To the extent possible, the Consultant shall notify the County at least ten (10) days prior to any proposed change in its Key Personnel. At the County's request the Consultant shall remove without consequence to the County any of

the Consultant's contractors, sub-contractors, sub-consultants, agents or employees and replace the same with an appropriate substitute having the required skill and experience necessary to perform the Services. The County shall have the right to reject the Consultant's proposed changes in Key Personnel. The following individuals shall be considered "Key Personnel:"

Name: _____

Name: _____

Name: _____

Name: _____

32.0 Scrutinized Companies and Business Operations Certification; Termination.

A. Certification(s).

(i) By its execution of this Agreement, the Vendor hereby certifies to the County that the Vendor is not on the Scrutinized Companies that Boycott Israel List, created pursuant to Section 215.4725, Florida Statutes, nor is the Vendor engaged in a boycott of Israel, nor was the Vendor on such List or engaged in such a boycott at the time it submitted its bid, proposal, quote, or other form of offer, as applicable, to the County with respect to this Agreement.

(ii) Additionally, if the value of the goods or services acquired under this Agreement are greater than or equal to One Million Dollars ($1,000,000), then the Vendor further certifies to the County as follows:

(a) the Vendor is not on the Scrutinized Companies with Activities in Sudan List, created pursuant to Section 215.473, Florida Statutes; and

(b) the Vendor is not on the Scrutinized Companies with Activities in the Iran Petroleum Energy Sector List, created pursuant to Section 215.473, Florida Statutes; and

(c) the Vendor is not engaged in business operations (as that term is defined in Florida Statutes, Section 287.135) in Cuba or Syria; and

(d) the Vendor was not on any of the Lists referenced in this subsection A(ii), nor engaged in business operations in Cuba or Syria when it submitted its proposal to the County concerning the subject of this Agreement.

(iii) The Vendor hereby acknowledges that it is fully aware of the penalties that may be imposed upon the Vendor for submitting a false certification to the County regarding the foregoing matters.

B. Termination. In addition to any other termination rights stated herein, the County may immediately terminate this Agreement upon the occurrence of any of the following events:

(i) The Vendor is found to have submitted a false certification to the County with respect to any of the matters set forth in subsection A(i) above, or the Vendor is found to have been placed on the Scrutinized Companies that Boycott Israel List or is engaged in a boycott of Israel.

(ii) The Vendor is found to have submitted a false certification to the County with respect to any of the matters set forth in subsection A(ii) above, or the Vendor is found to have been placed on the Scrutinized Companies with Activities in Sudan List, or the Scrutinized Companies with Activities in the Iran Petroleum Energy Sector List, or has been engaged in business operations in Cuba or Syria, and the value of the goods or services acquired under this Agreement are greater than or equal to One Million Dollars ($1,000,000).

33. No Construction Against Drafter

The Parties acknowledge that this Agreement and all the terms and conditions contained herein have been fully reviewed and negotiated by the Parties. Accordingly, any rule of construction to the effect that ambiguities are to be resolved against the drafting party shall not apply in interpreting this Agreement.

34. Unauthorized Alien(s)

The Consultant shall not employ or utilize unauthorized aliens in the performance of the Services provided pursuant to this Agreement. The County shall consider the employment or utilization of unauthorized aliens a violation of Section 274A(e) of the Immigration and Naturalization Act (8 U.S.C. 1324a) and a cause for the County's unilateral termination of this Agreement. When delivering executed counterparts of this Agreement to the County, the Consultant shall also deliver a completed and executed counterpart of the attached "AFFIDAVIT CERTIFICATION IMMIGRATION LAWS" form.

**(THE REMAINDER OF THE PAGE IS LEFT INTENTIONALLY BLANK;
THE AGREEMENT CONTINUES ON THE FOLLOWING PAGE
WITH THE PARTIES SIGNATURES.)**

IN WITNESS WHEREOF, the parties hereto have executed this Agreement as of the Effective Date.

Hourly Labor Rates for Disaster Debris Monitoring Services
CONTRACTOR will be compensated on the actual hours of services furnished multiplied by the rates listed in Table 1 below.

Table 1: Hourly Labor Rates

Labor Category	Hourly Rate
Principal-in-Charge	
Project Manager	
Deputy Project Manager	
Operations Manager	
FEMA Coordinator	
Field Supervisor	
Scheduling/Routing Managers	
GIS Operator	
Disposal Site Monitor	
Collection Monitor	
Citizen Drop-off Site Monitor	
Billing/Invoicing/Data Manager	
Load Ticket Data Entry Clerk	
Project Coordinator	
Principal Public Assistance Advisor	
Senior Public Assistance Manager	
Public Assistance Analyst	

In accordance with 2 CFR 200.318, Hourly labor rates shall be direct labor hours charged at fixed hourly rates that reflect wages, general and administrative expenses, travel (mileage, lodging, per diem, etc.), and profit.

Reimbursable costs are allowed if pre-approved to by the County. These costs are limited to office equipment/supplies, office space, cameras, GPS equipment, safety equipment and any other items requested by the County that is not part of the normal work function.

Subcontractor services will be reimbursed at actual costs.

***For items not listed, the County will only pay FEMA approved rates**
****Hourly rates cannot exceed FEMA approved rates**

Attachment "C"

DAP9523.11

FEMA

DISASTER ASSISTANCE POLICY

I. TITLE: Hazardous Stump Extraction and Removal Eligibility

II. DATE: MAY 15 2007

III. PURPOSE:

Establish criteria used to reimburse applicants for removing eligible hazardous stumps from public or, where authorized, private property.

IV. SCOPE AND AUDIENCE:

The policy is applicable to all major disasters and emergencies declared on or after the date of publication. It is intended for all personnel involved in the administration and execution of the Public Assistance Program, including applicants.

V. AUTHORITY:

Sections 403 and 407 of the Robert T. Stafford Disaster Relief and Emergency Assistance Act, 42 U.S.C. 5121-5206, as amended.

VI. BACKGROUND:

Public Assistance regulations authorize reimbursement for the removal of debris from public and private land when it is in the public interest. Such removal is in the public interest when it is necessary to: eliminate immediate threats to life, public health and safety, or eliminate immediate threats of significant damage to improved public or private property; or to ensure economic recovery of the affected community to the benefit of the community at large. Trees that are uprooted during a disaster event such that all or part of their roots are exposed may pose an immediate threat to public health and safety.

VII. POLICY:

A. When a disaster event uproots a tree or stump (i.e., 50% or more of root ball is exposed) on a public right-of-way, improved public property or improved property owned by certain private nonprofit organizations, and the exposed root ball poses an immediate threat to life, public health and safety, FEMA may provide supplemental assistance to remove, transport, dispose, and provide fill for the root cavity of an eligible uprooted tree or stump. The Federal Emergency Management Agency (FEMA) will reimburse applicants reasonable costs for this type of work only when uprooted stumps are more than 24 inches in diameter (measured two feet from the ground), with the consensus of the Applicant and the State, and is approved in

advance by FEMA, using the attached Hazardous Stump Worksheet.

1. If it is necessary to remove an uprooted stump before it can be inspected by FEMA because it poses a threat that must be dealt with immediately, the applicant must submit documentation, to FEMA including photographs, that establishes its location on public property, specifics on the threat, stump diameter measured two feet up the trunk from the ground, quantity of material to fill the hole, and any special circumstances.

2. FEMA will reimburse applicants for extraction, transport and disposal of stumps with a diameter of 24 inches or smaller at the unit cost rate for regular vegetative debris, using the attached Stump Conversion Table, as such stumps do not require special equipment.

3. FEMA will reimburse applicants at the unit cost rate (usually cubic yards) for normal debris removal for all stumps, regardless of size, placed on the rights-of-way by others (i.e., contractors did not extract them from public property or property of eligible Private Non Profit organization). In such instances, applicants do not incur additional cost to remove these stumps because the same equipment that is used to pick up "regular" debris can be used to pick-up these stumps.

4. If an applicant incurs additional costs in picking up large stumps (over 24 inches in diameter) from rights-of-way, it should complete the Hazardous Stump Worksheet and present documentation to FEMA in advance for consideration.

5. Stumps with less than 50% of their root ball exposed should be cut flush at ground level and the cut portion included with regular vegetative debris.

6. Straightening or bracing of trees is eligible for reimbursement if it is less costly than removal and disposal. Applicant must provide a cost analysis showing cost effectiveness.

VIII. ORIGINATING OFFICE: Disaster Assistance Directorate (Public Assistance Division)

IX. SUPERSESSION: This policy supersedes Recovery Policy Number 9523.11, Hazard Stump Removal and Extraction Eligibility dated May 6, 2006.

X. REVIEW DATE: Three years from the date of publication.

David Garratt
Acting Assistant Administrator
Disaster Assistance Directorate

Stump Conversion Table

Diameter to Volume Capacity

The quantification of the cubic yards of debris for each size of stump in the following table was derived from FEMA field studies conducted throughout the State of Florida during the debris removal operations following Hurricanes Charley, Frances, Ivan and Jeanne. The following formula is used to derive cubic yards:

$$\frac{[(\text{Stump Diameter}^2 \times 0.7854) \times \text{Stump Length}] + [(\text{Root Ball Diameter}^2 \times 0.7854) \times \text{Root Ball Height}]}{46656}$$

0.7854 is one-fourth Pi and is a constant.
46656 is used to convert cubic inches to cubic yards and is a constant

The formula used to calculate the cubic yardage used the following factors, based upon findings in the field:

- Stump diameter measured two feet up from ground
- Stump diameter to root ball diameter ratio of 1:3.6
- Root ball height of 31"

Stump Diameter (Inches)	Debris Volume (Cubic Yards)	Stump Diameter (Inches)	Debris Volume (Cubic Yards)
6	0.3	46	15.2
7	0.4	47	15.8

Attachment D

EVENT PERFORMANCE BOND

PERFORMANCE BOND

KNOW ALL MEN BY THESE PRESENTS: That _____, as Principal, and _____ as Surety, located at _____ (Business Address) are held and firmly bound unto Polk County, a political subdivision of the State of Florida, as Obligee, in the sum of Dollars ($_____) in lawful currency of the United States, for the payment whereof we bind ourselves, successors, and assigns, jointly and severally, firmly by these presents.

THE CONDITION OF THIS BOND is that if the Principal:

Promptly, faithfully, efficiently and fully performs all work, services, duties and obligations set forth and described in that certain purchase order dated _____, 20__ (the "Purchase Order") between Principal and Obligee for performance of debris removal at any County location arising from damage caused by a disaster event, at the times and in the manner prescribed in the Purchase Order; and

Pays Obligee all losses, damages (liquidated or actual), expenses, costs, and attorney's fees, including, without limitation, costs and attorney's fees on appeal, that Obligee sustains resulting directly or indirectly from any breach or default by Principal under the Purchase Order; and

Performs the guarantee of all work and materials furnished under the Purchase Order for the time specified therein; and

Satisfies all claims and demands incurred under the Purchase Order, and fully indemnifies and holds harmless the Obligee from all costs and damages which it may suffer by reason or failure to do so;

then the Surety shall have no obligation under this Performance Bond.

In the event that the Principal shall fail to perform any of the terms, covenants and conditions of the Purchase Order during the period in which this Performance Bond is in effect, the Surety shall remain liable to the Obligee for all such loss or damage (including reasonable attorney's fees and costs and attorney's fees on appeal) resulting from any failure to perform up to the amount of the sum stated above.

In the event that the Surety fails to fulfill its obligations under this Performance Bond, then the Surety shall also indemnify and hold the Obligee harmless from any and all loss, damage, cost and expense, including reasonable attorney's fees and costs for all trial and appellate proceedings, resulting directly or indirectly from the Surety's failure to fulfill its obligations hereunder. This paragraph shall survive the termination or cancellation of this Performance Bond.

The Surety, for value received, hereby stipulates and agrees that its obligations hereunder shall be direct and immediate and not conditional or contingent upon the Obligee's pursuit of its remedies against Principal, shall remain in full force and effect notwithstanding (i) amendments or modifications to the Purchase Order entered into by Obligee and Principal without the Surety's knowledge or consent (ii) waivers of compliance with or any default under the Purchase Order granted by Obligee to Principal without the Surety's knowledge or consent, or (iii) the discharge of Principal from its obligations under the Purchase Order as a result of any proceeding initiated under the Bankruptcy code of 1978, as the same may be amended, or any similar state or federal law, or any limitation of the liability or Principal or its estate as a result of any proceeding.

Any changes in or under the Purchase Order and compliance or non-compliance with any formalities connected with the Purchase Order or the changes shall not affect Surety's obligation under this Performance Bond. The Principal shall notify the Surety of all such changes.

Reference is hereby made to Section 255.05, Florida Statutes, and to the notice and time limitation provisions thereof.

IN WITNESS WHEREOF, this instrument is executed this _____ day of _____, 20__.

RFP 26-012, Disaster Debris Monitoring Services
Addendum # 4

Question 1: If this is a term contract subject to renewal, what is the maximum number of option periods?
Answer 1: The term is 5 years from the effective date of the agreement.

Question 2: Has the current contract gone full term?
Answer 2: The current agreements were set to expire on February 15, 2026, but have been extended and will remain in place until the new agreements are in effect.

Question 3: Have all options to extend the current contract been exercised?
Answer 3: Yes.

Question 4: Who is the incumbent, and how long has the incumbent been providing the requested services?
Answer 4: The current incumbents are Tetra Tech, Inc. as the primary and Thompson Consulting Services, LLC as the secondary. These agreements have been in place since February 16, 2021.

Question 5: What is the maximum number of hours post-event before work must commence?
Answer 5: Staff is communicating 24 to 48 hours before impact. Successful vendors are expected to mobilize as soon as the storm has passed, and the weather conditions are safe to drive in.

Question 6: Are any specific professional credentials required to qualify for the contract?
Answer 6: The vendor must demonstrate significant professional expertise in hurricane response, mitigation, and recovery services including proven experience working in post – storm environments.

Question 7: Will the resulting contract include a guaranteed minimum payment to the vendor?
Answer 7: Yes.

Question 8: Are there any superseding prior agreements that may impact this contract?
Answer 8: No.

Question 9: When/what was the most recent event that precipitated the activation of the existing or previous contract?
Answer 9: Hurricane Milton 2024

Question 10:	Approximately how many cubic yards of debris were collected from the most recent event?
Answer 10:	1 million (Vegetative & C&D)
Question 11:	What estimated or actual dollars were paid to the incumbent(s) after the most recent event?
Answer 11:	Estimated 5.5 Million
Question 12:	How many times have the incumbent's services been utilized in the previous five years?
Answer 12:	The incumbent's services were utilized twice for two different hurricanes and yearly for truck / equipment certification.
Question 13:	If there was a previous solicitation for these services, what was its title, number, release date, and due date?
Answer 13:	RFP 20-299, Disaster Debris Monitoring Services, Released September 3, 2020, and opened October 14, 2020.
Question 14:	When is the anticipated contract start date?
Answer 14:	The agreement is anticipated to be executed in April or May 2026.
Question 15:	Can you please provide greater explanation of your expectations related to any required subcontracting to minority-owned, women-owned, or other types or categories of small or disadvantaged businesses? For example, what is required with the proposal, and what is required to comply during the term of the contract?
Answer 15:	No expectations are applicable with FEMA Funds.
Question 16:	Are bidders permitted to deviate in any way from any manner of quoting fees you may be expecting? For example, if there is a pricing page in the RFP, can bidders submit an alternate fee structure? If there is no pricing page in the RFP, do you have any preference for how bidders should quote fees or can bidders create their own pricing categories?
Answer 16:	No, Proposers must use the pricing sheet provided in the RFP. Negotiations on alternate pricing may be made at Level 4 of the Elevation.
Question 17:	Please describe your level of satisfaction with your current or recent vendor(s) for the same purchasing activity, if applicable?
Answer 17:	Polk County was satisfied with the current vendor.

Question 18:	Is their a preferred Proposal delivery method, electronic or sealed parcel?
Answer 18:	Electronic
Question 19:	Can the County confirm forms to be returned are: RFP Registration Proposers Incorporation Information Drug Free Workplace Performance Survey Questionnaires Affidavit Certification Immigration Laws Employment Eligibility Verification (E-Verify) Certification Exhibit A: Certification Regarding Debarment, Suspension, Proposed Debarment, and Other Responsibility Matters Exhibit B: Appendix A, 44 C.F.R. Part 18 – Certification Regarding Lobbying Attachment A (Cooperative agreement for Polk County public agencies) Attachment B: Compensation Schedule
Answer 19:	Yes, all documents listed above, as well as any information requested in each tab, and signature acknowledgement of all addenda issued.
Question 20:	Could the County please confirm where the completed Questionnaire (Exhibit 1) for Tab 5 – Surveys of Past Performance should be sent for RFP 26-012? Should past clients email the completed surveys directly to Polk County, and if so, to which email address? Or should they return them to the vendor for inclusion in our proposal package?
Answer 20:	Please see RFP Package, Preparing the Surveys, page 40. The firm is responsible for ensuring all references/surveys are included in their submittal, and do not have references email Polk County Procurement directly.
Question 21:	Could the County please confirm whether vendors are permitted to include an appendix with additional or supporting information? Specifically, we would like to know if an appendix may be used to provide supplemental details that further explain the firm's experience and qualifications, without conflicting with the page limitations outlined in the Submittal Requirements?
Answer 21:	Please submit only the materials requested in the RFP package. Firms selected for interviews will have the opportunity to provide additional details regarding their experience, qualifications, and related information.

Question 22:	Would the County consider extending the page limit for these sections, as doing so would allow vendors to provide information that may better support the County's evaluation and understanding of each firm's capabilities?
Answer 22:	Not at this time
Question 23:	The RFP uses the phrase 'one page, single or double sided' throughout the proposal that specifies page limits. Could the County please clarify whether this means one physical sheet of paper (allowing content on both sides), or if the County intends this to be a strict one-page limit regardless of printing orientation?
Answer 23:	One page, single- or double-sided, means a single physical sheet.
Question 24:	On Page 11 - Tab 2 and Tab 3 request the same information about Organization Staff Chart & Staff Experience, but on (page 15 RFP) under Evaluation Level 2 under bullet point APPROACH and METHODOLOGY suggests TAB 3 is required for this and measured for 40 points?
Answer 24:	See Revision 1 below.
Question 25:	Is there a firm currently providing these same services for Polk County? If so, who is the incumbent?
Answer 25:	AshBritt
Question 26:	If there is an incumbent providing these services, are they eligible to respond to the current RFP?
Answer 26:	Yes.
Question 27:	Were the services provided by the incumbent and how would you rate them?
Answer 27:	Yes, incumbent was satisfactory.
Question 28:	How many times has Polk County activated the contract within the last 5 years?
Answer 28:	2
Answer 29:	Can you please advise if a debris monitoring firm is already under contract to perform debris monitoring services for the county? If so, can you please identify the firm?
Answer 29:	Tetra Tech

Question 30: Can you please advise if a performance bond will be required for debris monitoring firms because Attachment D speaks to debris removal, not monitoring. See language below from Attachment D?

Answer 30: Event Performance Bond is required, language will be changed to "Debris Monitoring."

Revision 1

RFP Package, Elevation Level 2, page 15:

Elevation Level 2 (Selection Committee Evaluation)

Procurement shall score each Proposal on the following evaluation criteria:

- Compensation Schedule (Tab 4) - 10 points
- Surveys of Past Performance (Tab 5) - 10 points

Subtotal Points-20 Points

by the process stated under each corresponding Tab description

Each Selection Committee member shall score each Proposal on the following evaluation criteria:

- Experience and Expertise (Tap 2)- 40 points
- **Resources and Availability** (Tab 3)- 40 points

Subtotal Points-80 points

by the following process:

Each Selection Committee member shall determine which of the following descriptions applies to each of the foregoing evaluation criteria:

Question 1: Are proposers permitted to input zero-dollar ($0.00) rates for certain roles on *Attachment B: Compensation Schedule*?

Answer 1: No, Proposers may not list $0.00 rates for required labor categories. All positions identified in Attachment B must include a reasonable fully burdened rate. Please see the FTP Site for "**RFP 26-012, Addendum 6 - Revised Attachment B**", some labor categories have been removed.

Question 2: Should the use of an ADMS electronic ticketing system be incorporated into the pricing structure on *Attachment B: Compensation Schedule*?

Answer 2: Yes, if a proposer intends to utilize an ADMS electronic ticketing system, they should incorporate all costs associated with the use of the system into their pricing and shall be fully burdened into the hourly rates for the applicable debris monitoring positions provided on Attachment B: Compensation Schedule.\

Question 3: The manual process of filling out load tickets can jeopardize proper FEMA reimbursement if human error occurs. Utilizing electronic load tickets, computer tablets, and systems employing electronic contractor IDs with an Automated Debris Management System (ADMS) has become the industry standard and is critical for any successful debris operation. Because of the factors listed, we would like to confirm that any charges for the use of an ADMS are to be fully burdened in the proposed debris monitoring positions hourly rates provided and not as a separate hourly rate or separate position, separate flat rate, or substitutional charge for any listed position?

Answer 3: See answer for Question 2 above.

Revision

RFP Package, Tab 4 – page 13-14

Tab 4, Compensation Schedule (10 Points)

Proposers shall complete the compensation schedule included as Attachment B. For items not listed, the County will only pay the FEMA rates.

The unit pricing may be increased by the Procurement Director, or designee, after the contract has been in place for a minimum of 12 months, when it is in the best interest of the County. Increases will be determined by the appropriate price index as approved by the Procurement Director or Designee; however, the hourly rates cannot exceed the FEMA approved rates. No Board action will be necessary for unit price increases.

The Proposer with the lowest total cost will be allocated 10 points. Each additional Proposers cost point allocation will be calculated based upon their relative cost difference from the lowest Proposers cost.

TETRA TECH

Proposal for RFP-26-012

Disaster Debris Monitoring Services

Polk County, Florida

February 2026

Leading with Science®

Tab 1: Introduction

Polk County, Florida
Electronically Submitted

January 14, 2025

Subject: Disaster Debris Monitoring Services (RFP No. 26-012)
Dear Mr. Ken Brush and Members of the Evaluation Committee,

Tetra Tech, Inc. (Tetra Tech) submits the enclosed proposal in response to Polk County's (County) request for proposals for Disaster Debris Monitoring Services. Our proposal describes our technical expertise in disaster debris management and our approach to delivering unmatched services to the County.

National Leadership in Debris Monitoring. Our team has successfully assisted **over 450 local and state government clients** with planning for and recovering from disasters. With 60 years of extensive experience successfully managing multiple disaster response and recovery operations across the U.S. simultaneously, we have overseen and managed the removal of **over 256 million cubic yards (CYs) of debris**, resulting in more than **$81 billion in reimbursable costs** to our clients. We have served as the ground-zero debris monitoring consultant for hundreds of clients affected by our nation's most catastrophic natural disasters, including Hurricanes Milton, Helene, Ian, Laura, Sally, Michael, Irma, Matthew, Florence, and Harvey; over a dozen wildfires; and numerous severe storm, tornado, and flooding events.

10
Years Supporting Polk County Debris Operations

3
Disaster Activations for Polk County in the Past 10 years
Hurricane Irma, Ian and Milton

4.5M CYs
Debris Monitored in Polk County

Extensive Experience Throughout the State of Florida and Polk County. Since 2004, our team has **monitored the collection and removal of over 95 million CY of debris in Florida** and has assisted numerous communities in Florida with response and recovery efforts after Hurricanes Charley, Frances, Jeanne, Ivan, Dennis, Katrina, Wilma, Matthew, Irma, Michael, Sally, Ian, Nicole, Idalia, and most recently, Helene and Milton. Florida is also our home state, where many of our principal and senior staff reside. **We have over 1,000 staff across 20 offices throughout Florida, including our Response and Recovery Division headquarters in Maitland.** Tetra Tech has a long and trusted history supporting Polk County's disaster debris response, having been activated for Hurricanes Milton, Ian, and Irma under pre-positioned contracts. Our familiarity with Polk County's operations, geography, and municipal coordination needs has consistently enabled efficient recovery and minimized administrative burden on County staff. We are proud of our work in Florida, and we want to be known in our hometowns for providing excellent service to our communities. Tetra Tech is available to Polk County before, during, and after a disaster. We are proud to be trusted by the County as its incumbent debris monitoring services provider and proven long-term partner in disaster response and recovery. We renew our commitment to provide swift, dedicated, and compliant service, as we have in prior activations following Hurricane Milton, Ian and Irma.

For questions regarding this response, please contact the representatives listed below. As an authorized representative of the firm, I am authorized and empowered to sign this proposal and bind the firm in contractual commitments.

Sincerely,
Tetra Tech, Inc.

Jonathan Burgiel

Form **W-9**
(Rev. October 2018)
Department of the Treasury
Internal Revenue Service

Request for Taxpayer Identification Number and Certification

▶ **Go to *www.irs.gov/FormW9* for instructions and the latest information.**

Give Form to the requester. Do not send to the IRS.

Print or type. See Specific Instructions on page 3.

1 Name (as shown on your income tax return). Name is required on this line; do not leave this line blank.
Tetra Tech, Inc.

2 Business name/disregarded entity name, if different from above

3 Check appropriate box for federal tax classification of the person whose name is entered on line 1. Check only **one** of the following seven boxes.

☐ Individual/sole proprietor or single-member LLC ☑ C Corporation ☐ S Corporation ☐ Partnership ☐ Trust/estate

☐ Limited liability company. Enter the tax classification (C=C corporation, S=S corporation, P=Partnership) ▶ _____

Note: Check the appropriate box in the line above for the tax classification of the single-member owner. Do not check LLC if the LLC is classified as a single-member LLC that is disregarded from the owner unless the owner of the LLC is another LLC that is **not** disregarded from the owner for U.S. federal tax purposes. Otherwise, a single-member LLC that is disregarded from the owner should check the appropriate box for the tax classification of its owner.

☐ Other (see instructions) ▶

4 Exemptions (codes apply only to certain entities, not individuals; see instructions on page 3):

Exempt payee code (if any) _____

Exemption from FATCA reporting code (if any) _____

(Applies to accounts maintained outside the U.S.)

5 Address (number, street, and apt. or suite no.) See instructions.
3475 East Foothill Boulevard

Requester's name and address (optional)

6 City, state, and ZIP code
Pasadena, CA 91107

7 List account number(s) here (optional)

Part I Taxpayer Identification Number (TIN)

Enter your TIN in the appropriate box. The TIN provided must match the name given on line 1 to avoid backup withholding. For individuals, this is generally your social security number (SSN). However, for a resident alien, sole proprietor, or disregarded entity, see the instructions for Part I, later. For other entities, it is your employer identification number (EIN). If you do not have a number, see *How to get a TIN*, later.

Note: If the account is in more than one name, see the instructions for line 1. Also see *What Name and Number To Give the Requester* for guidelines on whose number to enter.

Social security number
			-			-				

or

Employer identification number
9	5	-	4	1	4	8	5	1	4

Part II Certification

Under penalties of perjury, I certify that:

1. The number shown on this form is my correct taxpayer identification number (or I am waiting for a number to be issued to me); and
2. I am not subject to backup withholding because: (a) I am exempt from backup withholding, or (b) I have not been notified by the Internal Revenue Service (IRS) that I am subject to backup withholding as a result of a failure to report all interest or dividends, or (c) the IRS has notified me that I am no longer subject to backup withholding; and
3. I am a U.S. citizen or other U.S. person (defined below); and
4. The FATCA code(s) entered on this form (if any) indicating that I am exempt from FATCA reporting is correct.

Certification instructions. You must cross out item 2 above if you have been notified by the IRS that you are currently subject to backup withholding because you have failed to report all interest and dividends on your tax return. For real estate transactions, item 2 does not apply. For mortgage interest paid, acquisition or abandonment of secured property, cancellation of debt, contributions to an individual retirement arrangement (IRA), and generally, payments other than interest and dividends, you are not required to sign the certification, but you must provide your correct TIN. See the instructions for Part II, later.

General Instructions

Section references are to the Internal Revenue Code unless otherwise noted.

Future developments. For the latest information about developments related to Form W-9 and its instructions, such as legislation enacted after they were published, go to *www.irs.gov/FormW9*.

Purpose of Form

An individual or entity (Form W-9 requester) who is required to file an information return with the IRS must obtain your correct taxpayer identification number (TIN) which may be your social security number (SSN), individual taxpayer identification number (ITIN), adoption taxpayer identification number (ATIN), or employer identification number (EIN), to report on an information return the amount paid to you, or other amount reportable on an information return. Examples of information returns include, but are not limited to, the following.

- Form 1099-INT (interest earned or paid)
- Form 1099-DIV (dividends, including those from stocks or mutual funds)
- Form 1099-MISC (various types of income, prizes, awards, or gross proceeds)
- Form 1099-B (stock or mutual fund sales and certain other transactions by brokers)
- Form 1099-S (proceeds from real estate transactions)
- Form 1099-K (merchant card and third party network transactions)
- Form 1098 (home mortgage interest), 1098-E (student loan interest), 1098-T (tuition)
- Form 1099-C (canceled debt)
- Form 1099-A (acquisition or abandonment of secured property)

Use Form W-9 only if you are a U.S. person (including a resident alien), to provide your correct TIN.

If you do not return Form W-9 to the requester with a TIN, you might be subject to backup withholding. See What is backup withholding, *later.*

Drug-Free Workplace Form

(Submittal Page)

The undersigned vendor in accordance with Florida Statue 287.087 hereby certifies that, (Name of the Business): Tetra Tech, Inc. does:

1. Publish a statement notifying employees that the unlawful manufacture, distribution, dispensing, possession or use of a controlled substance is prohibited in the workplace and specifying the actions that will be taken against employees for violations of such prohibition.
2. Inform employees about the dangers of drug abuse in the workplace, the business's policy of maintaining a drug-free workplace, any available drug counseling, rehabilitation programs, employee assistance programs and the penalties that may be imposed upon employees for drug abuse violations.
3. Give each employee engaged in providing the commodities or contractual services that are under this RFP a copy of the statement specified in subsection (1).
4. In the statement specified in subsection (1), notify the employees that, as a condition of working on the commodities or contractual services that are under this RFP, the employee will abide by the terms of the statement and will notify the employer of any conviction of, plea of guilty or nolo contendere to, any violation of Chapter 1893 or of any controlled substance law of the United States or any state, for a violation occurring in the workplace no later than five (5) days after such conviction.
5. Impose a sanction on or require the satisfactory participation in a drug abuse assistance or rehabilitation program, if such is available in the employee's community, by any employee who is so convicted.
6. Make a good faith effort to continue to maintain a drug-free workplace through implementation of this section.

As the person authorized to sign the statement, I certify that this firm complies fully with the above requirements.

EMPLOYMENT ELIGIBILITY VERIFICATION (E-VERIFY) CERTIFICATION
(Florida Statutes, Section 448.095)

PROJECT NAME: Disaster Debris Monitoring Services

The undersigned, as an authorized officer of the contractor identified below (the "**Contractor**"), having full knowledge of the statements contained herein, hereby certifies to Polk County, a political subdivision of the State of Florida (the "**County**"), by and on behalf of the Contractor in accordance with the requirements of Section 448.095, Florida Statutes, as related to the contract entered into by and between the Contractor and the County on or about the date hereof, whereby the Contractor will provide labor, supplies, or services to the County in exchange for salary, wages, or other remuneration (the "**Contract**"), as follows:

1. Unless otherwise defined herein, terms used in this Certification which are defined in Section 448.095, Florida Statutes, as may be amended from time to time, shall have the meaning ascribed in said statute.

2. Pursuant to Section 448.095(5), Florida Statutes, the Contractor, and any subcontractor under the Contract, must register with and use the E-Verify system to verify the work authorization status of all new employees of the Contractor or subcontractor. The Contractor acknowledges and agrees that (i) the County and the Contractor may not enter into the Contract, and the Contractor may not enter into any subcontracts thereunder, unless each party to the Contract, and each party to any subcontracts thereunder, registers with and uses the E-Verify system; and (ii) use of the U.S. Department of Homeland Security's E-Verify System and compliance with all other terms of this Certification and Section 448.095, Fla. Stat., is an express condition of the Contract, and the County may treat a failure to comply as a material breach of the Contract.

3. By entering into the Contract, the Contractor becomes obligated to comply with the provisions of Section 448.095, Fla. Stat., "Employment Eligibility," as amended from time to time. This includes but is not limited to utilization of the E-Verify System to verify the work authorization status of all newly hired employees, and requiring all subcontractors to provide an affidavit attesting that the subcontractor does not employ, contract with, or subcontract with, an unauthorized alien. The Contractor shall maintain a copy of such affidavit for the duration of the Contract. Failure to comply will lead to termination of the Contract, or if a subcontractor knowingly violates the statute or Section 448.09(1), Fla. Stat., the subcontract must be terminated immediately. If the Contract is terminated pursuant to Section 448.095, Fla. Stat., such termination is not a breach of contract and may not be considered as such. Any challenge to termination under this provision must be filed in the Tenth Judicial Circuit Court of Florida no later than 20 calendar days after the date of termination. If the Contract is terminated for a violation of Section 448.095, Fla. Stat., by the Contractor, the Contractor may not be awarded a public contract for a period of 1 year after the date of termination. The Contractor shall be liable for any additional costs incurred by the County as a result of the termination of the Contract. Nothing in this Certification shall be construed to allow intentional discrimination of any class protected by law.

Executed this 12 day of January, 2026.

EXHIBIT "A"

CERTIFICATIONS REGARDING DEBARMENT, SUSPENSION, PROPOSED DEBARMENT, AND OTHER RESPONSIBILITY MATTERS

For all awards, subawards, and contracts with certain parties that are debarred, suspended, or otherwise excluded from or ineligible for participation in Federal assistance programs and activities, the Offeror must complete and sign the following:

The Offeror certifies, to the best of its knowledge and belief, that-

(1) This contract is a covered transaction for purposes of 2 C.F.R. pt. 180 and 2 C.F.R. pt. 3000. As such the contractor is required to verify that none of the contractor, its principals (defined at 2 C.F.R. § 180.995), or its affiliates (defined at 2 C.F.R. § 180.905) are excluded (defined at 2 C.F.R. § 180.940) or disqualified (defined at 2 C.F.R. § 180.935).

(2) The contractor must comply with 2 C.F.R. pt. 180, subpart C and 2 C.F.R. pt. 3000, subpart C and must include a requirement to comply with these regulations in any lower tier covered transaction it enters into.

(3) This certification is a material representation of fact relied upon by Polk County, a political subdivision of the State of Florida (the "County"). If it is later determined that the contractor did not comply with 2 C.F.R. pt. 180, subpart C and 2 C.F.R. pt. 3000, subpart C, in addition to remedies available to the Florida Division Emergency Management, the County, and the Federal Government may pursue available remedies, including but not limited to suspension and/or debarment.

(4) The bidder or proposer agrees to comply with the requirements of 2 C.F.R. pt. 180, subpart C and 2 C.F.R. pt. 3000, subpart C while this offer is valid and throughout the period of any contract that may arise from this offer. The bidder or proposer further agrees to include a provision requiring such compliance in its lower tier covered transactions.

EXHIBIT "B"

APPENDIX A, 44 C.F.R. PART 18 – CERTIFICATION REGARDING LOBBYING

Certification for Contracts, Grants, Loans, and Cooperative Agreements

(To be submitted with each bid or offer exceeding $100,000)

The undersigned Tetra Tech, Inc. (Contractor) certifies, to the best of his or her knowledge, that:

1. No Federal appropriated funds have been paid or will be paid, by or on behalf of the undersigned, to any person for influencing or attempting to influence an officer or employee of an agency, a Member of Congress, an officer or employee of Congress, or an employee of a Member of Congress in connection with the awarding of any Federal contract, the making of any Federal grant, the making of any Federal loan, the entering into of any cooperative agreement, and the extension, continuation, renewal, amendment, or modification of any Federal contract, grant, loan, or cooperative agreement.

2. If any funds other than Federal appropriated funds have been paid or will be paid to any person for influencing or attempting to influence an officer or employee of any agency, a Member of Congress, an officer or employee of Congress, or an employee of a Member of Congress in connection with this Federal contract, grant, loan, or cooperative agreement, the undersigned shall complete and submit Standard Form- LLL, "Disclosure Form to Report Lobbying," in accordance with its instructions.

3. The undersigned shall require that the language of this certification be included in the award documents for all subawards at all tiers (including subcontracts, subgrants, and contracts under grants, loans, and cooperative agreements) and that all subrecipients shall certify and disclose accordingly.

This certification is a material representation of fact upon which reliance was placed when this transaction was made or entered into. Submission of this certification is a prerequisite for making or entering into this transaction imposed by 31, U.S.C. § 1352 (as amended by the Lobbying Disclosure Act of 1995). Any person who fails to file the required certification shall be subject to a civil penalty of not less than $10,000 and not more than $100,000 for each such failure.

The Contractor, Tetra Tech, Inc., certifies or affirms the truthfulness and accuracy of each statement of its certification and disclosure, if any. In addition, the Contractor understands and agrees that the provisions of 31 U.S.C. § 3801 *et seq.*, apply to this certification and disclosure, if any.

RFP 26-012, Disaster Debris Monitoring Services
Addendum # 4

Question 1: If this is a term contract subject to renewal, what is the maximum number of option periods?
Answer 1: The term is 5 years from the effective date of the agreement.

Question 2: Has the current contract gone full term?
Answer 2: The current agreements were set to expire on February 15, 2026, but have been extended and will remain in place until the new agreements are in effect.

Question 3: Have all options to extend the current contract been exercised?
Answer 3: Yes.

Question 4: Who is the incumbent, and how long has the incumbent been providing the requested services?
Answer 4: The current incumbents are Tetra Tech, Inc. as the primary and Thompson Consulting Services, LLC as the secondary. These agreements have been in place since February 16, 2021.

Question 5: What is the maximum number of hours post-event before work must commence?
Answer 5: Staff is communicating 24 to 48 hours before impact. Successful vendors are expected to mobilize as soon as the storm has passed, and the weather conditions are safe to drive in.

Question 6: Are any specific professional credentials required to qualify for the contract?
Answer 6: The vendor must demonstrate significant professional expertise in hurricane response, mitigation, and recovery services including proven experience working in post – storm environments.

Question 7: Will the resulting contract include a guaranteed minimum payment to the vendor?
Answer 7: Yes.

Question 8: Are there any superseding prior agreements that may impact this contract?
Answer 8: No.

Question 9: When/what was the most recent event that precipitated the activation of the existing or previous contract?
Answer 9: Hurricane Milton 2024

Question 10:	Approximately how many cubic yards of debris were collected from the most recent event?
Answer 10:	1 million (Vegetative & C&D)
Question 11:	What estimated or actual dollars were paid to the incumbent(s) after the most recent event?
Answer 11:	Estimated 5.5 Million
Question 12:	How many times have the incumbent's services been utilized in the previous five years?
Answer 12:	The incumbent's services were utilized twice for two different hurricanes and yearly for truck / equipment certification.
Question 13:	If there was a previous solicitation for these services, what was its title, number, release date, and due date?
Answer 13:	RFP 20-299, Disaster Debris Monitoring Services, Released September 3, 2020, and opened October 14, 2020.
Question 14:	When is the anticipated contract start date?
Answer 14:	The agreement is anticipated to be executed in April or May 2026.
Question 15:	Can you please provide greater explanation of your expectations related to any required subcontracting to minority-owned, women-owned, or other types or categories of small or disadvantaged businesses? For example, what is required with the proposal, and what is required to comply during the term of the contract?
Answer 15:	No expectations are applicable with FEMA Funds.
Question 16:	Are bidders permitted to deviate in any way from any manner of quoting fees you may be expecting? For example, if there is a pricing page in the RFP, can bidders submit an alternate fee structure? If there is no pricing page in the RFP, do you have any preference for how bidders should quote fees or can bidders create their own pricing categories?
Answer 16:	No, Proposers must use the pricing sheet provided in the RFP. Negotiations on alternate pricing may be made at Level 4 of the Elevation.
Question 17:	Please describe your level of satisfaction with your current or recent vendor(s) for the same purchasing activity, if applicable?
Answer 17:	Polk County was satisfied with the current vendor.

RFP 26-012, Disaster Debris Monitoring Services
Addendum # 4

Question 18:	Is their a preferred Proposal delivery method, electronic or sealed parcel?
Answer 18:	Electronic
Question 19:	Can the County confirm forms to be returned are: RFP Registration Proposers Incorporation Information Drug Free Workplace Performance Survey Questionnaires Affidavit Certification Immigration Laws Employment Eligibility Verification (E-Verify) Certification Exhibit A: Certification Regarding Debarment, Suspension, Proposed Debarment, and Other Responsibility Matters Exhibit B: Appendix A, 44 C.F.R. Part 18 – Certification Regarding Lobbying Attachment A (Cooperative agreement for Polk County public agencies) Attachment B: Compensation Schedule
Answer 19:	Yes, all documents listed above, as well as any information requested in each tab, and signature acknowledgement of all addenda issued.
Question 20:	Could the County please confirm where the completed Questionnaire (Exhibit 1) for Tab 5 – Surveys of Past Performance should be sent for RFP 26-012? Should past clients email the completed surveys directly to Polk County, and if so, to which email address? Or should they return them to the vendor for inclusion in our proposal package?
Answer 20:	Please see RFP Package, Preparing the Surveys, page 40. The firm is responsible for ensuring all references/surveys are included in their submittal, and do not have references email Polk County Procurement directly.
Question 21:	Could the County please confirm whether vendors are permitted to include an appendix with additional or supporting information? Specifically, we would like to know if an appendix may be used to provide supplemental details that further explain the firm's experience and qualifications, without conflicting with the page limitations outlined in the Submittal Requirements?
Answer 21:	Please submit only the materials requested in the RFP package. Firms selected for interviews will have the opportunity to provide additional details regarding their experience, qualifications, and related information.

Question 22:	Would the County consider extending the page limit for these sections, as doing so would allow vendors to provide information that may better support the County's evaluation and understanding of each firm's capabilities?
Answer 22:	Not at this time
Question 23:	The RFP uses the phrase 'one page, single or double sided' throughout the proposal that specifies page limits. Could the County please clarify whether this means one physical sheet of paper (allowing content on both sides), or if the County intends this to be a strict one-page limit regardless of printing orientation?
Answer 23:	One page, single- or double-sided, means a single physical sheet.
Question 24:	On Page 11 - Tab 2 and Tab 3 request the same information about Organization Staff Chart & Staff Experience, but on (page 15 RFP) under Evaluation Level 2 under bullet point APPROACH and METHODOLOGY suggests TAB 3 is required for this and measured for 40 points?
Answer 24:	See Revision 1 below.
Question 25:	Is there a firm currently providing these same services for Polk County? If so, who is the incumbent?
Answer 25:	AshBritt
Question 26:	If there is an incumbent providing these services, are they eligible to respond to the current RFP?
Answer 26:	Yes.
Question 27:	Were the services provided by the incumbent and how would you rate them?
Answer 27:	Yes, incumbent was satisfactory.
Question 28:	How many times has Polk County activated the contract within the last 5 years?
Answer 28:	2
Answer 29:	Can you please advise if a debris monitoring firm is already under contract to perform debris monitoring services for the county? If so, can you please identify the firm?
Answer 29:	Tetra Tech

Question 30: Can you please advise if a performance bond will be required for debris monitoring firms because Attachment D speaks to debris removal, not monitoring. See language below from Attachment D?

Answer 30: Event Performance Bond is required, language will be changed to "Debris Monitoring."

Revision 1

RFP Package, Elevation Level 2, page 15:

Elevation Level 2 (Selection Committee Evaluation)

Procurement shall score each Proposal on the following evaluation criteria:

- Compensation Schedule (Tab 4) - 10 points
- Surveys of Past Performance (Tab 5) - 10 points

Subtotal Points-20 Points

by the process stated under each corresponding Tab description

Each Selection Committee member shall score each Proposal on the following evaluation criteria:

- Experience and Expertise (Tap 2)- 40 points
- **Resources and Availability** (Tab 3)- 40 points

Subtotal Points-80 points

by the following process:

Each Selection Committee member shall determine which of the following descriptions applies to each of the foregoing evaluation criteria:

POLK COUNTY, A POLITICAL SUBDIVISION OF THE STATE OF FLORIDA

ADDENDUM #6

RFP # 26-012, Disaster Debris Monitoring Services

This addendum is issued to clarify, add to, revise and/or delete items of the RFP Document for this work. This Addendum is a part of the RFP Document and acknowledgment of its receipt shall be noted on the Addendum.

Contained within this addendum: questions & answers, revisions, revised Attachment B added to FTP Site and selection committee meeting update.

To receive a copy of **"RFP 26-012, Addendum 6 - Revised Attachment B,"** please go the following FTP site: https://ftp3.polk-county.net, you will be prompted for a User ID and Password. The User ID is procurevendor and the password is solicitation. After you have logged in to the FTP site, double click on the file folder "**RFP 26-012, RFP Attachments**", select "Open" or "Save As" to download the documents. If you need assistance accessing this website due to ADA or any other reason, please email Tabatha Shirah at tabathashirah@polkfl.gov.

March 4, 2026 @ 3:00 p.m. – 3:30 p.m. at the Polk County Administration Building in the Procurement Conference Room 150;– Procurement will distribute the Proposals and evaluation criteria to the Selection Committee.

March 24, 2026 @ 1:00 p.m. - 3:00 p.m. at the Polk County Administration Building in Conference Room 407 – Selection Committee meeting to score and elevate Proposers. At this meeting the Selection Committee will decide if they would like to interview Proposer(s) or if they would like to recommend to enter into contract negotiations with the highest ranked Proposer.

April 1, 2026 @ 9:00 a.m. – 12:30 p.m. at the Polk County Administration Building in Conference Room 407 – If the Selection Committee decides to interview Proposer(s), the interviews will be held on this date and time.

Company: Tetra Tech, Inc.

Question 1: Are proposers permitted to input zero-dollar ($0.00) rates for certain roles on *Attachment B: Compensation Schedule*?

Answer 1: No, Proposers may not list $0.00 rates for required labor categories. All positions identified in Attachment B must include a reasonable fully burdened rate. Please see the FTP Site for "**RFP 26-012, Addendum 6 - Revised Attachment B**", some labor categories have been removed.

Question 2: Should the use of an ADMS electronic ticketing system be incorporated into the pricing structure on *Attachment B: Compensation Schedule*?

Answer 2: Yes, if a proposer intends to utilize an ADMS electronic ticketing system, they should incorporate all costs associated with the use of the system into their pricing and shall be fully burdened into the hourly rates for the applicable debris monitoring positions provided on Attachment B: Compensation Schedule.\

Question 3: The manual process of filling out load tickets can jeopardize proper FEMA reimbursement if human error occurs. Utilizing electronic load tickets, computer tablets, and systems employing electronic contractor IDs with an Automated Debris Management System (ADMS) has become the industry standard and is critical for any successful debris operation. Because of the factors listed, we would like to confirm that any charges for the use of an ADMS are to be fully burdened in the proposed debris monitoring positions hourly rates provided and not as a separate hourly rate or separate position, separate flat rate, or substitutional charge for any listed position?

Answer 3: See answer for Question 2 above.

Revision

RFP Package, Tab 4 – page 13-14

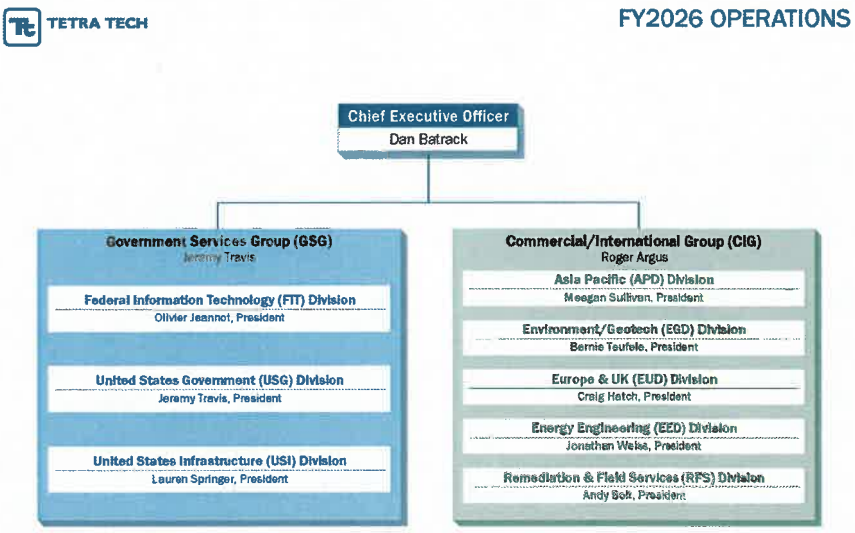
Tab 4, Compensation Schedule (10 Points)

Proposers shall complete the compensation schedule included as Attachment B. For items not listed, the County will only pay the FEMA rates.

The unit pricing may be increased by the Procurement Director, or designee, after the contract has been in place for a minimum of 12 months, when it is in the best interest of the County. Increases will be determined by the appropriate price index as approved by the Procurement Director or Designee; however, the hourly rates cannot exceed the FEMA approved rates. No Board action will be necessary for unit price increases.

The Proposer with the lowest total cost will be allocated 10 points. Each additional Proposers cost point allocation will be calculated based upon their relative cost difference from the lowest Proposers cost.

Tab 2: Experience and Expertise



Tetra Tech is a leader in water, environment, and sustainable infrastructure, providing high-end consulting and engineering services for projects worldwide. Founded in 1966, Tetra Tech is one of the leading firms in the nation in the field of disaster management and homeland security, with millions of dollars in revenue coming from contracts in such diverse areas as infrastructure hardening and protection; disaster recovery; emergency management, planning, and preparedness; community resilience; environmental services, and grant management. Tetra Tech supports government and commercial clients by providing innovative solutions to complex problems focused on water, environment, energy, infrastructure, and natural resources. We are a global company with over 25,000 employees that is Leading with Science® to provide innovative solutions to complex problems for our public and private clients.

Firm's Organization Structure

Tetra Tech is a family of more than 60 business units working on technical projects from energy grid reconstruction in Ukraine to shoreline stabilization along the Mississippi Sound. We are organized into two major business groups that align with our core markets: the Commercial/International Services Group and the Government Services Group. The focus of each of Tetra Tech's primary business groups is summarized below, followed by a corporate organization chart.

Our Government Services Group (GSG) provides consulting and engineering services for a broad range of U.S. government clients (federal, state, and local) and all activities with development agencies. Services include water and waste management, environmental restoration, international development, sustainable infrastructure design, and a broad range of civil infrastructure design for facilities, transportation, and regional and local development. Within GSG, the United States Infrastructure (USI) Division specializes in service to local and state governments in disciplines such as infrastructure, engineering, solid waste management, water management, and, of course, disaster recovery. **As shown in the organizational chart on the right, Tetra Tech's Disaster Recovery (TDR) business unit is situated within the USI Division within GSG. Tetra Tech has included the organizational chart for the proposed team on page 18.**

Resume for Key Personnel

Lead Project Manager
Edward "Wade" Green

Wade was selected for this project of his extensive Florida disaster recovery experience, having supported large-scale debris monitoring operations for multiple counties, including Manatee, Leon, Broward, and others. His experience offers familiarity with FEMA documentation standards, field operations, and the logistical demands of hurricane response across the state. Provided on page 20, Tetra Tech has included the resumes and qualifications for the proposed team.

8 Years
of Experience

100% Commitment

Florida Debris Monitoring Experience

Tetra Tech has performed more debris monitoring services in the state of Florida than any other firm. Our team has responded to every major disaster in Florida since 2001. In response to these events, our team has overseen more than 150 projects that amount to **over 95 million CYs of debris** across the State. Due to our vast experience, we have become experts in Florida's unique disaster recovery needs, including PPDR, waterways, and beach projects.

Florida is also our home state, where many of our principal and senior staff reside. We are proud of our work in Florida, and we want to be known in our hometowns for providing excellent service to our communities. With 20 offices throughout the state, including our disaster recovery headquarters and fully stocked warehouse in Central Florida, Tetra Tech is mere hours away to mobilize rapidly to our clients throughout the state.

Polk County Experience

Tetra Tech office just 20 minutes from Polk County office

Tetra Tech has a long and trusted history supporting Polk County's disaster debris response, having been activated for Hurricanes Milton, Ian, and Irma under pre-positioned contracts. Across these events, our teams mobilized rapidly before and immediately after landfall to manage debris monitoring operations Countywide. Our familiarity with Polk County's operations, geography, and municipal coordination needs has consistently enabled efficient recovery and minimized administrative burden on County staff.

40+ Staff Employed

4.2M+ CYs of Debris Monitored

900+ Field Monitors Hired

33K+ Tons of Debris

Relevant Project Profiles

The following projects are a representative sample of Tetra Tech's experience and accomplishments performing debris removal services of similar scope, complexity, and magnitude within the past 5 years. This selection includes relevant projects, all of which meet the County's stated requirements, including experience on disaster recovery projects for public agencies, work performed as the prime contractor, and projects exceeding 250,000 CYs. Per Polk County's request, references are provided on the County's reference forms and Client Survey forms on the following page.

What do our clients say?

Highly Trained Staff

"While providing the necessary support, Tetra Tech also managed the enormous amount of data - including load tickets, invoices, and daily reports, which are critical for FEMA reimbursement. Your staff is highly trained and as an in-depth understanding of the specific parameters and guidelines surrounding FEMA eligibility requirements."

- Mark C. Wilfalk, Director, Depart. of Solid Waste & Environmental Program Management, City of Tampa, Florida

Commitment from Blue Skies through Reimbursement

"Tetra Tech proved itself to be a reliable partner for the city and executed all its obligations under our continuing services agreement. On top of that they provided excellent communication throughout the whole process and efficiently assisted in the cleanup of the city on both occasions. Their diligence and precision in detail ensured proper reimbursement from FEMA on all occasions. In our experience working with Tetra Tech, they have always come to the City of St. Petersburg's assistance when they are needed most for our residents and greater community. We would happily recommend their services to other communities and plan to continue our relationship with them into the future."

-Mr. Bryan M. Eichler, Assistant Director, City of St. Petersburg, FL

Team's Dedication, Responsiveness, Professionalism

"From the onset of the team's work following Tropical Storm Debby, it was evident that the staff has an in-depth understanding of Federal Emergency Management Agency (FEMA) damage assessment and reimbursement guidelines, as well as eligibility requirements. Subsequent to the timely and professional damage assessment work performed by your staff, the County tasked [Tetra Tech] with the monitoring and management of the County's debris removal program. Working in close coordination with the County and our debris hauler, [Tetra Tech] was able to assist the County in capturing maximum reimbursement from FEMA for the cost of debris removal, reduction, and disposal. Clay County sincerely appreciates your team's dedication, responsiveness, professionalism, and assistance during our time of need. I would highly recommend your firm to any community that is in need of debris monitoring services."

-Alan Altman, Environmental Services Manager (Retired), Clay County, Florida

Phenomenal

"The Public Works' Debris Plan is phenomenal. The State said it is one of the best ones they received, and we received approval from them for the Debris Plan to be included in our FROC documentation."

-Kelly Wilson, Deputy Director, Emergency Management, St. Johns County, Florida

Charlotte County, Florida | Disaster Debris Monitoring

Tetra Tech has responded to multiple major hurricane events for Charlotte County in the last 10 years alone.

Hurricanes Helene and Milton

Just two weeks after Hurricane Helene swept across the Gulf Coast of Florida in the fall of 2024, the State once again prepared for another major hurricane. Hurricane Milton vacillated between a Category 4 and 5 storm in the days leading up to its landfall. Ultimately, the storm made landfall as a Category 3 hurricane at Siesta Key, Florida, just north of Charlotte County. Residents on the Gulf Coast saw storm surges of up to eight feet in some areas.

Having just made it through the destruction caused by Hurricane Helene, Charlotte County was braced for impact with Hurricane Milton. Tetra Tech crews monitored the collection of **over 345,000 cubic yards of disaster debris**. The team consisted of nearly 200 locally hired employees.

Hurricane Ian

In September of 2022, Category 4 Hurricane Ian crushed Charlotte County with winds approaching 155 miles per hour. Immediately following the impact, Tetra Tech responded to the County to provide debris monitoring services from County maintained right of way. Tetra Tech hired and trained **more than 250 debris monitors** to provide both ROW debris removal and hazardous tree removal monitoring services with debris volumes are nearly 5 M CYs upon completion. Tetra Tech also provided debris monitoring services for the County's waterways.

Hurricane Irma

In 2017, low-lying Charlotte County suffered significant damage as a result of Hurricane Irma, the most powerful storm to make landfall in Florida in a decade. About two-thirds of the 200,000 residents in the County were ordered to evacuate. In the immediate aftermath of the storm, debris littered County roads.

The County utilized a pre-positioned contract with Tetra Tech for disaster debris monitoring. Our team immediately mobilized the project ramp-up phase, but Charlotte County initially had a difficult time bringing a debris removal contractor on to perform collection. Tetra Tech subject matter experts worked side-by-side with the Charlotte County team to navigate the process of using its internal force account labor and equipment resources to begin debris collection. Once a debris removal contractor was secured, Tetra Tech mobilized a more traditional monitoring staff where a team of 15 personnel was hired at peak to monitor the debris removal process. Utilizing *RecoveryTrac*™, our proprietary ADMS software, our team monitored the removal of **6,247 tons of debris.**

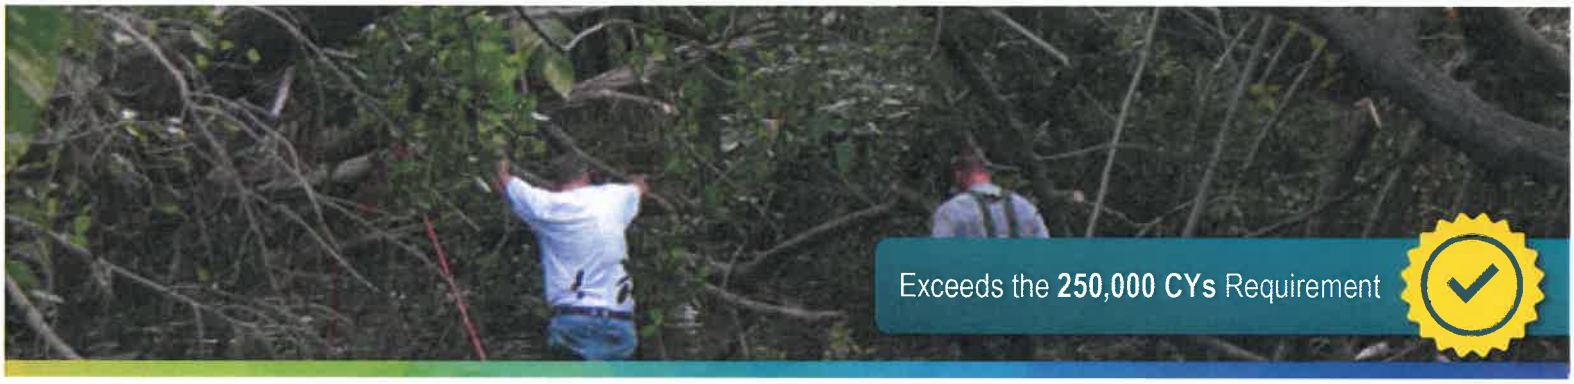
Charlotte County ROW Collection Daily Report

TEMPORARY DEBRIS PROCESSING SITES EXPERIENCE

In response to Hurricane Milton, Charlotte County implemented a multi-site debris management strategy utilizing approved temporary debris staging, reduction, and disposal facilities to support ROW and Private Property Debris Removal (PPDR) operations. Tetra Tech provided debris monitoring services across these sites to ensure debris was properly segregated, tracked, and directed to the appropriate reduction or disposal pathway.



SPECIALTY AND HAZARDOUS DEBRIS MANAGEMENT

Tetra Tech provided monitoring and documentation support for a broad range of specialty debris streams during Hurricane Milton recovery operations in Charlotte County. These services included oversight of Hazardous Waste (HHW), white goods and Freon-containing appliances, Freon recovery activities, and electronic waste (e-waste).

As of May 2, 2025, cumulative operations included the documented removal of 1,808 white goods units, 760 e-waste units, and 136 HHW units, demonstrating Tetra Tech's ability to manage complex debris streams requiring specialized handling and regulatory compliance. While hazardous stumps and putrescent waste were not part of this event, Tetra Tech's nationwide disaster recovery experience ensures readiness to support those debris categories when required.

DEMOLITION AND PRIVATE PROPERTY DEBRIS REMOVAL (ROE PROGRAMS)

For Hurricane Milton, Charlotte County's recovery program included ROW and PPDR operations. Tetra Tech provided monitoring services supporting debris removal from public facilities, parks, gated areas, and other publicly owned properties, in addition to standard ROW collection corridors.

Collier County, Florida | Disaster Debris Monitoring

Over the last two decades, Tetra Tech has provided a variety of disaster recovery assistance to Collier County – from debris management planning and training to major post-disaster debris monitoring assignments. Tetra Tech has partnered with Collier County, FL on disaster response, recovery, and grant management services for nearly two decades. We have supported the County with recovery from Hurricanes Wilma (2005), Hurricane Irma (2017), Hurricane Ian (2022), a Waterways Debris Cleanup project for the Natural Resources Conservation Service (NRCS) in 2023, and Hurricane Milton (2024).

Since Tetra Tech's work for Collier County after Hurricane Wilma, our team has maintained a true partnership with the County in helping prepare for the next potential event. The County holds an annual War Games to prepare County and municipality staff – as well as other agency and private sector partners – for what to expect and what actions to take following a hurricane or other disaster event. Tetra Tech has been an active participant in this annual event for years and has helped lead the training for all participants. Tetra Tech also recently completed an update of Collier County's Disaster Debris Management Plan.

Client
Collier County, Florida

Period of Performance
Hurricane Milton: October-November 2024

Hurricane Milton

Hurricane Milton made landfall on October 9, 2024, on Florida's Gulf Coast as a strong Category 3 hurricane, bringing 120 mph winds, torrential rain, and dangerous storm surge to communities across Southwest Florida. In Collier County, emergency officials issued mandatory evacuations for vulnerable coastal zones ahead of the storm's arrival. Milton caused extensive wind damage, downed power lines, widespread flooding, and impassable roadways throughout the County. Post-storm assessments estimated more than $280 million in damage to residential properties, public infrastructure, and commercial assets. Recovery efforts were complicated by prolonged power outages, with roughly 30% of the county still in the dark days after landfall.

As a long-time trusted partner, Tetra Tech was engaged by the County before the storm's impact and was prepared to act as soon as it was determined to be safe. Tetra Tech deployed 25 field monitors across the County to oversee contractor operations, validate load data, and ensure adherence to FEMA eligibility requirements. The team oversaw the collection of more than 34,000 CYs of debris.

Natural Resources Conservation Service (NRCS) Waterways Debris

Tetra Tech was contracted by Collier County to provide technical assistance and monitoring for the removal of disaster-generated debris deposited after Hurricane Ian. The work is part of the Emergency Watershed Protection program funded by the NRCS and was slated to occur within the Collier County stormwater conveyance infrastructure and receiving areas.

There were five approved sites within the scope, estimating **approximately 25,600 CYs** of disaster-generated debris over the span of approximately 16 miles of waterways. Tetra Tech is working with Crowder Gulf as the debris hauling contractor.

In early December 2023, representatives from the NRCS visited Collier County to perform an inspection of the work. **The Collier County project manager noted that the results accomplish along the Gordon River were "near perfect" and the inspectors**

were impressed by the Tetra Tech team's attention to detail in preserving native vegetation and avoiding the creation of erosion issues. The inspectors observed all the stages of the monitoring process in order to qualify the project for funding eligibility.

Hurricane Ian

In September of 2022, Category 4 Hurricane Ian crushed Collier County to the north with winds approaching 155 miles per hour. Tetra Tech provided Collier County with debris monitoring services for its right-of-way debris, hazardous leaners and hangers, parks, private roads, waterways, and ditches, resulting in **more than 1.3 million CYs of debris**. Tetra Tech also provided FEMA Public Assistance services to the County as they worked to recover.

Hurricane Irma

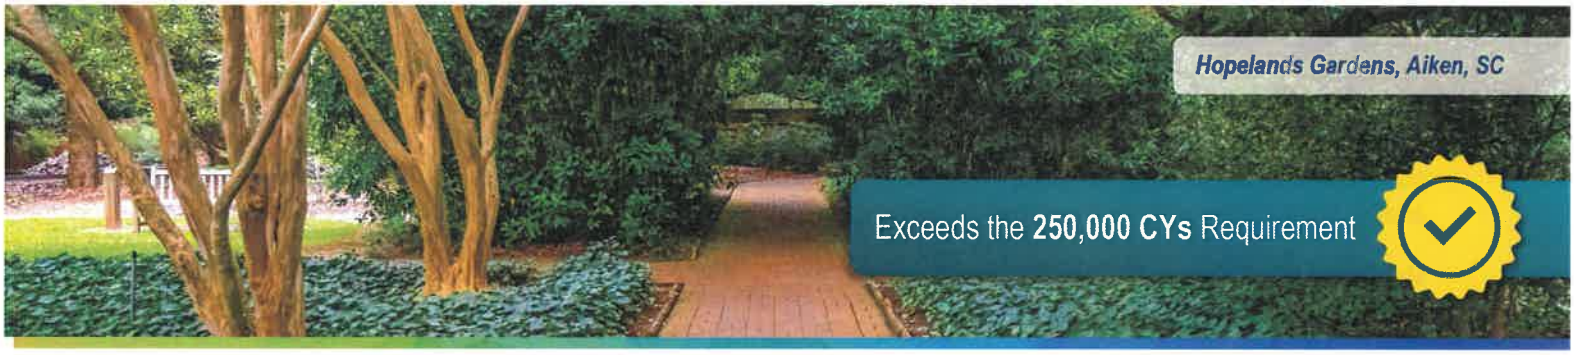
Following a direct landfall by Hurricane Irma in 2017, Tetra Tech provided total program management for the Collier County debris removal mission. In addition to debris monitoring, we served as the County's representative, tasked with overseeing right-of-way (ROW) debris removal; processing, site management and haul-out; private road and gated community debris removal; and leaner, hanger and stump removal. At the peak of the project, Tetra Tech employed nearly 200 monitors and, over the course of four months, monitored **nearly 64,000 loads of debris** and over **25,000 leaner and hanger removals**. In total, Tetra Tech monitored **over 3,000,000 CYs of debris**.

Severe Storms

In January 2016, Collier County was forced to manage debris after a straight-line windstorm left a swath of damaged and downed trees across the County. The County tasked Tetra Tech with the rapid ramp-up to monitor disposal of debris from the impacted areas. Tetra Tech worked for the County for a three-week period and monitored and documented the contractor's removal of **over 44,000 cubic yards of vegetative debris** during this brief timeframe. Tetra Tech used *RecoveryTrac*™ ADMS to document quantities of debris and provided ADMS units to County code-enforcement staff to assist with damage assessments. Tetra Tech provided daily reports to the County project leadership, and the County was especially appreciative of the timely and accurate information that allowed them to make quick decisions and ultimately conduct an efficient and effective clean-up for Collier County residents.

TEMPORARY DEBRIS PROCESSING SITES EXPERIENCE

Following Hurricane Milton, Collier County implemented a debris management strategy focused on ROW debris collection and transport to approved reduction and disposal facilities, rather than establishing multiple temporary debris processing sites. Tetra Tech provided debris monitoring services to support these operations, ensuring debris was properly documented, segregated by type, and delivered to authorized facilities in compliance with County and FEMA requirements.



Debris streams included mixed ROW debris and specialty debris such as white goods and electronic waste, which were tracked separately and routed to appropriate recycling or disposal facilities. Tetra Tech monitored load ticketing, hauling activities, and delivery locations to confirm that debris was managed in accordance with established debris management protocols and eligibility criteria.

SPECIALTY AND HAZARDOUS DEBRIS MANAGEMENT

During Hurricane Milton recovery operations, Tetra Tech supported Collier County's management of specialty debris streams limited to white goods, Freon-containing appliances, Freon recovery activities, and electronic waste (e-waste). HHW, hazardous stumps, and putrescent waste were not part of the County's debris removal program for this event. During Hurricane Irma, over 25,000 hazardous leaner and hanger removals monitored for the County.

DEMOLITION AND PRIVATE PROPERTY DEBRIS REMOVAL (ROE PROGRAMS)

For Hurricane Milton, Collier County's debris removal operations were limited to ROW debris, and did not include structural demolition, private property ROE programs, or PPDR outside of ROW corridors. Tetra Tech's role focused on monitoring ROW collection, hauling, and disposal activities to ensure accurate documentation and FEMA eligibility.

Aiken County, South Carolina | Disaster Debris Monitoring Services

Category 4 Hurricane Helene barreled into the United States on September 26, 2024. As the storm made its way through the southeast, the storm stalled as it lost power, causing even more extensive damage across South Carolina, North Carolina, and Tennessee. Aiken County was one of the counties devastated by the hurricane; of the 36 fatalities in the State of South Carolina, 4 of them were in Aiken County. The storm spawned 21 tornadoes in the state and left over one million people without power.

The Tetra Tech team was ready to support the County as soon as conditions allowed. Our team mobilized swiftly, hosting hiring events in South Carolina to recruit local citizens, which resulted in more than 20 locally hired field staff monitoring the collection of disaster debris in Aiken County. More than **256,000 CYs of disaster debris** were collected from the right of way, as well as over 5,000 hangers and 30 unstable leaning trees.

While supporting Aiken County, Tetra Tech was also tasked to monitor the collection and removal of two municipalities within the County under the contract: the City of Aiken and the City of North Augusta. In the City of Aiken, the team monitored the collection of **64,435 CYs of debris**. In the City of North Augusta, the total was **126,460 CYs**. In total, Tetra Tech managed the collection and removal of over 430,000 CYs of debris from the County.

**inclusive of Aiken County and two municipalities in the County: City of Aiken and City of North Augusta*

TEMPORARY DEBRIS PROCESSING SITES EXPERIENCE

Following Hurricane Helene, Tetra Tech monitored the collection of more than 430,000 cubic yards of disaster debris from county and municipal rights-of-way across Aiken County and the Cities of Aiken and North Augusta. Debris was transported to temporary debris management sites where vegetative materials were segregated, staged, and reduced prior to final disposal in accordance with FEMA requirements.

SPECIALTY AND HAZARDOUS DEBRIS MANAGEMENT

Tetra Tech documented and monitored hazardous conditions within the rights-of-way, including over 5,000 hangers and 30 unstable leaning trees that posed immediate threats to public safety.

DEMOLITION AND PRIVATE PROPERTY DEBRIS REMOVAL (ROE PROGRAMS)

For Hurricane Helene, Tetra Tech's monitoring services in Aiken County were limited to debris removal within public rights-of-way across the County and its two municipalities.

City of Greenville, South Carolina | Disaster Debris Monitoring and FEMA Public Assistance Program Support

In late September 2024, the City of Greenville was impacted by the remains of Hurricane Helene, as in its tropical storm state, it lulled over South Carolina and left behind catastrophic tree canopy damage across the City. By the time the storm had moved on, over 90% of the City's households were without power.

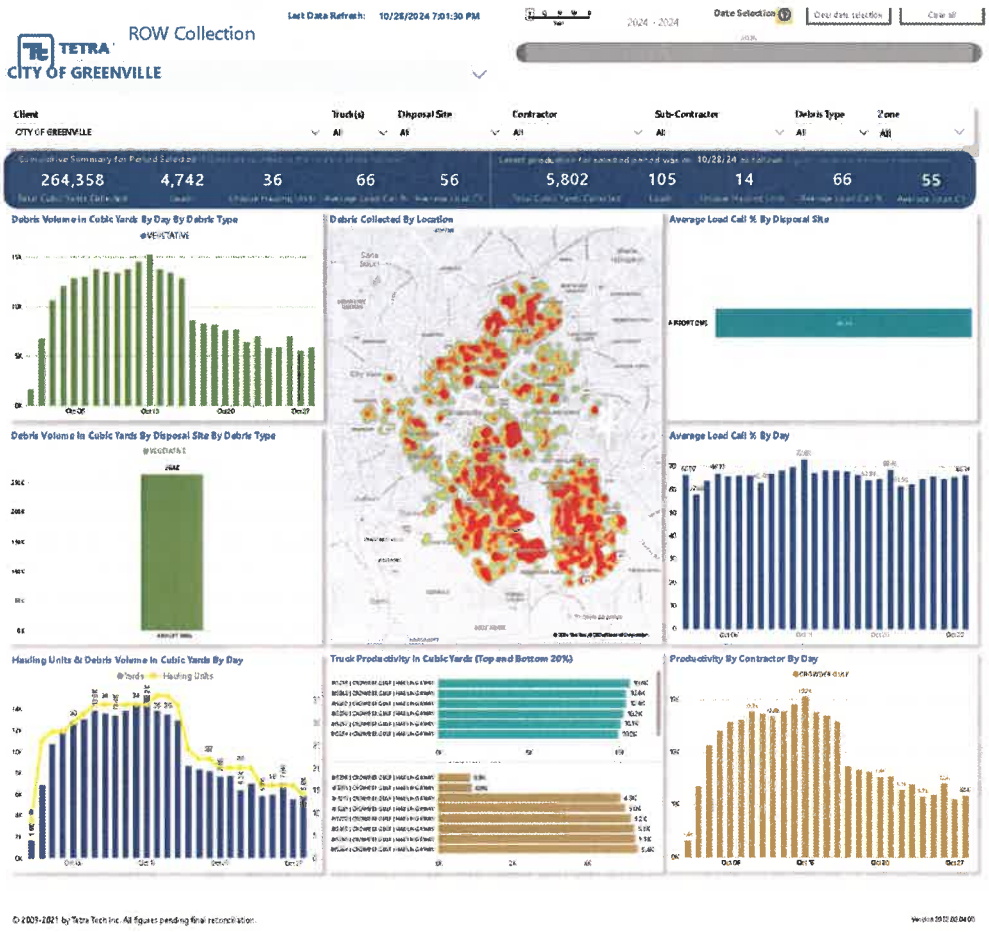
The City contracted with Crowder Gulf for disaster debris removal and with Tetra Tech for disaster debris monitoring and FEMA Public Assistance program support. Tetra Tech staff were on the ground supporting the City with **initial response efforts within four hours of the storm's passing**. Our teams assisted the City in designing a plan for emergency push as well as environmental permitting of debris management sites.

Within the first 72 hours following Helene, Tetra Tech hired and trained local debris monitors and certified more than 20 hauling containers. We established our *RecoveryTrac*™ ADMS infrastructure to track debris loads. With *RecoveryTrac*™, the City had access to real-time maps, dashboards, and multiple reports that outlined different aspects of the debris removal activities. By the end of the project, Tetra Tech has monitored the removal of over 413,000 CYs of disaster debris.

Client
City of Greenville, South Carolina

Period of Performance
September 2024 – April 2025

Project Size
413,348 CYs



Project Cost
$6,807,910

dderick@greenvillesc.gov

The City has also engaged Tetra Tech to provide FEMA Public Assistance Program grant management support. We are working with the City to seek reimbursement for Category A (Debris Removal) and Category B (Emergency Protective Measures) expenditures. Our initial activity will be to support the City in submitting an expedited project worksheet for debris removal cost which could approach $7 million.

A sample report that was provided to the City is located on the following page.

Figure 1. Load Ticket Report

TEMPORARY DEBRIS PROCESSING SITES EXPERIENCE	Following Hurricane Helene, multiple temporary debris management sites were established to support the removal of more than 413,000 CYs of vegetative and C&D debris. Tetra Tech assisted with site planning, environmental permitting, and operational monitoring to ensure debris was properly segregated, staged, reduced (including grinding and mulching of vegetative debris), and transported to approved recycling and disposal facilities in compliance with FEMA requirements.
SPECIALTY AND HAZARDOUS DEBRIS MANAGEMENT	Tetra Tech monitored and documented specialty debris in accordance with FEMA Public Assistance eligibility criteria, including hazardous trees and stumps, regulated waste streams, and other disaster-generated materials.
DEMOLITION AND PRIVATE PROPERTY DEBRIS REMOVAL (ROE PROGRAMS)	Not Applicable for the City following Hurricane Helene activation.

St. Johns County, Florida | Disaster Debris Monitoring

Hurricane Milton

When Hurricane Milton swept through Florida, St. Johns County once again relied on Tetra Tech for comprehensive debris monitoring support under our pre-positioned contract. We deployed within hours of the storm's passing, standing up field operations and launching monitoring activities across the County's extensive network of public and private roadways.

Given that nearly 40% of the County's roadway miles are privately maintained, our team played a critical role in administering the PPDR program. Tetra Tech coordinated access, oversaw documentation, and ensured FEMA compliance throughout gated neighborhoods. Our services also included coordinating with County staff to maintain clear rights-of-way and supporting the development of FEMA reimbursement documentation. Tetra Tech monitored the collection of **more than 21,000 cubic yards of debris** from the right of way.

This latest activation continues Tetra Tech's long-standing, 18-year relationship with St. Johns County and demonstrates our team's responsiveness, technical expertise, and ability to operate effectively under challenging post-disaster conditions.

Hurricane Ian

Tetra Tech has served St. Johns County Public Works for nearly 15 years – including the development of the County's disaster debris management plan and by providing debris monitoring services for multiple disaster events. In 2022, Tetra Tech was activated by St. Johns County for disaster debris monitoring services following Hurricane Ian. Tetra Tech deployed within hours of the storm's passing and was able to stand up a debris monitoring operation within 48 hours. We assisted the County in monitoring **over 45,000 cubic yards of vegetative and construction and demolition (C&D) debris**, including the documentation and pickup of PPDR within gated communities. The PPDR program was essential given that approximately 40% of the roadway lane miles in St. Johns County are private roads.

Client
St. Johns County, FL

Period of Performance
Hurricane Milton: October-November 2025
Hurricane Ian: September-December 2022
Hurricane Irma: September 2017 – January 2018
Hurricane Matthew: October 2016 – March 2017

Project Size
Hurricane Milton: 21,857 CYs
Hurricane Ian: 46,368 CYs
Hurricane Irma: 675,155 CYs
Hurricane Matthew: 722,126 CYs

Project Cost

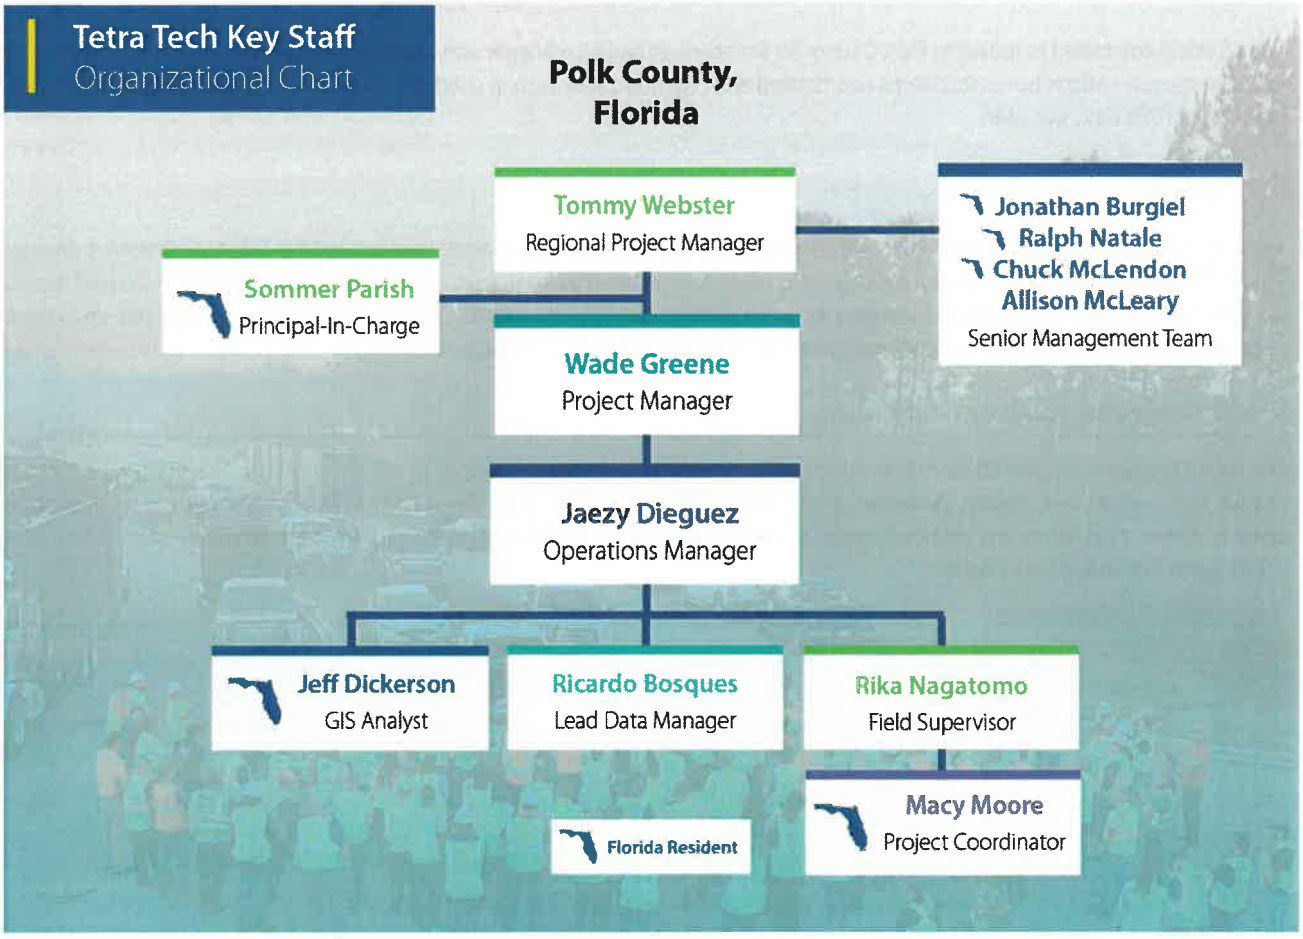
Hurricane Irma

In 2017, St. Johns County called on Tetra Tech when Hurricane Irma caused flooding, wind damage, and beach erosion. We mobilized immediately following the storm and hired **over 60 local monitors to conduct debris monitoring operations**. Tetra Tech monitored the removal of **nearly 675,000 CYs of disaster-generated debris** from the public ROW. Additionally, we monitored and provided documentation for the removal of **over 2,000 hazardous hanging limbs and leaning trees**. In addition, Tetra Tech provided support to the County in preparing its packages for FEMA reimbursement through the Grants Portal system.

Hurricane Matthew



Hurricane Matthew impacted St. Johns County on October 7, 2016, leaving a trail of wind and flooding destruction behind. Our team mobilized in the immediate aftermath of the storm's impact, hiring nearly 50 local monitors to manage and document the County's debris removal efforts. This included the staffing of seven temporary debris management sites (DMS) throughout the County – five for vegetative debris and two that accepted C&D debris. In addition to ROW debris removal, our team assisted the County with PPDR and beach debris removal programs. In total, the Tetra Tech team monitored the removal of **over 720,000 cubic yards of debris and over 800 hazardous hanging limbs and leaning trees.**

TEMPORARY DEBRIS PROCESSING SITES EXPERIENCE	During the debris removal operations, no temporary debris management sites were utilized. All eligible disaster-generated debris was directly hauled from the collection locations to approved Final Disposal Sites (FDS) in accordance with County direction and FEMA eligibility requirements. While the County had pre-identified and pre-permitted TDMS locations available as part of its debris management planning efforts, operational conditions did not necessitate their activation. The debris volume, hauling logistics, and proximity to final disposal facilities allowed for efficient direct haul operations, eliminating the need for intermediate processing, reduction, or staging activities such as grinding, mulching, burning, screening, or segregation at temporary sites. This approach reduced handling time, minimized environmental impacts, and streamlined monitoring, documentation, and reimbursement processes while remaining fully compliant with FEMA Public Assistance guidance.
SPECIALTY AND HAZARDOUS DEBRIS MANAGEMENT	Following Hurricane Irma, Tetra tech monitored and collected over 2,000 hanging limbs and leaning trees and over 800 hazardous hanging limbs and leaning trees following Hurricane Matthew.
DEMOLITION AND PRIVATE PROPERTY DEBRIS REMOVAL (ROE PROGRAMS)	Following Hurricane Milton, our team played a critical role in administering the PPDR program. Tetra Tech coordinated access, oversaw documentation, and ensured FEMA compliance throughout gated neighborhoods. Our services also included coordinating with County staff to maintain clear rights-of-way and supporting the development of FEMA reimbursement documentation.

Tab 3: Resources and Availability

Organizational Chart of the Team

The proposed organization structure is based on industry best practices and an understanding of geography and the distinct management responsibilities of each position. Our proposed organizational structure ensures orderly communication, distribution of information, effective coordination of activities, and accountability. Tetra Tech's project team can scale as needed, coordinate response, establish common processes for planning and managing resources, and adapt organizational structure to match the needs and complexities of projects. **Résumés have been included at the end of this section.**

Key Staff on this Contract

Tetra Tech has assembled a team of debris removal monitoring experts with direct experience responding to recent disasters. **Our dedicated project management team is deeply familiar with the policies, procedures, and requirements associated with delivering successful disaster debris monitoring services.**

Our staff members have **managed the removal of and reimbursement for over 256 million cubic yards (CYs) of debris as well as the demolition of over 22,000 uninhabitable residential and commercial structures.** Our record of success includes serving over 450 state and local government clients in response to over 100 presidential disaster declarations over the last decade. Our team has obtained **over $81 billion in reimbursement funds** for our clients from federal agencies.

Tetra Tech is committed to providing Polk County an experienced project manager and consistent project management team that will expedite recovery efforts by establishing a coordinated and organized approach to debris removal. Our dedicated team is available to Polk County 365 days per year.

Proposed Team

Tetra Tech has assembled a project team with the qualifications and expertise necessary to support the County following a disaster. The individuals selected for this project not only have national expertise from having worked on every major disaster in the past decade but also have **hands-on experience working on prior (or current) Florida-based projects.** As a result, our staff has an in-depth understanding of how disaster response and recovery works in the Sunshine State.

Senior Management and Advisory Team

Our senior management and advisory team will provide expert oversight and assistance at critical junctures. This team is prepared to provide both tactical and strategic guidance for the duration of any disaster recovery operation. These individuals bring decades of disaster debris monitoring and reimbursement expertise. **Résumés for project management and advisory staff have been provided at the end of this section.**

Jonathan Burgiel, Business Unit President

30+ Years of experience

Principal-in-Charge for 100+ projects across the country

Executive-level oversight and sponsorship to resolve complex issues

Chuck McLendon, Deputy Business Unit Leader

30+ Years of experience

Led efforts totaling $3B+ in FEMA PA reimbursements

Nationally recognized expert in post-disaster debris operations

Project Field Operations Team

Tetra Tech has identified a team of field staff to support the County. We have selected team members who have previous experience in similar operations. Brief summaries of each team member's experience are provided below. **Résumés for project field operations staff have been provided at the end of this section.**

Proposed Staff	Types of Projects	Project Sizes	Specific Involvement
Tommy Webster, Regional Project Manager	Disaster debris monitoring, multi-jurisdictional debris operations, FEMA PA, environmental compliance, coastal management	Regional Manager during Hurricane Milton (Numerous Florida Jurisdictions) and Hurricane Helene (South Carolina, North Carolina, Florida, Georgia, and Tennessee)	Day-to-day operations of the engagement including field operations and contractual/business aspects. Tasked with providing assistance to the Principal-in-Charge in the administration of contracts
Sommer Parish, Principal-In-Charge Florida Resident	Disaster debris monitoring, multi-jurisdictional debris operations, FEMA PA, environmental compliance, coastal management	Managed countywide & multi-county debris operations (Hurricanes Milton, Ian, Helene, Idalia) spanning multiple jurisdictions. hundreds of thousands of CYs	Oversight of debris operations, staff hiring/training, client liaison, team supervision, FEMA documentation support
Edward Green, Project Manager	ROW debris removal, parks debris removal, PPDR, ROE, waterways, severe storms	Managed projects totaling more than 5.5 M CYs of debris and staffing up to 547 personnel	Project oversight, scheduling, safety, verifying eligibility, coordinating with debris contractors, managing field staff, tower/site monitoring
Jaezy Dieguez, Operations Manager	Hurricane debris operations, PPDR, leaner/hanger, ROW & disposal sites, waterway debris, monitor scheduling, emergency response	Managed 200 monitors; supported multiple counties during Hurricane Ian, Irma, Michael, Ida	Oversaw day-to-day debris monitoring, trained/scheduled monitors, certifying trucks, liaison with clients/contractors. **Prior experience with Polk County during Hurricane Ian.**
Rika Nagatomo, Field Supervisor	Hurricane, winter storm, PPDR, ROW, hazard trees/limbs/stumps, tornado debris	Multi-year countywide programs for Hurricane Idalia and Ian. Managed projects that included over 100 K CYs of debris.	Implemented work plans, dispatched field staff, safety oversight, schedule coordination, training monitors, managing supervisors & field staff
Ricardo Bosques, Lead Data Manager	ADMS data systems, GIS, invoicing, debris tracking, hurricane, severe storms, PPDR	Supported programs totaling over 100M of Cys of debris	ADMS setup/implementation, invoice data management, GIS integration, reporting, data oversight, client demonstrations. **Prior experience with Polk County during Hurricane Ian**
Macy Moore, Project Coordinator Florida Resident	ROW monitoring, administrative/HR onboarding	Supported countywide programs across Florida, North Carolina, South Carolina. Managed projects that included over 100 K CYs of debris.	Hiring/training coordinators, QA/QC of documentation, coordinating office & field staff, supporting debris monitoring, **Prior experience with Polk County during Hurricane Ian**
Jeff Dickerson, GIS Analyst Florida Resident	Technical organizational management, training, Developed and support of Tetra Tech's *RecoveryTrac*™	Tetra Tech's *RecoveryTrac*™ suite's SOC2 Certification (2023-2024) State and Local Sheltering and Logistic Tracking Programs (2022-2024)	Responsible for the technology solutions used to deliver professional services projects to Tetra Tech's Clients, Jeff is responsible for the planning, development, and customization of the *RecoveryTrac*™ software suite of applications.

EXPERIENCE SUMMARY

As President of Tetra Tech's Disaster Recovery Business Unit, Mr. Jonathan Burgiel manages the business operations of all disaster recovery efforts, including preparedness planning, project staffing, logistics, grant administration and agency reimbursement support, program accounting/auditing oversight, and contract negotiations. Jonathan is dedicated to helping communities plan for and recover from disasters and provide the necessary documentation to receive the maximum allowable reimbursement from federal and state emergency management agencies.

Jonathan has 30+ years of solid waste and disaster recovery experience. His disaster-related work has included serving as principal in charge of over 100 projects, helping clients throughout the country prepare for, respond to, and recover from natural and human-caused disasters.

Jonathan is intimately familiar with local, state, and federal solid waste and hazardous waste regulations, as well as U.S. Department of Housing and Urban Development (HUD), Federal Emergency Management Agency (FEMA), and Federal Highway Administration (FHWA) policies and reimbursement procedures as they relate to disaster management and recovery.

RELEVANT EXPERIENCE

Jonathan has provided senior management oversight to the following projects:

- Buncombe County, NC, Disaster Recovery Services – Hurricane Helene, 2024-2025
- Iowa Non-Congregate Sheltering – Iowa Severe Storms, 2024
- 30 communities and over 1,500 staff in Florida – Hurricane Ian, 2022-2023
- Rental and Mortgage Assistance - rental assistance to 120,000 homeowners across 5 states, and mortgage assistance in Florida and Maryland resulting from COVID pandemic
- Hurricane Maria debris mission supporting the Commonwealth of Puerto Rico Department of Transportation, comprehensive support including environmental; grant management; homeowner and infrastructure support w/HUD funding
- City of Cedar Rapids, Iowa – Severe Flooding, 2020
- 67 communities and over 2,400 staff in Florida – Hurricane Irma
- 38 communities and over 1,400 staff in Texas – Hurricane Harvey
- CalRecycle/CalOES – State of California Camp Fire Response

EXPERIENCE SUMMARY

Mr. Ralph Natale is the director of post-disaster programs for Tetra Tech, encompassing HUD and Case Management operations, FEMA funding operations, and debris monitoring operations. He leads the practices by developing programs, providing daily project support, and providing oversight and guidance to his team of project managers and projects. Ralph is an expert in Federal Emergency Management Agency-Public Assistance (FEMA-PA) Grant Program reimbursement policies and has administered over 250 projects in his 15-year-plus career.

Ralph specializes in large scale responses and has served as a principal in charge or project manager in response to some of the country's largest disasters, including 19 state-level responses after major hurricanes, floods, and fire events. This includes managing and documenting the removal of over 66 million cubic yards (CYs) of debris, 1.7M hazardous trees, and the program management of debris collection and demolition of over 35,000 parcels on fire removal projects and over 200,000 environmental samples. The HUD projects that Ralph has overseen have encompassed 5,000 parcels, and the Department of the Treasury ERAP projects he has overseen have benefited 100,000 residents.

RELEVANT EXPERIENCE

Senior Management Team | Grant Management, Case Management, and Debris Monitoring

As the Operations oversight for all Grant Management, Case Management, and Debris Monitoring projects, Ralph is responsible for developing and implementing strategic plans to help Tetra Tech's clients receive as much grant funding as possible in the wake of disasters. He works with the leaders in each of these practices to ensure the teams are compliant in funding requests and that they optimize resource allocation. He plays a pivotal role in administering FEMA Public Assistance and HUD CDBG programs, liaising with government agencies, and ensuring eligibility criteria are met. He oversees operational functions, streamlines processes to help the staff spend more of their time focused on their projects, and fosters a cohesive work environment. Overall, Ralph oversees a broad spectrum of responsibilities and tasks that makes Tetra Tech effective at being a full-spectrum recovery provider.

Several recent key projects include the following:

- Buncombe County, North Carolina | Comprehensive Disaster Recovery Services following Hurricane Helene (2024 – Present)
- Private Property Puerto Rico Department of Housing | Environmental Reviews (2021 – 2023)
- Texas Emergency Rental Assistance Program (2022 – 2023)
- State of Connecticut Public Assistance Services (2019 – present)
- Harris County, Texas | Environmental Review (2020 – 2022)

EXPERIENCE SUMMARY

Mr. Chuck McLendon serves as the Deputy Business Unit Leader for Tetra Tech's Emergency Management practice area and has been providing consulting engineering services to federal, state, and local governments across the U.S. for more than 30 years. His background in solid and hazardous waste management has led him to become one of the leading experts in the country on the implementation of large-scale post-disaster debris removal programs. He has routinely assembled large teams to support major infrastructure and emergency response efforts. Career highlights include:

- Experienced Executive Program Manager with over 33 years of experience working with federal, state, and local government agencies on the finance, design, permitting, procurement, construction, and operations of major infrastructure projects.
- Major experience in legal substantiation and implementation of complex debris removal programs including PPDR, waterways, beaches, selective salvage, etc.
- In depth knowledge of the FEMA Public Assistance program including a strong understanding of Federal Register 2 CFR Part 200 ("the Super Circular")

RELEVANT EXPERIENCE

Chuck has been activated on more than 30 major disaster activations including projects totaling more than 125 million cubic yards of debris and upwards of $3 billion in FEMA PA reimbursement. A selection of his debris monitoring experience includes:

- Hurricane Milton (2024) | Numerous Florida Jurisdictions
- Hurricane Helene (2024) | Clients throughout South Carolina, North Carolina, Florida, Georgia, and Tennessee
- Severe Storms (2024) | Leon County and City of Tallahassee, FL
- Hurricane Idalia (2023) | Florida Department of Environmental Protection
- Surfside Condominium Collapse (2021) | Miami-Dade County, Florida
- Hurricane Sally (2020) | City of Pensacola, FL and Okaloosa County, FL
- Hurricane Laura (2020) | Calcasieu Parish, LA
- Hurricane Florence (2018) | Boiling Spring Lakes, NC and Briarcliff Acres, SC
- Hurricane Irma (2017) | Numerous Central Florida Jurisdictions
- Severe Flooding (2017) | South Carolina Emergency Management Division
- Hurricane Matthew (2016) | St. Johns and Flagler Counties, Florida
- Severe Flooding (2015) | Clarendon County, South Carolina
- Severe Flooding (2014) | Escambia County, Florida
- Hurricane Isaac (2012) | Jefferson Parish, Louisiana
- Northern Alabama Tornados Debris Monitoring (2011) | U.S. Army Corps of Engineers

EXPERIENCE SUMMARY

Ms. Allison McLeary is a **seasoned emergency management executive** with a strong track record of implementing and managing complex grant programs. As former Recovery Bureau Chief of the Florida Division of Emergency Management, she offers more than three years of direct experience administering grant programming throughout the State of Florida. In her role, she excelled at building meaningful relationships across all levels of government to drive impactful outcomes for applicants. Allison also served as Recovery Counsel for the Louisiana Governor's Office of Homeland Security and Emergency Preparedness (GOHSEP), where she contributed to the development and management of statewide programs aimed at enhancing public safety and infrastructure resilience. Allison is a **recognized expert in the realm of grant management** and is frequently invited to present at national conferences, where she shares her **insights on effective strategies for grant administration and implementation**. With Tetra Tech, Allison is currently a **program management advisor for state-level contracts for 29 states and 2 territories**.

RELEVANT EXPERIENCE

Director, Federal Grant Programs (March 2021 – Present)
Tetra Tech, Inc.

Allison serves as Director, Federal Grant Programs, providing policy guidance and program support. Allison is an expert in FEMA policies, building and maintaining relationships with State and FEMA representatives. She analyzes policy and provides policy guidance to clients. She supports the Tetra Tech team to build programs that align with federal expectations and comply with client/federal requirements. She maximizes operational efficiencies by analyzing individual projects with a holistic lens, leveraging best practices from Tetra Tech management operations throughout the nation. Additionally, Allison coordinates relationships with funding agencies and local partners to streamline project operations.

Allison has been activated on more than 15 major disaster activations including projects totaling more than 125 M CYs of debris and upwards of $3 billion in FEMA PA reimbursement. A selection of her debris monitoring experience includes:

- State of Iowa
- Florida Department of Emergency Management – Water and Infrastructure Response and Recovery
- Maui County
- State of Connecticut

FEMA ICS-100 and 200

EXPERIENCE SUMMARY

Mr. Tommy Webster has more than 20 years of consulting and operational experience with major field environmental and civil works projects. Tommy brings a unique perspective, having spent many years of his career on the consulting side at Tetra Tech and its preceding organizations, as well as at a major national civil construction and debris contractor (Phillips and Jordan). He brings a strong understanding of Federal Emergency Management Agency FEMA) Public Assistance (PA) Program policy and how the policy applies to post disaster recovery. Through his experience, Tommy has managed planning, response, and recovery/reconstruction for a wide variety of projects and disasters including hurricanes, floods, ice storms, fires, oil spills, and other disaster incidents. He has worked projects large and small for clientele across the United States including the Army Corps of Engineers (USACE), state government and agencies, counties, cities, water management/flood control districts, and more. Tommy is a pragmatic, results oriented professional with a proven history of leadership on highly successful projects.

Tommy was chosen for this project due to his ability to interact with clients, governmental agencies, employees, and contractors and his leadership skills to negotiate contracts, train clients and employees, submit realistic schedules, motivate staff, and track results.

RELEVANT EXPERIENCE

Program Manager (May 2022 – Present)
Tetra Tech, Inc.

Tommy is responsible for the day-to-day operations of the engagement including field operations and contractual/business aspects. He is tasked with providing assistance to the Principal-in-Charge in the administration of contracts; enforcement of the provisions of the client's contract with collection contractors; serving as the primary point of contact for client staff, Contractors and FEMA representatives; maintaining appropriate staffing levels; implementing quality assurance and control measures; review of daily contractor activity; review/submittal of contractor invoices.

A selection of his debris monitoring experience includes:

- Hurricane Milton (2024) | Numerous Florida Jurisdictions
- Hurricane Helene (2024) | Clients throughout South Carolina, North Carolina, Florida, Georgia, and Tennessee

EXPERIENCE SUMMARY

Dynamic and results-driven Environmental and Project Management Professional with 20 years of progressively responsible experience leading disaster debris operations, environmental compliance programs, and cross-functional teams. Proven expertise in budget management, contract compliance, regulatory compliance, and strategic planning. Acted as the primary client-services liaison for multiple municipal and county agencies—developing communication plans, delivering timely status reports, and resolving escalations to sustain high client satisfaction. Demonstrated ability to oversee complex operational programs ensuring regulatory adherence and fiscal sustainability.

RELEVANT EXPERIENCE

Regional Client Program Manager (Central Florida)

As a Regional Client Program Manager for Central Florida, I led the development and execution of client growth initiatives, strategically aligning marketing and operational support to drive regional expansion and program success. I managed contract tracking and coordinated closely with finance teams to ensure timely invoice processing and fiscal accountability, supporting seamless financial closeouts. My role required strong cross-functional collaboration, strategic planning, and focused delivery of measurable results to meet business objectives while maintaining client satisfaction. Additionally, I conducted internal and client-facing training and presentations to enhance program understanding and stakeholder engagement. This position honed my abilities in program management, client relations, and operational coordination within regulated environments.

Regional Project Manager

In my role as a Regional Project Manager, I directed the coordination of multi-jurisdictional debris removal and disposal operations, ensuring optimal resource allocation and contractor performance to meet operational and budgetary goals. I collaborated closely with local government and emergency management officials to ensure compliance with federal and state solid waste and environmental regulations. I managed project budgets encompassing operational expenses, staffing, and equipment needs, consistently ensuring financial accountability and timely invoice processing. Furthermore, I developed and implemented strategic plans aimed at enhancing debris management efficiency and ensuring the long-term operational viability of projects.

Edward "Wade" Green | Project Manager

8 YEARS OF EXPERIENCE

EXPERIENCE SUMMARY

Edward "Wade" Greene is a management professional with 6 years of experience spent working on debris-related projects for Tetra Tech clients across the nation. He is adept in all aspects of debris monitoring and is knowledgeable on the required documentation to satisfy the requirements of multiple funding sources. Wade is responsible for the implementation of Tetra Tech's work plans, dispatching field personnel, staffing, safety procedures, field logistics, and training of personnel. He verifies eligibility and compliance; oversees collection and disposal operations; and coordinates directly with debris contractors, data managers, and project managers to meet the goals of each client.

Wade was selected for this project because of his extensive experience working on large scale debris generating disasters.

Areas of Expertise

Jaezy Dieguez

Operations Manager

5 YEARS OF EXPERIENCE

5+ DISASTERS

Areas of Expertise

Supervision of Field Operations

Scheduling & Dispatch

Debris Removal Monitoring

Truck Certification

Key Training/Certifications

FEMA ICS 100

Education

Everglades University - BA, Crisis and Disaster Management/Construction Management, 2022-Present

Florida Metropolitan University — AA, Sciences of Criminal Justice, 2005-2007

EXPERIENCE SUMMARY

Mr. Jaezy Dieguez has demonstrated exceptional skills and experience in multiple areas of debris recovery during his time at Tetra Tech. His expertise lies in recruiting, hiring, and training staff, along with managing a large team of monitors ranging from 3 to 200 employees. Mr. Dieguez has successfully overseen the entire process of debris removal and final haul-out for disaster recovery projects, serving as the primary liaison between clients and contractors. His responsibilities encompass organizing and scheduling truck routes on a daily basis, monitoring schedules, handling clock-in/out procedures for monitors, and managing payroll. He ensures the verification of daily collection and disposal logs, maintains project punch-lists, organizes data entry, and manages file organization. Mr. Dieguez is also responsible for conducting safety briefings and trainings to ensure adherence to health and safety protocols. His efficient coordination includes scheduling meetings with clients and contractors to ensure timely project completion.

Jaezy was selected for this project because he brings 5 years of direct, field-tested experience managing debris monitoring operations across multiple hurricanes, including prior work in Polk County.

RELEVANT EXPERIENCE

Operations Manager

In this role, Mr. Dieguez is responsible for overseeing day-to-day operations of debris monitoring, which include the training and scheduling of monitors, tracking of debris, and project QA/QC. As an operations manager, his oversight involves field issue resolution, and the design and implementation of processes for monitoring.

- Highlands County, Florida - Hurricane Ian
- **Polk County, Florida - Hurricane Ian**
- Covington, Louisiana - Hurricane Ida

Project Manager

As a project manager, Mr. Dieguez was responsible for client communications, supervised all aspects of operations, dispatch and time verification. Mr. Dieguez also oversaw operations and worked closely with office staff such as Operations Manager, Project Coordinators, and Data Managers.

- Panama City, Florida - Hurricane Michael
- Lee County, Georgia - Hurricane Michael
- South Florida - Hurricane Irma,

Monitor Training

Right of Way Debris Removal

Field Operations

Hazardous Trees/Limbs/Stumps

Education

Mineola High School, Diploma

EXPERIENCE SUMMARY

Rika Nagatomo is an experienced Field Supervisor supporting multiple projects with Tetra Tech. Rika has served on a variety of projects including Hurricane, Fire, and Severe Winter Storm Projects. With seven years of experience, Rika brings a deep knowledge of what's necessary for successful debris monitoring operations. She's skilled at training debris monitors and performing QA/QC throughout the projects.

RELEVANT EXPERIENCE

Operations Manager

As operations manager, Rika was responsible for the implementation of Tetra Tech's work plans, dispatching field personnel, staffing, safety, field logistics, and training. She verified eligibility, compliance, and collection and disposal operations oversight and coordinate directly with our project manager daily with progress reports and on specific issues.

- Pinellas County, FL – Hurricane Helene, 2024-2025
- Pinellas County, FL – Hurricane Milton, 2024-2025
- City of St. Petersburg, FL – Hurricane Idalia, 2023
- St. John the Baptist Parish, LA – Hurricane Ida PPDR, 2022-2024

Field Supervisor

Rika served as project coordinator and field supervisor for multiple storm and tornado projects. Her duties included the quality control of debris site monitors, project payroll, and ensuring that all documentation that is being captured is FEMA-compliant during debris removal operations. She verified that monitors retained their training and responded to issues as they arrived in the field. Rika was tasked with the management of locally hired additional supervisors and field monitors, project timeline, and current tasking.

- Los Angeles County, CA – Wildfires, 2025

EXPERIENCE SUMMARY

Mr. Ricardo Bosques is a data and automated debris management system (ADMS) technology specialist for Tetra Tech, where his understanding of Federal Emergency Management Agency (FEMA) eligibility and documentation requirements for public assistance debris removal programs have aided him in quality control and oversight of multiple projects. Ricardo is responsible for the implementation of Tetra Tech's *RecoveryTrac*™ ADMS technology as well as oversight and management of field data managers and invoice analysts. He supports the implementation of ADMS in the field, as well as establishing quality assurance and project reporting standards for disaster debris monitoring operations. Ricardo has focused on providing complete auditable datasets that maximize reimbursement and are project worksheet ready.

RELEVANT EXPERIENCE

Senior Data Manager (2020-Present)

Various Clients and Projects

Ricardo handles overall project setup for various Tetra Tech disaster response monitoring operations through *RecoveryTrac*™ ADMS. He also creates and oversees specialized reporting requested by the clients, handles debris contractor invoicing data and documentation, provides client demonstrations of the geoportal GIS tracking system, abiding and following FEMA compliance pertaining to the debris removal operations, and data tracking.

Ricardo has supported the following projects as the Senior Data Manager:

- Hurricane Helene – Multiple Clients in Florida, Georgia, South Carolina, and North Carolina, 2024
- Hurricane Milton – Multiple Clients in Florida, 2024
- Hurricane Idalia – Florida Department of Environmental Protection: Parks and Waterways, Leon County, Pasco County, and City of St. Petersburg, Florida, 2023
- New Mexico Wildfires – United States Army Corps of Engineers, 2023
- Severe Storms and Floods – State of Vermont, 2023
- Severe Storms and Tornadoes – City of Rolling Fork, Mississippi, 2023
- Severe Storms and Tornadoes – City of Sherwood and City of North Little Rock, Arkansas, 2023
- **Hurricane Ian – Sarasota County, Charlotte County, Collier County, Polk County, Manatee County, Volusia County, Highlands County, Seminole County, Orange County, and the City of Cape Coral, Florida, 2022**
- Severe Winter Storms – Warren County and City of Bowling Green, Kentucky
- Lake Houston Silt Removal | 2022 – City of Houston, Texas, 2022

EXPERIENCE SUMMARY

Ms. Macy Moore is an accomplished Regional Project Coordinator with five years of experience in the disaster recovery industry. Since joining Tetra Tech in 2017, she has supported projects in California, as well as multiple states along the Gulf and East coasts following hurricanes, tornadoes, and wildfires. Macy is responsible for onboarding, training, and assisting with the oversight of PC teams to ensure that projects run smoothly and efficiently.

RELEVANT EXPERIENCE

Regional Project Coordinator

Macy's responsibilities include the hiring and oversight of local project coordinators, coordination between project management and field staff, HR and payroll liaison, and QA/QC of project documentation and time records. She was responsible for conducting interviews for potential administrative staff. Macy provided day-to-day support for operations and was responsible for the organization and tracking of licenses used for Tetra Tech's Tetraforms system. Macy is also responsible for ensuring that employees are in compliance with state policies and labor laws.

EXPERIENCE SUMMARY

Mr. Jeffrey Dickerson has more than 30 years of experience in program management, with extensive experience in technical organizational management, training, and readiness exercises. He is a military veteran with skills in leadership, training, and personnel development. As the Director of Information Technology, Jeff is responsible for the planning, development, deployment of *RecoveryTrac*™ applications supporting the delivery of professional services for our clients.

Jeff has led the development and support of Tetra Tech's *RecoveryTrac*™ suite of applications most notably the Automated Debris Management System (ADMS). Validated by the USACE on both 2015 and 2023, it is the preferred provider by the USACE debris contractors, providing ADMS services to 7 of 8 USACE districts globally. *RecoveryTrac*™ ADMS flexibility and GIS capabilities provide best-in-class reporting and analysis tools. Additionally, *RecoveryTrac*™ ADMS technology web-based data feeds enable direct integration into client GIS and emergency management systems.

RELEVANT EXPERIENCE

Senior Management Team | Technology Solutions for Debris Removal Monitoring, Grant Management, Case Management and Logistics

Responsible for the technology solutions used to deliver professional services projects to Tetra Tech's Clients, Jeff is responsible for the planning, development, and customization of the *RecoveryTrac*™ software suite of applications. The *RecoveryTrac*™ suite includes Grant Management, Case Management, Debris Removal ADMS, Time Tracking, Logistics/Sheltering and Fleet Management/Tracking. He works closely with delivery teams and management to ensure the software meets and exceeds regulatory and statutory requirements for disaster related reimbursement programs. He has directly managed projects and/or software solutions under the FEMA Public Assistance, HUD CDBG-DR, Department of the Treasury ERAP, and several State and Local Logistics and Sheltering programs.

Notable recent key projects include the following:

- Tetra Tech's *RecoveryTrac*™ suite's SOC2 Certification (2023-2024)
- State and Local Sheltering and Logistic Tracking Programs (2022-2024)
- State and Local Emergency Rental Assistance Program (2022 – 2023)
- Puerto Rico Department of Housing | Environmental Reviews (2019 – 2022)

Key Staff's Availability to Respond

Clients count on us to respond in their time of need, and we have never failed to deliver. Our ability to respond rapidly is accelerated by utilizing the following:

- **Incident Command System (ICS) Structure:** Our projects are operated under the ICS structure and have a proven track record of meeting even the most challenging staffing level requirements. ICS allows the Tetra Tech project team to scale as needed, coordinate response, establish common processes for planning and managing resources, and adapt organizational structure to match the needs and complexities of projects.
- **Ability to Hire Rapidly:** Tetra Tech's immediate response staffing plan utilizes our vast network of disaster recovery professionals, including full-time employees, reserve staff from the Tetra Tech Disaster Recovery Unit, and local hires. Our staffing process has rapidly mobilized project teams for major disaster recovery projects nationwide. We prioritize deploying local staff, which benefits the local post-disaster economy and reduces mobilization and transportation costs. In addition to maintaining an extensive field staff database, Tetra Tech can deploy our Field Human Resources (HR) Hiring Center, which is designed to be quickly mobilized, transported, and set up to allow near immediate response for field staffing needs. The number of trained HR representatives can scale up to 20 at a moment's notice, with the ability to hire 200+ staff per day. Under this process, local teams can be hired, trained, and deployed within 24 hours.
- **Depth of Resources:** Tetra Tech maintains a fully stocked warehouse located in Orlando, Florida with over 120 fully stocked bays of debris monitoring supplies capable of supporting over 50 simultaneous recovery operations for over 90 days. We also have dedicated logistics staff that manages resources and supplies and can have a fully functioning field office in a matter of days, and often several simultaneous offices at once. Tetra Tech has consistently deployed large-scale mobilizations of hundreds of staff and thousands of dollars' worth of equipment to multiple clients in a matter of days and on very short notice.

Scalability

Our scalable disaster recovery operations are staffed by a deep bench of experienced disaster recovery professionals that includes:

9	88	82	155	35
Project Principals	Project Managers	Operations Managers	Field Supervisors	Project Coordinators

This core team provides management and oversight to our disaster response and recovery operations. They are seasoned experts in their field, with experience managing disaster recovery projects in response to hurricanes, floods, tornadoes, fires, ice storms, and straight-line wind events in 20 states and simultaneous activations in nine states.

While the Tetra Tech senior management team has worked together for more than 15 years, the firm also frequently welcomes new talent to meet client needs. Positions will be filled using Tetra Tech's vast network of disaster recovery professionals, including full-time employees and local hires.

Rapid Response Methodology

In many cases, we respond rapidly within 24 hours of receiving notice-to-proceed and fully staff projects within 7 days. Our staffing process has rapidly mobilized project teams for major disaster recovery projects nationwide, leveraging both our in-house and on-call staff with demonstrated disaster response training and experience. We prioritize deploying local staff to the maximum extent practical, which not only benefits the local economy but also reduces mobilization and transportation costs. **Our team has successfully deployed large-scale mobilizations of hundreds of staff and thousands of dollars' worth of equipment to multiple clients in a matter of days and on very short notice.**

In addition to maintaining an extensive debris management and community outreach staff database, Tetra Tech can deploy our Field Human Resources (HR) Hiring Center which is designed to be quickly mobilized to allow near immediate response for staffing needs. In fact, in most cases, Hiring Centers are ready in less than 72 hours from the notice to proceed. The number of trained HR representatives can scale up to 20 at a moment's notice – allowing Tetra Tech to **hire 200+ staff per day**. Under this process, local teams can be hired, trained, and deployed quickly.

Local hires in 24 hours.

Tetra Tech can hire, train, and deploy local teams within 24 hours. Our onboarding procedures are designed for rapid mobilization, thorough training, and near-immediate execution of work.

Tetra Tech monitors the project work plan to meet the needs of the project throughout the engagement, including fluctuations in staffing needs. As the work volume decreases after the initial surge upon program launch, we typically reduce staffing levels accordingly. Our utmost priority is to balance workload and customer service – providing the proper amount of field staff to maintain pace with activity in the workflow.

Typically, during the program demobilization process, Tetra Tech works with each employee to determine the next step in their professional journey – very frequently another project with our team. Many of our current project management staff members began their career with Tetra Tech as locally hired staff and have grown with us into national senior leadership positions.

The exhibit below lists our proposed key staff and their availability in the event of an activation. In addition to our field staff being 100% dedicated to the County, our senior management team is also available as needed when issues arise.

Key Personnel Availability

Name	Availability
Regional Operations Director, Tommy Webster	As needed
Principal in Charge, Sommer Parish	As needed
Project Manager, Edward Greene	100%
Operations Manager, Jaezy Dieguez	100%
Field Supervisor, Rika Nagatomo	100%
Lead Data Manager, Ricardo Bosques	Lead Data Manager
Project Coordinator, Macy Moore	100%
GIS Analyst, Jeff Dickerson	As needed

Tetra Tech handles the biggest, most complex debris missions. Others simply can't manage the scale.

With over 20 established Florida offices and a dedicated disaster recovery headquarters located within a short drive of Polk County, our team can mobilize quickly without delays associated with long-distance travel or logistics. This proximity allows us to support Polk County with on-the-ground leadership, local knowledge, and consistent availability throughout the duration of an event.

Subcontractors

Tetra Tech seeks opportunities to work with small, women-owned, minority-owned, and disadvantaged business enterprises (DBE) where specific and individual capabilities complement our own for the benefit of the successful completion of a project.

While Tetra Tech is a large, multi-national firm with sufficient resources to complete most any project, we are committed to upholding the requirements for contracting with local businesses and small, minority-owned, and/or women-owned businesses included within 2 CFR 200.321 and within the County's RFP.

As evidence of the Tetra Tech Disaster Recovery division's commitment to local and minority participation in our projects, in February 2019, Tetra Tech received the City of Houston Goods and Services Prime Contractor of the Year Award at the 6th Annual Champions of Diversity Awards Ceremony. Tetra Tech is honored to be selected for such award, and it demonstrates our commitment to work with minority, women, small, and disadvantaged business enterprises.

Tetra Tech receiving the City of Houston Goods and Services Prime Contractor of the Year Award at the 6th Annual Champions of Diversity Awards Ceremony.

Most recently, Tetra Tech Tetra Tech received the 2022 Dwight D. Eisenhower Award for Excellence in the Services Category for our effective small business subcontracting programs. The award recognizes large U.S. prime contractors that have excelled with their small business subcontracting programs by creating optimal opportunities for use of small businesses in all socioeconomic categories. The award was presented during the U.S. Small Business Administration's (SBA) National Small Business Week's virtual award ceremony on May 5, 2022.

Tetra Tech does not discriminate on the basis of social and economic disadvantage, race, color, sex, gender, disability, or national origin. **While Tetra Tech would certainly be open and willing to discuss with the County any local or minority firms that they would like to see involved in a project or recovery effort, given the anticipated scope of work and Tetra Tech's capabilities, Tetra Tech does not anticipate the solicitation of subcontractors for this project. On the following pages, Tetra Tech has provided evidence of Good Faith Efforts along with the reasonable steps for appropriate participation for eligible minority firms.**

SCOPE_Polk County, FL-RFP-26-012 Disaster Debris Monitoring Services.pdf; Standard Subcontract Ts&Cs.pdf;

Good Morning:

Tetra Tech, Inc. (Tetra Tech) is currently working on preparing a proposal in response to the Polk County, Florida RFP 26-012 for Disaster Debris Monitoring Services. Tetra Tech officially invites you to provide a Statement of Qualifications for services relevant to your organization, as described in the attached RFP scope.

The specific requirements for these services can be found in the attached file.

This solicitation does not commit Tetra Tech or Polk County, Florida to pay any costs incurred in the preparation and submission of an offer in any form, or to subcontract for said services or supplies. This is not a commitment to team or subcontract with any firms for said services at this time. The purpose of this request is to pre-qualify potential firms and assess our approach moving forward. It is also brought to each offeror's attention that the Tetra Tech procurement representative or designee is the only individual who can commit Tetra Tech into expenditure of funds in connection with any subcontract resulting from this solicitation.

If you intend to respond to this invitation to bid, the following instructions are required:

1. Please submit a brief company overview and any past history/experience with Polk County, Florida.
2. Please submit resumes for the key positions that apply to your company's service capabilities -- see the RFP's scope for Staffing Requirements and the description of the key personnel and required qualifications.
3. If your company is DBE, WBE, MBE, etc. please provide relevant vendor identification number(s) and certificates.

4. CAREFULLY review the Terms and Conditions contained in the entirety of the RFP's scope and Tetra Tech's General Conditions (Example attached) which would be incorporated into any subcontract/master agreement or purchase order awarded as a result of the solicitation. Tetra Tech will require you to adhere to the terms and conditions described therein, in addition to entering into a standard Teaming Agreement during the submission of proposal and award period.

If you are interested in submitting a proposal, it would be helpful for you to please provide your Key Personnel References and Statement of Qualifications as soon as possible!

All bids must be received no later than December 24, 2025 at 5:00 PM EST, though earlier responses are encouraged and appreciated

Offeror must e-mail its proposal submission to:

TDR.Contracts@tetratech.com

For your bid to be considered, please send it ONLY to the above email address and include the following subject line in your email submission

"YOUR COMPANY NAME – Bid Submission re: Polk County, FL RFP 26-012 for Disaster Debris Monitoring Services"

Award of a Subcontractor/Master Agreement as a result of this solicitation is governed by the terms and conditions of an executed teaming agreement with Tetra Tech and is contingent upon Tetra Tech award of a contract by Polk County, Florida. Tetra Tech may or may not issue Subcontracts/Master Agreements as a result of this solicitation.

Offeror agrees and acknowledges that any subcontract awarded shall contain Tetra Tech terms, insurance requirements, health and safety requirements, and any applicable flow-down provision of Tetra Tech's prime contract with Polk County, Florida.

Questions regarding this solicitation shall be directed to (TDR.Contracts@tetratech.com).

Tetra Tech, Inc. | *Leading with Science®* | Tetra Tech Disaster Recovery

TETRA TECH

Additional Resources

Tetra Tech has provided additional information on resources and capabilities below.

Equipment

Tetra Tech maintains a warehouse located in Orlando with over 120 fully stocked bays of debris monitoring supplies capable of supporting over 50 simultaneous recovery operations for over 90 days. **Tetra Tech has consistently deployed large-scale mobilizations of hundreds of staff and thousands of dollars' worth of equipment to multiple clients in a matter of days and on very short notice.** The Exhibit lists available equipment and facilities readily available upon activation.

Resource List

Resource	Quantity Available
ADMS Handheld Units	6,000
Time and Materials Forms	5,000
Truck Certification Forms	70,000
ADMS Ticket Stubs	3,600,000
Haul Out Ticket Stubs	600,000
Placards	11,000
	Kits
Project Manager Kits (1 Per 100 Monitors)	200
Project Coordinator Kits (1 Per 100 Monitors)	200
Human Resources Kits (1 Per 100 Monitors)	120
Collection Monitor Kits (1 Per 25 Monitors)	550
Disposal Monitor Kits (1 Kit Per Disposal Site)	330
Leaner/Hanger/Stump Kits (1 Per 50 Monitors)	280
	Equipment**
Laptops	700
Mifi (Mobile Wireless)	90
High Speed Scanners	70
Printers	145
Mobile Command Office	2
Fuel Trucks	To Be Obtained from Pre-Contracted Vendor
Modular Work Locations	To Be Obtained from Pre-Contracted Vendor
Generators	To Be Obtained from Pre-Contracted Vendor
Portable Facilities	**To Be Obtained from Pre-Contracted Vendor**

**All field documents are replenished as they are needed. Tetra Tech has several emergency vendors with the ability to supplement as required.*

*** ADMS units are readily available and can be ordered as needed on a 24-hour turnaround.*

Deep Bench of Experts

Our core project team is backed by a robust bench of specialists in federal grant policy, environmental compliance, engineering, GIS modeling, risk assessment, and cost estimation. These experts are available for targeted assignments, technical reviews, or surge support, ensuring the County receives responsive service tailored to each task.

Tetra Tech's strength lies in our ability to act locally with the responsiveness of a small team, while bringing to bear national expertise and resources that ensure quality, compliance, and continuity. We are ready to begin work immediately and to scale as needed to support both the County's immediate priorities and its longer-term recovery goals.

Exhibit 2. Tetra Tech Personnel Available by Discipline

Technical Disciplines	# of Employees	Technical Disciplines	# of Employees
Civil Engineers	2,399	Environmental Scientists	1,100
Mechanical Engineers	788	Biologists	661
Structural Engineers	240	Ecologists	219
Hydraulic Engineers	348	Hydrologists	227
Water Resources Engineers	472	Geologists	443
Environmental Engineers	843	Oceanographers	32
Foundation/Geotechnical Engineers	488	Land Surveyors	172
Soils Engineers	350	Hydrographic Surveyors	43
Cost Engineers/Estimators	240	Architects	679
Value Engineers	109	Landscape Architects	51
Economists	30	CADD Technicians	522
Technicians/Analysts	7,767	GIS Specialist	83

Tetra Tech maintains the flexibility to scale project teams by drawing on a trusted network of local and regional partners. We can bring in qualified subcontractors or consultants with local knowledge, community relationships, and technical expertise to support specific project areas or short-term surge needs when needed.

TETRA TECH SETS THE STANDARD.

No firm has responded to more disaster events with more personnel in a shorter amount of time than Tetra Tech. Our experience with large-scale debris monitoring contracts and PPDR programs allows us to **customize solutions that address Polk County unique needs.** Whether managing right-of-way collection, private property debris, or hazardous tree removal, Tetra Tech has the expertise to execute complex projects efficiently and effectively.

Tab 4: Compensation Schedule

Tetra Tech strives to provide our clients with quality services at reasonable, competitive hourly rates. We know that our clients will seek state and federal reimbursement for our debris monitoring services and as such we are cognizant that our hourly rates and fees for services provided must be fair and reasonable. Tetra Tech has included the Hourly Rates on Attachment B: Compensation Schedule on the following page.

ADDENDUM #6, REVISED ATTACHMENT "B"
COMPENSATION SCHEDULE

Hourly Labor Rates for Disaster Debris Monitoring Services
CONTRACTOR will be compensated on the actual hours of services furnished multiplied by the rates listed in Table 1 below.

Table 1: Hourly Labor Rates

Labor Category	Hourly Billing Rate
Principal -In-Charge	$ 79.00
Project Manager	$ 79.00
Deputy Project Manager	$ 59.00
Operations Manager	$ 69.00
Field Supervisor	$ 52.00
GIS Operator	$ 45.00
Disposal Site Monitor	$ 38.75
Collection Monitor	$ 38.75
Citizen Drop-off Site Monitor	$ 38.75
Billing/Invoicing/Data Manager	$ 58.00
Load Ticket Data Entry Clerk	$ 1.00
Project Coordinator	$ 42.00
GRAND TOTAL	$ 600.25

In accordance with 2 CFR 200 Subpart E, Hourly labor rates shall be direct labor hours charged at fixed hourly rates that reflect wages, general and administrative expenses, travel (mileage, lodging, per diem, etc.), and profit.

Reimbursable costs are allowed if pre-approved by the County. These costs are limited to office equipment/supplies, office space, cameras, GPS equipment, safety equipment and any other items requested by the County that is not part of the normal work function.

Subcontractor services will be reimbursed at actual costs.

***For items not listed, the County will only pay FEMA approved rates**
**Hourly rates cannot exceed FEMA approved rates

Tab 5: Surveys of Past Performance

Provided on the following page, Tetra Tech has included the Surveys of Past Performance from clients.

Survey Questionnaire – Polk County

RFP 26-012, Disaster Debris Monitoring Services

To: Karly Greene (Name of Person completing survey)

Charlotte County, Florida (Name of Client Company/Consultant)

Phone Number: 941-740-3372 Email: karly.greene@charlottecountyfl.gov

Subject: Past Performance Survey of Similar work:

Project name: Hurricane Helene and Milton

Name of Vendor being surveyed: Tetra Tech, Inc.

Cost of Services: Original Cost: $804,413.50 Ending Cost: $519,442.85

Contract Start Date: October 2024 Contract End Date: April 2025

Rate each of the criteria on a scale of 1 to 10, with 10 representing that you were very satisfied (and would hire the Consultant /individual again) and 1 representing that you were very unsatisfied (and would never hire the Consultant /individual again). Please rate each of the criteria to the best of your knowledge. If you do not have sufficient knowledge of past performance in a particular area, leave it blank.

NO	CRITERIA	UNIT	SCORE
1	Ability to manage cost	(1-10)	10
2	Ability to maintain project schedule (complete on-time/early)	(1-10)	10
3	Quality of workmanship	(1-10)	10
4	Professionalism and ability to manage	(1-10)	10
5	Ability to communicate with Debris Removal Contractor	(1-10)	10
6	Ability to communicate with Client's staff	(1-10)	10
7	Ability to resolve issues promptly	(1-10)	10
8	Ability to follow protocol	(1-10)	10
9	Ability to maintain proper documentation	(1-10)	10
10	Close out process	(1-10)	10
11	Overall Client satisfaction and comfort level in hiring	(1-10)	10

EVENT PERFORMANCE BOND

PERFORMANCE BOND

KNOW ALL MEN BY THESE PRESENTS: That _____, as Principal, and _____ as Surety, located at _____ (Business Address) are held and firmly bound unto Polk County, a political subdivision of the State of Florida, as Obligee, in the sum of _____Dollars ($_____) in lawful currency of the United States, for the payment whereof we bind ourselves, successors, and assigns, jointly and severally, firmly by these presents.

THE CONDITION OF THIS BOND is that if the Principal:

Promptly, faithfully, efficiently and fully performs all work, services, duties and obligations set forth and described in that certain Disaster Debris Monitoring Services Agreement #_____ (the "Agreement") dated _____ between Principal and Obligee for performance of debris monitoring at any County location arising from damage caused by _____, at the times and in the manner prescribed in the Agreement; and

Pays Obligee all losses, damages (liquidated or actual), expenses, costs, and attorney's fees, including, without limitation, costs and attorney's fees on appeal, that Obligee sustains resulting directly or indirectly from any breach or default by Principal under the Agreement; and

Performs the guarantee of all work and materials furnished under the Agreement for the time specified therein; and

Satisfies all claims and demands incurred under the Agreement, and fully indemnifies and holds harmless the Obligee from all costs and damages which it may suffer by reason or failure to do so;

then the Surety shall have no obligation under this Performance Bond.

In the event that the Principal shall fail to perform any of the terms, covenants and conditions of the Agreement during the period in which this Performance Bond is in effect, the Surety shall remain liable to the Obligee for all such loss or damage (including reasonable attorney's fees and costs and attorney's fees on appeal) resulting from any failure to perform up to the amount of the sum stated above.

In the event that the Surety fails to fulfill its obligations under this Performance Bond, then the Surety shall also indemnify and hold the Obligee harmless from any and all loss, damage, cost and expense, including reasonable attorney's fees and costs for all trial and appellate proceedings, resulting directly or indirectly from the Surety's failure to fulfill its obligations hereunder. This paragraph shall survive the termination or cancellation of this Performance Bond.

The Surety, for value received, hereby stipulates and agrees that its obligations hereunder shall be direct and immediate and not conditional or contingent upon the Obligee's pursuit of its remedies against Principal, shall remain in full force and effect notwithstanding (i) amendments or modifications to the Agreement entered into by Obligee and Principal without the Surety's knowledge or consent (ii) waivers of compliance with or any default under the Agreement granted by Obligee to Principal without the Surety's knowledge or consent, or (iii) the discharge of Principal from its obligations under the Agreement as a result of any proceeding initiated under the Bankruptcy code of 1978, as the same may be amended, or any similar state or federal law, or any limitation of the liability or Principal or its estate as a result of any proceeding.

Any changes in or under the Agreement and compliance or non-compliance with any formalities connected with the Agreement or the changes shall not affect Surety's obligation under this Performance Bond. The Principal shall notify the Surety of all such changes.

Reference is hereby made to Section 255.05, Florida Statutes, and to the notice and time limitation provisions thereof.

IN WITNESS WHEREOF, this instrument is executed this _____ day of _____, 20__.

DISASTER DEBRIS MONITORING SERVICES AGREEMENT (TERTIARY)

THIS DISASTER DEBRIS MONITORING SERVICES AGREEMENT (the "Agreement") is entered into as of the Effective Date (defined in Section 1, below) by and between Polk County (the "County"), a political subdivision of the State of Florida, 330 W. Church Street, Bartow, Florida, 33830, and Thompson Consulting Services, LLC (the "Contractor"), a Delaware Limited Liability Company, whose principal address is 2601 Maitland Center Pkwy, Maitland, FL 32751, and whose Federal Employer Identification Number is 45-2015453.

WHEREAS, the Contractor has considerable expertise in disaster debris monitoring services; and

WHEREAS, the County desires to retain the services of a competent and qualified Contractor to provide disaster debris monitoring services; and

WHEREAS, the County has solicited for these Contractor services via an advertised request for proposals ("RFP 26-012") and has received numerous responsive proposals thereto; and

WHEREAS, after review and consideration of all responsive proposals, the County intends to engage the Contractor to provide it the disaster debris monitoring services; and

WHEREAS, the Contractor remains agreeable to providing the County the Contractor services and represents that it is competent, qualified, capable and prepared to do so according to the terms and conditions stated herein.

NOW, THEREFORE, in consideration of the mutual understandings and covenants set forth herein, the County and the Contractor hereby agree, as follows:

1.0 Effective Date; Term

1.1 This Agreement shall take effect on the date (the "Effective Date") of its execution by the Chairman, Board of County Commissioners.

1.2 The term of this Agreement shall be for a five (5) year time period, commencing upon the Effective Date, unless otherwise sooner terminated as provided herein.

2.0 Contractor Services

2.1 The County does hereby retain the Contractor to furnish those services and to perform those tasks (collectively, the "Services") as further described in (i) the County's Request for Proposals RFP #26-012 to include all attachments and addenda, and (ii) the Contractor's responsive proposal thereto (collectively, (i) and (ii) are "RFP 26-012"), all of which are

incorporated into this Agreement by this reference. A complete copy of the Scope of Services section of RFP 26-012 and the Contractor's responsive proposal is attached as a composite **Exhibit "A"** and made a part of this Agreement.

2.2 Contractor shall perform the services described in the Scope of Services section of RFP 26-012, as those Services may be further specifically designated and authorized by the County in a separate written Notice to Proceed the County will deliver to the Contractor prior to the Contractor's commencement of the Services required in association with the County's clean-up and recovery from a particular disaster or emergency event. The form for the Conditional-Notice-to-Proceed shall be substantially in the form provided on **Exhibit "E"** which is attached hereto and made a part of this Agreement.

2.3 The County will contact and coordinate with the Contractor prior to issuing a Notice to Proceed for a disaster or emergency event. The Contractor will provide the name(s) of the supervisor(s)\liaison officer who will be primarily responsible for the Contractor providing the required Services. Additionally, before the Notice-To-Proceed is issued the Contractor will deliver to the County a performance bond in the form provided on **Exhibit "D"** which is attached hereto and made a part hereof in an amount to be reasonably determined by the County but which will not be less than $500,000.00. The actual bond amount will be determined based upon the estimated costs of the Services required as a consequence of the particular disaster or emergency event.

2.4 Contractor acknowledges that the County has engaged a primary vendor and may engage a secondary vendor to provide the Services described in RFP 26-012 should the County determine in its sole and absolute discretion that the Contractor may, is or will be unable to perform the full scope of work of a particular project within the time period the County requires all such work to be completed.

3.0 Compensation

3.1 General

3.1.1 In consideration for its providing the Services, during the Agreement Term the County shall pay the Contractor a fee that shall not exceed the amounts stated in **Exhibit "B"**, which is attached hereto and made a part of this Agreement. The Compensation Schedule identifies all job classifications of those who may perform billable services pursuant to this Agreement and the associated amount the County will pay the Contractor for Services performed by those in each job classification. The County is not obligated to pay the Contractor

a fee for any work performed or Services provided by personnel whose job classifications are not listed on the Compensation Schedule. The hourly rates for labor may be increased by the Procurement Director following the one-year anniversary of the Effective Date, when it is in the best interest of the County. Increases will be determined by the appropriate price index as approved by the Procurement Director but in no event shall the hourly labor rates exceed those approved by the Federal Emergency Management Agency ("FEMA") for any given year. No Board action will be necessary for labor rate increases

3.1.2 All the Contractor's invoices for payment must reference this Agreement and must be submitted using a form approved by the County Auditor.

3.1.3 The Contractor shall attach all appropriate cost substantiations to the invoice and shall deliver the invoices to:

Roads and Drainage Division
3000 Sheffield Road
Winter Haven, FL 33880

3.1.4 The Contractor will clearly state "Final Invoice" on the Contractor's final/last billing for the Services rendered to the County. The Contractor's submission of a Final Invoice is its certification that all Services have been properly performed and all charges and costs have been invoiced to the County. This account will be closed upon the County's receipt of a Final Invoice. The Contractor hereby waives any charges not properly included on its Final Invoice.

3.1.5 The County's payment of the Final Invoice shall not constitute evidence of the County's acceptance of the Contractor's performance of the Service or the County's acceptance of any work.

3.1.6 All Contractor's invoices shall be accompanied by time and task records for all billable hours appearing on the invoice. Additional supporting documents may be requested by the County and, if so requested, shall be furnished by the Contractor to the County Auditor's satisfaction.

3.1.7 The Contractor's project manager or designated payroll officer is attesting to the correctness and accuracy of all charges and requested reimbursements stated in each invoice.

3.1.8 The Contractor's requests for payment of "out-of-pocket" expenses eligible for reimbursement under the terms of this Agreement shall be reimbursed per the County's

Reimbursable Schedule that is attached as **Exhibit "C"** and made a part of this Agreement. The Contractor's requests for payment shall include copies of paid receipts, invoices or other documentation acceptable to the County's Auditor. To qualify for reimbursement, the Contractor's documentation shall be sufficient to establish that the expense was actually incurred and necessary in the performance of the Services performed in accordance with this Agreement.

4.0 Contractor's Responsibilities

4.1 The Contractor shall be responsible for the professional quality, accuracy, competence, methodology, and the coordination of all Services performed pursuant to this Agreement.

4.2 The County's review, approval, acceptance, or payment for any of the Contractor's Services shall not be construed to: (i) operate as a waiver of any rights the County possesses under this Agreement; or (ii) waive or release any claim or cause of action arising out of the Contractor's performance or nonperformance of this Agreement. The Contractor shall be and will always remain liable to the County in accordance with applicable law for any and all damages to the County caused by the Contractor's negligent or wrongful performance or nonperformance of any of the Services to be furnished under this Agreement.

5.0 Ownership of Documents

All analyses, reference data, bills, completed reports, or any other form of written instrument or document created or resulting from the Contractor's performance of the Services pursuant to this Agreement shall become the property of the County after payment is made to the Contractor for such instruments or documents.

6.0 Termination

6.1 The County may terminate this Agreement, in whole or in part, at any time, either for the County's convenience or because of the failure of the Contractor to fulfill its obligations under this Agreement, subject to the cure period provided in Section 26.0, by delivering written notice to the Contractor. Upon receipt of such notice, the Contractor shall:

6.1.1 Immediately discontinue all affected Services unless the notice directs otherwise, and

6.1.2 Deliver to the County all data, reports, summaries, and any and all such other information and materials of whatever type or nature as may have been accumulated by the Contractor in performing this Agreement, whether completed or in process.

6.2 Unless in dispute or subject to the County's right of set-off or other remedy, the Contractor shall be paid for Services actually rendered to the date of termination.

6.3 The rights and remedies of the County provided for in this Section 6 are in addition and supplemental to any and all other rights and remedies provided by law or under this Agreement.

7.0 No Contingent Fees

The Contractor warrants that it has not employed or retained any company or person, other than a bona fide employee working solely for the Contractor to solicit or secure this Agreement and that it has not paid or agreed to pay any person, company, corporation, individual or firm, other than a bona fide employee working solely for the Contractor, any fee, commission, percentage, gift, or other consideration contingent upon or resulting from award of or making of the Agreement. For the breach or violation of this provision, the County shall have the right to terminate the Agreement at its sole discretion, without liability and to deduct from the Agreement price, or otherwise recover, the full amount of such fee, commission, percentage, gift, or consideration.

8.0 Assignment

The Contractor shall not assign, transfer, or encumber this Agreement, or any interest herein, under any circumstances, without obtaining the prior written consent of the County, which consent may be withheld in the County's exercise of its reasonable discretion.

9.0 Professional Associates and Subcontractors

If the Contractor requires the assistance of any professional associates or subcontractors in connection with its providing the Services, the Contractor must obtain the prior express written approval of the County, which the County may withhold in its discretion, before any such professional associate or subcontractor may perform any work for the County. If after obtaining the County's approval the Contractor utilizes any professional associates or subcontractors in the delivery of the Services then the Contractor shall remain solely and fully liable to the County for the performance or nonperformance of all such professional associates and subcontractors. The failure of a professional associate or subcontractor to timely or properly perform any of its obligations to the Contractor shall not relieve the Contractor of its obligations to the County under this Agreement.

10.0 Indemnification of County

Contractor, to the extent permitted by law, shall indemnify, defend (by counsel reasonably acceptable to County) protect and hold the County, and its officers, employees and agents harmless from and against any and all, claims, actions, causes of action, liabilities, penalties, forfeitures, damages, losses, and expenses (including, without limitation, attorneys' fees costs and expenses incurred during negotiation, through litigation and all appeals therefrom) whatsoever including, but not limited to, those pertaining to the death of or injury to any person, or damage to any property, arising out of or resulting from (i) the failure of Contractor to comply with applicable laws, rules or regulations, (ii) the breach by Contractor of its obligations under this Agreement, (iii) any claim for trademark, patent or copyright infringement arising out of the scope of Contractor's performance or nonperformance of this Agreement, or (iv) the negligent acts, errors or omissions, or intentional or willful misconduct, of Contractor, its professional associates, subcontractors, agents, and employees; provided, however, that Contractor shall not be obligated to defend or indemnify the County with respect to any such claims or damages arising out of the County's sole negligence. The provisions of this Section 10.0 shall survive the expiration or earlier termination of this Agreement.

11.0 Insurance Requirements

The Contractor shall maintain at all times the following minimum levels of insurance and shall, without in any way altering its liability, obtain, pay for and maintain insurance for the coverage and amounts of coverage not less than those set forth below. The Contractor shall provide the County original Certificates of Insurance satisfactory to the County to evidence such coverage before any work commences. The County shall be named as an additional insured on General and Automobile Liability policies. General Liability and Workers' Compensation policies shall contain a waiver of subrogation in favor of Polk County. The commercial General Liability Policy shall (by endorsement if necessary) provide contractual liability coverage for the contractual indemnity stated in Section 10, above. All insurance coverage shall be written with a company having an A.M. Best rating of at least the "A" category and size category of VIII. The Contractor's self-insured retention or deductible per line of coverage shall not exceed $25,000 without the permission of the County. In the event of any failure by the Contractor to comply with the provisions of this Section 11, the County may, at its option, upon notice to the Contractor suspend Contractor's performance of the Services for cause until there is full compliance.

Alternatively, the County may purchase such insurance at the Contractor's expense, provided that the County shall have no obligation to do so and if the County shall do so, the Contractor shall not be relieved of or excused from the obligation to obtain and maintain such insurance amounts and coverage.

Comprehensive Automobile Liability Insurance. $1,000,000.00 combined single limit of liability for bodily injuries, death and property damage resulting from any one occurrence, including all owned, hired, and non-owned vehicles.

Commercial General Liability. $1,000,000.00 combined single limit of liability for bodily injuries, death and property damage, and personal injury resulting from any one occurrence, including the following coverages:

Premises and Operations:

> Broad Form Commercial General Liability Endorsement to include Blanket Contractual liability (specifically covering, but not limited to, the contractual obligations assumed by the Firm); Personal Injury (with employment and contractual exclusions deleted); and Broad Form Property Damage coverage.

Independent Contractors:

> Delete Exclusion relative to collapse, explosion and underground; Property Damage Hazards; Cross Liability Endorsement; and Contractual liability (specifically covering, but not limited to, the contractual obligations assumed by the Firm)

Workers Compensation. The Contractor shall provide, pay for, and maintain workers compensation insurance on all employees, its agents or subcontractors as required by Florida Statutes.

Pollution Liability Insurance: $1,000,000 including pollution due to automobile operations.

Employer's Liability. $1,000,000.

12.0 Public Entity Crimes

The Contractor understands and acknowledges that this Agreement will be voidable by the County in the event the conditions stated in Florida Statutes, Section 287.133 relating to conviction for a public entity crime apply to the Contractor.

13.0 Non-Discrimination

The Contractor warrants and represents that all of its employees are treated equally during employment without regard to race, color, religion, gender, age or national origin.

14.0 Designation of Party Representatives

14.1 Upon receipt of a request from the Contractor, the County shall designate in writing one or more of its employees who are authorized to act by and on behalf of the County to transmit instructions, receive information and interpret and define the County's policy and decisions with respect to the Services to be provided pursuant to this Agreement.

14.2 The Contractor shall designate or appoint one or more Contractor representatives who are authorized to act on behalf of and to bind the Contractor regarding all matters involving the conduct of its performance pursuant to this Agreement.

15.0 All Prior Agreements Superseded

This document incorporates and includes all prior negotiations, correspondence, conversations, agreements or understandings applicable to the matters contained herein and the parties agree that there are no commitments, agreements or understandings concerning the subject matter of this Agreement that are not contained in this document or its designated exhibits. Accordingly, it is agreed that no deviation from the terms hereof shall be predicated upon any prior representations or agreements, whether oral or written.

16.0 Modifications, Amendments or Alterations

No modification, amendment or alteration in the terms or conditions contained herein shall be effective unless agreed to and executed in writing by both parties to this Agreement in a form acceptable to the County.

17.0 Independent Contractor

Nothing stated in this Agreement is intended or should be construed in any manner as creating or establishing a relationship of co-partners between the parties, or as constituting the Contractor (including its officers, employees, and agents) as the agent, representative, or employee of the County for any purpose, or in any manner, whatsoever. The Contractor is to be and shall remain forever an independent contractor with respect to all Services performed under this Agreement. The Contractor shall not pledge the County's credit or make the County a guarantor of payment or surety for any contract, debt, obligation, judgment, lien or any form of indebtedness and the Contractor shall have no right to speak for or bind the County in any manner.

18.0 Public Records Law

(a) The Contractor acknowledges the County's obligations under Article I, Section 24, of the Florida Constitution and under Chapter 119, Florida Statutes, to release public records to members of the public upon request and comply in the handling of the materials created under this Agreement. The Contractor further acknowledges that the constitutional and statutory provisions control over the terms of this Agreement. In association with its performance pursuant to this Agreement, the Contractor shall not release or otherwise disclose the content of any documents or information that is specifically exempt from disclosure pursuant to all applicable laws.

(b) Without in any manner limiting the generality of the foregoing, to the extent applicable, the Contractor acknowledges its obligations to comply with Section 119.0701, Florida Statutes, with regard to public records, and shall:

(1) keep and maintain public records required by the County to perform the services required under this Agreement;

(2) upon request from the County's Custodian of Public Records or his/her designee, provide the County with a copy of the requested records or allow the records to be inspected or copied within a reasonable time at a cost that does not exceed the cost provided in Chapter 119, Florida Statutes, or as otherwise provided by law;

(3) ensure that public records that are exempt or confidential and exempt from public records disclosure requirements are not disclosed except as authorized by law for the duration of the term of this Agreement and following completion of this Agreement if the Contractor does not transfer the records to the County; and

(4) upon completion of this Agreement, transfer, at no cost, to the County all public records in possession of the Contractor or keep and maintain public records required by the County to perform the service. If the Contractor transfers all public records to the County upon completion of this Agreement, the Contractor shall destroy any duplicate public records that are exempt or confidential and exempt from public records disclosure requirements. If the Contractor keeps and maintains public records upon completion of this Agreement, the Contractor shall meet all applicable requirements for retaining public records. All records stored electronically must be provided to the County, upon request from the County's Custodian of Public Records, in a format that is compatible with the information technology systems of the County.

(c) **IF THE CONTRACTOR HAS QUESTIONS REGARDING THE APPLICATION OF CHAPTER 119, FLORIDA STATUTES, TO THE CONTRACTOR'S DUTY TO PROVIDE PUBLIC RECORDS RELATING TO THIS AGREEMENT, CONTACT THE COUNTY'S CUSTODIAN OF PUBLIC RECORDS AT:**

RECORDS MANAGEMENT LIASON OFFICER
POLK COUNTY
330 WEST CHURCH ST.
BARTOW, FL 33830
TELEPHONE: (863) 534-7670
EMAIL: RMCO@POLKFL.GOV

19.0 Compliance with Laws and Regulations

In providing all Services pursuant to this Agreement, the Contractor shall abide by all statutes, ordinances, rules, and regulations pertaining to or regulating the provisions of such Services, including those now in effect and hereafter adopted. Any violation of said statutes, ordinances, rules, or regulations shall constitute a material breach of this Agreement, and shall entitle the County to terminate this Agreement immediately upon delivery of written notice of termination to the Contractor.

20.0 Governing Law and Venue

This Agreement shall be governed in all respects by the laws of the State of Florida and any litigation with respect thereto shall be brought only in the courts of Polk County, Florida or in the United States District Court, Middle District of Florida, located in Hillsborough County, Florida.

21.0 Notices

Whenever either party desires to give notice unto the other, it must be given by written notice, delivered (i) in person, (ii) via registered or certified United States mail, postage prepaid with return receipt requested, or (iii) via nationally recognized overnight delivery service, and addressed to the party for whom it is intended at the place last specified by each party. The place for giving of notice shall remain such until it is changed by written notice delivered in compliance with the provisions of this Section 21. For the present, the parties designate the following as the respective places for giving of notice, to wit:

For County: Polk County Roads & Drainage Division
3000 Sheffield Road
Winter Haven, Florida 33880

For Contractor: Thompson Consulting Services, LLC
2601 Maitland Center Pkwy
Maitland, FL 32751

22.0 Severability

The invalidity, illegality, or unenforceability of any provision of this Agreement, or the occurrence of any event rendering any portion or provision of this Agreement void, shall in no way affect the validity or enforceability of any other portion or provision of the Agreement; any void provision shall be deemed severed from the Agreement and the balance of the Agreement shall be construed and enforced as if the Agreement did not contain the particular portion or

provision held to be void. The parties further agree to reform the Agreement to replace any stricken provision with a valid provision that comes as close as possible to the intent of the stricken provision. The provisions of this section shall not prevent the entire Agreement from being void should a provision which is of the essence of the Agreement be determined to be void.

23.0 Annual Appropriations

Contractor acknowledges that during any fiscal year the County shall not expend money, incur any liability, or enter into any agreement which by its terms involves the expenditure of money in excess of the amounts budgeted as available for expenditure during such fiscal year. Accordingly, any agreement, verbal or written, the County may make in violation of this fiscal limitation is null and void, and no money may be paid on such agreement. The County may enter into agreements whose duration exceeds one year; however, any such agreement shall be executory only for the value of the services to be rendered which the County agrees to pay as allocated in its annual budget for each succeeding fiscal year. Accordingly, the County's performance and obligation to pay the Contractor under this Agreement is contingent upon annual appropriations being made for that purpose.

24.0 Unauthorized Alien(s)

The Contractor shall not employ or utilize unauthorized aliens in the performance of the Services provided pursuant to this Agreement. The County shall consider the employment or utilization of unauthorized aliens a violation of Section 274A(e) of the Immigration and Naturalization Act (8 U.S.C. 1324a) and a cause for the County's unilateral termination of this Agreement. When delivering executed counterparts of this Agreement to the County, the Contractor shall also deliver a completed and executed counterpart of the attached "AFFIDAVIT CERTIFICATION IMMIGRATION LAWS" form.

25.0 Contractor Representations

25.1 The Contractor hereby represents and warrants the following to the County:

25.1.1 Contractor is a corporation that is duly organized and existing in good standing under the laws of the State of Florida with full right and authority to do business within the State of Florida.

25.1.2 Contractor's performance under this Agreement will not violate or breach any contract or agreement to which the Contractor is a party or is otherwise bound, and will not violate any governmental statute, ordinance, rule, or regulation.

25.1.3 Contractor has the full right and authority to enter into this Agreement and to perform its obligations in accordance with its terms.

25.1.4 Contractor now has and will continue to maintain all licenses and approvals required to conduct its business, and that it will at all times conduct its business activities in a reputable manner.

25.1.5 Contractor has no obligation or indebtedness that would impair its ability to fulfill the terms of this Agreement.

25.1.6 Contractor has the personnel and experience necessary to perform all Services in a professional and workmanlike manner.

25.1.7 Contractor shall exercise the same degree of care, skill, and diligence in the performance of the Services as provided by a professional of like experience, knowledge and resources, under similar circumstances.

25.1.8 Contractor shall, at no additional cost to the County, re-perform those Services which fail to satisfy the foregoing standard of care or which otherwise fail to meet the requirements of this Agreement.

25.1.9 Each individual executing this Agreement on behalf of the Contractor is authorized to do so.

26.0 Default and Remedy

A. Process. If the Contractor materially defaults in the timely performance of any Contract obligation, including any changes, modifications, changes in scope issued thereunder, or if the Contractor is otherwise in material default of the Contract, including, without limitation, the Contractor's failure to timely deliver any portion, or the entirety, of the Project Work in accordance with the Contract documents, then the County shall have the right to (i) with or without terminating the Contract, immediately call the Performance Bond and Payment Bond, and engage other contractors or providers at the Contractor's sole cost and expense to provide those unperformed or deficient Contract obligations of the Contractor; (ii) set-off the monetary amount of any and all damages arising therefrom, whether direct or indirect, actual or liquidated, from the amounts due Contractor pursuant to the Contract documents, (iii) immediately terminate the Contract by delivering written notice to the Contractor, and (iv) pursue any and all remedies available in law, equity, and under the Contract, including, without limitation, the recovery of any increased cost to the County to complete the Project Work due to the loss of FEMA Public Assistance funding caused, directly or indirectly, by the Contractor's default. Upon any such termination pursuant to this Section, the County shall pay the Contractor the full amount due and owing for all services properly performed through the date of the Contract termination, less any amount subject to the County's right of set-off, and all liability of the County to the Contractor shall cease.

B. Certain Material Defaults. Among other matters, including without limitation, the Contractor's failure to timely deliver any portion, or the entirety, of the Project Work in accordance with the Contract documents, as described immediately above, any of the following shall constitute the Contractor's material default of the Contract: the appointment of a receiver to take possession of all or substantially all of the Contractor's assets, a general assignment by the Contractor for the benefit of creditors, or any action taken by or suffered by Contractor under any insolvency or bankruptcy act; or the Contractor is convicted of a public entity crime, is determined to have violated federal or state law prohibiting discrimination as stated in Section 287.134, Florida Statutes, or is prohibited from performing work for or transacting business with the County pursuant to Section 287.133 or to Section 287.134, Florida Statutes; or an assignment of the Contract made without the express written consent of the County; or the submission of a false certification to the County or engagement in prohibited business operations, both as described in the Contract Documents.

27.0 Limitation of Liability

IN NO EVENT, SHALL THE COUNTY BE LIABLE TO THE CONTRACTOR FOR INDIRECT, INCIDENTAL, CONSEQUENTIAL, SPECIAL, EXEMPLARY, OR PUNITIVE DAMAGES OF ANY KIND OR NATURE, INCLUDING LOSS OF PROFIT, WHETHER FORESEEABLE OR NOT, ARISING OUT OF OR RESULTING FROM THE NONPERFORMANCE OR BREACH OF THIS CONTRACT BY THE COUNTY WHETHER BASED IN CONTRACT, COMMON LAW, WARRANTY, TORT, STRICT LIABILITY, CONTRIBUTION, INDEMNITY OR OTHERWISE.

28.0 Waiver

A waiver by either County or Contractor of any breach of this Agreement shall not be binding upon the waiving party unless such waiver is in writing. In the event of a written waiver, such a waiver shall not affect the waiving party's rights with respect to any other or further breach of this Agreement. The making or acceptance of a payment by either party with the knowledge of the other party's existing default or breach of the Agreement shall not waive such default or breach, or any subsequent default or breach of this Agreement, and shall not be construed as doing so.

29.0 Attorneys' Fees and Costs

Each party shall be responsible for its own legal and attorneys' fees, costs and expenses incurred in connection with any dispute or any litigation arising out of, or relating to this Agreement, including attorneys' fees, costs, and expenses incurred for any appellate or bankruptcy proceedings.

30.0 Force Majeure

Either party hereunder may be temporarily excused from performance if an Event of Force Majeure directly or indirectly causes its nonperformance. An "Event of Force Majeure" is defined as any event which results in the prevention or delay of performance by a party of its obligations under this Agreement and which is beyond the reasonable control of the nonperforming party. It includes, but is not limited to fire, flood, earthquakes, storms, lightning, epidemic, war, riot, civil disturbance, sabotage, and governmental actions. Neither party shall be excused from performance if non-performance is due to forces which are reasonably preventable, removable, or remediable and which the non-performing party could have, with the exercise of reasonable diligence, prevented, removed, or remedied prior to, during, or immediately after their occurrence. Within five (5) days after the occurrence of an Event of Force Majeure, the non-performing party shall deliver written notice to the other party describing the event in reasonably sufficient detail, along with proof of how the event has precluded the non-performing party from performing its obligations hereunder, and a good faith estimate as to the anticipated duration of the delay and the means and methods for correcting the delay. The non-performing party's obligations, so far as those obligations are affected by the Event of Force Majeure, shall be temporarily suspended during, but no longer than, the continuance of the Event of Force Majeure and for a reasonable time thereafter as may be required for the non-performing party to return to normal business operations. If excused from performing any obligations under this Agreement due to the occurrence of an Event of Force Majeure, the non-performing party shall promptly, diligently, and in good faith take all reasonable action required for it to be able to commence or resume performance of its obligations under this Agreement. During any such time period, the non-performing party shall keep the other party duly notified of all such actions required for it to be able to commence or resume performance of its obligations under this Agreement.

31.0 Key Personnel

The Contractor shall notify the County if any of the Contractor's Key Personnel (as defined, below) change during the Term of the Agreement. To the extent possible, the Contractor shall notify the County at least ten (10) days prior to any proposed change in its Key Personnel. At the County's request the Contractor shall remove without consequence to the County any of the Vendor's contractors, sub-contractors, sub-consultants, agents or employees and replace the same with an appropriate substitute having the required skill and experience necessary to perform

the Services. The County shall have the right to reject the Contractor's proposed changes in Key Personnel. The following individuals shall be considered "Key Personnel:"

Name: Jon Hoyle

Name: Simon Carlyle

Name: Oliver Yao

Name: Edward LeBlanc

Name: Daniel Gardner

Name: Nicole Lehman

Name: Patrick Gardner

Name: Jonathan Clark

Name: Paul Lehman

Name: Tomas Ortiz

Name: Erik Nobs

32.0 Scrutinized Companies and Business Operations Certification; Termination.

A. Certification(s).

(i) By its execution of this Agreement, the Contractor hereby certifies to the County that the Contractor is not on the Scrutinized Companies that Boycott Israel List, created pursuant to Section 215.4725, Florida Statutes, nor is the Contractor engaged in a boycott of Israel, nor was the Contractor on such List or engaged in such a boycott at the time it submitted its bid, proposal, quote, or other form of offer, as applicable, to the County with respect to this Agreement.

(ii) Additionally, if the value of the goods or services acquired under this Agreement are greater than or equal to One Million Dollars ($1,000,000), then the Contractor further certifies to the County as follows:

(a) the Contractor is not on the Scrutinized Companies with Activities in Sudan List, created pursuant to Section 215.473, Florida Statutes; and

(b) the Contractor is not on the Scrutinized Companies with Activities in the Iran Petroleum Energy Sector List, created pursuant to Section 215.473, Florida Statutes; and

(c) the Contractor is not engaged in business operations (as that term is defined in Florida Statutes, Section 287.135) in Cuba or Syria; and

(d) the Contractor was not on any of the Lists referenced in this subsection A(ii), nor engaged in business operations in Cuba or Syria when it submitted its proposal to the County concerning the subject of this Agreement.

(iii) The Contractor hereby acknowledges that it is fully aware of the penalties that may be imposed upon the Contractor for submitting a false certification to the County regarding the foregoing matters.

B. Termination. In addition to any other termination rights stated herein, the County may immediately terminate this Agreement upon the occurrence of any of the following events:

(i) The Contractor is found to have submitted a false certification to the County with respect to any of the matters set forth in subsection A(i) above, or the Contractor is found to have been placed on the Scrutinized Companies that Boycott Israel List or is engaged in a boycott of Israel.

(ii) The Contractor is found to have submitted a false certification to the County with respect to any of the matters set forth in subsection A(ii) above, or the Contractor is found to have been placed on the Scrutinized Companies with Activities in Sudan List, or the Scrutinized Companies with Activities in the Iran Petroleum Energy Sector List, or has been engaged in business operations in Cuba or Syria, and the value of the goods or services acquired under this Agreement are greater than or equal to One Million Dollars ($1,000,000).

33. No Construction Against Drafter

The Parties acknowledge that this Agreement and all the terms and conditions contained herein have been fully reviewed and negotiated by the Parties. Accordingly, any rule of construction to the effect that ambiguities are to be resolved against the drafting party shall not apply in interpreting this Agreement.

34. Federal Provisions

The Supplemental Conditions – Federal Clauses set forth in the RFP 26-012, attached as **Exhibit A,** are hereby fully incorporated by this specific reference, as if set forth in the body of this Agreement.

35. Breach During Emergency Recovery Period.

Pursuant to §252.505, Fla. Stat., in the event this Agreement concerns goods or services related to a natural emergency, Vendor agrees that if Vendor breaches this Agreement during the Emergency Recovery Period, then the County shall be entitled to (a) a payment of $5000, and (b) recovery of damages, which may take the form of actual and consequential damages or liquidated damages. The term "Emergency Recovery Period" means a one-year period that begins on the date the Governor of Florida initially declared a state of emergency for a natural emergency. This provision shall survive the termination of this Agreement

**(THE REMAINDER OF THE PAGE IS LEFT INTENTIONALLY BLANK;

EMPLOYMENT ELIGIBILITY VERIFICATION (E-VERIFY) CERTIFICATION
(Florida Statutes, Section 448.095)

PROJECT NAME: RFP 26-012

The undersigned, as an authorized officer of the contractor identified below (the "**Contractor**"), having full knowledge of the statements contained herein, hereby certifies to Polk County, a political subdivision of the State of Florida (the "**County**"), by and on behalf of the Contractor in accordance with the requirements of Section 448.095, Florida Statutes, as related to the contract entered into by and between the Contractor and the County on or about the date hereof, whereby the Contractor will provide labor, supplies, or services to the County in exchange for salary, wages, or other remuneration (the "**Contract**"), as follows:

1. Unless otherwise defined herein, terms used in this Certification which are defined in Section 448.095, Florida Statutes, as may be amended from time to time, shall have the meaning ascribed in said statute.

2. Pursuant to Section 448.095(5), Florida Statutes, the Contractor, and any subcontractor under the Contract, must register with and use the E-Verify system to verify the work authorization status of all new employees of the Contractor or subcontractor. The Contractor acknowledges and agrees that (i) the County and the Contractor may not enter into the Contract, and the Contractor may not enter into any subcontracts thereunder, unless each party to the Contract, and each party to any subcontracts thereunder, registers with and uses the E-Verify system; and (ii) use of the U.S. Department of Homeland Security's E-Verify System and compliance with all other terms of this Certification and Section 448.095, Fla. Stat., is an express condition of the Contract, and the County may treat a failure to comply as a material breach of the Contract.

3. By entering into the Contract, the Contractor becomes obligated to comply with the provisions of Section 448.095, Fla. Stat., "Employment Eligibility," as amended from time to time. This includes but is not limited to utilization of the E-Verify System to verify the work authorization status of all newly hired employees, and requiring all subcontractors to provide an affidavit attesting that the subcontractor does not employ, contract with, or subcontract with, an unauthorized alien. The Contractor shall maintain a copy of such affidavit for the duration of the Contract. Failure to comply will lead to termination of the Contract, or if a subcontractor knowingly violates the statute or Section 448.09(1), Fla. Stat., the subcontract must be terminated immediately. If the Contract is terminated pursuant to Section 448.095, Fla. Stat., such termination is not a breach of contract and may not be considered as such. Any challenge to termination under this provision must be filed in the Tenth Judicial Circuit Court of Florida no later than 20 calendar days after the date of termination. If the Contract is terminated for a violation of Section 448.095, Fla. Stat., by the Contractor, the Contractor may not be awarded a public contract for a period of 1 year after the date of termination. The Contractor shall be liable for any additional costs incurred by the County as a result of the termination of the Contract. Nothing in this Certification shall be construed to allow intentional discrimination of any class protected by law.

Executed this 3rd day of June, 2026

ATTEST: **CONTRACTOR:**

Affidavit Regarding the Use of Coercion for Labor or Services

In compliance with Section 787.06(13), Florida Statutes, this attestation must be completed by an officer or representative of a nongovernmental entity that is executing, renewing, or extending a contract with Polk County, a political subdivision of the State of Florida.

The undersigned, on behalf of the entity listed below (the "Nongovernmental Entity"), hereby attests under penalty of perjury as follows:

1. I am over the age of 18 and I have personal knowledge of the matters set forth herein.

2. I currently serve as an officer or representative of the Nongovernmental Entity.

3. The Nongovernmental Entity does **not** use coercion for labor or services, as those underlined terms are defined in Section 787.06, Florida Statutes.

4. This declaration is made pursuant to Section 92.525, Fla. Stat. and Section 787.06, Fla. Stat. I understand that making a false statement in this declaration may subject me to criminal penalties.

Under penalties of perjury, I Jon Hoyle, President (Signatory Name and Title), declare that I have read the foregoing Affidavit Regarding the Use of Coercion for Labor and Services and that the facts stated in it are true.

Further Affiant sayeth naught.

Florida Department of State, Division of Corporations

Exhibit Ai

RFP NOTICE

Polk County, a political subdivision of the State of Florida, requests the submittal of proposals from vendors that are interested in providing debris monitoring services as described herein. Sealed proposals must be received in the Procurement Division, prior to the due date and time listed below.

RFP Number and Title: 26-012, Disaster Debris Monitoring Services

Description: Provide disaster debris removal monitoring and other related services resulting from, but not limited to, catastrophic events such as tornadoes and hurricanes.

Receiving Period: Prior to 2:00 p.m., Wednesday, December 31, 2025

Bid Opening: Wednesday, December 31, 2025, at 2:00 p.m. or as soon as possible thereafter.

This form is for RFP registration only. Please scroll down for additional information.

Special Instructions

Questions regarding this RFP must be in writing and must be sent to Ken Brush Procurement Contracts Manager, via email at kenbrush@polk-county.net or via fax at (863) 534-6789. All questions must be received by Monday, December 15, 2025, 4:00 p.m.

RFP REGISTRATION

You must register using this form to receive notice of any addenda to these documents. Please fax the completed form to the Procurement Division as soon as possible. It is the vendor's responsibility to verify if addenda have been issued.

RFP Number: 26-012

RFP Title: Disaster Debris Monitoring Services

This form is for bid registration only. Please scroll down for additional information.

Carefully complete this form and return it to the Procurement Division via e-mail to procurement@polk-county.net or fax (863) 534-6789. You must submit one form for each solicitation that you are registering for.

PROPOSAL SUBMITTAL INSTRUCTIONS

Proposers must submit their proposal prior to 2:00 p.m. on the receiving date. Proposals must be submitted in a "sealed" parcel or electronically through Polk County's secure website, Kiteworks. Proposals will be publicly opened at 2:00 p.m. on the receiving date.

Sealed Parcel Submittal:

If you are submitting a sealed parcel proposal submit one (1) original marked ORIGINAL and five (5) copies marked COPY of the proposal in a sealed parcel to the Procurement Division. The parcel should be labeled "RFP #26-012, Disaster Debris Monitoring Services" and marked with the proposer's name and address. The Proposals may be mailed or delivered to:

Polk County Procurement Division

330 West Church Street, Room 150

Bartow, FL 33830

To assist with labeling the sealed parcel, please cut along the outer border and affix this label. Be sure to include the name of the company submitting the proposal where requested.

Sealed Proposal. DO NOT OPEN	
RFP Number	26-012
RFP Title	Disaster Debris Monitoring Services
Due Date/Time:	December 31, 2025, prior to 2:00 pm
Submitted by:	
Deliver To:	Polk County Procurement Division 330 West Church Street, Room 150, Bartow, Florida 33830

Proposals may be mailed, express mailed or hand delivered. It is the Proposers responsibility to ensure their package is delivered to the Procurement Division prior to 2:00 p.m. on the Receiving date and time referenced above. Proposals delivered at 2:00 p.m. or later will not be accepted.

Electronic Proposals Submittal:

All prospective Proposers that are interested in submitting their proposals electronically can do so via the County's secure electronic submittal website, Kiteworks. Proposers must email kenbrush@polk-county.net at least 48 hours prior to opening to receive a link to upload their submittal. Please only upload your documents as a PDF or Excel file for the Cost Tab, if applicable. Please use the name convention of your files as follow:

"RFP 26-012 Tab 1"

"RFP 26-012 Tab 2"

"RFP 26-012 Tab 3"

"RFP 26-012 Tab 4"

"RFP 26-012 Tab 5"

For more instructions, a video tutorial has been produced to further explain the electronic solicitation submittal process. It can be found by clicking here for RFP Submittals: https://youtu.be/vkn_7AHgioE. If you need assistance accessing this website due to ADA or any other reason, please email Ken Brush at kenbrush@polk-county.net.

Procurement recommends that Proposers submitting electronically double check the documents submitted into Kiteworks to ensure all requested tab information has been uploaded. Failure to upload the requested tab information may result in the proposal being deemed nonresponsive.

POLK COUNTY
Procurement Division
Fran McAskill
Procurement Director
REQUEST FOR PROPOSAL 26-012
Disaster Debris Monitoring Services

Sealed proposals will be received in the Procurement Division, Wednesday, December 31, 2025, prior to 2:00 p.m.

Attached are important instructions and specifications regarding responses to this Request for Proposal (the "RFP"). The failure of a responding proposer (a "Proposer") to follow these instructions could result in Proposer disqualification from consideration for a contract to be awarded pursuant to this RFP.

This document is issued by Polk County (the "County") which is the sole distributor of this RFP and all addenda and changes to the RFP documents. The County shall record its responses to inquiries and provide any supplemental instructions or additional documents pertaining to this RFP in the form of written addenda to the RFP. The County shall post all such addenda, together with any other information pertaining to this RFP, on the County's website at https://www.polk-county.net/business/procurement/. It is the sole responsibility of each Proposer to review the website prior to submitting a responsive proposal (a "Proposal") to this RFP to ensure that that the Proposer has obtained all available instructions, addenda, changes, supporting documents, and any other information pertaining to this RFP.

The County is not responsible for any solicitations issued through subscriber, publications, or other sources not connected with the County and the Proposer should not rely on such sources for information regarding the RFP solicitation.

Questions regarding this RFP must be in writing and must be sent to Ken Brush, Procurement Contracts Manager, via email at kenbrush@polk-county.net or via fax at (863) 534-6789. **All questions must be received by Monday, December 15, 2025, 4:00 p.m.**

Proposers and any prospective proposers shall not contact, communicate with or discuss any matter relating in any way to this RFP with any member of the Polk County Board of County Commissioners or any employee of Polk County other than the County Procurement Director or the individual designated above. This prohibition begins with the issuance of the Request for Proposal and ends upon execution of the final contract. Any such communication initiated by a Proposer or prospective proposer shall be grounds for disqualifying the offender from consideration for a contract to be awarded pursuant to this RFP and for contracts to be awarded pursuant to RFPs or Requests for Bid that the County may issue in the future.

A Proposer's responsive Proposal to this RFP may be mailed, express mailed, or hand delivered to:

Polk County Procurement Division
330 West Church Street, Room 150
Bartow, Florida 33830
(863)534-6757

Introduction

Polk County, a political subdivision of the State of Florida, seeks the submittal of proposals from qualified firms who are interested in providing professional services in monitoring debris removal services in accordance with the Polk County Debris Management Plan.

Award of this RFP may be made to up to three (3) Contractors and will be used when the magnitude of an emergency is such that the County is not able to manage with their own resources. Contractors shall be identified as the primary, secondary, and tertiary awardee based on order of final ranking. The area given to any one contractor will depend on the magnitude of the emergency.

The primary vendor will be contacted to provide the services needed. If the primary vendor is not available, or fails to respond within 24 hours, the County will then contract the secondary vendor. If the secondary vendor is not available or fails to respond with 24 hours, the County will then contact the tertiary vendor.

There are other public agencies within Polk County that may wish to use the provisions of this RFP. Attachment A must be signed and included with your submittal. Please refer to submittal criteria for further detail.

SCOPE OF SERVICES

This statement of work describes and defines the services which are required for debris removal monitoring for Polk County (County). The work includes but is not limited to; monitoring field operations regarding all storm generated debris, debris pickup, debris hauling, debris staging and reduction, temporary debris storage site management, debris management, and final disposal of debris to an approved facility. Roads and other County facilities will be identified by the County and direction will be given to the Contractor for clearing these roads and facilities in accordance with the County Debris Management Plan. The County reserves the right to add or remove highway segments

at the direction of the Debris Manager. While this scope provides for debris removal work off the state road system, no work on or off the state road system is guaranteed. The County, at its sole discretion, may elect to perform the work with in-house forces or other contract forces or may cancel the contract at any time if determined to be in the best interest of the County.

The Consultant shall have experience in the Federal Highway Administration Emergency Relief Program (FHWA-ER), the Federal Emergency Management Agency Public Assistance Program (FEMA-PA), and other applicable federal, state, and/or local programs to assist the County in its emergency response and recovery efforts. Proper documentation by the Consultant as required by FHWA and FEMA is required for all debris removal monitoring operations to ensure reimbursement to the County from the appropriate agency.

The Consultant will be responsible for tracking all of the contract costs and adhering to the "not to exceed" limit as defined. Proper notification must be given to the County as costs approach this limit.

The successful firm must adhere to all requirements and regulations established by the Federal Emergency Management Agency (FEMA), Federal Highway Administration (FHWA), Florida Department of Transportation (FDOT), and any other governmental agency with jurisdiction over response and recovery actions.

The Consultant shall assist the County specifically with debris management services to include, but not limited to, the following items:

- Provide training of select County staff in essential debris management and collection functions to insure appropriate and responsive interface with field debris collection contractors and County, state, and federal agencies.
- Provide field inspectors at designated check points to check and verify information on debris removal and at Temporary Debris Storage Reduction Site (TDSRS) located throughout Polk County.

The Consultant will provide assistance with the scheduling, dispatching and logistical operations of the field inspectors assigned to work areas for storm debris cleanup. This will include:

- Setting up the schedule for inspectors each day.
- Certification of the volumetric measurement (cy) either prior to or during and event of each truck that is added into service; this shall be the physical measurement of the truck bed.
- Keeping a record of contract haulers' trucks: cubic yardage, time in and out, number of loads/day, and other data as requested by designated County personnel.
- Determining truck assignments as well as a 2 week future schedule of where trucks will be.
- Coordinating with County personnel to respond to problems in the field.
- Conducting "end-of day" duties, such as verifying all trucks have left the disposal site, locking down of the facility.
- Surveying the area for special needs: identifying tree stumps, hazard trees, C&D debris, potential problems – a location list should be kept of these areas.
- Recording on a computer tracking system of the streets where debris was collected.
- Performing other duties as directed by dispatch/staging operation or designated County personnel.

The Consultant will collect baseline data per local, state and federal requirements from the designated emergency debris management sites prior to opening of the sites.

The Consultant will assist the County in obtaining necessary local, state and federal permits for the designated emergency debris management sites.

GENERAL REQUIREMENTS

The Contractor(s) shall furnish all necessary personnel, materials, equipment, labor, supervision, facilities, and shall otherwise provide all services necessary for, or incidental to, the performance of all work as defined in these specifications.

It is the sole responsibility of the Contractor(s) to ensure that, should Subcontractor(s) be utilized by the Contractor for any portion of the work, these Subcontractor(s) shall meet or exceed the same requirements instituted for the Contractor pertaining to this contract.

The Contractor(s) shall notify the County within (24) twenty four hours of notice of any legal or regulatory actions, or any Notices of Violation taken against the Contractor(s) or Subcontractor(s) utilized within the scope of this contract.

Upon receipt of the Notice of Violation or Warning Notice or upon notification or request from the County, the Contractor shall immediately prepare their response or draft a County response to the notice and begin corrective action against any non-complying condition. Failure by the Contractor to take corrective action which is required by law or the Contract Documents shall result in the County taking whatever measures are necessary to correct the condition and deducting the cost of such corrective action from the Contractor's Operating Fee Payment. The Contractor will be responsible for any fines resulting from any violations of Federal, State, or local laws or regulations.

Permits and licenses of a temporary nature necessary for the completion of contracted Services shall be secured and paid for by the Contractor with the assistance of the County, unless otherwise stated in this RFP. The Contractor shall not be held responsible to secure permits and/or licenses when the requirements for same have been waived due to a declaration of an emergency or disaster.

Under the general oversight of the County, the Contractor will supervise and direct all work, workers, and equipment. The Contractor is solely responsible for the means, methods, techniques, sequences, safety program, and procedures utilized. The

Contractor will employ and maintain on the work site a qualified and accessible supervisor(s) on the work site(s) and provide the County a liaison officer, as directed. At least one accessible and designated supervisor in the area of operation and the liaison officer shall have full authority to act on behalf of the Contractor and all communications given to the supervisor or liaison officer in writing by the County's Authorized Representative shall be as binding as if given to the Contractor.

The name(s) of the supervisor(s)\liaison officer will be supplied to the County for each issuance of an event Notice-To-Proceed. Additionally, a performance bond for the minimum amount of $1,000,000 will be required before the Notice-To-Proceed is issued. The actual amount will be determined at the time of the event and an adjusted performance bond will need to be obtained for the estimated total amount. Please see (Attachments D & E)

The Contractor shall have the ability to guarantee operations, and pay vendors and sub-contractor(s) for 60 days prior to receiving payments from the County.

Retainage in the amount of ten percent (10%) will be withheld until all work has been completed and has been approved by the County.

The Contractor shall participate in an annual on-sight pre-coordination meeting as directed by the County at no additional cost to the County.

The Contractor shall, to the extent practical, give priority to utilizing resources in Polk County and the surrounding area, including but not limited to procuring supplies and equipment, awarding subcontracts, and employing workers.

The Contractor shall make daily reports to the County to detail the progress of the debris removal and disposal program. Such reports shall include a description of all areas where work was done, detailing the street names, and address blocks where debris removal was completed. The reports must also include the types and volumes of

debris transported, reduced, and disposed. The Contractor shall also provide other operational and complaint tracking reports as requested by the County.

The Contractor shall disclose future debris management contractual obligations and provide reasonable assurance that such obligations will not preclude the Contractor from meeting its obligations under the contract resulting from this RFP. Such disclosure shall be provided to the County within 30 days of entering into said contractual obligation.

AGREEMENT

The term of this agreement will be for approximately 5 years. The Actual term will be negotiated as part of Elevation Level 4, Contract Negotiations.

SUBMITTAL

Submittals should not contain information in excess of that requested, must be concise, and must specifically address the issues of this RFP. The responses should be in the same order as the selection and evaluation procedures. Proposals are to be printed double-sided. Unnecessarily elaborate brochures or other presentations beyond those sufficient to present a complete and effective submittal to this solicitation are not desired and may be construed as an indication of the proposer's lack of cost consciousness. Elaborate artwork, expensive visual aids, and other presentation aids are neither necessary nor desired, unless specifically requested. The proposal submittals should be contained within a three (3) ring binder (original and each copy in separate binders). Each submittal should contain:

Tab 1, Introduction:

- Introduction letter describing your firm, experience, number of years in business, contact name, company address, phone number and email address of contact person. (One page, single or double sided)
- Attachment A – Understanding terms, conditions, and pricing may be used by any public agencies located within Polk County.

Tab 2, Experience and Expertise (40 Points)

- Provide your firm's organization structure.

- Provide a resume for the project manager and all key personnel that will be involved in providing the services as outlined in the scope of work. (1 page single or double sided for each resume)
- Describe the firm's experience with providing similar size and scope of work as outlined in this RFP. (One page, single or double sided)
- Provide a minimum of three (3) and a maximum of five (5) projects that demonstrates your firm's experience with debris removal services for similar scope of work services in the past five (5) years. At least two (2) of the projects shall be from a disaster recovery project performed for a public or governmental agency. At least three (3) of the projects shall be for disaster recovery project performed as the prime. At least two (2) of the projects shall be for projects in excess of 250,000 cubic yards. For each project identified please include (2 pages for each project, single or doubled sided):
    - Client name
    - Contact person
    - Contact's phone number and email address
    - Cost of the services
    - Start and end date of project.
    - Name of disaster and location of the project
    - Brief description of the services provided
        - A brief description of the project and what role your firm played in the project.
        - Identify if multiple temporary debris processing sites were established where collected debris was sorted, screened for sand, recycled, ground, mulched, burned, or otherwise segregated for transport and disposal.
        - Identify your firm's expertise and experience in assessing, removing, and disposing of specialty debris including hazardous materials, hazardous wastes, biohazardous wastes, dead animals, and hazardous stumps.

- Identify your firm's expertise and experience in demolition of structures, and debris removal from private property (Right-of-Entry Programs) and publicly owned property (other than Rights-of-Way).

Tab 3, Resources and Availability (40 points)

- Provide an organizational chart of the team highlighting the key individuals who will work on this contract as identified above.
- The key staff presented in the contractor's response shall be the staff utilized on this contract. Please provide the resumes of the key staff including, but not limited to, the items in the list below (One (1) page maximum per resume):
  a) Name and current position held by the person
  b) Name, title and project assignment
  c) Experience:
     (1) Types of projects.
     (2) Size of projects (dollar value of project).
     (3) What were their specific project involvements?

- Demonstrate each key staff's availability to respond to the needs of the project (Two (2) pages maximum for all key staff members)
- Identify sub-contractors or joint ventures to be used, if any. For each sub-contractor or joint venture identified please provide:

  - A brief description of their experience outlining their qualifications to perform the intended services
  - A brief resume for each key personnel that will be assigned to perform

Tab 4, Compensation Schedule (10 Points)

- The Respondent shall complete the compensation schedule included as Attachment B. The Consultant is to include all costs that the Consultant may anticipate incurring during the performance of the disaster recovery work as outlined on Attachment B. For items not listed, the County will only pay the FEMA rates.

- The hourly rates for labor may be increased by the Procurement Director after the contract has been in place for a minimum of 12-months, when it is in the best interest of the County. Increases will be determined by the appropriate price index as approved by the Procurement Director or Designee. No Board action will be necessary for labor rate increases.

- Proposers shall declare that, to the best of their knowledge and experience with Federal and State reimbursement procedures and requirements, that all proposed costs and payment methods are reasonable and customary for the service listed.

Tab 5, Surveys of Past Performance (10 Points)

- Provide reference surveys from past clients for the projects identified under Tab 2.
- Completed surveys. (See Exhibit 1) Procurement will take the average of all surveys and score as follows:
    - Average Score between 9-10 (10 Points)
    - Average Score between 7-8 (8 Points)
    - Average Score between 5-6 (6 Points)
    - Average Score between 3-4 (4 Points)
    - Average Score between 1-2 (2 Points)
    - Average Score of 0 (0 Points)

EVALUATION CRITERIA AND SELECTION PROCESS

Proposals will be evaluated in accordance with this section and all applicable County procurement policies and procedures.

The County shall appoint a selection committee (the "Selection Committee") that will be responsible for evaluating and scoring/ranking the Proposals in accordance with this Section.

The County will use a competitive selection process based on the Elevation Levels described in this Section. At Elevation Levels 2 and 3, the Selection Committee will score and/or rank the Proposals as applicable.

Selection of a final Proposal will be based upon the following steps and factors:

Elevation Level 1 (Procurement Requirements Assessment)

The County Procurement Division shall review all Proposals for conformance with RFP guidelines and detailed submittal requirements. At the County's discretion, non-conforming Proposals may be eliminated from further consideration and conforming Proposals shall be elevated to Elevation Level 2.

Procurement will distribute Proposals and evaluation criteria to the Selection Committee.

The Selection Committee may convene to review questions that arise during individual member review of submitted Proposals before Elevation Level 2 to allow for questions, clarifications, explanations, or other discussion to be held before the review of Proposals is completed.

Elevation Level 2 (Selection Committee Evaluation)

Procurement shall score each Proposal on the following evaluation criteria:

- Compensation (Tab 4)- 10 points
- Surveys of Past Performance (Tab 5)-10 points

  Subtotal Points-20 Points

by the process stated under each corresponding Tab description

Each Selection Committee member shall score each Proposal on the following evaluation criteria:

- Experience and Expertise (Tap 2)-40 points
- Approach and Methodology (Tab 3)-40 points

  Subtotal Points-80 points

by the following process:

Each Selection Committee member shall determine which of the following descriptions applies to each of the foregoing evaluation criteria:

EXCELLENT (1.0): Of the highest or finest quality; exceptional; superior; superb; exquisite; peerless. The Proposer provided information for a given criteria that satisfied the requirements and described specifically how and what will be accomplished in such a manner that exhibited an exceptional and superior degree of understanding, skill, and competency, both qualitatively and quantitatively. The facts included in the narrative (including all supporting documentation, diagrams, drawings, charts, and schedules, etc.) demonstrate the Proposer's ability to perform and deliver far beyond expectation.

VERY GOOD (0.8): To a high degree; better than or above competent and/or skillful. The Proposer provided information for a given criteria that satisfied the requirements and described specifically how and what will be accomplished in such a manner that exhibited a very high degree of understanding, skill, and competency, both qualitatively

and quantitatively. The facts included in the narrative (including all supporting documentation, diagrams, drawings, charts, and schedules, etc.) demonstrate the Proposer's ability to perform and deliver beyond expectation.

GOOD (0.6): Having positive or desirable qualities; competent; skilled; above average. The Proposer provided information for a given criteria that satisfied the requirements and described specifically how and what will be accomplished in such a manner that exhibited a skillful and above-average degree of understanding, skill, and competency, both qualitatively and quantitatively. The facts included in the narrative (including all supporting documentation, diagrams, drawings, charts, and schedules, etc.) demonstrate the Proposer's ability to perform and deliver at the expected level.

FAIR (0.4): Average; moderate; mediocre; adequate; sufficient; satisfactory; standard. The Proposer provided information for a given criteria that satisfied the requirements and described sufficiently how and what will be accomplished in a manner that exhibited an adequate and average degree of understanding, skill, and competency, both qualitatively and quantitatively. The facts included in the narrative (including all supporting documentation, diagrams, drawings, charts, and schedules, etc.) demonstrate the Proposer's ability to perform and deliver at a level slightly below expectation.

POOR (0.2): Inadequate; lacking; inferior in quality; of little or less merit; substandard; marginal.

The Proposer provided information for a given criteria that did not satisfy the requirements and described in an inadequate manner how and what will be accomplished. The information provided simply reiterated a requirement, contained inaccurate statements or references, lacked adequate information, or was of inferior quality. The facts included in the narrative (including all supporting documentation, diagrams, drawings, charts, and schedules, etc.) demonstrate the Proposer's ability to perform and deliver at a substandard and inferior level.

UNACCEPTABLE (0.0):

The Proposer failed to provide any information for a given criteria, provided information that could not be understood, or did not provide the information for a given category as requested.

After a Selection Committee member has determined the description applicable for each evaluation criterion, the total points available for such criterion shall be multiplied by the factor associated with the applicable description to produce the number of points allocated for that evaluation criterion. For example, a Selection Committee member classifies the "Experience and Expertise" criterion (which shall be worth 25 points for the purpose of this example) as "Very Good" (which is a description factor multiplier of 0.8). The points that Selection Committee member allocated for that evaluation criterion would be 20, calculated as follows: 25 available points x 0.8 applicable description factor multiplier = 20 points.

A Selection Committee member's total score for each Proposal shall equal the sum of the total points allocated for each evaluation criteria.

When all Selection Committee members have completed their Proposal evaluations, the individual Selection Committee member's total scores for each Proposal will be added together to produce a final score for each Proposal.

Procurement will confirm the calculations for the final score for each Proposal. Then, Procurement shall publish a rank-ordered listing of the Proposals to the Selection Committee with the Proposal receiving the highest point as the highest-ranked Proposal.

If the Selection Committee decides to interview Proposers based on the final scores, then at a minimum the Selection Committee shall elevate the two highest-ranked Proposers to Elevation Level 3 for interviews. If the Selection Committee decides not to interview Proposers, they will collectively decide if they would like to recommend the Board, or if applicable the County Manager authorize staff to enter into Contract Negotiations with all Proposers, starting with the highest scoring Proposer. After Board or County Manager approval, as applicable, to authorize staff to negotiate a contract, the Proposers will then be elevated to Elevation Level 4 for contract negotiations.

The determination of whether the County Manager may authorize negotiations, without further approval of the Board, is contingent upon whether the anticipated cost of the agreement exceeds $100,000. The County Manager may authorize contract negotiations for contracts which are not anticipated to exceed $100,000 in total.

Elevation Level 3 (Proposer Interviews)

The Selection Committee shall conduct interviews of the Proposers that it has elevated from Elevation Level 2 to Elevation Level 3. During an interview, elevated Proposers shall make a presentation describing the key elements of their Proposal and/or address any specific topics the Selection Committee may determine necessary. The Selection Committee members will have an opportunity to inquire about any aspect of the RFP and the Proposer's Proposal. After all elevated Proposer interviews, each Selection Committee member shall evaluate each Proposer with emphasis on the following:

Proposer interview and presentation focusing on the key elements of their presentation and answers to questions of the Selection Committee.

After the interviews, each Selection Committee member will individually rank the Proposers in numerical order beginning at number 1 for the highest-ranked Proposer. Procurement shall receive and compile each Selection Committee member's ranking of each Proposer, and then publish a rank-ordered listing of Proposers to the Selection Committee, based on the combined average rankings given each Proposer. The Selection Committee members will then collectively decide if they would like to recommend the Board, or if applicable the County manager, authorize staff to enter into Contract Negotiations with all Proposers elevated to Proposer Interviews, starting with the highest-ranked Proposer. After Board or County Manager approval, as applicable, to authorize staff to negotiate a contract, the highest-ranked Proposer will then be elevated to Elevation Level 4, Contract Negotiations.

The determination of whether the County Manager may authorize negotiations, without further approval of the Board, is contingent upon whether the anticipated cost of the agreement exceeds $100,000. The County Manager may authorize contract negotiations for contracts which are not anticipated to exceed $100,000 in total.

Elevation Level 4 (Contract Negotiations)

If a Proposer is elevated to this level, the User division, with the assistance of the Procurement and the County Attorney's Office, shall negotiate an Agreement with the elevated Proposer.

If after negotiating for a reasonable time period the parties cannot agree on a contract, the County shall, in its sole discretion, terminate further contract negotiations with that Proposer. Procurement shall notify the Selection Committee that contract negotiations with the elevated Proposer have terminated. The Selection Committee shall then determine whether to enter into contract negotiations with the next-highest-ranked Proposer, and so on. If the Selection Committee decides not to recommend contract negotiations with the next-highest-ranked Proposer, and so on, or if the County determines there is no other Proposer with whom the County can successfully negotiate a contract, then the RFP Selection Process shall terminate.

After contract negotiations with a Proposer are successfully completed pursuant to Elevation Level 4, the Selection Committee shall recommend to the Board of County Commissioners or County Manager, as applicable, that it selects such Proposer to provide the services as outlined in the Agreement. The Board of County Commissioners or County Manager, as applicable, shall make the final decision whether the County shall enter into an Agreement with a Proposer.

The determination of whether the County Manager may execute a contract, without further Board approval, is contingent upon whether the cost of the agreement exceeds $100,000. The County Manager may execute contracts that do not exceed $100,000 in total.

GENERAL CONDITIONS

BID OPENING

Proposers may attend the Bid Opening in person or via conference call by dialing (646) 558-8656 and enter Meeting ID: 327 647 2818. A listing of all proposers will be posted to Procurement's website as soon as possible after bid opening.

COMMUNICATIONS

After the issuance of any Request for Proposal, prospective proposers shall not contact, communicate with or discuss any matter relating in any way to the Request for Proposal with the Board of County Commissioners, the County Manager, or any employee of Polk County other than the Procurement Director or as directed in the cover page of the Request for Proposal. This prohibition begins with the issuance of any Request for Proposal and ends upon execution of the final contract. Such communications initiated by a proposer shall be grounds for disqualifying the offending proposer from consideration for award of the proposal and/or any future proposal.

INSURANCE REQUIREMENTS

The selected firm, if any, shall maintain, at all times, the following minimum levels of insurance and; shall, without in any way altering their liability, obtain, pay for and maintain insurance for the coverages and amounts of coverage not less than those set forth below. Provide to the County original Certificates of Insurance satisfactory to the County to evidence such coverage before any work commences. Polk County, a political subdivision of the State of Florida, shall be an additional named insured on all policies related to the project; excluding workers' compensation and professional liability. The Workers' Compensation and General Liability policies shall contain a waiver of subrogation in favor of Polk County. All insurance coverage shall be written with a company having an A.M. Best Rating of at least the "A" category and size category of VIII. The firm's deductible per line of coverage shall not exceed $25,000 without the permission of the County. Policies that include Self Insured Retention will not be accepted. In the event of any failure by the firm to comply with the provisions; the County may, at its option, on notice to the firm suspend the project for cause until there is full compliance. Alternatively, the County may purchase such insurance at the firm's expense, provided that the County shall have no obligation to do so and if the County shall do so, the firm shall not be relieved of or excused from the obligation to obtain and maintain such insurance amounts and coverages.

Workers' Compensation and Employer's Liability Insurance providing statutory benefits, including those that may be required by any applicable federal statute:

Admitted in Florida	Yes

Employer's Liability	$1,000,000
All States Endorsement	Statutory
Voluntary Compensation	Statutory

Commercial General Liability Insurance. $1,000,000 combined single limit of liability for bodily injuries, death, and property damage, and personal injury resulting from any one occurrence, including the following coverages:

Premises and Operations and Products/Completed Operations;

Broad Form Commercial General Liability Endorsement to include blanket contractual liability (specifically covering, but not limited to, the contractual obligations assumed by the Firm); Personal Injury (with employment and contractual exclusions deleted) and Broad Form Property Damage coverages;

Independent Contractors; Delete Exclusion relative to Collapse, Explosion and Underground Property Damage Hazards; Policy must include Separation of Insureds Clause.

Comprehensive Automobile Liability Insurance. $1,000,000 combined single limit of liability for bodily injuries, death, and property damage, and personal injury resulting from any one occurrence, including all owned, hired and non-owned vehicles.

Pollution Liability Insurance. $1,000,000 including pollution due to automobile operations.

INDEMNIFICATION

Consultant, to the extent permitted by law, shall indemnify, defend (by counsel reasonably acceptable to County), protect and hold the County, and its officers, employees and agents, harmless from and against any and all, claims, actions, causes of action, liabilities, penalties, forfeitures, damages, losses, and expenses whatsoever (including, without limitation, attorneys' fees, costs, and expenses incurred during negotiation, through litigation and all appeals therefrom) including, without limitation, those pertaining to the death of or injury to any person, or damage to any property, arising out of or resulting from (i) the failure of Consultant to comply with applicable laws, rules or regulations, (ii) the breach by Consultant of its obligations under any Agreement with the County entered into pursuant to this solicitation, (iii) any claim for trademark, patent, or copyright infringement arising out of the scope of Consultant's performance or nonperformance of the Agreement, or (iv) the negligent acts, errors or omissions, or intentional or willful misconduct, of Consultant, its professional associates,

subcontractors, agents, and employees; provided, however, that Consultant shall not be obligated to defend or indemnify the County with respect to any such claims or damages arising out of the County's sole negligence. The obligations imposed by this Section shall survive the expiration or earlier termination of the Agreement.

PUBLIC ENTITY CRIMES STATEMENT

The Consultant declares and warrants that neither the Consultant nor any of the Consultant's affiliates, as that term is defined in Section 287.133, Florida Statutes, are subject to the restrictions in Section 287.133, Florida Statutes, regarding the commission of a public entity crime. If during the term of this Agreement, the Consultant or any affiliate is convicted of a public entity crime or is otherwise prohibited from performing work for or transacting business with the County pursuant to Section 287.133, Florida Statutes, then the Consultant shall be in material default of this Agreement, and in such case, the County shall have the rights and remedies as provided herein.

EQUAL OPPORTUNITY/AFFIRMATIVE ACTION

The County is an equal opportunity/affirmative action employer. The County is committed to equal opportunity employment effort; and expects Consultants that do business with the County to have a vigorous affirmative action program.

WOMEN/MINORITY BUSINESS ENTERPRISE OUTREACH

The County hereby notifies all Proposers that W/MBE's are to be afforded a full opportunity to participate in any request for proposal by the County and will not be subject to discrimination on the basis of race, color, sex or national origin.

AFFIRMATION

By submitting their proposal, the Proposer affirms that the proposal is genuine and not made in the interest of or on behalf of any undisclosed person, Consultant or corporation and is not submitted in conformity with any agreement or rules of any group, association, organization or corporation; the Proposer has not directly or indirectly induced or solicited any other person to submit a false or sham proposal; the Proposer has not solicited or induced any person, Consultant or corporation to refrain from

submitting a proposal; and the Proposer has not sought by collusion to obtain for him/herself any advantage over other persons or over the County.

DEVELOPMENT COSTS

Neither the County nor its representative(s) shall be liable for any expenses incurred in connection with preparation of a submittal to the RFP. Proposers should prepare their proposals simply and economically, providing a straightforward and concise description of the proposer's ability to meet the requirements of the RFP.

ADDENDA

The County may record its responses to inquiries and any supplemental instructions in the form of written addenda. The addenda will be posted on the County's website at https://www.polk-county.net/business/procurement/. It is the sole responsibility of the proposers to check the website to ensure that all available information has been received prior to submitting a proposal.

CODE OF ETHICS

If any proposer violates or is a party to a violation of the code of ethics of Polk County or the State of Florida, with respect to this proposal, such proposer may be disqualified from performing the work described in this proposal or from furnishing the goods or services for which the proposal is submitted and shall be further disqualified from bidding on any future proposals for work, goods, or services for the County.

DRUG FREE WORKPLACE

Preference shall be given to businesses with Drug Free Workplace (DFW) programs. Whenever two or more proposals, which are equal with respect to price, quality and service, are received by the County for the procurement of commodities or contractual services, a proposal received from a business that has provided a statement that it is a DFW shall be given preference in the award process.

APPLICABLE LAWS AND COURTS

This RFP and any resulting agreements shall be governed in all respects by the laws of the State of Florida and any litigation with respect thereto shall be brought only in the courts of Polk County, State of Florida or the Middle District of Florida, Hillsborough

County, Florida. The proposer shall comply with all applicable federal, state and local laws and regulations.

CONTRACT

All contracts are subject to final approval of the Polk County Board of County Commissioners or County Manager, as applicable. Persons or Consultants which incur expenses or change position in anticipation of a contract prior to the Board's approval do so at their own risk.

PROPOSAL ACCEPTANCE PERIOD

A proposal shall be binding upon the offeror and irrevocable by it for one hundred and twenty (120) calendar days following the proposal opening date. Any proposal in which offeror shortens the acceptance period may be rejected.

ADDITION/DELETION

The County reserves the right to add to or delete any item from this proposal or resulting agreements when deemed to be in the best interest of the County.

INVOICING AND PAYMENT: The successful proposer shall submit a properly certified invoice to the County at the contract prices**. An original invoice shall be submitted to the appropriate User Division.** The proposer shall include the contract number and/or the purchase order number on all invoices. By submitting an invoice, the proposer's Project Manager or any authorized officer is attesting to the correctness and accuracy of all charges. Invoices will be processed for payment when approved by the appropriate Division's Project Manager or designee. The County's payment of an invoice shall not constitute evidence of the County's acceptance of the Proposers performance of the Service or the County's acceptance of any work.

PROPRIETARY INFORMATION

In accordance with Chapter 119 of the Florida Statutes (Public Records Law) and except as may be provided by other applicable State and Federal Law, all proposers should be aware that Request for Proposals and the submittals thereto are in the public domain. However, the proposers are required to identify specifically any information contained in their proposals which they consider confidential and/or proprietary and which they believe to be exempt from disclosure, citing specifically the applicable

exempting law. Proposers should provide a redacted copy of proposal with submittal, or must provide within thirty (30) days from the Proposal due date.

All proposals received from proposers in response to this Request for Proposal will become the property of the County and will not be returned to the proposers. In the event of contract award, all documentation produced as part of the contract will become the exclusive property of the County.

REVIEW OF PROPOSAL FILES

In accordance with Chapter 119.071 of the Florida Statutes, the submittals received for this Request for Proposal are exempt from review for thirty (30) days after the Bid Opening Date or at Recommendation of Award, whichever event occurs first.

Should the RFP be cancelled and re-solicited for any reason, proposal submittals shall remain exempt from disclosure for a period not to exceed twelve (12) months or at Recommendation of Award of the subsequent solicitation.

RFP PROTEST: Any proposer desiring to file a protest, with respect to a recommended award of any RFP, shall do so by filing a written protest. The written protest must be in the possession of the Procurement Division within three (3) working days of the Notice of Recommended Award mailing date. All proposers who submitted a proposal will be sent a Notice of Recommended Award, unless only one proposal was received.

A copy of the protest procedures may be obtained from the Polk County Procurement Division or can be downloaded from the County's website at https://www.polk-county.net/business/procurement/protest-procedures/.

FAILURE TO FOLLOW PROTEST PROCEDURE REQUIREMENTS WITHIN THE TIME FRAMES PRESCRIBED HEREIN AS ESTABLISHED BY POLK COUNTY, FLORIDA, SHALL CONSTITUTE A WAIVER OF THE PROPOSER'S RIGHT TO PROTEST AND ANY RESULTING CLAIM.

UNAUTHORIZED ALIEN(S)

The vendor agrees that unauthorized aliens shall not be employed nor utilized in the performance of the requirements of this solicitation. The County shall consider the employment or utilization of unauthorized aliens a violation of Section 274A(e) of the

Immigration and Naturalization Act (8 U.S.C. 1324a). Such violation shall be cause for unilateral termination of this Agreement by the County. As part of the response to this solicitation, the successful Consultant will complete and submit the attached form "AFFIDAVIT CERTIFICATION IMMIGRATION LAWS."

EMPLOYMENT ELIGIBILITY VERIFICATION (E-Verify)

A. Unless otherwise defined herein, terms used in this Section which are defined in Section 448.095, Florida Statutes, as may be amended from time to time, shall have the meaning ascribed in said statute.

B. Pursuant to Section 448.095(5), Florida Statutes, the contractor hereto, and any subcontractor thereof, must register with and use the E-Verify system to verify the work authorization status of all new employees of the contractor or subcontractor. The contractor acknowledges and agrees that (i) the County and the contractor may not enter into this Agreement, and the contractor may not enter into any subcontracts hereunder, unless each party to this Agreement, and each party to any subcontracts hereunder, registers with and uses the E-Verify system; and (ii) use of the U.S. Department of Homeland Security's E-Verify System and compliance with all other terms of this Certification and Section 448.095, Fla. Stat., is an express condition of this Agreement, and the County may treat a failure to comply as a material breach of this Agreement.

C. By entering into this Agreement, the contractor becomes obligated to comply with the provisions of Section 448.095, Fla. Stat., "Employment Eligibility," as amended from time to time. This includes but is not limited to utilization of the E-Verify System to verify the work authorization status of all newly hired employees, and requiring all subcontractors to provide an affidavit attesting that the subcontractor does not employ, contract with, or subcontract with, an unauthorized alien. The contractor shall maintain a copy of such affidavit for the duration of this Agreement. Failure to comply will lead to termination of this Agreement, or if a subcontractor knowingly violates the statute or Section 448.09(1), Fla. Stat., the subcontract must be terminated immediately. If this Agreement is terminated pursuant to Section 448.095, Fla. Stat., such termination is not a breach of contract and may not be considered as such. Any challenge to termination under this provision must be filed in the Tenth Judicial Circuit Court of Florida no later than 20 calendar days after the date of termination. If this Agreement is terminated for a violation of Section 448.095, Fla. Stat., by the contractor, the contractor may not be awarded a public contract for a period of 1 year after the date of termination. The contractor shall be liable for any additional costs incurred by the County as a result of the termination of this Agreement. Nothing in this Section shall be construed to allow intentional discrimination of any class protected by law.

LIMITATIONS

The County reserves the right to revise, amend or withdraw this proposal at any time to protect its interest. Proposers will not be compensated by the County for costs incurred in preparation of responses to this RFP.

ATTORNEY'S FEES AND COSTS: Each party shall be responsible for its own legal and attorney's fees, costs and expenses incurred in connection with any dispute or any litigation arising out of, or relating to this Agreement, including attorney's fees, costs and expenses incurred for any appellate or bankruptcy proceedings.

Prohibition Against Considering Vendor Interests: In accordance with Section 287.05701, Florida Statutes, the County may not (i) request documentation of or consider a Vendor's social, political, or ideological interests when determining if the Vendor is a responsible vendor; or (ii) give preference to a Vendor based on the Vendor's social, political, or ideological interests.

PUBLIC RECORD LAWS

(a)The Consultant acknowledges the County's obligations under Article I, Section 24, of the Florida Constitution and under Chapter 119, Florida Statutes, to release public records to members of the public upon request and comply in the handling of the materials created under this Agreement. The Consultant further acknowledges that the constitutional and statutory provisions control over the terms of this Agreement. In association with its performance pursuant to this Agreement, the Consultant shall not release or otherwise disclose the content of any documents or information that is specifically exempt from disclosure pursuant to all applicable laws.

(b) Without in any manner limiting the generality of the foregoing, to the extent applicable, the Consultant acknowledges its obligations to comply with Section 119.0701, Florida Statutes, with regard to public records, and shall:

(1) keep and maintain public records required by the County to perform the services required under this Agreement;

(2) upon request from the County's Custodian of Public Records or his/her designee, provide the County with a copy of the requested records or allow the records to be inspected or copied within a reasonable time at a cost that does not exceed the cost provided in Chapter 119, Florida Statutes, or as otherwise provided by law;

(3) ensure that public records that are exempt or confidential and exempt from public records disclosure requirements are not disclosed except as authorized by law for the duration of the term of this Agreement and following completion of this Agreement if the Consultant does not transfer the records to the County; and

(4) upon completion of this Agreement, transfer, at no cost, to the County all public records in possession of the Consultant or keep and maintain public records required by the County to perform the service. If the Consultant transfers all public records to the County upon completion of this Agreement, the Consultant shall destroy any duplicate public records that are exempt or confidential and exempt from public records disclosure requirements. If the Consultant keeps and maintains public records upon completion of this Agreement, the Consultant shall meet all applicable

requirements for retaining public records. All records stored electronically must be provided to the County, upon request from the County's Custodian of Public Records, in a format that is compatible with the information technology systems of the County.

(c) **IF THE CONSULTANT HAS QUESTIONS REGARDING THE APPLICATION OF CHAPTER 119, FLORIDA STATUTES, TO THE CONSULTANT'S DUTY TO PROVIDE PUBLIC RECORDS RELATING TO THIS AGREEMENT, CONTACT THE COUNTY'S CUSTODIAN OF PUBLIC RECORDS AT:**

RECORDS MANAGEMENT LIAISON OFFICER
POLK COUNTY
330 WEST CHURCH ST
BARTOW, FL 33830
TELEPHONE: (863) 534-7670
EMAIL: RMLO@POLK-COUNTY.NET

Scrutinized Companies and Business Operations Certification; Termination.

A. Certification(s)

(I) By its execution of this Agreement, the Vendor hereby certifies to the County that the Vendor is not on the Scrutinized Companies that Boycott Israel List, created pursuant to Section 215.4725, Florida Statutes, nor is the Vendor engaged in a boycott of Israel, nor was the Vendor on such List or engaged in such a boycott at the time it submitted its bid, proposal, quote, or other form of offer, as applicable, to the County with respect to this Agreement.

(II) Additionally, if the value of the goods or services acquired under this Agreement are greater than or equal to One Million Dollars ($1,000,000), then the Vendor further certifies to the County as follows:

(a) the Vendor is not on the Scrutinized Companies with Activities in Sudan List, created pursuant to Section 215.473, Florida Statutes; and
(b) the Vendor is not on the Scrutinized Companies with Activities in the Iran Petroleum Energy Sector List, created pursuant to Section 215.473, Florida Statutes; and
(c) the Vendor is not engaged in business operations (as that term is defined in Florida Statutes, Section 287.135) in Cuba or Syria; and
(d) the Vendor was not on any of the Lists referenced in this subsection A(ii), nor engaged in business operations in Cuba or Syria when it submitted its proposal to the County concerning the subject of this Agreement.

(iii) The Vendor hereby acknowledges that it is fully aware of the penalties that may be imposed upon the Vendor for submitting a false certification to the County regarding the foregoing matters.

B. Termination. In addition to any other termination rights stated herein, the County may immediately terminate this Agreement upon the occurrence of any of the following events:

(i) The Vendor is found to have submitted a false certification to the County with respect to any of the matters set forth in subsection A(i) above, or the Vendor is found to have been placed on the Scrutinized Companies that Boycott Israel List or is engaged in a boycott of Israel.

(ii) The Vendor is found to have submitted a false certification to the County with respect to any of the matters set forth in subsection A(ii) above, or the Vendor is found to have been placed on the Scrutinized Companies with Activities in Sudan List, or the Scrutinized Companies with Activities in the Iran Petroleum Energy Sector List, or has been engaged in business operations in Cuba or Syria, and the value of the goods or services acquired under this Agreement are greater than or equal to One Million Dollars ($1,000,000).

SUPPLEMENTAL CONDITIONS

Breach During Emergency Recovery Period. Pursuant to §252.505, Fla. Stat, in the event this Agreement concerns goods or services related to a natural emergency, Vendor agrees that if Vendor breaches this Agreement during the Emergency Recovery Period, then the County shall be entitled to (a) a payment of $5000, and (b) recovery of damages, which may take the form of actual and consequential damages or liquidated damages. The term "Emergency Recovery Period" means a one-year period that begins on the date the Governor of Florida initially declared a state of emergency for a natural emergency. This provision shall survive the termination of this Agreement.

FEDERAL CLAUSES

The County may seek funding reimbursement for all or a portion of the services provided under this Agreement from FEMA Public Assistance. In accordance with the federal procurement standards at 2 C.F.R. sections 200.317 through 200.327 the following clauses are incorporated in this bid, any resulting award with the prime Vendor, and any resulting contracts between the prime Vendor and sub-contractors and material suppliers. The following conditions are supplemental to the General Terms and Conditions. Where there is conflict, these Supplemental Conditions prevail unless the General Terms and Conditions are stricter.

Equal Employment Opportunity. (Only applicable to construction bids)

During the performance of this Contract, the Contractor agrees as follows:

(1) The Contractor will not discriminate against any employee or applicant for employment because of race, color, religion, sex, or national origin. The contractor will take affirmative action to ensure that applicants are employed, and that employees are treated during employment without regard to their race, color, religion, sex, or national origin. Such action shall include, but not be limited to the following: Employment, upgrading, demotion, or transfer; recruitment or recruitment advertising; layoff or termination; rates of pay or other forms of compensation; and selection for training, including apprenticeship. The contractor agrees to post in conspicuous places, available

to employees and applicants for employment, notices to be provided setting forth the provisions of this nondiscrimination clause.

(2) The Contractor will, in all solicitations or advertisements for employees placed by or on behalf of the contractor, state that all qualified applicants will receive considerations for employment without regard to race, color, religion, sex, or national origin.

(3) The Contractor will send to each labor union or representative of workers with which he has a collective bargaining agreement or other contract or understanding, a notice to be provided advising the said labor union or workers' representatives of the Contractor's commitments under this section and shall post copies of the notice in conspicuous places available to employees and applicants for employment.

(4) The contractor will comply with all provisions of Executive Order 11246 of September 24, 1965, and of the rules, regulations, and relevant orders of the Secretary of Labor.

(5) The Contractor will furnish all information and reports required by Executive Order 11246 of September 24, 1965, and by rules, regulations, and orders of the Secretary of Labor, or pursuant thereto, and will permit access to his books, records, and accounts by the administering agency and the Secretary of Labor for purposes of investigation to ascertain compliance with such rules, regulations, and orders.

(6) In the event of the Contractor's noncompliance with the nondiscrimination clauses of this contract/Purchase Order or with any of the said rules, regulations, or orders, this contract/Purchase Order may be canceled, terminated, or suspended in whole or in part and the contractor may be declared ineligible for further Government contracts or federally assisted construction contracts in accordance with procedures authorized in Executive Order 11246 of September 24, 1965, and such other sanctions as may be imposed and remedies invoked as provided in Executive Order 11246 of September 24, 1965, or by rule, regulation, or order of the Secretary of Labor, or as otherwise provided by law.

(7) The Contractor will include the portion of the sentence immediately preceding paragraph (1) and the provisions of paragraphs (1) through (7) in every subcontract or purchase order unless exempted by rules, regulations, or orders of the Secretary of Labor issued pursuant to section 204 of Executive Order 11246 of September 24, 1965, so that such provisions will be binding upon each subcontractor or vendor. The Contractor will take such action with respect to any subcontract or purchase order as the administering agency may direct as a means of enforcing such provisions, including sanctions for noncompliance: Provided, however, That in the event a Contractor becomes involved in, or is threatened with, litigation with a subcontractor or vendor as a result of such direction by the administering agency the contractor may request the United States to enter into such litigation to protect the interests of the United States.

Contract Work Hours and Safety Standards Act.

(1) Overtime requirements. Neither the Contractor, nor any subcontractor contracting for any part of the contract work which may require or involve the employment of laborers or mechanics shall require or permit any such laborer or mechanic in any workweek in which he or she is employed on such work to work in

excess of forty hours in such workweek unless such laborer or mechanic receives compensation at a rate not less than one and one-half times the basic rate of pay for all hours worked in excess of forty hours in such workweek.

(2) Violation; liability for unpaid wages; liquidated damages. In the event of any violation of the clause set forth in paragraph (1) of this section the Contractor and any subcontractor responsible therefor shall be liable for the unpaid wages. In addition, such contractor and subcontractor shall be liable to the United States (in the case of work done under contract for the District of Columbia or a territory, to such District or to such territory), for liquidated damages. Such liquidated damages shall be computed with respect to each individual laborer or mechanic, including watchmen and guards, employed in violation of the clause set forth in paragraph (1) of this section, in the sum of $10 for each calendar day on which such individual was required or permitted to work in excess of the standard workweek of forty hours without payment of the overtime wages required by the clause set forth in paragraph (1) of this section.

(3) Withholding for unpaid wages and liquidated damages. The (write in the name of the Federal agency or the loan or grant recipient) shall upon its own action or upon written request of an authorized representative of the Department of Labor withhold or cause to be withheld, from any moneys payable on account of work performed by the contractor or subcontractor under any such contract or any other Federal contract with the same prime contractor, or any other federally-assisted contract subject to the Contract Work Hours and Safety Standards Act, which is held by the same prime contractor, such sums as may be determined to be necessary to satisfy any liabilities of such contractor or subcontractor for unpaid wages and liquidated damages as provided in the clause set forth in paragraph (2) of this section.

(4) Subcontracts. The Contractor or subcontractor shall insert in any subcontracts the clauses set forth in paragraph (1) through (4) of this section and also a clause requiring the subcontractors to include these clauses in any lower tier subcontracts. The prime contractor shall be responsible for compliance by any subcontractor or lower tier subcontractor with the clauses set forth in paragraphs (1) through (4) of this section.

Clean Air Act and the Federal Water Pollution Control Act.

Clean Air Act

(1) The Contractor agrees to comply with all applicable standards, orders or regulations issued pursuant to the Clean Air Act, as amended, 42 U.S.C. § 7401 et seq.

(2) The Contractor agrees to report each violation to the County and understands and agrees that the County will, in turn, report each violation as required to assure notification to the State of Florida Department of Economic Opportunity, US Department of Housing and Urban Development, and the appropriate Environmental Protection Agency Regional Office.

(3) The Contractor agrees to include these requirements in each subcontract exceeding $150,000 financed in whole or in part with Federal assistance provided by US Department of Housing and Urban Development.

Federal Water Pollution Control Act

(1) The Contractor agrees to comply with all applicable standards, orders or regulations issued pursuant to the Federal Water Pollution Control Act, as amended, 33 U.S.C. 1251 et seq.

(2) The Contractor agrees to report each violation to the County and understands and agrees that the (County will, in turn, report each violation as required to assure notification to the Florida Department of Economic Opportunity, US Department of Housing and Urban Development, and the appropriate Environmental Protection Agency Regional Office.

(3) The Contractor agrees to include these requirements in each subcontract exceeding $150,000 financed in whole or in part with Federal assistance provided by US Department of Housing and Urban Development.

Debarment and Suspension. (Exhibit "A")

(1) This Contract/Purchase Order is a covered transaction for purposes of 2 C.F.R. pt. 180 and 2 C.F.R. pt. 3000. As such the contractor is required to verify that none of the Contractor, its principals (defined at 2 C.F.R. § 180.995), or its affiliates (defined at 2 C.F.R. § 180.905) are excluded (defined at 2 C.F.R. § 180.940) or disqualified (defined at 2 C.F.R. § 180.935).

(2) The Contractor must comply with 2 C.F.R. pt. 180, subpart C and 2 C.F.R. pt. 3000, subpart C and must include a requirement to comply with these regulations in any lower tier covered transaction it enters into.

(3) This certification is a material representation of fact relied upon by Polk County. If it is later determined that the Contractor did not comply with 2 C.F.R. pt. 180, subpart C and 2 C.F.R. pt. 3000, subpart C, in addition to remedies available to the Florida Division of Management and the County, the Federal Government may pursue available remedies, including but not limited to suspension and/or debarment.

(4) The bidder or proposer agrees to comply with the requirements of 2 C.F.R. pt. 180, subpart C and 2 C.F.R. pt. 3000, subpart C while this offer is valid and throughout the period of any contract or purchase order that may arise from this offer. The bidder or proposer further agrees to include a provision requiring such compliance in its lower tier covered transactions.

Byrd Anti-Lobbying Amendment, 31 U.S.C. § 1352 (as amended)

Contractors who apply or bid for an award of $100,000 or more shall file the required certification (attached hereto as Exhibit "B"). Each tier certifies to the tier above that it will not and has not used Federal appropriated funds to pay any person or organization for influencing or attempting to influence an officer or employee of any agency, a member of Congress, officer or employee of Congress, or an employee of a member of Congress in connection with obtaining any Federal contract, grant, or any other award covered by 31 U.S.C. § 1352. Each tier shall also disclose any lobbying with non-Federal funds that takes place in connection with obtaining any Federal award. Such disclosures are forwarded from tier to tier up to the recipient.

Procurement of Recovered Materials.

(1) In the performance of this Contract/Purchase Order, the Contractor shall to the greatest extent practicable and consistent with law, purchase, acquire, or use products and services that can be reused, refurbished, or recycled; contain recycled content, are biobased, or are energy and water efficient; and are sustainable. Additionally, Consultants shall make maximum use of products containing recovered materials that are EPA- designated items unless the product cannot be acquired—

(i) Competitively within a timeframe providing for compliance with the contract performance schedule;

(ii) Meeting contract performance requirements; or

(iii) At a reasonable price.

(2) Information about this requirement, along with the list of EPA-designate items, is available at EPA's Comprehensive Procurement Guidelines web site, https://www.epa.gov/smm/comprehensive-procurement-guideline-cpg-program."

Domestic Preference

In accordance with 2 CFR §200.322, to the greatest extent practicable and consistent with law under a Federal award, the County must provide a preference for the purchase acquisition, or use of goods, products, or materials produced in the United States (including but not limited to iron, aluminum, steel, cement, and other manufactured products). The requirements of this section must be included in all subawards including all contracts and purchase orders for work or products under this award. For purposes of this section:

(1) "Produced in the United States" means, for iron and steel products, that all manufacturing processes, from the initial melting stage through the application of coatings, occurred in the United States.

(2) "Manufactured products" means items and construction materials composed in whole or in part of non-ferrous metals such as aluminum; plastics and polymer based products such as polyvinyl chloride pipe; aggregates such as concrete; glass, including optical fiber; and lumber.

Affirmative Action.

In accordance with 2 CFR §200.321, the County is committed to taking all necessary steps to assure that minority businesses, women's business enterprises, veteran-owned businesses and labor surplus area firms are used when possible. The Contractor shall also take such affirmative steps in the selection of its subcontractors, laborers and materialmen. Affirmative steps include:

(1) Placing qualified small and minority businesses, women's business enterprises, and veteran-owned businesses on solicitation lists;

(2) Assuring that small and minority businesses, women's business enterprises, and veteran-owned businesses are solicited whenever they are potential sources;

(3) Dividing total requirements, when economically feasible, into smaller tasks or quantities to permit maximum participation by small and minority businesses,

women's business enterprises, and veteran-owned businesses;

(4) Establishing delivery schedules, where the requirement permits, which encourage participation by small and minority businesses, women's business enterprises, and veteran-owned businesses; and

(5) Using the services and assistance, as appropriate, of such organizations as the Small Business Administration and the Minority Business Development Agency of the Department of Commerce.

Access to Records. The following access to records requirements apply to this Purchase Order:

(1) The Contractor agrees to provide the Florida Department of Economic Opportunity, Polk County, the US Department of Housing and Urban Development Administrator, the Comptroller General of the United States, or any of their authorized representative's access to any books, documents, papers, and records of the Contractor which are directly pertinent to this Purchase Order for the purposes of making audits, examinations, excerpts, and transcriptions.

(2) The Contractor agrees to permit any of the foregoing parties to reproduce by any means whatsoever or to copy excerpts and transcriptions as reasonably needed.

(3) The Contractor agrees to provide the US Department of Housing and Urban Development Administrator or his authorized representative's access to construction or other work sites pertaining to the work being completed under the Purchase Order."

DHS Seal, Logo, and Flags. The Contractor shall not use the DHS seal(s), logos, crests, or reproductions of flags or likenesses of DHS agency officials without specific FEMA pre- approval.

Compliance with Federal Law, Regulations, and Executive Orders. This is an acknowledgement that US Department of Housing and Urban Development financial assistance will be used to fund the Purchase Order only. The Contractor will comply will all applicable federal law, regulations, executive orders, US Department of Housing and Urban Development policies, procedures, and directives.

No Obligation by Federal Government. The Federal Government is not a party to this Purchase Order and is not subject to any obligations or liabilities to the non-Federal entity, contractor, or any other party pertaining to any matter resulting from this Purchase Order.

Program Fraud and False or Fraudulent Statements or Related Acts.

The Contractor acknowledges that 31 U.S.C. Chap. 38 (Administrative Remedies for False Claims and Statements) applies to the Contractor's actions pertaining to this Purchase Order.

Default and Remedy

Process. If the Contractor materially defaults in the timely performance of any Contract obligation, or if the Contractor is otherwise in material default of the Contract, including, without limitation, the Contractor's failure to timely deliver any portion, or the entirety, of the Project Work in accordance with the Contract documents, then the County shall have the right to (i) with or without terminating the Contract, immediately call in any bonds or other form of security, and engage other Contractors or providers at the

Contractor's sole cost and expense to provide those unperformed or deficient Contract obligations of the Contractor; (ii) set-off the monetary amount of any and all damages arising therefrom, whether direct or indirect, actual or liquidated, from the amounts due Contractor pursuant to the Contract documents, (iii) immediately terminate the Contract by delivering written notice to the Contractor, and (iv) pursue any and all remedies available in law, equity, and under the Contract, including, without limitation, the recovery of any increased cost to the County to complete the Project Work due to the loss of CDBG-MIT funding caused, directly or indirectly, by the Contractor's delay. Upon any such termination pursuant to this Section, the County shall pay the Contractor the full amount due and owing for all services properly performed through the date of the Contract termination, less any amount subject to the County's right of set-off, and all liability of the County to the Contractor shall cease.

Certain Material Defaults.

Among other matters, including without limitation, the Contractor's failure to timely deliver any portion, or the entirety, of the Project Work in accordance with the Contract documents, as described immediately above, any of the following shall constitute the Contractor's material default of the Contract: the appointment of a receiver to take possession of all or substantially all of the Contractor's assets, a general assignment by the Contractor for the benefit of creditors, or any action taken by or suffered by Contractor under any insolvency or bankruptcy act; or the Contractor is convicted of a public entity crime, is determined to have violated federal or state law prohibiting discrimination as stated in Section 287.134, Florida Statutes, or is prohibited from performing work for or transacting business with the County pursuant to Section 287.133 or to Section 287.134, Florida Statutes; or an assignment of the Contract made without the express written consent of the County; or the submission of a false certification to the County or engagement in prohibited business operations, both as described in the Contract Documents.

Prohibition on Certain Telecommunications and Video Surveillance Services or Equipment

In accordance with 2 CFR §200.216 and Appendix II to Part 200, subsection (K), no funding or services provided pursuant to or in connection with this Contract, shall in any way be used to:

(1) Procure or obtain;

(2) Extend or renew a contract to procure or obtain; or

(3) Enter into a contract (or extend or renew a contract) to procure or obtain equipment, services, or systems that uses covered telecommunications equipment or services as a substantial or essential component of any system, or as critical technology as part of any system. As described in Public Law 115–232, section 889, covered telecommunications equipment is telecommunications equipment produced by Huawei Technologies Company or ZTE Corporation (or any subsidiary or affiliate of such entities).

(i) For the purpose of public safety, security of government facilities, physical security surveillance of critical infrastructure, and other national security purposes, video surveillance and telecommunications equipment produced by Hytera Communications Corporation, Hangzhou Hikvision Digital Technology Company, or Dahua Technology Company (or any subsidiary or affiliate of such entities).

(ii) Telecommunications or video surveillance services provided by such entities or using such equipment.

(iii) Telecommunications or video surveillance equipment or services produced or provided by an entity that the Secretary of Defense, in consultation with the Director of the National Intelligence or the Director of the Federal Bureau of Investigation, reasonably believes to be an entity owned or controlled by, or otherwise connected to, the government of a covered foreign country.

State of Incorporation: _____

The Successful vendor must complete and submit this form prior to award. The Successful vendor must invoice using the company name listed above.

Drug-Free Workplace Form

(Submittal Page)

The undersigned vendor in accordance with Florida Statue 287.087 hereby certifies that, (Name of the Business): _____ does:

1. Publish a statement notifying employees that the unlawful manufacture, distribution, dispensing, possession or use of a controlled substance is prohibited in the workplace and specifying the actions that will be taken against employees for violations of such prohibition.
2. Inform employees about the dangers of drug abuse in the workplace, the business's policy of maintaining a drug-free workplace, any available drug counseling, rehabilitation programs, employee assistance programs and the penalties that may be imposed upon employees for drug abuse violations.
3. Give each employee engaged in providing the commodities or contractual services that are under this RFP a copy of the statement specified in subsection (1).
4. In the statement specified in subsection (1), notify the employees that, as a condition of working on the commodities or contractual services that are under this RFP, the employee will abide by the terms of the statement and will notify the employer of any conviction of, plea of guilty or nolo contendere to, any violation of Chapter 1893 or of any controlled substance law of the United States or any state, for a violation occurring in the workplace no later than five (5) days after such conviction.
5. Impose a sanction on or require the satisfactory participation in a drug abuse assistance or rehabilitation program, if such is available in the employee's community, by any employee who is so convicted.
6. Make a good faith effort to continue to maintain a drug-free workplace through implementation of this section.

As the person authorized to sign the statement, I certify that this firm complies fully with the above requirements.

EXHIBIT 1
DETAILED INSTRUCTIONS ON HOW TO PREPARE AND SEND PERFORMANCE SURVEYS

The objective of this process is to identify the past performance of the Consultant submitting a proposal package. This is accomplished by sending survey forms to past customers. The customers should return the forms directly to the Consultant. The Consultant is to include all surveys in their proposal package.

Sending the Survey

The surveys shall be sent to all clients for whom the Consultant has identified under Tab 2. Surveys should correlate to all projects identified under Tab 2.

If more surveys are included, Procurement will only use those identified under Tab 2.

1. The Consultant shall complete the following information for each customer that a survey will be sent

CLIENT NAME	Name of the company that the work was performed for (i.e. Hillsborough County).
FIRST NAME	First name of the person who will answer customer satisfaction questions.
LAST NAME	Last name of the person who will answer customer satisfaction questions.
PHONE NUMBER	Current phone number for the reference (including area code).
EMAIL ADDRESS	Current email address for the reference.
PROJECT NAME	Name of the project (Monitoring Services for Hillsborough County Hurricane Milton), Etc.
COST OF SERVICES	Cost of services ($1,000,000)
DATE COMPLETE	Date when the services were completed. (i.e. 5/31/2023)

2. The Consultant is responsible for verifying that their information is accurate prior to submission for references.

3. The survey must contain different services/projects. You cannot have multiple people evaluating the same job. However, one person may evaluate several different jobs.

4. The past projects can be either completed or on-going.

5. The past client/owner must evaluate and complete the survey.

Preparing the Surveys

1. The Consultant is responsible for sending out a performance survey to the clients that have been identified under Tab 2. The survey can be found on the next page.
2. The Consultant should enter the past clients' contact information, and project information on each survey form for each reference. The Consultant should also enter their name as the Consultant being surveyed.
3. The Consultant is responsible for ensuring all references/surveys are included in their submittal under Tab 5
4. Polk County Procurement may contact the reference for additional information or to clarify survey data. If the reference cannot be contacted, there will be no credit given for that reference.

Survey Questionnaire – Polk County

RFP 26-012, Disaster Debris Monitoring Services

To: _____ (Name of Person completing survey)

_____ (Name of Client Company/Consultant)

Phone Number: _____ Email: _____

Subject: Past Performance Survey of Similar work:

Project name: _____

Name of Vendor being surveyed: _____

Cost of Services: Original Cost: _____ Ending Cost: _____

Contract Start Date: _____ Contract End Date: _____

Rate each of the criteria on a scale of 1 to 10, with 10 representing that you were very satisfied (and would hire the Consultant /individual again) and 1 representing that you were very unsatisfied (and would never hire the Consultant /individual again). Please rate each of the criteria to the best of your knowledge. If you do not have sufficient knowledge of past performance in a particular area, leave it blank.

NO	CRITERIA	UNIT	SCORE
1	Ability to manage cost	(1-10)	
2	Ability to maintain project schedule (complete on-time/early)	(1-10)	
3	Quality of workmanship	(1-10)	
4	Professionalism and ability to manage	(1-10)	
5	Ability to communicate with Debris Removal Contractor	(1-10)	
6	Ability to communicate with Client's staff	(1-10)	
7	Ability to resolve issues promptly	(1-10)	
8	Ability to follow protocol	(1-10)	
9	Ability to maintain proper documentation	(1-10)	
10	Close out process	(1-10)	
11	Overall Client satisfaction and comfort level in hiring	(1-10)

EMPLOYMENT ELIGIBILITY VERIFICATION (E-VERIFY) CERTIFICATION
(Florida Statutes, Section 448.095)

PROJECT NAME: _____

The undersigned, as an authorized officer of the contractor identified below (the "**Contractor**"), having full knowledge of the statements contained herein, hereby certifies to Polk County, a political subdivision of the State of Florida (the "**County**"), by and on behalf of the Contractor in accordance with the requirements of Section 448.095, Florida Statutes, as related to the contract entered into by and between the Contractor and the County on or about the date hereof, whereby the Contractor will provide labor, supplies, or services to the County in exchange for salary, wages, or other remuneration (the "**Contract**"), as follows:

1. Unless otherwise defined herein, terms used in this Certification which are defined in Section 448.095, Florida Statutes, as may be amended from time to time, shall have the meaning ascribed in said statute.

2. Pursuant to Section 448.095(5), Florida Statutes, the Contractor, and any subcontractor under the Contract, must register with and use the E-Verify system to verify the work authorization status of all new employees of the Contractor or subcontractor. The Contractor acknowledges and agrees that (i) the County and the Contractor may not enter into the Contract, and the Contractor may not enter into any subcontracts thereunder, unless each party to the Contract, and each party to any subcontracts thereunder, registers with and uses the E-Verify system; and (ii) use of the U.S. Department of Homeland Security's E-Verify System and compliance with all other terms of this Certification and Section 448.095, Fla. Stat., is an express condition of the Contract, and the County may treat a failure to comply as a material breach of the Contract.

3. By entering into the Contract, the Contractor becomes obligated to comply with the provisions of Section 448.095, Fla. Stat., "Employment Eligibility," as amended from time to time. This includes but is not limited to utilization of the E-Verify System to verify the work authorization status of all newly hired employees, and requiring all subcontractors to provide an affidavit attesting that the subcontractor does not employ, contract with, or subcontract with, an unauthorized alien. The Contractor shall maintain a copy of such affidavit for the duration of the Contract. Failure to comply will lead to termination of the Contract, or if a subcontractor knowingly violates the statute or Section 448.09(1), Fla. Stat., the subcontract must be terminated immediately. If the Contract is terminated pursuant to Section 448.095, Fla. Stat., such termination is not a breach of contract and may not be considered as such. Any challenge to termination under this provision must be filed in the Tenth Judicial Circuit Court of Florida no later than 20 calendar days after the date of termination. If the Contract is terminated for a violation of Section 448.095, Fla. Stat., by the Contractor, the Contractor may not be awarded a public contract for a period of 1 year after the date of termination. The Contractor shall be liable for any additional costs incurred by the County as a result of the termination of the Contract. Nothing in this Certification shall be construed to allow intentional discrimination of any class protected by law.

EXHIBIT "A"

CERTIFICATIONS REGARDING DEBARMENT, SUSPENSION, PROPOSED DEBARMENT, AND OTHER RESPONSIBILITY MATTERS

For all awards, subawards, and contracts with certain parties that are debarred, suspended, or otherwise excluded from or ineligible for participation in Federal assistance programs and activities, the Offeror must complete and sign the following:

The Offeror certifies, to the best of its knowledge and belief, that-

(1) This contract is a covered transaction for purposes of 2 C.F.R. pt. 180 and 2 C.F.R. pt. 3000. As such the contractor is required to verify that none of the contractor, its principals (defined at 2 C.F.R. § 180.995), or its affiliates (defined at 2 C.F.R. § 180.905) are excluded (defined at 2 C.F.R. § 180.940) or disqualified (defined at 2 C.F.R. § 180.935).

(2) The contractor must comply with 2 C.F.R. pt. 180, subpart C and 2 C.F.R. pt. 3000, subpart C and must include a requirement to comply with these regulations in any lower tier covered transaction it enters into.

(3) This certification is a material representation of fact relied upon by Polk County, a political subdivision of the State of Florida (the "County"). If it is later determined that the contractor did not comply with 2 C.F.R. pt. 180, subpart C and 2 C.F.R. pt. 3000, subpart C, in addition to remedies available to the Florida Division Emergency Management, the County, and the Federal Government may pursue available remedies, including but not limited to suspension and/or debarment.

(4) The bidder or proposer agrees to comply with the requirements of 2 C.F.R. pt. 180, subpart C and 2 C.F.R. pt. 3000, subpart C while this offer is valid and throughout the period of any contract that may arise from this offer. The bidder or proposer further agrees to include a provision requiring such compliance in its lower tier covered transactions.

EXHIBIT "B"

APPENDIX A, 44 C.F.R. PART 18 – CERTIFICATION REGARDING LOBBYING

Certification for Contracts, Grants, Loans, and Cooperative Agreements

(To be submitted with each bid or offer exceeding $100,000)

The undersigned _____ (Contractor) certifies, to the best of his or her knowledge, that:

1. No Federal appropriated funds have been paid or will be paid, by or on behalf of the undersigned, to any person for influencing or attempting to influence an officer or employee of an agency, a Member of Congress, an officer or employee of Congress, or an employee of a Member of Congress in connection with the awarding of any Federal contract, the making of any Federal grant, the making of any Federal loan, the entering into of any cooperative agreement, and the extension, continuation, renewal, amendment, or modification of any Federal contract, grant, loan, or cooperative agreement.

2. If any funds other than Federal appropriated funds have been paid or will be paid to any person for influencing or attempting to influence an officer or employee of any agency, a Member of Congress, an officer or employee of Congress, or an employee of a Member of Congress in connection with this Federal contract, grant, loan, or cooperative agreement, the undersigned shall complete and submit Standard Form- LLL, "Disclosure Form to Report Lobbying," in accordance with its instructions.

3. The undersigned shall require that the language of this certification be included in the award documents for all subawards at all tiers (including subcontracts, subgrants, and contracts under grants, loans, and cooperative agreements) and that all subrecipients shall certify and disclose accordingly.

This certification is a material representation of fact upon which reliance was placed when this transaction was made or entered into. Submission of this certification is a prerequisite for making or entering into this transaction imposed by 31, U.S.C. § 1352 (as amended by the Lobbying Disclosure Act of 1995). Any person who fails to file the required certification shall be subject to a civil penalty of not less than $10,000 and not more than $100,000 for each such failure.

The Contractor, _____ , certifies or affirms the truthfulness and accuracy of each statement of its certification and disclosure, if any. In addition, the Contractor understands and agrees that the provisions of 31 U.S.C. § 3801 *et seq*., apply to this certification and disclosure, if any.

Date _____

Draft Agreement
Disaster Debris Monitoring Services

THIS AGREEMENT (the "Agreement") is entered into as of the Effective Date (defined in Section 1, below) by and between Polk County (the "County"), a political subdivision of the State of Florida, situated at 330 W. Church Street, Bartow, Florida, 33830, and _____ (the "Consultant"), a _____ corporation, at _____, and whose Federal Employer Identification Number is _____.

WHEREAS, the Consultant has considerable expertise in debris removal monitoring services; and

WHEREAS, the County desires to employ the Consultant to provide disaster debris removal monitoring services; and

WHEREAS, the County has solicited for these consultant services via an advertised request for proposal ("RFP 26-012") and has received numerous responsive proposals thereto; and

WHEREAS, after review and consideration of all responsive proposals, the County intends to engage the Consultant to provide it the disaster debris monitoring services; and

WHEREAS, the Consultant is able and agreeable to providing the County the services and represents that it is competent, qualified, capable and prepared to do so according to the terms and conditions stated herein;

NOW, THEREFORE, in consideration of the mutual understandings and covenants set forth herein, the County and the Consultant hereby agree, as follows:

1.0 **Effective Date; Term**

1.1 This Agreement shall take effect on the date (the "Effective Date") of its execution by the County.

1.2 The term of this Agreement shall be for a five (5) year time period, commencing upon the Effective Date and remaining in full force and effect thereafter, unless otherwise sooner terminated as provided herein.

2.0 **Consultant Services**

2.1 The County does hereby retain the Consultant to furnish those services and to perform those tasks (collectively, the "Services") as further described in (i) the County's Request for Proposals RFP #26-012, to include all attachments and addenda, and (ii) the Consultant's responsive proposal thereto (collectively, (i) and (ii) are "RFP 26-012"), all of which are

incorporated into this Agreement by this reference, attached hereto as a composite Exhibit "A" and made a part of this Agreement.

2.2 Consultant shall perform the services described in the Scope of Services section of RFP 26-012, as those Services may be further specifically designated and authorized by the County in a separate written Notice to Proceed the County will deliver to the Consultant prior to the Consultant's commencement of the Services required in association with the County's clean-up and recovery from a particular disaster or emergency event. The form for the Notice-to-Proceed shall be substantially in the form provided on Exhibit "E" which is attached hereto and made a part of this Agreement.

2.3 The County will contact and coordinate with the Consultant prior to issuing a Notice to Proceed for a disaster or emergency event. The Consultant will provide the name(s) of the supervisor(s)\liaison officer who will be primarily responsible for the Consultant providing the required Services. Additionally, before the Notice-To-Proceed is issued the Consultant will deliver to the County a performance bond in the form provided on Exhibit "D" which is attached hereto and made a part hereof in an amount to be reasonably determined by the County but which will not be less than $500,000.00. The actual bond amount will be determined based upon the estimated costs of the Services required as a consequence of the particular disaster or emergency event.

2.4 The Consultant acknowledges that the County has engaged a secondary vendor and may engage a tertiary vendor to provide the Services described in RFP 20-299 should the County determine in its sole and absolute discretion that the Consultant may, is or will be unable to perform the full scope of work of a particular project within the time period the County requires all such work to be completed.

3.0 **Compensation**

3.1 General

3.1.1 In consideration for its providing the Services, during the Agreement Term the County shall pay the Consultant a fee that shall not exceed the amounts stated in Exhibit "B", which is attached hereto and made a part of this Agreement (the "Compensation Schedule"). The Compensation Schedule identifies all billable services pursuant to this Agreement and the associated amount the County will pay the Consultant for Services performed. The County is not obligated to pay the Consultant a fee for any work performed or Services provided not listed

on the Compensation Schedule. The rates shown on the Compensation Schedule may be increased annually by written authorization of the Procurement Director following the one year anniversary of the Effective Date, when it is in the best interest of the County. Rate increases will be determined by the appropriate price index as approved by the Procurement Director. No action by the Board of County Commissioners will be necessary for such rate increases

3.1.2 At its option the County may choose to engage the Consultant to perform additional, related consulting services beyond the scope of the Services for which the County shall pay the Consultant in accordance with the rates set forth in the Compensation Schedule.

3.1.3 All the Consultant's invoices for payment must reference the Agreement and must be submitted using a form approved by the County Auditor.

3.1.4 The Consultant shall attach all appropriate cost substantiations to the invoice and shall deliver the invoices to:

Roads and Drainage Division
3000 Sheffield Road
Winter Have, FL 33880

3.1.5 The Consultant will clearly state "Final Invoice" on the Consultant's final/last billing for the Services rendered to the County. The Consultant's submission of a Final Invoice is its certification that all Services have been properly performed and all charges and costs have been invoiced to the County. This account will be closed upon the County's receipt of a Final Invoice. The Consultant hereby waives any charges not properly included on its Final Invoice.

3.1.6 The County's payment of the Final Invoice shall not constitute evidence of the County's acceptance of the Consultant's performance of the Service or the County's acceptance of any work.

3.1.7 By its submission of an invoice, the Consultant's project manager or designated payroll officer shall be deemed to be attesting to the correctness and accuracy of all charges and requested reimbursements stated in such invoice.

3.1.8 The Consultant's requests for payment of "out-of-pocket" expenses eligible for reimbursement under the terms of this Agreement shall be reimbursed per the County's Reimbursable Schedule that is attached as Exhibit "C" and made a part of this Agreement. The Consultant's requests for payment shall include copies of paid receipts, invoices or other

documentation acceptable to the County's Auditor. To qualify for reimbursement, the Consultant's documentation shall be sufficient to establish that the expense was actually incurred and necessary in the performance of the Services performed in accordance with this Agreement

4.0 **Consultant's Responsibilities**

4.1 The Consultant shall be responsible for the professional quality, accuracy, competence, methodology, and the coordination of all Services performed pursuant to this Agreement.

4.2 The County's review, approval, acceptance, or payment for any of the Consultant's Services shall not be construed to: (i) operate as a waiver of any rights the County possesses under this Agreement; or (ii) waive or release any claim or cause of action arising out of the Consultant's performance or nonperformance of this Agreement. The Consultant shall be and will always remain liable to the County in accordance with applicable law for any and all damages to the County caused by the Consultant's negligent or wrongful performance or nonperformance of any of the Services to be furnished under this Agreement.

5.0 **Ownership of Documents**

All analyses, reference data, bills, completed reports, or any other form of written instrument or document created or resulting from the Consultant's performance of the Services pursuant to this Agreement shall become the property of the County after payment is made to the Consultant for such instruments or documents.

6.0 **Termination**

6.1 The County may terminate this Agreement, in whole or in part, at any time, either for the County's convenience or because of the failure of the Consultant to fulfill its obligations under this Agreement, subject to the cure period provided in Section 26.0, by delivering written notice to the Consultant. Upon receipt of such notice, the Consultant shall:

6.1.1 Immediately discontinue all affected Services unless the notice directs otherwise, and

6.1.2 Deliver to the County all data, reports, summaries, and any and all such other information and materials of whatever type or nature as may have been accumulated by the Consultant in performing this Agreement, whether completed or in process.

6.2 Unless in dispute or subject to the County's right of set-off or other remedy, the Consultant shall be paid for Services actually rendered to the date of termination.

6.3 The rights and remedies of the County provided for in this Section 6 are in addition and supplemental to any and all other rights and remedies provided by law or under this Agreement.

7.0 **No Contingent Fees**

The Consultant warrants that it has not employed or retained any company or person, other than a bona fide employee working solely for the Consultant to solicit or secure this Agreement and that it has not paid or agreed to pay any person, company, corporation, individual or firm, other than a bona fide employee working solely for the Consultant, any fee, commission, percentage, gift, or other consideration contingent upon or resulting from award of or making of the Agreement. For the breach or violation of this provision, the County shall have the right to terminate the Agreement at its sole discretion, without liability and to deduct from the Agreement price, or otherwise recover, the full amount of such fee, commission, percentage, gift, or consideration.

8.0 **Assignment**

The Consultant shall not assign, transfer, or encumber this Agreement, or any interest herein, under any circumstances, without obtaining the prior written consent of the County, which consent may be withheld in the County's exercise of its reasonable discretion.

9.0 **Professional Associates and Subcontractors**

If the Consultant requires the assistance of any professional associates or subcontractors in connection with its providing the Services the Consultant must obtain the prior express written approval of the County, which the County may withhold in its discretion, before any such professional associate or subcontractor may perform any work for the County. If after obtaining the County's approval the Consultant utilizes any professional associates or subcontractors in the delivery of the Services then the Consultant shall remain solely and fully liable to the County for the performance or nonperformance of all such professional associates and subcontractors. The failure of a professional associate or subcontractor to timely or properly perform any of its obligations to the Consultant shall not relieve the Consultant of its obligations to the County under this Agreement.

10.0 **Indemnification of County**

Consultant, to the maximum extent permitted by law, shall indemnify, defend (by counsel reasonably acceptable to County) protect and hold the County, and its officers, employees and

agents harmless from and against any and all, claims, actions, causes of action, liabilities, penalties, forfeitures, damages, losses, and expenses (including, without limitation, attorneys' fees costs and expenses incurred during negotiation, through litigation and all appeals therefrom) whatsoever including, but not limited, to those pertaining to the death of or injury to any person, or damage to any property, arising out of or resulting from (i) the failure of Consultant to comply with applicable laws, rules or regulations, (ii) the breach by Consultant of its obligations under this Agreement, (iii) any claim for trademark, patent or copyright infringement arising out of the scope of Consultant's performance or nonperformance of this Agreement, or (iv) the negligent acts, errors or omissions, or intentional or willful misconduct, of Consultant, its professional associates, subcontractors, agents, and employees provided, however, that Consultant shall not be obligated to defend or indemnify the County with respect to any such claims or damages arising out of the County's sole negligence.

11.0 **Insurance Requirements**

The Consultant shall maintain at all times the following minimum levels of insurance and shall, without in any way altering its liability, obtain, pay for and maintain insurance for the coverage and amounts of coverage not less than those set forth below. The Consultant shall provide the County original Certificates of Insurance satisfactory to the County to evidence such coverage before any work commences. The County shall be named as an additional insured on General and Automobile Liability policies. General Liability and Workers' Compensation policies shall contain a waiver of subrogation in favor of Polk County. The commercial General Liability Policy shall (by endorsement if necessary) provide contractual liability coverage for the contractual indemnity stated in Section 10, above. All insurance coverage shall be written with a company having an A.M. Best rating of at least the "A" category and size category of VIII. The Consultant's self-insured retention or deductible per line of coverage shall not exceed $25,000 without the permission of the County. In the event of any failure by the Consultant to comply with the provisions of this Section 11, the County may, at its option, upon notice to the Consultant suspend Consultant's performance of the Services for cause until there is full compliance. Alternatively, the County may purchase such insurance at the Consultant's expense, provided that the County shall have no obligation to do so and if the County shall do so, the Consultant shall not be relieved of or excused from the obligation to obtain and maintain such insurance amounts and coverage.

Comprehensive Automobile Liability Insurance. $1,000,000.00 combined single limit of liability for bodily injuries, death and property damage resulting from any one occurrence, including all owned, hired, and non-owned vehicles.

Commercial General Liability. $1,000,000.00 combined single limit of liability for bodily injuries, death and property damage, and personal injury resulting from any one occurrence, including the following coverages:

Premises and Operations:

> Broad Form Commercial General Liability Endorsement to include Blanket Contractual liability (specifically covering, but not limited to, the contractual obligations assumed by the Firm); Personal Injury (with employment and contractual exclusions deleted); and Broad Form Property Damage coverage.

Independent Contractors:

> Delete Exclusion relative to collapse, explosion and underground; Property Damage Hazards; Cross Liability Endorsement; and Contractual liability (specifically covering, but not limited to, the contractual obligations assumed by the Firm)

Workers Compensation. The Consultant shall provide, pay for, and maintain workers compensation insurance on all employees, its agents or subcontractors as required by Florida Statutes.

Pollution Liability Insurance: $1,000,000 including pollution due to automobile operations.

Employer's Liability. $1,000,000.

12.0 **Public Entity Crimes**

The Contractor declares and warrants that neither the Contractor nor any of the Contractor's affiliates, as that term is defined in Section 287.133, Florida Statutes, are subject to the restrictions in Section 287.133, Florida Statutes, regarding the commission of a public entity crime. If during the term of this Agreement, the Contractor or any affiliate is convicted of a public entity crime or is otherwise prohibited from performing work for or transacting business with the County pursuant to Section 287.133, Florida Statutes, then the Contractor shall be in material

default of this Agreement, and in such case, the County shall have the rights and remedies as provided herein.

13.0 **Non-Discrimination**

The Consultant warrants and represents that all of its employees are treated equally during employment without regard to race, color, religion, gender, age or national origin.

14.0 **Designation of Party Representatives**

14.1 Upon receipt of a request from the Consultant, the County shall designate in writing one or more of its employees who are authorized to act by and on behalf of the County to transmit instructions, receive information and interpret and define the County's policy and decisions with respect to the Services to be provided pursuant to this Agreement.

14.2 The Consultant shall designate or appoint one or more Consultant representatives who are authorized to act on behalf of and to bind the Consultant regarding all matters involving the conduct of its performance pursuant to this Agreement.

15.0 **All Prior Agreements Superseded**

This document incorporates and includes all prior negotiations, correspondence, conversations, agreements or understandings applicable to the matters contained herein and the parties agree that there are no commitments, agreements or understandings concerning the subject matter of this Agreement that are not contained in this document or its designated exhibits. Accordingly, it is agreed that no deviation from the terms hereof shall be predicated upon any prior representations or agreements, whether oral or written.

16.0 **Modifications, Amendments or Alterations**

No modification, amendment or alteration in the terms or conditions contained herein shall be effective unless agreed to and executed in writing by both parties to this Agreement in a form acceptable to the County.

17.0 **Independent Contractor**

Nothing stated in this Agreement is intended or should be construed in any manner as creating or establishing a relationship of co-partners between the parties, or as constituting the Consultant (including its officers, employees, and agents) as the agent, representative, or employee of the County for any purpose, or in any manner, whatsoever. The Consultant is to be and shall remain forever an independent contractor with respect to all Services performed under this Agreement. The Consultant shall not pledge the County's credit or make the County a guarantor

of payment or surety for any contract, debt, obligation, judgment, lien or any form of indebtedness and the Consultant shall have no right to speak for or bind the County in any manner.

18.0 **Public Records Law**

(a) The Contractor acknowledges the County's obligations under Article I, Section 24, of the Florida Constitution and under Chapter 119, Florida Statutes, to release public records to members of the public upon request and comply in the handling of the materials created under this Agreement. The Contractor further acknowledges that the constitutional and statutory provisions control over the terms of this Agreement. In association with its performance pursuant to this Agreement, the Contractor shall not release or otherwise disclose the content of any documents or information that is specifically exempt from disclosure pursuant to all applicable laws.

(b) Without in any manner limiting the generality of the foregoing, to the extent applicable, the Contractor acknowledges its obligations to comply with Section 119.0701, Florida Statutes, with regard to public records, and shall:

(1) keep and maintain public records required by the County to perform the services required under this Agreement;

(2) upon request from the County's Custodian of Public Records or his/her designee, provide the County with a copy of the requested records or allow the records to be inspected or copied within a reasonable time at a cost that does not exceed the cost provided in Chapter 119, Florida Statutes, or as otherwise provided by law;

(3) ensure that public records that are exempt or confidential and exempt from public records disclosure requirements are not disclosed except as authorized by law for the duration of the term of this Agreement and following completion of this Agreement if the Contractor does not transfer the records to the County; and

(4) upon completion of this Agreement, transfer, at no cost, to the County all public records in possession of the Contractor or keep and maintain public records required by the County to perform the service. If the Contractor transfers all public records to the County upon completion of this Agreement, the Contractor shall destroy any duplicate public records that are exempt or confidential and exempt from public records disclosure requirements. If the Contractor keeps and maintains public records upon completion of this Agreement, the Contractor shall meet all applicable requirements for retaining public records. All records stored electronically must be provided to the County, upon request from the County's Custodian of Public Records, in a format that is compatible with the information technology systems of the County.

(c) **IF THE CONTRACTOR HAS QUESTIONS REGARDING THE APPLICATION OF CHAPTER 119, FLORIDA STATUTES, TO THE CONTRACTOR'S DUTY TO PROVIDE PUBLIC RECORDS RELATING TO THIS AGREEMENT, CONTACT THE COUNTY'S CUSTODIAN OF PUBLIC RECORDS AT:**

RECORDS MANAGEMENT LIAISON OFFICER
POLK COUNTY
330 WEST CHURCH ST.
BARTOW, FL 33830
TELEPHONE: (863) 534-7670
EMAIL: RMLO@POLK-COUNTY.NET

19.0 **Compliance with Laws and Regulations**

In providing all Services pursuant to this Agreement, the Consultant shall abide by all statutes, ordinances, rules, and regulations pertaining to or regulating the provisions of such Services, including those now in effect and hereafter adopted. Any violation of said statutes, ordinances, rules, or regulations shall constitute a material breach of this Agreement, and shall entitle the County to terminate this Agreement immediately upon delivery of written notice of termination to the Consultant.

20.0 **Governing Law and Venue**

This Agreement shall be governed in all respects by the laws of the State of Florida and any litigation with respect thereto shall be brought only in the courts of Polk County, Florida or in the United States District Court, Middle District of Florida, located in Hillsborough County, Florida. Each party shall be responsible for its own attorneys' fees and other legal costs and expenses.

21.0 **Notices**

Whenever either party desires to give notice unto the other, it must be given by written notice, delivered (i) in person, (ii) via registered or certified United States mail, postage prepaid with return receipt requested, or (iii) via nationally recognized overnight delivery service, and addressed to the party for whom it is intended at the place last specified by each party. The place for giving of notice shall remain such until it is changed by written notice delivered in compliance with the provisions of this Section 21. For the present, the parties designate the following as the respective places for giving of notice, to wit:

For County: Roads & Drainage Division
3000 Sheffield Road
Winter Haven, FL 33880

For Consultant: _____
_____
_____
Attention: _____

22.0 Severability

The invalidity, illegality, or unenforceability of any provision of this Agreement, or the occurrence of any event rendering any portion or provision of this Agreement void, shall in no way affect the validity or enforceability of any other portion or provision of the Agreement; any

void provision shall be deemed severed from the Agreement and the balance of the Agreement shall be construed and enforced as if the Agreement did not contain the particular portion or provision held to be void. The parties further agree to reform the Agreement to replace any stricken provision with a valid provision that comes as close as possible to the intent of the stricken provision. The provisions of this section shall not prevent the entire Agreement from being void should a provision which is of the essence of the Agreement be determined to be void.

23.0 Annual Appropriations

Consultant acknowledges that during any fiscal year the County shall not expend money, incur any liability, or enter into any agreement which by its terms involves the expenditure of money in excess of the amounts budgeted as available for expenditure during such fiscal year. Accordingly, any agreement, verbal or written, the County may make in violation of this fiscal limitation is null and void, and no money may be paid on such agreement. The County may enter into agreements whose duration exceeds one year; however, any such agreement shall be executory only for the value of the services to be rendered which the County agrees to pay as allocated in its annual budget for each succeeding fiscal year. Accordingly, the County's performance and obligation to pay the Consultant under this Agreement is contingent upon annual appropriations being made for that purpose.

24.0 Employment Eligibility Verification (E-VERIFY)

A. Unless otherwise defined herein, terms used in this Section which are defined in Section 448.095, Florida Statutes, as may be amended from time to time, shall have the meaning ascribed in said statute.

B. Pursuant to Section 448.095(5), Florida Statutes, the contractor hereto, and any subcontractor thereof, must register with and use the E-Verify system to verify the work authorization status of all new employees of the contractor or subcontractor. The contractor acknowledges and agrees that (i) the County and the contractor may not enter into this Agreement, and the contractor may not enter into any subcontracts hereunder, unless each party to this Agreement, and each party to any subcontracts hereunder, registers with and uses the E-Verify system; and (ii) use of the U.S. Department of Homeland Security's E-Verify System and compliance with all other terms of this Certification and Section 448.095, Fla. Stat., is an express condition of this Agreement, and the County may treat a failure to comply as a material breach of this Agreement.

C. By entering into this Agreement, the contractor becomes obligated to comply with the provisions of Section 448.095, Fla. Stat., "Employment Eligibility," as amended from time to time. This includes but is not limited to utilization of the E-Verify System to verify the work authorization status of all newly hired employees, and requiring all subcontractors to provide an affidavit attesting that the subcontractor does not employ, contract with, or subcontract with, an unauthorized alien. The contractor shall maintain a copy of such affidavit for the duration of this Agreement. Failure to comply will lead to termination of this Agreement, or if a subcontractor

knowingly violates the statute or Section 448.09(1), Fla. Stat., the subcontract must be terminated immediately. If this Agreement is terminated pursuant to Section 448.095, Fla. Stat., such termination is not a breach of contract and may not be considered as such. Any challenge to termination under this provision must be filed in the Tenth Judicial Circuit Court of Florida no later than 20 calendar days after the date of termination. If this Agreement is terminated for a violation of Section 448.095, Fla. Stat., by the contractor, the contractor may not be awarded a public contract for a period of 1 year after the date of termination. The contractor shall be liable for any additional costs incurred by the County as a result of the termination of this Agreement. Nothing in this Section shall be construed to allow intentional discrimination of any class protected by law.

25.0 Consultant Representations

25.1 The Consultant hereby represents and warrants the following to the County:

25.1.1 Consultant is a _____ corporation that is duly organized and existing in good standing under the laws of the State of _____ with full right and authority to do business within the State of Florida.

25.1.2 Consultant's performance under this Agreement will not violate or breach any contract or agreement to which the Consultant is a party or is otherwise bound, and will not violate any governmental statute, ordinance, rule, or regulation.

25.1.3 Consultant has the full right and authority to enter into this Agreement and to perform its obligations in accordance with its terms.

25.1.4 Consultant now has and will continue to maintain all licenses and approvals required to conduct its business, and that it will at all times conduct its business activities in a reputable manner.

25.1.5 Consultant has no obligation or indebtedness that would impair its ability to fulfill the terms of this Agreement.

25.1.6 Consultant has the personnel and experience necessary to perform all Services in a professional and workmanlike manner.

25.1.7 Consultant shall exercise the same degree of care, skill, and diligence in the performance of the Services as provided by a professional of like experience, knowledge and resources, under similar circumstances.

25.1.8 Consultant shall, at no additional cost to County, re-perform those Services which fail to satisfy the foregoing standard of care or which otherwise fail to meet the requirements of this Agreement.

25.1.9 Each individual executing this Agreement on behalf of the Consultant is authorized to do so.

26.0 Default and Remedy

If the Consultant materially defaults in its obligations under this Agreement and fails to cure the same within fifteen (15) days after the date the Consultant receives written notice of the default from the County, then the County shall have the right to (i) immediately terminate this Agreement by delivering written notice to the Consultant, and (ii) pursue any and all remedies available in law, equity, and under this Agreement. If the County materially defaults in its obligations under this Agreement and fails to cure the same within fifteen (15) days after the date the County receives written notice of the default from the Consultant, then the Consultant shall have the right to immediately terminate this Agreement by delivering written notice to the County. Upon any such termination, the County shall pay the Consultant the full amount due and owing for all Services performed through the date of Agreement termination.

27.0 Limitation of Liability

IN NO EVENT, SHALL THE COUNTY BE LIABLE TO THE CONSULTANT FOR INDIRECT, INCIDENTAL, CONSEQUENTIAL, SPECIAL, EXEMPLARY, OR PUNITIVE DAMAGES OF ANY KIND OR NATURE, INCLUDING LOSS OF PROFIT, WHETHER FORESEEABLE OR NOT, ARISING OUT OF OR RESULTING FROM THE NONPERFORMANCE OR BREACH OF THIS CONTRACT BY THE COUNTY WHETHER BASED IN CONTRACT, COMMON LAW, WARRANTY, TORT, STRICT LIABILITY, CONTRIBUTION, INDEMNITY OR OTHERWISE.

28.0 Waiver

A waiver by either County or Consultant of any breach of this Agreement shall not be binding upon the waiving party unless such waiver is in writing. In the event of a written waiver, such a waiver shall not affect the waiving party's rights with respect to any other or further breach of this Agreement. The making or acceptance of a payment by either party with the knowledge of the other party's existing default or breach of the Agreement shall not waive such default or breach, or any subsequent default or breach of this Agreement, and shall not be construed as doing so.

29.0 Attorneys' Fees and Costs

Each party shall be responsible for its own legal and attorneys' fees, costs and expenses incurred in connection with any dispute or any litigation arising out of, or relating to this

Agreement, including attorneys' fees, costs, and expenses incurred for any appellate or bankruptcy proceedings.

30.0 Force Majeure

Either party hereunder may be temporarily excused from performance if an Event of Force Majeure directly or indirectly causes its nonperformance. An "Event of Force Majeure" is defined as any event which results in the prevention or delay of performance by a party of its obligations under this Agreement and which is beyond the reasonable control of the nonperforming party. It includes, but is not limited to fire, flood, earthquakes, storms, lightning, epidemic, war, riot, civil disturbance, sabotage, and governmental actions. Neither party shall be excused from performance if non-performance is due to forces which are reasonably preventable, removable, or remediable and which the non-performing party could have, with the exercise of reasonable diligence, prevented, removed, or remedied prior to, during, or immediately after their occurrence. Within five (5) days after the occurrence of an Event of Force Majeure, the non-performing party shall deliver written notice to the other party describing the event in reasonably sufficient detail, along with proof of how the event has precluded the non-performing party from performing its obligations hereunder, and a good faith estimate as to the anticipated duration of the delay and the means and methods for correcting the delay. The non-performing party's obligations, so far as those obligations are affected by the Event of Force Majeure, shall be temporarily suspended during, but no longer than, the continuance of the Event of Force Majeure and for a reasonable time thereafter as may be required for the non-performing party to return to normal business operations. If excused from performing any obligations under this Agreement due to the occurrence of an Event of Force Majeure, the non-performing party shall promptly, diligently, and in good faith take all reasonable action required for it to be able to commence or resume performance of its obligations under this Agreement. During any such time period, the non-performing party shall keep the other party duly notified of all such actions required for it to be able to commence or resume performance of its obligations under this Agreement.

31.0 Key Personnel

The Consultant shall notify the County if any of the Consultant's Key Personnel (as defined, below) change during the Term of the Agreement. To the extent possible, the Consultant shall notify the County at least ten (10) days prior to any proposed change in its Key Personnel. At the County's request the Consultant shall remove without consequence to the County any of

the Consultant's contractors, sub-contractors, sub-consultants, agents or employees and replace the same with an appropriate substitute having the required skill and experience necessary to perform the Services. The County shall have the right to reject the Consultant's proposed changes in Key Personnel. The following individuals shall be considered "Key Personnel:"

Name: _____

Name: _____

Name: _____

Name: _____

32.0 Scrutinized Companies and Business Operations Certification; Termination.

A. Certification(s).

(i) By its execution of this Agreement, the Vendor hereby certifies to the County that the Vendor is not on the Scrutinized Companies that Boycott Israel List, created pursuant to Section 215.4725, Florida Statutes, nor is the Vendor engaged in a boycott of Israel, nor was the Vendor on such List or engaged in such a boycott at the time it submitted its bid, proposal, quote, or other form of offer, as applicable, to the County with respect to this Agreement.

(ii) Additionally, if the value of the goods or services acquired under this Agreement are greater than or equal to One Million Dollars ($1,000,000), then the Vendor further certifies to the County as follows:

(a) the Vendor is not on the Scrutinized Companies with Activities in Sudan List, created pursuant to Section 215.473, Florida Statutes; and

(b) the Vendor is not on the Scrutinized Companies with Activities in the Iran Petroleum Energy Sector List, created pursuant to Section 215.473, Florida Statutes; and

(c) the Vendor is not engaged in business operations (as that term is defined in Florida Statutes, Section 287.135) in Cuba or Syria; and

(d) the Vendor was not on any of the Lists referenced in this subsection A(ii), nor engaged in business operations in Cuba or Syria when it submitted its proposal to the County concerning the subject of this Agreement.

(iii) The Vendor hereby acknowledges that it is fully aware of the penalties that may be imposed upon the Vendor for submitting a false certification to the County regarding the foregoing matters.

B. Termination. In addition to any other termination rights stated herein, the County may immediately terminate this Agreement upon the occurrence of any of the following events:

(i) The Vendor is found to have submitted a false certification to the County with respect to any of the matters set forth in subsection A(i) above, or the Vendor is found to have been placed on the Scrutinized Companies that Boycott Israel List or is engaged in a boycott of Israel.

(ii) The Vendor is found to have submitted a false certification to the County with respect to any of the matters set forth in subsection A(ii) above, or the Vendor is found to have been placed on the Scrutinized Companies with Activities in Sudan List, or the Scrutinized Companies with Activities in the Iran Petroleum Energy Sector List, or has been engaged in business operations in Cuba or Syria, and the value of the goods or services acquired under this Agreement are greater than or equal to One Million Dollars ($1,000,000).

33. No Construction Against Drafter

The Parties acknowledge that this Agreement and all the terms and conditions contained herein have been fully reviewed and negotiated by the Parties. Accordingly, any rule of construction to the effect that ambiguities are to be resolved against the drafting party shall not apply in interpreting this Agreement.

34. Unauthorized Alien(s)

The Consultant shall not employ or utilize unauthorized aliens in the performance of the Services provided pursuant to this Agreement. The County shall consider the employment or utilization of unauthorized aliens a violation of Section 274A(e) of the Immigration and Naturalization Act (8 U.S.C. 1324a) and a cause for the County's unilateral termination of this Agreement. When delivering executed counterparts of this Agreement to the County, the Consultant shall also deliver a completed and executed counterpart of the attached "AFFIDAVIT CERTIFICATION IMMIGRATION LAWS" form.

**(THE REMAINDER OF THE PAGE IS LEFT INTENTIONALLY BLANK;
THE AGREEMENT CONTINUES ON THE FOLLOWING PAGE
WITH THE PARTIES SIGNATURES.)**

IN WITNESS WHEREOF, the parties hereto have executed this Agreement as of the Effective Date.

***For items not listed, the County will only pay FEMA approved rates**
****Hourly rates cannot exceed FEMA approved rates**

DAP9523.11

FEMA
DISASTER ASSISTANCE POLICY

I. TITLE: Hazardous Stump Extraction and Removal Eligibility

II. DATE: MAY 15 2007

III. PURPOSE:

Establish criteria used to reimburse applicants for removing eligible hazardous stumps from public or, where authorized, private property.

IV. SCOPE AND AUDIENCE:

The policy is applicable to all major disasters and emergencies declared on or after the date of publication. It is intended for all personnel involved in the administration and execution of the Public Assistance Program, including applicants.

V. AUTHORITY:

Sections 403 and 407 of the Robert T. Stafford Disaster Relief and Emergency Assistance Act, 42 U.S.C. 5121-5206, as amended.

VI. BACKGROUND:

Public Assistance regulations authorize reimbursement for the removal of debris from public and private land when it is in the public interest. Such removal is in the public interest when it is necessary to: eliminate immediate threats to life, public health and safety, or eliminate immediate threats of significant damage to improved public or private property; or to ensure economic recovery of the affected community to the benefit of the community at large. Trees that are uprooted during a disaster event such that all or part of their roots are exposed may pose an immediate threat to public health and safety.

VII. POLICY:

A. When a disaster event uproots a tree or stump (i.e., 50% or more of root ball is exposed) on a public right-of-way, improved public property or improved property owned by certain private nonprofit organizations, and the exposed root ball poses an immediate threat to life, public health and safety, FEMA may provide supplemental assistance to remove, transport, dispose, and provide fill for the root cavity of an eligible uprooted tree or stump. The Federal Emergency Management Agency (FEMA) will reimburse applicants reasonable costs for this type of work only when uprooted stumps are more than 24 inches in diameter (measured two feet from the ground), with the consensus of the Applicant and the State, and is approved in

advance by FEMA, using the attached Hazardous Stump Worksheet.

1. If it is necessary to remove an uprooted stump before it can be inspected by FEMA because it poses a threat that must be dealt with immediately, the applicant must submit documentation, to FEMA including photographs, that establishes its location on public property, specifics on the threat, stump diameter measured two feet up the trunk from the ground, quantity of material to fill the hole, and any special circumstances.

2. FEMA will reimburse applicants for extraction, transport and disposal of stumps with a diameter of 24 inches or smaller at the unit cost rate for regular vegetative debris, using the attached Stump Conversion Table, as such stumps do not require special equipment.

3. FEMA will reimburse applicants at the unit cost rate (usually cubic yards) for normal debris removal for all stumps, regardless of size, placed on the rights-of-way by others (i.e., contractors did not extract them from public property or property of eligible Private Non Profit organization). In such instances, applicants do not incur additional cost to remove these stumps because the same equipment that is used to pick up "regular" debris can be used to pick-up these stumps.

4. If an applicant incurs additional costs in picking up large stumps (over 24 inches in diameter) from rights-of-way, it should complete the Hazardous Stump Worksheet and present documentation to FEMA in advance for consideration.

5. Stumps with less than 50% of their root ball exposed should be cut flush at ground level and the cut portion included with regular vegetative debris.

6. Straightening or bracing of trees is eligible for reimbursement if it is less costly than removal and disposal. Applicant must provide a cost analysis showing cost effectiveness.

VIII. ORIGINATING OFFICE: Disaster Assistance Directorate (Public Assistance Division)

IX. SUPERSESSION: This policy supersedes Recovery Policy Number 9523.11, Hazard Stump Removal and Extraction Eligibility dated May 6, 2006.

X. REVIEW DATE: Three years from the date of publication.

David Garratt
Acting Assistant Administrator
Disaster Assistance Directorate

Stump Conversion Table

Diameter to Volume Capacity

The quantification of the cubic yards of debris for each size of stump in the following table was derived from FEMA field studies conducted throughout the State of Florida during the debris removal operations following Hurricanes Charley, Frances, Ivan and Jeanne. The following formula is used to derive cubic yards:

$$\frac{[(\text{Stump Diameter}^2 \times 0.7854) \times \text{Stump Length}] + [(\text{Root Ball Diameter}^2 \times 0.7854) \times \text{Root Ball Height}]}{46656}$$

0.7854 is one-fourth Pi and is a constant.
46656 is used to convert cubic inches to cubic yards and is a constant

The formula used to calculate the cubic yardage used the following factors, based upon findings in the field:

- Stump diameter measured two feet up from ground
- Stump diameter to root ball diameter ratio of 1:3.6
- Root ball height of 31"

Stump Diameter (Inches)	Debris Volume (Cubic Yards)	Stump Diameter (Inches)	Debris Volume (Cubic Yards)
6	0.3	46	15.2
7	0.4	47	15.8

EVENT PERFORMANCE BOND

PERFORMANCE BOND

KNOW ALL MEN BY THESE PRESENTS: That _____, as Principal, and _____ as Surety, located at _____ (Business Address) are held and firmly bound unto Polk County, a political subdivision of the State of Florida, as Obligee, in the sum of Dollars ($_____) in lawful currency of the United States, for the payment whereof we bind ourselves, successors, and assigns, jointly and severally, firmly by these presents.

THE CONDITION OF THIS BOND is that if the Principal:

Promptly, faithfully, efficiently and fully performs all work, services, duties and obligations set forth and described in that certain purchase order dated _____, 20__ (the "Purchase Order") between Principal and Obligee for performance of debris removal at any County location arising from damage caused by a disaster event, at the times and in the manner prescribed in the Purchase Order; and

Pays Obligee all losses, damages (liquidated or actual), expenses, costs, and attorney's fees, including, without limitation, costs and attorney's fees on appeal, that Obligee sustains resulting directly or indirectly from any breach or default by Principal under the Purchase Order; and

Performs the guarantee of all work and materials furnished under the Purchase Order for the time specified therein; and

Satisfies all claims and demands incurred under the Purchase Order, and fully indemnifies and holds harmless the Obligee from all costs and damages which it may suffer by reason or failure to do so;

then the Surety shall have no obligation under this Performance Bond.

In the event that the Principal shall fail to perform any of the terms, covenants and conditions of the Purchase Order during the period in which this Performance Bond is in effect, the Surety shall remain liable to the Obligee for all such loss or damage (including reasonable attorney's fees and costs and attorney's fees on appeal) resulting from any failure to perform up to the amount of the sum stated above.

In the event that the Surety fails to fulfill its obligations under this Performance Bond, then the Surety shall also indemnify and hold the Obligee harmless from any and all loss, damage, cost and expense, including reasonable attorney's fees and costs for all trial and appellate proceedings, resulting directly or indirectly from the Surety's failure to fulfill its obligations hereunder. This paragraph shall survive the termination or cancellation of this Performance Bond.

The Surety, for value received, hereby stipulates and agrees that its obligations hereunder shall be direct and immediate and not conditional or contingent upon the Obligee's pursuit of its remedies against Principal, shall remain in full force and effect notwithstanding (i) amendments or modifications to the Purchase Order entered into by Obligee and Principal without the Surety's knowledge or consent (ii) waivers of compliance with or any default under the Purchase Order granted by Obligee to Principal without the Surety's knowledge or consent, or (iii) the discharge of Principal from its obligations under the Purchase Order as a result of any proceeding initiated under the Bankruptcy code of 1978, as the same may be amended, or any similar state or federal law, or any limitation of the liability or Principal or its estate as a result of any proceeding.

Any changes in or under the Purchase Order and compliance or non-compliance with any formalities connected with the Purchase Order or the changes shall not affect Surety's obligation under this Performance Bond. The Principal shall notify the Surety of all such changes.

Reference is hereby made to Section 255.05, Florida Statutes, and to the notice and time limitation provisions thereof.

IN WITNESS WHEREOF, this instrument is executed this _____ day of _____, 20__.

RFP 26-012, Disaster Debris Monitoring Services
Addendum # 4

Question 1: If this is a term contract subject to renewal, what is the maximum number of option periods?

Answer 1: The term is 5 years from the effective date of the agreement.

Question 2: Has the current contract gone full term?

Answer 2: The current agreements were set to expire on February 15, 2026, but have been extended and will remain in place until the new agreements are in effect.

Question 3: Have all options to extend the current contract been exercised?

Answer 3: Yes.

Question 4: Who is the incumbent, and how long has the incumbent been providing the requested services?

Answer 4: The current incumbents are Tetra Tech, Inc. as the primary and Thompson Consulting Services, LLC as the secondary. These agreements have been in place since February 16, 2021.

Question 5: What is the maximum number of hours post-event before work must commence?

Answer 5: Staff is communicating 24 to 48 hours before impact. Successful vendors are expected to mobilize as soon as the storm has passed, and the weather conditions are safe to drive in.

Question 6: Are any specific professional credentials required to qualify for the contract?

Answer 6: The vendor must demonstrate significant professional expertise in hurricane response, mitigation, and recovery services including proven experience working in post – storm environments.

Question 7: Will the resulting contract include a guaranteed minimum payment to the vendor?

Answer 7: Yes.

Question 8: Are there any superseding prior agreements that may impact this contract?

Answer 8: No.

Question 9: When/what was the most recent event that precipitated the activation of the existing or previous contract?

Answer 9: Hurricane Milton 2024

Question 10:	Approximately how many cubic yards of debris were collected from the most recent event?
Answer 10:	1 million (Vegetative & C&D)
Question 11:	What estimated or actual dollars were paid to the incumbent(s) after the most recent event?
Answer 11:	Estimated 5.5 Million
Question 12:	How many times have the incumbent's services been utilized in the previous five years?
Answer 12:	The incumbent's services were utilized twice for two different hurricanes and yearly for truck / equipment certification.
Question 13:	If there was a previous solicitation for these services, what was its title, number, release date, and due date?
Answer 13:	RFP 20-299, Disaster Debris Monitoring Services, Released September 3, 2020, and opened October 14, 2020.
Question 14:	When is the anticipated contract start date?
Answer 14:	The agreement is anticipated to be executed in April or May 2026.
Question 15:	Can you please provide greater explanation of your expectations related to any required subcontracting to minority-owned, women-owned, or other types or categories of small or disadvantaged businesses? For example, what is required with the proposal, and what is required to comply during the term of the contract?
Answer 15:	No expectations are applicable with FEMA Funds.
Question 16:	Are bidders permitted to deviate in any way from any manner of quoting fees you may be expecting? For example, if there is a pricing page in the RFP, can bidders submit an alternate fee structure? If there is no pricing page in the RFP, do you have any preference for how bidders should quote fees or can bidders create their own pricing categories?
Answer 16:	No, Proposers must use the pricing sheet provided in the RFP. Negotiations on alternate pricing may be made at Level 4 of the Elevation.
Question 17:	Please describe your level of satisfaction with your current or recent vendor(s) for the same purchasing activity, if applicable?
Answer 17:	Polk County was satisfied with the current vendor.

Question 18:	Is their a preferred Proposal delivery method, electronic or sealed parcel?
Answer 18:	Electronic
Question 19:	Can the County confirm forms to be returned are: RFP Registration Proposers Incorporation Information Drug Free Workplace Performance Survey Questionnaires Affidavit Certification Immigration Laws Employment Eligibility Verification (E-Verify) Certification Exhibit A: Certification Regarding Debarment, Suspension, Proposed Debarment, and Other Responsibility Matters Exhibit B: Appendix A, 44 C.F.R. Part 18 – Certification Regarding Lobbying Attachment A (Cooperative agreement for Polk County public agencies) Attachment B: Compensation Schedule
Answer 19:	Yes, all documents listed above, as well as any information requested in each tab, and signature acknowledgement of all addenda issued.
Question 20:	Could the County please confirm where the completed Questionnaire (Exhibit 1) for Tab 5 – Surveys of Past Performance should be sent for RFP 26-012? Should past clients email the completed surveys directly to Polk County, and if so, to which email address? Or should they return them to the vendor for inclusion in our proposal package?
Answer 20:	Please see RFP Package, Preparing the Surveys, page 40. The firm is responsible for ensuring all references/surveys are included in their submittal, and do not have references email Polk County Procurement directly.
Question 21:	Could the County please confirm whether vendors are permitted to include an appendix with additional or supporting information? Specifically, we would like to know if an appendix may be used to provide supplemental details that further explain the firm's experience and qualifications, without conflicting with the page limitations outlined in the Submittal Requirements?
Answer 21:	Please submit only the materials requested in the RFP package. Firms selected for interviews will have the opportunity to provide additional details regarding their experience, qualifications, and related information.

Question 22:	Would the County consider extending the page limit for these sections, as doing so would allow vendors to provide information that may better support the County's evaluation and understanding of each firm's capabilities?
Answer 22:	Not at this time
Question 23:	The RFP uses the phrase 'one page, single or double sided' throughout the proposal that specifies page limits. Could the County please clarify whether this means one physical sheet of paper (allowing content on both sides), or if the County intends this to be a strict one-page limit regardless of printing orientation?
Answer 23:	One page, single- or double-sided, means a single physical sheet.
Question 24:	On Page 11 - Tab 2 and Tab 3 request the same information about Organization Staff Chart & Staff Experience, but on (page 15 RFP) under Evaluation Level 2 under bullet point APPROACH and METHODOLOGY suggests TAB 3 is required for this and measured for 40 points?
Answer 24:	See Revision 1 below.
Question 25:	Is there a firm currently providing these same services for Polk County? If so, who is the incumbent?
Answer 25:	AshBritt
Question 26:	If there is an incumbent providing these services, are they eligible to respond to the current RFP?
Answer 26:	Yes.
Question 27:	Were the services provided by the incumbent and how would you rate them?
Answer 27:	Yes, incumbent was satisfactory.
Question 28:	How many times has Polk County activated the contract within the last 5 years?
Answer 28:	2
Answer 29:	Can you please advise if a debris monitoring firm is already under contract to perform debris monitoring services for the county? If so, can you please identify the firm?
Answer 29:	Tetra Tech

Question 30: Can you please advise if a performance bond will be required for debris monitoring firms because Attachment D speaks to debris removal, not monitoring. See language below from Attachment D?

Answer 30: Event Performance Bond is required, language will be changed to "Debris Monitoring."

Revision 1

RFP Package, Elevation Level 2, page 15:

Elevation Level 2 (Selection Committee Evaluation)

Procurement shall score each Proposal on the following evaluation criteria:

- Compensation Schedule (Tab 4) - 10 points
- Surveys of Past Performance (Tab 5) - 10 points

Subtotal Points-20 Points

by the process stated under each corresponding Tab description

Each Selection Committee member shall score each Proposal on the following evaluation criteria:

- Experience and Expertise (Tap 2)- 40 points
- **Resources and Availability** (Tab 3)- 40 points

Subtotal Points-80 points

by the following process:

Each Selection Committee member shall determine which of the following descriptions applies to each of the foregoing evaluation criteria:

Question 1: Are proposers permitted to input zero-dollar ($0.00) rates for certain roles on *Attachment B: Compensation Schedule*?

Answer 1: No, Proposers may not list $0.00 rates for required labor categories. All positions identified in Attachment B must include a reasonable fully burdened rate. Please see the FTP Site for "**RFP 26-012, Addendum 6 - Revised Attachment B**", some labor categories have been removed.

Question 2: Should the use of an ADMS electronic ticketing system be incorporated into the pricing structure on *Attachment B: Compensation Schedule*?

Answer 2: Yes, if a proposer intends to utilize an ADMS electronic ticketing system, they should incorporate all costs associated with the use of the system into their pricing and shall be fully burdened into the hourly rates for the applicable debris monitoring positions provided on Attachment B: Compensation Schedule.\

Question 3: The manual process of filling out load tickets can jeopardize proper FEMA reimbursement if human error occurs. Utilizing electronic load tickets, computer tablets, and systems employing electronic contractor IDs with an Automated Debris Management System (ADMS) has become the industry standard and is critical for any successful debris operation. Because of the factors listed, we would like to confirm that any charges for the use of an ADMS are to be fully burdened in the proposed debris monitoring positions hourly rates provided and not as a separate hourly rate or separate position, separate flat rate, or substitutional charge for any listed position?

Answer 3: See answer for Question 2 above.

Revision

RFP Package, Tab 4 – page 13-14

Tab 4, Compensation Schedule (10 Points)

Proposers shall complete the compensation schedule included as Attachment B. For items not listed, the County will only pay the FEMA rates.

The unit pricing may be increased by the Procurement Director, or designee, after the contract has been in place for a minimum of 12 months, when it is in the best interest of the County. Increases will be determined by the appropriate price index as approved by the Procurement Director or Designee; however, the hourly rates cannot exceed the FEMA approved rates. No Board action will be necessary for unit price increases.

The Proposer with the lowest total cost will be allocated 10 points. Each additional Proposers cost point allocation will be calculated based upon their relative cost difference from the lowest Proposers cost.

RE: REQUEST FOR PROPOSAL NO. 26-012 – DISASTER DEBRIS MONITORING SERVICES

Dear Members of the Selection Committee,

Thompson Consulting Services, LLC (Thompson) is pleased to submit the enclosed proposal to provide Polk County, Florida (County) with professional disaster debris monitoring services. Thompson is a full-service emergency management planning, response, disaster recovery and grant management consultancy. Our consultants have over 75 years of combined experience in supporting local and state agencies in response to hurricanes, tornados, floods, ice storms, wildfires, earthquakes, rockslides, oil spills and other natural disasters. Our approach to providing disaster response, assessment, and recovery services maintains a primary focus on the efficient and effective utilization of resources while assisting our clients with navigating the funding channels of the Federal Emergency Management Agency's (FEMA) Public Assistance (PA) program as well as other post-disaster grant programs. We believe Thompson is best suited to assist the County for the following reasons:

POST-DISASTER DEBRIS REMOVAL MANAGEMENT & FEMA FUNDING EXPERIENCE: Thompson's experience with post-disaster debris removal monitoring and management services spans three decades and accounts for the administration of more than $5.5 billion of debris removal funding on behalf of more than 400 local and state government agencies. Thompson's consultants are amongst the most educated, qualified, and dynamic in the industry, having responded to some of the most devastating incidents to impact the United States, many resulting in large-scale, multi-program debris removal monitoring operations. This experience means the County can rest assured that its disaster reimbursement is in the hands of the industry's most qualified professionals.

COUNTY & FLORIDA EXPERIENCE: Thompson has served as a secondary stand-by debris monitoring services provider on behalf of the County since 2021. During this time, we have maintained operational readiness in the event that the County needs support services. Additionally, Thompson's consultants have responded to disaster incidents in the State of Florida since Hurricane Charlie in 2004. Over the last seven years, Thompson has provided debris removal monitoring and grant consulting services to 82 unique Florida clients following Hurricane Matthew in 2016, Hurricane Irma in 2017, Hurricane Michael in 2018, Hurricane Sally in 2020, Hurricane Ian in 2022, and Hurricane Milton in 2024. We are well positioned to work closely with the County, the Florida Division of Emergency Management (FDEM), Florida Department of Transportation and the Florida Department of Environmental Quality to implement a compliant and efficient debris monitoring and recovery services program.

DELIVERY EFFICIENCY & AUTOMATED DEBRIS MANAGEMENT SYSTEM: Thompson's debris removal monitoring experience includes documentation of over 165 million cubic yards of debris. We have consistently demonstrated Thompson's delivery efficiency using our *automated debris management system* (ADMS), the Thompson Data Management Suite (TDMS). TDMS is used to electronically capture data in the field and supports accurate and timely reporting. TDMS significantly reduces the quantity of hours required to perform equivalent services by competitors with "lower" hourly rates. Additionally, Thompson offers expanded *geospatial services* through geographic information system (GIS) resources and

capabilities to enhance program management. This includes advanced gathering, managing, and analyzing data to provide spatial location information such as project boundaries and roadway maintenance responsibility designations, progress mapping and customized dashboards. Thompson also utilizes 2D/3D aerial imagery and AI modeling to provide geospatial intelligence to better understand post disaster impacts and recovery needs.

ABILITY & EXPERIENCE OF PROFESSIONAL PERSONNEL: Thompson provides the County with professional engineers and consultants that have experience with developing programs to address any of the following disaster recovery programs that may be required following a disaster event:

- Right-of-way (ROW) debris removal
- Right-of-way leaning tree and hanging limb removal (leaner/hanger)
- Parks, beaches, and waterways cleanup
- Private property debris removal (PPDR)
- Right-of-entry (ROE) administration
- Demolition program management
- Vehicle/vessel recovery
- White goods removal and decommissioning

ABILITY TO QUICKLY RESPOND: Thompson has personnel and resources on stand-by should a debris generating incident occur. With 26 corporate and branch offices across the United States including a corporate office in the City of Maitland, we will be able to deploy staff and resources within 24 hours of receiving a notice to proceed. Thompson is set-up to quickly adapt to the uncertain and changing needs of the County and understands that this ability to rapidly respond to the County is of paramount importance.

LOCAL PREFERENCE FOR HIRING MONITORS: It is Thompson's intent to fill temporary debris monitoring positions with County residents in need of work. Thompson will provide qualified residents with safety training and job training with experienced debris monitoring supervisors. We will make sure that all local hires are thoroughly and properly trained prior to being deployed to monitor a debris removal crew. This effort will help residents participate in the County's recovery efforts with a meaningful impact and earn a competitive hourly wage.

POINTS OF CONTACT: Jon Hoyle, President, and Nate Counsell, Executive Vice President of Thompson are authorized corporate officers of the Firm and will serve as direct points of contacts to the County for all inquiries related to this submittal as well as throughout the evaluation process.

Thompson has the experience and resources necessary to be responsive to the County's disaster debris monitoring services needs following a disaster incident. We stand prepared to guide the County through the debris removal and recovery process while working with FDEM and the FEMA Public Assistance program to achieve maximum disaster recovery cost reimbursement for the County. *Thompson understands terms, conditions, and pricing may be used by any public agency located in Polk County, and Attachment A has been provided within Tab 6*. We would be honored to serve as your disaster debris monitoring services provider and stand prepared to exceed the service expectations that the County has established.

Best regards,
THOMPSON CONSULTING SERVICES, LLC

Experience & Expertise

Firm Overview & Organization

Thompson Consulting Services, LLC is organized as a subsidiary of Thompson Holdings, Inc. (Thompson) which also includes affiliate companies Thompson Engineering, Inc. and Watermark Design Group. Thompson offers an array of services through our family of companies, from specializing in debris response and recovery services, grant application and development, infrastructure, and housing mitigation; to full service engineering, environmental consulting, surveying, and construction support services; and a full complement of architectural, planning and interior design services.

THOMPSON FAMILY OF COMPANIES

thompson CONSULTING SERVICES

thompson ENGINEERING

watermark DESIGN

What began as a small company doing basic soils and materials testing in Mobile, Alabama has since grown into a national corporation with corporate and branch offices throughout the southeastern United States. Our ongoing success, strong growth, consistent project delivery and commitment to 100% client satisfaction can be traced back to when our founder, Vester J. Thompson, established the high standards that lay the foundation of our work ethic. These standards of excellence in workmanship; innovative solutions; timely, responsive service; and cost effectiveness are still upheld today.

As a 100% employee-owned company with more than 650 personnel spanning 26 corporate and branch offices throughout the United States, Thompson maintains a universal commitment to excellence in workmanship, innovative solutions, timely responsive service, and cost effectiveness. These standards are the foundation for Thompson's excellence in project quality and delivery. Thompson's staff has a vested interest in providing safe, quality driven, successful projects that are completed on time and within budget.

Thompson Consulting Services will serve as the contracting entity for the services requested by Polk County, Florida (County).

Years of Experience

Thompson was founded in 1953 and has supported various local, state, and federal entities, including the United States Army Corps of Engineers (USACE), throughout the Nation conduct monitoring, QA/QC, and inspection services for a variety of engineering, construction, environmental and disaster recovery projects. In 2011, Thompson Consulting Services, LLC was formed to focus solely on disaster preparedness, response, and recovery service offerings. Thompson brings over 72 years of experience to the County through our family of companies and personnel.

Office Locations

With 26 corporate and satellite offices scattered throughout the Southeast United States, Thompson has the resources and capabilities to support the County's debris monitoring needs from near and afar. The County's contract will be serviced from Thompson's corporate office in Maitland, Florida. In addition, Thompson is experienced and capable of establishing a field office within the County should the need arise. ***A complete list of office locations has been provided in Tab 3, Resources & Availability.***

Disaster Response Experience

Thompson has provided disaster response and recovery services to over 400 federal, state, and local government entities in planning for and responding to a variety of disaster incidents, such as hurricanes, tornados, floods, ice storms, wildfires, earthquakes, oil spills and other natural disasters. Our emergency response and disaster recovery consultants have over 75 years of combined experience and have responded to some of the most devastating incidents to impact the United States in the last two decades. This work has resulted in the documentation of over 165 million cubic yards of debris and our clients successfully applying for and retaining more than $5.5 billion of federal grant funding.

Our approach to providing disaster response and recovery services to the County maintains a primary focus on the efficient and effective utilization of available resources while assisting the County in navigating the funding and compliance channels of the Florida Division of Emergency Management (FDEM) and the Federal Emergency Management Agency (FEMA) Public Assistance (PA) Program.

Thompson's consultants have performed debris monitoring and grant administration services for over 70 Federal Emergency Management Agency (FEMA) and Federal Highway Administration (FHWA) reimbursable federally declared disasters and emergencies. A summary of our experience is provided in the table below and a comprehensive staff experience matrix shall be provided upon request.

Table 2-1: Grant Programs and Funding Administered by Disaster

Disaster	Year	Grant Funds Administered	Disaster	Year	Grant Funds Administered
California Wildfires (FEMA DR-4856)	2025	TBD	Hurricane Harvey (FEMA DR-4332)	2017	$20,000,000

Hurricane Maria (FEMA DR-4339)	2017	$44,600,000	Hurricane Frances (FEMA DR-1545)	2004	$5,000,000
Hurricane Irma (FEMA DR-4337, 4338)	2017	$100,000,000	Hurricane Charley (FEMA DR-1539)	2004	$97,085,850

Thompson's clients benefit from our long and consistent history in providing disaster response and recovery services through the incorporation of program management best practices gained over the years and understanding of current federal disaster recovery guidelines and procedures.

Successful Reimbursement Assistance

5.5+ billion in federal grant funding

Thompson's clients benefit from our long and consistent history in providing disaster response and recovery services. Our proposed team has assisted some of the largest government agencies impacted by natural disasters to recover and retain FEMA Public Assistance grant funding for debris removal, force account operations and complex infrastructure repair, replacement, and mitigation projects. Our past work includes but is not limited to the following projects:

- 2024 – Hurricane Helene & Milton: $476M Reimbursement | 58 clients – GA, SC, FL, NC & TN
- 2023 – Wildfire Support New Mexico: $239M Reimbursement | 3 clients – NM
- 2022 – Hurricane Ian & Tropical Storm Nicole: $149M Reimbursement | 4 clients – FL
- 2020 – Hurricanes Laura, Sally & Zeta: $160M Reimbursement | 4 clients – AL, FL & LA
- 2016 & 2017 – Hurricane Matthew & Irma: $100M Reimbursement | 6 clients – FL

Thompson is proud to have a 100% success rate with adhering to FEMA Public Assistance regulations. Thompson does not have any closed, active, or pending FEMA disputes, audits, or lawsuits. In addition, Thompson is not aware of any denials for eligible service/work items performed for our clients.

United States Army Corp of Engineers (USACE) Experience

As one of three firms with a USACE ACI validated automated debris management systems (ADMS), Thompson is a leading provider of debris removal monitoring for USACE recovery missions. Over the last five years Thompson has been activated to support the USACE following 6 unique disaster events accounting for over 35 task order assignments throughout Georgia, Hawaii, Kentucky, North Carolina, Tennessee, and California resulting in the removal of over 6.5 million cubic yards and 408,000 tons of debris. This project experience includes performing recovery services on behalf of USACE following the catastrophic wildfires in Lahaina on the Island of Maui in 2023, the devastating tornados that impacted the City of Mayfield and Graves County, Kentucky in 2021, Hurricane Helene recovery missions across North Carolina in 2024, as well as the widespread and damaging California wildfires in 2025.

State of Florida & Polk County Experience

extensive Florida experience

Thompson's consultants have responded to disaster incidents in Florida since Hurricane Charlie in 2004. Recently, Thompson has provided debris removal monitoring and grant consulting services to Florida clients following Hurricanes Matthew in 2016, Irma in 2017, Michael in 2018, Sally in 2020, Ian in 2022, and Debby, Helene, and Milton in 2024. Thompson has responded to 8 federally declared disaster incidents in the State of Florida and supported over 82 local and state clients in monitoring and documenting over 46 million cubic yards of disaster debris.

Clients across the Nation continue to choose Thompson as their disaster recovery and debris monitoring services provider year after year. Many of our Florida clients have retained Thompson's FEMA public assistance consulting and debris monitoring services for 12 years or more spanning multiple competitive procurements.

In addition, Thompson has served as Polk County's secondary debris monitoring services provider since 2022. We have a unique understanding of the County's infrastructure, personnel, departments, and potential operational challenges following a disaster event. We are well positioned to continue working closely with the County, the Florida Division of Emergency Management, Florida Department of Transportation and the Florida Department of Environmental Quality to implement a compliant and efficient disaster debris removal monitoring program.

Select Project History

The following select five (5) project examples highlight our experience and capabilities performing similar services to the scope of work requested by the County and include several recent examples that demonstrate our experience and ability to guide local governments to meet the FEMA Public Assistance Program eligibility requirements for debris removal and monitoring.

In addition, many of these projects provide evidence of our ability to perform damage assessment, right-of-way monitoring, hazardous leaner/hanger removal, private property debris removal (PPDR), disposal site monitoring, solid and hazardous waste management, and FEMA reimbursement. Thompson's key proposed staff have assisted all of the clients provided below following disaster events. ***As requested, completed Survey Questionnaire Forms for the projects/clients listed below have been provided in Tab 5.***

Thompson's experience includes the documentation of over 165M cubic yards of debris and over 48 individual projects resulting in the removal over 1M cubic yards of debris using our U.S. Army Corps of Engineers (USACE) Advanced Contracting Initiative certified automated debris management system (ADMS), the Thompson Data Management Suite (TDMS). TDMS has been deployed by Thompson on nearly every FEMA eligible disaster debris removal monitoring project that we have performed since 2012 and was re-validated by the U.S. Army Corps of Engineers (USACE) Advanced Contracting Initiative in 2023. Thompson encourages the County to fully vet proposer's experience, ability to respond, and advancements in disaster recovery technologies during the evaluation process.

Cost of Services: $ 14,600,000
Temporary DMS Sites: 51

Thompson has served as the County's on-call disaster debris removal monitoring services provider since 2013. During this time, Thompson has supported the County in administering complex and large-scale recovery programs including right-of-way debris removal monitoring, waterway clean-up efforts, vessel identification and removal projects, hazardous tree and limb work, as well as special debris removal programs throughout County maintained facilities and parks.

2024 Hurricanes Helene & Milton: The State of Florida was severely impacted by back-to-back Hurricanes Helene and Milton in 2024 which produced a large amount of damage and debris. Thompson assisted the County in their recovery efforts which included programs such as right-of-way debris removal, hazardous and hanging limbs and tree removal, as well as debris removal from County parks, and sand remediation/sifting projects. Thompson monitored the removal of over 587,200 cubic yards of debris and over 660 units of e-waste and white goods throughout the County resulting from the disaster events. This included monitoring debris disposal at eleven (11) active debris management sites and staffing over 120 temporary field staff.

2022 Hurricane Ian: Hurricane Ian was one of the deadliest hurricanes to impact the State of Florida and caused widespread flooding and extensive damage. Lee County was greatly impacted due to storm surge and high winds causing large amounts of debris and infrastructure damage. Thompson was once again called upon by the County to provide debris removal monitoring and recovery services and was able to respond immediately. Thompson assisted the County perform right-of-way debris and hazardous/hanging limbs and tree removal, waterway and vessel removal operations, and removal efforts throughout County maintained parks and facilities. Thus far, Thompson has substantiated the removal of over 8,580,000 cubic yards of debris, approximately 22,700 units of white goods and e-waste, and over 45,000 hazardous limbs and trees throughout the County.

2017 Hurricane Irma: As Lee County braced for the potential impact of Hurricane Irma, the strongest Atlantic basin hurricane ever recorded, they activated Thompson's contract for debris removal monitoring services, and Thompson prepared to deploy a response team to the County immediately following the passage of Hurricane Irma. Hurricane Irma made a secondary U.S. landfall just South of Lee County, however still passed through the County as a strong devastating storm. Hurricane Irma left property damage, flooding from rainfall, and downed trees and power lines throughout the County.

Thompson began operations immediately upon receiving a notice to proceed and working closely with the County's debris removal contractor to quickly begin debris removal operations. Thompson monitored the removal of over 2,356,000 cubic yards of debris from County ROW, and performed special debris removal programs including commercial, parks, and utilities ROW removal monitoring. Thomson also monitored the removal of over 70,000 hazardous limbs, and 4,000 trees throughout the County. In addition, Thompson substantiated the removal of nearly 10,000 CY of vegetation from County waterways.

Temporary DMS Sites: 6

Thompson has served as the Parish's disaster recovery services provider since 2012 spanning multiple competitive procurements. During this time, Thompson has been activated following five (5) federally declared hurricane events resulting in debris removal programs being administered throughout Parish right-of-way, waterways and levee, and private properties. In addition, Thompson assisted in in the assessment and documentation of hazardous and hanging limbs, trees, and stumps.

2024 Hurricane Francine: The Parish once again activated Thompson's standby disaster recovery and debris removal monitoring services agreement following the severe impacts of Hurricane Francine. Thompson assisted the Parish in performing right-of-way debris removal, levee and waterway debris removal, and hazardous tree and limb removal programs accounting for the collection and disposal of over 252,500 cubic yards of debris and over 375 hanging/leaning trees and limbs.

2021 Hurricane Ida: Following the devastating effects of Hurricane Ida, Thompson was activated by the Parish to monitor debris removal efforts. The Parish performed various debris removal operations including right-of-way debris removal, private property debris removal and program administration, hazardous leaning/hanging trees and limb removal, and waterway/marine debris removal. Overall, Thompson monitored the removal of over 4.3 million cubic yards of debris from the Parish including over 13,000 cubic yards of debris from parish waterways and over 5,600 hazardous hanging limbs and leaning trees.

2020 Hurricane Zeta: In October 2020, Hurricane Zeta produced extremely strong winds and heavy rains causing severe damage to the Southeastern United States. The Parish activated Thompson's stand-by debris monitoring contract to support right-of-way debris removal operations throughout the Parish. Thompson was able to quickly mobilize and perform expeditious and efficient monitoring of the removal of over 12,000 cubic yards of debris from the Parish.

2019 Hurricane Barry: Following Hurricane Barry, the Parish activated Thompson to assist in monitoring and documenting debris removal efforts. Thompson immediately mobilized to the Parish and began implementing debris removal monitoring operations. In just two weeks, Thompson substantiated nearly 52,000 cubic yards of debris and assisted the Parish in a swift and efficient recovery operation.

2012 Hurricane Isaac: After Hurricane Isaac made landfall, Thompson immediately responded to Terrebonne Parish by deploying a field management team to train and on-board local residents to monitor and document emergency push and debris removal operations. Thompson worked with Terrebonne Parish on an expedited debris removal schedule, and after close coordination with the Governor's Office of Homeland Security and Emergency Preparedness (GOHSEP), Louisiana Department of Environmental Quality (LDEQ), and FEMA, completed emergency time and materials as well as ROW debris removal in less than 30 days. Thompson managed and documented the removal of nearly 56,000 CY of debris in order to satisfy FEMA and State reimbursement requirements.

Travis County, Texas

Temporary DMS Sites: 3

Thompson has served as the County's disaster debris removal monitoring services since 2025 and was activated following severe flooding that produced widespread debris throughout County right-of-way, private properties, and waterways.

2025 Severe Flooding: In July of 2025, the Hill Country region of Texas experienced significant and prolonged rainfall resulting in severe flash flooding. The Big Sandy Creek and Cow Creek within Travis County rose to historic levels and caused severe flooding within areas of the County. As the County's stand-by disaster recovery services provider, Thompson responded immediately with personnel and equipment following a notice-to-proceed. Thompson first assisted the County with right-of-way and citizen drop off monitoring. However, the County also required specialized services related to private property debris removal (PPDR) and waterways assessments.

As part of the PPDR program, Thompson assisted the County in obtaining right-of-entry (ROE) agreements and verification of ownership through tax records and parcel maps. Following the collection of ROEs, Thompson completed outreach to residents to arrange for Hazard Site Assessment (HSA) to be completed. Thompson completed 79 HSA reports to document property conditions, underground utilities, overhead power lines, septic systems, vehicles, vessels, and eligible disaster debris. Additionally, Thompson monitored the removal of debris from 39 properties before the County transitioned to a State managed debris removal program. Prior to that transition, Thompson monitored and documented the removal of over 119,000 cubic yards of debris from right-of-way, private property, and waterways in less than sixty (60) days.

Emanuel County, Georgia

Cost of Services: $ 6,094,000
Temporary DMS Sites: 5

2024 Hurricane Helene: Several states across the Southeastern United States, including Georgia, were impacted by severe and widespread destruction and loss of life following Hurricane Helene. Emanuel County suffered significant damage and was in need of immediate assistance from disaster recovery consultants. Under an exigent services agreement, Thompson deployed personnel and equipment immediately beginning operations as quickly as possible. Thompson provided debris removal monitoring services including assisting the County perform right-of-way debris removal, parks and schools' debris removal, and hazardous limbs and trees removal projects. To date, Thompson has substantiated the removal of approximately 2,642,000 cubic yards of debris from County right-of-way as well as 49,200 hazardous limbs and trees.

City of Tampa, Florida

Oct. – Nov. 2024 / Oct. 2024 – Jan. 2025

Disaster Debris Removal Monitoring

Debris Quantity: 1,410,500 CY

Peak Monitor Assignments: 359
Cost of Services: $ 4,800,000
Temporary DMS Sites: 9

Thompson has served as the on-call disaster debris monitoring services provider on behalf of the City of Tampa since 2023. During that time, Thompson has supported preparedness measures and maintained operational readiness in the event that our services were needed. Thompson was activated by the City to provide recovery services following Hurricanes Helene and Milton in 2024 which resulted in right-of-way debris removal and hazardous hanging and leaning limb removal.

2024 Hurricane Helene & Milton: The City suffered widespread damage as a result of Hurricanes Helene and Milton. Following the passing of Helene, the City activated Thompson to begin debris removal operations throughout the City. This work resulted in the removal of approximately 55,000 cubic yards of debris completing projects in less than 30-days.

Hurricane Milton made landfall within weeks of Helene and caused significant damage. Already mobilized, Thompson immediately began to staff and monitor separate debris removal operations ensuring maximum FEMA reimbursement for the City. The City performed separate right-of-way debris removal programs as well as hazardous hanging and leaning limb/tree removal, and Thompson substantiated the removal of over 1,410,500 cubic yards of debris and approximately 23,000 hazardous trees and limbs across both disasters. Thompson was able to complete Hurricane Milton operations, which accounted for over 1.3 million cubic yards of debris, in approximately 120 days.

Key Personnel

Thompson is committed to staffing the County's emergency debris removal monitoring and related services project in accordance with the management staffing and key personnel proposed herein. Our technical approach is designed to be scalable in nature in order to effectively respond to both minor and catastrophic debris generating events as well as adjust to the changing needs of the County throughout the recovery process. The following table summarizes the background and experience of our key personnel and outlines our staff's extensive experience managing and monitoring projects of all size and scale, including many resulting in the documentation of over 1,000,000 cubic yards on behalf of local and state governments. *As requested, resumes and additional information on proposed staff experience and qualifications can be found in Tab 3 and Exhibit 3-1.*

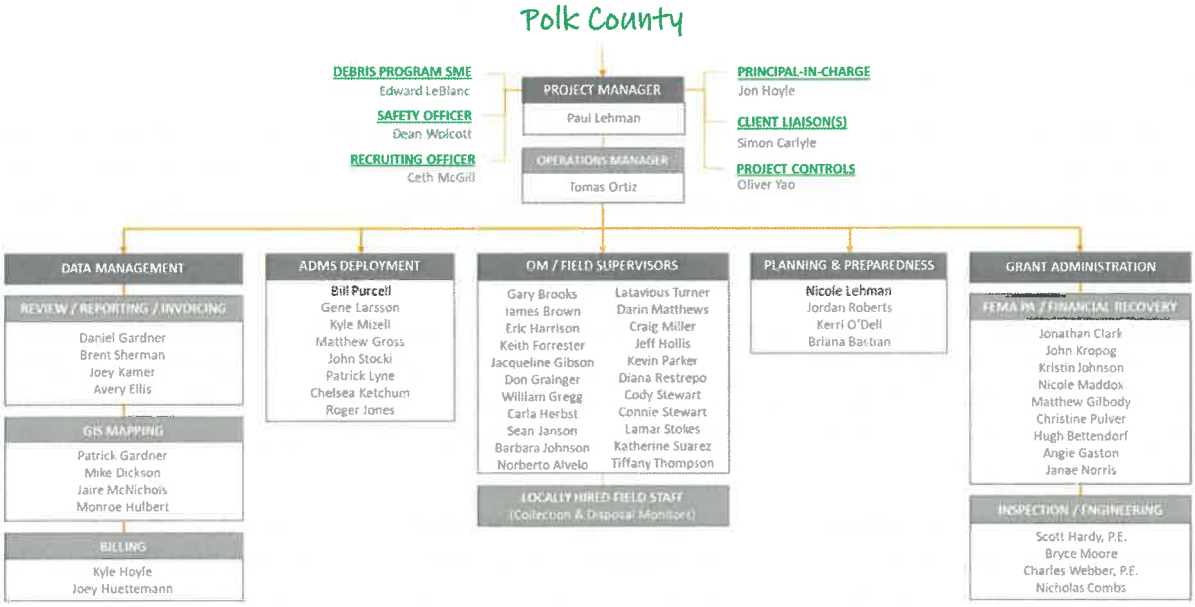
Thompson's proposed team has assisted some of the largest government agencies plan for disaster debris generating incidents, substantiate debris removal operations and recover and retain FEMA Public Assistance grant funding for debris removal, force account operations and complex infrastructure repair, replacement, and mitigation projects.

TAB 3
Resources & Availability



Staff Resources

Thompson's staff of consultants is amongst the most educated, qualified, and dynamic in the industry. Our personnel are disaster recovery and response experts, business, and financial consultants; registered professional engineers, geologists, and surveyors; scientists; and technical professionals in the following disciplines: civil, structural, environmental, geotechnical, hydraulic, mechanical, and electrical engineering. We have over 650 multi-disciplined personnel on staff with diverse qualifications that can be drawn upon to address any project needs, including a network of more than 260 on-call debris removal monitoring managers and supervisors and more than 1,000 inspectors.

Dedicated Project Team & Availability

Thompson is committed to staffing the County's disaster debris monitoring and recovery services requirements in accordance with the management staffing and key personnel proposed herein. The following organizational chart graphically presents Thompson's proposed project staffing and key personnel.

Figure 3-1: Organizational Chart

Thompson has carefully appointed our project team to ensure dedicated personnel are available to the County including a dedicated project manager, Paul Lehman, with over ten 10 years of experience who will support the County throughout the term of the contract, as well as dedicated operations manager, Tomás Ortiz and client liaison, Simon Carlyle.

The following graphic represents the current commitment over the next year of key members of the assigned project personnel. The exact number of dedicated days of each assigned staff member as well as the various quantity of staff will vary depending on the severity and length of a disaster event and the subsequent recovery process.

Figure 3-2: Availability – Assigned Personnel

Our dedicated personnel have the capacity to support the County, and our extensive volume of resources means the County can rest assured Thompson is fully equipped to fulfil the scope of services requested by the County. Following a future disaster, the County can expect the priority treatment that Thompson is committed to delivering. *A Summary of staff qualifications is in Tab 2, Experience and Expertise and resumes detailing experience and qualifications of Thompson's proposed key personnel have been provided in Exhibit 3-1.*

Local Debris Removal Monitor Labor Force Sourcing

Our proposed staffing plan is designed to be flexible and scalable so that we can effectively and efficiently respond to the County's needs. We maintain a staff of full-time and on-call disaster debris monitoring experts, consultants and supervisors that will be available to support debris removal monitoring operations. In addition, Thompson maintains professional human resources and recruiting staff that have over 13 years of experience in disaster response and recovery services available to assist in identifying and placing personnel.

It is Thompson's intent to fill temporary debris monitoring positions with qualified County residents in need of work. Thompson will provide qualified residents with safety training and on the job training with experienced debris monitoring supervisors. We will make sure that all local hires are properly trained prior to being deployed to monitor a debris removal crew. In addition, this effort will help residents participate in the County's recovery efforts with a *meaningful impact* and earn a *competitive hourly wage*.

Thompson maintains a national recruiting and hiring database comprised of 19,000 temporary and on-call debris removal monitors, field supervisors, inspectors, etc. that have previously served in such roles with Thompson. This includes more than 9,500 Florida residents who can be contacted to expedite and supplement disaster recovery needs. Local hiring is prioritized; however, Thompson has the capacity to supplement the County's staffing as needed.

Subcontractor Participation

Thompson maintains the resources and experience to fulfill the scope of work requested by the County without the need to employ an additional subcontractor. However, should the scope of work expand to include an opportunity to engage additional resources, Thompson will work with the County to identify an appropriate subcontractor.

We actively seek opportunities to connect with partners that will best serve our clients, should the need arise. We often encourage and engage the participation of disadvantaged business enterprises (DBE) to include small, minority, and women owned business enterprises in the communities where we work and have over 25 pre-positioned agreements with DBE subconsultants across the United States. Thompson has utilized DBE subconsultants on state, federal, and municipal projects involving specific goals and/or federal funds or grants and has invested millions in DBE subcontracting. Thompson has a proven history of meeting or exceeding our subcontracting goals on past projects, and we will take all steps to confirm compliance with all applicable federal or state laws or ordinances for DBE participation, including 2 CFR 200.321.

Office & Equipment Resources

Office Locations

With 26 corporate and satellite offices scattered throughout the Southeast United States, Thompson has the resources and capabilities to support the County's disaster debris monitoring needs from near and afar. A list of our office locations is provided below.

- Atlanta, Georgia
- Baton Rouge, Louisiana
- Chattanooga, Tennessee
- Dallas, Texas
- Dothan, Alabama
- Evergreen, Alabama
- Harriman, Tennessee
- Helena, Alabama
- Houston, Texas
- Jackson, Mississippi
- Kenner, Louisiana
- Knoxville, Tennessee
- Lake Charles, Louisiana
- *Maitland, Florida*
- Metairie, Louisiana
- Millington, Tennessee
- Mobile, Alabama
- Moss Point, Mississippi
- Nashville, Tennessee
- Orange, Texas
- Pelham, Alabama
- *Pensacola, Florida*
- Richland, Mississippi
- Savannah, Georgia
- Troy, Alabama
- Tuscaloosa, Alabama

Mobile Office Capabilities

Thompson knows immediately following a disaster incident access to a project operations office and communications infrastructure is critical to building a local workforce, however with the potential for office facilities and hotels being damaged in the event, it is imperative to have a reliable alternative. Therefore, Thompson has invested in a fully functional mobile field office that can be utilized to implement initial debris removal monitoring operations regardless of environmental conditions. We can travel directly to impacted communities and implement onboarding and equipment staging from the mobile field office, and with integrated satellite capabilities, our mobile office can serve as a communication center. ***Thompson deployed our mobile field office following Hurricanes Laura, Sally, Delta, and Zeta in 2020, Hurricane Ida in 2021, Hurricane Ian in 2022, and Hurricanes Beryl and Helene in 2024.***

Equipment Resources

Thompson has provided disaster recovery services to various clients over the years and has not had any issues with supplying sufficient amounts of equipment. However, we do have pre-event contracts in place to provide additional supplies as needed within 24-hours. All equipment listed will be available to support the County during preparedness measures and post-disaster operations. The following items are supplied to field personnel before mobilization:

- Safety Equipment: Hard hats, safety glasses, and safety vests are provided to all personnel. All personnel are required to wear steel-toed boots at their own expense. Field supervisors are provided with medical kits.
- Communication Device: Cell phones, and/or radios are provided to field personnel based upon project needs.

- Laptops and Portable Printers / Scanners / Copiers / Fax Machines: These items are provided to the Thompson Team's management personnel for use in vehicles or mobile command centers as needed.
- Additional Field / Office Supplies: All necessary forms (field documents, truck certification, etc.) and office supplies are kept in stock and provided prior to mobilization.

A listing of our office and field equipment is shown in the following table.

Table 3-1: Available Field Equipment

Resources/Field Equipment	Quantity	Resources/Field Equipment	Quantity
Offices	26	Full Time Employees	650
ADMS Sets	3,500	Stand-by Disaster Recovery Employees	1,200
Computer – Desktop Station	175	Printers / Copier – Color Laser	100
Computer – Laptop	175	Printers – Black and White Laser	25
Starlink Units	43	Printer / Copier / Scanner / Fax– Portable	30
MiFi Access Point	50	Digital Cameras	25
Communication – Cell Phones	213	Handheld GPS Units	100
Communication – Radios	83	Boats (12' to 22')	10
Communication – Desktop Phones	350	Trucks	6

Thompson staffs a full-time equipment and logistics team that performs rigorous quality control tests on all equipment utilized during project operations both before deployment and upon return from the field. Depending on the size and severity of an event, a member of this team is either deployed or is made available virtually and in real-time for the duration of a project to ensure equipment is configured and working properly. A complete inventory of equipment is done quarterly to account for and replace lost or damaged field items. In addition, Thompson maintains several storage locations in the Southeast including in Maitland, Florida, and Mobile, Alabama.

Connectivity Equipment

Dependable infrastructure and communication access is not only necessary during immediate project staffing or mobilization, but also throughout project operations to ensure quicker and more efficient data collection and reporting. Therefore, Thompson has invested in 43 highly portable Starlink units that allow access to high-speed internet via satellites to clients across the United States and Caribbean.

Although our debris removal monitoring technologies, such as TDMS*mobile* have a disconnected architecture and are fully operational in a post storm environment where cellular networks are compromised or destroyed, the Starlink units give field teams the ability to move from a disconnected environment with nightly data uploads to near-real time, connected operations. This allows for quicker reporting and data QA/QC activities. Additionally, these units support Wi-Fi calling and texting increasing communication and safety of field teams located in remote or desolate areas. Thompson's Starlink units have been utilized on the following projects:

2024 Florida, Georgia, South Carolina, North Carolina, Tennessee: units were deployed to support field operations and local data centers in response to widespread, catastrophic damage across remote areas of the southeast caused by back-to back hurricanes Debby, Helene, and Milton.

2023 New Mexico: units were used to support field operations and local data center in the Calf Canyon / Hermits Peak area following widespread fires throughout remote areas of northern New Mexico.

2022 Southwest Florida: units were deployed to the barrier islands following the devastating impacts of Hurricane Ian which completely destroyed cellular connectivity and communications infrastructure.

2022 Puerto Rico: units were utilized following Hurricane Fiona on the western portion of the island where cell connectivity was scarce.

PROGRAM EXPERIENCE
FEMA Public Assistance Emergency Work (Categories A-B) and Permanent Work (Categories C-G) | FEMA Hazard Mitigation Grant Program (404 and 406) | FHWA ER Program | CDBD Disaster Recovery | CDBG Housing

Mr. Hoyle has 20 years of experience providing management and oversight for disaster response and recovery efforts and grant writing administration / program management throughout the United States. He has managed 150 projects under contracts that total over $2.5 Billion in grant administration and recovery efforts that required the mobilization of over 10,000 personnel.

PROJECT EXPERIENCE

Hurricane Helene Disaster Recovery, State of Georgia, 2024 – 2025 | Mr. Hoyle served as the principal-in-charge during Thompson's state-wide Georgia mobilization in response to Hurricane Helene. Thompson conducted debris removal monitoring operations on behalf of 22 unique Georgia clients simultaneously. Mr. Hoyle was responsible for contract obligations and cost controls for all projects. Thompson provided debris monitoring and substantiation for more than 10.5M cubic yards of debris across Georgia.

New Mexico Department of Transportation, Wildfire and Mudflows 2022 – 2023 | Mora and San Miguel County, New Mexico were severely impacted by wildfire and mudflows in 2022. Following the completion of a United States Army Corps of Engineers debris removal program, the New Mexico Department of Transportation (NMDOT) was tasked with completing remaining Private Property Debris Removal (PPDR) and demolition activities. Mr. Hoyle served as principal-in-charge addressing the NMDOT's operational needs.

Hurricane Ida, Disaster Recovery Operations, State of Louisiana, 2021 – 2022 | Mr. Hoyle served as principal-in-charge during Thompson's state-wide mobilization in response to Hurricane Ida. Thompson conducted debris removal monitoring operations on behalf of 13 unique clients simultaneously. Mr. Hoyle ensured contract obligations were met and cost controls were closely monitored for all ongoing projects. Overall, Thompson monitored the removal of over 11.7M cubic yards of debris as of Hurricane Ida.

Hurricane Irma, Disaster Recovery Operations, State of Florida, 2017 - 2018 | Mr. Hoyle served as principal-in-charge during Thompson's state-wide mobilization in response to Hurricane Irma. Thompson conducted debris removal monitoring operations on behalf of 45 unique clients simultaneously. Thompson monitored the removal of more than 11.6M cubic yards of debris as a result of Hurricane Irma.

South Carolina Department of Transportation, Severe Flooding, 2015 - 2016 | Mr. Hoyle served on the Thompson management team during the SCDOT's response to statewide severe flooding. He was responsible for contract obligations, cost controls, and FEMA Category A&B reimbursement for all projects. Thompson provided debris monitoring services on behalf of the SCDOT in 11 counties as well as FEAM PA services to identify and document damages to approximately 600 sites and prepared and submitted project worksheets totaling over $35M and including hazard mitigation measures.

Alabama Department of Conservation and Natural Resources (ADCNR), Disaster Management and Debris Monitoring, Alabama, 2011 | Mr. Hoyle served as the Project Manager for the disaster management and debris monitoring at Guntersville, Buck's Pocket, and Morgan's Cove State Parks following the crippling tornados of April 2011. The campgrounds were totally destroyed and massive amounts of debris were scattered in the roadways, trail systems, and fire lines. At peak, 90 crews were mobilized, managed, and monitored. Contract value totals $1.5M.

PROGRAM EXPERIENCE

FEMA Public Assistance Emergency Work (Categories A-B) and Permanent Work (Categories C-G) | FEMA Hazard Mitigation Grant Program (404 and 406) | FHWA ER Program | HUD CDBD Disaster Recovery | HUD CDBG Housing

Mr. Carlyle has twenty years of experience providing management and oversight for disaster response and recovery efforts throughout the United States. He has managed over 70 of the most devastating disaster events in Florida, Texas, Alabama, Virginia, Louisiana, South Carolina, Georgia, and Mississippi.

PROJECT EXPERIENCE

City of Houston, Texas, Disaster Recovery Operations, 2024 – 2025 | The City suffered from back-to-back disaster events including a severe storm and Hurricane Beryl in 2024. Mr. Carlyle served as the City's client liaison and coordinated closely with the City during complex and separate recovery efforts including right-of-way debris and hazardous hanging limb and trees removal operations as well as special programs in City parks and private gated property. Thompson monitored approximately 6.7 million cubic yards of debris.

State of Florida – Multiple Communities, Hurricane Ian, 2022 – 2023 | Mr. Carlyle served as the client liaison during mobilization efforts in response to the devastating impacts of Hurricane Ian. Mr. Carlyle managed multiple projects communicating with clients directly to address schedules and unique project goals/expectations. Thompson assisted 27 clients simultaneously the state and documented the removal of over 11.5M cubic yards of demolition and vegetative debris.

State of Louisiana – Multiple Communities, Hurricane Laura, 2020 - 2022 | Mr. Carlyle served as the regional manager to multiple cities and parishes following the devastating effects of Hurricane Laura. He coordinated and provided support during debris monitoring operations throughout the state.

Jefferson County & Orange County, Texas, Tropical Storm Imelda Disaster Recovery Operations, 2019 | Mr. Carlyle served as regional manager on behalf of Jefferson County and Orange County, Texas following the devastating effects of Tropical Storm Imelda. The storm caused wide-spread flooding and produced large quantities of debris throughout the state. Mr. Carlyle assisted the counties in the removal and substantiation of over 100,000 cubic yards of debris.

State of Texas – Multiple Communities, Hurricane Harvey Disaster Debris Monitoring & Recovery Services, 2017 – 2018 | Mr. Carlyle served as the regional manager for disaster debris removal monitoring in multiple cities and counties following Hurricane Harvey. Mr. Carlyle worked directly with impacted communities, scheduling debris removal operations and task orders, and communicating all project matters related to the counties, cities, and towns to city and county staff.

City of Sioux Falls, South Dakota, Severe Winter Storm Recovery Operations, 2013 | The City was impacted by a severe winter storm causing damage and hazardous debris. Mr. Carlyle served as the project manager overseeing the deployment and activation of staffing and equipment resources. Mr. Carlyle also assisted the City in utilizing unique mapping parameters and reporting protocols. Nearly 30,000 hazardous hanging limbs were removed from the City.

City of Waveland, Mississippi, Hurricane Katrina Disaster Recovery & Private Property Debris Removal, 2006 | The City was severely impacted by Hurricane Katrina and suffered widespread damage. Mr. Carlyle served as the project manager on behalf of the City and oversaw right-of-way debris removal operations, the removal of hazardous leaning and hanging limbs and trees, City parks debris removal operations, and private property debris removal projects.

PROGRAM EXPERIENCE

FEMA Public Assistance Emergency Work (Categories A-B) and Permanent Work (Categories C-G)

Mr. Yao has 18 years of experience providing program management and oversight of disaster response and recovery projects throughout the United States. His experience spans recovery efforts following hurricanes, tornadoes, ice storms, wildfires, and other debris generating incidents. Mr. Yao is a subject matter expert in FEMA Public Assistance criteria and documentation standards and has overseen the data management and documentation of over 116 million cubic yards of debris over the course of his career.

PROJECT EXPERIENCE

Houston, Texas, Severe Storms & Hurricane Beryl, 2024 – 2025 | The City of Houston was severely impacted by back-to-back disaster incidents in 2024, including Hurricane Beryl and damaging severe storms. Mr. Yao served as the project controls specialist overseeing operational needs and ensuring contract terms and budgets were kept. Thompson monitored the removal of over 5.6M cubic yards of debris from the City.

New Mexico Department of Transportation, Wildfire and Mudflows 2022-2023 | Mora and San Miguel County, New Mexico were severely impacted by wildfire and mudflows in 2022. Following the completion of a United States Army Corps of Engineers debris removal program, the New Mexico Department of Transportation (NMDOT) was tasked with completing remaining Private Property Debris Removal (PPDR) and demolition activities. Mr. Yao serves as a subject matter expert supporting NMDOT with PPDR and demolition program management and monitoring services.

Baldwin County, Alabama, Hurricane Sally Program Management, 2020 | Hurricane Sally impacted the State of Alabama as a strong Category 2 hurricane and caused extensive damages to Baldwin County. Mr. Yao served as part of the senior management team and supported project setup, documentation, staffing, reporting, and project controls. The project resulted over 4.4 million cubic yard of debris and over 46,000 hazardous trees and stumps. Mr. Yao also supported the County in responding to FEMA requests for information and supporting documentation.

State of Florida, Hurricane Michael Program Management, 2018 | Hurricane Michael impacted the Florida panhandle region as a Category 5 hurricane. Mr. Yao provided management and data oversight for 11 projects in Florida including Bay County, Franklin County, Wakulla County and the cities of Lynn Haven, Springfield, and Callaway. Mr. Yao supported the oversight and documentation of over 5.5 million cubic yards and over 21,000 hazardous trees.

State of South Carolina, Hurricane Matthew Program Management, 2016 | Mr. Yao served as a senior manager and data management coordinator for over 11 projects in South Carolina including Beaufort County and the Town of Hilton Head Island. Mr. Yao supported the documentation and reporting of over 4.4 million cubic yards of debris.

New Jersey Department of Environmental Protection, Hurricane Sandy, 2012 | Mr. Yao served as a senior manager and data management coordinator for NJDEP waterways debris removal program. This program included the removal of submerged and partially submerged hurricane debris as well as sediment removal that was a result of the hurricane.

State of Texas, Hurricane Ike Data Management, 2008 | Mr. Yao served as a senior data manager and was responsible for the coordination, data management, reporting, and invoice reconciliation of multiple projects including the City of Houston, City of Galveston, and Galveston County.

PROGRAM EXPERIENCE

FEMA Public Assistance Emergency Work (Categories A-B) and Permanent Work (Categories C-G) | FEMA Hazard Mitigation Grant Program (404 and 406) | FHWA ER Program | HUD CDBD Disaster Recovery | HUD CDBG Housing

Mr. LeBlanc is an experienced leader with nearly three decades of experience with the United States Army Corps of Engineers (USACE). He has served in numerous roles including as a Debris Program Manager and Permanent cadre member and has responded to significant USACE responses such as Hurricanes Ivan, Katrina, Rita, Ian, and Helene; wildfire debris responses in California; and numerous other events, totaling over 50 individual disaster deployments. Mr. LeBlanc's experience spans across approximately 30 states and territories.

USACE Awards: Commander's Award 2005, 2011 & 2015; Achievement Medal 2011; Superior Civilian Service 2017; Meritorious Civilian Service Medal 2022

PREVIOUS PROJECT EXPERIENCE

State of California, SoCal Wildfires Disaster Recovery Operations, 2025 | Southern California suffered from a series of wildfires with Los Angeles County being the most severely impacted. Mr. LeBlanc served as both a senior advisor and team leader on behalf of the USACE during debris removal efforts and private property debris removal projects throughout Los Angeles County and other impacted areas.

States of North Carolina & Virginia, Hurricane Helene Recovery, 2024 | Hurricane Helene was one of the deadliest and costliest hurricanes to impact the United States. Wide-reaching, Helene produced devastating storm surge, damaging winds, and flooding across Florida, Georgia, South Carolina, North Carolina, Tennessee, and Virginia. Mr. LeBlanc assisted with recovery operations in North Carolina and Virginia, serving as a debris subject matter expert and a team leader for the USACE. Additionally, Mr. LeBlanc served as a debris subject matter expert/advisor to USACE/FEMA headquarters in Washington DC.

Island of Maui, Hawaii, Wildfires Disaster Recovery Operations, 2023 | In 2023, the state of Hawaii suffered from the impacts of severe wildfires with the Island of Maui experiencing the most devastation. On Maui, the Town of Lahaina experienced loss of life and widespread damage that necessitated long-term disaster recovery support. The United States Army Corps of Engineers (USACE) would be authorized to provide direct federal assistance to the Town of Lahaina and Maui County. Mr. LeBlanc served as a team leader on behalf of the USACE overseeing, assisting, and facilitating recovery operations as across the Island.

Puerto Rico & Florida, Hurricanes Ian & Fiona, 2022 | Mr. LeBlanc served as a USACE team leader during multiple disaster response activations in Florida and Puerto Rico following back-to-back Hurricanes Fiona and Ian. Hurricane Fiona brought severe flooding, extremely destructive winds, and infrastructure damage to Perto Rico while Hurricane Ian became one of the strongest and deadliest hurricanes to impact the State of Florida.

State of Louisiana, Hurricane Ida Regional Recovery, 2021 | Hurricane Ida caused catastrophic damage across Louisiana and the Gulf Coast bringing widespread flooding, storm surge, and destructive winds. Local infrastructure and many homes were destroyed following the impacts. Mr. LeBlanc served as a debris subject matter expert and was deployed to assist in the regional recovery efforts.

Mr. Gardner has served a program manager and grant management consultant for multiple federally funded grant programs on projects totaling approximately $2 billion. His extensive understanding of the eligibility requirements, regulations and policies across many federal grant programs allows clients to maximize disaster recovery and mitigation reimbursement. Mr. Gardner has assisted clients obtain funding from multiple federally funded grant programs including the U.S. Department of Housing and Urban Development (HUD) Community Development Block Grant (CDBG) Program, the Federal Emergency Management Agency (FEMA) Public Assistance (PA) Program and the FEMA Hazard Mitigation Grant Program (HMGP).

PROJECT EXPERIENCE

Hurricane Helene Disaster Recovery, State of Georgia, 2024 – 2025 | Mr. Gardner served as the data manager during Thompson's state-wide Georgia mobilization in response to Hurricane Helene. Thompson conducted debris removal monitoring operations on behalf of 22 unique Georgia clients simultaneously. Mr. Gardner was responsible for the overall data management, reconciliation, and daily reporting for all projects. Thompson provided debris monitoring and substantiation for more than 10.5M cubic yards of debris.

Hurricane Ida, Disaster Recovery Operations, State of Louisiana, 2021 – 2024 | The State of Louisiana was severely impacted by Hurricane Ida, and Thompson conducted debris removal monitoring operations on behalf of 13 unique clients simultaneously. Mr. Gardner served as the data manager during Thompson's mobilization and was responsible for overseeing all daily ticket review, detailed road review and daily reporting. Overall, Thompson monitored the removal of approximately 15.1M cubic yards of debris.

U.S. Army Corps of Engineers (USACE), Louisville District - Kentucky, Tornado Recovery Operations, 2021 – 2022 | In December of 2021, Graves County and the City of Mayfield were devastated by a Major EF4 tornado that required a massive emergency response and recovery operation. Thompson responded to both the City and County as the debris monitoring subconsultant to the U.S. Army Corps of Engineers (USACE). Mr. Gardner served as the data manager overseeing the Thompson data team who provided quality assurance, project reporting, mapping, data management, and invoice reconciliation support. Thompson monitored the removal of more than 433,000 cubic yards of debris.

Hurricane Irma, Disaster Recovery Operations, State of Florida, 2017 - 2018 | Mr. Gardner served as the lead data manager overseeing Thompson's state-wide mobilization in response to Hurricane Irma. Thompson conducted debris removal monitoring operations on behalf of 45 unique clients simultaneously within the State. Mr. Gardner was responsible for all QA/QC activities as well as contractor invoice reconciliation. Thompson substantiated more than 11.6M cubic yards of debris as a result of Hurricane Irma.

South Carolina Department of Transportation, Severe Flooding Statewide Response, 2015 - 2016 | The SCDOT activated Thompson to provide debris removal monitoring services in 11 counties throughout the State following severe storms and flooding. Mr. Gardner served on the on-site project kickoff team and managed the data reporting and invoice reconciliation tasks throughout the projects. He oversaw the daily review of data and produced reports for the Counties including a daily summary, cost estimation and contractor summary.

PROGRAM EXPERIENCE

FEMA Public Assistance Emergency Work (Categories A-B) and Permanent Work (Categories C-G) | FHWA ER Program | CDBG Disaster Recovery | CDBG Housing

Ms. Lehman has 18 years of experience providing grant and program management support and oversight for disaster response and recovery efforts throughout the United States. She is well versed in the programs, agencies, procedures, and regulations involved in successfully running disaster debris management operations. Ms. Lehman also has extensive experience in disaster recovery planning, including the update and development of FEMA compliant disaster debris management plans, and provides annual training regarding debris removal monitoring operations and FEMA policy guidance.

PROJECT EXPERIENCE

Hurricane Milton Disaster Recovery, State of Florida, 2024 – 2025 | Ms. Lehman served as a client liaison and program manager during Thompson's state-wide Florida mobilization in response to Hurricane Milton. Thompson conducted debris removal monitoring operations on behalf of 28 unique Florida clients simultaneously. Ms. Lehman was responsible for coordinating project resources such as staff and equipment as well as ensuring client and contracting needs were met. Thompson provided debris monitoring and substantiation for more than 9.6M cubic yards of debris across Florida.

Lee County, Florida, Hurricane Ian Disaster Recovery, 2022 – 2023 | Lee County suffered widespread flooding and extensive damage as a result of Hurricane Ian. Ms. Lehman served as an onsite program manager during the recovery operations and coordinated closely with the County overseeing day-to-day operations for monitoring projects and providing planning support. Thompson has monitored the removal of over 5.7M cubic yards of debris and over 43,450 hazardous limbs and trees throughout the County.

Puerto Rico Department of Transportation and Public Works (DTOP), Hurricane Maria, 2017 - 2019 | Ms. Lehman served as a program manager overseeing project operations for debris monitoring services in three DTOP designated zones. She was responsible for ensuring all projects were operating in accordance with federal, state and local requirements.

Fort Lauderdale, Florida, Hurricane Irma Disaster Recovery, 2017 | Ms. Lehman served as program manager for Fort Lauderdale's recovery efforts following Hurricane Irma. Thompson monitored the removal of over 600,000 cubic yards of vegetative and construction and demolition debris, as well as the removal of hazardous limbs from 13,000 trees and the complete removal of over 450 hazardous leaning trees. In addition, Thompson implemented a sand recovery and screening operation to return the displaced sand to the public beaches.

City of Daytona Beach, Florida, Disaster Debris Management Plan Update, 2015 | Ms. Lehman led a planning team in the update of the City's Disaster Debris Management Plan. The update included ensuring the plan met new FEMA policy and procedure guidance as well as a review and update of the City's debris management roles and responsibilities and the debris collection and monitoring strategies.

Alabama Department of Transportation Southwest Region, Disaster Debris Management Plan, 2014 - 2015 | Ms. Lehman assisted in the development and preparation of a Disaster Debris Management Plan (DDMP) for the ALDOT Southwest Region. She worked closely with the Region to develop the debris collection and monitoring strategies included in the plan. In addition Ms. Lehman reviewed debris management site options throughout the Region.

PROGRAM EXPERIENCE
FEMA Public Assistance Emergency Work (Categories A-B)

Mr. Gardner has 12 years of experience providing data-driven geospatial services and solutions. He has supported recovery operations in this capacity for several large-scale, multi- state, region, and municipal disaster incidents. He is well versed in ESRI ArcGIS applications and utilizes geospatial data to convey project operations and progress. Mr. Gardner assists with data management, invoice reconciliation, and GIS solutions. Mr. Gardner also has experience as a Federal Aviation Administration Certified Remote Pilot for Small Unmanned Aircraft.

PROJECT EXPERIENCE

Lahaina, Maui County, Hawaii, Wildfire Recovery 2024 - 2025 | The state of Hawaii suffered from a series of severe wildfires with the island of Maui experiencing the most devastation. Mr. Gardner initiated the deployment and collection of geospatial tools to collect real-time disaster as well as created a disaster response hub site that hosted 14+ mapping solutions, including an interactive 3D render of the affected area, compliant with USACE reporting requirements. Thus far, Thompson has assisted in the assessment and remediation of over 158 parcels of private property and monitored the removal of over 538 hazardous trees and approximately 308,250 tons of debris.

New Mexico Department of Transportation (NMDOT), Wildfire Recovery Operations, 2022 – 2025 | Thompson was activated by the New Mexico Department of Transportation (NMDOT) in San Miguel and Mora counties to provide disaster debris removal monitoring services on NMDOT maintained roadways and to conduct special programs including private property debris removal and waterway debris removal. Mr. Gardner coordinated with the NMDOT to provide geospatial analysis, maps, and figures for the simultaneous project operations. To date, Thompson has monitored the removal of over 170,000 tons of debris and 12,000 hazardous trees and limbs on behalf of the NMDOT.

City of Mobile, Alabama, Hurricane Sally Recovery Operations, 2020 - 2021 | Mr. Gardner served as the GIS manager for the City following Hurricane Sally. He was responsible for coordinating with the City to provide geospatial analysis and maps and figures representing City-wide debris monitoring operations data. Overall, Thompson monitored the removal of over 850,000 cubic yards of debris.

Hurricane Irma, Disaster Recovery Operations, State of Florida, 2017 - 2018 | Mr. Gardner provided GIS and data management services during Thompson's state-wide mobilization in response to Hurricane Irma. Thompson conducted debris removal monitoring operations on behalf of 45 unique clients simultaneously within the State. Mr. Gardner was responsible for mapping data points through GIS and providing support to the QA/QC team. Thompson substantiated more than 11.6M cubic yards of debris as a result of Hurricane Irma.

Sevier County, Tennessee, Chimney Tops 2 Wildfire, 2016 - 2018 | Mr. Gardner served as the onsite project manager overseeing debris monitoring services for right-of-way tree removal of standing dead trees as a result of the 2016 wildfires which burned over 17,000 acres and destroyed more than 2,400 properties. In addition, Mr. Gardner administered the private property debris removal program established to eliminate hazardous conditions located on private property.

Dare County and included municipalities, North Carolina, Hurricane Matthew, 2016 | Dare County activated Thompson to provide debris removal monitoring services to the county and local municipalities following Hurricane Matthew. Mr. Gardner assisted with data management and invoice reconciliation.

EDUCATION

MA Business Management and Leadership
BA Homeland Security and Emergency Management

EXPERIENCE

20 years

PROGRAM EXPERIENCE

FEMA Public Assistance Emergency Work (Categories A-B) | FEMA Hazard Mitigation Grant Program (404 and 406) | HUD CDBG Disaster Recovery | ROE / PPDR Removal Programs

Jonathan Clark has over 20 years of experience in the disaster recovery industry. He is a multifaceted consultant with a broad and diverse set of experience working with federal and state grant programs. Mr. Clark has served as a grant management consultant for both Grantees and Applicants/Sub-Grantees, giving him experience in all roles involved in grant management programs. Mr. Clark has managed the financial recovery of communities receiving more than $800M in federal funding.

PROJECT EXPERIENCE

Denham Springs Housing Authority, Louisiana, Severe Flooding FEMA PA, HUD CDBG-DR and Hazard Mitigation Consulting, 2016 - 2023 | Severe storms and flooding left Authority owned buildings and housing units severely damaged and unlivable. As the Project Manager, we are in the process of managing a $13M dollar recovery, including construction program oversight, and recovering funds from multiple agencies (CBDG-DR, FEMA), ensuring each agency's requirements are met and adhered to.

New Mexico Department of Transportation, FEMA PA 2022-2023 | Mr. Clark served as the Recovery and Public Assistance Manager for the Hermits Peak Fire recovery response. Mr. Clark was responsible for managing the debris and permanent work projects (damage assessments, hazard mitigation proposals, etc.), mission assignments with New Mexico Homeland Security and Emergency Management (NMHSEM) and assisting in the construction and closeout process. Projects included Categories A, B, C, and D, which total an estimated $50M.

City of Fort Lauderdale, Florida, Hurricane Irma, and COVID-19, 2017 - 2023 | During Hurricane Irma, the City incurred damages to its beaches, parks, buildings, and utility infrastructure. Mr. Clark processed category A and B claims totaling more than $25M as well as multiple permanent work projects, including categories E, F and G, to restore damaged buildings, utilities and parks. Mr. Clark is also assisting the city with its' COVID-19 pandemic response efforts which includes approval of a temporary non-congregate shelter to house vulnerable residents of the community.

New York State Office of Emergency Management, Hurricane Sandy FEMA PA Consulting, 2012 - 2014 | Mr. Clark assisted multiple Long Island applicants in a grantee role as part of the NYSOEM team. His duties included documentation collection and review, project worksheet development, and program management of FEMA PA applicants' large projects.

FEMA, Ground Support Unit Lead (Coordinating and Planning) 2005-2009 | While at FEMA, Mr. Clark planned, coordinated, and managed staff and resources as Deputy Logistic Chief Understudy. He also evaluated and analyzed resources and market trends and research. Other responsibilities at FEMA included serving as federal equipment manager; acting program analyst; project manager; contracting officer; resource, supply, documentation and procurement supervisor; ICS team lead for logistics during federal response of Gustav and Ike operations.

Paul Lehman

Project / Operations Manager

FIRM

Thompson Consulting Services
2601 Maitland Center Parkway
Maitland, Florida 32751

EXPERIENCE

12 years

PROGRAM EXPERIENCE

FEMA Public Assistance Emergency Work (Categories A-B) | Automated Debris Management System

Mr. Lehman has 12 years of experience in debris removal operations, including experience working on behalf of the debris hauler and now managing debris monitoring operations. He has worked extensively on right-of-way (ROW) debris monitoring, and leaner, hanger, and stump removal programs as well as private property debris removal programs.

PROJECT EXPERIENCE

Florida Department of Transportation (FDOT), Hurricanes Helene & Debby Recovery Operations, 2024 – 2025 | The State of Florida was severely impacted by back-to-back Hurricanes Debby and Helene in 2024, which caused widespread damage and destruction. Mr. Lehman served as a project manager overseeing debris removal monitoring operations and working closely with the FDOT and debris removal contractors across the State. FDOT carried out debris removal programs including right-of-way collection and removal of hazardous leaners and hangers on FDOT maintained roadways throughout eleven (11) counties. Overall, Thompson substantiated the removal of over 6.8M cubic yards of debris.

City of Sanibel, Florida, Hurricane Ian Recovery Operations, 2022 – 2023 | Mr. Lehman served as the operations manager overseeing day-to-day debris removal monitoring operations for the City of Sanibel following Hurricane Ian. The City conducted right-of-way, hazardous leaning and hanging limbs/trees, and beach sand remediation. Overall, Thompson monitored the removal of 2,540,000 cubic yards of debris from the City as well as the removal of over 13,154 hazardous leaning and hanging trees/limbs from City maintained roadways.

City of Orlando, Florida, Hurricane Ian Recovery Operations, 2022 | Mr. Lehman served as the operations manager overseeing day-to-day debris removal monitoring operations for the City of Orlando following Hurricane Ian. The City carried out debris removal programs including right-of-way collection and removal of hazardous leaners and hangers on roadways throughout the City. Overall, Thompson has substantiated over 82,079 cubic yards of debris from the City.

Jefferson Davis Parish, Louisiana, Hurricane Ida Recovery Operations, 2020 | Mr. Lehman served as the operations manager overseeing day-to-day debris removal monitoring operations for Jefferson Davis Parish following Hurricane Ida. The Parish carried out debris removal programs including emergency road clearance, right-of-way collection, and removal of hazardous leaners and hangers on roadways throughout the Parish. Overall, Thompson has substantiated over 216,000 cubic yards of debris.

Puerto Rico Department of Transportation and Public Works (DTOP), Hurricane Maria, 2017 - 2018 | Hurricane Maria is regarded as the worst natural disaster on record to impact Puerto Rico. Mr. Lehman served as the operations manager overseeing day-to-day debris removal monitoring operations for all programs including emergency road clearance, right-of-way collection, and removal of hazardous leaners and hangers on DTOP maintained roadways. Thompson substantiated over 400,000 cubic yards of debris throughout three DTOP zones.

City of Deland, Florida, Hurricane Matthew Recovery Operations, 2016 - 2017 | Mr. Lehman served as the operations manager overseeing day-to-day debris removal monitoring operations throughout the City of Deland following Hurricane Matthew. The City performed both hazardous tree and limb removal as well as right-of-way (ROW) collection programs on City maintained roadways.

CONSULTING SERVICES

Tomas Ortiz

Project Manager

FIRM

Thompson Consulting Services
2601 Maitland Center Parkway
Maitland, Florida 32751

EXPERIENCE

8 years

PROGRAM EXPERIENCE

FEMA Public Assistance Emergency Work (Categories A-B) and Permanent Work (Categories C-G) | FHWA ER Program

Mr. Ortiz has eight years of experience supporting and managing debris monitoring operations throughout the United States. He has worked extensively on waterway and private property debris removal programs as well as, right-of-way (ROW) debris monitoring, and leaner, hanger, and stump removal programs in some of the largest areas impacted by debris generating events.

PROJECT EXPERIENCE

Tennessee Department of Emergency Management (TEMA), Hurricane Helene Recovery Operations, 2025 | Following the impacts of Hurricane Helene, waterways throughout the State of Tennessee were inundated with white goods, vehicular, and vegetative debris. Mr. Ortiz served as an operations manager on behalf of TEMA overseeing waterway and canal debris removal projects throughout the state. Thompson substantiated the removal of over 2.8M cubic yards of debris from Tennessee waterways.

City of Tampa, Florida, Hurricane Milton, Disaster Recovery Operations, 2024 – 2025 | Mr. Ortiz served as a project manager operations manager for the City of Tampa during disaster recovery efforts following Hurricane Milton. He oversaw debris removal operations such as right-of-way (ROW) debris removal programs and hazardous tree/limb removal on City maintained roadways. Overall, Thompson monitored the removal of approximately 1,373,000 cubic yards of debris from the City.

City of Houston, Texas, Derecho Disaster Recovery Operations, 2024 | A powerful storm event brought extremely destructive winds to the State of Texas. Mr. Ortiz served as a project manager for the City of Houston overseeing daily debris removal activities and coordinating closely with the City during right-of-way (ROW) debris removal and City parks debris removal programs. Thompson monitored the removal of over 2M cubic yards of debris.

City of Fort Lauderdale, Florida, Flooding Recovery Operations, 2023 | Following a catastrophic county wide flooding event, Thompson assisted the City with its recovery efforts, including providing debris removal monitoring, policy guidance, floodplain management reporting and FEMA public assistance claims. Mr. Ortiz served as an operations manager on behalf of the City assisting in daily debris removal efforts. Thompson monitored the removal of over 41,000 cubic yards of debris, completing debris removal operations in less than thirty (30) days. Thompson also supported the City in their federal reimbursement recovery.

Lee County, Florida, Hurricane Ian Recovery, 2022 – 2023 | Following the passing of Hurricane Ian, Thompson assisted Lee County with disaster debris removal operations including right-of-way and State Road debris removal programs, hazardous tree/limb removal, as well as waterway debris removal. Mr. Ortiz served as operations manager for the County overseeing day-to-day debris removal monitoring operations throughout the County. Overall, Thompson substantiated more than 8.5M cubic yards of vegetative debris.

City of Orange Beach, Alabama, Hurricane Sally Disaster Recovery Operations, 2020 - 2021 | The City of Orange Beach was inundated with heavy rains and damaging winds causing extensive damage throughout the City. Mr. Ortiz served as a field supervisor for the City and oversaw day-to-day debris removal and monitoring operations including special projects such as marine and waterway debris removal. Thompson documented the removal of over 645,000 cubic yards of debris from the City.

CONSULTING SERVICES

Erik Nobs

Subject Matter Expert / Board Certified Master Arborist

FIRM

Thompson Consulting Services
2601 Maitland Center Parkway
Maitland, Florida 32751

EXPERIENCE

12 years

PROGRAM EXPERIENCE

FEMA Public Assistance Emergency Work (Categories A-B) and Permanent Work (Categories C-G) | FHWA ER Program

Mr. Nobs is a Board-Certified Master Arborist and as a Debris Removal lead with expertise in Incident Command/emergency response and recovery, logistics and operational management and program development, specializing in hazardous tree program management. He ensures assessment operations and tree removal operations fall within Federal funding compliance, American National Standards, OSHA and follows BMPS as well as Federal, State and local ordinances across the US. Working on fire recovery projects in California, Florida and New Mexico. He has consulted to ensure there is compliance with Forest Practice Rules (FPRs), Migratory and Endangered Species act requirements, the Clean Water Act, Costal Commission rules, NEPA, EHP Federal and State compliance requirements and US and State Departments of Fish and Wildlife requirements.

PROJECT EXPERIENCE

Hermits Peak/Calf Canyon Fire, New Mexico, Hazardous Tree Assessment and Removal & Debris Removal, 2022 - 2025 | Mr. Nobs served as Subject Matter Expert/Lead Arborist for hazard tree assessment and removal and debris removal operations for NMDOT ROW, County ROW and private property, encompassing multi-discipline operations for San Miguel and Mora County. Over 75,000k trees were assessed for risk and over 16,000 were cut and harvested to date in accordance with New Mexico Forest Practices Rules, and EHP compliance. Mr. Nobs managed 6 arborist crews, 5 Site assessment crews and coordinated with Local, State and Federal agencies to ensure environmental compliance, historical compliance and grant compliance.

Sanibel & Captiva Island, Florida, Hurricane Ian Standing Dead Tree Program for Assessment and Removal, 2023 | Mr. Nobs served as Subject Matter Expert/Lead Arborist for hazard tree assessments and removal and for a standing dead tree program due to wind damage and saltwater intrusion. Over 4,500k trees were assessed for risk and over 2,000 were removed. Mr. Nobs performed client and environmental coordination and quality control of assessment.

CalRecycle, California, Fire Hazard Tree Assessment and Hazard Tree Removal Project, 2020 - 2021 | Mr. Nobs served as Project Manager for hazardous tree assessment and removal project encompassing multi-discipline operations for 5 counties and Big Basin State Parks during the 2020 fire recovery. Over 150,000 trees were assessed for risk and over 25,000 were cut and harvested in accordance with California Forestry Practices Rules, California Environmental Quality Act, Coastal Commission rules, the Clean Water Act, and the California Department of Fish and Wildlife. Mr. Nobs managed 25 arborist crews, 42 biologist crews, and 10 environmental crews' scientists to ensure environmental compliance, and he provided contractor oversight.

Pinellas County, Florida, Hurricane Irma Disaster Recovery Operations, 2017 | Mr. Nobs served as Project Manager for a 90-day debris removal mission following Hurricane Irma. He managed field operations of all production efforts of 30 personnel and coordinated recovery efforts with Pinellas County, Florida and multiple incorporated cities within Pinellas County, Florida. In addition, Mr. Nobs supported and coordinated 15 personnel for vegetation removal and hazard tree mitigation. He directly supervised crews who cleared over 327,000 cubic yards of vegetation from roads and right of ways. Mr. Nobs also closed out the project and oversaw all demobilization activities in coordination with the municipalities and prime contractor.

Compensation Schedule

Cost of Services

Thompson has invested considerable resources in order to improve the efficiency of our administrative and accounting services as well as our logistical operations. In turn, we pass on these efficiencies to our clients in the form of cost savings and no-cost services. We understand the importance of minimizing costs and as such will not charge the County for positions that are duplicative in nature or unnecessary to perform the scope of services requested.

Thompson has completed and included Addendum #6 Revised Attachment B: Compensation Schedule in the subsequent pages of this section.

ADDENDUM #6, REVISED ATTACHMENT "B"
COMPENSATION SCHEDULE

Hourly Labor Rates for Disaster Debris Monitoring Services
CONTRACTOR will be compensated on the actual hours of services furnished multiplied by the rates listed in Table 1 below.

Table 1: Hourly Labor Rates

Labor Category	Hourly Billing Rate
Principal -In-Charge	$ 65.00
Project Manager	$ 62.50
Deputy Project Manager	$ 56.00
Operations Manager	$ 49.00
Field Supervisor	$ 49.00
GIS Operator	$ 55.00
Disposal Site Monitor	$ 35.00
Collection Monitor	$ 35.00
Citizen Drop-off Site Monitor	$ 34.00
Billing/Invoicing/Data Manager	$ 55.00
Load Ticket Data Entry Clerk	$ 18.50
Project Coordinator	$ 18.50
GRAND TOTAL	$ $ 532.50

In accordance with 2 CFR 200 Subpart E, Hourly labor rates shall be direct labor hours charged at fixed hourly rates that reflect wages, general and administrative expenses, travel (mileage, lodging, per diem, etc.), and profit.

Reimbursable costs are allowed if pre-approved by the County. These costs are limited to office equipment/supplies, office space, cameras, GPS equipment, safety equipment and any other items requested by the County that is not part of the normal work function.

Subcontractor services will be reimbursed at actual costs.

***For items not listed, the County will only pay FEMA approved rates**
**Hourly rates cannot exceed FEMA approved rates

EMPLOYMENT ELIGIBILITY VERIFICATION (E-VERIFY) CERTIFICATION

(Florida Statutes, Section 448.095)

PROJECT NAME: RFP No. 26-012 Disaster Debris Monitoring Services

The undersigned, as an authorized officer of the contractor identified below (the "**Contractor**"), having full knowledge of the statements contained herein, hereby certifies to Polk County, a political subdivision of the State of Florida (the "**County**"), by and on behalf of the Contractor in accordance with the requirements of Section 448.095, Florida Statutes, as related to the contract entered into by and between the Contractor and the County on or about the date hereof, whereby the Contractor will provide labor, supplies, or services to the County in exchange for salary, wages, or other remuneration (the "**Contract**"), as follows:

1. Unless otherwise defined herein, terms used in this Certification which are defined in Section 448.095, Florida Statutes, as may be amended from time to time, shall have the meaning ascribed in said statute.

2. Pursuant to Section 448.095(5), Florida Statutes, the Contractor, and any subcontractor under the Contract, must register with and use the E-Verify system to verify the work authorization status of all new employees of the Contractor or subcontractor. The Contractor acknowledges and agrees that (i) the County and the Contractor may not enter into the Contract, and the Contractor may not enter into any subcontracts thereunder, unless each party to the Contract, and each party to any subcontracts thereunder, registers with and uses the E-Verify system; and (ii) use of the U.S. Department of Homeland Security's E-Verify System and compliance with all other terms of this Certification and Section 448.095, Fla. Stat., is an express condition of the Contract, and the County may treat a failure to comply as a material breach of the Contract.

3. By entering into the Contract, the Contractor becomes obligated to comply with the provisions of Section 448.095, Fla. Stat., "Employment Eligibility," as amended from time to time. This includes but is not limited to utilization of the E-Verify System to verify the work authorization status of all newly hired employees, and requiring all subcontractors to provide an affidavit attesting that the subcontractor does not employ, contract with, or subcontract with, an unauthorized alien. The Contractor shall maintain a copy of such affidavit for the duration of the Contract. Failure to comply will lead to termination of the Contract, or if a subcontractor knowingly violates the statute or Section 448.09(1), Fla. Stat., the subcontract must be terminated immediately. If the Contract is terminated pursuant to Section 448.095, Fla. Stat., such termination is not a breach of contract and may not be considered as such. Any challenge to termination under this provision must be filed in the Tenth Judicial Circuit Court of Florida no later than 20 calendar days after the date of termination. If the Contract is terminated for a violation of Section 448.095, Fla. Stat., by the Contractor, the Contractor may not be awarded a public contract for a period of 1 year after the date of termination. The Contractor shall be liable for any additional costs incurred by the County as a result of the termination of the Contract. Nothing in this Certification shall be construed to allow intentional discrimination of any class protected by law.

EXHIBIT "A"

CERTIFICATIONS REGARDING DEBARMENT, SUSPENSION, PROPOSED DEBARMENT, AND OTHER RESPONSIBILITY MATTERS

For all awards, subawards, and contracts with certain parties that are debarred, suspended, or otherwise excluded from or ineligible for participation in Federal assistance programs and activities, the Offeror must complete and sign the following:

The Offeror certifies, to the best of its knowledge and belief, that-

(1) This contract is a covered transaction for purposes of 2 C.F.R. pt. 180 and 2 C.F.R. pt. 3000. As such the contractor is required to verify that none of the contractor, its principals (defined at 2 C.F.R. § 180.995), or its affiliates (defined at 2 C.F.R. § 180.905) are excluded (defined at 2 C.F.R. § 180.940) or disqualified (defined at 2 C.F.R. § 180.935).

(2) The contractor must comply with 2 C.F.R. pt. 180, subpart C and 2 C.F.R. pt. 3000, subpart C and must include a requirement to comply with these regulations in any lower tier covered transaction it enters into.

(3) This certification is a material representation of fact relied upon by Polk County, a political subdivision of the State of Florida (the "County"). If it is later determined that the contractor did not comply with 2 C.F.R. pt. 180, subpart C and 2 C.F.R. pt. 3000, subpart C, in addition to remedies available to the Florida Division Emergency Management, the County, and the Federal Government may pursue available remedies, including but not limited to suspension and/or debarment.

(4) The bidder or proposer agrees to comply with the requirements of 2 C.F.R. pt. 180, subpart C and 2 C.F.R. pt. 3000, subpart C while this offer is valid and throughout the period of any contract that may arise from this offer. The bidder or proposer further agrees to include a provision requiring such compliance in its lower tier covered transactions.

DATE: 12/29/2025

EXHIBIT "B"

APPENDIX A, 44 C.F.R. PART 18 – CERTIFICATION REGARDING LOBBYING

Certification for Contracts, Grants, Loans, and Cooperative Agreements

(To be submitted with each bid or offer exceeding $100,000)

The undersigned Thompson Consulting Services, LLC (Contractor) certifies, to the best of his or her knowledge, that:

1. No Federal appropriated funds have been paid or will be paid, by or on behalf of the undersigned, to any person for influencing or attempting to influence an officer or employee of an agency, a Member of Congress, an officer or employee of Congress, or an employee of a Member of Congress in connection with the awarding of any Federal contract, the making of any Federal grant, the making of any Federal loan, the entering into of any cooperative agreement, and the extension, continuation, renewal, amendment, or modification of any Federal contract, grant, loan, or cooperative agreement.

2. If any funds other than Federal appropriated funds have been paid or will be paid to any person for influencing or attempting to influence an officer or employee of any agency, a Member of Congress, an officer or employee of Congress, or an employee of a Member of Congress in connection with this Federal contract, grant, loan, or cooperative agreement, the undersigned shall complete and submit Standard Form- LLL, "Disclosure Form to Report Lobbying," in accordance with its instructions.

3. The undersigned shall require that the language of this certification be included in the award documents for all subawards at all tiers (including subcontracts, subgrants, and contracts under grants, loans, and cooperative agreements) and that all subrecipients shall certify and disclose accordingly.

This certification is a material representation of fact upon which reliance was placed when this transaction was made or entered into. Submission of this certification is a prerequisite for making or entering into this transaction imposed by 31, U.S.C. § 1352 (as amended by the Lobbying Disclosure Act of 1995). Any person who fails to file the required certification shall be subject to a civil penalty of not less than $10,000 and not more than $100,000 for each such failure.

The Contractor, Thompson Consulting Services, LLC, certifies or affirms the truthfulness and accuracy of each statement of its certification and disclosure, if any. In addition, the Contractor understands and agrees that the provisions of 31 U.S.C. § 3801 *et seq.*, apply to this certification and disclosure, if any.

Drug-Free Workplace Form

(Submittal Page)

The undersigned vendor in accordance with Florida Statue 287.087 hereby certifies that, (Name of the Business): Thompson Consulting Services, LLC does:

1. Publish a statement notifying employees that the unlawful manufacture, distribution, dispensing, possession or use of a controlled substance is prohibited in the workplace and specifying the actions that will be taken against employees for violations of such prohibition.
2. Inform employees about the dangers of drug abuse in the workplace, the business's policy of maintaining a drug-free workplace, any available drug counseling, rehabilitation programs, employee assistance programs and the penalties that may be imposed upon employees for drug abuse violations.
3. Give each employee engaged in providing the commodities or contractual services that are under this RFP a copy of the statement specified in subsection (1).
4. In the statement specified in subsection (1), notify the employees that, as a condition of working on the commodities or contractual services that are under this RFP, the employee will abide by the terms of the statement and will notify the employer of any conviction of, plea of guilty or nolo contendere to, any violation of Chapter 1893 or of any controlled substance law of the United States or any state, for a violation occurring in the workplace no later than five (5) days after such conviction.
5. Impose a sanction on or require the satisfactory participation in a drug abuse assistance or rehabilitation program, if such is available in the employee's community, by any employee who is so convicted.
6. Make a good faith effort to continue to maintain a drug-free workplace through implementation of this section.

As the person authorized to sign the statement, I certify that this firm complies fully with the above requirements.

EVENT PERFORMANCE BOND

PERFORMANCE BOND

KNOW ALL MEN BY THESE PRESENTS: That _____, as Principal, and _____ as Surety, located at _____ (Business Address) are held and firmly bound unto Polk County, a political subdivision of the State of Florida, as Obligee, in the sum of _____Dollars ($_____) in lawful currency of the United States, for the payment whereof we bind ourselves, successors, and assigns, jointly and severally, firmly by these presents.

THE CONDITION OF THIS BOND is that if the Principal:

Promptly, faithfully, efficiently and fully performs all work, services, duties and obligations set forth and described in that certain Disaster Debris Monitoring Services Agreement #_____ (the "Agreement") dated _____ between Principal and Obligee for performance of debris monitoring at any County location arising from damage caused by _____, at the times and in the manner prescribed in the Agreement; and

Pays Obligee all losses, damages (liquidated or actual), expenses, costs, and attorney's fees, including, without limitation, costs and attorney's fees on appeal, that Obligee sustains resulting directly or indirectly from any breach or default by Principal under the Agreement; and

Performs the guarantee of all work and materials furnished under the Agreement for the time specified therein; and

Satisfies all claims and demands incurred under the Agreement, and fully indemnifies and holds harmless the Obligee from all costs and damages which it may suffer by reason or failure to do so;

then the Surety shall have no obligation under this Performance Bond.

In the event that the Principal shall fail to perform any of the terms, covenants and conditions of the Agreement during the period in which this Performance Bond is in effect, the Surety shall remain liable to the Obligee for all such loss or damage (including reasonable attorney's fees and costs and attorney's fees on appeal) resulting from any failure to perform up to the amount of the sum stated above.

In the event that the Surety fails to fulfill its obligations under this Performance Bond, then the Surety shall also indemnify and hold the Obligee harmless from any and all loss, damage, cost and expense, including reasonable attorney's fees and costs for all trial and appellate proceedings, resulting directly or indirectly from the Surety's failure to fulfill its obligations hereunder. This paragraph shall survive the termination or cancellation of this Performance Bond.

The Surety, for value received, hereby stipulates and agrees that its obligations hereunder shall be direct and immediate and not conditional or contingent upon the Obligee's pursuit of its remedies against Principal, shall remain in full force and effect notwithstanding (i) amendments or modifications to the Agreement entered into by Obligee and Principal without the Surety's knowledge or consent (ii) waivers of compliance with or any default under the Agreement granted by Obligee to Principal without the Surety's knowledge or consent, or (iii) the discharge of Principal from its obligations under the Agreement as a result of any proceeding initiated under the Bankruptcy code of 1978, as the same may be amended, or any similar state or federal law, or any limitation of the liability or Principal or its estate as a result of any proceeding.

Any changes in or under the Agreement and compliance or non-compliance with any formalities connected with the Agreement or the changes shall not affect Surety's obligation under this Performance Bond. The Principal shall notify the Surety of all such changes.

Reference is hereby made to Section 255.05, Florida Statutes, and to the notice and time limitation provisions thereof.

Agenda Item R.35. 6/16/2026

SUBJECT

Approve Amendment No. 2 to Master Agreement 21-047 with N. Harris Computer Corporation ($99,450 one-time expense and $7,875 recurring annual expense)

DESCRIPTION

On June 1, 2021, the Board approved an agreement with N. Harris Computer Corporation (“Harris”) for software support and maintenance of the Utilities Division’s new customer service billing software.

On April 4, 2023, the Board approved Amendment No. 1 to clarify the reimbursement of mileage and associated travel costs incurred by Harris in its performance of the services.

The Utilities Division has requested to upgrade its current version of ServiceLink software, the mobile workforce and service order tracking software used by customer service, to the most recent version known as ServiceLink version 8. This Amendment No. 2 incorporates these updated services to the Master Agreement.

The new version contains upgrades and additional functionality not available in the current software and provides for the ability to take advantage of future enhancements currently being developed by the vendor. This upgrade will provide the latest generation interface capabilities, implements dash boards to provide real time technician productivity monitoring, introduces artificial intelligence to validate meter readings and other captured field images limiting human error inputs, and lays the groundwork for future functionality to be incorporated.

One of the future enhancements anticipated is advanced Geographic Information System and Automatic Vehicle Location capabilities allowing for real time tracking and routing of service technicians. This future enhancement will route the technicians taking into account real time traffic conditions in addition to the orders that have been assigned to the technician.

RECOMMENDATION

Request Board approve Amendment No. 2 to Master Agreement 21-047 with N. Harris Computer Corporation.

FISCAL IMPACT

Funds are available in the Utilities Division Community Investment Projects budget.

MASTER AGREEMENT
#21-047
AMENDMENT #2

This Amendment #2 (Amendment"), effective as of execution by the Organization (the "Effective Date"), is hereby entered into by and between Polk County, a political subdivision of the State of Florida, ("Organization"), situated at 330 W. Church Street, Bartow, Florida 33830, and N. Harris Computer Corporation, ("Harris"), a Canadian corporation, headquartered at 1 Antares Drive, Suite 400, Ottawa, Ontario K2E 8C4 and whose Federal Employer Identification Number is 98-0141520.

WITNESSETH:

WHEREAS, the Organization and Harris entered into Master Agreement #21-047 dated June 1, 2021 (the "Agreement") for the software license, services and support and maintenance related to Customer Information System (CIS) for the Polk County Utilities Division, which is more fully set out in the Agreement; and

WHEREAS, the Organization and Harris executed Amendment #1 dated April 4, 2023 (the "Agreement") to clarify the reimbursement of mileage and associated travel costs incurred by Harris in its performance of the Agreement Services, which is more fully set out in the Agreement; and

WHEREAS, the parties wish to revise the Agreement to add upgrade services and new software modules to the software and services provided by Harris in its performance of the Agreement Services, as further set forth below.

NOW, THEREFORE, the Organization and Harris hereby agree as follows:

1. The recitals stated above are true and correct and are fully incorporated herein.

2. Harris will provide services to upgrade the Organization's environment from ServiceLink Version 7.X to Version 8 ("V8 Platform Refresh"). Additional routine minor updates within Version 8 (e.g., 8.1, 8.2) will continue to be provided at no additional cost. Harris will also add new modules to include AI Image Validation and Image Server modules to the Organization's existing ServiceLink environment. These new services/modules and the associated costs are more fully described in Exhibit "A" – Statement of Work, attached herein.

3. The Agreement, as amended by this Amendment #2, continues in full force and effect.

2 Introduction

Polk County has selected Advanced Utility Systems, an unincorporated division of N. Harris Computer Corporation ("Harris") as its vendor partner of choice to assist in the implementation of a Mobile Workforce Management (MWM) solution: Service-Link.

Polk County and Harris, have proposed a joint team to collaboratively implement Service-Link. The solution will be implemented using a combination of resources from both organizations. Except as otherwise expressly set for herein, this Scope of Work ("SOW") shall be subject to the terms and conditions of the Master Agreement between Polk County and Harris dated June 1, 2021. These agreements are effective upon signature by and between Harris and Polk County and are hereby incorporated by reference. In the event of a conflict between this SOW and the Master Agreement, this SOW shall control. To the extent a capitalized word is used in this SOW, should it not be properly defined herein, then it shall have the meaning attributed to it in the Master Agreement.

This SOW defines the work to be performed by Harris and Polk County for the project. This SOW includes a scope definition, high-level timeline, fees, and other terms and conditions specific to the services requested by Polk County. "The Engagement" shall mean the performance by Harris of the services described in this SOW.

Service-Link is an off-the-shelf, Mobile Workforce Management (MWM) software product that can be configured to meet unique customer requirements. Standard software and configurations to be made have been specifically identified in Section 2 of this SOW. Any standard product functionality or configurations not outlined within this SOW are considered out of scope for this project. Polk County expects that the software will perform substantially in accordance with standard product functionality as outlined in Section 2.

IN WITNESS WHEREOF, a duly authorized representative of each party has executed this Scope of Work on the Effective Date:

Polk County	**N. Harris Computer Corporation**
Name: _____ *(Signature)*	Name: _____ *(Signature)*
Name: _____ *(Print)*	Name: _____ *(Print)*
Title: _____	Title: _____
Date: _____	Date: _____

3 Project Overview

This Scope of Work (SOW) outlines the services ServiceLink will provide to upgrade Polk County's environment from ServiceLink Version 7.X to Version 8 ("V8 Platform Refresh").

The objective of this engagement is to ensure a smooth, secure, and efficient transition to V8, positioning the Customer to take full advantage of new features, enhanced security, improved user experience, and ongoing product innovation.

This project is a one-time migration effort. Routine minor updates within Version 8 (e.g., 8.1, 8.2) will continue to be provided at no additional cost.

ServiceLink will also add the AI Image Validation and Image Server modules to the Customer's ServiceLink Version 8 environment to enhance operational efficiency, image validation, and photo management capabilities.

3.1 ServiceLink Version 8 Platform Refresh Enhancements

ServiceLink Version 8 ("V8") represents a major platform refresh, delivering a more modern user experience, stronger technical foundation, and new capabilities that improve both day-to-day efficiency and long-term scalability. These enhancements ensure utilities can continue to rely on ServiceLink as their core mobile workforce platform while preparing for future innovations. Core enhancements include:

- Next-Gen Interface (New UI/UX): V8 introduces a redesigned, responsive interface built with customer feedback:
    - Cleaner, modern design optimized for both desktops and tablets
    - Responsive dispatch layout supporting multiple device types
    - Support for light mode, dark mode, and CIS-branded themes
    - Updated dispatcher tools and color theming to simplify job tracking and improve decision-making speed
- Dashboards & Analytics: Real-time dashboards display order counts, missed appointments, on-time percentages, and FSR productivity at a glance. Highlight bottlenecks and improvement opportunities without the need for custom reports.
- Workflow Visualization: View our workflow tool (Workflow Studio 2) directly within V8, for a clearer, more powerful way to visualize and manage workflows.
- Enhanced Security & Stability: Updated architecture provides stronger authentication, improved reliability, and ongoing support for modern operating systems and databases.
- Enhanced User Role Management: Expanded tools for configuring and maintaining user access, making administration faster and more consistent.
- Internationalization & Localization: Expanded support for global use, including multiple language support, and date, time, and number formatting aligned with regional standards.

- Integration Enhancements: Expanded support for secure and simplified external integrations, including token creation support for third-party applications, role-based access control for generated tokens, simplified API authentication through token-based access.
- Mobile Standardization: V8 supports only the New ServiceLink Mobile application, ensuring all customers have a consistent, modern mobile platform. The New ServiceLink Mobile provides access to new V8 features and a more reliable, supportable foundation for future mobile enhancements.
- Future-Ready Capabilities: V8 lays the groundwork for advanced functionality (at an additional cost) including AI-powered image validation, Advanced GIS and AVL integrations, and support for complex, multi-stage "long-cycle" projects (e.g., construction and main replacements), enabling utilities to manage crews, equipment, materials, and costs across dependent tasks within ServiceLink.

3.2 AI Image Validation

Introduces artificial intelligence to validate meter readings and other captured field images. By comparing photos against entered values, the system automatically flags mismatches and reduces errors that can lead to incorrect billing or unnecessary follow-up work. This functionality integrates directly into the field workflow, allowing supervisors to review and confirm readings with photo evidence.

The Client will be responsible for providing a minimum of 100 images per asset type (e.g., per meter model) to train the validation model. ServiceLink will configure the AI module based on the assets included in scope. Each distinct asset type (such as meters, transformers, or other field assets) represents a separate configuration and associated cost. Additional professional services hours will be required for the configuration of each new object type added for AI validation.

The Client acknowledges that the AI module uses machine learning algorithms to analyze and process data from completed forms, including images and text, to identify potential errors and suggest completions (the "Suggestions"). The Client understands that while the AI module is designed to improve accuracy and efficiency, it is not perfect and may make mistakes.

The Client agrees that ServiceLink shall not be liable for any errors, inaccuracies, or omissions in the Suggestions provided by the AI module. The Client acknowledges that a human reviewer will validate the Suggestions before they are accepted or rejected, but ServiceLink shall not be responsible for any consequences arising from the Client's reliance on the Suggestions.

The Client grants ServiceLink a non-exclusive, royalty-free license to use, reproduce, modify, and distribute the data and images from completed forms solely for the purpose of training and improving the AI module. The Client represents and warrants that it has all necessary rights and permissions to grant this license.

In no event shall ServiceLink be liable for any damages, including but not limited to incidental, consequential, or punitive damages, arising out of or related to the use of the AI module or the Suggestions.

3.3 Image Management Server

Centralizes the storage and retrieval of photos taken during order completion. Users can quickly search images by premise, address, meter number, or other identifiers, rather than opening individual orders. By offloading image handling to a dedicated system, supervisors and admins can review and validate photos more efficiently while ensuring production performance is not impacted.

This module requires a separate server instance to support image storage and search functionality. The minimum requirements for such server are as follows:

Minimum Hardware Requirements	Minimum Software Requirements
8-Core CPU RAM 16 GB, Disk: 500GB+	OS: Windows Server 2019 standard or higher (Windows Server 2022 recommended) (or) Ubuntu 22 or 24 (or) Oracle Linux 8 or 9

4 Hosting

Polk County will be responsible for providing the hosting environment for ServiceLink Image Management Server.

5 Scope of Services

ServiceLink, a division of N. Harris Computer Corporation, will provide the following services remotely:

- Project Management: Project management fees are included for this solution.
- Installation and configuration of ServiceLink AI Image Validation and Image Management Server Software
- Testing in training and production environment
- Customer validation and UAT support
- Go-Live support
- Training will be provided through structured dispatcher and field training sessions. If onsite training is required, a change order will need to be provided for travel and actual travel expenses.

This agreement includes a pre-defined number of configurations, project management and testing hours. If the project scope is expanded to include new services, or special requirements such as add on modules, ServiceLink will issue a change order for additional hours and/or fees at our current labor rate.

5.1 Pre-Upgrade Assessment & Planning

Before technical work begins, ServiceLink will conduct a readiness assessment to reduce risk and align timelines. Activities include:

- Environmental Review: Assess OS and database versions; confirm alignment with ServiceLink's recommended standards.
- Customization & Integration Audit: Identify existing integrations, translators, and customizations that may be impacted.
- ServiceLink Mobile Status: Confirm whether the Customer requires migration from a legacy mobile app.
- Resource Allocation: Confirm availability of Customer resources for UAT, training, and project coordination.
- Capacity Planning: Review server specifications to ensure scalability for growth and alignment with V8 Minimum Hardware and Software Requirements.

5.2 Server Upgrade

ServiceLink will install and configure ServiceLink V8 on new environments provided by the Customer. Deploying to new servers ensures a clean installation while the existing V7 environment remains intact for rollback until migration is complete.

- Underlying Infrastructure Preparation
    - Operating System & Database Upgrades (as applicable): Upgrade to ServiceLink-recommended OS and database versions (critical prerequisite for optimal V8 performance and support).
- ServiceLink V8 Application Installation
    - Install, configure, and validate ServiceLink V8 on prepared servers.
- Server Types
    - Production Server: Installation, configuration, and validation
    - Test Server: Installation, configuration, and validation · Requirements Reference: All servers must meet or exceed V8 Minimum Hardware and Software Requirements.

5.3 Mobile Upgrade

ServiceLink V8 supports the New ServiceLink Mobile as the sole mobile application for field staff. Customers currently using ServiceLink mobile applications prior to Field Force (legacy mobile applications) will be required to transition to the New ServiceLink Mobile in order to complete the V8 platform refresh.

- Customers on Field Force
    - ServiceLink will provide training to support dispatchers and field staff in adopting Version 8.
- Customers on legacy mobile applications
    - ServiceLink will perform the upgrade to the New ServiceLink Mobile and
    - Provide additional training to support adoption of the New ServiceLink Mobile application.

Note: The New ServiceLink Mobile upgrade is mandatory for customers not currently using Field Force. Additional training or customization beyond the included effort may be scoped separately through a change order.

5.4 Data Migration & Configuration

This phase ensures that all existing data, configurations, and integrations are migrated accurately and that the upgraded environment operates as expected in ServiceLink Version 8. The focus is on maintaining data integrity, minimizing disruption, and confirming that all functionality is properly aligned to the new platform architecture. The scope of work includes:

5.4.1 Application & Database Backup

ServiceLink will perform comprehensive backups of the existing application and database prior to the migration. This step ensures a reliable rollback path in the unlikely event of a critical issue during the upgrade.

5.4.2 Data Migration

Existing ServiceLink data will be migrated to the Version 8 schema, maintaining data accuracy and structure. User roles and authentication settings will be migrated using ServiceLink's established migration tools.

5.4.3 Translator Migration

All existing translators will be migrated from the legacy CIS-specific microservice to the standard ServiceLink JavaScript framework. This step is mandatory for customers currently using Advanced microservices, as those legacy translator types are being discontinued.

This migration eliminates the complexity of maintaining a separate CIS microservice, reduces points of failure, and ensures a more reliable and supportable integration long term. It also aligns customers with the same modernized integration framework used by other ServiceLink CIS partners.

- Migration of CIS-specific translator configurations into the standard ServiceLink JavaScript framework.
- Validation of migrated data and translator functionality.
- Cleanup or archival of obsolete translator configurations.

5.4.4 Configuration Updates

System configurations will be reviewed and updated to align with ServiceLink Version 8 standards and best practices. This includes recreation of scheduled jobs, subscriptions, and workflows where automated migration is not possible.

5.4.5 Integration Reconfiguration

Any integrations impacted by the migration will be reviewed and reconfigured to ensure full compatibility with the Customer's CIS and external systems.

5.4.6 Validation & Data Integrity Checks

ServiceLink will conduct validation and integrity checks to verify that data, configurations, and integrations have migrated successfully and that the upgraded environment is functioning as intended.

5.5 Customer-Specific Testing & Validation

Comprehensive testing is a critical phase of the upgrade process and ensures that ServiceLink Version 8 operates as intended within the Customer's environment. This phase confirms the integrity of migrated data, validates configuration accuracy, and verifies that key business processes perform correctly before go-live.

5.5.1 Functional Testing

ServiceLink will execute a comprehensive suite of functional tests to verify that all core ServiceLink features, configurations, and workflows are operating as expected. Testing will also confirm successful migration of translators, integrations, and system dependencies.

5.5.2 User Acceptance Testing (UAT)

ServiceLink will collaborate with the Customer to facilitate UAT, providing guidance and support as the Customer validates business processes in the upgraded environment. The Customer is responsible for executing UAT scenarios and confirming that results align with operational requirements.

ServiceLink will provide UAT support during this period. If additional testing support is required or the UAT period extends beyond three (3) weeks, additional effort will be billed under a separate change order.

5.5.3 Performance Testing

ServiceLink will perform baseline performance testing to verify system responsiveness and scalability under expected usage conditions.

5.6 Rollback Plan

While ServiceLink strives for a seamless upgrade experience, a defined rollback plan is maintained to mitigate risk.

- Backup Restoration: In the event of a critical issue during or immediately following migration, ServiceLink will restore the pre-upgrade ServiceLink application and database backups to return the system to its last known stable state.
- Communication Protocol: Prior to go-live, ServiceLink and the Customer will establish clear communication channels and escalation protocols to be followed in the unlikely event a rollback is necessary.

This plan ensures that a tested and verified recovery option exists before proceeding with the production cutover.

5.7 Support, Training, and Go-Live

This phase focuses on preparing users for the upgraded platform and ensuring a smooth transition to ServiceLink Version 8. ServiceLink will provide comprehensive training, coordinate go-live activities, and deliver post-go-live support to ensure operational stability.

- Dispatcher Training: ServiceLink will train dispatchers on the updated V8 interface and workflows. Training will focus on navigating the new user interface, applying filters, managing orders, and using new productivity features introduced in Version 8.
- Mobile Training: ServiceLink will providetraining sessions to support use of the New SerivceLink Mobile application, including core workflows and day-to-day functionality.
- Go-Live Coordination: ServiceLink will coordinate the official go-live in collaboration with the Customer, ensuring clear scheduling, communication, and readiness across all teams.
- Post-Go-Live Support: ServiceLink will provide production cutover assistance and stabilization following go-live to address any immediate issues or questions. Additional post-go-live support can be scoped separately if extended assistance is required.

Training and support effort may vary based on the number of users or the complexity of the Customer's environment. If the Customer's training or post-go-live needs exceed the scope outlined above, additional hours may be billed via change order.

6 Customer Responsibilities

To ensure the success of the V8 Platform Refresh, the Customer is expected to:

- Provision Infrastructure: Provide new servers or virtual environments that meet ServiceLink's Minimum Hardware and Software Requirements. Servers must be available for configuration prior to the scheduled upgrade window.
    - If the Customer's ServiceLink environment is hosted by their CIS partner, the CIS will be responsible for providing the hosting environment and for including any associated hosting fees within their own pricing to the Customer.
- Backup Coordination: Confirm that internal or hosted backup procedures are active and accessible for rollback scenarios. ServiceLink will perform application and database backups as part of the migration, but Customer is responsible for ensuring any organization-wide backup policies remain in place.
- Provide Test Data and Access: Supply representative test data, system access, and any required credentials for ServiceLink staff.
- System Access & Coordination: Providing ServiceLink with necessary system access, documentation, and scheduling for integration testing.
- Assign Testing Resources: Allocate staff to perform UAT testing. ServiceLink will support this effort but cannot conduct UAT on the Customer's behalf.
- Timely Feedback: Provide prompt feedback during testing and validation phases to allow the project to remain on schedule.
- Manage Partner Participation: Ensure their CIS partner participates in required activities outlined in the Partner Responsibilities section.

7 AUS Responsibilities

All professional services contained in this Scope of work will be delivered by ServiceLink.

8 Deliverables

At the conclusion of this engagement, the following will be delivered:

- Configured ServiceLink V8 environments (Production and Test).
- Migrated and validated data, roles, and workflows.
- Updated translator configurations.
- Verified rollback plan and validated application/database backups prior to go-live.
- Mobile upgrade to the New ServiceLink Mobile.
- Dispatcher and field training sessions.
- Supported UAT and production go-live.
- Project completion sign-off.

9 Acceptance Criteria

- ServiceLink V8 environments are installed, configured, and validated against minimum requirements.
- Data and configurations migrated successfully with integrity checks completed.
- Baseline performance testing completed with acceptable results.
- Rollback plan validated and confirmed by the customer prior to production cutover.
- Training delivered to Customer-designated staff.
- Customer confirms successful UAT completion.
- Go-live completed and system stabilized.

10 Out of Scope

The following items are not included in this SOW:

- Training beyond the included dispatcher and field training sessions.
- Customer's own UAT execution and validation effort.
- Additional server environments beyond those listed in scope.
- Rollback or restoration effort resulting from Customer infrastructure issues or unsupported environments beyond those covered under the defined rollback plan.
- Integration or translator adjustments beyond the baseline AUS migrations outlined in this document.
- Any effort required due to customer delays, infrastructure limitations, or third-party system issues.

Any items outside of scope will require a formal change order.

11 Project Timeline

The estimated duration of this engagement will depend on Customer readiness, availability of servers, and timely completion of UAT. Typical migrations are completed within 8–12 weeks, assuming Customer and partner resources are available as outlined.

Costs associated with extended UAT, additional training, or post-go-live support beyond the defined scope will be billed through a formal change order.

12 Fees and Payments

The following fees and payments are based on the scope outlined in Section 2.

Project fees are based on the estimated effort required to complete the migration as described. ServiceLink will provide a formal quote aligned to the scope of services and applicable customer type. Invoicing will follow the terms outlined in the Customer's agreement with ServiceLink.

12.1 One-time Costs

DESCRIPTION	FEES
Professional Services related to Harris Service-Link • Project Management • Business Analysis • Implementation • Configurations • Integrations • Testing • Training (Included at no cost) Additional Module Professional Services	$67,950
Additional Module License Fees	$31,500
TOTAL ONE-TIME FEES	**$99,450**

12.2 Annual Recurring Costs

DESCRIPTION	FEES
Maintenance and Support related to Harris Service-Link	$7,875
TOTAL ANNUAL RECURRING FEES	**$7,875/year**

12.3 Fees and Payment Assumptions

1. Price excludes any applicable taxes, duties, and fees.
2. Price does not include travel time or travel expenses, which are billed as incurred. Travel expenses typically include, but may not be limited to airfare, transportation, meals, and accommodations.
3. Any additional professional services may be offered at a rate of $260/hour.
4. Proposal is valid for 60 days from date of delivery and will then be considered expired. Project may need to be reassessed and re-quoted to ensure accuracy.
5. All invoices are payable within 45 days.
6. Recurring costs are based on a 5-year term and annual increases on recurring costs are limited to 5% or CPI, whichever is greater.
7. A user license is mandatory for any individual accessing the Harris' Service-Link software, irrespective of their role, including but not limited to Administrators, Dispatchers, Field Service Representatives (FSRs), or Customer Service Representatives (CSRs). The only exception to this requirement applies to users from Third-Party Partners or Harris Service-Link staff engaged in the installation, testing, or maintenance of the system. These users are exempt from user licensing.
8. In the event Polk County requires additional users beyond those identified within this SOW, Harris will provide a quote at that time.

12.4 Payment Milestones

Licenses:

100% on signature of execution of amendment	$31,500.00

Professional Services:

Milestone 1: Project Discovery & Readiness Assessment · Pre-Upgrade Assessment & Planning	$3,576.32
Milestone 2: System Infrastructure & Data Migration · Server Upgrade · Mobile Upgrade · Data Migration & Configuration · Application & Database Backup · Data Migration · Translator Migration · Configuration Updated · Integration Reconfiguration	$28,610.53

Milestone 3: Quality Assurance & User Acceptance Testing · Validation & Data Integrity Checks · Customer-Specific Testing & Validation · Functional Testing · User Acceptance Testing · Performance Testing	$17,881.58
Milestone 4: Operational Readiness & Go-Live Execution · Roll Back Plan · Dispatcher Training · Field Training · Go-Live Coordination	$14,305.26
Milestone 5: Post-Implementation Stabilization & Support · Month long post go-live support	$3,576.31

Maintenance and Support:

100% on Initial Software Installation	$7,875.00

13 Change Management

Any changes to this scope of work must be documented and agreed upon in writing via a formal change order, including changes related to testing duration, training, environment counts, or additional integrations.

14 Legal Terms and Conditions

Authorization

Signature indicates the parties have read, understood and agreed to all the contents of this agreement.

The pricing in this agreement is valid until March 30, 2026.

Under no circumstances shall ServiceLink be liable for any special, indirect, consequential, punitive or incidental damages of any kind and shall not be liable for loss of profits, work stoppage, system failure or malfunction, loss of data or any other damages or losses in connection with this Scope of work. ServiceLink shall not be liable to pay any amount, in the aggregate, that is greater than the fees received by ServiceLink under this agreement.

15 Appendices

15.1 ServiceLink Version 8 Technical Specifications

15.1.1 Hardware Requirements

15.1.1.1 Option#1: ServiceLink application and database on the same server

System Component	Minimum hardware requirements	Software requirements
ServiceLink Application Server	32-Core CPU RAM 64 GB, Disk: 1TB+	OS: Windows Server 2019 standard or higher (Windows Server 2022 recommended) (or) Ubuntu 22 or 24 (or) Oracle Linux 8 or 9 Database: SQL Server 2016 or higher (SQL Server 2022 recommended) (or) Oracle 19c or 21c

Note: Two (2) of these servers (Option 1 or 2) are required: Test and Production.

15.1.1.2 Option#2: ServiceLink application on one server and database in a shared environment

System Component	Minimum hardware requirements	Software requirements
ServiceLink Application Server	16-Core CPU RAM 32 GB, Disk: 500GB+	OS: Windows Server 2019 standard or higher (Windows Server 2022 recommended) (or) Ubuntu 22 or 24

System Component	Minimum hardware requirements	Software requirements
		(or) Oracle Linux 8 or 9 (or) Oracle Linux 8 or 9

Note: Two (2) of these servers (Option 1 or 2) are required: Test and Production.

15.1.1.3 Option#3: ServiceLink running in Azure using Azure SQL

System Component	Operational Parameters	Software requirements
ServiceLink Database Azure SQL	The minimum is Azure SQL Standard NEVER Basic	
	For small (less than 10 users/ less than 100 orders/day)	S1
	Up to 25 Users, 500 orders/day	S2
	Up to 100 Users, 1000 orders/day	S3
	Over 100 users	P Levels are appropriate. Contact ServiceLink for assistance. This will also depend on the number of orders.

15.1.1.4 Option#4: ServiceLink running in Amazon Web Services (AWS) with SQL Server

The ServiceLink team opts for this option when it needs to host for the customer.

15.1.1.4.1 Test and UAT (if needed) Environments

System Component	Operational Parameters	Instances Size
AWS Application Load Balancer	N/A	
AWS Web Application Firewall		
Test Application Server and Test Database		t3a.2xlarge Linux instance with 550 GB Storage
S3 Storage		

15.1.1.4.2 Production Environment

System Component	Operational Parameters	Instances Size
AWS Application Load Balancer		

System Component	Operational Parameters	Instances Size
AWS Web Application Firewall		
Production Database Server	Regular Deployment - Up to 25 Users, 500 orders/day	c6i.2xlarge instance with 750 GB drive Linux instance with SQL Server 2022 standard
	Large Deployment - Up to 100 Users, 1000 orders/day	c6i.2xlarge instance with 750 GB drive Linux instance with SQL Server 2022 standard
	Very Large Deployment - Greater than 100 Users, 1000 orders/day	c6i.4xlarge instance with 500 GB drive Linux instance with Server 2022 standard
Production Application Server	Regular Deployment - Up to 25 Users, 500 orders/day	c6i.2xlarge instance with 500 GB drive Linux instance
	Large Deployment - Up to 100 Users, 1000 orders/day	c6i.4xlarge instance with 500 GB drive Linux instance
	Very Large Deployment - Greater than 100 Users, 1000 orders/day	c6i.4xlarge instance with 500 GB drive Linux instance
S3 Storage	a. Store daily database backups b. Store daily runtime image backups c. Store work order images	

15.1.2 Software Requirements

Name	Version	Comments
MSMQ (Microsoft Message Queueing)	N/A	Windows feature needs to be enabled.
JRE	Java 8 Update 292	Included with the build
Erlang OTP	20.3+	
RabbitMQ Server	3.8.0+	Latest version tested: 3.9.12
NGNIX	1.17.5+	Proxy/Load balancing tool. SSL Certificate to be provided by the customer.

Name	Version	Comments
Access to Firebase server https://fcm.googleapis.com/fcm/send	N/A	ServiceLink uses Firebase for push notifications (Only for iOS and Android clients) Access to Google Firebase Cloud is needed from the Application server as well as mobile devices.
Access to Monitoring tool URL: https://monitoring.ServiceLinkplatform.net Port: 5672	N/A	ServiceLink cloud based monitoring tool send notifications to support team if issues related to application outage found.
Google Chrome or Firefox	latest	Needed for verification purposes.
SQL Server Management Studio (SSMS)	17+	Needed for running SQL migration scripts during application install or upgrade.
Notepad++	7+	Nice to have, needed for making configuration changes.

15.1.3 Router Requirements

System Component	Minimum hardware requirements	Software requirements
ServiceLink Routing Server	8-Core CPU RAM 16 GB, Disk: 500GB+	OS: Windows Server 2019 standard or higher (Windows Server 2022 recommended) (or) Ubuntu 22 or 24 (or) Oracle Linux 8 or 9

15.1.4 Application Requirements

15.1.4.1 Dispatch Application

ServiceLink's Dispatch application is a web-based application, and it runs on any major modern browser. We recommend the following browsers:

- Google Chrome 41+
- Firefox 40+
- Safari 9+
- Opera 28+
- Microsoft Edge 45+ (when released out of Beta)

15.1.4.2 Mobile Application

15.1.4.2.1 Android

15.1.4.2.1.1 Software Requirements

System Component	Supported	Unsupported
Android Mobile		
Operating System	Recommended Android 7.1.2 and above. Reduced performance for Android versions below 7.1.2	Android 4.4.4 and below
Mapping	Google Play Services Accessible ServiceLink for Android uses the latest Google Maps components for mapping which require the device to have access to Google Play Services.	Non-Google Play accessible devices

15.1.4.2.1.2 Hardware Requirements

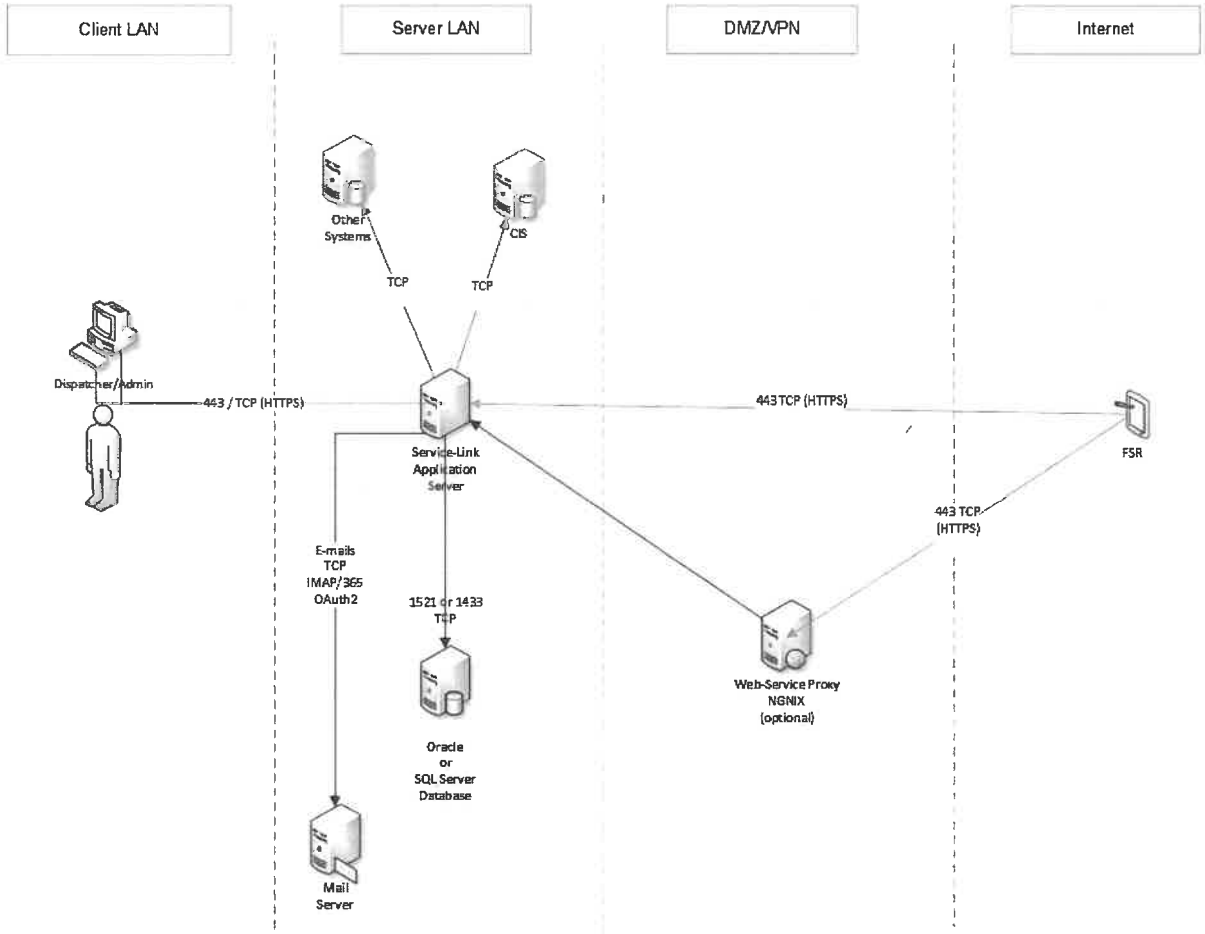
System Component	Example
10" Tablet form factor 7" Tablet form factor Phone form factor	Samsung Galaxy Tab S7 Google Pixel 5 Phone GPS required
Processor	Modern dual core or better processor
Memory	2GB + 4GB + recommended
Internet Access	3G, 4G, Wifi depending on need to be online at all times
Storage	32 GB or greater is recommended

15.1.4.2.2 iOS

We will support 1 major version back for iOS and iPad OS. (iOS 17 is the current version, we support iOS 16 and above). Any Apple device running on these OS versions will work with Service-Link. This gives one year notice for any devices aging out of Apple support.

System Component	Software Requirements
iPad	iPadOS 16.x+ iPad w/Cellular data required for GPS functionality
iPhone	iOS 16.x+

15.1.4.2.3 Windows



Minimum Hardware Requirements	Software Requirements
Dual-Core CPU RAM 4GB+, Disk: 128GB+	OS: Windows 10 Pro, 64-bit

15.1.4.2.4 Web (PWA)

Browser	Supported Operating Systems	Versions Supported
Google Chrome	Windows, macOS, Linux, Chrome OS	The current version and 1 major version back
Safari	iOS	The current version and 1 major version back
Microsoft Edge	Windows, macOS, Android	The current version and 1 major version back

Polk County

Board of County Commissioners

Agenda Item R.36. 6/16/2026

SUBJECT

Approve Interlocal Agreement with the Tohopekaliga Water Authority and the accompanying Resolution regarding utility service area boundaries in portions of unincorporated areas of eastern Polk County. (No fiscal impact)

DESCRIPTION

The Tohopekaliga Water Authority ("Toho") is an independent special district created by the Florida Legislature to provide potable and non-potable water and wastewater services within statutorily defined district boundaries. Portions of eastern unincorporated Polk County are included within Toho's district boundaries.

In 2025, the Florida Legislature passed House Bill 4057 which when signed into law became Chapter 2025-244, Laws of Florida. This legislation, which the County supported, extends Toho's district boundaries into additional unincorporated areas (the "Extended Toho Area") of northeast unincorporated Polk County near Poinciana.

The "Extended Toho Area" is not within Polk County Utilities service area, nor the service area of any other utility provider. The County does not provide potable water, reclaimed water, or wastewater services within the Extended Toho Area and has no plans to do so. For the extended Toho district boundaries to be effective, the Board of County Commissioners must adopt a Resolution authorizing Toho to provide these services within the Extended Toho Area. A proposed authorizing Resolution which includes a description and depiction of the Extended Toho Area is attached as part of this agenda item. In addition to the Resolution, Toho has requested the County enter into an Interlocal Agreement granting Toho an irrevocable right to provide potable water, wastewater, and reclaimed water services within the Extended Toho Area. The attached proposed agreement grants Toho those rights which can be terminated if the Florida Legislature later revises the Toho district boundaries to exclude all or any portion of the Extended Toho Area. The Interlocal Agreement also corrects a minor scrivener's error in the legal description of the Extended Toho Area.

RECOMMENDATION

Request Board approve the Interlocal Agreement with the Tohopekaliga Water Authority and the accompanying Resolution regarding utility service area boundaries in portions of unincorporated areas of eastern Polk County.

FISCAL IMPACT

No fiscal impact.

INTERLOCAL AGREEMENT
GRANTING TOHOPEKALIGA WATER AUTHORITY AN IRREVOCABLE RIGHT TO PROVIDE POTABLE WATER, WASTEWATER, AND RECLAIMED WATER SERVICES WITHIN CERTAIN UNINCORPORATED AREAS OF POLK COUNTY, FLORIDA

THIS INTERLOCAL AGREEMENT (the "Agreement") is made and entered into as of the Effective Date defined in Section 12 below, by and between Polk County ("County"), a political subdivision of the State of Florida, and the Tohopekaliga Water Authority ("Toho"), an independent special district established and created pursuant to Chapter 189, Florida Statutes, by special act of the Florida Legislature (each, a "Party;" together, the "Parties");

WHEREAS Section 163.01, Florida Statutes, the Florida Interlocal Cooperation Act of 1969, as amended, authorizes certain public agencies to enter into Interlocal Agreements for their mutual benefit; and

WHEREAS, Section 125.01, Florida Statutes, authorizes County to provide water, wastewater, and reclaimed water services (collectively, the "Water Utility Services"); and

WHEREAS, County provides Water Utility Services to unincorporated areas within the east and northeast geographic regions of Polk County through regional utility service areas which it has established and maintains within those regions; and

WHEREAS Toho provides Water Utility Services to customers within the City of Kissimmee, unincorporated areas of Osceola County, certain unincorporated areas of Orange County, and certain unincorporated areas of eastern Polk County; and

WHEREAS, in 2025 the Florida Legislature passed House Bill (HB) 4057, confirming and expanding the boundaries of Toho's service area (the boundaries as thereby expanded are the "Toho Service Area"), which was signed by the Governor and enrolled as Chapter 2025-244, Laws of Florida ("Chapter 2025-244"), effective June 6, 2025; and

WHEREAS, Toho has requested and the County has agreed to grant Toho those rights, powers, authority, privileges, and abilities the County possesses to provide Water Utility Services within that portion (the "Polk Portion") of the Toho Service Area located within unincorporated Polk County; and

WHEREAS, as required by Chapter 2025-244, the County is concurrently adopting a Resolution authorizing Toho to provide Water Utility Services within the Polk Portion of the Toho Service Area; and

WHEREAS, because the Parties have identified a scrivener's error within the Chapter 2025-244 legal description of the Polk Portion, they have modified the Polk Portion legal description (as corrected, the "Modified Polk Portion") within this Agreement and within the Chapter 2025-244 required Resolution to correct that error;

NOW, THEREFORE, in consideration of the terms, covenants, and conditions contained herein, and for other good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, the Parties mutually agree, as follows:

1. **Recitals.** The recitals stated above are true, correct, form an integral part of the Agreement, and are incorporated herein.

2. **Water Utility Services.**

a. Subject to the following stated conditions, the County hereby irrevocably and perpetually grants Toho those rights, powers, authority, privileges, and abilities the County possesses to be the provider of Water Utility Services within the Modified Polk Portion of the Toho Service Area as described and depicted on Exhibit "A" attached hereto and made a part of this Agreement, commencing as of the Effective Date and continuing perpetually thereafter, subject to the rights, if any, a municipality may have pursuant to Florida Statues, Chapter 180, and of the rights, if any, of private Water Utility Service providers operating therein. Notwithstanding the foregoing grant, if at any time the Florida Legislature changes the Toho Service Area to remove all or part of the Polk Portion, then the rights granted herein as to those parts shall terminate.

b. Toho shall construct, operate, and maintain the Water Utility Services facilities within the Modified Polk Portion in accordance with its policies, procedures, standards, and specifications and all Reference Manuals described therein as the same may be amended, updated and revised in the future. Additionally, Toho shall abide by any applicable Polk County building ordinances which may be applicable to the construction and installation of the Water Utility Services.

c. Toho shall be entitled to establish, collect, and receive all rates, fees, charges, assessments, revenues, and other amounts due for establishing and providing Water Utility Services within the Modified Polk Portion. Toho shall own all easements, facilities, structures, and improvements of any kind or nature whatsoever associated with providing the Water Utility Services which it may acquire, obtain, and construct within the Modified Polk Portion. County shall have no right or obligation to plan, review, inspect, construct, install, repair, maintain, or replace the Water Utility Services facilities within the Modified Polk Portion, or any part thereof, to pay any costs associated therewith, or to establish, collect or receive any rates, fees, charges, assessments, revenues, or other amounts due for establishing and providing those services.

3. **Boundaries of Toho Service Area; Scrivener's Error.** The following correction to the scrivener's error contained within the Polk Portion of the Toho Service Area stated in Chapter 2025-244 has been made within the Modified Polk Portion legal description attached as Exhibit "A:"

a. Lines 104 through 106 of enrolled HB 4057 and the corresponding section of

Section 1 in Chapter 2025-244 should read as follows:

- "Range 28 East, North of Lake Marion and all of Section 30, Township 27 South, Range 28 East, North of Lake Marion, less the Southwest ¼ of the Southwest ~~Northwest~~ ¼"

4. **Notices.** Whenever either Party desires or is required to give notice to the other, it must be given by written notice delivered: (i) in person, (ii) via registered or certified United States mail, postage prepaid with return receipt requested, or (iii) via nationally recognized overnight delivery service, and addressed to the Party for whom it is intended at the place last specified by each Party. The place for giving notice shall remain such until it is changed by written notice delivered in compliance with the provisions of this Section 4. For the present, the Parties designate the following as their respective places for giving notice:

To County:	Polk County Attn: Utilities Director 1011 Jim Keene Boulevard Winter Haven, Florida 33880
With a copy to:	Polk County Attorney's Office Attn.: County Attorney 330 W. Church Street Bartow, Florida 33830
To Toho:	Executive Director Tohopekaliga Water Authority 951 Martin Luther King Blvd. Kissimmee, Florida 34741
With a copy to:	General Counsel Tohopekaliga Water Authority 951 Martin Luther King Blvd. Kissimmee, Florida 34741

All notices shall be effective upon receipt or upon refusal to accept receipt.

5. **Default.** Subject to the mediation requirements of Section 6 below, upon any default of this Agreement, the non-defaulting Party shall have the right to seek injunctive relief for specific performance from the defaulting Party. The Parties hereby stipulate a default of this Agreement shall cause irreparable harm to the non-defaulting Party. Consequently, if a Party defaults in its Agreement obligations and a reviewing court finds the default has caused irreparable harm to the non-defaulting Party, the defaulting Party hereby consents to the court's entry of a permanent injunction against the defaulting Party requiring it to immediately correct its default and specifically perform its Agreement obligations, and enjoining it from any further default hereunder.

6. **Mediation.** If a dispute arises between the Parties arising out of or related to this Agreement which they cannot resolve, then unless it shall be unreasonable to do so or an emergency situation or necessity dictates otherwise, prior to commencing any legal action or proceeding the Parties will refer their dispute to non-binding mediation. The mediation will be conducted by a mediator mutually agreeable to both Parties who has experience in mediating disputes of a similar nature. The Parties will use a mediation procedure agreeable to the Parties and the mediator. The Parties will mediate the dispute in good faith, be bound by any resulting mediation agreement, equally share the costs of mediation, and timely pay the same. Mediation will commence within thirty days after the date a Party requests mediation of a dispute, or if the agreed mediator is not available within that time period, then at the first opportunity the agreed mediator is available. A Party may not commence litigation of the dispute until (i) the mediator has declared the Parties are at an impasse, or (ii) one or both of the Parties have terminated the mediation. Among other matters the Parties intend this mediation process as an alternative to the conflict resolution procedure described in the Florida Governmental Conflict Resolution Act, Florida Statutes Chapter 164.

7. **Attorneys' Fees and Costs.** If there is any dispute between the Parties regarding or arising from this Agreement, or any action to interpret or enforce the Agreement or any part thereof, then each Party agrees to pay their own expense for any litigation, mediation, negotiation, or other form of alternative dispute resolution, which includes without limitation attorneys' fees, costs, and expenses associated with any such dispute or action to include all appellate proceedings.

8. **Applicable Law.** This Agreement and its provisions contained herein shall be construed, controlled, and interpreted according to the laws of the State of Florida.

9. **Venue; Waiver of Jury Trial.** Venue of all actions or proceedings pertaining to this Agreement shall be the Circuit Court in and for Polk County, Florida. Each Party waives the right to a jury trial.

10. **Counterparts.** This Agreement may be executed in up to two (2) counterparts, each of which is an original and both of which shall constitute but one and the same instrument.

11. **Entire Agreement.** This Agreement constitutes the entire agreement between the Parties and supersedes all previous discussions, understandings, and agreements between the Parties relating to the subject matter of this Agreement.

12. **Effective Date.** The "Effective Date" of this Agreement will be the later date the fully executed instrument is filed with the Clerk of the Circuit Court of Polk County or the Clerk of the Circuit Court of Osceola County, either or both in accordance with Section 163.01, Florida Statutes. County agrees to file the fully executed Agreement with the Clerk of the Circuit Court of Polk County or the Clerk of the Circuit Court of Osceola County, in accordance with Section 163.01, Florida Statutes, and will be responsible for any costs related thereto.

IN **WITNESS WHEREOF,** the Parties have executed this Agreement as of the Effective Date.

RESOLUTION 2026 - _____

A RESOLUTION OF THE BOARD OF COUNTY COMMISSIONERS AUTHORIZING THE TOHOPEKALIGA WATER AUTHORITY TO PROVIDE POTABLE WATER, WASTEWATER, AND RECLAIMED WATER UTILITY SERVICES WITHIN ITS AMENDED DISTRICT BOUNDARIES LOCATED IN UNINCORPORATED AREAS OF POLK COUNTY AS DESCRIBED IN CHAPTER 2025-244, LAWS OF FLORIDA; AND APPROVING AN INTERLOCAL AGREEMENT WITH THE AUTHORITY GRANTING IT THE RIGHT TO PROVIDE THOSE WATER UTILITY SERVICES THEREIN.

WHEREAS, Section 125.01, Florida Statutes, authorizes the County to provide water, wastewater, and reclaimed water services (collectively, the "Water Utility Services") within the unincorporated areas of Polk County; and

WHEREAS, the Tohopekaliga Water Authority ("Toho"), an independent special district established and created by special act of the Florida Legislature pursuant to Chapter 189, Florida Statutes, provides Water Utility Services within its defined district boundaries and service area which includes portions of eastern Polk County; and

WHEREAS, in 2025, Toho requested the County's support of legislation that would extend Toho's district boundaries and water utility service area into an additional portion (the "Modified Polk Portion") of northeast unincorporated Polk County near Poinciana where the County does not plan to establish and provide Water Utility Services; and

WHEREAS, with the County supporting the legislation, the Florida Legislature subsequently passed House Bill 4057, amending and expanding Toho's district boundaries into the Modified Polk Portion, with the Governor signing the bill into law as Chapter 2025-244, Laws of Florida ("Chapter 2025-244"), effective June 6, 2025; and

WHEREAS, Chapter 2025-244 conditions the amendment and expansion of Toho's district boundaries into the Modified Polk Portion upon the Board of County Commissioners adopting a resolution authorizing Toho to provide its Water Utility Services therein; and

WHEREAS, in association with its adoption of the Resolution, Toho has requested the County concurrently grant Toho those rights, powers, authority, privileges, and abilities the County possesses to provide the Water Utility Services within the Modified Polk Portion through an Interlocal Agreement between the parties; and

WHEREAS, approval of the Interlocal Agreement supports Toho's ability to provide Water Utility Services to Polk County residents and businesses within the Modified Polk Portion;

NOW, THEREFORE, BE IT RESOLVED BY THE BOARD OF COUNTY COMMISSIONERS OF POLK COUNTY, FLORIDA AT ITS DULY NOTICED REGULAR MEETING CONDUCTED JUNE 2, 2026, THAT:

1. The Board hereby authorizes Toho to provide the Water Utility Services within the Modified Polk Portion as defined and depicted on the attached Exhibit "A."

2. The Board approves the County entering into an Interlocal Agreement with Toho whereby the County grants Toho an irrevocable right to provide the Water Utility Services within the Modified Polk Portion, subject to a termination of that right as to the whole or any sub-portion thereof if the Florida Legislature subsequently removes any such area from Toho's district boundary.

ADOPTED THIS 2ND DAY OF JUNE 2026.

SUBJECT

Approve Interlocal Agreement with the Tohopekaliga Water Authority and the accompanying Resolution regarding utility service area boundaries in portions of unincorporated areas of eastern Polk County.

DESCRIPTION

The Tohopekaliga Water Authority ("Toho") is an independent special district created by the Florida Legislature to provide potable and non-potable water and wastewater services within statutorily defined district boundaries. Portions of eastern unincorporated Polk County are included within Toho's district boundaries.
In 2025, the Florida Legislature passed House Bill 4057 which when signed into law became Chapter 2025-244, Laws of Florida. This legislation, which the County supported, extends Toho's district boundaries into additional unincorporated areas (the "Extended Toho Area") of northeast unincorporated Polk County near Poinciana.

The "Extended Toho Area" is not within Polk County Utilities service area, nor the service area of any other utility provider. The County does not provide potable water, reclaimed water, or wastewater services within the Extended Toho Area and has no plans to do so. For the extended Toho district boundaries to be effective, the Board of County Commissioners must adopt a Resolution authorizing Toho to provide these services within the Extended Toho Area. A proposed authorizing Resolution which includes a description and depiction of the Extended Toho Area is attached as part of this agenda item. In addition to the Resolution, Toho has requested the County enter into an Interlocal Agreement granting Toho an irrevocable right to provide potable water, wastewater, and reclaimed water services within the Extended Toho Area. The attached proposed agreement grants Toho those rights which can be terminated if the Florida Legislature later revises the Toho district boundaries to exclude all or any portion of the Extended Toho Area. The Interlocal Agreement also corrects a minor scrivener's error in the legal description of the Extended Toho Area.

RECOMMENDATION

Request Board approve the Interlocal Agreement with the Tohopekaliga Water Authority and the accompanying Resolution regarding utility service area boundaries in portions of unincorporated areas of eastern Polk County.

FISCAL IMPACT

No fiscal impact.

Agenda Item R.37. 6/16/2026

SUBJECT

Approve a resolution granting authority to the Utilities Division Director to apply for a loan from the State Revolving Loan program. (No fiscal impact)

DESCRIPTION

In 2025, the Utilities Division submitted a request for inclusion in a funding program from the State of Florida for facilities impacted by Hurricanes Helene and Milton. Polk County was selected to apply for approximately $14 million of grant funding to be applied towards construction of equalization basins at the Southwest and Northwest Wastewater Treatment Facilities.

The grant program is being administered by the State Revolving Fund (SRF) Loan. As such, Polk County has applied for a loan which will be 100% forgiven. The Florida Department of Environmental Protection has requested the Board adopt a resolution affirming the Utilities Division Director's authority to submit the application.

RECOMMENDATION

Request Board approve resolution granting authority to the Utilities Division Director to apply for a loan from the State Revolving Loan program. (No fiscal impact)

RESOLUTION 2026 - _____

A RESOLUTION OF THE BOARD OF COUNTY COMMISSIONERS OF POLK COUNTY, FLORIDA, AUTHORIZING THE COUNTY TO APPLY FOR A STATE REVOLVING LOAN WHOSE PROCEEDS WILL BE USED TO CONSTRUCT EQUALIZATION BASINS AT THE NORTHWEST AND SOUTHWEST REGIONAL WASTEWATER TREATMENT FACILITIES, RATIFYING THE SUBMISSION OF A LOAN APPLICATION; AND DELGATING AUTHORITY TO THE UTILITIES DIVISION DIRECTOR TO SIGN THE DOCUMENTS NECESSARY TO COMPLETE THE APPLICATION ON BEHALF OF THE COUNTY.

WHEREAS, Polk County (the "County") has submitted an application for a State Revolving Fund loan (the "Loan") through the Florida Department of Environmental Protection ("FDEP") to obtain funds which will be used for the Construction of equalization basins at the Northwest and Southwest Wastewater Treatment Facilities; and

WHEREAS, as part of the application process FDEP has requested written evidence the Board has authorized the County to apply for the Loan; and

WHEREAS, to facilitate the Loan application processes, the Board of County Commissioners has determined it expedient to delegate authority to the Utilities Division Director to execute and submit on behalf of the County all documents necessary for the County to complete the application;

NOW, THEREFORE, BE IT RESOLVED BY THE BOARD OF COUNTY COMMISSIONERS OF POLK COUNTY, FLORIDA AT ITS DULY NOTICED REGULAR MEETING CONDUCTED _____, 2026, THAT:

1. The Board authorizes the County to apply for the Loan and ratifies the prior submission of the Loan application
2. The Board hereby authorizes the Utilities Director to sign all documents on behalf of the County which are necessary to complete the application.
3. This Resolution shall be effective upon its adoption.

MEMO

To: Dr. Martha Santiago Chair Polk County Board of County Commissioners

From: Stacy Campbell-Domineck, President& CEO

Date: 5/21/2026

Re: **Request for Approval of CareerSource Polk 2026-2027 Preliminary Budget**

CareerSource Polk requests the Commission's approval of CareerSource Polk's 2026-2027 Preliminary Budget.

As outlined in the Interlocal Agreement between the Polk County Workforce Development Board, Inc. d.b.a. CareerSource Polk and the Polk County Board of County Commissioners, Section V, paragraph M: "The chief elected official, shall review and approve the BOARD's annual budget prior to its submittal to CareerSource Florida, Inc."

CareerSource Polk will continue to operate in accordance to applicable federal and state laws, rules, and regulations.

Agenda Item R.39. 6/16/2026

SUBJECT

Request Board approve appointment of Dr. N. Karen Steverson to the CareerSource Board of Directors

DESCRIPTION

This agenda item is presented on behalf of the CareerSource Polk Board of Directors for the purpose of requesting approval of a recommended appointment and authorizing its submission to the Board of County Commissioners (BoCC) for final approval.

Pursuant to Section 107(b)(2)(A) of the Workforce Innovation and Opportunity Act (WIOA), local workforce development boards are required to include representatives of the private sector, including, but not limited to, owners of business concerns, chief executive officers, chief operating officers, or other individuals with substantial management or policy-making authority. Additionally, Section 107(b)(5) of WIOA, in conjunction with Section 445.007(1), Florida Statutes, requires that, to the extent practicable, not less than fifty percent of private sector members represent small businesses, defined as private, for-profit enterprises employing fewer than 500 employees.

The proposed appointment is submitted to fill an existing vacancy within the Education and Training Provider category, representing a private educational institution. Approval of this appointment will ensure that the CareerSource Polk Board of Directors remains in full compliance with its Bylaws and all applicable federal and state statutory requirements.

Education / Training Provider:

N. Karen Steverson, JD, DBA

President, Keiser University - Lakeland Campus

Dr. Steverson is a seasoned higher education executive and licensed attorney with more than 20 years of experience in academic leadership, accreditation, compliance, and organizational management. Her expertise in workforce-aligned education, strategic planning, and community engagement will strengthen the Board’s capacity to advance workforce and economic development initiatives throughout Polk County.

Board Member Nomination Forms and supporting documentation are provided as attachments for reference.

RECOMMENDATION

Recommend Board approve the appointment of Dr. N. Karen Steverson to the CareerSource Polk

Board of Directors, with a term effective July 1, 2026 - June 30, 2030.

FISCAL IMPACT

There is no fiscal impact associated with the appointment.

Agenda Item R.40. 6/16/2026

SUBJECT

Approve Resolution of the Board of County Commissioners of Polk County, Florida, Approving the Issuance by the City of Lakeland, Florida of its Hospital Revenue Refunding Bonds (Lakeland Regional Health Systems) and approve Interlocal Agreement.

DESCRIPTION

Polk County, Florida (“Polk County”) and the City of Lakeland, Florida (the "Issuer" or the "City") each have the authority pursuant to Part II, Chapter 159, Florida Statutes (the "Statute"), to issue healthcare facilities revenue bonds to finance qualifying projects.

Lakeland Regional Health Systems, Inc. (the "Borrower") has requested that the Issuer, City of Lakeland, issue bonds, in one or more series (the "Bonds"), and lend the proceeds of the Bonds to the Borrower to: (1) currently refund all or a portion of the City's outstanding Hospital Revenue Refunding Bonds (2) finance all or a portion of the costs (including reimbursement for prior related expenditures) relating to the conversion of the Borrower's hospital electronic medical record and billing system conversion primarily located at the LRMC Campus and the Cancer Center (3) finance all or a portion of the costs (including reimbursement for prior related expenditures) relating to the acquisition, construction, installation and equipping of certain capital improvements to the Borrower's healthcare facilities.

Section 147(f) of the Internal Revenue Code of 1986, as amended (the "Code") requires as a condition of exclusion from gross income for federal income tax purposes of interest on private activity bonds, as defined in Section 141(a) of the Code, such as the Bonds, that such Bonds be approved by the governmental unit(s) having jurisdiction over the area(s) in which the private activity bond-financed facilities are to be located after a public hearing following reasonable public notice.

The Issuer on June 15, 2026, held a public hearing on behalf of itself and Polk County with respect to the issuance of the Bonds by the Issuer after publication of notice of such hearing in The Ledger, a newspaper of general circulation in Polk County, Florida, at least 7 days prior to such hearing, as evidenced by the copy of the Affidavit of Publication is attached hereto as EXHIBIT A.

In a resolution of the Issuer adopted on June 15, 2026, the Issuer provided for the final approval of the issuance of the Bonds and directed that a copy of such resolution be provided to the Board of County Commissioners of Polk County and recommended approval of the Bonds by such Board of County Commissioners.

The Issuer has submitted to Polk County for consideration a form of Interlocal Agreement approved (after a noticed public hearing) by the Issuer which, when executed, will permit the loan of a portion of the Bond proceeds to the Borrower to finance and refinance the cost of the Project located in Polk County, a copy of which form of Interlocal Agreement is attached hereto as EXHIBIT B, to be

executed by the BoCC Chair prior to or contemporaneously with the Resolution.

The approval given herein shall not be construed as (i) an endorsement of the creditworthiness of the Borrower or the financial viability of the Project, (ii) a recommendation to any prospective purchaser to purchase the Bonds, (iii) an evaluation of the likelihood of the repayment of the debt service on the Bonds, or (iv) approval of any necessary zoning or rezoning applications or approval or acquiescence to the alteration of existing zoning or land use nor approval for any other regulatory permits relating to the Project, and the Board shall not be construed by reason of its adoption of this Resolution to make any such endorsement, finding or recommendation or to have waived any right of the Board or estopping the Board from asserting any rights or responsibilities it may have in such regard. Further, the approval by the Board of the issuance of the Bonds by the Issuer shall not be construed to obligate Polk County to incur any liability, pecuniary or otherwise, in connection with either the issuance of the Bonds or the acquisition and construction of the Project.

Polk County shall have no responsibility with respect to the repayment of the Bonds. The Bonds and the interest thereon shall not constitute an indebtedness or pledge of the general credit or taxing power of Polk County but shall be payable solely from revenues pledged therefor pursuant to financing agreements entered into by and among the Issuer and the Borrower and/or parties other than Polk County prior to or contemporaneously with the issuance of the Bonds. Neither Polk County nor any of the members of the Board or staff of Polk County will have any obligation or liability, financial or otherwise, with respect to the Project or the Bonds.

RECOMMENDATION

Recommend Board approve Resolution and authorize the Chair to execute the Interlocal Agreement attached as Exhibit B.

FISCAL IMPACT

None.

RESOLUTION NO. _____

A RESOLUTION OF THE BOARD OF COUNTY COMMISSIONERS OF POLK COUNTY, FLORIDA APPROVING THE ISSUANCE BY THE CITY OF LAKELAND, FLORIDA OF ITS HOSPITAL REVENUE REFUNDING BONDS (LAKELAND REGIONAL HEALTH SYSTEMS), SERIES 2026 IN AN AGGREGATE PRINCIPAL AMOUNT NOT EXCEEDING $170,000,000, IN ONE OR MORE SERIES, FOR THE PURPOSE OF PROVIDING FUNDS TO MAKE A LOAN TO LAKELAND REGIONAL HEALTH SYSTEMS, INC., FOR THE FINANCING AND REFINANCING (INCLUDING REIMBURSEMENT FOR PRIOR RELATED EXPENDITURES) OF ITS HEALTHCARE AND RELATED FACILITIES; PROVIDING FOR CERTAIN OTHER MATTERS IN CONNECTION WITH THE EXECUTION AND DELIVERY OF AN INTERLOCAL AGREEMENT RELATED TO THE BONDS; PROVIDING OTHER DETAILS AND AN EFFECTIVE DATE.

WHEREAS, Polk County, Florida ("Polk County") and the City of Lakeland, Florida (the "Issuer" or the "City") each have the authority pursuant to Part II, Chapter 159, Florida Statutes (the "Statute"), to issue healthcare facilities revenue bonds to finance qualifying projects; and

WHEREAS, Lakeland Regional Health Systems, Inc. (the "Borrower") has requested that the Issuer issue bonds, in one or more series (the "Bonds"), and lend the proceeds of the Bonds to the Borrower to: (1) currently refund all or a portion of the City's outstanding Hospital Revenue Refunding Bonds (Lakeland Regional Health Systems), Series 2016 (the bonds so refunded being referred to as the "Refunded Bonds") in order to refinance all or a portion of the costs of certain capital improvements to the Borrower's medical facilities financed or refinanced with the proceeds of the Refunded Bonds located at 3525 Lakeland Hills Boulevard, Lakeland, Florida 33805 (the "Cancer Center") and 1324 Lakeland Hills Boulevard, Lakeland, Florida 33805 (the "LRMC Campus"); (2) finance all or a portion of the costs (including reimbursement for prior related expenditures) relating to the conversion of the Borrower's hospital electronic medical record and billing system conversion primarily located at the LRMC Campus and the Cancer Center; (3) finance all or a portion of the costs (including reimbursement for prior related expenditures) relating to the acquisition, construction, installation and equipping of certain capital improvements to the Borrower's healthcare facilities including (a) a new approximately 15,000 square foot freestanding emergency department located west of the intersection of U.S. Highway 17 and State Road 540, Eagle Lake, (unincorporated Polk County), Florida

33839 (Parcel ID: 26-29-06-672500-005506), (b) a new approximately 15,000 square foot freestanding medical office building located at 1409 N. Florida Avenue, Lakeland, Florida 33805, (c) an existing approximately 17,000 square foot freestanding medical office building located at 6030 S. Florida Ave., Lakeland, Florida 33813, (d) buildout and equipping of existing shell space of approximately 8,500 square feet for outpatient imaging services at 2400 Kathleen Rd., Lakeland, Florida 33810, (e) a new approximately 15,000 square foot freestanding emergency department located at 6625 US Hwy 98 North, Lakeland (unincorporated Polk County), Florida 33809, and (f) other capital improvements related to existing health care facilities located on or contiguous to the LRMC Campus and the Cancer Center (collectively, the "Project"); (4) fund any required reserves; and (5) pay costs of issuance associated with the Bonds; and

WHEREAS, Section 147(f) of the Internal Revenue Code of 1986, as amended (the "Code") requires as a condition of exclusion from gross income for federal income tax purposes of interest on private activity bonds, as defined in Section 141(a) of the Code, such as the Bonds, that such Bonds be approved by the governmental unit(s) having jurisdiction over the area(s) in which the private activity bond-financed facilities are to be located after a public hearing following reasonable public notice; and

WHEREAS, the Issuer on June 15, 2026, held a public hearing on behalf of itself and Polk County with respect to the issuance of the Bonds by the Issuer after publication of notice of such hearing in *The Ledger*, a newspaper of general circulation in Polk County, Florida, at least 7 days prior to such hearing, as evidenced by the copy of the Affidavit of Publication is attached hereto as EXHIBIT A; and

WHEREAS, the City, where the public hearing was held, is within 100 miles of the county seat of Polk County; and

WHEREAS, based solely upon representations of the Borrower with respect to the Project, although the Project is not all located on the same site, or adjacent or proximate sites, such Project is used as an integrated operation by the Borrower and therefore has been treated as one project for purposes of Section 147(f) of the Code; and

WHEREAS, in a resolution of the Issuer adopted on June 15, 2026, the Issuer provided for the final approval of the issuance of the Bonds and directed that a copy of such resolution be provided to the Board of County Commissioners of Polk County and recommended approval of the Bonds by such Board of County Commissioners; and

WHEREAS, the Issuer has submitted to Polk County for consideration a form of Interlocal Agreement approved (after a noticed public hearing) by the Issuer which, when executed, will permit the loan of a portion of the Bond proceeds to the Borrower to finance and refinance the cost of the Project located in Polk County, a copy of which form of Interlocal Agreement is attached hereto as EXHIBIT B; and

WHEREAS, it is deemed desirable by both the Issuer and Polk County that prior to or upon the issuance of the Bonds the Issuer and Polk County enter into the Interlocal Agreement, as provided for and under the authority of Part I, Chapter 163, Florida Statutes (the "Interlocal Act"), in order to assist the Borrower and the Issuer in financing and refinancing the portion of the Project located in Polk County; and

WHEREAS, the Board of County Commissioners of Polk County constitutes the elected legislative body of Polk County and has jurisdiction over the Project, and the Borrower has requested that the Board of County Commissioners of Polk County approve the issuance of the Bonds by the Issuer to finance and refinance the Project and to pay other costs associated therewith and to ratify the public hearing held by the Issuer on behalf of Polk County and approve the issuance by the Issuer of the Bonds for purposes of Section 147(f) of the Code in accordance with the authority granted in Section 125.01(1)(z), Florida Statutes.

NOW, THEREFORE, BE IT RESOLVED by the Board of County Commissioners of Polk County, Florida (the "Board") that:

SECTION 1. AUTHORITY. This Resolution is adopted pursuant to the laws of the State of Florida, including, in particular Chapter 125, Part II of Chapter 159, and Section 163.01, Florida Statutes, and other applicable provisions of law (the "Act").

SECTION 2. PUBLIC HEARING. The holding of a public hearing by the Issuer as a joint undertaking on behalf of itself and Polk County is hereby ratified and approved, and the issuance by the Issuer of the Bonds to finance and refinance the Project is hereby approved pursuant to and in accordance with Section 147(f) of the Code and the Act.

SECTION 3. APPROVAL OF THE BONDS. The issuance by the Issuer of the Bonds to finance and refinance the Project is hereby approved pursuant to and in accordance with the Act. The Chairman or Vice Chairman of the Board and the Clerk or any Deputy Clerk are further authorized to take such further action and execute such further instruments as may be necessary or appropriate to fully effectuate the purpose and intention of this Resolution.

SECTION 4. APPROVAL OF INTERLOCAL AGREEMENT. Prior or contemporaneously with the issuance of the Bonds by the Issuer, the Chairman or Vice-Chairman of the Board is hereby authorized and directed to execute and the County Clerk or any designated Deputy County Clerk is hereby authorized to apply the seal of the County thereof, for and on behalf of the Board, the Interlocal Agreement attached hereto as EXHIBIT B between Polk County and the Issuer in order to permit the loan of a portion of the proceeds of the Bonds to the Borrower for the purpose of financing and refinancing the portion of the Project located in Polk County.

SECTION 5. LIMITATION ON APPROVAL. The approval given herein shall not be construed as (i) an endorsement of the creditworthiness of the Borrower or the financial viability of the Project, (ii) a recommendation to any prospective purchaser to purchase the Bonds, (iii) an evaluation of the likelihood of the repayment of the debt service on the Bonds, or (iv) approval of any necessary zoning or rezoning applications or approval or acquiescence to the alteration of existing zoning or land use nor approval for any other regulatory permits relating to the Project, and the Board shall not be construed by reason of its adoption of this Resolution to make any such endorsement, finding or recommendation or to have waived any right of the Board or estopping the Board from asserting any rights or responsibilities it may have in such regard. Further, the approval by the Board of the issuance of the Bonds by the Issuer shall not be construed to obligate Polk County to incur any liability, pecuniary or otherwise, in connection with either the issuance of the Bonds or the acquisition and construction of the Project.

SECTION 6. NO RESPONSIBILITY OF POLK COUNTY. Polk County shall have no responsibility with respect to the repayment of the Bonds. The Bonds and the interest thereon shall not constitute an indebtedness or pledge of the general credit or taxing power of Polk County but shall be payable solely from revenues pledged therefor pursuant to financing agreements entered into by and among the Issuer and the Borrower and/or parties other than Polk County prior to or contemporaneously with the issuance of the Bonds. Neither Polk County nor any of the members of the Board or staff of Polk County will have any obligation or liability, financial or otherwise, with respect to the Project or the Bonds.

SECTION 7. EFFECTIVE DATE. This Resolution shall take effect immediately upon its passage.

PASSED AND ADOPTED this ____ day of _____, 2026.

NOTICE OF PUBLIC HEARING

The City Commission of the City of Lakeland, Florida (the "City") will hold a public hearing on Monday, June 15, 2026, at 9:00 A.M. or as soon as practicable thereafter, in the City Commission Chamber, 3rd Floor of City Hall, 228 South Massachusetts Avenue, Lakeland, Florida, to consider adoption of a resolution to grant approval of the issuance by the City of not exceeding $170,000,000 original aggregate principal amount of its City of Lakeland, Florida Hospital Revenue Refunding Bonds (Lakeland Regional Health Systems), Series 2026 (the "Bonds") in one or more tax-exempt or taxable series and the loan of the proceeds of such Bonds to Lakeland Regional Health Systems, Inc., a Florida not-for-profit corporation ("Systems") on behalf of itself, and Lakeland Regional Medical Center, Inc., a Florida not-for-profit corporation (the "Hospital") and affiliates (collectively, the "Obligated Group"). The Bonds will be issued for the principal purposes of (1) currently refunding all or a portion of the City's outstanding Hospital Revenue Refunding Bonds (Lakeland Regional Health Systems), Series 2016 (the bonds so refunded being referred to as the "Refunded Bonds") in order to refinance all or a portion of the costs of certain capital improvements to the Obligated Group's medical facilities financed or refinanced with the proceeds of the Refunded Bonds located at 3525 Lakeland Hills Boulevard, Lakeland, Florida 33805 (the "Cancer Center") and 1324 Lakeland Hills Boulevard, Lakeland, Florida 33805 (the "LRMC Campus"); (2) financing a portion of the costs (including reimbursement for prior related expenditures) relating to the conversion of the Obligated Group's hospital electronic medical record and billing system to EPIC primarily located at the LRMC Campus and the Cancer Center (anticipated to be allocated a maximum aggregate principal amount of $27,500,000); (3) financing all or a portion of the costs (including reimbursement for prior related expenditures) relating to the acquisition, construction, installation and equipping of certain capital improvements to the Obligated Group's healthcare facilities including (a) a new approximately 15,000 square foot freestanding emergency department located west of the intersection of U.S. Highway 17 and State Road 540, Eagle Lake (unincorporated Polk County), Florida 33839 (Parcel ID: 26-29-06-672500-005506) (anticipated to be allocated a maximum aggregate principal amount of $25,000,000 of the Bonds), (b) a new approximately 15,000 square foot freestanding medical office building located at 1409 N. Florida Avenue, Lakeland, Florida 33805 (anticipated to be allocated a maximum aggregate principal amount of $7,500,000 of the Bonds), (c) an existing approximately 17,000 square foot freestanding medical office building located at 6030 S. Florida Ave., Lakeland, Florida 33813 (anticipated to be allocated a maximum aggregate principal amount of $10,000,000 of the Bonds), (d) buildout and equipping of existing shell space of approximately 8,500 square feet for outpatient imaging services at 2400 Kathleen Rd., Lakeland, Florida 33810 (anticipated to be allocated a maximum aggregate principal amount of $10,000,000 of the Bonds), (e) a new approximately 15,000 square foot freestanding emergency department located at 6625 US Hwy 98 North, Lakeland (unincorporated Polk County), Florida 33809 (anticipated to be allocated a maximum aggregate principal amount of $24,000,000 of the Bonds), and (f) other capital improvements related to existing health care facilities located on or contiguous to the LRMC Campus (anticipated to be allocated a maximum aggregate principal amount of $30,000,000 of the Bonds) (collectively with (2) above, the "Project"); (4) funding any required reserves; and (5) paying costs of issuance associated with the Bonds. The facilities related to the Project and those financed and refinanced with the proceeds of the Refunded Bonds are and will continue to be leased or owned and operated by the Obligated Group. The Bonds shall be payable solely from the revenues derived by the City from certain financing documents to be entered into by the City and the Obligated Group prior to or contemporaneously with the issuance of the Bonds. The Bonds and the interest thereon shall not constitute an indebtedness or pledge of the general credit or

taxing power of the City, Polk County, Florida, the State of Florida or any political subdivision or agency thereof. Issuance of the Bonds shall be subject to several conditions including satisfactory documentation. The aforementioned hearing shall be a public hearing and all persons in attendance will be given the opportunity to be heard and to express their views on the proposed issue of the Bonds and the location and nature of the proposed Project to be financed. Written comments may also be submitted to the City prior to the hearing by submitting the same to City of Lakeland, Florida, 228 South Massachusetts Avenue, Lakeland, Florida 33801, Attention: City Attorney.

ALL PERSONS FOR OR AGAINST SAID APPROVAL CAN BE HEARD AT SAID TIME AND PLACE. IF A PERSON DECIDES TO APPEAL ANY DECISION MADE BY THE CITY WITH RESPECT TO SUCH HEARING OR MEETING, (S)HE WILL NEED TO ENSURE THAT A VERBATIM RECORD OF SUCH HEARING OR MEETING IS MADE, WHICH RECORD INCLUDES THE TESTIMONY AND EVIDENCE UPON WHICH THE APPEAL IS BASED.

In accordance with the Americans with Disabilities Act and Section 286.26, Florida Statute, persons with disabilities needing special accommodation to participate in this proceeding, or those requiring language assistance (free of charge) should contact the City of Lakeland ADA Specialist, Kristin Meador. Because providing a reasonable accommodation may require outside assistance, organizations, or resources, the City asks that any request be made with as much notice as possible, preferably 72 hours, but no later than 48 hours in advance of the event, at: (863) 834-6040, Email: ADASpecialist@lakelandgov.net. If hearing impaired, please contact the TDD numbers: Local - (863) 834-8333 or 1-(800) 955-8771 (TDD - Telecommunications Device for the Deaf) or the Florida Relay Service number: 1-(800) 955-8770 (VOICE), for assistance.

This notice is given pursuant to Section 147(f) of the Internal Revenue Code of 1986, as amended.

By order of the City Commission of the City of Lakeland, Florida.

INTERLOCAL AGREEMENT

This Interlocal Agreement (the "Interlocal Agreement") is dated as of _____, 2026, and is entered into between the CITY OF LAKELAND, FLORIDA (the "Issuer" or the "City"), a municipal corporation of the State of Florida and POLK COUNTY, FLORIDA ("Polk County"), a political subdivision of the State of Florida;

WITNESSETH:

WHEREAS, pursuant to Chapter 159, Part II, Florida Statutes, the Issuer and Polk County are authorized to issue bonds to finance or refinance the acquisition, construction and equipping of healthcare and related facilities; and

WHEREAS, the Issuer and Polk County each constitutes a "public agency" within the meaning of Section 163.01, Florida Statutes, as amended (the "Interlocal Act"), and are each authorized under the Interlocal Act to enter into interlocal agreements providing for them to jointly exercise any power, privilege or authority which each of them could exercise separately; and

WHEREAS, the Issuer has received an application from Lakeland Regional Health Systems, Inc., a Florida not for profit corporation and an organization described in Section 501(c)(3) of the Internal Revenue Code of 1986, as amended (the "Code"), and/or one or more related and/or affiliated entities and their successors and assigns (the "Borrower") requesting that hospital revenue refunding bonds be issued by the Issuer in an aggregate principal amount not exceeding $170,000,000 in one or more tax-exempt and taxable series (the "Bonds") the proceeds of which would be loaned to the Borrower to finance or refinance, among other facilities, certain healthcare facilities located in Polk County (the "Project") as more completely described on EXHIBIT A attached hereto; and

WHEREAS, the Borrower has represented that the consolidated financing results in significant cost savings to the Borrower over the issuance and sale of separate bonds by the Issuer and Polk County for the Project; and

WHEREAS, the Issuer and Polk County have agreed to enter into this Interlocal Agreement for the purposes stated above; and

WHEREAS, on June 15, 2026, the Issuer, which has jurisdiction for purposes of Section 147(f) of the Code, over the area in which the portion of the Project to be financed or refinanced in the City is located held a duly noticed public hearing for the purpose of giving all interested persons an opportunity to express their views, either orally or in writing, on the proposed issuance of the Bonds, approved the issuance of the Bonds, the application of the proceeds thereof and the execution and delivery of this Interlocal Agreement; and

WHEREAS, on _____, 2026, following a duly noticed public hearing by the Issuer described above, the Board of County Commissioners of Polk County, which has jurisdiction for purposes of Section 147(f) of the Code, over the area in which the portion of the Project to be financed or refinanced in Polk County is located, approved by a duly adopted resolution, the issuance of the Bonds by the Issuer and the application of the proceeds thereof; and

WHEREAS, the Interlocal Act authorizes the Issuer and Polk County to enter into this Interlocal Agreement and confers upon the Issuer authorization to issue the Bonds and to apply the proceeds thereof to the financing or refinancing of the Project through a loan of such proceeds to the Borrower; and

WHEREAS, the parties hereto desire to agree to the issuance of the Bonds by the Issuer for such purposes and find that such agreement by such parties is in the public interest; and

WHEREAS, the Borrower has agreed to indemnify Polk County and the Issuer in connection with their execution of this Interlocal Agreement;

NOW, THEREFORE, for and in consideration of the premises hereinafter contained, and intending to be legally bound hereby, the parties hereto agree as follows:

SECTION 1. AUTHORIZATION TO ISSUE THE BONDS. Polk County and the Issuer do hereby agree that the Issuer is hereby authorized to issue the Bonds in one or more series in a principal amount not exceeding $170,000,000 and to loan the proceeds thereof to the Borrower to finance and refinance the Project, with approximately $25,000,000 of such proceeds to be applied to finance and refinance the Project to be located within Polk County and not within the City. The Issuer is hereby authorized to exercise all powers relating to the issuance of the Bonds vested in Polk County pursuant to the Constitution and the laws of the State of Florida and to do all things within the jurisdiction of Polk County which are necessary or convenient for the issuance of the Bonds and financing and refinancing of the Project to the same extent as if Polk County were issuing its own obligations for such purposes, without any further authorization from Polk County to exercise such powers or to take such actions, including, without limitation, to change the name of the Bonds to reflect multiple series or the year of issuance. It is the intent of this Interlocal Agreement and the parties hereto that the Issuer be vested, to the

maximum extent permitted by law, with all powers which Polk County might exercise with respect to the issuance of the Bonds and the lending of the proceeds thereof to the Borrower finance and refinance the Project in Polk County as though Polk County were issuing such Bonds as its own special limited obligation.

SECTION 2. QUALIFYING PROJECT.

(A) Each of the parties hereto represents that each portion of the Project within its jurisdiction constitutes a "project" as such term is used in Part II, Chapter 159, Florida Statutes.

(B) The Issuer hereby represents, determines and agrees as follows:

(1) The Project located within the City is appropriate to the needs and circumstances of, and make or shall make a significant contribution to the economic growth of City; provide access to healthcare facilities; provide and preserve or shall provide or preserve gainful employment; and serve or shall serve a public purpose by advancing the economic prosperity, the public health, or the general welfare of the State of Florida and its people.

(2) No financing or refinancing of the Project shall be entered into with a party that is not financially responsible and fully capable and willing to fulfill its obligations under the financing agreement, including the obligations to make payments in the amounts and at the times required, to operate, repair, and maintain at its own expense the Project, and to serve the purposes of Part II, Chapter 159, Florida Statutes and such other responsibilities as may be imposed under the financing agreement.

(3) The City has been and will be able to cope satisfactorily with the impact of the Project located in the City and has and will be able to provide, or cause to be provided when needed, the public facilities, including utilities and public services, that will be necessary for the construction, operation, repair, and maintenance of the Project located in the City and on account of any increases in population or other circumstances resulting therefrom.

(4) Adequate provision will be made in the financing agreements related to the Bonds for the operation, repair, and maintenance of the Project at the expense of the Borrower and for the payment of principal of and interest on the Bonds.

(C) Polk County hereby represents, determines and agrees as follows:

(1) The Project located within Polk County and not within the City is appropriate to the needs and circumstances of, and make or shall make a significant contribution to the economic growth of Polk County; provide access to healthcare facilities; provide or preserve or shall provide and preserve gainful employment;

and serve or shall serve a public purpose by advancing the economic prosperity, the public health, or the general welfare of the State of Florida and its people.

(2) Polk County has been able to cope satisfactorily with the impact of the Project located in Polk County and not within the City and will be able to continue to provide, or cause to be provided when needed, the public facilities, including utilities and public services, that will be necessary for the Project located in Polk County and not within the City and on account of any increases in population or other circumstances resulting therefrom.

SECTION 3. NO PECUNIARY LIABILITY OF POLK COUNTY; LIMITED OBLIGATION OF THE ISSUER. Neither the provisions, covenants or agreements contained in this Interlocal Agreement and any obligations imposed upon Polk County hereunder, nor the Bonds issued pursuant to this Interlocal Agreement, shall constitute an indebtedness or liability of Polk County. The Bonds when issued, and the interest thereon, shall be limited and special obligations of the Issuer payable solely from certain revenues and other amounts pledged thereto by the terms thereof.

SECTION 4. NO PERSONAL LIABILITY. No covenant or agreement contained in this Interlocal Agreement shall be deemed to be a covenant or agreement of any member, officer, agent or employee of Polk County or the Issuer in his or her individual capacity and no member, officer, agent or employee of Polk County or the Issuer shall be liable personally on this Interlocal Agreement or be subject to any personal liability or accountability by reason of the execution of this Interlocal Agreement.

The execution of this Interlocal Agreement by the parties hereto shall not be construed as (i) an endorsement of the creditworthiness of the Borrower or the financial viability of the Project, (ii) a recommendation to any prospective purchaser to purchase the Bonds, or (iii) an evaluation of the likelihood of the repayment of the debt service on the Bonds.

SECTION 5. ALLOCATION OF RESPONSIBILITIES. The Issuer shall take all actions it deems necessary or appropriate in connection with the issuance of the Bonds, including, in its discretion, the preparation, review, execution and filing with government agencies of certificates, opinions, agreements and other documents to be delivered at the closing of the Bonds and the establishment of any funds and accounts related to the Bonds.

Neither Polk County nor the Issuer shall be liable for the costs of issuing the Bonds or the costs incurred by either of them in connection with the preparation, review, execution or approval of this Interlocal Agreement or any documentation or opinions required to be delivered in connection therewith by Polk County, the Issuer or counsel to either. All of such costs shall be paid from the proceeds of the Bonds or from other moneys of the Borrower.

SECTION 6. INDEMNITY. The Borrower, by its approval and acknowledgment at the end of this Interlocal Agreement, agrees to indemnify and hold harmless Polk County and the Issuer, their respective officers, employees and agents, from and against any and all losses, claims, damages, liabilities or expenses, of every conceivable kind, character and nature whatsoever, including, but not limited to, losses, claims, damages, liabilities or expenses (including reasonable fees and expenses of attorneys, accountants, consultants and other experts), arising out of, resulting from, or in any way connected with this Interlocal Agreement or the issuance of the Bonds, other than any such losses, damages, liabilities or expenses, in the case of the Issuer, arising from the willful misconduct of the Issuer, and, in the case of Polk County, arising from the willful misconduct of Polk County. The indemnity provided by this Section 6 shall survive the expiration or termination of this Interlocal Agreement.

SECTION 7. TERM. This Interlocal Agreement will remain in full force and effect from the date of its execution, subject to the provisions of Section 8 hereof, until such time as it is terminated by any party hereto upon 10 days' advance written notice to the other party hereto. Notwithstanding the foregoing, it is agreed that this Interlocal Agreement may not be terminated so long as the Bonds (or any refunding obligations issued by the Issuer by Section 10 hereof), remain outstanding or unpaid. Nothing herein shall be deemed in any way to limit or restrict either party hereto from issuing its own obligations or entering into any other agreement for the financing or refinancing of any facility which either party hereto may choose to finance or refinance.

SECTION 8. FILING OF AGREEMENT. It is agreed that this Interlocal Agreement shall be filed by the Borrower or its authorized agent or representative with the Clerk of the Circuit Court of Polk County all in accordance with the Interlocal Act, and that this Interlocal Agreement shall not become effective until so filed.

SECTION 9. SMALL ISSUER ALLOCATION. The parties hereto irrevocably agree that the entire principal amount of the Bonds shall be allocable to the Issuer for purposes of Section 265(b)(3)(C)(ii) of the Code.

SECTION 10. REFUNDING OR REFINANCING. It is the intention of the parties hereto that this Interlocal Agreement cover and authorize not only the Bonds but also any obligations issued by the Issuer to refund or refinance the Bonds and any obligation thereafter issued by the Issuer to refund or refinance such obligations and so on and so forth so that no additional or similar interlocal agreement between the Issuer and Polk County shall be necessary in connection therewith. The foregoing notwithstanding, this section shall not be construed as authorization for the Issuer to issue any additional industrial revenue bonds for new or additional projects (other than the Project) on behalf of the Borrower in conjunction with or in addition to any refunding or refinancing of the Bonds without the prior approval of Polk County.

SECTION 11. SEVERABILITY OF INVALID PROVISIONS. If any one or more of the covenants, agreements or provisions herein contained shall be held contrary to any express provisions of law or contrary to the policy of express law, though not expressly prohibited or against public policy, or shall for any reason whatsoever be held invalid, then such covenants, agreements or provisions shall be null and void and shall be deemed separable from the remaining covenants, agreements or provisions and shall in no way affect the validity of any of the other provisions hereof.

SECTION 12. WAIVER OF JURY TRIAL. EACH OF THE PARTIES HERETO AND THE BORROWER HEREBY KNOWINGLY, VOLUNTARILY AND INTENTIONALLY WAIVES THE RIGHT IT MAY HAVE TO A TRIAL BY JURY IN RESPECT OF ANY LITIGATION BASED HEREON, OR ARISING OUT OF, UNDER OR IN CONNECTION WITH THIS INTERLOCAL AGREEMENT AND ANY DOCUMENT CONTEMPLATED TO BE EXECUTED IN CONJUNCTION HEREWITH, OR ANY COURSE OF CONDUCT, COURSE OF DEALING, STATEMENTS (WHETHER VERBAL OR WRITTEN) OR ACTIONS OF EITHER PARTY. THIS PROVISION IS A MATERIAL INDUCEMENT FOR EACH OF THE PARTIES TO ENTER INTO THIS INTERLOCAL AGREEMENT.

SECTION 13. LITIGATION. In the event any legal proceedings are instituted between the parties hereto concerning this Interlocal Agreement, the prevailing party in such proceedings shall be entitled to recover its costs of suit, including reasonable attorneys' fees, at both trial and appellate levels.

SECTION 14. GOVERNING LAW. This Interlocal Agreement is being delivered and is intended to be performed in the State of Florida, and shall be construed and enforced in accordance with, and the rights of the parties shall be governed by, the laws of such State.

SECTION 15. EXECUTION IN COUNTERPARTS. This Interlocal Agreement may be executed in several counterparts, each of which shall be an original and all of which shall constitute but one and the same instrument.

IN WITNESS WHEREOF, the parties to this Interlocal Agreement have caused this Interlocal Agreement to be executed by the proper officers thereof and have caused their seals to be affixed hereto and attested by the proper officers thereof, all as of the date first above written.

EXHIBIT A
DESCRIPTION OF THE PROJECT

(1) currently refunding all or a portion of the City's outstanding Hospital Revenue Refunding Bonds (Lakeland Regional Health Systems), Series 2016 (the bonds so refunded being referred to as the "Refunded Bonds") in order to refinance all or a portion of the costs of certain capital improvements to the Obligated Group's medical facilities financed or refinanced with the proceeds of the Refunded Bonds located at 3525 Lakeland Hills Boulevard, Lakeland, Florida 33805 (the "Cancer Center") and 1324 Lakeland Hills Boulevard, Lakeland, Florida 33805 (the "LRMC Campus"); (2) financing a portion of the costs (including reimbursement for prior related expenditures) relating to the conversion of the Obligated Group's hospital electronic medical record and billing system to EPIC primarily located at the LRMC Campus and the Cancer Center (with proceeds of the Bonds in an amount not to exceed $27,500,000); (3) financing all or a portion of the costs (including reimbursement for prior related expenditures) relating to the acquisition, construction, installation and equipping of certain capital improvements to the Obligated Group's healthcare facilities including (a) a new approximately 15,000 square foot freestanding emergency department located west of the intersection of U.S. Highway 17 and State Road 540, Eagle Lake (unincorporated Polk County), Florida 33839 (Parcel ID: 26-29-06-672500-005506) (anticipated to be allocated a maximum aggregate principal amount of $25,000,000 of the Bonds), (b) a new approximately 15,000 square foot freestanding medical office building located at 1409 N. Florida Avenue, Lakeland, Florida 33805 (anticipated to be allocated a maximum aggregate principal amount of $7,500,000 of the Bonds), (c) an existing approximately 17,000 square foot freestanding medical office building located at 6030 S. Florida Ave., Lakeland, Florida 33813 (anticipated to be allocated a maximum aggregate principal amount of $10,000,000 of the Bonds), (d) buildout and equipping of existing shell space of approximately 8,500 square feet for outpatient imaging services at 2400 Kathleen Rd., Lakeland, Florida 33810 (anticipated to be allocated a maximum aggregate principal amount of $10,000,000 of the Bonds), (e) a new approximately 15,000 square foot freestanding emergency department located at 6625 US Hwy 98 North, Lakeland (unincorporated Polk County), Florida 33809 (anticipated to be allocated a maximum aggregate principal amount of $24,000,000 of the Bonds), and (f) other capital improvements related to existing health care facilities located on or contiguous to the LRMC Campus (anticipated to be allocated a maximum aggregate principal amount of $30,000,000 of the Bonds) (collectively with (2) above, the "Project"); (4) funding any required reserves; and (5) paying costs of issuance associated with the Bonds.

Polk County

Board of County Commissioners

Agenda Item R.41. 6/16/2026

SUBJECT

Consider adoption of a written order denying LDCU-2025-38 (Highlands Street MH Park) without prejudice. (No fiscal impact)

DESCRIPTION

On June 2, 2026, the Board held a public hearing to consider an appeal of the Planning Commission's decision to deny LDCU-2025-38. At the conclusion of the De Novo hearing, the Board voted 5-0 to deny the proposed Planned Development application without prejudice. Pursuant to Florida Statutes section 125.022, the Board must adopt a written order specifying the reason for denial.

RECOMMENDATION

Request Board adopt the written order denying LDCU-2025-38 without prejudice.

FISCAL IMPACT

None.

BOARD OF COUNTY COMMISSIONERS
POLK COUNTY, FLORIDA

Applicant: Chad Brooker, P.E., Traditions Engineering

Property Owner: Eric Brown, Jr.

Case Number: LDCU-2025-38 (Highlands Street Mobile Home Park)

_____/

ORDER DENYING LDCU-2025-38 WITHOUT PREJUDICE

THIS MATTER came before the Polk County Board of County Commissioners ("Board") on June 2, 2026, at a public hearing held in accordance with the Polk County Land Development Code ("LDC") and the Polk County Comprehensive Plan, pursuant to a De Novo application appealing the Planning Commission's 7-0 denial of a Conditional Use Permit for Case Number LDCU-2025-38 (the "Application"). The Board fully incorporates herein the entire record for the public hearing of LDCU-2025-38, including the Planning Commission's decision, the Development Review Committee's Recommendation, and all testimony and evidence presented at the public hearing. The Board having been fully advised in the premises, makes the following findings of fact and rulings for this, its written order for LDCU-2025-38, in accordance with §125.022, Florida Statutes:

1. The Applicant, Chad Brooker of Traditions Engineering ("Applicant"), applied on behalf of the property owner, Eric Brown, Jr. ("Property Owner") for Conditional Use (CU) approval of a 19-unit Mobile Home Park (MHP) on approximately 4.93 acres within the Transit Supportive Development Area (TSDA) and Residential Low-4 (RL-4) future land use district near the city of Lakeland.

2. The Subject Property is located at 2730 West Highland Street, east of Wilkinson Road, west of Lebanon Road, south of New Tampa Highway, south and east of the City of Lakeland in Section 22, Township 28, Range 23. The Subject Property is currently developed with one single-family home. Pursuant to LDC Table 2.2, standard RL-4 districts allow up to four dwelling units per upland acre. However, the maximum density in RL within the TSDA is 7 DU/AC. The proposed density under the Application is approximately 3.85 DU/AC.

3. Table 2.1 of the LDC lists "Mobile Home Parks" as a "C3" conditional use in RL-4 land use districts. MHPs are "C3" conditional uses requiring Planning Commission approval in all residential low districts, regardless of density. Although MHPs have multiple units under one ownership, LDC section 303, Mobile Home Parks, requires 4,000 square feet of upland area per mobile home space and 500 square feet of recreation area per dwelling unit, with two parking spaces for each unit. The mobile homes within the proposed MHP would be 2,160 sq. ft. on lot areas of 5,900 sq. ft.

4. The Subject Property is currently developed with a 1,356 sq. ft. site-built home constructed in 1950. It is described as ½ of Lot 9 within the West End Farm subdivision, recorded in 1914 (PB 3 PG 32). It is located approximately 0.15 miles from the city limits of Lakeland in an area that transitions between single-family development and subdivisions (containing both site-built and mobile home units) dating to the 1950s, and the warehousing and industrial growth that has since occurred along the I-4 and US 92 corridors.

5. The Subject Property is located within the Itchepackesassa Creek strained basin, an area with a constricted stormwater outfall. A 100-year/24-hour stormwater pond will be required, and the applicant has provided for an easement on the site plan along the southern property line for County access to maintain an existing ditch system.

6. On April 1, 2026, the Planning Commission held an advertised public hearing for LDCU-2025-38. The site plan reviewed by the Planning Commission provided for the placement of 19 MH units on approximately 4.93 acres with a proposed density of 3.85 dwelling units per acre. Mr. Ian Nance of the Polk County Land Development Division presented the case to the Planning Commission and testified that the Development Review Committee (DRC) recommended approval of the Application. The Applicant provided testimony to the Planning Commission in support of the Application, including testimony that the Applicant is working with the County regarding culverts, drainage ditches and stormwater maintenance issues in the area and that the Applicant is taking every step to ensure that there is no flooding based on the proposed improvements. Three neighboring residents in the area testified in opposition to the CU Application and expressed their concerns regarding significant flooding in the area, based on their personal experience during prior storm events. The Planning Commission did not receive any written public comments supporting or opposing the Application. Following all presentations, testimony and discussion, the Planning Commission voted to deny the Application by a vote of 7-0.

7. The Applicant, Chad Brooker, P.E., timely filed an application and paid the required fee for a De Novo hearing pursuant to LDC section 921.

8. On June 2, 2026, the Board held a De Novo hearing for LDCU-2025-38. Mr. Ian Nance of the Polk County Land Development Division provided the following documents to the Board, which are part of the record[1]: (1) staff report; (2) site plan; (3) area map; (4) impact assessment statement; (5) Application; (6) de novo application; (7) proposed final order; (8) Planning Commission and BoCC PowerPoint Presentations; and (9) written comments from neighbors in opposition of the Application. The Board accepted Mr. Nance as an expert in the field of land use planning. Mr. Nance presented a PowerPoint presentation to the Board that included aerial pictures of the Subject Property, a parcel map showing the densities of the adjacent residential properties, the land use map, the site plan, and an aerial of the site plan overlaid on the Subject Property. Mr. Nance testified that the DRC recommended approval of the Application.

[1] Pursuant to Resolution 2022-090, all documents attached to the agenda item for de novo hearing shall be deemed part of the record unless removed from the record by motion of the Board. All PowerPoint presentations given to the Board during the de novo hearing shall be deemed part of the record unless removed from the record by motion of the Board.

9. The Applicant gave a presentation to the Board with an overview of the Application, the history of the project site, applicable comprehensive plan policies, and proposed resolutions to citizen objections. Specifically, the Applicant voluntarily agreed to add a condition of approval to dedicate an easement to the County for access and maintenance of the ditch system that covers the Subject Property under ownership of the Applicant to address flooding concerns in the area.

10. Following the Applicant's presentation, the Board received public comment. Three neighbors provided testimony to the Board, all related to flooding and stormwater drainage concerns. These residents shared a collective concern that approving the development would impact stormwater runoff, exacerbating flooding in the area and creating an additional burden on existing drainage facilities. the general incompatibility with the surrounding area.

11. After the residents testified, the Applicant presented rebuttal argument in response to the public comments. Specifically, Mr. Brooker noted the drainage issues in the area are not site specific to the Subject Property and will likely need to be address as a whole by the County's Roads and Drainage Division. Mr. Brooker acknowledged that numerous attempts have been made by the County and the Applicant and the prior owner of the Subject Property to resolve these drainage issues, but that participation from other area property owners is necessary for the County to receive the necessary access via easement to maintain the existing culverts and drainage ditch. Finally, Mr. Brooker reiterated that the Applicant would agree, as a condition of approval to the Application, to convey the necessary easement to the County across the Subject Property so that the County could maintain at least the portion of the existing drainage ditch encumbering the Applicant's property. At the end of the public hearing, the Board members discussed the Application and ultimately determined that the Application is inconsistent with the LDC and the County's Comprehensive Plan and incompatible with the surrounding area based on known flooding and drainage concerns that would be exacerbated by the proposed development. The Board voted 5-0 to deny LDCU-2025-38 without prejudice.

12. As further discussed below, the Application is not compatible with the surrounding land use and general character of the area surrounding the Subject Property. The Subject Property is primarily surrounded by residential uses, though an Industrial land use district is located to the northwest. South of West Highland Street and abutting the Subject Property are parcels ranging from 0.45 acres to nearly 7 acres with single-family homes. The intensity of the proposed CU will exceed that found on these abutting properties.

13. Another component of compatibility is how the proposed development interacts with the surrounding area in relation to existing uses, and how the Applicant addresses possible incompatibilities that might arise from the proposed use by utilizing mitigating strategies. The Subject Property has been identified as being within the Trailer Park Drain within an area known as the Itchepackesassa stressed basin. While the Applicant will be required to receive permits from the County and SWFWMD for the treatment of stormwater from new impervious areas and will utilize a 100-year/24-Hour stormwater design, these conditions are not sufficient to address the known flooding and drainage issues on the Subject Property and within the surrounding area. The site has an elevation of 132' at the northeast corner that gradually slopes south-southwest until reaching an existing drainage ditch (126-127 feet). According to the site plan, all proposed homes and the stormwater pond will be placed between 131 and 132 feet. The additional conditions of approval proposed by the Applicant,

namely to convey an easement to the County for maintenance of the existing drainage ditch, do not mitigate the incompatibility. Therefore, the Application is inconsistent with various Comprehensive Plan and LDC policies, including without limitation, the following:

a. The Comprehensive Plan and LDC define Compatibility as follows: "A condition in which land uses or conditions can coexist in relative proximity to each other in a stable fashion over time such that no use or condition is unduly negatively impacted directly or indirectly by another use or condition." In this case, the residents provided testimony explaining how the Application's proposed placement of 19 MH units on the Subject Property will unduly negatively affect the character of the area. The Board was also provided with, *inter alia*, maps, photographs, and aerial pictures demonstrating the flooding concerns and the single-family residence nature of the area.

b. The Application is inconsistent with Policy 2.102-A2: COMPATIBILITY, which states "[l]and shall be developed so that adjacent uses are compatible with each other, pursuant to the requirements of other Policies in this Future Land Use Element, so that one or more of the following provisions are accomplished: a. there have been provisions made which buffer incompatible uses from dissimilar uses; b. incompatible uses are made more compatible through limiting intensity and scale of the more intense use; c. uses are transitioned through gradual scaling of different land uses activities through the use of innovative techniques such as a Planned Unit Development." In this case, the Applicant is proposing to place 19 MH units on 4.93 acres in a strained basin area with constricted stormwater outfall. Such use of the Subject Property is inconsistent with the County's land development policies and regulations and incompatible with the surrounding area.

c. The Application is inconsistent with Policy 2.102-A10: LOCATION CRITERIA, and Policy 2.119-A2: LOCATION CRITERIA, which both require consideration of a list of factors when determining the appropriateness of establishing or expanding any land use or development area. Both policy sections require consideration of how the proposed development mitigates for the nearness to incompatible land uses. In this case, proposed buffering does not mitigate the Application's incompatibility with the adjacent area; therefore, the Application is inconsistent with Policy 2.102-A10 and Policy 2.119-A2.

d. The Application is inconsistent with Policy 2.119-A3: DEVELOPMENT CRITERIA, subsection b., which requires new residential development, immediately adjacent to existing residential areas, to be designed so as to minimize any potential adverse impacts. Here, the opposition presented evidence that the proposed development would adversely impact the surrounding RL-4 areas.

e. The Application is inconsistent with the LDC section 303 regarding MHPs and CUs, as well as with Table 9 and Section 907.D.6 of the LDC. Due to the location of the proposed development in a strained basin area with constricted stormwater outfall, and without the ability of either the County or the Applicant to sufficiently

mitigate these concerns due to lack of participation from nearby property owners, the development proposal is not compatible with the surrounding residential uses of property. The Board received testimony from area residents that the proposed development will have an adverse impact upon their own properties based on their personal knowledge and experience of prior storm events.

f. Given the reasons stated above, the Application also fails to meet the following: sections 906A.2., 3., and 5.; and sections 906D.12.a, b., and c.

14. Florida courts have held that it is appropriate to consider whether the proposed zoning "is consistent with the properties adjacent to the [subject] property and is consistent with the actual development of the area." *Metro. Dade County v. Blumenthal*, 675 So. 2d 598, 605 (Fla. Dist. App. 3d 1996). Citizen testimony is perfectly permissible and constitutes substantial competent evidence, so long as it fact-based. *Miami-Dade County v. Walberg*, 739 So. 2d 115 (Fla. Dist. App. 3d 1999). Here, the Board received fact-based testimony regarding the character and aesthetics of the neighborhood, as well as historical accounts of flooding and drainage problems during prior storm events. Additionally, the Board was provided with evidence depicting the general character of the area, including photographs, an aerial map overlaying the site plan on the Subject Property, and a parcel map. Maps, reports, and other information which, in conjunction with the testimony of the neighbors, if believed by the Commission, constitutes competent substantial evidence. *Walberg*, 739 So. 2d at 118.

15. The Applicant carries the initial burden of persuasiveness and of demonstrating entitlement to the development order through competent substantial evidence. *See* LDC §§ 959A. & C. In this case, the initial burden was not met.

16. Per LDC section 933, after a petition for an action for a property has been denied by final decision without prejudice, a re-application for requests without material changes on the same property may be submitted at any time.

[REMAINER OF PAGE INTENTIONALLY LEFT BLANK]

It is therefore ORDERED AND ADJUDGED as follows:

For the reasons set forth above, and in accordance with the Polk County Comprehensive Plan and the Polk County Land Development Code, the Board hereby denies LDCU-2025-38 without prejudice. Therefore, pursuant to LDC section 933, a request for a Conditional Use approval on the Subject Property may be submitted at any time.

DONE AND ORDERED in Bartow, Polk County, Florida, in regular session this **16th** day of **June, 2026**, by the Polk County Board of County Commissioners.

Polk County

Board of County Commissioners

Agenda Item R.42. 6/16/2026

SUBJECT

Consider adoption of a written order denying LDSPD-2025-2 (Old Dixie Highway SPD) without prejudice. (No fiscal impact)

DESCRIPTION

On June 2, 2026, the Board held a public hearing to consider an appeal of the Planning Commission's decision to approve LDSPD-2025-2. At the conclusion of the De Novo hearing, the Board voted 3-2 to deny the proposed Planned Development application without prejudice. Pursuant to Florida Statutes section 125.022, the Board must adopt a written order specifying the reason for denial.

RECOMMENDATION

Request Board adopt the written order denying LDSPD-2025-2 without prejudice.

FISCAL IMPACT

None.

BOARD OF COUNTY COMMISSIONERS
POLK COUNTY, FLORIDA

Applicant: Chad Brooker, P.E., Traditions Engineering

Property Owner: HB & CT, LLC

Case Number: LDSPD-2025-2 (Old Dixie Highway SPD)

_____/

ORDER DENYING LDSPD-2025-2 WITHOUT PREJUDICE

THIS MATTER came before the Polk County Board of County Commissioners ("Board") on June 2, 2026, at a public hearing held in accordance with the Polk County Land Development Code ("LDC") and the Polk County Comprehensive Plan, pursuant to a De Novo application appealing the Planning Commission's 6-1 approval of a Suburban Planned Development for Case Number LDSPD-2025-2 (the "Application"). The Board fully incorporates herein the entire record for the public hearing of LDSPD-2025-2, including the Planning Commission's decision, the Development Review Committee's Recommendation, and all testimony and evidence presented at the public hearing. The Board having been fully advised in the premises, makes the following findings of fact and rulings for this, its written order for LDSPD-2025-2, in accordance with §125.022, Florida Statutes:

1. The Applicant, Chad Brooker of Traditions Engineering ("Applicant"), applied on behalf of the property owner, HB & CT, LLC ("Property Owner") for approval of a Suburban Planned Development (SPD) to develop thirty-one (31) single-family lots on approximately 20.29 acres (approximately 15 of which are upland acres) with a Residential Suburban (RS) land use district.

2. The Subject Property is located at 1994 Old Dixie Highway, west of the Polk Parkway, east of Delon Court, west of the City of Auburndale in Section 05, Township 28, Rage 25, and is comprised of Parcel ID Numbers: 252805-000000-043010; 252805-000000-043050; and 252805-000000-043060.

3. According to Table 2.1 of the LDC, "Suburban Planned Development" is a "C3" conditional use in RS land use districts requiring a Level 3 Review. SPD's in the RS district can reach up to 3 DU/AC by meeting locational criteria benchmarks found in LDC Section 303. Of the total property, an estimated 15 acres are upland with the balance of wetlands located to the northern end of the site. With calculations based on the upland acreage, the proposed density is 2.07 DU/AC. The minimum lot size is 10,010 sq. ft. (+/- 0.23 acres), though the majority of lots will exceed this. Standard lot widths are 60 feet. Setbacks will meet RS standards (10' sides; 15' rear; 25' garage). A small portion of the site is within Residential Medium and the Transit Supportive Development Area in the I-4 Selected Area Plan (SAP), but this has no practical bearing on the requested SPD.

4. The surrounding uses are single-family homes on varying lot sizes and unit types, many of which were developed prior to the adoption of the Comprehensive Code and LDC. Though single-family uses are considered compatible with one another, disparate densities are evident. The Applicant's site plan has used open space and stormwater ponds in an attempt to mitigate the impact on neighboring properties. Additionally, landscaping will be planted along the eastern and western property lines, as well as along the frontage of Old Dixie Highway.

5. Section 204.A.3 of the LDC states, "*The purpose of the RS district is to provide areas for suburban-density residential development to promote the proper transition of land from rural to urban uses. The RS district permits single-family dwelling units, family care homes, agricultural support uses, and community facilities*." According to Comprehensive Plan Policy 2.106-A1, "*SDAs shall be those areas within the County which are, in most cases, located between municipalities, TSDA or UGA and the Rural Development Areas (RDAs). In the SDA, agricultural activities coexist alongside low density developed areas in the fringes of municipalities and other urban centers. These areas have developed predominately residential, in a suburban pattern with County-owned, municipal or County-franchised potable-water systems, but without centralized sewer facilities and very little, if any, supporting public facilities and non-residential uses. Other urban services typically found to accompany a suburban area include, but are not limited to multimodal transportation facilities, public safety, recreational and educational services*."

6. Per LDC Section 303, SPDs may contain single-family detached and duplex units at a gross density of up to, and including, three dwelling units per acre based upon a Locational Eligibility Score as determined by Tables 3.3 and 3.4 under Planned Developments. SPDs must meet conditional use criteria provided for Planned Developments within this Section. Table 3.4 SPD, Density Conversion Table of the LDC, states that 24 points can achieve a density up to 2.5 (DU/AC). According to LDC Table 2.2, Minimum lot sizes in RS are five acres. The proposed minimum lot size is 10,010 sq. ft. (+/- 0.23 acres). Standard lot widths are 60 feet. The proposed development will meet RS setback standards as follows: Minimum principal structure setbacks will be ten (10) feet from the sides and fifteen (15) feet from the rear. Minimum accessory structure setbacks will be five (5) feet from the sides and ten (10) feet at the rear. Front yard setback will be 20 feet from the right of way and 40 feet from centerline. Garage setbacks are twenty-five (25) feet.

7. On April 1, 2026, the Planning Commission held an advertised public hearing for LDSPD-2025-2. The site plan reviewed by the Planning Commission provided for the construction of thirty-one (31) single-family lots on approximately 15 upland acres, with a gross density of 2.07 dwelling units per upland acre. Ms. Aleya Inglima of the Polk County Land Development Division presented the case to the Planning Commission and testified that the Development Review Committee (DRC) recommended approval of the Application. The Applicant provided testimony to the Planning Commission in support of the Application and specifically testified that the proposed SPD served as a transition from lower density to higher density residential areas. Five (5) neighboring residents in the area testified in opposition to the SPD and expressed their concerns regarding the compatibility of denser development in the area. The Planning Commission received two emails from the public opposing the Application. Following all presentations, testimony and discussion, the Planning Commission voted to approve the Application by a vote of 6-1.

8. The Appellant, Jon Leonard of 288 Delon Court in Auburndale, timely filed an application and paid the required fee for a De Novo hearing pursuant to LDC section 921.

9. On June 2, 2026, the Board held a De Novo hearing for LDSPD-2025-2. Mr. Ian Nance of the Polk County Land Development Division provided the following documents to the Board, which are part of the record[1]: (1) staff report; (2) site plan; (3) area map; (4) impact assessment statement; (5) Application; (6) de novo application; (7) proposed final order; (8) Planning Commission and BoCC PowerPoint Presentations; and (9) written comments from neighbors in opposition of the Application. The Board accepted Mr. Nance as an expert in the field of land use planning. Mr. Nance presented a PowerPoint presentation to the Board that included aerial pictures of the Subject Property, a parcel map showing the densities of the adjacent residential properties, the land use map, the site plan, and an aerial of the site plan overlaid on the Subject Property. Mr. Nance testified that the DRC recommended approval of the Application.

10. Anthony L. Werschky on behalf of the Property Owner, HB & CT, LLC, gave a presentation to the Board with an overview of the Application, the history of the project site, applicable comprehensive plan policies, and proposed resolutions to citizen objections. Specifically, the Applicant and Property Owner testified in regard to flooding, drainage and water retention concerns that numerous steps would be taken to ensure less water would flow onto neighboring properties than occurs today. Following Mr. Werschky's presentation, the Applicant, Chad Brooker as the engineer for the project, also made a presentation to the Board.

11. Following the Applicant and Property Owner's presentations, the Appellant, Jon Leonard, gave a presentation to the Board in opposition to the Application. Mr. Leonard indicated that he was representing over forty (40) other neighboring residents in the area adjacent to the proposed development. The Appellant testified that the proposed development is not compatible with the surrounding area and creates "an enclave inside homes on much larger acreage." Mr. Leonard stated that this enclave carve-out cannot be deemed a transition area, as homes on 1.5 acres all the way up to 10 acres surround the proposed enclave of higher density development.

12. Following the Appellant's presentation, the Board received public comment. One neighbor provided testimony to the Board in opposition to the Application and noted significant flooding on his adjacent properties during prior storm events. Other neighbors testified that the proposed planned development is incompatible with the surrounding rural, residential suburban area comprised of larger lot sizes of one dwelling unit per five acres. One neighbor testified that the traffic congestion on Old Dixie Highway is already a problem due to nearby development, and that additional traffic due to the proposed SPD would increase traffic further, rendering the proposal incompatible with the surrounding rural area.

13. After the residents testified, Mr. Werschky presented rebuttal argument in response to the public comments. Specifically, Mr. Werschky noted the entire area to the east of the

[1] Pursuant to Resolution 2022-090, all documents attached to the agenda item for de novo hearing shall be deemed part of the record unless removed from the record by motion of the Board. All PowerPoint presentations given to the Board during the de novo hearing shall be deemed part of the record unless removed from the record by motion of the Board.

proposed development is Residential Medium (RM) density, which is a greater density than what is proposed by the Applicant. Mr. Werschky also noted that a traffic study would be conducted as part of the approval process to determine what the best practice would be as to traffic patterns and flows. Mr. Brooker reiterated that the Subject Property and the proposed development thereon will serve as a transition area, transitioning between higher RM density properties to the lower density lots to the west which the neighbors spoke of as being incompatible. At the end of the public hearing, the Board members discussed the Application and ultimately determined that the Application's proposed density is incompatible with the existing nature of the surrounding area. The Board voted 3-2 to deny LDSPD-2025-2 without prejudice.

14. As further discussed below, the Application is not compatible with the surrounding land use and general character of the area surrounding the Subject Property. Although single-family residential uses are often considered compatible with one another, in this proposed development disparate densities are evident. This property is in a transition area between Residential Medium land use districts surrounding the Polk Parkway and Auburndale to the east, and less-intense residential development to the west that was created prior to the adoption of the Comprehensive Plan and LDC, some before the adoption of any zoning ordinances. The proposed density of 2.07 du/ac is significantly higher than the adjacent Residential Suburban (RS) density that is located immediately to the south, southwest, west and northwest of the Subject Property, and higher still than that of the Agricultural Residential Rural (A/RR) density located due north. Pursuant to LDC Table 2.2, density in both the RS and the A/RR land use categories are 1 dwelling unit per 5 acres.

15. Comprehensive Plan POLICY 2.102-A2 states, "Land shall be developed so that adjacent uses are compatible with each other" and provides three options to ameliorate incompatibilities. The tools for accomplishing higher standards of compatibility, as outlined in the Comprehensive Plan, are (i) buffering; (ii) limiting scale and intensity; and (iii) transition using innovative techniques. The Applicant has clustered the lots south of the wetlands and has used open space and stormwater ponds to mitigate and buffer the impact on neighboring properties. However, these mitigation proposals are insufficient to overcome the SPD's incompatibility with the surrounding, lower-density residential areas.

16. Because the proposed mitigation strategies do not ameliorate the incompatibility issues present, the Application is inconsistent with various Comprehensive Plan and LDC policies, including without limitation, the following:

a. The Comprehensive Plan and LDC define Compatibility as follows: "A condition in which land uses or conditions can coexist in relative proximity to each other in a stable fashion over time such that no use or condition is unduly negatively impacted directly or indirectly by another use or condition." In this case, the residents provided testimony explaining how the Application's proposed high density will unduly negatively affect the character of the area. The Board was also provided with, *inter alia*, maps and aerial pictures demonstrating the lower-density nature of the area.

b. The Application is inconsistent with Policy 2.102-A2: COMPATIBILITY, which states "[l]and shall be developed so that adjacent uses are compatible with each other, pursuant to the requirements of other Policies in this Future Land Use Element, so that one or more of the following provisions are accomplished: a. there have been provisions made which buffer incompatible uses from dissimilar uses; b. incompatible uses are made more compatible through limiting intensity and scale of the more intense use; c. uses are transitioned through gradual scaling of different land uses activities through the use of innovative techniques such as a Planned Unit Development." In this case, the Applicant is proposing to construct 31 single-family lots on approximately 15 upland acres, which equates to a density of 2.07 du/ac, in contrast with the lesser density surrounding areas of RS and A/RR which allow 1 du per 5 acres.

c. The Application is inconsistent with Policy 2.102-A10: LOCATION CRITERIA, and Policy 2.119-A2: LOCATION CRITERIA, which both require consideration of a list of factors when determining the appropriateness of establishing or expanding any land use or development area. Both policy sections require consideration of the nearness to incompatible land uses. In this case, proposed buffering does not mitigate the Application's incompatibility with the adjacent lower-density RS and A/RR areas; therefore, the Application is inconsistent with Policy 2.102-A10 and Policy 2.119-A2.

d. The Application is inconsistent with Policy 2.119-A3: DEVELOPMENT CRITERIA, subsection b., which requires new residential development, immediately adjacent to existing residential areas, to be designed so as to minimize any potential adverse impacts due to dissimilar densities or building scale. Here, the opposition presented evidence that the dissimilar densities would adversely impact the surrounding RS and A/RR areas. Additionally, the practical development potential of the Subject Property is limited by wetlands and flood zones, access, and current unavailability of centralized wastewater within this region of Auburndale's utility service area. While a flood study and wetland delineation would be required during the Level 2 Review process, many adjacent property owners testified during the public hearing that they had personally observed significant flooding, drainage and stormwater retention issues on the site and the surrounding area. This testimony, along with other fact-based substantial competent evidence depicting the general rural nature of the area demonstrates the proposed development's inconsistency with Policy 2.119-A3.

e. The Application is inconsistent with the LDC section 303 regarding a Planned Development (PD), which includes a Suburban Planned Developments (SPD) as proposed. An PD application must address how the planned development meets intensity and timeliness standards, as well as internal and external design criteria. Subsection C provides: "The intensity and timeliness of a PD shall be determined by the surrounding infrastructure needed to support the residents within that development." Under this section, the minimum qualifications for residential density shall be based on achieving a locational eligibility score.

f. Per LDC Section 303, SPDs may contain single-family detached and duplex units at a gross density of up to, and including, three dwelling units per acre based upon a Locational Eligibility Score as determined by Tables 3.3 and 3.4 under Planned Developments. SPDs must meet conditional use criteria provided for Planned Developments within this Section. Table 3.4 SPD, Density Conversion Table of the LDC, states that 24 points can achieve a density up to 2.5 (DU/AC).

g. To reach the proposed density (2.07 DU/AC), a Locational Eligibility Score of 22 points is required by LDC Section 303. The application shows this site could attain 25 points based on location near arterial and collector roadways; availability of a potable water line; proximity to emergency medical care and schools; proximity to commercial districts, employment opportunities, and parks; and its location within an open basin with a positive outfall. However subsection C specifically dictates that "the Locational Eligibility Score is not an entitlement but rather a measure of timing only. The maximum density in Table 3.4 is **not** guaranteed" (*emphasis added*). As previously mentioned, the Application's higher density is incompatible with the nature and character of the area and fails to provide gradual changes in intensity and density. Subsection E regarding external design requires the proposed development to be compatible with and responsive to the character of the surrounding area. Specifically, "PDs shall provide for gradual changes in intensity and density when sharing property boundaries with less intense adjacent development using buffering and screening techniques; increases in peripheral lot sizes and widths; decreases in height; and other compatibility strategies as necessary to adequately protect existing or probable uses of surrounding property." In this case, insufficient mitigation exists to buffer and protect the adjacent RS and A/RR areas from the proposed higher density development. Further, "the entrances and most common vehicle routes of a proposed development shall minimize adverse impacts upon nearby development and have an adequate amount of access points to serve the number of units within the development." The proposed development will have direct access to Old Dixie Highway, which the Board received testimony from area residents that is already overburdened and congested with traffic.

h. Given the reasons stated above, the Application also fails to meet the following: sections 906A.2., 3., and 5.; and sections 906D.12.a, b., and c.

17. Florida courts have held that it is appropriate to consider whether the proposed zoning "is consistent with the properties adjacent to the [subject] property and is consistent with the actual development of the area." *Metro. Dade County v. Blumenthal*, 675 So. 2d 598, 605 (Fla. Dist. App. 3d 1996). Citizen testimony is perfectly permissible and constitutes substantial competent evidence, so long as it fact-based. *Miami-Dade County v. Walberg*, 739 So. 2d 115 (Fla. Dist. App. 3d 1999). Here, the Board received fact-based testimony regarding the character and aesthetics of the neighborhood as compared to the requested higher density of the proposed project. Additionally, the Board was provided with evidence depicting the general character of the area, including photographs, an aerial map overlaying the site plan on the Subject Property, and a parcel map. Maps, reports, and other information which, in conjunction with the testimony

of the neighbors, if believed by the Commission, constitutes competent substantial evidence. *Walberg*, 739 So. 2d at 118.

18. The Applicant carries the initial burden of persuasiveness and of demonstrating entitlement to the development order through competent substantial evidence. *See* LDC §§ 959A. & C. In this case, the initial burden was not met.

19. Per LDC section 933, after a petition for an action for a property has been denied by final decision without prejudice, a re-application for requests without material changes on the same property may be submitted at any time.

It is therefore ORDERED AND ADJUDGED as follows:

For the reasons set forth above, and in accordance with the Polk County Comprehensive Plan and the Polk County Land Development Code, the Board hereby denies LDSPD-2025-2 without prejudice. Therefore, pursuant to LDC section 933, a request for a SPD on the Subject Property may be submitted at any time.

DONE AND ORDERED in Bartow, Polk County, Florida, in regular session this **16th** day of **June, 2026**, by the Polk County Board of County Commissioners.

Polk County Board of County Commissioners

Martha Santiago, Ed. D., Chair

ATTEST: Stacy M. Butterfield, Clerk and Auditor to the Board

By: _____
Deputy Clerk

This Decision is rendered to the Clerk on _____, 2026.

By: _____
Deputy Clerk

cc: Chad Brooker, Applicant
Land Development Division Official File

Agenda Item R.43. 6/16/2026

SUBJECT

Authorize County Manager from May 1 to June 30 to adjust landfill rates annually, as necessary, to address yard waste to prepare for hurricane season.

DESCRIPTION

In preparation for hurricane seasons, the Board has previously provided direction that it desires to authorize the County Manager to adjust landfill rates to encourage residents to remove yard waste from their property in preparation for hurricane season.

RECOMMENDATION

Authorize County Manager from May 1 to June 30 to adjust landfill rates annually, as necessary, to address yard waste to prepare for hurricane season.

FISCAL IMPACT

No fiscal impact.

MEMORANDUM FOR POLK COUNTY PLANNING COMMISSION
Mr. Robert Beltran, Chair
Polk County
330 W. Church Street
Bartow, FL 33831-9005

FROM: 598 RANS/CC
29 South Blvd
Avon Park Air Force Range, FL 33825

SUBJECT: Polk County LDCPAL-2024-15 and LDCT-2024-24

1. I am sending this letter to formally share my viewpoint regarding the proposed Comprehensive Plan and Land Development Code (LDC) text amendments. The proposed Indian Lakes Estates (ILE) Comp Plan and LDC amendments do not present mission sustainment/encroachment concerns for APAFR. We would emphasize, however, increases in residential density underneath military Special Use Airspace (SUA) could result in noise complaints; will increase risk to public safety should an aviation mishap occur; and set a concerning precedence for future compatibility with APAFR.

2. APAFR is the largest USAF air-to-ground training range in the eastern U.S., providing world-class military training for DoW units from across our nation. APAFR's extensive air and ground space provide our nation's warfighters the ability to train like they fight. In consideration of APAFR's airspace, Polk County established Military Compatibility Zones (MAZ) 1 and 2. One segment of airspace, Restricted Airspace R-2901D WEST, extending from 1000 ft to 4000 ft, is located directly above ILE. Development of duplexes underneath low-altitude restricted airspace would typically be a significant encroachment concern, however inclusion into an established residential community, should not have additional negative impact to APAFR's mission.

3. Thank you for your consideration. We sincerely hope this information helps inform your evaluation of these proposed amendments. If you have any questions or want any additional information, please contact me by email at albert.chang@us.af.mil or at my duty mobile number: 813-787-8942.
