

Polk County

Legislation Text

File #: 24-1044, Version: 1

SUBJECT

Adopt Tentative Rate Resolution for the 2024-25 Street Lighting Assessments. (No fiscal impact)

DESCRIPTION

Each fiscal year the Board must adopt a resolution setting Street Lighting Assessments for the newly created and existing Street Lighting Assessment Areas. In establishing the amount of such assessments, the County Comptroller Division calculates and recommends to the Board each year appropriate assessments for the operation and maintenance of each Street Lighting District in Polk County based on projected electric and maintenance charges and administrative costs for each district. The special assessments thus levied are collected by the Polk County Tax Collector on the tax bills. The recommended assessments for all Street Lighting Assessment Areas are set out in the attached resolution.

RECOMMENDATION

Adopt the proposed resolution establishing the tentative rates for 2024-25 Street Lighting Assessments.

FISCAL IMPACT

No fiscal impact.
